¹⁸⁷ Report on the Practice of Syria, 1997, Chapter 1.8.

¹⁸⁸ US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 427.

179. The Report on US Practice considers that US *opinio juris* generally conforms to the rules and conditions prescribed in Article 60 AP I.¹⁸⁹

III. Practice of International Organisations and Conferences

180. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

181. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

182. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that an attack against a demilitarised zone constitutes a grave breach of the law of war.¹⁹⁰

183. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Court, the ICRC proposed that “making demilitarized zones the objects of attack”, when committed in an international armed conflict, be subjected to the jurisdiction of the Court.¹⁹¹

VI. Other Practice

184. No practice was found.

C. Open Towns and Non-Defended Localities

Establishment of open towns

I. Treaties and Other Instruments

Treaties

185. No practice was found.

Other Instruments

186. Article 16 of the 1956 New Delhi Draft Rules states that “when a locality is declared to be an “open town”, the adverse party shall be duly notified. The latter is bound to reply, and if it agrees to recognize the locality in question as an open town, shall cease from all attacks on the said town, and refrain from

¹⁸⁹ Report on US Practice, 1997, Chapter 1.8.

¹⁹⁰ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 418.

¹⁹¹ ICRC, Working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, New York, 14 February 1997, § 1(b)(iv).

any military operation the sole object of which is its occupation." It goes on to say that:

When, on the outbreak or in the course of hostilities, a locality is declared to be an "open town" the adverse Party shall be duly notified. The latter is bound to reply, and if it agrees to recognize the locality in question as an open town, shall cease all attacks on the said town, and refrain from any military operation the sole object of which is its occupation.

In the absence of any special conditions which may, in any particular case, be agreed upon with the adverse Party, a locality, in order to be declared an "open town", must satisfy the following conditions:

- (a) it must not be defended or contain any armed force;
- (b) it must discontinue all relations with any national or allied armed forces;
- (c) it must stop all activities of a military nature or for a military purpose in those of its installations or industries which might be regarded as military objectives;
- (d) it must stop all military transit through the town.

The adverse Party may make the recognition of the status of "open town" conditional upon verification of the fulfilment of the conditions stipulated above. All attacks shall be suspended during the institution and operation of the investigatory measures.

The presence in the locality of civil defence services, or of the services responsible for maintaining public order, shall not be considered as contrary to the conditions laid down in paragraph 2. If the locality is situated in occupied territory, this provision applies also to the military occupation forces essential for the maintenance of public law and order.

When an "open town" passes into other hands, the new authorities are bound, if they cannot maintain its status, to inform the civilian population accordingly.

II. National Practice

Military Manuals

187. Argentina's Law of War Manual provides for the possibility of establishing undefended areas and refers to the conditions set out for this purpose in Article 60 AP I.¹⁹²

188. Belgium's Law of War Manual states that "an area is considered as an 'undefended area' or as an 'open town' when it is undefended to the point that it can be taken without a single shot or without any losses (e.g. due to the presence of mines)". It adds that the presence of wounded military personnel and weapons does not change the status of the area as an open town or undefended area. The manual points out two procedures to obtain the status of "open town", namely, a unilateral declaration or an agreement between the belligerents.¹⁹³

189. Bosnia and Herzegovina's Military Instructions provides that:

¹⁹² Argentina, *Law of War Manual* (1989), § 4.06.

¹⁹³ Belgium, *Law of War Manual* (1983), p. 30.

In order to ensure full protection of such place [an open town], it is necessary that the other side to the conflict also recognises the status of the city and to reach an agreement on the necessary preconditions in that regard. These preconditions are usually related to the following: the places should not be defended and no armed forces should be deployed in it; no military units should cross its territory for the purpose of transporting military material; no activities of military importance should be undertaken in industrial plants; and there should be no liaison with local armed forces and allied armed forces.¹⁹⁴

190. France's LOAC Manual defines as an open town "any inhabited area located in the combat zone or in its proximity, which is open to enemy occupation in order to avoid fighting and destruction". It lists the following four conditions that must be fulfilled in order for a town to be considered an open town: all combatants as well as mobile weapons and military material must be evacuated; no hostile use shall be made of fixed military installations and establishments; the authorities and the population shall abstain from committing any act of hostility; no activities in support of military operations shall be undertaken. The manual gives Paris in 1940 and Rome in 1943 as examples of open towns during the Second World War.¹⁹⁵

191. Switzerland's Basic Military Manual notes that during the Second World War localities that were declared to be open were understood to be undefended should the enemy reach their periphery. It also points out different conditions that need to be fulfilled to obtain the status of "undefended areas".¹⁹⁶

192. The UK Military Manual defines an open or undefended town as:

A town which is so completely undefended from within or without that the enemy may enter and take possession of it without fighting or incurring casualties. It follows that no town located behind the immediate front line can be deemed open or undefended, since the attacker must fight his way to it. Any town behind the enemy front line is thus a defended town and is open to ground or other bombardment, subject to the conditions imposed on all bombardment, namely, that as far as possible, the latter must be limited to military objectives... A town in the front line with no means of defence, not defended from the outside and into which the enemy may enter and of which he may take possession at any time without fighting or incurring casualties, e.g., from crossing unmarked minefields, is undefended even if it contains munitions factories.¹⁹⁷

The manual goes on to say that, *prima facie*, a fortified place is considered as defended, unless there are visible signs of surrender. However, a locality need not be fortified to be deemed "defended", and it may be held thus if a military force is occupying it or marching through it. It states that a town should be considered to be defended (and thus liable to bombardment) even if defended posts are detached and located at a distance from the city:

¹⁹⁴ Bosnia and Herzegovina, *Military Instructions* (1992), § 6.

¹⁹⁵ France, *LOAC Manual* (2001), p. 124.

¹⁹⁶ Switzerland, *Basic Military Manual* (1987), Article 32.

¹⁹⁷ UK, *Military Manual* (1958), § 290.

The town and defended posts form an indivisible whole, inasmuch as the town may contain workshops and provide supplies which are invaluable to the defence and may serve to shelter the troops holding the defence points when they are not on duty.¹⁹⁸

193. The YPA Military Manual of the SFRY (FRY) provides that the establishment of an open town requires agreement between the parties and restates the conditions contained in Article 16 of the 1956 New Delhi Draft Rules.¹⁹⁹

National Legislation

194. No practice was found.

National Case-law

195. In the *Priebke case* in 1996, Italy's Military Tribunal of Rome examined the status of Rome as an "open town" in 1944. The Tribunal concluded that the city did not enjoy such status, arguing that neither a unilateral declaration nor the voluntary behaviour of one of the parties was sufficient to establish an obligation upon the other party. Only after acceptance was obtained from the other party (or parties), i.e., when an agreement was reached, could the status of open town become legally binding for the belligerents.²⁰⁰

Other National Practice

196. In February 1994, in the context of the internal conflict in the Chiapas in Mexico, two villages – San Miguel, in the municipality of Ocosingo, and Guadalupe el Tepeyac, in the municipality of Las Margaritas – were established as free villages with the aim of creating areas of *détente* and to support the civilian population in the conflict zone. The Mexican army would provide facilities for the movement and transit of people, food and medical care to each of these villages.²⁰¹

197. According to the Report on the Practice of the SFRY (FRY), "the *opinio iuris* and the customary nature of rules relevant to the establishment of these zones [open towns and undefended places] in FRY is absolutely clear".²⁰²

Establishment of non-defended localities

I. Treaties and Other Instruments

Treaties

202. Article 59(2) AP I provides that:

The appropriate authorities of a Party to the conflict may declare as a non-defended locality any inhabited place near or in a zone where armed forces are in contact which is open for occupation by an adverse Party. Such a locality shall fulfil the following conditions:

- a) all combatants, as well as mobile weapons and mobile military equipment, must have been evacuated;
- b) no hostile use shall be made of fixed military installations or establishments;
- c) no acts of hostility shall be committed by the authorities or by the population; and
- d) no activities in support of military operations shall be undertaken.

Article 59(3) specifies that “the presence, in this [non-defended] locality, of persons specially protected under the Conventions and this Protocol, and of police forces retained for the sole purpose of maintaining law and order, is not contrary to the conditions laid down in paragraph 2”. Article 59(5) provides for the possibility for parties to a conflict to agree on the establishment of non-defended localities under other conditions. It states that:

The Parties to the conflict may agree on the establishment of non-defended localities even if such localities do not fulfil the conditions laid down in paragraph 2. The agreement should define and describe, as precisely as possible, the limits of the non-defended locality; if necessary, it may lay down the methods of supervision.

Article 59 AP I was adopted by consensus.²⁰³

²⁰³ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 215.

Other Instruments

203. Articles 10 and 11 of the 1938 ILA Draft Convention for the Protection of Civilian Populations against New Engines of War provide that:

Art. 10. For the purpose of better enabling a State to obtain protection for the non-belligerent part of its civil population, a State may, if it thinks fit, declare a specified part or parts of its territory to be a "safety zone" or "safety zones" and, subject to the conditions following, such safety zones shall enjoy immunity from attack or bombardment by whatsoever means, and shall not form the legitimate object of any act of war.

Art. 11. A safety zone shall consist of either:

- (a) a camp specially erected for that purpose and so situated as to ensure that there is no defended town, port, village or building within "x" kilometres of any part of such camp, or
- (b) an undefended town, port, village or building as defined in Article 2 [a town, port, village or isolated building shall be considered undefended provided that not only (a) no combatant troops, but also (b) no military, naval or air establishment, or barracks, arsenal, munition stores or factories, aerodromes or aeroplane workshops or ships of war, naval dockyards, forts, or fortifications for defensive or offensive purposes, or entrenchments (in this Convention referred to as "belligerent establishments") exist within its boundaries or within a radius of "x" kilometres from such boundaries].

*II. National Practice**Military Manuals*

204. Argentina's Law of War Manual provides for the possibility of establishing non-defended localities and refers to the conditions set out for this purpose in Article 59 AP I.²⁰⁴

205. Australia's Defence Force Manual states that:

727. A non-defended locality is any inhabited or uninhabited place near or in a zone where opposing armed forces are in contact and which has been declared by parties to the conflict as open for occupation by a party to the conflict. In order to be considered a non-defended locality, the following conditions must be fulfilled:

- (a) all combatants, weapons and military equipment must have been evacuated or neutralised;
- (b) no hostile use is made of fixed military installations or establishments;
- (c) no acts of hostility are to be committed by the authorities or the population; and
- (d) no activities in support of military operations shall be undertaken.

728. The presence in this locality of protected persons and police forces retained for the sole purpose of maintaining law and order, does not change the character of a non-defended locality.

729. A non-defended locality may be declared by a party to the conflict. That declaration must describe the geographical limits of the locality and be addressed to the relevant party to the conflict which must acknowledge its receipt and from

²⁰⁴ Argentina, *Law of War Manual* (1989), § 4.06.

that time treat the locality as a non-defended locality unless the conditions for establishment of the locality are not met.²⁰⁵

206. Canada's LOAC Manual provides that "any inhabited place near or in a zone where armed forces are in contact" may be declared by a party to a conflict as a non-defended locality and, thereby, become open for occupation by the adverse party. The conditions that, under the manual, must be normally satisfied by a non-defended locality are the same as those listed in Article 59(2) AP I.²⁰⁶ The manual also provides for the possibility for the parties to a conflict to agree to establish a non-defended locality even when the said conditions are not all satisfied.²⁰⁷

207. France's LOAC Manual is guided by Article 59 AP I as regards the conditions that must be fulfilled in order for an area to be declared a non-defended locality.²⁰⁸

208. Germany's Military Manual provides that:

A locality shall be considered as non-defended if it has been declared so by its competent authorities, if it is open for occupation and fulfils the following conditions: all combatants, as well as mobile weapons and mobile military equipment, must have been evacuated; no hostile use shall be made of fixed military installations and establishments; no acts of hostility shall be committed by the authorities or by the population; and no activities in support of military operations shall be undertaken.²⁰⁹

The manual refers to Article 59(2) AP I. It adds that "a locality shall not on suspicion be deemed non-defended unless the behaviour of the adversary substantiates such a supposition".²¹⁰ It goes on to say that, if one of the parties to the conflict breaches the provisions concerning the conditions for the establishment of non-defended localities, the locality in question will lose its special protection, even if the protection of the civilian population and civilian objects continue to be applicable.²¹¹

209. Kenya's LOAC Manual, in a section entitled "Non-Defended Localities", states that:

Such areas are improvised protected zones from which military objectives and activities have been removed, and which:

- are situated near or in a zone where combat is taking place; and
- are open for occupation by the enemy.

They can be established through a unilateral declaration and notification thereof given to the enemy Party. However, for greater safety, formal agreements should

²⁰⁵ Australia, *Defence Force Manual* (1994), §§ 727-729; see also *Commanders' Guide* (1994), § 921.

²⁰⁶ Canada, *LOAC Manual* (1999), p. 4-11, §§ 110-111.

²⁰⁷ Canada, *LOAC Manual* (1999), p. 4-11, § 112. ²⁰⁸ France, *LOAC Manual* (2001), p. 31.

²⁰⁹ Germany, *Military Manual* (1992), § 459.

²¹⁰ Germany, *Military Manual* (1992), § 460.

²¹¹ Germany, *Military Manual* (1992), § 462.

be passed between the two Parties (under customary law and Hague regulations undefended localities that can be occupied, cannot be bombarded even if there is no notification).

According to the manual, the conditions to be fulfilled by non-defended localities are the same as for demilitarised zones (see *supra*).²¹²

210. The Military Manual of the Netherlands provides that:

The authorities of a party to the conflict may declare as a non-defended locality any inhabited place near a zone where armed operations are launched. It is thus a unilateral declaration. Such a locality shall fulfil the following conditions:

- (a) all combatants, as well as mobile weapons and mobile military equipment, must have been evacuated;
- (b) no hostile use shall be made of fixed military installations or establishments;
- (c) no acts of hostility shall be committed by the authorities or by the population; and
- (d) no activities in support of military operations shall be undertaken.

The declaration shall be addressed to the adverse party and shall define the limits of the non-defended locality. The parties to the conflict may also decide by an agreement on the establishment of non-defended localities even if such localities do not fulfil the above-mentioned conditions.

A locality loses its status as a non-defended locality when it ceases to fulfil the conditions required or the conditions of the agreement concluded between the parties.²¹³

211. New Zealand's Military Manual defines an "undefended place" as:

one from which all combatants, as well as mobile weapons and mobile military equipment, have been removed; where no hostile use is made of fixed military installations or establishments; where no hostile acts are committed by the authorities or the population; and where no activities in support of military operations are undertaken.

The manual specifies that such requirements "relate to places behind enemy lines, for if the place is in a combat zone and open to occupation by enemy forces, the problem does not arise".²¹⁴ Furthermore, the manual notes that, while "under customary law, the adverse Party had to agree to treat a place as undefended, by AP I the appropriate authorities of a Party to the conflict may declare as undefended any inhabited place near or in a zone where the armed forces of the Parties are in contact, rendering it open for occupation by the adverse Party".²¹⁵ Referring to the possibility, under Article 59(5) AP I, that the parties to a conflict agree to treat as undefended any place which does not

²¹² Kenya, *LOAC Manual* (1997), Précis No. 4, pp. 6–7.

²¹³ Netherlands, *Military Manual* (1993), p. V-15, § 13.

²¹⁴ New Zealand, *Military Manual* (1992), p. 4-15, § 412(6).

²¹⁵ New Zealand, *Military Manual* (1992), p. 4-16, § 412(7).

fulfil the conditions laid down in AP I, the manual states that “this provision merely confirms the position under customary law”.²¹⁶

212. Sweden’s IHL Manual states that “the chief rule relating to non-defended localities” embodied in Article 59 AP I has the status of customary law.²¹⁷ With respect to the setting-up of a non-defended locality, the manual recalls that it “shall not be preceded by negotiation between the parties, but it is based solely on a declaration issued by the defender”. The manual then states that:

For the locality to receive protection, all military resistance must cease immediately. All combatants, together with mobile weapons and moveable material must be withdrawn. Fixed military installations and establishments such as fortifications may not be used against the other party . . . No hostile acts may be committed either by the authorities or by the local population, nor may any activities be undertaken in support of the withdrawing party’s military operations.²¹⁸

According to the manual, “the above conditions imply that the locality is left open to occupation by the adversary”.²¹⁹

213. Switzerland’s Basic Military Manual states that:

Through reciprocal specific declarations, the Parties to the conflict can designate non-defended localities or demilitarised zones (the latter already in peacetime). These localities or zones have to fulfil the following conditions:

- a. all combatants, as well as mobile weapons and military equipment, must be evacuated;
- b. no hostile use shall be made of fixed military installations or establishments;
- c. no acts of hostility shall be committed by the authorities or by the population;
- d. any activity in support to the military effort must cease;
- e. the localities/zones must be marked by a distinctive sign.

Police forces may be maintained in these localities and zone for the purpose of maintaining law and order.

Non-defended localities/zones must not be abused for military purposes, for they will lose their protected status.²²⁰

214. The US Air Force Pamphlet states that:

A party to a conflict may declare, as undefended, inhabited localities which are near or in areas where land forces are in contact when the localities are open for occupation by an adverse party. Bombardment in such a locality would be unlawful, if the following conditions were met and maintained: (1) no armed forces or other combatants present, (2) no mobile weapons or mobile military equipment present, (2) no hostile use of fixed military establishments or installations, (4) no acts of warfare by the authorities or the population, and (5) no activities in support of military operations.²²¹

²³¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.44, 30 May 1977, p. 291.

undefended and which are not military objectives" constitutes a war crime in international armed conflicts.

Other Instruments

233. Article 15 of the 1874 Brussels Declaration states that "fortified places are alone liable to be besieged. Open towns, agglomerations of dwellings, or villages which are not defended can neither be attacked nor bombarded."

234. Article 32(c) of the 1880 Oxford Manual states that it is forbidden "to attack and to bombard undefended places".

235. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including the "deliberate bombardment of undefended places".

236. Article 2 of the 1938 ILA Draft Convention for the Protection of Civilian Populations against New Engines of War provides that "the bombardment by whatever means of towns, ports, villages or buildings which are undefended is prohibited in all circumstances".

237. In paragraph 3 of the 1993 Franco-German Declaration on the War in Bosnia and Herzegovina, France and Germany stated that they "considered the establishment of safe areas necessary for the protection of the Bosnian civilian population" in the former Yugoslavia.

238. According to Article 3 of the 1993 ICTY Statute, among the violations of the laws or customs of war in respect to which the Tribunal is competent *ratione materiae*, is "attack, or bombardment, by whatever means, of undefended towns, villages, dwellings, or buildings".

239. Under Article 20(e) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, "attack, or bombardment, by whatever means, of undefended towns, villages, dwellings or buildings" is a war crime.

240. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(v), "attacking or bombarding, by whatever means, towns, villages, dwellings or buildings which are undefended and which are not military objectives" constitutes a war crime in international armed conflicts.

II. National Practice

Military Manuals

241. Argentina's Law of War Manual (1969) states that "it is prohibited to attack or bombard undefended cities, localities, dwellings or buildings".²³²

²³² Argentina, *Law of War Manual* (1969), § 1.011.

242. Argentina's Law of War Manual (1989) states that it is prohibited to "attack, by whatever means, non-defended localities".²³³ It further qualifies attacks against non-defended localities as grave breaches of IHL.²³⁴

243. Australia's Defence Force Manual states that "towns, villages, dwellings or buildings which are undefended are also protected from attack".²³⁵ With respect to non-defended localities, the manual states that "military objectives within a non-defended locality, from which hostile acts are being conducted, can be attacked, subject to weapon and targeting considerations . . . Otherwise, non-defended localities cannot be attacked."²³⁶ The manual further provides that "making non-defended localities . . . the object of attack" constitutes a grave breach or a serious war crime likely to warrant institution of criminal proceedings.²³⁷

244. Belgium's Teaching Manual for Soldiers contains a slide illustrating the prohibition of bombardment of a village in which no combatants or military objects are located.²³⁸

245. Bosnia and Herzegovina's Military Instructions provides that "it is prohibited to attack a place which has been declared an 'open city'".²³⁹

246. Canada's LOAC Manual states that "it is prohibited for parties to a conflict to attack, by any means whatsoever, non-defended localities".²⁴⁰ Under the manual, a non-defended locality loses its status when it ceases to fulfil the conditions described by the manual (which are the same as those listed in Article 59 AP I) or in an agreement between adverse parties to establish that non-defended locality.²⁴¹ The manual further provides that "making non-defended localities . . . the object of attack" constitutes a grave breach of AP I.²⁴²

247. Croatia's Commanders' Manual states that it is a commander's duty to give relevant instructions concerning the protection of undefended areas when military activities are conducted in the vicinity of such areas.²⁴³

248. Croatia's LOAC Compendium qualifies "unlawful attacks on . . . undefended localities" as war crimes.²⁴⁴

249. Ecuador's Naval Manual states that "belligerents are forbidden to bombard a city or town that is undefended and that is open to immediate entry by their own or allied forces. A city or town behind enemy lines is, by definition,

²³³ Argentina, *Law of War Manual* (1989), § 4.06.

²³⁴ Argentina, *Law of War Manual* (1989), § 8.03.

²³⁵ Australia, *Defence Force Manual* (1994), § 534, see also § 732 (siege warfare).

²³⁶ Australia, *Defence Force Manual* (1994), §§ 726 and 732.

²³⁷ Australia, *Defence Force Manual* (1994), § 1315(k); see also *Commanders' Guide* (1994), § 1305(k).

²³⁸ Belgium, *Manual for Soldiers* (undated), p. 86 and slide 7/2.

²³⁹ Bosnia and Herzegovina, *Military Instructions* (1992), § 6.

²⁴⁰ Canada, *LOAC Manual* (1999), p. 4-11, § 109.

²⁴¹ Canada, *LOAC Manual* (1999), p. 4-11, § 114.

²⁴² Canada, *LOAC Manual* (1999), p. 16-3, § 16(d).

²⁴³ Croatia, *Commanders' Manual* (1992), § 48.

²⁴⁴ Croatia, *LOAC Compendium* (1991), p. 56.

neither undefended nor open, and military targets therein may be destroyed or bombed.

²⁴⁵

250. France's LOAC Teaching Note includes non-defended localities among the zones that are specially protected by IHL. It states that, while occupation of non-defended localities is permitted, attacks against such localities are prohibited, provided they are completely demilitarised.²⁴⁶

251. France's LOAC Manual includes undefended localities in the list of specially protected objects and states that it is prohibited for the parties to a conflict to attack them by any means whatsoever.²⁴⁷ The manual also prohibits attacks on open towns.²⁴⁸

252. Germany's Military Manual prohibits "the attack or bombardment of non-defended localities".²⁴⁹ The manual further provides that grave breaches of IHL are in particular "launching attacks against non-defended localities".²⁵⁰

253. Hungary's Military Manual qualifies "unlawful attacks on . . . undefended localities" as war crimes.²⁵¹

254. Indonesia's Air Force Manual states that:

The bombardment of undefended towns, villages and buildings is prohibited if:

- (a) there are no armed forces or combatants in these areas;
- (b) there are no weapons or other mobile equipment;
- (c) there are no installations or permanent military equipment in order to achieve a military purpose;
- (d) there is no act of war by the authority or its inhabitants;
- (e) there is no activity which supports military operations.²⁵²

255. Italy's IHL Manual qualifies "indiscriminate attacks against . . . non-defended localities" as war crimes.²⁵³

256. Italy's LOAC Elementary Rules Manual states that "where protected zones or localities (. . . non-defended localities) have been agreed upon, the competent commanders shall issue instructions for action and behaviour near and towards such zones or localities".²⁵⁴ The manual also provides that "protected zones shall be respected".²⁵⁵

257. Kenya's LOAC Manual provides that it is forbidden "to attack or bombard undefended towns, villages, dwellings or buildings".²⁵⁶

258. South Korea's Military Regulation 187 qualifies "attacks against non-defended localities" as war crimes.²⁵⁷

²⁴⁵ Ecuador, *Naval Manual* (1989), § 8.5.1.3. ²⁴⁶ France, *LOAC Teaching Note* (2000), p. 5.

²⁴⁷ France, *LOAC Manual* (2001), p. 31. ²⁴⁸ France, *LOAC Manual* (2001), p. 124.

²⁴⁹ Germany, *Military Manual* (1992), § 458.

²⁵⁰ Germany, *Military Manual* (1992), § 1209.

²⁵¹ Hungary, *Military Manual* (1992), p. 90.

²⁵² Indonesia, *Air Force Manual* (1990), § 59. ²⁵³ Italy, *IHL Manual* (1991), Vol. I, § 85.

²⁵⁴ Italy, *LOAC Elementary Rules Manual* (1991), § 47.

²⁵⁵ Italy, *LOAC Elementary Rules Manual* (1991), § 70.

²⁵⁶ Kenya, *LOAC Manual* (1997), Précis No. 4, p. 2, see also p. 6.

²⁵⁷ South Korea, *Military Regulation 187* (1991), Article 4(2).

- 259.** South Korea's Operational Law Manual states that attacks on undefended cities, towns, houses and buildings are prohibited.²⁵⁸
- 260.** According to the Military Manual of the Netherlands, "parties to a conflict may not attack undefended areas and this is a result of the 'open town doctrine'".²⁵⁹ The manual further states that "attacking... undefended areas" in violation of IHL constitutes a grave breach.²⁶⁰
- 261.** The Military Handbook of the Netherlands prohibits attacks on "undefended cities, villages and buildings".²⁶¹
- 262.** New Zealand's Military Manual recalls that "the law of armed conflict forbids attack by any means of undefended places".²⁶² It provides that "a locality which ceases to fulfil the conditions laid down for it to qualify as an undefended place, loses its status, but remains protected by the other rules of armed conflict relating to bombardment, attack, means and methods of combat, and the like".²⁶³ The manual further states that "making non-defended localities... the object of attack" constitutes a grave breach of AP I.²⁶⁴
- 263.** According to Nigeria's Manual on the Laws of War, "firing on undefended localities" is a war crime.²⁶⁵
- 264.** Russia's Military Manual states that "the bombardment by military aircraft or vessels of cities, ports, villages, dwellings or buildings... which are undefended and not used for military purposes" is a prohibited method of warfare.²⁶⁶
- 265.** South Africa's LOAC Manual states that "it is prohibited to attack or bombard, by whatever means, undefended towns, villages, dwellings or buildings. A facility which is occupied by medical units alone is not regarded as defended."²⁶⁷ The manual further states that "firing on localities which are undefended and without military significance" constitute a grave breach of IHL.²⁶⁸
- 266.** Spain's LOAC Manual prohibits attacks against open towns and non-defended localities.²⁶⁹ The manual further states that "launching an attack against... non-defended localities" constitutes a war crime.²⁷⁰
- 267.** Sweden's IHL Manual refers to Article 59 AP I and states that the chief rule relating to non-defended localities has the status of customary law.²⁷¹

²⁵⁸ South Korea, *Operational Law Manual* (1996), pp. 131–132.

²⁵⁹ Netherlands, *Military Manual* (1993), p. V-15, § 13.

²⁶⁰ Netherlands, *Military Manual* (1993), p. IX-5.

²⁶¹ Netherlands, *Military Handbook* (1995), p. 7-36.

²⁶² New Zealand, *Military Manual* (1992), § 412(6).

²⁶³ New Zealand, *Military Manual* (1992), § 412(8).

²⁶⁴ New Zealand, *Military Manual* (1992), 1703(3)(d).

²⁶⁵ Nigeria, *Manual on the Laws of War* (undated), § 6.

²⁶⁶ Russia, *Military Manual* (1990), § 5(n). ²⁶⁷ South Africa, *LOAC Manual* (1996), § 28(e).

²⁶⁸ South Africa, *LOAC Manual* (1996), § 38(b).

²⁶⁹ Spain, *LOAC Manual* (1996), Vol. I, § 4.5.b.(3)(b).

²⁷⁰ Spain, *LOAC Manual* (1996), Vol. I, § 11.8.b.(1).

²⁷¹ Sweden, *IHL Manual* (1991), Section 2.2.3, p. 19.

268. Switzerland's Basic Military Manual states that "it is prohibited to attack or bombard, by whatever means, undefended cities, villages, housing areas or buildings".²⁷² It further provides that "launching an attack against non-defended localities" constitutes a grave breach of AP I.²⁷³

269. The UK Military Manual states, with reference to Article 25 of the 1907 HR, that the distinction between "defended" and "undefended" localities still exists and is not invalidated by the considerable destructive power of modern artillery and guided missiles. It clearly states the prohibition of any attack against undefended localities.²⁷⁴ The manual further states that "in addition to the 'grave breaches' of the 1949 [Geneva] Conventions . . . the following are examples of punishable violations of the laws of war, or war crimes: . . . (c) firing on undefended localities".²⁷⁵

270. The UK LOAC Manual states that it is forbidden "to attack or bombard undefended towns, villages, dwellings or buildings".²⁷⁶

271. The US Field Manual reproduces Article 25 of the 1907 HR and states that "in addition to the 'grave breaches' of the Geneva Conventions of 1949, the following acts are representative of violations of the law of war ('war crimes'): . . . d. Firing on localities which are undefended and without military significance."²⁷⁷

272. The US Air Force Pamphlet reproduces Article 25 of the 1907 HR and states that:

Cities behind enemy lines and not open to occupation may contain military objectives. The application of this undefended rule to aerial warfare, where the object of the attack was not to occupy the city but to achieve some specific military advantage by destroying a particular military objective, caused disagreements in the past. In the US view, it has been recognized by the practice of nations that any place behind enemy lines is a defended place because it is not open to unopposed occupation. Thus, although such a city is incapable of defending itself against aircraft, nonetheless if it is in enemy held territory and not open to occupation, military objectives in the city can be attacked.²⁷⁸

273. The US Air Force Commander's Handbook states that:

Towns, villages, cities, refugee camps, and other areas containing a concentration of civilians should not be bombarded if they are undefended and open to occupation or capture by friendly ground forces in the vicinity. Any military objectives that might exist in these towns (for example, military supplies) can be seized or destroyed by the ground forces.²⁷⁹

²⁷² Switzerland, *Basic Military Manual* (1987), Article 32(1).

²⁷³ Switzerland, *Basic Military Manual* (1987), Article 193(1)(d).

²⁷⁴ UK, *Military Manual* (1958), § 290. ²⁷⁵ UK, *Military Manual* (1958), § 626(c).

²⁷⁶ UK, *LOAC Manual* (1981), Section 4, p. 14, § 5(c).

²⁷⁷ US, *Field Manual* (1956), §§ 39 and 504(d).

²⁷⁸ US, *Air Force Pamphlet* (1976), § 5-3(e).

²⁷⁹ US, *Air Force Commander's Handbook* (1980), § 3-6(a).

274. The US Instructor's Guide states that "the attack or shelling by any means whatsoever of undefended towns, villages, dwellings, or buildings is prohibited. This means that military targets can be attacked wherever they are located, but a town with no military targets must be spared."²⁸⁰ The manual also provides that "in addition to the grave breaches of the Geneva Conventions, the following acts are further examples of war crimes: . . . firing on facilities which are undefended and without military significance".²⁸¹

275. The US Rules of Engagement for Operation Desert Storm prohibits firing at civilian populated areas or buildings which are not defended nor are being used for military purposes.²⁸²

276. The US Naval Handbook states that:

Belligerents are forbidden to bombard a city or town that is undefended and that is open to immediate entry by their own or allied forces. A city or town behind enemy lines is, by definition, neither undefended nor open, and military targets therein may be destroyed or bombarded.²⁸³

277. The YPA Military Manual of the SFRY (FRY) prohibits attacks against open towns and non-defended localities.²⁸⁴

National Legislation

278. Argentina's Draft Code of Military Justice punishes any soldier who "wilfully violates the protection due to . . . non-defended localities . . . which are properly marked".²⁸⁵

279. Under Armenia's Penal Code, "targeting undefended areas" during an armed conflict constitutes a crime against the peace and security of mankind.²⁸⁶

280. Australia's War Crimes Act considers "any war crime within the meaning of the instrument of appointment of the Board of Inquiry [set up to investigate war crimes committed by enemy subjects]" as a war crime, including the deliberate bombardment of undefended places.²⁸⁷

281. Australia's Geneva Conventions Act as amended provides that "a person who, in Australia or elsewhere, commits a grave breach . . . of [AP I] is guilty of an indictable offence".²⁸⁸

282. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "attacking undefended places" in international armed conflicts.²⁸⁹

²⁸⁰ US, *Instructor's Guide* (1985), p. 6. ²⁸¹ US, *Instructor's Guide* (1985), p. 13.

²⁸² US, *Rules of Engagement for Operation Desert Storm* (1991), § B.

²⁸³ US, *Naval Handbook* (1995), § 8.5.1.3, see also § 8.6.2.2 (protected places and objects).

²⁸⁴ SFRY (FRY), *YPA Military Manual* (1988), §§ 77 and 81.

²⁸⁵ Argentina, *Draft Code of Military Justice* (1998), Article 292, introducing a new Article 876(2) in the *Code of Military Justice as amended* (1951).

²⁸⁹ Australia, *ICC (Consequential Amendments) Act* (2002), Schedule 1, § 268.39, see also § 268.98 (grave breach of AP I).

283. Azerbaijan's Criminal Code provides that "directing attacks against non-defended localities" constitutes a war crime in international and non-international armed conflicts.²⁹⁰

284. The Criminal Code of Belarus provides that it is a war crime to "direct attack against non-defended localities".²⁹¹

285. Belgium's Law concerning the Repression of Grave Breaches of the Geneva Conventions and their Additional Protocols as amended provides that "making non-defended localities . . . the object of attack" constitutes a crime under international law.²⁹²

286. Under the Criminal Code of the Federation of Bosnia and Herzegovina, it is a war crime to order that "non-defended localities . . . be indiscriminately targeted" or to carry out such targeting.²⁹³ The Criminal Code of the Republika Srpska contains the same provision.²⁹⁴

287. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "attacking or bombarding, by whatever means, towns, villages, dwellings or buildings which are undefended and which are not military objectives" constitutes a war crime in international armed conflicts.²⁹⁵

288. Canada's Geneva Conventions Act as amended provides that "every person who, whether within or outside Canada, commits a grave breach [of AP I] . . . is guilty of an indictable offence".²⁹⁶

289. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.²⁹⁷

290. China's Law Governing the Trial of War Criminals provides that "deliberate bombing of non-defended areas" constitutes a war crime.²⁹⁸

291. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes set out in Article 8 of the 1998 ICC Statute.²⁹⁹

292. The Geneva Conventions and Additional Protocols Act of the Cook Islands punishes "any person who in the Cook Islands or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I]".³⁰⁰

²⁹⁰ Azerbaijan, *Criminal Code* (1999), Article 116(7).

²⁹¹ Belarus, *Criminal Code* (1999), Article 136(7).

²⁹⁶ Canada, *Geneva Conventions Act as amended* (1985), Section 3(1).

²⁹⁷ Canada, *Crimes against Humanity and War Crimes Act* (2000), Section 4(1) and (4).

²⁹⁸ China, *Law Governing the Trial of War Criminals* (1946), Article 3(27).

²⁹⁹ Congo, *Genocide, War Crimes and Crimes against Humanity Act* (1998), Article 4.

³⁰⁰ Cook Islands, *Geneva Conventions and Additional Protocols Act* (2002), Section 5(1).

293. Under Croatia's Criminal Code, "indiscriminate attacks affecting . . . non-defended localities" are war crimes.³⁰¹

294. Cyprus's AP I Act punishes "any person who, whatever his nationality, commits in the Republic or outside the Republic any grave breach of the provisions of the Protocol, or takes part or assists or incites another person in the commission of such a breach".³⁰²

295. The Czech Republic's Criminal Code as amended provides for the punishment of "a commander who, contrary to the provisions of international law on means and methods of warfare, intentionally: . . . (b) leads an attack against a defenceless place".³⁰³

296. Under the Draft Amendments to the Penal Code of El Salvador, "anyone who, in the context of an international or non-international armed conflict, attacks a non-defended locality" is punishable by imprisonment.³⁰⁴

297. Under Estonia's Penal Code, "an attack against . . . a settlement or structure without military protection" is a war crime.³⁰⁵

298. Under Georgia's Criminal Code, "making non-defended localities . . . the object of attack" in an international or non-international armed conflict is a punishable crime.³⁰⁶

299. Germany's Law Introducing the International Crimes Code provides for the punishment of anyone who, "in connection with an international armed conflict or with an armed conflict not of an international character, . . . directs an attack by military means against . . . undefended towns, villages, dwellings or buildings".³⁰⁷

300. Under Hungary's Criminal Code as amended, "a military commander who, in violation of the rules of international law concerning warfare, . . . takes offensive against . . . a weapon-free zone" commits a war crime.³⁰⁸

301. Ireland's Geneva Conventions Act as amended provides that grave breaches of AP I are punishable offences.³⁰⁹ It adds that any "minor breach" of AP I, including violations of Article 59(1) AP I, is also a punishable offence.³¹⁰

302. Under Jordan's Draft Military Criminal Code, "attacks against positions which have no means of defence" are considered war crimes.³¹¹

303. Under the Draft Amendments to the Code of Military Justice of Lebanon, "attacks against non-defended areas" are considered war crimes, provided that

³⁰¹ Croatia, *Criminal Code* (1993), Article 120(2).

they are committed intentionally and cause death or serious injury to body or health.³¹²

304. Under Lithuania's Criminal Code as amended, "a military attack against an undefended settlement" constitutes a war crime.³¹³

305. Under Mali's Penal Code, "attacking or bombarding, by whatever means, towns, villages, dwellings or buildings which are not defended and which do not constitute military objectives" constitutes a war crime in international armed conflict.³¹⁴

306. Under the Definition of War Crimes Decree of the Netherlands, the "deliberate bombardment of undefended places" constitutes a war crime.³¹⁵

307. Under the International Crimes Act of the Netherlands, it is a crime, during an international armed conflict, to commit "the following acts, when they are committed intentionally and in violation of the relevant provisions of Additional Protocol (I) and cause death or serious injury to body or health: . . . making non-defended localities . . . the object of attack".³¹⁶ Likewise, "attacking or bombarding, by whatever means, towns, villages, dwellings or buildings which are undefended and which are not military objectives" constitutes a crime, when committed in time of international armed conflict.³¹⁷

308. New Zealand's Geneva Conventions Act as amended provides that "any person who in New Zealand or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I] is guilty of an indictable offence".³¹⁸

309. Under New Zealand's International Crimes and ICC Act, war crimes include the crime defined in Article 8(2)(b)(v) of the 1998 ICC Statute.³¹⁹

310. Nicaragua's Draft Penal Code provides for a prison sentence for anyone who, in the context of an international or non-international armed conflict, "carries out an attack against non-defended localities".³²⁰

311. According to Niger's Penal Code as amended, "putting under attack non-defended localities" is a war crime.³²¹

312. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".³²²

313. Poland's Penal Code provides for the punishment of "any person who, during hostilities, attacks a non-defended locality or object".³²³

³²³ Poland, *Penal Code* (1997), Article 122(1).

314. Slovakia's Criminal Code as amended provides for the punishment of "a commander who, contrary to the provisions of international law on means and methods of warfare, intentionally: . . . (b) leads an attack against an unprotected place".³²⁴

315. Under Slovenia's Penal Code, "a random attack on . . . non-defended areas" is a war crime.³²⁵

316. Spain's Penal Code provides for the punishment of "anyone who, in the event of armed conflict, should . . . knowingly violate the protection due to . . . undefended areas . . . which are duly identified with signs or the appropriate distinctive signals".³²⁶

317. Tajikistan's Criminal Code, in the section on "Serious violations of international humanitarian law", provides for the punishment of "wilful breaches of norms of international humanitarian law committed in an international or non-international armed conflict, i.e. . . . making non-defended areas . . . the object of attack".³²⁷

318. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(v) of the 1998 ICC Statute.³²⁸

319. The UK Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside the United Kingdom, commits, or aids, abets or procures the commission by any other person of, a grave breach of . . . [AP I]".³²⁹

320. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(v) of the 1998 ICC Statute.³³⁰

321. Under the US War Crimes Act as amended, violations of Article 25 of the 1907 HR are war crimes.³³¹

322. Venezuela's Code of Military Justice as amended provides for the punishment of "those who should bomb inhabited places which are not fortified, which are not occupied by enemy forces and which do not oppose resistance".³³²

323. Under the Penal Code as amended of the SFRY (FRY), "indiscriminate attacks on . . . non-defended localities" are a war crime.³³³ In a footnote related to the "use of prohibited means of combat", the Code further provides that "the following methods of combat are banned under international law: . . . bombing

³²⁴ Slovakia, *Criminal Code as amended* (1961), Article 262(2)(b).

³²⁵ Slovenia, *Penal Code* (1994), Article 374(2).

³²⁶ Spain, *Penal Code* (1995), Article 612(1).

³³² Venezuela, *Code of Military Justice as amended* (1998), Article 474(10).

³³³ SFRY (FRY), *Penal Code as amended* (1976), Article 142(2).

and other forms of attacks on non-defended towns, villages and other localities and buildings".³³⁴

324. Zimbabwe's Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside Zimbabwe, commits any such grave breach of . . . [AP I]".³³⁵

National Case-law

325. In the *Perišić and Others case* in 1997 in a trial *in absentia* before a Croatian district court, several persons were convicted of ordering the shelling of the city of Zadar and its surroundings on the basis of Article 25 of the 1907 HR, common Article 3 of the 1949 Geneva Conventions and Articles 13–14 AP II, as incorporated in Article 120 of Croatia's Criminal Code.³³⁶

326. In its judgement in the *Shimoda case* in 1963, Japan's District Court of Tokyo stated that "dropping an atomic bomb on undefended towns should . . . be deemed the same as blind bombing, if it is not an attack on defended towns. Such an act should be recognized as violating international law at that time."³³⁷

Other National Practice

327. The Report on the Practice of Angola recalls Article 59 AP I and the prohibition on waging hostilities against undefended areas.³³⁸

328. The Report on the Practice of Bosnia and Herzegovina states that "it is forbidden to attack a place which has been declared an 'open city'".³³⁹

329. The Report on the Practice of Botswana states that, in general, non-defended localities should not be attacked and cites Article 59 AP I.³⁴⁰

330. During the Korean War, the Chinese government blamed US forces for the bombardment of undefended areas. In a statement before the 18th International Conference of the Red Cross in Toronto in 1952, the head of the Chinese delegation denounced the fact that "undefended cities and villages were wantonly bombarded" and "a large number of peaceful civilians killed".³⁴¹

331. The Report on the Practice of China states that an occupying power shall not damage or destroy a city and its facilities in case of enemy withdrawal from the occupied territory, the reason being that the city is then, in fact, undefended.³⁴²

³³⁴ SFRY (FRY), *Penal Code as amended* (1976), Commentary on Article 148(1)(a).

³⁴¹ China, Statement of 30 July 1952 at the 18th International Conference of the Red Cross, Toronto, 26 July–7 August 1952, reprinted in *Documents on Foreign Affairs of the People's Republic of China*, World Knowledge Press, Beijing, Vol. 2, pp. 82–83.

³⁴² Report on the Practice of China, 1997, Chapter 1.8.

332. In its written comments on other written statements submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt declared that “the attack or bombardment, by whatever means, of towns, villages, dwellings, or buildings which are undefended is prohibited”.³⁴³

333. According to the Report on the Practice of Egypt, “Egypt thinks that protection of open towns [and] undefended areas . . . consists in refraining from launching attacks against . . . these areas”, which implies that “attacks against such places are prohibited”.³⁴⁴

334. The Report on the Practice of France states that attacks against protected zones are prohibited.³⁴⁵

335. The Report on the Practice of India states that “in cases of internal conflict there will be rare occasions when special protection is necessary for open towns or undefended areas”.³⁴⁶

336. The Report on the Practice of Iran notes that, Iran objected on several occasions to the bombardment of undefended areas by Iraqi armed forces during the Iran–Iraq War.³⁴⁷

337. According to the Report on the Practice of Iraq, all official documents, including military communiqués and political speeches, issued during the Iran–Iraq War confirm that open cities were not subjected to strikes of any kind.³⁴⁸

338. The Report on the Practice of Nigeria states that it is Nigeria’s *opinio juris* that the protection of undefended areas is part of customary international law.³⁴⁹

339. The Report on the Practice of Rwanda notes that no practice could be found concerning undefended areas. However, referring to an interview held with the President of the Military Tribunal, it also states that such zones would be protected according to the modalities of the agreement concluded between the belligerents.³⁵⁰

340. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that “we support the principle that attacks shall not be made against appropriately declared or agreed non-defended localities”.³⁵¹

Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross–Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 427.

341. According to the Report on US Practice, the *opinio juris* of the US concerning open towns and undefended areas generally follows the conditions and rules prescribed in Articles 59 and 60 AP I.³⁵²

342. According to the Report on the Practice of Zimbabwe, non-defended areas are not to be attacked, but they may be occupied.³⁵³

III. Practice of International Organisations and Conferences

343. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

344. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

345. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that non-defended localities are “improvised protected zones” and that an attack against a non-defended locality constitutes a grave breach of the law of war.³⁵⁴

346. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Court, the ICRC proposed that the following war crime, when committed in an international armed conflict, be subject to the jurisdiction of the Court: “making non-defended localities the objects of attack”.³⁵⁵

VI. Other Practice

347. No practice was found.

CULTURAL PROPERTY

A. Attacks against Cultural Property (practice relating to Rule 38)	§§ 1–281
B. Use of Cultural Property for Military Purposes (practice relating to Rule 39)	§§ 282–354
C. Respect for Cultural Property (practice relating to Rule 40)	§§ 355–430
D. Export and Return of Cultural Property in Occupied Territory (practice relating to Rule 41)	§§ 431–482
Export of cultural property from occupied territory	§§ 431–449
Return of cultural property exported or taken from occupied territory	§§ 450–482

A. Attacks against Cultural Property

I. Treaties and Other Instruments

Treaties

1. Article 27 of the 1899 HR provides that:

In sieges and bombardments all necessary steps should be taken to spare as far as possible edifices devoted to religion, art, science, and charity . . . provided they are not being used at the time for military purposes.

It is the duty of the besieged to indicate the presence of such buildings or places by distinctive and visible signs, which shall be notified to the enemy beforehand.

2. Article 27 of the 1907 HR provides that:

In sieges and bombardments all necessary steps must be taken to spare, as far as possible, buildings dedicated to religion, art, science, or charitable purposes, historic monuments . . . provided they are not being used at the time for military purposes.

It is the duty of the besieged to indicate the presence of such buildings or places by distinctive and visible signs, which shall be notified to the enemy beforehand.

3. Article 5 of the 1907 Hague Convention (IX) provides that:

In bombardments by naval forces all the necessary measures must be taken by the commander to spare as far as possible sacred edifices, buildings used for artistic,

scientific or charitable purposes, . . . on the understanding that they are not used at the same time for military purposes.

It is the duty of the inhabitants to indicate such monuments, edifices or places by visible signs, which shall consist of large, stiff rectangular panels divided diagonally into two coloured triangular portions, the upper portion black, the lower portion white.

4. Article 1 of the 1935 Roerich Pact provides that:

The historic monuments, museums, scientific, artistic, educational and cultural institutions shall be considered as neutral and as such respected and protected by belligerents.

...

The same respect and protection shall be accorded to the historic monuments, museums, scientific, artistic, educational and cultural institutions in time of peace as well as in war.

5. Article 5 of the 1935 Roerich Pact provides that "the monuments and institutions mentioned in Article 1 [historic monuments, museums, scientific, artistic, educational and cultural institutions] shall cease to enjoy the privileges recognised in the present Treaty in case they are made use of for military purposes".

6. Article 1 of the 1954 Hague Convention defines cultural property, for the purposes of the Convention, irrespective of origin or ownership, as:

- (a) movable or immovable property of great importance to the cultural heritage of every people, such as monuments of architecture, art or history, whether religious or secular; archaeological sites; groups of buildings which, as a whole, are of historical or artistic interest; works of art; manuscripts, books and other objects of artistic, historical or archaeological interest; as well as scientific collections and important collections of books or archives or of reproductions of the property defined above;
- (b) buildings whose main and effective purpose is to preserve or exhibit the movable cultural property defined in sub-paragraph (a) such as museums, large libraries and depositories of archives, and refuges intended to shelter, in the event of armed conflict, the movable cultural property defined in sub-paragraph (a);
- (c) centres containing a large amount of cultural property as defined in sub-paragraphs (a) and (b), to be known as "centres containing monuments".

7. Article 4 of the 1954 Hague Convention provides that:

- 1. The High Contracting Parties undertake to respect cultural property situated within their own territory as well as within the territory of other High Contracting Parties . . . by refraining from any act of hostility directed against such property.
- 2. The obligations mentioned in paragraph 1 of the present Article may be waived only in cases where military necessity imperatively requires such a waiver.

8. Article 19(1) of the 1954 Hague Convention provides that:

In the event of an armed conflict not of an international character occurring within the territory of one of the High Contracting Parties, each party to the conflict shall be bound to apply, as a minimum, the provisions of the present Convention which relate to respect for cultural property.

9. Article 28 of the 1954 Hague Convention provides that:

The High Contracting Parties undertake to take, within the framework of their ordinary criminal jurisdiction, all necessary steps to prosecute and impose penal or disciplinary sanctions upon those persons, of whatever nationality, who commit or order to be committed a breach of the present Convention.

10. Article 53 AP I provides that:

Without prejudice to the provisions of the Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict of 14 May 1954, and of other relevant international instruments, it is prohibited:

- a) to commit any acts of hostility directed against the historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples.

Article 53 AP I was adopted by consensus.¹

11. Article 85(4)(d) AP I considers the following a grave breach of the Protocol:

making the clearly-recognized historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples and to which special protection has been given by special arrangement, for example, within the framework of a competent international organization, the object of attack, causing as a result extensive destruction thereof, where there is no evidence of the violation by the adverse Party of Article 53, sub-paragraph *b*), and when such historic monuments, works of art and places of worship are not located in the immediate proximity of military objectives.

Article 85 AP I was adopted by consensus.²

12. Upon ratification of AP I, Canada stated that:

It is the understanding of the Government of Canada in relation to Article 53 that:

- a. such protection as is afforded by the Article will be lost during such time as the protected property is used for military purposes; and
- b. the prohibitions contained in sub-paragraphs (a) and (b) of this Article can only be waived when military necessity imperatively requires such a waiver.³

13. Upon ratification of AP I, France declared that "if property protected under Article 53 AP I is used for military purposes, it loses the protection which it could enjoy according to the provisions of the Protocol".⁴

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 206.

² CDDH, *Official Records*, Vol. VI, CDDH/SR.44, 30 May 1977, p. 291.

³ Canada, Reservations and statements of understanding made upon ratification of AP I, 20 November 1990, § 9.

⁴ France, Reservations and declarations made upon ratification of AP I, 11 April 2001, § 13.

14. Upon ratification of AP I, Ireland stated that “it is the understanding of Ireland in relation to the protection of cultural objects in Article 53 that if the objects protected by this Article are unlawfully used for military purposes they will thereby lose protection from attacks directed against such unlawful military use”.⁵

15. Upon ratification of AP I, Italy stated that “if and so long as the objectives protected by Article 53 are unlawfully used for military purposes, they will thereby lose protection”.⁶

16. Upon ratification of AP I, the Netherlands stated, with respect to Article 53 AP I, that “it is the understanding of the Government of the Kingdom of the Netherlands that if and for as long as the objects and places protected by this Article, in violation of paragraph (b), are used in support of the military effort, they will thereby lose such protection”.⁷

17. Upon signature and upon ratification of AP I, the UK stated, in relation to Article 53 AP I, that “if the objects protected by this Article are unlawfully used for military purposes they will thereby lose protection from attacks directed against such unlawful military uses”.⁸

18. Article 16 AP II provides that:

Without prejudice to the provisions of the Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict of 14 May 1954, it is prohibited to commit any acts of hostility directed against historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples, and to use them in support of the military effort.

Article 16 AP II was adopted by 35 votes in favour, 15 against and 32 abstentions.⁹

19. Pursuant to Article 8(2)(b)(ix) and (e)(iv) of the 1998 ICC Statute, “intentionally directing attacks against buildings dedicated to religion, education, art, science or charitable purposes, [or] historic monuments . . . provided they are not military objectives” constitutes a war crime in both international and non-international conflicts.

20. Article 1(b) of the 1999 Second Protocol to the 1954 Hague Convention adopts the same definition as Article 1 of the 1954 Hague Convention.

21. Article 6 of the 1999 Second Protocol to the 1954 Hague Convention provides that:

With the goal of ensuring respect for cultural property in accordance with Article 4 of the [1954 Hague] Convention:

⁵ Ireland, Declarations and reservations made upon ratification of AP I, 19 May 1999, § 10.

⁶ Italy, Declarations made upon ratification of AP I, 27 February 1986, § 9.

⁷ Netherlands, Declarations made upon ratification of AP I, 26 June 1987, § 8.

⁸ UK, Declarations made upon signature of AP I, 12 December 1977, § g; Reservations and declarations made upon ratification of AP I, 28 January 1998, § k.

⁹ CDDH, *Official Records*, Vol. VII, CDDH/SR.53, 6 June 1977, p. 143.

- (a) a waiver on the basis of imperative military necessity pursuant to Article 4 paragraph 2 of the Convention may only be invoked to direct an act of hostility against cultural property when and for as long as:
 - (i) that cultural property has, by its function, been made into a military objective; and
 - (ii) there is no feasible alternative available to obtain a similar military advantage to that offered by directing an act of hostility against that objective;
- ...
- (c) the decision to invoke imperative military necessity shall only be taken by an officer commanding a force the equivalent of a battalion in size or larger, or a force smaller in size where circumstances do not permit otherwise;
- (d) in case of an attack based on a decision taken in accordance with sub-paragraph (a), an effective advance warning shall be given whenever circumstances permit.

22. Article 7 of the 1999 Second Protocol to the 1954 Hague Convention provides that:

Without prejudice to other precautions required by international humanitarian law in the conduct of military operations, each Party to the conflict shall:

- (a) do everything feasible to verify that the objectives to be attacked are not cultural property protected under Article 4 of the Convention;
- (b) take all feasible precautions in the choice of means and methods of attack with a view to avoiding, and in any event to minimizing, incidental damage to cultural property protected under Article 4 of the Convention;
- (c) refrain from deciding to launch any attack which may be expected to cause incidental damage to cultural property protected under Article 4 of the Convention which would be excessive in relation to the concrete and direct military advantage anticipated; and
- (d) cancel or suspend an attack if it becomes apparent:
 - (i) that the objective is cultural property protected under Article 4 of the Convention;
 - (ii) that the attack may be expected to cause incidental damage to cultural property protected under Article 4 of the Convention which would be excessive in relation to the concrete and direct military advantage anticipated.

23. Article 15 of the 1999 Second Protocol to the 1954 Hague Convention provides that:

1. Any person commits an offence within the meaning of this Protocol if that person intentionally and in violation of the Convention or this Protocol commits any of the following acts:
 - ...
 - (c) extensive destruction or appropriation of cultural property protected under the Convention and this Protocol;
 - (d) making cultural property protected under the Convention and this Protocol the object of attack.
- (2) Each Party shall adopt such measures as may be necessary to establish as criminal offences under its domestic law the offences set forth in this Article and to make such offences punishable by appropriate penalties.

24. Article 22(1) of the 1999 Second Protocol to the 1954 Hague Convention states that “this Protocol shall apply in the event of an armed conflict not of an international character, occurring within the territory of one of the Parties”.

Other Instruments

25. Article 35 of the 1863 Lieber Code provides that:

Classical works of art, libraries, scientific collections, or precious instruments, such as astronomical telescopes, as well as hospitals, must be secured against all avoidable injury, even when they are contained in fortified places whilst besieged or bombarded.

26. Article 17 of the 1874 Brussels Declaration provides that:

In such cases [of bombardment of a defended town or fortress, agglomeration of dwellings, or village] all necessary steps must be taken to spare, as far as possible, buildings dedicated to art, science, or charitable purposes, hospitals . . . provided they are not being used at the time for military purposes.

It is the duty of the besieged to indicate the presence of such buildings by distinctive and visible signs to be communicated to the enemy beforehand.

27. Article 34 of the 1880 Oxford Manual provides that:

In case of bombardment all necessary steps must be taken to spare, if it can be done, buildings dedicated to religion, art, science and charitable purposes . . . on the condition that they are not being utilized at the time, directly or indirectly, for defense.

It is the duty of the besieged to indicate the presence of such buildings by visible signs notified to the assailant beforehand.

28. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including “wanton destruction of religious, charitable, educational and historic buildings and monuments”.

29. Article 25 of the 1923 Hague Rules of Air Warfare provides that:

In bombardment by aircraft, all necessary steps must be taken by the commander to spare as far as possible buildings dedicated to public worship, art, science, or charitable purposes, historic monuments . . . provided such buildings, objects or places are not at the time used for military purposes. Such buildings, objects and places must by day be indicated by marks visible to aircraft . . .

A belligerent who desires to secure by night the protection for the hospitals and other privileged buildings above mentioned must take the necessary measures to render the special signs referred to sufficiently visible.

30. Article 26 of the 1923 Hague Rules of Air Warfare provides that:

The following special rules are adopted for the purpose of enabling States to obtain more efficient protection for important historic monuments situated within their

territory, provided that they are willing to refrain from the use of such monuments and a surrounding zone for military purposes, and to accept a special regime for their inspection.

- (1) A State shall be entitled, if it sees fit, to establish a zone of protection round such monuments situated in its territory. Such zones shall, in time of war, enjoy immunity from bombardment.
- (2) The monuments round which a zone is to be established shall be notified to other Powers in peace time through the diplomatic channel; the notification shall also indicate the limits of the zones. The notification may not be withdrawn in time of war.
- (3) The zone of protection may include, in addition to the area actually occupied by the monument or group of monuments, an outer zone, not exceeding 500 metres in width, measured from the circumference of the said area.
- (4) Marks clearly visible from aircraft either by day or by night will be employed for the purpose of ensuring the identification by belligerent airmen of the limits of the zones.

31. Pursuant to Article 22(2)(f) of the 1991 ILC Draft Code of Crimes against the Peace and Security of Mankind, "wilful attacks on property of exceptional religious, historical or cultural value" constitute exceptionally serious war crimes.

32. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY provides that hostilities shall be conducted in accordance with Article 53 AP I.

33. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina provides that hostilities shall be conducted in accordance with Article 53 AP I.

34. Article 3(d) of the 1993 ICTY Statute includes among the violations of the laws or customs of war in respect of which the Tribunal has jurisdiction "seizure of, destruction or wilful damage done to institutions dedicated to religion, charity and education, the arts and sciences, historic monuments and works of art and science".

35. Article 1(2) of the 1997 Revised Lauswolt Document states that "it is prohibited to commit any acts of hostility directed against cultural property".

36. Article 12(1) of the 1997 Revised Lauswolt Document provides that:

All the provisions of this instrument, the provisions of the Convention and its 1954 Protocol which relate to safeguarding of, and respect for, cultural property shall apply in the event of an armed conflict not of an international character, occurring within the territory of one of the States Parties.

37. Section 6.6 of the 1999 UN Secretary-General's Bulletin states that "the United Nations force is prohibited from attacking monuments of art, architecture or history, archaeological sites, works of art, places of worship and museums and libraries which constitute the cultural or spiritual heritage of peoples".

38. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes.

According to Section 6(1)(b)(ix) and (e)(iv), “intentionally directing attacks against buildings dedicated to religion, education, art, science or charitable purposes, [or] historic monuments . . . provided they are not military objectives” constitutes a war crime in both international and non-international conflicts.

II. National Practice

Military Manuals

39. Argentina’s Law of War Manual (1969) provides that:

In the event of bombardment, assault or siege, all necessary precautions shall be adopted, as far as possible, to respect buildings devoted to worship, the arts, the sciences and to charity, as well as historic monuments, provided such buildings and monuments, which must display special, visible signs, are not used for military purposes.¹⁰

The manual further states, with respect to combat operations, that “the destruction of enemy property shall be permissible as far as required by military operations and subject to the limitations imposed by the requirement of respect for artistic, scientific and historical property”.¹¹

40. Argentina’s Law of War Manual defines cultural property in accordance with Article 1 of the 1954 Hague Convention.¹² It states that “it is absolutely prohibited to commit hostile acts against cultural property”.¹³ The manual further qualifies “attacks directed against clearly recognised cultural property” as a grave breach.¹⁴ With respect to non-international armed conflicts in particular, the manual states that “cultural objects and places of worship which constitute the cultural or spiritual heritage of peoples enjoy special protection; they may not be attacked”.¹⁵

41. Australia’s Commanders’ Guide states that:

Additional Protocol I and specific cultural property conventions generally prohibit attacks against historical, religious and cultural objects and buildings. However, this protection may be lost if the facility is used for military purposes, e.g. a museum or church that contains an enemy sniper may be attacked to neutralise the threat. Care must be taken to ensure that only reasonable force is used.¹⁶

The manual further states that:

960. LOAC provides that buildings dedicated to religion, art, science or charitable purposes, and historic monuments are immune from attack so long as they are not being used for military purposes and are marked with distinctive and visible signs and notified to the adverse party.

¹⁰ Argentina, *Law of War Manual* (1969), § 1.010.

¹¹ Argentina, *Law of War Manual* (1969), § 1.018.

¹² Argentina, *Law of War Manual* (1989), § 4.43.

¹³ Argentina, *Law of War Manual* (1989), § 4.44.

¹⁴ Argentina, *Law of War Manual* (1989), § 8.03.

¹⁵ Argentina, *Law of War Manual* (1989), § 7.09.

¹⁶ Australia, *Commanders’ Guide* (1994), § 409.

961. LOAC also extends immunity to cultural property of great importance to cultural heritage. This is irrespective of origin, ownership or whether the property is movable or immovable. LOAC requires such property to be protected, safeguarded and respected and not made the object of reprisals. Such protection is not absolute and is lost if cultural property is used for military purposes.¹⁷

42. Australia's Defence Force Manual states that:

926. LOAC provides for the specific protection of cultural objects and places of worship, which supplements the general protection given to civilian objects. Buildings dedicated to religion, science or charitable purposes, and historic monuments, are given immunity from attack as far as possible, so long as they are not being used for military purposes. Such places are to be marked with distinctive and visible signs which must be notified to the other party.

927. Cultural property is also protected. Cultural property includes movable and immovable objects of great importance to the cultural heritage of people, whether their state is involved in the conflict or not, such as historical monuments, archaeological sites, books, manuscripts or scientific papers and the buildings or other places in which such objects are housed. Obligations are placed upon all parties to respect cultural property . . . by refraining from any act of hostility directed against such property. These obligations may be waived where military necessity requires such waiver, as in the case where the object is used for military purposes.

928. Historic monuments, places of worship and works of art, which constitute the cultural and spiritual heritage of peoples, are protected from acts of hostility.¹⁸

43. Belgium's Law of War Manual states that "an adversary must abstain for all acts of hostility towards" cultural property under general protection but is "liberated of its obligations if the State, in whose territory the cultural property is located, uses it for military purposes".¹⁹

44. Belgium's Teaching Manual for Soldiers states that "certain objects and buildings must not be attacked. Unless an order to the contrary has been given, they must be avoided. This concerns buildings with a high cultural value (churches, museums, libraries, etc.) and the persons who guard them."²⁰

45. Benin's Military Manual states that:

Marked cultural property whose immunity has been lifted for reasons of military necessity must, nevertheless, be respected to the extent permitted by the tactical situation. If not already done, the distinctive emblems used to mark the protected property whose immunity has been lifted must be removed.²¹

46. Bosnia and Herzegovina's Military Instructions provides that "it is prohibited to expose cultural facilities to military activities and undertake any kind of hostile actions which may result in their damage or destruction".²²

47. Burkina Faso's Disciplinary Regulations provides that, according to the customs of war, soldiers in combat must "spare buildings dedicated to religion,

¹⁷ Australia, *Commanders' Guide* (1994), §§ 960–961.

¹⁸ Australia, *Defence Force Manual* (1994), §§ 926–928, see also §§ 540–542.

¹⁹ Belgium, *Law of War Manual* (1983), p. 29.

²⁰ Belgium, *Teaching Manual for Soldiers* (undated), p. 8, see also p. 22 and slides 6b/1 and 6b/4.

²¹ Benin, *Military Manual* (1995), Fascicule II, p. 8.

²² Bosnia and Herzegovina, *Military Instructions* (1992), Item 9, § 1.

art, science or charitable purpose, and historic monuments, provided they are not being used for military purposes".²³

48. Cameroon's *Instructors' Manual* distinguishes between "cultural property and places worship . . . which represent a high cultural value or which have an important religious dedication whose immunity may not be withdrawn . . . and which require no special marking" on the one hand, and "marked cultural property" on the other hand.²⁴

49. Cameroon's *Disciplinary Regulations* provides that each soldier must "spare buildings dedicated to religion, art, science or charitable purposes, and historic monuments . . . provided they are not being used for military purposes".²⁵

50. Canada's *LOAC Manual* states that:

63. The following actions are prohibited:
 - a. to commit any acts of hostility directed against the historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples; or
 - ...
64. Care must be taken to avoid locating military personnel and material in or near protected cultural objects and places of worship.
65. Cultural objects and places of worship should be marked with the international sign [of the blue shield]. However, the absence of such a sign does not deprive such objects of protection.
66. Not all cultural objects and places of worship are protected as cultural or religious property by the LOAC. Only those cultural objects and places of worship which constitute the "cultural or spiritual heritage of peoples" are so protected. Therefore, a small village church may not be protected by the cultural protection provisions of the LOAC, but a major cathedral (e.g., Vatican) is likely entitled to protection. However, the fact that an object is not a cultural object does not mean that it is not a "civilian object". It would be entitled to protection under that status.
67. It is recognized that it may be difficult to distinguish between cultural objects and places of worship which are protected and those which are not protected. However, cultural objects and places of worship which are not protected nevertheless remain civilian objects and are protected as such.
68. Cultural objects and places of worship being used by the adverse party in support of its military effort may become legitimate targets.
69. Whether you attack cultural objects and places of worship which have become legitimate targets will depend on your mission. If so, the principle of proportionality is particularly important, as the location or object should not be damaged any more than what the mission requires.
70. Where possible, the opposing force should be warned to stop using a cultural object or place of worship for military purposes before an attack is launched.²⁶

²³ Burkina Faso, *Disciplinary Regulations* (1994), Article 35(1).

²⁴ Cameroon, *Instructors' Manual* (1992), p. 19, § 224.

²⁵ Cameroon, *Disciplinary Regulations* (1975), Article 31.

²⁶ Canada, *LOAC Manual* (1999), p. 4-7, §§ 63-70, see also p. 6-4, § 39.

The manual defines as a grave breach of AP I:

attacks against clearly-recognized historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples, where there is no evidence of prior use of such objects in support of the adverse party's military effort and where such places are not located in the immediate proximity of legitimate targets.²⁷

With respect to non-international armed conflicts in particular, the manual states that "it is forbidden to commit any hostile acts directed against historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples".²⁸

51. Canada's Code of Conduct provides that:

1. As a general rule, buildings or property dedicated to cultural or religious purposes may not be attacked. . . .
2. . . . Thus every attempt should be made to avoid unnecessary desecration or destruction of cultural objects and places of worship.
3. The identification of religious locations and objects is usually obvious. Churches, mosques and synagogues, cemeteries and other places of religious significance such as monasteries and temples are protected. The proper identification of cultural objects may not be as readily apparent. Cultural property is property of great importance to the cultural heritage of a people such as monuments of architecture, art or history, whether religious or not, archaeological sites, archives, buildings, manuscripts, works of art, large libraries, etc. These objects are protected.
4. Some cultural and religious locations may be marked with a distinctive blue and white sign. . . . However, not all religious and cultural property is marked with such a sign. Religious and cultural property should be respected whether or not it is marked with a sign. Thus a church or mosque should be protected even though the distinctive sign for cultural property may not be displayed on the exterior of the church.
5. Cultural and religious property should not be targeted. . . . If cultural or religious property is used for a military purpose, it loses its protection. Thus, care must be taken to avoid locating military personnel and material in or near these locations. If the opposing force is using a religious or cultural site for military purposes it becomes a legitimate target. Whether you attack this legitimate target will depend on your mission. If so, the principle of proportionality is particularly important as the location or object should not be damaged any more than what the mission requires. For example, the destruction of all or a portion of a church steeple may or may not be justified if it is being used by a sniper. The decision to attack would be based on the level of threat that the sniper presents and the military mission. The tactical method selected for the attack should not place CF personnel under undue risk yet should cause the least possible damage to the church. Where possible, the opposing force must be warned to stop using a cultural or religious site for a military purpose before an attack.²⁹

²⁷ Canada, *LOAC Manual* (1999), p. 16-3, § 17(d), see also p. 16-4, § 21(d) ("attacking a privileged or protected building").

²⁸ Canada, *LOAC Manual* (1999), p. 17-5, § 40.

²⁹ Canada, *Code of Conduct* (2001), Rule 9, §§ 1-5.

52. Colombia's Basic Military Manual considers that "abstaining from attacks against objects . . . which are part of its culture" is a way to protect the civilian population.³⁰ It defines cultural property as "all the objects that are the expression of a people's culture and that, because of their importance, must be protected against the effects of hostilities (monuments of architecture, archaeological sites, works of art, manuscripts, museums, archives, libraries, etc.)."³¹

53. Congo's Disciplinary Regulations provides that "buildings dedicated to religion, art, science or charitable purposes, and historic monuments must be spared, provided they are not being used by the enemy for military purposes".³²

54. According to Croatia's LOAC Compendium, acts of hostility against cultural objects are prohibited. However, cultural objects under general protection lose their immunity in cases of imperative military necessity. The existence of such necessity must be established by the local commander.³³ The Compendium further qualifies "unlawful attacks on cultural objects" as war crimes.³⁴

55. Croatia's Commanders' Manual states that:

13. Specifically protected objects . . . may not be attacked.

14. The immunity of a marked cultural object may be withdrawn in case of imperative military necessity.

...

55. [In attack] the immunity of a marked cultural object shall only be withdrawn when the fulfilment of the mission absolutely so requires. Advance warning shall give time for safeguard measures and information on withdrawal of immunity.

...

69. Marked cultural objects whose immunity has been withdrawn shall still be respected to the extent the fulfilment of the mission permits.³⁵

56. The Military Manual of the Dominican Republic instructs soldiers as follows:

You may not attack certain types of property. You are required to take as much care as possible not to damage or destroy buildings dedicated to cultural or humanitarian purposes or their contents. Examples are buildings dedicated to religion, art, science, or charitable purposes; historical monuments; hospital and places where the sick and wounded are collected and cared for; and schools and orphanages for children. These places are considered protected property as long as they are not being used at the time by the enemy for military operations or purposes.³⁶

57. Ecuador's Naval Manual provides that "buildings devoted to religion, the arts, or charitable purposes, historic monuments and other religious, cultural

³⁰ Colombia, *Basic Military Manual* (1995), p. 22, § 2, see also p. 29, § 2(a).

³⁵ Croatia, *Commanders' Manual* (1992), §§ 13–14, 55 and 69.

³⁶ Dominican Republic, *Military Manual* (1980), p. 4.

or charitable facilities should not be bombarded, provided they are not used for military purposes".³⁷

58. France's Disciplinary Regulations as amended provides that soldiers in combat must "spare buildings dedicated to religion, art, science or charitable purposes, and historic monuments, provided they are not being used for military purposes".³⁸

59. France's LOAC Summary Note provides that "the specific immunity granted to certain persons and objects by the law of war [including marked cultural property] must be strictly observed... They may not be attacked."³⁹ The manual specifies that "the immunity of specifically protected objects may only be lifted under certain conditions and under the personal responsibility of the commander. Military necessity justifies only those measures which are indispensable for the accomplishment of the mission."⁴⁰ The manual qualifies "attacks against marked property" as a war crime.⁴¹

60. France's LOAC Teaching Note states that "the law of armed conflict grants specific protection to certain specially marked installations and zones", including certain works and installations containing dangerous forces.⁴² It further states that:

In general, cultural property (religious building, place of worship, monument, museum, important work of art...) is protected. Its immunity may be lifted only in case of imperative military necessity and according to an order received from higher authority. In such a case, prior warning must be given to allow the civilian population to seek refuge or to evacuate the combat area. The means of combat must be proportionate in order to limit, as much as possible, damage to such cultural property.⁴³

61. France's LOAC Manual restates the definition of cultural property set out in Article 1 of the 1954 Hague Convention.⁴⁴ It further states that:

The protection enjoyed by such property may be lifted only if military necessity so demands or if such property is used for military purposes by the enemy. Only a commander of a division or larger unit has the authority to lift the immunity. This measure must be notified to the adverse party sufficient time in advance.⁴⁵

62. Germany's Military Manual provides that:

901. The term "cultural property" means, irrespective of origin or ownership, movable or immovable objects of great importance to the cultural heritage of all peoples (e.g. monuments of architecture, art or history, be they of secular or religious nature, archaeological sites and collections).

³⁷ Ecuador, *Naval Manual* (1989), § 8.5.1.6, see also § 8.6.2.2 (protected objects).

³⁸ France, *Disciplinary Regulations as amended* (1975), Article 9 bis (1).

³⁹ France, *LOAC Summary Note* (1992), §§ 2.2–2.3.

⁴⁰ France, *LOAC Summary Note* (1992), § 2.4.

⁴¹ France, *LOAC Summary Note* (1992), § 3.4.

⁴² France, *LOAC Teaching Note* (2000), p. 5.

⁴³ France, *LOAC Teaching Note* (2000), p. 6.

⁴⁴ France, *LOAC Manual* (2001), p. 29.

⁴⁵ France, *LOAC Manual* (2001), p. 30.

902. Apart from this actual cultural property, a number of indirect cultural objects shall also be protected. These indirect cultural objects include:

- buildings for preserving or exhibiting cultural property (museums, archives etc.);
- refuges intended to shelter cultural objects; and
- centres containing monuments, i.e. centres containing a large amount of cultural property.

Protected cultural objects in the Federal Republic of Germany are documented in regional Lists of Cultural Objects which are available with the territorial command authorities.

903. . . . Any acts of hostility directed against cultural property shall be avoided.

904. In addition, civilian objects, such as churches, theatres, universities, museums, orphanages, homes for the elderly and other objects, shall also be spared as far as possible, even if they are of no historical or artistic value.

905. General protection shall be granted to all cultural objects and does not require any entry in a special register. Cultural property placed under general protection shall neither be attacked nor otherwise damaged. . .

906. An exception to this rule shall be permissible only in cases of imperative military necessity. The decision is to be taken by the competent military commander. Cultural property which the enemy uses for military purposes shall also be spared as far as possible.⁴⁶

The manual further provides that grave breaches of IHL are in particular "extensive destruction of cultural property and places of worship".⁴⁷

63. Germany's IHL Manual states that "movable or immovable property of great importance to the cultural heritage of every people (e.g. architectural, artistic or historical monuments, places of worship, libraries) shall neither be attacked nor damaged in any other way".⁴⁸

64. Hungary's Military Manual provides that cultural property comprises both religious and secular cultural objects representing the cultural or spiritual heritage of peoples. Their protection may only be withdrawn in case of "imperative military necessity" under the authority of a commander.⁴⁹ The manual qualifies "unlawful attacks on cultural objects" as war crimes.⁵⁰

65. Indonesia's Air Force Manual provides that "places of worship, cultural objects and places used for humanitarian purposes must not be attacked nor made the target of air bombardment, unless they are used for military purposes and that there is no obvious sign of such objects".⁵¹ It does not refer to any specific level of protection for cultural property, but states that "it is prohibited to destroy cultural objects and places of worship".⁵²

66. With reference to Israel's Law of War Booklet, the Report on the Practice of Israel states that "the IDF does not intentionally target historic monuments, works of art or places of worship". It further points out that "the policy may

⁴⁶ Germany, *Military Manual* (1992), §§ 901–906, see also § 463.

⁴⁷ Germany, *Military Manual* (1992), § 1209. ⁴⁸ Germany, *IHL Manual* (1996), § 701.

⁵² Indonesia, *Air Force Manual* (1990), § 127(e).

not apply in cases of such structures being used for hostile purposes or in cases in which military necessity imperatively requires otherwise".⁵³

67. Israel's Manual on the Laws of War states, in a section entitled "places of prayer and cultural property":

These are buildings dedicated to religion, art, science or similar property that form a part of the spiritual heritage of a people. Though one could maintain that the existence of such edifices has an impact on the military morale of the adversary's side, they are not considered a legitimate target.

A provision imposing the obligation to spare such buildings in the course of war, inasmuch as possible, appeared for the first time in the Hague Conventions. The massive destruction of cultural property during World War II (ancient bridges, cathedrals) resulted in the laws of war devoting a convention, following the war, to define the ban on attacking or damaging cultural property, known as the 1954 Hague Convention Cultural Property. IDF soldiers are obligated to comply with this convention whenever it is likely to be relevant, by virtue of GHQ Regulation 33.0133. It clearly follows from here, that an attack on mosques or churches, which pose no direct danger to our armed forces, is prohibited.⁵⁴

68. Italy's LOAC Elementary Rules Manual states that:

13. Specifically protected objects . . . may not be attacked.

14. The immunity of a marked cultural object may be withdrawn in case of imperative military necessity.

...

55. [In attack] the immunity of a marked cultural object shall only be withdrawn when the fulfilment of the mission absolutely so requires. Advance warning shall give time for safeguard measures and information on withdrawal of immunity.

...

69. Marked cultural objects whose immunity has been withdrawn shall still be respected to the extent the fulfilment of the mission permits.⁵⁵

69. Italy's IHL Manual states that "cultural property and places of worship are entitled to protection in all circumstances provided they are not illicitly used for military purposes".⁵⁶ The manual qualifies "indiscriminate attacks against . . . cultural property" as war crimes.⁵⁷

70. Kenya's LOAC Manual states that:

Objects representing a high cultural value, or with an important religious dedication independent of any cultural value, such as historical monuments, works of art and places of worship which constitute the cultural or spiritual heritage of peoples, enjoy full protection. Their immunity may not be withdrawn, contrary to that of marked cultural objects. Their value is generally self-evident and does not require special identification means.

⁵³ Report on the Practice of Israel, 1997, Chapter 4.3, referring to *Law of War Booklet* (1986), p. 6.

⁵⁴ Israel, *Manual on the Laws of War* (1998), pp. 33–34.

⁵⁵ Italy, *LOAC Elementary Rules Manual* (1991), §§ 13–14, 55 and 69.

⁵⁶ Italy, *IHL Manual* (1991), Vol. I, § 12.

⁵⁷ Italy, *IHL Manual* (1991), Vol. I, § 85.

Other objects representing a cultural value as such, independently of their religious or secular character, may come under:

- (a) general protection; or
- (b) special protection.⁵⁸

The manual further states that "certain property and buildings must not be attacked except when an order to the contrary has been given. This comprises buildings of cultural value (temples, museums, libraries, etc.) and the persons who look after them".⁵⁹ It specifies that "in attack, withdrawal of immunity of cultural objects marked with distinctive protective signs (in the exceptional case of unavoidable military necessity) shall, when the tactical situation permits, be limited in time and restricted to the less important parts of the object."⁶⁰

71. South Korea's Military Law Manual provides that special attention shall be paid to cultural property during armed conflicts.⁶¹

72. South Korea's Operational Law Manual provides that marked cultural properties shall be respected as long as possible.⁶²

73. Madagascar's Military Manual states that "historic monuments, works of art and places of worship which constitute the cultural or spiritual heritage of peoples enjoy full protection. Their immunity may not be withdrawn, contrary to that of marked cultural objects".⁶³ With respect to marked cultural property, defined in accordance with Article 1 of the 1954 Hague Convention, the manual states that "the immunity of marked cultural property may be withdrawn in case of imperative military necessity".⁶⁴

74. Mali's Army Regulations provides that, according to the laws and customs of war, soldiers in combat must "spare buildings dedicated to religion, art, science or charitable purposes, and historic monuments, provided they are not being used for military purposes".⁶⁵

75. Morocco's Disciplinary Regulations provides that, according to the laws and customs of war, soldiers in combat must "spare buildings dedicated to religion, art, science or charitable purposes, and historical monuments, provided they are not being used for military purposes".⁶⁶

76. The Military Manual of the Netherlands restates the definition of cultural property provided for in Article 1 of the 1954 Hague Convention. The manual states that respect for cultural objects implies that "no acts of hostility may be committed against them" but that an exception can be made "in case military

⁵⁸ Kenya, *LOAC Manual* (1997), Précis No. 2, p. 12.

⁵⁹ Kenya, *LOAC Manual* (1997), Précis No. 2, p. 15.

⁶² South Korea, *Operational Law Manual* (1996), p. 134.

⁶³ Madagascar, *Military Manual* (1994), Fiche No. 3-SO, § F.

⁶⁴ Madagascar, *Military Manual* (1994), Fiche No. 3-O, § 14 and Fiche No. 3-SO, § G, see also Fiche No. 6-O, §§ 26 and 36, Fiche No. 7-O, § 14.

⁶⁵ Mali, *Army Regulations* (1979), Article 36.

⁶⁶ Morocco, *Disciplinary Regulations* (1974), Article 25(1).

necessity requires such an exception. Hence, the protection is not at all absolute".⁶⁷ It further provides that "attacking marked historic monuments, works of art or places of worship which are protected" in violation of IHL constitutes a grave breach.⁶⁸ With respect to non-international armed conflicts in particular, the manual states that "acts of hostility against historic monuments, works of art and places of worship are prohibited".⁶⁹ It recalls that, according to Article 19 of the 1954 Hague Convention, the provisions of that Convention on respect for cultural property apply, as a minimum, in non-international armed conflicts.⁷⁰

77. The Military Handbook of the Netherlands states that it is prohibited to attack "buildings that are used for worship, museums, historical monuments and other important cultural objects, unless they are used by the enemy for military purposes".⁷¹ The manual further states that "cultural property, such as historical monuments, places of worship and museums may not be attacked, damaged or destroyed".⁷²

78. The IFOR Instructions of the Netherlands provides that "it is also prohibited to attack property with a strictly civilian or religious character, unless this property is used for military purposes".⁷³

79. New Zealand's Military Manual restates Article 27 of the 1907 HR and refers to Article 5 of the 1907 Hague Convention (IX). It then quotes the definition of cultural property found in Article 1 of the 1954 Hague Convention and points out that "the protection of cultural property is not, however, absolute. If cultural property is used for military purposes, an opposing belligerent is released from the obligation to ensure immunity so long as the particular violation persists." The manual further states that for many of the parties to the 1907 HR, the 1907 Hague Convention (IX) and the 1954 Hague Convention, "their protection and obligations are overlaid by the protection and obligations of [Article 53] AP I". With respect to this overlap, the manual notes that:

At the time AP I was being negotiated it was clear, therefore, that not all historical, cultural and religious establishments are protected by this article; only such places as the Blue Mosque, the Coliseum, St. Paul's Cathedral, the Dome of the Rock, and the like. The special protection is confined to a limited class of objects which, because of their recognised importance, constitute a part of the cultural heritage of mankind. This approach may be regarded as culturally narrow today and could well result in a move to widen the protection.⁷⁴

⁶⁷ Netherlands, *Military Manual* (1993), p. V-6, § 5.

⁶⁸ Netherlands, *Military Manual* (1993), p. IX-6.

⁶⁹ Netherlands, *Military Manual* (1993), p. XI-7.

⁷⁰ Netherlands, *Military Manual* (1993), p. XI-1, § 1.

⁷¹ Netherlands, *Military Handbook* (1995), p. 7-36.

⁷³ Netherlands, *IFOR Instructions* (1995), § 12.

⁷⁴ New Zealand, *Military Manual* (1992), § 520 and footnote 78, see also § 632.

The manual further qualifies the following act as a grave breach of AP I:

making the clearly-recognised historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples and to which special protection has been accorded by special arrangement, the object of attack causing extensive destruction thereof, where there is no evidence of prior use of such objects in support of the adverse Party's military effort, and when such places are not located in the immediate proximity of military objectives.⁷⁵

With respect to non-international armed conflicts in particular, the manual restates Article 16 AP II.⁷⁶

80. Nigeria's Operational Code of Conduct provides that, during military operations, all officers and men of the armed forces shall observe the rules whereby "no property, building, etc. will be destroyed maliciously".⁷⁷

81. Nigeria's Manual on the Laws of War states that "in an attack, steps must be taken to spare, as far as possible, buildings dedicated to public worship, art, science or charitable purposes and historic monuments".⁷⁸ The manual qualifies "bombardment of . . . privileged buildings" as a war crime.⁷⁹

82. The Soldier's Rules of the Philippines instructs soldiers to respect all objects bearing "emblems designating cultural property".⁸⁰

83. The Joint Circular on Adherence to IHL and Human Rights of the Philippines states that members of the armed forces and the national police shall respect all objects bearing "emblems designating cultural property".⁸¹

84. Russia's Military Manual states that "the bombardment by military aircraft or vessels of historic monuments [and] churches . . . which are undefended and not used for military purposes" and "the destruction of cultural property, historical monuments, places of worship, and other buildings which represent the cultural or spiritual heritage of a people" are prohibited methods of warfare.⁸²

85. Senegal's Disciplinary Regulations provides that soldiers in combat must "spare buildings dedicated to religion, art, science or charitable purposes, and historic monuments, provided they are not being used for military purposes".⁸³

86. South Africa's LOAC Manual states that "attacking clearly recognised historic monuments, works of art or places of worship and causing extensive damage where these objects have not been used in support of the military effort" constitutes a grave breach of IHL.⁸⁴

⁷⁵ New Zealand, *Military Manual* (1992), § 1703(4)(d), see also § 1703(5) ("attacking a privileged or protected building").

⁸¹ Philippines, *Joint Circular on Adherence to IHL and Human Rights* (1991), § 2(a)(5).

⁸² Russia, *Military Manual* (1990), § 5(n) and (s).

⁸³ Senegal, *Disciplinary Regulations* (1990), Article 34(1).

⁸⁴ South Africa, *LOAC Manual* (1996), § 38(a).

87. Spain's LOAC Manual defines cultural objects in accordance with Article 1 of the 1954 Hague Convention.⁸⁵ The manual states that "the immunity of cultural property under general protection may only be lifted in case of imperative military necessity".⁸⁶ It also states that "historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples may not be the object of acts of hostility. They may not be attacked, destroyed or damaged".⁸⁷ The manual further states that "launching an attack against cultural property which is not located in the vicinity of military objectives which causes extensive damage to such property" constitutes a war crime.⁸⁸

88. Sweden's Military Manual states that it is forbidden to wilfully destroy cultural property such as museum collections, churches, historical monuments and other cultural sites.⁸⁹

89. Sweden's IHL Manual states that:

Since the Second World War, great interest has been devoted to creating protection in international law for cultural values. According to the 1954 Hague Convention on the protection of cultural values, the parties shall respect cultural objects of different kinds so that these may receive protection as far as possible – exceptions are made if military necessity can be claimed. By cultural values are understood according to the Convention both fixed and movable property of great importance for a people's cultural and spiritual heritage. As such are considered buildings of historical or religious importance, collections of historically important buildings, museums and libraries, works of art, books and scientific collections. The Convention also contains precise rules for the marking of buildings, historic monuments, etc., and provisions covering the storage of movable cultural objects in special shelters. . . . A condition is that none of these cultural values may be used for military purposes. If this should happen, the adversary is no longer obliged to extend protection to these objects.

During the [CDDH] it was again wished to introduce rules for protecting cultural objects. Initially, it was not clear whether the protection should include all or only certain cultural objects in a country waging war. Some states wished the provisions of the cultural convention to be supplemented so that all objects of this nature would receive specific safeguards. Other states, however, reacted strongly against including all churches and historic buildings, etc. in the protected category. A rule like this would have been very difficult to follow in practice, which would probably have meant the protection being weakened. The final solution was that *only those cultural values that were considered to belong to a people's "cultural and spiritual heritage" would be included in this special protection.*

The new provision in Additional Protocol I (AP I Art. 53) could be seen as a replacement for the 1954 Cultural Convention, which, however, is not at all the intention. The Additional Protocol article is only intended to be a confirmation of the rules existing in a much more precise form in the 1954 Convention. A further reason for introducing Article 53 was that many states had not ratified the 1954 Convention.

⁸⁵ Spain, *LOAC Manual* (1996), Vol. I, § 1.3.d.(1).

⁸⁶ Spain, *LOAC Manual* (1996), Vol. I, § 2.4.b.(2), see also § 7.3.b.(2).

⁸⁷ Spain, *LOAC Manual* (1996), Vol. I, § 4.5.b.(2)(b), see also § 7.3.b.(2).

⁸⁸ Spain, *LOAC Manual* (1996), Vol. I, § 11.8.b.(1). ⁸⁹ Sweden, *Military Manual* (1976), p. 30.

All civilian objects enjoying special protection according to Articles 53–56 also have general protection according to Article 52, but this is clearly stated in the Protocol text only in the case of the places used for religious purposes. . . . As Article 53 aims at giving these objects protection equivalent to that of hospitals, the intention has obviously been that no such object shall be used for military purposes of any kind. If such an object should be so used, there is no longer any requirement upon the adversary to respect the safeguard.

This is not, however, the same as saying that an attack may be launched against, for example, a cathedral or national museum without further ado. The party contemplating such an attack must first judge whether the object can, according to the criteria of Article 52:2, make an effective contribution to its adversary's military operations; and above all whether their total or partial destruction would afford a clear military advantage. The commander who is to make these assessments should also bear in mind that a wilful attack on the object in question may later be judged to be a grave breach of international humanitarian law (AP I Art. 85:4).

In Article 53 [AP I] it is not only prohibited to attack the protected objects but to commit any kind of "hostile act" whatsoever against them, and this is a more far-reaching commitment. This can in fact also be taken to imply prohibition of intentional destruction instigated by one's own authorities. Burnt earth tactics, which are a permitted method of combat, may thus not include destruction of one's own cultural objects, which are safeguarded according to Article 53. It follows both from Article 53 and from the interpretation of some Western states that only the most important objects of a historical, cultural or religious nature may enjoy the protection of the article. In practice, therefore each party to Additional Protocol I must select which objects it considers shall enjoy this qualified protection. Additional Protocol I does not, however, state how this selection is to be made. One suitable way would be to select the objects using the criteria given in the Cultural Convention of 1954.⁹⁰ [emphasis in original]

90. Switzerland's Teaching Manual states that the immunity enjoyed by cultural property under general protection "may be lifted, in case of imperative military necessity, by a responsible commander".⁹¹

91. Switzerland's Basic Military Manual states that:

Art. 52. Cultural property consists of movable and immovable property of great importance for the cultural heritage.

Art. 53. In the event of armed conflict, the cultural property, movable or immovable, located in the territory of a Party to the conflict must be respected and safeguarded.

Art. 54. The obligation to respect may only be derogated from in case military necessity imperatively so demands.⁹²

The manual qualifies the following act as a grave breach of AP I:

making the clearly recognised historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples and to which special protection has been given by special arrangement, for example, within the framework of a competent international organisation, the object of attack, causing

⁹⁰ Sweden, *IHL Manual* (1991), Section 3.2.1.5, pp. 56–58.

⁹¹ Switzerland, *Teaching Manual* (1986), p. 88.

⁹² Switzerland, *Basic Military Manual* (1987), Articles 52–54, see also Article 30(b).

as a result extensive destruction thereof, where there is no evidence of the violation by the adverse Party of Article 53, sub-paragraph b), and when such historic monuments, works of art and places of worship are not located in the immediate proximity of military objectives.⁹³

92. Togo's Military Manual states that:

Marked cultural property whose immunity has been lifted for reasons of military necessity must, nevertheless, be respected to the extent permitted by the tactical situation. If not already done, the distinctive emblems used to mark the protected property whose immunity has been lifted must be removed.⁹⁴

93. The UK Military Manual, while distinguishing between undefended and defended towns, states that a defended town is open to bombardment, subject to the limitations deriving from the principle of distinction, namely, "churches and monuments duly marked by signs . . . must not be deliberately attacked if they are not used for military purposes".⁹⁵ The manual further states that:

300. Although the bombardment of the private and public buildings of a defended town or fortress is lawful, all necessary steps must be taken to spare, as far as possible, buildings dedicated to public worship, art, science, or charitable purposes, historic monuments.

301. It is the duty of the besieged to indicate such buildings or places by distinctive and visible signs which must be notified to the enemy beforehand.

...

303. Buildings for which inviolability is thus claimed must not be used at the same time for military purposes, for instance, as offices and quarters for signalling stations or observation posts. If this condition is violated, the besieger is justified in disregarding the [protective] sign . . . Thus the bombardment of Strasbourg Cathedral in 1870 was generally held to have been justified for the reason that an artillery observation post was established in its tower. A similar position arose when the Abbey of Monte Cassino was shelled and bombed by the Allies in 1943. It was alleged that the Germans used the Abbey as . . . an observation post and store for military rations and ammunition.⁹⁶

94. The UK LOAC Manual states that:

In sieges, bombardments or attacks precautions must be taken to spare, as far as possible, buildings dedicated to religion, art, science or charitable purposes, historic monuments, important works of art . . . provided they are not being used for military purposes. Buildings of this sort should be distinctively marked, clearly identifying them as places to be spared. If a cathedral, museum or similar building is used for some military purpose then it may become a proper military target and there may be no alternative but to destroy it.⁹⁷

The manual further states that "in addition to the 'grave breaches' of the 1949 [Geneva] Conventions . . . the following are examples of punishable

⁹³ Switzerland, *Basic Military Manual* (1987), Article 193(2)(d).

⁹⁴ Togo, *Military Manual* (1996), Fascicule II, p. 8. ⁹⁵ UK, *Military Manual* (1958), § 290.

⁹⁶ UK, *Military Manual* (1958), §§ 300-301 and 303, and footnote 2.

⁹⁷ UK, *LOAC Manual* (1981), Section 4, p. 15 § 7.

violations of the laws of war, or war crimes: . . . (o) bombardment of . . . privileged buildings".⁹⁸

95. The US Field Manual reproduces Article 27 of the 1907 HR.⁹⁹ It also recalls that the US is party to the Roerich Pact, "which accords a neutralized and protected status to historic monuments, museums, scientific, artistic, educational and cultural institutions in the event of war".¹⁰⁰

96. The US Rules of Engagement for the Vietnam War stated that:

- (1) The enemy has shown by his actions that he takes advantage of areas or places normally considered as nonmilitary target areas. These areas are typified by those of religious background or historical value to the Vietnamese. When it is found that the enemy has sheltered himself or has installed defensive positions in such places or in public buildings and dwellings, the responsible senior brigade or higher commander in the area may order an attack to insure prompt destruction of the enemy. The responsible commander must identify positive enemy hostile acts either in the execution or preparation. Weapons and forces used will be those which will insure prompt defeat of enemy forces with minimum damage to structures in the area.

The exception to this policy is the palace compound in the Hue Citadel. For this specific area, commanders will employ massive quantities of CS agents and will take all other possible actions to avoid damage to the compound.¹⁰¹

97. The US Air Force Pamphlet provides that:

Buildings devoted to religion, art, or charitable purposes as well as historical monuments may not be made the object of aerial bombardment. Protection is based on their not being used for military purposes . . . When used by the enemy for military purposes, such buildings may be attacked if they are, under the circumstances, valid military objectives. Lawful military objectives located near protected buildings are not immune from aerial attack by reason of such location but, insofar as possible, necessary precautions must be taken to spare such protected buildings along with other civilian objects.¹⁰²

98. The US Air Force Commander's Handbook states that:

During military operations, reasonable measures should be taken to avoid damaging religious and cultural buildings, such as churches, temples, mosques, synagogues, museums, charitable institutions, historic monuments, archaeological sites, and works of art. These structures may lawfully be attacked if the enemy uses them for military purposes, though even then, the rules of engagement may place additional restrictions on US military operations. During World War II, for example, the Japanese city of Kyoto was never subjected to bombing because of the many historic and cultural monuments in the city.¹⁰³

⁹⁸ UK, *Military Manual* (1958), § 626(o).

⁹⁹ US, *Field Manual* (1956), § 45. ¹⁰⁰ US, *Field Manual* (1956), § 57.

¹⁰² US, *Air Force Pamphlet* (1976), § 5-5(c).

¹⁰³ US, *Air Force Commander's Handbook* (1980), § 3-5(a).

99. The US Soldier's Manual instructs soldiers as follows:

Don't attack protected property. You are required to take as much care as possible not to damage or destroy buildings dedicated to cultural or humanitarian purposes or their contents. Examples are buildings dedicated to religion, art, science, or charitable purposes; historical monuments; hospital and places where the sick and wounded are collected and cared for; and schools and orphanages for children. These places are considered protected property as long as they are not being used at the time by the enemy for military operations or purposes.¹⁰⁴

100. The US Instructor's Guide states that:

And remember that in attacks and shellings all necessary measures must be taken to spare, as far as possible, nonmilitary facilities to include buildings dedicated to religion, art, science, or charitable purposes. The same applies to historic monuments and hospitals, provided these buildings and places are not being used for military purposes.¹⁰⁵

The manual further states that "in addition to the grave breaches of the Geneva Conventions, the following acts are further examples of war crimes: . . . firing on facilities which are undefended and without military significance such as churches".¹⁰⁶

101. The US Rules of Engagement for Operation Desert Storm state that "churches, shrines, schools, museums, national monuments, and any other historical or cultural sites will not be engaged except in self-defense".¹⁰⁷

102. The US Naval Handbook provides that "buildings devoted to religion, the arts, or charitable purposes; historic monuments; and other religious, cultural or charitable facilities should not be bombarded, provided they are not used for military purposes".¹⁰⁸

103. The Annotated Supplement to the US Naval Handbook states that "while the United States is not a Party to the 1954 Hague Convention, it considers it to reflect customary law".¹⁰⁹

104. The YPA Military Manual of the SFRY (FRY) prohibits the exposure of cultural property to combat actions and hostile acts which could destroy or damage the cultural property and obliges officers to assist in the preservation of cultural property on the basis of information received from the enemy. It permits attacks on cultural property "in case of military need", but places this exemption under the limitation that the "authority to make such a decision rests with high officers, division commanders and higher ranks". It further states that cultural property used for military purposes is deprived of its immunity, regardless of proper marking, as long as such a situation lasts.¹¹⁰

National Legislation

105. Argentina's Code of Military Justice as amended punishes "whoever attacks, without any necessity, . . . poorhouses, places of worship, monasteries, schools . . . which are marked by the appropriate distinctive signs" or "whoever destroys places of worship, monasteries, libraries, museums, archives or important works of art, unless required by the military operations".¹¹¹

106. Argentina's Draft Code of Military Justice punishes any soldier who "attacks . . . or carries out acts of hostility against clearly recognisable cultural property or places of worship, which constitute the cultural or spiritual heritage of peoples and which have been granted protection by special agreements, causing extensive destruction, provided they are not located near military objectives nor used in support of the enemy's military effort".¹¹²

107. Under Armenia's Penal Code, it is a crime against the peace and security of mankind to make, during an armed conflict,

the clearly-recognized historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples and to which special protection has been granted, the object of attack, causing as a result extensive destruction thereof, when such historic monuments, works of art and places of worship are not located in the immediate proximity of military objectives and where there is no evidence of the use of such historic monuments, works of art and places of worship by the enemy for military purposes.¹¹³

108. Australia's Geneva Conventions Act as amended provides that "a person who, in Australia or elsewhere, commits a grave breach . . . of [AP I] is guilty of an indictable offence".¹¹⁴

109. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "attacking protected objects . . . that are not military objectives [including] buildings dedicated to religion, education, art, science or charitable purposes [and] historic monuments" in international and non-international armed conflicts.¹¹⁵

110. Azerbaijan's Criminal Code provides that "directing attacks against specially protected historic, religious, educational, scientific [or] charitable . . . [buildings and] monuments, which are easily seen and distinguishable . . . without any military necessity" constitutes a war crime in international and non-international armed conflicts.¹¹⁶

¹¹¹ Argentina, *Code of Military Justice as amended* (1951), Articles 746(2) and 746(3) respectively.

¹¹² Argentina, *Draft Code of Military Justice* (1998), Article 293, introducing a new Article 877(1) in the *Code of Military Justice as amended* (1951).

¹¹⁶ Azerbaijan, *Criminal Code* (1999), Article 116(8).

111. The Criminal Code of Belarus provides that it is a war crime to “direct attacks, without any military necessity, against historic monuments, works of art or places of worship which are clearly recognised and enjoy special protection”.¹¹⁷

112. Belgium’s Law concerning the Repression of Grave Breaches of the Geneva Conventions and their Additional Protocols as amended provides that it is a crime under international law to direct attacks against:

clearly recognised historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples and to which special protection has been given by special arrangement, where there is no evidence of the adverse party having violated the prohibition of using such objects in support of the military effort, and where such objects are not located in the immediate proximity of military objectives.¹¹⁸

113. The Criminal Code of the Federation of Bosnia and Herzegovina, in a part dealing with “Criminal offences against humanity and international law”, provides that:

- (1) Whoever, in violation of the rules of international law at the time of war or armed conflict, destroys cultural or historical monuments, buildings or establishments devoted to science, art, education or humanitarian purposes, shall be punished . . .
- (2) If a clearly distinguishable object, which has been under special protection of international law as the people’s cultural and spiritual heritage, has been destroyed by an act defined in paragraph 1 of this Code, the perpetrator shall be punished [more severely].¹¹⁹

The Criminal Code of the Republika Srpska contains a similar provision.¹²⁰

114. Bulgaria’s Penal Code as amended provides that it is a “crime against the laws and customs of waging war” to destroy, damage or make unfit, in violation of the rules of international law for waging war, “cultural or historical monuments and objects, works of art, buildings and equipment intended for cultural, scientific or other humanitarian purposes”.¹²¹

115. Under Burundi’s Draft Law on Genocide, Crimes against Humanity and War Crimes, “intentionally directing attacks against buildings dedicated to religion, education, art, science or charitable purposes [or] historic monuments . . . provided they are not military objectives” is a war crime in both international and non-international conflicts.¹²²

116. Canada's Geneva Conventions Act as amended provides that "every person who, whether within or outside Canada, commits a grave breach [of AP I] . . . is guilty of an indictable offence".¹²³

117. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.¹²⁴

118. Chile's Code of Military Justice provides for a prison sentence for "anyone who, contrary to instructions received, unnecessarily and maliciously . . . destroys places of worship, libraries, museums, archives or remarkable works of art".¹²⁵

119. China's Law Governing the Trial of War Criminals provides that "destroying religious, charitable, educational, historical constructions or memorials" constitutes a war crime.¹²⁶

120. Colombia's Military Penal Code punishes "anyone who during military service and without proper cause, destroys buildings, places of worship, archives, monuments or other public property".¹²⁷

121. Colombia's Penal Code provides for the punishment of

whoever, at the occasion of and during armed conflict, attacks or destroys, without any justification based on imperative military necessity, and without previously taking adequate and opportune measures of protection, historical monuments, works of art, educational institutions or places of worship, constituting the cultural or spiritual heritage of peoples, which are duly marked with the conventional signs.¹²⁸

122. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes set out in Article 8 of the 1998 ICC Statute.¹²⁹

123. The Geneva Conventions and Additional Protocols Act of the Cook Islands punishes "any person who in the Cook Islands or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I]".¹³⁰

124. According to Croatia's Criminal Code, it is a war crime to destroy "cultural objects or facilities dedicated to science, art, education or those established for humanitarian purposes".¹³¹ It provides a heavier penalty if "a clearly recognizable facility is destroyed which belongs to the cultural and spiritual

heritage of the people and which is under special protection of international law".¹³²

125. Cuba's Penal Code provides for the punishment of "anyone who intentionally destroys, damages or renders useless an object declared to be part of the cultural heritage or a national or local monument".¹³³

126. Cyprus's AP I Act punishes "any person who, whatever his nationality, commits in the Republic or outside the Republic any grave breach of the provisions of the Protocol, or takes part or assists or incites another person in the commission of such a breach".¹³⁴

127. The Czech Republic's Criminal Code as amended provides for the punishment of "a commander who, contrary to the provisions of international law on means and methods of warfare, intentionally: . . . (d) destroys or damages . . . a monument internationally-recognized as being of cultural importance".¹³⁵

128. The Code of Military Justice of the Dominican Republic provides for the punishment of any soldier who, "without necessity, attacks . . . places of worship . . . which are recognisable by the signs established for such cases".¹³⁶

129. The Draft Amendments to the Penal Code of El Salvador punish anyone who, during an international or a non-international armed conflict, attacks or destroys "clearly recognised cultural property or places of worship; works of art which constitute the cultural and spiritual heritage of peoples; and/or which have been granted protection pursuant to special agreements". It defines cultural property in accordance with Article 1 of the 1954 Hague Convention.¹³⁷

130. Under Estonia's Penal Code, "the destruction [or] damaging . . . of cultural monuments, churches, or other structures or objects of religious significance, works of art or science, archives of cultural value, libraries, museums or scientific collections, which are not being used for military purposes" is a war crime.¹³⁸

131. Under Georgia's Criminal Code, "destruction or damage of historical monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples" in an international or non-international armed conflict is a punishable crime.¹³⁹

132. Germany's Law Introducing the International Crimes Code provides for the punishment of:

whoever in connection with an international armed conflict or with an armed conflict not of an international character . . . directs an attack by military means against . . . buildings dedicated to religion, education, art, science or charitable purposes [or] historic monuments.¹⁴⁰

133. Under Hungary's Criminal Code as amended, "a military commander who, in violation of the rules of international law concerning warfare, carries out military operations which result in heavy damage to . . . internationally protected cultural property" commits a war crime.¹⁴¹

134. Ireland's Geneva Conventions Act as amended provides that grave breaches of AP I are punishable offences.¹⁴² It adds that any "minor breach" of AP I, including violations of Article 53 AP I, as well as any "contravention" of AP II, including violations of Article 16 AP II, are also punishable offences.¹⁴³

135. Italy's Wartime Military Penal Code punishes a commander who "omits to adopt measures provided for by the laws or by international conventions regarding respect for: . . . historical monuments and buildings intended for science, art, charity or for practising religion, provided that they are not at the same time used for military purposes and that they are marked by means of the distinctive signs foreseen by the international conventions, or in any case previously communicated to the enemy, and easily recognisable even from a great distance and at high altitude".¹⁴⁴ The Code further provides for the punishment of anyone who, in enemy territory and without military necessity, "sets fire to or destroys or seriously damages historical monuments, works of art or science, i.e., monuments dedicated to religion, charity, education, arts or science belonging to the enemy State".¹⁴⁵

136. Under Jordan's Antiquities Law, it is prohibited "to destroy, disfigure or cause any harm to antiquities".¹⁴⁶

137. Under Jordan's Draft Military Criminal Code, "attacks directed against historical monuments, places of worship and clearly recognized works of art, provided that they are not used for military purposes or situated in the immediate vicinity of military objects," are considered war crimes.¹⁴⁷

138. Kyrgyzstan's Criminal Code provides for the punishment of anyone who "intentionally destroys historical and cultural monuments".¹⁴⁸

139. Latvia's Criminal Code provides for the punishment of "intentional destruction of objects classified as cultural or national heritage".¹⁴⁹

140. Under the Draft Amendments to the Code of Military Justice of Lebanon, "attacks against historical monuments, places of worship and clearly recognized works of art, provided that they are not used for military purposes or situated in the immediate vicinity of military objectives," are considered war

crimes if they are committed intentionally in violation of the Geneva Conventions and AP I.¹⁵⁰

141. Under Lithuania's Criminal Code as amended, the "destruction of historical monuments, cultural or religious objects, protected under international or state internal legal acts, which cannot be justified as military necessity . . . [and] which has caused extensive damage" constitutes a war crime.¹⁵¹

142. Under Mali's Penal Code, "deliberate attacks against buildings dedicated to religion, education, arts, science or charitable activities, provided that such buildings are not used for military purposes," constitute a war crime in international armed conflicts.¹⁵²

143. Mexico's Code of Military Justice as amended provides for the punishment of a soldier who, without any imperative military necessity so demanding, "destroys libraries, museums, archives, aqueducts and important works of art".¹⁵³

144. Under the Definition of War Crimes Decree of the Netherlands, the "wanton destruction of religious, charitable, educational and historic buildings and monuments" constitutes a war crime.¹⁵⁴

145. Under the International Crimes Act of the Netherlands, the following shall be guilty of a crime:

Anyone who commits, in the case of an international armed conflict, one of the grave breaches of the Additional Protocol (I), . . . namely:

...

(d) the following acts if committed intentionally and in violation of the Geneva Conventions and Additional Protocol (I): . . .

(iv) making clearly recognised historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples and to which special protection has been given by special arrangement, for example within the framework of a competent international organisation, the object of attack, causing as a result extensive destruction thereof, where there is no evidence of the violation by the adverse Party of Article 53, subparagraph (b), of Additional Protocol (I) and when such historic monuments, works of art and places of worship are not located in the immediate proximity of military objectives . . .

...

Anyone who, in the case of an international armed conflict, intentionally and unlawfully commits one of the following acts . . . :

(a) making the object of attack cultural property that is under enhanced protection as referred to in articles 10 and 11 of the [1999 Second Protocol to the 1954 Hague Convention]; . . .

(d) making cultural property that is under protection as referred to in (c) [under the protection of the 1954 Hague Convention or of the 1999 Second Protocol thereto] the object of attack . . .

¹⁵⁴ Netherlands, *Definition of War Crimes Decree* (1946), Article 1.

...

Anyone who, in the case of an international armed conflict, commits one of the following acts:

...

(p) intentionally directing attacks against buildings dedicated to religion, education, art, science or charitable purposes, historic monuments, ... provided they are not military objectives ...

...

Anyone who, in the case of an armed conflict not of an international character, commits one of the following acts: ...

(d) intentionally directing attacks against buildings dedicated to religion, education, art, science or charitable purposes, historic monuments, ... provided they are not military objectives.¹⁵⁵

146. New Zealand's Geneva Conventions Act as amended provides that "any person who in New Zealand or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach ... of [AP I] is guilty of an indictable offence".¹⁵⁶

147. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(ix) and (e)(iv) of the 1998 ICC Statute.¹⁵⁷

148. Nicaragua's Military Penal Code punishes a soldier who:

destroys or damages, without military necessity, the documentary and bibliographic heritage, architectural monuments and places of historical or environmental importance, movable property of historical, artistic, scientific or technical value, archaeological sites, property of ethnographical value and natural sites, gardens and parks of historical-artistic or anthropological value and, in general, all those which are part of the historical heritage.¹⁵⁸

149. Nicaragua's Draft Penal Code punishes anyone who, during an international or a non-international armed conflict, attacks or destroys "clearly recognised cultural property or places of worship; works of art which constitute the cultural and spiritual heritage of peoples; and/or which have been granted protection pursuant to special agreements". It defines cultural property in accordance with Article 1 of the 1954 Hague Convention.¹⁵⁹

150. Niger's Penal Code as amended contains a list of war crimes committed against persons and objects protected under the 1949 Geneva Conventions and their Additional Protocols of 1977, including:

attacks against historical monuments, works of art or places of worship clearly recognized [as such] which constitute the cultural or spiritual heritage of peoples being accorded a special protection by a particular arrangement if there exists

no evidence that the adversary has violated the prohibition to use such property as a support of his military efforts and if these objects are not situated in the immediate vicinity of military objects.¹⁶⁰

151. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".¹⁶¹

152. The Military Penal Code of Paraguay provides for the punishment of anyone "who destroys or damages public monuments [and/or] objects of science and works of art held in public or private collections".¹⁶²

153. Peru's Code of Military Justice provides for the punishment of soldiers who, in time of armed conflict, "without any necessity, attack . . . places of worship or convents . . . which are recognisable by the proper emblems" or who "destroy, on allied or enemy territory, libraries, archives . . . or works of art without being compelled to do so by the necessities of war".¹⁶³

154. Poland's Penal Code provides for the punishment of "any person who, in violation of international law, destroys [or] damages . . . cultural property in occupied or controlled territory or in the combat area" and provides for a harsher punishment "if the offence is directed against cultural property of particular importance".¹⁶⁴

155. Romania's Penal Code provides for the punishment of:

destruction of any kind, without military necessity, of monuments or constructions that have artistic, historic or archaeological value, of museums, important libraries, archives of historic or scientific value, works of art, manuscripts, valuable books, scientific collections or important book collections, archives, reproductions of the above items and in general of any cultural heritage of peoples.¹⁶⁵

156. Russia's Criminal Code provides for the punishment of "destruction of or damage to cultural and historical monuments . . . as well as objects or documents having historical or cultural value".¹⁶⁶ It provides a heavier penalty for "the same acts committed against particularly valuable objects or monuments of all-Russian significance".¹⁶⁷

157. Slovakia's Criminal Code as amended provides for the punishment of "a commander who, contrary to the provisions of international law on means and methods of warfare, intentionally: . . . (d) destroys or damages . . . an internationally recognized cultural monument".¹⁶⁸

158. According to Slovenia's Penal Code, it is a war crime to destroy "cultural or historical monuments and buildings, institutions dedicated to scientific,

cultural, education or humanitarian purposes".¹⁶⁹ It provides a heavier penalty in case of destruction of "an entity specially protected by international law as a site of national, cultural, spiritual or natural heritage".¹⁷⁰

159. Spain's Military Criminal Code punishes a soldier who:

destroys or damages, without military necessity, the documentary and bibliographic heritage, architectural monuments and places of historical or environmental importance, movable property of historical, artistic, scientific or technical value, archaeological sites, property of ethnographical value and natural sites, gardens and parks of historical-artistic or anthropological value and, in general, all those which are part of the historical heritage.¹⁷¹

160. Spain's Penal Code provides for the punishment of:

anyone who, in the event of armed conflict, should . . . attack or subject to . . . hostile acts the cultural property or religious sites which are recognised as clearly being part of the cultural or spiritual heritage of the people or which have been specifically protected by special agreements, causing extensive destruction, whenever this property is not located in the immediate vicinity of military objectives and is not used to support the military effort of the adversary.

...

Should the cultural assets in question be under special protection or the acts be of the utmost gravity, the higher penalty may be imposed.¹⁷²

161. Under Sweden's Penal Code as amended, "arbitrarily destroying and extensively damaging property which enjoys special protection under international law" constitutes a crime against international law.¹⁷³

162. Switzerland's Military Criminal Code as amended punishes anyone who "unlawfully destroys or damages cultural property or material placed under the protection of the distinctive sign of cultural property".¹⁷⁴

163. Switzerland's Law on the Protection of Cultural Property states that protection includes respect for cultural property, which means, *inter alia*, "to renounce acts which could expose these objects to destruction or deterioration".¹⁷⁵

164. Tajikistan's Criminal Code, in the section on "Serious violations of international humanitarian law", provides for the punishment of:

wilful breaches of norms of international humanitarian law committed in an international or non-international armed conflict, i.e. . . . the destruction of or damage to historical monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples.¹⁷⁶

¹⁶⁹ Slovenia, *Penal Code* (1994), Article 384(1).

¹⁷⁰ Slovenia, *Penal Code* (1994), Article 384(2).

165. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(ix) and (e)(iv) of the 1998 ICC Statute.¹⁷⁷

166. The UK Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside the United Kingdom, commits, or aids, abets or procures the commission by any other person of, a grave breach of . . . [AP I]".¹⁷⁸

167. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(ix) and (e)(iv) of the 1998 ICC Statute.¹⁷⁹

168. Under the US War Crimes Act as amended, violations of Article 27 of the 1907 HR are war crimes.¹⁸⁰

169. Uruguay's Military Penal Code as amended punishes military personnel, *equiparados* and even persons unconnected with the armed forces "for unjustified attacks on . . . places of worship, convents, museums, libraries, archives, monuments and in general any establishment or structure intended for the purposes of culture, art, religious worship or charity".¹⁸¹

170. Venezuela's Code of Military Justice as amended provides for the punishment of "those who, in the absence of military necessity, should destroy, in enemy or allied territory, places of worship, libraries or museums, archives, aqueducts and other works of art, as well as communication, telecommunication or other such installations".¹⁸²

171. The Penal Code as amended of the SFRY (FRY) punishes anyone who "in violation of international law applicable to war or armed conflict, destroys cultural or historic monuments and buildings, or scientific, art, educational or humanitarian institutions" and provides a heavier penalty "if a clearly discernible object from paragraph 1 of this article is destroyed and it represents the cultural and spiritual heritage of that people under special protection of international law".¹⁸³

172. Zimbabwe's Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside Zimbabwe, commits any such grave breach of . . . [AP I]".¹⁸⁴

National Case-law

Other National Practice

174. The Report on the Practice of Algeria asserts the “principle of inviolability of places of worship”.¹⁸⁵

175. At the CDDH, Australia stated that had Article 47 *bis* of draft AP I (now Article 53) been put to a vote, it would have abstained “because the article contains a prohibition against reprisals” even though it supported “proposals for rules to prohibit acts of hostility directed against historic monuments or works of art which constitute the cultural or spiritual heritage of peoples”.¹⁸⁶

176. A report submitted by the Australian government to the UNESCO Secretariat in 1994 emphasised that “all ADF personnel, prior to departure for services overseas, are briefed ‘on the necessity to respect [differences in culture] which would include respect for the cultural heritage of other peoples’”.¹⁸⁷

177. In a statement at a meeting of EU experts in 1998, Austria maintained that “it is this ‘formula’ [military necessity] which last but not least has led to the fact that a large number of reluctant States resolved to vote for the convention and to ratify it”.¹⁸⁸

178. In a fact sheet on military necessity prepared for the 1998 Vienna expert meeting on the revision of the 1954 Hague Convention, Austria stated that:

1. ...In modern IHL, military necessity does not function as a general waiver to the limitations imposed by IHL on the parties to an armed conflict, but can only be invoked in cases where conventional law explicitly so provides. In order to emphasize the exceptional character of this concept, it is often further qualified by narrowing terms.
- 2.1 While the arguments against the inclusion of a waiver clause based on military necessity in the text of the 1954 Hague Convention were mainly based on the fear that this would be regarded as a retrograde step in relation to previous international law and would diminish the protection, the arguments for the inclusion of such a waiver were manifold and superseded the former. For the inclusion of a waiver clause based on military necessity spoke the need to make the Convention militarily applicable, the recognition of humanitarian reasons (to allow for the primacy of the protection of human lives over that of objects), the desire to make the Convention acceptable to as many States as possible, and the intent to be in line with existing IHL, in particular with the Geneva Conventions of 1949. The compromise finally negotiated allows for the recognition of military necessity only by way of exception and solely in relation to specific obligations.
- 2.2 ... The 1954 Hague Convention does not define what constitutes imperative military necessity. It is therefore up to each State Party to interpret these terms along the rules of interpretation applicable to international treaties.

¹⁸⁵ Report on the Practice of Algeria, 1998, Chapter 4.3.

¹⁸⁶ Australia, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, pp. 219–220.

¹⁸⁷ Australia, Report to UNESCO on Measures to Implement the Convention for the Protection of Cultural Property in the Event of Armed Conflict and Associated Regulations, 1994, § 2.

¹⁸⁸ Austria, Statement at the Expert Meeting of the 15 EU Member States on the 1954 Hague Convention, Houthem St. Gerlach, February 1998, p. 2, § 5, ad. 1.

According to the wording of the waiver clause, and in light of the object and purpose of the Convention as well as the drafting history, it must be interpreted restrictively. It definitely goes beyond mere considerations of military convenience and involves a certain level of command to assess the situation and to decide on the application of the waiver.

...

The waiver clause currently contained in Art. 4 para. 2 of the Convention serves an important protective function. Without this clause, the protection of cultural property would automatically be lost when a party to the armed conflict uses the object for military purposes... As a consequence of its – unlawful – use the formerly protected cultural property would change its status and become a legitimate military target.

The existing waiver clause, however, ensures the protection of cultural property from damage or destruction even if the cultural property concerned or its surroundings are used for military purposes, since the obligation to respect cultural property, in particular the obligation to refrain from any act of hostility directed against such property, may only be waived in cases where military necessity imperatively requires such a waiver. Thus, according to Art. 4 para. 2 of the Convention, cultural property used in violation of the Convention must not be attacked without imperative military necessity to do so.

As it is formulated now, the waiver clause contained in Art. 4 para. 2 of the Convention reflects a proper balance between the military needs, on the one hand, and the need for the protection of cultural property against damage or destruction during armed conflict, on the other, and should, therefore, be retained. To further improve the protective function of the waiver clause, a common understanding of the States Parties as to the interpretation of its terms seems to be useful.

...

- 3.1 In addition to that, one might consider to introduce the following elements into the waiver clause or the protection regime in relation to cultural property under “normal” protection:
- compulsory warnings;
 - a minimum time for the other party to redress the situation;
 - a certain command level where the decision on the waiver has to be taken;
 - certain requirements with regard to an attack on the property concerned in case of imperative military necessity:
 - precautions in attack;
 - no alternative means reasonably available;
 - the limitation of means and methods to those which are strictly necessary to counter the threat posed.¹⁸⁹

179. In 1998, at the Vienna expert meeting on the revision of the 1954 Hague Convention, Argentina stressed “the desirability of including the notion of military necessity” in the 1997 Revised Lauswolt Document, “provided, however, that this notion be defined precisely to avoid abuses”.¹⁹⁰

¹⁸⁹ Austria, Fact Sheet on Military Necessity submitted to the Expert Meeting on the Revision of the 1954 Hague Convention, Vienna, 11–13 May 1998, §§ 1–3.

¹⁹⁰ Argentina, Comments submitted to the Expert Meeting on the Revision of the 1954 Hague Convention, Vienna, 11–13 May 1998.

180. At the CDDH, Canada noted that Article 47 *bis* of draft AP I (now Article 53)

was not intended to replace the existing customary law prohibitions reflected in Article 27 of the 1907 [HR] protecting a variety of cultural and religious objects. Rather, the article establishes a special protection for a limited class of objects which because of their recognised importance constitute a part of the cultural heritage of mankind. We were happy to note that the Article was made “without prejudice” to the provisions of the [1954 Hague Convention] thereby implicitly recognizing the exceptions provided for in the Convention.¹⁹¹

181. In 1992, during a debate in the UN Security Council on the situation in the former Yugoslavia, Cape Verde condemned “the widespread use of violence in Croatia and in Bosnia and Herzegovina”, including the destruction of “cultural and historical landmarks”.¹⁹²

182. The Report on the Practice of Chile states that it is Chile’s *opinio juris* that “the general principle of protecting cultural and religious objects is an integral part of customary international law”.¹⁹³

183. At the 18th International Conference of the Red Cross in Toronto in 1952, China levelled the accusation at the US that “in Korea, . . . cultural, religious and charitable installations were wilfully destroyed”.¹⁹⁴

184. Colombia’s National Plan for the Dissemination of IHL states that the immunity of the spiritual and cultural heritage is absolute, and that the destruction of religious and cultural objects can neither serve any military need whatsoever nor provide any military advantage.¹⁹⁵

185. In 1991, during the conflict in the former Yugoslavia, Croatia reported and condemned the destruction of and damage to cultural, historical and religious monuments by the Yugoslav army.¹⁹⁶

186. In its written comments on other written statements submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt stated that “in bombardments all necessary precautions must be taken to spare buildings dedicated to religion, art, science, or charitable purposes [and] historic monuments”.¹⁹⁷

¹⁹¹ Canada, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 224.

¹⁹⁷ Egypt, Written comments on other written statements submitted to the ICJ, *Nuclear Weapons case*, September 1995, § 50.

187. The Report on the Practice of Ethiopia reasserts the commitment of “states and governments of the Horn of Africa not to attack any objects of cultural value”.¹⁹⁸

188. At the CDDH, Finland explained its voted against Article 20 *bis* of draft AP II (now Article 16) as follows:

Our negative vote is not to be taken as an indication of a negative stand as regards the safeguarding of cultural property from the ravages of war in general. It is an indication of our strong feeling that the inclusion of a provision protecting cultural property in Protocol II, which lacks general rules on the methods and means of combat . . . which have been deleted, unbalances the protective humanitarian character of the Protocol.¹⁹⁹

189. In a position paper on the 1997 Revised Lauswolt Document, France expressed the view that “military necessity may be admitted only where an express provision allows recourse to it”. It concluded that the wording of Articles 4(2) and 11(2) of the 1954 Hague Convention should be maintained.²⁰⁰ This view was repeated in a position paper submitted in 1998 to the Vienna expert meeting on the revision of the 1954 Hague Convention, at which France referred to the principle whereby it was not permitted to use more violence than absolutely necessary.²⁰¹

190. In 1998, in a working document submitted to the Vienna expert meeting on the revision of the 1954 Hague Convention, France stated that:

1. The Convention for the protection of cultural property in the event of armed conflict, signed at The Hague on 14 May 1954, mentions the concept of military necessity in respect of all cultural property . . .
2. Although such provisions gave rise to much debate during the preparation of the text of the Convention, they are not new. The idea of military necessity is a classic part of the law of armed conflict. [reference to Article 23(g) 1907 HR and Article 53 GC IV]
3. If the idea of military necessity is expressly recognised in the law of war as well as in humanitarian law, it is not because it represents an attack on the general principle of limitation which should govern the behaviour of States during armed conflicts, but rather because it is an additional safety measure for the implementation of this principle of limitation. The recourse to military necessity is never arbitrary: military necessity only makes sense in conformity with the customary principles of international humanitarian law and of the law of war, in the context of the application in good faith of the international obligations which bind states.

¹⁹⁸ Report on the Practice of Ethiopia, 1998, Chapter 4.3.

¹⁹⁹ Finland, Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR.53, 6 June 1977, pp. 156–157.

²⁰⁰ France, Observations on the Revised Lauswolt Document, UNESCO Doc. DLT.97/CONF.208/2, October 1997, § 1.

²⁰¹ France, Position paper submitted to the Expert Meeting on the Revision of the 1954 Hague Convention, Vienna, 11–13 May 1998, § 2.

4. It is therefore wrong to think that military necessity represents a threat to cultural property: its implementation is closely constrained by four cumulative conditions:
 - military necessity is controlled, since the rule of law should include such an exception;
 - as for all exceptions, the application of military necessity should be limited in time;
 - military necessity can only justify means which are indispensable to achieve the aim;
 - the means of implementing military necessity must be legal.
5. It can be seen that these four conditions must be respected in all cases of the implementation of military necessity, either for property under general protection or for property under special protection. These conditions are linked to the customary principles of humanitarian law and of the law of war, and not to various levels of protection by which the property is covered.²⁰²

191. During the intergovernmental meeting on the revision of the 1954 Hague Convention in The Hague in 1999, the French delegation stressed that the protection from attack enjoyed by cultural property can be lifted only in case of military necessity.²⁰³

192. The Report on the Practice of France states that “the French authorities condemn all acts that are likely to seriously damage cultural and religious property, whether in the context of international or non-international armed conflicts”.²⁰⁴

193. At the CDDH, the FRG stated that:

Article 47 *bis* [of draft AP I (now Article 53)] establishes a special protection for a limited class of objects which, in the particular circumstances, constitute a part of the cultural or spiritual heritage of mankind. Such objects remain protected whether or not they have been restored. The illegal use of these objects for military purposes, however, will cause them to lose the protection provided for in Article 47 *bis* as a result of attacks which are to be directed against such military uses. In such a case the protected object becomes a military objective . . . Article 47 *bis* was not intended to replace the existing customary law prohibitions reflected in Article 27 of the 1907 [HR] protecting a variety of cultural and religious objects . . . Article 47 *bis* is limited to [AP I] and does not affect any obligations under the [1954 Hague Convention].²⁰⁵

194. In a debate in the German parliament in 1991 on the situation in the city of Dubrovnik, a member of parliament labelled attacks on Dubrovnik as “acts of barbarism”. This view was shared by a large majority of members of parliament.²⁰⁶

²⁰² France, Working document on military necessity submitted to the Expert Meeting on the Revision of the 1954 Hague Convention, Vienna, 11–13 May 1998, §§ 1–5.

²⁰³ France, Statement at the Diplomatic Conference on the Second Protocol to the 1954 Hague Convention, The Hague, 15–26 March 1999.

²⁰⁴ Report on the Practice of France, 1998, Chapter 4.3.

²⁰⁵ FRG, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, pp. 225 and 226.

²⁰⁶ Germany, Lower House of Parliament, Statement by a Member of Parliament, Dr. Christopher Zöpel, 17 October 1991, *Plenarprotokoll* 12/50, p. 4092.

195. In 1996, during a debate in the UN General Assembly, Germany called upon the parties to the conflict in Afghanistan “to preserve the cultural heritage of their country”.²⁰⁷

196. In 1997, in its position paper concerning a revision of the 1954 Hague Convention (Revised Lauswolt Document), Germany stated that “the definition of cultural property in Article 1 of the Convention should form the basis of the new legal instrument” because the non-exhaustive list contained in Article 1 had been “accepted by the international community” and the incorporation of definitions from other instruments was “inadvisable”. Germany further stated that:

The principle of military necessity as a core element of international humanitarian law cannot be dispensed with . . . The idea that, in certain cases and under certain circumstances, military necessity would take priority over the humanitarian protection of civilian objects . . . today is an integral part of Customary International Law . . . Military necessity does not take precedence over the law, but is subject to it. Including the concept of military necessity in the formulation of legal regulations takes account of the fact that international humanitarian law is very often necessarily a compromise between military and humanitarian requirements.²⁰⁸

197. In 1998, at the Vienna expert meeting on the revision of the 1954 Hague Convention, Hungary expressed its disapproval of the possible inclusion of the notion of “military necessity” in the Revised Lauswolt Document.²⁰⁹

198. At the CDDH, India explained its voted against Article 20 *bis* of draft AP II (now Article 16) as follows: “The Indian delegation objects strongly to the reference to any international convention, to which only sovereign States can be Parties, in Protocol II, which will apply to internal armed conflicts.”²¹⁰

199. The Report on the Practice of India states that in India “there are no specific regulations aimed at protecting cultural objects. Nevertheless, the general protection available under the law for protection of public property of all types, can be extended to cultural objects as well.”²¹¹ The report further points out that the protection ordinarily granted to religious objects is not afforded if such objects are used for terrorist activities. India used armed force in the past against such objects that could not be treated as civilian objects, for example during the military offensive against the Golden Temple in Amritsar in 1984.²¹²

200. At the CDDH, Indonesia voted against Article 20 *bis* of draft AP II (now Article 16) but explained that this “should not be interpreted as meaning that

²¹⁰ India, Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR.53, 6 June 1977, p. 159.

²¹¹ Report on the Practice of India, 1997, Chapter 2.7.

²¹² Report on the Practice of India, 1997, Chapter 1.3.

[the Indonesian] Government is against the principles contained in this article that historic monuments or works of art should be protected".²¹³

201. According to the Report on the Practice of Iran, Iran accused Iraq of bombarding cultural and historical property on many occasions during the Iran–Iraq War, including museums, ancient hills and places, mosques and schools, while Iran committed itself vis-à-vis UNESCO not to attack such property and accorded "special protection" to four holy cities in Iraq. The report concludes that Iran's *opinio juris* is that cultural property is immune from attack.²¹⁴ The report further states that an attack on a historic building can be considered a war crime.²¹⁵

202. In 1992, during a debate in the UN Security Council on the situation in the former Yugoslavia, Iran qualified the destruction of cultural property in times of armed conflict as a violation of human rights and deplored "gross violations of the human rights of the people of Bosnia and Herzegovina, including . . . wanton destruction of historical monuments, houses of worship and property".²¹⁶

203. The Report on the Practice of Iraq states that there exists an outright prohibition on attacks on cultural property "for any reason".²¹⁷

204. Israel's IDF General Staff Order 33.0133 of 1982 requires all IDF soldiers "to act, with regard to 'Cultural Property' situated within the State of Israel or any other country, in accordance with the provisions of the [1954 Hague] Convention". It provides, in particular, that IDF soldiers shall abstain from attacking or causing damage to historic monuments, works of art or places of worship.²¹⁸ However, according to the Report on the Practice of Israel, the prohibition not to target cultural property as contained in the Order does not apply to cases in which cultural property is used for "hostile purposes".²¹⁹

205. In 1998, at the Vienna expert meeting on the revision of the 1954 Hague Convention, Israel advocated the inclusion of an additional paragraph in draft Article 1 of the Revised Lauswolt Document, which would provide that "the provisions of this instrument shall not prejudice or derogate from accepted customary principles of the laws of war, including, *inter alia*, the principles of proportionality, distinction and military necessity".²²⁰

206. The Report on the Practice of Japan notes that Japan is not a party to the 1954 Hague Convention because of some problems connected to domestic

²¹⁸ Israel, IDF General Staff Order 33.0133, Discipline-Conduct in Accordance with International Conventions to which Israel is a Party, 20 July 1982, § 9.

²¹⁹ Report on the Practice of Israel, 1997, Chapter 4.3.

²²⁰ Israel, Comments submitted to the Expert Meeting on the Revision of the 1954 Hague Convention, Vienna, 11–13 May 1998.

measures for the implementation of this Convention. It recalls, however, that Japan was among the countries at the CDDH which proposed adding a clause to the draft AP II concerning the protection of cultural property and chapels.²²¹

207. The Report on the Practice of Jordan notes that Islamic law lays down the principle of the inviolability of places of worship and states that Jordan has always respected this principle and has always protested against any violations of this principle by its adversaries.²²²

208. In 1981, in a memorandum submitted to the UN Secretary-General, the Lebanese Department of Foreign Affairs accepted the “application of international decisions concerning the conservation of the historical character of the city of Tyre and especially of the archaeological sites”.²²³

209. In 1993, during a debate in the UN Security Council, Libya requested that the people of Bosnia and Herzegovina “be supported and assisted in the exercise of its right of self-defence against . . . the destruction of its places of worship”.²²⁴

210. At the CDDH, the Netherlands stated that:

Article 47 *bis* [of draft AP I (now Article 53)] provided special protection for a limited category of objects which by virtue of their generally recognised importance constituted part of the cultural or spiritual heritage of mankind . . . The illegitimate use of those historical objects for military purposes would deprive them of the protection afforded by Article 47 *bis*.²²⁵

211. At the CDDH, the Netherlands explained its abstention on the vote on Article 20 *bis* of draft AP II (now Article 16) as follows:

Article 20 *bis* unconditionally prohibits, in an internal conflict, any acts of hostility directed against historic monuments or works of art, which constitute the cultural heritage of peoples. The article does not provide for any possible derogation from the prohibition it contains . . . We note that the very well-balanced system of the [1954 Hague Convention], through its Article 19 that provides the rule to be applied in internal conflicts, contains a possibility of derogation where imperative reasons of military necessity so require. [The Netherlands] would have preferred a possibility of derogation to be explicitly contained in Article 20 *bis*. It is our understanding, however, that a derogation for imperative reasons of military necessity is indeed implied in Article 20 *bis* by virtue of the clear reference to the [1954] Hague Convention. It goes without saying that cessation of immunity from attack during such time as the cultural object is used by adversary armed forces is an example of such military necessity.²²⁶

²²¹ Report on the Practice of Japan, 1998, Chapter 4.3.

²²² Report on the Practice of Jordan, 1997, Chapter 4.3.

²²³ Lebanon, Department of Foreign Affairs, Memorandum, annexed to Letter dated 13 July 1981 to the UN Secretary-General, UN Doc. S/14586, 14 July 1981.

²²⁴ Libya, Statement before the UN Security Council, UN Doc. S/PV.3247, 29 June 1993, § 101.

²²⁵ Netherlands, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, pp. 207–208.

²²⁶ Netherlands, Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR.53, 6 June 1977, pp. 161–162, see also Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, pp. 126–127, §§ 11–13.

212. In an explanatory memorandum submitted to the Dutch parliament in the context of the ratification procedure of the Additional Protocols, the government of the Netherlands stated that cultural objects and places of worship “enjoy the general protection of civilian objects, as specified in Article 52 of Protocol I”.²²⁷

213. In 1998, at the Vienna expert meeting on the revision of the 1954 Hague Convention, the Netherlands stated that “as was the case in 1954, the Netherlands believes military necessity is a vital element to be included in a revised Convention”. It stressed that “although used as an exception to certain rules set forth in humanitarian law instruments, military necessity is not a tool by which military commanders conveniently dismiss the laws of armed conflict when it would be useful or advantageous to do so”. Concerning the notion of “imperative military necessity”, the Netherlands relied upon the definition that “an imperative necessity presupposes that the military objective cannot be reached in any other manner” and that it “requires a careful evaluation of the items which could be affected”. It went on to say that “although such considerations are inherent in the definition of military necessity, the emphasis placed on the requirement that the necessity must be ‘imperative’ further seeks to limit the likelihood that a military commander will invoke this exception to the protection”.²²⁸

214. At the CDDH, Norway explained that it would vote against Article 20 *bis* of draft AP II (now Article 16) because:

Some of the most essential guarantees for the protection of basic human rights had been deleted from draft Protocol II. Their conscience as human beings prevented the members of [the Norwegian] delegation from supporting the adoption of measures according more favourable treatment to cultural objects than to human beings. Their attitude did not relate in any way to the aims of Article 20 *bis* and [the Norwegian] delegation had accordingly voted for the Article in Committee.²²⁹

215. In 1994, during a debate in the UN Security Council, Pakistan considered the destruction of mosques and other Islamic structures in the former Yugoslavia as “inhuman behaviour”.²³⁰

216. According to the Report on the Practice of Russia, the destruction of cultural property, historic monuments or places of worship that constitute a part of the cultural or spiritual heritage of a people, is a prohibited method of warfare.²³¹

²²⁷ Netherlands, Lower House of Parliament, Explanatory memorandum to the ratification of the Additional Protocols of 12 December 1977 to the Geneva Conventions, 1983–1984 Session, Doc. 18277 (R 1247), No. 3, p. 28.

²²⁸ Netherlands, Comments submitted to the Expert Meeting on the revision of the 1954 Hague Convention, Vienna, 11–13 May 1998.

²²⁹ Norway, Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, pp. 125–126, § 4.

²³⁰ Pakistan, Statement before the UN Security Council, UN Doc. S/PV.3370, 27 April 1994, p. 427.

²³¹ Report on the Practice of Russia, 1997, Chapter 1.6.

217. According to the Report on the Practice of Rwanda, most cultural and religious objects were not damaged by the belligerents during the non-international armed conflict which took place before 1994. Any damage which did occur was found to have been caused unintentionally. The report maintains, however, that during the “genocide in 1994”, cultural and religious objects were no longer respected.²³²

218. In 1998, at the Vienna expert meeting on the revision of the 1954 Hague Convention, Ukraine expressed the view that:

The irrelevance of entering the word “military necessity” when drafting the document is accounted for by the following reasons: military doctrine of Ukraine is of a defensive nature: the Constitution of Ukraine doesn’t define it; the internal legislation of Ukraine regarding the protection of national monuments doesn’t define it.²³³

219. In 1992, during a debate in the UN Security Council on the situation in the former Yugoslavia, the UAE stated that “there has been massive arbitrary destruction of historic, religious and archaeological sites regardless of the enormous international efforts made and the role of the United Nations Protection Force”.²³⁴

220. At the CDDH, the UK delegation declared that:

We note particularly the use of the expression “spiritual heritage” [in Article 47 *bis* of draft AP I (now Article 53)], which qualifies the reference to places of worship and makes it obvious that the protection given by this article extends only to those places of worship which do constitute such spiritual heritage. Many holy places are thus covered, but it is clear to [the UK] delegation that the article is not intended to apply to all places of worship without exception. Secondly, [the UK] delegation does not understand this article as being intended to replace the existing customary law prohibitions reflected in Article 27 of the 1907 [HR], which protect a variety of cultural and religious objects. Rather, this article establishes a special protection for a limited class of objects, which, because of their recognized importance, constitute a part of the heritage of mankind. It is the understanding of [the UK] delegation that if these objects are unlawfully used for military purposes, they will thereby lose effective protection as a result of attacks directed against such unlawful military uses”.²³⁵

221. At the CDDH, the UK explained its vote against Article 20 *bis* of Draft AP II (now Article 16 AP II) as follows:

In the case of Article 20 *bis*, we considered that to retain a provision on the protection of cultural objects and places of worship which did not appear in the simplified draft, when so many provisions for the protection of human victims of armed conflict had been deleted, would be a distortion of what should be the true aims of the

²³² Report on the Practice of Rwanda, 1997, Chapter 4.3.

²³³ Ukraine, Position paper submitted to the Expert Meeting on the Revision of the 1954 Hague Convention, Vienna, 11–13 May 1998, § C.

²³⁵ UK, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 238.

Protocol . . . Our negative vote should not be taken as indicating any lack of sympathy with the aim of the article. It is to be seen as an expression of our conviction that a proper balance should be found in the contents of the Protocol as a whole, a balance which in general seemed to us to have been struck in the simplified draft of Pakistan.²³⁶

222. In 1991, during a debate in the UN Security Council concerning the Gulf War, the UK asserted its compliance with the principle of avoiding damage to sites of religious and cultural significance.²³⁷

223. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK stated that "British commanders have also been briefed on the locations and significance of sites of religious and cultural importance in Iraq, and operations will take account of this".²³⁸

224. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK stated that "the entire campaign has been conducted against military infrastructure with the express directions to avoid causing civilian casualties as far as possible, and with specific briefing to avoid sites of cultural and historic significance".²³⁹

225. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK government stated that:

Pilots have clear instructions to minimize civilian casualties and to avoid damage to sites of religious and cultural significance. Indeed, on a number of occasions, attacks have not been pressed home because pilots were not completely satisfied they could meet these conditions.²⁴⁰

226. On 26 May 1944, General Eisenhower, Supreme Allied Commander in Europe, preparing to invade Europe, issued the following order concerning the preservation of historical monuments:

1. Shortly we will be fighting our way across the Continent of Europe in battles designed to preserve our civilization. Inevitably, in the path of our advance will be found historical monuments and cultural centers which symbolize to the world all that we are fighting to preserve.
2. It is the responsibility of every commander to protect and respect these symbols whenever possible.
3. In some circumstances the success of the military operation may be prejudiced in our reluctance to destroy these revered objects. Then, as at Cassino, where the enemy relied on our emotional attachments to shield his defense, the lives of our men are paramount. So, where military necessity dictates, commanders

²³⁹ UK, Letter dated 28 January 1991 to the President of the UN Security Council, UN Doc. S/22156, 28 January 1991, p. 1.

²⁴⁰ UK, Letter dated 13 February 1991 to the President of the UN Security Council, UN Doc. S/22218, 13 February 1991, p. 1.

may order the required action even though it involves destruction of some honored site.

4. But there are many circumstances in which damage and destruction are not necessary and cannot be justified. In such cases, through the exercise of restraint and discipline, commanders will preserve centers and objects of historical and cultural significance. Civil Affairs Staffs at higher echelons will advise commanders of the locations of historical monuments of this type, both in advance of the front lines and in occupied areas. This information, together with the necessary instructions, will be passed down through command channels to all echelons.²⁴¹

227. At the CDDH, the US stated that:

It is the understanding of the United States that [Article 47 *bis* of draft AP I (now Article 53)] was not intended to replace the existing customary law prohibitions reflected in Article 27 of the 1907 [HR] protecting a variety of cultural and religious objects. Rather the article establishes a special protection for a limited class of objects which because of their recognized importance constitute a part of the special heritage of mankind. Other monuments, works of art or places of worship which are not so recognized, none the less represent objects normally dedicated for civilian purposes and are therefore presumptively protected as civilian objects in accordance with the provisions of Article 47 [of draft AP I (now Article 52)].

We note that the use of these objects in support of the military effort is a violation of this article. Should they be used in support of the military effort it is our clear understanding that these objects will lose the special protection under this article.²⁴²

228. In 1987, in submitting AP II to the US Senate for advice and consent to ratification, the US President, commenting on Article 16, stated that:

To avoid confusion, US ratification should be subject to an understanding confirming that the special protection granted by this article is only required for a limited class of objects that, because of their recognized importance, constitute a part of the cultural or spiritual heritage of peoples, and that such objects will lose their protection if they are used in support of the military effort.²⁴³

229. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that “despite false reports by Iraqi authorities there is no evidence of damage caused by coalition forces to the four main Shiah holy sites in Iraq”.²⁴⁴

²⁴¹ US, Memorandum from General Dwight D. Eisenhower, 26 May 1944, reprinted in US, *Annotated Supplement to the Naval Handbook* (1997), § 8.5.1.6, footnote 122.

²⁴² US, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, pp. 240–241.

²⁴³ US, Message from the US President transmitting AP II to the US Senate for advice and consent to ratification, Treaty Doc. 100-2, 29 January 1987, Comment on Article 16.

²⁴⁴ US, Letter dated 30 January 1991 to the President of the UN Security Council, UN Doc. S/22173, 30 January 1991, p. 1.

230. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that the coalition air sorties were not flown against "religious targets".²⁴⁵

231. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

Whether in territory Coalition forces occupied or in parts of Iraq still under Iraqi control, US and Coalition operations in Iraq were carefully attuned to the fact those operations were being conducted in an area encompassing "the cradle of civilization", near many archeological sites of great cultural significance. Coalition operations were conducted in a way that balanced maximum possible protection for those cultural sites against protection of Coalition lives and accomplishment of the assigned mission.

While Article 4(1) of the 1954 Hague Convention provides specific protection for cultural property, Article 4(2) permits waiver of that protection where military necessity makes such a waiver imperative; such "imperative military necessity" can occur when an enemy uses cultural property and its immediate surroundings to protect legitimate military targets in violation of Article 4(1). Coalition forces continued to respect Iraqi cultural property, even where Iraqi forces used such property to shield military targets from attack. However, some indirect damage may have occurred to some Iraqi cultural property due to the concussive effect of munitions directed against Iraqi targets some distance away from the cultural sites.²⁴⁶

The report further stated that "cultural and civilian objects are protected from direct, intentional attack unless they are used for military purposes, such as shielding military objects from attack".²⁴⁷

232. In 1992, during a debate in the Sixth Committee of the UN General Assembly, the US noted that "the coalition forces in the Gulf conflict, desiring to spare the historic temples at Ur, had not bombed them even though MiG aircraft had been stationed there".²⁴⁸

233. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that "the United States considers the obligations to protect natural, civilian, and cultural property to be customary international law . . . Cultural property, civilian objects, and natural resources are protected from intentional attack so long as they are not utilized for military purposes."²⁴⁹ The report further states that:

²⁴⁶ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, Appendix O, The Role of the Law of War, 10 April 1992, *ILM*, Vol. 31, 1992, p. 621.

²⁴⁷ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, Appendix O, The Role of the Law of War, 10 April 1992, *ILM*, Vol. 31, 1992, p. 622.

²⁴⁸ US, Statement before the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/47/SR.9, 6 October 1992, p. 11, § 51.

²⁴⁹ US, Department of Defense, Report to Congress on International Policies and Procedures Regarding the Protection of Natural and Cultural Resources During Times of War, 19 January 1993, p. 202, see also p. 204.

Other steps were taken to minimize collateral damage. Although intelligence collection involves utilization of very scarce resources, these resources were used to look for cultural property in order to properly identify it. Target intelligence officers identified the numerous pieces of cultural property or cultural property sites in Iraq; a “no-strike” target list was prepared, placing known cultural property off limits from attack, as well as some otherwise legitimate targets if attack of the latter might place nearby cultural property at risk of damage. Target folders were annotated regarding near-by cultural property, and large-format maps were utilized with “non-targets” such as cultural property highlighted. In examining large-format photographs of targets, each was reviewed and compared with other known data to locate and identify cultural property.

To the degree possible and consistent with allowable risk to aircraft and aircrews, aircraft and munitions were selected so that attacks on targets in proximity to cultural objects would provide the greatest possible accuracy and the least risk of collateral damage to the cultural property . . . Aircrews attacking targets in proximity to cultural property were directed not to expend their munitions if they lacked positive identification of their targets.²⁵⁰

234. In 1999, in submitting the 1954 Hague Convention and its 1999 Second Protocol to the US Senate for advice and consent to ratification, the US President noted that “United States policy and the conduct of operations are entirely consistent with the Convention’s provisions”. The letter also stated that:

In conformity with the customary practice of nations, the protection of cultural property is not absolute. If cultural property is used for military purposes, or in the event of imperative military necessity, the protection afforded by the Convention is waived, in accordance with the Convention’s terms.²⁵¹

235. The Report on US Practice states that “it is the *opinio juris* of the United States that cultural and religious objects should be respected to the extent permitted by military necessity”.²⁵²

236. In Order No. 579 issued in 1991, the YPA Chief of Staff stated that:

Any attack on cultural and other protected objects (churches, historical monuments, . . .) is strictly prohibited, except when these objects are used to launch attacks on YPA units. In such cases, the commanding officer in charge shall, before opening fire, warn the opposing side in an appropriate manner to stop fire and vacate the objects in question.²⁵³

237. In 1992, during the conflict in the former Yugoslavia, the SFRY denounced the destruction of churches, icons and religious books by Croatia.²⁵⁴

²⁵⁰ US, Department of Defense, Report to Congress on International Policies and Procedures Regarding the Protection of Natural and Cultural Resources During Times of War, 19 January 1993, p. 205.

²⁵⁴ SFRY, Memorandum on Genocide in Croatia, 3 February 1992, p. 3.

238. In 1992, during a debate in the UN Security Council, the SFRY (FRY) qualified the destruction of “historical monuments representing the landmarks of Serbian civilization” in Bosnia and Herzegovina as “flagrant violations of human rights and breaches of humanitarian law”.²⁵⁵

239. In 1993, during a debate in the UN Security Council, the SFRY (FRY) strongly opposed “the shelling of cities, especially Sarajevo, and the destruction of villages, infrastructure, churches and cultural monuments”.²⁵⁶

240. The Report on the Practice of the SFRY (FRY) describes the armed conflict in Croatia as being characterised by the mass destruction of cultural, historical and religious objects and by violations of existing norms by both sides. According to the report, the YPA Chief of General Staff insisted that attacks on cultural and other protected property such as churches and historical monuments were prohibited. Furthermore, the report asserts the SFRY’s view that Article 16 AP II already enjoys customary law status. It maintains that, for this reason, the parties to the conflict between the SFRY and Croatia did not deal with the question of cultural property in their agreements on the application of IHL as they deemed it to be superfluous.²⁵⁷

241. According to the Report on the Practice of Zimbabwe, Zimbabwe believes that “an armed conflict should not be allowed to destroy the people’s heritage”.²⁵⁸

242. In 1993, during a conflict, a government justified the destruction of a church on the grounds that it was being used by an armed opposition group for storing weapons.²⁵⁹

III. Practice of International Organisations and Conferences

United Nations

243. In a resolution adopted in 1979, the UN Security Council took note of:

the efforts of the Government of Lebanon to obtain international recognition for the protection of the archaeological and cultural sites and monuments in the city of Tyre in accordance with international law and the Convention of The Hague of 1954, under which such cities, sites and monuments are considered to be a heritage of interest to all mankind.²⁶⁰

244. In a resolution adopted in 1999 on the protection of civilians in armed conflicts, the UN Security Council strongly condemned “attacks on objects protected under international law” and called on all parties “to put an end to such practices”.²⁶¹

²⁵⁵ SFRY, Statement before the UN Security Council, UN Doc. S/PV.3082, 16 November 1992, § 71.

²⁵⁶ SFRY, Statement before the UN Security Council, UN Doc. S/PV.3203, 20 April 1993, § 28.

²⁶⁰ UN Security Council, Res. 459, 19 December 1979, § 5.

²⁶¹ UN Security Council, Res. 1265, 17 September 1999, § 2.

245. In a resolution adopted in 1992, the UN General Assembly expressed alarm that:

although the conflict in Bosnia and Herzegovina is not a religious conflict, it has been characterized by the systematic destruction and profanation of mosques, churches and other places of worship, as well as other sites of cultural heritage, in particular areas currently or previously under Serbian control.²⁶²

Similar concerns were expressed in 1994 and 1995.²⁶³

246. In a resolution adopted in 1996, the UN General Assembly stated that “the General Assembly, recognizing the importance of the protection of cultural property in the event of armed conflict, takes note of the efforts under way to facilitate the implementation of existing international instruments in this field”.²⁶⁴

247. In numerous resolutions adopted between 1977 and 1989, the UN Commission on Human Rights, referring mainly to GC IV, human rights instruments and “other relevant conventions and regulations”, condemned Israel for certain policies and practices in the occupied territories.²⁶⁵ According to the Commission, these policies included “the arming of settlers in the occupied territories to strike at Muslim and Christian religious and holy places”.²⁶⁶ In 1989, the Commission condemned Israel “for its attacks against holy places, such as mosques and churches, and its attempt to occupy Al Aqsa Mosque and to destroy it, as well as for obstructing the freedom of worship and religious practices”.²⁶⁷ In a resolution adopted in 1986, the UN Commission on Human Rights qualified the damage to cultural property in southern Lebanon as a violation of international human rights and strongly condemned Israel “for its human rights violations such as . . . the desecration of places of worship”.²⁶⁸

248. In a resolution on the situation of human rights in the territory of the former Yugoslavia adopted in 1994, the UN Commission on Human Rights denounced “the intentional destruction of mosques, churches and other places of worship”.²⁶⁹

²⁶² UN General Assembly, Res. 47/147, 18 December 1992, preamble.

²⁶⁷ UN Commission on Human Rights, Res. 1989/2, 17 February 1989, § 4(d).

²⁶⁸ UN Commission on Human Rights, Res. 1986/43, 12 March 1986, § 1.

²⁶⁹ UN Commission of Human Rights, Res. 1994/72, 9 March 1994, § 7(e).

249. In a resolution adopted in 1998, the UN Commission on Human Rights expressed its deep concern over reports of the destruction and looting of the cultural and historical heritage of Afghanistan and urged the parties to protect and safeguard such heritage.²⁷⁰

250. In a resolution adopted in 1993, the UNESCO General Conference reaffirmed that "(a) the object and purpose of the 1954 Hague Convention are still valid and realistic" and "(b) the fundamental principles of protecting and preserving cultural property in the event of armed conflict could be considered part of customary international law".²⁷¹

251. In a resolution adopted in 1993, the UNESCO General Conference expressed grave concern at the "destruction of the cultural, historical and religious heritage of the Republic of Bosnia and Herzegovina (including mosques, churches and synagogues, schools and libraries, archives and cultural and educational buildings) under the abhorrent policy of 'ethnic cleansing'".²⁷²

252. In a joint declaration issued in 1991 on the situation in the former Yugoslavia, the Director-General of UNESCO and the UN Secretary-General launched a solemn appeal to all parties "to respect the principles enshrined in the Convention for the Protection of Cultural Property in the Event of Armed Conflict and in the Convention concerning the Protection of the World Cultural and Natural Heritage".²⁷³

253. In a press release issued in 1992 in the context of the conflict in Bosnia and Herzegovina, the Director-General of UNESCO declared that, under international law, attacks against the cultural and spiritual heritage of peoples constituted grave breaches that must be vigorously condemned and repressed.²⁷⁴

In a subsequent press release issued in 1997 in the same context, the Director-General described attacks on cultural and religious monuments as "criminal acts".²⁷⁵

254. In 1993, in his Report on the Reinforcement of UNESCO's Action for the Protection of the World Cultural and Natural Heritage, the UNESCO Director-General stated with respect to the scope of the 1954 Hague Convention that:

Although it was considered highly desirable that an international legal instrument which also protected the natural heritage should be developed, it was agreed that the scope of the 1954 Convention – because of its very distinctive character – should not be extended to include the natural heritage. The protection regime laid down for cultural property in the 1954 Convention did not meet the requirements of an adequate protection regime for the natural heritage.²⁷⁶

²⁷⁰ UN Commission on Human Rights, Res. 1998/70, 21 April 1998, §§ 2(g) and 5(h).

²⁷⁵ UNESCO, Press Release No. 97-98, 17 June 1997.

²⁷⁶ Director-General of UNESCO, Report on the Reinforcement of UNESCO's Action for the Protection of the World Cultural and Natural Heritage, UNESCO Doc. 142 EX/15, 18 August 1993, p. 2, § 6.1.

255. In its Commentary on the Revised Lauswolt Document in 1997, UNESCO stated that the main point of discussion of the meeting of governmental experts on Article 1 of the 1954 Hague Convention was the inclusion of the notion of military necessity. The Commentary justified the wording in Article 12(1) by the need “to clarify that it is intended to increase the protection of cultural property, over that provided by Article 19 of the Hague Convention which mentions only ‘respect’”.²⁷⁷

256. In 1994, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights defined the destruction of the historic Ottoman bridge in Mostar, registered with UNESCO as a monument of major cultural importance, as a violation of IHL.²⁷⁸

257. In 1997, in a report on the situation of human rights in Afghanistan, the Special Rapporteur of the UN Commission on Human Rights recommended that “priority should be given to domestic and international efforts to preserve and protect the cultural patrimony of Afghanistan”.²⁷⁹

Other International Organisations

258. In 1993, in a report on the destruction by war of the cultural heritage in Croatia and Bosnia and Herzegovina, the Committee on Culture and Education of the Parliamentary Assembly of the Council of Europe described the conflicts in Croatia and Bosnia and Herzegovina as “a tragedy for the peoples of these countries and for all Europe”. It stated that these conflicts “have led to a major cultural catastrophe for all the communities of the war zone . . . and also for our European heritage” and that “the phrase ethnic cleansing . . . goes hand in hand with another kind of cleansing – cultural cleansing”.²⁸⁰ In another report on the same topic issued the following year, the Committee noted that, in response to the international reactions to the destruction of the Mostar Bridge by HVO forces, the Herzegovinan Chief of Staff had distributed a brochure describing international provisions concerning IHL, war crimes, cultural heritage and prisoners of war, and promised the severest punishment to members of the armed forces who did not respect the laws of war.²⁸¹

259. In a recommendation adopted in 1994 on the cultural situation in the former Yugoslavia, the Parliamentary Assembly of the Council of Europe stated

²⁷⁷ UNESCO, Commentary on the Revised Lauswolt Document, October 1997, pp. 3 and 16.

²⁷⁸ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Fifth periodic report, UN Doc. E/CN.4/1994/47, 20 February 1994, §§ 46 and 69.

²⁷⁹ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in Afghanistan, Final report, UN Doc. E/CN.4/1997/59, 20 February 1997, § 131.

²⁸⁰ Council of Europe, Parliamentary Assembly, Committee on Culture and Education, Information report on war damage to the cultural heritage in Croatia and Bosnia Herzegovina, Doc. 6756, 2 February 1993, §§ 1 and 5.

²⁸¹ Council of Europe, Parliamentary Assembly, Committee on Culture and Education, Fourth information report on war damage to the cultural heritage in Croatia and Bosnia Herzegovina, Doc. 6999, 19 January 1994, p. 23.

that “the cultural dimension is, however, constantly exploited by all sides as a means of fuelling the conflict, as a target for intervention, and as a weapon”. It stated that “one priority is that intergovernmental bodies in the area . . . should recognise and pay attention to the cultural dimension”.²⁸²

260. In a statement on the desecration and destruction of the Charar-i-Sharif shrine and mosque complex in 1995, the OIC Contact Group on Jammu and Kashmir strongly condemned “attacks against [the] religious and cultural heritage” of the people concerned and deplored the fact that “the desecration of the holy places of Muslims in India had become a pattern over the years”.²⁸³

261. In a resolution adopted in 1997 on the situation in Bosnia and Herzegovina, the OIC strongly condemned the deliberate destruction of historical, religious and cultural property.²⁸⁴

262. During a conflict, a regional organisation noted “the systematic and wilful destruction of churches and cultural monuments”.²⁸⁵

International Conferences

263. The draft report of Committee III of the CDDH requested that:

the new article be inserted in Part IV, in order to deal with the protection of cultural property along the lines of Article 47 *bis* [Article 53] of Protocol I. The text . . . conforms in general to the wording of Article 47 *bis* [Article 53], but without any reference to “reprisals”, which is a term that apparently will not be used in Protocol II.

The draft report further held that “the reference to the Hague Convention of 1954 . . . is intended to point in particular to Article 19 of that convention, which deals with non-international armed conflicts”.²⁸⁶

264. The Final Declaration adopted by the International Conference for the Protection of War Victims in 1993 urged all States to “make every effort to . . . reaffirm and ensure respect for the rules of international humanitarian law applicable during armed conflicts protecting cultural property [and] places of worship . . . and continue to examine the opportunity of strengthening them”.²⁸⁷

265. The Plan of Action for the years 2000–2003 adopted in 1999 by the 27th International Conference of the Red Cross and Red Crescent proposed that all the parties to an armed conflict take effective measures to ensure that “in the

conduct of hostilities, every effort is made – in addition to the total ban on directing attacks . . . – . . . to protect civilian objects including cultural property, places of worship and diplomatic facilities”.²⁸⁸

266. In a resolution adopted in 2000 on the destruction and desecration of the Islamic historical and cultural relics and shrines in the occupied Azeri territories resulting from the Republic of Armenia’s aggression against the Republic of Azerbaijan, the Islamic Summit Conference noted “the tremendous losses” inflicted by Armenia in the Azeri territories. According to the resolution, these included “complete or partial demolition of rare antiquities and places of Islamic civilization, history and architecture, such as mosques and other sanctuaries, mausoleums and tombs, archaeological sites, museums, libraries, artifact exhibition halls, government theatres and conservatories”, as well as the “destruction of a large number of precious property and millions of books and historic manuscripts and luminaries”. It strongly condemned such “barbaric acts”.²⁸⁹

267. In its Final Declaration, the African Parliamentary Conference on International Humanitarian Law for the Protection of Civilians during Armed Conflict in 2002, deeply concerned about the number and expansion of conflicts in Africa, denounced the destruction of movable and immovable property of importance to the cultural or spiritual heritage of Africa which seriously violates the rules of IHL.²⁹⁰

IV. Practice of International Judicial and Quasi-judicial Bodies

268. In the *Tadić case* in 1995, the ICTY Appeals Chamber held that “it cannot be denied that customary rules have developed to govern internal strife. These rules . . . cover such areas as . . . protection of civilian objects, in particular cultural property.”²⁹¹ The Appeals Chamber explicitly stated that Article 19 of the 1954 Hague Convention, which provides for the application of the provisions of the Convention relating to respect for cultural property “as a minimum” in non-international armed conflicts, constituted a treaty rule which had “gradually become part of customary law”.²⁹²

269. In its review of the indictment in the *Karadžić and Mladić case* in 1996, the ICTY Trial Chamber noted that among the counts included in the first indictment was also “the destruction of sacred sites (count 6)”, an offence which

²⁸⁸ 27th International Conference of the Red Cross and Red Crescent, Geneva, 31 October–6 November 1999, Res. I, Annex 2, Plan of Action for the years 2000–2003, Actions proposed for final goal 1.1, § 1(a).

²⁸⁹ Islamic Summit Conference, Ninth Session, Doha, November 2000, Res. 25/8-C (IS), preamble and § 1.

²⁹¹ ICTY, *Tadić case*, Interlocutory Appeal, 2 October 1995, § 127.

²⁹² ICTY, *Tadić case*, Interlocutory Appeal, 2 October 1995, § 98.

lay within the scope of the Tribunal's jurisdiction, for it could be characterised as a violation of the laws or customs of war.²⁹³ As to the evidence produced with respect to this count, the Trial Chamber pointed out that "according to estimates provided at hearing by an expert witness . . . a total of 1,123 mosques, 504 Catholic churches and five synagogues were destroyed or damaged [by Bosnian Serb forces], for the most part, in the absence of military activity or after the cessation thereof". It further noted that "aside from churches and mosques, other religious and cultural symbols like cemeteries and monasteries were targets of the attacks".²⁹⁴

270. In its Judgement in the *Blaškić case* in 2000, the ICTY Trial Chamber, with reference to destruction or wilful damage to institutions dedicated to religion or education, stated that:

The damage or destruction must have been committed intentionally to institutions which may clearly be identified as dedicated to religion or education and which were not being used for military purposes at the time of the acts. In addition, the institutions must not have been in the immediate vicinity of military objectives.²⁹⁵

The Trial Chamber found the accused guilty of violating "the laws or customs of war under Article 3(d) of the Statute" for the following acts: "destruction or wilful damage done to institutions dedicated to religion or education (count 14)".²⁹⁶

271. In its judgement in the *Kordić and Čerkez case* in 2001, the ICTY Trial Chamber stated that "educational institutions are undoubtedly immovable property of great importance to the cultural heritage of peoples in that they are without exception centres of learning, arts, and sciences, with their valuable collections of books and works of art and science".²⁹⁷ With reference to the 1954 Hague Convention, the Trial Chamber argued that "there is little difference between the conditions for the according of general protection and those for the provision of special protection" and stated that "the fundamental principle is that protection of whatever type will be lost if cultural property, including educational institutions, is used for military purposes, and this principle is consistent with the custom codified in Article 27 of the Hague Regulations".²⁹⁸ The Trial Chamber found the accused both guilty of violating "the laws or customs of war, as recognised by Article 3(d) (destruction or wilful damage done to institutions dedicated to religion or education) and pursuant to Article 7(1) of the Statute of the International Tribunal".²⁹⁹

²⁹⁸ ICTY, *Kordić and Čerkez case*, Judgement, 26 February 2001, § 362.

²⁹⁹ ICTY, *Kordić and Čerkez case*, Judgement, 26 February 2001, p. 308, Counts 43 and 44.

V. Practice of the International Red Cross and Red Crescent Movement

272. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

96. [Article 53 AP I] applies to: a) objects representing a high cultural value as such; b) objects with an important religious dedication independent of any cultural value.
97. Historic monuments, works of art and places of worship which constitute the cultural or spiritual heritage of peoples enjoy full protection. Their immunity may not be withdrawn, contrary to that of marked cultural objects. Their value is generally self-evident and does not require special identification means.
98. [Article 1 of the 1954 Hague Convention] applies to objects representing a cultural value as such, independently of their religious or secular character.
99. "Cultural object under general protection" means an object of great importance to the cultural heritage of every people, such as:
 - a) monument of architecture, art or history; archaeological sites: groups of buildings which as a whole are of historic or artistic interest;
 - b) buildings whose main purpose is to preserve movable cultural objects such as museums, large libraries, depositories of archives, shelters of cultural objects;
 - c) centres containing a large amount of immovable cultural objects.

...

225. The immunity of a cultural object under general protection may be withdrawn only in case of imperative military necessity. The competences for establishing this military necessity must be regulated.³⁰⁰

Delegates further stress that, an "unlawful attack of clearly-recognized cultural objects" constitutes a grave breach of the law of war.³⁰¹

273. In a joint statement issued in 1991, the Yugoslav Red Cross and the Hungarian Red Cross expressed their deep concern about "the protracting internal conflict in Yugoslavia" and urged the parties to the conflict "to save all ... cultural objects".³⁰²

274. In 1991, in the context of the conflict in the former Yugoslavia, the Slovene Red Cross condemned the destruction of cultural, historical and religious monuments.³⁰³

275. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC, emphasising the customary law nature of most grave breaches of AP I, listed the following as a war crime to be subject to the jurisdiction of the ICC:

³⁰⁰ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 96–99 and 225.

³⁰¹ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 778(d).

³⁰² Yugoslav Red Cross and Hungarian Red Cross, Joint Statement, Subotica, 25 October 1991.

³⁰³ Slovene Red Cross, Protest and Appeal, 22 September 1991, § 1.

making the clearly-recognized historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples and to which special protection has been given by special arrangement . . . the object of attack, causing as a result thereof, where there is no evidence of the use by the adverse Party of such objects in support of the military effort, and when such historic monuments, works of art and places of worship are not located in the immediate proximity of military objectives, when committed wilfully and in violation of international humanitarian law.³⁰⁴

The ICRC also included attacks directed against historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples in a list of serious violations of IHL applicable in non-international armed conflicts.³⁰⁵

VI. Other Practice

276. In a resolution adopted during its Edinburgh Session in 1969, the Institute of International Law stated that “those objects which, by their nature or use, serve primarily humanitarian or peaceful purposes such as religious or cultural needs” cannot be considered as military objectives.³⁰⁶

277. In a mission report in 1983, the ICRC noted that an armed opposition group had issued orders to its forces not to direct attacks against churches.³⁰⁷

278. The Report on SPLM/A Practice states, with reference to the 1983 SPLM/A Manifesto and a resolution on human rights and civil liberties adopted in 1991 by the Politico-Military High Command of the SPLM/A, that “cultural objects which include religious monuments, buildings such as mosques and churches and various icons are respected by the SPLM/A”.³⁰⁸

279. In 1989, in a report on violations of the laws of war in Angola, Africa Watch considered that cultural property as defined by the 1954 Hague Convention must be considered as civilian objects.³⁰⁹

280. In 1993, following the bombing of a church by governmental forces during an internal conflict, the parish priest sent a letter to the ICRC, on behalf of his parishioners, in which he expressed their “vehement protest against this unprovoked and totally inhumane act, which destroyed a place of worship and

³⁰⁹ Africa Watch, *Angola: Violations of the Laws of War by Both Sides*, New York, April 1989, pp. 144–147.

killed the worshipping devotees". He argued that the action was "totally indefensible", given that the church was easy to locate and identify and that there was no military camp in its surroundings.³¹⁰

281. At the 1998 Vienna expert meeting on the revision of the 1954 Hague Convention, the ICA pointed out that since the Second World War, archives and libraries have suffered major losses mainly in the context of non-international conflicts, in particular in Bosnia and Herzegovina, Cambodia and Liberia.³¹¹

B. Use of Cultural Property for Military Purposes

I. Treaties and Other Instruments

Treaties

282. Article 4 of the 1954 Hague Convention provides that:

1. The High Contracting Parties undertake to respect cultural property situated within their own territory as well as within the territory of other High Contracting Parties by refraining from any use of the property and its immediate surroundings or of the appliances in use for its protection for purposes which are likely to expose it to destruction or damage in the event of armed conflict . . .
2. The obligations mentioned in paragraph 1 of the present Article may be waived only in cases where military necessity imperatively requires such a waiver.

283. Article 19(1) of the 1954 Hague Convention provides that:

In the event of an armed conflict not of an international character occurring within the territory of one of the High Contracting Parties, each party to the conflict shall be bound to apply, as a minimum, the provisions of the present Convention which relate to respect for cultural property.

284. Article 53 AP I provides that:

Without prejudice to the provisions of the Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict of 14 May 1954, and of other relevant international instruments, it is prohibited:

...

- (b) to use such objects [historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples] in support of the military effort.

Article 53 AP I was adopted by consensus.³¹²

285. Upon ratification of AP I, Canada stated that "it is the understanding of the Government of Canada in relation to Article 53 that . . . the prohibitions

³¹⁰ ICRC archive document.

contained in sub-paragraphs (a) and (b) of this Article can only be waived when military necessity imperatively requires such a waiver".³¹³

286. Upon ratification of AP I, Ireland stated that "it is the understanding of Ireland in relation to the protection of cultural objects in Article 53 that if the objects protected by this Article are *unlawfully used for military purposes* they will thereby lose protection from attacks directed against such unlawful military use".³¹⁴ (emphasis added)

287. Upon ratification of AP I, Italy stated that "if and so long as the objectives protected by Article 53 are *unlawfully used for military purposes*, they will thereby lose protection".³¹⁵ (emphasis added)

288. Upon ratification of AP I, the Netherlands stated, with respect to Article 53 AP I, that "it is the understanding of the Government of the Kingdom of the Netherlands that if and for as long as the objects and places protected by this Article, *in violation of paragraph (b), are used in support of the military effort*, they will thereby lose such protection".³¹⁶ (emphasis added)

289. Upon signature and upon ratification of AP I, the UK stated, in relation to Article 53 AP I, that "if the objects protected by this Article are *unlawfully used for military purposes* they will thereby lose protection from attacks directed against such unlawful military uses".³¹⁷ (emphasis added)

290. Article 16 AP II provides that:

Without prejudice to the provisions of the Hague Convention for the Protection of Cultural Property in the Event of Armed Conflict of 14 May 1954, it is prohibited... to use [historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples] in support of the military effort.

