For the purposes of this subsection, the value of the mortgage shall be determined, in accordance with rules and regulations prescribed by the Administrator, by adding to the amount of the original principal obligation of the mortgage which was unpaid on the date of the institution of foreclosure proceedings, or on the date of the acquisition of the property after default other than by foreclosure, the amount of all payments which have been made by the mortgagee for taxes, special assessments, water rates, which are liens prior to the mortgage, insurance on the property mortgaged, and any mortgage insurance premiums paid after either of such dates, and by deducting from such total amount any amount received on account of the mortgage after either of such dates, and any amount received as rent or other income from the property, less reasonable expenses incurred in handling the property, after either of such dates: *Provided*, That with respect to mortgages which are accepted for insurance prior to July 1, 1939, under section 203 (b) (2) (B) of this Act, and which are foreclosed before there shall have been paid on account of the principal obligation of the mortgage a sum equal to 10 per centum of the appraised value of the property as of the date the mortgage was accepted for insurance, there may be included in the debentures issued by the Administrator, on account of foreclosure costs actually paid by the mortgagee and approved by the Administrator an amount not in excess of 2 per centum of the unpaid principal of the mortgage as of the date of the institution of foreclosure proceedings, but in no event in excess of \$75.

“(b) The Administrator may at any time, under such terms and conditions as he may prescribe, consent to the release of the mortgagor from his liability under the mortgage or the credit instrument secured thereby, or consent to the release of parts of the mortgaged property from the lien of the mortgage.

“(c) Debentures issued under this section shall be in such form and denominations in multiples of \$50, shall be subject to such terms and conditions, and shall include such provisions for redemption, if any, as may be prescribed by the Administrator with the approval of the Secretary of the Treasury, and may be in coupon or registered form. Each such certificate of claim shall provide that there shall accrue to the holder of such certificate with respect to the face amount of such certificate, an increment at the rate of 3 per centum per annum which shall not be compounded. "(c) The Administrator shall terminate the insurance as to any group of mortgages (1) when he shall determine that the amounts to be distributed as hereinafter set forth to each mortgagee under an outstanding mortgage assigned to such group are sufficient to pay off the unpaid principal of each such mortgage, or (2) when all the outstanding mortgages in any group have been paid. Upon such termination the Administrator shall charge to the group account the estimated losses arising from transactions relating to that group, shall transfer to the general reinsurance account an amount equal to 10 per centum of the total premium charges theretofore credited to such group account, and shall distribute to the mortgagees for the benefit and account of the mortgagors of the mortgages assigned to such group the balance remaining in such group account. Any such distribution to mortgagees shall be made equitably and in accordance with sound actuarial and accounting practice.

"(d) No mortgagor or mortgagee of any mortgage insured under section 203 shall have any vested right in a credit balance in any such account, or be subject to any liability arising out of the mutuality of the Fund, and the determination of the Administrator as to the amount to be paid by him to any mortgagee or mortgagor shall be final and conclusive.

"(e) In the event that any mortgagee under a mortgage insured under this title forecloses on the mortgaged property but does not convey such property to the Administrator in accordance with section 204, and the Administrator is given written notice thereof, or in the event that the mortgagor pays the obligation under the mortgage in full prior to the maturity thereof, and the mortgagee pays any adjusted premium charge required under the provisions of section 203 (c), and the Administrator is given written notice by the mortgagee of the payment of such obligation, the obligation to pay any subsequent premium charge for insurance shall cease, and all rights of the mortgagee and the mortgagor under section 204 shall terminate as of the date of such notice. Upon such termination the mortgagor under a mortgage insured under section 203 shall be entitled to receive a share of the credit balance of the group account to which the mortgage has been assigned in such amount as the Administrator shall determine to be equitable and not inconsistent with the solvency of the group account and of the Fund.

“(e) In the event that the principal obligation of any mortgage accepted for insurance under this section is paid in full prior to the maturity date, the Administrator is authorized in his discretion to require the payment by the mortgagee of an adjusted premium charge in such amount as the Administrator determines to be equitable, but not in excess of the aggregate amount of the premium charges that the mortgagee would otherwise have been required to pay if the mortgage had continued to be insured until such maturity date.

“(f) There is hereby created a Housing Insurance Fund (herein referred to as the ‘Housing Fund’) which shall be used by the Administrator as a revolving fund for carrying out the provisions of this section and section 210, and the Administrator is hereby directed to transfer immediately to such Housing Fund the sum of \$1,000,000 from that part of the Fund now held by him arising from appraisal fees heretofore collected by him. General expenses of operations of the Federal Housing Administration under this section and section 210 may be charged to the Housing Fund.

“(g) The failure of the mortgagor to make any payment due under or provided to be paid by the terms of a mortgage insured under this section shall be considered a default under such mortgage and, if such default continues for a period of thirty days, the mortgagee shall be entitled to receive the benefits of the insurance as hereinafter provided, upon assignment, transfer, and delivery to the Administrator, within a period and in accordance with rules and regulations to be prescribed by the Administrator of (1) all rights and interests arising under the mortgage so in default; (2) all claims of the mortgagee against the mortgagor or others, arising out of

the mortgage transactions; (3) all policies of title or other insurance or surety bonds or other guaranties and any and all claims thereunder; (4) any balance of the mortgage loan not advanced to the mortgagor; (5) any cash or property held by the mortgagee, or to which it is entitled, as deposits made for the account of the mortgagor and which have not been applied in reduction of the principal of the mortgage indebtedness; and (6) all records, documents, books, papers, and accounts relating to the mortgage transaction. Upon such assignment, transfer, and delivery the obligation of the mortgagee to pay the premium charges for mortgage insurance shall cease, and the Administrator shall, subject to the cash adjustment provided for in subsection (j), issue to the mortgagee a certificate of claim as provided in subsection (h), and debentures having a total face value equal to the original principal face amount of the mortgage plus such amount as the mortgagee may have paid for (A) taxes, special assessments, and water rates, which are liens prior to the mortgage; (B) insurance on the property; and (C) reasonable expenses for the completion and preservation of the property, less the sum of (i) that part of the amount of the principal obligation that has been repaid by the mortgagor, (ii) an amount equivalent to 2 per centum of the unpaid amount of such principal obligation, and (iii) any net income received by the mortgagee from the property: *Provided*, That the mortgagee, in the event of a default under the mortgage, may, at its option and in accordance with rules and regulations to be prescribed by the Administrator, proceed to foreclose on or otherwise acquire the property as provided in the case of a mortgage which is in default under section 210 and receive the benefits of the insurance as provided in such section.

“(h) The certificate of claim issued by the Administrator to any mortgagee upon the assignment of the mortgage to the Administrator shall be for an amount which the Administrator determines to be sufficient, when added to the face value of the debentures issued and the cash adjustment paid to the mortgagee, to equal the amount which the mortgagee would have received if, on the date of the assignment, transfer and delivery to the Administrator provided for in subsection (g), the mortgagor had extinguished the mortgage indebtedness by payment in full of all obligations under the mortgage. Each such certificate of claim shall provide that there shall accrue to the holder of such certificate with respect to the face amount of such certificate, an increment at the rate of 3 per centum per annum which shall not be compounded. If the net amount realized from the mortgage, and all claims in connection therewith, so assigned, transferred, and delivered, and from the property covered by such mortgage and all claims in connection with such property, after deducting all expenses incurred by the Administrator in handling, dealing with, acquiring title to, and disposing of such mortgage and property and in collecting such claims, exceeds the face value of the debentures issued and the cash adjustment paid to the mortgagee plus all interest paid on such debentures, such excess shall be divided as follows:

“(1) If such excess is greater than the total amount payable under the certificate of claim issued in connection with such property, the Administrator shall pay to the holder of such certificate the full amount so payable, and any excess remaining thereafter shall be paid to the mortgagor of such property; and

“(i) Debentures issued under this section upon the assignment of an insured mortgage to the Administrator shall be executed in the name of the Housing Insurance Fund as obligor, shall be signed by the Administrator, by either his written or engraved signature, and shall be negotiable. They shall bear interest at a rate determined by the Administrator, with the approval of the Secretary of the Treasury, at the time the mortgage was insured, but not to exceed 3 per centum per annum payable semiannually on the 1st day of January and the 1st day of July of each year, and shall mature three years after the 1st day of July following the maturity date of the mortgage in exchange for which the debentures were issued. Such debentures as are issued in exchange for mortgages insured after the date of enactment of the National Housing Act Amendments of 1938 shall be exempt, both as to principal and interest, from all taxation (except surtaxes, estate, inheritance, and gift taxes) now or hereafter imposed by the United States, by any Territory, dependency, or possession thereof, or by any State, county, municipality, or local taxing authority. They shall be paid out of the Housing Fund which shall be primarily liable therefor, and they shall be fully and unconditionally guaranteed as to principal and interest by the United States, and such guaranty shall be expressed on the face of the debentures. In the event the Housing Fund fails to pay upon demand, when due, the principal of or interest on any debentures so guaranteed, the Secretary of the Treasury shall pay to the holders the amount thereof which is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, and thereupon, to the extent of the amount so paid, the Secretary of the Treasury shall succeed to all the rights of the holders of such debentures.

“(j) Debentures issued under this section shall be in such form and denominations in multiples of \$50, shall be subject to such terms and conditions, and shall include such provision for redemption, if any, as may be prescribed by the Administrator with the approval of the Secretary of the Treasury, and may be in coupon or registered form. Any difference between the amount of debentures to which the mortgagee is entitled under this section, and the aggregate face value of the debentures issued, not to exceed \$50, shall be adjusted by the payment of cash by the Administrator to the mortgagee from the Housing Fund.

“(k) The Administrator is hereby authorized either to (1) acquire possession of and title to any property, covered by a mortgage insured under this section and assigned to him, by voluntary conveyance in extinguishment of the mortgage indebtedness, or (2) institute proceedings for foreclosure on the property covered by any such insured mortgage and prosecute such proceedings to conclusion. The Administrator shall so acquire possession of and title to the property by voluntary conveyance or institute foreclosure proceedings as provided in this section within a period of one year from the date on which any such mortgage becomes in default under its terms or under the regulations prescribed by the Administrator: *Provided*, That the foregoing provisions shall not be construed in any manner to limit the power of the Administrator to foreclose on the mortgaged property after the expiration of such period, or the right of the mortgagor to reinstate the mortgage by the payment, prior to the expiration of such period, of all delinquencies thereunder. The Administrator at any sale under foreclosure may, in his discretion, for the protection of the Housing Fund, bid any sum up to but not in excess of the total unpaid indebtedness secured by the mortgage, plus taxes, insurance, foreclosure costs, fees, and other expenses, and

may become the purchaser of the property at such sale. The Administrator is authorized to pay from the Housing Fund such sums as may be necessary to defray such taxes, insurance, costs, fees, and other expenses in connection with the acquisition or foreclosure of property under this section. Pending such acquisition by voluntary conveyance or by foreclosure, the Administrator is authorized, with respect to any mortgage assigned to him under the provisions of subsection (g), to exercise all the rights of a mortgagee under such mortgage, including the right to sell such mortgage, and to take such action and advance such sums as may be necessary to preserve or protect the lien of such mortgage.

“(1) Notwithstanding any other provisions of law relating to the acquisition, handling, or disposal of real and other property by the United States, the Administrator shall also have power, for the protection of the interests of the Housing Fund, to pay out of the Housing Fund all expenses or charges in connection with, and to deal with, complete, reconstruct, rent, renovate, modernize, insure, make contracts for the management of, or establish suitable agencies for the management of, or sell for cash or credit or lease in his discretion, any property acquired by him under this section; and notwithstanding any other provision of law, the Administrator shall also have power to pursue to final collection by way of compromise or otherwise all claims assigned and transferred to him in connection with the assignment, transfer, and delivery provided for in this section, and at any time, upon default, to foreclose on any property secured by any mortgage assigned and transferred to or held by him: *Provided*, That section 3709 of the Revised Statutes shall not be construed to apply to any contract for hazard insurance, or to any purchase or contract for services or supplies on account of such property if the amount thereof does not exceed \$1,000.

“(m) Premium charges, adjusted premium charges, and appraisal and other fees, received on account of the insurance of any mortgage insured under this section or section 210, the receipts derived from any such mortgage or claim assigned to the Administrator and from any property acquired by the Administrator, and all earnings on the assets of the Housing Fund, shall be credited to the Housing Fund. The principal of and interest paid and to be paid on debentures issued in exchange for any mortgage or property insured under this section or section 210, cash adjustments, and expenses incurred in the handling of such mortgages or property and in the foreclosure and collection of mortgages and claims assigned to the Administrator under this section or section 210, shall be charged to the Housing Fund.

“(n) In the event that a mortgage insured under this section becomes in default through failure of the mortgagor to make any payment due under or provided to be paid by the terms of the mortgage and such mortgage continues in default for a period of thirty days, but the mortgagee does not foreclose on or otherwise acquire the property, or does not assign and transfer such mortgage and the credit instrument secured thereby to the Administrator, in accordance with subsection (g), and the Administrator is given written notice thereof, or in the event that the mortgagor pays the obligation under the mortgage in full prior to the maturity thereof, and the mortgagee pays any adjusted premium charge required under the provisions of subsection (e), and the Administrator is given written notice by the mortgagee of the payment of such obligation, the obligation to pay the annual premium charge for insurance shall cease, and all rights of the mortgagee and the mortgagor under this section shall terminate as of the date of such notice.

