For campaign literature related to United States elections during the period 1800-1948, this heading is authorized to be qualified by date and divided by names of political parties and by place, e.g. Campaign literature, 1840--Whig--Virginia. For campaign literature or works on campaign literature related to post-1948 United States elections or to elections in other countries during all periods, the heading may not be qualified by date and may be divided only by place.

Here are entered works on the practice of compensating for the carbon dioxide emissions produced by one activity or in one location, by voluntarily paying for a corresponding reduction in such emissions produced by a different activity or in a different location. Works on an internationally regulated, market-based "cap-and-trade" program designed to reduce the emission of polluting gases into the atmosphere by allowing participating polluting nations or companies to either reduce their total emissions or buy credits from less polluting nations or companies are entered under Emissions trading.
