

# Defense Technical Information Center

8725 John J. Kingman Road, Suite 0944  
Ft. Belvoir, VA 22060-6218

## SCIENTIFIC AND TECHNICAL INFORMATION NETWORK (STINET®)

The Defense Technical Information Center (DTIC®) is *the* premier provider of Department of Defense (DoD) technical information. DTIC's Scientific and Technical Information Network (STINET) is one of DoD's largest repositories of scientific, research, and engineering information currently available.

**PUBLIC STINET:** <http://stinet.dtic.mil> (Does not require DTIC registration)

- *Free* of charge and available to the general public
- Extensive unclassified, unlimited full-text documents available for downloading
- Search citations to unclassified, unlimited distribution documents
- Public release bibliographic citations to reports describing the progress of results of research efforts and other scientific and technical information held by DTIC
- Citations to full-text documents in Adobe PDF along with a "handle," a feature that allows access to the document even if moved to another location
- Staff College Automated Military Periodical Index (SCAMPI)
- Research and Development Descriptive Summaries (RDDS)

**PRIVATE STINET:** (Requires DTIC registration <http://www.dtic.mil/dtic/registration>)

- A *free* product available to DTIC registered users
- All the features of Public STINET
- *Free* online limited distribution documents as well as all unclassified, limited documents in DTIC's Technical Reports (TR) collection
- Ability to purchase technical reports in hard copy from DTIC
- Access to DTIC's Research Summaries (RS) collection both active and inactive
- *Free* access to Canada Institute for Scientific and Technical Information (CISTI) database and the British Library Document Supply Centre database
- ProQuest Research Library Complete
- Independent Research & Development (IR&D) database

**CLASSIFIED STINET:** (Requires DTIC registration <http://www.dtic.mil/dtic/registration>)

- Available on the official U.S. Only Secret Network – Secret Internet Protocol Router Network (SIPRNET)
- *Free* access to individuals granted a SIPRNET account
- Access to DTIC's unclassified, unlimited distribution technical reports