## POWERS UNDER SOIL-CONSERVATION PROGRAM

SEC. 101. Section 8 (b) and (c) of the Soil Conservation and Domestic Allotment Act, as amended, are amended to read as follows:

"(b) Subject to the limitations provided in subsection (a) of this section, the Secretary shall have power to carry out the purposes specified in clauses (1), (2), (3), (4), and (5) of section 7 (a) by making payments or grants of other aid to agricultural producers, including tenants and sharecroppers, in amounts determined by the Secretary to be fair and reasonable in connection with the effectuation of such purposes during the year with respect to which such payments or grants are made, and measured by (1) their treatment or use of their land, or a part thereof, for soil restoration, soil conservation, or the prevention of erosion; (2) changes in the use of their land; (3) their equitable share, as determined by the Secretary, of the normal national production of any commodity or commodities required for domestic consumption; or (4) their equitable share, as determined by the Secretary, of the national production of any commodity or commodities required for domestic consumption and exports adjusted to reflect the extent to which their utilization of cropland on the farm conforms to farming practices which the Secretary determines will best effectuate the purposes specified in section 7 (a); or (5) any combination of the above. In arid or semiarid sections, (1) and (2) above shall be construed to cover water conservation and the beneficial use of water on individual farms, including measures to prevent run-off, the building of check dams and ponds, and providing facilities for applying water to the land. In determining the amount of any payment or grant measured by (1) or (2) the Secretary shall take into consideration the productivity of the land affected by the farming practices adopted during the year with respect to which such

payment is made. In carrying out the provisions of this section in the continental United States, the Secretary is directed to utilize the services of local and State committees selected as hereinafter provided. The Secretary shall designate local administrative areas as units for administration of programs under this section. No such local area shall include more than one county or parts of different counties. Farmers within any such local administrative area, and participating or cooperating in programs administered within such area, shall elect annually from among their number a local committee of not more than three members for such area and shall also elect annually from among their number a delegate to a county convention for the election of a county committee. The delegates from the various local areas in the county shall, in a county convention, elect, annually, the county committee for the county which shall consist of three members who are farmers in the county. The local committee shall select a secretary and may utilize the county agricultural extension agent for such purpose. The county committee shall select a secretary who may be the county agricultural extension agent. If such county agricultural extension agent shall not have been elected secretary of such committee, he shall be ex officio a member of the county committee. The county agricultural extension agent shall not have the power to vote. In any county in which there is only one local committee the local committee shall also be the county committee. In each State there shall be a State committee for the State composed of not less than three or more than five farmers who are legal residents of the State and who are appointed by the Secretary. The State director of the Agricultural Extension Service shall be ex officio a member of such State committee. The ex officio members of the county and State committees shall be in addition to the number of members of such committees hereinbefore specified. The Secretary shall make such regulations as are necessary relating to the selection and exercise of the functions of the respective committees, and to the administration, through such committees, of such programs. In carrying out the provisions of this section, the Secretary—shall, as far as practicable, protect the interests of tenants and sharecroppers; is authorized to utilize the agricultural extension service and other approved agencies; shall accord such recognition and encouragement to producer-owned and producer-controlled cooperative associations as will be in harmony with the policy toward cooperative associations set forth in existing Acts of Congress and as will tend to promote efficient methods of marketing and distribution; shall not have power to acquire any land or any right or interest therein; shall, in every practicable manner, protect the interests of small producers; and shall in every practical way encourage and provide for soil-conserving and soil-rebuilding practices rather than the growing of soil-depleting crops. Rules and regulations governing payments or grants under this subsection shall be as simple and direct as possible, and, wherever practicable, they shall be classified on two bases: (a) Soil-depleting crops and practices, (b) soil-rebuilding crops and practices.

“(c) (1) In apportioning acreage allotments under this section in the case of wheat and corn, the National and State allotments and the allotments to counties shall be apportioned annually on the basis of the acreage seeded for the production of the commodity during the ten calendar years immediately preceding the calendar year in which the national acreage allotment is determined (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during the applicable period.

“(2) In the case of wheat, the allotment to any county shall be apportioned annually by the Secretary, through the local committees, among the farms within such county on the basis of tillable acres, crop-rotation practices, type of soil, and topography. Not more than 3 per centum of such county allotment shall be apportioned to farms on which wheat has not been planted during any of the three marketing years immediately preceding the marketing year in which the allotment is made.

“(3) In the case of corn, the allotment to any county shall be apportioned annually by the Secretary, through the local committees, among the farms within such county on the basis of tillable acreage, type of soil, topography, and crop-rotation practices.

Corn.

“(4) Notwithstanding any other provision of this subsection, if, for any reason other than flood or drought, the acreage of wheat, cotton, corn, or rice planted on the farm is less than 80 per centum of the farm acreage allotment for such commodity for the purpose of payment, such farm acreage allotment shall be 25 per centum in excess of such planted acreage.

Acreage planted less than allotment.

“(5) In determining normal yield per acre on any farm under this section in the case of wheat or corn, the normal yield shall be the average yield per acre thereon for such commodity during the ten calendar years immediately preceding the calendar year in which such yield is determined, adjusted for abnormal weather conditions and trends in yields. If for any reason there is no actual yield, or the data therefor are not available for any year, then an appraised yield for such year, determined in accordance with regulations of the Secretary, shall be used. If, on account of drought, flood, insect pests, plant disease, or other uncontrollable natural cause, the yield in any year of such ten-year period is less than 75 per centum of the average (computed without regard to such year), such year shall be eliminated in calculating the normal yield per acre.

“(d) Any payment or grant of aid made under subsection (b) shall be conditioned upon the utilization of the land, with respect to which such payment is made, in conformity with farming practices which the Secretary finds tend to effectuate any one or more of the purposes specified in clause (1), (2), (3), (4), or (5) of section 7 (a).

Payments conditioned upon conforming to prescribed practices.

“Any payment made under subsection (b) with respect to any farm (except for lands which the Secretary determines should not be utilized for the harvesting of crops but should be permanently used for grazing purposes only) shall, if the number of cows kept on such farm, and in the county in which such farm is located, for the production of milk or products thereof (for market), exceeds the normal number of such cows, be further conditioned upon the utilization of the land, with respect to which such payment is made, so that soil-building and soil-conserving crops planted or produced on an acreage equal to the land normally used for the production of soil-depleting crops but, as a condition of such payment, not permitted to be so used, shall be used for the purpose of building and conserving the fertility of the soil, or for the production of agricultural commodities to be consumed on the farm, and not for market. Whenever it is determined that a county, as a whole, is in substantial compliance with the provisions of this paragraph, no payment shall be denied any individual farmer in the county by reason of this paragraph; and no payment shall be denied a farmer by reason of this paragraph unless it has been determined that the farmer has not substantially complied with the provisions of this paragraph. necessary to relieve such shortage, the operation of the condition provided in this paragraph shall be suspended in such area and, if necessary to relieve such shortage, in other areas defined by him. As used in this paragraph, the term 'for market' means for disposition by sale, barter, or exchange, or by feeding (in any form) to dairy livestock which, or the products of which, are to be sold, bartered, or exchanged; and such term shall not include consumption on the farm. An agricultural commodity shall be deemed consumed on the farm if consumed by the farmer's family, employees, or household, or if fed to poultry or livestock other than dairy livestock on his farm; or if fed to dairy livestock on his farm and such dairy livestock, or the products thereof, are to be consumed by his family, employees, or household. Whenever the Secretary has reason to believe the income of producers of livestock (other than dairy cattle) or poultry in any area from such sources is being adversely affected by increases in the supply for market of such livestock or poultry, as the case may be, arising as a result of programs carried out under this Act, he shall make an investigation with respect to the existence of such facts. If, upon investigation, the Secretary finds that the income of producers of such livestock or poultry, as the case may be, in any area from any such source is being adversely affected by such increases, he shall, as soon as practicable, make such provisions in the administration of this Act with respect to the use of diverted acres as he may find necessary to protect the interests of producers of such livestock or poultry in the affected area."

#### REDUCTIONS AND INCREASES IN PAYMENTS UNDER SOIL CONSERVATION PROGRAM

SEC. 102. Section 8 of the Soil Conservation and Domestic Allotment Act, as amended, is further amended by adding a new subsection as follows:

"(e) Payments made by the Secretary to farmers under subsection (b) shall be divided among the landlords, tenants, and sharecroppers of any farm, with respect to which such payments are made, in the same proportion that such landlords, tenants, and sharecroppers are entitled to share in the proceeds of the agricultural commodity with respect to which such payments are made, except that payments based on soil-building or soil-conserving practices shall be divided in proportion to the extent which such landlords, tenants, and sharecroppers contribute to the carrying out of such practices. Such payments shall be paid by the Secretary directly to the landlords, tenants, or sharecroppers entitled thereto, and shall be computed at rates which will permit the Secretary to set aside out of the funds available for the making of such payments for each year an amount sufficient to permit the increases herein specified to be made within the limits of the funds so available. If with respect to any farm the total payment to any person for any year would be:

"(1) Not more than \$20, the payment shall be increased by 40 per centum;

"(2) More than \$20 but not more than \$40, the payment shall be increased by \$8, plus 20 per centum of the excess over \$20;

"(3) More than \$40 but not more than \$60, the payment shall be increased by \$12, plus 10 per centum of the excess over \$40;

"(4) More than \$60 but not more than \$186, the payment shall be increased by \$14; or

"(5) More than \$186 but less than \$200, the payment shall be increased to \$200.

In the case of payments of more than \$1, the amount of the payment which shall be used to calculate the 40-, 20-, and 10-per-centum increases under clauses (1), (2), and (3) shall not include that part, if any, of the payment which is a fraction of a dollar.

“Beginning with the calendar year 1939, no total payment for any year to any person under such subsection (b) shall exceed \$10,000. In the case of payments made to any individual, partnership, or estate on account of performance on farms in different States, Territories, or possessions, the \$10,000 limitation shall apply to the total of the payments for each State, Territory, or possession, for a year and not to the total of all such payments.”

Maximum amount for any year.

TENANT PROVISIONS

SEC. 103. Section 8 of the Soil Conservation and Domestic Allotment Act, as amended, is further amended by adding the following new subsections:

Tenant provisions.

“(f) Any change between the landlord and the tenants or sharecroppers, with respect to any farm, that would increase over the previous year the amount of payments or grants of other aid under subsection (b) that would otherwise be made to any landlord shall not operate to increase such payment or grant to such landlord. Any reduction in the number of tenants below the average number of tenants on any farm during the preceding three years that would increase the payments or grants of other aid under such subsection that would otherwise be made to the landlord shall not hereafter operate to increase any such payment or grant to such landlord. Such limitations shall apply only if the county committee finds that the change or reduction is not justified and disapproves such change or reduction.

“(g) A payment which may be made to a farmer under this section, may be assigned, without discount, by him in writing as security for cash or advances to finance making a crop. Such assignment shall be acknowledged by the farmer before the county agricultural extension agent and filed with such agent. The farmer shall file with such county agricultural extension agent an affidavit stating that the assignment is not made to pay or secure any pre-existing indebtedness. This provision shall not authorize any suit against or impose any liability upon the Secretary or any disbursing agent if payment to the farmer is made without regard to the existence of any such assignment.”

APPORTIONMENT OF FUNDS

SEC. 104. Section 15 of the Soil Conservation and Domestic Allotment Act, as amended, is amended by inserting at the end thereof the following new paragraph:

Apportionment of funds.

“The funds available for payments (after allowing for estimated administrative expenses, and not to exceed 5 per centum for payments with respect to range lands, noncrop pasture lands, and naval stores) shall be allocated among the commodities produced with respect to which payments or grants are to be computed. In allocating funds among the commodities the Secretary shall take into consideration and give equal weight to (1) the average acreages planted to the various commodities (including rotation pasture), for the ten years 1928 to 1937, adjusted for abnormal weather and other conditions, including acreage diverted from production under the agricultural adjustment and soil conservation programs; (2) the value at parity prices of the production from the allotted acreages of the various commodities for the year with respect to which the payment

The rate of payment used in making payments to the producers of each commodity shall be such that the estimated payments with respect to such commodity shall equal the amount of funds allocated to such commodity as herein provided. For the purpose of allocating funds and computing payments or grants the Secretary is authorized to consider as a commodity a group of commodities or a regional or market classification of a commodity. For the purpose of computing payments or grants, the Secretary is authorized to use funds allocated to two or more commodities produced on farms of a designated regional or other classification to compute payments with respect to one of such commodities on such farms, and to use funds, in an amount equal to the estimated payments which would be made in any county, for making payments pursuant to a special program under section 8 approved by the Secretary for such county: *Provided*, That farm acreage allotments shall be made for wheat in 1938, but in determining compliance wheat shall be considered in the group with other crops for which special acreage allotments are not made."

(1) "Parity", as applied to prices for any agricultural commodity, shall be that price for the commodity which will give to the commodity a purchasing power with respect to articles that farmers buy equivalent to the purchasing power of such commodity in the base period; and, in the case of all commodities for which the base period is the period August 1909 to July 1914, which will also reflect current interest payments per acre on farm indebtedness secured by real estate, tax payments per acre on farm real estate, and freight rates, as contrasted with such interest payments, tax payments, and freight rates during the base period. (1) (A) "Actual production" as applied to any acreage of corn means the number of bushels of corn which the local committee determines would be harvested as grain from such acreage if all the corn on such acreage were so harvested. In case of a disagreement between the farmer and the local committee as to the actual production of the acreage of corn on the farm, or in case the local committee determines that such actual production is substantially below normal, the local committee, in accordance with regulations of the Secretary, shall weigh representative samples of ear corn taken from the acreage involved, make proper deductions for moisture content, and determine the actual production of such acreage on the basis of such samples.

"Actual production" as applied to any acreage of corn.

(B) "Actual production" of any number of acres of cotton on a farm means the actual average yield for the farm times such number of acres.

(4) (A) "Commercial corn-producing area" shall include all counties in which the average production of corn (excluding corn used as silage) during the ten calendar years immediately preceding the calendar year for which such area is determined, after adjustment for abnormal weather conditions, is four hundred and fifty bushels or more per farm and four bushels or more for each acre of farm land in the county.

Counties bordering area producing prescribed average.

(B) Whenever prior to February 1 of any calendar year the Secretary has reason to believe that any county which is not included in the commercial corn-producing area determined pursuant to the provisions of subparagraph (A), but which borders upon one of the counties in such area, or that any minor civil division in a county bordering on such area, is producing (excluding corn used for silage) an average of at least four hundred and fifty bushels of corn per farm and an average of at least four bushels for each acre of farm land in the county or in the minor civil division, as the case may be, he shall cause immediate investigation to be made to determine such fact. If, upon the basis of such investigation, the Secretary finds that such county or minor civil division is likely to produce corn in such average amounts during such calendar year, he shall proclaim such determination, and, commencing with such calendar year, such county shall be included in the commercial corn-producing area. In the case of a county included in the commercial corn-producing area pursuant to this subparagraph, whenever prior to February 1 of any calendar year the Secretary has reason to believe that facts justifying the inclusion of such county are not likely to exist in such calendar year, he shall cause an immediate investigation to be made with respect thereto. If, upon the basis of such investigation, the Secretary finds that such facts are not likely to exist in such calendar year, he shall proclaim such determination, and commencing with such calendar year, such county shall be excluded from the commercial corn-producing area.

