## 21.3B. CHANGES OF PERSONS OR BODIES RESPONSIBLE FOR A WORK. SERIALS AND INTEGRATING RESOURCES.

### Remote Access Electronic Resources

*Original URI (Uniform Resource Identifier) is still active but the original resource is no longer available.* If the resource located at the URI represents a completely different resource from that described in the bibliographic record (i.e., for an integrating resource, not just a subsequent iteration of that resource), make a new entry for the new resource now at the original URI. *LC practice:* See LCRI 9.7B for guidelines about updating the bibliographic record for the original resource.

### Serials

*LC/PCC practice:* Listed below are other conditions for making a new entry for a serial.

1) The title of a serial used as the uniform title heading on an entry for a translation changes.

```
130 0# $a Inzhenernyĭ zhurnal. Mekhanika tverdogo tela.
    $l English.
```

```
245 10 $a Mechanics of solids.
```

```
130 0# $a Izvestiia. Mekhanika tverdogo tela. $l English.
```

```
245 10 $a Mechanics of solids.
```

2) The physical medium in which the serial is issued changes as expressed in the specific material designation in the physical description area (not a reproduction or the same serial in another manifestation, e.g., a braille edition). Such a change could be from paper to microfiche, from paper to online, etc.<sup>1</sup>

```
245 00 $a New Zealand national bibliography.
```

*(Issued only in paper copy through Nov. 1983)*

```
130 0# $a New Zealand national bibliography (Microfiche)
```

```
245 00 $a New Zealand national bibliography.
```

*(Issued Dec. 1983- only in microfiche; not a microfiche edition of paper copy issues)*

---

<sup>1</sup>For an electronic resource, also make a new record if the change is from CD-ROM to DVD-ROM.

## 21.3B

---

130 0# \$a Serials directory (Birmingham, Ala.)

245 04 \$a The serials directory.

*(Continued by CD-ROM edition)*

130 0# \$a Serials directory (Birmingham, Ala. : CD-ROM ed.)

245 04 \$a The serials directory \$h [electronic resource].

3) The edition statement changes (see rule 12.1F1) and the change indicates a change in subject matter or a change in physical medium.

### Integrating Resources

*LC/PCC practice:*

*Updating loose-leafs.* If the edition statement changes and/or if the publisher issues a new base volume or volumes, apply the following guidelines:

1) Do not make a new entry for a gradual replacement edition (i.e., the author or publisher considers the publication to be a new edition and issues a replacement title page with a new edition statement but does not issue a new base volume); update the information in the edition area and give a note about the change in the edition statement (see LCRI 12.7B9.2).

2) Generally, do not consider the following to be a new resource: a new base volume with pages having various dates in the header/footer, etc., or having other indications that the same or a different publisher has just reissued the content of an existing resource as of its latest iteration. If the resource is not yet represented in the catalog, include a "Description based on" note to clarify that the iteration being cataloged is not the first iteration of a new resource. If the edition statement changed, give a note about the new edition statement (see rule 12.7B9.2).

3) Generally, consider the following to be a new resource: a new base volume having a new date in the header/footer, etc., that is consistent throughout the base volume. If both resources lack edition statements and the main entry/title proper of the two resources are the same, in the new record supply in brackets an edition statement (e.g., using the year of publication, distribution, etc.: "[2003 ed.]") (see rule 1.2B4).

4) Generally, consider the following to be a new resource: a new base volume having pages with no revision dates but the pages in the original base volume had revision dates.

5) In case of doubt, make a new record.

*Updating remote access electronic resources:* If the edition statement changes (rule 12.1F1), make a new entry only if the resource described in the existing record continues to exist as a resource separate from the new resource to be cataloged