Article 16 AP II was adopted by 35 votes in favour, 15 against and 32 abstentions.³¹⁸

291. Article 6(b) of the 1999 Second Protocol to the 1954 Hague Convention provides that:

A waiver on the basis of imperative military necessity pursuant to Article 4 paragraph 2 of the [1954 Hague] Convention may only be invoked to use cultural property for purposes which are likely to expose it to destruction or damage when and for as long as no choice is possible between such use of the cultural property and another feasible method for obtaining a similar military advantage.

³¹³ Canada, Reservations and statements of understanding made upon ratification of AP I, 20 November 1990, § 9.

³¹⁴ Ireland, Declarations and reservations made upon ratification of AP I, 19 May 1999, § 10.

³¹⁵ Italy, Declarations made upon ratification of AP I, 27 February 1986, § 9.

³¹⁶ Netherlands, Declarations made upon ratification of AP I, 26 June 1987, § 8.

³¹⁸ CDDH, *Official Records*, Vol. VII, CDDH/SR.53, 6 June 1977, p. 143.

292. Article 8 of the 1999 Second Protocol to the 1954 Hague Convention provides that “the Parties to the conflict shall, to the maximum extent feasible . . . avoid locating military objectives near cultural property”.

293. Article 21 of the 1999 Second Protocol to the 1954 Hague Convention provides that:

Without prejudice to Article 28 of the [1954 Hague] Convention, each Party shall adopt such legislative, administrative or disciplinary measures as may be necessary to suppress the following acts when committed intentionally:

- (a) any use of cultural property in violation of the Convention or this Protocol.

294. Article 22(1) of the 1999 Second Protocol to the 1954 Hague Convention states that “this Protocol shall apply in the event of an armed conflict not of an international character, occurring within the territory of one of the Parties”.

Other Instruments

295. Article 26 of the 1923 Hague Rules of Air Warfare establishes special rules aimed at enabling States “to obtain more efficient protection for important historic monuments situated within their territory”. In particular, States may establish a zone of protection round such monuments, which shall enjoy immunity from bombardment in time of war. This faculty is subject to the condition that States “must abstain from using the monuments and the surrounding zones for military purposes, or for the benefit in any way whatever of its military organization, or from committing within such monument or zone any act with a military purpose in view”. A special regime of inspection is also envisaged for the purpose of ensuring that such condition is not violated.

296. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY provides that hostilities shall be conducted in accordance with Article 53 AP I.

297. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina provides that hostilities shall be conducted in accordance with Article 53 AP I.

298. Article 1 of the 1997 Revised Lauswolt Document provides that:

1. In order to ensure respect for cultural property, that property should not be used for purposes which are likely to expose it to destruction or damage in the event of armed conflict.
2. It is prohibited . . . to use [cultural] property in support of [the] military effort.

299. Article 12(1) of the 1997 Revised Lauswolt Document provides that:

All the provisions of this instrument, the provisions of the Convention and its 1954 Protocol which relate to safeguarding of, and respect for, cultural property shall apply in the event of an armed conflict not of an international character, occurring within the territory of one of the States Parties.

300. Section 6.6 of the 1999 UN Secretary-General's Bulletin provides that "in its area of operation, the United Nations force shall not use such cultural property or their immediate surroundings for purposes which might expose them to destruction or damage".

II. National Practice

Military Manuals

301. Argentina's Law of War Manual states that "it is absolutely prohibited . . . to use [cultural property] in support of the war effort".³¹⁹ The manual restates this prohibition with respect to non-international armed conflicts in particular.³²⁰

302. Australia's Defence Force Manual states that "obligations are placed upon all parties to respect cultural property by not exposing it to destruction or damage in the event of armed conflict". The manual further specifies that "historic monuments, places of worship and works of art, which constitute the cultural and spiritual heritage of peoples . . . must not be used in support of any military effort."³²¹

303. Canada's LOAC Manual states that it is prohibited to use historic monuments, works of art of places of worship which constitute the cultural or spiritual heritage of peoples "in support of the military effort".³²² It further provides that "use of a privileged building for improper purposes" constitutes a war crime.³²³ The manual restates this prohibition with respect to non-international armed conflicts in particular.³²⁴

304. Canada's Code of Conduct states that "cultural and religious property should . . . not be used for military purposes".³²⁵

305. Croatia's Commanders' Manual states that:

13. Specifically protected objects may not become military objectives . . .
14. The immunity of a marked cultural object may be withdrawn in case of imperative military necessity.
- ...
62. [In defence] the immunity of a marked cultural object shall only be withdrawn when the fulfilment of the mission absolutely so requires. The withdrawal shall only take place to the extent necessary. Advance warning and removal of distinctive signs shall make the situation clear to the enemy.³²⁶

³¹⁹ Argentina, *Law of War Manual* (1989), § 4.44.

³²⁰ Argentina, *Law of War Manual* (1989), § 7.09.

³²¹ Australia, *Defence Force Manual* (1994), § 928.

³²² Canada, *LOAC Manual* (1999), p. 4-7, § 63(b).

³²³ Canada, *LOAC Manual* (1999), p. 16-4, § 21(c).

³²⁴ Canada, *LOAC Manual* (1999), p. 17-5, § 40.

³²⁵ Canada, *Code of Conduct* (2001), Rule 9, § 5.

³²⁶ Croatia, *Commanders' Manual* (1992), §§ 13-14 and 62.

306. Germany's Military Manual provides that:

903. Cultural property shall neither directly nor indirectly be used in support of military efforts.

...

905. . . . It is also prohibited to expose cultural property, its immediate surroundings and the appliances in use for its protection to the danger of destruction or damage by using them for other purposes than originally intended.

906. An exception to this rule shall be permissible only in cases of imperative military necessity. The decision is to be taken by the competent military commander

...

907. The parties to the conflict shall take sufficient precautions to prevent cultural property from being used for military purposes. Example: On 19 June 1944 all military installations were removed from Florence by order of the German authorities so as to prevent this abundant city of art from becoming a theatre of war. The broad avenues surrounding the city of Florence on its former fortifications were regarded as a boundary which was not to be crossed by military transport.³²⁷

307. Germany's IHL Manual states that "it is prohibited to use [movable or immovable property of great importance to the cultural heritage of every people] in support of the military effort".³²⁸

308. Israel's Manual on the Laws of War provides that:

On the other hand, the protection of cultural property is accompanied by an express prohibition to use such property for assisting warfare activities (stationing a sniper on a museum roof, and so on), and once such use has been made, the other side is allowed to do anything required to neutralize the danger, even at the expense of damaging the cultural property. This particular rule in the laws of war was violated by Iraq during the Gulf War, by concealing its warplanes inside the ancient ruins of Nineveh. The Americans refrained from attacking the archaeological ruins, although the laws of war permit this.³²⁹

309. Italy's LOAC Elementary Rules Manual states that:

13. Specifically protected objects may not become military objectives . . .

14. The immunity of a marked cultural object may be withdrawn in case of imperative military necessity.

...

62. [In defence] the immunity of a marked cultural object shall only be withdrawn when the fulfilment of the mission absolutely so requires. The withdrawal shall only take place to the extent necessary. Advance warning and removal of distinctive signs shall make the situation clear to the enemy.³³⁰

310. Italy's IHL Manual states that "cultural property and places of worship are entitled to protection in all circumstances provided they are not illicitly used for military purposes".³³¹

³²⁷ Germany, *Military Manual* (1992), §§ 903 and 905–907.

³²⁸ Germany, *IHL Manual* (1996), § 701. ³²⁹ Israel, *Manual on the Laws of War* (1998), p. 34.

³³⁰ Croatia, *Commanders' Manual* (1992), §§ 13–14 and 62.

³³¹ Italy, *IHL Manual* (1991), Vol. I, § 12.

311. Kenya's LOAC Manual states that "in defence, withdrawal of immunity of cultural objects marked with distinctive protective signs (in the exceptional case of unavoidable military necessity) shall, when the tactical situation permits, be limited in time and restricted to the less important parts of the object".³³²

312. The Military Manual of the Netherlands states that respect for cultural objects implies that "the objects may not be used in case of armed conflict" but that an exception can be made "in case military necessity requires such an exception. Hence, the protection is not at all absolute."³³³ With respect to non-international armed conflicts in particular, the manual states that historic monuments, works of art and places of worship "may not be used in support of the military effort" and recalls Article 19 of the 1954 Hague Convention.³³⁴

313. The Military Handbook of the Netherlands stresses that cultural property "may not be used for military purposes, except in case of imperative military necessity".³³⁵

314. New Zealand's Military Manual states that for parties to AP I it is prohibited to use historic monuments, works of art or places of worship which constitute the cultural or spiritual heritage of peoples "in support of the military effort".³³⁶ The manual further states that "use of a privileged building for improper purposes" is a war crime recognised by the customary law of armed conflict.³³⁷

315. Nigeria's Manual on the Laws of War qualifies "the improper use of a privileged building for military purposes" as a war crime.³³⁸

316. Nigeria's Military Manual emphasises that "marked cultural objects must be protected" in the conduct of defence.³³⁹

317. Russia's Military Manual states that using cultural property, historical monuments, places of worship, and other buildings which represent the cultural or spiritual heritage of a people "in order to gain a military advantage" is a prohibited method of warfare.³⁴⁰

318. South Africa's LOAC Manual protects buildings dedicated to religion and cultural objects such as historic monuments. It provides that "misuse of protected places [buildings dedicated to religion and cultural objects such as historic monuments] for military purposes may make them the subject of an armed attack".³⁴¹

³³² Kenya, *LOAC Manual* (1997), Précis No. 4, p. 9.

³³⁶ New Zealand, *Military Manual* (1992), § 520(4), see also § 632(4).

³³⁷ New Zealand, *Military Manual* (1992), 1703(5).

³³⁸ Nigeria, *Manual on the Laws of War* (undated), § 6.

³³⁹ Nigeria, *Military Manual* (1994), p. 44, § 15.

³⁴⁰ Russia, *Military Manual* (1990), § 5(s).

³⁴¹ South Africa, *LOAC Manual* (1996), § 29(b)(i).

319. Spain's LOAC Manual states that combatants must remember that it is prohibited "to use property which constitutes the cultural or spiritual heritage of peoples, whether public or private, in support of the military effort".³⁴²

320. Sweden's IHL Manual points out that:

A condition [for their protection under the 1954 Hague Convention] is that none of these cultural values may be used for military purposes. If this should happen, the adversary is no longer obliged to extend protection to these objects . . . A question of great practical importance is whether the formulation of Additional Protocol admits any possibility of using the object named in Article 53 for military purposes. This does not need to involve such sensational steps as establishing headquarters or ammunitions dumps in museum or churches – it would more normally concern using the objects as observation posts. As Article 53 aims at giving these objects protection equivalent to that of hospitals, the intention has obviously been that no such object shall be used for military purpose of any kind. If such an object should be so used, there is no longer any requirement upon the adversary to respect the safeguard.³⁴³

321. Switzerland's Military Manual provides that marked cultural property "must not be used for military purposes. In certain well-defined circumstances, the protection may be lifted by a responsible commander."³⁴⁴

322. Switzerland's Basic Military Manual states that respect for cultural property implies that it is prohibited "to use this property, the appliances in use for its protection and its immediate surroundings for purposes which are likely to expose it to destruction or damage. The obligation to respect may only be derogated from in case military necessity imperatively so demands."³⁴⁵

323. The UK Military Manual states that "in addition to the 'grave breaches' of the 1949 [Geneva] Conventions . . . the following are examples of punishable violations of the laws of war, or war crimes: . . . (h) improper use of a privileged building for military purposes".³⁴⁶

324. The US Field Manual stresses that "in the practice of the United States, religious buildings, shrines, and consecrated places employed for worship are used only for aid stations, medical installations, or for the housing of wounded personnel awaiting evacuation, provided in each case that a situation of emergency requires such use".³⁴⁷ The manual further states that "in addition to the 'grave breaches' of the Geneva Conventions of 1949, the following acts are representative of violations of the law of war ('war crimes'): . . . h. Improper use of privileged buildings for military purposes."³⁴⁸

325. The US Air Force Pamphlet states that "in addition to the grave breaches of the Geneva Conventions of 1949, the following acts are representative of

³⁴² Spain, *LOAC Manual* (1996), Vol. I, § 7.3.b.(2).

³⁴³ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 56–58.

³⁴⁴ Switzerland, *Military Manual* (1984), p. 19.

³⁴⁵ Switzerland, *Basic Military Manual* (1987), Article 53, commentary and Article 54.

³⁴⁶ UK, *Military Manual* (1958), § 626(h).

³⁴⁷ US, *Field Manual* (1956), § 405(c). ³⁴⁸ US, *Field Manual* (1956), § 504(h).

situations involving individual criminal responsibility: . . . (7) wilful and improper use of privileged buildings or localities for military purposes".³⁴⁹

326. The US Air Force Commander's Handbook states that "if possible, US forces should avoid using cultural property for military purposes, or to support the military effort".³⁵⁰

327. The US Instructor's Guide states that "in addition to the grave breaches of the Geneva Conventions, the following acts are further examples of war crimes: . . . improperly using privileged buildings for military purposes such as a church steeple as an observation post".³⁵¹

328. The US Rules of Engagement for Operation Desert Storm states that "churches, shrines, schools, museums, national monuments, and any other historical or cultural sites will not be engaged except in self-defence".³⁵²

329. The Annotated Supplement to the US Naval Handbook states that "while the United States is not a Party to the 1954 Hague Convention, it considers it to reflect customary law".³⁵³

330. The YPA Military Manual of the SFRY (FRY) provides that cultural property and its immediate vicinity must not be used directly or indirectly by armed forces for purposes which could provoke enemy attack.³⁵⁴

National Legislation

331. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of AP I, including violations of Article 53 AP I, as well as any "contravention" of AP II, including violations of Article 16 AP II, are punishable offences.³⁵⁵

332. Under the International Crimes Act of the Netherlands, "using cultural property that is under enhanced protection as referred to in [Articles 10 and 11 of the 1999 Second Protocol to the 1954 Hague Convention] or the immediate vicinity of such property in support of military action" is a crime, when committed in an international armed conflict.³⁵⁶

333. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".³⁵⁷

National Case-law

334. No practice was found.

³⁴⁹ US, *Air Force Pamphlet* (1976), § 15-3(c)(7).

³⁵⁰ US, *Air Force Commander's Handbook* (1980), § 3-5(a).

³⁵⁵ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

³⁵⁶ Netherlands, *International Crimes Act* (2003), Article 5(4)(b).

³⁵⁷ Norway, *Military Penal Code as amended* (1902), § 108 (b).

Other National Practice

335. At the CDDH, Australia stated that had Article 47 *bis* of draft AP I (now Article 53) been put to a vote, it would have abstained “because the article contains a prohibition against reprisals” even though it agreed “with the prohibition against using these historic monuments in support of the military effort”.³⁵⁸

336. In its written comments on other written statements submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt stated that “cultural and religious objects . . . should not be used in support of the military effort”.³⁵⁹

337. At the CDDH, the FRG stated that, with respect to Article 47 *bis* of draft AP I (now Article 53), that “*the illegal use of these objects for military purposes, however, will cause them to lose the protection provided for in Article 47 bis as a result of attacks which are to be directed against such military uses*”.³⁶⁰ (emphasis added)

338. According to the Report on the Practice of India, “the protection that is ordinarily available to religious objects is not available if such objects are used for terrorist activities”. The report adds that “in 1984, a number of religious places in Punjab including the famous Golden Temple at Amritsar were identified as terrorist bases and military action taken against them”.³⁶¹

339. According to the Report on the Practice of Israel, it is an IDF policy not to establish military bases or positions in the vicinity of cultural property”.³⁶²

340. At the CDDH, the Netherlands stated, with respect to Article 47 *bis* of draft AP I (now Article 53), that “*the illegitimate use of those historical objects for military purposes would deprive them of the protection afforded by Article 47 bis*”.³⁶³ (emphasis added)

341. According to the Report on the Practice of Russia, the use of cultural property, historic monuments or places of worship that constitute a part of the cultural or spiritual heritage of a people in support of the military effort is a prohibited method of warfare.³⁶⁴

342. On the basis of replies by army officers to a questionnaire, the Report on the Practice of Rwanda states that Rwanda’s armed forces avoid establishing military installations in proximity to cultural and religious objects and turning these objects into military bases.³⁶⁵

³⁵⁸ Australia, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, pp. 219–220.

³⁶⁴ Report on the Practice of Russia, 1997, Chapter 1.6.

³⁶⁵ Report on the Practice of Rwanda, 1997, Replies by army officers to a questionnaire, Chapter 4.3.

343. At the CDDH, the UK declared, with respect to Article 47 *bis* of draft AP I (now Article 53), that “if these objects are *unlawfully used for military purposes*, they will thereby lose effective protection as a result of attacks directed against such unlawful military uses”.³⁶⁶ (emphasis added)

344. At the CDDH, the US stated, with respect to Article 47 *bis* of draft AP I (now Article 53), that “the use of these objects in support of the military effort is a violation of this article”.³⁶⁷

345. In 1992, in its final report to Congress on the conduct of hostilities in the Gulf War, the US Department of Defense stated that contrary to the 1954 Hague Convention and

certain principles of customary law codified in [AP I], the Government of Iraq placed military assets (personnel, weapons, and equipment) in civilian populated areas and next to protected objects (mosques, medical facilities, and cultural sites) in an effort to protect them from attack.³⁶⁸

The report further described how Iraq had used “cultural property to protect legitimate targets from attack”:

A classic example was the positioning of two fighter aircraft adjacent to the ancient temple of Ur... While the law of war permits the attack of the two fighter aircraft, with Iraq bearing responsibility for any damage to the temple, Commander-in-Chief, Central Command (CINCCENT) elected not to attack the aircraft on the basis of respect for cultural property and the belief that positioning of the aircraft adjacent to Ur (without servicing equipment or a runway nearby) effectively had placed each out of action, thereby limiting the value of their destruction by Coalition air forces when weighed against the risk of damage to the temple. Other cultural property similarly remained on the Coalition no-attack list, despite Iraqi placement of valuable military equipment in or near those sites.³⁶⁹

346. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that:

The US and its Coalition partners in Desert Storm recognized that they were fighting in the “cradle of civilization” and took extraordinary measures to minimize damage to cultural property. Regrettably, these precautionary steps were met by Iraqi use of cultural property within its control to shield military objects from attack. A classical example is the positioning of two MiG-21 fighter aircraft at the entrance of the ancient temple of Ur. Although the law of war permitted their attack, and although each could have been destroyed utilizing precision-guided munitions, US commanders recognized that the aircraft for all intents and purposes

³⁶⁸ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, Appendix O, The Role of the Law of War, 10 April 1992, *ILM*, Vol. 31, 1992, p. 624.

³⁶⁹ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, Appendix O, The Role of the Law of War, 10 April 1992, *ILM*, Vol. 31, 1992, p. 626.

were incapable of military operations from their position, and elected against their attack for fear of collateral damage to the temple.³⁷⁰

III. Practice of International Organisations and Conferences

United Nations

347. In a resolution adopted in 1993, the UNESCO General Conference reaffirmed that "(a) the object and purpose of the 1954 Hague Convention are still valid and realistic" and "(b) the fundamental principles of protecting and preserving cultural property in the event of armed conflict could be considered part of customary international law".³⁷¹

348. In a joint declaration issued in 1991 on the situation in the former Yugoslavia, the Director-General of UNESCO and the UN Secretary-General launched a solemn appeal to all parties "to respect the principles enshrined in the Convention for the Protection of Cultural Property in the Event of Armed Conflict and in the Convention concerning the Protection of the World Cultural and Natural Heritage".³⁷²

Other International Organisations

349. In a press release issued in 2001 following allegations that the historic Arabati Baba Teke Dervish Monastery and the area next to the Painted Mosque in Tetovo were being used as a base for military operations by the ethnic Albanian armed groups operating in Macedonia, the OSCE Spillover Monitoring Mission to Skopje expressed its "great concern" about "the misuse of religious and cultural monuments for military reasons, which is not acceptable according to international law".³⁷³

International Conferences

350. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

351. In the *Tadić* case in 1995, the ICTY Appeals Chamber held that "it cannot be denied that customary rules have developed to govern internal strife. These rules . . . cover such areas as . . . protection of civilian objects, in particular cultural property."³⁷⁴ The Appeals Chamber explicitly stated that Article 19 of the

³⁷⁰ US, Department of Defense, Report to Congress on International Policies and Procedures Regarding the Protection of Natural and Cultural Resources During Times of War, 19 January 1993, p. 204.

³⁷¹ UNESCO, General Conference, Res. 3.5, 13 November 1993, preamble.

³⁷³ OSCE Spillover Monitoring Mission to Skopje, Press Release, OSCE Skopje Mission concerned about misuse of religious and cultural sites, 7 August 2001.

³⁷⁴ ICTY, *Tadić* case, Interlocutory Appeal, 2 October 1995, § 127.

1954 Hague Convention, which provides for the application of the provisions of the Convention relating to respect for cultural property “as a minimum” in non-international armed conflicts, constituted a treaty rule which had “gradually become part of customary law”.³⁷⁵

V. Practice of the International Red Cross and Red Crescent Movement

352. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that they must distinguish between “historic monuments, works of art and places of worship which constitute the cultural or spiritual heritage of peoples” on the one hand, which enjoy full protection and whose immunity from use for military purposes may not be withdrawn, and “objects of great importance to the cultural heritage of every people” on the other hand, which may not be used for military purposes in principle but whose immunity from such use may be withdrawn in case of imperative military necessity.³⁷⁶

353. In a joint statement issued in 1991, the Yugoslav Red Cross and the Hungarian Red Cross expressed their deep concern about “the protracting internal conflict in Yugoslavia” and urged the parties to the conflict “not to use [cultural objects] for military purposes”.³⁷⁷

VI. Other Practice

354. No practice was found.

C. Respect for Cultural Property

Note: For practice concerning the destruction of cultural property in general, see section A of this chapter.

I. Treaties and Other Instruments

Treaties

355. Article 56 of the 1899 HR provides that:

The property of the communes, that of religious, charitable, and educational institutions, and those of arts and science, even when State property, shall be treated as private property.

All seizure of, and destruction, or intentional damage done to such institutions, to historical monuments, works of art or science, is prohibited, and should be made the subject of proceedings.

³⁷⁵ ICTY, *Tadić case*, Interlocutory Appeal, 2 October 1995, § 98.

³⁷⁶ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 97, 219 and 225.

³⁷⁷ Yugoslav Red Cross and Hungarian Red Cross, Joint Statement, Subotica, 25 October 1991.

356. Article 56 of the 1907 HR provides that:

The property of municipalities, that of institutions dedicated to religion, charity and education, the arts and sciences, even when State property, shall be treated as private property.

All seizure of, destruction or wilful damage done to institutions of this character, historic monuments, works of art and science, is forbidden, and should be made the subject of legal proceedings.

357. Article 4(3) of the 1954 Hague Convention provides that:

The High Contracting Parties further undertake to prohibit, prevent and, if necessary, put a stop to any form of theft, pillage or misappropriation of, and any acts of vandalism directed against, cultural property. They shall refrain from requisitioning movable cultural property situated in the territory of another High Contracting Party.

358. Article 19(1) of the 1954 Hague Convention provides that:

In the event of an armed conflict not of an international character occurring within the territory of one of the High Contracting Parties, each party to the conflict shall be bound to apply, as a minimum, the provisions of the present Convention which relate to respect for cultural property.

359. Article 15 of the 1999 Second Protocol to the 1954 Hague Convention provides that:

1. Any person commits an offence within the meaning of this Protocol if that person intentionally and in violation of the Convention or this Protocol commits any of the following acts:
 - ...
 - (e) theft, pillage or misappropriation of, or acts of vandalism directed against cultural property protected under the Convention.
2. Each Party shall adopt such measures as may be necessary to establish as criminal offences under its domestic law the offences set forth in this Article and to make such offences punishable by appropriate penalties.

Other Instruments

360. Article 34 of the 1863 Lieber Code provides that:

As a general rule, the property belonging to churches, to hospitals, or other establishments of an exclusively charitable character, to establishments of education, or foundations for the promotion of knowledge, whether public schools, universities, academies of learning or observatories, museums of the fine arts, or of a scientific character – such property is not to be considered public property in the sense of paragraph 31; but it may be taxed or used when the public service may require it.

361. Article 36 of the 1863 Lieber Code provides that:

If such works of art, libraries, collections, or instruments belonging to a hostile nation or government, can be removed without injury, the ruler of the conquering

state or nation may order them to be seized or removed for the benefit of the said nation. The ultimate ownership is to be settled by the ensuing treaty of peace.

In no case shall they be sold or given away, if captured by the armies of the United States, nor shall they ever be privately appropriated or wantonly destroyed or injured.

362. Article 8 of the 1874 Brussels Declaration provides that:

The property of municipalities, that of institutions dedicated to religion, charity and education, the arts and sciences even when State property, shall be treated as private property.

All seizure or destruction of, or wilful damage to, institutions of this character, historic monuments, works of art and science should be made the subject of legal proceedings by the competent authorities.

363. Article 53 of the 1880 Oxford Manual provides that:

The property of municipalities, and that of institutions devoted to religion, charity, education, art and science, cannot be seized.

All destruction or wilful damage to institutions of this character, historic monuments, archives, works of art, or science, is formally forbidden, save when urgently demanded by military necessity.

364. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including "wanton destruction of religious, charitable, educational and historic buildings and monuments".

365. In the 1943 London Declaration, the Allied governments expressed their intention:

to do their utmost to defeat the methods of dispossession practised by the Governments with which they are at war against the countries and peoples who have been so wantonly assaulted and despoiled. Accordingly, the governments making this Declaration and the French National Committee reserve all their rights to declare invalid any transfers of, or dealing with, property, rights and interests of any description whatsoever which are, or have been, situated in the territories which have come under the occupation or control, direct or indirect, of the Governments with which they are at war, or which belong, or have belonged, to persons (including juridical persons) resident in such territories. This warning applies whether such transfers or dealings have taken the form of open looting or plunder, or of transactions apparently legal in form, even when they purport to be voluntarily effected.

366. Article 3(d) of the 1993 ICTY Statute includes among the violations of the laws or customs of war in respect to which the Tribunal has jurisdiction "seizure of, destruction or wilful damage done to institutions dedicated to religion, charity and education, the arts and sciences, historic monuments and works of art and science".

367. Pursuant to Article 20(e)(iv) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, “seizure of, destruction of or wilful damage done to institutions dedicated to religion, charity and education, the arts and sciences, historic monuments and works of art and sciences” is a war crime.

368. Article 1(3) of the 1997 Revised Lauswolt Document states that “any form of theft, pillage or misappropriation of, any act of vandalism directed against, any illicit transaction in, or any other breach of integrity of cultural property is prohibited”.

369. Article 12(1) of the 1997 Revised Lauswolt Document provides that:

All the provisions of this instrument, the provisions of the Convention and its 1954 Protocol which relate to safeguarding of, and respect for, cultural property shall apply in the event of an armed conflict not of an international character, occurring within the territory of one of the States Parties.

370. Section 6.6 of the 1999 UN Secretary-General’s Bulletin states that “theft, pillage, misappropriation and any act of vandalism directed against cultural property is strictly prohibited”.

II. National Practice

Military Manuals

371. Argentina’s Law of War Manual provides that:

The property of municipalities, that of institutions dedicated to religion, charity and education, the arts and sciences, even when State property, shall be treated as private property.

All seizure of, destruction or wilful damage done to institutions of this character, historic monuments, works of art and science, is forbidden, and should be made the subject of legal proceedings.³⁷⁸

372. Australia’s Defence Force Manual states that:

The property of municipalities, that of institutions dedicated to religion, charity and education, the arts and sciences, is treated as private property and any seizure or destruction of that property is prohibited. If that property is located in any area which is subject to seizure or bombardment, then it must be secured against all avoidable damage and injury.³⁷⁹

373. Canada’s LOAC Manual provides, with respect to occupied territory, that:

The property of municipalities, that of institutions dedicated to religion, charity and education, the arts and sciences, shall be treated as private property even when owned by the state. All seizure or destruction of, or wilful damage to, institutions of this character, historic monuments, works of art and science, is forbidden, and should be made the subject of legal proceedings.³⁸⁰

³⁷⁸ Argentina, *Law of War Manual* (1969), § 5.016.

³⁷⁹ Australia, *Defence Force Manual* (1994), § 741.

³⁸⁰ Canada, *LOAC Manual* (1999), p. 12-9, § 82.

374. Canada's Code of Conduct provides that soldiers must do their best to ensure that buildings and property dedicated to cultural or religious purposes "are not stolen, damaged or destroyed . . . Thus, every attempt should be made to avoid unnecessary desecration or destruction of cultural objects and places of worship."³⁸¹

375. Germany's Military Manual states that:

559. The property of municipalities, that of institutions dedicated to religion, charity and education, the arts and sciences shall be treated as private property.

...

561. It is prohibited to requisition, destroy or damage cultural property.

...

908. Any acts of theft, pillage, misappropriation, confiscation or vandalism directed against cultural property are prohibited.

...

919. The protection of cultural property also extends to a period of occupation. This implies that a party which keeps a territory occupied shall be bound to prohibit, prevent and, if necessary, put a stop to any theft, pillage, confiscation or other misappropriation of, and any acts of vandalism directed against cultural property.

920. It is prohibited to seize, or wilfully destroy or damage institutions dedicated to religion, charity and education, the arts and sciences; the same shall apply to historic monuments and other works of art and science.³⁸²

The manual further provides that grave breaches of IHL are in particular "extensive destruction of cultural property and places of worship".³⁸³

376. Germany's IHL Manual states that "it is prohibited to confiscate, requisition or misappropriate [movable or immovable property of great importance to the cultural heritage of every people]".³⁸⁴

377. Israel's Manual on the Laws of War states that "the Geneva Conventions contain provisions banning the looting of . . . cultural property. Looting is regarded as a despicable act that tarnishes both the soldier and the IDF, leaving a serious moral blot."³⁸⁵

378. Italy's IHL Manual states that:

The property of provinces and municipalities, that of institutions dedicated to religion, charity and education, the arts and sciences, even when property of the State or of other public entities in the occupied territory, shall be treated as private property.

The occupying military authority shall take all necessary measures to prohibit and punish any seizure of, destruction or wilful damage done to such property.³⁸⁶

The manual further states that an occupying power has the duty "to abstain from pillaging the cultural property" in the occupied territory.³⁸⁷

³⁸¹ Canada, *Code of Conduct* (2001), Rule 9, §§ 1 and 2.

³⁸² Germany, *Military Manual* (1992), §§ 559, 561, 908 and 919–920.

³⁸³ Germany, *Military Manual* (1992), § 1209. ³⁸⁴ Germany, *IHL Manual* (1996), § 701.

³⁸⁵ Israel, *Manual on the Laws of War* (1998), p. 62, see also p. 35.

³⁸⁶ Italy, *IHL Manual* (1991), Vol. I, § 46.

³⁸⁷ Italy, *IHL Manual* (1991), Vol. I, § 48(5).

379. The Military Manual of the Netherlands provides that “theft, pillage and destruction of cultural property are also prohibited”.³⁸⁸ It recalls that, according to Article 19 of the 1954 Hague Convention, the provisions of that Convention on respect for cultural property apply, as a minimum, in non-international armed conflicts.³⁸⁹

380. The Military Handbook of the Netherlands states that “cultural property may not be stolen, plundered or exposed to vandalism. It may not be requisitioned either.”³⁹⁰

381. New Zealand’s Military Manual provides, with reference to occupied areas, that:

The property of municipalities, that of institutions dedicated to religion, charity and education, the arts and sciences, even when State property, shall be treated as private property. All seizure or destruction of, or wilful damage to, property of this character, historic monuments, works of art and science, is forbidden, and should be made the subject of legal proceedings.³⁹¹

382. Nigeria’s Operational Code of Conduct states that during military operations, all officers and men of the armed forces shall observe the rules whereby “no property, building, etc. will be destroyed maliciously” and “churches and mosques must not be desecrated”.³⁹²

383. Nigeria’s Manual on the Laws of War states that “real property belonging to local government such as hospitals and buildings dedicated to public worship, charity, education, religion, science and art should be treated as private property . . . Destruction or damage of such buildings is forbidden.”³⁹³

384. Sweden’s Military Manual states that it is forbidden to pillage or seize cultural property such as museum collections, churches, historic monuments and other cultural sites.³⁹⁴

385. Switzerland’s Basic Military Manual states that respect for cultural property implies that it is prohibited “to use, steal, pillage or misappropriate cultural property”. The manual further states that “the property of municipalities, institutions dedicated to religion, charity and education, the arts and sciences, even when State property, must be treated as private property”.³⁹⁵

386. The UK Military Manual provides that:

611. Property belonging to local, that is, provincial, county, municipal and parochial, authorities, . . . as well as the property of institutions dedicated to public worship, charity, education, science and art – such as churches, chapels, synagogues, mosques, almshouses, hospitals, schools, museums, libraries, and the like – even

³⁸⁸ Netherlands, *Military Manual* (1993), p. V-6, § 5.

³⁸⁹ Netherlands, *Military Manual* (1993), p. XI-1, § 1.

³⁹⁰ Netherlands, *Military Handbook* (1995), p. 7-43.

³⁹¹ New Zealand, *Military Manual* (1992), § 1343.

³⁹² Nigeria, *Operational Code of Conduct* (1967), § 4(f)–(g).

³⁹³ Nigeria, *Manual on the Laws of War* (undated), § 27.

³⁹⁴ Sweden, *Military Manual* (1976), p. 30.

³⁹⁵ Switzerland, *Basic Military Manual* (1987), Articles 53, commentary, and 169.

when state property, must be treated as private property. Troops, sick and wounded, horses, and stores may therefore be housed in buildings of that nature, but such use is justified only by military necessity. Any seizure or destruction of, or wilful damage to, the property of such institutions, or to historic monuments or works of science and art, is forbidden, as is, generally, any destruction of property which is not required by imperative military necessity. Thus, it would not be improper to place sick and wounded in a church if no accommodation could immediately be found elsewhere, but a consecrated building should not be used for the purpose of barracks, stables, or stores, unless it is absolutely necessary... In 1870, the German occupation authorities housed 9,000 French prisoners of war in the Cathedral of Orleans.

...

613. Other movable public property, not susceptible of use for military operations, as well as that belonging to the institutions mentioned above, which is to be treated as private property must be respected and cannot be appropriated, for instance, crown jewels, pictures, collections of works of art, and archives. However, papers connected with the war may be seized, even when forming part of archives.³⁹⁶

387. The US Field Manual reproduces Article 56 of the 1907 HR and states that the property included in this rule "may be requisitioned in case of necessity for quartering the troops and the sick and wounded, storage of supplies and material, housing of vehicles and equipment, and generally as prescribed for private property".³⁹⁷

388. The Annotated Supplement to the US Naval Handbook states that "while the United States is not a Party to the 1954 Hague Convention, it considers it to reflect customary law".³⁹⁸

National Legislation

389. Bulgaria's Penal Code as amended, in a part dealing with "crimes against the laws and customs of waging war", provides for the punishment of "any person who steals, unlawfully appropriates or conceals [cultural or historical monuments and objects, works of art, buildings and equipment intended for cultural, scientific or other humanitarian purposes], or imposes contribution or confiscation with respect to such objects".³⁹⁹

390. China's Law Governing the Trial of War Criminals provides that "plundering of historical, artistic or other cultural treasures" constitutes a war crime.⁴⁰⁰

391. The Draft Amendments to the Penal Code of El Salvador punishes anyone who, during an international or a non-international armed conflict, seizes, loots or vandalises "clearly recognised cultural property or places of worship; works of art which constitute the cultural and spiritual heritage of peoples; and/or which have been granted protection pursuant to special agreements".

³⁹⁶ UK, *Military Manual* (1956), §§ 611, and footnote 4, and 613.

³⁹⁷ US, *Field Manual* (1956), § 405.

³⁹⁸ US, *Annotated Supplement to the Naval Handbook* (1997), § 8.5.1.6, footnote 122.

³⁹⁹ Bulgaria, *Penal Code as amended* (1968), Article 414(2).

⁴⁰⁰ China, *Law Governing the Trial of War Criminals* (1946), Article 3(37).

It defines cultural property in accordance with Article 1 of the 1954 Hague Convention.⁴⁰¹

392. Under Estonia's Penal Code, "damaging or illegal appropriation of cultural monuments, churches, or other structures or objects of religious significance, works of art or science, archives of cultural value, libraries, museums or scientific collections, which are not being used for military purposes" is a war crime.⁴⁰²

393. Italy's Law of War Decree as amended provides that:

The property of provinces and municipalities, that of institutions dedicated to religion, charity and education, the arts and sciences, even when property of the State or of other public entities in the occupied territory, shall be treated as private property.

The occupying military authority shall take all necessary measures to prohibit and punish any seizure of, destruction or wilful damage done to such property.⁴⁰³

394. Under Lithuania's Criminal Code as amended, the "plundering of national treasures in occupied or annexed territory" constitutes a war crime.⁴⁰⁴

395. Luxembourg's Law on the Repression of War Crimes provides for the punishment of "the taking . . . by any means, from the territory of Luxembourg, of objects of whatever nature".⁴⁰⁵

396. Under the International Crimes Act of the Netherlands, "destroying or appropriating on a large scale cultural property that is under the protection of [the 1954 Hague Convention and the 1999 Second Protocol thereto]", as well as "theft, pillaging or appropriation of – or acts of vandalism directed against – cultural property under the protection of the [1954 Hague Convention]", are crimes, when committed in an international armed conflict.⁴⁰⁶

397. Nicaragua's Military Penal Code punishes a soldier who commits "any act of pillage or appropriation of . . . cultural property, as well as any act of vandalism against such property and the requisitioning of those located in territory under military occupation".⁴⁰⁷

398. Nicaragua's Draft Penal Code punishes anyone who, during an international or a non-international armed conflict, "seizes, loots or vandalises clearly recognised cultural property or places of worship; works of art which constitute the cultural and spiritual heritage of peoples; and/or which have been granted protection pursuant to special agreements". It defines cultural property in accordance with Article 1 of the 1954 Hague Convention.⁴⁰⁸

⁴⁰⁷ Nicaragua, *Military Penal Code* (1996), Article 61.

⁴⁰⁸ Nicaragua, *Draft Penal Code* (1999), Article 469.

399. Poland's Penal Code provides for the punishment of "any person who, in violation of international law, . . . damages or pillages cultural property in occupied or controlled territory or in the combat area" and provides for a harsher punishment "if the offence is directed against cultural property of particular importance".⁴⁰⁹

400. Portugal's Penal Code provides for the punishment of whoever

in times of war, armed conflict or occupation and violating the norms or principles of general or common international law, destroys or damages, without military necessity, cultural or historical monuments or establishments affected to science, arts, culture [and] religion.⁴¹⁰

401. Romania's Penal Code provides for the punishment of "robbery or appropriation of any kind of . . . cultural heritage from territories under military occupation".⁴¹¹

402. Spain's Military Criminal Code punishes a soldier who commits "any act of pillage or appropriation of . . . cultural property, as well as any act of vandalism against such property and the requisitioning of those located in territory under military occupation".⁴¹²

403. Switzerland's Law on the Protection of Cultural Property states that protection includes respect for cultural property, which means, *inter alia*, "to prohibit, prevent and put a stop to any form of theft, pillage or misappropriation, and any acts of vandalism; [and] to refrain from the requisitioning of movable cultural property".⁴¹³

404. Under Ukraine's Criminal Code, "pillage of national treasures in occupied territories" is a punishable "crime against peace, security of mankind and international legal order".⁴¹⁴

National Case-law

405. In the *Lingenfelder case* in 1947, the accused was charged with destruction of public monuments. It was shown that in May 1941 the accused, acting upon orders of a German official, used four horses to pull down the monument erected by the inhabitants of Arry, Moselle to fellow citizens who died during the First World War, destroyed the marble slabs bearing the names of the dead, and broke the statue of Joan of Arc. In its judgement, the French Permanent Military Tribunal at Metz held that these acts constituted violations of the laws and customs of war and were punishable war crimes. The accused was convicted under the terms of Article 257 of the French Penal Code which covers in French municipal law the acts prohibited under Article 56 of the 1907 HR.⁴¹⁵

⁴⁰⁹ Poland, *Penal Code* (1997), Article 125.

⁴¹⁰ Portugal, *Penal Code* (1996), Article 242. ⁴¹¹ Romania, *Penal Code* (1968), Article 360.

⁴¹² Spain, *Military Criminal Code* (1985), Article 77(7).

⁴¹³ Switzerland, *Law on the Protection of Cultural Property* (1966), Article 2(3).

⁴¹⁴ Ukraine, *Criminal Code* (2001), Article 438.

⁴¹⁵ France, Permanent Military Tribunal at Metz, *Lingenfelder case*, Judgement, 11 March 1947.

406. In the *Von Leeb (The High Command Trial)* case before the US Military Tribunal at Nuremberg in 1948, the accused, former high-ranking officers in the German army and navy, were charged, *inter alia*, with war crimes and crimes against humanity against civilians in that they participated in atrocities such as plunder of public and private property. The Tribunal found that, on 17 September 1940, Keitel issued an order to the military commander in occupied France providing for the illegal seizure of property and its transfer to Germany. The order provided that the Reichsminister "is entitled to transport to Germany cultural goods which appear valuable to him and to safeguard them there. The Führer has reserved for himself the decision as to their use."⁴¹⁶

407. In its judgement in the *Weizsaecker* case in 1949, the US Military Tribunal at Nuremberg referred to Article 56 of the 1907 HR and ruled that all seizure of, destruction or wilful damage done to institutions of religious or charitable character, historic monuments, works of art and science was forbidden and should be the subject of legal proceedings.⁴¹⁷

Other National Practice

408. In 1992, in a letter to the President of the UN Security Council and to the UN Secretary-General, Azerbaijan referred to data provided to the UN fact-finding mission in the region concerning illegal actions by Armenia and included the damage caused to and destruction of places of worship.⁴¹⁸

409. The Report on the Practice of Bosnia and Herzegovina notes that members of the forces of the Republic of Bosnia and Herzegovina "did not commit any criminal acts of endangering cultural and religious facilities" during the conflict in the former Yugoslavia. It gives as an example the order issued by the Commander-in-chief on 17 December 1993 allowing Catholic priests unimpeded passage to visit the Franciscan monastery in Fojnica. The report further recalls another order issued by the same commander on 30 June 1994 that the facility in Guca Gora be emptied, secured and prepared to be handed over to Catholic priests.⁴¹⁹

410. In 1973, in a statement on the return of plundered works of art, China stated that:

The precious cultural heritage of the Chinese people also suffered from plunder and destruction by imperialists and colonialists. In the past 100 years, starting from 1840, troops of the imperialist powers invaded China many times, and each time the cultural heritage of the Chinese people suffered tremendously. They took away what they could, smashed those items which they could not take as a whole and then took away the pieces, destroyed and burned what they eventually could not take away. Apart from the large scale plunder and destruction by the invading

⁴¹⁹ Report on the Practice of Bosnia and Herzegovina, 2000, Chapter 4.3.

troops, China's historical relics and art treasures were also stolen by adventurers of different kinds by fair or foul means.⁴²⁰

411. In 1977, in a statement on human rights in the Israeli-occupied territories, China stated that the Israeli Authority had "rudely interfered with the religious beliefs of the Arab people, had of lot of old buildings in Jerusalem pulled down and the occupants moved elsewhere, and damaged the precious Arab and Muslim historical relics".⁴²¹

412. In 1991, in a letter to the UN Secretary-General, Iran expressed alarm at the "reported desecration of holy shrines".⁴²²

413. According to the Report on the Practice of Rwanda, cultural property is protected by Rwanda's armed forces and the pillage of cultural and religious goods is prohibited.⁴²³

414. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that "cultural . . . property was confiscated [and] pillage was widespread" in violation of the 1954 Hague Convention.⁴²⁴ The report further stated that "Iraqi war crimes were widespread and premeditated. They include . . . looting of cultural property."⁴²⁵

415. According to the Report on the Practice of Zimbabwe, the protection afforded to private property by Section 16 of the Constitution would extend to cultural property within national territory.⁴²⁶

416. During an internal conflict, acts of pillage were carried out by the armed forces of a State against churches in the run-up to elections.⁴²⁷

III. Practice of International Organisations and Conferences

United Nations

417. In a resolution adopted in 1992, the UN General Assembly expressed alarm that:

although the conflict in Bosnia and Herzegovina is not a religious conflict, it has been characterized by the systematic destruction and profanation of mosques,

⁴²⁰ China, Statement on the Issue of Return of Plundered Works of Art to its Country, by Comrade Wang Runsheng, 18 December 1973, *Selected Documents of the Chinese Delegation to the United Nations*, The People's Press, Beijing, 1973, pp. 56–57.

⁴²¹ China, Statement on the Issue of Human Rights in Israeli Occupied Territories, by Zhou Nan, Chinese Representative, 18 November 1977, *Selected Documents of the Chinese Delegation to the United Nations*, The People's Press, Beijing, 1977, pp. 92–93.

⁴²⁷ ICRC archive document.

churches and other places of worship, as well as other sites of cultural heritage, in particular areas currently or previously under Serbian control.⁴²⁸

Similar concerns were expressed in 1994 and 1995.⁴²⁹

418. In a resolution adopted in 1998, the UN Commission on Human Rights expressed its deep concern over reports of the destruction and looting of the cultural and historical heritage of Afghanistan and urged the parties to protect and safeguard such heritage.⁴³⁰

419. In a resolution adopted in 1993, the UNESCO General Conference reaffirmed that "(a) the object and purpose of the 1954 Hague Convention are still valid and realistic" and "(b) the fundamental principles of protecting and preserving cultural property in the event of armed conflict could be considered part of customary international law".⁴³¹

420. In a joint declaration issued in 1991 on the situation in the former Yugoslavia, the Director-General of UNESCO and the UN Secretary-General launched a solemn appeal to all parties "to respect the principles enshrined in the Convention for the Protection of Cultural Property in the Event of Armed Conflict and in the Convention concerning the Protection of the World Cultural and Natural Heritage".⁴³²

421. In a press release issued in February 2001 following press reports of the deliberate destruction by the Taliban of more than a dozen ancient statues in the Afghan National Museum in Kabul and of an order by the supreme Taliban leader to destroy all statues in Afghanistan which, as human representations, were viewed as unIslamic, UNESCO strongly appealed to those directly concerned to stop the destruction of the cultural heritage of the peoples of Afghanistan.⁴³³

422. In a press release issued in March 2001, the Director-General of UNESCO condemned the Taliban's destruction of the Buddhas of Bamiyan and described it as a "crime against culture". He stated that "it is abominable to witness the cold and calculated destruction of cultural properties which were the heritage of the Afghan people, and, indeed, of the whole of humanity".⁴³⁴

423. In 1993, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights stated that "massive violations of human rights and international humanitarian law" were committed "deliberately to achieve ethnically homogenous areas" through a "variety of methods used in ethnic cleansing", including

the "destruction of mosques".⁴³⁵ The Special Rapporteur deplored the fact that "Ukrainians in the Banja Luka region were reportedly subjected to psychological pressure which included the blowing up of the Ukrainian church in Prnjavor, the destruction of the old church in Dubrava and of a village church near Omarska".⁴³⁶ He added that "although the conflict... is not regarded as a religious one, it has been characterised by the systematic destruction and profanation of mosques, Catholic churches and other places of worship".⁴³⁷ In another report the same year, under the heading "Other violations of human rights and humanitarian law", the Special Rapporteur noted deliberate damage to or destruction of church buildings.⁴³⁸

424. In 1997, in a report on the situation of human rights in Afghanistan, the Special Rapporteur of the UN Commission on Human Rights stated that "acts of looting of the Afghan cultural heritage constitute a clear violation of the laws of war". Reference was not made to the 1954 Hague Convention, but "the trafficking of such artifacts" was qualified as "a legal violation of the UNESCO Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property" and of the "domestic laws of the countries concerned". The report further declared that "the tacit approval by Governments and museums of such practices [looting and illegal trafficking] may amount to 'cultural genocide' or to 'genocide of the cultural rights' of the Afghan people".⁴³⁹

Other International Organisations

425. In 1993, in a report on the destruction by war of the cultural heritage in Croatia and Bosnia and Herzegovina, the Committee on Culture and Education of the Parliamentary Assembly of the Council of Europe stated that the conflicts in Croatia and Bosnia and Herzegovina "have led to a major cultural catastrophe for all the communities of the war zone... and also for our European heritage", basing this statement in part on the fact that "churches and mosques are annihilated".⁴⁴⁰

426. In a resolution adopted in 1983, the Council of the League of Arab States condemned Israel for its "robbing of archaeological and cultural properties" and "violating the sanctity of places of worship".⁴⁴¹

⁴⁴¹ League of Arab States, Council, Res. 4237, 31 March 1983, § 1(b).

International Conferences

427. In a resolution adopted in 2000 on the destruction and desecration of the Islamic historical and cultural relics and shrines in the occupied Azeri territories resulting from the Republic of Armenia's aggression against the Republic of Azerbaijan, the Islamic Summit Conference, referring to the 1954 Hague Convention, condemned "the mass and barbaric demolition of mosques and other Islamic shrines in Azerbaijan by Armenia" and stated that "governments are bound to ban theft and looting of whatever type, acts of illegal violations of cultural values . . . as well as savage prejudice to the above values. They are committed to prevent such acts or reverse their effects where necessary."⁴⁴²

IV. Practice of International Judicial and Quasi-judicial Bodies

428. In the *Tadić case* in 1995, the ICTY Appeals Chamber held that "it cannot be denied that customary rules have developed to govern internal strife. These rules . . . cover such areas as . . . protection of civilian objects, in particular cultural property."⁴⁴³ The Appeals Chamber explicitly stated that Article 19 of the 1954 Hague Convention, which provides for the application of the provisions of the Convention relating to respect for cultural property "as a minimum" in non-international armed conflicts, constituted a treaty rule which had "gradually become part of customary law".⁴⁴⁴

V. Practice of the International Red Cross and Red Crescent Movement

429. No practice was found.

VI. Other Practice

430. No practice was found.

D. Export and Return of Cultural Property in Occupied Territory**Export of cultural property from occupied territory***I. Treaties and Other Instruments**Treaties*

431. Paragraph 1 of the 1954 Hague Protocol provides that:

Each High Contracting Party undertakes to prevent the exportation, from a territory occupied by it during an armed conflict, of cultural property as defined in Article

⁴⁴² Islamic Summit Conference, Ninth Session, Doha, 12–13 November 2000, Res. 25/8-C (IS), preamble and §§ 1 and 3.

⁴⁴³ ICTY, *Tadić case*, Interlocutory Appeal, 2 October 1995, § 127.

⁴⁴⁴ ICTY, *Tadić case*, Interlocutory Appeal, 2 October 1995, § 98.

1 of the Convention for the Protection of Cultural Property in the Event of Armed Conflict, signed at The Hague on 14 May 1954.

432. Paragraph 2 of the 1954 Hague Protocol provides that:

Each High Contracting Party undertakes to take into its custody cultural property imported into its territory either directly or indirectly from any occupied territory. This shall either be effected automatically upon the importation of the property or, failing this, at the request of the authorities of that territory.

433. Article 11 of the 1970 Convention on the Illicit Trade in Cultural Property provides that “the export and transfer of ownership of cultural property under compulsion arising directly or indirectly from the occupation of a country by a foreign power shall be regarded as illicit”.

434. Article 9(1) of the 1999 Second Protocol to the 1954 Hague Convention, which refers to the protection of cultural property in occupied territory, stipulates that:

Without prejudice to the provisions of Articles 4 and 5 of the Convention, a Party in occupation of the whole or part of the territory of another Party shall prohibit and prevent in relation to the occupied territory:

- (a) any illicit export, other removal or transfer of ownership of cultural property.

435. Article 21 of the 1999 Second Protocol to the 1954 Hague Convention provides that:

Each Party shall adopt such legislative, administrative or disciplinary measures as may be necessary to suppress the following acts when committed intentionally:

...

- (b) any illicit export, other removal or transfer of ownership of cultural property from occupied territory in violation of the Convention or this Protocol.

Other Instruments

436. Article 36 of the 1863 Lieber Code provides that:

If such works of art, libraries, collections, or instruments belonging to a hostile nation or government, can be removed without injury, the ruler of the conquering state or nation may order them to be seized or removed for the benefit of the said nation. The ultimate ownership is to be settled by the ensuing treaty of peace.

In no case shall they be sold or given away, if captured by the armies of the United States, nor shall they ever be privately appropriated or wantonly destroyed or injured.

437. In the 1943 London Declaration, the Allied governments expressed their intention:

to do their utmost to defeat the methods of dispossession practised by the Governments with which they are at war against the countries and peoples who have been so wantonly assaulted and despoiled. Accordingly, the governments making this Declaration and the French National Committee reserve all their rights to declare invalid any transfers of, or dealing with, property, rights and interests of any

description whatsoever which are, or have been, situated in the territories which have come under the occupation or control, direct or indirect, of the Governments with which they are at war, or which belong, or have belonged, to persons (including juridical persons) resident in such territories. This warning applies whether such transfers or dealings have taken the form of open looting or plunder, or of transactions apparently legal in form, even when they purport to be voluntarily effected.

438. Article 1(4) of the 1997 Revised Lauswolt Document provides that “without limiting the provisions of the 1954 Protocol, it is prohibited to export or otherwise illicitly remove cultural property from occupied territory or from a part of the territory of a State Party”.

439. Article 12(1) of the 1997 Revised Lauswolt Document provides that:

All the provisions of this instrument, the provisions of the Convention and its 1954 Protocol which relate to safeguarding of, and respect for, cultural property shall apply in the event of an armed conflict not of an international character, occurring within the territory of one of the States Parties.

II. National Practice

Military Manuals

440. Germany’s Military Manual states that “each party to the conflict shall be bound to prevent the exportation of cultural property from a territory occupied by it during an international armed conflict”.⁴⁴⁵

National Legislation

441. Luxembourg’s Law on the Repression of War Crimes provides for the punishment of “the exportation, by any means, from the territory of Luxembourg, of objects of whatever nature”.⁴⁴⁶

National Case-law

442. In 1970, two antiquity dealers in East Jerusalem were charged in the Military Court of Hebron under Jordanian law with exporting antiquities into “foreign territory” (i.e., from Hebron, in Judaea, to East Jerusalem) without obtaining an export licence.⁴⁴⁷

Other National Practice

443. It has been reported that, during the Gulf War, large amounts of cultural property, including almost the entire contents of the Kuwait National Museum, were removed to Baghdad. After the Gulf War, Iraq stated that thousands of objects had been stolen from its provincial museums during the period of the

⁴⁴⁵ Germany, *Military Manual* (1992), § 922.

Return of cultural property exported or taken from occupied territory

I. Treaties and Other Instruments

Treaties

450. Article 12 of the 1947 Treaty of Peace between the Allied and Associated Powers and Italy provides that:

Italy shall restore to Yugoslavia all objects of artistic, historical, scientific, educational or religious character . . . which, as the result of the Italian occupation, were removed between 4 November 1918 and 2 March 1924 from the territories ceded to Yugoslavia under the treaties signed in Rapallo on 12 November 1920 and in Rome on 27 January 1924.

451. Under Article 37 of the 1947 Treaty of Peace between the Allied and Associated Powers and Italy, Italy was obliged to “restore all works of art, religious objects, archives and objects of historical value belonging to Ethiopia or its nationals and removed from Ethiopia to Italy since 3 October 1935”.

452. Article 1, paragraph 1, of Chapter Five (“External Restitution”) of the 1952 Convention on the Settlement of Matters Arising out of the War and the Occupation provides that:

Upon the entry into force of the present Convention, the Federal Republic [of Germany] shall establish, staff and equip an administrative agency which shall . . . search for, recover, and restitute jewellery, silverware and antique furniture . . . and cultural property, if such articles or cultural property were, during the occupation of any territory, removed therefrom by the forces or authorities of Germany or its Allies or their individual members (whether or not pursuant to orders) after acquisition by duress (with or without violence), by larceny, by requisitioning or by other forms of dispossession by force.

453. The 1954 Hague Protocol provides that:

3. Each High Contracting Party undertakes to return, at the close of hostilities, to the competent authorities of the territory previously occupied, cultural property which is in its territory, if such property has been exported in contravention of the principle laid down in the first paragraph. Such property shall never be retained as war reparations.
4. The High Contracting Party whose obligation was to prevent the exportation of cultural property from the territory occupied by it, shall pay an indemnity to the holders in good faith of any cultural property which has to be returned in accordance with the preceding paragraph.

454. Upon ratification of the 1954 Hague Protocol, Norway entered a reservation whereby “restitution of cultural property in accordance with the provisions of Sections I and II of the Protocol could not be required more than twenty years

from the date on which the property in question had come into the possession of a holder acting in good faith". In 1979, Norway withdrew this reservation.⁴⁵¹
455. Article 2(2) of the 1970 Convention on the Illicit Trade in Cultural Property provides that:

The States Parties undertake to oppose [the illicit import, export and transfer of ownership of cultural property] with the means at their disposal, and particularly by removing their causes, putting a stop to current practices, and by helping to make the necessary reparations.

Other Instruments

456. No practice was found.

II. National Practice

Military Manuals

457. Germany's Military Manual states that:

Each party to the conflict shall be bound to prevent the exportation of cultural property from a territory occupied by it during an international armed conflict. If, in spite of this prohibition, cultural property should nevertheless be transferred from the occupied territory into the territory of another party, the latter shall be bound to place such property under its protection. This shall be effected either immediately upon the importation of the property or, failing this, at a later date, at the request of the authorities of the occupied territory concerned.⁴⁵²

National Legislation

458. Russia's Law on Removed Cultural Property declares federal property of the Russian Federation:

all cultural values located in the territory of the Russian Federation that were brought [as a result of the Second World War] into the USSR by way of exercise of its right to compensatory restitution . . . pursuant to orders of the Soviet Army Military Command, the Soviet Military Administration in Germany or instructions of other competent bodies in the USSR.⁴⁵³

By the term "cultural values" is meant "any property of a religious or secular nature which has historic, artistic, scientific or any other cultural importance", either owned by the State or privately.⁴⁵⁴ However, the following types of properties may be claimed under the law: a) the cultural values plundered by Germany or its allies that were the national property of the former Soviet republics; b) the property of religious organisations or private charities which,

⁴⁵⁴ Russia, *Law on Removed Cultural Property* (1997), Article 4.

being used exclusively for religious or charitable aims, did not serve the interest of militarism and/or Fascism; c) the cultural values previously owned by victims of Nazi/Fascist persecutions; d) all other removed cultural values located in Russia and originating from territories of States, other than the former Soviet republics, that were occupied during the war by Germany or its allies; and e) family relics.⁴⁵⁵

National Case-law

459. In its decision in 1999 concerning verification of the constitutionality of the Law on Removed Cultural Property, Russia's Constitutional Court ruled that cultural property legally transferred from the territory of former enemy States had become the property of the Russian Federation. The Court upheld the constitutionality of the Law insofar as it dealt with "the rights of Russia to cultural property imported into Russia from former enemy states [Germany and its allies] by way of compensatory restitution". In the Court's opinion:

The obligation of former enemy states to compensate their victims in the form of common restitution and compensatory restitution is based on the well-established principle of international law recognised well before World War II, concerning international legal responsibility of an aggressor state.⁴⁵⁶

Other National Practice

460. In 1991, the German government declared that it "fully accepts the fact that cultural property has to be returned after the end of hostilities". Germany has returned cultural property in all cases in which the cultural goods were found and could be identified. In other cases, Germany has paid compensation to the original owner countries.⁴⁵⁷

461. In 1997, the German government reiterated the principles contained in a general declaration made in 1984, whereby "thefts and destruction of cultural property by the Nazi regime as well as the removal of cultural property by the Soviet Union during and after the Second World War were breaches of international law". Furthermore, it pointed out that the basic principles of the protection of cultural property are not only binding upon the vanquished but also upon the victor.⁴⁵⁸

462. In 1998, during a parliamentary debate concerning a dispute between Germany and Russia over a Russian parliamentary draft law to nationalise formerly German cultural property confiscated by the Soviet Union during the

occupation of Germany after the Second World War, a representative of the German government stated that:

The theft of cultural property committed by the German Nationalist-Socialist regime during the Second World War, as well as the transporting of cultural objects from Germany to Russia by the Soviet Union after the Second World War, represent violations of international law.⁴⁵⁹

463. It was reported that during the Gulf War, large amounts of cultural property, including almost the entire contents of the Kuwait National Museum, were removed to Baghdad but later returned.⁴⁶⁰

464. In 1991, in identical letters to the UN Secretary-General and the President of the UN Security Council, the Minister of Foreign Affairs of Iraq stated that "the Iraqi Government has decided to return the following property seized by the Iraqi authorities after 2 August 1990: . . . 3. Museum objects."⁴⁶¹

465. In a letter to a number of the Ministers of Foreign Affairs of the member States of the UN Security Council in 1991, the Minister of Foreign Affairs of Iraq stated that:

Mr. J. Richard Foran, Assistant Secretary-General and official responsible for coordinating the return of [Kuwaiti] property, visited Iraq twice during the month of May 1991. The competent Iraqi authorities expressed their readiness to hand over the Kuwaiti property of which Iraq had already notified the Secretariat of the United Nations . . . Mr. Foran also undertook a wide-ranging field visit and saw for himself the . . . museum antiquities and books that will be returned to Kuwait immediately [after] an agreement is reached establishing a location for the handing over, it being understood that it is this property whose handing over Mr. Foran has determined should have priority at the present stage. The same procedures will doubtless be applied to other Kuwaiti property.⁴⁶²

466. In a letter to the UN Secretary-General in September 1994, Iraq claimed that it had returned all the Kuwaiti property in its possession, "having nothing else whatsoever to return".⁴⁶³

467. In 1995, in a letter to the President of the UN Security Council, Kuwait stated that it attached "the utmost importance to the return by Iraq of all the

official documents looted by Iraqi forces from the Office of the Amir, the Office of the Crown Prince, the Cabinet Office and the Ministry of Foreign Affairs. No price can compensate for such documents."⁴⁶⁴

468. In 1997, during a debate in the UN General Assembly, Kuwait reiterated the allegation that Iraqi soldiers had robbed and looted Kuwaiti cultural property during the Gulf War, including manuscripts and historical documents, adding that many treasures which had been returned had been damaged. He then appealed to the international community to urge the return of Kuwait's cultural property.⁴⁶⁵ In response, Iraq declared that all the cultural property taken out of Kuwait by Iraq had either been returned or would be in the future.⁴⁶⁶

469. During the diplomatic conference which led to the adoption of the 1954 Hague Convention, Norway proposed that "restitution cannot, however, be required later than twenty years after the object has got into the hands of the present holder, this holder having acted in good faith in acquiring it". The proposal was not adopted by the conference.⁴⁶⁷

470. In March 2001, Russia and Belgium reached an agreement on the return to Belgium of the military archives stolen by the Nazis during the Second World War and then taken to Moscow by Soviet forces. The Russian authorities accepted to return the archives to Belgium, provided that they be compensated for the cost of having maintained them.⁴⁶⁸

471. In 1999, during a debate in the UN General Assembly, the UAE called on Iraq to return Kuwaiti cultural property.⁴⁶⁹

III. Practice of International Organisations and Conferences

United Nations

472. In 1991, the UN Security Council adopted Resolution 686, in which, acting under Chapter VII of the UN Charter, it demanded that Iraq "immediately begin to return all Kuwaiti property seized by Iraq, the return to be completed in the shortest possible period".⁴⁷⁰ The same demand was implicitly reiterated

⁴⁶⁴ Kuwait, Letter dated 6 March 1995 to the President of the UN Security Council, UN Doc. S/1995/184, 7 March 1995, p. 2; see also UN Secretary-General, Report on the return of Kuwaiti property seized by Iraq, UN Doc. S/1996/1042, 16 December 1996, p. 1 and Second report pursuant to paragraph 14 of resolution 1284 (1999), UN Doc. S/2000/575, 14 June 2000, §§ 17(a).

⁴⁶⁹ UAE, Statement before the UN General Assembly, UN Doc. A/54/PV.7, 21 September 1999, p. 36.

⁴⁷⁰ UN Security Council, Res. 686, 2 March 1991, § 2(d).

the same year in Resolution 687, in which the Security Council requested that the UN Secretary-General report on the steps taken to facilitate the return of all Kuwaiti property seized by Iraq.⁴⁷¹

473. In a resolution adopted in 1999, the UN Security Council, recalling Resolutions 686 and 687 of 1991, noted “with regret” that Iraq had still not complied fully with its obligation to return in the shortest possible time all Kuwaiti property it had seized, and requested that the UN Secretary-General “report every six months on the return of all Kuwaiti property, including archives, seized by Iraq”.⁴⁷²

474. In a resolution adopted in 1991, the UN General Assembly strongly condemned Israel’s pillaging of archaeological and cultural property in the occupied territories. It also condemned Israel’s attack against the Sharia Islamic Court in occupied Jerusalem on 18 November 1991, during which Israeli forces had taken away important documents and papers, and demanded that “Israel, the occupying power, return immediately all documents and papers that were taken away from the Sharia Islamic Court in occupied Jerusalem, to the officials of the said Court”.⁴⁷³

475. In a resolution adopted in 1993, the UNESCO General Conference reaffirmed that “the fundamental principles of protecting and preserving cultural property in the event of armed conflict could be considered part of customary international law”.⁴⁷⁴

476. In 1992, in a report on compliance by Iraq with obligations placed upon it under certain UN Security Council resolutions, the UN Secretary-General noted that:

The return of the property has commenced and, to date, properties of the Central Bank of Kuwait, the Central Library of Kuwait, the National Museum of Kuwait, the Kuwait News Agency . . . have been returned. A number of additional items are ready for return and the process is continuing. In addition, Kuwait has submitted lists of properties from other ministries, corporations and individuals that are being pursued. The Iraqi and Kuwaiti officials involved with the return of property have extended maximum cooperation to the United Nations to facilitate the return.⁴⁷⁵

477. In 2000, in a report on the return of Kuwaiti property from Iraq, the UN Secretary-General confirmed that, although Iraq had returned a substantial quantity of property since the end of the Gulf War, there remained “many items which Iraq is under obligation to return to Kuwait”. In this respect, he

stressed that “priority should be given to the return by Iraq of the Kuwaiti archives . . . and museum items”.⁴⁷⁶

Other International Organisations

478. No practice was found.

International Conferences

479. In a resolution adopted in 2000 on the destruction and desecration of the Islamic historical and cultural relics and shrines in the occupied Azeri territories resulting from the Republic of Armenia’s aggression against the Republic of Azerbaijan, the Islamic Summit Conference recalled that the 1954 Hague Convention “prohibits the confiscation of cultural assets moved to the territories of other countries”.⁴⁷⁷

IV. Practice of International Judicial and Quasi-judicial Bodies

480. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

481. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “cultural objects transferred during the war shall be returned to the belligerent Party in whose territory they were previously situated”.⁴⁷⁸

VI. Other Practice

482. No practice was found.

WORKS AND INSTALLATIONS CONTAINING DANGEROUS FORCES

Works and Installations Containing Dangerous Forces (practice relating to Rule 42)	§§ 1–153
Attacks against works and installations containing dangerous forces and against military objectives located in their vicinity	§§ 1–128
Placement of military objectives near works and installations containing dangerous forces	§§ 129–153

Works and Installations Containing Dangerous Forces

Attacks against works and installations containing dangerous forces and against military objectives located in their vicinity

Note: For practice concerning attacks against economic installations such as oil installations and chemical plants, see Chapter 2, section B.

I. Treaties and Other Instruments

Treaties

1. Article 56 AP I provides that:

1. Works and installations containing dangerous forces, namely dams, dykes and nuclear electrical generating stations, shall not be made the object of attack, even where these objects are military objectives, if such attack may cause the release of dangerous forces and consequent severe losses among the civilian population. Other military objectives located at or in the vicinity of these works or installations shall not be made the object of attack if such attack may cause the release of dangerous forces from the works or installations and consequent severe losses among the civilian population.
2. The special protection against attack provided for in paragraph 1 shall cease:
 - (a) for a dam or a dyke only if it is used for other than its normal function and in regular, significant and direct support of military operations and if such attack is the only feasible way to terminate such support;
 - (b) for a nuclear electrical generating station only if it provides electric power in regular, significant and direct support of military operations and if such attack is the only feasible way to terminate such support;
 - (c) for other military objectives located at or in the vicinity of these works or installations only if they are used in regular, significant and direct support of military operations and if such attack is the only feasible way to terminate such support.

3. In all cases, the civilian population and individual civilians shall remain entitled to all the protection accorded them by international law, including the protection of the precautionary measures provided for in Article 57. If the protection ceases and any of the works, installations or military objectives mentioned in paragraph 1 is attacked, all practical precautions shall be taken to avoid the release of the dangerous forces.

...

4. The High Contracting Parties and the Parties to the conflict are urged to conclude further agreements among themselves to provide additional protection for objects containing dangerous forces.

Article 56 AP I was adopted by consensus.¹

2. Article 85(3)(c) AP I provides that "launching an attack against works or installations containing dangerous forces in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects" is a grave breach of the Protocol. Article 85 AP I was adopted by consensus.²

3. Upon ratification of AP I, the UK stated with respect to Articles 56 and 85(3)(c) AP I that:

The United Kingdom cannot undertake to grant absolute protection to installations which may contribute to the opposing Party's war effort, or to the defenders of such installations, but will take all due precautions in military operations at or near the installations referred to in paragraph 1 of Article 56 in the light of the known facts, including any special marking which the installation may carry, to avoid severe collateral losses among the civilian population; direct attacks on such installations will be launched only on authorisation at a high level of command.³

4. Upon ratification of AP I, France declared that:

The Government of the French Republic cannot guarantee absolute protection to works and installations containing dangerous forces, which may contribute to the opposing Party's war effort, or to the defenders of such installations, but will take all necessary precautions, pursuant to Articles 56, 57(2)(a)(iii) and 85(3)(c) [AP I], to avoid severe collateral losses among the civilian population, including during possible direct attacks against such works and installations.⁴

5. Article 15 AP II provides that:

Works or installations containing dangerous forces, namely dams, dykes and nuclear electrical generating stations, shall not be made the object of attack, even where these objects are military objectives, if such attack may cause the release of dangerous forces and consequent severe losses among the civilian population.

Article 15 AP II was adopted by consensus.⁵

Other Instruments

6. Article 17 of the 1956 New Delhi Draft Rules provides that:

In order to safeguard the civilian population from the dangers that might result from the destruction of engineering works or installations – such as hydro-electric dams, nuclear power stations or dikes – through the releasing of natural or artificial forces, the States or Parties concerned are invited:

- (a) to agree, in time of peace, on a special procedure to ensure in all circumstances the general immunity of such works where intended essentially for peaceful purposes:
- (b) to agree, in time of war, to confer special immunity, possibly on the basis of the stipulations of Article 16, on works and installations which have not, or no longer have, any connexion with the conduct of military operations.

The preceding stipulations shall not, in any way, release the Parties to the conflict from the obligation to take the precautions required by the general provisions of the present rules, under Articles 8 to 11 in particular.

7. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY states that hostilities shall be conducted in compliance with Article 56 AP I.

8. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina states that hostilities shall be conducted in compliance with Article 56 AP I.

9. According to Article 20(b)(iii) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, “launching an attack against works or installations containing dangerous forces in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects” is a war crime.

10. Section 6.8 of the 1999 UN Secretary-General’s Bulletin states that:

The United Nations force shall not make installations containing dangerous forces, namely dams, dykes and nuclear electrical generating stations, the object of military operations if such operations may cause the release of dangerous forces and consequent severe losses among the civilian population.

*II. National Practice**Military Manuals*

11. Argentina’s Law of War Manual states that:

Works and installations containing dangerous forces (dams, dykes, nuclear stations or nuclear power plants) must not be attacked, even if they are military objectives, if such attack may cause the release of those forces and cause severe losses among the civilian population. Other military objectives located at or in the vicinity of these works must not be attacked either if such an attack may cause the release of those dangerous forces. This protection will only cease if these objects are being

used as a regular, significant and direct support to military operations, and if such attack is the only feasible way to terminate such support.⁶

The manual qualifies “attacks against works and installations containing dangerous forces in the knowledge that such attacks will cause loss of life, injury to civilians or damage to civilian objects which are excessive in relation to the concrete and direct military advantage anticipated” as grave breaches of IHL.⁷ With respect to non-international armed conflicts, the manual restates the absolute prohibition of attacks against works and installations containing dangerous forces as found in Article 15 AP II.⁸

12. Australia’s Defence Force Manual provides that:

933. The works and installations containing dangerous forces are specifically limited to dams, dykes and nuclear electrical generating stations. Even where these objects are military objectives, they shall not be attacked if such attack may cause the release of dangerous forces and consequently severe losses amongst the civilian population. The purpose of this rule against such attacks is to avoid excess damage or loss to the civilian population.

934. Military objectives at or in the vicinity of an installation mentioned in paragraph 933 are also immune from attack if the attack might directly cause the release of dangerous forces from that installation in question and subsequent severe losses upon the civilian population.

935. The release of the dangerous forces must have a consequent severe loss among the civilian population. This is an absolute standard rather than the relative one set by the rule of proportionality. If massive civilian losses are foreseeable, the attack would be prohibited regardless of the anticipated military advantage.

936. Loss of Protection. In the case of a dyke or dam, the protection afforded ceases if three special conditions are evident. These are that:

- a. it is used for other than its normal function;
- b. it is used in regular, significant and direct support of military operations; and
- c. an attack is the only feasible way to terminate such support.

937. In relation to nuclear electrical generating stations and other military objectives located in the vicinity, only the conditions in paragraph 936.b and c. apply.⁹

The manual further provides that “launching unlawful attacks against installations containing dangerous forces” constitutes a grave breach or a serious war crime likely to warrant institution of criminal proceedings.¹⁰

13. Belgium’s Teaching Manual for Soldiers states that “certain objects and buildings must not be attacked. Unless an order to the contrary has been given, they must be avoided. This concerns . . . certain installations which contain particularly dangerous forces (dams, dykes and nuclear power stations).”¹¹

⁶ Argentina, *Law of War Manual* (1989), § 4.04.

⁷ Argentina, *Law of War Manual* (1989), § 8.03.

⁸ Argentina, *Law of War Manual* (1989), § 7.09.

⁹ Australia, *Defence Force Manual* (1994), §§ 933–937, see also § 544 (“any such attack would be approved at the highest command level”) and *Commanders’ Guide* (1994) §§ 408, 631 and 962.

¹⁰ Australia, *Defence Force Manual* (1994), § 1315(j); see also *Commanders’ Guide* (1994), § 1305(j).

¹¹ Belgium, *Teaching Manual for Soldiers* (undated), p. 8, see also p. 22 and slide 6b/2.

14. Belgium's Law of War Manual prohibits the use of "means and methods of warfare . . . that may cause the release of forces which may cause severe losses among the civilian population". The manual specifically prohibits "attacks against dams, dykes and nuclear power stations whose destruction may release dangerous forces, unless these works and installations are used for other than their normal function and provide an important and direct support to military operations".¹²

15. Benin's Military Manual states that it is prohibited:

to attack dykes, nuclear power plants and dams, if such attack would release dangerous forces which may cause severe losses among the civilian population, unless these works have been used in direct support of military operations or for military purposes and an attack on these objectives is the only way to terminate such use.¹³

16. Cameroon's Instructors' Manual defines installations containing dangerous forces as "dams, dykes and nuclear power stations whose destruction may lead to severe losses among the civilian population" and states that they lose their protection against attack "when they are used as tactical support by the belligerents".¹⁴

17. Canada's LOAC Manual states that:

72. Dams, dykes and nuclear electrical generating stations shall not be attacked, even when they are legitimate targets, if such an attack might cause the release of dangerous forces and consequent severe losses among the civilian population.
73. Other legitimate targets located at or in the vicinity of dams, dykes and nuclear electrical generating stations shall not be attacked if such an attack may cause the release of dangerous forces from those works or installations and consequent severe losses among the civilian population.
74. The protection that the LOAC provides to dams, dykes, nuclear electrical generating stations, and other legitimate targets in the vicinity of those installations is not absolute. The protection ceases in the following circumstances:
 - a. for a dam or dyke, only if it is used for other than its normal function and in regular, significant and direct support of military operations and if such attack is the only feasible way to terminate such support;
 - b. for a nuclear electrical generating station, only if it provides electric power in regular, significant and direct support of military operations and only if such attack is the only feasible way to terminate such support; and
 - c. for other legitimate targets located at or in the vicinity of these works or installations, only if they are used in regular, significant and direct support of military operations and if such attack is the only feasible way to terminate such support.¹⁵

It also states that "launching an attack against works or installations containing dangerous forces in the knowledge that such attack will cause excessive

¹² Belgium, *Law of War Manual* (1983), pp. 27–28.

¹⁵ Canada, *LOAC Manual* (1999), p. 4-8, §§ 72–74.

collateral civilian damage" constitutes a grave breach of AP I.¹⁶ With respect to non-international armed conflicts, the manual restates the absolute prohibition of attacks against works and installations containing dangerous forces as found in Article 15 AP II.¹⁷

18. Colombia's Basic Military Manual considers that "abstaining from attacks against works and installations... containing dangerous forces" is a way to protect the civilian population.¹⁸

19. Croatia's Commanders' Manual states that "specifically protected objects may not become military objectives and may not be attacked", including works and installations containing dangerous forces such as dams, dykes and nuclear power plants.¹⁹

20. Ecuador's Naval Manual provides that "dams, dikes, levees, and other installations, which if breached or destroyed would release flood waters or other forces dangerous to the civilian, should not be bombarded if the potential for harm to noncombatants would be excessive in relation to the military advantage to be gained by bombardment".²⁰

21. France's LOAC Summary Note provides that "the specific immunity granted to certain persons and objects by the law of war [including works and installations containing dangerous forces] must be strictly observed... They may not be attacked."²¹ It specifies that "the immunity of specifically protected objects may only be lifted under certain conditions and under the personal responsibility of the commander. Military necessity justifies only those measures which are indispensable for the accomplishment of the mission."²² "Attacks against works and installations containing forces which are dangerous for the civilian population" are qualified as a war crime.²³

22. France's LOAC Teaching Note states that "the law of armed conflict grants specific protection to certain specially marked installations and zones", including certain works and installations containing dangerous forces.²⁴ It further states that "dams, dykes and nuclear electrical generating stations are considered to be installations containing dangerous forces and must not be attacked in any circumstances".²⁵

23. France's LOAC Manual, with reference to Articles 56 AP I and 15 AP II, includes works and installations containing dangerous forces among objects which are specifically protected by the law of armed conflict.²⁶ The manual further restates the prohibition on attacking dams, dykes and nuclear power

plants, and the exceptions thereto, as found in Article 56 AP I and stresses that "a decision to attack such works and installations belongs to the commander whose criminal responsibility is engaged in case the action undertaken is illegal".²⁷

24. Germany's Military Manual states that:

464. Works and installations containing dangerous forces, namely dams, dykes, and nuclear electrical generating stations, shall not be made the object of attack, even where these objects are military objectives, if such attack may cause the release of dangerous forces and consequent severe losses among the civilian population.

465. This protection shall cease if these works are used in regular, significant and direct support of military operations and such attack shall be the only feasible way to terminate such use. This shall also apply to other military objectives located at or in the vicinity of these works and installations.

466. Regular, significant and direct support of military operations comprises, for instance, the manufacture of weapons, ammunition and defence materiel. The mere possibility of use by armed forces is not subject to these provisions.

467. The decision to launch an attack shall be taken on the basis of all information available at the time of action.

...

469. The parties to the conflict shall remain obliged to take all precautions to protect dangerous works from the effects of attack (e.g. shutting down nuclear electrical generating stations).²⁸

The manual further provides that grave breaches of IHL are in particular "launching an attack against works or installations containing dangerous forces (dams, dykes and nuclear electrical generating stations), expecting that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects".²⁹

25. Hungary's Military Manual states that the destruction of works and installations containing dangerous forces "may release forces that could cause severe losses among the civilian population".³⁰

26. Israel's Manual on the Laws of War states that:

One of the additions in the Additional Protocols to the Geneva Conventions (which, as already stated, is not binding on the State of Israel but nevertheless widely accepted as a binding provision) is the prohibition of striking installations which hold back dangerous forces. This refers to installations that might indeed afford the enemy military or strategic benefit, but if damaged would incur such severe environmental damage to the civilian population that it was decided to prohibit their destruction. The section mentions dams, embankments (for protection against floods) and nuclear power stations for generating electricity. It is clear in each of these examples that destruction will indeed reduce the infrastructure of the enemy state (for example, damage to its power supply), however, it will lead to the unleashing of destructive forces, such as the huge flooding of a river or nuclear fallout resulting

²⁷ France, *LOAC Manual* (2001), p. 69.

²⁸ Germany, *Military Manual* (1992), §§ 464–467 and 469.

²⁹ Germany, *Military Manual* (1992), § 1209. ³⁰ Hungary, *Military Manual* (1992), p. 22.

in tens of thousands of civilian victims, and therefore it is forbidden. In addition, it is imperative to refrain from attacking military targets within such installations or in close proximity to them, if such an attack results in the unleashing of such forces.³¹

27. Italy's LOAC Elementary Rules Manual provides that "specifically protected objects may not become military objectives and may not be attacked", include works and installations containing dangerous forces such as dams, dykes and nuclear power plants.³²

28. Italy's IHL Manual qualifies "attacks . . . against installations containing dangerous forces" as war crimes.³³

29. Kenya's LOAC Manual defines a work or installation containing dangerous forces as "a dam, a dyke or nuclear power plant whose attack and consequent destruction may cause the release of dangerous forces and thereby severe losses among the civilian population".³⁴ The manual states that "certain property and buildings must also not be attacked except where an order to the contrary has been given. This comprises . . . certain installations which contain particularly dangerous forces (dams, dykes and nuclear power plants)."³⁵

30. South Korea's Operational Law Manual states that attacks against dams, dykes and nuclear power plants are prohibited.³⁶

31. Madagascar's Military Manual states that "specifically protected objects may not become military objectives and may not be attacked", including works and installations containing dangerous forces such as dams, dykes and nuclear power plants.³⁷

32. The Military Manual of the Netherlands restates the content of Article 56 AP I and specifies that:

The normal function of a dyke is to hold back water or to be prepared for that function. When a dyke is used only to this effect it cannot lose its function, even if it carries a road and has a traffic function and even if that road is occasionally used for military traffic. Protection only ceases if the last two conditions are also fulfilled: significant support for military operations and no other means to terminate such support [than attack].³⁸

The manual further states that "attacking . . . dams, dykes and nuclear power plants" in violation of IHL constitutes a grave breach.³⁹ With respect to

non-international armed conflicts in particular, the manual restates the content of Article 15 AP II.⁴⁰

33. The Military Handbook of the Netherlands states that “in principle, dams, dykes and nuclear power plants (works and installations containing dangerous forces) must not be made the object of attack”.⁴¹

34. New Zealand’s Military Manual provides that:

1. Even though they may be military objectives, works or installations containing dangerous forces, namely dams, dykes and nuclear electrical generating stations, are not to be attacked if the result of such an attack would be the release of dangerous forces and consequent severe losses among the civilian population. Any other military objective at or in the vicinity of such an installation is also immune from attack if the attack might cause the release of dangerous forces from the works or installations in question and consequent severe losses among the civilian population.
2. The protection afforded to such installations ceases in the case of dykes, dams and all such installations and nearby military objectives “only if they are used in regular, significant and direct support of military operations and if such attack is the only feasible way to terminate such support” and, in the case of dykes and dams, only if they are also being used for other than their normal function.
...
- 5 Although parties not accepting AP I are free to disregard this particular protective requirement, AP I, confirming customary law, authorizes Parties to agree between themselves on the provision of any additional protection that they might wish to afford such works and installations.⁴²

The manual qualifies “launching an attack against works or installations containing dangerous forces in the knowledge that such attack will cause injury to civilians or damage to civilian objects” as a grave breach of AP I.⁴³ With respect to non-international armed conflicts, the manual states that:

Reflecting the new approach to technological advances and the dangers that may be inherent in them, it is forbidden to attack certain works or installations containing dangerous forces, namely dams, dykes and nuclear electrical generating stations, even if they may be regarded as military objectives, if such an attack might cause the release of dangerous forces and consequent severe losses among the civilian population.⁴⁴

35. Russia’s Military Manual states that is prohibited “to launch an attack against works or installations containing dangerous forces in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects”.⁴⁵

⁴⁰ Netherlands, *Military Manual* (1993), p. XI-7, § 6.

⁴¹ Netherlands, *Military Handbook* (1995), p. 7-44.

⁴⁴ New Zealand, *Military Manual* (1992), § 1821. ⁴⁵ Russia, *Military Manual* (1990), § 8(h).

36. South Africa's LOAC Manual provides that "the LOAC grants particular protection to the following categories of persons and targets which are termed 'protected targets' . . . Protected places include the following: . . . installations containing dangerous forces (e.g. dams and nuclear electrical power stations)."⁴⁶

37. Spain's LOAC Manual states that:

Dams, dykes and nuclear electrical generating stations must not be the object of attack, even when they are military objectives, if such attack may cause severe losses to the civilian population. Nevertheless, this protection ceases if they are being used in regular, significant and direct support to military operations.⁴⁷

The manual further states that "launching an attack against works or installations containing dangerous forces in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects" constitutes a war crime.⁴⁸

38. Switzerland's Military Manual states that "works and installations containing dangerous forces, such as dams, dykes and nuclear power stations, must not be attacked if such attack may release dangerous forces and cause severe losses among the civilian population"⁴⁹

39. Switzerland's Basic Military Manual states that "installations whose destruction could cause severe losses among the civilian population, because such destruction could release dangerous forces, such as dykes, dams and nuclear power stations, must not be attacked".⁵⁰ It further provides that "an attack against works or installations containing dangerous forces in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects" constitutes a grave breach of AP I.⁵¹

40. Togo's Military Manual states that it is prohibited:

to attack dykes, nuclear power plants and dams, if such attack would release dangerous forces which may cause severe losses among the civilian population, unless these works have been used in direct support of military operations or for military purposes and an attack on these objectives is the only way to terminate such use.⁵²

41. The UK LOAC Manual states that it is prohibited "to attack dykes, nuclear power stations or dams if to do so would cause the release of dangerous forces and consequent severe losses among the civilian population, unless they are used in direct support of military operations or for military purposes".⁵³

⁴⁶ South Africa, *LOAC Manual* (1996), § 29(b)(ii), see also § 22.

⁵¹ Switzerland, *Basic Military Manual* (1987), Article 193(1)(c).

⁵² Togo, *Military Manual* (1996), Fascicule III, p. 13.

⁵³ UK, *LOAC Manual* (1981), Section 4, p. 15, § 5(i).

42. The US Air Force Pamphlet states that:

In view of the general immunity of the civilian population and civilian objects and the requirement of precautions to minimize injury or damage to them, many states have urged a rule absolutely prohibiting attacks upon works and installations containing "dangerous forces", such as water held by a dam or radioactive material from a nuclear generating station, if the attack would release such dangerous forces. The United States has not accepted that such a rule, prohibiting attacks on works and installations containing dangerous forces, exists absolutely if, under the circumstances at the time, they are lawful military objectives. Of course their destruction must not cause excessive injury to civilians or civilian objects. Under some circumstances attacks on objects such as dams, dykes and nuclear electrical generating stations may result in distinct and substantial military advantage depending upon the military uses of such objects. Injury to civilians may be nonexistent or at least not excessive in relation to the military advantage anticipated. However, there are clearly special concerns that destruction of such objects may unleash forces causing widespread havoc and injury far beyond any military advantage secured or anticipated. Target selection of such objects is accordingly a matter of national decision at appropriate high policy levels.⁵⁴

43. The US Air Force Commander's Handbook states that:

Protocol I to the 1949 Geneva Conventions restricts attack against dams, dikes, and nuclear power stations, if "severe" civilian losses might result from flooding or radioactivity. While the United States is not yet a party to this protocol, such attacks may be politically sensitive. Consult the Staff Judge Advocate for the exact status and provisions of Protocol I and the exceptions to its rules (see also paragraph 3-8 [collateral damage]...).⁵⁵

44. The US Naval Handbook states that:

Dams, dikes, levees, and other installations, which if breached or destroyed would release flood waters or other forces dangerous to the civilian population, should not be bombarded if the potential for harm to noncombatants would be excessive in relation to the military advantage to be gained by bombardment. Conversely, installations containing such dangerous forces that are used by belligerents to shield or support military activities are not so protected.⁵⁶

45. The Annotated Supplement to the US Naval Handbook specifies that:

Attacks on [works and installations containing dangerous forces] are, of course, subject to the rule of proportionality. . . . The practice of nations has previously indicated great restraint in the attacks of dams and dikes, the breach of which would cause such severe civilian losses. . . . See, however, the U.K. destruction of the Ruhr dams during WW II. . . . For an example of U.S. application of this principle in the Vietnam conflict, see President Nixon's news conference of 27 July 1972.⁵⁷

46. The YPA Military Manual of the SFRY (FRY) restates the content of Article 56 AP I.⁵⁸

National Legislation

47. Argentina's Draft Code of Military Justice punishes any soldier who:

attacks . . . or carries out acts of hostility against works and installations containing dangerous forces when such attacks may cause the release of dangerous forces and consequent severe losses among the civilian population, unless such works and installations are being used in significant and direct support of military operations and if such attacks are the only feasible way to terminate such support.⁵⁹

48. Under Armenia's Penal Code, launching, during an armed conflict, an "attack against works or installations containing dangerous forces in the knowledge that such attack will cause loss of life to civilians or damage to civilian objects excessive in relation to the concrete and direct military advantage anticipated" constitutes a crime against the peace and security of mankind.⁶⁰

49. Australia's ICC (Consequential Amendments) Act incorporates in the list of war crimes in the Criminal Code grave breaches of AP I, including "attacks against works and installations containing dangerous forces resulting in excessive loss of life or injury to civilians".⁶¹

50. Australia's Geneva Conventions Act as amended provides that "a person who, in Australia or elsewhere, commits a grave breach . . . of [AP I] is guilty of an indictable offence".⁶²

51. Azerbaijan's Criminal Code provides that "directing attacks against installations which may cause severe damage to civilian objects or severe losses among the civilian population" constitutes a war crime in international and non-international armed conflicts.⁶³

52. The Criminal Code of Belarus provides that it is a war crime to "launch an attack against works and installations containing dangerous forces, in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilians".⁶⁴

53. Belgium's Law concerning the Repression of Grave Breaches of the Geneva Conventions and their Additional Protocols as amended provides that it is a crime under international law to launch:

an attack against works or installations containing dangerous forces, in the knowledge that such attack will cause loss of human life, injury to civilians or damage to civilian objects, which would be excessive in relation to the concrete and direct

military advantage anticipated, without prejudice to the criminal nature of an attack whose harmful effects, even where proportionate to the military advantage anticipated, would be inconsistent with the principles of international law derived from established custom, from the principles of humanity and from the dictates of public conscience.⁶⁵

54. Under the Criminal Code of the Federation of Bosnia and Herzegovina, it is a war crime to order that “an attack be launched against . . . objects and facilities with dangerous power, such as dams, embankments and nuclear power stations” or to carry out such an attack.⁶⁶ The Criminal Code of the Republika Srpska contains the same provision.⁶⁷

55. Canada’s Geneva Conventions Act as amended provides that “every person who, whether within or outside Canada, commits a grave breach [of AP I] . . . is guilty of an indictable offence”.⁶⁸

56. Colombia’s Penal Code, under the heading “Attacks against works and installations containing dangerous forces”, provides for the punishment of anyone “who, at the occasion and during armed conflict, without any justification based on imperative military necessity, attacks dams, dykes, electrical or nuclear power stations or other installations containing dangerous forces, which are clearly marked with the conventional signs”. The Code provides for even harsher punishment in case such attack should lead to important losses or damage.⁶⁹

57. The Geneva Conventions and Additional Protocols Act of the Cook Islands punishes “any person who in the Cook Islands or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I]”.⁷⁰

58. Under Croatia’s Criminal Code, “the launching of an attack . . . against works and installations containing dangerous forces, such as dams, dykes and nuclear electrical generating stations” is a war crime.⁷¹

59. Cyprus’s AP I Act punishes “any person who, whatever his nationality, commits in the Republic or outside the Republic any grave breach of the provisions of the Protocol, or takes part or assists or incites another person in the commission of such a breach”.⁷²

60. The Czech Republic’s Criminal Code as amended provides for the punishment of “a commander who, contrary to the provisions of international law on means and methods of warfare, intentionally: . . . (c) destroys or damages a

water dam, a nuclear power plant or a similar facility containing dangerous forces".⁷³

61. The Draft Amendments to the Penal Code of El Salvador provide for a prison sentence for "anyone who, in the context of an international or a non-international armed conflict, attacks works or installations containing dangerous forces, knowing that such attack will cause death or injury among the civilian population or damage to civilian objects". Works and installations containing dangerous forces are defined as "works and installations which, upon the release of their forces, cause severe losses among the civilian population, such as dams, dikes and nuclear electrical generating stations, among others".⁷⁴

62. Under Estonia's Penal Code, "attacking structures or installations containing dangerous forces" is a war crime.⁷⁵

63. Georgia's Criminal Code provides that "wilful breaches of norms of humanitarian law committed in an international or internal armed conflict, *i.e.* . . . (c) launching an attack against works and installations containing dangerous forces, in the knowledge that it will cause loss among civilians and damage of civilian objects" are punishable crimes against IHL.⁷⁶

64. Germany's Law Introducing the International Crimes Code provides for the punishment of anyone who, "in connection with an international armed conflict or with an armed conflict not of an international character, . . . directs an attack by military means against . . . works and installations containing dangerous forces".⁷⁷

65. Under Hungary's Criminal Code as amended, "a military commander who, in violation of the rules of international law concerning warfare, carries out military operations which result in heavy damage to . . . facilities containing dangerous forces" commits a war crime.⁷⁸

66. Ireland's Geneva Conventions Act as amended provides that grave breaches of AP I are punishable offences.⁷⁹ It adds that any "minor breach" of AP I, including violations of Article 56 AP I, as well as any "contravention" of AP II, including violations of Article 15 AP II, are also punishable offences.⁸⁰

67. Under Jordan's Draft Military Criminal Code, "attacks against works and installations containing dangerous forces in the knowledge that such attacks will cause widespread loss of life or injury among the civilian population and damage to civilian property" are considered war crimes.⁸¹

⁷³ Czech Republic, *Criminal Code as amended* (1961), Article 262(2)(c).

68. Under the Draft Amendments to the Code of Military Justice of Lebanon, “attacks against works or installations containing dangerous forces, committed with the knowledge that such attacks will cause excessive loss of lives or injuries to civilians or damage to civilian objects” are considered war crimes, provided that they are committed intentionally and cause death or serious injury to body or health.⁸²

69. Under Lithuania’s Criminal Code as amended, “a military attack against an object posing a great threat to the environment and people – a nuclear plant, a dam, a storage facility of hazardous substances or other similar object – knowing that it might have extremely grave consequences” constitutes a war crime.⁸³

70. Under the International Crimes Act of the Netherlands, it is a crime, during an international armed conflict, to commit

the following acts, when they are committed intentionally and in violation of the relevant provisions of Additional Protocol (I) and cause death or serious injury to body or health: . . . launching an attack against works or installations containing dangerous forces, in the knowledge that such an attack will cause excessive loss of life, injury to civilians or damage to civilian objects.⁸⁴

71. New Zealand’s Geneva Conventions Act as amended provides that “any person who in New Zealand or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I] is guilty of an indictable offence”.⁸⁵

72. Nicaragua’s Draft Penal Code punishes “anyone who, in the context of an international or a non-international armed conflict, attacks works or installations containing dangerous forces, knowing that such attack will cause death or injury among the civilian population or damage to civilian objects”. Works and installations containing dangerous forces are defined as “works and installations which, upon the release of their forces, cause severe losses among the civilian population, such as dams, dykes and nuclear electrical generating stations, among others”.⁸⁶

73. Niger’s Penal Code as amended contains a list of war crimes committed against persons and objects protected under the 1949 Geneva Conventions or their Additional Protocols of 1977, including “attacks against works and installations containing dangerous forces knowing that this attack will cause loss of human lives, injuries to civilians or damages to civilian objects which would be excessive with regard to the concrete or direct military advantage expected”.⁸⁷

74. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the

protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁸⁸

75. Slovakia's Criminal Code as amended provides for the punishment of "a commander who, contrary to the provisions of international law on means and methods of warfare, intentionally: . . . (c) destroys or damages a dam, a nuclear power plant or a similar facility containing dangerous forces".⁸⁹

76. Under Slovenia's Penal Code, "an attack . . . on buildings and facilities, an attack on which would be particularly dangerous, such as dams, levees and nuclear power plants" is a war crime.⁹⁰

77. Spain's Penal Code provides for the punishment of:

anyone who, in the event of armed conflict, should . . . attack . . . those installations that contain dangerous forces when such actions may produce the liberation of these forces and cause, as a result, considerable losses among the civilian population, except in the case that such installations are regularly used in direct support of military operations and that such attacks are the only feasible means of ending such support.⁹¹

78. Sweden's Penal Code as amended provides that:

A person guilty of a serious violation of a treaty or agreement with a foreign power or an infraction of a generally recognised principle or tenet relating to international humanitarian law concerning armed conflicts shall be sentenced for crime against international law to imprisonment for at most four years. Serious violations shall be understood to include:

...

(5) initiating an attack against establishments or installations which enjoy special protection under international law.⁹²

79. Tajikistan's Criminal Code, in the section on "Serious violations of international humanitarian law", provides for the punishment of "wilful breaches of norms of international humanitarian law committed in an international or non-international armed conflict, i.e. . . . launching an attack against works and installations containing dangerous forces".⁹³

80. The UK Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside the United Kingdom, commits, or aids, abets or procures the commission by any other person of, a grave breach of . . . [AP I]".⁹⁴

81. According to the Penal Code as amended of the SFRY (FRY), "the launching of an attack on . . . facilities and installations containing dangerous forces

⁹³ Tajikistan, *Criminal Code* (1998), Article 403(1).

⁹⁴ UK, *Geneva Conventions Act as amended* (1957), Section 1(1).

including dams, dykes and nuclear electrical generating stations" is a war crime.⁹⁵

82. Zimbabwe's Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside Zimbabwe, commits any such grave breach of . . . [AP I]".⁹⁶

National Case-law

83. No practice was found.

Other National Practice

84. According to the Report on the Practice of Angola, during the civil war in Angola both governmental forces and UNITA have violated Article 15 AP II by treating dams as military targets.⁹⁷

85. According to the Report on the Practice of Botswana, Botswana will comply with Article 56 AP I in the event of an armed conflict.⁹⁸ The report further recalls that Botswana has ratified AP II and states, on the basis of an interview with a retired army general, that the armed forces of Botswana would comply with the obligations under Article 15 AP II if the situation arose.⁹⁹

86. The Report on the Practice of Brazil states that Brazil has ratified AP I and AP II and, therefore, "the protection afforded by the Protocols to certain works and installations is binding for Brazil".¹⁰⁰

87. According to the Report on the Practice of China, any attack intended to destroy the banks or dams of a river with the aim of using the dangerous forces contained therein to gain a military advantage should be condemned. The report recounts how, in 1938, the Nationalist government decided to bomb a dam on the Yellow River to use the water to halt Japanese offensives. Although the Japanese troops were forced to retreat, the floods caused many casualties and severe damage among civilians. The Communist government subsequently condemned this method of warfare.¹⁰¹

88. In reaction to an article in the press, the Office of the Human Rights Adviser of the Presidency of the Colombian Republic stated that:

In the example of the dam cited by the author of the article in *La Prensa*, it is very clear that government troops may attack it in order to dislodge the guerrillas. However, the crux of the matter is how this should be done to ensure that the attack, which is otherwise lawful, does not cause superfluous injury or unnecessary suffering. Obviously, it would not occur to any sensible military officer to bomb

¹⁰¹ Report on the Practice of China, 1997, Chapter 1.9.

the position with high-power explosives which would destroy the dam wall and cause a deluge that would sweep away the inhabitants of the basin of the tributary feeding the dam.¹⁰²

89. According to the Report on the Practice of Egypt, Egypt believes that works and installations containing dangerous forces, such as dams, dykes and power stations, are protected as long as they are used for peaceful purposes.¹⁰³

90. According to the Report on the Practice of El Salvador, El Salvador deems itself bound by AP II, and specifically by the prohibition on attacks targeting dams, dykes and nuclear electrical generating stations, even when these structures are military objectives. In the case of non-international armed conflicts, the report, on the basis of Article 15 AP II, mentions the two main requirements for the prohibition of attacks on works or installations containing dangerous forces, namely the release of dangerous forces and the consequent severe losses among the civilian population.¹⁰⁴

91. In 1977, during a debate in the Sixth Committee of the UN General Assembly, Finland noted that Article 56 AP I contained important and timely principles that should be respected under all circumstances. However, it found the text tangled with ambiguities owing to concessions made to military requirements.¹⁰⁵

92. In 1981, in reply to a question in parliament on the legal status of nuclear power plants, the German government stated that these plants were only used for peaceful purposes in Germany and therefore enjoyed the status of civilian objects and were protected as such. The government stated that this protection was underlined in Article 56 AP I.¹⁰⁶

93. The Report on the Practice of Germany states that:

Official correspondence among the responsible ministries reveals that nuclear power plants are seen to be protected under customary international law, insofar as:

- nuclear power plants are civilian objects
- no party to an armed conflict has an unlimited right in its choice of means of warfare
- every attack has to be seen in the light of the proportionality principle and this principle also has to be applied in cases where the nuclear power plant is used for military purposes.¹⁰⁷

¹⁰⁷ Report on the Practice of Germany, 1997, Chapter 1.9 (source not quoted).

94. According to the Report on the Practice of Indonesia, Indonesia considers that installations containing dangerous forces cannot be attacked as long as they are not used for military purposes.¹⁰⁸

95. The Report on the Practice of Iran refers to a military communiqué according to which the Iranian Air Force had bombarded the power station of Ducan dam in reprisal for Iraqi attacks on Iranian economic installations.¹⁰⁹

The report notes that, in response to Iraqi and foreign press reports, Iran denied that it had attacked a nuclear plant in Iraq during the Iran–Iraq War. Instead, Iran objected to Iraqi attacks on the Bushehr nuclear plant. According to the report, Iran considers the protection of nuclear plants to be part of customary international law and attacks on buildings containing nuclear energy to be war crimes.¹¹⁰

96. In 1996, in a letter to the UN Secretary-General, Iraq reported that “a number of United States warplanes dropped 10 heat flares in the Saddam Dam area of Ninawa Governorate in northern Iraq” and requested the Secretary-General “to intervene with the Government of the United States with a view to halting these acts of aggression against Iraqi civilian installations committed in violation of the Charter of the United Nations and international law”.¹¹¹

97. According to the Report on the Practice of Iraq, “the duty to refrain from striking installations containing dangerous forces is considered an important principle, as great dangers may result as a consequence of striking them”.¹¹²

The report refers to a letter from the President of Iraq to the World Association for Peace and Life against Nuclear War in 1983 which stated that “Iraq believes that an attack directed against peaceful nuclear installations by conventional weapons is tantamount to an attack by nuclear weapons, as the consequences of such an attack lead to the danger of exposure to radiation”.¹¹³

98. According to the Report on the Practice of Israel, decisions concerning attacks on installations containing dangerous forces are mainly based on whether the installations serve a direct or indirect military advantage and on the principle of proportionality. The report points out that Israel has not concluded any bilateral or multilateral agreements with neighbouring States concerning works and installations containing dangerous forces, although one possible exception could be paragraph 3 of the “Grapes of Wrath Understanding” of 26 June 1996, which prohibits attacks against “civilian populated areas, industrial and electrical installations”. The report further notes that the potential result of an attack on such works or installations on a civilian population or object

will be factored in from the pre-attack planning phase. The attack will not be launched if the damage, loss or injury to civilians is expected to be excessive in relation to the possible military advantage.¹¹⁴

99. The Report on the Practice of Japan notes that “there are no laws and regulations, judicial precedent nor explanation at the Diet” with respect to the protection of works and installations containing dangerous forces.¹¹⁵

100. The Report on the Practice of Jordan finds no evidence of attacks by Jordan on works and installations containing dangerous forces and concludes that a prohibition on doing so exists.¹¹⁶

101. The Report on the Practice of Pakistan notes that Pakistan condemned the Israeli attack on a nuclear reactor near Baghdad. The report further points out that, in response to rumours that India was planning an attack on Pakistan’s nuclear facilities, the Pakistani government took “a very stern position” on this subject. It also notes that, during the wars of 1965 and 1971, the Pakistani armed forces “refrained from striking against installations containing dangerous forces”. The report concludes, therefore, that Pakistan’s *opinio juris* favours “the protection of installations containing dangerous forces during conflict”.¹¹⁷

102. In 1986, in reply to a question in the House of Lords, the UK Minister of State for Defence Procurement declared that “existing laws of war already impose restrictions on attacks on [nuclear] installations which would pose a particular threat to civilian populations and require a balance to be struck between the military advantage and the danger of collateral damage to the civilian population”.¹¹⁸

103. In 1991, in reply to a question in the House of Lords concerning “the position in international law relating to the use of ‘conventional’ weapons against (a) nuclear facilities, (b) chemical weapons plants and dumps, and (c) petrochemical enterprises situated in towns or cities, when such use may release radioactivity, toxic chemicals, or firestorms, on a scale comparable to the use of nuclear, chemical, and other weapons deemed to be weapons of mass destruction,” the UK Minister of State, FCO, stated that:

International law requires that, in planning an attack on any military objective, account is taken of certain principles. These include the principles that civilian losses, whether of life or property, should be avoided or minimised so far as practicable, and that an attack should not be launched if it can be expected to cause civilian losses which would be disproportionate to the military advantage expected from the attack as a whole.¹¹⁹

¹¹⁴ Report on the Practice of Israel, 1997, Chapter 1.9.

¹¹⁵ Report on the Practice of Japan, 1998, Chapter 1.9.

¹¹⁶ Report on the Practice of Jordan, 1997, Chapter 1.9.

¹¹⁷ Report on the Practice of Pakistan, 1998, Chapter 1.9.

¹¹⁹ UK, House of Lords, Statement of the Minister of State, FCO, *Hansard*, 4 February 1991, Vol. 525, Written Answers, col. 37.

104. In 1993, in reply to a question in the House of Lords as to whether the bombing of nuclear facilities in Iraq was concordant with international law, the UK Minister of State, FCO, wrote that “the then Prime Minister condemned the Israeli bombing of Iraqi nuclear facilities as a grave breach of international law”.¹²⁰

105. In 1991, the UK Secretary of State for Defence, responding to questions in the Defence Committee concerning the UK’s participation in bombing nuclear reactors during the Gulf War, declared that the attack was undertaken “with the very greatest care and after the most detailed planning to minimise the risk of any contamination or the risk of any radiation spreading outside the site”. He went on to say that he was “not aware of any evidence that there was a risk of any contamination outside the site which would tend to suggest that those were very precise and very carefully planned attacks”.¹²¹

106. It is reported that during the Korean War, the US air force regularly targeted dams in order to flood transport routes and other communications lines.¹²²

107. It is reported that during the Vietnam War in 1972, the US planned to attack a hydroelectric plant at Lang Chi, which was estimated to supply up to 75 per cent of Hanoi’s industrial and defence needs. If the dam at the site were breached, as many as 23,000 civilians could have died in the resultant flooding. The US President’s military advisers estimated that if laser-guided bombs were used, there was a 90 per cent chance of the mission being accomplished without breaching the dam. On that basis, the US President authorised the attack, which destroyed the electricity generating plant without breaching the dam.¹²³

108. In 1987, the Deputy Legal Adviser of the US Department of State stated that “we do not support the provisions of Article 56 of AP I, concerning dams, dykes, and nuclear power stations . . . nor do we consider them to be customary law”.¹²⁴ With respect to the apparent inconsistency between the US rejection of the provisions in Article 56 of AP I and the simultaneous acceptance of Article 15 of AP II, he stated that:

The United States military based its objections on a pragmatic, real-world estimation of the difference between the two situations. The military perceives that in international conflicts, many situations may arise where it is important to attack

¹²⁴ US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross–Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 427.

and destroy parts of an electric power grid, such as a nuclear or hydroelectric generating station. In internal conflicts, on the other hand, such a significant real-world need will not exist. Preserving the military option in international conflicts where such facilities are more likely to become an object of military attack, therefore, is very important.¹²⁵

Lastly, the Deputy Legal Adviser stressed that:

All other rules of war designed for the protection of civilian populations, such as the rule of proportionality and the rule of reasonable precautions and advanced warning, govern these attacks [against works and installations containing dangerous forces]. The United States maintains the position that it cannot accept the almost total prohibition on such attacks contained in article 56. In any case, in situations where the United States military targets a part of the power grid connected to a hydroelectric or nuclear facility, the United States would have to consider the possible effects on the civilian population and strive to obtain its military objective in ways that would not inflict drastic effects on that population.¹²⁶

109. In 1987, the Legal Adviser of the US Department of State stated that:

Article 56 of Protocol I is designed to protect dams, dikes, and nuclear power plants against attacks that could result in "severe" civilian losses. As its negotiating history indicates, this article would protect objects that would be considered legitimate military objectives under customary international law. Attacks on such military objectives would be prohibited if "severe" civilian casualties might result from flooding or release of radiation. The negotiating history throws little light on what level of civilian losses would be "severe". It is clear, however, that under this article, civilian losses are not to be balanced against the military value of the target. If severe losses would result, then the attack is forbidden, no matter how important the target. It also appears that article 56 forbids any attack that raises the possibility of severe civilian losses, even though considerable care is taken to avoid them.

Paragraph 2 of article 56 provides for the termination of protection, but only in limited circumstances. If it is once conceded that a particular dam, dike, or nuclear power station is entitled to protection under article 56, that protection can only end if it is used "in regular, significant, and direct support of military operations". In the case of nuclear power plants, this support must be in the form of "electric power". The negotiating history refers to electric power for "production of arms, ammunition, and military equipment" as removing a power plant's protection, but not "production of civilian goods which may also be used by the armed forces". The Diplomatic Conference thus neglected the nature of modern integrated power grids, where it is impossible to say that electricity from a particular plant goes to

¹²⁵ US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 434.

¹²⁶ US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 434.

a particular customer. It is also unreasonable for article 56 to terminate the protection of nuclear power plants only on the basis of the use of their electric power. Under this provision, a nuclear power plant that is being used to produce plutonium for nuclear weapons purposes would not lose its protection.¹²⁷

110. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that:

While the U.S. shares the concern expressed in Article 56 of Protocol I regarding carrying out an attack against a target that may result in release of 'dangerous forces', targeting decisions regarding the attack of such facilities are policy decisions that must be made based upon all relevant factors. . . . The U.S. does not recognize a protected status for enemy air and ground defenses placed in proximity to structures containing such 'dangerous forces'.¹²⁸

111. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that nuclear storage facilities were considered to be a legitimate military target.¹²⁹

112. During the Gulf War, the US air force struck research reactors that were under IAEA safeguards. US officials declared that the US was not bound by any obligation prohibiting attacks on nuclear research facilities.¹³⁰ A press release referred to official statements recalling that the US had signed but not ratified AP I and, as a result, had made no commitments not to attack nuclear facilities.¹³¹

113. According to the Report on US Practice, the US does not apply special restrictions on attacks against works or installations containing dangerous forces. The report states that "it is the *opinio juris* of the United States that attacks are governed by the same legal criteria as attacks against any other military targets. In non-international armed conflicts, the United States regards Article 15 of Additional Protocol II as establishing an appropriate standard."¹³²

114. The Report on the Practice of the SFRY (FRY) states that:

It does not appear that the question of violations of norms relevant to protection of works and installations containing dangerous forces had been raised during armed conflicts in Slovenia and Croatia involving YPA. There was no information on such incidents, nor was the issue a matter of dispute between the parties concerned.

¹²⁷ US, Remarks of Judge Abraham D. Sofaer, Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, pp. 468-469.

¹²⁸ US, Letter from the Department of the Army to the legal adviser of the US Army forces deployed in the Gulf region, 11 January 1991, § 8(Q), Report on US Practice, 1997, Chapter 1.9.

¹²⁹ US, Letter dated 8 February 1991 to the President of the UN Security Council, UN Doc. S/22216, 13 February 1991, p. 1.

¹³⁰ Report on US Practice, 1997, Chapter 1.9.

¹³¹ Report on US Practice, 1997, Chapter 1.9.

¹³² Report on US Practice, 1997, Chapter 1.9.

The report concludes that the existence of an *opinio juris* in favour of protection from attacks of works or installations containing dangerous forces is "obvious".¹³³

115. The Report on the Practice of Zimbabwe considers the prohibition on attacks against works and installations containing dangerous forces to be part of customary international law.¹³⁴

III. Practice of International Organisations and Conferences

United Nations

116. In a resolution adopted in 1983 on armed Israeli aggression against Iraqi nuclear installations, the UN General Assembly noted that "serious radiological effects would result from an armed attack with conventional weapons on a nuclear installation, which could also lead to the initiation of radiological warfare". The General Assembly considered that "any threat to attack and destroy nuclear facilities in Iraq and in other countries constitutes a violation of the Charter of the United Nations" and reiterated its demand that "Israel withdraw forthwith its threat to attack and destroy nuclear facilities in Iraq and other countries". The General Assembly also reaffirmed "its call for the continuation of the consideration, at the international level, of legal measures to prohibit armed attacks against nuclear facilities, and threats thereof, as a contribution to promoting and ensuring the safe development of nuclear energy for peaceful purposes".¹³⁵

117. In a resolution on Israeli nuclear armament adopted in 1983, the UN General Assembly reiterated "its condemnation of the Israeli threat, in violation of the Charter of the United Nations, to repeat its armed attack on peaceful nuclear facilities in Iraq and in other countries".¹³⁶

118. In several resolutions between 1987 and 1990, the IAEA stated that it considered an attack against nuclear installations used for pacific ends to be contrary to international law.¹³⁷

Other International Organisations

119. No practice was found.

International Conferences

120. In his report to Committee III of the CDDH, the rapporteur of the working group which elaborated Article 49 of draft AP I (now Article 56) stated that:

¹³³ Report on the Practice of the SFRY (FRY), 1997, Chapter 1.9.

¹³⁴ Report on the Practice of Zimbabwe, 1998, Chapter 1.8.

¹³⁵ UN General Assembly, Res. 38/9, 10 November 1983, preamble and §§ 3, 4 and 6.

¹³⁶ UN General Assembly, Res. 38/69, 15 December 1983, § 4.

¹³⁷ IAEA, Res. GC(XXXI)/RES/475, 25 September 1987, preamble; Res. GC(XXIX)/RES/444, 27 September 1985, § 2; Res. GC(XXXIV)/RES/533, 21 September 1990, § 3.

The rapporteur wishes to emphasize that article 49 provides a special protection to these objects and objectives which, although important, is only one of a number of layers of protection. First, if a dam, dyke, or nuclear power station does not qualify as a legitimate military objective under article 47, it is a civilian object and cannot be attacked. Second, if it does qualify as a military objective or if it has military objectives in its vicinity, it receives special protection under this article. Third, if, pursuant to the terms of this article, it may be attacked or a military objective in its vicinity may be attacked, such attack is still subject to all the other relevant rules of this Protocol and general international law; in particular, the dam, dyke, or nuclear power plant or other military objective could not be attacked if such attack would be likely to cause civilian losses excessive in relation to the anticipated military advantage, as provided in article 50. In the case of a dam or dyke, for example, where a great many people would be killed and much damage done by its destruction, immunity would exist unless the military reasons for destruction in a particular case were of an extraordinarily vital sort.

...

Additionally, it must always be recognized that an attack is not justified unless the military reasons for the destruction in a particular case are of such extraordinary and vital interest as to outweigh the severe losses which may be anticipated. Nevertheless, it should be noted that some representatives remain concerned about the problems that may arise from the use of dykes for roadways.

...

In the view of the Rapporteur, the second sentence of paragraph 3 is one of the most important contributions of this article. Even when attack on one of these objects is justified under all the applicable rules, this provision requires the combatants to take "all practical precautions" to avoid releasing the dangerous forces. Given the array of arms available to modern armies, this requirement should provide real protection against the catastrophic release of these forces. Finally, it should be noted that some representatives requested the inclusion in this article of special protection for oil rigs, petroleum storage facilities, and oil refineries. It was agreed that these were not objects containing dangerous forces within the meaning of this article and that, if these objects are to be given any special protection by the Protocol, it should be done by another article, perhaps by a special article for that purpose.¹³⁸

121. Article 56 AP I is limited to three specific types of works and installations containing dangerous forces, namely dams, dykes and nuclear electrical generating stations. At the CDDH, 14 Arab States submitted an amendment to replace the word "namely" in Article 49(1) of draft AP I (now Article 56(1)) by the words "such as".¹³⁹ This amendment was not accepted by the working group which elaborated Article 49 of draft AP I (now Article 56) because, as the rapporteur of the working group stated, "it was only when a decision was taken to limit the special protection of the article to dams, dykes, nuclear

¹³⁸ CDDH, Report to the Third Committee on the work of the working group submitted by the Rapporteur, *Official Records*, Vol. XV, CDDH/III/264, 13 March 1975, pp. 350–352.

¹³⁹ CDDH, Proposed amendment to Article 49 of Draft Protocol I submitted by Egypt, Iraq, Jordan, Kuwait, Lebanon, Libya, Mauritania, Morocco, Qatar, Sudan, Syria, UAE, Democratic Yemen and Yemen, *Official Records*, Vol. III, CDDH/III/76 and Add. 1, 21 March 1974, p. 224.

power stations, and other military objectives in the vicinity of these objects that it was possible to produce a generally acceptable text".¹⁴⁰

IV. Practice of International Judicial and Quasi-judicial Bodies

122. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

123. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces the rule that works and installations containing dangerous forces are specifically protected objects which may not be attacked except "a) if it provides regular, significant and direct support of military operations; b) if that support is other than its normal function; c) and if an attack against that work or installation is the only way to terminate such support".¹⁴¹ Furthermore, "attacks of works or installations containing dangerous forces in the knowledge that such attack will cause excessive civilian damage" constitutes a grave breach of the law of war.¹⁴²

124. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context of the Gulf War, the ICRC invited:

States which are not party to [the] 1977 [Additional] Protocol I to respect, in the event of armed conflict, the following articles of the Protocol, which stem from the basic principle of civilian immunity from attack: . . . Article 56: protection of works and installations containing dangerous forces.¹⁴³

125. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC reminded the parties that "installations containing dangerous forces, such as dams and dykes, shall not be made the object of attack, if such attack may cause the release of dangerous forces and consequent severe losses among the civilian population".¹⁴⁴

126. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC, emphasising the customary law nature of most grave breaches of AP I,

¹⁴⁰ CDDH, Report to the Third Committee on the work of the working group submitted by the Rapporteur, *Official Records*, Vol. XV, CDDH/III/264, 13 March 1975, p. 350.

¹⁴¹ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 107, 219 and 227.

¹⁴² Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 778(f).

¹⁴³ ICRC, Memorandum on the Applicability of International Humanitarian Law, 14 December 1990, § II, *IRRC*, No. 280, 1991, p. 25.

¹⁴⁴ ICRC, Memorandum on Respect for International Humanitarian Law in Angola, 8 June 1994, § II, *IRRC*, No. 320, 1997, p. 504.

listed, *inter alia*, the following as a war crime to be subject to the jurisdiction of the Court:

Launching an attack against works and installations containing dangerous forces in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects, which is excessive in relation to the concrete and direct military advantage anticipated, when committed wilfully, and causing death or serious injury to body or health.¹⁴⁵

127. In 1997, in a statement before the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC noted that certain war crimes committed in international armed conflict were not included in the list of war crimes in the draft ICC Statute and reiterated that most of the provisions of AP I on grave breaches reflected customary law.¹⁴⁶

VI. Other Practice

128. In 1991, a senior military officer of an armed opposition group confirmed to the ICRC that he had ordered the placing of loads of explosives on a dam.¹⁴⁷ In subsequent contacts with the ICRC, the armed opposition group threatened to destroy the dam.¹⁴⁸

Placement of military objectives near works and installations containing dangerous forces

I. Treaties and Other Instruments

Treaties

129. Article 56(5) AP I states that:

The Parties to the conflict shall endeavour to avoid locating military objectives in the vicinity of [works or installations containing dangerous forces]. Nevertheless, installations erected for the sole purpose of defending the protected works or installations from attack are permissible and shall not themselves be made the object of attack, provided that they are not used in hostilities except for defensive actions necessary to respond to attacks against the protected works or installations and that their armament is limited to weapons capable only of repelling hostile action against the protected works or installations.

Article 56 AP I was adopted by consensus.¹⁴⁹

¹⁴⁵ ICRC, Working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, 14 February 1997, § 1(b)(iii).

¹⁴⁶ ICRC, Statement before the Preparatory Committee for the Establishment of an International Criminal Court, 8 December 1997.

¹⁴⁷ ICRC archive document. ¹⁴⁸ ICRC archive document.

Other Instruments

130. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY states that hostilities shall be conducted in compliance with Article 56 AP I.

131. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina states that hostilities shall be conducted in compliance with Article 56 AP I.

*II. National Practice**Military Manuals*

132. Australia's Commanders' Guide provides that:

While parties to a conflict are required to avoid locating military objectives in the vicinity of such protected works and installations, they are nevertheless permitted to erect such emplacements as may be necessary for the defence of the protected installations. These emplacements shall be immune from attack provided they are not used in hostilities except in defence of the protected works and installations. Armament must be limited to weapons capable only of repelling hostile attacks against the protected works or installations in question.¹⁵⁰

133. Australia's Defence Force Manual provides that:

Defensive weapons systems may be erected to protect works or installations from attack. These systems may only be used for the limited purpose for which they are intended. The erection of such defence facilities is not without danger and could lead to the work or installation losing its protection.¹⁵¹

134. Cameroon's Instructors' Manual states that installations containing dangerous forces "may be protected by weapons destined to ensure their defence in case of attack".¹⁵²

135. Canada's LOAC Manual provides that "the parties to a conflict should avoid locating legitimate targets in the vicinity of dams, dykes and nuclear electrical generation stations. Weapons co-located for the sole purpose of defending such installations are permissible."¹⁵³

136. Germany's Military Manual states that "military objectives shall not be located in the vicinity of works and installations containing dangerous forces unless it is necessary for the defence of these works".¹⁵⁴

137. Kenya's LOAC Manual provides that "the defensive armament of a work or installation containing dangerous forces must be limited to weapons capable of repelling hostile action against that work or installation".¹⁵⁵

¹⁵⁰ Australia, *Commanders' Guide* (1994), § 963.

¹⁵¹ Australia, *Defence Force Manual* (1994), § 938.

¹⁵⁴ Germany, *Military Manual* (1992), § 468.

¹⁵⁵ Kenya, *LOAC Manual* (1997), Précis No. 2, p. 13.

138. Madagascar's Military Manual states that "defences erected for the sole purpose of defending works or installations containing dangerous forces against attack are permissible".¹⁵⁶

139. The Military Manual of the Netherlands restates the content of Article 56(5) AP I.¹⁵⁷

140. New Zealand's Military Manual provides that:

While parties to a conflict are required to avoid locating military objectives in the vicinity of such protected works or installations [containing dangerous forces], they are nevertheless permitted to erect such emplacements as may be necessary for the defence of the protected installations. These emplacements shall be immune from attack, provided they are not used in hostilities except in defence of the protected work or installations. Their armament must be limited to weapons capable only of repelling hostile attacks against the protected works or installations in question.¹⁵⁸

141. Spain's LOAC Manual provides that "installations and armaments that are necessary to defend [works or installations containing dangerous forces] are permissible, provided they are not used in the hostilities".¹⁵⁹

142. The YPA Military Manual of the SFRY (FRY) restates the content of Article 56(5) AP I.¹⁶⁰

National Legislation

143. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 56(5) AP I, is a punishable offence.¹⁶¹

144. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".¹⁶²

National Case-law

145. No practice was found.

Other National Practice

146. In 1983, questions were raised in the German parliament concerning the planned construction of an ammunition depot 7 kilometres from a nuclear power plant. The government responded that these plants were granted the status of civilian objects under international law and were to be protected as

such. The distance between the depot and the plant was construed as being in compliance with international law.¹⁶³

147. According to the Report on the Practice of Israel, the IDF, as a policy, does not establish military bases or positions in the vicinity of works or installations containing dangerous forces. The report considers that structures necessary for the protection of a facility constitute an exception to the prohibition on locating military bases or positions in the vicinity of works or installations containing dangerous forces.¹⁶⁴

148. The Report on the Practice of the Netherlands notes that no internal legislation has been adopted to implement the required separation between military structures and protected works and installations.¹⁶⁵

149. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that “military objectives may not be placed in proximity to structures containing ‘dangerous forces’ in order to shield those military objectives from attack”.¹⁶⁶

III. Practice of International Organisations and Conferences

150. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

151. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

152. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

Defences erected for the sole purpose of defending a work or installation containing dangerous forces from attack are permitted. The defensive armament of a work or installation containing dangerous forces must be limited to weapons only capable of repelling hostile action against that work or installation.¹⁶⁷

VI. Other Practice

153. No practice was found.

THE NATURAL ENVIRONMENT

A.	Application of the General Rules on the Conduct of Hostilities to the Natural Environment (practice relating to Rule 43)	§§ 1–70
B.	Due Regard for the Natural Environment in Military Operations (practice relating to Rule 44)	§§ 71–144
	General	§§ 71–125
	The precautionary principle	§§ 126–144
C.	Causing Serious Damage to the Natural Environment (practice relating to Rule 45)	§§ 145–324
	Widespread, long-term and severe damage	§§ 145–289
	Environmental modification techniques	§§ 290–324

A. Application of the General Rules on the Conduct of Hostilities to the Natural Environment

Note: For practice concerning the general rules on the conduct of hostilities, see Part I. For practice concerning the destruction of property, see Chapter 16. For practice concerning attacks of forests or other kinds of plant cover by incendiary weapons, see Chapter 30, section A.

I. Treaties and Other Instruments

Treaties

1. Pursuant to Article 8(2)(b)(iv) of the 1998 ICC Statute, “intentionally launching an attack in the knowledge that such attack will cause . . . widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated” constitutes a war crime in international armed conflicts.

2. Upon ratification of the 1998 ICC Statute, France declared that “the risk of damage to the natural environment as a result of methods and means of warfare, as envisaged in article 8, paragraph 2 (b) (iv), must be weighed objectively on the basis of the information available at the time of its assessment”.¹

¹ France, Interpretative declarations made upon ratification of the ICC Statute, 9 June 2000, § 7.

Other Instruments

3. Paragraph 39.6 of the 1992 Agenda 21 provides that:

Measures in accordance with international law should be considered to address, in times of armed conflict, large-scale destruction of the environment that cannot be justified under international law. The General Assembly and its Sixth Committee are the appropriate forums to deal with this subject. The specific competence and role of the International Committee of the Red Cross should be taken into account.

4. Paragraph 44 of the 1994 San Remo Manual provides that:

Methods and means of warfare should be employed with due regard for the natural environment taking into account the relevant rules of international law. Damage to or destruction of the natural environment not justified by military necessity and carried out wantonly is prohibited.

5. The 1994 Guidelines on the Protection of the Environment in Times of Armed Conflict provides that:

(4) In addition to the specific rules set out below, the general principles of international law applicable in armed conflict – such as the principle of distinction and the principle of proportionality – provide protection to the environment. In particular, only military objectives may be attacked and no methods or means of warfare which cause excessive damage shall be employed. Precautions shall be taken in military operations as required by international law.

...

(6) Parties to a non-international armed conflict are encouraged to apply the same rules that provide protection to the environment in international armed conflict and, accordingly, States are urged to incorporate such rules in their military manuals and instructions on the laws of war in a way that does not discriminate on the basis of how the conflict is characterized.

...

(8) Destruction of the environment not justified by military necessity violates international humanitarian law. Under certain circumstances, such destruction is punishable as a grave breach of international humanitarian law.

(9) The general prohibition on destroying civilian objects, unless such destruction is justified by military necessity, also protects the environment.

6. Paragraph 13(c) of the 1994 San Remo Manual defines as “collateral casualties” or “collateral damage”, *inter alia*, “damage to or the destruction of the natural environment”.

7. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(iv), “intentionally launching an attack in the knowledge that such attack will cause...widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the

concrete and direct overall military advantage anticipated" constitutes a war crime in international armed conflicts.

II. National Practice

Military Manuals

8. Australia's Defence Force Manual states that:

The natural environment is not a legitimate object of attack. Destruction of the environment, not justified by military necessity, is punishable as a violation of international law . . . The general prohibition on destroying civilian objects, unless justified by military necessity, also protects the environment.²

9. According to Belgium's Regulations on the Tactical Use of Large Units, restrictions on the use of weapons can result from "the obligation to respect the rules of the laws of war relative to the conduct of hostilities. These rules concern, *inter alia*, the choice of means and methods of warfare, the protection of the civilian population, civilian objects and the environment."³

10. Italy's IHL Manual defines "attacks against the natural environment" as war crimes.⁴

11. The US Naval Handbook provides that, "the commander has an affirmative obligation to avoid unnecessary damage to the environment".⁵

National Legislation

12. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including launching an attack in the knowledge that such attack will cause "widespread, long-term and severe damage to the natural environment . . . of such an extent as to be excessive in relation to the concrete and direct military advantage anticipated" in international armed conflicts.⁶

13. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "intentionally launching an attack in the knowledge that such attack will cause . . . widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated" is a war crime in international armed conflicts.⁷

14. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according

² Australia, *Defence Force Manual* (1994), § 545(a) and (c).

³ Belgium, *Regulations on the Tactical Use of Large Units* (1994), Article 208(c)(2).

⁶ Australia, *ICC (Consequential Amendments) Act* (2002), Schedule 1, § 268.38(2).

⁷ Burundi, *Draft Law on Genocide, Crimes against Humanity and War Crimes* (2001), Article 4(B)(d).

to customary international law" and, as such, indictable offences under the Act.⁸

15. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes set out in Article 8 of the 1998 ICC Statute.⁹

16. The Czech Republic's Criminal Code as amended, in a part entitled "Crimes against humanity", provides for the punishment of "a commander who, contrary to the provisions of international law on means and methods of warfare, intentionally: ... (d) destroys or damages ... a place internationally-recognized with regard to the protection of nature".¹⁰

17. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute which is not explicitly mentioned in the Code, such as "intentionally launching an attack in the knowledge that such attack will cause ... widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated" in international armed conflict, is a crime.¹¹

18. Germany's Law Introducing the International Crimes Code provides that:

Anyone who, in connection with an international armed conflict, carries out an attack with military means which may be expected to cause widespread, long-term and severe damage to the natural environment which could be excessive in relation to the overall concrete and direct military advantage anticipated, shall be liable to imprisonment for not less than three years.¹²

19. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Articles 35(3) and 55(1) AP I, is a punishable offence.¹³

20. Under the International Crimes Act of the Netherlands, "intentionally launching an attack in the knowledge that such an attack will cause ... widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated" is a crime, when committed in an international armed conflict.¹⁴

21. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(iv) of the 1998 ICC Statute.¹⁵

22. Nicaragua's Military Penal Code punishes a soldier who "destroys or damages, without military necessity, ... places of historical or environmental

importance . . . and natural sites, gardens and parks of historical-artistic or anthropological value and, in general, all those which are part of the historical heritage".¹⁶

23. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".¹⁷

24. Slovakia's Criminal Code as amended provides for the punishment of "a commander who, contrary to the provisions of international law on means and methods of warfare, intentionally: . . . (d) destroys or damages . . . an internationally recognized . . . natural site".¹⁸

25. Spain's Military Criminal Code punishes a soldier who:

destroys or damages, without military necessity, . . . places of historical or environmental importance . . . and natural sites, gardens and parks of historical-artistic or anthropological value and, in general, all those which are part of the historical heritage.¹⁹

26. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iv) of the 1998 ICC Statute.²⁰

27. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iv) of the 1998 ICC Statute.²¹

National Case-law

28. No practice was found.

Other National Practice

29. In 1992, during a debate in the Sixth Committee of the UN General Assembly on protection of the environment in times of armed conflict, Argentina recommended that:

Belligerents engaged in an armed conflict, whether international or non-international, should always bear in mind that the protection of the environment affects the well-being of humanity as a whole. They should therefore use those means which are least apt to cause damage to the environment, damage for which they would be responsible.²²

30. In 1991, during a debate in the UN General Assembly on the environmental impact of the Gulf War, Australia insisted that "what had been done in Kuwait

²⁰ Trinidad and Tobago, *Draft ICC Act* (1999), Section 5(1)(a).

²¹ UK, *ICC Act* (2001), Sections 50(1) and 51(1) (England and Wales) and Section 58(1) (Northern Ireland).

²² Argentina, Statement before the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/47/SR.8, 1 October 1992, § 23.

was clearly illegal under the customary rules of warfare and the traditional concepts of proportionality and military necessity".²³

31. In a briefing note in 1992, the Australian Department of Foreign Affairs and Trade stated that the Gulf War had underlined "the continuing need for the extension of principles of humanitarian law in cases of armed conflict", and referred to "the environmental devastation caused by the deliberate creation of oil slicks by Iraqi forces".²⁴

32. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Australia stated that "in recent times the issue of the protection of the environment in armed conflict has been a particular international concern" and referred to a number of international treaties, including the relevant provisions of the 1976 ENMOD Convention, API and the 1993 CWC. It stated that these instruments provided "cumulative evidence that weapons having . . . potentially disastrous effects on the environment, and on civilians and civilian targets, are no longer compatible with the dictates of public conscience" reflected in the general principles of humanity. Australia added that "consideration of lethal effects of radiation over time provides a link between the principle which provides for the protection of civilian populations and the principle which provides for protection of the environment".²⁵

33. In 1991, during a debate in the Sixth Committee of the UN General Assembly on the protection of the environment in armed conflict, Austria stated, with respect to the damage caused by Iraq to the environment, that:

There could be no doubt whatsoever that those deliberate acts of environmental destruction flagrantly violated existing international law and could not, even in the most remote sense, be justified by military necessity . . . There could be no doubt as to the illegality of the acts committed by Iraq, entailing international responsibility of that State as well as personal criminal liability of those responsible for those acts.²⁶

34. In 1992, during a debate in the UN General Assembly on the environmental impact of the Gulf War, Austria stated that it was a "shortcoming" of the present legal regime that "the principle of proportionality between the military necessity of an action and its possible detrimental effects on the environment was usually applied in favour of military necessity".²⁷

35. In 1992, during a debate in the Sixth Committee of the UN General Assembly on protection of the environment in times of armed conflict, Brazil stated

²³ Australia, Statement before the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/46/SR.20, 22 October 1991, § 7.

²⁴ Australia, Department of Foreign Affairs and Trade, DFAT-92/013031 Pt 8, 13 February 1991, p. 2, § 5.

²⁷ Austria, Statement before the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/47/SR.8, 1 October 1992, § 37.

that "a principle of customary international law which, in general terms, protected the environment in times of armed conflict had been recognised implicitly in paragraph 39.6 of Agenda 21 of UNEP".²⁸

36. In 1991, during a debate in the Sixth Committee of the UN General Assembly on the protection of the environment in armed conflict, Canada stated:

An important conclusion reached at the international conference of experts held at Ottawa [from 9–12 July 1991] was that the customary laws of war, in reflecting the dictates of public conscience, now included a requirement to avoid unnecessary damage to the environment... In effect, the practice of States, generally accepted environmental principles and public consciousness about the environment had combined with the traditional armed conflict rules on the protection of civilians and their property to produce a customary rule of armed conflict prohibiting the infliction of unnecessary damage on the environment in wartime.²⁹

37. In 1992, during a debate in the Sixth Committee of the UN General Assembly on protection of the environment in times of armed conflict, Canada reiterated the conclusions of the Ottawa conference and referred to the rule of proportionality as "the need to strike a balance between the protection of the environment and the needs of war" and further concluded that, under the principle of distinction, "the environment as such should not form the object of direct attack".³⁰

38. At the Conference on Environmental Protection and the Law of War held in London in 1992, Canada, with reference to the Martens Clause, identified a "requirement to avoid unjustifiable damage to the environment".³¹

39. In 1996, a study of Colombia's Presidential Council for Human Rights, conducted in cooperation with the Colombian Red Cross and the Jorge Tadeo Lozano University, asserted that "the principle of proportionality... [is] also directly applicable to the ecological heritage of the human race".³²

40. In 1992, in a letter to the President of the UN Security Council, Croatia stated that "unprovoked, indiscriminate and savage attacks may result in an economic and ecological catastrophe which could happen if oil facilities on both sides of the river are destroyed".³³

41. In 1991, during a debate in the Sixth Committee of the UN General Assembly on protection of the environment in armed conflict, Iran stated that:

²⁸ Brazil, Statement before the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/47/SR.9, 6 October 1992, § 12.

²⁹ Canada, Statement before the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/46/SR.18, 22 October 1991, §§ 13–14.

³⁰ Canada, Statement before the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/47/SR.8, 1 October 1992, § 20.

³¹ Canada, Statement at the Conference on Environmental Protection and the Law of War, London, 3 June 1992.

³² Colombia, Presidential Council for Human Rights in cooperation with the Colombian Red Cross and the Jorge Tadeo Lozano University, *Academic Study on National Measures of Application of International Humanitarian Law*, Bogotá, September 1996, p. 67.

³³ Croatia, Letter dated 24 August 1992 to the President of the UN Security Council, UN Doc. S/24481, 24 August 1992, p. 2.

Referring to the law of armed conflict, . . . both customary law and treaty law prohibited belligerent parties from inflicting either direct or indirect damage on the environment.

The principle of proportionality, which was enshrined in customary law, set important limits on warfare whereby damage not necessary to the achievement of a definite military advantage was prohibited. Another principle of customary law, whereby military operations not directed against military targets were prohibited, had been incorporated in the preamble of the 1868 Declaration of St. Petersburg to the effect of prohibiting the use of certain practices in wartime and in article 35.1 of [AP I]. Lastly, the [1907 HR] prohibited the destruction of non-military enemy property unless imperatively demanded by the necessities of war . . . The Fourth Geneva Convention contained two provisions intended to ensure indirect protection of the environment in the context of protecting property rights in occupied territories. Thus, for example, an occupying Power which destroyed industrial installations in an occupied territory, causing damage to the environment, would be in violation of the Fourth Geneva Convention unless such destruction was justified by military necessity. If such destruction was extensive, it constituted a grave breach of the Convention and even a war crime.³⁴

42. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Iran argued that:

As far as the law of armed conflict is concerned, both the customary rules and the provisions of treaty law prohibit belligerent parties, directly or indirectly, from inflicting unnecessary damage on the environment. Parties to the armed conflict are obliged, in accordance with well-established rules of customary law pertaining to armed conflict, to protect the environment in time of armed conflict.³⁵

43. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Japan expressed the view that, "in terms of international law concerning warfare, . . . the destruction of [the] natural environment [is] prohibited".³⁶

44. Prior to the adoption of UN General Assembly Resolution 47/37 in 1992 on the protection of the environment in times of armed conflict, Jordan and the US submitted a memorandum to the Sixth Committee of the UN General Assembly entitled "International Law Providing Protection to the Environment in Times of Armed Conflict". In it, they stated that "the customary rule that prohibits attacks which reasonably may be expected at the time to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated, are prohibited" provides protection for the environment in times of armed conflict.³⁷

³⁴ Iran, Statement before the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/46/SR.18, 22 October 1991, §§ 27–28.

³⁶ Japan, Oral pleadings before the ICJ, *Nuclear Weapons case*, 7 November 1995, Verbatim Record CR 95/27, p. 37.

³⁷ Jordan and US, International Law Providing Protection to the Environment in Times of Armed Conflict, annexed to Letter dated 28 September 1992 to the Chairman of the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/47/3, 28 September 1992, § 1(h).

45. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, the Marshall Islands referred to the environmental damage caused by the use of nuclear weapons, remarking that such damage “should not be regarded as necessary to the achievement of military objectives”.³⁸

46. In 1994, Romania’s Ministry of Defence pointed out that “the education and instruction process was intended especially for the study and implementation of the types of military decisions that would provide a balance between the desired military advantage and its potentially negative impact on the environment”.³⁹

47. In 1992, during a debate in the Sixth Committee of the UN General Assembly on protection of the environment in times of armed conflict, Russia insisted that “premeditated and indiscriminate destruction of the environment in times of armed conflict constituted not merely an evil but a crime”, adding that “such acts were clearly violations of the norms of international law and could not be justified even as reprisals”.⁴⁰

48. In 1991, during a debate in the Sixth Committee of the UN General Assembly on the environmental impact of the Gulf War, Sweden expressed the view that the destruction of the environment caused by Iraqi forces was taking place “on an unprecedented scale” and considered that it constituted “unacceptable forms of warfare in the future”.⁴¹

49. In a briefing note in 1991, the UK Foreign and Commonwealth Office declared that Iraq’s attacks on Kuwaiti oil fields were “a deliberate crime against the planet”.⁴²

50. In 1991, during a debate in the Sixth Committee of the UN General Assembly on the protection of the environment in armed conflict, the US stated that:

The deliberate release of oil into the Gulf and the burning of Kuwaiti oil wells had constituted a serious violation of the prohibition of the destruction of property unless required by military necessity contained in [GC IV and the 1907 HR]. Those acts had also been a violation of the prohibitions under customary international law against any military operation which was not directed against a legitimate military target or which could be expected to cause incidental death, injury or damage to civilians that was clearly excessive in relation to the direct military advantage of the operation. In the situation under consideration, the oil well destruction had taken

⁴² UK, Foreign and Commonwealth Office, Briefing Note: Oil Pollution in the Gulf, June 1991, reprinted in Marc Weller (ed.), *Iraq and Kuwait: The Hostilities and Their Aftermath*, Grotius Publications, Cambridge, 1993, p. 338.

place at a time when it had been clear to Iraq that the war had ended . . . Those violations of international law had definite legal consequences, as [GC IV] acknowledged in stipulating that the destruction of property not justified by military necessity was a grave breach and that persons committing such breaches incurred criminal liability . . . Iraq's actions did not demonstrate that existing international law was inadequate, but, rather, that the problem involved compliance with existing law, and no new rule or conventions were needed.⁴³

51. In 1992, during the debate in the Sixth Committee of the UN General Assembly on protection of the environment in time of armed conflict, the US said that "in time of war some collateral damage to the environment . . . is inevitable".⁴⁴

52. In 1992, in its final report to Congress on the conduct of hostilities in the Gulf War, the US Department of Defence considered that the destruction of oil well heads and the release of crude oil into the Gulf by Iraq violated Article 23(g) of the 1907 HR and Article 147 GC IV. It further stated that:

As the first Kuwaiti oil wells were ignited by Iraqi forces, there was public speculation the fires and smoke were intended to impair Coalition forces' ability to conduct both air and ground operations, primarily by obscuring visual and electro-optical sensing devices. Review of Iraqi actions makes it clear the oil well destruction had no military purpose, but was simply punitive destruction at its worst. For example, oil well fires to create obscurants could have been accomplished simply through the opening of valves; instead, Iraqi forces set explosive charges on many wells to ensure the greatest possible destruction and maximum difficulty in stopping each fire. Likewise, the Ar-Rumaylah oil field spreads across the Iraq–Kuwait border. Had the purpose of the fires been to create an obscurant, oil wells in that field on each side of the border undoubtedly would have been set ablaze; Iraqi destruction was limited to oil wells on the Kuwaiti side only. As with the release of oil into the Persian Gulf, this aspect of Iraq's wanton destruction of Kuwaiti property had little effect on Coalition offensive combat operations. In fact, the oil well fires had a greater adverse effect on Iraqi military forces.⁴⁵

53. In 1993, in a report to Congress on international policies and procedures regarding the protection of natural and cultural resources during times of war, the US Department of Defence stated that:

The United States considers the obligations to protect natural, civilian, and cultural property to customary international law . . . Natural resources are protected from intentional attack so long as they are not utilized for military purposes . . . The United States recognizes that protection of natural resources, as well as protection of the environment, is important even in times of armed conflict. Natural resources are finite, and reasonable measures must be taken to protect against their unnecessary

⁴³ US, Statement before the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/46/SR.18, 22 October 1991, §§ 37–40.

destruction . . . What is prohibited is unnecessary destruction, that is destruction of natural resources that has no or limited military value.⁴⁶

54. According to the Report on US Practice, it is the *opinio juris* of the US that "collateral environmental damage caused by otherwise lawful military operations should be assessed for its proportionality to the expected military value of such operations".⁴⁷

III. Practice of International Organisations and Conferences

United Nations

55. In a resolution adopted in 1992 on the protection of the environment in times of armed conflict, the UN General Assembly expressed "deep concern about environmental damage and depletion of natural resources, including the destruction of hundreds of oil-well heads and the release and waste of crude oil into the sea, during recent conflicts" and noted that "existing provisions of international law prohibit such acts". The General Assembly stressed that "destruction of the environment, not justified by military necessity and carried out wantonly, is clearly contrary to existing international law" and urged States "to take all measures to ensure compliance with the existing international law applicable to the protection of the environment in times of armed conflict".⁴⁸

56. In a resolution adopted in 1994 on the United Nations Decade on International Law, the UN General Assembly referred to the 1994 Guidelines on the Protection of the Environment in Times of Armed Conflict. The General Assembly invited:

all States to disseminate widely the revised guidelines for military manuals and instructions on the protection of the environment in times of armed conflict received from the International Committee of the Red Cross and to give due consideration to the possibility of incorporating them into their military manuals and other instructions addressed to their military personnel.⁴⁹

57. The programme of activities for the final term (1997–1999) of the UN Decade of International Law, adopted by the UN General Assembly in 1996, states that:

In connection with training of military personnel, States are encouraged to foster the teaching and dissemination of the principles governing the protection of the environment in times of armed conflict and should consider the possibility of

making use of the guidelines for military manuals and instructions prepared by the International Committee of the Red Cross.⁵⁰

Other International Organisations

58. In the context of NATO's campaign against the FRY, following NATO's air strikes on the industrial complex in Pancevo on 18 April 1999, which resulted in the emission of chemical substances into the air and water, a NATO spokesperson argued that the industrial site was to be considered as a "strategic target", as it was "a key installation" that provided petrol and other resources to support the Yugoslav army. The official said that the environmental damage caused by the attack was taken into consideration, explaining that "when targeting is done we take into account all possible collateral damage, be it environmental, human or to the civilian infrastructure".⁵¹

59. At a press conference held at NATO Headquarters in Brussels on 20 April 1999 during NATO's military operations against the FRY, a General, asked to comment on NATO's bombing of a chemical factory in Baric, which caused threats to the environment, declared that "every single target is chosen having great consideration for possible collateral damage". He then argued that "the fact that a chemical factory has been hit does not mean that this process has been disregarded in this instance".⁵²

International Conferences

60. In 1992, in a report submitted to the UN Secretary-General on the protection of the environment in time of armed conflict, the ICRC described the outcome of an expert meeting it organised on this subject in Geneva from 27 to 29 April 1992, stating that:

The participants stressed the need to take environmental protection into account when assessing the military advantages to be expected from an operation. They reaffirmed the importance and relevance with regard to environmental protection of the accepted principles concerning the conduct of hostilities. These include:

- (a) The prohibition of actions causing damage that is not warranted by military necessity;
- (b) The obligation, when possible, to choose the least harmful means of reaching a military objective;
- (c) The obligation to respect proportionality between the military advantage expected and the incidental damage to the environment.⁵³

⁵⁰ UN General Assembly, Res. 51/157, 16 December 1996, Annex, § 19.

⁵¹ Chris Hedges, "Serbian Town Bombed by NATO Fears Effects of Toxic Chemicals", *New York Times*, 14 July 1999.

⁵² NATO, Press Conference by Jamie Shea and Brigadier General Giuseppe Marani, NATO Headquarters, Brussels, 20 April 1999.

⁵³ ICRC, Report on the Protection of the Environment in Time of Armed Conflict submitted to the UN General Assembly, reprinted in Report of the UN Secretary-General on the protection of the environment in times of armed conflict, UN Doc. A/47/328, 31 July 1992, § 54.

61. The Final Declaration adopted by the International Conference for the Protection of War Victims in 1993 urged all States to make every effort to:

Reaffirm and ensure respect for the rules of international humanitarian law applicable during armed conflicts protecting... the natural environment, either against attacks on the environment as such or against wanton destruction causing serious environmental damage; and continue to examine the opportunity of strengthening them.⁵⁴

IV. Practice of International Judicial and Quasi-judicial Bodies

62. In its advisory opinion in the *Nuclear Weapons case* in 1996, the ICJ did not directly deal with the issue of the precise extent to which environmental treaties applied during armed conflict, but stated in general terms that:

The Court does not consider that the treaties in question could have intended to deprive a State of the exercise of its right of self-defence under international law because of its obligations to protect the environment. Nonetheless, States must take environmental considerations into account when assessing what is necessary and proportionate in the pursuit of legitimate military objectives. Respect for the environment is one of the elements that go to assessing whether an action is in conformity with the principle of necessity.⁵⁵

The ICJ noted that this approach was supported by Principle 24 of the 1992 Rio Declaration, and also cited with approval UN General Assembly Resolution 47/37, which stated that “destruction of the environment, not justified by military necessity and carried out wantonly, is clearly contrary to existing law”.⁵⁶ More generally, the Court found that international environmental law “indicates important factors that are properly to be taken into account in the context of the implementation of the principles and rules of the law applicable in armed conflict”.⁵⁷

63. In its Final Report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia remarked that Articles 35(3) and 55 AP I had “a very high threshold of application” which made it very difficult to assess whether environmental damage had exceeded the threshold of AP I. For this reason, in the Committee’s view, the environmental impact of the NATO bombing campaign was “best considered from the underlying principles of the law of armed conflicts such as necessity and proportionality”. As to the application of the principle of proportionality, the Committee stressed that:

⁵⁴ International Conference for the Protection of War Victims, Geneva, 30 August–1 September 1993, Final Declaration, § II(10), *ILM*, Vol. 33, 1994, p. 301.

⁵⁵ ICJ, *Nuclear Weapons case*, Advisory Opinion, 8 July 1996, § 30.

⁵⁶ ICJ, *Nuclear Weapons case*, Advisory Opinion, 8 July 1996, § 32.

⁵⁷ ICJ, *Nuclear Weapons case*, Advisory Opinion, 8 July 1996, § 33.

- 18 ... Even when targeting admittedly legitimate military objectives, there is a need to avoid excessive long-term damage to... natural environment with a consequential adverse effect on the civilian population. Indeed, military objectives should not be targeted if the attack is likely to cause collateral environmental damage which would be excessive in relation to the direct military advantage which the attack is expected to produce.
- ...
- 22 ... In order to satisfy the requirement of proportionality, attacks against military targets which are known or can reasonably be assumed to cause grave environmental harm may need to confer a very substantial military advantage in order to be considered legitimate. At a minimum, actions resulting in massive environmental destruction, especially where they do not serve a clear and important military purpose, would be questionable. The targeting by NATO of Serbian petro-chemical industries may well have served a clear and important military purpose.
- 23 The above considerations also suggest that the requisite *mens rea* on the part of a commander would be actual or constructive knowledge as to the grave environmental effects of a military attack; a standard which would be difficult to establish for the purposes of prosecution and which may provide an insufficient basis to prosecute military commanders inflicting environmental harm in the (mistaken) belief that such conduct was warranted by military necessity... In addition, the notion of "excessive" environmental destruction is imprecise and the actual environmental impact, both present and long term, of the NATO bombing campaign is at present unknown and difficult to measure.
- 24 In order to fully evaluate such matters, it would be necessary to know the extent of the knowledge possessed by NATO as to the nature of Serbian military-industrial targets (and thus, the likelihood of environmental damage flowing from their destruction), the extent to which NATO could reasonably have anticipated such environmental damage (for instance, could NATO have reasonably expected that toxic chemicals of the sort allegedly released into the environment by the bombing campaign would be stored alongside that military target?) and whether NATO could reasonably have resorted to other (and less environmentally damaging) methods for achieving its military objective of disabling the Serbian military-industrial infrastructure.⁵⁸

V. Practice of the International Red Cross and Red Crescent Movement

64. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "to fulfil his mission, the commander needs appropriate information about the enemy and the environment. To comply with the law of war, information must include: ... e) natural environment."⁵⁹

⁵⁸ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, 14 June 2000, §§ 15, 18 and 22–24.

⁵⁹ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 391.

65. In an appeal issued in 1991 in the context of the Gulf War, the ICRC reminded the belligerents that “weapons having indiscriminate effects and those likely to cause disproportionate suffering and damage to the environment are prohibited”.⁶⁰

66. In 1992, in a report submitted to the UN Secretary-General on the protection of the environment in time of armed conflict, the ICRC stated that:

5. Since its inception, international humanitarian law has set limits on the right of belligerents to cause suffering and injury to people and to wreak destruction on objects, including objects belonging to the natural environment, and has traditionally been concerned with limiting the use of certain kinds of weapons or means of warfare which continue to damage even after the war is over, or which may injure people or property of States which are completely uninvolved in the conflict.
6. [reference to the 1868 St. Petersburg Declaration]
7. [reference to Article 35(1) AP I]
8. The concept of proportionality also sets important limits on warfare: the only acts of war permitted are those that are proportional to the lawful objective of a military operation and actually necessary to achieve that objective.
9. These fundamental rules are now part of customary international law, which is binding on the whole community of nations. They are also applicable to the protection of the environment against acts of warfare.⁶¹

67. In 1993, in a report submitted to the UN General Assembly on the protection of the environment in times of armed conflict, the ICRC stated that “because [AP I], as at present, interpreted, does not necessarily cover all cases of damage to the environment and because not all States are party to it, the earlier conventional and customary rules, especially those of The Hague (1907) and Geneva (1949), continue to be very important”.⁶² With respect to the issue of the protection of the environment in non-international armed conflict, the report further states that:

Although neither article 3 common to the 1949 Geneva Conventions nor [AP II] established a specific protection for the environment in times of non-international armed conflict, the environment is none the less protected by general rules of international humanitarian law [indiscriminate means and methods of warfare, proportionality, wanton destruction of property]. Among them, it is worth mentioning articles 14 and 15 of Protocol II of 1977, and provisions of the World Heritage Convention of 1972. The latter, applicable in all armed conflicts, could play an

⁶⁰ ICRC, Press Release No. 1659, Middle East Conflict: ICRC appeals to belligerents, 1 February 1991, *IRRC*, No. 280, 1991, p. 27.

⁶¹ ICRC, Report on the Protection of the Environment in Time of Armed Conflict submitted to the UN General Assembly, reprinted in Report of the UN Secretary-General on the protection of the environment in times of armed conflict, UN Doc. A/47/328, 31 July 1992, §§ 5–9.

⁶² ICRC, Report on the protection of the environment in time of armed conflict submitted to the UN General Assembly, reprinted in Report of the UN Secretary-General on the protection of the environment in times of armed conflict, UN Doc. A/48/269, 29 July 1993, § 34.

important role; greater efforts should therefore be made to ensure its full implementation.⁶³

VI. Other Practice

68. Rogers stated that:

Environmental concerns certainly affected allied military planning [during the Gulf War]. It is reported that the allies decided not to attack four Iraqi super-tankers inside the Gulf which were contravening UN Security Council Resolution 665 because of the environmental consequences of so doing.⁶⁴

69. During a meeting of the IIHL held in 1993 as part of the process which resulted in the drafting of the 1994 San Remo Manual, a special rapporteur on the protection of the environment in armed conflict stated that the new wording of paragraph 44.5 of the manual stating that "damage to or destruction of the natural environment not justified by military necessity and carried out wantonly is prohibited" was a

response to the concern expressed by a number of participants . . . that, within the limits of the principle of military necessity, the draft should outlaw the use of the marine environment as an instrument of warfare or as a direct target or object of attack during an armed conflict at sea.⁶⁵

70. In 1995, the IUCN Commission on Environmental Law, in cooperation with the International Council of Environmental Law, issued the Draft International Covenant on Environment and Development, which was intended to stimulate consideration of a global instrument on environmental conservation and sustainable development. Article 32(2) provides that "Parties shall co-operate to further develop and implement rules and measures to protect the environment during international armed conflict and establish rules and measures to protect the environment during non-international armed conflict". The commentary on this draft provision notes that "paragraph 2 aims at the further development of the law on this subject, both to deal with international armed conflict and non-international armed conflict. In the latter case, there is a particularly glaring dearth of law which must be remedied."⁶⁶

⁶³ ICRC, Report on the protection of the environment in time of armed conflict submitted to the UN General Assembly, reprinted in Report of the UN Secretary-General on the protection of the environment in times of armed conflict, UN Doc. A/48/269, 29 July 1993, § 95.

B. Due Regard for the Natural Environment in Military Operations

General

I. Treaties and Other Instruments

Treaties

71. Principle 3 of the 1992 Convention on Biodiversity states that:

States have, in accordance with the Charter of the United Nations and the principles of international law, . . . the responsibility to ensure that activities within their jurisdiction or control do not cause damage to the environment of other States or of areas beyond the limits of national jurisdiction.

Other Instruments

72. Principle 21 of the 1972 Stockholm Declaration on the Human Environment provides that:

States have, in accordance with the Charter of the United Nations and the principles of international law, . . . the responsibility to ensure that activities within their jurisdiction or control do not cause damage to the environment of other States or of areas beyond the limits of national jurisdiction.

73. Principle 5 of the 1982 World Charter for Nature provides that "nature shall be secured against degradation caused by warfare or other hostile activities".

74. Principle 20 of the 1982 World Charter for Nature provides that "military activities damaging to nature shall be avoided".

75. Principle 2 of the 1992 Rio Declaration provides that:

States have, in accordance with the Charter of the United Nations and the principles of international law, the sovereign right to exploit their own resources pursuant to their own environmental and developmental policies, and the responsibility to ensure that activities within their jurisdiction or control do not cause damage to the environment of other States or of areas beyond the limits of national jurisdiction.

76. Principle 24 of the 1992 Rio Declaration provides that "warfare is inherently destructive of sustainable development. States shall therefore respect international law providing protection for the environment in times of armed conflict and co-operate in its further development, as necessary."

77. The 1994 Guidelines on the Protection of the Environment in Times of Armed Conflict provides that:

- (5) International environmental agreements and relevant rules of customary law may continue to be applicable in times of armed conflict to the extent that they are not inconsistent with the applicable law of armed conflict. Obligations concerning the protection of the environment that are binding on

States not party to an armed conflict (e.g. neighbouring States) and that relate to areas beyond the limits of national jurisdiction (e.g. the high seas) are not affected by the existence of the armed conflict to the extent that those obligations are not inconsistent with the applicable law of armed conflict.

...

- (11) Care shall be taken in warfare to protect and preserve the natural environment.

78. The 1994 San Remo Manual provides that:

35. ...Due regard shall also be given to the protection and preservation of the marine environment [of the exclusive economic zone and the continental shelf].

...

44. Methods and means of warfare should be employed with due regard for the natural environment taking into account the relevant rules of international law.

II. National Practice

Military Manuals

79. Australia's Defence Force Manual states that "those responsible for planning and conducting military operations have a duty to ensure that the natural environment is protected".⁶⁷

80. South Korea's Operational Law Manual prohibits the use of weapons damaging the natural environment.⁶⁸

81. The US Naval Handbook provides that "methods and means of warfare should be employed with due regard to the protection and preservation of the natural environment".⁶⁹

National Legislation

82. No practice was found.

National Case-law

83. No practice was found.

Other National Practice

84. At the Meeting on Human Environment in 1972, China condemned the US for causing "unprecedented damage to the human environment" in South Vietnam through the use of "chemical toxic and poisonous gas". It also accused the US of destroying "large areas of rich farming land with craters", poisoning

⁶⁷ Australia, *Defence Force Manual* (1994), § 545.

⁶⁸ South Korea, *Operational Law Manual* (1996), p. 129.

⁶⁹ US, *Naval Handbook* (1995), § 8.1.3.

“rivers and other water resources”, destroying forests and crops and threatening “some of the species with extinction”.⁷⁰

85. In 1997, Colombia’s Defensoría del Pueblo (Ombudsman’s Office) denounced guerrilla attacks on oil pipelines as a violation of IHL insofar as oil spills inflicted damage on the environment, which affected both natural water sources and the productivity of the land.⁷¹

86. The Report on the Practice of Colombia states that it is Colombia’s *opinio juris* that “the parties to the conflict must protect the environment, endeavouring to prevent the damage to the natural environment caused by war operations”.⁷²

87. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1995, Costa Rica stated that:

Due to the length of the State practice and continued State expression of maintenance and protection of the environment, the Human Right to Environment may be considered a part of customary international law. Whether it is recognized as a full legal right, it is clear that the Human Right to the Environment would be violate[d] by the threat or use of nuclear weapons.⁷³

88. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt stated that it considered the principle whereby every State must ensure that activities within its jurisdiction or under its control do not cause damage to the environment to be a “general rule”. Referring to the 1972 Stockholm Declaration on the Human Environment and the 1992 Rio Declaration, in which this rule was stated, Egypt argued that they “must be seen as declaratory of evolving normative regulation for the protection of the environment”.⁷⁴

89. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, France denied the existence in contemporary international law, either as *lex lata* or as *lex ferenda*, of a customary principle concerning the protection of the environment in time of armed conflict. It also indicated its view that in general none of the multilateral environmental agreements were applicable in times of armed conflict.⁷⁵

90. In December 1991, during a parliamentary debate on the consequences of the Gulf War, a member of the German parliament stated that:

⁷⁰ China, Address to the Meeting on Human Environment, 10 June 1972, *Selected Documents of the Chinese Delegation to the United Nations*, 1972, World Knowledge Press, Beijing, pp. 257–258.

⁷¹ Colombia, Defensoría del Pueblo, *En defensa del pueblo acusado: Impactos de la violencia de oleoductos en Colombia*, 1997, p. 33, §§ 2–4.

⁷² Report on the Practice of Colombia, 1998, Chapter 4.4.

⁷³ Costa Rica, Written statement submitted to the ICJ, *Nuclear Weapons (WHO) case*, July 1995, pp. 8–9.

⁷⁴ Egypt, Written statement submitted to the ICJ, *Nuclear Weapons case*, September 1995, § 70.

⁷⁵ France, Written statement submitted to the ICJ, *Nuclear Weapons case*, 20 June 1995, § 27; see also Oral pleadings before the ICJ, *Nuclear Weapons case*, 2 November 1995, Verbatim Record CR 95/24, § 45.

The immediate improvement of international law providing protection from environment-destructive warfare is necessary. This implies... the ratification of the 1977 Additional Protocols to the Geneva Conventions without reservations by all NATO partners, including the Federal Republic of Germany [and] a general priority to be given to the fight against ecological damage over military secrecy in the case of armed conflict... In addition, a review is required of the existing priority of military necessity for specific acts of warfare to be legitimate over ecological needs – a very central point; furthermore, the general prohibition of the use of environmental destruction as a weapon is necessary.⁷⁶

This view was supported by another parliamentary group; the other parliamentary groups neither supported nor rejected it.⁷⁷ During the same debate, a member of the parliamentary group which had supported the first speaker stated that in the view of her group, “it is inevitable to take steps in order to give more effectiveness and respect to international law in force and to enable also the UN to prevent and punish warfare against the environment as well as violations of international conventions for the protection of the environment”.⁷⁸

91. In 1991, the German President, commenting on the effect on the environment of Iraqi means and methods of warfare, stated that “we are witnesses to an unprecedented disregard for the natural environment”.⁷⁹ The German Chancellor considered this particular type of warfare as falling within possible “crimes against the environment”.⁸⁰

92. In 1991, during a debate in the Sixth Committee of the UN General Assembly on protection of the environment in armed conflict, Iran stated that:

Turning to the law on the protection of the environment, ... the general principles of customary international law clearly contained specific rules on the protection of the environment. One such rule was the obligation of States not to damage or endanger the environment beyond their jurisdiction, a rule which had been enshrined in numerous international and regional agreements.

With regard to the application of environmental law in time of war, ... the relationship between a party to the conflict and a neutral State was essentially governed by the law in time of peace and, consequently, belligerent parties had an obligation to respect environmental law vis-à-vis non-belligerent States. There was no universally accepted rule concerning the application of international law on the protection of the environment to belligerent parties, and some argued that the relationship was governed by the law of armed conflict, which meant that with the outbreak of war, the application of rules on the protection of the environment

⁷⁶ Germany, Lower House of Parliament, Statement by a Member of Parliament, Dr. Klaus Kübler, 5 December 1991, *Plenarprotokoll* 12/64, p. 5509.

⁷⁷ Germany, Lower House of Parliament, Proposal by the Alliance 90/The Greens, Nationale und internationale Konsequenzen der ökologischen Auswirkungen des Golf-krieges, *BT-Drucksache* 12/779, 17 June 1991, p. 5528.

⁷⁸ Germany, Lower House of Parliament, Statement by a Member of Parliament, Birgit Homburger, 5 December 1991, *Plenarprotokoll* 12/64, p. 5528.

⁷⁹ Germany, Statement by the President, Richard von Weizsäcker, 29 January 1991, *Bulletin*, No. 7, Presse- und Informationsamt der Bundesregierung, Bonn, 30 January 1991, p. 57.

⁸⁰ Germany, Statement by the Chancellor, Helmut Kohl, 9 April 1991, *Bulletin*, No. 35, Presse- und Informationsamt der Bundesregierung, Bonn, 12 April 1991, p. 255.

was suspended. However, others argued that in such cases, under treaty law and customary law, international legal rules protecting the environment were neither suspended [n]or terminated, since the law of armed conflict itself tended to protect the environment in time of war.⁸¹

93. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Iran stated that:

[The] prohibition of the use of nuclear weapons, due to their huge destructive and modifying effects, could also be understood from the rules of international law relating to the environment. First of all, reference can be made to Principle 21 of [the] 1972 Stockholm Declaration on Human Environment which, as a customary rule, stipulated that States are responsible for any acts in their territory having adverse effects on the environment of other States. The same idea is also reflected in Principle [2] of [the] Rio Declaration of 1992. It can be argued that, while States are prevented from such conducts in their own territory, they are duly bound to refrain from any such acts against other States.

...

The progressive development of international environmental law in recent years has resulted in the adoption of a series of treaties, such as:

- Vienna Convention for the Protection of the Ozone Layer (1985)
- United Nations Framework Convention on Climate Change (1992)
- Convention on Biological Diversity (1992)

which is indicative of the awareness of [the] international community and the emergence of an *opinio juris* concerning the preservation of the environment. Therefore, the use of nuclear weapons, having the most destructive effects on the environment, is a great concern of [the] international society.⁸²

94. The Report on the Practice of Iran states that the Iranian government holds Iraq responsible for attacking oil tankers in the Gulf and polluting the sea during the Iran–Iraq War. Iran also denounced Iraq for using chemical weapons, which resulted in the pollution of the air, water, soil and consequent effects on the ecosystem. The report adds that it is Iran's *opinio juris* that "the environment must be protected against pollution during armed conflict".⁸³

95. The Report on the Practice of Kuwait states that it is Kuwait's *opinio juris* that States shall not resort to military operations that entail consequences for the environment. When such consequences occur, the report considers that Chapter VII of the UN Charter should be applied.⁸⁴

96. A training document for the Lebanese army regards "offences against the environment" as "a 'conventional' war crime" and includes them in the list of acts considered to amount to war crimes.⁸⁵

⁸¹ Iran, Statement before the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/46/SR.18, 22 October 1991, §§ 30–31.

⁸² Iran, Written statement submitted to the ICJ *Nuclear Weapons case*, 19 June 1995, pp. 4–5, § c.

⁸³ Report on the Practice of Iran, 1997, Chapter 4.4.

⁸⁵ Lebanon, Training document, *L'Etat de droit et les opérations disciplinées*, 1996, p. 8–4 and p. 12–11.

97. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Malaysia expressed the view that “the principle of environmental safety is now recognised as part of international humanitarian law”.⁸⁶

98. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1994, Mexico stated that “the threat or use of nuclear arms in an armed conflict would constitute a breach of principles of international environmental law generally accepted”.⁸⁷

99. In 1991, in a letter to the President of the Dutch parliament concerning the environmental aspects of the Gulf War, the Ministers of Foreign Affairs, of Development Cooperation and of Defence of the Netherlands stated that they considered the intentional draining of oil and setting alight of hundreds of oil wells by Iraq in Kuwait to be “serious crimes against the environment”.⁸⁸

100. At the First Review Conference of States Parties to the CCW in 1995, Peru stressed the need to establish rules determining the liability of States for damage caused to the environment by the use of certain conventional weapons that may be deemed to be excessively injurious or to have indiscriminate effects.⁸⁹

101. The Report on the Practice of the Philippines states that “there are no specific rules which categorically state that the environment should be spared and protected during armed conflicts”. It refers to some information provided by NGOs, according to which, in most cases, the forest serves as a shield for civilians fleeing bombing, shelling and gun battles between combatants, resulting in damage to the area and the resources contained therein.⁹⁰

102. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Qatar referred to the emergence within the international community “of an *opinio juris* concerning the preservation of the environment”.⁹¹

103. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the Solomon Islands argued that “the use of nuclear weapons violates international law for the protection of human health, the environment and fundamental human rights”.⁹² In its oral pleadings, the Solomon Islands reiterated the argument whereby multilateral environmental agreements applied also in times of war, unless expressly provided otherwise.⁹³

⁸⁶ Malaysia, Written statement submitted to the ICJ, *Nuclear Weapons case*, undated, p. 10.

⁹³ Solomon Islands, Oral pleadings before the ICJ, *Nuclear Weapons case*, 14 November 1995, Verbatim Record CR 95/32, § 22.

104. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case*, Sri Lanka stated that “the protection of the environment in times of armed conflict has . . . emerged as an established principle of international law”.⁹⁴

105. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK condemned Iraq for inflicting environmental damage by causing oil spills and oil fires in Kuwait, and underlined the substantial contribution made by his government to the international effort in response to this damage.⁹⁵

106. According to the Report on UK Practice, during the Rio Summit on Environment and Development in 1992, the UK Minister of State for the Armed Forces supported the principle that “States should respect international law providing protection for the environment in times of armed conflict”.⁹⁶

107. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, the UK stated that the argument “that the general provisions in environmental treaties have the effect of outlawing the use of nuclear weapons” cannot be sustained because:

These treaties . . . make no reference to nuclear weapons. Their principal purpose is the protection of the environment in times of peace. Warfare in general, and nuclear warfare in particular, are not mentioned in their texts and were scarcely alluded to in the negotiations which led to their adoption.⁹⁷

108. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the US refuted the possibility of inferring a principle of “environmental security” from existing international environmental treaties, which would form part of the law of war, being that none of these treaties refers to such a principle, nor was any of them negotiated “with any idea that it [the treaty] was to be applicable in armed conflict”.⁹⁸ The US went on to state that “even if these treaties were meant to apply in armed conflict . . . the language of none of them prohibits or limits the actions of States in any manner that would reasonably apply to the use of weapons”. With reference to the 1972 Stockholm Declaration on the Human Environment, the US maintained that “nothing in the Declaration purports to ban the use of nuclear weapons in armed conflict”.⁹⁹ Lastly,

⁹⁹ US, Written statement submitted to the ICJ, *Nuclear Weapons case*, 20 June 1995, p. 39.

the US stated that, although Principles 1, 2 and 25 of the 1992 Rio Declaration had been relied upon to maintain that “the threat or use of nuclear weapons in an armed conflict would constitute a breach of generally accepted principles of international environmental law, . . . none of these principles addresses armed conflict or the use of nuclear weapons”.¹⁰⁰

109. In 1991, during a debate in Sixth Committee of the UN General Assembly on the environmental impact of the Gulf War, Yemen stated that “the damage caused to the environment as a result of the war had emphasised the importance of adherence to the legal norms on the prohibition on causing damage to the environment in times of armed conflict, norms which had been incorporated in a number of international conventions in the field of humanitarian law”, referring in particular to AP I and the 1976 ENMOD Convention.¹⁰¹

110. The Report on the Practice of Zimbabwe recalls Zimbabwe’s adoption of the 1992 Rio Principles as evidence that environmental protection during armed conflict forms an important component of Zimbabwe’s view of IHL. It also refers to “various pieces of legislation” dealing with environmental protection and setting up standards to be observed at all times, “whether or not there is armed conflict”, as evidence of Zimbabwe’s view that the environment should be protected even in times of armed conflict.¹⁰²

III. Practice of International Organisations and Conferences

United Nations

111. In a resolution adopted in 1991, the UN Security Council reaffirmed Iraq’s responsibility “under international law for any direct loss, damage including environmental damage and the depletion of natural resources or injury to foreign Governments, nationals and corporations as a result of its unlawful invasion and occupation of Kuwait”.¹⁰³

112. In a resolution adopted in 1992, the UN General Assembly stated that it was “aware of the disastrous situation caused in Kuwait and neighbouring areas by the torching and destruction of hundreds of its oil wells and of the other environmental consequences on the atmosphere, land and marine life”. It recalled Security Council Resolution 687, section E, in which Iraq’s international responsibility for environmental damage caused during Kuwait’s occupation had been asserted. The General Assembly further stated that it was:

profoundly concerned at the deterioration in the environment as a consequence of the damage, especially the threat posed to the health and well-being of the people of Kuwait and the people of the region, and the adverse impact on the economic

¹⁰⁰ US, Written statement submitted to the ICJ, *Nuclear Weapons case*, 20 June 1995, p. 41.