(8) "National average yield" as applied to cotton or wheat shall be the national average yield per acre of the commodity during the ten calendar years in the case of wheat, and during the five calendar years in the case of cotton, preceding the year in which such national average yield is used in any computation authorized in this title, adjusted for abnormal weather conditions and, in the case of wheat, but not in the case of cotton, for trends in yields.

(C) In applying subparagraph (A) or (B), if for any such year the data are not available, or there is no actual yield, an appraised yield for such year, determined in accordance with regulations issued by the Secretary, shall be used as the actual yield for such year. In applying such subparagraphs, if, on account of drought, flood, insect pests, plant disease, or other uncontrollable natural cause, the yield in any year of such ten-year period or five-year period, as the case may be, is less than 75 per centum of the average (computed without regard to such year) such year shall be eliminated in calculating the normal yield per acre.

If, for any reason, there is no actual yield or the data therefor are not available for any year, then an appraised yield for such year, determined in accordance with the regulations of the Secretary, shall be used. If the average of the normal yields for all lands planted to rice in any year in the State (weighted by the acreage allotments therein) exceeds the average yield per acre for the State during the period used in determining normal yields, the normal yields for such lands in the State shall be reduced pro rata so that the average of such normal yields shall not exceed such State average yield.

Post, p. 202.

"Reserve supply level" in the case of corn.

(14) (A) "Reserve supply level", in the case of corn, shall be a normal year's domestic consumption and exports of corn plus 10 per centum of a normal year's domestic consumption and exports, to insure a supply adequate to meet domestic consumption and export needs in years of drought, flood, or other adverse conditions, as well as in years of plenty.

Tobacco.

(B) "Total supply" of tobacco for any marketing year shall be the carry-over at the beginning of such marketing year plus the estimated production thereof in the United States during the calendar year in which such marketing year begins, except that the

estimated production of type 46 tobacco during the marketing year with respect to which the determination is being made shall be used in lieu of the estimated production of such type during the calendar year in which such marketing year begins in determining the total supply of cigar-filler and cigar-binder tobacco.

(c) The latest available statistics of the Federal Government shall be used by the Secretary in making the determinations required to be made by the Secretary under this Act.

SEC. 303. If and when appropriations are made therefor, the Secretary is authorized and directed to make payments to producers of corn, wheat, cotton, rice, or tobacco, on their normal production of such commodities in amounts which, together with the proceeds thereof, will provide a return to such producers which is as nearly equal to parity price as the funds so made available will permit. All funds available for such payments with respect to these commodities shall, unless otherwise provided by law, be apportioned to these commodities in proportion to the amount by which each fails to reach the parity income. Such payments shall be in addition to and not in substitution for any other payments authorized by law.

## SUBTITLE B—MARKETING QUOTAS

## PART I—MARKETING QUOTAS—TOBACCO

## LEGISLATIVE FINDING

SEC. 311 (a) The marketing of tobacco constitutes one of the great basic industries of the United States with ramifying activities which directly affect interstate and foreign commerce at every point, and stable conditions therein are necessary to the general welfare. Tobacco produced for market is sold on a Nation-wide market and, with its products, moves almost wholly in interstate and foreign commerce from the producer to the ultimate consumer. The farmers producing such commodity are subject in their operations to uncontrollable natural causes, are widely scattered throughout the Nation, in many cases such farmers carry on their farming operations on borrowed money or leased lands, and are not so situated as to be able to organize effectively, as can labor and industry through unions and corporations enjoying Government protection and sanction. For these reasons, among others, the farmers are unable without Federal assistance to control effectively the orderly marketing of such commodity with the result that abnormally excessive supplies thereof are produced and dumped indiscriminately on the Nation-wide market.

Subtitle B—Marketing quotas.

Part I—Tobacco.

Legislative finding.

(b) The disorderly marketing of such abnormally excessive supplies affects, burdens, and obstructs interstate and foreign commerce by (1) materially affecting the volume of such commodity marketed therein, (2) disrupting the orderly marketing of such commodity therein, (3) reducing the price for such commodity with consequent injury and destruction of interstate and foreign commerce in such

commodity, and (4) causing a disparity between the prices for such commodity in interstate and foreign commerce and industrial products therein, with a consequent diminution of the volume of interstate and foreign commerce in industrial products.

(c) Whenever an abnormally excessive supply of tobacco exists, the marketing of such commodity by the producers thereof directly and substantially affects interstate and foreign commerce in such commodity and its products, and the operation of the provisions of this Part becomes necessary and appropriate in order to promote, foster, and maintain an orderly flow of such supply in interstate and foreign commerce.

SEC. 312. (a) Whenever, on the 15th day of November of any calendar year, the Secretary finds that the total supply of tobacco as of the beginning of the marketing year then current exceeds the reserve supply level therefor, the Secretary shall proclaim the amount of such total supply, and, beginning on the first day of the marketing year next following and continuing throughout such year, a national marketing quota shall be in effect for the tobacco marketed during such marketing year. The Secretary shall also determine and specify in such proclamation the amount of the national marketing quota in terms of the total quantity of tobacco which may be marketed, which will make available during such marketing year a supply of tobacco equal to the reserve supply level. Such proclamation shall be made not later than the 1st day of December in such year.

(b) Whenever in the case of burley tobacco, and fire-cured and dark air-cured tobacco, respectively, the total supply proclaimed pursuant to the provisions of subsection (a) of this section exceeds the reserve supply level by more than 5 per centum and a national marketing quota is not in effect for such tobacco during the marketing year then current, a national marketing quota shall also be in effect for such tobacco marketed during the period from the date of such proclamation to the end of such current marketing year, and the Secretary shall determine and shall specify in such proclamation the amount of such national marketing quota in terms of the total quantity which may be marketed, which will make available during such current marketing year a supply of tobacco equal to the reserve supply level. The provisions of this subsection shall not be effective prior to the beginning of the marketing year beginning in the calendar year 1938.

(c) Within thirty days after the date of the issuance of the proclamation specified in subsection (a) of this section, the Secretary shall conduct a referendum of farmers who were engaged in production of the crop of tobacco harvested prior to the holding of the referendum to determine whether such farmers are in favor of or opposed to such quota. If in the case of burley tobacco, or fire-cured and dark air-cured tobacco, respectively, farmers would be subject to a national quota for the next succeeding marketing year pursuant to the provisions of subsection (a) of this section, and also to a national marketing quota for the current marketing year pursuant to the provisions of subsection (b) of this section, the referendum shall provide for voting with respect to each such quota. If more than one-third of the farmers voting in the referendum oppose such quota, the Secretary shall, prior to the 1st day of January, proclaim the result of the referendum and such quota shall not be effective thereafter.

(d) In connection with the determination and proclamation of any marketing quota for the 1938-1939 marketing year, the determination by the Secretary pursuant to subsection (a) of this section shall be made and proclaimed within fifteen days following the date of the enactment of this Act, and the proclamation of the Secretary pursuant to subsection (c) of this section shall be made within forty-five days following the date of the enactment of this Act.

(e) Marketing quotas shall not be in effect with respect to cigar-filler tobacco comprising type 41 during the marketing year beginning in 1938 or the marketing year beginning in 1939.

#### APPORTIONMENT OF NATIONAL MARKETING QUOTA

SEC. 313. (a) The national marketing quota for tobacco established pursuant to the provisions of section 312, less the amount to be allotted under subsection (c) of this section, shall be apportioned by the Secretary among the several States on the basis of the total production of tobacco in each State during the five calendar years immediately preceding the calendar year in which the quota is proclaimed (plus, in applicable years, the normal production on the net acreage diverted under previous agricultural adjustment and conservation programs), with such adjustments as are determined to be necessary to make correction for abnormal conditions of production, for small farms, and for trends in production, giving due consideration to seed bed and other plant diseases during such five-year period: *Provided, however,* That to prevent in any case too sharp and sudden reduction in acreage of tobacco production in any State, the marketing quota for flue-cured tobacco for any State for any marketing year shall not be reduced to a point less than 75 per centum of the production of flue-cured tobacco in such State for the year 1937.

(b) The Secretary shall provide, through the local committees, for the allotment of the marketing quota for any State among the farms on which tobacco is produced, on the basis of the following: Past marketing of tobacco, making due allowance for drought, flood, hail, other abnormal weather conditions, plant bed, and other diseases; land, labor, and equipment available for the production of tobacco; crop-rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided,* That, except for farms on which for the first time in five years tobacco is produced to be marketed in the marketing year for which the quota is effective, the marketing quota for any farm shall not be less than the smaller of either (1) three thousand two hundred pounds, in the case of flue-cured tobacco, and two thousand four hundred pounds, in the case of other kinds of tobacco, or (2) the average tobacco production for the farm during the preceding three years, plus the average normal production of any tobacco acreage diverted under agricultural adjustment and conservation programs during such preceding three years.

(c) The Secretary shall provide, through local committees, for the allotment of not in excess of 5 per centum of the national marketing quota (1) to farms in any State whether it has a State quota or not on which for the first time in five years tobacco is produced to be marketed in the year for which the quota is effective and (2) for further increase of allotments to small farms pursuant to the proviso in subsection (b) of this section on the basis of the following: Land, labor, and equipment available for the production of tobacco; crop-rotation practices; and the soil and other physical factors affecting the production of tobacco: *Provided,* That farm marketing quotas established pursuant to this subsection for farms on which tobacco is produced for the first time in five years shall not exceed 75 per

Penalty.

SEC. 314. The marketing of any tobacco in excess of the marketing quota for the farm on which the tobacco is produced, except the marketing of any such tobacco for nicotine or other byproduct uses, shall be subject to a penalty of 50 per centum of the market price of such tobacco on the date of such marketing, or, if the following rates are higher, 3 cents per pound in the case of flue-cured, Maryland, or burley, and 2 cents per pound in the case of all other kinds of tobacco. Such penalty shall be paid by the person who acquires such tobacco from the producer but an amount equivalent to the penalty may be deducted by the buyer from the price paid to the producer in case such tobacco is marketed by sale; or, if the tobacco is marketed by the producer through a warehouseman or other agent, such penalty shall be paid by such warehouseman or agent who may deduct an amount equivalent to the penalty from the price paid to the producer: *Provided*, That in case any tobacco is marketed directly to any person outside the United States the penalty shall be paid and remitted by the producer.

Part II—Marketing quotas—Corn.

#### PART II—MARKETING QUOTAS—CORN

##### LEGISLATIVE FINDING

Legislative finding.

SEC. 321. Corn is a basic source of food for the Nation, and corn produced in the commercial corn-producing area moves almost wholly in interstate and foreign commerce in the form of corn, livestock, and livestock products.

Abnormally excessive and abnormally deficient supplies of corn acutely and directly affect, burden, and obstruct interstate and foreign commerce in corn, livestock, and livestock products. When abnormally excessive supplies exist, transportation facilities in interstate and foreign commerce are overtaxed, and the handling and processing facilities through which the flow of interstate and foreign commerce in corn, livestock, and livestock products is directed become acutely congested. Abnormally deficient supplies result in substantial decreases in livestock production and in an inadequate flow of livestock and livestock products in interstate and foreign commerce, with the consequence of unreasonably high prices to consumers.

Violent fluctuations from year to year in the available supply of corn disrupt the balance between the supply of livestock and livestock products moving in interstate and foreign commerce and the supply of corn available for feeding. When available supplies of corn are excessive, corn prices are low and farmers overexpand livestock production in order to find outlets for corn. Such expansion, together with the relative scarcity and high price of corn, forces farmers to market abnormally excessive supplies of livestock in interstate commerce at sacrifice prices, endangering the financial stability of producers, and overtaxing handling and processing facilities through which the flow of interstate and foreign commerce in livestock and livestock products is directed. Such excessive marketings deplete livestock on farms, and livestock marketed in interstate and

foreign commerce consequently becomes abnormally low, with resultant high prices to consumers and danger to the financial stability of persons engaged in transporting, handling, and processing livestock in interstate and foreign commerce. These high prices in turn result in another overexpansion of livestock production.

Recurring violent fluctuations in the price of corn resulting from corresponding violent fluctuations in the supply of corn directly affect the movement of livestock in interstate commerce from the range cattle regions to the regions where livestock is fattened for market in interstate and foreign commerce, and also directly affect the movement in interstate commerce of corn marketed as corn which is transported from the regions where produced to the regions where livestock is fattened for market in interstate and foreign commerce.

Substantially all the corn moving in interstate commerce, substantially all the corn fed to livestock transported in interstate commerce for fattening, and substantially all the corn fed to livestock marketed in interstate and foreign commerce, is produced in the commercial corn-producing area. Substantially all the corn produced in the commercial corn-producing area, with the exception of a comparatively small amount used for farm consumption, is either sold or transported in interstate commerce, or is fed to livestock transported in interstate commerce for feeding, or is fed to livestock marketed in interstate and foreign commerce. Almost all the corn produced outside the commercial corn-producing area is either consumed, or is fed to livestock which is consumed, in the State in which such corn is produced.

The conditions affecting the production and marketing of corn and the livestock products of corn are such that, without Federal assistance, farmers, individually or in cooperation, cannot effectively prevent the recurrence of disparities between the supplies of livestock moving in interstate and foreign commerce and the supply of corn available for feeding, and provide for orderly marketing of corn in interstate and foreign commerce and livestock and livestock products in interstate and foreign commerce.

The national public interest requires that the burdens on interstate and foreign commerce above described be removed by the exercise of Federal power. By reason of the administrative and physical impracticability of regulating the movement of livestock and livestock products in interstate and foreign commerce and the inadequacy of any such regulation to remove such burdens, such power can be feasibly exercised only by providing for the withholding from market of excessive and burdensome supplies of corn in times of excessive production, and providing a reserve supply of corn available for market in times of deficient production, in order that a stable and continuous flow of livestock and livestock products in interstate and foreign commerce may at all times be assured and maintained.

