

DOC. 1: Topics for BIBCO OpCo Meeting: May 1-2, 2003

LCRIs

A. Inclusion of PCC practice related to implementation of AACR2 Revision 2002?

- #1. 1.0. Entire LCRI is LC practice.
 - a) At least one section [“(7) Certain other printed resources” under “Situations requiring further consideration”] should remain only “LC practice” because the decisions there in part reflect local LC policy requests from custodial and reference divisions.
 - b) CPSO will be asking for guidance for changing the last paragraph under “Type of issuance.” Should the default decision there be changed to catalog as an integrating resource? (Same topic will be considered when discussing the draft of IR module.)
 - c) Discussion will resume at LC in early April about actions to be taken when the issuance changes [section “Change in type of issuance”]. Once a draft table is ready, it will be distributed for comment.
 - d) Note that LCRI 12.0A’s statement to see LCRI 1.0 is labelled “LC/PCC practice.”

- #2. 1.7B23: last paragraph under “Multipart items”
- #3. 12.0: various sections under “Loose-leaf services”

B. Determination of PCC practice/agreement for LCRIs currently being revised?

- #1. 1.6: draft adds section for single series statement encompassing more than one series
- #2. 21.2A: draft applies major/minor categories also to SARs for series-like phrases
- #3. 21.3B: draft revises information about creating new record for an updating loose-leaf
- #4. 21.30L: draft adds section for multiple access points for a single series statement encompassing more than one series
- #5. 25.5B: draft adds section on numbering grammatically integrated with series title proper

C. Inclusion of PCC practice for other LCRIs?

- #1. 1.4F1: section “Later publication dates”
- #2. 1.4F2: section “Later copyright dates”
- #3. 1.6G: section “More than one system of numbering”
- #4. 1.6G3
- #5. 1.6H7
- #6. 21.2B2
- #7. 21.3A2
- #8. Others?
