

FLICC Orientations to Federal Libraries and Information Centers
National Library of Medicine,
National Institutes of Health

Photo: Carol Higginbotham

As part of a series of orientations to libraries and information centers, FLICC is offering an opportunity for federal librarians to become acquainted with the National Library of Medicine (NLM) at the National Institutes of Health (NIH). Peer into the past, present, and future of medicine at the world's largest medical library. Founded in 1836, NLM has high-tech wonders like virtual cadavers and vast databases that exist side by side with a rich historical collection. The program will include:

- Welcome, introduction and building tour
- Tour of "Changing the Face of Medicine," exhibition on America's women physicians
- NLM databases and customer service
- The Visible Human Project, showcasing male and female cyber cadavers

Date

Friday, January 28, 2005

Time

9:30 a.m. — 12:30 p.m.

Place

NIH Building 38A, The Lister Hill Center, Center Drive, near Rockville Pike
Bethesda, MD—NLM Visitor Center, first floor.
