

Gettysburg, Pa
Nov. 20/65

My dear Sir -

Col. Bachelder is gathering all the details of the battle. - I doubt, whether he could prepare such a work as you indicate. - The oath of office is on page 376 of my book, and is indexed according to its title "oath, independence to, of certain persons." It ought to have been indexed under head of "oath of office."

I don't intend to put on the initial roll, the names of claimants from late independent States. - Mr. Curtis don't touch the real point in the case, or I could be pleased to explain if I had time. - I will, when we meet.

I am gathering material for a second vol., but shall not print it soon. - I want to record the precise end of this controversy.

Very truly
Yours
Edw. M. Davis
