COMMENDATION OF FARMERS

July 8, 1943  
[H. Con. Res. 12]

*Resolved by the House of Representatives (the Senate concurring),* That it is the sense of the Congress that—

(1) The production of adequate supplies of food, feed, and fiber is as essential to the successful prosecution of the war as the production and manufacture of actual munitions of war;

(2) Farmers are handicapped in obtaining farm equipment, materials, manpower, and supplies that are needed in order to produce enough food, feed, and fiber to meet the requirements of the war food production program; and

(3) The authorities responsible for the allocation of critical material, manpower, and supplies in giving consideration to the needs of farmers and of the persons who supply farmers with equipment, materials, and supplies must consider the needs of farmers to be of equal importance to the needs of war industries.

It is further the sense of the Congress that the Congress should, and it hereby does, commend the farmers of the United States for the manner in which they have shown their patriotism in response to the many demands that have been made upon them to aid in the effective prosecution of the war.

## FLAG DAY, 1943

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

May 3, 1943  
[No. 2586]

## A PROCLAMATION

June 14 has for many years been set aside as Flag Day in honor of the emblem of our national strength and unity. This year the Stars and Stripes is a battle emblem flying in the deserts and jungles and over arctic snows. It flies with our men in Africa, Australia, New Zealand, China, Burma, and the Aleutians, and in fastnesses of the world so remote that the American flag has never been seen there before. In the Coral Sea and the Atlantic and Pacific, it is a mark of hope to our allies and of despair to our enemies. Our colors have found their way to the heart of the enemy over Berlin and Tokyo.

We know that our flag is not fighting alone. This year the flags of thirty-two United Nations are marching together, borne forward by the bravery of free men. Together they are the emblem of a gathering offensive that shall liberate the world. As brothers in arms, we of the United Nations have pledged to one another our mutual strength until total victory is won and peace assured.

Our armies, our navies, and our air forces are now perfecting the teamwork with our allies which shall, under God, bring victory in this great cause to which freedom-loving mankind has dedicated itself. Made strong by our common bonds, we shall face the future with resolution and rededicate ourselves to the achievement of permanent collaboration among nations and security for all men. For only by teamwork can we win the war and establish a lasting peace.

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby ask that on Flag Day, June 14, 1943, the people of our Nation honor the peoples of the United Kingdom of Great Britain and Northern Ireland, the Union of Soviet Socialist Republics, China, Australia, Belgium, Bolivia, Brazil, Canada, Costa Rica, Cuba, Czechoslovakia, the Dominican Republic, El Salvador, Ethiopia, Greece, Guatemala, Haiti, Honduras, India, Iraq, Luxembourg, Mexico, the Netherlands, New Zealand, Nicaragua, Norway, Panama, the Commonwealth of the Philippines, Poland, the Union of South Africa, and Yugoslavia.

I direct the officials of the Federal Government, and I request the officials of the State and local governments, to have our colors displayed on all Government buildings on Flag Day, and I urge the people of the United States on that day to fly the American flag from their homes and to arrange, where feasible, for joint displays of the emblems of the freedom-loving nations.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

### THIRD WAR LOAN DRIVE

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

July 26, 1943  
[No. 2890]

### A PROCLAMATION

Recognizing the fact that in carrying the war into enemy territory, we shall need greater amounts of money than any nation has ever asked from its citizens in all history, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do officially proclaim that on Thursday, the ninth of September, 1943, the Third War Loan shall be launched.

Third War Loan  
launching, Sept. 9,  
1943.

As Commander-in-Chief, I hereby invoke every citizen to give all possible aid and support to this Third War Loan drive, not only so that our financial goal may be reached, but to encourage and inspire those of our husbands and fathers and sons who are under fire on a dozen fronts all over the world. It is my earnest hope that every American will realize that in buying War Bonds in this Third War Loan he has an opportunity to express voluntarily and under the guidance of his conscience, the extent to which he will "back the attack."

The American people supported well the first and second War Loan drives and in fact did even more than was asked of them. Our need for money now is greater than ever, and will continue to grow until the very day that Victory is won; so we must ask far more sacrifice, far more cooperation than ever before.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington, this 26th day of July, in the year of our Lord nineteen hundred and forty-three, and of the [SEAL] Independence of the United States of America the one hundred and sixty-eighth.

## FIRE PREVENTION WEEK, 1943

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

August 30, 1943  
[No. 2592]

## A PROCLAMATION

This Nation's war program is menaced by an alarming increase in preventable fire losses. Since Pearl Harbor the destruction caused by fire in the United States has been comparable to the damage caused by all enemy bombing over England during the first two years of the war. The loss to this Nation is just as real as if the destruction had been wrought by enemy bombers over America, or by saboteurs.

These preventable fires are being measured in thousands of workers killed and disabled; vast destruction of critical raw materials, food, and other vital supplies for our armed forces and civilian population; the ruin of war plants, factories, homes, and machinery—in many cases for the duration of the war. Fires are bringing costly delays in the production and transportation of airplanes, ships, tanks, and guns—delays that mean a postponement of victory and the lives of many of our men on the fighting fronts.

Today it is vitally necessary that we prevent destructive fire. Every State in the Union shares this responsibility. Every community must make an extra and thorough effort to detect and eliminate fire hazards. Only by this united endeavor can America guard her productive power against fire and eliminate a major hazard that threatens seriously to reduce supplies of war materials, food, clothing, and other essentials required by our fighting men overseas and by our civilians at home. The cause was never so clear; the need was never so great.

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby designate the week beginning October 3, 1943, as Fire Prevention Week. I earnestly request the people of the country to take unusually active measures during that week, and throughout the year, to conserve our human and material resources from destruction by fire. I call upon State and local governments, the Chamber of Commerce of the United States, the National Fire Waste Council, upon all business and labor organizations, the pulpit, educators, civic groups, the press, the radio, and the motion-picture industry to initiate programs that will vividly bring home to all our people the dangers of fire and the methods of controlling it. Further, I direct the Office of Civilian Defense, the Department of Agriculture, the War Production Board, the protective services of the War and Navy Departments, and other appropriate Federal agencies to lend their active support and assistance to the attainment of these objectives.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 30<sup>th</sup> day of August, in the year of our Lord nineteen hundred and forty-three, and [SEAL] of the Independence of the United States of America the one hundred and sixty-eighth.

### THANKSGIVING DAY, 1943

November 11, 1943

[No. 2600]

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

### A PROCLAMATION

God's help to us has been great in this year of march toward world-wide liberty. In brotherhood with warriors of other United Nations our gallant men have won victories, have freed our homes from fear, have made tyranny tremble, and have laid the foundation for freedom of life in a world which will be free.

Our forges and hearths and mills have wrought well; and our weapons have not failed. Our farmers, Victory gardeners, and crop volunteers have gathered and stored a heavy harvest in the barns and bins and cellars. Our total food production for the year is the greatest in the annals of our country.

For all these things we are devoutly thankful, knowing also that so great mercies exact from us the greatest measure of sacrifice and service.

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby designate Thursday,

Designation of Nov. 25, 1943 as Thanksgiving Day.

November 25, 1943, as a day for expressing our thanks to God for His blessings. November having been set aside as "Food Fights for Freedom" month, it is fitting that Thanksgiving Day be made the culmination of the observance of the month by a high resolve on the part of all to produce and save food and to "share and play square" with food.

May we on Thanksgiving Day and on every day express our gratitude and zealously devote ourselves to our duties as individuals and as a nation. May each of us dedicate his utmost efforts to speeding the victory which will bring new opportunities for peace and brotherhood among men.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the city of Washington this 11th day of November, in the year of our Lord nineteen hundred and forty-three, [SEAL] and of the Independence of the United States of America the one hundred and sixty-eighth.

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

#### A PROCLAMATION

At the end of the year 1943, which has not only made manifest the devotion and courage of our nation's sons but has also crowned their efforts with brilliant success on every battle front, it is fitting that we set aside a day of prayer to give thanks to Almighty God for His constant providence over us in every hour of national peace and national peril.

At the beginning of the new year 1944, which now lies before us, it is fitting that we pray to be preserved from false pride of accomplishment and from willful neglect of the last measure of public and private sacrifice necessary to attain final victory and peace. May we humbly seek strength and guidance for the problems of widening warfare and for the responsibilities of increasing victory. May we find in the infinite mercy of the God of our Fathers some measure of comfort for the personal anxieties of separation and anguish of bereavement.

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby appoint Saturday, the first day of January 1944, as a day of prayer for all of us, in our churches, in our homes, and in our hearts, those of us who walk in the familiar paths of home, those who fight on the wide battlefields of

The Government of the United States of America will cooperate with the Government of the Republic of China for the reaching of any necessary agreements with other governments concerned for the transfer to the Government of the Republic of China of the administration and control of the International Settlements at Shanghai and Amoy, including the official assets and the official obligations of those Settlements, it being mutually understood that the Government of the Republic of China in taking over administration and control of those Settlements will make provision for the assumption and discharge of the official obligations and liabilities of those Settlements and for the recognition and protection of all legitimate rights therein.

### ARTICLE IV

In order to obviate any questions as to existing rights in respect of or as to existing titles to real property in territory of the Republic of China possessed by nationals (including corporations or associations), or by the Government, of the United States of America, particularly questions which might arise from the abrogation of the provisions of treaties or agreements as stipulated in Article I, it is agreed that such existing rights or titles shall be indefeasible and shall not be questioned upon any ground except upon proof, established through due process of law, of fraud or of fraudulent or other dishonest practices in the acquisition of such rights or titles, it being understood that no right or title shall be rendered invalid by virtue of any subsequent change in the official procedure through which it was acquired. It is also agreed that these rights or titles shall be subject to the laws and regulations of the Republic of China concerning taxation, national defense, and the right of eminent domain, and that no such rights or titles may be alienated to the government or nationals (including corporations or associations) of any third country without the express consent of the Government of the Republic of China.

Real property in China possessed by U. S. nationals or Government.  
*Post*, p. 790.

It is also agreed that if it should be the desire of the Government of the Republic of China to replace, by new deeds of ownership, existing leases in perpetuity or other documentary evidence relating to real property held by nationals, or by the Government, of the United States of America, the replacement shall be made by the Chinese authorities without charges of any sort and the new deeds of ownership shall fully protect the holders of such leases or other documentary evidence and their legal heirs and assigns without diminution of their prior rights and interests, including the right of alienation.

It is further agreed that nationals or the Government of the United States of America shall not be required or asked by the Chinese authorities to make any payments of fees in connection with land transfers for or with relation to any period prior to the effective date of this treaty.

#### ARTICLE V

Reciprocal rights of  
nationals.

The Government of the United States of America having long accorded rights to nationals of the Republic of China within the territory of the United States of America to travel, reside and carry on trade throughout the whole extent of that territory, the Government of the Republic of China agrees to accord similar rights to nationals of the United States of America within the territory of the Republic of China. Each of the two Governments will endeavor to have accorded in territory under its jurisdiction to nationals of the other country, in regard to all legal proceedings, and to matters relating to the administration of justice, and to the levying of taxes or requirements in connection therewith, treatment not less favorable than that accorded to its own nationals.

#### ARTICLE VI

Consular officers.

The Government of the United States of America and the Government of the Republic of China mutually agree that the consular officers of each country, duly provided with exequaturs, shall be permitted to reside in such ports, places and cities as may be agreed upon. The consular officers of each country shall have the right to interview, to communicate with, and to advise nationals of their country within their consular districts; they shall be informed immediately whenever nationals of their country are under detention or arrest or in prison or are awaiting trial in their consular districts and they shall, upon notification to the appropriate authorities, be permitted to visit any such nationals; and, in general, the consular officers of each country shall be accorded the rights, privileges, and immunities enjoyed by consular officers under modern international usage.

It is likewise agreed that the nationals of each country, in the territory of the other country, shall have the right at all times to communicate with the consular officers of their country. Communications to their consular officers from nationals of each country who are under detention or arrest or in prison or are awaiting trial in the territory of the other country shall be forwarded to such consular officers by the local authorities.

#### ARTICLE VII

The Government of the United States of America and the Government of the Republic of China mutually agree that they will enter into negotiations for the conclusion of a comprehensive modern treaty of friendship, commerce, navigation and consular rights, upon the request of either Government or in any case within six months after the cessation of the hostilities in the war against the common enemies in which they are now engaged. The treaty to be thus negotiated will be based upon the principles of international law and practice as reflected in modern international procedures and in the modern treaties which the Government of the United States of America and the Government of the Republic of China respectively have in recent years concluded with other governments.

Proposed new treaty.

Pending the conclusion of a comprehensive treaty of the character referred to in the preceding paragraph, if any questions affecting the rights in territory of the Republic of China of nationals (including corporations or associations), or of the Government, of the United States of America should arise in future and if these questions are not covered by the present treaty, or by the provisions of existing treaties, conventions, or agreements between the Government of the United States of America and the Government of the Republic of China not abrogated by or inconsistent with this treaty, such questions shall be discussed by representatives of the two Governments and shall be decided in accordance with generally accepted principles of international law and with modern international practice.

## [EXCHANGE OF NOTES]

*[Note in the English and Chinese Languages From the Chinese Ambassador at Washington to the Secretary of State]*

CHINESE EMBASSY  
WASHINGTON

JANUARY 11, 1943

EXCELLENCY:

Under instruction of my Government, I have the honor to state that in connection with the treaty signed today by the Government of the Republic of China and the Government of the United States of America, in which the Government of the United States of America relinquishes its extraterritorial and related special rights in China, it is the understanding of the Government of the Republic of China that the rights of the Government of the United States of America and of its nationals in regard to the systems of treaty ports and of special courts in the International Settlements at Shanghai and Amoy and in regard to the employment of foreign pilots in the ports of the territory of China are also relinquished. In the light of the abolition of treaty ports as such, it is understood that all coastal ports in the territory of the Republic of China which are normally open to American overseas merchant shipping will remain open to such shipping after the coming into effect of the present treaty and the accompanying exchange of notes.

It is mutually agreed that the merchant vessels of each country shall be permitted freely to come to the ports, places, and waters of the other country which are or may be open to overseas merchant shipping, and that the treatment accorded to such vessels in such ports, places, and waters shall be no less favorable than that accorded to national vessels and shall be as favorable as that accorded to the vessels of any third country.

It is mutually understood that the Government of the United States of America relinquishes the special rights which vessels of the United States of America have been accorded with regard to the coasting trade and inland navigation in the waters of the Republic of China and that the Government of the Republic of China is prepared to take over any American properties that may have been engaged for those purposes and to pay adequate compensation therefor. Should either country accord the rights of inland navigation or coasting trade to vessels of any third country such rights would similarly be accorded to the vessels of the other country. The coasting trade and inland navigation of each country are excepted from the requirement of national treatment and are to be regulated according to the laws of each country in relation thereto. It is agreed, however, that vessels of either

country shall enjoy within the territory of the other country with respect to the coasting trade and inland navigation treatment as favorable as that accorded to the vessels of any third country.

It is mutually understood that the Government of the United States of America relinquishes the special rights which naval vessels of the United States of America have been accorded in the waters of the Republic of China and that the Government of the Republic of China and the Government of the United States of America shall extend to each other the mutual courtesy of visits by their warships in accordance with international usage and comity.

It is mutually understood that questions which are not covered by the present treaty and exchange of notes and which may affect the sovereignty of the Republic of China shall be discussed by representatives of the two Governments and shall be decided in accordance with generally accepted principles of international law and with modern international practice.

With reference to Article IV of the treaty, the Government of the Republic of China hereby declares that the restriction on the right of alienation of existing rights or titles to real property referred to in that article will be applied by the Chinese authorities in an equitable manner and that if and when the Chinese Government declines to give assent to a proposed transfer the Chinese Government will, in a spirit of justice and with a view to precluding loss on the part of American nationals whose interests are affected, undertake, if the American party in interest so desires, to take over the right or title in question and to pay adequate compensation therefor.

It is mutually understood that the orders, decrees, judgments, decisions and other acts of the United States Court for China and of the Consular Courts of the United States of America in China shall be considered as *res judicata* and shall, when necessary, be enforced by the Chinese authorities. It is further understood that any cases pending before the United States Court for China and the Consular Courts of the United States of America in China at the time of the coming into effect of this treaty shall, if the plaintiff or petitioner so desires, be remitted to the appropriate courts of the Government of the Republic of China which shall proceed as expeditiously as possible with their disposition and in so doing shall in so far as practicable apply the laws of the United States of America.

It is understood that these agreements and understandings if confirmed by Your Excellency's Government shall be considered as forming an integral part of the treaty signed today and shall be considered as effective upon the date of the entrance into force of that treaty.

I shall be much obliged if Your Excellency will confirm the foregoing.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

I have the honor to refer to Your Excellency's Note of September 29, 1942,[<sup>1</sup>] with respect to the interpretation of the word "suite" as used in the Consular Convention signed by Your Excellency and by myself on behalf of our respective Governments in Mexico City August 12, 1942.

I have the honor to state that the following understanding is proposed by, and is acceptable to my Government with respect to the interpretation of "suite" as used in the Convention under reference:

"The expression "consular officers and employees in a consulate" as used in Article III of the consular convention between the United States of America and the United Mexican States,

<sup>1</sup> [Not printed.]

signed at Mexico City on August 12, 1942, is understood to include, in addition to duly commissioned and approved consular officers, all persons who are associated with and assist such officers in the necessary and proper conduct of the consular offices, and who are appointed or employed upon a permanent status by, and receive their compensation for consular services from, the Government in whose consular offices they are employed, subject to such exceptions or limitations as may be provided in the convention.

*Ante*, p. 806.

"The expression 'suites' as used in Article IV of the consular convention between the United States of America and the United Mexican States, signed at Mexico City on August 12, 1942, is understood to include (1) persons to whom the expression 'employees in a consulate' in Article III applies, and (2) persons in the suites or retinues of attendants in the proper personal service of consular officers or their families.

*Ante*, p. 804.

"It is understood that, in the case of the extension, to persons in the suites or retinues of attendants in the proper personal service of consular officers or their families as well as to persons to whom the expression 'employees in a consulate' in Article III applies, of the privileges of entry free of duty of their baggage and all other personal property whether accompanying such persons to a consular post or imported at any time during their stay at such post, such importations as may be made under this privilege shall be in the name of, or under the supervision of the consular officer concerned".

If the above interpretation is agreeable to Your Excellency's Government, it will be appreciated if the acceptance thereof may be confirmed by Note.

Please accept, Excellency, the assurances of my most distinguished consideration.

SEÑOR EMBAJADOR:

Tengo la honra de acusar recibo a Vuestra Excelencia de su muy atenta nota número 853, del 11 del actual, relativa a la interpretación que—en su opinión—debe darse a la palabra "séquito" empleada en la Convención Consular del 12 de agosto de 1942.

He tomado nota de que el Gobierno de los Estados Unidos de América está de acuerdo en que, en el caso de importaciones hechas

por una persona del séquito de un funcionario consular, las mismas se harán—a fin de que gocen de las franquicias a que se refiere el mencionado instrumento internacional—a nombre del citado representante o bajo su vigilancia.

En vista de las negociaciones realizadas, entre esta Secretaría y esa Embajada a su muy digno cargo sobre este asunto, y teniendo en cuenta, además, que la proposición del Gobierno norteamericano llena, en principio, el propósito que perseguí al hacer a Vuestra Excelencia la sugestión contenida en mi nota del 29 de septiembre último, me complace en informarle que la interpretación a que vengo refiriéndome cuenta con la aceptación de mi Gobierno.

Aprovecho la oportunidad para renovar a Vuestra Excelencia el testimonio de mi más alta consideración.

Mr. AMBASSADOR:

I have the honor to acknowledge the receipt of Your Excellency's very courteous note no. 853, of the 11th of this month, relative to the interpretation which—in your opinion—should be given to the word "suite" used in the Consular Convention of August 12, 1942.

I have taken note that the Government of the United States of America is in agreement that, in the case of importations made by a person of the suite of a consular official, they shall be made—in order to enjoy the exemptions to which the above-mentioned international instrument refers—in the name of the said representative or under his supervision.

In view of the negotiations on this subject conducted between this Ministry and the Embassy worthily in your charge, and bearing in mind, moreover, that the proposal of the American Government fulfils, in principle, the purpose which I sought in making to Your Excellency the suggestion contained in my note of September 29, last, I take pleasure in informing you that the interpretation to which I refer has the acceptance of my Government.

I avail myself of the opportunity to renew to Your Excellency the assurances of my highest consideration.

[E. A. S. 311]

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

## A PROCLAMATION

WHEREAS section 350(a) of the Tariff Act of 1930 of the Congress of the United States of America, as amended by the Act of June 12, 1934, entitled "AN ACT To amend the Tariff Act of 1930" (48 Stat. 943; U.S.C., 1940 ed., title 19, sec. 1351(a)), provides as follows:

*Ante*, p. 125.

"Sec. 350. (a) For the purpose of expanding foreign markets for the products of the United States (as a means of assisting in the present emergency in restoring the American standard of living in overcoming domestic unemployment and the present economic depression, in increasing the purchasing power of the American public, and in establishing and maintaining a better relationship among various branches of American agriculture, industry, mining, and commerce) by regulating the admission of foreign goods into the United States in accordance with the characteristics and needs of various branches of American production so that foreign markets will be made available to those branches of American production which require and are capable of developing such outlets by affording corresponding market opportunities for foreign products in the United States, the President, whenever he finds as a fact that any existing duties or other import restrictions of the United States or any foreign country are unduly burdening and restricting the foreign trade of the United States and that the purpose above declared will be promoted by the means hereinafter specified, is authorized from time to time—

"(1) To enter into foreign trade agreements with foreign governments or instrumentalities thereof; and

"(2) To proclaim such modifications of existing duties and other import restrictions, or such additional import restrictions, or such continuance, and for such minimum periods, of existing customs or excise treatment of any article covered by foreign

trade agreements, as are required or appropriate to carry out any foreign trade agreement that the President has entered into hereunder. No proclamation shall be made increasing or decreasing by more than 50 per centum any existing rate of duty or transferring any article between the dutiable and free lists. The proclaimed duties and other import restrictions shall apply to articles the growth, produce, or manufacture of all foreign countries, whether imported directly, or indirectly: *Provided*, That the President may suspend the application to articles the growth, produce, or manufacture of any country because of its discriminatory treatment of American commerce or because of other acts or policies which in his opinion tend to defeat the purposes set forth in this section; and the proclaimed duties and other import restrictions shall be in effect from and after such time as is specified in the proclamation. The President may at any time terminate any such proclamation in whole or in part."

WHEREAS the period within which the President of the United States of America is authorized to enter into trade agreements under the said section 350(a) was extended by Joint Resolutions of Congress approved March 1, 1937 and April 12, 1940 (48 Stat. 944, 50 Stat. 24, 54 Stat. 107; U.S.C., 1940 ed., title 19, sec. 1352(c));

*Ante*, p. 125.

Roosevelt, President of the United States of America, have found as a fact that certain existing duties and other import restrictions of the United States of America and the United Mexican States are unduly burdening and restricting the foreign trade of the United States of America and that the purpose declared in the above-quoted provisions of the Tariff Act of 1930, as amended, will be promoted by a trade agreement between the United States of America and the United Mexican States;

WHEREAS reasonable public notice of the intention to negotiate such trade agreement was given and the views presented by persons interested in the negotiation of such agreement were received and considered;

WASHINGTON, *January 30, 1943*

SIR:

55 Stat. 1600.

In the United Nations declaration of January 1, 1942, the contracting governments pledged themselves to employ their full resources, military and economic, against those nations with which they are at war; and in the Agreement of June 16, 1942, each contracting government undertook to provide the other with such articles, services, facilities or information useful in the prosecution of their common war undertaking as each may be in a position to supply. It is further the understanding of the Government of Belgium that the general principle to be followed in providing mutual aid as set forth in the said Agreement of June 16, 1942, is that the war production and the war resources of both Nations should be used by the armed forces of each and of the other United Nation in ways which most effectively utilize the available materials, manpower, production facilities and shipping space.

56 Stat. 1505.

With a view, therefore, to supplementing Article II and Article VI of the Agreement of June 16, 1942, between our two Governments for the provision of reciprocal aid, I have the honor to set forth the understanding of the Government of Belgium of the principles and procedures applicable to the provision of aid by the Government of Belgium to the armed forces of the United States and the manner in which such aid will be correlated with the maintenance of such forces by the United States Government.

1.—The Government of Belgium, retaining the right of final decision in each case in the light of its potentialities and responsibilities, will provide the United States or its armed forces with the following types of assistance as such reciprocal aid, when it is found that they can most effectively be procured in Belgium or the Belgian Congo:

- a) Supplies, materials, facilities and services for the United States forces, except for the pay and allowances of such forces, administrative expenses, and such local purchases as its official establishments may make other than through the official establishments of the Government of Belgium as specified in paragraph two.

- b) Supplies, materials and services needed in the construction of military projects, tasks and similar capital works required for the common war effort in Belgium or the Belgian Congo, except for the wages and salaries of United States citizens.
- c) Supplies, materials and services needed in the construction of such military projects, tasks and capital works in territory other than Belgium or the Belgian Congo or territory of the United States to the extent that Belgium or the Belgian Congo is a more practicable source of supply than the United States or another of the United Nations.

2.—The practical application of the principles formulated in this note, including the procedure by which requests for aid are made and acted upon, shall be worked out as occasion may require by agreement between the two governments, acting when possible through their appropriate military or civilian administrative authorities. Requests by the United States Government for such aid will be presented by duly authorized authorities of the United States to official agencies of the Belgian Government which will be designated or established by the Government of Belgium for the purpose of facilitating the provision of reciprocal aid.

3.—It is the understanding of the Government of Belgium that all such aid, as well as other aid, including information received under Article VI of the Agreement of June 16, 1942, accepted by the President of the United States or his authorized representatives from the Government of Belgium will be received as a benefit to the United States under the Act of March 11, 1941. In so far as circumstances will permit, appropriate record of aid received under this arrangement, except for miscellaneous facilities and services, will be kept by each Government.

If the Government of the United States concurs in the foregoing, I would suggest that the present note and your reply to that effect be regarded as placing on record the understanding of our two governments in this matter and that for clarity and convenience of administration these arrangements be made retroactive to June 16, 1942, the date of the Agreement of the two Governments on the principles of mutual aid.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

In accordance with the suggestion contained therein, your note and this reply will be regarded as placing on record the understanding between our two Governments in this matter.

DEPARTMENT OF STATE

SIR:

I have the honor to refer to negotiations which have recently taken place between the Government of the United States of America and the Government of Canada for the conclusion of a reciprocal undertaking continuing in force the arrangement between the two Governments, entered into by an exchange of notes dated November 29, 1940 and December 2, 1940, for the purpose of giving effect to Article III of the Air Transport Arrangement between the two Governments concluded on August 18, 1939.

54 Stat. 2422.

54 Stat. 1805.

It is my understanding that it has been agreed in the course of the recent negotiations, now terminated, that the undertaking referred to in the preceding paragraph shall be as follows:

Having in mind the fact that because of the war situation it was impracticable for the aeronautical authorities of the United States and Canada to hold a meeting six months prior to December 31, 1942, as contemplated by the arrangement between the two Governments entered into by an exchange of notes dated November 29, 1940 and December 2, 1940, for the purpose of drawing up new recommendations relating to the allocation of air transport routes to United States and Canadian air carriers for operations between the United States and Canada, it is now agreed that, subject to the provisions of the succeeding paragraph, the 1940 arrangement as herein referred to shall be considered to have remained in force from December 31, 1942, and shall continue in force until the end of the war. It is also agreed that after the termination of the war a conference between representatives of the two Governments will be held for the purpose of reviewing the situation as it may then exist with respect to the application of the terms of the arrangement covered by the exchange of notes dated November 29, 1940 and December 2, 1940.

Notwithstanding the foregoing provisions, it is agreed that the present undertaking may be terminated at any time on six months' notice given in writing by either Government to the other Government for important reasons of public policy when the conditions thereof

or the actual practice thereunder is no longer regarded by the Government of the country giving such notice as being in its interest. Such notice of termination shall be given by either Government to the other only after consultation between the two Governments for a period of at least sixty days.

I shall be glad to have you inform me whether it is the understanding of your Government that the terms of the undertaking agreed to in the recent negotiations, now terminated, are as above set forth. If so, it is suggested that the undertaking become effective on this date. If your Government concurs in this suggestion the Government of the United States will regard the undertaking as becoming effective on this date.

Accept, Sir, the renewed assurances of my highest consideration.

27 NOVEMBER 1942

EXCELLENCY:

I have the honor to bring to Your Excellency's notice that my Government is desirous of renewing the contract entered into on April 23, 1940 between our two Governments, whereby a United States Military Aviation Mission was established in Chile for a period of three years to assist in the development and functioning of the Chilean Air Force. This contract will expire in April of next year, and its early renewal is deemed convenient in order that there may be no possibility of a break in the continuity of the Mission, which might endanger the effective work it is accomplishing.

54 Stat. 2282.

My Government has instructed me to suggest that it would be gratified if changes might be made in the junior officers of the Mission, in order that new members may be assigned who have had actual combat experience. Besides, it is desired that one officer should be especially informed in the modern methods of flight instruction presently followed in the United States, for primary as well as advanced training; and that the other officer should be especially informed in matters relating to the maintenance of aviation materiel, and concerning the instruction given to non-commissioned officers and men in the technical schools of the Air Corps of the United States Army. There should be, also, two non-commissioned officers attached to the Mission: one an aviation mechanic and the other a radio mechanic, both highly qualified and with recognized experience.

In behalf of my Government, I beg leave to express the hope that the present Chief of the Mission, Colonel Omer Osmer Niergarth, may be permitted to continue at this post, where his services have been eminently satisfactory. However, should it be found necessary at any time for Your Excellency's Government to replace Colonel Niergarth as Chief of the Mission, my Government instructed me to suggest that he should be preferably a member of the Regular Army of the United States, otherwise a Reserve Officer completely familiar with modern tactics for the employment of military planes.

I should appreciate it deeply if Your Excellency would be good enough to advise me, as soon as convenient, whether Your Excellency's Government finds it possible to renew the contract and continue the Military Aviation Mission to Chile, which is most ardently desired by the Government of Chile.

Accept, Excellency, the renewed assurances of my highest consideration.

In this connection, I am pleased to inform Your Excellency that the renewal of the Agreement for a period of three years, effective from April 23, 1943, and the modifications proposed in Your Excellency's note under reference are agreeable to the Government of the United States, provided that members of the Mission shall receive from the Government of Chile such net annual compensation as may be agreed upon between the Government of the United States and the Government of Chile for each member, notwithstanding the provisions of Article II <sup>[1]</sup> of the Agreement signed April 23, 1940, and provided, further, that personal and household effects, baggage and automobiles of military personnel attached to the Mission shall be exempt from customs duties and imposts of any kind in Chile and allowed free entry upon request of the Chief of the Mission, as stipulated in Article XIV of the Agreement now in effect.

*Agreement between the United States of America, Canada, and the United Kingdom of Great Britain and Northern Ireland respecting industrial diamonds. Signed at London March 26, 1943; effective March 26, 1943. And exchange of notes.*

March 26, 1943  
[E. A. S. 317]

The Government of the United States of America, the Government of Canada and the Government of the United Kingdom of Great Britain and Northern Ireland considering that it is desirable, as a precaution against the adverse fortunes of war, to create a reserve of industrial diamonds upon the North American Continent, for possible needs of the United Nations, have agreed as follows:—

#### ARTICLE 1.

##### *Statement of Principle.*

The contracting Governments intend that the normal consumption requirements of the various nations shall be met currently from mine production and from stocks in the United Kingdom and various producing countries, and that the reserve hereinafter provided for shall not be drawn upon except under the conditions stated in this agreement.

#### ARTICLE 2.

##### *Size of Reserve.*

The reserve shall contain a minimum quantity of 11,500,000 carats of diamonds suitable for the uses specified in Appendix I and containing so far as possible the quantities in the various sizes specified under those uses.

*Post.* p. 936.

#### ARTICLE 3.

##### *Composition of Reserve.*

The Government of the United Kingdom will take such steps as are practicable for the reserve to be established by the transfer to Canada of stocks of diamonds held by diamond producing companies and by the Diamond Corporation in the quantities and of the descriptions set forth in Appendix II. Appendix II also sets forth the quantities of diamonds of the various use classifications and sizes which it is estimated will be found in the total quantities to be transferred by each company.

*Post.* p. 936.

#### ARTICLE 4.

##### *Transfer of Reserve.*

Transfer of the reserve shall begin as soon as possible after the date of signature of this agreement. The Government of the United Kingdom will use its best efforts to ensure transfer at a rate of 600,000 carats per week, but single shipments shall not exceed 300,000 carats each. The quantities so transferred shall be kept in safe keeping in

From the statements above transcribed I infer that the contract of March 27, 1941 may continue in effect until it is substituted by another, if your Government so directs.

Consequently, and in agreement with the Minister for National Defense, General Andrés I. Menéndez, I take pleasure in informing Your Excellency that my Government will consider said contract as having been extended *de facto* under the conditions above specified if Your Excellency indicates his conformity in the reply to be made to this note.

I renew to Your Excellency the assurances of my highest and distinguished consideration.

EXCELLENCY:

I have the honor to acknowledge the receipt of Your Excellency's esteemed note No. A.820 D.706, of March 25, 1943, in which is transcribed the communication (No. 2439, of March 24) addressed to the Ministry for Foreign Affairs by His Excellency General Andrés I. Menéndez, the Minister of National Defense, with respect to the Contract of March 27, 1941 governing the detail of an Officer of the United States Army to serve as Director of the Military School and of the Military Academy of El Salvador.

In response, I have the honor to inform Your Excellency that the Government of the United States is agreeable to the extension of the Contract under the terms indicated in Note No. 2439, addressed to your Ministry by His Excellency the Minister of National Defense, until such time as it shall be substituted by another contract.

It is understood that Your Excellency's Note under acknowledgment and this Note of reply constitute an exchange of notes effecting extension of the Contract of March 27, 1941, in the manner above described.

I avail myself of the opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

from African stocks or production. The Government of the United Kingdom shall, under such circumstances, formally assure the Government of the United States of the reasons and need for such withdrawal.

*C. Withdrawal for Canadian Requirements.*

If the stocks in Canada of industrial diamonds of any of the descriptions mentioned in Appendix IV fall at any time below the quantity of that description consumed in Canada during the preceding six months the Government of Canada may notify the Government of the United Kingdom and the Government of the United States that a shortage of industrial diamonds of that description exists. If the shortage of that description is not met either by delivery from the United States or from the United Kingdom within 90 days of the date of notification then the Government of the United Kingdom shall withdraw from the reserve for requirements in Canada such quantities of diamonds as are required to remove the shortage.

*Post, p. 937.*

*D. Withdrawals for other United Nations Requirements.*

Withdrawals for the requirements of other United Nations may be made after consultation between appropriate representatives of the Government of the United States and the Government of the United Kingdom.

*E. Combined Raw Materials Board.*

The provisions of this Article are subject to any action which may be required as the result of decisions by the Combined Raw Materials Board.

ARTICLE 7.

*Prices of Material Withdrawn and Expenses of Transfer.*

Industrial diamonds withdrawn from the United Nations reserve shall be withdrawn at United States dollar prices for comparable material (converted from Sterling at the official rate at the date of such withdrawal) ruling on the 30th June, 1942, to which prices may be added reasonable amounts to cover the proportion of the cost of the establishment, maintenance and liquidation of the United Nations reserve attributable to the diamonds withdrawn. Provided that if the ceiling prices of industrial diamonds in the United States are raised, the prices ruling on the 30th June, 1942, and chargeable hereunder may be raised by the same percentage as the percentage increase or increases in such ceiling prices. Since it is probable that the United Nations reserve will include certain quantities of cuttable material not normally employed for industrial purposes but suitable therefor, the Government of the United Kingdom will, in the event of an emergency requiring the use of such cuttable material, employ its best efforts to furnish this material to the United Nations at reasonable prices reflecting the utility of the material and its cost of production for industrial purposes and not its value as gem stones.

All expenses of the transfer of diamonds to North America for the United Nations reserve and of the maintenance, sorting and liquidation of the reserve including indemnity for any loss or damage to the diamonds shall be advanced in equal proportion by the Government of

such places in Canada as may be approved by the respective Governments. In the event that the Government of the United Kingdom desires to maintain a portion of the reserve in the United States, the Government of the United States will provide the necessary safe depositories.

ARTICLE 5.

*Maintenance of Production and Supply.*

The Government of the United Kingdom and the Government of the United States agree to take all practicable steps to maintain production at, or, if necessary, to increase it to levels adequate to provide both for the full current requirements of the United Nations, and for the maintenance of the present stocks in the United States and the United Nations reserve. The Government of the United States will use its best efforts to maintain an adequate supply of industrial diamonds to Canada to meet the current requirements of Canadian industries and to maintain existing stocks. Estimates of the current annual requirements of the United Nations made as of the 30th June, 1942, are set forth in Appendix III. It is understood, however, that such actual requirements may vary from these estimates from time to time.

*Post*, p. 937.

ARTICLE 6.

*Conditions of Withdrawal.*

A. *Withdrawal by the United States.*

The Government of the United States shall be entitled to draw upon the reserve stock, in any classification, when the United States stock of that classification falls to a quantity less than 90 per cent. of the normal stock as of the 30th June, 1942. The normal stocks as of the 30th June, 1942, are set forth by classifications in Appendix IV and are the stocks in private and Government hands in the United States including 4,505,000 carats of boart purchased but not delivered as of that date. Upon notice furnished to the Government of the United Kingdom by the Government of the United States that the stock of any classification has fallen below 90 per cent. of such normal stock, the Government of the United Kingdom undertakes to take all reasonable steps to make shipments to restore such stock to the figures set forth in Appendix IV for such classification within 60 days. If, at the end of such 60-day period, the shipments have not been made, the Government of the United States shall be entitled to draw upon the United Nations reserve in quantities sufficient to restore the stock of such classification to the figures set forth in Appendix IV for such classification. The Government of the United States may effect such withdrawals through the Metals Reserve Company or any other Government agency or department or through merchants or other private parties nominated by it.

*Post*, p. 937.

B. *Withdrawal by the United Kingdom.*

The Government of the United Kingdom may draw upon the United Nations reserve when, in its opinion, it becomes impracticable to meet current requirements from stocks in the United Kingdom or

to furnish quarterly statements to the Government of the United States of stocks in the United Kingdom (separately for merchants, the Diamond Corporation and its affiliates, and producers) and, so far as possible, of stocks in the hands of producers in Africa.

#### Miscellaneous Provisions.

##### ARTICLE 11.

Nothing in this agreement shall be construed to prevent any of the United Nations from acquiring additional quantities of industrial diamonds through purchase for its national reserve if diamonds are available and can be supplied without interfering with supplies for normal consumption and for the implementing of this agreement.

##### ARTICLE 12.

The three contracting Governments agree to take such steps as are reasonable and practicable to ensure that all diamonds acquired by any person as industrial diamonds are sold by the most direct channels for use in industry and that they are not bought or sold speculatively or for hoarding.

##### ARTICLE 13.

The Government of the United States and the Government of the United Kingdom will each appoint a representative to meet and adjust any difficulties of interpretation of this agreement which may arise from time to time. In any question affecting Canadian interests the Government of Canada may appoint a representative to collaborate with the representatives of the other two Governments.

##### ARTICLE 14.

#### *Duration of Agreement.*

This agreement shall operate from the date of signature and, except by mutual consent, it shall terminate nine months after the cessation of hostilities. For the purpose of this clause the cessation of hostilities shall be the date on which there is a general suspension of hostilities between the United Kingdom and the United States (or the later of them to suspend hostilities) on the one hand and the last of the enemy Powers with whom they are now at war on the other hand.

The Government of the United States undertakes to advance in the first instance any disbursements incurred in United States or Canadian dollars. *Sorting of Material.*

The Government of the United Kingdom will make adequate arrangements with the producing companies and with the Diamond Corporation to ensure that the United Nations reserve is sorted into the usual assortments of the Diamond Corporation upon its transfer to Canada and that such other necessary arrangements are made that withdrawals in accordance with the provisions of Article 6 can be made without any delay.

## ARTICLE 3.

No part of the Reserve shall be removed from the approved addresses in Canada except with the consent of the Minister or except at the request of the Minister to meet an emergency requirement for industrial diamonds notified to the Corporation by the Minister. On receipt of such notification, the Corporation will arrange for the sale from the Reserve of such classes and quantities of diamonds to the Government of or merchants in the country where the emergency requirement has arisen as may be specified in the notification. The notification will specify the quantities of diamonds to be sold in the normal selling classifications of the Trading Company and each of the Companies will sell to the Corporation, according to the normal contracts existing between it and the Corporation, such quantities and classes of diamonds as the Corporation may call upon it to provide as being necessary to meet the emergency requirement.

## ARTICLE 4.

(1) It is the intention of the parties hereto that the Companies, the Corporation and the Trading Company shall be relieved of all payments in connexion with the diamonds provided for the Reserve other than payments which the Companies, the Corporation or the Trading Company would have made if the diamonds had not been provided for the Reserve and with a view thereto the following provisions shall apply:—

(2) The Minister shall—

(a) discharge all expenses of the transfer of diamonds to North America for the Reserve and of the maintenance, sorting and liquidation of the Reserve;

(b) discharge all other proper payments, including all (if any) taxes, duties, assessments or charges, whether on export, sales, income or otherwise, which would not have been incurred or levied if the diamonds had not been removed to North America for the purposes of the Reserve.

(3) Each of the Companies shall refund to the Minister from the proceeds of the sale by it of any diamonds comprised in the Reserve such expenses or payments discharged by the Minister in respect of those diamonds as the Company would have discharged if those diamonds had been sold in London to the Diamond Corporation on the 30th June, 1942.

(4) The Diamond Corporation shall refund to the Minister from the proceeds of the sale by it of any diamonds comprised in the Reserve such expenses or payments discharged by the Minister in respect of those diamonds as the Corporation would have discharged if those diamonds had been sold by it on the 30th June, 1942.

(5) The Trading Company shall refund to the Minister from the proceeds of the sale by it of any diamonds comprised in the Reserve such expenses or payments discharged by the Minister in respect of those diamonds as the Trading Company would have discharged if those diamonds had been sold by it in London on the 30th June, 1942. In addition, the Trading Company shall refund to the Minister from the sales of diamonds comprised in the Reserve the proceeds of such additions (if any) to the selling prices of the 30th June, 1942, as are made to the selling prices of those diamonds under Article 7 of this Agreement to meet the additional costs of the Minister.

(6) If on the termination of this Agreement there remain unsold any diamonds which were included in the Reserve the Minister will be entitled to the refund out of the proceeds of the sale of those diamonds by the Company owning them, the Corporation and the Trading Company of only such expenses or payments discharged by him in respect of those diamonds as the Company, the Corporation and the Trading Company respectively would have discharged if the diamonds had not formed part of the Reserve. The Minister will, however, be prepared to consider with the other parties hereto when the time arises whether this obligation should be discharged by part payment of the estimated amount due from those other parties or otherwise.

## ARTICLE 5.

The transfer of diamonds to Canada under this Agreement shall begin as soon as possible after the date of signature of this Agreement and the Companies and the Corporation severally undertake to use their best efforts to transfer the diamonds mentioned in Schedule I opposite their respective names at a rate not less than the rate set forth and from the date set forth in Schedule II for each Company. Single shipments shall not exceed 300,000 carats each.

## ARTICLE 6.

The Companies and the Corporation will arrange for the sorting of the diamonds in the Reserve in such manner as will enable the quantities of industrial diamonds suitable for the various industrial uses to which they are put to be estimated readily and in such manner as they will be readily available for sale in the usual selling classifications of the Trading Company. A report on the quantities of diamonds of various classes in the Reserve and of the progress of the sorting will be furnished to the Minister by each of the Companies, the Corporation and the Trading Company or by the Corporation on their behalf for each quarter commencing with that ending on the 31st March, 1943, and at the end of each three months thereafter.

## ARTICLE 7.

The prices at which the diamonds will be sold from the Reserve will be the Trading Company's selling prices in operation on the 30th June, 1942, with the addition of such amounts as are estimated by the Minister to be reasonable to cover the additional costs of the Minister, the Companies, the Corporation and the Trading Company for the establishment, maintenance and liquidation of the Reserve (including the costs of returning diamonds to the United Kingdom and insurance mentioned in Articles 9 and 10), provided that if the ceiling prices of industrial diamonds in the United States are raised the Trading Company's selling prices for diamonds in the Reserve may be increased correspondingly with the consent of the Minister. If rough diamonds of cuttable quality not normally sold as industrial diamonds are sold out of the Reserve as industrial diamonds, the prices to be charged by the Trading Company will be such reasonable prices as reflect the utility of the material and its cost of production for industrial purposes and not its value as gem stones. Such diamonds shall be sold at those prices subject to an undertaking that they will be re-sold only for use in industry and notification of such sales will be made to the Minister.

## ARTICLE 8.

The Companies, the Corporation and the Trading Company severally agree to furnish to the Minister within 30 days after the end of each quarterly period commencing with that ending on the 31st March, 1943, a statement of the stocks of industrial diamonds which they hold, with such information as to the quantities of the various classes mentioned in Schedule I contained in the stocks as will enable an estimate to be made of the quantities which are suitable for various industrial uses.

## ARTICLE 9.

The Minister will make provision at his own expense for the return to the United Kingdom of the diamonds remaining in the Reserve at the termination of this Agreement.

## ARTICLE 10.

The Minister will pay the costs of insuring at the current selling prices of the owners the diamonds provided for the Reserve against all insurable risks of damage or loss from the date when the diamonds are despatched from storage *en route* to Canada until they are sold or returned to the United Kingdom in

accordance with the provisions of Article 9 or otherwise cease to be covered by this Agreement, whichever first happens. These costs shall be regarded as expenses for the purpose of refunds to the Minister under Article 4 of this Agreement.

ARTICLE 11.

This Agreement shall operate from the date of signature and, unless in view of the passing of the emergency it is terminated earlier by mutual consent, shall terminate nine months after the cessation of hostilities, except as regards the reimbursement of expenses referred to in Article 4 hereof. For the purpose of this clause the cessation of hostilities shall be the date on which there is a general suspension of hostilities between the United Kingdom and the United States of America (or the later of them to suspend hostilities) on the one hand and the last of the enemy Powers with whom they are now at war on the other hand.

ARTICLE 12.

This Agreement shall be construed according to the law of England.

*London, March 26, 1943.*

SIR,

I have the honor to refer to Article 14 of the Agreement regarding Industrial Diamonds signed this day between the Governments of the United Kingdom of Great Britain and Northern Ireland, Canada, and the United States of America, which provides for the termination of the arrangements for maintaining and operating the United Nations reserve of industrial diamonds, and to the agreement between the Ministry of Supply and the diamond producing companies which gives the companies a right to the return to the United Kingdom of the diamonds remaining in the reserve at that time.

When that time arrives it may be found desirable, with the concurrence of the companies, to make other arrangements for the disposition of the diamonds in the reserve, and it is, therefore, the desire of the Government of the United States that provision should be made for discussions on this matter to take place between the Government of the United Kingdom and the Government of the United States within three months before the termination of the agreed arrangements.

If the Government of the United Kingdom concurs in this proposal and will be prepared to arrange for its representation at such discussions, which might best be held in London where contact can be

DEPARTMENT OF STATE  
WASHINGTON  
March 31, 1942

SIR:

I have the honor to refer to your note dated January 22, 1942 [1] and conversations which have taken place between the officers of the Norwegian Legation and of the Department with respect to the application of the United States Selective Training and Service Act of 1940, as amended, to Norwegian subjects residing in the United States.

54 Stat. 885.  
50 U. S. C. app.  
§§ 301-318; Supp. II,  
§§ 302-315.  
*Ante*, pp. 164, 391,  
596.

As you are aware, the Act provides that with certain exceptions every male citizen of the United States and every other male person residing in the United States between the ages of eighteen and sixty-five shall register. The Act further provides that, with certain exceptions, registrants within specified age limits are liable for active military service in the United States armed forces.

This Government recognizes that from the standpoint of morale of the individuals concerned and the over-all military effort of the countries at war with the Axis Powers, it would be desirable to permit certain classes of individuals who have registered or who may register under the Selective Training and Service Act of 1940, as amended, to enlist in the armed forces of a cobelligerent country, should they desire to do so. It will be recalled that during the World War this Government signed conventions with certain associated powers on this subject. The United States Government believes, however, that under existing circumstances the same ends may now be accomplished through administrative action, thus obviating the delays incident to the signing and ratification of conventions.

This Government is prepared, therefore, to initiate a procedure which will permit aliens who have registered under the Selective Training and Service Act of 1940, as amended, who are nationals of cobelligerent countries and who have not declared their intention of becoming American citizens to elect to serve in the forces of their respective countries, in lieu of service in the armed forces of the United States, at any time prior to their induction into the armed forces of this country. Individuals who so elect will be physically examined by the armed forces of the United States, and if found physically qualified, the results of such examinations will be forwarded to the proper author-

ities of the cobelligerent nation for determination of acceptability. Upon receipt of notification that an individual is acceptable and also receipt of the necessary travel and meal vouchers from the cobelligerent government involved, the appropriate State Director of the Selective Service System will direct the local Selective Service Board having jurisdiction in the case to send the individual to a designated reception point for induction into active service in the armed forces of the cobelligerent country. If upon arrival it is found that the individual is not acceptable to the armed forces of the cobelligerent country, he shall be liable for immediate induction into the armed forces of the United States.

Stipulations to be  
agreed to by co-  
belligerent country.

Before the above-mentioned procedure will be made effective with respect to a cobelligerent country, this Department wishes to receive from the diplomatic representative in Washington of that country a note stating that his government desires to avail itself of the procedure and in so doing agrees that:

(a) No threat or compulsion of any nature will be exercised by his government to induce any person in the United States to enlist in the forces of any foreign government;

(b) Reciprocal treatment will be granted to American citizens by his government; that is, prior to induction in the armed forces of his government they will be granted the opportunity of electing to serve in the armed forces of the United States in substantially the same manner as outlined above. Furthermore, his government shall agree to inform all American citizens serving in its armed forces or former American citizens who may have lost their citizenship as a result of having taken an oath of allegiance on enlistment in such armed forces and who are now serving in those forces that they may transfer to the armed forces of the United States provided they desire to do so and provided they are acceptable to the armed forces of the United States. The arrangements for effecting such transfers are to be worked out by the appropriate representatives of the armed forces of the respective governments.

(c) No enlistments will be accepted in the United States by his government of American citizens subject to registration or of aliens of any nationality who have declared their intention of becoming American citizens and are subject to registration.

This Government is prepared to make the proposed regime effective immediately with respect to the Kingdom of Norway upon the receipt from you of a note stating that your Government desires to participate in it and agrees to the stipulations set forth in lettered paragraphs (a), (b), and (c) above.

Accept, Sir, the renewed assurances of my highest consideration.

DEPARTMENT OF STATE  
WASHINGTON

EXCELLENCY:

I have the honor to refer to the Department's note of March 31, 1942 and to your note of August 21, 1942, [1] concerning the proposed arrangement regarding the services of nationals of one country in the armed forces of the other country. In the Department's note of September 24, 1942 [1] it was stated that consideration was being given by the appropriate authorities of this Government to the question of the transfer from the United States forces to their own forces of nondeclarant nationals of co-belligerent countries with which reciprocal induction arrangements have been concluded.

The necessary arrangements have now been made, and the War Department is prepared to discharge, for the purpose of transferring to the armed forces of their own country, nondeclarant Norwegian nationals serving in the United States forces, as soon as the proposed reciprocal induction agreement with Norway becomes effective.

Accept, Excellency, the renewed assurances of my highest consideration.

EXCELLENCY:

I have the honour to refer to your note marked 811.2222 (1940) 1485, of September 24, 1942, [1] concerning a proposed arrangement regarding the service of nationals of one country in the armed forces of the other country.

In this note you point out that the proposal outlined in your note of March 31, 1942, constitutes the most liberal regime which your Government can enter into consistent with existing laws of the United States and with practical considerations.

In my notes of January 22, and August 21, 1942, [1] I referred to the stipulations of Art. VI, of the Treaty of Friendship, Commerce and Consular Rights between Norway and the United States of America,

signed in Washington on June 5, 1928, which are in the opinion of my Government, inconsistent with the arrangement proposed by you.

The Norwegian Government do not, however, at the present time, wish to raise legal objections, based on treaty rights.

Consequently, the Norwegian Government are willing to participate in the scheme set forth in your note of March 31, 1942, supplemented by your note of October 6, 1942, and in so doing agree to the conditions stipulated in the note of March 31, 1942, full reciprocity on all points being assured by the United States Government.

I have the honor to acknowledge the receipt of your note of December 23, 1942, with further reference to the Department's suggestion of March 31, 1942 that an arrangement be entered into between our respective Governments concerning the service of nationals of one country in the armed forces of the other country. You state that your Government is willing to participate in the proposal set forth in the Department's notes of March 31, 1942 and October 6, 1942, and in so doing agrees to the conditions stipulated in the Department's note of March 31, 1942, full reciprocity on all points being assured by the United States Government.

Effective date.