¹⁰³ UN Security Council, Res. 687, 3 April 1991, § 16.

activities of Kuwait and other countries of the region, including the effects on livestock, agriculture and fishing, as well as on wildlife.¹⁰⁴

113. In a resolution adopted in 1994 on the United Nations Decade on International Law, the UN General Assembly referred to the 1994 Guidelines on the Protection of the Environment in Times of Armed Conflict. The General Assembly invited:

all States to disseminate widely the revised guidelines for military manuals and instructions on the protection of the environment in times of armed conflict received from the International Committee of the Red Cross and to give due consideration to the possibility of incorporating them into their military manuals and other instructions addressed to their military personnel.¹⁰⁵

114. The programme of activities for the final term (1997–1999) of the UN Decade of International Law, adopted by the UN General Assembly in 1996, states that:

In connection with training of military personnel, States are encouraged to foster the teaching and dissemination of the principles governing the protection of the environment in times of armed conflict and should consider the possibility of making use of the guidelines for military manuals and instructions prepared by the International Committee of the Red Cross.¹⁰⁶

115. In a resolution adopted in 2001, the UN General Assembly considered that “damage to the environment in times of armed conflict impairs ecosystems and natural resources long beyond the period of conflict, and often extends beyond the limits of national territories and the present generation”. It therefore declared “6 November each year as the International Day for Preventing the Exploitation of the Environment in War and Armed Conflict”.¹⁰⁷

116. In 1991, with regard to the environmental consequences of the Gulf War, the Governing Council of the UNCC expressed “its concern about the environmental damage that occurred during the armed conflict in the Gulf area, which resulted in the pollution of the waters of the area by oil, air pollution from burning oil wells and other environmental damage to the surrounding areas”.¹⁰⁸

Other International Organisations

117. In 2001, in a report on the environmental impact of the war in the FRY on south-east Europe, the Committee on the Environment, Regional Planning and Local Authorities of the Parliamentary Assembly of the Council of Europe

¹⁰⁴ UN General Assembly, Res. 46/216, 20 December 1991, preamble; see also Res. 47/151, 18 December 1992, preamble.

¹⁰⁵ UN General Assembly, Res. 49/50, 9 December 1994, § 11.

¹⁰⁶ UN General Assembly, Res. 51/157, 16 December 1996, Annex, § 19.

¹⁰⁷ UN General Assembly, Res. 56/4, 5 November 2001, preamble and § 1.

¹⁰⁸ UNCC, Governing Council, Decision 16/11, 31 May 1991, § A.

noted that the military operations conducted by NATO against the FRY during the 1999 Kosovo crisis had caused serious damage to the country's natural environment and that the damage had extended to several other countries of south-east Europe. The report stated that "the military operations violated the rights of Yugoslav citizens and people in neighbouring countries, first and foremost the right to a healthy environment".¹⁰⁹

International Conferences

118. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

119. In its advisory opinion in the *Nuclear Weapons case* in 1996, the ICJ made reference to the *Nuclear Tests case (Request for an Examination of the Situation)*, in which it held that its order in that case was "without prejudice to the obligations of States to respect and protect the natural environment". The Court stated that "although that statement was made in the context of nuclear testing, it naturally also applies to the actual use of nuclear weapons in armed conflict".¹¹⁰

120. In its advisory opinion in the *Nuclear Weapons case* in 1996, the ICJ stated that:

The Court recognizes that the environment is under daily threat and . . . also recognizes that the environment is not an abstraction but represents the living space, the quality of life and the very health of human beings, including generations unborn. The existence of the general obligation of States to ensure that activities within their jurisdiction and control respect the environment of other States or of areas beyond national control is now part of the corpus of international law relating to the environment.¹¹¹

121. In its judgement in the *Gabcikovo-Nagymaros Project case* in 1997, the ICJ considered whether protection of the environment amounted to an "essential interest" of a State that could be invoked in order to justify, by way of "necessity", actions that were not in conformity with that State's international obligations. The Court, stressing that a state of necessity could only be invoked in exceptional circumstances, answered in the affirmative. It quoted the ILC in this regard, which stated that a state of necessity could include "a grave danger to . . . the ecological preservation of all or some of [the] territory [of a State]" and that "it is primarily in the last two decades that safeguarding the ecological balance has come to be considered an 'essential interest' of all States". The

¹⁰⁹ Council of Europe, Parliamentary Assembly, Committee on the Environment, Regional Planning and Local Authorities, Report on the Environmental Impact of the War in Yugoslavia on South-East Europe, Doc. 8925, 10 January 2001, § 59.

¹¹¹ ICJ, *Nuclear Weapons case*, Advisory Opinion, 8 July 1996, § 29.

Court then quoted paragraph 29 of its advisory opinion in the *Nuclear Weapons case* in order to show that it had recently stressed “the great significance that it attaches to respect for the environment, not only for States but also for the whole of mankind”.¹¹²

V. Practice of the International Red Cross and Red Crescent Movement

122. In 1992, in a report submitted to the UN Secretary-General on the protection of the environment in time of armed conflict, the ICRC stated that “in addition to the rules of law pertaining to warfare, general (peacetime) provisions on the protection of the environment may continue to be applicable. This holds true in particular for the relations between a belligerent State and third States.”¹¹³

VI. Other Practice

123. The Restatement (Third) of the Foreign Relations Law of the United States, adopted and promulgated by the American Law Institute in 1986, provides that:

- (1) A state is obligated to take such measures as may be necessary, to the extent practicable under the circumstances, to ensure that activities within its jurisdiction or control
 - (a) conform to generally accepted international rules and standards for the prevention, reduction, and control of injury to the environment of another state or of areas beyond the limits of national jurisdiction; and
 - (b) are conducted so as not to cause significant injury to the environment of another state or of areas beyond the limits of national jurisdiction.
- (2) A state is responsible to all other states
 - (a) for any violation of its obligations under Subsection 1(a), and
 - (b) for any significant injury, resulting from such violation, to the environment of areas beyond the limits of national jurisdiction.
- (3) A state is responsible for any significant injury, resulting from a violation of its obligations under Subsection (1), to the environment of another state or to its property, or to persons or property within that state’s territory or under its jurisdiction or control.¹¹⁴

124. In a resolution adopted in 1991, the Politico-Military High Command of the SPLM/A stated that “the SPLM/SPLA shall do everything to halt the

¹¹² ICJ, *Gabcikovo-Nagymaros Project case*, Judgement, 25 September 1997, §§ 50–53.

¹¹³ ICRC, Report on the Protection of the Environment in Time of Armed Conflict submitted to the UN General Assembly, reprinted in Report of the UN Secretary-General on the protection of the environment in times of armed conflict, UN Doc. A/47/328, 31 July 1992, § 11.

¹¹⁴ The American Law Institute, *Restatement Third. Restatement of the Foreign Relations Law of the United States*, American Law Institute Publishers, St. Paul, 1987, § 601.

destruction of our wildlife resources and to protect and develop them for us and for posterity".¹¹⁵

125. In 1995, the IUCN Commission on Environmental Law, in cooperation with the International Council of Environmental Law, issued the Draft International Covenant on Environment and Development, which was intended to stimulate consideration of a global instrument on environmental conservation and sustainable development. Article 32(1) provides that:

Parties shall protect the environment during periods of armed conflict. In particular, Parties shall:

- (a) observe, outside areas of armed conflict, all international environmental rules by which they are bound in times of peace;
- (b) take care to protect the environment against avoidable harm in areas of armed conflict.¹¹⁶

The precautionary principle

I. Treaties and Other Instruments

Treaties

126. Paragraph 9 of the preamble to the 1992 Convention on Biodiversity states that "where there is a threat of significant reduction or loss of biological diversity, lack of full scientific certainty should not be used as a reason for postponing measures to avoid or minimize such a threat".

Other Instruments

127. Principle 15 of the 1992 Rio Declaration states that:

In order to protect the environment, the precautionary approach shall be widely applied by States according to their capabilities. Where there are threats of serious or irreversible damage, lack of full scientific certainty shall not be used as a reason for postponing cost-effective measures to prevent environmental degradation.

II. National Practice

Military Manuals

128. No practice was found.

National Legislation

129. No practice was found.

¹¹⁵ SPLM/A, PMHC Resolution No. 17: Wild Life and the Environment, 11 September 1991, § 17.1, Report on SPLM/A Practice, 1998, Chapter 4.3.

National Case-law

130. No practice was found.

Other National Practice

131. In its written statement submitted to the ICJ in the *Nuclear Tests case (Request for an Examination of the Situation)* in 1995, France argued that it was uncertain whether the precautionary principle had become a binding rule of international law. It went on to state that France does carry out an analysis of the impact of its activities on the environment, and described all the measures it took to ensure that the tests would not have a negative effect. It described these measures as being precautions that were in keeping with its obligations under international environmental law and therefore France did exercise sufficient diligence. However, it denied that the precautionary principle could have the effect of shifting the burden of proof as New Zealand asserted.¹¹⁷

132. In its written statement submitted to the ICJ in the *Nuclear Tests case (Request for an Examination of the Situation)*, New Zealand argued, in its request for an examination of the situation, that, under customary international law, a State is under an obligation to carry out an environmental impact assessment "in relation to any activity which is likely to cause significant damage to the environment, particularly where such effects are likely to be transboundary in nature".¹¹⁸ New Zealand also referred to the "precautionary principle" as a "very widely accepted and operative principle of international law" and which has the effect that "in situations that may possibly be significantly environmentally threatening, the burden is placed upon the party seeking to carry out the conduct that could give rise to environmental damage to prove that that conduct will not lead to such a result".¹¹⁹ New Zealand indicated that France had accepted this rule because it was contained in French law No. 95-101 of 1995 in the following terms:

The precautionary principle, according to which the absence of certainty, having regard to scientific and technical knowledge at the time, should not hold up the adoption of effective and proportionate measures with a view to avoiding a risk of serious and irreversible damage to the environment at an economically acceptable cost.¹²⁰

¹¹⁷ France, Written statement submitted to the ICJ, *Nuclear Tests case (Request for an Examination of the Situation)*, 12 September 1995, Verbatim Record CR 95/20, pp. 56–62.

¹¹⁸ New Zealand, Written statement submitted to the ICJ, *Nuclear Tests case (Request for an Examination of the Situation)*, undated, § 89.

¹²⁰ New Zealand, Written statement submitted to the ICJ, *Nuclear Tests case (Request for an Examination of the Situation)*, undated, § 107.

III. Practice of International Organisations and Conferences

United Nations

133. The meeting of the UN Economic Commission for Europe (ECE) in 1990 issued the Bergen ECE Ministerial Declaration on Sustainable Development. Article 7 of this Declaration formulated the precautionary principle in these terms:

In order to achieve sustainable development, policies must be based on the precautionary principle. Environmental measures must anticipate, prevent and attack the causes of environmental degradation. Where there are threats of serious or irreversible damage, lack of full scientific certainty should not be used as a reason for postponing measures to prevent environmental degradation.¹²¹

134. On 14 August 2000, KFOR troops assisted UNMIK and UNMIK-Police in taking control of a lead-smelting plant in Zvecan, part of the Trepca mining complex in northern Kosovo. As a justification for the military action, the Special Representative of the UN Secretary-General for Kosovo explained that the Zvecan plant had been producing unacceptable levels of air pollution and therefore presented a serious threat to public health.¹²² In a press conference at the UN Headquarters, the chargé d'affaires a.i. of the Permanent Mission of the FRY to the UN said that the government of the FRY rejected the Special Representative's claim that KFOR was acting to prevent lead pollution. He maintained that daily air measurements corresponded to Yugoslav government regulations, adding that, even if high air pollution had been the problem, "it was not sufficient to justify such a crude use of military force".¹²³

135. In its report in 1996, the Working Group of Experts on Liability and Compensation for Environmental Damage Arising from Military Activities, which was established by UNEP in 1994 within the purview of the Montevideo Programme II, provided a practical contribution to the work of the UNCC, *inter alia*, by recommending the criteria for evaluating "environmental damage". The Working Group examined four kinds of damages in respect of which claims for compensation were allowed:

- a) Abatement and prevention of environmental damage (including expenses directly relating to fighting oil fires and stemming the flow of oil in coastal and international waters);

¹²¹ UN Economic Commission for Europe, Bergen ECE Ministerial Declaration on Sustainable Development, 15 May 1990, Article 7.

¹²² KFOR, Acting KFOR Spokesman, News Update, COMKFOR's Zvecan Smelter Plant Closure Statement, Pristina, 14 August 2000, see website www.kforonline.com/news/updates/nu_14aug00.htm.

¹²³ FRY, Press Conference by the Permanent Mission of FRY to the UN, New York, 22 August 2000.

- b) Reasonable measures already taken to clean and restore the environment or future measures which can be documented as reasonably necessary to clean and restore the environment;
- c) Reasonable monitoring and assessment of the environmental damage for the purpose of evaluating and abating harm and restoring the environment; and
- d) Reasonable monitoring of public health and performing medical screening for the purposes of investigation and combating increased health risks as a result of the environmental damage.¹²⁴

As to the first type of damages, the Working Group concluded that “the methodology for determining the amount of compensation would be the costs actually incurred in taking such measures [to abate or prevent environmental damage]”. It added that, although not expressly mentioned, “it would . . . be appropriate to infer a limitation on compensation to measures which themselves are reasonable, and to costs that are reasonable in amount”, while “in the light of the precautionary principle some latitude would be warranted in relation to costs incurred in an emergency situation requiring a prompt response in the face of limited information”.¹²⁵ As to the other type of damages, reference was also made by the Working Group to the precautionary principle as an element to be taken into due account for determining the “reasonableness” of the activities in question.¹²⁶

136. In June 2001, within the framework of the activities of the UNCC, the “F4” Panel of Commissioners submitted its first report to the Governing Council dealing with claims for losses resulting from environmental damage and the depletion of natural resources. The report addressed only the first instalment of “F4” claims, which included claims submitted by the governments of Iran, Kuwait, Saudi Arabia, Syria and Turkey for compensation for expenses resulting from monitoring and assessment activities undertaken or to be undertaken by the claimants to identify and evaluate environmental damage suffered as a result of Iraq’s invasion and occupation of Kuwait (“monitoring and assessment claims”). In particular, these activities related to damage from air pollution and oil pollution caused by the ignition of hundreds of oil wells and by the release of millions of barrels of oil into the sea by Iraqi forces in Kuwait.¹²⁷ In deciding whether expenses incurred for monitoring and assessment activities were compensable, the Panel declared that it had considered “whether there was evidence that the activity proposed or undertaken could produce information

¹²⁷ UNCC, Governing Council, Report and Recommendations made by the Panel of Commissioners concerning the first instalment of F4 claims, UN Doc. S/AC.26/2001/16, 22 June 2001, p. 9, §§ 13–14.

that might be helpful in identifying environmental damage and depletion of natural resources, or that could offer a useful basis for taking preventive or remedial measures".¹²⁸

Other International Organisations

137. No practice was found.

International Conferences

138. The 26th International Conference of the Red Cross and Red Crescent in 1995 adopted a resolution on protection of the civilian population in period of armed conflict in which it called upon parties to conflict "to take all feasible precautions to avoid, in their military operations, all acts liable to destroy or damage water sources".¹²⁹

IV. Practice of International Judicial and Quasi-judicial Bodies

139. The ICJ's order in the *Nuclear Tests case (Request for an Examination of the Situation)* in 1995 turned on procedural aspects and did not consider the merits of the arguments relating to the need for a prior assessment and the application of the precautionary principle. The order only made a reference in the most general terms to "obligations of States to respect and protect the natural environment, obligations to which both New Zealand and France have in the present instance reaffirmed their commitment".¹³⁰

140. In his dissenting opinion in the *Nuclear Tests case (Request for an Examination of the Situation)* in 1995, Judge Weeramantry referred to the precautionary principle as one "which is gaining increasing support as part of the international law of the environment" and the principle requiring an environmental impact assessment as "gathering strength and international acceptance".¹³¹

141. In his dissenting opinion in the *Nuclear Tests case (Request for an Examination of the Situation)* in 1995, Judge Palmer stated that "as the law now stands it is a matter of legal duty to first establish before undertaking an activity that the activity does not involve any unacceptable risk to the environment". He added that "the norm involved in the precautionary principle has developed rapidly and may now be a principle of customary international law relating to the environment".¹³²

¹²⁸ UNCC, Governing Council, UN Doc. S/AC.26/2001/16, Report and Recommendations made by the Panel of Commissioners concerning the first instalment of F4 claims, 22 June 2001, p. 15, § 35.s

¹³² ICJ, *Nuclear Tests case (Request for an Examination of the Situation)*, Dissenting Opinion of Judge Palmer, 22 September 1995, §§ 87 and 91.

V. Practice of the International Red Cross and Red Crescent Movement

142. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “targets for particular weapons and fire units shall be determined and assigned with the same precautions as to military objectives, specially taking into account the tactical result desired . . . and the destructive power of the ammunition used (. . . possible effects on the environment)”.¹³³

143. In 1993, in a report submitted to the UN General Assembly on the protection of the environment in times of armed conflict, the ICRC stated that, with respect to the applicability of the precautionary principle to the protection of the environment in times of armed conflict:

This principle is an emerging, but generally recognized principle of international law. The object of the precautionary principle is to anticipate and prevent damage to the environment and to ensure that, where there are threats of serious or irreversible damage, lack of full scientific certainty shall not be used as a reason to postpone any measures to prevent such damage.¹³⁴

VI. Other Practice

144. No practice was found.

C. Causing Serious Damage to the Natural Environment

Widespread, long-term and severe damage

I. Treaties and Other Instruments

Treaties

145. Article 35(3) AP I provides that “it is prohibited to employ methods or means of warfare which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment”. Article 35 AP I was adopted by consensus.¹³⁵

146. Article 55(1) AP I provides that:

Care shall be taken in warfare to protect the natural environment against widespread, long-term and severe damage. This protection includes a prohibition of the use of methods or means of warfare which are intended or may be expected to cause such damage to the natural environment and thereby to prejudice the health or survival of the population.

¹³³ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 433.

¹³⁴ ICRC, Report on the protection of the environment in time of armed conflict submitted to the UN General Assembly, reprinted in Report of the UN Secretary-General on the protection of the environment in times of armed conflict, UN Doc. A/48/269, 29 July 1993, § 91.

¹³⁵ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 101.

Article 55 AP I was adopted by consensus.¹³⁶

147. Upon ratification of AP I, France stated that:

The Government of the French Republic considers that the risk of damaging the natural environment which results from the use of certain means or methods of warfare, as derives from the provisions of paragraphs 2 and 3 of Article 35 as well as those of Article 55, shall be examined objectively on the basis of information available at the time of its assessment.¹³⁷

148. Upon ratification of AP I, Ireland stated that:

In ensuring that care shall be taken in warfare to protect the natural environment against widespread, long-term and severe damage and taking account of the prohibition of the use of methods or means of warfare which are intended or may be expected to cause such damage to the natural environment thereby prejudicing the health or survival of the population, Ireland declares that nuclear weapons, even if not directly governed by Additional Protocol I, remain subject to existing rules of international law as confirmed in 1996 by the International Court of Justice in its Advisory Opinion on the Legality of the Threat or Use of Nuclear Weapons. Ireland will interpret and apply this Article in a way which leads to the best possible protection for the civilian population.¹³⁸

149. Upon ratification of AP I, the UK declared with respect to Articles 35(3) and 55 AP I that:

The United Kingdom understands both of these provisions to cover the employment of methods and means of warfare and that the risk of environmental damage falling within the scope of these provisions arising from such methods and means of warfare is to be assessed objectively on the basis of the information available at the time.¹³⁹

150. During the negotiations on AP II at the CDDH, environmental aspects were first addressed at the initiative of Australia, which proposed the addition of an Article 28 *bis* concerning the protection of the natural environment, stressing that “destruction of the environment should be prohibited not only in international but also in non-international conflicts”.¹⁴⁰ This draft provision read as follows: “It is forbidden to employ methods and means of combat which are intended or may be expected to cause widespread, long-term, and severe damage to the natural environment.”¹⁴¹ Committee III adopted the proposal by

49 votes in favour, 4 against and 7 abstentions.¹⁴² The provision was rejected in the plenary by 25 votes in favour, 19 against and 33 abstentions.¹⁴³

151. The preamble to the 1980 CCW recalls that “it is prohibited to employ methods and means of warfare which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment”.

152. Upon ratification of the 1980 CCW, France stated that:

The fourth paragraph of the preamble to the Convention on Prohibitions or Restrictions on The Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects, which reproduces the provisions of Article 35, paragraph 3, of Additional Protocol I, applies only to States parties to that Protocol.¹⁴⁴

153. Upon ratification of the 1980 CCW, the US stated that:

The United States considers that the fourth paragraph of the preamble to the Convention, which refers to the substance of provisions of article 35(3) and article 55(1) of additional Protocol I to the Geneva Convention for the Protection of War Victims of August 12, 1949, applies only to States which have accepted those provisions.¹⁴⁵

154. Pursuant to Article 8(2)(b)(iv) of the 1998 ICC Statute, “intentionally launching an attack in the knowledge that such attack will cause . . . widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated” constitutes a war crime in international armed conflicts.

155. Upon ratification of the 1998 ICC Statute, France declared that “the risk of damage to the natural environment as a result of the use of methods and means of warfare, as envisaged in article 8, paragraph 2(b)(iv), must be weighed objectively on the basis of the information available at the time of its assessment”.¹⁴⁶

Other Instruments

156. Pursuant to Article 22(d) of the 1991 ILC Draft Code of Crimes against the Peace and Security of Mankind, “employing methods or means of warfare which are intended or may be expected to cause widespread, long-term and severe damage to the natural environment” is an exceptionally serious war crime.

¹⁴² CDDH, *Official Records*, Vol. XV, CDDH/215/Rev.1, Report of Committee III, Geneva, 3 February–18 April 1975, p. 294, § 146.

¹⁴³ CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 114.

¹⁴⁴ France, Reservations made upon ratification of the CCW, 4 March 1988.

¹⁴⁵ US, Statements of understanding made upon ratification of the CCW, 24 March 1995.

¹⁴⁶ France, Interpretative declarations made upon ratification of the ICC Statute, 9 June 2000, § 7.

157. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Articles 35(3) and 55 AP I.

158. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Articles 35(3) and 55 AP I.

159. Paragraph 11 of the 1994 Guidelines on the Protection of the Environment in Times of Armed Conflict provides that "it is prohibited to employ methods or means of warfare which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment and thereby prejudice the health or survival of the population".

160. Pursuant to Article 20(g) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind the following constitutes a war crime:

in the case of armed conflict, using methods or means of warfare not justified by military necessity with the intent to cause widespread, long-term and severe damage to the natural environment and thereby gravely prejudice the health or survival of the population and such damage occurs.

161. Section 6.3 of the 1999 UN Secretary-General's Bulletin provides that "the United Nations force is prohibited from employing methods of warfare . . . which are intended, or may be expected to cause, widespread, long-term and severe damage to the natural environment".

162. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(iv), "intentionally launching an attack in the knowledge that such attack will cause . . . widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated" constitutes a war crime in international armed conflicts.

II. National Practice

Military Manuals

163. Argentina's Law of War Manual provides that "the natural environment must be protected against widespread, long-term and severe damage".¹⁴⁷ The manual also restates Article 35 AP I.¹⁴⁸

164. Australia's Commanders' Guide states that "it is prohibited to use methods or means of warfare which are intended or may be expected to cause widespread, long-term and severe damage to the natural environment and

¹⁴⁷ Argentina, *Law of War Manual* (1989), § 4.03.

¹⁴⁸ Argentina, *Law of War Manual* (1989), § 1.04(3).

thereby jeopardise the survival or seriously prejudice the health or survival of the population".¹⁴⁹

165. Australia's Defence Force Manual states that:

Any method or means of warfare which is planned, or expected, to cause widespread, long-term and severe damage to the natural environment and thereby jeopardise the survival or seriously prejudice the health of the population is prohibited. In this context, "long-term" means continuing for decades. Means or methods which are not expected to cause such damage are permitted even if damage results.¹⁵⁰

166. Belgium's Law of War Manual prohibits the use of "methods or means of warfare . . . which cause such damage to the natural environment that they prejudice the health or survival of the population". The manual specifically prohibits "methods or means of warfare that are intended or may be expected to cause widespread, long-term and severe damage to the natural environment".¹⁵¹ With respect to weapons, the manual states that the basic principle whereby the only legitimate goal in war is to weaken the enemy's military forces would be violated if weapons or other means of warfare were used which "would cause widespread, long-term and severe damage to the natural environment".¹⁵²

167. Benin's Military Manual states that it is prohibited "to use means and methods of warfare which are likely to cause widespread, long-term and severe damage to the natural environment".¹⁵³

168. Canada's LOAC Manual states that:

83. Care shall be taken in an armed conflict to protect the natural environment against widespread, long-term and severe damage.

84. Attacks which are intended or may be expected to cause damage to the natural environment that prejudices the health or survival of the population are prohibited.¹⁵⁴

169. Colombia's Basic Military Manual states that "the use of weapons which cause unnecessary and indiscriminate, widespread, long-term and severe damage to persons and the environment" is prohibited.¹⁵⁵

170. France's LOAC Manual restates the prohibition on employing methods or means of warfare which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment set out in Article 35 AP I.¹⁵⁶

¹⁴⁹ Australia, *Commanders' Guide* (1994), § 909.

¹⁵⁵ Colombia, *Basic Military Manual* (1995), pp. 49–50.

¹⁵⁶ France, *LOAC Manual* (2001), p. 63.

171. Germany's Soldiers' Manual provides that "it is prohibited to use means or methods of warfare which are intended or of a nature . . . to cause widespread, long-term and severe damage to the natural environment".¹⁵⁷

172. Germany's Military Manual states that:

401. It is particularly prohibited to employ means or methods which are intended or of a nature . . . to cause widespread, long-term and severe damage to the natural environment.

...

403. "Widespread", "long-term" and "severe" damage to the natural environment is a major interference with human life or natural resources which considerably exceeds the battlefield damage to be regularly expected in a war. Damage to the natural environment by means of warfare (Art. 35 para 3, 55 para 1 AP I) and severe manipulation of the environment as a weapon (ENMOD) are likewise prohibited.¹⁵⁸

173. Germany's IHL Manual states that "it is prohibited to use means or methods of warfare which are intended or of a nature . . . to cause widespread, long-term and severe damage to the natural environment".¹⁵⁹

174. Italy's IHL Manual states that "it is prohibited to use means and methods of warfare, which may cause . . . widespread, long-term and severe damage to the natural environment".¹⁶⁰

175. Kenya's LOAC Manual provides that it is forbidden "to use methods of warfare which are specifically intended or may be expected to cause widespread, long-term and severe damage to the natural environment".¹⁶¹

176. The Military Manual of the Netherlands states that "it is prohibited to employ methods or means of warfare which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment".¹⁶²

The manual explains that the part of AP I concerning the general protection of the civilian population against the effects of hostilities repeats this prohibition (in Article 55) with the proviso that "the damage to the natural environment has to be such that the health or the survival of the civilian population is endangered".¹⁶³

177. The Military Handbook of the Netherlands states that "attention must be paid to the protection of the natural environment against widespread, long-term and severe damage".¹⁶⁴

178. New Zealand's Military Manual states that:

Care shall be taken in warfare to protect the natural environment against widespread, long-term *and* severe damage. This protection includes a prohibition

¹⁵⁷ Germany, *Soldiers' Manual* (1991), p. 5.

of the use of methods or means of warfare which are intended or may be expected to cause such damage to the natural environment and thereby to prejudice the health or survival of the population.¹⁶⁵ [emphasis in original]

179. Russia's Military Manual states that "substances which have widespread, long-term and severe consequences on the environment" are prohibited means of warfare.¹⁶⁶

180. Spain's LOAC Manual states that:

There is a serious concern today about the protection of the natural environment which is translated in the law of war in the form of three specific prohibitions to use means and methods of warfare which would cause widespread, long-term and severe damage to the environment (Articles 35 and 55 AP I and the 1976 ENMOD Convention).¹⁶⁷

181. Sweden's IHL Manual refers to Article 55 AP I as providing that "the parties shall exercise caution so that widespread, long-term and severe damage [to the natural environment] can be avoided".¹⁶⁸

182. Switzerland's Basic Military Manual prohibits the employment of means of warfare likely to cause "serious and long-term damage to the natural environment".¹⁶⁹ It further states that "during military operations, care must be taken to protect the environment against widespread, long-term and severe damage".¹⁷⁰

183. Togo's Military Manual states that it is prohibited "to use means and methods of warfare which are likely to cause widespread, long-term and severe damage to the natural environment".¹⁷¹

184. The UK LOAC Manual states that it is forbidden "to use methods of warfare which are specifically intended to cause widespread, long-term and severe damage to the natural environment. This rule does not prohibit the use of nuclear weapons against military objectives."¹⁷² In a subsequent section, the manual states that "the following are prohibited in *international* armed conflict: . . . g. weapons (other than nuclear weapons) intended or which may be expected to cause widespread, long-term and severe damage to the natural environment".¹⁷³ (emphasis in original)

185. The US Air Force Commander's Handbook states that:

Weapons that may be expected to cause widespread, long-term, and severe damage to the natural environment are prohibited. This is a new principle, established by

[AP I]. Its exact scope is not yet clear, though the United States does not regard it as applying to nuclear weapons. It is not believed that any presently employed conventional weapon would violate this rule.¹⁷⁴

186. The US Operational Law Handbook states that “the following measures are expressly prohibited by the law of war and are not excusable on the basis of military necessity: . . . (i) using weapons which cause . . . prolonged damage to the natural environment”.¹⁷⁵

187. The YPA Military Manual of the SFRY (FRY) provides that “it is prohibited to use means and methods of warfare which are designed to or likely to cause massive, long-term and serious damage to the environment”.¹⁷⁶

National Legislation

188. Argentina’s Draft Code of Military Justice punishes any soldier who uses or orders, in time of armed conflict, the use of methods or means of warfare “which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment and thereby prejudice the health or survival of the population”.¹⁷⁷

189. Under Armenia’s Penal Code, “ecocide”, namely “mass destruction of flora and fauna, pollution of the atmosphere, soils and water resources, as well as other acts having caused an ecological disaster”, constitutes a crime against the peace and security of mankind.¹⁷⁸

190. Australia’s ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including launching an attack in the knowledge that such attack will cause “widespread, long-term and severe damage to the natural environment . . . of such an extent as to be excessive in relation to the concrete and direct military advantage anticipated” in international armed conflicts.¹⁷⁹

191. Azerbaijan’s Criminal Code provides that the use of methods and means of warfare which cause “widespread, long-term and severe damage to the natural environment” constitutes a war crime in international and non-international armed conflicts.¹⁸⁰

192. The Criminal Code of Belarus, in a part dealing with “crimes against the peace and the security of mankind and war crimes”, provides for the punishment of “ecocide”, namely “mass destruction of the fauna and flora, pollution of the atmosphere and water resources as well as any other act liable to cause an

ecological disaster".¹⁸¹ It also provides for the punishment of "wilfully causing widespread, long-term and serious damage to the natural environment".¹⁸²

193. Under the Criminal Code of the Federation of Bosnia and Herzegovina, it is a war crime to order or commit "long-lasting and large-scale environmental devastation which may be detrimental to the health or survival of the population".¹⁸³ The Criminal Code of the Republika Srpska contains the same provision.¹⁸⁴

194. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "intentionally launching an attack in the knowledge that such attack will cause... widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated" is a war crime in international armed conflicts.¹⁸⁵

195. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.¹⁸⁶

196. Colombia's Penal Code imposes a criminal sanction on "anyone who, during an armed conflict, uses methods or means of warfare which are intended to cause widespread, long-term and severe damage to the natural environment".¹⁸⁷

197. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes set out in Article 8 of the 1998 ICC Statute.¹⁸⁸

198. Croatia's Criminal Code, in a part dealing with "war crimes against the civilian population", provides for the punishment of:

whoever, in violation of the rules of international law in times of war, armed conflict or occupation, orders... long-term and widespread damage to the natural environment which can prejudice the health or survival of the population. Such punishment shall also be imposed on whoever commits [such] acts.¹⁸⁹

199. Under the Draft Amendments to the Penal Code of El Salvador, "anyone who, in the context of an international or a non-international armed conflict, causes widespread, long-term and severe damage to natural resources and the natural environment" is punishable.¹⁹⁰

200. Under Estonia's Penal Code, "a person who knowingly affects the environment as a method of warfare, if major damage is thereby caused to the environment", commits a war crime.¹⁹¹

201. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute which is not explicitly mentioned in the Code, such as "intentionally launching an attack in the knowledge that such attack will cause... widespread, long-term and severe damage to the natural environment which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated" in international armed conflict, is a crime.¹⁹²

202. Germany's Law Introducing the International Crimes Code provides that:

Anyone who, in connection with an international armed conflict, carries out an attack with military means which may be expected to cause widespread, long-term and severe damage to the natural environment which could be excessive in relation to the overall concrete and direct military advantage anticipated, shall be liable to imprisonment for not less than three years.¹⁹³

203. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Articles 35(3) and 55(1) AP I, is a punishable offence.¹⁹⁴

204. Under Kazakhstan's Criminal Code, "ecocide", namely "mass destruction of the fauna or flora, pollution of the atmosphere, agricultural or water resources, as well as other acts which have caused or are capable of causing an ecological catastrophe", constitutes a crime against the peace and security of mankind.¹⁹⁵

205. Under Kyrgyzstan's Criminal Code, "ecocide", namely "mass destruction of the flora and fauna, poisoning of the atmosphere or water resources, as well as other acts capable of causing an ecological catastrophe", is punishable by deprivation of liberty.¹⁹⁶

206. Mali's Penal Code punishes as a war crime the "the launching of a deliberate attack knowing that it will cause widespread, long-term and severe damage to the natural environment".¹⁹⁷

207. Under Moldova's Penal Code, "ecocide", namely "the deliberate and massive destruction of the fauna and flora, the pollution of the atmosphere or poisoning of water resources, as well as other acts capable of causing an ecological catastrophe", is punishable by deprivation of liberty.¹⁹⁸

208. Under the International Crimes Act of the Netherlands, "intentionally launching an attack in the knowledge that such an attack will cause... widespread, long-term and severe damage to the natural environment which

would be clearly excessive in relation to the concrete and direct overall military advantage anticipated" is a crime, when committed in an international armed conflict.¹⁹⁹

209. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(iv) of the 1998 ICC Statute.²⁰⁰

210. Nicaragua's Draft Penal Code punishes "anyone who, in the context of an international or a non-international armed conflict, causes widespread, long-term and severe damage to natural resources and the natural environment".²⁰¹

211. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".²⁰²

212. Under Russia's Criminal Code, "ecocide", namely "massive destruction of the fauna and flora, contamination of the atmosphere or water resources, as well as other acts capable of causing an ecological catastrophe", constitutes a crime against the peace and security of mankind.²⁰³

213. Under Slovenia's Penal Code, "infliction of long-term and large-scale damage to the environment, which may endanger the health or survival of the population" is a war crime.²⁰⁴

214. Spain's Penal Code provides for the punishment of:

anyone who, during armed conflict, uses methods or means of combat, or orders them to be used, which are . . . conceived to cause, or with good reason are expected to cause, extensive, permanent and severe damage to the natural environment, endangering the health or the survival of the population.²⁰⁵

215. Under Tajikistan's Criminal Code, "ecocide", namely "mass extermination of flora or fauna, poisoning the atmosphere or water resources, as well as other acts capable of causing an ecological catastrophe", constitutes a crime against the peace and security of mankind.²⁰⁶

216. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iv) of the 1998 ICC Statute.²⁰⁷

217. Under Ukraine's Criminal Code, "ecocide", namely "mass destruction of flora and fauna, poisoning of air or water resources, and any other acts that may cause an ecological disaster", constitutes a criminal offence.²⁰⁸

²⁰⁷ Trinidad and Tobago, *Draft ICC Act* (1999), Section 5(1)(a).

²⁰⁸ Ukraine, *Criminal Code* (2001), Article 441.

218. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iv) of the 1998 ICC Statute.²⁰⁹

219. Under Vietnam's Penal Code, "ecocide, destroying the natural environment", whether committed in time of peace or war, constitutes a crime against humanity.²¹⁰

220. The Penal Code as amended of the SFRY (FRY), in a part dealing with "war crimes against civilians", provides for the punishment of:

any person who may order the following in violation of the rules of international law during armed conflict or occupation: . . . long-term and widespread damage to the natural environment which may harm the health or survival of the population, or any person who may commit [such] acts.²¹¹

National Case-law

221. No practice was found.

Other National Practice

222. At the CDDH, Australia stated that the adoption of Article 48 *bis* of draft AP I (now Article 55) "might well fill a gap in humanitarian law applicable in armed conflicts".²¹²

223. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Australia stated that "in recent times the issue of the protection of the environment in armed conflict has been a particular international concern" and referred to a number of international treaties including the relevant provisions of the 1976 ENMOD Convention, AP I and the 1993 CWC. It stated that these instruments provided "cumulative evidence that weapons having . . . potentially disastrous effects on the environment, and on civilians and civilian targets, are no longer compatible with the dictates of public conscience reflected in general principles of humanity".²¹³

224. In 1992, in identical letters to the UN Secretary-General and the President of the UN Security Council, Bosnia and Herzegovina stated that "in Tuzla, the aggressor has attacked a major chemical facility, which could cause a massive ecological catastrophe encompassing much of southern Europe. Stocks of chlorine there are 128 times larger than they were in Bhopal, India, before the disaster."²¹⁴

²⁰⁹ UK, *ICC Act* (2001), Sections 50(1) and 51(1) (England and Wales) and Section 58(1) (Northern Ireland).

²¹⁰ Vietnam, *Penal Code* (1990), Article 278.

²¹¹ SFRY (FRY), *Penal Code* (1995), Article 142(2).

²¹⁴ Bosnia and Herzegovina, Identical letters dated 6 June 1992 to the UN Secretary-General and the President of the UN Security Council, UN Doc. S/24081, 10 June 1992, p. 2.

225. In 1993, in a letter to the President of the UN Security Council, Bosnia and Herzegovina stated that:

On 1 December, at 2115, from the direction of Korenita Strana near the town of Koraj, Serbian forces fired two "Volkov" rockets in the direction of the chemical plant complex [in Tuzla]. One rocket landed within the fenced-in area of the complex. Fortunately, this rocket did not hit the storage tanks holding the chlorine and other chemicals, and a major humanitarian and ecological disaster did not occur... As per the request of the Mayor of Tuzla, we ask that the Security Council send a team of international experts to Tuzla to assess the potential humanitarian and ecological consequences if the chemical plant is hit by artillery.²¹⁵

226. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Ecuador stated that:

The effects of the use of nuclear weapons will, in all cases, have devastating effects on the environment. Consequently, it is contrary to the humanitarian conditions that prohibit the destruction of the environment, which is the only guarantee of the survival of the human species, and of the whole chain of life of the planet.²¹⁶

227. At the CDDH, Egypt held the position that "any substantial deterioration of the environment in wartime must be forbidden".²¹⁷

228. At the CDDH, the FRG declared that it joined in the consensus on Article 33 of draft Protocol I (now Article 35 AP I) "with the understanding that... paragraph 3 of this article is an important new contribution to the protection of the natural environment in times of international armed conflict".²¹⁸

229. In 1988, a member of the German parliament pointed out that the rules in the Additional Protocols referring to the protection of the environment were indeed new norms. He suggested that this opinion was shared by all parliamentary groups and no protest was raised.²¹⁹

230. The memorandum annexed to Germany's declaration of ratification of the Additional Protocols referred to the rules on the protection of the environment as "new norms".²²⁰

231. In 1991, the German Minister for Family and Education accused Saddam Hussein of "fighting not according to the methods of international humanitarian law, but... of terrorism", referring, *inter alia*, to the "massive destruction of

the environment by Iraqi forces".²²¹ The German Minister for the Environment accused Saddam Hussein of "brutal terrorism . . . against the environment".²²²

232. In its counter memorial submitted to the ICJ in the *Nuclear Weapons (WHO) case*, India stated that "the customary as well as conventional law of war prohibits the use of methods and means of warfare that may cause widespread, long-term and severe damage to the environment".²²³

233. According to the Report on the Practice of India, although Indian military and police regulations do not explicitly refer to the protection of the natural environment in times of internal conflict, the obligation to maintain public order can be interpreted as including the prevention of a serious threat to the natural environment. Furthermore, the report maintains that such an approach would be in line with an extensive interpretation of the right to life and personal freedom under Article 21 of the Indian Constitution and the relevant jurisprudence of the Indian Supreme Court.²²⁴

234. In 1991, during a debate in the Sixth Committee of the UN General Assembly on the exploitation of the environment as a weapon in times of armed conflict, Iran cited "various provisions of Additional Protocol I (1977) to the Geneva Conventions which related to the protection of the environment and led to the conclusion that that instrument clearly prohibited attacks on the environment and the use of the environment as a tool of warfare".²²⁵

235. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Iran stated, with respect to Article 35 AP I, that "no doubt, this prohibition applies to nuclear weapons for their enormous destructive and long term effect on the environment".²²⁶

236. According to the Report on the Practice of Iran, following the bombardment of Iranian oil wells in the Gulf during the Iran–Iraq War, Iran's ambassador to Kuwait announced that "Iraq had violated Articles 35 and 37 [AP I]".²²⁷

237. In 1991, in a letter to the UN Secretary-General, Iraq affirmed that it was willing "to do everything to protect the environment and natural resources and not to exploit them as a weapon in times of armed conflict" and drew attention to the "appalling environmental damage caused by coalition forces in Kuwait

²²¹ Germany, Statement by the Federal Minister for Family Affairs and Senior Citizens, Hannelore Rönch, 5 February 1991, *Bulletin*, No. 18, Presse- und Informationsamt der Bundesregierung, Bonn, 19 February 1991, p. 124.

²²⁷ Report on the Practice of Iran, 1997, Chapter 4.4.

and Iraq".²²⁸ A similar statement was made in 1991 during a debate in the Sixth Committee of the UN General Assembly on the environmental impact of the Gulf War.²²⁹

238. According to the Report on the Practice of Iraq, "it is not permissible to violate the existing environmental system" and "to use it as a means of oppression". The report concludes that "the violation of this principle is considered a war crime".²³⁰

239. At the CDDH, Ireland referred to the adoption of Article 48 *bis* of draft AP I (now Article 55) as an "event in the history of international humanitarian law".²³¹

240. At the CDDH, Ireland, which was one of the countries that voted in favour of Article 20 of draft AP II, explained that it was "particularly concerned" to retain paragraph 3 of this article "because of the development of methods of warfare capable of causing widespread, long-term and severe damage to the natural environment and the danger that such methods may be used by one side even in a non-international armed conflict".²³²

241. The Report on the Practice of Israel states that the "Israel Defence Force does not utilise or condone the use of methods or means of warfare which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment".²³³

242. At the CDDH, while expressing its readiness to join in a consensus on the adoption of Article 48 *bis* of draft AP I (now Article 55), Italy stated that this article "marked a big step forward in the protection of the natural environment in the event of international armed conflict".²³⁴

243. In 1991, in a note verbale to UN Secretary-General, Jordan requested the inclusion of the item "exploitation of the environment as a weapon in times of armed conflict and the taking of practical measures to prevent such exploitation" in the provisional agenda of the 46th Session of the UN General Assembly.²³⁵ In an explanatory memorandum supporting its request Jordan stated that:

In a world where all humanity is ecologically vulnerable, it has become evident that warfare is no longer a tenable policy option for civilized nations. It is common

knowledge that the recent military conflict in the Gulf had an impact of tragic proportions on both the people of the region and the environment. Scientists have calculated that it will take decades to recover from the environmental damage resultant from the confrontation. This emphasizes the urgent necessity to prevent any further exploitation of the environment as a means of indiscriminate destruction. The environment must be taken into consideration from the initial stages of conflict decision-making by both politicians and military decision makers. In our approach to the next millennium, it is evident that closer cooperation between all nations is essential if we are to avoid further environmental destruction and conflict. All should realize that environmental degradation is not limited to the confines of any one nation State.²³⁶

244. In 1992, in a memorandum annexed to a letter to the Chairman of the Sixth Committee of the UN General Assembly, Jordan and the US noted that for those States party to AP I, the following principles of international law provide additional protection for the environment in times of armed conflict: "a) Article 55 of AP I requires States parties to take care in warfare to protect the natural environment against widespread, long-term and severe damage".²³⁷

245. In 1991, in a letter to the UN Secretary-General in 1991, Kuwait expressed support for Jordan's request to include the item "exploitation of the environment as a weapon in times of armed conflict and the taking of practical measures to prevent such exploitation" in the provisional agenda of the 46th Session of the UN General Assembly because of its "substantial concern and interest in protecting the environment and natural resources, which are the property of the entire mankind, and preventing their use as a weapon of terrorism as we witnessed during the war of Kuwait's liberation".²³⁸

246. In 1998, during a lecture given at the Centre of Near and Middle East Studies of the London School of Oriental and African Studies, the Chairman of the Kuwaiti Public Authority on Environment accused Iraq of having caused "the greatest premeditated environmental catastrophe ever experienced in the history of mankind". He expressed concern about the adverse effects of "Iraqi crimes against the marine environment in Kuwait".²³⁹

247. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Lesotho stated that "any use of nuclear weapons, even in self-defence, would violate international humanitarian law, including the Hague and Geneva Conventions, which prohibit as practices of war, . . . causing long-term or severe damage to the environment".²⁴⁰

²³⁶ Jordan, Explanatory memorandum, annexed to Note verbale dated 5 July 1991 to the UN Secretary-General, UN Doc. A/46/141, 8 July 1991, p. 2, § 1.

²⁴⁰ Lesotho, Written statement submitted to the ICJ, *Nuclear Weapons case*, 20 June 1995, p. 2.

248. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the Marshall Islands was of the view that “any use of nuclear weapons violates laws of war including the Geneva and Hague Conventions and the United Nations Charter. Such laws prohibit . . . the causing of long-term damage to the environment.”²⁴¹

249. In its response to submissions of other States to the ICJ in the *Nuclear Weapons (WHO) case* in 1995, Nauru stated that “it is also a violation of customary international law . . . to use weapons that cause severe damage to the environment”.²⁴²

250. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, New Zealand stated that:

Protection of the global environment is now a major concern of the international community, with widespread support for progressive development of international treaty law in this area. The condemnation of the large-scale environmental damage wreaked upon Kuwait by Iraqi forces during the “Gulf War” in 1991 was in part a reflection of this concern. It would be a matter for consideration by the Court whether the avoidance of widespread, long-term and severe damage to the environment during war could yet be regarded as itself a rule of customary law.²⁴³

251. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, New Zealand invoked a principle of IHL whereby “parties to a conflict must not use methods or means of warfare which are intended or may be expected to cause widespread, long-term and severe damage to the natural environment”.²⁴⁴

252. At the CDDH, Portugal, which was one of the countries that voted in favour of Article 20 of draft AP II, explained that it regarded “the article as a fundamental humanitarian provision the adoption of which will not imperil the authority of the State”.²⁴⁵

253. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1993, Rwanda stated that a State which uses nuclear weapons endangers human health and the environment and violates its obligations under IHL.²⁴⁶

254. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1994, Samoa stated that it considered that “the use of nuclear

²⁴¹ Marshall Islands, Written statement submitted to the ICJ, *Nuclear Weapons case*, 22 June 1995, p. 4.

²⁴⁴ New Zealand, Oral pleadings before the ICJ, *Nuclear Weapons case*, 9 November 1995, Verbatim Record CR 95/28, p. 27.

²⁴⁵ Portugal, Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 123.

²⁴⁶ Rwanda, Written statement submitted to the ICJ, *Nuclear Weapons (WHO) case*, 8 December 1993, p. 2.

weapons by a State in war or other armed conflict would be a violation of international customary law and conventions, including the Hague Conventions and the Geneva Conventions", adding that "such law and conventions prohibit the use of weapons . . . which cause widespread, long-term and severe damage to the environment".²⁴⁷

255. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Samoa, while arguing that the question as to whether the threat or use of nuclear weapons was permitted under international law should be answered in the negative, referred to the nuclear tests in the Pacific and to their "significant and long term effects on the health of Pacific people and the environment", adding that it had "a large stake in safeguarding its environment, and the survival of the planet".²⁴⁸

256. At the CDDH, Saudi Arabia, which was one of the countries that voted against Article 20 of draft AP II, stated that "since the legitimate party to an internal conflict is the *de jure* State . . . we consider that the article was merely a repetition in contradiction with draft Protocol II". It also stated that in Islamic society war's sole aim is to repel aggressors without exposing . . . the environment to danger."²⁴⁹

257. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the Solomon Islands maintained that:

The extraordinary power of nuclear weapons and the enormity of their effects on human health and the environment necessarily means that their use violates, directly or indirectly, those rules of the international law of armed conflict which prohibit:

- the use of weapons that render death inevitable;
- the use of weapons which have indiscriminate effects;
- any behaviour which might violate this law.

...

Additionally, international law now also regulates the methods and means of warfare with the aim of ensuring appropriate protection for the environment. It establishes, in particular, an absolute prohibition on the use of weapons which will cause "widespread, long-term and severe damage to the environment". [Articles 35(3) and 55 AP I are quoted] There can be little doubt that any use of nuclear weapons would cause "widespread, long-term and severe damage" to the environment, engendering a violation of Articles 35(3) and 55 [AP I] and the customary obligation reflected therein.²⁵⁰

²⁴⁷ Samoa, Written statement submitted to the ICJ, *Nuclear Weapons (WHO) case*, 16 September 1994, p. 3.

²⁴⁸ Samoa, Written statement submitted to the ICJ, *Nuclear Weapons case*, 15 June 1995, p. 1.

²⁴⁹ Saudi Arabia, Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 123.

²⁵⁰ Solomon Islands, Written statement submitted to the ICJ, *Nuclear Weapons case*, 19 June 1995, §§ 3.63 and 3.78.

In its oral pleadings, the Solomon Islands further invoked "the existence of a customary norm prohibiting significant environmental damage in war".²⁵¹

258. At the CDDH, while expressing satisfaction at the adoption of the two Additional Protocols, Sweden pointed out that "there were now for the first time explicit rules against . . . environmental warfare".²⁵²

259. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Sweden stated that "in accordance with an established basic principle, expressed, for example, in the Declaration made by the 1972 UN Conference on the Human Environment, there are impediments to the use of weapons which cause extensive, long-term and serious damage to the environment".²⁵³

260. In 1981, Switzerland's Federal Council qualified Articles 35(3) and 55 AP I as stating a "new prohibition".²⁵⁴

261. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1994, Ukraine stated that it was "deeply convinced that, in view of the health and environmental effects, the use of nuclear weapons by a State in war or other armed conflict would be a breach of its obligation under international law".²⁵⁵

262. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the UK stated that:

Articles 35(3) and 55 of Additional Protocol I are broader in scope than the [1976 ENMOD] Convention, in that they are applicable to the incidental effects on the environment of the use of weapons. They were, however, innovative provisions when included in Additional Protocol I, as was made clear in a statement by the Federal Republic of Germany on the adoption of what became Article 35 of the Protocol [see *infra*]. As new rules, the provisions of Articles 35(3) and 55 are subject to the understanding . . . that the new provisions created by Additional Protocol I do not apply to the use of nuclear weapons. The view that the environmental provisions of Protocol I are new rules and thus inapplicable to the use of nuclear weapons is confirmed by a number of commentators.²⁵⁶

263. In 1987, the Deputy Legal Adviser of the US Department of State stated that:

²⁵¹ Solomon Islands, Oral pleadings before the ICJ, *Nuclear Weapons case*, 14 November 1995, Verbatim Record CR 95/32, § 19.

²⁵² Sweden, Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR.58, 9 June 1977, p. 307, § 133.

²⁵³ Sweden, Written statement submitted to the ICJ, *Nuclear Weapons case*, 20 June 1995, p. 5; see also Written statement submitted to the ICJ, *Nuclear Weapons (WHO) case*, undated, p. 5 (extracts from the Report of the Swedish Parliamentary Standing Committee on Foreign Affairs).

²⁵⁴ Switzerland, Federal Council, Message concernant les Protocoles Additionnels aux Conventions de Genève, 18 February 1981, p. 38, § 211.411.

²⁵⁵ Ukraine, Written statement submitted to the ICJ, *Nuclear Weapons (WHO) case*, 16 May 1994, p. 1.

²⁵⁶ UK, Written statement submitted to the ICJ, *Nuclear Weapons case*, 16 June 1995, § 3.77.

We, however, consider that another principle in article 35, which also appears later in the Protocol, namely that the prohibition of methods or means of warfare intended or expected to cause widespread, long-term and severe damage to the environment, is too broad and ambiguous and is not a part of customary law.

...

The United States, however, considers the rule on the protection of the environment contained in article 55 of Protocol I as too broad and too ambiguous for effective use in military operations . . . Means and methods of warfare that have such a severe effect on the natural environment so as to endanger the civilian population may be inconsistent with the other general principles, such as the rule of proportionality.²⁵⁷

264. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that "U.S. practice does not involve methods of warfare that would constitute widespread, long-term and severe damage to the environment"²⁵⁸

265. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that:

In a development with potential devastating consequences for the environment of the Gulf, we would like to report that a vast oil slick occurred in the northern Gulf this week. Iraqi occupation forces created this slick by opening the Sea Island terminal pipelines and an oiling buoy on approximately 19 January, allowing oil to flow directly into the northern Gulf. We have evidence that Iraqi forces simultaneously emptied five oil tankers moored at piers at the Mina al-Ahmadi oil field. As of 28 January the resulting oil slick was at least 35 miles long and 10 miles wide. This is the largest oil slick in history.

On 26 January after full consultation with oil and environmental experts and the Governments of Kuwait and Saudi Arabia, United States aircraft destroyed two manifold areas used for pumping oil along pipelines. We believe this action has halted the discharge of oil into the Gulf. At the request of the Government of Saudi Arabia, the United States dispatched expert personnel and specific equipment to help contain the slick and minimize its environmental impact. Several other countries have also sent teams to provide assistance.²⁵⁹

266. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that "Iraqi authorities have deliberately caused serious damage to the natural environment of the region".²⁶⁰

²⁵⁷ US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, pp. 424 and 436.

²⁶⁰ US, Letter dated 13 February 1991 to the President of the UN Security Council, UN Doc. S/22216, 13 February 1991, p. 2.

267. In 1992, in its final report to Congress on the conduct of hostilities in the Gulf War, the US Department of Defence declared, with particular reference to the applicability of Articles 35 and 55 AP I, that:

Even had Protocol I been in force, there were questions as to whether the Iraqi actions would have violated its environmental provisions. During that treaty's negotiation, there was general agreement that one of its criteria for determining whether a violation had taken place ("long term") was measured in decades. It is not clear the damage Iraq caused, while severe in a layman's sense of the term, would meet the technical-legal use of that term in Protocol I. The prohibitions on damage to the environment contained in Protocol I were not intended to prohibit battlefield damage caused by conventional operations and, in all likelihood, would not apply to Iraq's actions in the Persian Gulf War.²⁶¹

268. In 1994, in a memorandum on a depleted uranium tank round, the US Department of the Army stated that Article 35(3) and 55 AP I "do not codify customary international law, but nonetheless are obligations the United States has respected in its conduct of military operations since promulgation of the 1977 Additional Protocol I".²⁶²

269. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the US stated, with respect to the prohibition on the use of "methods or means of warfare which are intended, or may be expected, to cause widespread, long-term and severe damage to the natural environment" as embodied in Articles 35(3) and 55 AP I, that "this is one of the new rules established by [AP I] that . . . do not apply to nuclear weapons".²⁶³

270. At the CDDH, the SFRY stated that "biological and ecological warfare, as developed more particularly in Vietnam, should be placed under the ban of the new body of international humanitarian law".²⁶⁴ This view was supported by Hungary and North Vietnam.²⁶⁵

271. In 1999, following the NATO bombing of the petrochemical complex in Pancevo in the FRY, the Yugoslav Federal Minister for Development, Science and Environment warned "the European and the world-wide public of the danger which will, with repeated attacks on such industrial complexes, affect lives and health of people and cause environment pollution".²⁶⁶ On the occasion of

²⁶⁶ FRY, Appeal by the Federal Minister for Development, Science and Environment to Ministers for Environment Protection, 17 April 1999.

World Day of the Planet Earth, on 22 April 1999, the Yugoslav Federal Minister for Development, Science and Environment launched an appeal to stop NATO's bombing campaign against the FRY, which he stated had already provoked an "environmental catastrophe". In particular, the Minister referred to attacks by NATO forces on national parks and nature reserves harbouring protected species of flora and fauna, as well as on chemical, oil and pharmaceutical plants.²⁶⁷ Another appeal by the Ministry dated 30 April 1999 aimed at informing the international community of the effects on the environment of NATO's military operations against the FRY, accused NATO forces of bombing civilian industrial facilities, including the petrochemical complex in Pancevo and the refinery in Novi Sad, thereby causing the spillage of harmful chemical substances which posed a "serious threat to human health in general and to ecological systems locally and in the broader Balkan and European regions". According to the Ministry, "the nineteen countries of NATO are committing an 'ecocide' as it were against the population and environment of Yugoslavia".²⁶⁸ The accusations were reiterated in a subsequent appeal dated 25 May 1999, which provided information on the actual and potential environmental impacts of NATO's attacks on the FRY.²⁶⁹ In a further appeal to the international community issued on 3 June 1999, the Yugoslav Federal Minister for Development, Science and Environment denounced daily attacks on chemical and electrical power plants by NATO forces, which he said had resulted in the emission of large quantities of dangerous substances "with negative consequences for people, plants and animals". The Minister maintained that "the NATO aggression on Yugoslavia contains essential elements of ecocide", adding that "man's right to safe and healthy environment is endangered by the NATO aggression". He also referred to the violation by NATO of "humanitarian law provisions, especially the Geneva Conventions with the related Protocols", as well as of "international agreement provisions in the field of environment" and "the basic proclaimed principles of environmental protection".²⁷⁰ In a letter to the UNEP Executive Director, the Minister for Development, Science and Environment of the FRY stressed "the environmental consequences inflicted by the NATO aggression on the Federal Republic of Yugoslavia". After accusing NATO of targeting on a daily basis "national parks, nature reservations, monuments of cultural and natural heritage, rare and protected plants and animal species, among which are those of international importance", the Minister stated that "NATO by its aggression is causing ecocide in the environment of the Federal

Republic of Yugoslavia and wider, in the whole Balkans and considerable part of Europe. The real ecological catastrophe is going on in the heart of Europe with unforeseeable time and space range."²⁷¹

272. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Zimbabwe stated that it fully shared the analysis by other States that "the threat or use of nuclear weapons violates the principles of humanitarian law prohibiting the use of weapons or methods of warfare that . . . cause long term and severe damage to the environment".²⁷²

III. Practice of International Organisations and Conferences

United Nations

273. In a resolution adopted in 1994 on the United Nations Decade on International Law, the UN General Assembly referred to the 1994 Guidelines on the Protection of the Environment in Times of Armed Conflict. The General Assembly invited:

all States to disseminate widely the revised guidelines for military manuals and instructions on the protection of the environment in times of armed conflict received from the International Committee of the Red Cross and to give due consideration to the possibility of incorporating them into their military manuals and other instructions addressed to their military personnel.²⁷³

274. The programme of activities for the final term (1997–1999) of the UN Decade of International Law, adopted by the UN General Assembly in 1996, states that:

In connection with training of military personnel, States are encouraged to foster the teaching and dissemination of the principles governing the protection of the environment in times of armed conflict and should consider the possibility of making use of the guidelines for military manuals and instructions prepared by the International Committee of the Red Cross.²⁷⁴

275. In a decision in 1991, UNEP's Governing Council stated that, with regard to the environmental effects of warfare, it was aware of the general prohibition on employing methods or means of warfare that were intended, or could be expected, to cause widespread, long-term or severe damage to the natural environment, laid down in AP I and the 1976 ENMOD Convention.²⁷⁵ It recommended that:

²⁷⁴ UN General Assembly, Res. 51/157, 16 December 1996, Annex, § 19.

²⁷⁵ UNEP, Governing Council, Decision 16/11, 31 May 1991, preamble.

Governments consider identifying weapons, hostile devices and ways of using such techniques that would cause particularly serious effects on the environment and consider efforts in appropriate forums to strengthen international law prohibiting such weapons, hostile devices and ways of using such techniques.²⁷⁶

Other International Organisations

276. In a resolution adopted in 1991, the Parliamentary Assembly of the Council of Europe condemned "the disgraceful attack on the environment represented by Iraq's fouling of the Gulf with oil, with catastrophic effects which can be considered a crime against humanity".²⁷⁷

277. In 2001, in a report on the environmental impact of the war in the FRY on south-east Europe, the Committee on the Environment, Regional Planning and Local Authorities of the Parliamentary Assembly of the Council of Europe noted that the military operations conducted by NATO against the FRY during the 1999 Kosovo crisis had caused serious damage to the country's natural environment and that the damage had extended to several other countries of south-east Europe. It argued that, since it was "highly predictable" that NATO's military action "would have grave environmental consequences", and such consequences had been "fairly evident right from the start of the air strikes", "the militarily inflicted environmental damage can be presumed to have been deliberate".²⁷⁸ It therefore concluded that "the military operations violated the environmental-protection rule laid down in the First Additional Protocol to the Geneva Convention. In particular, bombing environmentally hazardous installations is a flagrant breach of that protocol."²⁷⁹ Following this report, the Parliamentary Assembly of the Council of Europe adopted a recommendation, in which it noted with concern "the serious environmental impact of military operations over the Federal Republic of Yugoslavia between 25 March and 5 June 1999".²⁸⁰ It stated that:

As was the case for operations in Bosnia and Chechnya, states involved in these operations disregarded the international rules set out in Articles 55 and 56 of Protocol I (1977) to the Geneva Conventions of 1949 intended to limit environmental damage in armed conflict. In the Assembly's view, these rules should be strengthened and enforced in order to prevent or at least lessen such violations of fundamental human rights in any future conflict.²⁸¹

²⁷⁶ UNEP, Governing Council, Decision 16/11, 31 May 1991, § 2.

²⁷⁷ Council of Europe, Parliamentary Assembly, Res. 954, 29 January 1991, § 6.

²⁷⁹ Council of Europe, Parliamentary Assembly, Committee on the Environment, Regional Planning and Local Authorities, Report on the Environmental Impact of the War in Yugoslavia on South-East Europe, Doc. 8925, 10 January 2001, § 61.

²⁸⁰ Council of Europe, Parliamentary Assembly, Rec. 1495, 24 January 2001, § 1.

²⁸¹ Council of Europe, Parliamentary Assembly, Rec. 1495, 24 January 2001, § 2.

278. In a declaration adopted in 1991 on the environmental situation in the Gulf, the OECD Ministers of the Environment condemned Iraq's burning of oil fields and discharging of oil into the Gulf as a violation of international law and a crime against the environment, and urged Iraq to cease to resort to environmental destruction as a weapon.²⁸²

International Conferences

279. At the CDDH, the concluding report of the Working Group which drafted Articles 33(3) and 48 *bis* of draft AP I (now Articles 35(3) and 55 respectively) stated that it was "the first occasion on which an attempt has been made to provide in express terms for the protection of the environment in time of war". It stated that, therefore, "it is not surprising that the question should have given a great deal of difficulty to the Working Group".²⁸³

280. In a decision adopted in 1992, the CSCE Committee of Senior Officials drew attention to the human and environmental catastrophe which could result from continued shelling of the city of Tuzla, which is home to one of the largest chemical complexes in the Balkans. This plant contained large and potentially hazardous chemicals. Fire or explosion could result in a serious threat to the human health and to the environment.²⁸⁴

IV. Practice of International Judicial and Quasi-judicial Bodies

281. In his dissenting opinion in the *Nuclear Tests case (Request for an Examination of the Situation)* in 1995, Judge Koroma stated that "under contemporary international law, there is probably a duty not to cause gross or serious damage which can reasonably be avoided, together with a duty not to permit the escape of dangerous substances".²⁸⁵

282. In its advisory opinion in the *Nuclear Weapons case* in 1996, the ICJ held that Articles 35(3) and 55 AP I:

provide additional protection for the environment. Taken together these provisions embody a general obligation to protect the natural environment against widespread, long-term and severe environmental damage; the prohibition of methods and means of warfare which are intended, or may be expected, to cause such

²⁸² OECD, Communiqué SG/Press (91), Déclaration des Ministres de l'Environnement sur la situation écologique dans le Golfe, 30 January 1991, quoted in Paul Fautoux, "L'utilisation de l'environnement comme instrument de guerre au Koweït occupé", in Brigitte Stern (ed.), *Les aspects juridiques de la crise et de la guerre du Golfe*, Montchrestien, Paris, 1991, p. 234.

²⁸⁴ CSCE, Committee of Senior Officials, 12th Session, Prague, 8–10 June 1992, Decision, annexed to Letter dated 11 June 1992 from Czechoslovakia to the UN Secretary-General, UN Doc. A/47/269-S/24093, 12 June 1992, § 6.

²⁸⁵ ICJ, *Nuclear Tests case (Request for an Examination of the Situation)*, Dissenting Opinion of Judge Koroma, 22 September 1995, p. 378.

damage... These are powerful constraints for all the States having subscribed to these provisions.²⁸⁶

283. In its Final Report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that:

14. The NATO bombing campaign did cause some damage to the environment. For instance, attacks on industrial facilities such as chemical plants and oil installations were reported to have caused the release of pollutants, although the exact extent of this is presently unknown. The basic legal provisions applicable to the protection of the environment in armed conflict are [Articles 35(3) and 55 AP I].
15. Neither the USA nor France has ratified Additional Protocol I. Article 55 may, nevertheless, reflect current customary law (see however the 1996 Advisory Opinion on the Legality of Nuclear Weapons, where the International Court of Justice appeared to suggest that it does not (ICJ Rep. (1996), 242, para. 31)). In any case, Articles 35(3) and 55 have a very high threshold of application. Their conditions for application are extremely stringent and their scope and contents imprecise. For instance, it is generally assumed that Articles 35(3) and 55 only cover very significant damage. The adjectives "widespread, long-term, and severe" used in [AP I] are joined by the word "and", meaning that it is a triple, cumulative standard that needs to be fulfilled. Consequently, it would appear extremely difficult to develop a *prima facie* case upon the basis of these provisions, even assuming they were applicable. For instance, it is thought that the notion of "long-term" damage in [AP I] would need to be measured in years rather than months, and that as such, ordinary battlefield damage of the kind caused to France in World War I would not be covered. The great difficulty of assessing whether environmental damage exceeded the threshold of [AP I] has also led to criticism by ecologists. This may partly explain the disagreement as to whether any of the damage caused by the oil spills and fires in the 1990/91 Gulf War technically crossed the threshold of [AP I].²⁸⁷

V. Practice of the International Red Cross and Red Crescent Movement

284. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "it is prohibited to use weapons of a nature to cause... b) widespread, long-term and severe damage to the natural environment".²⁸⁸

285. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context of the Gulf War, the ICRC invited States not party to AP I to respect, in the

²⁸⁶ ICJ, *Nuclear Weapons case*, Advisory Opinion, 8 July 1996, § 31.

²⁸⁷ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, 14 June 2000, §§ 14–15.

²⁸⁸ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 394.

event of armed conflict, Article 55 AP I because its content stemmed “from the basic principle of civilian immunity from attack”.²⁸⁹

286. In 1993, in a report submitted to the UN Secretary-General on the protection of the environment in times of armed conflict, the ICRC stated, regarding the threshold set by Articles 35(3) and 55 AP I, that:

The question as to what constitutes “wide-spread, long-term and severe” damage and what is acceptable damage to the environment is open to interpretation. There are substantial grounds, including from the *travaux préparatoires* of [AP I], for interpreting “long-term” to refer to decades rather than months. On the other hand, it is not easy to know in advance exactly what the scope and duration of some environmentally damaging acts will be; and there is a need to limit as far as possible environmental damage even in cases where it is not certain to meet a strict interpretation of the criteria of “widespread, long-term and severe”.²⁹⁰

287. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC, emphasising the customary law nature of the grave breaches of the Geneva Conventions, considered that “wilfully causing widespread, long-term and severe damage to the natural environment” in international or non-international armed conflicts was a war crime to be subject to the jurisdiction of the ICC.²⁹¹

VI. Other Practice

288. During a meeting of the IHL held in 1993 as part of the process which resulted in the drafting of the 1994 San Remo Manual, a special rapporteur on the protection of the environment in armed conflict emphasised that “the experience of the Gulf War (1991) showed very clearly that there was at least an emerging rule forbidding the use of the marine environment as an instrument of warfare”.²⁹²

289. In 1995, the IUCN Commission on Environmental Law, in cooperation with the International Council of Environmental Law, issued the Draft International Covenant on Environment and Development, which was intended to stimulate consideration of a global instrument on environmental conservation and sustainable development. Article 32(1) provides that:

²⁸⁹ ICRC, Memorandum on the Applicability of International Humanitarian Law, 14 December 1990, § II, *IRRC*, No. 280, 1991, p. 25.

²⁹⁰ ICRC, Report on the protection of the environment in time of armed conflict submitted to the UN General Assembly, reprinted in Report of the UN Secretary-General on the protection of the environment in times of armed conflict, UN Doc. A/48/269, 29 July 1993, § 34.

²⁹¹ ICRC, Working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, 14 February 1997, §§ 2(ii) and 3(viii).

²⁹² Louise Doswald-Beck (ed.), *San Remo Manual on International Law Applicable to Armed Conflicts at Sea*, Cambridge University Press, Cambridge, 1995, p. 119, Explanation, § 44.4.

Parties shall protect the environment during periods of armed conflict. In particular, Parties shall:

- ...
- (c) not employ or threaten to employ methods or means of warfare which are intended or may be expected to cause widespread, long-term, or severe harm to the environment and ensure that such means and methods of warfare are not developed, produced, tested, or transferred; and
 - (d) not use the destruction or modification of the environment as a means of warfare or reprisal.²⁹³

Environmental modification techniques

Note: *For practice concerning the prohibition of herbicides under the 1976 ENMOD Convention, see Chapter 24, section C.*

I. Treaties and Other Instruments

Treaties

290. Article I of the 1976 ENMOD Convention provides that:

1. Each State Party to this Convention undertakes not to engage in military or any other hostile use of environmental modification techniques having widespread, long-lasting or severe effects as the means of destruction, damage or injury to any other State Party.
2. Each State Party to this Convention undertakes not to assist, encourage or induce any State, group of States or international organization to engage in activities contrary to the provisions of paragraph 1 of this article.

291. The understanding relating to Article I of the 1976 ENMOD Convention submitted, together with the text of the draft convention, by the Conference of the Committee on Disarmament to the UN General Assembly states that:

It is the understanding of the Committee that, for the purpose of this Convention, the terms "widespread", "long-lasting" and "severe" shall be interpreted as follows:

- (a) "widespread": encompassing an area on the scale of several hundred square kilometres;
- (b) "long-lasting": lasting for a period of months, or approximately a season;
- (c) "severe": involving serious or significant disruption or harm to human life, natural and economic resources or other assets.²⁹⁴

292. Article II of the 1976 ENMOD Convention provides that:

As used in article I, the term "environmental modification techniques" refers to any technique for changing – through the deliberate manipulation of natural processes –

²⁹³ IUCN, Commission on Environmental Law, Draft International Covenant on Environment and Development, Bonn, March 1995, Article 32(1).

²⁹⁴ Conference of the Committee on Disarmament, Understanding relating to Article I of the 1976 ENMOD Convention, UN Doc. A/31/27, 1976, pp. 91–92.

the dynamics, composition or structure of the Earth, including its biota, lithosphere, hydrosphere and atmosphere, or of outer space.

293. The understanding relating to Article II of the 1976 ENMOD Convention submitted, together with the text of the draft convention, by the Conference of the Committee on Disarmament to the UN General Assembly states that:

It is the understanding of the Committee that the following examples are illustrative of phenomena that could be caused by the use of environmental modification techniques as defined in article II of the Convention: earthquakes; tsunamis; an upset in the ecological balance of a region; changes in weather patterns (clouds, precipitation, cyclones of various types and tornadic storms); changes in climate patterns; changes in ocean currents; changes in the state of the ozone layer; and changes in the state of the ionosphere.

It is further understood that all the phenomena listed above, when produced by military or any other hostile use of environmental modification techniques, would result, or could reasonably be expected to result, in widespread, long-lasting or severe destruction, damage or injury. Thus, military or any other hostile use of environmental modification techniques as defined in article II, so as to cause those phenomena as a means of destruction, damage or injury to another State Party, would be prohibited.

It is recognized, moreover, that the list of examples set out above is not exhaustive. Other phenomena which could result from the use of environmental modification techniques as defined in article II could also be appropriately included. The absence of such phenomena from the list does not in any way imply that the undertaking contained in article I would not be applicable to those phenomena, provided the criteria set out in that article were met.²⁹⁵

Other Instruments

294. Paragraph 12 of the 1994 Guidelines on the Protection of the Environment in Times of Armed Conflict provides that:

The military or any other hostile use of environmental modification techniques having widespread, long-lasting or severe effects as the means of destruction, damage or injury to any other State party is prohibited. The term "environmental modification techniques" refers to any technique for changing – through the deliberate manipulation of natural processes – the dynamics, composition or structure of the Earth, including its biota, lithosphere, hydrosphere and atmosphere, or of outer space.

II. National Practice

Military Manuals

295. Australia's Defence Force Manual prohibits environmental modification techniques.²⁹⁶ It adds that:

²⁹⁵ Conference of the Committee on Disarmament, Understanding relating to Article II of the 1976 ENMOD Convention, UN Doc. A/31/27, 1976, pp. 91–92.

²⁹⁶ Australia, *Defence Force Manual* (1994), § 409.

Australia, as a signatory to the [1976 ENMOD Convention], has undertaken not to engage in any military or hostile use of environmental modification techniques which would have widespread, long lasting or severe effects as the means of destruction, damage or injury to any other state which is a party to the Convention.²⁹⁷

296. Canada's LOAC Manual states that "environmental techniques having widespread, long-lasting or severe effects are prohibited".²⁹⁸ It further states that:

45. In addition, Canada as a party to the Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques (ENMOD Convention) has undertaken not to engage in any military or hostile use of environmental modification techniques as the means of destruction, damage or injury to any other state which is party to the Convention.
46. An "environmental modification technique" is any technique for changing, through the deliberate manipulation of natural processes, the dynamics, composition or structure of the earth which would have widespread, long-term or severe effects.²⁹⁹

297. France's LOAC Manual states that:

The Stockholm Convention of 10 December 1976 (ENMOD), which has not been signed by France, prohibits the use of environmental techniques for military or any other hostile purposes. France has not adhered to this convention because it is of the opinion that it contains vague provisions which render its application uncertain, particularly with respect to nuclear dissuasion.³⁰⁰

298. Germany's Military Manual states that:

401. It is particularly prohibited to employ means or methods which are intended or of a nature . . . to cause widespread, long-term and severe damage to the natural environment.

...

403. "Widespread", "long-term" and "severe" damage to the natural environment is a major interference with human life or natural resources which considerably exceeds the battlefield damage to be regularly expected in a war. Damage to the natural environment by means of warfare (Art. 35 para 3, 55 para 1 AP I) and severe manipulation of the environment as a weapon (ENMOD) are likewise prohibited.³⁰¹

299. Indonesia's Military Manual states that "it is prohibited to use environment modification as a means of warfare."³⁰²

300. Israel's Manual on the Laws of War states that:

Besides conventional and non-conventional arms, there is another category of arms – those that have an impact on the natural environment. The 1970's saw a

²⁹⁸ Canada, *LOAC Manual* (1999), p. 5-3, § 22.

²⁹⁹ Canada, *LOAC Manual* (1999), p. 6-5, §§ 45-46.

³⁰⁰ France, *LOAC Manual* (2001), p. 63.

³⁰¹ Germany, *Military Manual* (1992), §§ 401 and 403, see also § 1020 (naval warfare).

³⁰² Indonesia, *Military Manual* (1982), § 134.

growing deep awareness for environmental protection, rousing in its wake an aversion to the United States' conduct during the Vietnam War, in which it destroyed forests and crops by chemical means (more than 54% of the forests in South Vietnam were destroyed), and even tested means for altering the weather in Indochina (bringing down rain so as to create mud and flooding in North Vietnam). In 1977 a convention was signed banning the use of environment-modifying technologies for war purposes, if such use has "large-scale, long-term or severe effects on another country that is a party to the Convention". The Convention (which Israel has not signed) defines the modification of the natural environment as "any change – through the intervention of natural processes – to the dynamics, composition or structure of the Earth".

The Gulf War:

During the Gulf War, Iraq flagrantly violated the Convention on the prohibition against modifying the environment during the military occupation of Kuwait (both countries signed the convention). Immediately following the outbreak of hostilities in the Gulf War, the Iraqis opened Kuwait's marine oil pipes, flooding the Persian Gulf with oil slicks. In addition, the Iraqi army set ablaze more than 700 oil wells when retreating. The resulting damage to the natural environment and the death of thousands of cormorants in oil puddles (without giving Iraq any military advantage whatsoever) was irreparable.³⁰³

301. Referring to South Korea's Military Law Manual, the Report on the Practice of South Korea states that the 1976 ENMOD Convention applies only to contracting parties.³⁰⁴ With respect to the Operational Law Manual, the report states that "it is a principle not to use weapons injuring the natural environment".³⁰⁵

302. New Zealand's Military Manual states that:

Parties to the [ENMOD] Convention have undertaken not to engage in any military or hostile use of environmental modification techniques which would have widespread, long-lasting or severe effects as the means of destruction, damage or injury to any other States Party to the Convention.

"Environmental modification techniques" are defined by ENMOD as any technique for changing, through the deliberate manipulation of natural processes, the dynamics, composition or structure of the earth, including its biota, lithosphere, hydrosphere and atmosphere or outer space. Care shall be taken in warfare to protect the natural environment against widespread, long-term and severe damage. This protection includes a prohibition of the use of methods or means of warfare which are intended or may be expected to cause such damage to the natural environment and thereby to prejudice the health or survival of the population.³⁰⁶ [emphasis in original]

³⁰³ Israel, *Manual on the Laws of War* (1998), p. 17.

³⁰⁴ Report on the Practice of South Korea, 1997, Chapter 4.4, referring to *Military Law Manual* (1996).

³⁰⁶ New Zealand, *Military Manual* (1992), §§ 505(2)–(3) and 614(2)–(3).

303. Russia's Military Manual states that "substances which have widespread, long-term and severe consequences on the environment" are prohibited means of warfare, referring in particular to the 1976 ENMOD Convention.³⁰⁷

304. Spain's LOAC Manual includes among prohibited methods of warfare all military or other hostile uses of environmental modification techniques having widespread, long-term or severe effects, which are adopted as a means of destruction, damage, or injury to any other State.³⁰⁸

National Legislation

305. No practice was found.

National Case-law

306. No practice was found.

Other National Practice

307. In 1992, in its opening statement, Australia, presiding the Second ENMOD Review Conference, questioned

whether the protection afforded by the Convention should be restricted to the States parties and whether activities such as deliberate "low-tech" environmental damage came within its purview. The absence so far of any accusations that the provisions of the Convention had been violated could be interpreted as meaning that its scope was so narrow that it had little practical application.³⁰⁹

308. In its memorandum annexed to the ratification instrument of the 1976 ENMOD Convention, the German government declared that the terms "widespread", "long-term" and "severe" were necessary to clarify the extent of the prohibition. It also underlined that only those significant cases of environmental damage or cases of deliberate attack on the environment should be covered by the relevant prohibitions.³¹⁰ As to the non-inclusion of a norm protecting the environment from the harmful effects caused by attacks against dams, dykes or nuclear power plants, the same memorandum stressed that the fact that such a norm was not included did not imply that these attacks were lawful under international law.³¹¹

309. In 1991, in a note verbale to UN Secretary-General, Jordan requested the inclusion of the item "exploitation of the environment as a weapon in times of

³⁰⁷ Russia, *Military Manual* (1990), § 6(g).

³⁰⁸ Spain, *LOAC Manual* (1996), Vol. I, § 3.3.(b).6.

³¹¹ Germany, Lower House of Parliament, Denkschrift zur ENMOD Konvention, 6 September 1982, *BT-Drucksache* 9/1952, p. 13.

armed conflict and the taking of practical measures to prevent such exploitation" in the provisional agenda of the 46th Session of the UN General Assembly.³¹² In an explanatory memorandum supporting its request Jordan stated that:

The existing 1977 [ENMOD Convention] was revealed as being painfully inadequate during the Gulf conflict. We find that the terms of the existing convention are so broad and vague as to be virtually impossible to enforce. We also find no provision for a mechanism capable of the investigation and settlement of any future disputes under the Convention. Furthermore, the Convention does not provide for advanced environmental scientific data to be made available to all States at the initial stages of crisis prevention.³¹³

310. In 1992, in a memorandum annexed to a letter to the Chairman of the Sixth Committee of the UN General Assembly, Jordan and the US noted that for those States party to the 1976 ENMOD Convention, the following principles of international law provide additional protection for the environment in times of armed conflict:

- e) The 1977 Convention (ENMOD) prohibits States parties from engaging in military or any other hostile use of environmental modification techniques (i.e., any techniques for changing – through the deliberate manipulation of natural processes – the dynamics, composition or structure of earth, its biota, lithosphere, hydrosphere and atmosphere, or of outer space) having widespread, long-lasting or severe effects as the means of destruction, damage or injury to any other State party.³¹⁴

311. In its written comments submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1995, responding to the UK and US submissions whereby the 1976 ENMOD Convention would not prohibit the use of nuclear weapons, being that such use is not intended to deliberately manipulate the natural environment, Malaysia stated that:

It is a general principle of law that the foreseeable consequences of an act are interpreted as an intention to bring them about. It is disingenuous, therefore, in view of what scientists have described as the enormously damaging environmental and climatic consequences of a nuclear exchange to assert that these would be mere "unintended side-effects".³¹⁵

312. In its response to submissions of other States to the ICJ in the *Nuclear Weapons (WHO) case* in 1995, Nauru stated that:

³¹² Jordan, Note verbale dated 5 July 1991 to the UN Secretary-General, UN Doc. A/46/141, 8 July 1991.

³¹³ Jordan, Explanatory memorandum, annexed to Note verbale dated 5 July 1991 to the UN Secretary-General, UN Doc. A/46/141, 8 July 1991, p. 2, § 2.

³¹⁴ Jordan and US, International Law Providing Protection to the Environment in Times of Armed Conflict, annexed to Letter dated 28 September 1992 to the Chairman of the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/47/3, 28 September 1992, § 2(e).

³¹⁵ Malaysia, Written comments on other written statements submitted to the ICJ, *Nuclear Weapons (WHO) case*, 19 June 1995, p. 28.

It is a general principle of law that the foreseeable consequences of an act are interpreted as an intention to bring them about. It is disingenuous, therefore, in view of what scientists have described as the enormously damaging environmental and climatic consequences of a nuclear exchange to assert that these would be mere "unintended side effects".³¹⁶

313. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the Solomon Islands stated that:

The [1976 ENMOD] Convention signals widespread recognition of the need to limit the use of the environment as a weapon of war, without diminishing in any way the customary and treaty obligations establishing clear norms for the protection of the environment which must be followed in times of war and armed conflict. As supplemented by the more detailed and emphatic obligations of [AP I], it is submitted that [the 1976] ENMOD [Convention] now reflects the customary obligation not to cause "widespread, long-lasting or severe" harm to the environment.³¹⁷

314. In 1992, during a debate in the Sixth Committee of the UN General Assembly on the protection of the environment in times of armed conflict, Ukraine qualified the release of large quantities of oil into the sea and the setting alight of numerous well heads as a "clear illustration of the hostile use of environmental modification techniques in contravention of international law".³¹⁸

315. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the UK stated that:

The [1976 ENMOD] Convention was designed to deal with the deliberate manipulation of the environment as a method of war . . . While the use of a nuclear weapon may have considerable effects on the environment, it is unlikely that it would be used for the deliberate manipulation of natural processes. The effect on the environment would normally be a side-effect of the use of a nuclear weapon, just as it would in the case of use of other weapons.³¹⁹

316. In 1992, in a statement at the Second ENMOD Review Conference, the US expressed the view that:

The [1976 ENMOD] Convention is not an Environmental Protection Treaty; it is not a treaty to prohibit damage to the environment resulting from armed conflict. Rather, the [1976 ENMOD] Convention fills a special, but important niche

³¹⁶ Nauru, Written comments on other written statements submitted to the ICJ, *Nuclear Weapons (WHO) case*, 15 June 1995, Part 2, p. 28.

reflecting the international community's consensus that the environment itself should not be used as an instrument of war.³²⁰

III. Practice of International Organisations and Conferences

United Nations

317. In a resolution adopted in 1994 on the United Nations Decade on International Law, the UN General Assembly referred to the 1994 Guidelines on the Protection of the Environment in Times of Armed Conflict. The General Assembly invited:

all States to disseminate widely the revised guidelines for military manuals and instructions on the protection of the environment in times of armed conflict received from the International Committee of the Red Cross and to give due consideration to the possibility of incorporating them into their military manuals and other instructions addressed to their military personnel.³²¹

318. The programme of activities for the final term (1997–1999) of the UN Decade of International Law, adopted by the UN General Assembly in 1996, states that:

In connection with training of military personnel, States are encouraged to foster the teaching and dissemination of the principles governing the protection of the environment in times of armed conflict and should consider the possibility of making use of the guidelines for military manuals and instructions prepared by the International Committee of the Red Cross.³²²

319. In a decision in 1991, UNEP's Governing Council stated that, with regard to the environmental effects of warfare, it was aware of the general prohibition on employing methods or means of warfare that were intended, or could be expected, to cause widespread, long-term or severe damage to the natural environment, laid down in AP I and the 1976 ENMOD Convention.³²³ It recommended that:

Governments consider identifying weapons, hostile devices and ways of using such techniques that would cause particularly serious effects on the environment and consider efforts in appropriate forums to strengthen international law prohibiting such weapons, hostile devices and ways of using such techniques.³²⁴

Other International Organisations

International Conferences

321. A report on the discussion concerning laser weapons which took place at the Conference of Government Experts on Weapons which may Cause Unnecessary Suffering or have Indiscriminate Effects in Lucerne in 1974 states that:

Geophysical warfare 270. The expert who put forward the subject of geophysical warfare for consideration stated that it included such activities as the modification of weather or climate and the causing of earthquakes. He stated that man already possessed the ability to bring about on a limited scale certain geophysical changes for which military applications were conceivable. In his view these would inevitably be indiscriminate, and could give rise to unforeseeable environmental changes of prolonged duration.

271. Another expert made the observation that any attempt to divert or release forces of nature would require an input of energy equivalent to, or greater than, the amount of energy or force diverted or released.

Environmental warfare

272. The expert who put forward the subject of environmental warfare for consideration meant it to include the modification of the natural environment for the purpose of denying an enemy access to an area, or reducing the availability of natural cover for concealment, or of denying or preventing the growth of food or other crops. He observed that certain of the potential means of environmental warfare, such a chemical-warfare agent, did not fall within the category of conventional weapons. He also stated that environmental warfare, in his understanding of the term, was closely linked with geophysical warfare; other experts preferred to treat the two subjects as one.

273. The view was expressed by one expert that environmental warfare, like geophysical warfare, was by its nature indiscriminate. A distinction might be drawn between intentional and unintentional environmental warfare, the latter denoting the environmental impact of large-scale employment of conventional weapons.

274. One expert drew the attention of the Conference to the draft convention on environmental warfare recently submitted by his government to the General Assembly of the United Nations, the scope of the convention also including geophysical means of warfare. He expressed the opinion that the importance of the convention, which, if agreed internationally, would in his view greatly promote the cause of disarmament, lay in its attempt to prevent, at an early stage, the introduction of a novel and threatening warfare technique. Several experts supported this proposal and this opinion.

...

Evaluation

277. Some experts were of the opinion that, because the effects of potential future weapons could have important humanitarian implications, it was necessary to keep a close watch in order to develop any prohibitions or limitations that might seem necessary before the weapon in question had become widely accepted.³²⁵

³²⁵ Conference of Government Experts on the Use of Certain Conventional Weapons, Lucerne, 24 September–18 October 1974, Report, ICRC, Geneva, 1975, §§ 270–274 and 277.

IV. Practice of the International Judicial and Quasi-judicial Bodies

322. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

323. No practice was found.

VI. Other Practice

324. In 1995, the IUCN Commission on Environmental Law, in cooperation with the International Council of Environmental Law, issued the Draft International Covenant on Environment and Development, which was intended to stimulate consideration of a global instrument on environmental conservation and sustainable development. Article 32(1) provides that:

Parties shall protect the environment during periods of armed conflict. In particular, Parties shall:

- ...
- (c) not employ or threaten to employ methods or means of warfare which are intended or may be expected to cause widespread, long-term, or severe harm to the environment and ensure that such means and methods of warfare are not developed, produced, tested, or transferred; and
 - (d) not use the destruction or modification of the environment as a means of warfare or reprisal.³²⁶

³²⁶ IUCN, Commission on Environmental Law, Draft International Covenant on Environment and Development, Bonn, March 1995, Article 32(1).

PART III

SPECIFIC METHODS OF WARFARE

DENIAL OF QUARTER

A. Orders or Threats that No Quarter Will Be Given (practice relating to Rule 46)	§§ 1–118
B. Attacks against Persons Hors de Combat (practice relating to Rule 47)	§§ 119–420
General	§§ 119–212
Specific categories of persons hors de combat	§§ 213–394
Quarter under unusual circumstances of combat	§§ 395–420
C. Attacks against Persons Parachuting from an Aircraft in Distress (practice relating to Rule 48)	§§ 421–490

Note: For practice concerning the treatment of persons hors de combat, see Part V. For specific practice concerning protection of the life of persons hors de combat, see Chapter 32, section C.

A. Orders or Threats that No Quarter Will Be Given
I. Treaties and Other Instruments
Treaties

1. Article 23(d) of the 1899 HR provides that “it is especially prohibited . . . to declare that no quarter will be given”.
2. Article 23(d) of the 1907 HR provides that “it is especially forbidden . . . to declare that no quarter will be given”.
3. Article 40 AP I provides that “it is prohibited to order that there shall be no survivors, to threaten an adversary therewith or to conduct hostilities on this basis”. Article 38 of draft AP I (now Article 40) submitted by the ICRC to the CDDH included the prohibition “to order that there shall be no survivors, to threaten an adversary therewith and to conduct hostilities on such basis” in the article concerning the safeguarding of the enemy *hors de combat*.¹ In view of its importance, the prohibition was the subject of a separate article on the basis of a proposal by Afghanistan, supported by Algeria, Belarus, Belgium, UK,

¹ CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 13.

USSR, Venezuela and SFRY.² This separate article (now Article 40 AP I) was adopted by consensus.³

4. Article 4(1) AP II provides that “it is prohibited to order that there shall be no survivors”. Article 4 AP II was adopted by consensus.⁴

5. Article 22 of draft AP II submitted by the ICRC to the CDDH provided that “it is forbidden to order that there shall be no survivors, to threaten an adversary therewith and to conduct hostilities on such basis”.⁵ It was adopted by consensus in Committee III of the CDDH.⁶ Eventually, however, the prohibition to order that there shall be no survivors was placed, and adopted, in another article and the rest of draft Article 22 was deleted by consensus in the plenary.⁷

6. Pursuant to Article 8(2)(b)(xii) and (e)(x) of the 1998 ICC Statute, “declaring that no quarter will be given” is a war crime in both international and non-international armed conflicts.

Other Instruments

7. Article 60 of the 1863 Lieber Code provides that “it is against the usage of modern war to resolve, in hatred and revenge, to give no quarter. No body of troops has the right to declare that it will not give . . . quarter.”

8. Article 13(d) of the 1874 Brussels Declaration states that “the declaration that no quarter will be given” is especially forbidden.

9. Article 9(b) of the 1880 Oxford Manual provides that “it is forbidden . . . to declare in advance that quarter will not be given, even by those who do not ask it for themselves”.

10. Article 17(3) of the 1913 Oxford Manual of Naval War provides that “it is . . . forbidden . . . to declare that no quarter will be given”.

11. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including “directions to give no quarter”.

12. Paragraph 43 of the 1994 San Remo Manual provides that “it is prohibited to order that there shall be no survivors, to threaten an adversary therewith or to conduct hostilities on this basis”.

13. Paragraph 6.5 of the 1999 UN Secretary-General’s Bulletin provides that “it is forbidden to order that there shall be no survivors”.

² CDDH, *Official Records*, Vol. XIV, CDDH/III/SR.29, 7 March 1975, p. 277, § 38 (Afghanistan), p. 279, § 51 (Algeria), p. 280, § 54 (Belarus), p. 282, § 64 (Belgium), p. 284, § 73 (UK), p. 283, § 66 (USSR), p. 280, § 55 (Venezuela) and p. 284, § 71 (SFRY).

³ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 103.

⁴ CDDH, *Official Records*, Vol. VII, CDDH/SR.50, 3 June 1977, p. 90.

⁵ CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 39.

⁶ CDDH, *Official Records*, Vol. XV, CDDH/III/SR.49, 4 June 1976, p. 108, § 6.

⁷ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 128.

14. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(xii) and (e)(x), “declaring that no quarter will be given” is a war crime in both international and non-international armed conflicts.

II. National Practice

Military Manuals

15. Argentina’s Law of War Manual (1969) provides that all declarations that no quarter shall be given are prohibited.⁸

16. Argentina’s Law of War Manual (1989) states that “it is prohibited... to order that there shall be no survivors, to threaten the adversary therewith or to conduct hostilities on this basis”.⁹

17. Australia’s Commanders’ Guide emphasises that “it is expressly forbidden to announce or implement a plan under which no prisoners are taken”.¹⁰ It further states that “it is prohibited to order that no prisoners will be taken, threaten an enemy that such an order will be given or conduct hostilities on the basis that no prisoners will be taken. Ambiguous orders, such as, ‘take that objective at any cost’ should be avoided.”¹¹

18. Australia’s Defence Force Manual provides that “it is prohibited to order that no prisoners will be taken, threaten an enemy that such an order will be given or conduct hostilities on the basis that no prisoners will be taken. Ambiguous orders, such as, ‘take that objective at any cost’ should be avoided.”¹²

19. Belgium’s Law of War Manual states that “declaring that no quarter will be given is forbidden”.¹³

20. Belgium’s Teaching Manual for Officers provides that it is forbidden “for military commanders to conduct hostilities on the basis that there shall be ‘no quarter’, *i.e.* no survivors at the end of combat. The threat to use this method of combat is also prohibited.”¹⁴

21. Benin’s Military Manual states that it is prohibited “to order that there shall be no survivors, to threaten the enemy therewith or to conduct operations on such a basis”.¹⁵

22. Burkina Faso’s Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited “to declare that no quarter will be given”.¹⁶

¹⁶ Burkina Faso, *Disciplinary Regulations* (1994), Article 35(2).

23. Cameroon's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to declare that no quarter will be given".¹⁷

24. Cameroon's Instructors' Manual provides that:

It is prohibited to order that there shall be no survivors, to threaten the adversary therewith or to conduct hostilities on such a basis. Such a prohibition has existed since the establishment . . . of Christian morality, through the doctrine of International Humanitarian Law, to the recent international diplomatic conferences.¹⁸

25. Under Canada's LOAC Manual, "it is prohibited to deny quarter. In other words, it is unlawful to order, imply or encourage that no prisoners will be taken; to threaten an adversary party that such an order will be given; or to conduct hostilities on the basis that no prisoners will be taken."¹⁹ The manual also considers that "declaring that no quarter will be given" is a war crime.²⁰ It further states that "Article 4(1) of AP II extends to non-international armed conflicts the principle of customary international law that it is prohibited to order that there shall be no survivors".²¹

26. Canada's Code of Conduct provides that "it is unlawful . . . to order that no PWs or detainees will be taken. It is also illegal as well as operationally unsound to make threats to opposing forces that no PWs or detainees will be taken."²²

27. Colombia's Basic Military Manual states that it is prohibited to order that there shall be no survivors.²³

28. Congo's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to declare that no quarter will be given".²⁴

29. France's Disciplinary Regulations as amended provides that, under international conventions, it is prohibited "to declare that no quarter will be given".²⁵

30. France's LOAC Summary Note states that "it is prohibited to order that there shall be no survivors or prisoners and to threaten the enemy therewith".²⁶

31. France's LOAC Teaching Note states that "it is prohibited to order that there shall be no survivors".²⁷

32. France's LOAC Manual provides that "it is prohibited to order that there shall be no survivors, to threaten an adversary therewith or to conduct hostilities on this basis".²⁸

33. Germany's Military Manual states that "it is prohibited to order that there shall be no survivors. It is also prohibited to threaten an adversary therewith or to conduct military operations on this basis."²⁹

34. Italy's IHL Manual provides that it is prohibited "to declare that no quarter will be given".³⁰
35. Kenya's LOAC Manual states that "it is forbidden . . . to order that there will be no survivors, to threaten the enemy therewith or to conduct operations on this basis".³¹
36. Mali's Army Regulations provides that, under the laws and customs of war, it is prohibited "to declare that no quarter will be given".³²
37. Morocco's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to declare that no quarter will be given".³³
38. The Military Manual of the Netherlands states that "it is prohibited to order that there shall be no survivors, to threaten an adversary therewith or to conduct hostilities on this basis".³⁴ With respect to non-international armed conflicts, the manual also states that "it is prohibited to order that there shall be no survivors".³⁵
39. New Zealand's Military Manual states that "it is prohibited to order that no prisoners will be taken, to threaten an adverse party that such an order will be given, or to conduct hostilities on the basis that no prisoners will be taken".³⁶ The manual also provides that "declaring that no quarter will be given" is a war crime.³⁷ It further states that "Article 4(1) of AP II extends to non-international armed conflicts the principle of customary international law that it is prohibited to order that there shall be no survivors".³⁸
40. Nigeria's Military Manual provides that it is prohibited "to declare that no quarter will be given".³⁹
41. Nigeria's Manual on the Laws of War considers that "informing soldiers of the enemy that they will not be protected unless they surrender immediately" is an "illegitimate tactic".⁴⁰
42. Nigeria's Soldiers' Code of Conduct states that it is "prohibited . . . to declare that no mercy will be shown".⁴¹
43. Russia's Military Manual states that "ordering that there shall be no survivors, threatening the adversary therewith or conducting the hostilities according to this decision" is a prohibited method of warfare.⁴²
44. Senegal's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to declare that no quarter will be given".⁴³

⁴³ Senegal, *Disciplinary Regulations* (1990), Article 34(2).

45. South Africa's LOAC Manual states that "it is a war crime to order troops to 'take no prisoners'".⁴⁴
46. Spain's LOAC Manual states that it is prohibited to order that there will be no survivors, to threaten the enemy therewith or to conduct operations on this basis.⁴⁵
47. Sweden's IHL Manual considers that the prohibition on ordering that no quarter shall be granted as contained in Article 40 AP I is part of customary international law.⁴⁶
48. Switzerland's Basic Military Manual provides that "it is prohibited to declare that no quarter will be given".⁴⁷
49. Togo's Military Manual states that it is prohibited "to order that there shall be no survivors, to threaten the enemy therewith or to conduct operations on such a basis".⁴⁸
50. The UK Military Manual stipulates that "it is forbidden to declare that no quarter will be given".⁴⁹
51. The UK LOAC Manual provides that "it is forbidden . . . to declare that no quarter will be given".⁵⁰
52. The US Field Manual provides that "it is especially forbidden . . . to declare that no quarter will be given".⁵¹
53. The YPA Military Manual of the SFRY (FRY) states that "it is prohibited to order that there shall be no survivors or detainees, to threaten an adversary therewith or to conduct hostilities on this basis".⁵²

National Legislation

54. Under Armenia's Penal Code, giving, during an armed conflict, the "order . . . not to spare anyone's life" constitutes a crime against the peace and security of mankind.⁵³
55. Australia's War Crimes Act considers "any war crime within the meaning of the instrument of appointment of the Board of Inquiry [set up to investigate war crimes committed by enemy subjects]" as a war crime, including directions to give no quarter.⁵⁴
56. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including declaring or ordering that there are to be no survivors with the intention of threatening an adversary or conducting hostilities on this basis, both in international and non-international armed conflicts.⁵⁵

57. Under the Criminal Code of the Federation of Bosnia and Herzegovina, whoever “orders that there be no surviving enemy soldiers in a fight, or whoever fights against the enemy on such basis” commits a war crime.⁵⁶ The Criminal Code of the Republika Srpska contains the same provision.⁵⁷
58. Under Burundi’s Draft Law on Genocide, Crimes against Humanity and War Crimes, “declaring that there shall be no quarter” constitutes a war crime in both international and non-international armed conflicts.⁵⁸
59. Canada’s Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are “crimes according to customary international law” and, as such, indictable offences under the Act.⁵⁹
60. China’s Law Governing the Trial of War Criminals provides that “ordering wholesale slaughter” constitutes a war crime.⁶⁰
61. Congo’s Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.⁶¹
62. Under Croatia’s Criminal Code, whoever “orders that in a battle there shall be no surviving members of the enemy or whoever engages in a battle against the enemy with the same objective” commits a war crime.⁶²
63. Under Ethiopia’s Penal Code, it is a punishable offence to order to kill or wound enemies who have surrendered or laid down their arms or, for any other reason, are incapable of defending or have ceased to defend themselves.⁶³
64. Under Georgia’s Criminal Code, any war crime provided for by the 1998 ICC Statute which is not explicitly mentioned in the Code, such as “declaring that no quarter will be given” in an international or non-international armed conflict, is a crime.⁶⁴
65. Germany’s Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict, “orders or threatens, as a commander, that no quarter will be given”.⁶⁵
66. Ireland’s Geneva Conventions Act as amended provides that any “minor breach” of AP I, including violations of Article 40 AP I, as well as any “contravention” of AP II, including violations of Article 4(1) AP II, are punishable offences.⁶⁶

⁵⁶ Bosnia and Herzegovina, Federation, *Criminal Code* (1998), Article 158(3).

⁶⁶ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

67. Italy's Law of War Decree as amended provides that it is prohibited "to declare that no quarter will be given".⁶⁷

68. Under Lithuania's Criminal Code as amended, the "order to kill . . . persons who have surrendered by giving up their arms or having no means to put up resistance, the wounded, sick persons or the crew of a sinking ship" during an international armed conflict or occupation is a war crime.⁶⁸

69. Under Mali's Penal Code, "declaring that there shall be no quarter" is a war crime in international armed conflicts.⁶⁹

70. The Definition of War Crimes Decree of the Netherlands includes "directions to give no quarter" in its list of war crimes.⁷⁰

71. Under the International Crimes Act of the Netherlands, "declaring that no quarter will be given" constitutes a crime, whether in time of international or non-international armed conflict.⁷¹

72. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(xii) and (e)(x) of the 1998 ICC Statute.⁷²

73. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁷³

74. Under Slovenia's Penal Code, "whoever orders . . . that there be no survivors among the aggressor's soldiers, or . . . whoever wages war against the aggressor on this basis" commits a war crime.⁷⁴

75. Spain's Royal Ordinance for the Armed Forces provides that it is prohibited to declare that a war will be waged without quarter.⁷⁵

76. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xxi) and (e)(x) of the 1998 ICC Statute.⁷⁶

77. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xxi) and (e)(x) of the 1998 ICC Statute.⁷⁷

78. Under the US War Crimes Act as amended, violations of Article 23(d) of the 1907 HR are war crimes.⁷⁸

79. Under the Penal Code as amended of the SFRY (FRY), "a person who orders . . . that no enemy troops should survive combat or who fights the enemy

⁷⁵ Spain, *Royal Ordinance for the Armed Forces* (1978), Article 138.

⁷⁶ Trinidad and Tobago, *Draft ICC Act* (1999), Section 5(1)(a).

⁷⁷ UK, *ICC Act* (2001), Sections 50(1) and 51(1) (England and Wales) and Section 58(1) (Northern Ireland).

⁷⁸ US, *War Crimes Act as amended* (1996), Section 2441(c)(2).

for that purpose" commits a war crime.⁷⁹ The commentary on the Penal Code specifies that "in the case of an armed conflict, it is irrelevant for this act whether it is international in nature or whether it is a civil war".⁸⁰

National Case-law

80. The *Sergeant W. case* before Belgium's Court-Martial of Brussels in 1966 concerned the murder of an unarmed Congolese woman by a senior member of the Belgian staff who had been sent to provide assistance to the army in the Congo (DRC). In his defence, the accused argued that he had been ordered by his commanding officer (Major O.) to "shoot all suspect elements on sight" in the zone forbidden to civilians and that he had shot the woman on the basis that he had interpreted this order as meaning that he should "take no prisoners and to 'kill' everything we come across in here". The Court found that:

As interpreted by the accused in practice – viz. the right or even the obligation to kill an unarmed person in his power – the order was patently illegal. Executing or causing to be executed without prior due trial a suspect person or even a rebel fallen into the hands of the members of his battalion was obviously outside the competence of Major O., and such an execution was a manifest example of voluntary manslaughter. The illegal nature of the order thus interpreted was not in doubt and the accused had to refuse to carry it out... The act perpetrated by the accused constitutes not only murder within the meaning of Articles 43 and 44 of the Congolese Criminal Code and Articles 392 and 393 of the Belgian Criminal Code, but is also a flagrant violation of the laws and customs of war and the laws of humanity.⁸¹

81. In the *Abbaye Ardenne case* in 1945, the Canadian Military Court at Aurich convicted a German commander of having incited and counselled his troops to deny quarter to Allied troops.⁸²

82. In a case concerning conscientious objection in 1992, Colombia's Constitutional Court considered that a superior's order that would cause "death outside combat" would clearly lead to a violation of human rights and of the Constitution and as such could be disobeyed.⁸³

83. In 1995, in its examination of the constitutionality of AP II, Colombia's Constitutional Court considered that Article 4 AP II, including the prohibition on ordering that there shall be no survivors, perfectly met constitutional standards. The Constitution contained provisions on the protection of human life and dignity.⁸⁴

84. In 1995, in its examination of the constitutionality of a military regulation which provided that subordinates were obliged to obey a superior's order

⁷⁹ SFRY (FRY), *Penal Code as amended* (1976), Article 146(3).

⁸⁰ SFRY (FRY), *Penal Code as amended* (1976), commentary on Article 146.

⁸¹ Belgium, Court-Martial of Brussels, *Sergeant W. case*, Judgement, 18 May 1966.

⁸² Canada, Military Court at Aurich, *Abbaye Ardenne case*, Judgement, 28 December 1945.

⁸³ Colombia, Constitutional Court, *Constitutional Case No. T-409*, Judgement, 8 June 1992.

⁸⁴ Colombia, Constitutional Court, *Constitutional Case No. C-225/95*, Judgement, 18 May 1995.

that they considered unlawful if the order was confirmed in writing, Colombia's Constitutional Court stated that an order that would cause death outside combat would clearly be a violation of human rights and of the Constitution.⁸⁵

85. In the *Stenger and Cruisus case* before Germany's Leipzig Court after the First World War, one of the accused was charged with having issued an order that:

No prisoners are to be taken from to-day onwards; all prisoners, wounded or not, are to be killed

...

All the prisoners are to be massacred; the wounded, armed or not, are to be massacred; even men captured in large organised units are to be massacred. No enemy must remain alive behind us.

The other accused was charged with having passed on the order. The first accused was acquitted because it could not be proved that he had actually given the order in question. As to the second accused, the Court held that:

[He] acted in the mistaken idea that General Stenger, at the time of the discussion near the chapel, issued the order to shoot the wounded. He was not conscious of the illegality of such an order, and therefore considered that he might pass on the supposed order to his company, and indeed must do so.

So pronounced a misconception of the real facts seems only comprehensible in view of the mental condition of the accused... But this merely explains the error of the accused; it does not excuse it... Had he applied the attention which was to be expected from him, what was immediately clear to many of his men would not have escaped him, namely, that the indiscriminate killing of all wounded was a monstrous war measure, in no way to be justified.⁸⁶

86. In the *Peleus case* before the UK Military Court at Hamburg in 1945, the commander of a German submarine was charged with ordering the killing of survivors of a sunken Greek merchant vessel. He was found guilty and the Judge Advocate ruled that it must have been obvious to the most rudimentary intelligence that it was not a lawful command.⁸⁷

87. In the *Von Falkenhorst case* before the UK Military Court at Brunswick in 1946, the accused, Commander-in-Chief of the German armed forces in Norway, was found guilty of having incited, in two orders of October 1942 and June 1943, members of the forces under his command not to accept quarter or to give quarter to Allied soldiers, sailors and airmen taking part in commando operations. Furthermore he had ordered that, in the event of the capture of any Allied soldiers, sailors or airmen taking part in such operations, they should be killed after capture.⁸⁸

88. In the *Wickman case* before the UK Military Court at Hamburg in 1946, the accused was found guilty of "committing a war crime... in that he... in

violation of the laws and usages of war gave orders to [his] platoon that no prisoners were to be taken and that any prisoners taken were to be shot".⁸⁹

89. In the *Von Ruchteschell* case before the UK Military Court at Hamburg in 1947, the accused was charged, *inter alia*, of having ordered that survivors on life-rafts be fired at. He was found not guilty of this charge.⁹⁰

90. In the *Le Paradis* case before the UK Court at Hamburg-Altona in 1949, a German officer was convicted of the killing by his troops, on his orders, of members of a UK regiment which had surrendered.⁹¹

91. In the *Thiele* case before the US Military Commission at Augsburg in 1945, the accused, a German army lieutenant, was convicted of having ordered the killing of an American prisoner of war.⁹²

92. In the *Von Leeb (The High Command Trial)* case before the US Military Tribunal at Nuremberg in 1948, the accused, former high-ranking officers in the German army and navy, were charged, *inter alia*, with war crimes against enemy belligerents and prisoners of war for having unlawfully directed that certain enemy troops be refused quarter and that certain captured members of the military forces of nations at war with Germany be summarily executed. In its judgement, the Tribunal stated that "in the course of the war, many Allied soldiers who had surrendered to the Germans were shot immediately, often as a matter of deliberate, calculated policy". It added that "the murder of Commandos or captured airmen . . . were the result of direct orders circulated through the highest official channels". It also referred to Hitler's order of 18 October 1942 whereby no quarter should be granted to members of Allied commando units, stating that "this order was criminal on its face. It simply directed the slaughter of these 'sabotage' troops."⁹³

Other National Practice

93. In its oral pleadings before the ICJ in the *Nuclear Weapons* case in 1995, Australia stated that the "right to self-defence is not unlimited . . . Self-defence is not a justification . . . for ordering that there shall be no enemy survivors in combat."⁹⁴

94. At some point during the Chinese civil war, the PLA headquarters made an announcement stating that the PLA would not kill any officers or soldiers

of the Nationalist Army who laid down arms. According to the Report on the Practice of China, the policy was implemented in practice.⁹⁵

95. According to the Report on the Practice of Israel, the IDF does not conduct a policy of “no quarter”.⁹⁶

96. In 1990, in a letter addressed to the UN Secretary-General in the context of the Gulf War, Kuwait condemned the instructions given and measures taken by the Iraqi authorities, *inter alia*, “the execution of every Kuwaiti military man should he fail to surrender to Iraqi forces”. These were qualified as “savage practices”.⁹⁷

97. In 1995, during a debate in the House of Lords in 1995, the UK Minister of State, Home Office, criticised the Geneva Conventions (Amendment) Bill introduced by a private member for categorising as grave breaches certain acts not treated as such in AP I, including threatening an adversary that there shall be no survivors.⁹⁸

98. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that “we support the principle that no order be given that there shall be no survivors nor an adversary be threatened with such an order or hostilities be conducted on that basis”.⁹⁹

99. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US commented that its practice was consistent with the prohibition on ordering that there shall be no survivors.¹⁰⁰

100. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that Article 23(d) of the 1907 HR “prohibits the denial of quarter, that is the refusal to accept an enemy’s surrender”.¹⁰¹

101. In 1989, the military attaché of the embassy of State X commented that no order to kill prisoners was in force as such in State Y, but the practice seemed to be not to take prisoners, with the exception of important personalities.¹⁰²

102. In 1994, an ICRC delegate, summarising the military situation in a State, emphasised the position reiterated by an officer of the armed forces that there were no prisoners, and that there would not be any.¹⁰³

⁹⁵ China, Announcement of the People’s Liberation Army, 10 October 1947, *Selected Works of Mao Zedong*, Vol. 4, The People’s Press, p. 1238; Report on the Practice of China, 1997, Chapter 2.1.

III. Practice of International Organisations and Conferences

United Nations

103. In 1993, the UN Commission on the Truth for El Salvador examined, *inter alia*, a case concerning the killing of two soldiers wounded after a US helicopter was shot down by an FMLN patrol. The survivors of the crash had been left on the scene, but shortly afterwards, a member of the patrol was sent back and killed the two wounded men. According to the Commission's report,

The Commission considers that there is sufficient proof that United States soldiers . . . who survived the shooting down of the helicopter . . . but were wounded and defenceless, were executed in violation of international humanitarian law . . .

The Commission has likewise found no evidence that the executions were ordered by higher levels of command, or that they were carried out in accordance with an ERP or FMLN policy of killing prisoners. FMLN acknowledged the criminal nature of the incident and detained and tried the accused.¹⁰⁴

Other International Organisations

104. No practice was found.

International Conferences

105. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

106. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

107. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces the rule that "it is prohibited to order that there will be no survivors, to threaten the enemy therewith or to conduct operations on this basis".¹⁰⁵

108. In a report submitted to the 21st International Conference of the Red Cross in 1969, the ICRC considered that the rule prohibiting the declaration that no quarter will be given was implicit in the Geneva Conventions. It stated, however, that the Conventions focused on the protection of combatants once they had fallen into enemy hands, whereas the prohibition of denial of quarter applied from the time the intention to surrender had been declared.¹⁰⁶

¹⁰⁴ UN Commission on the Truth for El Salvador, Report, UN Doc. S/25500, 1 April 1993, pp. 167–169.

¹⁰⁶ ICRC, Report on the Reaffirmation and Development of Laws and Customs Applicable in Armed Conflicts, May 1969, submitted to the 21st International Conference of the Red Cross, Istanbul, 6–13 September 1969, p. 78.

109. The ICRC Commentary on Article 40 AP I states that “any order of ‘liquidation’ is prohibited, whether it concerns commandos, political or any other kind of commissars, irregular troops or so-called irregular troops, saboteurs, parachutists, mercenaries or persons to be considered as mercenaries, or other cases”.¹⁰⁷

110. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that “no order shall ever be given that there should be no survivors”.¹⁰⁸

111. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that “it is prohibited to order that there shall be no survivors”.¹⁰⁹

112. In 1997, in a working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC proposed that “to declare that there shall be no survivors” be listed as a war crime in both international and non-international armed conflicts, subject to the jurisdiction of the Court.¹¹⁰

113. In a communication to the press issued in 2001 in the context of the conflict in Afghanistan, the ICRC stated that “the rules governing armed conflict must be respected at all times and in all circumstances. The ICRC stresses that these rules . . . prohibit orders that there should be no survivors.”¹¹¹

VI. Other Practice

114. In 1977, in a meeting with the ICRC, an armed opposition group denounced the practice by troops of a State of systematically killing all combatants, even those wounded or who had laid down their arms.¹¹²

115. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch stated that “the following . . . are prohibited by applicable international law rules: 1. Orders to combatants that there shall be no survivors, such threats to combatants or direction to conduct hostilities on this basis.”¹¹³

¹¹³ Americas Watch, *Violations of the Laws of War by Both Sides in Nicaragua: 1981–1985*, New York, March 1985, p. 33.

116. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that “applicable international law rules prohibit the following kinds of practices... A. Orders to combatants that there shall be no survivors, such threats to combatants or direction to conduct hostilities on this basis.”¹¹⁴

117. In 1995, in a meeting with the ICRC, the representative of an armed opposition group accused government troops of not taking prisoners and of killing all captured combatants.¹¹⁵

118. According to an ICRC mission report in 1995, the leader of an armed opposition group explained that if captured combatants were nationals of the same State they were obliged to join the opposition forces; if, however, they were foreigners, they were executed. Soldiers had allegedly been given instructions not to grant quarter.¹¹⁶

B. Attacks against Persons Hors de Combat

General

I. Treaties and Other Instruments

Treaties

119. Article 41(1) AP I provides that “a person who is recognized or who, in the circumstances, should be recognized to be *hors de combat* shall not be made the object of attack”. Article 41 was adopted by consensus.¹¹⁷

120. Under Article 85(3)(e) AP I, “making a person the object of attack in the knowledge that he is *hors de combat*” is a grave breach of AP I. Article 85 API was adopted by consensus.¹¹⁸

121. Article 7(1) of draft AP II submitted by the ICRC to the CDDH provided that “it is forbidden to kill, injure, ill-treat or torture an adversary *hors de combat*”.¹¹⁹ This proposal was amended and adopted by consensus in Committee III of the CDDH.¹²⁰ The text adopted provided that “a person who is recognized or should, under the circumstances, be recognized to be *hors de combat*, shall not be made the object of attack”.¹²¹ Eventually, however, it was rejected in the plenary by 22 votes in favour, 15 against and 42 abstentions.¹²²

¹²² CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 129.

Other Instruments

122. Article 60 of the 1863 Lieber Code stipulates that “it is against the usage of modern war to resolve, in hatred and revenge, to give no quarter”.

123. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 41 AP I.

124. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 41 AP I.

125. Pursuant to Article 20(b)(iv) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, “making a person the object of attack in the knowledge that he is hors de combat” is a war crime.

*II. National Practice**Military Manuals*

126. Argentina’s Law of War Manual forbids the refusal to give quarter.¹²³ It also states that “it is prohibited . . . to make an enemy *hors de combat* the object of attack”.¹²⁴ It further states that “attacks against persons recognised as *hors de combat*” are a grave breach of AP I and a war crime.¹²⁵

127. Australia’s Commanders’ Guide provides that “a person who is recognised or who, in the circumstances, should be recognised to be hors de combat shall not be made the object of attack”.¹²⁶ It also states that “the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings: . . . denying an enemy the right to surrender”.¹²⁷

128. Australia’s Defence Force Manual provides that “soldiers who are ‘out of combat’ and civilians are to be treated in the same manner and cannot be made the object of attack”.¹²⁸ It also stresses that the “LOAC forbids the killing or wounding of an enemy who . . . is . . . ‘hors de combat’”.¹²⁹ The manual further states that “the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings: . . . denying an enemy the right to surrender”.¹³⁰

129. Belgium’s Teaching Manual for Officers provides that “any adversary *hors de combat* may no longer be made the object of attack”.¹³¹

¹³⁰ Australia, *Defence Force Manual* (1994), § 1315(o).

¹³¹ Belgium, *Teaching Manual for Officers* (1994), Part I, Title II, p. 34.

130. Belgium's Teaching Manual for Soldiers states that enemy combatants who are no longer taking part in combat "may be neutralised and captured. To kill them would not bring any additional advantage in combat."¹³²

131. Benin's Military Manual states that "it is prohibited to kill or injure an adversary . . . who is *hors de combat*".¹³³ It also states that "any person recognised or who should be recognised as being no longer able to participate in combat shall not be attacked".¹³⁴

132. Cameroon's Instructors' Manual provides that "the enemy *hors de combat* is defined as a combatant who, physically or morally, cannot continue to fight. The main rule to be observed at this moment is not to kill him but to preserve his life, provided he does not manifest any hostile intentions."¹³⁵

133. Canada's LOAC Manual states that "it is prohibited to deny quarter".¹³⁶ It also states that "a combatant who is recognized or who, in the circumstances, should be recognized to be *hors de combat* shall not be attacked".¹³⁷ It further states that "making a person the object of attack knowing he is *hors de combat*" is a grave breach of AP I and a war crime.¹³⁸

134. Canada's Code of Conduct provides that "the 'denial of quarter' is prohibited".¹³⁹

135. Colombia's Circular on the Fundamental Rules of IHL states that "it is prohibited to kill or injure an adversary who . . . is *hors de combat*".¹⁴⁰

136. Colombia's Directive on IHL considers an "attack against a person *hors de combat*" as a punishable offence.¹⁴¹

137. Croatia's LOAC Compendium states that the denial of quarter is a prohibited method of warfare.¹⁴² It further states that "attacks on persons 'hors de combat'" are a grave breach and a war crime.¹⁴³

138. Croatia's Commanders' Manual provides that "a combatant who is recognised (or should be recognised) as being out of combat may not be attacked".¹⁴⁴

139. Under Croatia's Instructions on Basic Rules of IHL, it is prohibited to kill or injure members of the enemy armed forces who are *hors de combat*.¹⁴⁵

140. Ecuador's Naval Manual states that "the following acts constitute war crimes: . . . denial of quarter (i.e., denial of the offer not to kill the defeated enemy)".¹⁴⁶

141. France's LOAC Summary Note states that "it is prohibited to kill or injure an adversary who . . . is *hors de combat*".¹⁴⁷

142. France's LOAC Teaching Note provides that "it is prohibited to attack . . . an adversary . . . who is *hors de combat*".¹⁴⁸

143. France's LOAC Manual states that "a person who is recognized or who, in the circumstances, should be recognized to be *hors de combat* shall not be made the object of attack".¹⁴⁹

144. Hungary's Military Manual states that the denial of quarter is a prohibited method of warfare.¹⁵⁰ It further states that "attacks on persons 'hors de combat'" are a grave breach of the law of war and a war crime.¹⁵¹

145. With reference to Israel's Law of War Booklet, the Report on the Practice of Israel states that "the protection of those persons who are *hors de combat* is a basic tenet in the IDF, and IDF soldiers are required not to make any such individual the subject of attack".¹⁵²

146. Israel's Manual on the Laws of War states that:

The laws of war do set clear bars to the possibility of harming combatants when the combatant is found "outside the frame of hostilities", as when he asks to surrender, or when he is wounded in a way that does not allow him to take an active part in the fighting. In such situations it is absolutely prohibited to harm the combatant.¹⁵³

147. Italy's IHL Manual provides that grave breaches of international conventions and protocols, including "attacks against persons *hors de combat*", are considered as war crimes.¹⁵⁴

148. Italy's LOAC Elementary Rules Manual provides that "a combatant who is recognised (or should be recognised) as being out of combat may not be attacked".¹⁵⁵

149. Under Kenya's LOAC Manual, "the enemy combatant who is no longer in a position to fight is no longer to be attacked, and is protected".¹⁵⁶ It further instructs: "Do not fight enemies who are *out of combat*."¹⁵⁷

150. Madagascar's Military Manual states that "a combatant who is recognised (or should be recognised) to be *hors de combat* shall not be attacked".¹⁵⁸

¹⁵⁸ Madagascar, *Military Manual* (1994), Fiche No. 7-O. § 17, see also Fiche No. 9-SO, § A and Fiche No. 5-T, § 4.

151. The Military Manual of the Netherlands provides that any person placed *hors de combat* may not be attacked.¹⁵⁹ In addition, “attacks against . . . a person who is recognised to be *hors de combat*” are a grave breach of AP I.¹⁶⁰

152. Under New Zealand’s Military Manual, “a person who is recognised as, or who in the circumstances should be recognised as, *hors de combat* shall not be made the object of attack”.¹⁶¹ Furthermore, the manual states that “making a person the object of attack knowing he is *hors de combat*” is a grave breach of AP I and a war crime. The manual explains that “this has always been a war crime under customary law”.¹⁶²

153. The Soldier’s Rules of the Philippines instructs: “Do not fight enemies who are ‘out of combat’ . . . Disarm them and hand them over to your superior.”¹⁶³

154. Romania’s Soldiers’ Manual orders combatants not to attack, kill or injure an enemy *hors de combat*.¹⁶⁴

155. Russia’s Military Manual provides that “attacks against persons *hors de combat*” are a prohibited method of warfare.¹⁶⁵

156. South Africa’s LOAC Manual notes that “making a person who is ‘out of combat’ . . . the object of attack knowing that that person is out of combat” is a grave breach of AP I and a war crime.¹⁶⁶

157. Spain’s LOAC Manual prohibits attacks against persons *hors de combat*.¹⁶⁷ It also states that it is a grave breach of AP I and a war crime “to make a person the object of attack knowing that he is *hors de combat*”.¹⁶⁸

158. Sweden’s IHL Manual considers that the safeguard of an enemy *hors de combat* as contained in Article 41 API is part of customary international law.¹⁶⁹ It states that “Article 40 of Additional Protocol I treats quarter – an archaic concept which is equivalent to showing mercy to an enemy who has been placed *hors de combat*”.¹⁷⁰ The manual adds that:

Persons *hors de combat* may not be attacked, but shall enjoy the protection of international humanitarian law provided they abstain from any hostile act and do not attempt to escape.

In practice it can often be very hard to determine when this situation has arisen. If it is established that a person is *hors de combat*, he may not be subjected to attack, but he is not protected against the secondary effects of an attack on nearby

objectives. It should also be noted that the mere presence of persons *hors de combat* does not imply that the place/object where they happen to be shall receive immunity.¹⁷¹

159. Under Switzerland's Basic Military Manual, "attacks directed against a person, in the knowledge that this person is *hors de combat*," are grave breaches of AP I.¹⁷²

160. Togo's Military Manual states that "it is prohibited to kill or injure an adversary . . . who is *hors de combat*".¹⁷³ It further states that "any person recognised or who should be recognised as being no longer able to participate in combat shall not be attacked".¹⁷⁴

161. The US Air Force Pamphlet states that "the law of armed conflicts clearly forbids the killing or wounding of an enemy who . . . is . . . *hors de combat*".¹⁷⁵ The Pamphlet goes on to say that "in addition to the grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: . . . deliberate refusal of quarter".¹⁷⁶

162. The US Naval Handbook provides that "the following acts are representative war crimes: . . . denial of quarter (i.e., killing or wounding an enemy *hors de combat* . . .)".¹⁷⁷

National Legislation

163. Under Armenia's Penal Code, an "assault on a person who has clearly ceased to participate in military actions", during an armed conflict, constitutes a crime against the peace and security of mankind.¹⁷⁸

164. Australia's Geneva Conventions Act as amended provides that "a person who, in Australia or elsewhere, commits a grave breach . . . of [AP I] is guilty of an indictable offence".¹⁷⁹

165. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "killing or injuring a person who is *hors de combat*" in international armed conflicts.¹⁸⁰

166. The Criminal Code of Belarus provides that it is a war crime to "attack a person in the knowledge that he is *hors de combat*".¹⁸¹

167. Belgium's Law concerning the Repression of Grave Breaches of the Geneva Conventions and their Additional Protocols as amended provides that "making

a person the object of attack in the knowledge that he/she is *hors de combat*" constitutes a crime under international law.¹⁸²

168. Under the Criminal Code of the Federation of Bosnia and Herzegovina, "an attack against . . . persons unable to fight" is a war crime.¹⁸³ The Criminal Code of the Republika Srpska contains the same provision.¹⁸⁴

169. Canada's Geneva Conventions Act as amended provides that "every person who, whether within or outside Canada, commits a grave breach [of AP I] . . . is guilty of an indictable offence".¹⁸⁵

170. Colombia's Penal Code imposes a criminal sanction on anyone who, during an armed conflict, refuses to give quarter or attacks persons *hors de combat*.¹⁸⁶

171. The Geneva Conventions and Additional Protocols Act of the Cook Islands punishes "any person who in the Cook Islands or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I]."¹⁸⁷

172. Under Croatia's Criminal Code, "an attack against . . . those *hors de combat*" is a war crime.¹⁸⁸

173. Cyprus's AP I Act punishes "any person who, whatever his nationality, commits in the Republic or outside the Republic, any grave breach of the provisions of the Protocol, or takes part or assists or incites another person in the commission of such a breach".¹⁸⁹

174. The Draft Amendments to the Penal Code of El Salvador provide for a prison sentence for "anyone who, during an international or non-international armed conflict, knowing of the existence of unequivocal acts of surrender from the adversary, continues to attack persons *hors de combat*, with the aim of leaving no survivors".¹⁹⁰

175. Under Georgia's Criminal Code, "making a person the object of attack in the knowledge that he is *hors de combat*", whether in an international or a non-international armed conflict, is a crime.¹⁹¹

176. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict, "wounds a member of the opposing armed forces or a combatant of the adverse party after the latter . . . is . . . placed *hors de combat*".¹⁹²

¹⁹² Germany, *Law Introducing the International Crimes Code* (2002), Article 1(8)(2).

177. Ireland's Geneva Conventions Act as amended provides that grave breaches of AP I are punishable offences.¹⁹³ It adds that "any minor breach" of AP I, including violations of Article 41(1) AP I, is also a punishable offence.¹⁹⁴

178. Under Jordan's Draft Military Criminal Code, "attacks against persons *hors de combat*" in time of armed conflict are war crimes.¹⁹⁵

179. Under the Draft Amendments to the Code of Military Justice of Lebanon, "an attack against a person *hors de combat*" constitutes a war crime.¹⁹⁶

180. Moldova's Penal Code punishes "grave breaches of international humanitarian law committed during international and non-international armed conflicts".¹⁹⁷

181. Under the International Crimes Act of the Netherlands, it is a crime, during an international armed conflict, to commit "the following acts, when they are committed intentionally and in violation of the relevant provisions of Additional Protocol (I) and cause death or serious injury to body or health: . . . making a person the object of attack in the knowledge that he is *hors de combat*".¹⁹⁸

182. New Zealand's Geneva Conventions Act as amended provides that "any person who in New Zealand or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I] is guilty of an indictable offence".¹⁹⁹

183. Nicaragua's Draft Penal Code punishes "anyone who, during an international or internal armed conflict, knowing of the existence of unequivocal acts of surrender from the adversary, continues to attack persons *hors de combat*, with the aim of leaving no survivors".²⁰⁰

184. According to Niger's Penal Code as amended, "making a person the object of an attack knowing that he/she is *hors de combat*" is a war crime, when such person is protected under the 1949 Geneva Conventions or their Additional Protocols of 1977.²⁰¹

185. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".²⁰²

186. Under Slovenia's Penal Code, "an attack . . . on persons unable to fight" is a war crime.²⁰³

187. Tajikistan's Criminal Code punishes the act of "making a person the object of attack in the knowledge that he is *hors de combat*" in an international or internal armed conflict.²⁰⁴

188. The UK Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside the United Kingdom, commits, or aids, abets or procures the commission by any other person of, a grave breach of . . . [AP I]".²⁰⁵

189. Under Yemen's Military Criminal Code, "attacks against . . . persons *hors de combat*" are war crimes.²⁰⁶

190. Under the Penal Code as amended of the SFRY (FRY), "an attack on . . . persons placed *hors de combat*" is a war crime.²⁰⁷

191. Zimbabwe's Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside Zimbabwe, commits any such grave breach of . . . [AP I]".²⁰⁸

National Case-law

192. In the *Von Leeb (The High Command Trial)* case before the US Military Tribunal at Nuremberg in 1948, the accused, former high-ranking officers in the German army and navy, were charged, *inter alia*, with war crimes against enemy belligerents and prisoners of war in that they refused to give quarter to prisoners of war and members of armed forces of nations then at war with the Third Reich. The Tribunal stated that "when Allied airmen were forced to land in Germany, they were sometimes killed at once by the civilian population. The police were instructed not to interfere with these killings, and the Ministry of Justice was informed that no one should be prosecuted for taking part in them."²⁰⁹

Other National Practice

193. According to the Report on the Practice of Algeria, the duty to give quarter has been a long-standing practice of Algeria.²¹⁰ During the Algerian war of independence, the ten rules of the ALN stipulated that Islamic teachings and international laws must be observed "in the destruction of enemy forces".²¹¹

194. At the CDDH, the Chilean delegation stated that it had abstained from the vote on draft Article 21 AP II (which was deleted in the final text) because it found the wording too vague. However, it agreed that the safeguarding of the

enemy *hors de combat* as established in AP I should also be included in the Additional Protocol relative to non-international conflicts.²¹²

195. According to the Report on the Practice of Egypt, it has been a long-standing practice of Egypt to give quarter. The report notes that granting quarter has been practised by Egypt as far back as 1468 B.C.²¹³

196. According to the Report on the Practice of Egypt, during the Middle East conflict in 1973, Egypt issued military communiqués with instructions to respect the duty to give quarter.²¹⁴

197. According to the Report on the Practice of Germany, the right to be given quarter is for the benefit of every person.²¹⁵

198. According to the Report on the Practice of Indonesia, quarter must be granted to every person taking part in hostilities, whether they are saboteurs, spies, mercenaries or illegal combatants.²¹⁶

199. The Report on the Practice of Iraq notes that, during the Iran–Iraq War, several Iraqi military communiqués were issued with the aim of ensuring the safety of enemy combatants unwilling to fight and their evacuation to rear positions.²¹⁷

200. According to the Report on the Practice of Jordan, Islamic principles dictate that a combatant who is recognised as *hors de combat* may not be attacked. The report mentions an order of Caliph Abu Bakr, dating from the 7th century, which proscribed the killing of non-combatants.²¹⁸

201. During the debates at the CDDH, Syria emphasised that “a person *hors de combat* must in any case abstain from any hostile act and make no attempt to escape”.²¹⁹

III. Practice of International Organisations and Conferences

United Nations

202. In 1997, in a report on a mission to Zaire (DRC), the Special Rapporteur of the UN Commission on Human Rights pointed out that there had been reports indicating that rebel forces, the ADFL, members of the former FAR and *interahamwe* killed rather than took prisoners. Bodies of Zairean soldiers were

²¹⁸ Report on the Practice of Jordan, 1997, Chapter 2.1. (The order was sent to the leader of the Muslim army fighting against the Romans in Greater Syria.)

²¹⁹ Syria, Statement at the CDDH, *Official Records*, Vol. XV, CDDH/III/SR.47, 31 May 1976, p. 89, § 22.

also found showing no signs that they had died in battle.²²⁰ The rebel authorities justified the alleged incidents on the ground that a war was going on and claimed that the allegations were a smear campaign. The Special Rapporteur “pointed out that the arguments put forward [by rebel authorities] were unacceptable: many of the alleged incidents could not be justified even in time of war, since war too, is subject to regulations and there are limits to what is permissible in combat”.²²¹

Other International Organisations

203. No practice was found.

International Conferences

204. Committee III of the CDDH stated with regard to the wording of Article 41(1) AP I that it:

changed the prohibition contained in the ICRC draft (and, indeed, all the amendments) from “kill or injure” to “make the object of attack”. This change was designed to make clear that what was forbidden was the deliberate attack against persons *hors de combat*, not merely killing or injuring them as the incidental consequence of attacks not aimed at them *per se*.²²²

IV. Practice of International Judicial and Quasi-judicial Bodies

205. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

206. The ICRC Commentary on the Additional Protocols states that:

A man who is in the power of his adversary may be tempted to resume combat if the occasion arises . . . Yet another, who has lost consciousness, may come to and show an intent to resume combat. It is self-evident that in these different situations, and in any other similar situations, the safeguard ceases. Any hostile act gives the adversary the right to take countermeasures until the perpetrator of the hostile act is recognized, or in the circumstances, should be recognized, to be “hors de combat” once again.

. . .

When troops, after surrendering, destroy installations in their possession or their own military equipment, this can be considered to be a hostile act. The same applies in principle if soldiers “hors de combat” attempt to communicate with the Party

²²⁰ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in Zaire, Third Report, UN Doc. E/CN.4/1997/6, 28 January 1997, §§ 198, 199 and 207.

²²¹ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in Zaire, Report on the mission carried out at the request of the High Commissioner for Human Rights between 25 and 29 March 1997 to the area occupied by rebels in eastern Zaire, UN Doc. E/CN.4/1997/6/Add.2, 2 April 1997, §§ 39 and 42.

²²² CDDH, *Official Records*, Vol. XV, CDDH/236/Rev.1, 21 April–11 June 1976, p. 384, § 23.

to the conflict to which they belong, unless this concerns the wounded and sick who require assistance from this Party's medical service.²²³

207. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "a person who is recognized or who, in the circumstances, should be recognized as being no longer able to participate in combat, shall not be attacked".²²⁴ Furthermore, an "attack of a person known as being hors de combat" constitutes a grave breach of the law of war.²²⁵

208. In 1997, in a working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC included "making a person the object of attack in the knowledge that he/she is *hors de combat*", when committed in an international armed conflict, in the list of war crimes to be subject to the jurisdiction of the Court.²²⁶

VI. Other Practice

209. In 1980, an armed opposition group expressed its acceptance of the fundamental principles of IHL as formulated by the ICRC, including the principle that "it is forbidden to kill or injure an enemy . . . who is *hors de combat*".²²⁷

210. In their commentary on the 1977 Additional Protocols, Bothe, Partsch and Solf explain that:

Paragraph 1 [of Article 41 AP I] protects *hors de combat* personnel from attacks directed at them. It does not protect them against the unintended collateral injury resulting from attacks on legitimate military objectives which might be in their vicinity. The accidental killing or wounding of such persons due to their presence among, or in proximity to, combatants actually engaged, by fire directed against the latter, gives no just cause for complaint, but any anticipated collateral casualties of *hors de combat* persons should not be excessive in relation to the military advantage anticipated.²²⁸

211. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch stated that "the following . . . are prohibited by applicable international law rules: . . . Attacks against combatants who . . . are placed *hors de combat*."²²⁹

212. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that “applicable international law rules prohibit the following kinds of practices . . . Attacks against combatants who . . . are placed hors de combat.”²³⁰

Specific categories of persons hors de combat

Note: For practice concerning the use of the white flag of truce, see Chapter 18, section B and Chapter 19, section A.

I. Treaties and Other Instruments

Treaties

213. Article 23(c) of the 1899 HR provides that it is especially prohibited “to kill or wound an enemy who, having laid down arms, or having no longer means of defence, has surrendered at discretion”.

214. Article 23(c) of the 1907 HR provides that it is especially forbidden “to kill or wound an enemy who, having laid down his arms, or having no longer means of defence, has surrendered at discretion”.

215. Article 41 AP I provides that:

1. A person who is recognized or who, in the circumstances, should be recognized to be *hors de combat* shall not be made the object of attack.
2. A person is *hors de combat* if:
 - a) he is in the power of an adverse Party;
 - b) he clearly expresses an intention to surrender;
 - c) he has been rendered unconscious or is otherwise incapacitated by wounds or sickness, and therefore is incapable of defending himself; provided that in any of these cases he abstains from any hostile act and does not attempt to escape.

Article 41 AP I was adopted by consensus.²³¹

216. Article 7(1) of draft AP II submitted by the ICRC to the CDDH provided that:

It is forbidden to kill, injure, ill-treat or torture an adversary *hors de combat*. An adversary *hors de combat* is one who, having laid down his arms, no longer has any means of defence or has surrendered. These conditions are considered to have been fulfilled, in particular, in the case of an adversary who:

- a) is unable to express himself, or
- b) has surrendered or has clearly expressed an intention to surrender
- c) and abstains from any hostile act and does not attempt to escape.²³²

This proposal was amended and adopted by consensus in Committee III of the CDDH.²³³ The text adopted provided that:

²³⁰ Africa Watch, *Angola: Violations of the Laws of War by Both Sides*, New York, April 1989, p. 141.

²³¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 104.

²³² CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 35.

²³³ CDDH, *Official Records*, Vol. XV, CDDH/III/SR.49, 4 June 1976, p. 108, § 7.

1. A person who is recognized or should, under the circumstances, be recognized to be *hors de combat* shall not be made the object of attack.
2. A person is *hors de combat* if:
 - a) he is in the power of an adverse party; or
 - b) he clearly expresses an intention to surrender; or
 - c) he has been rendered unconscious or is otherwise incapacitated by wounds or sickness, and he is therefore incapable of defending himself; and in any case, provided that he abstains from any hostile act and does not attempt to escape.²³⁴

Eventually, however, this draft article was rejected in the plenary by 22 votes in favour, 15 against and 42 abstentions.²³⁵

217. Under Article 8(2)(b)(vi) of the 1998 ICC Statute, “killing or wounding a combatant who, having laid down his arms or having no longer means of defence, has surrendered at discretion” is a war crime in international armed conflicts.

Other Instruments

218. Article 71 of the 1863 Lieber Code provides that “whoever intentionally inflicts additional wounds on an enemy already wholly disabled, or kills such an enemy . . . shall suffer death, if duly convicted, whether he belongs to the Army of the United States, or is an enemy captured after having committed his misdeed”.

219. Article 13(c) of the 1874 Brussels Declaration states that “murder of an enemy who, having laid down his arms or having no longer means of defence, has surrendered at discretion” is “especially forbidden”.

220. Article 9(b) of the 1880 Oxford Manual provides that “it is forbidden . . . to injure or kill an enemy who has surrendered at discretion or is disabled”.

221. Article 17(1) of the 1913 Oxford Manual of Naval War states that it is forbidden “to kill or to wound an enemy who, having laid down his arms or having no longer means of defence, has surrendered at discretion”.

222. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(vi), “killing or wounding a combatant who, having laid down his arms or having no longer means of defence, has surrendered at discretion” is a war crime in international armed conflicts.

II. National Practice

Military Manuals

223. Argentina’s Law of War Manual (1969) states that “it is prohibited to kill or injure an enemy who has laid down his arms or who is defenceless and has surrendered”.²³⁶

²³⁴ CDDH, *Official Records*, Vol. XV, CDDH/236/Rev.1, 21 April–11 June 1976, p. 420.

²³⁵ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 129.

²³⁶ Argentina, *Law of War Manual* (1969), § 1.006.

224. Argentina's Law of War Manual (1989) prohibits:

making an enemy *hors de combat* the object of an attack, understood as any person who:

- 1) is in the power of his enemy.
- 2) clearly expresses his intention to surrender.
- 3) is incapable of defending himself.

provided that in any of these cases he abstains from any hostile act and does not attempt to escape.²³⁷

225. Australia's Commanders' Guide states that:

Military members who abandon a sinking ship should not be attacked unless they show hostile intent or are armed and so close to shore as to be capable of completing their military mission. If their conduct suggests a desire to surrender, this must be accepted.

Protected from the moment of their surrender or capture, PW and PW camps must not be made the object of attack . . .

...

An enemy who indicates a desire to surrender should not be attacked . . .

...

Combatants become protected when incapacitated, sick, wounded or shipwrecked to the extent that they are incapable of fighting.²³⁸

The manual also states that:

A person who is recognised or who, in the circumstances, should be recognised to be *hors de combat* shall not be made the object of attack. A person is *hors de combat* if he:

- a. is in the power of an enemy;
- b. clearly expresses an intention to surrender;
- c. or has been rendered unconscious or is otherwise incapacitated,

provided that in any of these cases he abstains from any hostile act and does not attempt to escape.²³⁹

The manual further provides that "the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings: . . . making PW or the sick and wounded the object of attack; . . . denying an enemy the right to surrender".²⁴⁰

226. Australia's Defence Force Manual states that:

Combatants who are unable to continue hostile action and refrain from attempting to do so must be treated in the same fashion as noncombatants. Prisoners of war, military personnel who are surrendering or attempting to surrender, and those who are wounded or sick must not be attacked. The basic principle is that any person who

²³⁷ Argentina, *Law of War Manual* (1989), § 1.06(5).

²³⁸ Australia, *Commanders' Guide* (1994), §§ 413, 414, 416 and 621.

²³⁹ Australia, *Commanders' Guide* (1994), § 906.

²⁴⁰ Australia, *Commanders' Guide* (1994), § 1305(i) and (o).

is hors de combat, whether by choice or circumstance, is entitled to be treated as a noncombatant provided they refrain from any further participation in hostilities.

... A person is *hors de combat* if that person:

- a. is under the control of an enemy;
- b. clearly expresses an intention to surrender, or has been rendered unconscious, or is otherwise incapacitated; and
- c. abstains from any hostile act and does not attempt to escape.²⁴¹

The manual also states that “the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings: ... making PW or the sick and wounded the object of attack; ... denying an enemy the right to surrender”.²⁴²

227. Under Belgium’s Field Regulations, “it is forbidden to mistreat... an enemy, who having laid down his arms, has surrendered at discretion”.²⁴³

228. Belgium’s Law of War Manual provides that “it is prohibited to kill or injure an adversary who, having laid down his arms or having no longer means of defence, has surrendered ‘at discretion’, i.e. unconditionally”.²⁴⁴

229. Belgium’s Teaching Manual for Officers stipulates that “any adversary *hors de combat* may no longer be made the object of attack. This is the case of combatants who surrender, who are wounded or sick [or] of shipwrecked.”²⁴⁵

230. Belgium’s Teaching Manual for Soldiers states that surrendering soldiers may not be fired at. It explains that “the intention to surrender may be expressed in different ways: laid down arms, raised hand, white flag”. The manual also provides that “the shipwrecked do not constitute any longer a military threat. [Wounded and shipwrecked] combatants obviously lose their protection and may be attacked if they themselves open fire... For the same reasons of humanity, the wounded and sick must be spared.”²⁴⁶

231. Benin’s Military Manual states that “it is prohibited to kill or injure an adversary who surrenders”.²⁴⁷ The manual also provides that “any person recognised, or who should be recognised, as not being able to participate any longer in combat shall not be attacked (for example: in case of surrender, wounds, ... shipwreck ...).” It specifies that an intention to surrender must be clearly expressed and gives a few examples, such as raising hands, laying down arms and waving a white flag.²⁴⁸

232. The Instructions to the Muslim Fighter issued by the ARBiH in Bosnia and Herzegovina in 1993 state that it is “left to the military command’s discretion

²⁴¹ Australia, *Defence Force Manual* (1994), §§ 518 and 707, see also §§ 519 and 836 (prohibition to kill or wound an enemy who surrenders in air warfare) and § 839 (prohibition to fire upon shipwrecked personnel in air warfare).

²⁴² Australia, *Defence Force Manual* (1994), § 1315(i) and (o).

²⁴⁸ Benin, *Military Manual* (1995), Fascicule II, p. 9.

to decide whether it is more useful or in the general interest to free, exchange or liquidate enemy prisoners of war".²⁴⁹

233. Burkina Faso's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy who surrenders or who is captured", as well as "to refuse an unconditional surrender".²⁵⁰

234. Cameroon's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy who surrenders or who is captured", as well as "to refuse an unconditional surrender".²⁵¹

235. Cameroon's Instructors' Manual states that "all combatants who are unable to fight must be spared".²⁵² It further notes that:

An enemy *hors de combat* may:

- raise his arm as an indication of surrender
- lay down his weapon
- display the white flag of parlementaires.²⁵³

In addition, the manual specifies that "captured enemy combatants are prisoners of war and shall not be attacked".²⁵⁴

236. Canada's LOAC Manual provides that:

It is prohibited to attack a combatant who is, or should be recognized as being, *hors de combat* (out of combat).

A combatant is *hors de combat* if that person:

- a. is in the power of an adverse Party (i.e., a prisoner);
- b. clearly expresses an intention to surrender; or
- c. has been rendered unconscious or is otherwise incapacitated by wounds or sickness, and therefore is incapable of self defence;

provided that in any of these cases this person abstains from any hostile act and does not attempt to escape.²⁵⁵

The manual also states that "killing or wounding an enemy who, having laid down his arms or no longer having a means of defence, has surrendered" constitutes a war crime.²⁵⁶ Likewise, "firing upon shipwrecked personnel" is a war crime "recognized by the LOAC".²⁵⁷

237. Canada's Code of Conduct instructs: "Do not attack those who surrender."²⁵⁸ It adds that "it is unlawful to refuse to accept someone's surrender... Anyone who wishes to surrender must clearly show an intention to do

²⁴⁹ Bosnia and Herzegovina, *Instructions to the Muslim Fighter* (1993), § c.

²⁵⁸ Canada, *Code of Conduct* (2001), Rule 5.

so (e.g., hands up, throwing away his weapon, or showing a white flag).²⁵⁹ The manual further provides that “members of opposing forces who have been rendered unconscious or are otherwise incapacitated by wounds or sickness, and therefore are incapable of defending themselves, shall not be made the object of attack provided that they abstain from any hostile act”.²⁶⁰

238. Colombia’s Circular on the Fundamental Rules of IHL states that “it is prohibited to kill or injure an adversary who surrenders”.²⁶¹

239. Congo’s Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited “to fire at, injure or kill an enemy who surrenders or who is captured”, as well as “to refuse an unconditional surrender”.²⁶²

240. Croatia’s LOAC Compendium and Soldiers’ Manual instruct soldiers to spare captured enemy combatants.²⁶³

241. Croatia’s Commanders’ Manual states that “a combatant who is recognised (or should be recognised) as being out of combat (surrendering, wounded, shipwrecked in water . . .) may not be attacked. The intent to surrender can be shown with a white flag.”²⁶⁴

242. Under Croatia’s Instructions on Basic Rules of IHL, it is prohibited to kill or injure members of the enemy armed forces who have surrendered.²⁶⁵

243. The Military Manual of the Dominican Republic forbids attacks against non-combatants, including soldiers who surrender or who are sick, wounded or captured.²⁶⁶ It further states that:

The enemy soldier may reach the point where he would rather surrender than fight. He may signal to you with a white flag, by emerging from his position with arms raised or by yelling to cease fire. The manner he expresses his wish to surrender may vary, but you must give him the opportunity to surrender once he has manifested it. It is illegal to fire at an enemy who has laid down his arms as a sign of surrender.²⁶⁷

244. Ecuador’s Naval Manual states that:

Members of the armed forces incapable of participating in combat due to injury or illness may not be the object of attack.

...

Shipwrecked persons, whether military or civilian, may not be the object of attack.

...

Combatants cease to be subject to attack when they have individually laid down their arms to surrender, when they are no longer capable of resistance or when the unit in which they are serving or embarked has surrendered or has been captured.²⁶⁸

²⁵⁹ Canada, *Code of Conduct* (2001), Rule 5, §§ 2 and 3.

²⁶⁰ Canada, *Code of Conduct* (2001), Rule 7, § 2.

²⁶⁸ Ecuador, *Naval Manual* (1989), §§ 11.4, 11.6 and 11.8, see also § 8.2.1.

The manual also states that:

The following acts constitute war crimes:

- ...
3. Offences against the sick and wounded, including killing, wounding, or mistreating enemy forces disabled by sickness or wounds.
 4. ... offences against combatants who have laid down their arms and surrendered.
 5. Offences against the survivors of ships and aircraft lost at sea, including killing, wounding, or mistreating the shipwrecked, and failing to provide for the safety of survivors as military circumstances permit.²⁶⁹

245. El Salvador's Soldiers' Manual states that "a person wounded or sick is *hors de combat*".²⁷⁰ It also instructs: "Do not kill ... enemies who have laid down their arms and surrendered."²⁷¹

246. France's Disciplinary Regulations as amended states that, under international conventions, it is prohibited "to fire at, injure or kill an enemy who surrenders or who is captured", as well as "to refuse an unconditional surrender".²⁷²

247. France's LOAC Summary Note provides that "it is prohibited to kill or wound an adversary who surrenders".²⁷³

248. France's LOAC Teaching Note provides that "it is prohibited to attack, kill or wound an adversary who surrenders". It adds that "prisoners shall be spared".²⁷⁴

249. France's LOAC Manual incorporates the content of Article 41 AP I. The manual adds that "any intention to surrender must be clearly expressed: by raising hands, throwing down weapons or waving a white flag".²⁷⁵

250. Germany's Military Manual states that "an enemy who, having laid down his arms, or having no longer means of defence, surrenders or is otherwise unable to fight or to defend himself shall no longer be made the object of attack".²⁷⁶ It further states that "grave breaches of international humanitarian law are in particular: ... launching attacks against defenceless persons".²⁷⁷

251. Germany's Soldiers' Manual contains the rule: "Never fight against an opponent who has laid down arms or has surrendered."²⁷⁸

²⁶⁹ Ecuador, *Naval Manual* (1989), § 6.2.5(3)–(5).

²⁷⁷ Germany, *Military Manual* (1992), § 1209.

²⁷⁸ Germany, *Soldiers' Manual* (1996), § 604, picture 601, pp. 33–34.

252. Indonesia's Air Force Manual states that "it is prohibited to kill or injure the enemy who has surrendered".²⁷⁹ It further states that:

It is prohibited to attack:

- a. Enemy ships which are obviously intending to surrender;
- b. Shipwrecked crew, including the crew of military air craft of the adverse party.²⁸⁰

253. Israel's Manual on the Laws of War provides that:

The laws of war do set clear bars to the possibility of harming combatants when the combatant is found "outside the frame of hostilities", as when he asks to surrender, or when he is wounded in a way that does not allow him to take an active part in the fighting. In such situations, it is absolutely prohibited to harm the combatant.

...

When is a combatant regarded as leaving the sphere of hostilities? While storming at zero distance, must a combatant hold his fire against a combatant raising his hands, but still holding his weapon? This is a difficult question to answer, especially under combat conditions. At any rate, there are several criteria that can guide us: Does the combatant show clear intent to surrender using universally accepted signs, such as raising his hands? Is the soldier seeking to surrender liable to jeopardize our forces or is the range considered not dangerous? Did the surrenderer lay down his arms?²⁸¹

254. Italy's IHL Manual states that it is prohibited to use violence "to kill or injure an enemy... when he, having laid down arms or having no longer means of defence, has surrendered at discretion". It also forbids "firing at the shipwrecked".²⁸²

255. Italy's LOAC Elementary Rules Manual states that "a combatant who is recognised (or should be recognised) as being out of combat may not be attacked (surrendering, wounded, shipwrecked in water...). The intent to surrender can be shown with a white flag."²⁸³ Furthermore, one of the rules to be observed when confronted with enemy combatants who surrender is "to spare them".²⁸⁴

256. Kenya's LOAC Manual states that "the enemy combatant who is no longer in a position to fight is no longer to be attacked... This is the case for combatants who surrender, for the injured, ... for the shipwrecked."²⁸⁵ The manual further insists that:

It is forbidden to kill or wound someone who has surrendered having laid down his arms or who no longer has any means of defence...

²⁷⁹ Indonesia, *Air Force Manual* (1990), § 15(b)3.

²⁸⁴ Italy, *LOAC Elementary Rules Manual* (1991), p. 29.

²⁸⁵ Kenya, *LOAC Manual* (1997), Précis No. 2, p. 15.

Any intention to surrender must be clearly expressed, raising arms, throwing away one's weapons or waving a white flag, etc. . . .

Combatants who are captured (with or without having surrendered) shall no longer be attacked. Their protective status starts from the moment of capture, and applies only to captured combatants who then abstain from any hostile act and do not attempt to escape.²⁸⁶

257. South Korea's Military Law Manual states that combatants who are disabled shall not be attacked.²⁸⁷

258. South Korea's Operational Law Manual states that combatants who are unwilling to fight or express their intention to surrender shall not be attacked.²⁸⁸

259. Lebanon's Army Regulations and Field Manual prohibit attacks against persons intending to surrender, and against the wounded, sick, shipwrecked and prisoners.²⁸⁹

260. Madagascar's Military Manual provides that "a combatant who is recognised (or should be recognised) as being *hors de combat* shall not be attacked (surrendering, wounded, shipwrecked . . .). The intent to surrender can be shown with a white flag."²⁹⁰ The manual adds that "captured enemy combatants, whether having surrendered or not, are prisoners of war and shall no longer be attacked".²⁹¹

261. Mali's Army Regulations provides that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy who surrenders or who is captured", as well as "to refuse an unconditional surrender".²⁹²

262. Morocco's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy who surrenders or who is captured", as well as "to refuse an unconditional surrender".²⁹³

263. The Military Manual of the Netherlands states that:

It is prohibited to attack an adversary who has laid down his arms or has surrendered.

In addition, an adversary who has indicated his intention to surrender may not be attacked.

May not be attacked either an adversary who is unconscious or who is otherwise placed *hors de combat* by wounds or sickness, and who is no longer capable of defending himself. In general, any person who is in the power of an adverse party may not be attacked.

A combatant who has just become prisoner of war and uses violence or escapes ceases to be *hors de combat* and may again be the target of attack.²⁹⁴

²⁸⁶ Kenya, *LOAC Manual* (1997), Précis No. 3, pp. 6 and 7, see also Précis No. 2, p. 15 and Précis No. 3, p. 14.

²⁹³ Morocco, *Disciplinary Regulations* (1974), Article 25(2).

²⁹⁴ Netherlands, *Military Manual* (1993), pp. IV-3 and IV-4.

264. The Military Handbook of the Netherlands states that “it is prohibited to attack . . . combatants who are no longer fighting because of wounds or sickness and who have surrendered”.²⁹⁵ It adds that “wounded and sick soldiers who have laid down their arms have to be spared and protected, whatever party they belong to”.²⁹⁶

265. The IFOR Instructions of the Netherlands provides that “members of enemy troops who want to surrender may not be maltreated”.²⁹⁷

266. New Zealand’s Military Manual provides that:

A person who is recognised as, or who in the circumstances should be recognised as, hors de combat shall not be made the object of attack. A person is hors de combat if:

- a) he is in the power of an adverse Party;
- b) he clearly expresses an intention to surrender; or
- c) he has been rendered unconscious or is otherwise incapacitated by wounds or sickness, and is therefore incapable of defending himself;

provided that in any of these cases he abstains from any hostile act and does not attempt to escape.²⁹⁸

The manual further states that “killing or wounding an enemy who, having laid down his arms or no longer having a means of defence, has accordingly surrendered” is a war crime.²⁹⁹ Likewise, “among other war crimes recognised by the customary law of armed conflict are . . . firing upon shipwrecked personnel”.³⁰⁰

267. Nigeria’s Operational Code of Conduct states that “soldiers who surrender will not be killed”.³⁰¹

268. Under Nigeria’s Military Manual, it is prohibited “to kill or wound an enemy who, having laid down his arms, or having no longer any means of defence, has surrendered at discretion”.³⁰²

269. Nigeria’s Manual on the Laws of War considers “killing or injuring an enemy who has laid down his weapons” as an “illegitimate tactic”.³⁰³

270. Under Nigeria’s Soldiers’ Code of Conduct, it is prohibited “to kill or wound an enemy who, having laid down his arms, or having no longer any means of defence has surrendered at discretion”.³⁰⁴

³⁰⁴ Nigeria, *Soldiers’ Code of Conduct* (undated), § 12(d).

271. Peru's Human Rights Charter of the Security Forces states that it is prohibited to kill defenceless persons and adds that "the life of captured, surrendered and wounded persons must be respected".³⁰⁵

272. The Soldier's Rules of the Philippines instructs: "Do not fight enemies... who surrender. Disarm them and hand them over to your superior."³⁰⁶

273. The Rules for Combatants of the Philippines provides that "it is forbidden to attack... a wounded enemy combatant; an enemy combatant who surrenders...".³⁰⁷

274. Romania's Soldiers' Manual instructs combatants that the "killing or injuring of an adversary who surrenders... is prohibited".³⁰⁸

275. Russia's Military Manual provides that it is prohibited "to kill or injure enemy persons who have laid down their arms, who have no means of defending themselves, who have surrendered".³⁰⁹

276. Senegal's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy who surrenders or who is captured", as well as "to refuse an unconditional surrender".³¹⁰

277. South Africa's LOAC Manual states that "making a person... who is wounded or has surrendered... the object of attack knowing that that person is out of combat" constitutes a grave breach of API and a war crime.³¹¹ It explains that "surrender may be by any means that communicates the intention to give up".³¹²

278. Spain's LOAC Manual provides that:

It is prohibited to attack an enemy who is *hors de combat*:

- a) because he is in the power of an adverse party;
- b) because he clearly expresses his intention to surrender;
- c) because he is unconscious or is otherwise incapacitated by wounds or sickness, and is therefore incapable of defending himself.

In any of these cases, he always abstains from any hostile act and does not attempt to escape. Otherwise, the prohibition [to attack him] disappears.³¹³

279. Sweden's IHL Manual notes that:

The [1907 HR] and [the 1949] Geneva Conventions include rules intended to afford protection to combatants in situations where they have laid down their arms or are no longer capable of defending themselves... or where combatants have become sick, are wounded, shipwrecked or captured. These fundamental rules have not

always been applied in combat situations, and for this reason it has been considered necessary to reaffirm certain of the older provisions to assert their fundamental importance . . .

Personnel attempting to save themselves from a sinking vessel shall according to international humanitarian law be considered as distressed, and may not be attacked.³¹⁴

280. Switzerland's Basic Military Manual provides that "it is prohibited to kill or wound an enemy who, having laid down his arms or having no longer means of defence, has surrendered". Furthermore, "a person who surrenders must clearly indicate his intention by his behaviour; he must no longer attempt to fight or escape".³¹⁵ The manual adds that "the life of an individual who surrenders must be spared. During the Second World War, and subsequent conflicts, this rule has been frequently violated."³¹⁶ It further provides that it is prohibited to finish off or exterminate the wounded and sick.³¹⁷ The manual also notes that "prisoners of war are protected persons" and that "captivity starts as soon as a member of the armed forces falls into enemy hands".³¹⁸ In addition, "to finish off the wounded", "to machine-gun the shipwrecked" and "to kill or injure an enemy who is surrendering" constitute war crimes under the manual.³¹⁹

281. Togo's Military Manual states that "it is prohibited to kill or injure an adversary who surrenders".³²⁰ The manual also provides that "any person recognised, or who should be recognised, as not being able to participate any longer in combat shall not be attacked (for example: in case of surrender, wounds, . . . shipwreck . . .)". It specifies that an intention to surrender must be clearly expressed and gives a few examples, such as raising hands, laying down arms and waving a white flag.³²¹

282. Uganda's Code of Conduct orders troops to "never kill . . . any captured prisoners, as the guns should only be reserved for armed enemies or opponents".³²²

283. The UK Military Manual provides that:

It is forbidden to kill or wound an enemy who, having laid down his arms, or having no longer the means of defence, has surrendered at discretion, *i.e.*, unconditionally . . . A combatant is entitled to commit acts of violence up to the moment of his surrender without losing the benefits of quarter.³²³

³²¹ Togo, *Military Manual* (1996), Fascicule II, p. 9.

³²² Uganda, *Code of Conduct* (1986), § A.4. ³²³ UK, *Military Manual* (1958), § 119.

The manual also states that “even if a capitulation is unconditional, the victor has nowadays no longer the power of life and death over his prisoners, and is not absolved from observing the laws of war towards them”.³²⁴

284. The UK LOAC Manual provides that it is forbidden “to kill or wound someone who has surrendered, having laid down his arms, or who no longer has any means of defence”.³²⁵ It also states that “shipwrecked persons may not be made the object of attack”.³²⁶

285. The US Field Manual provides that “it is especially forbidden . . . to kill or wound an enemy who, having laid down his arms, or having no longer means of defense, has surrendered at discretion”.³²⁷

286. The US Air Force Pamphlet provides that “the law of armed conflict clearly forbids the killing or wounding of an enemy who, in good faith, surrenders”.³²⁸ Furthermore, “in addition to the grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: . . . deliberate attack on . . . shipwrecked survivors”.³²⁹

287. The US Soldier’s Manual forbids attacks against non-combatants, including soldiers who surrender or who are sick, wounded or captured.³³⁰ It further states that:

Enemy soldiers may reach the point where they would rather surrender than fight. They may signal to you by waving a white flag, by crawling from their positions with arms raised, or by yelling at you to stop firing so that they can give up. The way they signal their desire to surrender may vary, but you must allow them to give up once you receive the signal. It is illegal to fire on enemy soldiers who have thrown down their weapons and offered to surrender.³³¹

288. The US Health Service Manual notes that the meaning of the words “wounded and sick” is a matter of common sense and good faith. It adds that “it is the act of falling or laying down of arms which constitutes the claim to protection. Only the soldier who is himself seeking to kill may be killed.”³³²

289. The US Rules of Engagement for Operation Desert Storm instructs: “Do not engage anyone who has surrendered, is out of battle due to sickness or wounds, [or] is shipwrecked.”³³³

290. The US Operational Law Handbook prohibits the “killing or wounding of enemy who have surrendered or are incapacitated and incapable of resistance”.³³⁴

³²⁴ UK, *Military Manual* (1958), § 476.

³³³ US, *Rules of Engagement for Operation Desert Storm* (1991), § A.

³³⁴ US, *Operational Law Handbook* (1993), p. Q-182(h).

291. The US Naval Handbook provides that:

Members of the armed forces incapable of participating in combat due to injury or illness may not be the object of attack . . .

Similarly, shipwrecked persons, whether military or civilian, may not be the object of attack.

...

Combatants cease to be subject to attack when they have individually laid down their arms to surrender . . . or when the unit in which they are serving or embarked has surrendered . . . However, the law of armed conflict does not precisely define when surrender takes effect or how it may be accomplished in practical terms. Surrender involves an offer by the surrendering party (a unit or individual combatant) and an ability to accept on the part of the opponent. The latter may not refuse an offer of surrender when communicated, but that communication must be made at a time when it can be received and properly acted upon – an attempt to surrender in the midst of a hard-fought battle is neither easily communicated nor received. The issue is one of reasonableness.³³⁵

The Handbook also states that:

The following acts are representative war crimes:

...

3. Offenses against the sick and wounded, including killing, wounding, or mistreating enemy forces disabled by sickness or wounds
4. . . . offenses against combatants who have laid down their arms and surrendered
5. Offenses against the survivors of ships and aircraft lost at sea, including killing, wounding, or mistreating the shipwrecked; and failing to provide for the safety of survivors as military circumstances permit.³³⁶

292. The YPA Military Manual of the SFRY (FRY) states that “the armed forces are an instrument of force and [may be] the direct object of attack. It is permitted to kill, wound or disable their members in combat, except when they surrender or when due to wounds or sickness they are disabled for combat.”³³⁷ The manual prohibits killing or injuring members of the armed forces as of the moment of surrender.³³⁸

National Legislation

293. Azerbaijan’s Criminal Code provides that “directing attacks against a person who . . . having laid down his arms, or having no longer means of defence, has surrendered at discretion” constitutes a war crime in international and non-international armed conflicts.³³⁹

294. Under the Criminal Code of the Federation of Bosnia and Herzegovina, whoever “kills or wounds an enemy who has laid down arms or unconditionally

³³⁵ US, *Naval Handbook* (1995), §§ 11.4 and 11.7, see also § 8.2.1.

³³⁸ SFRY (FRY), *YPA Military Manual* (1988), § 68.

³³⁹ Azerbaijan, *Criminal Code* (1999), Article 116(13).

surrendered or has no means of defence" commits a war crime.³⁴⁰ The Criminal Code of the Republika Srpska contains the same provision.³⁴¹

295. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "killing or injuring a combatant who, having laid down his arms or having no longer means of defence, has surrendered at discretion" constitutes a war crime in international armed conflicts.³⁴²

296. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.³⁴³

297. Colombia's Penal Code imposes a criminal sanction on anyone who, during an armed conflict, commits acts aimed at leaving no survivors or at killing the wounded and sick.³⁴⁴

298. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.³⁴⁵

299. Under Croatia's Criminal Code, whoever "kills or wounds an enemy who has laid down arms, or has surrendered at discretion, or has no longer any means of defence" commits a war crime.³⁴⁶

300. Egypt's Military Criminal Code punishes anyone who commits violence against a person incapacitated by wounds or sickness if that person is incapable of defending himself.³⁴⁷

301. The Draft Amendments to the Penal Code of El Salvador provide for a prison sentence for "anyone who, during an international or non-international armed conflict, attacks protected persons". Protected persons are defined as including, *inter alia*, the wounded, sick and shipwrecked, combatants who have laid down their arms, prisoners of war and persons detained during an internal conflict.³⁴⁸ In addition, "anyone who, during an international or non-international armed conflict, knowing of the existence of unequivocal acts of surrender by the adversary, continues to attack persons *hors de combat*, with the aim of leaving no survivors [or] of killing the wounded and sick" is punishable.³⁴⁹

³⁴⁹ El Salvador, *Draft Amendments to the Penal Code* (1998), Article entitled "Ataques contra actos inequívocos de rendición".