#### FARM MARKETING QUOTAS

SEC. 322. (a) Whenever in any calendar year the Secretary determines from available statistics of the Department, including the August production estimate officially published by the Division of Crop and Livestock Estimates of the Bureau of Agricultural Economics of the Department, that the total supply of corn as of October 1 will exceed the normal supply thereof by more than 10 per centum, marketing quotas shall be in effect in the commercial corn-producing area for the crop of corn grown in such area in such calendar year, and shall remain in effect until terminated in accordance with the provisions of this title.

Farm marketing  
quotas.

When effective; termination.

Determination of acreage.

(b) The Secretary shall determine, on the basis of the estimated average yield of corn in such area for such crop, the acreage in such area which the Secretary determines would make available for the marketing year beginning October 1 a supply of corn (together with the estimated production of corn in the United States outside such area) equal to the normal supply. The percentage which the number of acres so determined is of the total number of acres of the acreage allotment under section 328 shall be proclaimed by the Secretary. Such percentage is referred to herein as the "marketing percentage".

"Marketing percentage."

Post, p. 52.

Proclamation by Secretary.

(c) The Secretary shall proclaim his determinations of facts under subsection (a) and his determination of the marketing percentage under subsection (b) not later than August 15.

Referendum.

(d) Within twenty days after the date of the issuance of the proclamation provided for in subsection (c) of this section, the Secretary shall conduct a referendum, by secret ballot, of farmers who would be subject to such quotas to determine whether such farmers are in favor of or opposed to such quotas. If more than one-third of the farmers voting in the referendum oppose such quotas, the Secretary shall, prior to September 10, proclaim the result of the referendum and such quotas shall not become effective.

Effect of vote.

September production estimates, use of, in determining continuation of marketing quotas.

(e) Whenever it shall appear from the September production estimates officially published by the Division of Crop and Livestock Estimates of the Bureau of Agricultural Economics of the Department, that the total supply of corn as of the beginning of the next succeeding marketing year will not exceed the normal supply by more than 10 per centum thereof, the Secretary shall proclaim such fact prior to September 20, if farm marketing quotas have been proclaimed for such marketing year. Thereupon such quotas shall not become effective.

Amount of farm marketing quota.

AMOUNT OF FARM MARKETING QUOTA

SEC. 323. (a) The farm marketing quota for any farm with respect to any crop of corn shall be an amount of corn equal to the sum of—

- (1) The amount of corn used as silage; and
- (2) The actual production of the acreage of corn not used as silage less the amount required for farm consumption and less the storage amount applicable to the farm as ascertained under section 324.

SEC. 324. (a) If the acreage of corn on the farm does not exceed the marketing percentage of the farm acreage allotment, there shall be no storage amount.

(b) If the acreage of corn on the farm exceeds the marketing percentage of the farm acreage allotment, the storage amount shall be a number of bushels equal to the smallest of the following amounts—

- (1) The normal production of the acreage of corn on the farm in excess of the marketing percentage of the farm acreage allotment;
- (2) The amount by which the actual production of the acreage of corn on the farm exceeds the normal production of the marketing percentage of the farm acreage allotment; or
- (3) The amount of the actual production of the acreage of corn on the farm not used for silage.

(c) If the storage amount ascertained under subsection (b) is less than 100 bushels, there shall be no storage amount.

#### PENALTIES

SEC. 325. (a) Any farmer who, while any farm marketing quota is in effect for his farm with respect to any crop of corn, markets corn produced on the farm in an amount which is in excess of the aggregate of the farm marketing quotas for the farm in effect at such time, shall be subject to a penalty of 15 cents per bushel of the excess so marketed. Liability for such penalty shall not accrue until the amount of corn stored under seal on such farm or in storage cribs rented by the farmer or under his control is less than the storage amount applicable to such crop plus the storage amounts, if any, applicable to other crops.

(b) If there is stored under seal on the farm or in such cribs an amount of corn equal at least to the storage amount applicable to such crop plus such storage amounts applicable to such other crops, the farmer shall be presumed not to be violating the provisions of subsection (a). When the amount of corn stored under seal on the farm or in such cribs is less than the storage amount applicable to such crop plus such storage amounts applicable to such other crops, the farmer shall be presumed to have marketed, while farm marketing quotas were in effect, corn in violation of the provisions of subsection (a) to the extent that the amount of corn so stored is less than the aggregate of such storage amounts. In any action brought to enforce the collection of penalties provided for in this section, the farmer, to the extent that the amount of corn so stored is less than the aggregate of such storage amounts shall have the burden of proving that he did not market corn in violation of the provisions of subsection (a).

(c) For the purposes of this Part, corn shall be deemed to be stored by the farmer under seal only if stored in such manner as to conform to the requirements of such regulations as the Secretary shall prescribe in order more effectively to administer this Part.

#### ADJUSTMENT OF FARM MARKETING QUOTAS

SEC. 326. (a) Whenever in any county or other area the Secretary finds that the actual production of corn plus the amount of corn stored under seal in such county or other area is less than the normal production of the marketing percentage of the farm acreage allotments in such county or other area, the Secretary shall terminate farm marketing quotas for corn in such county or other area.

(b) Whenever, upon any farm, the actual production of the acreage of corn is less than the normal production of the marketing percentage of the farm acreage allotment, there may be marketed, without penalty, from such farm an amount of corn from the corn stored under seal pursuant to section 324 which, together with the actual production of the then current crop, will equal the normal production of the marketing percentage of the farm acreage allotment.

(c) Whenever, in any marketing year, marketing quotas are not in effect with respect to the crop of corn produced in the calendar year in which such marketing year begins, all marketing quotas applicable to previous crops of corn shall be terminated.

The acreage allotment of corn for any calendar year shall be that acreage in the commercial corn-producing area which, on the basis of the average yield for corn in such area during the ten calendar years immediately preceding such calendar year will produce an amount of corn in such area which the Secretary determines will, together with corn produced in the United States outside the commercial corn-producing area, make available a supply for the marketing year beginning in such calendar year, equal to the reserve supply level. The Secretary shall proclaim such acreage allotment not later than February 1 of the calendar year for which such acreage allotment was determined. (b) The acreage allotment to the county for corn shall be apportioned by the Secretary, through the local committees, among the farms within the county on the basis of tillable acreage, crop-rotation practices, type of soil, and topography.

Part III—Market-  
ing quotas—Wheat.

#### PART III—MARKETING QUOTAS—WHEAT

##### LEGISLATIVE FINDINGS

Legislative findings.

SEC. 331. Wheat is a basic source of food for the Nation, is produced throughout the United States by more than a million farmers, is sold on the country-wide market and, as wheat or flour, flows almost entirely through instrumentalities of interstate and foreign commerce from producers to consumers.

Abnormally excessive and abnormally deficient supplies of wheat on the country-wide market acutely and directly affect, burden, and obstruct interstate and foreign commerce. Abnormally excessive supplies overtax the facilities of interstate and foreign transportation, congest terminal markets and milling centers in the flow of wheat from producers to consumers, depress the price of wheat in interstate and foreign commerce, and otherwise disrupt the orderly marketing of such commodity in such commerce. Abnormally deficient supplies result in an inadequate flow of wheat and its products in interstate and foreign commerce with consequent injurious effects to the instrumentalities of such commerce and with excessive increases in the prices of wheat and its products in interstate and foreign commerce.

It is in the interest of the general welfare that interstate and foreign commerce in wheat and its products be protected from such burdensome surpluses and distressing shortages, and that a supply of wheat be maintained which is adequate to meet domestic consumption and export requirements in years of drought, flood, and other adverse conditions as well as in years of plenty, and that the soil resources of the Nation be not wasted in the production of such burdensome surpluses. Such surpluses result in disastrously low prices of wheat and other grains to wheat producers, destroy the purchasing power of grain producers for industrial products, and reduce the value of the agricultural assets supporting the national credit structure. Such shortages of wheat result in unreasonably high prices of flour and bread to consumers and loss of market outlets by wheat producers.

The conditions affecting the production and marketing of wheat are such that, without Federal assistance, farmers, individually or in cooperation, cannot effectively prevent the recurrence of such surpluses and shortages and the burdens on interstate and foreign commerce resulting therefrom, maintain normal supplies of wheat, or provide for the orderly marketing thereof in interstate and foreign commerce.

The provisions of this Part affording a cooperative plan to wheat producers are necessary in order to minimize recurring surpluses and shortages of wheat in interstate and foreign commerce, to provide for the maintenance of adequate reserve supplies thereof, and to provide for an adequate flow of wheat and its products in interstate and foreign commerce. The provisions hereof for regulation of marketings by producers of wheat whenever an abnormally excessive supply of such commodity exists are necessary in order to maintain an orderly flow of wheat in interstate and foreign commerce under such conditions.

#### PROCLAMATIONS OF SUPPLIES AND ALLOTMENTS

SEC. 332. Not later than July 15 of each marketing year for wheat, the Secretary shall ascertain and proclaim the total supply and the normal supply of wheat for such marketing year, and the national acreage allotment for the next crop of wheat.

Proclamations of supplies and allotments.

#### NATIONAL ACREAGE ALLOTMENT

SEC. 333. The national acreage allotment for any crop of wheat shall be that acreage which the Secretary determines will, on the basis of the national average yield for wheat, produce an amount thereof adequate, together with the estimated carry-over at the beginning of the marketing year for such crop, to make available a supply for such marketing year equal to a normal year's domestic consumption and exports plus 30 per centum thereof. The national acreage allotment for wheat for 1938 shall be sixty-two million five hundred thousand acres.

National acreage allotment.  
Post, p. 775.

#### APPORTIONMENT OF NATIONAL ACREAGE ALLOTMENT

SEC. 334. (a) The national acreage allotment for wheat shall be apportioned by the Secretary among the several States on the basis of the acreage seeded for the production of wheat during the ten calendar years immediately preceding the calendar year in which the national acreage allotment is determined (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and for trends in acreage during such period.

Apportionment.

State acreage allotment.  
Post, p. 203.

(b) The State acreage allotment for wheat shall be apportioned by the Secretary among the counties in the State, on the basis of the acreage seeded for the production of wheat during the ten calendar years immediately preceding the calendar year in which the national acreage allotment is determined (plus, in applicable years, the net acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during such period and for the promotion of soil-conservation practices.

County allotment.

(c) The allotment to the county shall be apportioned by the Secretary, through the local committees, among the farms within the county on the basis of tillable acres, crop-rotation practices, type of soil, and topography. Not more than 3 per centum of such county allotment shall be apportioned to farms on which wheat has not been planted during any of the three marketing years immediately preceding the marketing year in which the allotment is made.

Marketing quotas.

#### MARKETING QUOTAS

Effective upon proclamation of the Secretary.

SEC. 335. (a) Whenever it shall appear that the total supply of wheat as of the beginning of any marketing year will exceed a normal year's domestic consumption and exports by more than 35 per centum, the Secretary shall, not later than the May 15 prior to the beginning of such marketing year, proclaim such fact and, during the marketing year beginning July 1 and continuing throughout such marketing year, a national marketing quota shall be in effect with respect to the marketing of wheat. The Secretary shall ascertain and specify in the proclamation the amount of the national marketing quota in terms of a total quantity of wheat and also in terms of a marketing percentage of the national acreage allotment for the current crop which he determines will, on the basis of the national average yield of wheat, produce the amount of the national marketing quota. Marketing quotas for any marketing year shall be in effect with respect to wheat harvested in the calendar year in which such marketing year begins notwithstanding that the wheat is marketed prior to the beginning of such marketing year. No marketing quota with respect to the marketing of wheat shall be in effect for the marketing year beginning July 1, 1938, unless prior to the date of the proclamation of the Secretary, provision has been made by law for the payment, in whole or in part, in 1938 of parity payments with respect to wheat.

Contents of proclamation.

Amount of national marketing quota, computation.

(b) The amount of the national marketing quota for wheat shall be equal to a normal year's domestic consumption and exports plus 30 per centum thereof, less the sum of (1) the estimated carry-over of wheat as of the beginning of the marketing year with respect to which the quota is proclaimed and (2) the estimated amount of wheat which will be used on farms as seed or livestock feed during the marketing year.

Farm marketing quota, computation.

(c) The farm marketing quota for any farm for any marketing year shall be a number of bushels of wheat equal to the sum of—

(1) A number of bushels equal to the normal production of a number of acres determined by applying the marketing percentage specified in the quota proclamation to the farm acreage allotment for the current crop; and

(2) A number of bushels of wheat equal to the amount, or part thereof, of wheat from any previous crop which the farmer has on hand which, had such amount, or part thereof, been marketed during the preceding marketing year in addition to the wheat actually marketed during such preceding marketing year, could have been marketed without penalty.

In no event shall the farm marketing quota for any farm be less than the normal production of half the farm acreage allotment for the farm.

Minimum farm marketing quota.

(d) No farm marketing quota with respect to wheat shall be applicable in any marketing year to any farm on which the normal production of the acreage planted to wheat of the current crop is less than one hundred bushels.

Small crop farms.

#### REFERENDUM

SEC. 336. Between the date of the issuance of any proclamation of any national marketing quota for wheat and June 10, the Secretary shall conduct a referendum, by secret ballot, of farmers who will be subject to the quota specified therein to determine whether such farmers favor or oppose such quota. If more than one-third of the farmers voting in the referendum oppose such quota, the Secretary shall, prior to the effective date of such quota, by proclamation suspend the operation of the national marketing quotas with respect to wheat.

Referendum.

Effect of vote on quota.

#### ADJUSTMENT AND SUSPENSION OF QUOTAS

SEC. 337. (a) If the total supply as proclaimed by the Secretary within forty-five days after the beginning of the marketing year is less than that specified in the proclamation by the Secretary under section 335 (a), then the national marketing quota specified in the proclamation under such section shall be increased accordingly.

Adjustment and suspension of quotas.

(b) Whenever it shall appear from either the July or the August production estimates, officially published by the Division of Crop and Livestock Estimates of the Bureau of Agricultural Economics of the Department, that the total supply of wheat as of the beginning of the marketing year was less than a normal year's domestic consumption and exports plus 30 per centum thereof, the Secretary shall proclaim such fact prior to July 20, or August 20, as the case may be, if farm marketing quotas have been announced with respect to the crop grown in such calendar year. Thereupon such quotas shall become ineffective.

#### TRANSFER OF QUOTAS

SEC. 338. Farm marketing quotas for wheat shall not be transferable, but, in accordance with regulations prescribed by the Secretary for such purpose, any farm marketing quota in excess of the supply of wheat for such farm for any marketing year may be allocated to other farms on which the acreage allotment has not been exceeded.