I take pleasure in informing you that this Government now considers the agreement to have become effective, with respect to Norway, on December 24, 1942, the date on which your note under acknowledgment was received in the Department. I may assure you that full reciprocity will be accorded by this Government, and that the appropriate authorities of this Government will carry out the agreement in the spirit of full cooperation with your Government.

It is suggested that all the details incident to carrying out the arrangement be discussed directly by officers of the Embassy with the appropriate officers in the War Department and the Selective Service System. Lieutenant Colonel W. D. Partlow of the War Department

With reference to Your Excellency's note of March 17, 1942, [1] and to previous correspondence with respect to the enlistment of residents of the United States in the armed forces of Poland, [1] I have the honor to inform you that special consideration has been given to the views of your government in the discussions which have taken place between officers of this Department, the War and Navy Departments, and the Selective Service System on the general problem of the application of the United States Selective Training and Service Act of 1940, as amended, to nationals of co-belligerent countries residing in the United States.

I have the honor to refer to your note No. 745/SZ-72 of October 13, 1942, [1] and to other correspondence exchanged in the matter of the proposed arrangement between the United States and Poland concerning the services of nationals of one country in the armed forces of the other country. You state that your Government is prepared to accept an arrangement which would make it possible

- a) for all Polish citizens residing in the United States, who are liable to register under the provisions of the Selective Training and Service Act of 1940, to enlist in the Polish Armed Forces should they so desire;
- b) for all Polish citizens, who have already been drafted in the Armed Forces of the United States, to be given the opportunity to transfer, if they so desire, to the Polish Armed Forces;

I take pleasure in informing you that this Government is prepared to enter into an arrangement with your Government as proposed in the Department's note of March 30, 1942; however, this Government finds itself unable to make the arrangement applicable to "all Polish citizens", as desired in lettered paragraphs a) and b) of your note of October 13, 1942. This Government is unable to grant the privileges outlined in the Department's note of March 30, 1942, to any but Polish nationals who have not declared their intention of becoming American citizens.

JANUARY 26th, 1943.

SIR,

I have the honor to refer to your note of December 14, 1942, No. 860C.2222/24, concerning the proposed arrangement between Poland and the United States with regard to the service of nationals of one country in the armed forces of the other country, and to inform you that, in accordance with the principles laid down in your note of March 30, 1942, the Polish Government is ready to affirm its acceptance of the stipulations contained in the concluding paragraph of your note of March 30, 1942, thereby conforming to the concluding paragraph of your note of December 14, 1942. Consequently:

The appropriate authorities of this Government have been informed accordingly, and I may assure you that this Government will carry out the agreement in the spirit of full cooperation with your Government.

It is suggested that all the details incident to carrying out the agreement be discussed directly by officers of the Embassy with the appropriate officers in the War Department and the Selective Service System. Lieutenant Colonel V. S. Sailor, of the Recruiting and In-

## EXCELENCIA:

Tengo el honor de referirme a la nota de Vuestra Excelencia de 6 de noviembre de 1942 en relación con las conversaciones que han tenido lugar entre funcionarios de la Embajada de Cuba y del Departamento de Estado con respecto a la aplicación de la Ley de Entrenamiento y Servicio Selectivo de 1940, de los Estados Unidos, tal como ha sido modificada, a los ciudadanos cubanos que residen en los Estados Unidos.

Señala Vuestra Excelencia que dicha Ley estipula que, con ciertas excepciones, todo varón ciudadano de los Estados Unidos y todo otro varón que resida en los Estados Unidos, comprendido entre las edades de 18 y 65 años, deberá inscribirse, estipulando la Ley además, que, con ciertas excepciones, los individuos inscritos comprendidos dentro de ciertos límites de edad especificados se hallan sujetos a la obligación de prestar servicio militar activo en las fuerzas armadas de los Estados Unidos.

A este respecto informa Vuestra Excelencia que el Gobierno de los Estados Unidos reconoce que desde el punto de vista de la moral de los individuos afectados y del esfuerzo militar en general de los países en guerra contra las potencias del Eje, sería deseable el permitir que ciertos nacionales de países cobeligerantes que se han inscrito o que se inscriban bajo la Ley de Entrenamiento y Servicio Selectivo de 1940, tal como ha sido modificada, se alistén en las fuerzas armadas de su propio país, si así lo desearan, a cuyo efecto, el Gobierno de Vuestra Excelencia se halla dispuesto a iniciar un procedimiento por el cual se permitirá a los cubanos que se hayan inscrito bajo la Ley de Entrenamiento y Servicio Selectivo de 1940, tal como ha sido modificada, y que no hayan declarado su intención de adoptar la ciudadanía americana, el elegir servir en las fuerzas armadas de Cuba en lugar de prestar servicio en las fuerzas armadas de los Estados Unidos, en cualquier momento anterior a su incorporación a las fuerzas armadas de este país. Igualmente se permitirá a los cubanos que no hayan declarado su intención de adoptar la ciudadanía americana, que ya estén prestando servicio en las fuerzas armadas de los Estados Unidos, el elegir trasladarse a las fuerzas armadas de Cuba. Se estipula, sin embargo, que en todo caso la persona que ejerza tal opción bajo este arreglo deberá ser efectivamente aceptada por las autoridades militares de Cuba antes de su salida de los Estados Unidos.

Se propone en la nota de Vuestra Excelencia que los detalles del arreglo sean acordados directamente entre el Departamento de la Guerra y el Sistema de Servicio Selectivo, por parte del Gobierno de los Estados Unidos, y las autoridades competentes del Gobierno de Cuba.

Me informa Vuestra Excelencia que el Gobierno de los Estados Unidos se halla dispuesto a poner en vigor inmediatamente con respecto a la República de Cuba, el régimen señalado, sujeto a las siguientes condiciones:

(a) No se utilizará amenaza o coacción de ninguna especie por parte del Gobierno de Cuba para inducir a una persona cualquiera que se encuentre en los Estados Unidos a que se aliste en las fuerzas armadas de Cuba o de cualquier otro Gobierno extranjero.

(b) Se otorgará por el Gobierno de Cuba tratamiento recíproco a los ciudadanos americanos; es decir, que con anterioridad a su incorporación a las fuerzas armadas de Cuba se les dará la oportunidad de elegir el servir en las fuerzas armadas de los Estados Unidos de manera sustancialmente igual a la señalada más arriba. Además, el Gobierno de Cuba convendrá en informar a todos los ciudadanos americanos que se encuentren sirviendo en sus fuerzas armadas o a ex-ciudadanos americanos que hayan perdido su ciudadanía como consecuencia de haber prestado juramento de fidelidad al incorporarse a las fuerzas armadas de Cuba, y que se hallan ahora prestando servicio en dichas fuerzas, que podrán transferirse a las fuerzas armadas de los Estados Unidos si así lo desean y siempre que sean aceptables a las fuerzas armadas de los Estados Unidos. Los arreglos para llevar a cabo tales transferencias serán acordados por los representantes de las fuerzas armadas de los Gobiernos respectivos.

(c) No se aceptarán por parte de la República de Cuba alistamientos en los Estados Unidos de ciudadanos americanos sujetos a inscripción o de extranjeros de cualquiera nacionalidad que hayan declarado su intención de adoptar la ciudadanía americana y se hallan sujetos a inscripción.

Tengo el honor de informar a Vuestra Excelencia que mi Gobierno desea valerse del procedimiento sugerido en la nota de Vuestra Excelencia y que conviene en hacerlo dentro de las condiciones señaladas y de las estipulaciones establecidas en los párrafos (a), (b) y (c) antes mencionados.

Con respecto al párrafo (a), sin embargo, mi Gobierno desea señalar que en Cuba existe el Servicio Militar Obligatorio y que si bien por el momento es aplicable solamente a los ciudadanos cubanos, el Gobierno de Cuba se reserva el derecho de hacerlo extensivo a los extranjeros en general. En este último caso las estipulaciones del párrafo (b) garantizan a los ciudadanos americanos en Cuba el mismo trato que se ofrece por el presente arreglo a los ciudadanos cubanos en los Estados Unidos.

Con respecto al propio párrafo (a) se desea señalar además que, de acuerdo con la Ley del Servicio Militar de Emergencia de 1941, de la República de Cuba, los ciudadanos cubanos actualmente en los Estados Unidos tienen la obligación de inscribirse para servir militarmente en las fuerzas armadas de Cuba, en las oficinas consulares de la República

en este país, quedando sujetos a llamamiento mediante sorteo. El no cumplimiento de esta obligación trae aparejada la correspondiente sanción penal.

Se espera que en breve plazo se podrá informar a Vuestra Excelencia la designación de las autoridades cubanas que habrán de convenir con el Departamento de la Guerra y el Sistema de Servicio Selectivo los detalles del arreglo.

Aprovecho esta oportunidad para reiterar a Vuestra Excelencia el testimonio de mi más alta consideración

EMBASSY OF CUBA  
WASHINGTON, D.C.

JANUARY 9, 1943.

EXCELLENCY:

I have the honor to refer to Your Excellency's note of November 6, 1942, relative to the conversations which have taken place between officials of the Embassy of Cuba and the Department of State with respect to the application of the Selective Service and Training Act of 1940 of the United States, as amended, to Cuban citizens residing in the United States.

Your Excellency states that the said Act provides that, with certain exceptions, every male citizen of the United States and all other males who reside in the United States, between the ages of 18 and 65 years, must register, the Act further providing that, with certain exceptions, the registered individuals included within certain specified age limits are subject to rendering compulsory active military service in the armed forces of the United States.

In this connection Your Excellency advises that the Government of the United States recognizes that, from the viewpoint of the morale of the individuals affected and of the military effort in general of the countries at war against the Axis powers, it would be desirable to permit certain nationals of co-belligerent countries who have registered or may register under the Selective Service and Training Act of 1940, as amended, to enlist in the armed forces of their own country if they so desire, for which purpose Your Excellency's Government is disposed to initiate a procedure whereby Cubans who have registered under the Selective Service and Training Act of 1940, as amended, and who have not declared their intention of adopting American citizenship, will be permitted to elect to serve in the armed forces of Cuba instead of rendering service in the armed forces of the United States, at any time prior to their entry into the armed forces

of this country. Likewise, Cubans who have not declared their intention of adopting American citizenship and who are already serving in the armed forces of the United States will be permitted to elect to transfer to the armed forces of Cuba. It is stipulated, however, that in every case the person exercising such an option under this arrangement must actually be accepted by the Cuban military authorities before his departure from the United States.

It is proposed in Your Excellency's note that the details of the arrangement be agreed upon directly between the War Department and the Selective Service System, on behalf of the Government of the United States, and competent authorities of the Government of Cuba.

Your Excellency advises me that the Government of the United States is disposed to put the above-mentioned policy into effect immediately with respect to the Republic of Cuba, subject to the following conditions:

(a) No threat or coercion of any kind shall be used by the Government of Cuba to induce any person who is in the United States to enlist in the armed forces of Cuba or of any other foreign Government;

(b) Reciprocal treatment shall be granted by the Government of Cuba to American citizens; that is to say, prior to their entry into the armed forces of Cuba they shall be given an opportunity to elect to serve in the armed forces of the United States in a manner substantially similar to that indicated above. Furthermore, the Government of Cuba will agree to inform all American citizens who are serving in the armed forces or former American citizens who have lost their citizenship as a consequence of having taken an oath of allegiance upon joining the armed forces of Cuba and who are now serving in the said forces, that they will be able to transfer to the armed forces of the United States if they so desire and provided that they are acceptable to the armed forces of the United States. The arrangements for effecting such transfers shall be agreed upon by the representatives of the armed forces of the respective Governments;

(c) There shall not be accepted by the Republic of Cuba enlistments, in the United States, of American citizens subject to registration or of foreigners of any nationality who have declared their intention of adopting American citizenship and are subject to registration.

I have the honor to advise Your Excellency that my Government desires to avail itself of the procedure suggested in Your Excellency's note and that it agrees to do so under the conditions stated and with the stipulations expressed in paragraphs (a), (b), and (c) set forth above.

With respect to paragraph (a), nevertheless, my Government desires to point out that Obligatory Military Service exists in Cuba and that, although for the time being it is applicable only to Cuban citizens, the Cuban Government reserves the right to extend it to foreigners in

general. In the latter case the stipulations of paragraph (b) guarantee to American citizens in Cuba the same treatment as that offered by the present arrangement to Cuban citizens in the United States.

With respect to the same paragraph (a), it is desired to point out, furthermore, that, according to the Emergency Military Service Law of 1941 of the Republic of Cuba, Cuban citizens at present in the United States are under obligation to register for military service in the armed forces of Cuba at consular offices of the Republic in this country, being subject to call according to lottery. Non-fulfilment of this obligation renders a person liable to appropriate penalties.

It is hoped that within a short time it will be possible to advise Your Excellency of the designation of the Cuban authorities who are to come to an agreement with the War Department and the Selective Service System regarding the details of the arrangement.

I avail myself of this opportunity to renew to Your Excellency the assurance of my highest consideration.

EXCELLENCY:

I have the honor to acknowledge the receipt of your note no. 17 of January 9, 1943, in which you state that your Government desires to enter into the agreement, proposed in my note of November 6, 1942, concerning the services of nationals of one country in the armed forces of the other country. You state that your Government gives the assurances stipulated in paragraphs (a), (b), and (c) of the note of November 6, 1942.

Effective date.

I take pleasure in informing you that this agreement is now considered by this Government as having become effective on January 11, 1943, the date on which your note under acknowledgment was received in the Department. The appropriate authorities of this Government will be informed accordingly, and I may assure you that this Government will carry out the agreement in the spirit of full cooperation with your Government.

It is suggested that all the details incident to carrying out the agreement be discussed directly by officers of the Embassy with the appropriate officers in the War Department and the Selective Service

System. Lieutenant Colonel W. D. Partlow, of the War Department, and Major S. G. Parker, of the Selective Service System, will be available to discuss questions relating to the exercise of the option prior to induction. The Inter-Allied Personnel Board of the War Department, which is headed by Major General Guy V. DEPARTMENT OF STATE

WASHINGTON

March 31, 1942

SIR:

I have the honor to inform you that the Selective Training and Service Act of 1940, as amended, provides that with certain exceptions every male citizen of the United States and every other male person residing in the United States between the ages of 18 and 65 shall register. The Act further provides that, with certain exceptions, registrants within specified age limits are liable for active military service in the United States armed forces.

This Government recognizes that from the standpoint of morale of the individuals concerned and the over-all military effort of the countries at war with the Axis Powers, it would be desirable to permit certain classes of individuals who have registered or who may register under the Selective Training and Service Act of 1940, as amended, to enlist in the armed forces of a co-belligerent country, should they desire to do so. It will be recalled that during the World War this Government signed conventions with certain associated powers on this subject. The United States Government believes, however, that under existing circumstances the same ends may now be accomplished through administrative action, thus obviating the delays incident to the signing and ratification of conventions.

This Government is prepared, therefore, to initiate a procedure which will permit aliens who have registered under the Selective Training and Service Act of 1940, as amended, who are nationals of co-belligerent countries and who have not declared their intention of becoming American citizens to elect to serve in the forces of their respective countries, in lieu of service in the armed forces of the United States, at any time prior to their induction into the armed forces of this country. Individuals who so elect will be physically examined by the armed forces of the United States, and if found physically qualified, the results of such examinations will be forwarded to the proper authorities of the co-belligerent nation for determination of acceptability. Upon receipt of notification that an individual

is acceptable and also receipt of the necessary travel and meal vouchers from the co-belligerent government involved, the appropriate State Director of the Selective Service System will direct the local Selective Service Board having jurisdiction in the case to send the individual to a designated reception point for induction into active service in the armed forces of the co-belligerent country. If upon arrival it is found that the individual is not acceptable to the armed forces of the co-belligerent country, he shall be liable for immediate induction into the armed forces of the United States.

Before the above-mentioned procedure will be made effective with respect to a co-belligerent country, this Department wishes to receive from the diplomatic representative in Washington of that country a note stating that his government desires to avail itself of the procedure and in so doing agrees that:

Stipulations to be agreed to by co-belligerent country.

(a) No threat or compulsion of any nature will be exercised by his government to induce any person in the United States to enlist in the forces of any foreign government;

(b) Reciprocal treatment will be granted to American citizens by his government; that is, prior to induction in the armed forces of his government they will be granted the opportunity of electing to serve in the armed forces of the United States in substantially the same manner as outlined above. Furthermore, his government shall agree to inform all American citizens serving in its armed forces or former American citizens who may have lost their citizenship as a result of having taken an oath of allegiance on enlistment in such armed forces and who are now serving in those forces that they may transfer to the armed forces of the United States provided they desire to do so and provided they are acceptable to the armed forces of the United States. The arrangements for effecting such transfers are to be worked out by the appropriate representatives of the armed forces of the respective governments.

(c) No enlistments will be accepted in the United States by his government of American citizens subject to registration or of aliens of any nationality who have declared their intention of becoming American citizens and are subject to registration.

This Government is prepared to make the proposed régime effective immediately with respect to Greece upon the receipt from you of a note stating that your government desires to participate in it and agrees to the stipulations set forth in lettered paragraphs (a), (b), and (c) above.

Accept, Sir, the renewed assurances of my highest consideration.

## EXCELLENCY:

I have the honor to refer to the Department's note of March 31, 1942 and to subsequent conversations had by officers of the Department with the Embassy on the subject of the proposed agreement with your country concerning the service of nationals of one country in the armed forces of the other country.

In amplification of the Department's note of March 31, 1942 I may state that this Government is prepared, upon the conclusion of the proposed agreement, to grant to non-declarant Greek nationals serving in the armed forces of the United States, who did not previously have an opportunity of electing to serve in the forces of their own country, the privilege of applying for a transfer to the armed forces of Greece. Upon the conclusion of the agreement, the War Department is prepared to discharge, for the purpose of transferring to the armed forces of Greece, non-declarant Greek nationals serving in the United States forces who did not have a previous opportunity of opting for service with the Greek forces. I may also state, with reference to the second and third sentences of the third paragraph of the Department's note of March 31, 1942, that the details incident to carrying out the agreement may be modified in such manner as may be mutually agreeable, and to that end it is suggested that this subject be discussed by officers of the Embassy with the appropriate agencies of the United States Government upon the conclusion of the agreement.

SEÑOR ENCARGADO DE NEGOCIOS:

Tengo la honra de referirme, por medio de la presente nota, a las negociaciones celebradas con objeto de regular ciertos aspectos del desempeño del servicio militar de los nacionales de nuestros dos países que residan en el territorio del otro.

De las conversaciones efectuadas hasta la fecha se desprende no sólo el natural interés con que las autoridades de ambas naciones ven este asunto, sino también su firme propósito de llegar a un acuerdo satisfactorio que corresponda a las excelentes relaciones que felizmente ligan a nuestras dos Repúblicas.

En vista de lo anterior, me permito proponer a la consideración del Gobierno de los Estados Unidos de América, por su muy estimable conducto, el siguiente proyecto de arreglo:

I.—Los nacionales de cada país, residentes dentro del territorio del otro, pueden ser registrados y reclutados en las fuerzas armadas del país de su residencia, en las mismas condiciones que los nacionales de éste, a menos de que se estipule lo contrario en este documento.

II.—Los nacionales de cada país que residen en el otro, tendrán los mismos derechos y privilegios que los nacionales del país de su residencia. Las autoridades de los respectivos países, en la selección y reclutamiento en sus fuerzas armadas de los nacionales del otro, tomarán en cuenta sobre las mismas bases, como si se tratara de sus propios nacionales, las condiciones físicas y de salud de los individuos de que se trate, su estado civil, las personas que de ellos dependan económicamente, independientemente del lugar en que éstas residan, y cualquiera otra circunstancia que, de acuerdo con las leyes y reglamentos vigentes en el país de su residencia, sean aplicables a la selección y reclutamiento de los nacionales de este último.

III.—Los nacionales de cada país que se encuentren en el territorio del otro, con el propósito de estudiar y con la intención de regresar al país de que son nacionales al terminar sus estudios, al comprobar tales hechos de acuerdo con las leyes y reglamentos existentes para el servicio militar, serán relevados de la obligación de servir en las fuerzas armadas.

IV.—Los nacionales de cada país que, de acuerdo con las leyes de inmigración del otro son “residentes técnicos” del último país, conocidos como “residentes fronterizos” (border crossers) deberán ser considerados como residentes del país en el que de hecho viven, para los fines del servicio militar.

V.—Los funcionarios y empleados de cada país que residan en el otro y cuya situación oficial haya sido notificada al Gobierno del país en el que están residiendo—y aceptada por éste—no serán considerados, para los fines del servicio militar, como residentes del país en que se encuentran residiendo.

VI.—Cada Gobierno, según lo permitan las necesidades exigidas por el esfuerzo bélico, suministrará al otro Gobierno la información relativa a sus nacionales que hayan sido registrados o reclutados en el servicio militar.

VII.—Los nacionales de cada país que sirvan en las fuerzas armadas del otro, recibirán igual tratamiento y tendrán iguales oportunidades con respecto a comisiones, ascensos, y demás incidentes del servicio militar que los otorgados por el país respectivo, de acuerdo con las leyes y prácticas militares, a sus nacionales.

VIII.—Los representantes de cada Gobierno tendrán derecho de proteger a sus nacionales que sirvan en las fuerzas militares del otro, en todos los asuntos relacionados con su bienestar, incluyendo, pero sin limitarse a ellos, el pago de pensiones, gratificaciones, indemnizaciones y otros beneficios para ellos o sus dependientes, cualquiera que sea el lugar en que estos últimos residan.

IX.—Los nacionales de cada país, que hayan sido registrados o reclutados en el ejército del otro país, de acuerdo con las leyes del Servicio Militar de este último, serán—siempre que no hayan declarado su intención de adquirir la nacionalidad del país en que residen—liberados de servir en el ejército del país de su residencia cuando, con su consentimiento, sean designados por el país del que son nacionales para servir en sus propias fuerzas militares, siempre que tal cosa no resulte perjudicial al esfuerzo bélico común. El procedimiento para el traslado y entrega de las personas requeridas, será concertado por las autoridades de los dos países a las cuales compete la realización de los fines señalados.

X.—Los acuerdos contenidos en los puntos anteriores permanecerán en vigor por el tiempo que dure la actual guerra y durante los seis meses subsecuentes a su terminación.

En caso de que el Gobierno de los Estados Unidos de América esté de acuerdo con el texto preinserto, estimo que la contestación afirmativa de usted a la presente nota será suficiente para que el arreglo entre desde luego en vigor.

Aprovecho la oportunidad para renovarle el testimonio de mi muy atenta consideración.

No. 960

EXCELLENCY:

I have the honor to refer to Your Excellency's note of January 22, 1943 concerning an agreement between the Governments of Mexico and the United States of America relating to military service of the nationals of either country residing in the other country, which reads textually in translation as follows:

"Mr. Chargé d'Affaires:

I have the honor to refer to the negotiations effected for the purpose of regulating certain aspects of the performance of military service by nationals of our two countries residing in the territory of the other country.

The conversations held to date elicit not only the natural interest with which the authorities of both nations view this matter, but also their determination to reach a satisfactory agreement which will coincide with the excellent relations which happily bind our two Republics.

In view of the foregoing I beg to propose for the consideration of the Government of the United States of America through your esteemed intermediary, the following proposed arrangement:

"I. The nationals of either country resident within the territory of the other may be registered and inducted into the armed forces of the country of their residence on the same conditions as the nationals thereof unless otherwise provided herein.

Proposed arrangement.

"II. Nationals of either country residing in the other shall be accorded the same rights and privileges as nationals of the country of residence. In the selection and induction into their armed forces of nationals of the other country the authorities of the respective countries shall take into account on the same basis as if their own nationals were involved the physical condition and health of the individuals concerned, their civil status, their financial dependents, regardless of the place of residence and any other circumstances which under the laws and regulations in force in the country of residence would apply in selecting and inducting nationals of the latter country.

"III. Nationals of either country in the territory of the other country for purposes of study and with the intention of returning to the country of which they are nationals upon the termination of such study shall upon establishing such facts in accordance with existing selective service laws and regulations be relieved from the obligation of military service.

"IV. Nationals of either country who under the immigration laws of the other country are technical residents of that country known as 'border crossers' shall for military service purposes be considered residents of the country in which they actually live.

"V. Officials and employees of either country residing in the other whose official status has been notified to the Government of the country in which they are residing and accepted by that Government shall not be considered for military service purposes as residents of the country in which they are residing.

"VI. Each Government in so far as necessities imposed by the war effort permit will furnish the other Government with information concerning its nationals who have registered for or been inducted into the military service.

"VII. Nationals of either country serving in the armed forces of the other country shall receive the same treatment and have equal opportunities with respect to commissions, promotions and other incidents of military service as are accorded by that country in conformity with military law and practice to its nationals.

"VIII. Representatives of either Government shall have the right to assist their nationals serving in the military forces of the other in all matters relating to their welfare including but not limited to the payment of pensions, gratuities, indemnities or other benefits to them or their dependents wherever the latter may be resident.

"IX. Nationals of each country who have been registered for or inducted into the Army of the other country in accordance with the military service laws of the latter and who have not declared their intention to acquire the citizenship of the country in which they reside shall upon being designated by the country of which they are nationals and with their consent be released for military service in its forces provided that this has no prejudicial effect on the common war effort. The procedure for the transportation and turning over of these persons will be agreed upon by the appropriate authorities of the two countries who are empowered to bring about the objectives desired.

"X. The understandings in the foregoing arrangement shall be in effect as of today for the duration of the present war and six months thereafter.

"Should the Government of the United States of America be in agreement with the foregoing text I consider that your affirmative reply to the present note shall be sufficient for the arrangement to enter immediately into effect.

"I take this occasion to reiterate my very high consideration.  
E. Padilla (Signed)"

The above text has been submitted to my Government and has been found entirely acceptable. It is the belief of the United States Government that this agreement adds further testimony to the mutual desire of our respective countries to unite their efforts as members of the United Nations in prosecuting the war and achieving the victory.

U. S. acceptance.

Accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

*Preliminary agreement between the United States of America and Liberia respecting the principles applying to mutual aid for defense. Signed at New York June 8, 1943; effective June 8, 1943. And exchange of notes.*

Whereas the Government of the Republic of Liberia is desirous of strengthening its national defenses in order that it may be in a position to protect its territorial integrity and sovereign rights in a world at war;

And whereas the President of the United States of America has determined, pursuant to the Act of Congress of March 11, 1941, that the defense of the Republic of Liberia against aggression is vital to the defense of the United States of America;

And whereas the United States of America has extended and is continuing to extend to the Republic of Liberia aid in resisting aggression;

And whereas it is expedient that the final determination of the terms and conditions upon which the Government of the Republic of Liberia receives such aid and of the benefits to be received by the United States of America in return therefor should be deferred until the extent of the defense aid is known and until the progress of events makes clearer the final terms and conditions and benefits which will be in the mutual interests of the United States of America and the Republic of Liberia and will promote the establishment and maintenance of world peace;

And whereas the Governments of the United States of America and the Republic of Liberia are mutually desirous of concluding now a preliminary agreement in regard to the provision of defense aid and in regard to certain considerations which shall be taken into account in determining such terms and conditions and the making of such an agreement has been in all respects duly authorized, and all acts, conditions and formalities which it may have been necessary to perform, fulfil or execute prior to the making of such an agreement in conformity with the laws either of the United States of America or of the Republic of Liberia have been performed, fulfilled or executed as required;

The undersigned, being duly authorized by their respective Governments for that purpose, have agreed as follows:

#### ARTICLE I

The Government of the United States of America will continue to supply the Government of the Republic of Liberia with such defense articles, defense services, and defense information as the President of the United States of America shall authorize to be transferred or provided.

The Government of the Republic of Liberia will provide to the Government of the United States of America such articles, services, facilities or information as it may be in a position to supply.

Aid to United States.

ARTICLE III

The Government of the Republic of Liberia will not without the consent of the President of the United States of America transfer title to, or possession of, any defense article or defense information transferred to it under the Act of March 11, 1941 of the Congress of the United States of America or permit the use thereof by anyone not an officer, employee, or agent of the Government of the Republic of Liberia.

Transfer of title, etc.

55 Stat. 31, 22 U. S. C., Supp. II, §§ 411-419. *Ante*, p. 20.

ARTICLE IV

If, as a result of the transfer to the Government of the Republic of Liberia of any defense article or defense information, it becomes necessary for that Government to take any action or make any payment in order fully to protect any of the rights of a citizen of the United States of America who has patent rights in and to any such defense article or information, the Government of the Republic of Liberia will take such action or make such payment when requested to do so by the President of the United States of America.

The Government of the Republic of Liberia will return to the United States of America at the end of the present emergency, as determined by the President of the United States of America, such defense articles transferred under this Agreement as shall not have been destroyed, lost or consumed and as shall be determined by him to be useful in the defense of the United States of America or of the Western Hemisphere or to be otherwise of use to the United States of America.

Credit for aid furnished by Liberia.

ARTICLE VII

In the final determination of the benefits to be provided to the United States of America by the Government of the Republic of Liberia in return for aid furnished under the Act of Congress of March 11, 1941, the terms and conditions thereof shall be such as not to burden commerce between the two countries, but to promote mutually advantageous

To that end, they shall include provision for agreed action by the United States of America and the Republic of Liberia, open to participation by all other countries of like mind, directed to the expansion, by appropriate international and domestic measures, of production, employment, and the exchange and consumption of goods, which are the material foundations of the liberty and welfare of all peoples; to the elimination of all forms of discriminatory treatment in international commerce; to the reduction of tariffs and other trade barriers; and, in general, to the attainment of all the economic objectives set forth in the Joint Declaration made on August 14, 1941, by the President of the United States of America and the Prime Minister of the United Kingdom, known as the Atlantic Charter.

55 Stat. 1603.

At an early convenient date, conversations shall be begun between the two Governments with a view to determining, in the light of governing economic conditions, the best means of attaining the above-stated objectives by their own agreed action and of seeking the agreed action of other like-minded Governments.

NEW YORK

*June 8, 1943*

SIR:

I have the honor to refer to the Agreement signed in the city of New York on this day, between the Government of the United States of America and the Government of the Republic of Liberia on the principles applying to mutual aid under the Lend-Lease Act of the United States of America of March 11, 1941, and to set forth the understanding of the Government of the Republic of Liberia of the

relationship between this Agreement and the Agreement concluded between our Governments on March 31, 1942, as follows:

56 Stat. 1621.

The Agreement signed this day states in terms of general principles the basis on which aid under the Act of March 11, 1941 is to be furnished to the Republic of Liberia.

The provisions of Article V of the Agreement of March 31, 1942, and the accompanying letter of the same date addressed by the Special Representative of the President of the United States of America to the President of Liberia, are interpreted as setting forth specific applications of the general principles contained in the Agreement signed this day, and especially of Article I, and as enumerating the defense aids which the Government of the United States of America has undertaken, for the time being, to supply the Government of the Republic of Liberia, under the Lend-Lease Act and otherwise.

If the Government of the United States of America concurs in the foregoing, I would suggest that the present note and your reply to that effect be regarded as placing on record the understanding of our two Governments in this matter.

Accept, Sir, the renewed assurances of my highest consideration.

DEPARTMENT OF STATE

WASHINGTON

*April 3, 1943*

SIR:

I have the honor to refer to conversations which have taken place between officers of the Salvadoran Legation and of the Department with respect to the application of the United States Selective Training and Service Act of 1940, as amended, to Salvadoran citizens residing in the United States.

54 Stat. 885.  
50 U. S. C. app.  
§§ 301-318; Supp. II,  
§§ 302-315.  
*Ante*, pp. 164, 391,  
596.

As you are aware, the Act provides that with certain exceptions every male citizen of the United States and every other male person residing in the United States between the ages of eighteen and sixty-five shall register. The Act further provides that, with certain exceptions, registrants within specified age limits are liable for active military service in the United States armed forces.

This Government recognizes that from the standpoint of morale of the individuals concerned and the over-all military effort of the countries at war with the Axis Powers, it would be desirable to permit certain nationals of cobelligerent countries who have registered or who may register under the Selective Training and Service Act of 1940, as amended, to enlist in the armed forces of their own country, should they desire to do so. It will be recalled that during the World War this Government signed conventions with certain associated powers on this subject. The United States Government believes, however, that under existing circumstances the same ends may now be accomplished through administrative action, thus obviating the delays incident to the signing and ratification of conventions.

Nationals of cobel-  
ligerent countries.  
Induction proce-  
dure.

This Government is prepared, therefore, to initiate a procedure which will permit aliens who have registered under the Selective Training and Service Act of 1940, as amended, who are nationals of cobelligerent countries and who have not declared their intention of becoming American citizens to elect to serve in the forces of their respective countries, in lieu of service in the armed forces of the United States, at any time prior to their induction into the armed forces of this country. This Government is also prepared to afford to nationals of cobelligerent countries who have not declared their intention of becoming American citizens who may already be serving

in the armed forces of the United States an opportunity of electing to transfer to the armed forces of their own country. The details of the arrangement are to be worked out directly between the War Department and the Selective Service System on the part of the United States Government and the appropriate authorities of the Salvadoran Government. It should be understood, however, that in all cases a person exercising an option under the arrangement must actually be accepted by the military authorities of the country of his allegiance before his departure from the United States.

Before the above-mentioned procedure will be made effective with respect to a cobelligerent country, this Department wishes to receive from the diplomatic representative in Washington of that country a note stating that his Government desires to avail itself of the procedure and in so doing agrees that:

Stipulations to be agreed to by cobelligerent country.

(a) No effort will be made by his Government to induce any person in the United States to enlist in the forces of his or any foreign government;

(b) Reciprocal treatment will be granted to American citizens by his Government; that is, prior to induction in the armed forces of his Government they will be granted the opportunity of electing to serve in the armed forces of the United States in substantially the same manner as outlined above. Furthermore, his Government shall agree to inform all American citizens serving in its armed forces or former American citizens who may have lost their citizenship as a result of having taken an oath of allegiance on enlistment in such armed forces and who are now serving in those forces that they may transfer to the armed forces of the United States provided they desire to do so and provided they are acceptable to the armed forces of the United States. The arrangements for effecting such transfers are to be worked out by the appropriate representatives of the armed forces of the respective governments;

(c) No enlistments will be accepted in the United States by his Government of American citizens subject to registration or of aliens of any nationality who have declared their intention of becoming American citizens and are subject to registration.

This Government is prepared to make the proposed regime effective immediately with respect to the Republic of El Salvador upon the receipt from you of a note stating that your Government desires to participate in it and agrees to the stipulations set forth in lettered paragraphs (a), (b), and (c) above.

Accept Sir, the renewed assurances of my highest consideration.

The Honorable

Señor Dr. DON HECTOR DAVID CASTRO,  
*Minister of El Salvador.*

*The Salvadoran Ambassador to the Secretary of State*EMBAJADA DE EL SALVADOR  
WASHINGTON

MAYO 14, 1943.

SEÑOR:

Tengo el honor de referirme a la atenta nota de Vuestra Excelencia, de fecha 3 de Abril último, lo mismo que a conversaciones anteriores que han tenido lugar entre funcionarios de esta Misión Diplomática Salvadoreña y del Departamento de Estado con respecto a la aplicación a ciudadanos salvadoreños, residentes en los Estados Unidos, de la Ley de Entrenamiento y Servicio Selectivo de los Estados Unidos, de 1940.

Mi Gobierno ha estudiado con toda atención el contenido de la atenta nota de Vuestra Excelencia, en la cual está detallado un proyecto de arreglo que puede solucionar de modo completo el problema de transferencias de nacionales de nuestros respectivos países al Ejército de su propia bandera, en sustitución del servicio que podrían prestar, o que ya estén prestando, en el Ejército del país en que residen; y he recibido ya las instrucciones de mi Gobierno de aceptar en todas sus partes el arreglo propuesto en la atenta nota de Vuestra Excelencia.

El procedimiento sugerido en la misma nota a que me estoy refiriendo, descansa en las siguientes bases:

“La Ley de Entrenamiento y Servicio Selectivo de los Estados Unidos, de 1940, provee que, con ciertas excepciones, todo ciudadano varón de los Estados Unidos y todo otro varón domiciliado en los Estados Unidos, entre las edades de dieciocho y sesenta y cinco años, debe ser inscrito. La Ley provee además que, con ciertas excepciones, los varones inscritos y comprendidos dentro de ciertos límites de edad especificados, están sujetos a servicio militar activo en las fuerzas armadas de los Estados Unidos.

“El Gobierno de los Estados Unidos de América reconoce que desde el punto de vista de la situación moral de los individuos mencionados y del primordial esfuerzo militar de las Naciones en guerra con los Poderes del Eje, sería deseable permitir a ciertos nacionales de los países cobeligerantes, ya inscritos o que se inscriban de acuerdo con la Ley de Entrenamiento y Servicio Selectivo de 1940, alistarse en las fuerzas armadas de su propio país, si ellos así lo desearan. Se recordará que durante la Guerra Mundial, el Gobierno de los Estados Unidos firmó convenciones con varios Poderes asociados sobre esta materia. El Gobierno de los Estados Unidos cree, sin embargo, que bajo las circunstancias actuales, el mismo propósito puede ahora ser realizado por medio de acción administrativa, evitando así las demoras resultantes de la firma y ratificación de convenciones.

“El Gobierno de los Estados Unidos está preparado, por consiguiente, para iniciar un procedimiento que permita a los extran-

jeros que se hayan registrado bajo la Ley de Entrenamiento y Servicio Selectivo de 1940, reformada, que además sean nacionales de países cobeligerantes y que no hayan declarado intención de convertirse en ciudadanos de los Estados Unidos, que elijan el servir en las fuerzas de sus respectivos países en vez de prestar servicio en las fuerzas de los Estados Unidos, en cualquiera fecha anterior a su alistamiento en las fuerzas armadas de los Estados Unidos. El Gobierno de los Estados Unidos está también preparado a ofrecer a nacionales de países cobeligerantes, que no hayan declarado su intención de convertirse en ciudadanos de los Estados Unidos y que ya estén sirviendo en las fuerzas armadas de los Estados Unidos, una oportunidad para elegir su transferencia a las fuerzas armadas de su propio país. Los detalles del arreglo deben ser concertados directamente entre el Departamento de Guerra y el Sistema de Servicio Selectivo, por parte del Gobierno de los Estados Unidos, y las Autoridades respectivas del Gobierno Salvadoreño. Debe ser entendido, sin embargo, que en todos los casos en que una persona ejerza la opción contemplada en este arreglo, tal opción debe ser aceptada por las Autoridades Militares del Gobierno de su nacionalidad antes de que se permita su partida de los Estados Unidos.”

De acuerdo con las bases que acaban de copiarse, Vuestra Excelencia me informa, en la misma nota del 3 de Abril último, que antes de que el procedimiento arriba mencionado entre a ser efectivo entre nuestros dos Gobiernos, el Departamento de Estado desea recibir del infrascrito, como Representante Diplomático de El Salvador en los Estados Unidos de América, una nota declarando que el Gobierno de El Salvador desea aprovecharse del mismo procedimiento y que, al hacerlo, se compromete a lo siguiente:

- (a) “Ningún esfuerzo será hecho por el Gobierno de El Salvador para inducir a alguna persona en los Estados Unidos para que se aliste en sus propias fuerzas o en las de cualquier Gobierno extranjero;
- (b) “Un tratamiento recíproco será concedido por el Gobierno de El Salvador a los ciudadanos de los Estados Unidos de América, esto es, de modo previo al alistamiento en las fuerzas armadas de su Gobierno, se ofrecerá a ellos la oportunidad de elegir servicio en las fuerzas armadas de los Estados Unidos en una forma sustancialmente igual a la antes descrita. Además, el Gobierno de El Salvador se compromete a informar a todos los ciudadanos de los Estados Unidos que estén sirviendo en sus fuerzas armadas, lo mismo que a antiguos ciudadanos de los Estados Unidos que puedan haber perdido su nacionalidad como resultado de haber hecho un juramento de lealtad al alistarse en tales fuerzas armadas, en las cuales estén sirviendo, que pueden ahora ser transferidos a las fuerzas armadas de los Estados Unidos, si ellos así lo desean y bajo la condición de que sean aceptables a las fuerzas arma-

das de los Estados Unidos. Los arreglos para efectuar tales traslados deben concertarse entre los correspondientes representantes de las fuerzas armadas de nuestros respectivos Gobiernos;

- (c) "El Gobierno de El Salvador no aceptará ningún alistamiento en los Estados Unidos de ciudadanos de la Unión Federal, sujetos allí a registro, ni tampoco de extranjeros de cualquiera nacionalidad que hayan declarado su intención de convertirse en ciudadanos de los Estados Unidos y que estén sujetos a registro (inscripción militar)."

Vuestra Excelencia me informa además, en la misma nota del 3 de Abril último, que el Gobierno de los Estados Unidos está preparado para hacer efectivo inmediatamente el Arreglo así propuesto, con respecto a la República de El Salvador, al recibir del infrascrito una nota declarando que el Gobierno de El Salvador desea participar en él y que conviene en las estipulaciones detalladas en los párrafos de letras (a), (b) y (c), que constan arriba.

En cumplimiento de las instrucciones que he recibido, tengo el honor de informar a Vuestra Excelencia que mi Gobierno desea participar en el Arreglo antes detallado y que conviene expresamente en las estipulaciones detalladas en los párrafos de letras (a), (b) y (c), ya copiados en la presente nota.

En relación con el párrafo de letra (a), mi Gobierno reserva a su Poder Legislativo el derecho de extender a extranjeros las obligaciones de servicio militar, que en la actualidad se exigen únicamente a los ciudadanos salvadoreños. Esta aclaración se hace en previsión de cambios legislativos que puedan ser exigidos por la presente situación de guerra; y es de notarse que la misma aclaración acentúa la reciprocidad establecida en el Arreglo.

Reitero a Vuestra Excelencia las seguridades de mi más alta consideración.

EMBASSY OF EL SALVADOR  
WASHINGTON

MAY 14, 1943.

SIR:

I have the honor to refer to Your Excellency's kind note of April 3 last, as well as to previous conversations that have been held between officials of this Salvadoran Diplomatic Mission and of the Department of State with respect to the application to Salvadoran citizens, resi-

dent in the United States, of the Selective Training and Service Act of the United States of 1940.

My Government has studied with all attention the content of Your Excellency's kind note, in which is detailed a proposed arrangement which can solve completely the problem of transfers of nationals of our respective countries to the army of their own flag, in substitution for the service which they might render, or are already rendering, in the army of the country in which they reside; and I have received instructions from my Government to accept in all its parts the arrangement proposed in Your Excellency's kind note.

54 Stat. 885.  
50 U. S. C. app.  
§§ 301-318; Supp. II,  
§§ 302-315.  
*Ante*, pp. 164, 391,  
596.

The procedure suggested in the said note to which I refer rests on the following bases:

"The Selective Training and Service Act of the United States of 1940 provides that, with certain exceptions, every male citizen of the United States and every other male domiciled in the United States, between the ages of eighteen and sixty-five, must be registered. The Act provides, further, that, with certain exceptions, males registered between certain specified age limits, are subject to active military service in the armed forces of the United States. "The Government of the United States of America recognizes that from the point of view of the morale of the individuals mentioned and the primordial military effort of the nations at war with the Axis powers, it would be desirable to permit certain nationals of the co-belligerent countries, who are now registered or who may be registered under the Selective Training and Service Act of 1940, to enlist in the armed forces of their own country, if they so desire. It will be recalled that during the World War the United States Government signed conventions with various associated powers on this subject. The United States Government believes, nevertheless, that under the present circumstances, the same purpose may now be attained by administrative action, thus avoiding the delays resulting from the signing and ratification of conventions.

"The United States Government is prepared, consequently, to initiate a procedure to permit aliens who have registered under the Selective Training and Service Act of 1940, as amended, and who are nationals of co-belligerent countries and who have not declared their intention of becoming United States citizens, to choose to serve in the forces of their respective countries instead of serving in the forces of the United States, on any date anterior to their enrolment in the armed forces of the United States. The Government of the United States is also prepared to offer to nationals of co-belligerent countries, who have not declared their intention of becoming citizens of the United States and who are now serving in the armed forces of the United States, an opportunity to elect their transfer to the armed forces of their own country. The details of the arrangement are to be agreed upon directly between the War Department and the Selective

Service System, on the part of the Government of the United States, and the respective authorities of the Salvadoran Government. It must be understood, nevertheless, that in all cases in which a person exercises the option contemplated in this arrangement, such option must be accepted by the military authorities of the government of his nationality before his departure from the United States is permitted."

In accordance with the bases which have just been copied, Your Excellency informs me, in the same note of April 3, that before the above-mentioned procedure comes into force between our two Governments, the Department of State desires to receive from the undersigned, as Diplomatic Representative of El Salvador in the United States, a note declaring that the Government of El Salvador desires to avail itself of the same procedure and that, on doing so, it agrees to the following:

- (a) "No effort shall be made by the Government of El Salvador to induce any person in the United States to enlist in its own forces or in those of any foreign Government;
- (b) "Reciprocal treatment shall be granted by the Government of El Salvador to the citizens of the United States of America, that is, prior to the enrolment in the armed forces of their Government, they shall be offered the opportunity to elect service in the armed forces of the United States in a manner substantially like that above described. Furthermore, the Government of El Salvador agrees to inform all citizens of the United States who are serving in its armed forces, as well as former citizens of the United States who may have lost their nationality as a result of having taken an oath of loyalty on enlisting in such armed forces, in which they are serving, that they can now be transferred to the armed forces of the United States, if they so desire and on condition that they are acceptable to the armed forces of the United States. The arrangements for making such transfers are to be made between the corresponding representatives of the armed forces of our respective Governments;
- (c) "The Government of El Salvador shall not accept any enlistment in the United States of citizens of the Federal Union, subject to registration there, nor of aliens of any nationality who have declared their intention of becoming citizens of the United States and who are subject to registration."

Your Excellency informs me furthermore, in the same note of April 3 last, that the Government of the United States is prepared to make the arrangement thus proposed effective immediately, with respect to the Republic of El Salvador, upon receiving from the undersigned a note declaring that the Government of El Salvador desires to participate in it and that it agrees to the stipulations detailed in the paragraphs lettered (a), (b), and (c), given above.

In execution of the instructions which I have received, I have the honor to inform Your Excellency that my Government desires to participate in the arrangements above detailed and that it agrees expressly to the stipulations detailed in paragraphs lettered (a), (b), and (c), already copied in this note.

In connection with the paragraph lettered (a), my Government reserves to its legislative power the right to extend to aliens the military service obligations, which at present are required only of Salvadoran citizens. This clarification is made with a view to legislative changes which may be necessitated by the present war situation; and it is to be noted that the same clarification accentuates the reciprocity established in the arrangement.

I renew to Your Excellency the assurances of my highest consideration.

DEPARTMENT OF STATE  
 WASHINGTON  
 May 31, 1943

EXCELLENCY:

I have the honor to acknowledge the receipt of Your Excellency's note of May 14, 1943 in which you state that your Government desires to enter into the agreement proposed in my note of April 3, 1943 concerning the services of nationals of one country in the armed forces of the other country. You state that you have received instructions from your Government to accept in all its parts the arrangement proposed in my note of April 3, 1943 and that your Government desires to participate in the arrangements detailed therein and agrees expressly to the stipulations detailed in paragraphs (a), (b), and (c) of the note of April 3, 1943. You also state that in connection with the paragraph lettered (a), your Government reserves to its legislative power the right to extend to aliens the military service obligations, which at present are required only of Salvadoran citizens.

I take pleasure in informing you that this agreement is now considered by this Government as having become effective on May 15, 1943, the date on which your note under acknowledgment was received in the Department. The appropriate authorities of this Government have been informed accordingly, and I may assure you that this Government will carry out the agreement in the spirit of full cooperation with your Government.

Effective date.

With reference to the penultimate paragraph of your note under reference, this Government has taken note that the Government of El Salvador reserves its rights to extend to aliens in El Salvador the military service obligations which at present are required only of Salvadoran citizens.

It is suggested that all the details incident to carrying out the agreement be discussed directly by officers of the Embassy with the appropriate officers in the Selective Service System and the War Department. Lieutenant Colonel S. G. Parker, of the Selective Service System, and Lieutenant Colonel V. L. Sailor, of the Recruiting and Induction Section, Adjutant General's Office, War Department, will be available to discuss questions relating to the exercise of the option prior to induction. The Inter-Allied Personnel Board of the War Department, which is headed by Major General Guy V. Henry, is the agency with which questions relating to the discharge of non-declarant nationals of El Salvador, who may have been serving in the Army of the United States on the effective date of the agreement, and who desire to transfer to the Salvadoran forces, may be discussed.

Accept, Excellency, the renewed assurances of my highest consideration.

*Supplementary agreement between the United States of America and the Netherlands respecting principles applying to the provision of aid to the armed forces of the United States. Effected by exchange of notes signed at Washington June 14, 1943; effective July 8, 1942.*

*The Netherlands Ambassador to the Secretary of State*

NETHERLANDS EMBASSY  
WASHINGTON, D.C.

GA 1928

JUNE 14, 1943

SIR:

In the United Nations' declaration of January 1, 1942, the contracting governments pledged themselves to employ their full resources, military or economic, against those nations with which they are at war; and in the Agreement of July 8, 1942 between the Governments of the United States and of the Netherlands, on the Principles Applying to Mutual Aid in the Prosecution of the War against Aggression, each contracting government undertook to provide the other with such articles, services, facilities, or information useful in the prosecution of their common war effort as it might be in a position to supply. It is the understanding of the Government of the Kingdom of the Netherlands that the general principle to be followed in providing mutual aid as set forth in the said Agreement of July 8, 1942 is that the war production and the war resources of both Nations should be used by each in ways which most effectively utilize the available materials, manpower, production facilities and shipping space.

55 Stat. 1600.

56 Stat. 1554.

With a view, therefore, to supplementing the Agreement of July 8, 1942, I have the honor to set forth below the understanding of the Government of the Kingdom of the Netherlands of the principles and procedures applicable to the provision of aid by the Government of the Kingdom of the Netherlands to the armed forces of the United States and the manner in which such aid will be correlated with the maintenance of those forces by the United States Government.

1. The Government of the Kingdom of the Netherlands, retaining the right of final decision, in the light of its own potentialities and responsibilities, will provide the United States or its forces with the following types of assistance as such reciprocal aid, when and to the extent that it is found that they can most effectively be procured in territory of the Kingdom of the Netherlands:

(a) Supplies, materials, facilities, information and services for the United States forces except for the pay and allowances of such forces, administrative expenses, and such local purchases as its official establishments may make other than through the official establishments of the Government of the Netherlands as specified in paragraph 2.

(b) Supplies, materials, information and services needed in the construction of military projects, tasks and similar capital works required for the common war effort in territory of the Kingdom of the Netherlands, except for the wages and salaries of United States citizens.

(c) Supplies, materials, information and services needed in the construction of such military projects, tasks and capital works in territory other than territory of the Kingdom of the Netherlands or territory of the United States, to the extent that territory of the Kingdom of the Netherlands is a more practicable source of supply than the United States, or another of the United Nations.

2. The practical application of the principles formulated in this note, including the procedure by which requests for aid by either Government are made and acted upon, shall be worked out as occasion may require by agreement between the two Governments, acting when possible through their appropriate military or civilian administrative authorities. Requests by the United States Government for such aid will be presented by duly authorized authorities of the United States to official agencies of the Netherlands which will be designated or established in Washington, or in the areas where United States forces are located, for the purpose of facilitating the provision of reciprocal aid.

56 Stat. 1555.

3. It is the understanding of the Government of the Kingdom of the Netherlands that all such aid, as well as other aid, including information, received under Article 6 of the Agreement of July 8, 1942, accepted by the President of the United States or his authorized representatives from the Government of the Netherlands will be received as a benefit to the United States under the Act of March 11, 1941. In so far as circumstances will permit, appropriate record of aid received under this arrangement will be kept by each Government.

55 Stat. 31.  
22 U. S. C., Supp.  
II, §§ 411-419.  
*Ante*, p. 20.

If the Government of the United States concurs in the foregoing, I would suggest that the present note and your reply to that effect be regarded as placing on record the understanding of our two Governments in this matter and that for clarity and convenience of administration this understanding be considered to be effective as from July 8, 1942, the date of the Agreement of the two Governments on the principles of mutual aid.

DEPARTMENT OF STATE

WASHINGTON

*January 23, 1943*

**EXCELLENCY:**

I have the honor to refer to conversations which have taken place between officers of the Brazilian Embassy and of the Department of State with respect to the application of the United States Selective Training and Service Act of 1940, as amended, to Brazilian nationals residing in the United States.

54 Stat. 885.  
50 U. S. C. app.  
§§ 301-318; Supp. II,  
§§ 302-315.  
*Ante*, pp. 164, 391,  
596.

As you are aware, the Act provides that with certain exceptions every male citizen of the United States and every other male person residing in the United States between the ages of eighteen and sixty-five shall register. The Act further provides that, with certain exceptions, registrants within specified age limits are liable for active military service in the United States armed forces.

