Genre/form headings
Describe what a work *is* rather than what it is *about*
Genre/form v. topical headings

- Examples
  - *Saving Private Ryan*: a war film
  - *British Intelligence in the Second World War*: a book about World War II
  - *The Lady and the Tramp*: an animated film
  - *The Encyclopedia of Animated Films*: a book about animated films

  - Bibliographic records: heading coded in 650 fields

  - Bibliographic records: heading coded in 655 fields
MARC 21 coding

Topical heading

  - 150 $a War films
  - 450 $a Combat films
  - 550 $w g $a Motion pictures
  - 550 $a Anti-war films

- **Bibliographic record**

Genre/form heading

- **Authority record**
  - 155 $a War films
  - 455 $a Combat films
  - 555 $w g $a Motion pictures
  - 555 $a Anti-war films

- **Bibliographic record**
  - 655 #0 $a War films.
Why two records?

- MARBI Proposal 93-8:
  - Proposed new codes for 008/18-21 of authority records
  - Byte 18 would indicate whether an authorized topical heading (tag 150) could be used as a genre/form heading (tag 655) in bibliographic records
- MARBI indicated a preference for different variable fields in authority records, instead of fixed-field data
Why two records?

- MARBI Proposal 95-11:
  - Authority fields 155, 455, and 555 and bibliographic field 655 (Index Term—Genre/Form) proposed and approved
Current genre/form projects

- Moving images
  - Films
  - Television programs
  - Video recordings
- Radio programs
Project objectives

• To assist in retrieval by providing access points for the forms and genres of expressions, to complement headings describing subject content.
Project objectives

- To create a system of authority records that:
  - Permits future development and maintenance by LC and eventually by other libraries, patterned after the routines established for LCSH as a whole
  - Supports automatic validation of headings assigned to bibliographic records
Project objectives

• To determine the issues that will arise in the creation and use of such thesauri, in order to determine whether to expand the project beyond moving images, recorded sound, and musical compositions.
Rationale for project order

- First project: Moving images
  - LC’s Moving Image, Broadcasting, and Recorded Sound Division (MBRS) approached CPSO in 2005
  - Requested that the *Moving Image Genre/Form Guide (MIGFG)* be included in LCSH
  - The moving image genre/form terms constitute a small, defined subgroup in LCSH
  - This small project helped us identify and solve problems that we will encounter with larger projects
Rationale for project order

• Second project: Radio programs
  – Conversion of MBRS’ *Radio Form-Genre Guide* (*RADFG*)
  – Another small project
  – Helped us identify issues that arose as the new discipline was added to the thesaurus
Project statistics to date

- Moving image project: ~ 380 headings
- Radio program project: ~ 60 headings
Policies
Policy decisions: Headings

“That’s not a genre!”
- Film scholars v. general public’s definition
- Headings based on literary usage and warrant
- What would a library user look for?
Policy decisions: Headings

- Available in two *Subject Cataloging Manual (SCM)* instruction sheets
  - H 1913, Moving image genre/form headings
  - H 1969.5, Radio program genre/form headings
Policy decisions: Headings

• One heading is used for all manifestations of a motion picture work
  – Intent is to catalog the expression, not the manifestation (i.e., catalog the intellectual or artistic expression of a work, not its physical embodiment (VHS, DVD, electronic, etc.))
  – Allows collocation of all manifestations within and across catalogs
Policy decisions: Headings

• Definition of terms
  – **Film**: work that is originally recorded and released on motion picture film, on video, or digitally
  – **Television program**: work that has been or is meant to be telecast
  – **Radio program**: work that has been or is meant to be broadcast over radio waves
Policy decisions: Headings

• Exceptions: Video recordings for the hearing impaired and Video recordings for people with visual disabilities
  – Libraries requested the headings
  – May be used instead of, or in addition to:
    • Films for the hearing impaired
    • Films for people with visual disabilities
    • Television programs for the hearing impaired
    • Television programs for people with visual disabilities
Policy decisions: Headings

- Prefer to use same heading string for the genre/form heading and the topical heading wherever possible
  
  155 Horror films
  150 Horror films

- Allows for “one stop searching”
Policy decisions: Headings

- Not always possible to use the same string

Cinéma vérité films [genre/form]
Cinéma vérité [topical]

