

## Draft: LC/PCC guidelines for MARC 21 repeatable 260 field

260 Publication, distribution, etc. (Imprint)

**First indicator** = Sequence of publishing statements

blank Not applicable/No information provided/Earliest available publisher

2 Intervening publisher

3 Current/latest publisher

Second indicator = Undefined

blank Undefined

**Subfield \$c** (date of publication, distribution, etc.): only one 260 field may have subfield \$c.

Application for multipart monographs and serials:

- Subfield \$c should appear in the 260 field with indicators ##. It may not be present in that field

(1) if description is not based on first/earliest issue or part, or

(2) if the serial cataloger optionally does not provide it following CONSER Standard Record guidelines.

Application for integrating resources:

- Subfield \$c should appear in the 260 field with indicators 3#.

→ *Alternative* for integrating resources: As long as there is only one 260 field, that 260 field may have both indicators ## and a subfield \$c. When publication, etc., information changes, the indicators in that one 260 field need to be changed to 3# or the subfield \$c needs to be moved to the new 260 field with indicators 3#.

*LC practice*: The decision to apply the alternative for integrating resources is cataloger's judgment.

**Subfield \$3** (materials specified): give information to differentiate multiple 260 fields; use angle brackets if specific beginning and/or ending information is not known.

Application for multipart monographs: volume numbering (found or assigned if creating a made-up set)

Application for serials: usually chronological designations

Application for integrating resources: numbering assigned to updates if present; otherwise, publication dates

Exception for multipart monographs and serials: subfield \$3 can be omitted in the 260 field with indicators ## if the coverage of that information is clear from the other 260 field(s) and other data in the bibliographic record.

Order of 260 fields: Give fields in chronological order from earliest to latest.

Do not repeat specific changes of publication, etc., information in a 500 field. Use a 500 field if giving a general note about changes not given in an additional 260 field(s): e.g., "Place of publication varies."

## A. MULTIPART MONOGRAPHS and SERIALS

### 1. Creating the record for a multipart monograph or serial:

- a. Give the earliest publication, etc., information in a 260 field.

260 3# \$3 beginning information for later publication information \$a  
Current place of publication, etc. : \$b Current publisher, etc.

### 3. Updating the multipart monograph or serial record because information has changed again and the new information is necessary for identification or access:

- a. Do nothing to the 260 field with indicators ##.

- b. Modify the 260 field with indicators 3# to change the first indicator to “2” and close the span of information in \$3.

- c. Add a third 260 field for the current publication, etc., information.

260 3# \$3 beginning information for later publication information \$a  
Current place of publication, etc. : \$b Current publisher, etc.

- a. Do nothing to the 260 field with indicators ## or to the 260 field with indicators 2#.

- b. Modify the 260 field with indicators 3# to change the first indicator to “2” and close the span of information in \$3.

- c. Add a fourth 260 field for the current publication, etc., information.

260 3# \$3 beginning information for later publication information \$a

\$c Beginning date of integrating resource

### 2. Updating the integrating resource record because information has changed

- a. Revise the existing 260 field to give current information in subfields \$a and \$b and add subfield \$3.

publication, etc. : \$b Earlier publisher, etc.

### 3. Updating the integrating resource record because information has changed again:

Place of publication, etc. : \$b Publisher, etc., \$c Beginning date  
of integrating resource

- b. Do nothing to the existing 260 field with indicators ##.
- c. If the intervening publication, etc., information is necessary for identification or access, give it in a new 260 field:

---

<sup>1</sup> See alternative for integrating resources on p. 1.

260 2# \$3 span for intervening publication information \$a Intervening  
place of publication, etc. : \$b Intervening publisher, etc.

4. Updating the integrating resource record another time because information has  
changed again:

a. Revise the existing 260 field with indicators 3# to give current information in  
subfields \$3, \$a, and \$b.

260 3# \$3 beginning information for this publication information \$a  
Current place of publication, etc. : \$b Current publisher, etc., \$c  
Beginning date of integrating resource

- b. Do nothing to the existing 260 field with indicators ##.
- c. Do nothing to the existing 260 field with indicators 2#.
- d. If the intervening publication, etc., information is necessary for identification  
or access, add it in a fourth 260 field:
