Part I. The Principle of Distinction

Chapter 1. Distinction between Civilians and Combatants	3
A. General (practice relating to Rule 1)	3
The principle of distinction	3
Attacks against combatants	15
Attacks against civilians	22
B. Violence Aimed at Spreading Terror among the Civilian Population (practice relating to Rule 2)	67
C. Definition of Combatants (practice relating to Rule 3)	78
D. Definition of Armed Forces (practice relating to Rule 4)	86
General	86
Incorporation of paramilitary or armed law enforcement agencies into armed forces	97
E. Definition of Civilians (practice relating to Rule 5)	100
F. Loss of Protection from Attack (practice relating to Rule 6)	107
Direct participation in hostilities	107
Specific examples of direct participation	115
Presence of combatants among the civilian population	127
Situations of doubt as to the character of a person	130
Chapter 2. Distinction between Civilian Objects and Military Objectives	134
A. General (practice relating to Rule 7)	134
The principle of distinction	134
Attacks against military objectives	141
Attacks against civilian objects in general	149

Attacks against places of civilian concentration	162
Attacks against civilian means of transportation	172
B. Definition of Military Objectives (practice relating to Rule 8)	181
General definition	181
Armed forces	190
Places where armed forces or their materiel are located	195
Weapons and weapon systems	201
Lines and means of communication	204
Lines and means of transportation	210
Economic installations	216
Areas of land	223
Presence of civilians within or near military objectives	227
C. Definition of Civilian Objects (practice relating to Rule 9)	233
D. Loss of Protection from Attack (practice relating to Rule 10)	236
Civilian objects used for military purposes	236
Situations of doubt as to the character of an object	241
Chapter 3. Indiscriminate Attacks	247
A. Indiscriminate Attacks (practice relating to Rule 11)	247
B. Definition of Indiscriminate Attacks (practice relating to Rule 12)	270
Attacks which are not directed at a specific military objective	270
Attacks which cannot be directed at a specific military objective	276
Attacks whose effects cannot be limited as required by international humanitarian law	285
C. Area Bombardment (practice relating to Rule 13)	291
Chapter 4. Proportionality in Attack	297
Proportionality in Attack (practice relating to Rule 14)	297
General	297
Determination of the anticipated military advantage	326
Information required for judging proportionality in attack	331
Chapter 5. Precautions in Attack	336
A. General (practice relating to Rule 15)	336
Constant care to spare the civilian population, civilians and civilian objects	336

Avoidance or minimisation of incidental damage	344
Feasibility of precautions in attack	357
Information required for deciding upon precautions in attack	363
B. Target Verification (practice relating to Rule 16)	367
C. Choice of Means and Methods of Warfare (practice relating to Rule 17)	374
D. Assessment of the Effects of Attacks (practice relating to Rule 18)	384
E. Control during the Execution of Attacks (practice relating to Rule 19)	391
F. Advance Warning (practice relating to Rule 20)	400
G. Target Selection (practice relating to Rule 21)	413
Chapter 6. Precautions against the Effects of Attacks	419
A. General (practice relating to Rule 22)	419
Precautions to protect the civilian population, civilians and civilian objects	419
Feasibility of precautions against the effects of attacks	426
Information required for deciding upon precautions against the effects of attacks	429
B. Location of Military Objectives outside Densely Populated Areas (practice relating to Rule 23)	429
C. Removal of Civilians and Civilian Objects from the Vicinity of Military Objectives (practice relating to Rule 24)	441
Part II. Specifically Protected Persons and Objects	
Chapter 7. Medical and Religious Personnel and Objects	453
A. Medical Personnel (practice relating to Rule 25)	453
Respect for and protection of medical personnel	453
Equipment of medical personnel with light individual weapons	480
B. Medical Activities (practice relating to Rule 26)	486
Respect for medical ethics	486
Respect for medical secrecy	493
C. Religious Personnel (practice relating to Rule 27)	497
D. Medical Units (practice relating to Rule 28)	507
Respect for and protection of medical units	507
Loss of protection from attack	535
E. Medical Transports (practice relating to Rule 29)	547
Respect for and protection of medical transports	547
Loss of protection of medical transports from attack	563

	Respect for and protection of medical aircraft	563
	Loss of protection of medical aircraft from attack	574
F.	Persons and Objects Displaying the Distinctive Emblem (practice relating to Rule 30)	574
Chapter 8.	Humanitarian Relief Personnel and Objects	588
A.	Safety of Humanitarian Relief Personnel (practice relating to Rule 31)	588
	General	588
	Attacks on the safety of humanitarian relief personnel	606
B.	Safety of Humanitarian Relief Objects (practice relating to Rule 32)	628
Chapter 9.	Personnel and Objects Involved in a Peacekeeping Mission	640
	Personnel and Objects Involved in a Peacekeeping Mission (practice relating to Rule 33)	640
Chapter 10.	Journalists	660
	Journalists (practice relating to Rule 34)	660
Chapter 11.	Protected Zones	671
A.	Hospital and Safety Zones and Neutralised Zones (practice relating to Rule 35)	671
B.	Demilitarised Zones (practice relating to Rule 36)	683
	Establishment of demilitarised zones	683
	Attacks on demilitarised zones	690
C.	Open Towns and Non-defended Localities (practice relating to Rule 37)	699
	Establishment of open towns	699
	Establishment of non-defended localities	703
	Attacks on open towns and non-defended localities	709
Chapter 12.	Cultural Property	723
A.	Attacks against Cultural Property (practice relating to Rule 38)	723
B.	Use of Cultural Property for Military Purposes (practice relating to Rule 39)	779
C.	Respect for Cultural Property (practice relating to Rule 40)	790
D.	Export and Return of Cultural Property in Occupied Territory (practice relating to Rule 41)	803
	Export of cultural property from occupied territory	803
	Return of cultural property exported or taken from occupied territory	807

Chapter 13. Works and Installations Containing Dangerous Forces	814
Works and Installations Containing Dangerous Forces (practice relating to Rule 42)	814
Attacks against works and installations containing dangerous forces and against military objectives located in their vicinity	814
Placement of military objectives near works and installations containing dangerous forces	840
Chapter 14. The Natural Environment	844
A. Application of the General Rules on the Conduct of Hostilities to the Natural Environment (practice relating to Rule 43)	844
B. Due Regard for the Natural Environment in Military Operations (practice relating to Rule 44)	860
General	860
The precautionary principle	871
C. Causing Serious Damage to the Natural Environment (practice relating to Rule 45)	876
Widespread, long-term and severe damage	876
Environmental modification techniques	903
 Part III. Specific Methods of Warfare	
Chapter 15. Denial of Quarter	915
A. Orders or Threats that No Quarter Will Be Given (practice relating to Rule 46)	915
B. Attacks against Persons Hors de Combat (practice relating to Rule 47)	929
General	929
Specific categories of persons hors de combat	941
Quarter under unusual circumstances of combat	972
C. Attacks against Persons Parachuting from an Aircraft in Distress (practice relating to Rule 48)	977
Chapter 16. Destruction and Seizure of Property	991
A. War Booty (practice relating to Rule 49)	991
B. Seizure and Destruction of Property in Case of Military Necessity (practice relating to Rule 50)	1000
C. Public and Private Property in Occupied Territory (practice relating to Rule 51)	1029

	Movable public property in occupied territory	1029
	Immovable public property in occupied territory	1036
	Private property in occupied territory	1044
D.	Pillage (practice relating to Rule 52)	1076
	General	1076
	Pillage committed by civilians	1115
Chapter 17.	Starvation and Access to Humanitarian Relief	1123
A.	Starvation as a Method of Warfare (practice relating to Rule 53)	1123
	General	1123
	Sieges that cause starvation	1138
	Blockades and embargoes that cause starvation	1143
B.	Attacks against Objects Indispensable to the Survival of the Civilian Population (practice relating to Rule 54)	1148
	General	1148
	Attacks against objects used to sustain or support the adverse party	1166
	Attacks in case of military necessity	1170
C.	Access for Humanitarian Relief to Civilians in Need (practice relating to Rule 55)	1174
	General	1174
	Impediment of humanitarian relief	1210
	Access for humanitarian relief via third States	1224
	Right of the civilian population in need to receive humanitarian relief	1228
D.	Freedom of Movement of Humanitarian Relief Personnel (practice relating to Rule 56)	1236
Chapter 18.	Deception	1244
A.	Ruses of War (practice relating to Rule 57)	1245
B.	Improper Use of the White Flag of Truce (practice relating to Rule 58)	1259
C.	Improper Use of the Distinctive Emblems of the Geneva Conventions (practice relating to Rule 59)	1269
D.	Improper Use of the United Nations Emblem or Uniform (practice relating to Rule 60)	1317
E.	Improper Use of Other Internationally Recognised Emblems (practice relating to Rule 61)	1327
F.	Improper Use of Flags or Military Emblems, Insignia or Uniforms of the Adversary (practice relating to Rule 62)	1339

G. Use of Flags or Military Emblems, Insignia or Uniforms of Neutral or Other States Not Party to the Conflict (practice relating to Rule 63)	1355
H. Conclusion of an Agreement to Suspend Combat with the Intention of Attacking by Surprise the Adversary Relying on It (practice relating to Rule 64)	1360
I. Perfidy (practice relating to Rule 65)	1368
General	1368
Killing, injuring or capturing an adversary by resort to perfidy	1378
Simulation of being disabled by injuries or sickness	1389
Simulation of surrender	1394
Simulation of an intention to negotiate under the white flag of truce	1404
Simulation of protected status by using the distinctive emblems of the Geneva Conventions	1414
Simulation of protected status by using the United Nations emblem or uniform	1429
Simulation of protected status by using other internationally recognised emblems	1437
Simulation of civilian status	1443
Simulation of protected status by using flags or military emblems, insignia or uniforms of neutral or other States not party to the conflict	1453
Chapter 19. Communication with the Enemy	1458
A. Non-Hostile Contacts between the Parties to the Conflict (practice relating to Rule 66)	1458
General	1458
Use of the white flag of truce	1467
Definition of parlementaires	1472
Refusal to receive parlementaires	1476
B. Inviolability of Parlementaires (practice relating to Rule 67)	1479
C. Precautions while Receiving Parlementaires (practice relating to Rule 68)	1490
General	1490
Detention of parlementaires	1494
D. Loss of Inviolability of Parlementaires (practice relating to Rule 69)	1497

Part IV. Use of Weapons		
Chapter 20. General Principles on the Use of Weapons		1505
A. Weapons of a Nature to Cause Superfluous Injury or Unnecessary Suffering (practice relating to Rule 70)		1505
B. Weapons That Are by Nature Indiscriminate (practice relating to Rule 71)		1554
C. Use of Prohibited Weapons		1582
Chapter 21. Poison		1590
Poison (practice relating to Rule 72)		1590
Chapter 22. Nuclear Weapons		1604
Nuclear Weapons		1604
Chapter 23. Biological Weapons		1607
Biological Weapons (practice relating to Rule 73)		1607
Chapter 24. Chemical Weapons		1658
A. Chemical Weapons (practice relating to Rule 74)		1658
B. Riot Control Agents (practice relating to Rule 75)		1742
C. Herbicides (practice relating to Rule 76)		1762
Chapter 25. Expanding Bullets		1771
Expanding Bullets (practice relating to Rule 77)		1771
Chapter 26. Exploding Bullets		1787
Exploding Bullets (practice relating to Rule 78)		1787
Chapter 27. Weapons Primarily Injuring by Non-Detectable Fragments		1795
Weapons Primarily Injuring by Non-Detectable Fragments (practice relating to Rule 79)		1795
Chapter 28. Booby-Traps		1803
Booby-Traps (practice relating to Rule 80)		1803
Chapter 29. Landmines		1826
A. Prohibition of Certain Types of Landmines		1826
B. Restrictions on the Use of Landmines (practice relating to Rule 81)		1862
C. Measures to Reduce the Danger Caused by Landmines (practice relating to Rules 82 and 83)		1897

Chapter 30. Incendiary Weapons	1916
A. Use of Incendiary Weapons against Civilians and Civilian Objects (practice relating to Rule 84)	1916
Use of incendiary weapons in general	1916
Use of incendiary weapons against civilians and civilian objects in particular	1937
B. Use of Incendiary Weapons against Combatants (practice relating to Rule 85)	1954
Use of incendiary weapons in general	1954
Use of incendiary weapons against combatants in particular	1955
Chapter 31. Blinding Laser Weapons	1961
Blinding Laser Weapons (practice relating to Rule 86)	1961
Laser weapons specifically designed to cause permanent blindness	1961
Laser systems incidentally causing blindness	1979
 Part V. Treatment of Civilians and Persons Hors de Combat	
Chapter 32. Fundamental Guarantees	1985
A. Humane Treatment (practice relating to Rule 87)	1986
General	1986
Civilians	1996
Wounded and sick	2002
Persons deprived of their liberty	2008
B. Non-discrimination (practice relating to Rule 88)	2024
General	2024
Civilians	2039
Wounded and sick	2043
Persons deprived of their liberty	2048
Apartheid	2053
C. Violence to Life (practice relating to Rule 89)	2061
D. Torture and Cruel, Inhuman or Degrading Treatment (practice relating to Rule 90)	2106
General	2106
Definitions	2149
E. Corporal Punishment (practice relating to Rule 91)	2161
F. Mutilation and Medical, Scientific or Biological Experiments (practice relating to Rule 92)	2167
G. Rape and Other Forms of Sexual Violence (practice relating to Rule 93)	2190

H.	Slavery, Slave Trade and Forced Labour (practice relating to Rules 94 and 95)	2225
	General	2225
	Compelling persons to serve in the forces of a hostile power	2246
I.	Hostage-Taking (practice relating to Rule 96)	2262
J.	Human Shields (practice relating to Rule 97)	2285
K.	Enforced Disappearance (practice relating to Rule 98)	2302
	General	2302
	Preventive measures	2316
	Investigation of enforced disappearance	2321
L.	Deprivation of Liberty (practice relating to Rule 99)	2328
	General	2328
	Deprivation of liberty in accordance with legal procedures	2344
	Prompt information of the reasons for deprivation of liberty	2348
	Prompt appearance before a judge or judicial officer	2352
	Decision on the lawfulness of deprivation of liberty	2356
M.	Fair Trial Guarantees (practice relating to Rule 100)	2363
	General	2363
	Trial by an independent, impartial and regularly constituted court	2401
	Presumption of innocence	2416
	Information on the nature and cause of the accusation	2423
	Necessary rights and means of defence	2429
	Trial without undue delay	2445
	Examination of witnesses	2450
	Assistance of an interpreter	2456
	Presence of the accused at the trial	2461
	Compelling accused persons to testify against themselves or to confess guilt	2468
	Public proceedings	2473
	Advising convicted persons of available remedies and of their time-limits	2479
	Right to appeal	2482
	Non bis in idem	2488
N.	Principle of Legality (practice relating to Rule 101)	2493
O.	Individual Criminal Responsibility and Collective Punishments (practice relating to Rules 102 and 103)	2500

P. Respect for Convictions and Religious Practices (practice relating to Rule 104)	2512
Q. Respect for Family Life (practice relating to Rule 105)	2525
Chapter 33. Combatants and Prisoner-of-War Status	2537
A. Conditions for Prisoner-of-War Status (practice relating to Rule 106)	2537
Distinction from the civilian population	2537
Levée en masse	2545
Resistance and liberation movements	2550
B. Spies (practice relating to Rule 107)	2561
Definition of spies	2561
Status of spies	2566
C. Mercenaries (practice relating to Rule 108)	2574
Definition of mercenaries	2574
Status of mercenaries	2581
Chapter 34. The Wounded, Sick and Shipwrecked	2590
A. Search for and Collection and Evacuation of the Wounded, Sick and Shipwrecked (practice relating to Rule 109)	2590
Search and collection	2590
Evacuation	2604
B. Treatment and Care of the Wounded, Sick and Shipwrecked (practice relating to Rule 110)	2615
Medical care	2615
Distinction between the wounded and sick	2632
C. Protection of the Wounded, Sick and Shipwrecked against Pillage and Ill-treatment (practice relating to Rule 111)	2640
General	2640
Respect by civilians for the wounded, sick and shipwrecked	2651
Chapter 35. The Dead	2655
A. Search for and Collection of the Dead (practice relating to Rule 112)	2655
B. Treatment of the Dead (practice relating to Rule 113)	2662
Respect for the dead	2662
Protection of the dead against despoliation	2669
C. Return of the Remains and Personal Effects of the Dead (practice relating to Rule 114)	2682

	Return of the remains of the dead	2682
	Return of the personal effects of the dead	2688
D.	Disposal of the Dead (practice relating to Rule 115)	2692
	General	2692
	Respect for the religious beliefs of the dead	2697
	Cremation of bodies	2700
	Burial in individual or collective graves	2704
	Grouping of graves according to nationality	2707
	Respect for and maintenance of graves	2709
E.	Accounting for the Dead (practice relating to Rule 116)	2713
	Identification of the dead prior to disposal	2713
	Recording of the location of graves	2724
	Marking of graves and access to gravesites	2727
	Identification of the dead after disposal	2731
	Information concerning the dead	2734
Chapter 36.	Missing Persons	2742
	Accounting for Missing Persons (practice relating to Rule 117)	2742
	Search for missing persons	2742
	Provision of information on missing persons	2750
	International cooperation to account for missing persons	2757
	Right of the families to know the fate of their relatives	2765
Chapter 37.	Persons Deprived of Their Liberty	2775
A.	Provision of Basic Necessities to Persons Deprived of Their Liberty (practice relating to Rule 118)	2776
B.	Accommodation for Women Deprived of Their Liberty (practice relating to Rule 119)	2790
C.	Accommodation for Children Deprived of Their Liberty (practice relating to Rule 120)	2795
D.	Location of Internment and Detention Centres (practice relating to Rule 121)	2801
E.	Pillage of the Personal Belongings of Persons Deprived of Their Liberty (practice relating to Rule 122)	2808
F.	Recording and Notification of Personal Details of Persons Deprived of Their Liberty (practice relating to Rule 123)	2814

G.	ICRC Access to Persons Deprived of Their Liberty (practice relating to Rule 124)	2824
H.	Correspondence of Persons Deprived of Their Liberty (practice relating to Rule 125)	2841
I.	Visits to Persons Deprived of Their Liberty (practice relating to Rule 126)	2849
J.	Respect for Convictions and Religious Practices of Persons Deprived of Their Liberty (practice relating to Rule 127)	2853
K.	Release and Return of Persons Deprived of Their Liberty (practice relating to Rule 128)	2860
	Release and return without delay	2860
	Unconditional release	2882
	Exchange of prisoners	2885
	Voluntary nature of return	2891
	Destination of returning persons	2896
	Responsibility for safe return	2898
	Role of neutral intermediaries in the return process	2900
Chapter 38.	Displacement and Displaced Persons	2908
A.	Act of Displacement (practice relating to Rule 129)	2908
	Forced displacement	2908
	Evacuation of the civilian population	2942
	Ethnic cleansing	2951
B.	Transfer of Own Civilian Population into Occupied Territory (practice relating to Rule 130)	2956
C.	Treatment of Displaced Persons (practice relating to Rule 131)	2970
	Provision of basic necessities	2970
	Security of displaced persons	2980
	Respect for family unity	2986
	Specific needs of displaced women, children and elderly persons	2992
	International assistance to displaced persons	3003
D.	Return of Displaced Persons (practice relating to Rule 132)	3009
	Conditions for return	3009
	Measures to facilitate return and reintegration	3023
	Assessment visits prior to return	3037
	Amnesty to encourage return	3039
	Non-discrimination	3041

E.	Property Rights of Displaced Persons (practice relating to Rule 133)	3044
	Safeguard of property rights	3044
	Transfer of property under duress	3048
	Return of property or compensation	3051
Chapter 39.	Other Persons Afforded Specific Protection	3058
A.	Women (practice relating to Rule 134)	3058
	General	3058
	Particular care for pregnant women and nursing mothers	3069
	Death penalty on pregnant women and nursing mothers	3073
B.	Children (practice relating to Rule 135)	3076
	Special protection	3076
	Education	3092
	Evacuation	3100
	Death penalty on children	3105
C.	Recruitment of Child Soldiers (practice relating to Rule 136)	3109
D.	Participation of Child Soldiers in Hostilities (practice relating to Rule 137)	3128
E.	The Elderly, Disabled and Infirm (practice relating to Rule 138)	3142
	The elderly	3142
	The disabled and infirm	3146
 Part VI. Implementation		
Chapter 40.	Compliance with International Humanitarian Law	3155
A.	Respect for International Humanitarian Law (practice relating to Rule 139)	3155
	General	3155
	Orders and instructions to ensure respect for international humanitarian law	3180
B.	Principle of Reciprocity (practice relating to Rule 140)	3187
C.	Legal Advisers for Armed Forces (practice relating to Rule 141)	3196
D.	Instruction in International Humanitarian Law within Armed Forces (practice relating to Rule 142)	3207

<i>Contents</i>	xix
General	3207
Obligation of commanders to instruct the armed forces under their command	3260
E. Dissemination of International Humanitarian Law among the Civilian Population (practice relating to Rule 143)	3269
Chapter 41. Enforcement of International Humanitarian Law	3288
A. Ensuring Respect for International Humanitarian Law Erga Omnes (practice relating to Rule 144)	3289
B. Definition of Reprisals (practice relating to Rule 145)	3302
Purpose of reprisals	3302
Measure of last resort	3328
Proportionality of reprisals	3337
Order at the highest authority of government	3346
Termination as soon as the adversary complies again with the law	3353
Limitation of reprisals by principles of humanity	3356
C. Reprisals against Protected Persons (practice relating to Rule 146)	3360
Captured combatants and prisoners of war	3360
Wounded, sick and shipwrecked in the power of the adversary	3374
Medical and religious personnel in the power of the adversary	3384
Civilians in the power of the adversary	3393
Civilians in general	3405
D. Reprisals against Protected Objects (practice relating to Rule 147)	3427
Civilian objects in general	3427
Medical objects	3443
Cultural property	3452
Objects indispensable to the survival of the civilian population	3463
Natural environment	3471
Works and installations containing dangerous forces	3480
E. Reprisals in Non-International Armed Conflicts (practice relating to Rule 148)	3488

Chapter 42. Responsibility and Reparation	3507
A. Responsibility for Violations of International Humanitarian Law (practice relating to Rule 149)	3507
B. Reparation (practice relating to Rule 150)	3530
General	3530
Compensation	3536
Forms of reparation other than compensation	3593
Chapter 43. Individual Responsibility	3611
A. Individual Responsibility (practice relating to Rule 151)	3611
Individual criminal responsibility	3611
Individual civil liability	3704
B. Command Responsibility for Orders to Commit War Crimes (practice relating to Rule 152)	3713
C. Command Responsibility for Failure to Prevent, Repress or Report War Crimes (practice relating to Rule 153)	3733
Prevention and repression of war crimes	3733
Reporting of war crimes	3791
D. Obedience to Superior Orders (practice relating to Rule 154)	3799

EDITORS' NOTE

This volume catalogues practice of international humanitarian law collected for the purpose of the study of customary international humanitarian law conducted by the International Committee of the Red Cross. The rules of customary international humanitarian law based on this practice are found in Volume I; each chapter in Volume II has a corresponding chapter in Volume I, and each section within a chapter in Volume II corresponds to a rule in Volume I. An explanation of the selection of the catalogued sources of practice is to be found in the introductory section of Volume I entitled "Assessment of Customary International Law".

The practice recorded in each chapter, section or subsection has been organised as follows:

I. Treaties and Other Instruments

Treaties

This category includes universal, regional and other treaties. They are presented in chronological order and are indicated by their short names. Their full references can be found in the relevant list at the end of this volume. Reservations and declarations made by individual States to treaty provisions are indicated immediately following the provisions in question. The status of ratification of the treaties most frequently referred to can be found in the relevant table at the end of this volume.

Other Instruments

Instruments other than treaties are presented in chronological order and are indicated by their short names. Their full references can be found in the relevant list at the end of this volume.

II. National Practice

National practice is presented in alphabetical order according to the country names that were in use at the time of the practice in question. Country names

are expressed in their short form. For example, the practice of the USSR is given under "U", while the practice of the Russian Federation, referred to as Russia, is under "R".

Military Manuals

This category of practice includes all types of instructions to armed and security forces found in manuals, directives and teaching booklets. In both the text and the footnotes, manuals are indicated by their short names. Their full references can be found in the relevant list at the end of this volume.

National Legislation

This category of practice includes constitutional law, pieces of legislation and executive orders. In both the text and the footnotes, each piece of legislation is indicated by its short name. The full references can be found in the relevant list at the end of this volume.

National Case-law

National case-law is indicated by the short name in both text and footnotes. The full references can be found in the relevant list at the end of this volume.

Other National Practice

Other national practice is organised in alphabetical order by country name and is fully referenced in the footnotes.

III. Practice of International Organisations and Conferences

United Nations

United Nations practice is ordered as follows: (i) resolutions adopted by the UN Security Council; (ii) statements by the President of the UN Security Council; (iii) resolutions adopted by the UN General Assembly; (iv) resolutions adopted by ECOSOC; (v) resolutions adopted by the UN Commission on Human Rights; (vi) resolutions adopted by the UN Sub-Commission on Human Rights; (vii) resolutions adopted by UN specialised organisations and agencies; and (viii) statements and reports of the UN Secretary-General, UN Special Rapporteurs, UN special committees and other UN officials and bodies.

Resolutions of the UN Security Council, UN General Assembly, ECOSOC, UN Commission on Human Rights and UN Sub-Commission on Human Rights are indicated in the footnotes by their number only; their full references can be found in the corresponding lists at the end of this volume. Other resolutions, reports and statements are fully referenced in the footnotes.

Each type of practice is arranged in chronological order.

Other International Organisations

This category includes resolutions and reports of regional organisations and other international organisations outside the United Nations. They are presented in alphabetical order according to the organisation and within each organisation in chronological order. Resolutions are indicated in the footnotes by their number only; their full references can be found in the relevant list at the end of this volume.

International Conferences

The practice of international conferences is presented in chronological order. Resolutions of the International Conference of the Red Cross and Red Crescent are referenced in the footnotes by their number only; their full references can be found in the relevant list at the end of this volume.

IV. Practice of International Judicial and Quasi-judicial Bodies

This category includes the various types of practice emanating from judicial and quasi-judicial bodies, such as judgements, advisory opinions, views and general comments. This practice is organised by body in the following order: (i) International Military Tribunal (Nuremberg and Tokyo); (ii) International Court of Justice; (iii) International Criminal Tribunal for Rwanda; (iv) International Criminal Tribunal for the Former Yugoslavia; (v) Human Rights Committee; (vi) Committee on the Elimination of Racial Discrimination; (vii) Committee on the Elimination of Discrimination against Women; (viii) Committee against Torture; (ix) Committee on the Rights of the Child; (x) United Nations Compensation Commission; (xi) regional judicial and quasi-judicial bodies; and (xii) arbitral tribunals.

Cases are referenced in the text and footnotes according to their short names. Their full references can be found in the relevant list at the end of this volume. Other practice in this category is fully referenced in the footnotes.

V. Practice of the International Red Cross and Red Crescent Movement

The practice in this category is presented in chronological order. Resolutions of the Council of Delegates of the International Red Cross and Red Crescent Movement are referenced in the footnotes with their number only; their full references can be found in the relevant list at the end of this volume.

VI. Other Practice

This category includes statements by armed opposition groups, reports by non-governmental organisations and other types of publications from non-governmental sources. The practice in this category is presented in chronological order.

PART I

THE PRINCIPLE OF DISTINCTION

DISTINCTION BETWEEN CIVILIANS AND COMBATANTS

A.	General (practice relating to Rule 1)	§§ 1–475
	The principle of distinction	§§ 1–82
	Attacks against combatants	§§ 83–153
	Attacks against civilians	§§ 154–475
B.	Violence Aimed at Spreading Terror among the Civilian Population (practice relating to Rule 2)	§§ 476–569
C.	Definition of Combatants (practice relating to Rule 3)	§§ 570–627
D.	Definition of Armed Forces (practice relating to Rule 4)	§§ 628–704
	General	§§ 628–683
	Incorporation of paramilitary or armed law enforcement agencies into armed forces	§§ 684–704
E.	Definition of Civilians (practice relating to Rule 5)	§§ 705–753
F.	Loss of Protection from Attack (practice relating to Rule 6)	§§ 754–919
	Direct participation in hostilities	§§ 754–817
	Specific examples of direct participation	§§ 818–864
	Presence of combatants among the civilian population	§§ 865–886
	Situations of doubt as to the character of a person	§§ 887–919

A. General

The principle of distinction

I. Treaties and Other Instruments

Treaties

1. Article 48 AP I provides that “the Parties to the conflict shall at all times distinguish between the civilian population and combatants”. Article 48 AP I was adopted by consensus.¹

2. Article 24(1) of draft AP II submitted by the ICRC to the CDDH provided that “in order to ensure respect for the civilian population, the parties to the conflict...shall make a distinction between the civilian population and

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 161.

combatants".² This proposal was amended and adopted by consensus in Committee III of the CDDH.³ The approved text provided that "in order to ensure respect and protection for the civilian population . . . the Parties to the conflict shall at all times distinguish between the civilian population and combatants".⁴ Eventually, however, it was deleted in the plenary, because it failed to obtain the necessary two-thirds majority (36 in favour, 19 against and 36 abstentions).⁵

3. According to the preamble to the 1997 Ottawa Convention, States parties based their agreement on various principles of IHL, including "the principle that a distinction must be made between civilians and combatants".

Other Instruments

4. Article 22 of the 1863 Lieber Code states that "as civilization has advanced during the last centuries, so has likewise steadily advanced, especially in war on land, the distinction between the private individual belonging to a hostile country and the hostile country itself, with its men in arms".
5. Article 1 of the 1880 Oxford Manual provides that "the state of war does not admit of acts of violence, save between the armed forces of belligerent States. Persons not forming part of a belligerent armed force should abstain from such acts." In its commentary on Article 1, the manual states that "this rule implies a distinction between the individuals who compose the 'armed force' of a State and its other 'ressortissants'".
6. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 48 AP I.
7. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 48 AP I.
8. Paragraph 39 of the 1994 San Remo Manual states that "parties to the conflict shall at all times distinguish between civilians or other protected persons and combatants".
9. Section 5.1 of the 1999 UN Secretary-General's Bulletin states that UN forces "shall make a clear distinction at all times between civilians and combatants".

II. National Practice

Military Manuals

10. Argentina's Law of War Manual provides that "the parties to the conflict must distinguish at all times between the [civilian] population and combatants".⁶

² CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 37.

³ CDDH, *Official Records*, Vol. XV, CDDH/215/Rev.1, 3 February–18 April 1975, p. 288, § 113.

⁴ CDDH, *Official Records*, Vol. XV, CDDH/215/Rev.1, 3 February–18 April 1975, p. 319.

⁵ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 135, § 78.

⁶ Argentina, *Law of War Manual* (1989), § 4.01.

11. Australia's Defence Force Manual states that the law of armed conflict "establishes a requirement to distinguish between combatants and civilians, and between military objectives and civilian objects. This requirement imposes obligations on all parties to a conflict to establish and maintain the distinction."⁷
12. Belgium's Law of War Manual provides that "a distinction must always be made between the civilian population and those participating in hostilities: the latter may be attacked, the former may not".⁸
13. Benin's Military Manual provides that "a distinction shall be made at all times between combatants and civilians".⁹
14. Cameroon's Instructors' Manual requires "respect for the principle of distinction, that is to say, the definition and separation of soldiers and civilians".¹⁰ It adds that "a soldier cannot fight without knowing exactly who is a combatant and who is not".¹¹
15. Canada's LOAC Manual states that "commanders shall at all times distinguish between the civilian population and combatants".¹²
16. Colombia's Circular on Fundamental Rules of IHL states that "the Parties to the conflict must at all times make a distinction between civilians and combatants in order to protect the civilian population and civilian objects".¹³
17. Colombia's Basic Military Manual provides for the obligation "to distinguish between combatants and the civilian population".¹⁴
18. Croatia's LOAC Compendium states that a distinction must always be made between combatants and civilians.¹⁵
19. Croatia's Instructions on Basic Rules of IHL requires all relevant personnel to distinguish between combatants and civilians in order to protect the civilian population and civilian property.¹⁶
20. Ecuador's Naval Manual states that "the law of armed conflicts is based largely on the distinction to be made between combatants and noncombatants".¹⁷
21. France's LOAC Summary Note states that "the civilian population and civilian objects must be spared and distinguished at all times from combatants and military objectives".¹⁸

⁷ Australia, *Defence Force Manual* (1994), § 504.

¹⁶ Croatia, *Instructions on Basic Rules of IHL* (1993), § 7.

¹⁷ Ecuador, *Naval Manual* (1989), § 5.3, see also §§ 8.1 and 11.1.

¹⁸ France, *LOAC Summary Note* (1992), Part I, preamble; see also *LOAC Teaching Note* (2000), p. 4.

22. France's LOAC Manual imposes the obligation "to distinguish between military objectives, which may be attacked, and civilian objects and persons, which must not be made the object of deliberate attack".¹⁹
23. Germany's Military Manual states that it is prohibited "to injure military objectives, civilians, or civilian objects without distinction".²⁰
24. Hungary's Military Manual provides that a distinction must always be made between combatants and civilians.²¹
25. With reference to Israel's Law of War Booklet, the Report on the Practice of Israel states that "in principle, the IDF (Israel Defence Forces) accepts and applies the principle of distinction".²²
26. The Military Manual of the Netherlands states that "the parties to the conflict must at all times distinguish between the civilian population and combatants".²³
27. New Zealand's Military Manual states that "the principle of distinction... imposes an obligation on commanders to distinguish between legitimate military objectives and civilian objects and the civilian population when conducting military operations, particularly when selecting targets".²⁴
28. According to Nigeria's Military Manual, "the main aim for all commanders and individual combatants is to distinguish combatants and military objectives from civilian persons and objects at all times".²⁵
29. Sweden's IHL Manual states that "a distinction shall always be made between persons participating in hostilities and who are thereby legitimate objectives, and members of the civilian population, who may not constitute objectives in warfare".²⁶ The manual considers that the principle of distinction as stated in Article 48 AP I is part of customary international law.²⁷
30. According to Switzerland's Basic Military Manual, "the Parties to the conflict must at all times make a distinction between the civilian population and combatant troops".²⁸
31. Togo's Military Manual provides that "a distinction shall be made at all times between combatants and civilians".²⁹
32. The UK Military Manual refers to "the division of the population of a belligerent State into two classes, namely, the armed forces and the peaceful population".³⁰

33. The US Air Force Pamphlet states that “in order to insure respect and protection for the civilian population and civilian objects, the parties to the conflict must at all times distinguish between the civilian population and combatants”.³¹

34. According to the US Naval Handbook, “the law of armed conflicts is based largely on the distinction to be made between combatants and noncombatants”.³²

National Legislation

35. Under Ireland’s Geneva Conventions Act as amended, any “minor breach” of AP I, including violations of Article 48 AP I, is a punishable offence.³³

36. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment”.³⁴

National Case-law

37. No practice was found.

Other National Practice

38. A report submitted to the Belgian Senate in 1991 noted that the principle of distinction remained the foundation of the law of armed conflict.³⁵

39. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Ecuador stated that “the use of nuclear weapons does not discriminate, in general, military objectives from civilian objectives”.³⁶

40. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt stated that:

The distinction between combatants and non-combatants is one of the most important victories and accomplishments of international law since the early beginnings of the nineteenth century. Any authorization of nuclear weapons will definitely cause this principle to collapse.³⁷

41. The instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, state that “all parties must

at all times make a distinction between the civilian population and military objectives in order to spare the civilian population".³⁸

42. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, India concluded that "the use of nuclear weapons in an armed conflict is unlawful being contrary to the conventional as well as customary international law because such a use cannot distinguish between the combatants and non-combatants".³⁹

43. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Japan stated that "with their colossal power and capacity for slaughter and destruction, nuclear weapons make no distinction between combatants and non-combatants".⁴⁰

44. The Report on the Practice of Lebanon refers to a 1996 report by the Lebanese Ministry of Justice which stated that Israel had committed serious violations of the Geneva Conventions by failing to distinguish between civilians and combatants.⁴¹

45. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, New Zealand stated that "discrimination between combatants and those who are not directly involved in armed conflict is a fundamental principle of international humanitarian law".⁴²

46. According to the Report on the Practice of Nigeria, it is Nigeria's *opinio juris* that the principle of distinction between combatants and civilians is part of customary international law.⁴³

47. In 1991, in a Letter Directive to Commanders of Major Services and Area Commands, the Chief of Staff of the armed forces of the Philippines stated that all units must distinguish between combatants and the civilian population in order to ensure that civilians receive the respect and protection to which they are entitled.⁴⁴

48. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the Solomon Islands stated that:

Under international law it is clear beyond any doubt that the use of a nuclear weapon against civilians, whatever the nature or size and destructive power of the

weapon, will be rendered illegal by virtue of the application of the customary rule which states that belligerents must always distinguish between combatants and non-combatants and limit their attack only to the former. This is an old and well-established rule which has achieved universal acceptance.⁴⁵

49. In its consideration of the legality of the attack by the South African defence forces on the SWAPO base/refugee camp at Kassinga in Angola in 1978, the South African Truth and Reconciliation Commission stated that “international humanitarian law stipulates that a distinction must at all times be made between persons taking part in hostilities and civilians”.⁴⁶

50. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the UK stated that “the parties to an armed conflict are required to discriminate between civilians and civilian objects on the one hand and combatants and military objectives on the other and to direct their attacks only against the latter”.⁴⁷

51. In explaining the US government’s position on the basic principles applicable in armed conflicts before the Third Committee of the UN General Assembly in 1968, the US representative stated that the principle of distinction, as set out in draft General Assembly Resolution 2444 (XXIII), constituted a reaffirmation of existing international law.⁴⁸ Subsequently, US officials have referred to General Assembly Resolution 2444 (XXIII) as an accurate statement of the customary rule that a distinction must be made at all times between persons taking part in hostilities and the civilian population.⁴⁹

52. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army pointed out that “the obligation of distinguishing combatants and military objectives from civilians and civilian objects is a shared responsibility of the attacker, defender, and the civilian population as such”.⁵⁰

53. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that Article 48 AP I “is generally regarded

⁴⁸ US, Statement before the Third Committee of the UN General Assembly, UN Doc. A/C.3/SR.1634, 10 December 1968.

⁴⁹ US, Letter from J. Fred Buzhardt, General Counsel of the Department of Defense, to Senator Edward Kennedy, Chairman of the Subcommittee on Refugees of the Committee on the Judiciary, 22 September 1972, *AJIL*, Vol. 67, pp. 122–126; Statement of the Acting Assistant Legal Adviser for Politico-Military Affairs during a symposium at the Brooklyn Law School, 25 September 1982, reprinted in Marian Nash (Leich), *Cumulative Digest of United States Practice in International Law, 1981–1988*, Department of State Publication 10120, Washington, D.C., 1993–1995, pp. 3421–3422.

⁵⁰ US, Letter from the Department of the Army to the legal adviser of the US Army forces deployed in the Gulf region, 11 January 1991, § 8(E), Report on US Practice, 1997, Chapter 1.4.

as a codification of the customary practice of nations, and therefore binding on all".⁵¹ It also stated that:

The law of war with respect to targeting, collateral damage and collateral civilian casualties is derived from the principle of discrimination; that is, the necessity for distinguishing between combatants, who may be attacked, and noncombatants, against whom an intentional attack may not be directed, and between legitimate military targets and civilian objects.⁵²

54. According to the Report on US Practice, "it is the *opinio juris* of the United States that . . . a distinction must be made between persons taking part in the hostilities and the civilian population to the effect that the civilians be spared as much as possible".⁵³

III. Practice of International Organisations and Conferences

United Nations

55. In Resolution 2444 (XXIII), adopted in 1968, the UN General Assembly affirmed Resolution XXVIII of the 20th International Conference of the Red Cross and the basic humanitarian principle applicable in all armed conflicts laid down therein that "distinction must be made at all times between persons taking part in the hostilities and members of the civilian population to the effect that the latter be spared as much as possible".⁵⁴

56. In Resolution 2675 (XXV), adopted in 1970, the UN General Assembly recalled that "in the conduct of military operations during armed conflict, a distinction must be made at all times between persons actively taking part in the hostilities and civilian populations".⁵⁵ Resolution 2673 (XXV), adopted the same day and dealing with journalists in conflict zones, referred in its preamble to the principle of distinction.⁵⁶

57. In 1998, in a report on protection for humanitarian assistance to refugees and others in conflict situations, the UN Secretary-General noted that the changing pattern of conflicts in recent years had dramatically worsened the problem of compliance with international law and listed as an example that "in situations of internal conflicts, whole societies are often mobilized for war and it is difficult to distinguish between combatants and non-combatants".⁵⁷

⁵¹ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, Appendix O, The Role of the Law of War, 10 April 1992, *ILM*, Vol. 31, 1992, p. 625.

⁵² US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, Appendix O, The Role of the Law of War, 10 April 1992, *ILM*, Vol. 31, 1992, p. 621.

⁵⁵ UN General Assembly, Res. 2675 (XXV), 9 December 1970, § 2.

⁵⁶ UN General Assembly, Res. 2673 (XXV), 9 December 1970, preamble.

⁵⁷ UN Secretary-General, Report on protection for humanitarian assistance to refugees and others in conflict situations, UN Doc. S/1998/883, 22 September 1998, § 12.

58. The report pursuant to paragraph 5 of UN Security Council resolution 837 (1993) on the investigation into the 5 June 1993 attack on UN forces in Somalia noted that:

The [Geneva] Conventions were designed to cover inter-State wars and large-scale civil wars. But the principles they embody have a wider scope. Plainly a part of contemporary international customary law, they are applicable wherever political ends are sought through military means. No principle is more central to the humanitarian law of war than the obligation to respect the distinction between combatants and non-combatants. That principle is violated and criminal responsibility thereby incurred when organizations deliberately target civilians or when they use civilians as shields or otherwise demonstrate a wanton indifference to the protection of non-combatants.⁵⁸

Other International Organisations

59. In a declaration adopted on the occasion of the 50th anniversary of the Geneva Conventions in 1999, the EU stated that it deplored the persistence of violations of IHL. It added that present-day conflicts often did not make the important distinction between combatants and civilians and that children and other vulnerable groups were targets of the conflicts.⁵⁹

International Conferences

60. The 20th International Conference of the Red Cross in 1965 solemnly declared that:

All Governments and other authorities responsible for action in armed conflicts should conform at least to the following principles: . . . that distinction must be made at all times between persons taking part in the hostilities and members of the civilian population to the effect that the latter be spared as much as possible.⁶⁰

IV. Practice of International Judicial and Quasi-judicial Bodies

61. In its advisory opinion in the *Nuclear Weapons case* in 1996, the ICJ considered the principle of distinction between combatants and non-combatants to be one of the “cardinal principles contained in the texts constituting the fabric of humanitarian law” and also one of the “intransgressible principles of international customary law”.⁶¹

⁵⁸ Report pursuant to paragraph 5 of Security Council resolution 837 (1993) on the investigation into the 5 June 1993 attack on United Nations forces in Somalia conducted on behalf of the UN Security Council, UN Doc. S/26351, 24 August 1993, Annex, § 9.

⁶¹ ICJ, *Nuclear Weapons case*, Advisory Opinion, 8 July 1996, §§ 78–79.

62. In its judgement in the *Blaškić case* in 2000, the ICTY held that “the parties to the conflict are obliged to attempt to distinguish between military targets and civilian persons”.⁶²

63. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the 1999 NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that “one of the principles underlying IHL is the principle of distinction, which obligates military commanders to distinguish between military objectives and civilian persons or objects”.⁶³

64. In 1997, in the case concerning the events at La Tablada in Argentina, the IACiHR underlined the obligation of the contending parties, on the basis of common Article 3 of the 1949 Geneva Conventions and customary principles applicable to all armed conflicts, “to distinguish in their targeting between civilians and combatants and other lawful military objectives”.⁶⁴

65. According to an IACiHR report on the human rights situation in Colombia issued in 1999, IHL prohibits:

the launching of attacks against the civilian population and requires the parties to an armed conflict, at all times, to make a distinction between members of the civilian population and persons actively taking part in the hostilities and to direct their attacks only against the latter and, inferentially, other legitimate military objectives.⁶⁵

V. Practice of the International Red Cross and Red Crescent Movement

66. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that a distinction must be made between combatants and civilians at all times.⁶⁶

67. In an appeal issued in 1979 with respect to the conflict in Rhodesia/Zimbabwe, the ICRC stated that “fundamental humanitarian rules accepted by all nations – such as the obligation to distinguish between combatants and civilians, and to refrain from violence against the latter – have been largely ignored”.⁶⁷

68. In a press release issued in 1984 in the context of the Iran–Iraq War, the ICRC stated that “in violation of the laws and customs of war, and in particular of the essential principle that military targets must be distinguished from

civilian persons and objects, the Iraqi armed forces have continued to bomb Iranian civilian zones".⁶⁸

69. In several press releases issued in 1992, the ICRC reminded the parties to the armed conflict in Afghanistan of their duty to distinguish at all times between combatants and civilians.⁶⁹

70. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context of the Gulf War, the ICRC stated that "the following general rules are recognized as binding on any party to an armed conflict: . . . a distinction must be made in all circumstances between combatants and military objectives on the one hand, and civilians and civilian objects on the other".⁷⁰

71. In a communication to the press in 1993, the ICRC reminded the parties to the conflict in Georgia of their obligation "to distinguish at all times between combatants and military objectives on the one hand, and civilians and civilian objects on the other".⁷¹

72. In a communication to the press in 1993, the ICRC reminded the parties to the conflict in Nagorno-Karabakh of their obligation "to distinguish at all times between combatants and military objectives on the one hand and civilians and civilian property on the other".⁷²

73. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that "a clear distinction must be made in all circumstances between civilians and civilian objects on the one hand and combatants and military objectives on the other".⁷³

74. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that "a clear distinction must be made, in all circumstances, between civilian persons who do not participate in confrontations and refrain from acts of violence and civilian objects on the one hand, and combatants and military objectives on the other".⁷⁴

⁶⁸ ICRC, Press Release No. 1480, Conflict between Iran and Iraq and breaches of international humanitarian law: a renewed ICRC appeal, 15 February 1984, *IRRC*, No. 239, 1984, pp. 113–115.

⁷⁴ ICRC, Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise, 23 June 1994, § II, reprinted in Marco Sassòli and Antoine A. Bouvier, *How Does Law Protect in War?*, ICRC, Geneva, 1999, p. 1308.

75. In a communication to the press in 1999, the ICRC called upon all the parties to the internal conflict in Sierra Leone to abide by the rules of IHL and in particular to make a clear distinction between combatants and civilians so as to protect persons not or no longer taking part in hostilities.⁷⁵

VI. *Other Practice*

76. In a resolution adopted at its Edinburgh Session in 1969, the Institute of International Law recalled that “the obligation to respect the distinction between military objectives and non-military objects, as well as between persons participating in the hostilities and members of the civilian population, remains a fundamental principle of the international law in force”.⁷⁶

77. In 1980, an armed opposition group expressed its acceptance of the fundamental principles of IHL as formulated by the ICRC, including the principle that “the parties to the conflict shall at all times distinguish between the civilian population and combatants in order to spare the civilian population and civilian objects”.⁷⁷

78. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch stated that:

Certain general principles of the customary law of armed conflict were recognized in U.N. General Assembly Resolution 2444 (XXIII), 13 January 1969, which was adopted by unanimous vote. This resolution affirms . . . that distinction must be made at all times between persons taking part in the hostilities and members of the civilian population.⁷⁸

79. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that:

United Nations General Assembly Resolution 2444, *Respect for Human Rights in Armed Conflicts* . . . adopted by unanimous vote on December 19, 1969, expressly recognized this customary principle of civilian immunity and its complementary principle requiring the warring parties to distinguish civilians from combatants at all times . . . Furthermore, the International Committee of the Red Cross has long regarded these principles as basic rules of the laws of war that apply in all armed conflicts. The United States government also has expressly recognized these principles as declaratory of existing customary international law.⁷⁹

80. Rule A1 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990

⁷⁵ ICRC, Communication to the Press No. 99/02, Sierra Leone: ICRC pulls out of Freetown, 14 January 1999.

⁷⁶ Institute of International Law, Edinburgh Session, Resolution on the Distinction between Military Objectives and Non-military Objects in General and Particularly the Problems Associated with Weapons of Mass Destruction, 9 September 1969, § 1.

⁷⁹ Africa Watch, *Angola: Violations of the Laws of War by Both Sides*, New York, April 1989, p. 126.

by the Council of the IIHL, provides that “the obligation to distinguish between combatants and civilians is a general rule applicable in non-international armed conflicts”. The commentary on this rule notes that it is based on the St. Petersburg Declaration, Article 25 HR, UN General Assembly Resolutions 2444 (XXIII) and 2675 (XXV), common Article 3 of the 1949 Geneva Conventions and Article 13(2) AP II.⁸⁰

81. In 1992, in a report on war crimes committed in the conflict in Bosnia and Herzegovina, Helsinki Watch stated that:

United Nations General Assembly Resolution 2444, adopted by unanimous vote on December 19, 1969, expressly recognized the customary law principle of civilian immunity and its complementary principle requiring the warring parties to distinguish civilians from combatants at all times.⁸¹

82. In 1995, the IIHL stated that any declaration on minimum humanitarian standards should be based on “principles . . . of *jus cogens*, expressing basic humanitarian consideration[s] which are recognized to be universally binding”. According to the IIHL, this includes the principle that “in the case where the situation is characterized by hostilities, the difference between combatants and civilians shall be made”.⁸²

Attacks against combatants

I. Treaties and Other Instruments

Treaties

83. The preamble to the 1868 St. Petersburg Declaration states that “the only legitimate object which States should endeavour to accomplish during war is to weaken the military forces of the enemy”.

84. Article 48 AP I states that “Parties to the conflict . . . shall direct their operations only against military objectives”. Article 48 AP I was adopted by consensus.⁸³

85. Article 52(2) AP I states that “attacks shall be limited strictly to military objectives”. Article 52 AP I was adopted by 79 votes in favour, none against and 7 abstentions.⁸⁴

⁸⁰ IIHL, Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, Rule A1 and Commentary, *IRRC*, No. 278, 1990, Commentary, pp. 387–388.

86. Upon ratification of AP I, Australia stated that “it is the understanding of Australia that the first sentence of paragraph 2 of Article 52 is not intended to, nor does it, deal with the question of incidental or collateral damage resulting from an attack directed against a military objective”.⁸⁵

87. Upon ratification of AP I, Canada stated that:

It is the understanding of the Government of Canada in relation to Article 52 that . . . the first sentence of paragraph 2 of the Article is not intended to, nor does it, deal with the question of incidental or collateral damage resulting from an attack directed against a military objective.⁸⁶

88. Upon ratification of AP I, France stated that “the Government of the French Republic considers that the first sentence of paragraph 2 of Article 52 does not deal with the question of collateral damage resulting from attacks directed against military objectives”.⁸⁷

89. Upon ratification of AP I, Italy declared that “the first sentence of paragraph 2 of [Article 52] prohibits only such attacks as may be directed against non-military objectives. Such a sentence does not deal with the question of collateral damage caused by attacks directed against military objectives.”⁸⁸

90. Upon ratification of AP I, New Zealand stated that “the first sentence of paragraph 2 of [Article 52] is not intended to, nor does it, deal with the question of incidental or collateral damage resulting from an attack directed against a military objective”.⁸⁹

91. Upon ratification of AP I, the UK stated that:

It is the understanding of the United Kingdom that . . . the first sentence of paragraph 2 [of Article 52] prohibits only such attacks as may be directed against non-military objectives; it does not deal with the question of collateral damage resulting from attacks directed against military objectives.⁹⁰

92. Article 24(1) of draft AP II submitted by the ICRC to the CDDH stated that “in order to ensure respect for the civilian population, the parties to the conflict shall confine their operations to the destruction or weakening of the military resources of the adversary”.⁹¹ This proposal was amended and adopted by consensus in Committee III of the CDDH.⁹² The approved text provided that “in order to ensure respect and protection for the civilian population . . . the Parties to the conflict . . . shall direct their operations only against military

objectives".⁹³ Eventually, however, it was deleted in the plenary, because it failed to obtain the necessary two-thirds majority (36 in favour, 19 against and 36 abstentions).⁹⁴

Other Instruments

93. Article 15 of the 1863 Lieber Code states that "military necessity admits of all direct destruction of life or limb of 'armed' enemies... it allows of the capturing of every armed enemy, and every enemy of importance to the hostile government, or of peculiar danger to the captor".

94. The commentary on Article 3 of the 1880 Oxford Manual refers to the principle laid down in the 1868 St. Petersburg Declaration that "the only legitimate object which States should endeavour to accomplish during war is to weaken the military forces of the enemy".

95. According to Article 24(2) of the 1923 Hague Rules of Air Warfare, "military forces" are military objectives.

96. Article 7 of the 1956 New Delhi Draft Rules states that "in order to limit the dangers incurred by the civilian population, attacks may only be directed against military objectives". Paragraph I(1) of the proposed annex to Article 7(2) stated that "armed forces, including auxiliary or complementary organizations, and persons who, though not belonging to the above-mentioned formations, nevertheless take part in the fighting" were military objectives considered to be of "generally recognized military importance".

97. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Articles 48 and 52(2) AP I.

98. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Articles 48 and 52(2) AP I.

99. Paragraph 41 of the 1994 San Remo Manual provides that "attacks shall be limited strictly to military objectives".

100. Section 5.1 of the 1999 UN Secretary-General's Bulletin states that "military operations shall be directed only against combatants and military objectives".

II. National Practice

Military Manuals

101. Australia's Defence Force Manual states that "military operations must only be conducted against enemy armed forces and military objects".⁹⁵

⁹³ CDDH, *Official Records*, Vol. XV, CDDH/215/Rev.1, 3 February–18 April 1975, p. 319.

⁹⁴ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 135, § 78.

⁹⁵ Australia, *Defence Force Manual* (1994), § 210.

- 102.** Belgium's Teaching Manual for Soldiers states that only enemy combatants may be attacked.⁹⁶
- 103.** Benin's Military Manual states that "a combatant must fight only combatants".⁹⁷
- 104.** Cameroon's Instructors' Manual states that armed forces are considered military objectives, with the exception of religious and medical personnel.⁹⁸
- 105.** Canada's LOAC Manual states that "combatants are legitimate targets and may be attacked".⁹⁹
- 106.** Canada's Code of Conduct requires Canadian forces to "engage only opposing forces and military objectives".¹⁰⁰
- 107.** Colombia's Circular on Fundamental Rules of IHL states that "neither the civilian population, as such, nor individual civilians may be made the object of attack. Attacks may only be directed against military objectives."¹⁰¹
- 108.** Colombia's Instructors' Manual states that it is a rule of combat to "fight only combatants".¹⁰²
- 109.** Croatia's LOAC Compendium includes armed forces among military objectives.¹⁰³
- 110.** Croatia's Commanders' Manual states that "combatants may be attacked".¹⁰⁴
- 111.** The Military Manual of the Dominican Republic states that only combatants are proper targets for attack.¹⁰⁵
- 112.** Ecuador's Naval Manual states that only attacks against combatants and other military objectives are lawful.¹⁰⁶
- 113.** France's LOAC Summary Note states that combatants are military objectives.¹⁰⁷
- 114.** Germany's Military Manual provides that military objectives include, in particular, armed forces.¹⁰⁸
- 115.** Hungary's Military Manual states that armed forces are military objectives.¹⁰⁹
- 116.** Israel's Manual on the Laws of War states that "any soldier (male or female!) in the enemy's army is a legitimate military target for attack, whether on the battlefield or outside of it".¹¹⁰
- 117.** According to Italy's IHL Manual, armed forces may be attacked.¹¹¹

objectives, and members of the civilian population, who may not constitute objectives in warfare".¹²⁵

132. Switzerland's Basic Military Manual states that only military objectives may be attacked, including enemy armed forces.¹²⁶

133. Togo's Military Manual states that "a combatant must fight only enemy combatants".¹²⁷

134. The UK Military Manual states that:

The most important powers of resistance possessed by a belligerent . . . are his armed forces with their military stores and equipment, and his defence installations of all kinds. The means of reducing these powers of resistance [include] killing and disabling enemy combatants.¹²⁸

135. The US Rules of Engagement for Operation Desert Storm sets as a basic rule "fight only combatants".¹²⁹

136. The US Naval Handbook states that only attacks against combatants and other military objectives are lawful.¹³⁰

137. The YPA Military Manual of the SFRY (FRY) states that "the armed forces are an instrument of force and [may be] the direct object of attack. It is permitted to kill, wound or disable their members in combat, except where they surrender or when due to wounds or sickness they are disabled for combat."¹³¹ The manual further specifies that "it is permitted to directly attack only members of the armed forces and other persons – only if they directly participate in military operations".¹³²

National Legislation

138. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Articles 48 and 52(2) AP I, is a punishable offence.¹³³

139. According to Italy's Law of War Decree as amended, armed forces may be attacked.¹³⁴

140. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".¹³⁵

¹²⁵ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 40.

¹³⁵ Norway, *Military Penal Code as amended* (1902), § 108(b).

National Case-law

141. No practice was found.

Other National Practice

142. At the CDDH, Canada stated that the first sentence of draft Article 47(2) AP I (now Article 52(2)) “prohibits only attacks that could be directed against non-military objectives. It does not deal with the result of a legitimate attack on military objectives and incidental damage that such attack may cause.”¹³⁶

143. At the CDDH, the FRG stated that the first sentence of draft Article 47(2) AP I (now Article 52(2)) “is a restatement of the basic rule contained in Article 43 [now Article 48], namely that the Parties to a conflict shall direct their operations only against military objectives. It does not deal with the question of collateral damage caused by attacks directed against military objectives.”¹³⁷

144. The Report on the Practice of Jordan notes that a booklet on the LOAC prepared by the ICRC is used by military commanders. The booklet gives a list of principles to apply in military action, among which is the obligation of the armed forces to fight only combatants.¹³⁸

145. The Report on the Practice of Malaysia states that attacks should only be “directed against combatant targets which shall be distinguished and confirmed”.¹³⁹

146. At the CDDH, Mexico stated that it believed draft Article 47 AP I (now Article 52) to be so essential that it “cannot be the subject of any reservations whatsoever since these would be inconsistent with the aim and purpose of Protocol I and undermine its basis”.¹⁴⁰

147. At the CDDH, the Netherlands stated that the first sentence of draft Article 47(2) AP I (now Article 52(2)) “prohibits only such attacks as may be directed against non-military objectives and consequently does not deal with the question of collateral damage caused by attacks directed against military objectives”.¹⁴¹

148. At the CDDH, the UK stated that it did not interpret the obligation in the first sentence of draft Article 47(2) AP I (now Article 52(2)) “as dealing with the question of incidental damage caused by attacks directed against military objectives. In its view, the purpose of the first sentence of the paragraph was

¹⁴¹ Netherlands, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 195.

to prohibit only such attacks as might be directed against non-military objectives.”¹⁴²

149. At the CDDH, the US stated that the first sentence of draft Article 47(2) AP I (now Article 52(2)) “prohibits only such attacks as may be directed against non-military objectives. It does not deal with the question of collateral damage caused by attacks directed against military objectives.”¹⁴³

III. Practice of International Organisations and Conferences

150. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

151. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

152. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “combatants may be attacked”.¹⁴⁴

VI. Other Practice

153. In 1980, an armed opposition group expressed its acceptance of the fundamental principles of IHL as formulated by the ICRC, including the principle that “attacks shall be directed solely against military objectives”.¹⁴⁵

Attacks against civilians

I. Treaties and Other Instruments

Treaties

154. Article 51(2) AP I states that “the civilian population as such, as well as individual civilians, shall not be the object of attack”. Article 51 AP I was adopted by 77 votes in favour, one against and 16 abstentions.¹⁴⁶

155. According to Article 85(3)(a) AP I, “making the civilian population or individual civilians the object of attack” is a grave breach of the Protocol. Article 85 AP I was adopted by consensus.¹⁴⁷

¹⁴² UK, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 169, § 153.

¹⁴³ US, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 204.

¹⁴⁴ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 210.

¹⁴⁵ ICRC archive document.

¹⁴⁶ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977.

¹⁴⁷ CDDH, *Official Records*, Vol. VI, CDDH/SR.44, 30 May 1977.

156. Article 13(2) AP II provides that “the civilian population as such, as well as individual civilians, shall not be the object of attack”. Article 13 AP II was adopted by consensus.¹⁴⁸

157. Article 3(2) of the 1980 Protocol II to the CCW and Article 3(7) of the 1996 Amended Protocol II to the CCW provide that “it is prohibited in all circumstances to direct [mines, booby-traps and other devices], either in offence, defence or by way of reprisals, against the civilian population as such or against individual civilians”.

158. Article 2(1) of the 1980 Protocol III to the CCW states that “it is prohibited in all circumstances to make the civilian population as such [or] individual civilians . . . the object of attack by incendiary weapons”.

159. Article 3 of the 1996 Israel-Lebanon Ceasefire Understanding states that “the two parties commit to ensuring that under no circumstances will civilians be the target of attack”.

160. Pursuant to Article 8(2)(b)(i) and (e)(i) of the 1998 ICC Statute, “intentionally directing attacks against the civilian population as such or against individual civilians not taking a direct part in hostilities” constitutes a war crime in both international and non-international armed conflicts.

161. Article 4(a) of the 2002 Statute of the Special Court for Sierra Leone provides that:

The Special Court shall have the power to prosecute persons who committed the following serious violations of international humanitarian law:

- (a) Intentionally directing attacks against the civilian population as such or against individual civilians not taking direct part in hostilities.

Other Instruments

162. Article 22 of the 1863 Lieber Code provides that “the principle has been more and more acknowledged that the unarmed citizen is to be spared in person, property, and honor as much as the exigencies of war will admit”.

163. Article 1 of the 1938 ILA Draft Convention for the Protection of Civilian Populations against New Engines of War provides that “the civilian population of a State shall not form the object of an act of war”.

164. According to Article 6 of the 1956 New Delhi Draft Rules, “attacks directed against the civilian population, as such, whether with the object of terrorizing it or for any other reason, are prohibited. This prohibition applies both to attacks on individuals and to those directed against groups.”

165. Article 3(a) of the 1990 Cairo Declaration on Human Rights in Islam affirms that “in the event of the use of force and in case of armed conflict, it is not permissible to kill non-belligerents such as old men, women and children”.

¹⁴⁸ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977.

166. In the 1991 Hague Statement on Respect for Humanitarian Principles, the Presidents of the six republics of the former Yugoslavia accepted to apply the fundamental principle that “the civilian population . . . must not be attacked”.

167. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 51(2) AP I.

168. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 51(2) AP I.

169. The 1993 Franco-German Declaration on the War in Bosnia and Herzegovina condemned “the bombardment of the Muslim population” in Gorazde and Mostar.

170. Pursuant to Article 20(b)(i) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, “making the civilian population or individual civilians the object of attack” is a war crime.

171. Section 5.1 of the 1999 UN Secretary-General’s Bulletin states that “attacks on civilians . . . are prohibited”.

172. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(i) and (e)(i) of the Regulation, “intentionally directing attacks against the civilian population as such or against individual civilians not taking a direct part in hostilities” constitutes a war crime in both international and non-international armed conflicts.

II. National Practice

Military Manuals

173. Argentina’s Law of War Manual states that “the prohibition to attack civilians and civilian objects implies that any act of violence, whether in offence or defence, against them is prohibited”.¹⁴⁹ With respect to non-international armed conflicts in particular, the manual states that “the civilian population and individual civilians shall not be the object of attack”.¹⁵⁰ Lastly, the manual states that “attacks against the civilian population [and] against individual civilians” constitute grave breaches.¹⁵¹

174. According to Australia’s Commanders’ Guide, “making the civilian population or individual civilians the object of attack” is an example of acts which constitute “grave breaches or serious war crimes likely to warrant institution of criminal proceedings”.¹⁵²

¹⁴⁹ Argentina, *Law of War Manual* (1989), § 4.03.

¹⁵⁰ Argentina, *Law of War Manual* (1989), § 7.08.

¹⁵¹ Argentina, *Law of War Manual* (1989), § 8.03.

¹⁵² Australia, *Commanders’ Guide* (1994), § 1305(g).

175. Australia's Defence Force Manual states that "attacks directed against the civilian population or civilian objects are prohibited".¹⁵³ The manual also states that "making the civilian population or individual civilians the object of attack" is an example of acts which constitute "grave breaches or serious war crimes likely to warrant institution of criminal proceedings".¹⁵⁴

176. Belgium's Teaching Manual for Soldiers states that civilians must not be attacked.¹⁵⁵

177. Benin's Military Manual states that the prohibition on attacking the civilian population, individual civilians and civilian property as a method of combat must be respected.¹⁵⁶

178. Cameroon's Instructors' Manual requires that the civilian population be protected and respected during military operations.¹⁵⁷

179. Canada's LOAC Manual states that "as a general rule, civilians... shall not be attacked".¹⁵⁸ It further states that "making the civilian population or individual civilians the object of attack" is a grave breach of AP I.¹⁵⁹ With respect to non-international armed conflicts in particular, the manual states that "the civilian population and civilians are to be protected against the dangers arising from the conflict. Neither the civilian population nor individual civilians may be made the object of attack."¹⁶⁰

180. Canada's Code of Conduct states that:

Force used during operations must be directed against opposing forces and military objectives. Therefore, civilians not taking part in hostilities must not be targeted. [This rule] not only makes sense morally but also helps to ensure the most efficient use of military resources. In simple terms, "warriors fight warriors"... An "opposing force" is any individual or group of individuals who pose a threat to you or your mission... In an armed conflict, on the other hand, the enemy forces are opposing forces whether or not they pose an immediate threat.¹⁶¹

181. Colombia's Circular on Fundamental Rules of IHL states that "neither the civilian population as such nor individual civilians may be made the object of attack".¹⁶²

182. Colombia's Basic Military Manual provides that "the civilian population is not a military objective".¹⁶³

¹⁵³ Australia, *Defence Force Manual* (1994), § 503; see also *Commanders' Guide* (1994), § 405.

¹⁵⁴ Australia, *Defence Force Manual* (1994), § 1315(g).

¹⁶³ Colombia, *Basic Military Manual* (1995), p. 49; see also *Instructors' Manual* (1999), pp. 15-16.

183. Croatia's Commanders' Manual and Instructions on Basic Rules of IHL emphasise that attacks on civilians and civilian objects are prohibited.¹⁶⁴

184. According to Croatia's LOAC Compendium, "attacks on the civilian population" constitute grave breaches and thus war crimes.¹⁶⁵

185. The Military Manual of the Dominican Republic states that non-combatants (a term defined as including civilians) must not be attacked.¹⁶⁶

186. Ecuador's Naval Manual states that "civilians and civilian objects may not be made the object of attack".¹⁶⁷ The manual further states that "bombardment for the sole purpose of attacking and terrorising the civilian population" constitutes a war crime.¹⁶⁸

187. El Salvador's Soldiers' Manual states that "your honour as a combatant requires that you never attack nor mistreat women, children, the elderly and any person who does not bear arms".¹⁶⁹

188. France's LOAC Summary Note states that "civilians may not be attacked".¹⁷⁰ The manual further considers that "attacks against the civilian population or against individual civilians" constitute grave breaches and thus war crimes.¹⁷¹

189. Germany's Military Manual states that "the prohibition of indiscriminate warfare implies that the civilian population as such as well as individual civilians shall not be the object of attack and that they shall be spared as far as possible".¹⁷²

190. Germany's IHL Manual states that "pursuant to Article 85(3) of Additional Protocol I, attacks against the civilian population constitute serious violations of international law and therefore war crimes".¹⁷³

191. According to Hungary's Military Manual, "attacks on the civilian population" constitute grave breaches and thus war crimes.¹⁷⁴

192. Indonesia's Military Manual considers that attacks on civilians are prohibited.¹⁷⁵

193. With reference to Israel's Law of War Booklet, the Report on the Practice of Israel states that "the IDF is extremely conscious of the necessity to differentiate between civilians and legitimate targets. Attacks on civilians are strictly prohibited."¹⁷⁶

¹⁷⁶ Report on the Practice of Israel, 1997, Chapter 1.3, referring to *Law of War Booklet* (1986), Chapter 1.

194. Israel's Manual on the Laws of War states that the principle of distinction "clearly imposes the obligation to refrain from harming civilians insofar as possible".¹⁷⁷

195. Italy's IHL Manual states that "bombardment, the sole purpose of which is to attack the civilian population," is prohibited.¹⁷⁸

196. Italy's LOAC Elementary Rules Manual states that "civilians may not be attacked, unless they participate directly in hostilities".¹⁷⁹

197. Kenya's LOAC Manual states that "civilians are protected from attack under the law of armed conflict. They lose their protection when they take a direct part in hostilities."¹⁸⁰ The manual further states that "it is forbidden to attack the civilian population, individual civilians or civilian objects as a deliberate method of warfare".¹⁸¹

198. South Korea's Military Law Manual states that direct attacks against civilians are contrary to international law.¹⁸²

199. South Korea's Military Regulation 187 provides that "killing non-combatants" is a war crime.¹⁸³

200. Madagascar's Military Manual states that "civilian persons may not be attacked, unless they participate directly in hostilities".¹⁸⁴

201. The Military Manual of the Netherlands states that "neither the civilian population, nor individual civilians may be made the target of an attack".¹⁸⁵

The manual further states that "the carrying out of attacks against the civilian population or individual civilians" constitutes a grave breach according to Article 85(3) AP I.¹⁸⁶ With respect to non-international armed conflicts in particular, the manual states that "the civilian population and individual civilians enjoy general protection against the dangers arising from military operations. They may not be made the object of attack."¹⁸⁷

202. The Military Handbook of the Netherlands states that "it is prohibited to attack civilians".¹⁸⁸

203. New Zealand's Military Manual states that "the civilian population as such, as well as individual civilians, shall not be the object of attack".¹⁸⁹

The manual further states that "making the civilian population or individual civilians the object of attack" constitutes a grave breach. With respect to

non-international armed conflicts in particular, the manual states that “as in international armed conflict, the civilian population and civilians are to be protected against the dangers arising from the conflict. Neither the civilian population nor individual civilians may be made the object of attack.”¹⁹⁰

204. Nigeria’s Military Manual and Soldiers’ Code of Conduct state that “civilian persons and objects must be spared”.¹⁹¹

205. The Joint Circular on Adherence to IHL and Human Rights of the Philippines states that “when the use of armed force is inevitable, strict controls must be exercised to insure that only reasonable force necessary for mission accomplishment shall be taken and shall be directed only against hostile elements, not against civilians or non-combatants”.¹⁹²

206. Russia’s Military Manual states that it is prohibited “to launch attacks against the civilian population or against individual civilians”.¹⁹³

207. South Africa’s LOAC Manual states that “the general rule is that civilians and civilian property may not be the subject, or the sole object, of a military attack”.¹⁹⁴ The manual adds that “making the civilian population or individual civilians the object of attack” constitutes a grave breach.¹⁹⁵

208. Spain’s LOAC Manual prohibits military operations directed against civilians.¹⁹⁶ The manual further states that “intentionally attacking the civilian population or individual civilians” constitutes a grave breach.¹⁹⁷

209. Sweden’s IHL Manual states that “a distinction shall always be made between persons participating in hostilities and who are thereby legitimate objectives, and members of the civilian population, who may not constitute objectives in warfare”.¹⁹⁸

210. Switzerland’s Basic Military Manual considers that “the [civilian] population as well as individual civilians must not be attacked”.¹⁹⁹ The manual further states that “attacks against the civilian population or against individual civilians” constitute grave breaches of the Geneva Conventions and AP I.²⁰⁰

211. Togo’s Military Manual requires that the prohibition of attacks on the civilian population, individual civilians and civilian property as a deliberate method of combat be respected.²⁰¹

212. According to the UK Military Manual, “it is a generally recognised rule of international law that civilians must not be made the object of attack directed exclusively against them”.²⁰²

²⁰² UK, *Military Manual* (1958), §§ 13 and 88.

213. The UK LOAC Manual states that “civilians are protected from attack under the law of armed conflict”.²⁰³

214. The US Air Force Pamphlet states that the “civilian population as such, as well as individual civilians, shall not be made the object of attack”.²⁰⁴ It adds that “in addition to the grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: . . . (4) Aerial bombardment for the deliberate purpose of killing protected civilians”.²⁰⁵

215. The US Naval Handbook states that “civilians and civilian objects may not be made the object of attack”.²⁰⁶ The Handbook also states that carrying out a “bombardment, the sole purpose of which is to attack and terrorize the civilian population” is an example of a war crime.²⁰⁷

216. The YPA Military Manual of the SFRY (FRY) states that “the civilian population may not be the direct object of military operations”.²⁰⁸

National Legislation

217. Argentina’s Draft Code of Military Justice punishes any soldier who “makes the civilian population the object of attack” or who orders such attacks.²⁰⁹

218. Under Armenia’s Penal Code, launching, during an armed conflict, an “attack on the civilian population or on individual civilians” constitutes a crime against the peace and security of mankind.²¹⁰

219. Australia’s Geneva Conventions Act as amended provides that “a person who, in Australia or elsewhere, commits a grave breach . . . of [AP I] is guilty of an indictable offence”.²¹¹

220. Australia’s ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including “attacking civilians” in international and non-international armed conflicts.²¹²

221. Azerbaijan’s Law concerning the Protection of Civilian Persons and the Rights of Prisoners of War provides that, in international and non-international armed conflicts, attacks against civilians are prohibited.²¹³

222. Azerbaijan’s Criminal Code provides that “directing attacks against the civilian population or against individual civilians who do not take part in

hostilities” constitutes a war crime in international and non-international armed conflicts.²¹⁴

223. The Criminal Code of Belarus provides that it is a war crime to “direct attacks against the civilian population or against individual civilians”.²¹⁵

224. Belgium’s Law concerning the Repression of Grave Breaches of the Geneva Conventions and their Additional Protocols as amended provides that “making the civilian population or individual civilians the object of attack” constitutes a crime under international law.²¹⁶

225. Under the Criminal Code of the Federation of Bosnia and Herzegovina, it is a war crime to commit or order the commission of “an attack on a civilian population . . . [or] individual civilians”.²¹⁷ The Criminal Code of the Republika Srpska contains the same provision.²¹⁸

226. Under Burundi’s Draft Law on Genocide, Crimes against Humanity and War Crimes, “intentionally directing attacks against the civilian population as such or against individual civilians not taking a direct part in hostilities” constitutes a war crime in both international and non-international armed conflicts.²¹⁹

227. Canada’s Geneva Conventions Act as amended provides that “every person who, whether within or outside Canada, commits a grave breach [of AP I] . . . is guilty of an indictable offence”.²²⁰

228. Canada’s Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are “crimes according to customary international law” and, as such, indictable offences under the Act.²²¹

229. China’s Criminal Code as amended provides for the punishment of anyone who during war “cruelly injures innocent residents in areas of military action”.²²²

230. Colombia’s Penal Code imposes a criminal sanction on “anyone who, during an armed conflict, carries out or orders the carrying out of . . . attacks against the civilian population”.²²³

231. The DRC Code of Military Justice as amended imposes a criminal sanction on “every soldier who is guilty of committing acts of violence . . . against the civilian population in time of war”.²²⁴

232. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.²²⁵

233. The Geneva Conventions and Additional Protocols Act of the Cook Islands punishes "any person who in the Cook Islands or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I]".²²⁶

234. Under Croatia's Criminal Code, it is a war crime to commit or order the commission of "an attack against the civilian population . . . [or] individual civilians".²²⁷

235. Cuba's Military Criminal Code punishes "anyone who, in areas of military operations, commits violence against the [civilian] population".²²⁸

236. Cyprus's AP I Act punishes "any person who, whatever his nationality, commits in the Republic or outside the Republic any grave breach of the provisions of the Protocol, or takes part or assists or incites another person in the commission of such a breach".²²⁹

237. The Criminal Code as amended of the Czech Republic punishes a commander who in a military operation intentionally "causes harm to the life, health or property of civilians or the civilian population".²³⁰

238. The Draft Amendments to the Penal Code of El Salvador provide for a prison sentence for "anyone who, during an international or non-international armed conflict, attacks protected persons". Protected persons are defined as including civilians and the civilian population.²³¹

239. Under Estonia's Penal Code, "attacking civilians in war zones" is a war crime.²³²

240. Under Georgia's Criminal Code, "making the civilian population or individual civilians the object of an attack" in an international or a non-international armed conflict is a crime.²³³

241. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict, "directs an attack by military means against the civilian population as such or against individual civilians not taking a direct part in hostilities".²³⁴

242. Under Hungary's Criminal Code as amended, a military commander who "pursues a war operation which causes serious damage to the life [and]

health...of the civilian population" is guilty, upon conviction, of a war crime.²³⁵

243. Indonesia's Military Penal Code provides for the punishment of military personnel who are found guilty of having committed attacks against civilians.²³⁶

244. Ireland's Geneva Conventions Act as amended provides that grave breaches of AP I are punishable offences.²³⁷ In addition, any "minor breach" of AP I, including violations of Article 51(2) AP I, as well as any "contravention" of AP II, including violations of Article 13(2) AP II, are also punishable offences.²³⁸

245. Italy's Law of War Decree as amended states that "bombardment, the sole purpose of which is to attack the civilian population," is prohibited.²³⁹

246. Under Jordan's Draft Military Criminal Code, "attacks directed against the civilian population or against civilians" in time of armed conflict are war crimes.²⁴⁰

247. Under the Draft Amendments to the Code of Military Justice of Lebanon, "attacks directed against the civilian population or against civilians" constitute war crimes.²⁴¹

248. Under Lithuania's Criminal Code as amended, "an attack, prohibited under international humanitarian law, against civilians" is a war crime.²⁴²

249. Under Mali's Penal Code, "intentionally directing attacks against the civilian population in general or against individual civilians not taking a direct part in hostilities" constitutes a war crime in international armed conflicts.²⁴³

250. Under the International Crimes Act of the Netherlands, it is a crime, during an international armed conflict, to commit "the following acts, when they are committed intentionally and in violation of the relevant provisions of Additional Protocol (I) and cause death or serious injury to body or health: . . . making the civilian population or individual citizens the object of attack".²⁴⁴ Likewise, "intentionally directing attacks against the civilian population as such or against individual civilians not taking direct part in hostilities" is also a crime, whether committed in an international or non-international armed conflict.²⁴⁵

251. New Zealand's Geneva Conventions Act as amended provides that "any person who in New Zealand or elsewhere commits, or aids or abets or procures

the commission by another person of, a grave breach . . . of [AP I] is guilty of an indictable offence".²⁴⁶

252. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(i) and (e)(i) of the 1998 ICC Statute.²⁴⁷

253. Nicaragua's Draft Penal Code punishes "anyone who, during an international or internal armed conflict, attacks protected persons". Protected persons are defined as including the civilian population and individual civilians.²⁴⁸

254. According to Niger's Penal Code as amended, "directing an attack against the civilian population or against individual civilians" protected under the 1949 Geneva Conventions and their Additional Protocols of 1977 is a war crime.²⁴⁹

255. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".²⁵⁰

256. Slovakia's Criminal Code as amended punishes a commander who in a military operation intentionally "causes harm to the life, health or property of civilians or the civilian population".²⁵¹

257. Under Slovenia's Penal Code, it is a war crime to commit or order the commission of "an attack on the civilian population . . . [or] on individual civilians".²⁵²

258. Spain's Royal Ordinance for the Armed Forces emphasises the obligation to pay due attention to the protection of the civilian population.²⁵³

259. Spain's Penal Code punishes "anyone who, during an armed conflict, . . . makes the civilian population the object of attack".²⁵⁴

260. Sweden's Penal Code as amended provides that "attacks on civilians" constitute a crime against international law.²⁵⁵

261. Tajikistan's Criminal Code punishes the act of "making the civilian population or individual civilians the object of attack" in an international or internal armed conflict.²⁵⁶

262. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(i) and (e)(i) of the 1998 ICC Statute.²⁵⁷

263. Ukraine's Criminal Code provides that "violence... committed against the civilian population in an area of military action under the pretext of military necessity" is a war crime.²⁵⁸

264. The UK Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside the United Kingdom, commits, or aids, abets or procures the commission by any other person of, a grave breach of... [AP I]".²⁵⁹

265. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(i) and (e)(i) of the 1998 ICC Statute.²⁶⁰

266. Vietnam's Penal Code punishes "anyone who commits acts of violence against the population".²⁶¹

267. Under Yemen's Military Criminal Code, "attacks against the civilian population" are war crimes.²⁶²

268. Under the Penal Code as amended of the SFRY (FRY), it is a war crime to commit or order the commission of "an attack on the civilian population... [or] individual civilians".²⁶³

269. Zimbabwe's Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside Zimbabwe, commits any such grave breach of... [AP I]".²⁶⁴

National Case-law

270. In the *RA. R. case* in 1997, the District Court of Split in Croatia sentenced 39 people, both soldiers and commanders, to prison terms ranging from 5 to 20 years on charges which included attacks on civilians.²⁶⁵

271. In the *Kassem case* in 1969, the Israeli Military Court at Ramallah stated that "immunity of non-combatants from direct attack is one of the basic rules of the international law of war".²⁶⁶

Other National Practice

272. In 1996, during a debate in the UN General Assembly following the shelling of the UN compound at Qana, Australia stated that all attacks against civilians were totally unacceptable and contrary to the norms of international law.²⁶⁷

²⁵⁸ Ukraine, *Criminal Code* (2001), Article 433(1).

273. In 1993, the Ministry of the Interior of Azerbaijan ordered that troops “in zones of combat, during military operations . . . must not shoot at children, women and elderly without defence”.²⁶⁸

274. In 1969, during a debate in the UN General Assembly, Belgium referred to the conflict in Nigeria as non-international and, in this context, referred to “the reprobation and prohibition of everything leading to total war where civilian, non-combatant inhabitants, who often have nothing whatever to do with the conflict, become the victims of war through . . . being the victims of attacks”.²⁶⁹

275. In an explanatory memorandum submitted to the Belgian parliament in 1985 in the context of the ratification procedure of the Additional Protocols, the Belgian government stated that “Article 51 [AP I] embodies the first statement in treaty law of the customary law principle of civilian immunity [from attack], whether against individual civilians or against the civilian population as a whole”.²⁷⁰

276. The Report on the Practice of Bosnia and Herzegovina provides the following examples of alleged violations of the prohibition of attacks on civilians which were denounced by the authorities: the artillery shelling in the centre of Srebrenica, which resulted in civilian casualties;²⁷¹ the shelling of Gorazde;²⁷² the attack on the village of Pripecak, in which several civilians were killed or wounded;²⁷³ and the attacks by Yugoslav aircraft in the Tuzla region, in which many residential facilities were destroyed and several civilians killed or wounded.²⁷⁴

277. The Report on the Practice of Botswana states that Article 51 API outlaws all attacks against civilians.²⁷⁵ In addition, on the basis of an interview with a retired army general, the report notes that Botswana’s military personnel would comply with the provisions of Article 13 AP II if an internal armed conflict arose.²⁷⁶

278. On the basis of Chile's Code of Military Justice and in the absence of any contrary practice, the Report on the Practice of Chile states that it is Chile's *opinio juris* that the prohibition of attacks on the civilian population is an integral part of customary international law.²⁷⁷

279. During the Korean War, China confirmed that it was against the bombing of Korean cities and the civilian population by US air forces. China supported North Korea's solemn protest to the UN Security Council, and requested that the Security Council take immediate measures to stop the "atrocities" committed by the US armed forces, which were "violating international law and against normal standards of human ethics".²⁷⁸

280. On the basis of an opinion of the First Deputy Attorney-General in a case before the Council of State in 1994, the Report on the Practice of Colombia defines direct attacks against civilians as any operation that corresponds to one of the following three situations: a) it does not follow plans and strategies that respect the law of nations; b) the necessary staff and resources to save the lives of the victims are lacking; c) the attacks do not cease once the adverse party has been neutralised.²⁷⁹

281. In 1992, in a letter to the President of the UN Security Council, Croatia denounced direct attacks against the civilian population and civilian facilities carried out by "Serbs from Bosnia and Herzegovina and... from the UN Protected Area territories in Croatia". Croatia considered that "the only aim of such an aggression is the destruction of civilian population and destruction of civilian facilities", adding that "such acts are contrary to the provisions of Articles 51 and 52 of Additional Protocol I".²⁸⁰

282. The Report on the Practice of Croatia states that it is Croatia's *opinio juris* that the duty not to attack civilians is part of customary international law.²⁸¹

283. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt asserted that the use of nuclear weapons would violate basic principles of the international law of armed conflict, including "the prohibition to attack civilians".²⁸²

284. In 1983, in reply to a question in parliament, the French Minister of Foreign Affairs declared that the bombardment of civilian populations in Afghanistan was "just one of the cruel aspects of the war".²⁸³

285. In 1989, in reply to a question in parliament, the French Prime Minister stated that the civilian population had been the target of repeated bombardment

²⁸³ France, Reply by the Minister of Foreign Affairs to a question in parliament regarding Afghanistan, 25 July 1983, *Politique étrangère de la France*, July 1983, p. 72.

and made a solemn appeal to Syria, General Aoun and Doctor Hoss to “stop the deliberate bombardment of the civilian population”.²⁸⁴

286. In a communiqué regarding Rwanda issued in 1994, the French Ministry of Foreign Affairs condemned “the bombardments against civilian populations who have fled to Goma in Zaire . . . These attacks on the security of populations are unacceptable.”²⁸⁵

287. The instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, state that “neither the civilian population as such nor individual civilians . . . shall be made the object of attack”.²⁸⁶

288. In a communiqué issued in 1995, the French Minister of Foreign Affairs expressed his distress at “the bombardment of the centre of Sarajevo, which once again had caused numerous casualties among the civilian population of the Bosnian capital”. He further stated that “this barbarous act calls for the most severe condemnation”.²⁸⁷

289. In 1999, in reply to a question in parliament, a French Minister stated that:

We are all under the shock of the immense emotion caused by the massacre of 45 civilians in Racak, on 16 January, by the Serbian police. These atrocities have been unanimously condemned by the international community. France has expressed its revolt and distaste, the Prime Minister has denounced this “barbarous act”.²⁸⁸

290. In 1987, all parties in the German parliament condemned the Soviet “attacks against the civilian population, in particular against women and children” in Afghanistan.²⁸⁹

291. In an explanatory memorandum submitted to the German parliament in 1990 in the context of the ratification procedure of the Additional Protocols, the German government stated, with reference to Article 51(2) AP I, that the prohibition of direct attacks on individual civilians or the civilian population was an integral part of customary international law.²⁹⁰

292. In 1991, in reply to a question in parliament, the German Minister of Foreign Affairs condemned “the continued military engagements of Turkish

troops against the civilian population in Kurdish areas as a serious violation of international law".²⁹¹

293. In 1991, the German Chancellor described the missile attack carried out by Iraq against populated areas as a "brutal act of terror".²⁹² A few days later, the German President denounced Iraq's continued attacks against the civilian population of Israel as "particularly abhorrent".²⁹³

294. In 1995, the German Minister of Foreign Affairs denounced the attack on the marketplace in Sarajevo in Bosnia and Herzegovina and stated that "the authors of this barbaric attack must be brought to account for their actions with all due consequences".²⁹⁴

295. In 1995, the German Minister of Foreign Affairs stated that the restoration of Russian territorial integrity in Chechnya did not justify the conduct of the Russian army in Grozny, namely "the bombardment of civilians and the killing of so many innocent persons".²⁹⁵

296. In 1977, during a debate in the Sixth Committee of the UN General Assembly, Iran noted that until the adoption of the two Additional Protocols, the prohibition on inflicting violence on civilians was not explicitly established. However, it concluded that the protection of non-combatants in armed conflicts was not a new phenomenon: "as early as 1621, the Code of Articles of King Gustavus Adolphus of Sweden had included principles on that subject which had since developed into a customary prohibition of violence against non-combatants".²⁹⁶

297. In 1996, during a debate in the UN Security Council on the situation in Lebanon, the representative of Iran condemned what he called the "cowardly, though savage, attacks against defenceless civilians".²⁹⁷

298. The Report on the Practice of Iraq refers to several military communiqués issued by the General Command of the Iraqi armed forces during the Iran–Iraq War, one of which states that "our Armed Forces have strictly adhered to the decision of the leadership by not shelling the purely civilian centers, and in accordance with the agreement made through the UN Secretary-General".²⁹⁸

299. In 1996, during a debate in the UN Security Council on the situation in Lebanon, Jordan considered that, while the use of force and violence as a means to solve political problems should always be condemned, this proved particularly true when force was employed against innocent civilians and civilian installations.²⁹⁹

300. The Report on the Practice of Jordan states that there are no reported incidents of Jordanian troops resorting to direct attacks on civilians. It refers to Islam's prohibition of direct attacks on civilians, that is, in the event of the use of force and in case of armed conflicts, it is not permissible to kill non-combatants, such as old men, women and children.³⁰⁰

301. In 1996, in a statement concerning military operations in Lebanon, Kazakhstan condemned the "use of armed force with a view to killing the civilian population and destroying civilian facilities".³⁰¹

302. In 1996, during a debate in the UN Security Council on the situation in Lebanon, South Korea called upon both parties to respect immediately the non-combatant status of civilians.³⁰²

303. The Report on the Practice of South Korea states that it is South Korea's *opinio juris* that the prohibition of direct attacks against civilians is part of customary international law.³⁰³

304. The Report on the Practice of Lebanon refers to a 1996 report by the Lebanese Ministry of Justice which stated that Israel had committed serious violations of the Geneva Conventions by "engaging civilians".³⁰⁴

305. The Report on the Practice of Lebanon refers to a statement by the Director General of the Ministry of Justice in 1997 in which he stated that he considered the bombardment of civilians a war crime.³⁰⁵

306. On the basis of interviews with members of the Malaysian armed forces and the Ministry of Home Affairs, the Report on the Practice of Malaysia notes that during the communist insurgency, the security forces were barred from directly attacking civilians.³⁰⁶

307. At the CDDH, Mexico stated that it believed draft Article 46 AP I (now Article 51) to be so essential that it "cannot be the subject of any reservations

whatsoever since these would be inconsistent with the aim and purpose of Protocol I and undermine its basis".³⁰⁷

308. In 1994, the Minister of Foreign Affairs of the Netherlands described the attack on the marketplace in Sarajevo as a "horrific act" and stated that the civilian population in the safe areas of the former Yugoslavia should be granted more protection against attacks that served no military purpose and which could only be qualified as terror tactics. The Minister of Defence also vigorously condemned the attacks on the safe areas in Bosnia and Herzegovina as a very serious violation of fundamental human rights.³⁰⁸

309. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the Netherlands stated that "the general principles of international humanitarian law in armed conflict also apply to the use of nuclear weapons . . . in particular . . . the prohibition on making the civilian population as such the target of an attack".³⁰⁹

310. The Report on the Practice of Nigeria confirms the existence of a norm of a customary nature prohibiting direct attacks against civilians and cites Nigeria's Operational Code of Conduct in this respect. The report also states that, according to Nigeria's *opinio juris*, the prohibition of direct attacks against civilians is part of customary international law.³¹⁰

311. In 1996, during a debate in the UN Security Council on the situation in Lebanon, Pakistan condemned "the targeting and killing of civilian populations".³¹¹

312. The Report on the Practice of Pakistan states that it is Pakistan's *opinio juris* that direct attacks on civilians are prohibited.³¹² The report adds that the Pakistani government has regularly denounced attacks against civilians in conflict situations and cites as an example the strong condemnation of the Israeli attacks on the camps of Sabra and Shatila in Lebanon in 1982.³¹³

313. The Report on the Practice of Rwanda states that attacks against civilians are prohibited according to the practice and the *opinio juris* of Rwanda and considers that this prohibition is a norm of customary international law binding on all States.³¹⁴

³⁰⁷ Mexico, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 193.

314. In 1992, in a note verbale addressed to the UN Secretary-General, Slovenia expressed its readiness to provide information concerning violations of IHL committed by members of the Yugoslav army during the 10-day conflict with Slovenia, including “violences concerning killings and injuries of civilians”.³¹⁵

315. In 1988, Spain protested against direct attacks on the civilian population during the Iran–Iraq War.³¹⁶ The Report on the Practice of Spain considers that, in general,

the Spanish Government has tended to condemn all attacks directed against the civilian population . . . whether the armed conflict was internal or international. This was its position in the civil war in Liberia, the Gulf War, the conflict in the former Yugoslavia, the civil war in Sudan, the war in Chechnya, and the Turkish attacks against the Kurds in northern Iraq.³¹⁷

316. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Sweden stated that “under the principle of distinction, an attack on a civilian population or civilian property is prohibited”.³¹⁸

317. In 1996, during a debate in the UN Security Council regarding the conflict in Burundi, Uganda condemned “in the strongest terms the killing of innocent and unarmed civilians” and demanded that “both parties to the conflict halt immediately the killings and massacres of innocent civilians”.³¹⁹

318. In 1938, during a debate in the House of Commons, the UK Prime Minister listed among rules of international law applicable to warfare on land, at sea and from the air the rule that “it is against international law to bomb civilians as such and to make deliberate attacks upon civilian populations”.³²⁰

319. At the CDDH, the UK voted in favour of draft Article 46 AP I (now Article 51), describing its first three paragraphs as containing a “valuable reaffirmation of existing customary rules of international law designed to protect civilians”.³²¹

320. A training video on IHL produced by the UK Ministry of Defence illustrates the rule that military operations must not be directed against civilians.³²²

³²² UK, Ministry of Defence, Training Video: The Geneva Conventions, 1986, Report on UK Practice, 1997, Chapter 1.3.

321. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the UK stated that “it is a well established principle of customary international law that the civilian population and individual civilians are not a legitimate target in their own right”.³²³

322. On 1 September 1939, the US President wrote to the governments of France, Germany, Italy, Poland and UK asking “every government which may be engaged in hostilities publicly to affirm its determination that its armed forces shall in no event, and under no circumstances, undertake the bombardment from the air of civilian populations”.³²⁴

323. In 1972, the General Counsel of the US Department of Defense considered that the prohibition on launching attacks against the civilian population was a general principle of the LOAC which was declaratory of existing customary international law.³²⁵

324. In 1974, at the Lucerne Conference of Government Experts on Weapons which may Cause Unnecessary Suffering or have Indiscriminate Effects, the head of the US delegation stated that “the law of war also prohibits attacks on civilians and civilian objects as such. This unchallenged principle is that civilians (and persons *hors de combat*) whether in occupied territory or elsewhere must not be made the object of attack.”³²⁶

325. In 1991, in a diplomatic note to Iraq concerning operations in the Gulf War, the US stated that “the civilian population, as such, as well as individual civilians, should not be the object of attack”.³²⁷ In another such diplomatic note, the US reiterated that “the civilian population, as such, is not the object of attack”.³²⁸

326. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that “over 52,000 coalition air sorties have been carried out since hostilities began on 16 January. These sorties were

³²⁶ US, Statement of 25 September 1974 at the Conference of Government Experts on Weapons which may Cause Unnecessary Suffering or have Indiscriminate Effects, Lucerne, 24 September–18 October 1974, reprinted in Arthur W. Rovine, *Digest of United States Practice in International Law, 1974*, Department of State Publication 8809, Washington, D.C., 1975, p. 713.

³²⁷ US, Department of State, Diplomatic Note to Iraq, Washington, 19 January 1991, annexed to Letter dated 21 January 1991 to the President of the UN Security Council, UN Doc. S/22122, 21 January 1991, p. 2.

³²⁸ US, Department of State, Diplomatic Note to Iraq, Washington, 21 January 1991, annexed to Letter dated 22 January 1991 to the President of the UN Security Council, UN Doc. S/22130, 22 January 1991, p. 4.

not flown against any civilian or religious targets or against the Iraqi civilian population."³²⁹

327. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that "as a general principle, the law of war prohibits . . . the direct, intentional attack of civilians not taking part in hostilities".³³⁰

328. In several reports submitted in 1992 to the UN Security Council pursuant to paragraph 5 of Security Council Resolution 771 (1992) on grave breaches of GC IV committed in the former Yugoslavia, the US described "deliberate attacks on non-combatants" perpetrated by the parties to the conflict.³³¹

329. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the US stated that "the law of armed conflict precludes making civilians the object of attack as such".³³²

330. According to the Report on US Practice, "it is the *opinio juris* of the United States that it is prohibited to launch attacks against the civilian population as such".³³³

331. The Report on the Practice of the SFRY (FRY) states that:

There are many examples of direct attacks on civilians . . . which both parties to the conflict in Croatia in 1991 and 1992 pointed at. The mixed nature of the conflict, being both internal and international, contributed to this as well. Both parties referred to these incidents as violations of international humanitarian law. The fact that the parties did not question this norm [prohibiting attacks against civilians] when speaking about the behaviour of the opposite side is a clear indication of their *opinio juris* and a confirmation that such attacks were considered prohibited.³³⁴

332. In 1974, a State criticised the army of another State for attacks on civilians located outside the zones of military operations.³³⁵

333. In 1992, a State denounced attacks on civilians committed by separatist forces, including acts aimed at displacing the population, such as the burning of homes.³³⁶

³³⁵ ICRC archive document. ³³⁶ ICRC archive document.

334. In 1994, a State blamed the bombing of a civilian area by its forces on bad atmospheric conditions and on the enemy's use of the civilian population as a cover for military objectives.³³⁷

335. In 1996, in a meeting with the ICRC, the head of the armed forces of a State confirmed that specific instructions had been given to soldiers concerning respect for non-combatants.³³⁸

III. Practice of International Organisations and Conferences

United Nations

336. In a resolution adopted in 1985, the UN Security Council called on "all concerned to end acts of violence against the civilian population in Lebanon and, in particular, in and around Palestinian refugee camps".³³⁹

337. In a resolution adopted in 1992, the UN Security Council expressed grave alarm at continuing reports of widespread violations of IHL in the former Yugoslavia and especially in Bosnia and Herzegovina, including reports of "deliberate attacks on non-combatants".³⁴⁰

338. In a resolution adopted in 1992, the UN Security Council expressed grave alarm at continuing reports of widespread violations of IHL in Somalia, including reports of "deliberate attacks on non-combatants".³⁴¹

339. In a resolution adopted in 1993, the UN Security Council stated that it was deeply alarmed by the continued armed attacks and deliberate bombing of innocent civilians by Serb paramilitary units in Bosnia and Herzegovina.³⁴²

340. In a resolution adopted in 1993 on the seizure of the district of Agdam in Azerbaijan, the UN Security Council condemned "all hostile actions in the region, in particular attacks on civilians and bombardments of inhabited areas".³⁴³

341. In a resolution adopted in 1994, the UN Security Council strongly condemned a "massacre" in Hebron in which more than 50 Palestinian civilians died and several hundred others were injured. The Security Council called for measures to be taken to guarantee the safety and protection of Palestinian civilians throughout the occupied territories.³⁴⁴

342. In a resolution adopted in 1994, the UN Security Council stated that it was "appalled at the . . . large-scale violence in Rwanda, which has resulted in the death of thousands of innocent civilians, including women and children,"

and condemned “the ongoing violence in Rwanda, particularly in Kigali, which endangers the lives and safety of the civilian population”.³⁴⁵

343. In a resolution adopted in 1994, the UN Security Council condemned all attacks directed against the civilian population in Bosnia and Herzegovina.³⁴⁶

344. In a resolution adopted on 17 May 1994, the UN Security Council vigorously condemned the violence that had exploded in Rwanda and in particular the reported killings of numerous civilians.³⁴⁷ On 8 June 1994, the Security Council once again denounced the violence in Rwanda and referred to the systematic murder of thousands of civilians.³⁴⁸ On 22 June 1994, the Security Council expressed its grave concern at the systematic wide-scale killings of civilians in Rwanda and insisted that all parties to the conflict put an end to all massacres of the civilian population in areas under their control.³⁴⁹ On 1 July 1994, the Security Council recalled the statement by its President of 30 April 1994 in which it condemned all breaches of IHL in Rwanda and in particular those perpetrated against the civilian population.³⁵⁰

345. In a resolution adopted in 1994, the UN Security Council specifically condemned, among other violations of IHL, the widespread killings of civilians by the factions in Liberia.³⁵¹

346. In a resolution adopted in 1995, the UN Security Council condemned all attacks against persons in the refugee camps near the Rwandan borders. It referred to these acts as “violations of international humanitarian law” and stated that effective measures had to be taken to bring to justice those responsible for such crimes.³⁵²

347. In a resolution adopted in 1995, the UN Security Council expressed its concern about attacks against civilians in the Gali region of Georgia.³⁵³

348. In a resolution adopted in 1995, the UN Security Council condemned the “increasing attacks on the civilian population by Bosnian Serb forces”.³⁵⁴

349. In a resolution adopted in 1995, the UN Security Council expressed its deep concern at the continuing inter- and intra-factional fighting in parts of Liberia, which had further worsened the plight of the civilian population, and called upon combatants to respect the human rights of the civilian population and to respect IHL.³⁵⁵

³⁵⁵ UN Security Council, Res. 1001, 30 June 1995, preamble.

350. In a resolution adopted in 1995, the UN Security Council expressed its deep concern at reports of serious violations of IHL and human rights in Croatia and mentioned, *inter alia*, the killings of civilians.³⁵⁶

351. In a resolution adopted in 1996, the UN Security Council condemned the armed attacks against civilians in Liberia and demanded that such hostile acts cease forthwith.³⁵⁷

352. In a resolution adopted in 1996, the UN Security Council condemned in the strongest terms all acts of violence perpetrated against civilians and refugees during the conflict in Burundi.³⁵⁸ The Security Council later requested that the leaders of the parties to the conflict in Burundi ensure basic conditions of security and commit to abstaining from attacking civilians.³⁵⁹

353. In a resolution adopted in 1996, following the shelling of a UNIFIL site in Lebanon, which resulted in heavy losses among civilians, the UN Security Council stressed the need for all concerned to respect fully the rules of IHL regarding the protection of civilians and to respect the safety and security of civilians.³⁶⁰

354. In a resolution adopted in 1996, the UN Security Council expressed its "deep concern about the tragic events . . . which resulted in a high number of deaths and injuries among the Palestinian civilians" and asked that both the security and the "safety and protection" of this population be ensured.³⁶¹

355. In a resolution adopted in 1996, the UN Security Council expressed its deep concern at the intensification of the conflict in Afghanistan, which had caused numerous victims among the civilian population, and emphasised the need to stop a new rise in civilian casualties.³⁶²

356. In a resolution adopted in 1996, the UN Security Council condemned "the terrorist acts and other acts of violence" causing the deaths of civilians in Tajikistan.³⁶³

357. In a resolution adopted in 1998, the UN Security Council condemned "the continuing violence in Rwanda, including the massacre of civilians".³⁶⁴

358. In two resolutions adopted in 1998, the UN Security Council demanded that UNITA put an immediate end to attacks against the civilian population.³⁶⁵

359. In a resolution adopted in 1998, the UN Security Council condemned "the continued resistance of remnants of the ousted junta and members of the Revolutionary United Front (RUF) to the authority of the legitimate government

and the violence they are perpetrating against the civilian population of Sierra Leone".³⁶⁶

360. In a resolution adopted in 1999 on the protection of civilians in armed conflicts, the UN Security Council strongly condemned "the deliberate targeting of civilians in situations of armed conflict" and called on all parties "to put an end to such practices".³⁶⁷

361. In a resolution adopted in 2000 on the protection of civilians in armed conflicts, the UN Security Council reaffirmed "its strong condemnation of the deliberate targeting of civilians or other protected persons in situations of armed conflict" and called upon all parties to put an end to such practices.³⁶⁸

362. In 1992, in a statement by its President on the situation in Bosnia and Herzegovina, the UN Security Council condemned reported attacks by Serb militia against civilians fleeing from the city of Jajce "which constitute grave violations of international humanitarian law" and demanded that "all such attacks cease immediately".³⁶⁹

363. In 1993, in a statement by its President on the situation in Bosnia and Herzegovina, the UN Security Council deplored the "killing of innocent civilians" by Serb paramilitary units and required that all acts of violence directed against civilians cease.³⁷⁰

364. In 1993, in a statement by its President, the UN Security Council voiced its shock and sadness at and strong condemnation of the senseless killing of innocent civilians near Harbel in Liberia.³⁷¹

365. In 1993, in a statement by its President regarding the massacre perpetrated by Croatian soldiers in the village of Stupni Do, the UN Security Council reiterated its unmitigated condemnation of acts of violence against the civilian population.³⁷²

366. On 7 April 1994, in a statement by its President on the situation in Rwanda, the UN Security Council condemned the killing of many civilians as "horrific attacks" and urged "respect for the safety and security of the civilian population and of the foreign communities living in Rwanda".³⁷³

367. On 30 April 1994, in a statement by its President concerning the massacres in Rwanda, the UN Security Council stated that:

The Security Council is appalled at continuing reports of the slaughter of innocent civilians in Kigali and other parts of Rwanda, and reported preparations for further massacres... The Security Council condemns all these breaches of international

humanitarian law in Rwanda, particularly those perpetrated against the civilian population, and recalls that persons who instigate or participate in such acts are individually responsible.³⁷⁴

368. In 1995, in a statement by its President, the UN Security Council condemned “any shelling of civilian targets” in and around the Republic of Croatia and requested that “no military action be taken against civilians”.³⁷⁵

369. In 1997, in a statement by its President regarding the DRC, the UN Security Council expressed its particular concern at “reports that refugees in the east of the country are being systematically killed” and called for “an immediate end to all violence against refugees in the country”.³⁷⁶

370. In 1997, in a statement by its President on the protection of humanitarian assistance to refugees and others in conflict situations, the UN Security Council expressed its “grave concern at the recent increase in attacks or use of force in conflict situations against refugees and other civilians, in violation of . . . international humanitarian law” and reiterated its “condemnation of such acts”.³⁷⁷

371. In 1997, in a statement by its President following the military coup d’état in Sierra Leone, the UN Security Council strongly condemned “the violence which has been inflicted on both local and expatriate communities”.³⁷⁸ In another statement by its President a few weeks later, the Security Council expressed its deep concern about “the continuing crisis in Sierra Leone and its negative humanitarian consequences on the civilian population including refugees and internally displaced persons and in particular, the atrocities committed against Sierra Leone’s citizens [and] foreign nationals”.³⁷⁹ In a further statement by its President on the same issue, the Security Council condemned “the continuing violence and threats of violence by the junta towards the civilian population [and] foreign nationals” and called for “an end to such acts of violence”.³⁸⁰

372. In 1997, in a statement by its President, the UN Security Council stated that “the Security Council notes with deep concern the reports about mass killings of prisoners of war and civilians in Afghanistan and

supports the Secretary-General's intention to continue to investigate fully such reports".³⁸¹

373. In 1998, in a statement by its President on the situation in Sierra Leone, the UN Security Council condemned "as gross violations of international humanitarian law the recent atrocities carried out against the civilian population" and called for "an immediate end to all violence against civilians".³⁸²

374. In 1998, in a statement by its President, the UN Security Council expressed its deep concern at "reports of mass killings of civilians in northern Afghanistan" and demanded that "the Taliban fully respect international humanitarian law and human rights".³⁸³

375. In 1998, in a statement by its President, the UN Security Council condemned "the attacks or use of force in conflict situations against refugees and other civilians, in violation of the relevant rules of international law, including those of international humanitarian law".³⁸⁴

376. In 1999, in a statement by its President, the UN Security Council strongly condemned "the deliberate targeting by combatants of civilians in armed conflict" and demanded that all concerned "put an end to such violations of international humanitarian and human rights law".³⁸⁵

377. In 2001, in a statement by its President on the situation in Burundi, the UN Security Council condemned "the deliberate targeting of the civilian population by the armed groups" and called upon all parties "to abide by international humanitarian law and in particular to refrain from any further attacks or any military action that endangers the civilian population".³⁸⁶

378. In a resolution adopted in 1938 on the protection of civilian populations against air bombardment in case of war, the Assembly of the League of Nations stated that "the intentional bombing of civilian populations is illegal".³⁸⁷

379. In Resolution 2444 (XXIII), adopted in 1968, the UN General Assembly affirmed Resolution XXVIII of the 20th International Conference of the Red Cross and the basic humanitarian principle applicable in all armed conflicts laid down therein that "it is prohibited to launch attacks against the civilian population as such".³⁸⁸

380. In Resolution 2675 (XXV), adopted in 1970, the UN General Assembly reiterated that “civilian populations as such should not be the object of military operations”.³⁸⁹

381. In Resolution 3318 (XXIX), adopted in 1974, the UN General Assembly issued a declaration on the protection of women and children in emergency and armed conflict which stated that “attacks and bombings on the civilian population, inflicting incalculable suffering, especially on women and children, who are the most vulnerable members of the population, shall be prohibited, and such acts shall be condemned”.³⁹⁰

382. In a resolution adopted in 1994, the UN General Assembly condemned “the use of military force against civilian populations” in Bosnia and Herzegovina.³⁹¹

383. In a resolution adopted in 1996 on the situation of human rights in Sudan, the UN General Assembly called upon the parties to the hostilities “to halt the use of weapons against the civilian population”.³⁹²

384. In a resolution adopted in 1998 on the situation of human rights in Kosovo, the UN General Assembly strongly condemned “indiscriminate and widespread attacks on civilians”.³⁹³

385. In three resolutions adopted between 1987 and 1989 concerning the situation of human rights in southern Lebanon, the UN Commission on Human Rights condemned Israel for repeated violations of human rights and mentioned, *inter alia*, bombardments of the civilian population.³⁹⁴

386. In numerous resolutions adopted between 1990 and 1996, the UN Commission on Human Rights asked all parties to the Afghan conflict to implement the relevant norms of IHL found in the Geneva Conventions and the two Additional Protocols and to cease all use of weaponry against the civilian population.³⁹⁵ In another resolution in 1998, the Commission noted with deep concern the reports of mass killings and atrocities committed by combatants against the civilian population. It urged the Afghan parties to respect IHL fully and in particular to protect civilians and to halt the use of weapons against the civilian population.³⁹⁶

387. In three resolutions adopted between 1992 and 1995 concerning the situation of human rights in the territory of the former Yugoslavia, the UN

³⁹⁶ UN Commission on Human Rights, Res. 1998/70, 21 April 1998, §§ 2(d) and 5(c).

Commission on Human Rights condemned “the use of military force against civilian populations”.³⁹⁷

388. In a resolution adopted in 1992, the UN Commission on Human Rights declared itself shattered by reports describing the violations of human rights in the former Yugoslavia and particularly in Bosnia and Herzegovina, including “deliberate attacks against non-combatants”.³⁹⁸

389. In a resolution adopted in 1994 concerning the situation of human rights in Bosnia and Herzegovina, the UN Commission on Human Rights condemned the use of force against defenceless civilians.³⁹⁹

390. In two resolutions adopted in 1994 and 1995 concerning the situation of human rights in the former Yugoslavia, the UN Commission on Human Rights denounced “continued deliberate and unlawful attacks and use of military force against civilians and other protected persons by all sides”.⁴⁰⁰

391. In several resolutions adopted between 1993 and 1998 concerning the situation of human rights in Sudan, the UN Commission on Human Rights called upon the parties to the hostilities “to halt the use of weapons . . . against the civilian population”.⁴⁰¹

392. In two resolutions adopted in 1994 and 1995 concerning the situation of human rights in Zaire, the UN Commission on Human Rights noted with indignation the use of force against unarmed civilians by the army and the security services.⁴⁰²

393. In a resolution adopted in 1995 concerning the conflict in Guatemala, the UN Commission on Human Rights asked all parties to enforce the norms of IHL applicable in internal armed conflicts and to avoid all acts which placed the personal security or possessions of the civilian population at risk.⁴⁰³

394. In a resolution adopted in 1996 concerning the situation of human rights in Burundi, the UN Commission on Human Rights strongly condemned “the continued violence against the civilian population, including refugees [and] displaced persons”. It also strongly condemned “the massacres of civilians that have taken place in Burundi for the past several years”.⁴⁰⁴

³⁹⁷ UN Commission on Human Rights, Res. 1992/S-2/1, 1 December 1992, § 7; Res. 1993/7, 23 February 1993, § 12; Res. 1995/89, 8 March 1995, § 5.

⁴⁰⁴ UN Commission on Human Rights, Res. 1996/1, 27 March 1996, preamble and § 7.

395. In a resolution adopted in 1998 concerning the question of the violation of human rights in the occupied Arab territories, the UN Commission on Human Rights condemned, in particular:

the continuation of acts of wounding and killing such as that which took place on 10 March 1998 when Israeli occupation soldiers shot dead three Palestinian workers and wounded nine others, one of them seriously, and the subsequent opening of fire on Palestinian civilians after the incidents of the following days.⁴⁰⁵

396. In a resolution adopted in 1998 concerning the situation of human rights in Myanmar, the UN Commission on Human Rights called upon the government and all other parties to the hostilities “to halt the use of weapons against the civilian population”.⁴⁰⁶

397. In a resolution adopted in 1998, the UN Commission on Human Rights censured “the repeated Israeli aggressions” in southern Lebanon and western Bekaa, which had caused a large number of deaths and injuries among civilians.⁴⁰⁷

398. In a resolution adopted in 1998, the UN Commission on Human Rights requested that the LRA, operating in northern Uganda, cease immediately all abductions of and attacks against the civilian population, in particular women and children.⁴⁰⁸

399. In a resolution adopted in 1984, the UN Sub-Commission on Human Rights recalled the internal character of the conflict in El Salvador and held that government forces violated the Geneva Conventions by launching systematic attacks on the rural population, a non-military objective.⁴⁰⁹

400. In resolutions adopted in 1984 and 1985, the UN Sub-Commission on Human Rights expressed its deep concern at the increasingly serious and systematic violations of human rights in Guatemala, mentioning in particular acts of violence against civilians and non-combatants.⁴¹⁰

401. In a resolution adopted in 1993, the UN Sub-Commission on Human Rights deplored the continued victimisation of civilians as a result of military actions in Iraq.⁴¹¹ In a later resolution in 1996, the Sub-Commission also mentioned its concern over Iraqi military attacks on civilians in the marshland areas, which had resulted in many casualties.⁴¹²

402. In a resolution adopted in 1995, the UN Sub-Commission on Human Rights called upon the parties to the conflict in the former Yugoslavia to halt

⁴¹¹ UN Sub-Commission on Human Rights, Res. 1993/20, 20 August 1993, preamble.

⁴¹² UN Sub-Commission on Human Rights, Res. 1996/4, 19 August 1996, preamble.

all acts of violence directed against the civilian population, including those against fleeing refugees.⁴¹³

403. In a resolution adopted in 1996, the UN Sub-Commission on Human Rights stated that it was alarmed by the multiple attacks on and massacres of innocent civilians in Burundi committed by the militia and armed bands of extremist groups in defiance of the principles of IHL.⁴¹⁴

404. In 1992, in a report on UNIFIL in Lebanon, the UN Secretary-General appealed to all the parties to the conflict to show proper regard for the lives of non-combatant men, women and children.⁴¹⁵

405. In 1996, in reports on UNOMIL in Liberia, the UN Secretary-General included among alleged violations of IHL an attack launched by ULIMO-J forces on ECOMOG positions in the town of Kle on 2 January 1996, in which various sources reported that the fighters intentionally fired upon local and displaced civilians.⁴¹⁶

406. In 1998, in a report on protection for humanitarian assistance to refugees and others in conflict situations, the UN Secretary-General noted that the changing pattern of conflicts in recent years had dramatically worsened the problem of compliance with international law and listed as an example that “civilian populations are being specifically targeted”.⁴¹⁷

407. In 1998, in a report on MONUA in Angola, the UN Secretary-General pointed out that the increase in military operations had resulted in a rise in the number of reported human rights violations, including “numerous attacks against the civilian population and local officials”.⁴¹⁸ In a subsequent report on the same subject, the UN Secretary-General noted that:

The civilian population has continued to bear the brunt of military operations by both sides... At such times, principles of international humanitarian law are especially important as they seek to protect the most vulnerable groups – those who are not involved in military operations – from direct or indiscriminate attack or being forced to flee.⁴¹⁹

408. In 1998, in a report on the situation in Sierra Leone, the UN Secretary-General noted that:

The main focus of human rights concerns... has been the attacks on civilians by armed, uniformed groups, which are consistently reported to be members of

⁴¹⁹ UN Secretary-General, Report on MONUA, UN Doc. S/1998/931, 8 October 1998, § 17.

the rebel forces. They have systematically mutilated or severed the limbs of non-combatants around the towns of Koidu and Kabala.⁴²⁰

409. In 1998, in a report on UNOMSIL in Sierra Leone, the UN Secretary-General provided a list of human rights abuses committed in Sierra Leone and observed that there was strong evidence of systematic and widespread human rights violations against the civilian population. He referred to a survey carried out in certain areas of Sierra Leone, which indicated a large number of war-related civilian deaths and injuries, a significant percentage of which were women and children. The Secretary-General added that the killing of some 44 of the 144 paramount chiefs indicated a deliberate attempt to target them. He stated that he was “deeply concerned about the plight of innocent civilians in the country, who may still be at risk from future attacks”.⁴²¹

410. In 1998, in a report concerning the situation in Kosovo, the UN Secretary-General maintained that he was distressed by the desperate situation of the civilian population and especially by the fact that civilians had become the main targets in the conflict.⁴²²

411. In a press release issued in February 2000, the UN Secretary-General stated that he deplored the Israeli air attacks against civilian targets in Lebanon. He expressed his deep concern at the escalation of the hostilities, which had resulted in loss of life.⁴²³

412. In 2000, in a report on the establishment of a Special Court for Sierra Leone, the UN Secretary-General stated that:

Other serious violations of international humanitarian law falling within the jurisdiction of the Court include: (a) Attacks against the civilian population as such, or against individual civilians not taking direct part in hostilities . . . The prohibition on attacks against civilians is based on the most fundamental distinction drawn in international humanitarian law between the civilian and the military and the absolute prohibition on directing attacks against the former. Its customary international law nature is, therefore, firmly established.⁴²⁴

413. In 1992, in an interim report on the situation of human rights in Iraq, the Special Rapporteur of the UN Commission on Human Rights stated that “the most blatant violations of human rights being perpetrated by the Government are constituted by the military attacks against the civilian population”.⁴²⁵

⁴²⁰ UN Secretary-General, Fifth report on the situation in Sierra Leone, UN Doc. S/1998/486, 9 June 1998, §§ 35 and 81.

⁴²² UN Secretary-General, Report on the situation in Kosovo, UN Doc. S/1998/912, 3 October 1998, § 7.

⁴²³ UN Secretary-General, Press Release, Secretary-General deplores Israeli air attacks in Lebanon, UN Doc. SG/SM/7296, 8 February 2000.

⁴²⁴ UN Secretary-General, Report on the establishment of a Special Court for Sierra Leone, UN Doc. S/2000/915, 4 October 2000, §§ 15(a) and 16.

⁴²⁵ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in Iraq, Interim report, UN Doc. S/24386, 5 August 1992, § 11.

414. In various reports on the situation of human rights in the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights condemned direct attacks against civilians. For example, in his third report submitted in August 1993, he denounced the various violations of laws related to the conduct of war committed against the civilian population of Sarajevo. Providing examples of these violations, he particularly condemned the arbitrary killing of civilians by sniper fire. In his conclusion, the Special Rapporteur described as a fundamental breach of the laws of war the use of the civilian population as military targets and their deliberate killing and wounding.⁴²⁶ His fifth periodic report, submitted in November 1993, also dealt with military attacks on civilians. In various sections of the report, the Special Rapporteur stated that these attacks were committed by all the parties to the conflict.⁴²⁷ In his sixth periodic report, submitted in February 1994, the Special Rapporteur reiterated his deep concern over the repeated instances of military attacks launched against civilians and particularly against the civilian populations of Sarajevo, Mostar and Tuzla.⁴²⁸ The tenth periodic report, submitted in January 1995, contained a section describing military attacks against civilians and other non-combatants and a conclusion in which the Special Rapporteur underlined that the Serb forces in Bosnia and Herzegovina were targeting civilians with alarmingly increasing frequency. He condemned these practices, requested their immediate termination and reminded those who were responsible for such acts of their culpability under international law.⁴²⁹

415. In 1993, the UN Commission on the Truth for El Salvador established that, during the internal conflict in El Salvador, the governmental armed forces viewed the civilian population in disputed areas as a "legitimate target of attack". This policy, implemented in order to deprive the guerrillas of all means of survival, resulted in massacres and the destruction of entire communities. According to the Commission, such a tactic was a clear violation of human rights. The Commission pointed out that "following much international criticism, the armed forces cut back on the use of air attacks against the civilian population".⁴³⁰ Concerning the activities of the death squads, the Commission found that:

⁴²⁶ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Third periodic report, UN Doc. E/CN.4/1994/6, 26 August 1993, §§ 36 and 45.

⁴²⁷ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Fifth periodic report, UN Doc. E/CN.4/1994/47, 17 November 1993, §§ 10, 45, 65–67, 92–96, 161–164 and 235.

⁴²⁸ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Sixth periodic report, UN Doc. E/CN.4/1994/110, 21 February 1994, § 5.

⁴²⁹ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Tenth periodic report, UN Doc. E/CN.4/1995/57, 16 January 1995, § 48.

⁴³⁰ UN Commission on the Truth for El Salvador, Report, UN Doc. S/25500, 1 April 1993, p. 32.

The State of El Salvador, through the activities of members of the armed forces and/or civilian officials, is responsible for having taken part in, encouraged and tolerated the operations of the death squads which illegally attacked members of the civilian population.⁴³¹

The FMLN argued that mayors were legitimate targets, but the Commission pointed out that "there is nothing to support the claim that the executed mayors were combatants according to the provisions of humanitarian law" and concluded that "the execution of mayors by FMLN was a violation of the rules of international humanitarian law and international human rights law".⁴³²

Other International Organisations

416. In a statement on Lebanon issued in September 1982, the Committee of Ministers of the Council of Europe expressed "profound shock at the massacre perpetrated in West Beirut against Palestinian civilians" and condemned "with revulsion this crime which constitutes a flagrant violation of human rights, the respect and protection of which are fundamental to the Council of Europe".⁴³³

417. In a recommendation adopted in 1991, the Parliamentary Assembly of the Council of Europe condemned the "brutal repression, of genocidal proportions" carried out by the Iraqi forces against the civilian population and in particular against Iraqi Kurds, following "large scale armed insurrection".⁴³⁴

418. In a declaration on the bombardments of Dubrovnik in 1991, the Committee of Ministers of the Council of Europe condemned the use of force against the civilian population.⁴³⁵ A few days later, in the Final Communiqué of its 89th Session, the Committee of Ministers denounced the use of force against the civilian population in the former Yugoslavia.⁴³⁶

419. In a declaration on Nagorno-Karabakh in 1992, the Committee of Ministers of the Council of Europe condemned the violence and attacks directed against the civilian population in the region.⁴³⁷

420. In a resolution adopted in 1993, the Parliamentary Assembly of the Council of Europe stated that the conflict in the former Yugoslavia was marked by "barbarous violence against civilians, in particular women and children". Such violence was held to constitute a violation of "the elementary rules and principles of the laws of war and [of] the protective provisions of humanitarian law". The Assembly urged the governments of member and non-member States

⁴³⁷ Council of Europe, Committee of Ministers, Declaration on Nagorno-Karabakh, 11 March 1992.

“to undertake to protect children from the scourge of war and to condemn the barbaric practice in recent armed conflicts of using women and children as targets”.⁴³⁸

421. In a declaration on Bosnia and Herzegovina in 1994, the Committee of Ministers of the Council of Europe vigorously condemned the “massacres of civilians” in Sarajevo.⁴³⁹

422. In 1995, during a debate in the Parliamentary Assembly of the Council of Europe on the situation in Chechnya (in relation to Russia’s application for membership of the Council of Europe), a German member, speaking on behalf of the Committee on Legal Affairs and Human Rights, stated that:

The action taken by the military forces of the Russian Federation, with blanket bombing and the use of heavy weapons against the civilian population, is an extremely serious breach of human rights and a violation of [established standards of IHL] . . . The United Nations General Assembly has also adopted important documents that demand respect for, and protection of, the civilian population in military conflicts. None of these documents differentiates between international and internal military conflicts. The brutal action taken by the Russian military can, therefore, never be justified, whatever warped arguments are put forward.⁴⁴⁰

423. In a press release on Liberia issued in 1990, the EC voiced strong protest at the killing of civilians.⁴⁴¹

424. In a statement on Sudan in 1994, the EU condemned attacks on the civilian population.⁴⁴²

425. In a declaration on the situation in Angola in 1993, the OAU Assembly of Heads of State and Government strongly condemned UNITA for its repeated massacres of civilian populations and the destruction of social infrastructure.⁴⁴³

426. In a resolution on Burundi adopted in 1996, the OAU Council of Ministers deplored and strongly condemned “the brutal and bastardly murder of innocent people” and called upon the authorities of Burundi to ensure the safety of the people of Burundi.⁴⁴⁴

427. In a resolution adopted in 1996, the OAU Council of Ministers condemned “the constant aggression against civilians in armed conflict situations”.⁴⁴⁵ In 1998, during a debate in the Sixth Committee of the UN General Assembly, South Africa stated on behalf of the SADC that the 1998 ICC Statute “would

also serve as a reminder that even during armed conflict the rule of law must be upheld. For example, it was unlawful...for attacks to be directed at...individuals not taking a direct part in hostilities... [This act] was a war crime and would be punished."⁴⁴⁶

428. In 1998, during a debate in the Sixth Committee of the UN General Assembly, South Africa stated on behalf of the SADC that the 1998 ICC Statute "would also serve as a reminder that even during armed conflict the rule of law must be upheld. For example, it was unlawful...for attacks to be directed at...individuals not taking a direct part in hostilities... [This act] was a war crime and would be punished."⁴⁴⁷

International Conferences

429. The 20th International Conference of the Red Cross in 1965 solemnly declared that "all Governments and other authorities responsible for action in armed conflicts should conform at least to the following principles:... that it is prohibited to launch attacks against the civilian populations as such".⁴⁴⁸

430. In a public statement issued on 31 October 1992, the Co-Chairmen of the International Conference on the Former Yugoslavia condemned "the continuing assaults on innocent civilians fleeing from the fighting in and around Jajce" and called upon all parties "to cease and desist from further attacks on persons displaced by the fighting".⁴⁴⁹

431. In the Final Declaration adopted by the International Conference for the Protection of War Victims in 1993, the participants stated that they refused to accept that "civilian populations should become more and more frequently the principal victims of hostilities and acts of violence perpetrated in the course of armed conflicts, for example where they are intentionally targeted".⁴⁵⁰

432. The 26th International Conference of the Red Cross and Red Crescent in 1995 adopted a resolution on protection of the civilian population in period of armed conflict in which it expressed deep alarm at "acts of violence or of terror making civilians the object of attack" and strongly condemned "the systematic and massive killing of civilians in armed conflicts".⁴⁵¹

433. The Plan of Action for the years 2000-2003 adopted in 1999 by the 27th International Conference of the Red Cross and Red Crescent requested that all

⁴⁵¹ 26th International Conference of the Red Cross and Red Crescent, Geneva, 3-7 December 1995, Res. II, preamble and § A(b).

the parties to an armed conflict take effective measures to ensure that “in the conduct of hostilities, every effort is made – in addition to the total ban on directing attacks against the civilian population as such or against civilians not taking a direct part in hostilities . . . – to spare the life, protect and respect the civilian population”.⁴⁵²

IV. Practice of International Judicial and Quasi-judicial Bodies

434. In its advisory opinion in the *Nuclear Weapons case* in 1996, the ICJ considered the prohibition on making civilians the object of attack to be one of the “cardinal principles contained in the texts constituting the fabric of humanitarian law” and also one of the “intransgressible principles of international customary law”.⁴⁵³

435. In its decision on the defence motion for interlocutory appeal on jurisdiction in the *Tadić case* in 1995, the ICTY Appeals Chamber held that customary rules had developed to govern non-international armed conflicts. On the basis of various sources, including the behaviour of belligerent States, governments and insurgents (in the contexts of the internal conflicts in Spain, DRC, Nigeria and El Salvador), military manuals, ICRC action, UN General Assembly Resolutions 2444 (XXIII) and 2675 (XXV) and various declarations issued by regional organisations, the Appeals Chamber concluded that a customary norm existed protecting civilians from hostilities in internal conflicts, in particular the prohibition on attacks against civilians in the theatre of hostilities.⁴⁵⁴

436. In the *Karadžić and Mladić case* before the ICTY in 1995, the accused were charged with “deliberate attack on the civilian population and individual civilians” in violation of the laws or customs of war for their role in the shelling of civilian gatherings and the sniping campaign against the civilian population of Sarajevo.⁴⁵⁵ In its review of the indictment in 1996, the ICTY Trial Chamber confirmed all counts.⁴⁵⁶

437. In the *Martić case* before the ICTY in 1995, the accused was charged with “an unlawful attack against the civilian population and individual civilians of Zagreb” in violation of the laws or customs of war.⁴⁵⁷ In its review of the indictment in 1996, the ICTY Trial Chamber stated that “as regards customary law, the rule that the civilian population, as well as individuals civilians, shall

⁴⁵³ ICJ, *Nuclear Weapons case*, Advisory Opinion, 8 July 1996, §§ 78–79.

⁴⁵⁴ ICTY, *Tadić case*, Interlocutory Appeal, 2 October 1995, §§ 100–127.

⁴⁵⁵ ICTY, *Karadžić and Mladić case*, First Indictment, 24 July 1995, § 36, Count 5 and § 45, Count 10.

⁴⁵⁶ ICTY, *Karadžić and Mladić case*, Review of the Indictments, 11 July 1996, Section VII, Disposition.

⁴⁵⁷ ICTY, *Martić case*, Initial Indictment, 25 July 1995, §§ 15 and 17, Counts I and III.

not be the object of attack, is a fundamental rule of international humanitarian law applicable to all armed conflicts".⁴⁵⁸ The Trial Chamber upheld all counts of the indictment.⁴⁵⁹

438. In the *Blaškić case* before the ICTY in 1997, the accused was charged with "unlawful attack on civilians" in violation of the laws or customs of war.⁴⁶⁰ In its judgement in 2000, the ICTY Trial Chamber considered that "the specific provisions of Common Article 3 [of the 1949 Geneva Conventions] also satisfactorily cover the prohibition on attacks against civilians as provided for by Protocols I and II".⁴⁶¹ The Trial Chamber further stated that "the parties to the conflict are obliged to attempt to distinguish between military targets and civilian persons or property. Targeting civilians or civilian property is an offence when not justified by military necessity."⁴⁶² The Trial Chamber found the accused guilty of "a violation of the laws or customs of war under Article 3 of the Statute and recognised by Article 51(2) of AP I: unlawful attacks on civilians".⁴⁶³

439. In the *Galić case* before the ICTY in 1998, the accused was charged with "attacks on civilians as set forth in Article 51 of Additional Protocol I and Article 13 of Additional Protocol II to the Geneva Conventions of 1949" in violation of the laws or customs of war for having conducted "a coordinated and protracted campaign of sniper attacks upon the civilian population of Sarajevo" and "a coordinated and protracted campaign of artillery and mortar shelling onto civilian areas of Sarajevo and upon its civilian population".⁴⁶⁴

440. In the *Kordić and Čerkez case* before the ICTY in 1998, the accused were charged with "unlawful attack on civilians" in violation of the laws or customs of war.⁴⁶⁵ In the decision on the joint defence motion in 1999, the ICTY Trial Chamber held that it was "indisputable" that the general prohibition of attacks against the civilian population was a generally accepted obligation and that as a consequence, "there is no possible doubt as to the customary status" of Articles 51(2) AP I and 13(2) AP II "as they reflect core principles of humanitarian law that can be considered as applying to all armed conflicts, whether intended to apply to international or non-international conflicts".⁴⁶⁶ In its judgement in 2001, the ICTY Trial Chamber stated that:

Prohibited attacks are those launched deliberately against civilians . . . in the course of an armed conflict and are not justified by military necessity. They must have

⁴⁶⁵ ICTY, *Kordić and Čerkez case*, First Amended Indictment, 30 September 1998, §§ 40 and 41, Counts 3 and 5.

⁴⁶⁶ ICTY, *Kordić and Čerkez case*, Decision on the Joint Defence Motion, 2 March 1999, § 31.

caused deaths and/or serious bodily injuries within the civilian population . . . Such attacks are in direct contravention of the prohibitions expressly recognised in international law including the relevant provisions of Additional Protocol I.⁴⁶⁷

The Tribunal found the accused guilty of “a violation of the laws or customs of war, as recognised by Article 3 [of the ICTY Statute] (unlawful attack on civilians)”⁴⁶⁸.

441. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that:

The protection of civilians in time of armed conflict, whether international or internal, is the bedrock of modern humanitarian law . . . Indeed, it is now a universally recognised principle, recently restated by the International Court of Justice [in the *Nuclear Weapons case*], that deliberate attacks on civilians or civilian objects are absolutely prohibited by international humanitarian law.⁴⁶⁹

442. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the 1999 NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that:

Attacks which are not directed against military objectives (particularly attacks directed against the civilian population) . . . may constitute the *actus reus* for the offense of unlawful attack [as a violation of the laws and customs of war]. The *mens rea* for the offense is intention or recklessness, not simple negligence.⁴⁷⁰

443. In 1997, in the case concerning the events at La Tablada in Argentina, the IACiHR reaffirmed the obligation of the contending parties, on the basis of common Article 3 of the 1949 Geneva Conventions and customary principles applicable to all armed conflicts, not to engage in direct attacks against the civilian population or individual civilians.⁴⁷¹

V. Practice of the International Red Cross and Red Crescent Movement

444. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “civilian persons may not be attacked unless they participate directly in hostilities” and that an “attack on the civilian population or individual civilian persons” constitutes a grave breach of the law of war.⁴⁷²

⁴⁶⁷ ICTY, *Kordić and Čerkez case*, Judgement, 26 February 2001, § 328.

⁴⁶⁸ ICTY, *Kordić and Čerkez case*, Judgement, 26 February 2001, Section V, Disposition.

⁴⁶⁹ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 521.

⁴⁷⁰ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, § 28.

⁴⁷¹ IACiHR, *Case 11.137 (Argentina)*, Report, 18 November 1997, § 177.

⁴⁷² Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 208 and 778(b).

445. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 46(1) of draft API which stated that “the civilian population as such, as well as individual civilians, shall not be made the object of attack”. All governments concerned replied favourably.⁴⁷³

446. In an appeal issued in 1979 with respect to the conflict in Rhodesia/Zimbabwe, the ICRC called on all the parties to the conflict to “cease all attacks against the civilian population in the war-affected areas”. It also specifically requested that the Transitional Government in Salisbury “abstain from attacking civilians in the course of military operations in neighbouring countries”.⁴⁷⁴

447. In a press release issued in 1985 concerning the bombardment of civilians in the Iran–Iraq War, the President of the ICRC stated that “the bombardment of civilians is one of the very gravest violations of international humanitarian law”.⁴⁷⁵

448. In a press release issued in 1987, the ICRC made a solemn appeal to the Iranian and Iraqi governments “once again strongly urging them to put an end to the bombing and attacks on civilians”. The press release described the appeal as “the latest in a series of attempts by the ICRC to remind Iran and Iraq that the bombing and attacks on civilians constitute a grave violation of international humanitarian law and of customary law, which totally prohibit such practices”.⁴⁷⁶

449. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context of the Gulf War, the ICRC stated that “the following general rules are recognized as binding on any party to an armed conflict: . . . It is forbidden to attack civilian persons.”⁴⁷⁷

450. In 1991, the ICRC appealed to the parties to the conflict in the former Yugoslavia “not to direct any attack against the civilian population”.⁴⁷⁸

451. On several occasions in 1992, the ICRC called on the parties to the conflict in Afghanistan not to target civilians and facilities used only by the civilian population and to spare civilian persons and objects.⁴⁷⁹

452. In a press release in 1992, the ICRC enjoined the parties to the conflict in Bosnia and Herzegovina “not to direct any attack against the civilian population”.⁴⁸⁰

453. In a communication to the press in 1993, the ICRC stated that its delegates in Bosnia and Herzegovina were once more witnessing “blatant violations of the basic principles of international humanitarian law”, citing the targeting of the civilian population as an example.⁴⁸¹

454. In a communication to the press in 1993, the ICRC enjoined the parties to the conflict in Somalia not to “attack civilians or facilities used by the civilian population”.⁴⁸²

455. In a communication to the press in 1993, the ICRC reminded the parties to the conflict in Nagorno-Karabakh of their obligation “to refrain from attacking civilians”.⁴⁸³

456. In a communication to the press in 1993, the ICRC reminded the parties to the conflict in Georgia of their obligation “to refrain from attacking civilians”.⁴⁸⁴

457. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that “attacks on civilians or civilian objects are prohibited”.⁴⁸⁵

458. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that “it is prohibited to direct attacks against civilian persons”.⁴⁸⁶

459. In a press release issued in 1994 in the context of the conflict in Yemen, the ICRC stated that “attacks against civilians and civilian property are prohibited”.⁴⁸⁷

460. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC proposed that the war crime of “making the civilian population or individual civilians the object of attack” be subject to the jurisdiction of the Court with

respect to international armed conflicts and that the war crime of “attacks directed against the civilian population as such, or individual civilians” be subject to the jurisdiction of the Court with respect to non-international armed conflicts.⁴⁸⁸

461. In a communication to the press in 2000, the ICRC reminded both the Sri Lankan security forces and the LTTE of their obligation to comply with IHL, which provided for the protection of the civilian population against the effects of the hostilities. The ICRC called on both parties to ensure that the civilian population and civilian property were protected and respected at all times.⁴⁸⁹

462. In a communication to the press in 2000 in connection with the hostilities in the Near East, the ICRC stated that attacks directed against the civilian population were “absolutely and unconditionally prohibited” and that “the use of weapons of war against unarmed civilians cannot be authorized”.⁴⁹⁰

463. In a communication to the press in 2001 in connection with the conflict in Afghanistan, the ICRC stated that “attacks directed at civilians are prohibited”.⁴⁹¹

VI. Other Practice

464. Oppenheim states that “the immunity of non-combatants from direct attack is one of the fundamental rules of the International Law of War. It is a rule which applies with absolute cogency alike to warfare on land, at sea, and in the air.”⁴⁹²

465. In a resolution adopted at its Edinburgh Session in 1969, the Institute of International Law recalled that “existing international law prohibits all armed attacks on the civilian populations as such, as well as on non-military objects, notably dwellings or other buildings sheltering the civilian population”.⁴⁹³

466. In 1979, an armed group wrote to the ICRC to confirm its commitment to IHL and to denounce the killing and injuring of some 150,000 persons as a

⁴⁹³ Institute of International Law, Edinburgh Session, Resolution on the Distinction between Military Objectives and Non-military Objects in General and Particularly the Problems Associated with Weapons of Mass Destruction, 9 September 1969, § 4.

result of attacks on civilian objectives allegedly carried out by one of the parties to the conflict.⁴⁹⁴

467. In 1980, an armed opposition group expressed its acceptance of the fundamental principles of IHL as formulated by the ICRC, including the principle that “neither the civilian population as such nor civilian persons shall be the object of attack”.⁴⁹⁵

468. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch stated that:

However, although [common] Article 3 [of the 1949 Geneva Conventions] contains no provision providing explicit protection for the civilian population against attacks or their effects, Article 3’s prohibition of “violence to life and person” against “persons taking no active part in the hostilities” is broad enough to include attacks against civilians in territory controlled by an adverse party in an internal armed conflict. . . . Certain general principles of the customary law of armed conflict were recognized in U.N. General Assembly Resolution 2444 (XXIII), 13 January 1969, which was adopted by unanimous vote. This resolution affirms . . . that it is prohibited to launch attacks against the civilian population as such. . . . Further, the U.S. Government has expressly recognized these general principles “as declaratory of existing customary international law.” The ICRC also lists these principles among the fundamental rules of international humanitarian law applicable in *all* armed conflicts. Thus, attacks by Nicaraguan government or *contra* forces directed against *unarmed* civilians undertaken with the knowledge that no military objective was present would constitute a violation of the customary international law of armed conflict. Under this circumstance, such deaths would be regarded as civilian murders and not as unavoidable collateral civilian casualties.⁴⁹⁶ [emphasis in original]

469. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that:

Although [common] Article 3 [of the 1949 Geneva Conventions] does not, by its terms, prohibit attacks against the civilian population in non-international armed conflicts, such attacks are prohibited by the customary laws of armed conflict. United Nations General Assembly Resolution 2444, *Respect for Human Rights in Armed Conflicts* . . . adopted by unanimous vote on December 19, 1969, expressly recognized this customary principle of civilian immunity and its complementary principle requiring the warring parties to distinguish civilians from combatants at all times. . . . Furthermore, the International Committee of the Red Cross has long regarded these principles as basic rules of the laws of war that apply in all armed conflicts. The United States government also has expressly recognized these principles as declaratory of existing customary international law.⁴⁹⁷

470. The Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights of Åbo Akademi

⁴⁹⁷ Africa Watch, *Angola: Violations of the Laws of War by Both Sides*, New York, April 1989, p. 126.

University in Turku/Åbo, Finland in 1990, states that “attacks against persons not taking part in acts of violence shall be prohibited in all circumstances”.⁴⁹⁸

471. Rule A2 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IHL, provides that “the prohibition of attacks against the civilian population as such or against individual civilians is a general rule applicable in non-international armed conflicts”. The commentary on this rule notes that it is based on Article 25 HR, UN General Assembly Resolutions 2444 (XXIII) and 2675 (XXV) and Article 13(2) AP II. It adds that attacks against civilians are also incompatible with the rule on the protection of the life and person of those taking no active part in hostilities as set out in common Article 3 of the 1949 Geneva Conventions.⁴⁹⁹

472. In 1992, in a report on war crimes committed in the conflict in Bosnia and Herzegovina, Helsinki Watch stated that:

United Nations General Assembly Resolution 2444, adopted by unanimous vote on December 19, 1969, expressly recognized the customary law principle of civilian immunity and its complementary principle requiring the warring parties to distinguish civilians from combatants at all times.⁵⁰⁰

473. In 1994, officials of a separatist entity qualified the bombing of the civilian population as an isolated case and emphasised that the persons involved had been punished.⁵⁰¹

474. In 2000, in a report on the NATO bombings in the FRY, Amnesty International dealt with some cases that were selected because there was “evidence that civilians were victims of either direct or indiscriminate attacks, in violation of international humanitarian law”.⁵⁰²

475. In 2001, in a report on Israel and the occupied territories, Amnesty International stated that:

It is a basic rule of customary international law that civilians and civilian objects must never be made the targets of an attack. This rule applies in all circumstances including in the midst of full-scale armed conflict. Due to its customary nature it is binding on all parties. Israel is prohibited from attacking civilians and civilian objects. Palestinians are also prohibited from targeting Israeli civilians, including settlers who are not bearing arms, and civilian objects.⁵⁰³

B. Violence Aimed at Spreading Terror among the Civilian Population

I. Treaties and Other Instruments

Treaties

476. Article 33 GC IV provides that “all measures of intimidation or of terrorism are prohibited”.

477. Article 51(2) AP I prohibits “acts or threats of violence the primary purpose of which is to spread terror among the civilian population”. Article 51 AP I was adopted by 77 votes in favour, one against and 16 abstentions.⁵⁰⁴

478. Article 4(2)(d) AP II prohibits “acts of terrorism” against all persons who do not take a direct part or who have ceased to take part in hostilities. Article 4 AP II was adopted by consensus.⁵⁰⁵

479. Article 13(2) AP II prohibits “acts or threats of violence the primary purpose of which is to spread terror among the civilian population”. Article 13 AP II was adopted by consensus.⁵⁰⁶

480. Article 3(d) of the 2002 Statute of the Special Court for Sierra Leone provides that “the Special Court shall have the power to prosecute persons who committed or ordered the commission of serious violations . . . of [AP II]. The violations shall include: . . . (d) Acts of terrorism.” Threats to commit acts of terrorism are covered by Article 3(h).

Other Instruments

481. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including “systematic terror”.

482. Article 22 of the 1923 Hague Rules of Air Warfare prohibits “any air bombardment for the purpose of terrorizing the civil population or destroying or damaging private property without military character or injuring non-combatants”.

483. Article 4 of the 1938 ILA Draft Convention for the Protection of Civilian Populations against New Engines of War provides that “aerial bombardment for the purpose of terrorising the civilian population is expressly prohibited”.

484. Article 6 of the 1956 New Delhi Draft Rules states that “attacks directed against the civilian population, as such, whether with the object of terrorizing it or for any other reason, are prohibited”.

485. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 51(2) AP I.

⁵⁰⁴ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 163.

⁵⁰⁵ CDDH, *Official Records*, Vol. VII, CDDH/SR.50, 3 June 1977, p. 90.

⁵⁰⁶ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 134.

486. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 51(2) AP I.

487. Article 4(d) of the 1994 ICTR Statute provides that the Tribunal shall have jurisdiction over violations of AP II, including acts of terrorism.

488. Pursuant to Article 20(f)(iv) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, “acts of terrorism” committed in non-international armed conflict constitute war crimes. The commentary states that this Article covers violations of Article 4(2)(d) AP II and should be understood as having the same meaning and scope of application.

II. National Practice

Military Manuals

489. Argentina’s Law of War Manual states that “acts which aim to terrorise the [civilian] population” are prohibited.⁵⁰⁷

490. Australia’s Defence Force Manual states that “acts or threats of violence primarily intended to spread terror among the civilian population are prohibited”.⁵⁰⁸ The manual adds that “offensive support or strike operations against the civilian population for the sole purpose of terrorising the civilian population [are] prohibited”.⁵⁰⁹

491. Belgium’s Teaching Manual for Soldiers states that it is prohibited to intimidate or terrorise the civilian population.⁵¹⁰

492. Belgium’s Law of War Manual states that aerial bombardment aimed at terrorising the civilian population is prohibited.⁵¹¹

493. Benin’s Military Manual includes a prohibition to “terrorise the civilian population through acts or threats of violence”.⁵¹²

494. Cameroon’s Instructors’ Manual prohibits terrorising the civilian population.⁵¹³

495. Canada’s LOAC Manual states that “acts or threats of violence, the primary purpose of which is to spread terror among the civilian population, are prohibited”.⁵¹⁴ The manual repeats this prohibition with respect to non-international armed conflicts in particular.⁵¹⁵

⁵⁴⁰ Bangladesh, *International Crimes (Tribunal) Act* (1973), Section 3(2)(e).

517. Under the Criminal Code of the Federation of Bosnia and Herzegovina, “the application of measures of intimidation and terror” against civilians is a war crime.⁵⁴¹ The Criminal Code of the Republika Srpska contains the same provision.⁵⁴²

518. China’s Law Governing the Trial of War Criminals provides that “planned slaughter, murder or other terrorist action” constitutes a war crime.⁵⁴³

519. Colombia’s Penal Code imposes a criminal sanction on “anyone who, during an armed conflict, carries out or orders the carrying out of . . . acts or threats of violence whose primary purpose is to terrorise the civilian population”.⁵⁴⁴

520. Under Côte d’Ivoire’s Penal Code as amended, organising, ordering or carrying out, in time of war or occupation, “measures of terror” against the civilian population constitutes a “crime against the civilian population”.⁵⁴⁵

521. Under Croatia’s Criminal Code, “the imposition of measures of intimidation and terror” against the civilian population is a war crime.⁵⁴⁶

522. The Criminal Code as amended of the Czech Republic punishes anyone who during war “terrorises defenceless civilians with violence or the threat of violence”.⁵⁴⁷

523. Under Ethiopia’s Penal Code, it is a punishable offence to organise, order or engage in “measures of intimidation or terror” against the civilian population, in time of war, armed conflict or occupation.⁵⁴⁸

524. Ireland’s Geneva Conventions Act as amended provides that any “minor breach” of the Geneva Conventions, including violations of Article 33 GC IV, and any “minor breach” of AP I, including violations of Article 51(2) AP I, as well as any “contravention” of AP II, including violations of Articles 4(2)(d) and 13(2) AP II, are punishable offences.⁵⁴⁹

525. Under Lithuania’s Criminal Code as amended, “the use of intimidation and terror” in time of war, armed conflict or occupation is a war crime.⁵⁵⁰

526. The Definition of War Crimes Decree of the Netherlands includes “systematic terrorism” in its list of war crimes.⁵⁵¹

527. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the Geneva Conventions of 12 August 1949 . . . [and in] the two additional protocols to these Conventions . . . is liable to imprisonment”.⁵⁵²

⁵⁵¹ Netherlands, *Definition of War Crimes Decree* (1946), Article 1.

⁵⁵² Norway, *Military Penal Code as amended* (1902), § 108.

528. Slovakia's Criminal Code as amended punishes anyone who during war "terrorises defenceless civilians with violence or the threat of violence".⁵⁵³

529. Under Slovenia's Penal Code, the imposition of measures of "intimidation [and] terrorism" against the civilian population is a war crime.⁵⁵⁴

530. Spain's Penal Code punishes anyone who, during an armed conflict, makes the civilian population the object of "acts or threats of violence whose primary purpose is to terrorise them".⁵⁵⁵

531. Under the Penal Code as amended of the SFRY (FRY), "the taking of measures of intimidation and terror" against civilians is a war crime.⁵⁵⁶

National Case-law

532. No practice was found.

Other National Practice

533. On the basis of an interview with a retired army general, the Report on the Practice of Botswana states that the armed forces of Botswana would apply Article 13 AP II in the event of a non-international armed conflict.⁵⁵⁷

534. In a letter to the UN Secretary-General in 1991, Israel pointed out that SCUD missiles had been directed at civilians and that this method of "terror" by "intentional and unprovoked bombings" was a "flagrant breach of the norms of international law".⁵⁵⁸

535. The Report on the Practice of Lebanon refers to a 1996 report by the Ministry of Justice which stated that Israel had committed serious violations of the Geneva Conventions by terrorising civilians.⁵⁵⁹

536. At the CDDH, Mexico stated that it believed draft Article 46 AP I (now Article 51) to be so essential that it "cannot be the subject of any reservations whatsoever since these would be inconsistent with the aim and purpose of Protocol I and undermine its basis".⁵⁶⁰

537. At the CDDH, the UK voted in favour of draft Article 46 AP I (now Article 51), describing its first three paragraphs as containing a "valuable reaffirmation of existing customary rules of international law designed to protect civilians".⁵⁶¹

⁵⁵³ Slovakia, *Criminal Code as amended* (1961), Article 263(a)(1).

⁵⁵⁴ Slovenia, *Penal Code* (1994), Article 374(1).

⁵⁶¹ UK, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR. 41, 26 May 1977, p. 164, § 119.

538. In 1987, the Deputy Legal Adviser of the US Department of State stated that “we support the principle that the civilian population as such, as well as individual citizens, not be the object of acts or threats of violence the primary purpose of which is to spread terror among them”.⁵⁶²

539. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army pointed out that US practice was consistent with the prohibition on acts or threats of violence the main purpose of which was to spread terror among the civilian population.⁵⁶³

540. In 1994, in a document concerning human rights practices in Bosnia and Herzegovina, the US Department of State noted that the Bosnian Serb armed militia employed rape as a tool of war to terrorise and uproot populations.⁵⁶⁴

III. Practice of International Organisations and Conferences

United Nations

541. In a resolution adopted in 1994 on the situation of human rights in the former Yugoslavia, the UN General Assembly condemned the “systematic terrorization and murder of non-combatants”.⁵⁶⁵

542. In a resolution adopted in 1998 on the situation of human rights in Kosovo, the UN General Assembly stated that it was:

gravely concerned about the systematic terrorization of ethnic Albanians, as demonstrated in the many reports, *inter alia*, of torture of ethnic Albanians, through indiscriminate and widespread shelling, mass forced displacement of civilians, summary executions and illegal detention of ethnic Albanian citizens of the Federal Republic of Yugoslavia (Serbia and Montenegro) by the police and the military.⁵⁶⁶

543. In several resolutions adopted between 1992 and 1995 on the situation of human rights in the territory of the former Yugoslavia, the UN Commission on Human Rights condemned the “systematic terrorization and murder of non-combatants”.⁵⁶⁷

⁵⁶² US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 426.

⁵⁶³ US, Letter from the Department of the Army to the legal adviser of the US Army forces deployed in the Gulf region, 11 January 1991, § 8(F), Report on US Practice, 1997, Chapter 1.4.

⁵⁶⁴ US, Department of State, *Bosnia-Herzegovina Human Rights Practice*, 1993, 31 January 1994, p. 2.

⁵⁶⁵ UN General Assembly, Res. 49/196, 23 December 1994, § 7.

⁵⁶⁶ UN General Assembly, Res. 53/164, 9 December 1998, preamble.

⁵⁶⁷ UN Commission on Human Rights, Res. 1992/S-2/1, 1 December 1992, § 7; Res. 1993/7, 23 February 1993, § 12; Res. 1994/72, 9 March 1994, § 7(b) (“murder of civilians and non-combatants”); Res. 1995/89, 8 March 1995, § 5.

544. In a resolution adopted in 1989 on the situation of human rights in El Salvador, the UN Sub-Commission on Human Rights stated that it was “alarmed by the intensification of activities to terrorize the population that are being carried out by the death squads composed of police and armed forces personnel operating in civilian clothing under the orders of senior officers”.⁵⁶⁸

545. In 2000, in a report on the establishment of a Special Court for Sierra Leone, the UN Secretary-General stated that “violations of . . . article 4 [AP II] committed in an armed conflict not of an international character have long been considered customary international law”.⁵⁶⁹

546. In 1992, in a report on the situation of human rights in the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights noted that the regular bombardment of cities such as Sarajevo or Bihac by Serb forces in Bosnia and Herzegovina was part of a tactic to terrorise the civilian population.⁵⁷⁰

547. In 2000, in a report on systematic rape, sexual slavery and slavery-like practices during armed conflict, the Special Rapporteur of the UN Sub-Commission on Human Rights stated that “the use of sexual violence is seen as an effective way to terrorize and demoralize members of the opposition, thereby forcing them to flee”.⁵⁷¹ In a subsequent report on the same subject, the UN High Commissioner for Human Rights stated that “all kinds of sexual violence, including assault, rape, abuse and torture of women and children, have been used in a more or less systematic manner to terrorize civilians and destroy the social structure, family structure and pride of the enemy”.⁵⁷²

548. In 1995, in a report on the conflict in Guatemala, the Director of MINUGUA appealed to the URNG “to desist from all acts of intimidation against individuals, since such acts contribute to feelings of defencelessness and to impunity”.⁵⁷³

Other International Organisations

549. In a report on the Kosovo conflict, covering the period from October 1998 to June 1999, the OSCE noted that:

⁵⁶⁸ UN Sub-Commission on Human Rights, Res. 1989/9, 31 August 1989, preamble.

⁵⁶⁹ UN Secretary-General, Report on the establishment of a Special Court for Sierra Leone, UN Doc. S/2000/915, 4 October 2000, § 14.

⁵⁷² UN High Commissioner for Human Rights, Report on systematic rape, sexual slavery and slavery-like practices during armed conflicts, UN Doc. E/CN.4/Sub.2/2000/20, 27 June 2000, p. 2, § 9.

⁵⁷³ MINUGUA, Director, First report, UN Doc. A/49/856, 1 March 1995, Annex, § 195.

On the part of the Yugoslav and Serbian forces, their intent to apply mass killing as an instrument of terror, coercion or punishment against Kosovo Albanians was already in evidence in 1998, and was shockingly demonstrated by incidents in January 1999 (including the Racak mass killing) and beyond. Arbitrary killing of civilians was both a tactic in the campaign to expel Kosovo Albanians, and an objective in itself.⁵⁷⁴

International Conferences

550. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

551. In the *Dukić case* before the ICTY in 1996, the accused was charged with “shelling of civilian targets” in violation of the laws or customs of war for his role in the following acts:

From about May 1992 to about December 1995, in Sarajevo, Bosnian Serb military forces, on a widespread and systematic basis, deliberately or indiscriminately fired on civilian targets that were of no military significance in order to kill, injure, terrorise and demoralise the civilian population of Sarajevo.⁵⁷⁵

552. In the *Martić case* before the ICTY in 1995, the accused was charged with “the unlawful rocket attack against the civilian population and individual civilians of Zagreb” in violation of the laws or customs of war.⁵⁷⁶ In its review of the indictment in 1996, the ICTY Trial Chamber held that the attacks with Orkan rockets on the city of Zagreb in May 1995 were not designed to hit military targets but to terrorise the civilian population, stating that “these attacks were therefore contrary to the rules of customary and conventional international humanitarian law”.⁵⁷⁷ The Trial Chamber upheld all counts of the indictment.⁵⁷⁸

553. In the *Karadžić and Mladić case* before the ICTY in 1995, the indictment alleged that forces under the direction and control of the accused “unlawfully fired on civilian gatherings that were of no military significance in order to kill, terrorise and demoralise the Bosnian Muslim and Bosnian Croat civilian population”.⁵⁷⁹ It further alleged that throughout the siege of Sarajevo, “there has been a systematic campaign of deliberate targeting of civilians by snipers of the Bosnian Serb military and their agents. The sniping campaign has terrorised the civilian population of Sarajevo.”⁵⁸⁰ The accused were charged with “deliberate

⁵⁸⁰ ICTY, *Karadžić and Mladić case*, First Indictment, 24 July 1995, § 44.

attack on the civilian population and individual civilians" in violation of the laws or customs of war for their role in these events.⁵⁸¹ In its review of the indictment in 1996, the ICTY Trial Chamber confirmed all counts.⁵⁸²

554. In the *Galić case* before the ICTY in 1998, the accused was charged with "unlawfully inflicting terror upon civilians as set forth in Article 51 of Additional Protocol I and Article 13 of Additional Protocol II to the Geneva Conventions of 1949" in violation of the laws or customs of war for having conducted "a protracted campaign of shelling and sniping upon civilian areas of Sarajevo and upon the civilian population, thereby inflicting terror and mental suffering upon its civilian population".⁵⁸³

V. Practice of the International Red Cross and Red Crescent Movement

555. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "acts or threats of violence with a primary purpose to spread terror among the civilian population are prohibited".⁵⁸⁴

556. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 46(1) of draft API, which stated that "methods intended to spread terror among the civilian population are prohibited". All governments concerned replied favourably.⁵⁸⁵

557. In a communication to the press in 1993, the ICRC reminded the parties to the conflict in Nagorno-Karabakh that "acts of violence intended to spread terror among the civilian population are also prohibited".⁵⁸⁶

558. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that "all acts or threats of violence the main purpose of which is to spread terror among the civilian population are also prohibited".⁵⁸⁷

559. The 26th International Conference of the Red Cross and Red Crescent in 1995 adopted a resolution on protection of the civilian population in period of armed conflict in which it expressed deep alarm at "the serious violations

of international humanitarian law in internal as well as international armed conflicts constituted by acts or threats of violence the primary purpose of which is to spread terror among the civilian population".⁵⁸⁸

560. In a joint statement issued in 1991, the Yugoslav Red Cross and the Hungarian Red Cross expressed their deep concern about "the protracting internal conflict in Yugoslavia" and urged the parties to the conflict "to refrain from endangering and menacing the civilian population".⁵⁸⁹

561. In a communication to the press in 2000 concerning the violence in the Near East, the ICRC stressed that "terrorist acts are absolutely and unconditionally prohibited".⁵⁹⁰

VI. Other Practice

562. Oppenheim states that:

In the War of 1914–1918 the illegality, except by way of reprisals, of aerial bombardment directed exclusively against the civilian population for the purpose of terrorisation or otherwise seems to have been generally admitted by the belligerents, – although this fact did not actually prevent attacks on centres of civilian population in the form either of reprisals or of attack against military objectives situated therein.⁵⁹¹

563. In a resolution adopted at its Edinburgh Session in 1969, the Institute of International Law recalled that "existing international law prohibits, irrespective of the type of weapon used, any action whatsoever designed to terrorize the civilian population".⁵⁹²

564. In 1979, an armed group wrote to the ICRC to confirm its commitment to IHL and to denounce the rounding up of civilians in order to terrorise them "by methods which exclude all humanitarian principle" allegedly carried out by one of the parties to the conflict.⁵⁹³

565. The Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights of Åbo Akademi University in Turku/Åbo, Finland in 1990, states that "acts or threats of violence

the primary purpose or foreseeable effect of which is to spread terror among the population are prohibited".⁵⁹⁴

566. Rule A2 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IHL, provides that "acts of violence intended primarily to spread terror among the civilian population are also prohibited".⁵⁹⁵

567. In 1993, in a report on war crimes in Bosnia and Herzegovina, Helsinki Watch denounced attacks by light and heavy artillery,

which often is used indiscriminately and disproportionately in order to terrorize the local population and force it to flee from the besieged area. Even in cases where there is no armed resistance to Serbian attacks, the area is besieged solely for the purpose of displacing or terrorizing the population.⁵⁹⁶

568. In 1994, in the context of the conflict in Yemen, Human Rights Watch stated that "attacks launched with intent to spread terror among the civilian population are also forbidden. We note that the rules of war apply equally to government and rebel troops."⁵⁹⁷

569. In 1995, in its Global Report on Women's Human Rights, Human Rights Watch stated that its "investigations in the former Yugoslavia, Peru, Kashmir and Somalia reveal that rape and sexual assault of women are an integral part of conflicts, whether international or internal in scope" and found that "rape of women civilians has been deployed as a tactical weapon to terrorize civilian communities".⁵⁹⁸

C. Definition of Combatants

I. Treaties and Other Instruments

Treaties

570. Article 3 of the 1899 HR provides that "the armed forces of the belligerent parties may consist of combatants and non-combatants".

571. Article 3 of the 1907 HR provides that "the armed forces of the belligerent parties may consist of combatants and non-combatants".

572. Article 43(2) AP I provides that "members of the armed forces of a Party to a conflict (other than medical personnel and chaplains covered by Article 33

⁵⁹⁴ Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights, Åbo Akademi University, Turku/Åbo, 30 November–2 December 1990, Article 6, *IRRC*, No. 282, 1991, p. 332.

⁵⁹⁵ IHL, Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, Rule A2, *IRRC*, No. 278, 1990, p. 388.

⁵⁹⁸ Human Rights Watch, *The Human Rights Watch Global Report on Women's Human Rights*, New York, August 1995, p. 1.

of the Third Convention) are combatants, that is to say, they have the right to participate directly in hostilities". Article 43 API was adopted by consensus.⁵⁹⁹

Other Instruments

573. No practice was found.

II. National Practice

Military Manuals

574. Argentina's Law of War Manual states that all members of the armed forces are combatants, except for medical and religious personnel.⁶⁰⁰

575. Australia's Defence Force Manual provides that "combatants comprise all organised armed forces, groups and units (except medical service and religious personnel)".⁶⁰¹

576. Belgium's Law of War Manual defines combatants as all members of organised armed forces, except medical and religious personnel.⁶⁰²

577. According to Benin's Military Manual, "members of the armed forces (except medical and religious personnel) are combatants".⁶⁰³

578. According to Cameroon's Instructors' Manual, "each member of the armed forces, except religious and medical personnel, is a combatant".⁶⁰⁴ The manual further states that outside members of the armed forces, "members of militias, volunteer corps, resistance movements... members of regular armed forces who profess allegiance to a government or an authority not recognized by the Power to which they belong" are also recognised as combatants.⁶⁰⁵

579. Canada's LOAC Manual states that "as a general rule, the term 'combatant' includes any member of the armed forces, except medical and religious personnel".⁶⁰⁶

580. Colombia's Instructors' Manual defines the term combatant as "any member of the Armed Forces, except medical and religious personnel. As members of Armed Forces, the law of war allows combatants to participate directly in an armed conflict on behalf of a belligerent State or of one of the parties to the conflict."⁶⁰⁷

⁶⁰⁷ Colombia, *Instructors' Manual* (1999), p. 16.

581. Croatia's LOAC Compendium considers that all members of the armed forces are combatants, except permanent medical or religious personnel.⁶⁰⁸

582. Croatia's Commanders' Manual states that "members of the armed forces (other than medical and religious personnel) are combatants".⁶⁰⁹

583. The Military Manual of the Dominican Republic states that:

All persons participating in military operations or activities are considered combatants [and proper targets for attack]. Those who do not participate in such actions are non-combatants. In addition to civilians, medical personnel, chaplains... are included in the category of non-combatants.⁶¹⁰

584. According to Ecuador's Naval Manual, members of the armed forces are combatants, except medical personnel and chaplains.⁶¹¹

585. France's LOAC Summary Note and LOAC Teaching Note provide that all members of the armed forces, other than medical and religious personnel, are combatants.⁶¹²

586. France's LOAC Manual defines combatants with reference to Article 4(A) GC III.⁶¹³

587. Germany's Military Manual states that:

The armed forces of a party to a conflict consist of combatants and non-combatants. Combatants are persons who may take a direct part in hostilities, i.e. participate in the use of a weapon or a weapon-system in an indispensable function. The other members of the armed forces are non-combatants.⁶¹⁴

The manual specifies that "persons who are members of the armed forces but... do not have any combat mission, such as judges, government officials and blue-collar workers, are non-combatants... Members of the medical service and religious personnel (chaplains) attached to the armed forces are also non-combatants."⁶¹⁵

588. According to Hungary's Military Manual, combatants are "any member of the armed forces except permanent medical and religious personnel".⁶¹⁶

589. Indonesia's Air Force Manual states that combatants are:

- a. Regular troops, i.e. members of the armed forces, consisting of:
 1. voluntary troops;
 2. compulsory military; and
 3. foreigners, including citizens of neutral States, who belong to a belligerent's armed forces.

⁶¹⁵ Germany, *Military Manual* (1992), §§ 313–314.

⁶¹⁶ Hungary, *Military Manual* (1992), p. 17.

- b. Militias, i.e. volunteer groups or persons who, being a part of the armed forces, should be considered as regular troops with the status of legal combatant.⁶¹⁷

590. According to Israel's Manual on the Laws of War, legal combatants are "soldiers serving in the army (regular and reserve) or in well-ordered militia forces (e.g. the SLA or the State National Guards in the United States)".⁶¹⁸

591. Italy's IHL Manual defines "lawful combatants" as:

- a. members of the Armed Forces;
- b. members of militia, of volunteer corps, of resistance movements, who belong to a Party to the conflict, operating outside or inside their own territory, even if this territory is occupied, provided they fulfil the following conditions:
 1. being under a Head responsible for his own subordinates;
 2. wear a uniform or a fixed distinctive sign recognisable from a distance;
 3. carry arms openly;
 4. abide by the laws and customs of war.⁶¹⁹

592. Italy's LOAC Elementary Rules Manual states that "all members of the Armed Forces (except medical and religious personnel) are combatants".⁶²⁰

593. Kenya's LOAC Manual states that the term combatant means "any member of the armed forces except medical personnel and religious personnel. As a member of the armed forces, he is permitted by the law of war to take a direct part in an armed conflict on behalf of a belligerent State or Party to the conflict."⁶²¹ The manual further specifies that:

Medical and religious personnel have a special status and are classified as non-combatants... Civilians accompanying the armed forces such as war correspondents, supply contractors and members of the labour units or of welfare services are not combatants.⁶²²

594. South Korea's Operational Law Manual states that members of the regular army, reserve forces, militia corps and combatant police are considered combatants, including persons who are not participating in combat but supporting military operations, except medical personnel and chaplains.⁶²³

595. Madagascar's Military Manual defines combatants as "members of the Armed Forces (other than medical and religious personnel)".⁶²⁴

596. The Military Manual of the Netherlands states that "the members of the armed forces have the status of combatant, except medical and religious personnel".⁶²⁵ The manual specifies that personnel of the burial service of the

armed forces are not considered medical personnel (they have regular combatant status) and that humanist counsellors are considered religious personnel.⁶²⁶

597. New Zealand's Military Manual states that "normally only members of a belligerent State's armed forces enjoy the status of combatants".⁶²⁷

598. Russia's Military Manual defines combatants with reference to Article 43(2) AP I.⁶²⁸

599. South Africa's LOAC Manual defines combatants as "any member of the armed forces, except medical personnel and religious personnel".⁶²⁹

600. Spain's LOAC Manual defines "lawful combatants" as:

- Members of the Armed Forces of the parties to the conflict, except medical and religious personnel.
- Members of the armed forces of a party not recognised by the other party.
- Members of other militias and other units subject to military discipline, like the Guardia Civil.
- Resistance movements.⁶³⁰

601. Sweden's IHL Manual defines combatants with reference to Article 43(2) AP I.⁶³¹

602. Togo's Military Manual states that "according to international law, the members of the armed forces of a Party to the conflict, except medical and religious personnel, are combatants".⁶³²

603. The UK LOAC Manual states that:

A combatant is one who is permitted by the law of armed conflict to take a direct part in an armed conflict on behalf of a belligerent State. Combatant status is very closely related to entitlement to PW status. The following are entitled to combatant status:

- a. Members of the organized armed forces.
- b. Members of any other militias, volunteer corps or organised resistance movements.⁶³³

604. The US Air Force Pamphlet defines a combatant as "a direct participant in an armed conflict, traditionally a member of an armed force as specified in Article 4A(1) (2) and (3) [GC III]".⁶³⁴

605. The US Naval Handbook states that the term "combatants"

embraces those persons who have the right under international law to participate directly in armed conflict during hostilities. Combatants, therefore, include all

⁶³³ UK, *LOAC Manual* (1981), Section 3, p. 8, § 1.

⁶³⁴ US, *Air Force Pamphlet* (1976), § 1-2(b).

members of the regularly organized armed forces of a party to the conflict (except medical personnel, chaplains, civil defense personnel and members of the armed forces who have acquired civil defense status), as well as irregular forces who [fulfil the conditions for being considered armed forces].⁶³⁵

606. The Report on US Practice states that the discussion on the status of combatant in the US military manuals is generally consistent with Article 43 AP I.⁶³⁶

National Legislation

607. The Report on the Practice of Rwanda refers to a statement by Rwanda's Minister of Defence on 18 August 1997 in which he stated that government troops may only target enemies who carry arms and/or kill people. Hence, the report concludes that in an internal armed conflict combatants are defined as persons who carry arms and/or commit inhumane acts against the population in relation to the hostilities and that the wearing or not of a uniform has no significance in this respect.⁶³⁷

608. The Report on the Practice of Zimbabwe asserts that the incorporation of Article 43 AP I into national legislation by the 1981 Geneva Conventions Act as amended "is evidence of [Zimbabwe's] view that [it represents] customary international law".⁶³⁸

National Case-law

609. No practice was found.

Other National Practice

610. During the War in the South Atlantic, the legal adviser to the combined staff of Argentina's armed forces reportedly pointed out that due protection had to be granted to combatants "because they were members of the regular forces and, having fallen into enemy hands, were recognized as prisoners of war and were treated accordingly".⁶³⁹

611. The Report on the Practice of Argentina refers to a definition of combatants taken from a dictionary approved by the Ministry of Defence whereby all members of the armed forces who have the right to participate directly in hostilities are combatants. Medical and religious personnel are not to be considered combatants.⁶⁴⁰

612. In 1975, the Supreme Court of India held that civilian employees of the armed forces are "integral to the armed forces as it is their duty to follow or

⁶³⁵ US, *Naval Handbook* (1995), § 5.3. ⁶³⁶ Report on US Practice, 1997, Chapter 1.1.

⁶³⁷ Report on the Practice of Rwanda, 1997, Chapter 1.1, referring to Statement by the Rwandan Minister of Defence, Kigali, 18 August 1997.

⁶³⁸ Report on the Practice of Zimbabwe, 1998, Chapter 1.1.

⁶³⁹ Carlos Horacio Cerdá, *El respeto del derecho humanitario durante el desarrollo del conflicto Armado del Atlántico Sud*, Report on the Practice of Argentina, 1997, Chapter 1.1.

⁶⁴⁰ Report on the Practice of Argentina, 1997, Chapter 1.1.

accompany the armed personnel on active service or in camp or on the march". They are however "non-combatants". The Court further stated that "all persons not being members of the armed forces, but attached to or employed with or following the regular army shall be subject to the military law".⁶⁴¹

613. On the basis of a reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq considers that whoever joins the armed forces of a belligerent State is a combatant. It adds that this covers individuals of voluntary units, including members of organised resistance movements, who follow a belligerent party, whether their activities take place inside or outside their territory. The report recalls the four conditions laid down in Article 4(A)(2) GC III and holds them to be explicit and specific criteria defining a combatant.⁶⁴²

614. The Report on the Practice of Japan states that the Japanese government understands that Japanese Self-Defence Forces (*Jieitai*) are categorised as armed forces as referred to in Article 4 GC III. Therefore, in the event that a member of the Self-Defence Forces becomes a prisoner, he/she should be treated as a POW under international law. The report specifies that only self-defence officials (*Jieikan*) who perform duties in the three Self-Defence Forces (ground, marine and air) and hold ranks possess the status of combatants.⁶⁴³

615. On the basis of an interview with a high-ranking officer, the Report on the Practice of Jordan states that:

Any soldier in the armed forces [of] a State is considered a combatant. The medical personnel and chaplains are exempted from this rule. These two categories do not have combatant status and they are not entitled to take part themselves in hostilities even if they are members [of] the armed forces.⁶⁴⁴

616. The Report on the Practice of Malaysia states that members of the armed forces may be considered as combatants. It adds that religious and medical personnel are not considered combatants even though they remain members of the armed forces.⁶⁴⁵

617. Without expressly mentioning their non-combatant status, the Report on the Practice of Russia states that members of the armed forces and military units assigned to civil defence organisations should be respected and protected if their activities comply with the relevant provisions of IHL.⁶⁴⁶

618. On the basis of replies by Rwandan army officers to a questionnaire, the Report on the Practice of Rwanda states that religious and medical military

⁶⁴¹ India, Supreme Court, *Nair case*, Judgement, 20 November 1975, §§ (b) and (c).

⁶⁴⁴ Report on the Practice of Jordan, 1997, Interview with a high-ranking officer of the Jordanian army, Chapter 1.1.

⁶⁴⁵ Report on the Practice of Malaysia, 1997, Answers to additional questions on Chapter 1.1.

⁶⁴⁶ Report on the Practice of Russia, 1997, Chapter 4.2.

personnel can neither be considered as combatants, nor as civilians. In case of detention among POWs, they must be afforded special treatment.⁶⁴⁷

619. On the basis of a statement by the Syrian Minister of Foreign Affairs before the UN General Assembly in 1997, the Report on the Practice of Syria asserts that Syria considers that the definition of combatants contained in Article 43(2) AP I is part of customary international law.⁶⁴⁸

620. The Report on the Practice of Uruguay interprets the definition of military personnel contained in Article 63 of the 1943 Military Penal Code as amended, i.e. all persons possessing the legal status governed by the Military or Naval Organisational Laws, as implying that military personnel are combatants.⁶⁴⁹

621. The Report on the Practice of Zimbabwe considers that the definition of combatants in Article 43(2) AP I is regarded as customary by Zimbabwe in the context of an international armed conflict.⁶⁵⁰

III. Practice of International Organisations and Conferences

United Nations

622. In 1985, in a report on the situation of human rights in Afghanistan, the Special Rapporteur of the UN Commission on Human Rights recommended that “members of all forces engaged in the conflict, those of Governments as well as of the opposition, should be recognized as combatants within the framework of international humanitarian law”.⁶⁵¹

Other International Organisations

623. No practice was found.

International Conferences

624. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

625. In its judgement on appeal in the *Tadić case* in 1999, the ICTY Appeals Chamber recalled Article 4(A)(1) and (2) GC III and noted that this provision “is primarily directed toward establishing the requirements for the status of lawful combatants”.⁶⁵²

⁶⁴⁷ Report on the Practice of Rwanda, 1997, Replies by Rwandan army officers to a questionnaire, Chapter 2.7.

⁶⁴⁸ Report on the Practice of Syria, 1997, Chapter 1.1, referring to Statement by the Syrian Minister of Foreign Affairs before the UN General Assembly, 1 October 1997.

⁶⁴⁹ Report on the Practice of Uruguay, 1997, Chapter 1.1.

⁶⁵⁰ Report on the Practice of Zimbabwe, 1998, Chapter 1.1.

⁶⁵¹ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in Afghanistan, Report, UN Doc. E/CN.4/1985/21, 19 February 1985, § 192.

⁶⁵² ICTY, *Tadić case*, Judgement on Appeal, 15 July 1999, § 92.

V. Practice of the International Red Cross and Red Crescent Movement

626. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “combatant” means any member of the armed forces, except medical personnel and religious personnel.⁶⁵³

VI. Other Practice

627. No practice was found.

D. Definition of Armed Forces

General

I. Treaties and Other Instruments

Treaties

628. Article 1 of the 1899 HR provides that:

The laws, rights, and duties of war apply not only to armies, but also to militia and volunteer corps fulfilling the following conditions:

- 1) To be commanded by a person responsible for his subordinates;
- 2) To have a fixed distinctive emblem recognizable at a distance;
- 3) To carry arms openly; and
- 4) To conduct their operations in accordance with the laws and customs of war.

In countries where militia or volunteer corps constitute the army, or form part of it, they are included under the denomination “army”.

629. Article 1 of the 1907 HR provides that:

The laws, rights, and duties of war apply not only to armies, but also to militia and volunteer corps fulfilling the following conditions:

- 1) To be commanded by a person responsible for his subordinates;
- 2) To have a fixed distinctive emblem recognizable at a distance;
- 3) To carry arms openly; and
- 4) To conduct their operations in accordance with the laws and customs of war.

In countries where militia or volunteer corps constitute the army, or form part of it, they are included under the denomination “army”.

630. According to Article 4(A) GC III, persons belonging to one of the following categories who have fallen into the power of the enemy are prisoners of war:

⁶⁵³ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 47.

- 1) Members of the armed forces of a Party to the conflict as well as members of militias or volunteer corps forming part of such armed forces.
- 2) Members of other militias and members of other volunteer corps, including those of organized resistance movements, belonging to a Party to the conflict and operating in or outside their own territory, even if this territory is occupied, provided that such militias or volunteer corps, including such organized resistance movements, fulfil the following conditions:
 - a) that of being commanded by a person responsible for his subordinates;
 - b) that of having a fixed distinctive sign recognizable at a distance;
 - c) that of carrying arms openly;
 - d) that of conducting their operations in accordance with the laws and customs of war.
- 3) Members of regular armed forces who profess allegiance to a government or an authority not recognized by the Detaining Power.

631. Article 43(1) AP I provides that:

The armed forces of a Party to a conflict consist of all organized armed forces, groups and units which are under a command responsible to that Party for the conduct of its subordinates, even if that Party is represented by a government or an authority not recognized by an adverse Party. Such armed forces shall be subject to an internal disciplinary system which, *inter alia*, shall enforce compliance with the rules of international law applicable in armed conflict.

Article 43 AP I was adopted by consensus.⁶⁵⁴

632. Upon accession to AP I, Argentina declared that it interpreted Articles 43(1) and 44(1) AP I

as not implying any derogation of: a) the concept of permanent regular armed forces of a Sovereign State; b) the conceptual distinction between regular armed forces, understood as being permanent army units under the authority of Governments of Sovereign States, and the resistance movements which are referred to in Article 4 of the Third Geneva Convention of 1949.⁶⁵⁵

633. Article 1(1) AP II provides that the Protocol

shall apply to all armed conflicts... which take place in the territory of a High Contracting Party between its armed forces and dissident armed forces or other organized armed groups which, under responsible command, exercise such control over a part of its territory as to enable them to carry out sustained and concerted military operations and to implement this Protocol.

Article 1 AP II was adopted by 58 votes in favour, 5 against and 29 abstentions.⁶⁵⁶

634. Upon accession to AP II, Argentina declared, with reference to Article 1 AP II, that "the term 'organized armed groups' is not to be understood as

⁶⁵⁴ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 111.

⁶⁵⁵ Argentina, Interpretative declarations made upon accession to AP I and AP II, 26 November 1986, § 1.

⁶⁵⁶ CDDH, *Official Records*, Vol. VII, CDDH/SR.49, 2 June 1977, pp. 69–70.

equivalent to that used in Article 43, Protocol I, to define the concept of armed forces, even if the aforementioned groups meet all the requirements set forth in the said Article 43".⁶⁵⁷

Other Instruments

635. Article 9 of the 1874 Brussels Declaration states that:

The laws, rights, and duties of war apply not only to armies but also to militia and volunteer corps fulfilling the following conditions:

- 1) that they be commanded by a person responsible for his subordinates;
- 2) that they have a fixed distinctive emblem recognizable at a distance;
- 3) that they carry arms openly; and
- 4) that they conduct their operations in accordance with the laws and customs of war.

In countries where militia constitute the army, or form part of it, they are included under the denomination "army".

636. Article 2 of the 1880 Oxford Manual provides that:

The armed force of a State includes:

1. The army properly so called, including the militia;
2. The national guards, landsturm, free corps, and other bodies which fulfil the three following conditions:
 - (a) That they are under the direction of a responsible chief;
 - (b) That they must have a uniform, or a fixed distinctive emblem recognizable at a distance, and worn by individuals composing such corps;
 - (c) That they carry arms openly.
3. The crews of men-of-war and other military boats.

II. National Practice

Military Manuals

637. Argentina's Law of War Manual defines the armed forces of a party to the conflict as all organised armed forces, groups and units which are under a command responsible to that party for the conduct of its subordinates, even if that party is represented by a government or an authority not recognised by an adverse party. Such armed forces shall be subject to an internal disciplinary system which, *inter alia*, shall enforce compliance with the rules of international law applicable in armed conflict.⁶⁵⁸

638. Australia's Defence Force Manual defines the armed forces of a party to the conflict as "all organised armed forces, groups and units . . . which are under

⁶⁵⁷ Argentina, Interpretative declarations made upon accession to AP I and AP II, 26 November 1986, § 3.

⁶⁵⁸ Argentina, *Law of War Manual* (1989), § 1.07(1).

the command of a party to a conflict and are subject to an internal disciplinary system which enforces compliance with LOAC".⁶⁵⁹

639. Belgium's Law of War Manual defines armed forces as comprising:

all members of organised armed forces, under a responsible command and an internal disciplinary system which ensures compliance with the laws and customs of war. Members of organised resistance movements are also considered to be combatants provided they:

- a) are subject to internal discipline;
- b) wear a fixed distinctive sign recognisable from a distance;
- c) carry arms openly;
- d) comply with the laws and customs of war.⁶⁶⁰

640. Burkina Faso's Disciplinary Regulations states that:

It is prohibited to consider members of the armed forces or volunteer militias, including organised resistance movements, as "regular combatants" unless they are under a responsible command, wear a distinctive sign, carry arms openly and respect the laws and customs of war.⁶⁶¹

641. Cameroon's Disciplinary Regulations states that:

Members of the Armed Forces in organised units, *francs-tireurs* detached from their regular units, commando detachments and isolated *saboteurs*, as well as voluntary militias, self-defence groups and organised resistance formations are lawful combatants on condition that those units, organisations or formations have a designated commander, that their members wear a distinctive sign, notably on their clothing, that they carry arms openly and that they respect the laws and customs of war.⁶⁶²

642. Canada's LOAC Manual states that:

Armed forces of a party to the conflict consist of all organized armed forces, groups and units that are under a command responsible to that party for the conduct of its subordinates . . . Armed forces shall be subject to an internal disciplinary system, one purpose of which is to enforce compliance with the LOAC.⁶⁶³

With respect to militias, volunteer groups and organised resistance movements, the manual states that:

10. In some cases, a party to a conflict may have armed groups fighting on its behalf that are not part of its armed forces. Such groups may be fighting behind enemy lines or in occupied territory. Partisans and resistance fighters who fought in occupied

⁶⁵⁹ Australia, *Defence Force Manual* (1994), § 512; see also *Commanders' Guide* (1994), Glossary, p. xxi.

⁶⁶⁰ Belgium, *Law of War Manual* (1983), p. 20.

⁶⁶¹ Burkina Faso, *Disciplinary Regulations* (1994), Article 35(1).

⁶⁶² Cameroon, *Disciplinary Regulations* (1975), Article 30.

⁶⁶³ Canada, *LOAC Manual* (1999), p. 3-1, §§ 7-8.

territory in the Soviet Union and France during World War II are examples of such groups.

11. Members of militias, volunteer corps and organized resistance movements, belonging to a party to the conflict and operating in or outside their own territory, even if this territory is occupied, are combatants provided they:

- a. are commanded by a person responsible for his subordinates;
- b. wear a fixed distinctive sign recognizable at a distance;
- c. carry arms openly; and
- d. conduct their operations in accordance with the LOAC.

12. Militias, volunteer corps and organized resistance movements must “belong” to a party to the conflict in the sense that they are acknowledged by that party as fighting on its behalf or in its support.⁶⁶⁴

643. Congo’s Disciplinary Regulations states that:

Soldiers in combat must not consider members of the armed forces or volunteer militias, including organised resistance movements, as “combatants” unless they are under a responsible command, wear a distinctive sign, carry arms openly and respect the laws and customs of war.⁶⁶⁵

644. Croatia’s LOAC Compendium defines armed forces as “all organized units and personnel under [a] responsible command . . . [and] subject to [an] internal disciplinary system”.⁶⁶⁶

645. France’s LOAC Teaching Note states that “every member of a paramilitary force or a partisan recognisable by a fixed distinctive sign and carrying arms openly is considered as a combatant”.⁶⁶⁷

646. France’s Disciplinary Regulations as amended states that:

Soldiers in combat must not consider members of the armed forces or volunteer militias, including organised resistance movements, as combatants unless they are under a responsible command, wear a distinctive sign, carry arms openly and respect the laws and customs of war.⁶⁶⁸

647. Germany’s Military Manual states that:

The armed forces of a party to a conflict consist of all its organized armed forces, groups and units. They also include militias and voluntary corps integrated in the armed forces. The armed forces shall be:

- under a command responsible to that party for the conduct of its subordinates, and
- subject to an internal disciplinary system which, inter alia, shall enforce compliance with the rules of international law applicable in armed conflict.⁶⁶⁹

⁶⁶⁴ Canada, *LOAC Manual* (1999), p. 3-2, §§ 10–12.

⁶⁶⁸ France, *Disciplinary Regulations as amended* (1975), Article 9 bis (1); see also *LOAC Manual* (2001), pp. 39 and 70–71.

⁶⁶⁹ Germany, *Military Manual* (1992), § 304.

648. Hungary's Military Manual defines armed forces as "all organized units and personnel under [a] responsible command . . . [and] subject to [an] internal disciplinary system".⁶⁷⁰

649. Indonesia's Air Force Manual states that combatants are:

- a. Regular troops, i.e. members of the armed forces, consisting of:
 1. voluntary troops;
 2. compulsory military; and
 3. foreigners, including citizens of neutral States, who belong to a belligerent's armed forces.
- b. Militias, i.e. volunteer groups or persons who, being a part of the armed forces, should be considered as regular troops with the status of legal combatant.⁶⁷¹

650. According to Israel's Manual on the Laws of War, "soldiers serving in the army (regular and reserve) or in well-ordered militia forces (e.g. the SLA or the State National Guards in the United States)" must fulfil four conditions:

1. The combatants must be led by a commander and be part of an organization with a chain of command.
2. The combatants must bear a fixed recognizable distinctive sign that can be recognized from afar.
3. The combatants must bear arms openly.
4. It is incumbent on combatants to behave in compliance with the rules and customs of war.⁶⁷²

651. Italy's IHL Manual defines armed forces with reference to Article 43(1) AP I.⁶⁷³

652. Kenya's LOAC Manual defines the armed forces of a State or of a party to the conflict as consisting of:

all organised units and personnel which are under a command responsible for the behaviour of its subordinates. The command of the armed forces must be responsible to the belligerent Party to which it belongs. The armed forces shall be subject to an internal disciplinary system which enforces compliance with the law of armed conflict. In the case of non-international armed conflict, in the sense of [AP II], the non-governmental forces or opposition forces have to fulfil two additional conditions in order to be considered "armed forces", namely:

- a. they must exercise control over a part of the State's territory;
- b. they must be able to carry out sustained and concerted military operations.⁶⁷⁴

653. According to Mali's Army Regulations,

Soldiers in combat must not consider members of the armed forces or volunteer militias, including organised resistance movements, as regular combatants unless

⁶⁷⁰ Hungary, *Military Manual* (1992), p. 16, see also p. 17.

⁶⁷¹ Indonesia, *Air Force Manual* (1990), § 21.

⁶⁷² Israel, *Manual on the Laws of War* (1998), pp. 47–48.

⁶⁷³ Italy, *IHL Manual* (1991), Vol. I, § 3.

⁶⁷⁴ Kenya, *LOAC Manual* (1997), Précis No. 2, pp. 7–8.

they are under a responsible command, wear a distinctive sign, carry arms openly and respect the laws and customs of war.⁶⁷⁵

654. The Military Manual of the Netherlands defines armed forces with reference to Article 43(1) AP I and states that all armed forces, whether regular or irregular, have to be “organised, under a responsible command, and subject to an internal disciplinary system”.⁶⁷⁶

655. New Zealand’s Military Manual states that:

The armed forces of a party to the conflict comprise all organized armed forces, groups and units which are under a command responsible to that party, even if the latter is represented by a government or authority not recognized by the adverse Party. This requirement of organization and responsibility extends to national liberation movements and their forces. All such forces must be subject to an internal disciplinary system which is required to enforce adherence to the rules of international law relating to armed conflict.⁶⁷⁷

656. Nigeria’s Military Manual states that:

In general, the armed forces of a state and of a party to a conflict consist of all organised units and personnel which are under a command responsible for the behaviour of its subordinates and each state and belligerent party must determine the categories of persons and objects belonging to its armed forces . . . Furthermore, the armed forces shall be subject to an internal disciplinary system in order to uphold and enforce the law of war.⁶⁷⁸

657. Russia’s Military Manual defines armed forces with reference to Article 43(1) AP I.⁶⁷⁹

658. Senegal’s Disciplinary Regulations states that:

Soldiers in combat must not consider members of the armed forces or volunteer militias, including organised resistance movements, as combatants unless they are under a responsible command, wear a distinctive sign, carry arms openly and respect the rules of international law applicable in armed conflict.⁶⁸⁰

659. Spain’s LOAC Manual states that all armed forces have to be organised, have a commander responsible for the conduct of his or her subordinates and an internal disciplinary system which ensures compliance with IHL.⁶⁸¹

660. Sweden’s IHL Manual defines armed forces with reference to Article 43(1) AP I.⁶⁸²

661. Switzerland’s Basic Military Manual lists four conditions which have to be fulfilled in order for a person to enjoy POW status:

⁶⁷⁵ Mali, *Army Regulations* (1979), Article 36(1).

⁶⁷⁶ Netherlands, *Military Manual* (1993), p. III-1; see also *Military Handbook* (1995), p. 7-39.

⁶⁷⁷ New Zealand, *Military Manual* (1992), § 805(2).

⁶⁷⁸ Nigeria, *Military Manual* (1994), p. 38, § 4. ⁶⁷⁹ Russia, *Military Manual* (1990), §§ 12–13.

⁶⁸⁰ Senegal, *Basic Military Manual de Discipline* (1990), Article 34(1).

⁶⁸¹ Spain, *LOAC Manual* (1996), Vol. I, § 1.3.a.(1).

⁶⁸² Sweden, *IHL Manual* (1991), Section 3.2.1.3, pp. 34–35.

1. Combatants must be headed by a responsible person forming part of an organisation.
2. This organisation must have an internal disciplinary system to which the combatants are subjected and which guarantees respect for international law applicable in armed conflict.
3. During an attack or a military deployment visible to the adversary, combatants must carry their arms openly.
4. In their operations, they must abide by the laws and customs of war.⁶⁸³

662. The UK LOAC Manual defines armed forces as:

- a. Members of the organised armed forces, even if they belong to a government or authority not recognised by the adversary, if those forces:
 1. are under a commander who is responsible for the conduct of his subordinates to one of the Parties in conflict; and
 2. are subject to an internal disciplinary system which enforces compliance with the law of armed conflict.

It is customary for members of organised armed forces to wear uniform. The definition is wide enough to cover auxiliary and reserve forces.
- b. Members of any other militias, volunteer corps or organised resistance movements if:
 - (1) they are subject to a system of internal discipline; and
 - (2) they have a fixed distinctive sign; and
 - (3) they carry their arms openly; and
 - (4) they comply with the law of armed conflict.⁶⁸⁴

663. The UK Military Manual defines armed forces with reference to Article 4(A) GC III.⁶⁸⁵

664. The US Field Manual and Air Force Pamphlet define armed forces with reference to Article 4(A) GC III.⁶⁸⁶

665. The US Naval Handbook states that combatants

include all members of the regularly organized armed forces of a party to the conflict . . . as well as irregular forces who are under responsible command and subject to internal military discipline, carry their arms openly, and otherwise distinguish themselves clearly from the civilian population.⁶⁸⁷

666. The YPA Military Manual of the SFRY (FRY) states that "under the international law of war, the armed forces are bodies authorised to conduct military operations and against whom force is used in armed conflict". The manual then lists the components of the armed forces, including the categories mentioned in Article 4(A)(1) and (2) GC III.⁶⁸⁸

⁶⁸³ Switzerland, *Basic Military Manual* (1987), Article 64.

⁶⁸⁴ UK, *LOAC Manual* (1981), Section 3, p. 8, § 1. ⁶⁸⁵ UK, *Military Manual* (1958), § 89.

⁶⁸⁶ US, *Field Manual* (1956), § 61; *Air Force Pamphlet* (1976), § 3-2.

⁶⁸⁷ US, *Naval Handbook* (1995), § 5.3.

⁶⁸⁸ SFRY (FRY), *YPA Military Manual* (1988), § 48(1) and (2).

National Legislation

667. India's Army Act defines the term "the Forces" as meaning "the regular Army, Navy and Air Force or any part of any one or more them".⁶⁸⁹

668. The Report on the Practice of Zimbabwe asserts that the incorporation of Article 43 AP I into national legislation by the 1981 Geneva Conventions Act as amended "is evidence of [Zimbabwe's] view that [it represents] customary international law".⁶⁹⁰

National Case-law

669. No practice was found.

Other National Practice

670. A report submitted to the Belgian Senate in 1991 noted that two elements were essential in the definition of armed forces: first, they must be integrated into a military organisation (that is, a hierarchical structure) subject to an internal disciplinary system; second, this organisation must operate under a command structure responsible to a party for the conduct of its subordinates. If these two conditions were fulfilled, the concept of armed forces could be extended to groups of combatants who were left behind in an occupied territory to perform acts of sabotage, to gather intelligence or to take part in guerrilla warfare. The report recalled that this was the position of the Belgian government in exile during the Second World War. From its base in London, the government adopted legislation authorising the executive power to nominate agents in charge of action or intelligence missions in a foreign country, occupied area or zone evacuated by the enemy. These agents had the status of combatants and were allowed to carry arms. The government in exile, however, was very reticent about resistance cells or individuals over whom it had no direct control.⁶⁹¹ Resistance networks operating behind enemy lines would not be protected, according to the report, if composed of civilians that were neither part of a hierarchical structure nor subject to an internal disciplinary system.⁶⁹² On the basis of the report, the Report on the Practice of Belgium concludes that the definition given in Article 43 AP I is recognised by Belgium and that the central criterion is State control over the combatants.⁶⁹³

671. The instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, state that "armed forces that

⁶⁸⁹ India, *Army Act* (1950), Section 3(xi).

⁶⁹⁰ Report on the Practice of Zimbabwe, 1998, Chapter 1.1.

⁶⁹¹ Belgium, Senate, Report, *Enquête parlementaire sur l'existence en Belgique d'un réseau de renseignements clandestin international*, 1990–1991 Session, Doc. 1117-4, 1 October 1991, §§ 19 and 20.

⁶⁹² Belgium, Senate, Report, *Enquête parlementaire sur l'existence en Belgique d'un réseau de renseignements clandestin international*, 1990–1991 Session, Doc. 1117-4, 1 October 1991, § 25.

⁶⁹³ Report on the Practice of Belgium, 1997, Chapter 1.1.

are subject to the law of war consist of all organised units and their personnel, under a command which is responsible for the conduct of its subordinates".⁶⁹⁴

672. In an explanatory memorandum submitted to the German parliament in 1990 in the context of the ratification procedure of the Additional Protocols, the German government stated that AP I contained the first treaty definition of the term "armed forces" and acknowledged that armed forces must be organised, under responsible leadership and have an internal disciplinary system.⁶⁹⁵

673. According to the Report on the Practice of Iran, military communiqués issued during the Iran–Iraq War referred to armed forces as "Combatants of Islam" or "Devoters of Armed Forces". In three of these communiqués, the armed forces are defined as personnel of the army and air force, *Gendarmerie*, Revolutionary Guards (*Sepah-e-Pasdaran*), armed tribesmen, Basseej and Jihad forces, volunteers and also the Kurdish commandos (*Kurd Pihmerg*). Some other military communiqués also thanked tribesmen and ordinary people who had taken up arms against the "Iraqi aggressors". The report specifies that, since all the military staff and armed forces were under a single command responsible to Iran, the practice and *opinio juris* of Iran are consistent with Article 43 AP I.⁶⁹⁶

674. The Report on the Practice of Japan states that the Japanese government understands that Japanese Self-Defence Forces (*Jieitai*) are categorised as armed forces as referred to in Article 4 GC III.⁶⁹⁷

675. The Report on the Practice of South Korea affirms the customary nature of Article 43 AP I.⁶⁹⁸

676. In an explanatory memorandum submitted to the Dutch parliament in the context of the ratification procedure of the Additional Protocols, the government of the Netherlands stated that armed forces consisted of regular as well as irregular troops, provided they fulfilled the conditions set forth in Article 43 AP I.⁶⁹⁹

677. On the basis of a statement by the Syrian Minister of Foreign Affairs before the UN General Assembly in 1997, the Report on the Practice of Syria asserts that Syria considers that the definition of armed forces contained in Article 43(1) AP I is part of customary international law.⁷⁰⁰

⁶⁹⁴ France, Etat-major de la Force d'Action Rapide, Ordres pour l'Opération Mistral, 1995, Section 5.

⁶⁹⁷ Report on the Practice of Japan, 1998, Chapter 1.1, referring to Statement by a member of the Japanese government in the House of Representatives Cabinet Committee, 30 October 1986.

⁶⁹⁸ Report on the Practice of South Korea, 1997, Chapter 1.1.

⁶⁹⁹ Netherlands, Lower House of Parliament, Explanatory memorandum on the ratification of the Additional Protocols, 1983–1984 Session, Doc. 18 277 [R 1247], No. 3, pp. 18–20.

⁷⁰⁰ Report on the Practice of Syria, 1997, Chapter 1.1, referring to Statement by the Syrian Minister of Foreign Affairs before the UN General Assembly, 1 October 1997.

678. The Report on the Practice of Zimbabwe considers that the definitions given in Article 43 AP I apply only in the context of an international armed conflict. It states that, for non-international armed conflicts, an attempt at a definition is found in Article 1 AP II, which refers to dissident armed forces or other organised armed groups which are under a responsible command. It adds, however, that:

This definition is subjective and difficult to implement, given that States are generally unwilling to recognize rebel groups and their structures . . . preferring to deal with them as mere “criminals or bandits”. In Zimbabwe this issue is yet to be addressed in terms of policy and military instruction. It is by no means settled and cannot be regarded as being part of customary law.⁷⁰¹

III. Practice of International Organisations and Conferences

679. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

680. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

681. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

The “armed forces” of a State and of a Party to the conflict consist of all organized units and personnel which are under a command responsible for the behaviour of its subordinates . . . The command of the armed forces must be responsible to the belligerent Party to which it belongs. The armed forces shall be subject to an internal disciplinary system which enforces compliance with the law of war.⁷⁰²

682. In a note on respect for IHL in an internal armed conflict between January 1995 and February 1996, the ICRC stated that:

Whereas the ICRC recognizes that the use of auxiliary groups operating alongside the security forces is in no way contrary to international humanitarian law, it reminds the military authorities that they bear the entire responsibility for acts committed by the said groups.⁷⁰³

⁷⁰¹ Report on the Practice of Zimbabwe, 1998, Chapter 1.1.

⁷⁰² Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 36, 40 and 41.

⁷⁰³ ICRC archive document.

VI. Other Practice

683. No practice was found.

Incorporation of paramilitary or armed law enforcement agencies into armed forces

I. Treaties and Other Instruments

Treaties

684. According to Article 43(3) AP I, “whenever a Party to a conflict incorporates a paramilitary or armed law enforcement agency into its armed forces, it shall so notify the other Parties to the conflict”. Article 43 AP I was adopted by consensus.⁷⁰⁴

685. Upon ratification of AP I, Belgium notified the High Contracting Parties of the duties assigned to the Belgian *Gendarmerie* (constabulary) in time of armed conflict. Belgium considered that this notification fully satisfied any and all requirements of Article 43 pertaining to the *Gendarmerie*. It informed the High Contracting Parties that the *Gendarmerie* was formed to maintain law and order and was, according to national legislation, a police force which was part of the armed forces within the meaning of Article 43 AP I. Consequently, members of the *Gendarmerie* had the status of combatant in time of international armed conflict.⁷⁰⁵ An Act of Parliament of 18 July 1991 has, however, put an end to this situation as it has disconnected the *Gendarmerie* from the armed forces.⁷⁰⁶

686. Upon ratification of AP I, France informed the States party to AP I that its armed forces permanently include the *Gendarmerie*.⁷⁰⁷

Other Instruments

687. No practice was found.

II. National Practice

Military Manuals

688. Argentina’s Law of War Manual provides that “whenever a Party to a conflict incorporates a paramilitary or armed law enforcement agency into its armed forces, it shall so notify the other Parties to the conflict”.⁷⁰⁸

689. Canada’s LOAC Manual states that “if a party to a conflict incorporates paramilitary or armed law enforcement agencies into its armed forces, it must

⁷⁰⁸ Argentina, *Law of War Manual* (1989), § 1.07(3).

inform other parties to the conflict of this fact. These forces are then considered lawful combatants."⁷⁰⁹

690. Germany's Military Manual states that:

Whenever a party to a conflict incorporates a paramilitary or armed law enforcement agency into its armed forces it shall notify the other parties to the conflict. In the Federal Republic of Germany the Federal Border Commands including their Border Guard formations and units as well as the Federal Border Guard School shall become part of the armed forces upon the outbreak of an armed conflict.⁷¹⁰

691. The Military Manual of the Netherlands states that "a State may incorporate a paramilitary organisation or armed agency charged with police functions into its armed forces. The other parties to a conflict have to be notified thereof."⁷¹¹

692. New Zealand's Military Manual states that "if a Party to a conflict incorporates paramilitary or armed law enforcement agencies into its armed forces it must inform other parties to the conflict of this fact, so that such forces may be acknowledged as lawful combatants".⁷¹² The manual provides two examples of paramilitary agencies incorporated into the armed forces of a State, namely "the Special Auxiliary Force attached to Bishop Muzorewa's United African National Congress in Zimbabwe and which was embodied into the national army after the Bishop became Prime Minister [and] India's Border Security Force in Assam".⁷¹³ The manual also provides an example of an armed law enforcement agency incorporated into the armed forces of a State, namely:

At the time of the outbreak of World War II, the Burma Frontier Force was serving as a police force under authority of the Burma Frontier Force Act; after the fall of Burma, the Burmese Government in exile in Simla, India, passed legislation making the Force part of the Burmese Army and subject to the Burma Army Act.⁷¹⁴

693. Spain's LOAC Manual states that members of the Guardia Civil are lawful combatants.⁷¹⁵

National Legislation

694. The Report on the Practice of Germany notes that from 1965 to 1994, German border guards were granted the status of combatants. In 1994, the German parliament adopted a law that changed the status of the border guards. The reason for this change was that, as combatants, these guards could become legitimate enemy targets and they could involve local police forces as targets

⁷⁰⁹ Canada, *LOAC Manual* (1999), p. 3-2, § 14. ⁷¹⁰ Germany, *Military Manual* (1992), § 307.

⁷¹⁵ Spain, *LOAC Manual* (1996), Vol. I, § 1.3.a.(1).

when operating in joint action. In addition, even civilian objects protected by the police might become targets.⁷¹⁶

695. The Decree on the Constitution of the Integrated National Police of the Philippines provides that the Philippine Constabulary, responsible as the nucleus of the Integrated National Police for police, jail and fire services, “shall remain and continue to be a major service of the Armed Forces”. Within this framework, the Integrated National Police “shall function directly under the Department of National Defense”.⁷¹⁷

696. Pursuant to Spain’s Military Criminal Code, the Guardia Civil is an armed military body that exclusively falls under the responsibility of the Ministry of Defence, in times of siege warfare or when called upon to carry out missions of a military nature.⁷¹⁸

697. The Report on the Practice of Zimbabwe asserts that the incorporation of Article 43 AP I into national legislation by the 1981 Geneva Conventions Act as amended “is evidence of [Zimbabwe’s] view that [it represents] customary international law”.⁷¹⁹

National Case-law

698. The Report on the Practice of India refers to a decision of the Supreme Court which did not consider, for administrative purposes, civilian clerks of a special police unit (the Indo-Tibetan Border Force, which is itself part of the armed forces of India) as members of the armed forces. According to the report, however, members of this force might be treated as combatants for the purpose of the application of IHL.⁷²⁰

Other National Practice

699. The Report on the Practice of South Korea affirms the customary nature of Article 43 AP I.⁷²¹

700. On the basis of a statement by the Syrian Minister of Foreign Affairs before the UN General Assembly in 1997, the Report on the Practice of Syria asserts that Syria considers that the rule contained in Article 43(3) AP I is part of customary international law.⁷²²

E. Definition of Civilians*I. Treaties and Other Instruments**Treaties*

705. Article 50 AP I states that:

1. A civilian is any person who does not belong to one of the categories of persons referred to in Article 4 A (1), (2), (3) and (6) of the Third Convention and in Article 43 of this Protocol.
2. The civilian population comprises all persons who are civilians.

Article 50 AP I was adopted by consensus.⁷²³

706. Article 25(1) and (2) of draft AP II submitted by the ICRC to the CDDH provided that “any person who is not a member of armed forces is considered to be a civilian” and “the civilian population comprises all persons who are civilians”.⁷²⁴ Paragraph 1 of Article 25 was amended and both paragraphs were adopted by consensus in Committee III of the CDDH.⁷²⁵ The approved proposals provided that “a civilian is anyone who is not a member of the armed forces or of an organized armed group” and “the civilian population comprises all persons who are civilians”.⁷²⁶ Eventually, however, these draft provisions were deleted in the plenary by consensus.⁷²⁷

⁷²³ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 161.

⁷²⁴ CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 40.

⁷²⁷ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 135.

707. Upon ratification of the CCW, the UK made a declaration stating, *inter alia*, that the terms “civilian” and “civilian population” used in this Convention had the same meaning as in Article 50 AP I.⁷²⁸

Other Instruments

708. Article 1 of the 1938 ILA Draft Convention for the Protection of Civilian Populations against New Engines of War provides that “the phrase ‘civilian population’ within the meaning of this Convention shall include all those not enlisted in any branch of the combatant services nor for the time being employed or occupied in any belligerent establishment as defined in Article 2”. The term “belligerent establishment” is defined in Article 2 as “military, naval or air establishment, or barracks, arsenal, munition stores or factories, aerodromes or aeroplane workshops or ships of war, naval dockyards, forts, or fortifications for defensive or offensive purposes, or entrenchments”.

709. Article 4 of the 1956 New Delhi Draft Rules states that:

For the purpose of the present rules, the civilian population consists of all persons not belonging to one or other of the following categories:

- (a) Members of the armed forces, or of their auxiliary or complementary organizations.
- (b) Persons who do not belong to the forces referred to above, but nevertheless take part in the fighting.

710. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 50 AP I.

711. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 50 AP I.

II. National Practice

Military Manuals

712. Argentina’s Law of War Manual defines a civilian as “any person who does not belong to the Armed Forces”.⁷²⁹

713. Australia’s Defence Force Manual states that a civilian is defined “in a negative fashion, namely, any person not belonging to the armed forces. The definition covers civilians collectively as well, when they are referred to as the ‘civilian population’”.⁷³⁰

⁷²⁸ UK, Declaration made upon ratification of the CCW, 13 February 1995, § a(iii).

⁷²⁹ Argentina, *Law of War Manual* (1989), § 4.02(1).

⁷³⁰ Australia, *Defence Force Manual* (1994), § 914.

714. Benin's Military Manual defines civilians as "persons who do not belong to the Armed Forces [nor] take part in a *levée en masse* (civilian populations, men, women, children, journalists, journalists on a dangerous mission)".⁷³¹

715. Cameroon's Instructors' Manual defines civilians as "persons who are neither part of the armed forces nor participating in a *levée en masse*".⁷³²

716. Canada's LOAC Manual provides that "in general, a 'civilian' is any person who is not a combatant . . . The civilian population comprises all persons who are civilians."⁷³³

717. Colombia's Instructors' Manual defines the term civilian as "any person who does not belong to the Armed Forces and who does not participate in a *levée en masse*".⁷³⁴ The manual adds that "civilians must be understood as those who do not participate directly in military hostilities (internal conflict, international conflict)".⁷³⁵

718. Croatia's LOAC Compendium states that "civilians or persons not belonging to the armed forces" are non-combatants.⁷³⁶

719. Croatia's Commanders' Manual defines civilians as those persons "who do not belong to the armed forces".⁷³⁷

720. The Military Manual of the Dominican Republic states that "all persons participating in military operations or activities are considered combatants. Those who do not participate in such actions are non-combatants . . . Civilians . . . are included in the category of non-combatants."⁷³⁸

721. Ecuador's Naval Manual provides that the notion of non-combatant applies "primarily to all individuals who are not part of the armed forces and who . . . abstain from committing hostile acts and from giving direct support to such acts. In this context, non-combatants and the civilian population, are, generally, synonymous."⁷³⁹ The manual further specifies that "the civilian population consists of all persons not serving in the armed forces, militia, or paramilitary forces and not otherwise taking a direct part in the hostilities".⁷⁴⁰

722. France's LOAC Summary Note defines civilians as "those persons who do not belong to the armed forces".⁷⁴¹

723. France's LOAC Teaching Note defines civilians as "those persons who do not belong to the armed forces or who do not participate in hostilities".⁷⁴²

724. Hungary's Military Manual states that "civilians or persons not belonging to the armed forces" are non-combatants.⁷⁴³

⁷⁴² France, *LOAC Teaching Note* (2000), p. 4. ⁷⁴³ Hungary, *Military Manual* (1992), p. 17.

725. Indonesia's Air Force Manual states that "unlawful combatants are persons who participate in hostilities without authorization of the belligerent authority, including persons who are neither members of the armed forces nor of a militia".⁷⁴⁴ The Report on the Practice of Indonesia considers that this definition is compatible with the definition provided in Article 50(1) AP I.⁷⁴⁵

726. With reference to Israel's Law of War Booklet, the Report on the Practice of Israel states that:

The IDF (Israel Defence Forces) accepts and applies the principle of distinction, in accordance with the accepted definition of "civilian" under customary international law, which is understood to mean any individual who is not a member of an organized army of a State, and who is not involved in hostilities.⁷⁴⁶

727. Italy's LOAC Elementary Rules Manual defines civilians as those persons "who do not belong to the armed forces".⁷⁴⁷

728. Kenya's LOAC Manual defines a civilian as "any person who does not belong to the armed forces and does not take any part in a *levée en masse*".⁷⁴⁸

729. Madagascar's Military Manual states that the term "civilian person" means "any person who does not belong to the armed forces and who does not take part in a *levée en masse*".⁷⁴⁹

730. The Military Manual of the Netherlands defines a civilian as "every person who is not a combatant" and specifies that "the civilian population comprises all civilians".⁷⁵⁰

731. South Africa's LOAC Manual defines civilians as "any person who does not belong to the armed forces and does not take part in a *levée en masse*".⁷⁵¹

732. Spain's LOAC Manual states that "the civilian population is defined by exclusion. This means that civilians are those persons who are not combatants."⁷⁵²

733. Sweden's IHL Manual states that "in international humanitarian law, civilians (non-combatants) are those who are not entitled to use weapons in defence or to injure an adversary. Persons who cannot be classified as combatants are thus to be considered as civilians."⁷⁵³

734. Togo's Military Manual defines civilians as "persons who are not members of the armed forces, volunteer corps or resistance movements, and who do not

take part in a *levée en masse*; that is to say the civilian population: men, women and children, journalists on a dangerous mission".⁷⁵⁴

735. The UK LOAC Manual states that "civilians are all persons other than those defined in paragraphs 1 to 8 above [combatants, guerrillas and commandos, spies, mercenaries, military non-combatants]".⁷⁵⁵

736. The US Air Force Pamphlet states that "civilians are all persons other than those mentioned as combatants in [Article 4(A) GC III]".⁷⁵⁶

737. The US Naval Handbook refers first to the notion of non-combatants as primarily applying to "those individuals who do not form part of the armed forces and who otherwise refrain from the commission or direct support of hostile acts. In this context, noncombatants and, generally, the civilian population, are synonymous."⁷⁵⁷ The manual further specifies that "the civilian population consists of all persons not serving in the armed forces, militia, or paramilitary forces and not otherwise taking a direct part in the hostilities".⁷⁵⁸

738. The YPA Military Manual of the SFRY (FRY) defines a civilian as "any person who does not belong to one of the categories of persons specified in [the provisions concerning armed forces, commandos, saboteurs and parachuters]".⁷⁵⁹ The manual defines a civilian population as "the entire population of a party to the conflict which does not belong to any of the categories of armed forces".⁷⁶⁰

National Legislation

739. Spain's Penal Code contains a chapter on crimes against protected persons who are defined as "the civilian population and individual civilians protected by the Fourth Geneva Convention of 12 August 1949 or Additional Protocol I of 8 June 1977".⁷⁶¹

National Case-law

740. No practice was found.

Other National Practice

741. The Report on the Practice of Iran found no specific legal definition of civilian, but states that anyone who is not included in the category of combatant should be considered a civilian.⁷⁶²

742. The Report on the Practice of Iraq notes that the definition of civilian includes everyone who does not join the armed forces nor carry arms against one of the belligerents.⁷⁶³

⁷⁵⁴ Togo, *Military Manual* (1996), Fascicule I, p. 13.

⁷⁵⁵ UK, *LOAC Manual* (1981), Section 9, p. 10, § 9.

⁷⁶² Report on the Practice of Iran, 1997, Chapter 1.1.

⁷⁶³ Report on the Practice of Iraq, 1998, Chapter 1.1.

743. On the basis of an interview with a high-ranking army officer, the Report on the Practice of Jordan states that “civilians are all those who do not belong to the armed forces”.⁷⁶⁴

744. The Report on the Practice of Malaysia states that there is no definition of the concept of civilian under any of Malaysia’s written laws. However, on the basis of the practice during the insurgency period as gleaned from interviews with members of the armed forces, the report claims that persons who neither carry arms nor wear a uniform can be considered civilians.⁷⁶⁵

745. The Report on the Practice of Russia notes that although there is no standard definition of civilians, a definition can be inferred *a contrario* from the definition of combatant, i.e. civilians are those who do not fall within the definition of combatant.⁷⁶⁶

746. The Report on the Practice of Rwanda refers to a declaration by Rwanda’s Minister of Defence on 18 August 1997 in which he stated that government troops may only target enemies who carry arms and/or kill people. The report thus concludes, *a contrario*, that in an internal armed conflict civilians are defined as those persons who do not carry arms nor commit inhumane acts against the population in relation to the hostilities.⁷⁶⁷

747. On the basis of a statement by the Syrian Minister of Foreign Affairs before the UN General Assembly in 1997, the Report on the Practice of Syria asserts that Syria considers that the definition provided in Article 50 AP I is part of customary international law.⁷⁶⁸

748. The Report on the Practice of Zimbabwe considers that the definition of civilians in Article 50 AP I is regarded as customary by Zimbabwe in the context of an international armed conflict.⁷⁶⁹

III. Practice of International Organisations and Conferences

749. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

750. In the pre-trial brief in the *Tadić case* in 1996, the ICTY Prosecutor argued that the term civilian in Article 5 of the ICTY Statute (crimes against humanity) covered all non-combatants within the meaning of common Article 3 of

⁷⁶⁶ Report on the Practice of Russia, 1997, Chapter 1.1.

⁷⁶⁷ Report on the Practice of Rwanda, 1997, Chapter 1.1, referring to Statement by the Rwandan Minister of Defence, Kigali, 18 August 1997.

⁷⁶⁸ Report on the Practice of Syria, 1997, Chapter 1.1, referring Statement by the Syrian Minister of Foreign Affairs before the UN General Assembly, 1 October 1997.

⁷⁶⁹ Report on the Practice of Zimbabwe, 1998, Chapter 1.1.

the 1949 Geneva Conventions. Reaffirming the customary nature of common Article 3, the Prosecutor specified that “it provides an authoritative definition of noncombatants or ‘protected persons’ in the broad sense of international humanitarian law”.⁷⁷⁰ In its response, the Defence agreed that the term “civilian” under Article 5 did cover all non-combatants, but argued that the concept of non-combatant was not always easy to delineate, especially when groups were not under the direct control of a central government (as was allegedly the case in Bosnia and Herzegovina).⁷⁷¹ In its judgement in 1997, the ICTY Trial Chamber stated that “determining which individuals of the targeted population qualify as civilians for purposes of crimes against humanity” was not as clear as other concepts. The Trial Chamber ruled that:

Common Article 3, the language of which reflects “elementary considerations of humanity” which are “applicable under customary international law to any armed conflict”, provides that in an armed conflict “not of an international character” Contracting States are obliged “as a minimum” to comply with the following: “persons taking no active part in the hostilities, including members of armed forces who have laid down their arms and those placed *hors de combat* by sickness, wounds, detention, or any other cause, shall in all circumstances be treated humanely.” AP I defines civilians by the exclusion of prisoners of war and armed forces, considering a person a civilian in case of doubt. However, this definition of civilians contained in common Article 3 is not immediately applicable to crimes against humanity because it is a part of the laws or customs of war and can only be applied by analogy. The same applies to the definition contained in AP I and the Commentary, GC IV on the treatment of civilians, both of which advocate a broad interpretation of the term “civilian”. They, and in particular common Article 3, do, however, provide guidance in answering the most difficult question: specifically, whether acts taken against an individual who cannot be considered a traditional “non-combatant” because he is actively involved in the conduct of hostilities by membership in some form of resistance group can nevertheless constitute crimes against humanity if they are committed in furtherance or as part of an attack directed against a civilian population.⁷⁷²

751. In its judgement in the *Blaškić case* in 2000, the ICTY Trial Chamber stated that “civilians . . . are persons who are not, or no longer, members of the armed forces”.⁷⁷³

V. Practice of the International Red Cross and Red Crescent Movement

752. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that a civilian is “any person who does not belong to the armed forces and does not take part in a *levée en masse*”.⁷⁷⁴

⁷⁷⁰ ICTY, *Tadić case*, Prosecutor’s Pre-Trial Brief, 10 April 1996, p. 45.

VI. Other Practice

753. No practice was found.

F. Loss of Protection from Attack

Direct participation in hostilities

I. Treaties and Other Instruments

Treaties

754. Common Article 3 of the 1949 Geneva Conventions protects “persons taking no active part in the hostilities”, including members of armed forces who have laid down their arms and those placed *hors de combat* by sickness, wounds, detention, or any other cause” against “violence to life and person, in particular murder of all kinds”.

755. Articles 51(3) AP I provides that civilians shall enjoy protection against the dangers arising from military operations “unless and for such time as they take a direct part in hostilities”. Article 51 AP I was adopted by 77 votes in favour, one against and 16 abstentions.⁷⁷⁵

756. Article 13(3) AP II provides that civilians shall enjoy protection against the dangers arising from military operations “unless and for such time as they take a direct part in hostilities”. Article 13 AP II was adopted by consensus.⁷⁷⁶

757. Upon ratification of the CCW, the UK issued a declaration stating that “civilians shall enjoy the protection afforded by this Convention unless and for such time as they take a direct part in hostilities”.⁷⁷⁷

Other Instruments

758. Article 4 of the 1956 New Delhi Draft Rules states that:

The civilian population consists of all persons not belonging to one or other of the following categories:

- (a) Members of the armed forces, or of their auxiliary or complementary organizations.
- (b) Persons who do not belong to the forces referred to above, but nevertheless take part in the fighting.

759. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 51(3) AP I.

⁷⁷⁵ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 16.

⁷⁷⁶ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 134.

⁷⁷⁷ UK, Declaration upon ratification of the CCW, 13 February 1995, § a(iii).

760. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 51(3) AP I.

761. Section 5.2 of the 1999 UN Secretary-General's Bulletin provides that civilians shall enjoy protection against the dangers arising from military operations, "unless and for such time as they take a direct part in hostilities".

II. National Practice

Military Manuals

762. Australia's Defence Force Manual states that "civilians are only protected as long as they refrain from taking a direct part in hostilities".⁷⁷⁸

763. Benin's Military Manual states that "civilian persons may only be attacked when they participate directly in hostilities".⁷⁷⁹

764. Canada's LOAC Manual states that "civilians who take a direct part in hostilities (other than a *levée en masse*) are unlawful combatants. They lose their protection as civilians and become legitimate targets for such time as they take a direct part in hostilities."⁷⁸⁰ The manual further states that "participation in hostilities by non-combatants" is a violation of customary law and recognised as a war crime by the LOAC.⁷⁸¹

765. Colombia's Instructors' Manual states that civilians lose their protection against attack "when they participate directly in the hostilities".⁷⁸² The manual adds that "civilians must be understood as those who do not participate directly in military hostilities (internal conflict, international conflict)".⁷⁸³

766. Croatia's Commanders' Manual states that "civilians may not be attacked, unless they participate directly in hostilities".⁷⁸⁴

767. The Military Manual of the Dominican Republic considers that "all persons who participate in military operations or activities are considered combatants" and thus liable to attack.⁷⁸⁵

768. Ecuador's Naval Manual states that "civilians who participate directly in hostilities . . . lose their immunity and may be attacked".⁷⁸⁶

769. France's LOAC Summary Note states that "civilians may not be attacked, unless they participate directly in hostilities".⁷⁸⁷

⁷⁷⁸ Australia, *Defence Force Manual* (1994), § 532, see also §§ 527 and 918.

770. Germany's Military Manual states that "civilians who do not take part in hostilities shall be respected and protected".⁷⁸⁸ The manual adds that "persons taking a direct part in hostilities are not entitled to claim the rights accorded to civilians by international humanitarian law".⁷⁸⁹

771. India's Army Training Note states that:

War is an act of extreme violence between two nations and not between people individually. The implications, therefore, are that, so long as an individual, may it be a soldier or a civilian, is directly contributing towards furtherance of the war effort, he is deemed to be at war. However, when he is not so employed, he is to be treated as a normal human being and must be afforded all protection and care due to.⁷⁹⁰

772. Indonesia's Air Force Manual states that a person who is not a member of the armed forces nor a member of a militia but participates in the hostilities is an unlawful combatant and is considered a military objective.⁷⁹¹

773. Italy's LOAC Elementary Rules Manual provides that "civilians may not participate directly in hostilities and may not be attacked, unless they take a direct part in hostilities".⁷⁹²

774. Kenya's LOAC Manual states that civilians lose their protection from attack "when they take a direct part in hostilities".⁷⁹³

775. Madagascar's Military Manual states that "civilian persons may not be attacked, unless they participate directly in hostilities".⁷⁹⁴

776. The Military Manual of the Netherlands states that "civilians enjoy no protection [against attack] if they participate directly in hostilities".⁷⁹⁵ With respect to non-international armed conflicts in particular, the manual states that "the protection of civilians ends when and for as long as they participate directly in hostilities".⁷⁹⁶

777. The Military Handbook of the Netherlands states that "it is prohibited to attack civilians who are not involved in combat".⁷⁹⁷

778. New Zealand's Military Manual provides that "civilians shall enjoy... protection [against attack] unless and for such time as they take a direct part in hostilities".⁷⁹⁸ The manual further states that "participation in hostilities by non-combatants" is a war crime recognised by the customary law of armed conflict.⁷⁹⁹

⁷⁸⁸ Germany, *Military Manual* (1992), § 502.

⁷⁹⁸ New Zealand, *Military Manual* (1992), § 517.

⁷⁹⁹ New Zealand, *Military Manual* (1992), § 1704(5).

779. Nigeria's Operational Code of Conduct states that "youths and school children must not be attacked unless they are engaged in open hostilities against Federal Government Forces". It further states that "male civilians who are hostile to the Federal Forces are to be dealt with firmly but fairly".⁸⁰⁰

780. According to Nigeria's Manual on the Laws of War, "participation in hostilities by civilians" is an example of a war crime.⁸⁰¹

781. South Africa's LOAC Manual states that "if persons identified as civilians engage the armed forces, then they are regarded as unlawful combatants and may be treated under law as criminals".⁸⁰²

782. Spain's LOAC Manual states that "civilians must not take a direct part in hostilities nor be the object of attack, unless they take a direct part in hostilities".⁸⁰³

783. Sweden's IHL Manual states that "protection for civilians does not apply under all circumstances – exceptions are made for the time when civilians take direct part in hostilities".⁸⁰⁴

784. Togo's Military Manual states that "civilian persons may only be attacked when they participate directly in hostilities".⁸⁰⁵

785. According to the UK Military Manual, "participation in hostilities by civilians" is an example of a punishable violation of the laws of war, or war crime, beyond the grave breaches of the Geneva Conventions.⁸⁰⁶

786. The UK LOAC Manual states that civilians "lose their protection [from attack] when they take part in hostilities".⁸⁰⁷ The manual further states that soldiers "must not attack civilians who are not actually engaged in combat".⁸⁰⁸

787. The US Air Force Pamphlet states that "civilians enjoy the protection afforded by law unless and for such time as they take a direct part in hostilities".⁸⁰⁹

788. The US Naval Handbook states that "civilians who take a direct part in hostilities . . . lose their immunity and may be attacked".⁸¹⁰

789. The YPA Military Manual of the SFRY (FRY) states that "it is permitted to directly attack only members of the armed forces and other persons – only if they directly participate in military operations".⁸¹¹

National Legislation

National Case-law

791. No practice was found.

Other National Practice

792. In an explanatory memorandum submitted to the Belgian parliament in 1985 in the context of the ratification procedure of the Additional Protocols, the Belgian government stated that “the condition [for civilian immunity from attack], however, is that they do not participate directly in hostilities, which is of course a question of fact”.⁸¹²

793. With reference to Articles 248(2) and 251 of Chile’s 1925 Code of Military Justice, the Report on the Practice of Chile states that Chile takes a very broad view of what acts are considered to constitute support to military action, and as a result, lead to the loss of civilian status and protection.⁸¹³

794. In spite of the absence of Chinese regulation on this matter, the Report on the Practice of China concludes that in practice civilians lose their civilian status and protection when carrying out military missions. The report adds that the term “innocent civilian” is often used in Chinese practice, and that a civilian who participates in hostilities, being no longer “innocent”, will lose protection. In this context, the report also gives a definition of the terms “spy” and “secret service”. A spy, under Chinese practice, is a civilian or a combatant who works for the enemy during an international armed conflict. “Secret service” refers to civilians or combatants who work for the enemy in the context of an internal armed conflict. The report concludes that it can be deduced from these two terms that civilians who take part in the hostilities, including those acting as spies or in the secret service, lose their protection.⁸¹⁴

795. The Report on the Practice of Egypt notes that the immunity from attack granted to the civilian population – provided that civilians do not participate in military operations – is justified by the “dictates of humanity and the cultural and civilian heritage of all nations and peoples”.⁸¹⁵

796. On the basis of an interview with a high-ranking army officer, the Report on the Practice of Jordan states that “civilians who take [a] direct part in hostilities are no longer considered civilians and cannot claim the privileges of combatant status”.⁸¹⁶

797. According to the Report on the Practice of Kuwait, it is the *opinio juris* of Kuwait that direct participation in military operations results in the loss of the protection normally granted to civilians.⁸¹⁷

⁸¹² Belgium, House of Representatives, Explanatory memorandum on a draft bill for the approval of the Additional Protocols, 1984–1985 Session, Doc. 1096-1, 9 January 1985, p. 10.

⁸¹⁷ Report on the Practice of Kuwait, 1997, Chapter 1.2.

798. The Report on the Practice of Lebanon states that “the Commission on Human Rights of the Lebanese parliament is of the opinion that civilians lose their civilian status when they take part in military actions”.⁸¹⁸

799. On the basis of interviews with members of the armed forces, the Report on the Practice of Malaysia states that during the communist insurgency, civilians were not deprived of their protected status unless they actively participated in the insurgency.⁸¹⁹

800. At the CDDH, Mexico stated that it believed draft Article 46 AP I (now Article 51) to be so essential that it “cannot be the subject of any reservations whatsoever since these would be inconsistent with the aim and purpose of Protocol I and undermine its basis”.⁸²⁰

801. The Report on the Practice of Nigeria states that it is the *opinio juris* of Nigeria that the rule that civilians are deprived of protection when they engage in hostilities against federal forces is part of customary international law.⁸²¹

802. The Report on the Practice of Syria notes that Syria did not make any reservations to Article 51 AP I and thus views the conditions stated in this Article as part of customary international law.⁸²²

803. At the CDDH, the UK voted in favour of draft Article 46 AP I (now Article 51), describing its first three paragraphs as containing a “valuable reaffirmation of existing customary rules of international law designed to protect civilians”.⁸²³

804. In 1987, the Deputy Legal Adviser of the US Department of State stated that “we also support the principle . . . that immunity not be extended to civilians who are taking part in hostilities”.⁸²⁴

805. In 1989, a US memorandum of law concerning the prohibition of assassination stated that “there is general agreement among law-of-war experts that civilians who participate in hostilities may be regarded as combatants”.⁸²⁵

⁸¹⁸ Report on the Practice of Lebanon, 1998, Chapter 1.2, referring to a statement of the Lebanese Parliamentary Commission on Human Rights.

806. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that “as a general principle, the law of war prohibits . . . the direct, intentional attack of civilians not taking part in hostilities”.⁸²⁶

807. The Report on US Practice states that:

Under the practice of the United States, civilians lose immunity from direct attack if, and for so long as, they are committing hostile acts or otherwise taking a direct part in hostilities. These conditions may be met by bearing arms or by aiding the enemy with arms, ammunition, supplies, money or intelligence information or even by holding unauthorized intercourse with enemy personnel. Other acts might be considered to be taking a direct part in hostilities, depending on the intensity of the conflict and other circumstances.⁸²⁷

808. The Report on the Practice of Zimbabwe asserts that “civilians will lose their protection if they actively assist or actively become engaged in military operations . . . A lot, however, will depend on the degree of involvement.”⁸²⁸

III. Practice of International Organisations and Conferences

809. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

810. In 1997, the IACiHR considered the events that took place at La Tablada in Argentina on 23 January 1989, when 42 armed individuals launched an attack against an Argentine army barracks. The attackers alleged that the purpose of the attack was to prevent an imminent military coup d'état that was supposedly being planned there. The arrival of Argentine military personnel resulted in a skirmish of approximately 30 hours, which left 29 of the attackers and several State agents dead. The Commission, seized by surviving attackers, concluded that even if the clash was brief in duration, common Article 3 of the 1949 Geneva Conventions and other relevant rules regarding the conduct of internal conflict were applicable. The Commission stated that when civilians, such as those who attacked the base at La Tablada, assumed the role of combatants by directly taking part in fighting, whether singly or as members of a group, they thereby became legitimate military targets, but only for such time as they actively participated in the combat. As soon as they ceased their hostile acts and thus fell under the power of Argentinean State agents, they could no longer be lawfully attacked or subjected to acts of violence.⁸²⁹

⁸²⁶ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, p. 622.

⁸²⁷ Report on US Practice, 1997, Chapter 1.2.

⁸²⁸ Report on the Practice of Zimbabwe, 1998, Chapter 1.2.

⁸²⁹ IACiHR, *Case 11.137 (Argentina)*, Report, 18 November 1997, §§ 177–178, 189 and 328.

811. In 1999, in a report on human rights in Colombia, the IACiHR stated that it believed that it was necessary to clarify the distinction between “direct” or “active” and “indirect” participation by civilians in hostilities in order to identify those limited situations in which it was not unlawful to attack civilians. It maintained that it was generally understood in IHL that the phrase “direct participation in hostilities” meant acts which, by their nature or purpose, were intended to cause actual harm to enemy personnel and material. The Commission made clear that such participation also suggested a “direct causal relationship between the activity engaged in and harm done to the enemy at the time and place where the activity takes place”. The Commission upheld the view that:

Civilians whose activities merely support the adverse party’s war or military effort or otherwise only indirectly participate in hostilities cannot on these grounds alone be considered combatants. This is because indirect participation, such as selling goods to one or more of the armed parties, expressing sympathy for the cause of one of the parties or, even more clearly, failing to act to prevent an incursion by one of the armed parties, does not involve acts of violence which pose an immediate threat of actual harm to the adverse party.⁸³⁰

V. Practice of the International Red Cross and Red Crescent Movement

812. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “civilian persons may not be attacked unless they participate directly in hostilities”.⁸³¹

813. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 46(2) of draft API which stated that “civilians enjoy the protection afforded by this Article unless and for such time as they take a direct part in hostilities”. All governments concerned replied favourably.⁸³²

VI. Other Practice

814. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch stated that “civilians, however, lose their immunity from attack for such time as they assume a combatant’s role”.⁸³³ It reiterated this view in

⁸³⁰ IACiHR, Third report on human rights in Colombia, Doc. OEA/Ser.L/V/II.102 Doc. 9 rev. 1, 26 February 1999, Chapter IV, §§ 53 and 56.

1986 in a report on the use of landmines in the conflicts in El Salvador and Nicaragua.⁸³⁴

815. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that “civilians, however, temporarily lose their immunity from attack whenever they assume a combatant’s role”.⁸³⁵

816. In 1994, in reply to a report on violations of human rights in Rwanda, the FPR stated that “its combatants had only killed armed civilians engaged in combat who could not be distinguished from the regular soldiers of the Rwandan army”.⁸³⁶

817. In 2001, in a report on Israel and the occupied territories, Amnesty International referred to Article 51(3) AP I, although this instrument had not been ratified by Israel, and stated that:

Palestinians engaged in armed clashes with Israeli forces are not combatants. They are civilians who lose their protected status for the duration of the armed engagement. They cannot be killed at any time other than while they are firing upon or otherwise posing an immediate threat to Israeli troops or civilians. Because they are not combatants, the fact that they participated in an armed attack at an earlier point cannot justify targeting them for death later on.⁸³⁷

Specific examples of direct participation

I. Treaties and Other Instruments

Treaties

818. During the March–April 1998 session of the Preparatory Committee for the Establishment of an International Criminal Court, a proposal was developed which encompassed “recruiting children under the age of fifteen years into armed forces or using them to participate in hostilities”. The words “using” and “participate” were explained in a footnote to provide guidance for the interpretation of the scope of this provision. This footnote read:

The words “using” and “participate” have been adopted in order to cover both direct participation in combat and also active participation in military activities linked to combat such as scouting, spying, sabotage and the use of children as decoys, couriers or at military checkpoints. It would not cover activities clearly unrelated to the hostilities such as food deliveries to an airbase or the use of domestic staff in

an officer's married accommodation. However, use of children in a direct support function such as acting as bearers to take supplies to the front line, or activities at the front line itself, would be included within the terminology.⁸³⁸

Other Instruments

819. No practice was found.

II. National Practice

Military Manuals

820. Australia's Defence Force Manual notes that "whether or not a civilian is involved in hostilities is a difficult question which must be determined by the facts of each individual case. Civilians bearing arms and taking part in military operations are clearly taking part in hostilities."⁸³⁹

821. Belgium's Teaching Manual for Soldiers considers that "a civilian who takes up arms logically loses the protection granted to civilians and may be attacked."⁸⁴⁰

822. Ecuador's Naval Manual states that:

Civilians who take a direct part in hostilities by taking up arms or otherwise trying to kill, injure or capture enemy personnel or destroy enemy property lose their immunity and may be attacked. Similarly, civilians serving as guards, intelligence agents or lookouts on behalf of military forces may be attacked.⁸⁴¹

823. El Salvador's Soldiers' Manual states that combatants must "never attack... women, children, the elderly or any person who does not bear arms".⁸⁴²

824. India's Army Training Note defines the term "terrorist" as:

a person who indulges in wanton killing of persons or involves in violence or in the disruption of services or means of communications essential to the community or in damaging property with a view to putting the public or any section of the public in fear, or affecting adversely the harmony between different religious, social, linguistic groups or the sovereignty and integrity of a nation.⁸⁴³

According to the Report on the Practice of India, this definition is "intended to help the armed forces to identify the 'terrorists' who may be treated as combatants if the situation can be likened to an internal conflict".⁸⁴⁴

825. According to the Military Manual of the Netherlands, taking a direct part in hostilities means that "the person involved engages in hostilities aimed at hitting enemy personnel or materiel. Examples include firing at enemy troops,

⁸³⁸ Roy S. Lee (ed.), *The International Criminal Court. The Making of the Rome Statute: Issues, Negotiations, Results*, Kluwer Law International, The Hague, 1999, p. 118.

⁸³⁹ Australia, *Defence Force Manual* (1994), § 532.

⁸⁴⁰ Belgium, *Teaching Manual for Soldiers* (undated), p. 14.

⁸⁴¹ Ecuador, *Naval Manual* (1989), § 11.3. ⁸⁴² El Salvador, *Soldiers' Manual* (undated), p. 3.

⁸⁴³ India, *Army Training Note* (1995), p. 4/16, § 35.

⁸⁴⁴ Report on the Practice of India, 1998, Chapter 1.1.

throwing molotov cocktails or blowing up a bridge used for the transport of military materiel.”⁸⁴⁵

826. Sweden’s IHL Manual states that “protection for civilians does not apply under all circumstances – exceptions are made for the time when civilians take direct part in hostilities, which is equivalent to their taking part in armed fighting”.⁸⁴⁶

827. The US Field Manual states that “persons who are not members of the armed forces . . . who bear arms or engage in other conduct hostile to the enemy thereby deprive themselves of many of the privileges attaching to the members of the civilian population”.⁸⁴⁷ The manual specifies that persons who are not members of the armed forces, who commit hostile acts such as “sabotage, destruction of communications facilities, intentional misleading of troops by guides [and] liberation of prisoners of war” about or behind enemy lines may be tried and sentenced to execution or imprisonment.⁸⁴⁸

828. The US Air Force Pamphlet states that “taking a direct part in hostilities covers acts of war intended by their nature and purpose to strike at enemy personnel and material. Thus a civilian taking part in fighting, whether singly or as a member of a group, *loses* the immunity given civilians.”⁸⁴⁹ (emphasis in original)

829. The US Air Force Commander’s Handbook states that “anyone who personally tries to kill, injure or capture enemy persons or objects” is liable to attack. The manual adds that:

The same would be true of anyone acting as a guard for military activity, as a member of a weapon crew, or as a crewman on a military aircraft in combat . . . Civilians who collect intelligence information, or otherwise act as part of the enemy’s military intelligence network, are lawful objects of attack. Members of a civilian ground observer corps who report the approach of hostile aircraft would also be taking a direct part in hostilities. The rescue of military airmen downed on land is a combatant activity that is not protected under international law. Civilians engaged in the rescue and return of enemy aircrew members are therefore subject to attack. This would include, for example, members of a civilian air auxiliary, such as the US Civil Air Patrol, who engage in military search and rescue activity in wartime. Note, however, that care of the wounded on land, and the rescue of persons downed at sea or shipwrecked, are protected activities under international law.⁸⁵⁰

830. The US Naval Handbook states that:

Civilians who take a direct part in hostilities by taking up arms or otherwise trying to kill, injure, or capture enemy persons or destroy enemy property lose their immunity and may be attacked. Similarly, civilians serving as lookouts, guards, or intelligence agents for military forces may be attacked. Direct participation may also include civilians serving as guards, intelligence agents, or lookouts on behalf of

⁸⁴⁵ Netherlands, *Military Manual* (1993), p. V-5.

⁸⁵⁰ US, *Air Force Commander’s Handbook* (1980), § 2-8.

military forces. Direct participation in hostilities must be judged on a case-by-case basis. Combatants in the field must make an honest determination as to whether a particular civilian is or is not subject to deliberate attack based on the person's behavior, location and attire, and other information available at the time.⁸⁵¹

831. The YPA Military Manual of the SFRY (FRY) states that a civilian is considered a member of the armed forces when carrying arms or "otherwise taking part in resistance to an attacker".⁸⁵² The Report on the Practice of the SFRY (FRY) considers that:

This phrase is not substantiated with examples, but it is obvious that the authors had in mind various forms of participation of civilians in military operations and its preparations. No doubt experiences of the resistance movement during World War II were taken into account.⁸⁵³

National Legislation

832. The Report on the Practice of Egypt states that according to Egypt's Military Criminal Code, "armed gangs and rebels" are considered to be "enemies".⁸⁵⁴

833. Ghana's Armed Forces Act defines "enemy" as any person engaged in armed operations against any part of the armed forces of Ghana, including armed mutineers, armed rebels, armed rioters and pirates.⁸⁵⁵

834. India's Army Act defines the term "enemy" as including "all armed mutineers, armed rebels, armed rioters, pirates and any person in arms against whom it is the duty of any person subject to military law to act".⁸⁵⁶

835. Malaysia's Armed Forces Act defines the "enemy" as "all persons engaged in armed operations against any of His Majesty's armed forces or any force co-operating therewith and also includes armed mutineers, armed rebels, armed rioters and pirates".⁸⁵⁷

836. Pakistan's Army Act defines the "enemy" as including "all armed mutineers, armed rebels, armed rioters, pirates and any person in arms against whom it is the duty of any person subject to the Act to act".⁸⁵⁸

837. Peru's Law on Self-Defence Committees specifies that in internal armed conflicts or in situations of internal violence, certain civilian groups, termed "self-defence committees", are authorised to "develop activities of self-defence of their communities" and to offer temporary support to the armed forces and national police in "pacification" tasks. They have to be accredited by the competent military commanders and may be armed. Although the law does not

specifically address the civilian or combatant status of the members of these committees, it mentions that the participation of draft-aged persons in these committees is equivalent to the accomplishment of the compulsory military service.⁸⁵⁹

National Case-law

838. Colombia's Constitutional Court, reviewing the constitutionality of the Guard and Private Security Statute in 1997, confirmed the view that:

The general protection of the civilian population against the dangers of war also implies that international humanitarian law does not authorise either of the parties to involve this population in the armed conflict, since by doing so it makes the said population into an active participant in that conflict, thereby exposing it to military attacks by the other party.⁸⁶⁰

Other National Practice

839. According to the Report on the Practice of Botswana, "civilians lose their protection when they show resistance and aggression or when there is reason to believe they are involved in hostile activities".⁸⁶¹

840. In reaction to an article in the press, the Office of the Human Rights Adviser in the Office of the President of Colombia stated that:

With respect to the concept of civilian population, there is probably a confusion in the article . . . with the notions of combatant and non-combatant. In principle, the civilian population is always considered non-combatant . . . In a non-international armed conflict, civilians can take up arms and form armed rebel groups, putting themselves outside the laws of the country. They thus become combatants which the State can attack and fight against with perfect legitimacy. As a result, such rebels are criminals and combatants at the same time.⁸⁶²

841. Colombia's Defensoría del Pueblo (Ombudsman's Office), with respect to "*convivir*", considered that:

These organisations, nurtured by the national government itself, contribute nothing to the immunity of the civilian population, since they involve citizens in the armed conflict, divesting them of their protected status and making them into legitimate targets of attack . . . In the view of the Ombudsman's Office, the operation of the *Convivir* cooperatives means that civilians participate directly in the armed conflict, thereby becoming combatants.⁸⁶³

⁸⁶² Colombia, Presidencia de la República de Colombia, Consejería para los Derechos Humanos, *Comentarios sobre el artículo publicado en La Prensa por Pablo E. Victoria sobre el Protocolo II*, undated, § 5, reprinted in Congressional record concerning the enactment of Law 171 of 16 December 1994.

⁸⁶³ Colombia, Defensoría del Pueblo, *Cuarto informe anual del defensor del pueblo al congreso de Colombia*, Santafé de Bogotá, September 1997, pp. 48–49.

842. The Report on the Practice of Colombia states that:

In Colombia, communal guard and private security services have been created under the name "*convivir*". These services take the form of rural security cooperatives composed of individuals whom the State has authorised to bear arms, and who collaborate with the authorities by providing information to the public security forces concerning the activities of the guerrilla organisations. There is a public debate over the question of whether the members of these services should be considered civilians or combatants.⁸⁶⁴ (see below)

843. During the conflict in El Salvador, the armed forces reportedly attacked on numerous occasions what the guerrillas called "the masses", i.e. parts of the civilian population who did not use arms or resort to violence but who were believed to sympathise or collaborate with the FMLN and who lived in zones of guerrilla resistance or in conflict zones.⁸⁶⁵

844. According to the Report on the Practice of India, "any person in arms and acting against governmental authority" or "who contributes towards the furtherance of armed conflict" would fall within the definition of enemy and lose protection.⁸⁶⁶

845. According to the Report on the Practice of Iraq, civilians lose their protection from attack if they engage in military acts or in acts that directly serve the armed forces and military operations, even without taking up arms against the other party. The report adds, however, that this exception should be interpreted restrictively in order to avoid abuse.⁸⁶⁷

846. The Report on the Practice of Israel states that:

Civilians would lose their protection . . . in those cases in which they are actively involved in hostile activities against Israeli soldiers, civilians or property. The implementation of this rule in practice is not always straightforward, for a variety of reasons, which include the following:

First – many activities, which undoubtedly assist in the carrying out of hostilities, fall in an undefined "grey area" (civilian truck-drivers, [staff of] vehicle repair workshops, etc.).

Second – the military commander in the field is often required to make decisions on the basis of incomplete information, available at the time of the attack. Therefore, while it may be easier to differentiate between protected civilians and others after the event, when more facts are known, it should be understood that any test which requires perfect knowledge of the facts on the ground would fail to meet the test of reality. As an example of the above, in Lebanon many civilians commonly carry firearms. Therefore, the fact that an individual openly carries a firearm does not, in and of itself, automatically relieve him of his protected status. Nevertheless, when returning fire, it is extremely difficult (and probably unwise from a military

⁸⁶⁴ Report on the Practice of Colombia, 1998, Chapter 1.2.

⁸⁶⁶ Report on the Practice of India, 1997, Chapter 1.2.

⁸⁶⁷ Report on the Practice of Iraq, 1998, Chapter 1.2.

viewpoint) to differentiate between those individuals actually firing their firearms and those just carrying them.⁸⁶⁸

847. The Report on the Practice of Lebanon states that the Lebanese representative in the Israel-Lebanon Monitoring Group established pursuant to the application of the 1996 Israel-Lebanon Ceasefire Understanding considers that “civilians who co-operate in practice with the enemy in military operations and activities lose their civilian status and become military objectives liable to attack”.⁸⁶⁹

848. On the basis of interviews with members of the armed forces, the Report on the Practice of Malaysia states that during the communist insurgency civilians lost their protection if they actively participated in the insurgency. Persons who merely provided support to the enemy, on the other hand, for example those who supplied it with weapons, food or medicine, or sympathisers, for example journalists who wrote articles supportive of the communist cause, did not lose their civilian status.⁸⁷⁰ The report notes, however, that this did not mean that they were not liable to prosecution under any written laws and refers to specific legislation in this respect.⁸⁷¹

849. The Report on the Practice of the Philippines says that civilians lose their protection when they become hostile elements and contribute militarily to the insurgents' cause. These civilians, who can serve for example as spies, couriers or lookouts, are qualified by the military as “sympathisers” or “communist terrorists” and can be the object of a direct military attack in villages influenced or infiltrated by the Communist Party of the Philippines.⁸⁷²

850. On the basis of replies by army officers to a questionnaire, the Report on the Practice of Rwanda states that unarmed civilians who follow their armed forces during an international armed conflict in order to provide them with food, transport munitions or carry messages, for example, lose their status as civilians. In the context of an internal armed conflict, however, unarmed civilians who collaborate with one of the parties to the conflict always remain civilians. According to the report, this distinction is justified by the fact that in internal armed conflicts, civilians are forced to cooperate with the party that holds them in its power.⁸⁷³

851. In 1989, a US memorandum of law concerning the prohibition of assassination stated that:

⁸⁷² Report on the Practice of the Philippines, 1997, Chapter 1.2.

⁸⁷³ Report on the Practice of Rwanda, 1997, Replies by Rwandan army officers to a questionnaire, Chapter 1.2.

While there is general agreement among law-of-war experts that civilians who participate in hostilities may be regarded as combatants, there is no agreement as to the degree of participation necessary to make an individual civilian a combatant . . . There is a lack of agreement on this matter, and no existing law-of-war treaty provides clarification or assistance. Historically, however, the decision as to the level at which civilians may be regarded as combatants or “quasi-combatants” and thereby subject to attack generally has been policy rather than a legal matter. The technological revolution in warfare that has occurred over the past two centuries has resulted in a joining of segments of the civilian population with each nation’s conduct of military operations and vital support activities . . . Finally, one rule of thumb with regard to the likelihood that an individual may be subject to lawful attack is his (or her) immunity from military service if continued service in his (or her) civilian position is of greater value to a nation’s war effort than that person’s service in the military. A prime example would be civilian scientists occupying key positions in a weapons program regarded as vital to a nation’s national security or war aims. Thus, more than 90% of the World War II Project Manhattan personnel were civilians, and their participation in the U.S. atomic weapons program was of such importance as to have made them liable to legitimate attack. Similarly, the September 1944 Allied bombing raids on the German rocket sites at Peenemunde regarded the death of scientists involved in research and development at that facility to have been as important as destruction of the missiles themselves.⁸⁷⁴

852. According to the Report on the Practice of Zimbabwe, “civilians lose their protection if they actively assist or actively become engaged in military operations. This may include giving logistical and/or intelligence support. A lot, however, will depend on the degree of involvement.”⁸⁷⁵

III. Practice of International Organisations and Conferences

United Nations

853. In 1985, in a report on the situation of human rights in El Salvador, the Special Representative of the UN Commission on Human Rights stated that:

The Special Representative is actually convinced that as a result of or during fighting, the Salvadorian army produces civilian, and thus unwarranted casualties, particularly among the so-called *masas*, or groups of peasants who, while not personally involved in the fighting, coexist with the guerrillas and supply them with means of subsistence. In any event, inasmuch as the so-called *masas* take no part in combat, they must be considered civilians. The reference in article 50 of the 1977 Additional Protocol to the Third Geneva Convention of 12 August 1949, means that any persons who follow armed forces without forming an integral part of them, such as suppliers and members of work units or service units responsible for troop welfare, must be considered civilians. In the view of the Special Representative, if

⁸⁷⁴ US, Executive Order 12333 and Assassination, Memorandum prepared the Chief of the International Law Branch, Office of the Judge Advocate General, Department of the Army, 2 November 1989, reprinted in Marian Nash (Leich), *Cumulative Digest of United States Practice in International Law, 1981–1988*, Department of State Publication 10120, Washington, D.C., 1993–1995, pp. 3415–3416.

⁸⁷⁵ Report on the Practice of Zimbabwe, 1998, Chapter 1.2.

the *masas* who accompany the guerrilla troops meet the conditions established in those international instruments, they cannot be considered combatants; they are civilians.⁸⁷⁶

854. In a resolution adopted in 1985, the UN Sub-Commission on Human Rights ratified the point stated by the Special Representative of the Commission on Human Rights for El Salvador that:

According to the Geneva Conventions as long as the so-called “masses” do not participate directly in combat, although they may sympathize, accompany, supply food and live in zones under the control of the insurgents, they preserve their civilian character, and therefore they must not be subjected to military attacks and forced displacement by Government forces.⁸⁷⁷

This statement was repeated in subsequent years.⁸⁷⁸

855. In 1993, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights dealt with the subject of loss of civilian status in a section concerning events in the Medak area. On the basis of information gathered by field personnel revealing that civilians, including a number of elderly people, had been arbitrarily killed, the Special Rapporteur pointed out to the government that these acts were in violation of IHL and requested a full investigation to identify the perpetrators and punish them. Following preliminary inquiries, the Deputy Prime Minister and Minister of Foreign Affairs informed the Special Rapporteur that the individuals killed in the action, including the elderly, “were all killed in combat”.⁸⁷⁹ In a subsequent report, the Special Rapporteur cited the findings of the preliminary investigation led by the Vice-President of Croatia, which claimed that all the persons killed were combatants, but commented that he did not consider the Vice-President’s report as conclusive.⁸⁸⁰

856. The report of the UN Commission on the Truth for El Salvador in 1993 described the government’s counter-insurgency policies as part of the pattern of violence employed by agents of the State and their collaborators. According to the report, inhabitants of areas where the guerrillas were active were automatically suspected of belonging to the guerrilla movement or collaborating with it and thus risked being executed. The report also depicted the pattern of violence employed by the FMLN, which considered it legitimate to physically eliminate people who were labelled military targets, such as traitors or

⁸⁷⁹ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Fifth periodic report, UN Doc. E/CN.4/1994/47, 17 November 1993, § 105.

⁸⁸⁰ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Sixth periodic report, UN Doc. E/CN.4/1994/110, 21 February 1994, § 83.

informers, and even political opponents. Examples of such practices included the murder of mayors, right-wing intellectuals, public officials and judges. The report added that instructions given by the FMLN General Command concerning the execution of mayors were broadly interpreted and extensively applied, in particular between 1985 and 1989, when the Ejército Revolucionario del pueblo repeatedly carried out extrajudicial executions of political leaders, which the report called “non-combatant civilians”. The Commission expressly rejected the arguments of the FMLN, which tried to justify the executions on the grounds that the mayors and their officers were actively engaged in counter-insurgency activities, such as creating paramilitary forces, leading direct repressive activities against the civilian population or developing spy networks to detect FMLN members and their supporters. The movement further argued that the mayors had been listed as legitimate military targets since 1980. The Commission noted that by calling the mayors “military targets”, the FMLN was trying to say that they were combatants. It held that whether the mayors might or might not be considered as “military targets” was irrelevant since “there is no evidence that any of them lost their lives as a result of any combat operation by the FMLN”. The Commission emphasised that there was “no concept under international humanitarian law whereby such people could have been considered military targets”.⁸⁸¹ The Commission added that “the execution of an individual, whether a combatant or a non-combatant, who is in the power of a guerrilla force and does not put up any resistance is not a combat operation”.⁸⁸² The Commission considered the execution of mayors as a violation of the rules of IHL and international human rights law.⁸⁸³

857. In its report in 1993, the UN Commission on the Truth for El Salvador considered the legality of an attack by members of the Partido Revolucionario de Trabajadores centroamericanos (one of the FMLN components) on a group of US marines then serving as security guards at the US Embassy in San Salvador. The attack took place as the victims, who were off duty, in civilian clothing and unarmed, were sitting at a table outside a restaurant. Following the attack, a communiqué issued by the FMLN General Command asserted that the four marines were legitimate military targets. The Commission noted, however, that it had full evidence that the US marines were not combatants. It emphasised that:

Their function was to guard the United States Embassy and there is no indication whatsoever that they took part in combat action in El Salvador. Furthermore, international humanitarian law defines the category of “combatant” restrictively. The allegation that they were performing “intelligence functions” has not been

⁸⁸¹ UN Commission on the Truth for El Salvador, Report, UN Doc. S/25500, 1 April 1993, pp. 44–45.

substantiated. In any event, carrying out intelligence functions does not, in itself, automatically place an individual in the category of combatant.⁸⁸⁴

Other International Organisations

858. No practice was found.

International Conferences

859. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

860. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

861. No practice was found.

VI. Other Practice

862. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch stated that:

With respect to the internal conflict in Nicaragua, the following persons should be regarded as civilians:

1. The peaceful population not directly participating in hostilities;
2. Persons providing only indirect support to the Nicaraguan army by, *inter alia*, working in defense plants, distributing or storing military supplies in rear areas, supplying labor and food, or serving as messengers or disseminating propaganda. These persons may *not* be subject to direct individualized attack or execution since they pose no immediate threat to the adversary. However, they assume the risk of incidental death or injury arising from attacks against legitimate military targets.