This Government recognizes that from the standpoint of morale of the individuals concerned and the over-all military effort of the countries at war with the Axis Powers, it would be desirable to permit certain nationals of cobelligerent countries who have registered or who may register under the Selective Training and Service Act of 1940, as amended, to enlist in the armed forces of their own country, should they desire to do so. It will be recalled that during the World War this Government signed conventions with certain associated powers on this subject. The United States Government believes, however, that under existing circumstances the same ends may now be accomplished through administrative action, thus obviating the delays incident to the signing and ratification of conventions.

Nationals of cobel-  
ligerent countries.  
Induction proce-  
dure.

This Government is prepared, therefore, to initiate a procedure which will permit aliens who have registered under the Selective Training and Service Act of 1940, as amended, who are nationals of cobelligerent countries and who have not declared their intention of becoming American citizens to elect to serve in the forces of their respective countries, in lieu of service in the armed forces of the United States, at any time prior to their induction into the armed forces of this country. This Government is also prepared to afford to nationals of cobelligerent countries who have not declared their intention of becoming American citizens who may already be serving in the armed forces of the United States an opportunity of electing

to transfer to the armed forces of their own country. The details of the arrangement are to be worked out directly between the War Department and the Selective Service System on the part of the United States Government and the appropriate authorities of the Brazilian Government. It should be understood, however, that in all cases a person exercising an option under the arrangement must actually be accepted by the military authorities of the country of his allegiance before his departure from the United States.

Before the above-mentioned procedure will be made effective with respect to a cobelligerent country, this Department wishes to receive from the diplomatic representative in Washington of that country a note stating that his government desires to avail itself of the procedure and in so doing agrees that:

Stipulations to be agreed to by cobelligerent country.

(a) No threat or compulsion of any nature will be exercised by his government to induce any person in the United States to enlist in the forces of his or any foreign government;

(b) Reciprocal treatment will be granted to American citizens by his government; that is, prior to induction in the armed forces of his government they will be granted the opportunity of electing to serve in the armed forces of the United States in substantially the same manner as outlined above. Furthermore, his government shall agree to inform all American citizens serving in its armed forces or former American citizens who may have lost their citizenship as a result of having taken an oath of allegiance on enlistment in such armed forces and who are now serving in those forces that they may transfer to the armed forces of the United States provided they desire to do so and provided they are acceptable to the armed forces of the United States. The arrangements for effecting such transfers are to be worked out by the appropriate representatives of the armed forces of the respective governments;

(c) No enlistments will be accepted in the United States by his government of American citizens subject to registration or of aliens of any nationality who have declared their intention of becoming American citizens and are subject to registration.

This Government is prepared to make the proposed regime effective immediately with respect to Brazil upon the receipt from you of a note stating that your Government desires to participate in it and agrees to the stipulations set forth in lettered paragraphs (a), (b), and (c) above.

Accept, Excellency, the renewed assurances of my highest consideration.

DEPARTMENT OF STATE

WASHINGTON

July 19, 1943

SIR:

I have the honor to inform you that the Honorable Anthony J. Dimond, Delegate of Alaska, United States House of Representatives, has proposed that the highway from Dawson Creek, British Columbia, to Fairbanks, Alaska, be given the official name "Alaska Highway".

The Government of the United States believes that the name suggested by Mr. Dimond is suitable and in harmony with popular usage. It is of the further opinion that the highway should be jointly named by the Governments of the United States and Canada in view of the location of the greater part of the highway within Canada and in view of the friendly cooperation which has made possible its construction.

In accordance with the foregoing, I have the honor to propose that the highway from Dawson Creek, British Columbia, to Fairbanks, Alaska, be designated the "Alaska Highway". If the Canadian Government is agreeable to this proposal, it is suggested that this note and your reply in that sense shall be considered as placing on record the agreement of the two Governments in this matter.

Accept, Sir, the renewed assurances of my highest consideration.

FOREIGN OFFICE, S.W. 1.

No. U 954/301/71

30th April, 1943.

YOUR EXCELLENCY,

On the 6th January negotiations between the Ministry of Supply of the United Kingdom and the Board of Economic Warfare and the Metals Reserve Company of the United States relative to the apportioning of supplies of African asbestos were brought to a conclusion by the signing on their behalf of a Memorandum of Understanding, a copy of which I have the honour to transmit to Your Excellency herewith.

2. In response to the desire which I understand is shared by the Government of the United States of America, that the arrangement should be formally adopted by the two Governments, I have the honour to inform you that the Government of the United Kingdom of Great Britain and Northern Ireland approve of the principles contained in the Memorandum of Understanding annexed hereto and are willing to give effect to the provisions thereof, subject only to the understanding that the expression "cessation of hostilities" in Article II of the annexed Memorandum means the date of the signing of the latest general armistice suspending general hostilities between the United Kingdom and the United States of America on the one hand and any of the Powers with which they are now at war on the other, or such later date as may be agreed between the two contracting Governments.

3. If the Government of the United States are likewise prepared to give effect to this arrangement on these terms, the present note and your reply to that effect will serve to place on record the understanding between the two Governments in this matter.

I have the honour to be, with the highest consideration,

Your Excellency's obedient Servant,

ANTHONY EDEN

His Excellency

The Honourable

JOHN G. WINANT,

## MEMORANDUM OF UNDERSTANDING

6TH JANUARY, 1943.

1. *Statement of Principle*

The Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland agree so to regulate the importation of African asbestos and take such other practicable steps as to apportion supplies in accordance with the following principles:—

(a) Where 1943 production is adequate supplies will be so apportioned as to enable each of the Governments to create, by 1st January, 1944, stocks (whether privately or publicly owned) of each grade of asbestos equivalent to one year's consumption.

(b) Where 1943 production of a particular kind of asbestos is inadequate to achieve this objective, the apportionment of available supplies shall be made with reference to the relative importance to the war production programmes of the respective Governments of the uses of that asbestos. It is agreed, therefore, that the requirements of H.M.G. in U.K. for supplies of blue M.S. and S. asbestos shall be given prior consideration and, conversely, that requirements of the U.S.G. for supplies of amosite shall be given prior consideration.

(c) Necessary requirements of the other friendly nations for raw African asbestos fibre (as stated in the Appendices) shall be met to the extent of available supplies.

(d) When, as a result of inadequate supplies, the requirements of either Government are not fully met in any grade, such Government may, at its option and in agreement with the other Government, secure equivalent quantities of other grades by way of replacement for its reserve, if there are available surpluses after essential war requirements have been met.

(e) Any surpluses of available 1943 supplies remaining after meeting the stock-pile objectives of U.S.G. and H.M.G. after meeting the necessary requirements of other nations and after providing for such additional quantities as may be secured by the respective Governments pursuant to sub-paragraph (d) above shall be apportioned between the U.S.G. and H.M.G. in U.K. in proportion to the estimated consumption in the U.S. and the U.K.

(f) Available supplies in 1944 and thereafter shall be apportioned between the U.S.G. and H.M.G. in U.K. in proportion to the estimated consumption in the U.S. and the U.K. after allowing for quantities in stock or estimated to be in stock at 31st December, 1943, and allowing for the necessary requirements of friendly nations.

(g) The nominal requirements of the U.S.G. for blue A and C asbestos shall be met in full in 1943.

(h) In apportioning the various types of chrysotile asbestos within any particular grade (as for example in apportioning quantities of C. and G.2, H.V.L.2. and V.R.A.2 consideration shall be given to the

interchangeability of the grades in the U.K. and to the unfamiliarity of the U.S. manufacturing companies with grades other than C. and G. The U.S.G. will in 1943 use its best efforts to induce the manufacturers to run manufacturing tests to ascertain the interchangeability and usability of grades other than C. and G. The U.S.G. and H.M.G. will encourage the full interchange of technical information. Any limitation of the quantities of V.R.A. or H.V.L. grades which may be delivered to the U.S.A. in 1943 is agreed without prejudice to the producers' claim that these grades are fully interchangeable with the C. & G. grades.

## *2. Apportionment of Supplies*

Appendix 1 sets forth the agreed apportionment of supplies between U.S.A., U.K., the Empire and neutral destinations. This apportionment has been calculated in accordance with the principles set forth in paragraph 1.

3. Insofar as the requirements of the U.K. for African asbestos have been stated on the assumption of the continuance as hitherto of Canadian supplies, the respective Governments agree that the apportionments are subject to review in the event that adequate supplies of Canadian fibre are not forthcoming.

## *4. Assurances of Blue Production*

In view of the real shortage in supplies of blue M.S. and S. grades, all practicable steps will be taken to increase blue M.S. and S. production to levels adequate to provide for the current essential requirements of the U.S. and the U.K. and, if possible, to provide for minimum reserve stocks.

## *5. Assurance of Chrysotile, (C. and G.) Production*

In view of the high importance attached by users for important war production to the C. and G.1 and 2 grades, the production of these grades will be closely watched and every effort made to secure maintenance of production at an adequate level.

## *6. Exchange of Information*

### *(a) Information Furnished by U.S.G.*

The U.S.G. undertakes to furnish to H.M.G. within 60 days after the end of each three months' period a statement, by grades, of the receipts, consumption and stocks of African asbestos in the United States and of afloats and sinkings. The first such statement shall be made as of 31st December, 1942.

### *(b) Information Furnished by H.M.G.*

H.M.G. in U.K. undertakes to furnish to the U.S.G. within 60 days after the end of each three months' period a statement, by grades, of the receipts, consumption and stocks of African asbestos in the

United Kingdom and of afloats and sinkings. The first such statement shall be made as of 31st December, 1942. Quarterly statements will also be furnished to the U.S.G. of mining production and African stocks of the African producers.

*7. Provision for Review of Apportionments*

Upon exchange of information as to receipts, consumption, stocks, afloats and sinkings, either Government may request a review of the apportionment in any grade of African asbestos, to bring the actual position into line with the principles set forth in paragraph 1.

*8. Appointment of Representatives*

The U.S.G. and H.M.G. in U.K. will appoint a representative each to recommend the re-apportionment outlined in paragraph 7 above, or to adjust difficulties of interpretation of this agreement which may arise from time to time.

*9. Agreements between Metals Reserve Company and Producing Companies*

H.M.G. in U.K. takes note of the agreements entered into between Metals Reserve Company on the one hand and Cape Asbestos Company and Raw Asbestos Distributors on the other dated 22nd December, 1942, and 18th December, 1942, respectively and finds them to be in accord with the spirit of this agreement. The U.S.G. undertakes to provide H.M.G. in U.K. with copies of such contracts and of any documents bearing on the interpretation or extension of those contracts.

*10. Provision for review by C.R.M.B.*

The terms of this Agreement are subject to any action which may be taken at any time by the C.R.M.B.

*11. Duration of Agreement*

Except by mutual consent, this agreement shall terminate nine months after the cessation of hostilities. The disposition of stocks remaining in the two countries shall be the subject of full and mutual discussion between U.S.G. and H.M.G. in U.K.

Sección de Economía.

CARACAS, 14 de mayo de 1943

SEÑOR ENCARGADO DE NEGOCIOS:

Autorizado por mi Gobierno, tengo a honra dejar constancia en esta nota de que, como resultado de las conversaciones habidas entre esa Honorable Embajada, por una parte, el Ministro de Agricultura y Cría de los Estados Unidos de Venezuela y el suscrito, por la otra, acerca de la mejor forma de organizar el fomento de la producción de artículos alimenticios en Venezuela, y, en consecuencia, de dar incremento a las relaciones comerciales y económicas entre los dos países, se ha convenido entre el Gobierno de los Estados Unidos de Venezuela y el Gobierno de los Estados Unidos de América en ejecutar un plan de conformidad con las siguientes cláusulas:

Primera: El Gobierno de los Estados Unidos de Venezuela se compromete a crear una Oficina especial en el Instituto Técnico de Inmigración y Colonización. Dicha Oficina, que se denominará Servicio Cooperativo Interamericano de Producción de Alimentos y que en lo adelante se llamará S.C.I.P.A., estará bajo la supervisión directa del Ministerio de Agricultura y Cría. Al S.C.I.P.A. le corresponderá ejecutar el plan de producción de alimentos que formule el Ministerio de Agricultura y Cría, en colaboración con la Misión de Producción de Alimentos que envíe a Venezuela el Instituto de Asuntos Interamericanos de los Estados Unidos de América.

Segunda: El S.C.I.P.A. perseguirá como finalidad esencial el incremento en Venezuela de la producción de artículos alimenticios de origen vegetal y animal, que sean de primera necesidad, y entre sus actividades incluirá:

a) Ayuda técnica para el mejoramiento en la calidad de la producción de artículos alimenticios de origen animal y vegetal;

b) suministro de recursos, herramientas, equipos, insecticidas y demás efectos necesarios para el aumento de la producción de artículos alimenticios de origen animal y vegetal;

c) ampliación de los recursos con que cuenta el Gobierno de Venezuela para el desarrollo de la producción de artículos alimenticios de origen animal y vegetal, a objeto de adaptar esa producción, de manera eficiente y cónsona, a las técnicas agrícolas modernas empleadas en Venezuela y en los Estados Unidos de América;

d) desarrollo de planes, ayuda técnica y ejecución de obras de irrigación, de drenaje y de conservación de suelos;

e) colaboración en lo relativo a la solución de los problemas de manipuleo, almacenaje, conservación y distribución de artículos alimenticios;

f) ayuda técnica y financiera para la colonización agrícola; y

g) mejoramiento de las condiciones de nutrición de los habitantes de aquellas regiones en donde se desarrolle especialmente este plan de producción.

Tercera: El Instituto de Asuntos Interamericanos de los Estados Unidos de América nombrará una Misión de Producción de Alimentos, a objeto de que preste su colaboración al S.C.I.P.A. en el desarrollo del plan de producción en referencia. Dicha Misión estará bajo la dirección de un experto que llevará el título de Jefe de la Misión de Producción de Alimentos en Venezuela. Este Jefe será el representante en Venezuela de la División de Producción de Alimentos del Instituto de Asuntos Interamericanos.

Cuarta: El S.C.I.P.A. será una dependencia del Instituto Técnico de Inmigración y Colonización y el Jefe de la Misión de Producción de Alimentos en Venezuela actuará como Director Técnico de dicho Servicio.

Quinta: El S.C.I.P.A. tendrá su domicilio en la ciudad de Caracas, capital de los Estados Unidos de Venezuela.

Sexta: Los fondos necesarios para el funcionamiento del S.C.I.P.A. serán suministrados en el término de un año mediante aportes hasta por la cantidad de quinientos mil dólares (\$500.000) por parte del Gobierno de los Estados Unidos de América, y mediante aportes hasta por la cantidad de un millón quinientos treinta mil bolívares (B<sup>2</sup>1.530.000) por parte del Gobierno de los Estados Unidos de Venezuela. El Gobierno de los Estados Unidos de América aportará además cantidades adicionales hasta por quinientos mil dólares (\$500.000) más, siempre que este *modus vivendi* sea prorrogado por otro año y siempre que el Congreso de los Estados Unidos de Venezuela incluya oportunamente en el Presupuesto General de Rentas y Gastos Públicos Partidas que permitan erogar una suma adicional hasta por un millón quinientos treinta mil bolívares (B<sup>2</sup>1.530.000) para el mismo fin antes mencionado.

Séptima: Los fondos que ha de aportar el Gobierno de los Estados Unidos de América serán suministrados al S.C.I.P.A. según lo requiera

el progreso de los trabajos que éste efectúe y de acuerdo con lo que al efecto convengan el Ministro de Agricultura y Cría, el Director del Instituto Técnico de Inmigración y Colonización y el Jefe de la Misión de Producción de Alimentos en Venezuela. Los fondos que a su vez ha de aportar el Gobierno de los Estados Unidos de Venezuela serán entregados al S.C.I.P.A. en forma proporcional a las cantidades que vaya aportando el Gobierno de los Estados Unidos de América, a razón de tres bolívares con seis céntimos (B<sup>3</sup>,06) por cada dólar.

Octava: Los aportes determinados en la cláusula Sexta de este *modus vivendi*, deducción hecha del valor de los equipos, maquinaria y demás efectos que ambos Gobiernos suministren, serán depositados en el Banco Agrícola y Pecuario, a la disposición del Instituto Técnico de Inmigración y Colonización, en una cuenta corriente especial a nombre del S.C.I.P.A., el cual los invertirá en la ejecución del citado plan de producción de alimentos. La mencionada cuenta corriente deberá ser movilizada mediante cheques firmados conjuntamente por el Director del Instituto Técnico de Inmigración y Colonización y por el Director Técnico del S.C.I.P.A., ajustándose en un todo a las instrucciones o normas que al efecto hayan elaborado de acuerdo con el Ministro de Agricultura y Cría.

Novena: La cantidad de quinientos mil dólares (\$500.000) a que se refiere la cláusula Sexta de este *modus vivendi*, la cual deberá invertirse íntegramente en la producción de artículos alimenticios de primera necesidad en Venezuela, constituirá el aporte total del Gobierno de los Estados Unidos de América, a no ser que se cumplan las condiciones estipuladas en dicha cláusula Sexta, caso en el cual el expresado aporte total será de un millón de dólares (\$1.000.000). Y la cantidad de un millón quinientos treinta mil bolívares (B<sup>2</sup>1.530.000) a que también se ha hecho referencia en la citada cláusula Sexta, constituirá el aporte total del Gobierno de los Estados Unidos de Venezuela, salvo que éste resuelva prorrogar por otro año el presente *modus vivendi* e incluir en el Presupuesto General de Rentas y Gastos Públicos Partidas que le permitan erogar un millón quinientos treinta mil bolívares (B<sup>2</sup>1.530.000) más, caso en el cual su aporte total será de tres millones sesenta mil bolívares (B<sup>3</sup>3.060.000).

Décima: Los sueldos y demás gastos que ocasionen los miembros de la Misión de Producción de Alimentos en Venezuela, inclusive sus gastos de viaje, serán pagados por el Instituto de Asuntos Interamericanos de fondos no asignados al S.C.I.P.A.

Décima Primera: Todas las construcciones que se realicen de acuerdo con este *modus vivendi*, pasarán, al término de éste, a ser propiedad de la Nación venezolana. No se emprenderá ninguna obra que requiera material o personal indispensable a la prosecución de alguna fase del esfuerzo bélico.

Décima Segunda: Los trabajos que haya de emprender el S.C.I.P.A. en ejecución del plan de producción de alimentos, deberán ser determinados de mutuo acuerdo entre el Ministro de Agricultura y Cría o su representante y el Director Técnico de dicho Servicio.

Décima Tercera: Cualquier contrato o acuerdo que el S.C.I.P.A. haya de celebrar con otras entidades o personas, en ejecución del plan de producción de alimentos, deberá ser previamente discutido y convenido entre el Ministro de Agricultura y Cría o su representante y el Director Técnico del S.C.I.P.A.

Décima Cuarta: El Director del Instituto Técnico de Inmigración y Colonización, previa aprobación del Ministro de Agricultura y Cría y el Director Técnico del S.C.I.P.A., nombrará el personal subalterno que sea necesario para la cabal ejecución del plan de producción de alimentos, e igualmente removerá dicho personal y determinará sus sueldos y obligaciones de acuerdo con el Ministro de Agricultura y Cría y el Director Técnico del S.C.I.P.A.

The Government of the United States of America will also furnish additional sums up to five hundred thousand dollars (\$500,000), provided of course that this *modus vivendi* is extended for another year and that the Congress of the United States of Venezuela opportunely includes allotments in the General Revenue and Public Expenditures Budget permitting expenditure of an additional sum up to one million five hundred thirty thousand bolivares (Bs.1,530,000), for the same purpose previously stated.

*Seventh.* The funds to be contributed by the Government of the United States of America shall be transferred to the S.C.I.P.A. as required by the progress of the work performed and according to agreement between the Minister of Agriculture and Animal Husbandry, the Director of the Technical Institute of Immigration and Colonization, and the Chief of the Food Production Mission in Venezuela. *Thirteenth.* Any contract or agreement to be made by the S.C.I.P.A. with other entities or persons for the execution of the foodstuffs production plan must be previously discussed and agreed upon by the Minister of Agriculture and Animal Husbandry or his representative and the Technical Director of the S.C.I.P.A.

*Fourteenth.* The director of the Technical Institute of Immigration and Colonization, with the previous approval of the Minister of Agriculture and Animal Husbandry and the Technical Director of the S.C.I.P.A., shall appoint the subordinate personnel required for the full execution of the foodstuffs production plan, and likewise discharge said personnel and determine their salaries and obligations in agreement with the Minister of Agriculture and Animal Husbandry and the Technical Director of the S.C.I.P.A.

*Fifteenth.* The accounts and files of the S.C.I.P.A. may be examined at any time by the persons designated for this purpose by the Minister of Agriculture and Animal Husbandry or the Chief of the Food Production Mission in Venezuela, to whom the S.C.I.P.A. shall make available, moreover, all of the information they may request.

*Sixteenth.* In view of the national interest involved in the intensification and development of the production of foodstuffs of pri-

mary necessity referred to in this *modus vivendi*, the Government of the United States of Venezuela agrees to exonerate from import duties the machinery, tools, vehicles, materials for the construction of buildings, repairs, and other work required for the thorough execution of the plan of production of foodstuffs of primary necessity.

This note and Your Excellency's corresponding reply will constitute a *modus vivendi* for the duration of one year, and it may be extended for one year more by the simple statement of willingness of the Government of the United States of Venezuela.

I avail myself of this opportunity to renew to you, Sir, the assurances of my distinguished consideration.

[E. A. S. 334]

AGREEMENT BETWEEN THE GOVERNMENTS OF THE UNITED STATES OF AMERICA AND ETHIOPIA ON THE PRINCIPLES APPLYING [TO MUTUAL AID IN THE PROSECUTION OF THE WAR AGAINST AGGRESSION

Whereas the Governments of the United States of America and Ethiopia declare that they are engaged in a cooperative undertaking, together with every other nation or people of like mind, to the end of laying the bases of a just and enduring world peace securing order under law to themselves and all nations;

And whereas the Government of the United States of America as a signatory of the Declaration by United Nations of January 1, 1942 and the Government of Ethiopia as an adherent to that Declaration have subscribed to a common program of purposes and principles embodied in the Joint Declaration made on August 14, 1941 by the President of the United States of America and the Prime Minister of the United Kingdom of Great Britain and Northern Ireland, known as the Atlantic Charter;

55 Stat. 1600.

And whereas the President of the United States of America has determined, pursuant to the Act of Congress of March 11, 1941, that the defense of Ethiopia against aggression is vital to the defense of the United States of America;

55 Stat. 1603.

55 Stat. 31,  
22 U. S. C., Supp.  
11, §§ 411-419,  
Aute, p. 20.

And whereas the United States of America has extended and is continuing to extend to Ethiopia aid in resisting aggression;

And whereas it is expedient that the final determination of the terms and conditions upon which the Government of Ethiopia receives such aid and of the benefits to be received by the United States of America in return therefor should be deferred until the extent of the defense aid is known and until the progress of events makes clearer the final terms and conditions and benefits which will be in the mutual interests of the United States of America and Ethiopia and will promote the establishment and maintenance of world peace;

And whereas the Governments of the United States of America and Ethiopia are mutually desirous of concluding now a preliminary agreement in regard to the provision of defense aid and in regard to certain considerations which shall be taken into account in determining such terms and conditions and the making of such an agreement has been in all respects duly authorized, and all acts, conditions and formalities which it may have been necessary to perform, fulfil or execute prior to the making of such an agreement in conformity with the laws either of the United States of America or of Ethiopia have been performed, fulfilled or executed as required;

The undersigned, being duly authorized by their respective Governments for that purpose, have agreed as follows:

#### ARTICLE I

Aid to Ethiopia.

The Government of the United States of America will continue to supply the Government of Ethiopia with such defense articles, defense services, and defense information as the President of the United States of America shall authorize to be transferred or provided.

#### ARTICLE II

The Government of Ethiopia will continue to contribute to the defense of the United States of America and the strengthening thereof and will provide such articles, services, facilities or information as it may be in a position to supply.

#### ARTICLE III

Transfer of title, etc.

55 Stat. 31.  
22 U. S. C., Supp.  
II, §§ 411-419.  
*Ante*, p. 20.

The Government of Ethiopia will not without the consent of the President of the United States of America transfer title to, or possession of, any defense article or defense information transferred to it under the Act of March 11, 1941 of the Congress of the United States of America or permit the use thereof by anyone not an officer, employee, or agent of the Government of Ethiopia.

#### ARTICLE IV

Patent rights.

If, as a result of the transfer to the Government of Ethiopia of any defense article or defense information, it becomes necessary for that Government to take any action or make any payment in order fully to protect any of the rights of a citizen of the United States of America who has patent rights in and to any such defense article or information, the Government of Ethiopia will take such action or make such payment when requested to do so by the President of the United States of America.

#### ARTICLE V

Return of remaining articles.

The Government of Ethiopia will return to the United States of America at the end of the present emergency, as determined by the President of the United States of America, such defense articles transferred under this Agreement as shall not have been destroyed, lost or consumed and as shall be determined by the President to be useful in the defense of the United States of America or of the Western Hemisphere or to be otherwise of use to the United States of America.

#### ARTICLE VI

Credit for aid furnished by Ethiopia.

In the final determination of the benefits to be provided to the United States of America by the Government of Ethiopia full cognizance shall be taken of all property, services, information, facilities, or other benefits or considerations provided by the Government of Ethiopia subsequent to March 11, 1941, and accepted or acknowledged by the President on behalf of the United States of America.

## ARTICLE VII

In the final determination of the benefits to be provided to the United States of America by the Government of Ethiopia in return for aid furnished under the Act of Congress of March 11, 1941, the terms and conditions thereof shall be such as not to burden commerce between the two countries, but to promote mutually advantageous economic relations between them and the betterment of world-wide economic relations. To that end, they shall include provision for agreed action by the United States of America and Ethiopia, open to participation by all other countries of like mind, directed to the expansion, by appropriate international and domestic measures, of production, employment, and the exchange and consumption of goods, which are the material foundations of the liberty and welfare of all peoples; to the elimination of all forms of discriminatory treatment in international commerce; to the reduction of tariffs and other trade barriers; and, in general, to the attainment of all the economic objectives set forth in the Joint Declaration made on August 14, 1941, by the President of the United States of America and the Prime Minister of the United Kingdom.

§§ 411-419.  
Ante, p. 20.

At an early convenient date, conversations shall be begun between the two Governments with a view to determining, in the light of governing economic conditions, the best means of attaining the above-stated objectives by their own agreed action and of seeking the agreed action of other like-minded Governments.

No. 91

OTTAWA, August 6th, 1943.

SIR,

I have the honour to refer to your note No. 859 of March 23rd [<sup>1</sup>] and to your subsequent note No. 902 of May 29th, [<sup>1</sup>] concerning the possibility of exempting from Provincial and municipal taxation the United States Government and United States contractors engaged on the Alaska Highway and other United States defence projects in Canada. The Canadian Government is anxious to reach a settlement of this question which is fair to all parties concerned and which is in keeping with the spirit of mutual helpfulness which has animated both Governments with regard to the defence projects.

2. In the view of the Canadian Government the United States Government itself cannot be effectively taxed by Provincial or municipal authorities. If in any instance an attempt is made by those authorities to tax the United States Government either in respect of real property which it owns or of which it is a lessee, or in respect of licence fees on motor vehicles owned by the United States Government, the Canadian Government will intervene in the legal proceedings and request the Court to accord appropriate immunities. Should the Court hold, contrary to the expectations of the Canadian Government, that the United States Government is legally liable to pay such taxes or licence fees, the Canadian Government will, as a contribution to the general costs of the defence projects, reimburse the United States Government for any Provincial or municipal taxes levied in respect of such projects which the United States Government had been held liable to pay and had paid.

3. In order to keep the record clear it might be well to point out that the Canadian Government does not consider that any exemption from municipal taxation would be appropriate in the case of owners of property who have leased it to the United States Government. In cases in which improvements have been made on property so leased,

<sup>1</sup> [Not printed.]

assessments will normally be made against the owner who is legally bound to pay the taxes exactly as he would be if the lessee were the Canadian and not the United States Government.

4. United States contractors employed by the United States Government on its military projects in Canada are, of course, legally bound to pay whatever municipal taxes may be assessed against them as owners or lease-holders of property and whatever municipal fees may be charged for building permits in connection with these lands. The Canadian Government will undertake to refund to the United States Government any amounts which that Government may pay to United States contractors in respect of this taxation. Any such payments made by the Canadian Government will form part of its contribution to the cost of the defence projects.

5. The Canadian Government will also reimburse the United States Government for any payments which it may have to make to United States contractors in respect of licence fees for motor vehicles employed on the United States defence projects in Canada. Any such payments made by the Canadian Government will form part of its contribution to the cost of the defence projects.

6. The Governments of the Provinces in which United States projects are being executed will be requested by the Government of Canada not to impose licence fees on non-military drivers of trucks belonging to the United States Army and not to levy head or poll taxes upon non-military personnel normally resident in the United States which is engaged on United States military projects in Canada. It appears that in the Province of Alberta the poll tax is devoted to educational purposes and the exemption of United States non-military personnel from this tax will carry with it a liability to pay school fees should any of the United States personnel wish to send their children to public schools in the Province.

7. I should be glad to receive your assurance that these proposals for dealing with the problem of the burden of Provincial and municipal taxation on United States defence projects in Canada will meet the wishes of the United States Government.

Accept, Sir, the renewed assurances of my highest consideration.

EXCELLENCY:

I have the honor to acknowledge receipt of your note of May 13, 1943<sup>[1]</sup> in which you conveyed the request of your Government for renewal of the agreement entered into on June 29, 1940 and extended by an exchange of notes on June 29, 1941<sup>[2]</sup> for a period of two years between the Governments of Argentina and the United States, providing for the detail of United States Army Air Corps Officers to assist the Argentine Ministry of War.

54 Stat. 2320.

55 Stat. 1284.

It is noted that Your Excellency's Government desires to renew this agreement for a period of two years, the renewal to commence upon the termination of the present agreement on June 29, 1943. I am pleased to inform you that this arrangement is entirely acceptable to this Government in spite of the provision of Article 3 of the agreement now in force.

In view of the acceptance by the Argentine Ministry of War of the proposal of this Government for the substitution of personnel, it is understood that it will be entirely satisfactory to Your Government to omit the word "regular" in the first paragraph of the agreement. It is also the understanding of this Government that as a result of discussions between appropriate officials, Title III, Article 20 shall be so amended as to allow free entry into Argentina of such articles and items as are furnished by the United States Government to the Mission for the use of the latter in the performance of its official duties.

54 Stat. 2327.

I shall appreciate it if Your Excellency will confirm the acceptance of these modifications.

Accept, Excellency, the renewed assurances of my highest consideration.

REPÚBLICA ARGENTINA

D. E. No. 166

WASHINGTON, *September 2, 1943.*

EXCELLENCY:

I have the honor to acknowledge receipt of your note of June 23, 1943 in which you are good enough to inform me that the renewal for a further period of two years of the agreement—providing for the detail of United States Army Air Corps officers to assist the Argentine Ministry of War—entered into on June 29, 1940 and extended by an exchange of notes on June 29, 1941, is entirely acceptable to your Government.

Two points were raised in Your Excellency's note. With regard to the first, it will be entirely satisfactory to my Government to omit the word "regular" in the first paragraph of the agreement.

With reference to the second point, that is, the free entry into Argentina of such articles and items as are furnished by the United States Government to the Mission for the use of the latter in the performance of its duties, my Government directs me to say:

1. That it will be pleased to consider favorably the requests for the free entry of personal effects, furniture, furnishings and luggage—including a used motorcar of the member of the Mission and his family; and
2. That whilst the Argentine Department concerned is not authorized to grant the right of free entry in general terms, it will be pleased to grant the free entry (of such materials as are referred to in Your Excellency's note) upon request and prior knowledge of their nature in each case.

Accept, Excellency, the assurances of my highest consideration.

DEPARTMENT OF STATE

WASHINGTON

April 3, 1942

SIR:

I have the honor to inform you that the United States Selective Training and Service Act of 1940, as amended, provides that with certain exceptions every male citizen of the United States and every other male person residing in the United States between the ages of eighteen and sixty-five shall register. The Act further provides that, with certain exceptions, registrants within specified age limits are liable for active military service in the United States armed forces.

This Government recognizes that from the standpoint of morale of the individuals concerned and the over-all military effort of the countries at war with the Axis Powers, it would be desirable to permit certain classes of individuals who have registered or who may register under the Selective Training and Service Act of 1940, as amended, to enlist in the armed forces of a co-belligerent country, should they desire to do so. It will be recalled that during the World War this Government signed conventions with certain associated powers on this subject. The United States Government believes, however, that under existing circumstances the same ends may now be accomplished through administrative action, thus obviating the delays incident to the signing and ratification of conventions.

This Government is prepared, therefore, to initiate a procedure which will permit aliens who have registered under the Selective Training and Service Act of 1940, as amended, who are nationals of co-belligerent countries and who have not declared their intention of becoming American citizens to elect to serve in the forces of their respective countries, in lieu of service in the armed forces of the United States, at any time prior to their induction into the armed forces of this country. Individuals who so elect will be physically examined by the armed forces of the United States, and if found physically qualified, the results of such examinations will be forwarded to the proper authorities of the co-belligerent nation for determination of acceptability. Upon receipt of notification that an individual is acceptable and also receipt of the necessary travel and meal vouchers from the co-belligerent government involved, the appropriate State Director of the Selective Service System will direct the local Selective

Service Board having jurisdiction in the case to send the individual to a designated reception point for induction into active service in the armed forces of the co-belligerent country. If upon arrival it is found that the individual is not acceptable to the armed forces of the co-belligerent country, he shall be liable for immediate induction into the armed forces of the United States.

Before the above-mentioned procedure will be made effective with respect to a co-belligerent country, this Department wishes to receive from the diplomatic representative in Washington of that country a note stating that his government desires to avail itself of the procedure and in so doing agrees that:

Stipulations to be agreed to by co-belligerent country.

(a) No threat or compulsion of any nature will be exercised by his government to induce any person in the United States to enlist in the forces of any foreign government;

(b) Reciprocal treatment will be granted to American citizens by his government; that is, prior to induction in the armed forces of his government they will be granted the opportunity of electing to serve in the armed forces of the United States in substantially the same manner as outlined above. Furthermore, his government shall agree to inform all American citizens serving in its armed forces or former American citizens who may have lost their citizenship as a result of having taken an oath of allegiance on enlistment in such armed forces and who are now serving in those forces that they may transfer to the armed forces of the United States provided they desire to do so and provided they are acceptable to the armed forces of the United States. The arrangements for effecting such transfers are to be worked out by the appropriate representatives of the armed forces of the respective governments.

(c) No enlistments will be accepted in the United States by his government of American citizens subject to registration or of aliens of any nationality who have declared their intention of becoming American citizens and are subject to registration.

This Government is prepared to make the proposed regime effective immediately with respect to the Republic of Czechoslovakia upon the receipt from you of a note stating that your Government desires to participate in it and agrees to the stipulations set forth in lettered paragraphs (a), (b), and (c) above.

## EXCELLENCY:

I have the honor to refer to the Department's note of April 3, 1942 and to subsequent conversations had by officers of the Department with the Embassy on the subject of the proposed agreement with your country concerning the service of nationals of one country in the armed forces of the other country.

In amplification of the Department's note of April 3, 1942 I may state that this Government is prepared, upon the conclusion of the proposed agreement, to grant to nondeclarant Czechoslovak nationals serving in the armed forces of the United States, who did not previously have an opportunity of electing to serve in the forces of their own country, the privilege of applying for a transfer to the armed forces of Czechoslovakia. Upon the conclusion of the agreement, the War Department is prepared to discharge, for the purpose of transferring to the armed forces of Czechoslovakia, nondeclarant Czechoslovak nationals serving in the United States forces who did not have a previous opportunity of opting for service with the Czechoslovak forces. I may also state, with reference to the second and third sentences of the third paragraph of the Department's note of April 3, 1942, that the details incident to carrying out the agreement may be modified in such manner as may be mutually agreeable, and to that end it is suggested that this subject be discussed by officers of the Embassy with the appropriate agencies of the United States Government upon the conclusion of the agreement.

If your Government is desirous of entering into the proposed agreement, and you will forward to the Department a note conforming to the concluding paragraph of the Department's note of April 3, 1942, this Government is prepared to make the proposed régime effective immediately upon the receipt of such note.

Accept, Excellency, the renewed assurances of my highest consideration.

EXCELLENCY:

I have the honor to refer to Your Excellency's notes of April 3, 1942 and September 29, 1943, as well as to the conversations between officials of the Czechoslovak Embassy and the Department of State, with regard to the conclusion of an agreement between the governments of Czechoslovakia and the United States, concerning the application of the United States Selective Training and Service Act of 1940, as amended, to Czechoslovak citizens residing in the United States, and the reciprocal treatment of American citizens, who may be serving in the Czechoslovak armed forces.

I am pleased to inform Your Excellency that the Czechoslovak government desires to participate in the procedure as set forth in the note of April 3rd, 1942 and agrees to the stipulations enumerated in paragraphs lettered (a), (b) and (c) of His Excellency's note of April 3, 1942, and to the proposals contained in the note dated September 29, 1943.

I have been instructed to inform Your Excellency that the Czechoslovak government will highly appreciate that the following two desiderata be given due consideration by the appropriate United States authorities:

(1) The Czechoslovak government expresses the hope that Czechoslovak citizens, serving in the armed forces in the United States, will be accorded, to the fullest extent, the opportunities and advantages available to citizens of the United States, in respect of their service in the armed forces of the United States.

(2) The Czechoslovak government trusts that Czechoslovak citizens who are residents of the United States and who elect for service in the Czechoslovak armed forces will be permitted to return to the United States at any time after the termination of their service with the Czechoslovak armed forces.

October 21, 1943

SIR:

Acknowledgment is made of the receipt of the Embassy's note no. 5944/43 of September 29, 1943 stating that your Government desires to enter into the agreement, as proposed in the Department's notes of April 3, 1942 and September 29, 1943, concerning the services of nationals of one country in the armed forces of the other country. The note under acknowledgment states that your Government agrees to the stipulations enumerated in paragraphs lettered (a), (b), and (c) of the Department's note of April 3, 1942.

Effective date.

I take pleasure in informing you that this Government considers the agreement with your Government as having become effective on September 29, 1943, the date on which the note under acknowledgment was received in the Department. The appropriate authorities of the United States Government have been informed accordingly, and I may assure you that this Government will carry out the agreement in the spirit of full cooperation with your Government.

It is suggested that all the details incident to carrying out this agreement be discussed directly by officials of the Embassy with the appropriate officers of the War Department and of the Selective Service System. Lieutenant Colonel V. L. Sailor, of the Recruiting and Induction Section, Adjutant General's Office, War Department, and Lieutenant Colonel S. G. Parker, of the Selective Service System, will be available to discuss questions relating to the exercise of the option prior to induction. The Inter-Allied Personnel Board of the War Department, which is headed by Major General Guy V. Henry, is the agency with which questions relating to the discharge of non-declarant nationals of Czechoslovakia, serving in the Army of the United States and desiring to transfer to the Czechoslovak forces, may be discussed.

Accept, Sir, the renewed assurances of my high consideration.

A PROCLAMATION

WHEREAS section 350(a) of the Tariff Act of 1930 of the Congress of the United States of America, as amended by the act of June 12, 1934, entitled "AN ACT To amend the Tariff Act of 1930" (48 Stat. 943; U.S.C., 1940 ed., title 19, sec. 1351(a)), and as further amended by the joint resolution of June 7, 1943 (Public Law 66, 78th Congress, 57 Stat. ———), provides as follows:

The President may at any time terminate any such proclamation in whole or in part."

WHEREAS reasonable public notice of the intention to negotiate such trade agreement was given and the views presented by persons interested in the negotiation of such agreement were received and considered;

SEÑOR EMBAJADOR:

Tengo el honor de referirme a la atenta nota número 32 de la Honorable Legación de los Estados Unidos del 16 de febrero de 1942, en la cual se me llama la atención hacia las estipulaciones de la ley pública 375 de los Estados Unidos, del 26 de diciembre de 1941, que provee la cooperación de los Estados Unidos con las Repúblicas centroamericanas para la construcción de la carretera interamericana.

Aunque ya hay camino continuo a través de Guatemala, se ha informado a mi Gobierno que es muy de desearse el mejoramiento de algunas secciones de esa vía, para que se ajuste a los tipos de construcción considerados para la carretera interamericana. Por eso, desea mi Gobierno pedir la cooperación del Gobierno de los Estados Unidos, conforme a las provisiones de esa ley, de acuerdo con los siguientes términos:

1) El Gobierno de la República de Guatemala acepta gustoso que ingenieros designados por los dos Gobiernos expresen conjuntamente, previo el estudio que tengan por conveniente, cuáles son las reformas que deben hacerse en cada sección de la vía panamericana que el Gobierno de Guatemala ha construído. Mi Gobierno asumirá la obligación de pagar la tercera parte del costo de la obra, siempre que dicha obra se ejecute acomodándola a las cantidades que el presupuesto de la República determine y fije para cada año fiscal.

2) El Gobierno de Guatemala, teniendo presente su situación fiscal y las sumas acordadas por la Asamblea Legislativa para el mejoramiento de la carretera, pedirá la cooperación del Gobierno de los Estados Unidos para realizar ese mejoramiento de las secciones de la carretera.

3) El Gobierno de Guatemala acepta muy agradecido el aporte del Gobierno de los Estados Unidos consistente en el doble de la cantidad consignada en el presupuesto fiscal de la República de Guatemala para el mejoramiento de la carretera interamericana.

La administración de Caminos Públicos de los Estados Unidos tendrá el derecho de hacer inspeccionar, por medio de delegados, las obras de mejora y perfeccionamiento de la carretera y la exacta inversión de los fondos destinados para ese efecto.

La intervención técnica y la acción fiscalizadora de control de fondos, la ejercerá la Administración de Caminos Públicos de los Estados Unidos, por medio de sus delegados. Al Gobierno de Guatemala le será muy grato que el Departamento de Estado de los Estados Unidos intervenga en cualquiera de las negociaciones que hayan de llevarse a término con la Republica de Guatemala, quien está, desde luego, anuente en cooperar con los propósitos de la ley 375, en la forma que ha quedado expresado, en atención a las circunstancias especiales de la carretera que Guatemala ha construído a su propio costo, y siempre le será grato que tales negociaciones se lleven a término por conducto del Departamento de Estado.

Mucho agradeceré que Vuestra Excelencia me informe si su Gobierno estaría dispuesto a otorgar en estos términos su cooperación.

Sírvase aceptar, señor Embajador, las renovadas seguridades de mi más alta y distinguida consideración,

CARLOS SALAZAR.

MR. AMBASSADOR:

I have the honor to refer to the kind note no. 32 of the Legation of the United States of February 16, 1942,<sup>1</sup> in which my attention is called to the provisions of Public Law No. 375 of the United States of December 26, 1941, which provides for the cooperation of the United States with the Central American Republics for the construction of the Inter-American Highway.

Although there is already a continuous road across Guatemala, my Government has been informed that the improvement of certain sections of that road is very desirable, in order that it may conform to the types of construction considered for the Inter-American Highway. Accordingly, my Government desires to request the cooperation of the

<sup>1</sup> [Not printed.]

United States Government, under the provisions of the said law, in accordance with the following terms:

(1) The Government of the Republic of Guatemala agrees with pleasure that engineers designated by the two Governments should express jointly, after such study as they may deem proper, what are the changes which should be made in each section of the Pan American Highway that the Government of Guatemala has built. My Government would assume the obligation to pay one third of the cost of the work, provided that the execution of the said work is accommodated to the sums determined and fixed by the budget of the Republic for each fiscal year.

(2) The Government of Guatemala, bearing in mind its fiscal situation and the sums allowed by the Legislative Assembly for the improvement of the highway, will ask the cooperation of the United States Government to accomplish this improvement of the sections of the highway.

(3) The Government of Guatemala accepts very gratefully the contribution of the United States consisting of double the amount allocated in the fiscal budget of the Republic of Guatemala to the improvement of the Inter-American Highway.

The United States Public Roads Administration will have the right to make inspections, through delegates, of the works for improving and perfecting the highway and the exact investment of the funds allocated for that purpose.

The technical intervention and the supervisory action of control of funds will be exercised by the United States Public Roads Administration through its delegates. The Government of Guatemala will be very much pleased to have the Department of State intervene in any of the negotiations which are to be carried out with the Republic of Guatemala, which is, it goes without saying, agreeable to cooperating with the purposes of law 375, in the way that has been stated, in view of the special circumstances of the highway which Guatemala has built at its own expense, and it will always be glad to have such negotiations carried out through the Department of State.

55 Stat. 860.

I shall be very grateful if Your Excellency would inform me whether your Government would be disposed to grant its cooperation on these terms.

Please accept, Mr. Ambassador, the renewed assurances of my highest and most distinguished consideration.

EXCELLENCY:

I have the honor to acknowledge the receipt of Your Excellency's kind Note No. 6756 of May 19, 1943, in which you request the cooperation of the United States in the improvement of the Inter-American Highway in Guatemala and in which you propose a basis upon which the cooperation of my Government might be extended within the provisions of Public Law 375 of December 26, 1941.

55 Stat. 860.

The basis of cooperation proposed by Your Excellency is satisfactory to my Government, and it will be pleased to cooperate on this basis in such survey and construction work as may jointly be deemed desirable for the improvement of the Guatemalan section of the Inter-American Highway, subject to the appropriation of the necessary funds by the Congress of the United States.

I am much gratified at the prospect that through this cooperative undertaking it will be possible to improve the Guatemalan Section of the Inter-American Highway. Transportation facilities will be improved, new lands and new natural resources developed, additional markets opened, and local economic conditions benefited through the useful expenditure of money which this project envisages. I sincerely trust that the Highway will serve not only as a link to increase material intercourse between our nations but also as another bond in the close friendship which unites us.

Please accept, Excellency, the renewed assurances of my highest consideration.

XXX, approved at the Third Consultative Meeting of Ministers of Foreign Affairs of the American Republics, held at Rio de Janeiro in the month of January 1942.

I take the liberty to transcribe below the text of Your Excellency's above-mentioned note:

Excellency:

EMBASSY OF THE

No. 1426

*México, D.F., June 30, 1943*

EXCELLENCY:

Your Excellency will recall that the representatives of the twenty-one American Republics at the Third Consultative Conference held in Rio de Janeiro in January, 1942, adopted Resolution No. 30 recommending that health and sanitation problems of the Western Hemisphere be resolved—so far as possible—by means of bi-lateral or multi-lateral agreements of an international character.

This Resolution, to which our Governments gave decided support, is significant evidence of the importance which the American Republics attribute to collaboration as the most effective method of resolving problems of common interest.

Of singular importance among these problems, especially in the case of neighboring countries, are those referred to in the Rio de Janeiro Resolution just mentioned, since it is evident that health and sanitary conditions must necessarily affect both Republics.

Fortunately the relations between the United States and Mexico are characterized by a sincere cordiality and by well-defined purposes of cooperation, evidenced, among other manifestations, by the authorization which Mexico has given for workers of Mexican nationality to render service in various states of the United States during the present emergency.

It therefore appears natural that there should be added to this cooperation that other so wisely foreseen by the Republics of this Continent, especially since the tasks to be undertaken are of a long-term nature and cannot be resolved in the course of a few years alone.

In view of the foregoing, I take pleasure in informing Your Excellency that my Government is prepared to collaborate with that of Your Excellency, in a program looking to the development of health and sanitary conditions in Mexico. To this end, it is prepared to supply an amount of Two million five hundred thousand dollars, to be expended, together with the sums which the Mexican Government may set aside and disburse as its equitable contribution to this enterprise, in the extension and maintenance of the services and of the measures of a sanitary nature, which the dependencies of the Government of Mexico have so efficiently been conducting.

From the conversations held on this subject, my Government has gained the impression that the Government of Your Excellency would be principally interested in the inclusion in this program of health and sanitation, work along the Pan American Highway, as well as the intensification of control and treatment of disease, and the establishment or extension of those public works related therewith which may tend to improve sanitary conditions of the country.

I am authorized to state that my Government, acting through the intermediary of the Office of the Coordinator of Inter-American Affairs, if acceptable to the Government of Your Excellency, shall send a small group of technicians to Mexico for the purpose of developing a specific program in full collaboration with the Government of Your Excellency, acting through the officials which it may designate for this purpose. This group would be under the immediate direction of a principal physician, to be known as Chief of the Field Party, and who would work in the closest collaboration with the Department of Public Health of Mexico.

In order to carry through this collaboration to a satisfactory conclusion, it is proposed that the Government of Mexico shall designate or create an appropriate dependency within the Department of Public Health for the carrying through of the health and sanitary projects under reference, as well as for the study of the projects concerning medical preparation and sanitary engineering, upon which the said officials of the Mexican Government and the Chief of the Field Party may agree. It is understood that the Government of Mexico shall furnish the technical personnel and the materials, services, and funds which it may consider necessary.

The respective Governments, or their duly authorized agencies, would give their approval for the actual undertaking of the projects in question, which would be carried through upon certification by the head of the Department of Public Health of Mexico and by the head of the Field Party already mentioned.

Upon completion of the projects entered into, these shall pass to the exclusive ownership of the Government of Mexico.

Accept, Excellency, the reiterated assurances of my highest and most distinguished consideration.

MÉXICO, D.F., a 1<sup>o</sup> de julio de 1943.

SEÑOR EMBAJADOR:

Tengo la honra de acusar recibo a Vuestra Excelencia de su muy atenta nota número 1426 del 30 de junio último, en la que se sirve manifestarme lo siguiente:

“Como Vuestra Excelencia recordará, en la Tercera Reunión de Consulta celebrada en Río de Janeiro, en enero de 1942, los Representantes de las 21 Repúblicas Americanas aprobaron la Resolución número 30, que recomienda que—en cuanto sea posible—los problemas de sanidad e higiene del Hemisferio Occidental se resuelvan por medio de convenios bilaterales o multilaterales de índole internacional.

La Resolución aludida, a la que nuestros Gobiernos dieron su decidido apoyo, es prueba evidente de la importancia que las Repúblicas Americanas atribuyen a la colaboración, como el método más efectivo de resolver los problemas de interés común.

Entre estos problemas, tienen singular importancia—especialmente en el caso de naciones vecinas—los que menciona en la Resolución aprobada en Río de Janeiro que acabo de citar, pues es evidente que la sanidad y las condiciones higiénicas forzosamente afectan a ambas Repúblicas.

Afortunadamente, las relaciones entre Estados Unidos y México se caracterizan por una cordialidad sincera y por propósitos bien definidos de cooperación, que se han evidenciado, entre otras manifestaciones, por la autorización que México ha otorgado para que trabajadores de nacionalidad mexicana presten servicios en diversos Estados de la Unión Americana durante la actual emergencia.

Por tanto, parece natural que deba agregarse a esa cooperación, la tan sabiamente prevista por las Repúblicas de este Continente, especialmente porque las tareas que habrán de emprenderse son a largo plazo y no pueden resolverse en el curso de unos cuantos años.

En vista de lo anterior, tengo el placer de comunicar a Vuestra Excelencia que mi Gobierno está dispuesto a colaborar con el de Vuestra Excelencia, en un programa tendiente al mejoramiento de la sanidad y de las condiciones de higiene de México. Para este fin, está dispuesto a suministrar la cantidad de dos millones quinientos mil dólares, que se gastará—junto con las sumas que el Gobierno Mexicano presupueste y desembolse como su aportación equitativa a esta empresa—en la ampliación y sostenimiento de esos servicios y en la aplicación de medidas de carácter sanitario, que las Dependencias del Gobierno Mexicano han estado realizando tan eficientemente.

Por las conversaciones celebradas sobre este asunto, mi Gobierno ha recibido la impresión de que el Gobierno de Vuestra Excelencia estaría principalmente interesado en la inclusión—en el referido programa de sanidad e higiene—de obras a lo largo de la carretera pan-

americana, así como en la intensificación del control y tratamiento de las enfermedades, y en la creación o ampliación de las obras públicas conexas que pudieran tender al mejoramiento de las condiciones sanitarias en el país.

Estoy autorizado para afirmar que mi Gobierno, por conducto de la Oficina del Coordinador de Asuntos Interamericanos, en caso de que esto sea aceptable al Gobierno de Vuestra Excelencia, enviará un reducido grupo de técnicos a México con el objeto de desenvolver un programa específico, en completa colaboración con los funcionarios que designe el Gobierno de Vuestra Excelencia para este fin. El grupo de referencia estaría bajo la dirección inmediata de un médico en jefe, al que se conocería como "Jefe de la Misión de Campo" y trabajaría en la más estrecha colaboración con el Departamento de Salubridad Pública de México.

Con el objeto de llevar a buen término esta colaboración, se sugiere que el Gobierno de México designe o establezca una dependencia apropiada, dentro del Departamento de Salubridad Pública, para la realización de los proyectos de sanidad y saneamiento a que se hace alusión, así como para el estudio de los proyectos conciernes a la preparación de médicos y a la ingeniería sanitaria, en que pudieran convenir los referidos funcionarios del Gobierno Mexicano y el Jefe de la Misión de Campo. Queda entendido que el Gobierno Mexicano suministrará el personal técnico y los materiales, servicios y fondos que pudiera estimar necesarios.

