

Law and Legal Materials: Superseded Materials G 760

BACKGROUND: *Superseded materials are volumes or editions that have been revised, recompiled, or replaced by later dated volumes or editions. Superseded volumes are processed by the Law Library. New editions are cataloged as usual by the Law Section.*

Materials that are kept up to date by revised, recompiled, or replacement volumes are identified by a note in the bibliographic record, e.g., "Kept up to date by replacement volumes."