Persons providing such indirect support to the *contras* are clearly subject to prosecution under domestic law for giving aid and comfort to the insurgents.

3. Persons (not members of the parties' armed forces) who do not actually take a direct part in the hostilities by trying to kill, injure or capture enemy combatants or to damage material. These civilians, however, lose their immunity from attack for such time as they assume a combatant's role. Included in this category would be armed civilian members of the self-defense groups who guard rural cooperatives, farms and plants against *contra* attack.⁸⁸⁵ [emphasis in original]

⁸⁸⁴ UN Commission on the Truth for El Salvador, Report, UN Doc. S/25500, 1 April 1993, p. 155.

⁸⁸⁵ Americas Watch, *Violations of the Laws of War by Both Sides in Nicaragua: 1981–1985*, New York, March 1985, pp. 31–32.

Americas Watch reiterated this view in 1986 in its report on the use of landmines in the conflicts in El Salvador and Nicaragua.⁸⁸⁶

863. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that:

The following persons should be considered civilians and thus not subjected to direct attack by combatants or by land mines:

- A. The peaceful population not directly participating in hostilities.
- B. i. Persons providing only indirect support to the Angolan, Cuban, or South African armed forces or UNITA by, *inter alia*, working in defense plants, distributing or storing military supplies behind conflict areas, supplying labor and food, serving as messengers, or disseminating propaganda. These persons may not be subject to direct individualized attack because they pose no immediate threat to the adversary. They assume, however, the risk of incidental death or injury arising from attacks and the use of weapons against legitimate military targets.
- ii. Persons providing indirect support to UNITA or its South African ally are clearly subject to prosecution under the domestic laws of Angola for giving aid and comfort to the enemy.
- C. Persons, other than members of the parties' armed forces, who do not actually take a direct part in the hostilities by trying to kill, injure, or capture enemy combatants or to damage material. These civilians, however, temporarily lose their immunity from attack whenever they assume a combatant's role.⁸⁸⁷

864. The Penal and Disciplinary Laws of the SPLM/A state that the following are "declared enemies of the people and therefore target of the SPLA/SPLM":

- a) The incumbent administration of Jaafer Mohammed Nimeiri, its appendages and supporting institutions.
- b) Any subsequent reactionary administration that may emerge while the revolutionary war is still being waged.
- c) Any individual or group of individuals directly or indirectly cooperating with the autocratic regime in Khartoum in order to sustain or consolidate its rule and to undermine the objectives and efforts of the People's Revolution.
- d) Any individual or group of individuals who wage counter-revolutionary war against the SPLA/SPLM or who circulate any subversive literature, verbally or in written form against the SPLA/SPLM with the intent to discredit it or turn public opinion against it.
- e) Persons acting as agents or spies for the Sudan Government.
- f) Armed bandits that operate to rob ordinary citizens, rape their women or commit any other crime against them, their movable or immovable properties or any other property of the People's revolution.
- g) Individuals or groups of people who propagate or advocate ideas, ideologies or philosophies or organize societies and organizations inside the country

⁸⁸⁷ Africa Watch, *Angola: Violations of the Laws of War by Both Sides*, New York, April 1989, pp. 138–139.

or abroad, that tend to uphold or perpetuate the oppression of the people or their exploitation by the Khartoum regime or by any other system of similar nature.⁸⁸⁸

Presence of combatants among the civilian population

I. Treaties and Other Instruments

Treaties

865. Article 50(3) AP I provides that “the presence within the civilian population of individuals who do not come within the definition of civilians does not deprive the population of its civilian character”. Article 50 AP I was adopted by consensus.⁸⁸⁹

866. Article 25(3) of draft AP II submitted by the ICRC to the CDDH provided that “the presence, within the civilian population, of individuals who do not fall within the definition of civilians does not deprive the population of its civilian character”.⁸⁹⁰ This draft provision was adopted by consensus in Committee III of the CDDH.⁸⁹¹ Eventually, however, it was deleted in the plenary by consensus.⁸⁹²

Other Instruments

867. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 50(3) AP I.

868. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 50(3) AP I.

II. National Practice

Military Manuals

869. Argentina’s Law of War Manual states that “the presence within the civilian population of individuals who do not come within the definition of civilians does not deprive the population of its civilian character”.⁸⁹³

870. Canada’s LOAC Manual states that “the presence within the civilian population of individuals who do not come within the definition of civilians does not deprive the population of its civilian character”.⁸⁹⁴

⁸⁸⁸ SPLM/A, Penal and Disciplinary Laws, 4 July 1984, Section 29, § 1c, Report on SPLM/A Practice, 1998, Chapter 1.2.

⁸⁹⁴ Canada, *LOAC Manual* (1999), p. 4-4, § 35.

871. Kenya's LOAC Manual states that "the presence within the civilian population of individual combatants does not deprive the population of its civilian character and of the protection accorded to it".⁸⁹⁵

872. The Military Manual of the Netherlands contains a rule identical to Article 50(3) AP I.⁸⁹⁶

873. Spain's LOAC Manual specifies that "the civilian population does not lose its civilian character by the fact that persons who are not civilians are present among the civilian population".⁸⁹⁷

874. Sweden's IHL Manual states that:

The presence of individual combatants, for example among gatherings of people, has sometimes entailed a belligerent considering himself entitled to launch an attack on the gathering, with particularly serious consequences. It is therefore laid down in Article 50 [AP I] that the presence of individual combatants within the civilian population may not deprive this population of its civilian character and thus its protection.⁸⁹⁸

875. The YPA Military Manual of the SFRY (FRY) states that "the presence among the civilian population of persons who are not civilians does not deprive that population of its civilian character".⁸⁹⁹

National Legislation

876. On the basis of Croatia's Constitution and Defence Law, the Report on the Practice of Croatia states that Article 50 AP I is directly applicable in Croatia's internal legal order.⁹⁰⁰

877. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 50(3) AP I, is a punishable offence.⁹⁰¹

878. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁹⁰²

National Case-law

879. No practice was found.

Other National Practice

880. No practice was found.

III. Practice of International Organisations and Conferences

881. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

882. In its judgement in the *Tadić case* in 1997, the ICTY Trial Chamber stated that “it is clear that the targeted population [of a crime against humanity] must be of predominantly civilian nature. The presence of certain non-civilians in their midst does not change the character of the population.”⁹⁰³

883. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that:

Even if it can be proved that the Muslim population of Ahmici was not entirely civilian but comprised some armed elements, still no justification would exist for widespread and indiscriminate attacks against civilians. Indeed, even in a situation of full-scale armed conflict, certain fundamental norms still serve to unambiguously outlaw such conduct, such as rules pertaining to proportionality.⁹⁰⁴

V. Practice of the International Red Cross and Red Crescent Movement

884. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “the presence within the civilian population of individuals other than civilian persons does not deprive the population of its civilian character”.⁹⁰⁵

885. In a press release issued in 1983 concerning the conflict in Lebanon, the ICRC stated that “the presence of armed elements among the civilian population does not justify the indiscriminate shelling of women, children and old people”.⁹⁰⁶

VI. Other Practice

886. No practice was found.

Situations of doubt as to the character of a person

I. Treaties and Other Instruments

Treaties

887. Article 50(1) AP I provides that “in case of doubt whether a person is a civilian, that person shall be considered to be a civilian”. Article 50 AP I was adopted by consensus.⁹⁰⁷

888. Upon ratification of AP I, France stated that:

The rule set out in the second sentence of the first paragraph of Article 50 [AP I] cannot be interpreted as requiring a commander to take a decision which, according to the circumstances and information available to him, might not be compatible with his duty to ensure the safety of the troops under his command or to preserve his military situation, in conformity with other provisions of [AP I].⁹⁰⁸

889. Upon ratification of AP I, the UK expressed its understanding of the presumption of civilian character as only applicable

in cases of substantial doubt still remaining after the assessment [of the information from all sources which is reasonably available to military commanders at the relevant time] has been made, and not as overriding a commander’s duty to protect the safety of troops under his command or to preserve his military situation, in conformity with other provisions of [AP I].⁹⁰⁹

890. Article 25(4) of draft AP II, adopted by Committee III of the CDDH provided that “in case of doubt as to whether a person is a civilian, he or she shall be considered to be a civilian”.⁹¹⁰ This draft provision was adopted by consensus by Committee III.⁹¹¹ Eventually, however, it was deleted in the plenary by consensus.⁹¹²

Other Instruments

891. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 50(1) AP I.

892. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 50(1) AP I.

II. National Practice

Military Manuals

893. Argentina's Law of War Manual states that "in case of doubt about the qualification of a person, that person must be considered to be civilian".⁹¹³

894. Australia's Defence Force Manual states that "in cases of doubt about civilian status, the benefit of the doubt is given to the person concerned".⁹¹⁴

895. Cameroon's Instructors' Manual states that "the benefit of the doubt confers upon a person the status of civilian".⁹¹⁵

896. Canada's LOAC Manual states that "in case of doubt whether a person is a civilian, that person shall be considered to be a civilian".⁹¹⁶

897. Colombia's Instructors' Manual states that "in case of doubt whether a person is civilian or not, that person must be considered to be civilian".⁹¹⁷

898. Croatia's LOAC Compendium states that, in case of doubt, persons have to be considered as civilians.⁹¹⁸

899. The Military Manual of the Dominican Republic states that:

All persons participating in military operations or activities are considered combatants [and proper targets for attack]. Those who do not participate in such actions are non-combatants. This distinction is not always easy to make. Uniformed, armed soldiers are easily recognisable. However, guerrillas often mix with the civilians, perform undercover operations, and dress in civilian clothes. Alertness and caution must guide you in deciding who is a combatant.⁹¹⁹

900. Hungary's Military Manual states that, in case of doubt, persons have to be considered as civilians.⁹²⁰

901. Kenya's LOAC Manual states that "in case of doubt whether a person is a civilian or not, that person shall be considered a civilian".⁹²¹

902. Madagascar's Military Manual states that "in case of doubt about the status of a person, that person shall be considered to be civilian".⁹²²

903. The Military Manual of the Netherlands states that "in case of doubt whether a person is civilian, that person is considered to be a civilian".⁹²³

904. South Africa's LOAC Manual contains a rule identical to that in Article 50(1) AP I.⁹²⁴

⁹¹³ Argentina, *Law of War Manual* (1989), § 4.02(1).

⁹¹⁴ Australia, *Defence Force Manual* (1994), § 914.

⁹¹⁵ Cameroon, *Instructors' Manual* (1992), p. 17.

⁹¹⁶ Canada, *LOAC Manual* (1999), p. 4-5, § 38.

⁹¹⁷ Colombia, *Instructors' Manual* (1999), p. 16.

⁹¹⁸ Croatia, *LOAC Compendium* (1991), p. 6.

⁹¹⁹ Dominican Republic, *Military Manual* (1980), p. 3.

⁹²⁰ Hungary, *Military Manual* (1992), p. 17.

⁹²¹ Kenya, *LOAC Manual* (1997), Précis No. 2, p. 10.

⁹²² Madagascar, *Military Manual* (1994), Fiche No. 2-SO, § B.

⁹²³ Netherlands, *Military Manual* (1993), p. V-2.

⁹²⁴ South Africa, *LOAC Manual* (1996), § 24(c).

905. Spain's LOAC Manual contains a rule identical to that in Article 50(1) AP I.⁹²⁵

906. Sweden's IHL Manual states that "where there is doubt whether a person is to be considered as a combatant or as a civilian, the person shall be considered as a civilian".⁹²⁶

907. According to the Report on US Practice, the US military manuals do not adopt the position that in case of doubt a person shall be considered as civilian.⁹²⁷

908. The YPA Military Manual of the SFRY (FRY) states that "in case of doubt a person shall be considered as a civilian until proven otherwise".⁹²⁸

National Legislation

909. On the basis of Croatia's Constitution and Defence Law, the Report on the Practice of Croatia states that Article 50 AP I is directly applicable in Croatia's internal legal order.⁹²⁹

910. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 50(1) AP I, is a punishable offence.⁹³⁰

911. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁹³¹

National Case-law

912. No practice was found.

Other National Practice

913. On the basis of a proposal submitted by Egypt during the CDDH, the Report on the Practice of Egypt states that "to ensure more protection for civilians, Egypt is of the opinion that in case of doubt as to whether a person is a civilian, he or she shall be deemed to be so".⁹³²

914. The Report on the Practice of Malaysia refers to the presumption of civilian character, adding that it governed the behaviour of the armed forces during the campaign against the communist insurgency.⁹³³

⁹²⁵ Spain, *LOAC Manual* (1996), Vol. I, § 4.5.b.(1).

⁹²⁶ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 42.

⁹²⁷ Report on US Practice, 1997, Chapter 1.1, referring to *Field Manual* (1956), § 60, *Air Force Pamphlet* (1976), § 5-3 and *Naval Handbook* (1995), § 11.3.

⁹²⁸ SFRY (FRY), *YPA Military Manual* (1988), § 67(3).

⁹²⁹ Report on Croatian Practice, 1998, Answers to additional questions on Chapter 1, referring to *Constitution* (1990), Article 134 and *Defence Law* (1993), Article 39.

⁹³⁰ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁹³¹ Norway, *Military Penal Code as amended* (1902), § 108(b).

⁹³² Report on the Practice of Egypt, 1997, Chapter 1.1, referring to Statement by Egypt at the CDDH, *Official Records*, Vol. IV, CDDH/III/33, 15 March 1974, p. 73.

⁹³³ Report on the Practice of Malaysia, 1997, Answers to additional questions on Chapter 1.1.

915. The Report on the Practice of Nigeria states that a presumption of civilian character is held in case of doubt. It adds that during the Nigerian civil war, “the Federal Forces in situations of such doubt did not off-handedly indict or take away individuals of such doubtful civilian character”. They subjected such individuals to a test, in order to determine

the degree of hardness of . . . their fingers used in handling the trigger. Those found with hardened fingers were presumed to be soldiers (combatants). Although this is an unscientific method of identification, it nonetheless shows that Nigerian practice does not *prima facie* attribute the status of combatant to individuals of doubtful civilian character.⁹³⁴

III. Practice of International Organisations and Conferences

916. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

917. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

918. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “in case of doubt whether a person is a civilian or not, that person shall be considered as a civilian”.⁹³⁵

VI. Other Practice

919. No practice was found.

⁹³⁴ Report on the Practice of Nigeria, 1997, Answers to additional questions on Chapter 1.1.

⁹³⁵ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 52.

A. General

The principle of distinction

I. Treaties and Other Instruments

Treaties

1. Article 48 AP I provides that “in order to ensure respect for and protection of the civilian population and civilian objects, the Parties to the conflict shall at all times distinguish between . . . civilian objects and military objectives”. Article 48 AP I was adopted by consensus.¹

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 161.

2. Article 24(1) of draft AP II submitted by the ICRC to the CDDH provided that “in order to ensure respect for the civilian population, the Parties to the conflict... shall make a distinction... between civilian objects and military objectives”.² This proposal was amended and adopted by consensus in Committee III of the CDDH.³ The approved text provided that “in order to ensure respect and protection for... civilian objects, the Parties to the conflict shall at all times distinguish... between civilian objects and military objectives”.⁴ Eventually, however, it was deleted in the plenary because it failed to obtain the necessary two-thirds majority (36 in favour, 19 against and 36 abstentions).⁵

Other Instruments

3. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 48 AP I.

4. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 48 AP I.

5. Paragraph 39 of the 1994 San Remo Manual provides that “Parties to the conflict shall at all times distinguish between... civilian or exempt objects and military objectives”.

6. Section 5.1 of the 1999 UN Secretary-General’s Bulletin states that “the United Nations force shall make a clear distinction at all times... between civilian objects and military objectives”.

II. National Practice

Military Manuals

7. Military manuals of Argentina, Australia, Belgium, Benin, Cameroon, Canada, Croatia, France, Germany, Hungary, Israel, Netherlands, New Zealand, Nigeria, Philippines, Spain, Sweden, Switzerland, Togo and US require that a distinction be made between military objectives and civilian objects.⁶

² CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 40.

³ CDDH, *Official Records*, Vol. XV, CDDH/215/Rev.1, 3 February–18 April 1975, p. 288, § 113.

⁴ CDDH, *Official Records*, Vol. XV, CDDH/215/Rev.1, 3 February–18 April 1975, p. 319.

⁵ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 135.

⁶ Argentina, *Law of War Manual* (1989), § 4.01; Australia, *Defence Force Manual* (1994), §§ 210, 504 and 913; Belgium, *Law of War Manual* (1983), p. 26; Benin, *Military Manual* (1995), Fascicule III, p. 11; Cameroon, *Instructors’ Manual* (1992), p. 86; Canada, *LOAC Manual* (1999), p. 4-1, § 4, see also p. 2-2, § 12; Croatia, *LOAC Compendium* (1991), p. 37; France, *LOAC Summary Note* (1992), Part I, preamble; France, *LOAC Teaching Note* (1999), p. 2; France, *LOAC Manual* (2001), p. 13; Germany, *Military Manual* (1992), §§ 401 and 454; Hungary, *Military Manual* (1992), p. 60; Israel, *Law of War Booklet* (1986), Chapter 1; Israel, *Manual on the Laws of War* (1998), pp. 38 and 42; Netherlands, *Military Manual* (1993), p. V-1, § 2; New Zealand, *Military Manual* (1992), § 205; Nigeria, *Military Manual* (1994), p. 41, § 9 and p. 42, § 11; Philippines, *Soldier’s Rules* (1989), p. 20; Spain, *LOAC Manual* (1996), Vol. I, § 4.1; Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 41; Switzerland, *Basic Military Manual* (1987), Article 25(1); Togo, *Military Manual* (1996), Fascicule III, p. 11; US, *Air Force Pamphlet* (1976), § 5-3(b).

8. Indonesia's Military Manual provides that "the targets of every military operation should be distinguished at all times".⁷
9. Sweden's IHL Manual considers that the principle of distinction as stated in Article 48 AP I is part of customary international law.⁸

National Legislation

10. The Report on the Practice of India states that India's laws and regulations applicable to internal conflicts do not explicitly mention the distinction between civilian objects and military objectives. The report indicates, however, that domestic legislation concerning terrorist activities

confer certain powers on armed forces as well as police personnel which enable them to destroy arms dumps, prepared or fortified positions or shelters from which attacks are made as well as structures used as training camps for armed volunteers or utilized as a hide-out by armed gangs or absconders, etc.⁹

11. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 48 AP I, is a punishable offence.¹⁰

12. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".¹¹

National Case-law

13. No practice was found.

Other National Practice

14. The Report on the Practice of Bosnia and Herzegovina provides several examples of alleged respect for and violations of the distinction between civilian and military targets.¹²

15. The Report on the Practice of Botswana asserts that the government of Botswana endorses the principle of distinction as found in Article 48 AP I.¹³

16. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt invoked the requirement to "distinguish between . . . civilian objects and military objectives".¹⁴

⁷ Indonesia, *Military Manual* (1982), § 91.

⁸ Sweden, *IHL Manual* (1991), Section 2.2.3, p. 19.

⁹ Report on the Practice of India, 1997, Chapter 1.3, referring to *Armed Forces (Special Powers) Act* (1958), *Armed Forces (Punjab and Chandigarh) Special Powers Act* (1983), Section 4(b), *Punjab Disturbed Areas Act* (1983), Section 5 and *Armed Forces (Jammu and Kashmir) Special Powers Act* (1990).

¹⁰ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

¹¹ Norway, *Military Penal Code as amended* (1902), § 108(b).

¹² Report on the Practice of Bosnia and Herzegovina, 2000, Chapter 1.3.

¹³ Report on the Practice of Botswana, 1998, Answers to additional questions on Chapter 1.3.

¹⁴ Egypt, Written statement submitted to the ICJ, *Nuclear Weapons case*, 20 June 1995, § 17.

17. The Report on the Practice of Egypt states that Egypt recognises the obligation to distinguish between civilian objects and military objectives. It further notes that the principle of distinction between civilian objects and military objectives is said to be well established in Egypt's practice and *opinio juris* and is thus considered to be a customary rule of IHL.¹⁵

18. The instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, state that "all parties must at all times make a distinction between the civilian population and military objectives in order to spare the civilian population".¹⁶

19. In 1983, in a statement before the lower house of parliament, a German Minister of State pointed out that the principle of distinction between civilian objects and military objectives was one of the five basic principles of the LOAC and that it applied equally to the attacker and the attacked.¹⁷

20. In an explanatory memorandum submitted to the German parliament in 1990 in the context of the ratification procedure of the Additional Protocols, the German government expressed the opinion that the principle of distinction between civilian objects and military targets enshrined in Article 48 AP I was a well-established rule of customary law, binding on all States.¹⁸

21. The Report on the Practice of India states that "when [the armed forces] are called upon to deal with an internal conflict, they are bound to follow the principles regarding distinction between military objects and civilian objects so as to avoid indiscriminate attacks".¹⁹

22. The Report on the Practice of Indonesia states that "according to the practices of the Indonesian armed forces, the distinction between civilian and military objects is compatible with the provisions stipulated in Article 52 of Protocol I".²⁰

23. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Iran stated that "some of the principles of humanitarian international law from which one can deduce the illegitimacy of the use of nuclear weapons are: ... Distinguishing between military and civilian targets."²¹

24. The Report on the Practice of Iran states that "the *opinio juris* of Iran recognizes the distinction between military objectives and civilian objects".²²

¹⁵ Report on the Practice of Egypt, 1997, Chapter 1.3.

¹⁶ France, Etat-major de la Force d'Action Rapide, Ordres pour l'Opération Mistral, 1995, Section 6, § 66.

²² Report on the Practice of Iran, 1997, Chapter 1.3.

25. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Japan stated that “with their colossal power and capacity for slaughter and destruction, nuclear weapons make no distinction . . . between military installations and civilian communities”.²³

26. According to the Report on the Practice of South Korea, it is South Korea’s *opinio juris* that the distinction between civilian objects and military objectives is part of customary international law.²⁴

27. The Report on the Practice of Kuwait asserts that the Iraqi army did not respect the principle of distinction between civilian objects and military targets during its withdrawal from Kuwait.²⁵

28. According to the Report on the Practice of Nigeria, it is Nigeria’s *opinio juris* that the distinction between civilian objects and military objectives is part of customary international law.²⁶

29. The Report on the Practice of Pakistan states that the distinction between civilian objects and military objectives seems to be well respected in Pakistan.²⁷

30. The Report on the Practice of Spain considers that the principle of distinction between military and non-military objectives is a fundamental principle which should be taken into consideration when planning, directing and executing a military attack.²⁸

31. In reply to a question in the House of Lords concerning the Gulf War, the UK Parliamentary Under-Secretary of State of the Ministry of Defence stated that:

The Geneva Conventions contain no provisions expressly regulating targeting in armed conflict. The Hague Regulations of 1907 and customary international law do, however, incorporate the twin principles of distinction between military and civilian objects, and of proportionality so far as the risk of collateral civilian damage from an attack on a military objective is concerned. These principles and associated rules of international law were observed at all times by coalition forces in the planning and execution of attacks against Iraq.²⁹

32. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the UK stated that “the parties to an armed conflict are required to discriminate between civilians and civilian objects on the one hand and combatants and military objectives on the other and to direct their attacks only against the latter”.³⁰

²³ Japan, Oral pleadings before the ICJ, *Nuclear Weapons case*, 7 November 1995, Verbatim Record CR 95/27, p. 36.

²⁴ Report on the Practice of South Korea, 1997, Chapter 1.3.

²⁵ Report on the Practice of Kuwait, 1997, Chapter 1.3.

²⁶ Report on the Practice of Nigeria, 1997, Chapter 1.3.

²⁷ Report on the Practice of Pakistan, 1998, Chapter 1.3.

²⁸ Report on the Practice of Spain, 1998, Chapter 1.3.

²⁹ UK, House of Lords, Statement by the Parliamentary Under-Secretary of State for Defence, 22 July 1991, *Hansard*, Vol. 531, Written Answers, col. 43.

³⁰ UK, Written statement submitted to the ICJ, *Nuclear Weapons case*, 16 June 1995, § 3.67.

33. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army pointed out that “the obligation of distinguishing combatants and military objectives from civilians and civilian objects is a shared responsibility of the attacker, defender, and the civilian population as such”.³¹

34. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that Article 48 AP I “is generally regarded as a codification of the customary practice of nations, and therefore binding on all”.³² The report further stated that “the law of war with respect to targeting, collateral damage and collateral civilian casualties is derived from the principle of discrimination; that is, the necessity for distinguishing . . . between legitimate military targets and civilian objects”.³³

35. The Report on the Practice of the SFRY (FRY) states that the “armed conflict in Croatia in which [the] YPA participated was particularly characterized by the disregard of the obligation to respect the distinction between civilian objects and military objectives”. The report considers, however, that:

In evaluating the official position of [the] FRY, it is important to point out that during October 1991 [the] Chief of General Staff of the YPA issued two orders instructing troops to strictly comply with rules of humanitarian law . . . The fact that the YPA had sent a commission of inquiry to Dubrovnik to establish the effects of [the] shelling indicates the awareness of the need to respect the distinction between civilian objects and military objectives. *Opinio juris* existed, however, the relevant rule was not respected in practice.³⁴

36. The Report on the Practice of Zimbabwe refers to the principle of distinction as set forth in Article 52 AP I and states that this principle can undoubtedly be regarded as a customary rule of IHL. The report also points out that the distinction between civilian and military objectives is more problematic in non-international armed conflicts, as guerrillas tend to mingle with the civilian population and civilian facilities, rendering the principle difficult to implement.³⁵

III. Practice of International Organisations and Conferences

37. No practice was found.

³¹ US, Letter from the Department of the Army to the legal adviser of the US armed forces deployed in the Gulf region, 11 January 1991, § 8(E), Report on US Practice, 1997, Chapter 1.4.

³³ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, p. 621.

³⁴ Report on the Practice of the SFRY (FRY), 1997, Chapter 1.3.

³⁵ Report on the Practice of Zimbabwe, 1998, Chapter 1.3.

IV. Practice of International Judicial and Quasi-judicial Bodies

38. In its judgement in the *Blaškić case* in 2000, the ICTY Trial Chamber held that “the parties to the conflict are obliged to attempt to distinguish between military targets and civilian . . . property”.³⁶

V. Practice of the International Red Cross and Red Crescent Movement

39. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that there is a duty to distinguish between civilian objects and military objectives.³⁷

40. In an appeal issued in 1984 in the context of the Iran–Iraq War, the ICRC stated that “in violation of the laws and customs of war, and in particular of the essential principle that military targets must be distinguished from civilian persons and objects, the Iraqi armed forces have continued to bomb Iranian civilian zones”.³⁸

41. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context of the Gulf War, the ICRC stated that “the following general rules are recognized as binding on any party to an armed conflict: . . . a distinction must be made in all circumstances between combatants and military objectives on the one hand, and civilians and civilian objects on the other”.³⁹

42. In a communication to the press in 1993, the ICRC reminded the parties to the conflict in Nagorno-Karabakh of their obligation “to distinguish at all times between combatants and military objectives on the one hand and civilians and civilian property on the other”.⁴⁰

43. In a communication to the press in 1993, the ICRC reminded the parties to the conflict in Georgia of their obligation “to distinguish at all times between combatants and military objectives on the one hand and civilians and civilian objects on the other”.⁴¹

44. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that “a clear distinction must be made in all circumstances between civilians and civilian objects on the one hand and combatants and military objectives on the other”.⁴²

³⁶ ICTY, *Blaškić case*, Judgement, 3 March 2000, § 180.

⁴² ICRC, Memorandum on Respect for International Humanitarian Law in Angola, 8 June 1994, § II, *IRRC*, No. 320, 1997, p. 503.

45. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that “a clear distinction must be made, in all circumstances, between civilian persons who do not participate in confrontations and refrain from acts of violence and civilian objects on the one hand, and combatants and military objectives on the other”.⁴³

VI. Other Practice

46. No practice was found.

Attacks against military objectives

Note: For practice concerning the destruction of enemy property, see Chapter 16.

I. Treaties and Other Instruments

Treaties

47. The preamble to the 1868 St. Petersburg Declaration states that “the only legitimate object which States should endeavour to accomplish during war is to weaken the military forces of the enemy”.

48. Article 2 of 1907 Hague Convention (IX) allows the bombardment of “military works, military or naval establishments, depots of arms or war *matériel*, workshops or plant which could be utilized for the needs of the hostile fleet or army, and the ships of war in the harbour”.

49. Article 48 AP I provides that “in order to ensure respect for and protection of the civilian population and civilian objects, the Parties to the conflict . . . shall direct their operations only against military objectives”. Article 48 AP I was adopted by consensus.⁴⁴

50. Article 52(2) AP I provides that “attacks shall be limited strictly to military objectives”. Article 52 AP I was adopted by 79 votes in favour, none against and 7 abstentions.⁴⁵

51. Upon ratification of AP I, Australia declared that “it is the understanding of Australia that the first sentence of paragraph 2 of Article 52 is not intended to, nor does it, deal with the question of incidental or collateral damage resulting from an attack directed against a military objective”.⁴⁶

52. Upon ratification of AP I, Canada stated that:

It is the understanding of the Government of Canada in relation to Article 52 that . . . the first sentence of paragraph 2 of the Article is not intended to, nor does it,

⁴³ ICRC, Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise, 23 June 1994, § II, reprinted in Marco Sassòli and Antoine A. Bouvier, *How Does Law Protect in War?*, ICRC, Geneva, 1999, p. 1308.

⁴⁶ Australia, Declarations made upon ratification of AP I, 21 June 1991, § 5.

deal with the question of incidental or collateral damage resulting from an attack directed against a military objective.⁴⁷

53. Upon ratification of AP I, France stated that “the Government of the French Republic considers that the first sentence of paragraph 2 of Article 52 does not deal with the question of collateral damage resulting from attacks directed against military objectives”.⁴⁸

54. Upon ratification of AP I, Italy declared that “the first sentence of paragraph 2 of [Article 52] prohibits only such attacks as may be directed against non-military objectives. Such a sentence does not deal with the question of collateral damage caused by attacks directed against military objectives.”⁴⁹

55. Upon ratification of AP I, New Zealand stated that “the first sentence of paragraph 2 of [Article 52] is not intended to, nor does it, deal with the question of incidental or collateral damage resulting from an attack directed against a military objective”.⁵⁰

56. Upon ratification of AP I, the UK stated that:

It is the understanding of the United Kingdom that . . . the first sentence of paragraph 2 [of Article 52] prohibits only such attacks as may be directed against non-military objectives; it does not deal with the question of collateral damage resulting from attacks directed against military objectives.⁵¹

57. Article 24(1) of draft AP II submitted by the ICRC to the CDDH provided that “in order to ensure respect for the civilian population, the parties to the conflict shall confine their operations to the destruction or weakening of the military resources of the adversary”.⁵² This proposal was amended and adopted by consensus in Committee III of the CDDH.⁵³ The approved text provided that “in order to ensure respect and protection for . . . civilian objects, the Parties to the conflict . . . shall direct their operations only against military objectives”.⁵⁴ Eventually, however, it was deleted in the plenary, because it failed to obtain the necessary two-thirds majority (36 in favour, 19 against and 36 abstentions).⁵⁵

Other Instruments

58. Article 24(1) of the 1923 Hague Rules of Air Warfare provides that “aerial bombardment is legitimate only when directed at a military objective”.

⁴⁷ Canada, Reservations and statements of understanding made upon ratification of AP I, 20 November 1990, § 8(b).

⁴⁸ France, Declarations and reservations made upon ratification of AP I, 11 April 2001, § 12.

⁵⁵ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 135.

59. Article 7 of the 1956 New Delhi Draft Rules provides that “in order to limit the dangers incurred by the civilian population, attacks may only be directed against military objectives”.
60. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 52(2) AP I.
61. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 52(2) AP I.
62. Paragraph 41 of the 1994 San Remo Manual states that “attacks shall be strictly limited to military objectives”.
63. Section 5.1 of the 1999 UN Secretary-General’s Bulletin states that “military operations shall be directed only against combatants and military objectives”.

II. National Practice

Military Manuals

64. The principle that attacks must be strictly limited to military objectives is set forth in the military manuals of Australia, Belgium, Benin, Cameroon, Canada, Colombia, Croatia, Ecuador, France, Germany, Indonesia, Italy, Kenya, South Korea, Lebanon, Madagascar, Netherlands, New Zealand, Nigeria, Philippines, Romania, South Africa, Spain, Sweden, Switzerland, Togo, UK and US.⁵⁶
65. The US Air Force Pamphlet explains that:

⁵⁶ Australia, *Defence Force Manual* (1994), §§ 210, 524, 531 and 913; Belgium, *Teaching Manual for Soldiers* (undated), pp. 10 and 20; Belgium, *Law of War Manual* (1983), p. 26; Benin, *Military Manual* (1995), Fascicule I, p. 17, Fascicule II, pp. 5 and 18 and Fascicule III, p. 14; Cameroon, *Instructors’ Manual* (1992), p. 111; Canada, *LOAC Manual* (1999), p. 4-1, § 5; Canada, *Code of Conduct* (2001), Rule 1; Colombia, *Circular on Fundamental Rules of IHL* (1992), § 7; Colombia, *Instructors’ Manual* (1999), p. 17; Croatia, *Basic Rules Manual* (1993), § 7; Croatia, *Commanders’ Manual* (1992), § 9; Ecuador, *Naval Manual* (1989), § 8.1.1; France, *LOAC Manual* (2001), p. 13; Germany, *Military Manual* (1992), § 441; Indonesia, *Military Manual* (undated), § 91; Italy, *IHL Manual* (1991), Vol. I, § 12; Italy, *LOAC Elementary Rules Manual* (1991), § 9; Kenya, *LOAC Manual* (1997), Précis No. 2, p. 15, Précis No. 3, p. 14, and Précis No. 4, p. 1; South Korea, *Military Law Manual* (1996), p. 86; Lebanon, *Teaching Manual* (undated), Article 7; Madagascar, *Military Manual* (1994), Fiche No. 3-O, § 9, see also Fiche 4-T, § 2; Netherlands, *Military Manual* (1993), p. V-1, § 2 and p. V-5; Netherlands, *Military Handbook* (1995), pp. 7-36, 7-39 and 7-43; New Zealand, *Military Manual* (1992), §§ 515(1), 524(1)(c), 622(1) and 624(1)(c); Nigeria, *Military Manual* (1994), p. 39, § 5(b); Nigeria, *Soldiers’ Code of Conduct* (undated), § 2; Philippines, *Soldier’s Rules* (1989), § 2; Romania, *Soldiers’ Manual* (1991), p. 4; South Africa, *LOAC Manual* (1996), § 25(b); Spain, *LOAC Manual* (1996), Vol. I, §§ 2.3.(b).1, 4.1 and 4.5.(b)2; Sweden, *IHL Manual* (1991), Section 3.2.1.5, pp. 41 and 52; Switzerland, *Basic Military Manual* (1987), Articles 25(1) and 28; Togo, *Military Manual* (1996), Fascicule I, p. 18, Fascicule II, pp. 5 and 18 and Fascicule III, p. 14; UK, *Military Manual* (1958), Articles 283 and 288; UK, *LOAC Manual* (1981), Section 4, p. 13, § 4(a); US, *Air Force Pamphlet* (1976), § 5-3(b); US, *Rules of Engagement for Operation Desert Storm* (1991), § 2; US, *Naval Handbook* (1995), § 8.1.1.

The requirement that attacks be limited to military objectives results from several requirements of international law. The mass annihilation of enemy people is neither humane, permissible, nor militarily necessary. The Hague Regulations prohibit destruction or seizure of enemy property "unless such destruction or seizure be imperatively demanded by the necessities of war." Destruction as an end in itself is a violation of international law, and there must be some reasonable connection between the destruction of property and the overcoming of enemy military forces. Various other prohibitions and the Hague Regulations and Hague Convention IX further support the requirement that attacks be directed only at military objectives.⁵⁷

National Legislation

66. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Articles 48 and 52(2) AP I, is a punishable offence.⁵⁸

67. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁵⁹

National Case-law

68. No practice was found.

Other National Practice

69. The Report on the Practice of Angola asserts that military objectives were the only targets of attack during the war of independence, but that the civil war that followed independence was characterised by confusion between military objectives and civilian objects. The report provides a list of examples of alleged attacks against civilian objects.⁶⁰

70. It is reported that, during the War in the South Atlantic, both parties directed their hostile acts only against military objectives.⁶¹

71. At the CDDH, Canada stated that the first sentence of draft Article 47(2) AP I (now Article 52(2)) "prohibits only attacks that could be directed against non-military objectives. It does not deal with the result of a legitimate attack on military objectives and incidental damage that such attack may cause."⁶²

72. In a military communiqué issued during the 1973 Middle East conflict, Egypt emphasised that only military objectives could be attacked.⁶³

⁵⁷ US, *Air Force Pamphlet* (1976), § 5-3(b)(2); see also *Field Manual* (1956), § 56.

⁶³ Egypt, Military Communiqué No. 2, 6 October 1973.

73. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt invoked the requirement to “direct operations only against military objectives”.⁶⁴

74. The instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, state that “attacks may only be directed against military objectives”.⁶⁵

75. At the CDDH, the FRG stated that the first sentence of draft Article 47(2) AP I (now Article 52(2)) “is a restatement of the basic rule contained in Article 43 [now Article 48], namely that the Parties to a conflict shall direct their operations only against military objectives. It does not deal with the question of collateral damage caused by attacks directed against military objectives.”⁶⁶

76. According to the Report on the Practice of Iran, “Iran always insisted that war must be limited to battlefronts . . . and that all targets were military objectives”.⁶⁷

77. The Report on the Practice of Kuwait notes that the choice of targets is strictly limited to military objectives. An attack on a military objective should be allowed only in case of possible gain in the field of operation.⁶⁸

78. The Report on the Practice of Malaysia notes that in practice the security forces direct their attacks only against military targets or targets of military importance.⁶⁹

79. At the CDDH, Mexico stated that it believed Article 47 AP I (now Article 52) to be so essential that it “cannot be the subject of any reservations whatsoever since these would be inconsistent with the aim and purpose of Protocol I and undermine its basis”.⁷⁰

80. At the CDDH, the Netherlands stated that the first sentence of draft Article 47(2) AP I (now Article 52(2)) “prohibits only such attacks as may be directed against non-military objectives and consequently does not deal with the question of collateral damage caused by attacks directed against military objectives”.⁷¹

81. The Report on the Practice of Nigeria states that, during the Nigerian civil war, the Nigerian air force, in its raids against rebel enclaves, distinguished

between military targets and civilian objects, bombing military targets while assiduously avoiding non-military targets.⁷²

82. In 1991, in reports submitted to the UN Security Council on operations in the Gulf War, Saudi Arabia stated that its air force had carried out numerous sorties against “military targets in Iraq and Kuwait, while avoiding civilian targets”.⁷³

83. In 1993 and 1995, the government of Spain made specific statements in connection with the armed conflicts in the Gulf and Bosnia and Herzegovina, endorsing the principle that attacks must be directed only against military objectives.⁷⁴

84. On the basis of a statement by the Syrian Minister of Foreign Affairs before the UN General Assembly in 1997, the Report on the Practice of Syria asserts that Syria considers Article 52(2) AP I to be part of customary international law.⁷⁵

85. In 1938, during a debate in the House of Commons, the UK Prime Minister Neville Chamberlain listed among rules of international law applicable to warfare on land, at sea and from the air the rule that “targets which are aimed at . . . must be legitimate military targets and must be capable of identification”.⁷⁶

86. At the CDDH, the UK stated that it did not interpret the obligation in the first sentence of Article 47(2) AP I (now Article 52(2)) “as dealing with the question of incidental damage caused by attacks directed against military objectives. In its view, the purpose of the first sentence of the paragraph was to prohibit only such attacks as might be directed against non-military objectives.”⁷⁷

87. A training video on IHL produced by the UK Ministry of Defence emphasises that military operations must be directed only against military objectives.⁷⁸

88. In reply to questions in the House of Lords and House of Commons concerning military operations during the Gulf War in 1991, the UK Under-Secretary of State for Defence and the Minister of State for the Armed Forces stated that

it was a policy of the allies to attack only military targets and facilities that sustained Iraq's illegal occupation of Kuwait.⁷⁹

89. In 1950, the US Secretary of State stated that "the air activity of the United Nations forces in Korea has been, and is, directed solely at military targets of the invader".⁸⁰

90. At a news briefing in December 1966, the US Deputy Assistant Secretary of State for Public Affairs stated, with reference to inquiries concerning reported incidents resulting from bombing in the vicinity of Hanoi on 13 and 14 December 1966, that "the only targets struck by U.S. aircraft were military ones, well outside the city proper".⁸¹

91. In December 1966, in reply to an inquiry from a member of the US House of Representatives asking for a restatement of US policy on targeting in North Vietnam, a US Deputy Assistant Secretary of Defense wrote that "United States policy is to target military targets only. There has been no deviation from this policy."⁸²

92. At the CDDH, the US stated that the first sentence of draft Article 47(2) AP I (now Article 52(2)) "prohibits only such attacks as may be directed against non-military objectives. It does not deal with the question of collateral damage caused by attacks directed against military objectives."⁸³

93. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that "the military actions initiated by the United States and other States co-operating with the Government of Kuwait... are directed strictly at military and strategic targets".⁸⁴

94. In 1991, in a diplomatic note to Iraq concerning operations in the Gulf War, the US stated that "the United States and other coalition forces are only attacking targets of military value in Iraq".⁸⁵

95. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that Article 48 AP I "is generally regarded as a codification of the customary practice of nations, and therefore binding

on all".⁸⁶ The report further stated that "CINCCENT [Commander-in-Chief, Central Command] conducted a theater campaign directed solely at military targets".⁸⁷

96. In 1996, in the context of an internal armed conflict, the head of the armed forces of a State confirmed in a meeting with the ICRC that specific instructions had been given to soldiers to limit attacks to military objectives.⁸⁸

III. Practice of International Organisations and Conferences

United Nations

97. In a resolution adopted in 1938 concerning the protection of civilian populations against air bombardment in case of war, the Assembly of the League of Nations stated that "objectives aimed at from the air must be legitimate military targets and must be identifiable".⁸⁹

Other International Organisations

98. No practice was found.

International Conferences

99. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

100. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

101. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that they have an obligation to limit attacks strictly to military targets.⁹⁰

102. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 47(1) of draft AP I which

⁹⁰ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 428.

stated in part that “attacks shall be strictly limited to military objectives”. All governments concerned replied favourably.⁹¹

VI. Other Practice

103. In 1980, an armed opposition group expressed its acceptance of the fundamental principles of IHL as formulated by the ICRC, including the principle that “attacks shall be directed solely against military objectives”.⁹²

104. In 1982, in a meeting with the ICRC, an armed opposition group insisted that it had always limited its attacks to military objectives.⁹³

Attacks against civilian objects in general

Note: *For practice concerning the destruction of enemy property, see Chapter 16.*

I. Treaties and Other Instruments

Treaties

105. Article 52(1) AP I provides that “civilian objects shall not be the object of attack”. Article 52 AP I was adopted by 79 votes in favour, none against and 7 abstentions.⁹⁴

106. Article 2(1) of the 1980 Protocol III to the CCW states that “it is prohibited in all circumstances to make . . . civilian objects the object of attack by incendiary weapons.”

107. Article 3(7) of the 1996 Amended Protocol II to the CCW provides that “it is prohibited in all circumstances to direct [mines, booby-traps and other devices], either in offence, defence or by way of reprisals, against . . . civilian objects”.

108. Pursuant to Article 8(2)(b)(ii) of the 1998 ICC Statute, “intentionally directing attacks against civilian objects, that is, objects which are not military objectives” constitutes a war crime in international armed conflicts.

Other Instruments

109. Pursuant to Article 3(b) of the 1990 Cairo Declaration on Human Rights in Islam, it is prohibited “to destroy the enemy’s civilian buildings and installations by shelling, blasting or any other means”.

110. In the 1991 Hague Statement on Respect for Humanitarian Principles, the Presidents of the six republics of the former Yugoslavia accepted to apply the fundamental principle that “civilian property must not be attacked”.

⁹¹ ICRC, *The International Committee’s Action in the Middle East, IRRIC*, No. 152, 1973, pp. 584–585.

⁹² ICRC archive document. ⁹³ ICRC archive document.

⁹⁴ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 168.

111. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 52(1) AP I.

112. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 52(1) AP I.

113. Section 5.1 of the 1999 UN Secretary-General's Bulletin states that "attacks on . . . civilian objects are prohibited".

114. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(ii), "intentionally directing attacks against civilian objects, that is, objects which are not military objectives" constitutes a war crime in international armed conflicts.

II. National Practice

Military Manuals

115. Military manuals of Argentina, Australia, Belgium, Benin, Cameroon, Canada, Colombia, Croatia, Ecuador, France, Germany, Italy, Kenya, Lebanon, Madagascar, Netherlands, New Zealand, Nigeria, South Africa, Spain, Togo, UK, US and SFRY (FRY) prohibit attacks against civilian objects.⁹⁵

116. Argentina's Law of War Manual provides that intentionally attacking civilian objects is a grave breach.⁹⁶

117. The US Air Force Pamphlet states that:

In addition to the grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: . . . (4) aerial bombardment for the deliberate purpose of . . . destroying protected areas, buildings or objects.⁹⁷

⁹⁵ Argentina, *Law of War Manual* (1989), §§ 4.03 and 4.45; Australia, *Defence Force Manual* (1994), §§ 210, 503(b) and 531; Belgium, *Teaching Manual for Soldiers* (undated), p. 10; Belgium, *Law of War Manual* (1983), pp. 26 and 27; Benin, *Military Manual* (1995), Fascicule III, p. 12; Cameroon, *Instructors' Manual* (1992), p. 150; Canada, *LOAC Manual* (1999), p. 4-4, § 32; Colombia, *Circular on Fundamental Rules of IHL* (1992), § 7; Colombia, *Instructors' Manual* (1999), p. 16; Croatia, *Commanders' Manual* (1992), § 11; Ecuador, *Naval Manual* (1989), § 8.1.2; France, *LOAC Summary Note* (1992), § 1.5; France, *LOAC Manual* (2001), p. 85; Germany, *Military Manual* (1992), § 451; Italy, *IHL Manual* (1991), Vol. I, § 13; Italy, *LOAC Elementary Rules Manual* (1991), § 11; Kenya, *LOAC Manual* (1997), Précis No. 4, p. 2; Lebanon, *Teaching Manual* (undated), Article 7; Madagascar, *Military Manual* (1994), Fiche No. 3-O, § 11; Netherlands, *Military Manual* (1993), p. ⁹⁷ US, *Air Force Pamphlet* (1976), § 15-3(c)(4).

National Legislation

118. Argentina's Draft Code of Military Justice punishes any soldier who

attacks or . . . commits acts of hostilities against civilian objects of the adverse Party, causing their destruction, provided that said acts do not offer a definite military advantage in the circumstances ruling at the time, and that the said objects do not make an effective contribution to the adversary's military action.⁹⁸

119. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "attacking civilian objects" in international armed conflicts.⁹⁹

120. Azerbaijan's Law concerning the Protection of Civilian Persons and the Rights of Prisoners of War provides that, in international and non-international armed conflicts, attacks against civilian objects are prohibited.¹⁰⁰

121. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, it is a war crime in international armed conflicts to intentionally direct attacks against "civilian objects, that is, objects which are not military objectives".¹⁰¹

122. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.¹⁰²

123. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.¹⁰³

124. Under Croatia's Criminal Code, it is a war crime to commit or order the commission of "an attack against . . . civilian objects".¹⁰⁴

125. The Draft Amendments to the Penal Code of El Salvador provide a prison sentence for "anyone who, during an international or non-international armed conflict, attacks civilian objects".¹⁰⁵

126. Under Estonia's Penal Code, "an attack against an object not used for military purposes" is a war crime.¹⁰⁶

127. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, such as

⁹⁸ Argentina, *Draft Code of Military Justice* (1998), Article 293, introducing a new Article 877(2) in the *Code of Military Justice as amended* (1951).

⁹⁹ Australia, *ICC (Consequential Amendments) Act* (2002), Schedule 1, § 268.36.

¹⁰⁰ Azerbaijan, *Law concerning the Protection of Civilian Persons and the Rights of Prisoners of War* (1995), Article 15.

¹⁰¹ Burundi, *Draft Law on Genocide, Crimes against Humanity and War Crimes* (2001), Article 4(B)(b) and (D)(l).

¹⁰² Canada, *Crimes against Humanity and War Crimes Act* (2000), Section 4(1) and (4).

¹⁰³ Congo, *Genocide, War Crimes and Crimes against Humanity Act* (1998), Article 4.

¹⁰⁴ Croatia, *Criminal Code* (1997), Article 158(1).

¹⁰⁵ El Salvador, *Draft Amendments to the Penal Code* (1998), Article entitled "Ataque a bienes protegidos".

¹⁰⁶ Estonia, *Penal Code* (2001), § 106.

“intentionally directing attacks against civilian objects, that is, objects which are not military objectives” in international armed conflicts, is a crime.¹⁰⁷

128. Germany’s Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict, “directs an attack by military means against civilian objects, so long as these objects are protected as such by international humanitarian law”.¹⁰⁸

129. Under Hungary’s Criminal Code as amended, a military commander who “pursues a war operation which causes serious damage to . . . goods of the civilian population” is guilty, upon conviction, of a war crime.¹⁰⁹

130. Under Ireland’s Geneva Conventions Act as amended, any “minor breach” of AP I, including violations of Article 52(1) AP I, is a punishable offence.¹¹⁰

131. Italy’s Law of War Decree as amended states that “bombardment, the sole purpose of which is . . . to destroy or damage objects which are of no military interest,” is prohibited.¹¹¹

132. Under Mali’s Penal Code, “intentionally directing attacks against . . . civilian [objects] which are not military objectives” constitutes a war crime in international armed conflicts.¹¹²

133. Under the International Crimes Act of the Netherlands, “intentionally directing attacks against civilian objects, that is, objects that are not military objectives” is a crime, when committed in an international armed conflict.¹¹³

134. Under New Zealand’s International Crimes and ICC Act, war crimes include the crime defined in Article 8(2)(b)(ii) of the 1998 ICC Statute.¹¹⁴

135. Nicaragua’s Draft Penal Code punishes “anyone who, in the context of an international or internal armed conflict, attacks civilian objects”.¹¹⁵

136. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment”.¹¹⁶

137. Slovakia’s Criminal Code as amended punishes a commander who in a military operation intentionally “causes harm to the . . . property of civilians or the civilian population”.¹¹⁷

¹⁰⁷ Georgia, *Criminal Code* (1999), Article 413(d).

¹⁰⁸ Germany, *Law Introducing the International Crimes Code* (2002), Article 1, § 11(1)(1).

¹¹⁶ Norway, *Military Penal Code as amended* (1902), § 108(b).

¹¹⁷ Slovakia, *Criminal Code as amended* (1961), Article 262(2)(a).

138. Spain's Penal Code punishes

anyone who, during an armed conflict, . . . attacks . . . civilian objects of the adverse party causing their destruction, provided the objects do not, in the circumstances ruling at the time, offer a definite military advantage nor make an effective contribution to the military action of the adversary.¹¹⁸

139. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(ii) of the 1998 ICC Statute.¹¹⁹

140. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(ii) of the 1998 ICC Statute.¹²⁰

141. Under Yemen's Military Criminal Code, "attacks on public and private civilian installations" are war crimes.¹²¹

National Case-law

142. The Report on the Practice of Colombia refers to a decision of the Council of State in 1994 which considered the guerrilla attack on the Palace of Justice as a terrorist attack directed against a civilian object.¹²²

143. In 1997, a court in Croatia sentenced 39 people, both soldiers and commanders, to prison terms ranging from 5 to 20 years on charges which included attacks on civilian property, churches, schools and a dam.¹²³

Other National Practice

144. The Report on the Practice of Belgium states that Belgium considered itself bound by the prohibition of attacks on civilian objects even before the adoption of API.¹²⁴

145. In a letter to the President of the UN Security Council in 1992, Croatia expressed strong protest over attacks it alleged were carried out against the civilian population and civilian facilities in the wider area of the town of Slavonski Brod launched by Serbs from Bosnia and Herzegovina and the UN Protected Area territories in Croatia and which it considered contrary to Articles 51 and 52 API.¹²⁵

146. On the basis of a military communiqué issued by Egypt during the 1973 Middle East conflict, the Report on the Practice of Egypt states that Egypt considers that civilian objects should be immune from attacks. The report also

¹¹⁸ Spain, *Penal Code* (1995), Article 613(1)(b).

¹¹⁹ Trinidad and Tobago, *Draft ICC Act* (1999), Section 5(1)(a).

¹²⁰ UK, *ICC Act* (2001), Sections 50(1) and 51(1) (England and Wales) and Section 58(1) (Northern Ireland).

¹²¹ Yemen, *Military Criminal Code* (1998), Article 21(7).

¹²³ Croatia, District Court of Split, *RA. R. case*, Judgement, 26 May 1997.

¹²⁴ Report on the Practice of Belgium, 1997, Chapter 1.3.

¹²⁵ Croatia, Letter dated 24 August 1992 to the President of the UN Security Council, UN Doc. S/24481, 25 August 1992, p. 3.

refers to a letter from the Counsel of the Egyptian President to the US Secretary of State condemning Israeli attacks on civilian objects.¹²⁶

147. In a declaration on Yugoslavia adopted in 1991, the EC and its member States, the USSR and the US stated that they were “particularly disturbed by reports of continued attacks on civilian targets by elements of the federal armed forces and by both Serbian and Croat irregular forces”.¹²⁷

148. The instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, state that “civilian property shall not be made the object of attack”.¹²⁸

149. According to the Report on the Practice of Iran, during the Iran–Iraq War, Iranian authorities, including the Ministry of Foreign Affairs and the parliament, condemned Iraqi attacks on civilian objects, which Iran always regarded as war crimes. The report further points out that Iran always insisted that war must be limited to battlefronts and that it had no intention of attacking civilian objects. When Iraq accused Iran of bombarding civilian targets, Iranian military communiqués denied these allegations and claimed that Iranian attacks were limited to military or economic facilities. The report concludes that “in practice, civilian objects were not targeted, except [in] reprisal”.¹²⁹

150. In 1984, in reply to criticism for alleged attacks against civilian objects during the hostilities against Iran, the President of Iraq stated that “our aircraft did not bomb civilian targets in Baneh during their raid of 5 June; they bombed a camp in which a large body of Iranian forces was concentrated”.¹³⁰

151. At the CDDH, Mexico stated that it believed draft Article 47 AP I (now Article 52) to be so essential that it “cannot be the subject of any reservations whatsoever since these would be inconsistent with the aim and purpose of Protocol I and undermine its basis”.¹³¹

152. In a communiqué issued in 1992, the Council of Ministers of Mozambique stated that it considered that:

¹²⁶ Report on the Practice of Egypt, 1997, Chapter 1.3, referring to Military Communiqué No. 63, 26 October 1973 and Letter from Hafez Ismail, Counsel to the Egyptian President, to Henry Kissinger, US Secretary of State, 11 October 1973.

¹²⁷ EC, USSR and US, Declaration on Yugoslavia, The Hague, 18 October 1991, annexed to Letter dated 21 October 1991 from the Netherlands, the USSR and the US to the UN Secretary-General, UN Doc. A/C.1/46/11, 24 October 1991.

¹²⁸ France, Etat-major de la Force d’Action Rapide, Ordres pour l’Opération Mistral, 1995, Section 6, § 66.

¹³¹ Mexico, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 193.

RENAMO's behaviour, namely . . . launching offensives against civilian targets, in a deliberate strategy of conquest of territories and strategic positions . . . constitutes a grave and systematic violation that seriously jeopardizes the General Peace Agreement.¹³²

153. The Report on the Practice of Russia considers that while there are no clear-cut criteria of distinction between military objectives and civilian objects, the relevant military instructions refer to the prohibition of attacks on civilian objects and the protection of these objects.¹³³

154. The Report on the Practice of Rwanda considers the prohibition on targeting civilian objects as a required precaution in attack.¹³⁴

155. In 1992, in a note verbale addressed to the UN Secretary-General, Slovenia expressed its readiness to provide information concerning violations of IHL committed by members of the Yugoslav Army during the 10-day conflict with Slovenia, including "bombing, shooting and destroying civilian targets and private property".¹³⁵

156. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Sweden stated that "under the principle of distinction, an attack on a civilian population or civilian property is prohibited".¹³⁶

157. In 1996, during a debate in the UN Security Council on the situation in Lebanon, the UAE stated that arbitrary bombings of civilian regions were a violation of IHL and of GC IV and referred to an ICRC statement condemning such actions on the part of Israel.¹³⁷

158. At the CDDH, following the adoption of draft Article 47 AP I (now Article 52), the UK stated that it "welcomed the reaffirmation, in paragraph 2, of the customary law rule that civilian objects must not be the direct object of attack".¹³⁸

159. In 1996, during a debate in the UN Security Council on the situation in Lebanon, the UK stated that attacks directed at civilian targets must be put to an end.¹³⁹

160. In 1966, in reply to an inquiry from a member of the US House of Representatives asking for a restatement of US policy on targeting in North Vietnam,

¹³² Mozambique, Communiqué issued by the Council of Ministers, 20 October 1992, annexed to Letter dated 23 October 1992 to the UN Secretary-General, UN Doc. S/24724, 28 October 1992, p. 4.

a US Deputy Assistant Secretary of Defense wrote that “no United States aircraft have been ordered to strike any civilian targets in North Vietnam at any time . . . We have no knowledge that any pilot has disobeyed his orders and deliberately attacked these or any other nonmilitary targets in North Vietnam.”¹⁴⁰

161. In 1974, at the Lucerne Conference of Government Experts on Weapons which may Cause Unnecessary Suffering or have Indiscriminate Effects, the head of the US delegation stated that “the law of war also prohibits attacks on civilians and civilian objects as such”.¹⁴¹

162. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that “over 52,000 coalition air sorties have been carried out since hostilities began on 16 January. These sorties were not flown against any civilian or religious targets.”¹⁴²

163. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that:

The United States considers the obligations to protect natural, civilian, and cultural property to be customary international law . . . Cultural property, civilian objects, and natural resources are protected from intentional attack so long as they are not utilized for military purposes.¹⁴³

III. Practice of International Organisations and Conferences

United Nations

164. In a resolution on Lebanon adopted in 1996, the UN Security Council stated that it was gravely concerned by all attacks on civilian targets.¹⁴⁴

165. In a resolution adopted in 1999 on the protection of civilians in armed conflicts, the UN Security Council strongly condemned “attacks on objects protected under international law” and called on all parties “to put an end to such practices”.¹⁴⁵

166. In 1995, in a statement by its President, the UN Security Council condemned “any shelling of civilian targets” in and around Croatia.¹⁴⁶

¹⁴⁰ US, Letter from Deputy Assistant Secretary of Defense Goulding to US Representative Ogden Reid from New York, 30 December 1966, reprinted in Marjorie Whiteman, *Digest of International Law*, Vol. 10, Department of State Publication 8367, Washington, D.C., 1968, p. 428.

¹⁴⁶ UN Security Council, Statement by the President, UN Doc. S/PRST/1995/38, 4 August 1995, p. 1.

167. In a resolution adopted in 1938 concerning the protection of civilian populations against air bombardment in case of war, the Assembly of the League of Nations stated that “objectives aimed at from the air must be legitimate military objectives and must be identifiable”.¹⁴⁷

168. In a resolution adopted in 1995, the UN General Assembly condemned “the use of cluster bombs on civilian targets by Bosnian Serb and Croatian Serb forces”.¹⁴⁸

169. In a resolution adopted in 1996 on the situation of human rights in Sudan, the UN General Assembly urged the government of Sudan “to cease immediately all aerial attacks on civilian targets and other attacks that are in violation of international humanitarian law”.¹⁴⁹

170. In a resolution adopted in 1993 on the situation of human rights in the former Yugoslavia and in Bosnia and Herzegovina, the UN Commission on Human Rights condemned “attacks against non-military targets”.¹⁵⁰

171. In a resolution adopted in 1994 on the situation of human rights in Bosnia and Herzegovina, the UN Commission on Human Rights condemned the “attacks against civilian targets”.¹⁵¹

172. In a resolution adopted in 1994, the UN Commission on Human Rights called upon the government of Sudan “to explain without delay the circumstances of the recent air attacks on civilian targets in southern Sudan”.¹⁵²

173. In a resolution adopted in 1995, the UN Commission on Human Rights condemned “the use of cluster and napalm bombs against civilian targets by Bosnian and Croatian Serb forces”.¹⁵³

174. In 1996, in a report on UNIFIL in Lebanon, the UN Secretary-General noted that in the text of a partial ceasefire concluded on 27 April 1996, Israel agreed not to fire or aim any kind of weapon at civilians or civilian targets in Lebanon.¹⁵⁴

175. The prohibition of direct attacks against civilian objects was a constant preoccupation in the periodic reports on the situation of human rights in the former Yugoslavia submitted by the Special Rapporteur of the UN Commission on Human Rights. For example, in his third report in 1993, the Special Rapporteur considered the shelling of civilian objects as a feature of the situation in Bosnia and Herzegovina, citing the bombing of the central mosque in Sarajevo and of the city of Dobrinja.¹⁵⁵ In the final recommendations of his fifth periodic

report, the Special Rapporteur requested that in the conduct of hostilities in the UN Protected Areas, the parties refrain from all further shelling of civilian objects.¹⁵⁶

176. In 1994, in its final report on grave breaches of the Geneva Conventions and other violations of IHL committed in the former Yugoslavia, the UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992) stated that:

The concealment of Bosnian Government forces among civilian property may have caused the attraction of fire from the Bosnian Serb Army which may have resulted in legitimate collateral damage. There is enough apparent damage to civilian objects in Sarajevo to conclude that either civilian objects have been deliberately targeted or they have been indiscriminately attacked.¹⁵⁷

Other International Organisations

177. Addressing the President of the UN Security Council as members of the Contact Group of the OIC in 1992, Egypt, Iran, Pakistan, Saudi Arabia, Senegal and Turkey protested against “the continued aggression of the Serbian elements who, through artillery and air attacks on civilian targets, continue to violate the principles of the Charter of the United Nations, international humanitarian law and the basic norms of civilized behaviour”.¹⁵⁸

International Conferences

178. The Plan of Action for the years 2000–2003 adopted in 1999 by the 27th International Conference of the Red Cross and Red Crescent requested that all the parties to an armed conflict take effective measures to ensure that:

in the conduct of hostilities, every effort is made – in addition to the total ban on directing attacks against the civilian population as such or against civilians not taking a direct part in hostilities or against civilian objects – . . . to protect civilian objects including cultural property, places of worship and diplomatic facilities.¹⁵⁹

IV. Practice of International Judicial and Quasi-judicial Bodies

179. In its advisory opinion in the *Nuclear Weapons case* in 1996, the ICJ stated that “the cardinal principles contained in the texts constituting the fabric of

¹⁵⁶ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Fifth periodic report, UN Doc. E/CN.4/1994/47, 17 November 1993, §§ 10, 45, 65–67, 92–96, 161–164 and 235.

¹⁵⁷ UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992), Final report, UN Doc. S/1994/674, 27 May 1994, Annex, § 206.

¹⁵⁸ OIC, Contact Group on Bosnia and Herzegovina, Letter dated 5 October 1992 from Egypt, Iran, Pakistan, Saudi Arabia, Senegal and Turkey to the President of the UN Security Council, UN Doc. S/24620, 6 October 1992, p. 1.

¹⁵⁹ 27th International Conference of the Red Cross and Red Crescent, Geneva, 31 October–6 November 1999, Res. I, Annex 2, Plan of Action for the years 2000–2003, Actions proposed for final goal 1.1, § 1(a).

humanitarian law are the following. The first is aimed at the protection of the civilian population and civilian objects.”¹⁶⁰

180. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that:

The protection of civilians in time of armed conflict, whether international or internal, is the bedrock of modern humanitarian law . . . Indeed, it is now a universally recognised principle, recently restated by the International Court of Justice [in the *Nuclear Weapons case*], that deliberate attacks on civilians or civilian objects are absolutely prohibited by international humanitarian law.¹⁶¹

181. In the *Blaškić case* before the ICTY in 1997, the accused was charged with “unlawful attack on civilian objects” in violation of the laws or customs of war.¹⁶² In its judgement in 2000, the ICTY Trial Chamber held that “the parties to the conflict are obliged to attempt to distinguish between military targets and civilian persons or property. Targeting civilians or civilian property is an offence when not justified by military necessity.”¹⁶³ It found the accused guilty of “a violation of the laws or customs of war under Article 3 of the Statute and recognised by Article 52(1) of Additional Protocol I: unlawful attacks on civilian objects”.¹⁶⁴

182. In the *Kordić and Čerkez case* before the ICTY in 1998, the accused were charged with “unlawful attack on civilian objects” in violation of the laws or customs of war.¹⁶⁵ In an interlocutory decision in this case in 1999, the ICTY Trial Chamber held that it was “indisputable” that the prohibition of attacks on civilian objects was a generally accepted obligation and that as a consequence, “there is no possible doubt as to the customary status” of Article 52(1) AP I as it reflects a core principle of humanitarian law “that can be considered as applying to all armed conflicts, whether intended to apply to international or non-international conflicts”.¹⁶⁶ In its judgement in 2001, the ICTY Trial Chamber stated that:

Prohibited attacks are those launched deliberately against . . . civilian objects in the course of an armed conflict and are not justified by military necessity. They must have caused . . . extensive damage to civilian objects. Such attacks are in direct contravention of the prohibitions expressly recognised in international law including the relevant provisions of Additional Protocol I.¹⁶⁷

¹⁶⁵ ICTY, *Kordić and Čerkez case*, First Amended Indictment, 30 September 1998, §§ 40 and 41, Counts 4 and 6.

¹⁶⁶ ICTY, *Kordić and Čerkez case*, Decision on the Joint Defence Motion, 2 March 1999, § 31.

¹⁶⁷ ICTY, *Kordić and Čerkez case*, Judgement, 26 February 2001, § 328.

The Tribunal found the accused guilty of “a violation of the laws or customs of war, as recognised by Article 3 [of the ICTY Statute] (unlawful attack on civilian objects)”.¹⁶⁸

183. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that:

Attacks which are not directed against military objectives (particularly attacks directed against the civilian population) . . . may constitute the *actus reus* for the offence of unlawful attack [as a violation of the laws and customs of war]. The *mens rea* for the offence is intention or recklessness, not simple negligence.¹⁶⁹

V. Practice of the International Red Cross and Red Crescent Movement

184. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “civilian objects may not be attacked, unless they become military objectives”.¹⁷⁰

185. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 47(2) of draft AP I which stated in part that “objects which are not military objectives shall not be made the object of attack, except if they are used mainly in support of the military effort”. All governments concerned replied favourably.¹⁷¹

186. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context of the Gulf War, the ICRC stated that “the following general rules are recognized as binding on any party to an armed conflict: . . . It is forbidden to attack civilian persons or objects.”¹⁷²

187. In a joint statement issued in 1991, the Yugoslav Red Cross and the Hungarian Red Cross expressed their deep concern about “the protracting internal conflict in Yugoslavia” and urged the parties to the conflict “to save all non-military targets . . . and not to use them for military purposes”.¹⁷³

188. In a communication to the press in 1993, the ICRC reminded the parties to the conflict in Nagorno-Karabakh of their obligation “to refrain from attacking civilians and civilian property”.¹⁷⁴

¹⁶⁸ ICTY, *Kordić and Čerkez case*, Judgement, 26 February 2001, Section V, Disposition.

¹⁷⁴ ICRC, Communication to the Press No. 93/25, Nagorno-Karabakh conflict: 60,000 civilians flee fighting in south-western Azerbaijan, 19 August 1993.

189. In a communication to the press in 1993, the ICRC reminded the parties to the conflict in Georgia of their obligation “to refrain from attacking civilians and civilian property”.¹⁷⁵

190. In a press release issued in 1994 in the context of the conflict in Yemen, the ICRC stated that “attacks against civilians and civilian property are prohibited”.¹⁷⁶

191. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that “attacks on civilians or civilian objects are prohibited”.¹⁷⁷

192. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that “it is prohibited to direct attacks against civilian persons or objects”.¹⁷⁸

193. In a communication to the press in 2000, the ICRC reminded both the Sri Lankan security forces and the LTTE of their obligation to comply with IHL, which provided for the protection of the civilian population against the effects of the hostilities. The ICRC called on both parties to ensure that the civilian population and civilian property were protected and respected at all times.¹⁷⁹

VI. Other Practice

194. In 1979, an armed group wrote to the ICRC to confirm its commitment to IHL and to denounce attacks against civilian objectives it claimed had been carried out by one of the parties to the conflict.¹⁸⁰

195. In 1980, an armed opposition group expressed its acceptance of the fundamental principles of IHL as formulated by the ICRC, including the principle that “the parties to the conflict shall at all times distinguish between the civilian population and combatants in order to spare the civilian population and civilian objects”.¹⁸¹

196. In their commentary on the 1977 Additional Protocols, Bothe, Partsch and Solf state that:

The concept of general protection [in Article 13(1) AP II], however, is broad enough to cover protections which flow as necessary inferences from other provisions of

¹⁷⁵ ICRC, Communication to the Press No. 93/31, Georgia: ICRC Activities in Abkhazia, 20 September 1993.

¹⁷⁶ ICRC, Press Release No. 1773, Fighting in Yemen, 9 May 1994; see also Press Release No. 1775, Yemen: ICRC active on both sides appeals to belligerents, 12 May 1994.

Protocol II. Thus, while there is no explicit provision affording general protection for civilian objects other than the special objects covered by Arts. 14 to 16, the protection against direct attack of para. 2 also precludes attacks against civilian objects used as dwellings or otherwise occupied by civilians not then supporting the military effort. The definition of civilian objects in Art. 52(2) of Protocol I provides the basis for construing the extent of such protection of civilian objects.¹⁸²

197. In 1992, an armed opposition group requested that the ICRC put pressure on the government to stop the aerial bombardment of civilian objects.¹⁸³

198. In 2001, in a report on Israel and the occupied territories, Amnesty International stated that:

It is a basic rule of customary international law that civilians and civilian objects must never be made the targets of an attack. This rule applies in all circumstances including in the midst of full-scale armed conflict. Due to its customary nature it is binding on all parties. Israel is prohibited from attacking civilians and civilian objects. Palestinians are also prohibited from targeting Israeli civilians, including settlers who are not bearing arms, and civilian objects.¹⁸⁴

Attacks against places of civilian concentration

Note: For practice concerning attacks on open towns and non-defended localities, see Chapter 11, section C. For practice concerning attacks against buildings dedicated to religion, education, art, science or charitable purposes, see Chapter 12, section A.

I. Treaties and Other Instruments

Treaties

199. No practice was found.

Other Instruments

200. Article 6 of the 1956 New Delhi Draft Rules states that "it is also forbidden to attack dwellings, installations . . . which are for the exclusive use of, and occupied by, the civilian population".

II. National Practice

Military Manuals

201. Cameroon's *Instructors' Manual* prohibits the bombardment of residential areas.¹⁸⁵

¹⁸² Michael Bothe, Karl Joseph Partsch, Waldemar A. Solf (eds.), *New Rules for Victims of Armed Conflicts*, Martinus Nijhoff, The Hague, 1982, p. 677.

¹⁸³ ICRC archive document.

¹⁸⁵ Cameroon, *Instructors' Manual* (1992), pp. 111 and 150.

202. The Military Manual of the Dominican Republic states that “under the laws of war, you are not allowed to attack villages, towns, or cities. However, when your mission requires, you are allowed to engage enemy troops, equipment, or supplies in a village, town or city”.¹⁸⁶

203. Ecuador’s Naval Manual states that “the wanton or deliberate destruction of areas of concentrated civilian habitation, including cities, towns, and villages, is prohibited”.¹⁸⁷

204. Indonesia’s Directive on Human Rights in Irian Jaya and Maluku provides that “towns, villages and residences, even if used for food-stuff and equipment stockpile, should not be attacked”.¹⁸⁸

205. Romania’s Soldiers’ Manual states that “attacks of cities [and] villages” are prohibited.¹⁸⁹

206. The US Rules of Engagement for Operation Desert Storm gives the following instruction:

Do not fire into civilian populated areas or buildings which are not defended or being used for military purposes. [S]chools . . . will not be engaged except in self-defense. Do not attack traditional civilian objects, such as houses, unless they are being used by the enemy for military purposes and neutralization assists in mission accomplishment.¹⁹⁰

207. The US Naval Handbook states that “the wanton or deliberate destruction of areas of concentrated civilian habitation, including cities, towns, and villages, is prohibited”.¹⁹¹

National Legislation

208. Azerbaijan’s Criminal Code provides that “directing attacks against . . . living places” constitutes a war crime in international and non-international armed conflicts.¹⁹²

209. Under the Criminal Code of the Federation of Bosnia and Herzegovina, it is a war crime to commit or order the commission of “an attack on . . . a [civilian] settlement”.¹⁹³ The Criminal Code of the Republika Srpska contains the same provision.¹⁹⁴

210. Under Croatia’s Criminal Code, it is a war crime to commit or order the commission of “an attack against . . . [civilian] settlements”.¹⁹⁵

¹⁸⁶ Dominican Republic, *Military Manual* (1980), p. 3.

¹⁹⁴ Bosnia and Herzegovina, Republika Srpska, *Criminal Code* (2000), Article 433(1).

¹⁹⁵ Croatia, *Criminal Code* (1997), Article 158(1).

211. Under Slovenia's Penal Code, it is a war crime to commit or order the commission of "an attack . . . on built-up areas".¹⁹⁶

212. Uruguay's Military Penal Code as amended punishes anyone who carries out "an unjustified attack against . . . schools".¹⁹⁷

213. Under the Penal Code as amended of the SFRY (FRY), it is a war crime to commit or order the commission of "an attack on . . . a [civilian] settlement".¹⁹⁸

National Case-law

214. No practice was found.

Other National Practice

215. In 1996, during a debate in the UN Security Council, in a brief report of alleged violations of IHL by the Taliban, Afghanistan stated that, during the 1994 failed coup, more than 3,000 rockets had rained down on the innocent civilian population of Kabul and on residential areas of the town.¹⁹⁹

216. In 1992, in letters addressed to the UN Secretary-General and President of the UN Security Council respectively, Azerbaijan referred to data provided to the UN Fact-Finding Mission in the region concerning illegal actions by Armenia, including the destruction of and damage caused to residential buildings.²⁰⁰

217. In 1996, during a debate in the UN Security Council, Botswana commented on the numerous violations of the fundamental human rights of the Afghan civilian population documented by international human rights organisations, listing among such violations the bombing of residential areas.²⁰¹

218. In 1972, in a statement before the UNESCO General Conference, China criticised the US for having "wantonly bombarded Vietnamese cities and villages".²⁰²

219. In 1993, the German Chancellor strongly criticised the "brutal siege and the shelling of the Muslim town of Srebrenica".²⁰³

220. In reply to a message of 9 June 1984 from the UN Secretary-General, the President of Iran stated that:

In the course of more than three and a half years since the beginning of this war, Iraq has repeatedly attacked our residential areas in contravention of all international

and humanitarian principles . . . The Government of the Islamic Republic of Iran, however, in order to show its good faith, responds positively to your proposal on ending attacks on residential areas . . . I deem it necessary to underline that the good will shown by the Islamic Republic of Iran in response to your proposal to stop attacks on civilian areas is conditional on the total ending of the Iraqi régime's criminal acts of bombarding Iranian cities.²⁰⁴

221. In 1991, in a letter addressed to the UN Secretary-General during the Gulf War, Iran stated that:

In accordance with the same principles governing its foreign policy and consistent with the very strong and clear position adopted against bombardment of civilian areas in Iraq by allied forces, the Islamic Republic of Iran cannot remain but alarmed at numerous reports of horrifying attacks by government forces against innocent civilians.²⁰⁵

222. According to the Report on the Practice of Iran, during the Iran-Iraq War, the Iranian authorities accused Iraq on many occasions of having carried out attacks on civilian objects such as schools, houses, hospitals and refugee camps.²⁰⁶

223. In 1983, Iraq's Deputy Prime Minister and Minister for Foreign Affairs declared the readiness of Iraq "to sign a special peace treaty between Iraq and Iran, under United Nations supervision, wherein the two parties undertake not to attack towns and villages on the two sides, in spite of the continuation of the war".²⁰⁷

224. In reply to a message from the UN Secretary-General of 9 June 1984, the President of Iraq stated that:

I wish to remind you, first of all, that since the armed conflict began the Iranian side has continually resorted to the bombing of our frontier towns and villages and other civilian targets and for a long time persisted in denying it even after the facts had been verified by the United Nations mission . . . I would also like to remind you that, in June 1983, on behalf of Iraq I took the initiative of proposing the conclusion under international auspices of an agreement between Iran and Iraq under which the two parties would refrain from bombing civilian targets . . . I therefore have the pleasure to inform you that the Iraqi Government accepts your proposal on condition that Iran is committed thereby, and that you make effective arrangements as soon as possible to supervise the implementation by the two parties of their commitments.²⁰⁸

225. The Report on the Practice of Jordan states that Islam prohibits attacks against civilians and mentions an order given by Caliph Abu Bakr (632–634 AD) proscribing the destruction of any dwelling. The report adds that, considering the time at which it was issued, this order should be highly esteemed.²⁰⁹

226. In 1996, during a debate in the UN Security Council on the situation in Lebanon, South Korea called upon both parties to the conflict to cease targeting areas populated by civilians.²¹⁰

227. In 1971, during a debate in the Third Committee of the UN General Assembly concerning respect for human rights in armed conflicts, Liberia stated that it “agreed wholeheartedly with the principle that . . . dwellings . . . should not be the object of military operations as affirmed in [principle 5] of General Assembly resolution 2675 (XXV)”.²¹¹

228. In 1993, in a declaration concerning a report on violations of human rights in Rwanda, the Rwandan government asked the FPR to cease all attacks against civilian targets such as camps for displaced persons, hospitals and schools.²¹²

229. On the basis of replies by army officers to a questionnaire, the Report on the Practice of Rwanda states that an attack against civilians can be defined as an attack against purely civilian targets such as a town or a village exclusively inhabited by civilians.²¹³

230. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, Saudi Arabia stated that “the cities of the Kingdom of Saudi Arabia have been bombarded by 26 missiles, which have landed in purely civilian localities of no military value”.²¹⁴

231. In 1986, during a debate in the UN Security Council concerning the Iran–Iraq War, the UK voiced strong criticism of the recurrent bombing of civilian centres, qualifying it as a violation of international law under the Geneva Conventions.²¹⁵

232. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US denounced Iraq’s firing of surface-to-surface missiles at Saudi Arabia and Israel and stated that “particularly in regard to Israel, Iraq

has targeted these missiles against civilian areas in an obvious sign of Iraqi disregard for civilian casualties".²¹⁶

III. Practice of International Organisations and Conferences

United Nations

233. In a resolution adopted in 1983 in the context of the Iran–Iraq War, the UN Security Council condemned "all violations of international humanitarian law, in particular, the provisions of the Geneva Conventions of 1949 in all their aspects, and calls for the immediate cessation of all military operations against civilian targets, including city and residential areas".²¹⁷

234. In a resolution adopted in 1986 in the context of the Iran–Iraq War, the UN Security Council deplored "the bombing of purely civilian population centres".²¹⁸ This statement was repeated in a subsequent resolution adopted in 1987.²¹⁹

235. In a resolution on Lebanon adopted in 1996, the UN Security Council condemned attacks on civilian targets, including residential areas.²²⁰

236. In a resolution on Georgia adopted in 1998, the UN Security Council condemned the deliberate destruction of houses by Abkhaz forces.²²¹

237. In a resolution adopted in 1999 on children in armed conflicts, the UN Security Council strongly condemned "attacks on objects protected under international law, including places that usually have a significant presence of children such as schools and hospitals" and called on all parties concerned "to put an end to such practices".²²²

238. In 1986, in a statement by its President in the context of the Iran–Iraq War, the UN Security Council declared that:

The members of the Security Council continue to deplore the violation of international humanitarian law and other laws of armed conflict. They express their deepening concern over the widening of the conflict through the escalation of attacks on purely civilian targets, on merchant shipping and oil installations of the littoral States.²²³

239. In 1988, in a statement by its President in the context of the Iran–Iraq War, the UN Security Council declared that:

²¹⁶ US, Letter dated 30 January 1991 to the President of the UN Security Council, UN Doc. S/22173, 30 January 1991, p. 2; see also Letter dated 22 January 1991 to the President of the UN Security Council, UN Doc. S/22130, 22 January 1991, pp. 1–2; and Letter dated 8 February 1991 to the President of the UN Security Council, UN Doc. S/22216, 13 February 1991, p. 2.

²¹⁷ UN Security Council, Res. 540, 31 October 1983, § 2.

²¹⁸ UN Security Council, Res. 582, 24 February 1986, § 2.

²¹⁹ UN Security Council, Res. 598, 20 July 1987, preamble.

²²⁰ UN Security Council, Res. 1052, 18 April 1996, preamble, § 5.

²²¹ UN Security Council, Res. 1187, 30 July 1998, § 4.

²²² UN Security Council, Res. 1261, 25 August 1999, § 2, see also § 18.

²²³ UN Security Council, Statement by the President, UN Doc. S/PV.2730, 22 December 1986, p. 3.

The members of the Security Council . . . strongly deplore the escalation of the hostilities between [Iran and Iraq], particularly against civilian targets and cities that have taken a heavy toll in human lives and caused vast material destruction, in spite of the declared readiness of the belligerent parties to cease such attacks.²²⁴

240. In 1998, in a statement by its President, the UN Security Council strongly condemned “the targeting of children in armed conflicts” and expressed its readiness “to consider appropriate responses whenever buildings or sites that usually have a significant presence of children such as, *inter alia*, schools, playgrounds, hospitals, are specifically targeted”.²²⁵

241. In Resolution 2675 (XXV) adopted in 1970, the UN General Assembly stated that:

Dwellings and other installations that are used only by civilian populations should not be the object of military operations. Places or areas designated for the sole protection of civilians, such as hospital zones or similar refuges, should not be the object of military operations.²²⁶

242. In a resolution adopted in 1995 on the situation of human rights in the former Yugoslavia, the UN General Assembly condemned “the shelling of residential areas”.²²⁷

243. The UN Commission on Human Rights has repeatedly condemned attacks against villages in the conflict in southern Lebanon. In 1989, for example, the Commission condemned the bombing of villages and civilian populations and qualified such acts as a violation of human rights.²²⁸ Further resolutions referred to the bombardment of villages and civilian areas in southern Lebanon as a violation of human rights.²²⁹

244. In a resolution adopted in 1994 on the situation of human rights in the former Yugoslavia, the UN Commission on Human Rights condemned “the deliberate, murderous shelling” of cities and other civilian areas.²³⁰

245. In a resolution adopted in 1994 on the human rights situation in Iraq, the UN Commission on Human Rights reiterated its deep concern about the destruction of Iraqi towns and villages.²³¹

246. In a resolution adopted in 1998 concerning the human rights situation in southern Lebanon and western Bekaa, the UN Commission on Human rights deplored “the continued Israeli violations of human rights in the occupied

²³⁰ UN Commission on Human Rights, Res. 1994/72, 9 March 1994, § 7, see also § 32.

²³¹ UN Commission on Human Rights, Res. 1994/74, 9 March 1994, preamble.

zone, demonstrated in particular by . . . the bombardment of peaceful villages and civilian areas, and other practices violating the most fundamental principles of human rights".²³²

247. In 1995, following consultations, the Chairman of the UN Commission on Human Rights issued a statement indicating the consensus of the Commission concerning the situation of human rights in Chechnya, in which the Commission especially deplored "the serious destruction of installations and infrastructure used by civilians".²³³ In a further statement in 1996, the Chairman of the Commission repeated that such wilful destruction was reprehensible and called upon the parties to desist immediately and permanently from any bombardment of civilian towns and villages.²³⁴

248. In resolutions adopted in 1988 and 1989 in the context of the situation in the Israeli-occupied territories, the UN Sub-Commission on Human Rights reaffirmed that GC IV was applicable and considered that attacking and destroying properties and homes was a war crime under international law.²³⁵

249. On 9 June 1984, in a message addressed to the Presidents of Iran and Iraq, the UN Secretary-General stated that:

Deliberate military attacks on civilian areas cannot be condoned by the international community . . . Therefore, I call upon the Governments of the Republic of Iraq and of the Islamic Republic of Iran to declare to the Secretary-General of the United Nations that each undertakes a solemn commitment to end, and in the future refrain from initiating, deliberate military attacks, by aerial bombardment, missiles, shelling or other means, on purely civilian population centres.²³⁶

250. In a statement to the UN Security Council in 1992, the UN Secretary-General reported that "heavy artillery has been used against the civilian population" during the bombardment of the area of Dobrinja, a suburb of Sarajevo close to the airport, adding that these attacks were occurring "despite an agreement . . . by the Serb side to stop shelling civilian areas".²³⁷

251. In 1996, in a report on UNIFIL in Lebanon, the UN Secretary-General referred to an agreement adopted in the summer of 1993. Although the document was not transmitted to the UN, the Secretary-General stated that, based on public statements by Israeli and Hezbollah officials, "it would appear that the Islamic Resistance agreed to refrain from targeting villages and towns in northern Israel, while IDF agreed to refrain from doing the same in Lebanon;

²³⁷ UN Secretary-General, Statement to the UN Security Council, 26 June 1992, UN Doc. S/24201, 29 June 1992, p. 1.

there has been no mention of limitations concerning attacks on military targets".²³⁸

252. In 1998, in a report on the situation in Sierra Leone, the UN Secretary-General noted that the office of his Special Envoy continued to receive information about the "destruction of residential and commercial premises and property."²³⁹

253. In 1998, in a report on UNOMSIL in Sierra Leone, the UN Secretary-General mentioned that elements of the former junta continued to shell population centres such as Koidu and Daru.²⁴⁰

254. In 1993, in a report on the situation of human rights in the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights condemned the parties to the conflict for the shelling of civilian objects, including residential areas, houses, apartments and schools.²⁴¹

Other International Organisations

255. In 1982, during a debate in the UN General Assembly, Denmark condemned, on behalf of the EC, the invasion of Lebanon by Israeli forces and in particular the bombardment of residential areas in Beirut.²⁴²

256. In a resolution adopted in 1992 on the crisis in the former Yugoslavia, the Parliamentary Assembly of the Council of Europe severely criticised the YPA for the repeated shelling of Dubrovnik and other Croatian cities.²⁴³

257. In a resolution adopted in 1992 on the situation in Bosnia and Herzegovina, the OIC Conference of Ministers of Foreign Affairs expressed its strong condemnation of the deliberate destruction of cities.²⁴⁴

International Conferences

258. In 1993, in a report submitted to the President of the UN Security Council, the Chairman of the Minsk Conference of the CSCE on Nagorno-Karabakh suggested that an official Security Council denunciation should be made of all bombardments and shelling of inhabited areas and population centres in the area of conflict.²⁴⁵

IV. Practice of International Judicial and Quasi-judicial Bodies

259. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

260. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 47(2) of draft AP I which stated in part that “objects designed for civilian use, such as houses, dwellings, installations . . . shall not be made the object of attack, except if they are used mainly in support of the military effort”. All governments concerned replied favourably.²⁴⁶

261. In a press release issued in 1984 in the context of the Iran–Iraq War, the ICRC stated that:

In violation of the laws and customs of war, and in particular of the essential principle that military targets must be distinguished from civilian persons and objects, the Iraqi armed forces have continued to bomb Iranian civilian zones. The result was loss of human life on a large scale, and widespread destruction of strictly civilian objects.²⁴⁷

262. In a letter to the Ministry of Defence of a State in 1994, the ICRC pointed out that “the deliberate bombardment of a residential area is a serious violation of the law”.²⁴⁸

VI. Other Practice

263. In 1979, an armed opposition group wrote to the ICRC to confirm its commitment to IHL and stated in particular that it would “avoid attacks on urban areas”.²⁴⁹

264. Rule A6 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IIHL, provides that “the general rule prohibiting attacks against the civilian population implies, as a corollary, the prohibition of attacks on dwellings and other installations which are used only by the civilian population”.²⁵⁰

Attacks against civilian means of transportation

I. Treaties and Other Instruments

Treaties

265. Article 3 *bis* of the 1944 Chicago Convention provides that “all States must abstain from using force against a civilian plane in flight”.

Other Instruments

266. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including the destruction of merchant ships and passenger vessels without warning and without provision for the safety of passengers or crew and the destruction of fishing boats.

267. Article 33 of the 1923 Hague Rules of Air Warfare provides that “belligerent non-military aircraft, whether public or private, flying within the jurisdiction of their own state, are liable to be fired upon unless they make the nearest available landing on the approach of enemy military aircraft”.

268. Article 34 of the 1923 Hague Rules of Air Warfare provides that:

Belligerent non-military aircraft, whether public or private, are liable to be fired upon, if they fly (1) within the jurisdiction of the enemy, or (2) in the immediate vicinity thereof and outside the jurisdiction of their own state or (3) in the immediate vicinity of the military operations of the enemy by land or sea.

269. Article 6 of the 1956 New Delhi Draft Rules prohibits attacks against “installations or means of transport, which are for the exclusive use of, and occupied by, the civilian population”.

270. Paragraph 41 of the 1994 San Remo Manual states that “merchant vessels and civil aircraft are civilian objects unless they are military objectives in accordance with the principles and rules set forth in this manual”.

271. Paragraph 62 of the 1994 San Remo Manual provides that “enemy civil aircraft may only be attacked if they meet the definition of a military objective”.

272. Paragraph 63 of the 1994 San Remo Manual states that the following activities may render enemy civil aircraft military objectives:

- (a) engaging in acts of war on behalf of the enemy, e.g., laying mines, minesweeping, laying or monitoring acoustic sensors, engaging in electronic warfare, intercepting or attacking other civil aircraft, or providing targeting information to enemy forces;
- (b) acting as an auxiliary aircraft to an enemy's armed forces, e.g., transporting troops or military cargo, or refuelling military aircraft;
- (c) being incorporated into or assisting the enemy's intelligence-gathering system, e.g., engaging in reconnaissance, early warning, surveillance, or command, control and communications missions;

- (d) flying under the protection of accompanying enemy warships or military aircraft;
- (e) refusing an order to identify itself, divert from its track, or proceed for visit and search to a belligerent airfield that is safe for the type of aircraft involved and reasonably accessible, or operating fire control equipment that could reasonably be construed to be part of an aircraft weapon system, or on being intercepted clearly manoeuvring to attack the intercepting belligerent military aircraft;
- (f) being armed with air-to-air or air-to-surface weapons; or
- (g) otherwise making an effective contribution to military action.

II. National Practice

Military Manuals

273. Australia's *Commanders' Guide* states that "civilian vessels, aircraft, vehicles and buildings may be lawfully attacked if they contain combatant personnel, military equipment, supplies or are otherwise associated with combat activity inconsistent with their civilian status".²⁵¹

274. Australia's *Defence Force Manual* states that:

Civil aircraft in flight (including state aircraft which are not military aircraft) should not be attacked. They are presumed to be carrying civilians who may not be made the object of direct attack. If there is doubt as to the status of a civil aircraft, it should be called upon to clarify that status. If it fails to do so, or is engaged in non civil activities, such as ferrying troops, it may be attacked. Civil aircraft should avoid entering areas which have been declared combat zones by the belligerents.

Civil aircraft which have been absorbed into a belligerent's air force and are being ferried from the manufacturer to a belligerent for this purpose, may be attacked.²⁵²

275. Benin's *Military Manual* states that:

Foreign civilian aircraft may be attacked when escorted by enemy military aircraft. When flying alone they can be ordered to modify their route or to land or alight on water for inspection . . . If a foreign civilian aircraft refuses to modify its route or to land or alight on water, it may be attacked after due warning.²⁵³

276. According to Burkina Faso's *Disciplinary Regulations*, it is prohibited to attack "the crew and passengers of civil aircraft".²⁵⁴

277. According to Cameroon's *Disciplinary Regulations*, it is prohibited to attack "the crew and passengers of civil aircraft".²⁵⁵

278. Cameroon's *Instructors' Manual* states that "belligerents must . . . distinguish between military and civilian aircraft . . . As a result, only enemy

²⁵⁴ Burkina Faso, *Disciplinary Regulations* (1994), Article 35(2).

²⁵⁵ Cameroon, *Disciplinary Regulations* (1975), Article 32.

military aircraft may be attacked; civilian, private or commercial aircraft may only be intercepted."²⁵⁶

279. Canada's LOAC Manual states that civilian aircraft and vehicles are military objectives "if they contain combatants, military equipment or supplies".²⁵⁷ With respect to civil aircraft, the manual specifies that:

Civil aircraft (including state aircraft which are not military aircraft) in flight should not be attacked. They are presumed to be carrying civilians who may not be made the object of direct attack. If there is doubt as to the status of civil aircraft, it should be called upon to clarify that status. If it fails to do so, or is engaged in support of military activities, such as ferrying troops, it may be attacked. Civil aircraft should avoid entering areas which have been declared combat zones by the belligerents, since this increases the risk of their being attacked.²⁵⁸

280. According to Congo's Disciplinary Regulations, it is prohibited to attack "the crew and passengers of civil aircraft".²⁵⁹

281. Croatia's LOAC Compendium provides that "civilian aircraft escorted by enemy military aircraft" and "civilian aircraft that refuse to modify their routes, land or alight on water if so ordered and after warning" are proper targets in the air. The manual adds that "civilian aircraft that do not violate the airspace of a belligerent" are protected aircraft.²⁶⁰

282. Ecuador's Naval Manual provides that:

Civil passenger vessels at sea and civil airliners in flight are subject to capture but are exempt from destruction. Although enemy lines of communication are generally legitimate military targets in modern warfare, civilian passenger vessels at sea, and civil airliners in flight, are exempt from destruction, unless at the time of the encounter they are being utilized by the enemy for a military purpose (e.g., transporting troops or military cargo) or refuse to respond to the directions of the intercepting warship or military aircraft. Such passenger vessels in port and airliners on the ground are not protected from destruction.²⁶¹

283. According to France's Disciplinary Regulations as amended, it is prohibited to attack "the crew and passengers of civil aircraft".²⁶²

284. Germany's Military Manual provides that enemy aircraft used exclusively for the transport of civilians may neither be attacked nor seized. Their protection ends

if such [aircraft] do not comply with conditions lawfully imposed upon them, if they abuse their mission or are engaged in any other activity bringing them under

²⁶¹ Ecuador, *Naval Manual* (1989), § 8.2.3(6).

²⁶² France, *Disciplinary Regulations as amended* (1975), Article 9 bis (2).

the definition of a military objective . . . Such aircraft may be requested to land on ground or water to be searched.²⁶³

285. Hungary's Military Manual provides that "civilian aircraft escorted by enemy military aircraft" and "civilian aircraft that refuse to modify their routes, land or alight on water if so ordered and after warning" are proper targets in the air. The manual adds that "civilian aircraft that do not violate the airspace of a belligerent" are protected aircraft.²⁶⁴

286. Kenya's LOAC Manual provides that "specifically protected transport shall be allowed to pursue their assignment as long as needed. Their mission, contents and effective use may be verified by inspection (e.g. aircraft may be ordered to land for such inspection)."²⁶⁵ The manual further states that:

Subject to prohibitions and restrictions on access to national air space, foreign aircraft except enemy military aircraft may not be attacked. Foreign civilian aircraft may be attacked:

- (a) when escorted by enemy military aircraft, or
- (b) when flying alone under the conditions stated below.

Foreign civilian aircraft can be ordered to modify their route or to land or alight on water for inspection . . . If a foreign civilian aircraft refuses to modify its route or to land or alight on water, it may be attacked after due warning. The provisions of this part governing foreign civilian aircraft can be applied by analogy to neutral military aircraft.²⁶⁶

287. According to Morocco's Disciplinary Regulations, it is prohibited to attack "the crew and passengers of civil aircraft".²⁶⁷

288. New Zealand's Military Manual states that:

Civilian vessels, aircraft, vehicles and buildings may be lawfully attacked if they contain combatant personnel or military equipment or supplies or are otherwise associated with combat activity inconsistent with their civilian status and if collateral damage would not be excessive under the circumstances.²⁶⁸

The manual further states that:

Civil aircraft (including State aircraft which are not military aircraft) in flight should not be attacked. They are presumed to be carrying civilians who may not be made the object of direct attack. If there is doubt as to the status of a civil aircraft, it should be called upon to clarify that status. If it fails to do so, or is engaged in non-civil activities, such as ferrying troops, it may be attacked. Civil aircraft should avoid entering areas which have been declared combat zones by the belligerents, since this increases the risk of their being attacked.²⁶⁹

²⁶⁸ New Zealand, *Military Manual* (1992), § 516(3), see also § 623(3).

²⁶⁹ New Zealand, *Military Manual* (1992), § 628(1).

289. Nigeria's Military Manual states that "the military character of the objectives and targets must be verified and precaution taken not to attack non-military objectives like merchant ships, civilian aircraft, etc."²⁷⁰ The manual further states that foreign aircraft "of no military importance shall not be captured or attacked except [when] they are of a dubious status, i.e., when it is uncertain whether it is a military objective or not. In that case, it may be stopped and searched so as to establish its status."²⁷¹ The manual also states that "specifically protected . . . transports recognised as such must be respected . . . though they could be inspected to ascertain their contents and effective use"²⁷²

290. According to Nigeria's Manual on the Laws of War, "civilian aircraft belong[ing] to the enemy flying outside their own territory, in a zone controlled by the state or close to it, or near the battle zone can be shot down only when they do not comply with landing orders".²⁷³

291. According to Senegal's Disciplinary Regulations, it is prohibited to attack "the crew and passengers of civil aircraft".²⁷⁴

292. Togo's Military Manual states that:

Foreign civilian aircraft may be attacked when escorted by enemy military aircraft. When flying alone they can be ordered to modify their route or to land or alight on water for inspection . . . If a foreign civilian aircraft refuses to modify its route or to land or alight on water, it may be attacked after due warning.²⁷⁵

293. With respect to civil aircraft, the US Air Force Pamphlet states that:

If identified as a civil aircraft, air transport in flight should not be the object of attack, unless at the time it represents a valid military objective such as when there is an immediate military threat or use. An unauthorized entry into a flight restriction zone might in some conflicts be deemed an immediate military threat. Wherever encountered, enemy civil aircraft are subject to instruction in order to verify status and preclude their involvement . . . Civil aircraft on the ground, as objects of attack, are governed by the rules of what constitutes a legitimate military objective as well as the rules and principles relative to aerial bombardment. As sources of airlift they may, under the circumstances ruling at the time, qualify as important military objectives. Civil aircraft entitled to protection include nonmilitary state aircraft and a state owned airline. The principle of law and humanity protecting civilians and civilian objects from being objects of attack as such, protects civil aircraft in flight, because civil aircraft are presumed to transport civilians. Such an aircraft is not subject to attack in the absence of a determination that it constitutes a valid military objective.²⁷⁶

294. The US Air Force Commander's Handbook states that "civilian vehicles, aircraft, vessels . . . may be the object of attack if they have combatant personnel

in them and if collateral damage would not be excessive under the circumstances".²⁷⁷

295. The US Naval Handbook provides that:

Civil passenger vessels at sea and civil airliners in flight are subject to capture but are exempt from destruction. Although enemy lines of communication are generally legitimate military targets in modern warfare, civilian passenger vessels at sea, and civil airliners in flight, are exempt from destruction, unless at the time of the encounter they are being utilized by the enemy for a military purpose (e.g., transporting troops or military cargo) or refuse to respond to the directions of the intercepting warship or military aircraft. Such passenger vessels in port and airliners on the ground are not protected from destruction.²⁷⁸

National Legislation

296. Argentina's Draft Code of Military Justice punishes any soldier who

destroys or damages, in violation of the rules of international law applicable in armed conflict, non-military vessels or aircraft of the adverse Party or of a neutral State, without military necessity and without giving time or adopting measures to provide for the safety of the passengers and the preservation of the documentation on board.²⁷⁹

National Case-law

297. No practice was found.

Other National Practice

298. In a communiqué issued in 1973, the Belgian government condemned the deliberate destruction of a Libyan Boeing by Israeli air force units because it "condemns all violence of which innocent civilians are the victims".²⁸⁰

299. The Report on the Practice of Iran states that during the Iran–Iraq War, the Iranian authorities accused Iraq on many occasions of having carried out attacks against civilian objects, including civilian aircraft, trains and merchant ships.²⁸¹

300. The Report on the Practice of Malaysia states that no civilian aircraft may be attacked.²⁸²

301. The Report on the Practice of Peru refers to a scholar who wrote that in 1879, during a conflict against Chile, a Peruvian admiral refused, on

humanitarian grounds, to attack an enemy vessel that he believed to be a transport ship.²⁸³

302. Following investigations by the ICAO Secretary-General into the shooting down of two civil aircraft by the Cuban air force on 24 February 1996, a debate took place on 26 July 1996 in the UN Security Council, during which Poland asserted that the principle that States must refrain from resorting to the use of weapons against civil aircraft in flight was well established in customary international law and codified in Article 3 *bis* of the 1944 Chicago Convention. According to Poland, an attack against a civilian aircraft in flight violates elementary considerations of humanity.²⁸⁴

303. Following investigations by the ICAO Secretary-General into the shooting down of two civil aircraft by the Cuban air force on 24 February 1996, a debate took place on 26 July 1996 in the UN Security Council, during which the US claimed that "Cuba violated the principle of customary law that States must refrain from resorting to the use of weapons against civil aircraft in flight – a principle that applies whether the aircraft are in national or international airspace". According to the US, an attack against a civilian aircraft in flight violates elementary considerations of humanity.²⁸⁵

III. Practice of International Organisations and Conferences

United Nations

304. In resolutions adopted in 1986 and 1987 in the context of the Iran–Iraq War, the UN Security Council deplored attacks against civilian aircraft.²⁸⁶

305. In a report on Angola in 1993, the UN Secretary-General described an incident which took place on 27 May 1993 whereby "UNITA ambushed a train . . . as a result of which up to 300 people, including women and children, died and hundreds of others were wounded. UNITA alleged that the train was ferrying troops and weapons and not civilians, as claimed." Noting that UNAVEM helicopters evacuated 57 seriously injured civilians, mostly women and children, from the site, the Secretary-General supported "the statement made by the President of the Security Council to the press on 8 June 1993 in which the Council strongly condemned the 27 May train attack and urged UNITA's leaders to make sure that its forces abide by the rules of international humanitarian law".²⁸⁷ In a subsequent resolution, the UN Security Council reiterated "its strong condemnation of the attack by UNITA forces, on 27 May 1993,

²⁸³ Report on the Practice of Peru, 1998, Chapter 1.3, referring to E. Angeles Figueroa, *El Derecho Internacional Humanitario y los Conflictos Armados*, Lima, 1992, pp. 119–120.

against a train carrying civilians, and reaffirm[ed] that such criminal attacks are clear violations of international humanitarian law".²⁸⁸

306. In 1996, in a statement by its President in connection with the shooting down of two civil aircraft by the Cuban air force, the UN Security Council stated that:

The Security Council strongly deplores the shooting down by the Cuban air force of two civil aircraft on 24 February 1996, which apparently has resulted in the death of four persons.

The Security Council recalls that according to international law, as reflected in article 3 bis of the International Convention on Civil Aviation of 7 December 1944 added by the Montreal Protocol of 10 May 1984, States must refrain from the use of weapons against civil aircraft in flight and must not endanger the lives of persons on board and the safety of aircraft. States are obliged to respect international law and human rights norms in all circumstances.²⁸⁹

307. Following investigations by the ICAO Secretary-General into the shooting down of two civilian aircraft by the Cuban Air Force in 1996, the UN Security Council adopted a resolution on the conclusions of the ICAO report, in which it condemned:

the use of weapons against civil aircraft in flight as being incompatible with elementary considerations of humanity, the rules of customary international law as codified in article 3 *bis* of the Chicago Convention, and the standards and recommended practices set out in the annexes of the Convention.²⁹⁰

308. In 1993, in a report concerning the situation in Abkhazia, Georgia, the UN Secretary-General stated that he was particularly shocked by deliberate attacks on Georgian aircraft, which had resulted in heavy civilian losses.²⁹¹

Other International Organisations

309. No practice was found.

International Conferences

310. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

311. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated, concerning the "attack on a civilian passenger train at the Grdelica Gorge on 12 April 1999", that "the bridge was a legitimate military

²⁸⁸ UN Security Council, Res. 851, 15 July 1993, § 18.

²⁹⁰ UN Security Council, Res. 1067, 26 July 1996, § 6.

²⁹¹ UN Security Council, Report concerning the situation in Abkhazia, Georgia, UN Doc. S/26551, 7 October 1993, § 17.

objective. The passenger train was not deliberately targeted". The Committee did not refer specifically to the civilian character of the passenger train, but implied that, had the train been intentionally targeted, or had there been in the conduct of the attack against the bridge a sufficient "element of recklessness in the conduct of the pilot or weapons systems officer", an investigation could have been opened.²⁹²

V. Practice of the International Red Cross and Red Crescent Movement

312. To fulfil its role of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces the following rules of IHL applicable to foreign aircraft:

Subject to prohibitions and restrictions on access to national air space, foreign aircraft, except enemy military aircraft, may not be attacked. Foreign civilian aircraft may be attacked:

- a) when escorted by enemy military aircraft;
- b) when flying alone: under the conditions stated in this chapter.

Foreign civilian aircraft can be ordered to modify their route or to land or alight on water for inspection . . . If a foreign civilian aircraft refuses to modify its route or to land or alight on water, it may be attacked after due warning.²⁹³

313. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 47(2) of draft API which stated in part that "objects designed for civilian use, such as . . . installations and means of transport . . . shall not be made the object of attack, except if they are used mainly in support of the military effort". All governments concerned replied favourably.²⁹⁴

314. In an appeal issued in 1979 with respect to the conflict in Rhodesia/Zimbabwe, the ICRC specifically requested that the Patriotic Front "cease the shooting down of civilian passenger aircraft".²⁹⁵

VI. Other Practice

315. No practice was found.

B. Definition of Military Objectives

General definition

I. Treaties and Other Instruments

Treaties

316. Article 2 of 1907 Hague Convention (IX) allows the bombardment of “military works, military or naval establishments, depots of arms or war *matériel*, workshops or plant which could be utilized for the needs of the hostile fleet or army, and the ships of war in the harbour”.

317. Article 19 GC I and Article 4 Annex I GC I and Article 18 GC IV and Article 4 Annex I GC IV use the term “military objectives” without, however, defining it.

318. The 1954 Hague Convention does not define a military objective, but Article 8 provides that refuges intended to shelter movable cultural property, centres containing monuments and other immovable cultural property of very great importance may be placed under special protection, provided that they:

- a) are situated at an adequate distance from any large industrial centre or from any important military objective constituting a vulnerable point, such as, for example, an aerodrome, broadcasting station, establishment engaged upon work of national defence, a port or railway station of relative importance or a main line of communication;
- b) are not used for military purposes.

319. Article 52(2) AP I provides that:

In so far as objects are concerned, military objectives are limited to those objects which by their nature, location, purpose or use make an effective contribution to military action and whose total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offers a definite military advantage.

Article 52 AP I was adopted by 79 votes in favour, none against and 7 abstentions.²⁹⁶

320. Upon ratification of AP I, Canada, France and Spain stated that the term “military advantage” as used in Article 52(2) AP I was understood to refer to the advantage anticipated from the attack considered as a whole and not only from isolated or particular parts of the attack.²⁹⁷

321. According to the identical definitions provided by Article 2(4) of the 1980 Protocol II to the CCW, Article 2(6) of the 1996 Amended Protocol II to the CCW and Article 1(3) of the 1980 Protocol III to the CCW:

²⁹⁶ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 168.

²⁹⁷ Canada, Reservations and statements of understanding made upon ratification of AP I, 20 November 1990, § 10; France, Reservations and declarations made upon ratification of AP I, 11 April 2001, § 10; Spain, Interpretative declarations made upon ratification of AP I, 21 April 1989, § 6.

“Military objective” means, so far as objects are concerned, any object which by its nature, location, purpose or use makes an effective contribution to military action and whose total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offers a definite military advantage.

322. Article 1(f) of the 1999 Second Protocol to the 1954 Hague Convention defines a military objective as:

An object which by its nature, location, purpose, or use makes an effective contribution to military action and whose total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offers a definite military advantage.

323. Upon signature of the 1998 ICC Statute, Egypt declared that “the military objectives referred to in article 8, paragraph 2 (b) of the Statute must be defined in the light of the principles, rules and provisions of international humanitarian law”.²⁹⁸

Other Instruments

324. Article 15 of the 1863 Lieber Code provides that:

Military necessity admits of all direct destruction of life or limb of “armed” enemies, and of other persons whose destruction is incidentally “unavoidable” in the armed contests of the war; it allows of the capturing of every armed enemy, and every enemy of importance to the hostile government, or of peculiar danger to the captor; it allows of all destruction of property, and obstruction of the ways and channels of traffic, travel, or communication, and of all withholding of sustenance or means of life from the enemy; of the appropriation of whatever an enemy’s country affords necessary for the subsistence and safety of the army. Men who take up arms against one another in public war do not cease on this account to be moral beings, responsible to one another and to God.

325. Article 24(1) of the 1923 Hague Rules of Air Warfare provides that “aerial bombardment is legitimate only when directed at a military objective, that is to say, an object of which the destruction or injury would constitute a distinct military advantage to the belligerent”.

326. Article 7 of the 1956 New Delhi Draft Rules provides that:

Only objectives belonging to the categories of objective which, in view of their essential characteristics, are generally acknowledged to be of military importance, may be considered as military objectives. Those categories are listed in the annex to the present rules.

However, even if they belong to one of those categories, they cannot be considered as a military objective where their total or partial destruction, in the circumstances ruling at the time, offers no military advantage.

327. Paragraph 40 of the 1994 San Remo Manual adopts the same definition of military objectives as Article 52(2) AP I.

²⁹⁸ Egypt, Declarations made upon signature of the 1988 ICC Statute, 26 December 2000, § 4(b).

II. National Practice

Military Manuals

328. Military manuals of Argentina, Australia, Belgium, Benin, Cameroon, Canada, Colombia, Croatia, France, Germany, Hungary, Italy, Kenya, Madagascar, Netherlands, New Zealand, South Africa, Spain, Sweden, Togo, UK and US use a definition identical to that of Article 52(2) AP I.²⁹⁹

329. Australia's Defence Force Manual specifies that "the objective must be measured by its effect on the whole military operation or campaign and the attack should not be viewed in isolation. Military advantage includes the security of friendly forces."³⁰⁰

330. Belgium's Regulations on the Tactical Use of Large Units states that "an objective is the final goal of an action. It is defined as either an area of land of tactical importance or as enemy elements that have to be destroyed or neutralised."³⁰¹

331. Ecuador's Naval Manual states that:

Military objectives are combatants and those objects which, by their nature, location, purpose or use, effectively contribute to the enemy's war-fighting or war-sustaining capability and whose total or partial destruction, capture, or neutralization would constitute a definite military advantage to the attacker under the circumstances at the time of the attack. Military advantage may involve a variety of considerations, including the security of the attacking forces.³⁰²

332. Germany's Military Manual states that "the term 'military advantage' refers to the advantage which can be expected of an attack as a whole and not only of isolated or specific parts of the attack".³⁰³

333. Indonesia's Directive on Human Rights in Irian Jaya and Maluku provides that "only property which contributes to the objectives of rebels ('GPK') may be attacked".³⁰⁴

334. Italy's IHL Manual states that "the military advantage expected from an attack must be evaluated in the light of the attack as a whole and not only of

³⁰² Ecuador, *Naval Manual* (1989), § 8.1.1. ³⁰³ Germany, *Military Manual* (1992), § 444.

³⁰⁴ Indonesia, *Directive on Human Rights in Irian Jaya and Maluku* (1995), § 9(a).

isolated elements or parts of the attack and must be evaluated on the basis of the information available at the time".³⁰⁵

335. The Military Manual of the Netherlands notes that "the definition of 'military objectives' implies that it depends on the circumstances of the moment whether an object is a military objective. The definition leaves the necessary freedom of judgement to the commander on the spot."³⁰⁶

336. New Zealand's Military Manual specifies that:

The military advantage at the time of attack is that advantage from the military campaign or operation of which the attack is a part considered as a whole and not only from isolated or particular parts of that campaign or operation. Military advantage involves a variety of considerations including the security of the attacking forces.³⁰⁷

337. Spain's LOAC Manual states that the military advantage to be gained from an attack has to be interpreted as "that which is anticipated, in the concrete circumstances of the moment, from the attack as a whole, and not from parts thereof".³⁰⁸

338. Sweden's IHL Manual considers that:

According to the definition [of military objectives contained in Article 52(2) AP I,] it is up to the attacker to decide whether the nature, location, purpose or use of the property can admit of its being classified as a military objective and thus as a permissible object of attack. This formulation undeniably gives the military commander great latitude in deciding, but he must also take account of the unintentional damage that may occur. The proportionality rule must always enter into the assessment even though this is not directly stated in the text of Article 52.³⁰⁹

339. The US Naval Handbook states that:

Military objectives are combatants and those objects which, by their nature, location, purpose or use, effectively contribute to the enemy's war-fighting or war-sustaining capability and whose total or partial destruction, capture, or neutralization would constitute a definite military advantage to the attacker under the circumstances at the time of the attack. Military advantage may involve a variety of considerations, including the security of the attacking force.³¹⁰

340. The YPA Military Manual of the SFRY (FRY) defines military objectives as "any object which by its nature, location, purpose or use effectively contributes to military action and whose total or partial destruction offers a military advantage during the attack or in the further course of the operations".³¹¹

³⁰⁵ Italy, *IHL Manual* (1991), Vol. I, § 12. ³⁰⁶ Netherlands, *Military Manual* (1993), p. V-3.

³⁰⁷ New Zealand, *Military Manual* (1992), § 516(1), see also § 623(1).

³⁰⁸ Spain, *LOAC Manual* (1996), Vol. I, § 4.2.b.(2).

³⁰⁹ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 54.

³¹⁰ US, *Naval Handbook* (1995), § 8.1.1. ³¹¹ SFRY (FRY), *YPA Military Manual* (1988), § 71.

National Legislation

341. Italy's Law of War Decree as amended states that "it is lawful to bombard directly enemy targets whose destruction, whether total or partial, may be to the advantage of the military operations".³¹²

342. Spain's Penal Code punishes:

anyone who, during an armed conflict . . . attacks . . . civilian objects of the adverse party causing their destruction, provided the objects do not, in the circumstances ruling at the time, offer a definite military advantage nor make an effective contribution to the military action of the adversary.³¹³

National Case-law

343. No practice was found.

Other National Practice

344. The Report on the Practice of Algeria, referring expressly to the notion of "effective contribution" to military action resulting from the nature, location, purpose or use of an object, asserts that the criteria set forth in Article 52(2) AP I were already taken into consideration during the Algerian war of independence.³¹⁴

345. The Report on the Practice of Botswana asserts that the government of Botswana endorses Article 52 AP I and no official document was found rejecting the definition of a military objective provided in Article 52(2) AP I.³¹⁵

346. The Report on the Practice of Colombia notes that the government and the Defensoría del Pueblo (Ombudsman's Office) adopt the definition of military objectives laid down in Article 52 AP I in order to draw a distinction between military objectives and civilian objects.³¹⁶

347. According to the Report on the Practice of Iran, during the Iran–Iraq War, Iran always insisted that it had no intention of attacking civilian objects, all targets being "military objectives or objects which by their nature, location, purpose or use made an effective contribution to military action".³¹⁷

348. On the basis of the reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq states that the Iraqi armed forces consider that the definition of a military objective set forth in Article 52(2) AP I is part of customary international law.³¹⁸

³¹² Italy, *Law of War Decree as amended* (1938), Article 40.

³¹³ Spain, *Penal Code* (1995), Article 613(1)(b).

³¹⁴ Report on the Practice of Algeria, 1997, Chapter 1.3.

³¹⁵ Report on the Practice of Botswana, 1998, Answers to additional questions on Chapter 1.3.

³¹⁶ Report on the Practice of Colombia, 1998, Chapter 1.3, referring to Defensoría del Pueblo, *Cuarto informe anual del defensor del pueblo al congreso de Colombia*, Santafé de Bogotá, September 1997, pp. 64–65.

³¹⁷ Report on the Practice of Iran, 1997, Chapter 1.3.

³¹⁸ Report on the Practice of Iraq, 1998, Reply by the Iraqi Ministry of Defence to a questionnaire, July 1997, Chapter 1.3.

349. According to the Report on the Practice of Israel, the IDF has no generally applicable definition of what constitutes a “military target”, but its practice most closely reflects the definition found in Article 52(2) AP I.³¹⁹

350. Prior to the adoption of UN General Assembly Resolution 47/37 in 1992 on the protection of the environment in times of armed conflict, Jordan and the US submitted a memorandum to the Sixth Committee of the UN General Assembly entitled “International Law Providing Protection to the Environment in Times of Armed Conflict”. The memorandum stated that “the customary rule that, in so far as objects are concerned, military objectives are limited to those objects which by their nature, location, purpose or use make an effective contribution to military action and whose total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offers a definite military advantage” provides protection for the environment in times of armed conflict.³²⁰

351. The Report on the Practice of Jordan states that the definition of a military objective set forth in Article 52(2) AP I is part of customary international law.³²¹

352. The Report on the Practice of Malaysia notes that although no written law defines the term military objective, the security forces describe military objectives as “targets of military interest” and “military targets”. While the former may include civilian objects like the runway of a civilian airport, the latter only refers to objects belonging to the military. The military character of a target will thus depend on the circumstances and the degree of strategic advantage it offers.³²²

353. At the CDDH, Mexico stated that it believed draft Article 47 AP I (now Article 52) to be so essential that it “cannot be the subject of any reservations whatsoever since these would be inconsistent with the aim and purpose of Protocol I and undermine its basis”.³²³

354. Referring to military documents using similar wording, the Report on the Practice of the Philippines affirms the customary nature of Article 52(2) AP I.³²⁴

355. On the basis of a statement by the Syrian Minister of Foreign Affairs before the UN General Assembly in 1997, the Report on the Practice of Syria asserts that Syria considers Article 52(2) AP I to be part of customary international law.³²⁵

³¹⁹ Report on the Practice of Israel, 1997, Answers to additional questions on Chapter 1.3.

³²⁰ Jordan and US, International Law Providing Protection to the Environment in Times of Armed Conflict, annexed to Letter dated 28 September 1992 to the Chairman of the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/47/3, 28 September 1992, § 1(i).

³²¹ Report on the Practice of Jordan, 1997, Chapter 1.3.

³²³ Mexico, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 193.

³²⁴ Report on the Practice of Philippines, 1997, Chapter 1.3.

³²⁵ Report on the Practice of Syria, 1997, Chapter 1.3, referring to Statement by the Syrian Minister of Foreign Affairs before the UN General Assembly, 1 October 1997.

356. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK stated that “operations by United Kingdom forces have involved aerial attacks on Iraqi installations supporting Iraq’s capacity to sustain its illegal occupation of Kuwait”.³²⁶

357. In 1972, the General Counsel of the US Department of Defense stated that:

In the application of the laws of war, it is important that there be a general understanding in the world community as to what shall be legitimate military objectives which may be attacked by air bombardment under the limitations imposed by treaty or by customary international law. Attempts to limit the effects of attacks in an unrealistic manner, by definition or otherwise, solely to the essential war making potential of enemy States have not been successful. For example, such attempts as the 1923 Hague Rules of Air Warfare, proposed by an International Commission of Jurists, and the 1956 ICRC *Draft Rules for the Limitation of Dangers Incurred by the Civilian Population in Time of War* were not accepted by States and therefore do not reflect the laws of war either as customary international law or as adopted by treaty. [The General Counsel then refers to Articles 1 and 2 of the 1907 Hague Convention (IX) and Article 8 of the 1954 Hague Convention as reflecting customary international law.] The test applicable from the customary international law, restated in [Article 8 of] the Hague Cultural Property Convention, is that the war making potential of such facilities to a party to the conflict may outweigh their importance to the civilian economy and deny them immunity from attack. Turning to the deficiencies in the Resolutions of the Institut de Droit International [adopted at its Edinburgh Session in 1969], and with the foregoing in view, it cannot be said that Paragraph 2, which refers to legal restraints that there must be an “immediate” military advantage, reflects the law of armed conflict that has been adopted in the practices of States.³²⁷

358. In 1987, the Deputy Legal Adviser of the US Department of State stated that “the United States has no great concern over the new definition of ‘military objective’ set forth in Article 52(2) of Protocol I”.³²⁸

359. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

When objects are used concurrently for civilian and military purposes, they are liable to attack if there is a military advantage to be gained in their attack. (“Military advantage” is not restricted to tactical gains, but is linked to the full context of a

³²⁷ US, Letter from J. Fred Buzhardt, General Counsel of the Department of Defense, to Senator Edward Kennedy, Chairman of the Subcommittee on Refugees of the Committee on the Judiciary, 22 September 1972, *AJIL*, Vol. 67, 1973, p. 123.

³²⁸ US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 436.

war strategy, in this instance, the execution of the Coalition war plan for liberation of Kuwait.)³²⁹

360. In 1992, in a review of the legality of extended range anti-armour munition, the US Department of the Air Force relied on the definition of military objectives set forth in Article 52(2) AP I.³³⁰

361. The Report on US Practice states that:

The *opinio juris* of the U.S. government recognizes the definition of military objectives in Article 52 of Additional Protocol I as customary law. United States practice gives a broad reading to this definition, and would include areas of land, objects screening other military objectives, and war-supporting economic facilities as military objectives. The foreseeable military advantage from an attack includes increasing the security of the attacking force. In any event, the anticipated military advantage need not be expected to immediately follow the success of the attack, and may be inferred from the whole military operation of which the attack is a part.³³¹

III. Practice of International Organisations and Conferences

United Nations

362. No practice was found.

Other International Organisations

363. No practice was found.

International Conferences

364. During the Diplomatic Conference on the Second Protocol to the 1954 Hague Convention, France, Israel, Turkey and US, at that time not party to API, referred to the definition of Article 52(2) AP I as an authoritative definition of a military objective. Several other States stressed that the definition of a military objective in the Second Protocol should follow the exact wording of Article 52(2) AP I, including Argentina, Denmark, Germany, Sweden, Switzerland and UK. Another group of States, including Austria, Cameroon (speaking on behalf of the African group), China, Egypt, Greece, Romania and Syria (speaking on behalf of the Arab group) agreed to rely on Article 52(2) AP I, but to tighten its definition so that cultural property could only become a military objective "by its use" and not "by its location, nature or purpose".³³²

³²⁹ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, p. 623.

³³⁰ US, Department of the Air Force, The Judge Advocate General, Legal Review: Extended Range Antiarmor Munition (ERAM), 16 April 1992, § 7.

³³¹ Report on US Practice, 1997, Chapter 1.3.

³³² Diplomatic Conference on the Second Protocol to the 1954 Hague Convention, The Hague, 15–26 March 1999 (proceedings to be published by UNESCO).

IV. Practice of International Judicial and Quasi-judicial Bodies

365. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that “the most widely accepted definition of ‘military objective’ is that of Article 52 of Additional Protocol I”.³³³ It added that:

Although the Protocol I definition of military objective is not beyond criticism, it provides the contemporary standard which must be used when attempting to determine the lawfulness of particular attacks. That being said, it must be noted once again [that] neither the USA nor France is a party to Additional Protocol I. The definition is, however, generally accepted as part of customary law.³³⁴

V. Practice of the International Red Cross and Red Crescent Movement

366. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that the following can be considered military objectives:

- a) the armed forces except medical service and religious personnel and objects;
- b) the establishments, buildings and positions where armed forces or their materiel are located (e.g. positions, barracks, stores);
- c) other objects which by their nature, location, purpose or use make an effective contribution to military action, and whose total or partial destruction, capture or neutralisation, in the circumstances ruling at the time, offer a definite military advantage.³³⁵

367. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 47(1) of draft API which defined military objectives as “those objectives which are, by their nature, purpose or use, recognized to be of military interest and whose total or partial destruction, in the circumstances ruling at the time, offers a distinct and substantial military advantage”. All governments concerned replied favourably.³³⁶

VI. Other Practice

368. In a resolution adopted during its Edinburgh Session in 1969, the Institute of International Law gave the following definition of a military objective:

³³³ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, § 35.

³³⁴ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, § 41.

³³⁵ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 55.

³³⁶ ICRC, The International Committee's Action in the Middle East, *IRRC*, No. 152, 1973, pp. 584–585.

There can be considered as military objectives only those which, by their very nature or purpose or use, make an effective contribution to military action, or exhibit a generally recognised military significance, such that their total or partial destruction in the actual circumstances gives a substantial, specific and immediate military advantage to those who are in a position to destroy them.³³⁷

369. In 2000, in a report on the NATO bombings in the FRY, Amnesty International, having referred to the definition of military objectives contained in Article 52(2) AP I, stated with regard to the bombing of the Serbian State radio and television (RTS) that:

Disrupting government propaganda may help to undermine the morale of the population and the armed forces, but...justifying an attack on a civilian facility on such grounds stretches the meaning of "effective contribution to military action" and "definite military advantage" beyond the acceptable bounds of interpretation.³³⁸

Armed forces

Note: *For practice concerning attacks against combatants, see Chapter 1, section A.*

I. Treaties and Other Instruments

Treaties

370. The preamble to the 1868 St. Petersburg Declaration states that "the only legitimate object which States should endeavour to accomplish during war is to weaken the military forces of the enemy".

Other Instruments

371. According to Article 24(2) of the 1923 Hague Rules of Air Warfare, "military forces" are military objectives.

372. Article 5(1) of the 1938 ILA Draft Convention for the Protection of Civilian Populations against New Engines of War provides that "aerial bombardment is prohibited unless directed at combatant forces".

373. Paragraph I(1) of the proposed annex to Article 7(2) of the 1956 New Delhi Draft Rules stated that "armed forces, including auxiliary or complementary organizations, and persons who, though not belonging to the above-mentioned formations, nevertheless take part in the fighting" are military objectives considered to be of "generally recognized military importance".

³³⁷ Institute of International Law, Edinburgh Session, Resolution on the Distinction between Military Objectives and Non-military Objects in General and Particularly the Problems Associated with Weapons of Mass Destruction, 9 September 1969, § 2.

³³⁸ Amnesty International, *NATO/Federal Republic of Yugoslavia: "Collateral Damage" or Unlawful Killings? Violations of the Laws of War by NATO during Operation Allied Force*, AI Index EUR 70/18/00, London, June 2000, p. 43.