302. Under Estonia's Penal Code, "a person who kills... enemy combatants after they have laid down their arms and are placed *hors de combat* by sickness, wounds or another reason" commits a war crime.³⁵⁰

303. Ethiopia's Penal Code punishes "whosoever, in time of war... kills or wounds an enemy who has surrendered or laid down his arms, or for any other reason is incapable of defending, or has ceased to defend, himself".³⁵¹

304. Under Georgia's Criminal Code, the wilful killing or wounding of "persons who... have no means of defence, as well as... wounded and sick" in international or non-international armed conflicts is a crime.³⁵² Furthermore, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, such as "killing or wounding a combatant who, having laid down his arms... has surrendered at discretion" in international armed conflicts, is a crime.³⁵³

305. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict, "wounds a member of the opposing armed forces or a combatant of the adverse party after the latter has surrendered unconditionally".³⁵⁴

306. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of AP I, including violations of Article 41 AP I, is a punishable offence.³⁵⁵

307. Italy's Law of War Decree as amended provides that it is prohibited to use violence "to kill or injure an enemy... when he, having laid down arms and having no longer means of defence, has surrendered at discretion". It also forbids "firing at the shipwrecked".³⁵⁶

308. Under Lithuania's Criminal Code as amended, "killing... persons who have surrendered by giving up their arms or having no means to put up resistance, the wounded, sick persons or the crew of a sinking ship" during an international armed conflict or occupation is a war crime.³⁵⁷

309. Under Mali's Penal Code, "killing or injuring a combatant who, having laid down his arms or having no longer means of defence, has surrendered at discretion" is a war crime in international armed conflicts.³⁵⁸

310. The International Crimes Act of the Netherlands provides that the following constitutes a crime, when committed in time of international armed conflict:

killing or wounding a combatant who is in the power of the adverse party, who has clearly indicated he wished to surrender, or who is unconscious or otherwise *hors de combat* as a result of wounds or sickness and is therefore unable to defend

himself, provided that he refrains in all these cases from any hostile act and does not attempt to escape.³⁵⁹

311. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(vi) of the 1998 ICC Statute.³⁶⁰

312. Nicaragua's Military Penal Code punishes any soldier "who maltreats an enemy who . . . is defenceless".³⁶¹

313. Nicaragua's Draft Penal Code punishes "anyone who, during an international or internal armed conflict, attacks protected persons", defined as including the wounded, sick and shipwrecked, combatants who have laid down their arms, prisoners of war and persons detained during an internal conflict.³⁶² It also punishes "anyone who, during an international or internal armed conflict, knowing of the existence of unequivocal acts of surrender by the adversary, continues to attack persons *hors de combat*, with the aim of leaving no survivors [or] of killing the wounded and sick".³⁶³

314. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".³⁶⁴

315. Peru's Code of Military Justice punishes the persons "who finish off . . . the surrendered or wounded enemy who does not put up resistance".³⁶⁵

316. Poland's Penal Code punishes anyone who "kills . . . persons who, having laid down their arms or having no longer means of defence, have surrendered at discretion".³⁶⁶

317. Under Slovenia's Penal Code, whoever "kills or wounds an enemy who has laid down arms or surrendered unconditionally or who is defenceless" commits a war crime.³⁶⁷

318. Spain's Royal Ordinance for the Armed Forces states that "the combatant shall not refuse the unconditional surrender of the enemy".³⁶⁸

319. Spain's Military Criminal Code punishes any soldier "who mistreats an enemy who has surrendered or who has no longer means of defending himself".³⁶⁹

320. Under Sweden's Penal Code as amended, "attacks . . . on persons who are injured or disabled" are "crimes against international law".³⁷⁰

321. Switzerland's Military Criminal Code as amended punishes "anyone who kills or injures an enemy who has surrendered or who has otherwise ceased to defend himself" in time of armed conflict.³⁷¹

322. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(vi) of the 1998 ICC Statute.³⁷²

323. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(vi) of the 1998 ICC Statute.³⁷³

324. Under the US War Crimes Act as amended, violations of Article 23(c) of the 1907 HR are war crimes.³⁷⁴

325. According to Venezuela's Code of Military Justice as amended, it is a crime against international law to "make a serious attempt on the life of those who surrender".³⁷⁵

326. Under the Penal Code as amended of the SFRY (FRY), "a person who kills . . . the enemy who has laid down his arms or has surrendered unconditionally or has no means of defence" commits a war crime.³⁷⁶ The commentary on the Penal Code specifies that "in the case of an armed conflict, it is irrelevant for this act whether it is international in nature or whether it is a civil war".³⁷⁷

National Case-law

327. In its judgement in the *Military Junta case* in 1985, Argentina's National Court of Appeals established that, in a situation of internal violence, "the combatants incapacitated by sickness or wounds shall not be killed and shall be given quarter".³⁷⁸

328. In its judgement in the *Stenger and Cruisus case* after the First World War, Germany's Leipzig Court specified that an order to shoot down men who were abusing the privileges of captured or wounded men

would not have been contrary to international principles, for the protection afforded by the regulations for land warfare does not extend to such wounded who take up arms again and renew the fight. Such men have by doing so forfeited the claim for mercy granted to them by the laws of warfare.³⁷⁹

329. In the *Llandoverly Castle case* in 1921, Germany's Reichsgericht found the accused, two crew officers, guilty of having fired upon enemies in lifeboats in violation of the laws and customs of war after their hospital ship had been sunk. The prosecutor emphasised that "in war at sea the killing of ship-wrecked persons who have taken refuge in lifeboats is forbidden". The Court rejected

³⁷⁹ Germany, Leipzig Court, *Stenger and Cruisus case*, Judgement, 1921.

the accused's defence of superior orders on the ground that the rule prohibiting firing on lifeboats was "simple and universally known".³⁸⁰

330. In 1968, in a Nigerian case referred to by the ICTY Appeals Chamber in the interlocutory appeal in the *Tadić case*, "a Nigerian Lieutenant was court-martialled, sentenced to death and executed by a firing squad at Port-Harcourt for killing a rebel Biafran soldier who had surrendered to Federal troops near Aba".³⁸¹

331. The *Peleus case* before the UK Military Court at Hamburg in 1945 concerned the sinking, during the Second World War, of a Greek steamship by a German U-boat on the high seas and the subsequent killing of shipwrecked members of the crew of the Greek boat. Four members of the crew of the German U-boat were accused of having violated the laws and usages of war by firing and throwing grenades on the survivors of the sunken ship. The Court held that there was no case of justifiable recourse to the plea of necessity when the accused killed by machine-gun fire survivors of a sunken ship, in order to destroy every trace of sinking and thus make the pursuit of the submarine improbable. In summing up, the Judge Advocate underlined that it was a fundamental usage of war that the killing of unarmed enemies was forbidden as a result of the experience of civilised nations through many centuries. He also stated that to fire so as to kill helpless survivors of a torpedoed ship was a grave breach of the law of nations. He added that the right to punish the perpetrators of such an act had clearly been recognised for many years. The accused were found guilty of the war crimes charged.³⁸²

332. In the *Renoth case* before the UK Military Court at Elten in 1946, the accused, two German policemen and two German customs officials, were accused of committing a war crime for their involvement in the killing of an Allied airman whose plane had crashed on German soil. After he had emerged from his aircraft unhurt, the pilot was arrested by Renoth, then attacked and beaten, before Renoth shot him. All the accused were found guilty.³⁸³

333. In the *Von Ruchteschell case* before the UK Military Court at Hamburg in 1947, the accused was charged, *inter alia*, of having continued to fire on a British merchant vessel after the latter had indicated surrender. He was found guilty on that count. The central question concerned the ways of indicating surrender. The Court noted that, even if the accused did not receive a signal of surrender, he could still be convicted because he "deliberately or recklessly avoided any question of surrender by making it impossible for the ship to make a signal", which constituted a violation of the customary rules of sea warfare.³⁸⁴

³⁸⁴ UK, Military Court at Hamburg, *Von Ruchteschell case*, Judgement, 21 May 1947.

334. In the *Dostler case* before the US Military Commission at Rome in 1945, the accused, the commander of a German army corps, was found guilty of having ordered the shooting of 15 American prisoners of war in violation of the 1907 HR and of long-established laws and customs of war. The accused relied on the defence of superior orders based, *inter alia*, on the *Führer's* order of 18 October 1942. This order provided that enemy soldiers participating in commando operations should be given no quarter, but added that these provisions did not apply to enemy soldiers who surrendered and to those who were captured in actual combat within the limits of normal combat activities (offensives, large-scale air or seaborne landings), nor did they apply to enemy troops captured during naval engagements.³⁸⁵

Other National Practice

335. In 1958, during the Algerian war of independence, in an armed clash between the ALN and French soldiers, the commander of the ALN battalion gave the order to spare enemy soldiers who wanted to surrender. The four French soldiers who surrendered were the only ones to survive the attack.³⁸⁶

336. In a speech at the Stockholm International Peace Research Institute in 1995, the Australian Minister of Foreign Affairs referred to the UNTAC Rules of Engagement, which specifies that "attacks on soldiers who have laid down their arms" are a criminal act.³⁸⁷

337. In a case against the State relative to the takeover of the Palacio de Justicia by guerrillas in 1985, a Colombian administrative court cited a document of the Colombian Ministry of Defence stating that a commander should "respect the life of the enemy who offers to surrender".³⁸⁸

338. Cuban practice during the 1960s was reported in several sources. One commentator described witnessing "the surrender of hundreds of *Batistianos* from a small-town garrison":

They were gathered within a hollow square of rebel Tommy-gunners and harangued by Raul Castro: "We hope that you will stay with us and fight against the master who so ill-used you. If you decide to refuse this invitation – and I am not going to repeat it – you will be delivered to the Cuban Red Cross tomorrow. Once you are under Batista's orders again, we hope that you will not take arms against us. But, if you do, remember this: we took you this time. We can take you again. And when

we do, we will not frighten or torture or kill you . . . If you are captured a second time or even a third . . . we will again return you exactly as we are doing now.³⁸⁹

339. According to a statement by the Egyptian Minister of War in 1984 in the context of the conflict with Israel, persons are “really” *hors de combat* when they are incapacitated or unable to endanger the life of others. Furthermore, when an Israeli soldier raised his hands, “he was taken as a prisoner of war”.³⁹⁰

340. Referring to India’s Army Act, the Report on the Practice of India states that any violation of the “duty not to attack someone who is incapable or unwilling to fight” may constitute “disgraceful conduct of a cruel, indecent or unnatural kind”.³⁹¹

341. The Report on the Practice of Iraq refers to a speech made by the Iraqi President in 1980 in which he called on the Iraqi armed forces to spare those incapacitated by wounds, sickness or unconsciousness.³⁹²

342. The Report on the Practice of Israel comments that:

It should nevertheless be understood that during combat operations, it is often impossible to ascertain exactly at which point an opposing soldier becomes incapacitated, as opposed to merely taking cover, hiding, or “playing dead” in order to open fire at a later stage. Therefore, the practical implementation of this rule requires the commanders in the field to make best-judgment decisions as to whether or not that person continues to pose a threat to friendly forces.³⁹³

343. In 1993, an international commission of inquiry on human rights violations in Rwanda mandated by four NGOs reported the killing by the FAR of 150 combatants of the FPR after they had laid down their arms.³⁹⁴ According to the Report on the Practice of Rwanda, when the Rwandan government reacted to the report in April 1993, it did not condemn or deplore these acts nor did it express any intention of bringing those responsible to justice.³⁹⁵

344. In 1982, in reply to a question in the House of Commons, the UK Prime Minister stated that, following the sinking of an Argentine cruiser by a UK warship during the war in the South Atlantic, another UK warship returning to

³⁹⁵ Report on the Practice of Rwanda, 1997, Chapter 2.1.

the area where the sinking had occurred was instructed not to attack warships engaged in rescuing the survivors.³⁹⁶

345. A training video on IHL produced by the UK Ministry of Defence illustrates the rule that “it is forbidden to kill or wound anyone who has laid down arms”.³⁹⁷

346. In 1991, before the UK Parliamentary Defence Committee, the officer commanding the UK forces in the Gulf War confirmed that the rules of engagement were modified in order to minimise casualties when it was realised that the Iraqis were seeking to surrender (the initial rules of engagement were to destroy the enemy). The plan was adjusted to encourage surrender rather than resistance.³⁹⁸

347. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that “we support the principle that all the wounded, sick, and shipwrecked . . . not be made the object of attacks”.³⁹⁹

348. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US pointed out that its practice was consistent with the prohibition to attack those who had surrendered, as well as defenceless combatants, such as the wounded, sick and shipwrecked.⁴⁰⁰

349. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

The law of war obligates a party to a conflict to accept the surrender of enemy personnel and thereafter treat them in accordance with the provisions of the 1949 Geneva Conventions for the Protection of War Victims . . .

However, there is a gap in the law of war in defining precisely when surrender takes effect or how it may be accomplished in practical terms. Surrender involves an offer by the surrendering party (a unit or an individual soldier) and an ability to accept on the part of his opponent. The latter may not refuse an offer of surrender when communicated, but that communication must be made at a time when it can be received and properly acted upon – an attempt at surrender in the midst of a hard-fought battle is neither easily communicated nor received. The issue is one of reasonableness.

A combatant force involved in an armed conflict is not obliged to offer its opponent an opportunity to surrender before carrying out an attack . . . In the process [of military operations], Coalition forces continued to accept legitimate Iraqi offers of surrender in a manner consistent with the law of war. The large number of Iraqi

Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 423.

⁴⁰⁰ US, Letter from the Department of the Army to the legal adviser of the US armed forces deployed in the Gulf region, 11 January 1991, § 8(J), Report on US Practice, 1997, Chapter 2.8.

prisoners of war is evidence of Coalition compliance with its law of war obligations with regard to surrendering forces.⁴⁰¹

The report also referred to two incidents during the Gulf War in which there had been allegations that quarter had been denied. The first incident involved an armoured assault on an entrenched position where tanks equipped with earthmoving plough blades were used to breach the trench line and then turned to fill in the trenches and the bunkers. The Department of Defense defended this tactic as consistent with the law of war. It noted that:

In the course of the breaching operations, the Iraqi defenders were given the opportunity to surrender, as indicated by the large number of EPWs [enemy prisoners of war] taken by the division. However, soldiers must make their intent to surrender clear and unequivocal, and do so rapidly. Fighting from fortified emplacements is not a manifestation of an intent to surrender, and a soldier who fights until the very last possible moment assumes certain risks. His opponent either may not see his surrender, may not recognize his actions as an attempt to surrender in the heat and confusion of battle, or may find it difficult (if not impossible) to halt an onrushing assault to accept a soldier's last-minute effort at surrender.⁴⁰²

The second incident concerned the attack on Iraqi forces while they were retreating from Kuwait City. The Department of Defense again defended the attack as consistent with the law of war. It noted that:

The law of war permits the attack of enemy combatants and enemy equipment at any time, wherever located, whether advancing, retreating or standing still. Retreat does not prevent further attack . . .

In the case at hand, neither the composition, degree of unit cohesiveness, nor intent of the Iraqi military forces engaged was known at the time of the attack. At no time did any element within the formation offer to surrender. CENTCOM [Central Command] was under no law of war obligation to offer the Iraqi forces an opportunity to surrender before the attack.⁴⁰³

350. The Report on US Practice states that:

The *opinio juris* of the United States is that quarter must not be refused to an enemy who communicates an offer to surrender under circumstances permitting that offer to be understood and acted upon by U.S. forces. A combatant who appears merely incapable or unwilling to fight, e.g., because he has lost his weapon or is retreating from the battle, but who has not communicated an offer to surrender, is still subject to attack. (Persons hors de combat due to wounds, sickness or shipwreck must of course be respected in all circumstances, in accordance with the First and Second Geneva Conventions of 1949).⁴⁰⁴

⁴⁰³ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, Appendix O, The Role of the Law of War, 10 April 1992, *ILM*, Vol. 31, 1992, pp. 643 and 644.

⁴⁰⁴ Report on US Practice, 1997, Chapter 2.1.

351. Order No. 579 issued in 1991 by the YPA Chief of Staff of the SFRY (FRY) provides that YPA units shall “apply all means to prevent any . . . mistreatment of . . . persons who surrender or hoist the white flag in order to surrender”.⁴⁰⁵

352. In 1994, in a meeting with the ICRC, officials of a State admitted that their soldiers killed all enemies, including wounded combatants.⁴⁰⁶

353. In 1997, it was reported that the army of a State executed 125 members of an armed opposition group who had been handed over by the army of another State. The State justified the act on the grounds that the prisoners had tried to escape. According to an ICRC note, the army could not explain how no one had survived.⁴⁰⁷

III. Practice of International Organisations and Conferences

United Nations

354. In 1998, in a statement by its President regarding the situation in the DRC, the UN Security Council condemned “the killing or wounding of combatants who have laid down their weapons”.⁴⁰⁸

355. In a resolution adopted in 1980 in the context of the conflict in Kampuchea (Cambodia), the UN Commission on Human Rights urged the parties to “spare the lives of those enemy combatants who surrender or are captured”.⁴⁰⁹

356. In 1970, in a report on respect for human rights in armed conflict, the UN Secretary-General stated that the clarification of the rule prohibiting the killing or wounding of an enemy who surrenders should be made on the basis of the following principles:

- a) It should be prohibited to kill or harm a combatant who has obviously laid down his arms or who has obviously no longer any weapons, without need for any expression of surrender on his part. Only such force as is strictly necessary in the circumstances to capture him should be applied.
- b) In the case of a combatant who has still some weapons or whenever, as frequently happens, it cannot be ascertained whether he has weapons, an expression of surrender should be required.⁴¹⁰

357. In 1992, in a report on the situation of human rights in Guatemala, the Independent Expert of the UN Commission on Human Rights reported that military sources had announced the death of three persons during an armed confrontation. The Expert mentioned he had access to photographs showing that the victims were given a “*coup de grâce*”. He also referred to the case of a commander officially killed in an armed confrontation, but who, according to

⁴⁰⁵ SFRY (FRY), Chief of General Staff of the YPA, Political Department, Order No. 579, 14 October 1991, § 2.

the URNG, was captured alive. The Expert asked the authorities to respect his life and physical integrity.⁴¹¹

358. In 1993, in a report on extrajudicial, summary or arbitrary executions, the Special Rapporteur of the UN Commission on Human Rights noted, with reference to the territories occupied by Israel, that he had received a number of reports indicating that "Palestinians were killed by members of the Israeli military after they had come out of the attacked houses and at a time when they did not pose any threat to the lives of the soldiers, some of them even after they had surrendered without showing any resistance".⁴¹² In the section of the same report relative to Turkey, the Special Rapporteur referred to a communication concerning eight security officers who were charged with the manslaughter of a group of people they were attempting to capture. The Rapporteur did not say if the people in question were civilians or alleged members of the armed opposition. However, in his conclusion, the Rapporteur listed Turkey as a country where there was a conflict and called for the application of IHL.⁴¹³

359. In 1991, in a report on El Salvador, the Director of the Human Rights Division of ONUSAL described its investigation into a complaint brought by the FMLN Command concerning a combatant wounded in an armed skirmish who had allegedly been killed by members of the Salvadoran armed forces. ONUSAL could not corroborate the facts but stated that the case concerned the situation of a person *hors de combat* who should "in all circumstances be treated humanely".⁴¹⁴

360. In 1993, the UN Commission on the Truth for El Salvador examined, *inter alia*, a case concerning the killing of two soldiers wounded after a US helicopter was shot down by an FMLN patrol. The survivors of the crash had been left on the scene, but shortly afterwards, a member of the patrol was sent back and killed the two wounded men. According to the report,

FMLN... began by denying that any wounded men had been executed... [Then,] it admitted that the wounded men had been executed and... announced that [the perpetrators] would be tried for the offence.

...

The Commission considers that there is sufficient proof that United States soldiers... who survived the shooting down of the helicopter... but were wounded and defenceless, were executed in violation of international humanitarian law...

...

FMLN acknowledged the criminal nature of the incident and detained and tried the accused.⁴¹⁵

⁴¹⁵ UN Commission on the Truth for El Salvador, Report, UN Doc. S/25500, 1 April 1993, pp. 167–169.

361. In 1993 and 1994, the UN Special Committee to Investigate Israeli Practices Affecting the Human Rights of the Palestinian People and other Arabs of the Occupied Territories reported accounts of surrendered persons being fired at, as well as of a number of cases in which unarmed persons or those who had surrendered had been killed.⁴¹⁶

Other International Organisations

362. In 1985, in an explanatory memorandum on a draft resolution on the situation in Afghanistan, the Parliamentary Assembly of the Council of Europe noted that “captured combatants have been systematically put to death”. It referred to these incidents as “violations of human rights”.⁴¹⁷

363. In 1998, during a debate in the Sixth Committee of the UN General Assembly, South Africa stated on behalf of the SADC that the 1998 ICC Statute “would also serve as a reminder that even during armed conflict the rule of law must be upheld. For example, it was unlawful . . . for a combatant who had surrendered, having laid down his arms, to be killed or wounded . . . [This act] was a war crime and would be punished.”⁴¹⁸

International Conferences

364. The Final Declaration of the International Conference for the Protection of War Victims in 1993 stated that the participants refused to accept that the “wounded are shown no mercy”.⁴¹⁹

IV. Practice of International Judicial and Quasi-judicial Bodies

365. In the interlocutory appeal in the *Tadić case* in 1995, the ICTY Appeals Chamber referred to instructions given to the PLA by the leader of the Chinese Communist Party not to “kill or humiliate any of Chiang Kai-Shek’s army officers and men who lay down their arms” as an illustration of the extension of some general principles of the laws of warfare to internal armed conflicts.⁴²⁰

366. In 1982, in a communication received by the IACiHR, it was alleged that Bolivian regiments:

attacked Caracoles with guns, mortars, tanks and light warplanes. The miners defended themselves . . . most of the miners were killed. Some of the survivors fled

⁴¹⁹ International Conference for the Protection of War Victims, Geneva, 30 August–1 September 1993, Final Declaration, § I(1).

⁴²⁰ ICTY, *Tadić case*, Interlocutory Appeal, 2 October 1995, § 102.

to the hills and others fled to the houses in Villa Carmen. The soldiers pursued them and finished them off in their homes. They took others and tortured them and bayoneted many of them. They also cut the throats of the wounded.

The Commission pointed out to the Bolivian government that these incidents constituted serious violations of the 1969 ACHR (right to life, right to humane treatment, right to personal liberty) and of common Article 3 of the 1949 Geneva Conventions.⁴²¹

367. In 1991, the IACiHR reported the case of the killing of two soldiers wounded after a US helicopter was shot down by an FMLN patrol in El Salvador. According to information obtained by the Commission,

The pilot of the helicopter . . . was killed, while the other two occupants . . . survived but were seriously injured. While the FMLN group sent the people from the village for help, the two surviving servicemen were killed, summarily executed by an FMLN combatant. The FMLN has admitted to what happened and has said that those responsible have been charged with committing a war crime by violating the FMLN's code of conduct and the Geneva Conventions. The FMLN has said that the trial of the accused will be open and independent observers will participate.⁴²²

368. In 1997, in the case before the IACiHR concerning the events at La Tablada in Argentina, the perpetrators of the initial attack on the Argentine military barracks alleged that, after the fighting ceased, agents of the State participated in the summary executions and torture of some of the captured attackers.⁴²³ In its report, the Commission stated that the violent clash between the attackers and the armed forces "triggered application of the provisions of Common Article 3 [of the 1949 Geneva Conventions], as well as other rules relevant to the conduct of internal hostilities".⁴²⁴ The IACiHR emphasised that:

The persons who participated in the attack on the military base were legitimate military targets only *for such time as they actively participated in the fighting*. Those who surrendered, were captured or wounded and ceased their hostile acts, fell effectively within the power of Argentine state agents, who could no longer lawfully attack or subject them to other acts of violence. Instead, they were absolutely entitled to the non-derogable guarantees of humane treatment set forth in both Common Article 3 of the Geneva Conventions and Article 5 of the [1969 ACHR]. The intentional mistreatment, much less summary execution, of such wounded or captured persons would be a particularly serious violation of both instruments.⁴²⁵ [emphasis in original]

The Commission found that the Argentine State was responsible for violations of the right to life and of the right to physical integrity protected by Articles 4

⁴²¹ IACiHR, *Case 7481 (Bolivia)*, Resolution, 8 March 1982, pp. 36–40.

⁴²² IACiHR, *Annual Report 1990–1991*, Doc. OEA/Ser.L/V/II.79.rev.1 Doc. 12, 22 February 1991, p. 442.

⁴²⁵ IACiHR, *Case 11.137 (Argentina)*, Report, 18 November 1997, § 189.

and 5 of the 1969 ACHR.⁴²⁶ Furthermore, the perpetrators of the initial attack alleged, *inter alia*, that “the Argentine military deliberately ignored the attempt of the attackers to surrender”.⁴²⁷ They added that “some parts of the barracks were reduced to rubble, without any acceptance of the attackers’ surrender or even any attempt to engage them in dialogue”.⁴²⁸ The petitioners produced a videotape which depicted attempted surrender. The Commission considered that:

The tape is . . . notable for what it does not show. In fact, it does not identify the precise time or day of the putative surrender attempt. Nor does it show what was happening at the same time in other parts of the base where other attackers were located. If these persons, for whatever reasons, continued to fire or commit hostile acts, the Argentine military might not unreasonably have believed that the white flag was an attempt to deceive or divert them.⁴²⁹

The Commission found that the evidence was incomplete and stated that it “must conclude that the killing or wounding of the attackers which occurred *prior to the cessation of combat on January 24, 1989* were legitimately combat related and, thus, did not constitute violations of the [1969 ACHR] or applicable humanitarian law rules”.⁴³⁰ (emphasis in original)

V. Practice of the International Red Cross and Red Crescent Movement

369. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

A person who is recognized or who, in the circumstances, should be recognized as being no longer able to participate in combat, shall not be attacked (e.g. surrendering, wounded, . . . shipwrecked in water).

Any intention to surrender must be clearly expressed: raising one’s arms, throwing away one’s weapons, bearing a white flag, etc.

...

Combatants who are captured (with or without surrender) are prisoners of war and shall no longer be attacked . . .

Treatment as prisoner of war applies only to captured combatants who then abstain from any hostile act and do not attempt to escape.⁴³¹

370. In an appeal issued in 1979 with respect to the conflict in Rhodesia/Zimbabwe, the ICRC appealed to all the parties to “spare the lives of those

⁴²⁹ IACiHR, *Case 11.137 (Argentina)*, Report, 18 November 1997, § 184.

⁴³⁰ IACiHR, *Case 11.137 (Argentina)*, Report, 18 November 1997, §§ 185–188.

⁴³¹ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 487, 488 and 496.

who surrender". It also specifically requested that the Patriotic Front "cease the killing of captured enemy combatants".⁴³²

371. In an appeal issued in 1983 concerning the Iran–Iraq War, the ICRC pointed to grave violations of IHL committed by both countries, including "summary execution of captive soldiers".⁴³³

372. In 1989, the ICRC transmitted to the governmental forces of a State allegations of misconduct of some of the members of its armed forces. A first incident involved a soldier who had shown a clear intention to shoot a wounded combatant and was prevented from doing so by an ICRC delegate. A second incident involved the killing of a wounded combatant brought to hospital. The ICRC delegate considered the incidents as clear violations both of IHL and of the regulations of the government forces.⁴³⁴

373. In an appeal issued in 1991, the ICRC enjoined the parties to the conflict in the former Yugoslavia "to spare the lives of those who surrender".⁴³⁵

374. In a press release issued in 1992, the ICRC urged the parties to the conflict in Bosnia and Herzegovina "to spare the lives of those who surrender".⁴³⁶

375. On several occasions in 1992, the ICRC enjoined the parties to the conflict in Afghanistan to spare the lives of those who surrendered.⁴³⁷

376. In a press release issued in 1992, the ICRC urged all the parties involved in the conflict in Tajikistan "to spare the lives of people who surrender".⁴³⁸

377. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that "captured combatants and persons who have laid down their arms no longer represent any danger and must be respected; they shall be handed over to the immediate hierarchical superior; killing such persons constitutes a crime and is absolutely forbidden".⁴³⁹

378. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that "combatants and other persons who are captured, and those who have laid down their arms... shall be handed over

to their immediate military superior and shall not, in particular, be killed or ill-treated".⁴⁴⁰

379. In a press release issued in 1994 regarding the situation in Bihac (Bosnia and Herzegovina), the ICRC recalled that "the lives of all people who surrendered must be spared".⁴⁴¹

380. In a press release issued in 1994, the ICRC urged the parties involved in the conflict in Chechnya "to spare the lives of people who surrender".⁴⁴²

381. In a communication to the press issued in 2000 in the context of the conflict in Colombia, the ICRC condemned two separate incidents in which "wounded combatants being evacuated by its delegates were seized and summarily executed by men belonging to enemy forces. These acts . . . constitute grave breaches of international humanitarian law."⁴⁴³

382. In a communication to the press issued in 2001 in the context of the conflict in Afghanistan, the ICRC stated that "a fighter who clearly indicates his intention to surrender to an enemy is no longer a legitimate target and is entitled to the protection afforded him by the law".⁴⁴⁴

VI. *Other Practice*

383. In 1977, in a meeting with the ICRC, an armed opposition group denounced the practice by troops of a State of systematically killing all combatants, even those had been wounded or who were no longer fighting.⁴⁴⁵

384. In 1980, an armed opposition group expressed its acceptance of the fundamental principles of IHL as formulated by the ICRC, including the principle that "it is forbidden to kill or injure an enemy who surrenders".⁴⁴⁶

385. In their commentary on the 1977 Additional Protocols, Bothe, Partsch and Solf state that "under customary rules, protection from attack begins when the individual has ceased to fight, when his unit has surrendered, or when he is no longer capable of resistance either because he has been overpowered or is weaponless".⁴⁴⁷

⁴⁴⁰ ICRC, Memorandum on Compliance with International Humanitarian Law by the Forces Participating in *Opération Turquoise*, 23 June 1994, § I, reprinted in Marco Sassòli and Antoine A. Bouvier, *How Does Law Protect in War?*, ICRC, Geneva, 1999, p. 1308.

⁴⁴⁴ ICRC, Communication to the Press No. 01/58, Afghanistan: ICRC calls on all parties to comply with international humanitarian law, 23 November 2001.

⁴⁴⁵ ICRC archive document. ⁴⁴⁶ ICRC archive document.

⁴⁴⁷ Michael Bothe, Karl Joseph Partsch, Waldemar A. Solf (eds.), *New Rules for Victims of Armed Conflicts*, Martinus Nijhoff, The Hague, 1982, pp. 219–220, citing William E. S. Flory, *Prisoners of War: A Study in the Development of International Law*, American Council of Public Affairs, Washington, 1942, p. 39.

386. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch stated that “the following . . . are prohibited by applicable international law rules: . . . Attacks against combatants who are captured [or] surrender.”⁴⁴⁸ The report mentioned a number of instances in which the *contras* executed combatants who had surrendered. Some witnesses confirmed that members of the militia who had resisted attacks by the *contras* and then surrendered were not hurt, but others described murders of military prisoners who had been captured unarmed.⁴⁴⁹ Americas Watch further found that “in combination, the *contra* forces have systematically violated the applicable laws of war throughout the conflict. They . . . have murdered those placed *hors de combat* by their wounds.”⁴⁵⁰ The report noted that “the insurgents have only rarely taken prisoners in combat. They claim to disarm and release them on the spot. In regard to the FDN [one of the *contra* groups], however, credible testimony indicates that, at least on some occasions, their forces have actually ‘finished off’ wounded opponents.”⁴⁵¹ Representatives of the insurgent organisations claimed that governmental forces also executed the wounded on the spot, but according to the report, these claims could not be substantiated. However, the report mentioned instances of abuse of prisoners.⁴⁵² The conflict was regarded as non-international and it was considered that the parties were “bound to abide by the provisions of Article 3 common to the Geneva Conventions of 1949 and by customary international law rules applicable to internal armed conflicts”⁴⁵³

387. In 1985, in a meeting with the ICRC, an armed opposition group declared its intention to respect the fundamental rules of IHL and expressed the wish to demonstrate its ability to take prisoners.⁴⁵⁴

388. In 1986, in a report on human rights in Nicaragua, Americas Watch underlined that “in several years of armed struggle, neither the FDN [one of the *contra* groups] nor its predecessor organizations took prisoners. A recently published book explicitly describes the FDN practice of murdering enemy soldiers placed *hors de combat*.”⁴⁵⁵ The report also noted abuses by the governmental forces, including killings, disappearances and mistreatment of prisoners, apparently aimed at individuals suspected of aiding the *contras*. The report stated that,

⁴⁵⁵ Americas Watch, *Human Rights in Nicaragua: 1985–1986*, New York, March 1986, p. 102.

“in addition to violating other human rights norms, they constitute violations of the laws of war”.⁴⁵⁶

389. In 1987, in a meeting with the ICRC, an armed opposition group admitted that, in response to the violence and aggression of governmental troops, it often gave no quarter to prisoners.⁴⁵⁷

390. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that “applicable international law rules prohibit . . . [a]ttacks against combatants who are captured [or] surrender”.⁴⁵⁸

391. In 1990, an extract from a document from the Rwandan Press Agency mentioned that Ugandan journalists were permitted to visit prisoners of war in Kigali, evidencing the fact that, in some cases, FAR soldiers did give quarter to those who surrendered. The journalists reported that many of the 17 prisoners were young, since they were the ones most likely to surrender when confronted by the FAR.⁴⁵⁹

392. In a resolution adopted in 1991, the Politico-Military High Command of the SPLM/A stated that “whenever an enemy soldier is disarmed or unarmed, his or her life will be spared, protected and respected as a prisoner of war (POW) under the Geneva Conventions”.⁴⁶⁰

393. In 1994, in a meeting with the ICRC, officials of an entity denied that wounded enemy combatants were not spared. The low number of captured combatants was attributed to the military tactics used and the defensive nature of the position of the entity's forces.⁴⁶¹

394. In 1995, in a meeting with the ICRC, the representative of an armed opposition group accused government troops of not taking prisoners and of killing all captured combatants.⁴⁶²

Quarter under unusual circumstances of combat

I. Treaties and Other Instruments

Treaties

395. Article 41(3) AP I provides that “when persons entitled to protection as prisoners of war have fallen into the power of an adverse Party under unusual conditions of combat which prevent their evacuation . . . they shall be released and all feasible precautions shall be taken to ensure their safety”. Article 41 AP I was adopted by consensus.⁴⁶³

⁴⁶¹ ICRC archive document. ⁴⁶² ICRC archive document.

⁴⁶³ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 104.

396. Upon ratification (or signature) of API Algeria, Belgium, Canada, France, Germany, Ireland, Italy, Netherlands, Spain and UK made statements to the effect that feasible precautions are those which are practicable or practically possible, taking into account all circumstances ruling at the time, including humanitarian and military considerations. These are set out in Chapter 5, Section A, and are not repeated here.

Other Instruments

397. Article 60 of the 1863 Lieber Code provides that “a commander is permitted to direct his troops to give no quarter, in great straits, when his own salvation makes it *impossible* to cumber himself with prisoners”. (emphasis in original)

II. National Practice

Military Manuals

398. The Instructions to the Muslim Fighter issued by the ARBiH in Bosnia and Herzegovina in 1993 state that it is “left to the military command’s discretion to decide whether it is more useful or in the general interest to free, exchange or liquidate enemy prisoners of war”.⁴⁶⁴

399. Canada’s LOAC Manual states that:

Where persons entitled to protection as prisoners of war (PWs) have fallen into the power of an adverse party under unusual conditions of combat that prevent their evacuation as provided for in [GC III], they shall be released and all feasible precautions shall be taken to ensure their safety.

...

The “unusual conditions of combat” may include, for example, the capture of a PW by a long-range patrol that does not have the ability to properly evacuate the PW. In such circumstances, there would be an obligation to release the PW and take all feasible precautions to ensure his safety. Such precautions might include providing the PW with sufficient food and water or other aids to assist in rejoining unit lines.⁴⁶⁵

400. France’s LOAC Manual states that, “when the capturing unit is not able to evacuate its prisoners or to keep them until the evacuation is possible, the unit must free them while guaranteeing its own and the prisoners’ security”.⁴⁶⁶

401. Israel’s Manual on the Laws of War states that:

Considerations such as the delay involved in guarding prisoners of war as opposed to the attainment of an objective, or even the allocation of manpower for transferring them to the rear line, do not permit the harming of prisoners who surrendered

⁴⁶⁴ Bosnia and Herzegovina, *Instructions to the Muslim Fighter* (1993), § c.

⁴⁶⁵ Canada, *LOAC Manual* (1999), p. 6-3, §§ 18 and 19.

⁴⁶⁶ France, *LOAC Manual* (2001), p. 102.

and were disarmed. It is hard to imagine a military mission so urgent as to render impossible the evacuation of prisoners to the rear or even binding them until additional forces arrive and which justifies their murder.⁴⁶⁷

402. Kenya's LOAC Manual states that, when the capturing unit, such as a small patrol operating in isolation, is not in a position to evacuate prisoners, "that unit shall release them and take precautions: a) for its own safety . . .; and b) for the released's safety (e.g. giving them water and food, the means to signal their location, and subsequently providing information about their location to rescue teams)".⁴⁶⁸

403. The Military Manual of the Netherlands provides that, when a person falls into the hands of the adversary under exceptional circumstances preventing his evacuation as a prisoner of war, this person must be released. This situation can occur, for instance, for a long-range post.⁴⁶⁹

404. Spain's LOAC Manual states that when the conditions of combat make it impossible to treat prisoners of war properly and to evacuate them (e.g. isolated special operations, small units, mass capture which exceeds the possibility of the unit in question), the prisoners must be released and all feasible precautions must be taken to ensure their safety.⁴⁷⁰

405. Switzerland's Basic Military Manual provides that "if a commando raids an enemy post and captures soldiers by surprise without being able to take them along with it in its retreat, it shall not have the right to kill or injure them. It may disarm them, but it shall free them."⁴⁷¹

406. The UK Military Manual provides that:

A commander may not put his prisoners of war to death because their presence retards his movements or diminishes his power of resistance by necessitating a large guard, or by reason of their consuming supplies, or because it appears that they will regain their liberty through the impending success of the forces to which they belong. It is unlawful for a commander to kill prisoners of war on grounds of self-preservation. This principle admits of no exception, even in the case of airborne or so-called commando operations. . . .

Whether a commander may release prisoners of war in the circumstances stated in the text is not clear . . . If such a release be made, it would seem clear that the commander should supply the prisoners with that modicum of food, water and weapons as would give them a chance of survival.⁴⁷²

407. The US Field Manual states that:

A commander may not put his prisoners to death because their presence retards his movements or diminishes his power of resistance by necessitating a large guard, or by reason of their consuming supplies, or because it appears certain that they

⁴⁷² UK, *Military Manual* (1958), § 137, including footnote 1.

will regain their liberty through the impending success of their forces. It is likewise unlawful for a commander to kill prisoners on grounds of self-preservation, even in the case of airborne or commando operations.⁴⁷³

National Legislation

408. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 41(3) AP I, is a punishable offence.⁴⁷⁴

409. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁴⁷⁵

National Case-law

410. In the *Griffen case* in 1968, a US Army Board of Review confirmed the sentence of unpremeditated murder for having executed a Vietnamese prisoner, following a "manifestly illegal" order to do so. The accused declared that "he felt that the security of the platoon would have been violated if the prisoner were kept, since their operations had already been observed by another suspect". The Board of Review cited paragraph 85 of the US Field Manual prohibiting the killing of prisoners of war. It added that the "killing of a docile prisoner taken during military operations is not justifiable homicide".⁴⁷⁶

Other National Practice

411. The Report on UK Practice cites a former director of the UK Army Legal Services who stated that UK soldiers were not required to risk their own lives in granting quarter. He added that it may not be practicable to accept surrender of one group of enemy soldiers while under fire from another enemy position. Capture was to take place when circumstances permitted.⁴⁷⁷

III. Practice of International Organisations and Conferences

United Nations

412. No practice was found.

Other International Organisations

413. No practice was found.

⁴⁷³ US, *Field Manual* (1956), § 85.

⁴⁷⁴ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁴⁷⁵ Norway, *Military Penal Code as amended* (1902), § 108(b).

⁴⁷⁶ US, Army Board of Review, *Griffen case*, Judgement, 2 July 1968.

⁴⁷⁷ Report on UK Practice, 1997, Notes on a meeting with a former Director of Army Legal Services, 19 June 1997, Chapter 2.1.

International Conferences

414. The Report of Committee III of the CDDH stated that:

Paragraph 3 [of Article 41 AP I] dealing with the release of prisoners who could not be evacuated proved quite difficult. The phrase "unusual conditions of combat" was intended to reflect the fact that that circumstance would be abnormal. What, in fact, most representatives referred to was the situation of the long distance patrol which is not equipped to detain and evacuate prisoners. The requirement that all "feasible precautions" be taken to ensure the safety of released prisoners was intended to emphasize that the detaining power, even in those extraordinary circumstances, was expected to take all measures that were practicable in the light of the combat situation. In the case of the long distance patrol, it need not render itself ineffective by handing the bulk of its supplies over to the released prisoners, but it should do all that it reasonably can do, in view of all the circumstances, to ensure their safety.⁴⁷⁸

IV. Practice of International Judicial and Quasi-judicial Bodies

415. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

416. No practice was found.

VI. Other Practice

417. In their commentary on the 1977 Additional Protocols, Bothe, Partsch and Solf mention Articles 19 and 20 GC III (which require the prompt and humane evacuation of prisoners of war from the combat zone to places out of the danger area) and underline that "in certain types of operations, particularly airborne operations, commando raids, and long range reconnaissance patrols, compliance with these articles is clearly impractical, and there has been dispute as to what is required in such cases"⁴⁷⁹.

418. In 1985, in a meeting with the ICRC, an armed opposition group declared that it would keep prisoners only if their detention could be assured and the security of its combatants was not compromised. If not, it would execute them. However, the commander in chief of the group agreed to reconsider his position if keeping captured combatants alive proved beneficial to the resistance.⁴⁸⁰

419. In 1985, in a meeting with the ICRC, an armed opposition group explained its change of policy from immediate execution of captured combatants to giving them a choice between joining the movement or being transferred to party

⁴⁷⁸ CDDH, *Official Records*, Vol. XV, CDDH/236/Rev.1, 21 April–11 June 1976, p. 384, § 24.

⁴⁸⁰ ICRC archive document.

authorities. It stressed, however, that it was impossible for the resistance group, for security reasons, to detain prisoners, even for a short while.⁴⁸¹

420. In 1987, in a meeting with the ICRC, an armed opposition group admitted that “prisoners are released or executed due to the difficulties of detention”.⁴⁸²

C. Attacks against Persons Parachuting from an Aircraft in Distress

I. Treaties and Other Instruments

Treaties

421. Article 42 AP I provides that:

1. No person parachuting from an aircraft in distress shall be made the object of attack during his descent.
2. Upon reaching the ground in territory controlled by an adverse Party, a person who has parachuted from an aircraft in distress shall be given an opportunity to surrender before being made the object of attack, unless it is apparent that he is engaging in a hostile act.
3. Airborne troops are not protected by this Article.

Article 42 AP I was adopted by 71 votes in favour, 12 against and 11 abstentions.⁴⁸³

422. Article 39(1) of draft AP I (now Article 42) submitted by the ICRC to the CDDH provided that “the occupants of aircraft in distress shall never be attacked when they are obviously *hors de combat*, whether or not they have abandoned the aircraft in distress”.⁴⁸⁴ At the CDDH, an amendment submitted by 16 Arab States aimed at inserting at the end of draft Article 39(1) AP I (now Article 42) the proviso: “. . . unless it is apparent that he will land in territory controlled by the Party to which he belongs or by an ally of that Party”.⁴⁸⁵ The disagreements on draft Article 39 AP I arose because some representatives considered that parachutists landing on territory controlled by their own party could not be considered *hors de combat*, while others believed that airmen should be immune from attacks in all circumstances.⁴⁸⁶ For example, Egyptian stated that:

As far as military interests were concerned, a pilot was of great value and worth hundreds of ordinary combatants; in many cases of combat, the number of pilots would determine the outcome of hostilities. A combatant of such military value was therefore, in terms of law, a legitimate target of attack, the only exception being

⁴⁸⁵ CDDH, *Official Records*, Vol. III, CDDH/414, 24 May 1977, p. 173 (amendment proposed by Democratic Yemen, Iraq, Jordan, Kuwait, Lebanon, Libya, Mauritania, Morocco, Qatar, Saudi Arabia, Somalia, Sudan, Syria, Tunisia, UAE and Yemen).

⁴⁸⁶ Yves Sandoz *et al.* (eds.), *Commentary on the Additional Protocols*, ICRC, Geneva, 1987, § 1636.

if he had been disabled by wounds or sickness or was in a position to surrender as a prisoner of war.⁴⁸⁷

In the plenary, the ICRC made a statement calling for the rejection of the draft amendment. It declared, *inter alia*, that:

Whether an airman landed in friendly or hostile territory, whether he rejoined his unit or was taken prisoner, should remain secondary considerations . . .

If there had been occasions when, in exceptional circumstances, airmen in distress had been fired on, such was not the rule which prevailed in international practice. All national manuals on the conduct of hostilities said that airmen parachuting from an aircraft to save their lives were not to be fired on. The ICRC would be dismayed to see a provision making it lawful to kill an unarmed enemy who was not himself in a position to kill introduced into law which had hitherto been purely humanitarian.⁴⁸⁸

The ICRC statement was supported by Austria, Belgium, Canada, FRG, GDR, Sweden, Switzerland, UK and US, while Iraq, Libya and Syria voiced opposing views.⁴⁸⁹ The draft amendment was eventually rejected in the plenary by 47 votes in favour, 23 against and 26 abstentions.⁴⁹⁰

Other Instruments

423. Article 20 of the 1923 Hague Rules of Air Warfare provides that “in the event of an aircraft being disabled, the persons trying to escape by means of parachutes must not be attacked during their descent”.

II. National Practice

Military Manuals

424. Argentina’s Law of War Manual (1969) provides that “it is prohibited to open fire at persons who descend by parachute from aircraft in technical emergency. This prohibition, however, does not apply to members of airborne units and to any other parachutist descending on enemy territory on hostile mission.”⁴⁹¹

425. Argentina’s Law of War Manual (1989) states that “it is prohibited . . . to attack persons bailing out with parachutes from an aircraft in distress . . . When reaching the ground, they must be offered the opportunity to surrender before

⁴⁸⁷ Egypt, Statement at the CDDH, *Official Records*, Vol. XV, CDDH/III/SR.48, 1 June 1976, p. 104, § 13.

⁴⁸⁸ ICRC, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 107, §§ 89–90.

⁴⁸⁹ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, pp. 108 and 109, § 98 (Austria), p. 109, § 99 (Belgium), p. 109, § 102 (Canada), p. 108, § 92 (FRG), p. 107, § 91 (GDR), p. 108, §§ 96 and 97 (Iraq), p. 109, § 103 (Libya) p. 108, § 93 (Sweden), p. 109, § 104 (Switzerland), p. 106, § 82 (Syria), p. 108, § 94 (UK) and p. 108, § 95 (US).

⁴⁹⁰ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 110.

⁴⁹¹ Argentina, *Law of War Manual* (1969), § 1.009.

being attacked, unless they commit hostile acts. This rule does not apply to airborne troops."⁴⁹²

426. Australia's Commanders' Guide provides that "parachutists are defined as those who abandon a disabled aircraft. Parachutists are not legitimate military targets . . . It is appreciated that it may be difficult to distinguish a parachutist from a paratrooper, especially while in the air."⁴⁹³ It also states that:

Aircrew who have baled out of a damaged aircraft are to be considered as *hors de combat* and should not be attacked during their descent. However, should the parachutist land in enemy territory he must be given an opportunity to surrender before being made the object of an attack unless it is apparent that he is engaged in a hostile act. If he lands within territory occupied by his own national authority, he is liable to be attacked by the enemy, like any other combatant, unless wounded and, therefore, protected by LOAC.

...

The ban on shooting down those descending by parachute does not extend to the dropping of agents or paratroops.⁴⁹⁴

427. Australia's Defence Force Manual states that "aircrew descending by parachute from a disabled aircraft are immune from attack. If such personnel land in enemy territory they must be given an opportunity to surrender before being made the object of an attack, unless it is apparent that they are engaging in some hostile act."⁴⁹⁵ The manual adds that:

If the crew of a disabled aircraft lands by parachute in territory occupied by their own forces or under the control of their own national authority, they may be attacked in the same way as any other combatant, unless wounded, in which case they are protected. If in a raft or similar craft at sea after parachuting, they are to be treated as if shipwrecked and may not be attacked.

Paratroopers and other airborne troops may be attacked, even during their descent. If the carrying aircraft has been disabled it may be difficult to distinguish between members of the crew abandoning such aircraft who are immune from attack, and the airborne troops who are not so protected.⁴⁹⁶

428. Belgium's Teaching Manual for Officers provides that:

No person parachuting from an aircraft in distress shall be made the object of an attack during the descent by parachute.

While landing, he shall have the opportunity to indicate his intention to surrender. However, if he attempts to escape or commits a hostile act, he may be attacked. Airborne troops are never protected, even if the aircraft is in distress.⁴⁹⁷

429. Belgium's Teaching Manual for Soldiers provides that:

⁴⁹² Argentina, *Law of War Manual* (1989), § 1.06(6).

⁴⁹³ Australia, *Commanders' Guide* (1994), § 412.

⁴⁹⁴ Australia, *Commanders' Guide* (1994), §§ 964 and 965 (land warfare), see also §§ 412, 621, 705 and 1033 (air warfare).

⁴⁹⁵ Australia, *Defence Force Manual* (1994), § 847, see also § 708.

⁴⁹⁶ Australia, *Defence Force Manual* (1994), §§ 849–850.

⁴⁹⁷ Belgium, *Teaching Manual for Officers* (1994), Part I, Title II, p. 35.

Pilots and aircrew who parachute from an aircraft in distress . . . are not to be attacked during their descent . . . They may be attacked during their descent and/or once they have reached the ground only if they themselves open fire or attempt to escape. Airborne troops, however, constitute a combatant unit as soon as they get out of the aircraft and may be made the object of an attack during their descent by parachute as well as on the ground.⁴⁹⁸

430. Benin's Military Manual provides that "a person parachuting from an aircraft in distress and who does not commit hostile acts shall not be attacked . . . However, the members of enemy paratroops descending by parachute are legitimate military targets."⁴⁹⁹

431. Burkina Faso's Disciplinary Regulations states that, under the laws and customs of war, it is prohibited "to fire at the crew and passengers of civilian or military aircraft parachuting from an aircraft in distress, except when they participate in an airborne operation".⁵⁰⁰

432. Cameroon's Disciplinary Regulations states that, under the laws and customs of war, it is prohibited "to fire at the crew and passengers of civilian or military aircraft parachuting from an aircraft in distress, except when they participate in an airborne operation".⁵⁰¹

433. Cameroon's Instructors' Manual provides that the crew of an aircraft in distress shall not be attacked during their descent by parachute or on the ground, unless they commit hostile acts.⁵⁰² It adds, however, that "airborne troops in combat formation may be attacked during their descent".⁵⁰³

434. Canada's LOAC Manual affirms that aircraft may not "fire upon shipwrecked personnel, including those who may have parachuted into the sea or otherwise come from downed aircraft, unless they carry out acts inconsistent with their status as 'hors de combat'".⁵⁰⁴ The manual also states that:

34. Aircrew descending by parachute from a disabled aircraft are immune from attack. If such personnel land in enemy territory they must be given an opportunity to surrender before being made the object of an attack, unless it is apparent that they are engaging in some hostile act.
35. If personnel from a disabled aircraft do not surrender on being called upon to do so, they may be attacked in the same way as any other combatant. If a member of the crew of a disabled aircraft lands by parachute in the territory occupied by his own forces or under the control of his own national authority, he may be attacked by the enemy in the same way as any other combatant, unless he is *hors de combat* (out of combat), in which case he is protected.
36. Paratroops and other airborne troops may be attacked even during their descent.⁵⁰⁵

⁵⁰⁴ Canada, *LOAC Manual* (1999), p. 7-3, § 24.

⁵⁰⁵ Canada, *LOAC Manual* (1999), p. 7-4, §§ 34-36.

435. Congo's Disciplinary Regulations states that, under the laws and customs of war, it is prohibited "to fire at the crew and passengers of civilian or military aircraft parachuting from an aircraft in distress, except when they participate in an airborne operation".⁵⁰⁶

436. Croatia's Commanders' Manual states that "a combatant who is recognised (or should be recognised) as being out of combat (... descending by parachute in distress) may not be attacked".⁵⁰⁷

437. The Military Manual of the Dominican Republic provides that:

Individuals parachuting from a burning or disabled aircraft are considered helpless until they reach the ground. You should not fire on them while they are in the air. If they use their weapons or do not surrender upon landing, they must be considered combatants.

On the other hand, paratroopers who are jumping from an airplane to fight against you are targets and you may fire at them while they are still in the air.⁵⁰⁸

438. Ecuador's Naval Manual states that:

Parachutists descending from aircraft *hors de combat* may not be attacked while in the air and, unless they land in a territory controlled by their own forces or launch an attack during their descent, they must be provided an opportunity to surrender upon reaching the ground. Airborne troops, special warfare infiltrators, and intelligence agents parachuting into combat areas or behind enemy lines are not so protected and may be attacked in the air as well as on the ground. Such personnel may not be attacked, however, if they clearly indicate in a timely manner their intention to surrender.⁵⁰⁹

439. France's Disciplinary Regulations as amended states that, under international conventions, it is prohibited "to fire at the crew and passengers of civilian or military aircraft parachuting from an aircraft in distress, except when they participate in an airborne operation".⁵¹⁰

440. France's LOAC Teaching Note states that "it is prohibited to fire at a person parachuting after having evacuated an aircraft in distress until he lands, unless he uses his weapon. It is, however, allowed to fire at airborne troops still in the air or at all combatants who use their parachute as a means of combat."⁵¹¹

441. France's LOAC Manual provides that "it is . . . prohibited to attack a person parachuting from an aircraft in distress . . . This provision, however, does not apply to airborne troops when they parachute."⁵¹² The manual adds that a person parachuting from an aircraft in distress, "when reaching the ground, . . . may be captured or surrender and thus benefits from the status of prisoner of war.

⁵⁰⁶ Congo, *Disciplinary Regulations* (1986), Article 32(2).

However, if [the person] resumes combat, he does not benefit from any particular protection, and the enemy may again use arms against him."⁵¹³

442. Germany's Military Manual provides that the armed forces are military objectives, "including paratroops in descent but not crew members parachuting from an aircraft in distress".⁵¹⁴

443. Indonesia's Military Manual specifies that:

Persons who are parachuting in distress should not be attacked. Unless he/she enters into combat, once he/she has landed, he/she should be given the opportunity to surrender. However, during combat, parachuting troops are lawful targets, though they are still in the process of parachuting.⁵¹⁵

444. With reference to Israel's Law of War Booklet, the Report on the Practice of Israel states that "IDF internal regulations and practice prohibit firing upon enemy airmen parachuting from their aircraft in distress (as opposed to offensive para-drop operations)".⁵¹⁶

445. Israel's Manual on the Laws of War states that "it is allowed to fire upon paratrooper forces even when they are still in mid-air".⁵¹⁷

446. Italy's IHL Manual prohibits firing at the crew of an aircraft in distress.⁵¹⁸ It adds that, in other cases, "it is lawful to open fire at enemy soldiers who . . . descend by parachute, isolated or in a group".⁵¹⁹ It also defines intentional homicide and mistreatment of persons parachuting in distress as a war crime.⁵²⁰

447. Italy's LOAC Elementary Rules Manual states that "a combatant who is recognised (or should be recognised) as being out of combat may not be attacked (. . . descending by parachute in distress) may not be attacked".⁵²¹

448. Kenya's LOAC Manual provides that:

A person having parachuted from an aircraft in distress shall [be] given an opportunity to surrender before being attacked, unless he engages himself in a hostile act. This rule prohibits shooting at persons who are escaping from disabled aircraft. On the other hand, members of hostile airborne forces descending by parachute are legitimate military targets.⁵²²

449. Lebanon's Army Regulations and Field Manual provide that it is prohibited to fire at those who parachute in emergency, unless they participate in ongoing operations.⁵²³

⁵²³ Lebanon, *Army Regulations* (1971), § 17; *Field Manual* (1996), § 7.

450. Madagascar's Military Manual provides that "a combatant who is recognised (or should be recognised) to be *hors de combat* shall not be attacked (... person descending in distress by parachute)".⁵²⁴

451. Mali's Army Regulations states that, under the laws and customs of war, it is prohibited "to fire at the crew and passengers of civilian or military aircraft parachuting from an aircraft in distress, except when they participate in an airborne operation".⁵²⁵

452. Morocco's Disciplinary Regulations states that, under the laws and customs of war, it is prohibited "to fire at the crew and passengers of civilian or military aircraft parachuting from an aircraft in distress, except when they participate in an airborne operation".⁵²⁶

453. The Military Manual of the Netherlands provides that:

No person parachuting from an aircraft in distress shall be made the object of attack during his descent. Upon reaching the ground, a person who has parachuted from an aircraft in distress shall be given an opportunity to surrender before being made the object of attack. An opportunity to surrender must not be given if it is apparent that he is engaging in a hostile act.

Airborne troops are obviously not protected this way.⁵²⁷

454. New Zealand's Military Manual states that:

It is generally considered to be a rule of customary law that aircrew who have bailed out of a damaged aircraft are to be considered as *hors de combat* and immune from attack. By AP I Art. 42, this is made part of treaty law so that such persons are protected during their descent. Should such a person land in the territory of an adverse Party, he must be given an opportunity to surrender before being made the object of an attack, unless it is apparent that he is engaged in a hostile act. If he lands within his own lines or in territory occupied by his own national authority, he is liable to immediate attack like any other combatant, unless he is wounded and so protected by the I GC.

The ban on shooting down those descending by parachute does not extend to the dropping of agents or parachute troops.⁵²⁸

The manual adds that "airmen abandoning aircraft in distress may not be attacked during their descent. Any such attack would, therefore, be a war crime."⁵²⁹

455. Under Nigeria's Manual on the Laws of War, "shooting at survivors of an enemy aircraft that has been hit" is an "illegitimate tactic", while "shooting at enemy paratroopers" is a "legitimate tactic".⁵³⁰

⁵²⁴ Madagascar, *Military Manual* (1994), Fiche No. 7-O, § 17.

⁵²⁵ Mali, *Army Regulations* (1979), Article 36.

⁵²⁶ Morocco, *Disciplinary Regulations* (1974), Article 25(2).

⁵²⁷ Netherlands, *Military Manual* (1993), p. IV-4.

⁵²⁸ New Zealand, *Military Manual* (1992), § 522.

⁵²⁹ New Zealand, *Military Manual* (1992), § 1704(2)(c), footnote 34.

⁵³⁰ Nigeria, *Manual on the Laws of War* (undated), § 14.

456. Russia's Military Manual provides that "the attack of . . . persons parachuting from an aircraft in distress (with the exception of paratroopers)" is a prohibited method of warfare.⁵³¹

457. Senegal's Disciplinary Regulations states that, under the laws and customs of war, it is prohibited "to fire at the crew and passengers of civilian or military aircraft parachuting from an aircraft in distress, except when they participate in an airborne operation".⁵³²

458. South Africa's LOAC Manual states that:

Parachutists are presumed to be on military mission and may therefore be targeted during descent. An exception to this presumption is where the parachutists are the crew of a disabled aircraft; they are presumed to be out of combat and may not be targeted unless they show an intent to resist.⁵³³

459. Spain's LOAC Manual provides that persons baling out of an aircraft in distress by parachute may not be attacked during their descent. Furthermore, such persons, "when reaching the ground, shall have the opportunity to surrender before being attacked, unless it is apparent that they are engaged in a hostile act".⁵³⁴ The manual adds that "it is lawful to attack paratroops during their descent".⁵³⁵

460. Sweden's IHL Manual notes that:

Proposals were presented at the [CDDH] to the effect that it should be permitted to employ armed force against a distressed airman expected to land in territory controlled by the enemy. Apart from the practical difficulties in determining whether a distressed parachutist will land on one side of the combat area or on the other, a rule with this content would have highly inhuman effects. These considerations resulted in the proposal being rejected.

During the negotiations [on AP I] it was pointed out that persons seeking to save themselves by parachuting are incapable of any use of weapons during their descent: their sole interest is probably in saving their lives. The situation can of course change when they have reached the ground. This is the background against which Article 42 [AP I] provides protection for distressed persons leaving aircraft in emergency situations. If after landing the person chooses to continue his military resistance, it again becomes permissible to attack him. To avoid the possibility of abuse, it is particularly stated that airborne troops are not protected by the . . . rule.⁵³⁶

461. Switzerland's Basic Military Manual states that:

If the occupants of an aircraft in distress bale out by parachute to save their lives, it is not legitimate to attack them from the ground or from an aircraft during their

⁵³¹ Russia, *Military Manual* (1990), § 5(i).

⁵³² Senegal, *Disciplinary Regulations* (1990), Article 34(2).

⁵³³ South Africa, *LOAC Manual* (1996), § 33.

⁵³⁵ Spain, *LOAC Manual* (1996), Vol. I, § 7.3.a.(6).

⁵³⁶ Sweden, *IHL Manual* (1991), Section 3.2.1.2, pp. 33–34.

descent. As soon as those persons reach the ground, they may be captured. If they resist or show hostile intent, they may be placed *hors de combat*.

Paratroopers may be placed *hors de combat* even before they reach the ground, whether they parachute alone or in massive groups.⁵³⁷

462. Togo's Military Manual provides that "a person parachuting from an aircraft in distress and who does not commit hostile acts shall not be attacked . . . However, the members of enemy paratroops descending by parachute are legitimate military targets."⁵³⁸

463. The UK Military Manual specifies that:

It is lawful to fire on airborne troops and others engaged, or who appear to be engaged, on hostile missions whilst such persons are descending from aircraft, in particular over territory in control of the opposing forces, whether or not that aircraft has been disabled. It is, on the other hand, unlawful to fire at other persons descending by parachute from disabled aircraft.⁵³⁹

464. The UK LOAC Manual states that the duty to give quarter "prohibits shooting at persons who are escaping from disabled aircraft. On the other hand, members of hostile airborne forces descending by parachute are legitimate military targets."⁵⁴⁰

465. The US Field Manual provides that:

The law of war does not prohibit firing upon paratroops or other persons who are or appear to be bound upon hostile missions while such persons are descending by parachute. Persons other than those mentioned in the preceding sentence who are descending by parachute from a disabled aircraft may not be fired upon.⁵⁴¹

466. The US Air Force Pamphlet states that:

When an aircraft is disabled and the occupants escape by parachutes, they should not be attacked in their descent . . . However, persons descending from an aircraft for hostile purposes, such as paratroops or those who appear to be bound upon hostile missions, are not protected. Any person descending from a disabled aircraft who continues to resist may be attacked. Downed enemy airmen from aircraft in distress are subject to immediate capture and can be attacked if they continue to resist or escape or are behind their own lines. Otherwise they should be afforded a reasonable opportunity to surrender.

...

If downed in their own territory, they remain lawful targets, as combatants, unless rendered *hors de combat* by sickness, wounds or other causes . . . If downed in the attacker's territory and subject to capture, the advantages of capture outweigh any minimal advantage secured by attack.⁵⁴²

⁵³⁷ Switzerland, *Basic Military Manual* (1987), Articles 49 and 50.

⁵³⁸ Togo, *Military Manual* (1996), Fascicule II, p. 9.

⁵³⁹ UK, *Military Manual* (1958), § 119, footnote 1(b).

⁵⁴⁰ UK, *LOAC Manual* (1981), Section 4, p. 12, § 2(b).

⁵⁴¹ US, *Field Manual* (1956), § 30.

⁵⁴² US, *Air Force Pamphlet* (1976), § 4-2(e), including footnote 14.

467. The US Soldier's Manual provides that:

Individuals parachuting from a burning or disabled aircraft are considered helpless until they reach the ground. You should not fire on them while they are in the air. If they use their weapons or do not surrender upon landing, they must be considered combatants. Paratroopers, on the other hand, are jumping from an airplane to fight. They are targets and you may fire at them while they are still in the air.⁵⁴³

468. The US Rules of Engagement for Operation Desert Storm instruct: "Do not engage anyone who . . . is an aircrew member descending by parachute from a disabled aircraft."⁵⁴⁴

469. The US Naval Handbook states that:

Parachutists descending from disabled aircraft may not be attacked while in the air unless they engage in combatant acts while descending. Upon reaching the ground, such parachutists must be provided an opportunity to surrender. Airborne troops, special warfare infiltrators, and intelligence agents parachuting into combat areas or behind enemy lines are not so protected and may be attacked in the air as well as on the ground. Such personnel may not be attacked, however, if they clearly indicate in a timely manner their intention to surrender.⁵⁴⁵

470. The Annotated Supplement to the US Naval Handbook states that Article 42(1) and (2) AP I codifies the customary rule set out in Article 20 of Part II of the 1923 Hague Rules of Air Warfare. It adds that:

Firing a weapon is clearly a combatant act.

A downed airman, who aware of the presence of enemy armed forces, attempts to evade capture, will probably be considered as engaging in a hostile act and, therefore, subject to attack from the ground or from the air. However, mere movement in the direction of one's own lines does not, by itself, constitute an act of hostilities.⁵⁴⁶

471. The YPA Military Manual of the SFRY (FRY) prohibits attacking persons parachuting from an enemy aircraft in distress and refraining from hostile acts, but specifies that this prohibition "does not apply to airborne invasion, not even when some of the aircraft are damaged before reaching the target area of invasion".⁵⁴⁷

National Legislation

472. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of AP I, including violations of Article 42 AP I, is a punishable offence.⁵⁴⁸

⁵⁴³ US, *Soldier's Manual* (1984), p. 6.

⁵⁴⁴ US, *Rules of Engagement for Operation Desert Storm* (1991), § A.

⁵⁴⁵ US, *Naval Handbook* (1995), § 11.6.

⁵⁴⁶ US, *Annotated Supplement to the Naval Handbook* (1997), § 11.6, footnotes 39 and 40.

⁵⁴⁷ SFRY (FRY), *YPA Military Manual* (1988), § 69.

⁵⁴⁸ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

473. Italy's Law of War Decree as amended prohibits firing at the crew of an aircraft in distress.⁵⁴⁹ It further provides that, in other cases, "it is lawful to open fire at enemy soldiers who . . . descend by parachute, isolated or in group".⁵⁵⁰

474. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁵⁵¹

National Case-law

475. In the *Dostler case* before the US Military Commission at Rome in 1945, the accused, the commander of a German army corps, was found guilty of having ordered the shooting of 15 American prisoners of war in violation of the 1907 HR and of long-established laws and customs of war. The accused relied on the defence of superior orders based, *inter alia*, on the *Führer's* order of 18 October 1942. This order provided that enemy soldiers participating in commando operations should be given no quarter, but added that these provisions did not apply to aviators who had baled out to save their lives during aerial combat.⁵⁵²

Other National Practice

476. According to the Report on the Practice of Egypt, it is the traditional practice of Egypt to spare persons parachuting in distress. The report notably cites military communiqués issued during the 1973 Middle East War.⁵⁵³ However, during the debates at the CDDH, the Egyptian delegation stated that an "airman who attempted to escape capture should not be protected".⁵⁵⁴

477. The Report on the Practice of Iran cites an Iranian military communiqué of 1980 in which Iran denied allegations by Iraq that "angry mobs ha[d] killed parachuting Iraqis". It asserted that pilots were under the control of the army and well treated.⁵⁵⁵

478. According to the Report on the Practice of Iraq, during the Iran–Iraq War, Iraq issued several military communiqués in which it held Iran responsible for sparing the lives and ensuring the safety of Iraqi pilots parachuting from aircraft in distress.⁵⁵⁶ On the basis of the reply by the Ministry of Defence to a

questionnaire, the report also notes that, during the Iran–Iraq War, members of the opposing forces who were *hors de combat*, including pilots parachuting from aircraft in distress, were well treated, without distinction based on military rank or category.⁵⁵⁷

479. The Report on the Practice of Pakistan notes that Indian pilots who parachuted in distress were taken as prisoners of war in the 1965 and 1971 conflicts.⁵⁵⁸

480. In 1987, the Deputy Legal Adviser of the US Department of State, referring to Article 42 AP I, affirmed that “we support the principle that persons, other than airborne troops, parachuting from an aircraft in distress, not be made the object of attack”.⁵⁵⁹

481. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US pointed out that its practice was consistent with the prohibition to attack a pilot parachuting from an aircraft in distress and that the protection applied to all air crew rather than to the pilot only.⁵⁶⁰

III. Practice of International Organisations and Conferences

United Nations

482. No practice was found.

Other International Organisations

483. No practice was found.

International Conferences

484. The Rapporteur of Committee III of the CDDH commented that “the Committee decided not to try to define what constituted a hostile act, but there was considerable support for the view that an airman who was aware of the presence of enemy armed forces and tried to escape was engaging in a hostile act”.⁵⁶¹

IV. Practice of International Judicial and Quasi-judicial Bodies

485. No practice was found.

⁵⁵⁷ Report on the Practice of Iraq, 1998, Reply by the Ministry of Defence to a questionnaire, July 1997, Chapter 2.1.

V. Practice of the International Red Cross and Red Crescent Movement

486. The ICRC Commentary on the Additional Protocols states that:

This article [42 AP I] is entirely new. The Hague Regulations of 1907, produced at a time when air warfare did not exist, was obviously not concerned with this problem. However, military manuals already contained prohibitions on firing on airmen in distress, in this way confirming its customary law character.⁵⁶²

The Commentary also states that Article 42(2) AP I

goes further than Article 41 (*Safeguard of an enemy hors de combat*), viz., with regard to the question of surrender. The intent to surrender is assumed to exist in an airman whose aircraft has been brought down, and any attack should be suspended until the person concerned has had an opportunity of making this intention known.

...

A priori, fire must therefore not be opened on the ground against persons who have parachuted from an aircraft in distress, whether they land in or behind the enemy lines. These airmen are presumed to have the intention of surrendering, and all possible measures should be taken to enable this surrender to take place under appropriate conditions.⁵⁶³

487. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

A person who is recognized or who, in the circumstances, should be recognized as being no longer able to participate in combat, shall not be attacked (*e.g.* . . . descending by parachute from an aircraft in distress).

...

A person having parachuted from an aircraft in distress shall be given an opportunity to surrender before being attacked, unless he appears to engage in a hostile act.⁵⁶⁴

488. In a report submitted to the 21st International Conference of the Red Cross in 1969, the ICRC stated that an "airman in distress, cut off, and not employing any weapon should be respected" and that upon landing, the parachutist should be treated as a prisoner of war.⁵⁶⁵

489. Article 36 of draft AP I submitted by the ICRC at the CE (1972) provided that "the occupants of aircraft in distress who parachute to save their lives, or who are compelled to make a forced landing, shall not be attacked during their

⁵⁶⁵ ICRC, Report on the Reaffirmation and Development of Laws and Customs Applicable in Armed Conflicts, May 1969, submitted to the 21st International Conference of the Red Cross, Istanbul, 6–13 September 1969, p. 77.

descent or landing unless their attitude is hostile".⁵⁶⁶ The ICRC Commentary on Article 36 of draft AP I stated that:

This article is entirely new. In the era of The Hague, there was no "vertical" dimension to military operations. Consequently, a proposal, which reflects the customs which have grown up since the appearance of air warfare, was formally submitted to the first session of the Conference of Government Experts and at which the situation of airmen in distress was compared to that of the shipwrecked.⁵⁶⁷

VI. *Other Practice*

490. In their commentary on the 1977 Additional Protocols, Bothe, Partsch and Solf state that:

Article 42 [AP I] codifies a custom which began among some fighter pilots during World War I who considered it to be unchivalrous and inhumane to attack an adversary while he is parachuting to earth from a disabled observation balloon. The custom was further developed during World War II when the use of parachutes by aviators in fixed wing aircraft became routine. The principle of this custom extended to aircraft, was expressed in Art. 20 of the Hague Air Warfare Rules of 1922/1923, which never went into force. It was also expressed in several military law of war manuals and by important publicists.⁵⁶⁸

Immovable public property in occupied territory	§§ 282–315
Private property in occupied territory	§§ 316–458
D. Pillage (practice relating to Rule 52)	§§ 459–799
General	§§ 459–760
Pillage committed by civilians	§§ 761–799

A. War Booty*I. Treaties and Other Instruments**Treaties*

- Article 4 of the 1899 HR provides with regard to prisoners of war that “all their personal belongings, except arms, horses, and military papers, remain their property”.
- Article 4 of the 1907 HR provides with regard to prisoners of war that “all their personal belongings, except arms, horses, and military papers, remain their property”.
- Article 18, first paragraph, GC III provides that:

All effects and articles of personal use, except arms, horses, military equipment and military documents, shall remain in the possession of prisoners of war, likewise their metal helmets and gas masks and like articles issued for personal protection. Effects and articles used for their clothing or feeding shall likewise remain in their possession, even if such effects and articles belong to their regulation military equipment . . . Badges of rank and nationality, decorations and articles having above all a personal or sentimental value may not be taken from prisoners of war.

Other Instruments

- According to Article 45 of the 1863 Lieber Code, “all captures and booty belong, according to the modern law of war, primarily to the government of the captor”.

II. National Practice

Military Manuals

5. Argentina's Law of War Manual states, in a paragraph on war booty, that "all movable public property captured or found on the battlefield becomes the property of the capturing state . . . The victorious armed forces may only take possession of privately owned weapons and military documents if the latter are found or seized on the battlefield."¹

6. Australia's Commanders' Guide states that "all enemy military equipment captured or found on a battlefield is known as booty and becomes the property of the capturing State. Booty includes all articles captured with prisoners of war and not included under the term 'personal effects'."² Regarding prisoners of war, the manual states that "the enemy is entitled to confiscate any military documents and equipment".³ It adds that "the practice of military forces converting captured enemy war equipment for their own use is recognised by LOAC. Prior to using captured equipment, enemy designations must be replaced with appropriate ADF markings."⁴

7. Australia's Defence Force Manual states that "all enemy military equipment captured or found on a battlefield is known as booty and becomes the property of the capturing State. Booty includes all articles captured with prisoners of war and not included under the term 'personal effects'."⁵ The manual also provides that:

PW must be allowed to retain:

- a. all their personal property, except vehicles, arms, and other military equipment or documents;
- b. protective equipment, such as helmets or respirators;
- c. clothing or articles used for feeding, even though the property of the government of the PW;
- d. badges of nationality or rank and decorations; and
- e. articles of sentimental value.⁶

8. Belgium's Law of War Manual states that all objects of personal use must be retained by prisoners of war.⁷

9. Belgium's Teaching Manual for Soldiers states that the equipment that is not necessary for the prisoner of war's clothing, food and security, arms and all military documents are to be considered as "war booty" and brought to the superiors.⁸

⁷ Belgium, *Law of War Manual* (1983), p. 45.

⁸ Belgium, *Teaching Manual for Soldiers* (undated), p. 20.

10. Benin's Military Manual states that "captured enemy military property (with the exceptions of the means of identification, medical and religious objects, ...) become war booty that can be used without restriction. It belongs to the capturing unit and not to individual combatants."⁹

11. The Instructions to the Muslim Fighter issued by the ARBiH in Bosnia and Herzegovina in 1993 contain the following commentary:

(b) War Booty:

... [I]t is clear that a fifth of war booty shall fall to the State treasury, and the other four-fifths belongs to the soldiers. However, in situations where the soldiers receive pay and in which the State has assumed the obligation to care for the soldiers and their families, ... all war booty shall be placed at the disposal of the State ... Because of this the most proper way for the State to dispose of war booty is through its army officers.¹⁰

12. Cameroon's Instructors' Manual states that "captured military objects are war booty. War booty is not regulated by the law of war. It may be utilised without restriction."¹¹

13. Canada's LOAC Manual provides that "all enemy public movable property captured or found on a battlefield is known as 'booty' and becomes the property of the capturing state. Booty includes all articles captured with PWs other than their personal property."¹² It further states that "PWs must be allowed to retain all their personal property, except vehicles, arms, and other military equipment or documents". Protective equipment, clothing, articles used for feeding, badges of nationality or rank, as well as articles of sentimental value, must be left in their possession.¹³ The manual also states that "all property, other than personal property, taken from PWs is known as booty".¹⁴

14. Canada's Code of Conduct provides that "it is prohibited to return to Canada with weapons or ammunition as 'war trophies'. CF personnel who attempt to return to Canada with such items may also run afoul of Canadian criminal and customs laws."¹⁵ With regard to the surrendered enemy, the manual states that:

Disarming includes the search for and the taking away of equipment and documents of military value (e.g., weapons, ammunition, maps, orders, code books, etc.). The following material must remain with the PW or detainee:

⁹ Benin, *Military Manual* (1995), Fascicule II, p. 13.

¹⁰ Bosnia and Herzegovina, *Instructions to the Muslim Fighter* (1993), § c.

¹¹ Cameroon, *Instructors' Manual* (1992), p. 45, § 163.5, see also p. 96.

¹² Canada, *LOAC Manual* (1999), p. 6-5, § 48, see also p. 12-8, § 67.

¹³ Canada, *LOAC Manual* (1999), p. 10-3, § 27.

¹⁴ Canada, *LOAC Manual* (1999), p. 10-4, § 29.

¹⁵ Canada, *Code of Conduct* (2001), Rule 3, § 12.

- a. identification documents/discs;
- b. clothing, items for personal use, or items used for feeding; and
- c. items for personal protection (i.e., helmet, gas mask, flak jacket, etc.) . . .

Only an officer may order the removal of sums of money and valuables for safe-keeping. If such action is taken, a receipt must be issued and the details recorded in a special register.¹⁶

15. The Military Manual of the Dominican Republic states that:

After you have secured, silenced and segregated captives, you may search for items of military value only (weapons, maps or military documents).

It is a violation of the law of war to take from captives objects such as gas masks, mosquito nets or parkas, or objects of no military value, such as jewellery, photos or medals.¹⁷

16. France's LOAC Manual incorporates the content of Article 18 GC III. It adds that:

Captured enemy military objects (with the exceptions of means of identification, cultural property, medical and religious objects and those necessary for the feeding, clothing and protection of captured enemy personnel) *de facto* become war booty (e.g. arms, combat transports and vehicles). They may be used without restriction, and there exists a well established custom according to which all public property which may be used for military operations (arms, ammunitions, military material, etc.) which is captured must not be given back to the adversary.¹⁸

17. Germany's Military Manual states that:

Movable government property which may be used for military purposes shall become the property of the occupying state. . . Upon seizure it shall, without any compensation, become the property of the occupying state. Such property includes, for instance, means of transport, weapons, and food supplies. . . The latter shall not be requisitioned unless the requirements of the civilian population have been taken into account. . . The requirements of the civilian population shall be satisfied first.¹⁹

The manual further states that:

Prisoners of war shall be disarmed and searched. Their military equipment and military documents shall be taken away from them. . .

Prisoners of war shall keep all effects and articles of personal use, their metal helmets and NBC protective equipment as well as all effects and articles used for their clothing and feeding. . . Prisoners of war shall keep their badges of rank and nationality, their decorations and articles of personal or sentimental value.²⁰

¹⁶ Canada, *Code of Conduct* (2001), Rule 5, § 5 and Rule 6, § 5.

¹⁷ Dominican Republic, *Military Manual* (1980), p. 8.

¹⁸ France, *LOAC Manual* (2001), p. 48.

¹⁹ Germany, *Military Manual* (1992), § 556, see also § 448 (downed aircraft becoming spoils of war) and § 1021 (seizure of military aircraft).

²⁰ Germany, *Military Manual* (1992), §§ 706 and 707.

18. Hungary's Military Manual states that "captured enemy military property becomes war booty and the property of the captor".²¹

19. Israel's Manual on the Laws of War states that "it is prohibited to take away prisoners' personal effects and especially their identity papers, as well as the self-defense equipment (except weapons) issued to them by their army (gas masks, plastic sheets, steel helmets)".²² It also provides that:

Over the years, the weapons arsenal of the IDF has grown as a result of capturing spoils courtesy of the Arab armies. Some of them, such as the RPG and Kalashnikov, the T-54, 'Ziel' trucks and 130 mm guns were even introduced into operational use in the IDF.

Other interesting items include an Iraqi MIG 21 plane, whose pilot defected to Israel, and guns captured in the Yom Kippur War and subsequently directed against the Egyptians. The crowning achievement was the case involving the capture of an Egyptian radar coach in the War of Attrition, brought intact to Israel.

One must distinguish between looting and taking spoils of war. Seized weapons, facilities, and property belonging to the enemy's army or state become the property of the seizing state.²³

20. Kenya's LOAC Manual states, with regard to captured enemy combatants and military objects, that:

Disarming comprises the search for and the taking away of equipment and documents of military value (e.g. ammunition, maps, orders, telecommunication material and codes). Such equipment and documents become war booty.

A POW is entitled to keep his identity card and identity disc, his personal property, decorations, badges of rank, articles of sentimental value and military clothing and protective equipment such as steel helmet, gas mask and NBC clothing. . .

Captured enemy military objects (except means of identification, medical and religious objects and those necessary for clothing, feeding and the protection of captured personnel) become war booty (e.g. objects of military value taken from captured enemy military personnel, other military material such as weapons, transport, store goods). War booty may be used without restriction. It belongs to the capturing Party, not to individual combatants.²⁴

21. Madagascar's Military Manual states that "captured enemy military objects become war booty. War booty may be used without restriction. It belongs to the capturing power and not to individual combatants."²⁵

22. The Military Manual of the Netherlands provides that:

Military material (weapons and ammunition in the first place) and other goods destined for military use (including stored goods) may be captured [as well as] goods of military significance which have been taken from prisoners. Medical goods and goods necessary to feed, clothe and otherwise protect prisoners do not constitute

²⁵ Madagascar, *Military Manual* (1994), Fiche No. 6-SO, § D.

booty. Captured goods belong to the party to the armed conflict which has captured them and not to individual combatants. Captured goods may be used without restriction.²⁶

The manual further provides that “appropriation of personal property of prisoners of war” is an “ordinary breach” of the law of war.²⁷

23. New Zealand’s Military Manual states that “all enemy public movable property captured or found on the battlefield is known as ‘booty’ and becomes the property of the capturing state. Booty includes all articles captured with prisoners of war and not included under the term ‘personal effects’.”²⁸ Furthermore, all personal property, effects and articles of personal use, except vehicles, arms, military equipment and documents, must be left in the possession of prisoners of war. They are also entitled to keep protective gear such as helmets and gas masks, articles used for clothing or feeding, badges of nationality or rank, articles of sentimental value and identity documents.²⁹

24. Nigeria’s Manual on the Laws of War provides that “all articles of personal use and items such as gas masks and steel helmets given to the prisoners of war for self-protection, excluding military equipment and military documents, must be left in their possession”.³⁰

25. Spain’s LOAC Manual states that enemy military objects may be captured and requisitioned. Captured enemy military objects become the property of the captor State and not of individual combatants.³¹

26. Togo’s Military Manual states that “captured enemy military property (with the exceptions of the means of identification, medical and religious objects, . . .) become war booty that can be used without restriction. It belongs to the capturing unit and not to individual combatants.”³²

27. The UK Military Manual specifies that “all articles captured with prisoners of war and not included under the term ‘personal effects’ are known as ‘booty’ and become the property of the enemy government and not of the individuals or unit capturing them”.³³ It also provides that:

Public enemy property found or captured on a battlefield becomes, as a general rule, the property of the opposing belligerent. Private enemy property on the battlefield is not (as it was in former times) in every case booty. Arms and ammunition and military equipment and papers are booty, even if they are the property of individuals, but cash, jewellery, and other private articles of value are not.³⁴

³³ UK, *Military Manual* (1958), § 142. ³⁴ UK, *Military Manual* (1958), § 615.

28. The UK LOAC Manual states that:

PWs should be searched and disarmed and their military papers and equipment removed.

... A PW is entitled to keep his identity card, his personal property, decorations, badges of rank, articles of sentimental value and military clothing and protective equipment such as steel helmets, gas masks and NBC clothing.³⁵

29. The US Field Manual, in a paragraph entitled "Booty of war", provides that:

All enemy public movable property captured or found on a battlefield becomes the property of the capturing State... Enemy private movable property, other than arms, military papers, horses, and the like captured or found on a battlefield, may be appropriated only to the extent that such taking is permissible in occupied areas.³⁶

Concerning the property of prisoners, the manual specifies that:

All effects and articles of personal use, except arms, horses, military equipment and military documents, shall remain in the possession of prisoners of war, likewise their metal helmets and gas masks and like articles issued for personal protection. Effects and articles used for their clothing or feeding shall likewise remain in their possession, even if such effects and articles belong to their regular military equipment.³⁷

30. The US Soldier's Manual states that:

After you have secured, silenced, and segregated captives, you may search them for items of military or intelligence value only, such as weapons, maps, or military documents. Do not take protective items, such as gas masks, mosquito nets, or parkas; or personal items of no military value such as jewelry, photos, or medals from captured or detained personnel.³⁸

31. The US Instructor's Guide provides that:

[Prisoners of war] are entitled to retain most of [their] personal property. The conventions provide that all effects and articles of personal use, except arms, military equipment, and military documents, must remain in the possession of the prisoner unless he could use them to harm himself or others. Articles issued for the prisoner's personal protection, such as gas masks and metal helmets, may also be retained by him.³⁹

32. The US Rules of Engagement for Operation Desert Storm states that "the taking of war trophies [is] prohibited".⁴⁰

National Legislation

33. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.⁴¹

34. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Article 18 GC III, is a punishable offence.⁴²

35. Italy's Law of War Decree provides that enemy military aircraft are subject to capture and confiscation.⁴³

36. Mexico's Code of Military Justice as amended punishes "anyone who improperly appropriates objects belonging to the booty of war".⁴⁴

37. Norway's Military Penal Code as amended punishes any "combatant who arbitrarily (in his own self-interest) seeks to take booty", as well as "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the Geneva Conventions of 12 August 1949".⁴⁵

38. The Articles of War of the Philippines states that:

Any person subject to military law who buys, sells, trades, or in any way deals in or disposes of captured or abandoned property, whereby he shall receive or expect any profit, benefit, or advantage to himself or to any other person directly or indirectly connected with himself or who fails whenever such property comes into his possession or custody or within his control to give notice thereof to the proper authority and to turn over such property to the proper authority without delay, shall, on conviction thereof, be punished by fine or imprisonment.⁴⁶

National Case-law

39. In the *Al-Nawar case* before Israel's High Court in 1985, Judge Shamgar held that:

All movable State property captured on the battlefield may be appropriated by the capturing belligerent State as booty of war, this includes arms and ammunition, depots of merchandise, machines, instruments and even cash.

All private property actually used for hostile purposes found on the battlefield or in a combat zone may be appropriated by a belligerent State as booty of war.⁴⁷

40. The Report on UK Practice refers to a letter from a UK army lawyer which noted that UK courts-martial were held following the Gulf War for the smuggling of AK-47s.⁴⁸

⁴⁷ Israel, High Court, *Al-Nawar case*, Judgement, 11 August 1985.

⁴⁸ Report on UK Practice, 1997, Letter from an army lawyer, 24 February 1998, Answers to additional questions on Chapter 2.3.

41. In the *Morrison case* in 1974, the US Court of Claims denied a claim of a former soldier who had discovered \$50,000 in an area abandoned by the enemy. The Court held that the soldier had taken possession of the money solely as an agent of the US and had no legal basis to claim its return.⁴⁹

42. Smith reported that, in the *Le Havre Currency case*, a German military garrison commander had the authority to draw upon the local branch of the Bank of France for funds, the normal limit being 100,000,000 francs a month. When the town was cut off by the Allied advance, the commander persuaded the bank manager to grant a large overdraft. It is doubtful whether the manager had much of an option in the matter, but there was at least formal consent and a receipt was given. Under this arrangement, a sum of 300,000,000 francs was withdrawn. When surrender became imminent, a sum of 195,000,000 francs was returned to the bank, and the remainder, some 37,250,000 francs was packed in bags for return. Le Havre was captured by assault before this money was in fact returned to the bank and the bags were found in a tunnel. Further sums amounting to over 15,000,000 francs were found in various safes. It was ruled that the captured currency was booty of war, and not the property of the bank. Whether the transaction may be regarded as a money contribution or as an overdraft, in either case its legal result was to create a debt due by the German government to the Bank of France. The actual money became the property of the Reich as soon as it was handed over to the German authorities and it remained German State property until it was returned to the bank. The fact that the commander intended to return the money and had begun to do so did not change this.⁵⁰

43. Smith reported that, in the *Cigars Captured in Hapert case*, a German firm delivered to a Dutch manufacturer a large quantity of leaf tobacco to be made into cigars for the German forces. No payment for the leaf tobacco was made by the manufacturer. When the factory was overrun, some 2,000,000 cigars were found ready for dispatch and enough leaf tobacco remained for 5,000,000 more. In this case, both the manufactured cigars and the leaf tobacco were clearly booty of war. The legal position of the manufacturer was that of a workman who had been employed to work upon German materials for German use.⁵¹

44. Smith reported that during the Second World War, the Germans frequently supplied seed to Dutch farmers to raise crops for consumption by the German army or civilian population. It was ruled that in no circumstances could growing crops be treated as booty of war. Only crops that had been requisitioned by the Germans could be seized as booty of war.⁵²

Other National Practice

45. The Report on UK Practice refers to a letter from a UK army lawyer which noted that:

⁴⁹ US, Court of Claims, *Morrison case*, Judgement, 20 February 1974.

⁵⁰ H. A. Smith, *Booty of War, BYIL*, Vol. XXIII, 1946, pp. 232–234.

⁵¹ H. A. Smith, *Booty of War, BYIL*, Vol. XXIII, 1946, pp. 232–234.

⁵² H. A. Smith, *Booty of War, BYIL*, Vol. XXIII, 1946, pp. 232–234.

The current view seems to be that units may lawfully seize enemy property *on the battlefield* and retain it as booty, but individuals doing the same run the risk of being charged with looting. Retention by units and formations of booty is subject to approval by Government whereas appropriation of property by individuals on the battlefield is strictly illegal.⁵³ [emphasis in original]

III. Practice of International Organisations and Conferences

46. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

47. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

48. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

Captured enemy military objects (except means of identification, medical and religious objects and those necessary for clothing, feeding and the protection of captured personnel) become war booty (e.g. objects of military value taken from captured enemy military personnel, other military material such as weapons, transports, store goods).

War booty may be used without restriction. It belongs to the capturing party, not to individual combatants.⁵⁴

VI. Other Practice

49. No practice was found.

B. Seizure and Destruction of Property in Case of Military Necessity

I. Treaties and Other Instruments

Treaties

50. Under Article 23(g) of the 1899 HR, it is especially prohibited “to destroy or seize the enemy’s property, unless such destruction or seizure be imperatively demanded by the necessities of war”.

51. Under Article 23(g) of the 1907 HR, it is especially forbidden “to destroy or seize the enemy’s property, unless such destruction or seizure be imperatively demanded by the necessities of war”.

⁵³ Report on UK Practice, 1997, Letter from an army lawyer, 24 February 1998, Answers to additional questions on Chapter 2.3.

⁵⁴ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 526.

52. Article 6(b) of the 1945 IMT Charter (Nuremberg) lists “wanton destruction of cities, towns or villages, or devastation not justified by military necessity” as a war crime.

53. Articles 50 GC I, 51 GC II and 147 GC IV provide that “extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly” are grave breaches.

54. Article 53 GC IV stipulates that:

Any destruction by the Occupying Power of real or personal property belonging individually or collectively to private persons, or to the State, or to other public authorities, or to social or cooperative organizations, is prohibited, except where such destruction is rendered absolutely necessary by military operations.

55. Under Article 8(2)(a)(iv) of the 1998 ICC Statute, “extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly” is a war crime in international armed conflicts. Under Article 8(2)(b)(xiii), “destroying or seizing the enemy’s property unless such destruction or seizure be imperatively demanded by the necessities of war” is also a war crime in international armed conflicts.

56. Under Article 8(2)(e)(xii) of the 1998 ICC Statute, “destroying or seizing the property of an adversary unless such destruction or seizure be imperatively demanded by the necessities of the conflict” is a war crime in non-international armed conflicts.

Other Instruments

57. Article 15 of the 1863 Lieber Code states that “military necessity . . . allows of all destruction of property”.

58. Article 16 of the 1863 Lieber Code states that “military necessity . . . does not admit . . . of the wanton devastation of a district”.

59. Article 44 of the 1863 Lieber Code provides that “all destruction of property not commanded by the authorized officer . . . are prohibited under the penalty of death, or such other severe punishment as may seem adequate for the gravity of the offense.”

60. Article 13(g) of the 1874 Brussels Declaration prohibits “any destruction or seizure of the enemy’s property that is not imperatively demanded by the necessity of war”.

61. Article 18 of the 1913 Oxford Manual of Naval War provides that “it is forbidden to destroy enemy property, except in the cases where such destruction is imperatively required by the necessities of war”.

62. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including “confiscation of property” and “wanton devastation and destruction of property”.

63. Article II(1)(b) of the 1945 Allied Control Council Law No. 10 listed the “wanton destruction of cities, towns or villages, or devastation not justified by military necessity” as a war crime.

64. Principle VI(b) of the 1950 Nuremberg Principles adopted by the ILC provides that “wanton destruction of cities, towns, or villages, or devastation not justified by military necessity” is a war crime.

65. Pursuant to Article 22(2)(e) of the 1991 ILC Draft Code of Crimes against the Peace and Security of Mankind, “large-scale destruction of civilian property” is an “exceptionally serious war crime”.

66. Article 2(d) of the 1993 ICTY Statute gives the Tribunal jurisdiction over grave breaches of the Geneva Conventions, including “extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly”. Article 3(b) also gives also the Tribunal jurisdiction over violations of the laws and customs of war, including “wanton destruction of cities, towns or villages, or devastation not justified by military necessity”.

67. Article 20(a)(iv) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind provides that “extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly” is a war crime. In addition, Article 20(e)(ii) defines “wanton destruction of cities, towns or villages, or devastation not justified by military necessity” as a war crime.

68. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(a)(iv), “extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly” is a war crime in international armed conflicts. According to Section 6(1)(b)(xiii), “destroying or seizing the enemy’s property unless such destruction or seizure be imperatively demanded by the necessities of war” is also a war crime in international armed conflicts.

69. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(e)(xii), “destroying or seizing the property of an adversary unless such destruction or seizure be imperatively demanded by the necessities of the conflict” is a war crime in non-international armed conflicts.

II. National Practice

Military Manuals

70. Argentina’s Law of War Manual (1969) states that “the destruction of enemy property shall be permissible, as required by military operations”.⁵⁵ It adds that it is prohibited “to appropriate immovable enemy property, except when the

⁵⁵ Argentina, *Law of War Manual* (1969), § 1.018.

appropriation is strictly necessary for reasons of military necessity".⁵⁶ With regard to occupied territory, the manual provides that:

Any destruction by the Occupying Power of real or personal property belonging individually or collectively to private persons, or to the State, or to other public authorities, or to social or cooperative organizations, is prohibited, except where such destruction is rendered absolutely necessary by military operations.⁵⁷

71. Argentina's Law of War Manual (1989) provides that "extensive destruction and appropriation of property not justified by military necessity and carried out unlawfully and wantonly" are grave breaches of the Geneva Conventions and war crimes.⁵⁸

72. Australia's Commanders' Guide states that "the destruction or seizure of civilian property, whether it belongs to private individuals or the State, is forbidden unless the damage or seizure is imperative for military purposes".⁵⁹ It further states that "the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings: . . . extensive destruction and appropriation of property which is not justified by military necessity and which is carried out unlawfully and wantonly".⁶⁰

73. Australia's Defence Force Manual states that "the destruction or seizure of civilian property, whether it belongs to private individuals or to the state, to other public authorities or to social or cooperative organisations, is permitted if imperative for military purposes. Otherwise such action is forbidden."⁶¹ As a general rule, "it is forbidden to destroy or requisition enemy property unless it is militarily necessary to do so".⁶² The manual further states that "the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings: . . . extensive destruction and appropriation of property which is not justified by military necessity and which is carried out unlawfully and wantonly".⁶³

74. Belgium's Law of War Manual provides that "extensive destruction or appropriation of property not justified by military necessity and carried out unlawfully and wantonly" is a grave breach of the Geneva Conventions and a war crime.⁶⁴

75. Belgium's Teaching Manual for Soldiers states that "civilian property is, in principle, not to be destroyed except as strictly necessary to the execution of the mission".⁶⁵

⁵⁶ Argentina, *Law of War Manual* (1969), § 1.019.

⁵⁷ Argentina, *Law of War Manual* (1969), § 5.013.

⁶⁴ Belgium, *Law of War Manual* (1983), p. 55.

⁶⁵ Belgium, *Teaching Manual for Soldiers* (undated), p. 7, see also p. 21.

76. Benin's Military Manual provides that "destruction not motivated by military necessity is . . . prohibited".⁶⁶ It further emphasises that "the combatant must . . . limit destruction according to the necessities of the mission".⁶⁷

77. Cameroon's Instructors' Manual provides that the destruction or seizure of property is prohibited except in case of imperative military necessity.⁶⁸

78. Canada's LOAC Manual states that "the destruction or seizure of enemy property, whether it belongs to private individuals or to the state, is forbidden unless the damage or seizure is imperatively demanded by the necessities of war".⁶⁹ It also provides that, in occupied territory:

Destruction is the partial or total damage of property. Property of any type of ownership may be damaged when such is necessary to, or results from, military operations either during or preparatory to combat. Destruction is forbidden except where there is some reasonable connection between the destruction of the property and the overcoming of the enemy forces.⁷⁰

The manual further states that "destroying or seizing enemy property, unless imperatively demanded by the necessities of war," constitutes a war crime.⁷¹ It also states that "extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly," are grave breaches of the Geneva Conventions and war crimes.⁷²

79. Canada's Code of Conduct provides for respect for civilian property. It states that:

Military necessity may sometimes require the destruction of some civilian property in order to conduct operations. This destruction should not be done needlessly. The wanton destruction, theft or confiscation of civilian property is prohibited and is an offence under the Code of Service Discipline.⁷³

80. Under Colombia's Directive on IHL, "extensive destruction and appropriation of property, when not justified by military necessity and executed unlawfully and wantonly," is a punishable offence.⁷⁴

81. Croatia's Commanders' Manual provides that "destruction not required by the mission . . . is prohibited".⁷⁵

82. The Military Manual of the Dominican Republic instructs soldiers as follows:

The laws [of war] require that you do not cause more destruction than necessary to accomplish your mission . . . Don't destroy an entire town or village to stop sniper

⁶⁶ Benin, *Military Manual* (1995), Fascicule III, p. 4.

⁷⁵ Croatia, *Commanders' Manual* (1992), § 18.

fire from a single building. Use only that firepower necessary to neutralise the sniper.⁷⁶

The manual also provides that “unnecessary destruction of property [is a violation] of the law of war for which you can be prosecuted”.⁷⁷

83. Ecuador’s Naval Manual provides that “the following acts constitute war crimes: . . . wanton destruction of cities, towns, and villages [and] devastation not justified by the requirements of military operations”.⁷⁸

84. France’s Disciplinary Regulations as amended states that, under international conventions, “any wanton destruction” is prohibited.⁷⁹

85. France’s LOAC Summary Note provides that “destructions not required by the mission . . . are forbidden”.⁸⁰ It adds that “extensive destruction and appropriation of property not justified by military necessities and carried out unlawfully and wantonly” are grave breaches of the law of war and war crimes.⁸¹

86. France’s LOAC Teaching Note provides that “destruction not required by the mission is forbidden”.⁸² It further states that “extensive destruction and appropriation of property not justified by military necessity and carried out unlawfully and wantonly” are grave breaches of the law of armed conflict and war crimes.⁸³

87. France’s LOAC Manual states that “extensive destruction or appropriation of property, not justified by military necessity, and carried out unlawfully and wantonly” is a war crime for which there is no statute of limitation under the 1998 ICC Statute.⁸⁴

88. Germany’s Military Manual states that “the Hague Regulations . . . prohibit the destruction or seizure of enemy property, ‘unless such destruction or seizure be imperatively demanded by the necessity of war’”.⁸⁵ The manual further states that “grave breaches of international humanitarian law are in particular: . . . destruction or appropriation of goods, carried out unlawfully and wantonly without any military necessity”.⁸⁶

89. Indonesia’s Directive on Human Rights in Irian Jaya and Maluku gives the following instructions: “Do not be involved in or permit the unnecessary destruction of property” and “Do not destroy anything which is not related closely to the primary objective of the operation”.⁸⁷

90. Israel’s Manual on the Laws of War states that “unnecessary destruction of enemy property is forbidden . . . The only restriction is to refrain from destroying property senselessly, where there is no military justification.”⁸⁸

91. Italy's IHL Manual states that "it is specifically prohibited . . . to destroy or seize enemy property, unless it is imperatively demanded by the necessities of war".⁸⁹ The manual further states that "purposeless destruction of houses and devastation not justified by military necessity" constitute war crimes.⁹⁰ It also states that the occupying State has the obligation "not to destroy movable and immovable property belonging to private persons, to the occupied State and other public organisations or cooperatives . . . except in case of absolute military necessity".⁹¹

92. Italy's LOAC Elementary Rules Manual provides that "superfluous destruction . . . is prohibited".⁹² It also instructs troops, as a rule for behaviour in action, to "restrict destruction to what your mission requires".⁹³

93. Kenya's LOAC Manual provides that "civilian property is not to be destroyed except when this is strictly necessary for the execution of the mission".⁹⁴ It also states that "it is forbidden to destroy or requisition enemy property unless it is militarily necessary to do so".⁹⁵

94. Under South Korea's Military Regulation 187, meaningless destruction is a war crime.⁹⁶

95. Lebanon's Army Regulations and Field Manual prohibit destruction which is not rendered necessary by military operations.⁹⁷

96. Madagascar's Military Manual states that destruction which is not required by the mission is prohibited.⁹⁸

97. The Military Manual of the Netherlands considers that "extensive destruction and appropriation of property not justified by military necessity and carried out unlawfully and wantonly" is a grave breach of the Geneva Conventions.⁹⁹ It adds that "the damaging of a civilian object without necessity" is an "ordinary breach" of the law of war.¹⁰⁰

98. New Zealand's Military Manual provides that "the destruction or seizure of enemy property, whether it belongs to private individuals or to the State, is forbidden unless the damage or seizure is imperatively demanded by the necessities of war".¹⁰¹ The manual further states that "extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly," is a grave breach of the Geneva Conventions and a war crime.¹⁰² It also states that "destroying or seizing enemy property, unless

imperatively demanded by the necessities of war" constitutes a war crime.¹⁰³ In addition, in the case of occupied territory, the manual states that:

Destruction of property may be partial or total. Property of any type of ownership may be damaged, when this is necessary to, or results from, military operations either during or preparatory to combat. Destruction is forbidden except where there is some reasonable connection between the destruction of the property and the overcoming of the enemy forces.¹⁰⁴

99. Nigeria's Operational Code of Conduct gives the following directive: "No property, building, etc. will be destroyed maliciously".¹⁰⁵

100. Nigeria's Military Manual states that "destruction should be limited to what a particular mission requires".¹⁰⁶ It adds that it is prohibited "to destroy or seize the enemy's property, unless such destruction or seizure be imperatively demanded by the necessity of war".¹⁰⁷

101. Nigeria's Manual on the Laws of War states that "as a rule, extensive destruction of property on enemy territory, whether it is the property of the state or the property of individuals, is forbidden. Destruction is permitted only in case of military necessity."¹⁰⁸ The manual also states that grave breaches of the Geneva Conventions are considered serious war crimes, including "extensive destruction and confiscation of property not justified by military necessity".¹⁰⁹

102. Nigeria's Soldiers' Code of Conduct states that "destruction should be limited to what the particular mission requires".¹¹⁰ It is also prohibited "to destroy or seize the enemy's property, unless such destruction or seizure be imperatively demanded by the necessities of war".¹¹¹

103. Peru's Human Rights Charter of the Security Forces provides that it is forbidden to cause more destruction than is required by the mission.¹¹²

104. The Soldier's Rules of the Philippines instructs soldiers: "Destroy no more than your mission requires."¹¹³

105. Romania's Soldiers' Manual instructs combatants: "Limit destruction to what is required by your mission."¹¹⁴

106. Russia's Military Manual provides that "destruction or seizure of enemy property, unless such actions are required by military necessity," are prohibited methods of warfare.¹¹⁵

107. Senegal's Disciplinary Regulations states that, under the laws and customs of war, "any wanton destruction" is forbidden.¹¹⁶

108. South Africa's LOAC Manual states that soldiers must "restrict destruction to that required by the mission".¹¹⁷ It also considers "purposeless destruction" and "extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly," to be grave breaches of the Geneva Conventions and war crimes.¹¹⁸

109. Spain's LOAC Manual provides that "destruction and appropriation of civilian property, which are not justified by military necessity or by combat operations, are prohibited".¹¹⁹ It further states that "destruction not required by the mission is prohibited".¹²⁰ The manual also considers the "extensive destruction and appropriation of property not justified by military necessity" to be grave breaches and war crimes.¹²¹

110. Sweden's IHL Manual states that "according to [the 1907 HR], it is prohibited to destroy or confiscate an enemy's belongings so long as this is not absolutely necessary as a consequence of the demands of war".¹²² It adds that, "in most cases, property of importance for the adversary's military operations can be eliminated by destruction or confiscation (= capture)".¹²³ The manual also regards "illegal, extensive and arbitrary destruction and appropriation of property where this is not justified by military necessity" as a grave breach of the Geneva Conventions.¹²⁴

111. Switzerland's Basic Military Manual provides that "it is prohibited to destroy or seize enemy property except in cases where such destruction and seizure are imperatively demanded by the necessities of war".¹²⁵ It adds that "extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly," is a grave breach of the Geneva Conventions and a war crime.¹²⁶

112. Togo's Military Manual provides that "destruction not motivated by military necessity is...prohibited".¹²⁷ It further emphasises that "the combatant must...limit destruction according to the necessities of the mission".¹²⁸

113. The UK Military Manual recalls that "the destruction or seizure of enemy property, whether it belongs to private individuals or to the State, is forbidden

¹²⁸ Togo, *Military Manual* (1996), Fascicule I, p. 18, see also Fascicule II, p. 18.

unless the damage or seizure is imperatively demanded by the necessities of war".¹²⁹ It also provides that "once a defended locality has surrendered, only such further damage is permitted as is demanded by the exigencies of war, for example, the removal of the fortifications, demolition of military buildings, destruction of stores, and measures for clearing the foreground".¹³⁰ In addition, "extensive destruction and appropriation of property not justified by military necessity and carried out unlawfully and wantonly" constitute grave breaches of the Geneva Conventions and war crimes.¹³¹

114. The UK LOAC Manual provides that "it is forbidden to destroy or requisition enemy property unless it is militarily necessary to do so".¹³² It also contains a rule for non-commissioned officers, stating that "enemy property is not to be taken, damaged or destroyed unless there is a military need to do so".¹³³ With respect to occupied territory, the manual states that "the destruction of property is forbidden except where absolutely necessitated by military operations".¹³⁴

115. The US Field Manual provides that:

The measure of permissible devastation is found in the strict necessities of war. Devastation as an end in itself or as a separate measure of war is not sanctioned by the law of war. There must be some reasonably close connection between the destruction of property and the overcoming of the enemy's army. Thus the rule requiring respect for private property is not violated through damage resulting from operations, movements, or combat activity of the army; that is, real estate may be used for marches, camp sites, construction of field fortifications, etc. Buildings may be destroyed for sanitary purposes or used for shelter for troops, the wounded and sick and vehicles and for reconnaissance, cover, and defense. Fences, woods, crops, buildings, etc., may be demolished, cut down, and removed to clear a field of fire, to clear the ground for landing field, or to furnish building materials or fuel if imperatively needed for the army.¹³⁵

The manual also states that "it is especially forbidden to destroy or seize the enemy's property, unless such destruction or seizure be imperatively demanded by the necessities of war".¹³⁶ It further states that "extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly," is a grave breach of GCI, II and IV and a war crime.¹³⁷ Likewise, the manual states that "in addition to the 'grave breaches' of the Geneva Conventions of 1949, the following acts are representative of violations of the law of war ('war crimes'): . . . purposeless destruction".¹³⁸

¹²⁹ UK, *Military Manual* (1958), § 588, see also § 616.

¹³⁷ US, *Field Manual* (1956), § 502. ¹³⁸ US, *Field Manual* (1956), § 504(j).

116. The US Air Force Pamphlet incorporates the content of Article 23(g) of the 1907 HR, i.e., that “it is especially forbidden . . . to destroy or seize the enemy’s property, unless such destruction or seizure be imperatively demanded by the necessities of war”.¹³⁹ It further states that “in addition to the grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: . . . wilful and wanton destruction and devastation not justified by military necessity”.¹⁴⁰

117. The US Soldier’s Manual gives the following instructions: “Don’t cause destruction beyond the requirement of your mission. Don’t destroy an entire town or village to stop sniper fire from a single building. . . . Limit destruction only to that necessary to accomplish your mission. Avoid unnecessary . . . damage to property.”¹⁴¹ The manual further provides that “unnecessary destruction of property [is a violation] of the law of war for which you can be prosecuted”.¹⁴²

118. The US Instructor’s Guide provides that:

The Hague and the Geneva Conventions and the customary law of war require that American soldiers –

Not inflict unnecessary destruction . . . in accomplishing the military mission.

...

The customary law of war and [the 1907 HR] . . . established definite rules which prohibit the destruction or the seizure of enemy property unless necessary . . .

Any excessive destruction . . . not required to accomplish the objective is illegal as a violation of the law of war . . .

[C]ause no greater destruction of enemy property than necessary to accomplish the military mission.¹⁴³

119. The US Rules of Engagement for Operation Desert Storm reminds troops to “restrict destruction to what your mission requires”.¹⁴⁴

120. The US Naval Handbook considers that “the following acts are representative war crimes: . . . Wanton destruction of cities, towns, and villages or devastation not justified by the requirements of military operations.”¹⁴⁵

National Legislation

121. Argentina’s Draft Code of Military Justice punishes any soldier who “destroys, damages or appropriates, without any military necessity, something which does not belong to him”.¹⁴⁶

122. Under Armenia’s Penal Code, the “wilful destruction or appropriation of property, not justified by military necessity, and carried out unlawfully”,

¹³⁹ US, *Air Force Pamphlet* (1976), § 5-2(b)(1), see also § 14–6(b) (citing Article 53 GC IV which is “comparable to Article 23(g) [of the 1907] HR”).

during an armed conflict, constitutes a crime against the peace and security of mankind.¹⁴⁷

123. Australia's War Crimes Act considers "any war crime within the meaning of the instrument of appointment of the Board of Inquiry [set up to investigate war crimes committed by enemy subjects]" as a war crime, including confiscation of property and wanton devastation and destruction of property.¹⁴⁸

124. Australia's Geneva Conventions Act as amended provides that "a person who, in Australia or elsewhere, commits a grave breach of any of the [Geneva] Conventions . . . is guilty of an indictable offence".¹⁴⁹

125. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in Article 8(2)(a)(iv), (b)(xiii) and (e)(xii) of the 1998 ICC Statute.¹⁵⁰

126. Azerbaijan's Criminal Code (1999) provides that "destroying property unless such destruction is imperatively demanded by war necessity; . . . destroying of [civilian] property, illegal seizure of property under the pretext of military need" constitute war crimes in international and non-international armed conflicts.¹⁵¹

127. Bangladesh's International Crimes (Tribunal) Act states that the "wanton destruction of cities, towns or villages or devastation not justified by military necessity" is a war crime. It adds that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.¹⁵²

128. The Geneva Conventions Act of Barbados provides that "a person who commits a grave breach of any of the Geneva Conventions of 1949 . . . may be tried and punished by any court in Barbados that has jurisdiction in respect of similar offences in Barbados as if the grave breach had been committed in Barbados".¹⁵³

129. The Criminal Code of Belarus provides that "the destruction and appropriation of property not justified by military necessity, executed on a large scale, unlawfully and wantonly," is a war crime.¹⁵⁴

130. Belgium's Law concerning the Repression of Grave Breaches of the Geneva Conventions and their Additional Protocols as amended provides that "extensive destruction and appropriation of property not justified by military necessity as permitted by international law and carried out unlawfully and wantonly" constitutes a crime under international law.¹⁵⁵

131. Under the Criminal Code of the Federation of Bosnia and Herzegovina, “property confiscation, . . . [and] illegal and wilful destruction and appropriation of property on a large scale and not justified by military needs” are war crimes.¹⁵⁶ The Criminal Code of the Republika Srpska contains the same provision.¹⁵⁷

132. Botswana’s Geneva Conventions Act punishes “any person, whatever his nationality, who, whether in or outside Botswana, commits, or aids, abets or procures the commission by any other person of, any such grave breach of any of the [Geneva] conventions”.¹⁵⁸

133. Bulgaria’s Penal Code as amended provides that “a person who, in violation of the rules of international law for waging war . . . unlawfully or arbitrarily perpetrates or orders the perpetration of destruction or appropriation of property on a large scale” commits a war crime.¹⁵⁹

134. Under Burundi’s Draft Law on Genocide, Crimes against Humanity and War Crimes, “the extensive destruction and appropriation of property, not justified by military necessity, and carried out unlawfully and wantonly” constitutes a war crime in international armed conflicts.¹⁶⁰ It also adds that “destroying or seizing enemy property, except in case where such destruction or seizure would be imperatively demanded by the necessities of war,” is a war crime in both international and non-international armed conflicts.¹⁶¹

135. Cambodia’s Law on the Khmer Rouge Trial provides that “the Extraordinary Chambers shall have the power to bring to trial all suspects who committed or ordered the commission of grave breaches of the Geneva Convention[s] of 12 August 1949 . . . which were committed during the period from 17 April 1975 to 6 January 1979”.¹⁶²

136. Canada’s Geneva Conventions Act as amended provides that “every person who, whether within or outside Canada, commits a grave breach [of the Geneva Conventions] . . . is guilty of an indictable offence”.¹⁶³

137. Canada’s National Defence Act punishes “every person who . . . without orders from the person’s superior officer, improperly destroys or damages any property”.¹⁶⁴

138. Canada’s Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are “crimes

according to customary international law" and, as such, indictable offences under the Act.¹⁶⁵

139. Chile's Code of Military Justice provides for a prison sentence for "anyone who, contrary to instructions received and uncompelled by the operations of war, destroys lines of communication, telegraphic or other links" and for "military personnel who, failing in the obedience they owe to their superiors, burn or destroy buildings or other property".¹⁶⁶

140. China's Law Governing the Trial of War Criminals provides that "indiscriminate destruction of property" constitutes a war crime.¹⁶⁷

141. The DRC Code of Military Justice as amended, which applies in times of war or in an area where a state of siege or a state of emergency has been proclaimed, punishes any "abusive or illegal requisition, confiscation or spoliation".¹⁶⁸

142. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.¹⁶⁹

143. The Geneva Conventions and Additional Protocols Act of the Cook Islands punishes "any person who in the Cook Islands or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach of any of the [Geneva] Conventions".¹⁷⁰

144. Under Croatia's Criminal Code, "the confiscation of property [and] the unlawful and wanton destruction or large-scale appropriation of property not justified by military necessity" are war crimes.¹⁷¹

145. Cuba's Military Criminal Code punishes "anyone who, in an area of military operations, ... unlawfully destroys ... property under the pretext of military necessity".¹⁷²

146. Cyprus's Geneva Conventions Act punishes "any person who, whatever his nationality, commits in the Republic or outside the Republic, any grave breach or takes part, or assists or incites another person in the commission of grave breaches of the Geneva Conventions".¹⁷³

147. The Czech Republic's Criminal Code as amended punishes "whoever in a theatre of war, on the battlefield or in places affected by military operations ... arbitrarily destroys another person's property or takes it under the pretext of military necessity".¹⁷⁴

148. Egypt's Military Criminal Code prohibits wilful destruction of property without the authorisation of an officer.¹⁷⁵

149. El Salvador's Code of Military Justice punishes any "soldier who, in time of international or civil war, burns or destroys ships, aircraft, buildings or other property, when not required by the operations of war".¹⁷⁶

150. Under El Salvador's Penal Code, "wanton destruction of cities or villages, or devastation not justified by military necessity" during an international or a civil war is a crime.¹⁷⁷

151. Under Estonia's Penal Code, "a person belonging to the armed forces or participating in acts of war who destroys or illegally appropriates property on a large scale in a war zone or an occupied territory, whereas such act is not required by military necessity," commits a war crime.¹⁷⁸

152. Under Ethiopia's Penal Code, it is a war crime to organise, order or engage, in time of war, armed conflict or occupation, in "the confiscation of estates, the destruction or appropriation of property" of the civilian population, in violation of the rules of IHL.¹⁷⁹

153. Gambia's Armed Forces Act punishes "every person subject to this Act who . . . without orders from his superior officer, improperly destroys or damages any property".¹⁸⁰

154. Under Georgia's Criminal Code, "extensive destruction or appropriation of property, not justified by military necessity and carried out wantonly," in an international or non-international armed conflict is a crime.¹⁸¹ Furthermore, under the Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, such as "destroying or seizing the enemy's property unless such destruction or seizure be imperatively demanded by the necessities of war" in international or non-international armed conflicts, is also a crime.¹⁸²

155. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict, "unless this is imperatively demanded by the necessities of the armed conflict, . . . extensively destroys, appropriates or seizes property of the adverse party contrary to international law, such property being in the hands of the perpetrator's party".¹⁸³

156. Ghana's Armed Forces Act punishes "every person subject to the Code of Service Discipline who . . . without orders from his superior officer, improperly destroys or damages any property".¹⁸⁴

157. India's Geneva Conventions Act provides that "if any person within or without India commits or attempts to commit, or abets or procures the commission by any other person of, a grave breach of any of the [Geneva] Conventions he shall be punished".¹⁸⁵

158. Iraq's Military Penal Code punishes "every person who, while unnecessitated by war, damages or destroys movable or immovable property, cuts down trees, destroys agricultural crops, or orders to commit such acts".¹⁸⁶

159. Ireland's Geneva Conventions Act as amended provides that grave breaches of the Geneva Conventions are punishable offences.¹⁸⁷ It adds that any "minor breach" of the Geneva Conventions, including violations of Article 53 GC IV, is also a punishable offence.¹⁸⁸

160. Israel's Nazis and Nazi Collaborators (Punishment) Law punishes persons who have committed war crimes, including "wanton destruction of cities, towns or villages . . . and devastation not justified by military necessity".¹⁸⁹

161. Under Italy's Law of War Decree, it is prohibited "to destroy or seize enemy property, unless it is imperatively demanded by the necessities of war".¹⁹⁰

162. Italy's Wartime Military Penal Code punishes "anyone who, in enemy territory, without being constrained by the necessity of military operations, sets fire to a house, an edifice, or through any other means destroys them".¹⁹¹

163. Jordan's Military Criminal Code punishes "any member [of the armed forces] . . . who intentionally destroys or damages any property without having received the order of his superior officer to do so".¹⁹²

164. Under Jordan's Draft Military Criminal Code, "the destruction or seizure of property, not justified by military necessity and executed in an unlawful and wanton manner", in time of armed conflict is a war crime.¹⁹³

165. Kenya's Geneva Conventions Act punishes "any person, whatever his nationality, who, whether within or outside Kenya commits, or aids, abets or procures the commission by any other person of any grave breach of any of the [Geneva] Conventions".¹⁹⁴

166. Under Latvia's Criminal Code, "the unjustified destruction of cities and other entities" is a war crime.¹⁹⁵

167. Under the Draft Amendments to the Code of Military Justice of Lebanon, "extensive destruction or appropriation of property not justified by military necessity [and carried out] unlawfully and wantonly" constitutes a war crime.¹⁹⁶

²⁴⁶ US, *Regulations Governing the Trials of Accused War Criminals in the Pacific Region I* (1945), Regulation 5.

- 213.** The US Regulations Governing the Trials of Accused War Criminals in the Pacific Region II established military commissions which had jurisdiction over offences such as “wanton destruction of cities, towns or villages; or devastation not justified by military necessity”.²⁴⁷
- 214.** Under the US War Crimes Act as amended, grave breaches of the Geneva Conventions, as well as violations of Article 23(g) of the 1907 HR, are war crimes.²⁴⁸
- 215.** Uzbekistan’s Criminal Code punishes “the meaningless destruction of towns and inhabited places”.²⁴⁹
- 216.** Vanuatu’s Geneva Conventions Act provides that “any grave breach of the Geneva Conventions that would, if committed in Vanuatu, be an offence under any provision of the Penal Code Act Cap. 135 or any other law shall be an offence under such provision of the Penal Code or any other law if committed outside Vanuatu”.²⁵⁰
- 217.** Venezuela’s Code of Military Justice as amended punishes soldiers who “failing the obedience they owe to their superiors, burn or destroy buildings or other property”.²⁵¹
- 218.** Vietnam’s Penal Code punishes “anyone who exceeds the limits of military necessity in performing a mission and thereby causes serious damage to property of the State, of social organisations or of citizens”.²⁵²
- 219.** Under the Penal Code as amended of the SFRY (FRY), “property confiscation, . . . extensive unlawful and wanton destruction and appropriation of property not justified by military necessity” are war crimes.²⁵³
- 220.** Zimbabwe’s Geneva Conventions Act as amended punishes “any person, whatever his nationality, who, whether in or outside Zimbabwe, commits any such grave breach of [any of the Geneva] Conventions”.²⁵⁴

National Case-law

- 221.** In the *Holstein case* before a French Military Tribunal in 1947, some of the accused, members of various German units, were found guilty of war crimes for having destroyed by arson inhabited buildings. The Tribunal found that there was no necessity to set the houses on fire, as required by Article 23(g) of the 1907 HR. The acts of arson committed were thus not justified by the laws and customs of war.²⁵⁵

²⁴⁷ US, *Regulations Governing the Trials of Accused War Criminals in the Pacific Region II* (1945), Regulation 2(b).

²⁴⁸ US, *War Crimes Act as amended* (1996), § 2441(c)(1) and (2).

²⁵⁴ Zimbabwe, *Geneva Conventions Act as amended* (1981), Section 3(1).

²⁵⁵ France, Permanent Military Tribunal at Dijon, *Holstein case*, Judgement, 3 February 1947.

222. In the *General Devastation case* before a German court in 1947, a German officer who gave the order that on the approach of the Soviet army any valuable machinery in mills appropriated by Germany in occupied territories was to be destroyed was found guilty of a war crime when one of the factories in question was destroyed by fire. The court stated that "his conduct may be regarded as a war crime in the meaning of Article II(I)(b) of [the 1945 Allied] Control Council Law No. 10. In that paragraph acts of devastation which are not justified by military necessity, are described as war crimes."²⁵⁶

223. In the *Al-Nawar case* before Israel's High Court in 1985, Judge Shamgar held that Article 23(g) of the 1907 HR "does not accord protection to property used for hostile purposes. Such property enjoys protection from arbitrary destruction, but it is still subject to the enemy's right of appropriation as booty."²⁵⁷

224. In its judgement in the *Wingten case* in 1949, the Special Court of Cassation of the Netherlands found the accused, a member of the German security forces in occupied Netherlands, guilty of the war crime of "devastation not justified by military necessity" as contained in Article 6(b) of the 1945 IMT Charter, for the arson of several houses near Amsterdam.²⁵⁸

225. In the *List (Hostages Trial) case* before the US Military Tribunal at Nuremberg in 1948, the accused, high-ranking officers in the German army, were charged with war crimes, *inter alia*, for wanton destruction of cities, towns and villages and other acts of devastation for which there was no military necessity. In its judgement, the Tribunal stated that:

Military necessity has been invoked by the defendants as justifying . . . the destruction of villages and towns in the occupied territory. Military necessity permits a belligerent, subject to the laws of war, to apply any amount and kind of force to compel the complete submission of the enemy with the least possible expenditure of time, life and money. In general, it sanctions measures by an occupant necessary to protect the safety of his forces and to facilitate the success of his operations . . . The destruction of property to be lawful must be imperatively demanded by the necessities of war. Destruction as an end in itself is a violation of International Law. There must be some reasonable connection between the destruction of property and the overcoming of the enemy forces. It is lawful to destroy railways, lines of communication or any other property that might be utilised by the enemy. Private homes and churches even may be destroyed if necessary for military operations. It does not admit of wanton devastation of a district or the wilful infliction of suffering upon its inhabitants for the sake of suffering alone.

With regard to the destruction ordered by one of the accused, the Tribunal held that:

There is evidence in the record that there was no military necessity for this destruction and devastation. An examination of the facts in retrospect can well sustain this

²⁵⁶ Germany, Oberlandsgericht of Dresden, *General Devastation case*, Judgement, 21 March 1947. (Although it appeared that the fire in the factory was accidental, the accused was found guilty of aiding and abetting the factory's destruction.)

²⁵⁷ Israel, High Court, *Al-Nawar case*, Judgement, 11 August 1985.

²⁵⁸ Netherlands, Special Court of Cassation, *Wingten case*, Judgement, 6 July 1949.

conclusion. But we are obliged to judge the situation as it appeared to the defendant at the time. If the facts were such as would justify the action by the exercise of judgement, after giving consideration to all factors and existing possibilities, even though the conclusion reached may have been faulty, it cannot be said to be criminal. After giving careful consideration to all the evidence on the subject, we are convinced that the defendant cannot be held criminally responsible although when viewed in retrospect, the danger did not actually exist.

...

The Hague Regulations prohibited "The destruction or seizure of enemy property except in cases where this destruction or seizure is urgently required by the necessities of war." . . . The Hague Regulations are mandatory provisions of International Law. The prohibitions therein contained control and are superior to military necessities of the most urgent nature except where the Regulations themselves specifically provide the contrary. The destruction of public and private property by retreating military forces which would give aid and comfort to the enemy, may constitute a situation coming within the exceptions contained in Article 23(g). We are not called upon to determine whether urgent military necessity for the devastation and destruction in the province of Finnmark actually existed. We are concerned with the question whether the defendant at the time of its occurrence acted within the limits of honest judgment on the basis of the conditions prevailing at the time. The course of a military operation by the enemy is loaded with uncertainties, such as the numerical strength of the enemy, the quality of his equipment, his fighting spirit, the efficiency and daring of his commanders, and the uncertainty of his intentions. These things when considered with his own military situation provided the facts or want thereof which furnished the basis for the defendant's decision to carry out the "scorched earth" policy in Finnmark as a precautionary measure against an attack by superior forces. It is our considered opinion that the conditions as they appeared to the defendant at the time were sufficient, upon which he could honestly conclude that urgent military necessity warranted the decision made. This being true, the defendant may have erred in the exercise of his judgment but he was guilty of no criminal act. We find the defendant not guilty on this portion of the charge.²⁵⁹

226. In the *Von Leeb (The High Command Trial)* case before the US Military Tribunal at Nuremberg in 1948, the accused, former high-ranking officers in the German army and navy, were charged, *inter alia*, with war crimes and crimes against humanity against civilians in that they participated in atrocities such as wanton destruction of cities, towns and villages and devastation not justified by military necessity. The Tribunal stated that "most of the prohibitions of both the Hague and Geneva Conventions, considered in substance, are clearly an expression of the accepted views of civilized nations". The Tribunal found that:

The devastation prohibited by the [1907 HR] and the usages of war is that not warranted by military necessity. This rule is clear enough but the factual determination as to what constitutes military necessity is difficult. Defendants in this case were in many instances in retreat under arduous conditions wherein their commands were in serious danger of being cut off. Under such circumstances, a commander must

²⁵⁹ US, Military Tribunal at Nuremberg, *List (Hostages Trial) case*, Judgement, 19 February 1948.

necessarily make quick decisions to meet the particular situation of his command. A great deal of latitude must be accorded to him under such circumstances. What constitutes devastation beyond military necessity in these situations requires detailed proof of an operational and tactical nature. We do not feel that in this case the proof is ample to establish the guilt of any defendant herein on this charge.²⁶⁰

Other National Practice

227. According to the Report on the Practice of China, in the context of the Sino-Japanese War (1937–1945), the Chinese population suffered greatly from the Japanese policy of devastation. The Japanese armed forces “destroyed the materials . . . , set houses on fire, destroyed the farming facilities, took away [livestock], burned the grain and damaged green crops in the fields”.²⁶¹

228. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt restated the prohibition contained in Article 23(g) of the 1907 HR “to destroy . . . the enemy’s property, unless such destruction . . . be imperatively demanded by the necessities of war”.²⁶²

229. According to the Report on the Practice of Iran, on several occasions during the Iran–Iraq War, Iran denounced the devastation of cities and residential areas as a war crime, notably in 1985 at the Disarmament Conference, as well as in various diplomatic correspondence.²⁶³

230. In a memorandum entitled “International Law Providing Protection to the Environment in Times of Armed Conflict” submitted to the Sixth Committee of the UN General Assembly in 1992 prior to the adoption of Resolution 47/37, Jordan and the US stated, *inter alia*, that “it is a grave breach of international humanitarian law, and is a war crime, as set out in article 147 of the Fourth Geneva Convention of 1949, to extensively destroy and appropriate property when not justified by military necessity and carried out unlawfully and wantonly”.²⁶⁴

231. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

On their departure, Iraqi forces set off previously placed explosive charges on Kuwait’s oil wells, a vengeful act of wanton destruction . . .

As a general principle, the law of war prohibits the intentional destruction of civilian objects not imperatively required by military necessity.

. . .

Specific Iraqi war crimes include: . . .

²⁶⁴ Jordan and US, *International Law Providing Protection to the Environment in Times of Armed Conflict*, annexed to Letter dated 28 September 1992 to the Chairman of the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/47/3, 28 September 1992, § 1(e).

- Unnecessary destruction of Kuwaiti private and public property, in violation of Article 23(g), [1907 HR]...
- In its indiscriminate Scud missile attacks, unnecessary destruction of Saudi Arabian and Israeli property, in violation of Article 23(g) [1907 HR].
- In its intentional release of oil into the Persian Gulf and its sabotage of the Al-Burqan and Ar-Rumaylah oil fields in Kuwait, unnecessary destruction in violation of Articles 23(g) ... [1907 HR and] 53 and 147, GC [IV].²⁶⁵

232. In 1992, in a report submitted pursuant to paragraph 5 of UN Security Council Resolution 771 (1992) on grave breaches of GC IV committed in the former Yugoslavia, the US mentioned several acts of wanton devastation and destruction of property.²⁶⁶

III. Practice of International Organisations and Conferences

United Nations

233. No practice was found.

Other International Organisations

234. No practice was found.

International Conferences

235. The Plan of Action for the years 2000–2003 adopted in 1999 by the 27th international Conference of the Red Cross and Red Crescent proposed that all the parties to an armed conflict take effective measures to ensure that “strict orders are given to prevent all serious violations of international humanitarian law, including ... wanton property destruction ... and threats to carry out such actions”.²⁶⁷

IV. Practice of International Judicial and Quasi-judicial Bodies

236. In the *Nikolić case* before the ICTY in 1994, the accused was charged with grave breaches of the Geneva Conventions for having participated, “during a period of armed conflict or occupation, in the extensive appropriation of property not justified by military necessity and carried out unlawfully and wantonly, including but not limited to private property of persons detained at Sušica Camp”.²⁶⁸ In the review of the indictment in 1995, the ICTY held that there were “reasonable grounds for believing that the appropriations were

²⁶⁵ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, Appendix O, The Role of the Law of War, 10 April 1992, *ILM*, Vol. 31, 1992, pp. 620, 622, 634 and 635, see also p. 633.

²⁶⁷ 27th International Conference of the Red Cross and Red Crescent, Geneva, 31 October–6 November 1999, Res. I, Annex 2, Plan of Action for the years 2000–2003, Actions proposed for final goal 1.1, § 1(b).

²⁶⁸ ICTY, *Nikolić case*, Initial Indictment, 4 November 1994, § 21.1.

not justified by military necessity and were carried out unlawfully and wantonly". It further considered that the acts could also be regarded as characterising persecution on religious grounds. The Tribunal considered the conflict was international and that the victims were persons protected under the Geneva Conventions.²⁶⁹

237. In the *Karadžić and Mladić case* before the ICTY in 1995, the accused were charged, based on their responsibility as commanders, with grave breaches of the Geneva Conventions, for having "individually and in concert with others planned, instigated, ordered or otherwise aided and abetted in the planning, preparation or execution of the extensive, wanton and unlawful destruction of Bosnian Muslim and Bosnian Croat property, not justified by military necessity". The indictment added that "the purpose of this unlawful destruction was to ensure that the inhabitants could not and would not return to their homes and communities". The accused were also charged with grave breaches of the Geneva Conventions because Bosnian Serb military and police personnel, as well as other agents of the Bosnian Serb administration, under their direction had allegedly "systematically and wantonly appropriated and looted the real and personal property of Bosnian Muslim and Bosnian Croat civilians. The appropriation of property was extensive and not justified by military necessity." Both counts constituted violations of Article 2(d) of the 1993 ICTY Statute.²⁷⁰ In the review of the indictments in 1996, the ICTY considered that the conflict was international and that the victims were protected by the Geneva Conventions and confirmed the counts of the indictments. The facts were described as follows:

In the cities and villages of Bosnia and Herzegovina which had come under their command, the Bosnian Serb military personnel and police, along with other agents of the Bosnian Serb administration, committed various sorts of arbitrary large-scale appropriation of real and moveable property belonging to Bosnian Muslim and Bosnian Croat civilians. Prior to their forced transfer, many detainees in the internment camps were forced to sign official Bosnian Serb documents by which they "voluntarily" gave up their titles of ownership and their possessions to the Bosnian Serb administration . . .

Elsewhere, in order to rule out any possibility of return by the dispossessed, Bosnian forces systematically destroyed buildings.²⁷¹

238. In the *Rajić case* before the ICTY in 1995, the accused was charged with grave breaches of the Geneva Conventions for the extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly, as recognised by Article 2(d) of the 1993 ICTY Statute, and of violations of the laws and customs of war for the wanton destruction of a village not justified by military necessity, as recognised by Article 3(b) of the

Statute.²⁷² In the review of the indictment in 1996, the ICTY Trial Chamber stated that it was satisfied that there were grounds to confirm all counts of the indictment.²⁷³

239. In the *Blaškić case* before the ICTY in 1997, the accused was charged with violations of the laws and customs of war (devastation not justified by military necessity), for “wanton destruction not justified by military necessity in . . . cities, towns and villages”, in violation of Article 3(b) of the 1993 ICTY Statute. He was also charged with grave breaches of the Geneva Conventions (extensive destruction of property), for having, in violation of Article 2(d) of the Statute, “planned, instigated, ordered or otherwise aided and abetted in the planning, preparation or execution of the wanton and extensive destruction, devastation . . . of Bosnian Muslim dwellings, buildings, businesses, civilian personal property and livestock”.²⁷⁴ The accused was found guilty on both counts.²⁷⁵ In its judgement in 2000, the ICTY stated, in relation to these counts of the indictment, that:

An Occupying Power is prohibited from destroying movable and non-movable property except where such destruction is made absolutely necessary by military operations. To constitute a grave breach, the destruction unjustified by military necessity must be extensive, unlawful and wanton. The notion of “extensive” is evaluated according to the facts of the case – a single act, such as the destruction of a hospital, may suffice to characterise an offence under this count.

...

Similar to the grave breach constituting part of Article 2(d) of the Statute, the devastation of property is prohibited except where it may be justified by military necessity. So as to be punishable, the devastation must have been perpetrated intentionally or have been the foreseeable consequence of the acts of the accused.²⁷⁶

240. In the *Kordić and Čerkez case* before the ICTY in 1998, the accused were charged with grave breaches of the Geneva Conventions (extensive destruction of property), in violation of Article 2(d) of the 1993 ICTY Statute, as well as violations of the laws or customs of war (wanton destruction not justified by military necessity), in violation of Article 3(b) of the Statute, for having “caused, planned, instigated, ordered or committed, or aided and abetted the planning, preparation or execution of, the unlawful, wanton and extensive destruction [and] devastation . . . of Bosnian Muslim dwellings, buildings, businesses, civilian personal property and livestock, which was not justified by military necessity”.²⁷⁷ In its judgement in 2001, the ICTY held that:

²⁷² ICTY, *Rajić case*, Initial Indictment, 23 August 1995, §§ 12 and 13.

²⁷⁴ ICTY, *Blaškić case*, Second Amended Indictment, 25 April 1997, §§ 8 and 10.

²⁷⁵ ICTY, *Blaškić case*, Judgement, 3 March 2000, Part VI (Disposition).

²⁷⁶ ICTY, *Blaškić case*, Judgement, 3 March 2000, §§ 157 and 183.

²⁷⁷ ICTY, *Kordić and Čerkez case*, First Amended Indictment, 30 September 1998, §§ 55 and 56, see also §§ 34, 37 and 39 (count of persecution as a crime against humanity, *inter alia*, through wanton and extensive destruction of Bosnian Muslim civilian property, with no military justification); see also *Kordić and Čerkez case*, Initial Indictment, 10 November 1995, § 32 (count of persecution as a crime against humanity, *inter alia*, through system-

The crime of extensive destruction of property as a grave breach comprises the following elements, either:

- (i) Where the property destroyed is of a type accorded general protection under the Geneva Conventions of 1949, regardless of whether or not it is situated in occupied territory; and the perpetrator acted with the intent to destroy the property in question or in reckless disregard of the likelihood of its destruction; or
- (ii) Where the property destroyed is accorded protection under the Geneva Conventions, on account of its location in occupied territory; and the destruction occurs on a large scale; and
- (iii) the destruction is not justified by military necessity; and the perpetrator acted with the intent to destroy the property in question or in reckless disregard of the likelihood of its destruction.²⁷⁸

When considering wanton destruction not justified by military necessity, the Tribunal held that it “has already been criminalised under customary international law”.²⁷⁹ The Tribunal also stated that:

While property situated on enemy territory is not protected under the Geneva Conventions, and is therefore not included in the crime of extensive destruction of property listed as a grave breach of the Geneva Conventions, the destruction of such property is criminalised under Article 3 of the [ICTY] Statute.²⁸⁰

Both accused were found guilty, *inter alia*, of violations of the laws and customs of war, as recognised by Article 3(b) (wanton destruction not justified by military necessity) of the ICTY Statute, but not guilty of extensive destruction of property not justified by military necessity, as recognised by Article 2(d) of the Statute.²⁸¹

V. Practice of the International Red Cross and Crescent Movement

241. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that destruction and seizure of property “without military necessity” are prohibited.²⁸² Delegates also teach that “when not justified by military necessity and carried out unlawfully and wantonly, . . . extensive destruction of property [and] extensive appropriation of property” constitute grave breaches of the law of war.²⁸³

242. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC

atic and wanton destruction of Bosnian Muslim homes, personal property, livestock and businesses of Bosnian Muslims) and § 38 (counts of extensive destruction of property and wanton devastation not justified by military necessity).

included “extensive destruction and appropriation of property, not justified by military necessity and carried out unlawfully and wantonly”, when committed in an international armed conflict, in its list of war crimes to be subject to the jurisdiction of the Court.²⁸⁴

VI. Other Practice

243. No practice was found.

C. Public and Private Property in Occupied Territory

Movable public property in occupied territory

I. Treaties and Other Instruments

Treaties

244. Article 53 of the 1899 HR provides that “an army of occupation can only take possession of the cash, funds, and property liable to requisition belonging strictly to the State, depots of arms, means of transport, stores and supplies, and, generally, movable property of the State which may be used for military operations”.

245. Article 53 of the 1907 HR provides that “an army of occupation can only take possession of cash, funds, and realizable securities which are strictly the property of the State, depots of arms, means of transport, stores and supplies, and, generally, all movable property belonging to the State which may be used for military operations”.

Other Instruments

246. Article 31 of the 1863 Lieber Code provides that “a victorious army appropriates all public money, seizes all public movable property until further direction by its government”.

247. Article 6 of the 1874 Brussels Declaration provides that:

An army of occupation can only take possession of cash, funds, and realizable securities which are strictly the property of the State, depots of arms, means of transport, stores and supplies, and generally, all movable property belonging to the State which may be used for the operations of the war.

248. The 1880 Oxford Manual provides that:

Although the occupant replaces the enemy State in the government of the invaded territory, his power is not absolute. So long as the fate of this territory remains in suspense – that is, until peace – the occupant is not free to dispose of what still

²⁸⁴ ICRC, Working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, New York, 14 February 1997, § 1(a)(viii).

belongs to the enemy and is not of use in military operation. Hence the following rules:

Art. 50. The occupant can only take possession of cash, funds and realizable or negotiable securities which are strictly the property of the State, depots of arms, supplies, and, in general, movable property of the State of such character as to be useful in military operations.

Art. 51. Means of transportation (railways, boats, & c.), as well as land telegraphs and landing-cables, can only be appropriated to the use of the occupant. Their destruction is forbidden, unless it be demanded by military necessity. They are restored when peace is made in the condition in which they then are.

249. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including "confiscation of property".

250. The 1943 Inter-Allied Declaration against Acts of Dispossession provides that "it is important to leave no doubt whatsoever of their [the authors of the Declaration] resolution not to accept or tolerate the misdeeds of their enemies in the field of property, however these may be cloaked".

II. National Practice

Military Manuals

251. Argentina's Law of War Manual provides that "an army of occupation can only take possession of cash, funds, and realizable securities which are the property of the State, depots of arms, means of transport, stores and supplies, and, generally, all movable property belonging to the State which may be used for military operations".²⁸⁵

252. Australia's Defence Force Manual states that, in occupied areas, "confiscation is the taking of enemy public movable property without the obligation to compensate the state to which it belongs. All enemy public movable property which may be useable for the operations of war may be confiscated."²⁸⁶

253. Canada's LOAC Manual states that "confiscation is the taking of enemy public movable property without the obligation to compensate the state to which it belongs. All enemy public movable property which may be usable for military operations may be confiscated."²⁸⁷

254. France's LOAC Manual incorporates the content of Article 53 of the 1907 HR.²⁸⁸

255. Germany's Military Manual provides that:

Movable government property which may be used for military purposes shall become spoils of war . . . Upon seizure it shall, without any compensation, become

²⁸⁵ Argentina, *Law of War Manual* (1969), § 5.014(2).

²⁸⁶ Australia, *Defence Force Manual* (1994), § 1225.

²⁸⁷ Canada, *LOAC Manual* (1999), p. 12-8, § 69.

²⁸⁸ France, *LOAC Manual* (2001), pp. 35-36.

the property of the occupying State. Such property includes, for instance, means of transport, weapons, and food supplies . . . The latter shall not be requisitioned unless the requirements of the civilian population have been taken into account . . . The requirements of the civilian population shall be satisfied first.²⁸⁹

256. Italy's IHL Manual states that, in occupied territory, "cash, funds, realisable securities, depots of arms, means of transportation, stores and in general all movable property belonging to the enemy public administration become the property of the occupying State".²⁹⁰

257. New Zealand's Military Manual provides that, in occupied territory, "confiscation is the taking of enemy public movable property without the obligation to compensate the State to which it belongs. All enemy public movable property which may be usable for the operations of war may be confiscated."²⁹¹

258. Nigeria's Manual on the Laws of War states that:

Movable property in an occupied territory belonging to the enemy state may be seized only if it is useful to the conduct of war. Vehicles, signal equipment, weapons and other equipment required for immediate military use may also be seized . . .

...

All movable property, belonging to the enemy state, seized in the battlefield, becomes property of the opposing belligerent. The rules relating to the seizure of private movable property in occupied territories are also applicable to such property seized in the battlefield.²⁹²

259. The Joint Circular on Adherence to IHL and Human Rights of the Philippines provides that "members of the AFP and PNP shall inhibit themselves from unnecessary military/police actions that could cause destruction to . . . public properties".²⁹³

260. Switzerland's Basic Military Manual provides that, in occupied territory, "property belonging to the State or public authorities, to social or cooperative organisations, shall not be destroyed, except where such destruction is rendered absolutely necessary by military operations".²⁹⁴

261. The UK Military Manual states, regarding public property, that:

The occupation army is only allowed to seize cash funds and negotiable securities which are strictly State property, stores of arms, means of transport, stores of supplies, and generally, all movable property of the State which can be used for military operations.

...

Other movable public property, not susceptible of use for military operations, as well as that belonging to the institutions mentioned above, which is to be treated as private property must be respected and cannot be appropriated, for instance,

²⁸⁹ Germany, *Military Manual* (1992), § 556.

²⁹⁰ Italy, *IHL Manual* (1991), Vol. I, § 42, see also § 49(9).

²⁹¹ New Zealand, *Military Manual* (1992), § 1336.

²⁹⁴ Switzerland, *Basic Military Manual* (1987), Article 169.

crown jewels, pictures, collections of works of art, and archives. However, papers connected with the war may be seized, even when forming part of archives.

...

Where there is any doubt whether the property found in the possession of the enemy is public or private, as may frequently occur in the case of bank deposits, stores and supplies obtained from contractors, it should be considered to be public property unless and until its private character is clearly shown.²⁹⁵

262. The US Field Manual provides in the case of occupied territory that:

Valid capture or seizure of property requires both an intent to take such action and a physical act of capture or seizure. The mere presence within occupied territory of property which is subject to appropriation under international law does not operate to vest title thereto in the occupant.

...

An army of occupation can only take possession of cash, funds, and realizable securities which are strictly the property of the State, depots of arms, means of transport, stores and supplies, and, generally, all movable property belonging to the State which may be used for operations of war.

All appliances, whether on land, at sea, or in the air, adapted for the transmission of news, or for the transport of persons or things, exclusive of cases governed by naval laws, depots of arms, and, generally, all kinds of ammunition of war, may be seized, even if they belong to private individuals, but must be restored and compensation fixed when peace is made.

...

All movable property belonging to the State susceptible of military use may be taken possession of and utilized for the benefit of the occupant's government. Under modern conditions of warfare, a large proportion of State property may be regarded as capable of being used for military purposes. However, movable property which is *not* susceptible of military use must be respected and cannot be appropriated.²⁹⁶ [emphasis in original]

National Legislation

263. Colombia's Military Penal Code provides for a prison sentence for "anyone who during military service and without proper cause, destroys... public property".²⁹⁷

264. Italy's Law of War Decree states that, in occupied territory, "cash, funds, realisable securities, depots of arms, means of transportation, stores and in general all movable property belonging to the enemy public administration, which may be used for war operations, become the property of the [occupying] State".²⁹⁸ Regarding property in enemy territory, the Decree provides that "arms, ammunition, foodstuffs and any other object belonging to the enemy State are subject to confiscation when directly usable for military purposes".²⁹⁹

²⁹⁵ UK, *Military Manual* (1958), §§ 612–614.

²⁹⁶ US, *Field Manual* (1956), §§ 395, 403 and 404.

²⁹⁷ Colombia, *Military Penal Code* (1999), Article 174.

²⁹⁸ Italy, *Law of War Decree* (1938), Article 60.

²⁹⁹ Italy, *Law of War Decree* (1938), Article 292.

265. The Articles of War of the Philippines states that:

All public property taken from the enemy is the property of the Government of the Philippines and shall be secured for the service thereof, and any person subject to military law who neglects to secure such property or is guilty of wrongful appropriation thereof shall be punished as a court-martial may direct.³⁰⁰

266. Under the US Uniform Code of Military Justice, members of the armed forces “shall secure all public property taken from the enemy for the service of the United States, and shall give notice and turn over to the proper authority without delay all captured or abandoned property in their possession, custody or control”.³⁰¹

267. The Criminal Offences against the Nation and State Act of the SFRY (FRY) considers that, during war or enemy occupation, “any person who . . . ordered or committed arson, destruction . . . of . . . public property [or] . . . any transport, . . . or other material, . . . or any public property” committed war crimes.³⁰²

National Case-law

268. In the *Flick case* before the US Military Tribunal at Nuremberg in 1947, the accused, the principal proprietor of a large group of German industrial enterprises (and four officials of the same group), which included coal and iron mines and steel producing plants, was charged with war crimes, *inter alia*, for offences against property in the countries and territories occupied by Germany. Flick was found guilty on this count of the indictment. In its judgement, the Tribunal quoted, *inter alia*, Article 53 of the 1907 HR. It also found that:

The only exception to the public property rule that the occupying power, or its agents, is limited by the rules of usufruct is the right to “take possession of” certain types of public property under Article 53 [of the 1907 HR]. But the exception applied only with respect to certain named properties and “all moveable property belonging to the State which may be used for military operations”, and thus is not applicable to such properties as means of production.³⁰³

269. In the *Krupp case* before the US Military Tribunal at Nuremberg in 1948, the accused, officials of the Krupp industrial enterprises occupying high positions in political, financial, industrial and economic circles in Germany, were charged with war crimes, *inter alia*, for the destruction and removal of property, and the seizure of machinery, equipment, raw materials and other property. The Tribunal quoted Article 53 of the 1907 HR. It also stated that it “fully concurs with the Judgement of the I.M.T. that the [1907 Hague Convention (IV)], to which Germany was a party, had by 1939 become customary law and

³⁰⁰ Philippines, *Articles of War* (1938), Article 80.

³⁰¹ US, *Uniform Code of Military Justice* (1950), Article 103(a).

³⁰² SFRY (FRY), *Criminal Offences against the Nation and State Act* (1945), Article 3(3) and (13).

³⁰³ US, Military Tribunal at Nuremberg, *Flick case*, Judgement, 22 December 1947.

was, therefore, binding on Germany not only as Treaty Law but also as Customary".³⁰⁴

270. In the *Krauch (I. G. Farben Trial)* case before the US Military Tribunal at Nuremberg in 1948, the accused, officials of I.G. Farben Industrie A.G., were charged, *inter alia*, with war crimes for offences against property in countries and territories which came under the belligerent occupation of Germany. The charges were regarded as violations of, *inter alia*, Article 53 of the 1907 HR. Some of the accused were convicted on this count. The Tribunal held that:

The foregoing provisions of the Hague Regulations are broadly aimed at preserving the inviolability of property rights to both public and private property during military occupancy. They admit of exceptions of expropriation, use, and requisition, all of which are subject to well-defined limitations set forth in the articles.

...

The payment of a price or other adequate consideration does not, under such circumstances, relieve the act of its unlawful character. Similarly where a private individual or a juristic person becomes a party to unlawful confiscation of public... property by planning and executing a well-defined design to acquire such property permanently, acquisition under such circumstances subsequent to confiscation constitutes conduct in violation of the Hague Regulations.

...

[I]t is illustrative of the view that offences against property of the character described in the [1943 Inter-Allied Declaration against Acts of Dispossession] were considered by the signatory powers to constitute action in violation of existing international law.³⁰⁵

271. In the *Von Leeb (The High Command Trial)* case before the US Military Tribunal at Nuremberg in 1948, the accused, former high-ranking officers in the German army and navy, were charged, *inter alia*, with war crimes and crimes against humanity against civilians in that they participated in atrocities such as wanton destruction of cities, towns and villages and devastation not justified by military necessity. The Tribunal stated that "most of the prohibitions of both the Hague and Geneva Conventions, considered in substance, are clearly an expression of the accepted views of civilized nations". It notably mentioned Article 53 of the 1907 HR.³⁰⁶

Other National Practice

272. On the basis of the reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq states that strict measures should be taken to protect cities that fall under the control of armed forces, including measures to protect and ensure the safety of public property.³⁰⁷

³⁰⁴ US, Military Tribunal at Nuremberg, *Krupp case*, Judgement, 30 June 1948.

³⁰⁵ US, Military Tribunal in Nuremberg, *Krauch (I. G. Farben Trial) case*, Judgement, 29 July 1948.

³⁰⁷ Report on the Practice of Iraq, 1998, Reply by the Ministry of Defence to a questionnaire, July 1997, Chapter 2.3.

273. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

In violation of [the 1907 HR]...public (municipal and national) property was confiscated... (Confiscation of private property is prohibited under any circumstance, as is the confiscation of municipal public property. Confiscation of movable national public property is prohibited without military need and cash compensation...).³⁰⁸

III. Practice of International Organisations and Conferences

United Nations

274. In 1996, in a report on the situation of human rights in Somalia, the Independent Expert of the UN Commission on Human Rights described, in a section entitled "Civil war and violations of human rights", the practices of the different Somali factions, including the fact that the winning faction would engage in destruction of public property.³⁰⁹

Other International Organisations

275. In the Final Communiqué of its 36th Session in 1990, the GCC Ministerial Council emphasised that "public... establishments and property must be safeguarded in accordance with the noble stipulations of Islamic law". It insisted that "the Iraqi authorities must ensure the protection of all public... establishments and all movable... property in the State of Kuwait".³¹⁰

276. In the Final Communiqué of its 11th Session in 1990, the GCC Supreme Council demanded that "the Iraqi régime... must safeguard... public installations and property in accordance with Islamic law, the provisions of the 1949 Geneva Convention relative to the Protection of Civilian Persons in Time of War and the international humanitarian covenants and conventions".³¹¹

277. In a resolution adopted in 1990, the Council of the League of Arab States, with reference to Islamic law, GC IV, the 1948 UDHR and international covenants and conventions relating to the protection of human rights, decided "to insist that the Iraqi authorities must ensure the protection of all public... establishments and all movable... property in the State of Kuwait,

Immovable public property in occupied territory

I. Treaties and Other Instruments

Treaties

282. Article 55 of the 1899 HR provides that:

The occupying State shall only be regarded as administrator and usufructuary of the public buildings, real property, forests and agricultural works belonging to the hostile State, and situated in the occupied country. It must protect the capital of these properties, and administer it according to the rules of usufruct.

283. Article 55 of the 1907 HR provides that:

The occupying State shall be regarded only as administrator and usufructuary of public buildings, real estate, forests, and agricultural estates belonging to the hostile State, and situated in the occupied territory. It must safeguard the capital of these properties, and administer them in accordance with the rules of usufruct.

Other Instruments

284. Article 31 of the 1863 Lieber Code provides that "a victorious army . . . sequesters for its own benefit or of that of its government all the revenues of real property belonging to the hostile government or nation. The title

³¹² League of Arab States, Council, Res. 5038, 31 August 1990, annexed to Letter dated 31 August 1990 from Qatar to the UN Secretary-General, UN Doc. S/21693, 31 August 1990, p. 4. (Libya opposed the resolution and Algeria, Iraq, Jordan, Mauritania, Palestine, Sudan, Tunisia and Yemen did not participate in the work of the session.)

to such real property remains in abeyance during military occupation, and until the conquest is made complete.”

285. Article 7 of the 1874 Brussels Declaration provides that:

The occupying State shall be regarded only as administrator and usufructuary of public buildings, real estate, forests, and agricultural estates belonging to the hostile State, and situated in the occupied territory. It must safeguard the capital of these properties, and administer them in accordance with the rules of usufruct.

286. The 1880 Oxford Manual provides that:

Although the occupant replaces the enemy State in the government of the invaded territory, his power is not absolute. So long as the fate of this territory remains in suspense – that is, until peace – the occupant is not free to dispose of what still belongs to the enemy and is not of use in military operation. Hence the following rules:

...

Art. 52. The occupant can only act in the capacity of provisional administrator in respect to real property, such as buildings, forests, agricultural establishments, belonging to the enemy State (Article 6). It must safeguard the capital of these properties and see to their maintenance.

287. The 1943 Inter-Allied Declaration against Acts of Dispossession provides that “it is important to leave no doubt whatsoever of their [the authors of the Declaration] resolution not to accept or tolerate the misdeeds of their enemies in the field of property, however these may be cloaked”.

II. National Practice

Military Manuals

288. Argentina’s Law of War Manual provides that:

The occupying State shall be regarded only as administrator and usufructuary of public buildings, real estate, forests, and agricultural estates belonging to the hostile State, and situated in the occupied territory. It must safeguard the capital of these properties, and administer them in accordance with the rules of usufruct.³¹³

289. Australia’s Defence Force Manual states that, in occupied areas, “enemy public immovable property may be administered and used but it may not be confiscated”.³¹⁴

290. Canada’s LOAC Manual provides that, in occupied territory:

Enemy public immovable property may be administered and used but it may not be confiscated.

...

Real property belonging to the State which is essentially of a civil or non-military character, such as public buildings and offices, land, forests, parks, farms, and mines,

³¹³ Argentina, *Law of War Manual* (1969), § 5.014(1).

³¹⁴ Australia, *Defence Force Manual* (1994), § 1225.

may not be damaged unless their destruction is imperatively demanded by the exigencies of war. The occupant becomes the administrator of the property and is liable to use the property, but must not exercise its rights in such a wasteful or negligent way as will decrease its value. The occupant has no right of disposal or sale.

Public real property which is of an essentially military nature such as airfields and arsenals remain at the absolute disposal of the occupant.³¹⁵

291. Germany's Military Manual provides that "immovable government property may only be requisitioned but not confiscated. . . . The title to this property shall not pass to the occupying state. Upon termination of the war, the items and real estate seized shall be restored."³¹⁶

292. Italy's IHL Manual states that "all immovable property and factories located in occupied territory and belonging to the enemy public administration pass into the possession of the occupying State which, however, becomes only the administrator and usufructuary".³¹⁷

293. New Zealand's Military Manual provides that, in the case of occupied territory:

Enemy public immovable property may be administered and used but it may not be confiscated.

...

Real property belonging to the State which is essentially of a civil or non-military character, such as public buildings and offices, land, forests, parks, farms, and mines, may not be damaged unless its destruction is imperatively demanded by the exigencies of war. The Occupying Power becomes the administrator and usufructuary of the property and must not exercise its rights in such a wasteful or negligent way as will decrease the property's value. A usufructuary has no right of disposal or sale.

The Occupying Power may, however, let or utilize public land and buildings, sell the crops on public land, cut and sell timber and work the mines but he must not make a contract or lease extending beyond the conclusion of the war and the cutting or mining must not exceed what is necessary or usual. It must not constitute abusive exploitation.

Public real property which is of an essentially military nature such as airfields and arsenals remain at the absolute disposal of the Occupying Power.³¹⁸

294. Nigeria's Manual on the Laws of War provides that:

Real property of military character belonging to the enemy State, such as fortifications, dockyards, railways and bridges, remains at the absolute disposal of the occupant until the end of the war. Such property may be destroyed if absolutely necessary for military operations.

³¹⁵ Canada, *LOAC Manual* (1999), p. 12-8, § 69 and p. 12-9, §§ 80 and 81.

³¹⁶ Germany, *Military Manual* (1992), § 557.

³¹⁷ Italy, *IHL Manual* (1991), Vol. I, § 42.

³¹⁸ New Zealand, *Military Manual* (1992), §§ 1336 and 1341.

Real property of a non-military character belonging to the enemy state such as public buildings, forests, parks and mines should not be damaged or destroyed unless it is imperatively demanded by the exigencies of war.

...

The temporary use of real property for military purposes during a combat operation is justified, although such use may diminish the value of the property.³¹⁹

295. The Joint Circular on Adherence to IHL and Human Rights of the Philippines provides that “members of the AFP and PNP shall inhibit themselves from unnecessary military/police actions that could cause destruction to . . . public properties”.³²⁰

296. Switzerland’s Basic Military Manual provides that “the occupying State shall only be considered as administrator and usufructuary of public buildings, real estate, forests, and agricultural estates belonging to the enemy State, and situated in the occupied territory”.³²¹

297. The UK Military Manual provides that, once a defended locality has surrendered, “it is not permissible to burn public buildings . . . in such a place merely because it was defended”.³²² It also states that:

Real property belonging to the State which is of a military character, such as strong points, arsenals, dockyards, magazines, barracks and stores, as well as railways, canals, bridges, piers, and wharves, airfields and their installations, remains at the absolute disposal of the Occupant until the end of the war. Such buildings may, however, be damaged or destroyed only when such acts are rendered absolutely necessary by military operations . . .

Real property belonging to the State which is essentially of a civil or non-military character, such as public buildings and offices, land, forests, parks, farms, and mines, may not be damaged unless their destruction is imperatively demanded by the exigencies of war. The Occupant becomes the administrator and usufructuary of the property, but he must not exercise his rights in such a wasteful or negligent way as will decrease its value. He has no right of disposal or sale.

...

The Occupant may, however, let or utilize public land and buildings, sell the crops on public land, cut and sell timber and work the mines. But he must not make a contract or lease extending beyond the conclusion of the war, and the cutting or mining must not exceed what is necessary or usual. It must not constitute abusive exploitation.³²³

298. The US Field Manual provides that, in the case of occupied territory:

Valid capture or seizure of property requires both an intent to take such action and a physical act of capture or seizure. The mere presence within occupied territory of property which is subject to appropriation under international law does not operate to vest title thereto in the occupant.

...

³¹⁹ Nigeria, *Manual on the Laws of War* (undated), §§ 27 and 28.

³²⁰ Philippines, *Joint Circular on Adherence to IHL and Human Rights* (1991), 2a(4).

³²¹ Switzerland, *Basic Military Manual* (1987), Article 169.

³²² UK, *Military Manual* (1958), § 287. ³²³ UK, *Military Manual* (1958), §§ 608–610.

The occupying State shall be regarded only as administrator and usufructuary of public buildings, real estate, forests, and agricultural estates belonging to the hostile State, and situated in the occupied country. It must safeguard the capital of these properties, and administer them in accordance with the rules of usufruct.

...

Real property of a State which is of direct military use, such as forts, arsenals, dockyards, magazines, barracks, railways, bridges, piers, wharves, airfields, and other military facilities, remains in the hands of the occupant until the close of the war, and may be destroyed or damaged, if deemed necessary to military operations.

...

Real property of the enemy State which is essentially of a non-military nature, such as public buildings and offices, land, forests, parks, farms, and mines, may not be damaged or destroyed unless such destruction is rendered absolutely necessary by military operations... The occupant does not have the right of sale or unqualified use of such property. As administrator, or usufructuary, he should not exercise his rights in such a wasteful and negligent manner as seriously to impair its value. He may, however, lease or utilize public lands or buildings, sell the crops, cut and sell timber, and work the mines. The term of a lease or contract should not extend beyond the conclusion of the war.³²⁴

National Legislation

299. Colombia's Military Penal Code provides for a prison sentence for "anyone who, during military service and without proper cause, destroys... public property".³²⁵

300. Italy's Law of War Decree states that, in occupied territory "the [occupying] State may only be the administrator and usufructuary of immovable property and factories located in occupied territory and belonging to the enemy public administration".³²⁶

301. The Criminal Offences against the Nation and State Act of the SFRY (FRY) considers that, during war or enemy occupation, "any person who... ordered or committed arson, destruction... of... public property [or]... any... building or... any water supply system, public warehouse or any public property" committed war crimes.³²⁷

National Case-law

302. In the *Greiser case* before Poland's Supreme National Tribunal in 1946, the accused, a governor and *gauleiter* of the Nazi party for provinces incorporated in the German Reich, was charged with war crimes for having incited, assisted

³²⁴ US, *Field Manual* (1956), §§ 395 and 400–402.

³²⁵ Colombia, *Military Penal Code* (1999), Article 174.

³²⁶ Italy, *Law of War Decree* (1938), Article 59.

³²⁷ SFRY (FRY), *Criminal Offences against the Nation and State Act* (1945), Article 3(3) and (13).

in the commission of, and committed, *inter alia*, acts of illegal seizure of public property in violation of Article 55 of the 1907 HR. Notably, the accused was indicted for having taken part in "extortion and appropriation . . . of all public property in the territories in question".³²⁸

303. In the *Flick case* before the US Military Tribunal at Nuremberg in 1947, the accused, the principal proprietor of a large group of German industrial enterprises (and four officials of the same group), which included coal and iron mines and steel producing plants, was charged with war crimes, *inter alia*, for offences against property in the countries and territories occupied by Germany. Flick was found guilty on this count of the indictment. The Tribunal quoted, *inter alia*, Article 55 of the 1907 HR. With reference to the plants located in Ukraine and Latvia and regarded as State property, the Tribunal found that:

The Dnjepr Stahl plant had been used for armament production by the Russians. The other was devoted principally to production of railroad cars and equipment. No single one of the Hague Regulations . . . is exactly in point, but adopting the method used by the I.M.T., we deduce from all of them, considered as a whole, the principle that State-owned property of this character may be seized and operated for the benefit of the belligerent occupant for the duration of the occupancy. The attempt of the German Government to seize them as the property of the Reich of course was not effective. Title was not acquired nor could it be conveyed by the German Government. The occupant, however, had a usufructuary privilege. Property which the Government itself could have operated for its benefit could also legally be operated by a trustee. We regard as immaterial Flick's purpose ultimately to acquire title. To covet is a sin under the Decalogue but not a violation of the Hague Regulations nor a war crime.

...

The conclusion follows that, wherever the occupying power acts or holds itself out as owner of the public property owned by the occupied country, Article 55 [of the 1907 HR] is violated. The same applies if the occupying power or its agents who took possession of public buildings or factories or plants, assert ownership, remove equipment of machinery, and ship it to their own country, or make any other use of the property which is incompatible with usufruct.³²⁹

304. In the *Krupp case* before the US Military Tribunal at Nuremberg in 1948, the accused, officials of the Krupp industrial enterprises occupying high positions in political, financial, industrial and economic circles in Germany, were charged with war crimes, *inter alia*, for the destruction and removal of property, and the seizure of machinery, equipment, raw materials and other property. The Tribunal quoted Article 55 of the 1907 HR. It also stated that it "fully concurs with the Judgement of the I.M.T. that the [1907 Hague Convention (IV)], to which Germany was a party, had by 1939 become customary law and was,

³²⁸ Poland, Supreme National Tribunal, *Greiser case*, Judgement, 7 July 1946.

³²⁹ US, Military Tribunal at Nuremberg, *Flick case*, Judgement, 22 December 1947.

therefore, binding on Germany not only as Treaty Law but also as Customary Law".³³⁰

305. In the *Krauch (I. G. Farben Trial)* case before the US Military Tribunal at Nuremberg in 1948, the accused, officials of I.G. Farben Industrie A.G., were charged, *inter alia*, with war crimes for offences against property in countries and territories which came under the belligerent occupation of Germany. The charges were regarded as violations of, *inter alia*, Article 55 of the 1907 HR. Some of the accused were convicted on this count. The Tribunal held that:

The foregoing provisions of the Hague Regulations are broadly aimed at preserving the inviolability of property rights to both public and private property during military occupancy. They admit of exceptions of expropriation, use, and requisition, all of which are subject to well-defined limitations set forth in the articles.

...
[I]t is illustrative of the view that offences against property of the character described in the [1943 Inter-Allied Declaration against Acts of Dispossession] were considered by the signatory powers to constitute action in violation of existing international law.³³¹

Other National Practice

306. On the basis of a reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq states that strict measures should be taken to protect cities that fall under the control of armed forces, including measures to protect and ensure the safety of public property.³³²

307. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

In violation of [the 1907 HR]... public (municipal and national) property was confiscated... [I]mmovable national public property may be temporarily confiscated under the concept of usufruct – the right to use another's property so long as it is not damaged.

...
Specific Iraqi war crimes include:

- ...
 - Illegal confiscation/inadequate safeguarding of Kuwaiti public property, in violation of Article 55 [of the 1907 HR]...
 - In its intentional release of oil into the Persian Gulf and its sabotage of the Al-Burqan and Ar-Rumaylah oil fields in Kuwait, unnecessary destruction in violation of [Article] 55 [of the 1907 HR].³³³

(Libya opposed the resolution and Algeria, Iraq, Jordan, Mauritania, Palestine, Sudan, Tunisia and Yemen did not participate in the work of the session.)

VI. Other Practice

315. No practice was found.

Private property in occupied territory*I. Treaties and Other Instruments**Treaties*

316. The 1899 HR provides, in the case of occupied territories, that:

Art. 46....[P]rivate property...must be respected. Private property cannot be confiscated.

...

Art. 52. Neither requisitions in kind nor services can be demanded from communes or inhabitants except for the necessities of the army of occupation. They must be in proportion to the resources of the country, and of such a nature as not to involve the population in the obligation of taking part in military operations against their country.

These requisitions and services shall only be demanded on the authority of the commander in the locality occupied.

The contributions in kind shall, as far as possible, be paid for in ready money; if not, their receipt shall be acknowledged.

Art. 53.... Railway plant, land telegraphs, telephones, steamers and other ships, apart from cases governed by maritime law, as well as depots of arms and, generally, all kinds of munitions of war, even though belonging to companies or to private persons, are likewise material which may serve for military operations, but they must be restored at the conclusion of peace, and indemnities paid for them.

317. The 1907 HR provides, in the case of occupied territories, that:

Art. 46....[P]rivate property...must be respected. Private property cannot be confiscated.

...

Art. 52. Requisitions in kind and services shall not be demanded from municipalities or inhabitants except for the needs of the army of occupation. They shall be in proportion to the resources of the country, and of such a nature as not to involve the inhabitants in the obligation of taking part in military operations against their own country.

Such requisitions and services shall only be demanded on the authority of the commander in the locality occupied.

Contributions in kind shall as far as possible be paid for in cash; if not, a receipt shall be given and the payment of the amount due shall be made as soon as possible.

Art. 53.... All appliances, whether on land, at sea, or in the air, adapted for the transmission of news, or for the transport of persons or things, exclusive of cases governed by naval law, depots of arms, and, generally, all kinds of munitions of war, may be seized, even if they belong to private individuals, but they must be restored and compensation fixed when peace is made.

318. Article 55, second paragraph, GC IV provides that:

The Occupying Power may not requisition foodstuffs, articles or medical supplies available in the occupied territory, except for use by the occupation forces and administration personnel, and then only if the requirements of the civilian population have been taken into account. Subject to the provisions of other international Conventions, the Occupying Power shall make arrangements to ensure that fair value is paid for any requisitioned goods.

Other Instruments

319. Article 22 of the 1863 Lieber Code provides that:

As civilization has advanced during the last centuries, so has likewise steadily advanced, especially in war on land, the distinction between the private individual belonging to a hostile country and the hostile country itself, with its men in arms. The principle has been more and more acknowledged that the unarmed citizen is to be spared in person, *property*, and honor as much as the exigencies of war will admit. [emphasis added]

320. Article 37 of the 1863 Lieber Code states that “the United States acknowledge and protect, in hostile countries occupied by them, . . . strictly private property . . . This rule does not interfere with the right of the victorious invader . . . to appropriate property, especially houses, lands, boats or ships, and churches, for temporary and military uses.”

321. Article 38 of the 1863 Lieber Code provides that “private property . . . can be seized only by way of military necessity, for the support or other benefit of the army or of the United States. If the owner has not fled, the commanding officer will cause receipts to be given, which may serve the spoliated owner to obtain indemnity.”

322. The 1874 Brussels Declaration provides that:

Art. 6. Railway plant, land telegraphs, steamers and other ships, apart from cases governed by maritime law, as well as depots of arms and, generally, all kinds of war material, even if belonging to companies or to private persons, are likewise material which may serve for military operations and which cannot be left by the army of occupation at the disposal of the enemy. Railway plant, land telegraphs, as well as steamers and other ships above mentioned shall be restored and compensation fixed when peace is made.

...

Art. 38. . . . [P]roperty of persons . . . must be respected. Private property cannot be confiscated.

...

Art. 40. As private property should be respected, the enemy will demand from communes or inhabitants only such payments and services as are connected with the generally recognized necessities of war, in proportion to the resources of the country, and not implying, with regard to the inhabitants, the obligation of taking part in operations of war against their country.

...

Art. 42. Requisitions shall be made only with the authorization of the commander in the territory occupied. For every requisition indemnity shall be granted or a receipt delivered.

323. The 1880 Oxford Manual provides, with respect to private property, that:

If the powers of the occupant are limited with respect to the property of the enemy State, with greater reason are they limited with respect to the property of individuals.

Art. 54. Private property, whether belonging to individuals or corporations, must be respected, and can be confiscated only under the limitations contained in the following articles.

Art. 55. Means of transportation (railways, boats, & c.), telegraphs, depots of arms and munitions of war, although belonging to companies or to individuals, may be seized by the occupant, but must be restored, if possible, and compensation fixed when peace is made.

Art. 56. Impositions in kind (requisitions) demanded from communes or inhabitants should be in proportion to the necessities of war as generally recognized, and in proportion to the resources of the country.

Requisitions can only be made on the authority of the commander in the locality occupied.

...

Art. 60. Requisitioned articles, when they are not paid for in cash, and war contributions are evidenced by receipts. Measures should be taken to assure the "bona fide" character and regularity of these receipts.

324. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including "exaction of illegitimate or of exorbitant contributions and requisitions".

325. The 1943 Inter-Allied Declaration against Acts of Dispossession provides that "it is important to leave no doubt whatsoever of their [the authors of the Declaration] resolution not to accept or tolerate the misdeeds of their enemies in the field of property, however these may be cloaked".

326. Article 3(7) of Part IV of the 1998 Comprehensive Agreement on Respect for Human Rights and IHL in the Philippines prohibits at any time and in any place whatsoever "the destruction of the lives and property of the civilian population".

II. National Practice

Military Manuals

327. With regard to occupied territory, Argentina's Law of War Manual provides that:

All appliances, whether on land, at sea, or in the air, adapted for the transmission of news, or for the transport of persons or things, exclusive of cases governed by naval law, depots of arms, and, generally, all kinds of munitions of war, may also

be confiscated, even if they belong to private individuals, but they must be restored and compensation fixed when peace is made.

...

Private property cannot be confiscated.

...

Requisitions in kind and services shall not be demanded from municipalities or inhabitants except for the needs of the army of occupation.

They shall be in proportion to the resources of the country, and of such a nature as not to involve the inhabitants in the obligation of taking part in military operations against their own country.

Such requisitions and services shall only be demanded on the authority of the commander in the locality occupied.

Contributions in kind shall as far as possible be paid for in cash; if not, a receipt shall be given and the payment of the amount due shall be made as soon as possible...

The Occupying Power may not requisition foodstuffs, articles or medical supplies available in the occupied territory, except for use by the occupation forces and administration personnel, and then only if the requirements of the civilian population have been taken into account. Subject to the provisions of other international Conventions, the Occupying Power shall make arrangements to ensure that fair value is paid for any requisitioned goods.³³⁷

328. Australia's Commanders' Guide states that:

In rare cases, privately-owned civilian property may be requisitioned by a military force whether on a battlefield or while exercising the power granted to it as an occupier. Requisition is only lawful if the property is essential to the success of military operations, the taking does not cause unnecessary hardship or deprivation, and adequate and reasonable compensation is paid.³³⁸

329. Australia's Defence Force Manual states that, in occupied areas:

Private property may not be confiscated.