Los Gobiernos respectivos, o sus dependencias debidamente autorizadas, darían su aprobación para la realización efectiva de los proyectos en cuestión, que se llevarían a cabo previa certificación del Jefe del Departamento de Salubridad Pública de México y del Jefe de la Misión de Campo, ya mencionado.

A la terminación de los proyectos emprendidos, éstos pasarán a ser propiedad exclusiva del Gobierno de México.

Aceptad, Excelencia, las seguridades reiteradas de mi más alta y más distinguida consideración".

Al dar a Vuestra Excelencia las más cumplidas gracias por haber señalado a mi consideración tan importante asunto, le ruego se sirva tomar nota—y comunicarlo así a su Gobierno—que el de México, convencido de que los resultados de la inversión de estos fondos se traducirán en beneficio de nuestros dos países—, acepta muy reconocido esta nueva prueba del espíritu de amplia cooperación que norma las relaciones de nuestros pueblos.

Renuevo a Vuestra Excelencia el testimonio de mi más alta y distinguida consideración.

EXCELLENCY:

I have the honor to refer to recent conversations held in Washington between the Ambassador of the Dominican Republic, Dr. Jesús María Troncoso, the Special Representative of the Dominican Government, Sr. Manuel de Moya, and representatives of the interested agencies of my Government, regarding the purchase by the Government of the United States of the exportable surplus of a number of Dominican food products.

Furthermore, I am authorized by my Government to suggest that at Your Excellency's convenience I shall be happy to continue in this capital the discussions concerning other agricultural products which were mentioned in the conversations held in Washington but which have not yet become the subject of an agreement between the two Governments.

Accept, Excellency, the assurances of my most distinguished consideration.

El expresado memorandum que se ha servido remitir Vuestra Excelencia con la citada nota, copiado a la letra dice así:—

“Memorandum de Acuerdo.—20 de mayo de 1943.

“El Gobierno de los Estados Unidos por conducto de su Negociado, la “Commodity Credit Corporation” o sus Agentes, se compromete a comprar el entero excedente exportable de tortas (harina) de maní, desde el 1º. de julio de 1943 al 1º. de julio de 1945, bajo las condiciones siguientes:

“La “Commodity Credit Corporation” pagará \$35.00 en moneda corriente de los Estados Unidos, por tonelada corta (2000 lbs. americanas) de tortas (harina) de maní, libre al costado del buque o en depósitos designados por la “Commodity Credit Corporation” en Monte Cristi, Puerto Plata, San Pedro de Macoris, La Romana, Sánchez o Ciudad Trujillo, R.D. El puerto de entrega será designado por la “Commodity Credit Corporation”. Se aceptará la harina de maní que esté preparada de acuerdo con la buena práctica comercial, por el proceso de exprimidor o prensa hidráulica, que haya sido molida finamente y esté libre de terrones. La harina no debe contener menos de un 50% de proteína ( $N \times 6.25$ ), calculado en seco, y no debe contener más de un 10% de humedad. (La harina que contiene 50% de proteína, calculado en seco, equivale a la que contiene 45% de proteína a base de 10% de humedad). Por la harina de maní que contenga menos de 50% de proteína la “Commodity Credit Corporation” pagará 75 centavos menos por tonelada, por cada punto de porcentaje o fracción que contenga menos de 50%. La harina de maní debe entregarse en sacos sanos y utilizables, cuyo costo está incluido en el precio. Los pesos de embarque oficiales serán los finales. La aceptación estará sujeta a la inspección de un representante competente de la “Commodity Credit Corporation”.

“5.—El Gobierno de la República Dominicana se compromete a transmitir, por conducto de su Negociado competente a la “Commodity Credit Corporation” o sus Agentes, los días 1º. de enero, 1º. de abril, 1º. de julio y 1º. de octubre de cada año, mientras dure el acuerdo, informes escritos de la cantidad de arroz, maíz y harina de maní que se espera tener disponible para ser vendido a la “Commodity Credit Corporation” durante el trimestre siguiente inmediato.

"6.—Un representante de la "Commodity Credit Corporation" estará estacionado en la República Dominicana para efectuar las compras de arroz, maíz y harina de maní bajo las condiciones susodichas. El Gobierno dominicano conviene en avisar oportunamente a este representante en cuanto a las cantidades disponibles de los citados productos y en informarle donde exista algún excedente exportable de aceite de soya o de maní.

"7.—El Gobierno dominicano se compromete a prohibir la exportación de maíz y de harina de maní a partir del 1º. de julio de 1943 hasta el 1º. de julio de 1945, excepto por la "Commodity Credit Corporation" o su Agente. El Gobierno dominicano conviene también en prohibir la exportación de arroz, a partir de esta fecha hasta el 1º. de julio de 1945, excepto por la "Commodity Credit Corporation" o su Agente.

"8.—Los pagos de las compras se efectuarán por medio de créditos apropiados abiertos en Ciudad Trujillo por la "Commodity Credit Corporation" o su Agente, a favor de los vendedores.

"Los precios arriba mencionados incluyen todo impuesto sobre exportación u otro gasto, honorario o cargo de cualquier naturaleza establecido por el Gobierno dominicano que será pagado por el vendedor.

"9.—El "peso de embarque oficial" mencionado en los párrafos que anteceden debe ser determinado por el representante de la "Commodity Credit Corporation" estacionado en la República Dominicana.

"10.—La frase "excedente exportable" utilizada en este memorandum debe incluir toda cantidad de un producto en particular no requerido normalmente para el consumo local".

En respuesta a dicha nota, tengo el honor de expresar a Vuestra Excelencia que el Gobierno dominicano acepta las precedentes estipulaciones como constitutivas del acuerdo que se concluya entre ambos Gobiernos para la venta de los excedentes exportables de los productos alimenticios dominicanos a que se refieren de manera limitativa dichas estipulaciones.

Como consecuencia de esa aceptación el Gobierno dominicano tiene interés en hacer las aclaraciones que se detallan a continuación:

UNA VEZ QUE EL EMPRESARIO COMPRUEBE HABER CUBIERTO DICHOS GASTOS O LA NEGATIVA DEL TRABAJADOR PARA VOLVER AL PAIS, Y QUE NO ADEUDA AL TRABAJADOR CANTIDAD ALGUNA POR CONCEPTO DE SALARIO O INDEMNIZACION A QUE TUVIERE DERECHO, LA AUTORIDAD DE TRABAJO ORDENARA LA DEVOLUCION DEL DEPOSITO O CANCELARA LA FIANZA OTORGADA.”

EN VISTA DE LAS OBLIGACIONES CONTRAIDAS POR EL GOBIERNO DE LOS ESTADOS UNIDOS EN LOS INCISOS A Y C DEL CAPITULO “TRANSPORTES” DEL PRESENTE ARREGLO, QUEDA ENTENDIDO QUE LAS PRESCRIPCIONES DEL PARRAFO 3 DEL ARTICULO 29 ARRIBA CITADO NO SE APLICARAN AL GOBIERNO DE LOS ESTADOS UNIDOS DE AMERICA, NO OBSTANTE LA INCLUSION DE LAS MISMAS EN EL PRESENTE TEXTO.

LOS NACIONALES MEXICANOS QUE ENTREN A LOS ESTADOS UNIDOS DE ACUERDO CON EL PRESENTE CONVENIO no serán empleados para desplazar a otros trabajadores ni para abatir salarios previamente establecidos. c) De conformidad con el artículo 29 de la Ley Federal del Trabajo de México, ARRIBA CITADO, se entenderá que el empleador cobrará del subempleador la totalidad o parte de los gastos consignados en las cláusulas (a) y (b) relativas al transporte.

*Trabajo y Salario.*

a) (1) LOS SALARIOS QUE SE PAGARAN AL TRABAJADOR SERAN—EN IGUALDAD DE CONDICIONES DENTRO DE LA MISMA REGION—LOS MISMOS QUE EN LAS RESPECTIVAS REGIONES DE DESTINO SE PAGUEN POR LABORES SIMILARES A LOS DEMAS TRABAJADORES. LOS TRABAJOS A DESTAJO SE ARREGLARAN EN FORMA TAL QUE EL TRABAJADOR DE HABILIDAD COMUN DISFRUTE DEL SALARIO ESTABLECIDO. LOS SALARIOS DE LOS TRABAJADORES PAGADOS POR HORA O A DESTAJO EN NINGUN CASO SERAN MENORES DE TREINTA CENTAVOS DE DOLAR POR HORA.

f) LOS TRABAJADORES MEXICANOS RECIBIRAN HABITACIONES HIGIENICAS, ADECUADAS A LAS CONDICIONES FISICAS DE LA REGION, DEL TIPO DE LAS QUE USA UN TRABAJADOR COMUN EN LA MISMA; Y LOS SERVICIOS SANITARIOS Y LA ATENCION MEDICA DE QUE DISFRUTARAN SERAN IDENTICOS A LOS QUE RECIBAN LOS DEMAS TRABAJADORES AGRICOLAS EN LAS REGIONES EN QUE PRESTEN SUS SERVICIOS. TODO ESTO SIN COSTO PARA ELLOS.

g) Los trabajadores mexicanos admitidos de conformidad con estas bases, gozarán por lo que hace a enfermedades profesionales y accidentes de trabajo, de las mismas garantías que disfruten los demás trabajadores agrícolas, de acuerdo con la legislación de los Estados Unidos de América.

h) Los trabajadores admitidos de conformidad con estas bases pueden constituir agrupaciones y éstas nombrar libremente a sus representantes para tratar con los empleadores, quedando entendido que dichos representantes deben ser trabajadores pertenecientes a la agrupación respectiva. EL EMPLEADOR CUIDARA DE QUE LOS SUBEMPLEADORES PRESTEN TODA CLASE DE FACILIDADES A LOS CONSULES MEXICANOS Y A SUS AUXILIARES LOS INSPECTORES DEL TRABAJO DEL GOBIERNO MEXICANO PARA LA OBSERVACION DE LAS CLAUSULAS DEL PRESENTE CONTRATO.

i) HASTA EL 75% DEL TIEMPO POR EL CUAL HAYAN SIDO CONTRATADOS, EXCEPTUANDO LOS DOMINGOS, LOS TRABAJADORES MEXICANOS RECIBIRAN, DE PARTE DEL EMPLEADOR, A TITULO DE SUBSISTENCIA, LA CANTIDAD DE DLS. 3.00 DIARIOS POR EL PERIODO QUE ESTEN DESOCUPADOS. POR EL 25% RESTANTE DEL TIEMPO DEL CONTRATO Y DURANTE EL CUAL LOS TRABAJADORES PERMANEZCAN SIN TRABAJO Y SIEMPRE QUE ESTO NO SE DEBA A SU FALTA DE VOLUNTAD, RECIBIRAN ALOJAMIENTO Y ALIMENTOS SIN NINGUN COSTO PARA ELLOS.

En caso de que haya aumento en el costo de vida en los Estados Unidos, esto será motivo de reconsideración.

Los contratos "tipo" para los trabajadores, al ser sometidos a la consideración del Gobierno mexicano, llevarán previsiones definitivas para la determinación de subsistencias y pagos de conformidad con estas bases.

j) La fijación del término de los contratos, se hará de acuerdo con las autoridades de los respectivos países.

k) Al término de los contratos, si no hubiese renovación de los mismos, las autoridades americanas considerarán ilegal, desde el punto de vista migratorio, la permanencia del trabajador mexicano en territorio de los Estados Unidos, salvo casos de fuerza mayor.

*Fondo de Ahorro.*

a) La Agencia del Gobierno de los Estados Unidos respectiva, tendrá la responsabilidad de la custodia de las cantidades con que contribuyan los trabajadores mexicanos para la formación de su Fondo de Ahorro Campesino, hasta que sean transferidas a WELLS FARGO BANK AND UNION TRUST COMPANY, DE SAN FRANCISCO, POR CUENTA DEL BANCO DE MEXICO, S.A. EL CUAL TRASPASARA DICHOS FONDOS AL BANCO DE CREDITO AGRICOLA DE MEXICO. ESTE ULTIMO ASUME LA RESPONSABILIDAD POR EL DEPOSITO, GUARDA Y APLICACION O EN SU DEFECTO DEVOLUCION DE DICHAS CANTIDADES.

b) El Gobierno de México por conducto del Banco Nacional de Crédito Agrícola cuidará de la seguridad de los ahorros de los trabajadores para que se inviertan en la adquisición de implementos agrícolas, que de acuerdo con los permisos de exportación que el Gobierno de los Estados Unidos otorgue, puedan ser traídos por los trabajadores al repatriarse, en la inteligencia de que la Farm Security Administration recomendará para dichos implementos la prioridad correspondiente.

*Cantidades.*

Ante la imposibilidad de determinar desde luego la cantidad de trabajadores que puedan ser requeridos en los Estados Unidos para las labores agrícolas, el empleador informará al Gobierno de México, con la debida oportunidad, sobre las necesidades que haya que satisfacer. Por su parte el Gobierno de México determinará en cada caso el número de trabajadores que puedan salir sin quebranto de la economía nacional.

*Previsiones Generales.*

Queda sobreentendido que al tratarse de la salida de otros trabajadores mexicanos, no agrícolas, privarán en los arreglos que lleven a cabo las Dependencias de los respectivos Gobiernos, los mismos principios fundamentales que se han aplicado aquí a la salida de trabajadores del campo.

Se entiende que los empleadores cooperarán para llevar a cabo este arreglo, con aquellas Agencias del Gobierno Norteamericano cuyos poderes, según las leyes de los Estados Unidos de América, les permitan contribuir a la realización del mismo.

Los respectivos Gobiernos pueden denunciar el arreglo que se efectúe sobre las recomendaciones aquí consignadas, dando el aviso correspondiente con noventa días de anticipación.

La formalización de tales negociaciones puede realizarse con solo un cambio de notas entre la Secretaría de Relaciones Exteriores y la Embajada de los Estados Unidos en México."

En caso de que Vuestra Excelencia, como lo espero, considere aceptable el texto del arreglo tal como queda descrito en los párrafos anteriores bastará que así me lo comunique por escrito para que el mismo entre en vigor.

Renuevo a Vuestra Excelencia el testimonio de mi más alta y distinguida consideración.

UNITED STATES OF AMERICA

No. 1214

## EXCELLENCY:

*Ante, p. 1152.*

56 Stat. 1759.

I have the honor to refer to the note No. 317 dated April 26, 1943 in which Your Excellency formulates certain proposals made by the Mexican Government for making the Agreement of August 4, 1942 between the Governments of the United States of America and Mexico a more workable instrument under which Mexican agricultural workers may be recruited in Mexico to work in the United States for a temporary period.

The United States representatives who have been discussing the proposed changes with the representatives designated by the Mexican Government for this purpose have been gratified by the generous spirit of cooperation which has animated these discussions and which has helped to bring them to a successful conclusion.

I am incorporating into this note the text of the Agreement of August 4, 1942 and indicating by underlining those additions or changes agreed upon by my Government:

“In order to effect a satisfactory arrangement whereby Mexican agricultural labor may be made available for use in the United States and at the same time provide means whereby this labor will be adequately protected while out of Mexico, the following general provisions are suggested:

*“General Provisions*

“1) It is understood that Mexicans contracting to work in the United States shall not be engaged in any military service.

“2) Mexicans entering the United States as a result of this understanding shall not suffer discriminatory acts of any kind in accordance with the Executive Order No. 8802 issued at the White House June 25, 1941.

“3) Mexicans entering the United States under this understanding shall enjoy the guarantees of transportation, living expenses and repatriation established in Article 29 of the Mexican Federal Labor Law as follows:

‘Article 29.—All contracts entered into by Mexican workers for lending their services outside their country, shall be made in writing, legalized by the municipal authorities of the locality where entered into and visaed by the Consul of the country where their services are being used. Furthermore, such contract shall contain, as a requisit of validity of same, the following stipulations, without which the contract is invalid:

‘I. Transportation and subsistence expenses for the worker, and his family, if such is the case, and all other expenses which

originate from point of origin to border points and compliance of immigration requirements, or for any other similar concept, shall be paid exclusively by the employer or the contractual parties.

'II. The worker shall be paid in full the salary agreed upon, from which no deductions shall be made in any amount for any of the concepts mentioned in the above sub-paragraph.

'III. The employer or contractor shall issue a bond or constitute a deposit in cash in the Bank of Workers, or in the absence of same, in the Bank of Mexico, to the entire satisfaction of the respective labor authorities, for a sum equal to repatriation costs of the worker and his family, and those originated by transportation to point of origin.

'Once the employer establishes proof of having covered such expenses or the refusal of the worker to return to his country, and that he does not owe the worker any sum covering salary or indemnization to which he might have a right, the labor authorities shall authorize the return of the deposit or the cancellation of the bond issued.'

"It is specifically understood that the provisions of Section III of Article 29 above-mentioned shall not apply to the Government of the United States notwithstanding the inclusion of this section in the agreement, in view of the obligations assumed by the United States Government under Transportation (a) and (c) of this agreement.

"4) Mexicans entering the United States under this understanding shall not be employed to displace other workers, or for the purpose of reducing rates of pay previously established.

"In order to implement the application of the general principles mentioned above the following specific clauses are established:

"(When the word 'employer' is used hereinafter it shall be understood to mean the Farm Security Administration of the Department of Agriculture of the United States of America; the word 'sub-employer' shall mean the owner or operator of the farm or farms in the United States on which the Mexican will be employed; the word 'worker' hereinafter used shall refer to the Mexican farm laborer entering the United States under this understanding.)

*"Contracts*

"a. Contracts will be made between the employer and the worker under the supervision of the Mexican Government. (Contracts must be written in Spanish.)

"b. The employer shall enter into a contract with the sub-employer, with a view to proper observance of the principles embodied in this understanding.

*"Admission*

"a. The Mexican health authorities will, at the place whence the worker comes, see that he meets the necessary physical conditions.

*"Transportation*

"a. All transportation and living expenses from the place of origin to destination, and return, as well as expenses incurred in the fulfillment of any requirements of a migratory nature shall be met by the employer.

"b. Personal belongings of the workers up to a maximum of 35 kilos per person shall be transported at the expense of the employer.

"c. In accord with the intent of Article 29 of the Mexican Federal Labor Law, quoted under General Provisions (3) above, it is expected that the employer will collect all or part of the cost accruing under (a) and (b) of Transportation from the sub-employer.

*"Wages and Employment*

"a. (1) Wages to be paid the worker shall be the same as those paid for similar work to other agricultural laborers under the same conditions within the same area, in the respective regions of destination. Piece rates shall be so set as to enable the worker of average ability to earn the prevailing wage. In any case wages for piece work or hourly work will not be less than 30 cents per hour.

"a. (2) On the basis of prior authorization from the Mexican Government salaries lower than those established in the previous clause may be paid those emigrants admitted into the United States as members of the family of the worker under contract and who, when they are in the field, are able also to become agricultural laborers but who, by their condition of age or sex, cannot carry out the average amount of ordinary work.

"b. The worker shall be exclusively employed as an agricultural laborer for which he has been engaged; any change from such type of employment or any change of locality shall be made with the express approval of the worker and with the authority of the Mexican Government.

"c. There shall be considered illegal any collection by reason of commission or for any other concept demanded of the worker.

"d. Work of minors under 14 years shall be strictly prohibited, and they shall have the same schooling opportunities as those enjoyed by children of other agricultural laborers.

"e. Workers domiciled in the migratory labor camps or at any other place of employment under this understanding shall be free to obtain articles for their personal consumption, or that of their families, wherever it is most convenient for them.

"f. The Mexican workers will be furnished without cost to them with hygienic lodgings, adequate to the physical conditions of the region of a type used by a common laborer of the region and the medical and sanitary services enjoyed also without cost to them will be identical with those furnished to the other agricultural workers in the regions where they may lend their services.

"g. Workers admitted under this understanding shall enjoy as regards occupational diseases and accidents the same guarantees enjoyed by other agricultural workers under United States legislation.

"h. Groups of workers admitted under this understanding shall elect their own representatives to deal with the employer, but it is understood that all such representatives shall be working members of the group.

"The Mexican Consuls, assisted by the Mexican Labor Inspectors, recognized as such by the employer will take all possible measures of protection in the interests of the Mexican workers in all questions affecting them, within their corresponding jurisdictions, and will have free access to the places of work of the Mexican workers. The employer will observe that the sub-employer grants all facilities to the Mexican Consuls and the Assistant Labor Inspectors of the Mexican Government for the compliance of all the clauses in this contract.

"i. For such time as they are unemployed under a period equal to 75% of the period (exclusive of Sundays) for which the workers have been contracted they shall receive a subsistence allowance at the rate of \$3.00 per day.

"For the remaining 25% of the period for which the workers have been contracted during which the workers may be unemployed when such unemployment is not due to their unwillingness to work they shall receive lodging and subsistence without cost to them.

"Should the cost of living rise this will be a matter for reconsideration.

"The master contracts for workers submitted to the Mexican Government shall contain definite provisions for computation of subsistence and payments under this understanding.

"j. The term of the contract shall be made in accordance with the authorities of the respective countries.

"k. At the expiration of the contract under this understanding, and if the same is not renewed, the authorities of the United

States shall consider illegal, from an immigration point of view, the continued stay of the worker in the territory of the United States, exception made of cases of physical impossibility.

*“Savings Fund*

“a. The respective agencies of the Government of the United States shall be responsible for the safekeeping of the sums contributed by the Mexican workers toward the formation of their Rural Savings Fund, until such sums are transferred to the Wells Fargo Bank and Union Trust Company of San Francisco for the account of the Bank of Mexico, S. A., which will transfer such amounts to the Mexican Agricultural Credit Bank. This last shall assume responsibility for the deposit, for the safekeeping and for the application, or in the absence of these, for the return of such amounts.

“b. The Mexican Government through the Banco de Crédito Agrícola will take care of the security of the savings of the workers to be used for payment of the agricultural implements, which may be made available to the Banco de Crédito Agrícola in accordance with exportation permits for shipment to Mexico with the understanding that the Farm Security Administration will recommend priority treatment for such implements.

*“Numbers*

“As it is impossible to determine at this time the number of workers who may be needed in the United States for agricultural labor employment, the employer shall advise the Mexican Government from time to time as to the number needed. The Government of Mexico shall determine in each case the number of workers who may leave the country without detriment to its national economy.

*“General Considerations*

“It is understood that, with reference to the departure from Mexico of Mexican workers, who are not farm laborers, there shall govern in understandings reached by agencies of the respective Governments the same fundamental principles which have been applied here to the departure of farm labor.

“It is understood that the employers will cooperate with such other agencies of the Government of the United States in carrying this understanding into effect whose authority under the laws of the United States are such as to contribute to the effectuation of the understanding.

“Either Government shall have the right to renounce this understanding, giving appropriate notification to the other Government 90 days in advance.

“This understanding may be formalized by an exchange of notes between the Ministry of Foreign Affairs of the Republic of Mexico and the Embassy of the United States of America in Mexico.”

In accepting the above text as the arrangement under which Mexican Agricultural workers shall be recruited and employed in agricultural work in the United States my Government agrees that all the conditions set forth in the revised agreement will apply equally to those agricultural workers already in the United States or on their way to the United States under individual work agreements as well as to those who may be recruited for such work in the future.

Accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

**EXCELLENCY:**

I have the honor to refer to conversations which have taken place between officers of the Dominican Department of State for Foreign Affairs and of the Embassy with respect to compensation benefits which may be claimed by American citizens employed on projects under construction or operation by cost plus contractors with the Government of the United States in the Dominican Republic.

The Congress of the United States by Public Law 208, 77th Congress, as amended by Public Law 784, 77th Congress, has provided a mandatory and uniform system of compensation benefits as embodied in the Longshoremen's and Harbor Workers' Act, and administered by the United States Employees' Compensation Commission for American nationals employed by contractors in foreign countries on or in connection with United States Government projects.

The purpose of this legislation was two-fold (1) to insure that all American workmen engaged outside the United States on these Government projects would be treated equally and (2) since these American workmen have rights under the compensation acts of the country in which they are working in the absence of some arrangement with that country, there is every possibility of an American workman collecting double benefits. Such double benefits would be ultimately paid for by the United States Government since the contracts above referred to are on a cost-plus-a-fixed-fee basis under which the Government reimburses for such expenditures.

Furthermore, in view of the fact that these workmen performing work in foreign countries are there temporarily it is necessary to provide them and their families (in the event of their death) with a system of benefits administered in the United States as well as in foreign countries, as is the situation under the Longshoremen's and Harbor Workers' Act. This is particularly true since in the event of a workman's disability or death, as the case may be, compensation payments to himself or dependents will continue for a long period of years. If some such arrangement had not been made by Congress (in the passage of Public Laws 208 and 784 hereinabove referred to) it would

have been necessary for American workmen or their families to return to foreign countries in order to litigate or collect local compensation benefits.

It is the desire of the Government of the United States that Public Law 208, 77th Congress, as amended by Public Law 784, 77th Congress, will be made the exclusive remedy for workman's compensation, injury or death therein of American employees of American contractors with the United States Government.

Inasmuch as the insurance furnished these American employers is written by American companies it would be appreciated if Your Excellency's government would permit American insurance companies to service the insured risks involved, by furnishing claim adjustors and safety engineers and to maintain any facilities that may be necessary solely and only for such purpose.

I avail myself of the opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

SEÑOR ENCARGADO DE NEGOCIOS:

Compláceme avisar recibo a Vuestra Señoría de la nota Núm. 141, del 14 de octubre en curso, mediante la cual esa Embajada, a nombre del Gobierno de los Estados Unidos, dirige al Gobierno dominicano la solicitud que a continuación se reproduce, en su traducción al español:

“Excelencia:—

Tengo el honor de referirme a las conversaciones sostenidas entre Funcionarios de esa Secretaría de Estado de Relaciones Exteriores y de esta Embajada, con respecto a las indemnizaciones que puedan ser reclamadas por ciudadanos americanos, empleados en proyectos de construcción u operación en la República Dominicana por contratistas asalariados de los Estados Unidos.

El Congreso de los Estados Unidos, por Ley Núm. 208, enmendada por la Ley 784, ambas de la 77<sup>ma</sup>. Legislatura, ha establecido un sistema obligatorio e uniforme de compensaciones, como lo constituye la Ley de Estivadores y Obreros Portuarios, administrado por la Comisión de Compensaciones de Empleados Estadounidenses en favor de los nacionales americanos al servicio

de contratistas en el exterior o en conexión con proyectos del Gobierno de los Estados Unidos.

Esta legislación tuvo dos propósitos: 1) Asegurar que todos los obreros americanos empleados fuera de los Estados Unidos recibiesen un trato igual y 2), puesto que esos obreros americanos tienen el derecho de acogerse a las leyes de seguro del país donde trabajan, mientras no exista un arreglo con dicho país, que hubiese la posibilidad de que el obrero americano cobrase una doble indemnización. Tales dobles indemnizaciones al fin y al cabo serían pagadas por el Gobierno de los Estados Unidos, puesto que los citados contratos se basan en el "costo de la obra más un honorario fijo", bajo cuyas condiciones el Gobierno tiene que reembolsar gastos de esa índole.

Además, en vista del hecho que tales obreros se encuentran en esos países extranjeros solo temporalmente, es necesario protegerlos (a ellos y a sus familias en caso de su muerte) con un sistema de indemnización administrado tanto en los Estados Unidos como en el exterior, de acuerdo con los requisitos de la Ley de Estivadores y Obreros Portuarios. Esto es necesario, particularmente, en caso de incapacidad o muerte del obrero, según sea el caso, porque la compensación se seguirá pagando a él o sus familiares durante un largo período de años. Si el Congreso no hubiese previsto tales arreglos (al votar las leyes 208 y 784 susodichas) hubieran tenido que regresar los obreros americanos o sus familias a esos países para litigar o cobrar las compensaciones locales correspondientes.

Es el deseo del Gobierno de los Estados Unidos que la Ley Núm. 208 77<sup>mo</sup>. Congreso, enmendada por la Ley Núm. 784 de la misma Legislatura, constituya el medio exclusivo que rija las compensaciones por concepto de lesión o muerte de obreros americanos empleados por contratistas americanos dependientes del Gobierno de los Estados Unidos.

Puesto que en los seguros suministrados a estos empresarios americanos el riesgo es asumido por Compañías americanas, se agradecería que el Gobierno de Vuestra Excelencia permita a las Compañías americanas de Seguro asumir los riesgos correspondientes, suministrando ajustadores de reclamaciones e ingenieros de seguridad y manteniendo las facilidades que sean necesarias para ese solo y único propósito.

Aprovecho la oportunidad para renovar a Vuestra Excelencia las seguridades de mi más alta y más distinguida consideración.

Firmado:—Robert Newbegin, Encargado de Negocios ad-interim".—

Sobre el particular tengo el agrado de llevar a conocimiento de Vuestra Señoría que el Gobierno dominicano consiente, en principio, en la no aplicación de la legislación dominicana de seguros contra accidentes del trabajo en los casos referentes a obreros de nacionalidad americana que trabajen en el territorio de la República Dominicana, empleados por contratistas también de nacionalidad americana que dependan del Gobierno de los Estados Unidos de América, siempre

que el riesgo que corran dichos obreros esté debidamente cubierto en virtud de las disposiciones legales de los Estados Unidos de América.

En tal sentido y habida cuenta de que las disposiciones legales sobre esta materia tienen carácter de orden público en la legislación dominicana, mi Gobierno promete al Gobierno de Vuestra Señoría que dará los pasos conducentes a una reforma legislativa que haga posible el acuerdo convenido por este medio.

Válgome de esta oportunidad para renovar a Vuestra Señoría las seguridades de mi más distinguida consideración,

MR. CHARGÉ D'AFFAIRES:

I have the honor to acknowledge receipt of your note 141 of October 14, 1943, in which the Embassy, in the name of the Government of the United States, transmits to the Dominican Government the request quoted below in Spanish translation:

[Here follows the text of note 141 of October 14, 1943 from the American Chargé d'Affaires ad interim to the Dominican Secretary of State for Foreign Affairs.]

In this connection I take pleasure in informing you that the Dominican Government approves, in principle, the inapplicability of Dominican legislation on labor accident insurance in cases concerning laborers of American nationality working in the Dominican Republic, employed by contractors likewise of American nationality under the Government of the United States of America, so long as the risks run by said workmen are properly covered by the laws of the United States of America.

In this respect and taking into consideration that the legal provisions covering this subject are of a statutory nature in Dominican law, my Government promises your Government that it will take the necessary steps toward effecting a legislative amendment which will make possible the agreement reached in this manner.

I avail myself of this opportunity to renew to you the assurances of my most distinguished consideration.

FOREIGN OFFICE, S.W. 1.

No. W 10338/13/64.

27th July, 1942.

YOUR EXCELLENCY,

Following the discussions which have taken place between representatives of our two Governments, His Majesty's Government in the United Kingdom are prepared, subject to the necessary Parliamentary authority, to give effect to the desire of the Government of the United States that the Service courts and authorities of the United States Forces should, during the continuance of the conflict against our common enemies, exercise exclusive jurisdiction in respect of criminal offences which may be committed in the United Kingdom by members of those Forces, and they are ready to introduce in Parliament the necessary legislation for this purpose.

Jurisdiction of U. S.  
authorities, etc.

2. It is appreciated, however, that cases may arise where for particular reasons the American authorities may prefer that their courts should not exercise the above jurisdiction, and His Majesty's Government would accordingly propose that in any case in which a written communication to that effect is received from the Diplomatic Representative of the United States it should be open to the appropriate British authority to restore the jurisdiction of the courts of the United Kingdom to deal with that case.

Restoration of  
United Kingdom  
jurisdiction in certain  
cases.

3. In view of the very considerable departure which the above arrangements will involve from the traditional system and practice of the United Kingdom there are certain points upon which His Majesty's Government consider it indispensable first to reach an understanding with the United States Government. I have accordingly the honour to invite Your Excellency to be so good as to lay the following enquiries and observations before your Government and to inform me of their attitude thereupon.

4. In the first place, the readiness of His Majesty's Government in the United Kingdom to agree to the exercise by United States Service courts of exclusive jurisdiction in respect of offences by members of their Forces is based upon the assumption that the United States Service authorities and courts concerned will be able and willing to try and, on conviction, to punish all criminal offences which members of

Assumption of  
U. S. willingness to try  
and, on conviction, to  
punish.

the United States Forces may be alleged on sufficient evidence to have committed in the United Kingdom, and that the United States authorities are agreeable in principle to investigate and deal with appropriately any alleged criminal offence committed by members of the United States Forces in the United Kingdom which may be brought to their notice by the competent British authorities, or which the American authorities may find to have taken place.

Trial in open court,  
etc.

5. Secondly, His Majesty's Government will be glad if you will confirm their understanding that the trial of any member of the United States Forces for an offence against a member of the civilian population would be in open Court (except where security considerations forbade this) and would be arranged to take place promptly in the United Kingdom and within a reasonable distance from the spot where the offence was alleged to have been committed, so that witnesses should not be required to travel great distances to attend the hearing.

Offences committed  
prior to Dec. 7, 1941.

6. Thirdly, His Majesty's Government propose that no member of the United States Forces should be tried in the United Kingdom by a Service court of the United States of America, for an offence committed by him before the 7th December, 1941.

Reciprocal arrange-  
ment.

7. Fourthly, while His Majesty's Government in the United Kingdom would not wish to make the arrangements in regard to jurisdiction over members of the United States Forces in this country dependent upon a formal grant of reciprocity in respect of United Kingdom Forces in the territory of the United States of America, I feel that you will appreciate that the considerations which have convinced His Majesty's Government in the United Kingdom that the interests of our common cause would be best served by the arrangements which they are prepared to make as regards jurisdiction over American forces in the United Kingdom would be equally applicable in the case of British forces which in the course of the war against our common enemies may be stationed in territory under American jurisdiction. It would accordingly be very agreeable to His Majesty's Government in the United Kingdom if you were authorised to inform me that in that case the Government of the United States of America will be ready to take all steps in their power to ensure to the British forces concerned a position corresponding to that of United States Forces in the United Kingdom under the arrangements which His Majesty's Government are willing to make. The considerations indicated in paragraph 2 above would naturally apply and His Majesty's Government would be prepared to authorise the Diplomatic Representative of His Majesty in the United States to notify the competent American authorities in cases where the appropriate British authorities preferred not to exercise jurisdiction.

Mutual assistance  
in preliminary action.

8. Fifthly, the proposal to ensure to the United States Service courts and authorities by legislation the exclusive exercise of jurisdiction in respect of criminal offences by members of the United States Forces in the United Kingdom is based upon the further assumption

that satisfactory machinery will be devised between the competent American and British authorities for such mutual assistance as may be required in making investigations and collecting evidence in respect of offences which members of the United States Forces are alleged to have committed, or in which they are alleged to be concerned. His Majesty's Government have no doubt that the United States Government will agree that it would as a general rule be desirable that such preliminary action should be taken by the British authorities, on behalf of the American authorities, where the witnesses or other persons from whom it is desired to take statements are not members of the United States Forces. Conversely, His Majesty's Government trust that they may count upon the assistance of the American authorities in connexion with the prosecution before British courts of persons who are not members of the United States Forces where the evidence of any member of these Forces is required or where the assistance of the American authorities in the investigation of the case (including the taking of statements from the American forces) may be needed.

9. His Majesty's Government in the United Kingdom are prepared to extend the proposed legislation where necessary to British Colonies and Dependencies under their authority, other than those British territories in which are situated the United States Military and Naval Bases leased in pursuance of the Agreement of the 27th March, 1941, where the question of jurisdiction is already regulated by that Agreement. I accordingly propose that the foregoing paragraphs of this note, and your eventual reply, should be regarded as extending also to the arrangements to be made in the British Colonies and Dependencies to which the proposed legislation may be applied.

Extension to British Colonies and Dependencies.

Exceptions.

55 Stat. 1560.

Period of operation.

10. Finally, His Majesty's Government propose that the foregoing arrangements should operate during the conduct of the conflict against our common enemies and until six months (or such other period as may be mutually agreed upon) after the final termination of such conflict and the restoration of a state of peace.

11. If the foregoing arrangements are acceptable to the United States Government, I have the honour to propose that the present note and your reply be regarded as constituting an agreement between the two Governments to which effect shall be given as from the date on which the legislation [1] to which I have already referred takes effect.

Exchange of notes as constituting agreement; effective date.

I have the honour to be, with the highest consideration,

Your Excellency's obedient Servant,

ANTHONY EDEN

SIR:

I have the honor to refer to your note of July 27, 1942, in which you inform me that His Majesty's Government in the United Kingdom is prepared, subject to the necessary Parliamentary authority, to give effect to the desire of the Government of the United States that American authorities have exclusive jurisdiction in respect to criminal offences which may be committed in the United Kingdom by members of the American Forces. I now have the honor to inform you that my Government agrees to the several understandings which were raised in your note.

In order to avoid all doubt, I wish to point out that the Military and Naval authorities will assume the responsibility to try and on conviction to punish all offences which members of the American Forces may be alleged on sufficient evidence to have committed in the United Kingdom.

It is my understanding that the present exchange of notes is regarded as constituting an agreement between the two Governments to which effect shall be given as from the date on which the necessary Parliamentary authority takes effect.

Accept, Sir, the renewed assurances of my highest consideration.

CAIRO, March 2, 1943.

YOUR EXCELLENCY:

With reference to the request which you have addressed to me in the name of the Government of the United States of America, I have the honour to inform you that the Egyptian Government has decided to accord, for the duration of the war, immunity from jurisdiction in criminal matters to members of the United States Forces in Egypt, in accordance with the following procedure:—

The expression "United States Forces" will include all persons subject to the military and naval law of the United States who are members of the United States armed Forces on Egyptian territory as well as all civilian employees of American nationality who are accompanying the said Forces or serve with them and who are bearers of certificates issued by the competent American authority defining their status. It is understood that the wives and children of the members of the United States Forces do not benefit hereby from any immunity from jurisdiction and will be amenable to the jurisdiction of Egyptian courts.

The immunity from jurisdiction accorded by the Egyptian Government will cover crimes, misdemeanors and police offences committed in Egypt by the members of the United States Forces. However, when the infraction will have been committed by a civilian employee referred to above the Egyptian Government reserves the right, either to turn over the offender to the Egyptian courts or to hand him over to the competent American military authorities.

In cases in which members of the civilian population are victims, a competent American military court sitting in Egypt will judge the case without delay and in public session, unless sittings behind closed doors are necessary for reasons of security. The sentence will be communicated to the Ministry of Foreign Affairs through the good offices of the Legation of the United States.

The American military courts shall not assume jurisdiction over members of the civilian population of Egypt.

The Egyptian Government will undertake, on the written request of the interested American authority, the investigation, arrest and delivery of any member of the United States Forces declared deserter or absent without leave.

Except in cases provided for in the preceding paragraph, the members of the United States Forces may be arrested by the Egyptian authorities only in circumstances which would justify the arrest of civilians of American nationality.

When a member of the United States Forces has been arrested by the Egyptian authorities, the following procedure will apply:—

Notification of the arrest will be made immediately to the competent American military authority together with data regarding the name and other details concerning the person arrested and information regarding the nature of the infractions for which the said person has been arrested. Except when the case is to be submitted to the Egyptian courts, the offender will be delivered to the interested American authority. Complete details of the charges brought against the suspect with the names and addresses of the witnesses and data concerning them will be handed or sent to the interested American authority.

When a member of the United States Forces has been accused of having committed an infraction for which he has not been arrested, the details of this suspected infraction, with the procès-verbal will be communicated as quickly as possible to the competent American military authorities.

The two Governments will extend to each other mutual assistance in investigations concerning infractions which may have been committed by members of the United States Forces or of which they may have been the victims. The Egyptian Government will take at the request of the competent American military authority, all reasonable measures to the end that persons amenable to its jurisdiction appear as witnesses before the American military courts in Egypt; likewise the Government of the United States will take all reasonable measures to assure the presence of any member of the United States Forces as witnesses at the sessions of the Egyptian courts, and this on request made by the competent official of the Ministry of Justice or by the President of the competent court.

It must be expressly understood that the exceptional regime provided for above is accorded only because of the special situation resulting from the war and that it will terminate in all respects at the end of the war to permit the return to normal law.

In case of acceptance, the present letter and your reply will be considered as constituting an agreement binding our two Governments and will be published in the 'Official Journal'. In my capacity of Military Governor General, I will not fail to take thereafter the necessary internal measures to put this agreement into effect.

I take this opportunity to renew to Your Excellency the assurances of my high consideration.

MINISTÈRE  
DES  
AFFAIRES ÉTRANGÈRES

No. P. 4.-55.9/137 C.

LE CAIRE, le 2 Mars 1943.

EXCELLENCE,

Me référant à la demande que vous m'avez adressée au nom du Gouvernement des Etats-Unis d'Amérique, j'ai l'honneur de vous faire connaître que le Gouvernement Egyptien a décidé d'accorder, pour la durée de la guerre, l'immunité de juridiction en matière pénale, aux membres des Forces des Etats-Unis d'Amérique en Egypte conformément aux dispositions ci-après:—

L'expression "Forces des Etats-Unis" comprendra toute personne soumise aux lois militaires et navales des Etats-Unis qui est membre des Forces armées des Etats-Unis se trouvant sur le territoire égyptien ainsi que tout fonctionnaire civil de nationalité américaine qui accompagne les dites forces ou sert avec elles et qui est porteur d'un certificat délivré par l'autorité américaine compétente et définissant son statut. Il est entendu que les femmes et enfants des membres des Forces des Etats-Unis ne bénéficient, à ce titre, d'aucune immunité de juridiction et seront justiciables des tribunaux égyptiens.

L'immunité de juridiction accordée par le Gouvernement couvrira les crimes, délits et contraventions commis en Egypte par les membres des Forces des Etats-Unis. Toutefois, en cas d'infraction commise par un fonctionnaire civil défini ci-haut, le Gouvernement Egyptien se réserve le droit de déférer le coupable aux tribunaux égyptiens ou de le remettre aux autorités militaires américaines compétentes.

Dans le cas où les victimes sont des membres de la population civile, l'affaire sera soumise à un tribunal militaire américain siégeant en Egypte et jugée sans retard et en audience publique (sauf si le huis clos est nécessaire pour des raisons de sécurité). La sentence sera communiquée au Ministère des Affaires Etrangères par les soins de la Légation des Etats-Unis.

Les tribunaux militaires américains ne pourront juger les membres de la population civile d'Egypte

Le Gouvernement Egyptien assurera, sur la demande écrite de l'autorité américaine intéressée, la recherche, l'arrestation et la livraison de tout membre des Forces des Etats-Unis déclaré déserteur ou absent sans permission.

Sauf dans les cas prévus à l'alinéa précédent, les membres des Forces des Etats-Unis ne pourront être arrêtés par les autorités égyptiennes que dans les circonstances qui justifieraient l'arrestation des civils de nationalité américaine.

Lorsqu'un membre des Forces des Etats-Unis aura été arrêté par les autorités égyptiennes, la procédure suivante sera adoptée:—

Notification de l'arrestation sera faite immédiatement à l'autorité militaire américaine compétente avec indication du nom et autres détails sur la personne arrêtée et des renseignements sur la nature des infractions pour lesquelles la dite personne a été arrêtée. Sauf dans les cas où l'affaire doit être soumise aux tribunaux égyptiens, le présumé coupable sera livré à l'autorité américaine intéressée. Les détails complets

des charges portées à l'encontre du présumé coupable avec les nom et adresse des témoins et des indications à leur sujet seront remis ou envoyés à l'autorité américaine intéressée.

Lorsqu'un membre des Forces des Etats-Unis aura été inculpé d'avoir commis une infraction pour laquelle il n'a pas été arrêté, les détails de cette infraction présumée, avec le procès-verbal, seront communiqués aussi rapidement que possible aux autorités militaires américaines compétentes.

Les deux Gouvernements se prêteront mutuelle assistance pour les enquêtes concernant les infractions qui auraient été commises par les membres des Forces des Etats-Unis ou dont ils auraient été victimes. Le Gouvernement Egyptien prendra, à la requête de l'autorité militaire américaine compétente, toutes mesures raisonnables pour que les personnes justiciables de sa juridiction se présentent comme témoins devant les tribunaux militaires américains en Egypte; de même, le Gouvernement des Etats-Unis prendra toutes les mesures raisonnables pour assurer la présence de tout membre des Forces des Etats-Unis comme témoin aux audiences des tribunaux égyptiens et ce, sur la demande faite par le fonctionnaire compétent du Ministère de la Justice ou par le Président du Tribunal compétent.

Il doit être expressément entendu que le régime d'exception visé plus haut n'est accordé qu'à raison de la situation particulière résultant de la guerre et qu'il se terminera de plein droit à la fin de la guerre pour permettre le retour au droit commun.

En cas d'acceptation, la présente lettre et la réponse de Votre Excellence seront considérées comme constituant un accord liant nos deux Gouvernements et publiées au 'Journal Officiel'. En ma qualité de Gouverneur Général Militaire, je ne manquerai pas de prendre ensuite les dispositions internes nécessaires pour la mise à exécution de cet accord.

Je saisis cette occasion pour vous renouveler, Excellence, les assurances de ma haute considération.

LEGATION OF THE  
UNITED STATES OF AMERICA

*Cairo, March 2, 1943.*

MY DEAR MR. PRIME MINISTER:

With reference to our exchange of notes of today's date, by which the Egyptian Government has been so kind as to accord to the United States Government jurisdiction in criminal matters over members of the United States Armed Forces in Egypt, I take pleasure in advising Your Excellency of the existing arrangements for the handling of claims against persons and property arising as a result of the voluntary and involuntary acts committed by Members of the said United States Armed Forces in Egypt, as follows:

1. There is now functioning in Egypt a United States Claims Commission for the Middle East, composed of three members, set up under authority contained in an Act of the Congress of the United States of America approved January 2, 1942, which is competent to hear claims arising out of acts committed by members of the United States Armed Forces in Egypt and to make and order payment of awards which do not exceed \$1,000.

Claims arising from  
acts by U. S. Armed  
Forces in Egypt.

Payment of awards  
not in excess of \$1,000.

55 Stat. 880.  
31 U. S. C., Supp.  
II, § 224d.  
Ante, p. 66.

2. With regard to the limitation upon the amount of the awards of the aforementioned Claims Commission, I have been informed by my Government that the War Department is already seeking from the Congress of the United States authority to increase the limitation from \$1,000 to \$5,000. When such authorization has been obtained, I shall not fail to inform Your Excellency.

Claims in excess of  
\$1,000.

3. In addition to the settling of claims by the aforementioned Claims Commission, the United States military authorities in Egypt will undertake to lend their good offices in carrying out the necessary formalities for petitioning the Congress of the United States to approve claims over \$1,000.

4. The United States military authorities in Egypt agree that claimants may be represented before the United States Claims Commission for the Middle East by an Egyptian official and assisted by the special office established for the purpose of assisting claimants in the presentation of their claims against members of any of the Allied Armed Forces in Egypt.

Representation of  
claimants by Egyptian  
official, etc.

I feel sure that the Egyptian Government will find satisfactory the aforementioned procedure for the settling of claims arising out of acts committed by members of the United States Armed Forces in Egypt.

Please accept, my dear Mr. Prime Minister, the renewed assurances of my highest consideration.

MON CHER MINISTRE,

Comme suite à votre note en date du 2 Mars 1943 exposant la procédure du règlement des réclamations relatives aux faits commis par les membres des Forces Armées des Etats-Unis en Egypte, j'ai le plaisir de vous informer que le Gouvernement Egyptien est d'accord sur cette procédure mais se réserve le droit de soulever à nouveau la question dans l'avenir s'il apparaissait que, soit d'une manière générale soit dans certains cas particuliers, cette procédure ne fonctionnait pas d'une façon propre à rendre justice aux plaignants.

Je dois en outre réserver le droit du Gouvernement Egyptien de faire des représentations diplomatiques en vue d'un nouvel examen et d'une rectification de la décision lorsqu'il estimera qu'une des décisions de la Commission des Etats-Unis des Réclamations pour le Moyen Orient est injuste.

MY DEAR MINISTER:

Referring to your note of March 2, 1943, in which there is set forth the procedure for the settlement of claims pertaining to acts committed by the members of the United States Armed Forces in Egypt, I have the pleasure to advise you that the Egyptian Government agrees to the procedure in question but reserves to itself the right to raise the question again in the future if it should appear that this procedure, either in a general way or in connection with certain particular cases, does not operate in such a manner as to do justice to the claimants.

I must, furthermore, reserve the right of the Egyptian Government to make diplomatic reservations with a view to re-examination and correction of the decision when it is of the opinion that a decision of the United States Claims Commission for the Middle East is unjust.

In the year nineteen hundred forty-three and on the second day of March, at Cairo, there met at the residence of His Excellency Mustapha El Nahas Pasha:

After His Excellency the Minister of the United States stated that his Government had officially authorized him to conclude an agreement with the Egyptian Government on this subject, His Excellency Mustapha El Nahas Pasha handed to him the note signifying the accord of the Egyptian Government with respect to granting the said immunity.

Having taken cognizance of this note, His Excellency the Minister of the United States handed to His Excellency a note stating that he had learned of the Egyptian Government's decision and indicating the agreement of his Government with the provisions contained in the Egyptian Government's note.

EXCELLENCY:

I have the honor to refer to the agreement for extension and continuation of plantation rubber investigations in Nicaragua which was signed on January 11, 1941, in the English and Spanish languages, by the Minister of Agriculture and Labor of the Republic of Nicaragua and the Acting Chief of the Bureau of Plant Industry of the Department of Agriculture of the United States of America.

*Post, p. 1215.*

Among the provisions of that agreement is the following (second paragraph from the end):

"It is mutually agreed by the cooperating parties that this agreement shall take effect on the date of this letter and shall expire on the thirtieth day of June, nineteen hundred and forty-one, but may be renewed from year to year thereafter (not extending, however, beyond the thirtieth day of June, nineteen hundred and forty-three) at the option of the Department of Agriculture of the United States of America, which option shall be expressed in writing by the Chief of the Bureau of Plant Industry or a duly authorized agent, at least one month before the date upon which this agreement would otherwise expire."

It is the understanding of the Government of the United States of America that the agreement above-mentioned has continued in force up to this time.

Continuance in

I have the honor to inform Your Excellency that it is the desire and option of the Department of Agriculture of the United States of America that the agreement should continue in force after June 30, 1943, and should remain in force thereafter until six months from the day on which either Government shall have given notice in writing to the other Government of its intention to terminate the agreement.

In view of the fact that it has not been practicable to give this notice to your Government "at least one month before" June 30, 1943, I have the honor to suggest that, if agreeable to the Government

of the Republic of Nicaragua, this note, together with your note in acknowledgment thereof, shall be regarded as placing on record the understanding between the Government of the United States of America and the Government of the Republic of Nicaragua that the agreement above-mentioned shall continue in force after June 30, 1943, and shall remain in force thereafter subject to termination on a notice of six months given by either Government.

General JOSÉ MARÍA ZELAYA,  
*Minister of Agriculture and Labor,*  
*Managua, D.N.,*  
*Republic of Nicaragua.*

DEAR SIR:

As a result of the cooperative rubber survey mutually agreed upon in my letter of December 11, 1940, [1] the following plan for extension and continuation of the work is submitted, as in the previous instance, for your consideration and approval.

In this cooperative project the Government of Nicaragua agrees to consult with the United States Department of Agriculture representatives and to select two or three areas suitable for nurseries which shall serve as demonstration plots and as centers of distribution of Hevea planting material. The Nicaraguan Government agrees to maintain these nurseries and appoint an agronomist or other trained representative who will be responsible for: the collection of seeds from Nicaraguan sources; the establishment of seed beds in the nurseries; and the distribution of any excess seeds to interested planters. This agronomist or other qualified representative is also to cooperate with representatives of the United States Department of Agriculture in directing and educating the planters in all matters pertaining to the propagation, cultivation and preparation of Hevea rubber.

Provision of nurseries; appointment of agronomist, etc.

The Government of Nicaragua will formulate necessary quarantine and other regulations designed to prevent the introduction into Nicaragua of rubber-propagating materials including seeds, trees and budwood from other countries, excepting such shipments as are duly certified to be free from noxious insects and contagious diseases.

Quarantine and other regulations.

The Department of Agriculture of the United States of America shall be permitted to import and/or export from Nicaragua all planting material (seeds, stumps or budwood) of rubber-producing plants which said Department may require for investigations herein contemplated or desire to ship elsewhere, provided, however, that all such shipments, imports or exports, shall be certified by a duly qualified official of said Department.

Imports and exports of planting material.

The Department of Agriculture of the United States of America shall be allowed entry into Nicaragua, free of all duties or other fees, of all property and materials needed in the proposed cooperative work, and a like exemption from duties and fees shall apply to the personal

Exemption from duties, etc.

[1 Not printed.]

effects of all employees of the United States Department of Agriculture who are engaged in this cooperation.

Redistribution of strains of rubber tree, restriction.

The Government of Nicaragua agrees to prohibit the redistribution of any strains of rubber tree furnished it by the United States Department of Agriculture to cooperators, companies or other governments except to those agencies and governments which are willing to reciprocate by furnishing such similar material as they may have in their possession; and this restriction shall be passed on to any other agency or government receiving material to prevent contravening the purpose of this restriction.

Distribution of superior strains.

