We have been told by sick females that had used them that they were worth $100 a bottle—and yet they only cost 75 cents.

☞ **FOR CATARRH.**—THE PROPRIETORS OF the Tolu Anodyne, wishing to confine its great qualities only to such complaints as start from, or are connected with the nervous system, and to avoid the too common means to introduce proprietary medicines, that of making them cures for every nameable complaint, would hardly have dared to recommend for this most painful of all complaints, Catarrh. But cases of such decided character have experienced such important cures, that we now, with confidence, recommend it to all. It may be used with the Universal Cough Remedy, the one to cure the Cough or Stuffness so common to Catarrhal Complaints, and the other to completely relieve the pains in head or nasal organs, which always accompany or follow the attacks. We would caution all, as they value the chance of a cure, to be cautious and purchase HUNNEWELL'S preparations of such as they can rely on. Sold by all respectable dealers. See advertisement. 122 dlwlm

☞ **THE ATTENTION AND RESEARCH OF** the most distinguished Chemists and Physicians for years have been devoted to the production of a remedy for those most distressing maladies NEURALGIA and Rheumatism. After long study and many experiments a *specific preparation* has been discovered. WATSON'S Neuralgia King, or INTERNAL REMEDY, is curing thousands of cases where all other remedies have utterly failed. We are assured it is no mere "ANODYNE," relieving for the moment, but is a perfect SPECIFIC and CURE for those painful diseases. The vast number of Liniments, Embrocations and External medicines, which act as stimulants of the surface only, are merely temporary in their effects and of doubtful virtue. The NEURALGIA KING reaches the source of all trouble, and effectually banishes the disease from the system. We advise one and all to give it a trial and become satisfied of its wonderful power.

☞ **A CARD TO THE PUBLIC.**—THOUSANDS are died and thousands more are dying from consumption, while others are suffering all the horrors of dyspepsia, while by using Dr. J. BOVEE DOD'S IMPERIAL WINE BITTERS, they would surely be benefitted if not cured. The general prejudice against patent medicines should not extend to these valuable Bitters, as the ingredients are published and no intelligent physician can o will disapprove of them. They are made by a successfu physician and skillful chemist, and are used by the first physicians in all parts of the Union. For consumption, dyspepsia, indigestion, debility, nervousness, and as a medicine for females they have proved to be an undoubted success. Mrs. Wesner of Albany, N. Y., and Mrs. Armour of Georgia, have been cured of consumption. Dr Meacham of Florida, cured of chronic dyspepsia. Mr. McGraw of Brooklyn, cured of paralysis. From the Oil Regions.

YOUNGSTOWN, Feb. 20th,
Mansion House.

DEAR GRAY:—I spent the forenoon to-day in examining the wells in this vicinity. The first well that was sunk here is opposite this village on the other side of the Mahoning river. It is called Pioneer Well No. 1. The members of the Company all live in Youngstown. They were induced to bore for oil on account of the success which had attended similar experiments further down the river. Operations were commenced in October last. The locality is near the river at the base of a high hill. After sinking a pipe through 28 feet of soil they reached the rock. They drilled 185 feet through the rock reaching a good flow of oil a week or two ago. They are now waiting for the arrival of an engine with which to commence operations. I will describe to you the mode of operating at these wells. The first proceeding is to erect a derrick about thirty feet high over the spot selected. Sections of pipe about ten feet long and seven inches in diameter, the shell being one inch in thickness, are driven down with a machine resembling a pile driver, until the rock is reached. The sand and water is then exhausted in the pipe by means of a sand pump, which is a cylinder three feet long, open at the top, with a valve at the bottom which opens as the pump is lowered down in the tube, and closes as it is drawn up. When the pipe is cleared sufficiently the drilling rods are introduced and the work of drilling through the rock, which is a slow and tedious operation, proceeds. When a sufficient depth is reached for a good flow the oil is pumped up by steam engines.

The oil obtained from the Pioneer well is used for lubricating purposes by several manufacturing companies in this place, who pronounce it, in that respect, superior to the Mecca oil. For the benefit of oil men I will state that its gravity is 33, Beaumi. Mecca oil is 31, while oil in the lower part of the valley stands at 45. The Youngstown oil has been experimented with at HIMROD & Co.'s Blast Furnace, as a lubricator with entire success. A "journal," which caused them much difficulty when lard oil was employed, has performed with perfect satisfaction since oil from the Pioneer well was substituted. This oil brings 50 cents a gallon.

Another company, called the Mahoning Company, are sinking pipe on this side of the river, nearly opposite the Pioneer well. They have reached the depth of about twenty feet and have not yet struck the rock. Besides the above there are several firms preparing to sink wells in this neighborhood. Among them MIX & Co. of Cleveland, who have leased land adjacent to the HIMROD Furnace, who will soon commence drilling.

The stratta of bituminous rock from which oil is procured dips at the rate of about twelve feet to the mile, going South. While at Mecca this rock is reached at the depth of 45 or 50 feet, at the mouth of the Mahoning river it is necessary to drill down 334 feet. Mecca oil is a darkish pink, and as you go down the Mahoning valley the oil is found to be of a lighter color. The Economist refiners say the oil from the lower part of this valley refines well when mixed with Pennsylvania oil. Other refiners consider filtering all that is necessary with the lower oil.