II. National Practice

Military Manuals

374. Australia's Defence Force Manual lists among military objectives "all persons taking a direct part in hostilities, whether military or civilian".³³⁹

375. Belgium's Law of War Manual considers combatants to be military objectives.³⁴⁰

376. Benin's Military Manual considers the armed forces, with the exception of medical and religious personnel and objects, to be military objectives.³⁴¹

377. Cameroon's Instructors' Manual states that the armed forces are considered military objectives, with the exception of religious and medical personnel.³⁴²

378. Canada's LOAC Manual considers that combatants, airborne troops and unlawful combatants are "legitimate targets".³⁴³

379. According to Colombia's Instructors' Manual, combatants are military objectives.³⁴⁴

380. According to Croatia's LOAC Compendium, military objectives include the armed forces.³⁴⁵

381. The Military Manual of the Dominican Republic states that "under the laws of war, you are not allowed to attack villages, towns, or cities. However, when your mission requires, you are allowed to engage enemy troops, equipment, or supplies in a village, town or city."³⁴⁶

382. Ecuador's Naval Manual provides that combatants and troop concentrations are military objectives.³⁴⁷

383. According to France's LOAC Summary Note, combatants are military objectives.³⁴⁸

384. Germany's Military Manual provides that military objectives include, in particular, armed forces.³⁴⁹

385. According to Hungary's Military Manual, military objectives include the armed forces.³⁵⁰

386. Israel's Manual on the Laws of War states that "any soldier (male or female!) in the enemy's army is a legitimate military target for attack, whether on the battlefield or outside of it".³⁵¹

³³⁹ Australia, *Defence Force Manual* (1994), § 527(d), see also § 916(a) ("armed forces except medical and religious personnel").

401. The US Air Force Pamphlet considers that “troops in the field are military objectives beyond any dispute”.³⁶⁶

402. According to the US Naval Handbook, combatants and troop concentrations are military objectives.³⁶⁷

403. According to the YPA Military Manual of the SFRY (FRY), the armed forces are a military objective.³⁶⁸ The manual further specifies that “it is permitted to directly attack only members of the armed forces and other persons – only if they directly participate in military operations”.³⁶⁹

National Legislation

404. Italy's Law of War Decree as amended provides that the armed forces are military objectives.³⁷⁰

National Case-law

405. No practice was found.

Other National Practice

406. In 1950, the US Secretary of State stated that “the air activity of the United Nations forces in Korea has been, and is, directed solely at military targets of the invader. These targets [include] enemy troop concentrations.”³⁷¹

407. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK stated that attacks had been directed against Iraq's air force and land army.³⁷²

408. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that it considered the “occupation forces in Kuwait and southern Iraq” as legitimate military targets. It also stated that it had attacked Iraq's naval forces in the northern Gulf and specified that “these attacks have been on Iraqi units that are engaged in operations against coalition forces”.³⁷³ In another such report, the US stated that the Republican Guard remained a “high priority” target.³⁷⁴ In a subsequent report, the US reiterated that it considered “the Republican Guard and other

³⁷⁴ US, Letter dated 30 January 1991 to the President of the UN Security Council, UN Doc. S/22173, 30 January 1991, p. 1.

ground troops in the Kuwaiti theater of operations" as a legitimate target of attack.³⁷⁵

409. In 1991, during a news briefing concerning the Gulf War, the US Secretary of Defense stated that the "mainstay of Saddam's command forces, the Republican Guard units located near the Iraqi/Kuwaiti border" were considered military targets and had been attacked.³⁷⁶

410. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that Iraq's air forces, naval forces and army units, including the Republican Guard, had been included among the 12 target sets for the coalition's attacks.³⁷⁷

III. Practice of International Organisations and Conferences

411. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

412. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

413. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "the armed forces except medical service and religious personnel and objects" are military objectives.³⁷⁸

VI. Other Practice

414. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch listed "members of the Popular Sandinista Army and militias", as well as "members of ARDE, FDN, MISURA and MISURASATA [two Indian organisations fighting against the Nicaraguan government]", as persons which "can arguably be regarded as legitimate military objectives subject to direct attack".³⁷⁹

³⁷⁹ Americas Watch, *Violations of the Laws of War by Both Sides in Nicaragua: 1981–1985*, New York, March 1985, p. 33.

415. In 1986, in a report on the use of landmines in the conflicts in El Salvador and Nicaragua, Americas Watch listed the following persons as legitimate military objectives subject to direct attack:

1. In Nicaragua
 - (a) Members of the Popular Sandinista Army and Militias
 - (b) Members of ARDE, FDN, KISAN and MISURASATA [two Indian organisations fighting against the Nicaraguan government]
2. In El Salvador
 - (a) Members of the Salvadoran combined armed forces and civil defense forces
 - (b) Members of the FMLN.³⁸⁰

416. In 1989, in a report on violations of the laws of war in Angola, Africa Watch listed “members of the armed forces and civil defense of Angola and other armed forces assisting the defense of Angola, such as the Cuban armed forces”, as well as “members of UNITA armed forces and other armed forces assisting UNITA, such as the South African Defense Force and South West Africa armed forces”, as persons which “may be regarded as legitimate military objectives subject to direct attack by combatants and mines”.³⁸¹

Places where armed forces or their materiel are located

I. Treaties and Other Instruments

Treaties

417. Article 2 of the 1907 Hague Convention (IX) allows the bombardment of “military works, military or naval establishments, depots of arms or war *matériel*”.

418. Under Article 8 of the 1954 Hague Convention, cultural property may be placed under special protection provided, *inter alia*, that it is situated “at an adequate distance . . . from any important military objective constituting a vulnerable point, such as, for example, . . . [an] establishment engaged upon work of national defence”.

Other Instruments

419. According to Article 24(2) of the 1923 Hague Rules of Air Warfare, “military works [and] military establishments or depots” are military objectives.

420. Article 5(1) of the 1938 ILA Draft Convention for the Protection of Civilian Populations against New Engines of War provides that “aerial bombardment is prohibited unless directed at . . . belligerent establishments”.

³⁸⁰ Americas Watch, *Land Mines in El Salvador and Nicaragua: The Civilian Victims*, New York, December 1986, pp. 99–100.

³⁸¹ Africa Watch, *Angola: Violations of the Laws of War by Both Sides*, New York, April 1989, p. 139.

421. Paragraph I of the proposed annex to Article 7(2) of the 1956 New Delhi Draft Rules stated that “the objectives belonging to the following categories are those considered to be of generally recognized military importance”, that is:

- (2) Positions, installations or constructions occupied by the [armed forces], as well as combat objectives (that is to say, those objectives which are directly contested in battle between land or sea forces including airborne forces).
- (3) Installations, constructions and other works of a military nature, such as barracks, fortifications, War Ministries (e.g. Ministries of Army, Navy, Air Force, National Defence, Supply) and other organs for the direction and administration of military operations.
- (4) Stores of arms or military supplies, such as munition dumps, stores of equipment or fuel, vehicle parks.

422. Section 5.4 of the 1999 UN Secretary-General’s Bulletin states that “military installations and equipment of peacekeeping operations, as such, shall not be considered military objectives”.

II. National Practice

Military Manuals

423. Australia’s Defence Force Manual gives “military equipment, units and bases” as examples of military objectives.³⁸²

424. Belgium’s Teaching Manual for Soldiers considers that “all objects occupied or used by enemy military forces (positions, barracks, depots, etc.)” are military objectives.³⁸³

425. Belgium’s Law of War Manual considers that “the army, its positions, provision of its supplies, its stores, workshops, arsenals, depots, defence works, . . . war buildings, etc.” are military objectives.³⁸⁴

426. Benin’s Military Manual considers “the establishments, positions and constructions where armed forces and their materiel are located (e.g. positions, barracks and depots)” as military objectives.³⁸⁵

427. Cameroon’s Instructors’ Manual considers military positions, barracks and depots as military objectives.³⁸⁶

428. Canada’s LOAC Manual considers that “military bases, warehouses . . . buildings and objects that provide administrative and logistical support for military operations are generally accepted as being military objectives”.³⁸⁷

³⁸² Australia, *Defence Force Manual* (1994), § 527(a), see also § 916(b).

³⁸³ Belgium, *Teaching Manual for Soldiers* (undated), p. 20.

³⁸⁵ Benin, *Military Manual* (1995), Fascicule I, p. 12.

³⁸⁶ Cameroon, *Instructors’ Manual* (1992), p. 17.

³⁸⁷ Canada, *LOAC Manual* (1999), p. 4-2, § 9.

- 429.** According to Croatia's LOAC Compendium and Commanders' Manual, military objectives include military establishments and positions.³⁸⁸
- 430.** According to Ecuador's Naval Manual, proper targets for naval attack include such military objectives as naval and military bases ashore; warship construction and repair facilities; military depots and warehouses; storage areas for petroleum and lubricants; and buildings and facilities that provide administrative and personnel support for military and naval operations, such as barracks, headquarters buildings, mess halls and training areas.³⁸⁹
- 431.** France's LOAC Summary Note considers military establishments, installations, and materiel and positions of tactical importance to be military objectives.³⁹⁰
- 432.** Germany's Military Manual provides that military objectives include, in particular, "buildings and objects for combat service support".³⁹¹
- 433.** According to Hungary's Military Manual, military objectives include military establishments and positions.³⁹²
- 434.** According to Italy's IHL Manual, "military quarters, military works and establishments, defence works and preparations" are military objectives.³⁹³
- 435.** According to Italy's LOAC Elementary Rules Manual, military objectives include military establishments and positions.³⁹⁴
- 436.** Kenya's LOAC Manual provides that "the establishments, buildings and positions where armed forces or their material are located (e.g. positions, barracks, stores, concentrations of troops)" are military objectives.³⁹⁵
- 437.** According to Madagascar's Military Manual, military objectives include "establishments, constructions and positions where the armed forces and their materiel are located (for example positions, army barracks, depots)".³⁹⁶
- 438.** The Military Manual of the Netherlands considers that positions of military units, such as artillery positions, constitute military objectives "under all circumstances".³⁹⁷
- 439.** New Zealand's Military Manual states that "military bases, warehouses . . . buildings and objects that provide administrative and logistic support for military operations are examples of objects universally regarded as military objectives".³⁹⁸

³⁹⁸ New Zealand, *Military Manual* (1992), § 516(2), see also § 623(2).

440. South Africa's LOAC Manual states that military objectives include "the establishments, buildings and positions where armed forces or their material are located".³⁹⁹

441. According to Spain's LOAC Manual, "establishments, constructions and positions where armed forces are located [and] establishments and installations of combat support services and logistics" are military objectives.⁴⁰⁰

442. Switzerland's Basic Military Manual lists the armed forces and "their materiel, sites and buildings occupied by them (barracks, fortresses, arsenals) . . . and establishments directly linked to the activity of the armed forces" among military objectives.⁴⁰¹

443. Togo's Military Manual considers "the establishments, positions and constructions where armed forces and their materiel are located (e.g. positions, barracks and depots)" as military objectives.⁴⁰²

444. The UK LOAC Manual states that military objectives include "buildings".⁴⁰³

445. The US Air Force Pamphlet considers that "an adversary's military encampments . . . are military objectives beyond any dispute".⁴⁰⁴

446. According to the US Naval Handbook, proper targets for naval attack include such military objectives as naval and military bases ashore; warship construction and repair facilities; military depots and warehouses; petroleum/oils/lubricants (POL) storage areas; and buildings and facilities that provide administrative and personnel support for military and naval operations, such as barracks, headquarters buildings, mess halls and training areas.⁴⁰⁵

National Legislation

447. Cuba's Military Criminal Code includes "military installations, other military objects and objects intended for use by military units or institutions" in a list of military objects.⁴⁰⁶

448. According to Italy's Law of War Decree as amended, "military quarters, military works and establishments, defence works and preparations, depots of arms and war materiel" are military objectives.⁴⁰⁷

National Case-law

449. No practice was found.

³⁹⁹ South Africa, *LOAC Manual* (1996), § 24(d)(ii).

⁴⁰⁶ Cuba, *Military Criminal Code* (1979), Article 33(1).

⁴⁰⁷ Italy, *Law of War Decree as amended* (1938), Article 40.

Other National Practice

450. The Report on the Practice of Algeria states that tanks and munitions and ammunition stores were considered military objectives during the war of independence.⁴⁰⁸

451. In 1983, in reply to criticism of alleged attacks against civilian objects during the hostilities against Iran, the President of Iraq stated that "our aircraft did not bomb civilian targets in Baneh during their raid of 5 June; they bombed a camp in which a large body of Iranian forces was concentrated".⁴⁰⁹

452. The Report on the Practice of Lebanon states that, according to an advisor of the Lebanese Ministry of Foreign Affairs, any position used by the occupying army for military purposes is considered a military objective.⁴¹⁰

453. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK listed ammunition storage depots among the targets the Royal Air Force had attacked.⁴¹¹

454. In 1950, the US Secretary of State stated that "the air activity of the United Nations forces in Korea has been, and is, directed solely at military targets of the invader. These targets [include] . . . supply dumps."⁴¹²

455. In 1966, in the context of the Vietnam War, the US Department of Defense stated that "military targets include but are not limited to . . . POL facilities, barracks and supply depots. In the specific case of Nam Dinh and Phu Li, targets have been limited to . . . POL dumps."⁴¹³

456. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that Iraq's military storage and production sites had been included among the 12 target sets for the coalition's attacks.⁴¹⁴

III. Practice of International Organisations and Conferences

457. No practice was found.

⁴⁰⁸ Report on the Practice of Algeria, 1997, Chapter 1.3.

⁴⁰⁹ Iraq, Message from the President of Iraq, annexed to Letter dated 10 June 1984 to the UN Secretary-General, UN Doc. S/16610, 19 June 1984, p. 2.

⁴¹³ US, Department of Defense, Statement on targeting policy in Vietnam, 26 December 1966, reprinted in Marjorie Whiteman, *Digest of International Law*, Vol. 10, Department of State Publication 8367, Washington, D.C., 1968, p. 427.

⁴¹⁴ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Chapter VI, The Air Campaign, p. 98.

IV. Practice of International Judicial and Quasi-judicial Bodies

458. In 1997, in the case concerning the events at La Tablada in Argentina, the IAC iHR stated that a military base is a “quintessential military objective”.⁴¹⁵

V. Practice of the International Red Cross and Red Crescent Movement

459. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that military objectives include “the establishments, buildings and positions where armed forces or their material are located (e.g. positions, barracks, stores)”.⁴¹⁶

VI. Other Practice

460. In 1985, in the context of the conflict in El Salvador, the FMLN declared “those places visited by military elements, both from the army of the puppet regime as well as foreign military personnel involved in repressive and genocidal activities against the popular revolutionary movement” to be military objectives. It also considered houses or any other property leased to foreign military advisers as military objectives.⁴¹⁷

461. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch listed “military works, military and naval establishments, supplies, vehicles, camp sites, fortifications, and fuel depots or stores which are or could be utilized by either party to the conflict” as objects which “can arguably be regarded as legitimate military objectives subject to direct attack”.⁴¹⁸ This view was reiterated in its 1986 report on the use of landmines in the conflicts in El Salvador and Nicaragua.⁴¹⁹

462. In 1989, in a report on violations of the laws of war in Angola, Africa Watch listed “military works, military and naval establishments, supplies, vehicles, camp sites, fortifications, and fuel depots or stores that are, or could be, utilized by any party to the conflict” as objects which “may be regarded as legitimate military objectives subject to direct attack by combatants and mines”.⁴²⁰

Weapons and weapon systems

I. Treaties and Other Instruments

Treaties

463. Article 2 of the 1907 Hague Convention (IX) allows the bombardment of “the ships of war in the harbour”.

Other Instruments

464. According to paragraph I(5) of the proposed annex to Article 7(2) of the 1956 New Delhi Draft Rules, “rocket launching ramps” are military objectives considered to be of “generally recognized military importance”.

II. National Practice

Military Manuals

465. Belgium’s Law of War Manual considers that military vehicles and aircraft are military objectives.⁴²¹

466. Cameroon’s Instructors’ Manual considers that enemy warships are military objectives.⁴²²

467. Canada’s LOAC Manual considers that “military aircraft, weapons [and] ammunition are generally accepted as being military objectives”.⁴²³

468. Croatia’s LOAC Compendium states that proper targets in the air include “enemy military aircraft violating national airspace or flying over the high seas”.⁴²⁴

469. Ecuador’s Naval Manual considers that “proper targets for naval attack include such military objectives as enemy warships and military aircraft, naval and military auxiliaries... military vehicles, armour, artillery, ammunition stores”.⁴²⁵

470. Germany’s Military Manual provides that military objectives include, in particular, “military aircraft and warships”.⁴²⁶

471. Hungary’s Military Manual states that proper targets in the air include “enemy military aircraft violating national airspace or flying over the high seas”.⁴²⁷

472. The Military Manual of the Netherlands considers that materiel used by armed forces, such as tanks, vehicles, and aircraft, constitute military objectives “under all circumstances”.⁴²⁸

⁴²¹ Belgium, *Law of War Manual* (1983), p. 26.

⁴²² Cameroon, *Instructors’ Manual* (1992), p. 111.

⁴²⁶ Germany, *Military Manual* (1992), § 443. ⁴²⁷ Hungary, *Military Manual* (1992), p. 71.

⁴²⁸ Netherlands, *Military Manual* (1993), p. V-3.

473. New Zealand's Military Manual states that "military aircraft, weapons [and] ammunition are examples of objects universally regarded as military objectives".⁴²⁹

474. Spain's Field Regulations stipulates that objects useful in war, *inter alia*, arms, munitions, machines and tanks, are objects on which an attack is lawful.⁴³⁰

475. According to Spain's LOAC Manual, "military vehicles, warships and military aircraft [and] materiel, objects and goods belonging to the armed forces and which serve no medical or religious purpose" are military objectives.⁴³¹

476. The UK LOAC Manual states that military objectives include "minefields [and] weapons".⁴³²

477. The US Air Force Pamphlet considers that an adversary's "armament, such as military aircraft, tanks, antiaircraft emplacements . . . are military objectives beyond any dispute".⁴³³

478. The US Naval Handbook specifies that "proper targets for naval attack include such military objectives as enemy warships and military aircraft, naval and military auxiliaries, . . . military vehicles, armor, artillery, ammunition stores".⁴³⁴

National Legislation

479. Cuba's Military Criminal Code includes "weapons and munitions" in a list of military objects.⁴³⁵

480. According to Italy's Law of War Decree as amended, "warships and military aircraft" are legitimate military targets.⁴³⁶

National Case-law

481. No practice was found.

Other National Practice

482. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, Kuwait stated that "Kuwait Air Force aircraft also took part in joint air operations directed primarily against ground-to-ground missile sites, missile launchers, artillery positions and concentrations of Iraqi mechanized units".⁴³⁷

483. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK stated that it had targeted Iraq's fixed and mobile SCUD missile launchers and its chemical and biological warfare installations,

⁴²⁹ New Zealand, *Military Manual* (1992), § 516(2), see also § 623(2).

production and storage capability.⁴³⁸ In another such report, the UK stated that it had attacked “elements of the Iraqi air defence system” and specified that “the Royal Air Force [had] attacked surface-to-air missile sites, artillery positions, ammunition storage and Silkworm surface-to-surface missile sites”.⁴³⁹

484. In 1966, in the context of the Vietnam War, the US Department of Defense stated that military targets “also include those anti-aircraft and SAM sites which endanger the lives of American pilots... In the specific case of Nam Dinh and Phu Li, targets have been limited to... air defense sites.”⁴⁴⁰

485. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that military targets included “Iraqi biological and chemical warfare facilities, mobile and fixed surface-to-surface missile sites... and the air defense networks that protect these facilities” as well as “Iraqi artillery positions”.⁴⁴¹ In another such report, the US stated that “surface-to-surface missile capabilities remain as high priority targets”.⁴⁴² In the same report, the US stated that “the naval forces of the United States have also engaged Iraqi patrol and mine-laying craft in the Northern Arabian Gulf”.⁴⁴³ In a subsequent report, the US stated that allied attacks had targeted “air defence, combat aircraft in the air and on the ground, nuclear, biological and chemical storage facilities”, as well as “air defence radars and missiles in Kuwait” and “surface-to-surface missile capabilities”.⁴⁴⁴ In the same report, the US reiterated that “the naval forces of the United States and the allied coalition have continued to engage Iraqi patrol and mine-laying craft in the Northern Arabian Gulf”.⁴⁴⁵

486. In 1991, during a news briefing concerning the Gulf War, the US Secretary of Defense stated that “air defence units and radars”, “SCUD missile launchers” and “the factories where Iraq has produced chemical and biological weapons, and until recently, continued working on nuclear weapons” were considered military targets and had been attacked.⁴⁴⁶

487. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that Iraq's strategic integrated air defense system, its nuclear, biological and chemical weapons research, production and storage facilities and its Scud missiles, launchers, and production and storage facilities had been included among the 12 target sets for the coalition's attacks.⁴⁴⁷

III. Practice of International Organisations and Conferences

488. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

489. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

490. No practice was found.

VI. Other Practice

491. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch listed "weapons [and] other war materiel" as objects which "can arguably be regarded as legitimate military objectives subject to direct attack".⁴⁴⁸ This view was reiterated in its 1986 report on the use of landmines in the conflicts in El Salvador and Nicaragua.⁴⁴⁹

492. In 1989, in a report on violations of the laws of war in Angola, Africa Watch listed "weapons and other war material" as objects which "may be regarded as legitimate military objectives subject to direct attack by combatants and mines".⁴⁵⁰

Lines and means of communication

I. Treaties and Other Instruments

Treaties

493. Under Article 8 of the 1954 Hague Convention, cultural property may be placed under special protection provided, *inter alia*, that it is situated "at

an adequate distance . . . from any important military objective constituting a vulnerable point, such as, for example, . . . [a] broadcasting station . . . or a main line of communication”.

Other Instruments

494. According to Article 24(2) of the 1923 Hague Rules of Air Warfare, “lines of communication . . . used for military purposes” are military objectives.

495. Article 5(1) of the 1938 ILA Draft Convention for the Protection of Civilian Populations against New Engines of War provides that “aerial bombardment is prohibited unless directed at . . . lines of communication or transportation used for military purposes”.

496. Paragraph I of the proposed annex to Article 7(2) of the 1956 New Delhi Draft Rules provided that “the objectives belonging to the following categories are those considered to be of generally recognized military importance: . . . (7) The installations of broadcasting and television stations; telephone and telegraph exchanges of fundamental military importance.”

II. National Practice

Military Manuals

497. Australia’s Defence Force Manual cites “facilities which support or enhance command and control, such as communications facilities” as military objectives.⁴⁵¹

498. Ecuador’s Naval Manual considers communications and command and control (C3) facilities, as well as “lines of communication and other objects used to conduct or support military operations”, as proper targets for naval attack.⁴⁵²

499. According to Italy’s IHL Manual, “lines and means of communication which can be used for the needs of the armed forces” are military objectives.⁴⁵³

500. South Korea’s Military Law Manual states that “transmission towers and electronic communication facilities used for military operations” can be regarded as military objectives.⁴⁵⁴

501. New Zealand’s Military Manual states that “command and control points are examples of objects universally regarded as military objectives”.⁴⁵⁵

502. Sweden’s IHL Manual states that:

How and to what extent a given object can effectively contribute to the adversary’s military operations must be decided by the commander. This need not imply that the property in question is being used by the adversary for a given operation . . . It

⁴⁵¹ Australia, *Defence Force Manual* (1994), § 527(c).

⁴⁵⁴ South Korea, *Military Law Manual* (1996), p. 87.

⁴⁵⁵ New Zealand, *Military Manual* (1992), § 516(2), see also § 623(2).

may even be a question of means of communication . . . that indirectly contribute to the adversary's military operations.⁴⁵⁶

503. Switzerland's Basic Military Manual considers "lines of communication . . . of military importance" as military objectives.⁴⁵⁷

504. The US Air Force Pamphlet states that:

Controversy exists over whether, and the circumstances under which, other objects, such as civilian transportation and communications systems, dams and dikes can be classified properly as military objectives . . . A key factor in classification of objects as military objectives is whether they make an effective contribution to an adversary's military action so that their capture, destruction or neutralization offers a definite military advantage in the circumstances ruling at the time.⁴⁵⁸

505. The US Naval Handbook considers communications and command and control facilities, as well as "lines of communication and other objects used to conduct or support military operations", as proper targets for naval attack.⁴⁵⁹

National Legislation

506. Cuba's National Defence Act lists "communications facilities and equipment" among the objects integrated within the "Military Reserve of Facilities and Equipment of the National Economy" to guarantee the necessities of defence in wartime.⁴⁶⁰

507. According to Italy's Law of War Decree as amended, "lines and means of communication which can be used for the needs of the armed forces" are military objectives.⁴⁶¹

National Case-law

508. No practice was found.

Other National Practice

509. The Report on the Practice of Algeria states that:

Leaving aside the objects which do not really raise questions of interpretation such as tanks or weapons and munition depots, the National Liberation Army of Algeria resorted to "economic sabotage" throughout the war. Roads, bridges, railway tracks and telephone lines were preferred targets. It even happened that harvests of important French colonisers were burned or fuel depots used by the French army destroyed . . . Even the petroleum industry which had barely emerged was not spared. In fact, everything which was considered to form part of "the economic machinery of the enemy" had to be brought down.⁴⁶²

510. According to the Report on the Practice of Iran, radio and television stations were considered military objectives during the Iran–Iraq War.⁴⁶³

511. The Report on the Practice of Lebanon refers to a communiqué issued in 1997 by the Lebanese Ministry of Foreign Affairs which stated that “all radio stations and media installations in Lebanon are civilian targets. Israel does not have the right to attack them, regardless of their political orientation.”⁴⁶⁴

512. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK stated that “Iraqi military command and control has been severely damaged and increasingly Iraq has moved to alternative, less effective means of communication. Iraq’s ability to sustain a war has been steadily reduced.”⁴⁶⁵

513. During the Korean War, the US reportedly attacked communication centres in North Korea.⁴⁶⁶

514. In 1950, the US Secretary of State stated that “the air activity of the United Nations forces in Korea has been, and is, directed solely at military targets of the invader. These targets [include] . . . communications lines.”⁴⁶⁷

515. In 1991, in reports submitted to the UN Security Council on operations in the Gulf War, the US included command and control centers among Iraq’s military targets.⁴⁶⁸

516. In 1991, during a news briefing concerning the Gulf War, the US Secretary of Defense stated that “command and control [and] communications facilities” were considered military targets and had been attacked.⁴⁶⁹

517. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that Iraq’s leadership command facilities, its telecommunications and command, control and communication nodes had been included among the 12 target sets for the coalition’s attacks.⁴⁷⁰ The report specified that:

To challenge [Saddam Hussein’s] C3 [command, control and communication], the Coalition bombed microwave relay towers, telephone exchanges, switching rooms,

⁴⁶⁷ US, Statement by Dean Acheson, Secretary of State, 6 September 1950, reprinted in Marjorie Whiteman, *Digest of International Law*, Vol. 10, Department of State Publication 8367, Washington, D.C., 1968, p. 140.

⁴⁶⁸ US, Letter dated 22 January 1991 to the President of the UN Security Council, UN Doc. S/22130, 22 January 1991, p. 1; Letter dated 8 February 1991 to the President of the UN Security Council, UN Doc. S/22216, 13 February 1991, p. 1.

⁴⁶⁹ US, News Briefing by the US Secretary of Defense and the Chairman of the Joint Chiefs of Staff, Washington, 23 January 1991, annexed to Letter dated 25 January 1991 to the President of the UN Security Council, UN Doc. S/22168, 29 January 1991, p. 3.

⁴⁷⁰ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Chapter VI, The Air Campaign, pp. 95–96.

fiber optic nodes, and bridges that carried coaxial communications cables . . . More than half of Iraq's military landline communications passed through major switching facilities in Baghdad. Civil TV and radio facilities could be used easily for C3 backup for military purposes. The Saddam Hussein regime also controlled TV and radio and used them as the principal media for Iraqi propaganda. Thus, these installations were also struck.⁴⁷¹

In the same report, the Department of Defense stated that "microwave towers for everyday, peacetime civilian communications can constitute a vital part of a military command and control (C2) system . . . Attack of all segments of the Iraqi communications system was essential to destruction of Iraqi military C2."⁴⁷²

III. Practice of International Organisations and Conferences

518. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

519. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that:

The precise scope of "military-industrial infrastructure, media and other strategic targets" as referred to in the US statement and "government ministries and refineries" as referred to in the NATO statement is unclear. Whether the media constitutes a legitimate target group is a debatable issue. If the media is used to incite crimes, as in Rwanda, then it is a legitimate target. If it is merely disseminating propaganda to generate support for the war effort, it is not a legitimate target.⁴⁷³

The Committee further stated that:

The media as such is not a traditional target category. To the extent particular media components are part of the C3 (command, control and communications) network they are military objectives. If media components are not part of the C3 network then they may become military objectives depending upon their use. As a bottom line, civilians, civilian objects and civilian morale as such are not legitimate military objectives. The media does have an effect on civilian morale. If that effect is merely to foster support for the war effort, the media is not a legitimate military

⁴⁷¹ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Chapter VI, The Air Campaign, p. 96; see also James P. Coyne, Plan of Attack, *Air Force Magazine*, April 1992, pp. 40–42.

⁴⁷² US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, p. 623.

⁴⁷³ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, § 47.

objective. If the media is used to incite crimes, as in Rwanda, it can become a legitimate military objective. If the media is the nerve system that keeps a war-monger in power and thus perpetuates the war effort, it may fall within the definition of a legitimate military objective.⁴⁷⁴

With respect to NATO's attack against the radio and television station in Belgrade, the Committee noted that:

The attack appears to have been justified by NATO as part of a more general attack aimed at disrupting the FRY Command, Control and Communications network, the nerve centre and apparatus that keeps Milošević in power, and also as an attempt to dismantle the FRY propaganda machinery. Insofar as the attack actually was aimed at disrupting the communications network, it was legally acceptable.

If, however, the attack was made because equal time was not provided for Western news broadcasts, that is, because the station was part of the propaganda machinery, the legal basis was more debatable. Disrupting government propaganda may help to undermine the morale of the population and the armed forces, but justifying an attack on a civilian facility on such grounds alone may not meet the "effective contribution to military action" and "definite military advantage" criteria required by the Additional Protocols... While stopping such propaganda may serve to demoralize the Yugoslav population and undermine the government's political support, it is unlikely that either of these purposes would offer the "concrete and direct" military advantage necessary to make them a legitimate military objective.⁴⁷⁵

V. Practice of the International Red Cross and Red Crescent Movement

520. No practice was found.

VI. Other Practice

521. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch listed "objects which, while not directly connected with combat operations, effectively contribute to military operations in the circumstances ruling at the time, such as transportation and communication systems and facilities" as objects which "can arguably be regarded as legitimate military objectives subject to direct attack".⁴⁷⁶ This view was reiterated in its 1986 report on the use of landmines in the conflicts in El Salvador and Nicaragua.⁴⁷⁷

⁴⁷⁴ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, § 55.

⁴⁷⁵ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, §§ 75–76.

⁴⁷⁶ Americas Watch, *Violations of the Laws of War by Both Sides in Nicaragua: 1981–1985*, New York, March 1985, p. 33.

⁴⁷⁷ Americas Watch, *Land Mines in El Salvador and Nicaragua: The Civilian Victims*, New York, December 1986, pp. 99–100.

522. In 1989, in a report on violations of the laws of war in Angola, Africa Watch listed "objects that, while not directly connected with combat operations, effectively contribute to military operations in the circumstances ruling at the time, such as transportation and communication systems and facilities" as objects which "may be regarded as legitimate military objectives subject to direct attack by combatants and mines".⁴⁷⁸

523. In 1999, in a letter to the NATO Secretary-General concerning NATO's bombing in the FRY, Human Rights Watch stated, with respect to the argument that the Serbian State radio and television headquarters in Belgrade was a legitimate target for NATO to attack, that "while stopping such propaganda may serve to demoralize the Yugoslav population and undermine the government's political support, neither purpose offers the 'concrete and direct' military advantage necessary to make them a legitimate target".⁴⁷⁹

524. In a report on the NATO bombing in the FRY issued in 2000, Human Rights Watch stated that it considered the bombing of the Serbian State radio and television headquarters in Belgrade to be "one of the worst incidents of civilian death" with respect to target selection. It asserted that there was no evidence that the radio and television headquarters met the legal test of military necessity in target selection, as it made no direct contribution to the military effort in Kosovo, and added that in this case the purpose of the attack seemed to have been more "psychological harassment of the civilian population" than to obtain direct military effect. The report further stated that "the risks involved to the civilian population in undertaking the urban attack thus grossly outweighed any perceived military benefit".⁴⁸⁰

525. In 2000, in a report on the NATO bombings in the FRY, Amnesty International concluded that "in one instance, the attack on the headquarters of Serbian state radio and television (RTS), NATO launched a direct attack on a civilian object, killing 16 civilians. Such attack breached article 52(1) of Protocol I and therefore constitutes a war crime."⁴⁸¹

Lines and means of transportation

I. Treaties and Other Instruments

Treaties

526. Under Article 8 of the 1954 Hague Convention, cultural property may be placed under special protection provided, *inter alia*, that it is situated “at an adequate distance . . . from any important military objective constituting a vulnerable point, such as, for example, an aerodrome . . . a port or railway station of relative importance or a main line of communication”.

Other Instruments

527. According to Article 24(2) of the 1923 Hague Rules of Air Warfare, “lines of . . . transportation used for military purposes” are military objectives.

528. Article 5(1) of the 1938 ILA Draft Convention for the Protection of Civilian Populations against New Engines of War provides that “aerial bombardment is prohibited unless directed at . . . lines of communication or transportation used for military purposes”.

529. Paragraph I of the proposed annex to Article 7(2) of the 1956 New Delhi Draft Rules provided that:

The objectives belonging to the following categories are those considered to be of generally recognized military importance:

- ...
- (5) Airfields . . .
- (6) Those of the lines and means of communication (railway lines, roads, bridges, tunnels and canals) which are of fundamental military importance.

II. National Practice

Military Manuals

530. Australia’s Defence Force Manual cites “transport facilities which support military operations” and “transportation systems for military supplies, transportation centres where lines of communication converge, [and] rail yards” as examples of military objectives.⁴⁸²

531. Canada’s LOAC Manual considers that “ports and airfields are generally accepted as being military objectives”.⁴⁸³ The manual adds that “transportation systems for military supplies; transportation centres where lines of communication converge; [and] railyards may constitute military objectives depending on the circumstances”.⁴⁸⁴

⁴⁸² Australia, *Defence Force Manual* (1994), §§ 527(b) and 527(f).

⁴⁸³ Canada, *LOAC Manual* (1999), p. 4-2, § 9(a).

⁴⁸⁴ Canada, *LOAC Manual* (1999), p. 4-2, § 11(a), (b) and (c).

532. Croatia's *Commanders' Guide* includes "military means of transportation" among military objectives.⁴⁸⁵
533. Ecuador's *Naval Manual* lists airfields, bridges, railyards, docks, port facilities, harbours and embarkation points as military objectives.⁴⁸⁶
534. According to France's *LOAC Summary Note*, "military means of transportation" are military objectives.⁴⁸⁷
535. Italy's *LOAC Elementary Rules Manual* includes "military means of transportation" among military objectives.⁴⁸⁸
536. South Korea's *Military Law Manual* considers highways, railways, ports and airfields used for military operations as military objectives.⁴⁸⁹
537. Madagascar's *Military Manual* states that "military means of transportation" are military objectives.⁴⁹⁰
538. The *Military Manual of the Netherlands* states that:

Whether a road or railway constitutes a military objective depends on the military situation on the spot. The answer to the question of whether the acquisition of such an object at that moment yields a definite military advantage is decisive for the qualification of the object.⁴⁹¹

539. New Zealand's *Military Manual* states that "[military] transport, ports [and] airfields are examples of objects universally regarded as military objectives".⁴⁹² The manual further considers that "transportation systems for military supplies, transportation centres where lines of communication converge, railyards . . . may be attacked if they meet the criteria for military objectives".⁴⁹³
540. Spain's *Field Regulations* stipulates that bridges and railway equipment are legitimate objects of attack.⁴⁹⁴
541. Switzerland's *Basic Military Manual* considers "means of transportation of military importance" as military objectives.⁴⁹⁵
542. The *US Air Force Pamphlet* states that:

Controversy exists over whether, and the circumstances under which, other objects, such as civilian transportation and communications systems, dams and dikes can be classified properly as military objectives . . . A key factor in classification of objects as military objectives is whether they make an effective contribution to an adversary's military action so that their capture, destruction or neutralization offers a definite military advantage in the circumstances ruling at the time.⁴⁹⁶

⁴⁹⁵ Switzerland, *Basic Military Manual* (1987), Article 28.

⁴⁹⁶ US, *Air Force Pamphlet* (1976), § 5-3(b)(2).

543. The US Naval Handbook lists airfields, bridges, railyards, docks, port facilities, harbours and embarkation points as military objectives.⁴⁹⁷

National Legislation

544. Cuba's Military Criminal Code includes "means of transportation" in a list of military objects.⁴⁹⁸

545. Cuba's National Defence Act lists "means of land, air and water transport [and] airfields, ports and port installations, and plants, workshops, service centres, fuel stores and other installations intended for the exploitation, maintenance and repair of transport facilities and equipment" among the objects integrated within the "Military Reserve of Facilities and Equipment of the National Economy" to guarantee the necessities of defence in wartime.⁴⁹⁹

National Case-law

546. No practice was found.

Other National Practice

547. According to the Report on the Practice of Algeria, the destruction of railways, bridges and roads was part of a policy of "economic sabotage" conducted by the ALN during the war of independence.⁵⁰⁰

548. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK stated that it had attacked "main Iraqi military airfields".⁵⁰¹ In a further report it stated that "airfields" and "bridges vital to the military supply effort to and from Kuwait" had been attacked.⁵⁰²

549. During the Korean War, the US Joint Chiefs of Staff informed General MacArthur that mass air operations against industrial targets in North Korea were "highly desirable". The Joint Chiefs of Staff accordingly designated, *inter alia*, the following targets: the railway yards and shops at Pyongyang, the railway yards and shops at Wonsan, the railway yards and shops and the harbour facilities at Chongjin, the railway yards at Chinnampo, the railway yards and shops and the docks and storage areas at Songjin, the railway yards at Hamhung and the railway yards at Haeju.⁵⁰³

550. In 1966, in the context of the Vietnam War, the US Secretary of Defense stated that:

⁵⁰² UK, Letter dated 13 February 1991 to the President of the UN Security Council, UN Doc. S/22218, 13 February 1991, p. 1.

⁵⁰³ Robert F. Futrell, *The United States Air Force in Korea 1950–1953*, Office of Air Force History, US Air Force, Washington, D.C., Revised edition, 1983, pp. 186–187.

We are directing the aircraft against military targets, only military targets, and those particularly associated with the lines of communication between North Vietnam and South Vietnam over which they are sending the men and equipment which are the foundation of the Viet Cong effort to subvert the Government of South Vietnam.⁵⁰⁴

551. In 1966, in the context of the Vietnam War, the US Department of Defense stated that:

U.S. policy is to target military targets only, particularly those which have a direct impact on the movement of men and supplies into South Vietnam. These targets include but are not limited to roads, railroads, bridges [and] road junctions . . . In the specific case of Nam Dinh and Phu Li, targets have been limited to railroad and highway bridges, railroad yards . . .⁵⁰⁵

552. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US included "supply lines" among Iraq's military targets.⁵⁰⁶ In another such report, the US stated that "the supply lines leading from Iraq into Kuwait" were to be targeted by coalition forces.⁵⁰⁷

553. In 1991, during a news briefing concerning the Gulf War, the US Secretary of Defense stated that "airfields" were considered military targets and had been attacked.⁵⁰⁸

554. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that Iraq's airfields, its port facilities, and its railroads and bridges had been included among the 12 target sets for the coalition's attacks.⁵⁰⁹ In the same report, the US Department of Defense stated that:

A bridge or highway vital to daily commuter and business traffic can be equally crucial to military traffic, or support for a nation's war effort. Railroads, airports, seaports and the interstate highway system in the United States have been funded by the Congress in part because of US national security concerns, for example; each proved invaluable to the movement of US military units to various ports for deployment to Southwest Asia (SWA) for Operations Desert Shield and Desert

⁵⁰⁴ US, Secretary of Defense, Statement on targeting policy in Vietnam, 2 February 1966, reprinted in Marjorie Whiteman, *Digest of International Law*, Vol. 10, Department of State Publication 8367, Washington, D.C., 1968, p. 427.

⁵⁰⁵ US, Department of Defense, Statement on targeting policy in Vietnam, 26 December 1966, reprinted in Marjorie Whiteman, *Digest of International Law*, Vol. 10, Department of State Publication 8367, Washington, D.C., 1968, p. 427.

⁵⁰⁹ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Chapter VI, The Air Campaign, pp. 96-98.

Storm. Destruction of a bridge, airport, or port facility, or interdiction of a highway can be equally important in impeding an enemy's war effort.⁵¹⁰

III. Practice of International Organisations and Conferences

555. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

556. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated, concerning the "attack on a civilian passenger train at the Grdelica Gorge on 12 April 1999", that the railway bridge on which the train was hit "was a legitimate military objective".⁵¹¹

V. Practice of the International Red Cross and Red Crescent Movement

557. No practice was found.

VI. Other Practice

558. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch listed "objects which, while not directly connected with combat operations, effectively contribute to military operations in the circumstances ruling at the time, such as transportation and communication systems and facilities" as objects which "can arguably be regarded as legitimate military objectives subject to direct attack".⁵¹² This view was reiterated in its 1986 report on the use of landmines in the conflicts in El Salvador and Nicaragua.⁵¹³

559. In 1989, in a report on violations of the laws of war in Angola, Africa Watch listed "objects that, while not directly connected with combat operations, effectively contribute to military operations in the circumstances ruling at the time, such as transportation and communication systems and facilities,

⁵¹⁰ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, p. 623; see also James P. Coyne, Plan of Attack, *Air Force Magazine*, April 1992, pp. 40–42.

⁵¹¹ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, § 62.

⁵¹³ Americas Watch, *Land Mines in El Salvador and Nicaragua: The Civilian Victims*, New York, December 1986, pp. 99–100.

airfields, ports" as objects which "may be regarded as legitimate military objectives subject to direct attack by combatants and mines".⁵¹⁴

560. Following NATO's air campaign in the FRY in 1999, Human Rights Watch stated that:

The attacks on the Novi Sad bridge and six other bridges in which civilian deaths occurred... also were of questionable military effect. All are road bridges. Most are urban or town bridges that are not major routes of communications. Human Rights Watch questions individual target selection in the case of these bridges. U.S. military sources have told Human Rights Watch that bridges were often selected for attack for reasons other than their role in transportation (for example, they were conduits for communications cables, or because they were symbolic and psychologically lucrative, such as in the case of the bridge over the Danube in Novi Sad). The destruction of bridges that are not central to transportation arteries or have a purely psychological importance does not satisfy the criterion of making an "effective contribution to military action" or offering a "definite military advantage," the baseline tests for legitimate military targets codified in Protocol I, art. 52.⁵¹⁵

Economic installations

I. Treaties and Other Instruments

Treaties

561. Article 2 of the 1907 Hague Convention (IX) allows the bombardment of "workshops or plant which could be utilized for the needs of the hostile fleet or army".

562. Under Article 8 of the 1954 Hague Convention, cultural property may be placed under special protection provided, *inter alia*, that it is situated "at an adequate distance from any large industrial centre or from any important military objective constituting a vulnerable point".

Other Instruments

563. According to Article 24(2) of the 1923 Hague Rules of Air Warfare, "factories constituting important and well-known centres engaged in the manufacture of arms, ammunition or distinctively military supplies" are military objectives.

564. Paragraph I of the proposed annex to Article 7(2) of the 1956 New Delhi Draft Rules provided that:

The objectives belonging to the following categories are those considered to be of generally recognized military importance:

⁵¹⁴ Africa Watch, *Angola: Violations of the Laws of War by Both Sides*, New York, April 1989, p. 140.

⁵¹⁵ Human Rights Watch, *Civilian Deaths in the NATO Air Campaign*, New York, 7 February 2000, p. 11.

- ...
- (8) Industries of fundamental importance for the conduct of the war:
 - (a) industries for the manufacture of armaments such as weapons, munitions, rockets, armoured vehicles, military aircraft, fighting ships, including the manufacture of accessories and all other war material;
 - (b) industries for the manufacture of supplies and material of a military character, such as transport and communications material, equipment for the armed forces;
 - (c) factories or plants constituting other production and manufacturing centres of fundamental importance for the conduct of war, such as the metallurgical, engineering and chemical industries, whose nature and purpose is essentially military;
 - (d) storage and transport installations whose basic function it is to serve the industries referred to in (a)–(c);
 - (e) installations providing energy mainly for national defence, e.g. coal, other fuels, or atomic energy, and plants producing gas or electricity mainly for military consumption.
 - (9) Installations constituting experimental, research centres for experiments on and the development of weapons and war material.

II. National Practice

Military Manuals

565. Australia's Defence Force Manual gives as an example of military objectives:

power stations [and] industry which support military operations... industrial installations producing materiel for combat forces, fuel dumps and distribution centres supplying military users, industrial installations that repair and replenish lines of communication and other economic targets the destruction, capture or neutralisation of which offers a definite military advantage.⁵¹⁶

The manual adds that "economic targets that indirectly but effectively support operations are also military objectives if an attack will gain a definite military advantage".⁵¹⁷

566. Belgium's Law of War Manual states that:

The purpose of combat between belligerents is to weaken and eliminate the power of resistance of the enemy.

This resistance is provided in the first place by the armed forces of a Party to the conflict. As a result, acts of violence are in the first place directed against the military potential of the adversary (the army, its positions, provision of its supplies, its stores, workshops, arsenals, depots, defence works, vehicles, aircraft, war buildings, etc.).

But this resistance also depends on the economic power of the adversary (its war industry, its production capacity, its sources of supply, etc.); in short, its economic

⁵¹⁶ Australia, *Defence Force Manual* (1994), §§ 527(b) and 527(f).

⁵¹⁷ Australia, *Defence Force Manual* (1994), § 527(g).

potential. The breaking up of this economic potential has of course a direct influence on the armed forces' capacity to resist, so that this economic potential also becomes a war objective.⁵¹⁸

567. Canada's LOAC Manual considers that "petroleum storage areas are generally accepted as being military objectives".⁵¹⁹ The manual adds that "industrial installations producing material for armed forces; conventional power plants; and fuel dumps may constitute military objectives depending on the circumstances".⁵²⁰

568. Croatia's LOAC Compendium considers that supply and maintenance bases, namely locations where goods other than medical are produced, processed or stored, are military objectives.⁵²¹

569. Ecuador's Naval Manual states that:

Proper economic targets for naval attack include enemy lines of communication used for military purposes, rail yards, bridges, rolling stock, barges, lighters, industrial installations producing war-fighting products, and power generation plants. Economic targets of the enemy that indirectly but effectively support and sustain the enemy's war-fighting capability may also be attacked.⁵²²

570. Germany's Military Manual provides that military objectives include, in particular, "economic objectives which make an effective contribution to military action (transport facilities, industrial plants, etc.)".⁵²³

571. Hungary's Military Manual considers that supply and maintenance bases, namely locations where goods other than medical are produced, processed or stored, are military objectives.⁵²⁴

572. According to Italy's IHL Manual, "depots, workshops [and] installations... which can be used for the needs of the armed forces" are military objectives.⁵²⁵

573. New Zealand's Military Manual states that "energy installations [and] war supporting industries are examples of objects universally regarded as military objectives".⁵²⁶ The manual further states that:

Industrial installations producing materiel for combat forces, fuel dumps and distribution centres supplying military users, and industrial installations that repair and replenish lines of communication (such as conventional power plants and vehicle plants), and other economic targets may be attacked if they meet the criteria for military objectives.⁵²⁷

⁵¹⁸ Belgium, *Law of War Manual* (1983), p. 26.

⁵¹⁹ Canada, *LOAC Manual* (1999), p. 4-2, § 9(a).

⁵²⁰ Canada, *LOAC Manual* (1999), p. 4-2, § 11(d), (e) and (f).

⁵²¹ Croatia, *LOAC Compendium* (1991), p. 51.

⁵²² Ecuador, *Naval Manual* (1989), § 8.1.1. ⁵²³ Germany, *Military Manual* (1992), § 443.

⁵²⁴ Hungary, *Military Manual* (1992), p. 83. ⁵²⁵ Italy, *IHL Manual* (1991), Vol. I, § 12.

⁵²⁶ New Zealand, *Military Manual* (1992), § 516(2), see also § 623(2).

⁵²⁷ New Zealand, *Military Manual* (1992), § 516(4), see also § 623(4).

In general, the manual considers that:

Economic targets that indirectly but effectively support enemy operations may also be attacked to gain a definite military advantage. For example, an 1870 international arbitral tribunal recognized that the destruction of cotton was justified during the American Civil War since the sale of cotton provided funds for almost all Confederate arms and ammunition. Authorization to attack such targets will be reserved to higher authority.⁵²⁸

574. According to Spain's LOAC Manual, "economic-industrial objectives which make an effective and real contribution to military action" are military objectives.⁵²⁹

575. Sweden IHL Manual states that:

How and to what extent a given object can effectively contribute to the adversary's military operations must be decided by the commander. This need not imply that the property in question is being used by the adversary for a given operation . . . It may even be a question of . . . energy resources or factories that indirectly contribute to the adversary's military operations.⁵³⁰

576. Switzerland's Basic Military Manual considers "plants, factories and establishments directly linked to the activity of the armed forces" as military objectives.⁵³¹

577. The US Naval Handbook states that:

Proper economic targets for naval attack include enemy lines of communication, rail yards, bridges, rolling stock, barges, lighters, industrial installations producing war-fighting products, and power generation plants. Economic targets of the enemy that indirectly but effectively support and sustain the enemy's war-fighting capability may also be attacked.⁵³²

National Legislation

578. Cuba's National Defence Act lists among the objects integrated within the "Military Reserve of Facilities and Equipment of the National Economy" to guarantee the necessities of defence in wartime:

facilities and equipment for the handling and storage of cargo, agricultural machinery, construction machinery, and other facilities, installations and machinery intended for works of engineering [and] facilities and equipment for . . . automation, meteorology, topographical and geodesic systems.⁵³³

⁵²⁸ New Zealand, *Military Manual* (1992), § 516(5), see also § 623(5).

⁵²⁹ Spain, *LOAC Manual* (1996), Vol. I, § 4.5.b.(2).a.

⁵³⁰ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 54.

⁵³¹ Switzerland, *Basic Military Manual* (1987), Article 28.

⁵³² US, *Naval Handbook* (1995), § 8.1.1.

⁵³³ Cuba, *National Defence Act* (1994), Article 119(b) and (c).

579. According to Italy's Law of War Decree as amended, "depots, workshops [and] installations . . . which can be used for the needs of the armed forces" are military objectives.⁵³⁴

National Case-law

580. No practice was found.

Other National Practice

581. According to the Report on the Practice of Iran, during the Iran–Iraq War, Iran always insisted that it had no intention of attacking civilian objects, all targets being "military objectives or objects which by their nature, location, purpose or use made an effective contribution to military action, and thus most economic objectives were regarded as military objectives". The report cites refineries, petrochemical complexes, power stations, railway stations, radio and television stations and bridges as examples of economic objectives which were targeted by the Iranian air force and concludes that "the definition of military objectives from Iran's point of view is a broad one which includes economic objectives too".⁵³⁵

582. The Report on the Practice of Lebanon refers to a statement by the General Director of the Ministry of Justice in 1997 in which he stated that he considered the bombardment of economic installations to be a war crime.⁵³⁶

583. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK stated that Iraq's oil refining capacity had been specifically targeted with the objective of "reducing Iraq's military sustainability".⁵³⁷

584. During the Korean War, the US Joint Chiefs of Staff informed General MacArthur that mass air operations against industrial targets in North Korea were "highly desirable". The Joint Chiefs of Staff accordingly designated, *inter alia*, the following targets: the two munitions plants at Pyongyang, the three chemical plants at Hungnam, the oil refinery at Wonsan, the naval oil-storage tank farm at Rashin, the "Tong Iron Foundry" and the "Sam Yong Industrial Factory" at Chinnampo.⁵³⁸

585. In 1950, the US Secretary of State stated that "the air activity of the United Nations forces in Korea has been, and is, directed solely at military targets of the invader. These targets [include] . . . war plants."⁵³⁹

⁵³⁴ Italy, *Law of War Decree as amended* (1938), Article 40.

⁵³⁵ Report on the Practice of Iran, 1997, Chapter 1.3.

⁵³⁶ Report on the Practice of Lebanon, 1998, Chapter 6.5, referring to Statement by the General Director of the Lebanese Ministry of Justice, *al Raii al ordonia*, 23 December 1997.

⁵³⁷ UK, Letter dated 28 January 1991 to the President of the UN Security Council, UN Doc. S/22156, 28 January 1991, p. 1.

⁵³⁸ Robert F. Futrell, *The United States Air Force in Korea 1950–1953*, Office of Air Force History, US Air Force, Washington, D.C., Revised edition, 1983, pp. 186–187, see also pp. 517–518 (discussing the North Korean metals and mining business as a target category).

⁵³⁹ US, Statement by the Secretary of State, Dean Acheson, 6 September 1950, reprinted in Marjorie Whiteman, *Digest of International Law*, Vol. 10, Department of State Publication 8367, Washington, D.C., 1968, p. 140.

586. In 1966, in reply to an inquiry from a member of the House of Representatives asking for a restatement of US policy on targeting in North Vietnam, a US Deputy Assistant Secretary of Defense wrote that “the United States has not targeted such installations as textile plants, fruit-canning plants, silk factories and thread cooperatives”.⁵⁴⁰

587. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that Iraq’s electricity production facilities, its oil refining and distribution facilities and its military production sites had been included among the 12 target sets for the coalition’s attacks.⁵⁴¹

588. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that:

Natural resources that may be of value to an enemy in his war effort are legitimate targets. The 1943 air raids on the Ploesti oil fields in Romania, and the Combined Bomber Offensive campaign against Nazi oil, were critical to allied defeat of Germany in World War II, for example . . . During Desert Storm, Coalition planners targeted Iraq’s ability to produce refined oil products (such as gasoline) that had immediate military use, but eschewed attack on its long-term crude oil production capability.⁵⁴²

589. The Report on US Practice states that:

The *opinio juris* of the U.S. government recognizes the definition of military objectives in Article 52 of Additional Protocol I as customary law. United States practice gives a broad reading to this definition, and would include . . . war-supporting economic facilities as military objectives.⁵⁴³

III. Practice of International Organisations and Conferences

United Nations

590. In a resolution adopted in 1989 on the situation of human rights and fundamental freedoms in El Salvador, the UN Commission on Human Rights expressed its concern at “the systematic destruction of the economic infrastructure as a consequence of the armed conflict” and requested that all parties put an end to “attacks on the economic infrastructure”.⁵⁴⁴

⁵⁴⁰ US, Letter from Deputy Assistant Secretary of Defense Goulding to US Representative Ogden Reid from New York, 30 December 1966, reprinted in Marjorie Whiteman, *Digest of International Law*, Vol. 10, Department of State Publication 8367, Washington, D.C., 1968, p. 428.

Other International Organisations

591. No practice was found.

International Conferences

592. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

593. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

594. No practice was found.

VI. Other Practice

595. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch listed as objects which "can arguably be regarded as legitimate military objectives subject to direct attack":

objects which, while not directly connected with combat operations, effectively contribute to military operations in the circumstances ruling at the time, such as . . . otherwise non-military industries of importance to the ability of a party to the conflict to conduct military operations, such as raw or processed coffee destined for export.⁵⁴⁵

This view was reiterated in its 1986 report on the use of landmines in the conflicts in El Salvador and Nicaragua.⁵⁴⁶

596. In 1989, in a report on violations of the laws of war in Angola, Africa Watch listed as objects which "may be regarded as legitimate military objectives subject to direct attack by combatants and mines":

objects that, while not directly connected with combat operations, effectively contribute to military operations in the circumstances ruling at the time, such as . . . otherwise nonmilitary industries of importance to the ability of a party to the conflict to conduct military operations, such as diamonds or petroleum destined for export.⁵⁴⁷

⁵⁴⁷ Africa Watch, *Angola: Violations of the Laws of War by Both Sides*, New York, April 1989, p. 140.

Areas of land

I. Treaties and Other Instruments

Treaties

597. Upon ratification of AP I, Canada stated that:

A specific area of land may be a military objective if, because of its location or other reasons specified in [Article 52] as to what constitutes a military objective, its total or partial destruction, capture or neutralization in the circumstances governing at the time offers a definite military advantage.⁵⁴⁸

Similar statements were made upon signature and/or ratification of AP I by FRG, Italy, Netherlands, New Zealand, Spain and UK.⁵⁴⁹

598. In a declaration made upon ratification of AP I, France stated that:

A specific zone may be considered as a military objective if, due to its location or for any other criteria mentioned in Article 52 [AP I], its total or partial destruction, capture or neutralisation in the circumstances governing at the time offers a decisive military advantage.⁵⁵⁰

It made a similar interpretative declaration upon ratification of the 1998 ICC Statute.⁵⁵¹

599. Upon ratification of the CCW, the UK issued a declaration to the effect that "a specific area of land may be a military objective if, because of its location or other reasons [nature, purpose or use], its total or partial destruction, capture or neutralisation in the circumstances ruling at the time offers a definite military advantage".⁵⁵² Similar statements were made upon ratification of the CCW and/or acceptance of some of its Protocols by the Netherlands, Pakistan and US.⁵⁵³

Other Instruments

600. No practice was found.

II. National Practice

Military Manuals

- 601.** Australia's Defence Force Manual includes among military objectives "areas of land which are of direct use to defending or attacking forces, eg land through which an adversary is likely to move its forces or which may be used as a forming up point preceding an attack".⁵⁵⁴
- 602.** Belgium's Regulations on Armoured Infantry Squads defines the objective of a mission as "a vital area of land to be conquered or defended".⁵⁵⁵
- 603.** Belgium's Regulations on Tank Squadrons states that the objective of a tank squadron in attack is "an area of land whose capture requires the enemy's destruction or withdrawal".⁵⁵⁶
- 604.** Belgium's Regulations on the Tactical Use of Large Units states that "an objective is the final goal of an action. It is defined as either an area of land of tactical importance or as enemy elements that have to be destroyed or neutralised."⁵⁵⁷
- 605.** Benin's Military Manual considers "an area of land of tactical importance" as a military objective.⁵⁵⁸
- 606.** According to Canada's LOAC Manual, "a specific area of land may constitute a military objective".⁵⁵⁹
- 607.** According to Croatia's Commanders' Manual, military objectives include "tactically relevant points of terrain".⁵⁶⁰
- 608.** Ecuador's Naval Manual states that "proper naval targets also include geographic targets, such as a mountain pass".⁵⁶¹
- 609.** France's LOAC Summary Note includes "areas of land of tactical importance" among military objectives.⁵⁶²
- 610.** Italy's IHL Manual states that "areas of land that would be useful to capture or deny to the enemy in order to achieve a military operation" are military objectives.⁵⁶³
- 611.** Italy's LOAC Elementary Rules Manual includes "areas of tactical importance" among military objectives.⁵⁶⁴
- 612.** Madagascar's Military Manual states that military objectives include "areas of land of tactical importance".⁵⁶⁵

⁵⁵⁴ Australia, *Defence Force Manual* (1994), § 527(h), see also § 916(b) ("areas of land which armed forces use or which have military significance such as hills and bridgeheads").

⁵⁵⁵ Belgium, *Regulations on Armoured Infantry Squads* (1972), p. 3.

⁵⁵⁶ Belgium, *Regulations on Tank Squadrons* (1982), § 537(b)(2), see also §§ 536(b)(2) and 539(b)(2).

⁵⁵⁷ Belgium, *Regulations on the Tactical Use of Large Units* (1994), § 210.

⁵⁵⁸ Benin, *Military Manual* (1995), Fascicule I, p. 13.

⁵⁵⁹ Canada, *LOAC Manual* (1999), p. 4-1, § 8. ⁵⁶⁰ Croatia, *Commanders' Manual* (1992), § 4.

⁵⁶¹ Ecuador, *Naval Manual* (1989), § 8.1.1.

⁵⁶² France, *LOAC Summary Note* (1992), Part I, § 1.2.

⁵⁶³ Italy, *IHL Manual* (1991), Vol. I, § 12.

⁵⁶⁴ Italy, *LOAC Elementary Rules Manual* (1991), § 4.

⁵⁶⁵ Madagascar, *Military Manual* (1994), Fiche No. 2-O, § 4.

613. The Military Manual of the Netherlands notes that the government of the Netherlands has declared that “an area of land can constitute a military objective as long as it fulfils the conditions thereof”.⁵⁶⁶

614. New Zealand’s Military Manual states that:

An area of land may be a military objective, provided that the particular area offers a definite military advantage to the defending forces or those attacking. This would include a tract of land through which the adverse Party would be likely to move its forces, or an area the occupation of which would provide the occupant with the possibility of mounting a further attack.⁵⁶⁷

615. Spain’s LOAC Manual states that “the capture or preservation of a specific area of land constitutes a military objective when it meets all the requirements laid down in Article 52 AP I and it confers a concrete military advantage taking into account the circumstances ruling at the time”.⁵⁶⁸

616. Sweden’s IHL Manual states that:

The definition [of military objectives contained in Article 52(2) AP I] is intended to apply only to property or objects. Thus for example, areas of land cannot be included; but this does not prevent an area objective if it is a matter of hindering an enemy advance by means of artillery fire or mining. Attacks on an area are permitted as long as the attack cannot be classified as indiscriminate.⁵⁶⁹

617. Togo’s Military Manual considers “an area of land of tactical importance” as a military objective.⁵⁷⁰

618. The UK LOAC Manual states that military objectives include “areas of land which either have military significance such as hills, defiles or bridgeheads or which contain military objects; or . . . minefields”.⁵⁷¹

619. The US Naval Handbook states that “proper naval targets also include geographic targets, such as a mountain pass”.⁵⁷²

National Legislation

620. The Report on the Practice of Spain notes that the fact that a particular zone may be considered a military objective provided it fulfils the requirements of Article 52(2) AP I is consistent with the possibility provided for under Spanish law of establishing zones of interest for national defence, comprising “expanses of land, sea, or airspace declared as such because they constitute or may constitute a permanent base or an effective aid to offensive action necessary for such purpose”.⁵⁷³

⁵⁷² US, *Naval Handbook* (1995), § 8.1.1.

⁵⁷³ Report on the Practice of Spain, 1998, Chapter 1.3, referring to *Zones and Installations Law* (1975), Article 2.

National Case-law

621. No practice was found.

Other National Practice

622. In an explanatory memorandum submitted to the Belgian parliament in 1985 in the context of the ratification procedure of the Additional Protocols, the Belgian government stated that “the notion of ‘military objective’ must be understood as meaning that a specific zone, as such, which by its location or other criteria enumerated in Article 52 makes an effective contribution to enemy military action, can be considered a military objective”.⁵⁷⁴

623. At the CDDH, Canada stated that:

A specific area of land may also be a military objective if, because of its location or other reasons specified in Article 47 [now Article 52 AP I], its total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offers a definite military advantage.⁵⁷⁵

624. At the CDDH, the FRG stated that it had been able to vote in favour of Article 47 of draft AP I (now article 52) on the basis of the understanding that:

A specific area of land may be a military objective if, because of its location or other reasons specified in Article 47 [now Article 52 AP I], its total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offers a definite military advantage.⁵⁷⁶

625. At the CDDH, the Netherlands stated that it interpreted Article 47 of draft AP I (now Article 52) to mean that:

A specific area of land may be a military objective if, because of its location or other reasons specified in Article 47 [now Article 52 AP I], its total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offers a definite military advantage.⁵⁷⁷

626. At the CDDH, the UK stated that:

A specific area of land might be a military objective if, because of its location or for other reasons specified in Article 47 [now Article 52 AP I], its total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offered a definite military advantage.⁵⁷⁸

627. At the CDDH, the US expressed its understanding that:

⁵⁷⁴ Belgium, House of Representatives, Explanatory memorandum on a draft bill for the approval of the Additional Protocols, 1984–1985 Session, Doc. 1096-1, 9 January 1985, p. 10.

⁵⁷⁵ Canada, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 179.

⁵⁷⁶ FRG, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 188.

⁵⁷⁷ Netherlands, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 195.

⁵⁷⁸ UK, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 169, § 153.

A specific area of land may be a military objective if, because of its location or other reasons specified in Article 47 [now Article 52 AP I], its total or partial destruction, capture or neutralization, in the circumstances ruling at the time, offers a definite military advantage.⁵⁷⁹

628. In 1992, in a review of the legality of extended range anti-armour munition, the US Department of the Air Force stated that:

An area of land can be a military objective if by its nature, location, purpose or use it makes an effective contribution to military action and its total or partial destruction, denial, capture or neutralization offers a definite military advantage, in the circumstances ruling at the time. Most areas which would be mined in war would meet this definition.⁵⁸⁰

629. The Report on US Practice states that:

The *opinio juris* of the U.S. government recognizes the definition of military objectives in Article 52 of Additional Protocol I as customary law. United States practice gives a broad reading to this definition, and would include areas of land . . . as military objectives.⁵⁸¹

II. National Practice

Military Manuals

635. Australia's Defence Force Manual states that:

The presence of noncombatants in or around a military objective does not change its nature as a military objective. Noncombatants in the vicinity of a military objective must share the danger to which the military objective is exposed.

Civilians working in a store on a military air base may not necessarily be taking . . . a direct part [in hostilities]. However, stores, depots, supply columns and military installations are clearly military objectives which may be attacked, regardless of the presence of civilian workers.

Civilians who are not directly involved in combat but are performing military tasks are not combatants. If they are killed or injured during an attack on a legitimate military objective there is no breach of LOAC provided the death or injury is not disproportionate to the direct and concrete military advantage anticipated from the attack. The presence of civilians on or near the proposed military objective (either in a voluntary capacity or as a shield) is merely one of the factors that must be considered when planning an attack.⁵⁸²

636. Canada's LOAC Manual states that:

For targeting purposes, the presence of civilians who are authorized to accompany the armed forces without actually being members thereof (such as crews of military aircraft, war correspondents, supply contractors or members of services responsible for the welfare of the armed forces) does not render a legitimate target immune from attack. Such persons run the risk of being attacked as part of a legitimate target.⁵⁸³

637. Colombia's Instructors' Manual states that "a military objective remains a military objective even if civilians are inside it. Civilians within or in the immediate vicinity of a military objective share the risk to which the objective is exposed."⁵⁸⁴

638. Croatia's LOAC Compendium considers that supply and maintenance bases are military objectives and that civilian personnel working there share the risk of attack.⁵⁸⁵

639. Ecuador's Naval Manual states that:

Deliberate use of noncombatants to shield military objectives from enemy attack is prohibited. The presence of non-combatants within or near military objectives does not preclude an attack on such objectives . . . Unlike military personnel (other than those in a specially protected status such as medical personnel and the sick and wounded) who are always subject to attack, whether on duty or in a leave capacity, civilians are immune from attack unless they are engaged in direct support of the enemy's armed forces or provide them with logistical support. Civilians who provide command, administrative or logistical support to military operations are

⁵⁸² Australia, *Defence Force Manual* (1994), §§ 526, 532 and 550.

⁵⁸³ Canada, *LOAC Manual* (1999), p. 4-4, § 34.

⁵⁸⁴ Colombia, *Instructors' Manual* (1999), p. 18.

⁵⁸⁵ Croatia, *LOAC Compendium* (1991), p. 51.

exposed to attacks while performing such duties. Similarly, civilian employees of navy shipyards, the merchant navy personnel working on ships carrying military cargo, and the workers on military fortifications can be attacked while they carry out such activities.⁵⁸⁶

640. Germany's Military Manual states that "civilians present in military objectives are not protected against attacks directed at these objectives; the presence of civilian workers in an arms production plant, for instance, will not prevent opposing armed forces from attacking this military objective".⁵⁸⁷

641. Hungary's Military Manual considers that supply and maintenance bases are military objectives and that civilian personnel working there share the risk of attack.⁵⁸⁸

642. Madagascar's Military Manual states that "a military objective remains a military objective even if civilians are present inside it".⁵⁸⁹

643. The Military Manual of the Netherlands considers that:

Acts such as the manufacturing and transport of military materiel in the hinterland certainly do not constitute a direct participation in hostilities. In addition, it has to be borne in mind that the fact that civilians are working in, for example, a weapons factory does not convert such an industrial object into a civilian object. Such a case has to be assessed in the light of the definition of a military objective.⁵⁹⁰

644. New Zealand's Military Manual states that "civilians employed in industries or other activities connected with the war effort may lose while on the job some or all of their protection as civilians but they do not, as a result, become combatants".⁵⁹¹

645. Spain's Field Regulations deals with the question of whether protection should be granted to "individuals who, forming part of a field army, are nonetheless not combatants in the strict sense of the word, such as employees and operatives of administrative and technical bodies, drivers, cleaners".⁵⁹² According to the manual, such individuals "who are not military personnel but follow armies to the battlefield are naturally exposed to the same dangers and cannot expect to be treated differently; but once their position and functions have been identified, they must be respected".⁵⁹³

646. Spain's LOAC Manual states that "indirect objectives" are objectives:

which may not be the object of a direct attack but which can suffer the consequences of an attack upon a military objective. Such is the case for civilians... who may suffer the effects of an attack upon a legitimate military objective due to:

⁵⁸⁶ Ecuador, *Naval Manual* (1989), §§ 11.2 and 11.3.

⁵⁸⁷ Germany, *Military Manual* (1992), § 445. ⁵⁸⁸ Hungary, *Military Manual* (1992), p. 83.

⁵⁸⁹ Madagascar, *Military Manual* (1994), Fiche No. 2-SO, § D.

⁵⁹⁰ Netherlands, *Military Manual* (1993), p. V-5.

⁵⁹¹ New Zealand, *Military Manual* (1992), § 802(2).

⁵⁹² Spain, *Field Regulations* (1882), Article 853.

⁵⁹³ Spain, *Field Regulations* (1882), Article 855.

- their proximity to a military objective aimed at shielding that objective against attack;
- their carrying out activities supporting military operations (units of workers, workers in arms factories, etc.).⁵⁹⁴

The manual further provides that civilian personnel who accompany and render services to the armed forces “do not have the protected status of the civilian population but are entitled to the status of prisoner of war in case of capture”.⁵⁹⁵

647. Switzerland’s Basic Military Manual considers that:

Civilians who are inside or in the immediate vicinity of military objectives run the risks to which the military objectives are exposed. For example, the presence of civilian workers inside a weapons factory does not prevent the enemy from attacking this military objective.⁵⁹⁶

648. The US Naval Handbook states that:

Deliberate use of noncombatants to shield military objectives from enemy attack is prohibited. Although the principle of proportionality underlying the concept of collateral damage and incidental injury continues to apply in such cases, the presence of non-combatants within or adjacent to a legitimate target does not preclude attack of it . . . Unlike military personnel (other than those in a specially protected status such as medical personnel and the sick and wounded) who are always subject to attack whether on duty or in a leave capacity, civilians, as a class, are not to be the object of attack. However, civilians that are engaged in direct support of the enemy’s war-fighting or war-sustaining effort are at risk of incidental injury from attack on such activities.⁵⁹⁷

National Legislation

649. No practice was found.

National Case-law

650. According to the Report on the Practice of Japan, the judgement of the Tokyo District Court in the *Shimoda case* in 1963, which concerned the dropping of the atomic bomb, can be interpreted as having denied the existence of the concept of so-called quasi-combatants, whereby civilians who do not directly partake in hostilities, but indirectly contribute to hostile acts by working in transportation, communication and industrial facilities would be regarded as military objectives.⁵⁹⁸

⁵⁹⁴ Spain, *LOAC Manual* (1996), Vol. I, § 4.4.e, see also § 2.3.b.(1).

Other National Practice

651. In an explanatory memorandum submitted to the Belgian parliament in 1985 in the context of the ratification procedure of the Additional Protocols, the Belgian government stated that “each person, even a civilian, who is located inside a military objective, is exposed to the consequences of the risks that objective runs”.⁵⁹⁹

652. In 1989, a US memorandum of law concerning the prohibition of assassination stated that:

Civilians who work within a military objective are at risk from attack during the times in which they are present within that objective, whether their injury or death is incidental to the attack of that military objective or results from their direct attack . . . The substitution of a civilian in a position or billet that normally would be occupied by a member of the military will not make that position immune from attack.⁶⁰⁰

653. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

Civilians using those bridges or near other targets at the time of their attack were at risk of injury incidental to the legitimate attack of those targets . . . The presence of civilians will not render a target immune from attack; legitimate targets may be attacked wherever located (outside neutral territory and waters).⁶⁰¹

such an objective or its immediate surroundings share the danger to which it is exposed."⁶⁰²

VI. *Other Practice*

657. Oppenheim states that:

Sections of the civilian population, like munition workers, which are closely identified with military objectives proper, may, while so identified, be legitimately exposed to air attack and to other belligerent measures aiming at the destruction of the objectives in question.⁶⁰³

658. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch stated that:

Persons providing only indirect support to the Nicaraguan army by, *inter alia*, working in defense plants, distributing or storing military supplies in rear areas, supplying labor and food, or serving as messengers or disseminating propaganda . . . may *not* be subject to direct individualized attack or execution since they pose no immediate threat to the adversary. However, they assume the risk of incidental death or injury arising from attacks against legitimate military targets.⁶⁰⁴ [emphasis in original]

This view was reiterated in its 1986 report on the use of landmines in the conflicts in El Salvador and Nicaragua.⁶⁰⁵

659. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that:

Persons providing only indirect support to the Angolan, Cuban, or South African armed forces or UNITA by, *inter alia*, working in defense plants, distributing or storing military supplies behind conflict areas, supplying labor and food, serving as messengers, or disseminating propaganda . . . may not be subject to direct individualized attack because they pose no immediate threat to the adversary. They assume, however, the risk of incidental death or injury arising from attacks and the use of weapons against legitimate military targets.⁶⁰⁶

C. Definition of Civilian Objects

I. Treaties and Other Instruments

Treaties

660. Article 52(1) AP I defines civilian objects as “all objects which are not military objectives”. Article 52 AP I was adopted by 79 votes in favour, none against and 7 abstentions.⁶⁰⁷

661. Article 2(5) of the 1980 Protocol II to the CCW and Article 2(7) of the 1996 Amended Protocol II to the CCW define civilian objects as “all objects which are not military objectives”.

662. Article 1(4) of the 1980 Protocol III to the CCW defines civilian objects as “all objects which are not military objectives”.

663. Upon signature of the 1998 ICC Statute, Egypt declared that “civilian objects [referred to in article 8, paragraph 2 (b) of the Statute] must be defined and dealt with in accordance with the provisions of [AP I] and, in particular, article 52 thereof”.⁶⁰⁸

Other Instruments

664. No practice was found.

II. National Practice

Military Manuals

665. Military manuals of Argentina, Australia, Cameroon, Canada, Colombia, Kenya, Madagascar, Netherlands, South Africa, Spain, UK and US define civilian objects as all objects which are not military objectives.⁶⁰⁹

666. Benin’s Military Manual defines civilian objects as “any object which is not a military object or which is not used for military purposes”.⁶¹⁰

667. Croatia’s Commanders’ Manual defines civilian objects as “those objects that are not used for military purposes”.⁶¹¹

668. Ecuador’s Naval Manual defines civilian objects as “all civilian property and activities other than those used to support or sustain the enemy’s war-fighting capability”.⁶¹²

⁶⁰⁷ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 168.

⁶¹⁰ Benin, *Military Manual* (1995), Fascicule I, p. 13.

⁶¹¹ Croatia, *Commanders’ Manual* (1992), § 6. ⁶¹² Ecuador, *Naval Manual* (1989), § 8.1.2.

669. France's LOAC Summary Note states that "civilian objects are those objects that are not used for military purposes".⁶¹³

670. Italy's LOAC Elementary Rules Manual defines civilian objects as "those objects that are not used for military purposes".⁶¹⁴

671. Sweden IHL Manual states that:

Seen against the background of the enormous destruction of civilian property associated with the Second World War and all later conflicts, application of [Article 52 AP I] could bring about an appreciable humanizing of warfare – people would no longer need to experience the catastrophe of bombed-out homes and ruined cities. However, Article 52 cannot be expected to bring about such great changes in warfare... [An] important reason [for this] is the lack of a definition of civilian objectives.⁶¹⁵

672. Togo's Military Manual defines civilian objects as "any object which is not a military object or which is not used for military purposes".⁶¹⁶

673. The US Naval Handbook defines civilian objects as "all civilian property and activities other than those used to support or sustain the enemy's war-fighting capability".⁶¹⁷

674. The YPA Military Manual of the SFRY (FRY) defines civilian objects as "objects which are not military".⁶¹⁸

National Legislation

675. The Report on the Practice of Cuba asserts that objects not listed by the National Defence Act among the "Military Reserve of Facilities and Equipment of the National Economy" should be considered as civilian objects.⁶¹⁹

National Case-law

676. No practice was found.

Other National Practice

677. On the basis of the reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq defines civilian objects as objects whose utilisation is confined exclusively to civilian purposes. According to the report, an object should always be considered as civilian if it does not have a major effect on military operations and is indispensable to civilians.⁶²⁰

schools, and farm villages, that are exclusively dedicated to civilian purposes and, in the circumstances prevailing at the time, do not make an effective contribution to military action" should be considered civilian objects immune from direct attack by combatants, as well as by landmines and related devices.⁶²⁶

685. In 2000, in a report on the NATO air campaign against the FRY, Human Rights Watch used the definition of a military objective contained in Article 52(2) AP I.⁶²⁷

D. Loss of Protection from Attack

Civilian objects used for military purposes

I. Treaties and Other Instruments

686. No practice was found.

II. National Practice

Military Manuals

687. Australia's Defence Force Manual lists among military objectives "objects, normally dedicated to civilian purposes, but which are being used for military purposes, eg a school house or home which is being used temporarily as a battalion headquarters".⁶²⁸ The manual specifies that:

For this purpose, "use" does not necessarily mean occupation. For example, if enemy soldiers use a school building as shelter from attack by direct fire, then they are clearly gaining a military advantage from the school. This means the school becomes a military objective and can be attacked.⁶²⁹

The manual also considers that "civilian aircraft, vessels, vehicles and buildings which contain combatants, military equipment or supplies" are also military objectives.⁶³⁰

688. Belgium's Teaching Manual for Soldiers states that objects occupied or used by enemy military forces are military objectives "even if these objects were civilian at the outset (houses, schools or churches occupied by the enemy)".⁶³¹

⁶²⁶ Africa Watch, *Angola: Violations of the Laws of War by Both Sides*, New York, April 1989, p. 139.

⁶³¹ Belgium, *Teaching Manual for Soldiers* (undated), pp. 20–21.

689. Cameroon's *Instructors' Manual* considers that "depending on the military situation, [civilian objects] can become military objectives (e.g. a house or bridge used for tactical purposes by the enemy)".⁶³²

690. Canada's *LOAC Manual* states that "where a civilian object is used for military purposes, it loses its protection as a civilian object and may become a legitimate target".⁶³³ The manual further states that "civilian vessels, aircraft, vehicles and buildings are military objectives if they contain combatants, military equipment or supplies."⁶³⁴

691. Colombia's *Instructors' Manual* states that "objects which are normally civilian can, depending on the military situation, be converted into military objectives (for example a house or a bridge used for tactical purposes by the defender and therefore liable to attack)".⁶³⁵

692. Croatia's *Commanders' Manual* states that "civilian objects must not be attacked unless they have become military objectives".⁶³⁶

693. France's *LOAC Summary Note* states that "civilian objects may not be attacked, unless they have become military targets".⁶³⁷

694. Israel's *Manual on the Laws of War* states that:

A situation may arise where the target changes its appearance from civilian to military or vice versa. For instance, if anti-aircraft batteries are stationed on a school roof or a sniper is positioned in a mosque's minaret, the protection imparted to the facility by its being a civilian object will be removed, and the attacking party will be allowed to hit it . . . A reverse situation may also occur in which an originally military objective becomes a civilian object, as for instance, a large military base that is converted to a collection point for the wounded, and is thus rendered immune to attack.⁶³⁸

695. Italy's *LOAC Elementary Rules Manual* states that "civilian objects must not be attacked unless they have become military objectives".⁶³⁹

696. Kenya's *LOAC Manual* provides that "objects which are normally civilian objects can, according to the military situation, become military objectives (e.g. house or bridge tactically used by the defender and thus a target for an attacker)".⁶⁴⁰

697. Madagascar's *Military Manual* states that "objects which are normally civilian can, depending on the military situation, become military objectives (for example, a house or bridge used for tactical purposes by the defender and thus becoming a military objective)".⁶⁴¹

⁶⁴¹ Madagascar, *Military Manual* (1994), Fiche No. 2-SO, § D.

698. The Military Manual of the Netherlands considers that civilian objects, such as houses and school buildings, can be used in such a way that they become military objectives, for example if they house combatants or are used as commando posts.⁶⁴²

699. The Military Handbook of the Netherlands states that “non-military buildings and other objects not used for military purposes or of no military importance” may not be attacked.⁶⁴³

700. The Aide-Mémoire for IFOR Commanders of the Netherlands prohibits attacks on “objects with a strict civilian or religious character, unless they are used for military purposes”.⁶⁴⁴

701. New Zealand’s Military Manual provides that “civilian vessels, aircraft, vehicles and buildings may be lawfully attacked if they contain combatant personnel or military equipment or supplies or are otherwise associated with combat activity inconsistent with their civilian status”.⁶⁴⁵

702. Russia’s Military Manual prohibits “the bombardment by military aircraft or warships of cities, harbours, villages and dwellings . . . provided they are not being used for military purposes”.⁶⁴⁶

703. According to Spain’s LOAC Manual, “civilian objects can become military objectives if by their location, purpose or use, they may assist the enemy, or if their capture, destruction or neutralisation offers a definite military advantage”.⁶⁴⁷

704. The US Air Force Pamphlet states that “the inherent nature of the object is not controlling since even a traditionally civilian object, such as a civilian house, can be a military objective when it is occupied and used by military forces during an armed engagement”.⁶⁴⁸

705. The US Rules of Engagement for Operation Desert Storm gives the following instruction:

Do not fire into civilian populated areas or buildings which are not defended or being used for military purposes . . . Do not attack traditional civilian objects, such as houses, unless they are being used by the enemy for military purposes and neutralization assists in mission accomplishment.⁶⁴⁹

National Legislation

706. No practice was found.

National Case-law

707. The Report on the Practice of Colombia refers to a decision of the Council of State which considered that when civilian means of transportation are used by combatants they become military objectives.⁶⁵⁰

Other National Practice

708. In a military communiqué issued in 1973, Egypt stated that it condemned attacks against civilian objects, unless such objects were used in military operations.⁶⁵¹

709. On the basis of interviews with members of the armed forces, the Report on the Practice of Malaysia notes that a civilian object would not be regarded as such if it was to be used to contribute to military action, such as in the production of military equipment.⁶⁵²

710. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that "civilian objects are protected from direct, intentional attack unless they are used for military purposes, such as shielding military objects from attack".⁶⁵³

711. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that "cultural property, civilian objects, and natural resources are protected from intentional attack so long as they are not utilized for military purposes".⁶⁵⁴

712. In 1991, the Ministry of Defence of the SFRY issued a document entitled "Examples of violations of the rules of international law committed by the so-called armed forces of Slovenia", which included the following example:

Along the road to the frontier with Austria, over 100 heavy lorries were forced to stop and were used to create a barrier to block a YPA unit marching to the frontier. Drivers of the lorries were banned to leave their vehicles, whereby they became hostages, and it was quite clear that their vehicles had lost [their] status of civilian vehicles as they were used to create a barrier to military traffic. Thus, these vehicles became an object of legitimate attack. Simultaneously, the stopped military convoy was fired upon from the barricade, so that there was no choice for the army: as the lives of soldiers was endangered, the barricade had to be eliminated by force.⁶⁵⁵

⁶⁵⁰ Report on the Practice of Colombia, 1998, Chapter 1.3, referring to Council of State, *Administrative Case No. 7013*, Judgement, 13 December 1993.

III. Practice of International Organisations and Conferences

713. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

714. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

715. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "objects which are normally civilian objects can, according to the military situation, become military objectives (e.g. house or bridge tactically used by the defender and thus a target for an attacker)".⁶⁵⁶

716. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 47(2) of draft API which stated that "objects designed for civilian use, such as houses, dwellings, installations and means of transport, and all objects which are not military objectives, shall not be made the object of attack, except if they are used mainly in support of the military effort". All governments concerned replied favourably.⁶⁵⁷

VI. Other Practice

717. In a resolution adopted during its Edinburgh Session in 1969, the Institute of International Law stated that:

Existing international law prohibits all armed attacks . . . on non-military objects, notably dwellings or other buildings sheltering the civilian population, so long as these are not used for military purposes to such an extent as to justify action against them under the rules regarding military objectives.⁶⁵⁸

718. In 2001, in a report on Israel and the occupied territories, Amnesty International stated that civilian objects "may be attacked while they are being used for firing upon Israeli forces. But they revert to their status as civilian objects as soon as they are no longer being used for launching attacks".⁶⁵⁹

Situations of doubt as to the character of an object*I. Treaties and Other Instruments**Treaties*

719. Article 52(3) AP I states that “in case of doubt whether an object which is normally dedicated to civilian purposes, such as a place of worship, a house or other dwelling or a school, is being used to make an effective contribution to military action, it shall be presumed not to be so used”. Article 52 AP I was adopted by 79 votes in favour, none against and 7 abstentions.⁶⁶⁰

720. Article 3(8)(a) of the 1996 Amended Protocol II to the CCW provides that “in case of doubt as to whether an object which is normally dedicated to civilian purposes, such as a place of worship, a house or other dwelling or a school, is being used to make an effective contribution to military action, it shall be presumed not to be so used”.

721. Upon signature of the 1998 ICC Statute, Egypt declared that “civilian objects [referred to in Article 8, paragraph 2(b) of the Statute] must be defined and dealt with in accordance with the provisions of [AP I] and, in particular, article 52 thereof. In case of doubt, the object shall be considered to be civilian.”⁶⁶¹

Other Instruments

722. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 52(3) AP I.

723. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the parties to the conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 52(3) AP I.

724. Paragraph 58 of the 1994 San Remo Manual provides that “in case of doubt whether a vessel or aircraft exempt from attack is being used to make an effective contribution to military action, it shall be presumed not to be so used”. The commentary on this paragraph states that “this rule, the so-called rule of doubt, imposes an obligation on a party to the conflict to gather and assess relevant information before commencing an attack”.

*II. National Practice**Military Manuals*

725. Argentina’s Law of War Manual provides that “in case of doubt concerning the military use of an object which is usually dedicated to civilian purposes, that object must be considered as civilian”.⁶⁶²

⁶⁶⁰ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 168.

⁶⁶² Argentina, *Law of War Manual* (1989), § 4.45, see also § 4.02(2).

726. Australia's Defence Force Manual states that "in cases of doubt whether an object which is normally dedicated to civilian purposes, such as a church, is being used to make an effective contribution to military action, it should be presumed to be a civilian object".⁶⁶³

727. Benin's Military Manual states that "whenever there is a doubt concerning the nature of an objective, it must be considered as a civilian object".⁶⁶⁴

728. Cameroon's Instructors' Manual states that in case of doubt as to whether an object is military or civilian in character, it should be considered as a civilian object.⁶⁶⁵

729. Canada's LOAC Manual states that:

In the case of doubt as to whether an object which is normally dedicated to civilian purposes (such as a place of worship, a house or other dwelling, or a school) is being used to make an effective contribution to military action, it shall be presumed not to be so used.⁶⁶⁶

730. Colombia's Instructors' Manual states that "in case of doubt all objects which are normally dedicated to civilian purposes must be considered civilian".⁶⁶⁷

731. Croatia's LOAC Compendium affirms that in case of doubt as to whether an object is military or civilian in character, it should be considered as a civilian object.⁶⁶⁸

732. France's LOAC Manual states that "in case of doubt, an object usually affected to a civilian use must be considered as civilian and shall not be attacked".⁶⁶⁹

733. Germany's Military Manual provides that "an objective which is normally dedicated to civil purposes shall, in case of doubt, be assumed not to be used in a way to make an effective contribution to military action, and therefore be treated as a civilian object".⁶⁷⁰

734. Hungary's Military Manual affirms that in case of doubt, objects must be considered to be civilian.⁶⁷¹

735. Israel's Manual on the Laws of War states that "in cases where there is doubt as to whether a civilian object has turned into a military objective, the Additional Protocols state that one is to assume that it is not a military objective unless proven otherwise".⁶⁷²

736. Kenya's LOAC Manual states that "in case of doubt whether an object which is normally dedicated to civilian purposes (e.g. a place of worship, a

⁶⁷² Israel, *Manual on the Laws of War* (1998), p. 38.

house or other dwelling, a school) is a military objective, it shall be considered as a civilian object".⁶⁷³

737. Madagascar's Military Manual states that "in case of doubt, an object which is usually dedicated to civilian purposes (such as a place of worship, school, house or other type of dwelling) will be considered as civilian".⁶⁷⁴

738. The Military Manual of the Netherlands states that "in case of doubt whether an object which usually serves civilian purposes, such as a house, a school, a church, is used for military purposes, it must be assumed to be a civilian object".⁶⁷⁵

739. New Zealand's Military Manual states that "if there is a substantial doubt concerning whether an object normally used for civilian purposes is, in the circumstances, a military objective, it shall be presumed not to be a military objective".⁶⁷⁶

740. Nigeria's Military Manual provides that when "hospital ships, coastal rescue craft, ships sailing under special agreements . . . are of a dubious status, i.e., when it is uncertain whether it is a military objective or not, in that case, it may be stopped and searched so as to establish its status".⁶⁷⁷

741. Spain's LOAC Manual states that "in case of doubt, an object which is normally dedicated to civilian purposes, such as a house, a school or a place of worship, must be considered to be a civilian object".⁶⁷⁸

742. Sweden IHL Manual states that:

During military operations it may often be difficult to establish within a short space of time whether property should be classified as a civilian object or a military objective. To avoid meaningless destruction as far as possible, a so-called dubio rule is included in Article 52 [AP I]. This states that in case of doubt whether an object which is normally dedicated to civilian purposes is being used in the adversary's military activity, it shall be presumed that it is not being so used. Among such normally civilian objects are mentioned particularly places of worship, houses and other dwellings, and schools.⁶⁷⁹

743. Togo's Military Manual states that "whenever there is a doubt concerning the nature of an objective, it must be considered as a civilian object".⁶⁸⁰

744. The US Air Force Pamphlet states that "in case of doubt whether an object which is normally dedicated to civilian purposes, such as a house or other dwelling or a school, is being used to make an effective contribution to military action, it shall be presumed not to be so used".⁶⁸¹

⁶⁷³ Kenya, *LOAC Manual* (1997), Précis No. 2, p. 11.

⁶⁷⁶ New Zealand, *Military Manual* (1992), § 524(3), see also §§ 516(7) and 623(7) (following the language of Article 52(3) AP I more closely).

⁶⁷⁷ Nigeria, *Military Manual* (1994), p. 45, § 16(d).

⁶⁷⁸ Spain, *LOAC Manual* (1996), Vol. I, § 4.2.b.(2), see also § 2.3.b.(1).

⁶⁷⁹ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 55.

⁶⁸⁰ Togo, *Military Manual* (1996), Fascicule I, p. 14.

⁶⁸¹ US, *Air Force Pamphlet* (1976), § 5-3(a)(1)(b).

National Legislation

745. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 52(3) AP I, is a punishable offence.⁶⁸²

746. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁶⁸³

National Case-law

747. No practice was found.

Other National Practice

748. The Report on the Practice of Iraq states that the practice adopted by the Iraqi armed forces is that in case of doubt concerning the nature of objects, they must be considered as civilian objects.⁶⁸⁴

749. The Report on the Practice of Israel states that:

In principle, in cases of significant doubt as to whether a target is legitimate or civilian, the decision would be to refrain from attacking the target. It should be stressed that the introduction of the adjective "significant" in this context is aimed at excluding those cases in which there exists a slight possibility that the definition of the target as legitimate is mistaken. In such cases, the decision whether or not to attack rests with the commander in the field, who has to decide whether or not the possibility of mistake is significant enough to warrant not launching the attack.⁶⁸⁵

750. The Report on the Practice of Malaysia does not expressly mention the presumption in favour of the civilian character in the list of norms applicable to the country's armed forces, but it states that this principle is applied in practice since civilian property is not considered as a military objective. This principle is said to conform to the practice aimed at winning the hearts and minds of the civilian population during the communist insurgency period.⁶⁸⁶

751. At the CDDH, Mexico stated that it believed draft Article 47 AP I (now Article 52) to be so essential that it "cannot be the subject of any reservations whatsoever since these would be inconsistent with the aim and purpose of Protocol I and undermine its basis".⁶⁸⁷

752. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense commented on Article 52(3) AP I to the effect that:

⁶⁸² Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁶⁸³ Norway, *Military Penal Code as amended* (1902), § 108(b).

⁶⁸⁴ Report on the Practice of Iraq, 1998, Reply by the Iraqi Ministry of Defence to a questionnaire, July 1997, Chapter 1.3.

⁶⁸⁵ Report on the Practice of Israel, 1997, Chapter 1.3.

⁶⁸⁶ Report on the Practice of Malaysia, 1997, Answers to additional questions on Chapter 1.3.

⁶⁸⁷ Mexico, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 193.

This language, which is not a codification of the customary practice of nations, causes several things to occur that are contrary to the traditional law of war. It shifts the burden for determining the precise use of an object from the party controlling that object (and therefore in possession of the facts as to its use) to the party lacking such control and facts, i.e. from defender to attacker. This imbalance ignores the realities of war in demanding a degree of certainty of an attacker that seldom exists in combat. It also encourages a defender to ignore its obligation to separate the civilian population, individual civilians and civilian objects from military objectives, as the Government of Iraq illustrated during the Persian Gulf War.⁶⁸⁸

Noting that the US Naval Handbook does not refer to such presumption, the Report on US Practice concludes that the US government does not acknowledge the existence of a customary principle requiring a presumption of civilian character in case of doubt.⁶⁸⁹

III. Practice of International Organisations and Conferences

United Nations

753. No practice was found.

Other International Organisations

754. No practice was found.

International Conferences

755. At the CDDH, an exception to the presumption of civilian status was submitted. It provided that the presumption of civilian use for objects which are normally dedicated to civilian purposes would not apply "in contact zones where the security of the armed forces requires a derogation from this presumption". Such an exception was defended on the grounds that "infantry soldiers could not be expected to place their lives in great risk because of such a presumption and that, in fact, civilian buildings which happen to be in the front lines usually are used as part of the defensive works". The exception was criticized by other delegates on the ground that "it would unduly endanger civilian objects to permit any exceptions to the presumption".⁶⁹⁰

IV. Practice of International Judicial and Quasi-judicial Bodies

756. No practice was found.

⁶⁸⁸ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, p. 627.

⁶⁸⁹ Report on US Practice, 1997, Chapter 1.3.

⁶⁹⁰ CDDH, *Official Records*, Vol. XV, CDDH/III/224, Report to Committee III on the Work of the Working Group, pp. 331-332.

V. Practice of the International Red Cross and Red Crescent Movement

757. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “in case of doubt whether an object which is normally dedicated to civilian purposes (e.g. a place of worship, a house or other dwelling, a school) is a military objective, it shall be considered as a civilian object”.⁶⁹¹

VI. Other Practice

758. No practice was found.

⁶⁹¹ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 59, see also § 464 (ships of dubious status).

INDISCRIMINATE ATTACKS

A. Indiscriminate Attacks (practice relating to Rule 11)	§§ 1–163
B. Definition of Indiscriminate Attacks (practice relating to Rule 12)	§§ 164–282
Attacks which are not directed at a specific military objective	§§ 164–205
Attacks which cannot be directed at a specific military objective	§§ 206–250
Attacks whose effects cannot be limited as required by international humanitarian law	§§ 251–282
C. Area Bombardment (practice relating to Rule 13)	§§ 283–322

A. Indiscriminate Attacks*I. Treaties and Other Instruments**Treaties*

1. Article 51(4) AP I provides that “indiscriminate attacks are prohibited”. Article 51 AP I was adopted by 77 votes in favour, one against and 16 abstentions.¹
2. According to Article 85(3)(b) AP I, it is a grave breach of the Protocol to launch “an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects as defined in Article 57, paragraph 2 a) iii)”. Article 85 AP I was adopted by consensus.²
3. Article 26(3) of draft AP II submitted by the ICRC to the CDDH provided that “the employment of means of combat, and any methods which strike or affect indiscriminately the civilian population and combatants, or civilian objects and military objectives, are prohibited”.³ This provision was adopted in Committee III of the CDDH by 29 votes in favour, 15 against and 16 abstentions, while Article 26 as a whole was adopted by 44 votes in favour, none against

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 163.

² CDDH, *Official Records*, Vol. VI, CDDH/SR.44, 30 May 1977, p. 291.

³ CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 40.

and 22 abstentions.⁴ Eventually, however, the proposal to retain this paragraph was rejected in the plenary by 30 votes in favour, 25 against and 34 abstentions.⁵

4. Article 3(3) of the 1980 Protocol II to the CCW and Article 3(8) of the 1996 Amended Protocol II to the CCW provide that “the indiscriminate use of [mines, booby-traps and other devices] is prohibited”.

Other Instruments

5. Articles 3 and 5(2) of the 1938 ILA Draft Convention for the Protection of Civilian Populations against New Engines of War provides that:

The bombardment by whatever means of towns, ports, villages or buildings which are defended is prohibited at any time (whether at night or day) when objects of military character cannot be clearly recognized.

...

In cases where the [military] objectives above specified are so situated that they cannot be bombarded without the indiscriminate bombardment of the civilian population, the aircraft must abstain from bombardment.

6. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 51(4) AP I.

7. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 51(4) AP I.

8. Paragraph 42 of the 1994 San Remo Manual states that “it is forbidden to employ methods or means of warfare which: . . . b) are indiscriminate”.

9. Pursuant to Article 20(b)(ii) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, “launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects” is a war crime.

10. Article 2(4) of Part III of the 1998 Comprehensive Agreement on Respect for Human Rights and IHL in the Philippines provides that the Agreement seeks to protect the right to life, especially from “indiscriminate bombardments of communities”.

11. Section 5.5 of the 1999 UN Secretary-General’s Bulletin states that “the United Nations force is prohibited from launching operations of a nature likely to strike military objectives and civilians in an indiscriminate manner”.

⁴ CDDH, *Official Records*, Vol. XIV, CDDH/III/SR.37, 4 April 1975, pp. 390 and 391, §§ 14 and 15.

⁵ CDDH, *Official Records*, Vol. VII, CDDH/SR.52, 6 June 1977, p. 134.

II. National Practice

Military Manuals

12. Military manuals of Argentina, Australia, Belgium, Benin, Canada, France, Indonesia, Israel, Kenya, Netherlands, New Zealand, South Africa, Spain, Sweden, Togo and UK prohibit indiscriminate attacks.⁶

13. Argentina's Law of War Manual provides that it is a grave breach to intentionally launch an indiscriminate attack causing death or serious injury to body or health.⁷

14. Australia's Commanders' Guide and Defence Force Manual cite "launching indiscriminate attacks that affect the civilian population or civilian objects in the knowledge that such attack will cause extensive and disproportionate loss of life, injury to civilians or damage to civilian objects" as an example of acts which constitute "grave breaches or serious war crimes likely to warrant institution of criminal proceedings".⁸

15. Cameroon's Instructors' Manual prohibits "blind bombardment".⁹

16. Canada's LOAC Manual states that "launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive collateral civilian damage" constitutes a grave breach.¹⁰

17. According to Ecuador's Naval Manual, "the indiscriminate destruction of cities, towns and villages" is a war crime.¹¹

18. Under Germany's Military Manual, it is prohibited:

to employ means or methods which are intended or of a nature . . . to injure military objectives, civilians, or civilian objects without distinction. The prohibition of indiscriminate warfare implies that the civilian population as such as well as individual civilians shall not be the object of attack and that they shall be spared as far as possible.¹²

The manual provides that grave breaches of IHL are in particular "launching an indiscriminate attack in the knowledge that such attack will have adverse effects on civilian life and civilian objects".¹³

19. India's Army Training Note orders troops to "avoid indiscriminate firing".¹⁴
20. India's Police Manual prohibits the use of indiscriminate force against civilian rioters and demonstrators.¹⁵
21. With reference to Israel's Law of War Booklet, the Report on the Practice of Israel states that "the IDF does not engage in indiscriminate attacks".¹⁶
22. Italy's IHL Manual states that "indiscriminate attacks against the civilian population or civilian objects" are war crimes.¹⁷
23. According to the Military Manual of the Netherlands, "the carrying out of indiscriminate attacks" is a grave breach.¹⁸
24. New Zealand's Military Manual states that "launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects" constitutes a grave breach.¹⁹
25. The Report on the Practice of Nigeria interprets the prohibition of malicious destruction of property, buildings, churches and mosques provided for in Nigeria's Operational Code of Conduct as a prohibition of indiscriminate attacks.²⁰
26. Russia's Military Manual prohibits "the launching of an indiscriminate attack affecting the civilian population or civilian persons in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects".²¹
27. Under South Africa's LOAC Manual "launching an indiscriminate attack which affects the civilian population or civilian objects in the knowledge that such attack will cause loss of life, injury to civilians and damage to certain civilian objects" is a grave breach.²²
28. Spain's LOAC Manual states that "launching an indiscriminate attack affecting the civilian population or civilian objects which would be excessive in relation to the military advantage anticipated" constitutes a grave breach.²³
29. According to Switzerland's Basic Military Manual, the following constitutes a grave breach:

An attack which is launched without making any distinction [between civilians and civilian objects on the one hand and military objectives on the other hand] and which may affect the civilian population or civilian objects in the knowledge that

the attack will cause loss of human life, injuries to civilians and damage to civilian objects which would be excessive in the sense of Article 57(2)(a)(iii) [AP I].²⁴

30. The US Air Force Pamphlet states that “particular weapons or methods of warfare may be prohibited because of their indiscriminate effects”.²⁵

31. Although the YPA Military Manual of the SFRY (FRY) does not expressly refer to the prohibition against indiscriminate attacks, the Report on the Practice of the SFRY (FRY) finds that a similar norm may be derived from the fundamental principle restricting the parties’ right to choose means and methods of warfare.²⁶

National Legislation

32. Argentina’s Draft Code of Military Justice punishes any soldier who “carries out or orders the commission of indiscriminate attacks”.²⁷

33. Under Armenia’s Penal Code, launching, during an armed conflict, an “indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause loss of life to civilians or damage to civilian objects excessive in relation to the concrete and direct military advantage anticipated” constitutes a crime against the peace and security of mankind.²⁸

34. Australia’s Geneva Conventions Act as amended provides that “a person who, in Australia or elsewhere, commits a grave breach . . . of [AP I] is guilty of an indictable offence”.²⁹

35. The Criminal Code of Belarus provides that it is a war crime to “use means and methods of warfare which . . . strike indiscriminately” and to “launch an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects”.³⁰

36. Belgium’s Law concerning the Repression of Grave Breaches of the Geneva Conventions and their Additional Protocols as amended provides that it is a crime under international law to launch

an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause loss of human life, injury to civilians or damage to civilian objects which would be excessive in relation to the concrete and direct military advantage anticipated, without prejudice to the criminal nature of an attack whose harmful effects, even where proportionate to the military advantage

anticipated, would be inconsistent with the principles of international law derived from established custom, from the principles of humanity and from the dictates of public conscience.³¹

37. The Criminal Code of the Federation of Bosnia and Herzegovina provides that it is a war crime to order “an indiscriminate attack without selecting a target, causing injury to the civilian population” or order “that civilian objects which are under specific protection of international law, non-defended localities and demilitarised zones be indiscriminately targeted” or carry out such attacks.³² The Criminal Code of the Republika Srpska contains the same provisions.³³

38. Canada’s Geneva Conventions Act as amended provides that “every person who, whether within or outside Canada, commits a grave breach [of AP I] . . . is guilty of an indictable offence”.³⁴

39. China’s Law Governing the Trial of War Criminals provides that “indiscriminate destruction of property” constitutes a war crime.³⁵

40. Colombia’s Penal Code imposes a criminal sanction on “anyone who, during an armed conflict, carries out or orders the carrying out of indiscriminate attacks”.³⁶

41. The Geneva Conventions and Additional Protocols Act of the Cook Islands punishes “any person who in the Cook Islands or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I]”.³⁷

42. Croatia’s Criminal Code provides that it is a war crime to launch or order the launching of “an indiscriminate attack affecting the civilian population, causing loss of civilian life” or “an indiscriminate attack affecting civilian objects under special protection of international law, as well as non-defended localities and demilitarised zones”.³⁸

43. Cyprus’s AP I Act punishes “any person who, whatever his nationality, commits in the Republic or outside the Republic any grave breach of the provisions of the Protocol, or takes part or assists or incites another person in the commission of such a breach”.³⁹

44. The Draft Amendments to the Penal Code of El Salvador provide for a prison sentence for anyone who, in the context of an international or a non-international armed conflict, launches

an indiscriminate attack affecting the civilian population, in the knowledge that such attacks will cause death or injury among the civilian population or damage to civilian objects, which is excessive in relation to the concrete and direct military advantage anticipated.⁴⁰

45. Under Estonia's Penal Code, "a person who uses means of warfare in a manner not allowing to discriminate between military and civilian objects and thereby causes the death of civilians, health damage to civilians, damage to civilian objects or a danger to the life, health of property of civilians" commits a war crime.⁴¹

46. Under Georgia's Criminal Code, "launching an indiscriminate attack affecting the civilian population or civilian objects, in the knowledge that it will cause loss and injury among civilians and damage to civilian objects" in an international or non-international armed conflict is a crime.⁴²

47. Indonesia's Military Penal Code provides for the punishment of military personnel who are found guilty of having carried out an indiscriminate attack.⁴³

48. Ireland's Geneva Conventions Act as amended provides that grave breaches of AP I are punishable offences.⁴⁴ It adds that any "minor breach" of AP I, including violations of Article 51(4) AP I, is also a punishable offence.⁴⁵

49. Under Jordan's Draft Military Criminal Code, "indiscriminate attacks against civilians or civilian objects in the knowledge that such attacks will cause considerable loss of human life, injury to civilians or damage to civilian objects" in time of armed conflict are war crimes.⁴⁶

50. Under the Draft Amendments to the Code of Military Justice of Lebanon, "an indiscriminate attack against civilian populations or civilian objects in the knowledge that such an attack will cause excessive loss of life, injury to civilians or damage to civilian objects" constitutes a war crime.⁴⁷

51. Under Lithuania's Criminal Code as amended, "a military attack without choosing a specific military target or knowing it might cause loss of civilian life or the destruction of civilian objects" is a war crime.⁴⁸

52. Under the International Crimes Act of the Netherlands, it is a crime, during an international armed conflict, to commit:

the following acts, when they are committed intentionally and in violation of the relevant provisions of Additional Protocol (I) and cause death or serious injury to body or health: . . . launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects.⁴⁹

Likewise, “intentionally launching an attack in the knowledge that such an attack will cause incidental loss of life or injury to civilians or damage to civilian objects . . . which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated” is also a crime, when committed in an international armed conflict.⁵⁰

53. New Zealand’s Geneva Conventions Act as amended provides that “any person who in New Zealand or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I] is guilty of an indictable offence”.⁵¹

54. Nicaragua’s Draft Penal Code punishes anyone who, during an international or internal armed conflict,

launches an indiscriminate attack affecting the civilian population, in the knowledge that such attack will cause incidental loss of civilian life, injury to civilians or damage to civilian objects, which would be excessive in relation to the concrete and direct military advantage anticipated.⁵²

55. According to Niger’s Penal Code as amended, it is a war crime to launch against persons and objects protected under the 1949 Geneva Conventions or their Additional Protocols of 1977:

an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause loss of human life, injury to civilians or damage to civilian objects which would be excessive in relation to the concrete and direct military advantage anticipated, without prejudice to the criminal nature of an attack whose harmful effects, even where proportionate to the military advantage anticipated, would be inconsistent with the principles of international law derived from established custom, from the principles of humanity and from the dictates of public conscience.⁵³

56. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment”.⁵⁴

57. Slovenia’s Penal Code provides that it is a war crime to order or commit “a random attack harming the civilian population” or “a random attack on civil buildings specially protected under international law, or on defenceless or demilitarised areas”.⁵⁵

58. Spain’s Penal Code punishes “anyone who, during an armed conflict, . . . carries out or orders an indiscriminate attack”.⁵⁶

⁵⁰ Netherlands, *International Crimes Act* (2003), Article 5(5)(b).

⁵¹ New Zealand, *Geneva Conventions Act as amended* (1958), Section 3(1).

⁵⁵ Slovenia, *Penal Code* (1994), Article 374(1) and (2).

⁵⁶ Spain, *Penal Code* (1995), Article 611(1).

59. Under Sweden's Penal Code as amended, "initiating an indiscriminate attack knowing that such attack will cause exceptionally heavy losses or damage to civilians or to civilian property" constitutes a crime against international law.⁵⁷

60. Tajikistan's Criminal Code punishes the act of "launching an indiscriminate attack affecting the civilian population or civilian objects" in an international or internal armed conflict.⁵⁸

61. The UK Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside the United Kingdom, commits, or aids, abets or procures the commission by any other person of, a grave breach of . . . [AP I]".⁵⁹

62. The Penal Code as amended of the SFRY (FRY) provides that it is a war crime to order or commit "an indiscriminate attack affecting the civilian population" or "an indiscriminate attack on civilian facilities that are specifically protected under international law, non-defended localities and demilitarised zones".⁶⁰

63. Zimbabwe's Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside Zimbabwe, commits any such grave breach of . . . [AP I]".⁶¹

National Case-law

64. No practice was found.

Other National Practice

65. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Australia stated that "the right to self-defence is not unlimited. It is subject to fundamental principles of humanity. Self-defence is not a justification . . . for indiscriminate attacks on the civilian population. Nor is it a justification for the use of nuclear weapons."⁶²

66. The Report on the Practice of Bosnia and Herzegovina provides the following examples of alleged violations of the prohibition of indiscriminate attacks which were denounced by the authorities: indiscriminate artillery shelling of Sarajevo on 16 May 1992;⁶³ the attacks by aircraft of the Yugoslav Army in the Tuzla region, in which many residential facilities were destroyed and several civilians killed or wounded;⁶⁴ the artillery shelling in the centre of Srebrenica,

⁶⁴ Bosnia and Herzegovina, Ministry of Defence, Letter to the Headquarters of the Yugoslav Army in Belgrade, Number 02/333-232, 1 June 1992, Report on the Practice of Bosnia and Herzegovina, 2000, Chapter 1.4.

which resulted in civilian casualties;⁶⁵ and the attack by a Croatian army helicopter in the centre of Mostar, which resulted in civilian casualties.⁶⁶

67. In 1996, during a debate in the UN Security Council, Botswana stated that it was appalled by the indiscriminate killing of innocent Lebanese civilians and the destruction of their towns and villages.⁶⁷

68. The Report on the Practice of Brazil states that Brazil has ratified the Geneva Conventions and their Additional Protocols and that, under the Brazilian Constitution, treaties become part of domestic law once ratified by the Congress and published in the official journal. Therefore, the rules pertaining to indiscriminate attacks as set forth in these treaties are binding upon Brazil.⁶⁸

69. The Report on the Practice of Chile states that it can be inferred from the *opinio juris* of Chile that the prohibition against indiscriminate attacks is an integral part of customary international law.⁶⁹

70. The Report on the Practice of China states that any attack on a refugee camp will certainly be regarded by the Chinese government as an indiscriminate attack that deserves condemnation.⁷⁰

71. The Report on the Practice of Croatia maintains that it is Croatia's *opinio juris* that the rules pertaining to the prohibition of indiscriminate attacks are part of customary international law.⁷¹

72. In 1977, during a debate in the Sixth Committee of the UN General Assembly, Finland stated that Article 51 AP I, including Article 51(4) prohibiting indiscriminate attacks, contained important and timely principles that should be respected in all circumstances.⁷²

73. At the CDDH, France voted against Article 46 of draft AP I (now Article 51) because it considered that:

The provisions of paragraphs 4, 5 and 7 were of a type which by their very complexity would seriously hamper the conduct of defensive military operations against an invader and prejudice the exercise of the inherent right of legitimate defence recognized in Article 51 of the Charter of the United Nations.⁷³

74. The instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence

or a mandate of the UN Security Council, state that “indiscriminate attacks . . . are prohibited”.⁷⁴

75. In 1996, the Monitoring Group on the Implementation of the 1996 Israel-Lebanon Ceasefire Understanding, consisting of France, Israel, Lebanon, Syria and US, issued communiqués requesting that all parties avoid arbitrary or indiscriminate attacks on inhabited areas, which directly or indirectly endangered civilian life or integrity.⁷⁵

76. In 1993, in response to a question in parliament about the situation in Sudan, the German government stated that “during military operations, instances occur over and over again which violate the international law of war [such as] . . . the indiscriminate bombing of villages”.⁷⁶

77. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, India stated that “the very purpose of international humanitarian law is to forbid indiscriminate attacks and demand protection of civilians”.⁷⁷

78. The Report on the Practice of India states that:

When [the armed forces] are called upon to deal with an internal conflict, they are bound to follow the principles regarding distinction between military objects and civilian objects so as to avoid indiscriminate attacks. The armed forces are instructed that when they provide assistance to civil authorities in dealing with internal conflicts, they must avoid indiscriminate use of force . . . The regulations addressed to armed police contain elaborate provisions aimed at avoiding indiscriminate attacks.⁷⁸

79. In 1992, in a letter to the UN Secretary-General, Iran expressed “alarm at the indiscriminate attacks by Iraqi forces against innocent Iraqi civilians” in the southern marshlands of Iraq.⁷⁹

80. In a message sent to the UN Secretary-General in 1984, the President of Iraq stated that “the indiscriminate Iranian bombardment of civilian targets crowded with inhabitants is a major aspect of its ceaseless aggression against Iraq”.⁸⁰

81. The Report on the Practice of Iraq states that Iraq “inclines towards intensifying the refusal of [indiscriminate] attacks in order to avoid harming civilians”, regardless of whether “such attacks . . . might serve a military purpose”. The report interprets this as meaning “the banning of any kind of attacks directed on the civilians”, regardless of the nature of the intended military target.⁸¹

The report also cites the text of a military communiqué issued by the General Command of the Iraqi armed forces during the Iran–Iraq War stating that “the enemy has reached a maximum degree of nervousness and loss of balance that lead it to commit repeated infringements and random bombardment without any distinction”.⁸²

82. The Report on the Practice of Jordan states that there have been no reports of indiscriminate attacks conducted by the armed forces of Jordan.⁸³

83. In 1992, in a letter to the President of the UN Security Council, Malaysia relayed its deep concern over the deterioration of the situation in Bosnia and Herzegovina and in particular the continuous indiscriminate bombardments of civilian populated areas.⁸⁴

84. The Report on the Practice of Malaysia refers to the general prohibition of indiscriminate attacks.⁸⁵ It also notes that during the communist insurgency, the security forces were prohibited from launching indiscriminate attacks against civilians.⁸⁶

85. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Mexico invoked “the principle by which the civilian population enjoys general protection and the prohibition to carry out indiscriminate attacks”.⁸⁷

86. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, New Zealand stated, with reference to customary international law, that “it is prohibited to use indiscriminate methods and means of warfare which do not distinguish between combatants and civilians and other non-combatants”.⁸⁸

87. According to the Report on the Practice of Nigeria, it is Nigeria’s *opinio juris* that the prohibition of indiscriminate attacks is part of customary international law.⁸⁹

88. According to the Report on the Practice of Pakistan, it is Pakistan’s *opinio juris* that indiscriminate attacks against civilians are prohibited.⁹⁰

89. At the CDDH, Poland stated that Article 46 of draft AP I (now Article 51) “had a special function since it contained the most important provisions of the Protocol, such as the prohibition of indiscriminate attacks that made no distinction between military personnel and civilians”.⁹¹

90. The Report on the Practice of Rwanda states that indiscriminate attacks are prohibited according to the practice and the *opinio juris* of Rwanda and considers that this prohibition is a norm of customary international law binding on all States.⁹²

91. In 1992, in a note verbale addressed to the UN Secretary-General, Slovenia expressed its readiness to provide information concerning violations of IHL committed by members of the Yugoslav army during the 10-day conflict with Slovenia, including the “indiscriminate use of weapons”.⁹³

92. In its five-volume report on “gross violations of human rights” committed between 1960 and 1993, the South African Truth and Reconciliation Commission noted that the killing of more than 600 people in a 1978 attack by the SADF on the SWAPO base/refugee camp at Kassinga in Angola constituted a breach of IHL. It stated that:

There is little evidence that the SADF took sufficient precautions to spare those civilians whom they knew were resident at Kassinga in large numbers. The fact that the operational orders for *Reindeer* included the instruction that “women and children must, where possible, not be shot” is evidence of the SADF’s prior knowledge of the presence of civilians. However, this apparent intention to spare their lives was rendered meaningless by the SADF’s decision to use fragmentation bombs in the initial air assault as such weapons kill and maim indiscriminately. Their use, therefore, in the face of knowledge of the presence of civilians, amounts to an indiscriminate and illegitimate use of force and a violation of Protocol I to the Geneva Conventions of 1949. The foreseeable killing of civilians at Kassinga was therefore a breach of humanitarian law.⁹⁴

93. At the CDDH, Sweden stated that “Article 46 [now Article 51 AP I] might be considered as one of fundamental value for the whole Protocol. This article was elaborated during long negotiations in 1975 and was adopted in the same year by consensus in Committee III.”⁹⁵

94. On the basis of a statement by the Syrian Minister of Foreign Affairs before the UN General Assembly in 1997, the Report on the Practice of Syria asserts that Syria considers Article 51(4) AP I to be part of customary international law.⁹⁶

95. On 21 January 1991, in the context of the Gulf War, the UK Minister of Foreign Affairs summoned the Iraqi Ambassador to discuss Iraq’s obligations under international law. According to a statement by an FCO spokesperson after the meeting, the Minister had “expressed concern at the indiscriminate targeting of civilian sites by Iraqi SCUD missiles”.⁹⁷

⁹² Report on the Practice of Rwanda, 1997, Chapter 1.4.

⁹⁷ UK, Statement by FCO spokesperson, 21 January 1991, *BYIL*, Vol. 62, 1991, p. 680.

96. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK accused Iraq of having had “no compunction about launching indiscriminate missile attacks directed at civilians”.⁹⁸

97. In 1991, during a debate in the UN Security Council concerning the Gulf War, the UK reiterated its condemnation of the indiscriminate firing of missiles at civilian population centres.⁹⁹

98. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that “Iraqi war crimes... included... indiscriminate attacks in the launching of Scud missiles against cities rather than specific military objectives, in violation of customary international law”.¹⁰⁰

99. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1994, the US stated that “it is unlawful to conduct any indiscriminate attack”.¹⁰¹

100. On the basis of two accounts of events during the conflict in Croatia, the Report on the Practice of the SFRY (FRY) states that:

There are many examples... of indiscriminate attacks of individual and collective character which both parties to the armed conflict in Croatia in 1991 and 1992 were pointing at. The mixed nature of this conflict, being both internal and international, contributed to this as well. Both parties referred to these incidents as violations of international humanitarian law. The fact that the parties did not question this norm [prohibiting indiscriminate attacks] when speaking about the behavior of the opposite side is a clear indication of their *opinio juris* and a confirmation that such attacks were considered prohibited.¹⁰²

101. The Report on the Practice of Zimbabwe considers that the question of indiscriminate attacks is problematic since much depends on the objective in question, on necessity and on the military advantage to be gained. According to the report, the principle of proportionality, however, remains applicable.¹⁰³

III. Practice of International Organisations and Conferences

United Nations

102. In a resolution on Kosovo adopted in 1998, the UN Security Council expressed its grave concern at “the excessive and indiscriminate use of force by

¹⁰³ Report on the Practice of Zimbabwe, 1998, Chapter 1.4.

Serbian security forces and the Yugoslav Army which have resulted in numerous civilian casualties".¹⁰⁴

103. In 1994, in a statement by its President, the UN Security Council strongly condemned "the indiscriminate shelling by the Bosnian Serb party of the civilian population of Maglaj, which has resulted in heavy casualties, loss of life and material destruction".¹⁰⁵

104. In a resolution adopted in 1938 concerning the protection of civilian populations against air bombardment in case of war, the Assembly of the League of Nations stated that "any attack on legitimate military objectives must be carried out in such a way that civilian populations in the neighbourhood are not bombed through negligence".¹⁰⁶

105. In a resolution adopted in 1971 on territories under Portuguese administration, the UN General Assembly condemned the indiscriminate bombing of civilians.¹⁰⁷

106. In a resolution on Afghanistan adopted in 1985, the UN General Assembly expressed its deep concern "at the severe consequences for the civilian population of indiscriminate bombardments and military operations aimed primarily at the villages and the agricultural structure".¹⁰⁸

107. In resolutions on the situation of human rights in the former Yugoslavia adopted in 1993 and 1994, the UN General Assembly condemned "the indiscriminate shelling" of cities and civilian areas.¹⁰⁹ In a further resolution on the same subject adopted in 1995, the General Assembly condemned "the indiscriminate shelling of civilians" in certain safe areas.¹¹⁰

108. In a resolution adopted in 1996 on the situation of human rights in Sudan, the UN General Assembly expressed concern about "continuing deliberate and indiscriminate aerial bombardments by the Government of the Sudan of civilian targets in southern Sudan, in clear violation of international humanitarian law" and urged the government "to cease immediately all . . . attacks that are in violation of international humanitarian law".¹¹¹

109. In a resolution adopted in 1998 on the situation of human rights in Kosovo, the UN General Assembly strongly condemned "indiscriminate and widespread attacks on civilians".¹¹²

110. In a resolution adopted in 2000 on the situation of human rights in Sudan, the UN General Assembly expressed its deep concern at continuing serious

violations of IHL by all parties, in particular “the indiscriminate aerial bombardments seriously and recurrently affecting civilian populations and installations, particularly bombings of schools and hospitals”.¹¹³

111. In a resolution on Afghanistan adopted in 1987, the UN Commission on Human Rights expressed its grave concern over the methods of warfare employed contrary to IHL and in particular the severe consequences caused to civilians by indiscriminate bombardments.¹¹⁴ In a further resolution in 1995 in the same context, the Commission noted with deep concern that the civilian population was still the target of indiscriminate military attacks.¹¹⁵

112. In two resolutions on the human rights situation in the former Yugoslavia adopted in 1992 and 1993, the UN Commission on Human Rights condemned “the indiscriminate shelling of cities and civilian areas”.¹¹⁶

113. In a resolution adopted in 1994 on the human rights situation in Bosnia and Herzegovina, the UN Commission on Human Rights strongly condemned “the indiscriminate shelling of civilian populations, particularly in Sarajevo, and in the other declared safe areas of Tuzla, Bihac, Goražde, Srebrenica and Žepa, as well as Mostar and other endangered areas in central Bosnia and elsewhere”.¹¹⁷ In another resolution on the former Yugoslavia in 1995, the Commission condemned “the indiscriminate shelling and besieging of cities and civilian areas”.¹¹⁸

114. In a resolution adopted in 1995 on the situation of human rights in Sudan, the UN Commission on Human Rights expressed its deep concern “about continued reports of indiscriminate bombing of civilian targets, including camps for displaced persons, in southern Sudan” and called upon the government of Sudan “to cease immediately the deliberate and indiscriminate aerial bombardment of civilian targets”.¹¹⁹ The latter demand was reiterated in subsequent resolutions in 1996, 1997 and 1998.¹²⁰

115. In a resolution adopted in 1998 on the situation of human rights in Burundi, the UN Commission on Human Rights urged “all parties to the conflict to end the cycle of violence and killing, notably the indiscriminate violence against the civilian population”.¹²¹

116. In a resolution on Chechnya adopted in 2000, the UN Commission on Human Rights expressed its grave concern about “reports indicating disproportionate and indiscriminate use of Russian military force” and called upon all

¹²¹ UN Commission on Human Rights, Res. 1998/82, 24 April 1998, § 7.

parties to the conflict “to take immediate steps to halt . . . the indiscriminate use of force”.¹²²

117. In January 1990, in a report on UNIFIL in Lebanon, the UN Secretary-General stated that “indiscriminate fire from DFF positions has on several occasions resulted in fatal injuries to civilians in the UNIFIL area of operation”.¹²³

118. In July 1990, in a report on UNIFIL in Lebanon, the UN Secretary-General stated that “indiscriminate fire has also been directed at villages from IDF/DFF positions when the latter have come under attack from armed elements”.¹²⁴ This statement was repeated in January 1991.¹²⁵

119. In January 1992, in a report on UNIFIL in Lebanon, the UN Secretary-General stated that “IDF/DFF increasingly reacted to attacks by firing indiscriminately into nearby villages, especially after sustaining casualties”.¹²⁶

120. In 1997, in a report on the situation in Somalia, the UN Secretary-General commented on disturbing violations of human rights and IHL, citing as an example the indiscriminate use of force against and the killing of civilians in Mogadishu.¹²⁷

121. In 1998, in a report on MONUA in Angola, the UN Secretary-General stated that:

Over the past few months, indiscriminate as well as summary killings . . . have been reported in the course of attacks targeting entire villages . . . At such times, principles of humanitarian law are especially important as they seek to protect the most vulnerable groups – those who are not involved in military operations – from direct or indiscriminate attack or being forced to flee.¹²⁸

122. In 1994, in a report on the situation of human rights in the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights noted that “although a number of Bosnian Serb attacks on Sarajevo occur in response to firing by forces of the army of Bosnia and Herzegovina from positions situated close to highly sensitive civilian locations, most attacks would appear to be indiscriminate”.¹²⁹

123. In its 1993 report, the UN Commission on the Truth for El Salvador noted that the violence in rural areas in 1980 and 1981 was extremely indiscriminate. It stated that the violence was slightly more discriminate in urban areas and

also in rural zones after 1983.¹³⁰ Describing incidents which took place in El Junquillo canton, where soldiers and members of the civil defence unit attacked a population composed exclusively of women, young children and old people, the Commission found the attack to be indiscriminate.¹³¹

124. In 1994, in its final report on grave breaches of the Geneva Conventions and other violations of IHL committed in the former Yugoslavia, the UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992) stated, with respect to its investigation into the attack on Dubrovnik, that:

There is evidence that the Dubrovnik authorities, (aided by UNESCO observers), appear to have been scrupulous about keeping weapons out of the Old Town, that the besieging forces could see virtually everything that was going on in the Old Town, and that the Old Town was clearly subject to indiscriminate, and possibly even deliberate, targeting. Therefore, this conclusion will also be the subject of a recommendation for further investigation with a view to prosecution.¹³²

Other International Organisations

125. In a declaration adopted in March 1992, the Committee of Ministers of the Council of Europe expressed its deep concern over reports of "indiscriminate killings and outrages" committed during the conflict in Nagorno-Karabakh.¹³³

126. In a declaration on Bosnia and Herzegovina adopted in February 1994, the Committee of Ministers of the Council of Europe demanded the immediate cessation of the indiscriminate shelling of Sarajevo, which had been declared a safe area by the UN Security Council.¹³⁴

127. In 1995, in a resolution concerning Russia's request for membership in the light of the situation in Chechnya, the Parliamentary Assembly of the Council of Europe unreservedly condemned "the indiscriminate and disproportionate use of force by the Russian military, in particular against the civilian population",¹³⁵

128. In a declaration adopted in 1991 on the situation in Yugoslavia, the EC Ministers of Foreign Affairs expressed alarm at "reports that the Yugoslav National Army (JNA), having resorted to a disproportionate and indiscriminate use of force, has shown itself to be no longer a neutral and disciplined institution".¹³⁶

¹³⁵ Council of Europe, Parliamentary Assembly, Res. 1055, 2 February 1995, § 2.