Transfer of quotas.

#### PENALTIES

SEC. 339. Any farmer who, while farm marketing quotas are in effect, markets wheat in excess of the farm marketing quota for the farm on which such wheat was produced, shall be subject to a penalty of 15 cents per bushel of the excess so marketed.

Penalties.

#### PART IV—MARKETING QUOTAS—COTTON

Part IV—Marketing quotas—Cotton.

#### LEGISLATIVE FINDINGS

SEC. 341. American cotton is a basic source of clothing and industrial products used by every person in the United States and by substantial numbers of people in foreign countries. American cotton is sold on a world-wide market and moves from the places of pro-

Legislative findings.

duction almost entirely in interstate and foreign commerce to processing establishments located throughout the world at places outside the State where the cotton is produced.

Fluctuations in supplies of cotton and the marketing of excessive supplies of cotton in interstate and foreign commerce disrupt the orderly marketing of cotton in such commerce with consequent injury to and destruction of such commerce. Excessive supplies of cotton directly and materially affect the volume of cotton moving in interstate and foreign commerce and cause disparity in prices of cotton and industrial products moving in interstate and foreign commerce with consequent diminution of the volume of such commerce in industrial products.

The conditions affecting the production and marketing of cotton are such that, without Federal assistance, farmers, individually or in cooperation, cannot effectively prevent the recurrence of excessive supplies of cotton and fluctuations in supplies, cannot prevent indiscriminate dumping of excessive supplies on the Nation-wide and foreign markets, cannot maintain normal carry-overs of cotton, and cannot provide for the orderly marketing of cotton in interstate and foreign commerce.

It is in the interest of the general welfare that interstate and foreign commerce in cotton be protected from the burdens caused by the marketing of excessive supplies of cotton in such commerce, that a supply of cotton be maintained which is adequate to meet domestic consumption and export requirements in years of drought, flood, and other adverse conditions as well as in years of plenty, and that the soil resources of the Nation be not wasted in the production of excessive supplies of cotton.

The provisions of this Part affording a cooperative plan to cotton producers are necessary and appropriate to prevent the burdens on interstate and foreign commerce caused by the marketing in such commerce of excessive supplies, and to promote, foster, and maintain an orderly flow of an adequate supply of cotton in such commerce.

#### FINDING AND PROCLAMATION OF SUPPLIES, AND SO FORTH

Finding and proclamation of supplies, etc.

SEC. 342. Not later than November 15 of each year the Secretary shall find and proclaim (a) the total supply, the normal supply, and the carry-over of cotton as of August 1 of such year, (b) the probable domestic consumption of American cotton during the marketing year commencing August 1 of such year, (c) the probable exports of American cotton during such marketing year, and (d) the estimated carry-over of cotton as of the next succeeding August 1. For the marketing year 1937-1938 the Secretary shall make all the findings and proclamations provided for in this section not later than ten days after the date of the enactment of this Act.

#### AMOUNT OF NATIONAL ALLOTMENT

Amount of national allotment.

SEC. 343. (a) Not later than November 15 of each year the Secretary shall find and proclaim the amount of the national allotment of cotton for the succeeding calendar year in terms of standard bales of five hundred pounds gross weight. The national allotment shall be the number of bales of cotton adequate, together with the estimated carry-over as of August 1 of such succeeding calendar year, to make available a supply of cotton, for the marketing year begin-

ning on such August 1, equal to the normal supply. The finding and proclamation of the national allotment for the calendar year 1938 shall be made not later than ten days after the date of the enactment of this Act.

Finding and proclamation of, for 1938; time limitation.

(b) If the national allotment for 1938 or 1939 is determined to be less than ten million bales, the national allotment for such year shall be ten million bales for such year, as the case may be. If the national allotment for 1938 or 1939 is determined to be more than eleven million five hundred thousand bales, it shall be eleven million five hundred thousand bales for such year, as the case may be.

Determination of, for 1938 or 1939.

(c) Notwithstanding the foregoing provisions of this section, the national allotment for 1938 and for 1939 shall be increased by a number of bales equal to the production of the acres allotted under section 344 (e) for such year.

Increase, for 1938 and 1939.  
*Post*, p. 203.

#### APPORTIONMENT OF NATIONAL ALLOTMENT

SEC. 344. (a) The national allotment for cotton for each year (excluding that portion of the national allotment provided for in section 343 (c)) shall be apportioned by the Secretary among the several States on the basis of the average, for the five years preceding the year in which the national allotment is determined, of the normal production of cotton in each State. The normal production of a State for a year shall be (1) the quantity produced therein plus (2) the normal yield of the acres diverted in each county in the State under the previous agricultural adjustment or conservation programs. The normal yield of the acres diverted in any county in any year shall be the average yield per acre of the planted acres in such county in such year times the number of acres diverted in such county in such year.

Apportionment of national allotment.

Basis.

Normal production defined.

(b) The Secretary shall ascertain, on the basis of the average yield per acre in each State, a number of acres in such State which will produce a number of bales equal to the allotment made to the State under subsection (a). Such number of acres is referred to as the "State acreage allotment". The average yield per acre for any State shall be determined on the basis of the average of the normal production for the State for the years used in computing the allotment to the State, and the average, for the same period, of the acres planted and the acres diverted in the State.

"State acreage allotment."  
*Post*, p. 203.

(c) (1) The State acreage allotment (less the amount required for apportionment under paragraph (2)) shall be apportioned annually by the Secretary to the counties in the State. The apportionment to the counties shall be made on the basis of the acreage planted to cotton during the five calendar years immediately preceding the calendar year in which the State allotment is apportioned (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during such five-year period.

County apportionment.

(2) Not more than 2 per centum of the State acreage allotment shall be apportioned to farms in such State which were not used for cotton production during any of the three calendar years immediately preceding the year for which the allotment is made, on the basis of land, labor, and equipment available for the production of cotton; crop rotation practices; and the soil and other physical facilities affecting the production of cotton.

Farms not used for cotton production during preceding three years.

Allotment to county, apportionment among farms through local committees.

Basis.

(d) The allotment apportioned to the county under subsection (c) (1), plus any amount allotted to the county under subsection (e), shall be apportioned by the Secretary, through the local committees, among the farms within the county on the following basis:

(1) To each farm on which cotton has been planted during any of the previous three years there shall be allotted the smaller of the following—

(A) Five acres; or

(B) The highest number of acres planted to cotton (plus the acres diverted from the production of cotton under the agricultural adjustment or conservation programs) in any year of such three-year period;

(2) Not more than 3 per centum of the amount remaining, after making the allotments provided for under paragraph (1), shall be allotted, upon such basis as the Secretary deems fair and equitable, to farms (other than farms to which an allotment has been made under paragraph (1) (B)) to which an allotment of not exceeding fifteen acres may be made under other provisions of this subsection; and

(3) The remainder of the total amount available to the county shall be allotted to farms on which cotton has been planted during any of the previous three years (except farms to which an allotment has been made under paragraph (1) (B)). The allotment to each farm under this paragraph, together with the amount of the allotment to such farm under paragraph (1) (A), shall be a prescribed percentage (which percentage shall be the same for all such farms in the county or administrative area) of the acreage, during the preceding year, on the farm which is tilled annually or in regular rotation, excluding from such acreage the acres devoted to the production of wheat, tobacco, or rice for market or for feeding to livestock for market: *Provided, however,* That if a farm would be allotted under this paragraph an acreage, together with the amount of the allotment to such farm under paragraph (1) (A), in excess of the largest acreage planted to cotton plus the acreage diverted from the production of cotton under the agricultural adjustment or conservation program during any of the preceding three years, the acreage allotment for such farm shall not exceed such largest acreage so planted and diverted in any such year.

(e) For 1938 and 1939, the Secretary shall allot to the several counties, to which an apportionment is made under subsection (c), a number of acres required to provide a total acreage for allotment under this section to such counties of not less than 60 per centum of the sum of (1) the acreage planted to cotton in such counties in 1937, plus (2) the acreage therein diverted from cotton production in 1937 under the agricultural adjustment and conservation program. The acreage so diverted shall be estimated in case data are not available at the time of making such allotment.

(f) In apportioning the county allotment among the farms within the county, the Secretary, through the local committees, shall take into consideration different conditions within separate administrative areas within a county if any exist, including types, kinds, and productivity of the soil so as to prevent discrimination among the administrative areas of the county.

(2) A number of bales equal to the amount, or part thereof, of cotton from any previous crop which the farmer has on hand, which, had such amount, or part thereof, been marketed during the preceding marketing year in addition to the cotton actually marketed during such preceding marketing year, could have been marketed without penalty.

(b) The penalties provided for in section 348 shall not apply to the marketing of cotton produced on any farm for which a farm acreage allotment has been made for the current crop if the production of the current crop does not exceed one thousand pounds of lint cotton.

#### REFERENDUM

SEC. 347. Not later than December 15 of any calendar year in which a proclamation of farm marketing quotas pursuant to the provisions of this Part has been made, the Secretary shall conduct a referendum, by secret ballot, of farmers who were engaged in production of the crop harvested prior to the holding of the referendum to determine whether they favor or oppose such quotas. If more than one-third of the farmers voting in the referendum oppose such quotas, the Secretary shall, prior to the end of such calendar year, proclaim the result of the referendum, and upon such proclamation the quotas shall become ineffective. If a proclamation under section 345 is made with respect to the 1938 crop, the referendum with respect to such crop shall be held not later than thirty days after the date of the enactment of this Act and the result thereof shall be proclaimed not later than forty-five days after such date.

Part V—Marketing  
quotas—Rice.

#### PART V—MARKETING QUOTAS—RICE

##### LEGISLATIVE FINDING

Legislative finding.

SEC. 351. (a) The marketing of rice constitutes one of the great basic industries of the United States with ramifying activities which directly affect interstate and foreign commerce at every point, and stable conditions therein are necessary to the general welfare. Rice produced for market is sold on a Nation-wide market, and, with its products, moves almost wholly in interstate and foreign commerce from the producer to the ultimate consumer. The farmers producing such commodity are subject in their operations to uncontrollable natural causes, in many cases such farmers carry on their farming operations on borrowed money or leased lands, and are not so situated as to be able to organize effectively, as can labor and industry, through unions and corporations enjoying Government sanction and protection for joint economic action. For these reasons, among others, the farmers are unable without Federal assistance to control effectively the orderly marketing of such commodity with the result that abnormally excessive supplies thereof are produced and dumped indiscriminately on the Nation-wide market.

(b) The disorderly marketing of such abnormally excessive supplies affects, burdens, and obstructs interstate and foreign commerce by (1) materially affecting the volume of such commodity marketed therein, (2) disrupting the orderly marketing of such commodity therein, (3) reducing the prices for such commodity with consequent injury and destruction of such commerce in such commodity, and (4) causing a disparity between the prices for such commodity in interstate and foreign commerce and industrial products therein, with a consequent diminution of the volume of interstate and foreign commerce in industrial products.

(c) Whenever an abnormally excessive supply of rice exists, the marketing of such commodity by the producers thereof directly and substantially affects interstate and foreign commerce in such commodity and its products, and the operation of the provisions of this Part becomes necessary and appropriate in order to promote, foster, and maintain an orderly flow of such supply in interstate and foreign commerce.

#### NATIONAL ACREAGE ALLOTMENT

National acreage al-  
lotment.

SEC. 352. The national acreage allotment of rice for any calendar year shall be that acreage which the Secretary determines will, on the basis of the national average yield of rice for the five calendar years immediately preceding the calendar year for which such

national average yield is determined, produce an amount of rice adequate, together with the estimated carry-over from the marketing year ending in such calendar year, to make available a supply for the marketing year commencing in such calendar year not less than the normal supply. Such national acreage allotment shall be proclaimed not later than December 31 of each year.

#### APPORTIONMENT OF NATIONAL ACREAGE ALLOTMENT

SEC. 353. (a) The national acreage allotment of rice for each calendar year shall be apportioned by the Secretary among the several States in which rice is produced in proportion to the average number of acres of rice in each State during the five-year period immediately preceding the calendar year for which such national acreage allotment of rice is determined (plus, in applicable years, the acreage diverted under previous agricultural adjustment and conservation programs) with adjustments for trends in acreage during the applicable period.

(b) Not less than 97 per centum of the acreage allotted to any State shall be apportioned annually by the Secretary through local and State committees of farmers among the persons producing rice within such State on the basis of past production of rice; land, labor, and available equipment for the production of rice; crop-rotation practices, soil fertility, and other physical factors affecting the production of rice: *Provided*, That not exceeding 3 per centum of the acreage allotted to each State shall be apportioned annually by the Secretary through local and State committees of farmers among persons who for the first time in the past five years are producing rice on the basis of the applicable standards of apportionment set forth in this subsection: *Provided further*, That a person producing rice for the first time in five years shall not be allotted an acreage in excess of 75 per centum of the allotment that would be made to him if he were not producing rice for the first time in such five years.

SEC. 354. (a) Not later than December 31 of each year the Secretary shall ascertain from the latest available statistics of the Department and shall proclaim the total amount of rice which will be needed during the next succeeding marketing year to meet the requirements of consumers in the United States. Such amount is hereinafter referred to as the "domestic allotment of rice".

(b) The domestic allotment of rice for each marketing year shall be apportioned by the Secretary among the several States in which rice is produced in proportion to the average amount of rice produced in each State during the five-year period including the calendar year in which such domestic allotment is announced (plus, in applicable years, the normal production of any acreage diverted under previous agricultural adjustment and conservation programs), with adjustments for abnormal weather conditions and trends in acreage during the applicable period.

(c) The Secretary shall provide, through local and State committees of farmers, for the allotment of each State apportionment among persons producing rice in such State. The apportionment of the domestic allotment of rice among persons producing rice in each State shall be on the basis of the aggregate normal yields of the acreage allotments established with respect to such persons.

The Secretary shall also ascertain and specify in such proclamation the amount of the national marketing quota in terms of the total quantity thereof which may be marketed by producers which shall be that amount of rice which the Secretary determines will make available during such marketing year a normal supply.