EDWARDS & IDDINGS are boring for oil near Mahoningtown. Prof NEWBURY has leased an extensive tract of oil land at Edenburgh, and some near Lowel, 8 miles below here. MIX, STERLING & Co., have commenced operating at Newport, 5 miles below. They have five acres on each side of the river, and are preparing to open a hole. Judge BARR, and Messrs. CARPENTER, WASSON, FRENCH and others from Cleveland are here negotiating for land in this vicinity. I am reliably informed that land in this valley considered oil territory, which six months ago could be bought for from $30 to $60 per acre, is now held at from $100 to $300 per acre. I know persons who have leased desirable land at Lowell for ¼ of the oil delivered in barrels to land holders, and $50 bonus per acre.

There are numerous parties from New York Boston, Philadelphia, Pittsburgh, Cincinnati, Buffalo and Cleveland buying and leasing property down the valley, anticipating rich discoveries in oil. There are 150 oil wells in various stages of progress from this place to the junction of the Mahoning and Shenango rivers, forming the beaver, a distance of 18 miles, and most of them have a good show of oil. The hills on each side of this valley abound richly in coal, iron ore and limestone, and with the oil wells the Mahoning Valley is a wealthy kingdom in itself.

In my next letter I will tell you about the wells down the Valley, which I have visited, and which are in active operation.

Yours, A. M. G.

P. S.—I recommend all who come to Youngstown to stop at the Mansion House, kept by JOHN SQUIRE. The accommodations are first rate. G.

The Zouave Light Guards.

This enterprising company will appear in full feather to-morrow night at the Johnson House Assembly Rooms, and with "fair women and brave men" in reel and waltz, to commemorate the birth of our great WASHINGTON. It will be their third Annual Ball and we hope a company so full of pluck and scarred by many a well fought battle will be greeted by a full and fashionable house. This company will be out in their new and beautiful Zouave uniform for parade to-morrow afternoon, when they will make a dashing debut in our streets. Hoorah for the new dressed Zouaves.

Lads of Promise.

We have a very well written article from the promising pen of ARTHUR C. MCKNIGHT, written in the High School, committed to memory and spoken in school by this young lad, in his seventeenth year. It would do credit to older heads, and we highly commend the youth, who has the courage to thus try his powers and exercise his mental faculties, for the very exercise will develope the man in these nobly ambitious youths, who will yet make their marks in society. The length of the piece, and the thorough discussion the subject has already had (state of the country) is our excuse for not publishing it, while our columns are so crowded with news. The same remarks will also apply to "A Schoolboy's Composition" on the same subject, by J. B. MANNING.

Home Talent.

The Cleveland Musical Society, at the Melodeon, it will be remembered give an entertainment on Monday night.

☞ THOMAS CANAN, who caused the death of a brother fireman recently at Detroit, by kicking him while in a state of intoxication, has been sentenced to the State Prison for 14 years.

Madame Varian.

There is little need of a reminder, that tonight comes off the complimentary benefit given to this brilliant lady by the citizens of Cleveland, at least to those who have heard her. Her rapidly rising popularity is based on merit alone. She is sowing the seed from which she may return some weeks hence and reap a full rich harvest. She deserves, and we believe she will get to-night one of the houses of the season.

The following is to night's programme:

4. Solo Piano,—L'Eclaire, Nocturne,....Ascher
MR. ED. HOFFMAN.
5. Scena ed Aria,—"L'Attila,".....Verdi
M'ME. CHARLOTTE VARIAN.

The whole to conclude with the "Star Spangled Banner!" by Mad'me VARIAN.

The Academy of Music.

Theater going stock suddenly fell some six years ago in this city with the fall of the "Atheneum," "Varieties" and "Amphitheater." Several earnest attempts have since been made to revive its popularity but without success as yet. Mr. PECK, the present Lessee again offers Cleveland an opportunity to revive this amusement. BERNARD is already a favorite here, and RALTON certainly will be when known better. He is a fine player. MACKEY CARSON and Mrs. NICHOLS are good players. The whole company sustain their parts far better than the house sustains the company. However we are glad to know they are more than paying expenses, which has not always been the case. A Star lady actor arrived yesterday who will soon make her mark on the Cleveland audience.

The "Woman in White" which is in rehearsal was written by LIONEL BERNARD, and for the right to play it in one New York Theater exclusively he has been offered $5,600. It will be brought out here as soon as Saturday night certainly. Watch for it and in the mean time see the company play other pieces.

MARRIED:

On the 20th, at Grace Church, by the Rector, Rev. W. A. Fisk, R. B. DOUGLAS and HATTIE B. FIELD all of this city.