...

The seizure of private movable property is governed by Article 53 [of the 1907 HR]. By this rule all appliances adapted for the transmission of news or for the transport of persons or goods by land, sea or air, except where naval law governs, stores of arms and in general every kind of war material, even if they belong to private individuals, may be seized, but they must be restored and the indemnity fixed when peace is made.

These objects may be seized by, but they do not become the property of, the occupying power. The seizure operates merely as a transfer of the possession of the object to the occupying power while ownership remains with the private owner. In so far as the objects seized are capable of physical restoration, they must be restored at the conclusion of peace, and in so far as they have been consumed or have been destroyed or have perished, a cash indemnity must be paid when peace is made.

...

Requisition may be made of all commodities necessary for the maintenance of the occupying army such as: food and fuel supplies, liquor and tobacco, cloth for uniforms, leather for boots, and the like. The taking of such articles is forbidden unless

³³⁷ Argentina, *Law of War Manual* (1969), §§ 5.014(2)–5.015 and 5.018.

³³⁸ Australia, *Commanders' Guide* (1994), § 610, see also § 1041.

they are actually required for the needs of the occupying forces. Goods or medical supplies available in the occupied territory are subject to requisition because they are needed for the forces of occupation and for administrative personnel. They may be requisitioned only after the requirements of the civilian population have been taken into account. In every case, the articles taken must be duly requisitioned, and be in proportion to the resources of the country.

Articles requisitioned should be paid for in ready money, but if this is not possible a receipt must be given for them and payment of the amount due must be made as soon as possible. Articles properly requisitioned become the property of the occupying power and pass out of the ownership of their former owner.

The prices to be paid for requisitioned supplies may be fixed by the commander of the occupying force. The prices of commodities on sale may also be regulated.

The right to billet troops on the inhabitants follows from the rights to requisition.³³⁹

330. Benin's Military Manual requires that soldiers "respect, and avoid causing damage to or stealing," civilian property.³⁴⁰

331. Burkina Faso's Disciplinary Regulations states that, under the laws and customs of war, "wanton destruction... in particular of private property" is forbidden.³⁴¹

332. Cameroon's Disciplinary Regulations states that, under the laws and customs of war, "any wanton destruction... in particular of private property" is forbidden.³⁴²

333. Canada's LOAC Manual states that "enemy private movable property, other than arms and military papers captured or found on a battlefield, may be appropriated only to the extent such taking is permissible in an occupied area".³⁴³ It further provides that, in occupied territory:

Private property may not be confiscated.

...

The seizure of private movable property is governed by the [1907 HR]. All appliances adapted for the transmission of news or for the transport of persons or goods by land, sea or air, stores of arms and in general every kind of war material, even if they belong to private individuals, may be seized. If seized, however, they must be restored and the indemnity fixed when peace is made.

These objects may be seized by, but they do not become the property of, the occupant. The seizure merely acts as a transfer of the possession of the object to the occupant while the ownership remains in the private owner.

Insofar as the objects seized are capable of physical restoration they must be restored at the conclusion of peace, and insofar as they have been consumed or have been destroyed or have perished a cash indemnity must be paid when peace is made.

No provision in the [1907 HR] obliges the belligerent who effects the seizure to give a receipt, or to carry out the seizure in any formal manner, but the fact of

³³⁹ Australia, *Defence Force Manual* (1994), §§ 1225–1231.

³⁴⁰ Benin, *Military Manual* (1995), Fascicule I, p. 16.

³⁴¹ Burkina Faso, *Disciplinary Regulations* (1994), Article 35(2).

³⁴² Cameroon, *Disciplinary Regulations* (1975), Article 32.

³⁴³ Canada, *LOAC Manual* (1999), p. 6-5, § 49.

seizure should obviously be established in some way, if only to give the owner an opportunity of claiming the compensation expressly provided for.

Requisition may be made of all commodities necessary for the maintenance of the occupying army. This includes: food and supplies, liquor and tobacco, cloth for uniforms, leather for boots, and the like. The taking of such articles is forbidden unless they are actually required for the needs of the occupying army. Even if food-stuffs, goods or medical supplies available in the occupied territory are subject to requisition because they are needed for the forces of occupation and for administrative personnel, they may be requisitioned only after the requirements of the civilian population have been taken into account. In any case, the articles taken must be duly requisitioned, and the amount taken must be in proportion to the resources of the country.

Articles requisitioned should be paid for in ready money, but if this is not possible a receipt must be given and payment of the amount due must be made as soon as possible. Articles properly requisitioned become the property of the occupant and pass out of the ownership of their former owner.

Requisitions of supplies may be made in bulk, that is, a community may be called upon to supply certain quantities, or a return may be called for from inhabitants giving the amount in their possession of which a proportion may then be requisitioned, or the householders may be requisitioned to feed or partly feed the soldiers quartered on them. In fact, any way that is convenient may be employed provided that the above-mentioned rules and the provisions of [GC IV] are observed.

The right to billet troops on the inhabitants follows from the right to requisition.³⁴⁴

334. Canada's Code of Conduct states that:

[Respecting civilian property] is one important difference between a disciplined professional force and a band of marauders. Respect for the property rights of civilians, including civilians in the territory of the opposing force, requires discipline. If you do not obey this rule, the civilian population may turn against you. The mission may thus be jeopardised and the conflict prolonged.

You must make every effort to avoid alienating the local civilian population. Reckless destruction of civilian property and disregard for personal ownership rights will place the overall military mission at risk as well as damage the reputation of Canada and its soldiers . . .

The CF may purchase or requisition property and services from the local population but only for the use of our forces. Requisitioned material should always be paid for in cash, or a receipt should be provided which then should be honoured as soon as possible. Where requisitioning is authorized, appropriate procedures will be established and published.³⁴⁵

335. Under Colombia's Basic Military Manual, it is forbidden "to seize . . . personal property" of non-combatants.³⁴⁶

336. According to Colombia's Instructors' Manual, the instructor must recall the theme of respect for civilian property, livestock, money and movable and immovable objects. It emphasises that, during the conflict in Colombia, the

³⁴⁴ Canada, *LOAC Manual* (1999), pp. 12-8 and 12-9, §§ 69-77.

³⁴⁵ Canada, *Code of Conduct* (2001), Rule 4, §§ 4-6.

³⁴⁶ Colombia, *Basic Military Manual* (1995), p. 29.

property of the civilian population has not been properly respected. Livestock have been killed, houses destroyed and crops devastated, all acts that military personnel must not commit.³⁴⁷

337. Colombia's *Soldiers' Manual* orders troops to respect civilian property.³⁴⁸

338. Congo's *Disciplinary Regulations* states that, under the laws and customs of war, "any wanton destruction . . . in particular of private property" is forbidden.³⁴⁹

339. The *Military Manual of the Dominican Republic* instructs troops: "Do not start fires in civilians' homes or buildings or burn their property unless the necessities of war urgently require it. When searching dwellings in enemy towns or villages, do not take nonmilitary items."³⁵⁰

340. El Salvador's *Human Rights Charter of the Armed Forces* orders troops to "respect the property of others".³⁵¹ It also instructs as follows: "Do not steal, do not cause damage or destroy what is not yours."³⁵² It further states that "all acts against property shall be denounced".³⁵³

341. France's *LOAC Manual* incorporates the content of Articles 52 and 53 of the 1907 HR.³⁵⁴

342. Germany's *Military Manual* provides that:

A local commander may demand contributions in kind and services (requisitions) from the population and the authorities of the occupied territory to satisfy the needs of the occupational forces . . . The requisitions shall be in proportion to the capabilities of the country . . .

Requisitions shall, on principle, be paid for in cash. If this is not possible, a receipt shall be given. Payment shall be effected as soon as possible . . .

. . .

Movable private property which may be used for military purposes . . . may only be requisitioned but not confiscated . . . The title to this property shall not pass to the occupying state. Upon termination of the war, the items and real estate seized shall be restored.

All private property shall be protected from permanent seizure . . . – except for commodities designed for consumption.³⁵⁵

343. Hungary's *Military Manual* states that civilian property in occupied territory must be respected.³⁵⁶

344. Indonesia's *Directive on Human Rights in Irian Jaya and Maluku* provides that "appropriation . . . of the property of the population is a criminal offence".³⁵⁷

³⁵⁴ France, *LOAC Manual* (2001), pp. 35–36 and 109.

³⁵⁵ Germany, *Military Manual* (1992), §§ 554–555 and 557–558.

³⁵⁶ Hungary, *Military Manual* (1992), p. 97.

³⁵⁷ Indonesia, *Directive on Human Rights in Irian Jaya and Maluku* (1995), § 9(e).

345. Israel's Manual on the Laws of War states that:

Private property that does not belong to the state is immune to seizure and conversion to booty. Nevertheless, a military commander is allowed to seize also private property if this serves an important military need. For example, a commander may commandeer a civilian vehicle to evacuate wounded urgently or take possession of a house porch if this is necessary for carrying out surveillance.³⁵⁸

346. Italy's IHL Manual states that, in occupied territory:

Private property is respected and not subject to confiscation. The inhabitants of the occupied territory keep their property rights and the possession of their goods, with all the rights inherent thereto.

However, the occupying military authority may seize all kinds of arms and ammunitions, as well as all means of communication and transportation, including ships and aircraft, belonging to private persons, which may be used for war operations, provided that they be restored or compensated when peace is made.

...

The powers exercised by an occupying State, through the military Authority, in an occupied territory are the following:

...

(11) requisition private property in accordance with appropriate procedure and in proportion to the resources of the country.³⁵⁹

347. Mali's Army Regulations provides that, under the laws and customs of war, "any wanton destruction...in particular of private property" is forbidden.³⁶⁰

348. Morocco's Disciplinary Regulations states that, under the laws and customs of war, "any wanton destruction...in particular of private property" is forbidden.³⁶¹

349. New Zealand's Military Manual provides that "enemy private movable property, other [than] arms and military papers captured or found on a battlefield may be appropriated only to the extent such taking is permissible in an occupied area".³⁶² It further states that, in occupied territory:

If property is of mixed ownership, that is partly owned by the State and partly owned by private persons, then, if the Occupying Power appropriates the property for its own benefit, the private owners should be compensated for their portion of the property.

...

Private property may not be confiscated.

...

The seizure of private movable property is governed by Art. 53 [of the 1907 HR]. By this rule, all appliances adapted for the transmission of news or for the transport of persons or goods by land, sea or air, except where naval law governs, stores or arms

³⁵⁸ Israel, *Manual on the Laws of War* (1998), p. 63.

³⁵⁹ Italy, *IHL Manual* (1991), Vol. I, §§ 43 and 49(11), see also § 49(9).

³⁶⁰ Mali, *Army Regulations* (1979), Article 36.

³⁶¹ Morocco, *Disciplinary Regulations* (1974), Article 25(2).

³⁶² New Zealand, *Military Manual* (1992), § 528.

(in general, every kind of war material, even if it belongs to private individuals), may be seized, but they must be restored and the compensation fixed when peace is made.

These objects may be seized by, but do not become the property of, the Occupying Power. The seizure operated merely as a transfer of the possession of the object to the Occupying Power while the ownership remains in the private owner. Insofar as the objects seized are capable of physical restoration they must be restored at the conclusion of peace and insofar as they have been consumed or have been destroyed or have perished, a cash indemnity must be paid when peace is made. Within this rule fall: cables, telegraph and telephone plant; television, telecommunications and radio equipment; horses, motorcars, bicycles, carts and carriages; railways and railway plant, tramways; ships in port, river and canal craft; aircraft of all descriptions, except ambulance aircraft; sporting weapons; and all kinds of property which could serve as war material.

No provision in [the 1907] HR obliges the belligerent who effects the seizure to give a receipt or to carry out the seizure in any formal manner, but the fact of seizure should obviously be established in some way, if only to give the owner an opportunity of claiming the compensation expressly provided for.

...
Requisition may be made of all commodities necessary for the maintenance of the occupying army. Within this category fall such things as: food and fuel supplies, liquor and tobacco, cloth for uniforms, leather for boots, and the like. The taking of such articles is forbidden unless they are actually required for the needs of the occupying army. Even if foodstuffs, goods or medical supplies available in the occupied territory are subject to requisition because they are needed for the forces of occupation and for administrative personnel, they may be requisitioned only after the requirements of the civilian population have been taken into account. In any case, the articles taken must be duly requisitioned and the amount taken must be in proportion to the resources of the country.

Articles requisitioned should be paid for in ready money but, if this is not possible, a receipt must be given for them and payment of the amount due must be made as soon as possible. Articles properly requisitioned become the property of the Occupying Power and pass out of the ownership of their former owner. As payment for these articles is made either at the time of requisition or becomes due at that time and is made later, a requisition may, in effect, be a compulsory sale on the order of the Occupying Power.

Requisition can only be demanded on the authority of the commander in the locality occupied. It is not necessary, however, that his order for the requisition should be produced, as the articles taken must be paid for or a receipt given. The assistance of the local authorities of the invaded territory may be invoked to obtain the supplies. When it is impossible to obtain this assistance, special parties under an officer should be detailed to collect what is required. Except in case of emergency, no one under the rank of commissioned officer is, by the regulations of practically all armies, permitted to requisition.

Requisitions of supplies may be made in bulk, that is, a community may be called upon to supply certain quantities, or a return may be called for from inhabitants giving the amounts in their possession of which a proportion may then be requisitioned, or the householders may be requisitioned to feed or partly feed the soldiers quartered on them. In fact, any way that is convenient may be employed provided that the above mentioned rules and the provisions of [GC IV] are observed.

The right to billet troops on the inhabitants follows from the right to requisition. The prices to be paid for requisitioned supplies may be fixed by the commander of the occupying force. The prices of commodities on sale may also be regulated.³⁶³

350. Nigeria's Military Manual provides that "[civilian] property [shall be] safeguarded against theft and damage".³⁶⁴

351. Nigeria's Manual on the Laws of War states that:

Vehicles, signal equipment, weapons and other equipment required for immediate military use may also be seized (but if they belong to private individuals they will be restored when peace is established or indemnity would be for them).

...

Private property should be respected. It must not be confiscated . . . even if found in an occupied territory. In war it is difficult to avoid damage to private property as practically every military operation, movement or combat occasions such damage but unnecessary damage to the property of civilians must definitely be avoided.

Food, liquor and clothes of private individuals should not be requisitioned; but if they are required by the occupying army they can be taken and paid for in cash. If immediate payment is not possible a receipt must be given for them and payment of the amount due must be made as soon as possible.

...

The temporary use of real property for military purposes during a combat operation is justified, although such use may diminish the value of the property. For example, in addition to the necessary use of grounds during combat for marching, encampment and building strong-points, the citizens can be forced to accommodate in their houses soldiers, the sick and the wounded or keep army vehicles. Buildings may be used for observation posts, shelter, defence, etc. . . . If necessary, houses and fences may be destroyed to prepare a field of fire or to supply material for bridges, fuel, etc., needs essential to the army. When private property is used for accommodation of troops the owners and occupants should be given substitute accommodation. When military necessity requires the evacuation of the occupants they should be given an early warning and enable to carry with them their necessities.

When houses of missing persons are being used they should be taken care of in their absence. [T]heir absence does not authorise . . . damage and a note should be left if anything is taken in case of military necessity.³⁶⁵

352. Nigeria's Soldiers' Code of Conduct provides that "civilian property shall be safeguarded against theft and damage".³⁶⁶

353. Peru's Human Rights Charter of the Security Forces instructs troops: "Do not to steal or destroy what is not yours."³⁶⁷ It states that the property of others must be respected.³⁶⁸ It also states that all acts committed against property must be denounced.³⁶⁹

354. The Soldier's Rules of the Philippines instructs troops: "Respect other people's property."³⁷⁰

355. The Joint Circular on Adherence to IHL and Human Rights of the Philippines provides that "members of the AFP and PNP shall inhibit themselves from unnecessary military/police actions that could cause destruction to private . . . properties".³⁷¹

356. Romania's Soldiers' Manual instructs soldiers to respect private property, not to damage or seize it.³⁷²

357. South Africa's LOAC Manual states that soldiers must "respect civilians and their property".³⁷³

358. Switzerland's Basic Military Manual states that, in occupied territory, "foodstuffs, articles or medical supplies may in principle not be requisitioned. In exceptional circumstances, the occupying Power may requisition such objects against indemnity, provided that they are used to satisfy directly the needs of the occupying forces and administration."³⁷⁴ Furthermore, the manual states that "private property may not be confiscated. The destruction of movable or immovable property belonging individually or collectively to private persons is prohibited, except if imperative military reasons exist."³⁷⁵

359. Togo's Military Manual requires that soldiers "respect, and avoid causing damage to or stealing," civilian property.³⁷⁶

360. Uganda's Code of Conduct instructs troops to "never take anything in the form of money or property from any member of the public" and "to pay promptly for anything you take in cash".³⁷⁷

361. Uganda's Operational Code of Conduct provides that "the offence of undermining relationship with the civilian population shall include . . . trespassing on civilian property; . . . failing to pay for goods purchased".³⁷⁸

362. The UK Military Manual states that, once a defended locality has surrendered, "it is not permissible to burn . . . private houses in such a place merely because it was defended".³⁷⁹ The manual provides that:

Private property must be respected. It must not be confiscated . . . even if found in a captured town or other place. This prohibition embodied in the [1907 HR] did not constitute a new rule . . . The rule that private property must be respected admits, however, of exceptions necessitated by the exigencies of war. In the first instance practically every operation, movement or combat occasions damage to private property. Further, the right of an army to requisition and to make use of

³⁷⁰ Philippines, *Soldier's Rules* (1989), § 11.

³⁷⁸ Uganda, *Operational Code of Conduct* (1986), § 12(c) and (e).

³⁷⁹ UK, *Military Manual* (1958), § 287.

certain property is fully admitted. What is clearly forbidden is the destruction by the Occupant of private property unless military operations render such destruction absolutely necessary and all extensive destruction and appropriation of private property not justified by military necessity, and carried out unlawfully and wantonly. Requisitions in kind must be in proportion to the resources of the country and limited to the needs of the Occupation army. Seizure is limited to certain types of property set out in [Article 53 of the 1907 HR] which must be restored at the peace and indemnities paid.

...

Generally, therefore, no damage may be done that is not required by military operations. Any destruction of property whether belonging to private individuals, to the State or to social or co-operative organisations, is prohibited and "except when such destruction is rendered absolutely necessary by military operations".

...

Land and buildings belonging to private individuals or commercial undertakings may not be appropriated or alienated, nor may they be used, let or hired for private or public profit.

...

The temporary use of land or buildings for the needs of the army is justified, even though such use may impair its value... Buildings may be used for purposes of observation, reconnaissance, cover, defence, *etc.*, and, if necessary, houses, fences and woods may be demolished, cut down, or removed to clear a field of fire or to provide material for bridges, fuel, *etc.*, imperatively needed by the occupying army.

...

The owner of property may claim neither rent for its use nor compensation for damage caused by the necessities of war. If time allows, however, a note of the use or damage should be kept, or given to the owner, so that in the event of funds being provided by either belligerent at the close of hostilities to compensate the inhabitants, there may be evidence to assist the assessors.

When troops are quartered in private dwellings some rooms should be left to the inhabitants; the latter should not be driven into the streets and left without shelter. If for military reasons, whether for operational purposes or to protect men and animals from the weather, it is imperative to remove the inhabitants, efforts should be made to give them notice and provide them with facilities for taking essential baggage with them.

When use is made of unoccupied buildings, care should be taken of the structure and internal fixtures and fittings. The fact that the owners are away does not authorise... damage. A note should be left if anything is taken. There is, however, no obligation to protect abandoned property.

...

The seizure of private movable property is governed by [Article 53 of the 1907 HR]. By this rule, all appliances adapted for the transmission of news or for the transport of persons or goods by land, sea or air, except where naval law governs, stores of arms and in general every kind of war material, even if they belong to private individuals, may be seized, but they must be restored and the indemnity fixed when peace is made. These objects may be seized by, but they do not become the property of, the Occupant. The seizure operates merely as a transfer of the possession of the objects to the Occupant while the ownership remains in the private owner. Insofar as the objects seized are capable of physical restoration they must be restored at the conclusion of peace, and insofar as they have been consumed or have been destroyed

or have perished a cash indemnity must be paid when peace is made. Within this rule fall: cables, telegraph, and telephone plant; television, telecommunications and radio equipment; horses, motorcars, bicycles, carts, carriages, railways and railway plant, tramways, ships in port, river and canal craft, aircraft of all descriptions, except ambulance aircraft, sporting weapons, and all kinds of property which could serve as war material. No provision in the [1907 HR] obliges the belligerent who effects the seizure to give a receipt, or to carry out the seizure in any formal manner, but the fact of seizure should obviously be established in some way, if only to give the owner an opportunity of claiming the compensation expressly provided for.

...

Under [Article 52 of the 1907 HR] requisition may be made of all commodities necessary for the maintenance of the occupying army. Within this category fall such things as: foods and fuel supplies, liquor and tobacco, cloth for uniforms, leather for boots, and the like. The taking of such articles is forbidden unless they are actually required for the needs of the occupying army. Moreover, [GC IV] lays down expressly that even if foodstuffs, goods or medical supplies available in the occupied territory are subject to requisition because they are needed for the forces of occupation and for administrative personnel, they may be requisitioned only after the requirements of the civilian population have been taken into account. In any case, the articles taken must be duly requisitioned, and the amount taken must be in proportion to the resources of the country.

...

Articles requisitioned should be paid for in ready money, but if this is not possible a receipt must be given for them and payment of the amount due must be made as soon as possible.

Articles properly requisitioned under [Article 52 of the 1907 HR] become the property of the Occupant and pass out of the ownership of their former owner. As payment for these articles is made either at the time of requisition or becomes due at that time and is made later, a requisition under this [Article] is, in effect, a compulsory sale on the order of the Occupant.

...

Requisitions can only be demanded within the limits of the [1907 HR] and [GC IV] on the authority of the commander in the locality occupied. However, it is not necessary that his order for the requisition should be produced, as the articles taken must be paid for or a receipt given. The assistance of the local authorities of the invaded territory may be invoked to obtain the supplies. When it is impossible to obtain this assistance special parties under an officer should be detailed to collect what is required. Except in cases of emergency, no one under the rank of commissioned officer is, by the regulations of practically all armies, permitted to requisition.

...

Requisitions of supplies may be made in bulk, that is, a community may be called upon to supply certain quantities, or a return may be called for from inhabitants giving the amounts in their possession of which a proportion may then be requisitioned, or the householders may be requisitioned to feed or partly feed the soldiers quartered on them. In fact, any way that is convenient may be employed provided that the above-mentioned rules and the provisions of [GC IV] are observed.

...

The right to billet troops on the inhabitants follows from the right to requisition. The prices to be paid for requisitioned supplies may be fixed by the commander of the occupying force. The prices of commodities on sale may also be regulated. Supplies in the hands of private inhabitants may not be destroyed except where such destruction is rendered absolutely necessary by military operations.³⁸⁰

363. The US Field Manual provides, in the case of occupied territory, that:

If property which is appropriated by the occupant is beneficially owned in part by the State and in part by private interests, the occupation authorities should compensate the private owners to the extent of their interest. Such compensation should bear the same relationship to the full compensation which would be paid if the property were entirely privately owned as their interest bears to the total value of the property concerned. The occupant may take what measures it deems necessary to assure that no portion of the compensation paid on account of private interests accrues to the State.

If it is unknown whether certain property is public or private, it should be treated as public property until its ownership is ascertained.

...

Valid capture or seizure of property requires both an intent to take such action and a physical act of capture or seizure. The mere presence within occupied territory of property which is subject to appropriation under international law does not operate to vest title thereto in the occupant.

...

Private property cannot be confiscated . . .

The foregoing prohibition extends not only to outright taking in violation of the law of war but also to any acts which, through the use of threats, intimidation, or pressure or by actual exploitation of the power of the occupant, permanently or temporarily deprive the owner of the use of his property without his consent or without authority under international law.

...

Immovable private enemy property may under no circumstances be seized. It may, however, be requisitioned.

...

If private property is seized in conformity with the preceding paragraph, a receipt therefor should be given the owner or a record made of the nature and quantity of the property and the name of the owner or person in possession in order that restoration and compensation may be made at the conclusion of the war.

...

The rule stated in the foregoing paragraph includes everything susceptible of direct military use, such as cables, telephone and telegraph plants, radio, television, and telecommunications equipment, motor vehicles, railways, railway plants, port facilities, ships in port, barges and other watercraft, airfields, aircraft, depots of arms, whether military or sporting, documents connected with the war, all varieties of military equipment, including that in the hands of manufacturers, component parts of or material suitable only for use in the foregoing, and in general all kinds of war material.

The destruction of the foregoing property and all damage to the same is justifiable only if it is rendered absolutely necessary by military operations.

³⁸⁰ UK, *Military Manual* (1958), §§ 589–595 and 597–604.

...

Submarine cables connecting an occupied territory with a neutral territory shall not be seized or destroyed except in the case of absolute necessity. They must likewise be restored and compensation fixed when peace is made . . .

The foregoing provision applies only to activities on land and does not deal with seizure or destruction of cables in the open sea.

...

Requisitions in kind and services shall not be demanded from municipalities or inhabitants except for the needs of the army of occupation. They shall be in proportion to the resources of the country, and of such a nature as not to involve the population in the obligation of taking part in operations of war against their country.

Such requisitions and service shall only be demanded on the authority of the commander in the locality occupied.

Contributions in kind shall, as far as possible, be paid for in cash; if not, a receipt shall be given and the payment of the amount due shall be made as soon as possible.

. . . Practically everything may be requisitioned under this article that is necessary for the maintenance of the army, such as fuel, food, clothing, building materials, machinery, tools, vehicles, furnishings for quarters, etc. Billeting of troops in occupied areas is also authorized.

...

The Occupying Power may not requisition foodstuffs, articles or medical supplies available in the occupied territory, except for use by the occupation forces and administration personnel, and then only if the requirements of the civilian population have been taken into account. Subject to the provisions of other international Conventions, the Occupying Power shall make arrangements to ensure that fair value is paid for any requisitioned goods.

...

Requisitions must be made under the authority of the commander in the locality. No prescribed method is fixed, but if practicable requisitions should be accomplished through the local authorities by systematic collection in bulk. They may be made direct by detachments if local authorities fail or if circumstances preclude resort to such authorities.

...

The prices of articles and services requisitioned will be fixed by agreement if possible, otherwise by military authority. Receipts should be taken up and compensation paid promptly.³⁸¹

364. The US Air Force Pamphlet, analysing the situation in occupied territories, recalls that "Article 46 [of the 1907] HR confirms that private property ' . . . must be respected' and that 'Private property cannot be confiscated'".³⁸² It adds that "foodstuffs, articles or medical supplies may be requisitioned for the use of occupation forces and administrative personnel, but only if the requirements of the civilian population have been taken into account".³⁸³

365. The US Soldier's Manual instructs troops: "Do not start fires in civilians' homes or buildings or burn their property unless the necessities of war urgently

³⁸¹ US, *Field Manual* (1956), §§ 394(b) and (c), 395, 406–407, 409–413 and 415–416.

³⁸² US, *Air Force Pamphlet* (1976), § 14-6(a). ³⁸³ US, *Air Force Pamphlet* (1976), § 14-6(b).

require it. When searching dwellings in enemy towns and villages, do not take nonmilitary items.”³⁸⁴

366. The US Instructor’s Guide provides that:

Under the law of war, seizing and destroying certain enemy property is a crime. Assume, for example, that you are conducting a search in a built-up area. As you go from one building to another, you discover only a few weapons. But in one home you see some interesting art objects – hand-carved figures, for instance – and you decide to take one. Taking the hand-carved figure would be a crime which violates the law of war and the Uniform Code of Military Justice. You have no right to take such property. If, during that same search, you deliberately smash dishes, burn books, and scatter clothing, you would also violate the law of war by destroying property when it was not necessary, and you could be prosecuted for these crimes.³⁸⁵

The Guide also emphasises that “in addition to the grave breaches of the Geneva Conventions, the following acts are further examples of war crimes: . . . purposelessly burning homes”.³⁸⁶

367. Under the US Rules of Engagement for Operation Desert Storm, troops are ordered to:

Treat all civilians and their property with respect and dignity. Before using privately owned property, check to see if publicly owned property can substitute. No requisitioning of civilian property, including vehicles, without permission of a company level commander and without giving a receipt. If an ordering officer can contract the property, then do not requisition it.³⁸⁷

National Legislation

368. Argentina’s Law on National Defence and Decree on the Law on National Defence permit requisitions in times of emergency or extreme gravity. An indemnity must be paid.³⁸⁸

369. Under Argentina’s Constitution, no armed or security forces may make requisitions or require assistance of any kind.³⁸⁹

370. Argentina’s Draft Code of Military Justice punishes any soldier who “requisitions unlawfully and without necessity buildings or movable objects in occupied territory”.³⁹⁰

371. Azerbaijan’s Law concerning the Protection of Civilian Persons and the Rights of Prisoners of War provides that, in international and non-international

armed conflicts, the destruction or annihilation of civilian movable or immovable property which is not necessary for military operations is prohibited.³⁹¹

372. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.³⁹²

373. Under the Criminal Code of the Federation of Bosnia and Herzegovina, "the taking of an illegal and disproportionate contribution or requisition" is a war crime.³⁹³ The Criminal Code of the Republika Srpska contains the same provision.³⁹⁴

374. Bulgaria's Penal Code as amended states that "a person who... appropriates, damages, destroys or unlawfully takes away property belonging to the population located in the region of military operations" commits a crime.³⁹⁵

375. Canada's National Defence Act punishes "every person who... commits any offence against the property... of any inhabitant or resident of a country in which he is serving".³⁹⁶

376. Chile's Code of Military Justice provides that "any individual working for the Army, whether military or not, who abusively orders or commits requisitions, or who does not give receipts after lawful requisitions" commits a punishable offence.³⁹⁷

377. China's Law Governing the Trial of War Criminals provides that "unlawful extortion or demanding of contributions or requisitions", "confiscation of property", as well as "taking money or property by force or extortion", constitute war crimes.³⁹⁸

378. Colombia's Military Penal Code provides for a prison sentence for "anyone who, without any justification, orders or commits requisitions", as well as for "anyone who requisitions without fulfilling the required formalities and without special circumstances obliging him to do so".³⁹⁹

379. Under Croatia's Criminal Code, "unlawful and disproportionately large contributions and requisitions" are war crimes.⁴⁰⁰

380. Czechoslovakia's Decree No. 16 on the Punishment of Nazi Criminals as amended punishes offences against property during the period of imminent danger to the Republic and cloaked in the form of judicial or official acts.⁴⁰¹

381. The Czech Republic's Criminal Code as amended punishes a commander who intentionally "causes harm by a military operation to civil inhabitants or to their . . . property".⁴⁰²

382. Estonia's Criminal Code as amended provides for the punishment of unlawful destruction and requisitions of property.⁴⁰³

383. Gambia's Armed Forces Act punishes "every person subject to this Act who . . . commits any offence against the property . . . of any inhabitant or resident of a country in which he is serving".⁴⁰⁴

384. Ghana's Armed Forces Act punishes "every person subject to the Code of Service Discipline who . . . commits any offence against the property . . . of any inhabitant or resident of a country in which he is serving".⁴⁰⁵

385. Hungary's Criminal Code as amended provides that "a military commander who, violating the rules of international law of warfare . . . pursues a war operation which causes serious damage to . . . the goods of the civilian population" commits a war crime.⁴⁰⁶

386. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Article 55 GC IV, is a punishable offence.⁴⁰⁷

387. Italy's Law of War Decree states that, in occupied territory:

Private property is not subject to confiscation.

...

The occupying military authority may seize all kinds of arms and ammunitions, as well as all means of communication and transportation, including ships and aircraft, belonging to private persons, which may be used for war operations, provided that they be restored or compensated when peace is made.

...

Requisitions in kind and services may be demanded from the local authorities and population only to satisfy the needs of the occupying forces.

They must be in proportion to the resources of the country, and of such a nature as not to involve the population in the obligation of taking part in military operations against their country.

The contributions in kind shall, as far as possible, be paid for in ready money; if not, the requisitions shall be acknowledged through the giving of a receipt and payment of the amount due must be made as soon as possible.

Requisitions cannot be demanded without the authority of the local commander of the occupying force.⁴⁰⁸

Regarding property in enemy territory, the Decree states that "property belonging to an enemy national may be requisitioned against indemnity".⁴⁰⁹

⁴⁰⁹ Italy, *Law of War Decree* (1938), Article 294.

388. Italy's Wartime Military Penal Code punishes any soldier who in enemy territory, and without authorisation or necessity, imposes excessive requisitions or war contributions.⁴¹⁰

389. Under Lithuania's Criminal Code as amended, "imposing unlawful and excessively large indemnities and requisitions" in time of war, armed conflict or occupation is a war crime.⁴¹¹

390. Malta's Armed Forces Act as amended punishes "any person subject to military law who, in any country or territory outside Malta, commits any offence against the . . . property of any member of the civilian population".⁴¹²

391. Moldova's Penal Code punishes "unlawful requisition of private property, committed against the civilian population in the area of military operations".⁴¹³

392. Under Mozambique's Military Criminal Law, it is prohibited to abuse one's military position, or the fear caused by the war, to impose excessive war contributions or to appropriate money or any movable property of the population, as well as to destroy or damage goods and other objects of the civilian population.⁴¹⁴

393. Myanmar's Defence Service Act punishes "any person subject to this Act who commits . . . any offence against the property or person of any inhabitant of, or resident in the country in which he is serving".⁴¹⁵

394. The Extraordinary Penal Law Decree as amended of the Netherlands punishes whoever

during the time of [the Second World War] intentionally makes or threatens to make use of the power, opportunity or means, offered him by the enemy or by the fact of the enemy occupation, unlawfully to injure another in his possessions or unlawfully benefit himself or another.⁴¹⁶

395. The Definition of War Crimes Decree of the Netherlands includes "exaction of illegitimate or of exorbitant contributions and requisitions" in its list of war crimes.⁴¹⁷

396. Norway's Military Penal Code as amended punishes any combatant "who, with the purpose of acquiring for himself or others unwarranted gain in violation of the law, . . . increases rightful requisitions or . . . refuses to issue receipt for confiscated or requisitioned property", as well as "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the Geneva Conventions of 12 August 1949".⁴¹⁸

397. Under Paraguay's Penal Code, the deliberate destruction of private property in time of war, armed conflict or military occupation is a war crime.⁴¹⁹

398. Under Slovenia's Penal Code, the "imposition of unlawful and excessive contributions [or] requisitions" is a war crime.⁴²⁰

399. Spain's Military Criminal Code punishes any soldier who "requisitions unduly or unnecessarily buildings or movable objects in occupied territory".⁴²¹

400. Uganda's National Resistance Army Statute punishes any "person subject to military law who . . . commits any offence against the property . . . of any inhabitant or resident of a country in which he is serving".⁴²²

401. The UK Army Act as amended punishes "any person subject to military law who, in any country or territory outside the United Kingdom, commits any offence against the . . . property of any member of the civil population".⁴²³

402. The UK Air Force Act as amended punishes "any person subject to air-force law who, in any country or territory outside the United Kingdom, commits any offence against the . . . property of any member of the civil population".⁴²⁴

403. The Criminal Offences against the Nation and State Act of the SFRY (FRY) considers that, during war or enemy occupation, "any person who . . . ordered or committed arson, destruction . . . of private . . . property" committed war crimes.⁴²⁵

404. Under the Penal Code as amended of the SFRY (FRY), "taking unlawful and disproportionately high contributions and requisitions" is a war crime.⁴²⁶

National Case-law

405. In the *Bijelić case* in 1997, a Bosnian Serb was convicted by a Bosnian court, *inter alia*, of unlawful seizure of property. The trial was supported by the ICTY.⁴²⁷

406. In the *Takashi Sakai case* in 1946, a Chinese Military Tribunal found the accused, a Japanese military commander in China during the Second World War, guilty, *inter alia*, of "inciting or permitting his subordinates . . . to cause destruction of property", notably 700 houses which were set on fire. The Tribunal said that, in so doing, "he had violated the [1907 HR] . . . These offences are war crimes and crimes against humanity." It found that Article 46 of the 1907 HR had been violated.⁴²⁸

⁴¹⁹ Paraguay, *Penal Code* (1997), Article 320(7).

407. During the First World War, France adopted a law to extend the jurisdiction of its courts to offences committed in invaded territory and on this basis a number of German officers and soldiers were convicted by courts-martial, *inter alia*, for arson.⁴²⁹

408. In the *Szabados case* before a French Military Tribunal in 1946, the accused, a former German non-commissioned officer of the 19th Police Regiment stationed in occupied France, was charged with, and found guilty of, *inter alia*, arson and wanton destruction of inhabited buildings. The accused ordered the inhabitants of several houses in Ugine, regarded as harbouring "terrorists", to leave the premises, whereupon three houses were set on fire. He personally threw hand-grenades into the houses. He also took part in the destruction by dynamite of a block of three more houses which it was found difficult to set on fire. The wanton destruction of inhabited houses by fire and explosive was regarded by the court as being a crime under Article 434 of the French Penal Code.⁴³⁰

409. In the *Rust case* before a French Military Tribunal in 1948, the accused, a German *Obersturmführer*, was charged, *inter alia*, with "abusive and illegal requisitioning" of French property, a case which, according to the prosecution, amounted to pillage in time of war, under Article 221 of the French Code of Military Justice and Article 2(8) of the 1944 Ordinance on Repression of War Crimes. Without giving reasons therefor, the Tribunal, however, made alterations in respect of the offences and found the accused guilty of "abusing powers conferred upon him for the purpose of requisitioning . . . vehicles by refusing to deliver receipts for such requisitions". The accused was under an obligation to pay, or deliver receipts in lieu of immediate payment, for the requisition.⁴³¹

410. In its judgement in the *Roechling case* in 1948, the General Tribunal at Rastadt of the Military Government for the French Zone of Occupation in Germany held that the accused, the proprietor of a German industrial trust and Reich Commissioner for the iron industry of the departments of Moselle and Meurthe-et-Moselle, was guilty of war crimes, *inter alia*, for the exploitation and removal of important plant from metallurgical undertakings in occupied territories and for unlawful seizure of raw materials and commodities in those countries. The Court found that the foregoing actions amounted to a fraudulent seizure of private property belonging to the inhabitants of occupied countries, in violation of the 1907 HR.⁴³²

⁴³¹ France, Permanent Military Tribunal at Metz, *Rust case*, Judgement, 5 March 1948.

⁴³² France, General Tribunal at Rastadt of the Military Government for the French Zone of Occupation in Germany, *Roechling case*, Judgement, 30 June 1948.

411. In the *Jorgić case* in 1997, Germany's Higher Regional Court at Düsseldorf found the accused guilty of genocide committed in the context of the conflict in the former Yugoslavia. In 1999, the Federal Supreme Court confirmed the judgement of first instance in most parts. Both courts referred to the taking of property, such as money and furniture, and to the destruction and arson of buildings and private houses as part of the general background in which the genocide took place.⁴³³

412. In the *Ayub case* in 1979, Israel's High Court heard a petition from several Arab landowners whose lands in Al-Bireh and Tubas had been requisitioned in 1970 and 1975 pursuant to orders issued by the military commander of the region. The orders stated that the military commander deemed the requisition to be necessary for military and security purposes. At the initiative of the Israeli civilian government, Jewish settlements were established on the requisitioned lands in 1978, whereupon the Arab landowners petitioned the High Court of Justice for an injunction against the requisition orders and for the return of their lands. In considering the petition, the Court held that:

The 1907 Hague Convention is generally regarded as customary international law, whereas provisions of the 1949 Fourth Geneva Convention remain conventional in their nature. Consequently the petitioners may rely in this Court on the 1907 Hague Convention – which thus forms part of Israeli internal law – but not on provisions of the 1949 Fourth Geneva Convention . . . It therefore remained for the Court to decide whether the requisition of the petitioners' lands violates, inter alia, Articles 23 and 46 of the Hague Regulations prohibiting confiscation of private property. It was proven to the Court that the lands in question were seized only to be used and that rental was offered to the petitioners, who retained their ownership of the lands. This kind of seizure – namely requisition – is lawful under Article 52 of the Hague Regulations . . . The Court also adopts von Glahn's view regarding the question of how to deal with land which the occupant army does not really need for its own purposes but which must not be left in the possession of the owners lest it serve the interests of the enemy.⁴³⁴

413. In the *Sakhwil case* in 1979, a petition was filed with Israel's High Court by two Arab women from the West Bank. The women asked the Court to issue an injunction preventing the respondent from sealing off or demolishing or expropriating the houses in which they and their families resided. One of the rooms of the second petitioner had indeed been ordered to be sealed off. The Court, taking cognisance of the purpose for which the room had served (shelter for a member of the Al-Fatah organisation and hiding place for a sack of explosives), "found the argument on the illegality of the respondent's order to be groundless". The Court stated that the room could be lawfully sealed pursuant to Regulation 119(1) of the Defence (Emergency) Regulations of 1945, which constituted Jordanian legislation that had remained in force since the

⁴³³ Germany, Higher Regional Court at Düsseldorf, *Jorgić case*, Judgement, 26 September 1997; Federal Supreme Court, *Jorgić case*, Judgement, 30 April 1999.

⁴³⁴ Israel, High Court, *Ayub case*, Judgement, 15 March 1979.

period of the British Mandate. According to the Court, Regulation 119 permitted destruction of private property in certain circumstances. The Court added that "there is no contradiction between the provisions of that Convention [GC IV] . . . and the use of the authority vested in the respondent by legislation which was in force at the time". Consequently, the petition was rejected.⁴³⁵

414. In the *Al-Nawar case* before Israel's High Court in 1985, Judge Shamgar held that Article 46(2) of the 1907 HR "does not extend to property 'actually in use by the hostile army'".⁴³⁶

415. In its judgement in the *Religious Organisation Hokekyoji case* in 1956, a Japanese District Court emphasised that occupying armed forces must observe the 1907 HR, notably the fact that, in accordance with Article 46, "private property cannot be confiscated".⁴³⁷

416. In its judgement in the *Takada case* in 1959, a Japanese District Court stated that "there is no doubt that the principle of the respect for private property is an established custom of international law".⁴³⁸

417. In its judgement in the *Suikosha case* in 1966, a Japanese District Court considered that the prohibition of confiscation of private property as contained in Article 46 of the 1907 HR was part of customary international law.⁴³⁹

418. In its judgement on appeal in the *Esau case* in 1949, the Special Court of Cassation of the Netherlands considered that the removal of scientific instruments and gold from factories in the Netherlands was unlawful unless the property fell within one of the categories of goods which the occupant was exceptionally entitled to seize from private individuals by virtue of Article 53 of the 1907 HR. The Court held that the term "munitions of war" used in Article 53 should not be extended to materials and apparatus such as boring machines, lathes, lamps, tubes and gold, but they could be for technical or scientific reasons. Accordingly, the Court concluded that, with the exception of the short wave transmitter, none of the goods could be deemed to be excepted from the general inviolability of private property in war.⁴⁴⁰

419. In the *Fiebig case* before the Special Criminal Court at The Hague in the Netherlands in 1949, the accused, a delegate of the Minister of the Reich for Armaments and Munitions, was charged with, and convicted of, illegal requisitions. In its judgement, the Court emphasised that the requisitions were not covered by Article 23(g) of the 1907 HR and that they constituted a violation of Article 52 of the 1907 HR. Clearly, according to the Court, Article 23(g) could not be construed as authorising the systematic removal of Dutch property to Germany and the emptying of numbers of factories, warehouses and private

⁴³⁵ Israel, High Court, *Sakhwil case*, Judgement, 6 November 1979.

⁴³⁷ Japan, District Court of Chiba, *Religious Organisation Hokekyoji case*, Judgement, 10 April 1956.

⁴³⁸ Japan, District Court of Tokyo, *Takada case*, Judgement, 28 January 1959.

⁴³⁹ Japan, District Court of Tokyo, *Suikosha case*, Judgement, 28 February 1966.

⁴⁴⁰ Netherlands, Special Court of Cassation, *Esau case*, Judgement on Appeal, 21 February 1949.

houses. Article 52 was violated because most of the removed commodities did not serve the necessities of the occupying army but supported the general war effort of Germany. Furthermore, no authorisation of requisition was granted by the military commander. In addition, the requisitioned property did not fall within the category of private property susceptible of seizure in accordance with Article 53 of the 1907 HR.⁴⁴¹

420. In the *Greiser case* before Poland's Supreme National Tribunal in 1946, the accused, a governor and *gauleiter* of the Nazi party for provinces incorporated in the German Reich, was charged for war crimes for having incited, assisted in the commission of, and committed, *inter alia*, acts of systematic and illegal deprivation of the Polish population of its private property, in contravention of Articles 46, 52 and 55 of the 1907 HR. Notably, the accused was charged with having taken part in "extortion and appropriation of the movables of Polish citizens, . . . in the territories in question . . . either by seizure, confiscation or by simply depriving of them persons being deported".⁴⁴²

421. In the *Flick case* before the US Military Tribunal at Nuremberg in 1947, the accused, the principal proprietor of a large group of German industrial enterprises (and four officials of the same group), which included coal and iron mines and steel producing plants, was charged with war crimes, *inter alia*, for offences against property in the countries and territories occupied by Germany. Flick was found guilty on this count of the indictment. The Tribunal quoted, *inter alia*, Articles 46, 52 and 53 of the 1907 HR. In respect of the seizure and management of private property, the Tribunal affirmed that:

The seizure of Rombach [a plant in occupied Alsace] in the first instance may be defended upon the ground of military necessity. The possibility of its use by the French, the absence of responsible management and the need for finding work for the idle population are all factors that the German authorities may have taken into consideration. Military necessity is a broad term. Its interpretation involves the exercise of some discretion. If after seizure the German authorities had treated their possession as conservatory for the rightful owners' interests, little fault could be found with the subsequent conduct of those in possession.

...

But some time after the seizure the Reich Government in the person of Goering, Plenipotentiary for the Four Year Plan, manifested the intention that it should be operated as the property of the Reich. This is clearly shown by the quoted statement in the contract which Flick signed. It was, no doubt, Goering's intention to exploit it to the fullest extent for the German war effort. We do not believe that this intent was shared by Flick. Certainly what was done by his company in the course of its management falls far short of such exploitation. Flick's expectation of ownership caused him to plough back into the physical property the profits of operation. This policy ultimately resulted to the advantage of the owners. In all of this we find no exploitation either for Flick's present personal advantage or to fulfil the aims of Goering.

⁴⁴¹ Netherlands, Special Criminal Court at The Hague, *Fiebig case*, Judgement, 28 June 1949.

⁴⁴² Poland, Supreme National Tribunal, *Greiser case*, Judgement, 7 July 1946.

...
While the original seizure may not have been unlawful, its subsequent detention from the rightful owners was wrongful. For this and other damage they may be compensated.

...
In this case, Flick's acts and conduct contributed to a violation of [Article 46 of the 1907 HR] that is, that private property must be respected. Of this there can be no doubt. But his acts were not within his knowledge intended to contribute to a programme of "systematic plunder" conceived by the Hitler regime and for which many of the major war criminals have been punished. If they added anything to this programme of spoliation, it was in a very small degree.⁴⁴³

422. In the *Krupp case* before the US Military Tribunal at Nuremberg in 1948, the accused, officials of the Krupp industrial enterprises occupying high positions in political, financial, industrial and economic circles in Germany, were charged with war crimes, *inter alia*, for the destruction and removal of property, and the seizure of machinery, equipment, raw materials and other property. The Tribunal quoted Articles 46 and 52 of the 1907 HR. It also stated that it "fully concurs with the Judgement of the I.M.T. that the [1907 Hague Convention (IV)], to which Germany was a party, had by 1939 become customary law and was, therefore, binding on Germany not only as Treaty Law but also as Customary Law". The Tribunal further stated that Articles 46 and 52 of the 1907 HR

are clear and unequivocal. Their essence is: if, as a result of war action, a belligerent occupies territory of the adversary, he does not, thereby, acquire the right to dispose of property in that territory, except according to the strict rules laid down in the Regulations. The economy of the belligerently occupied territory is to be kept intact, except for the carefully defined permissions given to the occupying authority – permissions which all refer to the army of occupation. Just as the inhabitants of the occupied territory must not be forced to help the enemy in waging the war against their own country or their own country's allies, so must the economic assets of the occupied territory not be used in such a manner.

...
When discriminatory laws are passed which affect the property rights of private individuals, subsequent transactions based on those laws and involving such property will in themselves constitute violations of Article 46 of the Hague Regulations.

...
Another erroneous contention put forward by the Defence is that the laws and customs of war do not prohibit the seizure and exploitation of property in belligerently occupied territory so long as no definite transfer of title was accomplished. The Hague Regulations are very clear on this point. Article 46 stipulates that "private property . . . must be respected." However, if, for example, a factory is being taken over in a manner which prevents the rightful owner from using it and deprives him from lawfully exercising his prerogative as owner, it cannot be said that his property "is respected" under Article 46 as it must be.

⁴⁴³ US, Military Tribunal at Nuremberg, *Flick case*, Judgement, 22 December 1947.

...

The general rule contained in Article 46 is further developed in Articles 52 and 53. Article 52 speaks of the "requisitions in kind and services" which may be demanded from municipalities or inhabitants, and it provides that such requisitions and services "shall not be demanded except for the needs of the Army of Occupation." As all authorities are agreed, the requisitions and services which are here contemplated and which alone are permissible, must refer to the needs of the Army of Occupation. It has never been contended that the Krupp firm belonged to the Army of Occupation. For this reason alone, the "requisitions in kind" by or on behalf of the Krupp firm were illegal. All authorities are again in agreement that the requisitions in kind and services referred to in Article 52, concern such matters as billets for the occupying troops and the occupation authorities, garages for their vehicles, stables for their horses, urgently needed equipment and supplies for the proper functioning of the occupation authorities, food for the Army of Occupation, and the like.⁴⁴⁴

423. In the *Krauch (I. G. Farben Trial)* case before the US Military Tribunal at Nuremberg in 1948, the accused, officials of I.G. Farben Industrie A.G., were charged, *inter alia*, with war crimes for offences against property in countries and territories which came under the belligerent occupation of Germany. The charges were regarded as violations of, *inter alia*, Articles 46, 52 and 53 of the 1907 HR. Some of the accused were found guilty of this count. The Tribunal held that:

The foregoing provisions of the Hague Regulations are broadly aimed at preserving the inviolability of property rights to both public and private property during military occupancy. They admit of exceptions of expropriation, use, and requisition, all of which are subject to well-defined limitations set forth in the articles. Where private individuals, including juristic persons, proceed to exploit the military occupancy by acquiring private property against the will and consent of the former owner, such action, not being expressly justified by any applicable provision of the Hague Regulations, is in violation of international law.

...

The payment of a price or other adequate consideration does not, under such circumstances, relieve the act of its unlawful character. Similarly where a private individual or a juristic person becomes a party to unlawful confiscation of... private property by planning and executing a well-defined design to acquire such property permanently, acquisition under such circumstances subsequent to confiscation constitutes conduct in violation of the Hague Regulations.

...

[I]t is illustrative of the view that offences against property of the character described in the [1943 Inter-Allied Declaration against Acts of Dispossession] were considered by the signatory powers to constitute action in violation of existing international law.

...

[W]ith respect to private property, these provisions relate to plunder, confiscation, and requisition which, in turn, imply action in relation to property committed against the will and without the consent of the owner... If, in fact, there is no

⁴⁴⁴ US, Military Tribunal at Nuremberg, *Krupp case*, Judgement, 30 June 1948.

coercion present in an agreement relating to the purchase of industrial enterprises or interests equivalent thereto, even during time of military occupancy, and if, in fact, the owner's consent is voluntarily given, we do not find such action to be violation of the Hague Regulations... On the other hand, when action by the owner is not voluntary because his consent is obtained by threats, intimidation, pressure, or by exploiting the position and power of the military occupant under circumstances indicating that the owner is being induced to part with his property against his will, it is clearly a violation of the Hague Regulations.⁴⁴⁵

424. In the *Von Leeb (The High Command Trial)* case before the US Military Tribunal at Nuremberg in 1948, the accused, former high-ranking officers in the German army and navy, were charged, *inter alia*, with war crimes and crimes against humanity against civilians in that they participated in atrocities such as wanton destruction of cities, towns and villages and devastation not justified by military necessity. The Tribunal stated that "most of the prohibitions of both the Hague and Geneva Conventions, considered in substance, are clearly an expression of the accepted views of civilized nations". It notably mentioned Articles 46 and 52 of the 1907 HR. The Tribunal found that the accused gave orders to seize or destroy foodstuffs and other property, such as cattle and horses, but the evidence did not show that these measures were not warranted by military necessity. The Tribunal emphasised that military necessity "does [not] justify the seizure of property or goods beyond that which is necessary for the use of the army of occupation".⁴⁴⁶

425. In its judgement in the *John Schultz* case in 1952, the US Court of Military Appeals listed arson as a crime "universally recognized as properly punishable under the law of war".⁴⁴⁷

Other National Practice

426. Working documents for the German army state that an army of occupation is allowed to appropriate goods from the civilian population if this is necessary to satisfy the needs of the army.⁴⁴⁸

427. In 1995, during a debate in the UN Security Council concerning the situation in the former Yugoslavia, Honduras condemned the practice of "ethnic cleansing", *inter alia*, "through... confiscation of property and destruction of homes, we have seen in Bosnian and Croatian territory the systematic elimination of one ethnic group by another. All of these acts deserve the condemnation and repudiation of the international community."⁴⁴⁹

⁴⁴⁵ US, Military Tribunal in Nuremberg, *Krauch (I. G. Farben Trial)* case, Judgement, 29 July 1948.

428. On the basis of a reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq states that strict measures should be taken to protect cities that fall under the control of armed forces, including measures to protect and ensure the safety of private property.⁴⁵⁰

429. In 1990, in a letter to the UN Secretary-General, Kuwait accused the Iraqi occupation forces of burning and destroying homes.⁴⁵¹

430. In 1995, during a debate in the UN Security Council concerning the situation in the former Yugoslavia, Russia declared that "the continuing large-scale violations of the rights of the Serbian population in the former Sectors West, North and South – including burnings... of homes... – are causing serious concern".⁴⁵²

431. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that "in violation of [the 1907 HR]... private... property was confiscated... [Confiscation of private property is prohibited under any circumstance...]"⁴⁵³

III. Practice of International Organisations and Conferences

United Nations

432. In a resolution adopted in 1990 following Iraq's invasion of Kuwait, the UN Security Council condemned "the treatment by Iraqi forces of Kuwaiti nationals, including... mistreatment of... property in Kuwait in violation of international law".⁴⁵⁴

433. In a resolution adopted in 1995 on violations of international humanitarian law in the former Yugoslavia, the UN Security Council expressed its deep concern "at reports... of serious violations of international humanitarian law... including burning of houses".⁴⁵⁵

434. In 1995, in a statement by its President regarding the situation in Croatia, the UN Security Council stated that it was "concerned by the reports of human rights violations including the burning of houses" and demanded that the government of Croatia "immediately investigate all such reports and take appropriate measures to put an end to such acts".⁴⁵⁶

435. In January 1996, in a statement by its President regarding the situation in Croatia, the UN Security Council strongly condemned "the violations

of international humanitarian law and human rights in the former sectors North and South in the Republic of Croatia, ...including systematic and widespread ... arson and other forms of destruction of property". The Council further urged the government of Croatia "to make every effort to arrest all perpetrators and bring them promptly to trial".⁴⁵⁷

436. In December 1996, in a statement by its President regarding the situation in Croatia, the UN Security Council deplored "the continued failure by the Government of Croatia to safeguard effectively ... property rights [of Croatian Serb refugees], especially the situation where many of those Serbs who have returned to the former sectors have been unable to regain possession of their properties".⁴⁵⁸

437. In a resolution adopted in 1995 on the situation of human rights in Bosnia and Herzegovina, Croatia and the FRY, the UN General Assembly condemned "violations of human rights and international humanitarian law, including ... the burning ... of houses".⁴⁵⁹

438. In a resolution adopted in 1993, the UN Commission on Human Rights condemned "the ongoing Israeli violations of human rights in southern Lebanon consisting, in particular, in ... the demolition of ... homes [of civilians and] the confiscation of their property".⁴⁶⁰

439. In a resolution adopted in 1996 on the situation of human rights in Bosnia and Herzegovina, Croatia and the FRY, the UN Commission on Human Rights condemned:

in the strongest terms all violations of human rights and international humanitarian law during the conflict, in particular in areas which were under the control of the self-proclaimed Bosnian and Croatian Serb authorities, in particular massive and systematic violations, including, *inter alia*, ... burning ... of houses, shelling of residential areas ...⁴⁶¹

440. In a resolution adopted in 1998 on the situation of human rights in southern Lebanon and western Bekaa, the UN Commission on Human Rights deplored "the destruction of ... dwellings [of Lebanese citizens], the confiscation of their property ...". It called upon Israel "to put an immediate end to such practices".⁴⁶²

441. In a resolution adopted in 2000 on the situation in Chechnya, the UN Commission on Human Rights deplored "the suffering inflicted on the civilian population by all parties, including the serious and systematic destruction of installations and infrastructure, contrary to international humanitarian law".⁴⁶³

⁴⁵⁷ UN Security Council, Statement by the President, UN Doc. S/PRST/1996/2, 8 January 1996, p. 1.

⁴⁶² UN Commission on Human Rights, Res. 1998/62, 21 April 1998, § 1.

⁴⁶³ UN Commission on Human Rights, Res. 2000/58, 25 April 2000, preamble.

442. In 1995, in a report concerning the conflict in the former Yugoslavia, the UN Secretary-General noted that UNCRO continued to document serious violations of the human rights of the Croatian Serbs who had remained in the sectors reconquered by the Croatian army, including the burning of houses.⁴⁶⁴

443. In 1996, in a report on UNOMIL in Liberia, the UN Secretary-General reported that his "Special Representative has, on several occasions, . . . exhorted Liberian faction leaders to exert proper command and control over their combatants so that the . . . property of civilians can be protected and human rights abuses stopped".⁴⁶⁵

444. In 1996, in a report on the situation of human rights in Croatia, the UN Secretary-General reported that:

Since the end of November 1995, the incidence of human rights violations, including acts of . . . arson . . . committed in the former Sectors West, North and South has continued to decline . . . The Government of Croatia eventually responded with a series of measures intended to protect its citizens' human rights, and these initiatives seem to have begun to have a positive effect.⁴⁶⁶

445. In 1998, in a report on the situation in Sierra Leone, the UN Secretary-General noted that:

From all parts of the country there are reports of . . . destruction of residential and commercial premises and property. It will remain important to document these actions with a view to tackling issues of impunity and as an element in the process of promoting reconciliation and healing of society.⁴⁶⁷

446. In 1996, in a report on the situation of human rights in the Sudan, the Special Rapporteur of the UN Commission on Human Rights listed as "grave violations of human rights" the indiscriminate killing of civilians during raids by the army and by the PDF, which were regularly accompanied by the burning of houses.⁴⁶⁸

447. In 1996, in a report on the situation of human rights in Somalia, the Independent Expert of the UN Commission on Human Rights described, in a section entitled "Civil war and violations of human rights", the practices of the different Somali factions, including the fact that the winning faction would engage in destruction of private property.⁴⁶⁹

⁴⁶⁴ UN Secretary-General, Report pursuant to Security Council Resolutions 981 (1995), 982 (1995) and 983 (1995), UN Doc. S/1995/987, 23 November 1995, § 7.

Other International Organisations

448. In the Final Communiqué of its 10th Session in 1989, the GCC Supreme Council appealed for “an end to the Israelis’ oppressive measures, including . . . the demolishing of houses, which run counter to the principles of human rights and international norms and conventions”.⁴⁷⁰

449. In the Final Communiqué of its 36th Session in 1990, the GCC Ministerial Council emphasised that “civilians in the Kuwaiti territory under Iraqi occupation must be respected and the integrity of their lives and property ensured” and that “private establishments and property must be safeguarded in accordance with the noble stipulations of Islamic law”. It insisted that “the Iraqi authorities must ensure the protection of all . . . private establishments and all movable and immovable property in the State of Kuwait”.⁴⁷¹

450. In the Final Communiqué of its 11th Session in 1990, the GCC Supreme Council demanded that:

The Iraqi régime must respect the status of civilians and ensure the safety of their lives and property and must safeguard private . . . installations and property in accordance with Islamic law, the provisions of the 1949 Geneva Convention relative to the Protection of Civilian Persons in Time of War and the international humanitarian covenants and conventions.⁴⁷²

451. In a resolution adopted in 1990, the Council of the League of Arab States, with reference to Islamic law, GC IV, the 1948 UDHR and international covenants and conventions relating to the protection of human rights, decided “to insist that the Iraqi authorities must ensure the protection of all . . . private establishments and all movable and immovable property in the State of Kuwait, and to regard any measures incompatible with such a commitment as null and void”. In another resolution adopted the same day, the Council decided “to urge the Iraqi authorities to meet their established international obligations towards third-country nationals by . . . ensuring the safety of their . . . property” and “to hold the Republic of Iraq fully responsible for any damage . . . to their property as a result of a breach on the part of the Iraqi authorities of their international obligations in this respect”.⁴⁷³

⁴⁷⁰ GCC, Supreme Council, 10th Session, Muscat, 18–21 December 1989, Final Communiqué, annexed to Letter dated 29 December 1989 from Oman to the UN Secretary-General, UN Doc. A/45/73-S/21065, 2 January 1990, p. 4.

⁴⁷¹ GCC, Ministerial Council, 36th Session, Jeddah, 5–6 September 1990, Final Communiqué, annexed to Letter dated 6 September 1990 from Oman to the UN Secretary-General, UN Doc. S/21719, 6 September 1990, p. 3, preamble and § 3.

⁴⁷² GCC, Supreme Council, 11th Session, Doha, 22–25 December 1990, annexed to Note verbale dated 26 December 1990 from Qatar to the UN Secretary-General, UN Doc. A/45/908, 27 December 1990, p. 3.

⁴⁷³ League of Arab States, Council, Res. 5038, 31 August 1990, annexed to Letter dated 31 August 1990 from Qatar to the UN Secretary-General, UN Doc. S/21693, 31 August 1990, p. 4; Res. 5039, 31 August 1990, annexed to Letter dated 31 August 1990 from Qatar to the UN Secretary-General, UN Doc. S/21693, 31 August 1990, p. 7. (Libya opposed the resolutions and Algeria, Iraq, Jordan, Mauritania, Palestine, Sudan, Tunisia and Yemen did not participate in the work of the session.)

International Conferences

452. The 25th International Conference of the Red Cross in 1986 adopted a resolution on respect for IHL in armed conflicts and action by the ICRC for persons protected by the Geneva Conventions in which it deplored “the destruction of civilian housing in violation of the laws and customs of war”.⁴⁷⁴

453. In a resolution adopted in 1993 on respect for IHL and support for humanitarian action in armed conflicts, the 90th Inter-Parliamentary Conference condemned the destruction of civilian houses and property.⁴⁷⁵

454. In 1996, in a report submitted to the UN Security Council on the activities of the International Conference on the Former Yugoslavia, the Co-Chairmen of the Steering Committee stated with respect to the remaining Serb population in the Krajina that “human rights violations, including burning . . . of abandoned property . . . were brought to the attention of the Croatian Government at the highest levels on a number of occasions, together with the serious criticisms from the international community”.⁴⁷⁶

IV. Practice of International Judicial and Quasi-judicial Bodies

455. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

456. In a communication to the press issued in 1993 on the situation in Bosnia and Herzegovina, the ICRC denounced “blatant violations of the basic principles of international humanitarian law”, including the fact that “civilian property, particularly houses, is destroyed and burned by the combatants”.⁴⁷⁷

457. In a communication to the press in 2001, the ICRC reminded the parties to the conflict in Afghanistan of “the requirement that persons not taking part in hostilities must be treated with humanity in all circumstances: . . . their property must be respected”.⁴⁷⁸

VI. Other Practice

458. In 1979, an armed opposition group wrote to the ICRC to confirm its commitment to IHL and to denounce “the arson and destruction of 300,000 homes”.⁴⁷⁹

⁴⁷⁴ 25th International Conference of the Red Cross, Geneva, 23–31 October 1986, Res. I, preamble.

D. Pillage

General

Note: For practice concerning pillage of cultural property, see Chapter 12, section C. For practice concerning protection of the wounded, sick and shipwrecked against pillage, see Chapter 34, section C. For practice concerning protection of the dead against despoliation, see Chapter 35, section B. For practice concerning pillage of the personal belongings of persons deprived of their liberty, see Chapter 37, section E.

I. Treaties and Other Instruments

Treaties

- 459.** Article 28 of the 1899 HR provides that “the pillage of a town or place, even when taken by assault, is prohibited”.
- 460.** Article 47 of the 1899 HR, under the section entitled “On military authority over hostile territory”, provides that “pillage is formally prohibited”.
- 461.** Article 28 of the 1907 HR provides that “the pillage of a town or place, even when taken by assault, is prohibited”.
- 462.** Article 47 of the 1907 HR, under the section entitled “On military authority over the territory of the hostile State”, provides that “pillage is formally forbidden”.
- 463.** Article 7 of the 1907 Hague Convention (IX) provides that “a town or place, even when taken by storm, may not be pillaged”.
- 464.** According to Article 21 of the 1907 Hague Convention (X), its signatory parties “undertake to enact or to propose to their legislatures . . . the measures necessary for checking in time of war individual acts of pillage”.
- 465.** Article 6(b) of the 1945 IMT Charter (Nuremberg) includes “plunder of public or private property” in its list of war crimes, for which there must be individual responsibility.
- 466.** Article 33, second paragraph, GC IV provides that “pillage is prohibited”.
- 467.** Article 4(2)(g) AP II prohibits acts of pillage against “all persons who do not take a direct part or who have ceased to take part in hostilities”. Article 4 AP II was adopted by consensus.⁴⁸⁰
- 468.** Pursuant to Article 8(2)(b)(xvi) and (e)(v) of the 1998 ICC Statute, “pillaging a town or place, even when taken by assault” is a war crime in both international and non-international armed conflicts.
- 469.** Article 3 of the 2002 Statute of the Special Court for Sierra Leone gives the Court jurisdiction over serious violations of common Article 3 of the 1949 Geneva Conventions and of AP II, including pillage.

⁴⁸⁰ CDDH, *Official Records*, Vol. VII, CDDH/SR.50, 3 June 1977, p. 90.

Other Instruments

470. Article 44 of the 1863 Lieber Code provides that “all robbery, all pillage or sacking, even after taking a place by main force . . . are prohibited under the penalty of death, or such other severe punishment as may seem adequate for the gravity of the offense”.

471. Article 18 of the 1874 Brussels Declaration states that “a town taken by assault ought not to be given over to pillage by the victorious troops”.

472. Article 39 of the 1874 Brussels Declaration formally forbids pillage.

473. Article 32 of the 1880 Oxford Manual states that “it is forbidden . . . to pillage, even towns taken by assault”.

474. Article 18 of the 1913 Oxford Manual of Naval War prohibits pillage.

475. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including “pillage”.

476. The 1943 Inter-Allied Declaration against Acts of Dispossession affirms the determination of its authors

to combat and defeat the plundering by the enemy Powers of the territories which have been overrun or brought under enemy control. The systematic spoliation of occupied or controlled territory has followed immediately upon each fresh aggression. This has taken every sort of form, from open looting to the most cunningly camouflaged financial penetration, and it has extended to every sort of property – from works of art to stocks of commodities, from bullion and bank-notes to stocks and shares in business and financial undertakings. But the object is always the same – to seize everything of value that can be put to the aggressors’ profit and then to bring the whole economy of the subjugated countries under control so that they must slave to enrich and strengthen their oppressors . . .

[T]hey intend to do their utmost to defeat the methods of dispossession practised by the Governments with which they are at war against the countries and peoples who have been so wantonly assaulted and despoiled . . .

The wording of the Declaration . . . clearly covers all forms of looting to which the enemy has resorted. It applies, e.g. to the stealing or forced purchase of works of art just as much as to the theft or forced transfer of bearer bonds.

477. Article II(1)(b) of the 1945 Allied Control Council Law No. 10 includes “plunder of public or private property” in its list of war crimes, for which there must be individual responsibility.

478. Principle VI(b) of the 1950 Nuremberg Principles adopted by the ILC provides that “plunder of public or private property” is a war crime.

479. Under Rule 4 of the 1950 UN Command Rules and Regulations, Military Commissions of the UN Command had jurisdiction over offences such as plunder of public and private property.

480. Article 3(e) of the 1993 ICTY Statute gives the Tribunal jurisdiction over violations of the laws and customs of war, expressly including “plunder of public and private property”.

481. In Article 2(c) of the 1994 Agreement on a Temporary Cease-fire on the Tajik-Afghan Border, the concept of “cessation of hostilities” was said to include the prevention of pillage of the civilian population and servicemen.

482. Article 4(f) of the 1994 ICTR Statute gives the Tribunal jurisdiction over, *inter alia*, violations of common Article 3 of the 1949 Geneva Conventions and AP II, expressly including pillage.

483. Pursuant to Article 20(e)(v) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, “plunder of public and private property”, in violation of the laws and customs of war, is considered a war crime. Article 20(f)(vi) provides that pillage committed in violation of IHL applicable in armed conflict not of an international character is also regarded as a war crime.

484. Under Section 7.1 and 7.2 of the 1999 UN Secretary-General’s Bulletin, pillage of civilians and persons *hors de combat* is prohibited “at any time and in any place”.

485. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(xvi) and (e)(v), “pillaging a town or place, even when taken by assault” is a war crime in both international and non-international armed conflicts.

II. National Practice

Military Manuals

486. Argentina’s Law of War Manual (1969) states that “the pillage of towns and localities, even those taken by assault, is prohibited”.⁴⁸¹ Pillage is also forbidden in occupied territories.⁴⁸²

487. Argentina’s Law of War Manual (1989) provides that pillage is “strictly prohibited”.⁴⁸³

488. Australia’s Commanders’ Guide states that “theft or looting of civilian property by armed combatants is prohibited”.⁴⁸⁴ It also provides that “pillage, the violent acquisition of property for private purposes, is prohibited”.⁴⁸⁵ It further states that “stealing or looting private property is not sanctioned by international law and members who engage in it can expect to face criminal prosecution”.⁴⁸⁶

⁴⁸¹ Argentina, *Law of War Manual* (1969), § 1.013.

⁴⁸² Argentina, *Law of War Manual* (1969), § 4.012.

⁴⁸³ Argentina, *Law of War Manual* (1989), § 4.29.

⁴⁸⁴ Australia, *Commanders’ Guide* (1994), § 610.

⁴⁸⁵ Australia, *Commanders’ Guide* (1994), § 970.

⁴⁸⁶ Australia, *Commanders’ Guide* (1994), § 1040.

489. Australia's Defence Force Manual provides that "pillage, the violent acquisition of property for private purposes, is prohibited".⁴⁸⁷ It adds that "pillage is . . . forbidden, even if the town or place concerned is taken by assault".⁴⁸⁸ It also notes that pillage is prohibited in both one's own territory and occupied territory.⁴⁸⁹ In the case of occupation, the manual specifically states that:

Pillage is prohibited. Pillage is the seizure or destruction of enemy private or public property or money by representatives of a belligerent, usually armed forces, for private purposes . . . A military personnel is not allowed to become a thief or a bandit merely because of involvement in a war. The rule against pillage is directed against all private acts of lawlessness committed against enemy property.⁴⁹⁰

490. Belgium's Law of War Manual states that "it is prohibited to pillage a town or a locality, even taken by assault".⁴⁹¹

491. Belgium's Teaching Manual for Soldiers provides that "pillage and theft of [civilian] property are prohibited".⁴⁹²

492. Benin's Military Manual prohibits pillage, "even if the town or location concerned is taken by assault".⁴⁹³

493. Burkina Faso's Disciplinary Regulations states that, under the laws and customs of war, pillage, in particular of civilian property, is forbidden.⁴⁹⁴

494. Cameroon's Disciplinary Regulations states that, under the laws and customs of war, pillage, in particular of civilian property, is forbidden.⁴⁹⁵

495. Under Cameroon's Instructors' Manual, one of the "rules for behaviour in combat" is to respect civilian property and not to steal it.⁴⁹⁶

496. Canada's LOAC Manual provides that "pillage, the violent acquisition of property for private purposes, is prohibited. Pillage is theft, and therefore is an offence under the *Code of Service Discipline*."⁴⁹⁷ In respect of civilians, the manual states that pillage is expressly prohibited in the territories of the parties to the conflict and in occupied territories.⁴⁹⁸ In addition, it states that "the pillage of a town, . . . even when taken by assault, is prohibited".⁴⁹⁹ The manual specifically emphasises that, in occupied territory:

Pillage is prohibited. Pillage is the seizure or destruction of enemy private or public property or money by representatives of a belligerent, usually soldiers, for private

⁴⁹⁵ Cameroon, *Disciplinary Regulations* (1975), Article 32.

⁴⁹⁶ Cameroon, *Instructors' Manual* (1992), p. 151.

⁴⁹⁷ Canada, *LOAC Manual* (1999), Glossary, p. GL-15 and p. 6-5, § 50.

⁴⁹⁸ Canada, *LOAC Manual* (1999), p. 11-4, § 33(c).

⁴⁹⁹ Canada, *LOAC Manual* (1999), p. 6-3, § 31.

purposes... Soldiers are not allowed to become thieves or bandits on their own account merely because they are involved in an armed conflict. The rule against pillage is directed against all private acts of lawlessness committed against enemy property.⁵⁰⁰

The manual lists "looting or gathering trophies" as a war crime "recognized by the LOAC".⁵⁰¹ It also specifically states that, in the course of non-international armed conflicts, pillage is prohibited "at any time and anywhere".⁵⁰²

497. Canada's Code of Conduct provides that "looting is prohibited".⁵⁰³ It adds that:

A battlefield and destroyed civilian areas offer attractive objects for the curiosity seeker. No matter how tempting such objects may be, the taking of souvenirs is prohibited. Looting is theft; it is a serious offence and it may also have direct operational consequences.

...

The taking of personal war trophies is also prohibited. Not only is looting illegal, there is also a significant operational risk that such property may be booby-trapped. An isolated act of theft may impede your mission by turning the local population against you.

...

The Law of Armed Conflict does permit the seizure and use of property belonging to the opposing forces under certain circumstances. However, the taking and use of such property must only be done where properly authorized... Property may never be taken for the personal benefit of individual CF personnel.⁵⁰⁴

498. China's PLA Rules of Discipline instructs: "Do not take a single needle or piece of thread from the masses – Turn in everything captured."⁵⁰⁵

499. Colombia's Basic Military Manual provides that it is prohibited "to steal personal property" of non-combatants, as well as "to plunder the property and belongings" of the civilian population.⁵⁰⁶

500. Colombia's Instructors' Manual recalls that theft is prohibited.⁵⁰⁷

501. Congo's Disciplinary Regulations states that, under the laws and customs of war, pillage, in particular of civilian property, is forbidden.⁵⁰⁸

502. Croatia's Soldiers' Manual instructs soldiers to protect the property of civilians and not to steal it.⁵⁰⁹

503. Croatia's Commanders' Manual prohibits pillage.⁵¹⁰

⁵⁰⁰ Canada, *LOAC Manual* (1999), p. 12-8, § 67.

⁵⁰⁹ Croatia, *Soldiers' Manual* (1992), p. 5.

⁵¹⁰ Croatia, *Commanders' Manual* (1992), § 18.

504. The Military Manual of the Dominican Republic states that:

When searching dwellings in enemy towns or villages, do not take non-military items. Theft is a violation of the laws of war . . . Stealing private property will make civilians more likely to fight you or to support the enemy forces. You do not want to have to fight both the enemy armed forces and civilians.⁵¹¹

505. Ecuador's Naval Manual states that "the following acts constitute war crimes: . . . plunder and pillage of public or private property".⁵¹²

506. El Salvador's Human Rights Charter of the Armed Forces states that pillage and stealing are violations of human rights.⁵¹³

507. France's Disciplinary Regulations as amended provides that, under international conventions, pillage is prohibited.⁵¹⁴

508. France's LOAC Summary Note prohibits pillage.⁵¹⁵

509. France's LOAC Teaching Note provides that "pillage is prohibited".⁵¹⁶

510. France's LOAC Manual provides that pillage is a prohibited method of warfare.⁵¹⁷ It also states that "pillage constitutes an act of spoliation by which one or several military personnel appropriate objects for a personal or private use, without the consent of the owner of those objects. Pillage constitutes a war crime." It stresses that war trophies or souvenirs might be qualified as theft when the owner does not consent to the appropriation.⁵¹⁸ The manual further states that pillage is a crime for which there is no statute of limitation under the 1998 ICC Statute.⁵¹⁹

511. Germany's Military Manual provides for a general prohibition of pillage under the heading "Protection of the civilian population".⁵²⁰ It also prohibits pillage in occupied territories.⁵²¹

512. Germany's IHL Manual prohibits plunder.⁵²²

513. Indonesia's Air Force Manual provides that "it is prohibited to . . . pillage any property of the enemy".⁵²³

514. Indonesia's Directive on Human Rights in Irian Jaya and Maluku states that the "appropriation and theft of the property of the population is a criminal offence".⁵²⁴

515. With reference to Israel's Law of War Booklet, the Report on the Practice of Israel states that "IDF regulations . . . strictly prohibit any act of pillage or looting".⁵²⁵

516. Israel's Manual on the Laws of War states that:

Looting is the theft of enemy property (private or public) by individual soldiers for private purposes . . .

Today, at any rate, looting is absolutely prohibited. The Hague Conventions forbid looting in the course of battle as well as in occupied territory . . . Looting is regarded as a despicable act that tarnishes both the soldier and the IDF, leaving a serious moral blot . . . During the Galilee War, there were unfortunately cases of looting of civilians in Lebanon including a case where even officers – a major and captain – were demoted to the rank of private and [received] a long prison term.⁵²⁶

517. Italy's IHL Manual provides that "it is prohibited . . . to pillage a locality, even when taken by assault".⁵²⁷ It is also a duty of an occupying State "to prevent pillage".⁵²⁸ The manual further considers "plunder of public or private property" as a war crime.⁵²⁹

518. Italy's LOAC Elementary Rules Manual prohibits pillage.⁵³⁰ It also notes that civilian property must be respected and shall not be stolen.⁵³¹

519. Kenya's LOAC Manual orders troops to "respect other people's property. Looting is prohibited."⁵³² Likewise, it states that "it is forbidden . . . to commit pillage, even if the town or place concerned is taken by assault".⁵³³

520. South Korea's Military Regulation 187 provides that theft is a war crime.⁵³⁴

521. South Korea's Military Law Manual states that commanders are responsible for acts of pillage committed by soldiers.⁵³⁵

522. Madagascar's Military Manual prohibits pillage.⁵³⁶

523. Mali's Army Regulations provides that, under the laws and customs of war, pillage, in particular of private property, is forbidden.⁵³⁷

524. Morocco's Disciplinary Regulations states that, under the laws and customs of war, pillage, in particular of civilian property, is forbidden.⁵³⁸

525. The Military Manual of the Netherlands states that "pillage is the taking of goods belonging to civilians during an armed conflict. It is a form of theft.

⁵³⁷ Mali, *Army Regulations* (1979), Article 36.

⁵³⁸ Morocco, *Disciplinary Regulations* (1974), Article 25(2).

Pillage is prohibited.⁵³⁹ The manual also specifically states that, in the course of non-international armed conflicts, pillage is prohibited at any time and anywhere.⁵⁴⁰

526. The Military Handbook of the Netherlands provides that “pillage, the taking of property of civilians, is prohibited”.⁵⁴¹

527. New Zealand’s Military Manual states that “pillage, the violent acquisition of property for private purposes, is prohibited”.⁵⁴² The manual also provides that, in occupied territory:

Pillage is prohibited. Pillage is the seizure or destruction of enemy private or public property or money by representatives of a belligerent, usually soldiers, for private purposes. A soldier may under certain circumstances seize enemy property but, once such property has been seized, it belongs to the State which he is serving. He is not allowed to become a thief or a bandit merely because he is involved in a war. The rule against pillage is directed against all private acts of lawlessness committed against enemy property.⁵⁴³

The manual also states that pillage is a war crime.⁵⁴⁴ Likewise, “among other war crimes recognised by the customary law of armed conflict are . . . looting or gathering trophies”.⁵⁴⁵ The manual also specifically states that, in the course of non-international armed conflicts, pillage is prohibited at any time and anywhere.⁵⁴⁶

528. Nigeria’s Operational Code of Conduct gives troops, *inter alia*, the following instruction: “No looting of any kind. (A good soldier will never loot.)”⁵⁴⁷

529. Nigeria’s Military Manual provides that civilian property shall be safeguarded, *inter alia*, against theft.⁵⁴⁸

530. Nigeria’s Manual on the Laws of War states that “looting is most damaging to morale and destructive to discipline. Looting is absolutely prohibited.”⁵⁴⁹ It also considers pillage to be a war crime.⁵⁵⁰ It further states that:

Private property should be respected. It must not be . . . pillaged even if found in an occupied territory . . . Real property belonging to local government such as hospitals and buildings dedicated to public worship, charity, education, religion, science and art should be treated as private property.⁵⁵¹

⁵⁵¹ Nigeria, *Manual on the Laws of War* (undated), § 27.

The manual also provides that the absence of persons from their house does not authorise pillage and damage.⁵⁵²

531. Nigeria's Soldiers' Code of Conduct states that "civilian property shall be safeguarded against theft".⁵⁵³

532. Peru's Human Rights Charter of the Security Forces instructs army and police forces to respect private property.⁵⁵⁴ It emphasises that theft is to be punished. It states that "if you steal, you damage your prestige and the prestige of the Armed Forces".⁵⁵⁵ Theft and plunder are considered to be "violations of human rights".⁵⁵⁶

533. The Military Directive to Commanders of the Philippines tries "to protect troops from false charges of looting", by requesting civil relations groups to immediately conduct a survey of the residents after the operation, and make proper documentation, including witnesses' statements, material and photographs.⁵⁵⁷

534. The Soldier's Rules of the Philippines instructs troops: "Respect other people's property. Looting is prohibited."⁵⁵⁸

535. Russia's Military Manual provides that allowing a town or an area to be pillaged is a prohibited method of warfare.⁵⁵⁹

536. Senegal's Disciplinary Regulations states that, under the laws and customs of war, pillage is forbidden.⁵⁶⁰

537. Senegal's IHL Manual specifies that "every individual is entitled to respect for the minimum universal rules . . . which prohibit . . . pillage".⁵⁶¹

538. South Africa's LOAC Manual provides that pillage and stealing of civilian property is forbidden.⁵⁶² It also states that pillage is a grave breach of the Geneva Conventions and a war crime.⁵⁶³

539. Spain's LOAC Manual states that "pillage and plunder of conquered populations or localities are especially forbidden".⁵⁶⁴

540. Sweden's IHL Manual states that "pillage in connection with the capture of a town or locality is prohibited".⁵⁶⁵

541. Switzerland's Basic Military Manual states that all forms of pillage are prohibited. It refers to Articles 28 of the 1907 HR and 33 GC IV.⁵⁶⁶ It further defines pillage as a war crime.⁵⁶⁷

⁵⁶⁷ Switzerland, *Basic Military Manual* (1987), Article 200(2)(i).

542. Togo's Military Manual prohibits pillage, "even if the town or location concerned is taken by assault".⁵⁶⁸

543. Under Uganda's Code of Conduct, "theft of property" is a punishable offence.⁵⁶⁹

544. Uganda's Operational Code of Conduct provides that "the offence of undermining relationship with the civilian population shall include . . . stealing civilian property or food".⁵⁷⁰ It further states that "the offence of personal interests endangering operational efficiency shall include . . . capturing from the enemy goods for personal use instead of capturing materials needed to help the war effort of the movement; failing to report and hand in goods captured from the enemy".⁵⁷¹

545. The UK Military Manual states that pillage is prohibited whether in the territory of the parties to a conflict or in occupied territory.⁵⁷² It also provides that "pillage of a town, even when it has been taken by assault, is forbidden".⁵⁷³

In connection with the requirements for the granting to irregular combatants of the rights of the armed forces, the manual stipulates that "irregular troops should have been warned against the employment of . . . pillage".⁵⁷⁴ The manual also considers that "in addition to the 'grave breaches' of the 1949 [Geneva] Conventions, . . . the following are examples of punishable violations of the laws of war, or war crimes: . . . pillage".⁵⁷⁵ In respect of enemy private property, the manual further provides that:

Private property must be respected. It must not be . . . pillaged, even if found in a captured town or other place. This prohibition embodied in the Hague Rules [1907 HR] did not constitute a new rule. However, it has for a long time past been embodied in the regulations of every civilised army, for nothing is more demoralising to troops or more subversive of discipline than plundering. Theft and robbery are as punishable in war as in peace, and the soldier in an enemy country must observe the same respect for property as in his garrison at home.⁵⁷⁶

546. The UK LOAC Manual provides that "it is forbidden . . . to commit pillage, even if the town or place concerned is taken by assault".⁵⁷⁷ The manual lists the "Rules for soldiers", including the following: "I must not – . . . take enemy property for my personal use."⁵⁷⁸ As a "rule for non-commissioned officers", looting is also prohibited.⁵⁷⁹

547. The US Field Manual provides that "the pillage of a town or place, even when taken by assault, is prohibited".⁵⁸⁰ Pillage is also prohibited in the

territory of the parties to a conflict as well as in occupied territory.⁵⁸¹ The manual further states that “a member of the armed forces who before or in the presence of the enemy quits his place of duty to plunder or pillage is guilty of the offense of misbehavior before the enemy”.⁵⁸² It also provides that “in addition to the ‘grave breaches’ of the Geneva Conventions of 1949, the following acts are representative of violations of the law of war (‘war crimes’): . . . pillage”.⁵⁸³

548. The US Air Force Pamphlet, analysing the situations in both national and occupied territories, recalls that “Article 33 [GC IV] prohibits . . . pillage (also prohibited in Art. 47 [of the 1907] HR)”.⁵⁸⁴ It also provides that “in addition to the grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: . . . Plunder or pillage of public or private property.”⁵⁸⁵

549. The US Soldier’s Manual states that:

When searching dwellings in enemy towns or villages, do not take nonmilitary items. Theft is a violation of the laws of war and US law. Stealing private property will make civilians more likely to fight you or to support the enemy forces. You do not want to have to fight both the enemy armed forces and civilians.⁵⁸⁶

550. Under the US Instructor’s Guide, pillage means “to loot, to deprive of money or property by violence”.⁵⁸⁷ It also states that “in addition to the grave breaches of the Geneva Conventions, the following acts are further examples of war crimes: . . . pillaging”.⁵⁸⁸

551. The US Rules of Engagement for Operation Desert Storm prohibits looting.⁵⁸⁹

552. The US Naval Handbook states that “the following acts are representative war crimes: . . . plunder and pillage of public or private property”.⁵⁹⁰

553. Under the YPA Military Manual of the SFRY (FRY), “it is prohibited to pillage enemy property under any circumstances”. The manual considers any unlawful appropriation of private property as pillage.⁵⁹¹

National Legislation

554. Albania’s Military Penal Code punishes “stealing on the battlefield”.⁵⁹²

555. Algeria’s Code of Military Justice punishes pillage and damage to commodities, goods or belongings committed by soldiers as a group.⁵⁹³

556. Argentina’s Draft Code of Military Justice punishes any soldier who “commits any . . . act of pillage”.⁵⁹⁴

557. Australia's War Crimes Act considers "any war crime within the meaning of the instrument of appointment of the Board of Inquiry [set up to investigate war crimes committed by enemy subjects]" as a war crime, including pillage and wholesale looting.⁵⁹⁵

558. Australia's Defence Force Discipline Act, in an article on looting, punishes any

person, being a defence member or a defence civilian, who, in the course of operations against the enemy, . . . takes any property left exposed or unprotected in consequence of such operations . . . or . . . takes any vehicle, equipment or stores captured from or abandoned by the enemy in those operations.⁵⁹⁶

559. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "pillaging" in international and non-international armed conflicts.⁵⁹⁷

560. Azerbaijan's Criminal Code (1960) prohibits pillage.⁵⁹⁸

561. Azerbaijan's Criminal Code (1999) prohibits robbery as a war crime.⁵⁹⁹

562. Bangladesh's International Crimes (Tribunal) Act provides that "plunder of public and private property" is a war crime. It adds that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.⁶⁰⁰

563. Under the Criminal Code of the Federation of Bosnia and Herzegovina, pillage is a war crime.⁶⁰¹ The Criminal Code of the Republika Srpska contains the same provision.⁶⁰²

564. Under Brazil's Military Penal Code, pillage committed during military operations or in occupied territory is a crime.⁶⁰³

565. Bulgaria's Penal Code as amended provides that any "person who robs, steals . . . property belonging to a population located in the region of military operations" commits a crime.⁶⁰⁴

566. Burkina Faso's Code of Military Justice punishes pillage or damage to commodities, goods or belongings committed by soldiers as a group.⁶⁰⁵

567. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "the pillage of a town or a locality, even when taken by assault" constitutes a war crime in both international and non-international armed conflicts.⁶⁰⁶

568. Cameroon's Code of Military Justice punishes pillage and damage to commodities, goods or belongings committed by soldiers as a group.⁶⁰⁷

569. Canada's National Defence Act punishes:

every person who...breaks into any house or other place in search of plunder...steals any money or property that has been left exposed or unprotected in consequence of warlike operations, or...takes otherwise than for the public service any money or property abandoned by the enemy.⁶⁰⁸

570. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.⁶⁰⁹

571. Chad's Code of Military Justice punishes pillage and damage to commodities, goods or belongings committed by soldiers as a group.⁶¹⁰

572. Chile's Code of Military Justice provides for a prison sentence for "military personnel who, failing the obedience they owe to their superiors, ... pillage the inhabitants of the territories where they are in service".⁶¹¹

573. China's Law Governing the Trial of War Criminals provides that "robbing" constitutes a war crime.⁶¹²

574. China's Criminal Code as amended provides that "during armed conflicts and in the area of military operations ... looting the property of innocent civilians" is a punishable offence.⁶¹³

575. Colombia's Military Penal Code provides for a prison sentence for "anyone who, in combat operation, appropriates movable property, without any justification, for his own profit or the profit of a third person".⁶¹⁴

576. Colombia's Penal Code imposes a criminal sanction on "anyone who, during an armed conflict, despoils ... a protected person".⁶¹⁵

577. Under the DRC Code of Military Justice as amended, pillage committed in time of war is a punishable offence.⁶¹⁶

578. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.⁶¹⁷

⁶²⁹ Georgia, *Criminal Code* (1999), Article 413(a).

591. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or non-international armed conflict, "pillages . . . property of the adverse party".⁶³⁰

592. Ghana's Armed Forces Act punishes:

every person subject to the Code of Service Discipline who –

...

(e) breaks into any house or other place in search of plunder,

...

(h) steals any money or property that has been left exposed or unprotected in consequence of warlike operations, or

(i) takes otherwise than for the service of the Republic of Ghana any money or property abandoned by the enemy.⁶³¹

593. Guinea's Criminal Code punishes pillage and damage to commodities, goods or belongings committed by soldiers as a group.⁶³²

594. Under Hungary's Criminal Code as amended, "the person who loots civilian goods in an operational or occupied territory" is, upon conviction, guilty of a war crime.⁶³³

595. Under India's Army Act, "any person subject to this Act who . . . breaks into any house or other place in search of plunder . . . shall, on conviction by court-martial, [be punished]".⁶³⁴ The Act also criminalises offences against the property or person of any inhabitant of, or resident in, the country in which a soldier is serving.⁶³⁵

596. Under Indonesia's Penal Code, theft committed on the occasion of "riots, insurgencies or war" is a punishable offence.⁶³⁶

597. Indonesia's Military Penal Code punishes:

Anyone who commits theft by misusing his/her official position . . .

Any military personnel who commits theft in the area under his/her authority . . .

Any member of the armed forces who is being prepared for warfare and commits theft or threatens to abuse his/her authority or opportunity and official facilities . . .

Any person subject to military court authority who is being prepared for warfare, or who accompanying with the approval of the military authority, commits theft by abusing his/her authority, opportunity or official facilities.⁶³⁷

598. Iraq's Military Penal Code states that:

Every person who, taking advantage of war panic or misusing military prestige, takes possession of other persons' property without any justification, or seizes such

⁶⁴⁸ South Korea, *Military Criminal Code* (1962), Article 82.

⁶⁴⁹ Latvia, *Criminal Code* (1998), Section 74.

⁶⁵⁰ Luxembourg, *Law on the Repression of War Crimes* (1947), Article 2(6).

Every person subject to service law under this Act who –

- ...
 (b) breaks into any house or other place in search of plunder; or
 ...
 (d) steals any property which has been left exposed or unprotected in consequence of warlike operations; or
 (e) takes otherwise than for the public service any vehicle, equipment or stores abandoned by the enemy,
 shall be guilty of looting and liable on conviction by court-martial to imprisonment or any less punishment provided by this Act.⁶⁵¹

611. Mali's Code of Military Justice punishes pillage and damage to commodities, goods or belongings committed by soldiers as a group.⁶⁵²

612. Under Mali's Penal Code, "the pillage of a town or locality, even when taken by assault," is a war crime in international armed conflicts.⁶⁵³

613. Mexico's Code of Military Justice as amended punishes "anyone who, without being absolutely required by war operations, ... plunders towns and villages".⁶⁵⁴ It also punishes "anyone who, taking advantage of his position in the army or in the armed forces or of the fears created by war, and for the purpose of illegitimate appropriation, seizes objects belonging to the local population", as well as anyone who "operates forced requisitions to appropriate goods for oneself, on the pretext of public interest".⁶⁵⁵

614. Moldova's Penal Code punishes "robbery ... committed against the population of the area of military operations".⁶⁵⁶

615. Morocco's Code of Military Justice punishes pillage and damage to commodities, goods or belongings committed by soldiers as a group.⁶⁵⁷

616. Mozambique's Military Criminal Law provides that "anyone who, in time of war, pillages ... goods or any other objects" commits a punishable offence.⁶⁵⁸

617. Myanmar's Defence Service Act punishes any person who "breaks into any house or other place in search of plunder".⁶⁵⁹

618. The Definition of War Crimes Decree of the Netherlands includes "pillage" in its list of war crimes.⁶⁶⁰

619. Under the Military Criminal Code as amended of the Netherlands, the soldier "who abuses, in time of war, the power, opportunities or means given to him as a soldier for committing theft may be punished for pillage".⁶⁶¹

⁶⁵¹ Malaysia, *Armed Forces Act* (1972), Section 46(b), (d) and (e).

⁶⁵⁶ Moldova, *Penal Code* (2002), Article 390.

⁶⁵⁷ Morocco, *Code of Military Justice* (1956), Article 169.

⁶⁵⁸ Mozambique, *Military Criminal Code* (1987), Article 88.

⁶⁵⁹ Myanmar, *Defence Service Act* (1959), Section 35(b).

⁶⁶⁰ Netherlands, *Definition of War Crimes Decree* (1946), Article 1.

⁶⁶¹ Netherlands, *Military Criminal Code as amended* (1964), Article 156.

620. Under the International Crimes Act of the Netherlands, “pillaging a town or place, even when taken by assault” is a crime, whether committed in an international or a non-international armed conflict.⁶⁶²

621. New Zealand’s Armed Forces Discipline Act provides that:

Every person subject to this Act commits the offence of looting, and is liable to imprisonment for life, who –

...

- (b) Steals any property which has been left unexposed or unprotected in consequence of any such war or operations as are mentioned in paragraph (a) of this section; or
- (c) Appropriates, otherwise than on behalf of Her Majesty the Queen in right of New Zealand, any supplies of any description whatsoever captured from or abandoned by the enemy.⁶⁶³

622. Under New Zealand’s International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(xvi) and (e)(v) of the 1998 ICC Statute.⁶⁶⁴

623. Nicaragua’s Military Penal Code punishes any “soldier who plunders the inhabitants of enemy towns and territories”.⁶⁶⁵ More generally, it punishes:

the soldier who, during an international or civil war, commits serious violations of international conventions ratified by Nicaragua concerning the use of warlike weapons, the conduct of hostilities, the protection of the wounded, sick and shipwrecked, the treatment of prisoners and other norms of war . . .⁶⁶⁶

624. Under Nigeria’s Armed Forces Decree 105 as amended, looting is a punishable offence. A person is guilty of looting who:

- (b) steals any property which has been left exposed or unprotected in consequence of the operations as are mentioned in paragraph (a) of this section [warlike operations]; or
- (c) takes, otherwise than for the public service, any vehicle, equipment or stores abandoned by the enemy.⁶⁶⁷

625. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the Geneva Conventions of 12 August 1949 . . . [and in] the two additional protocols to these Conventions . . . is liable to imprisonment”.⁶⁶⁸

⁶⁶⁶ Nicaragua, *Military Penal Code* (1996), Article 47.

⁶⁶⁷ Nigeria, *Armed Forces Decree 105 as amended* (1993), Section 51(b) and (c).

⁶⁶⁸ Norway, *Military Penal Code as amended* (1902), § 108.

626. Paraguay's Military Penal Code punishes plunder in time of war.⁶⁶⁹ It further provides that "the person guilty of pillage shall be punished by a prison sentence".⁶⁷⁰

627. Under Paraguay's Penal Code, "looting of private property", in time of war, armed conflict or military occupation, is a war crime.⁶⁷¹

628. Under Peru's Code of Military Justice, it is a punishable violation of international law "to plunder the inhabitants" in time of war.⁶⁷² The Code also punishes "the soldiers who, in time of war or of public calamity, of shipwreck or of aerial accident, commit acts of plunder or of pillage".⁶⁷³

629. Under the Articles of War of the Philippines, it is an offence to abandon one's post to plunder or pillage.⁶⁷⁴

630. Under the War Crimes Trial Executive Order of the Philippines, applicable to acts committed during the Second World War, "plunder of public and private property" is a war crime.⁶⁷⁵

631. Under Russia's Criminal Code, "plunder of the national property in occupied territory" is a crime against the peace and security of mankind.⁶⁷⁶

632. Senegal's Penal Code as amended punishes pillage and damage to commodities, goods or belongings committed by soldiers as a group.⁶⁷⁷

633. Singapore's Armed Forces Act as amended provides that:

Every person subject to military law who –

...

- (b) steals any property which has been left exposed or unprotected in consequence of any such operations as are mentioned in paragraph (a) [warlike operations]; or
- (c) takes, otherwise than for the purposes of the Singapore Armed Forces, any aircraft, vessel, arms, vehicle, equipment or stores abandoned by the enemy,

shall be guilty of looting and shall be liable on conviction by a subordinate military court to imprisonment...⁶⁷⁸

634. Slovakia's Criminal Code as amended punishes "whoever in a theatre of war, on the battlefield or in places affected by military operations... seizes another person's belongings, taking advantage of such person's distress".⁶⁷⁹

635. Under Slovenia's Penal Code, pillage of the civilian population is a war crime.⁶⁸⁰

663. Under the Penal Code as amended of the SFRY (FRY), “plunder of the population’s property” is a war crime against the civilian population.⁷⁰⁹

664. Zambia’s Defence Act as amended provides that:

Any person subject to military law under this Act who –

...

(b) steals any property which has been left exposed or unprotected in consequence of warlike operations; or

(c) takes otherwise than for the public service any vehicle, equipment or stores abandoned by the enemy;

shall be guilty of looting and liable, on conviction by court-martial, to imprisonment or any less punishment provided by this Act.⁷¹⁰

665. Zimbabwe’s Defence Act as amended provides that:

Any member [of the Defence Forces] who –

...

(b) steals any property which has been left exposed or unprotected in consequence of warlike operations; or

(c) takes otherwise than for the services of the Defence Forces or any other Military Forces any vehicle, equipment or stores abandoned by the enemy;

shall be guilty of the offence of looting and liable to imprisonment or any less punishment.⁷¹¹

National Case-law

666. In its judgement in the *Military Junta case* in 1985, Argentina’s National Court of Appeals applied the 1907 HR to acts of pillage committed in the context of internal violence. It resorted to the provisions of the Penal Code relating to theft to determine the sanction.⁷¹²

667. In the *Takashi Sakai case* in 1946, a Chinese Military Tribunal found the accused, a Japanese military commander in China during the Second World War, guilty, *inter alia*, of “inciting or permitting his subordinates to . . . plunder . . . civilians”, notably rice, poultry and other foods. The Tribunal said that, in so doing, “he had violated the [1907 HR] . . . These offences are war crimes and crimes against humanity.” It found that Articles 28 and 47 of the 1907 HR had been violated.⁷¹³

668. During the First World War, France adopted a law to extend its jurisdiction to offences committed in invaded territory. On this basis, some German officers and soldiers were convicted by courts-martial of acts of pillage.⁷¹⁴

669. In the *Szabados case* before a French Military Tribunal in 1946, the accused, a former German non-commissioned officer of the 19th Police Regiment stationed in occupied France, was charged with, and found guilty of, *inter alia*, the count of pillage in time of war. The Tribunal found the looting of personal belongings and other property of civilians evicted from their homes prior to their destruction to be a violation of Article 440 of the French Penal Code, which dealt with pillage.⁷¹⁵

670. In the *Holstein case* before a French Military Tribunal in 1947, some of the accused, members of various German units, were found guilty of war crimes for having committed acts of looting and pillage, prohibited under the French Code of Military Justice.⁷¹⁶

671. In the *Bauer case* before a French Military Tribunal in 1947, a German *gendarme* was found guilty of war crimes for having stolen a sewing machine and other objects, which he took to Germany during the retreat from France. He was also found guilty of war crimes for having received stolen goods, when removing and using furniture which his predecessor in the *gendarmerie* post had stolen from a French inhabitant to whom the accused knew it belonged.⁷¹⁷

672. In the *Buch case* before a French Military Tribunal in 1947, the accused, a paymaster during the occupation of France, was found guilty of a war crime for having received stolen goods. The German *Kommandantur* at Saint-Die had seized silverware which a French doctor had left behind in crates before leaving the locality. The goods were sold at an auction by the *Kommandantur* and part of it bought by the accused.⁷¹⁸

673. In the *Jorgić case* before Germany's Higher Regional Court at Düsseldorf in 1997, the accused was convicted of genocide committed in the context of the conflict in the former Yugoslavia. In 1999, the Federal Supreme Court confirmed the judgement of first instance in most parts. Both courts referred to acts of plunder as part of the general background in which the genocide took place.⁷¹⁹

674. The Report on the Practice of Israel states that any claim of looting would be immediately investigated and all necessary measures taken. The report refers to IDF military court-martial cases in which soldiers were convicted of looting.⁷²⁰

Conseil de Guerre de Rennes, 26 February 1915 and of the Conseil de Guerre de Toulouse, 16 July 1916.

⁷¹⁹ Germany, Higher Regional Court at Düsseldorf, *Jorgić case*, Judgement, 26 September 1997; Federal Supreme Court, *Jorgić case*, Judgement, 30 April 1999.

⁷²⁰ Report on the Practice of Israel, 1997, Chapter 2.3, referring to Appeal 217/82, *The Chief Military Prosecutor v. Sergeant Ofer Perzig*; Appeal 290/82, *Kablan Valid v. The Chief Military Prosecutor*; Appeal 36/82, *Corporal Prosper Buhadana v. The Chief Military Prosecutor*.

675. In the *Esau case* in 1948, the Special Criminal Court at Hertogenbosch in the Netherlands acquitted the chief commissioner of Germany's high frequency research council of charges of plunder of public and private property for ordering the removal of scientific instruments and gold from factories in the Netherlands. The Court held that the accused had only ordered the removal of property which he considered would be of assistance to the German war effort, in accordance with Article 53 of the 1907 HR. On appeal by the prosecutor in 1949, the Special Court of Cassation of the Netherlands quashed the lower court's decision, holding that the relevant law of the Netherlands adopted the same definition of war crimes as Article 6(b) of the 1945 IMT Charter (Nuremberg) and included "plunder of public and private property, wanton destruction of cities... or devastation not justified by military necessity". According to the Court, the requirement that the acts not be justified by military necessity did not apply to plunder as this was prohibited by international law. Accordingly, the removal of the property in question was unlawful unless the property fell within one of the categories of goods which the occupant was exceptionally entitled to seize from private individuals by virtue of Article 53(2) of the 1907 HR. Considering the property in question, the Court concluded that, with the exception of the short wave transmitter, none of the goods could be deemed to be excepted from the general inviolability of private property in war.⁷²¹

676. In the *Fiebig case* before the Special Criminal Court at The Hague in the Netherlands in 1949, the accused, a delegate of the Minister of the Reich for Armaments and Munitions, was found guilty of war crimes for participating in the economic spoliation of the Netherlands and the removal of stocks of food. As to the contention of state of necessity raised by the accused, the Court held that, even if there was a so-called "war necessity" for Germany to plunder occupied countries, this was no excuse for a method of plunder which was contrary to the laws of war, in the very circumstances envisaged by the treaty which prohibited it. It also underlined that the fact that spoliation of occupied territory was a systematic government policy of Germany made it *a fortiori* a prohibited act and a war crime.⁷²²

677. In the *Pohl case* before the US Military Tribunal at Nuremberg in 1947, the accused, top ranking officials of the SS, were charged with taking part in the commission of plunder of public and private property. They were found guilty, *inter alia*, of the looting of property of Jewish civilians in eastern occupied territories.⁷²³

678. In the *Von Leeb (The High Command Trial) case* before the US Military Tribunal at Nuremberg in 1948, the accused, former high-ranking officers in the German army and navy, were charged, *inter alia*, with war crimes and crimes

⁷²¹ Netherlands, Special Criminal Court at Hertogenbosch, *Esau case*, Judgement, 27 April 1948; Special Court of Cassation, *Esau case*, Judgement, 21 February 1949.

⁷²³ US, Military Tribunal at Nuremberg, *Pohl case*, Judgement, 3 November 1947.

against humanity against civilians in that they participated in atrocities such as plunder of public and private property. The evidence showed that the looting and spoliation which had been carried out in the various occupied countries were not the acts of individuals, but were carried out by the German government and the Wehrmacht for the needs of both. It was carried out on a larger scale than was possible by the army, as shown by the evidence, and seemed to have been sometimes based upon the idea that in looting, the individual was not depriving the victim of the property, but was depriving the Reich and the Wehrmacht. However, the evidence failed to show any specific criminal responsibility on the part of the accused in connection with charges of plunder and spoliation. Furthermore, the Tribunal stated that "most of the prohibitions of both the Hague and Geneva Conventions, considered in substance, are clearly an expression of the accepted views of civilized nations". It notably mentioned Article 47 of the 1907 HR. The Tribunal added that military necessity "does [not] justify the seizure of property or goods beyond that which is necessary for the use of the army of occupation. Looting and spoliation are none the less criminal in that they were conducted, not by individuals, but by the army and the State."⁷²⁴

679. In its judgement in the *John Schultz case* in 1952, the US Court of Military Appeals listed robbery, larceny and burglary as crimes "universally recognized as properly punishable under the law of war".⁷²⁵

Other National Practice

680. In 1989, during a debate in the UN Security Council relating to alleged Pakistani aggression and interference in Afghanistan's affairs, the representative of Afghanistan mentioned an article in the *Wall Street Journal* revealing, *inter alia*, "the looting... and other grave crimes", which the representative alleged Pakistani officers had been involved in.⁷²⁶

681. According to the Report on the Practice of Algeria, pillage is prohibited under Islamic law. It adds that the first combatants to fight against French occupation in the 19th century followed Islamic teachings on this point.⁷²⁷

682. The Report on the Practice of Angola mentions several instances of pillage during the war of independence and during the ensuing internal conflict, in particular between 1992 and 1994. The report does not specify, however, who the perpetrators were (civilians, rebel movements or government troops).⁷²⁸

683. In 1990, during a debate in the UN Security Council relating to the Iraqi invasion of Kuwait, Bahrain stated that it considered the pillage and plunder of private homes and businesses to be “completely at variance with the norms of international law and the Universal Declaration of Human Rights” and “at odds with the principles and precepts of the Islamic *Sharia*”. In the eyes of the *Sharia*, he said, the invasion was all the worse because it was accompanied, *inter alia*, by pillage and theft.⁷²⁹

684. In the context of the Sino-Japanese War (1937–1945), the Chinese Communist Party condemned looting by Japanese troops. According to the Report on the Practice of China, these acts of looting are considered as part of a deliberate “barbarous policy” of the Japanese authorities.⁷³⁰

685. The Report on the Practice of Colombia refers to a draft internal working paper of the Colombian government which stated that pillage and plunder are prohibited by IHL.⁷³¹

686. In 1990, during a debate in the UN Security Council relating to the Iraqi invasion of Kuwait, Finland condemned acts of pillage committed by Iraq.⁷³²

687. In 1999, during the conflict in Kosovo, the French President criticised acts of the Serbian authorities in Kosovo, including pillage, and demanded that these acts cease.⁷³³

688. In 1991, the majority of political parties in the German parliament vigorously condemned violations of human rights and “other crimes” committed during the civil war in Sudan. Pillage was among the “crimes” mentioned.⁷³⁴

689. In 1995, during a debate in the UN Security Council concerning the situation in the former Yugoslavia, the German representative expressed his concern about reports of looting in the Krajina region. He urged the Croatian government to do its utmost to stop these acts.⁷³⁵

⁷³⁵ Germany, Statement before the UN Security Council, UN Doc. S/PV.3591, 9 November 1995, p. 3.

690. During the Iran–Iraq War, Iran claimed that inhabitants of the cities captured by Iraq were robbed. According to the Report on the Practice of Iran, only two Iraqi towns were taken by Iran during the conflict and there were no reports of pillage.⁷³⁶

691. In 1990, in a letter to the UN Secretary-General, Kuwait denounced “practices which are an affront to mankind and which violate all the values of Islam and of civilization, the principles of human rights and the relevant Geneva Conventions . . . [including] looting of all public and private facilities . . . [and] theft of public and private vehicles and their removal to Iraq”.⁷³⁷

692. In 1990, in a letter to the UN Secretary-General, Kuwait mentioned violations “of all international laws” by Iraq:

We wish to draw attention to a phenomenon which has no precedent in history, namely, the Iraqi occupation authorities’ organized operation for the purpose of looting and plundering Kuwait. It is impossible to compare this operation to any similar incidents or to provide an exact account thereof because it is in effect an operation designed to achieve nothing less than the complete removal of all Kuwait’s assets, including property belonging to the State, to public and private institutions and to individuals, as well as the contents of houses, factories, stores, hospitals, academic institutions and to universities.⁷³⁸

693. In 1990, following the Iraqi invasion of Kuwait, the Sheikh of Kuwait denounced in the UN General Assembly the “systematic armed looting and destruction of State assets and individual property”.⁷³⁹

694. In 1996, a newspaper reported the investigation by the Nigerian authorities of officers serving with ECOMOG who had allegedly brought back cars and building materials from Liberia. Preliminary investigation did not reveal the looting of property but the “authorities were concerned about the moral aspects of personnel buying items that might have been offered at very cheap prices by persons rattled or distressed by the effects of war”.⁷⁴⁰

695. In 1990, during a debate in the UN Security Council relating to the Iraqi invasion of Kuwait, Qatar condemned acts of pillage committed by Iraq.⁷⁴¹

696. In response to a report by the Memorial Human Rights Center documenting Russia’s operation in the Chechen village of Samashki in April 1995, which alleged that the Russian forces had looted homes and taken television sets, cattle and other private property from the village, members of the Russian

forces who testified in open hearings before a Russian Parliamentary Committee in May 1995 “vigorously denied” these allegations.⁷⁴²

697. In 1995, during a debate in the UN Security Council concerning the situation in the former Yugoslavia, Russia declared that “the continuing large-scale violations of the rights of the Serbian population in the former Sectors West, North and South – including... the looting of homes... – are causing serious concern”.⁷⁴³

698. In 1993, reacting to the report of pillage of civilian property by combatants of the FPR, the Rwandan government asked the FPR to refrain from acts of pillage of civilian property.⁷⁴⁴

699. In 1992, in a note verbale addressed to the UN Secretary-General, Slovenia expressed its readiness to provide information concerning violations of IHL committed by members of the Yugoslav army during the 10-day conflict with Slovenia, including “looting”.⁷⁴⁵

700. In 1993, during a debate in the UN Security Council concerning the situation in Croatia, Spain referred to the conclusions of the Provisional Report of the Security Council’s Commission of Experts, according to which grave offences and other violations of IHL had been committed in the former Yugoslavia, including looting of civilian property.⁷⁴⁶

701. In 1990, during a debate in the UN Security Council relating to the Iraqi invasion of Kuwait, the UK condemned acts of pillage committed by Iraq.⁷⁴⁷

702. A training video on IHL produced by the UK Ministry of Defence states unequivocally that “pillage is forbidden”.⁷⁴⁸

703. The Report on UK Practice refers to a letter from a UK army lawyer which noted that:

The current view seems to be that units may lawfully seize enemy property *on the battlefield* and retain it as booty, but individuals doing the same run the risk of being charged with looting. Retention by units and formations of booty is subject

to approval by Government whereas appropriation of property by individuals on the battlefield is strictly illegal.⁷⁴⁹ [emphasis in original]

704. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense condemned the following Iraqi war crimes: “looting of civilian property in violation of [the 1907 HR]”, “pillage, in violation of Article 47 [of the 1907 HR]” and “pillage of Kuwaiti civilian hospitals, in violation of Articles 55, 56, 57, and 147, GC [IV]”.⁷⁵⁰

705. Order No. 579 issued in 1991 by the YPA Chief of Staff of the SFRY (FRY) states that YPA units must “apply all means to prevent any attempt of pillage”.⁷⁵¹

706. According to the Report on the Practice of the SFRY (FRY), in the context of the conflict in Croatia, the local press regularly reported pillage of private property, which allegedly occurred on a massive scale and was perpetrated by regular and paramilitary forces of both sides – Croatian troops and the YPA.⁷⁵²

707. In 1991, the Medical Headquarters of a State denounced the theft, by the army of a State, of the property of its national food industries and the plunder of houses of its nationals and nationals of another State.⁷⁵³

708. In 1991, the ICRC noted systematic pillage by a State, which responded that the pillage arose from a lack of discipline rather than from a deliberate policy.⁷⁵⁴

709. In 1991, an official of a State rejected an ICRC request to protect the civilian population from pillage by government troops. He replied that as long as they provided a hiding place for rebels, the army would burn the fields if necessary. However, this behaviour was not representative of the general opinion of the military personnel met by the ICRC in this context.⁷⁵⁵

III. Practice of International Organisations and Conferences

United Nations

710. In a resolution on Rwanda adopted in 1994, the UN Security Council stated that it was “deeply concerned by . . . looting, banditry and the breakdown of law and order, particularly in Kigali”.⁷⁵⁶

711. In a resolution adopted in 1995 on violations of international humanitarian law in the former Yugoslavia, the UN Security Council stated that it was

“deeply concerned at reports . . . of serious violations of international humanitarian law . . . including . . . looting of property”.⁷⁵⁷

712. In a resolution adopted in 1995 on violations of international humanitarian law and of human rights in the territory of the former Yugoslavia, the UN Security Council condemned “the widespread looting and destruction of houses and other property, in particular by HVO forces in the area of Mrkonjic Grad and šipovo” and demanded that “all sides immediately stop such action, investigate them and make sure that those who violated the law be held individually responsible in respect of such acts”.⁷⁵⁸

713. In 1995, in a statement by its President concerning the situation in Croatia, the UN Security Council stated that it was “concerned by the reports of human rights violations including . . . looting of property” and demanded that the government of Croatia “immediately investigate all such reports and take appropriate measures to put an end to such acts”.⁷⁵⁹

714. In January 1996, in a statement by its President concerning the situation in Croatia, the UN Security Council strongly condemned “the violations of international humanitarian law and human rights in the former sectors North and South in the Republic of Croatia . . . including systematic and widespread looting”. It stated that measures must be taken by the government of Croatia to stop all such acts and bring the perpetrators to trial.⁷⁶⁰

715. In December 1996, in a statement by its President concerning the situation in Croatia, the UN Security Council expressed “its concern at continued acts of . . . looting”.⁷⁶¹

716. In a resolution adopted in 1995 on the situation of human rights in Bosnia and Herzegovina, Croatia and the FRY, the UN General Assembly condemned “violations of human rights and international humanitarian law, including . . . the . . . looting of houses”.⁷⁶²

717. In a resolution adopted in 1994, the UN Commission on Human Rights expressed concern at pillage in Georgia, including Abkhazia, and condemned such acts committed by troops or armed groups.⁷⁶³

718. In a resolution adopted in 1996 on the situation of human rights in Bosnia and Herzegovina, Croatia and the FRY, the UN Commission on Human Rights condemned

in the strongest terms all violations of human rights and international humanitarian law during the conflict, in particular in areas which were under the control of the

self-proclaimed Bosnian and Croatian Serb authorities, in particular massive and systematic violations, including, *inter alia*, . . . looting of houses.

It reaffirmed that "all persons who plan, commit or authorize such acts will be held personally responsible and accountable".⁷⁶⁴

719. In a resolution adopted in 1997 on the situation of human rights in Bosnia and Herzegovina, Croatia and the FRY, the UN Commission on Human Rights called upon the government of Croatia "to prevent . . . looting . . . against Croatian Serbs".⁷⁶⁵

720. In 1995, in a report concerning the conflict in the former Yugoslavia, the UN Secretary-General reported that UNCRO continued to document serious violations of the human rights of the Croatian Serbs who had remained in the sectors reconquered by the Croatian army, including looting of property.⁷⁶⁶

721. In 1995, in a report on the situation in Tajikistan, the UN Secretary-General reported that, following the 1994 Agreement on a Temporary Cease-fire on the Tajik-Afghan Border, "UNMOT received reports that armed groups were robbing villagers of their food and livestock. UNMOT has not been able to determine who carried out these acts, which are banned by the Tehran Agreement."⁷⁶⁷

722. In 1996, in a report on UNAVEM III in Angola, the UN Secretary-General reported that "UNAVEM III CIVPOL teams and United Nations human rights experts, who are now deployed to all six regions, indicate that . . . looting, extortion . . . and other criminal acts continue unabated in many parts of the country".⁷⁶⁸

723. In 1996, in a report on the situation of human rights in Croatia, the UN Secretary-General reported that:

Since the end of November 1995, the incidence of human rights violations, including acts of . . . looting, committed in the former Sectors West, North and South has continued to decline . . . The vast scale of looting observed last summer and autumn has depleted the area of valuable personal property and thus the incidence of theft has greatly diminished . . . The Government of Croatia eventually responded with a series of measures intended to protect its citizens' human rights, and these initiatives seem to have begun to have a positive effect.⁷⁶⁹

According to the report, the Croatian government had provided figures concerning criminal proceedings undertaken against the authors of these acts, but "no

⁷⁶⁹ UN Secretary-General, Further report on the situation of human rights in Croatia pursuant to Security Council Resolution 1019 (1995), UN Doc. S/1996/109, 14 February 1996, § 6.

information has been provided... on whether any convictions have resulted from criminal proceedings for looting, grand larceny or robbery".⁷⁷⁰

724. In 1998, in a report on the situation in Sierra Leone, the UN Secretary-General reported that:

From all parts of the country there are reports of... the looting... of residential and commercial premises and property. It will remain important to document these actions with a view to tackling issues of impunity and as an element in the process of promoting reconciliation and healing of society.⁷⁷¹

725. In 1992, in a report on the situation of human rights in Kuwait under Iraqi occupation, the Special Rapporteur of the UN Commission on Human Rights noted, in a section entitled "Prohibition of the destruction, dismantling and pillaging of infrastructure and private property", numerous cases of pillage of private property by Iraqi occupation forces. The legal framework which the Rapporteur considered applicable was Articles 16(2), 33(2) and (3) and 53 GC IV. He concluded that these acts "violated the guarantees of the Fourth Geneva Convention because they were not necessitated by military considerations nor were they otherwise admissible under international law".⁷⁷²

726. In 1993, in a report on the situation of human rights in Afghanistan, the Special Rapporteur of the UN Commission on Human Rights reported that he "was told... that looting is still taking place on a massive scale", especially in some areas of Kabul.⁷⁷³

727. In 1993, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights regarded the routine looting of the homes of Muslim families by Bosnian Croat and Bosnian Serb forces as violations of human rights.⁷⁷⁴

728. In 1994, in a report on the situation of human rights in Afghanistan, the Special Rapporteur of the UN Commission on Human Rights reported that "the money market located in the Saray Shah Zada area of the city [Kabul]... was... looted and set on fire".⁷⁷⁵

729. In 1994, in a report on the situation of human rights in the Sudan, the Special Rapporteur of the UN Commission on Human Rights reported that

⁷⁷⁰ UN Secretary-General, Further report on the situation of human rights in Croatia pursuant to Security Council Resolution 1019 (1995), UN Doc. S/1996/109, 14 February 1996, § 16.

⁷⁷⁵ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in Afghanistan, Final report, UN Doc. E/CN.4/1994/53, 14 February 1994, § 17.

he had received numerous complaints of looting by members of the SPLA. He considered that the applicable legal framework was common Article 3 of the 1949 Geneva Conventions, the Additional Protocols and the customary law principle of civilian immunity expressly recognised by General Assembly Resolution 2444 (XXIII) of 19 December 1968.⁷⁷⁶ In 1995, following a description of several cases of looting committed by SPLA soldiers, the Special Rapporteur pointed out that the SPLA was responsible for violations of human rights committed by its local commanders. Although it was not proved that these actions were committed on orders, the Rapporteur maintained that the senior leadership should have taken the necessary measures to prevent future violations by investigating the cases brought to its attention and by holding the perpetrators responsible.⁷⁷⁷ In 1996, the Special Rapporteur listed as “grave violations of human rights” the indiscriminate killing of civilians during raids by the army and by the PDF, which were regularly accompanied by looting, for example of cattle.⁷⁷⁸ Later the same year, he again noted cases of looting of civilians by the SPLA and PDF, which he said had been constantly reported over the past years.⁷⁷⁹

730. In 1995, in a report on the situation of human rights in the region of Banja Luka in northern Bosnia and Herzegovina, the Special Rapporteur of the UN Commission on Human Rights described the systematic pillage of the Muslim population, as part of the policy of “ethnic cleansing”. The Special Rapporteur pointed out that many elements showed that *de facto* authorities were personally and directly responsible for the massive violations of human rights, for example, by the fact that the authorities had not taken the most elementary measures to protect the population.⁷⁸⁰

731. In 1995, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights reported that many acts of pillage had occurred while the Croatian army was advancing in western Slavonia. He concluded that the Croatian authorities were responsible for violations of human rights and IHL during and after the military operations.⁷⁸¹

732. In 1996, in a report on the situation of human rights in Somalia, the Independent Expert of the UN Commission on Human Rights described, in a

⁷⁸¹ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Periodic report, UN Doc. E/CN.4/1996/6, 5 July 1995, §§ 17 and 51.

section entitled "Civil war and violations of human rights", the practices of the different Somali factions, including the fact that the winning faction would engage in looting.⁷⁸²

733. In 1997, in a report on the situation of human rights in Zaire (DRC), the Special Rapporteur of the UN Commission on Human Rights reported that before abandoning a town to the rebels, the FAZ engaged in looting. He noted that the new authorities in certain towns had punished abuses committed by members of the rebel forces against civilians.⁷⁸³

734. In 1994, in its final report on grave breaches of the Geneva Conventions and other violations of IHL committed in the former Yugoslavia, the UN Commission of Experts Established Pursuant to Security Council Resolution 780 (1992) placed "looting, theft and robbery of personal property" within the practices of "ethnic cleansing", as part of a systematic and planned general policy. It noted that acts of looting were committed by persons from all segments of the Serb population: soldiers, militias, special forces, police and civilians. These acts were described as violations of IHL and crimes against humanity.⁷⁸⁴

Other International Organisations

735. In 1995, in a statement concerning Chechnya delivered before the OSCE Permanent Council on behalf of the EU, France stated that "everything must be done to preserve houses in localities evacuated so that inhabitants would be in a position to return in safety when they wished to do so".⁷⁸⁵

736. In the Final Communiqué of its 13th Extraordinary Session in 1990, the GCC Ministerial Council stated that it "respectfully salutes the steadfast people of Kuwait who, in confronting the Iraqi occupation, defy all manner of . . . plundering of their property".⁷⁸⁶

International Conferences

737. In 1996, in a report submitted to the UN Security Council on the activities of the International Conference on the Former Yugoslavia, the Co-Chairmen of the Steering Committee stated with respect to the remaining Serb population in the Krajina that "human rights violations, including . . . looting of abandoned property . . . were brought to the attention of the Croatian Government at the

highest levels on a number of occasions, together with the serious criticism from the international community".⁷⁸⁷

738. The Plan of Action for the years 2000–2003 adopted in 1999 by the 27th International Conference of the Red Cross and Red Crescent proposed that all the parties to an armed conflict take effective measures to ensure that "strict orders are given to prevent all serious violations of international humanitarian law, including... looting... and threats to carry out such actions".⁷⁸⁸

IV. Practice of International Judicial and Quasi-judicial Bodies

739. In the *Nikolić case* before the ICTY in 1994, the accused was charged, *inter alia*, with violations of the laws and customs of war for having participated "during a period of armed conflict in the plunder of private property of persons detained at Sušica Camp".⁷⁸⁹ In the review of the indictment in 1995, the ICTY considered that the acts could also be regarded as characterising persecution on religious grounds. The Tribunal considered the conflict was international and that the victims were persons protected under the Geneva Conventions.⁷⁹⁰

740. In the *Jelisić case* before the ICTY in 1995, the accused was charged, *inter alia*, with violations of the laws and customs of war (plunder of private property) for having "participated in the plunder of money, watches and other valuable property belonging to persons detained at Luka camp".⁷⁹¹ In its judgement in 1999, the ICTY convicted the accused of the plunder of private property under Article 3(e) of the 1993 ICTY Statute. It found that plunder was the "fraudulent appropriation of public or private funds belonging to the enemy or the opposing party perpetrated during an armed conflict and related thereto". The Tribunal also held that "the individual acts of plunder perpetrated by people motivated by greed might entail individual criminal responsibility on the part of their perpetrators". The Tribunal confirmed the guilt of the accused on the charge of plunder.⁷⁹²

741. In the *Karadžić and Mladić case* before the ICTY in 1995, the accused were charged, *inter alia*, with violations of the laws or customs of war, for plunder of public or private property, in violation of Article 3(e) of the 1993 ICTY Statute. Allegedly, Bosnian Serb military and police personnel and other agents of the Bosnian Serb administration, under the direction and control of the accused "systematically... looted the real and personal property of Bosnian

⁷⁸⁸ 27th International Conference of the Red Cross and Red Crescent, Geneva, 31 October–6 November 1999, Res. I, Annex 2, Plan of Action for the years 2000–2003, Actions proposed for final goal 1.1, § 1(b).

⁷⁸⁹ ICTY, *Nikolić case*, Initial Indictment, 4 November 1994, § 21.2.

⁷⁹⁰ ICTY, *Nikolić case*, Review of the Indictment, 20 October 1995, §§ 22 and 30.

⁷⁹¹ ICTY, *Jelisić case*, Initial Indictment, 21 July 1995, § 42.

⁷⁹² ICTY, *Jelisić case*, Judgement, 14 December 1999, §§ 48–49 and Part VI (Disposition).

Muslim and Bosnian Croat civilians".⁷⁹³ In the review of the indictments in 1996, the ICTY considered that the conflict was international and that the victims were protected by the Geneva Conventions and confirmed the counts of the indictments.⁷⁹⁴

742. In the *Delalić case* before the ICTY in 1996, the accused were charged, *inter alia*, with violations of the laws and customs of war (plunder of private property) for having "participated in the plunder of money, watches and other valuable property belonging to persons detained at Čelebići camp".⁷⁹⁵ This count was eventually dismissed.⁷⁹⁶ However, in its judgement in 1998, the ICTY affirmed that it "is in no doubt that the prohibition on plunder is . . . firmly rooted in customary international law".⁷⁹⁷ It further stated that:

The prohibition against the unjustified appropriation of public and private enemy property is general in scope, and extends both to acts of looting committed by individual soldiers for their private gain, and to the organized seizure of property undertaken within the framework of a systematic economic exploitation of occupied territory. Contrary to the submissions of the Defence, the fact that it was acts of the latter category which were made the subject of prosecutions before the International Military Tribunal at Nürnberg and in the subsequent proceedings before the Nürnberg Military Tribunals does not demonstrate the absence of individual criminal liability under international law for individual acts of pillage committed by perpetrators motivated by personal greed. In contrast, when seen in a historical perspective, it is clear that the prohibition against pillage was directed precisely against violations of the latter kind. Consistent with this view, isolated instances of theft of personal property of modest value were treated as war crimes in a number of trials before French Military Tribunals following the Second World War.

...

In this context, it must be observed that the offence of the unlawful appropriation of public and private property in armed conflict has varyingly been termed "pillage", "plunder" and "spoliation" . . . [Plunder] should be understood to embrace all forms of unlawful appropriation of property in armed conflict for which individual criminal responsibility attaches under international law, including those acts traditionally described as "pillage".⁷⁹⁸

743. In the *Blaškić case* before the ICTY in 1997, the accused was charged, *inter alia*, on the count of violations of the laws and customs of war (plunder of public or private property) for having "planned, instigated, ordered or otherwise aided and abetted in the planning, preparation or execution of the . . . plunder of Bosnian Muslim dwellings, buildings, businesses, civilian personal property

⁷⁹⁴ ICTY, *Karadžić and Mladić case*, Review of the Indictments, 11 July 1996, §§ 1, 6, 87–89 and Disposition.

⁷⁹⁵ ICTY, *Delalić case*, Initial Indictment, 21 March 1996, § 37.

⁷⁹⁶ ICTY, *Delalić case*, Judgement, 16 November 1998, Part VI (Judgement).

⁷⁹⁷ ICTY, *Delalić case*, Judgement, 16 November 1998, § 315.

⁷⁹⁸ ICTY, *Delalić case*, Judgement, 16 November 1998, §§ 590 and 591.

and livestock".⁷⁹⁹ He was convicted by the Tribunal on this count. The Tribunal also stated that:

The prohibition on the wanton appropriation of enemy public or private property extends to both isolated acts of plunder for private interest and to the "organized seizure of property undertaken within the framework of a systematic economic exploitation of occupied territory". Plunder "should be understood to embrace all forms of unlawful appropriation of property in armed conflict for which individual criminal responsibility attaches under international law, including those acts traditionally described as 'pillage'".⁸⁰⁰

744. In the *Kordić and Čerkez case* before the ICTY in 1998, the accused were charged, *inter alia*, on the count of violation of the laws or customs of war for having "caused, planned, instigated, ordered or committed, or aided and abetted the planning, preparation or execution of, the...plunder of Bosnian Muslim dwellings, buildings, businesses, civilian personal property and livestock".⁸⁰¹ They were both found guilty on this count.⁸⁰² According to the Tribunal in its judgement in 2001, plundering had "already been criminalised under customary international law".⁸⁰³

745. In 1989, the IACiHR reported cases of looting and burning of rural communities in El Salvador. The Salvadoran government was found responsible for the violation of the provisions on the right to life and the right to humane treatment of the 1969 ACHR.⁸⁰⁴

746. The IACiHR reported the pillage and burning of all the homes of a village perpetrated in 1993 in Peru by forces of the Sendero Luminoso ("Shining Path") rebel movement. The Commission described these acts as "assaults and criminal activities".⁸⁰⁵

V. Practice of the International Red Cross and Red Crescent Movement

747. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "pillage is prohibited".⁸⁰⁶

748. In 1995, the ICRC reported to the military authorities allegations of pillage by the government forces of a State.⁸⁰⁷

⁷⁹⁹ ICTY, *Blaškić case*, Second Amended Indictment, 25 April 1997, § 10.

⁸⁰⁰ ICTY, *Blaškić case*, Judgement, 3 March 2000, § 184 and Part VI (Disposition).

⁸⁰⁶ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 205.

⁸⁰⁷ ICRC archive document.

749. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC included pillage, when committed in an international or non-international armed conflict, in its list of war crimes to be subject to the jurisdiction of the Court.⁸⁰⁸

750. In 1997, the ICRC reported looting by the armed forces of a State in government-controlled areas. It stated that “pillage has become systematic and much more vicious. What is not pillaged is destroyed or burnt.”⁸⁰⁹

VI. Other Practice

751. The Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights of Åbo Akademi University in Turku/Åbo, Finland in 1990, states that “the following acts are and shall remain prohibited: . . . e) pillage; . . . g) threats and incitement to commit any of the foregoing acts”.⁸¹⁰

752. According to an ICRC report, in 1992, officials of a separatist entity issued orders to their armed forces prohibiting pillage and setting fire to civilian homes, but these orders were not followed by their soldiers.⁸¹¹

753. In 1992, the Supreme Soviet of the Republic of Abkhazia denounced marauding and robbery by Georgian troops and considered Georgian leaders responsible for it. It further considered that Georgia was obliged to compensate the Republic of Abkhazia and each citizen in particular for the damage.⁸¹²

754. In 1993, officials of an entity involved in an armed conflict recognised that acts of pillage were committed on the territory under its control and considered that those responsible were criminals who should be prosecuted.⁸¹³

755. In 1993, the International Commission of Inquiry on Human Rights Violations in Rwanda, mandated by four non-governmental organisations, reported the pillage of civilian property by combatants of the FPR.⁸¹⁴

⁸⁰⁸ ICRC, Working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, New York, 14 February 1997, §§ 2(viii) and 3(xvi).

⁸⁰⁹ ICRC archive document.

⁸¹⁰ Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights, Åbo Akademi University, Truku/Åbo, 30 November–2 December 1990, Article 3(2), *IRRC*, No. 282, 1991, p. 331.

⁸¹¹ ICRC archive document.

⁸¹² Appeal of the Press-Service of the Supreme Soviet of the Republic of Abkhazia to the International Organizations of Red Cross, International Organizations of Public Health Service and to the Medical Community of the States of CIS, No. 10–81, 19 August 1992; Supreme Council of Abkhazia, Statement of the Press-Service of the Supreme Soviet of Abkhazia, No. 10–86, August 1992.

⁸¹³ ICRC archive document.

⁸¹⁴ International Commission of Inquiry on Human Rights Violations in Rwanda, Rapport final de la Commission internationale d'enquête sur les violations des droits de l'homme au Rwanda depuis le 1er octobre 1990, in *Rapport sur les droits de l'homme au Rwanda, octobre 1992–octobre 1993*, Association rwandaise pour la défense des droits de la personne et des libertés publiques, Kigali, December 1993, p. 64.

756. Looting by members of the armed forces was reported by fact-finding missions undertaken by non-governmental organisations in the Philippines.⁸¹⁵

757. According to the Report on the Practice of the Republika Srpska, in the context of the conflict in Bosnia and Herzegovina, members of the Bosnian Serb Army were convicted of robbery by military courts. For example, four members of the Bosnian Serb Army were sentenced to imprisonment for breaking in and robbing non-Serb civilians by the Court of First Instance in Banja Luka in 1994. The report notes that the accused were charged with the offence of robbery, not looting, since looting was not a separate criminal offence under the applicable penal law.⁸¹⁶

758. The SPLM Human Rights Charter states that “all persons have the right to have property respected. Looted property shall be returned to its owners or compensation determined by a competent court shall be paid.”⁸¹⁷ However, according to the Report on SPLM/A Practice, although the SPLM/A proclaimed that it did not condone pillage, looting by its combatants has been widespread. The report notes that “the practice of the SPLM/A soldiers during combat since the beginning of the war has shown no discrimination between what are genuine war booties and personal properties of the defeated enemy”. It adds that many operations have failed because soldiers were engaging in pillage instead of first conquering the objective.⁸¹⁸

759. According to the Report on the Practice of the Philippines, the NPA (a Philippine insurgent group) adopted China’s PLA Rules of Discipline as its own rules. These state: “Do not take even a single needle or thread from the masses. Turn in everything captured.”⁸¹⁹

760. Pillage following attacks on villages by RENAMO in Mozambique was described by one author as systematic.⁸²⁰

Pillage committed by civilians

I. Treaties and Other Instruments

761. No practice was found.

II. National Practice

Military Manuals

762. Uganda's Operational Code of Conduct provides that "stealing civilian property or food" is an "offence undermining relationship with the civilian population". According to the manual, although this offence may be committed by soldiers, "any civilian aiding and abetting any National Resistance Army member to commit any of the above offences [including stealing] will be charged with the same offences".⁸²¹

763. The UK Military Manual considers that:

A special class of war crime is that sometimes known as "marauding". This consists of ranging over battlefields and following advancing or retreating armies in quest of loot, robbing . . . stragglers and wounded and plundering the dead – all acts done not as a means of carrying on the war but for private gain. Nevertheless, such acts are treated as violations of the law of war. Those who commit them, whether civilians who have never been lawful combatants, or persons who have belonged to a military unit, an organised resistance movement or a *levée en masse*, and have deserted and so ceased to be lawful combatants, are liable to be punished as war criminals. They may be tried and sentenced by the courts of either belligerent.⁸²²

National Legislation

764. Under Algeria's Code of Military Justice, it is a punishable offence for a military or civilian person to steal from wounded, sick, shipwrecked or dead persons in the area of operation.⁸²³

765. Burkina Faso's Code of Military Justice provides that plunder of a wounded, sick, shipwrecked or dead person, in the area of military operations of military units, is a punishable offence that can be committed by "any individual, whether military or not".⁸²⁴

766. Chile's Code of Military Justice punishes any "civilian . . . who plunders dead soldiers or auxiliary personnel on the battlefield of their money, jewellery or other objects, in order to appropriate them".⁸²⁵

767. The Czech Republic's Criminal Code as amended, in an article entitled "Plunder in a Theatre of War", punishes:

Whoever in a theatre of war, on the battlefield or in places affected by military operations:

- (a) seizes another person's belongings, taking advantage of such person's distress;
- (b) arbitrarily destroys another person's property or takes it under the pretext of military necessity; or
- (c) robs the fallen.⁸²⁶ [emphasis added]

⁸²¹ Uganda, *Operational Code of Conduct* (1986), § 12(b) and (g).

⁸²² UK, *Military Manual* (1958), § 636.

⁸²⁴ Burkina Faso, *Code of Military Justice* (1994), Article 194.

⁸²⁵ Chile, *Code of Military Justice* (1925), Article 365.

⁸²⁶ Czech Republic, *Criminal Code as amended* (1961), Article 264.

768. Under France's Ordinance on Repression of War Crimes, "the removal or export by any means from French territory of goods of any nature, including movable property and money" is likened to pillage. It is applicable to any perpetrator of the offence.⁸²⁷

769. France's Code of Military Justice punishes "any individual, military or not, who, in the area of operation of a force or a unit, . . . plunders a wounded, sick, shipwrecked or dead person".⁸²⁸

770. Under Germany's Penal Code, pillage by civilians would be covered under the provisions relative to theft.⁸²⁹

771. Under Indonesia's Penal Code, theft committed on the occasion of "riots, insurgencies or war" is a punishable offence.⁸³⁰

772. Israel's Military Justice Law, which prohibits looting, applies to soldiers but also to "a person employed in the service of the Army, or a person employed in an undertaking which serves the Army and which the Minister of Defence has defined, by order, as a military service, . . . a person employed on a mission on behalf of the Army", "even though they may not be soldiers".⁸³¹

773. Under Moldova's Penal Code, civilians may engage their criminal responsibility for having committed the crime of robbery of the population in the area of military operations.⁸³²

774. Under the International Crimes Act of the Netherlands, "anyone" who pillages a town or place, even when taken by assault, commits a crime, whether in time of international or non-international armed conflict.⁸³³

775. Under Rwanda's Penal Code, pillage by civilians is a punishable offence.⁸³⁴

776. Spain's Penal Code states that anyone who commits pillage is guilty of a punishable offence.⁸³⁵

777. Switzerland's Military Criminal Code as amended prohibits pillage and is applicable to civilians in time of war.⁸³⁶

778. The commentary on the Penal Code as amended of the SFRY (FRY) states that the act of unlawfully seizing belongings from the killed or the wounded in a theatre of war "can be committed . . . by *any* . . . person".⁸³⁷ (emphasis added)

National Case-law

779. In the *Bommer case* before a French Military Tribunal in 1947, the parents of a German family were charged with, and convicted of, theft and re-

⁸³⁷ SFRY (FRY), *Penal Code as amended* (1976), commentary on Article 147.

ceiving stolen goods belonging to French citizens. Two of the daughters were charged with, and convicted of, the second count of the indictment only. The Tribunal considered the offences of theft under Article 379 of the French Penal Code – referred to therein as “fraudulent removal of property” – and receiving stolen goods under Article 460 of the Code – referred to as “knowingly receiving things taken, misappropriated or obtained by means of a crime or delict” – as war crimes.⁸³⁸

780. In the *Lingenfelder case* before a French Military Tribunal in 1947, the accused, a German settler in France, was charged with pillage for the removal of horses and vehicles belonging to the owner of a French farm. Without giving reasons for such finding, the Tribunal came to the conclusion that it did not amount to pillage.⁸³⁹

781. In the *Baus case* before a French Military Tribunal in 1947, the accused, a land superintendent in occupied France, was found guilty of a war crime for theft under the terms of the French Penal Code and for pillage under the 1944 Ordinance on Repression of War Crimes. He took with him during the retreat to Germany the property of the owners of the farms that he was managing.⁸⁴⁰

782. In the *Benz case* before a French Military Tribunal in 1947, the accused, a couple of German settlers, were found guilty of theft and receiving stolen goods, which the Tribunal considered to be war crimes. On their return to Germany at the end of the Second World War, they took with them movable property belonging to French inhabitants.⁸⁴¹

783. In the *Neber case* before a French Military Tribunal in 1948, the accused, a German settler in France (Lorraine), was found guilty of a war crime for having received crockery stolen by her nephew from a French woman, which she took with her when returning to Germany towards the end of the war.⁸⁴²

784. In its judgement in the *Roechling case* in 1948, the General Tribunal at Rastadt of the Military Government for the French Zone of Occupation in Germany held that the accused, the proprietor of a German industrial trust and Reich Commissioner for the iron industry of the departments of Moselle and Meurthe-et-Moselle, was guilty of war crimes, *inter alia*, for participation in the economic pillage of occupied countries.⁸⁴³

785. In the *Greiser case* before Poland’s Supreme National Tribunal in 1946, the accused, a governor and *gauleiter* of the Nazi party for provinces incorporated in the German Reich, was charged with war crimes for having taken part in “widespread robberies and thefts . . . of the movables of Polish citizens, and of all public property”.⁸⁴⁴

⁸³⁸ France, Permanent Military Tribunal at Metz, *Bommer case*, Judgement, 19 February 1947.

⁸³⁹ France, Permanent Military Tribunal at Metz, *Lingenfelder case*, Judgement, 11 March 1947.

⁸⁴⁰ France, Permanent Military Tribunal at Metz, *Baus case*, Judgement, 21 August 1947.

⁸⁴¹ France, Permanent Military Tribunal at Metz, *Benz case*, Judgement, 4 November 1947.

⁸⁴² France, Permanent Military Tribunal at Metz, *Neber case*, Judgement, 6 April 1948.

⁸⁴³ France, General Tribunal at Rastadt of the Military Government for the French Zone of Occupation in Germany, *Roechling case*, Judgement, 30 June 1948.

⁸⁴⁴ Poland, Supreme National Tribunal, *Greiser case*, Judgement, 7 July 1946.

786. In the *Flick case* before the US Military Tribunal at Nuremberg in 1947, the accused, the principal proprietor of a large group of German industrial enterprises (and four officials of the same group), which included coal and iron mines and steel producing plants, was charged with war crimes, *inter alia*, for the plunder of public and private property, and spoliation, in the countries and territories occupied by Germany. Flick was found guilty of this count of indictment. The Tribunal stated that “no defendant is shown by the evidence to have been responsible for any act of pillage as that word is commonly understood”, but it, however, quoted Article 47 of the 1907 HR as one of the articles relevant *in casu*.⁸⁴⁵

787. In the *Krupp case* before the US Military Tribunal at Nuremberg in 1948, six of the accused, officials of the Krupp industrial enterprises occupying high positions in political, financial, industrial and economic circles in Germany, were found guilty of war crimes for, *inter alia*, the plunder and spoliation of public and private property in the territories occupied by Germany. The Tribunal quoted Article 47 of the 1907 HR as pertinent *in casu*. It also stated that it “fully concurs with the Judgement of the I.M.T. that the [1907 Hague Convention (IV)], to which Germany was a party, had by 1939 become customary law and was, therefore, binding on Germany not only as Treaty Law but also as Customary Law”. The Tribunal further stated that:

Spoliation of private property . . . is forbidden under two aspects; firstly, the individual private owner of property must not be deprived of it; secondly, the economic subsistence of the belligerently occupied territory must not be taken over by the occupant or put to the service of his war effort – always with the proviso that there are exemptions from this rule which are strictly limited to the needs of the army of occupation in so far as such needs do not exceed the economic strength of the occupied territory.⁸⁴⁶

788. In the *Krauch (I. G. Farben Trial) case* before the US Military Tribunal at Nuremberg in 1948, the accused, officials of I.G. Farben Industrie A.G., were charged, *inter alia*, with war crimes for unlawfully, wilfully and knowingly ordering, abetting and taking a consenting part in the plunder of public and private property, exploitation and spoliation of property in countries and territories which came under the belligerent occupation of Germany. The charges were regarded as violations of Articles 46 to 56 of the 1907 HR. Some of the accused were convicted on this count. The Tribunal held that “the offence of plunder of public and private property must be considered a well-recognised crime under international law”. It added that:

The Hague Regulations do not specifically employ the term “spoliation”, but we do not consider this matter to be one of legal significance. As employed in the Indictment, the term is used interchangeably with the words “plunder” and “exploitation”. It may therefore be properly considered that the term “spoliation”,

⁸⁴⁵ US, Military Tribunal at Nuremberg, *Flick case*, Judgement, 22 December 1947.

⁸⁴⁶ US, Military Tribunal at Nuremberg, *Krupp case*, Judgement, 30 June 1948.

which has been admittedly adopted as a term of convenience by the Prosecution, applies to the widespread and systematised acts of dispossession and acquisition of property in violation of the rights of the owners which took place in territories under the belligerent occupation or control of Nazi Germany during World War II. We consider that "spoliation" is synonymous with the word "plunder" as employed in Control Council Law No. 10, and that it embraces offences against property in violation of the laws and customs of war of the general type charged in the Indictment.

...

[I]t is illustrative of the view that offences against property of the character described in the [1943 Inter-Allied Declaration against Acts of Dispossession] were considered by the signatory powers to constitute action in violation of existing international law.

...

In our view, the offences against property defined in the Hague Regulations are broad in their phraseology and do not admit of any distinction between "plunder" in the restricted sense of acquisition of physical properties, which are the subject matter of the crime, the plunder or spoliation resulting from acquisition of intangible property such as is involved in the acquisition of stock ownership, or of acquisition of ownership or control through any other means, even though apparently legal in form.⁸⁴⁷

Other National Practice

789. According to the Report on the Practice of India, acts of pillage committed by a civilian in relation to a foreign national may amount to extortion or robbery and are, as such, "punishable under the law of the land".⁸⁴⁸

790. According to the Report on the Practice of Jordan, the prohibition of pillage is also applicable to civilians.⁸⁴⁹

III. Practice of International Organisations and Conferences

United Nations

791. In 1992, in a report on the situation of human rights in Kuwait under Iraqi occupation, the Special Rapporteur of the UN Commission on Human Rights, in a section entitled "Prohibition of the destruction, dismantling and pillaging of infrastructure and private property", reported cases of pillage of private property by the civilian population residing in Kuwait. The legal framework considered applicable by the Rapporteur included Article 33 GC IV.⁸⁵⁰

⁸⁴⁷ US, Military Tribunal in Nuremberg, *Krauch (I. G. Farben Trial) case*, Judgement, 29 July 1948.

⁸⁴⁸ Report on the Practice of India, 1997, Answers to additional questions on Chapter 2.3.

⁸⁴⁹ Report on the Practice of Jordan, 1997, Chapter 2.3.

⁸⁵⁰ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in Kuwait under Iraqi Occupation, Report, UN Doc. E/CN.4/1992/26, 16 January 1992, §§ 224–235.

792. In 1995, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights noted that, after the fall and evacuation of Srebrenica, “there were a number of reports of widespread looting of Muslim homes by Bosnian Serb forces and Serb civilians following the evacuation. People reportedly came from nearby towns and villages to take goods and livestock.”⁸⁵¹

793. In 1994, in its final report on grave breaches of the Geneva Conventions and other violations of IHL committed in the former Yugoslavia, the UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992) placed “looting, theft and robbery of personal property” within the practices of “ethnic cleansing” and as part of a systematic and planned general policy. It noted that acts of pillage were committed by persons from all segments of the Serb population, including civilians.⁸⁵²

Other International Organisations

794. No practice was found.

International Conferences

795. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

796. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

797. No practice was found.

VI. Other Practice

798. In 1993, the International Commission of Inquiry on Human Rights Violations in Rwanda, mandated by four non-governmental organisations, reported that the Rwandan authorities had encouraged civilians to commit acts of pillage.⁸⁵³

⁸⁵¹ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Final periodic report, UN Doc. E/CN.4/1996/9, 22 August 1995, § 9.

⁸⁵² UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992), Final report, UN Doc. S/1994/674, 27 May 1994, Annex, §§ 134 and 142, see also § 180.

⁸⁵³ International Commission of Inquiry on Human Rights Violations in Rwanda, Rapport final de la Commission internationale d'enquête sur les violations des droits de l'homme au Rwanda depuis le 1er octobre 1990, in *Rapport sur les droits de l'homme au Rwanda, octobre 1992–octobre 1993*, Association rwandaise pour la défense des droits de la personne et des libertés publiques, Kigali, December 1993, pp. 20–21.

799. In 1993, in meetings with the ICRC, officials of an entity involved in an armed conflict condemned acts of pillage committed by civilians, but justified them by the low number of soldiers available to secure the area and the State's inability to compensate them for the losses caused by similar acts by troops of the State. An official of the entity also stated that he had promoted the broadcasting of messages calling on civilians to refrain from acts of pillage on local television and radio.⁸⁵⁴

A. Starvation as a Method of Warfare

Note: *For practice concerning the provision of basic necessities to persons deprived of their liberty, see Chapter 37, section A.*

General

I. Treaties and Other Instruments

Treaties

1. Article 54(1) AP I provides that “starvation of civilians as a method of warfare is prohibited”. Article 54 AP I was adopted by consensus.¹

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 208.

2. Article 14 AP II provides that “starvation of civilians as a method of combat is prohibited”. Article 14 AP II was adopted by consensus.²
3. Pursuant to Article 8(2)(b)(xxv) of the 1998 ICC Statute, the following constitutes a war crime in international armed conflicts: “intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival, including wilfully impeding relief supplies as provided for under the Geneva Conventions”.

Other Instruments

4. Article 17 of the 1863 Lieber Code states that “it is lawful to starve the hostile belligerent, armed or unarmed, so that it leads to the speedier subjection of the enemy”.
5. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including “deliberate starvation of civilians”.
6. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 54(1) AP I.
7. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 54(1) AP I.
8. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(xxv), the following constitutes a war crime in international armed conflicts: “intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival, including wilfully impeding relief supplies as provided for under the Geneva Conventions”.

II. National Practice

Military Manuals

9. Under Argentina’s Law of War Manual, it is “prohibited to starve the civilian population of the adversary”.³ In addition, starvation of civilians as a method of combat is specifically prohibited in non-international armed conflicts.⁴
10. Australia’s Commanders’ Guide notes that AP I “prohibits starvation of civilians as a method of warfare...Military operations involving collateral

² CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 137.

⁴ Argentina, *Law of War Manual* (1989), § 7.08.

deprivation are not unlawful as long as the object is not to starve the civilian population."⁵

11. Australia's Defence Force Manual states that "starvation of civilians as a method of warfare is prohibited . . . This includes starving civilians or causing them to move away."⁶

12. Belgium's Law of War Manual states that "starvation as a method of warfare against civilians" is prohibited.⁷

13. Under Benin's Military Manual, it is prohibited "to starve civilians as a method of warfare".⁸

14. Canada's LOAC Manual states that "starvation of civilians as a method of warfare is prohibited".⁹ It also states that "starvation of civilians as a method of combat is forbidden" in non-international armed conflicts.¹⁰

15. Colombia's Basic Military Manual states that it is prohibited to use starvation of the civilian population as a method of combat "in all armed conflicts".¹¹

16. Under Croatia's LOAC Compendium, starvation is a prohibited method of warfare.¹²

17. Under France's LOAC Summary Note, "it is prohibited to use starvation as a method of warfare against civilian persons".¹³

18. France's LOAC Manual states that "it is prohibited to use starvation against civilians as a method of warfare".¹⁴ It further states that the recourse to starvation as a method of warfare may constitute a war crime.¹⁵

19. Germany's Military Manual provides that "grave breaches of international humanitarian law are in particular: . . . starvation of civilians by destroying, removing or rendering useless objects indispensable to the survival of the civilian population".¹⁶

20. Under Hungary's Military Manual, starvation is a prohibited method of warfare.¹⁷

21. Indonesia's Military Manual notes that starvation of civilians as a method of warfare is prohibited.¹⁸

22. Israel's Manual on the Laws of War states that conducting a scorched earth policy "with a view to inflicting starvation or suffering on the civilian population . . . is forbidden".¹⁹

23. Under Kenya's LOAC Manual, "it is forbidden... to starve civilians as a method of warfare".²⁰
24. South Korea's Operational Law Manual prohibits the starvation of the civilian population.²¹
25. Under Madagascar's Military Manual, "it is prohibited to starve the civilian population of the adversary".²²
26. The Military Manual of the Netherlands provides that "starvation of civilians is prohibited", regardless of the motive.²³ In addition, starvation of civilians is specifically prohibited in non-international armed conflicts.²⁴
27. New Zealand's Military Manual provides that "starvation of civilians as a method of warfare is prohibited".²⁵ It also states that "AP I Art. 54 expands the customary protection as follows: 1. Starvation of civilians as a method of warfare is prohibited."²⁶ It further stresses that "AP II forbids starvation as a method of combat".²⁷
28. Under Nigeria's Military Manual, starvation of the civilian population is prohibited.²⁸
29. Under Russia's Military Manual, the "use of starvation among the civilian population" is a prohibited method of warfare.²⁹
30. Under Spain's LOAC Manual, "it is prohibited... to starve civilian persons as a method of warfare".³⁰
31. Sweden's IHL Manual considers that the "prohibition of starvation of the civilian population if the intention is to kill and not primarily to force a capitulation", as defined in Article 54 AP I, is part of customary international law.³¹ It adds that:

It is... established that, up to 1977, international law contained no express prohibition of starvation as a method of warfare. With this in mind, the new Article 54 of Additional Protocol I must be seen as an important milestone in the development of international humanitarian law. This Article provides an explicit prohibition against using starvation of civilian populations as a method of warfare.³²

32. Switzerland's Basic Military Manual states with regard to civilians who are in the power of the troops at the time of combat that "it is prohibited to starve the civilian population by removing or rendering supplies useless, or by impeding relief actions in favour of the population in need".³³

³³ Switzerland, *Basic Military Manual* (1987), Article 147(b).

33. Under Togo's Military Manual, it is prohibited "to starve civilians as a method of warfare".³⁴
34. The UK LOAC Manual provides that "it is forbidden . . . to starve civilians as a method of warfare".³⁵
35. The Annotated Supplement to the US Naval Handbook states that "Art. 54(1) [AP I] would create a new prohibition on the starvation of civilians as a method of warfare . . . which the United States believes should be observed and in due course recognized as customary law".³⁶
36. The YPA Military Manual of the SFRY (FRY) prohibits the starvation of the civilian population as a method of warfare.³⁷

National Legislation

37. Australia's War Crimes Act considers "any war crime within the meaning of the instrument of appointment of the Board of Inquiry [set up to investigate war crimes committed by enemy subjects]" as a war crime, including deliberate starvation of civilians.³⁸
38. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "starvation as a method of warfare" in international armed conflicts.³⁹
39. Azerbaijan's Criminal Code provides that "starvation of civilians as a method of warfare" constitutes a war crime in international and non-international armed conflicts.⁴⁰
40. The Criminal Code of Belarus provides that "the use of starvation among the civilian population as a method of warfare" is a war crime.⁴¹
41. Under the Criminal Code of the Federation of Bosnia and Herzegovina, "starvation of the population" is a war crime.⁴² The Criminal Code of the Republika Srpska contains the same provision.⁴³
42. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "deliberately starving civilians as a method of warfare" constitutes a war crime in international armed conflicts.⁴⁴
43. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.⁴⁵

³⁴ Togo, *Military Manual* (1996), Fascicule III, p. 12.

⁴⁴ Burundi, *Draft Law on Genocide, Crimes against Humanity and War Crimes* (2001), Article 4(B)(x).

⁴⁵ Canada, *Crimes against Humanity and War Crimes Act* (2000), Section 4(1) and (4).

44. China's Law Governing the Trial of War Criminals provides that "malicious killing of non-combatants by starvation" constitutes a war crime.⁴⁶
45. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.⁴⁷
46. Under Côte d'Ivoire's Penal Code as amended, organising, ordering or carrying out, in time of war or occupation, the "intentional reduction to starvation, destitution or ruination" of the civilian population constitutes a "crime against the civilian population".⁴⁸
47. Under Croatia's Criminal Code, the imposition of "starvation of the population" is a war crime.⁴⁹
48. Under Ethiopia's Penal Code, it is a war crime to organise, order or engage in "wilful reduction to starvation" of the civilian population, in time of war, armed conflict or occupation.⁵⁰
49. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, such as "intentionally using starvation of civilians as a method of warfare" in international armed conflicts, is a crime.⁵¹
50. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or non-international armed conflict, "uses starvation of civilians as a method of warfare".⁵²
51. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of AP I, including violations of Article 54(1) AP I, as well as any "contravention" of AP II, including violations of Article 14 AP II, are punishable offences.⁵³
52. Under Lithuania's Criminal Code as amended, "causing the threat of death from famine" in time of war, armed conflict or occupation is a war crime.⁵⁴
53. Under Mali's Penal Code, "deliberately starving civilians as a method of warfare" is a war crime in international armed conflicts.⁵⁵
54. The Definition of War Crimes Decree of the Netherlands includes "deliberate starvation of civilians" in its list of war crimes.⁵⁶
55. Under the International Crimes Act of the Netherlands, "intentionally using starvation of civilians as a method of warfare" is a crime, when committed in an international armed conflict.⁵⁷

⁴⁶ China, *Law Governing the Trial of War Criminals* (1946), Article 3(3).

⁴⁷ Congo, *Genocide, War Crimes and Crimes against Humanity Act* (1998), Article 4.

⁴⁸ Côte d'Ivoire, *Penal Code as amended* (1981), Article 138(2).

⁵⁶ Netherlands, *Definition of War Crimes Decree* (1946), Article 1.

⁵⁷ Netherlands, *International Crimes Act* (2003), Article 5(5)(1).

56. Under New Zealand's International Crimes and ICC Act, war crimes include the crime defined in Article 8(2)(b)(xxv) of the 1998 ICC Statute.⁵⁸

57. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁵⁹

58. Under Slovenia's Penal Code, "exposure to starvation" is a war crime against the civilian population.⁶⁰

59. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xxv) of the 1998 ICC Statute.⁶¹

60. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xxv) of the 1998 ICC Statute.⁶²

61. The Criminal Offences against the Nation and State Act of the SFRY (FRY) considers that, during war or enemy occupation, "any person who caused the intentional starvation of the population" committed a war crime.⁶³

62. Under the Penal Code as amended of the SFRY (FRY), "starvation of the population" is a war crime against the civilian population.⁶⁴

National Case-law

63. In the *Perišić and Others case* before a Croatian district court in 1997, after a trial *in absentia*, several persons were convicted of ordering the shelling of the city of Zadar and its surroundings. The judgement was based, *inter alia*, on Article 14 AP II, as incorporated in Article 120(1) of Croatia's Criminal Code of 1993.⁶⁵

64. In its judgement in the *Eichmann case* in 1961, the District Court of Jerusalem held that starvation caused serious bodily or mental harm and, therefore, amounted to a violation of Israel's Crime of Genocide (Prevention and Punishment) Law.⁶⁶

Other National Practice

65. The Report on the Practice of Angola, with reference to a Human Rights Watch report, notes that starvation was used by both the governmental forces and UNITA as a method of warfare during the conflict in Angola.⁶⁷

⁵⁸ New Zealand, *International Crimes and ICC Act* (2000), Section 11(2).

⁶⁷ Report on the Practice of Angola, 1998, Chapter 4.1, referring to Human Rights Watch, *Angola: Arms Trade and Violations of the Laws of War since the 1992 Elections*, New York, November 1994, pp. 74–76.

66. In 1992, during a debate in the UN Security Council, Austria condemned the use of starvation in the conflict in the former Yugoslavia, stating that “the most dreadful violations of human rights are being perpetrated . . . and people are continuing to starve”.⁶⁸

67. In 1969, in a statement before the UN General Assembly, the Belgian Minister of Foreign Affairs condemned methods of warfare that led to the starvation of civilians in the context of the Nigerian civil war.⁶⁹

68. At the CDDH, Belgium qualified draft Article 48 AP I (now Article 54) as “a step forward in the development of humanitarian law”.⁷⁰

69. The Report on the Practice of Belgium states that Belgium demonstrated support for the prohibition of starvation in international and non-international armed conflicts even before the adoption of the Additional Protocols in 1977.⁷¹

70. In 1990, in the UN Sanctions Committee on Iraq, China declared that “everyone agreed” that the inhabitants of Iraq and Kuwait “must not be left to starve”.⁷²

71. The Report on the Practice of China states that the “Chinese Government supports the protection of the civilian population against starvation” both in international and non-international armed conflicts.⁷³

72. In 1994, in reply to a questionnaire from the House of Representatives, Colombia’s Ministry of Foreign Affairs quoted Article 14 AP II. It added that “what this Article prohibits is the starvation of civilians”.⁷⁴

73. The Report on the Practice of Colombia refers to a draft internal working paper in which the Colombian government stated that it was prohibited “to make the civilian population suffer from hunger or thirst”.⁷⁵

74. In 1990, in the UN Sanctions Committee on Iraq, Côte d’Ivoire stated that “no one wanted a famine in the area. Citizens should not be made to pay for the misdeeds of their Governments.”⁷⁶

75. In 1990, in the UN Sanctions Committee on Iraq, Cuba stressed that its government “could never accept any definition which would allow the supply

⁷⁵ Report on the Practice of Colombia, 1998, Chapter 4.1, referring to Presidential Council, Proposal of the Government to the Coordinator Guerrillera Simón Bolívar to humanise war, Draft Internal Working Paper, Part entitled “El Derecho Internacional Humanitario”, § 2(h).

⁷⁶ Côte d’Ivoire, Statement before the UN Security Council Committee Established by Resolution 661 (1990) concerning the Situation between Iraq and Kuwait, UN Doc. S/AC.25/SR.5, 12 September 1990, p. 5.

of foodstuffs only to avert famine. Such an approach would be in direct violation of the international instruments which prohibited the use of hunger as a means of warfare."⁷⁷

76. In 1992, in a letter addressed to the President of the UN Security Council, Egypt, Iran, Pakistan, Saudi Arabia, Senegal and Turkey deplored "a situation where perhaps one tenth of the population of Bosnia and Herzegovina will perish as a result of starvation, exposure and disease".⁷⁸

77. In 1990, in the UN Sanctions Committee on Iraq, Finland stated that Security Council Resolution 661 "must not be interpreted so strictly that famine would result. The shipment of foodstuffs must be resumed when humanitarian circumstances require."⁷⁹

78. At the CDDH, the representative of France stated that "all Article 27 [now Article 14 AP II] contained was a purely humanitarian provision, which no one should oppose . . . His delegation would vote for the article, whose importance was borne out by many examples in history."⁸⁰

79. In 1991, during a debate in the German parliament on the situation in Sudan, several speakers from various parties condemned the use of starvation.⁸¹

80. In 1993, during a parliamentary debate, the German Minister for Economic Cooperation and Development denounced the use of starvation by the parties to the conflict in Sudan.⁸²

81. In 1993, during a parliamentary debate on the situation in Bosnia and Herzegovina, a member of the German parliament, supported by a Minister of State, qualified the starvation of a part of the population of Srebrenica as a "genocidal act".⁸³

82. In 1993, the German Chancellor expressed the view that the use of starvation in armed conflict was "a violation of human dignity".⁸⁴

83. At the 26th International Conference of the Red Cross and Red Crescent in 1995, Germany stated that the "deliberate and systematic starvation of the civilian population has been used repeatedly and has to be condemned".⁸⁵

⁷⁷ Cuba, Statement before the UN Security Council Committee Established by Resolution 661 (1990) concerning the Situation between Iraq and Kuwait, UN Doc. S/AC.25/SR.2, 22 August 1990, p. 6.

⁸⁵ Germany, Statement at the 26th International Conference of the Red Cross and Red Crescent, Geneva, 3–7 December 1995.

84. At the Moscow Conference on Global Humanitarian Challenges in 1997, the German Minister of Interior Affairs held the use of starvation as a weapon to be “a breach of international law”.⁸⁶

85. In 1997, during an open debate in the UN Security Council, Germany expressed concern about behaviour the consequences of which ranged “from brutal death by starvation... to massive displacements of whole populations striving for survival”.⁸⁷

86. At the CDDH, in response to Pakistan’s proposed amendment to delete Article 27 of draft AP II (now Article 14), the representative of the Holy See declared that:

He was watching with increasing concern the dismantling, article by article, of draft Protocol II... It was all the more serious in that the deleted articles were perhaps among the most significant and valuable from the standpoint of humanitarian law... Now that the Conference was being called on to decide whether or not to delete Article 27 [now Article 14], which was essentially concerned with food and water supplies for the civilian population, the delegation of the Holy See, as well as others, had to face a problem of conscience, for the protection of the civilian population was one of the aims, possibly even the main aim, of the two Additional Protocols. Since, as had often been stated, the civilian population was the main victim in modern conflicts, how could Article 27, which was indispensable to its survival, be light-heartedly deleted?

The Holy See called upon Pakistan to withdraw its amendment and suggested in the alternative a roll-call vote on Article 27.⁸⁸

87. At the CDDH, Iraq stated that Article 27 of draft AP II (now Article 14) “was of great humanitarian value, and there was certainly a place for it in Protocol II”.⁸⁹

88. According to the Report on the Practice of Israel, “the IDF does not condone or practice starvation of the civilian population as a method of warfare”.⁹⁰

89. According to the Report on the Practice of Jordan, “Islamic law proscribes starvation as a method of warfare”.⁹¹

90. The Report on the Practice of South Korea states that the “protection of [the] civilian population against starvation can be regarded as an established rule of customary international law in [the] Republic of Korea”.⁹²

91. The Report on the Practice of Kuwait explains that it is the *opinio juris* of Kuwait that, during an armed conflict, the civilian population be

able to maintain its “normal life” or at least “a minimum of normal life” and this includes the prohibition of the use of starvation as a method of warfare.⁹³

92. In 1990, in the UN Sanctions Committee on Iraq, Malaysia stated that “famine must not be used as a weapon to implement” Security Council Resolution 661 (1990).⁹⁴

93. According to the Report on the Practice of Malaysia, “starvation was never employed as a method of warfare” by Malaysia’s armed forces during the conflict against the communist opposition.⁹⁵

94. According to the Report on the Practice of Nigeria, the government was accused of using starvation as a method of warfare during the Nigerian civil war (1966–1970).⁹⁶ The government denied the allegations.⁹⁷ According to the report, this denial confirms that Nigerian practice recognises the protection of the civilian population against starvation. The report considers that Nigeria’s *opinio juris* is that the protection of the civilian population against starvation is part of customary international law.⁹⁸

95. At the CDDH, Pakistan proposed deleting Article 27 of draft AP II (now Article 14) because the prohibition of starvation of civilians as a method of warfare should not be included in a protocol for non-international armed conflicts.⁹⁹

96. In 1991, a circular from the Office of the President of the Philippines stipulated that “only in cases of tactical operations may control of the movement of non-combatants and the delivery of goods and services be imposed for safety reasons, provided that in no case should such control lead to the starvation of civilians”.¹⁰⁰

97. On the basis of the replies by Rwandan army officers to a questionnaire, the Report on the Practice of Rwanda emphasises that the use of starvation as a method of warfare is regarded as a war crime in Rwanda.¹⁰¹ The report concludes that the prohibition on using starvation as a method of warfare is regarded by Rwanda as part of customary international law.¹⁰²

98. At the CDDH, the Swedish delegate appealed “urgently to all delegations, particularly those of the Western and Others Group, to consider [Article 27 of draft AP II (now Article 14)] carefully and to adopt it”.¹⁰³

99. In 1990, in the UN Sanctions Committee on Iraq, the UK considered that “no one favoured allowing the inhabitants of Kuwait and Iraq to starve”.¹⁰⁴

100. According to the Report on UK Practice, the UK supports the protection of civilians against starvation and the condemnation of starvation of civilians as a tactic in armed conflict.¹⁰⁵

101. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that “we support the principle that starvation of civilians not be used as a method of warfare”.¹⁰⁶

102. In 1987, the Legal Adviser of the US Department of State, referring, *inter alia*, to the protection of the civilian population against deliberate starvation as contained in AP II, stated that “for the most part, the obligations contained in Protocol II are no more than a restatement of the rules of conduct with which the United States military forces would almost certainly comply as a matter of national policy, constitutional and legal protections, and common decency”.¹⁰⁷

103. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that “U.S. practice does not involve methods of warfare that have as their intention the starvation of the enemy civilian population”.¹⁰⁸

104. According to the Report on US Practice, it is the *opinio juris* of the US that the starvation of civilians as a method of warfare is prohibited.¹⁰⁹

105. At the CDDH, the representative of the USSR declared that he “wholeheartedly supported” the Holy See’s position not to delete Article 27 of draft AP II (now Article 14), “for it was one of the most humane provisions in the entire field of humanitarian law”.¹¹⁰

¹¹⁰ USSR, Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 136, § 84.

106. In 1990, in the UN Sanctions Committee on Iraq, the USSR stated that “foodstuffs should be supplied to Iraq on the basis of humanitarian considerations, without waiting for a disaster to occur”.¹¹¹

107. In 1990, in the UN Sanctions Committee on Iraq, Yemen declared that “hunger . . . must be prevented on humanitarian grounds”.¹¹² It added that “on humanitarian grounds the Iraqi and Kuwaiti peoples must not be allowed to face the prospect of famine. They must be able to obtain the necessary foodstuffs, such as cereals, cooking oil and milk for children.”¹¹³

108. In 1974, in a communication to the ICRC, the President of a State accused the army of another State of having confiscated food and water destined for the civilian population, thereby causing starvation.¹¹⁴

109. In 1980, a State’s ambassador to the UN informed the ICRC that another State had used starvation as a method of warfare against it.¹¹⁵

110. In 1990, in a meeting with the ICRC, the President of a State confirmed the acceptance of his government that in principle humanitarian aid should be distributed to the civilian population in all parts of the country, including in territories not under its control. It thus relinquished the use of starvation as a possible weapon in situations of dispute.¹¹⁶

III. Practice of International Organisations and Conferences

United Nations

111. In 2001, in a report on the protection of civilians in armed conflict, the UN Secretary-General took “the deliberate starvation of the civilian population in Somalia” as an example of how “in modern warfare, particularly internal conflicts, civilians are often targeted as part of a political strategy”.¹¹⁷

112. In 1995, a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights stressed that “Sarajevo has been the scene of some of the gravest violations of human rights in the course of this conflict . . . The humanitarian situation has also been extremely serious, with acute food shortages and problems with utilities which have frequently been used as a weapon of war”.¹¹⁸

¹¹¹ USSR, Statement before the UN Security Council Committee Established by Resolution 661 (1990) concerning the Situation between Iraq and Kuwait, UN Doc. S/AC.25/SR.5, 12 September 1990, p. 4.