(b) Within thirty days after the date of the issuance of the proclamation specified in subsection (a) of this section, the Secretary shall conduct a referendum, by secret ballot, of producers who would be subject to the national marketing quota for rice to determine whether such producers are in favor of or opposed to such quota. If more than one-third of the producers voting in the referendum oppose such quota, the Secretary shall, prior to the 15th day of February, proclaim the result of the referendum, and such quota shall not become effective.

(c) The national marketing quota shall be apportioned among States and persons producing rice in each State, including new producers, in the manner and upon the basis set forth in section 354 for the apportionment of the domestic allotment of rice.

(d) Marketing quotas may be transferred only in such manner and subject to such conditions as the Secretary may prescribe by regulations.

## COURT REVIEW

SEC. 366. The review by the court shall be limited to questions of law, and the findings of fact by the review committee, if supported by evidence, shall be conclusive. If application is made to the court for leave to adduce additional evidence, and it is shown to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for failure to adduce such evidence in the hearing before the review committee, the court may direct such additional evidence to be taken before the review committee in such manner and upon such terms and conditions as to the court may seem proper. The review committee may modify its findings of fact or its determination by reason of the additional evidence so taken, and it shall file with the court such modified findings or determination, which findings of fact shall be conclusive. At the earliest convenient time, the court, in term time or vacation, shall hear and determine the case upon the original record of the hearing before the review committee, and upon such record as supplemented if supplemented, by further hearing before the review committee pursuant to direction of the court. not in accordance with law, the court shall remand the proceeding to the review committee with direction either to make such determination as the court shall determine to be in accordance with law or to take such further proceedings as, in the court's opinion, the law requires.

#### STAY OF PROCEEDINGS AND EXCLUSIVE JURISDICTION

Stay of proceedings and exclusive jurisdiction.

SEC. 367. The commencement of judicial proceedings under this Part shall not, unless specifically ordered by the court, operate as a stay of the review committee's determination. Notwithstanding any other provision of law, the jurisdiction conferred by this Part to review the legal validity of a determination made by a review committee pursuant to this Part shall be exclusive. No court of the United States or of any State shall have jurisdiction to pass upon the legal validity of any such determination except in a proceeding under this Part.

#### NO EFFECT ON OTHER QUOTAS

No effect on other quotas.

SEC. 368. Notwithstanding any increase of any farm marketing quota for any farm as a result of review of the determination thereof under this Part, the marketing quotas for other farms shall not be affected.

Part II—Adjustment of quotas and enforcement.

#### PART II.—ADJUSTMENT OF QUOTAS AND ENFORCEMENT

##### GENERAL ADJUSTMENTS OF QUOTAS

General adjustments of quotas.

SEC. 371. (a) If at any time the Secretary has reason to believe that in the case of corn, wheat, cotton, rice, or tobacco the operation of farm marketing quotas in effect will cause the amount of such commodity which is free of marketing restrictions to be less than the normal supply for the marketing year for the commodity then current, he shall cause an immediate investigation to be made with respect thereto. In the course of such investigation due notice and opportunity for hearing shall be given to interested persons. If upon the basis of such investigation the Secretary finds the existence of such fact, he shall proclaim the same forthwith. He shall also in such proclamation specify such increase in, or termination of, existing quotas as he finds, on the basis of such investigation, is necessary to make the amount of such commodity which is free of marketing restrictions equal the normal supply.

Emergencies, etc.

(b) If the Secretary has reason to believe that, because of a national emergency or because of a material increase in export demand, any national marketing quota for corn, wheat, cotton, rice, or tobacco should be increased or terminated, he shall cause an immediate investigation to be made to determine whether the increase or termination is necessary in order to effectuate the declared policy of this Act or to meet such emergency or increase in export demand. If, on the basis of such investigation, the Secretary finds that such increase or termination is necessary, he shall immediately proclaim such finding (and if he finds an increase is necessary, the amount of the increase found by him to be necessary) and thereupon such quota shall be increased, or shall terminate, as the case may be.

National marketing quota increase; effect of.

(c) In case any national marketing quota for any commodity is increased under this section, each farm marketing quota for the commodity shall be increased in the same ratio.

Corn.

(d) In the case of corn, whenever such proclamation specifies an increase in marketing quotas, the storage amounts applicable to corn shall be adjusted downward to the amount which would have been required to be stored if such increased marketing quotas had

been in effect. Whenever in the case of corn, such proclamation provides for termination of marketing quotas, storage under seal shall no longer be required.

#### PAYMENT AND COLLECTION OF PENALTIES

SEC. 372. (a) The penalty with respect to the marketing, by sale, of wheat, cotton, or rice, if the sale is to any person within the United States, shall be collected by the buyer.

(b) All penalties provided for in Subtitle B shall be collected and paid in such manner, at such times, and under such conditions as the Secretary may by regulations prescribe. Such penalties shall be remitted to the Secretary by the person liable for the penalty, except that if any other person is liable for the collection of the penalty, such other person shall remit the penalty. The amount of such penalties shall be covered into the general fund of the Treasury of the United States.

In cases where in 1937 a total or partial crop failure resulted from hail, drought, flood, or boll-weevil infestation, if the producer is otherwise eligible for payment, payment shall be made at the rate of 3 cents per pound on the same percentage of the producer's normal base production established by the Secretary as in the case of other producers. For the purpose of such provisions of the Third Deficiency Appropriation Act, fiscal year 1937, cotton not sold prior to July 1, 1938, shall be held and considered to have been sold on June 30, 1938, and all applications for price adjustment payments shall be filed with the Secretary not later than July 15, 1938. (a) Commencing with the wheat crop planted for harvest in 1939, to insure, upon such terms and conditions not inconsistent with the provisions of this title as it may determine, producers of wheat against loss in yields of wheat due to unavoidable causes, including drought, flood, hail, wind, winterkill, lightning, tornado, insect infestation, plant disease, and such other unavoidable causes as may be determined by the Board: *Provided, however,* That for the first three years of operation under this title contracts of insurance shall not be made for periods longer than one year. Such insurance shall not cover losses due to the neglect or malfeasance of the producer or to the failure of the producer to reseed in areas and under circumstances where it is customary to reseed. Such insurance shall cover not less than 50 or more than 75 per centum, to be determined by the Board, of the recorded or appraised average yield of wheat on the insured farm for a representative base period subject to such adjustments as the Board may prescribe to the end that the average yields fixed for farms in the same area, which are subject to the same conditions, may be fair and just. The Board may condition the issuance of such insurance in any county or area upon a minimum amount of participation in a program of crop insurance formulated pursuant to this title.

(b) To fix adequate premiums for such insurance, payable either in wheat or cash equivalent as of the due date thereof, on the basis of the recorded or appraised average crop loss of wheat on the insured farm for a representative base period subject to such adjustments as the Board may prescribe to the end that the premiums fixed for farms in the same area, which are subject to the same conditions, may be fair and just. Such premiums shall be collected at such time or times, in such manner, and upon such security as the Board may determine.

*Proviso.*  
Time for filing suit.

(d) From time to time, in such manner and through such agencies as the Board may determine, to purchase, handle, store, insure, provide storage facilities for, and sell wheat, and pay any expenses incidental thereto, it being the intent of this provision, however, that, insofar as practicable, the Corporation shall purchase wheat only at the rate and to a total amount equal to the payment of premiums in cash by farmers or to replace promptly wheat sold to prevent deterioration; and shall sell wheat only to the extent necessary to cover payments of indemnities and to prevent deterioration: *Provided, however*, That nothing in this section shall prevent prompt offset purchases and sales of wheat for convenience in handling. The restriction on the purchase and sale of wheat provided in this section shall be made a part of any crop insurance agreement made under this title. Notwithstanding any provision of this title, there shall be no limitation upon the legal or equitable remedies available to the insured to enforce against the Corporation the foregoing restriction with respect to purchases and sales of wheat.

The petition or answer of the farmer shall be accompanied by his schedules. *Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That as of the 31st of March in each year and as soon as possible thereafter, beginning with March 31, 1938, an appraisal of all the assets and liabilities of the Commodity Credit Corporation for the purpose of determining the net worth of the Commodity Credit Corporation shall be made by the Secretary of the Treasury. The value of assets shall, insofar as possible, be determined on the basis of market prices at the time of appraisal and a report of any such appraisal shall be submitted to the President as soon as possible after it has been made. In the event that any such appraisal shall establish that the net worth of the Commodity Credit Corporation is less than \$100,000,000, the Secretary of the Treasury, on behalf of the United States, shall restore the amount of such capital impairment by a contribution to the Commodity Credit Corporation in the amount of such impairment. To enable the Secretary of the Treasury to make such payment to the Commodity Credit Corporation, there is hereby authorized to be appropriated annually, commencing with the fiscal year 1938, out of any money in the Treasury not otherwise appropriated, an amount equal to any capital impairment found to exist by virtue of any appraisal as provided herein.

The Secretary of the Treasury, in his discretion, is authorized to purchase any obligations of the Commodity Credit Corporation issued hereunder, and for such purpose the Secretary of the Treasury is authorized to use as a public-debt transaction the proceeds from the sale of any securities hereafter issued under the Second Liberty Bond Act, as amended, and the purposes for which securities may be issued under such Act, as amended, are extended to include any purchases of the Commodity Credit Corporation's obligations hereunder. The Secretary of the Treasury may at any time sell any of the obligations of the Commodity Credit Corporation acquired by him under this section. “(b) Whenever the Commission shall have reason to believe that any such person, partnership, or corporation has been or is using any unfair method of competition or unfair or deceptive act or practice in commerce, and if it shall appear to the Commission that a proceeding by it in respect thereof would be to the interest of the public, it shall issue and serve upon such person, partnership, or corporation a complaint stating its charges in that respect and containing a notice of a hearing upon a day and at a place therein fixed at least thirty days after the service of said complaint. The person, partnership, or corporation so complained of shall have the right to appear at the place and time so fixed and show cause why an order should not be entered by the Commission requiring such person, partnership, or corporation to cease and desist from the violation of the law so charged in said complaint. Any person, partnership, or corporation may make application, and upon good cause shown may be allowed by the Commission to intervene and appear in said proceeding by counsel or in person. If upon such hearing the Commission shall be of the opinion that the method of competition or the act or practice in question is prohibited by this Act, it shall make a report in writing in which it shall state its findings as to the facts and shall issue and cause to be served on such person, partnership, or corporation an order requiring such person, partnership, or corporation to cease and desist from using such method of competition or such act or practice. Until the expiration of the time allowed for filing a petition for review, if no such petition has been duly filed within such time, or, if a petition for review has been filed within such time then until the transcript of the record in the proceeding has been filed in a circuit court of appeals of the United States, as hereinafter provided, the Commission may at any time, upon such notice and in such manner as it shall deem proper, modify or set aside, in whole or in part, any report or any order made or issued by it under this section. After the expiration of the time allowed for filing a petition for review, if no such petition has been duly filed within such time, the Commission may at any time, after notice and opportunity for hearing, reopen and alter, modify, or set aside, in whole or in part, any report or order made or issued by it under this section, whenever in the opinion of the Commission conditions of fact or of law have so changed as to require such action or if the public interest shall so require: *Provided, however,* That the said person, partnership, or corporation may, within sixty days after service upon him or it of said report or order entered after such a reopening, obtain a review thereof in the appropriate circuit court of appeals of the United States, in the manner provided in subsection (c) of this section.

“(c) Any person, partnership, or corporation required by an order of the Commission to cease and desist from using any method of competition or act or practice may obtain a review of such order in the circuit court of appeals of the United States, within any circuit where the method of competition or the act or practice in question was used or where such person, partnership, or corporation resides or carries on business, by filing in the court, within sixty days from the date of the service of such order, a written petition praying that the order of the Commission be set aside. A copy of such petition shall be forthwith served upon the Commission, and thereupon the Commission forthwith shall certify and file in the court a transcript

of the entire record in the proceeding, including all the evidence taken and the report and order of the Commission. Upon such filing of the petition and transcript the court shall have jurisdiction of the proceeding and of the question determined therein, and shall have power to make and enter upon the pleadings, evidence, and proceedings set forth in such transcript a decree affirming, modifying, or setting aside the order of the Commission, and enforcing the same to the extent that such order is affirmed, and to issue such writs as are ancillary to its jurisdiction or are necessary in its judgment to prevent injury to the public or to competitors pendente lite. The findings of the Commission as to the facts, if supported by evidence, shall be conclusive. To the extent that the order of the Commission is affirmed, the court shall thereupon issue its own order commanding obedience to the terms of such order of the Commission. If either party shall apply to the court for leave to adduce additional evidence, and shall show to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for the failure to adduce such evidence in the proceeding before the Commission, the court may order such additional evidence to be taken before the Commission and to be adduced upon the hearing in such manner and upon such terms and conditions as to the court may seem proper. The Commission may modify its findings as to the facts, or make new findings, by reason of the additional evidence so taken, and it shall file such modified or new findings, which, if supported by evidence, shall be conclusive, and its recommendation, if any, for the modification or setting aside of its original order, with the return of such additional evidence. The judgment and decree of the court shall be final, except that the same shall be subject to review by the Supreme Court upon certiorari, as provided in section 240 of the Judicial Code.

“(d) The jurisdiction of the circuit court of appeals of the United States to affirm, enforce, modify, or set aside orders of the Commission shall be exclusive.

“(e) Such proceedings in the circuit court of appeals shall be given precedence over other cases pending therein, and shall be in every way expedited. No order of the Commission or judgment of court to enforce the same shall in anywise relieve or absolve any person, partnership, or corporation from any liability under the Antitrust Acts.

“(f) Complaints, orders, and other processes of the Commission under this section may be served by anyone duly authorized by the Commission, either (a) by delivering a copy thereof to the person to be served, or to a member of the partnership to be served, or the president, secretary, or other executive officer or a director of the corporation to be served; or (b) by leaving a copy thereof at the residence or the principal office or place of business of such person, partnership, or corporation; or (c) by registering and mailing a copy thereof addressed to such person, partnership, or corporation at his or its residence or principal office or place of business. The verified return by the person so serving said complaint, order, or other process setting forth the manner of said service shall be proof of the same, and the return post office receipt for said complaint, order, or other process registered and mailed as aforesaid shall be proof of the service of the same.

“(g) An order of the Commission to cease and desist shall become final—

## JOINT RESOLUTION

Creating a special joint congressional committee to make an investigation of the Tennessee Valley Authority.