The United States Department of Agriculture will furnish to the Government of Nicaragua free of charge at its propagating stations, stocks of superior strains of the rubber tree now in its possession, and any additional superior strains collected on surveys or bred at its experiment stations, which, after test by it, are found to be superior. Such distribution will be made at as early a date and in such quantity as may be possible with the facilities available for propagation and in view of the equitable demands or requirements of other cooperating agencies.

Investigators and rubber specialists.

The Department of Agriculture of the United States will supply such investigators and rubber specialists as may be necessary to aid in the establishment of nurseries and/or in the selection of suitable sites for test plantings herein contemplated.

Investigators and rubber specialists will be furnished by the said Department of Agriculture to cooperate with the Government of Nicaragua in directing and educating the planters in proper methods of propagation, planting, cultivation, thinning, tapping, preparation of rubber for market and other operations essential to the proper maintenance and productivity of their plantations. It will also conduct, in cooperation with the Government of Nicaragua, field investigations on specific problems of rubber culture when necessary.

Results of investigations.

The said Department of Agriculture will make available for the benefit of the rubber industry in Nicaragua the results obtained in the rubber investigations conducted by its Bureau of Plant Industry.

Effective date; expiration; renewal.

It is mutually agreed by the cooperating parties that this agreement shall take effect on the date of this letter and shall expire on the thirtieth day of June, nineteen hundred and forty-one, but may be renewed from year to year thereafter (not extending, however, beyond the thirtieth day of June, nineteen hundred and forty-three) at the option of the Department of Agriculture of the United States of America, which option shall be expressed in writing by the Chief of the Bureau of Plant Industry or a duly authorized agent, at least one month before the date upon which this agreement would otherwise expire.

Agreement not assignable.

It is mutually agreed also that this agreement shall not be assigned in whole or in part; that no member or delegate to Congress of the United States of America, or resident commissioner thereof, after his election or appointment, and either before or after he has qualified, and no officer, agent or employee of the Government of the United

States of America shall be admitted to any share or part of this agreement, or to any benefit to arise therefrom.

Very truly yours,

EXCELENCIA:

Como resultado de los estudios huleros cooperativos que convenimos en llevar a cabo en mi carta del 11 de diciembre de 1940, el siguiente proyecto para la continuación y extensión de los trabajos se presenta aquí, como anteriormente, para su consideración y aprobación.

En el presente convenio cooperativo el Gobierno de Nicaragua conviene en consultar con representantes del Departamento de Agricultura de los Estados Unidos y escoger dos o tres áreas apropiadas para viveros que servirán de plantíos de demostración y de centros de distribución del material para la siembra de Hevea. El Gobierno de Nicaragua conviene en mantener estos viveros y nombrar un agrónomo u otro representante capaz quien será responsable por: la colección de semillas de fuentes nicaragüenses, el establecimiento de almacigos en los viveros, y la distribución de semillas sobrantes a los finqueros interesados. Este agrónomo u otro representante capaz cooperará con los representantes del Departamento de Agricultura de los Estados Unidos en la educación y dirección de los finqueros en todos los asuntos relacionados a la propagación, el cultivo y la preparación de hule de Hevea.

El Gobierno de Nicaragua formulará los reglamentos de cuarentena y demás restricciones necesarios para evitar la introducción al país, de otros lugares, de materiales propagativos, inclusive semillas, árboles y yemas para injertar, exceptuando tales envíos que sean debidamente certificados como libres de insectos nocivos y enfermedades contagiosas.

Se le permitirá al Departamento de Agricultura de los Estados Unidos de América importar al país, o exportar de ello, todo material

propagativo (semillas, árbolitos, y yemas para injertar) de plantas hulfíferas que dicho Departamento requiera para las investigaciones y estudios que en la presente se contemplan o que deseara enviar a otras partes, con la provisión, empero, de que tales envíos, tanto de importación como de exportación, sean certificados por un representante debidamente autorizado por dicho Departamento.

Al Departamento de Agricultura de los Estados Unidos de América se le permitirá entrar a la República de Nicaragua, exentos del pago de derechos de aduana u otros gravámenes, todo equipo y materiales que sean necesarios para conducir los trabajos proyectados en este convenio cooperativo; y también serán exentos de dichos derechos y cobranzas los efectos personales de todos los empleados del Departamento de Agricultura de los Estados Unidos que estén ocupados en estos trabajos cooperativos.

El Gobierno de Nicaragua conviene en prohibir la redistribución a otros cooperadores, compañías o gobiernos de cualesquier variedades de Hevea que le sean suministradas por el Departamento de Agricultura de los Estados Unidos, salvo a tales agencias y gobiernos que estén dispuestos a reciprocarse mediante el suministro de material similar que tengan en su poder, y transmitir esta restricción a cualquier agencia o gobierno que reciba material para así evitar la contravención del objeto de esta restricción.

El Departamento de Agricultura de los Estados Unidos suministrará gratis al Gobierno de Nicaragua las variedades superiores de Hevea ya en su poder, además de variedades superiores adicionales que sean coleccionadas por sus exploradores o desarrolladas en sus estaciones experimentales y que, después de pruebas, hayan demostrado superioridad. Dicha distribución se hará con tal prontitud y en tal cantidad que sean posibles con las facilidades disponibles para la propagación y en consideración de las demandas equitativas de otras agencias cooperantes.

El Departamento de Agricultura de los Estados Unidos suministrará los investigadores y especialistas en hule que sean necesarios para ayudar en el establecimiento de viveros y la selección de áreas apropiadas para las siembras de ensayo aquí contempladas.

Investigadores y especialistas en hule serán suministrados por dicho Departamento de Agricultura para que cooperen con el Gobierno de Nicaragua en la educación y la dirección de los finqueros en los debidos métodos para conducir la propagación, la siembra, el cultivo, el entresacar, el picar, la preparación del hule para el mercado y demás operaciones necesarias para la debida manutención y productividad de sus plantaciones. El Departamento conducirá, además, en cooperación con el Gobierno de Nicaragua, estudios en el campo sobre problemas específicos relacionados con el cultivo del hule, cuando tales sean necesarios.

Dicho Departamento de Agricultura pondrá a la disposición del Gobierno de Nicaragua, para el aprovechamiento de la industria hulera nicaragüense, los resultados obtenidos en el curso de las investigaciones hechas por su Oficina de Industria de Plantas.

Las dos partes cooperantes mutuamente convienen que este acuerdo entrará en vigencia en la fecha de esta carta y vencerá el día treinta de junio de mil novecientos cuarenta y uno, pero que el mismo puede ser prorrogado de año a año después de esa fecha (en ningún caso se extenderá más allá del día treinta de junio de mil novecientos cuarenta y tres) a la elección del Departamento de Agricultura de los Estados Unidos de América, cuya elección será manifestada por escrito por el Jefe de la Oficina de Industria de Plantas o por un agente debidamente autorizado, por lo menos un mes antes de la fecha en que este convenio vencería al no prorrogarse.

También convienen mutuamente las dos partes contratantes que este convenio no será traspasado ni en conjunto ni en parte; que ningún miembro ni delegado al Congreso de los Estados Unidos de América ni comisionado residente de ellos, después de su elección o nombramiento, y o antes o después de haber prestado juramento, y ningún oficial, agente ni empleado del Gobierno de los Estados Unidos de América participará en cualquier porción o parte de este convenio o en cualquier beneficio que provenga de ello.

EXCELLENCY:

I have the honor to refer to the Cooperative Agreement for Plantation Rubber Investigations in Honduras, which was signed on February 28, 1941, in the English and Spanish languages, by the Ministro de Fomento, Agricultura y Trabajo of the Republic of Honduras and the Acting Secretary of Agriculture of the United States of America.

Post, p. 1224.

Subparagraph (b) of paragraph III of the agreement provides as follows:

“(b) That this agreement shall take effect on the date on which made and entered into, as shown in the first paragraph on page one, and expire on the thirtieth day of June, nineteen hundred and forty-one, but the same may be renewed from year to year thereafter, not extending, however, beyond the thirtieth day of June, nineteen hundred and forty-three, at the option of the Department of Agriculture of the United States, which option shall be expressed in writing by the said Department of Agriculture of the United States at least one month before the date upon which this agreement would otherwise expire.”

It is the understanding of the Government of the United States of America that the agreement above-mentioned has continued in force up to this time.

Continuance in  
force; duration.

I have the honor to inform Your Excellency that it is the desire and option of the Department of Agriculture of the United States of America that the agreement should continue in force after June 30, 1943, and should remain in force thereafter until six months from the day on which either Government shall have given notice in writing to the other Government of its intention to terminate the agreement.

In view of the fact that it has not been practicable to give this notice to your Government “at least one month before” June 30, 1943, I have the honor to suggest that, if agreeable to the Government of the Republic of Honduras, this note, together with your note in acknowledgment thereof, shall be regarded as placing on record the understanding between the Government of the United States of America and the

Government of the Republic of Honduras that the agreement above-mentioned shall continue in force after June 30, 1943, and shall remain in force thereafter subject to termination on a notice of six months given by either Government.

*Agreement of February 28, 1941*UNITED STATES DEPARTMENT OF AGRICULTURE  
OFFICE OF THE SECRETARYCOOPERATIVE AGREEMENT  
FOR PLANTATION RUBBER INVESTIGATIONS IN HONDURAS

THIS COOPERATIVE AGREEMENT made and entered into this 28th day of February, one thousand nine hundred and forty one, by and between the Ministerio de Fomento, Agricultura y Trabajo of the Republic of Honduras and the United States of America, by the Acting Secretary of the Department of Agriculture of the said United States.

## WITNESSETH:

WHEREAS, the establishment of a rubber plantation industry in the Western Hemisphere is recognized as mutually advantageous to all countries therein, and

WHEREAS, it is the interest and desire of the parties to this agreement that a source of crude rubber be developed in Honduras, and whereas, it is recognized by both parties that such development must be based on the use of superior strains of rubber-producing trees if the industry is to be self-sustaining in competition with oriental areas; that such strains must possess superiority, not only in yield but also in resistance to the South American leaf disease; that in view of the past efforts and progress achieved in promoting new agricultural enterprises by the Ministerio de Fomento, Agricultura y Trabajo, it is the desire of the parties to this agreement to cooperate by conducting investigational work on the methods of growing rubber, the production of valuable strains of rubber, disease control, possible use of inter-crops, and other problems involved in the successful establishment of commercial rubber culture, for the benefit of the people of Honduras and of the United States of America.

Now, THEREFORE, the parties to this agreement do hereby separately outline their interests in this cooperative project, and designate the facilities, services, and other contributions which they agree to make available toward achievement of their mutual objective.

I. The Ministerio de Fomento, Agricultura Y Trabajo de Honduras is seeking uses for the great areas of rich undeveloped land and abandoned banana farms on which both individual growers and plantation companies may produce a profitable export crop, such as rubber, and increase the income and foreign trade of the people of Honduras. Therefore, said Ministerio does hereby agree:

(a) To consult the local representatives of the Department of Agriculture of the United States, and select jointly three to five suitable areas of land whose owners are interested and are financially able to make demonstration plantings of rubber, which would be of the greatest educational value in establishing centers for the development of rubber production in Honduras; the location of such areas shall be determined by the amount of

Agreement on part of Ministerio de Fomento, Agricultura y Trabajo de Honduras.

Demonstration plantings.

adjacent lands suitable for successful rubber cultivation, and the number and size of such initial plantings of any improved strain shall be limited to the amount of available planting material and in consideration of the equitable demands of other cooperating countries.

(b) To assign agronomists or other trained representatives of the Honduras Government, as may be required from time to time, to cooperate with representatives of the Department of Agriculture of the United States in directing and educating the cooperative growers in planting, multiplication, cultivation, thinning, tapping, preparing the rubber for market, and other essential operations necessary for securing the proper maintenance and productivity of the plantings.

Assignment of agronomists, etc.

(c) To formulate necessary quarantine and other regulations designed to prevent the indiscriminate introduction into Honduras of rubber-propagating materials, including seeds, trees, and budwood from other countries, excepting such shipments as are duly certified to be free from noxious insects and contagious diseases.

Quarantine and other regulations.

(d) To permit the Department of Agriculture of the United States to import into, and/or export from, Honduras all planting material (seeds, stumps, or budwood) of rubber-producing plants, which said Department of Agriculture of the United States may require for the investigations herein contemplated or desire to ship elsewhere, provided, however, that all such shipments, imports, or exports shall be certified by a duly qualified official of said Department to be free from noxious insects and contagious diseases.

Imports and exports of planting material.

(e) To permit importation into Honduras free of duties or other fees all material or property of the Government of the United States which may be required for the construction, operation, and maintenance of its experiment station, substations, and nurseries, and also to allow this exemption on the personal property of employees of said station, or other representatives of the United States when they enter the ports of Honduras for work covered by this cooperative agreement, provided, however, that the director of said station shall certify that such personal property of said employees is not imported for resale.

Exemption from duties, etc.

(f) To prohibit the redistribution of any strains of the rubber tree furnished it by the said Department of Agriculture of the United States to cooperators, companies, or other governments, except to those agencies and governments in the Western Hemisphere which are willing to reciprocate by furnishing such similar material as they may have in their possession; and that this restriction shall be passed on to any other agency or government receiving material to prevent controverting the purpose of this restriction.

Redistribution of strains of rubber tree, restriction.

II. The Department of Agriculture of the United States, under the authority and appropriation of funds granted it by the Congress

Agreement on part of U. S. Department of Agriculture.

of the said United States for investigation of sources of crude rubber in the Western Hemisphere, does hereby agree:

Rubber-propagation and experiment station.

(a) To establish in Honduras a rubber-propagation and experiment station from which high-yielding strains may be distributed to cooperators in Honduras and other potential rubber-producing countries in Latin America.

Laboratory and field investigations.

(b) To conduct laboratory and field investigations, and to make the results available for the benefit of the industry in Honduras and throughout Latin America. Problems for investigation may include tests of high-yielding strains of the Hevea rubber tree from any source for their performance on local soils, artificial pollination for breeding of improved strains, methods of land clearing, planting, use of inter-planted crops, ground covers, and other investigations for the advancement of the industry.

Laboratory and office space and housing for employees.

(c) To provide at its expense any necessary laboratory and office space and housing for employees at the aforementioned experiment station, and to equip said buildings and lands with all facilities required for the propagation of rubber and the investigation of problems of plantation rubber production in Honduras.

Station superintendent, etc.

(d) To supply a station superintendent and such other investigators and rubber specialists as may be necessary to conduct the investigations herein contemplated, together with such overseers of labor as may be necessary to carry on the work properly.

Provision for two scientists.

(e) To welcome and provide free of charge necessary office space at such station for two scientists who, at its option the Ministerio de Fomento, Agricultura y Trabajo may delegate to said station to conduct, on the basis of strict equality, cooperative investigations with the specialists of the Department of Agriculture of the United States, or for the purpose of becoming informed on the techniques of the rubber industry. The salaries, living accommodations, transportation, and other expenses of such scientists shall be furnished by the Ministerio de Fomento, Agricultura y Trabajo.

Planting material.

(f) To furnish planting material and supervise, in cooperation with the Honduras representatives, the establishment of practical field plantings to demonstrate all phases of plantation rubber production.

Distribution of superior strains of rubber tree.

(g) To furnish to the Ministerio de Fomento, Agricultura y Trabajo free of charge f. o. b. at its station in Honduras or elsewhere, stocks of superior strains of the rubber tree now in its possession, and any additional superior strains collected on surveys or bred at its experiment station in Honduras and elsewhere, which after test by it are found to be superior; such distributions to be at as early a date and in such quantity as may be possible with the facilities available for propagation and in view of the equitable demands or requirements of other cooperating agencies.

## III. The cooperating parties do hereby mutually agree:

Mutual agreement.

(a) That, exclusive of salaries of scientists and overseers of the Department of Agriculture of the United States, obligations of the said Department under this cooperative agreement shall not exceed Thirty Thousand (\$30,000) Dollars the first year, nor more than Fifteen Thousand (\$15,000) Dollars in any one fiscal year thereafter. The total value of land, facilities, and services furnished by the Ministerio de Fomento, Agricultura y Trabajo are of a very great tangible and intangible consideration, and are not hereby estimated.

Maximum obligations.

(b) That this agreement shall take effect on the date on which made and entered into, as shown in the first paragraph on page one, and expire on the thirtieth day of June, nineteen hundred and forty-one, but the same may be renewed from year to year thereafter, not extending, however, beyond the thirtieth day of June, nineteen hundred and forty-three, at the option of the Department of Agriculture of the United States, which option shall be expressed in writing by the said Department of Agriculture of the United States at least one month before the date upon which this agreement would otherwise expire.

Effective date; expiration; renewal.

(c) That this agreement shall not be assigned in whole or in part; that no member or delegate to Congress of the United States or Resident Commissioner thereof, after his election or appointment, and either before or after he has qualified, and no officer, agent, or employee of the Government of the United States shall be admitted to any share or part of this agreement, or to any benefit to arise therefrom.

Agreement not assignable.

IN WITNESS WHEREOF, the parties hereto have executed this cooperative agreement on the day, month, and year first above written.

UNITED STATES DEPARTMENT OF AGRICULTURE  
OFFICE OF THE SECRETARY

CONVENIO COOPERATIVO PARA LAS INVESTIGACIONES SOBRE  
CAUCHO CULTIVADO EN HONDURAS

ESTE CONVENIO COOPERATIVO hecho y celebrado el 28 de Febrero de mil novecientas cuarenta y uno, entre el Ministerio de Fomento, Agricultura y Trabajo de la República de Honduras y el Secretario Interino de Agricultura de los Estados Unidos de América, en representación de su país.

CONSIDERANDO que se reconoce que el establecimiento de la industria de caucho cultivado en el Hemisferio Occidental ha de producir beneficios recíprocos para todos los países americanos; y

CONSIDERANDO que los firmantes de este convenio desean y se interesan en que se desarrolle la producción de caucho crudo en Honduras y, considerando que ambas partes reconocen que este desarrollo debe basarse en la selección de árboles pertenecientes a estirpes superiores si es que la industria ha de sostenerse en concurrencia con la del oriente; que dicha superioridad ha de consistir tanto en el volumen de producción como en la resistencia a la enfermedad "Sigatoka"; que en vista de los esfuerzos en el pasado y el progreso realizado en el estímulo de nuevas empresas agrícolas por el Ministerio de Fomento, Agricultura y Trabajo, ambas partes de este convenio desean cooperar en las investigaciones sobre los métodos para el cultivo de caucho, la producción de valiosas estirpes de caucho, el dominio de las enfermedades, la posibilidad de intercalar otros cultivos y otros problemas relacionados con la iniciación eficaz del cultivo comercial de caucho, para el beneficio de los pueblos hondureño y estadounidense.

AMBAS PARTES a este convenio consignan por separado sus intereses en esta investigación cooperative, dejando constancia de las facilidades, los servicios y otras contribuciones que convienen en aportar al éxito de su propósito común.

I. El Ministerio de Fomento, Agricultura y Trabajo de Honduras desea utilizar los vastos terrenos ricos y baldíos y los campos bananeros abandonados, en los cuales tanto los agricultores como las empresas agrícolas puedan cultivar con provecho para la exportación, productos tales como caucho, aumentando así sus ingresos y el comercio exterior del pueblo hondureño. Por lo tanto, el Ministerio conviene en lo siguiente:

(a) Consultar con los representantes locales del Departamento de Agricultura de los Estados Unidos, y escoger conjuntamente, de tres a cinco terrenos adecuados cuyos propietarios tengan el interés y la capacidad económica para sembrar caucho en calidad de demostración, cuyas siembras tendrían un gran valor desde el punto de vista educativo, para dar impulso al establecimiento de centros para el desarrollo de la producción de caucho en Honduras; la selección de estos terrenos dependerá de la extensión de otros terrenos adyacentes que se presten para el cultivo provechoso del caucho, y el número y la extensión de las siembras iniciales de cualquier estirpe superior han de ser limitados de acuerdo con la cantidad de material disponible para siembra y tomando en cuenta las exigencias equitativas de los otros países cooperadores.

(b) Asignar agrónomos u otros representantes idóneos del Gobierno de Honduras, según se necesiten de vez en cuando para que colaboren con los representantes del Departamento de Agricultura de los Estados Unidos en la dirección y educación de los agricultores que cooperen en la siembra, la reproducción,

el cultivo, el espaciamento, la extracción de la leche, preparación del caucho para el mercado y otros procesos necesarios para asegurar debidamente el mantenimiento y la productividad de las siembras.

(c) Formular los reglamentos de cuarentena y otras disposiciones necesarias para evitar la introducción generalizada, de países extranjeros, de materiales para la siembra de caucho en Honduras, inclusive las semillas, los arbustos y material para los injertos, con la excepción de las importaciones debidamente acompañadas de certificados comprobando su extensión de insectos nocivos y de enfermedades contagiosas.

(d) Dar permiso al Departamento de Agricultura de los Estados Unidos para importar en y/o exportar de Honduras, todo material para la siembra (semillas, material para los injertos) de plantas productoras de caucho, que necesite dicho Departamento de Agricultura de los Estados Unidos para las investigaciones consignadas en este convenio o que desee enviar a otras partes, siempre que un oficial debidamente autorizado certifique que todas las remesas, ya sean de importación o exportación, hállanse exentas de insectos nocivos o de enfermedades contagiosas.

(e) Permitir la importación en Honduras, libre de derechos u otros impuestos, de todo material o propiedad del Gobierno de los Estados Unidos que se necesiten para la construcción, operaciones y mantenimiento de su estación experimental principal y las estaciones subsidiarias y los plantíos, y también de la propiedad particular de los empleados de dicha estación u otros representantes de los Estados Unidos al entrar en los puertos de Honduras en ejercicio de sus funciones en relación con este convenio, siempre que el director de dicha estación certifique que dicha propiedad particular no ha sido importada para ser revendida.

(f) Prohibir la redistribución de cualesquiera estirpes de caucho proporcionadas por dicho Departamento de Agricultura de los Estados Unidos a los agricultores cooperadores, empresas, u otros gobiernos, con la excepción de las entidades y los gobiernos del hemisferio occidental que deseen reciprocitar, proporcionando material semejante que tengan disponible, y que esta restricción se aplique a cualquier otro gobierno o entidad que reciba materiales de esta índola a fin de no contravenir sus finalidades.

II. El Departamento de Agricultura de los Estados Unidos, bajo la autoridad de, y utilizando la partida dedicada por, el Congreso de los dichos Estados Unidos para la investigación de la producción de caucho crudo en el hemisferio occidental, conviene en:

(a) Establecer en Honduras una estación dedicada a la propagación de caucho y a la realización de experimentos, desde la cual se puedan distribuir estirpes de producción prolífica a los cooperadores en Honduras y otros países latinoamericanos donde haya posibilidades para producir caucho.

(b) Realizar investigaciones de laboratorio y en el terreno, para el beneficio de la industria en Honduras y otras partes de la América Latina. Entre los problemas por investigar pueden mencionarse la adaptación de las estirpes de "Hevea" de prolífica producción a los suelos locales, la polenización artificial para la producción de estirpes mejoradas, métodos para la limpieza de los terrenos, la técnica de sembrar, la intercalación de otros cultivos, métodos para cubrir la tierra y otras investigaciones destinadas a mejorar la industria.

(c) Sufragar los gastos necesarios para conseguir el espacio adecuado para laboratorio, oficina y alojamiento de los empleados de la estación experimental antes aludida, y habilitar dichos edificios y terrenos con todo lo necesario para la propagación de caucho y la investigación de los problemas de su producción en Honduras.

(d) Suministrar un jefe de estación y otros investigadores y peritos indispensables para las investigaciones consignadas en este convenio, y también los capataces necesarios para la realización de los trabajos.

(e) Acoger y proporcionarles el espacio necesario para sus oficinas, a dos peritos que a su opción enviare el Ministerio de Fomento, Agricultura y Trabajo a dicha estación, para realizar investigaciones cooperativas a base de estricta igualdad con los especialistas del Departamento de Agricultura de los Estados Unidos o para informarse con respecto a las técnicas de la industria de caucho. Correrán por cuenta del Ministerio de Fomento, los sueldos, el alojamiento, el transporte y otros gastos de dichos peritos.

(f) Suministrar materiales de siembra y dirigir en cooperación con los representantes de Honduras, la creación de campos de siembras prácticas para demostrar la producción del caucho en todas sus fases.

(g) Suministrar al Ministerio de Fomento, Agricultura y Trabajo, libre de costo y puestos en su estación en Honduras o en cualquier parte, arbustos de caucho de estirpes superiores que actualmente tiene disponibles, y de otras estirpes superiores que se coleccionaren durante las investigaciones o que se crien en su estación experimental de Honduras o en cualquier otra parte, que después de sus ensayos resulten ser superiores. Tal distribución se efectuará tan pronto como sea posible, en cantidades determinadas por las facilidades que existan para la propagación y de acuerdo con los pedidos y exigencias equitativas de otras entidades cooperativas.

### III. Las partes de este convenio acuerdan entre sí:

(a) Que las obligaciones del Departamento de Agricultura de los Estados Unidos conforme a las cláusulas de este convenio, fuera de los sueldos de sus peritos y capataces, no excederán de Treinta Mil Dólares (\$30,000) durante el primer año ni

Quince Mil Dólares (\$15,000) durante cualquier año subsecuente. No se calcula el valor total de los terrenos, las facilidades y los servicios aportados por el Ministerio de Fomento, Agricultura y Trabajo, ya que son de incalculable valor tangible e intangible.

(b) Que este convenio entre en vigor desde la fecha en que se celebre, según consta en el primer párrafo de la primera página y que termine el día treinta de junio de mil novecientos cuarenta y uno, pero pudiendo renovarse cada año después de esa fecha; sin embargo, no podrá extenderse después del día treinta de junio de mil novecientos cuarenta y tres, a opción del Departamento de Agricultura de los Estados Unidos, cuya opción deberá expresarse por escrito por dicho Departamento de Agricultura de los Estados Unidos por lo menos un mes antes de la terminación del convenio.

(c) Que no podrá cederse este convenio, ni total ni parcialmente; que ningún miembro ni delegado al Congreso de los Estados Unidos o Comisionado Residente ante dicho Congreso, después de su elección o nombramiento, o antes o después de haber prestado su juramento, y ningún funcionario, agente o empleado del Gobierno de los Estados Unidos, pueda entrar a formar parte de este contrato, o participar de cualquier beneficio derivado del mismo.

EN FE DE LO CUAL, las partes otorgan el presente contrato el día, mes y año aludidos en primer término.

*Agreement between the United States of America and Panama respecting the lease of defense sites. Signed at Panamá May 18, 1942; effective May 11, 1943. And exchanges of notes.*

### AGREEMENT FOR THE LEASE OF DEFENSE SITES IN THE REPUBLIC OF PANAMA.

The undersigned, Octavio Fábrega, Minister for Foreign Affairs of the Republic of Panamá, and Edwin C. Wilson, Ambassador of the United States of America, acting on behalf of our respective Governments, for which we are duly and legally authorized, have concluded the following Agreement:

Protection of Panama Canal.

53 Stat. 1807.

The Governments of the Republic of Panamá and of the United States of America, conscious of their joint obligation, as expressed in the provisions of the General Treaty of Friendship and Cooperation, concluded March 2, 1936, to take all measures required for the effective protection of the Panama Canal in which they are jointly and vitally interested, have consulted together and have agreed as follows:

#### ARTICLE I.

Temporary use by U. S. of certain lands for defense purposes.

The Republic of Panamá grants to the United States the temporary use for defense purposes of the lands referred to in the Memorandum<sup>[1]</sup> attached to this Agreement and forming an integral part thereof. These lands shall be evacuated and the use thereof by the United States of America shall terminate one year after the date on which the definitive treaty of peace which brings about the end of the present war shall have entered into effect. If within that period the two Governments believe that, in spite of the cessation of hostilities, a state of international insecurity continues to exist which makes vitally necessary the continuation of the use of any of the said defense bases or areas, the two Governments shall again enter into mutual consultation and shall conclude the new agreement which the circumstances require.

Access to sites by authorities of Panama.

The national authorities of the Republic of Panamá shall have adequate facilities for access to the defense sites mentioned herein.

#### ARTICLE II.

Right to use of adjacent waters, etc.

The grant mentioned in the foregoing article shall include the right to use the waters adjacent to the said areas of land and to improve and deepen the entrances thereto and the anchorage in such places as well as to perform in/on the said areas of land all the works that may be necessary in connection with the effective protection of

<sup>1</sup> [Not printed.]

the Canal. This gives no right to commercial exploitation or utilization of the soil or subsoil, or of adjacent beaches and streams.

### ARTICLE III.

Military and naval aircraft of Panamá shall be authorized to land at and take off from the airports established within the areas referred to in Article I. Similarly, military and naval aircraft of the United States shall be authorized to use military and naval airports established by the Republic of Panamá. The regulations covering such reciprocal use shall be embodied in an agreement to be negotiated by the appropriate authorities of the two countries.

Reciprocal use of airports.

### ARTICLE IV.

The Republic of Panamá retains its sovereignty over the areas of land and water mentioned in the Memorandum referred to in Article I and the air space thereover, as well as complete jurisdiction in civil matters, provided, however, that during the period of temporary occupation contemplated by this Agreement, the Government of the United States shall have complete use of such areas and exclusive jurisdiction in all respects over the civil and military personnel of the United States situated therein, and their families, and shall be empowered, moreover, to exclude such persons as it sees fit without regard to nationality, from these areas, without prejudice to the provisions of the second paragraph of Article I of this Agreement, and to arrest, try and punish all persons who, in such areas, maliciously commit any crime against the safety of the military installations therein; provided, however, that any Panamanian citizen arrested or detained on any charges shall be delivered to the authorities of the Republic of Panamá for trial and punishment.

Sovereignty and jurisdiction.

### ARTICLE V.

The Republic of Panamá and the United States reiterate their understanding of the temporary character of the occupation of the defense sites covered by this Agreement. Consequently, the United States, recognizing the importance of the cooperation given by Panamá in making these temporary defense sites available and also recognizing the burden which the occupation of these sites imposes upon the Republic of Panamá, expressly undertakes the obligation to evacuate the lands to which this contract refers and to terminate completely the use thereof, at the latest within one year after the date on which the definitive treaty of peace which brings about the cessation of the present war, shall have entered into effect. It is understood, as has been expressed in Article I, that if within this period the two Governments believe that in spite of the cessation of hostilities, a state of international insecurity continues to exist which makes vitally necessary the continuation of the use of any of the said defense bases or sites, the two Governments shall again enter into mutual consultation and shall conclude the new Agreement which the circumstances require.

Reiteration of temporary character of occupation.

## ARTICLE VI.

Buildings and structures.

All buildings and structures which are erected by the United States in the said areas shall be the property of the United States, and may be removed by it before the expiration of this Agreement. Any other buildings or structures already existing in the areas at the time of occupation shall be available for the use of the United States. There shall be no obligation on the part of the United States herein or the Republic of Panamá to rebuild or repair any destruction or damage inflicted from any cause whatsoever on any of the said buildings or structures owned or used by the United States in the said areas. The United States is not obliged to turn over to Panamá the areas at the expiration of this lease in the condition in which they were at the time of their occupation, nor is the Republic of Panamá obliged to allow any compensation to the United States for the improvements made in the said areas or for the buildings or structures left thereon, all of which shall become the property of the Republic of Panamá upon the termination of the use by the United States of the areas where the structures have been built.

## ARTICLE VII.

Exemption from taxes, etc., by Panama.

The areas of land referred to in Article I, the property of the United States situated therein, and the military and civilian personnel of the United States and families thereof who live in the said areas, shall be exempt from any tax, imposts or other charges of any kind by the Republic of Panamá or its political subdivisions during the term of this Agreement.

## ARTICLE VIII.

Completion by U. S. of certain highways.

The United States shall complete the construction at its own expense of the highways described below, under the conditions and with the materials specified:

Highway A-3. (Shall extend from Piña on the Atlantic side of the Isthmus to the Canal Zone boundary at the Rio Providencia. It shall be at least ten feet in width and constructed of macadam.)

Extension of the Trans-Isthmian Highway following the line of the P-8 road. (Specifications shall be the same as for the Trans-Isthmian Highway. The extension shall start at Madrinal, by-passing Madden Dam by a bridge over the Chagres River below the Dam to connect with the P-8 road at Roque and shall extend the P-8 road from Pueblo Nuevo into Panamá City. It is understood that the pavement of the bridge over the Chagres River will be located above the elevation established as the Canal Zone boundary.)

Protection of original construction.

Upon the completion of these highways the Government of the United States will assume the responsibility for any necessary post construction operations, that is, the performance of work necessary to protect the original construction until such time as the roads become stabilized.

Maintenance of certain roads by Panama.

The Government of Panamá guarantees that the roads under its jurisdiction used periodically or frequently by the armed forces of the

United States will be well and properly maintained at all times. The Government of Panamá will ask for the cooperation of the Government of the United States in the performance of repair and maintenance work on the said roads whenever it deems necessary such cooperation in order to fulfill the aforesaid guarantee, such as for example in the case of emergencies or situations which require prompt action.

Cooperation of U. S.

The Government of the United States will bear one third of the total annual maintenance cost of all Panamanian roads used periodically or frequently by the armed forces of the United States, such cost to cover the expense of any wear or damage to roads caused by movements related to defense activities. The amount payable by the United States will be based upon accounts presented annually by the Republic of Panamá giving in detail the total annual expenditures made by it on each highway used periodically or frequently by the armed forces of the United States, and upon accounts similarly presented by the Government of the United States giving in similar detail the expenditures made by that Government in response to requests from the Government of Panamá as set forth above. In the event that the Government of the United States has rendered cooperation in the maintenance of the said roads, the expenses incurred by that Government in so doing will be credited toward the share of the United States in the total maintenance of the roads under the jurisdiction of Panamá.

Maintenance cost to U. S. of roads used by armed forces.

In consideration of the above obligations and responsibilities of the United States, the Government of the Republic of Panamá grants the right of transit for the routine movement of the members of the armed forces of the United States, the civilian members of such forces and their families, as well as animals, animal-drawn and motor vehicles employed by the armed forces or by contractors employed by them for construction work or others whose activities are in any way related to the defense program, on roads constructed by the United States in territory under the jurisdiction of the Republic of Panamá and on the other national highways which place the Canal Zone in communication with the defense areas and of the latter with each other. It should be understood that the United States will take at all times the precautions necessary to avoid, if possible, interruptions of transit in the Republic of Panamá.

Grant to U. S. of right of transit.

#### ARTICLE IX.

All roads constructed by the United States in the territory under the jurisdiction of the Republic of Panamá shall be under the jurisdiction of Panamá. As to those secondary roads constructed by the United States for the purpose of giving access to any defense site, Panamá grants to the military authorities of the United States the right to restrict or prohibit public travel on such roads within a reasonable distance from such sites if such restriction or prohibition is necessary to the military protection of such sites. It is understood that such restriction or prohibition is without prejudice to the free access of the inhabitants established within the restricted areas to their respective properties. It is also understood that such restriction or prohibition is not to be exercised on any part of any main highway.

Roads constructed by U. S. in territory under jurisdiction of Panamá.  
Secondary access roads.

## ARTICLE X.

Air bases and airports.  
Regulations by joint Aviation Board.

The Government of the United States of America, when constructing the air bases and airports on any of the sites referred to in Article I, shall take into consideration, in addition to the requirements of a technical order for the safety thereof, the regulations on the matter as have been or may be promulgated by the joint Aviation Board.

Erection of aerial lines, etc., restriction.

The Republic of Panamá shall not permit, without reaching an agreement with the United States, the erection or maintenance of any aerial lines or other obstructions which may constitute a danger for persons flying in the vicinity of the areas intended for air bases or airports. If, in constructing the said air bases and airports, it should be necessary to remove lines of wire already strung because of their constituting an obstacle thereto, the Government of the United States shall pay the costs of the removal and new installation elsewhere which may be occasioned.

Removal of existing lines.

## ARTICLE XI.

Passing of imported articles to other territory of Panamá.

The Government of the United States agrees to take all appropriate measures to prevent articles imported for consumption within the areas referred to in Article I from passing to any other territory of the rest of the Republic except upon compliance with Panamanian fiscal laws. Whenever it is possible, the provisioning and equipping of the bases and their personnel will be done with products, articles and foodstuffs coming from the Republic of Panamá, provided they are available at reasonable prices.

Use of Panamanian products.

## ARTICLE XII.

Lands comprising sites.

The sites referred to in Article I consist both of lands belonging to the Government of the Republic of Panamá and of privately owned lands.

Acquisition, use, and rental of private lands.

In the case of the private lands, which the Government of Panamá shall acquire from the owners and the temporary use of which shall be granted by it to the Government of the United States, it is agreed that the Government of the United States will pay to the Government of Panamá an annual rental of fifty balboas or dollars per hectare for all such lands covered by this Agreement, the Government of Panamá assuming all costs of expropriation as well as indemnities and reimbursements for buildings, cultivations, installations or improvements which may exist within the sites chosen.

Payment by U. S. of rental for public lands.

In the case of the public lands the Government of the United States will pay to the Government of Panamá an annual rental of one balboa or dollar for all such lands covered by this Agreement.

Certain lands in Corregimiento of Rio Hato.

There are expressly excepted the lands situated in the Corregimiento of Rio Hato, designated by No. 12 in the attached Memorandum, it being understood that for this entire tract the United States Government will pay to the Government of Panamá an annual rental of ten thousand balboas or dollars.

The rentals set out in this Article shall be paid in balboas as defined by the Agreement embodied in the exchange of notes dated March 2,

1936, referred to in Article VII of the Treaty of that date between the United States of America and Panamá, or the equivalent thereof in dollars, and shall be payable from the date on which the use of the lands by the United States actually began, with the exception of the lands situated in the Corregimiento of Rio Hato designated by No. 12 in the attached Memorandum, rental for which shall commence January 1, 1943.

53 Stat. 1818.

Commencement  
dates of rentals.

## ARTICLE XIII.

The provisions of this Agreement may be terminated upon the mutual consent of the signatory parties even prior to the expiration thereof in conformity with Articles I and V above, it being understood also that any of the areas to which this Agreement refers may be evacuated by the United States and the use thereof by the United States terminated prior to that date.

Termination of  
agreement.

## ARTICLE XIV

This Agreement will enter into effect when approved by the National Executive Power of Panamá and by the National Assembly of Panamá. [1]

Effective date.

## CONVENIO SOBRE ARRENDAMIENTO DE SITIOS DE DEFENSA EN LA REPUBLICA DE PANAMA.

Los suscritos, a saber: Octavio Fábrega, Ministro de Estado en el Despacho de Relaciones Exteriores de la República de Panamá, y Edwin C. Wilson, Embajador Extraordinario y Plenipotenciario de los Estados Unidos de América, actuando en nombre y representación de nuestros respectivos Gobiernos, para lo cual estamos legal y suficientemente autorizados, hemos celebrado el siguiente Convenio:

El Gobierno de la República de Panamá y el de los Estados Unidos de América, conscientes de su mutua obligación, expresada en el Tratado General de Amistad y Cooperación suscrito el 2 de Marzo de 1936, de tomar todas las medidas que requiera la protección efectiva del Canal de Panamá en el cual ambos países están conjunta y vitalmente interesados, se han consultado recíprocamente y han convenido en lo siguiente:

### ARTICULO I

La República de Panamá concede a los Estados Unidos el uso temporal, para fines de defensa, de todas las tierras mencionadas en el Memorandum anexo a este Convenio y que forma parte integrante del mismo. Estas tierras serán evacuadas y cesará el uso de ellas por parte de los Estados Unidos de América un año después de la fecha en que haya entrado en vigor el Convenio definitivo de paz que haya hecho cesar el conflicto bélico ahora existente. Si durante este periodo los dos Gobiernos estiman que, no obstante el cese de hostilidades, continúa existiendo el estado de inseguridad internacional que haga de imperiosa necesidad la continuación de cualesquiera de dichas bases o áreas de defensa mencionadas, los dos Gobiernos nuevamente procederán a consultarse mutuamente y celebrarán el nuevo Convenio que las circunstancias requieran.

Las autoridades nacionales de la República de Panamá tendrán acceso adecuado a los sitios de defensa mencionados.

### ARTICULO II

La concesión mencionada en el artículo anterior incluye el derecho de usar las aguas adyacentes a dichas áreas de terreno y a mejorar y profundizar las entradas a las mismas y el anclaje en dichos lugares, así como el de llevar a cabo en dichas áreas de terreno todos los trabajos que puedan ser necesarios en relación con la protección efectiva del Canal. Esto no dará derecho a la explotación o utilización comercial del suelo o del subsuelo ni de las playas ni corrientes adyacentes.

### ARTICULO III

Los aviones militares y navales de Panamá tendrán derecho a aterrizar y zarpar de los aeropuertos establecidos o que se establezcan dentro de las áreas a que se refiere el artículo I. Igualmente los aviones militares o navales de los Estados Unidos tendrán derecho a usar los aeropuertos navales y militares establecidos o que se establez-

can en la República de Panamá. Los reglamentos que rijan este uso recíproco serán confeccionados en un acuerdo que será negociado por los funcionarios respectivos de ambos países.

#### ARTICULO IV

La República de Panamá retiene su soberanía sobre las áreas de terreno y de agua mencionadas en el Memorandum de que trata la cláusula I y también sobre el espacio de aire que las cubre, y retiene también plena jurisdicción en asuntos civiles siendo entendido, sin embargo, que durante el periodo de ocupación temporal a que este Convenio se refiere, el Gobierno de los Estados Unidos tendrá el uso pleno de dichas áreas y jurisdicción exclusiva y plena sobre el personal civil y militar de los Estados Unidos allí establecido y sobre sus familias, y podrá, además, excluir de dichas áreas a aquellas personas que estime conveniente excluir sin tener en cuenta su nacionalidad, sin perjuicio de lo estipulado en el segundo inciso de la cláusula I de este Convenio; y podrá también arrestar, juzgar y castigar a todas las personas que, dentro de dichas áreas, cometan cualquier delito contra la seguridad de las instalaciones militares que allí se encuentren, siendo entendido, sin embargo, que todo ciudadano panameño que fuere arrestado o detenido por cualquier causa será entregado a las autoridades de la República de Panamá para su juzgamiento y castigo.

#### ARTICULO V

La República de Panamá y los Estados Unidos reiteran su entendimiento respecto al carácter temporal de la ocupación de los sitios de defensa a que este Convenio se refiere. En consecuencia los Estados Unidos, reconociendo la importancia de la cooperación prestada por Panamá al proporcionar estos sitios temporales de defensa y reconociendo también la carga que la ocupación de estos sitios significa para la República de Panamá, se obligan expresamente a evacuar los terrenos a que este Convenio se refiere y a cesar completamente en el uso de los mismos, a más tardar dentro de un año después de la fecha en que haya entrado en vigor el convenio definitivo de paz que haya hecho cesar el conflicto bélico ahora existente. Queda entendido, según se ha expresado en la cláusula I, que si en este período los dos Gobiernos estiman que, no obstante el cese de hostilidades, continúa existiendo un estado de inseguridad internacional que haga de imperiosa necesidad la continuación de cualesquiera de dichas bases o sitios de defensa mencionados, los dos Gobiernos nuevamente procederán a consultarse mutuamente y celebrarán el nuevo Convenio que las circunstancias requieran.

#### ARTICULO VI

Todos los edificios y estructuras erigidos por los Estados Unidos en las áreas mencionadas serán de propiedad de los Estados Unidos y podrán ser removidos por los Estados Unidos antes de la expiración del presente Convenio. Cualesquiera otros edificios o estructuras existentes en las áreas mencionadas al tiempo de su ocupación podrán ser usados por los Estados Unidos. Ni los Estados Unidos ni la República

de Panamá estarán en la obligación de reconstruir o reparar la destrucción o daño infligido, por cualquier causa, a cualesquiera edificios o estructuras que pertenezcan o sean usados por los Estados Unidos en dichas áreas. Los Estados Unidos no estarán obligados, al expirar el presente arrendamiento, a devolver a Panamá las áreas mencionadas en las mismas condiciones en que estaban al tiempo de su ocupación, ni tampoco estará obligada la República de Panamá a reconocer compensación alguna a los Estados Unidos por las mejoras que se hayan hecho en dichas áreas ni por los edificios o estructuras que en ellas se dejaren, todos los cuales vendrán a ser de propiedad de la República de Panamá al terminar el uso por parte de los Estados Unidos de las áreas en las cuales han sido erigidas dichas estructuras o efectuadas dichas mejoras.

#### ARTICULO VII

Las áreas de terreno a que se ha hecho referencia en el artículo I, así como las propiedades de los Estados Unidos situadas en ellas y el personal civil y militar de los Estados Unidos y sus familias que vivieren en dichas áreas, estarán exentos de todo impuesto, contribución o exacción de otra naturaleza por parte de la República de Panamá o de las subdivisiones políticas de ésta durante el término del presente Convenio.

#### ARTICULO VIII

Los Estados Unidos terminarán a sus expensas la construcción de las carreteras que a continuación se describen, bajo las condiciones y con el material que aquí se especifica:

A-3. (Comprenderá desde Piña, en el lado Atlántico del Istmo, hasta el límite con la Zona del Canal en Río Providencia. Tendrá por lo menos diez pies de ancho y será construída de macadam.)

La extensión de la carretera transístmica siguiendo la línea del camino P-8. (Las especificaciones serán las mismas que las de la carretera transístmica. La extensión comenzará en Madrinal, pasando sobre la Represa Madden mediante un puente sobre el Río Chagres, más abajo de la represa, hasta conectar con el camino P-8 en Roque y luego se extenderá el camino P-8 desde Pueblo Nuevo hasta la ciudad de Panamá. Queda entendido que el pavimento del puente sobre el Río Chagres quedará situado a una elevación superior a la de la línea límite de la Zona del Canal.)

Al terminarse estas carreteras el Gobierno de los Estados Unidos asumirá la responsabilidad por cualesquiera trabajos que sean necesarios con posterioridad a la construcción de las mismas, es decir, por los trabajos necesarios para proteger la construcción original hasta tanto dichas carreteras queden estabilizadas. El Gobierno de Panamá garantiza que todas las carreteras bajo su jurisdicción usadas periódica o frecuentemente por las fuerzas armadas de los Estados Unidos, serán debidamente mantenidas en todo tiempo. El Gobierno de Panamá podrá pedir la cooperación del Gobierno de los Estados

Unidos en el trabajo de reparación y mantenimiento de dichos caminos, siempre que dicha cooperación sea considerada como necesaria para cumplir la garantía arriba mencionada, tal como, por ejemplo, en el caso de emergencia o de situaciones que requieran una pronta acción.

El Gobierno de los Estados Unidos asumirá la tercera parte del costo total anual del mantenimiento de todos los caminos panameños usados periódica o frecuentemente por las fuerzas armadas de los Estados Unidos, costo que cubrirá los gastos de cualquier uso o deterioro causado a los caminos por el movimiento relativo a las actividades de defensa. Las sumas que pagará el Gobierno de los Estados Unidos se basarán sobre las cuentas presentadas anualmente por la República de Panamá, dando en detalle los gastos anuales totales efectuados en cada camino usado periódica o frecuentemente por las fuerzas armadas de los Estados Unidos, y sobre las cuentas similarmente presentadas por el Gobierno de Estados Unidos, dando similar detalle de los gastos efectuados por ese Gobierno en respuesta a solicitudes del Gobierno de Panamá, como arriba se indica.

En el evento de que el Gobierno de Estados Unidos haya rendido cooperación en el mantenimiento de dichos caminos, los gastos efectuados por ese Gobierno por tal motivo serán acreditados a la parte que le corresponde pagar a Estados Unidos del costo total del mantenimiento de los caminos bajo la jurisdicción de Panamá.

En vista de las obligaciones y responsabilidades de los Estados Unidos aquí mencionadas, el Gobierno de la República de Panamá concede el derecho de tránsito para el movimiento rutinario de los miembros de las fuerzas armadas de los Estados Unidos, del personal civil de dichas fuerzas y sus familias, así como el de animales, vehículos de motor o tirados por animales, empleados por las fuerzas armadas o por los contratistas empleados por éstas para trabajos de construcción o cualesquiera otros cuyas actividades se relacionen, en cualquier forma, con el programa de defensa. Este derecho de tránsito será a través de los caminos construídos por los Estados Unidos en territorio bajo la jurisdicción de la República de Panamá y a través de las demás carreteras nacionales que comunican a la Zona del Canal con las áreas de defensa mencionadas y que comunican entre sí a dichas áreas de defensa. Queda entendido que los Estados Unidos tomaran en todo tiempo las precauciones necesarias para evitar, si fuere posible, interrupciones de tránsito en la República de Panamá.

#### ARTICULO IX

Todos los caminos construídos por los Estados Unidos en territorio bajo la jurisdicción de la República de Panamá estarán bajo la jurisdicción de Panamá. En cuanto a aquellos caminos secundarios construídos por los Estados Unidos con el fin de tener acceso para cualesquiera sitios de defensa, Panamá otorga a las autoridades militares de los Estados Unidos el derecho a restringir o prohibir el tráfico público en dichos caminos dentro de una distancia razonable de dichos sitios de defensa, siempre que tal restricción o prohibición sea

necesaria para la protección militar de dichos sitios de defensa. Queda entendido que tal restricción o prohibición no perjudicará el libre acceso a sus respectivas propiedades a los habitantes establecidos dentro de las áreas restringidas. Queda también entendido que tal restricción o prohibición no se aplicará a ninguna parte de ningún camino principal.

#### ARTICULO X

El Gobierno de los Estados Unidos de América al construir las bases aéreas y aeropuertos en cualesquiera de los sitios de defensa mencionados en el artículo I, tomará en cuenta, además de los requisitos de carácter técnico necesarios para la seguridad de los mismos, los reglamentos que sobre la materia hayan sido o fueren promulgados por la Junta Mixta de Aviación.

La República de Panamá no permitirá, sin llegar a un acuerdo con los Estados Unidos, la erección o mantenimiento de líneas puestas en el aire u otras obstrucciones que puedan constituir un peligro para las personas que vuelen en las inmediaciones de las áreas destinadas a bases aéreas o aeropuertos. Si al construir dichas bases aéreas o aeropuertos fuere necesario remover líneas colgantes de alambre, en vista de que constituyan un obstáculo, el Gobierno de los Estados Unidos pagará los gastos que ocasionare la remoción de éstas y de su instalación en otra parte.

#### ARTICULO XI

El Gobierno de los Estados Unidos se obliga a tomar las medidas necesarias para impedir que los artículos importados para su consumo dentro de las áreas referidas en el artículo I, pasen a cualquier otro territorio de la República de Panamá sin cumplir con las leyes fiscales de Panamá. Siempre que fuera posible, el aprovisionamiento y equipo de las bases de defensa mencionadas en el artículo I así como el del personal de las mismas será hecho con productos, artículos y comestibles provenientes de la República de Panamá, siempre que éstos puedan obtenerse a precios razonables.

#### ARTICULO XII

Los sitios de defensa a que se ha hecho referencia en el artículo I consisten de terrenos pertenecientes al Gobierno de la República de Panamá y de terrenos de propiedad particular.

En cuanto a los terrenos de propiedad particular que el Gobierno de Panamá adquirirá de sus dueños y que serán dados en uso temporal por el Gobierno de Panamá al Gobierno de los Estados Unidos, queda convenido que el Gobierno de los Estados Unidos pagará al Gobierno de Panamá un canon de arrendamiento anual de cincuenta balboas o dólares (B/.50.00) por hectárea, siendo entendido que el Gobierno de Panamá asumirá el costo de las expropiaciones necesarias así como el de las indemnizaciones y gastos por razón de los edificios, cultivos,

instalaciones o mejoras que puedan existir dentro de los sitios de defensa mencionados.

En el caso de tierras pertenecientes al Gobierno de Panamá los Estados Unidos pagarán al Gobierno de Panamá un canon de arrendamiento anual de un balboa o dólar (B/.1.00) por todas dichas tierras.

Se exceptúan expresamente las tierras situadas en el Corregimiento de Río Hato designadas con el número doce (12) en el Memorandum anexo, siendo entendido que por toda esta parcela de terreno el Gobierno de los Estados Unidos pagará al Gobierno de Panamá un canon anual de arrendamiento de diez mil balboas o dólares (B/.10.000.00).

El canon de arrendamiento mencionado en este artículo será pagado en balboas tal como éstos han quedado definidos en el convenio contenido en el canje de notas fechadas el 2 de Marzo de 1936, a las cuales se hace referencia en el Artículo VII del Tratado de esa fecha entre los Estados Unidos de América y Panamá, o en el equivalente de éstos en dólares, y será pagado desde la fecha en que comenzó el uso, aunque provisional, de dichas tierras por los Estados Unidos, con excepción de las tierras situadas en el Corregimiento de Río Hato y designadas con el número doce (12) en el Memorandum anexo, respecto a las cuales el canon de arrendamiento comenzará a pagarse el 1<sup>o</sup> de Enero de 1943.

#### ARTICULO XIII

Este Convenio podrá ser terminado por las partes contratantes por mutuo acuerdo, aun antes de que tenga lugar la expiración del mismo de conformidad con las cláusulas I y V que anteceden, quedando entendido también que, antes de ese plazo, podrán ser desocupadas, por parte de los Estados Unidos, cualesquiera de las áreas a que este Convenio se refiere y cesar el uso de éstas por parte de los Estados Unidos.