¹³⁶ EC, Declaration on Yugoslavia, Haarzuilens, 6 October 1991, annexed to Letter dated 7 October 1991 from the Netherlands to the UN Secretary-General, UN Doc. A/46/533, 7 October 1991.

129. In July 1992, following the bombardments of the city of Goražde and other cities in Bosnia and Herzegovina by Serb forces, the EC issued a statement to the effect that “these brutal and indiscriminate attacks upon defenceless civilians are wholly contrary to the basic humanitarian precepts of international law”.¹³⁷ In another declaration on Yugoslavia dated 21 July 1992, the EC denounced attacks on unarmed civilians in similar terms.¹³⁸

130. In 1998, the EU Council of Ministers issued a regulation stating that “the Government of the Federal Republic of Yugoslavia has not stopped the use of indiscriminate violence and brutal repression against its own citizens, which constitute serious violations of human rights and international humanitarian law”.¹³⁹

131. In 2000, the conclusions of the Presidency of the European Council reaffirmed the need for Russia, in regard to Chechnya, to abide by its commitments, in particular to put an end to the indiscriminate use of military force.¹⁴⁰

International Conferences

132. The 20th International Conference of the Red Cross in 1965 adopted a resolution on the protection of the civilian population against the dangers of indiscriminate warfare, in which it stated that “indiscriminate warfare constitutes a danger to the civilian population and the future of civilization”. The resolution urged the ICRC to pursue the development of IHL “with particular reference to the need for protecting the civilian population against the sufferings caused by indiscriminate warfare”.¹⁴¹

133. The 25th International Conference of the Red Cross in 1986 adopted a resolution in which it deplored “the indiscriminate attacks inflicted on civilian populations . . . in violation of the laws and customs of war”.¹⁴²

IV. Practice of International Judicial and Quasi-judicial Bodies

134. In its decision on the defence motion for interlocutory appeal on jurisdiction in the *Tadić case* in 1995, the ICTY Appeals Chamber held that rules of customary international law have developed that regulate non-international armed conflict. To reach this conclusion the Tribunal referred to various sources including, *inter alia*, the behaviour of belligerent States, governments and insurgents, the action of the ICRC, UN General Assembly Resolutions 2444 (XXIII)

¹³⁷ EC, Statement on the bombardment of Goražde, annexed to Letter dated 15 July 1992 from Belgium, France and UK to the President of the UN Security Council, UN Doc. S/24299, 16 July 1992.

¹⁴² 25th International Conference of the Red Cross, Geneva, 23–31 October 1986, Res. I, preamble.

of 1968 and 2675 (XXV) of 1970, military manuals and declarations issued by regional organisations. The Appeals Chamber stated that these rules covered areas such as the protection of civilians against the effects of hostilities, in particular protection against indiscriminate attacks.¹⁴³

135. In its review of the indictments in the *Karadžić and Mladić case* in 1996, the ICTY Trial Chamber stated that “throughout the conflict, the strategy of Bosnian Serb forces consisted in indiscriminately targeting civilians. Such was the case during the entire siege of Sarajevo, and at times in the safe areas of Srebrenica, Žepa, Goražde, Bihac and Tuzla.”¹⁴⁴

136. In an interlocutory decision in the *Kordić and Čerkez case* in 1999, the ICTY Trial Chamber held that it was “indisputable” that the prohibition of indiscriminate attacks was a generally accepted obligation.¹⁴⁵

137. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that “attacks, even when they are directed against legitimate military targets, are unlawful if conducted using indiscriminate means or methods of warfare, or in such a way as to cause indiscriminate damage to civilians”.¹⁴⁶

V. Practice of the International Red Cross and Red Crescent Movement

138. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “the attack may only be directed at a specific military objective. The military objective must be identified as such and clearly designated and assigned. The attack shall be limited to the assigned military objective.”¹⁴⁷ They teach, furthermore, that an “indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive civilian casualties and damage” constitutes a grave breach of the law of war.¹⁴⁸

139. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 46(3) of draft AP I, which stated that “the employment of . . . any methods which strike or affect indiscriminately the civilian population and combatants, or civilian objects and military objectives, are prohibited”. All governments concerned replied favourably.¹⁴⁹

140. In a press release issued in 1978 concerning the conflict in Lebanon, the ICRC urgently appealed to the belligerents “to cease forthwith the indiscriminate shelling of the civilian population”.¹⁵⁰

141. In an appeal issued in 1983 concerning the Iran–Iraq War, the ICRC pointed to grave violations of IHL committed by both countries, including “indiscriminate bombardment of towns and villages”.¹⁵¹

142. In a press release issued in 1983 concerning the conflict in Lebanon, the ICRC stated that:

In the camps of *Nahr el Bared* and *Bedaoui*, and in certain sectors of the city of Tripoli, civilians are at the mercy of indiscriminate shelling. . . The ICRC insists that the presence of armed elements among the civilian population does not justify the indiscriminate shelling of women, children and old people.¹⁵²

143. At its Rio de Janeiro Session in 1987, the Council of Delegates adopted a resolution on the formal commitment by the Movement to obtain the full implementation of the Geneva Conventions in which it requested the ICRC “to take all necessary steps to enable it to protect and assist civilian victims of indiscriminate attacks”.¹⁵³

144. In a press release issued in 1988 with respect to the Iran–Iraq War, the ICRC recalled that it had already denounced the indiscriminate bombing of civilians on several occasions and stated that it had again approached the two belligerents in order to insist that “all necessary measures be taken to ensure that civilians are no longer subjected to indiscriminate attack”.¹⁵⁴

145. In a communication to the press issued in 1989 in the context of the conflict in Lebanon, the ICRC stated that:

The ICRC once again earnestly appeals to the parties concerned to end immediately the indiscriminate shelling of civilians and civilian property, which is an unacceptable violation of the most elementary humanitarian rules, and urges them to do everything in their power to ensure that these rules are henceforth duly respected.¹⁵⁵

146. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context of the Gulf War, the ICRC stated that “the following general rules are recognized as binding on any party to an armed conflict: . . . It is forbidden . . . to launch indiscriminate attacks.”¹⁵⁶

¹⁵⁰ ICRC, Press Release No. 1341, Lebanon: ICRC appeals for truce, 2 October 1978.

¹⁵⁶ ICRC, Memorandum on the Applicability of International Humanitarian Law, 14 December 1990, § II, *IRRC*, No. 280, 1991, p. 24.

147. On several occasions in 1992, the ICRC called on the parties to the conflict in Afghanistan not to launch indiscriminate attacks.¹⁵⁷

148. In 1992, the ICRC considered the shelling of a city indiscriminate because it was without pattern and there was no indication of any attempt to spare the civilian population.¹⁵⁸

149. In a communication to the press in 1993, the ICRC enjoined the parties to the conflict in Somalia “not to launch indiscriminate attacks”.¹⁵⁹

150. In a communication to the press in 1993, the ICRC reminded the parties to the conflict in Nagorno-Karabakh of their obligation “to refrain from indiscriminate attacks”.¹⁶⁰

151. In a press release issued in 1994 in the context of the conflict in Yemen, the ICRC stated that indiscriminate attacks were prohibited.¹⁶¹

152. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that “all attacks directed indiscriminately at military and civilian objectives . . . are prohibited”.¹⁶²

153. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that “attacks which indiscriminately strike military and civilian objectives . . . are prohibited”.¹⁶³

154. In a press release issued in 1995, the ICRC called upon all the parties involved in Turkey’s military operations in northern Iraq “to refrain from launching any indiscriminate attack that may endanger the civilian population”.¹⁶⁴

155. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC proposed that the following war crime, when committed in an international armed conflict, be subject to the jurisdiction of the Court:

¹⁵⁷ ICRC, Press Release No. 1712, Afghanistan: ICRC Appeal for Compliance with Humanitarian Rules, 5 May 1992; Press Release No. 1724, Kabul: ICRC urges respect for civilians as medical facilities struggle to cope, 20 July 1992; Press Release No. 1726, Afghanistan: New ICRC Appeal for Compliance with Humanitarian Rules, 14 August 1992.

¹⁶⁴ ICRC, Press Release No. 1797, ICRC calls for compliance with international humanitarian law in Turkey and Northern Iraq, 22 March 1995.

launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects, which is excessive in relation to the concrete and direct military advantage anticipated.¹⁶⁵

156. In a communication to the press in 2000, the ICRC reminded all those involved in the violence in the Near East that indiscriminate attacks were “absolutely and unconditionally prohibited”.¹⁶⁶

157. In a communication to the press in 2001 in connection with the conflict in Afghanistan, the ICRC stated that indiscriminate attacks were prohibited.¹⁶⁷

VI. Other Practice

158. In their commentary on the 1977 Additional Protocols, Bothe, Partsch and Solf state that:

The deletion of the prohibition against indiscriminate attacks in the simplified Protocol II suggests that para. 2 [of Article 13] be examined carefully to determine whether it covers any type of indiscriminate attacks covered by paras. 4 and 5 of Art. 51 of Protocol I. It is certainly arguable that attacks against densely populated places which are not directed at military objectives, those which cannot be so directed, and the area bombardments prohibited by para. 5(a) of Art. 51 are inferentially included within the prohibition against making the civilian population the object of attack. Their deletion may be said to be part of the simplification of the text.¹⁶⁸

159. Oppenheim states that “International Law protects non-combatants from indiscriminate bombardment from the air; recourse to such bombardment constitutes a war crime”.¹⁶⁹

160. Rule A1 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IHL, provides that “the obligation to distinguish between combatants and civilians is a general rule applicable in non-international armed conflicts. It prohibits indiscriminate attacks.”¹⁷⁰

161. The Report on the Practice of Rwanda notes that in April 1994, during the conflict in Rwanda, the FPR confirmed that future attacks against military

positions in Kigali where the civilian population was being used as a human shield would be avoided. According to the report, the reason invoked was that FPR soldiers did not want to strike at military objectives and at civilians without distinction.¹⁷¹

162. In 1994, in the context of the conflict in Yemen, Human Rights Watch urged the government of Yemen “to pay closest attention to the requirements of the rules of war, in particular to the prohibition on indiscriminate attacks in areas of civilian concentration . . . We note that the rules of war apply equally to government and rebel troops.”¹⁷²

163. A report by the Memorial Human Rights Center documenting Russia’s operation in the Chechen village of Samashki in April 1995 alleged that Russian forces had attacked the village indiscriminately. The report stated that ICRC representatives had

evaluated the general number of deaths in the village and the large proportion of civilians among them. The ICRC gave a series of interviews on the topic in which they protested violations of common laws of warfare by MVD soldiers, i.e. “indiscriminate attacks” during military operations.¹⁷³

B. Definition of Indiscriminate Attacks

Note: *For practice concerning attacks in violation of the principle of proportionality, see Chapter 4.*

Attacks which are not directed at a specific military objective

I. Treaties and Other Instruments

Treaties

164. According to Article 51(4)(a) API, attacks “which are not directed at a specific military objective” and consequently “are of a nature to strike military objectives and civilians or civilian objects without distinction” are indiscriminate. Article 51 AP I was adopted by 77 votes in favour, one against and 16 abstentions.¹⁷⁴

165. Article 3(3)(a) of the 1980 Protocol II to the CCW defines the indiscriminate use of mines, booby-traps and other devices as any placement of such weapons “which is not on, or directed at, a military objective”.

¹⁷¹ Report on the Practice of Rwanda, 1997, Chapter 1.4, referring to Statement of the FPR, *Ingabo*, No. 027, Kanama, 1997, pp. 17–18.

Bouvier, *How Does Law Protect in War?*, ICRC, Geneva, 1999, p. 1415.

¹⁷⁴ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 163.

166. Article 3(8)(a) of the 1996 Amended Protocol II to the CCW defines the indiscriminate use of mines, booby-traps and other devices as any placement of such weapons “which is not on, or directed against, a military objective”.

Other Instruments

167. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 51(4)(a) AP I.

168. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 51(4)(a) AP I.

169. Paragraph 42(b)(i) of the 1994 San Remo Manual states that “it is forbidden to employ methods or means of warfare which are indiscriminate in that they are not . . . directed against a specific military objective”.

II. National Practice

Military Manuals

170. Military manuals of Australia, Belgium, Canada, Germany, Netherlands, New Zealand, Spain and Sweden consider attacks which are not directed at a specific military objective to be indiscriminate.¹⁷⁵

171. Benin’s Military Manual defines indiscriminate attacks as “attacks which are not directed at military objectives and which will probably strike at military objectives and civilian objects without distinction”.¹⁷⁶

172. Ecuador’s Naval Manual states that “any weapon may serve an unlawful purpose when it is directed against noncombatants and other protected persons and objects”.¹⁷⁷

173. Israel’s Manual on the Laws of War states that “in any attack it is imperative to verify that the attack will be directed against a specific military target”.¹⁷⁸

174. Kenya’s LOAC Manual defines indiscriminate attacks as “attacks which are not directed at a specific military objective and which are likely to strike at military objectives and civilian objects without distinction”.¹⁷⁹

175. The Report on the Practice of Nigeria states that “Nigeria’s notion of indiscriminate attacks are those attacks or firepower directed against non-military

¹⁷⁵ Australia, *Defence Force Manual* (1994), § 502(b)(1); Australia, *Commanders’ Guide* (1994), § 956(a); Belgium, *Law of War Manual* (1983), p. 27; Canada, *LOAC Manual* (1999), p. 4-3, § 22(a); Germany, *Military Manual* (1992), § 455; Netherlands, *Military Manual* (1993), p. V-4; New Zealand, *Military Manual* (1992), § 517; Spain, *LOAC Manual* (1996), Vol. I, § 4.4.c; Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 45.

objectives as found in paragraphs (f) and (g) of the [Operational Code of Conduct]".¹⁸⁰

176. South Africa's Medical Services Military Manual states that "indiscriminate attacks . . . do not take into consideration the basic distinction of protection between military and civilian objectives".¹⁸¹

177. Togo's Military Manual defines indiscriminate attacks as "attacks which are not directed at military objectives and which will probably strike at military objectives and civilian objects without distinction".¹⁸²

178. The UK LOAC Manual defines indiscriminate attacks as "attacks which are not directed at a military objective and which are likely to strike at military objectives and civilian objects without distinction".¹⁸³

179. The US Air Force Pamphlet states that:

The extent to which a weapon discriminates between military objectives and protected persons and objects depends usually on the manner in which the weapon is employed rather than on the design qualities of the weapon itself. Where a weapon is designed so that it can be used against military objectives, its employment in a different manner, such as against the civilian population, does not make the weapon itself unlawful.¹⁸⁴

180. The US Naval Handbook states that "any weapon may be set to an unlawful purpose when it is directed against noncombatants and other protected persons and objects".¹⁸⁵

National Legislation

181. Under the Draft Amendments to the Penal Code of El Salvador, indiscriminate attacks are defined as including attacks "which are not directed against a specific military objective".¹⁸⁶

182. Nicaragua's Draft Penal Code defines indiscriminate attacks as including attacks "which are not directed against a specific military objective".¹⁸⁷

National Case-law

183. No practice was found.

Other National Practice

184. The Report on the Practice of Colombia notes that the government describes direct attacks on civilians as indiscriminate attacks. Reports describing

¹⁸⁰ Report on the Practice of Nigeria, 1997, Chapter 1.4, referring to *Operational Code of Conduct* (1968), §§ f–g.

¹⁸⁴ US, *Air Force Pamphlet* (1976), § 6-3(c). ¹⁸⁵ US, *Naval Handbook* (1995), § 9.1.

¹⁸⁶ El Salvador, *Draft Amendments to the Penal Code* (1998), Article entitled "Ataque indiscriminado a personas protegidas".

¹⁸⁷ Nicaragua, *Draft Penal Code* (1999), Article 450(2).

the aerial shelling of houses in a conflict zone and bombardments that directly and exclusively affect the civilian population forcing it to move are provided as examples of indiscriminate attacks.¹⁸⁸

185. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, India stated that indiscriminate attacks are generally defined as including “those that are not directed at any single military objective”.¹⁸⁹

186. Prior to the adoption of UN General Assembly Resolution 47/37 in 1992 on the protection of the environment in times of armed conflict, Jordan and the US submitted a memorandum to the Sixth Committee of the UN General Assembly entitled “International Law Providing Protection to the Environment in Times of Armed Conflict”. The memorandum stated that:

It is a war crime to employ acts of violence not directed at specific military objectives, to employ a method or means of combat which cannot be directed at a specific military objective, or to employ a means or method of combat the effects of which cannot be limited as required by the law of armed conflict.¹⁹⁰

187. The Report on the Practice of Jordan cites as an example of indiscriminate attacks those which are not directed at a specific military objective.¹⁹¹

188. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Mexico stated that “in accordance with international humanitarian law, indiscriminate attacks are those that can reach both military targets and civilians”.¹⁹²

189. The Report on the Practice of Nigeria states that it is the *opinio juris* of Nigeria that “the prohibition of direct attacks on civilians and the adherence to the notion of abolition of indiscriminate attacks are part of customary international law”.¹⁹³

190. On the basis of replies by army officers to a questionnaire, the Report on the Practice of Rwanda defines indiscriminate attacks as those which are carried out without making a distinction between military and civilian objectives. As examples of indiscriminate attacks, the report cites attacks on enemy positions located in an area inhabited by civilians and the shooting into a crowd because an enemy is hidden somewhere in the middle of it.¹⁹⁴

¹⁸⁸ Report on the Practice of Colombia, 1998, Chapter 1.4, referring to Defensoría del Pueblo, *Informe de Comisión Municipio de Miraflores*, Queja 9500280, pp. 7 and 15 and Defensoría del Pueblo, *Cuarto informe anual del defensor del pueblo al congreso de Colombia*, Santafé de Bogotá, September 1997, p. 43.

191. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK criticised Iraq for launching indiscriminate missile attacks against civilians.¹⁹⁵

192. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US denounced the continued indiscriminate launching of surface-to-surface missiles at civilian targets.¹⁹⁶

193. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense accused Iraq of "indiscriminate Scud missile attacks".¹⁹⁷

194. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1994, the US stated that "it is unlawful to conduct any indiscriminate attack, including those employing weapons that are not . . . directed at a military objective".¹⁹⁸

195. In submitting the 1996 Amended Protocol II to the CCW to Congress for advice and consent to ratification, the US President stated that the prohibition of indiscriminate use of mines, booby-traps and other devices as defined in Article 3(8)(a) of the Protocol "is already a feature of customary international law that is applicable to all weapons".¹⁹⁹

196. According to the Report on US Practice, it is the *opinio juris* of the US that indiscriminate attacks include attacks which are not directed at a military objective.²⁰⁰

III. Practice of International Organisations and Conferences

United Nations

197. In 1990, in a report on UNIFIL in Lebanon, the UN Secretary-General described the following incident:

A further serious incident occurred at dawn on 21 December 1989, when the DFF compound in Al Qantarrah in the Finnish battalion sector directed tank, mortar and heavy machine-gun fire indiscriminately in all directions in response to the firing of an anti-tank round by unidentified armed elements . . . The incident was strongly protested to IDF.²⁰¹

²⁰⁰ Report on US Practice, 1997, Chapter 1.4.

²⁰¹ UN Secretary-General, Report on UNIFIL, UN Doc. S/21102, 25 January 1990, § 22.

198. In 1994, in its final report on grave breaches of the Geneva Conventions and other violations of IHL committed in the former Yugoslavia, the UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992) stated that:

The concealment of Bosnian Government forces among civilian property may have caused the attraction of fire from the Bosnian Serb Army which may have resulted in legitimate collateral damage. There is enough apparent damage to civilian objects in Sarajevo to conclude that either civilian objects have been deliberately targeted or they have been indiscriminately attacked.²⁰²

Other International Organisations

199. No practice was found.

International Conferences

200. A report on the work of Committee III of the CDDH stated that:

The main problem was that of defining the term “indiscriminate attacks”. There was general agreement that a proper definition would include the act of not directing an attack at a military objective, the use of means or methods of combat which cannot be directed at a specific military objective, and the use of means or methods of combat the effects of which cannot be limited as required by the protocol.²⁰³

IV. Practice of International Judicial and Quasi-judicial Bodies

201. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that:

Attacks which are not directed against a military objective (particularly attacks directed against the civilian population) . . . may constitute the *actus reus* for the offence of unlawful attack [as a violation of the laws and customs of war]. The *mens rea* for the offence is intention or recklessness, not simple negligence.²⁰⁴

V. Practice of the International Red Cross and Red Crescent Movement

202. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “the attack may only be directed at a specific military objective. The military objective must be identified as

²⁰² UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992), Final report, UN Doc. S/1994/674, 27 May 1994, Annex, § 206.

²⁰³ CDDH, *Official Records*, Vol. XV, CDDH/215/Rev.1, Second Session, Report of Committee III, 3 February–18 April 1975, p. 274, § 55.

²⁰⁴ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, § 28.

such and clearly designated and assigned. The attack shall be limited to the assigned military objective."²⁰⁵

VI. *Other Practice*

203. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch listed the following kinds of attacks among those that "are prohibited by applicable international law rules":

4. Direct attacks against individual or groups of unarmed civilians where no legitimate military objective, such as enemy combatants or war materiel, is present. Such attacks are indiscriminate.
5. Direct attacks against towns, villages, dwellings or buildings dedicated to civilian purposes where no military objective is present. Such attacks are also indiscriminate.²⁰⁶

204. In 1989, in a report on violations of the laws of war in Angola, Africa Watch listed the following kinds of attacks and uses of landmines among those that "should be prohibited in the conduct of hostilities":

- A. Direct attacks, by ground or air, and direct use of weapons against individuals or groups of unarmed civilians where no legitimate military objectives, such as enemy combatants or war material, are present. Such attacks and uses of these weapons are indiscriminate.
- B. Direct attacks, by ground or air, and direct weapons use against civilian objects dedicated to civilian purposes, such as towns, villages, dwellings, buildings, agricultural areas for the production of civilian foodstuffs, and drinking water sources, where no military objective is present. This type of attack and weapons use is similarly indiscriminate.²⁰⁷

205. The Commentary on Rule A1 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IHL, defines indiscriminate attacks as "attacks launched at or affecting the civilian population without discrimination".²⁰⁸

Attacks which cannot be directed at a specific military objective

Note: For practice concerning weapons that are by nature indiscriminate, see Chapter 20, section B.

²⁰⁵ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 428.

I. Treaties and Other Instruments

Treaties

206. According to Article 51(4)(b) AP I, attacks “which employ a method or means of combat which cannot be directed at a specific military objective” and consequently “are of a nature to strike military objectives and civilians or civilian objects without distinction” are indiscriminate. Article 51 AP I was adopted by 77 votes in favour, one against and 16 abstentions.²⁰⁹

207. Article 3(3)(b) of the 1980 Protocol II to the CCW and Article 3(8)(b) of the 1996 Amended Protocol II to the CCW define the indiscriminate use of mines, booby-traps and other devices as any placement of such weapons “which employs a method or means of delivery which cannot be directed at a specific military objective”.

Other Instruments

208. Article 14 of the 1956 New Delhi Draft Rules states that:

Without prejudice to the present or future prohibition of certain specific weapons, the use is prohibited of weapons whose harmful effects – resulting in particular from the dissemination of incendiary, chemical, bacteriological, radioactive or other agents – could spread to an unforeseen degree or escape, either in space or in time, from the control of those who employ them, thus endangering the civilian population.

209. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 51(4)(b) AP I.

210. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 51(4)(b) AP I.

211. Paragraph 42(b)(i) of the 1994 San Remo Manual states that “it is forbidden to employ methods or means of warfare which are indiscriminate in that they . . . cannot be directed against a specific military objective”.

II. National Practice

Military Manuals

212. Military manuals of Australia, Belgium, Canada, Germany, Netherlands, New Zealand, Spain and Sweden state that attacks which employ a method or means of combat which cannot be directed at a specific military objective are indiscriminate.²¹⁰

²⁰⁹ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 163.

²¹⁰ Australia, *Defence Force Manual* (1994), § 502(b)(2); Australia, *Commanders' Guide* (1994), § 956(b); Belgium, *Law of War Manual* (1983), p. 27; Canada, *LOAC Manual* (1999), p. 4-3, § 22(b), see also p. 5-2, § 11; Germany, *Soldiers' Manual* (1991), p. 5; Germany, *Military Manual*

213. Ecuador's Naval Manual states that "the use of weapons which by their nature are incapable of being directed specifically against military objectives, and therefore that put noncombatants at equivalent risk, are forbidden due to their indiscriminate effect".²¹¹ The manual further specifies that:

Weapons that are incapable of being controlled in the sense that they can be directed at a military target are forbidden as being indiscriminate in their effect . . . A weapon is not indiscriminate simply because it may cause incidental or collateral civilian casualties, provided such casualties are not foreseeably excessive in light of the expected military advantage to be gained.²¹²

214. Israel's Manual on the Laws of War states that "in any attacks it is imperative to verify that the attack will be carried out employing weapons that can be aimed at the military target".²¹³

215. The US Air Force Pamphlet states that:

The existing law of armed conflict does not prohibit the use of weapons whose destructive force cannot strictly be confined to the specific military objective. Weapons are not unlawful simply because their use may cause incidental casualties to civilians and destruction of civilian objects. Nevertheless, particular weapons or methods of warfare may be prohibited because of their indiscriminate effects . . . Indiscriminate weapons are those incapable of being controlled, through design or function, and thus they can not, with any degree of certainty, be directed at military objectives.²¹⁴

216. The US Air Force Commander's Handbook states that:

Weapons that are incapable of being controlled enough to direct them against a military objective . . . are forbidden. A weapon is not unlawful simply because its use may cause incidental or collateral casualties to civilians, as long as those casualties are not foreseeably excessive in light of the expected military advantage.²¹⁵

217. The US Naval Handbook states that "weapons which by their nature are incapable of being directed specifically against military objectives, and therefore that put noncombatants at equivalent risk, are forbidden due to their indiscriminate effect".²¹⁶ The Handbook further specifies that:

Weapons that are incapable of being controlled (i.e., directed at a military target) are forbidden as being indiscriminate in their effect . . . A weapon is not indiscriminate simply because it may cause incidental or collateral civilian casualties, provided such casualties are not foreseeably excessive in light of the expected military advantage to be gained.²¹⁷

National Legislation

218. The Draft Amendments to the Penal Code of El Salvador define indiscriminate attacks as including attacks “in which methods or means of warfare are used which cannot be directed against a specific military objective”.²¹⁸

219. Nicaragua’s Draft Penal Code defines indiscriminate attacks as including attacks “in which methods or means of warfare are used which cannot be directed against a specific military objective”.²¹⁹

National Case-law

220. No practice was found.

Other National Practice

221. At the CDDH, Canada stated that:

The definition of indiscriminate attack contained in paragraph 4 of Article 46 [now Article 51] is not intended to mean that there are means of combat the use of which would constitute an indiscriminate attack in all circumstances. It is our view that this definition takes account of the circumstances, as evidenced by the examples listed in paragraph 5 to determine the legitimacy of the use of means of combat.²²⁰

222. At the CDDH, the FRG stated that:

The definition of indiscriminate attacks contained in paragraph 4 of Article 46 [now Article 51 AP I] is not intended to mean that there are means of combat the use of which would constitute an indiscriminate attack in all circumstances. Rather, the definition is intended to take account of the fact that the legality of the use of means of combat depends upon circumstances, as shown by the examples listed in paragraph 5. Consequently the definition does not prohibit as indiscriminate any specific weapon.²²¹

223. At the CDDH, the GDR stated that:

The prohibition of indiscriminate attacks or of attacks which employed methods or means of combat that could not be directed at a specific military objective was of the utmost importance, since it re-established the priority of humanitarian principles over the uncontrolled development and barbarous use of highly sophisticated weapons and means of warfare, which from the outset disregarded the fundamental rights of the human being.²²²

224. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, India stated that indiscriminate attacks were generally defined as

²¹⁸ El Salvador, *Draft Amendments to the Penal Code* (1998), Article entitled “Ataque indiscriminado a personas protegidas”.

²¹⁹ Nicaragua, *Draft Penal Code* (1999), Article 450(2).

²²⁰ Canada, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 179.

²²¹ FRG, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, pp. 187–188.

²²² GDR, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 167, § 136, see also p. 187.

including “those which employ methods or means of combat which cannot be directed at a specific military objective”.²²³

225. During the discussion on the armistice following the Gulf War, Iraq argued that high-altitude bombing by US B-52s made it impossible to distinguish between civilian and military targets.²²⁴

226. At the CDDH, Italy stated that:

There was nothing in paragraph 4 [of Article 46, now Article 51] to show that certain methods or means of combat were prohibited in all circumstances by the Protocol except where an explicit prohibition was established by international rules in force for the State concerned with regard to certain weapons or methods.²²⁵

227. Prior to the adoption of UN General Assembly Resolution 47/37 in 1992 on the protection of the environment in times of armed conflict, Jordan and the US submitted a memorandum to the Sixth Committee of the UN General Assembly entitled “International Law Providing Protection to the Environment in Times of Armed Conflict”, which provided that:

It is a war crime to employ acts of violence not directed at specific military objectives, to employ a method or means of combat which cannot be directed at a specific military objective, or to employ a means or method of combat the effects of which cannot be limited as required by the law of armed conflict.²²⁶

228. At the CDDH, Mexico stated that “the protection of the civilian population and civilian objects must be universally recognized, even at the cost of restricting the use of means and methods of warfare, the effects of which cannot be confined to specific military targets”. Mexico believed Articles 46 and 47 AP I (now Articles 51 and 52) to be so essential that they “cannot be the subject of any reservations whatsoever since these would be inconsistent with the aim and purpose of Protocol I and undermine its basis”.²²⁷

229. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Mexico stated that “in accordance with international humanitarian law, indiscriminate attacks are those that can reach both military targets and civilians”.²²⁸

230. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1995, Nauru invoked the rule of international law that prohibits

²²⁸ Mexico, Written statement submitted to the ICJ, *Nuclear Weapons case*, 19 June 1995, § 77(d); see also Written statement submitted to the ICJ, *Nuclear Weapons case*, 9 June 1994, § 25.

the use of weapons which “cannot distinguish between civilian objects and military objectives”.²²⁹

231. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case*, Sri Lanka stated that “the unacceptability of the use of weapons that fail to discriminate between military and civilian personnel is firmly established as a fundamental principle of international humanitarian law”.²³⁰

232. At the CDDH, the UK stated that it considered that:

The definition of indiscriminate attacks given in [Article 51(4) AP I] was not intended to mean that there were means of combat the use of which would constitute an indiscriminate attack in all circumstances. The paragraph did not in itself prohibit the use of any specific weapon, but it took account of the fact that the lawful use of means of combat depended on the circumstances.²³¹

233. In 1992, a legal review by the US Department of the Air Force of the legality of extended range anti-armour munition stated that:

International law also forbids the use of weapons or means of warfare which are “indiscriminate.” A weapon is indiscriminate if it cannot be directed at a military objective or if, under the circumstances, it produces excessive civilian casualties in relation to the concrete and direct military advantage anticipated.²³²

234. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that:

Finally, with the poor track record of compliance with the law of war by some nations, the United States has a responsibility to protect against threats that may inflict serious collateral damage to our own interests and allies. These threats can arise from any nation that does not have the capability or desire to respect the law of war. One example is Iraq’s indiscriminate use of SCUDs during the Iran–Iraq War and the Gulf War. These highly inaccurate theater ballistic missiles can cause extensive collateral damage well out of proportion to military results.²³³

235. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1994, the US stated that “it is unlawful to conduct any indiscriminate attack, including those employing weapons that . . . cannot be directed at a military objective”.²³⁴

236. In submitting the 1996 Amended Protocol II to the CCW to Congress for advice and consent to ratification, the US President stated that the prohibition

of indiscriminate use of mines, booby-traps and other devices as defined in Article 3(8)(b) of the Protocol "is already a feature of customary international law that is applicable to all weapons".²³⁵

237. In 1998, in a legal review of Oleoresin Capsicum (OC) pepper spray in 1998, the Deputy Assistant Judge Advocate General of the US Department of the Navy stated that:

A weapon must be discriminating, or capable of being controlled (i.e., it can be directed against intended targets). Those weapons which cannot be employed in a manner which distinguishes between lawful combatants and noncombatants violate these principles. Indiscriminate weapons are prohibited by customary international law and treaty law.²³⁶

238. According to the Report on US Practice, it is the *opinio juris* of the US that indiscriminate attacks include attacks that employ methods or means of warfare that cannot be directed at a military objective.²³⁷

III. Practice of International Organisations and Conferences

United Nations

239. No practice was found.

Other International Organisations

240. No practice was found.

International Conferences

241. A report on the work of Committee III of the CDDH stated that:

The main problem was that of defining the term "indiscriminate attacks". There was general agreement that a proper definition would include the act of not directing an attack at a military objective, the use of means or methods of combat which cannot be directed at a specific military objective, and the use of means or methods of combat the effects of which cannot be limited as required by the Protocol. Many but not all of those who commented were of the view that the definition was not intended to mean that there are means or methods of combat whose use would involve an indiscriminate attack in all circumstances. Rather, it was intended to take account of the fact that means or methods of combat which can be used perfectly legitimately in some situations could, in other circumstances, have effects that would be contrary to some limitations contained in the Protocol,

²³⁶ US, Department of the Navy, Deputy Assistant Judge Advocate General, International and Operational Law Division, Legal Review of Oleoresin Capsicum (OC) Pepper Spray, 19 May 1998, § 5.

²³⁷ Report on US Practice, 1997, Chapter 1.4.

in which event their use in those circumstances would involve an indiscriminate attack.²³⁸

242. The 24th International Conference of the Red Cross in 1981 adopted a resolution on disarmament, weapons of mass destruction and respect for non-combatants in which it urged parties to armed conflicts “not to use methods and means of warfare that cannot be directed against specific military targets and whose effects cannot be limited”.²³⁹

IV. Practice of International Judicial and Quasi-judicial Bodies

243. In its advisory opinion in the *Nuclear Weapons case* in 1996, the ICJ stated that:

The cardinal principles contained in the texts constituting the fabric of humanitarian law are the following. The first is aimed at the protection of the civilian population and civilian objects and establishes the distinction between combatants and non-combatants; States must never make civilians the object of attack and must consequently never use weapons that are incapable of distinguishing between civilian and military targets. . . In conformity with the aforementioned principles, humanitarian law, at a very early stage, prohibited certain types of weapons either because of their indiscriminate effect on combatants and civilians . . . Further these fundamental rules are to be observed by all States whether or not they have ratified the conventions that contain them, because they constitute intransgressible principles of international customary law.²⁴⁰

244. In her dissenting opinion in the *Nuclear Weapons case* before the ICJ in 1996, Judge Higgins stated that:

Very important also . . . is the requirement of humanitarian law that weapons may not be used which are incapable of discriminating between civilian and military targets.

The requirement that a weapon be capable of differentiating between military and civilian targets is not a general principle of humanitarian law specified in the 1899, 1907 or 1949 law, but flows from the basic rule that civilians may not be the target of attack . . . It may be concluded that a weapon will be unlawful *per se* if it is incapable of being targeted at a military objective only, even if collateral damage occurs.²⁴¹

245. In his separate opinion in the *Nuclear Weapons case* before the ICJ in 1996, Judge Guillaume stated that indiscriminate weapons were “blind weapons

²³⁸ CDDH, *Official Records*, Vol. XV, CDDH/215/Rev.1, Second session, Report of Committee III, 3 February–18 April 1975, p. 274, § 55.

²⁴¹ ICJ, *Nuclear Weapons case*, Dissenting Opinion of Judge Higgins, 8 July 1996, §§ 23–24.

which are incapable of distinguishing between civilian targets and military targets".²⁴²

246. In its review of the indictment in the *Martić case* in 1996, the ICTY Trial Chamber had to determine whether the use of cluster bombs was prohibited in an armed conflict. Noting that no formal provision forbade the use of such bombs, the Trial Chamber recalled that the choice of weapons and their use were clearly delimited by IHL. Among the relevant norms of customary law, the Court referred to Article 51(4)(b) AP I, which forbade indiscriminate attacks involving the use of a means or method of combat that could not be directed against a specific military objective.²⁴³

V. Practice of the International Red Cross and Red Crescent Movement

247. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "belligerent Parties and their armed forces shall abstain from using weapons which, because of their lack of precision or their effects, affect civilian persons and combatants without distinction".²⁴⁴

VI. Other Practice

248. In a resolution adopted during its Edinburgh Session in 1969, the Institute of International Law stated that "existing international law prohibits the use of all weapons which, by their very nature, affect indiscriminately both military objectives and non-military objects, or both armed forces and civilian populations".²⁴⁵

249. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch listed the "use of 'blind' weapons that cannot be directed with any reasonable assurance against a specific military objective" among actions which were "prohibited by applicable international law rules".²⁴⁶

250. In 1989, in a report on violations of the laws of war in Angola, Africa Watch listed the "use of 'blind' weapons that cannot be directed with any reasonable assurance against a specific military objective" among prohibited practices.²⁴⁷

²⁴² ICJ, *Nuclear Weapons case*, Separate Opinion of Judge Guillaume, 8 July 1996, § 5.

Attacks whose effects cannot be limited as required by international humanitarian law

Note: For practice concerning weapons that are by nature indiscriminate, see Chapter 20, section B.

I. Treaties and Other Instruments

Treaties

251. According to Article 51(4)(c) AP I, attacks “which employ a method or means of combat the effects of which cannot be limited as required by this Protocol” and consequently “are of a nature to strike military objectives and civilians or civilian objects without distinction” are indiscriminate. Article 51 AP I was adopted by 77 votes in favour, one against and 16 abstentions.²⁴⁸

Other Instruments

252. Article 14 of the 1956 New Delhi Draft Rules states that:

Without prejudice to the present or future prohibition of certain specific weapons, the use is prohibited of weapons whose harmful effects – resulting in particular from the dissemination of incendiary, chemical, bacteriological, radioactive or other agents – could spread to an unforeseen degree or escape, either in space or in time, from the control of those who employ them, thus endangering the civilian population.

253. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 51(4)(c) AP I.

254. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 51(4)(c) AP I.

255. Paragraph 42(b)(ii) of the 1994 San Remo Manual provides that “it is forbidden to employ methods or means of warfare which are indiscriminate in that their effects cannot be limited as required by international law as reflected in this document”.

II. National Practice

Military Manuals

256. Military manuals of Australia, Belgium, Canada, Germany, Netherlands, New Zealand, Spain and Sweden state that attacks which employ a method or means of combat the effects of which cannot be limited as required by IHL are indiscriminate.²⁴⁹

²⁴⁸ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 163.

²⁴⁹ Australia, *Defence Force Manual* (1994), § 502(b)(3) (“the effect of which cannot be limited, as required by LOAC); Australia, *Commanders’ Guide* (1994), § 956(c) (“the effects of which

257. Israel's Manual on the Laws of War states that "in any attack it is imperative to verify that the attack will not employ means of warfare whose impact cannot be controlled".²⁵⁰

258. The US Air Force Pamphlet states that:

Some weapons, though capable of being directed only at military objectives, may have otherwise uncontrollable effects so as to cause disproportionate civilian injuries or damage. Biological warfare is a universally agreed illustration of such an indiscriminate weapon. Uncontrollable effects, in this context, may include injury to the civilian population of other states as well as injury to an enemy's civilian population. Uncontrollable refers to effects which escape in time or space from the control of the user as to necessarily create risks to civilian persons or objects excessive in relation to the military advantage anticipated. International law does not require that a weapon's effects be strictly confined to the military objectives against which it is directed, but it does restrict weapons whose foreseeable effects result in unlawful disproportionate injury to civilians or damage to civilian objects.²⁵¹

259. The YPA Military Manual of the SFRY (FRY) prohibits "blind weapons" the effects of which "cannot be controlled during their use".²⁵²

National Legislation

260. The Draft Amendments to the Penal Code of El Salvador define indiscriminate attacks as including attacks in which methods or means of warfare are used "whose effects cannot be limited as required by international humanitarian law".²⁵³

261. Nicaragua's Draft Penal Code defines indiscriminate attacks as including attacks in which methods and means of warfare are used "whose effects cannot be limited as required by international humanitarian law".²⁵⁴

National Case-law

262. No practice was found.

cannot be limited as required by LOAC"); Belgium, *Law of War Manual* (1983), p. 28 ("which cannot be limited as required by the First Protocol"); Canada, *LOAC Manual* (1999), p. 4-3, § 22(c) ("the effects of which cannot be limited as required by the LOAC"), see also p. 5-2, § 11; Germany, *Military Manual* (1992), § 455 ("whose intended effects cannot be limited to the military objective"); Netherlands, *Military Manual* (1993), p. V-4 ("which cannot be limited as required by Additional Protocol I"); New Zealand, *Military Manual* (1992), § 517 ("which cannot be limited as required by this Protocol"), see also § 509(4) ("the effects of which cannot be limited"); Spain, *LOAC Manual* (1996), Vol. I, § 4.4.c ("whose effects cannot be limited"); Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 45 ("which cannot be limited as required by Additional Protocol I").

²⁵³ El Salvador, *Draft Amendments to the Penal Code* (1998), Article entitled "Ataque indiscriminado a personas protegidas".

²⁵⁴ Nicaragua, *Draft Penal Code* (1999), Article 450(2).

Other National Practice

263. At the CDDH, Canada stated that:

The definition of indiscriminate attack contained in paragraph 4 of Article 46 [now Article 51] is not intended to mean that there are means of combat the use of which would constitute an indiscriminate attack in all circumstances. It is our view that this definition takes account of the circumstances, as evidenced by the examples listed in paragraph 5 to determine the legitimacy of the use of means of combat.²⁵⁵

264. At the CDDH, the FRG stated that:

The definition of indiscriminate attacks contained in paragraph 4 of Article 46 [now Article 51 AP I] is not intended to mean that there are means of combat the use of which would constitute an indiscriminate attack in all circumstances. Rather, the definition is intended to take account of the fact that the legality of the use of means of combat depends upon circumstances, as shown by the examples listed in paragraph 5. Consequently the definition does not prohibit as indiscriminate any specific weapon.²⁵⁶

265. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, India stated that indiscriminate attacks are generally defined as including "those with effects which cannot be limited".²⁵⁷

266. At the CDDH, Italy stated that:

There was nothing in paragraph 4 [of Article 46, now Article 51] to show that certain methods or means of combat were prohibited in all circumstances by the Protocol except where an explicit prohibition was established by international rules in force for the State concerned with regard to certain weapons or methods.²⁵⁸

267. Prior to the adoption of UN General Assembly Resolution 47/37 in 1992 on the protection of the environment in times of armed conflict, Jordan and the US submitted a memorandum to the Sixth Committee of the UN General Assembly entitled "International Law Providing Protection to the Environment in Times of Armed Conflict", which provided that:

It is a war crime to employ acts of violence not directed at specific military objectives, to employ a method or means of combat which cannot be directed at a specific military objective, or to employ a means or method of combat the effects of which cannot be limited as required by the law of armed conflict.²⁵⁹

²⁵⁹ Jordan and US, International Law Providing Protection to the Environment in Times of Armed Conflict, annexed to Letter dated 28 September 1992 to the Chairman of the Sixth Committee of the UN General Assembly, UN Doc. A/C.6/47/3, 28 September 1992, § 1(g).

268. At the CDDH, Mexico stated that “the protection of the civilian population and civilian objects must be universally recognized, even at the cost of restricting the use of means and methods of warfare, the effects of which cannot be confined to specific military targets”. Mexico believed Article 51 AP I to be so essential that it “cannot be the subject of any reservations whatsoever since these would be inconsistent with the aim and purpose of Protocol I and undermine its basis”.²⁶⁰

269. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Mexico stated that “in accordance with international humanitarian law, indiscriminate attacks are those that can reach both military targets and civilians”.²⁶¹

270. At the CDDH, the UK considered that:

The definition of indiscriminate attacks given in [Article 51(4) AP I] was not intended to mean that there were means of combat the use of which would constitute an indiscriminate attack in all circumstances. The paragraph did not in itself prohibit the use of any specific weapon, but it took account of the fact that the lawful use of means of combat depended on the circumstances.²⁶²

271. In 1972, the General Counsel of the US Department of Defense stated that:

Existing laws of armed conflict do not prohibit the use of weapons whose destructive force cannot be limited to a specific military objective. The use of such weapons is not proscribed when their use is necessarily required against a military target of sufficient importance to outweigh inevitable, but regrettable, incidental casualties to civilians and destruction of civilian objects . . . I would like to reiterate that it is recognized by all states that they may not lawfully use their weapons against civilian population[s] or civilians as such, but there is no rule of international law that restrains them from using weapons against enemy armed forces or military targets. The correct rule of international law which has applied in the past and continued to apply to the conduct of our military operations in Southeast Asia is that “the loss of life and damage to property must not be out of proportion to the military advantage to be gained”.²⁶³

272. According to the Report on US Practice, at the 1974 Lucerne Conference of Government Experts on Weapons which may Cause Unnecessary Suffering or have Indiscriminate Effects, the US

rejected any effort to label weapons indiscriminate merely because they were likely to affect civilians as well as military objectives. The correct rule was that the

²⁶³ US, Letter from J. Fred Buzhardt, General Counsel of the Department of Defense, to Senator Edward Kennedy, Chairman of the Subcommittee on Refugees of the Committee on the Judiciary, 22 September 1972, *AJIL*, Vol. 67, 1973, p. 124.

law of war prohibits attacks which entail a high risk of civilian casualties clearly disproportionate to the military advantage sought.²⁶⁴

273. Course material from the US Army War College states that:

The Law of War does not ban the use of weapons when their effects cannot be strictly confined to the specific military objective. But this rule is true only so long as the rule of proportionality is not violated. However, a weapon which is incapable of being controlled, and thus will cause incidental damage without any reasonable likelihood of gaining a military advantage, is illegal.²⁶⁵

274. In 1992, a legal review by the US Department of the Air Force of the legality of extended range anti-armour munition stated that:

International law also forbids the use of weapons or means of warfare which are "indiscriminate." A weapon is indiscriminate if it cannot be directed at a military objective or if, under the circumstances, it produces excessive civilian casualties in relation to the concrete and direct military advantage anticipated.²⁶⁶

275. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that:

Finally, with the poor track record of compliance with the law of war by some nations, the United States has a responsibility to protect against threats that may inflict serious collateral damage to our own interests and allies. These threats can arise from any nation that does not have the capability or desire to respect the law of war. One example is Iraq's indiscriminate use of SCUDs during the Iran-Iraq War and the Gulf War. These highly inaccurate theater ballistic missiles can cause extensive collateral damage well out of proportion to military results.²⁶⁷

of weapons the destructive effect of which is so great that it cannot be limited to specific military objectives or is otherwise uncontrollable (self-generating weapons) as well as of "blind" weapons.²⁷¹

C. Area Bombardment

I. Treaties and Other Instruments

Treaties

283. Article 51(5)(a) AP I considers as indiscriminate:

an attack by bombardment by any methods or means which treats as a single military objective a number of clearly separated and distinct military objectives located in a city, town, village or other area containing a similar concentration of civilians and civilian objects.

Article 51 AP I was adopted by 77 votes in favour, one against and 16 abstentions.²⁷²

284. Article 26(3)(a) of draft AP II submitted by the ICRC to the CDDH provided that it was forbidden "to attack without distinction, as one single objective, by bombardment or any other method, a zone containing several military objectives, which are situated in populated areas and are at some distance from each other".²⁷³ Committee III of the CDDH amended this proposal and adopted the amended proposal, by 25 votes in favour, 13 against and 24 abstentions, while Article 26 as a whole was adopted by Committee III by 44 votes in favour, none against and 22 abstentions.²⁷⁴ The adopted text provided that:

An attack by bombardment by any methods or means which treats as a single military objective a number of clearly separate and distinct military objectives located in a city, town, village, or other area containing a concentration of civilians or civilian objects is to be considered as indiscriminate.²⁷⁵

Eventually, however, the proposal to retain this paragraph was rejected in the plenary by 30 votes in favour, 25 against and 34 abstentions.²⁷⁶

285. Article 3(9) of the 1996 Amended Protocol II to the CCW provides that "several clearly separated and distinct military objectives located in a city, town, village or other area containing a similar concentration of civilians and civilian objects are not to be treated as a single military objective".

Other Instruments

286. Article 24(3) of the 1923 Hague Rules of Air Warfare provides that:

The bombardment of cities, towns, villages, dwellings or buildings not in the immediate neighbourhood of the operations of land forces is prohibited. In cases where [military objectives] are so situated, that they cannot be bombarded without the indiscriminate bombardment of the civilian population, the aircraft must abstain from bombardment.

287. Article 10 of the 1956 New Delhi Draft Rules provides that “it is forbidden to attack without distinction, as a single objective, an area including several military objectives at a distance from one another where elements of the civilian population, or dwellings, are situated in between the said military objectives”.

288. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 51(5)(a) AP I.

289. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 51(5)(a) AP I.

*II. National Practice**Military Manuals*

290. Australia's *Commanders' Guide* states that “indiscriminate attacks [include] those which . . . employ any methods or means which treat, as a single military object, a number of clearly separated military objectives in an area where there is a concentration of civilians”.²⁷⁷

291. Australia's *Defence Force Manual* states that:

An example of an indiscriminate attack would be to bomb a city, town, village or area as though it were a single military objective when it contains a number of separate and distinct military objectives mixed in with a similar concentration of civilians and civilian objects.²⁷⁸

292. Belgium's *Law of War Manual* prohibits “bombardment which treats as a single military objective a certain number of military objectives clearly separated and distinct and located in an area containing a similar concentration of civilian persons and objects”.²⁷⁹

293. Benin's *Military Manual* provides that “carpet bombings are an example of indiscriminate attack” and are, as such, prohibited.²⁸⁰

²⁷⁷ Australia, *Commanders' Guide* (1994), § 956(d).

²⁷⁸ Australia, *Defence Force Manual* (1994), § 502(b)(3).

²⁸⁰ Benin, *Military Manual* (1995), Fascicule III, p. 13.

294. Canada's LOAC Manual gives the following as an example of an indiscriminate attack and, as such, prohibited:

An attack by bombardment by any methods or means which treats as a single legitimate target a number of clearly separated and distinct legitimate targets located in a city, town, village or other area containing a similar concentration of civilians or civilian objects.²⁸¹

295. Croatia's Commanders' Manual provides that "distinct objectives and targets within or in close vicinity to civilian objects shall be attacked separately".²⁸²

296. Germany's Military Manual states that, when "a number of clearly separated and distinct military objectives located in a built-up area are attacked as if they were one single military objective", it constitutes an indiscriminate attack and is, as such, prohibited.²⁸³

297. Israel's Manual on the Laws of War provides that "it is forbidden to regard an area with mixed military objectives and civilian objects as a single target area".²⁸⁴

298. Italy's LOAC Elementary Rules Manual stipulates that "distinct objectives within or in close vicinity to civilian objects shall be attacked separately".²⁸⁵

299. Kenya's LOAC Manual provides that "area bombardment is an example of an indiscriminate attack" and is, as such, prohibited.²⁸⁶

300. Madagascar's Military Manual states that "distinct objectives, aims and targets within or in close vicinity to civilian objects shall be attacked separately".²⁸⁷

301. The Military Manual of the Netherlands provides that "attacks (by bombardment) which treat as a single military objective a number of clearly separated and distinct military objectives located in a city, village or area containing a concentration of civilians or civilian objects" are an example of indiscriminate attacks and, as such, prohibited.²⁸⁸

302. New Zealand's Military Manual states that "an attack by bombardment by any methods or means which treats as a single military objective a number of clearly separated and distinct military objectives located in a city, town, village or other area containing a similar concentration of civilians or civilian objects" is an indiscriminate attack and, as such, prohibited.²⁸⁹

²⁸¹ Canada, *LOAC Manual* (1999), p. 4-3, §§ 22 and 23(a), see also p. 6-3, § 28 (land warfare) and pp. 8-5/8-6, § 38 (naval warfare).

²⁸⁸ Netherlands, *Military Manual* (1993), p. V-4.

²⁸⁹ New Zealand, *Military Manual* (1992), § 517(1)(5)(a) (land warfare) and § 630(1)(5)(a) (air warfare).

303. Under Spain's LOAC Manual, an attack launched while "considering as a single military objective a number of clearly separated and distinct military objectives located in a city, town, village or other area containing a concentration of civilians and civilian objects" is an indiscriminate attack and, as such prohibited.²⁹⁰

304. Sweden's IHL Manual states that:

If the military objectives are located in a densely-populated area which has been evacuated only to a limited extent if at all, area bombardment may not be employed since this would be a breach of the basic rule prohibiting indiscriminate attack. Moreover, area bombardment would most probably lead to excessive injury and losses, and would thus be a breach of the proportionality rule.²⁹¹

305. Switzerland's Basic Military Manual notes that "area bombardments are prohibited".²⁹²

306. Togo's Military Manual provides that "carpet bombings are an example of indiscriminate attack" and, as such, prohibited.²⁹³

307. The UK LOAC Manual stipulates that "area bombardment is an example of an indiscriminate attack" and is, as such, prohibited.²⁹⁴

308. The US Air Force Pamphlet quotes Article 24(3) of the 1923 Hague Rules of Air Warfare, specifying, however, that "they do not represent existing customary law as a total code".²⁹⁵ It also restates the opinion of a legal scholar concerning target area bombing:

Any legal justification of target-area bombing must be based on two factors. The first must be the fact that the area is so preponderantly used for war industry as to impress that character on the whole of the neighborhood, making it essentially an indivisible whole. The second factor must be that the area is so heavily defended from air attack that the selection of specific targets within the area is impracticable.

In such circumstances, the whole area might be regarded as a defended place from the standpoint of attack from the air, and its status, for that purpose, is assimilated to that of a defended place attacked by land troops. In the latter case, the attacking force may attack the whole of the defended area in order to overcome the defense, and incurs no responsibility for unavoidable damage to civilians and nonmilitary property caused by the seeking-out of military objectives in the bombardment. Legal justification for target-area bombing would appear to rest upon analogous reasoning.²⁹⁶

The Pamphlet states, however, that "in fact, the use of target area bombing in populated areas has always been controversial".²⁹⁷

attacks by fire, and the use of any type of projectile except for direct fire by small arms".³⁰³ The term "concentration of civilians" in the same Article meant "such a concentration as to be similar to a city, town, or village. Thus, a refugee camp or a column of refugees moving along a road would be examples of such a similar concentration."³⁰⁴

IV. Practice of International Judicial and Quasi-judicial Bodies

319. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

320. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "an attack is prohibited which treats as a single military objective a number of clearly separated and distinct military objectives located in a city, town, village or other area containing a similar concentration of civilian persons or civilian objects".³⁰⁵

321. In an appeal launched in 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 47(3)(a) of draft AP I, which stated that "it is forbidden to attack without distinction, as one single objective, by bombardment or any other method, a zone containing several military objectives, which are situated in populated areas, and are at some distance from each other". All governments concerned replied favourably.³⁰⁶

General	§§ 1–160
Determination of the anticipated military advantage	§§ 161–192
Information required for judging proportionality in attack	§§ 193–223

Proportionality in Attack**General**

Note: *For practice concerning precautions to be taken in attack in order to avoid disproportionate attacks, see Chapter 5, sections D and E. For practice concerning the limitation of destruction of enemy property to what is required by the mission, see Chapter 16, section B.*

*I. Treaties and Other Instruments**Treaties*

1. Article 51(5)(b) AP I prohibits “an attack which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated”. Article 51 AP I was adopted by 77 votes in favour, one against and 16 abstentions.¹
2. Under Article 85(3)(b) AP I, “launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects, as defined in Article 57, paragraph 2 a) iii) is a grave breach. Article 85 AP I was adopted by consensus.²
3. Article 26(3)(b) of draft AP II submitted by the ICRC to the CDDH provided that it was forbidden “to launch attacks which may be expected to entail incidental losses among the civilian population and cause the destruction of civilian objects to an extent disproportionate to the direct and substantial military

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 163.

² CDDH, *Official Records*, Vol. VI, CDDH/SR.44, 30 May 1977, p. 291.

advantage anticipated".³ This provision was deleted from the proposal adopted by Committee III of the CDDH.⁴

4. Article 3(3)(c) of the 1980 Protocol II to the CCW and Article 3(8)(c) of the 1996 Amended Protocol II to the CCW prohibit any placement of mines, booby-traps and other devices "which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated".

5. Pursuant to Article 8(2)(b)(iv) of the 1998 ICC Statute, the following constitutes a war crime in international armed conflicts:

intentionally launching an attack in the knowledge that such attack will cause incidental loss of life or injury to civilians or damage to civilian objects... which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated.

Other Instruments

6. Article 15 of the 1863 Lieber Code states that "military necessity admits of all direct destruction of life or limb of 'armed' enemies, and of other persons whose destruction is incidentally 'unavoidable' in the armed contests of the war".

7. Article 24(4) of the 1923 Hague Rules of Air Warfare states that:

In the immediate neighbourhood of the operations of land forces, the bombardment of cities, towns, villages, dwellings or buildings is legitimate provided that there exists a reasonable presumption that the military concentration is sufficiently important to justify such bombardment, having regard to the danger thus caused to the civilian population.

8. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 51(5)(b) AP I.

9. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 51(5)(b) AP I.

10. Paragraph 46(d) of the 1994 San Remo Manual provides that "an attack shall not be launched if it may be expected to cause collateral casualties or damage which would be excessive in relation to the concrete and direct military advantage anticipated from the attack as a whole".

11. Pursuant to Article 20(b)(ii) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, "launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such

³ CDDH, *Official Records*, Vol. I, Part Three, Draft Additional Protocols, June 1973, p. 40.

⁴ CDDH, *Official Records*, Vol. XV, CDDH/215/Rev.1, 3 February–18 April 1975, p. 321.

attack will cause excessive loss of life, injury to civilians or damage to civilian objects" constitutes a war crime.

12. Section 5.5 of the 1999 UN Secretary-General's Bulletin provides that:

The United Nations force is prohibited from launching operations . . . that may be expected to cause incidental loss of life among the civilian population or damage to civilian objects that would be excessive in relation to the concrete and direct military advantage anticipated.

13. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(iv), the following constitutes a war crime in international armed conflicts:

intentionally launching an attack in the knowledge that such attack will cause incidental loss of life or injury to civilians or damage to civilian objects . . . which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated.

II. National Practice

Military Manuals

14. Australia's Defence Force Manual states that:

Collateral damage may be the result of military attacks. This fact is recognised by LOAC and, accordingly, it is not unlawful to cause such injury and damage. The principle of proportionality dictates that the results of such action must not be excessive in light of the military advantage anticipated from the attack.⁵

The manual further states, in the specific context of siege warfare, that "if there are noncombatants in the locality, the anticipated collateral damage must not be excessive in relation to the concrete and direct military advantage expected to result from the bombardment".⁶ Both the Defence Force Manual and the Commanders' Guide list "launching indiscriminate attacks that affect the civilian population or civilian objects in the knowledge that such attack will cause extensive and disproportionate loss of life, injury to civilians or damage to civilian objects" as an example of acts which constitute "grave breaches or serious war crimes likely to warrant institution of criminal proceedings".⁷

15. Belgium's Law of War Manual states that:

An attack against a military objective must not be launched when it is to be expected that such an attack will cause incidental loss or damage to civilians and civilian objects which would be excessive in relation to the concrete and direct military advantage expected.⁸

⁵ Australia, *Defence Force Manual* (1994), § 535.

⁶ Australia, *Defence Force Manual* (1994), § 733.

⁷ Australia, *Commanders' Guide* (1994), § 1305(h); *Defence Force Manual* (1994), § 1315(h).

⁸ Belgium, *Law of War Manual* (1983), p. 26, see also p. 28.

16. Benin's Military Manual requires respect for the principle of proportionality. According to the manual, "a military action is proportionate if it does not cause loss or damage to civilians which is excessive in relation to the expected overall result. This rule cannot justify unlimited destruction or attacks against civilians and civilian objects as such".⁹ The manual also states that "the principle of proportionality requires that needless suffering and damage be avoided. Pursuant to this principle, all forms of violence which are not indispensable to gain superiority over an enemy are prohibited."¹⁰

17. Cameroon's Instructors' Manual states that "the rule of proportionality prohibits the launching of attacks which will cause loss or damage to civilians and civilian objects which is excessive in relation to the military advantage anticipated".¹¹

18. According to Canada's LOAC Manual,

The fact that an attack on a legitimate target may cause civilian casualties or damage to civilian objects does not necessarily make the attack unlawful under the LOAC. However, such collateral civilian damage must not be disproportionate to the concrete and direct military advantage anticipated from the attack.

The proportionality test is as follows: Is the attack expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof ("collateral civilian damage") which would be excessive in relation to the concrete and direct military advantage anticipated? If the answer is "yes", the attack must be cancelled or suspended. The proportionality test must be used in the selection of any target.¹²

The manual also states that "launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive collateral civilian damage" constitutes a grave breach.¹³

19. Canada's Code of Conduct explains that the principle of proportionality "imposes a duty to ensure that the collateral civilian damage created is not excessive in relation to the concrete and direct military advantage anticipated".¹⁴

20. Colombia's Instructors' Manual prohibits the disproportionate use of force. The manual states that "in time of war, the principle of proportionality must be observed. This principle means that the degree of force, the weapons used and the actions taken must be proportionate to the seriousness of the situation."¹⁵

21. Croatia's LOAC Compendium considers a military action to be proportionate "when it does not cause collateral civilian casualties and excessive damage in relation to the expected military advantage of the operation".¹⁶

⁹ Benin, *Military Manual* (1995), Fascicule III, p. 14, see also Fascicule II, p. 6.

¹⁰ Benin, *Military Manual* (1995), Fascicule III, p. 11.

¹¹ Cameroon, *Instructors' Manual* (1992), p. 83, see also p. 149.

¹² Canada, *LOAC Manual* (1999), pp. 4-2 and 4-3, §§ 17 and 18, see also p. 2-2, § 15, p. 6-3, § 29, p. 7-5, § 47 and p. 8-6, § 40.

¹³ Canada, *LOAC Manual* (1999), p. 16-3, § 16(b).

¹⁴ Canada, *Code of Conduct* (2001), Rule 2, § 1.

¹⁵ Colombia, *Instructors' Manual* (1999), p. 19, see also p. 20.

¹⁶ Croatia, *LOAC Compendium* (1991), p. 38.

22. Ecuador's Naval Manual states that, "loss of civilian life, injury to civilians or damage to civilian objects, incidental to an attack upon a legitimate military objective, are not illegal. Such injury or collateral damage must not, however, be excessive in light of the military advantage anticipated by the attack."¹⁷ The manual further specifies that "a weapon is not indiscriminate simply because it may cause incidental or collateral civilian casualties, provided such casualties are not foreseeably excessive in light of the expected military advantage to be gained".¹⁸

23. France's LOAC Teaching Note provides that the action of both commanders and combatants must be guided by respect for the fundamental principle of proportionality.¹⁹

24. France's LOAC Manual states that the principle of proportionality requires that no attack must be launched,

which may be expected to cause incidental loss of civilian lives, injuries to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated. The application of this principle raises the question of the balance between the means used and the desired military effect. The application of the principle of proportionality does not exclude that collateral damage may be suffered by the civilian population or civilian objects provided they are not excessive in relation to the concrete and direct military advantage anticipated.²⁰

25. Germany's Military Manual states that "attacks on military objects shall not cause any loss of civilian life that would be excessive in relation to the concrete and direct military advantage anticipated".²¹

26. According to Germany's IHL Manual, "attacks against the civilian population, including launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attacks will cause excessive loss of life, injury to civilians or damage to civilian objects" are war crimes.²²

27. Hungary's Military Manual considers a military action to be proportionate "when it does not cause collateral civilian casualties and excessive damage in relation to the expected military advantage of the operation".²³

28. Indonesia's Directive on Human Rights in Irian Jaya and Maluku states that "the use of force should be proportionate, meaning there should be a balance between military necessity and humanity. Force must only be used in accordance with the objectives of the task or the achievement of the target."²⁴

29. With reference to Israel's Law of War Booklet, the Report on the Practice of Israel states that "the IDF would not attack a target in cases in which it is

¹⁷ Ecuador, *Naval Manual* (1989), § 8.1.2.1. ¹⁸ Ecuador, *Naval Manual* (1989), § 9.1.2.

¹⁹ France, *LOAC Teaching Note* (2000), p. 2. ²⁰ France, *LOAC Manual* (2001), pp. 13–14.

²¹ Germany, *Military Manual* (1992), § 509. ²² Germany, *IHL Manual* (1996), § 404.

²³ Hungary, *Military Manual* (1992), p. 62.

²⁴ Indonesia, *Directive on Human Rights in Irian Jaya and Maluku* (1995), § 7(d) and (e).

expected that the attack would cause civilian loss, injury or damage excessive in relation to the military advantage anticipated".²⁵

30. Israel's Manual on the Laws of War states that:

Even when it is not possible to isolate the civilians from an assault and there is no other recourse but to attack, this does not constitute a green light to inflict unbridled harm on civilians. The commander is required to refrain from an attack that is expected to inflict harm on the civilian population that is disproportionate to the expected military gain.²⁶

31. Kenya's LOAC Manual states that one of the main principles which places constraints on the conduct of hostilities is "the principle of proportionality which calls for the avoidance of unnecessary suffering and damage and therefore prohibits all forms of violence not indispensable for the overpowering of the enemy".²⁷

32. Madagascar's Military Manual states that "the rule of proportionality must be respected so that civilian losses are not excessive in relation to the expected military advantage".²⁸

33. The Military Manual of the Netherlands states that:

During an attack on a military objective, the collateral damage (loss of civilian life and damage to civilian objects) may not be excessive in relation to the military advantage anticipated from the attack. In every combat action, therefore, the commander must assess whether the action is to take place in the proximity of civilians or civilian objects.²⁹

34. New Zealand's Military Manual states that "as a general rule, an attack is not to be carried out if it would result in collateral civilian casualties clearly disproportionate to the expected military advantage".³⁰ The manual considers that:

The principle of proportionality establishes a link between the concepts of military necessity and humanity. This means that the commander is not allowed to cause damage to non-combatants which is disproportionate to military need . . . It involves weighing the interests arising from the success of the operation on the one hand, against the possible harmful effects upon protected persons and objects on the other. That is, there must be an acceptable relation between the legitimate destructive effect and the undesirable collateral effects.³¹

The manual also states that "launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will

³⁰ New Zealand, *Military Manual* (1992), §§ 517(2) and 630(2).

³¹ New Zealand, *Military Manual* (1992), § 207.

cause excessive loss of life, injury to civilians or damage to civilian objects" constitutes a grave breach.³²

35. According to Nigeria's Military Manual,

Every commander has . . . to respect the rule of proportionality, i.e. the use of proportional military force so as to avoid causing incidental civilian casualties and damage which is excessive in relation to the value of the expected result of the whole operation.³³

36. Nigeria's Manual on the Laws of War states that "in any case of attack or bombardment of a defended locality, the killing and destruction must be proportionate to the military advantage sought".³⁴

37. The Joint Circular on Adherence to IHL and Human Rights of the Philippines states that "when the use of armed force is inevitable, strict controls must be exercised to insure that only reasonable force necessary for mission accomplishment shall be taken".³⁵

38. South Africa's LOAC Manual lists the principle of proportionality among the general principles of the LOAC. It states that "the loss of life and damage to property caused by military action must not be disproportionate to the military advantage to be gained".³⁶ The manual further emphasises that "the law of war does not prohibit effective military action. Its purpose is to prevent unnecessary suffering and damage which would afford no military advantage or which is disproportionate to the military advantage obtained."³⁷

39. Spain's LOAC Manual states that:

The principle of proportionality seeks to limit the damage caused by military operations. It is based on a recognition of the fact that it is difficult to limit the effects of modern means and methods of warfare exclusively to military objectives and that it is likely that they will cause collateral damage to civilians and civilian objects.³⁸

The manual specifies, however, that:

An attack is prohibited if, during the planning phase, the available information makes it foreseeable that the damage to the civilian population and/or to civilian objects which the attack will cause is excessive in relation to the military advantage anticipated from the attack as a whole.³⁹

The manual further states that "launching an indiscriminate attack affecting the civilian population or civilian objects which would be excessive in relation to the military advantage anticipated" constitutes a grave breach.⁴⁰

⁴⁰ Spain, *LOAC Manual* (1996), Vol. I, § 11.8.b.(1).

40. Sweden's IHL Manual considers that the principle of proportionality as contained in Article 51(5)(b) AP I reflects customary international law.⁴¹

41. Switzerland's Basic Military Manual states that "if the military advantage is not proportionate to the damage [suffered by the civilian population], [commanders] must cancel an attack".⁴² The manual further states that "an attack which is launched without making any distinction [between civilians and civilian objects on the one hand and military objectives on the other hand] and which may affect the civilian population or civilian objects in the knowledge that the attack will cause loss of human life, injuries to civilians and damage to civilian objects which would be excessive in the sense of Article 57(2)(a)(iii) [AP I]" constitutes a grave breach.⁴³

42. Togo's Military Manual requires respect for the principle of proportionality. According to the manual, "a military action is proportionate if it does not cause loss or damage to civilians which is excessive in relation to the expected overall result. This rule cannot justify unlimited destruction or attacks against civilians and civilian objects as such."⁴⁴ The manual also states that "the principle of proportionality requires that needless suffering and damage be avoided. Pursuant to this principle, all forms of violence which are not indispensable to gain superiority over an enemy are prohibited."⁴⁵

43. The UK Military Manual states that "in defended towns and localities modern methods of bombardment will inevitably destroy many buildings and sites which are not military objectives. Such destruction, if incidental to the bombardment of military objectives, is not unlawful."⁴⁶

44. The US Field Manual states, in the context of sieges and bombardments, that "loss of life and damage to property must not be out of proportion to the military advantage to be gained".⁴⁷

45. The US Air Force Pamphlet states that:

Complementing the principle of necessity and implicitly contained within it is the principle of humanity which forbids the infliction of suffering, injury or destruction not actually necessary for the accomplishment of legitimate military purposes. This principle of humanity results in a specific prohibition against unnecessary suffering, a requirement of proportionality and a variety of more specific rules examined later. The principle of humanity also confirms the basic immunity of civilian populations and civilians from being objects of attack during armed conflict. This immunity of the civilian population does not preclude unavoidable incidental civilian casualties which may occur during the course of attacks against military objectives, and which are not excessive in relation to the concrete and direct military advantage anticipated.⁴⁸

⁴⁸ US, *Air Force Pamphlet* (1976), § 1-3(a).

46. The US Air Force Commander's Handbook states that "a weapon is not unlawful simply because its use may cause incidental or collateral casualties to civilians, as long as those casualties are not foreseeably excessive in light of the expected military advantage".⁴⁹

47. The US Instructor's Guide states that:

In attacking a military target, the amount of suffering or destruction must be held to the minimum necessary to accomplish the mission. Any excessive destruction or suffering not required to accomplish the objective is illegal as a violation of the law of war.⁵⁰

48. The US Naval Handbook states that:

It is not unlawful to cause incidental injury to civilians or collateral damage to civilian objects, during an attack upon a legitimate military objective. Incidental injury or collateral damage must not, however, be excessive in light of the military advantage anticipated by the attack.⁵¹

The manual further specifies that "a weapon is not indiscriminate simply because it may cause incidental or collateral civilian casualties, provided such casualties are not foreseeably excessive in light of the expected military advantage to be gained".⁵²

National Legislation

49. Argentina's Draft Code of Military Justice punishes any soldier who carries out or orders the commission of "excessive" attacks.⁵³

50. Under Armenia's Penal Code, launching, during an armed conflict, an "indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause loss of life to civilians or damage to civilian objects excessive in relation to the concrete and direct military advantage anticipated" constitutes a crime against the peace and security of mankind.⁵⁴

51. Australia's Geneva Conventions Act as amended provides that "a person who, in Australia or elsewhere, commits a grave breach . . . of [AP I] is guilty of an indictable offence".⁵⁵

52. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including launching an attack which causes "excessive incidental death, injury or damage" in international armed conflicts.⁵⁶

⁴⁹ US, *Air Force Commander's Handbook* (1980), § 6-2(b).

⁵⁶ Australia, *ICC (Consequential Amendments) Act* (2002), Schedule 1, § 268.38.

53. The Criminal Code of Belarus provides that it is a war crime “to launch an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects”.⁵⁷

54. Belgium’s Law concerning the Repression of Grave Breaches of the Geneva Conventions and their Additional Protocols as amended provides that it is a crime under international law to launch:

an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause loss of human life, injury to civilians or damage to civilian objects which would be excessive in relation to the concrete and direct military advantage anticipated, without prejudice to the criminal nature of an attack whose harmful effects, even where proportionate to the military advantage anticipated, would be inconsistent with the principles of international law derived from established custom, from the principles of humanity and from the dictates of public conscience.⁵⁸

55. The Report on the Practice of Brazil considers that the provision in Brazil’s Military Penal Code which punishes the excessive execution of an order is relevant in the context of the principle of proportionality.⁵⁹

56. Under Burundi’s Draft Law on Genocide, Crimes against Humanity and War Crimes, “intentionally launching an attack in the knowledge that such attack will cause incidental loss of life or injury to civilians or damage to civilian objects . . . which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated” is a war crime in international armed conflicts.⁶⁰

57. Canada’s Geneva Conventions Act as amended provides that “every person who, whether within or outside Canada, commits a grave breach [of AP I] . . . is guilty of an indictable offence”.⁶¹

58. Canada’s Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are “crimes according to customary international law” and, as such, indictable offences under the Act.⁶²

59. Colombia’s Penal Code imposes a criminal sanction on “anyone who, during an armed conflict, carries out or orders the carrying out of . . . excessive attacks”.⁶³

⁵⁷ Belarus, *Criminal Code* (1999), Article 136(11).

⁵⁸ Belgium, *Law concerning the Repression of Grave Breaches of the Geneva Conventions and their Additional Protocols as amended* (1993), Article 1(3)(12).

⁶² Canada, *Crimes against Humanity and War Crimes Act* (2000), Section 4(1) and (4).

⁶³ Colombia, *Penal Code* (2000), Article 144, see also Article 154.

60. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes defined in Article 8 of the 1998 ICC Statute.⁶⁴

61. The Geneva Conventions and Additional Protocols Act of the Cook Islands punishes "any person who in the Cook Islands or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I]".⁶⁵

62. Cyprus's AP I Act punishes "any person who, whatever his nationality, commits in the Republic or outside the Republic any grave breach of the provisions of the Protocol, or takes part or assists or incites another person in the commission of such a breach".⁶⁶

63. The Draft Amendments to the Penal Code of El Salvador provide for a prison sentence for anyone who, in the context of an international or a non-international armed conflict, launches:

an indiscriminate attack affecting the civilian population, in the knowledge that such attack will cause death or injury among the civilian population or damage to civilian objects, which is excessive in relation to the concrete and direct military advantage anticipated.⁶⁷

64. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code is a crime, such as "intentionally launching an attack in the knowledge that such attack will cause incidental loss of life or injury to civilians or damage to civilian objects . . . which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated" in international armed conflicts.⁶⁸

65. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict, "carries out an attack by military means and definitely anticipates that the attack will cause death or injury to civilians or damage to civilian objects on a scale out of proportion to the concrete and direct overall military advantage anticipated".⁶⁹

66. Ireland's Geneva Conventions Act as amended provides that grave breaches of AP I are punishable offences.⁷⁰ It adds that any "minor breach" of AP I, including violations of Article 51(5)(b) AP I, is also a punishable offence.⁷¹

67. Under the Draft Amendments to the Code of Military Justice of Lebanon, "an indiscriminate attack against civilian populations or civilian objects in

⁶⁴ Congo, *Genocide, War Crimes and Crimes against Humanity Act* (1998), Article 4.

⁷⁰ Ireland, *Geneva Conventions Act as amended* (1962), Section 3(1).

⁷¹ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

the knowledge that such an attack will cause excessive loss of life, injury to civilians or damage to civilian objects” constitutes a war crime.⁷²

68. Under Mali’s Penal Code, the following constitutes a war crime in international armed conflicts:

intentionally launching an attack in the knowledge that such attack will cause incidental loss of life or injury to civilians or damage to civilian objects . . . which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated.⁷³

69. Under the International Crimes Act of the Netherlands, it is a crime, during an international armed conflict, to commit

the following acts, when they are committed intentionally and in violation of the relevant provisions of Additional Protocol (I) and cause death or serious injury to body or health: . . . launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects.⁷⁴

Likewise, “intentionally launching an attack in the knowledge that such an attack will cause incidental loss of life or injury to civilians or damage to civilian objects . . . which would be clearly excessive in relation to the concrete and direct overall military advantage anticipated” is also a crime, when committed in an international armed conflict.⁷⁵

70. New Zealand’s Geneva Conventions Act as amended provides that “any person who in New Zealand or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I] is guilty of an indictable offence”.⁷⁶

71. Under New Zealand’s International Crimes and ICC Act, war crimes include the crime defined in Article 8(2)(b)(iv) of the 1998 ICC Statute.⁷⁷

72. Nicaragua’s Draft Penal Code punishes anyone who, during an international or internal armed conflict,

launches an indiscriminate attack affecting the civilian population, in the knowledge that such attack will cause incidental loss of civilian life, injury to civilians or damage to civilian objects, which would be excessive in relation to the concrete and direct military advantage anticipated.⁷⁸

73. According to Niger’s Penal Code as amended, it is a war crime to launch against persons and objects protected under the 1949 Geneva Conventions or their Additional Protocols of 1977:

⁷² Lebanon, *Draft Amendments to the Code of Military Justice* (1997), Article 146(10).

⁷³ Mali, *Penal Code* (2001), Article 31(i)(4).

⁷⁴ Netherlands, *International Crimes Act* (2003), Article 5(2)(c)(ii).

⁷⁵ Netherlands, *International Crimes Act* (2003), Article 5(5)(b).

⁷⁶ New Zealand, *Geneva Conventions Act as amended* (1958), Section 3(1).

⁷⁷ New Zealand, *International Crimes and ICC Act* (2000), Section 11(2).

⁷⁸ Nicaragua, *Draft Penal Code* (1999), Article 450(1).

an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause loss of human life, injury to civilians or damage to civilian objects which would be excessive in relation to the concrete and direct military advantage anticipated, without prejudice to the criminal nature of an attack whose harmful effects, even where proportionate to the military advantage anticipated, would be inconsistent with the principles of international law derived from established custom, from the principles of humanity and from the dictates of public conscience.⁷⁹

74. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁸⁰

75. Spain's Penal Code punishes "anyone who, during an armed conflict, . . . carries out or orders an . . . excessive attack".⁸¹

76. Under Sweden's Penal Code, "initiating an indiscriminate attack knowing that such attack will cause exceptionally heavy losses or damage to civilians or to civilian property" constitutes a crime against international law.⁸²

77. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iv) of the 1998 ICC Statute.⁸³

78. The UK Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside the United Kingdom, commits, or aids, abets or procures the commission by any other person of, a grave breach of . . . [AP I]".⁸⁴

79. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iv) of the 1998 ICC Statute.⁸⁵

80. Zimbabwe's Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside Zimbabwe, commits any such grave breach of . . . [AP I]".⁸⁶

National Case-law

81. The Report on the Practice of Argentina states that in a case concerning armed operations against insurgents in 1985, "the National Court of Appeals referred to the principle of proportionality, which it considered to be a customary norm based on its repeated doctrinal approbation".⁸⁷

⁷⁹ Niger, *Penal Code as amended* (1961), Article 208.3(12).

⁸⁰ Norway, *Military Penal Code as amended* (1902), § 108(b).

⁸⁴ UK, *Geneva Conventions Act as amended* (1957), Section 1(1).

⁸⁵ UK, *ICC Act* (2001), Sections 50(1) and 51(1) (England and Wales) and Section 58(1) (Northern Ireland).

⁸⁶ Zimbabwe, *Geneva Conventions Act as amended* (1981), Section 3(1).

⁸⁷ Report on the Practice of Argentina, 1997, Chapter 1.5, referring to National Court of Appeals, *Military Junta Case*, Judgement, 9 December 1985.

Other National Practice

82. In a press release issued in 1991, an Australian Senator asserted that Article 51(5)(b) API would bar Australian ships from providing “naval gunfire support” (NGS) to an amphibian landing in Kuwait and from engaging batteries located in a heavily populated port. According to the Senator, it would prove very difficult for an Australian naval commander to determine whether a shore bombardment would or would not injure civilians or damage civilian property to an extent that would be excessive in relation to the direct military advantage.⁸⁸ In response to these statements, ACOPS recalled first that Australia was not yet legally bound by AP I and that even if it had been, such action would not be in breach of Article 51(5)(b). On the basis of the US and Australian Rules of Engagement and given the very high targeting standards shown by the US authorities, ACOPS deemed that both the Australian government and the warship commanders “can confidently expect that NGS targeting tasks and associated co-ordinates have been rigorously scrutinised to ensure a lawful balance between incidental civilian losses and the anticipated concrete and direct military advantage”. ACOPS also differed with the Senator’s opinion because even if, in retrospect, it should emerge that excessive civilian casualties resulted from such an operation, the Australian warship commanders would not incur personal responsibility for a grave breach of AP I since such a grave breach can only result “from a ‘wilful’ decision, i.e. deliberate disregard for consequences whilst having full knowledge”.⁸⁹

83. The Report on the Practice of Bosnia and Herzegovina states that “during the aggression against the Republic of Bosnia and Herzegovina the aggressor didn’t respect the principle of proportionality in attack, but systematically violated it during the whole time of the aggression” and provides a number of examples in this respect.⁹⁰

84. The Report on the Practice of Botswana recalls that Article 51(5)(b) AP I provides for the principle of proportionality, but it argues that its essence is not well defined because there are no clear criteria concerning the distinction between indiscriminate and disproportionate attacks.⁹¹

85. The Report on the Practice of Brazil states that the principle of proportionality binds Brazil, since Brazil has ratified the Geneva Conventions and its Additional Protocols, and according to the Constitution of Brazil, international treaties are automatically applicable once ratified and published in the official journal.⁹²

⁸⁸ Australia, Media Release by the Shadow Minister for Defence, Protocol One: A Problem for Naval Operations in the Gulf, 20 February 1991.

⁸⁹ Australia, Media Release by the Shadow Minister for Defence, Protocol One and RAN Gulf Operations, 25 February 1991.

⁹⁰ Report on the Practice of Bosnia and Herzegovina, 2000, Chapter 1.5.

⁹¹ Report on the Practice of Botswana, 1998, Chapter 1.5.

⁹² Report on the Practice of Brazil, 1997, Chapter 1.5.

86. The Report on the Practice of Cuba states that the principle of proportionality has been applied “in relation to armaments and the means of combat, taking into account the humanitarian principle enshrined in Cuban military doctrine”. The report cites the actions resulting from the Bay of Pigs invasion as an illustration of this point.⁹³

87. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt stated that the use of nuclear weapons cannot at all be legal because they “are expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated”.⁹⁴

88. The Report on the Practice of Egypt states that “Egypt is of the opinion that the principle of proportionality must be respected [at] all times and in any circumstance”.⁹⁵

89. At the CDDH, France voted against Article 46 of draft AP I (now Article 51) because it considered that:

The provisions of paragraphs 4, 5 and 7 were of a type which by their very complexity would seriously hamper the conduct of defensive military operations against an invader and prejudice the exercise of the inherent right of legitimate defence recognized in Article 51 of the Charter of the United Nations.⁹⁶

90. At the CDDH, the GDR stated that it considered that:

Protection of the civilian population could not be improved if the concept of proportionality was retained. To permit attacks against the civilian population and civilian objects if such attacks had military advantages was tantamount to making civilian protection dependent on subjective decisions taken by a single person, namely, the military commander.⁹⁷

91. In 1983, in reply to a question in parliament about the principle of proportionality in attack, the German government declared that the principle contained in Article 51(5) AP I required decisions on a case-by-case basis and that no abstract calculations were possible.⁹⁸

92. In 1996, the German government reminded the Turkish government to respect the principle of proportionality during hostilities in northern Iraq.⁹⁹

⁹³ Report on the Practice of Cuba, 1998, Chapter 1.5.

⁹⁴ Egypt, Written statement submitted to the ICJ, *Nuclear Weapons case*, 20 June 1995, § 18, see also § 35(B)(2) and (3).

⁹⁸ Germany, Reply by the government to a question in the Lower House of Parliament, *Kriegsvölkerrechtliche Grundsätze, BT-Drucksache 10/445*, 5 October 1983, pp. 11–12.

⁹⁹ Germany, Reply by the government to a question in the Lower House of Parliament, Lage der kurdischen Flüchtlinge im Nordirak, *BT-Drucksache 13/5451*, 27 August 1996, pp. 7–8.

93. At the CDDH, Hungary stated that:

The debate had shown that opinion in the [Third] Committee was divided on the principle of proportionality . . . [A] rule well established in international law should be reflected in practice and should produce the intended effects. Yet the number of civilians victims had increased alarmingly over the past few years: accordingly, either the rule was not well established and hence not binding; or it existed and could not be applied in armed conflicts; or it existed and was applied, but the results of its application provided the best argument against it. The [proposed] amendments . . . improved the ICRC text and maintained the rule of proportionality, but did not provide a satisfactory solution of the problem.¹⁰⁰

94. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, India stated that:

The relationship between military advantage and the collateral damage involved also determines the legality of use of a weapon or a method of warfare employed. If the collateral damage is excessive in relation to the military advantage, the attack is forbidden.¹⁰¹

95. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Iran stated that "some of the principles of humanitarian international law from which one can deduce the illegitimacy of the use of nuclear weapons are: . . . The existence of proportionality between military advantages gained and the used weapons and methods."¹⁰²

96. On the basis of a press conference and a statement by the President of Iraq, the Report on the Practice of Iraq considers that the armed forces must act with only the degree of force necessary to achieve the specific military objective. The aim is to give due regard to humanitarian requirements and to lessen civilian suffering.¹⁰³

97. Prior to the adoption of UN General Assembly Resolution 47/37 in 1992 on the protection of the environment in times of armed conflict, Jordan and the US submitted a memorandum to the Sixth Committee of the UN General Assembly entitled "International Law Providing Protection to the Environment in Times of Armed Conflict", which stated that "the customary rule that prohibits attacks which reasonably may be expected at the time to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete

¹⁰⁰ Hungary, Statement at the CDDH, *Official Records*, Vol. XIV, CDDH/III/SR.8, 19 March 1974, p. 68, § 80.

and direct military advantage anticipated, are prohibited" provides protection for the environment in times of armed conflict.¹⁰⁴

98. According to the Report on the Practice of South Korea, it is South Korea's *opinio juris* that the principle of proportionality in attack is a requirement of international law.¹⁰⁵

99. The Report on the Practice of Kuwait affirms that numerous statements by Kuwait highlight the importance of the principle of proportionality in attack.¹⁰⁶ The report specifies that there is an obvious violation of the principle of proportionality if no military advantage could be expected from the destruction of an object. This point was illustrated by the country's vigorous protests over violations of the principle of proportionality committed by the Iraqi armed forces in setting oil wells and other facilities on fire without any hope of gaining a military advantage. The report notes that it is the *opinio juris* of Kuwait that the principle of proportionality must be respected, and that objects whose destruction provide no military advantage should be spared.¹⁰⁷

100. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1995, Malaysia quoted with approval the US statement in the same case (see below).¹⁰⁸

101. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the Netherlands stated that "the general principles of international humanitarian law in armed conflict also apply to the use of nuclear weapons . . . in particular . . . the prohibition on attacking military targets if this would cause disproportionate harm to the civilian population".¹⁰⁹

102. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, New Zealand stated that:

Discrimination between combatants and those who are not directly involved in armed conflict is a fundamental principle of international humanitarian law. While it is prohibited to actually target civilians and civilian objects, there is no absolute protection from collateral damage. The application of the principle requires an assessment of whether the civilian casualties are out of proportion to the legitimate military advantage achieved and whether collateral damage is so widespread as to amount to an indiscriminate attack.¹¹⁰

¹¹⁰ New Zealand, Written statement submitted to the ICJ, *Nuclear Weapons case*, 20 June 1995, § 71.

103. According to the Report on the Practice of Nigeria, it is Nigeria's *opinio juris* that the rule of proportionality forms part of customary international law.¹¹¹ The report also notes that the principle of proportionality was violated by the Nigerian air force on numerous occasions during the civil war. Senior military officials and aircraft pilots were reported to have regretted such violations.¹¹²

104. The Report on the Practice of Pakistan affirms that the practice of Pakistan is consistent with the principle of proportionality.¹¹³

105. At the CDDH, Poland stated that:

The rule of proportionality as expressed in the ICRC text would give military commanders the practically unlimited right to decide to launch an attack if they considered that there would be a military advantage. Civilian suffering and military advantage were two values that could not conceivably be compared.¹¹⁴

106. At the CDDH, Romania stated that it had always opposed the "rule of proportionality" and considered that:

It amounted to legal acceptance of the fact that one part of the civilian population was to be deliberately sacrificed to real or assumed military advantages and it gave military commanders the power to weigh their military advantage against the probable losses among the civilian population during an attack against the enemy. Military leaders would tend to consider military advantage to be more important than the incidental loss. The principle of proportionality was therefore a subjective principle which could give rise to serious violations.¹¹⁵

107. The Report on the Practice of Russia considers the principle of proportionality the "weakest point of IHL" because

IHL itself does not clearly enough define the criteria of respecting the balance between the requirements of humanism and military necessity. This issue is not treated in any of the available documents. It remains the exclusive domain of commanders at the helm of military operations . . . Armed conflicts on the territory of the former USSR demonstrate that conflicting parties do not observe in their acts the limitations set forth in IHL. We are sorry to say that we do not know of any occurrence when a party to a conflict complained of the non-respect of the principle of proportionality by the parties. In all probability, this principle is in reality opposed by a practice based on the assumption that the aim to gain military superiority over the enemy can justify any means of warfare, which, in fact, often means the violation of the principle of proportionality. In this connection, we can point out that the large-scale military operations of the federal troops in Chechnya were at

the beginning contrary to the principle of proportionality. In the armed forces of the CIS countries there are neither provisions defining the terms of the respect of the principle of proportionality nor provisions envisaging prosecution of individuals who violate this principle.¹¹⁶

108. On 22 April 1995, between 200 and 300 people died in a camp for internally displaced persons in Kibeho in Rwanda. The Rwandan President stated that these deaths were the result of:

the same machetes of those who committed the genocide and the massacres. Others were killed during shootings in self-defence by the governmental armed forces and by MINUAR in response to attacks launched by the *Interahamwe* militia located in the camp of Kibeho.¹¹⁷

An international commission investigating the events of Kibeho considered that by using automatic guns and heavier weapons, such as grenades and rocket-launchers, against persons who carried guns and traditional weapons, such as machetes and stones, the Rwandan army had acted disproportionately.¹¹⁸ Since no official statement denied this alleged violation of the principle of proportionality in attack, the Report on the Practice of Rwanda concludes that Rwandan practice implicitly confirms the existence of such a norm.¹¹⁹

109. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the Solomon Islands stated that “the principles of proportionality and humanity are obviously violated” by the use of nuclear weapons.¹²⁰

110. On the basis of statements by the Spanish Minister of Foreign Affairs and Minister of Defence, the Report on the Practice of Spain states that “the Spanish government has, in general, advocated respect for the principle of proportionality during the conflict in Chechnya, the Turkish attacks on the Kurds in northern Iraq and the conflict in Bosnia and Herzegovina”.¹²¹

111. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Sweden stated that “in the case of an attack on a military target,

disproportionately substantial damage may not be inflicted on the civilian population or on civilian property".¹²²

112. At the CDDH, Syria stated that it "could not accept the theory of some kind of "proportionality" between military advantages and losses and destruction of the civilian population and civilian objects, or that the attacking force should pronounce on the matter".¹²³

113. On the basis of a statement by the Syrian Minister of Foreign Affairs before the UN General Assembly in 1997, the Report on the Practice of Syria concludes that Syria considers Article 51(5)(b) AP I to be a norm of customary international law.¹²⁴

114. At the CDDH, the UK stated that the principle of proportionality as defined in Article 51(5)(b) AP I was "a useful codification of a concept that was rapidly becoming accepted by all States as an important principle of international law relating to armed conflict".¹²⁵

115. In 1991, in reply to a question in the House of Lords concerning the Gulf War, the UK Parliamentary Under-Secretary of State for Defence stated that:

The Geneva Conventions contain no provisions expressly regulating targeting in armed conflict. The Hague Regulations of 1907 and customary international law do, however, incorporate the twin principles of distinction between military and civilian objects, and of proportionality so far as the risk of collateral civilian damage from an attack on a military objective is concerned. These principles and associated rules of international law were observed at all times by coalition forces in the planning and execution of attacks against Iraq.¹²⁶

116. In 1993, the UK government stated that:

The Rules of Engagement under which BRITFOR are operating in Bosnia allow them to return fire in self defence if the source can be identified; in doing so, they must attempt to minimise collateral damage and be mindful of the principle of proportionality.¹²⁷

117. In 1993, in reply to questions in the Foreign Affairs Committee of the House of Commons about the launching of "around 40 Cruise missiles by the Americans which resulted in the killing of innocent civilians in places like the Al Rashid Hotel", the UK Minister of Foreign Affairs stated that:

¹²² Sweden, Written statement submitted to the ICJ, *Nuclear Weapons case*, 20 June 1995, p. 3; see also Written statement submitted to the ICJ, *Nuclear Weapons (WHO) case*, 2 June 1994, p. 3.

¹²⁷ UK, House of Commons, Defence Committee, Sixth Special Report: Government Reply to the Fourth Report from the Defence Committee, Session 1992–1993, p. X.

I do not believe the action was disproportionate. You know what it was aimed against; it was aimed against a plant that the Iraqis had themselves admitted was producing material for their nuclear programme . . . It seemed to me a proportionate target. It looks and sounds as if . . . one of the Cruise missiles went astray and killed innocent civilians in the Al Rashid Hotel. That clearly is to be deplored but I do not think the action as a whole can be regarded as disproportionate.¹²⁸

118. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, the UK stated that:

The principle of proportionality requires that even a military objective should not be attacked if to do so would cause collateral civilian casualties or damage to civilian objects which would be excessive in relation to the concrete and direct military advantage anticipated from the attack.¹²⁹

119. In 1972, the General Counsel of the US Department of Defense stated that:

I would like to reiterate that it is recognized by all states that they may not lawfully use their weapons against civilian population[s] or civilians as such, but there is no rule of international law that restrains them from using weapons against enemy armed forces or military targets. The correct rule of international law which has applied in the past and continued to apply to the conduct of our military operations in Southeast Asia is that "the loss of life and damage to property must not be out of proportion to the military advantage to be gained". A review of the operating authorities and rules of engagements for all of our forces in Southeast Asia, in air as well as ground and sea operations, by my office reveals that not only are such operations in conformity with this basic rule, but that in addition, extensive constraints are imposed to avoid if at all possible the infliction of casualties on noncombatants and the destruction of property other than that related to the military operations in carrying out military objectives.¹³⁰

120. In 1974, at the Lucerne Conference of Government Experts on Weapons which may Cause Unnecessary Suffering or have Indiscriminate Effects, the head of the US delegation stated that:

The law of war also prohibits attacks which, though directed at lawful military targets, entail a high risk of incidental civilian casualties or damage to civilian objects which is disproportionate to the military advantage sought to be secured by the attack.¹³¹

¹³¹ US, Statement of 25 September 1974 at the Conference of Government Experts on Weapons which may Cause Unnecessary Suffering or have Indiscriminate Effects, Lucerne, 24 September–18 October 1974, reprinted in Arthur W. Rovine, *Digest of United States Practice in International Law, 1974*, Department of State Publication 8809, Washington, D.C., 1975, p. 713.

121. In 1987, the Deputy Legal Adviser of the US Department of State stated that “we support the principle . . . that attacks not be carried out that would clearly result in collateral civilian casualties disproportionate to the expected military advantage”.¹³²

122. In 1991, in reaction to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that:

The concept of “incidental loss of life excessive in relation to the military advantage anticipated” generally is measured against an overall campaign. While it is difficult to weigh the possibility of collateral civilian casualties on a target-by-target basis, minimization of collateral civilian casualties is a continuing responsibility at all levels of the targeting process. Combat is a give-and-take between attacker and defender, and collateral civilian casualties are likely to occur notwithstanding the best efforts of either party. What is prohibited is wanton disregard for possible collateral civilian casualties.¹³³

123. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

While the prohibition contained in Article 23(g) [HR] generally refers to intentional destruction or injury, it also precludes collateral damage of civilian objects or injury to noncombatant civilians that is clearly disproportionate to the military advantage gained in the attack of military objectives, as discussed below. As previously indicated, Hague IV was found to be customary international law in the course of war crimes trials following World War II, and continues to be so regarded.

An uncodified but similar provision is the principle of proportionality. It prohibits military action in which the negative effects (such as collateral civilian casualties) clearly outweigh the military gain. This balancing may be done on a target-by-target basis, as frequently was the case during Operation Desert Storm, but also may be weighed in overall terms against campaign objectives. CENTCOM [Central Command] conducted its campaign with a focus on minimizing collateral civilian casualties and damage to civilian objects. Some targets were specifically avoided because the value of destruction of each target was outweighed by the potential risk to nearby civilians or, as in the case of certain archaeological and religious sites, to civilian objects.¹³⁴

124. In 1992, a legal review by the US Department of the Air Force of the legality of extended range anti-armour munition stated that, while legal as such, this munition “should, however, only be used in concentrations of civilians if the military necessity for such use is great, and the expected collateral

¹³² US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 426.

civilian casualties would not be excessive in relation to the expected military advantage".¹³⁵

125. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that cultural property, civilian objects, and natural resources are protected from:

collateral damage that is clearly disproportionate to the military advantage to be gained in the attack of military objectives. The law of war acknowledges the unfortunate inevitability of collateral damage when military objectives and civilian objects (including cultural property and natural resources) are commingled.¹³⁶

126. In its written statement submitted to the ICJ in the *Nuclear Weapons (WHO) case* in 1994, the US stated that:

It is unlawful to carry out any attack that may reasonably be expected to cause collateral damage or injury to civilians or civilian objects that would be excessive in relation to the military advantage anticipated from the attack. Whether an attack with nuclear weapons would be disproportionate depends entirely on the circumstances, including the importance of destroying the objective, the character, size and likely effects of the device, and the magnitude of the risk to civilians.¹³⁷

127. The Report on US Practice states that "United States practice recognizes the principle of proportionality as part of the customary law of non-nuclear war".¹³⁸

128. According to the Report on the Practice of the SFRY (FRY), no doubt can be raised about the existence of an *opinio juris* in favour of the principle of proportionality. The report alleges that serious violations of the principle of proportionality did occur during the conflict in Croatia, for example, during hostilities in Vukovar and Dubrovnik where artillery was massively used, and notes that the press regularly covered this issue in 1991.¹³⁹

129. In its oral pleadings before the ICJ in the *Nuclear Weapons case* in 1995, Zimbabwe fully shared the analysis by other states that "the threat or use of nuclear weapons violates the principles of humanitarian law prohibiting the use of weapons or methods of warfare that . . . are disproportionate".¹⁴⁰

130. The Report on the Practice of Zimbabwe considers that the principle of proportionality is a norm of customary international law but states that its application is difficult to gauge under war conditions.¹⁴¹

III. Practice of International Organisations and Conferences

United Nations

131. In a resolution on Cyprus adopted in 1996, the UN Security Council deplored:

the violent incidents of 11 and 14 August, 8 September and 15 October 1996 [in Cyprus], which resulted in the tragic deaths of three Greek Cypriot civilians and one member of the Turkish Cypriot Security Forces, as well as injuries to civilians and UNFICYP personnel, in particular the unnecessary and disproportionate use of force by the Turkish/Turkish Cypriot side.¹⁴²

132. In a resolution adopted in 1998, the UN Security Council condemned “the use of excessive force by Serbian police forces against civilians and peaceful demonstrators in Kosovo”.¹⁴³ Later that year, in another resolution in the same context, the Security Council expressed its grave concern at “the excessive and indiscriminate use of force by Serbian security forces and the Yugoslav Army which have resulted in numerous civilian casualties”.¹⁴⁴

133. In a resolution adopted in 2000 on events in Jerusalem and other areas throughout the territories occupied by Israel, the UN Security Council condemned “acts of violence, especially the excessive use of force against Palestinians, resulting in injury and loss of human life”.¹⁴⁵

134. In a resolution adopted in 2000, the UN Commission on Human Rights expressed its grave concern about “reports indicating disproportionate and indiscriminate use of Russian military force” in Chechnya and underlined “the need to respect the principle of proportionality”.¹⁴⁶

135. In 1994, in its final report on grave breaches of the Geneva Conventions and other violations of IHL committed in the former Yugoslavia, the UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992), stated that:

There have been incidents in the past where substantial civilian casualties have been caused and substantial military advantage gained by a particular military action. In those cases, one might attempt to quantify both military advantage and civilian losses and apply the somewhat subjective rule of proportionality. As a general statement, however, the rule of proportionality is not relevant to the sniping activities of the Bosnia Serb Army forces, and it is of questionable relevance to

¹⁴⁶ UN Commission on Human Rights, Res. 2000/58, 25 April 2000, preamble.

many of the artillery bombardments. The Bosnian Serb Army forces are deliberately targeting the civilian population of Sarajevo, either as a measure of retaliation or to weaken their political resolve. Attacking the civilian population is a war crime.¹⁴⁷

Other International Organisations

136. In a resolution adopted in 1995 concerning Russia's request for membership in the light of the situation in Chechnya, the Parliamentary Assembly of the Council of Europe unreservedly condemned "the indiscriminate and disproportionate use of force by the Russian military, in particular against the civilian population".¹⁴⁸

137. In a declaration adopted in 1991, the EC Ministers of Foreign Affairs expressed alarm at "reports that the Yugoslav National Army (JNA), having resorted to a disproportionate and indiscriminate use of force, has shown itself to be no longer a neutral and disciplined institution".¹⁴⁹

International Conferences

138. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

139. In its advisory opinion in the *Nuclear Weapons case* in 1996, the ICJ held that:

States must take environmental considerations into account when assessing what is necessary and proportionate in the pursuit of legitimate military objectives. Respect for the environment is one of the elements that go to assessing whether an action is in conformity with the principles of necessity and proportionality.¹⁵⁰

The Court did not elaborate further on the general principle of proportionality in the conduct of hostilities but rather focused on the application of this principle in the context of the use of force in the framework of the right of self-defence as defined in Article 51 of the UN Charter.¹⁵¹

140. In her dissenting opinion in the *Nuclear Weapons case* before the ICJ in 1996, Judge Higgins stated that "even a legitimate military target may not be attacked if the collateral civilian casualties would be disproportionate to the specific military gain from the attack".¹⁵²

141. In its review of the indictment in the *Martić case* in 1996, the ICTY Trial Chamber referred, among the relevant norms of customary law, to Article

¹⁴⁷ UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992), Final report, UN Doc. S/1994/674, 27 May 1994, Annex, § 207.

¹⁴⁹ EC, Declaration on Yugoslavia, Haarzuilens, 6 October 1991, annexed to Letter dated 7 October 1991 from the Netherlands to the UN Secretary-General, UN Doc. A/46/533, 7 October 1991.

¹⁵⁰ ICJ, *Nuclear Weapons case*, Advisory Opinion, 8 July 1996, § 30.

¹⁵¹ ICJ, *Nuclear Weapons case*, Advisory Opinion, 8 July 1996, § 41.

¹⁵² ICJ, *Nuclear Weapons case*, Dissenting Opinion of Judge Higgins, 8 July 1996, § 20.

51(5)(b) AP I and held that, even when directed against a legitimate military target, "attacks must not cause damage and harm to the civilian population disproportionate in relation to the concrete and direct military advantage anticipated".¹⁵³

142. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that the principle of proportionality required that "any incidental (and unintentional) damage to civilians must not be out of proportion to the direct military advantage gained by the military attack".¹⁵⁴

143. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that "civilians present within or near military objectives must... be taken into account in the proportionality equation".¹⁵⁵ The Committee suggested that:

The determination of relative values [of military advantage and injury to non-combatants] must be that of the "reasonable military commander". Although there will be room for argument in close cases, there will be many cases where reasonable military commanders will agree that the injury to non-combatants or the damage to civilian objects was clearly disproportionate to the military advantage gained.¹⁵⁶

According to the Committee, "attacks which cause disproportionate civilian casualties or civilian property damage may constitute the *actus reus* for the offence of unlawful attack [as a violation of the laws and customs of war]. The *mens rea* for the offence is intention or recklessness, not simple negligence."¹⁵⁷

144. In a report on Colombia in 1999, the IACiHR noted that the legitimacy of a military target did not provide unlimited license to attack it. According to the report, the rule of proportionality prohibited "an attack which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated".¹⁵⁸ The Commission added that the principle of proportionality required that foreseeable injury to civilians and damage to civilian objects should not be disproportionate or excessive to the anticipated concrete and direct military advantage.¹⁵⁹

V. *Practice of the International Red Cross and Red Crescent Movement*

145. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

The rule of proportionality shall be respected. An action is proportionate when it does not cause incidental civilian casualties and damage which is excessive in relation to the value of the expected result of the whole military operation. The rule of proportionality cannot be used to justify unlimited destruction or attacks on civilian persons and objects as such.¹⁶⁰

ICRC delegates teach, furthermore, that an “indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive civilian casualties and damage” constitutes a grave breach of the law of war.¹⁶¹

146. In an appeal launched in 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 46(3)(b) of draft AP I which stated that “it is forbidden to launch attacks which may be expected to entail incidental losses among the civilian population and cause the destruction of civilian objects to an extent disproportionate to the direct and substantial military advantage anticipated”. All governments concerned replied favourably.¹⁶²

147. At the CDDH, the ICRC stated that Article 51(5)(b) did not contain an exception to the prohibition of attacks against civilians, “but, as the word ‘incidental’ showed, was intended to cover a different situation”.¹⁶³ It further stated that:

Since the First World War there had been many vain attempts at codifying the immunity of the civilian population. The 1922/23 project would have required combatants to abstain from bombing when it might affect the civilian population, but a good text was useless if it went unsigned, unratified and unimplemented. The Red Cross was conscious of the fact that the rule of proportionality contained a subjective element, and was thus liable to abuse. The aim was, however, to avoid or in any case restrict the incidental effects of attacks directed against military objectives.¹⁶⁴

148. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context

¹⁶³ ICRC, Statement at the CDDH, *Official Records*, Vol. XIV, CDDH/III/SR.5, 14 March 1974, p. 37, § 11.

¹⁶⁴ ICRC, Statement at the CDDH, *Official Records*, Vol. XIV, CDDH/III/SR.5, 14 March 1974, p. 37, § 12.

of the Gulf War, the ICRC stated that “the following general rules are recognized as binding on any party to an armed conflict: . . . attacks that would cause incidental loss of life or damage which would be excessive in relation to the direct military advantage anticipated are prohibited”.¹⁶⁵

149. In a report on a mission in 1991, the ICRC described attacks launched in a district as disproportionate, the targets being mostly public buildings where numerous civilians could have been located.¹⁶⁶

150. In a communication to the press in 1993, the ICRC enjoined the parties to the conflict in Somalia “not to launch military operations that may cause incidental civilian casualties or damage to civilian objects disproportionate to the direct military advantage anticipated”.¹⁶⁷

151. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that “all attacks . . . which may be expected to cause incidental loss of civilian life, injury to civilians or damage to civilian objects which would be excessive in relation to the concrete and direct military advantage anticipated are prohibited”.¹⁶⁸

152. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that “attacks . . . which may be expected to cause incidental losses of human life among the civilian population or damage to civilian objects which would be excessive in relation to the concrete and direct military advantage anticipated are prohibited”.¹⁶⁹

153. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC proposed that the following war crime be subject to the jurisdiction of the Court:

launching an indiscriminate attack affecting the civilian population or civilian objects in the knowledge that such attack will cause excessive loss of life, injury to civilians or damage to civilian objects, which is excessive in relation to the concrete and direct military advantage anticipated.¹⁷⁰

VI. *Other Practice*

154. According to Oppenheim, civilians “do not enjoy absolute immunity”. He adds that:

¹⁶⁵ ICRC, Memorandum on the Applicability of International Humanitarian Law, Geneva, 14 December 1990, § II, *IRRC*, No. 280, 1991, pp. 24–25.

¹⁶⁸ ICRC, Memorandum on Respect for International Humanitarian Law in Angola, 8 June 1994, § II, *IRRC*, No. 320, 1997, p. 504.

¹⁶⁹ ICRC, Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise, 23 June 1994, § II, reprinted in Marco Sassòli and Antoine A. Bouvier, *How Does Law Protect in War?*, ICRC, Geneva, 1999, p. 1308.

¹⁷⁰ ICRC, Working paper on war crimes submitted to the Preparatory Committee for the Establishment of an International Criminal Court, New York, 14 February 1997, § 1(b)(ii).

Their presence will not render military objectives immune from attack for the mere reason that it is impossible to bombard them without causing injury to the non-combatants. But . . . it is of the essence that a just balance be maintained between the military advantage and the injury to non-combatants. The restrictions imposed by customary International Law upon the sinking of merchant-vessels are one of the many examples of the principle that noxious, though otherwise lawful, action must be desisted from when its object cannot be obtained without causing disproportionate injury to legally recognised rights.¹⁷¹

155. In their commentary on the 1977 Additional Protocols, Bothe, Partsch and Solf state that:

The same argument [that the prohibition of indiscriminate is inferentially included in Article 13 AP II within the prohibition against making the civilian population the object of attack and that the deletion of this prohibition may be said to be part of the simplification of the text] cannot be made with respect to attacks which may be expected to cause disproportionate civilian losses; Committee III [of the CDDH] had rejected that provision before the simplification process had been manifested. Nevertheless, . . . the principle of proportionality is inherent in the principle of humanity which was explicitly made applicable to Protocol II under the fourth clause of the Preamble. Thus, the principle of proportionality cannot be ignored in applying Protocol II.¹⁷²

156. In 1986, in a report on the use of landmines in the conflicts in El Salvador and Nicaragua, Americas Watch stated that:

The principle of humanity, which both complements and inherently limits the doctrine of military necessity, is defined in the U.S. Air Force's *Pamphlet on the Conduct of Armed Conflict and Air Operations* as resulting "...in a specific prohibition against unnecessary suffering and a requirement of proportionality..." "...These customary principles of the laws of war constitute legal obligation[s] for the warring parties to the internal armed conflicts in El Salvador and Nicaragua."¹⁷³

157. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that "another fundamental principle of customary humanitarian law is the principle of humanity, which both complements and inherently limits the doctrine of military necessity". The report cited the US Air Force Pamphlet with approval where the latter provides that "this principle of humanity results in a specific prohibition of unnecessary suffering and a requirement of proportionality".¹⁷⁴

¹⁷¹ Lassa Oppenheim, *International Law. A Treatise*, Vol. II, Disputes, War and Neutrality, Sixth edition, revised, Hersch Lauterpacht (ed.), Longmans, Green and Co., London/New York/Toronto, 1944, p. 415, § 214ea.

158. The Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights of Åbo Akademi University in Turku/Åbo, Finland in 1990 states that “whenever the use of force is unavoidable, it shall be in proportion to the seriousness of the offence or the objective to be achieved”.¹⁷⁵

159. In 1994, in the context of the conflict in Yemen, Human Rights Watch urged the government of Yemen:

to play closest attention to the requirements of the rules of war, in particular . . . to the rule of proportionality. Under that rule, even attacks on legitimate military targets such as enemy forces or tanks may be prohibited if such attacks would cause loss of civilian life, injury to civilians, or damage to civilian objects that would be excessive in relation to the concrete and direct military advantage anticipated . . . We note that the rules of war apply equally to government and rebel troops.¹⁷⁶

160. In a report on the NATO bombings in the FRY issued in 2000, Amnesty International stated that:

In other words, NATO deliberately attacked a civilian object [the Serbian state radio and television headquarters], killing 16 civilians, for the purpose of disrupting Serbian television broadcasts in the middle of the night for approximately three hours. It is hard to see how this can be consistent with the rule of proportionality.¹⁷⁷

Determination of the anticipated military advantage

I. Treaties and Other Instruments

Treaties

161. Upon ratification of AP I, Australia and New Zealand stated that references to the “military advantage” were intended to mean “the advantage anticipated from the attack considered as a whole and not only from isolated or particular parts of that attack” and maintained that the term “military advantage” involved a number of considerations, including the security of the attacking forces. They also stated that the expression “concrete and direct military advantage anticipated” meant “a *bona fide* expectation that the attack will make a relevant and proportional contribution to the objective of the military attack involved”.¹⁷⁸

162. Upon ratification of AP I, Belgium, Canada, France, Germany, Italy, Netherlands, Spain and UK stated that the term “military advantage” as used

¹⁷⁵ Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights, Åbo Akademi University, Turku/Åbo, 30 November–2 December 1990, Article 5(2), *IRRC*, No. 282, 1991, p. 332.

¹⁷⁶ Human Rights Watch, Letter to the Government of Yemen, New York, 19 May 1994.

¹⁷⁷ Amnesty International, *NATO/Federal Republic of Yugoslavia: “Collateral Damage” or Unlawful Killings? Violations of the Laws of War by NATO during Operation Allied Force*, AI Index EUR 70/18/00, London, June 2000, p. 45.

¹⁷⁸ Australia, Declarations made upon ratification of AP I, 21 June 1991, § 4; New Zealand, Declarations made upon ratification of AP I, 8 February 1988, § 3.

in the proportionality test of Articles 51 and 57 AP I was understood to refer to the advantage anticipated from the attack considered as a whole and not only from isolated or particular parts of the attack.¹⁷⁹

163. Article 8(2)(b)(iv) of the 1998 ICC Statute provides that incidental loss of civilian life or injury to civilians must not be clearly excessive “in relation to the concrete and direct *overall* military advantage anticipated”. (emphasis added)

164. Upon signature of the 1998 ICC Statute, Egypt declared that:

The term “the concrete and direct overall military advantage anticipated” used in article 8, paragraph 2 (b) (iv), must be interpreted in the light of the relevant provisions of [AP I]. The term must also be interpreted as referring to the advantage anticipated by the perpetrator at the time when the crime was committed. No justification may be adduced for the nature of any crime which may cause incidental damage in violation of the law applicable in armed conflicts. The overall military advantage must not be used as a basis on which to justify the ultimate goal of the war or any other strategic goals. The advantage anticipated must be proportionate to the damage inflicted.¹⁸⁰

165. Upon ratification of the 1998 ICC Statute, France declared that “the term ‘military advantage’ in article 8, paragraph 2 (b) (iv), refers to the advantage anticipated from the attack as a whole and not from isolated or specific elements thereof”.¹⁸¹

Other Instruments

166. An explanatory footnote in the 2000 ICC Elements of Crimes (footnote 36) states that:

The expression “concrete and direct overall military advantage” refers to a military advantage that is foreseeable by the perpetrator at the relevant time. Such advantage may or may not be temporally or geographically related to the object of the attack. The fact that this crime admits the possibility of lawful incidental injury and collateral damage does not in any way justify any violation of the law applicable in armed conflict. It does not address justifications for war or other rules related to *jus ad bellum*. It reflects the proportionality requirement inherent in determining the legality of any military activity undertaken in the context of an armed conflict.

II. National Practice

Military Manuals

167. Australia's Defence Force Manual refers to the declaration made by Australia upon ratification of API to the effect that references to military advantage in Articles 51(5)(b) and 57 AP I mean "the advantage anticipated from the attack as a whole and not only from isolated or particular parts of the attack" and that "military advantage involves a number of considerations, including the security of the attacking forces".¹⁸²

168. Belgium's Law of War Manual states that, when deciding whether or not to launch an attack, "the commander must consider the advantage of the attack as a whole (and not the advantages of specific or separate parts of the attack)".¹⁸³

169. Canada's LOAC Manual states that:

The military advantage at the time of the attack is that advantage anticipated from the military campaign or operation of which the attack is part, considered as a whole, and not only from isolated or particular parts of that campaign or operation. A concrete and direct military advantage exists if the commander has an honest and reasonable expectation that the attack will make a relevant contribution to the success of the overall operation. Military advantage may include a variety of considerations including the security of the attacking forces.¹⁸⁴

170. Germany's Military Manual states that "the term 'military advantage' refers to the advantage which can be expected of an attack as a whole and not only of isolated or specific parts of the attack".¹⁸⁵

171. New Zealand's Military Manual states that:

In deciding whether the principle of proportionality is being respected, the standard of measurement is the contribution to the military purpose of an attack or operation considered as a whole, as compared with other consequences of the action, such as the effect upon civilians or civilian objects.¹⁸⁶

172. According to Nigeria's Military Manual, the principle of proportionality requires that "incidental civilian casualties and damage which is excessive in relation to the value of the expected result of the *whole* operation" must be avoided.¹⁸⁷ (emphasis added)

173. Spain's LOAC Manual states that "an attack is prohibited if . . . the damage to the civilian population and/or to civilian objects which the attack will cause is excessive in relation to the military advantage anticipated from the attack *as a whole*".¹⁸⁸ (emphasis added)

174. The US Naval Handbook states that the term military advantage "refers to the advantage anticipated from the military operation of which the attack

¹⁹⁵ UK, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.41, 26 May 1977, p. 164, § 120.

183. At the CDDH, the US stated that in its view the expression “military advantage anticipated” was intended to refer to “the advantage anticipated from the attack considered as a whole and not only from isolated or particular parts of the attack”.¹⁹⁶

184. In 1991, in reaction to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army pointed out that:

The concept of “incidental loss of life excessive in relation to the military advantage anticipated” generally is measured against an overall campaign. While it is difficult to weigh the possibility of collateral civilian casualties on a target-by-target basis, minimization of collateral civilian casualties is a continuing responsibility at all levels of the targeting process.¹⁹⁷

185. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that the balancing of collateral damage against military gain “may be done on a target-by-target basis, as frequently was the case during Operation Desert Storm, but also may be weighed in overall terms against campaign objectives”.¹⁹⁸

186. The Report on US Practice states that:

United States practice recognizes the principle of proportionality as part of the customary law of non-nuclear war. In applying this principle, it is necessary to consider military advantage not only on an immediate or target-by-target basis, but also in light of the military objectives of an entire campaign or operation.¹⁹⁹

190. In 1999, in a paper relating to the crimes listed in Article 8(2)(b) of the 1998 ICC Statute, and submitted to the Working Group on Elements of Crimes of the Preparatory Commission for the ICC, the ICRC reiterated its position that:

The addition of the words “clearly” and “overall” in the definition of collateral damage [in Article 8(2)(b)(iv) of the 1998 ICC Statute] is not reflected in any existing legal source. Therefore, the addition must be understood as not changing existing law.²⁰¹

191. At the Rome Conference on the Establishment of an International Criminal Court in 1998, the ICRC stated that:

The addition of the words “clearly” and “overall” in [the] provision relating to proportionality in attacks must be understood as not changing existing law. The word “overall” could give the impression that an extra unspecified element has been added to a formulation that was carefully negotiated during the 1974–1977 Diplomatic Conference that led to [AP I] and this formulation is generally recognized as reflecting customary law. The intention of this additional word appears to be to indicate that a particular target can have an important military advantage that can be felt over a lengthy period of time and affect military action in areas other than the vicinity of the target itself. As this meaning is included in the existing wording of AP I, the inclusion of the word “overall” is redundant.²⁰²

VI. Other Practice

192. No practice was found.

Information required for judging proportionality in attack

I. Treaties and Other Instruments

Treaties

193. Upon accession to AP I, Algeria stated that “to judge any decision, the circumstances, the means and the information available at the time the decision was made are determinant factors and elements in assessing the nature of the said decision”.²⁰³

194. Upon ratification of AP I, Australia stated that:

In relation to Articles 51 to 58 inclusive it is the understanding of Australia that military commanders and others responsible for planning, deciding upon, or executing attacks, necessarily have to reach their decisions on the basis of their assessment of the information from all sources, which is available to them at the relevant time.²⁰⁴

²⁰¹ ICRC, Paper relating to the crimes listed in article 8, paragraph 2 (b) (i), (ii), (iii), (iv), (v), (vi), (ix), (xi) and (xii) of the Statute of the ICC, annexed to UN Doc. PCNICC/1999/WGEC/INF.2/Add.1, 30 July 1999, p. 29.

²⁰² ICRC, Statement at the UN Diplomatic Conference of Plenipotentiaries on the Establishment of an International Criminal Court, 8 July 1998, UN Doc. A/CONF.183/INF/10, 13 July 1998, p. 1, § 2.

²⁰³ Algeria, Interpretative declarations made upon accession to AP I, 16 August 1989, § 2.

²⁰⁴ Australia, Declarations made upon ratification of AP I, 21 June 1991, § 3.

195. Upon ratification of AP I, Austria stated that “Article 57, paragraph 2, of Protocol I will be applied on the understanding that, with respect to any decision taken by a military commander, the information actually available at the time of the decision is determinative”.²⁰⁵ It further stated that:

For the purposes of judging any decision taken by a military commander, Articles 85 and 86 of Protocol I will be applied on the understanding that military imperatives, the reasonable possibility of recognizing them and the information actually available at the time that decision was taken, are determinative.²⁰⁶

196. Upon ratification of AP I, Belgium stated that:

With respect to Part IV, Section I, of the Protocol, the Belgian Government wishes to emphasize that, whenever a military commander is required to take a decision affecting the protection of civilians or civilian objects or objects assimilated therewith, the only information on which that decision can possibly be taken is such relevant information as is then available and that it has been feasible from him to obtain for that purpose.²⁰⁷

197. Upon ratification of AP I, Canada stated that:

It is the understanding of the Government of Canada that, in relation to Articles 48, 51 to 60 inclusive, 62 and 67, military commanders and others responsible for planning, deciding upon or executing attacks have to reach decisions on the basis of their assessment of the information reasonably available to them at the relevant time and that such decisions cannot be judged on the basis of information which has subsequently come to light.²⁰⁸

198. Upon ratification of AP I, Egypt stated that “military commanders planning or executing attacks make their decisions on the basis of their assessment of all kinds of information available to them at the time of the military operations”.²⁰⁹

199. Upon ratification of AP I, Germany stated that:

It is the understanding of the Federal Republic of Germany that in the application of the provisions of Part IV, Section I, of Additional Protocol I, to military commanders and others responsible for planning, deciding upon or executing attacks, the decision taken by the person responsible has to be judged on the basis of all information available to him at the relevant time, and not on the basis of hindsight.²¹⁰

200. Upon ratification of AP I, Ireland stated that:

In relation to Article 51 to 58 inclusive, it is the understanding of Ireland that military commanders and others responsible for planning, deciding upon, or executing

attacks necessarily have to reach decisions on the basis of their assessment of the information from all sources which is reasonably available to them at the relevant time.²¹¹

201. Upon ratification of AP I, Italy declared that:

In relation to Articles 51 to 58 inclusive, the Italian Government understands that military commanders and others responsible for planning, deciding upon or executing attacks necessarily have to reach decisions on the basis of their assessment of the information from all sources which is available to them at the relevant time.²¹²

202. Upon ratification of API, the Netherlands declared with regard to Articles 51 to 58 AP I inclusive that:

It is the understanding of the Government of the Kingdom of the Netherlands that military commanders and others responsible for planning, deciding upon or executing attacks necessarily have to reach decisions on the basis of their assessment of the information from all sources which is available to them at the relevant time.²¹³

203. Upon ratification of AP I, New Zealand stated that:

In relation to Article 51 to 58 inclusive, it the understanding of the Government of New Zealand that military commanders and others responsible for planning, deciding upon, or executing attacks necessarily have to reach decisions on the basis of their assessment of the information from all sources which is reasonably available to them at the relevant time.²¹⁴

204. Upon ratification of AP I, Spain declared with regard to Articles 51 to 58 AP I inclusive that:

It is the understanding [of the Spanish government] that the decision made by military commanders, or others with the legal capacity to plan or execute attacks which may have repercussions on civilians or civilian objects or similar objects, shall not necessarily be based on anything more than the relevant information available at the relevant time and which it has been possible to obtain to that effect.²¹⁵

205. Upon signing AP I, the UK stated that "military commanders and others responsible for planning, deciding upon or executing attacks necessarily have to reach decisions on the basis of their assessment of the information from all sources which is available to them at the relevant time".²¹⁶ It repeated this statement upon ratification of AP I.²¹⁷

II. National Practice

Military Manuals

207. Australia's Defence Force Manual refers to the declaration made by Australia upon ratification of AP I to the effect that "ADF commanders will, by necessity, have to reach decisions on the basis of their assessment of the information available to them at the relevant time".²¹⁸

208. Belgium's Law of War Manual states that:

It will not always be easy for a commander to evaluate this situation [whether an attack will be disproportionate] with precision. On the one hand, he must take into account the elements *which are available to him*, related to the military necessity necessary to justify an attack, and on the other hand, he must take into account the elements *which are available to him*, related to the possible loss of human life and damage to civilian objects.²¹⁹ [emphasis in original]

209. Canada's LOAC Manual notes that decisions must be based on an honest and reasonable expectation made by the responsible commanders "that the attack will make a relevant contribution to the success of the overall operation", based on the information reasonably available to them at the relevant time, and taking fully into account the urgent and difficult circumstances under which such decisions must usually be made.²²⁰

210. Ecuador's Naval Manual states that "the commander must determine whether incidental injuries and collateral damage would be excessive, on the basis of an objective and reasonable estimate of the available information".²²¹

211. The US Naval Handbook states that "the commander must determine whether incidental injuries and collateral damage would be excessive, on the basis of an honest and reasonable estimate of the facts available to him".²²²

PRECAUTIONS IN ATTACK

A. General (practice relating to Rule 15)	§§ 1–206
Constant care to spare the civilian population, civilians and civilian objects	§§ 1–62
Avoidance or minimisation of incidental damage	§§ 63–146
Feasibility of precautions in attack	§§ 147–181
Information required for deciding upon precautions in attack	§§ 182–206
B. Target Verification (practice relating to Rule 16)	§§ 207–264
C. Choice of Means and Methods of Warfare (practice relating to Rule 17)	§§ 265–324
D. Assessment of the Effects of Attacks (practice relating to Rule 18)	§§ 325–366
E. Control during the Execution of Attacks (practice relating to Rule 19)	§§ 367–419
F. Advance Warning (practice relating to Rule 20)	§§ 420–501
G. Target Selection (practice relating to Rule 21)	§§ 502–542

A. General

Constant care to spare the civilian population, civilians and civilian objects

Note: For practice concerning measures to spare cultural and religious objects, see Chapter 12.

I. Treaties and Other Instruments

Treaties

1. Article 57(1) AP I states that “in the conduct of military operations, constant care shall be taken to spare the civilian population, civilians and civilian objects”. Article 57 AP I was adopted by 90 votes in favour, none against and 4 abstentions.¹

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 211.

2. Article 13(1) AP II provides that “the civilian population and individual civilians shall enjoy general protection against the dangers arising from military operations”. Article 13 AP II was adopted by consensus.²

3. Article 24(2) of draft AP II submitted by the ICRC to the CDDH provided that “constant care shall be taken, when conducting military operations, to spare the civilian population, civilians and civilian objects. This rule shall, in particular, apply to the planning, deciding or launching of an attack.”³ This provision was adopted in Committee III of the CDDH by 50 votes in favour, none against and 11 abstentions.⁴ Eventually, however, it was deleted in the plenary, because it failed to obtain the necessary two-thirds majority (36 in favour, 19 against and 36 abstentions).⁵

Other Instruments

4. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 57 AP I.

5. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 57 AP I.

II. National Practice

Military Manuals

6. Australia’s Defence Force Manual states that “in the conduct of military operations, constant care must be taken to spare the civilian population and civilian objects to the maximum extent possible”.⁶

7. Belgium’s Law of War Manual states that “when preparing attacks, care shall be taken to spare the civilian population and civilian objects”.⁷

8. Benin’s Military Manual states that “constant care shall be taken to spare the civilian population and civilian objects”.⁸

9. Cameroon’s Instructors’ Manual considers that “a commander must take constant care to spare civilians and civilian objects”.⁹

10. Canada’s LOAC Manual states that “civilians are entitled to protection from the dangers arising from military operations. In conducting operations care should always be taken to spare civilians and civilian objects.”¹⁰

11. Croatia’s Commanders’ Guide states that “constant care shall be taken to spare the civilian population, civilian persons and civilian objects”.¹¹

12. Ecuador's Naval Manual states that "all reasonable precautions must be taken to ensure that only military objectives are targeted so that civilians and civilian objects are spared as much as possible from the ravages of war".¹²
13. France's LOAC Manual states that "in the conduct of military operations, constant care shall be taken to spare the civilian population, civilians and civilian objects".¹³
14. Germany's Military Manual states that "the civilian population as such as well as individual civilians . . . shall be spared as far as possible".¹⁴
15. Hungary's Military Manual requires that "all possible measures must be taken to spare civilian persons and objects [and] specifically protected persons and objects".¹⁵
16. Israel's Manual on the Laws of War states that there is an "obligation to refrain from harming civilians insofar as possible".¹⁶
17. Italy's LOAC Elementary Rules Manual states that "constant care shall be taken to spare the civilian population, civilian persons and civilian objects".¹⁷
18. Madagascar's Military Manual states that "constant care shall be taken to spare the civilian population as well as civilian objects".¹⁸
19. The Military Manual of the Netherlands states that "in the conduct of military operations, constant care shall be taken to spare the civilian population, civilians and civilian objects".¹⁹
20. The Military Handbook of the Netherlands states that "the civilian population which does not participate in hostilities must be spared".²⁰
21. New Zealand's Military Manual states that "in the conduct of military operations, constant care shall be taken to spare the civilian population, civilians and civilian objects".²¹
22. Nigeria's Military Manual lists as one of the basic principles in the conduct of operations, every commander's duty "to spare the civilian population, civilian persons and civilian objects". The manual adds that "when planning action that could endanger civilian persons and objects therefore, care and precaution must be emphasised and exercised in the conduct of the war".²²
23. Nigeria's Military Manual and Soldiers' Code of Conduct state that "civilian persons and objects must be spared".²³
24. Romania's Soldiers' Manual states that combatants must "spare civilians and their property".²⁴

25. Spain's LOAC Manual states that "constant care shall be taken to spare the civilian population, civilian persons and civilian objects".²⁵
26. Sweden's IHL Manual states that the precautions in attack "have come about only to protect the civilian population, individual civilians and civilian property in connection with military operations, and particularly when planning, deciding upon and executing attacks".²⁶
27. Togo's Military Manual states that "constant care shall be taken to spare the civilian population and civilian objects".²⁷
28. The US Air Force Pamphlet states that "in conducting military operations, constant care must be taken to spare the civilian population, civilians, and civilian objects".²⁸
29. The US Naval Handbook states that "all reasonable precautions must be taken to ensure that only military objectives are targeted so that civilians and civilian objects are spared as much as possible from the ravages of war".²⁹

National Legislation

30. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of AP I, including violations of Article 57(1) AP I, as well as any "contravention" of AP II, including violations of Article 13(1) AP II, are punishable offences.³⁰
31. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".³¹

National Case-law

32. No practice was found.

Other National Practice

33. The Report on the Practice of Algeria states that during the war of independence the ALN always tried to avoid hostilities in towns in order to spare needless casualties among the civilian population.³²
34. In 1992, the Presidency of the Republika Srpska of Bosnia and Herzegovina made an urgent appeal "to spare [the] civilian population from all attacks".³³

35. On the basis of an interview with a senior officer of the armed forces, the Report on the Practice of Indonesia states that the Indonesian armed forces normally observe the precautions listed in Article 57 AP I.³⁴

36. In 1971, during a debate in the Third Committee of the UN General Assembly concerning respect for human rights in armed conflicts, Liberia stated that it “agreed wholeheartedly with the principle that, in the conduct of military operations, every effort should be made to spare civilian populations . . . as affirmed in [principle 3] of General Assembly resolution 2675 (XXV)”.³⁵

37. According to the Report on the Practice of Malaysia, the obligation to take constant care to spare the civilian population and civilian objects in the conduct of military operations forms part of Malaysian practice.³⁶

38. According to the government of the Netherlands, commanders have to take all the precautionary measures required by Article 57 AP I when carrying out an attack.³⁷

39. In its consideration of the legality of the 1978 attack by the SADF on the SWAPO base/refugee camp at Kassinga in Angola, the South African Truth and Reconciliation Commission stated that “international humanitarian law stipulates that a distinction must at all times be made between persons taking part in hostilities and civilians, with the latter being spared as much as possible”.³⁸

40. The Report on the Practice of Syria asserts that Syria considers Article 57 AP I to be part of customary international law.³⁹

41. In 1938, during a debate in the House of Commons, the UK Prime Minister listed among rules of international law applicable to warfare on land, at sea and from the air the rule that “reasonable care must be taken in attacking these military objectives so that by carelessness a civilian population in the neighbourhood is not bombed”.⁴⁰

42. In 1972, the General Counsel of the US Department of Defense stated that the US regarded the principle contained in UN General Assembly Resolution 2444 (XXIII) of 1968 that “a distinction must be made at all times between persons taking part in the hostilities and members of the civilian population to

the effect that the civilians be spared as much as possible . . . as declaratory of existing customary international law".⁴¹

43. According to the Report on US Practice, it is the *opinio juris* of the US that a "distinction must be made between persons taking part in the hostilities and members of the civilian population to the effect that the civilians be spared as much as possible".⁴²

44. The Report on the Practice of Zimbabwe states that the provisions of Article 57 AP I would be regarded as customary by Zimbabwe because of its adoption of the Geneva Conventions Amendment Act which incorporates AP I into Zimbabwe's law and practice.⁴³

III. Practice of International Organisations and Conferences

United Nations

45. UN General Assembly Resolution 2444 (XXIII), adopted in 1968, affirmed Resolution XXVIII of the 20th International Conference of the Red Cross in 1965 and the basic humanitarian principle applicable in all armed conflicts laid down therein that "distinction must be made at all times between persons taking part in the hostilities and members of the civilian population to the effect that the latter be spared as much as possible".⁴⁴

46. UN General Assembly Resolution 2675 (XXV), adopted in 1970, states that "in the conduct of military operations, every effort should be made to spare civilian populations from the ravages of war, and all necessary precautions should be taken to avoid injury, loss or damage to civilian populations".⁴⁵

Other International Organisations

47. No practice was found.

International Conferences

48. The 20th International Conference of the Red Cross in 1965 adopted a resolution on protection of civilian populations against the dangers of indiscriminate warfare in which it solemnly declared that:

All Governments and other authorities responsible for action in armed conflicts should conform at least to the following principles: . . . that distinction must be made at all times between persons taking part in the hostilities and members of the civilian population to the effect that the latter be spared as much as possible.⁴⁶

⁴¹ US, Letter from J. Fred Buzhardt, General Counsel of the Department of Defense, to Senator Edward Kennedy, Chairman of the Subcommittee on Refugees of the Committee on the Judiciary, 22 September 1972, *AJIL*, Vol. 67, 1973, p. 122.

⁴⁶ 20th International Conference of the Red Cross, Vienna, 2–9 October 1965, Res. XXVIII.

IV. Practice of International Judicial and Quasi-judicial Bodies

49. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that Article 57 AP I was now part of customary international law, not only because it specified and fleshed out general pre-existing norms, but also because it did not appear to be contested by any State, including those who had not ratified the Protocol. The Trial Chamber also noted that in the case of attacks on military objectives causing damage to civilians, “international law contains a general principle prescribing that reasonable care must be taken in attacking military objectives so that civilians are not needlessly injured through carelessness”.⁴⁷ With reference to the Martens Clause, the Chamber held that:

The prescriptions of ... [Article 57] (and of the corresponding customary rules) must be interpreted so as to construe as narrowly as possible the discretionary power to attack belligerents and, by the same token, so as to expand the protection accorded to civilians.⁴⁸

V. Practice of the International Red Cross and Red Crescent Movement

50. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “constant care shall be taken to spare the civilian population, civilian persons and civilian objects”.⁴⁹

51. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 50(1) of draft AP I, which stated that “constant care shall be taken, when conducting military operations, to spare the civilian population, civilians and civilian objects”. All governments concerned replied favourably.⁵⁰

52. The ICRC Commentary on the Additional Protocols considers that the obligation to take constant care to spare the civilian population, civilians and civilian objects

appropriately supplements the basic rule [of distinction] ... It is quite clear that by respecting this obligation the Parties to the conflict will spare the civilian population, civilians and civilian objects ... This is only an enunciation of a general principle which is already recognized in customary law.⁵¹

⁴⁷ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 524.

53. In a press release issued in 1991 in the context of the Gulf War, the ICRC insisted that “all necessary precautions be taken by those conducting the hostilities to spare civilians”.⁵²

54. On several occasions, the ICRC has reminded the parties to the conflicts in Nagorno-Karabakh, Afghanistan and Chechnya of their obligation to take all possible measures to spare the civilian population and civilian facilities.⁵³

55. In a press release issued in 1992 during the conflict in Tajikistan, the ICRC urged the parties “to take every possible precaution to spare civilians”.⁵⁴

56. In a press release issued in 1994 in the context of the conflict in Yemen, the ICRC called upon all combatants “to spare the civilian population”.⁵⁵

57. In a communication to the press issued in 1999 concerning NATO’s intervention in the FRY, the ICRC stated that “those conducting hostilities must take all necessary precautions to spare civilians”.⁵⁶

58. In 1999, in a statement following the start of NATO operations against the FRY, the ICRC noted that:

Thousands of Serb and Romany families also face an uncertain future, having fled their homes in Kosovo out of fear of airstrikes or retaliation. Among the essential principles of international humanitarian law are the requirements that civilians be spared violence.⁵⁷

59. In a communication to the press in 2000, the ICRC appealed to Israel and Lebanon to ensure that in the conduct of military operations constant care was taken to spare the civilian population, civilians and civilian objects.⁵⁸

60. In a communication to the press in 2000, during the conflict between Ethiopia and Eritrea, the ICRC stated that “the belligerents are also duty bound to take all necessary steps to safeguard the civilian population from the dangers of military operations”.⁵⁹

61. In a communication to the press in 2000, the ICRC reminded all those involved in the violence in the Near East that “armed and security forces must

spare and protect all civilians who are not or are no longer taking part in the clashes, in particular children, women and the elderly".⁶⁰

VI. Other Practice

62. The Head of Foreign Affairs of an armed opposition group told the ICRC in 1995 that his group was conscious of the necessity to respect and to spare the civilian population during an armed conflict.⁶¹

Avoidance or minimisation of incidental damage

I. Treaties and Other Instruments

Treaties

63. Article 2(3) of the 1907 Hague Convention (IX) provides that:

If for military reasons immediate action [against naval or military objects located within an undefended town or port] is necessary, and no delay can be allowed the enemy, . . . [the commander of a naval force] shall take all due measures in order that the town may suffer as little harm as possible.

64. Article 57(4) AP I provides that:

In the conduct of military operations at sea or in the air, each Party to the conflict shall, in conformity with its rights and duties under the rules of international law applicable in armed conflict, take all reasonable precautions to avoid losses of civilian lives and damage to civilian objects.

Article 57 AP I was adopted by 90 votes in favour, none against and 4 abstentions.⁶²

65. Article 13(1) AP II provides that "the civilian population and individual civilians shall enjoy general protection against the dangers arising from military operations". Article 13 AP II was adopted by consensus.⁶³

Other Instruments

66. Article 9 of the 1956 New Delhi Draft Rules states that:

All possible precautions shall be taken, both in the choice of the weapons and methods to be used, and in the carrying out of an attack, to ensure that no losses or damage are caused to the civilian population in the vicinity of the objective, or to its dwellings, or that such losses or damage are at least reduced to a minimum.

67. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 57 AP I.

68. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 57 AP I.

69. Paragraph 36 of the 1994 CSCE Code of Conduct states that “the armed forces will take due care to avoid injury to civilians or their property”.

70. Section 5.3 of the 1999 UN Secretary-General’s Bulletin states that “the United Nations force shall take all feasible precautions to avoid, and in any event to minimize, incidental loss of civilian life, injury to civilians or damage to civilian property”.

II. National Practice

Military Manuals

71. Australia’s Defence Force Manual asserts that:

All reasonable precautions must be taken to avoid injury, loss or damage to civilians and civilian objects and locations. It is therefore important to obtain accurate intelligence before mounting an attack. While LOAC recognises that civilian casualties are unavoidable at times, a failure to take all reasonable precautions to minimise such damage may lead to a breach of those laws. The same principles apply to the risk of damage or injury to any other protected persons, places and objects.⁶⁴

72. Belgium’s Law of War Manual provides that “everything possible must be done to avoid incidental damage to civilian objects and loss of civilian life”.⁶⁵

73. Benin’s Military Manual states that “precautions must be taken when planning military operations in order to avoid civilian losses and damage to civilian objects or to minimise such losses and damage when they are unavoidable”.⁶⁶

74. Canada’s Code of Conduct requires that the operations of Canadian forces be “conducted in such a way that damage to civilians and their property is minimized”.⁶⁷

75. Croatia’s LOAC Compendium requires that all precautionary measures be taken to avoid or minimise injury to civilians and damage to civilian objects.⁶⁸

76. Croatia’s Commanders’ Manual states that “the commander shall consider all precautions in order to avoid and, at least, to minimise civilian casualties and damage to civilian objects”.⁶⁹

77. Ecuador’s Naval Manual requires naval commanders to “take all reasonable precautions, taking into account military and humanitarian considerations, to

keep civilian casualties and damage to the minimum consistent with mission accomplishment and the security of the force".⁷⁰

78. France's LOAC Teaching Note provides that "all precautions must be taken in order to avoid or minimise incidental injury and collateral damage".⁷¹

79. Germany's Military Manual requires that "when launching an attack on a military objective, all feasible precautions shall be taken to avoiding, and in any event to minimizing, incidental losses of civilian life, injury to civilians and damage to civilian objects".⁷²

80. Hungary's Military Manual requires the taking of "precautions to minimise civilian casualties and damages".⁷³

81. Italy's LOAC Elementary Rules Manual states that "the commander shall consider all precautions in order to avoid and, at least, to minimise civilian casualties and damage to civilian objects".⁷⁴

82. Kenya's LOAC Manual states that "all possible precautionary measures must be taken to reduce the 'collateral' [damage] as much as possible".⁷⁵

83. Madagascar's Military Manual states that "the commander must examine all the precautions to be taken in order to avoid or, at least to minimise, civilian losses and damage to civilian objects".⁷⁶

84. The Military Handbook of the Netherlands states that "collateral damage to civilian objects must be avoided as far as possible".⁷⁷

85. New Zealand's Military Manual states that:

An attack on a military objective may not be considered indiscriminate, disproportionate or otherwise unlawful simply because there is a risk of collateral injury to civilians or civilian objects. Civilian casualties or damage incidental to attacks on legitimate military objectives are therefore not unlawful. Such injuries and damage, however, should not be disproportionate (that is, clearly excessive in relation to the concrete and direct military advantage anticipated from the attack) and every feasible precaution must be taken to minimise them.⁷⁸

86. According to Nigeria's Military Manual, "precaution shall be taken to minimise civilian casualties and damage".⁷⁹

87. The Joint Circular on Adherence to IHL and Human Rights of the Philippines states that:

Actions during security/police operations will be guided by these rules [of behavior for soldiers/police during security/police operations] in order . . . to reduce the destruction that may be inflicted against lives and properties . . . Members of the AFP and PNP shall exercise the utmost restraint and caution in the use of armed force

to implement policies . . . Members of the AFP and PNP shall inhibit themselves from unnecessary military/police actions that could cause destruction to private and public properties.⁸⁰

88. Spain's LOAC Manual states that "the commander shall consider all precautions in order to avoid and, at least, to minimise civilian casualties and damage to civilian objects".⁸¹

89. According to Switzerland's Basic Military Manual, "during every attack, commanding officers at the battalion or group level, and those of higher ranks, shall see to it that the civilian population . . . does not suffer any damage".⁸²

90. Togo's Military Manual states that "precautions must be taken when planning military operations in order to avoid civilian losses and damage to civilian objects or to minimise such losses and damage when they are unavoidable".⁸³

91. The UK LOAC Manual states that "care must be taken to avoid incidental loss or damage to civilians or civilian objects".⁸⁴

92. The US Rules of Engagement for the Vietnam War stated that "while the goal is maximum effectiveness in combat operations, every effort must be made to avoid civilian casualties, minimize the destruction of private property, and conserve diminishing resources".⁸⁵

93. The US Rules of Engagement for Operation Desert Storm required soldiers to avoid harming civilians and civilian property "unless necessary to save US lives".⁸⁶

94. The US Naval Handbook requires naval commanders to "take all reasonable precautions, taking into account military and humanitarian considerations, to keep civilian casualties and damage to the minimum consistent with mission accomplishment and the security of the force".⁸⁷

National Legislation

95. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of AP I, including violations of Article 57(4) AP I, as well as any "contravention" of AP II, including violations of Article 13(2) AP II, are punishable offences.⁸⁸

96. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁸⁹

National Case-law

97. No practice was found.

Other National Practice

98. The Report on the Practice of Colombia refers to an opinion of the Attorney General given before the House of Representatives and an attestation by the Cabinet to the effect that attacks on installations must be made in conditions of maximum safety for civilians. This obligation includes the duty to halt any action that might present a serious danger to civilian lives and physical integrity and the obligation to take all possible measures to preserve civilian lives and physical integrity.⁹⁰

99. In 1991, in a letter to the UN Secretary-General concerning the Gulf War, Costa Rica commended "the precautions taken by the forces of the United States of America and its allies aimed at attacking as far as possible only military targets and causing the least possible suffering to the civilian population".⁹¹

100. On the basis of an interview with a senior officer of the armed forces, the Report on the Practice of Indonesia states that the Indonesian armed forces normally observe the precautions listed in Article 57 AP I.⁹²

101. In a briefing in 1982, the Israeli Ministry of Foreign Affairs declared that Israeli forces had taken all precautions to concentrate military operations against only "terrorist" targets to diminish incidental loss of civilian life. In the same briefing, Israeli officials stated that their forces had taken all necessary and possible precautions to protect individual civilians, the civilian population and civilian objects from the danger of military operations.⁹³

102. According to the Report on the Practice of Israel, "during the pre-attack planning phases, the IDF incorporates all feasible precautions to ensure, as far as possible, that incidental civilian loss, injury or damage is minimized".⁹⁴

103. The Report on the Practice of Jordan considers that "it is normal that the military command[er] in charge should take in an attack all feasible precautions to avoid causing injury, loss or damage to the civilian population".⁹⁵

104. On the basis of interviews with members of the armed forces and the Ministry of Home Affairs, the Report on the Practice of Malaysia states that in any planned attack during the communist insurgency, "the Security Forces

⁹⁵ Report on the Practice of Jordan, 1997, Chapter 1.6.

would always determine the position of the enemy to avoid or minimise civilian casualties".⁹⁶ The report further states that "in practice, the Armed Forces, whenever possible, will not cause collateral damage to civilian objects".⁹⁷

105. According to the government of the Netherlands, commanders have to take all the precautionary measures required by Article 57 AP I when carrying out an attack.⁹⁸

106. In 1991, in a report on military operations to liberate Kuwait submitted to the UN Security Council, Saudi Arabia specified that the Royal Saudi Forces only targeted military objectives and avoided "civilian targets and populated areas, in order not to inflict harm on civilians and civilian installations".⁹⁹

107. The Report on the Practice of Syria asserts that Syria considers Article 57 AP I to be part of customary international law.¹⁰⁰

108. In 1991, in two reports submitted to the UN Security Council on operations in the Gulf War, the UK made assurances that the instructions issued to UK pilots were to avoid causing civilian casualties as far as possible.¹⁰¹ In a subsequent report, the UK reiterated that "pilots have clear instructions to minimize civilian casualties" and stated that "on a number of occasions, attacks have not been pressed home because pilots were not completely satisfied they could meet these conditions".¹⁰²

109. In 1991, in reply to a question in the House of Lords concerning the use of conventional weapons against nuclear facilities, chemical weapons plants and dumps, and petrochemical enterprises situated in towns or cities, the UK Minister of State, FCO, stated that "international law requires that, in planning an attack on any military objective, account is taken of certain principles. These include the [principle] that civilian losses, whether of life or property, should be avoided or minimised so far as practicable."¹⁰³

110. In 1991, during a debate in the UN Security Council concerning the Gulf War, the UK deplored civilian casualties but reiterated that coalition forces had been strictly instructed to strive to keep such casualties to a minimum.¹⁰⁴

111. In 1991, in reply to a question in the House of Lords concerning military operations during the Gulf War, the UK Parliamentary Under-Secretary of State of the Ministry of Defence wrote that:

It is Allied policy . . . to make every possible effort to minimise civilian casualties. This is entirely in accordance with the rules of war and the Geneva Convention. The extraordinary measures that Allied air forces have taken to avoid causing civilian casualties demonstrate clearly that Allied military commanders are working strictly within this policy.¹⁰⁵

112. It is reported that in 1952, during the Korean War, a US General gave the instruction “to attack specific military targets at Pyongyang and to make every effort to avoid needless civilian casualties”.¹⁰⁶

113. In 1966, in the context of the Vietnam War, the US Department of Defense stated that “all possible care is taken to avoid civilian casualties”.¹⁰⁷

114. On 30 December 1966, in reply to an inquiry from a member of the US House of Representatives requesting a restatement of US policy on targeting in North Vietnam, a US Deputy Assistant Secretary of Defense wrote that “all reasonable care is taken to avoid civilian casualties”.¹⁰⁸

115. In 1972, the General Counsel of the US Department of Defense stated that:

A review of the operating authorities and rules of engagements for all of our forces in Southeast Asia, in air as well as ground and sea operations, by my office reveals that not only are such operations in conformity with this basic rule [that the loss of life and damage to property must not be out of proportion to the military advantage to be gained], but that in addition, extensive constraints are imposed to avoid if at all possible the infliction of casualties on noncombatants and the destruction of property other than that related to the military operations in carrying out military objectives.¹⁰⁹

116. In 1986, in the context of US attacks on Libyan targets, the US stated that:

The United States exercised great care in restricting its military response to terrorist-related targets. It took every possible precaution to avoid civilian casualties and to limit collateral damage. . . . In carrying out this action, the United States

¹⁰⁹ US, Letter from J. Fred Buzhardt, General Counsel of the Department of Defense, to Senator Edward Kennedy, Chairman of the Subcommittee on Refugees of the Committee on the Judiciary, 22 September 1972, *AJIL*, Vol. 67, 1973, pp. 122–124.

took every possible precaution to avoid civilian casualties and to limit collateral damage.¹¹⁰

117. In 1987, the Deputy Legal Adviser of the US Department of State stated that “we support the principle that all practicable precautions, taking into account military and humanitarian considerations, be taken in the conduct of military operations to minimize incidental death, injury, and damage to civilians and civilian objects”.¹¹¹

118. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that:

The obligation of distinguishing combatants and military objectives from civilians and civilian objects is a shared responsibility of the attacker, defender, and the civilian population as such. An attacker must exercise reasonable precautions to minimize incidental or collateral injury to the civilian population, consistent with mission accomplishment and allowable risk to the attacking force.¹¹²

119. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US stated that “the military actions initiated by the United States and other States co-operating with the Government of Kuwait... are directed strictly at military and strategic targets and every effort has been made to minimize civilian casualties”.¹¹³ In another such report, the US stressed that “allied aircraft involved in these attacks are taking every precaution to avoid civilian casualties. These pilots are in fact placing themselves in greater danger in order to minimize collateral damage and civilian casualties.”¹¹⁴ In a subsequent report, the US reiterated that “coalition forces have taken every precaution to minimize collateral damage to civilian facilities”.¹¹⁵

120. In 1991, in a diplomatic note to Iraq concerning operations in the Gulf War, the US stated that “hostilities must be conducted in a manner so as to minimize injury to civilians”.¹¹⁶

121. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

¹¹⁰ US, Letter dated 14 April 1986 to the President of the UN Security Council, UN Doc. S/17990, 14 April 1986.

¹¹⁵ US, Letter dated 8 February 1991 to the President of the UN Security Council, UN Doc. S/22216, 13 February 1991, p. 1.

¹¹⁶ US, Department of State, Diplomatic Note to Iraq, Washington, 19 January 1991, annexed to Letter dated 21 January 1991 to the President of the UN Security Council, UN Doc. S/22122, 21 January 1991, p. 2.

An attacker must exercise reasonable precautions to minimize incidental or collateral injury to the civilian population or damage to civilian objects, consistent with mission accomplishment and allowable risk to the attacking forces . . . As correctly stated in Article 51(8) of Protocol I, a nation confronted with callous actions by its opponent (such as the use of "human shields") is not released from its obligation to exercise reasonable precaution to minimize collateral injury to the civilian population or damage to civilian objects. This obligation was recognized by Coalition forces in the conduct of their operations . . . As frequently noted during the conduct of the conflict, exceptional care was devoted to minimize collateral damage to civilian population and property.¹¹⁷

122. In 1992, a legal review by the US Department of the Air Force of the legality of extended range anti-armour munition stated that, while legal as such, "care should also be taken [when using such munition] to ensure that the possibility of collateral civilian casualties is minimized, and that it is always used with a neutralizing mechanism".¹¹⁸

123. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that:

The obligation to take reasonable measures to minimize damage to natural resources and cultural property is shared by both an attacker and a defender. A number of steps can be taken by an attacker in order to minimize collateral damage to natural resources or cultural property . . . [During the Gulf War,] the U.S. and its Coalition partners in Desert Storm recognized that they were fighting in the "cradle of civilization" and took extraordinary measures to minimize damage to cultural property . . . Other steps were taken to minimize collateral damage. Although intelligence collection involves utilization of very scarce resources, these resources were used to look for cultural property in order to properly identify it. Target intelligence officers identified the numerous pieces of cultural property or cultural property sites in Iraq; a "no-strike" target list was prepared, placing known cultural property off limits from attack, as well as some otherwise legitimate targets if attack on the latter might place nearby cultural property at risk of damage.¹¹⁹

124. In 1998, when announcing the missile attacks against targets in Afghanistan and Sudan, the US President stated that "every possible effort to minimize the loss of innocent life" had been made. The Chairman of the Joint Chiefs of Staff noted that the attacks were carried out at night time in order to minimize the incidental loss of civilian life and the President's National Security Adviser stated that the government had verified that no night shift was at work at the chemical plant bombed in Sudan. The Defense Secretary stressed that the possibility of an airborne plume of toxic chemicals from the

¹¹⁷ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, pp. 625, 627 and 644.

Sudanese plant had been taken into account in an effort to minimise civilian casualties.¹²⁰

125. The Report on US Practice states that:

The *opinio juris* of the United States is that measures to minimize civilian casualties and damage must be undertaken to the extent that military necessities permit under the circumstances ruling at the time. The measures might include warnings, care in selecting targets, weapons and methods of attack and, especially against targets in inhabited areas, breaking off attacks that may not be sufficiently accurate.¹²¹

126. The Report on the Practice of Zimbabwe states that the provisions of Article 57 AP I would be regarded as customary by Zimbabwe because of its adoption of the Geneva Conventions Amendment Act which incorporates AP I into Zimbabwe's law and practice.¹²²

III. Practice of International Organisations and Conferences

United Nations

127. UN General Assembly Resolution 2675 (XXV), adopted in 1970, states that "in the conduct of military operations, every effort should be made to spare civilian populations from the ravages of war, and all necessary precautions should be taken to avoid injury, loss or damage to civilian populations".¹²³

128. In a resolution adopted in 1987, the UN Commission on Human Rights called on the government of El Salvador and the insurgent forces to take all measures to avoid civilian deaths and injuries when conducting military operations, including when landmines were used.¹²⁴

Other International Organisations

129. In a resolution concerning the Gulf War adopted in 1991, the Parliamentary Assembly of the Council of Europe expressed its full support for the coalition's action and commended the instructions given to minimise civilian casualties.¹²⁵

130. During its air campaign against the FRY in 1999, NATO frequently stated that it had taken every possible precaution to prevent collateral damage to civilians and civilian objects.¹²⁶

¹²⁰ US, Presidential Address, 20 August 1998; Press Conference by Secretary of Defense, 20 August 1998, *YIHL*, Vol. 2, 1999, p. 423.

¹²⁶ NATO, Press Conferences of 25–27 and 29–31 March 1999, 3, 7–9, 15, 16, 20, 27, 29 and 30 April 1999, 2, 9, 15, 16, 21 and 26 May 1999 and 1 June 1999.

International Conferences

131. The 26th International Conference of the Red Cross and Red Crescent in 1995 adopted a resolution on protection of the civilian population in period of armed conflict in which it called upon parties to conflict “to take all feasible precautions to avoid, in their military operations, all acts liable to destroy or damage water sources and systems of water supply, purification and distribution solely or primarily used by civilians”.¹²⁷

IV. Practice of International Judicial and Quasi-judicial Bodies

132. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that Article 57 AP I was now part of customary international law, not only because it specified and fleshed out general pre-existing norms, but also because it did not appear to be contested by any State, including those who had not ratified the Protocol.¹²⁸ With reference to the Martens Clause, the Trial Chamber held that:

The prescriptions of . . . [Article 57] (and of the corresponding customary rules) must be interpreted so as to construe as narrowly as possible the discretionary power to attack belligerents and, by the same token, so as to expand the protection accorded to civilians.¹²⁹

133. In 1997, in its report concerning the events at La Tablada in Argentina, the IACiHR referred to the obligation to take precautions to avoid or minimise incidental damage. The case dealt with an attack by some 40 persons on military barracks of the armed forces of Argentina and the subsequent counter-attack. The Commission found that common Article 3 of the 1949 Geneva Conventions and other rules relevant to the conduct of internal hostilities were applicable. The Commission stated that customary law imposes an obligation to take precautions to avoid or minimise loss of civilian life and damage to civilian property that may occur as a consequence of attacks on military targets.¹³⁰

V. Practice of the International Red Cross and Red Crescent Movement

134. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

Constant care shall be taken to spare the civilian population, civilian persons and civilian objects. The purpose of such care is primarily to avoid and in any event

¹²⁷ 26th International Conference of the Red Cross and Red Crescent, Geneva, 3–7 December 1995, Res. II, § F(b).

to minimize civilian casualties and damages (e.g. consideration of populated areas, possibilities of shelter, movements of civilian persons, important civilian objects, different danger according to time of the day).¹³¹

135. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context of the Gulf War, the ICRC stated that “the following general rules are recognized as binding on any party to an armed conflict: . . . all feasible precautions must be taken to avoid loss of civilian life or damage to civilian objects”.¹³²

136. In a communication to the press in 1993, the ICRC enjoined the parties to the conflict in Somalia “to take all feasible precautions to avoid civilian casualties or damage to civilian objects”.¹³³

137. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that “all feasible precautions shall be taken to avoid injuries, loss and damage to the civilian population”.¹³⁴

138. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that “all feasible precautions shall be taken to avoid injury or losses inflicted on the civilian population and damage to civilian objects”.¹³⁵

139. In 1995, the ICRC asked a State to ensure that civilians would not be affected by the military operations it was engaged in by taking all necessary precautions to that end.¹³⁶

140. In a statement following NATO’s air strikes against the FRY in 1999, the ICRC stated that “it is an obligation under international humanitarian law to avoid civilian casualties as far as possible”.¹³⁷

141. In a communication to the press issued in 2001 after two bombs were dropped on an ICRC compound in Kabul, the ICRC stated that “international humanitarian law obliges the parties to the conflict . . . to take all the precautions needed to avoid harming civilians”.¹³⁸

142. In a communication to the press issued in 2001 in the context of the conflict in Afghanistan, the ICRC stated that “in the course of military operations,

all parties are obliged to take every feasible precaution to avoid civilian casualties and damage to civilian infrastructure".¹³⁹

VI. Other Practice

143. In 1992, in the context of the conflict in Rwanda, the FPR stated that its tactics aimed specifically at minimising human losses.¹⁴⁰

144. Rule A8 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IHL, provides that:

The general rule to distinguish between combatants and civilians and the prohibition of attacks against the civilian population as such or against individual civilians implies, in order to be effective, that all feasible precautions have to be taken to avoid injury, loss or damage to the civilian population.

The commentary on this rule quotes UN General Assembly Resolution 2675 (XXV) of 1970 and considers that compliance with common Article 3 of the 1949 Geneva Conventions requires, by inference, that precautions in attack be taken. As to which specific precautions have to be taken in non-international armed conflict, the commentary notes that Article 57 AP I provides useful guidance on this matter.¹⁴¹

145. In its comments on the Declaration of Minimum Humanitarian Standards submitted to the UN Secretary-General in 1995, the IHL stated that "any declaration on minimum humanitarian standards should be based on principles... of *jus cogens*, expressing basic humanitarian consideration[s] which are recognized to be universally binding". According to the IHL, this includes the principle that "all precautionary measures that are feasible in case of attack should be undertaken, so as to avoid unnecessary injury, loss or damage".¹⁴²

146. In its report on the NATO bombings in the FRY issued in 2000, Amnesty International concluded that it believed that "in the course of Operation Allied Force, civilian deaths could have been significantly reduced if NATO forces had fully adhered to the laws of war". The report added that in several cases, "including the attacks on displaced civilians in Djakovica and Koriša, insufficient precautions were taken to minimize civilian casualties". The report further considered that:

¹³⁹ ICRC, Communication to the Press No. 01/47, Afghanistan: ICRC calls on all parties to the conflict to respect international humanitarian law, 24 October 2001.

¹⁴⁰ FPR, Communiqué de presse, Brussels, 28 February 1992.

¹⁴¹ IHL, Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, Rule A8 and Commentary, *IRRC*, No. 278, 1990, pp. 394–395.

¹⁴² IHL, Comments on the Declaration of Minimum Humanitarian Standards submitted to the UN Secretary-General, §§ 1 and 13, reprinted in UN Doc. E/CN.4/1996/80, Report of the Secretary-General prepared pursuant to Commission resolution 1995/29, 28 November 1995, pp. 8–9.

Aspects of the Rules of Engagement, specifically the requirement that NATO aircraft fly above 15,000 feet, made full adherence to international humanitarian law virtually impossible. According to NATO officials, changes were made to the Rules of Engagement, including lifting the 15,000 foot rule, following the 14 April 1999 attack near Djakovica and the 30 May 1999 bombing of Varvarin Bridge. These changes were a recognition that existing precautions did not afford sufficient protection to civilians.¹⁴³

Feasibility of precautions in attack

Note: *For practice concerning the feasibility of precautions to be taken in the use of booby-traps, see Chapter 28. For practice concerning the feasibility of precautions in the use of landmines, see Chapter 29. For practice concerning the feasibility of precautions in the use of incendiary weapons, see Chapter 30.*

I. Treaties and Other Instruments

Treaties

147. Upon accession to AP I, Algeria stated that the term “feasible” must be interpreted as referring to “precautions and measures which are feasible in view of the circumstances and the information and means available at the time”.¹⁴⁴

148. Upon ratification of AP I, Belgium declared that, “in view of the travaux préparatoires . . . ‘feasible precautions’ [are] those that can be taken in the circumstances prevailing at the moment, which include military considerations as much as humanitarian ones”.¹⁴⁵

149. Upon ratification of AP I, Canada stated that “the word ‘feasible’ means that which is practicable or practically possible, taking into account all circumstances ruling at the time, including humanitarian and military considerations”.¹⁴⁶

150. Upon ratification of AP I, France stated that it considered that the term “feasible” as used in AP I meant “that which can be realised or which is possible in practice, taking into account all circumstances ruling at the time, including humanitarian and military considerations”.¹⁴⁷

151. Upon ratification of AP I, Germany stated that it understood the word “feasible” to mean “that which is practicable or practically possible, taking into account all circumstances ruling at the time, including humanitarian and military considerations”.¹⁴⁸

¹⁴³ Amnesty International, *NATO/Federal Republic of Yugoslavia: “Collateral Damage” or Unlawful Killings? Violations of the Laws of War by NATO during Operation Allied Force*, AI Index EUR 70/18/00, London, June 2000, p. 25.

¹⁴⁸ Germany, Declarations made upon ratification of AP I, 14 February 1991, § 2.

152. Upon ratification of AP I, Ireland stated that “the word ‘feasible’ means that which is practicable or practically possible, taking into account all circumstances at the time, including humanitarian and military considerations”.¹⁴⁹

153. Upon ratification of AP I, Italy declared that “the word ‘feasible’ means that which is practicable or practically possible, taking into account all circumstances ruling at the time, including humanitarian and military considerations”.¹⁵⁰

154. Upon ratification of AP I, the Netherlands declared that “the word ‘feasible’ is to be understood as practicable or practically possible taking into account all circumstances ruling at the time, including humanitarian and military considerations”.¹⁵¹

155. Upon ratification of AP I, Spain interpreted the term “feasible” as meaning that “the matter in question is feasible or possible in practice, taking into account all the circumstances prevailing at the time, including humanitarian and military aspects”.¹⁵²

156. In its declaration made upon signature and in a reservation made upon ratification of AP I, Switzerland specified that Article 57(2) applied only to the ranks of commanding officers at the battalion or group level and those of higher ranks.¹⁵³

157. Upon signature of AP I, the UK stated that “the word ‘feasible’ means that which is practicable or practically possible, taking into account all circumstances at the time including those relevant to the success of military operations”.¹⁵⁴

158. Upon ratification of AP I, the UK stated that it understood the term “feasible” as used in the Protocol to mean “that which is practicable or practically possible, taking into account all circumstances ruling at the time, including humanitarian and military considerations”.¹⁵⁵ The UK further stated that the obligation mentioned in Article 57(2)(b) AP I only applied to “those who have the authority and practical possibility to cancel or suspend the attack”.¹⁵⁶

Other Instruments

159. No practice was found.

¹⁵⁶ UK, Reservations and declarations made upon ratification of AP I, 28 January 1998, § o.

II. National Practice

Military Manuals

160. Argentina's Law of War Manual states that "feasible precautions are those which are practicable or practically possible taking into account all circumstances prevailing at the time, including humanitarian and military considerations".¹⁵⁷

161. Australia's Defence Force Manual defines feasible precautions as "precautions which are practicable or practically possible taking into account all circumstances ruling at the time, including humanitarian and military considerations".¹⁵⁸

162. Canada's LOAC Manual, with respect to the standard of care to be applied to target verification, precautions in the choice of means and methods of attack and the assessment of the effects of an attack, states that:

Commanders, planners and staff officers will not be held to a standard of perfection in reaching their decisions.

Commanders, planners and staff officers are required to take all "feasible" steps to verify that potential targets are legitimate targets. However, such decisions will be based on the "circumstances ruling at the time". Consideration must be paid to the honest judgement of responsible commanders, based on the information reasonably available to them at the relevant time, taking fully into account the urgent and difficult circumstances under which such judgements are usually made.

The test for determining whether the required standard of care has been met is an objective one: Did the commander, planner or staff officer do what a reasonable person would have done in the circumstances?¹⁵⁹

163. The Military Manual of the Netherlands states that:

The extent to which commanders and their staff can be held accountable for compliance with these rules [on precautions in attack] is determined by three factors: freedom of choice of means and methods, availability of information [and] available time. The higher the level [of command] the stricter the required compliance is.¹⁶⁰

164. New Zealand's Military Manual emphasises that the obligation to verify targets, to choose means and methods of attack in order to avoid, and in any event to minimise, civilian losses and damage to civilian objects and the obligation to refrain from deciding to launch an attack which may be expected to cause disproportionate collateral damage is incumbent upon "those who plan or decide upon an attack". The manual considers that:

This obligation presupposes that the measures are to be taken by a level which possesses a formalised planning process and a substantial degree of discretion

¹⁵⁷ Argentina, *Law of War Manual* (1989), § 4.20.

¹⁵⁸ Australia, *Defence Force Manual* (1994), p. xxiv.

¹⁵⁹ Canada, *LOAC Manual* (1999), pp. 4-3/4-4, §§ 25-27.

¹⁶⁰ Netherlands, *Military Manual* (1993), p. V-11.

concerning methods by which medium-term objectives are to be attained. It is unlikely that the proper level would normally be below a divisional or equivalent level of headquarters.¹⁶¹

With respect to the notion of “feasible” precautions, the manual specifies that “feasible” means “that which is practicable or practically possible, taking into account all circumstances at the time, including those relevant to the success of the military operations”.¹⁶²

National Legislation

165. No practice was found.

National Case-law

166. No practice was found.

Other National Practice

167. At the CDDH, Austria considered that the precautions envisaged in Article 57 AP I

could only be taken at a higher level of military command, in other words by the high command. Junior military personnel could not be expected to take all the precautions prescribed, particularly that of ensuring respect for the principle of proportionality during an attack.¹⁶³

168. At the CDDH, Canada stated that the word “feasible” when used in AP I, for example, in Article 57 and 58, “refers to what is practicable or practically possible, taking into account all circumstances existing at the relevant time, including those circumstances relevant to the success of military operations”.¹⁶⁴

169. At the CDDH, the FRG stated that the word “feasible” in Article 57 AP I should be interpreted “as meaning what is practicable or practically possible, taking into account all circumstances at the time, including those relevant to the success of military operations”.¹⁶⁵

170. At the CDDH, India explained its vote on Article 57 AP I as follows:

India voted in favour of this article on the clear understanding that it will apply in accordance with the limits of capability, practical possibility and feasibility of each Party to the conflict. As the capability of Parties to a conflict to make distinction will depend upon the means and methods available to each Party generally or in particular situations, this article does not require a Party to undertake to do something which is not within its means or methods or its capability. In its practical application, a Party would be required to do whatever is practical and possible.¹⁶⁶

¹⁶⁴ Canada, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 224.

¹⁶⁵ FRG, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 226.

¹⁶⁶ India, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 228.

171. At the CDDH, Italy stated that the term “feasible” in Article 57 AP I “indicates that the obligations it imposes are conditional on the actual circumstances really allowing the proposed precautions to be taken, on the basis of the available information and the imperative needs of national defence”.¹⁶⁷

172. At the CDDH, the Netherlands stated that “the word ‘feasible’ when used in Protocol I, for example in Articles 50 and 51 [57 and 58], should in any particular case be interpreted as referring to that which was practicable or practically possible, taking into account all circumstances at the time”.¹⁶⁸

173. At the CDDH, the representative of Switzerland was critical of the wording of Article 57 AP I because it lacked clarity, specifically the words “those who plan or decide upon an attack” in the chapeau of Article 57(2). He stated that this

ambiguous wording might well place a burden or responsibility on junior military personnel which ought normally to be borne by those of higher rank. The obligations set out in [Article 57 AP I] could concern the high commands only – the higher grades of the military hierarchy, and it was thus that Switzerland would interpret that provision.¹⁶⁹

174. At the CDDH, Turkey stated that the word “feasible” in Article 57 AP I should be interpreted as “related to what was practicable, taking into account all the circumstances at the time and those relevant to the success of military operations”.¹⁷⁰

175. At the CDDH, the US stated that:

The word “feasible” when used in draft Protocol I, for example in Articles 50 and 51 [57 and 58], refers to that which is practicable or practically possible, taking into account all circumstances at the time, including those relevant to the success of military operations.¹⁷¹

III. Practice of International Organisations and Conferences

United Nations

176. No practice was found.

Other International Organisations

177. No practice was found.

¹⁷⁰ Turkey, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 211, § 41.

¹⁷¹ US, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 241.

International Conferences

178. The Rapporteur of the Working Group at the CDDH reported that:

Certain words [in draft Article 50 (57) AP I] created problems, particularly the choice between “feasible” and “reasonable” . . . The Rapporteur understands “feasible”, which was the term chosen by the Working Group, to mean that which is practicable, or practically possible. “Reasonable” struck many representatives as too subjective a term.¹⁷²

IV. Practice of International Judicial and Quasi-judicial Bodies

179. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that:

The obligation to do everything feasible is high but not absolute . . . Both the commander and the aircrew actually engaged in operations must have some range of discretion to determine which available resources shall be used and how they shall be used. Further, a determination that inadequate efforts have been made to distinguish between military objectives and civilians or civilian objects should not necessarily focus exclusively on a specific incident. If precautionary measures have worked adequately in a very high percentage of cases then the fact they have not worked well in a small number of cases does not necessarily mean they are generally inadequate.¹⁷³

V. Practice of the International Red Cross and Red Crescent Movement

180. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces the rule that:

The commander shall take all feasible precautions. “Feasible precautions” are those precautions which are practicable, taking into account the tactical situation (that is all circumstances ruling at the time, including humanitarian and military considerations).¹⁷⁴

VI. Other Practice

181. No practice was found.

Information required for deciding upon precautions in attack

I. Treaties and Other Instruments

Treaties

182. Upon ratification (or signature) of AP I by Algeria, Australia, Belgium, Canada, Egypt, Germany, Ireland, Italy, Netherlands, New Zealand, Spain and UK made statements to the effect that military commanders and others responsible for planning, deciding upon, or executing attacks necessarily have to reach their decisions on the basis of their assessment of the information from all sources, which is available to them at the relevant time. These statements are quoted in Chapter 4 and are not repeated here.

183. Upon ratification of AP I, Austria stated that “Article 57, paragraph 2, of Protocol I will be applied on the understanding that, with respect to any decision taken by a military commander, the information actually available at the time of the decision is determinative”.¹⁷⁵ It further stated that:

For the purposes of judging any decision taken by a military commander, Articles 85 and 86 of Protocol I will be applied on the understanding that military imperatives, the reasonable possibility of recognizing them and the information actually available at the time that decision was taken, are determinative.¹⁷⁶

Other Instruments

184. Paragraph 46(a) of the 1994 San Remo Manual states that “those who plan, decide upon or execute an attack must take all feasible measures to gather information which will assist in determining whether or not objects which are not military objectives are present in an area of attack”.

II. National Practice

Military Manuals

185. Australia’s Defence Force Manual states that:

All reasonable precautions must be taken to avoid injury, loss or damage to civilians and civilian objects and locations. It is therefore important to obtain accurate intelligence before mounting an attack . . . Accordingly, the best possible intelligence is required concerning:

- a. concentrations of civilians;
- b. civilians who may be in the vicinity of military objectives;
- c. the nature of built-up areas such as towns, communities, shelters, etc.;
- d. the existence and nature of important civilian objects and specifically protected objects; and
- e. the environment.¹⁷⁷

¹⁷⁵ Austria, Reservations made upon ratification of AP I, 13 August 1982, § 1.

¹⁷⁶ Austria, Reservations made upon ratification of AP I, 13 August 1982, § 4.

¹⁷⁷ Australia, *Defence Force Manual* (1994), §§ 548 and 549.

The manual also refers to the declarations made by Australia upon ratification of AP I to the effect that “military commanders and others responsible for planning, deciding upon, or executing attacks, necessarily have to reach their decisions on the basis of their assessment of the information from all sources, which is available to them at the relevant time”.¹⁷⁸

186. Benin’s Military Manual states that “military commanders must inform themselves about concentrations of civilian persons, important civilian objects and specially protected facilities, the natural environment and the civilian environment of military objectives”.¹⁷⁹

187. Canada’s LOAC Manual states that:

Decisions will be based on the “circumstances ruling at the time”. Consideration must be paid to the honest judgement of responsible commanders, based on the information reasonably available to them at the relevant time, taking fully into account the urgent and difficult circumstances under which such judgements are usually made.¹⁸⁰

188. Croatia’s Commanders’ Manual requires that “the commander shall keep himself informed on concentrations of civilian persons, important civilian objects and specifically protected establishments”.¹⁸¹

189. Ecuador’s Naval Manual states that:

The commander must decide, in light of all the facts known or reasonably available to him, including the need to conserve resources and complete the mission successfully, whether to adopt an alternative method of attack, if reasonably available, to reduce civilian casualties and damage.¹⁸²

190. France’s LOAC Summary Note states that:

Commanders are responsible for the consequences for civilians of the military actions they take. They must, prior to any action, obtain a maximum of information concerning the nature and the location of protected objects (medical units, cultural objects, installations containing dangerous forces) and concerning any concentration of civilians.¹⁸³

191. Italy’s LOAC Elementary Rules Manual requires that “the commander shall keep himself informed on concentrations of civilian persons, important civilian objects and specifically protected establishments”.¹⁸⁴

192. Madagascar’s Military Manual states that “the commander must seek information concerning concentrations of civilian persons, important civilian objects and specifically protected establishments”.¹⁸⁵

¹⁷⁸ Australia, *Defence Force Manual* (1994), Chapter 5, Annex A.

¹⁷⁹ Benin, *Military Manual* (1995), Fascicule III, p. 12.

¹⁸⁰ Canada, *LOAC Manual* (1999), pp. 4-3/4-4, § 26.

¹⁸¹ Croatia, *Commanders’ Manual* (1992), § 44, see also § 31.

¹⁸² Ecuador, *Naval Manual* (1989), § 8.1.2.1.

¹⁸³ France, *LOAC Summary Note* (1992), § 5.2.

¹⁸⁴ Italy, *LOAC Elementary Rules Manual* (1991), § 44, see also § 31.

¹⁸⁵ Madagascar, *Military Manual* (1994), Fiche No. 6-O, § 12, see also Fiche No. 5-O, § 31.

193. New Zealand's Military Manual, with respect to the standard by which to judge the duty to take all feasible precautions, specifies that "any subsequent evaluation of conduct must focus on all the circumstances, including humanitarian and military considerations, as they appeared to decision makers at the time, rather than against an absolute standard".¹⁸⁶

194. Nigeria's Military Manual provides that "the commander, through his intelligence network shall get information on the circumstance of the military relevancy of the zone, specifically protected zones or objects in his area of operations".¹⁸⁷

195. Spain's LOAC Manual states that:

Information is one of the basic pillars on which a commander must base his decisions. A commander needs information about the presence of protected persons and objects in the zone of operation, the nature and location of medical establishments, the location of cultural and religious objects, nuclear power plants, concentrations of civilian persons, movements of populations, etc.¹⁸⁸

196. Sweden's IHL Manual states that the obligations to take precautions in attack "apply only as far as available resources for collection and processing of information permit". The manual adds that "a planning commander must, to be able to decide upon an attack, have access to the best possible information about the objective. The decision should be based upon the information available to the commander at the time of deciding."¹⁸⁹

197. Togo's Military Manual states that "military commanders must inform themselves about concentrations of civilian persons, important civilian objects and specially protected facilities, the natural environment and the civilian environment of military objectives".¹⁹⁰

198. The US Naval Handbook states that:

The commander must decide, in light of all the facts known or reasonably available to him, including the need to conserve resources and complete the mission successfully, whether to adopt an alternative method of attack, if reasonably available, to reduce civilian casualties and damage.¹⁹¹

National Legislation

199. No practice was found.

National Case-law

200. No practice was found.

¹⁸⁶ New Zealand, *Military Manual* (1992), § 518(4).

¹⁸⁷ Nigeria, *Military Manual* (1994), p. 43, § 14.

¹⁸⁸ Spain, *LOAC Manual* (1996), Vol. I, § 2.3.b.(5), see also § 5.3.b.

¹⁹⁰ Togo, *Military Manual* (1996), Fascicule III, p. 12.

¹⁹¹ US, *Naval Handbook* (1995), § 8.1.2.1.

Other National Practice

201. In an explanatory memorandum submitted to the German parliament in 1990 in the context of the ratification procedure of the Additional Protocols, the German government stated that:

Article 57 [AP I] contains high requirements for military commanders. They can only evaluate the situation on the basis of facts at their disposal during the planning and execution of an attack. Military commanders cannot be held responsible on the basis of facts they did not know, and could not have known, and which became only clear afterwards.¹⁹²

202. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

In reviewing an incident such as the attack of the Al-'Amariyah bunker, the law of war recognizes the difficulty of decision making amid the confusion of war. Leaders and commanders necessarily have to make decisions on the basis of their assessment of the information reasonably available to them at the time, rather than what is determined in hindsight.¹⁹³

III. Practice of International Organisations and Conferences

203. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

204. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that:

A military commander must set up an effective intelligence gathering system to collect and evaluate information concerning potential targets. The commander must also direct his forces to use available technical means to properly identify targets during operations.¹⁹⁴

V. Practice of the International Red Cross and Red Crescent Movement

205. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

¹⁹² Germany, Lower House of Parliament, Explanatory memorandum on the Additional Protocols to the Geneva Conventions, *BT-Drucksache* 11/6770, 22 March 1990, p. 113.

¹⁹³ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, p. 626.

¹⁹⁴ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, § 29.

To fulfil his mission, the commander needs appropriate information about the enemy and the environment. To comply with the law of war, information must include:

- a) concentrations of civilian persons;
- b) civilian surroundings of military objectives;
- c) nature of built up areas (towns, villages, shelters, etc.);
- d) existence and nature of important civilian objects, particularly of specifically protected objects;
- e) natural environment.¹⁹⁵

VI. Other Practice

206. In its report on the NATO bombings in the FRY issued in 2000, Amnesty International, after commenting on the lack of precautions taken by NATO, concluded that “the apparent preeminence given by NATO to intelligence in the planning phase rather than throughout the conduct of an attack, and serious mistakes in intelligence gathering, seem to have led to unlawful deaths”.¹⁹⁶

B. Target Verification

I. Treaties and Other Instruments

Treaties

207. Article 57(2)(a) AP I provides that, with respect to attacks, the following precautions shall be taken:

Those who plan or decide upon an attack shall:

- i) do everything feasible to verify that the objectives to be attacked are neither civilians nor civilian objects and are not subject to special protection but are military objectives within the meaning of paragraph 2 of Article 52 and that it is not prohibited by the provisions of this Protocol to attack them.

Article 57 AP I was adopted by 90 votes in favour, none against and 4 abstentions.¹⁹⁷

208. Article 7 of the 1999 Second Protocol to the 1954 Hague Convention states that:

Without prejudice to other precautions required by international humanitarian law in the conduct of military operations, each Party to the conflict shall:

- a) do everything feasible to verify that the objectives to be attacked are not cultural property protected under Article 4 of the Convention.

¹⁹⁵ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 436, see also § 459.

¹⁹⁶ Amnesty International, *NATO/Federal Republic of Yugoslavia: “Collateral Damage” or Unlawful Killings? Violations of the Laws of War by NATO during Operation Allied Force*, AI Index EUR 70/18/00, London, June 2000, p. 26.

¹⁹⁷ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 211.

Other Instruments

209. Article 8 of the 1956 New Delhi Draft Rules states that “the person responsible for ordering or launching an attack shall, first of all: (a) make sure that the objective, or objectives, to be attacked are military objectives within the meaning of the present rules, and are duly identified”.

210. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 57 AP I.

211. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 57 AP I.

212. Paragraph 46(b) of the 1994 San Remo Manual provides that “in the light of the information available to them, those who plan, decide upon, or execute an attack shall do everything feasible to ensure that attacks are limited to military objectives”.

*II. National Practice**Military Manuals*

213. Argentina’s Law of War Manual states that “those who plan or decide upon an attack shall, as far as possible, verify that the objectives to be attacked are not civilians, nor civilian objects, nor subject to special protection”.¹⁹⁸

214. Australia’s Defence Force Manual states that “everything feasible [must be done] to verify that objects being attacked are military objectives”.¹⁹⁹

215. Belgium’s Teaching Manual for Soldiers considers that an object can be attacked only when it can reasonably be considered to be a military objective and states that armed forces should not shoot first and check later.²⁰⁰

216. Benin’s Military Manual states that “all necessary measures must be taken to verify that the target to be destroyed is a military objective”.²⁰¹

217. Cameroon’s Instructors’ Manual requires that “those who plan or decide upon an attack do everything that is practically possible to verify that the targets to be attacked are military objectives”.²⁰²

218. Canada’s LOAC Manual states that “commanders, planners and staff officers have . . . to do everything feasible to verify that the objectives to be attacked are in fact legitimate targets and are not entitled to special protection under the LOAC”.²⁰³

list of principles to apply in military action, among which is the obligation to verify the military nature of an objective prior to the attack.²³⁵

251. According to the Report on the Practice of Malaysia, the obligation to verify that targets are indeed military objectives forms part of Malaysian practice.²³⁶

252. According to the government of the Netherlands, commanders have to take all the precautionary measures required by Article 57 AP I when carrying out an attack.²³⁷

253. The Report on the Practice of Syria asserts that Syria considers Article 57 AP I to be part of customary international law.²³⁸

254. In a report submitted to the UN Security Council on operations in the Gulf War, the UK asserted that UK commanders were briefed on the “locations and significance of sites of religious and cultural importance in Iraq” and that operations would take this information into account.²³⁹

255. The Report on US Practice refers to an instance recorded during the Vietnam War in the early 1970s when a possible storage facility for air defence missiles, which would normally have been a high-priority target, was removed from the target list because it was “in a heavily populated area on the edge of Hanoi and the intelligence which indicated that it might be a storage facility was somewhat speculative”.²⁴⁰

256. The Report on the Practice of Zimbabwe states that the provisions of Article 57 AP I would be regarded as customary by Zimbabwe because of its adoption of the Geneva Conventions Amendment Act which incorporates API into Zimbabwe’s law and practice.²⁴¹

III. Practice of International Organisations and Conferences

United Nations

257. No practice was found.

Other International Organisations

258. During the air campaign against the FRY in 1999, NATO stated on various occasions that the targets attacked were exclusively military. According to

NATO, the targets were carefully selected and continuously assessed to avoid collateral damage.²⁴²

International Conferences

259. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

260. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that Article 57 AP I was now part of customary international law, not only because it specified and fleshed out general pre-existing norms, but also because it did not appear to be contested by any State, including those who had not ratified the Protocol.²⁴³ With reference to the Martens Clause, the Trial Chamber held that:

The prescriptions of . . . [Article 57] (and of the corresponding customary rules) must be interpreted so as to construe as narrowly as possible the discretionary power to attack belligerents and, by the same token, so as to expand the protection accorded to civilians.²⁴⁴

261. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that:

In determining whether or not the mens rea requirement [intention or recklessness, for the offence of unlawful attack under Article 3 of the ICTY Statute] has been met, it should be borne in mind that commanders deciding on an attack have duties:

- a) to do everything practicable to verify that the objectives to be attacked are military objectives.²⁴⁵

Regarding the 15,000 feet minimum flying altitude adopted by NATO for part of the campaign, the Committee stated that "NATO air commanders have a duty to take practicable measures to distinguish military objectives from civilians and civilian objectives".²⁴⁶

²⁴⁶ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, § 56.

V. Practice of the International Red Cross and Red Crescent Movement

262. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces the following rules:

The attack may only be directed at a specific military objective. The military objective must be identified as such and clearly designated and assigned. The attack shall be limited to the assigned military objective. The precautions to be taken in targeting are equivalent to those to be respected in the choice of a military objective.

In combat action the military character of the objectives and targets must be verified.²⁴⁷

263. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 50(1)(a) of draft AP I, which stated in part that “those who plan or decide upon an attack shall ensure that the objectives to be attacked are duly identified as military objectives” (Proposal I). All governments concerned replied favourably.²⁴⁸

VI. Other Practice

264. No practice was found.

C. Choice of Means and Methods of Warfare

Note: For practice concerning precautions to be taken in the use of booby-traps, see Chapter 28. For practice concerning precautions to be taken in the use of landmines, see Chapter 29. For practice concerning precautions to be taken in the use of incendiary weapons, see Chapter 30.

I. Treaties and Other Instruments

Treaties

265. Article 57(2)(a)(ii) AP I provides that, with respect to attacks, the following precautions shall be taken:

Those who plan or decide upon an attack shall . . . take all feasible precautions in the choice of means and methods of attack with a view to avoiding, and in any event to minimizing, incidental loss of civilian life, injury to civilians and damage to civilian objects.

²⁴⁷ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 428, 434 and 454.

²⁴⁸ ICRC, *The International Committee's Action in the Middle East*, *IRRC*, No. 152, 1973, pp. 584–585.

Article 57 AP I was adopted by 90 votes in favour, none against and 4 abstentions.²⁴⁹

266. Article 7 of the 1999 Second Protocol to the 1954 Hague Convention states that:

Without prejudice to other precautions required by international humanitarian law in the conduct of military operations, each Party to the conflict shall:

- ...
- (b) take all feasible precautions in the choice of means and methods of attack with a view to avoiding, and in any event to minimizing, incidental damage to cultural property protected under Article 4 of the Convention.

Other Instruments

267. Article 9 of the 1956 New Delhi Draft Rules states that:

All possible precautions shall be taken, both in the choice of the weapons and methods to be used, and in the carrying out of an attack, to ensure that no losses or damage are caused to the civilian population in the vicinity of the objective, or to its dwellings, or that such losses or damage are at least reduced to a minimum.

In particular, in towns and other places with a large civilian population, which are not in the vicinity of military or naval operations, the attack shall be conducted with the greatest degree of precision. It must not cause losses or destruction beyond the immediate surroundings of the objective attacked.

268. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 57 AP I.

269. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 57 AP I.

270. Paragraph 46(c) of the 1994 San Remo Manual provides that those who plan, decide upon or execute an attack shall "take all feasible precautions in the choice of methods and means in order to avoid or minimize collateral casualties or damage".

II. National Practice

Military Manuals

271. Argentina's Law of War Manual states that:

Those who plan or decide upon an attack shall, as far as possible, take all precautions in the choice of means and methods of attack in order to minimize the loss of civilian life, injury to civilians and damage to civilian objects which the attack may incidentally cause.²⁵⁰

²⁴⁹ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 211.

²⁵⁰ Argentina, *Law of War Manual* (1989), § 4.07(1).

272. Australia's Defence Force Manual specifies that "all feasible precautions [must be taken], in the choice of means and methods of attack, to minimise collateral damage".²⁵¹ With respect to precision guided weapons, the manual specifies that:

The existence of precision guided weapons... in a military inventory does not mean that they must necessarily be used in preference to conventional weapons even though the latter may cause collateral damage. In many cases, conventional weapons may be used to bomb legitimate military targets without violating LOAC requirements. It is a command decision as to which weapon to use; this decision will be guided by the basic principles of LOAC: military necessity, unnecessary suffering and proportionality.²⁵²

273. Benin's Military Manual states that "precautions must be taken in the choice of weapons and methods of combat in order to avoid civilian losses and damage to civilian objects".²⁵³ The manual specifies that "the direction and the moment of an attack must be chosen so as to reduce civilian losses and damage to civilian objects as much as possible".²⁵⁴

274. Cameroon's Instructors' Manual considers that:

The general rule [to spare civilians and civilian objects] implies the duty to choose and to use means of combat with a view to avoiding civilian losses and damage to civilian objects or with a view to minimising civilian losses and damage to civilian objects which are unavoidable.²⁵⁵

275. Canada's LOAC Manual states that "commanders, planners and staff officers have . . . to take all feasible precautions in the choice of means and methods of attack to avoid, and in any event to minimize, collateral civilian damage".²⁵⁶

276. Croatia's Commanders' Manual requires that "to restrict civilian casualties and damages, the means of combat and weapons shall be adapted to the target".²⁵⁷

277. Croatia's LOAC Compendium states that "where there are tactically equivalent alternatives, the directions, time, objectives and targets of attack shall be chosen so as to cause the least damage to persons and objects".²⁵⁸

278. Ecuador's Naval Manual requires that:

The commander must decide, in light of all the facts known or reasonably available to him, including the need to conserve resources and complete the mission

²⁵¹ Australia, *Defence Force Manual* (1994), § 556(e); see also *Commanders' Guide* (1994), § 957(b).

successfully, whether to adopt an alternative method of attack, if reasonably available, to reduce civilian casualties and damage.²⁵⁹

279. France's LOAC Manual provides that those who plan or decide upon an attack shall "take all precautions which are practically possible in the choice of means and methods of attack with a view to avoiding, and in any event to minimising, loss of civilian life".²⁶⁰

280. Germany's Military Manual states that "before engaging an objective, every responsible military leader shall . . . choose means and methods minimizing incidental injury and damage to civilian life and objects".²⁶¹

281. Hungary's Military Manual states that "where there are tactically equivalent alternatives, the directions, time, objectives and targets of attack shall be chosen so as to cause the least damage to persons and objects".²⁶²

282. Israel's Manual on the Laws of War states that "one should plan the means of attack in a way that will prevent, or at least reduce, the injury to the civilian population".²⁶³

283. Italy's LOAC Elementary Rules Manual requires that "to restrict civilian casualties and damages, the means of combat and weapons shall be adapted to the target".²⁶⁴

284. Kenya's LOAC Manual states that "in the choice of weapons or methods of combat, care must be taken to avoid incidental loss or damage to civilians or civilian objects".²⁶⁵ The manual specifies that:

The direction and the moment of the attack shall be chosen so as to limit civilian casualties and damage (e.g. attack of factory after normal working hours).

The precautions to be taken in targeting for particular weapons and fire units are equivalent to those to be respected in the choice of a military objective. The tactical result expected (e.g. destruction, neutralization) and the destructive power of the ammunition used (quantity, ballistic data, precision, point or area covered, possible effects on the environment) should especially be taken into account.²⁶⁶

285. Madagascar's Military Manual states that "in order to minimise civilian losses and damage to civilian objects, means of combat and weapons shall be appropriate to the objective".²⁶⁷

286. The Military Manual of the Netherlands requires that "precautionary measures be taken in the choice of means and methods of attack in order to

ensure that collateral damage (loss of civilian life and damage to civilian objects) is reduced to the maximum extent possible".²⁶⁸

287. New Zealand's Military Manual states that:

Those who plan or decide upon an attack shall . . . take all feasible precautions in the choice of means and methods of attack with a view to avoiding, and in any event to minimizing, incidental loss of civilian life, injury to civilians and damage to civilian objects.²⁶⁹

288. The Joint Circular on Adherence to IHL and Human Rights of the Philippines states that:

The use of aerial/naval and artillery/mortar fires for interdiction and harassment especially when the fire missions are unobserved and near populated areas and when civilian casualties/material damages are likely to be incurred is strictly prohibited. . . Air strikes may be used under judicious circumstances. Targets shall be carefully evaluated by the close air support commander for approval by the Area Commander. During an actual engagement where the security of an AFP/PNP unit or critical installation/facility is threatened and time is of the essence, the commander of the engaged unit, on his own authority, may selectively apply available fire support means to defend his unit or position, however exercising utmost care to prevent or minimize civilian casualties/material damage.²⁷⁰

289. Spain's LOAC Manual requires that "means and methods of attack must be chosen in order to minimise collateral damage to the civilian population and to civilian objects".²⁷¹

290. Sweden's IHL Manual states that, after target verification, "the next step is for the attacker to select weapons and methods of attack such that unintentional civilian losses and damage to civilian property may be avoided as far as possible".²⁷²

291. Togo's Military Manual states that "precautions must be taken in the choice of weapons and methods of combat in order to avoid civilian losses and damage to civilian objects".²⁷³ The manual specifies that "the direction and the moment of an attack must be chosen so as to reduce civilian losses and damage to civilian objects as much as possible".²⁷⁴

292. The UK LOAC Manual states that "in the choice of weapons or methods of combat, care must be taken to avoid incidental loss or damage to civilians or civilian objects".²⁷⁵

293. The US Air Force Pamphlet states that:

Those who plan or decide upon an attack must take all feasible precautions in the choice of means and methods of attack with a view to avoiding, and in any event to minimizing, incidental loss of civilian life, injury to civilians, and damage to civilian objects.²⁷⁶

294. The US Naval Handbook requires that:

The commander must decide, in light of all the facts known or reasonably available to him, including the need to conserve resources and complete the mission successfully, whether to adopt an alternative method of attack, if reasonably available, to reduce civilian casualties and damage.²⁷⁷

295. The YPA Military Manual of the SFRY (FRY) states that a means of attack proportionate to the importance of the objective should be selected if a civilian population is in the immediate vicinity.²⁷⁸

National Legislation

296. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 57(2)(a)(ii) AP I, is a punishable offence.²⁷⁹

297. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".²⁸⁰

National Case-law

298. No practice was found.

Other National Practice

299. On the basis of an interview with a senior officer of the armed forces, the Report on the Practice of Indonesia states that the Indonesian armed forces normally observe the precautions listed in Article 57 AP I.²⁸¹

300. The Report on the Practice of Iran states, with reference to the Iran-Iraq War, that "Iran claimed that . . . the time of the attack was chosen in a way that the least casualties to civilians would be inflicted. In Iran's view, low damage for Iraqi civilians was the proof of this claim."²⁸²

²⁸¹ Report on the Practice of Indonesia, 1997, Interview with a senior officer of the Indonesian armed forces, Chapter 1.6.

²⁸² Report on the Practice of Iran, 1997, Chapter 1.6.

301. On the basis of a reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq states that it appears from the practice of the Iraqi armed forces during the Iran–Iraq War that “each target has its own special weapon”.²⁸³

302. The Report on the Practice of Israel states that:

During the pre-attack planning phases, the IDF incorporates all feasible precautions in order to ensure, as far as possible, that incidental civilian loss, injury or damage is minimized. These measures include: detailed and continuous assessment of all available information in relation to the target; use of best available ammunition or weapon systems which enable minimizing incidental damage; and timing of the attack to minimize, as far as possible, incidental damage.²⁸⁴

303. The Report on the Practice of Japan refers to a statement made by Japan at the CDDH to the effect that “those who planned an attack by incendiary weapons were required to weigh carefully beforehand whether some other means of attack could be used in order to minimize civilian casualties”.²⁸⁵

304. According to the Report on the Practice of Malaysia, the obligation to choose means and methods of warfare with a view to avoiding or minimising incidental loss of civilian life and damage to civilian objects forms part of Malaysian practice.²⁸⁶

305. According to the government of the Netherlands, commanders have to take all the precautionary measures required by Article 57 AP I when carrying out an attack.²⁸⁷

306. The Report on the Practice of Syria asserts that Syria considers Article 57 AP I to be part of customary international law.²⁸⁸

307. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK stated that “attacks have been directed exclusively at military objectives, using precision weapons wherever possible, particularly in areas where there may be civilians near the targets”.²⁸⁹

308. In 1991, during a debate in the UN Security Council on the Gulf War, the UK stated that all targets were carefully selected and that precision weapons were used wherever possible.²⁹⁰

309. In 1991, during a news briefing concerning the Gulf War, the US Secretary of Defense stated that:

²⁸³ Report on the Practice of Iraq, 1998, Reply by the Iraqi Ministry of Defence to a questionnaire, July 1997, Chapter 1.5.

²⁸⁴ Report on the Practice of Israel, 1997, Chapter 1.6, see also Chapter 1.3.

²⁸⁵ Report on the Practice of Japan, 1998, Chapter 1.6, referring to Statement by Japan at the CDDH, *Official Records*, Vol. XVI, CDDH/IV/SR.27, 19 May 1976, p. 279, § 24.

²⁸⁶ Report on the Practice of Malaysia, 1997, Answers to additional questions on Chapter 1.6.

²⁸⁷ Netherlands, Lower House of Parliament, Memorandum in response to the report on the ratification of the Additional Protocols, 1985–1986 Session, Doc. 18 277 (R 1247), No. 6, 16 December 1985, p. 7, § 17.

²⁸⁸ Report on the Practice of Syria, 1997, Chapter 1.6.

²⁸⁹ UK, Letter dated 13 February 1991 to the President of the UN Security Council, UN Doc. S/22218, 13 February 1991, p. 1.

²⁹⁰ UK, Statement before the UN Security Council, UN Doc. S/PV.2977, 16 February 1991.

Iraq, on the other hand, has chosen to launch a highly inaccurate weapon – the SCUD missile – at major population centers, with no certainty about where the SCUDs will land. In contrast, we have carefully chosen our targets and we've bombed them with precision.²⁹¹

310. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

Coalition forces took several steps to minimize the risk of injury to noncombatants. To the degree possible and consistent with allowable risk to aircraft and aircrews, aircraft and munitions were selected so that attacks on targets within populated areas would provide the greatest possible accuracy and the least risk to civilian objects and the civilian population . . . One reason for the maneuver plan adopted for the ground campaign was that it avoided populated areas, where Coalition and Iraqi civilian casualties and damage to civilian objects necessarily would have been high. This was a factor in deciding against an amphibious assault into Kuwait City . . . Iraqi units remaining in Kuwait City would cause the Coalition to engage in military operations in urban terrain, a form of fighting that is costly to attacker, defender, innocent civilians, and civilian objects. The decision was made to permit Iraqi forces to leave Kuwait City and engage them in the unpopulated area to the north.²⁹²

311. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that:

A number of steps can be taken by an attacker in order to minimize collateral damage to natural resources or cultural property. Many of these come in the design and development of weapons, weapon systems, and target intelligence, target acquisition, or weapons delivery systems. Each of these systems is enhanced by the quality of training provided [to] personnel responsible for their operation. U.S. efforts to develop, acquire, and utilize weapon systems such as the F-117 aircraft, the laser-guided bomb, and the Tomahawk missile are illustrative of the degree to which the armed services have sought precision in their military operations in order to minimize collateral damage . . . To the degree possible and consistent with allowable risks to aircraft and aircrews, [during the Gulf War] aircraft and munitions were selected so that attacks on targets in proximity to cultural objects would provide the greatest possible accuracy and the least risk of collateral damage to the cultural property.²⁹³

312. The Report on the Practice of Zimbabwe states that the provisions of Article 57 AP I would be regarded as customary by Zimbabwe because of its adoption of the Geneva Conventions Amendment Act which incorporates API into Zimbabwe's law and practice.²⁹⁴

²⁹¹ US, News Briefing by the US Secretary of Defense and the Chairman of the Joint Chiefs of Staff, Washington, 23 January 1991, annexed to Letter dated 25 January 1991 to the President of the UN Security Council, UN Doc. S/22168, 29 January 1991, p. 3.

²⁹² US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, pp. 622 and 643.

²⁹³ US, Department of Defense, Report to Congress on International Policies and Procedures Regarding the Protection of Natural and Cultural Resources During Times of War, 19 January 1993, pp. 203 and 205.

²⁹⁴ Report on the Practice of Zimbabwe, 1998, Chapter 1.6.

III. Practice of International Organisations and Conferences

United Nations

313. No practice was found.

Other International Organisations

314. During the air campaign against the FRY in 1999, NATO expressly stated that it looked specifically at the weapon to be used against a specific target:

Once we've done that [target identification] we then look at the sort of weapons that we use. We try and make sure that we use a specific weapon which is specialised and is the best possible weapon to use against that specific target.²⁹⁵

315. With respect to the air campaign against the FRY in 1999, the Secretary-General of NATO declared that "international law and public opinion" required the use of precision weapons.²⁹⁶

International Conferences

316. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

317. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that Article 57 AP I was now part of customary international law, not only because it specified and fleshed out general pre-existing norms, but also because it did not appear to be contested by any State, including those who had not ratified the Protocol.²⁹⁷ With reference to the Martens Clause, the Trial Chamber held that:

The prescriptions of . . . [Article 57] (and of the corresponding customary rules) must be interpreted so as to construe as narrowly as possible the discretionary power to attack belligerents and, by the same token, so as to expand the protection accorded to civilians.²⁹⁸

318. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that:

The military worth of the target would need to be considered in relation to the circumstances prevailing at the time. If there is a choice of weapons or methods of

²⁹⁵ NATO, Press Conference by Nato Spokesperson Jamie Shea and Air Commodore David Wilby, Brussels, 3 April 1999, p. 11.

Belt, Missiles over Kosovo: Emergence, Lex Lata, of a Customary Norm Requiring the Use of Precision Munition in Urban Areas, *Naval Law Review*, Vol. 47, 2000, p. 165.

²⁹⁷ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 524.

²⁹⁸ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 525.

attack available, a commander should select those which are most likely to avoid, or at least minimize, incidental damage. In doing so, however, he is entitled to take account of factors such as stocks of different weapons and likely future demands, the timeliness of attack and risks to his own forces. In determining whether or not the *mens rea* requirement [intention or recklessness, for the offence of unlawful attack under Article 3 of the ICTY Statute] has been met, it should be borne in mind that commanders deciding on an attack have duties:

- ...
- b) to take all practicable precautions in the choice of methods and means of warfare with a view to avoiding or, in any event to minimizing, incidental civilian casualties or civilian property damage.²⁹⁹

319. In its judgement in *Ergi v. Turkey* in 1998, the ECtHR held that:

The responsibility of the State is not confined to circumstances where there is significant evidence that misdirected fire from agents of the State has killed a civilian. It may also be engaged where they fail to take all feasible precautions in the choice of means and methods of a security operation mounted against an opposing group with a view to avoiding and, in any event, to minimising, incidental loss of civilian life.³⁰⁰

V. Practice of the International Red Cross and Red Crescent Movement

320. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces the following rules:

The means of combat shall be chosen and used so as to:

- a) avoid civilian casualties and damage;
- b) minimize in any event unavoidable casualties and damage.

The direction and the moment of the attack shall be chosen so as to limit civilian casualties and damage (e.g. attack of factory after normal working hours).

Targets for particular weapons and fire units shall be determined and assigned with the same precautions as to military objectives, specially taking into account the tactical result expected (e.g. destruction, neutralization) and the destructive power of the ammunition used (quantity, ballistic data, precision, point or area covering, possible effects on the environment).³⁰¹

321. In an appeal launched in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 50(2) of draft API, which stated that “all necessary precautions shall be taken in the choice of

²⁹⁹ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, §§ 21 and 28.

³⁰⁰ ECtHR, *Ergi v. Turkey*, Judgement, 28 July 1998, § 79, see also § 80.

³⁰¹ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 393, 432 and 433.

weapons and methods of attack so as not to cause losses in civilian lives and damage to civilian objects in the immediate vicinity of military objectives to be attacked". All governments concerned replied favourably.³⁰²

VI. Other Practice

322. In 1994, in a letter to the government of Yemen, Human Rights Watch stated that "the rules of war also require that you take all feasible precautions in the choice of tactics and weapons with a view to avoiding or minimizing such civilian losses".³⁰³

323. In 1994, officials from a separatist entity stated to the ICRC that it had ordered its troops not to bombard targets located within 500 metres of civilian dwellings.³⁰⁴

324. On the basis of replies by army officers to a questionnaire, the Report on the Practice of Rwanda refers to the practice of the FPR of avoiding, on occasion, the use of heavy weaponry during the fighting in Kigali in order to spare homes.³⁰⁵

D. Assessment of the Effects of Attacks

Note: For practice concerning disproportionate attacks, see Chapter 4.

I. Treaties and Other Instruments

Treaties

325. Article 57(2)(a)(iii) AP I provides that, with respect to attacks, the following precautions shall be taken:

Those who plan or decide upon an attack shall . . . refrain from deciding to launch any attack which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.

Article 57 AP I was adopted by 90 votes in favour, none against and 4 abstentions.³⁰⁶

326. Article 7 of the 1999 Second Protocol to the 1954 Hague Convention states that:

³⁰² ICRC, *The International Committee's Action in the Middle East*, *IRRC*, No. 152, 1973, pp. 584–585.

³⁰³ Human Rights Watch, Letter to the government of Yemen, New York, 19 May 1994.

³⁰⁴ ICRC archive document.

³⁰⁵ Report on the Practice of Rwanda, 1997, Replies by Rwandan army officers to a questionnaire, Chapter 1.6.

³⁰⁶ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 211.

Without prejudice to other precautions required by international humanitarian law in the conduct of military operations, each Party to the conflict shall:

- ...
- (c) refrain from deciding to launch any attack which may be expected to cause incidental damage to cultural property protected under Article 4 of the Convention which would be excessive in relation to the concrete and direct military advantage anticipated.

Other Instruments

327. Article 8(b) of the 1956 New Delhi Draft Rules states that:

The person responsible for ordering or launching an attack shall, first of all:

- ...
- (b) take into account the loss and destruction which the attack, even if carried out with the precautions prescribed under Article 9, is liable to inflict upon the civilian population. He is required to refrain from the attack if, after due consideration, it is apparent that the loss and destruction would be disproportionate to the military advantage anticipated.

328. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 57 AP I.

329. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 57 AP I.

330. Paragraph 46(d) of the 1994 San Remo Manual provides that “an attack shall not be launched if it may be expected to cause collateral casualties or damage which would be excessive in relation to the concrete and direct military advantage anticipated from the attack as a whole”.

II. National Practice

Military Manuals

331. Argentina’s Law of War Manual states that:

Those who plan or decide upon an attack shall, as far as possible, abstain from deciding to launch an attack . . . if it becomes apparent that the attack may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.³⁰⁷

332. Australia’s Defence Force Manual states that those responsible for deciding upon an attack must refrain from “launching any attack which may be

³⁰⁷ Argentina, *Law of War Manual* (1989), § 4.07(1).

expected to cause collateral injury, or collateral damage, which would be excessive in relation to the concrete and direct military advantage anticipated".³⁰⁸

333. Belgium's Law of War Manual states that "everything possible must be done to avoid incidental damage to civilian objects and loss of civilian life: when this damage and this loss appears to be excessive in relation to the anticipated military advantage, the attack must not take place".³⁰⁹

334. Benin's Military Manual states that "precautions must be taken in order to minimise civilian losses and damage to civilian objects. These precautions include respect for the rules of proportionality."³¹⁰

335. Cameroon's Instructors' Manual considers that "the principle of proportionality rests on the prohibition to launch attacks which will cause losses to civilian populations and damage to civilian objects which are excessive in relation to the anticipated military advantage".³¹¹

336. Canada's LOAC Manual states that:

Commanders, planners and staff officers have...to refrain from launching any attack which may be expected to cause collateral civilian damage which would be excessive in relation to the concrete and direct military advantage anticipated (proportionality test).³¹²

337. Ecuador's Naval Manual requires that:

Naval commanders must take all reasonable precautions...In each instance, the commander must determine whether incidental injuries and collateral damage would be excessive, on the basis of an honest and reasonable estimate of the facts available to him.³¹³

338. France's LOAC Manual provides that:

Those who plan or decide upon an attack shall...refrain from deciding to launch any attack which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.³¹⁴

339. Germany's Military Manual requires that:

Before engaging an objective, every responsible military leader shall...refrain from launching any attack which may be expected to cause incidental injury and damage to civilian life and objects which would be excessive in relation to the concrete and direct military advantage anticipated.³¹⁵

³⁰⁸ Australia, *Defence Force Manual* (1994), § 556(f); see also *Commanders' Guide* (1994), § 957(c).

³⁰⁹ Belgium, *Law of War Manual* (1983), p. 28.

³¹⁰ Benin, *Military Manual* (1995), Fascicule II, p. 6.

³¹³ Ecuador, *Naval Manual* (1989), § 8.1.2.1.

³¹⁴ France, *LOAC Manual* (2001), p. 49, see also p. 89.

³¹⁵ Germany, *Military Manual* (1992), § 457.

340. Israel's Manual on the Laws of War states that "the commander is required to refrain from an attack that is expected to inflict harm on the civilian population that is disproportionate to the expected military gain".³¹⁶

341. The Military Manual of the Netherlands states that "during the selection of targets and the preparation of attacks, an attack must be renounced if it can be expected that it may cause damage which is excessive in relation to the anticipated military advantage".³¹⁷

342. New Zealand's Military Manual states that:

Those who plan or decide upon an attack shall . . . refrain from deciding to launch any attack which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.³¹⁸

343. According to Nigeria's Military Manual, "precaution shall be taken to minimise civilian casualties and damage and the precaution comprises the respect for the rule of proportionality (civilian casualties not being excessive in relation to the military advantage anticipated)".³¹⁹

344. Spain's LOAC Manual requires that:

It shall not be decided to launch an attack when, from the information available at the time of the decision, it may be expected to cause damage to civilian persons and/or objects which would be excessive in relation to the concrete and direct military advantage anticipated from the attack as a whole and not only from isolated parts thereof.³²⁰

345. Sweden's IHL Manual states that:

If the attack may be expected to entail such large losses in human life, injury to civilians or damage to civilian property, or a combination of these, that they may be judged excessive in relation to the anticipated concrete and direct advantage, the commander shall refrain from attacking.³²¹

346. Togo's Military Manual states that "precautions must be taken in order to minimise civilian losses and damage to civilian objects. These precautions include respect for the rules of proportionality."³²²

347. The US Air Force Pamphlet states that:

Those who plan or decide upon an attack must refrain from deciding to launch any attack which may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.³²³

³¹⁶ Israel, *Manual on the Laws of War* (1998), p. 40.

³¹⁷ Netherlands, *Military Manual* (1993), p. V-11.

³²⁰ Spain, *LOAC Manual* (1996), Vol. I, § 2.5.b.

³²¹ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 71.

³²² Togo, *Military Manual* (1996), Fascicule II, p. 6.

³²³ US, *Air Force Pamphlet* (1976), § 5-3(c)(1)(b)(i)(c).

348. The US Naval Handbook requires that:

Naval commanders must take all reasonable precautions... In each instance, the commander must determine whether incidental injuries and collateral damage would be excessive, on the basis of an honest and reasonable estimate of the facts available to him.³²⁴

349. The YPA Military Manual of the SFRY (FRY) states that "an attack undertaken with disproportionate means on a military objective of lesser importance in an urban settlement, which would lead to big casualties among the civilian population, is contrary to the international law of war".³²⁵

National Legislation

350. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 57(2)(a)(iii) AP I, is a punishable offence.³²⁶

351. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in... the two additional protocols to [the Geneva] Conventions... is liable to imprisonment".³²⁷

National Case-law

352. No practice was found.

Other National Practice

353. On the basis of an interview with a senior officer of the armed forces, the Report on the Practice of Indonesia states that the Indonesian armed forces normally observe the precautions listed in Article 57 AP I.³²⁸

354. According to the Report on the Practice of Iraq, the target should not induce the use of excessive force because the possible harm to civilians or undue damage to their possessions might exceed the specific military purpose. On the basis of a press conference given by the President of Iraq in 1980, the report considers that this means acting with only the degree of force necessary to achieve the specific military objective. The aim is to give due regard to humanitarian requirements and to lessen civilian suffering.³²⁹

³²⁴ US, *Naval Handbook* (1995), § 8.1.2.1.

³²⁵ SFRY (FRY), *YPA Military Manual* (1988), § 72(2).

³²⁹ Report on the Practice of Iraq, 1998, Chapter 1.5, referring to Press Conference of the President, 10 November 1980, *Encyclopedia of the Iraqi-Iranian War*, Vol. I, p. 318.

355. According to the government of the Netherlands, commanders have to take all the precautionary measures required by Article 57 AP I when carrying out an attack.³³⁰

356. The Report on the Practice of Syria asserts that Syria considers Article 57 AP I to be part of customary international law.³³¹

357. In 1991, in reply to a question in the House of Lords concerning the use of conventional weapons against nuclear facilities, chemical weapons plants and dumps, and petrochemical enterprises situated in towns or cities, the UK Minister of State, FCO, stated that:

International law requires that, in planning an attack on any military objective, account is taken of certain principles. These include the [principle] . . . that an attack should not be launched if it can be expected to cause civilian losses which would be disproportionate to the military advantage expected from the attack as a whole.³³²

358. In 1991, in response to a question in the Defence Committee of the UK House of Commons on whether or not there were occasions during the Gulf War when he decided that it would not be appropriate for the Royal Air Force to attack a particular target, Air Vice Marshal Wratten stated that:

Yes, there were such occasions. In particular, when we were experiencing collateral damage, such as it was, and some of the targets were in locations where with any weapon system malfunction severe collateral damage would have resulted inevitably, then there were one or two occasions that I chose not to go against those targets, but they were very few and far between and they were not – and this is the most important issue – in my judgment and in the judgment of the Americans of a critical nature, that is to say, they were not fundamental to the timely achievement of the victory. Had that been the case, then regrettably, irrespective of what collateral damage might have resulted, one would have been responsible and had a responsibility for accepting those targets and for going against them.³³³

359. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that “some targets were specifically avoided because the value of destruction of each target was outweighed by the potential risk to nearby civilians or, as in the case of certain archaeological and religious sites, to civilian objects”.³³⁴

360. The Report on the Practice of Zimbabwe states that the provisions of Article 57 AP I would be regarded as customary by Zimbabwe because of

³³⁰ Netherlands, Lower House of Parliament, Memorandum in response to the report on the ratification of the Additional Protocols, 1985–1986 Session, Doc. 18 277 (R 1247), No. 6, 16 December 1985, p. 7, § 17.

³³⁴ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, p. 622.

its adoption of the Geneva Conventions Amendment Act, which incorporates AP I into Zimbabwe's law and practice.³³⁵

III. Practice of International Organisations and Conferences

361. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

362. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that Article 57 AP I was now part of customary international law, not only because it specified and fleshed out general pre-existing norms, but also because it did not appear to be contested by any State, including those who had not ratified the Protocol.³³⁶ With reference to the Martens Clause, the Trial Chamber held that:

The prescriptions of . . . [Article 57] (and of the corresponding customary rules) must be interpreted so as to construe as narrowly as possible the discretionary power to attack belligerents and, by the same token, so as to expand the protection accorded to civilians.³³⁷

363. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia stated that:

In determining whether or not the *mens rea* requirement [intention or recklessness, for the offence of unlawful attack under Article 3 of the ICTY Statute] has been met, it should be borne in mind that commanders deciding on an attack have duties:

- ...
- c) to refrain from launching attacks which may be expected to cause disproportionate civilian casualties or civilian property damage.³³⁸

V. Practice of the International Red Cross and Red Crescent Movement

364. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

When planning actions that could endanger civilian persons and objects, the same extent of care and precautions which are to be taken in the conduct of operations

³³⁵ Report on the Practice of Zimbabwe, 1998, Chapter 1.6.

³³⁶ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 524.

³³⁷ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 525.

³³⁸ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, §§ 21 and 28.

must be also taken at this stage. The precautions comprise respect for the rule of proportionality.³³⁹

365. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 50(1)(a) of draft AP I, which stated in part that:

Those who plan or decide upon an attack shall ensure that the objectives to be attacked . . . may be attacked without incidental losses in civilian lives and damage to civilian objects in their vicinity being caused or that at all events those losses or damage are not disproportionate to the direct and substantial military advantage anticipated. [Proposal I]

All governments concerned replied favourably.³⁴⁰

VI. Other Practice

366. Following NATO's air campaign in the FRY in 1999, Human Rights Watch criticised NATO's decision to attack the Novi Sad bridge and six other bridges in which civilian deaths occurred. According to Human Rights Watch, these bridges were road bridges and most were urban or town bridges that were not major routes of communications. As a result, "the risk in terms of civilian casualties in attacking urban bridges, or in attacking during daylight hours, is 'excessive in relation to the concrete and direct military advantage anticipated,' the standard of proportionality codified in Protocol I, art. 57".³⁴¹

E. Control during the Execution of Attacks

I. Treaties and Other Instruments

Treaties

367. Article 57(2)(b) AP I provides that, with respect to attacks, the following precautions shall be taken:

An attack shall be cancelled or suspended if it becomes apparent that the objective is not a military one or subject to special protection or that the attack may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.

³³⁹ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 390 and 458.

³⁴⁰ ICRC, *The International Committee's Action in the Middle East*, *IRRC*, No. 152, 1973, pp. 584–585.

³⁴¹ Human Rights Watch, *Civilian Deaths in the NATO Air Campaign*, New York, 7 February 2000, p. 11.

Article 57 AP I was adopted by 90 votes in favour, none against and 4 abstentions.³⁴²

368. Article 7 of the 1999 Second Protocol to the 1954 Hague Convention provides that:

Without prejudice to other precautions required by international humanitarian law in the conduct of military operations, each Party to the conflict shall:

- ...
- (d) cancel or suspend an attack if it becomes apparent:
 - (i) that the objective is cultural property protected under Article 4 of the Convention;
 - (ii) that the attack may be expected to cause incidental damage to cultural property protected under Article 4 of the Convention which would be excessive in relation to the concrete and direct military advantage anticipated.

Other Instruments

369. Article 9 of the 1956 New Delhi Draft Rules states that:

All possible precautions shall be taken, both in the choice of the weapons and methods to be used, and in the carrying out of an attack, to ensure that no losses or damage are caused to the civilian population in the vicinity of the objective, or to its dwellings, or that such losses or damage are at least reduced to a minimum.

In particular, in towns and other places with a large civilian population, which are not in the vicinity of military or naval operations, the attack shall be conducted with the greatest degree of precision. It must not cause losses or destruction beyond the immediate surroundings of the objective attacked.

The person responsible for carrying out the attack must abandon or break off the operation if he perceives that the conditions set forth above cannot be respected.

370. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 57 AP I.

371. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 57 AP I.

372. Paragraph 46(d) of the 1994 San Remo Manual provides that "an attack shall be cancelled or suspended as soon as it becomes apparent that the collateral casualties or damage would be excessive".

II. National Practice

Military Manuals

373. Argentina's Law of War Manual states that:

Those who plan or decide upon an attack shall, as far as possible, ... suspend or cancel an attack if it becomes apparent that the attack may be expected to cause

³⁴² CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 211.

incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.³⁴³

374. Australia's Commanders' Guide provides that "an attack must be cancelled or suspended if it becomes apparent that the target is not a legitimate military objective and excessive collateral damage would occur in relation to the direct military advantage".³⁴⁴

375. Australia's Defence Force Manual provides an example of the obligation to cancel an attack when the object is not a military objective or is subject to special protection:

For example, aircrew may be ordered to bomb what the mission planner believes to be a command and control centre. If, in the course of the mission, the command and control centre is displaying an unbriefed symbol of protection, eg Red Cross symbol, then aircrew must refrain from completing their attack. The Red Cross symbol indicates the facility is a protected installation and is immune from attack unless intelligence, or higher authority, determines that the facility has lost its protected status because the emblem is being misused.³⁴⁵

376. According to Belgium's Law of War Manual, an attack must be cancelled "if the military advantage is inferior to the damage".³⁴⁶

377. Benin's Military Manual states that "an attack shall be cancelled or suspended if it becomes apparent that the objective, aim or target is not military".³⁴⁷

378. Cameroon's Instructors' Manual requires that:

An attack shall be cancelled or suspended if it becomes apparent that the objective is not a military one or subject to special protection or that the attack may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.³⁴⁸

379. Canada's LOAC Manual provides that:

An attack must be cancelled or suspended if it becomes apparent that the objective is not a legitimate target, or that the attack may be expected to cause collateral civilian damage which would be excessive in relation to the concrete and direct military advantage anticipated.³⁴⁹

³⁴³ Argentina, *Law of War Manual* (1989), § 4.07(1).

³⁴⁹ Canada, *LOAC Manual* (1999), p. 4-4, § 28, see also p. 4-3, § 18 (proportionality test) and p. 7-5, § 50 (air to land operations).

380. Colombia's Basic Military Manual states that "an attack shall be suspended or cancelled if it appears that it will cause superfluous damage to civilians and civilian objects regarding the expected military advantage."³⁵⁰

381. Croatia's Commanders' Manual requires that "if in the course of an attack the target or the objective appears not to be military, the commander shall deviate or cancel the attack".³⁵¹

382. France's LOAC Manual states that "the law of armed conflict obliges commanders to take precautionary measures in the preparation *and* execution of attacks in order to limit their effects and to make sure they have no indiscriminate effects".³⁵² (emphasis added)

383. Germany's Military Manual provides that "an attack shall be suspended if it becomes apparent that the objective is not a military one or is subject to special protection or that the attack may be expected to cause excessive incidental loss of civilian life or damage".³⁵³

384. Hungary's Military Manual requires that "during operations, adjustments shall be made according to the tactical situation".³⁵⁴

385. Italy's LOAC Elementary Rules Manual requires that "if in the course of an attack the target or the objective appears not to be military, the commander shall deviate or cancel the attack".³⁵⁵

386. Kenya's LOAC Manual provides that "the attack shall be deviated or cancelled if the objective or target appears not to be military".³⁵⁶ The manual further specifies that "if the resulting loss or damage of a military operation would be excessive in relation to the concrete and direct military advantage excepted, the operation must be cancelled or suspended".³⁵⁷

387. Madagascar's Military Manual states that "a commander must suspend or cancel an attack if, in the course of the attack, it becomes apparent that the target or objective is not a military one".³⁵⁸

388. The Military Manual of the Netherlands states that:

Once an attack has been launched the issue of cancellation or suspension may arise. In principle, the same rules apply as to the refraining from deciding to launch an attack in the preparation phase.

The extent to which commanders and their possible staff will be held accountable to comply with these rules depends on three factors:

- Freedom of choice of means and methods.
- Availability of information.
- Available time.

³⁵⁰ Colombia, *Basic Military Manual* (1995), p. 47.

³⁵¹ Croatia, *Commanders' Manual* (1992), § 56.

³⁵² France, *LOAC Manual* (2001), p. 28. ³⁵³ Germany, *Military Manual* (1992), § 457.

³⁵⁴ Hungary, *Military Manual* (1992), p. 58.

³⁵⁵ Italy, *LOAC Elementary Rules Manual* (1991), § 56.

³⁵⁶ Kenya, *LOAC Manual* (1997), Précis No. 4, p. 9.

³⁵⁷ Kenya, *LOAC Manual* (1997), Précis No. 4, p. 1.

³⁵⁸ Madagascar, *Military Manual* (1994), Fiche No. 6-O, § 27.

The higher the level [of command] the stricter the application of these rules can be required.³⁵⁹

389. New Zealand's Military Manual states that:

An attack shall be cancelled or suspended if it becomes apparent that the objective is not a military one or is subject to special protection or that the attack may be excepted to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof, which would be excessive in relation to the concrete and direct military advantage anticipated.³⁶⁰

The manual considers, however, that:

In practice, it is extremely difficult to stop an attack. The obligation does not extend below the levels of commanders who have the authority and practical possibility to do so; say a commander of a battalion group. The obligation is in any event subject to the knowledge principle . . . which means that its application will be rare.³⁶¹

390. Spain's LOAC Manual states that "if in the course of an attack the objective appears not to be military, the commander shall deviate or cancel the attack".³⁶² The manual further states that:

An attack must be suspended or cancelled when, from the information available at the time of the execution of the attack, it may be expected to cause damage to civilian persons and/or objects which would be excessive in relation to the military advantage anticipated from the attack as a whole.³⁶³

391. Sweden's IHL Manual states that:

Even after a decision to attack has been made by a senior commander, the attack can be cancelled or suspended . . . in the following cases:

- a. the objective proves not to be a military one, or to be entitled to special protection. An example of this is where military vehicles are being used as ambulances.
- b. If it can be expected that the attack will cause such large unintentional civilian losses and damage that these would be excessive in relation to the anticipated and direct military advantage. In this case, the proportionality rule must thus be reapplied at a later stage. The feasibility of doing this depends to a large degree on the type of attack involved. For example, to require an assessment according to the proportionality rule from an individual aircraft pilot is probably unrealistic.³⁶⁴

³⁵⁹ Netherlands, *Military Manual* (1993), p. V-11.

³⁶⁰ New Zealand, *Military Manual* (1992), § 518(1).

³⁶¹ New Zealand, *Military Manual* (1992), § 518(5).

³⁶⁴ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 72.

392. Switzerland's Basic Military Manual states that "if the military advantage is disproportionate to the damage, [commanding officers at the battalion or group level, and those of higher ranks,] must cancel or suspend the attack".³⁶⁵

393. Togo's Military Manual states that "an attack shall be cancelled or suspended if it becomes apparent that the objective, aim or target is not military".³⁶⁶

394. The UK LOAC Manual states that "if the resulting loss or damage would be excessive in relation to the concrete and direct military advantage expected, the operation must be cancelled or suspended".³⁶⁷

395. The US Air Force Pamphlet states that:

An attack must be cancelled or suspended if it becomes apparent that the objective is not a military one, or that it is subject to special protection or that the attack may be expected to cause incidental loss of civilian life, injury to civilians, damage to civilian objects, or a combination thereof which would be excessive in relation to the concrete and direct military advantage anticipated.³⁶⁸

National Legislation

396. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 57(2)(b) AP I, is a punishable offence.³⁶⁹

397. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".³⁷⁰

National Case-law

398. No practice was found.

Other National Practice

399. The Report on the Practice of Egypt states that a planned attack must be suspended or terminated if it becomes clear that in spite of the precautions taken, the loss inflicted upon civilians or protected objects would be disproportionate to the foreseen military advantage.³⁷¹

400. On the basis of an interview with a senior officer of the armed forces, the Report on the Practice of Indonesia states that the Indonesian armed forces normally observe the precautions listed in Article 57 AP I.³⁷²

³⁶⁵ Switzerland, *Basic Military Manual* (1987), Article 29(2).

³⁷⁰ Norway, *Military Penal Code as amended* (1902), § 108(b).

³⁷¹ Report on the Practice of Egypt, 1997, Chapter 1.6.

³⁷² Report on the Practice of Indonesia, 1997, Interview with a senior officer of the Indonesian armed forces, Chapter 1.6.

401. On the basis of a reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq states that during the Iran–Iraq War, Iraqi pilots refrained from striking listed targets that appeared to be civilian objects. These pilots were not held responsible for the apparent failure to follow their orders.³⁷³

402. According to the Report on the Practice of Israel, "in principle, the IDF will endeavour to suspend or cancel an attack if it becomes apparent that the objective is not of a military nature or will result in excessive incidental loss of civilian life".³⁷⁴

403. The Report on the Practice of Jordan notes that a booklet on the LOAC prepared by the ICRC is used by military commanders. The booklet refers to the obligation to suspend or cancel an attack if the objective is not of a military nature.³⁷⁵

404. According to the Report on the Practice of Malaysia, the obligation to cancel or suspend an attack under the circumstances indicated in Article 57(2)(b) AP I forms part of Malaysian practice.³⁷⁶

405. According to the government of the Netherlands, commanders have to take all the precautionary measures required by Article 57 AP I when carrying out an attack.³⁷⁷

406. The Report on the Practice of Syria asserts that Syria considers Article 57 AP I to be part of customary international law.³⁷⁸

407. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the UK stated that on a number of occasions attacks had not been "pressed home" because pilots were not completely satisfied that the order to avoid damage to sites of religious or cultural significance would be met.³⁷⁹

408. The Report on US Practice notes that "during the 12-day bombardment campaign of 1972, the crews of B-52 heavy bombers took a number of steps to minimize civilian casualties in the heavily-populated Hanoi and Haiphong areas".³⁸⁰ A published account of these events states that:

The instructions to the RNs [radar navigators] were that if they were not 100 percent sure of their aiming point, "then don't drop; bring the bombs back" ... We had been briefed not to make any evasive maneuvers on the bomb run so that the radar navigator would be positive he was aiming at the right target. If he was not

³⁸⁰ Report on US Practice, 1997, Chapter 1.6.

absolutely sure he had the right target, we were to withhold our bombs and then jettison them into the ocean on our way back to Guam. We did not want to hit anything but military targets. Precision bombing was the object of our mission. The crews were briefed this way and they followed their instructions.³⁸¹

409. In 1991, during a news briefing concerning the Gulf War, the US Secretary of Defense stated that “the pilots of the allied air forces have operated in accordance with clear instructions to launch weapons only when they are certain they’ve selected the right targets under correct conditions”.³⁸²

410. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

Where required, attacking aircraft were accompanied by support mission aircraft to minimize attacking aircraft aircrew distraction from their assigned mission. Aircrews attacking targets in populated areas were directed not to expend their munitions if they lacked positive identification of their targets. When this occurred, aircrews dropped their bombs on alternate targets or returned to base with their weapons.³⁸³

411. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that “aircrews attacking targets in proximity to cultural property were directed not to expend their munitions if they lacked positive identification of their targets”.³⁸⁴

412. The Report on the Practice of Zimbabwe states that the provisions of Article 57 AP I would be regarded as customary by Zimbabwe because of its adoption of the Geneva Conventions Amendment Act which incorporates AP I into Zimbabwe’s law and practice.³⁸⁵

III. Practice of International Organisations and Conferences

United Nations

413. No practice was found.

Other International Organisations

414. During the NATO air campaign against the FRY in 1999, NATO stated that when pilots could not be certain of hitting a certain target with accuracy,

³⁸¹ James R. McCarthy and George B. Allison, *Linebacker II: A View From the Rock*, US Air Force Southeast Asia Monograph Series, Volume VI, Monograph 8, 1979, pp. 46–47, 50 and 59–64.

³⁸⁵ Report on the Practice of Zimbabwe, 1998, Chapter 1.6.

they were instructed not even to attempt to do so, in order to avoid collateral damage.³⁸⁶

International Conferences

415. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

416. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that Article 57 AP I was now part of customary international law, not only because it specified and fleshed out general pre-existing norms, but also because it did not appear to be contested by any State, including those who had not ratified the Protocol.³⁸⁷ With reference to the Martens Clause, the Trial Chamber held that:

The prescriptions of . . . [Article 57] (and of the corresponding customary rules) must be interpreted so as to construe as narrowly as possible the discretionary power to attack belligerents and, by the same token, so as to expand the protection accorded to civilians.³⁸⁸

V. Practice of the International Red Cross and Red Crescent Movement

417. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 50(1)(b) of draft AP I, which stated that:

Those who launch an attack shall, if possible, cancel or suspend it if it becomes apparent that the objective is not a military one or that incidental losses in civilian lives and damage to civilian objects would be disproportionate to the direct and substantial advantage anticipated.

All governments concerned replied favourably.³⁸⁹

418. In a statement following NATO's air strikes against the FRY in 1999, the ICRC recalled that:

According to international humanitarian law, the parties to the conflict must take every feasible precaution when carrying out attacks. This includes aborting missions if it becomes clear that the objective is not military in nature or that the attack

³⁸⁶ NATO, Press Conference, 27 March 1999.

³⁸⁷ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 524.

³⁸⁸ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 525.

³⁸⁹ ICRC, The International Committee's Action in the Middle East, *IRRC*, No. 152, 1973, pp. 584–585.

may be expected to cause incidental loss of civilian life that would be excessive in relation to the military advantage anticipated.³⁹⁰

VI. *Other Practice*

419. In its report on the NATO bombings of the FRY issued in 2000, Amnesty International concluded that “civilian deaths could have been significantly reduced if NATO forces had fully adhered to the laws of war. NATO did not always meet its legal obligations in selecting targets and in choosing means and methods of attack.” For instance, the report stated, in certain attacks, “including the Grdelica railroad bridge, the automobile bridge in Lužane, and Varvarin bridge, NATO forces failed to suspend their attack after it was evident that they had struck civilians, in contravention of Article 57(2)(b) of Protocol I”.³⁹¹

F. Advance Warning

Note: For practice concerning warnings when using booby-traps, see Chapter 28. For practice concerning warnings when using landmines, see Chapter 29.

I. *Treaties and Other Instruments*

Treaties

420. Article 26 of the 1899 HR provides that “the commander of an attacking force, before commencing a bombardment, except in the case of an assault, should do all he can to warn the authorities”.

421. Article 26 of the 1907 HR provides that “the officer in command of an attacking force must, before commencing a bombardment, except in cases of assault, do all in his power to warn the authorities”.

422. According to Article 6 of the 1907 Hague Convention (IX), “if the military situation permits, the commander of the attacking naval force, before commencing the bombardment, must do his utmost to warn the authorities”.

423. Article 57(2)(c) AP I provides that, with respect to attacks, the following precautions shall be taken: “effective advance warning shall be given of attacks which may affect the civilian population, unless circumstances do not permit”. Article 57 AP I was adopted by 90 votes in favour, none against and 4 abstentions.³⁹²

³⁹⁰ ICRC, Statement: The Balkan conflict and respect for international humanitarian law, 26 April 1999, *IRRC*, No. 834, 1999, p. 410.

³⁹¹ Amnesty International, *NATO/Federal Republic of Yugoslavia: “Collateral Damage” or Unlawful Killings? Violations of the Laws of War by NATO during Operation Allied Force*, AI Index EUR 70/18/00, London, June 2000, p. 25.

³⁹² CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 211.

Other Instruments

424. Article 19 of the 1863 Lieber Code states that “commanders, whenever admissible, inform the enemy of their intention to bombard a place, so that the noncombatants, and especially the women and children, may be removed before the bombardment commences”.

425. Article 16 of the 1874 Brussels Declaration states that “if a town or fortress, agglomeration of dwellings, or village, is defended, the officer in command of an attacking force must, before commencing a bombardment, except in assault, do all in his power to warn the authorities”.

426. Article 33 of the 1880 Oxford Manual states that “the commander of an attacking force, save in cases of open assault, shall, before undertaking a bombardment, make every due effort to give notice thereof to the local authorities”.

427. Article 8(c) of the 1956 New Delhi Draft Rules states that the person responsible for ordering or launching an attack shall, first of all, “whenever the circumstances allow, warn the civilian population in jeopardy, to enable it to take shelter”.

428. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 57 AP I.

429. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 57 AP I.

*II. National Practice**Military Manuals*

430. Argentina’s Law of War Manual states that “those who plan or decide upon an attack shall, as far as possible, . . . give an effective advance warning of attacks which may affect the civilian population, unless circumstances do not permit”.³⁹³

431. Australia’s Defence Force Manual requires that:

When a planned attack is likely to affect the civilian population, those making the attack are required to give, if practicable, effective advance warning of the attack to the authorities or civilian population. This requirement must obviously be applied in a commonsense manner in light of all other factors. If the proposed action is likely to be seriously compromised by a warning then there is no requirement to provide any warning.³⁹⁴

432. Belgium’s Law of War Manual states that “the civilian population shall be given advance warning before an attack (or bombardment), unless surprise is a crucial element for the success of the attack”.³⁹⁵

³⁹³ Argentina, *Law of War Manual* (1989), § 4.07(1); see also *Law of War Manual* (1969), § 1.012.

³⁹⁴ Australia, *Defence Force Manual* (1994), § 551, see also §§ 425, 733 and 924.

³⁹⁵ Belgium, *Law of War Manual* (1983), p. 29.

433. Benin's Military Manual states that "if the tactical situation allows for it, a timely warning must be given in case of attacks which may affect the civilian population".³⁹⁶

434. Cameroon's Instructors' Manual requires that "effective advance warning shall be given of attacks which may affect the civilian population, unless circumstances do not permit".³⁹⁷

435. Canada' LOAC Manual states that:

An effective advance warning shall be given of attacks which may affect the civilian population, unless circumstances do not permit such a warning to be given. For tactical reasons, an attacking force may not give a warning in order to maintain the element of surprise.³⁹⁸

436. Croatia's Commanders' Manual requires that "when the mission permits, appropriate warning shall be given to civilian populations endangered by the direction of attack or by their proximity to military objectives".³⁹⁹

437. Ecuador's Naval Manual states that:

When circumstances permit, advance warning should be given of attacks that might endanger noncombatants in the vicinity. Such warnings are not required, however, if mission accomplishment requires the element of surprise or the security of the attacking forces would be otherwise compromised.⁴⁰⁰

The manual specifies that "warnings may be general rather than specific lest the bombarding force or the success of its mission be placed in jeopardy".⁴⁰¹

438. France's LOAC Summary Note states that "if the military mission allows for it, appropriate warning must be given to the civilian population to give it time to seek shelter".⁴⁰²

439. Germany's Military Manual states that "before engaging an objective, every responsible military leader shall give the civilian population advance warning of attacks which may affect it, unless circumstances do not permit".⁴⁰³

440. Italy's IHL Manual provides that "except in case of military necessity, the commander of an attacking force, before commencing bombardment, must do his utmost to warn the local authorities".⁴⁰⁴

441. Italy's LOAC Elementary Rules Manual requires that "when the mission permits, appropriate warning shall be given to civilian populations endangered by the direction of attack or by their proximity to military objectives".⁴⁰⁵

³⁹⁶ Benin, *Military Manual* (1995), Fascicule III, p. 11, see also Fascicule III, p. 14 and Fascicule II, p. 7.

⁴⁰⁰ Ecuador, *Naval Manual* (1989), § 11.2, see also § 8.5.2.

⁴⁰¹ Ecuador, *Naval Manual* (1995), § 8.5.2.

⁴⁰² France, *LOAC Summary Note* (1992), § 1.4.

⁴⁰³ Germany, *Military Manual* (1992), § 457, see also §§ 414, 447 and 453.

⁴⁰⁴ Italy, *IHL Manual* (1991), Vol. I, § 18.

⁴⁰⁵ Italy, *LOAC Elementary Rules Manual* (1991), § 54, see also § 67.

442. Kenya's LOAC Manual provides that:

When the tactical situation permits, effective advance warning shall be given of attacks which may affect the civilian population (e.g. infantry fire to encourage civilian persons to seek shelter, discharge of leaflets from aircraft). The advance warning given shall allow the defender to take safeguard measures and to give appropriate information.⁴⁰⁶

443. Madagascar's Military Manual states that "whenever the mission allows for it, an appropriate warning must be given to the civilian population put in danger by the direction of an attack or by the objectives and targets which have been chosen".⁴⁰⁷

444. The Military Manual of the Netherlands states that "whenever circumstances permit, advance warning must be given of an attack which may affect the civilian population".⁴⁰⁸

445. The Aide-Mémoire for IFOR Commanders of the Netherlands states that:

A warning must be given before opening fire if operational circumstances permit. A few examples of situations in which it is permitted to open fire without warning are:

- a. if you or someone in your immediate vicinity are the subject of an armed attack; or
- b. if warning enhances the risk of death or serious injury for you or any other person.⁴⁰⁹

446. New Zealand's Military Manual states that "effective advance warning shall be given of attacks which may affect the civilian population, unless circumstances do not permit".⁴¹⁰

447. Nigeria's Military Manual provides that "where the tactical situation permits, effective advance warning shall be given of attacks which may affect [the] civilian population. This could be done by warning shots or discharge of leaflets from an aircraft."⁴¹¹

448. South Africa's LOAC Manual recalls that "in terms of Article 57 [AP I] there is a general requirement to provide a warning before an attack if civilians are present. An exception to the rule is if surprise is a key element of attack."⁴¹²

449. Spain's LOAC Manual requires that "whenever circumstances permit, warning must be given of any attack that may affect the civilian population".⁴¹³

⁴⁰⁶ Kenya, *LOAC Manual* (1997), Précis No. 4, p. 8, see also Précis No. 4, p. 2.

⁴⁰⁷ Madagascar, *Military Manual* (1994), Fiche No. 6-O, § 25, see also Fiche No. 7-O, § 12, Fiche No. 5-SO, § B and Fiche No. 9-SO, § C.

⁴¹⁰ New Zealand, *Military Manual* (1992), § 518(1).

⁴¹¹ Nigeria, *Military Manual* (1994), p. 44, § 14, see also p. 45, § 16(c) and *Manual on the Laws of War* (undated), § 13.

⁴¹² South Africa, *LOAC Manual* (1996), § 28(g).

⁴¹³ Spain, *LOAC Manual* (1996), Vol. I, § 2.3.b.(2), see also § 10.8.e.(2) and f.(1)

450. Sweden's IHL Manual states that "should it be impossible to suspend or cancel the attack, excessive losses among the civilian population may possibly be avoided by giving the civilian population advance warning".⁴¹⁴

451. According to Switzerland's Basic Military Manual, "during every attack, commanding officers at the battalion or group level, and those of higher ranks, shall take care that the civilian population is warned if possible".⁴¹⁵

452. Togo's Military Manual states that "if the tactical situation allows for it, a timely warning must be given in case of attacks which may affect the civilian population".⁴¹⁶

453. The UK Military Manual states that:

If military exigencies permit, and unless surprise is considered to be an essential element of success, the commander of an attacking force must do all in his power to warn the authorities of a defended place before commencing a bombardment. There is, however, no obligation to give notice of an intended assault. Should there be no civilians left in the area, no such notice is required.⁴¹⁷

454. The UK LOAC Manual states that "effective advance warning must be given of attacks which may affect the civilian population, unless circumstances do not permit".⁴¹⁸

455. The US Field Manual requires that "the officer in command of an attacking force must, before commencing a bombardment, except in cases of assault, do all in his power to warn the authorities".⁴¹⁹

456. The US Air Force Pamphlet states that "effective advance warning shall be given of attacks which may affect the civilian population unless circumstances do not permit".⁴²⁰ The Pamphlet specifies that:

The practice of states recognizes that warnings need not always be given. General warnings are more frequently given than specific warnings, lest the attacking force or the success of its mission be jeopardized. Warnings are relevant to the protection of the civilian population and need not be given when they are unlikely to be affected by the attack.⁴²¹

457. The US Naval Handbook states that:

When circumstances permit, advance warning should be given of attacks that might endanger noncombatants in the vicinity. Such warnings are not required, however, if mission accomplishment requires the element of surprise or the security of the attacking forces would be otherwise compromised.⁴²²

⁴¹⁴ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 72.

⁴¹⁵ Switzerland, *Basic Military Manual* (1987), Article 29(1).

⁴¹⁸ UK, *LOAC Manual* (1981), Section 4, pp. 13–14, § 4(c).

⁴¹⁹ US, *Field Manual* (1956), § 43. ⁴²⁰ US, *Air Force Pamphlet* (1976), § 5-3(c)(1)(b)(iii).

⁴²¹ US, *Air Force Pamphlet* (1976), § 5-3(c)(2)(d).

⁴²² US, *Naval Handbook* (1995), § 11.2, see also § 8.5.2.

The Handbook specifies that “warnings may be general rather than specific lest the bombarding force or the success of its mission be placed in jeopardy”.⁴²³

458. The YPA Military Manual of the SFRY (FRY) states that:

When allowed by military necessity, the commander of units bombarding a defended place in which there are civilians or attacking military objectives putting the civilian population at risk should previously inform the population of the impending bombardment or attack so that it can evacuate. The competent commander shall be freed from this obligation if the bombardment undertaken is aimed at supporting units attacking a defended place in order to capture it, if information on the impending bombardment would jeopardise the military operation in question.⁴²⁴

National Legislation

459. The Report on the Practice of India refers to several pieces of legislation which provide that warning must be given before use of force for the maintenance of public order.⁴²⁵

460. Under Ireland’s Geneva Conventions Act as amended, any “minor breach” of AP I, including violations of Article 57(2)(c) AP I, is a punishable offence.⁴²⁶

461. Italy’s Law of War Decree as amended states that “except in case of military necessity, the commander of an attacking force, before commencing bombardment, must do his utmost to warn the local authorities”.⁴²⁷

462. Italy’s Wartime Military Penal Code punishes a commander who “omits, except where so required by military necessity, to take all possible steps to inform enemy authorities before commencing bombardment”.⁴²⁸

463. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment”.⁴²⁹

National Case-law

464. No practice was found.

Other National Practice

465. The Report on the Practice of China includes an example of a warning issued by the PLA in order to protect local residents living on islands near the front.⁴³⁰

⁴²³ US, *Naval Handbook* (1995), § 8.5.2.

⁴²⁴ SFRY (FRY), *YPA Military Manual* (1988), § 80.

⁴³⁰ Report on the Practice of China, 1997, Chapter 1.6.

466. The Report on the Practice of Egypt finds that warnings do not discharge the attacker from taking all necessary precautions towards the civilian population.⁴³¹

467. The instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, state that “an individual warning must be given prior to any attack against a civilian ship or aircraft approaching or entering an exclusive or similar zone, to the extent that the tactical situation permits”.⁴³²

468. On the basis of an interview with a senior officer of the armed forces, the Report on the Practice of Indonesia states that the Indonesian armed forces normally observe the precautions listed in Article 57 AP I.⁴³³

469. According to the Report on the Practice of Iran, during the Iran–Iraq War:

The Iranian authorities have followed a steady practice of warning the civilian population of the cities before attacking. In this regard, before each bombardment, statements of the war information center or military communiqués were issued which asked the civilian population to leave the cities. Usually the name of the cities to be attacked were listed, and the civilians were asked to take refuge to four holy cities of Karbala, Najaf, Kazemein and Samera.⁴³⁴

The report concludes that “the *opinio juris* of Iran is supportive of precautions in attack, and in practice the warnings can be considered as application of these precautions”.⁴³⁵

470. The Report on the Practice of Iraq states that the issuing of prior public warnings to civilian populations has become established practice. It cites the examples of a general warning given by the President of Iraq to Iranian citizens, warnings issued by the General Command of the Iraqi armed forces to ships not to approach the zones of military operation in the Gulf and warning raids by Iraqi planes over Iranian cities.⁴³⁶

471. In a briefing in 1982, the Israeli Ministry of Foreign Affairs declared that all precautions had been taken by Israeli forces by giving an effective advance warning through the distribution of leaflets and appeals to the civilian

population via radio and loudspeakers so that they could leave the operational zone temporarily.⁴³⁷

472. On 13 October 2000, Israeli helicopters carried out an air-strike on a Palestinian police station in Rammallah in retaliation for the killing of two Israeli soldiers the previous day. After the attack, a senior IDF officer said that the military had made every effort to avoid casualties, warning the Palestinian police to evacuate their posts three hours before the strike. Warning shots were also fired minutes before the actual attack to warn off those who had not understood the earlier message.⁴³⁸

473. The Report on the Practice of Israel states that:

The issue of "effective advance warning" is somewhat complicated. Unfortunately, due to current practices in the region, in which attacking forces are shielded within civilian populated localities (especially as regards the activities of the terrorist organizations in Lebanon), Israel is forced, quite often, to return fire at targets situated in close vicinity to civilians. Obviously, issuing advance warning of such counter fire is unfeasible from both military and logical perspectives (not only is time of an essence in such cases, but the civilian population is already all too aware of the fact that hostilities are taking place in their immediate area) . . . Nevertheless, Israel and the IDF have, on several occasions in the past, made public advance warnings to the civilian population in Lebanon of impending hostilities. Such instances include the 1982 operation "Peace for Galilee", during which the IDF dropped leaflets over cities in the vicinity of which hostilities were expected, thereby enabling those elements of the population uninvolved in the conflict to vacate the area beforehand. Similar practices were adopted by Israel in other Lebanese-related operations over the years . . . Israel has found that the use of advance warnings to the civilian population is feasible only prior to the commencement of hostilities in a general area, or in cases in which the elements of surprise or speed of response play no significant part.⁴³⁹

474. The Report on the Practice of Jordan notes that a booklet on LOAC prepared by the ICRC is used by military commanders. The booklet refers to the obligation to give an effective advance warning prior to an attack.⁴⁴⁰

475. On the basis of interviews with members of the armed forces and the Ministry of Home Affairs, the Report on the Practice of Malaysia states that:

There are no written laws which require precautions to be taken in attack. However, during the communist insurgency, the imposition of curfews and announcements by the Department of Information to inform civilians to remain indoors or not

⁴⁴⁰ Report on the Practice of Jordan, 1997, Chapter 1.6.

to enter certain areas during certain periods served as an indirect warning to the civilian population.⁴⁴¹

476. According to the government of the Netherlands, commanders have to take all the precautionary measures required by Article 57 AP I when carrying out an attack.⁴⁴²

477. It has been reported that, during the conflict in Chechnya, Russia dropped leaflets throughout Grozny, ordering all Chechens to leave the city within five days. The leaflets stated that “those who remain will be viewed as terrorists and bandits. They will be destroyed by artillery and aviation. There will be no more talks. All those who do not leave the city will be destroyed.” A Russian general told reporters that the leaflets were a humanitarian warning meant to protect civilians, not an ultimatum.⁴⁴³

478. The Report on the Practice of Syria asserts that Syria considers Article 57 AP I to be part of customary international law.⁴⁴⁴

479. It is reported that, during the war in the South Atlantic, UK forces gave prior notice of their intention to bomb Goose Green and specified that such notice was given in accordance with the relevant laws.⁴⁴⁵

480. During the Second World War, before the atomic bomb was dropped on Hiroshima, the US reportedly warned Japanese authorities that certain towns could be heavily bombed and that civilians should be evacuated. Similar warnings were reportedly issued in the European theatre of war.⁴⁴⁶

481. It is reported that, during the Korean War, US forces planned that “several days prior to the attack planes would drop leaflets over Pyongyang warning civilians to stay away from military installations of any kind”.⁴⁴⁷

482. In 1987, the Deputy Legal Adviser of the US Department of State stated that the US supported the requirement that “effective advance warning be given of attacks which may affect the civilian population, unless circumstances do not permit”.⁴⁴⁸

⁴⁴¹ Report on the Practice of Malaysia, 1997, Interviews with members of the Malaysian armed forces and Ministry of Home Affairs, Chapter 1.6.

⁴⁴⁸ US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 427.

483. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that:

A warning need not be specific; it may be a blanket warning, delivered by leaflets and/or radio, advising the civilian population of an enemy nation to avoid remaining in proximity to military objectives. The “unless circumstances do not permit” recognizes the importance of the element of surprise. Where surprise is important to mission accomplishment and allowable risk to friendly forces, a warning is not required.⁴⁴⁹

484. In 1995, an opinion of a US army legal adviser on the legality of silencers/suppressors stated that:

There is no law of war requirement that a combatant must be “warned” before he or she is subject to the application of lawful, lethal force . . . [The opinion then cites Article 26 of the 1907 HR and refers to Article 6 of the 1907 Hague Convention (IX).] Article 57, paragraph 2(c) of Protocol I Additional to the 1949 Geneva Conventions of 8 June 1977 contains a more relaxed but similar requirement, updating the two 1907 provisions while reconciling the slight difference between them. Although not a party to this treaty, the United States regards this provision as a re-codification of customary international law. The warning requirement cited above was for the purpose of enabling the civilian population to take appropriate steps to protect themselves from the collateral effects of attack of military objectives, or otherwise from the effects of war; it is not an obligation to warn combatants of their imminent attack. The exception to the warning requirement, relieving a commander from the obligation in cases of assault (stated more generally as “unless circumstances do not permit” in the 1977 Additional Protocol I) recognizes the legitimate use of the fundamental military element of surprise in the attack of enemy military forces in order to reduce risk to the attacking force and to increase its chance for successful accomplishment of its mission.⁴⁵⁰

485. The Report on US Practice states that:

In U.S. practice, bombardment warnings have often been general in their terms, e.g. advising civilians to avoid war-supporting industries, in order not to alert the air defense forces of an impending attack on a specific target. Such was the case in the Korean War.⁴⁵¹

486. The Report on the Practice of Zimbabwe states that the provisions of Article 57 AP I would be regarded as customary by Zimbabwe because of its adoption of the Geneva Conventions Amendment Act which incorporates AP I into Zimbabwe’s law and practice.⁴⁵²

⁴⁴⁹ US, Message from the Department of the Army to the legal adviser of the US Army forces deployed in the Gulf, 11 January 1991, § 8(I), Report on US Practice, 1997, Chapter 1.6.

⁴⁵² Report on the Practice of Zimbabwe, 1998, Chapter 1.6.