113. In 1994, in its interim report on grave violations of IHL in Rwanda, the UN Commission of Experts Established pursuant to Paragraph 1 of Security Council Resolution 935 (1994) determined that massive and systematic violations of several provisions of AP II had been perpetrated, including violations of Article 14 AP II.¹¹⁹

Other International Organisations

114. In a resolution on health and war adopted in 1995, the OAU Conference of African Ministers of Health called upon member States to “ban . . . the use of famine as a method of war against civilians”.¹²⁰

115. In 1998, in a statement before the Sixth Committee of the UN General Assembly, South Africa declared on behalf of the SADC that the 1998 ICC Statute “would also serve as a reminder that even during armed conflict the rule of law must be upheld. For example, it was unlawful . . . for the starvation of civilians to be intentionally used as a method of warfare. [This act was] a war crime and would be punished.”¹²¹

International Conferences

116. The report of the CDDH Working Group responsible for the elaboration of draft Article 48 AP I (now Article 54) stated that draft Article 48 “reflected the almost unanimous view of the Working Group, which considered it one of the most important articles of humanitarian law relating to the protection of the civilian population”.¹²²

117. In the Final Declaration of the International Conference for the Protection of War Victims in 1993, the participants declared that they refused to accept that “civilians [are] starved as a method of warfare”.¹²³

118. In 1995, the 26th International Conference of the Red Cross and Red Crescent adopted a resolution on the protection of the civilian population in period of armed conflict in which it strongly condemned “attempts to starve civilian populations in armed conflicts” and stressed “the prohibition on using starvation of civilians as a method of warfare”.¹²⁴

119. The Plan of Action for the years 2000–2003 adopted in 1999 by the 27th International Conference of the Red Cross and Red Crescent proposed that “States stress the provisions of international humanitarian law prohibiting the use of starvation of civilians as a method of warfare”.¹²⁵

¹¹⁹ UN Commission of Experts Established pursuant to Paragraph 1 of Security Council Resolution 935 (1994), Interim report, UN Doc. S/1994/1125, 4 October 1994, Annex, § 107.

IV. *Practice of International Judicial and Quasi-judicial Bodies*

120. In the *Application of Genocide Convention case (Provisional Measures)* before the ICJ in 1993, the government of Bosnia and Herzegovina requested that “Yugoslavia (Serbia and Montenegro) and its agents... desist immediately... from the starvation of the civilian population in Bosnia and Herzegovina”.¹²⁶

V. *Practice of the International Red Cross and Red Crescent Movement*

121. The ICRC Commentary on the Additional Protocols emphasises that the statement of the general principle not to use starvation as a method of warfare “is innovative and a significant progress of the law”.¹²⁷

122. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “starvation as a method of warfare against civilian persons is prohibited”.¹²⁸

123. At its Budapest Session in 1991, the Council of Delegates adopted a resolution on humanitarian assistance in situations of armed conflict in which it called upon all parties to armed conflicts and, where applicable, any High Contracting Party “to respect and ensure respect for the rules of international humanitarian law... that prohibit the use of starvation of civilians as a method of combat”.¹²⁹

124. At its Budapest Session in 1991, the Council of Delegates adopted a resolution on the protection of the civilian population against famine in situations of armed conflict in which it reminded “the authorities concerned and the armed forces under their command of their obligation to apply international humanitarian law, in particular... the prohibition of starvation of civilians as a method of combat”.¹³⁰

125. In a communication to the press issued in 1993 in the context of the conflict in Liberia, the ICRC expressed concern about “over 110,000 people living in the area between Kakata and Totota, in central Liberia, [who] are threatened by starvation”.¹³¹

126. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC included “starvation of civilians”, when committed in an international or a

non-international armed conflict, in its list of war crimes to be subject to the jurisdiction of the Court.¹³²

VI. *Other Practice*

127. In their commentary on the 1977 Additional Protocols, Bothe, Partsch and Solf state that, “by prohibiting starvation of civilians as a method of warfare, Art. 54 [AP I] establishes a substantial new principle of international law applicable in armed conflict”.¹³³

128. In an article in 1986, Ambassador Aldrich, head of the US delegation to the CDDH, stated that Article 54 AP I ranked among those provisions “most warmly welcomed by the United States in 1977”.¹³⁴

129. The SPLM/A Penal and Disciplinary Laws provide that members of the SPLM/A “shall ensure that citizens [under their control] . . . produce sufficient food for themselves”. In addition, it severely punishes “any member of the [SPLA] or affiliated organizations who compels citizens to surrender food materials”.¹³⁵ According to the Report on SPLM/A Practice, there have been several incidents in which the SPLM/A has nevertheless used starvation as a method of warfare. The SPLM/A diverted UN food supplies destined for the civilian population in southern Sudan. It also drove away virtually all livestock from some communities in southern Sudan (Gajack Nuer in 1984, Murle in 1985 and Bar Dinka in 1991), thus causing widespread starvation among those tribes or ethnic groups.¹³⁶

Sieges that cause starvation

I. Treaties and Other Instruments

Treaties

130. Article 32 GC IV provides that:

Each High Contracting Party shall allow the free passage of all consignments of medical and hospital stores and objects necessary for religious worship intended only for civilians of another High Contracting Party, even if the latter is its adversary. It shall likewise permit the free passage of all consignments of essential foodstuffs, clothing and tonics intended for children under fifteen, expectant mothers and maternity cases.

¹³² ICRC, Working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, New York, 14 February 1997, §§ 2(iv) and 3(xi).

¹³³ Michael Bothe, Karl Joseph Partsch, Waldemar A. Solf (eds.), *New Rules for Victims of Armed Conflict*, Martinus Nijhoff, The Hague, 1982, p. 336.

¹³⁴ George H. Aldrich, “Progressive Development of the Laws of War: A Reply to Criticisms of the 1977 Geneva Protocol I”, *Virginia Journal of International Law*, 1986, Vol. 26, p. 699.

¹³⁵ SPLM/A, Penal and Disciplinary Laws, 4 July 1984, §§ 54(3) and 68, Report on SPLM/A Practice, 1998, Chapter 4.1.

¹³⁶ Report on SPLM/A Practice, 1998, Chapter 4.1.

The obligation of High Contracting Party to allow the free passage of the consignments indicated in the preceding paragraph is subject to the condition that this Party is satisfied that there are no serious reasons for fearing:

- (a) that the consignments may be diverted from their destination,
- (b) that the control may not be effective, or
- (c) that a definite advantage may accrue to the military efforts or economy of the enemy through the substitution of the above-mentioned consignments for goods which would otherwise be provided or produced by the enemy or through the release of such material, services or facilities as would otherwise be required for the production of such goods.

The Power which allows the passage of the consignments indicated in the first paragraph of this Article may make such permission conditional on the distribution to the persons benefited thereby being made under the local supervision of the Protecting Powers.

Such consignments shall be forwarded as rapidly as possible, and the Power which permits their free passage shall have the right to prescribe the technical arrangements under which such passage is allowed.

Other Instruments

131. Article 18 of the 1863 Lieber Code provides that “when a commander of a besieged place expels the noncombatants, in order to lessen the number of those who consume his stock of provisions, it is lawful, though an extreme measure, to drive them back, so as to hasten on the surrender”.

II. National Practice

Military Manuals

132. Argentina’s Law of War Manual, in a chapter dealing, *inter alia*, with siege warfare, provides that “belligerent forces must to try and conclude agreements which facilitate . . . the free passage of . . . essential foodstuffs and clothing”.¹³⁷

133. Australia’s Commanders’ Guide, in a section on siege warfare, provides that, in such a situation, “provision is . . . made for the passage . . . of essential foodstuffs, clothing, tonics intended for children under 15, expectant mothers and maternity cases”.¹³⁸

134. Australia’s Defence Force Manual, in a section on siege warfare, states that “the opposing parties are required to try and conclude local agreements . . . for the passage . . . of essential foodstuffs, clothing and tonics intended for children under 15, expectant mothers and maternity cases”.¹³⁹

135. Canada’s LOAC Manual, in a section on siege warfare, stresses that “if circumstances permit, . . . the parties should . . . permit passage to these [besieged]

¹³⁷ Argentina, *Law of War Manual* (1969), § 1.014.

¹³⁸ Australia, *Commanders’ Guide* (1994), § 926.

¹³⁹ Australia, *Defence Force Manual* (1994), § 735.

areas of . . . essential foodstuffs, clothing, and tonics intended for children under the age of 15, expectant mothers, and maternity cases".¹⁴⁰

136. France's LOAC Manual, under the definition of siege, states that "the starvation of civilian populations as a method of warfare is prohibited".¹⁴¹

137. Israel's Manual on the Laws of War states that:

Siege as a method of warfare vis-a-vis a military objective is an absolutely legal method even if it involves the starvation of the besieged or preventing the transfer of medications in order to achieve surrender.

A question arises in the case of a military siege of an inhabited city. Until recently there were no rules relating to this method of warfare, and it was allowed to exploit the suffering of the local population in order to subdue the enemy. Following the Second World War, a provision was set in the Additional Protocols of 1977, forbidding the starvation of a civilian population in war. This provision clearly implies that the city's inhabitants must be allowed to leave the city during a siege.¹⁴²

138. New Zealand's Military Manual notes that siege is not prohibited "even if it causes some collateral deprivation to the civilian population, so long as starvation is not the specific purpose".¹⁴³ In a section on siege warfare, the manual further provides that, in such a situation, "provision is . . . made in [Article 23 GC IV] for the passage . . . of essential foodstuffs, clothing, and tonics intended for children under 15, expectant mothers and maternity cases".¹⁴⁴

139. The US Field Manual, in a chapter dealing, *inter alia*, with siege warfare, states that, in such a situation, "provision is . . . made in Article 23 [GC IV] for the passage . . . of essential foodstuffs, clothing, and tonics intended for children under 15, expectant mothers, and maternity cases".¹⁴⁵

National Legislation

140. No practice was found.

National Case-law

141. No practice was found.

Other National Practice

142. In 1992, during a debate in the UN Security Council on the situation in Bosnia and Herzegovina, Albania stated that:

¹⁴⁰ Canada, *LOAC Manual* (1999), p. 6-4, § 35(e).

¹⁴¹ France, *LOAC Manual* (2001), p. 117.

¹⁴² Israel, *Manual on the Laws of War* (1998), p. 59.

¹⁴³ New Zealand, *Military Manual* (1992), § 504(2), footnote 9.

¹⁴⁴ New Zealand, *Military Manual* (1992), § 508(3). ¹⁴⁵ US, *Field Manual* (1956), § 44.

Many cities in Bosnia and Herzegovina have been besieged for several months, and their population is under constant artillery fire and left without food, electricity, water supply and medicine. All this will certainly leave a scar on the population for several generations, and the evil is beyond remedy.¹⁴⁶

143. In 1995, in a statement before the UN General Assembly on Germany's appreciation of UN achievements, the German Foreign Minister praised the efforts of peacekeepers "who keep the beleaguered people from starving".¹⁴⁷

144. In 1993, during a debate in the UN Security Council on the establishment of a no-fly zone in Bosnia and Herzegovina, Pakistan declared that "we have witnessed with mounting horror and revulsion... the use of siege and the cutting off of supplies of food and other essentials to civilian population centres".¹⁴⁸

III. Practice of International Organisations and Conferences

United Nations

145. In a resolution adopted in June 1992 on deployment of additional elements of UNPROFOR in Bosnia and Herzegovina, the UN Security Council underlined "the urgency of quick delivery of humanitarian assistance to [besieged] Sarajevo and its environs".¹⁴⁹

146. In a resolution adopted in July 1992 on deployment of additional elements of UNPROFOR in Bosnia and Herzegovina, the UN Security Council stated that it was "deeply disturbed by the situation which now prevails in [besieged] Sarajevo" and deplored the continuation of the fighting "which is rendering difficult the provision of humanitarian aid in Sarajevo".¹⁵⁰

147. In a resolution adopted in 1993 on a comprehensive political settlement of the situation in Bosnia and Herzegovina, the UN Security Council expressed its "concern" about the continuing siege of Sarajevo and strongly condemned "the disruption of public utilities (including water, electricity, fuel and communications)".¹⁵¹

148. In 1994, in a statement by its President, the UN Security Council strongly criticised the situation of the besieged town of Maglaj in Bosnia and Herzegovina, stating that it:

¹⁴⁶ Albania, Statement before the UN Security Council, UN Doc. S/PV.3136, 16 November 1992, § 50.

¹⁴⁷ Germany, Statement before the UN General Assembly, UN Doc. A/50/PV.8, 27 September 1995, pp. 4 and 5.

¹⁴⁸ Pakistan, Statement before the UN Security Council, UN Doc. S/PV.3191, 31 March 1993, § 30.

¹⁴⁹ UN Security Council, Res. 761, 29 June 1992, preamble.

¹⁵⁰ UN Security Council, Res. 764, 13 July 1992, preamble.

¹⁵¹ UN Security Council, Res. 859, 24 August 1993, preamble.

deplores the rapidly deteriorating situation in the Maglaj area and the threat it poses to the survival of the remaining civilian population. It notes that this intolerable situation has been perpetuated by the intensity of the nine-month siege of the town.

...

The Council also demands that the siege of Maglaj be ended immediately.¹⁵²

149. In a resolution adopted in 1993 on the situation in Bosnia and Herzegovina, the UN General Assembly expressed its concern about "the continuing siege of Sarajevo and other Bosnian cities and of 'safe areas' which endangers the well-being and safety of their inhabitants". It demanded that "the Bosnian Serb party lift forthwith the siege of Sarajevo and other 'safe areas', as well as other besieged Bosnian towns".¹⁵³ The call upon the Bosnian Serb party to lift the siege of Sarajevo was repeated in a resolution on the same topic adopted in 1994.¹⁵⁴ The siege of Sarajevo and other Bosnian towns was condemned again a few weeks later.¹⁵⁵

150. In a resolution adopted in 1994 on the situation of human rights in the territory of the former Yugoslavia, the UN Commission on Human Rights demanded "immediate, firm and resolute action by the international community to stop all human rights violations, including... strangulation of cities in Bosnia".¹⁵⁶

151. In 1995, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights stressed that "Sarajevo has been the scene of some of the gravest violations of human rights in the course of this conflict... The humanitarian situation has also been extremely serious, with acute food shortages and problems with utilities which have frequently been used as a weapon of war."¹⁵⁷

Other International Organisations

152. In 1992, in a report on the crisis in the former Yugoslavia, the rapporteur of the Parliamentary Assembly of the Council of Europe declared that "the siege and the systematic shelling of Sarajevo... are actions unanimously condemned by the international community".¹⁵⁸

¹⁵² UN Security Council, Statement by the President, UN Doc. S/PRST/1994/11, 14 March 1994, p. 1.

¹⁵³ UN General Assembly, Res. 48/88, 20 December 1993, § 6.

¹⁵⁴ UN General Assembly, Res. 49/10, 3 November 1994, § 4.

¹⁵⁵ UN General Assembly, Res. 49/196, 23 December 1994, § 7.

¹⁵⁶ UN Commission on Human Rights, Res. 1994/72, 9 March 1994, § 5.

¹⁵⁷ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Periodic report, UN Doc. S/1995/933-A/50/727, 7 November 1995, Annex, § 54.

¹⁵⁸ Council of Europe, Parliamentary Assembly, Report on the crisis in the former Yugoslavia, Doc. 6639, 29 June 1992, § II 9.

153. In 1994, in a plenary session of the UN General Assembly on the situation in Bosnia and Herzegovina, the EU expressed its concern about “the situation in Sarajevo and the danger of its strangulation”.¹⁵⁹

154. In 1994, the Presidential Committee of the WEU adopted a declaration on the situation in the former Yugoslavia and called for an immediate end to the siege of Sarajevo.¹⁶⁰

International Conferences

155. In a Special Declaration on Bosnia and Herzegovina, the World Conference on Human Rights in 1993 urged the world community and all international bodies, in particular the UN Security Council, “to take forceful and decisive steps for effective measures of peace-making in the Republic of Bosnia and Herzegovina with a view to . . . extending immediate humanitarian help for the relief of persons in besieged towns and cities as well as other victims”.¹⁶¹

IV. Practice of International Judicial and Quasi-judicial Bodies

156. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

157. No practice was found.

VI. Other Practice

158. According to the Report on SPLM/A Practice, one of the popular practices employed by the SPLM/A against the Sudanese government is to besiege garrison towns held by the Sudanese army. The report points out that the main strategy is to force the government army of the garrison to surrender, but that the civilian population living in these garrisons and towns is also greatly affected.¹⁶²

Blockades and embargoes that cause starvation

I. Treaties and Other Instruments

Treaties

159. No practice was found.

¹⁵⁹ EU, Statement by Germany on behalf of the EU before the UN General Assembly, UN Doc. A/49/PV.50, 3 November 1994, p. 19.

¹⁶⁰ WEU, Presidential Committee, Declaration on the situation in the former Yugoslavia, PRCO Doc 1413, 26 April 1994.

¹⁶¹ World Conference on Human Rights, Vienna, 14–25 June 1993, Special Declaration on Bosnia and Herzegovina, § 7, UN Doc. A/CONF.157/24 (Part I), 13 October 1993, Chapter IV.B, § 47.

¹⁶² Report on SPLM/A Practice, 1998, Chapter 4.1.

Other Instruments

160. The 1994 San Remo Manual states that:

102. The declaration or establishment of a blockade is prohibited if:

- a) it has the sole purpose of starving the civilian population or denying it other objects essential for its survival.

...

103. If the civilian population of the blockaded territory is inadequately provided with food and other objects essential for its survival, the blockading party must provide for free passage of such foodstuffs and other essential supplies.

*II. National Practice**Military Manuals*

161. Australia's Commanders' Guide provides that "in so far as the purpose of a blockade is to deprive the enemy population of foodstuffs, so as to starve them in the hope that they would apply pressure to their government to seek peace, it would now appear to be illegal in accordance with Article 54(1) [AP I]".¹⁶³

162. Australia's Defence Force Manual states that:

The declaration or establishment of a blockade is prohibited if:

- a. it has the sole purpose of starving the civilian population or denying it other objects indispensable for its survival.

...

If the civilian population of the blockaded territory is inadequately provided with food and other objects essential for its survival, the blockading party must provide for free passage of such foodstuffs and other essential supplies ...¹⁶⁴

163. Canada's LOAC Manual provides that:

The declaration or establishment of a blockade is prohibited if:

- a. it has the sole purpose of starving the civilian population or denying it other objects essential for its survival;

...

If the civilian population of the blockaded territory is inadequately provided with food and other objects essential for its survival, the blockading party must provide for free passage of such foodstuffs and other essential supplies ...¹⁶⁵

164. Ecuador's Naval Manual states that "neutral vessels and aircraft engaged in the carriage of qualifying relief supplies for the civilian population ... should be authorized to pass through the blockade cordon".¹⁶⁶

¹⁶³ Australia, *Commanders' Guide* (1994), § 850, footnote 5.

¹⁶⁴ Australia, *Defence Force Manual* (1994), §§ 665 and 666.

¹⁶⁵ Canada, *LOAC Manual* (1999), p. 8-9, §§ 67 and 68.

¹⁶⁶ Ecuador, *Naval Manual* (1989), § 7.7.3.

165. France's LOAC Manual states that when carrying out a blockade, there is an obligation "to allow free passage for relief indispensable to the survival of the civilian population".¹⁶⁷

166. Germany's Military Manual, in a section on blockades, states that "starvation of the civilian population as a method of warfare is prohibited".¹⁶⁸

167. New Zealand's Military Manual states that blockade is not prohibited "even if it causes some collateral deprivation to the civilian population, so long as starvation is not the specific purpose".¹⁶⁹

168. Sweden's IHL Manual states that:

Certain states have maintained that the prohibition against starvation shall apply without exception which would also mean its application against blockade in naval warfare. Other states have claimed that this method of warfare is the province of the international law of naval warfare, which, according to Article 49:3, shall not be affected by the new rules of Additional Protocol I. There is thus no consensus that the prohibition of starvation shall be considered to include maritime blockade.¹⁷⁰

169. The US Naval Handbook states that "neutral vessels and aircraft engaged in the carriage of qualifying relief supplies for the civilian population . . . should be authorized to pass through the blockade cordon".¹⁷¹

National Legislation

170. No practice was found.

National Case-law

171. No practice was found.

Other National Practice

172. According to the Report on the Practice of Iraq, refraining from the use of embargoes on food and medicine as a weapon by one of the conflicting parties is a fixed and established principle which has been applied by the Iraqi armed forces in armed conflicts.¹⁷²

173. In 1973, a Deputy Legal Adviser of the US Department of State expressed the hope that:

new rules can . . . be developed to reduce or eliminate the possibility that starvation will result from blockade, perhaps by requiring the passage of food supplies provided only that distribution is made solely to civilians and is supervised by the ICRC or some other appropriate external body.¹⁷³

¹⁶⁷ France, *LOAC Manual* (2001), p. 33.

III. Practice of International Organisations and Conferences

United Nations

174. In 1996, in a statement by its President concerning the conflict in Afghanistan, the UN Security Council declared that it was particularly concerned about “the blockade of [Kabul], which has prevented the delivery of foodstuffs, fuel and other humanitarian items to its population”.¹⁷⁴

175. In 1998, in a statement by its President concerning the conflict in Afghanistan, the UN Security Council stated that:

The Security Council is also concerned with the sharp deterioration of the humanitarian situation in several areas in Central and Northern Afghanistan, which is caused by the Taliban-imposed blockade of the Bamyan region remaining in place despite appeals by the United Nations and several of its Member States to lift it, as well as by the lack of supplies coming in from the northern route owing to insecurity and looting.¹⁷⁵

176. In resolutions adopted in 1994 and 1995 on the situation of human rights in Iraq, the UN Commission on Human Rights expressed its “special alarm at all internal embargoes which permit essentially no exceptions for humanitarian needs and which prevent the equitable enjoyment of basic foodstuffs and medical supplies, and calls upon Iraq, which has the sole responsibility in this regard, to remove them”.¹⁷⁶

177. In a resolution adopted in 1995 on the situation of human rights in Iraq, the UN Sub-Commission on Human Rights expressed its concern about “the serious deterioration of the health and nutritional situation from which the majority of citizens with limited income suffer as victims of the international embargo”. The Sub-Commission was also deeply concerned by “the internal embargo maintained by the Government against the Kurdish population in the north of Iraq and the Arab Shiah population in the southern marshlands”. It called upon the government “to cease its internal embargo . . . and to re-establish the electricity supply to both regions”.¹⁷⁷

178. In a resolution adopted in 1996 on the situation of human rights in Iraq, the UN Sub-Commission on Human Rights expressed its concern about “the serious deterioration of the health and nutritional situation from which the majority of citizens with limited income suffer as victims of the international embargo”. The Sub-Commission further called upon the Iraqi government “to cease its internal embargo against the north and the Shiah populations in the south, areas which are both still under siege, and to re-establish the electricity supply to both regions”.¹⁷⁸

¹⁷⁴ UN Security Council, Statement by the President, UN Doc. S/PRST/1996/6, 15 February 1996, p. 1.

¹⁷⁵ UN Security Council, Statement by the President, UN Doc. S/PRST/1998/9, 6 April 1998, p. 2.

¹⁷⁶ UN Commission on Human Rights, Res. 1994/74, 9 March 1994, § 9; Res. 1995/76, 8 March 1995, § 10.

¹⁷⁷ UN Sub-Commission on Human Rights, Res. 1995/3, 18 August 1995, preamble and § 6.

¹⁷⁸ UN Sub-Commission on Human Rights, Res. 1996/5, 19 August 1996, preamble and § 4.

179. In 1993, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights included in the recommendations that “blockades of cities and enclaves should be ended immediately and humanitarian corridors opened”.¹⁷⁹

180. In 1996, in a report on extrajudicial, summary or arbitrary executions, the Special Rapporteur of the UN Commission on Human Rights included a section on violations of the right to life during armed conflicts. In the report, he expressed his alarm that “many thousands of people not participating in armed confrontations have lost their lives as direct victims of conflicts . . . or indirectly as a consequence of blocking of the flow of water, food and medical supplies”.¹⁸⁰

Other International Organisations

181. In a resolution adopted in 1994 on the humanitarian situation and needs of the displaced Iraqi Kurdish population, the Parliamentary Assembly of the Council of Europe called upon the Iraqi government to “put an immediate end to . . . its embargo on the supplies to the region”.¹⁸¹

182. In 1990, ECOWAS sent a peacekeeping contingent, ECOMOG, to Liberia. The NPFL fought against ECOMOG and controlled a considerable part of Liberia. In order to compel the NPFL to surrender, ECOWAS imposed a blockade on all parts of Liberia under the control of the NPFL.¹⁸² It cut off food supplies to the NPFL, arguing that relief convoys were used by the NPFL to smuggle arms and ammunition into Liberia.¹⁸³ Although this allegation was denied and the blockade was claimed to have caused considerable deprivation and hardship to the civilian population, ECOWAS maintained this siege until the Cotonou Agreement on Liberia was concluded in 1993.¹⁸⁴

183. In a resolution adopted in 1994 on the Palestinian cause and the Arab-Israeli conflict, the OIC Conference of Ministers of Foreign Affairs strongly condemned Israeli practices in the occupied territories. Among the practices condemned was the blockade of Al-Qods Al-Sharif.¹⁸⁵

International Conferences

184. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

186. No practice was found.

VI. Other Practice

187. No practice was found.

B. Attacks against Objects Indispensable to the Survival of the Civilian Population

General

*I. Treaties and Other Instruments**Treaties*

188. Article 54(2) AP I provides that:

It is prohibited to attack, destroy, remove, or render useless objects indispensable to the survival of the civilian population, such as foodstuffs, agricultural areas for the production of foodstuffs, crops, livestock, drinking water installations and supplies and irrigation works, for the specific purpose of denying them for their sustenance value to the civilian population or to the adverse Party, whatever the motive, whether in order to starve out civilians, to cause them to move away, or for any other motive.

Article 54 AP I was adopted by consensus.¹⁸⁶

189. Upon ratification of AP I, France stated that it:

considers that paragraph 2, Article 54 does not prohibit attacks carried out for a specific purpose, with the exception of those which aim at depriving the civilian population of objects indispensable to its survival and of those targeting objects which, although used by the adverse party, are not used solely for the sustenance of members of the armed forces.¹⁸⁷

190. Upon ratification of AP I, the UK stated that it “understands that paragraph 2 [of Article 54] has no application to attacks that are carried out for a specific purpose other than denying sustenance to the civilian population or the adverse party”.¹⁸⁸

¹⁸⁶ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 208.

¹⁸⁷ France, Reservations and declarations made upon ratification of AP I, 11 April 2001, § 14.

¹⁸⁸ UK, Reservations and declarations made upon ratification of AP I, 28 January 1998, § 1.

191. Article 14 AP II provides that it is

prohibited to attack, destroy, remove or render useless, for that purpose [starvation of civilians], objects indispensable to the survival of the civilian population, such as foodstuffs, agricultural areas for the production of foodstuffs, crops, livestock, drinking water installations and supplies and irrigation works.

Article 14 AP II was adopted by consensus.¹⁸⁹

192. Article 8(2)(b)(xxv) of the 1998 ICC Statute provides that “intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival” is a war crime in international armed conflicts.

Other Instruments

193. Article 3(b) of the 1990 Cairo Declaration on Human Rights in Islam deals with the protection of civilians in times of armed conflict and provides that “it is prohibited to fell trees, to damage crops or livestock, and to destroy the enemy’s civilian buildings and installations by shelling, blasting or any other means”.

194. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 54(2) AP I.

195. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 54(2) AP I.

196. Section 6.7 of the 1999 UN Secretary-General’s Bulletin provides that “the United Nations force is prohibited from attacking, destroying, removing or rendering useless objects indispensable to the survival of the civilian population, such as foodstuff, crops, livestock and drinking-water installations and supplies”.

197. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(xxv), “intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival” is a war crime in international armed conflicts.

II. National Practice

Military Manuals

198. Argentina’s Law of War Manual states that, in the course of armed conflicts not of an international character, “objects indispensable to the survival of the civilian population enjoy special protection”.¹⁹⁰

¹⁸⁹ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 137.

¹⁹⁰ Argentina, *Law of War Manual* (1989), § 7.09.

199. Australia's Commanders' Guide states that:

It is prohibited to destroy, remove or render useless objects indispensable to the survival of the civilian population, such as foodstuffs, agricultural areas for the production of foodstuffs, crops, livestock, drinking water installations and supplies and irrigation works. Military operations involving collateral deprivation are not unlawful as long as the object is not to starve the civilian population.¹⁹¹

200. Australia's Defence Force Manual provides that:

Objects indispensable to the survival of the civilian population cannot be attacked, destroyed, removed or rendered useless for the specific purpose of denying them for their sustenance value to the civilian population, such as foodstuffs, agricultural areas for the production of foodstuffs, crops, livestock, drinking water installations and supplies and irrigation works. This includes starving civilians or causing them to move away.¹⁹²

The manual adds that the destruction of such objects is prohibited, "whatever the motive of such destruction".¹⁹³ It further stresses that the prohibition of attacking objects indispensable to the survival of the civilian population "relates to attacks made for the specific purpose of denying these items to the civilian population. Collateral damage to foodstuffs is not a violation of these rules as long as the intention was to gain a military advantage by attacking a military objective."¹⁹⁴

201. Under Belgium's Law of War Manual, it is prohibited to attack, destroy or render useless objects indispensable to the survival of the civilian population, such as foodstuffs, agricultural areas for the production of foodstuffs, drinking water and drinking water installations.¹⁹⁵

202. Benin's Military Manual provides that "the following prohibitions shall be respected: . . . to direct attacks at objects indispensable to the survival of the civilian population, such as: foodstuffs, crops, livestock and reserves of drinking water".¹⁹⁶

203. Canada's LOAC Manual provides that:

It is prohibited to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population whatever the motive.

...

The following are examples of "objects indispensable to the survival of the civilian population":

- a. foodstuffs;
- b. agricultural areas for the production of foodstuffs;
- c. crops;

¹⁹¹ Australia, *Commanders' Guide* (1994), § 907, see also § 410.

¹⁹² Australia, *Defence Force Manual* (1994), § 709, see also § 533, 929 and 930.

¹⁹³ Australia, *Defence Force Manual* (1994), § 930.

¹⁹⁴ Australia, *Defence Force Manual* (1994), § 533.

¹⁹⁵ Belgium, *Law of War Manual* (1983), p. 28.

¹⁹⁶ Benin, *Military Manual* (1995), Fascicule III, p. 12.

- d. livestock;
- e. drinking water installations and supplies; and
- f. irrigation works.¹⁹⁷

With regard to methods prohibited in non-international armed conflicts, the manual also stipulates that “it is prohibited to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population whatever the motive”.¹⁹⁸

204. Colombia’s Basic Military Manual provides that the parties to a conflict must “abstain from attacking those objects and installations that . . . are indispensable for the well-being and survival [of the civilian population]”.¹⁹⁹ It also states that objects indispensable to the survival of the civilian population, such as crops and the areas where they are produced, livestock, drinking water installations and irrigation works, are protected objects.²⁰⁰ In a chapter entitled “Provisions of IHL applicable in Colombia”, the manual states that “in all armed conflicts”, it is prohibited to attack objects indispensable to the survival of the civilian population as a method of combat.²⁰¹

205. Ecuador’s Naval Manual prohibits the “intentional destruction of food, crops, livestock, drinking water and other objects indispensable to the survival of the civilian population, for the specific purpose of denying the civilian population of their use”.²⁰²

206. France’s LOAC Summary Note provides that “it is prohibited . . . to attack, destroy, remove or render useless objects indispensable to the survival of the population (foodstuffs, livestock, crops, drinking water, etc.)”.²⁰³

207. France’s LOAC Teaching Note states that “objects indispensable to the survival of the population must absolutely be preserved (crops, livestock, foodstuffs, drinking water . . .)”.²⁰⁴

208. France’s LOAC Manual incorporates the content of Article 54(2) AP I.²⁰⁵

209. Germany’s Soldiers’ Manual provides that “the objects indispensable to the survival of the civilian population (e.g. drinking water installations) may not be destroyed”.²⁰⁶

210. Germany’s Military Manual provides that “it is . . . prohibited to attack . . . objects indispensable to the civilian population, e.g. production of foodstuffs, clothing, drinking water installations, with the aim to prevent the civilian

¹⁹⁷ Canada, *LOAC Manual* (1999), p. 4-8, §§ 78 and 79, see also p. 6-4, § 41 (land warfare) and p. 7-3, § 25 (air warfare).

population from being supplied".²⁰⁷ The manual further states that "grave breaches of international humanitarian law are in particular: . . . starvation of civilians by destroying, removing or rendering useless objects indispensable to the survival of the civilian population (e.g. foodstuffs, means for the production of foodstuffs, drinking water installations and supplies, irrigation works)".²⁰⁸

211. India's Police Manual provides that "the Central or State Government may, if satisfied with respect to any person that with a view to preventing him from acting in any manner prejudicial to . . . *the maintenance of supplies and services essential to the community* it is necessary so to do, make an order directing that such person be detained".²⁰⁹ (emphasis in original)

212. Indonesia's Military Manual states that it is prohibited to attack foodstuffs, agricultural areas, crops, livestock, drinking water installations and supplies, including irrigation works.²¹⁰

213. Israel's Manual on the Laws of War states that "it is prohibited to attack targets essential to the continued survival of the civilian population".²¹¹

214. Kenya's LOAC Manual provides that "it is forbidden . . . to direct attacks at objects indispensable for the survival of the civilian population such as foodstuff, crops, livestock and drinking water".²¹²

215. Under Madagascar's Military Manual, it is prohibited to destroy objects indispensable to the survival of the civilian population.²¹³

216. Under the Military Manual of the Netherlands, it is prohibited to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population whatever the motive. It includes in the category of objects indispensable to the survival of the civilian population, foodstuffs, agricultural areas, crops, drinking water installations, irrigation works and other supplies.²¹⁴ In addition, the manual specifically prohibits "attack, destruction, removal and rendering useless of objects indispensable to the survival of the civilian population, such as foodstuffs, agricultural areas, crops, livestock, drinking water installations and irrigation works" in non-international armed conflicts.²¹⁵

217. Under the Military Handbook of Netherlands, it is prohibited to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population. It includes in the category of objects indispensable to the survival of the civilian population, foodstuffs, agricultural areas, crops, drinking water installations, irrigation works and other supplies.²¹⁶

²⁰⁷ Germany, *Military Manual* (1992), § 463.

²¹⁵ Netherlands, *Military Manual* (1993), p. XI-6.

²¹⁶ Netherlands, *Military Handbook* (1995), p. 7-44.

218. New Zealand's Military Manual states that:

AP I Art. 54 expands the customary protection as follows: . . .

It is prohibited to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population, such as foodstuffs, agricultural areas for the production of foodstuffs, crops, livestock, drinking water installations and supplies and irrigation works, for the specific purpose of denying them for their sustenance value to the civilian population or to the adverse Party, whatever the motive, whether in order to starve out civilians, to cause them to move away, or for any other motive.

...

This prohibition does not, however, extend to attacks carried out for *some specific purpose other than* that of denying sustenance to the civilian population.²¹⁷ [emphasis in original]

The manual also states that:

AP II forbids starvation as a method of combat: it is prohibited for that purpose to attack, destroy, remove or render useless for that purpose objects considered indispensable to the survival of the civilian population, such as foodstuffs, agricultural areas, livestock, drinking water installations, irrigation works, and the like.

...

In other words, deprivation of food and other materials necessary to sustain the population cannot be used by a government as a method of pressure against civilians supporting rebels.²¹⁸

219. Nigeria's Military Manual provides that "attack, destruction, removal of objects indispensable to the survival of the civilian population is prohibited".²¹⁹

220. South Africa's LOAC Manual provides that "objects which are essential to the survival of the civilian population (such as livestock, irrigation works and water supply) must not be attacked".²²⁰

221. Spain's LOAC Manual states that it is prohibited to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population "with the intent to starve the civilian population".²²¹ It also gives as examples of such objects, foodstuffs, agricultural areas for the production of foodstuffs, crops, livestock, drinking water installations and reserves, irrigation works, etc.²²²

222. Sweden's IHL Manual states that:

Article 54:2 [AP I] . . . prohibits attack on such property as is essential for the survival of a civilian population for the purpose of depriving the civilian population

²¹⁷ New Zealand, *Military Manual* (1992), § 504(2) (land warfare), including footnote 9, see also § 613(2) (air warfare).

²¹⁸ New Zealand, *Military Manual* (1992), § 1820, including footnote 75.

²¹⁹ Nigeria, *Military Manual* (1994), p. 42, § 11.

²²⁰ South Africa, *LOAC Manual* (1996), § 28(c).

²²¹ Spain, *LOAC Manual* (1996), Vol. I, § 3.3.c.(4), see also § 4.5.b.(2).

²²² Spain, *LOAC Manual* (1996), Vol. I, § 4.5.b.(2), see also §§ 1.3.d.(3) and 3.3.c.(4).

or the adversary of vital necessities, in order to starve them out or compel them to leave an area, or for any other reason. It is equally forbidden to remove such property or render it useless. The property which shall receive protection in the first instance is foodstuffs and agricultural areas, crops, cattle, plant and reservoirs for drinking water and irrigation works. This list is incomplete, and further objects could be added. It may be pertinent to list also civilian dwellings in cold areas, which considerably increase the scope of the article. Yet it is less probable that such an extension would gain general approval. Moreover, civilian dwellings have protection in Article 52, even though this is far from sufficient.

The prohibition in Article 54:2 [AP I] applies only to attack, removal or incapacitation performed for the purpose given – thus the article offers no protection against unintentional injury or losses arising from an attack that has other purposes. Attack on a hostile force deployed in the neighbourhood of a community may thus for example lead to damage to a nearby grain store without these secondary effects involving a breach of Article 54.²²³

223. Switzerland's Basic Military Manual states that "objects vital to the civilian population, such as drinking water, foodstuffs, crops and livestock as well as agricultural areas, must not be rendered useless".²²⁴

224. Togo's Military Manual provides that "the following prohibitions shall be respected: . . . to direct attacks at objects indispensable to the survival of the civilian population, such as: foodstuffs, crops, livestock and reserves of drinking water".²²⁵

225. The UK LOAC Manual provides that "it is forbidden . . . to direct attacks at objects indispensable to the survival of the civilian population such as foodstuffs, crops, livestock and drinking water".²²⁶

226. The US Naval Handbook prohibits the "intentional destruction of food, crops, livestock, drinking water and other objects indispensable to the survival of the civilian population, for the specific purpose of denying the civilian population of their use".²²⁷

227. The Annotated Supplement to the US Naval Handbook provides that the rule prohibiting the intentional destruction of objects indispensable to the survival of the civilian population for the specific purpose of denying the civilian population of their use is a "customary rule . . . accepted by the United States . . . and is codified in [AP I], art. 54(2)".²²⁸

228. Under the YPA Military Manual of the SFRY (FRY), it is prohibited to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population, with the intent to deprive the population of those objects, regardless of the motive (in order to starve the population, to force it to move or for any other motive). The manual gives the following examples

²²³ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 60.

²²⁴ Switzerland, *Basic Military Manual* (1987), Article 35.

²²⁵ Togo, *Military Manual* (1996), Fascicule III, p. 12.

of objects indispensable to the survival of the civilian population: agricultural areas, places of food production, crops, livestock, drinking water installations, reservoirs for drinking water and irrigation works.²²⁹

National Legislation

229. Argentina's Draft Code of Military Justice punishes any soldier who "attacks, destroys, removes or renders useless objects indispensable to the survival of the civilian population".²³⁰ It also considers as a punishable offence the fact of depriving protected persons of indispensable food or necessary medical assistance.²³¹

230. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "any intentional deprivation of civilians of objects indispensable to their survival" in international armed conflicts.²³²

231. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "the fact of deliberately starving civilians as a method of warfare, by depriving them of objects indispensable to their survival" constitutes a war crime in international armed conflicts.²³³

232. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.²³⁴

233. Colombia's Penal Code imposes a criminal sanction on "anyone who, during an armed conflict, attacks, renders useless, damages, removes or appropriates objects or elements indispensable to the survival of the civilian population".²³⁵

234. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.²³⁶

235. The Czech Republic's Criminal Code as amended punishes any "person who in wartime . . . destroys or seriously disrupts a source of the necessities of life for civilians in an occupied area or contact zone".²³⁷

236. The Draft Amendments to the Penal Code of El Salvador provide for a prison sentence for "anyone who, during an international or non-international

²²⁹ SFRY (FRY), *YPA Military Manual* (1988), § 74.

armed conflict, attacks . . . objects indispensable to the survival of the civilian population".²³⁸

237. Under Estonia's Penal Code, "a person who . . . destroys or renders useless food or water supplies, sown crops or domestic animals indispensable to the survival of the civilian population" commits a war crime.²³⁹

238. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, such as "intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival" in international armed conflicts, is a crime.²⁴⁰

239. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict, "uses starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival".²⁴¹

240. Iraq's Military Penal Code punishes anyone who destroys or wrecks, without necessity, "moveable or immovable property, cuts down trees, destroys agricultural crops or orders to commit such acts".²⁴²

241. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of AP I, including violations of Article 54(2) AP I, as well as any "contravention" of AP II, including violations of Article 14 AP II, are punishable offences.²⁴³

242. Under Mali's Penal Code, "deliberately starving civilians as a method of warfare, by depriving them of objects indispensable to their survival" is a war crime in international armed conflicts.²⁴⁴

243. Mexico's Code of Military Justice as amended punishes anyone who "makes requisition of foodstuffs".²⁴⁵ It also punishes "anyone who, taking advantage of his own authority or the authority of the armed forces, maliciously and arbitrarily destroys foodstuffs, when it is not required by military operations".²⁴⁶

244. The Definition of War Crimes Decree of the Netherlands considers as a war crime the "intentional withholding of medical supplies from civilians".²⁴⁷

245. Under the International Crimes Act of the Netherlands, "intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival" is a crime, when committed in an international armed conflict.²⁴⁸

²⁴⁷ Netherlands, *Definition of War Crimes Decree* (1946), Article 1.

²⁴⁸ Netherlands, *International Crimes Act* (2003), Article 5(5)(l).

246. Under New Zealand's International Crimes and ICC Act, war crimes include the crime defined in Article 8(2)(b)(xxv) of the 1998 ICC Statute.²⁴⁹
247. Nicaragua's Draft Penal Code punishes "anyone who, during an international or internal armed conflict, attacks... objects indispensable to the survival of the civilian population".²⁵⁰
248. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in... the two additional protocols to [the Geneva] Conventions... is liable to imprisonment".²⁵¹
249. Peru's Code of Military Justice imposes penalties on members of the armed forces who destroy or endanger public services vital to the survival of the population, such as water supplies.²⁵²
250. Slovakia's Criminal Code as amended punishes any "person who in wartime... destroys or seriously disrupts a source of the necessities of life for civilians in an occupied area or contact zone".²⁵³
251. Spain's Penal Code punishes "anyone who, during an armed conflict,... attacks, destroys, removes or renders useless objects indispensable to the survival of the civilian population".²⁵⁴
252. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xxv) of the 1998 ICC Statute.²⁵⁵
253. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xxv) of the 1998 ICC Statute.²⁵⁶
254. Vietnam's Penal Code punishes "anyone who, in time of peace or in time of war,... destroys vital resources".²⁵⁷

National Case-law

255. In the *Perišić and Others case* before a Croatian district court in 1997, after a trial *in absentia*, several persons were convicted of ordering the shelling of the city of Zadar and its surroundings, *inter alia*, on the basis of Article 14 AP II, as incorporated in Article 120(1) of Croatia's Criminal Code of 1993.²⁵⁸

Other National Practice

256. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Australia declared that:

²⁴⁹ New Zealand, *International Crimes and ICC Act* (2000), Section 11(2).

²⁵⁰ Nicaragua, *Draft Penal Code* (1999), Article 464.

²⁵¹ Norway, *Military Penal Code as amended* (1902), § 108(b).

²⁵⁵ Trinidad and Tobago, *Draft ICC Act* (1999), Section 5(1)(a).

²⁵⁶ UK, *ICC Act* (2001), Sections 50(1) and 51(1) (England and Wales) and Section 58(1) (Northern Ireland).

²⁵⁷ Vietnam, *Penal Code* (1990), Article 278.

²⁵⁸ Croatia, District Court of Zadar, *Perišić and Others case*, Judgement, 24 April 1997.

Another area of the law in which there have been significant recent developments is that of the protection of the civilian population in times of armed conflict. A significant step further was taken as recently as 1977, with the adoption of the Additional Protocol I to the Geneva Conventions. Australia, together with the bulk of the international community, believes that the essential terms of the Protocol should be regarded as reflecting customary international law . . .

Article 54, paragraph 2, provides that a Party may not

“attack, destroy, remove or render useless objects indispensable to the survival of the civilian population, such as foodstuffs, agricultural areas for the production of foodstuffs, crops, livestock, drinking water installations and supplies and irrigation works, for the specific purpose of denying them for their sustenance value to the civilian population or to the adverse Party”.²⁵⁹

257. In 1992, during a debate in the UN Security Council on the situation in Bosnia and Herzegovina, Austria declared that the “withholding of food and essential humanitarian goods is a central element in the policy of ‘ethnic cleansing’ against the non-Serbian population”.²⁶⁰

258. At the CDDH, Belgium sponsored a draft article on the prohibition of starvation which contained the rule that it is “forbidden to attack, destroy, remove or render useless, crops, drinking water supplies, irrigation works, livestock, foodstuffs or food producing areas for the purpose of denying them to the enemy or the civilian population”.²⁶¹

259. In 1994, in reply to a questionnaire from the House of Representatives, Colombia’s Ministry of Foreign Affairs quoted Article 14 AP II.²⁶²

260. The Report on the Practice of Colombia refers to a draft internal working paper in which the Colombian government stated that it was prohibited “to make the civilian population suffer from hunger or thirst and to attack, destroy, remove or render useless objects for this purpose”.²⁶³

261. According to the Report on the Practice of Egypt, “attacks against . . . objects indispensable to the survival of the civilian population are . . . prohibited” in Egypt.²⁶⁴

262. At the 26th International Conference of the Red Cross and Red Crescent in 1995, Germany stated that “the deprivation of resources necessary for survival, such as water, [has] been used repeatedly and [has] to be condemned”.²⁶⁵

²⁶⁵ Germany, Statement at the 26th International Conference of the Red Cross and Red Crescent, Geneva, 3–7 December 1995.

263. According to the Report on the Practice of Israel, "the IDF does not practice or condone the attack, destruction, removal or the rendering useless of objects indispensable to the survival of the civilian population of the enemy, for the specific purpose of denying them for their sustenance value to the enemy or its civilian population".²⁶⁶

264. According to the Report on the Practice of Jordan, "Islamic law proscribes...the attack on objects that are indispensable to the survival of the civilian population".²⁶⁷

265. In 1990, in a letter addressed to the UN Secretary-General, Kuwait denounced Iraqi "practices, which are an affront to mankind and which violate all the values of Islam and of civilization, the principles of human rights and the relevant Geneva Conventions...[including] [c]learing of warehouses and co-operative societies of foodstuffs with a view to causing starvation among citizens".²⁶⁸

266. The Report on the Practice of Malaysia states that Malaysia's security forces, during the conflict against the communist opposition, left unharmed objects indispensable to the survival of the civilian population, such as cattle and water sources or supply.²⁶⁹

267. The Guidelines on Evacuations adopted in 1991 by the Presidential Human Rights Committee of the Philippines provides that:

The military is prohibited to attack, destroy, remove or render useless objects indispensable for the survival of the civilian population, such as foodstuffs, agricultural means for the production of foodstuffs, crops, livestock, drinking water installations and supplies and irrigation works (Protocol II, Art. 14).²⁷⁰

268. On the basis of replies by army officers to a questionnaire, the Report on the Practice of Rwanda notes that it is a crime to attack objects indispensable to the survival of the civilian population, stating that it violates the principle of distinction between civilian objects and military objectives.²⁷¹

269. At the CDDH, the UK sponsored a draft article on the prohibition of starvation which contained the rule that it is "forbidden to attack, destroy, remove or render useless, crops, drinking water supplies, irrigation works, livestock, foodstuffs or food producing areas for the purpose of denying them to the enemy or the civilian population".²⁷² The UK favoured an exhaustive list of objects

considered indispensable to the survival of the civilian population instead of an illustrative list "to achieve greater clarity".²⁷³

270. During the Korean War, the Commanding General of the US Far East Air Force refused to bomb dams in North Korea since he was "concerned over the political impact of destroying food crops" which would have resulted from such attacks.²⁷⁴

271. In 1992, during a debated in the UN Security Council on the situation in Bosnia and Herzegovina, Venezuela declared that:

Nor must we forget that the United Nations Convention on the Prevention and Punishment of the Crime of Genocide clearly states that genocide means inflicting on a group of human beings conditions of life calculated to bring about its physical destruction in whole or in part. Article 54 of the 1977 Additional Protocol I to the Geneva Conventions also prohibits the destruction of infrastructure basic to life, such as electricity, drinking water, sewage and other public services. Such are the acts today being perpetrated in the Republic of Bosnia and Herzegovina.²⁷⁵

272. In 1991, a State denounced the destruction of waterways and electrical transmission as violations of international law.²⁷⁶

273. In a letter to the ICRC in 1991, a State strongly criticised the intention of another State to destroy vital facilities in a third State.²⁷⁷

III. Practice of International Organisations and Conferences

United Nations

274. In 1993, in a statement by its President regarding the situation in Sarajevo, the UN Security Council stated that "it demands an end to the disruption of public utilities (including water, electricity, fuel and communications) by the Bosnian Serb party".²⁷⁸

275. In 1998, in a statement by its President regarding the situation in the DRC, the UN Security Council recalled "the unacceptability of the destruction or rendering useless of objects indispensable to the survival of the civilian population, and in particular of using cuts in the electricity and water supply as a weapon against the population".²⁷⁹

276. In a resolution adopted in 1990, the UN Commission on Human Rights expressed its "deepest concern at the worsening of the armed conflict in El

²⁷³ UK, Statement at the CDDH, *Official Records*, Vol. XIV, CDDH/III/SR.16, 19 March 1974, p. 139, § 56, see also Statement at the CDDH, *Official Records*, Vol. IV, CDDH/III/SR.17, 19 March 1974, p. 148, § 31.

Salvador". It also expressed its "serious concern at the systematic attacks on the economic infrastructure which severely impaired the present and future enjoyment of important economic, social and cultural rights by the Salvadorian people" and requested that the parties to the conflict "guarantee respect for humanitarian standards applicable to non-international armed conflicts such as that in El Salvador".²⁸⁰

277. In a resolution adopted in 1993 on the situation of human rights in Iraq, the UN Sub-Commission on Human Rights expressed its deep concern about "the programme undertaken by the Iraqi Government to drain the southern marshlands". It also called upon the Iraqi government to stop "all draining schemes and destruction of the marshes" in southern Iraq.²⁸¹

278. In a resolution adopted in 1995 on the situation of human rights in Iraq, the UN Sub-Commission on Human Rights expressed its concern about "economic policy decisions depriving part of the national territory of supplies of medicines and foodstuffs", as well as about "information that the population continues to flee the marshlands region . . . because of . . . the programme conducted by the Iraqi Government to drain the southern marshlands, which ha[s] led to a mass exodus". The Sub-Commission called upon the Iraqi government immediately "to cease all draining schemes and destruction of the marshes".²⁸²

279. In a resolution adopted in 1996 on the situation of human rights in Iraq, the UN Sub-Commission on Human Rights expressed its concern about "economic policy decisions depriving part of the national territory of supplies of medicines and foodstuffs".²⁸³

280. In 1993, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights denounced the destruction of water-treatment stations in Bosnia and Herzegovina, which had exposed the civilian population to dehydration and disease.²⁸⁴

281. In 1998, the UN High Commissioner for Human Rights and the UN Under-Secretary-General for Humanitarian Affairs issued a joint statement on the situation in the DRC in which they expressed their concern that:

The humanitarian situation on the ground is steadily deteriorating, in particular in Kinshasa where electricity and water supplies have been disrupted sporadically over recent days . . . The United Nations and its agencies call on those who instigated these acts to immediately restore all vital basic services, in particular power supply and drinking-water to the capital, and to refrain from wilfully endangering the lives of thousands of innocent men, women and children.²⁸⁵

²⁸⁰ UN Commission on Human Rights, Res. 1990/77, 7 March 1990, §§ 4 and 10.

²⁸¹ UN Sub-Commission on Human Rights, Res. 1993/20, 20 August 1993, preamble and § 2.

²⁸² UN Sub-Commission on Human Rights, Res. 1995/3, 18 August 1995, preamble and § 2.

²⁸³ UN Sub-Commission on Human Rights, Res. 1996/5, 19 August 1996, preamble.

²⁸⁴ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Press Release HR/3462, 30 July 1993, § 6.

²⁸⁵ UN High Commissioner for Human Rights and UN Under-Secretary-General for Humanitarian Affairs, Press Release on the situation in the Democratic Republic of the Congo, 21 August 1998, §§ 4 and 5.

282. In 1994, in its interim report on grave violations of IHL in Rwanda, the UN Commission of Experts Established pursuant to Paragraph 1 of Security Council Resolution 935 (1994) determined that certain provisions of AP II, including Article 14, were violated in Rwanda “on a systematic, widespread and flagrant basis”.²⁸⁶

Other International Organisations

283. In a press statement issued in 1998 on the situation in the DRC, the EU Presidency condemned “acts of violence against civilians and any actions having a direct impact on the population, like . . . activities causing unnecessary suffering, as for instance the interruption of the provision of electricity that has severe humanitarian . . . consequences”.²⁸⁷

284. In a resolution on health and war adopted in 1995, the OAU Conference of African Ministers of Health called upon member States to ban “the destruction or putting out of use the indispensable goods for the survival of the civilian population, such as food, livestock, drinking water installations and reservoirs and irrigation infrastructures”.²⁸⁸

285. In 1991, the observers of an organisation qualified the systematic destruction of villages and hospitals by the armed forces of a separatist entity as contraventions of Article 14 AP II.²⁸⁹

International Conferences

286. The 26th International Conference of the Red Cross and Red Crescent in 1995 adopted a resolution on the protection of the civilian population in period of armed conflict in which it stressed “the prohibition on attacking, destroying, removing or rendering useless any objects indispensable to the survival of the civilian population” and further stressed that “water is a vital resource for victims of armed conflict and the civilian population and is indispensable to their survival”.²⁹⁰

287. The Plan of Action for the years 2000–2003 adopted in 1999 by the 27th International Conference of the Red Cross and Red Crescent proposed that “States stress the provisions of international humanitarian law . . . on attacking, destroying, removing or rendering useless, for that purpose, objects indispensable to the survival of the civilian population”.²⁹¹

²⁸⁶ UN Commission of Experts Established pursuant to Paragraph 1 of Security Council Resolution 935 (1994), Interim report, UN Doc. S/1994/1125, 4 October 1994, Annex, § 107.

IV. Practice of International Judicial and Quasi-judicial Bodies

288. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

289. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

It is prohibited to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population (e.g. foodstuffs, agricultural areas producing foodstuffs, crops, livestock, drinking water installations and supplies, irrigation works) for the specific purpose of starvation.²⁹²

290. In an appeal issued in 1979 with respect to the conflict in Rhodesia/Zimbabwe, the ICRC specifically requested the Transitional Government in Salisbury to “stop the destruction and confiscation by its armed forces of goods (food stocks, cattle) that are essential for the survival of the civilian population in the war-affected areas”.²⁹³

291. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context of the Gulf War, the ICRC stated that:

The ICRC invites States which are not party to 1977 Protocol I to respect, in the event of armed conflict, the following articles of the Protocol, which stem from the basic principle of civilian immunity from attack:

- Article 54: protection of objects indispensable to the survival of the civilian population.²⁹⁴

292. In an appeal issued in 1991, the Croatian Red Cross and other Croatian organisations qualified the destruction of waterways and electrical transmission during the conflict in the former Yugoslavia as violations of the Geneva Conventions.²⁹⁵

293. In an appeal issued in 1991, the ICRC enjoined the parties to the conflict in Yugoslavia “not to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population”.²⁹⁶

²⁹⁶ ICRC, Appeal in behalf of civilians in Yugoslavia, Geneva, 4 October 1991.

294. In an appeal issued in 1991, a Red Cross Society denounced the destruction of the only bakery in a town affected by a conflict.²⁹⁷

295. At its Budapest Session in 1991, the Council of Delegates adopted a resolution on the protection of the civilian population against famine in situations of armed conflict. In it, it reminded the authorities concerned and the armed forces under their command of their "obligation to apply international humanitarian law, in particular the following humanitarian principles . . . the prohibition on attacking, destroying, removing or rendering useless objects indispensable to the survival of the civilian population".²⁹⁸

296. In a press release issued in 1992, the ICRC enjoined the parties to the conflict in Bosnia and Herzegovina "not to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population".²⁹⁹

297. In two press releases issued in 1992, the ICRC enjoined the parties to the conflict in Afghanistan not to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population.³⁰⁰

298. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that "it is prohibited to attack, destroy or render useless objects indispensable to the survival of the civilian population, such as foodstuffs, crops, livestock, drinking water installations and supplies".³⁰¹

299. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that "objects indispensable to the survival of the civilian population, such as foodstuffs, crops, livestock and drinking water installations and supplies, must not be attacked, destroyed or rendered useless".³⁰²

VI. *Other Practice*

300. In a resolution adopted during its Edinburgh Session in 1969, the Institute of International Law stated that "neither the civilian population nor any of the objects expressly protected by conventions or agreements can be considered

as military objectives, nor yet . . . under whatsoever circumstances the means indispensable for the survival of the civilian population".³⁰³

301. In 1979, an armed group wrote to the ICRC to confirm its commitment to IHL and to denounce the extermination and destruction of numerous cattle and farms in the course of a conflict.³⁰⁴

302. The Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights of Åbo Akademi University in Turku/Åbo, Finland in 1990, states that "deliberate deprivation of access to necessary food, drinking water and medicine" is prohibited.³⁰⁵

303. Rule A7 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IHL, provides that "the general rule prohibiting attacks against the civilian population implies, as a corollary, the prohibition to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population".³⁰⁶

304. In 1995, a separatist entity denounced to a UN force the destruction of inhabited places, industrial facilities, food and water stocks in the course of a conflict as a method of warfare against civilians.³⁰⁷

305. In 1995, the IHL stated that any declaration on minimum humanitarian standards should be based on "principles . . . of *jus cogens*, expressing basic humanitarian consideration[s] which are recognized to be universally binding". According to the IHL, this includes the principle that "it is prohibited to attack, destroy, remove or render useless objects indispensable for the survival of the civilian population".³⁰⁸

306. In 1996, an armed opposition group denounced to the ICRC the driving away of cattle and removal of food supplies by the governmental forces.³⁰⁹

307. The Report on SPLM/A Practice notes that the SPLM/A, when attacking government garrisons and other positions, does not spare objects indispensable to the survival of the civilian population. The report cites examples such as the indiscriminate bombing of Juba and other towns in southern Sudan.³¹⁰

³¹⁰ Report on SPLM/A Practice, 1998, Chapter 4.1.

Attacks against objects used to sustain or support the adverse party

I. Treaties and Other Instruments

Treaties

308. Article 54(3) AP I provides that the prohibition contained in Article 54(2) AP I to attack, destroy, remove, or render useless objects indispensable to the survival of the civilian population does not apply if the objects indispensable to the survival of the civilian population are used by an adverse party:

- a) as sustenance solely for the members of its armed forces; or
- b) if not as sustenance, then in direct support of military action, provided, however, that in no event shall actions against these objects be taken which may be expected to leave the civilian population with such inadequate food or water as to cause its starvation or force its movement.

Article 54 AP I was adopted by consensus.³¹¹

309. In its reservation made upon ratification of the 1996 Amended Protocol II to the CCW, the US stated that “the United States reserves the right to use other devices . . . to destroy any stock of food or drink that is judged likely to be used by an enemy military force, if due precautions are taken for the safety of the civilian population”.³¹²

Other Instruments

310. Article 15 of the 1863 Lieber Code states that “military necessity . . . allows . . . of all withholding of sustenance or means of life from the enemy; of the appropriation of whatever an enemy’s country affords necessary for the subsistence and safety of the army”.

311. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 54(3) AP I.

312. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 54(3) AP I.

II. National Practice

Military Manuals

313. Australia’s Defence Force Manual states that:

Foodstuffs and agricultural areas producing them, crops, livestock and supplies of drinking water intended for the sole use of the armed forces may be attacked and destroyed. Extreme care will need to be exercised when making some objectives a

³¹¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 208.

³¹² US, Reservation made upon acceptance of Amended Protocol II to the CCW, 24 May 1999, § I.

military target, eg drinking water installations, as such objects are hardly likely to be used solely for the benefit of armed forces.

When objects are used for a purpose other than sustenance of members of the armed forces and such use is in direct support of military action, attack on such objects is lawful unless that action can be expected to leave the civilian population with such inadequate food or water as to cause its starvation or force its movement.³¹³

314. Belgium's Law of War Manual states that there is a prohibition to attack, destroy or render useless objects indispensable to the survival of the civilian population, "except if these objects are used by the adversary solely for the sustenance of its armed forces, or if that is not the case, if they serve nonetheless in direct support of military action".³¹⁴

315. Canada's LOAC Manual states that:

Objects indispensable to the survival of the civilian population may be attacked if they are used by an adverse party:

- a. as sustenance solely for the member[s] of its armed forces; or
- b. in direct support of military action, provided that actions against these objects do not leave the civilian population with such inadequate food or water so as to cause its starvation or force its movement.³¹⁵

316. Israel's Manual on the Laws of War states that "it is allowed, of course, to attack the enemy army's means of support or targets forming the foundation for the direct support of the enemy army, provided that the attack does not leave the civilian population with insufficient means to ward off its starvation".³¹⁶

317. The Military Manual of the Netherlands provides that objects indispensable to the survival of the civilian population are not protected if these objects are used as sustenance only for the members of the opposing armed forces or, if not as sustenance, then in direct support of military action of the adverse party.³¹⁷

318. New Zealand's Military Manual provides that the prohibition to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population

shall not apply to such of the objects covered by it as are used by an adverse Party:

- a. as sustenance solely for the members of its armed forces; or
- b. if not as sustenance, then in direct support of military action, provided, however, that in no event shall actions against these objects be taken which may be expected to leave the civilian population with such inadequate food or water as to cause its starvation or force its movement.³¹⁸

³¹³ Australia, *Defence Force Manual* (1994), §§ 710 and 711, see also § 931.

³¹⁴ Belgium, *Law of War Manual* (1983), p. 28.

³¹⁵ Canada, *LOAC Manual* (1999), p. 4-8, § 80.

³¹⁶ Israel, *Manual on the Laws of War* (1998), p. 35.

³¹⁷ Netherlands, *Military Manual* (1993), p. V-8.

³¹⁸ New Zealand, *Military Manual* (1992), §§ 504(3) (land warfare) and 613(3) (air warfare).

319. Spain's LOAC Manual provides that the prohibition of attacks against objects indispensable to the survival of the civilian population does not apply if the adverse party uses such objects as sustenance solely for the members of its armed forces or in direct support of military action. However, any attack against such objects must not leave the civilian population without adequate food or water such as would cause it to starve or force it to move.³¹⁹

320. Sweden's IHL Manual states that:

It is permitted to attack stocks of foodstuffs, water reservoirs, etc. which are *in the hands of the adversary's armed forces*. In practice, however, it would probably be very hard to determine whether a food transport or store was intended *only* for the armed forces or also for the civilian population. Also, military food transports may in some cases be intended for protected groups such as prisoners-of-war or civilians in the hands of one of the belligerents.

... Attacks may also be made on *objects being used by the adverse party in direct support of his military operations*. This exception may apply mainly when enemy units are for example using a cornfield for advance, or some other object for concealing military units.

The text uses the expression "military action" as opposed to the often-used expression "military operations" which is a broader concept. Thus the exception applies only if the attack entails a *direct* advantage in a given tactical situation. As against this, it is not permitted to attack an irrigation works, for example, with the excuse that this may be an advantage in a future operation, i.e. an indirect advantage.³²⁰ [emphasis in original]

321. The YPA Military Manual of the SFRY (FRY) provides that objects used solely by the armed forces or for immediate assistance to military operations are not included in the protection of objects indispensable to the survival of the civilian population.³²¹

National Legislation

322. Argentina's Draft Code of Military Justice punishes any soldier who "attacks, destroys, removes or renders useless objects indispensable to the survival of the civilian population, unless the adverse party uses such objects in direct support of military action or as means of sustenance exclusively for members of the armed forces".³²²

323. Spain's Penal Code punishes "anyone who, during an armed conflict, ... attacks, destroys, removes or renders useless objects indispensable to the survival of the civilian population, unless the adverse Party uses the said objects in direct support of military action or as means of sustenance exclusively for members of its Armed Forces".³²³

³¹⁹ Spain, *LOAC Manual* (1996), Vol. I, §§ 3.3.c.(4) and 4.5.b.(2)b).

³²¹ SFRY (FRY), *YPA Military Manual* (1988), § 74.

³²² Argentina, *Draft Code of Military Justice* (1998), Article 293, introducing a new Article 877(3) in the *Code of Military Justice as amended* (1951).

³²³ Spain, *Penal Code* (1995), Article 613(1)(c).

National Case-law

324. No practice was found.

Other National Practice

325. In 1994, in reply to a questionnaire from the House of Representatives, Colombia's Ministry of Foreign Affairs quoted Article 14 AP II. It added that:

What this article prohibits is the starvation of civilians. Therefore if one of the parties considers that an agricultural area with its crops, its livestock and its supply of clean water is supporting the military effort of the adverse party, or if it simply serves to feed the civilian population which is suspected of collaborating with the adverse party, that party can claim that it is meeting the objective of Article 14, that is, not starving the population, by moving the population concerned to another place.³²⁴

326. The Report on the Practice of Malaysia mentions the destruction by Malaysian forces of food supplies belonging to the enemy during the conflict against the communist opposition. These methods did not, according to the report, cause starvation of the civilian population.³²⁵

327. In 1973, a Deputy Legal Adviser of the US Department of State declared that "the generally accepted rule today is that crops and food supplies may be destroyed if they are intended solely for the use of armed forces".³²⁶

328. According to the Report on US Practice, it is the *opinio juris* of the US that foodstuffs and crops may be destroyed if it can be determined that they are destined for enemy armed forces.³²⁷

III. Practice of International Organisations and Conferences

329. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

330. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

331. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

³²⁴ Colombia, Presidency of the Republic, Office of the High Commissioner for Peace, National Plan for the Dissemination of IHL, Reply of the Ministry of Foreign Affairs to Questionnaire No. 012 of Commission II of the House of Representatives, 7 October 1994, p. 6.

³²⁵ Report on the Practice of Malaysia, 1997, Chapter 4.1.

³²⁶ US, Address by George H. Aldrich, Deputy Legal Adviser of the Department of State, 13 April 1973, reprinted in Arthur W. Rovine, *Digest of United States Practice in International Law, 1973*, Department of State Publication 8756, Washington, D.C., 1974, pp. 503–504.

³²⁷ Report on US Practice, 1997, Chapter 4.1.

Objects indispensable to the survival of the civilian population are excluded from protection, if: a) they are used solely for sustenance of the armed forces; or b) they are used in direct support of military action (but the civilian population may not be thus reduced to starvation or forced to move).³²⁸

VI. *Other Practice*

332. No practice was found.

Attacks in case of military necessity

I. Treaties and Other Instruments

Treaties

333. Article 54(5) AP I provides that:

In recognition of the vital requirements of any Party to the conflict in the defence of its national territory against invasion, derogation from the prohibitions contained in paragraph 2 [to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population] may be made by a Party to the conflict within such territory under its own control where required by imperative military necessity.

Article 54 AP I was adopted by consensus.³²⁹

Other Instruments

334. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 54(5) AP I.

335. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 54(5) AP I.

II. National Practice

Military Manuals

336. Australia's *Commanders' Guide* provides that "the ADF may not embark on a scorched earth policy within Australia or its territories unless under their control at the time of devastation and driven by imperative military necessity. It is still permitted, for example, to destroy a wheat-field to deny concealment to enemy forces."³³⁰

³²⁸ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 397.

³²⁹ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 208.

³³⁰ Australia, *Commanders' Guide* (1994), § 908.

337. Australia's Defence Force Manual states that:

It is permissible to destroy objects which are indispensable to the survival of the civilian population in the course of ordinary military operations only if it is militarily imperative to do so, for example to destroy a wheat field to deny concealment to enemy forces, because this is a tactical measure and does not amount to a scorched earth policy. The ADF may embark on a scorched earth policy in territory under Australian control where imperative military necessity requires it to do so to protect Australian national territory from invasion.³³¹

338. Canada's LOAC Manual states that:

Where a party to a conflict is defending its national territory against invasion, it may destroy objects indispensable to the survival of the civilian population with intent to deny their use by the enemy if:

- a. the objects are within national territory of and under the control of the party; and
- b. their destruction is required by imperative military necessity.

...
Where such an extreme measure is taken, the destruction of objects indispensable to the survival of the civilian population should not leave the civilian population with such inadequate food or water as to cause its starvation or force its movement.³³²

339. Colombia's Basic Military Manual, in a chapter entitled "Provisions of IHL applicable in Colombia", states that "in all armed conflicts" it is prohibited to order a scorched earth policy as a method of combat.³³³

340. Germany's Military Manual provides that "any deviations from this prohibition [attacking objects indispensable for the survival of the civilian population] shall be permissible only on friendly territory if required by imperative military necessity".³³⁴

341. Israel's Manual on the Laws of War states that:

Conducting a war by the "scorched earth" method, meaning the deliberate destruction of food products, agricultural areas, sanitation facilities, etc. with a view to inflicting starvation or suffering on the civilian population – is forbidden . . .

An exception to the "scorched earth" prohibition is the implementation of such a policy on one's own territory, as opposed to enemy territory. On the nation's sovereign territory, the local army is allowed to retreat leaving behind "scorched earth", so as not to provide sustenance for the advancing enemy forces, even at the cost of hurting the population identifying with it.³³⁵

342. The Military Manual of the Netherlands provides that, for any party to the conflict defending its national territory, the destruction of or the fact of rendering useless objects indispensable to the survival of the civilian population "may be made . . . within such territory under its own control where required by

³³¹ Australia, *Defence Force Manual* (1994), § 712, see also § 931(c).

³³² Canada, *LOAC Manual* (1999), pp. 6-4 and 6-5, §§ 42 and 43, see also p. 4-8, § 82.

³³³ Colombia, *Basic Military Manual* (1995), p. 49.

³³⁴ Germany, *Military Manual* (1992), § 463.

³³⁵ Israel, *Manual on the Laws of War* (1998), p. 35.

imperative military necessity". It adds that the flooding of parts of one's own territory is not forbidden by the rules prohibiting the destruction of objects indispensable to the survival of the civilian population.³³⁶

343. New Zealand's Military Manual states that:

In recognition of the vital requirements of any Party to the conflict in the defence of its national territory against invasion, derogation from the prohibitions contained in paragraph 2 [prohibition to attack, destroy, remove or render useless objects indispensable to the survival of the civilian population] may be made by a Party to the conflict within such territory under its own control where required by imperative military necessity.

...

As a result of this provision, Parties may no longer embark on a scorched earth policy with the intention of starving civilians, even in their national territory, unless that part of the territory is under their control at the time of devastation: scorched earth is no longer available as an offensive policy. It is still permissible to destroy objects indispensable to the survival of the civilian population in the course of ordinary operations if it is militarily necessary for other reasons, for example, to destroy a wheat field to deny concealment to enemy forces.³³⁷

344. Spain's LOAC Manual provides that the prohibition of attacks against objects indispensable to the survival of the civilian population does not apply where derogation of the prohibition is required by imperative military necessity.³³⁸ It allows one derogation from the prohibition of attacks against objects indispensable to the survival of the civilian population if the defence of the national territory against the danger of an invasion imperatively so demands.³³⁹

345. Sweden's IHL Manual states that:

Another question addressed in Article 54 [AP I] is the possibility for one party faced with an approaching hostile attack to resort to widespread destruction within a given area – the method usually termed "burnt earth tactics". Such steps are permitted under 54:5 where they are required by overriding military necessity and concern only *one party's national territory*. However, this latter addition implies important limitations. Thus it is not allowed to attack, for example by aerial bombardment, an area occupied by the adversary if the purpose is to impede the civilian population's supply of indispensable necessities.³⁴⁰ [emphasis in original]

346. Switzerland's Basic Military Manual states that "it is prohibited to employ scorched earth tactics".³⁴¹

347. The YPA Military Manual of the SFRY (FRY) provides an exception to the prohibition of attacks against objects indispensable to the survival of the

Other National Practice

350. At the CDDH, Sweden remarked, with reference to the possible exceptions to the prohibition of attacks against objects indispensable to the survival of the civilian population, that it considered a scorched earth policy used to stop an enemy invasion on a party's own territory to be permissible. The Swedish delegate described this strategy as "a deep-rooted practice which should be taken into account".³⁴³

351. In 1973, a Deputy Legal Adviser of the US Department of State declared that "the generally accepted rule today is that crops and food supplies may be destroyed . . . if their destruction is required by military necessity and is not disproportionate to the military advantage gained".³⁴⁴

352. According to the Report on US Practice, the *opinio juris* of the US recognises the legality of attacks against objects indispensable to the survival of the civilian population when required by military necessity.³⁴⁵

III. Practice of International Organisations and Conferences

United Nations

353. In 1996, the Independent Expert of the UN Commission on Human Rights for Somalia described the practices of the different factions, such as the practice of a faction on the verge of losing control of a territory of operating a "scorched earth" policy.³⁴⁶

Other International Organisations

354. No practice was found.

³⁴⁶ UN Commission on Human Rights, Independent Expert on Assistance to Somalia in the Field of Human Rights, Report, UN Doc. E/CN.4/1996/14/Add.1, 10 April 1996, § 10.

International Conferences

355. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

356. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

357. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “objects indispensable to the survival of the civilian population are excluded from protection, if: . . . c) the military defence of the national territory against invasion imperatively so requires”.³⁴⁷

VI. Other Practice

358. In 1983, an official of an entity denounced to the ICRC the use of a scorched earth policy by a State.³⁴⁸

359. In 1995, in its comments on the Declaration of Minimum Humanitarian Standards, the IIHL stated that the scorched earth policy was a “practice which causes great suffering to the population . . . affecting both individuals and the basic rights of groups”.³⁴⁹

360. In 1997, the ICRC reported the scorched earth policy applied by the armed forces of a State in government-controlled areas.³⁵⁰

C. Access for Humanitarian Relief to Civilians in Need**General**

Note: For practice concerning the provision of basic necessities to displaced persons, see Chapter 38, section C.

*I. Treaties and Other Instruments**Treaties*

361. Article 23 GC IV provides that:

³⁵⁰ ICRC archive document.

Each High Contracting Party shall allow the free passage of all consignments of medical and hospital stores...intended only for civilians of another High Contracting Party, even if the latter is its adversary. It shall likewise permit the free passage of all consignments of essential foodstuffs, clothing and tonics intended for children under fifteen, expectant mothers and maternity cases.

The obligation of a High Contracting Party to allow the free passage of the consignments indicated in the previous paragraph is subject to the condition that this Party is satisfied that there are no serious reasons for fearing:

- (a) that the consignments may be diverted from their destination,
- (b) that the control may not be effective, or
- (c) that a definite advantage may accrue to the military efforts or economy of the enemy through the substitution of the above-mentioned consignments for goods which would otherwise be provided or produced by the enemy or through the release of such material, services or facilities as would otherwise be required for the production of such goods.

The Power which allows the passage of the consignments indicated in the first paragraph of this Article may make such permission conditional on the distribution to the persons benefited thereby being made under the local supervision of the Protecting Powers.

362. Article 70 AP I provides that:

- (2) The Parties to the conflict and each High Contracting Party shall allow and facilitate rapid and unimpeded passage of all relief consignments, equipment and personnel provided in accordance with this Section, even if such assistance is destined for the civilian population of the adverse Party.
- (3) The Parties to the conflict and each High Contracting Party which allows the passage of relief consignments, equipment and personnel in accordance with paragraph 2:
 - (a) shall have the right to prescribe the technical arrangements, including search, under which such passage is permitted;
 - (b) may make such permission conditional on the distribution of this assistance being made under the local supervision of a Protecting Power;
 - (c) shall, in no way whatsoever, divert relief consignments from the purpose for which they are intended nor delay their forwarding, except in cases of urgent necessity in the interest of the civilian population concerned.

Article 70 AP I was adopted by consensus.³⁵¹

363. Article 33 of draft AP II submitted by the ICRC to the CDDH, provided that:

1. If the civilian population is inadequately supplied, in particular, with foodstuffs, clothing, medical and hospital stores and means of shelter, the parties to the conflict shall agree to and facilitate, to the fullest possible extent, those relief actions which are exclusively humanitarian and impartial in character and conducted without any adverse distinction ...

³⁵¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.43, 27 May 1977, p. 245.

2. The parties to the conflict and any High Contracting Party through whose territory supplies must pass shall grant free passage when relief actions are carried out in accordance with the conditions stated in paragraph 1.
3. When prescribing the technical methods relating to assistance or transit, the parties to the conflict and any High Contracting Party shall endeavour to facilitate and accelerate the entry, transport, distribution, or passage of relief.
4. The parties and any High Contracting Party may set as condition that the entry, transport, distribution, or passage of relief be executed under the supervision of an impartial humanitarian body.
5. The parties to the conflict and any High Contracting Party shall in no way whatsoever divert relief consignments from the purpose for which they are intended or delay the forwarding of such consignments.³⁵²

This proposal was amended and adopted by consensus in Committee II of the CDDH.³⁵³ The relevant part of the approved text provided that:

3. The Parties to the conflict and each High Contracting Party through whose territory these relief supplies will pass shall facilitate rapid and unimpeded passage of all relief consignments provided in accordance with the conditions stated in paragraph 2.
4. The Parties to the conflict and each High Contracting Party which allows the passage of relief consignments in accordance with paragraph 3:
 - (a) shall have the right to prescribe the technical arrangements including the right of search under which such passage is allowed;
 - (b) may make such permission conditional on the satisfactory assurance that such relief consignments will be used for the purpose for which they are intended;
 - (c) shall in no way whatsoever divert relief consignments from the purpose for which they are intended or delay their forwarding, except in cases of urgent necessity, in the interest of the civilian population concerned.³⁵⁴

Eventually, however, this paragraph was not included in the final draft article that was voted upon in the plenary session.

364. Paragraph 4 of the 1995 Agreement between the Government of Croatia and UNCRO stipulates that:

Full access by UNCRO and by humanitarian organizations, particularly UNHCR and the ICRC, to the civilian population, for the purpose of providing for the humanitarian needs of the civilian population, will be assured by the authorities of Croatia, to the extent allowed by objective security considerations.

365. Pursuant to Article 7(1)(b) of the 1998 ICC Statute, “extermination” constitutes a crime against humanity “when committed as part of a widespread or systematic attack directed against any civilian population”. Article 7(2)(b) defines extermination as including “the intentional infliction of conditions of

³⁵² CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 43.

³⁵³ CDDH, *Official Records*, Vol. XIII, CDDH/406/Rev.1, 17 March–10 June 1977, p. 385, § 96.

life, *inter alia*, the deprivation of access to food and medicine, calculated to bring about the destruction of part of a population”.

366. Under Article 2(b) of the 2002 Statute of the Special Court for Sierra Leone, extermination “as part of a widespread or systematic attack against any civilian population” constitutes a crime against humanity.

Other Instruments

367. In the 1991 Hague Statement on Respect for Humanitarian Principles, the Presidents of the six republics of the former Yugoslavia reminded all fighting units of their obligation to provide “unconditional support for the action of the ICRC in favour of the victims”.

368. Paragraph 9 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY provides that:

The Parties shall allow the free passage of all consignments of medicines and medical supplies, essential foodstuffs and clothing which are destined exclusively for the other party’s civilian population . . .

The Parties shall consent and cooperate with operations to provide the civilian population with exclusively humanitarian, impartial and non-discriminatory assistance. All facilities will be given in particular to the ICRC.

369. Paragraph 2.6 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina states that:

The Parties shall allow the free passage of all consignments of medicines and medical supplies, essential foodstuffs and clothing which are destined exclusively to the civilian population.

They shall consent to and cooperate with operations to provide the civilian population with exclusively humanitarian, impartial and non-discriminatory assistance. All facilities will be given in particular to the ICRC.

370. In paragraph 2 of the 1992 Bahir Dar Agreement, several parties to the conflict in Somalia agreed to cooperate in creating an atmosphere of peace for the free distribution of relief supplies to reach all needy people throughout the country and “to ensure that all ports, airports and land routes and distribution centres be open for the movement and distribution of relief supplies”.

371. Paragraph I of the 1992 Agreement No. 3 on the ICRC Plan of Action between the Parties to the Conflict in Bosnia and Herzegovina considered that “failure to give the ICRC access to certain areas where humanitarian needs have been identified and to besieged towns” was an illustration of the insecurity reigning in this country.

372. Paragraph 103 of the 1994 San Remo Manual states that “if the civilian population of the blockaded territory is inadequately provided with food and other objects essential for its survival, the blockading party must provide for free passage of such foodstuffs and other essential supplies”.

373. Paragraph 3 of the 1994 Agreement on a Cease-fire in the Republic of Yemen states that “the International Committee of Red Cross and other humanitarian organizations will be granted a possibility to unimpededly deliver humanitarian relief, primarily medicine, water and food supplies to the areas affected as a result of the conflict”.

374. Pursuant to Article 18(b) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, extermination, “when committed in a systematic manner or on a large scale and instigated or directed by a Government or by any organization or group”, constitutes a crime against humanity.

375. According to Principle 25 of the 1998 Guiding Principles on Internal Displacement, while the primary duty and responsibility for providing humanitarian assistance to IDPs rests with national authorities:

international humanitarian organisations and other appropriate actors have the right to offer their services in support of the internally displaced. Consent thereto shall not be arbitrarily withheld, particularly when authorities concerned are unable or unwilling to provide the required humanitarian assistance . . .

The authorities concerned shall grant and facilitate the free passage of humanitarian assistance and grant persons engaged in the provision of such assistance rapid and unimpeded access to the internally displaced.

376. Section 9.9 of the 1999 UN Secretary-General’s Bulletin states that “the United Nations force shall facilitate the work of relief operations which are humanitarian and impartial in character”.

377. In paragraph 1 of the 1999 Agreement on the Protection and Provision of Humanitarian Assistance in the Sudan, the parties agreed that:

All humanitarian agencies accredited by the United Nations for humanitarian work in the Sudan shall have free and unimpeded access to all war-affected populations in need of assistance and to all war-affected populations for the purposes of assessing whether or not they are in need of humanitarian assistance.

The parties further bound themselves to facilitate, “to the best of their abilities”, access for all humanitarian agencies accredited by the UN for humanitarian work in the Sudan. In paragraph 2, the parties agreed:

to guarantee that all humanitarian assistance targeted and intended for beneficiaries in areas under their respective control will be delivered to those beneficiaries and will not be taxed, diverted or in any other way removed from the intended recipient or given to any other persons or groups.

378. In the 2000 Cairo Plan of Action, the heads of government of African States and the EU urged States, during armed conflicts, to “secure rapid and unimpeded access to the civilian population”.

379. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including crimes against humanity. According to Section 5(1)(b), “extermination” constitutes a crime

against humanity “when committed as part of a widespread or systematic attack directed against any civilian population”. Section 5(2)(a) defines extermination as including “the intentional infliction of conditions of life, *inter alia*, the deprivation of access to food and medicine, calculated to bring about the destruction of part of a population”.

II. National Practice

Military Manuals

380. Argentina’s Law of War Manual (1969) provides that:

Each High Contracting Party shall allow the free passage of all consignments of medical and hospital stores . . . intended only for civilians of another High Contracting Party, even if the latter is its adversary. It shall likewise permit the free passage of all consignments of essential foodstuffs, clothing and tonics intended for children under fifteen, expectant mothers and maternity cases.

The obligation of a High Contracting Party to allow the free passage of the consignments indicated in the previous paragraph is subject to the condition that this Party is satisfied that there are no serious reasons for fearing:

- (a) that the consignments may be diverted from their destination,
- (b) that the control may not be effective, or
- (c) that a definite advantage may accrue to the military efforts or economy of the enemy through the substitution of the above-mentioned consignments for goods which would otherwise be provided or produced by the enemy or through the release of such material, services or facilities as would otherwise be required for the production of such goods.

The Power which allows the passage of the consignments indicated in the first paragraph of this Article may make such permission conditional on the distribution to the persons benefited thereby being made under the local supervision of the Protecting Powers.³⁵⁵

381. Argentina’s Law of War Manual (1989) stipulates that the parties shall allow the free passage of all consignments of medical and hospital stores and objects necessary for religious worship intended only for civilians of another contracting party, even if the latter is its adversary. It also provides for the obligation to permit the free passage of all consignments of essential foodstuffs, clothing and tonics intended for children under 15, expectant mothers and maternity cases.³⁵⁶

382. Australia’s Commanders’ Guide states in relation to blockades that “there is a duty to consider, in good faith, requests for relief operations, but no duty to agree thereto. Any obligation upon a Party to permit a relief operation is dependent on the agreement of the State in control, given at an appropriate time.”³⁵⁷

³⁵⁵ Argentina, *Law of War Manual* (1969), § 4.006(3).

³⁵⁶ Argentina, *Law of War Manual* (1989), § 4.11.

³⁵⁷ Australia, *Commanders’ Guide* (1994), § 850, footnote 6.

383. Australia's Defence Force Manual provides that "the free passage of medical and hospital stores, essential foodstuffs, clothing, bedding... which are intended for civilians, including those of an enemy, must be allowed".³⁵⁸ In situations of occupation, the manual states that:

The occupying power is under an obligation to allow free passage of all consignments of medical and hospital stores... as well as of essential foodstuffs, clothing and medical supplies intended for children under 15 years of age, expectant mothers and maternity cases, although it may require that distribution of such supplies be under the supervision of the Protecting Power.³⁵⁹

Regarding a situation of blockade, the manual states that:

If the civilian population of the blockaded territory is inadequately provided with food and other objects essential for its survival, the blockading party must provide for free passage of such foodstuffs and other essential supplies, subject to:

- a. the right to prescribe the technical arrangements, including search, under which such passage is permitted; and
- b. the condition that the distribution of such supplies shall be made under the local supervision of a Protecting Power or a humanitarian organisation which offers guarantees of impartiality.³⁶⁰

384. Canada's LOAC Manual states that, in case of siege warfare, "the parties to a conflict are obliged to facilitate rapid and unimpeded passage of all relief consignments, equipment and personnel".³⁶¹ The manual also provides that:

Belligerents must allow the free passage of all consignments of medical and hospital stores and articles necessary for religious worship intended for civilians, including those of an opposing belligerent. This includes all consignments of essential foodstuffs, clothing and tonics intended for children under 15, and expectant and nursing mothers. This obligation is subject to the condition that the belligerent concerned is satisfied that there are no serious grounds for fearing: that the consignments may be diverted from their destination, that control may not be effective, or that the consignments may be of definite advantage to the military effort or economy of the enemy by permitting him to substitute them for goods which he would otherwise have to provide or produce himself.³⁶²

According to the manual, the same obligation to allow free passage of relief consignments intended for civilians in occupied territories applies to the occupying power.³⁶³ It also states that, "within the limits of military or security

³⁵⁹ Australia, *Defence Force Manual* (1994), § 1216.

³⁶⁰ Australia, *Defence Force Manual* (1994), § 666.

³⁶¹ Canada, *LOAC Manual* (1999), p. 6-4, § 36.

³⁶² Canada, *LOAC Manual* (1999), p. 11-3, § 23, see also p. 8-9, § 68 (obligation to allow free access to objects indispensable to the survival of the civilian population in case the population of a blockaded territory is inadequately supplied therewith).

³⁶³ Canada, *LOAC Manual* (1999), p. 12-4, § 32.

considerations, the belligerents must provide [the ICRC, the local National Red Cross (or equivalent) Society or any other organization that may assist protected persons] with all necessary facilities for giving assistance".³⁶⁴

385. Colombia's Basic Military Manual states the duty to allow relief organisations, such as the Red Cross, to perform humanitarian activities in favour of non-combatants and civilians.³⁶⁵

386. Germany's Military Manual provides that:

If the civilian population of a party to the conflict is inadequately supplied with indispensable goods, relief actions by neutral States or humanitarian organisations shall be permitted. Every State and in particular the adversary, is obliged to grant such relief actions free transit, subject to its right of control.³⁶⁶

It further states that "the occupying power shall agree to relief actions conducted by other States or by humanitarian organisations".³⁶⁷

387. Italy's IHL Manual states that an occupying power has the obligation to accept the despatch of relief materials (foodstuffs, medicines, clothing) by other States or impartial humanitarian organisations, especially if the occupied population is inadequately supplied.³⁶⁸

388. Kenya's LOAC Manual states that:

Parties to the conflict shall allow and facilitate rapid and unimpeded passage of all relief consignments and equipment meant for the civilian population, and the personnel accompanying such relief supplies, even if such assistance is for the civilians of the adverse Party. The parties shall have the right to prescribe the technical arrangements, including search, under which such passage is permitted.

The Parties to the conflict shall protect relief consignments and facilitate their rapid distribution.³⁶⁹

389. The Military Manual of the Netherlands provides that "the parties to the conflict have to give free passage to relief personnel and facilitate the provision of relief. The State giving free passage to relief personnel can make conditions regarding the implementation of the relief action."³⁷⁰

390. New Zealand's Military Manual provides that:

Belligerents must allow the free passage of all consignments of medical and hospital stores and articles necessary for religious worship intended for civilians, including those of an opposing belligerent and all consignments of essential foodstuffs, clothing and tonics intended for children under 15, and expectant and nursing mothers. This obligation is subject to the condition that the belligerent concerned is satisfied that there are no serious grounds for fearing that:

³⁶⁴ Canada, *LOAC Manual* (1999), p. 11-4, § 31.

³⁶⁶ Germany, *Military Manual* (1992), § 503.

³⁶⁷ Germany, *Military Manual* (1992), § 569.

³⁶⁸ Italy, *IHL Manual* (1991), Vol. I, § 48(15).

³⁶⁹ Kenya, *LOAC Manual* (1997), Précis No. 4, p. 5.

³⁷⁰ Netherlands, *Military Manual* (1993), p. VIII-4.

- a. the consignments may be diverted from their destination;
- b. control may not be effective; or
- c. the consignments may be of definite advantage to the military effort or economy of the enemy by permitting him to substitute them for goods which he would otherwise have to provide or produce himself.³⁷¹

According to the manual, the occupying power is under the same obligation to allow free passage of relief consignments intended for civilians in occupied territories.³⁷² It also states that, "within the limits of military or security considerations [the ICRC, the local national Red Cross (or equivalent) society or any other organisation that may assist protected persons] must be granted by belligerents all necessary facilities for giving assistance".³⁷³

391. Russia's Military Manual states that the military commander must "give all facilities to the International Committee of the Red Cross and the National Society of Red Cross (Red Crescent) in order for them to carry out their functions on behalf of the victims of armed conflicts".³⁷⁴

392. Sweden's IHL Manual states that:

According to Article 70 of Additional Protocol I to the 1949 Geneva Conventions, relief actions of a humanitarian and impartial character, which do not subject one party or the other to discriminatory treatment, shall "be undertaken, subject to the agreement of the Parties concerned in such relief actions". It is also stated that such offers of relief "shall not be regarded as interference in the armed conflict or as unfriendly acts". No objections can be raised to such relief actions from the point of view of neutrality law.³⁷⁵

393. Switzerland's Basic Military Manual states that "the personnel of accepted humanitarian organisations, relief consignments and equipment must benefit from all necessary facilities, notably free passage," in order to assist civilians who are in a territory temporarily occupied by foreign troops.³⁷⁶

394. The UK Military Manual provides that:

Belligerents must allow the free passage of all consignments of medical and hospital stores and articles necessary for religious worship intended for civilians, including those of an opposing belligerent, and all consignments of essential foodstuffs, clothing and tonics intended for children under 15, and expectant and nursing mothers. This obligation is subject to the condition that the belligerent concerned is satisfied that there are no serious grounds for fearing: that the consignments may be diverted from their destination, that control may not be effective, or that the consignments may be of definite advantage to the military effort or economy of the enemy by permitting him to substitute them for goods which he would otherwise have to provide or produce himself.³⁷⁷

³⁷¹ New Zealand, *Military Manual* (1992), § 1111(1).

³⁷² New Zealand, *Military Manual* (1992), § 1318.

³⁷³ New Zealand, *Military Manual* (1992), § 1115.

³⁷⁴ Russia, *Military Manual* (1990), § 14(b).

³⁷⁵ Sweden, *IHL Manual* (1991), Section 5.7, p. 114.

³⁷⁶ Switzerland, *Basic Military Manual* (1987), Article 155(2).

³⁷⁷ UK, *Military Manual* (1958), § 35.

The manual further states that “if the whole or part of the population of occupied territory suffers from shortage of supplies, the Occupant must agree to relief schemes by all the means at his disposal. The schemes in question will consist in particular of the provision of consignments of foodstuffs, medical supplies and clothing”.³⁷⁸ The manual also stipulates that “within the limits of military or security considerations these organisations [the ICRC, the local national Red Cross (or equivalent) society or any other organization that may assist protected persons] must be granted by the belligerent all necessary facilities for giving assistance”.³⁷⁹

395. The UK LOAC Manual states, with regard to civilians in enemy hands, that “the free passage of medical and hospital stores . . . is guaranteed as well as essential food and clothes for children, expectant mothers and maternity cases”.³⁸⁰

396. The US Field Manual provides that:

Each High Contracting Party shall allow the free passage of all consignments of medical and hospital stores and objects necessary for religious worship intended only for civilians of another High Contracting Party, even if the latter is its adversary. It shall likewise permit the free passage of all consignments of essential foodstuffs, clothing and tonics intended for children under fifteen, expectant mothers and maternity cases.

The obligation of a High Contracting Party to allow the free passage of the consignments indicated in the preceding paragraph is subject to the condition that this Party is satisfied that there are no serious reasons for fearing:

- (a) that the consignments may be diverted from their destination,
- (b) that the control may not be effective, or
- (c) that a definite advantage may accrue to the military efforts or economy of the enemy through the substitution of the above-mentioned consignments for goods which would otherwise be provided by the enemy or through the release of such material, services or facilities as would otherwise be required for the production of such goods.³⁸¹

With regard to occupying powers, the manual states that:

If the whole or part of an occupied territory is inadequately supplied, the Occupying Power shall agree to relief schemes on behalf of the . . . population, and shall facilitate them by all the means at its disposal.

Such schemes . . . shall consist, in particular, of the provision of the consignments of foodstuffs, medical supplies and clothing.³⁸²

The manual also provides that the ICRC, the National Red Cross (or equivalent) Society or any other organization that may assist protected persons “shall be granted all facilities for [assisting protected persons] by the authorities, within the bounds set by military or security considerations”.³⁸³

³⁷⁸ UK, *Military Manual* (1958), § 541. ³⁷⁹ UK, *Military Manual* (1958), § 40.

³⁸² US, *Field Manual* (1956), § 388. ³⁸³ US, *Field Manual* (1956), § 269.

National Legislation

397. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the crimes against humanity defined in the 1998 ICC Statute, including "intentionally inflicting conditions of life (such as the deprivation of access to food or medicine) intended to bring about the destruction of part of a population".³⁸⁴

398. Azerbaijan's Criminal Code provides that "extermination of the population, in whole or in part", constitutes a crime against humanity.³⁸⁵

399. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.³⁸⁶

400. Belgium's Law concerning the Repression of Grave Breaches of the Geneva Conventions and their Additional Protocols as amended provides that, in accordance with the 1998 ICC Statute, extermination constitutes a crime against humanity and a crime under international law.³⁸⁷

401. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, extermination constitutes a crime against humanity, when committed as part of a widespread or systematic attack directed against any civilian population.³⁸⁸

402. Cambodia's Law on the Khmer Rouge Trial provides that "the Extraordinary Chambers shall have the power to bring to trial all suspects who committed crimes against humanity during the period from 17 April 1975 to 6 January 1979", including extermination "committed as part of a widespread or systematic attack directed against any civilian population, on national, political, ethnical, racial or religious grounds".³⁸⁹

403. Canada's Crimes against Humanity and War Crimes Act provides that the crimes against humanity defined in Article 7 of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.³⁹⁰

404. In accordance with Article 7 of the 1998 ICC Statute, Congo's Genocide, War Crimes and Crimes against Humanity Act defines "extermination" as a crime against humanity, "when committed as part of a widespread or systematic attack directed against any civilian population, with knowledge of the attack".³⁹¹

³⁸⁴ Australia, *ICC (Consequential Amendments) Act* (2002), Schedule 1, § 268.9(2).

³⁸⁹ Cambodia, *Law on the Khmer Rouge Trial* (2001), Article 5.

³⁹⁰ Canada, *Crimes against Humanity and War Crimes Act* (2000), Section 4(1) and (4).

³⁹¹ Congo, *Genocide, War Crimes and Crimes against Humanity Act* (1998), Article 6(b).

405. The Czech Republic's Criminal Code as amended punishes any "person who in wartime . . . wilfully fails to provide the necessary assistance" to the survival of the population.³⁹²

406. Under Ethiopia's Penal Code, it is a punishable offence to organise, order or engage in "measures to prevent the . . . continued survival" of the members of a national, ethnic, racial, religious or political group, or its progeny.³⁹³

407. Germany's Law Introducing the International Crimes Code punishes anyone who, as part of a widespread or systematic attack directed against any civilian population, "inflicts, with the intent of destroying a population in whole or in part, conditions of life on that population or on parts thereof, being conditions calculated to bring about its physical destruction in whole or in part".³⁹⁴

408. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Article 23 GC IV, and of API, including violations of Article 70(2) API, are punishable offences.³⁹⁵

409. Israel's Nazis and Nazi Collaborators (Punishment) Law punishes persons who have committed a crime against humanity, including "extermination [of] . . . any civilian population".³⁹⁶

410. Under Mali's Penal Code, extermination is a crime against humanity, "when committed as part of a widespread or systematic attack directed against any civilian population, with knowledge of the attack".³⁹⁷

411. Under New Zealand's International Crimes and ICC Act, crimes against humanity include the crimes defined in Article 7(1)(b) and (2)(b) of the 1998 ICC Statute.³⁹⁸

412. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the Geneva Conventions of 12 August 1949 . . . [and in] the two additional protocols to these Conventions . . . is liable to imprisonment".³⁹⁹

413. Slovakia's Criminal Code as amended punishes any "person who in wartime . . . wilfully fails to provide the necessary assistance" to the survival of the population.⁴⁰⁰

414. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a crime against humanity as defined in Article 7(1)(b) and (2)(b) of the 1998 ICC Statute.⁴⁰¹

³⁹² Czech Republic, *Criminal Code as amended* (1961), Article 263a(2)(a).

415. Under the UK ICC Act, it is a punishable offence to commit a crime against humanity as defined in Article 7(1)(b) and (2)(b) of the 1998 ICC Statute.⁴⁰²

416. The US Regulations Governing the Trials of Accused War Criminals in the Pacific Region I established military commissions which had jurisdiction over offences such as “extermination . . . committed against any civilian population”.⁴⁰³

417. The US Regulations Governing the Trials of Accused War Criminals in the Pacific Region II established military commissions which had jurisdiction over offences such as “extermination . . . committed against any civilian population”.⁴⁰⁴

418. Vietnam’s Penal Code punishes “anyone who, in time of peace or in time of war, commits acts resulting in mass extermination of the population of an area”.⁴⁰⁵

National Case-law

419. No practice was found.

Other National Practice

420. In an appeal in 1992, the Presidency of the Republika Srpska of Bosnia and Herzegovina declared that “we shall make efforts to provide, as soon as possible, conditions for operations of the Red Cross and of other humanitarian organizations”.⁴⁰⁶

421. The Report on the Practice of Colombia refers to a draft internal working paper in which the Colombian government stated that “the accomplishment of the functions of humanitarian organisations shall be facilitated”.⁴⁰⁷

422. In the context of the conflict in Ethiopia, it has been reported that food was used as a weapon:

[At the time of the 1984–1985 famine in northern Ethiopia, and] to make matters worse, Mengistu refused to allow food to be distributed in areas where inhabitants were sympathetic to the EPLF, TPLF, or other antigovernment groups, a strategy that resulted in the deaths of tens of thousands. When a new famine emerged in late 1989, threatening the lives of 2 million to 5 million people, Mengistu again used food as a weapon by banning the movement of relief supplies along the main road north

from Addis Ababa to Tigray and also along the road from Mitsiwa into Eritrea and south into Tigray. As a result, food relief vehicles had to travel overland from Port Sudan, the major Red Sea port of Sudan, through guerrilla territory into northern Ethiopia. After an international outcry against his policy, Mengistu reversed his decision, but international relief agencies were unable to move significant amounts of food aid into Eritrea and Tigray via Ethiopian ports.⁴⁰⁸

It was further reported that “to combat new famine threats, in early 1991 the EPLF and the Ethiopian Government agreed on a joint and equal distribution of UN famine relief supplies”.⁴⁰⁹ According to the Report on the Practice of Ethiopia, “this and similar practices tend to indicate that, however recent, the right to humanitarian relief is gaining respect” in Ethiopia.⁴¹⁰

423. In April 1999, the German Minister of Foreign Affairs called upon the President of the FRY to guarantee that humanitarian assistance could reach Kosovo and those who were on the verge of starvation.⁴¹¹

424. According to the Report on the Practice of Israel, it is the policy of Israel “to cooperate with all international humanitarian agencies and organisations, both in time of peace and in time of war”.⁴¹²

425. The Report on the Practice of Jordan refers to an order issued in 1970 by the General Military Commander of the Jordanian armed forces which “accepted the international relief operations for population under opposition control”.⁴¹³ The report adds that free passage of essential goods intended for the civilian population of the adverse party was also allowed.⁴¹⁴

426. According to the Report on the Practice of Kuwait, it is the *opinio juris* of Kuwait that a State that is unable to guarantee the protection of the civilian population against starvation has to facilitate the distribution of external humanitarian aid.⁴¹⁵

427. In an explanatory memorandum submitted to parliament in the context of the ratification procedure of the Additional Protocols, the government of the Netherlands, commenting on Article 70 AP I, regretted that “it did not seem possible to oblige parties to the conflict to allow aid for the civilian population through without the parties explicit consent”.⁴¹⁶

428. In a letter to the lower house of parliament concerning the crisis in the Great Lakes region in 1996, the Minister for Development Cooperation of the

Netherlands argued in favour of the establishment of humanitarian corridors in Kivu in order to facilitate the distribution of food.⁴¹⁷

429. In 1968, during the conflict in Biafra, the Nigerian Commissioner for Information and Labour insisted that Nigeria “would continue to stand by its promise to the International Committee of the Red Cross to keep some ‘corridors of mercy’ safe from military activities so that relief supplies could at any time be channelled through these corridors”.⁴¹⁸

430. In 2000, during a debate in the UN Security Council on the protection of humanitarian personnel in conflict areas, Norway stated that it welcomed the call of the Security Council for safe and unhindered access for humanitarian personnel to civilians in armed conflict.⁴¹⁹

431. The Guidelines on Evacuations adopted in 1991 by the Presidential Human Rights Committee of the Philippines provided that “medicines and relief goods, whether coming from the government or non-government organizations, shall be given to the evacuees without delay”.⁴²⁰

432. A circular from the Office of the President of the Philippines issued in 1991 stipulates that “only in cases of tactical operations may control of the movement of non-combatants and the delivery of goods and services be imposed for safety reasons, provided that in no case should such control lead to the starvation of civilians”.⁴²¹

433. On the basis of an interview with an army officer, the Report on the Practice of Rwanda emphasises that humanitarian corridors are places used by humanitarian personnel, *inter alia*, to ensure access to the victims of hostilities so as to provide them with relief.⁴²²

434. In submitting AP II to the Senate for advice and consent to ratification, the US President, commenting on Article 18 AP II, stated that “the parties to a conflict have a duty not to refuse passage of relief supplies for arbitrary reasons”.⁴²³

435. In 1987, the Deputy Legal Adviser of the US Department of State stated that:

We support the principle... subject to the requirements of imperative military necessity, that impartial relief actions necessary for the survival of the civilian population be permitted and encouraged ...

⁴¹⁷ Netherlands, Lower House of Parliament, Letter from the Minister for Development Cooperation on the crisis in the Great Lakes region, 1996–1997 Session, Doc. 25 098, No. 2.

⁴²³ US, Message from the US President Transmitting AP II to the Senate for advice and consent to ratification, Treaty Doc. 100-2, 29 January 1987, Comment on Article 18.

We support the principle... that the ICRC and the relevant Red Cross or Red Crescent organizations be granted all necessary facilities and access to enable them to carry out their humanitarian functions.⁴²⁴

436. According to the Report on US Practice, it is the *opinio juris* of the US that:

Special agreements are necessary in order for relief personnel and vehicles to pass through military lines or receive special protection. It is a violation of international humanitarian law to deny conclusion of such agreements for arbitrary reasons...

Some conditions which the US government would not regard as arbitrary may be inferred from legislation dealing with relief shipments from the United States to regions of conflict. These include adequate procedures to ensure that the relief actually reaches the persons for whom it is intended, and any condition necessary to ensure the safety of the armed forces in combat.⁴²⁵

437. In 1991, in a "Statement regarding the need for the respect of the norms of international humanitarian law in the armed conflicts in Yugoslavia", the Federal Executive Council of the SFRY (FRY) requested that all the parties "extend full support and assistance to the humanitarian relief operations of the Red Cross and particularly the International Red Cross Committee".⁴²⁶

438. In 1992, the Ministry of Defence of the SFRY (FRY) issued a special order to its armed forces to signify their "duty to enable ICRC delegates to carry out their humanitarian functions, ... in accordance with the Geneva Conventions". The order added that the armed forces must provide "the conditions for undisturbed performing of ICRC humanitarian functions".⁴²⁷

439. In 1992, a State "offered to allow passage, if need be, through all its territory to permit the distribution of humanitarian aid" to another State.⁴²⁸

III. Practice of International Organisations and Conferences

United Nations

440. In a resolution adopted in 1991 on repression of the Iraqi civilian population, including Kurds in Iraq, the UN Security Council insisted that "Iraq allow immediate access by international humanitarian organisations to all those in need of assistance in all parts of Iraq and make available all necessary facilities for their operations".⁴²⁹

⁴²⁴ US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, pp. 426 and 428.

441. In a resolution adopted in 1991 on the import of petroleum and petroleum products originating in Iraq, the UN Security Council reaffirmed “the importance which the Council attaches to Iraq’s allowing unhindered access by international humanitarian organizations to all those in need of assistance in all parts of Iraq and making available all necessary facilities for their operation”.⁴³⁰

442. In a resolution on Bosnia and Herzegovina adopted in 1992, the UN Security Council called upon all parties to the conflict “to ensure that conditions are established for the effective and unhindered delivery of humanitarian assistance”.⁴³¹

443. In a resolution on Bosnia and Herzegovina adopted in 1992, the UN Security Council, “dismayed that conditions have not yet been established for the effective and unhindered delivery of humanitarian assistance”, demanded that “all parties and others concerned create immediately the necessary conditions for unimpeded delivery of humanitarian supplies to Sarajevo and other destinations in Bosnia and Herzegovina”.⁴³²

444. In a resolution on Somalia adopted in 1992, the UN Security Council demanded that all parties, movements and factions in Somalia “take all measures necessary to facilitate the efforts of the United Nations, its specialized agencies and humanitarian organizations to provide urgent humanitarian assistance to the affected population in Somalia”.⁴³³

445. In a resolution adopted in 1993 on the conflict between Armenia and Azerbaijan, the UN Security Council called for “unimpeded access for international humanitarian relief efforts in the region, in particular in all areas affected by the conflict, in order to alleviate the increased suffering of the civilian population”.⁴³⁴

446. In a resolution adopted in 1993 on the treatment of certain towns and surroundings in Bosnia and Herzegovina as safe areas, the UN Security Council declared that “full respect by all parties of the rights of the United Nations Protection Force (UNPROFOR) and the international humanitarian agencies to free and unimpeded access to all safe areas in the Republic of Bosnia and Herzegovina” should be observed.⁴³⁵

447. In a resolution on Angola adopted in 1993, the UN Security Council declared that it had taken note of statements by UNITA that it would “cooperate in ensuring the unimpeded delivery of humanitarian assistance to all Angolans” and demanded that UNITA act accordingly.⁴³⁶

448. In a resolution adopted in 1993 concerning the conflict between Armenia and Azerbaijan, the UN Security Council called for “unimpeded access for international humanitarian relief efforts in the region, in particular in all areas

affected by the conflict, in order to alleviate the increased suffering of the civilian population".⁴³⁷

449. In a resolution adopted in 1993 concerning the conflict between Armenia and Azerbaijan, the UN Security Council called for "unimpeded access for international humanitarian relief efforts in all areas affected by the conflict".⁴³⁸

450. In a resolution adopted in 1993 concerning the conflict in Georgia, the UN Security Council called for "unimpeded access for international humanitarian assistance in the region".⁴³⁹

451. In a resolution adopted in 1994 on extension of the mandate and increase of the personnel of the UN Protection Force, the UN Security Council demanded that "the Bosnian Serb party . . . remove all obstacles to free access [to besieged Maglaj]", condemned all such obstacles and called upon all parties to show restraint.⁴⁴⁰

452. In a resolution adopted in 1994 on an immediate and durable cease-fire in Yemen, the UN Security Council expressed its deep concern about the humanitarian situation in Yemen and urged all concerned "to provide humanitarian access and facilitate the distribution of relief supplies to those in need".⁴⁴¹

453. In a resolution on Bosnia and Herzegovina adopted in 1995, the UN Security Council demanded that "all parties allow unimpeded access for humanitarian assistance to all parts of the Republic of Bosnia and Herzegovina and, in particular, to the safe areas".⁴⁴²

454. In a resolution on Bosnia and Herzegovina adopted in 1995, the UN Security Council demanded that:

all parties allow unimpeded access for the United Nations High Commissioner for Refugees and other international humanitarian agencies to the safe area of Srebrenica in order to alleviate the plight of the civilian population, and in particular that they cooperate on the restoration of utilities.⁴⁴³

455. In a resolution adopted in 1995 in the context of the conflict in Croatia, the UN Security Council requested that the Croatian government "in conformity with internationally recognised standards . . . allow access to [the local Serb] population by international humanitarian organisations".⁴⁴⁴

456. In a resolution adopted in 1995 in the context of the conflict in former Yugoslavia, the UN Security Council reiterated "its strong support for the efforts of the International Committee of the Red Cross (ICRC) in seeking access to displaced persons . . . and [condemned] in the strongest possible terms the failure of the Bosnian Serb party to comply with their commitments in respect of such access". It reaffirmed its demand that "the Bosnian Serb party

give immediate and unimpeded access to representatives of the United Nations High Commissioner for Refugees, the ICRC and other international agencies to persons displaced . . .".⁴⁴⁵

457. In a resolution on UNOMIL adopted in 1996, the UN Security Council demanded that the factions in the conflict in Liberia facilitate the delivery of humanitarian assistance.⁴⁴⁶ This demand was reiterated in a subsequent resolution later that year.⁴⁴⁷

458. In a resolution adopted in 1996 on the situation in the Great Lakes region, the UN Security Council called upon all those concerned in the region "to facilitate the delivery of international humanitarian assistance to those in need".⁴⁴⁸

459. In a resolution adopted in 1996 on the situation in Liberia, the UN Security Council demanded that the factions "facilitate . . . the safe delivery of humanitarian assistance".⁴⁴⁹

460. In a resolution adopted in 1998 on the imposition of an arms embargo against Yugoslavia, the UN Security Council underlined the necessity for the government of the FRY to allow "access to Kosovo by humanitarian organizations".⁴⁵⁰

461. In a resolution adopted in 1998 on the situation in Kosovo, the UN Security Council demanded that the FRY "allow free and unimpeded access for humanitarian organizations and supplies to Kosovo". It also noted the commitment of the President of the FRY "to ensure full and unimpeded access for humanitarian organizations, the ICRC and the UNHCR, and delivery of humanitarian supplies".⁴⁵¹

462. In a resolution adopted in 1998, the UN Security Council called on the government of Angola and in particular UNITA "to cooperate fully with international humanitarian organizations in the delivery of emergency relief assistance to affected populations".⁴⁵²

463. In a resolution adopted in 1999 on relief assistance in the territory of the FRY, the UN Security Council called for "access for United Nations and all other humanitarian personnel operating in Kosovo and other parts of the Federal Republic of Yugoslavia".⁴⁵³

464. In a resolution adopted in 1999 on children in armed conflicts, the UN Security Council called upon all parties to armed conflicts "to ensure the full, safe and unhindered access of humanitarian personnel and the delivery of humanitarian assistance to all children affected by armed conflict".⁴⁵⁴

465. In a resolution adopted in 1999 on the establishment of a multinational peace force in East Timor, the UN Security Council emphasised “the importance of allowing full, safe and unimpeded access by humanitarian organizations” and called upon all parties “to ensure . . . the effective delivery of humanitarian aid”.⁴⁵⁵

466. In a resolution adopted in 1999 on protection of civilians in armed conflicts, the UN Security Council expressed its concern “at the denial of safe and unimpeded access to people in need” and underlined “the importance of safe and unhindered access of humanitarian personnel to civilians in armed conflict”.⁴⁵⁶

467. In a resolution on East Timor adopted in 1999, the UN Security Council called upon all parties “to ensure . . . the effective delivery of humanitarian aid”.⁴⁵⁷

468. In a resolution on the DRC adopted in 2000, the UN Security Council expressed “its deep concern at the limited access of humanitarian workers to refugees and internally displaced persons in some areas”. It also called on all parties “to ensure the safe and unhindered access of relief personnel to all those in need” and “to cooperate with the International Committee of the Red Cross to enable it to carry out its mandate”.⁴⁵⁸

469. In a resolution adopted in 2000 on protection of civilians in armed conflicts, the UN Security Council underlined “the importance of safe and unimpeded access of humanitarian personnel to civilians in armed conflicts” and called upon “all parties concerned . . . to cooperate fully with the United Nations Humanitarian Coordinator and United Nations agencies in providing such access”.⁴⁵⁹

470. In a resolution adopted in 2000 on the protection of children in situations of armed conflict, the UN Security Council called upon all parties to armed conflict “to ensure the full, safe and unhindered access of humanitarian personnel and the delivery of humanitarian assistance to all children affected by armed conflict”.⁴⁶⁰

471. In a resolution adopted in 2000 on measures against the Taliban in Afghanistan, the UN Security Council reaffirmed “the necessity for sanctions to . . . be structured in a way that will not impede, thwart or delay the work of international humanitarian organizations or governmental relief agencies providing humanitarian assistance to the civilian population in the country”. It also called upon the Taliban “to ensure the safe and unhindered access of relief personnel and aid to all those in need in the territory under their control”.⁴⁶¹

472. In 1993, in a statement by its President regarding the conflict in Bosnia and Herzegovina, the UN Security Council reiterated "its demand that the parties and all others concerned allow immediate and unimpeded access to humanitarian relief supplies".⁴⁶²

473. In 1993, in a statement by its President regarding the situation in Bosnia and Herzegovina, the UN Security Council reiterated "its demand that the Bosnian parties grant immediate and unimpeded access for humanitarian convoys and fully comply with the Security Council's decisions in this regard".⁴⁶³

474. In 1993, in a statement by its President, the UN Security Council demanded that "all concerned allow the unimpeded access of humanitarian relief supplies throughout the Republic of Bosnia and Herzegovina, especially humanitarian access to the besieged cities of eastern Bosnia".⁴⁶⁴

475. In 1993, in a statement by its President regarding the situation in Bosnia and Herzegovina, the UN Security Council stated that:

Recognising the imperative need to alleviate, with the utmost urgency, the sufferings of the population in and around Srebrenica, who are in desperate need of food, medicine, clothes and shelter, the Council demands that the Bosnian Serb party... allow all such [humanitarian] convoys unhindered access to the town of Srebrenica and other parts in the Republic of Bosnia and Herzegovina.⁴⁶⁵

476. In 1993, in a statement by its President issued following accounts of "an attack to which an humanitarian convoy under the protection of UNPROFOR was subjected on 25 October 1993 in central Bosnia", the UN Security Council called upon all parties to the conflict in the former Yugoslavia "to guarantee the unimpeded access of humanitarian assistance".⁴⁶⁶

477. In 1993, in a statement by its President in connection with the situation in Bosnia and Herzegovina, the UN Security Council reiterated "its demand to all parties and others concerned to guarantee unimpeded access for humanitarian assistance".⁴⁶⁷

478. In 1994, in a statement by its President regarding the situation in Bosnia and Herzegovina, the UN Security Council reiterated "its demand that there be unimpeded access of humanitarian relief assistance to their intended destinations". It further reiterated "the demand that all parties ensure... unimpeded access [by UN and NGO personnel] throughout the Republic of Bosnia and Herzegovina".⁴⁶⁸

479. In 1994, in a statement by its President regarding the situation in Bosnia and Herzegovina, the UN Security Council demanded that "the Bosnian Serb

party and the Bosnian Croat party allow forthwith and without conditions passage to all humanitarian convoys [to the besieged town of Maglaj]".⁴⁶⁹

480. In 1995, in a statement by its President, the UN Security Council called on the parties to the conflict in Croatia "to cooperate fully with UNCRO, the United Nations High Commissioner for Refugees and the International Committee of the Red Cross in ensuring access and protection to the local civilian population as appropriate".⁴⁷⁰

481. In 1996, in a statement by its President regarding the situation in the Great Lakes region, the UN Security Council called on all parties in the region "to allow humanitarian agencies and non-governmental organizations to deliver humanitarian assistance to those in need".⁴⁷¹

482. In 1997, in a statement by its President regarding the situation in the Great Lakes region, the UN Security Council urged all parties "to allow humanitarian agencies and organizations access to deliver humanitarian assistance to those in need".⁴⁷²

483. In 1997, in a statement by its President the UN Security Council called upon the factions in Somalia "to facilitate the delivery of humanitarian relief to the Somali people, including through the opening of the airport and harbour of Mogadishu".⁴⁷³

484. In 1997, in a statement by its President regarding the situation in the Great Lakes region, the UN Security Council strongly urged the parties, and in particular the ADFL, "to ensure unrestricted and safe access by United Nations agencies and other humanitarian organizations to guarantee the provision of humanitarian assistance to, and the safety of, all refugees, displaced persons and other affected civilian inhabitants".⁴⁷⁴

485. In 1997, in a statement by its President regarding the situation in the Great Lakes region, the UN Security Council expressed its dismay at "the continued lack of access being afforded by the Alliance of Democratic Forces for the Liberation of Congo/Zaire (ADFL) to United Nations and other humanitarian relief agencies". It further called in the strongest terms upon the ADFL "to ensure unrestricted and safe access by all humanitarian relief agencies so as to allow the immediate provision of humanitarian aid to those affected".⁴⁷⁵

⁴⁶⁹ UN Security Council, Statement by the President, UN Doc. S/PRST/1994/11, 14 March 1994, p. 1.

⁴⁷⁵ UN Security Council, Statement by the President, UN Doc. S/PRST/1997/22, 24 April 1997, p. 1.

486. In 1997, in a statement by its President regarding the situation in the Great Lakes region, the UN Security Council noted “the commitment by the leader of the ADFL to allow United Nations and other humanitarian agencies access to refugees in eastern Zaire [DRC] in order to provide humanitarian assistance”.⁴⁷⁶

487. In 1997, in a statement by its President in the context of the conflict in the DRC, the UN Security Council called for “access . . . for humanitarian relief workers”.⁴⁷⁷

488. In 1997, in a statement by its President following a debate on the protection of humanitarian assistance to refugees and others in conflict situations, the UN Security Council called upon all parties concerned “to guarantee the unimpeded and safe access of United Nations and other humanitarian personnel to those in need”.⁴⁷⁸

489. In 1997, in a statement by its President in the context of the situation in Afghanistan, the UN Security Council expressed serious concern over “deliberate restrictions placed on the access of humanitarian organizations to some parts of the country and on other humanitarian operations” and urged all parties “to prevent their recurrence”.⁴⁷⁹

490. In 1998, in a statement by its President regarding the situation in Afghanistan, the UN Security Council strongly urged the Taliban “to let humanitarian agencies attend to the needs of the population”.⁴⁸⁰

491. In 1998, in a statement by its President, the UN Security Council called for “safe and unhindered access for humanitarian agencies to all those in need in the Democratic Republic of the Congo”.⁴⁸¹

492. In 1999, in a statement by its President, the UN Security Council called upon all parties involved in armed conflict “to guarantee the unimpeded and safe access of United Nations and other humanitarian personnel to those in need”.⁴⁸²

493. In 2000, in a statement by its President in connection with the question of the protection of UN, associated and humanitarian personnel in conflict zones, the UN Security Council underlined “the importance of unhindered access to populations in need” and declared that it would “continue to stress in its

resolutions the imperative for humanitarian assistance missions and personnel to have safe and unimpeded access to civilian populations".⁴⁸³

494. In 2000, in a statement by its President, the UN Security Council reiterated its call to all parties to a conflict to "ensure safe and unimpeded access in accordance with international law by humanitarian personnel to [war-affected] civilians".⁴⁸⁴

495. In 2001, in a statement by its President regarding the situation in Burundi, the UN Security Council stressed "the importance of providing urgent humanitarian assistance to civilians displaced by the hostilities" and called upon "all parties to guarantee safe and unhindered access by humanitarian personnel to those in need".⁴⁸⁵

496. In a resolution adopted in 1990 on the situation of human rights in occupied Kuwait, the UN General Assembly demanded that Iraq give "access to Kuwait to representatives of humanitarian organisations, especially the ICRC . . . to alleviate the suffering of the civilian population".⁴⁸⁶

497. In 1991, the UN General Assembly adopted a resolution on the strengthening of the coordination of humanitarian emergency assistance of the United Nations. A list of guiding principles annexed to the resolution provides that "States whose populations are in need of humanitarian assistance are called upon to facilitate the work of these organizations in implementing humanitarian assistance, in particular the supply of food, medicines, shelter and health care, for which access to victims is essential".⁴⁸⁷

498. In a resolution adopted in 1993 on the situation in Bosnia and Herzegovina, the UN General Assembly demanded that all parties concerned "facilitate the unhindered flow of humanitarian assistance, including the provision of water, electricity, fuel and communication . . . particularly to the safe areas".⁴⁸⁸

499. In a resolution adopted in 1994 on the situation of human rights in the former Yugoslavia, the UN General Assembly noted that many of the past recommendations of the Special Rapporteur had not been fully implemented and urged the parties, all States and relevant organisations to give immediate consideration to them, including "the opening of humanitarian relief corridors to prevent the death and deprivation of the civilian population and to open Tuzla airport to relief deliveries".⁴⁸⁹

500. In a resolution adopted in 1994 on the situation of human rights in the Sudan, the UN General Assembly expressed its concern that "access by

⁴⁸⁹ UN General Assembly, Res. 49/196, 23 December 1994, § 30(a).

the civilian population to humanitarian assistance continues to be impeded, which represents a threat to human life and constitutes an offence to human dignity".⁴⁹⁰

501. In a resolution adopted in 1998 on the situation of human rights in Kosovo, the UN General Assembly called upon all parties in Kosovo to "ensure . . . unrestricted access within Kosovo of . . . personnel [belonging to the OSCE Kosovo Verification Mission]". It strongly condemned the denial of appropriate access by NGOs to Kosovo and called upon the FRY authorities "to take all measures necessary to eliminate these unacceptable practices forthwith" and recalled "the commitment to allow unhindered access to humanitarian organizations". The General Assembly further called upon the FRY authorities "to grant access to . . . Kosovo for all humanitarian aid workers". Lastly, it called upon the government of the FRY and all others concerned "to guarantee the unrestricted access of humanitarian organizations and the United Nations High Commissioner for Human Rights to Kosovo, and to allow the unhindered delivery of relief items".⁴⁹¹

502. In a resolution adopted in 1999 on the safety and security of humanitarian personnel and protection of United Nations personnel, the UN General Assembly called upon:

all Governments and parties in complex humanitarian emergencies, in particular in armed conflicts and in post-conflicts situations, in countries where humanitarian personnel are operating, in conformity with the relevant provisions of international law and national laws, to cooperate fully with the United Nations and other humanitarian agencies and organizations and to ensure the safe and unhindered access of humanitarian personnel in order to allow them to perform efficiently their tasks of assisting the affected civilian population, including refugees and internally displaced persons.⁴⁹²

503. In a resolution adopted in 2000 on a new international humanitarian order, the UN General Assembly called upon "all Governments and parties involved in complex humanitarian emergencies to ensure the safe and unhindered access of humanitarian personnel so as to allow them to perform efficiently their task of assisting the affected civilian populations".⁴⁹³

504. In a resolution adopted in 2000, the UN General Assembly urged all parties to the continuing conflict in the Sudan "to grant full, safe and unhindered access to international agencies and humanitarian organizations so as to facilitate by all means possible the delivery of humanitarian assistance, in conformity with international humanitarian law, to all civilians in need of protection and assistance".⁴⁹⁴

⁴⁹⁰ UN General Assembly, Res. 49/198, 23 December 1994, preamble.

⁴⁹¹ UN General Assembly, Res. 53/164, 9 December 1998, §§ 3, 10, 17 and 24.

⁴⁹³ UN General Assembly, Res. 55/73, 4 December 2000, § 4.

⁴⁹⁴ UN General Assembly, Res. 55/116, 4 December 2000, § 3(f).

505. In a resolution adopted in 1992 on the situation of human rights in the territory of the former Yugoslavia, the UN Commission on Human Rights welcomed the proposal of its Special Rapporteur to open humanitarian relief corridors in order to prevent the imminent deaths of tens of thousands of people in the besieged cities.⁴⁹⁵

506. In a resolution adopted in 1993 on the situation of human rights in the territory of the former Yugoslavia, the UN Commission on Human Rights urged all States and relevant organizations immediately to give serious consideration to “the call for the opening of humanitarian relief corridors to prevent the imminent death of tens of thousands of persons in besieged cities”.⁴⁹⁶

507. In a resolution adopted in 1994 on the situation of human rights in the territory of the former Yugoslavia, the UN Commission on Human Rights urged all States and relevant organisations to give immediate consideration to the Special Rapporteur’s call “for the opening of humanitarian relief corridors to prevent death and deprivation of the civilian population, and to open Tuzla airport to relief deliveries”.⁴⁹⁷

508. In a resolution adopted in 1995 on the situation of human rights in the Sudan, the UN Commission called upon the government of Sudan and all parties to the conflict

to permit international agencies, humanitarian organizations and donor governments to deliver humanitarian assistance to the civilian population and to cooperate with initiatives of the Department of Humanitarian affairs of the United Nations Secretariat and Operation Lifeline Sudan to deliver humanitarian assistance to all persons in need.⁴⁹⁸

509. In two resolutions adopted in 1997 and 1998 on the situation of human rights in the Sudan, the UN Commission on Human Rights called upon the government of Sudan and all parties to the conflict “to permit international agencies, humanitarian organizations and donor Governments to deliver humanitarian assistance to all war affected civilians”.⁴⁹⁹

510. In a resolution adopted in 1999 on the situation of human rights in East Timor, the UN Commission on Human Rights called upon the government of Indonesia “to ensure immediate access by humanitarian agencies to displaced persons, both in East Timor as well as West Timor and other parts of the Indonesian territory, and . . . to continue to allow the deployment of emergency humanitarian assistance”.⁵⁰⁰

⁴⁹⁵ UN Commission on Human Rights, Res. 1992/S-2/1, 1 December 1992, § 15.

⁴⁹⁶ UN Commission on Human Rights, Res. 1993/7, 23 February 1993, § 31(a).

⁴⁹⁷ UN Commission on Human Rights, Res. 1994/72, 9 March 1994, § 35(a).

⁴⁹⁸ UN Commission on Human Rights, Res. 1995/77, 8 March 1995, § 3.

⁴⁹⁹ UN Commission on Human Rights, Res. 1997/59, 15 April 1997, § 18; Res. 1998/67, 21 April 1998, § 3.

⁵⁰⁰ UN Commission on Human Rights, Res. 1999/S-4/1, 27 September 1999, § 5(e) and (f).

511. In a resolution adopted in 2000 on the situation in the Republic of Chechnya, the UN Commission on Human Rights urged the government of the Russian Federation:

to allow international humanitarian organizations, notably the Office of the United Nations High Commissioner for Refugees and the International Committee of the Red Cross, free and secure access to areas of internally displaced and war affected populations in the Republic of Chechnya and neighbouring republics, in accordance with international humanitarian law, to facilitate . . . the delivery of humanitarian aid to the victims in the region.⁵⁰¹

512. In a resolution adopted in 1995 on the situation of human rights in Iraq, the UN Sub-Commission on Human Rights appealed "to the international community, to the organizations of the United Nations system and to the Government of Iraq to facilitate the delivery and distribution of medicines and foodstuffs to the population of the various parts of the country".⁵⁰²

513. In a resolution adopted in 1996 on the situation of human rights in Iraq, the UN Sub-Commission on Human Rights demanded that "the Government of Iraq immediately withdraw its military forces surrounding the marshlands regions in the south to allow access for the distribution by the United Nations of humanitarian supplies in this region".⁵⁰³

514. In 1992, in a report on the situation in Somalia, the UN Secretary-General noted that the two main factions of the United Somali Congress had agreed that a number of sites in Mogadishu, namely the port, airports, hospitals, NGO locations and routes to and from food and non-food distribution points be declared "corridors and zones of peace". Furthermore, he stated that "'corridors of peace' for the safe passage of relief workers and supplies and 'zones of peace' to enable target groups to receive assistance are of paramount importance".⁵⁰⁴

515. In 1998, in a report on protection for humanitarian assistance to refugees and others in conflict situations, the UN Secretary-General stated that:

States have primary responsibility for ensuring that refugees, displaced persons and other vulnerable populations in conflict situations benefit from the necessary assistance and protection and that United Nations and other humanitarian organizations have safe and unimpeded access to these groups. However, States themselves often deny humanitarian access and defend their actions by appealing to the principle of national sovereignty in matters deemed essentially within their domestic jurisdiction. While full respect must be shown for the sovereignty, independence and territorial integrity of the States concerned, where States are unable or unwilling to meet their responsibilities towards refugees and others in conflict situations, the international community should ensure that victims receive the assistance and protection they need to safeguard their lives. Such action should not be regarded as

⁵⁰¹ UN Commission on Human Rights, Res. 2000/58, 25 April 2000, § 9.

⁵⁰² UN Sub-Commission on Human Rights, Res. 1995/3, 18 August 1995, § 4.

⁵⁰³ UN Sub-Commission on Human Rights, Res. 1996/5, 19 August 1996, § 3.

⁵⁰⁴ UN Secretary-General, Report on the situation in Somalia, Addendum: Consolidated Inter-Agency 90-day Plan of Action for Emergency Humanitarian Assistance to Somalia, UN Doc. S/23829/Add.1, 21 April 1992, §§ 59 and 96.

interference in the armed conflict or as an unfriendly act so long as it is undertaken in an impartial and non-coercive manner.⁵⁰⁵

516. In 1999, in a report on the protection of civilians in armed conflict, the UN Secretary-General stated that:

It is the obligation of States to ensure that affected populations have access to the assistance they require for their survival. If a State is unable to fulfil its obligation, the international community has a responsibility to ensure that humanitarian aid is provided. The rapid deployment of humanitarian assistance operations is critical when responding to the needs of civilians affected by armed conflict. Effective and timely humanitarian action requires unhindered access to those in need. Thus, humanitarian organizations are involved on a daily basis in negotiations with the parties to conflicts to obtain and maintain safe access to civilians in need, as well as guarantees of security for humanitarian personnel. In order to fulfil this task, humanitarian actors must be able to maintain a dialogue with relevant non-state actors without thereby lending them any political legitimacy.⁵⁰⁶

517. In 2001, in a report on the protection of civilians in armed conflict, the UN Secretary-General stated that:

In many conflicts, safe and unhindered access to vulnerable civilian populations is granted only sporadically, and is often subject to conditions, delayed, or even bluntly denied. The consequences for those populations are often devastating: entire communities are deprived of even basic assistance and protection.

...

Where Governments are prevented from reaching civilians because they are under the control of armed groups, they must allow impartial actors to carry out their humanitarian task.

In the report, the Secretary-General urged "the [Security] Council to actively engage the parties to each conflict in a dialogue aimed at sustaining safe access for humanitarian operations, and to demonstrate its willingness to act where such access is denied".⁵⁰⁷

518. In 1993, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights noted that "humanitarian organizations are providing aid under very difficult conditions. The problem of access is particularly acute. Some places have been inaccessible to aid convoys owing to snow or bad roads; others have been made inaccessible by the refusal of the parties to the conflict to allow convoys to pass."⁵⁰⁸

519. In 1997, in a report on a mission to the area occupied by rebels in eastern Zaire, the Special Rapporteur of the UN Commission on Human Rights

⁵⁰⁵ UN Secretary-General, Report on protection for humanitarian assistance to refugees and others in conflict situations, UN Doc. S/1998/883, 22 September 1998, § 16.

⁵⁰⁶ UN Secretary-General, Report on the protection of civilians in armed conflict, UN Doc. S/1999/957, 8 September 1999, § 51.

⁵⁰⁷ UN Secretary-General, Report on the protection of civilians in armed conflict, UN Doc. S/2001/331, 30 March 2001, §§ 14 and 20 and Recommendation 4.

denounced the fact that “UNHCR was unable to reach the [Lula refugee] camp because the [ADFL] refused to grant it access, on the usual grounds that it was a military threat”.⁵⁰⁹

520. In 1999, in a report on the human rights situation in East Timor, the UN High Commissioner for Human Rights held that “the Indonesian authorities must facilitate the immediate access of aid agencies to those in need... Air-drops must be deployed to assist the displaced.”⁵¹⁰

521. The Principles of Engagement for Emergency Humanitarian Assistance in the Democratic Republic of the Congo, annexed to the 2000 United Nations Inter-Agency Consolidated Appeal for the Democratic Republic of the Congo, while referring explicitly to the Code of Conduct of the Red Cross and Red Crescent Movement and NGOs in Disaster Relief, consider unimpeded access to affected populations to be of fundamental importance in order to ensure humanitarian assistance. The Principles, which are addressed to the international humanitarian community as well as to the political and military authorities, state that “Parties to the conflict should ensure unimpeded access for assessment, delivery and monitoring of humanitarian aid to potential beneficiaries. The assistance to affected areas should be provided in the most efficient manner and by the most accessible routes.”⁵¹¹

Other International Organisations

522. In a resolution on Sudan adopted in 1997, the APC-EU Joint Assembly condemned “the obstruction of humanitarian assistance to the people of Nuba Mountains and other areas by the Government of Sudan” and requested that the United Nations “challenge the Government of Sudan to ensure immediate and free access for humanitarian organizations and Operation Lifeline Sudan”.⁵¹²

523. In 1994, during a debate in the UN General Assembly on the situation in Bosnia and Herzegovina, the EU requested “free and unimpeded delivery of humanitarian supplies and the re-opening of Tuzla airport”.⁵¹³

524. In a Common Position adopted in 1998, the Council of the EU stated that the authorities of the FRY must grant access in Kosovo to the ICRC and other humanitarian organisations.⁵¹⁴

⁵⁰⁹ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in Zaire, Report on the mission carried out at the request of the High Commissioner for Human Rights between 25 and 29 March 1997 to the area occupied by rebels in eastern Zaire, UN Doc. E/CN.4/1997/6/Add.2, 2 April 1997, § 36.

⁵¹⁴ EU, Council of the EU, Common Position, 19 March 1998, preamble.

525. In a declaration on Kosovo in 1998, the Council of the EU called upon the FRY President “to facilitate . . . unimpeded access for humanitarian organisations”.⁵¹⁵

526. In a resolution on Kosovo adopted in 1998, the European Parliament emphasised “the need for free and unrestricted access for international humanitarian organisations, such as the UNHCR and ICRC” to Kosovo.⁵¹⁶

527. In a resolution on Chechnya adopted in 1995, the Permanent Council of the OSCE called upon all parties to the conflict to ensure “full respect for international humanitarian law in the region of the Chechen crisis” and “free access to all areas of the region of the Chechen crisis for ICRC and UNHCR and all other humanitarian organisations active in the region”.⁵¹⁷

International Conferences

528. The 24th International Conference of the Red Cross in 1981 adopted a resolution on respect for international humanitarian law and humanitarian principles and support for the activities of the International Committee of the Red Cross in which it made a solemn appeal for “the ICRC be granted all the facilities necessary to discharge the humanitarian mandate confided to it by the international community”.⁵¹⁸

529. In 1992, at the Helsinki Summit of Heads of State or Government, CSCE participating States reaffirmed their commitment to “exhort all efforts to ensure access to the areas concerned” for the ICRC, Red Cross and Red Crescent Societies and UN organisations.⁵¹⁹

530. In a resolution on Bosnia and Herzegovina adopted in 1992, the 88th Inter-Parliamentary Conference in Stockholm insisted that “access be ensured for humanitarian assistance to all those in need”.⁵²⁰

531. In the Final Declaration of the International Conference for the Protection of War Victims in 1993, the participants urged all States to make every effort:

to provide the necessary support to the humanitarian organizations entrusted with granting protection and assistance to the victims of armed conflicts and . . . facilitate speedy and effective relief operations by granting to those humanitarian organizations access to the affected areas . . . in conformity with applicable rules of international humanitarian law.⁵²¹

⁵¹⁵ EU, Council of the EU, Declaration on Kosovo, 15 June 1998.

⁵¹⁶ European Parliament, Resolution on Kosovo, 16 July 1998, preamble, § I; Resolution on the situation in Kosovo, 8 October 1998, preamble, § K.

⁵²¹ International Conference for the Protection of War Victims, Geneva, 30 August–1 September 1993, Final Declaration, § II(8), *ILM*, Vol. 33, 1994, p. 301.

532. In a resolution adopted in 1993 on respect for international humanitarian law and support for humanitarian action in armed conflicts, the 90th Inter-Parliamentary Conference in Canberra welcomed “the fact that the United Nations has recently reaffirmed the concept of humanitarian assistance, including relief for civilian populations and the idea of establishing security corridors to ensure the free access of this relief to the victims”. It also called on “all States to understand the meaning of humanitarian action so as to avoid hindering it, to ensure rapid and effective relief operations by guaranteeing safe access to the regions affected”.⁵²²

533. The 26th International Conference of the Red Cross and Red Crescent in 1995 adopted a resolution on protection of the civilian population in period of armed conflict in which it emphasised “the importance for humanitarian organisations to have unimpeded access in times of armed conflict to civilian populations in need, in accordance with the applicable rules of international humanitarian law”. The Conference further stressed the obligation of all parties to a conflict “to accept, under the conditions prescribed by international humanitarian law, impartial humanitarian relief operations for the civilian population when it lacks supplies essential to its survival”.⁵²³

534. The 26th International Conference of the Red Cross and Red Crescent in 1995 adopted a resolution on the principles and action in international humanitarian assistance and protection in which it called upon States “to permit relief operations of a strictly humanitarian character for the benefit of the most vulnerable groups within the civilian population, when required by international humanitarian law” in situations where economic sanctions were imposed.⁵²⁴

535. In a meeting in 1999, the Foreign Ministers of the G-8 adopted, as a general principle on the political solution of the Kosovo crisis, the “unimpeded access to Kosovo by humanitarian aid organizations”.⁵²⁵

536. The Plan of Action for the years 2000–2003 adopted in 1999 by the 27th International Conference of the Red Cross and Red Crescent proposed that all the parties to an armed conflict take effective measures to ensure that:

every possible effort is made to provide the civilian population with all essential goods and services for its survival; [and that] rapid and unimpeded access to the civilian population is given to impartial humanitarian organizations in accordance with international humanitarian law in order that they can provide assistance and protection to the population.

⁵²² 90th Inter-Parliamentary Conference, Canberra, 13–18 September 1993, Resolution on respect for international humanitarian law and support for humanitarian action in armed conflicts, preamble and § 2(i).

⁵²³ 26th International Conference of the Red Cross and Red Crescent, Geneva, 3–7 December 1995, Res. II, §§ A(i) and E(b).

⁵²⁴ 26th International Conference of the Red Cross and Red Crescent, Geneva, 3–7 December 1995, Res. IV, § F(2).

⁵²⁵ G-8, Statement by the Chairman on the conclusion of the meeting of the Foreign Ministers, Petersburg Centre, 6 May 1999, annexed to UN Security Council, Res. 1244, 10 June 1999, Annex 1.

It further proposed that:

conditions of security are guaranteed in order that the ICRC, in accordance with international humanitarian law, has access to, and can remain present in, all situations of armed conflict to protect the victims thereof and, in cooperation with National Societies and the International Federation, to provide them with the necessary assistance.⁵²⁶

537. The Final Declaration adopted in 2002 by the African Parliamentary Conference on International Humanitarian Law for the Protection of Civilians during Armed Conflict stressed that “we...undertake to act in order to offer humanitarian organizations unimpeded access in time of armed conflict to civilian populations in need and to facilitate the free flow of relief materials”.⁵²⁷

IV. Practice of International Judicial and Quasi-judicial Bodies

538. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

539. The ICRC Commentary on the Additional Protocols, in analysing Article 18(2) AP II, notes that:

The fact that consent is required does not mean that the decision is left to the discretion of the parties. If the survival of the population is threatened and a humanitarian organization fulfilling the required conditions of impartiality and non-discrimination is able to remedy this situation, relief actions must take place. In fact, they are the only way of combating starvation when local resources have been exhausted. The authorities responsible for safeguarding the population in the whole of the territory of the State cannot refuse such relief without good grounds. Such a refusal would be equivalent to a violation of the rule prohibiting the use of starvation as a method of combat as the population would be left deliberately to die of hunger without any measures being taken.⁵²⁸

540. In an appeal issued in 1979 with respect to the conflict in Rhodesia/Zimbabwe, the ICRC specifically requested that the Transitional Government of Salisbury “permit continued material and medical relief assistance, by the ICRC and other humanitarian organizations, to the civilian population in need as a consequence of the hostilities, and allow the ICRC to resume its

relief distribution in those areas where they have been forbidden by the security forces".⁵²⁹

541. In a press release issued in 1984 concerning the victims of the Afghan conflict, the ICRC stated that:

In spite of repeated offers of services to the Afghan government and representations to the government of the USSR, the ICRC has only on two occasions – during brief missions in 1980 and 1982 – been authorized to act inside Afghanistan. Consequently, the ICRC has to date been able to carry out very few of the assistance and protection activities urgently needed by the numerous victims of the conflict on Afghan territory.⁵³⁰

542. The ICRC Annual Report for 1986 details the difficulties faced by the organisation in its operations in southern Sudan. The report recounts how "time and again, assistance operations ready to be implemented had to be cancelled at the last minute, on account of opposition to ICRC intervention expressed by one or other of the parties to the conflict".⁵³¹

543. At its Budapest Session in 1991, the Council of Delegates adopted a resolution on humanitarian assistance in situations of armed conflict in which it called upon all parties to armed conflicts and, where applicable, any High Contracting Party

to allow free passage of medicines and medical equipment, foodstuffs, clothing and other supplies essential to the survival of the civilian population of another Contracting Party, even if the latter is its adversary, it being understood that they are entitled to ensure that the consignments are not diverted from their destination.⁵³²

544. At its Budapest Session in 1991, the Council of Delegates adopted a resolution on the protection of the civilian population against famine in situations of armed conflict, in which it reminded the authorities concerned and the armed forces under their command of "their obligation to apply international humanitarian law, in particular . . . the obligation to allow humanitarian and impartial relief operations for the civilian population when supplies essential for its survival are lacking".⁵³³

545. In a press release issued in 1992, the ICRC appealed to all the parties to the conflict in Bosnia and Herzegovina "to allow the safe and secure passage of humanitarian aid".⁵³⁴

⁵³⁴ ICRC, Press Release, ICRC denies allegations, ICRC Belgrade, 22 May 1992.

546. In a press release issued in 1992, the ICRC urgently called on all the parties involved in the conflict in Tajikistan “to facilitate the work of its delegates [on] behalf of all the victims to the conflict”.⁵³⁵

547. In a press release issued in 1993 on the situation in eastern Bosnia and Herzegovina, the ICRC called on all parties “to facilitate ICRC access to all the victims”.⁵³⁶

548. In an appeal issued in 1993 on the situation in central Bosnia and Herzegovina, the ICRC stated that it trusted the parties to “continue to grant its representatives free access to the civilian population in order to assist all victims affected by the fightings throughout Central Bosnia”.⁵³⁷

549. In a communication to the press in 1993, the ICRC enjoined the parties to the conflict in Somalia “to facilitate relief operations for . . . the civilian population”.⁵³⁸

550. In a communication to the press issued in 1993 concerning the situation in Liberia, the ICRC stated that “the announcement made during the peace negotiations in Geneva that the parties agreed to let humanitarian aid reach all those in need is encouraging for the ICRC, which insists on immediate implementation of the agreement”.⁵³⁹

551. At its Birmingham Session in 1993, the Council of Delegates adopted a resolution on principles of humanitarian assistance in which it noted that States had

the duty – which is in the first instance theirs – to assist people who are placed *de jure* or *de facto* under their authority and, should they fail to discharge this duty, the obligation to authorize humanitarian organizations to provide such assistance, to grant such organizations access to the victims and to protect their action.⁵⁴⁰

552. In 1994, in the context of an internal conflict, the ICRC urged the creation of a neutral humanitarian area through which it could reach all needy persons in combat zones.⁵⁴¹

553. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that:

The parties to the conflict have a duty to ensure the provision of supplies essential to the survival of the civilian population in the territory under their

⁵⁴¹ ICRC archive document.

control... [I]f the civilian population is not adequately provided for, relief actions which are exclusively humanitarian and impartial in character and conducted without any adverse distinction, such as those undertaken by the ICRC, shall be authorized, facilitated and respected.⁵⁴²

554. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that “relief operations aimed at the civilian population which are exclusively humanitarian, impartial and non-discriminatory shall be facilitated and respected”.⁵⁴³

555. In a press release issued in 1994, the ICRC urgently called on all the parties involved in the conflict in Chechnya “to facilitate its delegates’ humanitarian work”.⁵⁴⁴

556. In a communication to the press issued in 1997 in connection with the conflict in Zaire (DRC), the ICRC requested that the ADFL grant its delegates unrestricted access to victims of the armed conflict. It further demanded that all concerned provide “immediate access to these people in desperate need of help”.⁵⁴⁵

557. In a communication to the press issued in 2001 on the situation in Afghanistan, the ICRC stated that:

The warring parties have the duty to ensure that the basic needs of the civilian population in the territory under their control are met as far as possible and to allow the passage of essential relief supplies intended for civilians. They must authorize and facilitate impartial humanitarian relief operations.⁵⁴⁶

VI. *Other Practice*

558. In a resolution adopted at its Wiesbaden Session in 1975, the Institute of International Law stated that “in cases where the territory controlled by one party can be reached only by crossing the territory controlled by the other party... free passage over such territory should be granted to any relief consignment, at least insofar as is provided for in Article 23 [GC IV]”.⁵⁴⁷

⁵⁴² ICRC, Memorandum on Respect for International Humanitarian Law in Angola, 8 June 1994, § IV, *IRRC*, No. 320, 1997, p. 505.

⁵⁴⁵ ICRC, Communication to the Press No. 97/08, Zaire: ICRC demands access to conflict victims, 2 April 1997.

⁵⁴⁶ ICRC, Communication to the Press No. 01/47, Afghanistan: ICRC calls on all parties to conflict to respect international humanitarian law, 24 October 2001.

⁵⁴⁷ Institute of International Law, Wiesbaden Session, Resolution III, The Principle of Non-Intervention in Civil Wars, 14 August 1975, Article 4.2.

559. In a resolution adopted at its Santiago de Compostela Session in 1989, the International Law Institute stated that “States should not arbitrarily reject assistance”.⁵⁴⁸

560. Principles 5, 6 and 12 of the Guiding Principles on the Right to Humanitarian Assistance, adopted by the Council of the IHL in 1993, state that:

National authorities, national and international organizations whose statutory mandates provide for the possibility of rendering humanitarian assistance, such as the ICRC, UNHCR, other organizations of the UN system, and professional humanitarian organizations, have the right to offer such assistance when the conditions laid down in the present Principles are fulfilled. This offer should not be regarded as an unfriendly act or as interference in a State’s internal affairs. The authorities of the States concerned, in the exercise of their sovereign right, should extend their cooperation concerning the offer of humanitarian assistance to their populations.

...

For the implementation of the right to humanitarian assistance it is essential to ensure the access of victims to potential donors, and access of qualified national and international organizations, States and other donors to the victims when their offer of humanitarian assistance is accepted.

...

In order to verify whether the relief operation or assistance rendered is in conformity with the relevant rules and declared objectives, the authorities concerned may exercise the necessary control, on condition that such control does not unduly delay the providing of humanitarian assistance.⁵⁴⁹

561. In 1994, in a meeting with the ICRC, the leader of an armed opposition group agreed to allow the ICRC “continued access even when it restricted it to any government personnel be they military or civilian”.⁵⁵⁰

562. A report by the Memorial Human Rights Center documenting Russia’s operation in the Chechen village of Samashki in April 1995 alleged that the Russian forces had impeded access by humanitarian aid personnel to the village, thereby depriving the wounded of essential medical care. The report stated that:

Over the course of several days, the ICRC (which was based in Nazran) attempted to drive to the village, but Russian troops did not allow them to pass . . . ITAR-TASS reported that an EMERCOM convoy from Ingushetia with volunteer doctors was stopped at the checkpoint near Samashki and not allowed to pass through to the village. Médecins sans Frontières representatives were also not allowed through during that time.⁵⁵¹

563. In 1996, in a statement on the humanitarian situation in Angola, UNITA stated that “all of the UNITA political, military and administrative authorities, and its militants, in areas under its control, have been directed to provide full cooperation and facilities to humanitarian organizations . . . in order to best carry out their activities”.⁵⁵²

Impediment of humanitarian relief

I. Treaties and Other Instruments

Treaties

564. Pursuant to Article 8(2)(b)(xxv) of the 1998 ICC Statute, the following constitutes a war crime in international armed conflicts: “intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival, including wilfully impeding relief supplies as provided for under the Geneva Conventions”.

Other Instruments

565. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(xxv), the following constitutes a war crime in international armed conflicts: “intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival, including wilfully impeding relief supplies as provided for under the Geneva Conventions”.

II. National Practice

Military Manuals

566. Germany’s Military Manual states that, in the case of blockade, “it is . . . prohibited to hinder relief shipments for the civilian population”.⁵⁵³

567. Switzerland’s Basic Military Manual states that “it is prohibited to starve the civilian population . . . by impeding relief actions in favour of the population in need”.⁵⁵⁴

568. The UK Military Manual provides that:

The Occupant must not in any way whatsoever divert relief consignments from their intended purpose except in cases of urgent necessity and then only in the interest of the population of the occupied territory as a whole and with the consent

⁵⁵² UNITA, General Secretariat & General Staff, Statement on the Humanitarian Situation in Angola, Bailundo, 1 January 1996, § 5.

⁵⁵³ Germany, *Military Manual* (1992), § 1051.

⁵⁵⁴ Switzerland, *Basic Military Manual* (1987), Article 147(b).

of the Protecting Power . . . The Occupant must facilitate the rapid distribution of these consignments.⁵⁵⁵

National Legislation

569. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "the wilful impeding of relief supplies for civilians" in international armed conflicts.⁵⁵⁶

570. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.⁵⁵⁷

571. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "deliberately starving civilians as a method of warfare . . . by intentionally impeding the sending of relief provided for in the Geneva Conventions" constitutes a war crime in international armed conflicts.⁵⁵⁸

572. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.⁵⁵⁹

573. Colombia's Penal Code imposes a criminal sanction on "anyone who, during an armed conflict, obstructs or impedes . . . the realisation of medical and humanitarian tasks which, according to the rules of international humanitarian law, can and must take place".⁵⁶⁰

574. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.⁵⁶¹

575. Under the Draft Amendments to the Penal Code of El Salvador, a prison sentence may be imposed on "anyone who [during an international or internal armed conflict] obstructs or impedes the medical, sanitary or relief personnel . . . in the realisation of their . . . humanitarian tasks which, in accordance with the rules of international humanitarian law, may or shall be conducted".⁵⁶²

576. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, is a crime,

⁵⁵⁵ UK, *Military Manual* (1958), § 541.

⁵⁵⁶ Australia, *ICC (Consequential Amendments) Act* (2002), Schedule 1, § 268.67(1)(a)(ii).

⁵⁵⁷ Bangladesh, *International Crimes (Tribunal) Act* (1973), Section 3(2)(e).

⁵⁵⁸ Burundi, *Draft Law on Genocide, Crimes against Humanity and War Crimes* (2001), Article 4(B)(x).

⁵⁵⁹ Canada, *Crimes against Humanity and War Crimes Act* (2000), Section 4(1) and (4).

⁵⁶⁰ Colombia, *Penal Code* (2000), Article 153.

⁵⁶¹ Congo, *Genocide, War Crimes and Crimes against Humanity Act* (1998), Article 4.

⁵⁶² El Salvador, *Draft Amendments to the Penal Code* (1998), Article entitled "Omission y obstaculización de medidas de socorro y asistencia humanitaria".

including “intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival, including wilfully impeding relief supplies as provided for under the Geneva Conventions” in international armed conflicts.⁵⁶³

577. Germany’s Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict, “impedes relief supplies, in contravention of international humanitarian law”.⁵⁶⁴

578. Ireland’s Geneva Conventions Act as amended provides that any “minor breach” of the Geneva Conventions, including violations of Article 23 GC IV, and of AP I, including violations of Article 70(3) AP I, is a punishable offence.⁵⁶⁵

579. Under Mali’s Penal Code, “deliberately starving civilians as a method of warfare, by depriving them of objects indispensable to their survival, including wilfully impeding relief supplies as provided for under the Geneva Conventions” is a war crime in international armed conflicts.⁵⁶⁶

580. Under the International Crimes Act of the Netherlands, “intentionally using starvation of civilians as a method of warfare by depriving them of objects indispensable to their survival, including wilfully impeding relief supplies as provided for under the Geneva Conventions” is a crime, when committed in an international armed conflict.⁵⁶⁷

581. Under New Zealand’s International Crimes and ICC Act, war crimes include the crime defined in Article 8(2)(b)(xxv) of the 1998 ICC Statute.⁵⁶⁸

582. Nicaragua’s Draft Penal Code punishes “anyone who [during an international or internal armed conflict] obstructs or impedes the medical, sanitary or relief personnel . . . in the realisation of their . . . humanitarian tasks which, in accordance with the rules of international humanitarian law, may or shall be conducted”.⁵⁶⁹

583. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the Geneva Conventions of 12 August 1949 . . . [and in] the two additional protocols to these Conventions . . . is liable to imprisonment”.⁵⁷⁰

584. The Act on Child Protection of the Philippines contains an article on “children in situations of armed conflicts” which states that “delivery of basic social services such as . . . emergency relief services shall be kept unhampered”.⁵⁷¹

⁵⁶³ Georgia, *Criminal Code* (1999), Article 413(d).

⁵⁶⁴ Germany, *Law Introducing the International Crimes Code* (2002), Article 1, § 11(1)(5).

⁵⁶⁸ New Zealand, *International Crimes and ICC Act* (2000), Section 11(2).

⁵⁶⁹ Nicaragua, *Draft Penal Code* (1999), Article 463.

⁵⁷⁰ Norway, *Military Penal Code as amended* (1902), § 108.

⁵⁷¹ Philippines, *Act on Child Protection* (1992), Article X, Section 22(c).

585. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xxv) of the 1998 ICC Statute.⁵⁷²

586. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xxv) of the 1998 ICC Statute.⁵⁷³

National Case-law

587. No practice was found.

Other National Practice

588. In the *Application of Genocide Convention case (Provisional Measures)* in 1993, Bosnia and Herzegovina requested that the ICJ indicate provisional measures against the FRY, stating that:

Yugoslavia (Serbia and Montenegro) and its agents and surrogates are under an obligation to cease and desist immediately from its breaches of the foregoing legal obligations, and is under a particular duty to cease and desist immediately: . . .

- from the interruption of, interference with, or harassment of humanitarian relief supplies to the citizens of Bosnia and Herzegovina by the international community.⁵⁷⁴

589. In 1992, during a debate in the UN Security Council, China condemned the hampering of the delivery of humanitarian aid in Bosnia and Herzegovina and declared that it was "deeply concerned with and disturbed by such a situation".⁵⁷⁵

590. In 1992, in a letter addressed to the President of the UN Security Council, Egypt, Iran, Pakistan, Saudi Arabia, Senegal and Turkey stated that "the unhindered delivery of humanitarian relief to all parts of Bosnia and Herzegovina, including the population of Sarajevo, should get under way immediately. To this end . . . effective measures must be taken to stop anyone from hindering the delivery of humanitarian assistance."⁵⁷⁶

591. In 1994, in a statement in the lower house of parliament, a German Minister of State, in line with the other members of the EU, condemned the hampering of humanitarian aid in Sudan.⁵⁷⁷

592. In 1996, during a debate in the UN General Assembly, Germany called upon all parties to the conflict in Afghanistan not to hamper humanitarian aid.⁵⁷⁸

⁵⁷² Trinidad and Tobago, *Draft ICC Act (1999)*, Section 5(1)(a).

⁵⁷³ UK, *ICC Act (2001)*, Sections 50(1) and 51(1) (England and Wales) and Section 58(1) (Northern Ireland).

⁵⁷⁶ Egypt, Iran, Pakistan, Saudi Arabia, Senegal and Turkey, Letter dated 5 October 1992 to the President of the UN Security Council, UN Doc. S/24620, 6 October 1992, § (a).

⁵⁷⁷ Germany, Lower House of Parliament, Statement by a Minister of State, 3 March 1994, *Plenarprotokoll* 12/213, p. 18469.

⁵⁷⁸ Germany, Statement before the UN General Assembly, UN Doc. A/51/PV.84, 13 December 1996, p. 7.

593. In 1993, during a debate in the UN Security Council, the UK representative stated that “the United Kingdom Government has been horrified at the continued evidence of massive breaches of international humanitarian law and human rights in the former Yugoslavia . . . [including] the deliberate obstruction of humanitarian relief convoys”.⁵⁷⁹

III. Practice of International Organisations and Conferences

United Nations

594. In a resolution on Bosnia and Herzegovina adopted in 1992, the UN Security Council demanded that “all parties and others concerned create immediately the necessary conditions for unimpeded delivery of humanitarian supplies to Sarajevo and other destinations in Bosnia and Herzegovina”.⁵⁸⁰

595. In a resolution on Bosnia and Herzegovina adopted in 1992, the UN Security Council underlined “the urgency of quick delivery of humanitarian assistance to Sarajevo and its environs”. It further stressed that, if the delivery of humanitarian assistance was hampered, it did not “exclude other measures to deliver humanitarian aid to Sarajevo and its environs”.⁵⁸¹

596. In a resolution adopted in 1992 on humanitarian assistance to Sarajevo and other parts of Bosnia and Herzegovina, the UN Security Council expressed its dismay at the “continuation of conditions that impede the delivery of humanitarian supplies to destinations within Bosnia and Herzegovina and the consequent suffering of the people of that country”.⁵⁸²

597. In a resolution adopted in 1992, the UN Security Council expressed “grave alarm at continuing reports of widespread violations of international humanitarian law occurring within the territory of the former Yugoslavia including . . . impeding the delivery of food and medical supplies to the civilian population”.⁵⁸³

598. In a resolution adopted in 1992, the UN Security Council condemned “all violations of international humanitarian law, including . . . the deliberate impeding of the delivery of food and medical supplies to the civilian population of the Republic of Bosnia and Herzegovina” and reaffirmed that “those that commit or order the commission of such acts will be held individually responsible in respect of such acts”.⁵⁸⁴

599. In a resolution adopted in 1992, the UN Security Council determined that “the magnitude of the human tragedy caused by the conflict in Somalia, further exacerbated by the obstacles being created to the distribution of humanitarian assistance, constitutes a threat to international peace and security”. It also strongly condemned “all violations of international humanitarian law

occurring in Somalia, including in particular the deliberate impeding of the delivery of food and medical supplies essential for the survival of the civilian population" and affirmed that "those who commit or order the commission of such acts will be held individually responsible in respect of such acts".⁵⁸⁵

600. In a resolution adopted in 1993 regarding the situation in Bosnia and Herzegovina, the UN Security Council reiterated its condemnation of "the obstruction, primarily by the Bosnian Serb party, of the delivery of humanitarian assistance".⁵⁸⁶

601. In a resolution adopted in 1994 in the context of the conflict in Angola, the UN Security Council condemned "any action, including laying of landmines, which threatens the unimpeded delivery of humanitarian assistance to all in need in Angola".⁵⁸⁷ This condemnation was reiterated in a subsequent resolution.⁵⁸⁸

602. In a resolution on Bosnia and Herzegovina adopted in 1995, the UN Security Council declared itself "gravely concerned that the regular obstruction of deliveries of humanitarian assistance, and the denial of the use of Sarajevo airport, by the Bosnian Serb side threaten the ability of the United Nations in Bosnia and Herzegovina to carry out its mandate".⁵⁸⁹

603. In a resolution on Sierra Leone adopted in 1997, the UN Security Council called upon the junta "to cease all interference with the delivery of humanitarian assistance to the people of Sierra Leone".⁵⁹⁰

604. In a resolution adopted in 1998 on the situation in Afghanistan, the UN Security Council urged all Afghan factions and, in particular the Taliban, "to facilitate the work of the international humanitarian organizations and to ensure unimpeded access and adequate conditions for the delivery of aid by such organizations to all in need of it".⁵⁹¹

605. In 1992, in a statement by its President in the context of the conflict in Bosnia and Herzegovina, the UN Security Council demanded "the immediate cessation of attacks and all actions aimed at impeding the distribution of humanitarian assistance and at forcing the inhabitants of Sarajevo to leave the city".⁵⁹²

606. In January 1993, in a statement by its President regarding the situation in Bosnia and Herzegovina, the UN Security Council reaffirmed:

its demand that all parties and others concerned, in particular Serb paramilitary units, cease and desist forthwith from all violations of international humanitarian law being committed in the territory of Bosnia and Herzegovina, including in particular the deliberate interference with humanitarian convoys. The Council warns the

⁵⁸⁵ UN Security Council, Res. 794, 3 December 1992, preamble and § 5.

⁵⁸⁶ UN Security Council, Res. 836, 4 June 1993, preamble.

⁵⁸⁷ UN Security Council, Res. 945, 29 September 1994, § 10.

⁵⁸⁸ UN Security Council, Res. 952, 27 October 1994, § 7.

⁵⁸⁹ UN Security Council, Res. 998, 16 June 1995, preamble.

⁵⁹⁰ UN Security Council, Res. 1132, 8 October 1997, § 2.

⁵⁹¹ UN Security Council, Res. 1193, 28 August 1998, § 9.

⁵⁹² UN Security Council, Statement by the President, UN Doc. S/24932, 9 December 1992.

parties concerned of serious consequences, in accordance with relevant resolutions of the Security Council, if they continue to impede the delivery of humanitarian relief assistance.⁵⁹³

607. In February 1993, in a statement by its President regarding the conflict in Bosnia and Herzegovina, the UN Security Council noted with deep concern that, "notwithstanding the Council's demand in that statement [of 25 January 1993], relief efforts continue to be impeded". It further condemned "the blocking of humanitarian convoys and the impeding of relief supplies, which place at risk the civilian population of the Republic of Bosnia and Herzegovina".⁵⁹⁴

608. In February 1993, in a statement by its President regarding the situation in Bosnia and Herzegovina, the UN Security Council expressed its concern that:

in spite of its repeated demands, relief efforts continue to be impeded by Serb paramilitary units, especially in the eastern part of the country, namely in the enclaves of Srebrenica, Cerska, Goražde and Žepa . . .

It regards the blockade of relief efforts as a serious impediment to a negotiated settlement . . .

The deliberate impeding of the delivery of food and humanitarian relief essential for the survival of the civilian population in Bosnia and Herzegovina constitutes a violation of the Geneva Conventions of 1949 and the Council is committed to ensuring that individuals responsible for such acts are brought to justice.

The Security Council added that it strongly condemned "once again the blocking of humanitarian convoys that has impeded the delivery of humanitarian supplies".⁵⁹⁵

609. In April 1993, in a statement by its President regarding the situation in Bosnia and Herzegovina, the UN Security Council stated that it was:

shocked by and extremely alarmed at the dire and worsening humanitarian situation which has developed in Srebrenica . . . following the unacceptable decision of the Bosnian Serb party not to permit any further humanitarian aid to be delivered to that town . . .

Recognizing the imperative need to alleviate, with the utmost urgency, the sufferings of the population in and around Srebrenica, who are in desperate need of food, medicine, clothes and shelter, the Council demands that the Bosnian Serb party cease and desist forthwith from all violations of international humanitarian law, including in particular the deliberate interference with humanitarian convoys.

The Council added that the blocking of UN humanitarian relief efforts was directly related to the practice of "ethnic cleansing".⁵⁹⁶

610. In July 1993, in a statement by its President regarding the situation in Sarajevo in Bosnia and Herzegovina, the UN Security Council demanded "an

⁵⁹⁵ UN Security Council, Statement by the President, UN Doc. S/25334, 25 February 1993, pp. 1 and 2.

⁵⁹⁶ UN Security Council, Statement by the President, UN Doc. S/25520, 3 April 1993, p. 1.

end... to the blocking of, and interference with, the delivery of humanitarian relief by both the Bosnian Serb and the Bosnian Croat parties".⁵⁹⁷

611. In 1994, in a statement by its President regarding the situation in Bosnia and Herzegovina, the UN Security Council deplored "the failure of the parties to honour the agreements they have signed... to permit the delivery of humanitarian assistance". It also strongly deplored "the abhorrent practice of deliberate obstruction of humanitarian relief convoys by any party". The Council demanded that "all parties fully abide by their commitments in this regard and facilitate timely delivery of humanitarian aid".⁵⁹⁸

612. In 1994, in a statement by its President regarding the situation in Haiti, the UN Security Council stated that it:

attaches great importance to humanitarian assistance in Haiti, including the unimpeded delivery and distribution of fuel used for humanitarian purposes. It will hold responsible any authorities and individuals in Haiti who might in any way interfere with the delivery and distribution of humanitarian assistance under the overall responsibility of PAHO or who fail in their responsibility to ensure that this delivery and distribution benefits the intended recipients: those in need of humanitarian assistance.⁵⁹⁹

613. In 1994, in a statement by its President regarding the situation in Bosnia and Herzegovina, the UN Security Council noted with particular concern "reports of the recurrent obstruction and looting of humanitarian aid convoys destined for the civilian population of Maglaj, including the most recent incident which took place on 10 March 1994, in which six trucks were prevented from reaching the town".⁶⁰⁰

614. In 1994, in a statement by its President regarding the situation in Rwanda, the UN Security Council condemned:

the ongoing interference by [the former Rwandan leaders and former government forces and militias] and individuals in the provision of humanitarian relief, and is deeply concerned that this interference has already led to the withdrawal of some non-governmental agencies responsible for the distribution of relief supplies within the [refugee] camps.⁶⁰¹

615. In 1996, in a statement by its President in the context of the conflict in Somalia, the UN Security Council considered:

the uninterrupted delivery of humanitarian assistance to be a crucial factor in the overall security and stability of Somalia. In this respect, the closure of Mogadishu

main seaport and other transportation facilities severely aggravates the present situation and poses a potential major impediment to future emergency deliveries. The Council calls upon the Somali parties and factions to open those facilities unconditionally.⁶⁰²

616. In 1996, in a statement by its President regarding the situation in Afghanistan, the UN Security Council called on the parties involved “to end the hostilities forthwith and not to obstruct the delivery of humanitarian aid and other needed supplies to the innocent civilians of the city”.⁶⁰³

617. In 1997, in a statement by its President regarding the situation in the Great Lakes region, the UN Security Council expressed its dismay at “acts of violence which have hampered the delivery of humanitarian assistance”.⁶⁰⁴

618. In 1997, in a statement by its President regarding the situation in the Great Lakes region, the UN Security Council expressed “concern at reports of obstruction of humanitarian assistance efforts”, but noted that “humanitarian access has improved recently”.⁶⁰⁵

619. In 1997, in a statement by its President regarding the situation in Sierra Leone, the UN Security Council called upon the military junta “to cease all interference with the delivery of humanitarian assistance to the people of Sierra Leone”.⁶⁰⁶

620. In July 1998, in a statement by its President regarding the situation in Afghanistan, the UN Security Council called upon all Afghan factions “to lift unconditionally any blockade of humanitarian relief supplies”.⁶⁰⁷

621. In August 1998, in a statement by its President regarding the situation in Afghanistan, the UN Security Council called upon all Afghan parties and, in particular, the Taliban, “to take the necessary steps to secure the uninterrupted supply of humanitarian aid to all in need of it and in this connection not to create impediments to the activities of the United Nations humanitarian agencies and international humanitarian organizations”.⁶⁰⁸

622. In a resolution adopted in 1992 on the situation in Bosnia and Herzegovina, the UN General Assembly expressed “grave alarm at continuing reports of widespread violations of international humanitarian law...including...

impeding the delivery of food and medical supplies to the civilian population".⁶⁰⁹

623. In a resolution adopted in 1994 on the situation of human rights in the former Yugoslavia, the UN General Assembly condemned "all deliberate impedance of the delivery of food, medical and other supplies essential for the civilian population, which constitutes a serious violation of international humanitarian law and international human rights law" and demanded that "all parties ensure that all persons under their control cease such acts".⁶¹⁰ This condemnation and demand were repeated in a subsequent resolution in 1995.⁶¹¹

624. In a resolution adopted in 1997 on the situation of human rights in the Sudan, the UN General Assembly expressed "its outrage at the use by all parties to the conflict of military force to disrupt . . . relief efforts" and called for "those responsible for such actions to be brought to justice".⁶¹²

625. In a resolution adopted in 1997 on the situation of human rights in Afghanistan, the UN General Assembly requested "all the parties in Afghanistan to lift the restrictions imposed on the international aid community and allow the free transit of food and medical supplies to all populations of the country".⁶¹³

626. In a resolution adopted in 1983, the UN Commission on Human Rights called upon all parties to the conflict in El Salvador "to co-operate fully and not to interfere with the activities of humanitarian organisations dedicated to alleviating the suffering of the civilian population wherever these organisations operate in El Salvador".⁶¹⁴

627. In a resolution adopted in 1994 on the situation of human rights in the territory of the former Yugoslavia, the UN Commission on Human Rights stated that it considered that "the deliberate impeding of delivery of food, medical and other supplies essential for the civilian population could constitute a serious violation of international humanitarian law".⁶¹⁵

628. In a resolution adopted in 1994 on the situation of human rights in Bosnia and Herzegovina, the UN Commission on Human Rights strongly condemned "the strategy of strangulation of populations by obstructing food supplies and other essentials to the civilian populations".⁶¹⁶

629. In a resolution adopted in 1995 on the situation of human rights in the Sudan, the UN Commission on Human Rights expressed "its outrage at the use of military force by all parties to the conflict to disrupt . . . relief efforts aimed

at assisting civilian populations" and called for "an end to such practices and for those responsible for such actions to be brought to justice".⁶¹⁷

630. In a resolution adopted in 1995 on the situation of human rights in Bosnia and Herzegovina, Croatia and the FRY, the UN Commission on Human Rights condemned "all deliberate and arbitrary impeding of the delivery of food, medical and other supplies essential for the civilian population . . . which can constitute a serious violation of international humanitarian law".⁶¹⁸

631. In a resolution adopted in 1996 on the situation of human rights in the Sudan, the UN Commission on Human Rights expressed deep concern that "access of international relief organizations to civilian populations critically at risk . . . continues to be severely impeded, violating international humanitarian law . . . and representing a threat to human life that constitutes an offence to human dignity".⁶¹⁹

632. In a resolution adopted in 1998 on the situation of human rights in the Sudan, the UN Commission on Human Rights expressed "its outrage at the use by all parties to the conflict of military force to disrupt . . . relief efforts".⁶²⁰

633. In 2001, in a report on the protection of civilians in armed conflict, the UN Secretary-General complained about the "failure of warring parties to admit the delivery of certain food items because they are perceived as jeopardizing the objectives of their war effort". He also noted that "in times of conflict, many Governments often constitute the major impediment to any meaningful humanitarian assistance and protection".⁶²¹

634. In 1998, in an analytical report on "Minimum standards of humanity", the UN Secretary-General drew attention to the fact that civilians "die from starvation or disease, when relief supplies are arbitrarily withheld from them".⁶²²

635. In 1993, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights noted that "the humanitarian nature of aid convoys is being respected less and less and all parties to the conflict are creating obstacles to the delivery of humanitarian aid to those in need".⁶²³

636. In 1997, in a report on the situation of human rights in Zaire (DRC), the Special Rapporteur of the UN Commission on Human Rights denounced the fact that:

Humanitarian assistance has been impeded by all parties to the conflict. In the area controlled by AFDL [ADFL], ICRC complained on 10 December of encountering

difficulties when entering the [refugee] camps, a complaint echoed by humanitarian NGOs. In the areas controlled by the Zairian Government, humanitarian action was generally accepted, although under the constant threat of closing the camps and expelling the refugees. Since the Air Liberia aircraft accident in July, however, access has become more difficult . . . IOM . . . was prevented from acting in Zaire on 27 September; all agencies came under suspicion.⁶²⁴

The Rapporteur added that “while it is not true to say that the agencies are permanently and systematically prevented from entering the refugee camps, it is often difficult for them to do so, leading to delays, which are extremely costly in terms of human lives”.⁶²⁵

637. The Principles of Engagement for Emergency Humanitarian Assistance in the Democratic Republic of the Congo, annexed to the 2000 United Nations Inter-Agency Consolidated Appeal for the Democratic Republic of the Congo, while referring explicitly to the Code of Conduct of the Red Cross and Red Crescent Movement and NGOs in Disaster Relief, consider unimpeded access to affected populations to be of fundamental importance in order to ensure humanitarian assistance. The Principles, which are addressed to the international humanitarian community as well as to the political and military authorities, state that “Parties to the conflict should ensure unimpeded access for assessment, delivery and monitoring of humanitarian aid to potential beneficiaries. The assistance to affected areas should be provided in the most efficient manner and by the most accessible routes.”⁶²⁶

Other International Organisations

638. In a resolution on Sudan adopted in 1997, the APC-EU Joint Assembly condemned “the obstruction of humanitarian assistance to the people of Nuba Mountains and other areas by the Government of Sudan”. It requested “the United Nations to challenge the Government of Sudan to ensure immediate and free access for humanitarian organizations and Operation Lifeline Sudan”.⁶²⁷

639. In a resolution on the former Yugoslavia adopted in 1994, the Parliamentary Assembly of the Council of Europe condemned the impediment of the delivery of humanitarian aid in Bosnia and Herzegovina. It considered any such impediment of humanitarian convoys by the parties to the conflict to be a “barbaric disregard for international humanitarian law”. The Assembly further

demanded that “all parties to the conflict in the area of the former Yugoslavia allow the unimpeded delivery of humanitarian aid, in accordance with their own past commitments and the requirements of international humanitarian law”.⁶²⁸

640. In a declaration on Bosnia and Herzegovina adopted in 1994, the Committee of Ministers of the Council of Europe requested “all parties involved in the conflict to allow unimpeded delivery of humanitarian aid”.⁶²⁹

641. In a declaration before the Permanent Council of the OSCE in 1995, the Presidency of the EU insisted that all facilities be given so as to allow the unimpeded and rapid delivery of medical and humanitarian aid in Chechnya.⁶³⁰

642. In a resolution adopted in 1995 on human rights in Chechnya, the European Parliament insisted that “humanitarian aid dispatched to relieve the people concerned must be allowed to reach them as fast as possible without being diverted . . . and that there should be no obstacle to distribution by non-governmental organizations”.⁶³¹

643. In 1998, in a declaration on the situation in Afghanistan, the Presidency of the EU described the food blockade on central Afghanistan as “a matter of grief”.⁶³²

644. In a declaration on the situation in Angola adopted in 1993, the OAU Assembly of Heads of State and Government urged UNITA “not to impede or hinder the delivery of humanitarian assistance to the civilian population affected by the war”.⁶³³

645. In a resolution adopted in 1992 on the situation in Bosnia and Herzegovina, the OIC Conference of Ministers of Foreign Affairs held the Serb leaders, those in Belgrade, as well as those in the Republic of Bosnia and Herzegovina responsible for the refusal to allow the delivery of assistance and supplies to populations affected by famine which it considered constituted a serious violation of IHL.⁶³⁴

646. In a resolution adopted in 1995, the Permanent Council of the OSCE called for the unhindered delivery of humanitarian aid to all groups of the civilian population affected by conflict in Chechnya.⁶³⁵

647. In 1993, the Parliamentary Assembly of the WEU debated the WEU mission to the Adriatic Sea to observe the implementation of the sanctions imposed on Serbia and Montenegro. The Rapporteur on the situation in the former

⁶³⁵ OSCE, Permanent Council, Resolution on Chechnya, 3 February 1995.