#### ARTICULO XIV

Este Convenio entrará en vigor en cuanto sea aprobado por el Poder Ejecutivo Nacional de Panamá y por la Asamblea Nacional de Panamá.

**EXCELLENCY :**

Jurisdiction of U. S. authorities, etc.

Confirming the understanding reached in the conversations which have taken place in Chungking between representatives of our two Governments, I have the honor to inform Your Excellency that it is the desire of the Government of the United States that the service courts and authorities of its military and naval forces shall during the continuance of the present conflict against our common enemies exercise exclusive jurisdiction over criminal offenses which may be committed in China by members of such forces.

Chinese jurisdiction in certain cases.

If cases arise in which for special reasons the service authorities of the Government of the United States may prefer not to exercise the above jurisdiction, it is proposed that in any such case a written statement to that effect shall be sent to the Chinese Government through diplomatic channels, in which event it would be open to the Chinese authorities to assume jurisdiction.

Assurance of U. S. willingness to try and on conviction to punish.

Assurance is given that the service courts and authorities of the United States forces in China will be willing and able to try, and on conviction to punish, all criminal offenses which members of the United States forces may be alleged on sufficient evidence to have committed in China and that the United States authorities will be willing in principle to investigate and deal appropriately with any alleged criminal offenses committed by such forces in China which may be brought to their attention by the competent Chinese authorities or which the United States authorities may find have taken place.

Trial in open court, etc.

Insofar as may be compatible with military security, the service authorities of the United States will conduct the trial of any member of the United States forces for an offense against a member of the civilian population promptly in open court in China and within a reasonable distance from the place where the offense is alleged to have been committed so that witnesses may not be required to travel great distances to attend the trial.

The competent United States authorities will be prepared to cooperate with the authorities of China in setting up a satisfactory procedure for affording such mutual assistance as may be required in making investigations and collecting evidence with respect to offenses alleged to have been committed by members of the armed forces of the United States. As a general rule it would probably be desirable that preliminary action should be taken by the Chinese authorities on behalf of the United States authorities where the witnesses or other persons from whom it is desired to obtain testimony are not members of the United States forces. In prosecutions in Chinese courts of persons who are not members of the United States forces, but where members of such forces are in any way concerned, the service authorities of the United States will be glad to render such assistance as is possible in obtaining testimony of members of such forces or in making appropriate investigations.

Mutual assistance  
in preliminary action.

Inasmuch as the interests of our common cause will best be served by provision that the foregoing arrangement may be placed on a reciprocal basis, the Government of the United States will be ready to make like arrangements to ensure to such Chinese forces as may be stationed in territory under United States jurisdiction a position corresponding to that of the United States forces in China.

Reciprocal basis.

It is proposed that the foregoing arrangement shall be in effect during the present war and for a period of six months thereafter.

Period of operation.

If the above arrangement is acceptable to the Chinese Government, this note and the reply thereto accepting the provisions outlined shall be regarded as placing on record the understanding between our two Governments.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest consideration.

MONSIEUR LE CHARGÉ D'AFFAIRES:

I have the honor to acknowledge receipt of your Note of to-day's date reading as follows:

"Confirming the understanding reached in the conversations which have taken place in Chungking between representatives of our two Governments, I have the honor to inform Your Excellency that it is the desire of the Government of the United States that the service courts and authorities of its military and naval forces shall during the continuance of the present conflict against our common enemies exercise exclusive jurisdiction over criminal offenses which may be committed in China by members of such forces.

"If cases arise in which for special reasons the service authorities of the Government of the United States may prefer not to exercise the above jurisdiction, it is proposed that in any such case a written statement to that effect shall be sent to the Chinese Government through diplomatic channels, in which event it would be open to the Chinese authorities to assume jurisdiction.

"Assurance is given that the service courts and authorities of the United States forces in China will be willing and able to try, and on conviction to punish, all criminal offenses which members of the United States forces may be alleged on sufficient evidence to have committed in China and that the United States authorities will be willing in principle to investigate and deal appropriately with any alleged criminal offenses committed by such forces in China which may be brought to their attention by the competent Chinese authorities or which the United States authorities may find have taken place.

"Insofar as may be compatible with military security, the service authorities of the United States will conduct the trial of any member of the United States forces for an offense against a member of the civilian population promptly in open court in China and within a reasonable distance from the place where the offense is alleged to have been committed so that witnesses may not be required to travel great distances to attend the trial.

*Agreement between the United States of America and Canada respecting access to Alaska Highway. Effected by exchange of notes signed at Ottawa April 10, 1943.*

LEGATION OF THE  
UNITED STATES OF AMERICA

*Ottawa, Canada, April 10, 1943.*

MY DEAR MR. ROBERTSON:

The question has been raised in Washington as to whether the two phrases found in the American-Canadian exchange of notes of March 17-18, 1942, regarding the post-war use of the Alaska Highway, apply equally to the use of the existing Canadian highways which would have to be used in order to reach the southern terminus of the Alaska Highway from the United States.

56 Stat. 1458.

You will recall that the notes provide that at the conclusion of the war "that part of the highway which lies in Canada shall become in all respects an integral part of the Canadian highway system, subject to the understanding that there shall at no time be imposed any discriminatory conditions in relation to the use of the road as between Canadian and United States civilian traffic."

Elsewhere the Canadian Government agreed "to waive import duties, transit or similar charges on shipments originating in the United States and to be transported over the highway to Alaska, or originating in Alaska and to be transported over the highway to the United States."

Although it was originally intended that most of the traffic over the Alaska Highway would be routed to Dawson Creek, British Columbia, by rail, it has, as you know, been found expedient to send certain vehicles and transport certain supplies by highway from the United States to Dawson Creek en route to Alaska. My Government feels that it is a natural inference from the language quoted above that United States vehicles should be allowed to use the roads leading from the boundary to the Alaska Highway under conditions similar to those governing the use of the Highway itself.

Sincerely yours,

DEPARTMENT OF  
EXTERNAL AFFAIRS  
CANADA

OTTAWA - April 10, 1943.

MY DEAR MR. CLARK,

I have received your letter of April 10th, on the question as to whether the two phrases found in the American-Canadian exchange of notes of March 17-18, 1942, regarding the post-war use of the Alaska Highway, apply equally to the use of the existing Canadian highways which would have to be used in order to reach the southern terminus of the Alaska Highway from the United States.

56 Stat. 1458.

The notes provide that at the conclusion of the war "that part of the highway which lies in Canada shall become in all respects an integral part of the Canadian highway system, subject to the understanding that there shall at no time be imposed any discriminatory conditions in relation to the use of the road as between Canadian and United States civilian traffic."

Elsewhere in the exchange of notes the Canadian Government agrees "to waive import duties, transit or similar charges on shipments originating in the United States and to be transported over the highway to Alaska, or originating in Alaska and to be transported over the highway to the United States".

You have stated in your letter that although it was originally intended that most of the traffic over the Alaska Highway would be routed to Dawson Creek, British Columbia, by railway, it has been found expedient to send certain vehicles and transport certain supplies by highway from the United States to Dawson Creek en route to Alaska. My Government agrees that it is the natural inference from the language quoted above that United States vehicles should be allowed to use the roads leading from the boundary to the Alaska Highway under conditions and for purposes similar to those governing the use of the highway itself. (It may prove necessary, however, for administrative reasons, to designate certain specific roads to be used in this way. It would not be practicable, for example, that United States trucks should be able to enter Canada at any point and still receive bonding privileges on the assumption that they intend eventually to proceed along the Alaska Highway to United States territory).

Yours sincerely,

(1) Memorandum of Agreement between the Secretaría de Agricultura y Fomento of the United Mexican States and the Department of Agriculture of the United States of America, which was signed on April 11, 1941, in the English and Spanish languages, by the Secretario de Agricultura y Fomento of the United Mexican States and the Assistant Secretary of Agriculture of the United States of America;

(2) Supplementary Memorandum which was signed on July 14, 1942, in the English and Spanish languages, by the Secretary of Agriculture of the United States of America and the Secretario de Agricultura y Fomento of the United Mexican States; and

"1. That this agreement shall take effect immediately upon completion of the signature of the cooperating parties and shall expire on the thirtieth day of June, nineteen hundred and forty-one, but will renew itself automatically from year to year thereafter (not extending, however, beyond the thirtieth day of June, nineteen hundred and forty-three) provided there be no notifica-

tion to the contrary from either party, which notification should be expressed in writing by a duly authorized representative, at least one month before the date upon which this agreement would otherwise expire.”

It is the understanding of the Government of the United States of America that the Agreement above-mentioned has continued in force up to this time.

I have the honor to inform Your Excellency that it is the desire of the Department of Agriculture of the United States of America that the Agreement of April 11, 1941, and the above-mentioned supplementary Agreements relating thereto, should continue in force after June 30, 1943, and should remain in force thereafter until six months from the day on which either Government shall have given notice in writing to the other Government of its intention to terminate the Agreement.

MEMORANDUM OF AGREEMENT BETWEEN THE SECRETARIA DE  
AGRICULTURA Y FOMENTO OF THE UNITED MEXICAN STATES  
AND THE DEPARTMENT OF AGRICULTURE OF THE UNITED STATES  
OF AMERICA

Development of  
source of crude rub-  
ber.

The interest and desire of the Governments of the United Mexican States and of the United States of America in development of a source of crude rubber has already been expressed in previous correspondence and in active cooperative survey work. It is recognized by both Governments as a result of their studies and surveys that the development of a source of crude rubber must be based on the use of superior strains of *Hevea brasiliensis* if the industry is to be self-sustaining.

Use of *Hevea brasiliensis*.

Selection of areas for  
nurseries, distribution  
centers, etc.

The representatives of the Secretaría de Agricultura y Fomento of the United Mexican States and those of the Department of Agriculture of the United States of America have consulted and tentatively selected two or three areas suitable for nurseries which can also serve as demonstration plots and centers for distribution of *Hevea brasiliensis*.

In order to make available the desirable strains of *Hevea brasiliensis* and to study and encourage the best methods of cultural practices, the following Memorandum is hereby agreed upon:

Text of memoran-  
dum.

THE SECRETARIA DE AGRICULTURA Y FOMENTO OF THE UNITED  
MEXICAN STATES AGREES:

Maintenance of  
nurseries and experi-  
mental plots.

1. To maintain nurseries and experimental plots at its own expense, furnishing for this purpose fifty hectares of land for nurseries and one hundred hectares of land already planted with *Hevea brasiliensis* for experimental purposes in the region known as "El Palmar" in the State of Veracruz and in other places which may be selected in the future. To assign one or more agronomists or other trained representatives who will be responsible for the care and cultivation of said nurseries and experimental plots. With these representatives will cooperate the representatives of the Department of Agriculture of the United States of America in directing and educating the planters in all matters pertaining to the propagation, cultivation and preparation of *Hevea* rubber.

Quarantine and  
other regulations.

2. To formulate quarantine and other regulations designed to prevent the introduction into Mexico of rubber propagating materials, including seeds, trees and budwood from other countries, excepting such shipments as are duly certified to be free from noxious insects and contagious diseases.

Imports and ex-  
ports of planting ma-  
terial, etc.

3. To permit, upon request of the United States Department of Agriculture, the importation into or exportation from Mexico of all planting material (seeds, stumps, budwood) or rubber-producing

plants which said Department may require for investigations herein contemplated or may desire to ship elsewhere, provided, however, that all such shipments, imports or exports shall be authorized by a duly qualified official of said Department.

4. To facilitate the entry into Mexico, free of all duties or other fees, of all property and materials needed in the proposed cooperative work. A like exemption from duties and fees shall be requested for the personal effects of all employees of the United States Department of Agriculture who are engaged in this cooperative work.

Exemption from duties, etc.

5. To prohibit redistribution of any selected strains of rubber trees furnished by the Department of Agriculture of the United States of America to the Secretaria de Agricultura y Fomento of the United Mexican States, to individuals, companies or other governments, except to those individuals, companies or governments who are willing to reciprocate by furnishing such similar material as they may have in their possession; this restriction shall be passed on to any other individual, company or government receiving material to prevent contravening the purpose of this restriction.

Redistribution of selected strains of rubber trees, restriction.

This restriction does not apply to extension work that is to be undertaken by the Government of Mexico to develop rubber plantations within the territory of the United Mexican States. Farmers receiving selected strains should, however, recognize the obligation of refraining from their transfer to other parties and of introducing in the plantations which they establish any other kind of rubber trees which have not previously been approved by the Secretaría de Agricultura y Fomento of the United Mexican States.

THE DEPARTMENT OF AGRICULTURE OF THE UNITED STATES OF AMERICA AGREES:

1. To furnish to the Secretaría de Agricultura y Fomento of the United Mexican States free of charge at its propagating stations or experimental fields, stocks of superior strains of the rubber tree now in its possession, as well as any additional strains collected on surveys or bred at its experiment stations, which, after test by it, are found to be superior. Such distribution will be made at as early a date and in such quantity as may be possible in accordance with the facilities available for propagation and the equitable demands or requirements of other individuals, companies or governments cooperating in this work.

Distribution of superior strains of rubber tree.

2. To supply to the Secretaría de Agricultura y Fomento of the United Mexican States such investigators and rubber specialists as may be necessary to advise and aid in the establishment of nurseries and the general development of the experimental work, including the direction and education of the planters in proper methods of propagation, planting, cultivation, thinning, tapping, preparation of rubber for market and other operations essential to the proper maintenance and productivity of their plantations. It will also conduct, in cooperation with the Secretaría de Agricultura y Fomento of the United Mexican States, field investigations on specific problems of rubber culture when necessary.

Investigators and rubber specialists.

Results of investigations.

3. To make available for the benefit of the rubber industry in Mexico the results obtained in rubber investigations conducted by its Bureau of Plant Industry.

THE SECRETARIA DE AGRICULTURA Y FOMENTO OF THE UNITED MEXICAN STATES AND THE DEPARTMENT OF AGRICULTURE OF THE UNITED STATES OF AMERICA MUTUALLY AGREE:

Effective date; expiration; renewal.

1. That this agreement shall take effect immediately upon completion of the signature of the cooperating parties and shall expire on the thirtieth day of June, nineteen hundred and forty-one, but will renew itself automatically from year to year thereafter (not extending, however, beyond the thirtieth day of June, nineteen hundred and forty-three) provided there be no notification to the contrary from either party, which notification should be expressed in writing by a duly authorized representative, at least one month before the date upon which this agreement would otherwise expire.

Agreement not assignable.

2. That this agreement shall not be assigned in whole or in part; that no member or delegate to Congress of the United States of America, or resident commissioner thereof, after his election or appointment, and either before or after he has qualified, and no officer, agent or employee of the Government of the United States of America shall be admitted to any share or part of this agreement, or to any benefits to arise therefrom. The restriction contained in this paragraph shall also apply to the public representatives, officials, and employees of the Government of the United Mexican States.

MEMORANDUM DE CONVENIO ENTRE LA SECRETARÍA DE AGRICULTURA Y FOMENTO DE LOS ESTADOS UNIDOS MEXICANOS Y EL DEPARTAMENTO DE AGRICULTURA DE LOS ESTADOS UNIDOS DE AMÉRICA

El deseo e interés de los Gobiernos de los Estados Unidos Mexicanos y de los Estados Unidos de América para desarrollar una fuente de obtención de hule crudo, se ha expresado ya en la correspondencia cruzada con anterioridad y en el activo trabajo de inspección que en forma conjunta se ha realizado. Reconocen ambos Gobiernos como resultado de sus estudios e inspecciones, que el desarrollo de dicha fuente de obtención de hule crudo debe basarse en el uso de selecciones de calidad superior del *Hevea brasiliensis*, si se desea que la industria sea capaz de sostenerse a sí misma.

Los representantes de la Secretaría de Agricultura y Fomento de México y los del Departamento de Agricultura de los Estados Unidos de América han realizado consultas y han seleccionado en forma

preliminar dos o tres regiones adecuadas para el establecimiento de viveros que también puedan servir como lotes de demostración y centros para la distribución de plantas de *Hevea brasiliensis*.

Con objeto de que puedan obtenerse las selecciones de *Hevea brasiliensis* que se desean y para estudiar y estimular los mejores métodos y prácticas de cultivo, se conviene en los puntos del Memorándum que siguen:

LA SECRETARÍA DE AGRICULTURA Y FOMENTO DE LOS ESTADOS UNIDOS MEXICANOS CONVIENE:

1. En mantener viveros y lotes experimentales por cuenta de la Secretaría de Agricultura y Fomento, proporcionando, desde luego, para este objeto, cincuenta hectáreas de terreno para campos de propagación y cien hectáreas de terreno ya plantado con árboles de *Hevea brasiliensis* para explotación experimental, en la región denominada "El Palmar" del Estado de Veracruz, y en otros que en lo futuro se elijan. Conviene además en designar uno o más agrónomos u otros representantes entrenados, como encargados responsables del cuidado y cultivo de los viveros y lotes experimentales. Con dichos representantes cooperarán los representantes del Departamento de Agricultura de los Estados Unidos de América en dirigir y educar a los plantadores en todos los asuntos relativos a la propagación, cultivo y preparación del hule de *Hevea brasiliensis*.

2. En formular cuarentenas y otras disposiciones con objeto de evitar la introducción a México de material de vivero de hule, incluyendo semillas, árboles y porta-yemas para injertar, de otros países, excepto cuando tales envíos estén debidamente amparados por certificados que los reconozcan exentos de insectos nocivos o de enfermedades contagiosas.

3. En permitir, a petición del Departamento de Agricultura de los Estados Unidos de América, la importación o exportación de México de toda clase de material de vivero, (semillas, estacas, porta-yemas, etcétera), de plantas productoras de hule que dicho Departamento necesite para las investigaciones de que aquí se trata o que desee enviar a cualquier lugar, con la condición, sin embargo, de que todos esos envíos, importaciones o exportaciones deberán ser visados por un empleado debidamente autorizado de dicho Departamento.

4. En facilitar la entrada a México, libre de todo derecho u otros gravámenes, de todos los objetos y materiales necesarios para el trabajo de cooperación propuesto. Se gestionará igual exención de derechos y gravámenes para los objetos de uso personal de los empleados del Departamento de Agricultura de los Estados Unidos de América que intervengan o participen en este trabajo de cooperación.

5. En prohibir la redistribución a personas, compañías u otros gobiernos, de cualesquiera selecciones de árboles de hule que el Departamento de Agricultura de los Estados Unidos de América haya proporcionado a la Secretaría de Agricultura y Fomento de los Estados Unidos Mexicanos, excepto a aquellas personas, compañías o gobiernos que, en reciprocidad, deseen proporcionar material similar que posean;

esta restricción deberá comunicarse a cualquier persona, compañía o gobierno que reciba material, para prevenir la contravención del propósito de la misma restricción.

Esta restricción no se refiere al trabajo de extensión que debe ser desarrollado por el Gobierno Mexicano, para fomentar plantaciones de hule en el propio Territorio de los Estados Unidos Mexicanos, debiendo quedar apercebidos los agricultores que reciban selecciones de árboles, sin embargo, de la obligación que contraen de abstenerse de suministrarlos a otras personas y de introducir en las plantaciones que hagan, cualquier otra clase de plantas de hule, que no hayan sido aprobadas previamente por la Secretaría de Agricultura y Fomento, de los Estados Unidos Mexicanos.

EL DEPARTAMENTO DE AGRICULTURA DE LOS ESTADOS UNIDOS DE AMÉRICA CONVIENE:

1. En proporcionar a la Secretaría de Agricultura y Fomento de los Estados Unidos Mexicanos, sin costo alguno, en sus estaciones de propagación o campos experimentales, lotes de selecciones de los árboles de hule de superior calidad que ahora posee, así como cualesquiera selecciones recolectadas en sus viajes de inspección o criadas en sus estaciones experimentales, que después de probadas resulten ser superiores. Dicha distribución será en la cantidad y con la oportunidad máximas que sean posibles, de acuerdo con las facilidades que se tengan para la propagación y en vista de las equitativas demandas o pedidos de las personas, compañías o gobiernos que estén cooperando en este trabajo.

2. En proporcionar a la Secretaría de Agricultura y Fomento de los Estados Unidos Mexicanos los investigadores y especialistas en hule que puedan necesitarse para aconsejar y ayudar en el establecimiento de los viveros y en el desarrollo general del trabajo de experimentación, incluyendo la dirección y educación de los plantadores en lo que se refiere a métodos adecuados de propagación, plantación, cultivo, aclareo, picado, preparación del hule para el mercado y otras actividades esenciales para el mantenimiento y productividad de sus plantaciones. Realizará también, en cooperación con la Secretaría de Agricultura y Fomento de los Estados Unidos Mexicanos, cuando sea necesario, investigaciones de campo sobre problemas específicos del cultivo del hule.

3. En hacer aprovechables para el beneficio de la industria del hule en México los resultados obtenidos en las investigaciones sobre este cultivo realizadas por su Bureau of Plant Industry.

LA SECRETARÍA DE AGRICULTURA Y FOMENTO DE LOS ESTADOS UNIDOS MEXICANOS Y EL DEPARTAMENTO DE AGRICULTURA DE LOS ESTADOS UNIDOS DE AMÉRICA MUTUAMENTE CONVIENEN:

1. Que este convenio entrará en vigor apenas se completen las firmas de las partes en cooperación y que expirará el día treinta de junio de mil novecientos cuarenta y uno, pero se renovará automáticamente de año en año a partir de dicha fecha, (sin extenderse, sin embargo, más allá del día treinta de junio de mil novecientos cuarenta y

tres), bastando para ésto que no haya aviso en contrario de alguna de las partes, aviso que deberá ser dado por escrito por un representante debidamente autorizado, por lo menos un mes antes de la fecha de expiración del presente convenio.

2. Que este convenio no será traspasado ni en todo ni en parte; que ningún miembro o delegado al Congreso de los Estados Unidos de América o comisionado residente de ellos, después de su elección o nombramiento, y antes o después de haber prestado juramento; y ningún oficial, agente ni empleado del Gobierno de los Estados Unidos de América participará en cualquier porción o parte de este convenio o en cualquier beneficio que provenga de él. SUPPLEMENTARY MEMORANDUM TO THE AGREEMENT BETWEEN THE  
SECRETARIA DE AGRICULTURA Y FOMENTO OF THE UNITED

THE UNITED STATES OF AMERICA.

Central experiment station, El Palmar, Veracruz.

Establishment of demonstration plantations.

Acquisition and development of tracts of land.

Additional assistance and plant materials.

Appropriations.

1. Under the terms of the existing Memorandum of Agreement between the Secretaría de Agricultura y Fomento, Mexico, and the Department of Agriculture, United States of America, dated April 11, 1941, more than a million locally produced and imported seeds of *Hevea brasiliensis* and several thousand imported trees budded to high-yielding clones of *Hevea* have been planted in nurseries of the central rubber experiment station, El Palmar, Veracruz, established in 1941 for rubber plant research and practical development of a *Hevea* rubber plantation industry in Mexico. It is estimated that during the next twelve months about a quarter of a million trees budded to the improved clones of *Hevea* will be available at El Palmar. The project has been notably successful to the present date and with a rapidly expanding volume of valuable plant material it is necessary to make definite plans for the best use of the plant material and of the experience that has been gained, in order to further insure achievement of a self-sustaining commercial rubber industry.

2. The time has now arrived for taking the second essential step toward development of the industry, namely the establishing of government demonstration plantations to serve as proving grounds for the trees and plantation procedure and as augmented sources of improved budded trees for small farms and other commercial operations.

3. Accordingly, as soon as practicable the Mexican government will acquire five tracts of suitable land on which the best growth of *Hevea* may be expected, each tract containing not less than 300 hectares, for the purpose of developing demonstration plantations. The lands will be selected by a joint committee representing the Dirección General de Agricultura, Secretaría de Agricultura of Mexico and the Bureau of Plant Industry, United States Department of Agriculture. In order to prepare in advance for the reception and planting of the budded nursery trees mentioned in paragraph 1, the Mexican Government will proceed to develop the five tracts of land at the appropriate time, dictated by the stage of growth of the nursery trees, and will bear the cost of such development.

4. The United States Department of Agriculture will provide the additional technical and supervisory assistance necessary in proportion to the augmented scope of work now proposed, and will continue to supply budwood, budded stumps and other plant materials as improved strains of *Hevea* and other plants are developed by breeding and selection at the several cooperative stations in tropical America.

5. The development of this program is contingent upon appropriation of money for the purpose by the Congresses of the United

Mexican States and the United States of America for the fulfillment of the respective obligations of the signatories.

MEMORANDUM SUPLEMENTARIO SOBRE EL CONVENIO ENTRE LA  
SECRETARIA DE AGRICULTURA Y FOMENTO DE LOS ESTADOS  
UNIDOS MEXICANOS Y EL DEPARTAMENTO DE AGRICULTURA DE  
LOS ESTADOS UNIDOS DE NORTE AMERICA

1. De acuerdo con los términos del Memorandum de Convenio entre la Secretaría de Agricultura y Fomento de México y el Departamento de Agricultura de los Estados Unidos de Norte America, firmado el 11 de abril de 1941, se han sembrado mas de un millon de semillas importadas y de producción local de *Hevea brasiliensis* así como varios miles de árboles importados injertados con clones de *Hevea brasiliensis* de alto rendimiento en los viveros de la estación central de experimentación de hule, en El Palmar, en el Estado de Veracruz, el cual fué establecido en 1941 con el fin de practicar investigaciones y conseguir el desarrollo de una industria para la producción de hule de *Hevea brasiliensis* en México. Se estima que durante los próximos doce meses estarán disponibles en El Palmar cerca de un cuarto de millon de árboles injertados con clones seleccionados de *Hevea brasiliensis*. La plantación ha tenido un éxito notable hasta la fecha y su volúmen de existencias de plantas de alto valor aumenta rapidamente haciendose necesario formular planes definidos para el mejor uso de dichas existencias así como para aprovechar la experiencia que se ha logrado con objeto de asegurar, aún más, el desarrollo de una industria comercial hulera capaz de sostenerse a sí misma.

2. Ha llegado el momento de iniciar el segundo paso esencial hácia el desarrollo de la industria; a saber, el establecimiento por el Gobierno de México, de plantaciones demostrativas que sirvan como prueba para los árboles y para los procedimientos de plantación asi como de medio para la obtención de árboles injertados seleccionados destinados a cubrir las necesidades de los pequeños propietarios y a otras operaciones comerciales.

3. Por consiguiente, tan luego como sea factible, el Gobierno Mexicano adquirirá cinco lotes de terreno idóneo en regiones en las cuales se pueda desarrollar mejor el *Hevea brasiliensis*. Cada lote debe tener una superficie no menor de 300 hectares. Esta adquisición será con el propósito de desarrollar plantaciones demostrativas. Los lotes serán escogidos por un comité mixto compuesto de representantes de la Dirección General de Agricultura de la Secretaría de Agricultura y Fomento de México y el Bureau of Plant Industry, United States

Department of Agriculture. Con el objeto de preparar anticipadamente el recibo y la plantación de los arbolitos injertados mencionados en el párrafo 1, el Gobierno Mexicano procederá, en el momento apropiado, a poner en condiciones los cinco lotes de terreno y pagará el costo que las labores de preparación y cultivo posterior demanden.

4. El Departamento de Agricultura de los Estados Unidos suministrará el auxilio técnico y de inspección adicional que sea necesario en proporción al aumento en los trabajos y continuará suministrando yemas, estacas injertadas, y otras existencias de plantas según se vayan desarrollando nuevos clones seleccionados de *Hevea brasiliensis* por medio del cruzamiento y selección en las varias estaciones cooperativas de la América tropical.

5. El desarrollo de este programa queda sujeto, por lo que se refiere a las inversiones que demanda, a la aprobación de los Congresos de los Estados Unidos Mexicanos y de los Estados Unidos de Norte América.

SUPPLEMENTAL MEMORANDUM TO THE AGREEMENT BETWEEN THE SECRETARIA DE AGRICULTURA Y FOMENTO OF THE UNITED MEXICAN STATES AND THE DEPARTMENT OF AGRICULTURE OF THE UNITED STATES OF AMERICA

Under the terms of the existing agreement between the Secretaría de Agricultura y Fomento, Mexico and the Department of Agriculture, United States of America, dated April 11, 1941, and in accordance with agreements supplemental thereto, the Governments of the United Mexican States and of the United States of America have established a program of rubber plant research and government demonstration plantations for the development of a Hevea rubber plantation industry in Mexico, and have initiated also a cooperative experimental program on *Cryptostegia*.

*Ante*, p. 1282.

During 1942 the United States Department of Agriculture has greatly expanded its program of investigations of guayule and has undertaken an extensive program of guayule production. In cooperation with the Secretaría de Agricultura y Fomento of the United Mexican States a few indicator plantings have been established in Mexico. As a consequence of work conducted during the past year the United States Department of Agriculture now has a sufficient supply of guayule seed of high rubber-yielding strains to permit a limited expansion of its guayule program.

Production of guayule.

To implement the desire of the Governments of the United Mexican States and the United States of America to develop a source of crude rubber, it is the mutual wish of the Secretaría de Agricultura y Fomento of the United Mexican States and of the United States Department of Agriculture to cooperate in undertaking the investigations necessary to determine the suitability of areas in Mexico for the cultivation of guayule, and through assistance to private cooperators in establishing plantings of guayule for the production of rubber.

Accordingly, in recognition of the common interest of the Governments of Mexico and of the United States in the cultivation of guayule for rubber production, the following Supplementary Memorandum is hereby agreed upon:

A. THE DEPARTMENT OF AGRICULTURE OF THE UNITED STATES AGREES:

Text of memorandum.

1. To provide at its expense guayule seed or seedlings of improved strains of high rubber-bearing capacity for the investigations contemplated under this agreement.

Seed or seedlings.

2. To conduct extensive surveys for the purpose of broadly delineating the location and extent of areas within which it is believed guayule may successfully be cultivated.

Surveys.

3. To develop and maintain at its expense, on sites selected in cooperation with the Secretaría de Agricultura y Fomento of the United Mexican States, experimental plantings believed to be representative of areas where guayule may successfully be cultivated.

Experimental plantings.

4. To conduct, except as otherwise provided in this Memorandum, at its expense the research necessary to achieve the purposes for which each experimental planting is established.

Research.

Private cooperators.

5. To provide to private cooperators designated by the Secretaría de Agricultura y Fomento of the United Mexican States guayule seed or seedlings of improved strains at reasonable cost and to aid such cooperators through such technical advice and assistance as is feasible in the selection of tracts of land for guayule nurseries and field plantings and in the establishment, protection, and care of nurseries and field plantings.

**B. THE SECRETARIA DE AGRICULTURA Y FOMENTO OF THE UNITED MEXICAN STATES AGREES:**

Lands.

1. To provide at its expense the lands necessary for experimental guayule plantings

Water for irrigation.

2. To assist where possible in providing water for the irrigation of experimental plantings.

Use of government buildings.

3. To provide at its expense at Torreon and other localities, when available, the use of government buildings for headquarters offices and the storage of supplies and equipment necessary to the investigations and surveys contemplated by this agreement.

Determination of suitable tracts, etc.

4. To facilitate the efforts of the representatives of the United States Department of Agriculture in providing assistance to cooperators in the determination of tracts of land suitable for guayule cultivation and in the establishment, protection and care for nurseries and field plantings.

Assignment of scientists.

5. To assign at its option scientists to work with the scientists of the United States Department of Agriculture for the purpose of conducting cooperative investigations and to aid and facilitate contacts with local and state officials and with private cooperators.

Duty-free entry of supplies.

6. To use its good offices in securing duty-free entry of implements, materials and supplies needed for the conduct of official work under this agreement.

**C. IT IS MUTUALLY AGREED BY THE SECRETARIA DE AGRICULTURA Y FOMENTO OF THE UNITED MEXICAN STATES AND THE DEPARTMENT OF AGRICULTURE OF THE UNITED STATES THAT:**

Contracts with private cooperators.

1. As the successful cultivation of guayule is a highly specialized undertaking, contracts for the establishment of nurseries or plantings of seedlings will not be made with private cooperators by the Department of Agriculture of the United States of America except on the basis of a determination satisfactory to the parties to this Memorandum that a cooperator is qualified and willing to conduct such work in accordance with successfully established methods.

Sale of guayule rubber to Rubber Reserve Co.

2. Guayule rubber produced as a direct result of work carried out under this memorandum and not required for investigative purposes by the parties hereto will be sold to the Rubber Reserve Company, an agency of the United States Government, in accordance with the Agreement of September 4, 1942 ['] between the Government of the Republic of Mexico and the Rubber Reserve Company.

<sup>1</sup> [Not printed.]

3. Seed of new strains of guayule developed as a result of research work under this agreement will be divided equally between the parties hereto. By mutual agreement either party hereto may harvest such seed from plantings of strains of guayule furnished in accordance with paragraph A1 of this agreement as may be needed for further extension of plantings in the respective countries.

Seed of new strains of guayule.

4. Information obtained from the investigations contemplated by this Memorandum will be freely exchanged between the parties hereto.

Exchange of information.

5. Publication of the results of the investigations and surveys contemplated by this Memorandum may be made by either party providing the cooperative nature of the work is recognized and a copy of the manuscript is furnished the cooperator for review previous to publication.

Publication of results of investigations, etc.

6. Upon the termination of this agreement, immature crops of guayule or other plants growing on the experimental plantings will become the property of the Government of Mexico.

Immature crops.

7. Marketable crops of guayule or other plants that may be grown and harvested on any of the experimental planting areas during the life of or upon the termination of this agreement will be disposed of by the parties hereto through dividing and sharing the crop equally. Each party will sell or dispose of its share of the crop and make disposition of funds received by sale in accordance with the laws and regulations applicable to each country.

Disposition of marketable crops.

8. Upon termination of this agreement, the Department of Agriculture of the United States of America shall be permitted to remove, sell, or otherwise dispose of the improvements belonging to the United States, including all buildings and facilities.

Disposition of U. S. improvements.

9. The development of the work contemplated in this Memorandum is contingent upon appropriation of money for the purpose by the Congress of the United Mexican States and the United States of America for the fulfillment of the respective obligations of the signatories.

MEMORANDUM SUPLEMENTARIO AL CONVENIO CELEBRADO ENTRE LA SECRETARIA DE AGRICULTURA Y FOMENTO DE LOS ESTADOS UNIDOS MEXICANOS Y EL DEPARTAMENTO DE AGRICULTURA DE LOS ESTADOS UNIDOS DE NORTE-AMERICA.

Dentro de los puntos del convenio existente entre la Secretaría de Agricultura y Fomento de México, y el Departamento de Agricultura de los Estados Unidos de Norte-América, fechado el 11 de abril de 1941, y de acuerdo con pactos suplementarios al mismo, el Gobierno de los Estados Unidos Mexicanos y el de los Estados Unidos de Norte-América han establecido un programa de investigaciones de plantas de hule y plantaciones oficiales de demostración para el desarrollo de una industria de plantación de hule de Hevea en México, y han iniciado también un programa cooperativo experimental sobre *Criptostegia*.

Durante 1942 el Departamento de Agricultura de los Estados Unidos de Norte-América ha extendido intensamente su programa de investigaciones del guayule y ha emprendido un extenso programa para la producción de guayule. En cooperación con la Secretaría de Agricultura y Fomento de los Estados Unidos Mexicanos, unas cuantas plantaciones indicadoras se han establecido en México. Como consecuencia del trabajo llevado a cabo durante el año pasado, el Departamento de Agricultura de los Estados Unidos de Norte-América tiene ahora una existencia suficiente de variedades de semilla de guayule de alto rendimiento para permitir una expansión limitada a su programa de guayule.

Para cumplir el deseo de los Gobiernos de los Estados Unidos Mexicanos y de los Estados Unidos de Norte-América, de desarrollar una fuente de hule crudo, es mutuo deseo de la Secretaría de Agricultura y Fomento de los Estados Unidos Mexicanos y del Departamento de Agricultura de los Estados Unidos de Norte-América el de cooperar en emprender las investigaciones necesarias para determinar la adaptabilidad de áreas en México para el cultivo de guayule, y en ayudar a cooperadores privados en el establecimiento de plantaciones de guayule para la producción de hule.

Por lo tanto, en reconocimiento de los intereses comunes de los Gobiernos de México y de los Estados Unidos en el cultivo del guayule para la producción de hule, ha quedado acordado el siguiente Memorandum Suplementario:

A. EL DEPARTAMENTO DE AGRICULTURA DE LOS ESTADOS UNIDOS DE NORTE-AMERICA CONVIENE EN:

1.—Suministrar a sus expensas semilla de guayule o plantas provenientes de semilla de variedades mejoradas de alta capacidad productora de hule, para las investigaciones propuestas en este convenio.

2.—Llevar a cabo extensos reconocimientos con el propósito de deslindar aproximadamente la localización y extensión de áreas en las cuales se cree que el guayule pueda ser cultivado con buen éxito.

3.—Desarrollar y mantener por su cuenta, en sitios seleccionados en cooperación con la Secretaría de Agricultura y Fomento de los

Estados Unidos Mexicanos, las plantaciones experimentales que se consideren como representativas de áreas en donde el guayule pueda ser cultivado con buen éxito.

4.—Llevar a cabo, excepto caso contrario previsto en este Memorandum, a sus expensas, las investigaciones necesarias para lograr los propósitos para los cuales cada plantación experimental haya sido establecida.

5.—Proveer a los cooperadores privados designados por la Secretaría de Agricultura y Fomento de los Estados Unidos Mexicanos, de semilla de guayule o plantas provenientes de semilla de variedades mejoradas, a un precio razonable, y ayudar a dichos cooperadores con los consejos técnicos y la ayuda que sea posible darles para la selección de lotes de tierra destinados a viveros de guayule y a campos para las plantaciones, así como en el establecimiento, protección y cuidado de los viveros y de las plantaciones.

**B. LA SECRETARIA DE AGRICULTURA Y FOMENTO DE LOS ESTADOS UNIDOS MEXICANOS CONVIENE EN:**

1.—Suministrar a sus expensas las tierras necesarias para las plantaciones experimentales de guayule.

2.—Ayudar, donde sea posible, suministrando agua para la irrigación de las plantaciones experimentales.

3.—Proveer a sus expensas, en Torreón o en otras localidades, cuando sea posible, el uso de edificios del Gobierno para Oficinas centrales y para el almacenaje de los implementos y del equipo necesarios para las investigaciones y experimentos propuestos por este convenio.

4.—Cooperar con los representantes del Departamento de Agricultura de los Estados Unidos de Norte-América ayudando a los cooperadores en la determinación de los lotes de tierra adecuados para el cultivo del guayule y en la protección y cuidado de los viveros y plantaciones.

5.—Designar, según su criterio, técnicos para trabajar con el personal técnico del Departamento de Agricultura de los Estados Unidos de Norte-América, con el propósito de efectuar investigaciones en cooperación y de ayudar y facilitar las relaciones con las autoridades locales y del Estado, y con los cooperadores privados.

6.—Gestionar la entrada libre de derechos para los implementos, materiales y útiles necesarios para llevar a cabo los trabajos oficiales abarcados en este convenio.

**C. DE MUTUO ACUERDO, LA SECRETARIA DE AGRICULTURA Y FOMENTO DE LOS ESTADOS UNIDOS MEXICANOS Y EL DEPARTAMENTO DE AGRICULTURA DE LOS ESTADOS UNIDOS DE NORTE-AMERICA CONVIENEN EN:**

1.—Como el buen éxito del cultivo del guayule es una empresa altamente especializada, no podrán hacerse por el Departamento de Agricultura de los Estados Unidos de Norte-América contratos para el establecimiento de viveros o plantaciones de plantitas de variedades seleccionadas, excepto cuando se determine, a satisfacción de

ambas partes contratantes de este Memorándum, que un cooperador está capacitado y deseoso de efectuar esos trabajos de acuerdo con los métodos ya reconocidos como satisfactorios.

2.—El hule de guayule producido como resultado directo del trabajo efectuado en los términos de este memorándum y que no se necesite para fines de investigación por las partes contratantes, será vendido a la "Rubber Reserve Company" (Compañía de Reservas de Hule), agencia del Gobierno de los Estados Unidos de Norte-América, de acuerdo con el Convenio del 4 de septiembre de 1942 entre el Gobierno de la República de México y la Compañía de Reservas de Hule.

3.—Las semillas de variedades nuevas de guayule obtenidas como resultado del trabajo de investigación estipulado en este convenio, se dividirán por partes iguales entre las partes contratantes. Por mutuo acuerdo, cualquiera de las dos partes contratantes puede cosechar la semilla de las plantaciones de las variedades de guayule proporcionadas de acuerdo con el inciso A1 de este convenio, en la medida que pueda necesitarlas para una futura ampliación de las plantaciones en su respectivo país.

4.—Las informaciones que se obtengan como resultado de las investigaciones que se lleven a cabo de acuerdo con este Memorándum, se darán a conocer mutuamente entre ambas partes contratantes.

5.—La publicación de los resultados de las investigaciones y de los reconocimientos estipulados en este Memorándum, podrá hacerse por cualquiera de las partes, siempre que se reconozca que el trabajo se hace en cooperación y que una copia del manuscrito le sea proporcionada al cooperador para su revisión antes de la publicación.

6.—Al terminar este convenio, las cosechas de guayule que no estén maduras, u otras plantas en crecimiento en las plantaciones experimentales, pasarán a ser propiedad del Gobierno de México.

7.—Las cosechas comerciales de guayule u otras plantas que puedan cultivarse y cosecharse en cualquiera de las áreas de las plantaciones experimentales, durante la vigencia o al término de este convenio, quedarán a beneficio de las partes contratantes, dividiéndose y compartiéndose por partes iguales la cosecha. Cada contratante podrá vender o disponer de su participación de la cosecha y hacer uso de los fondos recibidos por la venta, de acuerdo con las leyes y reglamentos aplicables en cada país.

8.—Al terminar este convenio, se le permitirá al Departamento de Agricultura de Los Estados Unidos de Norte-América retirar, vender o disponer en cualquiera otra forma de las mejoras que pertenezcan a los Estados Unidos, incluyendo todos los edificios e instalaciones.

9.—El desarrollo del trabajo proyectado en este Memorándum está sujeto a la asignación del dinero necesario para ese fin, por el Congreso de los Estados Unidos Mexicanos y por el de los Estados Unidos de

Norte-América, para dar cumplimiento a las respectivas obligaciones de los signatarios.

SEÑOR EMBAJADOR:

Tengo el agrado de referirme al Aide Memoire de este Ministerio, de 3 de marzo de 1942, en que se informó a esa Embajada que el Gobierno de Panamá deseaba participar del beneficio de la Ley N° 375 del Congreso de los Estados Unidos, sobre la construcción de la carretera Interamericana, y que aceptaba asumir la tercera parte del costo total de dicha obra, en lo correspondiente a Panamá.

Por este medio vengo ahora a reiterar formalmente a Vuestra Excelencia que el Gobierno de Panamá asumirá la tercera parte de los gastos en que incurran los Estados Unidos en la medición y construcción del tramo de la Carretera Interamericana que vaya a construirse dentro de los límites de la República de Panamá de acuerdo con lo establecido en la ya mencionada Ley N° 375. Este porcentaje ascendería a la suma de \$2,200,000.00 aproximadamente de conformidad con lo que me ha expresado Vuestra Excelencia por medio del Memorandum Informal de esa Embajada, de 1° del presente mes de mayo.

Como en dicho Memorandum Informal se solicita indicación acerca de la fuente específica de la cual han de provenir los fondos para el pago de esa tercera parte correspondiente a Panamá, informo a Vuestra Excelencia que es el propósito de mi Gobierno obtener un empréstito interno con ese objeto.

En esta forma está presto el Gobierno de la República de Panamá a aportar su concurso a la realización de esta obra de tanta trascendencia para la defensa y el futuro del Hemisferio.

Acepte Vuestra Excelencia las reiteradas seguridades de mi más alta y distinguida consideración,

MR. AMBASSADOR:

It gives me pleasure to refer to this Ministry's *aide-mémoire* of March 3, 1942 [<sup>1</sup>] informing the Embassy that the Government of Panama desired to avail itself of the benefits of law 375 of the Congress of the United States on the construction of the Inter-American Highway and that it agreed to assume one third of the total cost of said work in the Panamanian section.

55 Stat. 860.

By this means I now reiterate formally to Your Excellency that the Government of Panama will assume one third of the expenses incurred by the United States in the survey and construction of the section of the Inter-American Highway to be constructed within the limits of the Republic of Panama in accordance with the provisions of the above-mentioned law 375. This percentage will amount to the sum of \$2,200,000.00 approximately in accordance with what Your Excellency told me in the Embassy's informal memorandum of May 1.<sup>[1]</sup>

Since in that informal memorandum an indication is requested regarding the specific source from which the funds will come for the payment of this one-third part corresponding to Panama, I inform Your Excellency that it is the plan of my Government to obtain an internal loan with this object in view.

EXCELLENCY:

I have the honor to acknowledge the receipt of Note D.P. No. 5198 of May 15, 1943, in which His Excellency Señor Doctor Octavio

<sup>1</sup> [Not printed.]

Fábrega, Minister of Foreign Affairs, informed me that the Government of Panamá desired to avail itself of the cooperation of the Government of the United States in construction of the Inter-American Highway in Panamá, and offered the assurances required by Public Law 375 of December 26, 1941 in connection with such cooperation.

55 Stat. 860.

I take pleasure in informing Your Excellency that the assurances offered in the kind note referred to are satisfactory to my Government. It is consequently the intention of my Government, as soon as Your Excellency's Government has completed the financial arrangements mentioned and subject to the appropriation of the necessary funds by the Congress of the United States, to extend to Your Excellency's Government the cooperation envisaged by the above-mentioned law. Your Excellency will recall that Public Law 375 provides that the surveying and construction work authorized by that act shall be under the administration of the Public Roads Administration. It is understood, therefore, that the pertinent Panamanian officials and the Public Roads Administration will seek to reach a subsidiary agreement regarding the administration of the contemplated work.

My Government is gratified that through this cooperative undertaking it will be possible to complete the Inter-American Highway to Panamá City. Transportation facilities will be improved, new lands and new natural resources developed, additional markets opened, and local economic conditions benefitted through the useful expenditure of money which this project envisages. Both of our countries should happily profit therefrom. I sincerely trust that the highway will serve not only as a link to increase material intercourse between our nations but also as another bond in the close friendship which unites us.

Accept, Excellency, the renewed assurances of my highest consideration.

I refer to my note dated May 25, 1943 to the Minister and to the Minister's note dated May 26, 1943, effecting an agreement between the United States and Canada for the waiver of claims arising as a result of collisions between United States warships and ships of the Royal Canadian Navy.

I have received from the Secretary of War a letter in which inquiry is made whether "ships of the United States and Royal Canadian Armies, such as Army transports" are within the agreement.

No. 589

SIR,

I have the honour to refer to your note of September 3, 1943, regarding the agreement between Canada and the United States for the waiver of claims arising as a result of collisions between Canadian and United States vessels of war.

You stated in your note that the Secretary of War has enquired whether "ships of the United States and Royal Canadian Armies, such as Army transports" are within the agreement. This question has been carefully considered by the appropriate authorities of the Canadian Government, who are of the opinion that such ships are not within the agreement.

In connection with this opinion, reference is made to the opening sentence of your note of May 25, 1943, in which it was stated that the purpose of the proposed agreement was to provide for the question of damages "arising from collisions between United States warships and ships of the Royal Canadian Navy".

Accept, Sir, the renewed assurances of my highest consideration.

No. 1049

EXCELLENCY:

I have the honor to inform Your Excellency that, in accordance with Resolution XXX of the Third Meeting of Ministers of Foreign Affairs of the American Republics at Rio de Janeiro, relating to health and sanitary conditions, the Government of the United States is prepared to contribute a sum in the amount of \$500,000 to be expended in ways which will assist the Government of El Salvador in attaining its objectives in the matters of health and sanitation.

My Government notes that projects such as the improvement of water supply, the development of facilities for adequate sewage disposal, and the control of endemic or epidemic diseases have been among the chief objectives of the Salvadoran Government in health and sanitation matters. My Government considers that the further development of projects of this character will contribute to the realization of the general objectives set forth in the above-mentioned resolution to which our respective Governments are committed.

In this connection, the Government of the United States acting through the agency of the Office of the Coordinator of Inter-American Affairs will send, if it is agreeable to Your Excellency, a small group of experts to El Salvador in order to develop a specific program in agreement with Your Excellency's Government, acting through officials designated by it.

This group will be under the immediate direction of the Chief Medical Officer of the Office of the Coordinator of Inter-American Affairs, and will work in the closest cooperation with the appropriate Salvadoran officials. The salaries and expenses of the group of experts will not be debited against project funds. Approval for the actual execution of the specific projects agreed upon will be given by the respective Governments to their duly appointed agents. Expenditures for such projects shall be made upon certification of the Chief Medical Officer and the appropriate Salvadoran official designated for the areas where projects will be executed.

These projects upon completion will of course become the sole property of El Salvador. The United States Government will be prepared to facilitate such training of personnel as the two Governments deem advisable.

My Government anticipates that the Salvadoran Government will be willing to provide, in accordance with its ability, such raw materials, services and funds as may be deemed necessary for the proper execution of the program.

I avail myself of the opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

No. 115

EXCELLENCY:

I have the honor to refer to the request of Your Excellency's Government, through the Colombian Ambassador in Washington, for assistance in the execution of a cooperative program of public health and sanitation in Colombia and to the conversations of September 24 had between me, the Coordinator of Inter-American Affairs, and the Minister of Trabajo, Higiene y Previsión Social, concerning such a program.

Reference is also made to the notes exchanged between the Government of Colombia and the Government of the United States on rubber development in Colombia, with particular reference to a program of health and sanitation in connection with rubber production in Colombia.

My Government, through the Office of the Coordinator of Inter-American Affairs, is prepared to send at once to Colombia, at the request of Your Excellency's Government, to cooperate with the corresponding officials of Your Excellency's Government and the Ministry of Trabajo, Higiene y Previsión Social, such experts as Your Excellency's Government desires in order to collaborate in developing a specific program for the improvement of health and sanitation conditions in Colombia. This program will be designed to improve health and sanitation conditions in Colombia in accordance with the memorandum prepared by the Minister of Trabajo, Higiene y Previsión Social and presented to me and to the Coordinator of Inter-American Affairs in Bogotá on September 24, 1942.

For the purposes of this program, the Government of the United States, through the agency of the Coordinator of Inter-American Affairs, will provide an amount not to exceed one million dollars (United States Currency) to be expended for the execution of the program. The expenditure of these funds may be applied not only to the health and sanitation program, but also, in the discretion of Your Excellency's Government, for such medical, scientific, and technical training as the Government of Colombia may wish undertaken by Colombian specialists.

It is understood that Your Excellency's Government will furnish such expert personnel, services, and funds for local expenditures as it may consider necessary for the efficient development of the program. The group of United States doctors and sanitary engineers which will be sent to Colombia by the Office of the Coordinator of Inter-American Affairs shall be under the direction of the Chief Medical Officer of that Office, who in turn will be under the supervision of the appropriate officials of the Colombian Government. It is understood that a special service of public health and sanitation will be established within the Ministry of Trabajo, Higiene y Previsión Social under the direction of the Chief Medical Officer of the Coordinator's Office, and that detailed arrangements for the establishment of such a special service will be carried out between Brigadier General George C. Dunham, Director of the Health and Sanitation Division of the Coordinator's Office, and the Minister of Trabajo, Higiene y Previsión Social.

The expenditure of United States funds for the purposes of this program will be handled through the Institute of Inter-American Affairs, of which the Coordinator of Inter-American Affairs is President and of which General George C. Dunham is Director of the Health and Sanitation Division. Detailed arrangements for the execution of each project will be discussed and agreed to between the Chief Medical Officer and the appropriate officer of Your Excellency's Government in the area of the proposed project.

It is understood that the Government of Colombia is particularly interested in including in the program projects aimed at continuing and extending measures and services which the public health and sanitation agencies of the Colombian Government have been carrying out with efficiency and success. The measures and services embodied in the health and sanitation program are included under the following headings:

1. The improvement of nutrition in a general program for the improvement of the public health of Colombia, utilizing the services already established by the Ministerio de Trabajo, Higiene y Previsión Social;
2. Assistance in the control of malaria, with particular reference to the eradication of malaria in the ports of Barranquilla, Cartagena, Santa Marta, Buenaventura, Tumaco, and Bahía Solano;
3. Assistance in the control and eradication of Rickettsiasis;
4. Assistance in the control and eradication of Bartonellosis;
5. Assistance in the sanitation of ports, particularly the ports of Barranquilla, Cartagena, Santa Marta, Buenaventura, Tumaco, and Bahía Solano, and such other areas as may be agreed upon;
6. The establishment, in so far as practicable, of public health centers for the effective execution of this program;

7. The training of Colombian personnel in the fields of medicine, public health, sanitary engineering, nursing, and hospital administration.

It is agreed that all projects completed in accordance with the present agreement will be the property of the Government of Colombia.