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That for the purpose of obtaining information as a basis for legislation there is hereby created a special joint congressional committee to be composed of five Senators to be appointed by the President of the Senate and five members of the House of Representatives to be appointed by the Speaker of the House of Representatives. A vacancy on the joint committee shall be filled in the same manner as original appointments and shall not affect the power of the remaining members to execute the functions incumbent on the joint committee.

SEC. 2. It shall be the duty of the joint committee to make a full and complete investigation of the administration of the Tennessee Valley Authority Act of 1933, as amended, including the following, but not excluding any other matters pertaining to the administration and policies:

(a) The efficient and economical administration of the Act as amended by the Board of Directors of the Tennessee Valley Authority and any of its subordinates.

(a) (2) The total Federal sums appropriated by the Congress or allocated by the President to the Muscle Shoals project and the Tennessee Valley Authority, and also allocations made to power, navigation, flood control or otherwise, and the cost charged to power recoverable to the Treasury of the United States.

(b) Any interference or handicaps placed in the way of the prompt, efficient, and economical administration of its functions by internal dissension among members of the Board of Directors of the Tennessee Valley Authority and what effect such dissension, if any, has had upon the work of the Authority.

(c) Whether any member of said Board has held office or is holding office in violation of the Act creating the Tennessee Valley Authority; and whether any member of said Board has aided or assisted directly or indirectly any private power company or other private interest in the institution or defense of suits and injunctions affecting the administration of the functions of the Tennessee Valley Authority.

(d) Whether, and if so what, suits have been instigated by any private power company or other private interest seeking injunctions against the activities of the Board; and what effect, if any, such injunctions or suits have had upon the administration of the Act according to its terms; what disposition has been made of any such injunction suits and what has been the expense incurred by the Tennessee Valley Authority in defending them; what disposition has been made of such suits in any superior court to which they have been appealed; and what if any has been the loss of revenue to the Authority on account of such suits.

(e) Whether any financial loss has been caused to municipalities or farm organizations by preventing their purchase of electric power from the Tennessee Valley Authority.

(f) What has been the effect, if any, upon the personnel and organization perfected by the Board under said Act by the prosecution of such injunction suits or by the action of any member of the Board in giving aid or assistance to any private power company or other private interest in connection therewith.

(g) What activities there have been, if any, on the part of any private power company or other private interest in attempting by the expenditure of money or otherwise, the institution of legal pro-

(q) Whether by accounting methods and cost charges applicable to private industry, the electric rates of the Authority provide a legitimate, honest "yardstick" of equitable rates of private industry.

The lessor of a safe-deposit box standing in the joint names of a decedent and a survivor or survivors may deliver the entire contents of such safe-deposit box to the survivor or survivors, after examination of such contents by the assessor or his representative, without any liability on the part of the said lessor for the payment of such tax."

The cost of goods, wares, and merchandise shall be the actual purchase price, including the prevailing freight rate to the dealer's place of business in the District. The burden of proving under which classification the taxpayer shall be taxed shall be upon the taxpayer, and, unless the taxpayer shall by proof satisfactory to the assessor show to the contrary, the spread or difference between the cost of goods, wares, and merchandise sold by the taxpayer and the selling price of such goods, wares, and merchandise shall be presumed to be in excess of 9 per centum of the cost of the goods, wares, and merchandise sold, and the taxpayer shall be taxed accordingly.

"(b) If a taxpayer shall not have been engaged in business during the entire calendar year upon the gross receipts of which the tax imposed by this title is measured, he shall pay the tax imposed by this title measured by his gross receipts during the period of one year from the date when he became so engaged; and if such taxpayer shall not have been so engaged for an entire year prior to the beginning of the fiscal year for which the tax is imposed then the tax imposed shall be measured by his gross receipts during the period in which he was so engaged multiplied by a fraction, the numerator of which shall be 365 and the denominator of which shall be the number of days in which he was so engaged.

"(c) If a person liable for the tax during any year or portion of a year for which the tax is computed acquires the assets or franchises of or merges or consolidates his business with the business of any other person or persons, such person liable for the tax shall report, as his gross receipts by which the tax is to be measured, the gross receipts for such year of such other person or persons together with his own gross receipts during such year.

SEC. 2. (a) The electric energy generated in the operation of the said Fort Peck project shall be disposed of by the Bureau as hereinafter provided. The Bureau shall exercise the powers and perform the duties provided for in this Act under the supervision and direction of the Secretary of the Interior in accordance with the Act of May 26, 1926 (44 Stat. 657). The Bureau shall, as hereinafter provided, make all arrangements for the sale and disposition of electric energy generated at the Fort Peck project not required for the operation of the dam at such project and the navigation facilities employed in connection therewith. The form of administration herein established for the Fort Peck project is intended to be provisional pending the establishment of a permanent administration for Fort Peck and other projects in the Missouri River Basin. The Secretary of War shall install and maintain additional machinery, equipment, and facilities for the generation of electric energy at the Fort Peck project when in the judgment of the Bureau such additional generating facilities are desirable to meet actual or potential market requirements for such electric energy. The Secretary of War shall schedule the operations of the several electrical generating units and appurtenant equipment of the Fort Peck project in accordance with the requirements of the Bureau. The Secretary of War shall provide and maintain for the use of the Bureau at said Fort Peck project adequate station space and equipment, including such switches, switchboards, instruments, and dispatching facilities as may be required by the Bureau for proper reception, handling, and dispatching of the electric energy produced at the said project, together with transformers and other equipment required by the Bureau for the transmission of such energy from that place at suitable voltage to the markets which the Bureau desires to serve.

(b) In order to encourage the widest possible use of all electric energy that can be generated and marketed and to provide reasonable outlets therefor, and to prevent the monopolization thereof by limited groups, the Bureau is authorized and directed to provide, construct, operate, maintain, and improve such electric transmission lines and substations, and facilities and structures appurtenant thereto, as it finds necessary, desirable, or appropriate for the purpose of transmitting electric energy, available for sale, from the Fort Peck project to existing and potential markets, and, for the purpose of interchange of electric energy, to interconnect the Fort Peck project with either private or with other Federal projects and publicly owned power systems now or hereafter constructed.

(c) The Secretary of the Interior is authorized, in the name of the United States, to acquire, by purchase, lease, condemnation, or donation, such real and personal property, or any interest therein, including lands, easements, rights-of-way, franchises, electric transmission lines, substations, and facilities and structures appurtenant thereto, as he finds necessary or appropriate to carry out the purposes of this Act. Title to all property and property rights acquired by said Secretary shall be taken in the name of the United States.

(d) The Secretary of the Interior shall have power to acquire any property or property rights, including patent rights, which in his opinion are necessary to carry out the purposes of this Act, by purchase, lease, donation, or by the exercise of the right of eminent

domain and to institute condemnation proceedings therefor in the same manner as is provided by law for the condemnation of real estate.

(e) The Secretary of the Interior is authorized, in the name of the United States, to sell, lease, or otherwise dispose of such personal property as in his judgment is not required for the purposes of this Act and such real property and interests in land acquired in connection with construction or operation of electric transmission lines or substations as in his judgment are not required for the purposes of this Act.

Disposal of personal property.

Real property, etc.

(f) Subject to the provisions of this Act, the Bureau is authorized, in the name of the United States, to negotiate and enter into such contracts, agreements, and arrangements as it shall find necessary or appropriate to carry out the purposes of this Act.

Contracts, etc., authorized.

SEC. 3. As employed in this Act, the term "public body," or "public bodies," means States, public power districts, counties, and municipalities, including agencies or subdivisions of any thereof.

Terms defined.  
"Public body";  
"public bodies."

As employed in this Act, the term "cooperative," or "cooperatives," means any form of nonprofit-making organization or organizations of citizens supplying, or which may be created to supply, members with any kind of goods, commodities, or services, as nearly as possible at cost.

"Cooperative"; "cooperatives."

SEC. 4. In order to insure that the facilities for the generation of electric energy at the Fort Peck project shall be operated for the benefit of the general public, and particularly of domestic and rural consumers, the Bureau shall at all times, in disposing of electric energy generated at said project, give preference and priority to public bodies and cooperatives.

Disposal of power; preferences, etc.

SEC. 5. Schedules of rates and charges for electric energy produced at the Fort Peck project and sold to purchasers as in this Act provided shall be prepared by the Bureau and become effective upon confirmation and approval thereof by the Federal Power Commission. Subject to confirmation and approval by the Federal Power Commission, such rate schedules may be modified from time to time by the Bureau and shall be fixed and established with a view to encouraging the widest possible diversified use of electric energy. The said rate schedules may provide for uniform rate or rates uniform throughout prescribed transmission areas in order to extend the benefits of an integrated transmission system and encourage the equitable distribution of the electric energy developed at the Fort Peck project.

Schedules of rates and charges.

Uniformity.

SEC. 6. It is the intent of Congress that rate schedules for the sale of electric energy which is or may be generated at the Fort Peck project in excess of the amount required for operating the dam and appurtenant works at said project shall be determined with due regard to and predicated upon the fact that such electric energy is developed from water power created as an incident to the construction of the dam in the Missouri River at the Fort Peck project for the purposes set forth in section 1 of this Act. Rate schedules shall be drawn having regard to the recovery (upon the basis of the application of such rate schedules to the capacity of the electric facilities of Fort Peck project) of the cost of producing and transmitting such electric energy, including the amortization of the capital investment over a reasonable period of years. Rate schedules shall be based upon an allocation of costs made by the Federal Power Commission. In computing the cost of electric energy developed from water power created as an incident to and a byproduct of the construction of Fort Peck project, the Federal Power Commission may allocate to the costs of electric facilities such a share of the cost of facilities having joint

SEC. 7. Notwithstanding any other provision of law, all purchases and contracts made by the Bureau or the Secretary of War for supplies or for services, except for personal services, shall be made after advertising, in such manner and at such times, sufficiently in advance of opening bids, as the Bureau or Secretary of War, as the case may be, shall determine to be adequate to insure notice and opportunity for competition. Such advertisement shall not be required, however, when (1) an emergency requires immediate delivery of the supplies or performance of the services; or (2) repair parts, accessories, supplemental equipment, or services are required for supplies or services previously furnished or contracted for; or (3) the aggregate amount involved in any purchase of supplies or procurement of services does not exceed \$500; in which cases such purchase of supplies or procurement of services may be made in the open market in the manner common among businessmen. In comparing bids and in making awards, the Bureau or the Secretary of War, as the case may be, may consider such factors as relative quality and adaptability of supplies or services, the bidder's financial responsibility, skill, experience, record of integrity in dealing, and ability to furnish repairs and maintenance services, the time of delivery or performance offered, and whether the bidder has complied with the specifications.

SEC. 8. (a) The Bureau, subject to the requirements of the Federal Water Power Act, shall keep complete and accurate accounts of operations, including all funds expended and received in connection with transmission and sale of electric energy generated at the Fort Peck project.

(b) The Bureau may make such expenditures for offices, vehicles, furnishings, equipment, supplies, and books; for attendance at meetings; and for such other facilities and services as it may find necessary for the proper administration of this Act.

(c) In December of each year, the Secretary of the Interior shall file with the Congress a financial statement and a complete report as to the transmission and sale of electric energy generated at the Fort Peck project during the preceding governmental fiscal year.

SEC. 9. The Secretary of the Interior, the Secretary of War, and the Federal Power Commission, respectively, shall appoint such attorneys, engineers, and other experts as may be necessary for carrying out the functions entrusted to them under this Act, without regard to the provisions of the civil-service laws, and shall fix the compensation of each of such attorneys, engineers, and other experts at not to exceed \$7,500 per annum; and they may, subject to the civil-service laws, appoint such other officers and employees as may be necessary to carry out such functions and fix their salaries in accordance with the Classification Act of 1923, as amended. In the administration of this Act the services of regular employees in the Bureau may be utilized and an equitable part of the salaries of such employees whose services are thus utilized may be charged by the Bureau to the operating costs of the power features of the Fort Peck project. The Bureau similarly may utilize and charge for facilities of the Bureau which economically can be used in connection with the administration of this Act.

SEC. 10. All receipts from transmission and sale of electric energy generated at the Fort Peck project shall be covered into the Treasury of the United States to the credit of miscellaneous receipts,

save and except that the Treasury shall set up and maintain from such receipts a continuing fund of \$500,000, to the credit of the Bureau and subject to expenditure by it, to defray the operating expense of generation and transmission of power delivered to the Bureau for disposal under this Act, to defray emergency expenses and to insure continuous operation. There is hereby authorized to be appropriated from time to time, out of moneys in the Treasury not otherwise appropriated, such sums as may be necessary to carry out the provisions of this Act, including installation of equipment and machinery for the generation of electric energy, and facilities for its transmission and sale.

Continuing fund to be set up, etc.

Emergency expenses, etc.  
Appropriations authorized.

SEC. 11. The Secretary of the Interior may, in the name of the United States, under the supervision of the Attorney General, bring such suits at law or in equity as in his judgment may be necessary to carry out the purposes of this Act; and he shall be represented in the prosecution and defense of all litigation affecting the status or operation of the Fort Peck project by the United States attorneys for the districts, respectively, in which such litigation may arise, or by such attorney or attorneys as the Attorney General may designate as authorized by law, in conjunction with the regularly employed attorneys of the Bureau.

Suits necessary for execution of Act authorized.

SEC. 12. If any provision of this Act or the application of such provision to any person or circumstances shall be held invalid, the remainder of the Act and the application of such provisions to persons or circumstances other than those as to which it is held invalid shall not be affected thereby.

Separability provision.

Approved, May 18, 1938.

(4) **EARNED INCOME DEFINITIONS.**—For the purposes of this section—

“Earned income.”

(A) “Earned income” means wages, salaries, professional fees, and other amounts received as compensation for personal services actually rendered, but does not include any amount not included in gross income, nor that part of the compensation derived by the taxpayer for personal services rendered by him to a corporation which represents a distribution of earnings or profits rather than a reasonable allowance as compensation for the personal services actually rendered. In the case of a taxpayer engaged in a trade or business in which both personal services and capital are material income producing factors, a reasonable allowance as compensation for the personal services actually rendered by the taxpayer, not in excess of 20 per centum of his share of the net profits of such trade or business, shall be considered as earned income.

