Here are entered works on the ancient country and kingdom of Macedonia, which later became a Roman province, as well as works on the region in the central Balkan Peninsula of somewhat indefinite boundaries, but including the Macedonia region of Greece, most of the middle Vardar Valley in the Macedonian Republic of the former Yugoslavia, and southwest Bulgaria west of the Mesta River. Works on the jurisdiction and the regions resulting from the division of Macedonia in 1912/1913 are entered under their own names.

Monologues with music
Here are entered collections of secular, or sacred and secular, musical works in which spoken language is an integral part. Individual secular works and collections for a specific medium of performance are entered under the heading followed by the medium. The medium "instrumental ensemble" stands for two or more different solo instruments; "voice" for a solo voice of high, low, or medium range; and "chorus" for men's, mixed, women's, or children's voices in two or more parts. Collections of sacred musical works in which spoken language is an integral part are entered under Sacred monologues with music.