With reference to the foregoing, I am instructed to state that this agreement can in no way commit my Government to make available supplies and equipment which may be deemed necessary to implement the agreement. While my Government sympathizes with the objectives which Your Excellency's Government aims at in the health and sanitation program, Your Excellency's Government recognizes, I am sure, that the allocation of essential or critical equipment and materials to the program must be held in abeyance due to the very real shortages of many essential materials and the necessity for preserving them for important and essential war undertakings.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

EMBAIXADA DOS ESTADOS UNIDOS DO BRASIL

*Washington, em 3 de março de 1942.*

SENHOR SECRETARIO DE ESTADO INTERINO,

Na Resolução IIa da 3a. Reunião de Ministros das Relações Exteriores das Republicas Americanas, no Rio de Janeiro, o Governo brasileiro se comprometeu a cooperar no mais alto grau com as demais Republicas Americanas na mobilização de seus recursos economicos com o especial objetivo de aumentar a produção de materiais estrategicos, essenciais à defesa do Hemisfério e à manutenção das economias do Brasil e das outras Republicas Americanas.

O Governo do Brasil, por intermédio da Missão Economica que tenho a honra de chefiar, propõe desde já tomar medidas para levar avante eficazmente êsse empreendimento e promover o programa de desenvolvimento da produção de tais materiais, que já vêm sendo explorados.

O Governo do Brasil julga que a maneira mais eficaz de realizar seus altos propositos será constituir uma nova organização oficial para investigar e promover o desenvolvimento de materiais estrategicos e outros recursos naturais do Brasil. A nova organização, que poderia ser um novo departamento do Governo brasileiro ou uma associação sob controle governamental examinaria todos os projetos susceptíveis de fomentar tal desenvolvimento e tornaria possível a realização dos projetos recomendados, quer por meio de empresas já existentes no Brasil ou, na falta de entidades adequadas, por meio de novos departamentos, organizações independentes ou empresas particulares a serem creadas para êsse fim.

Em qualquer caso, porém, a nova organização funcionaria como uma dependência do Governo brasileiro, interessada não em fins lucrativos, mas, principalmente, em fomentar na medida do possível, o desenvolvimento dos recursos naturais do Brasil, afim de melhor atender os interesses do país e das outras Republicas Americanas.

A nova organização brasileira teria o seu trabalho grandemente facilitado si pudesse contar, de um modo positivo, com a assistência técnica dos Estados Unidos. Ademais, para realizar o seu programa, o Governo brasileiro necessitaria, além de fundos para despesas locais, por êle fornecidos, de creditos em dolares, no valor total aproximado de \$100.000.000, a ser sacado a medida que fôsse necessário para cubrir as despesas em dolares feitas com os projetos adotados.

Tais créditos seriam utilizados em projetos empreendidos diretamente pelo Governo brasileiro ou por particulares aprovados por êle.

Em nome do Governo brasileiro e de acôrdo com os entendimentos da Missão Económica Brasileira, que tenho a honra de chefiar, com os representantes do Governo dos Estados Unidos, muito agradeceria que o Governo de Vossa Excelência estudasse com simpatia o presente programa de cooperação técnica e financeira.

Tenho a firme convicção de que um programa de colaboração, como o que acima ficou delineado, poderá ser do maior valor para os nossos dois países, na objetivação dos propositos da Resolução da Reunião do Rio de Janeiro, de mobilizar todas as possibilidades economicas do Hemisfério na nossa defeza comúm.

Aproveito o ensêjo para renovar a Vossa Excelência os protestos da minha mais alta consideração.

EMBASSY OF THE UNITED STATES OF BRAZIL

MR. ACTING SECRETARY OF STATE:

In resolution II of the Third Meeting of the Ministers of Foreign Affairs of the American Republics at Rio de Janeiro, the Brazilian Government undertook to cooperate to the utmost possible degree with the other American republics in the mobilization of its economic resources with the special objective of increasing the production of strategic materials essential to the defense of the hemisphere and to the maintenance of the economies of Brazil and the other American republics.

The Government of Brazil, through the Economic Mission which I have the honor to head, proposes at once to take measures to carry out that undertaking effectively and to further the program of developing the production of such materials, which are already being produced.

The Government of Brazil believes that the most effective way of carrying out its high purposes will be to create a new official organization to investigate and promote the development of strategic materials and other natural resources of Brazil. The new organization, which might be a new department of the Brazilian Government or a government-controlled corporation, would examine all feasible projects for promoting such a development and would make possible the realization of the projects recommended, either by means of existing enterprises in Brazil or, where suitable entities do not exist, by means of new departments, independent organizations, or private enterprises to be established for that purpose.

In any case, however, the new organization would function as an agency of the Brazilian Government, not for profit, but primarily to promote to the fullest degree possible the development of Brazil's natural resources, in order best to serve the interests of the country and of the other American republics.

The work of the new Brazilian organization would be greatly facilitated if it could have positive assurance of technical assistance from the United States. Moreover, in order to carry out its program, the Brazilian Government, in addition to the funds for local expenditures, which it would provide, would require dollar credits in the approximate total amount of \$100,000,000, to be drawn against as needed for dollar expenditures in connection with the projects adopted.

Such credits would be utilized in projects undertaken directly by the Brazilian Government or by private individuals approved by it.

On behalf of the Government of Brazil, and in accordance with understandings between the Brazilian Economic Mission, which I have the honor to head, and the representatives of the Government of the United States, I should greatly appreciate it if Your Excellency's Government would study sympathetically the present program of technical and financial cooperation.

I am firmly convinced that a program of collaboration, such as that outlined above, can be of the greatest value for both of our countries in carrying out the aims of the resolution of the Rio de Janeiro Meeting to mobilize all the economic resources of the hemisphere in our common defense.

I avail myself of the opportunity to renew to Your Excellency the assurances of my highest consideration.

DEPARTMENT OF STATE

WASHINGTON

March 3, 1942

EXCELLENCY:

I acknowledge the receipt of your note of March 3, 1942, outlining a program for further economic cooperation between the United States and Brazil in furtherance of Resolution II of the Third Meeting of the Ministers of Foreign Affairs of the American Republics at Rio de Janeiro, calling for the mobilization of the productive resources of the American republics.

I have the honor to inform you that the appropriate agencies of the Government of the United States have considered carefully this program and are prepared to extend the financial and expert cooperation essential to its success. I have been informed by the Secretary of

Commerce that he is agreeable to the opening of a line of credit of up to \$100,000,000 for the purpose of financing dollar expenditures in connection with specific projects to be undertaken by the Brazilian Government through the agency of the proposed new organization. It is contemplated that such projects shall be undertaken after agreement between the Brazilian Government, acting through the new organization, and the Government of the United States, acting through the Department of Commerce, and that appropriate United States technical and expert assistance shall be made available as necessary and desirable. The Secretary of Commerce will consider and act upon such projects within the period in which the Export-Import Bank of Washington is in a position to provide these credits, and to the extent that its funds may be available for this purpose. Details of the arrangements may be worked out between representatives of the Government of Brazil and the Secretary of Commerce.

It is of course understood that although the United States is desirous of cooperating to the fullest extent in the general development of the Brazilian economy, the carrying out of specific projects which require important amounts of machinery, equipment or other materials produced in the United States must be conditioned upon careful investigation and determination that the particular project will contribute in an important manner to the progress of our war effort and to the security of the Hemisphere, and has accordingly been granted the appropriate priority ratings.

I believe that the cooperative program which the Governments of Brazil and the United States of America are undertaking will constitute a further great step forward in mutually beneficial economic relationships between our two countries and in the mobilization of the economic resources of the Western Hemisphere.

Accept, Excellency, the assurances of my most distinguished consideration.

SENHOR SECRETÁRIO DE ESTADO INTERINO,

Tive a honra de trocar hoje com Vossa Excelência notas referentes á criação de uma organização brasileira de expansão á qual será concedido um crédito de 100 milhões de dólares pelo Banco de Exportação e Importação. Esta organização brasileira foi estabelecida em consoante á Resolução II da Terceira Reunião Consultiva de Ministros das Relações Exteriores das Repúblicas Americanas realizada no Rio de Janeiro, em virtude da qual o Govêrno brasileiro resolveu colaborar com as mesmas Repúblicas no mais alto gráu possível para a mobilização dos seus recursos econômicos visando especialmente o aumento da produção dos materiais estratégicos essenciais á defesa do Hemisfério contra a agressão armada e á manutenção da economia do Brasil e de outras Repúblicas americanas.

Um dos projetos concretos a respeito do desenvolvimento dos recursos do Brasil que tem sido discutido entre o Govêrno de Vossa Excelência e a Missão Econômica Brasileira, que tenho a honra de chefiar, é o que se refere á expansão da produção de borracha no Vale do Amazonas e regiões adjacentes. Nossas discussões sôbre tal assunto alcançaram agora o ponto em que acredito ser possível sugerir os seguintes itens para o citado projeto:

1º—A Rubber Reserve Company, afim de cooperar com o Govêrno brasileiro no desenvolvimento da borracha do Vale do Amazonas e regiões adjacentes, estabelecerá um fundo de cinco milhões de dólares destinado a aumentar a produção de borracha no citado Vale e regiões. É de se esperar que o dispêndio dessa soma resulte no aumento da exportação de borracha brasileira para os Estados Unidos da América, em volume anual não inferior a vinte e cinco mil toneladas.

2º—O Banco do Brasil ou outro departamento ou agência do Govêrno brasileiro tornar-se-á o único e final comprador de borracha, tanto para a exportação quanto para o consumo doméstico, excepção feita da Rubber Reserve Company que, de acôrdo com o Banco do Brasil, poderá adquirir borracha por sua própria conta. O Govêrno brasileiro depois de reservar quantidades adequadas para suas necessidades internas estabelecerá quotas de exportação visando fornecer aos Estados Unidos da América a maior quantidade de borracha.

3º—A Rubber Reserve Company fará um acôrdo de cinco anos com o Banco do Brasil ou outro departamento ou agência do Govêrno brasileiro para a aquisição da borracha produzida no Brasil.

4º—A Rubber Reserve Company colaborará com o Instituto Agrônômico do Norte na solução dos problemas científicos do desenvolvimento da produção de borracha no Vale do Amazonas e regiões adjacentes.

5º—O Govêrno brasileiro cooperará integralmente com o Govêrno dos Estados Unidos da América para o aumento da produção de borracha crua e manufaturada do Brasil.

6º—Em cumprimento á Resolução XXX aprovada na Reunião Consultiva de Ministros das Relações Exteriores das Repúblicas Americanas, realizada no Rio de Janeiro, o Govêrno dos Estados Unidos da América proporcionará os serviços da Divisão de Saude e Saneamento estabelecida pela repartição do Coordenador dos Negócios Interamericanos para os trabalhos de expansão do Vale do Amazonas e regiões adjacentes, com o objetivo de alí realizar um programa de melhoramento das condições sanitárias em colaboração com entidades oficiais de outras Repúblicas Americanas.

Em nome do Govêrno brasileiro e de conformidade com os entendimentos que a Missão Econômica brasileira realizou com representantes do Govêrno dos Estados Unidos da América, tenho a honra de solicitar de Vossa Excelência se digne considerar as propostas acima mencionadas.

Aproveito a oportunidade para apresentar a Vossa Excelência os protestos da minha mais alta consideração.

*Translation by the Department of State of the Foregoing Note*

EMBASSY OF THE UNITED STATES OF BRAZIL  
*Washington, March 3, 1942.*

MR. ACTING SECRETARY OF STATE:

I have had the honor to exchange notes with Your Excellency today referring to the creation of a Brazilian development organization to which a credit of 100 million dollars will be extended by the Export-Import Bank. This Brazilian organization has been established in consonance with resolution II of the Third Consultative Meeting of Ministers of Foreign Affairs of the American Republics at Rio de Janeiro, in virtue of which the Brazilian Government resolved to collaborate with the said republics in the greatest possible degree for the mobilization of their economic resources with a view especially to increasing the production of strategic materials essential

*Ante. p. 1314.*

to the defense of the hemisphere against armed aggression and to the maintenance of the economy of Brazil and of other American republics.

One of the concrete projects with respect to the development of the resources of Brazil which has been discussed between Your Excellency's Government and the Brazilian Economic Mission, which I have the honor to head, is the one relating to the increase of the production of rubber in the Amazon Valley and adjacent regions. Our discussions on this subject have now reached the stage where I believe it is possible to suggest the following points for the said project:

1. The Rubber Reserve Company, in order to cooperate with the Brazilian Government in the development of rubber in the Amazon Valley and adjacent regions, will establish a fund of five million dollars to be used to increase the production of rubber in the said valley and regions. It is to be hoped that the expenditure of this sum will result in the increase of exportation of Brazilian rubber to the United States of America, in an annual volume of not less than 25,000 tons.

2. The Bank of Brazil or other department or agency of the Brazilian Government will become the sole and final purchaser of rubber, both for exportation and for domestic consumption, with the exception of the Rubber Reserve Company which, in accord with the Bank of Brazil, will be able to purchase rubber for its own account. The Brazilian Government after reserving quantities adequate for its domestic needs will establish export quotas with a view to furnishing to the United States of America the greatest quantity of rubber.

3. The Rubber Reserve Company will make a five-year agreement with the Bank of Brazil or other department or agency of the Brazilian Government for the acquisition of rubber produced in Brazil.

4. The Rubber Reserve Company will cooperate with the Instituto Agronômico do Norte in the solution of the scientific problems of the development of rubber production in the Amazon Valley and adjacent regions.

5. The Brazilian Government will cooperate fully with the Government of the United States of America to increase the production of crude and manufactured rubber in Brazil.

6. In compliance with resolution XXX approved in the Consultative Meeting of Ministers of Foreign Affairs of the American Republics held at Rio de Janeiro, the Government of the United States of America will furnish the services of the Division of Health and Sanitation established by the Office of the Coordinator of Inter-American Affairs for the development works of the Amazon Valley and adjacent regions, with the objective of carrying out there a program of improvement of sanitary conditions in collaboration with official agencies of other American republics.

In the name of the Brazilian Government and in accordance with the understandings which the Brazilian Economic Mission reached

with representatives of the Government of the United States of America, I have the honor to request Your Excellency to be good enough to give consideration to the above-mentioned proposals.

I avail myself of the opportunity to present to Your Excellency the assurances of my highest consideration.

EXCELLENCY:

I acknowledge the receipt of your note of March 3, 1942 outlining a program for the development of the rubber of the Amazon Valley and adjacent regions as a project for further economic cooperation between the United States and Brazil in furtherance of Resolution II of the Third Meeting of the Ministers of Foreign Affairs of the American Republics at Rio de Janeiro.

I am pleased to inform you that the appropriate agencies of the Government of the United States have considered this proposal and are prepared to undertake this development in accordance with the specific proposals with respect thereto mentioned in your note.

I believe that this program will be a substantial step forward in developing mutually advantageous economic relations between our two countries as contemplated by the Resolution adopted at the conference at Rio de Janeiro.

Accept, Excellency, the assurances of my most distinguished consideration.

*Agreement between the United States of America and Brazil respecting a health and sanitation program. Effected by exchange of notes signed at Washington March 14, 1942.*

*The Acting Secretary of State to the Brazilian Minister for Finance*

DEPARTMENT OF STATE  
WASHINGTON  
March 14, 1942

MY DEAR MR. MINISTER:

*Ante, p. 1318.*

I refer to the notes which we exchanged on March 3, 1942 on rubber development in the Amazon Valley, and specifically to Point 6 of your note concerning the readiness of this Government to lend its good offices through the Health and Sanitation Division of the Office of the Coordinator of Inter-American Affairs in matters pertaining to health and sanitation conditions in the Amazon Valley. I refer also to the agreements reached on that day with respect to other economic projects.

The Coordinator of Inter-American Affairs is prepared to send at once to Brazil, on your request, to cooperate with corresponding officials of the Brazilian Government and its health services, such experts as your Government desires in order to collaborate in developing a specific health and sanitation program. The program would be initially designed for the Amazon Basin area for the special purpose of aiding in the stimulation of rubber production, but at the desire of the Government of Brazil could be extended to other areas.

For these purposes this Government, through the agency of the Coordinator of Inter-American Affairs, will provide an amount not to exceed \$5,000,000 to be expended toward the development of this health and sanitation program. The expenditure of these funds may be applied not only to health and sanitation projects but also, in the discretion of the Government of Brazil, for such medical or sanitation engineering training as the Government of Brazil may wish undertaken by Brazilian specialists.

It is understood that the Government of Brazil will furnish such expert personnel, materials, services and funds for local expenditures as it may consider necessary for the efficient development of the program.

The group of United States medical and sanitation specialists which the Brazilian Government indicates should be sent by the Office of the Coordinator of Inter-American Affairs shall be under the direction of the chief medical officer of that Office who in turn will be under the supervision of the appropriate officials of the Brazilian Government.

Detailed arrangements for the execution of each project shall be discussed and agreed to between the chief medical officer and the officer of the Brazilian Government in the area of the proposed project. The technical advice and expert assistance of United States medical and sanitation specialists will be made available to the appropriate Brazilian authorities at any time that the need for consultation arises.

I understand that the Government of Brazil would be particularly interested in including in the program projects aimed at continuing and expanding the measures and services which the health and sanitation agencies of the Government of Brazil have been carrying out with efficiency and success in the areas in question. These measures and services may be included under the following general headings:

1. Malaria control.
2. Yellow fever control.
3. General disease control by hospitals, clinics and public education.
4. Water supply systems.
5. Sewage systems.
6. Garbage and rubbish disposal.

All projects completed in accordance with the present arrangement would of course be the property of the Government of Brazil.

I am, my dear Dr. Souza Costa,  
Sincerely yours,

SUMNER WELLES

His Excellency

DR. ARTHUR DE SOUZA COSTA,  
*Minister for Finance of Brazil.*

*The Brazilian Minister for Finance to the Acting Secretary of State*

MARCH 14, 1942

MY DEAR MR. SECRETARY:

I refer to your letter of today's date in which you propose, on behalf of the Government of the United States, cooperation with the Government of Brazil to carry out the measures of health and sanitation considered desirable in connection with the program for rubber development agreed to in our exchange of notes of March 3, 1942, and in connection with the other economic projects agreed upon on that day.

I am happy to confirm that my Government has for many years been actively pursuing a health and sanitation program as outlined in your letter and that it is pleased to accept this offer of collaboration in order to stimulate the progress of the program which has so important a bearing on the economic possibilities of the areas in question. My Government will be ready to furnish expert personnel, materials,

services and funds for local expenditures as it may consider necessary for the efficient carrying out of the projects to be agreed upon.

You may be assured, furthermore, that when the projects undertaken on a joint cooperative basis have been completed they will, as the sole property of Brazil, be considered and maintained as a permanent part of the national program for health and sanitation.

I avail myself of the opportunity to present to Your Excellency the assurance of my highest consideration.

## MINISTRY OF FOREIGN RELATIONS

RIO DE JANEIRO

November 25, 1948.

DAI/DPD/442/512.6(22)

MR. AMBASSADOR,

I have the honor to acknowledge the receipt of note 1947 of the 9th of this month, in which Your Excellency refers to the notes exchanged between the Minister of Finance of Brazil and the Acting Secretary of State of the United States of America dated March 14, 1942, and to our conversations about the cooperative program of health and sanitation in Brazil, which was provided for by resolution XXX of the Third Meeting of the Ministers of Foreign Affairs of the American Republics, which was held in this city in January 1942. Your Excellency makes known that in accordance with the aforesaid notes, the United States of America had already contributed the amount of \$5,000,000 in U.S. currency toward the realization of that health and sanitation program, which is at present being carried out in Brazil.

2. Your Excellency communicates to me that, in case the Brazilian Government so desires, the Government of the United States of America, through the intermediary of the Institute of Inter-American Affairs, an agency of the Office of Coordinator of Inter-American Affairs, will contribute an additional amount of \$3,000,000 in U.S. currency for the purpose of cooperating with the Brazilian Government in expanding the program of public health and sanitation, thus contributing the funds necessary for the execution of the program within a five-year period beginning January 1, 1944.

3. Next Your Excellency proposes that the Brazilian Government, which has already contributed the amount of CR \$9,000,000,00 toward the cooperative program, shall contribute an additional amount of CR \$100,000,000,00 to be expended in the said five-year period together with the funds furnished by the United States of America for the same purpose.

4. Your Excellency adds that the nature of the work and the projects to be carried out, as well as the expenses arising therefrom, could be settled by common agreement of the competent authority of the Brazilian Government, who would be the Minister of Education and Health, and an authorized member of the Institute of Inter-American Affairs acting for the Government of the United States of America.

5. Your Excellency proposes, further, that the funds furnished by the two Governments shall be spent through the agency created within the Ministry of Education and Health, which agency is known as the Special Service of Public Health, and that the additional arrangements for the continuation of the service and execution of the program shall be effected between the competent Brazilian authority and an authorized member of the Institute of Inter-American Affairs acting for the United States of America.

6. You also state that the Government of the United States of America will continue to furnish the technical personnel necessary for collaborating in the execution of the health and sanitation program.

7. You propose, in conclusion, that all the projects carried out and all property acquired in connection with the health and sanitation program shall be part of the Brazilian national property and that no plan shall be carried out which necessitates supplies or materials the procurement of which would prejudice the war effort at any time.

8. In reply, it is my duty to declare to Your Excellency that the Brazilian Government gives its full approval to that general proposal, the details of which, in accordance with what is provided above, will be considered and agreed upon separately by the Ministry of Education and Health and the Institute of Inter-American Affairs.

I avail myself of the opportunity to repeat the assurances of my highest consideration.

*Ambassador of the United States of America.*

*Agreement between the United States of America and Mexico respecting the recruiting of Mexican non-agricultural workers. Effected by exchange of notes signed at Mexico City April 29, 1943; effective April 29, 1943.*

April 29, 1943  
[E. A. S. 376]

*The American Ambassador to the Mexican Minister of Foreign Affairs*

EMBASSY OF THE  
UNITED STATES OF AMERICA

No. 1218

*México, D.F., April 29, 1943.*

EXCELLENCY:

I have the honor to refer to my note No. 990 of January 29, 1943,<sup>[1]</sup> inquiring whether Your Excellency's Government would be disposed to conclude an arrangement whereby unskilled non-agricultural workers would be recruited in Mexico for non-agricultural work in the United States as well as to Your Excellency's acknowledgment of February 3, 1943.<sup>[1]</sup>

The possibility of the recruiting of other than farm labor was likewise foreseen at the time when the agricultural labor agreement was signed on August 4, 1942 and the following language is a part of that Agreement:

56 Stat. 1759.

"It is understood that, with reference to the departure from Mexico of Mexican workers, who are not farm laborers, there shall govern in understandings reached by agencies of the respective Governments the same fundamental principles which have been applied here to the departure of farm labor."

The duly authorized representatives of the United States Government together with authorized representatives of the Mexican Government have reached an agreement covering non-agricultural workers as follows:

"In order that Mexican workers may be made available for non-agricultural employment in the United States and, at the same time, to ensure that such workers will be adequately protected while out of Mexico, the following provisions are suggested for approval by representatives of the Governments of both countries.

Text of agreement.

"These provisions include the same fundamental principles which were applied to the departure of farm labor, in accordance with the agreement between the Republic of Mexico and the United States of America dated August 4, 1942.

56 Stat. 1759.

"I. GENERAL PRINCIPLES

- "1. Mexican nationals who enter the United States under contract with an appropriate Government department or

<sup>1</sup> [Not printed.]

agency shall not be subject to military service for the United States.

"2. In accordance with the principles enunciated in Executive Order No. 8802, issued at the White House on June 25, 1941, Mexican nationals who enter the United States as a result of any understanding between the two Governments shall not suffer discriminatory acts of any kind.

"3. Mexican nationals entering the United States for employment in the United States under this agreement shall enjoy the guarantees of transportation, living expenses and repatriation established in Article 29 of the Mexican Federal Labor Law which reads as follows:

'Article 29.—All contracts entered into by Mexican workers, for lending their services outside of their country, shall be made in writing, legalized by the municipal authorities of the locality where entered into and visaed by the Consul of the country where their services are being used. Furthermore, such contract shall contain, as a requisite of validity of same, the following stipulations, without which the contract is invalid:

'I. Transportation and subsistence expenses for the worker, and his family if such is the case, and all other expenses which originate from point of origin to border points and compliance of immigration requirements, or for any other similar concept, shall be paid exclusively by the employer or the contractual parties.

'II. The worker shall be paid in full the salary agreed upon, from which no deductions shall be made in any amount for any of the concepts mentioned in the above sub-paragraph.

'III. The employer or contractor shall issue a bond or constitute a deposit in cash in the Bank of Workers, or in the absence of same, in the Bank of Mexico, to the entire satisfaction of the respective labor authorities, for a sum equal to repatriation costs of the worker and his family, and those originated by transportation to point of origin.

'Once the employer establishes proof of having covered such expenses or the refusal of the worker to return to his country, and that he does not owe the worker any sum covering salary or indemnization to which he might have a right, the labor authorities shall authorize the return of the deposit or the cancellation of the bond issued.'

"It is specifically understood that the provisions of Section 3 of Article 29 above-mentioned shall not apply as between the Governments of the United States and of Mexico notwithstanding the inclusion of this section in this agreement in view of the obligations assumed by the United States Government under Section III, paragraph A, Item 1, of this same agreement.

3 CFR, Cum. Supp.,  
957.

Article 29 of Mexi-  
can Federal Labor  
Law.

- “4. Mexican nationals entering the United States under this agreement shall not be employed to displace other workers, or for the purpose of reducing rates of pay or other standards previously established.

## “II. PROCEDURES

### “A. *Contracts*

- “1. Contracts shall be made between the Government of the United States of America, acting through the Chairman of the War Manpower Commission or his authorized representative, and each worker, under the supervision of the Mexican Government. Such contracts shall be written in the Spanish and English languages and shall be in such form as may be approved by the Mexican Government.

- “2. The Government of the United States of America, acting through the Chairman of the War Manpower Commission or his authorized representative, shall enter into contracts with employers in the United States by whom workers will be employed, which shall be in accordance with the principles agreed upon by the two Governments.

- “3. When the word ‘employer’ is used hereinafter it shall be understood to mean the owner or operator of a non-agricultural enterprise in the United States by which the Mexican will be employed; and the word ‘worker’ shall mean a Mexican worker entering the United States under this agreement.

“Employer.”

“Worker.”

### “B. *Admission of Workers into the United States*

- “1. The United States Public Health Service, in collaboration with the Mexican Public Health authorities, shall provide physical examination at the place of selection to determine whether each worker meets the physical requirements of the immigration authorities and the prospective employer.

### “C. *Numbers*

- “1. The Government of the United States shall determine in each case the number of workers needed for non-agricultural labor and shall advise the Mexican Government from time to time.
- “2. The Government of Mexico shall determine in each case the number and types of workers who may leave the country without detriment to its national economy.

## “III. CONDITIONS UNDER WHICH MEXICAN WORKERS SHALL BE CONTRACTED

### “A. *Transportation*

- “1. All costs of transportation (including subsistence) from the place where contracted to the place of employment and return to the place of contract, including expenses occasioned by the immigration regulations of the United States of America shall be met by the United States Government acting through the Chairman of the War Manpower Commission.
- “2. Personal effects of each person transported up to a maximum of 35 kilos per person (77 pounds), or such additional amount

as may be found to be appropriate in the event household effects are transported, shall be transported at the expense of the United States of America acting through the Chairman of the War Manpower Commission.

*Ante*, p. 1264.

- “3. In accord with the intent of article 29 of the Mexican Federal Labor Law, it is expected that the United States Government may, at its election, arrange with the employer for such employer to pay all or part of the cost accruing under 1 and 2 above. This does not diminish the scope of the obligations which the United States Government assumes under 1 and 2 above.

“B. *Wages and Employment*

- “1. Wages paid to Mexican workers under this agreement shall be the same as those paid for similar work to domestic workers at the place of employment. (If wages are to be paid on a piece-rate basis, the rate shall be so set as to enable a worker of average ability to earn the prevailing wage.) In no case shall the wages be less than 46 cents per hour.
- “2. Each worker shall be exclusively employed as a non-agricultural laborer for which contracted; and any change to another type of work within this classification shall be made only with the express approval of the worker and with the consent of the Mexican Government.
- “3. Wages shall be paid in full with no deductions except those required by law of domestic workers engaged in similar employment.
- “4. Work for minors under 16 years shall be strictly prohibited and minors shall have the same schooling opportunities as those enjoyed by children of other workers in the same locality.
- “5. Workers domiciled at any place of employment under this agreement shall be free to obtain articles for their personal consumption or that of their families wherever it is most convenient for them.
- “6. The Mexican workers will receive hygienic lodgings adequate to the physical condition of the region, of the type furnished domestic workers engaged in similar employment; sanitary and medical services, and restaurant facilities enjoyed by workers admitted under this understanding shall be not less favorable to them than those enjoyed by other workers engaged in similar employment at the same place of employment.
- “7. Workers admitted under this agreement shall enjoy as regards occupational diseases and accidents the same guarantees enjoyed by domestic workers engaged in similar work under Federal or State legislation in the United States.
- “8. Groups of workers admitted under this understanding shall elect their own spokesmen to deal with the employer, with the duly authorized representative of the craft or class of employees, or with other interested parties, concerning

matters arising out of the interpretation or application of this agreement; but it is understood that all such spokesmen shall be working members of the groups.

“The Mexican Consuls, assisted by the Mexican field inspectors, recognized as such by the War Manpower Commission, within their corresponding jurisdictions, will seek to ensure that all measures of protection are taken in the interests of the Mexican workers in all questions affecting them. Complaints of the Mexican officials involved should be taken up in the first instance with that office of the War Manpower Commission nearest to the place where the complaint arises. They will have free access to the places of work of the Mexican workers. The War Manpower Commission will see that the Employers grant all facilities to the Mexican Consuls and the assistant field inspectors of the Mexican Government for the compliance of all the clauses of this contract.

- “9. Mexican workers shall be afforded opportunity to work the same number of working hours per week as other workers engaged in similar employment at the place of employment. In view of the fact that in accordance with custom in the United States no subsistence allowances are furnished to non-agricultural workers, Mexican workers are guaranteed under this agreement a minimum of 75% of full time employment in each pay period and at least 90% of full time employment during period for which contracted. However, if the worker is afforded an opportunity to work but is unwilling or unable to work the guarantee in the previous sentence shall not apply.
- “10. The term of the contract shall be agreed upon by the representatives of the two Governments with privilege of extension with the consent of the worker and approval of the Mexican Government.
- “11. At the expiration of the contract and if the same is not renewed, the authorities of the United States shall consider the continued stay of the worker in the territory of the United States to be illegal from an immigration point of view, with the exception of cases of physical impossibility of the worker to return to Mexico.

“C. *Savings Fund*

“The War Manpower Commission assumes responsibility for the safekeeping of amounts contributed by Mexican workers for the formation of the Savings Fund until such amounts are credited to the Bank of Mexico in such agency or agencies of said bank in the United States and which agencies will be determined by means of an exchange of notes. The Bank of Mexico for its part will transfer the sums in question to the Banco del Ahorro Nacional, S.A.

"Whenever the War Manpower Commission shall have made the deposits referred to in the previous paragraph it shall send directly to the Banco del Ahorro Nacional, S.A. a list containing the names of the beneficiaries and the amount corresponding to each of them for the above-mentioned fund.

"GENERAL PROVISIONS

"It is understood that the War Manpower Commission will cooperate with such other agencies of the Government of the United States in carrying this understanding into effect whose authority under the laws of the United States are such as to contribute to the effectuation of the understanding. Either Government shall have the right to renounce this understanding giving appropriate notification to the other Government ninety days in advance. This understanding may be formalized by an exchange of notes between the Ministry for Foreign Affairs of the Republic of Mexico and the Embassy of the United States of America in Mexico."

I, therefore, take this opportunity to inform Your Excellency that the text of the above agreement has received the approval of the United States Government. It is the desire of the United States Government that the arrangement should come into effect today.

I desire to express my gratitude to Your Excellency for the manner in which the negotiations leading up to this agreement were conducted. The Mexican representatives have at all times had a real comprehension of the urgency and necessity for these workers in the United States. On the other hand, the United States representatives recognize the full value of this contribution of Mexico to the joint war effort.

I would appreciate it, therefore, if Your Excellency would indicate that the proposed agreement is acceptable to the Mexican Government.

Accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

ESTADOS UNIDOS MEXICANOS

MÉXICO, 29 de abril de 1943.

SEÑOR EMBAJADOR:

En su muy atenta nota número 1218, del 29 del actual, que para mayor precisión a continuación inserto, Vuestra Excelencia me dice lo siguiente:

“Tengo la honra de referirme a mi nota número 990, del 29 de enero de 1943, en la cual pregunté a Vuestra Excelencia si su Gobierno estaría dispuesto a concluir un arreglo mediante el cual trabajadores no especializados podrían ser contratados en México para trabajos no agrícolas en los Estados Unidos, así como a la contestación de Vuestra Excelencia del 3 de febrero de 1943.—La posibilidad de contratar trabajadores no agrícolas fué también prevista cuando se celebró el acuerdo para los trabajadores agrícolas del 4 de agosto de 1942 y el siguiente párrafo constituye parte de dicho arreglo: “Queda sobreentendido que al tratarse de la salida de otros trabajadores mexicanos, no agrícolas, prevalecen en los arreglos que lleven a cabo las dependencias de los respectivos Gobiernos, los mismos principios fundamentales que se han aplicado aquí a la salida de trabajadores del campo” ”.—Los representantes debidamente autorizados del Gobierno de los Estados Unidos, junto con los representantes autorizados del Gobierno de México, han llegado al siguiente acuerdo respecto a los trabajadores no agrícolas:

“A fin de que pueda disponerse de trabajadores mexicanos para su empleo en trabajos no agrícolas en los Estados Unidos y, al propio tiempo, para asegurar que tales trabajadores sean protegidos convenientemente mientras permanezcan fuera de México, se sugieren las disposiciones siguientes para su aprobación por los representantes de los Gobiernos de ambos países.

Estas disposiciones incluyen los mismos principios fundamentales que fueron aplicados a la partida de los trabajadores de campo, conforme al convenio celebrado entre la República Mexicana y los Estados Unidos de América, de fecha 4 de agosto de 1942.

#### I. PRINCIPIOS GENERALES

1. Los nacionales de México que entren a los Estados Unidos con contrato de un departamento o dependencia apropiada del Gobierno no estarán sujetos al servicio militar en los Estados Unidos.
2. De acuerdo con los principios enunciados en el Decreto del Ejecutivo No. 8802, expedido en la Casa Blanca el 25 de junio de 1941, los nacionales de México que penetren a los Estados Unidos como resultado de cualquier entendimiento entre los dos Gobiernos, no sufrirán actos discriminatorios de ninguna naturaleza.
3. Los nacionales mexicanos que entren a los Estados Unidos para ser empleados en ese país, conforme al presente convenio, disfrutarán de las garantías de transporte, gastos de subsistencia y de repatriación que establece el artículo 29 de la Ley Federal del Trabajo de México, que es del tenor siguiente:

“Artículo 29.—Todo contrato de trabajo celebrado por trabajadores mexicanos, para la prestación de servicios fuera del país, deberá extenderse por escrito, ser legalizado por la autoridad municipal del lugar donde se celebre y visado por el Cónsul de la Nación donde deberán prestarse los servicios. Contendrá, además, como necesarios para su validez, las siguientes estipulaciones sin las cuales no podrá ser legalizado:

I.—Los gastos de transporte y alimentación del trabajador y de sus familiares, en su caso, y todos los que se originasen por el paso de las fronteras y cumplimiento de las disposiciones sobre migración o cualquier otro concepto semejante, serán por cuenta exclusiva del patrón o contratista;

II.—El trabajador percibirá íntegro el salario convenido, sin que pueda descontársele cantidad alguna por cualesquiera de los conceptos a que se refiere el inciso anterior, y

III.—El empresario o contratista otorgará fianza y constituirá depósito en efectivo en el Banco del Trabajo, y, en su defecto, en el Banco de México, a entera satisfacción de la autoridad de trabajo respectiva, por una cantidad igual a al que importen todos los gastos de repatriación del trabajador y su familia, y los de su traslado hasta el lugar de origen. Una vez que el empresario compruebe haber cubierto dichos gastos o la negativa del trabajador para volver al país, y que no adeuda al trabajador cantidad alguna por concepto de salario o indemnización a que tuviere derecho, la autoridad de trabajo ordenará la devolución del depósito o cancelará la fianza otorgada”.

Queda específicamente entendido que las disposiciones del inciso III, del artículo 29 arriba citado, no se aplicarán, por lo que hace a los Gobiernos de los Estados Unidos y México, a pesar de la inclusión del aludido inciso en el presente convenio, en vista de la obligación asumida por el Gobierno de los Estados Unidos de acuerdo con la sección III, párrafo A, parte 1 de este mismo convenio.

4. Los mexicanos que entren a los Estados Unidos conforme a este convenio no serán empleados para desplazar a otros trabajadores ni con el objeto de abatir salarios ni otras normas previamente establecidos.

## II. PROCEDIMIENTOS.

### A. *Contratos.*

1. Se celebrará un contrato entre el Gobierno de los Estados Unidos de América, que actuará por conducto del Presidente de la Comisión de Mano de Obra para la Guerra (War Manpower Commission), o su representante autorizado, y cada trabajador, bajo la vigilancia del Gobierno de México. Estos contratos se extenderán en castellano e inglés y su forma será la que apruebe el Gobierno de México.

2. El Gobierno de los Estados Unidos de América, por conducto del Presidente de la Comisión de Mano de Obra para la Guerra (War Manpower Commission) o de su representante autorizado, celebrará contratos con los empleadores en los Estados Unidos encargados de emplear a los trabajadores; los contratos estarán en armonía con los principios en que hubieren convenido los dos Gobiernos.

3. En adelante, cuando se use en el presente texto el término empleador se entenderá que significa el propietario o patrón de una empresa no agrícola en los Estados Unidos, por quien será

empleado el trabajador mexicano; y el término "trabajador" significará un trabajador mexicano que emigre a los Estados Unidos de acuerdo con el presente convenio.

*B. Admisión de Braceros en los Estados Unidos.*

1. El Servicio de Sanidad Pública de los Estados Unidos, en colaboración con las autoridades de Salubridad Pública de México, realizará exámenes físicos en el lugar de selección para cerciorarse de que cada trabajador llena los requisitos físicos exigidos por las autoridades de inmigración y por el presunto empleador.

*C. Números.*

1. El Gobierno de los Estados Unidos determinará en cada caso el número de trabajadores que se necesiten para labores no agrícolas, y periódicamente lo comunicará al Gobierno Mexicano.

2. El Gobierno de México determinará, en cada caso, el número y clase de trabajadores que puedan salir del país sin perjuicio de su economía nacional.

III. CONDICIONES BAJO LAS CUALES LOS TRABAJADORES MEXICANOS SERÁN CONTRATADOS.

*A. Transporte.*

1. Los costos íntegros del transporte (incluso la subsistencia) desde el lugar de contratación hasta el lugar de trabajo, y regreso hasta el lugar de contratación, incluso las erogaciones ocasionadas por los reglamentos de inmigración de los Estados Unidos de América, serán sufragados por el Gobierno de los Estados Unidos por conducto del Presidente de la Comisión de Mano de Obra para la Guerra (War Manpower Commission).

2. Se transportarán, a expensas de los Estados Unidos de América y por conducto del Presidente de la Comisión de Mano de Obra para la Guerra (War Manpower Commission), los efectos personales pertenecientes a cada persona transportada hasta un máximo de 35 kilos (77 libras) por persona, o el peso adicional que pudiera considerarse conveniente, en caso de que se transporte menaje de casa.

3. De acuerdo con el espíritu del artículo 29 de la Ley Federal del Trabajo de México, se entiende que el Gobierno de los Estados Unidos puede, a su elección, hacer arreglos con el empleador para que éste cubra, total o parcialmente, los costos que se originen de acuerdo con los párrafos 1 y 2 anteriores. Esto no disminuye el alcance de las obligaciones asumidas por el Gobierno de los Estados Unidos conforme a los párrafos 1 y 2 anteriores.

*B. Salarios y Trabajo.*

1. Los salarios que se pagarán a los trabajadores mexicanos, conforme al presente convenio, serán los mismos que se paguen, por trabajo análogo, a los trabajadores nacionales en el lugar de trabajo. (Si los salarios fueren cubiertos por trabajo a destajo, los tabuladores serán fijados de tal suerte que permitan al bracero de habilidad media ganar el salario standard de la región). En ningún caso los salarios serán inferiores a 46 centavos de dólar por hora.

2. Cada trabajador será empleado exclusivamente en las labores no agrícolas para las que fué contratado; y cualquier cambio a otro tipo de trabajo, dentro de esta clasificación, sólo se realizará con la aprobación expresa del trabajador y con el consentimiento del Gobierno Mexicano.
3. Los salarios serán cubiertos íntegramente, sin deducciones, excepto aquéllas que la ley exige a los trabajadores nacionales que desempeñen labores similares.
4. Queda estrictamente prohibido el trabajo a los menores de 16 años, y los menores de edad tendrán las mismas oportunidades educativas que las que disfrutaban los hijos de otros trabajadores en la misma localidad.
5. Los trabajadores domiciliados en cualquier lugar de trabajo, conforme al presente convenio, tendrán libertad para adquirir artículos para su consumo personal en donde les resulte más conveniente.
6. Los trabajadores mexicanos recibirán habitaciones higiénicas, adecuadas a las condiciones físicas de la región, del tipo de las suministradas a los trabajadores nacionales ocupados en labores análogas; los servicios sanitarios y médicos, y las facilidades de alimentación de que disfrutaban los trabajadores a que se refiere este convenio, no serán menos favorables para ellos, que las que disfrutaban otros trabajadores ocupados en labores similares en el mismo lugar de trabajo.
7. Los trabajadores que fueren admitidos conforme al presente convenio gozarán, en lo que se refiere a enfermedades y a accidentes profesionales, de las mismas garantías que se otorgan conforme a la legislación federal o estatal de los Estados Unidos a los trabajadores nacionales que desempeñan labores similares.
8. Los grupos de trabajadores, que fueren admitidos de acuerdo con el presente convenio, elegirán sus propios representantes para tratar con el empleador, con el representante debidamente autorizado del gremio o sindicato de trabajadores, o con otras personas interesadas, todo lo relativo a los asuntos originados por la interpretación o aplicación de este convenio, quedando entendido que dichos representantes deben ser trabajadores integrantes del grupo. Los Cónsules de México, auxiliados por los Inspectores de Trabajo mexicanos, que hayan sido reconocidos como tales por la Comisión de Mano de Obra para la Guerra (War Manpower Commission) procurarán, dentro de su jurisdicción correspondiente, que se tomen todas las medidas de protección en interés de los trabajadores mexicanos en todas las cuestiones que los afecten. De las quejas de los funcionarios mexicanos respectivos deberá conocer, en primera instancia, la oficina de la Comisión de Mano de Obra para la Guerra (War Manpower Commission) más cercana al lugar donde se suscite la queja. Tendrán libre acceso a los lugares de trabajo de los trabajadores mexicanos. La Comisión de Mano de Obra para

la Guerra (War Manpower Commission) cuidará que los empleadores otorguen toda clase de facilidades a los Cónsules Mexicanos y a los Inspectores de Trabajo del Gobierno Mexicano, para el cumplimiento de todas las cláusulas de este contrato.

9. A los trabajadores mexicanos se les proporcionará la oportunidad de trabajar, cada semana, el mismo número de horas laborables que a los demás trabajadores ocupados en labores análogas en el lugar de empleo. En vista de que, de acuerdo con la costumbre en los Estados Unidos, a los trabajadores no agrícolas no se les proporcionan gastos de subsistencia, por el presente Convenio se les garantiza un mínimo del 75% del tiempo completo de trabajo en cada período de pago, y cuando menos el 90% del tiempo completo durante el período total por el cual fueron contratados. La garantía a que se refiere el párrafo anterior no se aplicará en los casos en que el trabajador, teniendo oportunidad para trabajar, no quiera realizarlo o no sea competente para ello.

10. El término del contrato—que será convenido por los representantes de los dos Gobiernos—podrá prorrogarse con consentimiento del trabajador y con la aprobación del Gobierno de México.

11. A la expiración del contrato, y si el mismo no ha sido renovado, las autoridades de los Estados Unidos considerarán ilegal, desde el punto de vista migratorio, la permanencia del trabajador en los Estados Unidos, salvo los casos en que físicamente sea imposible al trabajador regresar a México.

### C. Fondo de Ahorro.

1. La Comisión de Mano de Obra para la Guerra (War Manpower Commission) tendrá la responsabilidad de la custodia de las cantidades con que contribuyan los trabajadores mexicanos para la formación de su Fondo de Ahorro, hasta que sean acreditadas al Banco de México, S.A. en alguna de las agencias que dicho Banco tiene en los Estados Unidos de América y que posteriormente será determinada por medio de un canje de notas. El Banco de México, S.A., a su vez, traspasará las sumas en cuestión al Banco del Ahorro Nacional, S.A.

2. Cada vez que la Comisión de Mano de Obra para la Guerra (War Manpower Commission) haga algunos de los depósitos a que se refiere el párrafo anterior, enviará directamente al Banco del Ahorro Nacional, S.A., un aviso que contenga los nombres de los beneficiarios y la cantidad que le corresponda a cada uno de ellos por concepto del mencionado ahorro.

### DISPOSICIONES GENERALES.

Queda entendido que la Comisión de Mano de Obra para la Guerra (War Manpower Commission) cooperará para llevar a cabo el presente Convenio con las demás dependencias del Gobierno de los Estados Unidos cuyas facultades, conforme a las leyes de los Estados Unidos, sean tales que contribuyan a su mejor ejecución. Cada

Gobierno tendrá el derecho de denunciar el presente convenio, notificando debidamente al otro, con noventa días de anticipación. Este convenio podrá ser formalizado por medio de canje de notas entre la Secretaría de Relaciones Exteriores de la República Mexicana y la Embajada de los Estados Unidos de América."

DEPARTMENT OF STATE  
WASHINGTON  
February 24, 1942.

MY DEAR DR. SALAZAR:

I refer to point 4 of the memorandum of January 29, 1942 [1] which was delivered to the Government of Ecuador by the Government of the United States at Rio de Janeiro, committing my Government to assist the Government of Ecuador in an amount not to exceed \$2,000,000 to be expended in ways which will contribute to the attainment of the objectives of that Government in matters of health and sanitation.

In fulfilment of this commitment and in accordance with Resolution XXX of the Third Meeting of the Ministers of Foreign Affairs of the American Republics at Rio de Janeiro, the Government of the United States, acting through the agency of the Coordinator of Inter-American Affairs, is sending, upon your request, a small group of experts to Ecuador in the immediate future in order to develop a specific program in agreement with the Government of Ecuador, acting through the agency of the Municipality of Quito and the Junta de Beneficencia of Guayaquil. This group will be under the immediate direction of the Chief Medical Officer of the Office of the Coordinator of Inter-American Affairs and will work in the closest cooperation with the appropriate Ecuadoran officials. Approval for the actual execution of the specific projects agreed upon will be made by the respective Governments or their duly appointed agents upon recommendation of the Chief Medical Officer, acting in cooperation with the appropriate officials of the Municipality of Quito or the Junta de Beneficencia of Guayaquil, or with appropriate officials designated by the Ecuadoran Government for such projects as might be undertaken outside of the municipal areas of Quito and Guayaquil. Expenditures for such projects shall be made upon certification of the Chief Medical Officer and the appropriate Ecuadoran official designated for the areas where projects will be executed.

The specific projects of interest to the Ecuadoran Government include:

1. *For Quito:*

1. Improvement of the sewage system.

<sup>1</sup> [Not printed.]

2. Improvement of the waste disposal system for garbage and rubbish.
  3. Expansion of a malaria control system near Quito.
  4. Improvement of disease control by means of hospitals, clinics and educational measures.
  5. General cooperation with the Ecuadoran Health Department.
2. *For Guayaquil:*
1. Improvement of the sewage system.
  2. Improvement of the waste disposal system for garbage and rubbish.
  3. Expansion of the malaria control system, including such extension of the Malecon river wall as may contribute to that objective.
  4. Extension of the plague control system by means of rodent control along the Guayaquil and Quito Railroad.
  5. Improvement of disease control by means of hospitals, clinics and educational measures.
3. In addition, in cooperation with the appropriate officials of the Ecuadoran Government, recommendations will be made by the Chief Medical Officer for such health and sanitation programs as might be executed outside the municipal areas of Quito and Guayaquil.

These projects upon completion will of course become the sole property of the Ecuadoran Government. The United States Government will be prepared to facilitate such training of Ecuadoran personnel as the two Governments may deem advisable.

The Ecuadoran Government will, it is understood, be willing to provide, in accordance with its ability, such raw materials, services and funds as may be deemed necessary for the proper carrying out of the program.

I acknowledge the receipt of your letter of February 24, 1942, in which you set forth the specific measures by which the Government of

the United States proposes to fulfill in the immediate future its commitment under point 4 of the memorandum of January 29, 1942 to contribute an amount not to exceed \$2,000,000 for expending in ways which will assist in the attainment of the objectives of my Government in matters of health and sanitation.

Under the authority granted to me by His Excellency the President of Ecuador, and His Excellency the Minister of Foreign Affairs in a telegram of February 11, 1942, [1] it is my pleasure to inform you that the projects outlined in your letter, and the terms relating thereto, are entirely satisfactory to the Government of Ecuador. I wish to assure you at this time that, once the projects have been completed and thereby become the sole property and responsibility of the Government of Ecuador, adequate measures of maintenance for the projects will be taken in order that the resulting benefits may be preserved.

*The American Minister to the Canadian Secretary of State for External Affairs*

LEGATION OF THE  
UNITED STATES OF AMERICA

No. 668

*Ottawa, Canada, May 4, 1942.*

SIR:

During the course of a conversation on April 24, 1942, Mr. Keenleyside, Assistant Under Secretary of State for External Affairs, raised the question of the southern terminus of the Alaska Highway now under construction, and inquired in particular if my Government felt that the stretch of road between railhead at Dawson Creek and Fort St. John fell within the terms of the American offer as contained in my note of March 17, 1942.

56 Stat. 1458.

The wording of the pertinent recommendation of the Permanent Joint Board on Defense, which was incorporated in my note of March 17th, dealt with "the construction of a highway along the route that follows the general line of airports, Fort St. John—Fort Nelson—Watson Lake—Whitehorse—Boundary—Big Delta, the respective termini connecting with existing roads in Canada and Alaska".

As there seemed from Mr. Keenleyside's query to be some ambiguity as to whether the word "termini" limited the length of the road to be constructed, or merely described where existing roads, irrespective of their size or carrying capacity, ended, the appropriate minutes of the Permanent Joint Board on Defense were consulted. These contain the following sentence:

"The proposed highway would have its southern terminus on the Edmonton, Dunvegan, British Columbian Railway, which has available carrying capacity substantially in excess of the possible carrying capacity of the road. Its northern terminus would be at a point about sixty miles south of Fairbanks on the Richardson Highway, which connects Fairbanks with Valdes."

In view of the foregoing, which clarifies the intent of the Permanent Joint Board on Defense, my Government believes that its offer to undertake the building and wartime maintenance of the highway does in fact include the stretch of road from Dawson Creek to Fort St. John.

As a matter of record, it would welcome a confirmation of its belief from the Canadian Government.

Accept, Sir, the renewed assurances of my highest consideration.

PIERREPONT MOFFAT.

LEGATION OF THE

*Ottawa, Canada, August 26, 1942.*

No. 744

SIR:

With a view to increasing the value of the Alaska Highway, the American authorities are anxious to undertake the construction of eight flight strips to be located along the road. The tentative sites for these strips are as follows:

- No. 1 At Dawson Creek.
- No. 2 About 50 miles south of Ft. Nelson.
- No. 3 About 75 miles west of Ft. Nelson.
- No. 4 Approximately 40 miles east of Lower Post.
- No. 5 Approximately 55 miles west of Lower Post.
- No. 6 Approximately 60 miles southeast of Whitehorse.
- No. 7 Approximately 30 miles northwest of Whitehorse.
- No. 8 About midway between Burwash Landing and Snag.

Although the flight strips will in all cases be located along the highway, they will be so placed in direction as to benefit by the prevailing wind.

My Government believes that the construction of these eight flight strips along the highway, which will result in its greater usefulness, falls within the scope and under the terms of the project as agreed to in our exchange of notes of March 17-18, 1942, but inasmuch as mention thereof was not specifically made in the text, it would welcome a confirmation from you of its belief.

SIR:

I have the honor to refer to my conversation with Mr. Keenleyside of November 11, 1942, in which, on behalf of the Government of the United States of America, I requested the approval of the Canadian Government for the construction by appropriate American agencies of the Canadian section of a road from Haines Point, Alaska, to Champagne, Yukon Territory, where it would join the Alaska (Alcan) Highway which is now being constructed according to agreement between our two Governments.

As I pointed out, the construction of this cut-off road would give the United States Army additional facilities for distributing supplies in Yukon and Alaska by truck, and would materially supplement the quantity of freight that can now be moved into the Whitehorse area over the narrow gauge White Pass and Yukon Railway.