Yugoslavia denounced the enormous suffering of the civilian population caused by the conflict. He particularly criticised the Bosnian Croats for blocking humanitarian convoys destined for Sarajevo.⁶³⁶

International Conferences

648. At its meeting in Stockholm in 1992, the CSCE Ministerial Council adopted a decision on regional issues, notably the former Yugoslavia, in which it emphasised that “interference in humanitarian relief missions is an international crime for which the individuals responsible will be held personally accountable”.⁶³⁷

649. In a resolution adopted in 1993, the 90th Inter-Parliamentary Conference in Canberra expressed regret that “the international relief and protection effort during armed conflicts . . . is encountering serious difficulties and dangers, including . . . the blockade of humanitarian action, . . . the refusal of parties to the conflict to transport food supplies to the victims or to allow the relief organizations access to prisoners of war and imprisoned civilians”.⁶³⁸

IV. Practice of International Judicial and Quasi-judicial Bodies

650. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

651. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that “the parties to the conflict have a duty to ensure the provision of supplies essential to the survival of the civilian population in the territory under their control and to allow unimpeded passage of assistance for the civilian population in territories under the control of the adverse party”.⁶³⁹

VI. Other Practice

652. In 1992, in a meeting with the ICRC, a representative of a separatist entity stated that the army of the State had systematically blocked food supplies.⁶⁴⁰

⁶³⁶ WEU, Parliamentary Assembly, Report and debate on the mission to the Adriatic Sea, Statement of the Rapporteur, *BT-Drucksache* 12/6737, 2 February 1994, p. 35.

⁶³⁸ 90th Inter-Parliamentary Conference, Canberra, 13–18 September 1993, Respect for international humanitarian law and support for humanitarian action in armed conflicts, preamble.

⁶³⁹ ICRC, Memorandum on Respect for International Humanitarian Law in Angola, 8 June 1994, § IV, *IRRC*, No. 320, 1997, p. 505.

⁶⁴⁰ ICRC archive document.

653. In 1994, during the conflict in Afghanistan, according to a press agency, the Hezb-i-Islami faction blocked all humanitarian convoys heading for enemy-controlled territory. The Hezb-i-Islami justified these actions based on allegations that previous convoys had benefited the opposing military factions. Furthermore, it insisted that it had opened three markets in areas under its control to ensure the sustenance of the civilian population.⁶⁴¹

654. In 1996, in a communication to the ICRC, officials of an entity involved in a non-international armed conflict accused the government of a State of having blocked humanitarian aid in the course of the conflict.⁶⁴²

655. In 1997, the Washington Post reported that rebel forces from Zaire (DRC) were preventing humanitarian assistance from reaching tens of thousands of Rwandan refugees near the northern town of Kisangani. The report stated that “at one point, rebels requisitioned 60,000 liters of fuel from the aid agencies that was to be used to help transport the refugees. The rebels generally say the war effort warrants such actions.”⁶⁴³

Access for humanitarian relief via third States

I. Treaties and Other Instruments

Treaties

656. Article 70(2) AP I provides that:

The Parties to the conflict *and each High Contracting Party* shall allow and facilitate rapid and unimpeded passage of all relief consignments, equipment and personnel provided in accordance with this Section, even if such assistance is destined for the civilian population of the adverse Party”. [emphasis added]

Article 70 AP I was adopted by consensus.⁶⁴⁴

657. Article 33(2) of draft AP II submitted by the ICRC to the CDDH provided that “the parties to the conflict *and any High Contracting Party* through whose territory supplies must pass shall grant free passage when relief actions are carried out in accordance with the conditions stated in paragraph 1”.⁶⁴⁵ (emphasis added) This proposal was amended and adopted by consensus in Committee II of the CDDH.⁶⁴⁶ The approved text provided that “the Parties to the conflict *and each High Contracting Party* through whose territory these relief supplies will pass shall facilitate rapid and unimpeded passage of all relief consignments provided in accordance with the conditions stated in paragraph 2”.⁶⁴⁷ (emphasis

added) Eventually, however, this paragraph was not included in the final draft article that was voted upon in the plenary session.

Other Instruments

658. No practice was found.

II. National Practice

Military Manuals

659. Sweden's IHL Manual states that:

During armed conflicts between states, other states, including neutrals, sometimes provide an affected civilian population with humanitarian aid. Depending upon the nature or development of the conflict, this aid may be channelled to the civilian population of one party only, where acute need of civilian relief has arisen.⁶⁴⁸

660. The UK Military Manual states that:

If the whole or part of the population of occupied territory suffers from shortage of supplies, the Occupant must agree to relief schemes being instituted on their behalf and must facilitate such schemes by all the means at his disposal. The schemes in question will consist in particular of the provision of the consignments of foodstuffs, medical supplies and clothing . . . All parties to [GC IV] must permit the free passage of such consignments and must guarantee their protection.⁶⁴⁹

661. The US Field Manual provides that:

If the whole or part of the population of an occupied territory is inadequately supplied, the Occupying Power shall agree to relief schemes on behalf of the said population, and shall facilitate them by all the means at its disposal.

Such schemes, which may be undertaken . . . by States shall consist, in particular, of the provision of consignments of foodstuffs, medical supplies and clothing.

All Contracting Parties shall permit the free passage of these consignments and shall guarantee their protection.⁶⁵⁰

National Legislation

662. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 70(2) AP I, is a punishable offence.⁶⁵¹

663. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁶⁵²

⁶⁴⁸ Sweden, *IHL Manual* (1991), Section 5.7, p. 114.

⁶⁵¹ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁶⁵² Norway, *Military Penal Code as amended* (1902), § 108(b).

National Case-law

664. No practice was found.

Other National Practice

665. No practice was found.

*III. Practice of International Organisations and Conferences**United Nations*

666. In a resolution adopted in 2000 on protection of civilians in armed conflicts, the UN Security Council called upon "all parties concerned, including neighbouring states, to cooperate fully with the United Nations Humanitarian Coordinator and United Nations agencies in providing... access" of humanitarian personnel.⁶⁵³

667. In 1994, a statement by its President regarding the situation in Rwanda, the UN Security Council called upon "all States to assist the Office of the United Nations High Commissioner for Refugees (UNHCR) and other humanitarian and relief agencies operating in the area in meeting the urgent humanitarian needs in Rwanda and its bordering States". The Council also called on "States bordering Rwanda... to facilitate transfer of goods and supplies to meet the needs of the displaced persons within Rwanda".⁶⁵⁴

668. In 1991, the UN General Assembly adopted a resolution on the strengthening of the coordination of humanitarian emergency assistance of the United Nations. The guiding principles on humanitarian assistance annexed to the resolution emphasise, *inter alia*, that "States in proximity to emergencies are urged to participate closely with the affected countries in international efforts, with a view to facilitating, to the extent possible, the transit of humanitarian assistance".⁶⁵⁵

669. In a decision adopted in 1996 on the humanitarian situation in Iraq, the UN Sub-Commission on Human Rights appealed to the "international community as a whole and to all Governments, including that of Iraq, to facilitate the supply of food and medicine to the civilian population".⁶⁵⁶

670. In 1999, in a report on the protection of civilians in armed conflict, the UN Secretary-General urged "neighbouring Member States to ensure access for humanitarian assistance".⁶⁵⁷

671. The Code of Conduct for Humanitarian Assistance in Sierra Leone, annexed to the 1999 United Nations Inter-Agency Consolidated Appeal for Sierra

⁶⁵³ UN Security Council, Res. 1296, 19 April 2000, § 8.

⁶⁵⁷ UN Secretary-General, Report on the protection of civilians in armed conflict, UN Doc. S/1999/957, 8 September 1999, § 51, Recommendation 19.

Leone, contains certain guiding principles for States and non-State entities. One of these principles provides that "States in proximity to emergencies are urged to participate closely with affected countries in international efforts with a view to facilitating, to the extent possible, the transit of humanitarian assistance and humanitarian personnel".⁶⁵⁸

Other International Organisations

672. In a declaration on Yugoslavia in 1992, the EC called upon all parties to the conflict and other States "to facilitate the provision of humanitarian assistance...including through the establishment of humanitarian corridors".⁶⁵⁹

673. In a resolution adopted in 1993 on the situation in Angola, the OAU Assembly of Heads of State and Government called on "the OAU Member States and the international community to provide urgent humanitarian aid in order to mitigate the sufferings of the people in this country".⁶⁶⁰

International Conferences

674. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

675. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

676. At its Budapest Session in 1991, the Council of Delegates adopted a resolution on humanitarian assistance in situations of armed conflict, in which it called upon all parties to armed conflicts and, where applicable, any High Contracting Party "to agree to and cooperate in relief actions which are exclusively humanitarian, impartial and non-discriminatory in character, within the meaning of the Fundamental Principles of the International Red Cross and Red Crescent Movement".⁶⁶¹

VI. Other Practice

677. In a resolution adopted at its Wiesbaden Session in 1975, the Institute of International Law stated that "in cases where the territory controlled by

⁶⁵⁸ UN Office for the Coordination of Humanitarian Affairs, United Nations Inter-Agency Consolidated Appeal for Sierra Leone (January–December 1999), December 1998, Annex I, Code of Conduct for Humanitarian Assistance in Sierra Leone, p. 88.

⁶⁵⁹ EC, Declaration on Yugoslavia, 20 July 1992, § 4.

⁶⁶⁰ OAU, Assembly of Heads of State and Government, Declaration 2 (XXIX), 28–30 June 1993, § 9.

⁶⁶¹ International Red Cross and Red Crescent Movement, Council of Delegates, Budapest Session, 28–30 November 1991, Res. 12, § c.

one party can be reached only by crossing . . . the territory of a third State, free passage over such territory should be granted to any relief consignment, at least insofar as is provided for in Article 23 [GC IV]".⁶⁶²

Right of the civilian population in need to receive humanitarian relief

I. Treaties and Other Instruments

Treaties

678. Article 30, first paragraph, GC IV provides that:

Protected persons shall have every facility for making application to the Protecting Powers, the International Committee of the Red Cross, the National Red Cross (Red Crescent, Red Lion and Sun) Society of the country where they may be, as well as to any organization that might assist them.

679. Article 70(1) AP I provides that:

If the civilian population of any territory under the control of a Party to the conflict, other than occupied territory, is not adequately provided with the supplies mentioned in Article 69, relief actions which are humanitarian and impartial in character and conducted without any adverse distinction shall be undertaken, subject to the agreement of the Parties concerned in such relief actions. . . . In the distribution of relief consignments, priority shall be given to those persons, such as children, expectant mothers, maternity cases and nursing mothers, who, under the Fourth Convention or under this Protocol, are to be accorded privileged treatment or special protection.

Article 70 AP I was adopted by consensus.⁶⁶³

680. Article 18(2) AP II provides that:

If the civilian population is suffering undue hardship owing to a lack of the supplies essential for its survival, such as food-stuffs and medical supplies, relief actions for the civilian population which are of an exclusively humanitarian and impartial nature and which are conducted without any adverse distinction shall be undertaken subject to the consent of the High Contracting Party concerned.

Article 18 AP II was adopted by consensus.⁶⁶⁴

Other Instruments

681. Under Paragraph 5 of the 1992 Recommendation by the Parties to the Conflict in Bosnia and Herzegovina on the Tragic Situation of Civilians, "persons temporarily transferred to areas other than their areas of origin should benefit,

⁶⁶² Institute of International Law, Wiesbaden Session, Resolution III, The Principle of Non-Intervention in Civil Wars, 14 August 1975, Article 4(2).

as vulnerable groups, from international assistance, *inter alia*, in conformity with its mandate, by the ICRC”.

II. National Practice

Military Manuals

682. Argentina’s Law of War Manual states that, if the civilian population of any territory under the control of a party to the conflict, other than occupied territory, is insufficiently provided with supplies (such as foodstuffs, medical supplies, means of shelter and other supplies essential to the survival of the civilian population), relief actions of a humanitarian and impartial character shall be undertaken, subject to the agreement of the parties concerned.⁶⁶⁵

683. Canada’s LOAC Manual provides that “every opportunity must be given to protected persons to apply to the Protecting Powers, the ICRC, the local National Red Cross (or equivalent) society or any other organization that may assist them”.⁶⁶⁶

684. Germany’s Military Manual states that “civilians may at any time seek help from a protecting power, the International Committee of the Red Cross (ICRC) or any other aid society”.⁶⁶⁷

685. The Military Manual of the Netherlands provides that “if the civilian population of a certain area is not equipped with elementary necessities, relief actions have to be undertaken”.⁶⁶⁸

686. New Zealand’s Military Manual provides that “every opportunity must be given to protected persons to apply for help from the Protecting Powers, the International Committee of the Red Cross, the local national Red Cross (or equivalent) society or any other organisation that may assist them”.⁶⁶⁹

687. Nicaragua’s Military Manual states that “the civilian population has the right to receive the relief they need”.⁶⁷⁰

688. Switzerland’s Basic Military Manual provides that, in a territory temporarily occupied by foreign troops, “civilians shall have every facility for making application to the Protecting Powers, the International Committee of the Red Cross, the national Red Cross Society of the country where they may be, as well as to any organization that might assist them”.⁶⁷¹

689. The UK Military Manual provides that “every opportunity must be given to protected persons to apply to the Protecting Powers, the International

⁶⁷¹ Switzerland, *Basic Military Manual* (1987), Article 155(1).

Committee of the Red Cross, the local national Red Cross (or equivalent) society or any other organisation that may assist them".⁶⁷²

690. The US Field Manual provides that "protected persons shall have every facility for making application to the Protecting Powers, the International Committee of the Red Cross, the National Red Cross (Red Crescent, Red Lion and Sun) Society of the country where they may be, as well as to any organization that might assist them".⁶⁷³

691. The US Air Force Pamphlet stresses that "Article 30 [GC IV] seeks to put teeth into the Geneva protections by requiring the parties to give protected persons every facility for making application to the Protecting Powers, the International Committee of the Red Cross, the National Red Cross (Red Crescent, Red Lion and Sun) Society of the country where they may be, as well as to any organization that might assist them".⁶⁷⁴

National Legislation

692. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.⁶⁷⁵

693. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Article 30 GC IV, and of AP I, including violations of Article 70(1) AP I, as well as any "contravention" of AP II, including violations of Article 18(2) AP II, are punishable offences.⁶⁷⁶

694. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in...the Geneva Conventions of 12 August 1949...[and in] the two additional protocols to these Conventions... is liable to imprisonment".⁶⁷⁷

National Case-law

695. No practice was found.

Other National Practice

696. The Report on the Practice of Colombia refers to a draft internal working paper in which the Colombian government stated that "the parties in conflict

⁶⁷² UK, *Military Manual* (1958), § 40.

⁶⁷³ US, *Field Manual* (1956), § 269. ⁶⁷⁴ US, *Air Force Pamphlet* (1976), § 14-4.

⁶⁷⁶ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁶⁷⁷ Norway, *Military Penal Code as amended* (1902), § 108.

must guarantee the right to protection and humanitarian assistance of the victims of political violence".⁶⁷⁸

697. In the context of the conflict in Ethiopia, it has been reported that "to combat new famine threats, in early 1991 the EPLF and the Ethiopian Government agreed on a joint and equal distribution of UN famine relief supplies".⁶⁷⁹ According to the Report on the Practice of Ethiopia, "this and similar practices tend to indicate that, however recent, the right to humanitarian relief is gaining respect" in Ethiopia.⁶⁸⁰

698. In 1993, during a parliamentary debate on the conflict in Bosnia and Herzegovina, a German Minister of State stated that existing IHL granted a right to the civilian population to receive humanitarian aid. Therefore, obtaining the consent of the occupying or besieging forces to grant transit of humanitarian goods was legally unnecessary.⁶⁸¹

699. In 1997, during an open debate in the UN Security Council, Germany declared that "we have witnessed... a worrisome development whereby civilian populations are denied humanitarian assistance by the Powers in control of the territory, in clear breach of the norms of international humanitarian and human rights law". The consequences of these actions were said to range from massive displacement to death by starvation.⁶⁸²

700. In 1990, in a meeting with the ICRC, but only after it had used starvation as a weapon against territories not under its control, did the government of a State agree that in principle humanitarian aid should be distributed to the civilian population in all parts of the country. It thus relinquished the use of starvation as a possible weapon in situations of dispute.⁶⁸³

III. Practice of International Organisations and Conferences

United Nations

701. In a resolution adopted in 1993 on the treatment of certain towns and surroundings in Bosnia and Herzegovina as safe areas, the UN Security Council condemned all violations of IHL in Bosnia and Herzegovina, in particular, "the denial or the obstruction of access of civilians to humanitarian aid and services such as medical assistance and basic utilities".⁶⁸⁴

702. In 1998, in a statement by its President considering the question of children and armed conflict, the UN Security Council expressed "its readiness

to consider, when appropriate, means to assist with the effective provision and protection of humanitarian aid and assistance to civilian population in distress, in particular women and children".⁶⁸⁵

703. In a resolution adopted in 1970 on basic principles for the protection of civilian populations in armed conflicts, the UN General Assembly stated that "the provision of international relief to civilian population is in conformity with the humanitarian principles of the Charter of the United Nations, the Universal Declaration of Human Rights and other international instruments in the field of human rights".⁶⁸⁶

704. In the United Nations Millennium Declaration adopted by the UN General Assembly in 2000, the heads of State and government declared that they would:

spare no effort to ensure that children and all civilian populations that suffer disproportionately the consequences of natural disasters, genocide, armed conflicts and other humanitarian emergencies are given every assistance and protection so that they can resume normal life as soon as possible.⁶⁸⁷

705. In a resolution adopted in 1995 on the situation of human rights in the Sudan, the UN Commission on Human Rights was "deeply concerned that access by the civilian population to humanitarian assistance, despite some improvements, continues to be impeded, violating international humanitarian law and representing a threat to human life that constitutes an offence to human dignity".⁶⁸⁸

706. In 1996, in a report on emergency assistance to Sudan, the UN Secretary-General stated that the two main southern factions, the SPLM/A and the SSIA, had endorsed new rules on cooperation with OLS. These rules contained specific references to respect for and the upholding, *inter alia*, of a set of principles governing humanitarian aid, including "the right to offer and receive assistance". In his concluding observations, the Secretary-General condemned the fact that the conflict in Sudan had affected the lives of millions of Sudanese, stating that:

Under such circumstances any attempt to diminish the capacity of the international community to respond to conditions of suffering and hardship among the civilian population in the Sudan can only give rise to the most adamant expressions of concern as a violation of recognised humanitarian principles, most importantly, the right of civilian populations to receive humanitarian assistance in times of war.⁶⁸⁹

⁶⁸⁵ UN Security Council, Statement by the President, UN Doc. S/PRST/1998/18, 29 June 1998, pp. 1 and 2.

⁶⁸⁹ UN Secretary-General, Report on emergency assistance to Sudan, UN Doc. A/51/326, 4 September 1996, §§ 71 and 93.

707. In 1998, in a report on protection for humanitarian assistance to refugees and others in conflict situations, the UN Secretary-General stated that:

Under international law, refugees, displaced persons and other victims of conflict have a right to international protection and assistance where this is not available from their national authorities. However, if this right is to have any meaning for the intended beneficiaries, then the beneficiaries must have effective access to the providers of that protection and assistance. Access to humanitarian assistance and protection, or humanitarian access, is therefore an essential subsidiary or ancillary right that gives meaning and effect to the core rights of protection and assistance. Humanitarian access is, *inter alia*, a right of refugees, displaced persons and other civilians in conflict situations and should not be seen as a concession to be granted to humanitarian organizations on an arbitrary basis.⁶⁹⁰

708. In 1999, in a report on the protection of civilians in armed conflict, the UN Secretary-General stated that:

It is the obligation of States to ensure that affected populations have access to the assistance they require for their survival. If a State is unable to fulfil its obligation, the international community has a responsibility to ensure that humanitarian aid is provided. The rapid deployment of humanitarian assistance operations is critical when responding to the needs of civilians affected by armed conflict.

The Secretary-General also called on neighbouring States “to bring any issues that might threaten the right of civilians to assistance to the attention of the Security Council as a matter affecting peace and security”.⁶⁹¹

709. In 2001, in a report on the protection of civilians in armed conflict, the UN Secretary-General stated that “under international law, displaced persons and other victims of conflict are entitled to international protection and assistance where this is not available from national authorities”.⁶⁹²

Other International Organisations

710. No practice was found.

International Conferences

711. The Vienna Declaration and Programme of Action, adopted by the World Conference on Human Rights in 1993, reaffirmed “the right of the victims to be assisted by humanitarian organizations, as set forth in the Geneva Conventions of 1949 and other relevant instruments of international humanitarian law”.⁶⁹³

⁶⁹⁰ UN Secretary-General, Report on protection for humanitarian assistance to refugees and others in conflict situations, UN Doc. S/1998/883, 22 September 1998, § 15.

⁶⁹² UN Secretary-General, Report on the protection of civilians in armed conflict, UN Doc. S/2001/331, 30 March 2001, § 17.

⁶⁹³ World Conference on Human Rights, Vienna, 14–25 June 1993, Vienna Declaration and Programme of Action, UN Doc. A/CONF.157/23, 12 July 1993, § I(29).

712. In the Final Declaration adopted by the International Conference for the Protection of War Victims in 1993, the participants declared that they refused to accept that “victims [are] denied elementary humanitarian assistance”.⁶⁹⁴

713. In 26th International Conference of the Red Cross and Red Crescent in 1995 adopted a resolution on protection of the civilian population in period of armed conflict in which it strongly reasserted “the right of a civilian population in need to benefit from impartial humanitarian relief actions in accordance with international humanitarian law”.⁶⁹⁵

714. The 26th International Conference of the Red Cross and Red Crescent in 1995 adopted a resolution on the principles and action in international humanitarian assistance and protection in which it took note of Resolution 11 of the Council of Delegates held in 1993 in Birmingham which, *inter alia*, reminded States of “the victims’ right to receive humanitarian assistance”.⁶⁹⁶

715. The Plan of Action for the years 2000–2003 adopted in 1999 by the 27th International Conference of the Red Cross and Red Crescent proposed that all the parties to an armed conflict take effective measures to ensure that “every possible effort is made to provide the civilian population with all essential goods and services for its survival”.⁶⁹⁷

716. The Final Declaration adopted in 2002 by the African Parliamentary Conference on International Humanitarian Law for the Protection of Civilians during Armed Conflict emphasised that “we agree that all civilians in need are to benefit from impartial humanitarian relief actions”.⁶⁹⁸

IV. Practice of International Judicial and Quasi-judicial Bodies

717. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

718. At its Budapest Session in 1991, the Council of Delegates adopted a resolution on humanitarian assistance in situations of armed conflict which recalled that “the principle of humanity and the rules of international humanitarian law recognize the victims’ right to receive protection and assistance in all circumstances”.⁶⁹⁹

⁶⁹⁴ International Conference for the Protection of War Victims, Geneva, 30 August–1 September 1993, Final Declaration, § I(1), *ILM*, Vol. 33, 1994, p. 298.

⁶⁹⁵ 26th International Conference of the Red Cross and Red Crescent, Geneva, 3–7 December 1995, Res. II, § A(h).

⁶⁹⁷ 27th International Conference of the Red Cross and Red Crescent, Geneva, 31 October–6 November 1999, Res. I, Annex 2, Plan of Action for the years 2000–2003, Actions proposed for final goal 1.1, § 1(g).

⁶⁹⁸ African Parliamentary Conference on International Humanitarian Law for the Protection of Civilians during Armed Conflict, Niamey, 18–20 February 2002, Final Declaration, § 14.

⁶⁹⁹ International Red Cross and Red Crescent Movement, Council of Delegates, Budapest Session, 28–30 November 1991, Res. 12, preamble.

719. At its Birmingham Session in 1993, the Council of Delegates adopted a resolution on principles of humanitarian assistance in which it noted that victims have the “right to be recognized as victims and to receive assistance”, while States have

the duty – which is in the first instance theirs – to assist people who are placed *de jure* or *de facto* under their authority and, should they fail to discharge this duty, the obligation to authorize humanitarian organizations to provide such assistance, to grant such organizations access to the victims and to protect their action.⁷⁰⁰

720. The Code of Conduct for the International Red Cross and Red Crescent Movement and Non-Governmental Organisations (NGOs) in Disaster Relief states that “the right to receive humanitarian assistance, and to offer it, is a fundamental humanitarian principle which should be enjoyed by all citizens of all countries”.⁷⁰¹

721. In a communication to the press issued in 1997 concerning the conflict in Zaire (DRC), the ICRC requested that the ADFL grant its delegates unrestricted access to victims of the armed conflict. The ICRC appealed to all concerned to “respect the victims’ right to assistance and protection”.⁷⁰²

VI. Other Practice

722. The Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights of Åbo Akademi University in Turku/Åbo, Finland in 1990, states that “deliberate deprivation of access to necessary food, drinking water and medicine” is prohibited.⁷⁰³

723. The Guiding Principles on the Right to Humanitarian Assistance, adopted by the Council of the IHL in 1993, state that:

Every human being has the right to humanitarian assistance in order to ensure respect for the human rights to life, health, protection against cruel and degrading treatment and other human rights which are essential to survival, well-being and protection in public emergencies.

The right to humanitarian assistance implies the right to request and to receive such assistance, as well as to participate in its practical implementation.⁷⁰⁴

724. In 1995, the IHL stated that any declaration on minimum humanitarian standards should be based on “principles . . . of jus cogens, expressing basic

⁷⁰³ Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights, Åbo Akademi University, Turku/Åbo, 30 November–2 December 1990, Article 3(2)(f), *IRRC*, No. 282, 1991, p. 331.

⁷⁰⁴ IHL, Guiding Principles on the Right to Humanitarian Assistance, Principles 1 and 2, *IRRC*, No. 297, 1993, pp. 521–522.

humanitarian consideration[s] which are recognized to be universally binding". According to the IHL, this includes the principle that "the population and individuals have the right to receive humanitarian assistance when suffering undue hardship owing to the lack of supplies essential for their survival, when this is the result of the conflict or violence deployed in the area".⁷⁰⁵

D. Freedom of Movement of Humanitarian Relief Personnel

I. *Treaties and Other Instruments*

Treaties

725. Article 71(3) and (4) AP I provides that:

Each party in receipt of relief consignments shall, to the fullest extent practicable, assist the relief personnel... carrying out their relief mission. Only in case of imperative military necessity may the activities of the relief personnel be limited or their movements temporarily restricted.

Under no circumstances may relief personnel exceed the terms of their mission under this Protocol. In particular they shall take account of the security requirements of the Party in whose territory they are carrying out their duties. The mission of any personnel who do not respect these conditions may be terminated.

Article 71 AP I was adopted by consensus.⁷⁰⁶

Other Instruments

726. In the 1991 Hague Statement on Respect for Humanitarian Principles, the Presidents of the six republics of the former Yugoslavia reminded all fighting units of their obligation to apply the fundamental principle according to which "all Red Cross personnel and medical personnel assisting civilian populations and persons *hors combat* must be granted the necessary freedom of movement to achieve their tasks".

727. Paragraph 19 of the 1994 CSCE Code of Conduct provides that the participating States "will cooperate in support of humanitarian assistance to alleviate suffering among the civilian population, including facilitating the movement of personnel and resources dedicated to such tasks".

II. *National Practice*

Military Manuals

728. Spain's LOAC Manual states that limitations on the activities and movement of relief personnel are possible only in case of imperative military necessity.⁷⁰⁷

⁷⁰⁵ IHL, Comments on the Declaration of Minimum Humanitarian Standards submitted to the UN Secretary-General, §§ 1 and 21, reprinted in UN Doc. E/CN.4/1996/80, Report of the Secretary-General prepared pursuant to UN Commission on Human Rights resolution 1995/29, 28 November 1995, pp. 8 and 11.

⁷⁰⁷ Spain, *LOAC Manual* (1996), Vol. I, § 2.4.(c).5.

National Legislation

729. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 71(3) and (4) AP I, is a punishable offence.⁷⁰⁸

730. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁷⁰⁹

National Case-law

731. No practice was found.

Other National Practice

732. In 1991, in a "Statement regarding the need for the respect of the norms of international humanitarian law in the armed conflicts in Yugoslavia", the Federal Executive Council of the SFRY (FRY) insisted on "the need to ensure freedom of movement for all Red Cross representatives and medical personnel who are assisting the civilian population behind the front lines".⁷¹⁰

733. In 1992, following an attack on an ICRC convoy carrying medical supplies in Sarajevo in May 1992, which led to the death of an ICRC delegate, the Presidency of the Republika Srpska of Bosnia and Herzegovina ordered all combatants to provide secure conditions and the freedom of movement necessary to personnel from the ICRC and other humanitarian organisations.⁷¹¹

III. Practice of International Organisations and Conferences

United Nations

734. In a resolution adopted in 1992 on humanitarian assistance to Somalia, the UN Security Council called upon "all parties, movements and factions, in Mogadishu in particular, and in Somalia in general, to . . . guarantee [the] complete freedom of movement [of humanitarian organizations] in and around Mogadishu and other parts of Somalia".⁷¹²

735. In a resolution adopted in 1992 on the establishment of a UN Operation in Somalia, the UN Security Council reiterated its call for the guarantee of

"complete freedom of movement [of personnel of humanitarian organizations] in and around Mogadishu and other parts of Somalia".⁷¹³

736. In a resolution on Bosnia and Herzegovina adopted in 1993, the UN Security Council demanded that "all parties guarantee the... full freedom of movement of... members of humanitarian organizations".⁷¹⁴

737. In a resolution on Bosnia and Herzegovina adopted in 1995, the UN Security Council demanded that all parties ensure the complete freedom of movement of UNPROFOR personnel and others engaged in the delivery of humanitarian assistance.⁷¹⁵

738. In a resolution on Angola adopted in 1996, the UN Security Council demanded that "all parties to the conflict and others concerned in Angola take all necessary measures... to guarantee the... freedom of movement of humanitarian supplies throughout the country".⁷¹⁶

739. In a resolution adopted in 1996 on the situation in the Great Lakes region, the UN Security Council called upon all those concerned in the region "to ensure... the... freedom of movement of all international humanitarian personnel".⁷¹⁷

740. In a resolution adopted in 1996 on the situation in the Great Lakes region, the UN Security Council called upon all concerned in the region "to cooperate fully with... humanitarian agencies and to ensure the... freedom of movement of their personnel".⁷¹⁸

741. In a resolution on Liberia adopted in 1996, the UN Security Council demanded that the factions "facilitate the freedom of movement of... international organizations and agencies" delivering humanitarian assistance.⁷¹⁹

742. In a resolution on Bosnia and Herzegovina adopted in 1996, the UN Security Council demanded that "the parties respect the... freedom of movement of SFOR and other international personnel".⁷²⁰

743. In a resolution on Angola adopted in 1998, the UN Security Council called upon the Government of Unity and National Reconciliation, and in particular UNITA, "to guarantee unconditionally the... freedom of movement of all United Nations and international personnel".⁷²¹ The Security Council reiterated this call in a subsequent resolution adopted a few weeks later.⁷²²

744. In a resolution adopted in 1998 on the situation in Afghanistan, the UN Security Council demanded that "all Afghan factions and, in particular the

Taliban, do everything possible to assure the... freedom of movement of the personnel of the United Nations and other international and humanitarian personnel".⁷²³

745. In a resolution adopted in 1998 on the situation in Angola, the UN Security Council demanded that "the Government of Angola and UNITA guarantee unconditionally the... freedom of movement of... all United Nations and international humanitarian personnel, including those providing assistance, throughout the territory of Angola".⁷²⁴

746. In a resolution adopted in 1998, the UN Security Council called on the government of Angola and in particular UNITA "to guarantee unconditionally the... freedom of movement of all international humanitarian personnel".⁷²⁵

747. In a resolution adopted in 1999 on children in armed conflicts, the UN Security Council underscored "the importance of the... freedom of movement of United Nations and associated personnel to the alleviation of the impact of armed conflict on children".⁷²⁶

748. In a resolution adopted in 1999 on protection of civilians in armed conflicts, the UN Security Council emphasised "the need for combatants to ensure the... freedom of movement of... personnel of international humanitarian organizations".⁷²⁷

749. In a resolution adopted in 2000 on protection of civilians in armed conflicts, the UN Security Council reiterated "its call to all parties concerned, including non-State parties, to ensure the... freedom of movement of... personnel of humanitarian organizations".⁷²⁸

750. In a resolution on Afghanistan adopted in 2000, the UN Security Council stressed that the Taliban "must provide guarantees for the... freedom of movement for... humanitarian relief personnel".⁷²⁹

751. In 1995, in a statement by its President in the context of the situation in Croatia, the UN Security Council reminded the parties, and in particular the Croatian government, "that they have an obligation to respect United Nations personnel [and] to ensure their... freedom of movement at all times".⁷³⁰

752. In 1996, in a statement by its President, the UN Security Council called upon the parties to the conflict in Tajikistan "to ensure the... freedom of movement of the personnel of the United Nations and other international organizations".⁷³¹

753. In 1996, in a statement by its President regarding the situation in Tajikistan, the UN Security Council expressed "its concern at the restrictions placed upon UNMOT by the parties" and called upon them, in particular the government of Tajikistan, "to ensure the . . . freedom of movement of the personnel of the United Nations and other international organizations".⁷³²

754. In 1996, in a statement by its President, the UN Security Council stressed that the international community's ability to assist in the conflict in Georgia depended on "the full cooperation of the parties, especially the fulfilment of their obligations regarding the . . . freedom of movement of international personnel".⁷³³

755. In 1996, in a statement by its President, the UN Security Council called on all parties in the Great Lakes region "to ensure the . . . freedom of movement of all international humanitarian personnel".⁷³⁴

756. In 1997, in a statement by its President with respect to the situation in the Great Lakes Region, the UN Security Council demanded that the parties ensure the "freedom of movement of all . . . humanitarian personnel".⁷³⁵

757. In 1997, in a statement by its President, the UN Security Council called upon the parties "to ensure . . . the freedom of movement of the personnel of the United Nations . . . and other international personnel in Tajikistan".⁷³⁶

758. In 1997, in a statement by its President regarding the situation in Somalia, the UN Security Council called upon the Somali factions "to ensure the . . . freedom of movement of all humanitarian personnel".⁷³⁷

759. In 1997, in a statement by its President in the context of the conflict in Angola, the UN Security Council called upon UNITA in particular "to ensure the freedom of movement . . . of international humanitarian organizations".⁷³⁸

760. In 1998, in a statement by its President regarding the situation in Angola, the UN Security Council demanded that the Angolan government, and in particular UNITA, "guarantee unconditionally the . . . freedom of movement of all . . . international personnel".⁷³⁹

⁷³⁹ UN Security Council, Statement by the President, UN Doc. S/PRST/1998/14, 22 May 1998, p. 1.

761. In July 1998, in a statement by its President, the UN Security Council urged all Afghan factions “to cooperate fully with . . . international humanitarian organizations” and called upon them, in particular the Taliban, “to take all necessary steps to ensure the . . . freedom of movement of such personnel”.⁷⁴⁰

762. In August 1998, in a statement by its President, the UN Security Council urged all Afghan factions “to cooperate fully with . . . international humanitarian organizations” and called upon them, in particular the Taliban, “to take the necessary steps to assure the . . . freedom of movement of such personnel”.⁷⁴¹

763. In 2000, in a statement by its President in the context of a debate on the humanitarian aspects of maintaining peace and security, the UN Security Council reiterated its call for combatants “to ensure the . . . freedom of movement of . . . humanitarian personnel”.⁷⁴²

764. In a resolution adopted in 1992 on the situation in Bosnia and Herzegovina, the UN General Assembly demanded that “all parties to the conflict ensure complete . . . freedom of movement for the International Committee of the Red Cross”.⁷⁴³

765. In a resolution adopted in 1996, the UN General Assembly called upon all parties, movements and factions in Somalia to guarantee the “complete freedom of movement” of personnel of the United Nations and its specialized agencies and of non-governmental organizations throughout Somalia.⁷⁴⁴

766. In a resolution adopted in 1998 on the situation of human rights in Kosovo, the UN General Assembly called upon all parties to ensure freedom of movement within Kosovo of personnel belonging to the OSCE Kosovo Verification Mission. It also called upon the FRY authorities “to grant . . . free and unaccompanied movement within Kosovo for all humanitarian aid workers”.⁷⁴⁵

767. In a resolution adopted in 1999 on the safety and security of humanitarian personnel and protection of United Nations personnel, the UN General Assembly strongly condemned “any act or failure to act which obstructs or prevents humanitarian personnel and United Nations personnel from discharging their humanitarian functions”.⁷⁴⁶

768. In a resolution adopted in 1999 on the situation of human rights in East Timor, the UN Commission on Human Rights called upon the government of Indonesia “to guarantee . . . the free movement of international personnel”.⁷⁴⁷

A. Ruses of War

I. Treaties and Other Instruments

Treaties

1. Article 24 of the 1899 HR provides that “ruses of war and the employment of methods necessary to obtain information about the enemy and the country are considered permissible”.
2. Article 24 of the 1907 HR provides that “ruses of war and the employment of methods necessary for obtaining information about the enemy and the country are considered permissible”.
3. Article 37(2) AP I states that:

Ruses of war are not prohibited. Such ruses are acts which are intended to mislead an adversary or to induce him to act recklessly but which infringe no Rule of international law applicable in armed conflict and which are not perfidious because they do not invite the confidence of an adversary with respect to protection under that law. The following are examples of such ruses: the use of camouflage, decoys, mock operations and misinformation.

Article 37 AP I was adopted by consensus.¹

4. Article 21(2) of draft AP II submitted by the ICRC to the CDDH provided that “ruses of war, that is to say, those acts which, without inviting the confidence of the adversary, are intended to mislead him or to induce him to act recklessly, such as camouflage, traps, mock operations and misinformation, are not perfidious acts”.² This Article 21 was amended and adopted in Committee III of the CDDH by 21 votes in favour, 15 against and 41 abstentions.³ The approved text provided that “ruses are not prohibited”.⁴ Eventually, however, it was deleted by consensus in the plenary.⁵

Other Instruments

5. Article 15 of the 1863 Lieber Code states that “military necessity... allows... of such deception as does not involve the breaking of good faith either positively pledged, regarding agreements entered into during the war, or supposed by the modern law of war to exist”. Article 16 adds that “military necessity... admits of deception, but disclaims acts of perfidy”. Furthermore, Article 101 describes deception as a “just and necessary means of hostility”.
6. Article 14 of the 1874 Brussels Declaration provides that “ruses of war and the employment of methods necessary for obtaining information about the enemy and the country... are considered permissible”.

² CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 39.

³ CDDH, *Official Records*, Vol. XV, CDDH/III/SR.59, 10 May 1977, p. 213, § 20.

⁴ CDDH, *Official Records*, Vol. XV, CDDH/407/Rev.1, 17 March–10 June 1977, p. 502.

⁵ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 128.

7. Article 15 of the 1913 Oxford Manual of Naval War states that “ruses of war are considered permissible”.
8. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 37 AP I.
9. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 37 AP I.
10. Paragraph 110 of the 1994 San Remo Manual states that “ruses of war are permitted”.

II. National Practice

Military Manuals

11. Argentina’s Law of War Manual (1969) provides that “stratagems or ruses of war and the employment of methods necessary for obtaining information about the enemy and the country are considered as lawful”.⁶ It also states that “the observation of the principle of good faith must be constant and inalterable in dealings with the enemy. Consequently, the use of ruses and stratagems of war shall be legitimate as long as they do not imply the recourse to treachery or perfidy.”⁷
12. Argentina’s Law of War Manual (1989) states that stratagems are “acts which are intended to mislead an adversary or to induce him to act recklessly but which infringe no rule of international law and which are not perfidious”. It gives examples of stratagems, such as camouflage, mock operations and false information.⁸
13. Australia’s Commanders’ Guide provides that “ruses of war are lawful methods of deception that, over time, have been accepted as legitimate methods of fighting. Examples of ruses are: a. camouflage... b. decoys... c. false signals... d. surprise and ambush, and e. diversionary tactics.”⁹ It also states that “ruses of war are used to obtain an advantage by misleading the enemy. They are permissible provided they are free from any suspicion of treachery or perfidy and do not violate any expressed or tacit agreement.”¹⁰
14. Australia’s Defence Force Manual states that:

Ruses of war and the employment of measures necessary for obtaining information about the enemy and the enemy country are permissible. Ruses of war are used to obtain an advantage by misleading the enemy. They are permissible provided they are free from any suspicion of treachery or perfidy. Legitimate ruses include

⁶ Argentina, *Law of War Manual* (1969), § 1.016.

⁷ Argentina, *Law of War Manual* (1969), § 1.017.

⁸ Argentina, *Law of War Manual* (1989), § 1.05(3).

⁹ Australia, *Commanders’ Guide* (1994), § 508.

¹⁰ Australia, *Commanders’ Guide* (1994), § 901 (land warfare), see also § 826 (naval warfare).

surprises, ambushes, camouflage, decoys, mock operations and misinformation. Psychological operations are also permitted.¹¹

15. Belgium's Law of War Manual states that "ruses of war are acts which, without constituting a violation of a recognised rule, are intended to mislead an adversary or to induce him to act recklessly". It gives examples of ruses of war, such as surprise attacks, ambushes, feigning attacks, simulating quiet or inactivity, creating an impression of a stronger force than actually exists, making use of the enemy's code, transmitting false messages and using an informal cease-fire intended to collect the wounded to execute unobserved movements.¹²

16. Belgium's Teaching Manual for Officers provides that ruses of war are authorised.¹³

17. Benin's Military Manual states that "in order to conceal his intentions and actions from the enemy to induce him to react in a way detrimental to his interests, a military commander is permitted to use ruse . . . A ruse of war aims to: mislead the enemy [and] to induce the enemy to act recklessly."¹⁴

18. Cameroon's Instructors' Manual provides that ruses of war and stratagems are different from perfidy. They are lawful deceptions.¹⁵

19. Canada's Rules of Engagement for Operation Deliverance provides that:

Commanders are authorized to use military deception to protect against attack and to enhance the security and effectiveness of Canadian forces. Commanders may employ any deception means available to deny potentially hostile forces the ability to accurately locate, identify, track, and target Canadian or Coalition forces except as constrained or otherwise prohibited by international law or agreement, directive or these ROE.¹⁶

20. Canada's LOAC Manual states that:

Ruses of war are measures taken to obtain advantage of the enemy by confusing or misleading them.

Ruses of war are more formally defined as acts which are intended to mislead an adversary or to induce that adversary to act recklessly. Ruses must not infringe any rule of the LOAC. Ruses are lawful if they are not treacherous, perfidious and do not violate any express or tacit agreement.

The following are examples of ruses which are lawful:

- a. surprises;
- b. ambushes;
- c. feigning attacks, retreats or flights;
- d. simulating quiet and inactivity;
- e. giving large strong points to a small force;

¹¹ Australia, *Defence Force Manual* (1994), § 702.

¹⁶ Canada, *Rules of Engagement for Operation Deliverance* (1992), § 27.

- f. constructing works, bridges etc. which it is not intended to use;
- g. transmitting bogus signal messages and sending bogus dispatches and newspapers with a view to their being intercepted by the enemy;
- h. making use of the enemy's signals, watchwords, wireless code signs, tuning calls and words of command;
- i. conducting a false military exercise on the wireless on a frequency easily intercepted while substantial troop movements are taking place elsewhere;
- j. pretending to communicate with troops or reinforcements that do not exist;
- k. moving landmarks;
- l. constructing dummy airfields and aircraft;
- m. putting up dummy guns or dummy tanks;
- n. laying dummy mines;
- o. removing badges from uniforms;
- p. clothing the men of a single unit in the uniforms of several different units to induce the enemy to believe that they face a large force; or
- q. giving false ground signals to enable airborne personnel or supplies to be dropped in a hostile area or to induce aircraft to land in a hostile area.¹⁷

In the context of air warfare, the manual also gives camouflage, decoys and fake radio signals as examples of legitimate ruses.¹⁸

21. Canada's Code of Conduct states that "ruses such as camouflage and other similar deceptions are not prohibited and as such are legitimate".¹⁹

22. Croatia's Commanders' Manual provides that "deception measures such as camouflage, decoys, mock operations are permitted".²⁰

23. Ecuador's Naval Manual states that:

The law of armed conflicts permits deceiving the enemy through stratagems and ruses of war intended to mislead him, to deter him from taking action, or to induce him to act recklessly, provided the ruses do not violate rules of international law applicable to armed conflict.

...

Stratagems and ruses of war permitted in armed conflict include such deceptions as camouflage, deceptive lighting, dummy ships and other armament, decoys, simulated forces, feigned attacks and withdrawals, ambushes, false intelligence information, electronic deceptions, and utilisation of enemy codes, passwords, and countersigns.²¹

24. France's LOAC Summary Note provides that "if ruse of war is authorised, perfidy is prohibited".²²

25. France's LOAC Manual incorporates the content of Article 24 of the 1907 HR.²³ It defines "lawful deception: the ruse of war or stratagem is a non-perfidious act but aimed at deceiving the enemy or inducing him to act

¹⁷ Canada, *LOAC Manual* (1999), pp. 6-1 and 6-2, §§ 5-7 (land warfare), see also p. 7-2, §§ 14 and 15 (air warfare) and p. 8-10, §§ 75-77 (naval warfare).

¹⁸ Canada, *LOAC Manual* (1999), p. 7-2, § 15.

¹⁹ Canada, *Code of Conduct* (2001), Rule 10, § 10.

²¹ Ecuador, *Naval Manual* (1989), §§ 12.1 and 12.1.1.

²² France, *LOAC Summary Note* (1992), § 4.4. ²³ France, *LOAC Manual* (2001), p. 114.

recklessly".²⁴ It gives the examples of camouflage, decoy, feint, simulated demonstration or operation, disinformation, false information and technical ruses.²⁵ It also incorporates the content of Article 37(2) AP I.²⁶

26. Germany's Military Manual provides that "ruses of war and the employment of measures necessary for obtaining information about the adverse party and the country are considered permissible... Ruses of war include e.g. the use of enemy signals, passwords, signs, decoys, etc.; not, however, espionage."²⁷

27. Hungary's Military Manual lists camouflage, decoys, mock operations and misinformation as examples of deception.²⁸

28. Indonesia's Military Manual provides that "ruses of war... are allowed in armed conflict, such as camouflage, decoys, mock operations and intentional use of misinformation concerning military operations".²⁹

29. Israel's Manual on the Laws of War states that:

Surprise, stratagem, artifice are some of the most fundamental principles of war, giving the army a tactical advantage, and sometimes even a strategic one. The prohibition in the chapter on methods of warfare does not come to deny the armies the use of the element of surprise or to demand that each side be "transparent" to its enemy.

...

There is no prohibition on the use of camouflage, stratagems, ambushes and deceptions that are not perfidious means, i.e. where there is no situation of trust between the parties by virtue of the law of war, which is violated by one of the parties. Thus, for example, camouflaging a combatant to appear like objects in the natural surroundings (as opposed to the human surroundings) is permitted (such as painting the face black, adding leaves to helmet, and so forth). Interfering with the enemy's communication network and conducting psychological warfare are permissible... One may deceive the enemy with regard to the size of one's force or its intentions, as was done in the Yom Kippur War by the "Zvika Force". It is also allowed to conduct maneuvers of deception, flanking, dummy units and weapons, and the like. The law of war does not come to bar any party from exploiting tactical or strategic advantages or the enemy's naivete.³⁰

30. Italy's IHL Manual states that "stratagems of war and the employment of methods necessary for obtaining information about the enemy are considered lawful".³¹

31. Italy's LOAC Elementary Rules Manual states that "measures of deception, such as camouflage, decoys, mock operations and misinformation, are permitted".³²

²⁴ France, *LOAC Manual* (2001), p. 47, see also p. 114.

32. Kenya's LOAC Manual states that "ruses of war... are permitted. They are acts intended to mislead an enemy but not inviting his confidence. Ruses of war include the use of camouflage, decoys, mock operations and misinformation."³³

33. South Korea's Military Law Manual states that ruses of war such as camouflage, decoys and misinformation are permitted. It adds that the dissemination of misinformation during some landing operations is also lawful.³⁴

34. Madagascar's Military Manual provides that "measures of deception, such as camouflage, decoys, mock operations and disinformation, are permitted".³⁵

35. The Military Manual of the Netherlands states that:

Ruses of war may be used... Ruses of war are defined as behaviour which is intended to mislead an enemy or to induce him to act recklessly, but which do not violate any rules of the humanitarian law of war. Such behaviour is not treacherous because it does not inspire the confidence of the adversary with respect to protection under the humanitarian law of war. Examples of ruses of war are the use of camouflage, ambushes, fake positions, mock operations, misleading messages and incorrect information.³⁶

36. The Military Handbook of the Netherlands provides that "ruses are permitted. For example: ambushes, feint, sending of mock messages, use of enemy watchwords and codes, mock positions and constructions, camouflage."³⁷

37. New Zealand's Military Manual states that:

Ruses of war are measures taken to gain advantage over the enemy by mystifying or misleading him. They are permitted provided they are free from any suspicion of treachery or perfidy and do not violate any expressed or tacit agreement...

Legitimate ruses include: surprises; ambushes; feigning attacks, retreats or flights; simulating quiet and inactivity; giving large strongpoints to a small force; constructing works, bridges, etc., which it is not intended to use; transmitting bogus signal messages, and sending bogus despatches and newspapers with a view to their being intercepted by the enemy; making use of the enemy's signals, watchwords, wireless code signs and tuning calls, and words of command; conducting a false military exercise on the wireless on a frequency easily interrupted while substantial troop movements are taking place on the ground; pretending to communicate with troops or reinforcements which do not exist; moving landmarks; constructing dummy airfields and aircraft; putting up dummy guns or dummy tanks; laying dummy mines; removing badges from uniforms; clothing the men of a single unit in the uniforms of several different units so that prisoners and dead may give the idea of a large force; giving false ground signals to enable airborne personnel or supplies to be dropped in a hostile area, or to induce aircraft to land in a hostile area.

³⁷ Netherlands, *Military Handbook* (1995), p. 7-40, see also p. 7-36.

... [I]t would not be unlawful for a few men to call upon an enemy force to surrender on the ground that it was surrounded or to threaten bombardment although no guns are actually in place.³⁸

38. Nigeria's Military Manual states that:

A commander in his desire to fulfil his mission shall not mask his intentions and action from the enemy so as to induce the enemy to react in a manner prejudicial to his interests. Thus, to be consistent with the law of war, deceptions shall follow the distinction between permitted ruses and prohibited perjury [perfidy]... [Ruse] of war is considered to be a permissible method of warfare. These are acts intended to mislead an adversary or induce him to act recklessly but they infringe no rule of international law and are not perfidious because they do not invite the confidence of an adversary with respect to protection under that law. Examples of ruses of war are camouflage, decoys, mock operations, misinformation, surprises, ambushes and small scale raids.³⁹

39. Nigeria's Manual on the Laws of War states that "stratagems and ruses of war are measures to obtain advantage over the enemy by misleading or mystifying him. Such tactics are permissible provided they do not involve treachery." It gives examples of "legitimate tactics", such as surprises, ambushes, feigning attacks, retreats, flights and false movement of units, making use of the enemy code and password, giving false information to the enemy, employing spies and agents, moving landmarks, using dummies and psychological warfare.⁴⁰

40. South Africa's LOAC Manual states that:

Certain ruses of war, intended to mislead an adversary or to induce it to act recklessly, do not contravene international law. Examples given in [AP I] are camouflage, decoy, mock operations and disinformation. Others are surprise, ambush, psychological operations and deception by communication or movement.⁴¹

41. Spain's Field Regulations states that "the laws of war permit: ambushes, surprises, night attacks, simulated movements, false retreats to ambush, intimidation and provision of false information".⁴²

42. Spain's LOAC Manual states that stratagems are permitted.⁴³ It adds that, in order to fulfil his mission, the commander may dissimulate his intentions and actions to the enemy in order to mislead him, to induce him to act recklessly or to react against his own interests. However, stratagems must neither infringe any rule of international law applicable in armed conflicts, nor be perfidious.⁴⁴ It gives the following examples of stratagems: decoys, mock operations, misinformation, camouflage and disinformation.⁴⁵

³⁸ New Zealand, *Military Manual* (1992), §§ 502(1), 502(2) and 502(3) (land warfare), see also § 611(1) (air warfare) and § 713(1) (naval warfare).

⁴⁴ Spain, *LOAC Manual* (1996), Vol. I, §§ 3.3.a.(1) and 5.3.c, see also §§ 2.3.b.(2) and 7.3.a.(6).

⁴⁵ Spain, *LOAC Manual* (1996), Vol. I, §§ 3.3.a.(1), 5.3.c, 7.3.a.(6) and 10.8.e.(1).

43. Sweden's IHL Manual states that:

In certain circumstances, ruses of war may become almost tantamount to perfidy. Here the important difference is that ruses of war are not based on betrayal of the adversary's confidence. Instead, the intention of a ruse is to mislead the adversary, which can lead to incorrect deployment of his forces or to reckless actions which, for example, prematurely reveal his forces, intended tactics or assault objectives. The [1907 HR] states that it is permitted to use ruses of war, and the same authority is given in API, Article 37:2. Typical examples of ruses are giving false information on the size of one's own forces, position and intentions, or hiding one's combat forces with camouflage, or misleading the adversary by means of mock objectives and mock operations.⁴⁶

44. Switzerland's Basic Military Manual provides that:

Ruses of war and the employment of methods necessary for obtaining information about the enemy and the country are lawful.

...

Examples of lawful ruses: surprises; ambushes; feigning attacks or retreats; constructing installations which it is not intended to use; constructing dummy airfields; putting up dummy guns or dummy tanks; giving large strong points to a small force; transmitting false information through newspapers or radio; making use of the enemy's watchwords, wireless code signs and tuning calls to transmit false instructions; pretending to communicate with troops or reinforcements which do not exist; moving landmarks; removing from uniforms the badges indicating the grade, unit, nationality or speciality; giving the men of a single unit badges of several different units so that the enemy thinks that he is facing a bigger force; inciting enemy soldiers to rebellion, mutiny or desertion, possibly taking with them arms and means of transportation such as aircraft; and inducing the enemy population to revolt against its government, etc.⁴⁷

45. Togo's Military Manual states that "in order to conceal his intentions and actions from the enemy to induce him to react in a way detrimental to his interests, a military commander is permitted to use ruse... A ruse of war aims to: mislead the enemy [and] to induce the enemy to act recklessly."⁴⁸

46. According to the UK Military Manual, "ruses of war are the measures taken to obtain advantage of the enemy by mystifying or misleading him. They are permissible provided they are free from any suspicion of treachery or perfidy and do not violate any express or tacit agreement."⁴⁹ It notes that "according to the debate which took place at the [Hague] Conference... [Article 24 of the 1907 HR] must not be taken to imply that every ruse is permissible. A ruse ceases to be permissible if it contravenes any generally accepted rule."⁵⁰ "Legitimate ruses" include:

⁴⁶ Sweden, *IHL Manual* (1991), Section 3.2.1.1.b, p. 30.

⁴⁷ Switzerland, *Basic Military Manual* (1987), Article 38, including commentary.

⁴⁸ Togo, *Military Manual* (1996), Fascicule III, p. 13.

⁴⁹ UK, *Military Manual* (1958), § 307. ⁵⁰ UK, *Military Manual* (1958), § 307, footnote 1.

Surprises; ambushes; feigning attacks, retreats or flights; simulating quiet and inactivity; giving large strong points to a small force; constructing works, bridges, etc., which it is not intended to use; transmitting bogus signal messages, and sending bogus despatches and newspapers with a view to their being intercepted by the enemy; making use of the enemy's signals, watchwords, wireless code signs and tuning calls, and words of command; conducting a false military exercise on the wireless on a frequency easily interrupted while substantial troop movements are taking place on the ground; pretending to communicate with troops or reinforcements which do not exist; moving landmarks; constructing dummy airfields and aircraft; putting up dummy guns or dummy tanks; laying dummy mines; removing badges from uniforms; clothing the men of a single unit in the uniform of several different units so that prisoners and dead may give the idea of a large force; giving false ground signals to enable airborne personnel or supplies to be dropped in a hostile area, or to induce aircraft to land in a hostile area.⁵¹

The manual also states that "a capitulation . . . may not . . . be annulled because one of the parties has been induced to agree to it by ruse".⁵²

47. The UK LOAC Manual states that "ruses of war . . . are permitted. They are acts intended to mislead an enemy but not inviting his confidence."⁵³ They include the use of camouflage, decoys, mock operations, dummy installations, misleading messages and misinformation.⁵⁴

48. The US Field Manual states that:

Ruses of war and the employment of measures necessary for obtaining information about the enemy and the country are considered permissible.

...

Absolute good faith with the enemy must be observed as a rule of conduct; but this does not prevent measures such as using spies and secret agents, encouraging defection or insurrection among the enemy civilian population, corrupting enemy civilians or soldiers by bribes, or inducing the enemy's soldiers to desert, surrender, or rebel. In general, a belligerent may resort to those measures for mystifying or misleading the enemy against which the enemy ought to take measures to protect himself.

...

Ruses of war are legitimate so long as they do not involve treachery or perfidy on the part of the belligerent resorting to them. They are, however, forbidden if they contravene any generally accepted rule.

The line of demarcation between legitimate ruses and forbidden acts of perfidy is sometimes indistinct . . . [I]t is a perfectly proper ruse to summon a force to surrender on the ground that it is surrounded and thereby induce such surrender with a small force.

...

Among legitimate ruses may be counted surprises; ambushes; feigning attacks, retreats or flights; simulating quiet and inactivity; use of small forces to simulate large

⁵¹ UK, *Military Manual* (1958), § 312. ⁵² UK, *Military Manual* (1958), § 484.

⁵³ UK, *LOAC Manual* (1981), Section 4, p. 12, § 2(a).

⁵⁴ UK, *LOAC Manual* (1981), Section 4, p. 12, § 2(a) and Annex A, p. 46, § 4.

units; transmitting false or misleading radio or telephone messages; deception of the enemy by bogus orders purporting to have been issued by the enemy commanders; making use of the enemy's signals and passwords; pretending to communicate with troops or reinforcements which have no existence; deceptive supply movements; deliberate planting of false information; use of spies and secret agents; moving landmarks; putting up dummy guns and vehicles or laying dummy mines; erection of dummy installations and airfields; removing unit identifications from uniforms; use of signal deceptive measures; and psychological warfare activities.⁵⁵

49. The US Air Force Pamphlet states that:

Ruses of war which have customarily been accepted as lawful, such as the use of camouflage, traps, mock operations and misinformation, are not perfidy. Ruses of war involve misinformation, deceit or other steps to mislead the enemy under circumstances where there is no obligation to speak the truth.

...

Article 24 of the 1907 Hague Regulations confirms the general rule that ruses of war not constituting perfidy are lawful. Among the permissible ruses are surprises, ambushes, feigning attacks, retreats, or flights; simulation of quiet and inactivity; use of small forces to simulate large units; transmission of false or misleading radio or telephone messages (not involving protection under international law such as internationally recognized signals of distress); deception by bogus orders purported to have been issued by the enemy commander; use of the enemy's signals and passwords; feigned communication with troops or reinforcements which have no existence; and resort to deceptive supply movements. Also included are the deliberate planting of false information, moving of landmarks, putting up dummy guns and vehicles, laying of dummy mines, erection of dummy installations and airfields, removal of unit identifications from uniforms, and use of signal deceptive measures.

...

The following examples provide guidelines for lawful ruses:

- (1) The use of aircraft decoys. Slower or older aircraft may be used as decoys to lure hostile aircraft into combat with faster and newer aircraft held in reserve. The use of aircraft decoys to attract ground fire in order to identify ground targets for attack by more sophisticated aircraft is also permissible.
- (2) Staging air combats. Another lawful ruse is the staging of air combat between two properly marked friendly aircraft with the object of inducing an enemy aircraft into entering the combat in aid of a supposed comrade.
- (3) Imitation of enemy signals. No objection can be made to the use by friendly forces of the signals or codes of an adversary. The signals or codes used by enemy aircraft or by enemy ground installations in contact with their aircraft may properly be employed by friendly forces to deceive or mislead an adversary. However, misuse of distress signals or distinctive signals internationally recognized as reserved for the exclusive use of medical aircraft would be perfidious.
- (4) Use of flares and fires. The lighting of large fires away from the true target area for the purpose of misleading enemy aircraft into believing that the large fires represent damage from prior attacks and thus leading them to the wrong

⁵⁵ US, *Field Manual* (1956), §§ 48–51.

target is a lawful ruse. The target marking flares of the enemy may also be used to mark false targets. However, it is an unlawful ruse to fire false target flare indicators over residential areas of a city or town which are not otherwise valid military objectives.

- (5) Camouflage use. The use of camouflage is a lawful ruse for misleading and deceiving enemy combatants. The camouflage of a flying aircraft must not conceal national markings of the aircraft, and the camouflage must not take the form of the national markings of the enemy or that of objects protected under international law.
- (6) Operational ruses. The ruse of the "switched raid" is a proper method of aerial warfare in which aircraft set a course, ostensibly for a particular target, and then, at a given moment, alter course in order to strike another military objective instead. This method was utilized successfully in World War II to deceive enemy fighter interceptor aircraft.⁵⁶

50. The US Naval Handbook states that:

The law of armed conflicts permits deceiving the enemy through stratagems and ruses of war intended to mislead him, to deter him from taking action, or to induce him to act recklessly, provided the ruses do not violate rules of international law applicable to armed conflict.

...

Stratagems and ruses of war permitted in armed conflict include such deceptions as camouflage, deceptive lighting, dummy ships and other armament, decoys, simulated forces, feigned attacks and withdrawals, ambushes, false intelligence information, electronic deceptions, and utilization of enemy codes, passwords, and countersigns.⁵⁷

51. The YPA Military Manual of the SFRY (FRY) states that ruses of war are lawful methods of conducting warfare which are used to deceive the enemy and achieve some advantage in battle or in the conduct of the war in general. It gives the following non-exhaustive list of ruses: all types of misinformation; simulation of large attacks, retreats, flights or panic, and any other type of simulation except vicious and perfidious ones; falsification of enemy commands; deceiving the enemy about the strength of one's own forces and reserves; putting up dummy forts, positions, aircraft, take-off strips and minefields; use of make-believe signals, enemy watchwords, code signs and passwords; use of enemy uniforms without badges, removal of badges of ranks, units or services from one's own uniform; and anything else that could deceive the enemy in order to achieve some advantage or which could in any other way have a psychological impact on the enemy.⁵⁸

⁵⁶ US, *Air Force Pamphlet* (1976), §§ 8-3(b), 8-4(a) and (b).

⁵⁷ US, *Naval Handbook* (1995), §§ 12.1 and 12.1.1.

⁵⁸ SFRY (FRY), *YPA Military Manual* (1988), § 108.

National Legislation

52. Italy's Law of War Decree as amended provides that "stratagems of war and the employment of methods necessary for obtaining information about the enemy are considered lawful".⁵⁹

National Case-law

53. According to a ruling of Colombia's Constitutional Court in 1997, the use of military tactics and stratagems must be in conformity with constitutional standards. However, it had in mind the protection of civilians rather than stratagems as a method of warfare.⁶⁰

Other National Practice

54. The Report on the Practice of Algeria recalls the old Islamic principle whereby "la guerre est ruse" (war is ruse). The report notes that Algerian fighters during the war of independence predominantly used methods of war such as surprise attacks, ambushes, camouflage, misinformation and mock operations.⁶¹

55. On the basis of the reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq states that ruses of war are permitted as long as they do not contravene religious and moral rules or local and international traditions.⁶²

56. According to the Report on the Practice of Malaysia, members of security forces who were interviewed indicated that, in practice, deception such as camouflage would be used in conducting operations.⁶³

57. As an example of a ruse of war, a commentator recalled that, during the War in the South Atlantic, the UK announced the establishment of a "maritime exclusion zone". The impression was given that a UK nuclear submarine was on station in the area. There were later complaints that misleading information had been released, when it was discovered that the vessel was in Scotland. Since the exclusion zone was not a formal blockade (it only applied to enemy naval vessels), which must be enforceable to be binding, it could be considered as a mere warning to Argentine naval forces. The commentator stated that "this was a perfectly valid and successful piece of 'disinformation'".⁶⁴

⁵⁹ Italy, *Law of War Decree as amended* (1938), Article 36.

⁶⁰ Colombia, Constitutional Court, *Constitutional Case No. T-303*, Judgement, 20 June 1997.

⁶¹ Report on the Practice of Algeria, 1997, Chapter 2.4.

⁶² Report on the Practice of Iraq, 1998, Reply by the Ministry of Defence to a questionnaire, July 1997, Chapter 2.4.

⁶³ Report on the Practice of Malaysia, 1997, Chapter 2.4.

⁶⁴ Howard S. Levie, "The Falklands Crisis and the Laws of War", in Alberto R. Coll and Anthony C. Arend (eds.), *The Falklands War: Lessons for Strategy, Diplomacy and International Law*, George Allen & Unwin, Boston, 1985, p. 65.

58. A training video on IHL produced by the UK Ministry of Defence states that ruses are permitted but underlines that it is difficult to differentiate ruses of war and treachery.⁶⁵

59. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

Under the law of war, deception includes those measures designed to mislead the enemy by manipulation, distortion, or falsification of evidence to induce him to react in a manner prejudicial to his interests. Ruses are deception of the enemy by legitimate means, and are specifically allowed by Article 24, [1907 HR], and [AP I]

...

Coalition actions that convinced Iraqi military leaders that the ground campaign to liberate Kuwait would be focused in eastern Kuwait, and would include an amphibious assault, are examples of legitimate ruses...

There were few examples of perfidious practices during the Persian Gulf War. The most publicized were those associated with the battle of Ras Al-Khafji, which began on 29 January. As that battle began, Iraqi tanks entered Ras Al-Khafji with their turrets reversed, turning their guns forward only at the moment action began between Iraqi and Coalition forces. While there was some media speculation that this was an act of perfidy, it was not; a reversed turret is not a recognized indication of surrender *per se*. Some tactical confusion may have occurred, since Coalition ground forces were operating under a defensive posture at that time, and were to engage Iraqi forces only upon clear indication of hostile intent, or some hostile act.⁶⁶

III. Practice of International Organisations and Conferences

United Nations

60. No practice was found.

Other International Organisations

61. No practice was found.

International Conferences

62. The report of the Second Commission to the Hague Peace Conference in 1907 included an explanatory note stating that Article 24 of the 1907 HR aimed "only to say that ruses of war and methods of obtaining information are not prohibited as such. They would cease to be 'permissible' in case of infraction of a recognised imperative rule to the contrary."⁶⁷

⁶⁵ UK, Ministry of Defence, Training Video: The Geneva Conventions, 1986, Report on UK Practice, 1997, Chapter 2.4.

⁶⁶ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, Appendix O, The Role of the Law of War, 10 April 1992, *ILM*, Vol. 31, 1992, pp. 631–632.

⁶⁷ Howard S. Levie, *The Code of International Armed Conflict*, Oceana Publications, London, 1985, Vol. 1, Chapter 3.5, Section 35.1, p. 118.

IV. Practice of International Judicial and Quasi-judicial Bodies

63. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

64. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

To be consistent with the law of war, deception shall follow the distinction between permitted ruses and prohibited perfidy.

"Ruse of war" or "stratagem" means any act not amounting to perfidy but intended:

- a) to mislead the enemy; or
- b) to induce the enemy to act recklessly.

Ruses of war are permitted.

Examples of ruses of war:

- a) camouflage (natural, paints, nets, smoke);
- b) displays (decoys, feint);
- c) demonstrations, mock operations;
- d) disinformation, misinformation;
- e) technical (electronic, communications).⁶⁸

VI. Other Practice

65. In their commentary on the 1977 Additional Protocols, Bothe, Partsch and Solf state that "ruses of war have always been permitted". They give as examples of such ruses:

the use of spies and secret agents, encouraging defection or insurrection among enemy civilians, corrupting enemy civilians or soldiers by bribes, or encouraging the enemy's combatants to desert, surrender or rebel (but not selectively to assassinate a particular individual), . . . surprise attacks, ambushes, simulating quiet and inactivity, use of small units to simulate large forces, transmitting false or misleading messages, making use of the enemy's signals, pretending to communicate with troops or reinforcements which do not exist, moving landmarks and route markers, putting up dummy weapons and the laying of dummy mines.⁶⁹

66. Commenting on Article 37(2) API, Oeter states that "deceiving the enemy about the military situation . . . has belonged to the common arsenal of warfare since time immemorial". He adds that:

Camouflaging one's own defence positions and using them for ambushes, setting up surprise attacks from such camouflaged positions, simulating operations of retreat,

⁶⁸ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 400–402.

⁶⁹ Michael Bothe, Karl Joseph Partsch, Waldemar A. Solf (eds.), *New Rules for Victims of Armed Conflicts*, Martinus Nijhoff, The Hague, 1982, pp. 202 and 207.

as well as simulating operations of attack, using dummy weapons, transmitting misleading messages, *inter alia*, by using the adversary's radio wavelengths, passwords, and codes, infiltrating the enemy's command chain in order to channel wrong orders, moving landmarks and route markers, giving members of one military unit the signs of other units to persuade the enemy that one's force is larger than it really is – all these are established elements of traditional tactics.⁷⁰

B. Improper Use of the White Flag of Truce

Note: For practice concerning the simulation of surrender and concerning the simulation of an intention to negotiate under the white flag of truce as acts considered perfidious, see *infra* section I of this chapter. For practice concerning the use of the white flag of truce by parlementaires, see Chapter 19, section A.

I. Treaties and Other Instruments

Treaties

67. Article 23(f) of the 1899 HR provides that “it is especially prohibited . . . to make improper use of a flag of truce”.

68. Article 23(f) of the 1907 HR provides that “it is especially forbidden . . . to make improper use of a flag of truce”.

69. Article 38(1) AP I provides that “it is . . . prohibited to misuse deliberately in an armed conflict . . . the flag of truce”. Article 38 AP I was adopted by consensus.⁷¹

70. Article 23(2) of draft AP II submitted by the ICRC to the CDDH provided that “it is forbidden to make improper use of the flag of truce”.⁷² This proposal was amended and adopted by consensus in Committee III of the CDDH.⁷³ The approved text provided that it was “forbidden to misuse deliberately in armed conflict other internationally recognized protective emblems . . . including the flag of truce”.⁷⁴ Eventually, however, it was deleted by consensus in the plenary.⁷⁵

71. Under Article 8(2)(b)(vii) of the 1998 ICC Statute, “making improper use of a flag of truce . . . resulting in death or serious personal injury” is a war crime in international armed conflicts.

Other Instruments

72. Article 114 of the 1863 Lieber Code provides that “if it be discovered, and fairly proved, that a flag of truce has been abused for surreptitiously obtaining

⁷⁰ Stefan Oeter, *Methods and Means of Combat*, Dieter Fleck (ed.), *The Handbook of Humanitarian Law in Armed Conflicts*, Oxford University Press, Oxford, 1995, pp. 199–200, § 471.

⁷¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 103.

⁷² CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 39.

⁷³ CDDH, *Official Records*, Vol. XV, CDDH/III/SR.49, 4 June 1976, p. 109, § 8.

⁷⁴ CDDH, *Official Records*, Vol. XV, CDDH/236/Rev.1, 21 April–11 June 1976, p. 421.

⁷⁵ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 129.

military knowledge the bearer of the flag thus abusing his sacred character is deemed a spy".

73. Article 117 of the 1863 Lieber Code considers it "an act of bad faith, of infamy or fiendishness to deceive the enemy by flags of protection".

74. Article 13(f) of the 1874 Brussels Declaration especially forbids "making improper use of a flag of truce".

75. Article 8(d) of the 1880 Oxford Manual provides that "it is forbidden... to make improper use... of the flag of truce".

76. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including "misuse of flags".

77. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 38 AP I.

78. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 38 AP I.

79. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6 (1)(b)(vii), "making improper use of a flag of truce... resulting in death or serious personal injury" is a war crime in international armed conflicts.

II. National Practice

Military Manuals

80. Argentina's Law of War Manual (1969) provides that the improper use of the flag of parlementaires is a breach of good faith. It states, however, that the use said to be "improper" applies only in combat operations.⁷⁶

81. Argentina's Law of War Manual (1989) states that "it is prohibited... to deliberately abuse... internationally recognised protective emblems, signs or signals, including the flag of parlementaires".⁷⁷

82. Australia's Commanders' Guide provides that "the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings:... misusing or abusing... any... protected emblem for the purpose of gaining protection to which the user would not otherwise be entitled".⁷⁸

83. Australia's Defence Force Manual provides that "deliberate misuse of... protective symbols and emblems, signs and signals, including the flag

⁷⁶ Argentina, *Law of War Manual* (1969), § 1.017.

⁷⁷ Argentina, *Law of War Manual* (1989), § 1.06(1).

⁷⁸ Australia, *Commanders' Guide* (1994), § 1305(l).

of truce... is... prohibited".⁷⁹ It further states that "the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings:... misusing or abusing... any... protected emblem for the purpose of gaining protection to which the user would not otherwise be entitled".⁸⁰

84. Belgium's Teaching Manual for Officers specifies that "it is prohibited to abuse the protective signs provided for by the [Geneva] Conventions and [AP I]. Example: camouflaging arms and ammunition in a vehicle or a building flying... the white flag."⁸¹

85. Burkina Faso's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly the flag of parlementaires".⁸²

86. Cameroon's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly the flag of parlementaires".⁸³

87. Cameroon's Instructors' Manual states that the improper use of distinctive signs and signals is an unlawful deception.⁸⁴

88. Canada's LOAC Manual provides that "it is prohibited... to deliberately misuse... internationally recognized protective emblems, signs or signals including the flag of truce".⁸⁵ It further states that "improperly using a flag of truce" constitutes a war crime.⁸⁶

89. Congo's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use [improperly] the flag of parlementaires".⁸⁷

90. Ecuador's Naval Manual emphasises that "use of the white flag to gain a military advantage over the enemy is unlawful".⁸⁸ It specifies that "protective signs and symbols may be used only to identify personnel, objects, and activities entitled to protected status which they designate. Any other use is forbidden by international law."⁸⁹ The manual also states that "the following acts constitute war crimes:... misuse [and] abuse... of flags of truce".⁹⁰

91. France's Disciplinary Regulations as amended provides that, under international conventions, it is prohibited "to use improperly the flag of parlementaires".⁹¹

92. France's LOAC Manual states that "it is prohibited... to use improperly... the white flag".⁹²

⁷⁹ Australia, *Defence Force Manual* (1994), § 704.

⁸⁰ Australia, *Defence Force Manual* (1994), § 1315(1).

93. Germany's Military Manual provides that "it is prohibited to make improper use of a flag of truce".⁹³
94. Italy's IHL Manual states that it is prohibited "to use improperly... the flag of parlementaires".⁹⁴ The manual further states that grave breaches of international conventions and protocols, including "the improper... use of international protective signs", constitute war crimes.⁹⁵
95. Under South Korea's Military Regulation 187, illegal use of the white flag is a war crime.⁹⁶
96. Lebanon's Army Regulations prohibits combatants from unlawfully using the white flag.⁹⁷
97. Madagascar's Military Manual states that the abuse of the white flag is prohibited.⁹⁸
98. Mali's Army Regulations stipulates that, under the laws and customs of war, it is prohibited "to use improperly the flag of parlementaires".⁹⁹
99. Morocco's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly the flag of parlementaires".¹⁰⁰
100. The Military Manual of the Netherlands states that "it is prohibited to misuse the flag of parlementaires".¹⁰¹ The manual further stresses that "the misuse of... recognised protective signs" is a grave breach of AP I.¹⁰²
101. The Military Handbook of the Netherlands stipulates that it is prohibited "to misuse the white flag".¹⁰³
102. New Zealand's Military Manual emphasises that "improper use of protective symbols... is prohibited".¹⁰⁴ It includes the white flag among the "protective symbols".¹⁰⁵ It further states that "improperly using a flag of truce" is a war crime.¹⁰⁶
103. Nigeria's Military Manual notes that it is prohibited "to make improper use of flag of truce".¹⁰⁷
104. Nigeria's Manual on the Laws of War provides that "improper use of the flag of truce" is an "illegitimate tactic".¹⁰⁸ It further states that the "abuse of... a white flag" is a war crime.¹⁰⁹

¹⁰⁹ Nigeria, *Manual on the Laws of War* (undated), § 6.

105. Nigeria's Soldiers' Code of Conduct states that it is prohibited "to make improper use of flag of truce".¹¹⁰

106. Under Russia's Military Manual, the improper use of international signals and flags is a prohibited method of warfare.¹¹¹

107. Senegal's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly the flag of parlementaires".¹¹²

108. South Africa's LOAC Manual defines the "abuse of . . . a flag of truce" as a grave breach of the law of war and a war crime.¹¹³

109. Spain's LOAC Manual provides that the improper use – to identify persons and objects not protected – of the white flag is a prohibited deception.¹¹⁴ It also states that the white flag may not be used for other than its intended purpose.¹¹⁵

110. Sweden's IHL Manual considers that the prohibition of improper use of recognised emblems, as contained in Article 38 AP I, is part of customary international law.¹¹⁶ It adds that "in land combat it is not unusual for one of the parties to attempt to win a tactical advantage by concealing the character of his own forces prior to attack, in order to mislead or surprise the adversary . . . A flag of truce may not, however, be used for such purposes."¹¹⁷

111. The UK Military Manual provides that "improper use of a flag of truce or of signals of surrender is forbidden. The flag must not be used merely to gain time to effect a retreat or bring up reinforcements."¹¹⁸ In connection with the requirements for granting the status of combatant, the manual notes in particular that irregular troops should be warned against improper conduct with flags of truce.¹¹⁹ It further emphasises that "in addition to the 'grave breaches' of the 1949 [Geneva] Conventions, . . . the following are examples of punishable violations of the laws of war, or war crimes: . . . abuse of . . . a flag of truce".¹²⁰

112. The UK LOAC Manual provides that "it is forbidden . . . to make improper use in combat of a flag of truce".¹²¹

113. The US Field Manual states that "it is especially forbidden to make improper use of a flag of truce".¹²² It also provides that "flags of truce must not be used surreptitiously to obtain military information or merely to obtain time to effect a retreat or secure reinforcements or to feign a surrender in order to surprise an enemy".¹²³ The manual specifies that:

¹¹⁷ Sweden, *IHL Manual* (1991), Section 3.2.1.1.b, p. 30.

¹¹⁸ UK, *Military Manual* (1958), § 318. ¹¹⁹ UK, *Military Manual* (1958), § 95.

¹²⁰ UK, *Military Manual* (1958), § 626(d).

¹²¹ UK, *LOAC Manual* (1981), Section 4, p. 12, § 2d.

¹²² US, *Field Manual* (1956), § 52. ¹²³ US, *Field Manual* (1956), § 53.

It is an abuse of the flag of truce, forbidden as an improper ruse under Article 23 (f) [of the 1907] HR, for an enemy not to halt and cease firing while the parlementaire sent by him is advancing and being received by the other party; likewise, if the flag of truce is made use of for the purpose of inducing the enemy to believe that a parlementaire is going to be sent when no such intention exists.¹²⁴

The manual further notes that “in addition to the ‘grave breaches’ of the Geneva Conventions of 1949, the following acts are representative of violations of the law of war (‘war crimes’): . . . abuse of . . . the flag of truce”.¹²⁵

114. The US Air Force Pamphlet provides that “it is . . . forbidden to make improper use of the flag of truce”.¹²⁶ It further states that “in addition to the grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: . . . deliberate . . . abuse of the flag of truce”.¹²⁷

115. The US Instructor’s Guide states that “in addition to the grave breaches of the Geneva Conventions, the following acts are further examples of war crimes: . . . abusing . . . the flag of truce”.¹²⁸

116. The US Naval Handbook emphasises that “use of the white flag to gain a military advantage over the enemy is unlawful”.¹²⁹ It specifies that “protective signs and symbols may be used only to identify personnel, objects, and activities entitled to protected status which they designate. Any other use is forbidden by international law.”¹³⁰ The Handbook also states that “the following acts are representative war crimes: . . . misuse [and] abuse . . . [of] flags of truce”.¹³¹

117. The YPA Military Manual of the SFRY (FRY) provides that “it is forbidden to use, during combat, in order to mislead the enemy . . . the flag of parlementaires and the white flag in general”.¹³²

National Legislation

118. Algeria’s Code of Military Justice punishes:

any individual, whether military or not, who, in time of war, in an area of operations . . . in violation of the laws and customs of war, improperly uses the distinctive signs and emblems defined by international conventions for the respect of persons, objects and places protected by these conventions.¹³³

119. Argentina’s Draft Code of Military Justice punishes any soldier who “uses improperly . . . the flag of parlementaires or of surrender”.¹³⁴

120. Australia’s War Crimes Act considers “any war crime within the meaning of the instrument of appointment of the Board of Inquiry [set up to investigate

war crimes committed by enemy subjects]” as a war crime, including misuse of flags of truce.¹³⁵

121. Australia’s Geneva Conventions Act as amended provides that:

A person shall not, without the consent in writing of the Minister or of a person authorized in writing by the Minister to give consents . . . use for any purpose whatsoever any of the following:

...
such . . . emblems, identity cards, signs, signals, insignia or uniforms as are prescribed for the purpose of giving effect to [AP I].¹³⁶

122. Australia’s ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including “improper use of a flag of truce” in international armed conflicts.¹³⁷

123. Azerbaijan’s Criminal Code provides that “the misuse of the white flag . . . which as a result caused death or serious injury to body of a victim” constitutes a war crime in international and non-international armed conflicts.¹³⁸

124. The Criminal Code of Belarus provides that it is a war crime to “use intentionally, during hostilities, in violation of international treaties, . . . signs protected by international law”.¹³⁹

125. Under the Criminal Code of the Federation of Bosnia and Herzegovina, “whoever misuses or carries without authorisation . . . any . . . international symbols recognised as the protection of certain objects from military operations” commits a war crime.¹⁴⁰ The Criminal Code of the Republika Srpska contains the same provision.¹⁴¹

126. Burkina Faso’s Code of Military Justice punishes the improper use, in violation of the laws and customs of war, of the distinctive insignia and emblems for the protection of persons, objects and locations as defined in international conventions, in time of war and in an area of military operations.¹⁴²

127. Under Burundi’s Draft Law on Genocide, Crimes against Humanity and War Crimes, “using improperly the flag of parlementaires” constitutes a war crime in international armed conflicts.¹⁴³

128. Canada’s Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are “crimes according to customary international law” and, as such, indictable offences under the Act.¹⁴⁴

129. China's Law Governing the Trial of War Criminals provides that "indiscriminate use of the Armistice Flags" constitutes a war crime.¹⁴⁵

130. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.¹⁴⁶

131. The DRC Code of Military Justice as amended punishes "any individual, whether military or not, who, in time of war . . . improperly uses the distinctive signs and emblems defined by international conventions to ensure respect for the persons, objects and places protected under these conventions".¹⁴⁷

132. Côte d'Ivoire's Penal Code as amended punishes "anyone who, in an area of military operations, uses, in violation of the laws and customs of war, the distinctive insignia and emblems, defined by international conventions, to ensure respect for protected persons, objects and places".¹⁴⁸

133. Under Croatia's Criminal Code, "whoever misuses or carries without authorisation . . . recognised international signs used to mark objects for the purpose of protection against military operations" commits a war crime.¹⁴⁹

134. Under Estonia's Penal Code, "exploitative abuse . . . of the flag of truce" is a war crime.¹⁵⁰

135. France's Code of Military Justice punishes:

any individual, military or not, who, in time of war, in the area of operations of a force or unit, in violation of the laws and customs of war, uses improperly the distinctive signs and emblems defined by international conventions to ensure the respect for persons, objects and places protected by those conventions.¹⁵¹

136. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, such as "making improper use of a flag of truce, . . . resulting in death or serious personal injury" in international armed conflicts, is a crime.¹⁵²

137. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict, "makes improper use . . . of the flag of truce . . . thereby causing a person's death or serious injury".¹⁵³

138. Guinea's Criminal Code punishes "anyone [who], in an area of military operations and in violation of the laws and customs of war, uses distinctive insignia and emblems defined in international conventions to ensure respect for protected persons, objects and places".¹⁵⁴

139. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 38(1) AP I, is a punishable offence.¹⁵⁵

140. Italy's Law of War Decree as amended provides that it is prohibited "to use improperly the flag of parlementaires".¹⁵⁶

141. Italy's Wartime Military Penal Code punishes anyone who "uses improperly . . . the flag of parlementaires".¹⁵⁷

142. Mali's Code of Military Justice punishes:

any individual . . . who, in time of war, in the area of operations of a military force and in violation of the laws and customs of war, improperly uses the distinctive signs and emblems defined in international conventions to ensure respect for persons, objects and places protected by these conventions.¹⁵⁸

143. Under Mali's Penal Code, "using the flag of parlementaires . . . and, thereby, causing loss of human lives or serious injuries" is a war crime in international armed conflicts.¹⁵⁹

144. The Definition of War Crimes Decree of the Netherlands includes "misuse of flags of truce" in its list of war crimes.¹⁶⁰

145. Under the International Crimes Act of the Netherlands, "making improper use of a flag of truce, . . . resulting in death or serious personal injury", is a crime, when committed in an international armed conflict.¹⁶¹

146. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.¹⁶²

147. Nicaragua's Military Penal Code punishes any soldier who, in time of war and in an area of military operations, "unlawfully displays the flag of parlementaires".¹⁶³

148. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".¹⁶⁴

149. Poland's Penal Code punishes "any person who, during hostilities, uses . . . any . . . sign protected by international law", in violation thereof.¹⁶⁵

¹⁵⁵ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

¹⁶⁵ Poland, *Penal Code* (1997), Article 126(2).

150. Under Slovenia's Penal Code, "whoever abuses or carries without authorisation . . . internationally recognised symbols used for the protection . . . against military operations" commits a war crime.¹⁶⁶

151. Spain's Military Criminal Code punishes any soldier who "displays improperly the flag of parlementaires".¹⁶⁷

152. Spain's Penal Code punishes "anyone who, during an armed conflict, . . . uses improperly . . . the flag of parlementaires or of surrender".¹⁶⁸

153. Under Sweden's Penal Code as amended, "misuse of . . . the flag of parlementaires" constitutes a crime against international law.¹⁶⁹

154. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.¹⁷⁰

155. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.¹⁷¹

156. Under the US War Crimes Act as amended, violations of Article 23(f) of the 1907 HR are war crimes.¹⁷²

157. Under the Penal Code as amended of the SFRY (FRY), the use of a prohibited method of combat is a war crime.¹⁷³ The commentary specifies that "the following methods of combat are banned under international law: . . . abuse of the flag of parlementaires, . . . the white flag".¹⁷⁴

National Case-law

158. No practice was found.

Other National Practice

159. A training video on IHL produced by the UK Ministry of Defence illustrates the rule that the false use of emblems is forbidden.¹⁷⁵

160. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that "we support the principle that . . . internationally recognized protective emblems . . . not be improperly used".¹⁷⁶

Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 425.

III. Practice of International Organisations and Conferences

United Nations

161. In 1970, in a report on respect for human rights in armed conflicts, the UN Secretary-General stated that “as was felt by the experts convened by the International Committee of the Red Cross in 1969, the prohibition of the improper use of the white flag . . . contained in article 23(f) [of the 1907 HR], should be strongly reaffirmed”.¹⁷⁷

Other International Organisations

162. No practice was found.

International Conferences

163. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

164. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

165. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “it is prohibited to make improper use (that is to mark other persons and objects than those entitled to) of . . . the white flag (flag of truce)”.¹⁷⁸

166. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC included “improper use of a flag of truce”, when committed in an international armed conflict, in its list of war crimes to be subject to the jurisdiction of the Court.¹⁷⁹

VI. Other Practice

167. No practice was found.

C. Improper Use of the Distinctive Emblems of the Geneva Conventions

Note: *For practice concerning the simulation of protected status by using the distinctive emblems of the Geneva Conventions as an act considered perfidious, see infra section I of this chapter.*

¹⁷⁷ UN Secretary-General, Report on respect for human rights in armed conflicts, UN Doc. A/8052, 2 March 1970, § 102.

*I. Treaties and Other Instruments**Treaties*

168. Article 23(f) of the 1899 HR provides that “it is especially prohibited . . . to make improper use of . . . the distinctive badges of the [1864] Geneva Convention”.

169. The 1906 GC provides that:

Art. 27. The signatory powers whose legislation may not now be adequate engage to take or recommend to their legislatures such measures as may be necessary to prevent the use, by private persons or by societies other than those upon which this convention confers the right thereto, of the emblem or name of the Red Cross or Geneva Cross, particularly for commercial purposes by means of trade-marks or commercial labels . . .

Art. 28. In the event of their military penal laws being insufficient, the signatory governments also engage to take, or to recommend to their legislatures, the necessary measures to repress, in time of war, individual acts of robbery and ill treatment of the sick and wounded of the armies, as well as to punish, as usurpations of military insignia, the wrongful use of the flag and brassard of the Red Cross by military persons or private individuals not protected by the present convention.

170. Article 23(f) of the 1907 HR provides that “it is especially forbidden . . . to make improper use of . . . the distinctive badges of the [1864] Geneva Convention”.

171. Article 24 of the 1929 GC provides that:

The emblem of the red cross on a white ground and the words “Red Cross” or “Geneva Cross” shall not be used either in time of peace or in time of war, except to protect or to indicate the medical formations and establishments and the personnel and material protected by the Convention.

172. Article 28 of the 1929 GC provides that:

The Governments of the High Contracting Parties whose legislation is not at present adequate for the purpose, shall adopt or propose to their legislatures the measures necessary to prevent at all times:

- (a) The use of the emblem or designation “Red Cross” or “Geneva Cross” by private individuals or associations, firms or companies, other than those entitled thereto under the present Convention, as well as the use of any sign or designation constituting an imitation, for commercial or any other purposes;
- (b) By reason of the compliment paid to Switzerland by the adoption of the reversed Federal colours, the use by private individuals or associations, firms or companies of the arms of the Swiss Confederation or marks constituting an imitation, whether as trademarks or as parts of such marks, for a purpose contrary to commercial honesty, or in circumstances capable of wounding Swiss national sentiment.

173. Article 39 GC I provides that “under the direction of the competent military authority, the emblem [of the Red Cross, Red Crescent or Red Lion and

Sun] shall be displayed on the flags, armbands and on all equipment employed in the Medical Service”.

174. Article 44 GC I provides that:

With the exception of the cases mentioned in the following paragraphs of the present Article, the emblem of the red cross on a white ground and the words “Red Cross” or “Geneva Cross” may not be employed, either in time of peace or in time of war, except to indicate or to protect the medical units and establishments, the personnel and material protected by the present Convention and other Conventions dealing with similar matters. The same shall apply to [the red crescent or red lion and sun on white ground] in respect of the countries which use them. The National Red Cross Societies and other societies designated in Article 26 shall have the right to use the distinctive emblem conferring the protection of the Convention only within the framework of the present paragraph.

Furthermore, National Red Cross (Red Crescent, Red Lion and Sun) Societies may, in time of peace, in accordance with their national legislation, make use of the name and emblem of the Red Cross for their other activities which are in conformity with the principles laid down by the International Red Cross Conferences. When those activities are carried out in time of war, the conditions for the use of the emblem shall be such that it cannot be considered as conferring the protection of the Convention; the emblem shall be comparatively small in size and may not be placed on armbands or on the roofs of buildings.

The international Red Cross organizations and their duly authorized personnel shall be permitted to make use, at all times, of the emblem of the red cross on a white ground.

As an exceptional measure, in conformity with national legislation and with the express permission of one of the National Red Cross (Red Crescent, Red Lion and Sun) Societies, the emblem of the Convention may be employed in time of peace to identify vehicles used as ambulances and to mark the position of aid stations exclusively assigned to the purpose of giving free treatment to the wounded or sick.

175. Article 53 GC I provides that:

The use by individuals, societies, firms or companies either public or private, other than those entitled thereto under the present Convention, of the emblem or the designation “Red Cross” or “Geneva Cross” or any sign or designation constituting an imitation thereof, whatever the object of such use, and irrespective of the date of its adoption, shall be prohibited at all times.

By reason of the tribute paid to Switzerland by the adoption of the reversed Federal colours, and of the confusion which may arise between the arms of Switzerland and the distinctive emblem of the Convention, the use by private individuals, societies or firms, of the arms of the Swiss Confederation, or of marks constituting an imitation thereof, whether as trademarks or commercial marks, or as parts of such marks, or for a purpose contrary to commercial honesty, or in circumstances capable of wounding Swiss national sentiment, shall be prohibited at all times.

176. Article 54 GC I provides that “the High Contracting Parties shall, if their legislation is not already adequate, take measures necessary for the prevention and repression, at all times, of the abuses referred to under Article 53”.

177. Article 41, first paragraph, GC II provides that “under the direction of the competent military authority, the emblem of the red cross on a white ground shall be displayed on the flags, armlets and on all equipment employed in the Medical Service”.

178. Article 44 GC II provides that:

The distinguishing signs referred to in Article 43 [red cross, red crescent or red lion and sun on a white ground] can only be used, whether in time of peace or war, for indicating or protecting the ships therein mentioned, except as may be provided in any other international Convention or by agreement between all the Parties to the conflict concerned.

179. Under Article 45 GC II, “the High Contracting Parties shall, if their legislation is not already adequate, take the measures necessary for the prevention and repression, at all times, of any abuse of the distinctive signs provided for under Article 43 [red cross, red crescent or red lion and sun on a white ground]”.

180. According to the 1949 Geneva Conventions, the following are entitled to use the distinctive emblems:

- medical personnel exclusively engaged in the search for, or the collection, transport or treatment of the wounded or sick, or in the prevention of disease, staff exclusively engaged in the administration of medical units and establishments, as well as chaplains attached to the armed forces (Articles 24 and 40 GC I);
- the staff of National Red Cross Societies and that of other voluntary aid societies, duly recognised and authorised by their governments, who may be employed on the same duties as the personnel named in Article 24 (Articles 26, 40 and 44 GC I);
- the medical personnel and units of a recognised Society of a neutral country with the previous consent of its own government and the authorisation of the party to the conflict concerned (Articles 27 and 40 GC I);
- members of the armed forces specially trained for employment, should the need arise, as hospital orderlies, nurses or auxiliary stretcher-bearers, in the search for or the collection, transport or treatment of the wounded and sick, but only while carrying out medical duties (Articles 25 and 41 GC I);
- such medical units and establishments as are entitled to be respected under GC I, and only with the consent of the military authorities (Article 42 GC I);
- the international Red Cross organisations and their duly authorised personnel, at all times (Article 44 GC I);
- vehicles used as ambulances and aid stations exclusively assigned to the purpose of giving free treatment to the wounded or sick, as an exceptional measure in time of peace, in conformity with national legislation and with the express permission of one of the National Red Cross (Red Crescent, Red Lion and Sun) Societies (Article 44 GC I);
- the religious, medical and hospital personnel of hospital ships and their crews (Articles 36 and 42 GC II);
- the religious, medical and hospital personnel assigned to the medical or spiritual care of the persons designated in Articles 12 and 13 (wounded, sick and shipwrecked) (Articles 37 and 42 GC II);

- military hospital ships, that is to say, ships built or equipped by the powers specially and solely with a view to assisting the wounded, sick and shipwrecked, to treating them and to transporting them (Articles 22 and 43 GC II);
- hospital ships utilised by National Red Cross Societies, by officially recognised relief societies or by private persons (Articles 24 and 43 GC II);
- hospital ships utilised by National Red Cross Societies, officially recognised relief societies, or private persons of neutral countries (Articles 25 and 43 GC II);
- small craft employed by the State or by the officially recognised lifeboat institutions for coastal rescue operations (Articles 27 and 43 GC II);
- lifeboats of hospital ships, coastal lifeboats and all small craft used by the medical service (Article 43 GC II);
- civilian hospitals, if so authorised by the State (Article 18 GC IV);
- persons regularly and solely engaged in the operation and administration of civilian hospitals, including the personnel engaged in the search for, removal and transporting of and caring for wounded and sick civilians, the infirm and maternity cases, as well as other personnel who are engaged in the operation and administration of civilian hospitals, while they are employed on such duties (Article 20 GC IV).

181. Article 18(8) AP I provides that “the provisions of the Conventions and of this Protocol relating to the supervision of the use of the distinctive emblem and to the prevention and repression of any misuse thereof shall be applicable to distinctive signals”. These distinctive signals are defined in Annex I AP I for the identification of medical units and transports. Article 18 AP I was adopted by consensus.¹⁸⁰

182. Article 38(1) AP I provides that “it is prohibited to make improper use of the distinctive emblem of the red cross, red crescent or red lion and sun”. Article 38 was adopted by consensus.¹⁸¹

183. According to AP I, the following are entitled to use the distinctive emblems:

- medical personnel, meaning those persons assigned (permanently or temporarily), by a party to the conflict, exclusively to the medical purposes (the search for, collection, transportation, diagnosis or treatment – including first-aid treatment – of the wounded, sick and shipwrecked, or for the prevention of disease) or to the administration of medical units or to the operation or administration of medical transports. The terms include:
 - (a) medical personnel of a party to the conflict, whether military or civilian, including those described in GC I and II, and those assigned to civil defence organisations;
 - (b) medical personnel of National Red Cross (Red Crescent, Red Lion and Sun) Societies and other national voluntary aid societies duly recognised and authorised by a party to the conflict;
 - (c) medical personnel or medical units or medical transports described in Article 9(2) (permanent medical units and transports, other than hospital

¹⁸⁰ CDDH, *Official Records*, Vol. VI, CDDH/SR.37, 24 May 1977, p. 70.

¹⁸¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 103.

ships, and their personnel made available to a party to the conflict for humanitarian purposes: (a) by a neutral or other State which is not party to that conflict; (b) by a recognised and authorised aid society of such a State; (c) by an impartial international humanitarian organisation) (Article 8 AP I);

- religious personnel, meaning military or civilian persons, such as chaplains, who are exclusively engaged in the work of their ministry and attached:
 - (a) to the armed forces of a party to the conflict;
 - (b) to medical units or medical transports of a party to the conflict;
 - (c) to medical units or medical transports described in Article 9(2); or
 - (d) to civil defence organisations of a party to the conflict (Article 8 AP I);
- medical units (fixed or mobile, permanent or temporary), meaning establishments and other units, whether military or civilian, organised for medical purposes, namely the search for, collection, transportation, diagnosis or treatment – including first-aid treatment – of the wounded, sick and shipwrecked, or for the prevention of disease. The term includes, for example, hospitals and other similar units, blood transfusion centres, preventive medicine centres and institutes, medical depots and the medical and pharmaceutical stores of such units (Article 8 AP I);
- medical transports, meaning any means of transportation, whether military or civilian, permanent or temporary, assigned exclusively to medical transportation and under the control of a competent authority of a party to the conflict (Article 8 AP I);
- civilian medical personnel and civilian religious personnel in occupied territory and in areas where fighting is taking place or is likely to take place (Article 18(3) AP I);
- hospital ships and coastal rescue craft carrying civilian wounded, sick and shipwrecked who do not belong to one of the categories mentioned in Article 13 GC II (Articles 18(4) and 22 AP I);
- medical ships and craft other than those referred to in Article 22 AP I and Article 38 GC II (Article 23(1) AP I).

184. Article 12 AP II provides that:

Under the direction of the competent authority concerned, the distinctive emblem of the red cross, red crescent or red lion and sun on a white ground shall be displayed by medical and religious personnel and medical units, and on medical transports. It shall be respected in all circumstances. It shall not be used improperly.

Article 12 AP II was adopted by consensus.¹⁸²

185. Under Article 8(2)(b)(vii) of the 1998 ICC Statute, “making improper use...of the distinctive emblems of the Geneva Conventions, resulting in death or serious personal injury” is a war crime in international armed conflicts.

¹⁸² CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 114.

Other Instruments

186. Article 117 of the 1863 Lieber Code considers it “an act of bad faith, of infamy or fiendishness to deceive the enemy by flags of protection”.

187. Article 13(f) of the 1874 Brussels Declaration provides that “making improper use of . . . the distinctive badges of the [1864] Geneva Convention” is especially prohibited.

188. Article 8(d) of the 1880 Oxford Manual provides that “it is forbidden . . . to make improper use . . . of the protective signs prescribed by the [1864] Geneva Convention”.

189. In the 1991 Hague Statement on Respect for Humanitarian Principles, the Presidents of the six republics of the former Yugoslavia called for respect for the red cross emblem. They stated that “it may be used only to designate sanitary troops or buildings as well as persons and vehicles belonging to this service”.

190. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 38(1) AP I. Paragraph 10 provides that “the parties shall repress any misuse of the [red cross] emblem”.

191. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 38(1) AP I. In paragraph 3, the parties undertook “to use the [red cross] emblem only to identify medical units and personnel and to comply with the other rules of international humanitarian law relating to the use of the Red Cross emblem and shall repress any misuse of the emblem”.

192. Paragraph I(4) of the 1992 Agreement No. 3 on the ICRC Plan of Action between the Parties to the Conflict in Bosnia and Herzegovina considers that “misuse of the red cross emblem” is one of “the main obstacles to humanitarian activities”.

193. Paragraph 110(f) of the 1994 San Remo Manual provides that “warships and auxiliary vessels are prohibited . . . at all times from actively simulating the status of vessels entitled to be identified by the emblem of the red cross or red crescent”.

194. Section 9.7 of the 1999 UN Secretary-General’s Bulletin provides that the distinctive “emblems may not be employed except to indicate or to protect medical units and medical establishments, personnel and material. Any misuse of the Red Cross and Red Crescent emblems is prohibited.”

195. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(vii), “making improper use . . . of the distinctive emblems of the Geneva Conventions, resulting in death or serious personal injury” is a war crime in international armed conflicts.

*II. National Practice**Military Manuals*

196. Under Argentina's Law of War Manual (1969), the improper use of the distinctive emblems is an act violating the principle of good faith. The use is considered as "improper" only in combat operations.¹⁸³ The manual also states that the distinctive emblems "shall not be used... whether in time of peace or in time of war, for other purposes than indicating or protecting medical units and establishments, the personnel and material protected by the [Geneva Conventions]"¹⁸⁴

197. Argentina's Law of War Manual (1989) provides that "it is prohibited... to make improper use of the sign of the Red Cross"¹⁸⁵ It further states that "the distinctive sign of [GC I] and [AP I] can only be used for medical units and for medical and religious personnel whose protection is provided for in the Convention and Protocol, with the consent of the competent authority"¹⁸⁶

198. Australia's Commanders' Guide provides that "the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings:... misusing or abusing the Red Cross symbol... for the purpose of gaining protection to which the user would otherwise not be entitled"¹⁸⁷

199. Australia's Defence Force Manual provides that "it is prohibited to improperly use the distinctive emblem of the Red Cross or Red Crescent"¹⁸⁸ It also states that "the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings:... misusing or abusing the Red Cross symbol... for the purpose of gaining protection to which the user would otherwise not be entitled"¹⁸⁹

200. Belgium's Law of War Manual provides that "the abuse of the emblem of the Red Cross is strictly prohibited. One may not, therefore, display the emblem of the Red Cross on vehicles that transport troops, ammunition [or] foodstuffs to the frontline... One may not use the emblem of the Red Cross to protect observation posts or military depots."¹⁹⁰

201. Belgium's Teaching Manual for Officers stipulates that "it is prohibited to abuse the protective signs provided for by the [1949 Geneva] Conventions and [AP I]. Example: camouflaging arms and ammunition in a vehicle or a building displaying the protective sign of the red cross."¹⁹¹

¹⁹¹ Belgium, *Teaching Manual for Officers* (1994), Part I, Title II, p. 33.

202. Burkina Faso's Disciplinary Regulations states that, under the laws and customs of war, it is prohibited "to use improperly . . . the distinctive insignia recognised by international conventions".¹⁹²

203. Cameroon's Disciplinary Regulations states that, under the laws and customs of war, it is prohibited "to use improperly . . . the distinctive insignia recognised by international conventions".¹⁹³

204. Cameroon's Instructors' Manual states that the improper use of the distinctive signs and signals is an unlawful deception.¹⁹⁴

205. Canada's LOAC Manual provides that "it is prohibited to make improper use of the distinctive emblem of the Red Cross or Red Crescent".¹⁹⁵ Furthermore, "improperly using . . . the distinctive emblems of the Geneva Conventions" constitutes a war crime.¹⁹⁶ The manual also provides that, in a non-international armed conflict, "the distinctive emblem of the Red Cross or Red Crescent . . . must not be used improperly".¹⁹⁷

206. Canada's Code of Conduct provides that "false and improper use of the Red Cross/Red Crescent emblem is prohibited".¹⁹⁸

207. Colombia's Instructors' Manual states that it is a punishable offence "to use improperly insignia, flags and emblems of the Red Cross".¹⁹⁹

208. Congo's Disciplinary Regulations states that, under the laws and customs of war, it is prohibited "to use improperly . . . the distinctive insignia recognised by international conventions".²⁰⁰

209. The Military Manual of the Dominican Republic states that:

It is a serious breach of the laws of war when soldiers use these signs [red cross, red crescent, red lion and sun, and red star of David] to protect or hide military activities. Do not mark your position or yourself with a medical service emblem unless you have been designated to perform only medical duties. Your life may depend on the proper use of the Red Cross symbol.²⁰¹

210. Ecuador's Naval Manual, in a chapter entitled "Misuse of protective signs, signals and symbols", considers it illegal to use transports marked with the red cross or red crescent to carry armed combatants, weapons or ammunition with which to attack or elude enemy forces.²⁰² It specifies that "protective signs and symbols may be used only to identify personnel, objects, and activities entitled to the protected status which they designate. Any other use is forbidden by

international law.”²⁰³ The manual further provides that “the following acts constitute war crimes: . . . misuse, abuse . . . of the Red Cross emblem, and of similar protective emblems and signs”.²⁰⁴

211. France’s Disciplinary Regulations as amended states that it is prohibited “to use improperly . . . the distinctive signs provided for in international conventions”.²⁰⁵

212. France’s LOAC Manual states that “it is prohibited . . . to use improperly the symbol of medical services”.²⁰⁶

213. Germany’s Military Manual provides that “it is prohibited to make improper use . . . of special internationally acknowledged protective emblems, e.g. the red cross or the red crescent”.²⁰⁷ It also states that the distinctive emblem “shall only be used for the intended purposes”.²⁰⁸ Furthermore:

According to § 125 of the Administrative Offences Act . . . the misuse of the emblem of the Red Cross or of the heraldic emblem of Switzerland constitutes an administrative offence which is liable to a fine . . .

The abuse of distinctive emblems and names which, according to the rules of international law, are equal in status to the Red Cross may also be prosecuted.²⁰⁹

214. Indonesia’s Military Manual emphasises that “it is prohibited to use the Red Cross emblem improperly”.²¹⁰

215. Italy’s IHL Manual provides that it is prohibited “to use improperly . . . the distinctive signs of the Red Cross and Red Crescent [or] of other authorised relief societies”.²¹¹ It also states that grave breaches of international conventions and protocols, including “the improper . . . use of international protective signs”, constitute war crimes.²¹²

216. Japan’s Self-Defence Force Notification provides that the commander of a unit should prevent the use of the red cross emblem by persons not entitled to use it.²¹³

217. South Korea’s Military Regulation 187 considers the illegal use of the red cross emblem as a war crime.²¹⁴

218. South Korea’s Military Law Manual prohibits the improper use of the red cross emblem.²¹⁵

219. Lebanon’s Army Regulations prohibits the unlawful use of the distinctive signs provided for in international agreements.²¹⁶

229. Spain's Field Regulations provides that it is "indecent and repulsive" to protect or shield troops or military equipment or materials under a red cross emblem.²³²

230. Spain's LOAC Manual emphasises that it is prohibited "to make improper use of the emblems of the Red Cross or of the protective signs of medical units or personnel".²³³ It states that use of the protection provided for by the law of war is an unlawful method of deception. It gives the example of using an ambulance to transport ammunition.²³⁴ The manual further states that the distinctive sign of the red cross or equivalent and the distinctive signs and signals of the medical service may be used only for their intended purpose.²³⁵ It also provides that it is an unlawful deception "to use improperly, i.e., to indicate persons and objects not protected, the distinctive signs and signals of the medical service".²³⁶

231. Sweden's IHL Manual considers that the "prohibition of improper use of recognized emblems", as contained in Article 38 AP I, is part of customary international law.²³⁷ The manual also states that:

In land combat it is not unusual for one of the parties to attempt to win a tactical advantage by concealing the character of his own forces prior to attack, in order to mislead or surprise the adversary. The distinctive emblem of the Red Cross or similar organisation . . . may not, however, be used for such purposes. In IV Hague Convention it is forbidden to use these emblems improperly. The expression improperly is not defined but follows indirectly from the Geneva Convention articles (GC I Art. 44, GC II Art. 41) relative to permitted use.²³⁸

232. Switzerland's Basic Military Manual states that "the distinctive sign (Red Cross, Red Crescent) shall serve, under the control of the military authority, to indicate medical establishments, units, personnel, vehicles and material. They shall not be used for other purposes."²³⁹ The manual also states that the "abuse of the emblem or protection of the Red Cross" is a war crime.²⁴⁰

233. The UK Military Manual provides that the "use of the emblem of a red cross (red crescent, red lion and sun) on a white ground is authorised in order to indicate military hospitals and other military medical establishments as well as, subject to the authorisation of the Government, civilian hospitals and hospital trains". The emblem must not be used for other purposes.²⁴¹ It further states that:

Improper use of the Red Cross emblem is forbidden. The flag with the distinctive emblem must not be used to cover vehicles used for the transport of ammunition

and non-medical stores. A hospital train must not be used to facilitate the escape of combatants. It is forbidden to fire from a tent, building or vehicle flying the flag with the distinctive emblem. A hospital or other building protected by the flying of the flag with the distinctive emblem . . . must not be used as an observation post or military office or store.²⁴²

The manual also considers that “in addition to the ‘grave breaches’ of the 1949 [Geneva] Conventions, . . . the following are examples of punishable violations of the laws of war, or war crimes: . . . misuse of the Red Cross or equivalent emblems”.²⁴³

234. The UK LOAC Manual provides that “it is forbidden . . . to make improper use in combat of . . . the Red Cross or Red Crescent emblems”.²⁴⁴

235. The US Field Manual incorporates the content of Article 44 GC I.²⁴⁵ It provides that “it is especially forbidden . . . to make improper use of . . . the distinctive badges of the [1864] Geneva Convention”.²⁴⁶ It adds that:

The use of the emblem of the Red Cross and other equivalent insignia must be limited to the indication or protection of medical units and establishments, the personnel and material protected by [GC I] and other similar conventions. The following are examples of the improper use of the emblem: using a hospital or other building accorded such protection as an observation post or military office or depot; firing from a building or tent displaying the emblem of the Red Cross; using a hospital train or airplane to facilitate the escape of combatants; displaying the emblem on vehicles containing ammunition or other nonmedical stores; and in general using it for cloaking acts of hostility.²⁴⁷

The manual also states that “in addition to ‘grave breaches’ of the Geneva Conventions of 1949, the following acts are representative of violations of the law of war (‘war crimes’): misuse of the Red Cross emblem”.²⁴⁸

236. The US Air Force Pamphlet incorporates the content of Article 23(f) of the 1907 HR.²⁴⁹ It also provides that “it is forbidden to make use of the distinctive emblem of the red cross (red crescent, red lion and sun) . . . other than as provided for in international agreements establishing these emblems”.²⁵⁰ The Pamphlet adds that:

The following are examples of improper use of the medical emblems: (i) using a hospital or other building marked with a red cross or equivalent insignia as an observation post, military office or depot; (ii) using distinctive signs, emblems or signals for cloaking acts of hostilities, such as firing from a building or other protected installation or means of medical transport; (iii) using protected means of medical transport, such as hospitals, trains or airplanes, to facilitate the escape of able-bodied combatants; (iv) displaying protective emblems on vehicles, trains,

ships, airplanes, or other modes of transportation or other buildings containing ammunition or other military non-medical supplies.²⁵¹

The Pamphlet further states that “in addition to grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: . . . wilful misuse of the Red Cross or a similar protective emblem”.²⁵²

237. The US Soldier’s Manual states that:

It is a serious breach of the laws of war when soldiers use these signs [red cross, red crescent and red shield of David] to protect or hide military activities. Do not mark your position or yourself with a medical service emblem unless you have been designated to perform only medical duties. Your life may depend on the proper use of the Red Cross symbol.²⁵³

238. The US Naval Handbook, in a chapter entitled “Misuse of protective signs, signals and symbols”, states that it is illegal to use transports marked with the red cross or red crescent to carry armed combatants, weapons or ammunition with which to attack or elude enemy forces.²⁵⁴ It further states that “protective signs and symbols may be used only to identify personnel, objects, and activities entitled to the protected status which they designate. Any other use is forbidden by international law.”²⁵⁵ The manual also states that “the following acts are representative war crimes: . . . misuse, abuse . . . [of] the Red Cross device, and similar protective emblems”.²⁵⁶

239. The YPA Military Manual of the SFRY (FRY) provides that “it is forbidden to use, during combat, in order to mislead the enemy, . . . internationally recognised signs”, including the red cross emblem.²⁵⁷ It adds that “its misuse is a criminal act.”²⁵⁸

National Legislation

240. Albania’s Emblem Law punishes “the use for any purpose of the Red Cross emblem and name by physical or legal persons in violation of this Law”. This also applies to the red crescent emblem and name.²⁵⁹

241. Algeria’s Code of Military Justice punishes:

any individual, whether military or not, who, in time of war, in an area of operations . . . in violation of the laws and customs of war, improperly uses the distinctive signs and emblems defined by international conventions for the respect of persons, objects and places protected by these conventions.²⁶⁰

²⁶⁰ Algeria, *Code of Military Justice* (1971), Article 299.

242. The Red Cross Society Act of Antigua and Barbuda states that:

It shall not be lawful for any person other than those authorised under the provisions of the [1949 Geneva] Conventions to use for any purpose whatever the emblem of the red cross on white ground, or any colourable imitation thereof, or the words 'Red Cross' or the arms of the Swiss Confederation.²⁶¹

243. Argentina's Emblem Law punishes "(1) Any person who, without proper authorisation, wears the armband of the Red Cross. (2) Any person who improperly uses the name of the Argentine Red Cross Society or uses its emblems or insignia for any unlawful purpose."²⁶²

244. Argentina's Draft Code of Military Justice punishes any soldier who "uses improperly . . . the protective or distinctive signs established and recognised in international treaties to which the Argentine Republic is a party, especially the distinctive signs of the red cross and red crescent".²⁶³

245. Under Armenia's Penal Code, "the use during military actions of the emblems and distinctive signs of the red cross or red crescent . . . in breach of international treaties and international law" constitutes a crime against the peace and security of mankind.²⁶⁴

246. Armenia's Emblem Law states that:

On the territory of the Republic of Armenia, the following are prohibited for physical and legal persons:

- the use of the emblem, as a protective or indicative device, as well as a distinctive signal which would be contrary to the present law, to the [1949 Geneva] conventions, to [AP I and AP II] . . .
- the use of the names [Red Cross/Red Crescent] in the social name of legal persons, trademarks, as well as for any purpose in contradiction with the principles of the international movement of the Red Cross and Red Crescent;
- the representation of any sign, including a white cross on a red ground, that can create confusion, by assimilation with the protective emblem.²⁶⁵

247. Australia's War Crimes Act considers "any war crime within the meaning of the instrument of appointment of the Board of Inquiry [set up to investigate war crimes committed by enemy subjects]" as a war crime, including breach of rules relating to the red cross.²⁶⁶

248. Australia's Geneva Conventions Act as amended provides that "subject to this section, a person shall not, without the consent in writing of the Minister or of a person authorized in writing by the Minister to give consents under this section, use for any purpose whatsoever" the emblems of the red cross, red

crescent, red lion and sun on a white ground, the heraldic emblem of Switzerland, the designations "Red Cross" or "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as a design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems or designations.²⁶⁷

249. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "improper use of the distinctive emblems of the Geneva Conventions" in international armed conflicts.²⁶⁸

250. Austria's Red Cross Protection Law provides that:

It is prohibited to use:

- a) the emblem of the red cross on a white ground and the words "Red Cross" or "Geneva Cross",
- b) the emblem of the red crescent on a white ground, the emblem of the red lion and sun on a white ground, the words "Red Crescent" or "Red Lion and Sun" or
- c) emblems and designations which are an imitation of the emblem of the red cross on a white ground or of the words "Red Cross" or "Geneva Cross"

in violation of the provisions of the [1949] Geneva Conventions.²⁶⁹

251. Azerbaijan's Criminal Code provides that "the misuse of the distinctive signs of the red cross or the red crescent in the territory of military operations by persons not entitled to use them" constitutes a war crime in international and non-international armed conflicts.²⁷⁰

252. The Red Cross Society Act of the Bahamas provides that "no person other than the Society or a person so authorized under the [1949 Geneva] Conventions shall, without the authority of the Council [of the Society], use for any purpose whatever" the emblems of the red cross, red crescent and red lion and sun on a white ground, as well as the designations "Red Cross" or "Geneva Cross", "Red Crescent" and "Red Lion and Sun".²⁷¹

253. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.²⁷²

254. Bangladesh's Draft Emblems Protection Act provides that "subject to the provisions of this section, it shall not be lawful for any person, without the consent in writing of the Minister for Defence or a person authorized in writing by the Minister to give consents under this section, to use or display for any purpose whatsoever" the emblems of the red cross, red crescent and red lion and

sun on a white ground, the heraldic emblem of Switzerland, the designations “Red Cross” or “Geneva Cross”, “Red Crescent” and “Red Lion and Sun”, as well as a design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems or designations.²⁷³

255. The Geneva Conventions Act of Barbados provides that “no person shall, without the authority of the Defence Board, use” the emblems of the red cross, red crescent and red lion and sun on a white ground, as well as the designations “Red Cross” or “Geneva Cross”, “Red Crescent” and “Red Lion and Sun”.²⁷⁴

256. The Criminal Code of Belarus provides that it is a war crime to “use intentionally, during hostilities, in violation of international treaties, the emblems of the Red Cross [or] Red Crescent”.²⁷⁵

257. The Law on the Emblem of Belarus provides that:

In the territory of the Republic of Belarus legal and physical persons are prohibited to use:

- the emblem [red cross/red crescent] as a protective or distinctive sign as well as distinctive signals in contradiction to the present Law, the [1949 Geneva] Conventions, [AP I and AP II] and Regulations on the Use of the Emblem;
- the designations in the names of legal persons, in trademarks (service marks) as well as for purposes incompatible with the principles of the International Red Cross and Red Crescent Movement;
- representations of any signs, including that of the white cross on a red ground, that can be mistakenly identified with the emblem used as a protective sign.²⁷⁶

258. Belgium’s Law on the Protection of the Emblem punishes “without prejudice to other penal provisions, anyone who, in violation of international conventions that regulate their use, uses the designations “Red Cross”, “Geneva Cross”, “Red Crescent”, or “Red Lion and Sun”, or their corresponding signs and emblems”.²⁷⁷

259. Belize’s Red Cross Society Act states that:

It shall not be lawful for any persons other than those authorised under the provisions of the [1949 Geneva] Conventions to use for any purpose whatever the emblem of the Red Cross on white ground, or any colourable imitation thereof, or the words “Red Cross” or the arms of the Swiss Confederation.²⁷⁸

260. Bolivia’s Emblem Law punishes any “person who, wilfully and without being entitled to do so, has made use of the Emblem of the Red Cross, of the Red Crescent, of a distinctive signal or of any other sign or signal which is an imitation thereof or which can create confusion”.²⁷⁹

²⁷⁹ Bolivia, *Emblem Law* (2002), Article 11.

261. Bosnia and Herzegovina's Emblem Decree punishes the wearing or use of the red cross emblem in wartime without being entitled to do so.²⁸⁰

262. Under the Criminal Code of the Federation of Bosnia and Herzegovina, "whoever misuses or carries without authorisation . . . the emblem or flag of the Red Cross, or symbols corresponding to them" commits a war crime.²⁸¹ The Criminal Code of the Republika Srpska contains the same provision.²⁸²

263. Botswana's Red Cross Society Act provides that "it shall not be lawful for any person other than the Society or such persons as may be authorized thereto under the [1949] Geneva Conventions to use for the purpose of his trade or business, or for any other purpose whatsoever" the emblems of the red cross, red crescent and red lion and sun on a white ground, the heraldic emblem of Switzerland, any design being a colourable imitation of those emblems, as well as the words "Red Cross", "Geneva Cross" or translation thereof.²⁸³

264. Brunei's Red Crescent Society Act provides that:

It shall not be lawful for any person, other than the [Red Crescent Society] and its staff, officials and members, to use for the purpose of his trade of business, or for any other purpose whatsoever, in Brunei without the authority of the Minister, the emblem of a red crescent on a white background . . . and the words "Bulan Sabit Merah" or in English "Red Crescent".²⁸⁴

265. Bulgaria's Penal Code as amended provides that "a person who, without having such right, bears the emblem of the Red Cross or of the Red Crescent, or who abuses a flag or a sign of the Red Cross or of the Red Crescent or the colour determined for the transport vehicles for medical evacuation" commits a war crime.²⁸⁵

266. Bulgaria's Red Cross Society Law provides that "in case of war, the use of the emblem shall be restricted in accordance with the provisions of the Geneva Conventions of 12 August 1949, and the Additional Protocols of 8 June 1977 . . . The misuse of the emblem set up by the Geneva Conventions . . . and the name of the Red Cross shall be punished."²⁸⁶

267. Burkina Faso's Code of Military Justice punishes the improper use, in violation of the laws and customs of war, of the distinctive insignia and emblems for the protection of persons, objects and locations as defined in international conventions, in time of war and in an area of military operations.²⁸⁷

268. Burundi's Red Cross Decree punishes "any person who, without being entitled to do so . . . uses the emblem or the denomination of the 'Red Cross' or 'Geneva Cross', or equivalent emblems or denominations that may cause

confusion, . . . for any . . . purpose".²⁸⁸ It also punishes "any person who, in time of war, uses, without being entitled to do so, the armlet or the flag of the Red Cross".²⁸⁹

269. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "using improperly . . . the distinctive signs provided for by the [1949] Geneva Conventions" constitutes a war crime in international armed conflicts.²⁹⁰

270. Cameroon's Emblem Law provides that "any use of the emblem or name 'Red Cross' by a physical or legal person other than those having the right to do so by virtue of the Geneva Conventions of 12 August 1949, of their Additional Protocols I and II of 8 June 1977 and of the present law is strictly forbidden".²⁹¹

271. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.²⁹²

272. Chad's Code of Military Justice punishes "any individual who, in the area of operations of a military force, publicly employs, without being entitled to do so, the armlet, flag or emblem of the red cross, or equivalent armlets, flags or emblems".²⁹³

273. Chile's Code of Military Justice provides that a person "who, in time of war and in the area of operations of a land military force, uses without being entitled to do so, the insignia, flags or emblems of the Red Cross" commits a punishable offence against international law.²⁹⁴

274. Chile's Emblem Law as amended states that:

Article 1. The emblem of the Red Cross on a white ground and the expressions "Red Cross" or "Geneva Cross" may be used, in peace time or in time of war, only as provided for by the Geneva Conventions of 12 August 1949 and their Additional Protocols of 1977.

...

Article 4. The use of any sign or denomination which constitutes an imitation of the emblem of the red cross on a white ground or of the names Red Cross or Geneva Cross, as well as the use of similar emblems or words which can create confusion, for commercial or any other purpose, is prohibited.²⁹⁵

275. China's Red Cross Society Law states that "the sign shall be used in conformity with the relevant provisions of the [1949] Geneva Conventions and their Additional Protocols . . . Abuse of the sign of the Red Cross is prohibited."²⁹⁶

²⁹⁶ China, *Red Cross Society Law* (1993), Articles 16 and 19.

276. China's Emblem Regulations provide that:

Use of the red cross emblem by any organisations or individuals other than those mentioned in the present Regulations [medical establishments of the armed forces, the Chinese Red Cross Society, as well as foreign and domestic voluntary relief organisations and international Red Cross institutions with the approval of the State Council or the Central Military Commission] shall be forbidden.²⁹⁷

277. Colombia's Emblem Decree provides that "all national authorities shall ensure, in all circumstances, strict respect for the norms concerning the proper use of the emblem of the Red Cross and the denomination 'Red Cross' and the distinctive signals".²⁹⁸

278. The DRC Red Cross Decree punishes "any person who, without being entitled to do so . . . uses the emblem or the denomination of the 'Red Cross' or 'Geneva Cross', or equivalent emblems or denominations that may cause confusion, . . . for any . . . purpose".²⁹⁹ It also punishes "any person who, in time of war, uses, without being entitled to do so, the armband or the flag of the Red Cross".³⁰⁰

279. The DRC Code of Military Justice as amended punishes "any individual, whether military or not, who, in time of war . . . improperly uses the distinctive signs and emblems defined by international conventions to ensure respect for the persons, objects and places protected under these conventions".³⁰¹

280. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.³⁰²

281. The Geneva Conventions and Additional Protocols Act of the Cook Islands provides that "no person may, without the authority of the Minister or a person authorised by the Minister in writing to give consent under this section, use for any purpose" the emblems of the red cross, red crescent, red lion and sun on a white ground, the heraldic emblem of Switzerland, the distinctive signals of identification for medical units and transports, the designations "Red Cross" or "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as any emblem, designation, or signal, so nearly resembling any of those emblems, designations, or signals as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems, designations, or signals.³⁰³

282. Costa Rica's Emblem Law punishes "any person who uses without authorisation the emblem of the Red Cross, the distinctive signals, the denomination Red Cross or imitation which can create confusion".³⁰⁴

283. Côte d'Ivoire's Penal Code as amended punishes "anyone who, in an area of military operations, uses, in violation of the laws and customs of war, the distinctive insignia and emblems, defined by international conventions, to ensure respect for protected persons, objects and places".³⁰⁵

284. Croatia's Emblem Law punishes any legal person "using the red cross emblem and name, while according to the [1949 Geneva Conventions] and on the basis of this Law, [it] does not have right to do so".³⁰⁶

285. Under Croatia's Criminal Code, "whoever misuses or carries without authorisation the flag or emblem of... the International Red Cross" commits a war crime.³⁰⁷

286. Cuba's Emblem Decree provides that "unlawful use of the insignia of the Red Cross... shall be judged and condemned in accordance with military penal law".³⁰⁸

287. Cuba's Military Criminal Code punishes "anyone who, in areas of military operations, uses unlawfully the Red Cross insignia, flags or symbols".³⁰⁹

288. Cyprus's Geneva Conventions Act provides that "the use for any purpose of the distinctive emblem which is used in the Republic under the provisions of the Geneva Conventions, without the Council of Ministers' permission, is prohibited".³¹⁰

289. Cyprus's API Act provides that "the use for any purpose of the distinctive emblem or signal which is used in the Republic, under the provisions of this Protocol, without the Council of Ministers' permission, is prohibited".³¹¹

290. The Czech Republic's Criminal Code as amended punishes any person who "misuses the insignia of the Red Cross, or other signs or colours recognised in international law as designating medical institutions or vehicles used for medical assistance or evacuation".³¹²

291. The Czech Republic's Emblem and Red Cross Society Act punishes "anyone who misuses the emblem or the name [red cross on a white ground and the words 'Red Cross' or 'Geneva Cross']... or anyone who assists in such misuse, ... in case this act was perpetrated at times to which the [1949] Geneva Conventions apply".³¹³

292. Denmark's Military Criminal Code as amended punishes "any person who, in time of war, abuses... any badge or designation that is reserved for personnel, institutions and material designed to give assistance to wounded or sick persons".³¹⁴

³⁰⁵ Côte d'Ivoire, *Penal Code as amended* (1981), Article 473.

³¹³ Czech Republic, *Emblem and Red Cross Society Act* (1992), § 2.

³¹⁴ Denmark, *Military Criminal Code as amended* (1978), Article 25.

293. Denmark's Penal Code punishes "anyone who uses unlawfully, and wilfully or negligently . . . the distinctive signs and designations reserved for persons, institutions and material assigned to give assistance to the wounded and sick in wartime".³¹⁵

294. Ecuador's Emblem Regulation provides that "the name and emblem of the Red Cross shall be efficiently protected against any abuse".³¹⁶

295. Egypt's Emblem Law provides that:

It is prohibited for persons other than the medical section of the Army or establishments or units attached thereto, or other societies so authorised, to use, in time of peace or in time of war, under any form and for any purpose, the Red Crescent and Red Cross emblems as well as their names.³¹⁷

296. El Salvador's Emblem Law provides that:

The emblems of the red cross and red crescent, as well as the names "Red Cross", "Geneva Cross" and "Red Crescent", shall only be used for the purposes defined in the Geneva Conventions of 1949 and their Additional Protocols of 1977, i.e., for personnel, transportation units, materials and establishments belonging to the medical services of the armed forces, to the chaplains assigned to the [armed forces], . . . to the National Red Cross Society, . . . to the International Committee of the Red Cross and to the International Federation of Red Cross and Red Crescent Societies.³¹⁸

It also punishes "anyone who, without the corresponding authorisation, makes use of the emblem of the red cross, red crescent, or of the names "Red Cross, "Geneva Cross" or "Red Crescent", or of any other sign or word which is an imitation thereof or which can create confusion with those emblems and names".³¹⁹

297. Under Estonia's Penal Code, "exploitative abuse of the emblem or name of the red cross, red crescent or red lion and sun" is a war crime.³²⁰

298. Under Ethiopia's Penal Code, it is a punishable offence to wear without authorisation the emblems or insignia of the red cross, red crescent or red lion and sun.³²¹

299. Finland's Emblem Act provides that:

The distinctive emblem of the Red Cross, the terms "Red Cross" or "Geneva Cross" . . . shall not be used in cases other than those provided for in this Act . . . Signs, pictures or terms which resemble the emblems, signs or terms referred to in § 1 to such a degree that confusion may arise shall not be used.³²²

The Act punishes "whosoever makes use of the emblems, signs, pictures or terms referred to in §§ 1 and 2 in . . . unauthorised activity".³²³

³¹⁵ Denmark, *Penal Code* (1978), Article 132.

³²² Finland, *Emblem Act* (1979), §§ 1 and 2.

³²³ Finland, *Emblem Act* (1979), § 6.

300. Finland's Revised Penal Code provides that "a person who in an act of war... abuses an international symbol designated for the protection of the wounded or the sick... shall be sentenced for a war crime".³²⁴

301. France's Emblem Law provides that:

The use, either by private individuals or by societies or associations other than [medical services of the armed forces and societies officially authorised to give assistance], of the said emblems or denominations [red cross, "Red Cross" or "Geneva Cross"], as well as of any signs or denominations constituting an imitation thereof, regardless of the purpose... of the use, is prohibited at all times.³²⁵

302. France's Code of Military Justice punishes:

any individual, military or not, who, in time of war, in the area of operations of a force or unit, in violation of the laws and customs of war, uses improperly the distinctive signs and emblems defined by international conventions to ensure the respect for persons, objects and places protected by those conventions.³²⁶

303. Georgia's Criminal Code (1960) punishes the "illegal use of the Red Cross and Red Crescent distinctive signs as well as their titles".³²⁷ It also punishes the "use of Red Cross and Red Crescent signs in the zones of military operation by persons having no such right, as well as misuse in wartime of flags or signs of the Red Cross and Red Crescent or of the distinctive colours of sanitary evacuation transport".³²⁸

304. Under Georgia's Criminal Code (1999), any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, such as "making improper use... of the distinctive emblems of the Geneva Conventions, resulting in death or serious personal injury" in international armed conflicts, is a crime.³²⁹

305. Germany's Law on Administrative Offences provides that:

- (1) Whoever uses the distinctive emblem of the red cross on a white ground or the denomination "Red Cross" or "Geneva Cross" without authorisation, acts irregularly.
- (2) Whoever uses the heraldic emblem of the Swiss Confederation without authorisation, also acts irregularly.
- (3) Emblems, denominations and heraldic signs which are as similar as to be mistaken with those mentioned in paragraphs (1) and (2) stand on an equal footing.
- (4) Paragraphs (1) and (3) apply by analogy to such emblems or denominations which, according to international law, stand on the same footing as the emblem of the red cross on a white ground or the denomination "Red Cross".³³⁰

³³⁰ Germany, *Law on Administrative Offences* (1968), § 125.

306. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or non-international armed conflict, "makes improper use of the distinctive emblems of the Geneva Conventions . . . thereby causing a person's death or serious injury".³³¹

307. Ghana's Red Cross Emblem Decree punishes violations of its provisions, including: "Except as otherwise provided in this Decree, no person shall after the expiry of six months from the commencement of this Decree, use any of the Red Cross Emblems . . . [red cross, red crescent and red lion and sun] for any purpose whatsoever."³³²

308. Greece's Emblem Law punishes any "soldier who makes an illegal use of the sign of the red cross on a white ground or of the designation 'Red Cross' in time of war".³³³ It also punishes any civilian who commits the same acts.³³⁴

309. Greece's Military Penal Code punishes any military person who, in time of war and in the operation zones, publicly wears a badge or armband or carries the flag with the red cross emblem without being entitled to do so.³³⁵

310. Grenada's Red Cross Society Law as amended provides that:

It shall not be lawful for any person other than those authorised under section 5 of this Law [Grenada Red Cross Society] or under the provisions of the [1949] Geneva Conventions to use for any purpose whatever the emblem of the red cross on a white ground mentioned in section 5 of this Law or the emblems of the red crescent or red lion on a white ground or any colourable imitations thereof or the words "Red Cross".³³⁶

311. Guatemala's Emblem Law provides that "the emblem of the Red Cross, as well as the denominations 'Red Cross' and 'Geneva Cross' may only be used for the purposes provided for in the Geneva Conventions of 1949 and their additional protocols of [1977]".³³⁷ It punishes "any person who, without authorisation, makes use of the emblem of the red cross or the names previously mentioned in this law, or of any other imitation that can create confusion".³³⁸

312. Guinea's Emblem Law provides that "nobody shall make use of the emblem and name of the Red Cross without having been authorised to do so by the provisions of the present law and the [1949] Geneva Conventions".³³⁹ It punishes "anyone who wears or uses in time of war the emblem of the Red Cross as a protective sign without belonging to the category of persons mentioned in article 8 paragraph 1 of the present law [personnel of public health organisations]".³⁴⁰

³⁴⁰ Guinea, *Emblem Law* (1995), Article 11.

313. Guinea's Criminal Code punishes "anyone [who], in an area of military operations and in violation of the laws and customs of war, uses distinctive insignia and emblems defined in international conventions to ensure respect for protected persons, objects and places".³⁴¹

314. Guyana's Red Cross Society Act punishes:

any person not being a member of the [National Red Cross] Society who – . . . wears or displays the emblem of the red cross on an article of clothing, badge, paper, or in any other way whatsoever, or any insignia coloured in imitation thereof in such a way as to be likely to deceive those to whom it is visible, for the purpose of inducing the belief that he is a member of, or an agent for the Society, or that he has been recognised by the Society as possessing any qualification for administering first aid or other treatment for the relief of sickness.³⁴²

315. The Emblem Law of Honduras provides that:

The emblem of the International Red Cross consisting of a red cross on a white ground, as well as the words "Red Cross" and "Geneva Cross", shall only be used to protect and identify the personnel and materials protected by the Geneva Conventions, number I and II of 12 August 1949, such as the establishments, units, personnel, material, vehicles, ships, hospitals and ambulances of the Medical and Relief Service of the Armed Forces of Honduras, of the Honduras Red Cross and of other relief societies duly recognised and officially authorised to provide assistance to the Medical Service of the Armed Forces, as well as the chaplains and doctors who offer their professional services to the [Armed Forces]. The emblem and the name of the Red Cross shall not be used otherwise, with the exception of the cases mentioned in Articles 2 and 5 of the present Law [*inter alia*, civilian hospitals, their personnel, medical zones and localities, transports of wounded and sick civilians].³⁴³

316. Under Hungary's Criminal Code as amended, "whoever in war-time misuses the sign of the red cross (red crescent, red lion and sun) or other signs serving a similar purpose and recognised internationally" is guilty, upon conviction, of a war crime.³⁴⁴

317. Hungary's Red Cross Society Act as amended provides that:

- (3) The sign and emblem [of the red cross on a white ground] respectively together with the designation . . . may only be used, in times of peace or war, beside the Red Cross, by health formations and institutions specified in international treaties and may only be used for the protection [or] designation of the staff and equipment of the previously mentioned . . .
- (5) Use of the emblem apart from the ways specified in paragraphs (3) and (4) constitutes . . . a summary offence.³⁴⁵

318. India's Geneva Conventions Act provides that "no person shall, without the approval of the Central Government, use for any purpose whatsoever" the emblems of the red cross, red crescent and red lion and sun on a white ground, the heraldic emblem of Switzerland, the designations "Red Cross", "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as any design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems or designations.³⁴⁶

319. Indonesia's Penal Code punishes anyone who uses, without being entitled to do so, a mark of distinction which is assigned to a certain society or to the personnel of the health service of armed forces.³⁴⁷

320. Ireland's Red Cross Act as amended provides that "it shall not be lawful for any person to use for . . . any . . . purpose whatsoever, without the consent of the Minister of Defence," the emblems of the red cross, red crescent and red lion and sun on a white ground, or any emblems closely resembling such heraldic emblems, as well as the words "Cros Dearg", "Cros na Geinéibhe", "Red Cross" or "Geneva Cross" or any words closely resembling these words.³⁴⁸

321. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Articles 44, 53 and 54 GC I and 44 and 45 GC II, and of AP I, including violations of Articles 18(8) and 38(1) AP I, as well as any "contravention" of AP II, including violations of Article 12 AP II, are punishable offences.³⁴⁹

322. Israel's Red Shield of David Law provides that:

- (a) No person shall make any use of the emblem of the [Red Shield of David in Israel] Society or an emblem so similar to it as to be misleading or an emblem containing the words "*Magen David Adom*", whether for the purpose of a business or trade or for any other purpose, except by permission of the Society.
- (b) No person shall make any use of any emblem recognised by the [1949] Geneva Conventions as a distinctive emblem of the medical services of the armed forces, unless he is authorised by these Conventions or by permission of the Minister of Health to use it.
- (c) A person contravening the provisions of this section is liable to imprisonment.³⁵⁰

323. Italy's Law of War Decree as amended emphasises that it is prohibited "to use improperly . . . the distinctive signs of the Red Cross, of the other authorised relief societies, of hospital ships and of medical aircraft".³⁵¹

324. Italy's Law concerning the Unlawful Use of the Emblem punishes "anyone who, without authorisation of the Government, adopts, as emblem, the red

cross on a white ground, or makes use of the designation 'Red Cross' or 'Geneva Cross'" ³⁵²

325. Italy's Wartime Military Penal Code punishes anyone who "uses improperly . . . the distinctive sign of the Red Cross" ³⁵³

326. Japan's Emblem Law provides that the emblem of the red cross (and equivalent) should not be used without permission. ³⁵⁴ Anyone who violates this provision may be sentenced to imprisonment. ³⁵⁵

327. Jordan's Red Crescent Society Law punishes "anyone who uses the sign or emblem [red crescent/red cross] without authorisation" ³⁵⁶

328. Jordan's Draft Emblem Law punishes:

without prejudice to the use of the emblem by persons and institutions under this Law in conformity with its provisions, any person who commits any of the following acts

...

- a. the intentional use of the emblem of the red crescent or red cross;
- b. the intentional use of the words "red crescent" or "red cross";
- c. the use of any sign, word or design so resembling the emblem of the red crescent or red cross or their names as to create confusion;
- d. the imitation of one or the other emblems and names protected. ³⁵⁷

329. Kazakhstan's Penal Code punishes the "illegal use of the emblem and identifying symbols of the Red Cross/Red Crescent as well as illegal use of the name of the Red Cross/Red Crescent" ³⁵⁸

330. South Korea's Red Cross Society Act as amended provides that "the use by individuals, societies, firms or companies other than the Red Cross Society, medical institutions of the armed forces or those entitled by the Red Cross Society, of the Red Cross or equivalent emblems . . . shall be prohibited at all times" ³⁵⁹

331. Kyrgyzstan's Emblem Law provides that:

Anyone who, intentionally and without being entitled to do so, makes use of the emblem of the red crescent or red cross, of a distinctive signal, or of any other sign or signal constituting an imitation thereof or being capable of causing confusion shall be held responsible in conformity with the legislation of the Kyrgyz Republic. ³⁶⁰

332. Latvia's Draft Red Cross Society Law provides that "during armed conflicts, Red Cross symbols should be used in accordance with international agreements . . . In case of breach of the order about the use of Red Cross symbols,

regulated by this Law, the offenders should be called to liability according to the legislation".³⁶¹

333. Lebanon's Code of Military Justice punishes "any person who, [in time of war] publicly and without being entitled to do so, uses in combat areas the emblem, flag or symbol of the red cross, or equivalent emblems, flags or symbols".³⁶²

334. Lesotho's Red Cross Society Act provides that:

It is unlawful for any person other than a person authorised under section seven [the personnel of the Red Cross Society] or under the provisions of the [1949 Geneva Conventions] to use for any purpose whatsoever the emblems... [red cross, red crescent, red lion and sun] or the words "Red Cross".³⁶³

335. Liechtenstein's Emblem Law states that:

The sign of the red cross on a white ground and the words "Red Cross" or "Geneva Cross" may, without prejudice to the cases mentioned in the following articles, only be used, in times of peace and war, in order to mark the personnel and material protected by [GC I and GC II], namely, the personnel, units, transports, installations and medical material of the medical service of the armed forces, including the voluntary medical services of the Red Cross of Liechtenstein, as well as the chaplains assigned to the armed forces.

...

Whoever uses, intentionally and in violation of the rules of this law, ... the sign of the red cross on a white ground or the words "Red Cross" or "Geneva Cross" or any other sign or word which could create confusion ... will be punished.³⁶⁴

336. Under Lithuania's Criminal Code as amended, "unlawful use of the Red Cross, the Red Crescent, sign ... in time of war or during an international armed conflict" is a war crime.³⁶⁵

337. Luxembourg's Emblem Law punishes "those who, without valid authorisation, carry the emblem of the Red Cross".³⁶⁶

338. Malawi's Red Cross Society Act states that "no person, other than a person so authorized under the [1949 Geneva Conventions], shall use for any purpose whatsoever" the emblems of the red cross, red crescent and red lion and sun on a white ground, and the designations "Red Cross", "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as any design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems or designations.³⁶⁷

³⁶⁷ Malawi, *Red Cross Society Act* (1968), Section 8(1).

339. Malaysia's Geneva Conventions Act provides that "it shall not be lawful for any person to use for the purpose of his trade or business, or for any other purpose whatsoever, in the Federation without the authority of the Minister", the emblem of the red cross on a white ground and the words "Red Cross" or "Geneva Cross", the heraldic emblem of Switzerland, as well as any design being a colourable imitation of those emblems or any words so nearly resembling the words "Red Cross" or "Geneva Cross" as to be capable of being understood as referring to the said emblem.³⁶⁸

340. Mali's Code of Military Justice punishes:

any individual . . . who, in time of war, in the area of operations of a military force and in violation of the laws and customs of war, improperly uses the distinctive signs and emblems defined in international conventions to ensure respect for persons, objects and places protected by these conventions.³⁶⁹

341. Under Mali's Penal Code, "using . . . the distinctive signs provided for by the Geneva Conventions and, thereby, causing loss of human lives or serious injuries" is a war crime in international armed conflicts.³⁷⁰

342. Malta's Red Cross Society Act provides that:

- (a) It shall not be lawful for any person other than the [Red Cross] Society or any other person authorised under the provisions of the [1949 Geneva Conventions, AP I and AP II] to use for any purpose whatever the emblem of the Red Cross, the Red Crescent or any distinctive emblem as is referred to in Article 38 of [GC I], any colourable imitation thereof, or words "Red Cross" or "Red Crescent" in any language.
- (b) Any person who contravenes the provisions of paragraph (a) of this subsection shall be guilty of [a punishable] offence.³⁷¹

343. The Geneva Conventions Act of Mauritius provides that, "subject to this section, no person shall, without the authority of the Minister, use" the emblems of the red cross, red crescent and red lion and sun on a white ground, the heraldic emblem of Switzerland, the designations "Red Cross", "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as any design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems or designations.³⁷²

344. Moldova's Penal Code (1961) punishes:

the unlawful wearing and abuse of the signs of the red cross and red crescent in areas of military operations by persons not entitled to wear them, as well as the

abuse in time of war of the flags or signs of the red cross and red crescent and the emblem of the ambulances and vehicles of sanitary evacuation.³⁷³

345. Moldova's Penal Code (2002) punishes "the use by unauthorised persons of the red cross emblem and of the name 'Red Cross', as well as the insignia which may be confused with the red cross emblem, if such an act causes grave consequences".³⁷⁴

346. Moldova's Emblem Law punishes "the use of the emblem of the red cross, of the words 'Red Cross', by individuals and legal persons not entitled to such use, as well as the use of signs which can be identified with the emblem of the red cross".³⁷⁵

347. Monaco's Emblem Law prohibits the use of the red cross emblem by a person, society or association other than those authorised under the Geneva Conventions. Any breach of this provision shall be punished.³⁷⁶

348. Morocco's Emblem Law prohibits:

- a) the use, either by private individuals or by societies or associations other than [medical services of the armed forces and authorised voluntary relief societies], of the emblem of the Red Crescent and of the words "Red Crescent";
- b) the use of any sign and designation constituting an imitation thereof.³⁷⁷

349. Morocco's Code of Military Justice punishes "any individual who, in time of war, in the area of operations of a military field unit, publicly employs, without being entitled to do so, the armlet, the flag or emblem of the Red Crescent or Red Cross, or equivalent armlets, flags or emblems".³⁷⁸

350. Under the Penal Code as amended of the Netherlands, the use without prior authorisation of the red cross emblem, the words "Red Cross" or "Geneva Cross" or of other recognised protective emblems or terminology is a criminal offence.³⁷⁹

351. Under the International Crimes Act of the Netherlands, "making improper use . . . of the distinctive emblems of the Geneva Conventions, resulting in death or serious personal injury", is a crime, when committed in an international armed conflict.³⁸⁰

352. New Zealand's Geneva Conventions Act as amended provides that, "subject to the provisions of this section, it shall not be lawful for any person, without the authority of the Minister of Defence or a person authorised by him in writing to given consent under this section, to use for any purpose whatsoever" the emblems of the red cross, red crescent and red lion and sun on a white ground, the heraldic emblem of Switzerland, the designations "Red Cross", "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as

any design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems or designations.³⁸¹

353. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.³⁸²

354. Nicaragua's Military Penal Law punishes "anyone who, in the area of military operations, unlawfully uses symbols of the Red Cross".³⁸³

355. Nicaragua's Military Penal Code punishes any soldier who, in time of war and in an area of military operations, "unlawfully displays . . . the insignia, flags or emblems of the Red Cross".³⁸⁴

356. Nicaragua's Emblem Law provides that "the emblem of the Red Cross, as well as the denominations 'Red Cross' and 'Geneva Cross', may only be used for the purposes defined under the Geneva Conventions of 1949 and their Additional Protocols of 1977".³⁸⁵

357. Nigeria's Geneva Conventions Act states that "subject to the provisions of this section, it shall not be lawful for any person, without the authority of the Minister of the Federation charged with responsibility for matters relating to defence, to use for any purpose whatsoever" the emblems of the red cross, red crescent and red lion and sun on a white ground, the designations "Red Cross", "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as any design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems or designations. It is also prohibited to use, without the authority of the Minister of the Federation charged with responsibility for matters relating to trade, for any purpose whatsoever the heraldic emblem of Switzerland or any other design so nearly resembling that design as to be capable of being mistaken for that heraldic emblem.³⁸⁶

358. Nigeria's Revised Red Cross Society Act punishes:

any person who falsely and fraudulently . . . wears or displays the emblem of the Red Cross on any article of clothing, badge, piece of paper, or in any other way whatsoever, or any insignia coloured in imitation thereof in such a way as to be likely to deceive those to whom it is visible, for the purpose of inducing the belief that he is a member of, or an agent for, the [Nigerian Red Cross] Society.³⁸⁷

359. Norway's Penal Code provides that it is a punishable offence to use "without authority publicly or for an unlawful purpose . . . any badge or designation which by international agreement binding on Norway is designed for use in connection with aid to the wounded and sick . . . in war".³⁸⁸

³⁸¹ New Zealand, *Geneva Conventions Act as amended* (1958), Section 8.

³⁸⁷ Nigeria, *Revised Red Cross Society Act* (1990), Section 8(b).

³⁸⁸ Norway, *Penal Code* (1902), § 328(4)(b).

360. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in... the Geneva Conventions of 12 August 1949... [and in] the two additional protocols to these Conventions... is liable to imprisonment".³⁸⁹

361. Panama's Emblem Law provides that:

The emblem of the Red Cross, as well as its denominations, shall only be used for the purposes provided for in the Geneva Conventions of 1949 and the [ir] Additional Protocols.

...

Any person, whether physical or legal, who, without being entitled to do so, makes use of the emblem of the Red Cross or Red Crescent, of the words *Red Cross* or *Red Crescent*, of a distinctive sign, denomination or signal which constitutes an imitation thereof or which can create confusion... shall be punished.³⁹⁰

362. Papua New Guinea's Geneva Conventions Act punishes any "person who, without the consent of the Minister, uses for any purpose" the emblems of the red cross, red crescent and red lion and sun on a white ground, the heraldic emblem of Switzerland, the designations "Red Cross", "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as a design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for, or understood as referring to, any of those emblems or designations.³⁹¹

363. Under Paraguay's Emblem Law, any person who improperly uses the emblem of the red cross in time of war, with a view to commit acts of banditry, shall be subject to military and criminal laws.³⁹²

364. The Red Cross Society Decree of the Philippines states that:

The use of the emblem of the red Greek cross on a white ground is reserved exclusively to the Philippine National Red Cross, medical services of the Armed Forces of the Philippines, and such other medical facilities or other institutions as may be authorized by the Philippine National Red Cross... It shall be unlawful for any other person or entity to use the words Red Cross or Geneva Cross or to use the emblem of the red Greek cross on a white ground or any designation, sign, or insignia constituting an imitation thereof for any purpose whatsoever.³⁹³

365. Poland's Red Cross Society Law provides that:

The sign or the name of the Red Cross as an emblem or distinctive and protective sign may be used in situations and in accordance with the principles determined in international conventions.

³⁸⁹ Norway, *Military Penal Code as amended* (1902), § 108.

³⁹³ Philippines, *Red Cross Society Decree* (1979), Section 15.

...

1. It shall be prohibited to use, in contravention of Art. 13, the sign or the name "Red Cross" or "Geneva Cross", as well as any signs or names constituting their imitations.
2. The prohibition contained in point (1) applies also to the use of signs and names of the "Red Crescent" and "Red Lion and Sun".³⁹⁴

366. Poland's Penal Code punishes "any person who, during hostilities, uses the sign of the Red Cross or of the Red Crescent in violation of international law".³⁹⁵

367. Romania's Penal Code punishes "the unlawful use, in time of war and in relation to military operations, of the emblem or name of the 'Red Cross', or of equivalent signs and names".³⁹⁶

368. Under Russia's Draft Law on the Red Cross Society and Emblem, "illegal use of the name and the emblem of the Red Cross entails responsibility provided for by the legislation of the Russian Federation".³⁹⁷

369. Rwanda's Red Cross Decree punishes "any person who, without being entitled to do so, . . . uses the emblem or the denomination of the 'Red Cross' or 'Geneva Cross', or equivalent emblems or denominations that may create confusion, . . . for any . . . purpose".³⁹⁸ It also punishes "any person who, in time of war, uses, without being entitled to do so, the armlet or the flag of the Red Cross".³⁹⁹

370. The Red Cross Society Act of Saint Kitts and Nevis provides that:

It shall not be lawful for any person other than those authorised . . . under the [1949 Geneva Conventions, AP I and AP II] to use for any purpose whatever the emblem of the red cross on white ground, or any colourable imitation thereof, or the words "Red Cross", or the arms of the Swiss Confederation.⁴⁰⁰

371. Samoa's Emblem Act states that "no person or body other than the Red Cross Society may use the term Red Cross or its distinctive emblem for any purpose or activity".⁴⁰¹

372. The Geneva Conventions Act of the Seychelles provides that, "subject to this section, no person shall, without the authority of the Minister, use for any purpose" the emblems of the red cross and red crescent on a white ground, the heraldic emblem of Switzerland, the designations "Red Cross", "Geneva Cross" and "Red Crescent", as well as any design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for,

or, as the case may be, understood as referring to, one of those emblems or designations.⁴⁰²

373. Singapore's Geneva Conventions Act provides that "no person shall use for any purpose whatsoever in Singapore, without the authority of the Minister," the emblem of the red cross on a white ground, the heraldic emblem of Switzerland, the words "Red Cross" and "Geneva Cross", as well as any design being a colourable imitation of those emblems or any words so nearly resembling the words "Red Cross" or "Geneva Cross" as to be capable of being understood as referring to the said emblem.⁴⁰³

374. Singapore's Red Cross Society Act considers that:

No person other than the [Singapore Red Cross] Society and any person so authorised by the Minister shall use –

- (a) the heraldic emblem of the red cross on a white ground formed by reversing the Federal Colours of Switzerland; or
- (b) the words "Red Cross" or "Geneva Cross".⁴⁰⁴

375. Slovakia's Criminal Code as amended punishes any person who "misuses the insignia of the Red Cross, or other signs or colours recognised in international law as designating medical institutions or vehicles used for medical assistance or evacuation".⁴⁰⁵

376. Slovakia's Law on the Red Cross Society and Emblem states that:

In accordance with the [1949] Geneva Conventions and their Additional Protocols, the conclusions of the international conferences of the Red Cross and Red Crescent and rules of the International Committee of the Red Cross . . . for the use of the Red Cross sign and name by National Societies during peace time and war time, the sign and name of the Red Cross may only be used by:

- a) the military health service for indication and protection of the health units and institutes of staff and material protected by the Geneva Conventions, their Additional Protocols and other international conventions regulating similar affairs by which the Slovak Republic is bound;
- b) the Slovak Red Cross, its institutes and staff in their activity pursuant to letter a) and during peace time, and under the conditions stipulated by the Geneva Conventions and their Additional Protocols;
- c) the international organisations of the Red Cross and their staff under the conditions stipulated by the Geneva Conventions and their Additional Protocols;
- d) the operators of the vehicles intended as ambulances and the operators of rescue stations exclusively intended for free treatment of the wounded or sick; for indication of these ambulances and rescue stations during peace time only with the express approval of the Slovak Red Cross.⁴⁰⁶

⁴⁰² Seychelles, *Geneva Conventions Act* (1985), Section 9.

⁴⁰³ Singapore, *Geneva Conventions Act* (1973), Sections 8 and 9.

⁴⁰⁴ Singapore, *Red Cross Society Act* (1973), Section 10(1).

⁴⁰⁵ Slovakia, *Criminal Code as amended* (1961), Article 265(1).

⁴⁰⁶ Slovakia, *Law on the Red Cross Society and Emblem* (1994), Section 4(1).

It also punishes any person who unlawfully uses the sign or name of the red cross "during the time of events to which the Geneva Conventions and their Additional Protocols relate".⁴⁰⁷

377. Slovenia's Red Cross Society Law states that:

The Red Cross symbol on a white background and the name of the Red Cross may only be used in the manner specified by the [1949] Geneva Conventions, this Law and the regulations issued for the execution thereof.

...

All natural persons and legal entities, except those permitted by this Law, shall be permanently prohibited from using:

- the Red Cross symbol on a white background or the name of the Red Cross or the Geneva Cross, or
- the Red Crescent symbol on a white background or the name of the Red Crescent,
- as well as any symbol or name imitating the symbol or name under the first and second items, irrespective of the purpose of their use and the time of their adoption.⁴⁰⁸

378. Under Slovenia's Penal Code, "whoever abuses or carries without authorisation . . . the emblems or flag of the Red Cross" commits a war crime.⁴⁰⁹

379. South Africa's Geneva Conventions Notice provides that "it is an offence . . . to use the said emblem of the 'Red Cross' or 'Geneva Cross' for the purpose of trade or business or for any other purpose whatsoever without the authority of His Excellency the Governor-General-in-Council".⁴¹⁰

380. Spain's Military Criminal Code punishes any soldier who "displays improperly . . . the distinctive signs of the Geneva Conventions".⁴¹¹

381. Spain's Penal Code punishes "anyone who, during an armed conflict . . . uses improperly . . . the protective or distinctive signs, emblems or signals established and recognised under international treaties to which Spain is a party, in particular the distinctive signs of the Red Cross and the Red Crescent".⁴¹²

382. Sri Lanka's Draft Geneva Conventions Act provides that, "subject to the provisions of this section and section 14, it shall not be lawful for any person, without the consent in writing of the Minister of Defence or a person authorized in writing by the Minister to give consents under this section, to use or display for any purpose whatsoever" the emblems of the red cross, red crescent and red lion and sun on a white ground, the heraldic emblem of Switzerland, the designations "Red Cross", "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as a design or wording so nearly resembling any of those emblems

⁴⁰⁷ Slovakia, *Law on the Red Cross Society and Emblem* (1994), Section 5(1).

⁴⁰⁸ Slovenia, *Red Cross Society Law* (1993), Articles 21 and 22.

⁴¹² Spain, *Penal Code* (1995), Article 612(4).

or designations as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems or designations.⁴¹³

383. Sweden's Emblems and Signs Act as amended provides that:

The Red Cross emblem, consisting of a red cross on a white background, or the name "Red Cross" or "Geneva Cross", may not be publicly used other than as a distinctive emblem of military medical services or for military religious personnel or in such cases as specified in Section 2.

...

The international Red Cross organizations are entitled to use the distinctive emblem and name as specified in Section 1. The same shall apply to foreign national associations, which in their own country have the right publicly to use the emblem or the name.

Having obtained the permission of the Government, the Swedish Red Cross and other Swedish associations, whose purpose it is to provide assistance in military medical services in wartime, may use the aforesaid emblem and name. The distinctive emblem specified above may, with the permission of the Government, be used as a distinctive emblem for civilian medical services in wartime and for rescue services along the coasts.⁴¹⁴

384. Under Sweden's Penal Code as amended, misuse of insignia referred to in the Emblems and Signs Act as amended, including the red cross, constitutes a crime against international law.⁴¹⁵

385. Switzerland's Emblem Law provides that:

The emblem of the red cross on white ground and the words "red cross" or "Geneva cross" shall, with the exception of the cases provided for in the following articles, be used, whether in time of peace or in time of war, only to designate the personnel and material protected by [GC I and GC II], meaning the personnel, units, transports, establishments and material of the medical service of the armed forces, including voluntary sanitary relief of the Swiss Red Cross, as well as the chaplains attached to the armed forces.

...

Anyone who, intentionally and in violation of the provisions of the present law ... has made use of the emblem of the red cross on a white ground or of the words "red cross" or "Geneva cross", or of any other sign or word capable of creating confusion [commits a punishable offence].⁴¹⁶

386. Tajikistan's Criminal Code punishes the "illegal use of emblems and distinctive signs of the red cross and red crescent, as well as red cross and red crescent names".⁴¹⁷

387. Tajikistan's Emblem Law provides that:

Any use of the emblems, appellations "Red Cross" and "Red Crescent" and distinctive signals by legal and natural persons within the territory of the Republic of

⁴¹⁶ Switzerland, *Emblem Law* (1954), Articles 1 and 8(1).

⁴¹⁷ Tajikistan, *Criminal Code* (1998), Article 333.

Tajikistan, which goes against the Law, the [1949] Geneva Conventions and Additional Protocols, as well as the Rules on the use of the Red Cross or Red Crescent emblems by National Societies, is prohibited.

Those found guilty of breaching or improperly following the Law are liable to prosecution in accordance with the legislation of the Republic of Tajikistan.⁴¹⁸

388. Tanzania's Red Cross Society Act punishes:

Any person who, falsely or with intent to deceive or defraud, –

...

wears or displays the emblem of the Red Cross or any colourable imitation thereof for the purpose of inducing the belief that he is a member of or an agent for the [Red Cross] Society or that he has been recognized by the Society as possessing any qualification for administering first-aid or other treatment for injury or sickness.⁴¹⁹

389. Thailand's Red Cross Act provides that:

Whoever, without being entitled according to the [1949 Geneva] Conventions or this Act, uses the Red Cross emblem or the Red Cross name shall be punished with imprisonment . . .

...

Whoever uses any emblem or wording imitating the Red Cross emblem or the Red Cross name, or resembling such emblem or name as may be inferred that it is so done in order to deceive the public, shall be punished with imprisonment . . .

...

Sections 9 [and] 10 . . . shall apply to the emblem of the red crescent on a white ground or of the red lion and sun on a white ground, and to the name "red crescent" or "red lion and sun", *mutatis mutandis*.⁴²⁰

390. Togo's Code of Military Justice punishes "any individual who, [in time of war] in the area of operations, uses publicly and without being entitled to do so the armlet, flag or emblem of the Red Cross, or equivalent armlets, flags or emblems".⁴²¹

391. Togo's Emblem Law punishes:

whoever, without being entitled to do so, makes use of the emblem of the Red Cross or Red Crescent, of the words "Red Cross" or "Red Crescent", of a distinctive signal or of any other sign, denomination or signal constituting an imitation thereof or capable of creating confusion, whatever the purpose of this use.⁴²²

392. Under Tonga's Red Cross Society Act, "it shall not be lawful for any person other than those authorised under section 5 of this Act or under the provisions of

⁴²² Togo, *Emblem Law* (1999), Article 15.

the . . . [1949] Geneva Conventions to use for any purpose whatever the emblem of the red cross on a white ground".⁴²³

393. Trinidad and Tobago's Red Cross Society Act punishes:

Any person not being a member of the [Red Cross] Society who –

...

wears or displays the emblem of the Red Cross on an article of clothing, badge, paper, or in any other way whatsoever, or any insignia coloured in imitation thereof in such a way as to be likely to deceive those to whom it is visible, for the purpose of inducing the belief that he is a member of, or agent for the Society, or that he has been recognised by the Society as possessing any qualification for administering first aid or other treatment for the relief of sickness.⁴²⁴

394. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.⁴²⁵

395. Tunisia's Code of Military Justice as amended punishes "any individual who, in the area of operations of a military force . . . publicly uses, without being entitled to do so, the armlet, flag or emblem of the Red Crescent or Red Cross, or equivalent armlets, flags or emblems".⁴²⁶

396. Turkmenistan's Emblem Law provides that:

Anyone who, wilfully and without entitlement, has used the red crescent or red cross emblem, the designation "Red Crescent" or "Red Cross", a distinctive signal or any other sign, designation or signal which constitutes an imitation thereof or which might lead to confusion, shall be held responsible in accordance with the legislation of Turkmenistan.⁴²⁷

397. Under Uganda's Emblems Order, the emblems of the red cross or red crescent and the designations "Red Cross" or "Red Crescent" shall be for the exclusive use of:

1. The Uganda Red Cross Society.
2. The International Committee of the Red Cross (I.C.R.C.).
3. The International Federation of Red Cross and Red Crescent Societies.
4. The Medical personnel of the Armed Forces and religious personnel attached to the Armed Forces.⁴²⁸

398. Ukraine's Emblem Law provides that:

The use of the emblem of the red cross or red crescent, or red cross and red crescent, of the names "Red Cross" or "Red Crescent", or "Red Cross and Red Crescent", of the distinctive sign or any other sign, name or signal constituting an imitation thereof . . . or capable of creating confusion, regardless of the purpose of such use, in violation of the provisions of the present law . . . are prohibited.

⁴²⁶ Tunisia, *Code of Military Justice as amended* (1957), Article 127.

⁴²⁷ Turkmenistan, *Emblem Law* (2001), Article 14.

⁴²⁸ Uganda, *Emblems Order* (1993), Section 2 and Schedule.

...

Persons having committed a breach of the Ukrainian legislation of the use and symbolic of the Red Cross and Red Crescent are liable to punishment in conformity with Ukrainian legislation.⁴²⁹

399. Ukraine's Draft Red Cross Society Law states that:

In time of war (armed conflict), only the following are entitled to use the emblem:

- a) the Red Cross Society . . . its personnel and volunteers, on vehicles used by the medical public service, its transports, its installations . . .
- b) the medical service of the Armed Forces of Ukraine;
- c) the medical establishments of Ukraine directly assisting wounded, sick and victims;
- d) the other persons entitled by the Geneva Conventions of 1949 . . . and their first Additional Protocol.⁴³⁰

400. Pursuant to Ukraine's Criminal Code, the "carrying the Red Cross or Red Crescent symbols in an operational zone by persons not entitled to do so, as well as misuse of flags or signs of the Red Cross and Red Crescent or the colours attributed to medical vehicles in state of martial law" constitutes a war crime.⁴³¹

401. The UK Geneva Conventions Act as amended provides that, "subject to the provisions of this section, it shall not be lawful for any person, without the authority of the Secretary of State, to use for any purpose whatsoever" the emblems of the red cross, red crescent and red lion and sun on a white ground, the heraldic emblem of Switzerland, the designations "Red Cross", "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as any design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems or designations.⁴³²

402. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.⁴³³

403. The US Criminal Statute on the Protection of the Emblem as amended states that the following are guilty of a criminal offence:

Whoever wears or displays the sign of the Red Cross or any insignia colored in imitation thereof for the fraudulent purpose of inducing the belief that he is a member of or an agent for the American National Red Cross; or

⁴²⁹ Ukraine, *Emblem Law* (1999), Articles 15 and 17.

⁴³⁰ Ukraine, *Draft Red Cross Society Law* (1999), Article 49.

⁴³¹ Ukraine, *Criminal Code* (2001), Article 435, see also Article 445.

⁴³² UK, *Geneva Conventions Act as amended* (1957), Section 6.

⁴³³ UK, *ICC Act* (2001), Sections 50(1) and 51(1) (England and Wales) and Section 58(1) (Northern Ireland).