“Earned income deductions.”

(B) “Earned income deductions” means such deductions as are allowed by section 23 for the purpose of computing net income, and are properly allocable to or chargeable against earned income.

“Earned net income.”

(C) “Earned net income” means the excess of the amount of the earned income over the sum of the earned income deductions. If the taxpayer’s net income is not more than \$3,000, his entire net income shall be considered to be earned net income, and if his net income is more than \$3,000, his earned net income shall not be considered to be less than \$3,000. In no case shall the earned net income be considered to be more than \$14,000.

A husband and wife living together shall receive but one personal exemption. The amount of such personal exemption shall be \$2,500. If such husband and wife make separate returns, the personal exemption may be taken by either or divided between them.

(2) **CREDIT FOR DEPENDENTS.**—\$400 for each person (other than husband or wife) dependent upon and receiving his chief support from the taxpayer if such dependent person is under eighteen years of age or is incapable of self-support because mentally or physically defective.

Credit for dependents.

(3) **CHANGE OF STATUS.**—If the status of the taxpayer, insofar as it affects the personal exemption or credit for dependents, changes during the taxable year, the personal exemption and credit shall be apportioned, under rules and regulations prescribed by the Commissioner with the approval of the Secretary, in accordance with the number of months before and after such change. For the purpose of such apportionment a fractional part of a month shall be disregarded unless it amounts to more than half a month in which case it shall be considered as a month.

The credit allowed by this subsection shall not be allowed in respect of dividends received from a corporation organized under the China Trade Act, 1922, or from a corporation which under section 251 is taxable only on its gross income from sources within the United States by reason of its receiving a large percentage of its gross income from sources within a possession of the United States.

## SEC. 27. CORPORATION DIVIDENDS PAID CREDIT.

Definition in gen-  
eral.  
"Dividends paid  
credit" defined.

(a) **DEFINITION IN GENERAL.**—As used in this title with respect to any taxable year the term "dividends paid credit" means the sum of:

(1) The basic surtax credit for such year, computed as provided in subsection (b);

(2) The dividend carry-over to such year, computed as provided in subsection (c);

(3) The amount, if any, by which any deficit in the accumulated earnings and profits, as of the close of the preceding taxable year (whether beginning on, before, or after January 1, 1938), exceeds the amount of the credit provided in section 26 (c) (relating to net operating losses), for such preceding taxable year (if beginning after December 31, 1937); and

(4) Amounts used or irrevocably set aside to pay or to retire indebtedness of any kind, if such amounts are reasonable with respect to the size and terms of such indebtedness. As used in this paragraph the term "indebtedness" means only an indebtedness of the corporation existing at the close of business on December 31, 1937, and evidenced by a bond, note, debenture, certificate of indebtedness, mortgage, or deed of trust, issued by the corporation and in existence at the close of business on December 31, 1937, or by a bill of exchange accepted by the corporation prior to, and in existence at, the close of business on such date. Where the indebtedness is for a principal sum, with interest, no credit shall be allowed under this paragraph for amounts used or set aside to pay such interest.

"Indebtedness" de-  
fined.

(b) **BASIC SURTAX CREDIT.**—As used in this title the term "basic surtax credit" means the sum of:

"Basic surtax cred-  
it" defined.

(1) The dividends paid during the taxable year, increased by the consent dividends credit provided in section 28, and reduced by the amount of the credit provided in section 26 (a), relating to interest on certain obligations of the United States and Government corporations;

(2) In the case of a taxable year beginning after December 31, 1938, the net operating loss credit provided in section 26 (c) (1);

(3) The bank affiliate credit provided in section 26 (d).

The aggregate of the amounts under paragraphs (2) and (3) shall not exceed the adjusted net income for the taxable year.

(c) **DIVIDEND CARRY-OVER.**—There shall be computed with respect to each taxable year of a corporation a dividend carry-over to such year from the two preceding taxable years, which shall consist of the sum of—

(1) The amount of the basic surtax credit for the second preceding taxable year, reduced by the adjusted net income for such year, and further reduced by the amount, if any, by which the adjusted net income for the first preceding taxable year exceeds the sum of—

(A) The basic surtax credit for such year; and

(B) The excess, if any, of the basic surtax credit for the third preceding taxable year (if not beginning before January 1, 1936) over the adjusted net income for such year; and

(2) The amount, if any, by which the basic surtax credit for the first preceding taxable year exceeds the adjusted net income for such year.

In the case of a preceding taxable year, referred to in this subsection, which begins in 1936 or 1937, the adjusted net income shall be the adjusted net income as defined in section 14 of the Revenue Act of 1936, and the basic surtax credit shall be only the dividends paid credit computed under the Revenue Act of 1936 without the benefit of the dividend carry-over provided in section 27 (b) of such Act.

(d) **DIVIDENDS IN KIND.**—If a dividend is paid in property other than money (including stock of the corporation if held by the corporation as an investment) the amount with respect thereto which shall be used in computing the basic surtax credit shall be the adjusted basis of the property in the hands of the corporation at the time of the payment, or the fair market value of the property at the time of the payment, whichever is the lower.

(e) **DIVIDENDS IN OBLIGATIONS OF THE CORPORATION.**—If a dividend is paid in obligations of the corporation, the amount with respect thereto which shall be used in computing the basic surtax credit shall be the face value of the obligations, or their fair market value at the time of the payment, whichever is the lower. If the fair market value of any such dividend paid in any taxable year of the corporation beginning after December 31, 1935, is lower than the face value, then when the obligation is redeemed by the corporation in a taxable year of the corporation beginning after December 31, 1937, the excess of the amount for which redeemed over the fair market value at the time of the dividend payment (to the extent not allowable as a deduction in computing net income for any taxable year) shall be treated as a dividend paid in the taxable year in which the redemption occurs.

(f) **TAXABLE STOCK DIVIDENDS.**—In case of a stock dividend or stock right which is a taxable dividend in the hands of shareholders under section 115 (f), the amount with respect thereto which shall be used in computing the basic surtax credit shall be the fair market value of the stock or the stock right at the time of the payment.

(g) **DISTRIBUTIONS IN LIQUIDATION.**—In the case of amounts distributed in liquidation the part of such distribution which is properly chargeable to the earnings or profits accumulated after February 28, 1913, shall, for the purposes of computing the basic surtax credit under this section, be treated as a taxable dividend paid.

Preferential dividends.

(h) **PREFERENTIAL DIVIDENDS.**—The amount of any distribution (although each portion thereof is received by a shareholder as a taxable dividend), not made in connection with a consent distribution (as defined in section 28 (a) (4)), shall not be considered as dividends paid for the purpose of computing the basic surtax credit, unless such distribution is pro rata, with no preference to any share of stock as compared with other shares of the same class, and with no preference to one class of stock as compared with another class except to the extent that the former is entitled (without reference to waivers of their rights by shareholders) to such preference. For a distribution made in connection with a consent distribution, see section 28.

Nontaxable distributions.

(i) **NONTAXABLE DISTRIBUTIONS.**—If any part of a distribution (including stock dividends and stock rights) is not a taxable dividend in the hands of such of the shareholders as are subject to taxation under this title for the period in which the distribution is made, such part shall not be included in computing the basic surtax credit.

Consent dividends credit.

## SEC. 28. CONSENT DIVIDENDS CREDIT.

Definitions.

(a) **DEFINITIONS.**—As used in this section—

“Consent stock.”

(1) **CONSENT STOCK.**—The term “consent stock” means the class or classes of stock entitled, after the payment of preferred dividends (as defined in paragraph (2)), to a share in the distribution (other than in complete or partial liquidation) within the taxable year of all the remaining earnings or profits, which share constitutes the same proportion of such distribution regardless of the amount of such distribution.

“Preferred dividends.”

(2) **PREFERRED DIVIDENDS.**—The term “preferred dividends” means a distribution (other than in complete or partial liquidation), limited in amount, which must be made on any class of stock before a further distribution (other than in complete or partial liquidation) of earnings or profits may be made within the taxable year.

“Consent dividends day.”

(3) **CONSENT DIVIDENDS DAY.**—The term “consent dividends day” means the last day of the taxable year of the corporation, unless during the last month of such year there have occurred one or more days on which was payable a partial distribution (as defined in paragraph (5)), in which case it means the last of such days.

“Consent distribution.”

(4) **CONSENT DISTRIBUTION.**—The term “consent distribution” means the distribution which would have been made if on the consent dividends day (as defined in paragraph (3)) there had actually been distributed in cash and received by each shareholder making a consent filed by the corporation under subsection (d), the specific amount stated in such consent.

“Partial distribution.”

(5) **PARTIAL DISTRIBUTION.**—The term “partial distribution” means such part of an actual distribution, payable during the last month of the taxable year of the corporation, as constitutes a distribution on the whole or any part of the consent stock (as defined in paragraph (1)), which part of the distribution, if considered by itself and not in connection with a consent distribution (as defined in paragraph (4)), would be a preferential distribution, as defined in paragraph (6).

“Preferential distribution.”

(6) **PREFERENTIAL DISTRIBUTION.**—The term “preferential distribution” means a distribution which is not pro rata, or which is with preference to any share of stock as compared with other shares of the same class, or to any class of consent stock as compared with any other class of consent stock.

(b) **CORPORATIONS NOT ENTITLED TO CREDIT.**—A corporation shall not to <sup>1</sup> be entitled to a consent dividends credit with respect to any taxable year—

Corporations not entitled to credit.

(1) Unless, at the close of such year, all preferred dividends (for the taxable year and, if cumulative, for prior taxable years) have been paid; or

(2) If, at any time during such year, the corporation has taken any steps in, or in pursuance of a plan of, complete or partial liquidation of all or any part of the consent stock.

(c) **ALLOWANCE OF CREDIT.**—There shall be allowed to the corporation, as a part of its basic surtax credit for the taxable year, a consent dividends credit equal to such portion of the total sum agreed to be included in the gross income of shareholders by their consents filed under subsection (d) as it would have been entitled to include in computing its basic surtax credit if actual distribution of an amount equal to such total sum had been made in cash and each shareholder making such a consent had received, on the consent dividends day, the amount specified in the consent.

Allowance of credit.

(d) **SHAREHOLDERS' CONSENTS.**—The corporation shall not be entitled to a consent dividends credit with respect to any taxable year—

Shareholders' consents.

(1) Unless it files with its return for such year (in accordance with regulations prescribed by the Commissioner with the approval of the Secretary) signed consents made under oath by persons who were shareholders, on the last day of the taxable year of the corporation, of any class of consent stock; and

(2) Unless in each such consent the shareholder agrees that he will include as a taxable dividend, in his return for the taxable year in which or with which the taxable year of the corporation ends, a specific amount; and

(3) Unless the consents filed are made by such of the shareholders and the amount specified in each consent is such, that the consent distribution would not have been a preferential distribution—

(A) If there was no partial distribution during the last month of the taxable year of the corporation, or

(B) If there was such a partial distribution, then when considered in connection with such partial distribution;

and

(4) Unless in each consent made by a shareholder who is taxable with respect to a dividend only if received from sources within the United States, such shareholder agrees that the specific amount stated in the consent shall be considered as a dividend received by him from sources within the United States; and

(5) Unless each consent filed is accompanied by cash, or such other medium of payment as the Commissioner may by regulations authorize, in an amount equal to the amount that would be required by section 143 (b) or 144 to be deducted and withheld by the corporation if the amount specified in the consent had been, on the last day of the taxable year of the corporation, paid to the shareholder in cash as a dividend. The amount accompanying the consent shall be credited against the tax imposed by section 211 (a) or 231 (a) upon the shareholder.

Post, pp. 512, 513.

Post, pp. 527, 530.

(e) **CONSENT DISTRIBUTION AS PART OF ENTIRE DISTRIBUTION.**—If during the last month of the taxable year with respect to which shareholders' consents are filed by the corporation under subsection (d) there is made a partial distribution, then, for the purposes of this

Consent distribution as part of entire distribution.

<sup>1</sup> So in original.

title, such partial distribution and the consent distribution shall be considered as having been made in connection with each other and each shall be considered together with the other as one entire distribution.

Taxability of amounts specified in consents.

(f) **TAXABILITY OF AMOUNTS SPECIFIED IN CONSENTS.**—The total amount specified in a consent filed under subsection (d) shall be included as a taxable dividend in the gross income of the shareholder making such consent, and, if the shareholder is taxable with respect to a dividend only if received from sources within the United States, shall be included in the computation of his tax as a dividend received from sources within the United States; regardless of—

(1) Whether he actually so includes it in his return; and

(2) Whether the distribution by the corporation of an amount equal to the total sum included in all the consents filed, had actual distribution been made, would have been in whole or in part a taxable dividend; and

(3) Whether the corporation is entitled to any consent dividends credit by reason of the filing of such consents, or to a credit less than the total sum included in all the consents filed.

Corporate shareholders.

(g) **CORPORATE SHAREHOLDERS.**—If the shareholder who makes the consent is a corporation, the amount specified in the consent shall be considered as part of its earnings or profits for the taxable year, and shall be included in the computation of its accumulated earnings and profits.

Basis of stock in hands of shareholders.

(h) **BASIS OF STOCK IN HANDS OF SHAREHOLDERS.**—The amount specified in a consent made under subsection (d) shall, for the purpose of adjusting the basis of the consent stock with respect to which the consent was given, be treated as having been reinvested by the shareholder as a contribution to the capital of the corporation; but only in an amount which bears the same ratio to the consent dividends credit of the corporation as the amount of such shareholder's consent stock bears to the total amount of consent stock with respect to which consents are made.

Effect on capital account of corporation.

(i) **EFFECT ON CAPITAL ACCOUNT OF CORPORATION.**—The amount of the consent dividends credit allowed under subsection (c) shall be considered as paid in surplus or as a contribution to the capital of the corporation, and the accumulated earnings and profits as of the close of the taxable year shall be correspondingly reduced.

Amounts not included in shareholder's return.

(j) **AMOUNTS NOT INCLUDED IN SHAREHOLDER'S RETURN.**—The failure of a shareholder of consent stock to include in his gross income for the proper taxable year the amount specified in the consent made by him and filed by the corporation, shall have the same effect, with respect to the deficiency resulting therefrom, as is provided in section 272 (f) with respect to a deficiency resulting from a mathematical error appearing on the face of the return.