The Canadian Government was good enough to inform me orally on November 19, 1942, that it authorized the construction of that part of the Haines-Champagne road which lies in Canada and I have been directed to express the appreciation of the United States Government for this new mark of Canadian cooperation.

My Government has now instructed me to propose to the Canadian Government that the Haines-Champagne cut-off road shall henceforth be considered an integral part of the Alcan Highway, subject in all applicable respects to the terms of the agreement reached in our exchange of notes of March 17-18, 1942.

This proposal appears to be covered by the decision of the War Committee on November 18, 1942, that permission be given to the United States to construct the Highway on the understanding that terms would be worked out between the two countries similar to those in effect for the Alaska Highway.

SIR,—

I have the honour to refer to the suggestions made by the Legation some years ago, and renewed in the Legation's Memorandum of December 4, 1941,<sup>[1]</sup> regarding the granting of the privilege of free import after first arrival to several categories of United States officials in Canada who do not at present receive it.

2. After careful consideration, the Canadian Government has decided that it would be willing to grant this privilege to Consuls and Vice Consuls of career but not to any other United States officials in Canada who do not at present receive it. The Canadian Government's proposal is, of course, conditional on reciprocity. In view of the fact that Canada does not have any Consuls or Vice Consuls in the United States, and is not likely to have a large number of them for many years, it is desired that the privilege of free import after first arrival be given to Canadian Trade Commissioners and Assistant Trade Commissioners in the United States, as well as to Canadian Consuls and Vice Consuls of career, if and when any should be appointed.

3. The Canadian Government has also had under consideration another aspect of the Customs Regulations, namely, the right of free entry on first arrival for United States Government employees who are not expressly given that privilege by the Regulations under Tariff Item 706 e. g. clerks of the United States Legation and of Consulates, officers and employees of the United States Customs offices, etc. In practice such persons are given free entry on first arrival by entering them as "Settlers". I understand that in the United States a similar procedure is used to grant free entry on first arrival to non-diplomatic employees of the Canadian Government.

4. We propose that the privilege of free entry on first arrival should be expressly extended to all employees (of United States nationality)

<sup>1</sup> [Not printed.]

of the United States Government sent to posts in Canada and to all employees (of Canadian nationality) of the Canadian Government sent to posts in the United States. This free entry on first arrival should cover private automobiles, but not spirituous liquors.

5. I should be glad to learn whether the proposals set forth above are acceptable to the United States Government. If they are, I should like to know whether your Government desires to have a formal exchange of notes suitable for publication, or whether this Note and your reply will be sufficient.

Accept, Sir, the renewed assurances of my highest consideration.

SIR:

U. S. consuls and  
vice consuls.

I have the honor to refer to your note No. 113 of July 21, 1942, regarding the extension of the free importation privilege to American consuls and vice consuls of career on a basis of reciprocity, which would include on the part of Canadians in the United States, trade commissioners and assistant trade commissioners, since the Canadian Government does not now have consuls or vice consuls in the United States.

Free entry on first  
arrival to certain U. S.  
employees.

It has been noted that the Canadian Government is also willing, on a basis of reciprocity, to affirm its previous practice of granting free entry on first arrival to United States Government employees, other than diplomatic and consular officers, which would include clerks of the United States Legation and Consulates and officers and employees of the United States Customs offices. It has also been noted that the Canadian Government is unwilling to have free entry on first arrival for these employees include spirituous liquors.

Reciprocal privileges  
to designated officials,  
etc., of Canadian Gov-  
ernment.

I have now been instructed to inform you that my Government is prepared to accord, reciprocally, to Canadian consuls and vice consuls, should such officers be assigned to the United States, and to Canadian trade commissioners and assistant trade commissioners who are Canadian nationals and not engaged in any private occupation for gain, the privilege of importing articles, the importation of which is not prohibited, for their personal use free of duty upon their first arrival, upon their return from leave of absence spent abroad and during the time they are stationed in the United States. Furthermore, my Government is prepared to admit free of duty, on a reciprocal basis, all articles, except spirituous liquors and articles the importation

of which is prohibited, imported on first arrival for their personal use by Government employees of Canada other than diplomatic and consular officers, trade commissioners and assistant trade commissioners who are Canadian nationals and not engaged in any private occupation for gain.

I shall appreciate receiving confirmation that the Canadian Government is prepared, reciprocally, to grant the same privileges to like American officers and employees, and, if this be the case, I suggest that this note and your reply thereto be considered as concluding the agreement on this subject between our two Governments, which shall remain in effect until terminated by either Government.

*Memorandum of agreement between the United States of America, Argentina, Australia, Canada, and the United Kingdom respecting wheat. Initialed at Washington April 22, 1942; effective June 27, 1942. And related papers.*

### MEMORANDUM OF AGREEMENT

Washington Wheat Meeting.

1. Officials of Argentina, Australia, Canada and the United States, wheat exporting countries, and of the United Kingdom, a wheat importing country, met in Washington on July 10, 1941 to resume the wheat discussions which were interrupted in London by the outbreak of war in September 1939 and to consider what steps might be taken toward a solution of the international wheat problem.

Draft Convention.  
Post, p. 1384.

2. The discussions at Washington, which extended over a period of many months, have made it clear that a satisfactory solution of the problem requires an international wheat agreement and that such an agreement requires a conference of the nations willing to participate which have a substantial interest in international trade in wheat. It was also recognized that pending the holding of such a conference the situation should not be allowed to deteriorate. The Washington Wheat Meeting has recorded the results of its deliberations in the attached Draft Convention in order to facilitate further international consideration of the subject at such time as may be possible and to provide a basis for such interim measures as may be found necessary.

Submission of Draft Convention to proposed conference.

3. The Washington Wheat Meeting has recognized that it is impracticable to convene at the present time the international wheat conference referred to above. Accordingly, the five countries present at that Meeting have agreed that the United States, so soon as after consultation with other countries it deems the time propitious, should convene a wheat conference of the nations having a substantial interest in international trade in wheat which are willing to participate, and that the Draft Convention above mentioned should be submitted to that conference for consideration.

Wheat for relief in war-stricken, etc., areas.

4. In the meantime there should be no delay in the provision of wheat for relief in war-stricken and other necessitous areas so soon as in the view of the five countries circumstances permit. Likewise it is imperative that the absence of control measures over the accumulation of stocks in the four countries now producing large quantities of wheat for markets no longer available should not create insoluble problems for a future conference. Accordingly, the five countries have agreed to regard as in effect among themselves, pending the conclusions of the conference referred to above, those arrangements described in the attached Draft Convention which are necessary to the administration and distribution of the relief pool of wheat and to the control of production of wheat other than those involving the control of exports.

Arrangements in effect.

5. If the conference contemplated above shall have met and concluded an agreement prior to the cessation of hostilities, no further action will be needed by the countries represented at the Washington Meeting. However, if this is not the case, it will be necessary, in order to prevent disorganization and confusion in international trade in wheat, to institute temporary controls pending the conclusions of the conference. Accordingly the five countries agree that in the period following the cessation of hostilities and pending the conclusion of a wheat agreement at the conference referred to the arrangements described in the attached Draft Convention which relate to the control of production, stocks and exports of wheat and to the administration thereof will be brought into effect among themselves. Those arrangements will come into effect on such date as may be unanimously agreed. Announcement of that date will be made within six months after the cessation of hostilities.

If agreement concluded prior to cessation of hostilities.

Temporary controls.

6. Pending the conclusions of the conference contemplated above, the five countries, on the cessation of hostilities or such earlier date as they may agree, will regard as in effect among themselves the arrangements described in the attached Draft Convention for the control of the prices of wheat. The determination of prices required to be made in accordance with those arrangements will be made by unanimous consent. If no determination of prices has been made on the cessation of hostilities, the five countries will, pending such determination but for a period not exceeding six months, maintain as the export price of wheat the last price negotiated by the United Kingdom for a bulk purchase of wheat from the principal country of supply: equivalent f.o.b. prices will be calculated for wheats of the other exporting countries and will be adjusted from time to time to meet substantial changes in freight and exchange rates.

Prices of wheat.

7. In taking any decisions under this Memorandum and the arrangements of the Draft Convention which it brings into operation each of the five countries will have one vote and a two-thirds majority will be required for decision except as otherwise provided herein.

Decisions taken under Memorandum and Draft Convention.

8. The provisions of this Memorandum will be superseded by any agreement reached at the proposed wheat conference or by any arrangements which the five countries and other interested countries may make to deal with the period pending such a conference. In any event they are to terminate two years from the cessation of hostilities.

## DRAFT CONVENTION

## PREAMBLE

Accumulation of  
wheat surpluses.

1. The prospects with regard to the production and marketing of wheat are such that accumulation of wheat surpluses threatens to result in grave post-war difficulties for the economies of the producing countries and hence, because of the interdependence of nations, for the economies of all countries. It is also to be expected that, unless appropriate action is taken, such accumulation will recur.

2. A solution of the problem thus presented must be regarded as an essential part of any program of world economic reconstruction and will call for cooperative action by all countries concerned in international trade in wheat. It will involve national and international measures for the regulation of wheat production in both exporting and importing countries, for the orderly distribution of wheat and flour in domestic and international trade at such prices as are fair to consumers and provide a reasonable remuneration to producers and for the maintenance of world supplies which shall be at all times ample for the needs of consumers without being so excessive as to create a world burden of unwanted surpluses.

Relief in war-strick-  
en areas.

3. Cooperative action is also necessary to meet the need for relief in the war-stricken areas of the world by the supply and distribution of gifts of wheat.

Measures necessary  
to assure benefits of  
abundant supplies.

4. The benefits of abundant world supplies of wheat cannot be assured to consumers unless there is a substantial decrease in uneconomic incentives to high-cost production, a lowering of barriers to world trade and the charging of prices to consumers not substantially higher than the price of wheat in international trade.

5. In many countries the standard of living would be improved by increasing the consumption of wheat through a lowering of prices. In all countries the standard of living would be improved by stimulating the consumption of foods rich in vitamins, proteins and minerals. The increased production of such foods would offer a more valuable use for land which has at times been used uneconomically for high-cost production of wheat.

6. Producers of an international commodity such as wheat are directly affected by standards of living throughout the world, by international purchasing power and by prevailing policies and practices affecting international trade generally. There can be no basic solution of the problem of export surpluses without a general reduction of import barriers and no measure should be taken or maintained which has the effect of retarding such reduction or of preventing in any way the fullest possible development of international trade.

Agreement.

Accordingly the contracting Governments have agreed as follows:

## ARTICLE I (EXPANSION OF TRADE)

1. The contracting Governments agree that an essential element of a solution of the world wheat problem is that consumers should

have the opportunity and means of increasing their purchases of wheat from areas which are equipped to produce it economically. They agree that such opportunity and means depend not only on the lowering of barriers to the importation of wheat but also on making available to wheat importing countries increased outlets for the exportation of goods which they in turn are equipped to produce economically. They agree that this requires the adoption and pursuit of national and international policies aimed at a fuller and more efficient use among nations of human and natural resources and thereby a world-wide expansion of purchasing power.

2. Recognizing therefore that much that is called for transcends the scope of a wheat agreement and requires action on a broad international basis, but that much also can be accomplished by national measures and by agreements with each other and with other countries, the contracting Governments undertake to further in every way possible the attainment of the foregoing objectives.

3. The Council shall from time to time submit to the contracting Governments a review of international trade in wheat and invite them to consider, in the light of the foregoing, what measures may be adopted for the expansion of such trade.

Review of international trade in wheat.

#### ARTICLE II (PRODUCTION CONTROL)\*

1. The Governments of Argentina, Australia, Canada and the United States of America shall adopt suitable measures to ensure that the production of wheat in their territories does not exceed the quantity needed for domestic requirements and the basic export quotas and maximum reserve stocks for which provision is hereinafter made.

2. Should nevertheless production in any country be found to have exceeded in any crop-year the quantity above prescribed, the Government of that country shall before the end of that crop-year take such action as will result in the disappearance of the excess production within its territories before the end of the following crop-year or shall otherwise deal with such excess production as the Council may direct, except that if any part of the excess production is shown to the satisfaction of the Council to be due to a yield above the average of the preceding 20 years the Government of the country concerned may carry that part as provided in paragraph 3 (a) of Article III or deal with it in such other manner as may be agreed with the Council.

Disposition of excess production.

3. Pending the coming into force of paragraphs 1 and 2 of this Article, the Governments of Argentina, Australia, Canada and the United States of America shall adopt or maintain positive measures to control production with the object of minimizing the accumulation of excessive stocks.

Interim measures.

\* NOTE: This Article to be expanded, when further international consideration of the subject is possible, to include provisions for production control in other exporting countries and in importing countries.

## ARTICLE III (STOCKS)

Minimum and maximum stocks of old wheat.

1. The Governments of Argentina, Australia, Canada and the United States of America shall, subject to the provisions of paragraphs 2, 3, 4 and 5 of this Article, ensure that stocks of old wheat held at the end of their respective crop years are not less than 35, 25, 80 and 150 million bushels respectively, and not more than 130, 80, 275 and 400 million bushels respectively. Any stocks not in excess of the specified maximum are hereinafter called "reserve stocks".

"Reserve stocks."

Stocks below minimum.

2. Stocks of old wheat in any country may be permitted to fall below the specified minimum (a) if the new crop together with the carry-over from the previous crop-year is insufficient to meet domestic requirements and leave at the end of that crop-year the minimum reserve stocks specified, in which case those stocks may be reduced by the amount necessary fully to meet domestic requirements, and (b) in so far as the Council decides that exports from the minimum reserve stocks of that country are required fully to meet the world demand for imported wheat.

Stocks above maximum.

3. Stocks of old wheat may exceed the maximum by (a) the quantity of permitted excess stocks ascertained under paragraph 4 of this Article and (b) the quantity of permitted surplus stocks ascertained under paragraph 5 of this Article.

Permitted excess stocks.

4. Such part of excess production in the first crop-year in which it occurs following the crop-year in which Article IV comes into force as may be shown under paragraph 2 of Article II to be due to above average yields shall be permitted excess stocks at the end of that crop-year. The permitted excess stocks at the end of each succeeding crop-year shall be ascertained by the Council by deducting from the permitted excess stocks, if any, at the end of the preceding crop-year any quantity by which production in the crop-year then ending was less than the maximum prescribed in paragraph 1 of Article II or by adding thereto such part of any excess production in that crop-year as may be shown under paragraph 2 of Article II to be due to above average yields.

Permitted surplus stocks.

5. Stocks in excess of the maximum, as ascertained by the Council, at the end of the crop-year in which announcement is made of the date on which the provisions of Articles II, III and IV will come into effect shall be permitted surplus stocks, unless that announcement is made less than 45 days prior to the beginning of the seeding period for the next harvest in which case stocks in excess of the maximum at the end of the succeeding crop-year shall be permitted surplus stocks. Permitted surplus stocks at the end of each succeeding crop-year shall be ascertained by the Council by deducting from the permitted surplus stocks at the end of the preceding crop-year (a) any secondary or supplementary export quotas allocated in the crop-year then ending and (b) any quantity by which production in that crop-year plus the permitted excess stocks at the end of the preceding crop-year was less than the maximum production prescribed in paragraph 1 of Article II.

6. Should it be shown to the satisfaction of the Council that, owing to insufficient or defective storage facilities, any part of the permitted surplus stocks in any country has been destroyed or has been disposed of by governmental measures in a manner clearly constituting extraordinary use such part shall nevertheless be counted as permitted surplus stocks for the purposes of paragraphs 3 and 4 of Article IV so long as any other permitted surplus stocks remain in that country.

7. The Council shall

Ascertainments and estimates.

(a) at its regular August meeting ascertain the permitted surplus stocks in Canada and the United States of America at the end of their preceding crop-years and estimate such stocks in Argentina and Australia at the end of their current crop-years

and

(b) at its regular January meeting ascertain the permitted surplus stocks in Argentina and Australia at the end of their preceding crop-years and estimate such stocks in Canada and the United States of America at the end of their current crop-years.

#### ARTICLE IV (EXPORT CONTROL)

1. The contracting Government of each exporting country shall adopt the measures necessary to ensure that net exports of wheat, including flour expressed in terms of its wheat equivalent, from its territories in each quota-year shall not, subject to the provisions of paragraph 11 of this Article, exceed the basic, secondary and supplementary export quotas for which provision is hereinafter made. It is recognized in principle that, within the framework of this Agreement, wheat from each exporting country should continue to find its way into its normal markets.

2. The basic export quotas for Argentina, Australia, Canada and the United States of America shall, subject to the provisions of paragraph 3 of this Article, be 25, 19, 40 and 16 percent respectively of the Council's latest published estimate of the total volume of international trade in wheat and flour in each quota-year less (a) such basic export quotas for other exporting countries as may be agreed under Article XIV and (b) reasonable allowances, having due regard to exports in past years, for net exports from the territories of Governments not parties to the Agreement.

Basic export quotas.

3. Should the residual quantity ascertained under paragraph 2 of this Article exceed 500 million bushels in any quota-year, the excess shall be allocated to Argentina, Australia, Canada and the United States of America as secondary export quotas. Allocations made in the first half of the quota-year shall be in proportion to permitted surplus stocks as determined under paragraph 7 (a) of Article III and allocations made in the second half of the quota-year shall be in proportion to permitted surplus stocks as determined under paragraph 7 (b) of Article III. Should there be no permitted surplus stocks in any of those four countries the excess shall be allocated to those

Secondary export quotas.

countries as secondary export quotas in proportion to their basic export quotas.

Supplementary export quotas.

4. If the Council is satisfied that any part of any country's export quota or of the allowance made for its exports for any quota-year will not be exported by that country in that quota-year, it shall, subject to the provisions of paragraph 6 of this Article, re-allocate that part as supplementary export quotas to the other exporting countries in accordance with the procedure prescribed in paragraph 3 of this Article for the allocation of secondary export quotas. Should there be no permitted surplus stocks in any of those countries that part shall, unless the Council otherwise decides, be re-allocated as supplementary export quotas to those of the other exporting countries which have percentage export quotas in proportion to those quotas.

Right to export full export quota.

5. No decisions taken by the Council pursuant to paragraph 4 of this Article shall prejudice the right of any country to export its full export quota within the quota-year to which it relates.

Failure to export owing to shortage of shipping.

6. Should it be shown to the satisfaction of the Council that the failure of any country to ship any part of its export quota during the first quota-year is due to shortage of shipping, the amount of the supplementary export quotas allocated to other countries in respect of such part shall be deducted from the basic export quotas of those countries for the second quota-year and added to the aforementioned country's basic export quota for the second quota-year.

Shipment of export quota during quota-year.

7. No export quota or part thereof shall be exported in any quota-year other than that to which it relates, except as otherwise provided in this Article. Should it nevertheless be shown to the satisfaction of the Council that, owing to unavoidable delay in the arrival or departure of ships, part of an export quota had not been shipped at the end of the quota-year that part may be shipped in the following quota-year but shall be deemed to have been shipped in the quota-year to which it relates.

Transfers, etc., of export quotas.

8. No export quota or part thereof shall be ceded, transferred or loaned by any country except as provided in this Article or with the unanimous approval of the contracting Governments of exporting countries.

When limit of export quota is approached.

9. When it appears that any country is approaching the limit of its export quota, the Chairman of the Council on the recommendation of the Executive Committee shall request the Government of that country to control loadings for export during the remainder of the quota-year and to telegraph each week to the Council the gross exports and gross imports of wheat and of wheat flour from and into its territories during the preceding week.

Declaration of quota-year exportation.

10. When the Chairman of the Council after consultation with the Executive Committee finds that any country has exported its export quota for any quota-year he shall immediately make a declaration to that effect. The contracting Government of the exporting country concerned shall thereupon announce that the exportation of wheat or flour from its territories will not be permitted after seven days from the date of the Chairman's declaration and the contracting Government

of each importing country shall not permit the importation into its territories of wheat or flour shipped from that exporting country during the current quota-year more than seven days after the date of the Chairman's declaration.

11. Should it be found that, owing to practical difficulties of closely controlling shipments, exports from any country have exceeded its export quota, that country shall not be deemed to have infringed the provisions of paragraph 1 of this Article so long as the excess is not more than 5 percent of the quota, but the amount of that excess up to 3 percent of the quota and three times the amount of that excess above 3 percent of the quota shall be deducted from that country's export quota for the following quota-year.

Deductions from export quota for following quota-year.

12. The contracting Governments recognize that international trade in wheat should be distributed on a fair and equitable basis among all countries which export wheat and they agree that the effective operation of the Agreement should not be impaired by abnormal exports from countries that have not acceded to it. Accordingly the contracting Governments shall cooperate in taking, on the advice of the Council, such practicable measures as may be necessary to attain this end.

Abnormal exports from nonacceding countries.

#### ARTICLE V (PRICE CONTROL)

1. The Council shall fix and publish prior to the coming into force of Article IV and thereafter at each regular August meeting a basic minimum price and a basic maximum price of wheat, c.i.f. United Kingdom ports, and schedules of prices, c.i.f. and/or f.o.b., equivalent thereto for the various wheats sold in world markets. These prices shall take effect on such date as may be determined by the Council and shall remain in force until the effective date of the prices fixed by the Council at its next regular August meeting but shall be subject to such adjustments as the Council may find necessary to meet substantial changes in freight or exchange rates or as may be made in accordance with the provisions of paragraph 3 of this Article.

Publication of fixed basic prices.

2. The prices fixed under paragraph 1 of this Article shall be such as will in the opinion of the Council (a) return reasonably remunerative prices to producers in exporting countries, (b) be fair to consumers in importing countries, (c) be in reasonable relationship to prices of other commodities and (d) make appropriate allowance for exchange rates and transportation costs.

3. Should the Council so decide the basic minimum and maximum prices of wheat and the schedules of prices equivalent thereto shall be adjusted at monthly or other intervals to allow for carrying charges.

Adjustments for carrying charges.

4. The Governments of Argentina, Australia, Canada and the United States of America shall not, after the coming into force of paragraph 1 of this Article, sell or permit the sale of wheat for export, or to millers for producing flour for export, at prices below the minimum equivalents fixed by the Council under paragraph 1 or 3 of this Article.

Sales at prices below minimum equivalents.

Sales at f. o. b. prices  
within maximum  
equivalents.

5. The Governments of Argentina, Australia, Canada and the United States of America shall ensure that wheat for export is at all times on sale at f.o.b. prices not in excess of the maximum equivalents fixed by the Council under paragraph 1 or 3 of this Article.

#### ARTICLE VI (RELIEF POOL)

Intergovernmental  
relief in war-stricken,  
etc., areas.

1. The Governments of Argentina, Australia, Canada, the United Kingdom and the United States of America shall establish a pool of wheat which will be available for intergovernmental relief in war-stricken countries and other necessitous areas of the world, where circumstances in the view of those Governments make such relief practicable.

Contributions.

2. The Governments of Canada, the United Kingdom and the United States of America shall give to the pool, as and when required by the Council, 25, 25 and 50 million bushels respectively of wheat, or its equivalent in whole or part in flour, f.o.b. seaboard port in the country of origin.

3. The Governments of Argentina, Australia, Canada and the United States of America shall, as and when required by the Council, give to the pool in addition to the contributions prescribed in paragraph 2 of this Article a quantity of wheat or its equivalent in whole or part in flour, f.o.b. seaboard port, to be determined by them in consultation with the Council and on such basis as may be agreed among them.

Administration of  
relief pool.

4. The Council shall be responsible for the administration of the relief pool and shall, wherever possible, arrange for the distribution of relief wheat through such intergovernmental relief body as may be set up and given general responsibility for the distribution of relief. Should the Council decide to make relief wheat or flour available to any necessitous area in which the intergovernmental relief body has not the organization necessary for the distribution of such wheat or flour the Council shall arrange with the appropriate authorities to distribute such wheat or flour in that area. Any arrangements for the distribution of relief wheat shall be such as to minimize, so far as the provision of sufficient relief permits, the reduction of the effective demand for wheat on sale.

Transportation in  
lieu of wheat or flour.

5. The United Kingdom Government may, if so agreed by the Council after consultation with the intergovernmental relief body, contribute transportation of relief wheat or flour in lieu of part or all of its contribution under paragraph 2 of this Article.

Advances for im-  
mediate relief.

6. Any contributing Government shall, if the Council after consultation with the intergovernmental relief body so requests and upon such terms of replacement as may be agreed with the Council, make, pending the arrival of contributions by other Governments, advances of such wheat or flour as that Government may consider practicable to release for immediate relief.

Additional contri-  
butions.

7. Should the Council consider or be advised by the intergovernmental relief body that the quantity of relief wheat contributed under paragraphs 2, 3 and 5 of this Article appears likely to prove insuf-

ficient, the Council shall make recommendations to the contracting Governments regarding additional contributions.

8. The Council shall instruct the Executive Committee (a) to facilitate the transfer of relief wheat and flour from the national wheat-handling organizations of the contributing Governments to the inter-governmental relief body, (b) to maintain effective liaison between the national wheat-handling and shipping organizations of the contributing Governments and international shipping and transport controls and (c) generally to consult with the intergovernmental relief body regarding all transactions relating to the relief pool.

Duties of Executive Committee.

9. Should the Council receive, at any time after the completion of the relief to which the provisions of paragraphs 1 to 8 of this Article relate, an appeal for relief wheat or flour from any Government to relieve famine in any area within the jurisdiction of that Government, the Council shall investigate the possibilities of meeting such an appeal and report to the contracting Governments its findings together with its recommendations.

Appeal to relieve famine.

#### ARTICLE VII (THE COUNCIL)\*

1. This Agreement shall be administered by an International Wheat Council consisting of one or more delegates of each contracting Government.

Investigation of wheat storage facilities.

14. The Council shall, upon the request of any contracting Government of an exporting country, investigate the possibility of meeting the needs of that country for wheat storage facilities to maintain in a good state of preservation such stocks of wheat as may accumulate prior to the coming into force of Article IV. The Council shall report to the contracting Governments its findings together with its recommendations.

Estimates of international trade.

15. The Council shall at its regular August meeting make and publish, with such detail as it considers desirable, an estimate of the total volume of international trade in wheat and flour in the current quota-year and shall from time to time review that estimate and publish such revised estimates as it may make.

Annual report.

16. The Council shall publish an annual report on the operation of the Agreement which shall include a summary of relevant statistics and such other material as the Council may determine. The Council may authorize the publication of such other reports as it considers appropriate. Reports shall be published in English and in any other languages that the Council may determine.

Performance by Council of functions of Executive Committee.

17. Pending the establishment of the Executive Committee under Article VIII, the Council shall itself perform the functions assigned by the Agreement to that Committee.

Assets, etc., of Wheat Advisory Committee.

18. The Council may arrange to take over the assets and liabilities of the Wheat Advisory Committee upon the dissolution of that body on such terms as may be agreed with it.

### ARTICLE VIII (THE EXECUTIVE COMMITTEE)

3. If the Government of Argentina, of Australia, of Canada or of the United States of America withdraws from the Agreement, the Agreement shall thereupon terminate, unless the Council, by three-fourths of the total votes held in the Council, decides to maintain the Agreement with whatever modifications it may deem necessary.

EXCELLENCY:

I have the honor to refer to Your Excellency's Note No. 402 of May 14, 1943 [<sup>1</sup>] transmitting for my consideration the revised draft of the Spanish text of the agreement for the establishment of the Inter-American Cooperative Food Production Service, and to inform Your Excellency that except for two minor changes in wording I concur in Your Excellency's opinion that this Spanish text is satisfactory.

These two minor changes, which have been informally discussed with Mr. Moravsky, the Director of Agriculture, are:

1. Page 3, Clause Six, line 11 of the Spanish draft, to be altered to read in English as follows: "but, without prejudice to the immediately preceding provisions of this sentence, the necessary steps will so far as possible be taken to obtain those"

2. Page 3, Clause Nine, next to last line, the insertion after the words "labores oficiales", of the following new sentence which in English reads: "The members of the Food Production Mission of the Institute of Inter-American Affairs will not pay to Peru any direct tax on salaries when they are subject to such a tax by the United States of America".

In view of Mr. Moravsky's verbal statement that the above two minor changes are acceptable, I have pleasure in transmitting as an enclosure to this Note an original and one copy of the English text of this *Memorandum of Agreement*. Providing you perceive no objection, I shall also, immediately on receipt from Your Excellency of the agreed-upon Spanish text, forward that document to my Government with the statement that this exchange of notes constitutes the agreement for the establishment of the Inter-American Cooperative Food Production Service in Peru.

With respect to your Government's desire, expressed in Your Excellency's Note under reference, that the Service assist, by means of its specialized technical personnel, in the problems of transportation and distribution of food products which, while connected with the gen-

Such technical assistance, it may be observed, would seem to be provided for under the terms of the final paragraph of the *Memorandum of Agreement*.

No. 710

SIR:

1. I have the honor to refer to recent conversations which have taken place with officials of the Department of External Affairs regarding the desire of the United States Government to take steps for extending the fuel supply for the United States Army in Canada and Alaska.

Extension of fuel supply for U. S. Army.

2. My Government, faced with the necessity of obtaining an increased fuel supply without delay, desires to propose the following project, to wit: that it:

Functions of U. S. Government.

(a) Make surveys and construct a pipeline either by United States Army Engineers or by contract, of a size sufficient to deliver three thousand barrels of oil daily from Norman Wells, Northwest Territories, Canada, to Whitehorse, Yukon Territory, Canada;

Surveys and construction of pipeline.

(b) Sign a contract with a Canadian company to drill additional wells, upon its leases obtained under the Petroleum and Natural Gas Regulations applicable to Dominion Lands or upon permits obtained by it under the Oil and Gas Regulations covering land in the vicinity of Norman Wells. Under this contract the United States War Department would provide the necessary equipment and would purchase the total flow of the additional wells during the war at an agreed price. The wells would remain part of the leasehold or permit property of the Canadian company and would be regarded as having been drilled under the provisions of the Dominion Regulations noted in this clause;

Contract to drill additional wells.

(c) Arrange for the establishment at Whitehorse of facilities for refining crude oil with a capacity of three thousand barrels per day under a contract awarded with a view to insuring the execution of the work in the shortest possible time without regard to whether the contractors are Canadian or American;

Facilities for refining crude oil.

(d) Contract with a company or companies to store for the future use of the United States Army, all of the gasoline which

may be produced by the refinery at Norman Wells during the operating season of 1942 in excess of what is required for the maintenance of services and enterprises in the Mackenzie District, to operate the pipeline to Whitehorse and to operate the refinery there unless it is operated by the United States Government.

Ownership, etc., of pipeline and refinery.

3. My Government further proposes that the pipeline and the refinery shall remain its property, and shall be operated under contracts with it or by its agents or representatives during the war. It further proposes that at the termination of hostilities the pipeline and refinery shall be valued by two valuers, of whom one shall be named by the United States and one by Canada, with power, if they disagree, to appoint an umpire. The valuation shall be based upon the then commercial value of the pipeline and the refinery, and the Canadian Government shall be given the first option to purchase at the amount of the valuation. If the option is not exercised within three months, they may be offered for sale by public tender, with the amount of the valuation as the reserve price. In the event that neither the Canadian Government nor any private company desires to purchase the pipeline and refinery at the agreed price, the disposition of both facilities shall be referred to the Permanent Joint Board on Defense for consideration and recommendation. Additionally, it is proposed that both Governments agree that they will not themselves order or allow the dismantling of either the pipeline or the refinery, nor will they allow any company which purchases them so to do, unless and until approval for dismantlement is recommended by the Permanent Joint Board on Defense. It is understood that if the pipeline and refinery are at any time used for commercial purposes they will be subject to such regulations and conditions as the Canadian Government may consider it necessary to impose in order to safeguard the public interest.

Restriction on dismantling of pipeline and refinery.

Use for commercial purposes.

Functions of Canadian Government.

Acquisition of land and rights of way.

Waiver of duties, taxes, and fees.

Remission of royalties and income tax.

Admission into Canada of U. S. citizens.

4. For its part, my Government asks the Canadian Government to agree:

- (a) to acquire any essential land and necessary rights of way that may be involved in the projects (including the settlement of all local claims in this connection), title to remain in the Crown in the right of Canada;
- (b) to waive during the war import duties, sales taxes, territorial taxes, license fees or other similar charges on all equipment and supplies to be used in the execution or maintenance of the project by the United States and all personal effects of the construction personnel;
- (c) to remit during the war royalties on oil production, and income tax on the income of persons (including corporations) resident in the United States who are employed on the construction or maintenance of the project;
- (d) to take the necessary steps to facilitate the admission into Canada of such United States citizens as may be employed on the construction or maintenance of the project during

Repatriation.

the war, it being understood that the United States will undertake to repatriate at its expense any such persons if the contractors fail to do so.

5. If the Government of Canada agrees to the foregoing proposal for this project, it is suggested that any supplementary details involved in its execution be arranged directly between the appropriate governmental agencies subject, when desirable, to confirmation by subsequent exchange of notes.

Accept, Sir, the renewed assurances of my highest consideration.

SIR,

I have the honour to acknowledge the receipt of your Note of June 27, 1942, No. 710, which made certain proposals in regard to the steps to be taken for the purpose of extending the fuel supply for the United States Army in Canada and Alaska.

The proposals made in your Note under reference have been examined by the appropriate authorities of the Canadian Government and it gives me pleasure to inform you that those proposals are accepted. So far as Canada is concerned the agreement which is effected by this exchange of notes will be considered to have come into effect on this date.

SIR:

I have the honor to refer to my conversation with Mr. Keenleyside on June 26 last, in which on behalf of the Government of the United States I requested the approval of the Canadian Government for the establishment of an oil supply line which would be supplementary to that known as the Canol project which was dealt with in my note of June 27 and your reply of June 29, 1942.

*Ante*, pp. 1413, 1415.

As I pointed out, this supplementary project would involve the transportation in tank cars of gasoline destined for the use of the United States Army in Alaska to Prince Rupert, where authority was requested for the American Government to build by contract suitable storage and loading facilities, and thence by barge to Skagway, Alaska. From Skagway to Whitehorse a four-inch pipeline would be laid under contracts let by the American Government, and the authority of the Canadian Government was requested to lay that section of the pipeline within Canadian territory. At Whitehorse the gasoline would be stored in the facilities being built under the Canol project.

The Canadian Government was good enough to inform me orally on June 27 that it approved the establishment of the new supply line as outlined in the preceding paragraph.

My Government has instructed me to propose to the Canadian Government that the terms of the agreement reached in the exchange of notes of June 27-June 29, 1942, on the Canol project shall apply also, *mutatis mutandis*, to the supplementary project outlined above in respect of any construction within Canadian territory except as hereafter set forth. My Government proposes that the pipeline from Skagway to Whitehorse and the storage and loading facilities at Prince Rupert shall remain its property and shall be operated under contracts with it or by its agents or representatives during the war. It further proposes that at the termination of the hostilities the two governments agree that at the request of either government discussions between them shall be undertaken with a view to reaching an agreement in regard to the disposition of this pipeline and of the

storage and loading facilities at Prince Rupert. Additionally, it is proposed that both governments agree that they will not themselves order or allow the dismantlement of this pipeline or of the facilities mentioned, nor will they allow their dismantlement by any company which may purchase them unless and until approval for dismantlement is recommended by the Permanent Joint Board on Defence.

LEGATION OF THE

No. 818

SIR:

*Ante*, pp. 1413, 1415.

I have the honor to refer to our exchange of notes of June 27 and June 29, 1942, regarding the desire of the United States Government to take steps for extending the fuel supply for the U. S. Army in Canada and Alaska. At that time the United States Government proposed, and the Canadian Government approved, the so-called Canol Project which included, *inter alia*, the drilling of wells in the vicinity of Norman Wells, and the laying of a pipeline from Norman Wells to Whitehorse, capable of delivering 3,000 barrels of oil daily.

The developments of our joint war effort have in the opinion of my Government made it vitally necessary to discover additional sources of petroleum in northwestern Canada and Alaska, capable of producing from 15,000 to 20,000 barrels per day, to supplement the supply which will be obtained from Norman Wells. This will require the drilling of exploratory, or in oil parlance "wildcat" wells in this northern region. As such operations should be conducted in a number of widely separated locations in the Northwest Territories, where oil is believed to exist, it is suggested that the area in Canada within which such operations are authorized be bounded on the north by the Arctic Ocean, on the east by the 112th meridian, on the south by the 60th parallel, on the west by the Continental Divide and the Alaska-Canadian Border.

The operations under immediate contemplation,—as a result of which, however, it may prove desirable to enlarge or expand the Canol Project—are for the sole purpose of discovering oil fields capable of producing the required 20,000 barrels per day. No plans have as yet been worked out covering the refineries, storage or distribution systems beyond those already authorized and approved by the Canadian Government.

In view of all the circumstances involved, and the increasingly urgent need of additional fuel for military purposes in the far north, the Government of the United States of America hopes that the Canadian Government will approve these exploratory operations with the understanding that the United States Army authorities be allowed

during the war to drill through contract with one or more companies either Canadian or American, to develop through contract with one or more Canadian companies, and to make use of any petroleum sources that may be discovered, subject to Canadian regulations governing such operations and to the further understanding that operations would be subject to the provisions of our exchange of notes of June 27 and June 29 above referred to, insofar as such provisions are not inconsistent with the provisions of this note and are capable, with necessary adaptations and modifications, of being applied to such operations. My Government will of course keep the Canadian Government fully informed of any future plans for carrying out these operations.

Accept, Sir, the renewed assurances of my highest consideration.

DEAR MR. MOFFAT:

*Ante*, p. 1418.

I wish to refer again to your note of December 28, 1942, No. 818 on the proposals for drilling exploratory oil wells in the Northwest Territories. The question has arisen as to the best means of avoiding the possibility of the intervention of any one whose interest is not identical with that of the Canadian Government or of the United States Government, and who might make application for oil and gas rights in that part of the Northwest Territories under discussion.

It would facilitate the drafting of regulations if the United States authorities would indicate more definitely the particular districts, within the very large area described in your note No. 818, paragraph 2, which seem to be the most promising. These districts could then be reserved for exploration by nominees of the United States Government.

Yours sincerely,

H. L. KEENLEYSIDE.

*Ottawa, February 17, 1943.*

DEAR MR. KEENLEYSIDE:

I sent to the State Department for its comments the text of your letter to Mr. Moffat of January 18, 1943, regarding a more strict delimitation of the districts in which wildcatting would be done in the Northwest Territories in order that such districts might be reserved for exploration by nominees of the United States Government.

I have now received a reply to the effect that, while we are wholly in accord with your suggestion, it is nevertheless believed to be desirable that in any regulations which may be adopted there be nothing which would forbid operations anywhere within the broad general area mentioned in our note of December 28, 1942. I quote below, for your information, the pertinent parts of a letter of February 6, 1943, to the Secretary of State from the Secretary of War on this subject:

“This office is wholly in accord with the suggestion contained in Dr. Keenleyside’s letter of January 18, 1943 that certain areas should be reserved for exploration by nominees of the United States in order to prevent the possible intervention of any one whose interest is not identical with that of the Canadian Government or of the United States Government.

“At the present time it is expected that the greater part of the wild-catting will be carried on in the district contiguous to the Mackenzie River, approximately 25 miles each side thereof, and extending from Fort Wrigley on the south to Good Hope on the north. It is hoped that sufficient sources of oil to fulfill our requirements will be discovered within this area. However, there are under consideration and surveys are being made of two major districts which, on the basis of presently available geological data, are considered to be the most promising for oil exploration. These areas are defined as follows:

- a. *District of Mackenzie*—An area contiguous to the Mackenzie River, approximately 75 miles each side thereof, and extending from Great Slave Lake on the south to the Arctic Ocean on the north.
- b. *Yukon Territory*—All that portion of the Yukon Territory lying north of the 66th parallel.

“It is believed that, in accordance with the suggestion of the Canadian authorities, it would be advantageous to both governments to have the two major areas as described above reserved for oil exploration by the United States in connection with the Canol Project, to the exclusion of other interests.

“Although it is expected that our activities will be confined within these two areas it would be considered inadvisable to have them strictly limited thereto. It is therefore the desire of this department that any regulations which may be adopted be of such a nature as to permit operations anywhere within the broad general area described in our letter of November 18, 1942.”<sup>[1]</sup>

OTTAWA, *March 13, 1943.*

DEAR MR. CLARK,

With reference to your letter of February 17th, on the matter of a more strict delimitation of the districts in the Northwest Territories in which wildcatting rights might be reserved for nominees of the United States Government, I have now received a reply from the Department of Mines and Resources on the subject.

The two areas mentioned in your letter are contiguous, namely:

1. *District of Mackenzie* – An area contiguous to the Mackenzie River, approximately 75 miles each side thereof, and extending from Fort Providence on the south to the Arctic Ocean on the north. Within the delta of the Mackenzie River, the line of reference shall be the East Channel.
2. *Yukon Territory* – All that portion of the Yukon Territory lying north of the 66th parallel.

It is proposed to apply the same regulations in these two areas as were worked out for the three areas already reserved by Orders-in-Council P.C. 1138 dated 12th February 1943, and P. C. 4140 of May 18th, 1942, as a result of consultation between Mr. Sidney Paige, Consulting Geologist attached to the office of Colonel Wyman, and Dr. Camsell. These regulations were published in the Canada Gazette on February 20th, 1943, and provide:

- First, (clause 1) that no one can prospect without first obtaining permission;
- Second, (clause 14) that the Minister should have the right to refuse to issue a permit when, in his opinion it might retard the search for and the development of the oil resources or interfere with the production of petroleum for the use of His Majesty or of any country associated or allied with His Majesty in the conduct of the present war.

This should afford ample protection against nuisance staking and ensure that any exploratory and development work that may be carried on by bona fide companies other than those nominated by the United States Government will be made available for our war needs.

I trust that this arrangement will be satisfactory to all parties.

Yours sincerely,

H. L. KEENLEYSIDE

SIR,

I have the honour to refer to the correspondence and negotiations with regard to the White Pass and Yukon Route. I am enclosing for your information a copy of an Order in Council P. C. 10067, dated the 6th of November, 1942. This Order in Council is in terms which have already met with your approval, and which establish the legal foundation for the operation and maintenance by the Government of the United States of America for the duration of the war of the Railway owned by the British Yukon Railway Company and the British Columbia - Yukon Railway, which form parts of the White Pass and Yukon Route.

Post, p. 1425.

2. The arrangements which have been agreed upon contemplate that there may be agreements concluded between the Government of the United States of America and the Government of Canada, or the Government of the Province of British Columbia, in respect of matters within the jurisdiction of such governments. It is my understanding that the authorities of your Government who are interested in this matter considered that such agreements should be of a flexible character, and should be entered into by recording, from time to time, by Exchange of Notes, arrangements which concern the two Governments. It is likely that in the course of the operation of the White Pass and Yukon Route further matters will arise requiring modifications and changes, and that your Government and mine will co-operate in bringing these about. There are, however, certain understandings which have already met with the approval of the interested departments of the two Governments during the negotiations at the meeting which was held on October 16, 1942.

3. Accordingly, it is desirable to place on record the following understandings:

- (1) The monthly rental is to be paid by the United States Government in United States Dollars, and insofar as United States taxation is concerned is to be net to the companies.
- (2) The Canadian Government will continue to charge against the Canadian companies, namely the British Columbia - Yu-

kon Railway Company and the British Yukon Railway Company in the usual manner all taxes other than taxation of operating income. For the term of the lease, corporation income taxes will be based upon income from rental only, and there will be no taxation of operating profits as such. Similarly, it is open to the Province of British Columbia to continue to charge against the British Columbia - Yukon Railway Company such taxes as it has heretofore imposed upon the company, without regard to the operation of the White Pass and Yukon Route by the United States Government.

- (3) Civilian personnel resident in Canada will pay taxes to the Canadian Government, even though they are actually employed by the United States Government. Civilian employees resident in United States territory and United States Army personnel will not, by reason of their employment on the White Pass and Yukon Route, be subject to Canadian taxation.
- (4) Civilian personnel will be subject to local Workmen's Compensation and Unemployment Insurance laws and regulations in the same manner as if they were directly employed by the Canadian companies. This will apply only to civilian personnel residing in Canadian territory, and will have no application to United States Army personnel or civilian personnel resident in United States territory. United States authorities will supply the necessary information to the Workmen's Compensation and Unemployment Insurance authorities, but will not be required to make deductions at the source.
- (5) The United States Government will furnish by February 15 of each year full information with respect to remuneration paid to civilian personnel resident in Canada, but will not be required to make deductions at the source for taxation purposes.
- (6) The annual operating report to the Board of Transport will be made in the joint names of the two Canadian companies. This report will show substantially the same information as it has heretofore, with the exceptions that operating statistics will be omitted, and that the only income shown in the reports will be the annual rental received from the United States Government. If required by the Board, operating statistics will be furnished by the United States Military Railway Service.

Accept, Sir, the renewed assurances of my highest consideration.

WHEREAS the Secretary of State for External Affairs reports that,—

(1) The Government of the United States of America wishes to lease from its present owners, for the purpose of the operation and maintenance thereof for the duration of the state of war now existing subject to prior termination, the railway known as the White Pass and Yukon Route, which runs from Skagway, Alaska, across British Columbia to Whitehorse, Yukon Territory.

(2) The Secretary of State for External Affairs is of opinion that, by reason of the state of war now existing, it is advisable for the security and defence of Canada and in particular of the west coast of Canada, that the owners of the said railway be authorized and empowered to enter into a lease of the railway for such purpose and that the Government of the United States of America be authorized to lease and maintain and operate the said railway for the duration of the state of war now existing.

(3) (a) The Alaska part of the railway is owned by the Pacific and Arctic Railway and Navigation Company, a West Virginia corporation.

(b) The Yukon part of the railway is owned by the British Yukon Railway Company (hereinafter called the Dominion Company), which was incorporated by Chapter 89 of the Statutes of Canada 60–61 Victoria, subsequently amended by 63–64 Victoria, Chapter 53; 1 Edward VII, Chapter 50; and 7–8 Edward VII, Chapter 88.

(c) The British Columbia part of the railway is owned by the British Columbia – Yukon Railway Company (hereinafter called the B. C. Company), which was incorporated by Chapter 49 of the Statutes of British Columbia, 1897.

(4) The Government of the United States of America has informed the Secretary of State for External Affairs that it intends to operate and maintain in so far as it is practicable, the part of the said railway in Canada during the term of the said lease in accordance with all laws in force in Canada, and all regulations, orders and tariffs made or established pursuant thereto, relating to or applicable in respect of the operation and maintenance of the said part of the railway in Canada in the same manner, unless inconsistent with the maximum war effort, as if such part of the said railway were being operated during such term by the Dominion and B. C. companies and in particular that it intends that:

(a) any lawful order of the Board of Transport Commissioners for Canada or of the Government of the Province of British Columbia

addressed to or binding on the Dominion company or B. C. company during the term of the lease will be complied with;

(b) arrangements will be made to provide for the payment during the term of the lease of all taxes and of all assessments, contributions and other levies in respect of workmens' compensation or unemployment insurance in the same manner and to the same extent as if the said part of the railway were operated during the term of the lease by the Dominion and B. C. companies and for all such purposes the operation and maintenance of the part of the said railway in Canada shall be deemed to be carried on during the term of the said lease on behalf of the said companies subject to any special arrangement made between the Government of the United States and the Government of Canada or of the Government of the Province of British Columbia;

(c) any claim of any person in respect of loss or damage in any way arising out of the operation or maintenance of the said railway in Canada during the term of the lease will be dealt with as a claim against the company which is the owner of the part of the railway with respect to the operation or maintenance of which the claim is made and for such purpose and for the purpose of any legal proceedings in respect thereof the said part of the railway will be deemed to be operated and maintained by the said company during the term of the lease and all persons engaged in such operation or maintenance by the Government of the United States will be deemed to be agents or officers, servants or employees, as the case may be, of the said company;

SIR:

LEGATION OF THE  
UNITED STATES OF AMERICA

*Ottawa, January 27, 1943.*

No. 827

SIR:

Under instructions from my Government, I have the honor to refer to conversations relating to the post-war disposition of various facilities being or to be constructed in Canada by the Government of the United States.

Although in many instances the Governments of the United States of America and of Canada have reached specific agreements covering the post-war disposition of defense projects and installations which, in order more effectively to prosecute the war, the Government of the United States, with the consent and approval of the Canadian Government, has built or is building in Canada, nevertheless there seemed advantage in defining certain general principles which in the absence of special circumstances should serve as a guide to the two Governments in formulating any future agreements covering the post-war disposition of such projects or installations in Canada. The same general principles would of course apply reciprocally in the event of any project or installation being built by the Canadian Government in the United States territory.

The matter was referred to the Permanent Joint Board on Defense which after careful study adopted the following Recommendation on January 13, 1943.

Recommendation  
adopted by Perma-  
nent Joint Board on  
Defense.

"The Board considered the question of the post-war disposition of the defense projects and installations which the Government of the United States has built or may build in Canada. The Board noted that the two Governments have already reached specific agreements for the post-war disposition of most of the projects and installations thus far undertaken. It considers that such agreements are desirable and should be made whenever possible.

"The Board recommends the approval of the following formula as a generally fair and equitable basis to be used by reference whenever appropriate in the making of agreements in the future and to cover such defense projects, if any, the post-war disposition of which has not previously been specifically provided for:

"A: All immovable defense installations built or provided in Canada by the Government of the United States shall within one year after the cessation of hostilities, unless otherwise agreed by the two Governments, be relinquished to the Crown either in the right of Canada or in the right of the province in which the same or any part thereof lies, as may be appropriate under Canadian law.

"B: All movable facilities built or provided in Canada by the Government of the United States shall within one year after the cessation of hostilities, unless otherwise agreed by the two Governments, at the option of the United States Government:

(1) be removed from Canada;

or

(2) be offered for sale to the Government of Canada, or with the approval of the Government of Canada, to the Government of the appropriate Province at a price to be fixed by a Board of two appraisers, one to be chosen by each country and with power to select a third in the case of disagreement.

"C: In the event that the United States Government has foregone its option as described in B (1), and the Canadian Government or the Provincial Government decides to forego its option as described in B (2), the facility under consideration shall be offered for sale in the open market, any sale to be subject to the approval of both Governments.

"D: In the event of no sale being concluded the disposition of such facility shall be referred for recommendation to the Permanent Joint Board on Defense or to such other agency as the two Governments may designate.

"The principles outlined above shall reciprocally apply to any defense projects and installations which may be built in the United States by the Government of Canada.

"All of the foregoing provisions relate to the physical disposition and ownership of projects, installations, and facilities and are without prejudice to any agreement or agreements which may be reached between the Governments of the United States and Canada in regard to the post-war use of any of these projects, installations, and facilities."

I have today been directed to inform you that this Recommendation has been approved by the Government of the United States of America, which would welcome confirmation from you that it has likewise been approved by the Government of Canada.

Accept, Sir, the renewed assurances of my highest consideration.

No. 7

OTTAWA, *January 27, 1943.*

SIR:

I have the honour to acknowledge receipt of your note of January 27, 1943, No. 827, in which you referred to recent discussions relating to the post-war disposition of various defence projects, installations and facilities being or to be constructed in Canada by the Government of the United States with the consent and approval of the Government of Canada.

It is noted with satisfaction that the Government of the United States has approved the Twenty-Eighth Recommendation of the Permanent Joint Board on Defence which dealt with this matter and which read as follows:

“The Board considered the question of the post-war disposition of the defense projects and installations which the Government of the United States has built or may build in Canada. The Board noted that the two Governments have already reached specific agreements for the post-war disposition of most of the projects and installations thus far undertaken. “The Board recommends the approval of the following formula as a generally fair and equitable basis to be used by reference whenever appropriate in the making of agreements in the future and to cover such defense projects, if any, the post-war disposition of which has not previously been specifically provided for:

“A: All immovable defense installations built or provided in Canada by the Government of the United States shall within one year after the cessation of hostilities, unless otherwise agreed by the two Governments, be relinquished to the Crown either in the right of Canada or in the right of the province in which the same or any part thereof lies, as may be appropriate under Canadian law.

“B: All movable facilities built or provided in Canada by the Government of the United States shall within one year after the cessation of hostilities, unless otherwise agreed by the two Governments, at the option of the United States Government:

(1) be removed from Canada;

or

(2) be offered for sale to the Government of Canada, or with the approval of the Government of Canada, to the Government of the appropriate Province at a price

to be fixed by a Board of two appraisers, one to be chosen by each country and with power to select a third in the case of disagreement.

“C: In the event that the United States Government has foregone its option as described in B (1), and the Canadian Government or the Provincial Government decides to forego its option as described in B (2), the facility under consideration shall be offered for sale in the open market, any sale to be subject to the approval of both Governments.

“D: In the event of no sale being concluded the disposition of such facility shall be referred for recommendation to the Permanent Joint Board on Defense or to such other agency as the two Governments may designate.

“The principles outlined above shall reciprocally apply to any defense projects and installations which may be built in the United States by the Government of Canada.

“All of the foregoing provisions relate to the physical disposition and ownership of projects, installations, and facilities and are without prejudice to any agreement or agreements which may be reached between the Governments of the United States and Canada in regard to the post-war use of any of these projects, installations, and facilities.”

It gives me pleasure to inform you that the Canadian Government has also approved this Recommendation and has so informed the Permanent Joint Board on Defence.

Accept, Sir, the renewed assurances of my highest consideration.