Whoever, whether a corporation, association or person, other than the American National Red Cross and its duly authorized employees and agents and the sanitary and hospital authorities of the armed forces of the United States, uses the emblem of the Greek red cross on a white ground, or any sign or insignia made or colored in imitation thereof or the words "Red Cross" or "Geneva Cross" or any combination of these words.⁴³⁴

404. Under the US War Crimes Act as amended, violations of Article 23(f) of the 1907 HR are war crimes.⁴³⁵

405. Uruguay's Emblem Decree states that "the red cross and red crescent emblems, as well as the words 'Red Cross, 'Geneva Cross' and 'Red Crescent' may only be used for the purposes provided for in the Geneva Conventions of 1949 and their Additional Protocols of 1977".⁴³⁶

406. Vanuatu's Geneva Conventions Act provides that "no person shall, without the consent in writing of the Minister, use for any purpose whatsoever" the emblems of the red cross, red crescent and red lion and sun on a white ground, the designations "Red Cross", "Geneva Cross", "Red Crescent" and "Red Lion and Sun", as well as any design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for, or as the case may be, understood as referring to, one of those emblems or designations.⁴³⁷

407. Venezuela's Emblem Law provides that:

The emblem of the Red Cross on a white ground and the words "Red Cross" may not be used, in time of peace or in time of war, except to protect and designate the personnel and material of medical formations and of establishments of the Medical Service of the Army, Navy and Air Force, as well as of voluntary relief societies duly recognised by the National Red Cross Society and officially authorised to offer its assistance.

...

The use of any sign or denomination constituting an imitation of the emblem or the words "Red Cross" is prohibited.

Likewise, the use for any purpose... of similar emblems or words which could create confusion is prohibited.⁴³⁸

It further stipulates that all violations of those provisions must be punished.⁴³⁹

408. Yemen's Emblem Law punishes:

any person who uses intentionally and without entitlement the emblem of the red crescent or red cross, or their denominations, or any other distinctive emblem or any other sign or denomination constituting an imitation thereof or which provokes confusion, whatever the purpose of the use".⁴⁴⁰

⁴³⁴ US, *Criminal Statute on the Protection of the Emblem as amended* (1905), Section 706.

⁴³⁹ Venezuela, *Emblem Law* (1965), Article 5. ⁴⁴⁰ Yemen, *Emblem Law* (1999), Article 10.

409. Under the Penal Code as amended of the SFRY (FRY), “those who misuse or carry without permission . . . the Red Cross flag or corresponding emblems” commit a war crime.⁴⁴¹ The commentary on the Code states that:

The unauthorised carrying of an international emblem exists, for example, when a Red Cross emblem is carried by a person who is not a member of the medical corps (members of combat units) or, when such an emblem is placed, in general, on persons or objects not provided by international law regulations . . .

The misuse of international emblem is committed, as a rule, during a war or an armed conflict . . .

The aggravated form of this criminal act . . . exists when the misuse or unauthorised use of international emblems is committed in the war operations zone.⁴⁴²

410. The FRY Emblem Law prohibits the wearing or use of the emblem of the red cross as a protective sign, during war, imminent danger of war or state of emergency, without being entitled to do so.⁴⁴³

411. Zambia’s Red Cross Society Act states that “no person other than the [Red Cross] Society or a person so authorised under the [1949 Geneva] Conventions shall, without the authority of the Council, use for any purpose whatsoever” the emblems of the red cross, red crescent and red lion and sun on a white ground, as well as the designations “Red Cross”, “Geneva Cross”, “Red Crescent” and “Red Lion and Sun”.⁴⁴⁴

412. Zimbabwe’s Geneva Conventions Act as amended provides that, “subject to the provisions of this section and of section 7 of the Zimbabwe Red Cross Society Act, 1981, no person shall, without the authority in writing of the Minister of Health, use for any purpose whatsoever” the emblems of the red cross, red crescent and red lion and sun on a white ground, the heraldic emblem of Switzerland, the designations “Red Cross”, “Geneva Cross”, “Red Crescent” and “Red Lion and Sun”, as well as any design or wording so nearly resembling any of those emblems or designations as to be capable of being mistaken for or, as the case may be, understood as referring to one of those emblems or designations.⁴⁴⁵

National Case-law

413. In 1997, Colombia’s Council of State considered that the use of a medical vehicle for military operations was prohibited under IHL. The vehicles had been used to transport troops. The Council referred to the 1949 Geneva Conventions and to both Additional Protocols.⁴⁴⁶

⁴⁴¹ SFRY (FRY), *Penal Code as amended* (1976), Article 153(1), see also commentary on Article 148.

⁴⁴³ FRY, *Emblem Law* (1996), Article 13.

⁴⁴⁴ Zambia, *Red Cross Society Act* (1966), Section 6(1).

⁴⁴⁵ Zimbabwe, *Geneva Conventions Act as amended* (1981), Section 8.

⁴⁴⁶ Colombia, Council of State, *Administrative Case No. 11369*, Judgement, 6 February 1997.

414. In its judgement in the *Emblem case* in 1994, Germany's Federal Supreme Court stated that there was an essential common interest in the protection of the emblems against unauthorised use.⁴⁴⁷

415. In its judgement in the *Red Cross Emblem case* in 1979, the Supreme Court of the Netherlands held that the aim of the provision of the Criminal Code of the Netherlands prohibiting the use without prior authorisation of the distinctive emblems was to prevent unauthorised persons from using the emblems.⁴⁴⁸

Other National Practice

416. The Report on the Practice of Angola notes that, according to witnesses, vehicles, uniforms and the red cross emblem were used by UNITA forces when fleeing from attacks by governmental troops. It adds that, given the numerous reports of theft of vehicles of humanitarian organisations, incidents involving the improper use of the emblems had probably occurred many times during the conflict.⁴⁴⁹

417. In 1992, the Presidency of the Republika Srpska of Bosnia and Herzegovina made an urgent appeal "to respect the Red Cross emblem which ought to be used by medical personnel, hospitals and medical transports only".⁴⁵⁰

418. According to the Report on the Practice of China, it is China's opinion that unauthorised use of the ICRC emblem is not acceptable.⁴⁵¹

419. In a press release issued in 1996, Colombia's Ministry of Foreign Affairs expressed concern about the alleged misuse of the emblem. It reiterated its commitment to respect the relevant provisions of the 1949 Geneva Conventions and their Additional Protocols.⁴⁵²

420. In a 1996 study, Colombia's Presidential Council for Human Rights underlined the importance for a newly developed manual for the armed forces to include provisions such as the following: "Penal or disciplinary sanctions shall be established [and] imposed on members of the public forces for the improper use of the emblem of the Red Cross".⁴⁵³

421. The instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, state that "any unlawful use of [the red cross or red crescent] is prohibited and must be punished".⁴⁵⁴

⁴⁴⁷ Germany, Federal Supreme Court, *Emblem case*, Judgement, 23 June 1994.

⁴⁴⁸ Netherlands, Supreme Court, *Red Cross Emblem case*, Judgement, 15 May 1979.

⁴⁴⁹ Report on the Practice of Angola, 1998, Chapter 2.5.

⁴⁵¹ Report on the Practice of China, 1997, Chapter 2.5.

⁴⁵² Colombia, Ministry of Foreign Affairs, Press Release, 26 August 1996.

⁴⁵³ Colombia, Presidential Council for Human Rights, *Investigación académica sobre medidas nacionales de aplicación del Derecho Internacional Humanitario*, 1996, p. 55, Report on the Practice of Colombia, 1998, Chapter 2.8.

⁴⁵⁴ France, Etat-major de la Force d'Action Rapide, Ordres pour l'Opération Mistral, 1995, § 62.

422. Official documents of the German military authorities stress that military buses bearing the distinctive emblem may – even in peace time – only be used for medical purposes. That is to say, transports of soldiers in such buses may only be undertaken if the transport has a “medical component”. All other transports are forbidden. According to the Report on the Practice of Germany, one document states that, before discarding vehicles displaying the emblem, the emblem must be made invisible or erased to prevent any misuse of the discarded vehicle.⁴⁵⁵

423. On the basis of the reply by Iraq’s Ministry of Defence to a questionnaire, the Report on the Practice of Iraq states that improper use of the distinctive emblems is prohibited under international law.⁴⁵⁶

424. A training video on IHL produced by the UK Ministry of Defence illustrates the rule that the false use of emblems is forbidden.⁴⁵⁷

425. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that “we support the principle . . . that internationally recognized protective emblems, such as the red cross, not be improperly used”.⁴⁵⁸

426. According to the Report on the Practice of the SFRY (FRY), the 1991 Hague Statement on Respect for Humanitarian Principles extended the prohibition of improper use of the distinctive emblem to internal conflicts and can thus be considered as the *opinio juris* of the six republics of the former Yugoslavia on the applicability of the rule in internal armed conflicts. According to the report, during the armed conflicts in Slovenia and Croatia, which involved the YPA, the distinctive emblem was flagrantly misused. The YPA did not deny these practices and actually admitted two such cases during the conflict in Slovenia. The first case involved the transport of YPA personnel released from prison in Slovenia carrying their personal weapons with them. The second case involved the transport of members of the SFRY Presidency to Slovenia for negotiations with the Slovenian authorities.⁴⁵⁹

427. In 1979, in a meeting with ICRC delegates, the Minister of Health of a State considered that the abuse of the emblem was a very serious matter and asked to be given the necessary documents to enable it to publish the relevant provisions in governmental documents.⁴⁶⁰

⁴⁵⁵ Report on the Practice of Germany, 1997, Chapter 2.5. (The report does not quote any source.)

⁴⁵⁹ Report on the Practice of the SFRY (FRY), 1997, Chapter 2.5.

⁴⁶⁰ ICRC archive document.

428. In 1991, a State gave the ICRC assurances that measures would be taken to ensure that abuses of the distinctive emblems committed during the conflict would not be repeated.⁴⁶¹

429. In 1991, the Minister of Health of a State denounced the transport of military personnel and weapons by the army of another State in vehicles and helicopters marked with the distinctive emblem.⁴⁶²

III. Practice of International Organisations and Conferences

United Nations

430. In 1970, in a report on respect for human rights in armed conflicts, the UN Secretary-General stated that "as was felt by the experts convened by the International Committee of the Red Cross in 1969, the prohibition of the improper use . . . of the Red Cross emblem, contained in article 23(f) [of the 1907 HR], should be strongly reaffirmed".⁴⁶³

Other International Organisations

431. In 1981, in a report on refugees from El Salvador, the Parliamentary Assembly of the Council of Europe recalled that the ICRC had mounted a campaign in El Salvador to promote the application of IHL after it had noted a number of violations, including misuse of the red cross emblem.⁴⁶⁴

432. In a resolution adopted in 1988 on the protection of humanitarian medical missions, the Parliamentary Assembly of the Council of Europe urged medical missions to refrain from using the red cross emblem for non-medical activities, whether in international or non-international armed conflicts.⁴⁶⁵

433. In 1997, an incident occurred involving misuse of the distinctive emblem, when SFOR soldiers used a package marked with a red cross to gain entry to a hospital to arrest a person indicted by the ICTY.⁴⁶⁶ The SFOR spokesman initially denied that the soldiers had abused the symbol of the red cross, but later admitted that the soldiers had carried a parcel with the red cross label. He indicated, however, that the soldiers had not gained access to the hospital "in disguise or by subterfuge" and that they were armed and dressed as SFOR soldiers. He added that the ICRC was not involved in the operation.⁴⁶⁷

⁴⁶⁷ NATO, Transcript: Joint Press Conference at the Coalition Press Information Centre Holiday Inn, Sarajevo, 11 July 1997; Joint Press Conference, 14 July 1997.

International Conferences

434. The 23rd International Conference of the Red Cross in 1977 adopted a resolution on misuse of the emblem of the red cross inviting States parties to the 1949 Geneva Conventions to “enforce effectively the existing national legislation repressing the abuses of the emblem of the red cross, red crescent, red lion and sun, to enact such legislation wherever it does not exist at present and to provide for punishment by way of adequate sentences for offenders”.⁴⁶⁸

435. In 1992, at the Helsinki Summit of Heads of State or Government, CSCE participating States reaffirmed their commitment to prevent misuse of the protective emblems of the red cross and red crescent.⁴⁶⁹

IV. Practice of International Judicial and Quasi-judicial Bodies

436. In a report in 1979, the IACiHR considered that the Nicaraguan government was responsible for the improper use of the red cross emblem. The Commission had been informed that:

Public Health and the Vélez Páiz Hospital in Managua [had] ambulances that [had] a painted Red Cross emblem, and that in the barrio OPEN No. 3, government ambulances with the Red Cross were used to transport soldiers, thus creating suspicion and confusion in the population with respect to the Red Cross.⁴⁷⁰

V. Practice of the International Red Cross and Red Crescent Movement

437. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “it is prohibited to make improper use (that is to mark other persons and objects than those entitled to) of . . . the distinctive signs and signals of [the] medical service”.⁴⁷¹

438. In 1978, the ICRC indicated to a Red Crescent Society the criteria governing the use of the distinctive emblems by quoting Articles 18 and 20 GC IV.⁴⁷²

439. In 1979, the ICRC sent a note to a State following a report by one of its delegates that all religious organisations were routinely using the distinctive emblem and that vehicles transporting soldiers and weapons displayed the emblem. It asked for measures to be taken to put an end to this situation.⁴⁷³ In connection with the same conflict, the ICRC recalled the basic rules concerning the use of the distinctive emblem. It stated that, as a protective sign, the

⁴⁷² ICRC archive document. ⁴⁷³ ICRC archive document.

red cross could only be displayed by military medical personnel and units, by civilian medical personnel and units provided they were recognised and authorised by the proper authority, and by ICRC delegates, vehicles and buildings. Any other use was forbidden.⁴⁷⁴

440. In 1979, the Secretary-General of a National Red Cross Society told the ICRC that the killing of two doctors had convinced the other doctors working in governmental hospitals that the only way to be efficiently protected was to display large red crosses on their vehicles. The Secretary-General added that to put an end to the practice would jeopardise medical activities. The ICRC agreed to tolerate the practice until a normal situation was re-established, and as long as it remained within the bounds of medical activities.⁴⁷⁵

441. In 1981, the ICRC raised the issue of improper use of the emblem in a meeting with the Health Ministry of a State. Vehicles displaying the emblem were allegedly used to transport soldiers and weapons. The Minister replied that the matter would be raised before the Cabinet.⁴⁷⁶

442. In 1985, in the context of a non-international armed conflict, an incident involving a plane from Aviation sans Frontières displaying the emblem was reported. The ICRC made representations to the organisation's head office.⁴⁷⁷

443. In 1987, in response to press reports of the use of a helicopter displaying the distinctive emblem by the *contras* in Nicaragua to transport military equipment, the ICRC issued a communiqué recalling that:

The red cross emblem must be used in conflicts by medical services of armed forces exclusively to protect the wounded and sick and those caring for them. Any other use of the emblem not only violates the rules in force, but above all can result in the wounded and sick being deprived of the humanitarian aid they are entitled to.⁴⁷⁸

444. In a press release in 1991, the ICRC urged the parties to the conflict in Yugoslavia to comply with the rules relative to the use of the red cross and red crescent emblems and to repress any misuse.⁴⁷⁹

445. In 1991, the ICRC reminded the parties to a conflict that "in times of armed conflict, only duly authorised military medical services, transports and civilian hospitals and their personnel have the right to use the protective emblem". It also held that the National Societies could display the emblems to identify their activities conducted in accordance with the fundamental principles of the Red Cross and Red Crescent Movement and that Red Cross international organisations, such as the ICRC, could display the emblem at all times for all their activities. Furthermore, the ICRC emphasised that "any unauthorised use of the red cross is a violation of international humanitarian law".⁴⁸⁰

⁴⁸⁰ ICRC archive document.

446. In 1991, the Croatian Red Cross denounced the transport of military personnel and weapons by the YPA in vehicles and helicopters marked with the distinctive emblem.⁴⁸¹

447. At its Budapest Session in 1991, the Council of Delegates adopted a resolution on the use of the emblem by National Societies in which it invited "National Societies to assist their governments in meeting their obligations under the Geneva Conventions with regard to the emblem, in particular to prevent its misuse".⁴⁸²

448. In a press release issued in 1992 in the context of the conflict in Bosnia and Herzegovina, the ICRC reminded all parties to the conflict that "the abuse of the emblem is a breach of International Humanitarian Law".⁴⁸³

449. In 1992, the ICRC notified the Ministry of Defence of a State that its armed forces had taken vehicles displaying the emblem to transport armed troops. The ICRC emphasised that such acts jeopardised the appearance of neutrality of the ICRC and made those vehicles military objects.⁴⁸⁴

450. In a communication to the press in 1993, the ICRC enjoined the parties to the conflict in Somalia not to abuse the red cross or red crescent emblem.⁴⁸⁵

451. In 1993, the ICRC notified the Ministry of Defence of a State of the use of the red cross emblem slightly modified by an armed opposition group in a campaign against cholera. It added that it was trying to persuade very urgently officials of the armed opposition group to stop using the emblem.⁴⁸⁶

452. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that "all improper use of the red cross emblem is prohibited and must be punished".⁴⁸⁷

453. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that "any abuse of the emblem of the Red Cross is prohibited and shall be punished".⁴⁸⁸

454. In 1996, in a meeting with an armed opposition group, the ICRC highlighted the improper use of the emblem, whereby ambulances displaying the emblem were used by armed officials of the said group. The ICRC delegation

asked them to cover the emblems if they were not willing to give the vehicles back. They promised to do so.⁴⁸⁹

455. In 1996, following allegations that a Red Cross ambulance had transported tear gas grenades, the Colombian Red Cross denied that it owned the vehicle and recalled that the use of Red Cross vehicles to transport arms or armed troops was forbidden.⁴⁹⁰

456. The 1996 ICRC Model Law concerning the Use and Protection of the Emblem of the Red Cross or Red Crescent provides that:

Anyone who, wilfully and without entitlement, has made use of the emblem of the red cross or red crescent, the words "Red Cross" or "Red Crescent", a distinctive signal or any other sign, designation or signal which constitutes an imitation thereof or which might lead to confusion, irrespective of the aim of such use;

anyone who, in particular, has displayed the said emblem or words on signs, posters, announcements, leaflets or commercial documents, or has affixed them to goods or packaging, or has sold, offered for sale or placed in circulation goods thus marked;

shall be punished by imprisonment for a period of . . . (days or months) and/or by payment of a fine of . . . (amount in local currency).

If the offence is committed in the management of a corporate body (commercial firm, association, etc.), the punishment shall apply to the persons who committed the offence or ordered the offence to be committed.⁴⁹¹

457. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC included the "improper use of . . . the distinctive emblems of the Geneva Conventions", when committed in an international armed conflict, in its list of war crimes to be subject to the jurisdiction of the Court.⁴⁹²

458. In 1997, the ICRC expressed concern about misuse of the distinctive emblem following an incident in which SFOR soldiers used a package marked with the red cross to gain entry to a hospital to arrest a person indicted by the ICTY.⁴⁹³ The ICRC stated that it objected "to any organisation using the Red Cross in a manner which jeopardizes the neutrality and independence of the Red Cross movement".⁴⁹⁴ After SFOR admitted the use of the emblem, the ICRC reiterated its concerns and urged SFOR to "ensure all necessary measures to prevent any further such misrepresentation from occurring".⁴⁹⁵

459. On the basis of a letter from the British Red Cross, the Report on UK Practice notes that, since 1988, four cases have been initiated in the UK

“regarding the use of designs resembling the red cross emblem” and stresses that “unauthorised use of such emblems is prohibited at all times within UK territory, regardless of the nature of a particular conflict”.⁴⁹⁶

460. In a communication to the press issued in 2000 in connection with the hostilities in the Near East, the ICRC emphasised that “any misuse of the emblems protecting the medical services is a violation of international humanitarian law and puts the personnel working under those emblems at risk”. The ICRC called on all persons involved in violence “to refrain from misuse of the protective emblems and . . . on all the authorities concerned to prevent or repress such practices”.⁴⁹⁷

VI. Other Practice

461. In 1982, in a meeting with the ICRC, an armed opposition group denounced abuses of the red cross emblem by governmental forces.⁴⁹⁸

462. In 1983, during a conversation with the ICRC, a representative of the army of a State emphasised that the operational units of the army had been informed to take pictures and fully document any abuse of the red cross emblem by an armed opposition group.⁴⁹⁹

463. In 1993, according to an ICRC note, an officer assigned to a peacekeeping operation, in a meeting with an ambassador, indicated that an armed opposition group used, *inter alia*, the red cross emblem to protect its vehicles. Up to that time, only the emblem of MSF had been improperly used.⁵⁰⁰

464. The Report on SPLM/A Practice notes that no instances have been found in which the SPLA has used the distinctive emblem improperly. It concluded that “without evidence to the contrary, the practice of the SPLM/A is that it does not engage in the improper use of the protective emblem”.⁵⁰¹

D. Improper Use of the United Nations Emblem or Uniform

Note: For practice concerning the simulation of protected status by using the United Nations emblem or uniform as an act considered perfidious, see *infra* section I of this chapter.

I. Treaties and Other Instruments

Treaties

465. Article 38(2) AP I provides that “it is prohibited to make use of the distinctive emblem of the United Nations, except as authorized by that Organization”. Article 38 AP I was adopted by consensus.⁵⁰²

⁴⁹⁶ Report on UK Practice, 1997, Letter from the British Red Cross, 8 October 1997, Chapter 2.5.

⁵⁰² CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 103.

466. Committee III of the CDDH adopted by consensus Article 23(2) of draft AP II.⁵⁰³ The approved text provided that “it is forbidden to make use of the distinctive emblem of the United Nations, except as authorized by that organization”.⁵⁰⁴ Eventually, however, it was deleted by consensus in the plenary.⁵⁰⁵

467. Article 3 of the 1994 Convention on the Safety of UN Personnel provides that:

The military and police components of a United Nations operation and their vehicles, vessels and aircraft shall bear distinctive identification. Other personnel, vehicles, vessels and aircraft involved in the United Nations operation shall be appropriately identified unless otherwise decided by the Secretary-General of the United Nations.

468. Under Article 8(2)(b)(vii) of the 1998 ICC Statute, “making improper use...of the flag or the military insignia or uniforms...of the United Nations...resulting in death or serious personal injury” is a war crime in international armed conflicts.

Other Instruments

469. According to paragraph 6 of the 1952 UN Flag Code, “the flag may be used in military operations only upon express authorization to that effect by a competent organ of the United Nations”. Paragraph 11 provides that “any violation of this Flag Code may be punished in accordance with the law of the country in which such violation takes place”.

470. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 38 AP I.

471. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 38 AP I.

472. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(vii), “making improper use...of the flag or the military insignia or uniforms...of the United Nations...resulting in death or serious personal injury” is a war crime in international armed conflicts.

II. National Practice

Military Manuals

473. Argentina’s Law of War Manual states that “it is prohibited...to make use of the emblem of the United Nations, unless authorised [to do so]”.⁵⁰⁶

⁵⁰³ CDDH, *Official Records*, Vol. XV, CDDH/III/SR.49, 4 June 1976, p. 109, § 8.

⁵⁰⁵ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 129.

⁵⁰⁶ Argentina, *Law of War Manual* (1989), § 1.06(2).

474. Australia's Commanders' Guide notes that "improper use... of the distinctive emblem of the United Nations is prohibited".⁵⁰⁷ It stresses that "the United Nations symbol... is strictly protected and must not be abused".⁵⁰⁸ The Guide also states that "the following are examples of grave breaches or serious war crimes likely to warrant institution of criminal proceedings:... misusing or abusing... any... protected emblem for the purpose of gaining protection to which the user would not otherwise be entitled".⁵⁰⁹

475. Australia's Defence Force Manual provides that "use of the distinctive emblem of the UN is prohibited except when authorised by the UN".⁵¹⁰ It also states that "the following are examples of grave breaches or serious war crimes likely to warrant institution of criminal proceedings:... misusing or abusing... any... protected emblem for the purpose of gaining protection to which the user would not otherwise be entitled".⁵¹¹

476. Belgium's Teaching Manual for Officers states that "it is prohibited to abuse the protective signs provided for by the [Geneva] Conventions and [AP I]... It is equally prohibited to make use of the sign of the UN except when authorised by this organisation."⁵¹²

477. Burkina Faso's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly... the distinctive insignia recognised by international conventions".⁵¹³

478. Cameroon's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly... the distinctive insignia recognised by international conventions".⁵¹⁴

479. Cameroon's Instructors' Manual states that "using fraudulently the emblems and uniforms... of the UN except in specified cases" is an unlawful deception.⁵¹⁵

480. Canada's LOAC Manual states that "it is prohibited... to make use of the distinctive emblem of the United Nations, except as authorized by the organization".⁵¹⁶

481. Colombia's Instructors' Manual states that it is a punishable offence "to use improperly insignia, flags and emblems... of organisations accepted by humanitarian law".⁵¹⁷

494. Spain's LOAC Manual provides that it is prohibited "to use the distinctive emblem of the UN, except in cases where this Organisation authorises it".⁵³² It further states that it is forbidden "to make improper use of the emblems of the United Nations".⁵³³

495. Sweden's IHL Manual considers that the "prohibition of improper use of recognized emblems", as contained in Article 38 AP I, is part of customary international law.⁵³⁴

496. The US Air Force Pamphlet provides that it is "forbidden to make improper use of . . . the distinctive sign of the United Nations".⁵³⁵ It further insists that "prohibitions concerning improper use of its [the UN] distinctive signs, emblems and signals should be observed".⁵³⁶

497. The US Naval Handbook states that "the flag of the United Nations and the letters 'UN' may not be used in armed conflict for any purpose without the authorization of the United Nations".⁵³⁷

498. The YPA Military Manual of the SFRY (FRY) provides that "it is forbidden to use, during combat, in order to mislead the enemy, . . . internationally recognised emblems", *inter alia*, the UN emblem.⁵³⁸

National Legislation

499. Algeria's Code of Military Justice punishes:

any individual, whether military or not, who, in time of war, in an area of operations . . . in violation of the laws and customs of war, improperly uses the distinctive signs and emblems defined by international conventions for the respect of persons, objects and places protected by these conventions.⁵³⁹

500. Argentina's Draft Code of Military Justice punishes any soldier who "uses improperly . . . the flag, uniform, insignia or distinctive emblem . . . of the United Nations".⁵⁴⁰

501. Under Armenia's Penal Code, "the use during military actions of . . . the flags of international organisations . . . in breach of international treaties and international law" constitutes a crime against the peace and security of mankind.⁵⁴¹

502. Australia's Geneva Conventions Act as amended provides that:

A person shall not, without the consent in writing of the Minister or of a person authorized in writing by the Minister to give consents . . . use for any purpose whatsoever any of the following: . . .

such... emblems, identity cards, signs, signals, insignia or uniforms as are prescribed for the purpose of giving effect to [AP I].⁵⁴²

503. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "improper use of a flag, insignia or uniform of the United Nations" in international armed conflicts.⁵⁴³

504. Azerbaijan's Criminal Code provides that "the misuse of... the flag, sign or clothes of the United Nations, ... which as a result caused death or serious injury to body of a victim", constitutes a war crime in international and non-international armed conflicts.⁵⁴⁴

505. The Criminal Code of Belarus provides that it is a war crime to "use intentionally, during hostilities, in violation of international treaties, ... the flag or sign of an international organisation".⁵⁴⁵

506. Under the Criminal Code of the Federation of Bosnia and Herzegovina, "whoever misuses or carries without authorisation the flag or emblem of the Organisation of the United Nations" commits a war crime.⁵⁴⁶ The Criminal Code of the Republika Srpska contains the same provision.⁵⁴⁷

507. Burkina Faso's Code of Military Justice punishes the improper use, in violation of the laws and customs of war, of the distinctive insignia and emblems for the protection of persons, objects and locations as defined in international conventions, in time of war and in an area of military operations.⁵⁴⁸

508. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "using improperly... the flag or military insignia and uniform... of the United Nations Organisation" constitutes a war crime in international armed conflicts.⁵⁴⁹

509. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.⁵⁵⁰

510. The DRC Code of Military Justice as amended punishes "any individual, whether military or not, who, in time of war... improperly uses the distinctive signs and emblems defined by international conventions to ensure respect for the persons, objects and places protected under these conventions".⁵⁵¹

⁵⁴² Australia, *Geneva Conventions Act as amended* (1957), Section 15(1)(f).

⁵⁵¹ DRC, *Code of Military Justice as amended* (1972), Article 455.

511. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.⁵⁵²

512. Côte d'Ivoire's Penal Code as amended punishes "any individual who, in an area of military operations, uses, in violation of the laws and customs of war, the distinctive insignia and emblems, defined by international conventions, to ensure respect for protected persons, objects and places".⁵⁵³

513. Under Croatia's Criminal Code, "whoever misuses or carries without authorisation the flag or emblem of the United Nations" commits a war crime.⁵⁵⁴

514. The Czech Republic's Criminal Code as amended punishes any "person who, in time of war, misuses the flag of the United Nations Organisation".⁵⁵⁵

515. Denmark's Penal Code punishes "anyone who uses unlawfully, and wilfully or negligently... the distinctive signs and names of international organisations".⁵⁵⁶

516. France's Code of Military Justice punishes:

any individual, military or not, who, in time of war, in the area of operations of a force or unit, in violation of the laws and customs of war, uses improperly the distinctive signs and emblems defined by international conventions to ensure respect for persons, objects and places protected by those conventions.⁵⁵⁷

517. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, such as "making improper use... of the flag or of the military insignia and uniform... of the United Nations, ... resulting in death or serious personal injury" in international armed conflicts, is a crime.⁵⁵⁸

518. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or non-international armed conflict, "makes improper use... of the flag... or of the uniform... of the United Nations, thereby causing a person's death or serious injury".⁵⁵⁹

519. Guinea's Criminal Code punishes "anyone [who], in an area of military operations and in violation of the laws and customs of war, uses distinctive insignia and emblems defined in international conventions to ensure respect for protected persons, objects and places".⁵⁶⁰

520. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 38(2) AP I, is a punishable offence.⁵⁶¹

⁵⁶¹ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

521. Italy's Wartime Military Penal Code punishes anyone who "uses improperly . . . the international distinctive signs of protection".⁵⁶²

522. Under Lithuania's Criminal Code as amended, "unlawful use of . . . the emblem of the United Nations, . . . in time of war, or during an international armed conflict" is a war crime.⁵⁶³

523. Mali's Code of Military Justice punishes:

any individual . . . who, in time of war, in the area of operations of a military force and in violation of the laws and customs of war, improperly uses the distinctive signs and emblems defined in international conventions to ensure respect for persons, objects and places protected by these conventions.⁵⁶⁴

524. Under Mali's Penal Code, "using . . . the flag or military insignia or uniform . . . of the United Nations Organisation . . . and, thereby, causing loss of human lives or serious injuries" is a war crime in international armed conflicts.⁵⁶⁵

525. Under the International Crimes Act of the Netherlands, "making improper use . . . of the flag or of the military insignia and uniform . . . of the United Nations, . . . resulting in death or serious personal injury", is a crime, when committed in an international armed conflict.⁵⁶⁶

526. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.⁵⁶⁷

527. Norway's Penal Code provides that it is a punishable offence to use:

without authority publicly or for an unlawful purpose . . . any designation recognized or commonly used in Norway or abroad of an international organisation or any insignia or seal used by an international organisation if Norway is a member of the said organisation or has by international agreement undertaken to give protection against such use.⁵⁶⁸

528. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁵⁶⁹

529. Poland's Penal Code punishes "any person who, during hostilities, uses . . . flags . . . of an international organisation . . . in violation of international law".⁵⁷⁰

530. Slovakia's Criminal Code as amended punishes any "person who, in time of war, misuses the flag of the United Nations Organisation".⁵⁷¹

⁵⁷⁰ Poland, *Penal Code* (1997), Article 126(2).

⁵⁷¹ Slovakia, *Criminal Code as amended* (1961), Article 265(2).

531. Under Slovenia's Penal Code, "whoever abuses or carries without authorisation the flag or emblem of the United Nations Organisation" commits a war crime.⁵⁷²

532. Spain's Penal Code punishes "anyone who, during an armed conflict... uses improperly... the flag, uniform, insignia or distinctive emblem... of the United Nations".⁵⁷³

533. Under Sweden's Penal Code as amended, "misuse of the insignia of the United Nations" constitutes a crime against international law.⁵⁷⁴

534. Switzerland's Law on the Protection of the UN Names and Emblems provides that:

1. It is prohibited, except as authorised by the Secretary-General of the Organisation of the United Nations, to use the following signs, belonging to the said organisation
 - ...
 - a. The name of the organisation (in every language);
 - b. Its acronyms (in official Swiss languages and in English);
 - c. Its arms, flags and other emblems.
2. The prohibition applies similarly to imitations of the signs referred to in paragraph (1).
- ...

Anyone who, intentionally and in violation of the provisions of the present law, has made use of the names, acronyms, arms, flags and other emblems of intergovernmental organisations referred to in article 1... or of any other signs constituting imitation thereof, ... [commits a punishable offence].⁵⁷⁵

535. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.⁵⁷⁶

536. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.⁵⁷⁷

537. Under the Penal Code as amended of the SFRY (FRY), "those who misuse or carry without permission the flag or emblem of the United Nations Organisation" commit a war crime.⁵⁷⁸ The Commentary on the Code specifies that "the misuse of international emblems is committed, as a rule, during a war or an armed conflict... The aggravated form of this criminal act... exists when the misuse or unauthorised use of international emblems is committed in the war operations zone."⁵⁷⁹

⁵⁷⁹ SFRY (FRY), *Penal Code as amended* (1976), Commentary on Article 153.

National Case-law

538. No practice was found.

Other National Practice

539. According to the Report on the Practice of Indonesia, although it is not specifically mentioned in Indonesia's Military Manual, senior officers of the Indonesian armed forces consider that the use of UN peacekeeping uniforms would come within the prohibition of the use of uniforms of neutral States or other States not parties to the conflict.⁵⁸⁰

540. A training video on IHL produced by the UK Ministry of Defence illustrates the rule that the false use of emblems is forbidden.⁵⁸¹

541. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that "we support the principle... that internationally recognized protective emblems... not be improperly used".⁵⁸²

*III. Practice of International Organisations and Conferences**United Nations*

542. In a resolution adopted in 1946 on the official seal and emblem of the UN, the UN General Assembly provided that member States:

should take such legislative or other appropriate measures as are necessary to prevent the use, without authorization by the Secretary-General of the United Nations, and in particular for commercial purposes by means of trade marks or commercial labels, of the emblem... of the United Nations.⁵⁸³

543. In 1995, in a report concerning the former Yugoslavia, the UN Secretary-General reported, on the basis of information gathered by UNPROFOR, the alleged use of UN uniforms by Bosnian Serbs.⁵⁸⁴

544. In 1995, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights reported the use of UNPROFOR uniforms by Bosnian Serb soldiers at the fall of Srebrenica. They had allegedly pretended to be local UNPROFOR staff

and urged people fleeing from Srebrenica to go to particular locations, possibly into traps.⁵⁸⁵

Other International Organisations

545. No practice was found.

International Conferences

546. In 1992, at the Helsinki Summit of Heads of State or Government, CSCE participating States reaffirmed their commitment to prevent the misuse of the UN emblem.⁵⁸⁶

IV. Practice of International Judicial and Quasi-judicial Bodies

547. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

548. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “it is prohibited to use the distinctive emblem of the United Nations, except as authorized by that Organization”.⁵⁸⁷

VI. Other Practice

549. In 1993, according to an ICRC note, an officer assigned to a peacekeeping operation, in a meeting with an ambassador, indicated that an armed opposition group used, *inter alia*, the UN emblem to protect its vehicles. Up to that time, only the emblem of MSF had been improperly used.⁵⁸⁸

E. Improper Use of Other Internationally Recognised Emblems

Note: For practice concerning the simulation of protected status by using other internationally recognised emblems as an act considered perfidious, see *infra* section I of this chapter.

⁵⁸⁵ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Final periodic report, UN Doc. E/CN.4/1996/9, 22 August 1995, § 35.

⁵⁸⁸ ICRC archive document.

*I. Treaties and Other Instruments**Treaties*

550. Article 17 of the 1954 Hague Convention provides that:

1. The distinctive emblem repeated three times may be used only as a means of identification of:
 - (a) immovable cultural property under special protection;
 - (b) the transport of cultural property under the conditions provided for in Articles 12 and 13;
 - (c) improvised refuges, under the conditions provided for in the Regulations for the execution of the Convention.
2. The distinctive emblem may be used alone only as a means of identification of:
 - (a) cultural property not under special protection;
 - (b) the persons responsible for the duties of control in accordance with the Regulations for the execution of the Convention;
 - (c) the personnel engaged in the protection of cultural property;
 - (d) the identity cards mentioned in the Regulations for the execution of the Convention.
3. During an armed conflict, the use of the distinctive emblem in any other cases than those mentioned in the preceding paragraphs of the present Article, and the use for any purpose whatever of a sign resembling the distinctive emblem, shall be forbidden.

551. Under Article 38(1) AP I, "it is... prohibited to misuse deliberately in an armed conflict... internationally recognized protective emblems, signs or signals, including... the protective emblem of cultural property". Article 38 AP I was adopted by consensus.⁵⁸⁹

552. Article 66(8) AP I provides that "the High Contracting Parties and the Parties to the conflict shall take the measures necessary to supervise the display of the international distinctive sign of civil defence and to prevent and repress any misuse thereof". Article 66 AP I was adopted by consensus.⁵⁹⁰

553. Upon ratification of AP I, Canada stated that:

In situations where the Medical Service of the armed forces of a party to an armed conflict is identified by another emblem than the emblems referred to in Article 38 of the First Geneva Convention of August 12, 1949, ... when notified, ... misuse of such an emblem should be considered as misuse of emblems referred to in Article 38 of the First Geneva Convention and Protocol I.⁵⁹¹

554. Article 23 of draft AP II submitted by the ICRC to the CDDH provided that "it is forbidden to make use... of the protective emblem of cultural property for purposes other than those provided for in the Convention establishing [this] sign".⁵⁹² This proposal was amended and adopted by consensus in Committee

⁵⁸⁹ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 103.

⁵⁹⁰ CDDH, *Official Records*, Vol. VI, CDDH/SR.43, 27 May 1977, p. 243.

⁵⁹¹ Canada, Reservations and statements of understanding made upon ratification of AP I, 20 November 1990, § 4.

⁵⁹² CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 39.

III of the CDDH.⁵⁹³ The approved text provided that it was “forbidden to misuse deliberately in armed conflict other internationally recognized protective emblems...including...whenever applicable, the protective emblem of cultural property”.⁵⁹⁴ Eventually, however, it was deleted by consensus in the plenary.⁵⁹⁵

Other Instruments

555. No practice was found.

II. National Practice

Military Manuals

556. Argentina’s Law of War Manual prohibits the deliberate abuse of internationally recognised protective emblems, including the emblem of cultural property.⁵⁹⁶

557. Australia’s Commanders’ Guide provides that “the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings:...misusing or abusing...any...protected emblem for the purpose of gaining protection to which the user would not otherwise be entitled”.⁵⁹⁷

558. Australia’s Defence Force Manual prohibits the “deliberate misuse of...protective symbols and emblems...including the protective emblem of cultural property”.⁵⁹⁸ It also provides that “the following examples constitute grave breaches or serious war crimes likely to warrant institution of criminal proceedings:...misusing or abusing...any...protected emblem for the purpose of gaining protection to which the user would not otherwise be entitled”.⁵⁹⁹

559. Belgium’s Teaching Manual for Officers stipulates that “it is prohibited to abuse the protective signs provided for by the [Geneva] Conventions and [AP I]. Example: camouflaging arms and ammunition in a vehicle or a building displaying the protective sign...of cultural property [or] of civil defence”.⁶⁰⁰

560. Burkina Faso’s Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited “to use improperly...the distinctive insignia recognised by international conventions”.⁶⁰¹

⁵⁹³ CDDH, *Official Records*, Vol. XV, CDDH/III/SR.49, 4 June 1976, p. 109, § 8.

⁶⁰⁰ Belgium, *Teaching Manual for Officers* (1994), Part I, Title II, p. 33.

⁶⁰¹ Burkina Faso, *Disciplinary Regulations* (1994), Article 35(2).

561. Cameroon's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly . . . the distinctive insignia recognised by international conventions".⁶⁰²

562. Cameroon's Instructors' Manual states that improper use of distinctive signs and signals is an unlawful deception.⁶⁰³

563. Canada's LOAC Manual states that it is prohibited "to make improper use of the . . . emblems, signs or signals provided for by the *Geneva Conventions* or *Additional Protocols* [and] to deliberately misuse . . . internationally recognized protective emblems, signs or signals including . . . the protective emblem of cultural property".⁶⁰⁴

564. Colombia's Instructors' Manual states that it is a punishable offence "to use improperly insignia, flags and emblems . . . of organisations accepted by humanitarian law".⁶⁰⁵

565. Congo's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly . . . the distinctive insignia recognised by international conventions".⁶⁰⁶

566. Ecuador's Naval Manual states that "protective signs and symbols may be used only to identify personnel, objects, and activities entitled to protected status which they designate. Any other use is forbidden by international law."⁶⁰⁷

567. France's Disciplinary Regulations as amended states that it is prohibited "to use improperly . . . the distinctive signs provided for in international conventions".⁶⁰⁸

568. France's LOAC Manual prohibits the improper use of the symbols of civil defence, cultural property, works and installations containing dangerous forces and other recognised symbols.⁶⁰⁹

569. Germany's Military Manual states that "it is prohibited to make improper use . . . of special internationally acknowledged protective emblems".⁶¹⁰ It also states that "during an international armed conflict, the use of the distinctive emblem for any other purpose than that of the protection of cultural property is forbidden".⁶¹¹

570. Under Italy's IHL Manual, misuse of the distinctive signs of civil defence, cultural property and installations containing dangerous forces is prohibited.⁶¹² The manual also states that grave breaches of international conventions and

protocols, including “the improper . . . use of international protective signs”, are considered war crimes.⁶¹³

571. Lebanon’s Army Regulations prohibits the unlawful use of the distinctive signs provided for in international agreements.⁶¹⁴

572. Mali’s Army Regulations provides that, under the laws and customs of war, it is prohibited “to use improperly . . . the distinctive insignia recognised by international conventions”.⁶¹⁵

573. Morocco’s Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited “to use improperly . . . the distinctive insignia recognised by international conventions”.⁶¹⁶

574. The Military Manual of the Netherlands provides that:

It is . . . forbidden to make improper use of . . . emblems and signals which are mentioned in treaties on the law of war. This concerns, *inter alia*, the signs for civil defence and cultural property. The signals are light signals and electronic communication and identification as regulated in Annex I to Additional Protocol I.⁶¹⁷

The manual further states that “the misuse of . . . recognised protective signs” is a grave breach of AP I.⁶¹⁸

575. New Zealand’s Military Manual provides that “improper use of protective symbols . . . is prohibited”. In its list of protective symbols, the manual includes: symbols for civil defence, cultural property, installations containing dangerous forces, demilitarised zones and non-defended localities, internment camps, hospitals and safety zones and prisoner-of-war camps.⁶¹⁹

576. Russia’s Military Manual regards the improper use of international signals and flags as a prohibited method of warfare.⁶²⁰

577. Senegal’s Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited “to use improperly . . . the distinctive insignia recognised by international conventions”.⁶²¹

578. Spain’s LOAC Manual provides that the emblems for civil defence, cultural property and installations containing dangerous forces, as well as other internationally recognised emblems, signs or signals, can only be used for their intended purpose.⁶²²

579. Sweden’s IHL Manual considers that the “prohibition of improper use of recognized emblems”, as contained in Article 38 AP I, is part of customary international law.⁶²³

⁶¹³ Italy, *IHL Manual* (1991), Vol. I, § 85. ⁶¹⁴ Lebanon, *Army Regulations* (1971), § 17.

⁶²³ Sweden, *IHL Manual* (1991), Section 2.2.3, p. 19.

580. The US Air Force Pamphlet provides that "it is forbidden to make use of . . . the protective signs for safety zones other than as provided for in international agreements establishing these [signs] . . . It is also prohibited to make improper use of . . . the protective emblem of cultural property."⁶²⁴

581. The US Naval Handbook states that "protective signs and symbols may be used only to identify personnel, objects, and activities entitled to protected status which they designate. Any other use is forbidden by international law."⁶²⁵ The Handbook lists the protective emblem for cultural property among emblems not to be misused.⁶²⁶

582. The YPA Military Manual of the SFRY (FRY) provides that "it is forbidden to use, during combat, in order to mislead the enemy, . . . internationally recognised signs", *inter alia*, the sign of protected cultural property.⁶²⁷

National Legislation

583. Algeria's Code of Military Justice punishes:

any individual, whether military or not, who, in time of war, in an area of operations . . . in violation of the laws and customs of war, improperly uses the distinctive signs and emblems defined by international conventions for the respect of persons, objects and places protected by these conventions".⁶²⁸

584. Argentina's Draft Code of Military Justice punishes any soldier who "uses improperly . . . the protective or distinctive signs established and recognised in international treaties to which the Argentine Republic is a party".⁶²⁹

585. Argentina's Law on Civil Defence in Buenos Aires "prohibits in the whole territory of the city of Buenos Aires the use of the denominations, symbols, distinctive signs . . . officially used for civil defence, for purposes other than those intended, or when it may create confusion as to its real significance".⁶³⁰

586. Under Armenia's Penal Code, "the use during military actions of . . . the signs designed to identify cultural property or of other protective signs . . . in breach of international treaties and international law" constitutes a crime against the peace and security of mankind.⁶³¹

587. Australia's Geneva Conventions Act as amended provides that:

A person shall not, without the consent in writing of the Minister or of a person authorized in writing by the Minister to give consents . . . use for any purpose whatsoever any of the following:

⁶²⁴ US, *Air Force Pamphlet* (1976), §§ 8-3(c) and 8-6(b).

⁶²⁵ US, *Naval Handbook* (1995), § 11.9.6.

⁶³¹ Armenia, *Penal Code* (2003), Article 397.

...

such... emblems, identity cards, signs, signals, insignia or uniforms as are prescribed for the purpose of giving effect to [AP I].⁶³²

588. Bangladesh's Draft Emblems Protection Act provides that:

Subject to the provisions of this section, it shall not be lawful for any person, without the consent in writing of the Minister for Defence or a person authorized in writing by the Minister to give consents under this section, to use or display for any purpose whatsoever any of the following:

...

(e) the sign of an equilateral blue triangle on, and completely surrounded by, an orange ground, being the international distinctive sign of civil defence;

...

(g) the sign consisting of a group of three bright orange circles of equal size, placed on the same axis, the distance between each circle being one radius, being the international special sign for works and installations containing dangerous forces;

(h) a design, wording or signal so nearly resembling any of the emblems, designations, signs or signals specified in paragraph... (e)... or (g) as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems, designations, signs or signals;

(i) such other emblems, identity cards, identification cards, signs, signals, insignia or uniforms as are prescribed for the purpose of giving effect to the [1949 Geneva] Conventions or Protocols.⁶³³

589. The Criminal Code of Belarus provides that it is a war crime to "use intentionally, during hostilities, in violation of international treaties, ... the protective signs of cultural property or other signs protected under international law".⁶³⁴

590. Under the Criminal Code of the Federation of Bosnia and Herzegovina, "whoever misuses or carries without authorisation... any... international symbols recognised as the protection of certain objects from military operations" commits a war crime.⁶³⁵ The Criminal Code of the Republika Srpska contains the same provision.⁶³⁶

591. Burkina Faso's Code of Military Justice punishes the improper use, in violation of the laws and customs of war, of the distinctive insignia and emblems for the protection of persons, objects and locations as defined in international conventions, in time of war and in an area of military operations.⁶³⁷

592. The DRC Code of Military Justice as amended punishes "any individual, whether military or not, who, in time of war... improperly uses the distinctive signs and emblems defined by international conventions to

ensure respect for the persons, objects and places protected under these conventions".⁶³⁸

593. The Geneva Conventions and Additional Protocols Act of the Cook Islands provides that:

No person may, without the authority of the Minister or a person authorised by the Minister in writing to give consent under this section, use for any purpose any of the following:

- (a) The sign of an equilateral blue triangle on, and completely surrounded by, an orange ground (which is the international distinctive sign of civil defence);
- ...
- (f) The sign of a group of three bright orange circles of equal size, placed on the same axis, the distance between each circle being one radius (which is the international special sign for works and installations containing dangerous forces);
- (g) Any emblem, designation, or signal, so nearly resembling any of the emblems, designations, or signals, specified in paragraphs [(e) and] (g) as to be capable of being mistaken for, or, as the case may be, understood as referring to, one of those emblems, designations, or signals.⁶³⁹

594. Côte d'Ivoire's Penal Code as amended punishes "anyone who, in an area of military operations, uses, in violation of the laws and customs of war, the distinctive insignia and emblems, defined by international conventions, to ensure respect for protected persons, objects and places".⁶⁴⁰

595. Under Croatia's Criminal Code, "whoever misuses or carries without authorisation... recognised international signs used to mark objects for the purpose of protection against military operations" commits a war crime.⁶⁴¹

596. Denmark's Rescue Preparedness Act punishes "any person who, during crisis or in times of war, deliberately abuses... the signs which, according to an international agreement ratified by Denmark, have been reserved for the tasks attended to by the rescue preparedness [i.e. civil defence] in Denmark".⁶⁴²

597. Under Estonia's Penal Code, "exploitative abuse... of the distinctive signs of a structure containing a prisoner-of-war camp, a cultural monument, civil defence object or dangerous forces" is a war crime.⁶⁴³

598. Finland's Emblem Act provides that:

The international distinctive sign of civil defence shall not be used in cases other than those provided for in this Act...

The international distinctive sign of civil defence... is to be utilized as provided for in the Protocols Additional to the Geneva Conventions...

...

Signs, pictures or terms which resemble the emblems, signs or terms referred to in § 1 to such a degree that confusion may arise, shall not be used.⁶⁴⁴

⁶³⁸ DRC, *Code of Military Justice as amended* (1972), Article 455.

⁶³⁹ Cook Islands, *Geneva Conventions and Additional Protocols Act* (2002), Section 10(1).

⁶⁴⁰ Côte d'Ivoire, *Penal Code as amended* (1981), Article 473.

⁶⁴¹ Croatia, *Criminal Code* (1997), Article 168(1).

⁶⁴² Denmark, *Rescue Preparedness Act* (1992), Article 68.

⁶⁴³ Estonia, *Penal Code* (2001), § 105. ⁶⁴⁴ Finland, *Emblem Act* (1979), §§ 1 and 2.

The Act further punishes “whosoever makes use of the emblems, signs, pictures or terms referred to in §§ 1 and 2 in . . . unauthorised activity”.⁶⁴⁵

599. France’s Code of Military Justice punishes:

any individual, military or not, who, in time of war, in the area of operations of a force or unit, in violation of the laws and customs of war, uses improperly the distinctive signs and emblems defined by international conventions to ensure respect for persons, objects and places protected by those conventions.⁶⁴⁶

600. Guinea’s Criminal Code punishes “anyone [who], in an area of military operations and in violation of the laws and customs of war, uses distinctive insignia and emblems defined in international conventions to ensure respect for protected persons, objects and places”.⁶⁴⁷

601. Under Ireland’s Geneva Conventions Act as amended, any “minor breach” of AP I, including violations of Articles 38(1) and 66(8) AP I, is a punishable offence.⁶⁴⁸

602. Italy’s Wartime Military Penal Code punishes anyone who “uses improperly . . . the international distinctive signs of protection”.⁶⁴⁹

603. Mali’s Code of Military Justice punishes:

any individual . . . who, in time of war, in the area of operations of a military force and in violation of the laws and customs of war, improperly uses the distinctive signs and emblems defined in international conventions to ensure respect for persons, objects and places protected by these conventions.⁶⁵⁰

604. Norway’s Penal Code provides that it is a punishable offence to use “without authority publicly or for an unlawful purpose . . . any badge or designation which by international agreement binding on Norway is designed for use in connection with . . . the protection of cultural values in war”.⁶⁵¹

605. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment”.⁶⁵²

606. Poland’s Penal Code punishes “any person who, during hostilities, uses the protective sign of cultural property or any other sign protected by international law”, in violation thereof.⁶⁵³

607. Under Slovenia’s Penal Code, “whoever abuses or carries without authorisation . . . internationally recognised symbols used for the protection . . . against military operations” commits a war crime.⁶⁵⁴

⁶⁴⁵ Finland, *Emblem Act* (1979), § 6.

⁶⁴⁷ Guinea, *Criminal Code* (1998), Article 579.

⁶⁴⁸ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁶⁴⁹ Italy, *Wartime Military Penal Code* (1941), Article 180(3).

⁶⁵⁰ Mali, *Code of Military Justice* (1995), Article 145.

⁶⁵¹ Norway, *Penal Code* (1902), § 328(4)(b).

⁶⁵² Norway, *Military Penal Code as amended* (1902), § 108(b).

⁶⁵³ Poland, *Penal Code* (1997), Article 126(2).

⁶⁵⁴ Slovenia, *Penal Code* (1994), Article 386(1).

608. Spain's Penal Code punishes "anyone who, during an armed conflict . . . uses improperly the protective or distinctive signs, emblems or signals established and recognised under international treaties to which Spain is a party".⁶⁵⁵

609. Under Sweden's Emblems and Signs Act as amended, "the international distinctive sign of civil defence . . . may not be used without the permission of the Government or a competent agency authorised by the Government".⁶⁵⁶

610. Under Sweden's Penal Code as amended, misuse of the insignia referred to in the Emblems and Signs Act as amended, including the sign of civil defence, and misuse of "other internationally recognised insignia" are crimes against international law.⁶⁵⁷

611. Switzerland's Law on the Protection of the UN Names and Emblems provides that:

1. It is prohibited to use the following signs, communicated to Switzerland through the International Bureau for the Protection of Industrial Property and belonging to the specialised agencies of the United Nations or to other inter-governmental organisations linked to the United Nations:
 - a. The name of these organisations (in official Swiss languages and in English);
 - b. Their acronyms (in official Swiss languages and in English);
 - c. Their arms, flags and other emblems.
2. The prohibition applies similarly to imitations of the signs referred to in paragraph (1).

...

Anyone who, intentionally and in violation of the provisions of the present law, has made use of the names, acronyms, arms, flags and other emblems of inter-governmental organisations referred to in article . . . 2 . . . or of any other signs constituting imitation thereof, . . . [commits a punishable offence].⁶⁵⁸

612. Switzerland's Law on the Protection of Cultural Property notes that "the sign of cultural property as a protective sign and the denomination 'cultural property sign' may be used only for the purpose of protecting cultural property".⁶⁵⁹ It punishes "whoever, intentionally and without being entitled to do so, in order to obtain protection of public international law or another advantage, uses the sign of cultural property or the denomination 'cultural property sign' or any other sign capable of causing confusion".⁶⁶⁰

613. The UK Geneva Conventions Act as amended provides that:

Subject to the provisions of this section, it shall not be lawful for any person, without the authority of the Secretary of State, to use for any purpose whatsoever any of the following emblems or designations, that is to say –

⁶⁵⁵ Spain, *Penal Code* (1995), Article 612(4).

⁶⁵⁶ Sweden, *Emblems and Signs Act as amended* (1953), Section 4.

⁶⁵⁷ Sweden, *Penal Code as amended* (1962), Chapter 22, § 6(2).

⁶⁵⁸ Switzerland, *Law on the Protection of the UN Names and Emblems* (1961), Articles 2 and 7(1).

⁶⁵⁹ Switzerland, *Law on the Protection of Cultural Property* (1966), Article 19.

⁶⁶⁰ Switzerland, *Law on the Protection of Cultural Property* (1966), Article 27.

...
 (d) the sign of an equilateral blue triangle on, and completely surrounded by, an orange ground, being the international distinctive sign of civil defence...⁶⁶¹

614. Under the Penal Code as amended of the SFRY (FRY), “those who misuse or carry without permission... recognised international emblems which are used to mark certain objects in order to protect them from military operations” commit a war crime.⁶⁶² The commentary on the Code states that “the misuse of international emblems is committed, as a rule, during a war or an armed conflict... The aggravated form of this criminal act... exists when the misuse or unauthorised use of international emblems is committed in the war operations zone.”⁶⁶³

615. Zimbabwe’s Geneva Conventions Act as amended provides that:

Subject to the provisions of this section and of section 7 of the Zimbabwe Red Cross Society Act, 1981, no person shall, without the authority in writing of the Minister of Health, use for any purpose whatsoever any of the following emblems or designations –

...
 (d) the sign of an equilateral blue triangle on and completely surrounded by an orange ground, being the international distinctive sign of civil defence.⁶⁶⁴

National Case-law

616. No practice was found.

Other National Practice

617. At the final plenary meeting of the CDDH, Israel declared that:

With regard to Article 36 of draft additional Protocol I [now Article 38 AP I], the delegation of Israel wishes to declare that it attaches special importance to the second sentence of paragraph 1. This sentence forbids the misuse of any other protective emblem which has been recognized by States or has been used with the knowledge of the other Party.⁶⁶⁵

618. A training video on IHL produced by the UK Ministry of Defence illustrates the rule that the false use of emblems is forbidden.⁶⁶⁶

619. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that “we support the principle... that internationally recognized protective emblems... not be improperly used”.⁶⁶⁷

*III. Practice of International Organisations and Conferences**United Nations*

620. No practice was found.

Other International Organisations

621. No practice was found.

International Conferences

622. In a meeting of independent experts organised by the ICDO and the ICRC in 1997, "the importance was strongly emphasised of adopting appropriate national legislation to regulate use of the civil defence emblem and impose penalties for incorrect use and for misuse. It was agreed that the States party to [AP I] should be reminded of that obligation."⁶⁶⁸ Furthermore, "the problem that civil defence activities were wider than those entitled to protection had been raised and care must be exercised to ensure that in wartime the emblem was borne only in the performance of activities entitled to protection under Protocol I".⁶⁶⁹ According to a survey conducted by the ICDO and the ICRC, 63 per cent of States party to AP I that replied had a law forbidding the abusive use of the civil defence emblem (the number of replies was not indicated).⁶⁷⁰

IV. Practice of International Judicial and Quasi-judicial Bodies

623. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

624. According to the ICRC Commentary on the Additional Protocols, "Israel claims that the prohibition of deliberately misusing internationally recognized protective emblems, signs or signals in armed conflicts also applies to the red shield of David".⁶⁷¹

625. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 425.

⁶⁷¹ Yves Sandoz *et al.* (eds.), *Commentary on the Additional Protocols*, ICRC, Geneva, 1987, § 1557, footnote 40.

It is prohibited to make improper use (that is to mark other persons and objects than those entitled to) of:

- ...
- (b) the distinctive sign of civil defence;
- (c) the distinctive sign of cultural objects;
- (d) the distinctive sign of works and installations containing dangerous forces;
- ...
- (f) other internationally recognized distinctive signs and signals (e.g. ad hoc signs for demilitarized zones, for non-defended localities, ad hoc signals for civil defence).⁶⁷²

VI. *Other Practice*

626. No practice was found.

F. **Improper Use of Flags or Military Emblems, Insignia or Uniforms of the Adversary**

I. *Treaties and Other Instruments*

Treaties

627. Article 23(f) of the 1899 HR provides that "it is especially prohibited . . . to make improper use of . . . the national flag or military ensigns and uniform of the enemy".

628. Article 23(f) of the 1907 HR provides that "it is especially forbidden . . . to make improper use . . . of the national flag or of the military insignia and uniform of the enemy".

629. Article 93, second paragraph, GC III provides that:

Offences committed by prisoners of war with the sole intention of facilitating their escape and which do not entail any violence against life or limb, such as offences against public property, theft without intention of self-enrichment, the drawing up or use of false papers, the wearing of civilian clothing, shall occasion disciplinary punishment only.

630. Article 39(2) AP I provides that "it is prohibited to make use of the flags or military emblems, insignia or uniforms of adverse Parties while engaging in attacks or in order to shield, favour, protect or impede military operations". Article 39 AP I was adopted by consensus.⁶⁷³

631. Canada made a reservation upon ratification of AP I, stating that it "does not intend to be bound by the prohibitions contained in paragraph 2 of Article

⁶⁷² Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 407(b), (c), (d) and (f).

⁶⁷³ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 103.

39 to make use of military emblems, insignia or uniforms of adverse parties in order to shield, favour, protect or impede military operations.⁶⁷⁴

632. Article 21(1) of draft AP II submitted by the ICRC to the CDDH provided that “when carried out in order to commit or resume hostilities, . . . the use in combat of the enemy’s distinctive military emblems” was considered as perfidy.⁶⁷⁵ However, this proposal was deleted from draft Article 21 adopted in Committee III of the CDDH.⁶⁷⁶

633. Pursuant to Article 8(2)(b)(vii) of the 1998 ICC Statute, “making improper use . . . of the flag or of the military insignia and uniform of the enemy . . . resulting in death or serious personal injury” is a war crime in international armed conflicts.

Other Instruments

634. Article 63 of the 1863 Lieber Code states that those fighting in the uniform of their enemy can expect no quarter. Article 65 states that the “use of the enemy’s national standard, flag, or other emblem of nationality, for the purpose of deceiving the enemy in battle, is an act of perfidy by which [troops] lose all claim to the protection of the laws of war”.

635. Article 13(f) of the 1874 Brussels Declaration provides that “making improper use . . . of the national flag or of the military insignia and uniform of the enemy” is “especially forbidden”.

636. Article 8(d) of the 1880 Oxford Manual provides that “it is forbidden . . . to make improper use of the national flag, military insignia or uniform of the enemy”.

637. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 39(2) AP I.

638. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 39(2) AP I.

639. According to paragraph 110 of the 1994 San Remo Manual, “warships and auxiliary vessels . . . are prohibited from launching an attack whilst flying a false flag”.

640. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(vii), “making improper use . . . of the flag or of the military insignia and uniform of the enemy . . . resulting in death or serious personal injury” is a war crime in international armed conflicts.

⁶⁷⁴ Canada, Reservations and statements of understanding made upon ratification, 20 November 1990, § 2.

⁶⁷⁵ CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 39.

⁶⁷⁶ CDDH, *Official Records*, Vol. XV, CDDH/407/Rev.1, 17 March–10 June 1977.

II. National Practice

Military Manuals

641. Argentina's Law of War Manual (1969) states that it is an act violating the principle of good faith "to make an improper use of the enemy's national flag, . . . uniforms and/or military insignia". It considers such use "improper" when it occurs during combat operations.⁶⁷⁷

642. Argentina's Law of War Manual (1989) provides that "it is prohibited . . . to use the flags, emblems, insignia or military uniforms of the enemy during the execution of military operations".⁶⁷⁸

643. Australia's Commanders' Guide provides that "it is . . . prohibited to use the flags or military emblems, insignia or uniforms of the enemy while engaging in attacks or in order to shield, favour, protect or impede military operations".⁶⁷⁹ It also provides that "it is illegal to use in battle emblems, markings or clothing of . . . [the] enemy".⁶⁸⁰ The manual further states that "according to custom, it is permissible for a belligerent warship to use false colours and disguise her outward appearance in order to deceive an enemy, provided that prior to going into action the warship shows her true colours".⁶⁸¹

644. Australia's Defence Force Manual provides that "it is . . . prohibited to use the flags or military emblems, insignia or uniforms of the enemy while engaging in attacks or in order to shield, favour, protect or impede military operations. Enemy uniforms may otherwise be worn."⁶⁸² The manual also states that "warships and auxiliary vessels may fly a false flag up until the moment of launching an attack but are prohibited from launching an attack whilst flying a false flag".⁶⁸³

645. Belgium's Law of War Manual provides that:

The [1907 HR] prohibits to use "*improperly*" the national flag, or the military insignia and uniform of the enemy.

The word "*improperly*" must be stressed. It follows that opening fire or participating in an attack while wearing the enemy uniform doubtlessly constitutes an act of perfidy. It is also the case when opening fire from a captured enemy combat vehicle with its insignia.

However, infiltrating enemy lines in order to create panic to the point that the adversary starts firing on its own soldiers believing that they are disguised enemies or operating behind enemy lines wearing enemy uniform in order to collect information or commit acts of sabotage is not considered as using "*improperly*" enemy uniform . . .

⁶⁷⁷ Argentina, *Law of War Manual* (1969), § 1.017.

⁶⁷⁸ Argentina, *Law of War Manual* (1989), § 1.06(3).

⁶⁷⁹ Australia, *Commanders' Guide* (1994), § 904.

⁶⁸⁰ Australia, *Commanders' Guide* (1994), § 507.

⁶⁸¹ Australia, *Commanders' Guide* (1994), § 826.

⁶⁸² Australia, *Defence Force Manual* (1994), § 705.

⁶⁸³ Australia, *Defence Force Manual* (1994), § 635.

It is a recognised practice that warships may, without contravening the law of war, fly the enemy flag, as a ruse, on the condition that at the moment of opening fire the warship shows her true colours . . .

It is prohibited for belligerents to display false markings, especially enemy markings, on their military aircraft.⁶⁸⁴ [emphasis in original]

646. Belgium's Teaching Manual for Officers provides that "the use of flags, symbols, insignia and uniforms of the enemy is prohibited during attacks or to shield, favour, protect or impede a military operation".⁶⁸⁵

647. Burkina Faso's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly . . . the national flag of the enemy".⁶⁸⁶

648. Cameroon's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly . . . the national flag of the enemy".⁶⁸⁷

649. Cameroon's Instructors' Manual states that "using fraudulently the emblems and uniforms of enemy States" is an unlawful deception.⁶⁸⁸

650. Canada's LOAC Manual provides that:

It is prohibited to make use of the flags or military emblems, insignia or uniforms of *adverse parties while engaging in attacks*.

When depositing its ratification of Additional Protocol I, Canada reserved the right to make use of the flags or military emblems, insignia or uniforms of adverse parties *to shield, favour, protect or impede military operations*. Any decision to do so should only be carried out with national level approval.⁶⁸⁹ [emphasis in original]

The manual also states that "it is not unlawful to use captured enemy aircraft. However, the enemy's markings must be removed."⁶⁹⁰ It considers it an act of perfidy in air warfare if a hostile act is committed while "using false markings on military aircraft such as the markings of . . . enemy aircraft".⁶⁹¹ In respect of naval warfare, the manual states that "warships and auxiliary vessels are prohibited from opening fire while flying a false flag".⁶⁹² It also states that "improperly using . . . the national flag or military insignia and uniform of the enemy" constitutes a war crime.⁶⁹³

651. Congo's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly . . . the national flag of the enemy".⁶⁹⁴

⁶⁹² Canada, *LOAC Manual* (1999), p. 8-10, § 78.

⁶⁹³ Canada, *LOAC Manual* (1999), p. 16-3, § 20(f).

⁶⁹⁴ Congo, *Disciplinary Regulations* (1986), Article 32(2).

652. Croatia's *Commanders' Manual* states that "it is prohibited to feign a protected status by inviting the confidence of the enemy: . . . use of enemy uniform or flag".⁶⁹⁵

653. Ecuador's *Naval Manual* provides that:

At sea. Naval surface and subsurface forces may fly enemy colours and display enemy markings to deceive the enemy. Warships must, however, display their true colours prior to an actual armed engagement.

In the air. The use in combat of enemy markings by belligerent military aircraft is forbidden.

On land. The law of land warfare does not prohibit the use by belligerent land forces of enemy flags, insignia, or uniforms to deceive the enemy either before or following an armed engagement. Combatants risk severe punishment, however, if they are captured while displaying enemy colours or insignia or wearing enemy uniforms in combat.

Similarly, combatants caught behind enemy lines wearing the uniform of their adversaries are not entitled to prisoner-of-war status or protection and, historically, have been subjected to severe punishment. It is permissible, however, for downed aircrews and escaping prisoners of war to use enemy uniforms to evade capture, so long as they do not attack enemy forces, collect military intelligence, or engage in similar military operations while so attired. As a general rule, enemy markings should be removed from captured enemy equipment before it is used in combat.⁶⁹⁶

654. France's *Disciplinary Regulations as amended* states that it is prohibited "to use improperly . . . the national flag of the enemy".⁶⁹⁷

655. France's *LOAC Summary Note* provides that "perfidy is prohibited. It is prohibited . . . to use the uniform or emblem of the enemy."⁶⁹⁸

656. France's *LOAC Teaching Note* provides that "perfidy is prohibited, notably . . . the use of the uniform or emblem of the adversary".⁶⁹⁹

657. France's *LOAC Manual* states that "it is normally prohibited to use the flags, emblems or uniforms of enemy States in combat with the view to dissimulate, favour or impede military operations. However, it is traditionally permitted for warships to hoist false flags as long as they are not engaged in combat."⁷⁰⁰

658. Germany's *Military Manual* provides that "it is prohibited to make improper use of . . . enemy . . . national flags, military insignia and uniforms".⁷⁰¹ It further states that "ruses of war are permissible also in naval warfare. Unlike land and aerial warfare, naval warfare permits the use of false flags or military emblems . . . Before opening fire, however, the true flag shall always be displayed."⁷⁰²

operations".⁷¹⁶ In respect of naval warfare, it provides that "according to custom, it is permissible for a belligerent warship to use false colours and to disguise her outward appearance in other ways in order to deceive an enemy, provided that prior to going into action the warship shows her true colours. Aircraft are not, however, entitled to use false markings."⁷¹⁷ The manual also specifies that "the use of false markings on military aircraft such as the markings of . . . enemy aircraft is the prime example of perfidious conduct in air warfare and is prohibited".⁷¹⁸ It further states that "improperly using . . . the national flag or military insignia and uniform of the enemy" is a war crime.⁷¹⁹

673. Nigeria's Manual on the Laws of War states that the "use . . . of enemy uniform by troops engaged in a battle" is a war crime.⁷²⁰

674. Nigeria's Soldiers' Code of Conduct provides that it is prohibited "to make improper use of the national flag or of the military insignia and uniform of the enemy".⁷²¹

675. Under Romania's Soldiers' Manual, the "use of enemy's uniforms and insignia" is an act of perfidy.⁷²²

676. Under Russia's Military Manual, the improper use of national signals and flags is a prohibited method of warfare.⁷²³

677. Senegal's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to use improperly . . . the national emblem of the enemy".⁷²⁴

678. South Africa's LOAC Manual provides that "it is prohibited to use the insignia or uniforms of the enemy while engaging in attacks or in order to shield, favour, protect or impede military operations . . . All insignia on enemy equipment must be removed before the equipment may be utilised by own forces."⁷²⁵

679. Spain's LOAC Manual provides that the use of enemy flags, emblems, insignia and military uniforms while engaging in attack or in order to shield, favour, protect or impede military operations is prohibited.⁷²⁶ It also states that "it is prohibited to feign a protected status by inviting the confidence of the enemy: . . . use of enemy uniform or flag".⁷²⁷

680. Sweden's IHL Manual considers that the "prohibition of improper use of . . . emblems of nationality", as contained in Article 39 AP I, is part of

⁷²¹ Nigeria, *Soldiers' Code of Conduct* (undated), § 12(f).

⁷²² Romania, *Soldiers' Manual* (1991), p. 35.

⁷²³ Russia, *Military Manual* (1990), § 5(c).

⁷²⁴ Senegal, *Disciplinary Regulations* (1990), Article 34(2).

⁷²⁵ South Africa, *LOAC Manual* (1996), § 34(b).

⁷²⁶ Spain, *LOAC Manual* (1996), Vol. I, §§ 3.3.c.(1) and 5.3.c.

⁷²⁷ Spain, *LOAC Manual* (1996), Vol. I, § 10.8.e.(1).

customary international law.⁷²⁸ It stresses that Article 39(2) AP I “constitutes a valuable clarification of international humanitarian law, and one which is also significant for Swedish defence”. The manual explains that:

The prohibition of improper use has been interpreted to mean that enemy uniform may not be used in connection with or during combat, and this has led to great uncertainty in application.

During the 1974–1977 diplomatic conference, certain of the great powers wished to retain the possibility of appearing in enemy uniforms, while most of the smaller states claimed that this possibility should be excluded or minimized. The conference accepted the view of the smaller states here. The rule in Article 39:2 [AP I] can be interpreted to mean that enemy uniform may be used only as personal protection, for example under extreme weather conditions, and may never be used in connection with any type of military operation. Where prisoners of war make use of enemy uniforms in connection with escape attempts, this may not be seen as an infringement of Article 39.⁷²⁹

681. Switzerland’s Basic Military Manual provides that “it is notably forbidden . . . to abuse a protected status by using . . . emblems or uniforms of the adverse . . . nation”. It regards this behaviour as a perfidious act.⁷³⁰ It further stresses that “it is prohibited to use improperly the military insignia or uniform of the enemy”. It gives the example of the prohibition of attacking the enemy while wearing its uniform.⁷³¹

682. The UK Military Manual describes as treachery calling out “Do not fire, we are friends”, and then firing, noting that this “device is often accompanied by the use of enemy uniforms”.⁷³² It also states that “if, owing to shortage of clothing, it becomes necessary to utilise apparel captured from the enemy, the badges should be removed before the articles are worn”.⁷³³ It further states that:

The employment of the national flag, military insignia or uniform of the enemy for the purpose of ruse is not forbidden, but the [1907 HR] prohibit their improper use, leaving unsettled what use is proper and what use is not. However, their employment is forbidden during a combat, that is, the opening of fire whilst in the guise of the enemy. But there is no unanimity as to whether the uniform of the enemy may be worn and his flag displayed for the purpose of approach or withdrawal. Use of enemy uniform for the purpose of and in connection with sabotage is in the same category as spying.⁷³⁴

Furthermore, the manual states that “in addition to ‘grave breaches’ of the 1949 [Geneva] Conventions, . . . the following are examples of punishable violations of the laws of war, or war crimes: . . . use . . . of enemy uniform by troops engaged in a battle”.⁷³⁵ Lastly, it states that “although no such opportunities of closing

⁷³⁴ UK, *Military Manual* (1958), § 320.

⁷³⁵ UK, *Military Manual* (1958), § 626(f).

with the enemy by exhibiting his flag are possible in land warfare as in the case of naval warfare, national flags might be used to mislead the enemy".⁷³⁶

683. The UK LOAC Manual provides that "it is forbidden . . . to make improper use in combat . . . of the enemy's national flag or uniform".⁷³⁷

684. The US Field Manual states that "it is especially forbidden to make improper use . . . of the national flag, or military insignia and uniform of the enemy".⁷³⁸ According to the manual,

In practice, it has been authorized to make use of national flags, insignia, and uniforms as a ruse. The foregoing rule (*HR, art. 23, par. (f)*) does not prohibit such employment, but does prohibit their *improper use*. It is certainly forbidden to employ them during combat, but their use at other times is not forbidden.⁷³⁹ [emphasis in original]

The manual also states that:

Members of the armed forces of a party to the conflict and members of militias or volunteer corps forming part of such armed forces lose their right to be treated as prisoners of war whenever they deliberately conceal their status in order to pass behind the military lines of the enemy for the purpose of gathering military information or for the purpose of waging war by destruction of life or property. Putting on civilian clothes or the uniform of the enemy are examples of concealment of the status of a member of the armed forces.⁷⁴⁰

685. The US Air Force Pamphlet incorporates the content of Article 23(f) of the 1907 HR and adds that the prohibited improper use of the enemy's flags, military insignia, national markings and uniforms "involves use in actual attacks".⁷⁴¹ It further provides that:

Members of the armed forces of a party to the conflict and members of militias or volunteer corps forming part of such armed forces lose their right to be treated as prisoners of war whenever they deliberately conceal their status in order to pass behind the military lines of the enemy for the purpose of gathering military information or for the purpose of waging war by destruction of life or property. Putting on civilian clothes or the uniform of the enemy are examples of concealment of the status of a member of the armed forces. Ground forces engaged in actual combat, in contrast to ground forces preparing for combat, are required to wear their own uniform or distinctive national insignia.

...

While combatant airmen are not absolutely required to wear a uniform or distinctive national insignia while flying in combat, improper use of the military insignia or uniform of the enemy is forbidden. Consequently, airmen should not wear the uniform or national insignia of the enemy while engaging in combat operations. Military aircraft, as entities of combat in aerial warfare, are also required to be marked with appropriate signs of their nationality and military character.⁷⁴²

⁷³⁶ UK, *Military Manual* (1958), § 321. ⁷³⁷ UK, *LOAC Manual* (1981), Section 4, p. 12, § 2d.

⁷³⁸ US, *Field Manual* (1956), § 52. ⁷³⁹ US, *Field Manual* (1956), § 54.

⁷⁴² US, *Air Force Pamphlet* (1976), §§ 7-2 and 7-4.

686. The US Naval Handbook states that:

At Sea. Naval surface and subsurface forces may fly enemy colors and display enemy markings to deceive the enemy. Warships must, however, display their true colors prior to an actual armed engagement.

In the Air. The use in combat of enemy markings by belligerent military aircraft is forbidden.

On Land. The law of land warfare does not prohibit the use by belligerent land forces of enemy flags, insignia, or uniforms to deceive the enemy either before or following an armed engagement. Combatants risk severe punishment, however, if they are captured while displaying enemy colors or insignia or wearing enemy uniforms in combat.

Similarly, combatants caught behind enemy lines wearing the uniform of their adversaries are not entitled to prisoner-of-war status or protection and, historically, have been subjected to severe punishment. It is permissible, however, for downed aircrews and escaping prisoners of war to use enemy uniforms to evade capture, so long as they do not attack enemy forces, collect military intelligence, or engage in similar military operations while so attired. As a general rule, enemy markings should be removed from captured enemy equipment before it is used in combat.⁷⁴³

687. The YPA Military Manual of the SFRY (FRY) provides that “it is forbidden to use, during combat, in order to mislead the enemy, . . . enemy military insignia (military flags, emblems or badges)”.⁷⁴⁴

National Legislation

688. Algeria’s Code of Military Justice punishes the unauthorised use of the insignia of foreign armed forces.⁷⁴⁵

689. Argentina’s Draft Code of Military Justice punishes any soldier who

uses improperly, or in a perfidious manner, the flag, uniform, insignia or distinctive emblem . . . of adverse parties, during attacks or to cover, favour, protect or impede military operations, except in cases expressly provided for in international treaties to which the Argentine Republic is a party.⁷⁴⁶

690. Under Armenia’s Penal Code, “the use during military actions of . . . the flag or insignia of the enemy . . . in breach of international treaties and international law” constitutes a crime against the peace and security of mankind.⁷⁴⁷

691. Australia’s ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including “improper use of a flag, insignia or uniform of the adverse party . . . while

engaged in an attack or in order to shield, favour, protect or impede military operations" in international armed conflicts.⁷⁴⁸

692. The Criminal Code of Belarus provides that it is a war crime to "use intentionally, during hostilities, in violation of international treaties, . . . the national flag or distinctive signs of an adverse Power".⁷⁴⁹

693. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "using improperly . . . the flag or military insignia and uniform of the enemy" constitutes a war crime in international armed conflicts.⁷⁵⁰

694. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.⁷⁵¹

695. Under Colombia's Penal Code, the use of enemy uniforms with the intent to injure or kill an adversary is a punishable offence.⁷⁵²

696. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.⁷⁵³

697. Egypt's Military Criminal Code punishes any enemy soldier who, disguised in a friendly uniform, enters a military camp, defended position or institution.⁷⁵⁴

698. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, such as "making improper use . . . of the flag or of the military insignia and uniform of the enemy . . . resulting in death or serious personal injury" in international armed conflicts, is a crime.⁷⁵⁵

699. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or non-international armed conflict, "makes improper use . . . of the flag or of the military insignia or of the uniform of the enemy . . . thereby causing a person's death or serious injury".⁷⁵⁶

700. Greece's Military Penal Code prohibits the misuse of military uniforms or emblems.⁷⁵⁷

701. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 39(2) AP I, is a punishable offence.⁷⁵⁸

⁷⁵⁸ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

702. Under Italy's Law of War Decree as amended, it is prohibited "to use flags, insignia or military uniforms other than the country's own".⁷⁵⁹ It further provides that "warships may not enter into hostilities without a flag or with a flag other than the country's own".⁷⁶⁰

703. Italy's Wartime Military Penal Code punishes anyone who "uses improperly the flag, insignia or military uniforms other than the country's own".⁷⁶¹

704. Under Mali's Penal Code, "using...the flag or military insignia and uniform of the enemy...and, thereby, causing loss of human lives or serious injuries" is a war crime in international armed conflicts.⁷⁶²

705. Under the International Crimes Act of the Netherlands, "making improper use...of the flag or of the military insignia and uniform of the enemy, ...resulting in death of serious personal injury", is a crime, when committed in an international armed conflict.⁷⁶³

706. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.⁷⁶⁴

707. Nicaragua's Military Penal Code punishes any soldier who, in time of war and in an area of military operations, "unlawfully displays...enemy flags or emblems".⁷⁶⁵

708. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in...the two additional protocols to [the Geneva] Conventions...is liable to imprisonment".⁷⁶⁶

709. According to the Report on the Practice of Pakistan, Pakistan's Official Secrets Act and Public Order Ordinance punish the unauthorised use of the uniforms or insignia of the armed forces.⁷⁶⁷

710. Poland's Penal Code punishes "any person who, during hostilities, uses...flags or military emblems of an enemy...State...in violation of international law".⁷⁶⁸

711. Spain's Royal Ordinance for the Armed Forces states that "the combatant...shall not display treacherously...the enemy flag".⁷⁶⁹

712. Spain's Military Criminal Code punishes any soldier who "displays improperly...enemy flags and emblems".⁷⁷⁰

⁷⁵⁹ Italy, *Law of War Decree as amended* (1938), Article 36(2).

⁷⁶⁹ Spain, *Royal Ordinance for the Armed Forces* (1978), Article 138.

⁷⁷⁰ Spain, *Military Criminal Code* (1985), Article 75(1).

713. Spain's Penal Code punishes "anyone who, during an armed conflict . . . uses improperly or in a perfidious manner the flag, uniform, insignia or distinctive emblem . . . of adverse Parties, during attacks or to cover, favour, protect or impede military operations".⁷⁷¹

714. Syria's Penal Code punishes the wearing by any person of an official uniform or insignia of a foreign State.⁷⁷²

715. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.⁷⁷³

716. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(vii) of the 1998 ICC Statute.⁷⁷⁴

717. Under the US War Crimes Act as amended, violations of Article 23(f) of the 1907 HR are war crimes.⁷⁷⁵

718. Under the Penal Code as amended of the SFRY (FRY), the use of a prohibited method of combat is a war crime.⁷⁷⁶ The commentary on the Code provides that "the following methods of combat are banned under international law: . . . abuse of . . . enemy uniforms or enemy army or state flag".⁷⁷⁷

National Case-law

719. In the *Skorzeny case* before the US General Military Court of the US Zone of Germany in 1947, the accused, German officers, were charged with participating in the improper use of American uniforms by entering into combat disguised therewith and treacherously firing upon and killing members of the US armed forces. The Court did not consider it improper for German officers to wear enemy uniforms while trying to occupy enemy military objectives. There was no evidence that they had used their weapons while so disguised, so the accusation of war crime was rejected. All the accused were acquitted and the Court did not give reasons for its decision.⁷⁷⁸

Other National Practice

720. During the Chinese civil war, the Chinese Communist Party denounced the use of Red Army uniforms by Nationalist soldiers. The uniforms were used while committing reprehensible acts to discredit the Red Army. According to the Report on the Practice of China, soldiers captured while wearing the Red Army uniform were still treated as prisoners of war.⁷⁷⁹

⁷⁷¹ Spain, *Penal Code* (1995), Article 612(5).

⁷⁷² Syria, *Penal Code* (1949), § 381.

⁷⁷⁹ Report on the Practice of China, 1997, Chapter 2.6. (No source or document is cited.)

721. The Report on the Practice of Germany provides that:

An official document of 1978 states that the improper use of uniforms can be seen as an act of perfidy. It continues by stating that there would be no breach in the case of wearing a uniform which is incomplete. International law contains no rules on the composition of uniforms. The important element is a certain designation or identification in order to comply with the principle of distinction. This designation does not necessarily have to be a uniform in the traditional sense.⁷⁸⁰

722. According to the Report on the Practice of India, there are no provisions in the Indian Army Regulations which would permit the use of enemy uniforms either in combat or other circumstances.⁷⁸¹

723. On the basis of the reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq concludes that a combatant wearing an enemy uniform to create confusion and disorder among its ranks would lose any protection under international law.⁷⁸²

724. According to the Report on the Practice of Jordan, there is no Jordanian provision prohibiting the use of enemy uniforms.⁷⁸³

725. According to the Report on the Practice of South Korea, in the context of the North Korean Submarine Infiltration case, a report of the Intelligence Analysis Division of the Korean Ministry of Reunification pointed out that North Korean military personnel wearing South Korean military uniform lost their prisoner-of-war status. In the same context, a spokesman for the South Korean Ministry of Defence condemned the use of South Korean military uniforms by North Korean military personnel.⁷⁸⁴

726. On the basis of replies by army officers to a questionnaire, the Report on the Practice of Rwanda states that "treason . . . is prohibited" and "the improper use of uniforms is considered an act of treason" as well as a crime.⁷⁸⁵

727. In 1996, in its oral pleadings before the ECtHR in the case of *Akdivar and Others v. Turkey*, Turkey complained that the PKK very often used uniforms of soldiers belonging to the Turkish army who had been killed, so as to conceal the identities of the actual perpetrators of attacks.⁷⁸⁶

728. It was reported that, during the December 1944 Battle of the Bulge, the US army executed 18 German soldiers apprehended in US uniforms on charges of spying.⁷⁸⁷

⁷⁸⁰ Report on the Practice of Germany, 1997, Chapter 2.6. (No source or document is cited.)

729. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that “we do not support the prohibition in article 39 [AP I] of the use of enemy emblems and uniforms during military operations”.⁷⁸⁸

730. According to the Report on US Practice, the *Skorzeny case* is the leading authority for the US armed forces. It adds that it is the *opinio juris* of the US that the use of enemy uniforms is a lawful ruse of war as long as they are not used in actual combat.⁷⁸⁹

731. The Report on the Practice of the SFRY (FRY) mentions the use of YPA insignia by Croatian soldiers when entering a Serb village. Civilians who went out to greet them were killed. No official statement on or reaction to the incident is provided by the report.⁷⁹⁰ The report also notes that misuse or improper use of uniforms on the part of paramilitary formations and armed forces occurred at the beginning of the conflicts in Slovenia and Croatia. According to the report, it appears that the issue was not of primary importance and, therefore, cases of violations were not systematically recorded, although they undoubtedly existed and were committed by all parties to the conflict.⁷⁹¹

732. The Report on the Practice of Zimbabwe states that “improper use of uniforms could be regarded as a legitimate ruse of war and is not necessarily perfidious”. No documents or sources are mentioned.⁷⁹²

III. Practice of International Organisations and Conferences

733. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

734. In its report in *Chrysostomos and Papachrysostomou v. Turkey* in 1993, the ECiHR noted the admitted practice that Turkish soldiers and Turkish Cypriot soldiers were wearing the same camouflage uniforms. It considered that the practice constituted “a deliberate tactic of disguise aimed at preventing the public from distinguishing between actions by Turkish soldiers and actions by Turkish Cypriot soldiers”. The Commission did not condemn the practice as such, but it considered that it had to take it into account when

Uniform of the Enemy or Civilian Clothes and of Spying and Assassination”, *Revue de Droit Militaire et de Droit de la Guerre*, Vol. 33, 1994, p. 217.

determining the responsibility of Turkey. In fact, recalling the practice, it found that the applicants' arrest was imputable to Turkey.⁷⁹³

V. Practice of the International Red Cross and Red Crescent Movement

735. The ICRC Commentary on the Additional Protocols states that:

The prohibition formulated in Article 39 [AP I], "while engaging in attacks or in order to shield, favour, protect or impede military operations", includes the preparatory stage to the attack . . . It means that every possible exception should always be examined on its merits, a point that legal experts had stressed throughout . . . Under the provisions of the Hague Regulations [1907 HR], there is no doubt whatsoever that wearing an enemy uniform is not prohibited in this case [in order to conceal, facilitate or protect escape].⁷⁹⁴

736. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "it is prohibited to use the flags, emblems or uniforms of the enemy: a) while engaging in combat action; b) in order to shield, favour or impede military operations".⁷⁹⁵

737. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC included the "improper use . . . of the national flag or of the military insignia and uniform of the enemy", when committed in an international armed conflict, in its list of war crimes to be subject to the jurisdiction of the Court.⁷⁹⁶

VI. Other Practice

738. In 1986, in a report on human rights in Nicaragua, Americas Watch noted that, in some incidents involving attacks against non-combatants, "some of the *contras* . . . are said to wear red and black kerchiefs, traditionally worn by the *Sandinistas*, as a way of deceiving people about their true identity". It also reported that some of the forces of the FDN, when they launched an attack on a certain city, "entered the town surreptitiously wearing uniforms resembling those worn by Nicaraguan Army troops".⁷⁹⁷

739. In 1991, a Minister of a State transmitted to the ICRC allegations of use of army uniforms by irregular forces when ICRC delegates or EC observers were approaching.⁷⁹⁸

⁷⁹⁸ ICRC archive document.

740. Parks has established a list of examples of conflicts since the Second World War in which the wearing of enemy uniforms was practised: France in Algeria (1958–1962); North Vietnam in South Vietnam (1968); US in Southeast Asia (1965–1972); Soviet Union in Southeast Asia (1971–1972); Israel in the Middle East (1967, 1973); Rhodesia in Zambia and Mozambique (1970s); Israel in Uganda (1976); Mozambique in South Africa (1978); North Korea in South Korea (June 1983); Sendero Luminoso (“Shining Path”) in Peru (1984); Chad in Libya (1985); FMLN in El Salvador (1985–1988); and Sandinistas in Nicaragua (1986).⁷⁹⁹

741. The Report on SPLM/A Practice notes that the SPLA successfully deceived a high-ranking commander of the governmental forces into landing at a rendez-vous secured by SPLA forces. The officer was lured in part by SPLA combatants wearing governmental uniforms. In another instance, a SPLA contingent captured a town “without firing a shot” by entering the town under the guise of friendly troops bringing supplies and salaries.⁸⁰⁰

G. Use of Flags or Military Emblems, Insignia or Uniforms of Neutral or Other States Not Party to the Conflict

Note: *For practice concerning the use of flags or military emblems, insignia or uniforms of neutral or other States not party to the conflict as an act considered perfidious, see infra section I of this chapter.*

I. Treaties and Other Instruments

Treaties

742. Under Article 39(1) AP I, “it is prohibited to make use in an armed conflict of the flags or military emblems, insignia or uniforms of neutral or other States not Parties to the conflict”. Article 39 AP I was adopted by consensus.⁸⁰¹

Other Instruments

743. Paragraph 109 of the 1994 San Remo Manual provides that “military and auxiliary aircraft are prohibited at all times from feigning...neutral status”.

II. National Practice

Military Manuals

744. Australia’s Commanders’ Guide states that “it is prohibited to use flags, military emblems, insignia or uniforms of neutral or other States not party to the conflict”.⁸⁰² It further specifies that:

⁷⁹⁹ W. Hays Parks, *Air War and the Law of War*, *The Air Force Law Review*, Vol. 32, 1990, p. 77, footnote 259.

⁸⁰⁰ Report on SPLM/A Practice, 1998, Chapter 2.6.

⁸⁰¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 103.

⁸⁰² Australia, *Commanders’ Guide* (1994), § 904.

The clothing of neutral nations must never be worn by the forces of a belligerent. Nor should flags, symbols and military markings of a neutral nation be used by a belligerent. While naval ships may use such markings in operations that do not involve actual combat, no similar rule applies to military aircraft or land operations.⁸⁰³

745. Australia's Defence Force Manual provides that "in armed conflict, it is prohibited to use flags, military emblems, insignia or uniforms of neutral or other nations not party to the conflict".⁸⁰⁴

746. Belgium's Teaching Manual for Officers stipulates that the use of flags, symbols, insignia and uniforms of neutral or other States not parties to the conflict is prohibited "in all circumstances".⁸⁰⁵

747. Cameroon's Instructors' Manual states that "using fraudulently the emblems and uniforms of neutral States" is an unlawful deception.⁸⁰⁶

748. Canada's LOAC Manual states that "it is prohibited to make use in armed conflict of flags or military emblems, insignia or uniforms of *neutral or other states not parties to the conflict*".⁸⁰⁷ (emphasis in original)

749. Ecuador's Naval Manual states that:

At Sea. Under the customary international law of naval warfare, it is permissible for a belligerent warship to fly false colours and disguise its outward appearance in other ways in order to deceive the enemy into believing the vessel is of neutral nationality or is other than a warship. However, it is unlawful for a warship to go into action without first showing her true colours. Use of neutral flags, insignia, or uniforms during an actual armed engagement at sea is, therefore, forbidden.

In the Air. Use in combat of false or deceptive markings to disguise belligerent military aircraft as being of neutral nationality is prohibited.

On Land. The law of armed conflict applicable to land warfare has no rule of law analogous to that which permits belligerent warships to display neutral colours.

Belligerents engaged in armed conflict on land are not permitted to use the flags, insignia, or uniforms of a neutral nation to deceive the enemy.⁸⁰⁸

750. France's LOAC Manual provides that "it is prohibited to use the flags, emblems or uniforms of neutral States".⁸⁰⁹

751. Germany's Military Manual states that "it is prohibited to make improper use of . . . neutral national flags, military insignia and uniforms".⁸¹⁰

752. Indonesia's Military Manual states that "it is . . . prohibited to use . . . the military uniforms of neutral States or other States which are not parties to the conflict".⁸¹¹

⁸⁰³ Australia, *Commanders' Guide* (1994), § 510.

⁸⁰⁴ Australia, *Defence Force Manual* (1994), § 705.

⁸⁰⁵ Belgium, *Teaching Manual for Officers* (1994), Part I, Title II, p. 34.

⁸⁰⁶ Cameroon, *Instructors' Manual* (1992), p. 30, § 131.2 and p. 89, § 222.

⁸⁰⁷ Canada, *LOAC Manual* (1999), p. 6-2, § 12.

⁸⁰⁸ Ecuador, *Naval Manual* (1989), § 12.3. ⁸⁰⁹ France, *LOAC Manual* (2001), p. 47.

⁸¹⁰ Germany, *Military Manual* (1992), § 473.

753. Under Italy's IHL Manual, it is prohibited, without qualification, "to use any flag, insignia or military uniforms other than the country's own".⁸¹²

754. The Military Manual of the Netherlands states that "in an armed conflict, it is prohibited to make use of the flags, military emblems, uniforms and insignia of States which are not parties to the conflict".⁸¹³

755. The Military Handbook of the Netherlands provides that it is prohibited "to use insignia and uniforms . . . of neutral States".⁸¹⁴

756. New Zealand's Military Manual states that "it is prohibited to make use in an armed conflict of the flags or military emblems, insignia or uniforms of neutral or other States not Parties to the conflict".⁸¹⁵ In respect of naval warfare, the manual stipulates that "flags or markings of neutral . . . ships may be used prior to going into action".⁸¹⁶

757. Russia's Military Manual considers that the improper use of national signals and flags is a prohibited method of warfare.⁸¹⁷

758. Spain's LOAC Manual prohibits the use of flags, emblems or uniforms of neutral States.⁸¹⁸

759. Sweden's IHL Manual considers that the "prohibition of improper use of . . . emblems of nationality", as contained in Article 39 AP I, is part of customary international law.⁸¹⁹ It also notes that, during the CDDH:

There was a consensus in favour of introducing a rule forbidding this type of abuse on the part of belligerents. It should be noted that Article 39:1 [AP I] prohibits any form of use in armed conflict. The rule relates not only to the uniforms etc. of neutral states, but also to those belonging to states that – without being neutral – are not parties to the conflict. By this are meant states that have the status of non-belligerents.⁸²⁰

760. The US Air Force Pamphlet specifies that "military aircraft may not bear . . . markings of neutral aircraft while engaging in combat".⁸²¹

761. The US Naval Handbook states that:

At Sea. Under the customary international law of naval warfare, it is permissible for a belligerent warship to fly false colors and disguise its outward appearance in other ways in order to deceive the enemy into believing the vessel is of neutral nationality or is other than a warship. However, it is unlawful for a warship to go into action without first showing her true colors. Use of neutral flags, insignia, or uniforms during an actual armed engagement at sea is, therefore, forbidden.

In the Air. Use in combat of false or deceptive markings to disguise belligerent military aircraft as being of neutral nationality is prohibited.

⁸²⁰ Sweden, *IHL Manual* (1991), Section 3.2.1.1.b, pp. 31 and 32.

⁸²¹ US, *Air Force Pamphlet* (1976), § 7-4.

On Land. The law of armed conflict applicable to land warfare has no rule of law analogous to that which permits belligerent warships to display neutral colors. Belligerents engaged in armed conflict on land are not permitted to use the flags, insignia, or uniforms of a neutral nation to deceive the enemy.⁸²²

National Legislation

762. Algeria's Code of Military Justice punishes the unauthorised use of the insignia of foreign armed forces.⁸²³

763. Argentina's Draft Code of Military Justice punishes any soldier who "uses improperly ... the flag, uniform, insignia or distinctive emblem ... of neutral States ... or of other States which are not parties to the conflict".⁸²⁴

764. Under Armenia's Penal Code, "the use during military actions of ... the flag or insignia of ... a neutral State ... in breach of international treaties and international law" constitutes a crime against the peace and security of mankind.⁸²⁵

765. Australia's Geneva Conventions Act as amended provides that:

A person shall not, without the consent in writing of the Minister or of a person authorized in writing by the Minister to give consents ... use for any purpose whatsoever any of the following:

...
(f) such ... emblems, identity cards, signs, signals, insignia or uniforms as are prescribed for the purpose of giving effect to [AP I].⁸²⁶

766. The Criminal Code of Belarus provides that it is a war crime to "use intentionally, during hostilities, in violation of international treaties, ... the national flag or distinctive signs ... of a neutral State".⁸²⁷

767. The Czech Republic's Criminal Code as amended punishes any "person who, in time of war, misuses ... the flag ... or military emblem, or the insignia or uniform of a neutral country or another country ... which is not a party to the conflict".⁸²⁸

768. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 39(1) AP I, is a punishable offence.⁸²⁹

769. Under Italy's Law of War Decree as amended, it is prohibited, without qualification, "to use any flag, insignia or military uniforms other than the country's own".⁸³⁰

⁸²⁹ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁸³⁰ Italy, *Law of War Decree as amended* (1938), Article 36(2).

770. Italy's Wartime Military Penal Code punishes anyone who uses improperly the flag, insignia or military uniforms of a State other than his/her own.⁸³¹

771. Nicaragua's Military Penal Code punishes any soldier who, in time of war and in an area of military operations, "unlawfully displays . . . the flags or emblems . . . of neutral [States]".⁸³²

772. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁸³³

773. Under the Diplomatic Immunities Act of the Philippines, it is a punishable offence "with intent to deceive or mislead, within the jurisdiction of the Republic, [to] wear any naval, military, police, or other official uniform, decoration or regalia of any foreign State, nation or government with which the Republic of the Philippines is at peace".⁸³⁴

774. Poland's Penal Code punishes "any person who, during hostilities, uses . . . flags or military emblems of a . . . neutral State . . . in violation of international law".⁸³⁵

775. Slovakia's Criminal Code as amended punishes any "person who, in time of war, misuses . . . the flag . . . or military emblem, or the insignia or uniform of a neutral country or another country . . . which is not a party to the conflict".⁸³⁶

776. Spain's Military Criminal Code punishes any soldier who "displays improperly . . . neutral flags and emblems".⁸³⁷

777. Spain's Penal Code punishes "anyone who, during an armed conflict . . . uses improperly . . . the flag, uniform, insignia or distinctive emblem . . . of neutral States . . . or States that are not parties to the conflict".⁸³⁸

778. Under Syria's Penal Code, the wearing by any person of an official uniform or insignia of the Syrian State or of a foreign State is a punishable offence.⁸³⁹

National Case-law

IV. Practice of International Judicial and Quasi-judicial Bodies

782. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

783. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "it is prohibited to use the flags, emblems or uniforms of neutral States".⁸⁴⁰

VI. Other Practice

784. No practice was found.

H. Conclusion of an Agreement to Suspend Combat with the Intention of Attacking by Surprise the Adversary Relying on It

*I. Treaties and Other Instruments**Treaties*

785. Article 21(1) of draft AP II submitted by the ICRC to the CDDH provided that "when carried out in order to commit or resume hostilities, . . . the feigning of a cease-fire" was considered as perfidy.⁸⁴¹ However, this proposal was deleted from draft Article 21 adopted in Committee III of the CDDH.⁸⁴²

Other Instruments

786. Article 15 of the 1863 Lieber Code states that:

Military necessity admits . . . of such deception as does not involve the breaking of good faith either positively pledged, regarding agreements entered into during the war, or supposed by the modern law of war to exist. Men who take up arms against one another in public war do not cease on this account to be moral beings, responsible to one another and to God.

⁸⁴⁰ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 405.

⁸⁴¹ CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 39.

⁸⁴² CDDH, *Official Records*, Vol. XV, CDDH/407/Rev.1, 17 March–10 June 1977, p. 502.

II. National Practice

Military Manuals

787. Belgium's Law of War Manual states that "the denunciation of an armistice for doubtful motives in order to surprise the adversary without giving him the time to prepare could be considered as an act of perfidy".⁸⁴³

788. Burkina Faso's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy . . . with whom a suspension of combat has been concluded".⁸⁴⁴

789. Cameroon's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy . . . with whom a suspension of combat has been concluded".⁸⁴⁵

790. Canada's LOAC Manual states that:

Any agreement made by belligerent commanders must be adhered to, and any breach of its conditions would involve international responsibility if ordered by a government, and personal liability, (which might amount to a war crime) if committed by an individual on his or her own authority . . .

Between combatants, the most common purpose of such agreements is to arrange for an armistice or truce, whether for a specific purpose or more generally.⁸⁴⁶

791. Congo's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy . . . with whom a suspension of combat has been concluded".⁸⁴⁷

792. France's Disciplinary Regulations as amended provides that, under ratified international conventions, it is prohibited "to fire at, injure or kill an enemy . . . with whom a suspension of combat has been concluded".⁸⁴⁸

793. Germany's Military Manual gives as an example of an act of perfidy the conclusion of a "humanitarian agreement to suspend combat with the intention of attacking by surprise the enemy relying on it".⁸⁴⁹ It also states that "during an armistice, it is . . . definitely forbidden to move the forces in contact with the enemy forward or to employ reconnaissance patrols".⁸⁵⁰

794. Italy's IHL Manual provides that in case of a violation of an armistice, the local commander can react as circumstances require. Only the supreme commander, with the consent of the government, can denounce an armistice or order the resumption of hostilities.⁸⁵¹ Hostile acts committed by individuals on

⁸⁴³ Belgium, *Law of War Manual* (1983), p. 42.

⁸⁴⁴ Burkina Faso, *Disciplinary Regulations* (1994), Article 35(2).

⁸⁴⁵ Cameroon, *Disciplinary Regulations* (1975), Article 32.

⁸⁴⁶ Canada, *LOAC Manual* (1999), p. 14-2, §§ 12 and 13.

⁸⁴⁷ Congo, *Disciplinary Regulations* (1986), Article 32(2).

⁸⁴⁸ France, *Disciplinary Regulations as amended* (1975), Article 9 bis (2).

⁸⁴⁹ Germany, *Military Manual* (1992), § 472.

⁸⁵⁰ Germany, *Military Manual* (1992), § 237.

⁸⁵¹ Italy, *IHL Manual* (1991), Vol. I, § 77.

their own initiative are not considered as violations of the armistice agreement, but punishment and indemnity can be demanded.⁸⁵²

795. Under South Korea's Military Regulation 187, acts committed in violation of the terms of a capitulation agreement constitute a war crime.⁸⁵³

796. Mali's Army Regulations states that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy . . . with whom a suspension of combat has been concluded".⁸⁵⁴

797. Morocco's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy . . . with whom a suspension of combat has been concluded".⁸⁵⁵

798. The Military Handbook of the Netherlands provides that it is prohibited "to violate an agreement concluded with the adverse party (for example concerning a cease-fire to search for and collect the wounded and dead)".⁸⁵⁶

799. New Zealand's Military Manual provides that:

Any agreement made by belligerent commanders must be scrupulously adhered to and a breach of its conditions would involve international responsibility and liability for compensation, if ordered by a government, or personal liability which might amount to a war crime, if committed by an individual on his own authority.⁸⁵⁷

The manual also states that "in general, it is contrary to modern practice to attempt to obtain advantage of the enemy by deliberate lying, for instance, by declaring that an armistice has been agreed upon when in fact that is not the case".⁸⁵⁸ In addition, "violation of the terms of an armistice by an individual acting on his own initiative entitles the injured party to demand the punishment of the offender. If the party injured captures the offender, it may try him for a war crime."⁸⁵⁹

800. Nigeria's Manual on the Laws of War states that "informing the enemy that there is an armistice in order to make him leave his position" is an "illegitimate tactic".⁸⁶⁰ It also states that "violation of surrender terms" is a war crime.⁸⁶¹

801. Senegal's Disciplinary Regulations provides that, under the laws and customs of war, it is prohibited "to fire at, injure or kill an enemy . . . with whom a suspension of combat has been concluded".⁸⁶²

⁸⁵² Italy, *IHL Manual* (1991), Vol. I, § 79.

⁸⁵³ South Korea, *Military Regulation 187* (1991), Article 4.2.

⁸⁵⁴ Mali, *Army Regulations* (1979), Article 36.

⁸⁵⁵ Morocco, *Disciplinary Regulations* (1974), Article 25(2).

⁸⁵⁶ Netherlands, *Military Handbook* (1995), p. 7-40.

⁸⁵⁷ New Zealand, *Military Manual* (1992), § 407(1).

⁸⁵⁸ New Zealand, *Military Manual* (1992), § 502(3).

⁸⁵⁹ New Zealand, *Military Manual* (1992), § 1704(3).

⁸⁶⁰ Nigeria, *Manual on the Laws of War* (undated), § 14.

⁸⁶¹ Nigeria, *Manual on the Laws of War* (undated), § 6.

⁸⁶² Senegal, *Disciplinary Regulations* (1990), Article 34(2).

802. Switzerland's Basic Military Manual states that the violation of an armistice is prohibited and the "carrying out of hostilities after the conclusion of an armistice or the violation of its provisions" are war crimes.⁸⁶³

803. The UK Military Manual emphasises that "good faith, as expressed in the observance of promises, is essential in war, for without it hostilities could not be terminated with any degree of safety short of the total destruction of one of the contending parties".⁸⁶⁴ It also states that "in general, it is contrary to modern practice to attempt to obtain advantage of the enemy by deliberate lying, for instance, by declaring that an armistice has been agreed upon when in fact that is not the case".⁸⁶⁵ The manual further specifies that "to demand a suspension of arms and then to break it by surprise, or to violate a safe conduct or any other agreement, in order to obtain an advantage, is an act of perfidy and as such forbidden".⁸⁶⁶ It also provides that "it would be perfidy to denounce an armistice for a motive or under a pretext more or less specious and to surprise the enemy without giving him time to put himself on his guard".⁸⁶⁷ Lastly, the manual states that "in addition to the 'grave breaches' of the 1949 [Geneva] Conventions, . . . the following are examples of punishable violations of the laws of war, or war crimes: . . . violation of surrender terms".⁸⁶⁸

804. The US Field Manual provides that "to broadcast to the enemy that an armistice has been agreed upon when such is not the case would be treacherous".⁸⁶⁹ The manual also states that:

It would be an outrageous act of perfidy for either party, without warning, to resume hostilities during the period of an armistice, with or without a formal denunciation thereof, except in case of urgency and upon convincing proof of intentional and serious violation of its terms by the other party.⁸⁷⁰

The manual further states that "in addition to the 'grave breaches' of the Geneva Conventions of 1949, the following acts are representative of violations of the law of war ('war crimes'): . . . violation of surrender terms".⁸⁷¹

805. The US Air Force Pamphlet states that "the feigning of a cease-fire" is an example of perfidy.⁸⁷² The Pamphlet adds that "a false broadcast to the enemy that an armistice has been agreed upon has been widely recognized to be treacherous. [This] language . . . expresses the customary and conventional law in this area."⁸⁷³

806. The US Instructor's Guide provides that "in addition to the grave breaches of the Geneva Conventions, the following acts are further examples of war crimes: . . . violating surrender terms".⁸⁷⁴

National Legislation

807. Argentina's Penal Code punishes any person "who violates treaties concluded with foreign nations, truces and armistice agreements between the Republic and an enemy power".⁸⁷⁵

808. Argentina's Code of Military Justice as amended punishes any soldier "who continues hostilities after having received the official notice that peace, a truce or an armistice has been concluded".⁸⁷⁶

809. Argentina's Draft Code of Military Justice punishes any soldier "who violates a suspension of arms, armistice, capitulation or other agreement with the enemy".⁸⁷⁷

810. Azerbaijan's Criminal Code provides that "violations of temporary armistice agreements or agreements about the stopping of military actions with the aim of removing, exchanging or transporting the dead and wounded" constitute war crimes in international and non-international armed conflicts.⁸⁷⁸

811. The Criminal Code of Belarus provides that any "violation of truces, agreements on the suspension of hostilities or local arrangements concluded for the removal, exchange or transport of the wounded and dead left on the battlefield" is a war crime.⁸⁷⁹

812. Bolivia's Penal Code as amended provides that "anyone who violates treaties, truce or armistice concluded between the Nation and the enemy or between belligerent forces" commits a "crime against international law".⁸⁸⁰

813. Chile's Code of Military Justice punishes "anyone who, without justification, continues hostilities after having received the official information that peace, armistice or truce has been agreed with the enemy, violates any of these agreements or a capitulation".⁸⁸¹

814. Costa Rica's Penal Code as amended punishes any person "who violates the truce or armistice agreed with between the nation and an enemy country or belligerent forces".⁸⁸²

815. Ecuador's National Civil Police Penal Code punishes the members of the National Civil Police "who breach or violate a treaty, truce or armistice".⁸⁸³

816. Ecuador's Penal Code punishes "anyone who violates a truce or armistice concluded with the enemy, after it has been formally rendered public".⁸⁸⁴

⁸⁷⁵ Argentina, *Penal Code* (1984), Article 220.

⁸⁷⁶ Argentina, *Code of Military Justice as amended* (1951), Article 741.

⁸⁸³ Ecuador, *National Civil Police Penal Code* (1960), Article 117(6).

⁸⁸⁴ Ecuador, *Penal Code* (1971), Article 123.

817. El Salvador's Code of Military Justice punishes any "soldier who... violates a truce, armistice, capitulation or other agreement concluded with the enemy".⁸⁸⁵

818. Ethiopia's Penal Code punishes "whosoever, having been officially informed of an armistice or peace treaty duly concluded, contrary to orders given continues hostilities, or in any other way knowingly infringes one of the agreed conditions".⁸⁸⁶

819. Guatemala's Penal Code punishes "anyone who violates a truce or armistice concluded between Guatemala and a foreign power or between their belligerent forces".⁸⁸⁷

820. Under Hungary's Criminal Code as amended, "the person who infringes the conditions of armistice" is guilty, upon conviction, of a war crime.⁸⁸⁸

821. Italy's Law of War Decree as amended provides that in case of a violation of an armistice, the local commander can react as circumstances require. Only the supreme commander can denounce an armistice or order to resume hostilities.⁸⁸⁹ Hostile acts committed by individuals on their own initiative are not considered as violations of the armistice agreement, but punishment and indemnity can be demanded.⁸⁹⁰

822. Italy's Wartime Military Penal Code punishes any commander who, without justification, commits hostile acts against the enemy during a truce or an armistice, except in case of necessity.⁸⁹¹

823. Mexico's Code of Military Justice as amended punishes "anyone who, without justification... violates a truce, armistice, capitulation or other agreement concluded with the enemy, if, because of his conduct, hostilities are restarted".⁸⁹²

824. Under the Definition of War Crimes Decree of the Netherlands, the "commission, contrary to the conditions of a truce, of hostile acts or the incitement thereto" constitutes a war crime.⁸⁹³

825. Nicaragua's Military Penal Code punishes any "soldier who, without justification and after official notification, violates peace, armistice, truce or capitulation agreements".⁸⁹⁴

826. Peru's Code of Military Justice punishes any soldier who "violates an armistice, a truce,... a capitulation or any other legitimate agreement

concluded with another nation, or prolongs the hostilities after having received official notice of peace, truce or armistice".⁸⁹⁵

827. Peru's Penal Code punishes any person who violates a truce or armistice.⁸⁹⁶

828. Spain's Military Criminal Code punishes any soldier "who violates a suspension of arms, an armistice, a capitulation or another agreement concluded with the enemy".⁸⁹⁷

829. Spain's Penal Code punishes "anyone who violates a truce or an armistice concluded between the Spanish Nation and the enemy or between their belligerent forces".⁸⁹⁸

830. Switzerland's Military Criminal Code as amended punishes "anyone who continues hostilities, after having official knowledge of the conclusion of an armistice or of peace, [and] anyone who, in any other way, violates the conditions of an officially known armistice".⁸⁹⁹

831. Venezuela's Code of Military Justice as amended punishes "those who violate . . . truces or armistices".⁹⁰⁰

832. Venezuela's Revised Penal Code punishes "nationals and foreigners who, during a war between Venezuela and another Nation, violate a truce or armistice".⁹⁰¹

National Case-law

833. No practice was found.

Other National Practice

834. According to the Report on the Practice of China, the conduct of the Nationalist Government after a truce agreement was concluded with the Chinese Communist Party in January 1946 was perfidious. At the time, Mao Zedong reported that "Chiang Kai-Shek used [the] agreement as a disguise with a view to arranging a large scale military offensive".⁹⁰²

835. In 1984, during the Iran–Iraq War, the two belligerents concluded an agreement under the auspices of the UN Secretary-General not to attack cities and villages.⁹⁰³ However, Iraq alleged in a letter to the UN Secretary-General that Iran was using the agreement to concentrate armed forces in border towns.⁹⁰⁴

⁸⁹⁵ Peru, *Code of Military Justice* (1980), Article 91(2).

⁸⁹⁶ Peru, *Penal Code as amended* (1991), Article 340.

⁸⁹⁷ Spain, *Military Criminal Code* (1985), Article 72. ⁸⁹⁸ Spain, *Penal Code* (1995), Article 593.

⁸⁹⁹ Switzerland, *Military Criminal Code as amended* (1927), Article 113.

⁹⁰⁰ Venezuela, *Code of Military Justice as amended* (1998), Article 474(7).

⁹⁰¹ Venezuela, *Revised Penal Code* (2000), Article 156(1).

⁹⁰³ UN Secretary-General, Note verbale dated 26 June 1984 addressed to Member States and Observer States that are States parties to the Geneva Conventions of 1949, UN Doc. S/16648, 26 June 1994.

⁹⁰⁴ Iraq, Letter dated 28 June 1984 to the UN Secretary-General, UN Doc. S/16649, 28 June 1984.

836. According to the Report on the Practice of Iraq, in a military communiqué issued during the Iran–Iraq War, Iraq stated that it regarded as perfidious an attack on its defensive line after the Iranian armed forces had announced that their military operations had come to an end.⁹⁰⁵

837. In 1991, in a document entitled “Examples of violations of the rules of international law committed by the so-called armed forces of Slovenia”, the Ministry of Defence of the SFRY stated that “members of the so-called armed forces of Slovenia have used [each agreed upon cease-fire] to attack the Yugoslav People’s Army units, by bringing their own units in a more advantageous position, thus performing similar faithless procedures”.⁹⁰⁶

838. In 1995, the Minister of Foreign Affairs of the SFRY denounced the violation of an agreement whereby Serb troops, after handing over their heavy weapons, were to be allowed free passage by the Croatian army but were attacked instead.⁹⁰⁷

839. According to the Report on the Practice of the SFRY (FRY), during the conflict in the former Yugoslavia, the YPA cited attacks against its soldiers during an armistice as examples of perfidious conduct.⁹⁰⁸

840. In 1992, an ICRC report noted that a State denounced violations of a cease-fire agreed upon with another State.⁹⁰⁹

III. Practice of International Organisations and Conferences

United Nations

841. In 1984, with regard to the Iran–Iraq War, the UN Secretary-General stated that he was “deeply concerned that allegations have been made that civilian population centres are being used for concentration of military forces. If this were indeed the case, such actions would constitute a violation of the spirit of my appeal and of basic standards of warfare that the international community expects to be observed.”⁹¹⁰

Other International Organisations

842. No practice was found.

International Conferences

843. No practice was found.

⁹¹⁰ UN Secretary-General, Messages dated 29 June 1984 to the President of Iran and to the President of Iraq, UN Doc. S/16663, 6 July 1984, p. 1.

IV. Practice of International Judicial and Quasi-judicial Bodies

844. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

845. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC included the “violation of armistices, suspensions of fire or local arrangements concluded for the removal, exchange and transport of the wounded and the dead left on the battlefield”, when committed in international and non-international armed conflicts, in its list of war crimes to be subject to the jurisdiction of the Court.⁹¹¹

VI. Other Practice

846. No practice was found.

I. Perfidy**General***I. Treaties and Other Instruments**Treaties*

847. Article 37(1) AP I provides that “acts inviting the confidence of an adversary to lead him to believe that he is entitled to, or is obliged to accord, protection under the rules of international law applicable in armed conflict, with the intent to betray that confidence, shall constitute perfidy”. Article 37 AP I was adopted by consensus.⁹¹²

848. Article 21(1) of draft AP II submitted by the ICRC to the CDDH provided that “acts inviting the confidence of the adversary with intent to betray that confidence are deemed to constitute perfidy”.⁹¹³ However, this proposal was deleted from draft Article 21 adopted in Committee III of the CDDH.⁹¹⁴

Other Instruments

849. Article 15 of the 1863 Lieber Code provides that:

Military necessity admits . . . of such deception as does not involve the breaking of good faith either positively pledged, regarding agreements entered into during

⁹¹¹ ICRC, Working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, New York, 14 February 1997, §§ 2(ix) and 3(xvii).

⁹¹² CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 103.

⁹¹³ CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 39.

⁹¹⁴ CDDH, *Official Records*, Vol. XV, CDDH/407/Rev.1, 17 March–10 June 1977, p. 502.

the war, or supposed by the modern law of war to exist. Men who take up arms against one another in public war do not cease on this account to be moral beings, responsible to one another and to God.

850. Article 16 of the 1863 Lieber Code provides that “military necessity . . . admits of deception, but disclaims acts of perfidy”.

851. Article 4 of the 1880 Oxford Manual states that belligerents “are to abstain especially . . . from all perfidious . . . acts”.

852. Article 15 of the 1913 Oxford Manual of Naval War states that “methods . . . which involve treachery are forbidden”.

853. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 37 AP I.

854. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 37 AP I.

855. Paragraph 111 of the 1994 San Remo Manual states that “perfidy is prohibited. Acts inviting the confidence of an adversary to lead it to believe that it is entitled to, or is obliged to accord, protection under the rules of international law applicable in armed conflict, with intent to betray that confidence, constitute perfidy.”

II. National Practice

Military Manuals

856. Argentina’s Law of War Manual (1969) provides that “the use of ruses and stratagems of war shall be legitimate as long as they do not imply the recourse to treason or to perfidy”, which are violations of the principle of good faith.⁹¹⁵

857. Argentina’s Law of War Manual (1989) states that:

Those acts are perfidious, which, relying on the good faith of an adversary with the intention to betray him, lead him to believe that he is entitled to, or is obliged to accord, protection under the rules of international law . . .

The prohibition of employing perfidious methods does not include stratagems.⁹¹⁶

858. Australia’s Commanders’ Guide provides that:

Acts which constitute perfidy are those inviting the confidence of an adversary, leading him to believe that he is entitled or obliged to accord protection under the rules of international law, with an intent to betray that confidence. Perfidious conduct is outlawed by LOAC and therefore, either a person who engages or a commander who orders or acquiesces in perfidious conduct may be prosecuted.⁹¹⁷

⁹¹⁵ Argentina, *Law of War Manual* (1969), § 1.017.

⁹¹⁶ Argentina, *Law of War Manual* (1989), § 1.05(2) and (3).

⁹¹⁷ Australia, *Commanders’ Guide* (1994), § 502, see also § 826 (naval warfare) and § 902 (land warfare).

859. Australia's Defence Force Manual states that:

Perfidy is forbidden. Acts which constitute perfidy are those inviting the confidence of an adversary, thus leading that adversary to believe that there is an entitlement, or an obligation, to accord protection provided under LOAC, with an intent to betray that confidence.⁹¹⁸

860. Belgium's Law of War Manual states that "perfidious acts are acts which abuse the confidence of the adversary so that he thinks he is facing a friend or a situation protected by the law of war".⁹¹⁹

861. Belgium's Teaching Manual for Officers provides that acts of perfidy are prohibited. It describes perfidy as "ruses aimed at neutralising the enemy (capturing, injuring or killing him) by leading him to believe that he has an obligation to respect a rule of humanitarian law".⁹²⁰

862. Belgium's Teaching Manual for Soldiers defines perfidy as "any act intended to deceive or abuse the enemy's confidence by inviting him to afford humanitarian protection and to respect a humanitarian rule".⁹²¹

863. Benin's Military Manual states that "it is prohibited to use perfidy" and adds that "perfidy . . . consists of committing a hostile act under the cover of a legal protection".⁹²²

864. Cameroon's Instructors' Manual stresses that "perfidy is condemned . . . by the Law of War".⁹²³ It describes perfidy "claiming an international protection with an intent to betray the enemy".⁹²⁴ It also provides the same definition of perfidy as contained in Article 37(1) AP I.⁹²⁵

865. Canada's LOAC Manual states that:

Acts inviting the confidence of adversaries and leading them to believe that they are entitled to protection or are obliged to grant protection under the LOAC, *with intent to betray that confidence*, constitute perfidy. In other words, perfidy consists of committing a hostile act under the cover of a legal protection.⁹²⁶ [emphasis in original]

866. Canada's Code of Conduct provides that "perfidy is a war crime".⁹²⁷

867. Under Colombia's Instructors' Manual, the instructor must explain what perfidy is, i.e., "conduct which is prohibited by International Humanitarian Law".⁹²⁸

⁹¹⁸ Australia, *Defence Force Manual* (1994), § 703.

⁹¹⁹ Belgium, *Law of War Manual* (1983), p. 32.

⁹²⁶ Canada, *LOAC Manual* (1999), p. 6-2, § 8 (land warfare), p. 7-2, § 16 (air warfare) and pp. 8-10 and 8-11, § 80 (naval warfare).

⁹²⁷ Canada, *Code of Conduct* (2001), Rule 10, § 10.

⁹²⁸ Colombia, *Instructors' Manual* (1999), p. 31.

868. Croatia's LOAC Compendium lists perfidy as a prohibited method of warfare.⁹²⁹

869. Croatia's Commanders' Manual states that "it is prohibited to feign a protected status by inviting the confidence of the enemy".⁹³⁰

870. Ecuador's Naval Manual states that:

The use of unlawful deceptions is called "perfidy". Acts of perfidy are deceptions designed to invite the confidence of the enemy to lead him to believe that he is entitled to, or is obliged to accord, protected status under the law of armed conflict, with the intent to betray that confidence.⁹³¹

871. France's LOAC Summary Note prohibits perfidy. It does not define "perfidy" as such, but states that "it is forbidden to feign a protected status to invite the confidence of the enemy".⁹³²

872. France's LOAC Teaching Note prohibits the recourse to perfidy.⁹³³

873. France's LOAC Manual stresses that "contrary to ruses of war, treachery is prohibited by the law of armed conflicts when it leads to the use of perfidious means, *i.e.* inviting the good faith of the adversary to lead him to believe that he is entitled to receive, or the obligation to accord, the protection provided for by the law of armed conflict".⁹³⁴ It considers that perfidy is a prohibited method of warfare.⁹³⁵ It also incorporates the definition of perfidy contained in Article 37 AP I.⁹³⁶ According to the manual, "there are two elements which constitute perfidy: a fraudulent intention to kill, injure or capture an enemy, and a will to invite his good faith. When a perfidious act causes the death or serious physical injury to the adversary, it constitutes a war crime."⁹³⁷

874. Germany's Soldiers' Manual defines perfidious acts as those "by which the adversary is induced to believe that there is a situation affording protection under public international law, so that he may be attacked by surprise".⁹³⁸

875. Germany's Military Manual provides that "perfidy is prohibited. The term 'perfidy' refers to acts misleading the adverse party to believe that there is a situation affording protection under international law."⁹³⁹

876. Hungary's Military Manual considers perfidy as a "prohibited method" of warfare.⁹⁴⁰ It states that perfidy is "to falsely claim protected status, thereby inviting the confidence of the enemy".⁹⁴¹

877. Israel's Manual on the Laws of War states that:

⁹²⁹ Croatia, *LOAC Compendium* (1991), p. 40.

⁹³⁰ Croatia, *Commanders' Manual* (1992), § 46.

⁹³¹ Ecuador, *Naval Manual* (1989), § 12.1.2.

⁹³² France, *LOAC Summary Note* (1992), § 4.4.

⁹³³ France, *LOAC Teaching Note* (2000), p. 3.

⁹³⁴ France, *LOAC Manual* (2001), p. 123. ⁹³⁵ France, *LOAC Manual* (2001), p. 85.

⁹³⁶ France, *LOAC Manual* (2001), p. 123, see also p. 93.

⁹³⁷ France, *LOAC Manual* (2001), p. 94, see also p. 85.

⁹³⁸ Germany, *Soldiers' Manual* (1991), p. 2.

⁹³⁹ Germany, *Military Manual* (1992), § 472, see also § 1018 (naval warfare).

⁹⁴⁰ Hungary, *Military Manual* (1992), p. 64. ⁹⁴¹ Hungary, *Military Manual* (1992), p. 63.

The distinction between stratagem (which is allowed) and perfidious or treacherous means is that the latter are defined as acts designed to cause the enemy to think that it is entitled to the protection extended by the law of war, or to create a situation in which the enemy is obliged to trust the adversary with the intent of betraying that trust.⁹⁴²

878. Under Italy's LOAC Elementary Rules Manual, "it is prohibited to feign a protected status by inviting the confidence of the enemy".⁹⁴³

879. Kenya's LOAC Manual defines perfidy as "tricking an enemy into believing that he is entitled to, or is required to be given, protection under international law, with intent to betray that confidence".⁹⁴⁴

880. South Korea's Military Law Manual provides that resort to perfidy is prohibited.⁹⁴⁵

881. South Korea's Operational Law Manual states that perfidy against humanitarian principles is not permitted.⁹⁴⁶

882. Madagascar's Military Manual provides that "it is prohibited to feign a protected status thereby inviting the confidence of the enemy".⁹⁴⁷

883. The Military Manual of the Netherlands provides that:

Treacherous behaviour (also known as perfidy) is . . . prohibited . . . Treacherous behaviour consists of acts which are intended to deceive the enemy in order for him to believe that he is faced with a situation which is protected by the humanitarian law of war . . . Treacherous means misusing the protection given by the law of war.⁹⁴⁸

884. Under the Military Handbook of the Netherlands, "treachery means misusing the protection provided by the law of war".⁹⁴⁹ It is a prohibited method of warfare "to perform treacherous acts".⁹⁵⁰

885. New Zealand's Military Manual provides that:

Acts inviting the confidence of an adversary to lead him to believe that he is entitled to, or is obliged to accord, protection under the rules of international law applicable in armed conflict, with the intent to betray that confidence, shall constitute perfidy . . . The definition of perfidy codifies customary law.⁹⁵¹

886. Nigeria's Military Manual states that:

A commander in his desire to fulfil his mission shall not mask his intentions and action from the enemy so as to induce the enemy to react in a manner prejudicial

⁹⁴² Israel, *Manual on the Laws of War* (1998), p. 56.

⁹⁴³ Italy, *LOAC Elementary Rules Manual* (1991), § 46.

⁹⁴⁴ Kenya, *LOAC Manual* (1997), Précis No. 3, p. 7.

⁹⁴⁵ South Korea, *Military Law Manual* (1996), p. 88.

⁹⁴⁶ South Korea, *Operational Law Manual* (1996), p. 135.

⁹⁴⁷ Madagascar, *Military Manual* (1994), Fiche No. 6-O, § 14.

⁹⁴⁸ Netherlands, *Military Manual* (1993), pp. IV-1 and IV-2.

⁹⁴⁹ Netherlands, *Military Handbook* (1995), p. 7-36.

⁹⁵⁰ Netherlands, *Military Handbook* (1995), p. 7-40.

⁹⁵¹ New Zealand, *Military Manual* (1992), § 502(5), including footnote 2 (land warfare), see also § 713(2) (naval warfare) and § 611(2) (air warfare).

to his interests. Thus, to be consistent with the law of war, deceptions shall follow the distinction between permitted ruses and prohibited perfidy [perfidy].⁹⁵²

887. Nigeria's Manual on the Laws of War provides that stratagems and ruses of war "are permissible provided they do not involve treachery".⁹⁵³

888. Russia's Military Manual considers that perfidy is a prohibited method of warfare.⁹⁵⁴

889. South Africa's LOAC Manual provides that "it is not permissible to attempt to deceive the enemy by abusing the LOAC or misusing the various protections it affords . . . Such actions are referred to as 'perfidy' and constitute grave breaches of the LOAC."⁹⁵⁵

890. South Africa's Medical Services Military Manual prohibits perfidy.⁹⁵⁶

891. Spain's Field Regulations provides that perfidy is not permitted.⁹⁵⁷

892. Spain's LOAC Manual provides the same definition of perfidy as the one contained in Article 37(1) AP I.⁹⁵⁸ It further states that "perfidy consists in committing a hostile act under the cover of a legal protection".⁹⁵⁹ The manual also states that "it is prohibited to feign a protected status by inviting the confidence of the enemy".⁹⁶⁰

893. Sweden's IHL Manual considers that the prohibition of perfidy as contained in Article 37 AP I is part of customary international law.⁹⁶¹ It states that:

Sweden and several other countries wished the [prohibition of perfidy] to be inserted in Additional Protocol II as well, since perfidy is probably equally common in internal conflicts. The majority were against this, however, the main reason being that, in conflicts of this type, particular difficulties may arise in determining exactly what may be considered perfidy.

The concept of perfidy, or perfidious conduct which is a more adequate expression, is defined as acts inviting the confidence of an adversary giving the acting party a legally protected status. This protection is abused in order to kill, injure or capture the adversary's soldiers. Perfidy thus means that one party deliberately and on false grounds invites the confidence of the other in order then to betray this confidence by acts of violence. It should be added that perfidy, as defined in Article 37 [AP I], refers to acts against persons, but does not include sabotage or the destruction of property . . .

Only where protected status is employed for killing, injuring or capturing the adversary is the act considered as perfidy . . .

⁹⁵² Nigeria, *Military Manual* (1994), p. 42.

⁹⁵³ Nigeria, *Manual on the Laws of War* (undated), § 14.

⁹⁵⁴ Russia, *Military Manual* (1990), § 5(e).

⁹⁵⁵ South Africa, *LOAC Manual* (1996), § 34(c).

⁹⁵⁶ South Africa, *Medical Services Military Manual* (undated), § 39.

⁹⁵⁷ Spain, *Field Regulations* (1882), § 862.

⁹⁵⁸ Spain, *LOAC Manual* (1996), Vol. I, § 3.3.b.(1), see also § 7.3.c.

⁹⁵⁹ Spain, *LOAC Manual* (1996), Vol. I, § 5.3.c.

⁹⁶⁰ Spain, *LOAC Manual* (1996), Vol. I, § 10.8.e.(1).

⁹⁶¹ Sweden, *IHL Manual* (1991), Section 2.2.3, p. 18.

Accusations of perfidy are always judged to be extremely grave, since a crime against Article 37 [AP I] shall according to the bases of Additional Protocol I be viewed as a grave breach of international humanitarian law.⁹⁶²

894. Switzerland's Basic Military Manual states that "ruses of war based on treachery and perfidy are prohibited".⁹⁶³

895. Togo's Military Manual states that "it is prohibited to use perfidy". and adds that "perfidy . . . consists of committing a hostile act under the cover of a legal protection".⁹⁶⁴

896. The UK Military Manual states that:

Good faith, as expressed in the observance of promises, is essential in war, for without it hostilities could not be terminated with any degree of safety short of the total destruction of one of the contending parties.

...

The borderline between legitimate ruses and forbidden treachery has varied at different times, and it is difficult to lay down hard and fast rules in the matter. Many of the doubtful cases, however, which arose at a time when, from the nature of their weapons, troops could only engage at close range, can now seldom or never occur.⁹⁶⁵

The manual also notes, in connection with the requirements to be granted the status of combatant, that irregular troops "should have been warned against the employment of treachery".⁹⁶⁶

897. The UK LOAC Manual states that treachery "means tricking an enemy into believing that he is entitled to, or required to give, protection under international law, with intent to betray that confidence".⁹⁶⁷

898. The US Field Manual states that:

The line of demarcation between legitimate ruses and forbidden acts of perfidy is sometimes indistinct . . . It would be an improper practice to secure an advantage of the enemy by deliberate lying or misleading conduct which involves a breach of faith, or when there is a moral obligation to speak the truth . . .

Treacherous or perfidious conduct in war is forbidden because it destroys the basis for a restoration of peace short of the complete annihilation of one belligerent by the other.⁹⁶⁸

899. The US Air Force Pamphlet states that:

Perfidy or treachery involves acts inviting the confidence of the adversary that he is entitled to protection or is obliged to accord protection under international law, combined with intent to betray that confidence . . . Like ruses perfidy involves simulation, but it aims at falsely creating a situation in which the adversary, under international law, feels obliged to take action or abstain from taking action, or

⁹⁶² Sweden, *IHL Manual* (1991), Section 3.2.1.1.b, pp. 28–30.

⁹⁶³ Switzerland, *Basic Military Manual* (1987), Article 39(1).

⁹⁶⁴ Togo, *Military Manual* (1996), Fascicule III, p. 13.

⁹⁶⁵ UK, *Military Manual* (1958), §§ 308 and 310. ⁹⁶⁶ UK, *Military Manual* (1958), § 95.

⁹⁶⁷ UK, *LOAC Manual* (1981), Section 4, p. 12, § 2(a), see also Annex A, p. 46, § 4.

⁹⁶⁸ US, *Field Manual* (1956), § 50.

because of protection under international law neglects to take precautions which are otherwise necessary . . . In addition, perfidy tends to destroy the basis for restoration of peace and causes the conflict to degenerate into savagery.⁹⁶⁹

900. The US Instructor's Guide notes that "the law of war prohibits treacherous acts".⁹⁷⁰

901. The US Naval Handbook states that:

The use of unlawful deceptions is called "perfidy". Acts of perfidy are deceptions designed to invite the confidence of the enemy to lead him to believe that he is entitled to, or is obliged to accord, protected status under the law of armed conflict, with the intent to betray that confidence.⁹⁷¹

902. The YPA Military Manual of the SFRY (FRY) prohibits perfidy and defines it as "confidence-betraying ruses".⁹⁷²

National Legislation

903. In an Article entitled "Perfidy" under the Draft Amendments to the Penal Code of El Salvador, the person "who, in time of international or internal armed conflict, simulates the status of protected person, with the view to deceive or attack the adversary" commits a crime against humanity.⁹⁷³

904. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 37(1) AP I, is a punishable offence.⁹⁷⁴

905. Kyrgyzstan's Emblem Law provides that "recourse to perfidy means inviting, with intent to deceive it, the good faith of the adversary to lead him to believe that he was entitled to receive, or obliged to accord, the protection provided for under the rules of international humanitarian law".⁹⁷⁵

906. Moldova's Emblem Law defines "perfidious use" as "acts inviting the confidence of an adversary, with intent to betray it, to lead him to believe that he was entitled to, or was obliged to accord, protection provided for under the rules of international humanitarian law".⁹⁷⁶

907. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁹⁷⁷

National Case-law

908. No practice was found.

⁹⁶⁹ US, *Air Force Pamphlet* (1976), § 8-3(a).

⁹⁷³ El Salvador, *Draft Amendments to the Penal Code* (1998), Article entitled "Perfidy".

⁹⁷⁴ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁹⁷⁵ Kyrgyzstan, *Emblem Law* (2000), Article 10.

⁹⁷⁶ Moldova, *Emblem Law* (1999), Article 17(2).

⁹⁷⁷ Norway, *Military Penal Code as amended* (1902), § 108(b).

Other National Practice

909. During the Algerian war of independence, the use by Algerian combatants of perfidious methods of warfare was prohibited. Perfidy was understood to mean methods that aggravated suffering without having a direct effect on the issue of the struggle. The Report on the Practice of Algeria notes, however, that there were instances in which acts considered to be perfidious were committed, but it concludes that such acts were rare and that they did not affect a general line of conduct of proscribing perfidy.⁹⁷⁸

910. At the CDDH, Chile stated that it had abstained from voting on draft Article 21 AP II (which was dropped in the final text) because it found the wording too vague. However, it agreed that the prohibition of perfidy as established in AP I should also be included in the protocol relative to non-international conflicts.⁹⁷⁹

911. The Report on the Practice of Colombia refers to a draft internal working paper in which the Colombian government stated that perfidy was prohibited under IHL.⁹⁸⁰

912. According to the Report on the Practice of Iraq, perfidy and treachery are absolutely prohibited.⁹⁸¹ In the reply by the Iraqi Ministry of Defence to a questionnaire, mentioned in the report, reference is made to Article 37 AP I.⁹⁸²

913. At the CDDH, Peru deplored the elimination of numerous articles and paragraphs in the final version of AP II, especially the one relating to the prohibition of perfidy.⁹⁸³

914. The Report on the Practice of the Philippines notes that officers of the Philippine armed forces make the distinction between ruses of war and acts of perfidy, adding that US military manuals are usually followed.⁹⁸⁴

915. A training video on IHL produced by the UK Ministry of Defence describes as "complicated" the difference between ruses and treachery.⁹⁸⁵

916. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that its

⁹⁸¹ Report on the Practice of Iraq, 1998, Chapter 2.4.

⁹⁸² Report on the Practice of Iraq, 1998, Reply by the Ministry of Defence to a questionnaire, July 1997, Chapter 2.4.

⁹⁸³ Peru, Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR.56, 8 June 1977, p. 226, § 161.

⁹⁸⁴ Report on the Practice of the Philippines, 1997, Interview with a naval officer, 5 March 1997, Chapter 2.4.

⁹⁸⁵ UK, Ministry of Defence, Training Video: The Geneva Conventions, 1986, Report on UK Practice, 1997, Chapter 2.4.

practice was consistent with the definition and prohibition of perfidy contained in Article 37 AP I.⁹⁸⁶

917. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

Perfidy is prohibited by the law of war. Perfidy is defined in Article 37(1) of [AP I] as:

Acts inviting the confidence of an adversary to lead him to believe that he is entitled to, or is obliged to accord, protection under the law [of war], with intent to betray that confidence . . .

Perfidious acts are prohibited on the basis that perfidy may damage mutual respect for the law of war, may lead to unnecessary escalation of the conflict, may result in the injury or death of enemy forces legitimately attempting to surrender or discharging their humanitarian duties, or may impede the restoration of peace . . .

However, there does not appear to have been any centrally directed Iraqi policy to carry out acts of perfidy. The fundamental principles of the law of war applied to Coalition and Iraqi forces throughout the war.⁹⁸⁷

918. In 1991, in a document entitled "Examples of violations of the rules of international law committed by the so-called armed forces of Slovenia", the Ministry of Defence of the SFRY included the following example: "Faithless behaviour. Throughout the overall armed conflict members of the so-called armed forces of Slovenia have applied faithless and perfidious behaviour."⁹⁸⁸

III. Practice of International Organisations and Conferences

919. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

920. In the interlocutory appeal in the *Tadić case* in 1995, the ICTY referred specifically to a case of perfidy to illustrate that general principles of customary international law in areas relating to methods of warfare applicable in international armed conflicts had evolved to be applied in non-international armed conflicts as well.⁹⁸⁹

⁹⁸⁶ US, Letter from the Department of the Army to the legal adviser of the US Army forces deployed in the Gulf region, 11 January 1991, § 8(j), Report on US Practice, 1997, Chapter 2.8.

⁹⁸⁷ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, Appendix O, The Role of the Law of War, 10 April 1992, *ILM*, Vol. 31, 1992, p. 632.

⁹⁸⁸ SFRY (FRY), Ministry of Defence, Examples of violations of the rules of international law committed by the so-called armed forces of Slovenia, July 1991, § 5.

⁹⁸⁹ ICTY, *Tadić case*, Interlocutory Appeal, 2 October 1995, § 125.

V. Practice of the International Red Cross and Red Crescent Movement

921. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that perfidy consists of “committing a hostile act under the cover of a legal protection”.⁹⁹⁰

922. At the CE (1972), the ICRC stated, with regard to a certain number of articles, including the article on perfidy, that it was “anxious to maintain the same kind of arrangements with respect to international and to non-international armed conflicts”.⁹⁹¹

923. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC included “perfidy”, when committed in an international or a non-international armed conflict, in its list of war crimes to be subject to the jurisdiction of the Court.⁹⁹²

VI. Other Practice

924. Rule A4 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IIHL, defines perfidy in the context of non-international armed conflicts as “acts inviting the confidence of an adversary to lead him to believe that he is entitled to, or is obliged to accord, protection under the rules of international law applicable to non-international armed conflicts, with intent to betray that confidence”.⁹⁹³

Killing, injuring or capturing an adversary by resort to perfidy

I. Treaties and Other Instruments

Treaties

925. Article 23(b) of the 1899 HR provides that “it is especially prohibited . . . to kill or wound treacherously individuals belonging to the hostile nation or army”.

926. Article 23(b) of the 1907 HR provides that “it is especially forbidden . . . to kill or wound treacherously individuals belonging to the hostile nation or army”.

⁹⁹⁰ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 408.

⁹⁹¹ ICRC, Statement at the CE (1972), *Report on the Work of the Conference*, Vol. I, p. 104, § 2.384.

⁹⁹² ICRC, Working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, New York, 14 February 1997, §§ 2(vi) and 3(xiv).

⁹⁹³ IIHL, Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, Rule A4, *IRRC*, No. 278, pp. 390–391.

927. Article 37(1) AP I provides that “it is prohibited to kill, injure or capture an adversary by resort to perfidy”. Article 37 AP I was adopted by consensus.⁹⁹⁴

928. Article 21(1) of draft AP II submitted by the ICRC to the CDDH provided that “it is forbidden to kill, injure or capture an adversary by resort to perfidy”.⁹⁹⁵ This proposal was adopted in Committee III of the CDDH by 21 votes in favour, 15 against and 41 abstentions.⁹⁹⁶ Eventually, however, it was deleted by consensus in the plenary.⁹⁹⁷

929. Under Article 8(2)(b)(xi) of the 1998 ICC Statute, “killing or wounding treacherously individuals belonging to the hostile nation or army” is a war crime in international armed conflicts. Under Article 8(2)(e)(ix), “killing or wounding treacherously a combatant adversary” is a war crime in non-international armed conflicts.

Other Instruments

930. Article 101 of the 1863 Lieber Code provides that “the common law of war allows even capital punishment for clandestine or treacherous attempts to injure an enemy, because they are so dangerous, and it is difficult to guard against them”.

931. Article 13(b) of the 1874 Brussels Declaration prohibits “murder by treachery of individuals belonging to the hostile nation or army”.

932. Article 8 of the 1880 Oxford Manual prohibits the making of “treacherous attempts upon the life of an enemy; as for example by keeping assassins in pay”.

933. Article 15 of the 1913 Oxford Manual of Naval War states that “it is forbidden . . . to kill or wound treacherously individuals belonging to the opposite side”.

934. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY (FRY) requires that hostilities be conducted in accordance with Article 37 AP I.

935. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 37 AP I.

936. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(xi), “killing or wounding treacherously individuals belonging to the hostile nation or army” is a war crime in international armed conflicts. Under Section 6(1)(e)(ix), “killing or wounding treacherously a combatant adversary” is a war crime in non-international armed conflicts.

⁹⁹⁴ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 103.

⁹⁹⁵ CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 39.

⁹⁹⁶ CDDH, *Official Records*, Vol. XV, CDDH/III/SR.59, 10 May 1977, p. 213, § 20.

⁹⁹⁷ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 128.

II. National Practice

Military Manuals

937. Argentina's Law of War Manual provides that "it is prohibited to employ perfidious methods to kill, injure or capture an adversary".⁹⁹⁸

938. Australia's Defence Force Manual states that:

Assassination is the sudden or secret killing by treacherous means of an individual who is not a combatant, by premeditated assault, for political or religious reasons. Assassination is unlawful. In addition, it is prohibited to put a price on the head of an enemy individual. Any offer for an enemy "dead or alive" is forbidden. If prior information of an intended assassination or other act of treachery should reach the party on whose behalf the act is committed, that party should endeavour to prevent its occurrence.

The prohibition against assassination is not to be confused with attacks on individual members of the enemy's armed forces as those persons are combatants and are legitimate military targets.⁹⁹⁹

939. Australia's Commanders' Guide states that "it is generally recognised by the international community that assassination of civilian political figures and issuance of orders that an enemy is to be taken 'dead or alive' constitutes treacherous behaviour and is, therefore, proscribed by LOAC".¹⁰⁰⁰ It further states that:

Assassination is the killing or wounding of a selected individual behind the line of battle by enemy agents or unlawful combatants, and is prohibited. In addition, the proscription, outlawing, putting a price on the head of an enemy individual or any offer for an enemy "dead or alive" is forbidden. If prior information of an intended assassination or other act of treachery should reach the party on whose behalf the act is to be committed, that party should endeavour to prevent its occurrence.

It is not forbidden to send a detachment of individual members of the armed forces to kill, by sudden attack, members or a member of the enemy armed forces.¹⁰⁰¹

940. Belgium's Law of War Manual provides that "killing or wounding by treachery is forbidden".¹⁰⁰²

941. Cameroon's Instructors' Manual states that it is prohibited "to kill, wound or capture an adversary by resort to perfidy".¹⁰⁰³

942. Canada's LOAC Manual states that "it is prohibited to kill, injure or capture adversaries by resort to perfidy".¹⁰⁰⁴ It further provides that "treacherously killing or wounding any individual belonging to the hostile nation or army" constitutes a war crime.¹⁰⁰⁵ The manual also states that:

⁹⁹⁸ Argentina, *Law of War Manual* (1989), § 1.05(1).

⁹⁹⁹ Australia, *Defence Force Manual* (1994), §§ 724 and 725.

¹⁰⁰⁰ Australia, *Commanders' Guide* (1994), § 512.

¹⁰⁰¹ Australia, *Commanders' Guide* (1994), §§ 919 and 920.

¹⁰⁰² Belgium, *Law of War Manual* (1983), p. 31.

¹⁰⁰³ Cameroon, *Instructors' Manual* (1992), p. 109, § 421.1.

¹⁰⁰⁴ Canada, *LOAC Manual* (1999), p. 6-2, § 8 (land warfare), p. 7-2, § 16 (air warfare) and p. 8-10, § 80 (naval warfare).

¹⁰⁰⁵ Canada, *LOAC Manual* (1999), p. 16-3, § 20(b).

Assassination is prohibited. Assassination means the killing or wounding of a selected non-combatant for a political or religious motive. It is not forbidden, however, to send a detachment or individual members of the armed forces to kill, by sudden attack, a person who is a combatant.

If prior information of an intended assassination should reach the party on whose behalf the act is to be committed, that party should make the utmost effort to prevent its being carried out.

It is forbidden to put a price on the head of an enemy individual or to offer a bounty for an enemy "dead of alive".¹⁰⁰⁶

943. France's LOAC Manual states that "it is prohibited to injure, kill or capture [an adversary] by resort to perfidy". This may constitute a war crime.¹⁰⁰⁷

944. Indonesia's Military Manual provides that "it is prohibited to kill or injure the enemy by perfidy".¹⁰⁰⁸

945. Referring to Israel's Law of War Booklet, the Report on the Practice of Israel states that "as a basic policy, the IDF prohibits the resort to perfidy to kill, injure or capture an adversary".¹⁰⁰⁹

946. Israel's Manual on the Laws of War gives the following example of perfidy: "An attempt on the lives of enemy leaders (civilian or military) is forbidden. As a rule, it is forbidden to single out a specific person on the adversary's side and request his death (whether by dispatching an assassin or by offering an award for his liquidation)."¹⁰¹⁰

947. Italy's IHL Manual provides that is prohibited to kill or injure an enemy by treachery.¹⁰¹¹

948. Kenya's LOAC Manual states that "it is forbidden to kill or [wound] an enemy by treachery".¹⁰¹²

949. The Military Manual of the Netherlands states that "the exact formulation of the rule is that it is prohibited to kill, injure or capture an adversary in a treacherous manner".¹⁰¹³

950. The Military Handbook of the Netherlands states that "it is prohibited to kill, injure or capture by means of treachery".¹⁰¹⁴

951. New Zealand's Military Manual states that "it is prohibited to kill, injure or capture an adversary by resort to perfidy".¹⁰¹⁵ It further states that "the treacherous killing or wounding of any individual belonging to the hostile nation or army" constitutes a war crime.¹⁰¹⁶ The manual also states that:

¹⁰⁰⁶ Canada, *LOAC Manual* (1999), p. 6-3, §§ 25-27.

¹⁰⁰⁷ France, *LOAC Manual* (2001), p. 47, see also p. 85.

¹⁰⁰⁸ Indonesia, *Military Manual* (1982), § 103.

¹⁰⁰⁹ Report on the Practice of Israel, 1997, Chapter 2.4, referring to *Law of War Booklet* (1986), p. 8.

¹⁰¹⁰ Israel, *Manual on the Laws of War* (1998), p. 57.

¹⁰¹¹ Italy, *IHL Manual* (1991), Vol. I, § 8(2).

¹⁰¹² Kenya, *LOAC Manual* (1997), Précis No. 3, p. 7.

¹⁰¹³ Netherlands, *Military Manual* (1993), p. IV-2.

¹⁰¹⁴ Netherlands, *Military Handbook* (1995), p. 7-36.

¹⁰¹⁵ New Zealand, *Military Manual* (1992), §§ 502(5) (land warfare) and 713(2) (naval warfare).

¹⁰¹⁶ New Zealand, *Military Manual* (1992), § 1704(2)(b).

Assassination, that is, the killing or wounding of a selected individual behind the line of battle by enemy agents or unlawful combatants is prohibited. In addition, the proscription or outlawing or the putting of a price on the head of an enemy individual or any offer for an enemy “dead or alive” is forbidden. If prior information of an intended assassination or other act of treachery should reach the Party on whose behalf the act is to be committed, that Party should endeavour to prevent its being carried out.¹⁰¹⁷

952. Under Nigeria’s Military Manual, it is forbidden “to kill or wound treacherously individuals belonging to the hostile nation’s army”.¹⁰¹⁸

953. Under Nigeria’s Soldiers’ Code of Conduct it is forbidden “to kill or wound treacherously individuals belonging to the hostile nation or army”.¹⁰¹⁹

954. Romania’s Soldiers’ Manual prohibits “the killing, wounding or capture of an adversary by acts of perfidy, committed with the intent to deceive his good faith and to make him believe that he is entitled to receive, or has the obligation to accord, the protection provided by the rules of international humanitarian law”.¹⁰²⁰

955. Russia’s Military Manual provides that “killing or wounding a person belonging to enemy troops by resort to perfidy” is a prohibited method of warfare.¹⁰²¹

956. Spain’s LOAC Manual states that “it is prohibited to kill, injure or capture an adversary by resort to perfidy. Perfidy consists in committing a hostile act under the cover of a legal protection.”¹⁰²²

957. Sweden’s IHL Manual affirms that “under the provisions of the [1907 HR] it is prohibited to kill or injure an enemy by resort to perfidy”.¹⁰²³

958. Switzerland’s Basic Military Manual provides that “it is prohibited to kill or injure by treachery individuals belonging to the enemy nation or army”. It also states that “it is not permitted to place a price on the head of an enemy military or civil leader”.¹⁰²⁴

959. The UK Military Manual states that “it is expressly forbidden by the [1907 HR] to kill or wound by treachery individuals belonging to the opposing State or army”.¹⁰²⁵ It also states that:

Assassination, the killing or wounding of a selected individual behind the line of battle by enemy agents or partisans, and the killing or wounding by treachery of individuals belonging to the opposing nation or army, are not lawful acts of war. The perpetrator of such an act has to claim to be treated as a combatant, but should

¹⁰¹⁷ New Zealand, *Military Manual* (1992), § 507.

¹⁰¹⁸ Nigeria, *Military Manual* (1994), p. 39, § 5(1)(ii).

¹⁰¹⁹ Nigeria, *Soldiers’ Code of Conduct* (undated), § 12(b).

¹⁰²⁰ Romania, *Soldiers’ Manual* (1991), pp. 34 and 35.

¹⁰²¹ Russia, *Military Manual* (1990), § 5(a).

¹⁰²² Spain, *LOAC Manual* (1996), Vol. I, § 5.3.c.

¹⁰²³ Sweden, *IHL Manual* (1991), Section 3.2.1.1.b, pp. 28 and 29.

¹⁰²⁴ Switzerland, *Basic Military Manual* (1987), Article 18, including commentary.

¹⁰²⁵ UK, *Military Manual* (1958), § 311.

be put on trial as a war criminal. If prior information of an intended assassination or other act of treachery should reach the government on whose behalf the act is to be committed, that government should endeavour to prevent its being carried out.

...

It is not forbidden to send a detachment or individual members of the armed forces to kill, by sudden attack, members or a member of the enemy armed forces.

...

In view of the prohibition of assassination, the proscription or outlawing or the putting of a price on the head of an enemy individual or any offer for an enemy "dead or alive" is forbidden.

...

The prohibition extends to offers of rewards for the killing or wounding of all enemies, or of a class of enemy persons, *e.g.*, officers . . . Offers of rewards for the capture unharmed of enemy personnel generally or of particular enemy personnel would seem to be lawful . . .

How far do the above rules apply to armed conflicts not of an international character occurring in the territory of a State, *e.g.*, a civil war or large scale armed insurrection? The acts which are prohibited in such conflicts are those set out in common Art. 3 of the 1949 [Geneva] Conventions, see paras. 7 and 8. Para (1) (a) of that article forbids "murder of all kinds" in respect of persons who do not take an active part in the hostilities and those members of armed forces who have laid down their arms or who are *hors de combat*. If a government or military commander offers rewards for all or individual armed insurgents killed or wounded by the forces engaged in quelling the insurrection, such offers are open to the same objection as those set out above in respect of hostilities between belligerents and are probably unlawful.¹⁰²⁶

960. The UK LOAC Manual provides that "it is forbidden . . . to kill or wound an enemy by treachery".¹⁰²⁷

961. The US Field Manual states that:

It is especially forbidden to kill or wound treacherously individuals belonging to the hostile nation or army . . .

[Article 23(b) of the 1907 HR] is construed as prohibiting assassination, proscription, or outlawry of an enemy, or putting a price upon an enemy's head, as well as offering a reward for an enemy "dead or alive". It does not, however, preclude attacks on individual soldiers or officers of the enemy whether in the zone of hostilities, occupied territory, or elsewhere.¹⁰²⁸

962. The US Air Force Pamphlet provides that "it is especially forbidden . . . to kill or wound treacherously individuals belonging to the hostile nation or army".¹⁰²⁹ It also states that:

Article 23(b) [of the 1907] HR . . . prohibits the killing or wounding treacherously of individuals belonging to a hostile nation or army, whether they are combatants or

¹⁰²⁶ UK, *Military Manual* (1958), § 115, including footnote 2, and § 116, including footnote 1.

¹⁰²⁷ UK, *LOAC Manual* (1981), Section 4, p. 12, § 2(a), see also Annex A, p. 46, § 4.

¹⁰²⁸ US, *Field Manual* (1956), § 31. ¹⁰²⁹ US, *Air Force Pamphlet* (1976), § 8-2.

civilians. This article has been construed as prohibiting assassination, proscription, or outlawry of an enemy, or putting a price upon an enemy's head, as well as offering a reward for an enemy "dead or alive". Obviously, it does not preclude lawful attacks by lawful combatants on individual soldiers or officers of the enemy.¹⁰³⁰

963. The YPA Military Manual of the SFRY (FRY) states that "it is prohibited to kill or wound members of the enemy armed forces and enemy civilians by means of treachery".¹⁰³¹ It adds that it is prohibited to put a price on someone's head, whether State or military commander or any other person.¹⁰³²

National Legislation

964. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "treacherously killing or injuring" a person belonging to the adverse party, in international and non-international armed conflicts.¹⁰³³

965. Under the Criminal Code of the Federation of Bosnia and Herzegovina, if the killing of an enemy who has laid down arms or has surrendered at discretion, or has no longer any means of defence, is committed in an "insidious way", this constitutes an aggravating circumstance of the war crime.¹⁰³⁴ The Criminal Code of the Republika Srpska contains the same provision.¹⁰³⁵

966. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "killing or injuring treacherously individuals belonging to the enemy nation or army" constitutes a war crime in international armed conflicts, while "killing or injuring treacherously a combatant adversary" constitutes a war crime in non-international armed conflicts.¹⁰³⁶

967. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.¹⁰³⁷

968. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.¹⁰³⁸

969. Under Croatia's Criminal Code, if the killing of an enemy who has laid down arms or has surrendered at discretion, or has no longer any means of

¹⁰³⁸ Congo, *Genocide, War Crimes and Crimes against Humanity Act* (1998), Article 4.

defence, is committed in a “treacherous way”, this constitutes an aggravating circumstance of the war crime.¹⁰³⁹

970. Under Georgia’s Criminal Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, such as “killing or wounding treacherously individuals belonging to the hostile nation or army” in international armed conflicts, and “killing or wounding treacherously a combatant adversary” in non-international armed conflicts, are crimes.¹⁰⁴⁰

971. Germany’s Law Introducing the International Crimes Code punishes anyone who, in connection with an international or non-international armed conflict, “treacherously kills or wounds a member of the hostile armed forces or a combatant of the adverse party”.¹⁰⁴¹

972. Under Ireland’s Geneva Conventions Act as amended, any “minor breach” of AP I, including violations of Article 37(1) AP I, is a punishable offence.¹⁰⁴²

973. Italy’s Law of War Decree as amended states that it is prohibited to kill or injure an enemy by treachery.¹⁰⁴³

974. Under Mali’s Penal Code, “killing or wounding by treachery individuals belonging to the enemy nation or army” is a war crime in international armed conflicts.¹⁰⁴⁴

975. Under the International Crimes Act of the Netherlands, “treacherously killing or wounding individuals belonging to the hostile nation or army” is a crime, whether in time of international or non-international armed conflict.¹⁰⁴⁵

976. Under New Zealand’s International Crimes and ICC Act, war crimes include the crimes defined in Articles 8(2)(b)(xi) and 8(2)(e)(ix) of the 1998 ICC Statute.¹⁰⁴⁶

977. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment”.¹⁰⁴⁷

978. Under Slovenia’s Penal Code, if the killing of an enemy who has laid down arms or has surrendered at discretion, or has no longer any means of defence, is executed in a “perfidious way”, this constitutes an aggravating circumstance of the war crime.¹⁰⁴⁸

¹⁰⁴⁵ Netherlands, *International Crimes Act* (2003), Articles 5(3)(d) and 6(2)(d).

¹⁰⁴⁶ New Zealand, *International Crimes and ICC Act* (2000), Section 11(2).

¹⁰⁴⁷ Norway, *Military Penal Code as amended* (1902), § 108(b).

¹⁰⁴⁸ Slovenia, *Penal Code* (1994), Article 379(2).

979. Under Sweden's Penal Code as amended, "the killing or injuring of an opponent by means of some . . . form of treacherous behaviour" constitutes a crime against international law.¹⁰⁴⁹

980. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xi) and (e)(ix) of the 1998 ICC Statute.¹⁰⁵⁰

981. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xi) and (e)(ix) of the 1998 ICC Statute.¹⁰⁵¹

982. Under the US War Crimes Act as amended, violations of Article 23(b) of the 1907 HR are war crimes.¹⁰⁵²

983. Under the Penal Code as amended of the SFRY (FRY), if the killing of an enemy who has laid down arms or has surrendered, or has no means of defence, has been committed in a "perfidious manner", this constitutes an aggravating circumstance of the war crime.¹⁰⁵³ Generally speaking, the Code provides that the use of a prohibited method of combat is a war crime, including the "perfidious killing or wounding of members of the enemy army".¹⁰⁵⁴

National Case-law

984. No practice was found.

Other National Practice

985. According to the Report on the Practice of Iraq, perfidy and treachery are absolutely prohibited.¹⁰⁵⁵ In the reply by the Iraqi Ministry of Defence to a questionnaire, mentioned in the report, reference is made to Article 37 AP I.¹⁰⁵⁶

986. In its Country Reports on Human Rights Practices for 1996, in a section entitled "Use of Excessive Force and Violations of Humanitarian Law in Internal Conflicts", the US Department of State noted that, in Uganda, "newspapers reported that [a rebel leader] offered bounties for the killing of prominent Ugandan military personnel, including the Minister of State for Defence".¹⁰⁵⁷

987. The US Presidential Executive Order 12333 of 1981 provides that "no person employed by or acting on behalf of the United States Government shall engage in, or conspire to engage in, assassination".¹⁰⁵⁸

¹⁰⁴⁹ Sweden, *Penal Code as amended* (1962), Chapter 22, § 6(2).

¹⁰⁵⁸ US, Executive Order 12333, 4 December 1981, CFR, 1981 Comp. (1982), p. 213.

988. In 1987, the Deputy Legal Adviser of the US Department of State, referring to Article 37 AP I, affirmed that “we support the principle that individual combatants not kill, injure, or capture enemy personnel by resort to perfidy”.¹⁰⁵⁹

989. In 1989, in a memorandum of law, the Office of the Judge Advocate General of the US Department of the Army concluded that:

The clandestine, low visibility or overt use of military force against legitimate targets in time of war, or against similar targets in time of peace where such individuals or groups pose an immediate threat to United States citizens or the national security of the United States, as determined by the competent authority, does not constitute assassination or conspiracy to engage in assassination, and would not be prohibited by the proscription in [Executive Order] 12333 or by international law.¹⁰⁶⁰

990. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that its practice was consistent with the prohibition of killing, injuring or capturing an adversary by resort to perfidy contained in Article 37 AP I.¹⁰⁶¹

III. Practice of International Organisations and Conferences

United Nations

991. No practice was found.

Other International Organisations

992. No practice was found.

International Conferences

993. The report of the Working Group to Committee III of the CDDH stated that:

It should be noted that article 35 [now Article 37 AP I] does not prohibit perfidy *per se*, but merely “to kill, injure or capture an adversary by resort to perfidy”. Additionally, it should be noted that, in order to be perfidy, an act must be done “with intent to betray” the confidence created. This was intended to mean that

¹⁰⁵⁹ US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 425.

the requisite intent would be an intent to kill, injure or capture by means of the betrayal of confidence. Thus, acts . . . which are intended merely to save one's life would not be perfidy.¹⁰⁶²

IV. Practice of International Judicial and Quasi-judicial Bodies

994. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

995. The ICRC Commentary on the Additional Protocols states that Article 37 AP I does not replace the 1907 HR: "It is thus clear that the prohibition on the treacherous killing or wounding of individuals belonging to the nation or the army of the enemy, as formulated in Article 23(b) of the Regulations, has survived in its entirety."¹⁰⁶³ In analysing Article 37(1) AP I, the Commentary further states that "it seems evident that the attempted or unsuccessful act also falls under the scope of this prohibition [of perfidy]"¹⁰⁶⁴

996. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "it is prohibited to kill, injure or capture an enemy by resort to perfidy"¹⁰⁶⁵

VI. Other Practice

997. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch stated that "the following . . . are prohibited by applicable international law rules: . . . Assassination of civilian officials, such as judges or political leaders."¹⁰⁶⁶

998. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that "applicable international law rules prohibit the following kinds of practices . . . Assassination of civilian officials, such as political leaders."¹⁰⁶⁷

999. Rule A4 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IHL, provides that "the prohibition to kill, injure or

capture an adversary by resort to perfidy is a general rule applicable in non-international armed conflicts".¹⁰⁶⁸

Simulation of being disabled by injuries or sickness

I. Treaties and Other Instruments

Treaties

1000. Article 37(1)(b) AP I lists "the feigning of an incapacitation by wounds or sickness" as an act of perfidy. Article 37 AP I was adopted by consensus.¹⁰⁶⁹

1001. Article 21(1) of draft AP II submitted by the ICRC to the CDDH provided that "when carried out in order to commit or resume hostilities, . . . the feigning of a situation of distress" was considered perfidy.¹⁰⁷⁰ However, this proposal was deleted from draft Article 21 adopted in Committee III of the CDDH.¹⁰⁷¹

Other Instruments

1002. Paragraph 111(b) of the 1994 San Remo Manual states that "perfidious acts include the launching of an attack while feigning . . . distress by, e.g., sending a distress signal or by the crew taking to life rafts".

II. National Practice

Military Manuals

1003. Argentina's Law of War Manual states that "feigning incapacitation by wounds or sickness" is an example of perfidy.¹⁰⁷²

1004. Australia's Commanders' Guide states that "acts which constitute perfidy include feigning of . . . an incapacitation by wounds or sickness".¹⁰⁷³ In a section entitled "Perfidy", it also states that "it is unlawful to falsely claim injury or distress for the purpose of escaping attack or inviting an enemy to lower their guard".¹⁰⁷⁴

1005. Australia's Defence Force Manual states that "acts which constitute perfidy include feigning of . . . an incapacitation by wounds or sickness".¹⁰⁷⁵

1006. Belgium's Law of War Manual states that "feigning being wounded and wanting to surrender and firing at an adversary willing to help" and "showing signs of distress in order to mislead the enemy" are acts of perfidy.¹⁰⁷⁶

¹⁰⁶⁸ IHL, Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, Rule A4, *IRRC*, No. 278, 1990, p. 390.

¹⁰⁷⁵ Australia, *Defence Force Manual* (1994), § 703(b).

¹⁰⁷⁶ Belgium, *Law of War Manual* (1983), p. 32.

1007. Belgium's Teaching Manual for Officers prohibits perfidy. For example, "feigning being dead to avoid capture is lawful, but not feigning to be wounded to kill an enemy who tries to help you".¹⁰⁷⁷

1008. Cameroon's Instructors' Manual provides that "feigning incapacitation by wounds or sickness" is an example of perfidy.¹⁰⁷⁸ Likewise, "feigning being *hors de combat*" is qualified as an act of perfidy.¹⁰⁷⁹

1009. Canada's LOAC Manual states that "the following are examples of perfidy if a hostile act is committed while: . . . feigning incapacitation by wounds or sickness".¹⁰⁸⁰

1010. Croatia's Commanders' Manual states that "it is prohibited to feign a protected status by inviting the confidence of the enemy: . . . feigning . . . of incapacitation by wounds or sickness".¹⁰⁸¹

1011. Ecuador's Naval Manual states that:

It is a violation of the law of armed conflict to kill, injure or capture the enemy . . . by feigning shipwreck, sickness, [or] wounds . . . A surprise attack by a person feigning shipwreck, sickness, or wounds undermines the protected status of those rendered incapable of combat . . . Such acts of perfidy are punishable war crimes.¹⁰⁸²

1012. France's LOAC Summary Note prohibits perfidy and provides that "it is forbidden . . . to feign . . . wounds or sickness".¹⁰⁸³

1013. Under Germany's Soldiers' Manual, "the feigning of being incapacitated for combat" constitutes a perfidious act.¹⁰⁸⁴

1014. Under Hungary's Military Manual, feigning incapacitation by wounds or sickness is an example of perfidy.¹⁰⁸⁵

1015. Referring to Israel's Law of War Booklet, the Report on the Practice of Israel states that the IDF "prohibits the resort to perfidy to kill, injure or capture an adversary. Therefore, the IDF does not . . . feign incapacitation."¹⁰⁸⁶

1016. Israel's Manual on the Laws of War gives the following example of perfidy: "Pretending damage to fighting capacity through injury or illness with a view to gaining military advantage."¹⁰⁸⁷

1017. Under Italy's LOAC Elementary Rules Manual, "it is prohibited to feign a protected status by inviting the confidence of the enemy: . . . feigning . . . to be *hors de combat* because of wounds or sickness".¹⁰⁸⁸

¹⁰⁸⁸ Italy, *LOAC Elementary Rules Manual* (1991), § 46.

- 1018.** Madagascar's Military Manual states that feigning incapacitation because of wounds or sickness is prohibited.¹⁰⁸⁹
- 1019.** The Military Manual of the Netherlands states that API "gives a number of examples of treacherous behaviour [including] feigning to be *hors de combat* by wounds or sickness".¹⁰⁹⁰
- 1020.** The Military Handbook of the Netherlands provides that it is a prohibited method of warfare "to perform treacherous acts (for example, feigning to have been killed or to be wounded... and then suddenly resume fighting)".¹⁰⁹¹
- 1021.** New Zealand's Military Manual specifies that "the feigning of an incapacitation by wounds or sickness" is an example of perfidy.¹⁰⁹² However, the manual notes that "if the motive is survival rather than hostile intent, a soldier can, without committing perfidy, feign incapacity in order to live to fight another day".¹⁰⁹³
- 1022.** Nigeria's Military Manual gives the following example of "perjury" (perfidy): "feigning incapacitation by wounds or sickness".¹⁰⁹⁴
- 1023.** Under Romania's Soldiers' Manual, "simulation of incapacity due to wound or sickness" is an act of perfidy.¹⁰⁹⁵
- 1024.** South Africa's LOAC Manual provides that "it is forbidden to feign... injury... Such actions are referred to as 'perfidy' and constitute grave breaches of the LOAC."¹⁰⁹⁶
- 1025.** Spain's LOAC Manual states that "it is prohibited to feign a protected status by inviting the confidence of the enemy:... feigning... incapacitation by wounds or sickness".¹⁰⁹⁷ This is considered as an example of a perfidious act.¹⁰⁹⁸
- 1026.** Under Sweden's IHL Manual, "the feigning of incapacitation by wounds or sickness" constitutes perfidious conduct. However, "if for example a soldier simulates injury or sickness only to avoid an adversary's attack, this is not judged as perfidy".¹⁰⁹⁹
- 1027.** Switzerland's Basic Military Manual provides that perfidy is forbidden and that "it is notably prohibited... to feign incapacitation for combat by wounds or sickness".¹¹⁰⁰
- 1028.** According to the UK Military Manual, "it would be treachery for a soldier to sham wounded or dead and then to attack enemy soldiers who approached him without hostile intent".¹¹⁰¹

¹¹⁰⁰ Switzerland, *Basic Military Manual* (1987), Article 39.

¹¹⁰¹ UK, *Military Manual* (1958), § 115, footnote 2, see also § 311, footnote 1.

1029. The US Air Force Pamphlet considers that:

Since situations of distress occur during times of armed conflict, as well as peace, and frequently suggest that the persons involved are *hors de combat*, feigning distress or death, wounds or sickness in order to resume hostilities constitutes perfidy in ground combat. However, a sick or wounded combatant does not commit perfidy by calling for and receiving medical aid even though he may intend immediately to resume fighting... In aerial warfare, it is forbidden to improperly use internationally recognized distress signals to lure the enemy into a false sense of security and then attack.¹¹⁰²

1030. The US Naval Handbook states that:

It is a violation of the law of armed conflict to kill, injure or capture the enemy... by feigning shipwreck, sickness, [or] wounds... A surprise attack by a person feigning shipwreck, sickness, or wounds undermines the protected status of those rendered incapable of combat... Such acts of perfidy are punishable war crimes.¹¹⁰³

1031. The YPA Military Manual of the SFRY (FRY) states that “feigning incapacitation by wounds or sickness” is an act of perfidy.¹¹⁰⁴

National Legislation

1032. Colombia’s Penal Code, in an article entitled “Perfidy”, imposes a criminal sanction on “anyone who, during an armed conflict and with intent to harm or attack the adversary, simulates the condition of a protected person”, including the wounded and sick.¹¹⁰⁵
