Ecumenical movement *(May Subd Geog)*
Here are entered works on a movement for the purpose of church cooperation and unity, generally dated from the Edinburgh Missionary Conference of 1910 and leading to the formation of the World Council of Churches in 1948. Works on prospective and actual mergers within and across denominational lines are entered under Christian union. Works on unity as one of the "marks" of the church are entered under Church--Unity. Works on religious activities planned and conducted cooperatively by two or more Christian sects are entered under Interdenominational cooperation.

[ZA4480 (Information resources)]
Here are entered works on services, commonly called newsgroups and LISTSERV lists, that allow a computer user to post messages to, and read messages from, a group of people who have a common interest, usually by means of the Internet, a commercial online service, or electronic mail. Works on services that allow a computer user to post messages to, and read messages from, a group of people who have a common interest, via a dedicated telephone line established for the purpose, are entered under Computer bulletin boards. Works on services that allow a person, using a computer, to engage in an actual "conversation" with other people in real time are entered under Online chat groups.

Emissions trading *(May Subd Geog)*
[HC79.P55]
Here are entered works on an internationally regulated, market-based "cap-and-trade" program designed to reduce the emission of polluting gases into the atmosphere by allowing participating polluting nations or companies to either reduce their total emissions or buy credits from less polluting nations or companies. Works on the practice of compensating for the carbon dioxide emissions produced by one activity or in one location, by voluntarily paying for a corresponding reduction in such emissions produced by a different activity or in a different location are entered under Carbon offsetting.