487. During a non-international armed conflict in 1981, the ICRC noted that one of the armed forces involved apparently warned the population of an imminent aerial attack by dropping leaflets.⁴⁵³

488. In a meeting with the ICRC in 1996, the head of the armed forces of a State involved in a non-international armed conflict stated that shots were usually preceded by warnings.⁴⁵⁴

III. Practice of International Organisations and Conferences

United Nations

489. In 1996, in a report on UNIFIL in Lebanon, the UN Secretary-General stated that:

In the early morning of 11 April [1996], Israeli aircraft and artillery began an intensive bombardment of southern Lebanon as well as targets in the Beirut area and in the Bekaa valley... In the first few days of the operation, Israeli air force and artillery attacked selected targets, including the homes of persons suspected to be affiliated with Hizbullah. At the same time, an IDF-controlled radio station in southern Lebanon broadcast threats of further bombardments, set deadlines for the inhabitants to leave and stated that once the deadline had passed IDF would regard all who remained as legitimate targets. By 13 April, some 90 towns and villages, including Tyre and villages north of the Litani river, had thus been placed under threat. As a result of these threats and the Israeli bombardment, about a quarter of the inhabitants, more than 100,000, left UNIFIL's area of operation and Tyre. Around 5,000 persons sought refuge inside UNIFIL positions and at its logistic base in Tyre. Given the large number of inhabitants who remained behind, IDF did not in fact treat the whole area as a free-fire zone.⁴⁵⁵

Other International Organisations

490. No practice was found.

International Conferences

491. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

492. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that Article 57 AP I was now part of customary international law, not only because it specified and fleshed out general pre-existing norms, but also because it did not appear to be contested by any State, including those who had not ratified the Protocol.⁴⁵⁶ With reference to the Martens Clause, the Trial Chamber held that:

⁴⁵³ ICRC archive document. ⁴⁵⁴ ICRC archive document.

⁴⁵⁵ UN Secretary-General, Report on UNIFIL, UN Doc. S/1996/575, 20 July 1996, §§ 10–13.

⁴⁵⁶ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 524.

The prescriptions of . . . [Article 57] (and of the corresponding customary rules) must be interpreted so as to construe as narrowly as possible the discretionary power to attack belligerents and, by the same token, so as to expand the protection accorded to civilians.⁴⁵⁷

493. In its final report to the ICTY Prosecutor in 2000, the Committee Established to Review NATO's Bombing Campaign Against the Federal Republic of Yugoslavia stated, with respect to the attack on the Serbian radio and television building in Belgrade, that:

Although NATO alleged that it had made "every possible effort to avoid civilian casualties and collateral damage", some doubts have been expressed as to the specificity of the warning given to civilians by NATO of its intended strike, and whether the notice would have constituted "effective warning . . . of attacks which may affect the civilian population, unless circumstances do not permit" as required by Article 57(2) of Additional Protocol I. Evidence on this point is somewhat contradictory. On the one hand, NATO officials in Brussels are alleged to have told Amnesty International that they did not give a specific warning as it would have endangered the pilots. On this view, it is possible that casualties among civilians working at the RTS may have been heightened because of NATO's apparent failure to provide clear advance warning of the attack, as required by Article 57(2). On the other hand, foreign media representatives were apparently forewarned of the attack. As Western journalists were reportedly warned by their employers to stay away from the television station before the attack, it would also appear that some Yugoslav officials may have expected that the building was about to be struck . . . Although knowledge on the part of Yugoslav officials of the impending attack would not divest NATO of its obligation to forewarn civilians under Article 57(2), it may nevertheless imply that the Yugoslav authorities may be partially responsible for the civilian casualties resulting from the attack and may suggest that the advance notice given by NATO may have in fact been sufficient under the circumstances.⁴⁵⁸

V. Practice of the International Red Cross and Red Crescent Movement

494. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "when the tactical situation permits, effective advance warning shall be given of attacks which may affect the civilian population (e.g. infantry fire to encourage civilian persons to seek shelter, discharge of leaflets from aircraft)".⁴⁵⁹

495. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 50(1)(c) of draft AP I,

⁴⁵⁷ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 525.

⁴⁵⁸ ICTY, Final Report to the Prosecutor by the Committee Established to Review the NATO Bombing Campaign Against the Federal Republic of Yugoslavia, The Hague, 14 June 2000, § 77.

⁴⁵⁹ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 436, see also § 459.

which stated in part that “whenever circumstances so permit, advance warning shall be given of attacks which may affect the civilian population”. All governments concerned replied favourably.⁴⁶⁰

VI. *Other Practice*

496. In 1985, in the context of the conflict in El Salvador, the FMLN warned all social sectors of the country that they should avoid “those places visited by military elements, both from the army of the puppet regime as well as foreign military personnel involved in repressive and genocidal activities against the popular revolutionary movement”, for these places would be considered military objectives. The FMLN also warned owners of property who leased it to foreign military advisers that their property would be considered military objectives.⁴⁶¹

497. In February 1993, the FPR in Rwanda reportedly warned the civilian population of Kibeho of an imminent assault, asking them to leave the town.⁴⁶²

498. With respect to UNOSOM’s military operations of 17 July 1993 in Somalia, MSF stated that:

The military operations did not confine themselves within the zone ordered evacuated by the United Nations. The NGO’s, but not the civilian population, were given warning to evacuate the outskirts surrounding the delineated sector. The fighting spread to the peripheries of the area where no orders had been given to evacuate: consequently, the civilian population north of Afgoi road was caught in the fighting.⁴⁶³

499. According to the Report on SPLM/A Practice, the SPLM/A has persistently warned civilians to evacuate the towns on which a siege or an attack is intended. During the 1984–1991 military operations, Radio SPLA issued warnings to the civilian populations living in villages in southern Sudan.⁴⁶⁴

500. In 1988, an armed opposition group asserted that, before launching an attack on a city, the civilian population would be invited to leave the city through predetermined exit points, but added that “those who won’t leave before the attack, will be responsible for their own fate”.⁴⁶⁵

501. In its report on the NATO bombing campaign against the FRY issued in 2000, Amnesty International stated that:

⁴⁶⁰ ICRC, *The International Committee’s Action in the Middle East*, *IRRC*, No. 152, 1973, pp. 584–585.

⁴⁶¹ Communication by the FMLN, June 1985, § 4, *Estudios Centroamericanos*, Universidad Centroamericana José Simeón Cañas, Vol. XL, Nos. 441–442, July–August 1985, p. 581.

⁴⁶² Association rwandaise pour la défense des droits de la personne et des libertés publiques, *Rapport sur les droits de l’homme au Rwanda, octobre 1992–octobre 1993*, Kigali, December 1993, p. 114.

⁴⁶³ MSF, *Communication on the violations of humanitarian law in Somalia during UNOSOM operations*, 20 July 1993, p. 2.

⁴⁶⁴ Report on SPLM/A Practice, 1998, Chapter 1.6. ⁴⁶⁵ ICRC archive document.

However, there was no warning from NATO that a specific attack on RTS [Serbian state radio and television] headquarters was imminent. NATO officials in Brussels told Amnesty International that they did not give a specific warning as it would have endangered the pilots.⁴⁶⁶

G. Target Selection

I. Treaties and Other Instruments

Treaties

502. Article 57(3) AP I states that “when a choice is possible between several military objectives for obtaining a similar military advantage, the objective to be selected shall be that the attack on which may be expected to cause the least danger to civilian lives and to civilian objects”. Article 57 AP I was adopted by 90 votes in favour, none against and 4 abstentions.⁴⁶⁷

Other Instruments

503. Article 8(a) of the 1956 New Delhi Draft Rules states that “when the military advantage to be gained leaves the choice open between several objectives, [the person responsible for ordering or launching an attack] is required to select the one, an attack on which involves least danger for the civilian population”.

504. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 57 AP I.

505. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 57 AP I.

II. National Practice

Military Manuals

506. Australia’s Defence Force Manual states that:

Objects and axes of attack should be chosen to minimise collateral damage wherever possible. Where a similar military advantage may be gained by attacking any one of several military objectives, the attack should be made against the objective which is likely to cause the least collateral damage. The same principle applies to choosing axes of advance or attack where more than one practicable and reasonable axis is available.⁴⁶⁸

⁴⁶⁶ Amnesty International, *NATO/Federal Republic of Yugoslavia: “Collateral Damage” or Unlawful Killings? Violations of the Laws of War by NATO during Operation Allied Force*, AI Index EUR 70/18/00, London, June 2000, p. 47.

⁴⁶⁸ Australia, *Defence Force Manual* (1994), § 552; see also *Commanders’ Guide* (1994), § 957(f).

507. Benin's Military Manual requires that "the military commander must choose the solution that represents the least danger for civilians and civilian objects".⁴⁶⁹

508. Canada's LOAC Manual states that:

The proportionality test must be used in the selection of any target. Proportionality and multiple targets: Where a choice is possible between several legitimate targets for obtaining a similar military advantage, the target to be selected shall be the one on which an attack would be expected to cause the least civilian casualties and damage to civilian objects.⁴⁷⁰

509. Croatia's LOAC Compendium gives the following instruction: "when your mission affords alternative objectives and targets, choose the course likely to cause minimum civilian casualties and damage".⁴⁷¹

510. Croatia's Commanders' Manual requires that "within tactically equivalent alternatives, the directions, objectives and targets of attack shall be chosen so as to cause the least civilian damage".⁴⁷²

511. France's LOAC Summary Note states that "the commander must select the tactical solution which will cause the least civilian losses and damage to civilian objects".⁴⁷³

512. Germany's Military Manual states that:

Before engaging an objective, every responsible military leader shall, when a choice is possible between several military objectives of equal importance, engage that objective the attack on which may be expected to cause the least incidental injury or damage.⁴⁷⁴

513. Hungary's Military Manual gives the following instruction: "When your mission affords alternative objectives and targets, choose the course likely to cause minimum civilian casualties and damage."⁴⁷⁵

514. Italy's LOAC Elementary Rules Manual requires that "within tactically equivalent alternatives, the directions, objectives and targets of attack shall be chosen so as to cause the least civilian damage".⁴⁷⁶

515. Kenya's LOAC Manual requires that "when a choice is possible between several military objectives for attaining a similar military advantage, the objective to be selected shall be that objective, the attack on which would cause the least danger to civilian persons and objects".⁴⁷⁷

516. Madagascar's Military Manual requires that "the military commander must choose the solution which will cause the least civilian losses and

damage to civilian objects".⁴⁷⁸ In this respect, the manual specifies that "among tactically equivalent alternatives, the direction, objective, aim and target of an attack must be chosen in order to cause the least civilian damage possible".⁴⁷⁹

517. The Military Manual of the Netherlands states that "when a choice is possible between several military objectives for obtaining a similar military advantage, the objective to be selected shall be that the attack on which may be expected to cause the least danger to civilian lives and to civilian objects".⁴⁸⁰

518. New Zealand's Military Manual states that "when a choice is possible between several military objectives for obtaining a similar military advantage, the objective to be selected shall be that the attack on which may be expected to cause the least danger to civilian lives and to civilian objects".⁴⁸¹

519. Nigeria's Military Manual provides that "where there is a choice as to which of the general targets can be attacked, the objective to be selected shall be that which would cause the least danger to civilian persons and objects".⁴⁸²

520. Spain's LOAC Manual requires that "when a choice is possible between several military objectives for obtaining a similar military advantage, the objective to be selected shall be that the attack on which may be expected to cause the least danger to civilian lives and to civilian objects".⁴⁸³

521. Sweden's IHL Manual considers that:

In certain circumstances it is possible to reduce the risk to the civilian population and to civilian property if the military commander selects a different objective, from which he can achieve about the same military advantage as from the prime objective. In many situations, however, it is impossible to denote an alternative objective, for which reason the rule concerning second-line objectives has been given the reservation mentioned by way of introduction: "when a choice is possible".⁴⁸⁴

522. Togo's Military Manual requires that "the military commander must choose the solution that represents the least danger for civilians and civilian objects".⁴⁸⁵

523. The US Air Force Pamphlet states that "when a choice is possible between several military objectives for obtaining a similar military advantage, the objective to be selected shall be that which may be expected to cause the least danger to civilian lives and to civilian objects".⁴⁸⁶

524. The YPA Military Manual of the SFRY (FRY) provides that if there is a choice between several military objectives for obtaining the same military advantage, military commanders must select the one which represents the least

potential risk for the civilian population, “provided this does not particularly increase the danger to members of the armed forces undertaking the attack”.⁴⁸⁷

National Legislation

525. Under Ireland’s Geneva Conventions Act as amended, any “minor breach” of AP I, including violations of Article 57(3) AP I, is a punishable offence.⁴⁸⁸

526. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment”.⁴⁸⁹

National Case-law

527. No practice was found.

Other National Practice

528. On the basis of an interview with a senior officer of the armed forces, the Report on the Practice of Indonesia states that the Indonesian armed forces normally observe the precautions listed in Article 57 AP I.⁴⁹⁰

529. The Report on the Practice of Iran states, with reference to the Iran–Iraq War, that “Iran claimed that targets . . . [were] chosen in a way that the least casualties to civilians would be inflicted. In Iran’s view, low damage for Iraqi civilians was the proof of this claim.”⁴⁹¹

530. According to the Report on the Practice of Israel, “in principle, when a choice is possible between several military objectives for obtaining a similar military advantage, the IDF will select the military target representing the least potential risk for the civilian population”.⁴⁹²

531. The Report on the Practice of Jordan notes that a booklet on the LOAC prepared by the ICRC is used by military commanders. The booklet refers to the obligation to choose a target in the light of the obligation to minimise damage to civilians or civilian objects.⁴⁹³

532. According to the Report on the Practice of Malaysia, the obligation to select, if a choice is available, the target representing the least potential risk for the civilian population forms part of Malaysian practice.⁴⁹⁴

⁴⁸⁷ SFRY (FRY), *YPA Military Manual* (1988), § 72(3).

⁴⁸⁸ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁴⁸⁹ Norway, *Military Penal Code as amended* (1902), § 108(b).

⁴⁹¹ Report on the Practice of Iran, 1997, Chapter 1.6.

⁴⁹² Report on the Practice of Israel, 1997, Answers to additional questions on Chapter 1.6.

⁴⁹³ Report on the Practice of Jordan, 1997, Chapter 1.6.

⁴⁹⁴ Report on the Practice of Malaysia, 1997, Answers to additional questions on Chapter 1.6.

533. According to the government of the Netherlands, commanders have to take all the precautionary measures required by Article 57 AP I when carrying out an attack.⁴⁹⁵

534. The Report on the Practice of Syria asserts that Syria considers Article 57 AP I to be part of customary international law.⁴⁹⁶

535. On 16 April 1986, in the context of US attacks on Libyan targets, the US President stated that “these targets were carefully chosen, both for their direct linkage to Libyan support of terrorist activities and for the purpose of minimizing collateral damage and injury to innocent civilians”.⁴⁹⁷

536. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that:

The language of Article 57(3) of Protocol I... is not part of customary law. The provision applies “when a choice is possible...;” it is not mandatory. An attacker may comply with it if it is possible to do so, subject to mission accomplishment and allowable risk, or he may determine that it is impossible to make such a determination.⁴⁹⁸

537. The Report on the Practice of Zimbabwe states that the provisions of Article 57 AP I would be regarded as customary by Zimbabwe because of its adoption of the Geneva Conventions Amendment Act, which incorporates API into Zimbabwe’s law and practice.⁴⁹⁹

III. Practice of International Organisations and Conferences

538. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

539. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber stated that Article 57 AP I was now part of customary international law, not only because it specified and fleshed out general pre-existing norms, but also because it did not appear to be contested by any State, including those who had not ratified the Protocol.⁵⁰⁰ With reference to the Martens Clause, the Trial Chamber held that:

⁴⁹⁵ Netherlands, Lower House of Parliament, Memorandum in response to the report on the ratification of the Additional Protocols, 1985–1986 Session, Doc. 18 277 (R 1247), No. 6, 16 December 1985, p. 7, § 17.

⁴⁹⁸ US, Message from the Department of the Army to the legal adviser of the US Army forces deployed in the Gulf, 11 January 1991, § 8(H), Report on US Practice, 1997, Chapter 1.6.

⁴⁹⁹ Report on the Practice of Zimbabwe, 1998, Chapter 1.6.

⁵⁰⁰ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 524.

The prescriptions of . . . [Article 57] (and of the corresponding customary rules) must be interpreted so as to construe as narrowly as possible the discretionary power to attack belligerents and, by the same token, so as to expand the protection accorded to civilians.⁵⁰¹

V. Practice of the International Red Cross and Red Crescent Movement

540. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

When a choice is possible between several military objectives for obtaining a similar military advantage, the objective to be selected shall be that the attack on which would cause the least danger to civilian persons and objects.

...

To reduce civilian casualties and damage, equivalent alternative objectives and targets shall be selected whenever the mission given permits.⁵⁰²

541. In an appeal issued in October 1973, the ICRC urged all the belligerents in the conflict in the Middle East (Egypt, Iraq, Israel and Syria) to observe forthwith, in particular, the provisions of, *inter alia*, Article 50(3) of draft API, which stated that "when a choice is possible between several objectives, for obtaining a similar military advantage, the objective to be selected shall be that which will occasion the least danger to civilian lives and to civilian objects". All governments concerned replied favourably.⁵⁰³

VI. Other Practice

542. No practice was found.

PRECAUTIONS AGAINST THE EFFECTS OF ATTACKS

A. General (practice relating to Rule 22)	§§ 1–69
Precautions to protect the civilian population, civilians and civilian objects	§§ 1–48
Feasibility of precautions against the effects of attacks	§§ 49–68
Information required for deciding upon precautions against the effects of attacks	§ 69
B. Location of Military Objectives outside Densely Populated Areas (practice relating to Rule 23)	§§ 70–132
C. Removal of Civilians and Civilian Objects from the Vicinity of Military Objectives (practice relating to Rule 24)	§§ 133–184

A. General

Precautions to protect the civilian population, civilians and civilian objects

Note: Practice concerning the duty to take feasible precautions to spare the civilian population and to avoid injury to civilians and damage to civilian objects – which could apply to operations in offence and/or defence – has been included in Chapter 5 and is not repeated here. This section contains practice on specific precautions against the effects of attacks not mentioned in sections B and C, as well as practice referring to such precautions in general without further specification. Although some practice on civil defence has been included, this subject is not dealt with exhaustively.

I. Treaties and Other Instruments

Treaties

1. Article 58(c) API states that the Parties to the conflict shall, to the maximum extent feasible, “take the other necessary precautions to protect the civilian population, individual civilians and civilian objects under their control against the dangers resulting from military operations”. Article 58 AP I was adopted by 80 votes in favour, none against and 8 abstentions.¹

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 214.

2. Article 13(1) AP II provides that “the civilian population and individual civilians shall enjoy general protection against the dangers arising from military operations”. Article 13 AP II was adopted by consensus.²

3. Article 24(2) of draft AP II submitted by the ICRC to the CDDH provided that “constant care shall be taken, when conducting military operations, to spare the civilian population, civilians and civilian objects”.³ This provision was adopted in Committee III of the CDDH by 50 votes in favour, none against and 11 abstentions.⁴ Eventually, however, it was deleted in the plenary, because it failed to obtain the necessary two-thirds majority (36 in favour, 19 against and 36 abstentions).⁵

Other Instruments

4. Article 11 of the 1956 New Delhi Draft Rules states that “the Parties to the conflict shall, so far as possible, take all necessary steps to protect the civilian population subject to their authority from the dangers to which they would be exposed in attack”.

5. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 58 AP I.

6. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 58 AP I.

7. Paragraph 36 of the 1994 CSCE Code of Conduct states that “the armed forces will take due care to avoid injury to civilians or their property”.

8. Section 5.4 of the 1999 UN Secretary-General’s Bulletin states that “in its area of operation, the United Nations force shall . . . take all necessary precautions to protect the civilian population, individual civilians and civilian objects against the dangers resulting from military operations”.

II. National Practice

Military Manuals

9. Argentina’s Law of War Manual states that “the parties to the conflict shall, to the extent possible, take the other necessary precautions to protect the civilian population, individual civilians and civilian objects under their control against the dangers resulting from military operations”.⁶

10. The Report on the Practice of Belgium states that “no practice was found concerning the protection of the civilian population against the effects of

⁶ Argentina, *Law of War Manual* (1989), § 4.07(2).

attacks in the Belgian military regulations” and refers to two internal regulations that “reveal a lack of concern for this issue”.⁷

11. Cameroon’s *Instructors’ Manual* provides that “in all military operations, whether in offence or defence, . . . areas of civilian habitation, civilian populations [and] . . . civilian objects must be protected”.⁸

12. Canada’s *LOAC Manual* states that:

To protect civilians, the parties to a conflict shall, to the maximum extent feasible . . . take other necessary precautions to protect the civilian population, individual civilians and civilian objects under their control against the dangers resulting from military operations.⁹

13. Croatia’s *Commanders’ Manual* states that:

To restrict civilian casualties and damage, the means of combat and weapons shall be adapted to the environment of the defence position . . . When the mission permits, appropriate information and warning shall be given of defence measures endangering civilian persons, so that they can behave accordingly in the event of combat action.¹⁰

14. Germany’s *Military Manual* states that “civil defence tasks are particularly warning . . . construction of shelters, and other measures to restore and maintain order”.¹¹

15. Italy’s *LOAC Elementary Rules Manual* states that:

To restrict civilian casualties and damage, the means of combat and weapons shall be adapted to the environment of the defence position . . . When the mission permits, appropriate information and warning shall be given of defence measures endangering civilian persons, so that they can behave accordingly in the event of combat action.¹²

16. Kenya’s *LOAC Manual* states that “when the tactical situations permits, defence measures which may affect civilian persons shall be announced by effective advance warning”.¹³

17. Madagascar’s *Military Manual* provides that in the conduct of all military operations, “constant care must be taken to spare the civilian population, as well as civilian objects”.¹⁴ The manual further specifies that:

In order to limit civilian casualties and damage, the means of combat and weapons shall be adapted to the environment of the defence position . . . When the mission

permits, information and effective warning must be given concerning defence measures which expose civilians to danger so that they can behave correctly during combat action.¹⁵

18. The Military Manual of the Netherlands provides that the parties to the conflict shall

endeavour to take other precautions to protect the civilian population, individual civilians and civilian objects against the dangers resulting from military operations... Such other precautions include, for example, the construction of shelter facilities and the mobilisation of civil defence organisations.¹⁶

19. New Zealand's Military Manual states that "the Parties to the conflict shall, to the maximum extent feasible, ... take the other necessary precautions to protect the civilian population, individual civilians and civilian objects under their control against the dangers resulting from military operations".¹⁷

20. Nigeria's Military Manual states that "similar to attack is the fact that defence measures which may affect civilian persons shall be announced in advance".¹⁸

21. Russia's Military Manual requires that commanders, in peacetime, "envisage all possible measures to protect the civilian population".¹⁹

22. Spain's LOAC Manual requires that "all necessary precautions be taken in order to protect civilians and civilian objects from the effects of attacks".²⁰

23. Sweden's IHL Manual refers to the obligation enshrined in Article 58(c) AP I to "take other precautionary measures for protecting the civilian population, civilian persons and civilian property". It notes that "these can include a number of different measures such as the erection of shelters, distribution of information and warnings, direction of traffic, guarding of civilian property and so on".²¹

24. Switzerland's Basic Military Manual specifies that "to the extent possible, that is, as far as the interests of Swiss national defence allow, ... other measures of protection of the civilian population must be taken".²²

25. The US Air Force Pamphlet states that:

As a corollary to the principle of general civilian immunity, the parties to a conflict should, to the maximum extent feasible, take necessary precautions to protect the civilian population, individual civilians, and civilian objects under their authority against the dangers resulting from military operations.²³

National Legislation

26. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of AP I, including violations of Article 58(c) AP I, as well as any "contravention" of AP II, including violations of Article 13(1) AP II, are punishable offences.²⁴

27. According to the Report on the Practice of Kuwait, great attention has been paid to the issue of precautions in Kuwait after the invasion by Iraq and this task has been given to the civil defence authorities. The report notes that, pursuant to Kuwait's Civil Defence Decree, this task includes the following measures: alerting the civilian population in case of aerial bombardment, preparation of public shelters and preparation and execution of evacuation plans.²⁵

28. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".²⁶

National Case-law

29. No practice was found.

Other National Practice

30. The Report on the Practice of Algeria states that, owing to the particular nature of the Algerian war of independence, no precise information could be found regarding the behaviour of Algerian combatants with respect to precautions against the effects of attacks. The report testifies, however, to their willingness to protect the civilian population "against the effects of attacks by the colonial army".²⁷

31. The Report on the Practice of Germany states that the precautions required against the effects of attacks have to be taken mainly by the civil defence. It quotes a representative of the Ministry of Internal Affairs, who said at an ICRC expert meeting in Geneva that Germany had an integrated system of assistance to cover both peacetime disaster control and civil defence in case of armed conflict.²⁸

32. The Report on the Practice of Indonesia states that members of the Indonesian armed forces should take all necessary precautions to protect the civilian population and civilian objects against the dangers resulting from hostilities.²⁹

33. The Report on the Practice of Iran notes that, following the escalation of the "war of the cities" during the Iran-Iraq War, "serious measures were adopted

²⁴ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

²⁵ Report on the Practice of Kuwait, 1997, Chapter 1.6 and 1.7, referring to *Civil Defence Decree* (1979), Article 2.

²⁷ Report on the Practice of Algeria, 1997, Chapter 1.7, referring to *El Moudjahid*, Vol. 1, p. 89.

²⁸ Report on the Practice of Germany, 1997, Chapter 1.7.

²⁹ Report on the Practice of Indonesia, 1997, Chapter 1.7.

by the authorities to protect the civilians", including: construction of shelters in public places; educating civilians through mass media about the precautions they should take during bombardments; the establishment of facilities for the civilians who fled the cities under attack; and the formation of units to deal with the effects of attacks with weapons of mass destruction on cities.³⁰

34. On the basis of the reply by Iraq's Ministry of Defence to a questionnaire, the Report on the Practice of Iraq cites the following examples of precautionary measures taken in Iraqi territory: providing civilians with devices for their protection from the consequences of certain weapons; early warning of the civilian population of imminent enemy military operations; and identification of civilian objects and antiquities.³¹

35. The Report on the Practice of Kuwait states that it is the *opinio juris* of Kuwait that "all States have a duty to adopt measures to eliminate/minimise the effects of war in order to protect humanity", including exceptional measures to protect civilians and to ensure the continuity of public services during the exceptional situation of war.³²

36. The Report on the Practice of Malaysia notes that the security forces act in conformity with international norms on protecting the civilian population against the dangers resulting from security operations, whether in an international or non-international armed conflict.³³

37. According to the Report on the Practice of Nigeria, although no practice exists regarding precautions against the effects of attacks, the duty to take such precautions is a part of customary international law.³⁴

38. According to the Report on the Practice of Rwanda, it is the *opinio juris* of Rwanda that precautions must be taken to protect civilians against the effects of attacks.³⁵

39. The Report on the Practice of Syria asserts that Syria considers Article 58 AP I to be part of customary international law.³⁶

40. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that "the obligation to take reasonable measures to minimize damage to natural resources and cultural property is shared by both an attacker and a defender . . . The defender has certain responsibilities as well."³⁷

41. The Report on the Practice of Zimbabwe states that the provisions of Article 58 AP I would be regarded as customary by Zimbabwe because of its adoption of the Geneva Conventions Amendment Act which incorporates AP I into Zimbabwe's law and practice.³⁸

III. Practice of International Organisations and Conferences

United Nations

42. General Assembly Resolution 2444 (XXIII), adopted in 1968, affirmed Resolution XXVIII of the 20th International Conference of the Red Cross and the basic humanitarian principle applicable in all armed conflicts laid down therein that "distinction must be made at all times between persons taking part in the hostilities and members of the civilian population to the effect that the latter be spared as much as possible".³⁹

43. General Assembly Resolution 2675 (XXV), adopted in 1970, states that "in the conduct of military operations, every effort should be made to spare civilian populations from the ravages of war, and all necessary precautions should be taken to avoid injury, loss or damage to civilian populations".⁴⁰

Other International Organisations

44. No practice was found.

International Conferences

45. The 20th International Conference of the Red Cross in 1965 adopted a resolution on the protection of civilian populations against the dangers of indiscriminate warfare in which it solemnly declared that:

All Governments and other authorities responsible for action in armed conflicts should conform at least to the following principles: ... that distinction must be made at all times between persons taking part in the hostilities and members of the civilian population to the effect that the latter be spared as much as possible.⁴¹

IV. Practice of International Judicial and Quasi-judicial Bodies

46. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber noted that Article 58 AP I was now part of customary international law, not only because it specified and fleshed out general pre-existing norms, but also because it did not appear to be contested by any State, including those who

³⁹ UN General Assembly, Res. 2444 (XXIII), 19 December 1968, § 1(c).

⁴⁰ UN General Assembly, Res. 2675 (XXV), 9 December 1970, § 3.

⁴¹ 20th International Conference of the Red Cross, Vienna, 2–9 October 1965, Res. XXVIII.

had not ratified the Protocol.⁴² With reference to the Martens Clause, the Trial Chamber held that:

The prescriptions of ... [Article 58] (and of the corresponding customary rules) must be interpreted so as to construe as narrowly as possible the discretionary power to attack belligerents and, by the same token, so as to expand the protection accorded to civilians.⁴³

V. Practice of the International Red Cross and Red Crescent Movement

47. No practice was found.

VI. Other Practice

48. According to the Report on SPLM/A Practice, the SPLM/A instructed the civilian population to dig trenches and shelters against aerial bombardments by the government of Sudan.⁴⁴

Feasibility of precautions against the effects of attacks

I. Treaties and Other Instruments

Treaties

49. Upon ratification (or signature) of AP I by Algeria, Belgium, Canada, France, Germany, Ireland, Italy, Netherlands, Spain and UK made statements to the effect that feasible precautions are those which are practicable or practically possible, taking into account all circumstances ruling at the time, including humanitarian and military considerations. These are quoted in Chapter 5, Section A, and are not repeated here.

50. Upon ratification of AP I, Austria stated that "in view of the fact that Article 58 of Protocol I contains the expression 'to the maximum extent feasible', subparagraphs (a) and (b) will be applied subject to the requirements of national defence".⁴⁵

51. Upon ratification of AP I, Switzerland stated that "considering that [Article 58 AP I] contains the expression 'to the maximum extent feasible', paragraphs (a) and (b) will be applied subject to the defence requirements of the national territory".⁴⁶

Other Instruments

52. No practice was found.

⁴² ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 524.

⁴³ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 525.

⁴⁴ Report on SPLM/A Practice, 1998, Chapter 1.7.

⁴⁵ Austria, Reservations made upon ratification of AP I, 13 August 1982.

⁴⁶ Switzerland, Reservations made upon ratification of AP I, 17 February 1982, § 2.

*II. National Practice**Military Manuals*

53. Switzerland's Basic Military Manual specifies that precautions against the effects of attacks should be taken in order to protect civilians "to the extent possible, that is, as far as the interests of national defence allow".⁴⁷ It later states that "in case of doubt, the constraints of national defence prevail".⁴⁸

National Legislation

54. No practice was found.

National Case-law

55. No practice was found.

Other National Practice

56. At the CDDH, Cameroon considered that the obligations under Article 58 AP I "are not absolute, since they are to be fulfilled only 'to the maximum extent feasible', for no one is obliged to do the impossible".⁴⁹

57. At the CDDH, Canada stated that the word "feasible" when used in AP I, for example, in Article 57 and 58, "refers to what is practicable or practically possible, taking into account all circumstances existing at the relevant time, including those circumstances relevant to the success of military operations".⁵⁰

58. At the CDDH, the FRG stated that its understanding of the word "feasible" in Article 58 AP I was that it referred to "that which is practicable or practically possible, taking into account all circumstances at the time, including those relevant to the success of military operations".⁵¹

59. At the CDDH, Italy stated that:

The words "to the maximum extent feasible" at the beginning of [Article 58 AP I], however, clearly show the real aim of this rule: this is not a question of absolute obligations, but, on the contrary, of precepts that should be followed if, and to the extent that, the particular circumstances permit.⁵²

60. At the CDDH, the Netherlands stated that "the word 'feasible' when used in Protocol I, for example in Articles 50 and 51 [now Articles 57 and 58], should in any particular case be interpreted as referring to that which was

⁴⁷ Switzerland, *Basic Military Manual* (1987), Article 29(3).

⁵¹ FRG, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 226.

⁵² Italy, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 232.

practicable or practically possible, taking into account all circumstances at the time".⁵³

61. At the CDDH, the UK:

expressed keen satisfaction at the adoption of [Article 58], which was designed to lend added strength to the protection already extended to civilian persons and objects of a civilian character by preceding articles. Nevertheless, in an armed conflict such protection could never be absolute; and that was reflected in the article through the expression "to the maximum extent feasible". According to the interpretation placed upon it by [the UK], the word "feasible", wherever it was employed in the Protocol, related to what was workable or practicable, taking into account all the circumstances at a given moment, and especially those which had a bearing on the success of military operations.⁵⁴

62. At the CDDH, the US stated that:

The word "feasible" when used in draft Protocol I, for example in Articles 50 and 51 [now Articles 57 and 58], refers to that which is practicable or practically possible, taking into account all circumstances at the time, including those relevant to the success of military operations.⁵⁵

III. Practice of International Organisations and Conferences

United Nations

63. No practice was found.

Other International Organisations

64. No practice was found.

International Conferences

65. The Rapporteur of the Working Group at the CDDH reported that:

Agreement [on draft Article 51 AP I (now Article 59)] was reached fairly quickly on this draft after it was revised to have the phrase "to the maximum extent feasible" modify all subparagraphs. This revision reflected the concern of a number of representatives that small and crowded countries would find it difficult to separate civilians and civilian objects from military objectives. Other representatives pointed out that even large countries would find such separation difficult or impossible to arrange, in many cases.⁵⁶

IV. Practice of International Judicial and Quasi-judicial Bodies

66. No practice was found.

⁵³ Netherlands, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 214, § 61.

⁵⁴ UK, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 214, §§ 58–59.

⁵⁵ US, Statement at the CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 241.

⁵⁶ CDDH, *Official Records*, Vol. XV, CDDH/III/264/Rev.1, Report to Committee III on the Work of the Working Group submitted by the Rapporteur, 13 March 1975, p. 353.

V. Practice of the International Red Cross and Red Crescent Movement

67. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “the commander shall take all feasible precautions. ‘Feasible precautions’ are those precautions which are practicable, taking into account the tactical situation (that is all circumstances ruling at the time, including humanitarian and military considerations).”⁵⁷

VI. Other Practice

68. No practice was found.

Information required for deciding upon precautions against the effects of attacks

69. In general, the practice in Chapter 5, Section A, concerning the information required to take decisions on precautions in attack is relevant *mutatis mutandis* to precautions against the effects of attacks and is not repeated here.

B. Location of Military Objectives outside Densely Populated Areas

Note: For practice on the removal of military objectives from the vicinity of medical units, see Chapter 7, section D. For practice on the use of human shields, see Chapter 32, section J.

I. Treaties and Other Instruments

Treaties

70. Article 58(b) AP I states that the parties to the conflict shall, to the maximum extent feasible, “avoid locating military objectives within or near densely populated areas”. Article 58 AP I was adopted by 80 votes in favour, none against and 8 abstentions.⁵⁸

71. Article 3 of the 1996 Israel-Lebanon Ceasefire Understanding states that the two parties commit to ensuring that “civilian populated areas and industrial and electrical installations will not be used as launching grounds for attacks”.

72. Article 8 of the 1999 Second Protocol to the 1954 Hague Convention provides that “the Parties to the conflict shall, to the maximum extent feasible: . . . b) avoid locating military objectives near cultural property”.

Other Instruments

73. Article 11 of the 1956 New Delhi Draft Rules states that “the Parties to the conflict shall, so far as possible, avoid the permanent presence of armed forces,

⁵⁷ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 365.

⁵⁸ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 214.

military material, mobile military establishments or installations, in towns or other places with a large civilian population”.

74. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 58 AP I.

75. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 58 AP I.

76. Section 5.4 of the 1999 UN Secretary-General's Bulletin states that “in its area of operation, the United Nations force shall avoid, to the extent feasible, locating military objectives within or near densely populated areas”. It specifies, however, that “military installations and equipment of peacekeeping operations, as such, shall not be considered military objectives”.

II. National Practice

Military Manuals

77. Argentina's Law of War Manual states that “the parties to the conflict shall, to the extent possible, avoid locating military objectives within or near densely populated areas”.⁵⁹

78. Australia's Defence Force Manual states that:

Defences and defensive positions should also be sited, if practicable, to avoid or minimise collateral damage. Ideally, all military objectives, including defensive positions, should be sited outside heavily populated areas. As in offensive operations, where a location or object may be equally successfully defended from any one of several defensive positions, LOAC requires that the defence should be conducted from the position which would cause the least danger to civilians and civilian objects.⁶⁰

The manual requires commanders to refrain from “locating military objectives within or near densely-populated areas”.⁶¹

79. Benin's Military Manual states that “the belligerents must avoid locating their military installations in the vicinity of the civilian population”.⁶² The manual further specifies that:

Defence shall be organised, as far as possible, outside inhabited areas... When a choice is possible between several defence positions for obtaining an equivalent military advantage, the position to be selected shall be that which would cause less danger to civilian persons and objects... Military units, except medical units, shall move or stay preferably outside populated areas, when their presence, even temporary, could endanger civilian persons and objects. Even a temporary military presence can create a dangerous situation for the civilian areas and persons. Units

⁵⁹ Argentina, *Law of War Manual* (1989), § 4.07(2).

⁶² Benin, *Military Manual* (1995), Fascicule III, p. 12.

located in or close to populated areas shall be so deployed as to create the least possible danger to civilian areas.⁶³

80. Canada's LOAC Manual states that "to protect civilians, the parties to a conflict shall, to the maximum extent feasible . . . avoid locating legitimate targets within or near densely populated areas".⁶⁴

81. Croatia's LOAC Compendium states that "where there are tactically equivalent alternatives, the defence position shall be chosen so as to cause the least danger to civilian persons and objects. Movements and/or halts of military units near civilian objects shall be limited to a minimum."⁶⁵

82. Croatia's Commanders' Manual states that:

57. Within tactically equivalent alternatives, the defence position shall be chosen so as to expose civilian persons and objects to the least danger.

...

63. Movement and stay during movement near civilian objects shall be restricted to the minimum duration possible.

64. The location of combat units shall be chosen so as to avoid the close vicinity of military objectives and civilian persons and objects.

65. In case of unavoidable close vicinity of military objectives and civilian persons and objects, the following principles shall guide the commander:

- a) in the vicinity of important concentrations of civilian persons and objects only smaller military objectives shall be placed;
- b) larger military objectives are to be placed in the vicinity of less important concentrations of civilian persons and of smaller civilian objects.⁶⁶

83. Ecuador's Naval Manual states that "any party to an armed conflict must separate military activities and installations from areas of noncombatant concentration".⁶⁷

84. Hungary's Military Manual states that "where there are tactically equivalent alternatives, the defence position shall be chosen so as to cause the least danger to civilian persons and objects. Movements and/or halts of military units near civilian objects must be limited to a minimum."⁶⁸

85. Israel's Manual on the Laws of War prohibits "mingling military targets among civilian objects, as for instance, a military force located within a village or a squad of soldiers fleeing into a civilian structure".⁶⁹

86. Italy's LOAC Elementary Rules Manual states that:

57. Within tactically equivalent alternatives, the defence position shall be chosen so as to expose civilian persons and objects to the least danger.

...

63. Movement and stay during movement near civilian objects shall be restricted to the minimum duration possible.

⁶³ Benin, *Military Manual* (1995), Fascicule III, p. 15.

⁶⁶ Croatia, *Commanders' Manual* (1992), §§ 57 and 63-65.

⁶⁷ Ecuador, *Naval Manual* (1989), § 11.2. ⁶⁸ Hungary, *Military Manual* (1992), pp. 67-68.

⁶⁹ Israel, *Manual on the Laws of War* (1998), p. 38.

64. The location of combat units shall be chosen so as to avoid the close vicinity of military objectives and civilian persons and objects.
65. In case of unavoidable close vicinity of military objectives and civilian persons and objects, the following principles shall guide the commander:
 - a) in the vicinity of important concentrations of civilian persons and objects only smaller military objectives shall be placed;
 - b) larger military objectives are to be placed in the vicinity of less important concentrations of civilian persons and of smaller civilian objects.⁷⁰

87. Kenya's LOAC Manual states that "the belligerents should avoid locating their military installations near the civilian population".⁷¹ The manual further specifies that:

Defence shall be organized primarily outside populated areas . . . When a choice is possible between several defence positions for obtaining a similar military advantage, the position to be selected shall be that which would cause the least danger to civilian persons and objects, if attacked . . . Military units, except medical units, shall move or stay preferably outside populated areas, when their presence, even temporary, could endanger civilian persons and objects. Movements which have to pass through or close to populated areas shall be executed rapidly. Interruptions of movements (e.g. regular stops after given periods of time, occasional stops) shall, when the tactical situation permits, take place outside populated areas or at least in less densely populated areas. Even a temporary military presence can create a dangerous situation for the civilian areas and persons. Units located in or close to populated areas shall be so deployed as to create the least possible danger to civilian areas (e.g. at least physical separation; appropriate distance between militarily used houses and other buildings). For a longer presence in civilian areas, additional danger reducing measures shall be taken by the competent commander (e.g. clear and, where necessary, marked limit of unit's location, restricted and regulated access to the location, relevant instructions to members of the unit and appropriate information to the civilian population).⁷²

88. Madagascar's Military Manual states that:

31. Among tactically equivalent defence positions, that position must be chosen which exposes civilian persons and objects the least to danger.
- ...
41. Movements (and stops during movements) in the vicinity of civilian objects shall be limited to the minimum.
42. The placement of combat units must be chosen in order to avoid proximity between military objectives and civilian objects.
43. In case of inevitable proximity between military objectives and civilian persons and objects, the commander must be guided by the following principles:
 - a) only small military objectives may be placed in the vicinity of important concentrations of civilian persons and objects;
 - b) larger military objectives must be placed in the vicinity of smaller concentrations of civilian persons and objects.⁷³

⁷² Kenya, *LOAC Manual* (1997), Précis No. 4, pp. 9–10.

⁷³ Madagascar, *Military Manual* (1994), Fiche No. 6-O, §§ 31 and 41–43.

89. The Military Manual of the Netherlands provides that one of the precautions against the effects of attacks consists of:

avoiding the placement of military objectives in or near densely populated areas . . . Although the physical separation of civilians and civilian objects from military objectives is an obvious measure for the protection of the population, it is nevertheless a measure that will often encounter great difficulties in densely populated areas. It is essential that the civilian population is not used as a human shield for military operations.⁷⁴

90. New Zealand's Military Manual states that "the Parties to the conflict shall, to the maximum extent feasible, . . . avoid locating military objectives within or near densely populated areas".⁷⁵

91. Nigeria's Military Manual states that:

As regards the conduct of defence, it shall be organised primarily outside populated areas . . . Similar to when conducting an attack, where a choice is possible between general defence positions, the position to be selected shall be that which would cause the least danger to civilian persons and objects . . . Movements and locations presupposes that military units, except medical units, shall move or stay preferably outside populated areas if their presence would endanger civilian persons and objects. Movements which have to pass through populated area[s] shall be executed rapidly. Where it becomes expedient to locate military units temporarily near populated areas, such units shall be deployed so as to create the least possible danger to civilian areas. For longer lasting military locations, additional danger reducing measures shall be taken by the competent commander.⁷⁶

92. Russia's Military Manual requires that commanders, in peacetime, "avoid deploying military objects in or near densely populated areas".⁷⁷

93. Spain's LOAC Manual lists among the required precautionary measures to be taken in defence the duty to "do everything possible to organise defence outside densely populated areas".⁷⁸ The manual further specifies that armed forces must "to the extent possible . . . avoid locating military objectives within densely populated areas".⁷⁹

94. Sweden's IHL Manual refers to the obligation enshrined in Article 58(b) API to "avoid locating military objectives within or near densely populated areas" and notes that "the expression 'endeavour' is not used in this case, which gives the rule greater force than that of Article 58(a)".⁸⁰

95. Switzerland's Basic Military Manual specifies that "to the extent possible, that is, as far as the interests of Swiss national defence allow, no military objective shall be placed within or in the vicinity of densely populated areas".⁸¹

⁷⁴ Netherlands, *Military Manual* (1993), p. V-12, § 10.

⁷⁷ Russia, *Military Manual* (1990), § 14(a).

⁷⁸ Spain, *LOAC Manual* (1996), Vol. I, § 2.3.b.(4).

⁷⁹ Spain, *LOAC Manual* (1996), Vol. I, § 4.5.a.(2).

⁸⁰ Sweden, *IHL Manual* (1991), Section 3.2.1.5, p. 74.

⁸¹ Switzerland, *Basic Military Manual* (1987), Article 29(3), see also Article 151(2)(b) and (3).

96. Togo's Military Manual states that "the belligerents must avoid locating their military installations in the vicinity of the civilian population".⁸² The manual further specifies that:

Defence shall be organised, as far as possible, outside inhabited areas... When a choice is possible between several defence positions for obtaining an equivalent military advantage, the position to be selected shall be that which would cause less danger to civilian persons and objects... Military units, except medical units, shall move or stay preferably outside populated areas, when their presence, even temporary, could endanger civilian persons and objects. Even a temporary military presence can create a dangerous situation for the civilian areas and persons. Units located in or close to populated areas shall be so deployed as to create the least possible danger to civilian areas.⁸³

97. The UK LOAC Manual provides that "the belligerents should endeavour to avoid siting their military installations near the civilian population".⁸⁴

98. The US Air Force Pamphlet states that:

As a corollary to the principle of general civilian immunity, the parties to a conflict should, to the maximum extent feasible, take necessary precautions to protect the civilian population, individual civilians, and civilian objects under their authority against the dangers resulting from military operations. Accordingly, they should endeavor... to avoid locating military objectives within or near densely populated areas. It is incumbent upon states, desiring to make protection of their own civilian population fully effective, to take appropriate measures to segregate and separate their military activities from the civilian population and civilian objects. Substantial military advantages may in fact be acquired by such separation.⁸⁵

With respect to the result of failure to separate military activities from civilian areas, the Pamphlet specifies that:

The failure of states to segregate and separate their own military activities, and particularly to avoid placing military objectives in or near populated areas and to remove such objects from populated areas, significantly and substantially weakens effective protection for their own population. A party to a conflict which places its own citizens in positions of danger by failing to carry out the separation of military activities from civilian activities necessarily accepts, under international law, the results of otherwise lawful attacks upon valid military objectives in their territory.⁸⁶

National Legislation

99. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 58(b) AP I, is a punishable offence.⁸⁷

⁸² Togo, *Military Manual* (1996), Fascicule III, p. 12.

⁸⁷ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

100. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".⁸⁸

National Case-law

101. No practice was found.

Other National Practice

102. On the basis of an interview with a retired army general, the Report on the Practice of Botswana states that it is Botswana's practice to separate military camps from civilian areas.⁸⁹

103. The Report on the Practice of Colombia states that if the location of police units may generate danger for the civilian population, their redeployment is considered advisable.⁹⁰

104. According to the Report on the Practice of Egypt, Egypt considers that parties to a conflict are required to take precautions against the effects of attack, in particular to refrain from placing military objectives within or near populated areas.⁹¹

105. In 1996, the Monitoring Group on the Implementation of the 1996 Israel-Lebanon Ceasefire Understanding, consisting of France, Israel, Lebanon, Syria and the US, pleaded with combatants to respect the precautionary measure of separating military objectives from densely populated areas, re-emphasising that artillery fired from populated areas endangered civilians. The Monitoring Group also asked combatants to take all necessary precautions during military operations launched from the vicinity of populated areas.⁹²

106. The Report on the Practice of Iran notes that "in many Iranian cities, especially in Tehran, due to [the] expansion of city limits [over] the years, some garrisons are now located in the center of the cities".⁹³

107. In a message to the UN Secretary-General in 1984, the President of Iraq stated that "both parties should refrain from placing military concentrations in or near towns so that there will be no intermingling between during military operations".⁹⁴

⁸⁸ Norway, *Military Penal Code as amended* (1902), § 108(b).

⁸⁹ Report on the Practice of Botswana, 1998, Interview with a retired army general, Answers to additional questions on Chapter 1.1.

⁹⁰ Report on the Practice of Colombia, 1998, Chapter 1.7.

⁹¹ Report on the Practice of Egypt, 1997, Chapter 1.7.

⁹⁴ Iraq, Message from the President of Iraq, annexed to Letter dated 10 June 1984 to the UN Secretary-General, UN Doc. S/16610, 19 June 1984, p. 2.

108. In 1992, in a letter to the UN Secretary-General, Israel stated that:

Operating with cruel indifference to the fate of innocent Lebanese civilians, Hizbollah and other terrorist organizations continue to use civilian centres as bases of operation. Therein lies the true cause of the suffering of the civilian population of southern Lebanon.⁹⁵

109. According to the Report on the Practice of Israel, "the IDF endeavours, to the maximum extent possible, not to place military objectives within or in the vicinity of densely populated civilian areas". The report remarks, however, that demographic changes have sometimes caused certain long-standing military bases to end up in mainly civilian areas. The IDF General Headquarter in Tel Aviv is cited as an example.⁹⁶

110. The Report on the Practice of Jordan refers to the existence of "a legal obligation under Jordanian practice prohibiting the location of military objectives in densely populated areas".⁹⁷ The report considers it "regrettable that military installations are sometimes located in the vicinity of densely populated areas".⁹⁸

111. At the CDDH, in the explanation of its vote on Article 51 of draft AP I (now Article 58), South Korea stated with respect to sub-paragraph (b) that:

This provision does not constitute a restriction on a State's military installations on its own territory. We consider that military facilities necessary for a country's national defence should be decided on the basis of the actual needs and other considerations of that particular country. An attempt to regulate a country's requirements and the fulfilment of those requirements in this connexion would not conform to actualities.⁹⁹

112. The Report on the Practice of Kuwait states that, with the growth of populations and the development of towns, the Kuwaiti authorities find themselves obliged to remove military sites from urban agglomerations.¹⁰⁰

113. The Report on the Practice of Lebanon notes that, according to an advisor of the Ministry of Foreign Affairs, it is forbidden for resistance movements to maintain a military presence in populated areas. It is also prohibited to use such areas as the starting point of a military operation. The advisor thought that the same principles should also apply to Israel, whose military forces should remain outside the towns and villages.¹⁰¹

⁹⁵ Israel, Letter dated 27 January 1992 to the UN Secretary-General, UN Doc. S/23479, 27 January 1992, p. 2.

¹⁰⁰ Report on the Practice of Kuwait, 1997, Chapter 1.7.

¹⁰¹ Report on the Practice of Lebanon, 1998, Interview with an advisor of the Lebanese Ministry of Foreign Affairs, Chapter 1.7.

114. The Report on the Practice of Malaysia considers that permanent and operational military camps may not be located within or near densely populated areas. The report notes, however, that at present, owing to the development of surrounding areas, many permanent and operational military camps are situated within or near densely populated areas.¹⁰²

115. The Report on the Practice of Syria asserts that Syria considers Article 58 AP I to be part of customary international law.¹⁰³

116. In reply to a question in the House of Lords with respect to the 1991 Gulf War, a UK government spokesman stated that:

The noble Lord asked if the bombing of civilians was not contrary to the Geneva Convention. The answer to that is no. We attacked targets accepted as legitimate in international law. Iraq's stationing of military targets in civilian areas was contrary to the rules of war.¹⁰⁴

117. In 1966, in the context of the Vietnam War, the US Department of Defense stated that:

It is impossible to avoid all damage to civilian areas, especially when the North Vietnamese deliberately emplace their air defense sites, their dispersed POL, their radar and other military facilities in the midst of populated areas, and, indeed, sometimes on the roofs of government buildings.¹⁰⁵

118. In 1966, in reply to an inquiry from a member of the US House of Representatives asking for a restatement of US policy on targeting in North Vietnam, a US Deputy Assistant Secretary of Defense wrote that "it is impossible to avoid all damage to civilian areas, particularly in view of the concerted effort of the North Vietnamese to emplace anti-aircraft and critical military targets among the civilian population".¹⁰⁶

119. In 1972, the General Counsel of the US Department of Defense stated that:

The principle [contained in paragraph 1(c) of UN General Assembly Resolution 2444 (XXIII) of 1969 that a distinction must be made at all times between persons taking part in the hostilities and members of the civilian population to the effect that the civilians be spared as much as possible] addresses primarily the Party exercising control over members of the civilian population. This principle recognizes the interdependence of the civilian community with the overall war effort of a modern society. But its application enjoins the party controlling the population to use its

¹⁰⁶ US, Letter from Deputy Assistant Secretary of Defense Goulding to US Representative Ogden Reid from New York, 30 December 1966, reprinted in Marjorie Whiteman, *Digest of International Law*, Vol. 10, Department of State Publication 8367, Washington, D.C., 1968, p. 428.

best efforts to distinguish or separate its military forces and war making activities from members of the civilian population to the maximum extent feasible so that civilian casualties and damage to civilian objects incidental to attacks on military objectives, will be minimized as much as possible.¹⁰⁷

120. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that:

The obligation of distinguishing combatants and military objectives from civilians and civilian objects is a shared responsibility of the attacker, defender, and the civilian population as such . . . A defender must exercise reasonable precaution to separate the civilian population and civilian objects from military objectives.¹⁰⁸

121. In 1991, in a report submitted to the UN Security Council on operations in the Gulf War, the US denounced Iraq for having “intentionally placed civilians at risk through its behaviour”. The report cited the following examples of such behaviour:

- (a) The Iraqi Government moved significant amounts of military weapons and equipment into civilian areas with the deliberate purpose of using innocent civilians and their homes as shields against attacks on legitimate military targets;
- (b) Iraqi fighter and bomber aircraft were dispersed into villages near the military airfields where they were parked between civilian houses and even placed immediately adjacent to important archaeological sites and historic treasures;
- (c) Coalition aircraft were fired upon by anti-aircraft weapons in residential neighbourhoods in various cities. In Baghdad, anti-aircraft sites were located on hotel roofs;
- (d) In one case, military engineering equipment used to traverse rivers, including mobile bridge sections, was located in several villages near an important crossing point. The Iraqis parked each vehicle adjacent to a civilian house.¹⁰⁹

122. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

Historically, and from a common sense standpoint, the party controlling the civilian population has the opportunity and responsibility to minimize the risk to the civilian population through the separation of military objects from the civilian population . . . The defending party must exercise reasonable precautions to separate the civilian population and civilian objects from military objectives, and avoid placing military objectives in the midst of the civilian population.¹¹⁰

¹⁰⁷ US, Letter from J. Fred Buzhardt, General Counsel of the Department of Defense, to Senator Edward Kennedy, Chairman of the Subcommittee on Refugees of the Committee on the Judiciary, 22 September 1972, *AJIL*, Vol. 67, 1973, p. 123.

¹⁰⁹ US, Letter dated 5 March 1991 to the President of the UN Security Council, UN Doc. S/22341, 8 March 1991, pp. 2–3.

¹¹⁰ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, p. 625.

123. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that:

The obligation to take reasonable measures to minimize damage to natural resources and cultural property is shared by both an attacker and a defender. . . . The defender has certain responsibilities as well, not the least of which is to take all reasonable measures to separate military objectives from civilian objects and the civilian population. Regrettably, in conflicts such as the Korean and Vietnam Wars, as well as the 1991 Persian Gulf War, the armed forces of the United States have faced opponents who have elected to use their civilian populations and civilian objects to shield military objectives from attack. Notwithstanding such actions, U.S. forces have taken reasonable measures to minimize collateral injury to civilians and damage to civilian objects while conducting their military operations, often at increased risk to U.S. personnel.¹¹¹

124. The Report on US Practice states that “it is the *opinio juris* of the United States that parties to a conflict should, to the maximum extent feasible, segregate and separate their military activities from the civilian population to protect the latter”.¹¹²

125. The Report on the Practice of Zimbabwe states that the provisions of Article 58 AP I would be regarded as customary by Zimbabwe because of its adoption of the Geneva Conventions Amendment Act which incorporates API into Zimbabwe’s law and practice.¹¹³

III. Practice of International Organisations and Conferences

United Nations

126. In 1991, in a special report on UNIFIL in Lebanon, the UN Secretary-General stated that:

Most of the above-described hostilities have taken place near IDF/DFP positions that are close to population centres and in areas where UNIFIL’s deployment overlaps the Israeli-Controlled Area (ICA). In order to reduce hostilities, to avoid further hardship to the civilian population and to prevent additional UNIFIL casualties, I have proposed to the Government of Israel that it withdraw IDF/DFP personnel from the most affected positions, which would then be taken over by UNIFIL. I am convinced that, as in the case of Tallet Huqban in October 1987 (S/19445), such a move would have a beneficial effect.¹¹⁴

The Secretary-General resubmitted his proposal to the Israeli government in 1992.¹¹⁵

¹¹¹ US, Department of Defense, Report to Congress on International Policies and Procedures Regarding the Protection of Natural and Cultural Resources During Times of War, 19 January 1993, p. 203.

¹¹⁴ UN Secretary-General, Special report on UNIFIL, UN Doc. S/23255, 29 November 1991, § 9.

¹¹⁵ UN Secretary-General, Report on UNIFIL, UN Doc. S/24341, 21 July 1992, § 31.

Other International Organisations

127. No practice was found.

International Conferences

128. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

129. In its judgement in the *Kupreškić case* in 2000, the ICTY Trial Chamber noted that Article 58 AP I was now part of customary international law, not only because it specified and fleshed out general pre-existing norms, but also because it did not appear to be contested by any State, including those who had not ratified the Protocol.¹¹⁶ With reference to the Martens Clause, the Trial Chamber held that:

The prescriptions of . . . [Article 58] (and of the corresponding customary rules) must be interpreted so as to construe as narrowly as possible the discretionary power to attack belligerents and, by the same token, so as to expand the protection accorded to civilians.¹¹⁷

V. Practice of the International Red Cross and Red Crescent Movement

130. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

439. Defence shall be organized primarily outside populated areas . . .

440. When a choice is possible between several defence positions for obtaining a similar military advantage, the position to be selected shall be that the defence of which would cause the least danger to civilian persons and objects.

...

446. When the tactical situation permits, defence measures which may affect civilian persons shall be announced by effective advance warning (e.g. for evacuation of specific houses or areas, for removal and shelter).

...

448. Military units, except medical units, shall move or stay preferably outside populated areas, when their presence, even temporary, could endanger civilian persons and objects.

449. Movements which have to pass through or close to populated areas shall be executed rapidly . . .

450. Interruptions of movement (e.g. regular stops after given periods of time, occasional stops) shall, when the tactical situation permits, take place outside populated areas or at least in less densely populated areas.

451. Even a temporary military presence can create a dangerous situation for the civilian areas and persons. Units located in or close to populated areas shall be so

¹¹⁶ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 524.

¹¹⁷ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 525.

deployed as to create the least possible danger to civilian areas (e.g. at least clear physical separation: appropriate distance between militarily used houses and other buildings).

452. For longer lasting locations in civilian areas, additional danger-reducing measures shall be taken by the competent commander (e.g. clear and where necessary marked limit of unit's location, restricted and regulated access to location, instructions to members of the unit and appropriate information to the civilian population).¹¹⁸

131. In an appeal issued in 1979 with respect to the conflict in Rhodesia/Zimbabwe, the ICRC specifically requested that the Patriotic Front "clearly separate civilian establishments, particularly refugee camps, from military installations".¹¹⁹

VI. Other Practice

132. In a resolution adopted during its Edinburgh Session in 1969, the Institute of International Law stated that "the provisions of the preceding paragraphs do not affect the application of the existing rules of international law which prohibit the exposure of civilian populations and of non-military objects to the destructive effects of military means".¹²⁰

C. Removal of Civilians and Civilian Objects from the Vicinity of Military Objectives

Note: For practice concerning the evacuation of the civilian population for security reasons, see Chapter 38, section A.

I. Treaties and Other Instruments

Treaties

133. Article 58(a) AP I states that the Parties to the conflict shall, to the maximum extent feasible, "without prejudice to Article 49 of the Fourth Convention, endeavour to remove the civilian population, individual civilians and civilian objects under their control from the vicinity of military objectives". Article 58 AP I was adopted by 80 votes in favour, none against and 8 abstentions.¹²¹

¹²¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 214.

134. Article 8 of the 1999 Second Protocol to the 1954 Hague Convention provides that “the Parties to the conflict shall, to the maximum extent feasible: a) remove movable cultural property from the vicinity of military objectives or provide for adequate *in situ* protection”.

Other Instruments

135. Article 11 of the 1956 New Delhi Draft Rules states that:

The parties to the conflict shall, so far as possible, take all necessary steps to protect the civilian population subject to their authority from the dangers to which they would be exposed in attack – in particular by removing them from the vicinity of military objectives and from threatened areas. However, the rights conferred upon the population in the event of transfer or evacuation under Article 49 of the Fourth Geneva Convention of 12 August 1949 are expressly reserved.

136. Paragraph 6 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY requires that hostilities be conducted in accordance with Article 58 AP I.

137. Paragraph 2.5 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina requires that hostilities be conducted in accordance with Article 58 AP I.

II. National Practice

Military Manuals

138. Argentina’s Law of War Manual states that “the parties to the conflict shall, to the extent possible, endeavour to remove the civilian population, individual civilians and civilian objects under their control from the vicinity of military objectives”.¹²²

139. Australia’s Defence Force Manual requires commanders to remove civilians and civilian objects under their control “from the vicinity of military objectives”.¹²³

140. Benin’s Military Manual states that “civilians must be evacuated from zones located in proximity to military objectives”.¹²⁴ The manual repeats this rule and gives some further specifications to the effect that: “civilian persons and objects must be separated from military objectives as far as possible . . . Civilian persons removed from the vicinity of military objectives shall be taken preferably to locations they know and which present no danger for them.”¹²⁵

141. Cameroon’s Instructors’ Manual provides that:

On the approach of the enemy or of combat towards zones of civilian habitation, the civilian population must be evacuated towards zones free of combat. The means and

¹²⁵ Benin, *Military Manual* (1995), Fascicule III, p. 15.

organisation of this evacuation are the responsibility of the national civilian and military authorities. All persons must be evacuated, with priority given to women and children.¹²⁶

142. According to Canada's LOAC Manual, "to protect civilians, the parties to a conflict shall, to the maximum extent feasible endeavour to remove the civilian population, individual civilians and civilian objects under their control from the vicinity of legitimate targets".¹²⁷

143. Croatia's Commanders' Manual states that "endangered civilian persons and objects shall be removed from military objectives".¹²⁸

144. Ecuador's Naval Manual states that "any party to an armed conflict must remove civilians and other noncombatants under its control from the vicinity of targets of likely enemy attacks".¹²⁹

145. France's LOAC Summary Note states that "civilians and civilian objects must be kept away from the dangers [resulting from military operations] and, if necessary, be removed from the vicinity of military objectives".¹³⁰ The manual specifies that "the commander organises the cooperation with the civilian authorities and sets the priorities, in particular with respect to the precautionary measures to be taken for the protection of civilian populations".¹³¹

146. Israel's Manual on the Laws of War states that "one should try and remove the civilian population from military targets".¹³²

147. Italy's LOAC Elementary Rules Manual states that "endangered civilian persons and objects shall be removed from military objectives".¹³³

148. Kenya's LOAC Manual states that "civilians should be removed from the vicinity of military objectives as far as possible".¹³⁴ The manual later repeats this rule and gives some additional specifications:

Civilian persons and objects shall be removed from military objectives. To that end, commanders shall seek the co-operation of the civilian authorities. . . Civilian persons removed from the vicinity of military objectives shall be taken preferably to locations they know and which present no danger for them. Civilian objects shall be removed primarily to locations outside the vicinity of military objectives.¹³⁵

149. Madagascar's Military Manual provides that "civilian persons and objects shall be removed from military objectives".¹³⁶

150. The Military Manual of the Netherlands provides that one of the precautions against the effects of attacks consists of:

¹²⁶ Cameroon, *Instructors' Manual* (1992), p. 67, § 242(1).

¹²⁷ Canada, *LOAC Manual* (1999), p. 4-4, § 30(a).

trying to evacuate the civilian population, individual civilians and civilian objects from the vicinity of military objectives . . . Although the physical separation of civilians and civilian objects from military objectives is an obvious measure for the protection of the population, it is nevertheless a measure that will often encounter great difficulties in densely populated areas. It is essential that the civilian population is not used as a human shield for military operations.¹³⁷

151. New Zealand's Military Manual states that "the Parties to the conflict shall, to the maximum extent feasible, endeavour to remove the civilian population, individual civilians and civilian objects under their control from the vicinity of military objectives".¹³⁸

152. Nigeria's Military Manual considers that one of the aims and objectives of the Geneva Conventions is "to evacuate and prevent that civilians and civilian objects in conflict zones are attacked".¹³⁹ The manual further specifies that "commander[s] shall seek the cooperation of civilians so as to remove them from [the vicinity of] military objectives".¹⁴⁰

153. Spain's LOAC Manual lists among the required precautionary measures to be taken in defence the duty "to remove, as far as possible, civilian persons or objects under military control from the vicinity of military objectives".¹⁴¹

154. Sweden's IHL Manual states that "the parties to the conflict shall endeavour to move the civilian population, civilian persons and civilian objects from the vicinity of military objectives".¹⁴²

155. Switzerland's Basic Military Manual provides that "to the extent possible, that is, as far as the interests of Swiss national defence allow, . . . civilians close to military objectives will be removed".¹⁴³

156. Togo's Military Manual states that "civilians must be evacuated from zones located in proximity to military objectives".¹⁴⁴ The manual repeats this rule and gives some further specifications to the effect that "civilian persons and objects must be separated from military objectives as far as possible . . . Civilian persons removed from the vicinity of military objectives shall be taken preferably to locations they know and which present no danger for them."¹⁴⁵

157. The UK LOAC Manual provides that "civilians should be removed from the vicinity of military objectives so far as possible".¹⁴⁶

158. The US Air Force Pamphlet states that:

As a corollary to the principle of general civilian immunity, the parties to a conflict should, to the maximum extent feasible, take necessary precautions to protect the

civilian population, individual civilians, and civilian objects under their authority against the dangers resulting from military operations. Accordingly, they should endeavor to remove civilians from the proximity of military objectives . . . It is incumbent upon states, desiring to make protection of their own civilian population fully effective, to take appropriate measures to segregate and separate their military activities from the civilian population and civilian objects. Substantial military advantages may in fact be acquired by such separation.¹⁴⁷

159. The US Naval Handbook states that “a party to an armed conflict has an affirmative duty to remove civilians under its control as well as the wounded, sick, shipwrecked, and prisoners of war from the vicinity of targets of likely enemy attacks”.¹⁴⁸

National Legislation

160. Under Ireland’s Geneva Conventions Act as amended, any “minor breach” of AP I, including violations of Article 58(a) AP I, is a punishable offence.¹⁴⁹

161. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment”.¹⁵⁰

National Case-law

162. No practice was found.

Other National Practice

163. According to the Report on the Practice of Egypt, Egypt considers that parties to a conflict are required to take precautions against the effects of attack, in particular the removal of the civilian population and civilian objects from the vicinity of military objectives.¹⁵¹

164. On the basis of the reply by Iraq’s Ministry of Defence to a questionnaire, the Report on the Practice of Iraq states that “the Iraqi Armed Forces undertook, in numerous instances, to evacuate the civilian population living inside the occupied territories, in order to safeguard them in the instances where counter attacks were expected to take place by the Iranian forces”. With respect to measures taken inside Iraqi territory, the report cites the following examples: construction of shelters and keeping civilians away from the areas of military operations.¹⁵²

165. The Report on the Practice of Jordan refers to the legal obligation to remove endangered civilian persons and objects from the vicinity of military

¹⁴⁷ US, *Air Force Pamphlet* (1976), § 5-4(a). ¹⁴⁸ US, *Naval Handbook* (1995), § 11.2.

¹⁴⁹ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

¹⁵⁰ Norway, *Military Penal Code as amended* (1902), § 108(b).

¹⁵¹ Report on the Practice of Egypt, 1997, Chapter 1.7.

¹⁵² Report on the Practice of Iraq, 1998, Reply by the Iraqi Ministry of Defence to a questionnaire, July 1997, Chapter 1.7.

targets. It gives the example of the evacuation of civilians from a dangerous zone (though not a military objective) when in 1968, Jordan ordered the evacuation of civilians who had fled the West Bank in 1967 and lived in areas between Jordan and Israel. The evacuation was aimed at protecting the civilians from intensive military operations.¹⁵³

166. The Report on the Practice of Kuwait states that in practice Kuwait has made every possible effort to remove the civilian population from the vicinity of military objectives. During the “crisis” in February 1998, the Kuwaiti authorities deemed the border area a possible theatre of military operations and evacuated civilians from the vicinity.¹⁵⁴

167. The Report on the Practice of Malaysia refers to the obligation to remove all civilians from the vicinity of military objectives.¹⁵⁵

168. The Report on the Practice of Syria asserts that Syria considers Article 58 AP I to be part of customary international law.¹⁵⁶

169. In 1972, the General Counsel of the US Department of Defense stated that:

The principle [contained in paragraph 1(c) of UN General Assembly Resolution 2444 (XXIII) of 1969 that a distinction must be made at all times between persons taking part in the hostilities and members of the civilian population to the effect that the civilians be spared as much as possible] addresses primarily the Party exercising control over members of the civilian population. This principle recognizes the interdependence of the civilian community with the overall war effort of a modern society. But its application enjoins the party controlling the population to use its best efforts to distinguish or separate its military forces and war making activities from members of the civilian population to the maximum extent feasible so that civilian casualties and damage to civilian objects incidental to attacks on military objectives, will be minimized as much as possible.¹⁵⁷

170. In 1991, in response to an ICRC memorandum on the applicability of IHL in the Gulf region, the US Department of the Army stated that:

The obligation of distinguishing combatants and military objectives from civilians and civilian objects is a shared responsibility of the attacker, defender, and the civilian population as such. An attacker must exercise reasonable precautions to minimize incidental or collateral injury to the civilian population, consistent with mission accomplishment and allowable risk to the attacking force. A defender must exercise reasonable precaution to separate the civilian population and civilian objects from military objectives. Civilians must exercise reasonable precaution to remove themselves from the vicinity of military objectives or military operations.

¹⁵⁵ Report on the Practice of Malaysia, 1997, Answers to additional questions on Chapter 1.7.

¹⁵⁶ Report on the Practice of Syria, 1997, Chapter 1.7.

¹⁵⁷ US, Letter from J. Fred Buzhardt, General Counsel of the Department of Defense, to Senator Edward Kennedy, Chairman of the Subcommittee on Refugees of the Committee on the Judiciary, 22 September 1972, *AJIL*, Vol. 67, 1973, p. 123.

The force that has control over the civilians has an obligation to place them in a safe place.¹⁵⁸

171. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

Historically, and from a common sense standpoint, the party controlling the civilian population has the opportunity and responsibility to minimize the risk to the civilian population through the separation of military objects from the civilian population, evacuation of the civilian population from near immovable military objects, and development of air raid precautions . . . The defending party must exercise reasonable precautions to separate the civilian population and civilian objects from military objectives, and avoid placing military objectives in the midst of the civilian population.¹⁵⁹

In the report, the Department of Defense accused Iraq of having violated its obligations:

Iraqi authorities elected not to move civilians away from objects they knew were legitimate military targets, thereby placing those civilians at risk of injury incidental to Coalition attacks against these targets, notwithstanding the efforts by the Coalition to minimize risk to innocent civilians . . . The Government of Iraq elected not to take routine air-raid precautions to protect its civilian population. Civilians were not evacuated in any significant numbers from Baghdad, nor were they removed from proximity to legitimate military targets. There were air raid shelters for less than 1 percent of the civilian population of Baghdad . . . The Government of Iraq was aware of its law of war obligations. In the month preceding the Coalition air campaign, for example, a civil defense exercise was conducted, during which more than one million civilians were evacuated from Baghdad. No government evacuation program was undertaken during the Coalition air campaign.¹⁶⁰

172. In 1993, in its report to Congress on the protection of natural and cultural resources during times of war, the US Department of Defense stated that:

The obligation to take reasonable measures to minimize damage to natural resources and cultural property is shared by both an attacker and a defender . . . The defender has certain responsibilities as well, not the least of which is to take all reasonable measures to separate military objectives from civilian objects and the civilian population. Regrettably, in conflicts such as the Korean and Vietnam Wars, as well as the 1991 Persian Gulf War, the armed forces of the United States have faced opponents who have elected to use their civilian populations and civilian objects to shield military objectives from attack. Notwithstanding such actions, U.S. forces have taken reasonable measures to minimize collateral injury to civilians

¹⁶⁵ ICTY, *Kupreškić case*, Judgement, 14 January 2000, § 525.

Civilian persons and objects shall be removed from military objectives. To that purpose commanders shall seek the cooperation of the civilian authorities . . . The removal of civilian persons from the vicinity of military objectives shall take place preferably to locations they know and which present no danger for them. The removal of civilian objects shall take place primarily to locations outside the vicinity of military objectives . . . When the tactical situation permits, effective advance warning shall be given (e.g. for the removal and/or shelter of civilian persons).¹⁶⁶

178. In an appeal issued in 1979 with respect to the conflict in Rhodesia/Zimbabwe, the ICRC specifically requested that the Patriotic Front “clearly separate civilian establishments, particularly refugee camps, from military installations”.¹⁶⁷

179. In 1993, the ICRC noted that a government involved in an armed conflict had helped to evacuate the civilians of a town under enemy shelling.¹⁶⁸

180. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that:

All feasible precautions shall be taken to avoid injuries, loss and damage to the civilian population; . . . civilians must, in particular, be kept out of dangers resulting from military operations and . . . their evacuation shall be organized or facilitated, wherever required and insofar as the security situation permits.¹⁶⁹

181. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that:

All feasible precautions shall be taken to avoid injury or losses inflicted on the civilian population and damage to civilian objects; civilians must, in particular, be kept away from dangers resulting from military operations and their evacuation must be organized or facilitated where safety conditions so require or permit.¹⁷⁰

182. In a legal analysis in 1996, the ICRC considered that the forced settlement by a government of its nationals in an occupied territory could be considered a violation of the obligation to spare civilians from the effects of attacks, a principle of customary law contained in Articles 51 and 58 AP I according to the analysis, as the areas concerned were likely to be the subject of attacks by enemy forces.¹⁷¹

VI. Other Practice

183. In a resolution adopted during its Edinburgh Session in 1969, the Institute of International Law stated that “the provisions of the preceding paragraphs do not affect the application of the existing rules of international law which prohibit the exposure of civilian populations and of non-military objects to the destructive effects of military means”.¹⁷²

184. According to the Report on SPLM/A Practice, the SPLM/A has on many occasions successfully warned and removed the civilian population to safe places when attacks by the Sudanese government were imminent. For example, in March 1993, it instructed a considerable number of minors to move away from the town of Pochalla.¹⁷³ In addition, according to the same report, it has been SPLM/A practice to establish camps for refugees and displaced civilian populations away from army encampments and barracks.¹⁷⁴

**SPECIFICALLY PROTECTED PERSONS
AND OBJECTS**

MEDICAL AND RELIGIOUS PERSONNEL AND OBJECTS

A. Medical Personnel (practice relating to Rule 25)	§§ 1–230
Respect for and protection of medical personnel	§§ 1–179
Equipment of medical personnel with light individual weapons	§§ 180–230
B. Medical Activities (practice relating to Rule 26)	§§ 231–286
Respect for medical ethics	§§ 231–260
Respect for medical secrecy	§§ 261–286
C. Religious Personnel (practice relating to Rule 27)	§§ 287–376
D. Medical Units (practice relating to Rule 28)	§§ 377–648
Respect for and protection of medical units	§§ 377–583
Loss of protection from attack	§§ 584–649
E. Medical Transports (practice relating to Rule 29)	§§ 650–830
Respect for and protection of medical transports	§§ 650–765
Loss of protection of medical transports from attack	§ 767
Respect for and protection of medical aircraft	§§ 768–830
Loss of protection of medical aircraft from attack	§ 831
F. Persons and Objects Displaying the Distinctive Emblem (practice relating to Rule 30)	§§ 832–934

A. Medical Personnel

Respect for and protection of medical personnel

I. Treaties and Other Instruments

Treaties

1. Article 2 of the 1864 GC provides that:

Hospital and ambulance personnel, including the quarter-master's staff, the medical, administrative and transport services... shall have the benefit of the same neutrality [as military hospitals and ambulances] when on duty, and while there remain any wounded to be brought in or assisted.

2. Article 9 of the 1906 GC provides that:

The personnel charged exclusively with the removal, transportation, and treatment of the sick and wounded, as well as with the administration of sanitary formations and establishments . . . shall be respected and protected under all circumstances. If they fall into the hands of the enemy they shall not be considered as prisoners of war.

3. Article 10 of the 1906 GC provides that:

The personnel of volunteer aid societies, duly recognized and authorized by their own governments, who are employed in the sanitary formations and establishments of armies, are assimilated to the personnel contemplated in the preceding article, upon condition that the said personnel shall be subject to military laws and regulations. Each state shall make known to the other, either in time of peace or at the opening, or during the progress of hostilities, and in any case before actual employment, the names of the societies which it has authorized to render assistance, under its responsibility, in the official sanitary service of its armies.

4. Article 9 of the 1929 GC provides that:

The personnel engaged exclusively in the collection, transport and treatment of the wounded and sick, and in the administration of medical formations and establishments, . . . shall be respected and protected under all circumstances. If they fall into the hands of the enemy they shall not be treated as prisoners of war. Soldiers specially trained to be employed, in case of necessity, as auxiliary nurses or stretcher-bearers for the collection, transport and treatment of the wounded and sick, and furnished with a proof of identity, shall enjoy the same treatment as the permanent medical personnel if they are taken prisoners while carrying out these functions.

5. Article 10 of the 1929 GC provides that:

The personnel of Voluntary Aid Societies, duly recognized and authorized by their Government, who may be employed on the same duties as those of the personnel mentioned in the first paragraph of Article 9, are placed on the same footing as the personnel contemplated in that paragraph, provided that the personnel of such societies are subject to military law and regulations. Each High Contracting Party shall notify to the other, either in time of peace or at the commencement of or during the course of hostilities, but in every case before actually employing them, the names of the societies which it has authorized, under its responsibility, to render assistance to the regular medical service of its armed forces.

6. Article 24 GC I provides that:

Medical personnel exclusively engaged in the search for, or the collection, transport or treatment of the wounded or sick, or in the prevention of disease, staff exclusively engaged in the administration of medical units and establishments . . . shall be respected and protected in all circumstances.

7. Article 25 GC I provides that:

Members of the armed forces specially trained for employment, should the need arise, as hospital orderlies, nurses or auxiliary stretcher-bearers, in the search for or the collection, transport or treatment of the wounded and sick shall likewise be respected and protected if they are carrying out these duties at the time when they come into contact with the enemy or fall into his hands.

8. Article 26 GC I provides that:

The staff of National Red Cross Societies and that of other Voluntary Aid Societies, duly recognized and authorized by their Governments, who may be employed on the same duties as the personnel named in Article 24, are placed on the same footing as the personnel named in the said Article, provided that the staff of such societies are subject to military laws and regulations.

Each High Contracting Party shall notify to the other, either in time of peace or at the commencement of or during the course of hostilities, but in any case before actually employing them, the names of the societies which it has authorized, under its responsibility, to render assistance to the regular medical service of its armed forces.

9. Article 36 GC II provides that “medical and hospital personnel of hospital ships and their crews shall be respected and protected”.

10. Article 20, first paragraph, GC IV provides that:

Persons regularly and solely engaged in the operation and administration of civilian hospitals, including the personnel engaged in the search for, removal and transporting of and caring for wounded and sick civilians, the infirm and maternity cases, shall be respected and protected.

11. Article 8(c) AP I defines medical personnel as “those persons assigned, by a Party to the conflict, exclusively to . . . medical purposes . . . or to the administration of medical units or to the operation or administration of medical transports”. It adds that “such assignments may be either permanent or temporary”. The definition covers both military and civilian medical personnel. Article 8(c)(ii) requires that personnel of aid societies be duly recognised and authorised by a party to the conflict. Article 8 AP I was adopted by consensus.¹

12. Article 15(1) AP I provides that “civilian medical personnel shall be respected and protected”. Article 15 AP I was adopted by consensus.²

13. Article 9(1) AP II provides that “medical . . . personnel shall be respected and protected and shall be granted all available help for the performance of their duties”. Article 9 AP II was adopted by consensus.³

14. Article 11(f) of draft AP II submitted by the ICRC to the CDDH provided that:

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.37, 24 May 1977, p. 68.

² CDDH, *Official Records*, Vol. VI, CDDH/SR.37, 24 May 1977, p. 70.

³ CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 112.

“medical personnel” means:

- (i) the medical personnel of the parties to the conflict, whether military or civilian, permanent or temporary, exclusively engaged in the operation or administration of medical units and means of medical transport, including their crews, and assigned *inter alia* to the search for, removal, treatment or transport of the wounded and sick;
- (ii) the civil defence medical personnel referred to in Article 30 and the medical personnel of the National Red Cross (Red Crescent, Red Lion and Sun) Societies referred to in Article 35.⁴

This proposal was amended and adopted by consensus in Committee II of the CDDH. The adopted text provided that:

“Medical personnel” means those persons assigned exclusively to the medical purposes enumerated in sub-paragraph (c) [the search for, collection, transportation, diagnosis or treatment – including first aid treatment – of the wounded, sick and shipwrecked, and for the prevention of disease] and also those persons assigned exclusively to the administration of medical units or to the operation or administration of medical transports. Such assignments may be either permanent or temporary. The term shall include:

- (i) medical personnel of a Party to the conflict, whether military or civilian, including those assigned to medical tasks of civil defence;
- (ii) medical personnel of Red Cross (Red Crescent, Red Lion and Sun) organizations recognized and authorized by a Party to the conflict;
- (iii) medical personnel of other aid societies recognized and authorized by a Party to the conflict and located within the territory of the High Contracting Party in whose territory an armed conflict is taking place.⁵

Eventually, however, Article 11(f) of draft AP II was deleted by consensus in the plenary.⁶

15. Upon signature of AP I and AP II, the US declared that “it is the understanding of the United States of America that the terms used in Part III of [AP II] which are the same as the terms defined in Article 8 [AP I] shall so far as relevant be construed in the same sense as those definitions”.⁷

Other Instruments

16. Article 13 of the 1880 Oxford Manual provides that:

Persons employed in hospitals and ambulances – including the staff for superintendence, medical service, administration and transport of wounded, as well as . . . the members and agents of relief associations which are duly authorized to assist the regular sanitary staff – are considered as neutral while so employed, and so long as there remain any wounded to bring in or to succour.

⁵ CDDH, *Official Records*, Vol. XIII, CDDH/406/Rev.1, 17 March–10 June 1977, pp. 241 and 242.

⁶ CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 109.

⁷ US, Declaration made upon signature of AP I and AP II, 12 December 1977, § B.

17. In the 1991 Hague Statement on Respect for Humanitarian Principles, the Presidents of the six republics of the former Yugoslavia reminded all the parties to the conflicts in Bosnia and Herzegovina and in Croatia that “all Red Cross personnel and medical personnel assisting civilian populations and persons hors de combat must be granted the necessary freedom of movement to achieve their tasks”.

18. Section 9.4 of the 1999 UN Secretary-General’s Bulletin provides that “the United Nations force shall in all circumstances respect and protect medical personnel exclusively engaged in the search for, transport or treatment of the wounded or sick”.

II. National Practice

Military Manuals

19. Argentina’s Law of War Manual (1969) restates Articles 24–26 GC I.⁸

20. Argentina’s Law of War Manual (1989) defines medical personnel with reference to Articles 24–25 GC I and Article 8 API.⁹ It states that “medical personnel, whether civilian or military, permanent or temporary, shall be protected and respected in all circumstances”. With respect to non-international armed conflicts in particular, the manual states that medical personnel “shall be respected, protected and assisted in the performance of their duties in favour of all wounded and sick without any discrimination”.¹⁰

21. Australia’s Commanders’ Guide provides that “civilian medical personnel are deemed to be protected persons under the Geneva Conventions . . . Military medical personnel . . . are also entitled to general protection under the Geneva Conventions.”¹¹

22. Australia’s Defence Force Manual states that “military and civilian medical personnel are protected persons”.¹² The manual defines medical personnel as follows:

Medical personnel are those persons, military or civilian, assigned exclusively to medical tasks or to the administration of medical units or the operation or administration of medical transports. Such assignment may be permanent or temporary. In addition to doctors, dentists, nurses, medical orderlies and hospital administrators attached to the forces of military and civilian establishments, medical personnel include:

- a. personnel of national Red Cross and other voluntary aid societies recognised and authorised by a party to the conflict;
- b. medical personnel attached to civil defence units; and

⁸ Argentina, *Law of War Manual* (1969), §§ 3.008–3.010.

⁹ Argentina, *Law of War Manual* (1989), § 2.10.

¹⁰ Argentina, *Law of War Manual* (1989), §§ 2.11 and 7.06.

¹¹ Australia, *Commanders’ Guide* (1994), §§ 614–615.

¹² Australia, *Defence Force Manual* (1994), § 963.

- c. any persons made available for humanitarian purposes by a neutral state, a recognised and authorised aid society of such a state, or an impartial international humanitarian organisation.¹³

23. Belgium's Law of War Manual defines medical personnel with reference to Articles 24–25 GC I and Article 8 AP I. The manual states that permanent medical personnel "shall be respected and protected at all times: they may not be made the object of attack but may not participate in hostilities either". According to the manual, temporary medical personnel "enjoy the same protection only when they perform medical functions".¹⁴

24. Belgium's Teaching Manual for Soldiers states that:

The protection accorded to the wounded would be illusory if the civilian and military medical services which are specifically set up to treat them could be attacked. Hence, medical services, identified by the Red Cross (or Red Crescent in certain countries), are not considered combatants or military objectives even if they wear the enemy uniform or bear its insignia. Enemy medical personnel... may not be attacked.¹⁵

25. Benin's Military Manual lists military and civilian medical personnel as specially protected persons.¹⁶ It states that "specially protected persons may not take a direct part in hostilities and must not be attacked. They shall be allowed to carry out their tasks as long as the tactical situation permits."¹⁷ It further states that military medical personnel must be respected.¹⁸

26. Bosnia and Herzegovina's Military Instructions provides that "it is prohibited to intentionally attack military medical personnel".¹⁹

27. Burkina Faso's Disciplinary Regulations provides that, under the laws and customs of war, soldiers in combat must respect medical personnel.²⁰

28. Cameroon's Disciplinary Regulations provides that, under the laws and customs of war, each soldier must respect medical personnel, "provided they wear the distinctive emblem and carry the special identity card defined by the Geneva Conventions".²¹

29. Cameroon's Instructors' Manual considers both military and civilian medical personnel as specially protected persons.²²

30. Canada's LOAC Manual defines medical personnel as follows:

"Medical personnel" are those persons, military or civilian, assigned exclusively to medical purposes or to the administration of medical units, or the operation

¹³ Australia, *Defence Force Manual* (1994), § 521.

²² Cameroon, *Instructors' Manual* (1992), p. 18, §§ 220–221.

or administration of medical transports. Such assignment may be permanent or temporary. In addition to doctors, dentists, nurses, medical orderlies, and hospital administrators, "medical personnel" includes personnel of national Red Cross and other voluntary aid societies recognized and authorized by a party to the conflict. The term also includes medical personnel attached to civil defence units, any persons made available for humanitarian purposes by a neutral state, a recognized and authorized aid society of such a state, or an impartial international humanitarian organization.²³

The manual states that "medical . . . personnel, both military and civilian, have protected status and thus shall not be attacked."²⁴ It further states that "humanitarian aid societies, such as the Red Cross or Red Crescent Societies, who on their own initiative, collect and care for the wounded, sick and shipwrecked, even in invaded or occupied areas, shall not be made the object of attack".²⁵ With respect to non-international armed conflicts in particular, the manual states that "medical . . . personnel are to be respected and protected at all times [and] receive all available aid to enable them to fulfil their duties".²⁶

31. Canada's Code of Conduct states that:

There are two categories of medical personnel: permanent and temporary. Permanent medical personnel include doctors, nurses and medical assistants who are engaged exclusively in the collection, transport or treatment of the sick or wounded, or in the prevention of disease; staff exclusively engaged in the administration of medical units and establishments; and chaplains attached to the armed forces. These people shall be respected and protected. They must not be attacked. . . . If captured, permanent medical personnel and chaplains, although detained, will continue to care for their sick and wounded. If there is no such medical requirement, they are to be released and returned to their own forces. Temporary medical personnel may be employed on a part-time basis as hospital orderlies or temporary stretcher bearers in the search for and collection, transport and treatment of the sick and wounded. Part-time medical personnel are protected when they are carrying out those duties and shall not be the object of attack Captured temporary medical personnel who are detained may be employed on medical duties. Unlike permanent medical personnel, temporary medical personnel do not have to be released to their side even if there is no medical requirement for their services.

...

Under the Law of Armed Conflict, the International Committee of the Red Cross (ICRC) has a special role and status. The ICRC may undertake to care for the wounded and sick. The ICRC is an independent humanitarian institution. As a neutral intermediary in the event of armed conflict it endeavours, on its own initiative or on the basis of the Geneva Conventions, to bring protection and assistance to the victims of armed conflict. Members of the ICRC wear the distinctive emblem. As such, they must be protected at all times.

...

NGOs such as CARE and Médecins Sans Frontières (Doctors Without Borders) might wear other recognizable symbols. The symbols used by CARE, MSF and other

²⁶ Canada, *LOAC Manual* (1999), p. 17-4, § 34.

NGOs do not benefit from international legal protection, although their work in favour of the victims of armed conflict must be respected. Upon recognition that they are providing care to the sick and wounded, NGOs are also to be respected.²⁷

32. Colombia's Circular on Fundamental Rules of IHL states that the protection due to the wounded and sick "also covers, as such, medical personnel".²⁸

33. Colombia's Basic Military Manual states that it is prohibited "to attack . . . medical and aid personnel".²⁹

34. Congo's Disciplinary Regulations provides that medical personnel must be respected.³⁰

35. Croatia's Commanders' Manual states that "specifically protected persons may not participate directly in hostilities and may not be attacked. They shall be allowed to perform their tasks, when the tactical situation permits." Such persons include military and civilian medical personnel.³¹

36. Croatia's Soldiers' Manual instructs soldiers to respect medical personnel.³²

37. The Military Manual of the Dominican Republic instructs soldiers not to attack medical personnel, but to protect them.³³

38. Ecuador's Naval Manual states that "medical personnel, including medical and dental officers, technicians and corpsmen, nurses, and medical service personnel, have special protected status when engaged exclusively in medical duties and may not be attacked".³⁴ The manual qualifies "deliberate attack upon . . . medical personnel" as a war crime.³⁵

39. El Salvador's Soldiers' Manual provides that "doctors, nurses and other medical . . . personnel who serve in hospitals or work for the Red Cross . . . shall be specially protected because they relieve, aid and comfort all victims without distinction between friend and foe".³⁶

40. France's Disciplinary Regulations as amended provides that soldiers in combat must respect and protect medical personnel.³⁷

41. France's LOAC Summary Note provides that "the specific immunity granted to certain persons and objects by the law of war [including the personnel of military and civilian medical services] must be strictly observed . . . They may not be attacked."³⁸

²⁷ Canada, *Code of Conduct* (2001), Rule 10, §§ 2-3, 7 and 9.

³⁷ France, *Disciplinary Regulations as amended* (1975), Article 9 bis.

³⁸ France, *LOAC Summary Note* (1992), §§ 2.2 and 2.3.

42. France's LOAC Manual states that "the law of armed of conflicts provides special protection for the following persons: . . . medical personnel attached to armed forces [and] civilian medical personnel".³⁹

43. Germany's Military Manual defines military medical personnel with reference to the relevant provisions of the Geneva Conventions and AP I.⁴⁰ The manual provides that "civilian and military medical personnel are entitled to special protection. They shall neither be made the object of attack nor prevented from exercising their functions."⁴¹ The manual considers offences such as "wilful killing, mutilation, torture or inhumane treatment, including biological experiments, wilfully causing great suffering, serious injury to body or health" committed against medical personnel, to be grave breaches of IHL.⁴²

44. Hungary's Military Manual instructs soldiers to respect and protect permanent medical personnel.⁴³

45. Indonesia's Field Manual restates the rules on medical personnel found in Articles 24–26 GC I.⁴⁴

46. Indonesia's Air Force Manual provides that "a non-combatant is not a lawful military target in warfare. They consist of: a. members of the armed forces with special status such as . . . medical personnel."⁴⁵

47. Israel's Manual on the Laws of War states that:

It is prohibited to interfere with the administration of medical aid . . . In fact, this prohibition also covers the attack on medical personnel, paramedics and doctors in the battlefield itself. According to the Geneva Convention, medical teams are not part of the armed conflict. They are marked with distinctive identification signs, they do not carry arms, they do not cause injury and it is forbidden to harm them. It is prohibited to shoot a paramedic in the battlefield or to take him prisoner. The medical team is also restricted in that it does not take part in the hostilities, does not carry any weapons and is committed to administering medical aid also to the enemy's wounded. In actuality, this provision is not observed in the wars and confrontations waged in the Middle East, at least not in regard to medical teams in the field. They are not immune to harm, they are not identified by special identification symbols, they bear arms and take part in the fighting. This situation also exists in many other armies around the world, including the American army.⁴⁶

48. Italy's LOAC Elementary Rules Manual states that "specifically protected persons may not participate directly in hostilities and may not be attacked", including military and civilian medical personnel.⁴⁷

49. Kenya's LOAC Manual states that:

Medical personnel are those exclusively assigned to medical units and engaged in the search for, or the collection, transport or treatment of the wounded and sick, or

⁴⁷ Italy, *LOAC Elementary Rules Manual* (1991), §§ 7 and 12.

in the prevention of disease. They are to be respected, protected and not attacked. Military medical personnel who are captured during an international armed conflict are not prisoners of war. They may be "retained" for the sole purpose of providing medical care for POWs of their own forces... Military medical personnel who may have medical duties to perform on a temporary basis, e.g. stretcher bearers, may not be attacked while performing medical duties. On capture, they become POWs but are to be employed on medical duties if the need arises.⁴⁸

50. South Korea's Operational Law Manual states that military medical personnel must be protected.⁴⁹

51. Lebanon's Teaching Manual provides for respect for medical personnel, without distinguishing between military and civilian personnel.⁵⁰

52. Madagascar's Military Manual defines medical personnel as "those exclusively assigned to medical units and medical transports" whether military or civilian. Their tasks consist in "the search for, collection, transportation, diagnosis or treatment of the wounded, sick, and shipwrecked, or the prevention of disease".⁵¹ The manual states that "specifically protected persons may not participate directly in hostilities and may not be attacked. They shall be allowed to perform their tasks, when the tactical situation permits." Such persons include military and civilian medical personnel.⁵²

53. Mali's Army Regulations provides that, according to the laws and customs of war, soldiers in combat must respect medical personnel.⁵³

54. Morocco's Disciplinary Regulations provides that, according to the laws and customs of war, soldiers in combat must respect medical personnel.⁵⁴

55. The Military Manual of the Netherlands defines medical personnel with reference to Article 25 GC I and Article 8 AP I.⁵⁵ It states that "medical personnel... must be respected and protected".⁵⁶ With respect to non-international armed conflicts in particular, the manual states that "medical personnel... must be respected and protected and must receive aid to fulfil their tasks".⁵⁷

56. The Military Handbook of the Netherlands states that:

Medical personnel engaged temporarily or permanently in the care of the wounded and the sick must be able to fulfil their humanitarian tasks under all circumstances. Persons in charge of the administration and operation of medical units and material (for example administrative personnel, cooks and drivers) belong to the medical personnel. This personnel may not be attacked.⁵⁸

⁵⁸ Netherlands, *Military Handbook* (1995), p. 7-40.

57. New Zealand's Military Manual provides that:

Medical personnel are those persons, military or civilian, assigned exclusively to medical purposes or to the administration of medical units or the operation or administration of medical transports, and such assignment may be permanent or temporary. In addition to doctors, dentists, nurses, medical orderlies, hospital administrators and the like, attached to the forces or military and civilian establishments, there are included the personnel of national Red Cross and other voluntary aid societies recognised and authorized by a Party to the conflict, medical personnel attached to civil defence units, and any persons made available for humanitarian purposes by a neutral State, a recognised and authorised aid society of such State, or an impartial international humanitarian organisation.

...

Protection and respect must be extended to persons regularly and solely engaged in the operation and administration of civilian hospitals. Included in this category are persons engaged in the search for, removal, transport and care of wounded and sick civilians, the infirm, and maternity cases.

Other persons engaged in the operation and administration of civilian hospitals are entitled to protection . . . while employed on their duties.⁵⁹

With respect to non-international armed conflict in particular, the manual states that "medical . . . personnel are to be respected and protected at all times, receiving all available aid to enable them to fulfil their duties".⁶⁰

58. Nicaragua's Military Manual states, with respect to international armed conflicts, that assistance to the wounded, sick and shipwrecked includes a requirement of "protection of permanent [medical] personnel assigned to the search, collection, transportation or treatment of the wounded and sick, the prevention of disease or the administration of [medical] units and establishments", as well as "respect for and protection of temporary [medical] personnel" and "respect for and protection of regular personnel of civilian hospitals".⁶¹

59. Nigeria's Manual on the Laws of War states that "medical personnel engaged exclusively in the search and collection of the wounded and sick and the prevention of disease, the staff engaged in the administration of hospitals and medical units . . . are also entitled to protection".⁶²

60. Nigeria's Military Manual provides that "specifically protected persons . . . recognised as such must be respected. Specifically protected persons are to be allowed to fulfil their activity unless the tactical situation does not permit".⁶³

61. Nigeria's Soldiers' Code of Conduct states that "medical personnel must be respected".⁶⁴

62. Nigeria's Operational Code of Conduct states that "hospital staff and patients should not be tampered with or molested".⁶⁵

⁵⁹ New Zealand, *Military Manual* (1992), §§ 1005(1) and 1109(3) and (4).

⁶⁰ New Zealand, *Military Manual* (1992), § 1818(2).

⁶¹ Nicaragua, *Military Manual* (1996), Article 14(4), (6) and (37).

⁶² Nigeria, *Manual on the Laws of War* (undated), § 33.

⁶³ Nigeria, *Military Manual* (1994), p. 45, § (f).

⁶⁴ Nigeria, *Soldiers' Code of Conduct* (undated), § 7.

⁶⁵ Nigeria, *Operational Code of Conduct* (1967), § 4(d).

63. Romania's *Soldiers' Manual* provides for respect for medical personnel.⁶⁶
 64. Russia's *Military Manual* states that attacks against medical personnel are a prohibited method of warfare.⁶⁷
 65. Senegal's *Disciplinary Regulations* provides that soldiers in combat must respect and protect medical personnel.⁶⁸
 66. South Africa's *LOAC Manual* provides that:

Medical . . . personnel of the parties to a conflict, whether military or civilian, are to be respected and protected. This protection is not a personal privilege but rather a natural consequence of the rules designed to ensure respect and protection for the victims of armed conflict. Protection is accorded to medical personnel to facilitate the humanitarian tasks assigned to them; the protection is therefore limited to those circumstances in which they are carrying out these tasks exclusively.

The manual points to the distinction between permanent and auxiliary medical personnel and restates Articles 24–25 GC I.⁶⁹

67. Spain's *LOAC Manual* defines medical personnel with reference to Article 8 AP I.⁷⁰ The manual states, with reference to the relevant provisions of the Geneva Conventions and both Additional Protocols, that "respect and protection" of medical personnel include the duty not to attack medical personnel, and the duty to defend, assist and support such personnel when needed. The manual further explains that:

It must be underlined that the protection of medical personnel is not a personal privilege but rather a corollary of the respect and protection due to the wounded and sick, who must be treated humanely in all circumstances. This means that the protection of medical personnel is not permanent but is only granted when such personnel are carrying out their humanitarian tasks. Medical personnel lose the special protection to which they are entitled if they commit acts of hostility. Such behaviour might even constitute perfidy if in so doing they take advantage of their medical position and the distinctive emblems.⁷¹

68. Sweden's *IHL Manual* considers that Article 15 AP I on the protection of medical personnel has the status of customary law.⁷²

69. Switzerland's *Basic Military Manual* states that "medical . . . personnel must be respected and protected in all circumstances. They may not be attacked or prevented from carrying out their duties." It defines medical personnel as including persons specially and exclusively assigned to the care of the wounded and sick, such as doctors, nurses and stretcher-bearers; administrative staff of medical units and establishments such as hospital administrators, drivers and cooks; chaplains and temporary medical personnel.⁷³

⁶⁶ Romania, *Soldiers' Manual* (1991), p. 32. ⁶⁷ Russia, *Military Manual* (1990), § 5(g).

⁶⁹ South Africa, *LOAC Manual* (1996), §§ 46–47.

⁷⁰ Spain, *LOAC Manual* (1996), Vol. I, § 9.2.a.(1).

⁷¹ Spain, *LOAC Manual* (1996), Vol. I, § 9.2.a.(2).

⁷² Sweden, *IHL Manual* (1991), Section 2.2.3, p. 18.

⁷³ Switzerland, *Basic Military Manual* (1987), Article 78(1) and commentary.

70. Togo's Military Manual lists military and civilian medical personnel as specially protected persons.⁷⁴ It states that "specially protected persons may not take a direct part in hostilities and must not be attacked. They shall be allowed to carry out their tasks as long as the tactical situation permits".⁷⁵ It further states that military medical personnel must be respected.⁷⁶

71. The UK Military Manual restates Articles 24–26 GC I.⁷⁷ It specifies that the duty to respect and protect means that medical personnel "must not knowingly be attacked, fired upon, or unnecessarily prevented from discharging their proper functions. The pure accidental killing or wounding of protected personnel when in or near the area of combat is not a legitimate cause for complaint."⁷⁸ The manual also restates Article 20 GC IV.⁷⁹

72. The UK LOAC Manual states that "medical personnel are those exclusively assigned to medical units. They are to be respected, protected and not attacked."⁸⁰

73. The US Field Manual grants respect and protection to both permanent and temporary medical personnel as provided for in Articles 24–25 GC I. The manual states that:

The respect and protection accorded personnel by Articles 19, 24, and 25 [GC I] mean that they must not knowingly be attacked, fired upon, or unnecessarily prevented from discharging their proper functions. The accidental killing or wounding of such personnel, due to their presence among or in proximity to combatant elements actually engaged, by fire directed at the latter, gives no just cause for complaint.⁸¹

Protection is also granted to the personnel of aid societies by reference to Article 26 GC I.⁸²

74. The US Air Force Pamphlet refers to the protection of medical personnel as set out in GC I.⁸³ It further states that "in addition to grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: (1) deliberate attack on . . . medical . . . personnel".⁸⁴

75. The US Air Force Commander's Handbook provides that medical personnel, civilian or military, "should not be deliberately attacked, fired upon, or unnecessarily prevented from performing their medical duties. The same protection should also be given to any civilian or group of civilians trying to aid the sick and wounded after combat".⁸⁵

⁷⁴ Togo, *Military Manual* (1996), Fascicule I, p. 14.

⁷⁵ Togo, *Military Manual* (1996), Fascicule III, p. 5, see also Fascicule II, p. 8.

⁸⁵ US, *Air Force Commander's Handbook* (1980), § 3-2.

76. The US Naval Handbook states that “medical personnel, including medical and dental officers, technicians and corpsmen, nurses, and medical service personnel, have special protected status when engaged exclusively in medical duties and may not be attacked”.⁸⁶ The manual qualifies “deliberate attack upon . . . medical personnel” as a war crime.⁸⁷

77. The Annotated Supplement to the US Naval Handbook notes that “the United States supports the principle in [Article 15 AP I] that civilian medical . . . personnel be respected and protected and not be made the objects of attack”.⁸⁸

78. The YPA Military Manual of the SFRY (FRY) restates Articles 24–26 GC I and extends the protection of military medical personnel to civilian medical personnel.⁸⁹

National Legislation

79. Argentina’s Draft Code of Military Justice punishes any soldier who “uses violence against medical personnel, . . . against members of medical units or against members of aid societies”.⁹⁰

80. Bangladesh’s International Crimes (Tribunal) Act states that the “violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949” is a crime.⁹¹

81. Under the Criminal Code of the Federation of Bosnia and Herzegovina, “murder, torture [or] inhuman treatment” of medical personnel are considered to be war crimes.⁹² The Criminal Code of the Republika Srpska contains the same provision.⁹³

82. Colombia’s Emblem Decree lists as persons who must be protected:

medical, paramedical and aid society personnel, members of the International Red Cross and Red Crescent Movement and persons who, permanently or temporarily, provide humanitarian services and transports of medicine, food and humanitarian aid in situations of armed conflict or natural disaster.⁹⁴

83. Under Colombia’s Penal Code, it is a punishable act to “hinder or prevent, at the occasion of and during armed conflict, medical, health and aid personnel . . . from carrying out the medical and humanitarian tasks assigned to them by the norms of International Humanitarian Law”.⁹⁵

⁸⁶ US, *Naval Handbook* (1995), § 11.5. ⁸⁷ US, *Naval Handbook* (1995), § 6.2.5.

⁸⁸ US, *Annotated Supplement to the Naval Handbook* (1997), § 11.5, footnote 31.

⁹⁵ Colombia, *Penal Code* (2000), Article 153.

84. Under Croatia's Criminal Code, "the killing, torture or inhuman treatment" of medical personnel is a war crime.⁹⁶
85. Under El Salvador's Code of Military Justice, medical personnel must be respected.⁹⁷
86. The Draft Amendments to the Penal Code of El Salvador punish "anyone who, during an international or non-international conflict, attacks protected persons", defined as including medical personnel.⁹⁸
87. Under Estonia's Penal Code, "a person who kills, tortures, causes health damage to or takes hostage a member of a medical unit properly identified, or any other person attending to the sick or wounded persons" commits a war crime.⁹⁹
88. Under Ethiopia's Penal Code, "the killing, torture or inhuman treatment or other acts entailing direct suffering or physical or mental injury to . . . members of the medical or first-aid services" is punishable as a war crime.¹⁰⁰
89. Georgia's Criminal Code provides for the punishment of "wilful breaches of norms of international humanitarian law committed in an international or internal armed conflict . . . against medical . . . personnel".¹⁰¹
90. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Articles 24–26 GCI, 36 GC II and 20 GC IV, and of AP I, including violations of Article 15(1) AP I, as well as any "contravention" of AP II, including violations of Article 9(1) AP II, are punishable offences.¹⁰²
91. Italy's Law of War Decree as amended states that military medical personnel must be respected and protected "provided they are not committing acts of hostility".¹⁰³
92. Lithuania's Criminal Code as amended prohibits attacks against medical and civilian defence personnel, military or civilian hospitals, health centres, vehicles transporting the wounded and sick, and personnel of the ICRC or National Red Cross and Red Crescent Societies if protected by the distinctive emblems.¹⁰⁴
93. Nicaragua's Military Penal Code provides for the punishment of any soldier who "exercises violence against the personnel of medical . . . services, be they enemy or neutral, members of aid organizations and personnel affected to the services of [medical establishments]", provided that the protection due is not misused for hostile purposes.¹⁰⁵

⁹⁶ Croatia, *Criminal Code* (1997), Article 159.

¹⁰⁵ Nicaragua, *Military Penal Code* (1996), Article 57(2).

94. Nicaragua's Draft Penal Code punishes "anyone who, during an international or non-international conflict, attacks protected persons", defined as including medical personnel.¹⁰⁶

95. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in... the Geneva Conventions of 12 August 1949...[and in] the two additional protocols to these Conventions... is liable to imprisonment".¹⁰⁷

96. Poland's Penal Code provides for the protection of medical personnel, including the medical personnel of authorised aid societies.¹⁰⁸

97. Romania's Penal Code provides for the punishment of anyone who "subjects to inhuman treatment... members of civil medical personnel... or subjects such persons to medical or scientific experiments".¹⁰⁹

98. Under Slovenia's Penal Code, "slaughter, torture [or] inhuman treatment" of medical personnel is a war crime.¹¹⁰

99. Spain's Military Criminal Code provides for the punishment of any soldier who "exercises violence against the personnel of medical... services, be they enemy or neutral, members of aid organizations and personnel affected to the services of [medical establishments]", provided that the protection due is not misused for hostile purposes.¹¹¹

100. Spain's Penal Code provides for the punishment of "anyone who should... exercise violence on health... personnel, or members of medical missions or rescue teams".¹¹²

101. Tajikistan's Criminal Code, in the section on "Serious violations of international humanitarian law", provides for the punishment of "wilful breaches of norms of international humanitarian law committed in an international or non-international armed conflict, against... medical... personnel".¹¹³

102. Ukraine's Criminal Code states that medical personnel are to be respected.¹¹⁴

103. Venezuela's Code of Military Justice as amended provides for the punishment of "those who carry out serious attacks against members of... medical services, be they enemy or neutral".¹¹⁵

104. Venezuela's Code of Military Justice as amended prohibits attacks on Red Cross and medical personnel.¹¹⁶

¹⁰⁶ Nicaragua, *Draft Penal Code* (1999), Article 449.

¹¹⁶ Venezuela, *Code of Military Justice as amended* (1998), Article 474.

105. Under the Penal Code as amended of the SFRY (FRY), “murder, torture [or] inhuman treatment” of medical personnel is a war crime.¹¹⁷

National Case-law

106. No practice was found.

Other National Practice

107. The Report on the Practice of Algeria notes that no instances of attacks against medical personnel or objects by the ALN were reported during Algeria’s war of independence.¹¹⁸

108. According to the Report on the Practice of Chile, it is Chile’s *opinio juris* that the prohibition of attacks on medical personnel and objects is part of customary international law.¹¹⁹

109. In 1972, in a statement before the General Conference of UNESCO concerning US attacks in Vietnam, China criticised the US because it allegedly had “wantonly bombarded Vietnamese cities and villages, seriously destroyed many schools and cultural and sanitary facilities [and] killed a large number of teachers, students, patients and medical personnel”.¹²⁰

110. According to the Report on the Practice of China, it is China’s *opinio juris* that medical personnel shall be respected and protected.¹²¹

111. Under the instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, medical personnel shall be protected.¹²²

112. At the CDDH, the FRG stated that it could not agree that “the definitions of Article 8 [AP I] could apply to the Geneva Conventions, but they should apply to the whole of [AP I], and not only to part II”.¹²³ The FRG also explained that the distinction between local and foreign non-Red Cross relief organisations was “to avoid the situation of an obscure private group from outside the country establishing itself as an aid society within the territory and then being recognized by the rebels”.¹²⁴

¹¹⁷ SFRY (FRY), *Penal Code as amended* (1976), Article 143.

113. In a declaration in 1993, the German Federal Minister of Foreign Affairs condemned the killing of a German soldier belonging to UNTAC's medical personnel in Cambodia as a "cruel act of violence".¹²⁵

114. The Report on the Practice of Germany notes that the German Federal Armed Forces may incorporate medical staff into combat units, if they are needed, especially for special missions.¹²⁶

115. According to the Report on the Practice of the Iran, Iran accused Iraq on several occasions of attacking Iranian Red Crescent personnel during the Iran–Iraq war. Iran claimed that Iraq had violated IHL by committing these acts.¹²⁷

116. The Report on the Practice of Iraq refers to the protection afforded to medical personnel by the Geneva Conventions.¹²⁸ On the basis of the reply by Iraq's Ministry of Defence to a questionnaire, the report also states that the protection of relief personnel is "an absolute principle, without any restriction".¹²⁹

117. According to the Report on the Practice of Israel, the IDF does not have a policy of targeting the medical personnel of its adversaries. The report adds that the implementation of this policy is subject to such personnel being clearly recognisable and not participating in hostile activities. It further states that:

The IDF . . . has chosen to incorporate its front-line medical staff in its combat units. As a result, when participating in combat missions, front-line Israeli military medical personnel would not carry distinguishing marks and do not expect to be granted protected status in combat situations.¹³⁰

118. During the Iraqi occupation of Kuwait in 1990, Kuwait stated in a letter to the UN Secretary-General that "on the pretext that the staff had been lax in attending to the injured Iraqis, a number of the hospital staff were arrested, tortured and then executed". These acts were described as violations of "the most basic of human rights" and of GC IV.¹³¹

119. At the International Conference for the Protection of War Victims in 1993, Kuwait stated that "persons committing acts against [medical personnel] must be considered as war criminals".¹³²

120. According to the Report on the Practice of Kuwait, attacks against medical personnel are an offence under Kuwaiti law.¹³³

121. At the CDDH, New Zealand, supported by Austria, stated that the definitions provided by AP I could not be applied to the Geneva Conventions

and considered that Committee II of the CDDH “was not competent to take a decision affecting the 1949 Geneva conventions”.¹³⁴

122. According to the Report on the Practice of Nigeria, it is Nigeria’s *opinio juris* that the prohibition of attacks on medical personnel and objects is part of customary international law.¹³⁵

123. An agreement, concluded in 1990 between several Philippine governmental departments, the National Police, and a group of NGOs involved in the delivery of medical services, provides for the protection of health workers from harassment and human rights violations. The preamble to the agreement states that the parties are adhering to generally accepted principles of IHL and human rights law.¹³⁶

124. The Report on the Practice of the Philippines notes that medical personnel are given protection when they are delivering health services.¹³⁷

125. On the basis of replies by army officers to a questionnaire, the Report on the Practice of Rwanda states that “military medical personnel must be protected”.¹³⁸ Medical personnel of aid societies were not specifically mentioned, but in reply to the question regarding the improper use of uniforms, an officer stated that the use of the “uniforms” of humanitarian organisations was prohibited since it endangered their staff.¹³⁹

126. A training video on IHL produced by the UK Ministry of Defence emphasises the duty to respect, and not to attack, medical personnel.¹⁴⁰

127. According to the Report on UK Practice, there is no practice of incorporating medical staff in combat units in the UK’s armed forces.¹⁴¹

128. At the CDDH, the US stated that Committee II of the CDDH “was not competent to take a decision to apply to the 1949 Geneva Conventions the terms defined in Article 8”.¹⁴²

129. In 1987, in submitting AP II to the US Senate for advice and consent to ratification, the US President expressed the view that “the obligations in Additional Protocol II are no more than a restatement of the rules of conduct

with which US military forces would almost certainly comply as a matter of national policy, constitutional and legal protections, and common decency".¹⁴³

130. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that "we support the principle that medical and religious personnel must be respected and protected" as provided in Article 15 AP I.¹⁴⁴

131. In 1991, in a diplomatic note to Iraq concerning operations in the Gulf War, the US stated that medical personnel must be respected and protected at all times.¹⁴⁵

132. In 1996, the US Department of State qualified the killing of six ICRC medical aid workers in Chechnya as a "barbaric act" and condemned it "in the strongest possible terms".¹⁴⁶

133. In 1998, the Office of General Counsel of the US Department of Defence issued a memorandum on the subject of whether radio operators assigned to an air force medical unit could be issued with identification cards bearing the red cross and documenting their status as personnel "exclusively engaged in supporting a medical unit or establishment in performance of its medical mission" under Article 24 GC I. The memorandum concluded that "the administrative staff category would appear to be broad enough to cover radio operators, so long as they are exclusively engaged in supporting a medical unit or establishment in the performance of its medical mission".¹⁴⁷

134. According to the Report on US Practice, it is the *opinio juris* of the US that medical personnel are not to be knowingly attacked or unnecessarily prevented from performing their duties in either international or non-international armed conflicts. It adds that "customary practice has proceeded little beyond the specific rules of the Geneva Conventions, with a few exceptions". The report notes that there is no practice of incorporating medical staff in combat units in the armed forces.¹⁴⁸

135. In 1993, during a debate in the UN Security Council on the situation in the former Yugoslavia, Venezuela stated that those who had committed war crimes and crimes against humanity, including "attacks upon . . . medical personnel", had to be brought to justice.¹⁴⁹

¹⁴³ US, Message from the US President transmitting AP II to the US Senate for advice and consent to ratification, Treaty Doc. 100-2, 29 January 1987, Comment on Article 10.

136. Order No. 579 issued in 1991 by the YPA Chief of Staff instructs YPA units to “apply all means to prevent any attempt of . . . mistreatment of . . . religious and medical personnel”.¹⁵⁰

137. In 1991, in a document entitled “Examples of violations of the rules of international law committed by the so-called armed forces of Slovenia”, the Ministry of Defence of the SFRY (FRY) included as an example, the arrest of medical teams even though they were wearing the red cross emblem.¹⁵¹

138. The Report on the Practice of Zimbabwe states that the rule on the protection of medical personnel from attack is part of customary international law. In particular, it points out the customary status of Articles 15 and 16 AP I.¹⁵²

139. In 1991, in a letter to the ICRC, the President of a State denounced attacks against medical personnel by the opposing forces.¹⁵³

III. Practice of International Organisations and Conferences

United Nations

140. In a resolution adopted in 1984 on the situation of human rights in El Salvador, the UN General Assembly urged the government and the insurgent forces “to agree as early as possible to respect the medical personnel . . . as required by the Geneva Conventions”.¹⁵⁴

141. In a resolution adopted in 1985 on the situation of human rights in El Salvador, the UN General Assembly expressed its deep concern “at the fact that serious and numerous violations of human rights continue to take place in El Salvador owing above all to non-fulfilment of the humanitarian rules of war” and therefore recommended that the UN Special Representative for El Salvador “continue to observe and to inform the General Assembly and the Commission on Human Rights of the extent to which the contending parties are respecting those rules, particularly as regards humanitarian treatment and respect for . . . health personnel . . . of either party”.¹⁵⁵ This recommendation was reiterated in a subsequent resolution adopted in 1986.¹⁵⁶

142. In a resolution adopted in 1987 on the situation on human rights in El Salvador, the UN Commission on Human Rights requested that the UN Special Representative for El Salvador “continue to observe and inform the General Assembly and the Commission of the extent to which the contending parties are respecting the humanitarian rules of war, particularly as regards respect for . . . health personnel”.¹⁵⁷

¹⁵⁶ UN General Assembly, Res. 41/157, 4 December 1986, § 4.

¹⁵⁷ UN Commission on Human Rights, Res. 1987/51, 11 March 1987, § 5.

143. In a resolution adopted in 1985 on the situation in El Salvador, the UN Sub-Commission on Human Rights recommended that the UN Special Representative for El Salvador “inform the Commission on whether both parties accept their obligation to respect the Geneva Conventions and to what extent they are truly observing them, specially in those aspects which refer to the protection of . . . the medical personnel of both parties”.¹⁵⁸

144. In 1994, in its final report on grave breaches of the Geneva Conventions and other violations of IHL committed in the former Yugoslavia, the UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992) linked attacks on medical personnel to “ethnic cleansing”, regarding them as a coercive means to remove the population from certain areas.¹⁵⁹

145. In 1994, in its final report on grave violations of IHL in Rwanda, the UN Commission of Experts Established pursuant to Security Council Resolution 935 (1994) treated the cases of attacks on medical personnel no differently from attacks on civilians. It mostly referred to common Article 3 of the 1949 Geneva Conventions (acknowledging its customary status) and AP II.¹⁶⁰

146. In 1995, in a report on the conflict in Guatemala, the Director of MINUGUA recommended to the URNG that it “should issue precise instructions to its combatants to refrain from . . . endangering ambulances and duly identified health workers who assist such wounded persons”.¹⁶¹

147. In its report in 1993, the UN Commission on the Truth for El Salvador held that the summary execution of a Spanish doctor who had entered El Salvador to work as a doctor for the FMLN was a flagrant violation of IHL and human rights law. No indication was given as to what were the doctor’s activities, and the Commission made no mention of the special protected status of medical personnel.¹⁶² The Commission described the summary execution of a French nurse working in an FMLN hospital by a unit of the Salvadoran Air Force as a deliberate attack on medical personnel in violation of IHL.¹⁶³

Other International Organisations

148. In a resolution adopted in 1988 on the protection of humanitarian medical missions, the Parliamentary Assembly of the Council of Europe called on all States to respect “the right of medical personnel to be protected during their missions”. It recalled that the Additional Protocols afforded protection to medical personnel intervening in conflicts of a non-international nature. The

¹⁶³ UN Commission on the Truth for El Salvador, Report, UN Doc. S/25500, 1 April 1993, Annex, pp. 87–89.

Parliamentary Assembly further emphasised that the protected status applied only to medical personnel working under the aegis of the ICRC or to personnel employed by a State and that the application of these texts did not always cover cases of internal conflicts not recognised by the legal government.¹⁶⁴

149. Following the killing of six ICRC medical aid workers in Chechnya in December 1996, the OSCE Chairman stated that he was “horrified to learn of the atrocious crime which claimed the lives of six International Red Cross aid workers as they were sleeping” and strongly condemned “this act of violence . . . and terrorism”.¹⁶⁵

International Conferences

150. At the CDDH, the Working Group on the Protection of Medical Personnel considered in its report that the term “medical personnel” as used in AP II should include all the categories of personnel listed in Article 8(c) AP I.¹⁶⁶ However, the definition developed for AP II by Committee II, which took into account the specific aspects of non-international armed conflicts, provided that medical personnel included, *inter alia*, “medical personnel of other aid societies [other than Red Cross or Red Crescent organisations] recognised and authorised by a Party to the conflict and located within the territory of the High Contracting Party in whose territory an armed conflict is taking place”.¹⁶⁷ In this respect, the Drafting Committee stated that:

It had been necessary to specify that aid societies other than Red Cross organizations must be located within the territory of the High Contracting Party in whose territory the armed conflict was taking place in order to avoid the situation of an obscure private group from outside the country establishing itself as an aid society within the territory and being recognized by the rebels.¹⁶⁸

151. The Final Declaration adopted by the International Conference for the Protection of War Victims in 1993 urged all States to “make every effort” to protect medical personnel.¹⁶⁹

152. In a resolution on health and war adopted in 1995, the Conference of African Ministers of Health invited OAU member States “to do everything possible to protect medical personnel against pressure, threats and attempts on their lives”.¹⁷⁰

IV. Practice of International Judicial and Quasi-judicial Bodies

153. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

154. The ICRC Commentary on the Additional Protocols, in the light of the fact that AP II provides no definition of medical personnel, states that “we should therefore refer, both for medical personnel and for religious personnel, to the definitions of these terms given in Article 8 (Terminology) of Protocol I”. The Commentary further specifies that:

4666. The term “Red Cross organizations” was used in order to cover not only the assistance available on the government side, but also groups or sections of the Red Cross on the other side which already existed, and even improvised organizations which might be set up during the conflict.

4667. Such was the intention of the negotiators, and this interpretation remains in the absence of definitions in the Protocol. It is supported not only by the above-mentioned work of the Conference, but also by Article 18 (Relief societies and relief actions), paragraph 1, which uses the term “Red Cross organizations” in this sense. As regards relief societies, it was considered necessary to specify that relief societies other than Red Cross organizations should be located within the territory of the Contracting Party where the armed conflict was taking place, to avoid private groups from outside the country establishing themselves by claiming the status of a relief society and then being recognized by the insurgents.

4668. In the absence of precise definition, the term “medical personnel” covers both permanent and temporary categories. The term “permanent medical personnel” means medical personnel exclusively assigned to medical purposes for a unspecified length of time, while “temporary medical personnel” are personnel exclusively assigned to medical purposes for limited periods.

4669. In both cases such assignment must be exclusive. It should be noted that such status is based on the functions carried out, and not on qualifications.¹⁷¹

155. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

64. “Medical personnel” means personnel assigned exclusively to medical activities, to the administration of medical establishments and to medical transportation.

...

78. The law of war grants the same status to civilian and military medical services... The provisions governing military medical personnel... apply equally to the corresponding categories of the civilian medical service.¹⁷²

¹⁷¹ Yves Sandoz *et al.* (eds.), *Commentary on the Additional Protocols*, ICRC, Geneva, 1987, §§ 4663 and 4666–4669.

¹⁷² Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, §§ 64 and 78.

Delegates also teach that:

474. Specifically protected personnel . . . recognized as such must be respected.

475. Specifically protected personnel shall be allowed to fulfil their activity, unless the tactical situation does not permit . . . Their mission and genuine activity may be verified. Armed enemy personnel may be disarmed.¹⁷³

156. In 1978, in a letter to a National Society, the ICRC stated that civilian and military medical personnel, both permanent and temporary, “must be respected and protected in all circumstances”.¹⁷⁴

157. In a press release in 1978 the ICRC urgently appealed to the belligerents in Lebanon “to take measures immediately to ensure that hospitals and medical personnel may continue their work unimpeded and in safety”.¹⁷⁵

158. In a press release issued in 1991 in the context of the Gulf War, the ICRC reminded the parties to respect and protect medical personnel at all times.¹⁷⁶

159. In 1991, the Croatian Red Cross denounced attacks against medical personnel by the Yugoslav army.¹⁷⁷

160. In a press release in 1992, the ICRC urged the parties to the conflict in Nagorno-Karabakh to ensure that medical personnel were respected and protected.¹⁷⁸

161. In a press release in 1992, the ICRC enjoined the parties to the conflict in Afghanistan “to respect medical personnel”.¹⁷⁹

162. In a press release in 1992, the ICRC urged the parties to the conflict in Tajikistan “to make certain that medical personnel . . . are respected and protected”.¹⁸⁰

163. In a communication to the press in 1993, the ICRC appealed to the belligerents in the conflict in Georgia “to respect hospitals and medical personnel in all circumstances”.¹⁸¹

164. In 1994, in a letter to the authorities of a separatist entity, the ICRC recalled that medical personnel enjoy special protection under IHL and must therefore be respected in all circumstances.¹⁸²

165. In a declaration issued in 1994 in the context of the conflict between the Mexican government and the EZLN, the Mexican Red Cross stated that “protection must be extended to health personnel in general and, in particular, to Mexican Red Cross personnel . . . Health personnel as well as Mexican Red Cross personnel must be deemed to be neutral and must therefore not be attacked.”¹⁸³

166. In a press release in 1994, the ICRC appealed to the parties to the internal armed conflict in Yemen to respect and facilitate the work of first-aiders from the Yemeni Red Crescent Society and of ICRC delegates.¹⁸⁴

167. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that medical personnel “shall be protected and respected”.¹⁸⁵

168. In a press release in 1994, the ICRC urged the parties to the conflict in Chechnya “to ensure that medical personnel . . . are respected and protected”.¹⁸⁶

169. In a press release in 1995, the ICRC expressed concern about an attack on a hospital in Burundi, which it regarded as a grave breach of IHL, and reminded the belligerents that all medical personnel must be respected.¹⁸⁷

170. In a press release in 2000, following allegations that the Palestine Red Crescent Society had been targeted in shooting incidents, the ICRC stated that “any attacks . . . on those medical personnel . . . indeed constitute a grave violation of International Humanitarian Law”.¹⁸⁸

171. In a communication to the press issued in 2000 in connection with the hostilities in the Near East, the ICRC stated that:

Members of the medical services must be respected and protected. They must be allowed to circulate unharmed so that they can discharge their humanitarian duties. All those who take part in the confrontations must respect the medical services, whether deployed by the armed forces, civilian facilities, the Palestine Red Crescent Society or the Magen David Adom in Israel.¹⁸⁹

172. In a communication to the press in 2001, the ICRC, deeply concerned by the situation in Afghanistan, urged the warring parties to “ensure the safety of medical personnel”.¹⁹⁰

VI. Other Practice

173. In 1980, an armed opposition group agreed to be bound by the obligation to protect medical personnel and objects displaying the red cross emblem.¹⁹¹ In 1983, it told the ICRC that it had issued orders to its combatants not to direct attacks against religious and medical personnel and objects.¹⁹² It described the kidnappings of a priest and a doctor as “errors”.¹⁹³

174. In several reports on violations of the laws of war and on human rights in Nicaragua between 1985 and 1988, Americas Watch noted attacks against medical personnel by the armed opposition.¹⁹⁴ In one such report, it mentioned an incident in which civilian medical personnel were kidnapped by the *contras*. Two of them were taken over to Honduras and held and maltreated for several days. Miskito Indians were tried and convicted as accomplices in the kidnapping. They were later granted an amnesty.¹⁹⁵ In the same report, Americas Watch also stated that doctors who worked in the countryside had been targeted for abduction and that several foreign physicians had been murdered.¹⁹⁶

175. In 1988, in the context of the conflict in Angola, UNITA expressed concern about the premeditated targeting of medical personnel by governmental forces. It deplored the fact that the Geneva Conventions had no validity in guerrilla warfare.¹⁹⁷

176. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that the targeting of medical personnel was unlawful.¹⁹⁸

177. In a report in 1989, Medical Action Group (MAG), a Philippine NGO, reported threats, harassment and physical abuse of health workers.¹⁹⁹

178. The Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights of Åbo Akademi University in Turku/Åbo, Finland in 1990, states that “medical . . . personnel shall be respected and protected and shall be granted all available help for the performance of their duties”.²⁰⁰

179. Rule A5 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990

by the Council of the IIHL, provides that “the obligation to respect and protect medical . . . personnel . . . in the conduct of military operations is a general rule applicable in non-international armed conflicts”.²⁰¹

Equipment of medical personnel with light individual weapons

I. Treaties and Other Instruments

Treaties

180. Article 8(1) of the 1906 GC lists among the conditions not depriving mobile sanitary formations and fixed establishments of the protection guaranteed by Article 6 of the Convention the fact “that the personnel of a formation or establishment is armed and uses its arms in self defense or in defense of its sick and wounded”.