Hurrah for DOUGLAS! With a FAIR FIELD the Union is safe. The election and inauguration being over, the *Press*, as it should be, was remembered in the distribution of the *spoils*.—We can be considered as the organ of the new Union, but recommend peaceful measures, oppose coercion and denounce secession; and may the Constitution unimpaired be transmitted to posterity. SCOTT undoubtedly alluded to these when he prophetically sung:

Long fought they for the maiden's hand.
With piercing spear and flashing brand—
Neither would craven yield—
Until at last a stalwart knight
Rode victor through the hard-fought fight—
Stout DOUGLAS won the FIELD.

☞ A New York Reporter who has been looking in the jewelry shops and noting their precise stocks, mentions a set of diamonds consisting of a necklace, bracelet, broach and earrings, value twenty-five thousand dolars. The necklace is composed of forty-three brilliant gems of the first water, forming a circlet from the centre are appended seven pearl shaped diamond pendants, of rare form and value. The cost of the necklace alone is sixteen thousand dollars.

Some of our Cleveland ladies will probably send right down for it. If we should look rather earnestly at the ladies for the next few days they will understand we are looking for these little trifles and excuse us.

☞ **AGAIN WE SAY**—Use DeLand & Co's Saleratus if you have any regard for the health of yourself or family throw to the dogs the miserable, impure stuff which has so long exercised your patience, and made your bread, pastry, &c., disgusting to look at or to taste. DeLand & Co's Chemical Saleratus is perfectly pure, and will produce the most satisfactory results when used in preparing food. It is sold by most grocers and storekeepers Manufactured at Fairport, Monroe Co., New York.

FOREIGN ARRIVAL

RICHMOND, Va., Feb. 20.—A large number of resolutions on Federal Relations were offered in the Convention to-day. They generally express attachment to the Union, and desire an equitable adjustment, but denounce coercion and declare a purpose to resist. Others declare the Union of the South the safety of the South, and each should speedily resume the powers delegated to the Government.

The resolutions were tabled, for raising a Committee of Inquiry, whether any movement of arms or men has been made by the General Government to any fort or arsenal bordering on Virginia, indicating preparations for attack or coercion.

A resolution for a Convention of the Border States at Wytheville the last Thursday in March, was referred.

A resolution calling on the Commissioners of the Peace Conference for information whether any settlement acceptable to Virginia is likely, was tabled.

Clemens' speech denied the statement that he had franked incendiary matter to free negroes and others in Virginia, and pronounced the franks forgeries.

The Committee reported that all but 16 counties were heard from. The majority for reference to the people is 52,837.

Crittenden will soon be invited to address the people here on national questions, by a large number of prominent men.

A resolution was offered in the Convention, that any attempt at coercion of the seceded States be forcibly resisted by Virginia, and referred.

A similar resolution was offered in the Senate and ordered to be printed.

The Michigan resolutions were sent back without comment.

NEW YORK, Feb. 20.—Lincoln will be serenaded at midnight at the Astor House.

NEWARK, Feb. 20.—Villainous posters were displayed to-day, calling on workmen to attend at the depot on Lincoln's arrival to demonstrate their differences with him. The Republicans have resolved to turn out in cavalcade to escort him through the city.

TRENTON, N. J., Feb. 20.—The arrangements for the reception of the President elect are completed. Fifty additional police officers have been appointed to preserve order. Mr. Lincoln and suite are expected to arrive about noon with the State Committee. They will be received at the depot by the Mayor and city authorities. Subsequently they will be conducted to the State House in carriages. Mr. Lincoln will be introduced to the Senate and then to the House. He will afterward take Dinner at the Tremont House.

NEW YORK, Feb. 21.—The steamer *Kangaroo* arrived this morning with Liverpool dates, via Queenstown, of the 7th, one day later than the advices by the *Fulton*.

News unimportant.

Both Houses of Parliament voted addresses responsive to the Queen's speech.

An amendment in the Commons, calling on the Government for a retorm bill, was rejected.

The Paris *Moniteur* confirms the statement of the cession to France of Montour and Roquebune.

The *Jura* took out the Inauguration of Parliament and the Queen's speech.

In the House of Lords Earl Sefton moved an address in response to the speech.

Derby said the address needed no amendment. Notwithstanding sundry omisions in the speech, he regarded reference to the United States as the most important topic, and said every one views with deep regret the events in that country on which the manufacturing interests of England so greatly depend.

He condemned the course of Sardinia in Italy, and expressed dissatisfaction with Napoleon's speech.

Granville responded, lamenting the disruption in America, but felt confident that the result to England would not be so serious, as the resources of India for cotton will be at once brought into play.

The address was agreed to.

In Commons Mr. White moved an amendment to the address declaring it the duty of the Government to introduce reform measures.

D'Israeli thought there was not much encouragement for the Government to do this, and Lord Jno. Russell said there was not sufficient popular feeling to carry a satisfactory measures. He was sick of introducing abortive bills. He defended the foreign policy of the Government and the course of Sardinia.

Bright condemned the apathy of the Government relative to reform

The amendment was rejected and the address voted.

American affairs were deplored during the debate in the Commons.

A fire at Blenheim Palace, seat of the Duke of Marlborough did damage to the amount of £100,000. Many valuable pictures were burned but the Palace was not much injured.

It is said the conference on Syria will assemble at Paris forthwith. The principle is agreed upon by all powers, including Turkey.
