CDS Technical Notice

Name That Cemetery

LC is in the process of implementing authority record changes approved by the Executive Council of the Program for Cooperative Cataloging (PCC) based on recommendations of the PCC Task Group on Name Versus Subject Authorities. The cataloging policies regarding "Headings for Certain Entities" are being implemented effective August 1, 1996. Revised LCRIs 23.1, 23.4F2, and 24.1 as well as a new LCRI 24.7 outline the cataloging policy changes for these headings. In addition, corresponding instruction sheets from the *Subject Cataloging Manual: Subject Headings* (H 405, H 720, H 1365, and H 1592) were rewritten to reflect the new policies and will be available when the 5th edition of the manual is published in the fall.

Headings for cemeteries, city sections, concentration camps, and country clubs, which were formerly represented by either name or subject authority records, will henceforth be established only as name authority records. In addition, the tags of headings for cemeteries, concentration camps, and country clubs will change from 151 to 110, and the headings will be formulated in accordance with general rules for corporate name headings and the appropriate LCRI. Headings for events that are formally convened, directed toward a common goal, and capable of being reconvened, and that have formal names, locations, and dates that can be determined in advance will now be established as name authority records according to the provisions of chapter 24, AACR2 and LCRI 24.7 and 24.8 and will be tagged as 111. This category includes sporting events, parades, and contests that were previously established as subject authority records. Events that generally cannot be repeated and have formal names only after the fact, including natural and man-made disasters, riots, battles, reigns, and rules, will remain as subjects.

After August 1, 1996, all new headings for cemeteries, city sections, concentration camps, country clubs, and formally organized events of the type described above will be established as name authority records. Existing subject authority records for cemeteries will be distributed as deletes, then recreated and distributed as new name authority records. The deleted subject record will provide the record number of the replacement name heading and will give its form if not identical. The project to change the cemetery records encompasses approximately 700 records and will begin shortly. Headings for city sections, concentration camps, and organized events that are now established as subjects will be deleted and reestablished as name authority records as they are needed for use in current cataloging.

CORPORATE NAMES : THINGS TO REMEMBER

- **Base headings on forms found on the chief sources of body's own publications in its own language**

- **Enter directly--unless rules for subordination apply (cf. 24.13 types 1-6; 24.18 types 1-11)**

- **Qualify only when:**
  - **Heading does not convey "corporateness" (use qualifiers: Firm; Musical group, etc. LCRI24.4B)**
  - **Conflict with same or similar body (LCRI24.4C)**
  - **Certain government bodies (LCRI24.4C no.1-2)**
  - **Heading is for a church (LCRI24.10B)**

- **In cases of conflict qualify both headings (LCRI24.4C)**

- **Make distinctions between variants and changes of name (LCRI24.2)**

- **Qualifiers and all elements of hierarchy must be established**

- **Eliminate intervening bodies in formulating the heading when allowed by 24.14 or 24.19**

- **Heading and references must be justified by 670 field(s) or allowed by the rules**

- **Beware of AACR2-compatible examples**

- **Judgement plays a BIG role in formulation of corporate headings**

REFERENCES : CORPORATE NAMES
THINGS TO REMEMBER

- **Justify in 670 field unless allowed by rules**
- **All elements of hierarchy used in references must also be established**
- **References made through parent body must use established form of parent body**
- **Do not add qualifiers to acronyms in x-refs. (LCRI26.1)**
- **Supply references through jurisdictions for government headings ONLY (cf. LCRI 26.3A7)**
- **Make inverted references ONLY for government headings entered under jurisdiction (cf. LCRI 26.3A3)**
- **Use ǂw to show special relationships (earlier/later) (LCRI 26.3B-C)**
- **SEARCH all x-refs. to assure they do not conflict with ESTABLISHED HEADINGS**
- **Resolve conflicts between headings and references by qualifying reference (cf. LCRI24.4C)**
- **Remember references may conflict with each other**
- **All 5XX references are reciprocal except for "Heads of state" (cf., LCRI 26.2C; 26.3B-C)**

Conference Headings: Things to Remember

- **Omit the qualifier on the authority heading when the conference is ongoing [LCRI 24.7B]**

- **Retain the qualifier on the authority heading for "one-time" conferences (n.b. It may be necessary to change heading to delete the qualifier if evidence indicates that meeting has become ongoing)**

- **Drop out indication of periodicity [24.7A1] (e.g., Second Conference on ...)**

- **Include abbreviated year as part of heading ONLY when the heading combines an acronym or initialism with the year (e.g., TOOLS '94; NOT: Prague '99) [LCRI 24.7A]**

- **If abbreviated year is included as part of heading, qualify as a one time conference and repeat the year [LCRI24.7B]**

- **Use as location the place which appears with the name [LCRI 24.7B] (prefer to use institution's name vs local place name)**

Example:

111 2 Conference on the Future of the European Open Market $d (1993 : $c University of Heidelberg)

Location given in English in item and added in English to heading for conference NOT Universität. Heidelberg

Example:

111 2 Conferencia sobre el Mercado Abierto en el MERCOSUR $d (1993 : $c Mexico City, Mexico)

Location given in item as: México, D.F. LCRI calls for catalog-entry form of geographic, established form must be used.

- **Remember to use the specific name as the established heading and refer from the general [24.3F2]**

Example: 111 2 Conference on Corn $d (1990 :$c El Paso, Tex.)
411 2 Conference on Agriculture $n (2nd : $d 1990 : $c El Paso, Tex.)

- **Inverted references are allowed only when the heading begins with the name of the sponsor and/or when the word for conference is not the first element of the heading**

- **References are not made for subject words in conference name [LCRI26.3A3]**

- **References may include qualifiers if appropriate**

Example: 111 2 $a Tools '94 $d (1994 :$c Melbourne, Australia)
411 2 $a Technology of Object-Oriented Language and systems $d (1994 : $c Melbourne, Australia)

- **Qualifiers are not included in inverted headings [LCRI26.3A3]**

☞ ***remember the rules for normalization*** **apply all corporate headings and references too** ☜