Television news programs [genre/form]
Television broadcasting of news [topical]
Policy decisions: Headings

- If identical topical and genre/form heading strings exist, then
  - The scope is the same
    - [Caveat: the genre/form heading describes what a work is, while the subject heading describes what a work is about]
  - The reference structure is often identical
Policy decisions: Headings

- Genre/form headings without a corresponding topical heading exist

  Computer animation television programs
  Filmed boxing matches
  Radio airchecks
Policy decisions: Headings

- Topical headings without a corresponding genre/form heading exist
  - The topical heading may be new
    - If needed for a genre/form heading it may be proposed
  - The topical heading may not be appropriate for use as a genre/form heading
    - Conscious decision
Policy decisions: Headings

- A scope note is added to topical headings that are not appropriate as genre/form headings

150 Cult films

680 This heading is not used for individual cult films. Individual cult films are entered under headings appropriate to the content, genre, and/or form of the film.
Policy decisions: Headings

Recordings of events v. cinematic works

- Recordings or broadcasts of events (e.g., musicals, concerts) considered nonfiction
- Cinematic works considered fiction
- Format of headings:
  
  Filmed operas [recording]
  Opera films [cinematic]
  Televised football games [recording]
  Football television programs [cinematic]
Policy decisions: Headings

Recordings of events v. cinematic works

Singin’ in the rain
[the 1952 cinematic version]
655 #0 $a Musical films.
655 #0 $a Fiction films.

Singin’ in the rain
[recording of a Broadway performance]
655 #0 $a Filmed musicals.
655 #0 $a Nonfiction films.
Policy decisions: References

- References are made according to the general principles in SCM H 370
  - **UF** references for variant terminology and/or different forms of heading
  - **BT** references for explicit class/class member relationships
  - **RT** references for terms with meanings that overlap or are used interchangeably
Policy decisions: References

- “Broaderest term” references for each format
  - Motion pictures, Television programs, Video recordings, Radio programs
  - May be applied to collections that are composed of multiple genres and/or forms to which more specific headings cannot be applied
  - Provided chiefly for hierarchy
Policy decisions: Scope notes

- Format of scope notes is different from that for other headings
  - Allows for clarity in ILS displays
  - Provides subdivision information for end users and catalogers
Policy decisions: Scope notes

- Scope note examples: the genre/form heading must be defined

  155 Western television programs
  680 This heading is used as a genre/form heading for television programs that feature the American West during the period of westward expansion.
Policy decisions: Scope notes

- Scope note examples: the topical heading needs to be defined
  
  150 Western television programs
  
  680 This heading is used as a topical heading for works about television programs that feature the American West during the period of westward expansion. When used as a topical heading it is subdivided by the appropriate geographic, topical, and/or form subdivisions.
Policy decisions: Scope notes

- Scope note examples: the heading does not need to be defined

150 Mummy films
680 When subdivided by the appropriate geographic, topical, and/or form subdivisions, this heading is used for works about mummy films.
Policy decisions: Scope notes

- Scope note examples: the topical heading cannot be used as a genre/form heading
  150  Color motion pictures
  680  This heading is not used for individual films, which are entered under headings appropriate to the content, genre, and/or form of the film.
Policy decisions: Language

- Language is *not* provided for within the genre/form headings
  - Provided elsewhere in the description fields of the bibliographic record
  - Topical headings in the form Motion pictures, [nationality] (e.g., Motion pictures, French) do not denote the language of a film
Policy question: Subdivision

- Genre/form headings are not subdivided
  - topically, geographically, chronologically, or by form
  - MARC 21 format permits it
  - LC has not implemented the subfields
Policy question: Subdivision

- Geographic subdivision debate
  - Arguments *against* geographic subdivision of moving image genre/form headings
    - Geography is not part of the genre or form
    - Could have many meanings and could be misinterpreted
    - Country of production is available in other parts of the record
Policy question: Subdivision

- Geographic subdivision debate
  - Arguments for geographic subdivision of moving image genre/form headings
    - Not possible to effectively limit a search using fixed field coding
    - Place of production (260 field) may be country of manufacture, not production of film
    - MARC 257 field not available for non-archival use
    - Patrons find it useful