181. Article 8(1) of the 1929 GC lists among the conditions not depriving mobile medical formations and fixed establishments of the protection guaranteed by Article 6 of the Convention the fact “that the personnel of the formation or establishment is armed, and that they use the arms in their own defence or in that of the sick and wounded in charge”.

182. Article 22(1) GC I lists among the conditions not depriving fixed establishments and mobile medical units of the protection guaranteed by Article 19 GC I the fact “that the personnel of the unit or establishment are armed, and that they use the arms in their own defence, or in that of the wounded and sick in their charge”.

183. Under Article 13(2)(a) AP I, the fact that “the personnel of the unit are equipped with light individual weapons for their own defence or for that of the wounded and sick in their charge” shall not be considered as an act harmful to the enemy, depriving a medical unit of its protected status. Article 13 AP I was adopted by consensus.²⁰²

184. Article 17(2) and (3)(a) of draft AP II adopted by consensus in Committee II of the CDDH provided that:

2. The protection to which medical units and transports are entitled shall not cease unless they are used to commit, outside their humanitarian function, acts harmful to the adverse Party.
- ...
3. The following shall not be considered as harmful acts:
 - (a) that the personnel of the unit or the transport are equipped with light individual weapons for their own defence or for that of the wounded and sick for whom they are responsible.²⁰³

Eventually, however, subparagraph (3) was deleted from Article 17 of draft AP II, which was then adopted by consensus in the plenary meeting of the CDDH.²⁰⁴

Other Instruments

185. No practice was found.

II. National Practice

Military Manuals

186. Argentina's Law of War Manual lists among the conditions not depriving fixed establishments and mobile medical units of their protection "the fact that the personnel of the unit or establishment are armed and use their arms in their own defence or in that of the wounded and sick in their charge".²⁰⁵

187. Australia's Commanders' Guide provides that military medical personnel lose their protection "if they engage in acts harmful to the enemy . . . Protection will not be lost if medical members act in self-defence. Defensive weapons such as side-arms may be carried."²⁰⁶

188. Australia's Defence Force Manual states that medical personnel "are protected so long as they do not participate in hostilities. The carriage of light individual weapons for self-defence or for defence of wounded or sick in their care is not considered participation."²⁰⁷

189. Belgium's Law of War Manual states that "medical personnel may carry arms but only to defend themselves or the patients in their charge".²⁰⁸

190. Belgium's Teaching Manual for Soldiers provides that "the prohibition to attack hospitals remains applicable even if . . . its personnel carry light individual weapons for their own defence or for the defence of the wounded in their charge, the establishment or material".²⁰⁹

191. Benin's Military Manual states that "the use of weapons by medical personnel and by sentries of military medical establishments and transports is subject to regulation (e.g. in case of self-defence)".²¹⁰

192. Cameroon's Instructors' Manual states that "the weapons carried by medical personnel must be of such a nature as to avoid any confusion with combatants".²¹¹

193. Canada's LOAC Manual lists among the conditions not depriving medical units of their protection the fact "that the personnel of the medical unit are armed for their own defence or that of the wounded and sick in their charge".²¹²

²¹² Canada, *LOAC Manual* (1999), p. 4-9, § 91(a).

194. Canada's Code of Conduct provides that "personnel of a medical unit or establishment may be armed with small arms and may use those arms in defence of themselves or of the wounded and sick under their charge".²¹³

195. Ecuador's Naval Manual provides that:

Possession of small arms for self-protection, for the protection of the wounded and sick, and for protection from marauders and others violating the law of armed conflict does not disqualify medical personnel from protected status. Medical personnel may not use such arms against enemy forces acting in conformity with the law of armed conflict.²¹⁴

196. France's LOAC Summary Note provides that personnel of military and civilian medical service "may not take a direct part in hostilities [and] they may only be equipped with individual arms for their own protection".²¹⁵

197. Germany's Military Manual provides that "medical personnel may be equipped with individual weapons for the protection of the wounded, sick and shipwrecked in their charge as well as for their own protection. Individual weapons are pistols, submachine guns and rifles".²¹⁶

198. Kenya's LOAC Manual states that "medical personnel may carry and use small arms for their self-defence and for the defence of the wounded and sick in their care".²¹⁷

199. The Military Manual of the Netherlands provides that:

Medical personnel may be armed with pistols, sub-machine guns and rifles, but not with machine guns or other weapons that have to be handled by more than one person, or with weapons that are meant for use against material objects, such as missile launchers and other anti-tank weapons, nor with fragmentation hand grenades and the like.²¹⁸

200. The Military Handbook of the Netherlands states that "medical personnel may not in any way take part in hostilities, but they may be armed. They may, however, only use these weapons to defend themselves or the wounded and sick in their care and not, for example, to prevent being captured by the enemy".²¹⁹

201. Nigeria's Manual on the Laws of War states that the protection of medical establishments is not forfeited "merely because medical personnel are armed for self-defence".²²⁰

202. South Africa's LOAC Manual provides that "medical personnel must abstain from all acts of hostility or they lose their protection. They are authorised

²¹³ Canada, *Code of Conduct* (2001), Rule 10, § 6.

to carry only light arms and have the right to use them only for their own defence or for that of the wounded or sick for whom they are responsible."²²¹

203. Spain's LOAC Manual states that military medical personnel "may carry arms for self-defence and for the defence of the wounded, sick and shipwrecked. They may not use them to avoid being taken prisoner. Using these arms in combat will terminate the protection to which they are entitled."²²²

204. Switzerland's Basic Military Manual states that "medical personnel may be armed with light weapons for its own defence".²²³

205. Togo's Military Manual states that "the use of weapons by medical personnel and by sentries of military medical establishments and transports is subject to regulation (e.g. in case of self-defence)".²²⁴

206. The UK Military Manual lists among the conditions not depriving hospitals and mobile medical units of their protection the fact that "the personnel are armed, and use their arms for their own defence or for the defence of the wounded and sick".²²⁵

207. The UK LOAC Manual provides that "medical personnel may carry and use small arms for their self-defence and for the defence of the wounded and sick in their care".²²⁶

208. The US Field Manual states that:

Although medical personnel may carry arms for self-defence, they may not employ such arms against enemy forces acting in conformity with the law of war. These arms are for their personal defense and for the protection of the wounded and sick under their charge against marauders and other persons violating the law of war.²²⁷

209. The US Air Force Commander's Handbook states that "medical personnel are permitted to carry arms solely to protect themselves and their patients against unlawful attack".²²⁸

210. The US Naval Handbook states that:

Possession of small arms for self-protection, for the protection of the wounded and sick, and for protection from marauders and others violating the law of armed conflict does not disqualify medical personnel from protected status. Medical personnel may not use such arms against enemy forces acting in conformity with the law of armed conflict.²²⁹

211. The Annotated Supplement to the US Naval Handbook notes that "there was no agreement at the [CDDH] as to what "light individual weapons" for

²²¹ South Africa, *LOAC Manual* (1996), § 48.

²²⁹ US, *Naval Handbook* (1995), § 11.5.

self-defence and for the defence of patients meant, although a number of military experts agreed with the British proposal (see *infra*).²³⁰

212. The YPA Military Manual of the SFRY (FRY) provides that military medical personnel may carry light weapons for their self-defence. Such personnel is authorised to engage in armed resistance against enemy armed forces directly and deliberately attacking, in spite of warning, and against marauders.²³¹

National Legislation

213. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.²³²

214. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Articles 19 GCI and 22 GC II, and of AP I, including violations of Article 13(2)(a) AP I, are punishable offences.²³³

215. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the Geneva Conventions of 12 August 1949 . . . [and in] the two additional protocols to these Conventions . . . is liable to imprisonment".²³⁴

216. Sweden's Total Defence Ordinance relating to IHL provides that "those assigned in war time to the armed forces health and medical services may only carry light personal arms".²³⁵

National Case-law

217. No practice was found.

Other National Practice

218. At the CDDH, Hungary stated that "the proposal that civilian medical units should be armed was a new one which his delegation was not prepared to endorse fully at that stage, although it did not wish to exclude it completely".²³⁶

219. According to the Report on the Practice of India, "medical and religious personnel are also authorised to wear their personal arms for their individual safety".²³⁷

²³⁰ US, *Annotated Supplement to the Naval Handbook* (1997), § 11.5, footnote 32.

²³¹ SFRY (FRY), *YPA Military Manual* (1988), §§ 171–172.

²³⁷ Report on the Practice of India, 1997, Answers to additional questions on Chapter 2.7.

220. The Report on the Practice of Kuwait states that medical personnel is authorised to defend itself.²³⁸

221. On the basis of an interview with an officer of the armed forces, the Report on the Practice of the Philippines, members of the medical corps are not allowed to carry arms, except when in garrison, "because they become the target of the enemy".²³⁹

222. In a plenary meeting of the CDDH, the representative of the USSR stated that he:

thought the deletion of paragraph 3 [of Article 17 of draft AP II] would enormously complicate matters for medical personnel in actual combat conditions. If, for instance, an army doctor disarmed a wounded soldier and failed to throw away the weapon, would he thereby forfeit his right to protection? He appealed to the representative of Pakistan to restore paragraph 3.²⁴⁰

223. The Report on UK Practice refers to a letter from an army lawyer who, after consultation with the medical-legal department, confirmed that medical personnel may carry a weapon for the purposes of self-defence and defence of their patients only. He also noted that, during the Gulf War, a certain commander of a field hospital would not allow any weapons at all within the hospital confines, even for self-defence.²⁴¹

224. At the CDDH, the US "agreed that the carrying of arms by civilian medical personnel . . . should not be considered as harmful, but in occupied territories or in areas in which fighting was taking place, the right of the party in control of the area to disarm such personnel should be reserved".²⁴²

225. According to the Report on US Practice, it is the *opinio juris* of the US that "[medical] personnel and medical vehicles may be armed, but in international armed conflicts, they may use their weapons only in self-defence and in defence of their patients against marauders and against those enemy forces that do not respect their protected status".²⁴³

III. Practice of International Organisations and Conferences

226. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

227. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

228. The ICRC's Commentary on the Additional Protocols, on the interpretation of the expression "light individual weapons", states that:

This expression was not defined, but it appears from the discussions in Committee II... that it refers to weapons which are generally carried and used by a single individual. Thus not only hand weapons such as pistols are permitted, but also rifles or even sub-machine guns. On the other hand, machine guns and any other heavy arms which cannot easily be transported by an individual and which have to be operated by a number of people are prohibited. Thus it is evident that the level of acceptance is quite high. However, this is the case above all to prevent the unit's right to protection from being suppressed too easily.²⁴⁴

229. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "medical personnel may be armed with light individual weapons for their own protection or for that of the wounded and sick in their charge".²⁴⁵

VI. Other Practice

230. No practice was found.

B. Medical Activities**Respect for medical ethics***I. Treaties and Other Instruments**Treaties*

231. Article 18, third paragraph, GC I provides that "no one may ever be molested or convicted for having nursed the wounded or sick".

232. Article 16 AP I provides that:

1. Under no circumstances shall any person be punished for carrying out medical activities compatible with medical ethics, regardless of the person benefiting therefrom.
2. Persons engaged in medical activities shall not be compelled to perform acts or to carry out work contrary to medical ethics or to other medical rules designed for the benefit of the wounded and sick or to the provisions of the

²⁴⁴ Yves Sandoz *et al.* (eds.), *Commentary on the Additional Protocols*, ICRC, Geneva, 1987, § 563.

Conventions or of this Protocol, or to refrain from performing acts or carrying out work required by those rules and provisions.

Article 16 AP I was adopted by consensus.²⁴⁶

233. Article 10 AP II provides that:

1. Under no circumstances shall any person be punished for having carried out medical activities compatible with medical ethics, regardless of the person benefiting therefrom.
2. Persons engaged in medical activities shall neither be compelled to perform acts or to carry out work contrary to, nor be compelled to refrain from acts required by, the rules of medical ethics or other rules designed for the benefit of the wounded and sick, or this Protocol.

Article 10 AP II was adopted by consensus.²⁴⁷

Other Instruments

234. No practice was found.

II. National Practice

Military Manuals

235. Argentina's Law of War Manual provides, with respect to non-international armed conflicts in particular, that:

No one shall be punished for having carried out a medical activity in conformity with medical ethics, whatever the circumstances or beneficiaries of this activity. No one shall be compelled to perform acts contrary to medical ethics or to refrain from acts required by medical ethics.²⁴⁸

236. Australia's Defence Force Manual provides that:

Medical personnel, military or civilian, cannot be compelled to give preferential treatment to any sick or wounded person, except on medical grounds, nor may they be compelled to carry out any act incompatible with their humanitarian mission or medical ethics. No person may be punished for carrying out medical activities in accordance with medical ethics, regardless of the nationality or status of the person treated.²⁴⁹

237. Canada's LOAC Manual states that:

Medical personnel cannot be required to provide preferential treatment to any sick or wounded person except on medical grounds. They may not be compelled to carry out any act incompatible with their humanitarian mission or medical ethics. Furthermore, no one may be punished for carrying out their medical activities in

²⁴⁶ CDDH, *Official Records*, Vol. VI, CDDH/SR.37, 24 May 1977, p. 70.

²⁴⁷ CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 112.

²⁴⁸ Argentina, *Law of War Manual* (1989), § 7.06.

²⁴⁹ Australia, *Defence Force Manual* (1994), § 967.

accordance with medical ethics, regardless of the nationality or status of the person treated".²⁵⁰

With respect to non-international armed conflict in particular, the manual states that:

34. In accordance with general medical practice, medical personnel may not be required to give priority to any person except for medical reasons. . . . [They] may not be compelled to perform any action incompatible with their humanitarian mission.
35. Medical aid is to be offered to all without distinction. Persons may not be punished for carrying out any medical activities compatible with their own medical ethics. Medical personnel may not be compelled to perform acts contrary to, or refrain from acts, required by their medical ethics or other rules for the protection of the sick, wounded or shipwrecked.²⁵¹

238. The Military Manual of the Netherlands restates the prohibition to violate medical ethics found in Article 16 AP I.²⁵² With respect to non-international armed conflicts in particular, the manual states that:

[Medical personnel] may not be compelled to perform tasks which are incompatible with their humanitarian mission. Medical personnel may not be required to give priority to any person, except on medical grounds. Nobody may be punished for having carried out medical acts which are compatible with medical ethics, regardless of the persons who benefited from those acts.²⁵³

239. New Zealand's Military Manual provides that:

Medical personnel, military or civilian, cannot be required to afford preferential treatment to any sick or wounded person, except on medical grounds; nor may they be compelled to carry out any act incompatible with their humanitarian mission or medical ethics. No person may be punished for carrying out his medical activities in accordance with medical ethics, regardless of the nationality or status of the person treated.²⁵⁴

With respect to non-international armed conflicts in particular, the manual states that "in accordance with general medical practice, medical personnel may not be required to give priority to any person except for medical reasons. . . . They may not be compelled to perform any action incompatible with their humanitarian mission."²⁵⁵

240. Senegal's IHL Manual states that:

No one shall be punished for having carried out a humanitarian act in conformity with medical ethics.

²⁵⁰ Canada, *LOAC Manual* (1999), p. 9-3, § 29.

²⁵¹ Canada, *LOAC Manual* (1999), p. 17-4, §§ 34-35.

²⁵² Netherlands, *Military Manual* (1993), p. VI-4.

²⁵³ Netherlands, *Military Manual* (1993), p. XI-6.

²⁵⁴ New Zealand, *Military Manual* (1992), § 1005(2).

²⁵⁵ New Zealand, *Military Manual* (1992), § 1818(2).

Persons engaged in medical activities shall not be compelled:

1. to perform acts or to carry out work contrary to medical ethics; or
2. to refrain from performing acts or from carrying out work required by medical ethics.²⁵⁶

241. Spain's LOAC Manual provides, with reference to Articles 16 AP I and 10 AP II, that IHL imposes a duty on medical personnel "to respect the principles of medical ethics".²⁵⁷

242. The YPA Military Manual of the SFRY (FRY) states that:

No person may be punished for the performance of any medical duty compatible with medical ethics, regardless of the person benefiting therefrom. Medical personnel shall not be compelled to perform acts contrary to medical ethics or to refrain from performing acts dictated by medical ethics.²⁵⁸

National Legislation

243. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.²⁵⁹

244. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Article 18 GCI, and of AP I, including violations of Article 16 AP I, as well as any "contravention" of AP II, including violations of Article 10 AP II, are punishable offences.²⁶⁰

245. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in... the Geneva Conventions of 12 August 1949... [and in] the two additional protocols to these Conventions... is liable to imprisonment".²⁶¹

National Case-law

246. In the *Levy case* in 1968, the US Army Board of Review held that medical ethics could not excuse disobedience to the orders of a superior. An army doctor had pleaded that the order to train Green Berets paramedics was contrary to medical ethics, which forbade training unqualified personnel to perform treatment which should be done by a physician.²⁶²

²⁵⁶ Senegal, *IHL Manual* (1999), p. 17.

²⁵⁷ Spain, *LOAC Manual* (1996), Vol. I, § 9.2.a.(2), see also § 9.6.b.(2).

²⁵⁸ SFRY (FRY), *YPA Military Manual* (1988), § 197.

²⁵⁹ Bangladesh, *International Crimes (Tribunal) Act* (1973), Section 3(2)(e).

²⁶⁰ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

²⁶¹ Norway, *Military Penal Code as amended* (1902), § 108.

²⁶² US, United States Army Board of Review, *Levy case*, Judgement, 29 August 1968.

Other National Practice

247. The Report on UK Practice refers to a letter from an army lawyer in which it is stated that any interference with medical ethics by military authorities would be very unlikely. Medical personnel are members of their relevant professional bodies, and there would be a strong response if the Ministry of Defence or a commander were seeking to override medical ethics.²⁶³

248. In 1987, in submitting AP II to the US Senate for advice and consent to ratification, the US President recommended a reservation to Article 10 AP II to preclude the possibility that it might affect the administration of discipline of US military personnel.²⁶⁴

249. In its Country Report on Human Rights Practices for 1996, the US Department of State noted, in the section on Turkey and under the heading "Use of Excessive Force and Violations of Humanitarian Law in Internal Conflicts", that the provisions of the Turkish Penal Code and Anti-Terror Law prohibiting assistance to illegal organisations or armed groups were used extensively to prosecute health professionals who provided care to individuals suspected of being members of terrorist organisations.²⁶⁵ Commenting on this, the Report on US Practice states the principle that "during internal armed conflict, medical personnel should not be punished solely for treating the wounded".²⁶⁶

*III. Practice of International Organisations and Conferences**United Nations*

250. In a resolution adopted in 1989 on the situation of human rights in El Salvador, the UN General Assembly considered that under AP II "no one may be punished for carrying out medical activities compatible with medical ethics, regardless of the circumstances and the beneficiaries of such activities" and requested that "medical and health personnel shall under no circumstances be penalized for carrying out their activities".²⁶⁷

251. In a resolution adopted in 1990 on the situation of human rights in El Salvador, the UN Commission on Human Rights requested the parties to the conflict "in no circumstances to penalize medical and health personnel for carrying out their activities".²⁶⁸

252. In a resolution adopted in 1989, the UN Sub-Commission on Human Rights reminded the government of El Salvador that "under no circumstances may it punish the health personnel for carrying out their medical activities".²⁶⁹

²⁶³ Report on UK Practice, 1997, Letter from an army lawyer, 24 February 1998, Chapter 2.7.

²⁶⁶ Report on US Practice, 1997, Chapter 5.7.

²⁶⁷ UN General Assembly, Res. 44/165, 15 December 1989, preamble and § 5.

²⁶⁸ UN Commission on Human Rights, Res. 1990/77, 7 March 1990, § 10.

²⁶⁹ UN Sub-Commission on Human Rights, Res. 1989/9, 31 August 1989, § 4.

Other International Organisations

253. In a resolution adopted in 1988 on the protection of humanitarian medical missions, the Parliamentary Assembly of the Council of Europe stated that “[medical personnel] may not be punished or molested for having engaged in medical activity, whoever the beneficiaries of such care may be”. The Assembly also expressed the wish that the UN draw up a charter for the protection of medical missions. The proposed charter would include, *inter alia*, the following provisions: medical personnel may not be punished for having engaged in medical activity; medical personnel must scrupulously respect the rules of medical ethics and may not refrain from performing acts required by these rules; and the assistance must be based purely on medical criteria of a humanitarian kind.²⁷⁰

International Conferences

254. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

255. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

256. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

No person shall be punished for performing medical activities compatible with medical ethics.

Persons engaged in medical activities shall not be compelled:

- a) to perform acts or to carry out work contrary to medical ethics; or
- b) to refrain from performing acts or from carrying out work required by medical ethics.²⁷¹

VI. Other Practice

257. Pursuant to the WMA’s Rules Governing the Care of the Sick and Wounded, Particularly in Time of Conflict established in 1983, “the fulfilment of medical duties and responsibilities shall in no circumstance be considered an offence”.²⁷²

258. In 1990, in a report on the FMLN offensive in El Salvador in November 1989, the Instituto de Derechos Humanos de la Universidad Centroamericano stated that:

²⁷⁰ Council of Europe, Parliamentary Assembly, Res. 904, 30 June 1988, Appendix.

²⁷¹ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 217.

²⁷² WMA, Rules Governing the Care of the Sick and Wounded, Particularly in Time of Conflict, amended by the 35th World Medical Assembly, 1983, § B(3), quoted in Yves Sandoz *et al.* (eds.), *Commentary on the Additional Protocols*, ICRC, Geneva, 1987, p. 201, § 656, footnote 12.

Twelve members of the Lutheran Church, the majority of whom worked in medical assistance, were arrested and accused, among others, of providing medical assistance to the FMLN. Five workers of a clinic of the parish of Saint Francis of Assisi in Mejicanos were arrested by soldiers from the first infantry brigade; one of them is still disappeared. These facts constitute serious violations of Article 10 [AP II] which guarantees respect for medical personnel.²⁷³

259. The Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights of Åbo Akademi University in Turku/Åbo, Finland in 1990, states that:

Medical and religious personnel . . . shall not be compelled to carry out tasks which are not compatible with their humanitarian missions. Under no circumstances shall any person be punished for having carried out medical activities compatible with the principles of medical ethics, regardless of the person benefiting there from.²⁷⁴

260. In 1994, in a report on medical practice in the context of internal armed conflict, the Peruvian Medical Federation for Human Rights detailed several instances in which doctors had been punished for providing medical assistance to members of the Sendero Luminoso (Shining Path) or to the MRTA. The report stated that:

A review of the opinions and judgments handed down in cases where charges of terrorism against physicians were based solely on the performance of a medical act reveals that the legal reasoning used by judges and public prosecutors is based on interpretation of the medical act as an act of collaboration with the terrorist organisation.

The report concluded that:

We must be firm in our position: the medical act, i.e. care given by the physician to the wounded or sick without distinction whatsoever, in observance of his professional principles and duties to protect human life, can in no way be considered an act of collaboration with subversives.²⁷⁵

²⁷³ Instituto de Derechos Humanos de la Universidad Centroamericana, "Los derechos humanos y la ofensiva del 11 de noviembre de 1989", *Estudios Centroamericanos*, Universidad Centroamericana José Simeón Cañas, Vol. XLV, Nos. 495-496, January-February 1990, p. 65; see also IDHUCA, Instituto de Derechos Humanos, Universidad Centroamericana José Simeón Cañas, *Los Derechos Humanos en El Salvador en 1990*, San Salvador, 1991, pp. 68-69.

Respect for medical secrecy

I. Treaties and Other Instruments

Treaties

261. Article 16(3) AP I provides that:

No person engaged in medical activities shall be compelled to give to anyone belonging either to an adverse Party, or to his own Party except as required by the law of the latter Party, any information concerning the wounded and sick who are, or who have been, under his care, if such information would, in his opinion, prove harmful to the patients concerned or to their families. Regulations for the compulsory notification of communicable diseases shall, however, be respected.

Article 16 AP I was adopted by consensus.²⁷⁶

262. Article 10 AP II provides that:

3. The professional obligations of persons engaged in medical activities regarding information which they may acquire concerning the wounded and sick under their care shall, subject to national law, be respected.
4. Subject to national law, no person engaged in medical activities may be penalized in any way for refusing or failing to give information concerning the wounded and sick who are, or who have been, under his care.

Article 10 AP II was adopted by consensus.²⁷⁷

Other Instruments

263. No practice was found.

II. National Practice

Military Manuals

264. Canada's LOAC Manual states, with respect to non-international armed conflict in particular, that "the professional obligations of medical personnel regarding information they acquire concerning the wounded and sick under their care must be respected, subject to the requirements of national law".²⁷⁸

265. Spain's LOAC Manual states, with reference to Articles 16 AP I and 10 AP II, that medical personnel have the following right:

Prohibition on being compelled to provide information concerning the wounded and sick in their care. This rule is absolute with respect to the relationship between medical personnel and enemy wounded or sick, but when the wounded or the sick are of their own side, they are subject to national law. A general exception is related to the compulsory provision of information regarding communicable diseases.²⁷⁹

²⁷⁸ Canada, *LOAC Manual* (1999), p. 17-4, § 36.

²⁷⁹ Spain, *LOAC Manual* (1996), Vol. I, § 9.2.a.(2), see also § 9.6.b.(2).

266. The YPA Military Manual of the SFRY (FRY) notes that “Yugoslav regulations establish an obligation for medical personnel to provide to competent authorities data on wounded, sick and shipwrecked to whom they have provided assistance”.²⁸⁰

National Legislation

267. Ireland’s Geneva Conventions Act as amended provides that any “minor breach” of AP I, including violations of Article 16(3) AP I, as well as any “contravention” of AP II, including violations of Article 10 AP II, are punishable offences.²⁸¹

268. Under Norway’s Military Penal Code as amended, “anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment”.²⁸²

National Case-law

269. No practice was found.

Other National Practice

270. At the CDDH, Cuba stated that “the performer of a medical action was free to decide whether or not to give information to a third party”.²⁸³

271. At the CDDH, Denmark stated that “the principle of non-denunciation of the wounded and sick had already been established in 1959 by the WMA, the International Committee of Military Medicine and Pharmacy and the ICRC”.²⁸⁴

272. At the CDDH, Denmark supported the view of the Netherlands (see *infra*), stating that “the provision of information by medical personnel should not be made compulsory to the detriment of underground movements”.²⁸⁵

273. At the CDDH, France stated that “physicians, who were also citizens, were deeply distressed by the obligation to report wounds caused by firearms in time of war. That did not apply to the obligation to report communicable diseases.”²⁸⁶

274. In the discussion at the CDDH on a proposal by Brazil, which purported to add “wounds by firearms, or other evidence related to a criminal offence” as a further exception, the Netherlands stated that “physicians should not be

²⁸⁰ SFRY (FRY), *YPA Military Manual* (1988), § 197.

²⁸¹ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

obliged to denounce a member of a resistance movement who had wounded a member of the occupying forces".²⁸⁷

275. At the CDDH, Norway stated it "deeply regretted" the inclusion in Article 10 AP II of the words 'subject to national law' because it was unacceptable "that an international legal norm of the importance of [AP II] should be made subject to the national law of any country". It added that "it was unlikely that Norway would be able to ratify [AP II] if the words 'subject to national law' were maintained".²⁸⁸ Notwithstanding this statement, Norway ratified the two Additional Protocols in 1981 without making any reservation or declaration.

276. An Executive Order of the Philippines of 1987 provides that all medical practitioners must report to the authorities any person treated by them for wounds that are subject to the provisions of the Criminal Code relative to physical injuries, including those they suspect to belong to the insurgent forces.²⁸⁹

277. In 1987, in submitting AP II to the US Senate for advice and consent to ratification, the US President recommended a reservation to Article 10 AP II to make clear that military medical personnel could be required to disclose otherwise confidential information to appropriate authorities.²⁹⁰

III. Practice of International Organisations and Conferences

United Nations

278. No practice was found.

Other International Organisations

279. In a resolution adopted in 1988 on the protection of humanitarian medical missions, the Parliamentary Assembly of the Council of Europe stated that "no member of a medical staff may be compelled to provide information concerning the persons to whom he has given assistance with the exception of information concerning contagious diseases".²⁹¹

International Conferences

280. The Third International Congress on the Neutrality of Medicine in 1968 recommended that the principle of non-denunciation should be categorically recognised.²⁹²

²⁸⁷ Netherlands, Statement at the CDDH, *Official Records*, Vol. XI, CDDH/II/SR.16, 10 February 1975, p. 152, § 59.

IV. Practice of International Judicial and Quasi-judicial Bodies

281. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

282. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

No person engaged in medical activities (e.g. doctor, nurse) shall be compelled to give to anyone any information concerning the wounded and sick who are, or who have been, under his care, if such information would, in his opinion, prove harmful to the patients concerned or their families. However, information must be given when required:

- a) by the law of the Party to which the person engaged in medical activities belongs;
- b) by regulations for the compulsory notification of communicable diseases.²⁹³

VI. Other Practice

283. A report on Medical Secrecy during Armed Conflict prepared for the Fifty-third Conference of the International Law Association in 1968 recommended the following:

The Geneva Conventions should be complemented by a provision to the effect that the parties to the conflict must strictly respect medical secrecy and may not require medical and para-medical personnel, military or civilian, to denounce their patients – combatants from the adverse party.

The Conference endorsed this recommendation in a resolution adopted unanimously.²⁹⁴

284. The WMA's Regulations in Time of Armed Conflict established in 1983 state that "medical confidentiality must be preserved by the physician in the practice of his profession".²⁹⁵

285. The WMA's Rules Governing the Care of the Sick and Wounded, Particularly in Time of Conflict state that "the fulfilment of medical duties and responsibilities shall in no circumstance be considered an offence. The physician must never be prosecuted for observing professional confidentiality."²⁹⁶

286. In a report in 1989, the Medical Action Group (MAG), a Philippine NGO, noted that a health worker was ordered to report all her treatment activities to the military or the *vigilantes*.²⁹⁷

C. Religious Personnel

I. Treaties and Other Instruments

Treaties

287. Article 2 of the 1864 GC provides that “chaplains shall have the benefit of the same neutrality [as military hospitals and ambulances] when on duty, and while there remain any wounded to be brought in or assisted”.

288. Article 9 of the 1906 GC provides that “chaplains attached to armies shall be respected and protected under all circumstances. If they fall into the hands of the enemy they shall not be considered as prisoners of war.”

289. Article 9 of the 1929 GC provides that “chaplains attached to armies shall be respected and protected under all circumstances. If they fall into the hands of the enemy they shall not be treated as prisoners of war.”

290. Article 24 GC I provides that “chaplains attached to the armed forces, shall be respected and protected in all circumstances”.

291. Article 36 GC II provides that “the religious... personnel of hospital ships... shall be respected and protected”.

292. According to Article 8(d) AP I:

“religious personnel” means military or civilian persons, such as chaplains, who are exclusively engaged in the work of their ministry and attached:

- (i) to the armed forces of a Party to the conflict;
- (ii) to medical units or medical transports of a Party to the conflict;
- (iii) to medical units or medical transports described in Article 9, paragraph 2; or
- (iv) to civil defence organizations of a Party to the conflict.

Article 8 AP I was adopted by consensus.²⁹⁸

293. Article 15(5) AP I provides that “civilian religious personnel shall be respected and protected”. Article 15 AP I was adopted by consensus.²⁹⁹

294. In an explanatory memorandum on the ratification of the Additional Protocols, the government of the Netherlands made a declaration to the effect that “humanist counsellors” were entitled to the same protection as religious personnel.³⁰⁰

²⁹⁷ Aurora A. Parong, *Total War: A Threat to People’s Health and Lives*, Medical Action Group (MAG), Philippines, 1989, p. 3, Point 3.

²⁹⁸ CDDH, *Official Records*, Vol. VI, CDDH/SR.37, 24 May 1977, p. 68.

²⁹⁹ CDDH, *Official Records*, Vol. VI, CDDH/SR.37, 24 May 1977, p. 70.

³⁰⁰ Netherlands, Lower House of Parliament, Explanatory memorandum on the ratification of the Additional Protocols, 1983–1984 Session, Doc. 18 277 (R 1247), No. 3, p. 14.

295. Article 9(1) AP II provides that “religious personnel shall be respected and protected and shall be granted all available help for the performance of their duties”. Article 9 AP II was adopted by consensus.³⁰¹

296. Upon signature of AP I and AP II, the US declared that “it is the understanding of the United States of America that the terms used in Part III of [AP II] which are the same as the terms defined in Article 8 [AP I] shall so far as relevant be construed in the same sense as those definitions”.³⁰²

Other Instruments

297. Article 13 of the 1880 Oxford Manual provides that “chaplains . . . which are duly authorized to assist the regular sanitary staff – are considered as neutral while so employed, and so long as there remain any wounded to bring in or to succour”.

298. Section 9.4 of the 1999 UN Secretary-General’s Bulletin provides that “the United Nations force shall in all circumstances respect and protect . . . religious personnel”.

II. National Practice

Military Manuals

299. Argentina’s Law of War Manual (1969) states that “chaplains attached to the armed forces, shall be respected and protected in all circumstances”.³⁰³

300. Argentina’s Law of War Manual (1989), with reference to the relevant provisions of the Geneva Conventions and both Additional Protocols, provides that “the protective norms are applicable to civilian and military religious personnel”.³⁰⁴

301. Australia’s Commanders’ Guide states that “protected status is afforded to civilian and military religious personnel while engaged solely in meeting spiritual needs”.³⁰⁵

302. Australia’s Defence Force Manual states that:

Religious personnel are defined as those military or civilian personnel, who are exclusively engaged in their ministry and who are permanently or temporarily attached to one of the protagonists, their medical units or transports, or to a civil defence . . . Like medical personnel, chaplains may not be attacked but must be protected and respected. As with medical personnel, religious personnel do not become PW, unless their retention is required for the spiritual welfare of PW. They must be repatriated as early as possible.³⁰⁶

³⁰¹ CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 112.

³⁰⁵ Australia, *Commanders’ Guide* (1994), § 618.

³⁰⁶ Australia, *Defence Force Manual* (1994), § 983, see also §§ 522, 708 and 902.

- 303.** Belgium's Law of War Manual states that "religious personnel enjoy the same protection as [permanent] medical personnel".³⁰⁷
- 304.** Belgium's Teaching Manual for Soldiers provides that chaplains attached to the armed forces "do not participate in combat and, as a result, may not be attacked".³⁰⁸
- 305.** Benin's Military Manual lists military and civilian religious personnel as specially protected persons.³⁰⁹ It states that "specially protected persons may not take a direct part in hostilities and must not be attacked. They shall be allowed to carry out their tasks as long as the tactical situation permits."³¹⁰
- 306.** Cameroon's Instructors' Manual considers both military and civilian religious personnel as specially protected persons.³¹¹
- 307.** Canada's LOAC Manual states that "religious personnel, both military and civilian, have protected status and thus shall not be attacked".³¹² With respect to non-international armed conflict in particular, the manual states that "religious personnel are to be respected and protected at all times [and] receive all available aid to enable them to fulfil their duties".³¹³
- 308.** Croatia's Commanders' Manual states that "specifically protected persons may not participate directly in hostilities and may not be attacked. They shall be allowed to perform their tasks, when the tactical situation permits." Such persons include military religious personnel and religious personnel attached to the civilian medical service or to the civil defence service.³¹⁴
- 309.** Ecuador's Naval Manual states that "chaplains attached to the armed forces are entitled to the same protection as medical personnel".³¹⁵
- 310.** El Salvador's Soldiers' Manual provides that "religious personnel who serve in hospitals or work for the Red Cross... shall be specially protected because they relieve, aid and comfort all victims without distinction between friend and foe".³¹⁶
- 311.** France's LOAC Summary Note provides that "the specific immunity granted to certain persons and objects by the law of war [including military religious personnel and religious personnel of civilian medical units or civil defence] must be strictly observed... They may not be attacked."³¹⁷

³⁰⁷ Belgium, *Law of War Manual* (1983), p. 48.

³¹¹ Cameroon, *Instructors' Manual* (1992), p. 19, § 222.

³¹² Canada, *LOAC Manual* (1999), p. 4-5, § 41, see also p. 9-3, § 28.

³¹³ Canada, *LOAC Manual* (1999), p. 17-4, § 34.

³¹⁴ Croatia, *Commanders' Manual* (1992), §§ 7 and 12.

³¹⁵ Ecuador, *Naval Manual* (1989), § 11.5.

³¹⁶ El Salvador, *Soldiers' Manual* (undated), p. 12.

³¹⁷ France, *LOAC Summary Note* (1992), §§ 2.2 and 2.3.

312. France's LOAC Manual states that "the law of armed of conflicts provides special protection for the following persons: . . . religious personnel attached to armed forces [and] civilian religious personnel".³¹⁸

313. Germany's Military Manual states that:

801. Chaplains are ministers of faith assigned to the armed forces of a state to provide spiritual care to the persons in their charge.

811. Chaplains shall be respected and protected in all circumstances. This shall apply:

- at any time throughout the duration of an armed conflict;
- at any place; and
- in any case in which chaplains are retained by the adversary, be it temporarily or for a prolonged period of time.

812. Chaplains as such are entitled to the protection provided by international law. Direct participation in rendering assistance to the victims of war (wounded, sick, shipwrecked, prisoners of war, protected civilians) is not required.

813. Unlike medical supplies, the articles used for religious purposes are not explicitly protected by international law. It is, however, in keeping with the tenor of the Geneva Conventions to respect the material required for religious purposes and not use it for alien ends.

...

816. Any attack directed against chaplains and any infringement of their rights constitutes a grave breach of international law, which shall be liable to criminal prosecution.

817. The fact that chaplains may be armed, and that they may use the arms in their own defence, or in that of the wounded, sick and shipwrecked shall not deprive them of the protection accorded to them by international law. They may use the arms only to repel attacks violating international law, but not to prevent capture.

818. The protection accorded to chaplains shall cease if they use their arms for any other purpose than that of self-protection and defending protected persons.

819. The only arms which may be used are weapons suited for self-defence and emergency aid (individual weapons).

820. In the Federal Republic of Germany chaplains are not armed.³¹⁹

314. Hungary's Military Manual states that "religious personnel have the same status as permanent medical personnel".³²⁰

315. Indonesia's Field Manual restates the rule on religious personnel found in Article 24 GC I.³²¹

316. Indonesia's Air Force Manual provides that "a non-combatant is not a lawful military target in warfare. They consist of: a. members of the armed forces with special status such as chaplains."³²²

³¹⁸ France, *LOAC Manual* (2001), pp. 95–96.

³¹⁹ Germany, *Military Manual* (1992), §§ 801, 811–813 and 816–820, see also § 315 ("chaplains are allowed to bear and use small arms").

³²⁰ Hungary, *Military Manual* (1992), p. 19.

³²¹ Indonesia, *Field Manual* (1979), § 6(c).

³²² Indonesia, *Air Force Manual* (1990), § 24(a).

317. Israel's Manual on the Laws of War states that "a provision similar to that applying to medical personnel exists also with regard to chaplains. They too do not take part in the hostilities, they may not be harmed and may not be taken prisoner."³²³

318. Italy's LOAC Elementary Rules Manual states that "specifically protected persons may not participate directly in hostilities and may not be attacked", including military religious personnel and religious personnel attached to the civilian medical service or to the civil defence service.³²⁴

319. Kenya's LOAC Manual states that the protection afforded to military medical personnel also applies to military religious personnel.³²⁵

320. South Korea's Operational Law Manual states that military religious personnel must be protected.³²⁶

321. Madagascar's Military Manual states that "specifically protected persons may not participate directly in hostilities and may not be attacked. They shall be allowed to perform their tasks, when the tactical situation permits." Such persons include military religious personnel and religious personnel attached to the civilian medical service or to the civil defence service.³²⁷

322. The Military Manual of the Netherlands states that "religious personnel must be respected and protected" and stresses that, according to the Netherlands, "humanist counsellors belong to religious personnel".³²⁸ With respect to non-international armed conflicts in particular, the manual states that "religious personnel must be respected and protected and must receive aid to fulfil their tasks".³²⁹

323. The Military Handbook of the Netherlands provides that "religious personnel enjoy the same protection as medical personnel".³³⁰

324. New Zealand's Military Manual states, with respect to non-international armed conflicts in particular, that "religious personnel are to be respected and protected at all times, receiving all available aid to enable them to fulfil their duties".³³¹

325. Nicaragua's Military Manual states, with respect to international armed conflicts, that assistance to the wounded, sick and shipwrecked includes a requirement of "respect for and protection of chaplains in all circumstances".³³²

326. Nigeria's Military Manual provides that "specifically protected persons . . . recognised as such must be respected. Specifically protected persons

are to be allowed to fulfil their activity unless the tactical situation does not permit".³³³

327. Nigeria's Manual on the Laws of War provides that "military chaplains accompanying armed forces are also entitled to protection".³³⁴

328. South Africa's LOAC Manual provides that "religious personnel of the parties to a conflict, whether military or civilian, are to be respected and protected".³³⁵

329. Spain's LOAC Manual provides, with reference to Article 15 AP I, that "religious personnel, whether civilian or military, are governed by the same rules as medical personnel".³³⁶

330. Switzerland's Basic Military Manual states that "religious personnel must be respected and protected in all circumstances. They may not be attacked or prevented from carrying out their duties."³³⁷

331. Togo's Military Manual lists military and civilian religious personnel as specially protected persons.³³⁸ It states that "specially protected persons may not take a direct part in hostilities and must not be attacked. They shall be allowed to carry out their tasks as long as the tactical situation permits".³³⁹

332. The UK Military Manual states that "chaplains attached to armed forces enjoy all the privileges of the permanent medical personnel".³⁴⁰

333. The UK LOAC Manual provides that "chaplains attached to the armed forces have protected status and may not be attacked... They may not be armed."³⁴¹

334. The US Field Manual restates Article 24 GC I.³⁴²

335. The US Naval Handbook states that "chaplains attached to the armed forces are entitled to respect and protection".³⁴³

336. The Annotated Supplement to the US Naval Handbook notes that "the United States supports the principle in [Article 15 AP I] that civilian... religious personnel be respected and protected and not be made the objects of attack".³⁴⁴

337. The YPA Military Manual of the SFRY (FRY) provides that "military chaplains attached to the armed forces are equated to permanent medical personnel in terms of protection".³⁴⁵

National Legislation

- 338.** Argentina's Draft Code of Military Justice punishes any soldier who "uses violence against . . . religious personnel".³⁴⁶
- 339.** Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.³⁴⁷
- 340.** Under Croatia's Criminal Code, "killing, torture or inhuman treatment" of religious personnel is a war crime.³⁴⁸
- 341.** The Draft Amendments to the Penal Code of El Salvador punish "anyone who, during an international or non-international conflict, attacks protected persons", defined as including religious personnel.³⁴⁹
- 342.** Under Estonia's Penal Code, "a person who kills, tortures, causes health damage to or takes hostage . . . a minister of religion" commits a war crime.³⁵⁰
- 343.** Georgia's Criminal Code provides for the punishment of "wilful breaches of norms of international humanitarian law committed in an international or internal armed conflict . . . against . . . religious personnel".³⁵¹
- 344.** Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Articles 24 GC I and 36 GC II, and of AP I, including violations of Article 15 AP I, as well as any "contravention" of AP II, including violations of Article 9 AP II, are punishable offences.³⁵²
- 345.** Italy's Law of War Decree as amended provides that chaplains attached to the armed forces must be respected and protected "provided they are not committing acts of hostility".³⁵³
- 346.** Nicaragua's Military Penal Code provides for the punishment of any soldier who "exercises violence against the personnel of . . . religious services, be they enemy or neutral, members of aid organizations and personnel affected to the services of [religious establishments]", provided that the protection due is not misused for hostile purposes.³⁵⁴
- 347.** Nicaragua's Draft Penal Code punishes "anyone who, during an international or non-international conflict, attacks protected persons", defined as including religious personnel.³⁵⁵
- 348.** Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the

protection of persons or property laid down in . . . the Geneva Conventions of 12 August 1949 . . . [and in] the two additional protocols to these Conventions . . . is liable to imprisonment".³⁵⁶

349. Under Poland's Penal Code, religious personnel are protected.³⁵⁷

350. Under Slovenia's Penal Code, "slaughter, torture [or] inhuman treatment" of religious personnel is a war crime.³⁵⁸

351. Spain's Military Criminal Code provides for the punishment of any soldier who "exercises violence against the personnel of . . . religious services, be they enemy or neutral, members of aid organizations and personnel affected to the services of [religious establishments]", provided that the protection due is not misused for hostile purposes.³⁵⁹

352. Spain's Penal Code provides for the punishment of "anyone who should . . . exercise violence on . . . religious personnel".³⁶⁰

353. Tajikistan's Criminal Code, in the section on "Serious violations of international humanitarian law", provides for the punishment of "wilful breaches of norms of international humanitarian law committed in an international or non-international armed conflict, against . . . religious personnel".³⁶¹

354. Under the Penal Code as amended of the SFRY (FRY), "murder, torture [or] inhuman treatment" of religious personnel is a war crime.³⁶²

National Case-law

355. No practice was found.

Other National Practice

356. According to the Report on the Practice of China, "China is of the opinion that . . . religious personnel . . . shall be respected and protected from attacks".³⁶³

357. The Report on the Practice of Iraq refers to the protection afforded to religious personnel by the Geneva Conventions.³⁶⁴

358. According to the Report on the Practice of Israel, the IDF does not have a policy of targeting the religious personnel of its adversaries. The report adds that the implementation of this policy is subject to such personnel being clearly recognisable and not participating in hostile activities.³⁶⁵

359. At the CDDH, the Netherlands proposed an amendment to include a new paragraph in Article 15 of draft AP I to the effect that "persons, attached to civilian medical units, who are giving not religious but other spiritual help,

shall be protected and respected".³⁶⁶ The proposal was rejected by 13 votes in favour, 6 against and 29 abstentions.³⁶⁷

360. Based on replies by army officers to a questionnaire, the Report on the Practice of Rwanda states that military religious personnel must be protected. According to the report, no distinction is made between international and non-international conflicts.³⁶⁸

361. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that "we support the principle that medical and religious personnel must be respected and protected" as provided in Article 15 AP I.³⁶⁹

362. According to the Report on US Practice, it is the *opinio juris* of the US that medical and religious personnel are not to be knowingly attacked or unnecessarily prevented from performing their duties in either international or non-international armed conflicts.³⁷⁰

363. Order No. 579 issued in 1991 by the YPA Chief of Staff instructs YPA units to "apply all means to prevent any attempt of . . . mistreatment of . . . religious and medical personnel".³⁷¹

364. According to the Report on the Practice of Zimbabwe, Zimbabwe regards the protection of religious personnel from attack as being a rule of customary international law.³⁷²

III. Practice of International Organisations and Conferences

United Nations

365. No practice was found.

Other International Organisations

366. In 1980, in a draft resolution included in a report on the situation in Bolivia, the Parliamentary Assembly of the Council of Europe stated that it was appalled by the inhuman treatment inflicted by the military government on certain ecclesiastical figures.³⁷³

³⁶⁶ Netherlands, Proposal of amendment to Article 15 of draft AP I submitted to the CDDH, *Official Records*, Vol. III, CDDH/II/216, 13 February 1975, p. 74.

³⁷³ Council of Europe, Parliamentary Assembly, Report on the situation in Bolivia (General policy of the Council of Europe), Draft resolution, Doc. 4620, 29 September 1980, § 5.

International Conferences

367. The Final Declaration adopted by the International Conference for the Protection of War Victims in 1993 urged all States to “make every effort” to protect religious personnel.³⁷⁴

IV. Practice of International Judicial and Quasi-judicial Bodies

368. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

369. In the light of the fact that AP II provides no definition of medical personnel, the ICRC Commentary on the Additional Protocols states that “we should therefore refer, both for medical personnel and for religious personnel, to the definitions of these terms given in Article 8 (Terminology) of Protocol I”.³⁷⁵

370. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

81. “Religious personnel” means military or civilian persons, such as chaplains engaged exclusively in their ministry and attached:

- a) to the armed forces;
- b) to civilian medical service;
- c) to civil defence.

The attachment of religious personnel can be temporary.

82. The law of war grants the same status to military and civilian religious personnel . . .

83. The provisions governing medical personnel also apply to religious personnel.

...

474. Specifically protected personnel . . . recognized as such must be respected.

475. Specifically protected personnel shall be allowed to fulfil their activity, unless the tactical situation does not permit . . . Their mission and genuine activity may be verified. Armed enemy personnel may be disarmed.³⁷⁶

371. At the CDDH, the ICRC stated that:

As in certain armies burial was carried out by religious personnel, and since their performance of that duty was in accordance with the Geneva Conventions, that personnel must be covered and protected by the Conventions and the Protocols, in the same way as any other medical and religious personnel.³⁷⁷

³⁷⁴ International Conference for the Protection of War Victims, Geneva, 30 August–1 September 1993, Final Declaration, § II (9), *ILM*, Vol. 33, 1994, p. 301.

³⁷⁷ ICRC, Statement at the CDDH, *Official Records*, Vol. XI, CDDH/II/SR.16, 6 February 1975, pp. 120–121, § 14.

372. In 1978, in a letter to a National Society, the ICRC stated that religious personnel attached to the armed forces are among those persons which “must be respected and protected in all circumstances”.³⁷⁸

373. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that “religious personnel . . . shall be protected and respected”.³⁷⁹

VI. Other Practice

374. In 1980, an armed opposition group agreed to be bound by the obligation to protect medical personnel and objects displaying the red cross emblem.³⁸⁰ In 1983, it told the ICRC that it had issued orders to its forces not to direct attacks against religious and medical personnel and objects.³⁸¹ It described the kidnappings of a priest and a doctor as “errors”.³⁸²

375. Rule A5 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IIHL, provides that “the obligation to respect and protect . . . religious personnel . . . in the conduct of military operations is a general rule applicable in non-international armed conflicts”.³⁸³

376. The Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights of Åbo Akademi University in Turku/Åbo, Finland in 1990, states that “religious personnel shall be respected and protected and shall be granted all available help for the performance of their duties”.³⁸⁴

D. Medical Units

Respect for and protection of medical units

I. Treaties and Other Instruments

Treaties

377. Article 27 of the 1899 HR provides that:

In sieges and bombardments all necessary steps should be taken to spare as far as possible . . . hospitals, and places where the sick and wounded are collected, provided they are not used at the same time for military purposes. The besieged should

³⁸⁰ ICRC archive document. ³⁸¹ ICRC archive document. ³⁸² ICRC archive document.

³⁸³ IIHL, Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, Rule A5, *IRRC*, No. 278, 1990, p. 391.

³⁸⁴ Declaration of Minimum Humanitarian Standards, adopted by an expert meeting convened by the Institute for Human Rights, Åbo Akademi University, Turku/Åbo, 30 November–2 December 1990, Article 14(1), *IRRC*, No. 282, 1991, p. 335.

indicate these buildings or places by some particular and visible signs, which should previously be notified to the assailants.

378. Article 27 of the 1907 HR provides that:

In sieges and bombardments all necessary steps must be taken to spare, as far as possible, . . . hospitals, and places where the sick and wounded are collected, provided they are not being used at the time for military purposes. It is the duty of the besieged to indicate the presence of such buildings or places by distinctive and visible signs, which shall be notified to the enemy beforehand.

379. Article 19 GC I provides that:

Fixed establishments and mobile medical units of the Medical Service may in no circumstances be attacked, but shall at all times be respected and protected by the Parties to the conflict. Should they fall into the hands of the adverse Party, their personnel shall be free to pursue their duties, as long as the capturing Power has not itself ensured the necessary care of the wounded and sick found in such establishments and units.

The responsible authorities shall ensure that the said medical establishments and units are, as far as possible, situated in such a manner that attacks against military objectives cannot imperil their safety.

380. Article 18 GC IV states that:

Civilian hospitals organized to give care to the wounded and sick, the infirm and maternity cases, may in no circumstances be the object of attack but shall at all times be respected and protected by the Parties to the conflict.

...

In view of the dangers to which hospitals may be exposed by being close to military objectives, it is recommended that such hospitals be situated as far as possible from such objectives.

381. Article 12 AP I provides that:

1. Medical units shall be respected and protected at all times and shall not be the object of attack.
2. Paragraph 1 shall apply to civilian medical units, provided that they:
 - a) belong to one of the Parties to the conflict;
 - b) are recognized and authorised by the competent authority of one of the Parties to the conflict; or
 - c) are authorized in conformity with Article 9, paragraph 2, of this Protocol or Article 27 of the First [Geneva] Convention.
3. The parties to the conflict are invited to notify each other of the location of their medical units. The absence of such notification shall not exempt any of the Parties from the obligation to comply with the provisions of paragraph 1.
4. Under no circumstances shall medical units be used in an attempt to shield military objectives from attack. Whenever possible, the Parties to the conflict shall ensure that medical units are so sited that attacks against military objectives do not imperil their safety.

Article 12 AP I was adopted by consensus.³⁸⁵

382. Under Article 11(1) AP II, “medical units and transports shall be respected and protected at all times and shall not be the object of attack”. Article 11 AP II was adopted by consensus.³⁸⁶

383. Upon signature of AP I and AP II, the US declared that “it is the understanding of the United States of America that the terms used in Part III of [AP II] which are the same as the terms defined in Article 8 [AP I] shall so far as relevant be construed in the same sense as those definitions”.³⁸⁷

384. Pursuant to Article 8(2)(b)(ix) and (e)(iv) of the 1998 ICC Statute, “intentionally directing attacks against . . . hospitals and places where the sick and the wounded are collected, provided they are not military objectives” constitutes a war crime in both international and non-international armed conflicts.

Other Instruments

385. Article 17 of the 1874 Brussels Declaration provides that:

In such cases [of bombardment of a defended town or fortress, agglomeration of dwellings, or village] all necessary steps must be taken to spare, as far as possible, . . . hospitals, and places where the sick and wounded are collected provided they are not being used at the time for military purposes.

It is the duty of the besieged to indicate the presence of such buildings by distinctive and visible signs to be communicated to the enemy beforehand.

386. Article 34 of the 1880 Oxford Manual provides that:

In case of bombardment all necessary steps must be taken to spare, if it can be done, . . . hospitals and places where the sick and wounded are gathered on the condition that they are not being utilized at the time, directly or indirectly, for defense.

It is the duty of the besieged to indicate the presence of such buildings by visible signs notified to the assailant beforehand.

387. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including the “deliberate bombardment of hospitals”.

388. Article 25 of the 1923 Hague Rules of Air Warfare provides that:

In bombardment by aircraft, all necessary steps must be taken by the commander to spare as far as possible . . . hospitals and other places where the sick and wounded are collected, provided such buildings, objects or places are not at the time used for military purposes. Such buildings, objects and places must by day be indicated by marks visible to aircraft . . .

³⁸⁵ CDDH, *Official Records*, Vol. VI, CDDH/SR.37, 24 May 1977, p. 69.

³⁸⁶ CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 113.

³⁸⁷ US, Declaration made upon signature of AP I and AP II, 12 December 1977, § B.

A belligerent who desires to secure by night the protection for the hospitals and other privileged buildings above mentioned must take the necessary measures to render the special signs referred to sufficiently visible.

389. Paragraph 2.2 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina provides that “hospitals and other medical units . . . may in no circumstances be attacked, they shall at all times be respected and protected. They may not be used to shield combatants, military objectives or operations from attack”.

390. Section 9.3 of the 1999 UN Secretary-General’s Bulletin provides that “the United Nations force shall not attack medical establishments or mobile medical units. These shall at all times be respected and protected.”

391. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(ix) and (e)(iv), “intentionally directing attacks against . . . hospitals and places where the sick and the wounded are collected, provided they are not military objectives” constitutes a war crime in both international and non-international armed conflicts.

II. National Practice

Military Manuals

392. Argentina’s Law of War Manual (1969) restates Article 27 of the 1907 HR, Article 19 GC I and Article 18 GC IV.³⁸⁸

393. Argentina’s Law of War Manual (1989) states that “civilian and military medical units shall be respected and protected in all circumstances and may not be made the object of attack”.³⁸⁹ This rule is repeated with respect to non-international armed conflicts.³⁹⁰

394. Australia’s Commanders’ Guide provides that “civilian medical facilities . . . are not to be made the target of attack or unnecessarily destroyed. Military medical . . . facilities and equipment are also entitled to general protection under the Geneva Conventions.”³⁹¹

395. Australia’s Defence Force Manual states that “medical facilities on land . . . must be respected and protected at all times and must not be attacked . . . Medical units are establishments, whether military or civilian, organised for medical purposes, and may be fixed or mobile, permanent or temporary.”³⁹²

³⁸⁸ Argentina, *Law of War Manual* (1969), §§ 1.010, 3.007 and 4.004(1).

³⁸⁹ Argentina, *Law of War Manual* (1989), § 2.11, see also § 2.03.

³⁹⁰ Argentina, *Law of War Manual* (1989), § 7.07.

³⁹¹ Australia, *Commanders’ Guide* (1994), §§ 614–615.

³⁹² Australia, *Defence Force Manual* (1994), §§ 972–973, see also §§ 538 and 964.

396. Belgium's Law of War Manual provides that "medical units and material may not be made the object of attack under any circumstances, even when located near military buildings".³⁹³

397. Belgium's Teaching Manual for Soldiers states that:

The protection accorded to the wounded would be illusory if the civilian and military medical services which are specifically set up to treat them could be attacked. Hence, medical services, identified by the Red Cross (or Red Crescent in certain countries), are not considered combatants or military objectives even if they wear the enemy uniform or bear its insignia. Enemy medical . . . establishments and units may not be attacked.³⁹⁴

398. Benin's Military Manual lists the military and civilian medical services as specially protected objects.³⁹⁵ It states that "specially protected establishments shall remain untouched and no [armed] person may enter them. Their content and actual use may be checked through an inspection."³⁹⁶

399. Bosnia and Herzegovina's Military Instructions provides that "permanent medical facilities and mobile units of the medical services of armed forces must not be attacked, but have to be respected and protected".³⁹⁷

400. Burkina Faso's Disciplinary Regulations provides that, under the laws and customs of war, soldiers in combat must respect hospitals and places where the wounded and sick, civilian or military, are collected, as well as medical units, buildings and material.³⁹⁸

401. Cameroon's Disciplinary Regulations provides that, under the laws and customs of war, each soldier must respect medical units and establishments, as well as places where the wounded and sick, civilian or military, are collected.³⁹⁹

402. Canada's LOAC Manual provides that:

87. Medical units and establishments shall be respected, protected and shall not be the object of attack.
88. "Medical units" means establishments and other units, *whether military or civilian*, organized for medical duties. The term "medical units" is intended to have a broad meaning and includes:
 - a. hospitals and other similar units;
 - b. blood transfusion centres;
 - c. preventive medicine centres and institutes;
 - d. medical depots; and
 - e. the medical and pharmaceutical stores of such units.
89. Medical units may be fixed or mobile, permanent or temporary.⁴⁰⁰ [emphasis in original]

³⁹³ Belgium, *Law of War Manual* (1983), p. 48.

³⁹⁴ Belgium, *Teaching Manual for Soldiers* (undated), p. 17, see also p. 8.

³⁹⁵ Benin, *Military Manual* (1995), Fascicule I, p. 13.

³⁹⁶ Benin, *Military Manual* (1995), Fascicule II, p. 8.

³⁹⁷ Bosnia and Herzegovina, *Military Instructions* (1992), Item 15, § 1.

³⁹⁸ Burkina Faso, *Disciplinary Regulations* (1994), Article 35(1).

³⁹⁹ Cameroon, *Disciplinary Regulations* (1975), Article 31.

⁴⁰⁰ Canada, *LOAC Manual* (1999), p. 4-9, §§ 87-89, see also p. 9-4, §§ 35-36.

The manual further provides that “attacking a privileged or protected building” constitutes a war crime.⁴⁰¹ With respect to non-international armed conflicts in particular, the manual states that “medical units . . . are to be respected and protected at all times and not be made the object of attack”.⁴⁰²

403. Canada’s Code of Conduct provides that “fixed and mobile medical units and establishments shall not be attacked. . . . Such establishments and units should, if possible, be situated so that attacks against military objectives will not endanger them.”⁴⁰³

404. Colombia’s Circular on Fundamental Rules of IHL states that the protection due to the wounded and sick “also covers, as such, . . . medical establishments”.⁴⁰⁴

405. Colombia’s Basic Military Manual states that “attacks, misappropriation and destruction” of medical units constitutes a “grave breach”.⁴⁰⁵

406. Congo’s Disciplinary Regulations provides that hospitals, places where the wounded and sick, whether civilian or military, are collected and medical units, buildings and material must be respected.⁴⁰⁶

407. Croatia’s Commanders’ Manual states that “specifically protected objects may not become military objectives and may not be attacked”, including units of the military and civilian medical service.⁴⁰⁷

408. Croatia’s Soldiers’ Manual instructs soldiers to respect medical objects.⁴⁰⁸

409. The Military Manual of the Dominican Republic instructs soldiers not to attack medical establishments and field hospitals, but to protect them.⁴⁰⁹

410. Ecuador’s Naval Manual states that:

Medical establishments and units (both mobile and fixed), . . . and medical equipment and stores may not be deliberately bombarded. Belligerents are required to ensure that such medical facilities are, as far as possible, situated in such manner that attacks against military targets in the vicinity do not imperil their safety.⁴¹⁰

The manual qualifies “deliberate attack upon medical establishments” as a war crime.⁴¹¹

411. France’s Disciplinary Regulations as amended provides that soldiers in combat must respect and protect hospitals and places where the wounded and sick, civilian or military, are collected, as well as medical units, buildings and materials.⁴¹²

⁴⁰¹ Canada, *LOAC Manual* (1999), p. 16-4, § 21(d).

⁴¹² France, *Disciplinary Regulations as amended* (1975), Article 9 bis (1).

412. France's LOAC Summary Note provides that "the specific immunity granted to certain persons and objects by the law of war [including the material of military and civilian medical services] must be strictly observed . . . They may not be attacked."⁴¹³

413. France's LOAC Manual, with reference to Article 12 AP I, includes medical units among objects which are specifically protected by the law of armed conflict.⁴¹⁴

414. Germany's Military Manual provides that:

Fixed medical establishments . . . and mobile medical units of the medical service shall under no circumstances be attacked. Their unhampered employment shall be ensured at all times. As far as possible, medical establishments and units shall be sited or employed at an adequate distance to military objectives.⁴¹⁵

415. Germany's IHL Manual states that:

Fixed medical establishments . . . and mobile medical units of the medical service shall under no circumstance be attacked. Their unhampered employment shall be ensured at all times. As far as possible, medical establishments and units shall be sited or employed at an adequate distance to military objectives.⁴¹⁶

416. Hungary's Military Manual instructs soldiers to respect and protect medical establishments and equipment.⁴¹⁷

417. According to the Report on the Practice of Israel, Israel's Law of War Booklet grants protection to medical facilities as long as they are clearly recognisable as such and are not used for hostile activities.⁴¹⁸

418. Israel's Manual on the Laws of War states that:

The wounded are regarded as persons who have stopped taking part in the fighting and they shall not be harmed. Hence, it is prohibited to interfere with the administration of medical aid. This prohibition includes the ban on striking hospitals and medical facilities, whether civilian or military, as well as wounded-collection sites, medical warehouses, ambulances and so forth . . . In any event, it is absolutely forbidden to attack the enemy's medical facilities, military included, or the enemy's wounded.⁴¹⁹

419. Italy's IHL Manual states that "mobile medical units [and] fixed establishments of the medical service . . . must be respected and protected".⁴²⁰ It qualifies "attacks on medical units . . . which must be respected and protected at all times" as war crimes.⁴²¹

⁴¹³ France, *LOAC Summary Note* (1992), §§ 2.2 and 2.3.

⁴²⁰ Italy, *IHL Manual* (1991), Vol. I, § 14. ⁴²¹ Italy, *IHL Manual* (1991), Vol. I, § 85.

420. Italy's LOAC Elementary Rules Manual states that "specifically protected objects may not become military objectives and may not be attacked", including units of the military and civilian medical services.⁴²²

421. Kenya's LOAC Manual states that "protection from attack is given to fixed and mobile medical units . . . Medical units can be military or civilian and includes medical depots and pharmaceutical stores, as well as hospitals and treatment centres".⁴²³

422. South Korea's Operational Law Manual states that military medical facilities shall be protected.⁴²⁴

423. Lebanon's Army Regulations instructs combatants "to refrain from causing damage to hospitals and places where the sick and the wounded, civilian and military, are collected".⁴²⁵

424. Lebanon's Teaching Manual provides for respect for medical units.⁴²⁶

425. Madagascar's Military Manual states that "specifically protected objects may not become military objectives and may not be attacked", including units of the military and civilian medical services.⁴²⁷

426. Mali's Army Regulations provides that, under the laws and customs of war, soldiers in combat must respect hospitals and places where the wounded and sick, civilian or military, are collected, as well as medical units, buildings and material.⁴²⁸

427. Morocco's Disciplinary Regulations provides that, under the laws and customs of war, soldiers in combat must respect hospitals and places where the wounded and sick, civilian or military, are collected, as well as medical units, buildings and material.⁴²⁹

428. The Military Manual of the Netherlands states that:

Medical units must be respected and protected. They may not be attacked. Medical units may not be used under any circumstances to shield military objectives against attacks. The parties to the conflict must ensure, as far as possible, that medical units are located in such a way that attacks on military objectives do not endanger their safety.⁴³⁰

With respect to non-international armed conflicts in particular, the manual states that "medical units . . . must be respected and protected. They may not be attacked."⁴³¹

⁴²² Italy, *LOAC Elementary Rules Manual* (1991), §§ 7 and 13, see also § 31 (search for information).

⁴²⁹ Morocco, *Disciplinary Regulations* (1974), Article 25(1).

⁴³⁰ Netherlands, *Military Manual* (1993), p. VI-5.

⁴³¹ Netherlands, *Military Manual* (1993), p. XI-6.

429. The Military Handbook of the Netherlands provides that “medical units (medical establishments, hospitals and first-aid posts) may not be attacked”.⁴³²

430. New Zealand’s Military Manual states that:

Medical establishments on land . . . must be respected and protected at all times and must not be attacked . . .

Medical units are establishments, whether military or civilian, organised for medical purposes, and may be fixed or mobile, permanent or temporary.

...

It is forbidden to attack civilian hospitals.⁴³³

The manual further states that “attacking a privileged or protected building” is a war crime recognised by the customary law of armed conflict.⁴³⁴ With respect to non-international armed conflicts in particular, the manual states that “medical units . . . are to be respected at all times and not made the object of attack”.⁴³⁵

431. Nicaragua’s Military Manual states, with respect to international armed conflicts, that assistance to the wounded, sick and shipwrecked includes a requirement of “respect for and protection of medical establishments and units” and “protection of civilian hospitals”.⁴³⁶

432. Nigeria’s Operational Code of Conduct provides that “hospitals . . . should not be tampered with or molested”.⁴³⁷

433. Nigeria’s Military Manual provides that “specifically protected . . . establishments . . . recognised as such must be respected. . . . Specifically protected establishments shall not be touched or entered, though they could be inspected to ascertain their contents and effective use”.⁴³⁸

434. Nigeria’s Manual on the Laws of War provides that “medical units and establishments are not to be attacked by the belligerents and must at all times be respected and protected. . . . Medical units and establishments must be located, if possible, in such places that attacks on military targets would not endanger their safety”.⁴³⁹ The manual qualifies “the bombardment of hospitals and other privileged buildings” as a war crime.⁴⁴⁰

435. Romania’s Soldiers’ Manual requires respect for medical units.⁴⁴¹

436. Russia’s Military Manual states that “attack, bombardment or destruction of medical facilities” is a prohibited method of warfare.⁴⁴² It further lists among the responsibilities of commanders in peacetime “to ensure that medical units,

establishments and facilities are located in such a way that their security will not be jeopardised during attacks against military objectives".⁴⁴³

437. Senegal's Disciplinary Regulations provides that soldiers in combat must respect and protect hospitals and places where the wounded and sick, civilian or military, are collected, as well as medical units, buildings and material.⁴⁴⁴

438. Senegal's IHL Manual states that "medical establishments (hospitals) must be protected and armed persons may not enter them. Their content and actual use may be checked through an inspection ordered by the person responsible for the maintenance of order."⁴⁴⁵

439. South Africa's LOAC Manual defines medical units in accordance with Article 8 AP I and states that "medical units shall at all times be respected and protected".⁴⁴⁶

440. Spain's LOAC Manual defines medical units in accordance with Article 8 AP I.⁴⁴⁷ The manual provides that "medical units must be respected and protected in all circumstances".⁴⁴⁸

441. Sweden's IHL Manual considers that Article 12 AP I on the protection of medical units has the status of customary law.⁴⁴⁹

442. Switzerland's Basic Military Manual provides that "military and civilian hospitals marked with the red cross emblem" must be respected and protected.⁴⁵⁰ The manual further provides that medical establishments and units of the medical service "shall be respected and protected. They shall not be attacked, nor harmed in any way, nor their functioning be impeded, even if they do not momentarily hold any wounded or sick".⁴⁵¹ The manual also states that "to the maximum extent possible, medical establishments shall be located at a safe distance from military objectives".⁴⁵² The manual qualifies the "intentional destruction of hospitals" as a war crime.⁴⁵³

443. Togo's Military Manual lists the military and civilian medical services as specially protected objects.⁴⁵⁴ It states that "specially protected establishments shall remain untouched and no [armed] person may enter them. Their content and actual use may be checked through an inspection."⁴⁵⁵

444. The UK Military Manual restates Article 27 of the 1907 HR.⁴⁵⁶ The manual notes, however, that:

⁴⁴³ Russia, *Military Manual* (1990), § 14.

⁴⁵⁴ Togo, *Military Manual* (1996), Fascicule I, p. 14.

⁴⁵⁵ Togo, *Military Manual* (1996), Fascicule II, p. 8.

⁴⁵⁶ UK, *Military Manual* (1958), §§ 290 and 300.

Accusations have frequently been made that the rule concerning immunity of hospitals has been deliberately disregarded during a siege. The complaints were often due to the fact that buildings used for medical purposes were scattered over the town and that they were thus liable to be struck by chance of erratic shots. It is therefore desirable that the sick and wounded should, if possible, be concentrated in one quarter, remote from the defences and the defending troops, or by arrangement with the besieger, in neutralised grounds.⁴⁵⁷

The manual further states that “it is forbidden to attack civilian hospitals”.⁴⁵⁸ It also states that “fixed medical establishments (hospitals) and mobile units of the medical service may in no circumstances be attacked. They must at all times be respected and protected.”⁴⁵⁹ The manual states that “in addition to the ‘grave breaches’ of the 1949 [Geneva] Conventions . . . the following are examples of punishable violations of the laws of war, or war crimes: . . . (o) bombardment of hospitals and other privileged buildings”.⁴⁶⁰

445. The UK LOAC Manual provides that “protection from attack is given to fixed and mobile medical units . . . Medical units can be military or civilian and include medical depots and pharmaceutical stores as well as hospitals and treatment centres.”⁴⁶¹

446. The US Field Manual restates Article 19 GC I.⁴⁶²

447. The US Air Force Pamphlet refers to the protection of medical units as set out in GC I.⁴⁶³ The manual further provides that “in addition to grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: (1) deliberate attack on . . . medical establishments [and] units”.⁴⁶⁴

448. The US Air Force Commander’s Handbook provides that hospitals and aid stations “should not be deliberately attacked, fired upon, or unnecessarily prevented from performing their medical duties”.⁴⁶⁵

449. The US Instructor’s Guide states that “in addition to the grave breaches of the Geneva Conventions, the following acts are further examples of war crimes: . . . firing on facilities which are undefended and without military significance such as . . . hospitals”.⁴⁶⁶

450. The US Rules of Engagement for Operation Desert Storm state that “hospitals will be given special protection”.⁴⁶⁷

451. The US Naval Handbook states that:

Medical establishments and units (both mobile and fixed), . . . and medical equipment and stores may not be deliberately bombarded. Belligerents are required to

ensure that such medical facilities are, as far as possible, situated in such manner that attacks against military targets in the vicinity do not imperil their safety.⁴⁶⁸

The manual qualifies “deliberate attack upon medical facilities” as a war crime.⁴⁶⁹

452. The YPA Military Manual of the SFRY (FRY) restates Article 19 GC I and extends the protection of military medical units to civilian medical establishments.⁴⁷⁰

National Legislation

453. Argentina’s Code of Military Justice as amended punishes “whoever attacks, without any necessity, hospitals . . . which are marked by the appropriate distinctive signs”.⁴⁷¹

454. Argentina’s Draft Code of Military Justice punishes any soldier who “wilfully violates the protection due to medical units . . . which are properly marked”.⁴⁷²

455. Australia’s War Crimes Act considers “any war crime within the meaning of the instrument of appointment of the Board of Inquiry [set up to investigate war crimes committed by enemy subjects]” as a war crime, including the deliberate bombardment of hospitals.⁴⁷³

456. Australia’s ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including “attacking protected objects . . . [which] are not military objectives, [including] . . . hospitals or places where the sick and wounded are collected” in both international and non-international armed conflicts.⁴⁷⁴

457. Azerbaijan’s Criminal Code provides that “directing attacks . . . against hospitals, which are easily seen and distinguishable, and against places where the sick and wounded are collected, without any military necessity” constitutes a war crime in international and non-international armed conflicts.⁴⁷⁵

458. Bangladesh’s International Crimes (Tribunal) Act states that the “violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949” is a crime.⁴⁷⁶

459. Under the Criminal Code of the Federation of Bosnia and Herzegovina, it is a war crime to order that “an attack be launched against objects specifically

protected by international law” or to carry out such an attack.⁴⁷⁷ The Criminal Code of the Republika Srpska contains the same provision.⁴⁷⁸

460. Under Burundi’s Draft Law on Genocide, Crimes against Humanity and War Crimes, “intentionally directing attacks against . . . hospitals and places where the sick and wounded are collected, provided they are not military objectives” is a war crime in both international and non-international armed conflicts.⁴⁷⁹

461. Canada’s Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are “crimes according to customary international law” and, as such, indictable offences under the Act.⁴⁸⁰

462. Chile’s Code of Military Justice provides for a prison sentence for “anyone who, contrary to instructions received, unnecessarily and maliciously attacks hospitals or poorhouses which are marked with signs employed for that purpose”.⁴⁸¹

463. China’s Law Governing the Trial of War Criminals provides that “deliberate bombing of hospitals” constitutes a war crime.⁴⁸²

464. Colombia’s Military Penal Code provides a prison sentence for “anyone who during military service and without proper cause . . . attacks hospitals or poorhouses which are properly marked”.⁴⁸³

465. Congo’s Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes set out in Article 8 of the 1998 ICC Statute.⁴⁸⁴

466. Under Croatia’s Criminal Code, “the launching of an attack against objects under special protection of international law” is a war crime.⁴⁸⁵

467. Under Cuba’s Penal Code, failure to respect the protected status under international law of establishments and other facilities organised for the wounded and the sick is an offence.⁴⁸⁶

468. The Code of Military Justice of the Dominican Republic provides for the punishment of any soldier who, “without necessity, attacks hospitals . . . which are recognizable by the signs established for such cases”.⁴⁸⁷

469. El Salvador’s Code of Military Justice provides for the protection of medical establishments and units.⁴⁸⁸

⁴⁸⁸ El Salvador, *Code of Military Justice* (1934), Article 69.

470. The Draft Amendments to the Penal Code of El Salvador punishes “anyone who, in the context of an international or non-international armed conflict, attacks or destroys...field hospitals or hospitals, without having taken adequate measures of protection and without imperative military necessity”.⁴⁸⁹

471. Under Estonia’s Penal Code, “an attack against...a medical institution or unit” is a war crime.⁴⁹⁰

472. Ethiopia’s Penal Code punishes anyone for “crimes against the wounded, sick or shipwrecked” who organises, orders or engages in “the destruction, rendering unserviceable or appropriation of supplies, installations or stores belonging to the medical or first-aid services, in a manner which is unlawful, arbitrary or disproportionate to the requirements of strict military necessity”.⁴⁹¹

473. Georgia’s Criminal Code provides for the punishment of “wilful breaches of norms of international humanitarian law committed in an international or internal armed conflict...against...medical units”.⁴⁹²

474. Germany’s Law Introducing the International Crimes Code punishes anyone who, in connection with an international or non-international armed conflict, “carries out an attack against...medical units and transport designated with the distinctive emblems of the Geneva Conventions...in conformity with international humanitarian law”.⁴⁹³

475. Guatemala’s Penal Code criminalises violations of the duties under international law in respect of hospitals or other places sheltering the wounded and sick.⁴⁹⁴

476. Under Iraq’s Military Penal Code, attacks on medical units are an offence.⁴⁹⁵

477. Ireland’s Geneva Conventions Act as amended provides that any “minor breach” of the Geneva Conventions, including violations of Articles 19 GC I and 18 GC IV, and of AP I, including violations of Article 12 AP I, as well as any “contravention” of AP II, including violations of Article 11(1) AP II, are punishable offences.⁴⁹⁶

478. Italy’s Law of War Decree as amended states that the establishments and material of the military medical service must be “respected and protected”.⁴⁹⁷

479. Lithuania’s Criminal Code as amended prohibits attacks against military or civilian hospitals and health centres.⁴⁹⁸

490. Under Portugal's Penal Code, "whoever, in violation of international humanitarian law, in a situation of war, armed conflict or occupation, destroys or damages establishments used for humanitarian purposes, without any justification based on military necessity" shall be punished.⁵⁰⁹

491. Romania's Penal Code provides for the punishment of:

the total or partial destruction of objects marked with the regular distinctive emblem, such as:

- a) buildings [and/or] any construction . . . that serves as hospitals,
- ...
- c) medical equipment warehouses.⁵¹⁰

492. Under Slovenia's Penal Code, "an attack on buildings specially protected under international law" is a war crime.⁵¹¹

493. Spain's Military Criminal Code provides for the punishment of any soldier who "knowingly violates the protection due to medical establishments, mobile medical units, . . . and medical material . . . which are recognizable by the established signs or the character of which can unequivocally be distinguished from a distance", provided that the protection due is not misused for hostile purposes.⁵¹²

494. Sweden's Penal Code as amended provides that:

A person guilty of a serious violation of a treaty or agreement with a foreign power or an infraction of a generally recognised principle or tenet relating to international humanitarian law concerning armed conflicts shall be sentenced for a crime against international law to imprisonment for at most four years. Serious violations shall be understood to include:

- ...
- (5) initiating an attack against establishments or installations which enjoy special protection under international law.⁵¹³

495. Tajikistan's Criminal Code, in the section on "Serious violations of international humanitarian law", provides for the punishment of "wilful breaches of norms of international humanitarian law committed in an international or non-international armed conflict, against . . . medical units".⁵¹⁴

496. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(ix) and (e)(iv) of the 1998 ICC Statute.⁵¹⁵

497. Ukraine's Criminal Code provides for the protection of medical establishments and units.⁵¹⁶

498. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(ix) and (e)(iv) of the 1998 ICC Statute.⁵¹⁷

499. Under the US War Crimes Act as amended, violations of Article 27 of the 1907 HR are war crimes.⁵¹⁸

500. Uruguay's Military Penal Code as amended punishes military personnel, *equiparados* and even persons unconnected with the armed forces "for unjustified attacks on hospitals and asylums".⁵¹⁹

501. Venezuela's Code of Military Justice as amended provides for the punishment of "burning, destroying or attacking hospitals on land and on sea".⁵²⁰

502. Under the Penal Code as amended of the SFRY (FRY), "the launching of an attack on facilities that are specifically protected under international law" is a war crime.⁵²¹

National Case-law

503. No practice was found.

Other National Practice

504. According to the Report on the Practice of Angola, few violations of the rules found in AP I and AP II affording protection to the wounded and the sick were recorded in the conflict in Angola between 1975 and 1992. However, after the 1992 election and the resumption of hostilities, attacks on medical installations were more frequent. On the basis of eye-witness accounts, the report provides the following examples: the UNITA hospital in Luanda was attacked by government forces and the hospitals of Capanda and Lualaba were attacked by UNITA in 1992.⁵²²

505. In 1993, during a debate in the UN Security Council on the situation in the former Yugoslavia, Argentina stated that "the deliberate attacks on . . . hospitals" could not go on with impunity.⁵²³

506. In 1994, during a debate in the UN Security Council on the situation in the former Yugoslavia, Canada stated that:

The crimes committed in Goražde and elsewhere in Bosnia must not go unpunished. Those responsible for deliberate attacks on . . . hospitals . . . in violation of all the norms of international law, must be made to answer for their actions before the International Tribunal created for the purpose.⁵²⁴

⁵²⁴ Canada, Statement before the UN Security Council, UN Doc. S/PV.3370, 27 April 1994, p. 29.

507. At the International Conference of the Red Cross in 1952, China denounced the bombardment of hospitals during the Korean War.⁵²⁵

508. In 1972, in a statement before the General Conference of UNESCO concerning US attacks in Vietnam, China criticised the US because it allegedly had “wantonly bombarded Vietnamese cities and villages, seriously destroyed many schools and cultural and sanitary facilities, killed a large number of teachers, students, patients and medical personnel”.⁵²⁶

509. According to the Report on the Practice of China, “China is of the opinion that . . . medical objects shall be respected and protected from attacks”.⁵²⁷

510. In a note submitted to the ICRC in 1967, Egypt accused Israel of “bombardment of hospitals and ambulances in spite of the distinct markings on them” in violation of Article 19 GC I and Articles 18 and 21 GC IV and condemned it as a “flagrant violation of the elementary principle of humanity, and a serious breach of the laws of war and the Geneva Conventions of 1949”.⁵²⁸

511. In its written statement submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt declared that “according to the First and Second Geneva Conventions of 1949, it is prohibited to attack military establishments and mobile medical units of the Medical Service . . . in any circumstances”.⁵²⁹ In a further statement, it stated that it was prohibited to attack civilian hospitals.⁵³⁰

512. In 1994, during a debate in the UN Security Council on the situation in the former Yugoslavia, Finland stated that:

Even though there might have been provocations by the Bosnian Government forces, the merciless onslaught by the Serb forces against the safe area [of Goražde] – with the deliberate targeting of hospitals . . . – cannot be justified. On the contrary, it must be strongly condemned. The Serbs must realize that what they are doing is a blatant violation of basic humanitarian law, and those responsible for these atrocities will be held personally accountable.⁵³¹

513. In 1994, during a debate in the UN Security Council concerning the situation in Rwanda, France stated that the international community was faced with a “humanitarian catastrophe” to which it “could not fail to react”, and referred in particular to the fact that hospitals had not been spared by attacks.⁵³²

⁵²⁵ China, Statement of 30 July 1952 at the 18th International Conference of the Red Cross, Toronto, 26 July–7 August 1952, reprinted in *Documents on Foreign Affairs of the People's Republic of China*, World Knowledge Press, Beijing, Vol. 2, pp. 82–83.

⁵³² France, Statement before the UN Security Council, UN Doc. S/PV.3377, 16 May 1994, p. 11.

514. Under the instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, medical units shall be protected.⁵³³

515. In 1992, during a debate in the UN Security Council on the situation in the former Yugoslavia, Hungary stated that “it goes without saying that the international community cannot disregard the responsibility of those who violate international humanitarian law, who order attacks on . . . hospitals . . . to mention only a few examples of criminal atrocities”.⁵³⁴

516. According to the Report on the Practice of Iran, the Iranian authorities condemned attacks by Iraqi troops on civilian objects such as hospitals during the Iran–Iraq War.⁵³⁵ The report notes in particular that, during the “war of the cities”, hospitals were targeted on many occasions, and that Iran condemned such attacks, regarding them as being contrary to international conventions.⁵³⁶

517. In 1987, in a letter to the UN Secretary-General, Iraq complained of the bombardment by Iran of the hospital of the town of Dohuk which it deemed “in complete contradiction to the fundamental principles of humanitarian international law”. Iraq stated that “the international community long ago decided that hospitals and other medical centres were objectives against which any military activity whatsoever was prohibited”.⁵³⁷

518. According to the Report on the Practice of Israel, the IDF does not have a policy of targeting the medical facilities of its adversaries. The report adds that the implementation of this policy is subject to such facilities being clearly recognisable and not used for hostile activities.⁵³⁸

519. During the conflict in Jordan in 1970, Jordanian armed forces reportedly attacked hospitals harbouring rebels. The allegation was denied. According to the Report on the Practice of Jordan, Jordan’s position was that the conflict was governed by national law rather than by international law.⁵³⁹ It further states that according to Jordanian practice, medical units are generally not placed near military objectives.⁵⁴⁰

520. According to the Report on the Practice of Nigeria, Nigerian practice recognises the protection of medical objects from attack. The report states that

⁵⁴⁰ Report on the Practice of Jordan, 1997, Chapter 2.7.

"Nigerian *opinio juris* . . . that the protection from attack of medical objects is a part of customary international law".⁵⁴¹

521. In 1980, during a debate in the UN Security Council concerning an attack on UNIFIL headquarters in southern Lebanon, Norway strongly condemned "the deliberate shelling on the United Nations field hospital, which under international law enjoys special protection. The fact that that hospital serves the civilian population as well makes the matter even more serious."⁵⁴²

522. In response to the Report of the International Commission of Inquiry on Human Rights Violations in Rwanda, the Rwandan government demanded that the forces opposing the RPF put an end to attacks on civilian objects, including hospitals.⁵⁴³

523. In 1980, during a debate in the UN Security Council concerning an attack on UNIFIL headquarters in southern Lebanon, Saudi Arabia stated that it considered the shelling of the UNIFIL hospital "most abhorrent".⁵⁴⁴

524. At the CDDH, the UK welcomed "the humanitarian advances made in such fields as . . . the extension of protection to a wider group of medical units".⁵⁴⁵

525. In 1980, during a debate in the UN Security Council concerning an attack on UNIFIL headquarters in southern Lebanon, the US stated that "on 12 April UNIFIL headquarters and the hospital at Naqoura were heavily shelled by militia artillery . . . These attacks must be brought to an end, once and for all."⁵⁴⁶

526. In 1987, in submitting AP II to the US Senate for advice and consent to ratification, the US President expressed the view that the obligations in AP II were "no more than a restatement of the rules of conduct with which US military forces would almost certainly comply as a matter of national policy, constitutional and legal protections, and common decency".⁵⁴⁷

527. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that "we also support the principle that medical units, including properly authorized civilian medical units, be respected and protected at all times and not be the object of attacks".⁵⁴⁸

⁵⁴⁷ US, Message from the US President transmitting AP II to the US Senate for advice and consent to ratification, Treaty Doc. 100-2, 29 January 1987, Comment on Article 10.

⁵⁴⁸ US, Remarks of Michael J. Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols

528. In 1992, in its final report to Congress on the conduct of the Gulf War, the US Department of Defense stated that:

Contrary to the admonishment against such conduct contained in [GC I and GC IV] and certain principles of customary law codified in AP I, the Government of Iraq placed military assets (personnel, weapons, and equipment) . . . next to protected objects (mosques, medical facilities, . . .) in an effort to protect them from attack. For this purpose, military supplies were stored in mosques . . . and hospitals in Iraq and Kuwait.⁵⁴⁹

529. In 1991, in a diplomatic note to Iraq concerning operations in the Gulf War, the US stated that medical facilities and hospital ships must be respected and protected at all times.⁵⁵⁰

530. In 1993, during a debate in the UN Security Council on the situation in the former Yugoslavia, Venezuela stated that those who had committed war crimes and crimes against humanity, including “attacks upon hospitals”, had to be brought to justice.⁵⁵¹

531. The Report on the Practice of Zimbabwe regards the rule on the protection of medical objects as being part of customary international law.⁵⁵²

532. In 1994, during a non-international armed conflict, the government of a State issued orders to its troops to remove military equipment from the immediate vicinity of hospitals.⁵⁵³ In a letter to the ICRC in 1994, the Chief of Staff of the State’s armed forces recalled his commitment not to place military objectives near hospitals or medical facilities and agreed not to place military weapons within a 500-metre perimeter around the ICRC hospital. He specified, however, that if the hospital was attacked by the armed opposition group, he would be obliged to deploy armed forces in the area and that, therefore, the obligation applied only as long as circumstances permitted.⁵⁵⁴

III. Practice of International Organisations and Conferences

United Nations

533. In a resolution adopted in 1980, the UN Security Council condemned “the deliberate shelling of the headquarters of [UNIFIL] and more particularly the field hospital, which enjoys special protection under international law”.⁵⁵⁵

Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 423.

⁵⁴⁹ US, Department of Defense, Final Report to Congress on the Conduct of the Persian Gulf War, 10 April 1992, Appendix O, The Role of the Law of War, *ILM*, Vol. 31, 1992, p. 624.

⁵⁵⁰ US, Department of State, Diplomatic note to Iraq, Washington, 19 January 1991, annexed to Letter dated 21 January 1991 to the President of the UN Security Council, UN Doc. S/22122, 21 January 1991, Annex I, p. 2.

⁵⁵² Report on the Practice of Zimbabwe, 1998, Chapter 2.7. ⁵⁵³ ICRC archive document.

⁵⁵⁴ ICRC archive document. ⁵⁵⁵ UN Security Council, Res. 467, 21 April 1980, § 3.

534. In a resolution adopted in 1992, the UN Security Council expressed “grave alarm at continuing reports of widespread violations of international humanitarian law occurring within the territory of the former Yugoslavia and especially in Bosnia and Herzegovina including . . . deliberate attacks on . . . hospitals”. The Council strongly condemned such violations and demanded that “all parties and others concerned in the former Yugoslavia, and all military forces in Bosnia and Herzegovina, immediately cease and desist from all breaches of international humanitarian law”.⁵⁵⁶

535. In a resolution adopted in 1992 on the situation in Somalia, the UN Security Council expressed its “grave alarm at the continuing reports of widespread violations of international humanitarian law, including deliberate attacks on medical and relief facilities” and condemned all these violations.⁵⁵⁷

536. In a resolution adopted in 1999, the UN Security Council strongly condemned “attacks on objects protected under international law” and called on all parties “to put an end to such practices”.⁵⁵⁸

537. In a resolution adopted in 1984 on the situation of human rights in El Salvador, the UN General Assembly urged the government and the insurgent forces “to agree as early as possible to respect . . . all military hospitals, as required by the Geneva Conventions”.⁵⁵⁹

538. In a resolution adopted in 1985 on the situation of human rights in El Salvador, the UN General Assembly expressed its deep concern “at the fact that serious and numerous violations of human rights continue to take place in El Salvador owing above all to non-fulfilment of the humanitarian rules of war”. It therefore recommended that the Special Representative for El Salvador “continue to observe and to inform the General Assembly and the Commission on Human Rights of the extent to which the contending parties are respecting those rules, particularly as regards humanitarian treatment and respect for . . . military hospitals of either party”.⁵⁶⁰ This recommendation was reiterated in a subsequent resolution in 1986.⁵⁶¹

539. In a resolution adopted in 1983, the UN Commission on Human Rights deplored an attack by occupying troops in Kampuchea against border encampments, including a hospital, as a violation of fundamental principles of humanitarianism and of the UN Charter.⁵⁶²

540. In a resolution adopted in 1987 on the situation on human rights in El Salvador, the UN Commission on Human Rights requested that the Special Representative for El Salvador “continue to observe and inform the General Assembly and the Commission of the extent to which the contending parties

⁵⁵⁶ UN Security Council, Res. 771, 13 August 1992, preamble and §§ 2 and 3.

⁵⁵⁷ UN Security Council, Res. 794, 3 December 1992, preamble and § 5.

⁵⁵⁸ UN Security Council, Res. 1265, 17 September 1999, § 2.

⁵⁵⁹ UN General Assembly, Res. 39/119, 14 December 1984, § 9.

⁵⁶⁰ UN General Assembly, Res. 40/139, 13 December 1985, § 3.

⁵⁶¹ UN General Assembly, Res. 41/157, 4 December 1986, § 4.

⁵⁶² UN Commission on Human Rights, Res. 1983/5, 15 February 1983, § 2.

are respecting the humanitarian rules of war, particularly as regards respect for . . . military hospitals of either side".⁵⁶³

541. In a resolution adopted in 1985 on the situation in El Salvador, the UN Sub-Commission on Human Rights recommended that the Special Representative for El Salvador "inform the Commission on whether both parties accept their obligation to respect the Geneva Conventions and to what extent they are truly observing them, specially in those aspects which refer to the protection of . . . military hospitals".⁵⁶⁴

542. In a resolution adopted in 1992, the UN Commission on Human Rights stated that it was "appalled at the continuing reports of widespread, massive and grave violations of human rights within the territory of the former Yugoslavia and especially in Bosnia and Herzegovina", including reports of deliberate attacks on hospitals.⁵⁶⁵

543. In a resolution adopted in 1989, the UN Sub-Commission on Human Rights expressed regret that "the Government of El Salvador . . . has attacked military hospitals".⁵⁶⁶

544. In 1992, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights concluded that hospitals had been deliberately attacked, even though the red cross emblem was clearly visible or the building was itself clearly visible from the positions held by the Bosnian Serbs.⁵⁶⁷ In another report in 1993, he stated that such attacks constituted a fundamental violation of the laws of war.⁵⁶⁸ In a further report in 1994, the Special Rapporteur noted that attacks on Goražde included numerous and clear violations of human rights and IHL, including the deliberate targeting of highly vulnerable targets such as hospitals.⁵⁶⁹

545. In its report in 1993, the UN Commission on the Truth for El Salvador regarded an attack on an FMLN mobile hospital by a unit of the Salvadoran Air Force as a violation of IHL.⁵⁷⁰

546. In 1994, in its final report on grave breaches of the Geneva Conventions and other violations of IHL committed in the former Yugoslavia, the UN Commission of Experts Established pursuant to Security Council Resolution

⁵⁶³ UN Commission on Human Rights, Res. 1987/51, 11 March 1987, § 5.

⁵⁶⁴ UN Sub-Commission on Human Rights, Res. 1985/18, 29 August 1985, § 4.

⁵⁶⁵ UN Commission on Human Rights, Res. 1992/S-1/1, 14 August 1992, preamble.

⁵⁶⁹ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Seventh periodic report, UN Doc. E/CN.4/1995/4, 10 June 1994, §§ 8–11.

⁵⁷⁰ UN Commission on the Truth for El Salvador, Report, UN Doc. S/25500, 1 April 1993, Annex, pp. 87–89.

780 (1992) stated that one of the most frequently targeted sites was the Kosovo hospital in Sarajevo. The Commission regarded the attacks against and destruction of protected targets, such as hospitals, as evidence of a consistent and repeated pattern of grave breaches of the Geneva Conventions and other violations of IHL.⁵⁷¹ The Commission noted that attacks against hospitals and locations marked with the red cross or red crescent emblem were used as a coercive means to remove the population from strategic areas and were linked to practices of ethnic cleansing.⁵⁷²

547. In 1994, the Special Committee to investigate Israeli practices affecting the human rights of the Palestinian people and other Arabs in the occupied territories, referring to eye-witnesses, reported the incursion by the Israeli army into a Red Crescent hospital. According to the information, rocket launchers were put on the roof of the building and windows were used to fire from. The Special Committee also reported raids on hospitals.⁵⁷³

Other International Organisations

548. In 1985, a report on a draft resolution of the Parliamentary Assembly of the Council of Europe on the situation in Afghanistan stated that it had been noted in a report of the Special Rapporteur of the UN Commission on Human Rights that Soviet forces systematically bombed civilian hospitals. The report regarded these incidents as "violations of human rights".⁵⁷⁴

549. In 1996, in its opinion on Russia's application for membership, the Committee on Legal Affairs and Human Rights of the Parliamentary Assembly of the Council of Europe stated that "the recent attack on the Kislyar Hospital in Dagestan, even though it ended relatively peacefully, was an act of terrorism on the Chechen side, which has to be condemned most strongly".⁵⁷⁵

550. In a statement issued in 1990 concerning Liberia, the 12 EC member States called on the parties, "in conformity with international law and the most basic humanitarian principles, to safeguard from violence... places of refuge such as... hospitals, where defenceless civilians sought shelter".⁵⁷⁶

⁵⁷¹ UN Commission of Experts Established pursuant to Security Council Resolution Res. 780 (1992), Final report, UN Doc. S/1994/674, 27 May 1994, §§ 189–194.

International Conferences

551. The Final Declaration adopted by the International Conference for the Protection of War Victims in 1993 urged all States to “make every effort” to protect medical objects and installations.⁵⁷⁷

IV. Practice of International Judicial and Quasi-judicial Bodies

552. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

553. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

65. “Medical establishment” means any establishment assigned exclusively to medical purposes. The term comprises in particular “hospitals, similar units of any size, blood transfusion centres, preventive medicine centres and institutes, medical transportation locations, medical depots and the medical and pharmaceutical stores of such establishments.

...
78. The law of war grants the same status to civilian and military medical services...the provisions governing military medical...establishments...apply equally to the corresponding categories of the civilian medical service.⁵⁷⁸

Delegates also teach that:

Specifically protected... establishments... recognized as such must be respected.

...
Specifically protected establishments shall remain untouched and shall not be entered. Their contents and effective use may be verified by inspection.⁵⁷⁹

554. In 1978, in a letter to a National Society, the ICRC indicated that civilian and military medical units, including civilian and military hospitals, first-aid posts and infirmaries, and collecting-points for the wounded are among those objects which “must be respected and protected in all circumstances”.⁵⁸⁰

555. In a press release in 1978, the ICRC urgently appealed to the belligerents in Lebanon “to take measures immediately to ensure that hospitals and medical personnel may continue their work unimpeded and in safety”.⁵⁸¹

⁵⁷⁷ International Conference for the Protection of War Victims, Geneva, 30 August–1 September 1993, Final Declaration, § II (9), *ILM*, Vol. 33, 1994, p. 301.

⁵⁸⁰ ICRC archive document.

⁵⁸¹ ICRC, Press Release No. 1341, Lebanon: ICRC appeals for truce, 2 October 1978.

556. In a press release issued in 1991 in the context of the Gulf War, the ICRC reminded the parties to the conflict to respect and protect medical establishments at all times.⁵⁸²

557. In a joint statement adopted in 1991, the Yugoslav Red Cross and the Hungarian Red Cross expressed their deep concern about “the protracting internal conflict in Yugoslavia” and urged the parties to the conflict “to refrain from armed actions against . . . sanitary establishments”.⁵⁸³

558. On several occasions in 1991, the Croatian Red Cross denounced attacks on medical objects by the Yugoslav army.⁵⁸⁴

559. In a press release in 1992, the ICRC reminded the parties to the conflict in Nagorno-Karabakh of their obligation to respect and protect medical establishments.⁵⁸⁵

560. In a press release in 1992, the ICRC enjoined the parties to the conflict in Afghanistan “to respect medical personnel and establishments”.⁵⁸⁶

561. In a press release in 1992, the ICRC appealed to all parties to the conflict in Bosnia and Herzegovina to instruct all combatants in the field to respect medical establishments.⁵⁸⁷

562. In a press release in 1992, the ICRC urged the parties to the conflict in Tajikistan “to make certain that medical . . . establishments are respected and protected”.⁵⁸⁸

563. In a press release in 1993 issued in the context of the conflict in Afghanistan, the ICRC stated that:

Four rockets were fired at the Karte Seh surgical hospital in Kabul of 16 April. The International Committee of the Red Cross (ICRC) strongly condemns this and any other attack on the civilian population or medical facilities. Last Friday's attack, which was launched during visiting hours, killed three people and injured 44. The injured, most of whom were relatives of patients, were treated on the spot. Following the attack, the ICRC immediately contacted the parties concerned and reminded them of their obligation under international humanitarian law to spare civilians and civilian property, in particular all medical facilities.⁵⁸⁹

⁵⁸² ICRC, Press Release No. 1658, Gulf War: ICRC reminds States of their obligations, 17 January 1991.

⁵⁸⁹ ICRC, Press Release No. 1745, ICRC protests attack on Kabul hospital, 19 April 1993.

564. In a communication to the press in 1993, the ICRC stated that it had appealed to all parties to the conflict in Georgia "to respect hospitals and medical personnel in all circumstances".⁵⁹⁰

565. In a declaration issued in 1994 in the context of the conflict between the Mexican government and the EZLN, the Mexican Red Cross stated that "protection must be extended to health personnel in general and, in particular, to Mexican Red Cross personnel as well as their equipment [and] installations".⁵⁹¹

566. In 1994, in a Memorandum on the Respect for International Humanitarian Law in Angola, the ICRC stated that "hospitals, ambulances and other medical units... shall be protected and respected... Hospitals and medical units... shall not be the object of attack."⁵⁹²

567. In a press release in 1994, the ICRC reminded the parties to the conflict in Afghanistan that medical establishments "are entitled to special protection and must be respected in all circumstances".⁵⁹³

568. In a press release issued in 1994 in the context of the conflict in Bosnia and Herzegovina, the ICRC stated that "special protection must be given to Bihac hospital, where more than a thousand casualties are being cared for at present. This means that... no attacks must be directed against the hospital itself or the hospital compound."⁵⁹⁴

569. In a press release in 1994, the ICRC enjoined the parties to the conflict in Chechnya "to ensure that medical... establishments... are respected and protected".⁵⁹⁵

570. In a press release in 1995, the ICRC expressed concern about an attack on a hospital in Burundi, which it regarded as a grave breach of IHL, and reminded the belligerents that all medical units must be respected.⁵⁹⁶

571. In a communication to the press in 1996, the ICRC called on the parties to the conflict in Afghanistan "to avoid damage to any structure sheltering wounded or displaced people".⁵⁹⁷

⁵⁹⁰ ICRC, Communication to the Press No. 93/32, Conflict in Georgia: ICRC action, 22 September 1993.

⁵⁹⁷ ICRC, Communication to the Press No. 96/29, Afghanistan: civilian population trapped in fighting, 26 September 1996.

572. In a press release in 2000, following allegations that the Palestine Red Crescent Society had been targeted in shooting incidents, the ICRC stated that “any attacks . . . on medical installations . . . indeed constitute a grave violation of IHL”.⁵⁹⁸

573. In a communication to the press issued in 2000 in connection with the hostilities in the Near East, the ICRC called “on all those involved in the violence to respect . . . hospitals and other medical establishments”.⁵⁹⁹

VI. Other Practice

574. In 1980, an armed opposition group agreed to be bound by the obligation to protect medical personnel and objects displaying the red cross emblem.⁶⁰⁰ In 1983, it told the ICRC that it had issued orders to its combatants not to direct attacks against religious and medical personnel and objects.⁶⁰¹

575. Witness for Peace, an NGO that attempted to document abuses by the *contras* during the conflict in Nicaragua, reported several attacks on health facilities between 1987 and 1988. In 1988, in a report on human rights in Nicaragua, Americas Watch denounced these incidents, “because health workers, including those assisting the forces in the conflict, are the object of special protection under international humanitarian law”.⁶⁰² In a previous report in 1986, Americas Watch had already denounced the destruction of a health centre and the theft of medicine by *contras*, commenting that it was unclear whether the building was destroyed intentionally or not, as it was next to other defended buildings that the rebels were trying to take. The report concluded, however, that “even if the destruction of the health center was involuntary, the theft of medicine and the mistreatment of the health workers constitute violations of medical neutrality”.⁶⁰³

576. In 1989, in a report on violations of the laws of war in Angola, Africa Watch stated that the targeting of medical objects was unlawful.⁶⁰⁴

577. Rule A5 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in 1990 by the Council of the IHL, provides that “the obligation to respect and protect . . . medical units . . . in the conduct of military operations is a general rule applicable in non-international armed conflicts”.⁶⁰⁵

⁵⁹⁸ ICRC, Press Release, Israel and Occupied Territories: Respect for medical personnel, ICRC Tel Aviv, 1 November 2000.

⁶⁰⁰ ICRC archive document. ⁶⁰¹ ICRC archive document.

⁶⁰² Americas Watch, *Human Rights in Nicaragua: August 1987–August 1988*, New York, August 1988, pp. 124–125.

⁶⁰³ Americas Watch, *Human Rights in Nicaragua: 1985–1986*, New York, March 1986, pp. 108–109.

⁶⁰⁴ Africa Watch, *Angola: Violations of the Laws of War by Both Sides*, New York, April 1989, pp. 147–148.

⁶⁰⁵ IHL, Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, Rule A5, *IRRC*, No. 278, 1990, p. 391.

578. In 1991, an armed opposition group denied allegations that a hospital had been shelled. It stated that it had been ordered not to shell the compound in which the field hospital was located at any time and reiterated its intention not only to spare the facility, but to facilitate its supply of food and medicine.⁶⁰⁶

579. In 1993, a faction of an armed opposition group insisted that it had issued orders to its troops not to fire in the vicinity of hospitals and not to enter hospitals with weapons.⁶⁰⁷

580. In 1993, the Minister of Health of a separatist entity complained of a flight breaking the sound barrier over a hospital marked with the red cross, which caused damage, and of the shelling of a hospital.⁶⁰⁸

581. In 1994, in a letter to the ICRC, an armed opposition group reminded the ICRC of the necessity of evacuating its medical facility. The letter pointed out that an officer of a UN peacekeeping mission operating in the country had acknowledged that it was not possible to ensure the security of a medical unit situated so close to a military camp. The officer had added that the belligerents' obligations amounted to refraining from deliberate attacks on the unit only. The ICRC should thus choose a site that was not as close to military installations.⁶⁰⁹

582. An officer of a UN peacekeeping force complained about the shelling of an ICRC hospital by an armed opposition group in 1994. He emphasised that there was no military advantage to be gained from shelling positions near the ICRC hospital, as there was nothing of significant military importance nearby, that any mistake on the part of the gunners was likely to have international repercussions, and that the patients that were killed were non-combatants.⁶¹⁰

583. In a communication to the press in 1994, MSF stated that the government of Afghanistan had insisted that the attack that damaged the ICRC hospital had in no way been directed at it and that no party to the conflict would deliberately target a facility displaying the red cross emblem. MSF denounced, however, the indiscriminate shelling of hospitals in Kabul. It considered the incidents to be grave violations of the law of war and the right of the victims to safe health care.⁶¹¹

Loss of protection from attack

I. Treaties and Other Instruments

Treaties

584. Article 27 of the 1899 HR provides that:

In sieges and bombardments all necessary steps should be taken to spare as far as possible . . . hospitals, and places where the sick and wounded are collected, provided they are not used at the same time for military purposes.

⁶⁰⁶ ICRC archive document. ⁶⁰⁷ ICRC archive document.

⁶⁰⁸ ICRC archive documents. ⁶⁰⁹ ICRC archive document. ⁶¹⁰ ICRC archive document.

⁶¹¹ MSF-Switzerland, Communication to the Press concerning attacks on hospitals facilities in Afghanistan, 6 January 1994.

585. Article 27 of the 1907 HR provides that:

In sieges and bombardments all necessary steps must be taken to spare, as far as possible, buildings dedicated to religion, art, science, or charitable purposes, historic monuments, hospitals, and places where the sick and wounded are collected, provided they are not being used at the time for military purposes.

586. Article 21 GC I provides that:

The protection to which fixed establishments and mobile medical units of the Medical Service are entitled shall not cease unless they are used to commit, outside their humanitarian duties, acts harmful to the enemy. Protection may, however, cease only after a due warning has been given, naming, in all appropriate cases, a reasonable time limit and after such warning has remained unheeded.

587. Article 22 GC I provides that:

The following conditions shall not be considered as depriving a medical unit or establishment of the protection guaranteed by Article 19:

1. That the personnel of the unit or establishment are armed, and that they use the arms in their own defence, or in that of the wounded and sick in their charge.
2. That in the absence of armed orderlies, the unit or establishment is protected by a picket or by sentries or by an escort.
3. That small arms and ammunition taken from the wounded and sick and not yet handed to the proper service, are found in the unit or establishment.
4. That personnel and material of the veterinary service are found in the unit or establishment, without forming an integral part thereof.
5. That the humanitarian activities of medical units and establishments or of their personnel extend to the care of civilian wounded or sick.

588. Article 19 GC IV provides that:

The protection to which civilian hospitals are entitled shall not cease unless they are used to commit, outside their humanitarian duties, acts harmful to the enemy. Protection may, however, cease only after due warning has been given, naming, in all appropriate cases, a reasonable time limit and after such warning has remained unheeded.

The fact that sick or wounded members of the armed forces are nursed in these hospitals, or the presence of small arms and ammunition taken from such combatants and not yet been handed to the proper service, shall not be considered to be acts harmful to the enemy.

589. Article 13 AP I provides that:

1. The protection to which civilian medical units are entitled shall not cease unless they are used to commit, outside their humanitarian function, acts harmful to the enemy. Protection may, however, cease only after a warning has been given setting, whenever appropriate, a reasonable time-limit, and after such warning has remained unheeded.

2. The following shall not be considered as acts harmful to the enemy:
 - a. that the personnel of the unit are equipped with light individual weapons for their own defence or for that of the wounded and sick in their charge;
 - b. that the unit is guarded by a picket or by sentries or by an escort;
 - c. that small arms and ammunition taken from the wounded and sick, and not yet handed to the proper service, are found in the units;
 - d. that members of the armed forces or other combatants are in the unit for medical reasons.

Article 13 AP I was adopted by consensus.⁶¹²

590. Article 11(2) AP II provides that:

The protection to which medical units and transports are entitled shall not cease unless they are used to commit hostile acts, outside their humanitarian function. Protection may, however, cease only after a warning has been given, setting, whenever appropriate, a reasonable time-limit, and after such warning has remained unheeded.

Article 11 AP II was adopted by consensus.⁶¹³

Other Instruments

591. Article 37 of the 1880 Oxford Manual states that “the neutrality of ambulances and hospitals ceases if they are guarded by a military force; this does not preclude the presence of police guard”.

592. Paragraph 2.2 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina provides that the protection of hospitals and other medical units, including medical transportation, shall not cease “unless they are used to commit military acts. However, the protection may only cease after due warning and a reasonable time limit to cease military activities.”

593. Section 9.3 of the 1999 UN Secretary-General’s Bulletin provides that the United Nations force shall at all times respect and protect medical establishments or mobile medical units, “unless they are used, outside their humanitarian functions, to attack or otherwise commit harmful acts against the United Nations force”.

II. National Practice

Military Manuals

594. Argentina’s Law of War Manual (1969) restates Articles 21–22 GC I and 19 GC IV.⁶¹⁴

595. Argentina’s Law of War Manual (1989) states that:

⁶¹² CDDH, *Official Records*, Vol. VI, CDDH/SR.37, 24 May 1977, p. 70.

⁶¹³ CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 113.

⁶¹⁴ Argentina, *Law of War Manual* (1969), §§ 3.007 and 4.004(2).

The protection of medical units ceases only when they are used to commit acts hostile to the enemy, for example, the accommodation of healthy soldiers and the installation of observation posts, etc. The protection ceases only after a warning, setting a reasonable time-limit, has remained unheeded.⁶¹⁵

596. Australia's Commanders' Guide provides that:

Military medical personnel, facilities and equipment are also entitled to general protection under the Geneva Conventions. However, they may lose this protection if they engage in acts harmful to the enemy. Before the protection of medical personnel and facilities is lost, a warning will normally be provided and reasonable time allowed to permit cessation of improper activities. In extreme cases, overriding military necessity may preclude such a warning.⁶¹⁶

597. Australia's Defence Force Manual states that:

Military medical personnel, facilities and equipment are also entitled to general protection. However, they may lose this protection if they engage in acts harmful to the enemy. Before the protection of medical personnel and facilities is lost, a warning will normally be provided and reasonable time allowed to permit cessation of improper activities. In extreme cases, overriding military necessity may preclude such a warning.⁶¹⁷

598. Belgium's Teaching Manual for Soldiers provides that:

The prohibition to attack hospitals remains applicable even if it is guarded by sentries or its personnel carry light individual weapons for their own defence or for the defence of the wounded in their charge, the establishment or material. In order to ensure that friendly medical units enjoy the same protection, their use in support of combat operations (medical personnel taking part in hostilities, ambulances transporting weapons or combatants, armed troops housed in a hospital, etc.) should be avoided.⁶¹⁸

599. Bosnia and Herzegovina's Military Instructions provides that:

Medical facilities and units lose their right to protection when they offer resistance in order not to fall under the enemy's authority. They are allowed to put up armed and other kinds of resistance to the adversary, which, in spite of the warnings, attacks them deliberately or directly.⁶¹⁹

600. Cameroon's Disciplinary Regulations provides that the protection of medical units and establishments, as well as places where the wounded and sick, civilian or military, are collected, is contingent on their not being used for military purposes.⁶²⁰

⁶¹⁵ Argentina, *Law of War Manual* (1989), § 2.12.

⁶¹⁶ Australia, *Commanders' Guide* (1994), § 615.

⁶¹⁷ Australia, *Defence Force Manual* (1994), § 964, see also § 972.

⁶¹⁸ Belgium, *Teaching Manual for Soldiers* (undated), pp. 18–19.

⁶¹⁹ Bosnia and Herzegovina, *Military Instructions* (1992), Item 15, § 2.

⁶²⁰ Cameroon, *Disciplinary Regulations* (1975), Article 31.

601. Canada's LOAC Manual provides that:

90. The protection to which medical units are entitled shall not cease unless they are used to commit, outside their humanitarian function, acts harmful to the enemy. Protection may only cease, however, after a warning has been given and after such warning has remained unheeded.
91. The following are not considered "acts harmful to the enemy" and do not deprive medical units of protection:
 - a. that the personnel of the medical unit are armed for their own defence or that of the wounded and sick in their charge;
 - b. that the medical unit is protected by a picket, sentries or escort;
 - c. that small arms and ammunition taken from the wounded and sick, and not yet handed to the proper service, are found in the medical unit;
 - d. that personnel and material of the military veterinary service are found in the medical unit, without forming an integral part thereof; and
 - e. that the humanitarian activities of medical units or of their personnel extend to the care of both civilian and military wounded and sick.⁶²¹

The manual further provides that "use of a privileged building for improper purposes" constitutes a war crime.⁶²² With respect to non-international armed conflicts in particular, the manual states that the protection of medical units and transports "shall only cease if they commit hostile acts outside their humanitarian function. In such circumstances, a warning must be given, and protection only ceases if such warning remains unheeded."⁶²³

602. Canada's Code of Conduct provides that:

The protection provided to medical establishments and units shall only cease if they are used for purposes outside their humanitarian duties which are harmful to your forces. Even then, the protection shall cease only after due warning, and after a reasonable time period thereafter if the warning goes unheeded.⁶²⁴

603. Ecuador's Naval Manual states that "if medical facilities are used for military purposes inconsistent with their humanitarian mission, and if appropriate warnings that continuation of such use will result in loss of protected status are unheeded, the facilities become subject to attack".⁶²⁵

604. France's LOAC Summary Note states that "the immunity of specifically protected objects may only be lifted under certain conditions and under the personal responsibility of the commander. Military necessity justifies only those measures which are indispensable for the accomplishment of the mission."⁶²⁶

605. Germany's Military Manual provides that:

613. [Fixed medical establishments, vehicles and mobile medical units of the medical service] shall not be used to commit acts harmful to the enemy.

...

⁶²¹ Canada, *LOAC Manual* (1999), p. 4-9, §§ 90-91, see also p. 9-4, § 35.

⁶²² Canada, *LOAC Manual* (1999), p. 16-4, § 21(c).

⁶²³ Canada, *LOAC Manual* (1999), p. 17-4, § 34.

⁶²⁴ Canada, *Code of Conduct* (2001), Rule 10, § 4, see also § 6.

⁶²⁵ Ecuador, *Naval Manual* (1989), § 8.5.1.4.

⁶²⁶ France, *LOAC Summary Note* (1992), § 2.4.

618. Medical establishments which contrary to their intended purpose are used to carry out acts harmful to the enemy may lose their protection after prior warning has been given.

619. To this effect, the following acts shall not be considered as hostile acts:

- that medical personnel use arms for their own protection, and that of the wounded and sick;
- that medical personnel and medical establishments are protected by sentries or an escort;
- that medical personnel are employed as sentries for the protection of their own medical establishments; and
- that war material taken from the wounded and sick is retained.⁶²⁷

606. Germany's IHL Manual states that fixed medical establishments, vehicles and mobile medical units of the medical service "shall not be used to commit, outside their humanitarian function, acts harmful to the enemy".⁶²⁸

607. Kenya's LOAC Manual states that medical units and medical transports may not be attacked but specifies that "they must not take part in hostilities. If they do, their protection might be forfeited."⁶²⁹

608. The Military Manual of the Netherlands restates the rules on loss of protection of medical units found in Article 13 AP I.⁶³⁰ With respect to non-international armed conflicts in particular, the manual states that the protection of medical units and transports "ceases when they are used, outside their humanitarian function, to commit hostile acts. But even then a warning must be given."⁶³¹

609. The Military Handbook of the Netherlands provides that "medical units may not be used to commit acts, outside their humanitarian function, which can be detrimental for the enemy (for example housing healthy soldiers or regular units)".⁶³²

610. New Zealand's Military Manual provides that the immunity granted to medical units and transports "ceases once they are used for purposes hostile to the adverse Party and outside their humanitarian purpose".⁶³³ The manual further states that:

Civilian hospitals continue to enjoy protection so long as they are not made use of to commit acts harmful to the enemy. In the event of such misuse, however, the hospitals remain protected until due warning, with a reasonable time limit, has been given and remained unheeded.⁶³⁴

⁶²⁷ Germany, *Military Manual* (1992), §§ 613 and 618–619.

⁶²⁸ Germany, *IHL Manual* (1996), § 503.

⁶²⁹ Kenya, *LOAC Manual* (1997), Précis No. 3, p. 9.

⁶³⁰ Netherlands, *Military Manual* (1993), p. VI-5.

⁶³¹ Netherlands, *Military Manual* (1993), p. XI-6.

⁶³² Netherlands, *Military Handbook* (1995), p. 7-40.

⁶³³ New Zealand, *Military Manual* (1992), § 1007(1).

⁶³⁴ New Zealand, *Military Manual* (1992), § 1109(2).

The manual further states that “use of a privileged building for improper purposes” is a war crime recognised by the customary law of armed conflict.⁶³⁵ With respect to non-international armed conflict in particular, the manual states that the protection of medical units and transports “shall cease only if they commit hostile acts outside their humanitarian function. In such circumstances, a warning must be given with, whenever appropriate, a time limit, and protection only ceases if the time limit is unheeded.”⁶³⁶

611. Nigeria’s Manual on the Laws of War provides that:

Medical establishments are not entitled to protection when not used for humanitarian purposes; however, protection may be withdrawn only after the warning. Protection is not forfeited merely because medical personnel are armed for self-defence or when there are sentries who guard the medical establishments or when the activities of the unit include treatment of civilian wounded and sick.⁶³⁷

The manual qualifies “improper use of a privileged building for military purposes” as a war crime.⁶³⁸

612. South Africa’s LOAC Manual provides that:

55. The obligation to respect the means of medical transport does not cease unless they are used to commit acts injurious to the enemy (e.g. transporting able-bodied soldiers or weapons).

...

59. A medical unit must not be defended against the enemy in the event of penetration by the enemy into the territory where it is located. Such defence would constitute a hostile act, causing the unit to forfeit its right to protection. Weapons emplacements alongside or near medical units may also cause a loss of the right to protection. Other examples are locating an observation post in the unit and storing ammunition in the unit. Emphasis is placed on medical personnel being neutral. Medical personnel should ensure that nothing and no one within the unit may be considered as harmful to the enemy and thus endanger the protection of the unit.⁶³⁹

613. Spain’s LOAC Manual states that “the protection of medical units ceases only when they are used to commit acts hostile to the enemy and after a warning setting a reasonable time-limit to stop the hostile activity has remained unheeded”. It refers to the acts enumerated in Article 22 GC I as those not considered hostile to the enemy.⁶⁴⁰

614. Switzerland’s Basic Military Manual provides that:

The protection afforded to medical establishments, vehicles, aircraft and units may only be terminated if they are used to commit acts harmful to the enemy. The protection may only be terminated after a warning and a reasonable delay. Examples of

⁶³⁵ New Zealand, *Military Manual* (1992), 1704(5).

⁶³⁶ New Zealand, *Military Manual* (1992), § 1818(2).

⁶³⁷ Nigeria, *Manual on the Laws of War* (undated), § 36.

⁶³⁸ Nigeria, *Manual on the Laws of War* (undated), § 6.

⁶³⁹ South Africa, *LOAC Manual* (1996), §§ 55 and 59.

⁶⁴⁰ Spain, *LOAC Manual* (1996), Vol. I, § 9.2.b.(4).

violations: installation of an observation post on a hospital roof or a firing position in a medical post, collecting able-bodied troops in a field hospital, using an ambulance to transport munitions. Examples of acts which do not terminate protection: the presence of armed guards in front of a hospital, of weapons and munitions taken from the wounded inside an ambulance, the fact that the personnel of the unit or establishment are armed and that they use their arms for their own defence or the defence of the wounded and the sick, the presence of civilian wounded and sick.⁶⁴¹

615. The UK Military Manual restates the rules on loss of protection of medical units and civilian hospitals set out in Articles 21–22 GC I and Article 19 GC IV respectively.⁶⁴² The manual further states that “in addition to the ‘grave breaches’ of the 1949 [Geneva] Conventions . . . the following are examples of punishable violations of the laws of war, or war crimes: . . . (h) improper use of a privileged building for military purposes”.⁶⁴³

616. The UK LOAC Manual states that medical units and transports “must not take part in hostilities and if they do it may result in protection being forfeited”.⁶⁴⁴

617. The US Field Manual restates Articles 21–22 GC I and notes that:

The presence of such arms and ammunition in a medical unit or establishment is not of itself cause for denying the protection to be accorded to such organisations under [GC I]. However, such arms and ammunition should be turned in as soon as practicable and, in any event, are subject to confiscation.⁶⁴⁵

The manual further states that “in addition to the ‘grave breaches’ of the Geneva Conventions of 1949, the following acts are representative of violations of the law of war (“war crimes”): . . . h. Improper use of privileged buildings for military purposes.”⁶⁴⁶

618. The US Air Force Pamphlet provides that “in addition to grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: . . . (7) wilful and improper use of privileged buildings or localities for military purposes”.⁶⁴⁷

619. The US Air Force Commander’s Handbook states:

Hospitals . . . lose their special status under the Geneva Conventions if they commit, or are used to commit, acts harmful to the enemy outside their humanitarian functions.

For example, using a hospital as an observation post, or to store nonmedical military supplies, or firing at the enemy from an ambulance, would deprive the hospital and the ambulance of protected status. . . . Both the Geneva Conventions and the rules of engagement may impose additional restrictions on actually attacking medical activities that are improperly used. Thus, hospitals and mobile medical units

⁶⁴⁵ US, *Field Manual* (1956), §§ 222–223.

⁶⁴⁶ US, *Field Manual* (1956), § 504(h). ⁶⁴⁷ US, *Air Force Pamphlet* (1976), § 15-3(c)(7).

may not be attacked until after a warning has been given setting, in proper cases, a reasonable time limit to correct past abuses.⁶⁴⁸

620. The US Instructor's Guide states that "in addition to the grave breaches of the Geneva Conventions, the following acts are further examples of war crimes: . . . improperly using privileged buildings for military purposes".⁶⁴⁹

621. The US Rules of Engagement for Operation Desert Storm state "do not engage hospitals unless the enemy uses the hospital to commits acts harmful to US forces, and then only after giving a warning and allowing a reasonable time to expire before engaging, if the tactical situation permits".⁶⁵⁰

622. The US Naval Handbook states that "if medical facilities are used for military purposes inconsistent with their humanitarian mission, and if appropriate warnings that continuation of such use will result in loss of protected status are unheeded, the facilities become subject to attack".⁶⁵¹

623. The YPA Military Manual of the SFRY (FRY) restates Articles 21–22 GC I.⁶⁵²

National Legislation

624. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.⁶⁵³

625. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Articles 21–22 GC I and 19 GC IV, and of AP I, including violations of Article 13 AP I, as well as any "contravention" of AP II, including violations of Article 11(2) AP II, are punishable offences.⁶⁵⁴

626. Italy's Law of War Decree as amended provides that the protection of military medical services is contingent on the condition that "under no circumstances they may be used for purposes other than those intended".⁶⁵⁵

627. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the Geneva Conventions of 12 August 1949 . . . [and in] the two additional protocols to these Conventions . . . is liable to imprisonment".⁶⁵⁶

National Case-law

628. No practice was found.

Other National Practice

629. The Report on the Practice of the Republika Srpska notes that attacks on medical objects during the conflict in Bosnia and Herzegovina were often abusively justified on the grounds that these objects were allegedly used for military purposes.⁶⁵⁷

630. In 1987, in submitting AP II to the US Senate for advice and consent to ratification, the US President expressed the view that the obligations in AP II are “no more than a restatement of the rules of conduct with which US military forces would almost certainly comply as a matter of national policy, constitutional and legal protections, and common decency”.⁶⁵⁸

631. Order No. 579 issued in 1991 by the YPA Chief of Staff provides that:

Any attack on . . . protected objects (. . . medical facilities, etc.) is strictly prohibited, except when these objects are used to launch attacks on YPA units. In such cases, the commanding officer in charge shall, before opening fire, warn the opposing side in an appropriate manner to stop fire and vacate the objects in question.⁶⁵⁹

632. In the context of an internal armed conflict, the government considered that the use of a hospital as a cover for military operations allowed the armed forces to treat it as a military objective in accordance with Article 52(2) API. Apparently the same position was adopted by the armed opposition group after the hospital’s purpose was modified to suit military aims.⁶⁶⁰ In 1993, the governmental reacted to a note verbale from the ICRC regarding the shelling of a hospital by governmental forces by explaining that the hospital was used as a cover for military operations and that the army would cease “reprisals” when these activities were halted.⁶⁶¹

*III. Practice of International Organisations and Conferences**United Nations*

633. In 1994, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights reported the deliberate targeting of the Goražde hospital. He noted allegations that the hospital was in fact a “military command centre” and that there were machine-gun emplacements on the roof and mortar launching equipment on the ground. According to international observers, these allegations were

⁶⁵⁷ Report on the Practice of Republika Srpska, 1997, Chapter 2.7.

⁶⁶⁰ ICRC archive documents. ⁶⁶¹ ICRC archive document.

entirely unfounded and the hospital served no military function during the offensive.⁶⁶²

634. In 1994, in a report on the situation of human rights in Rwanda, the Special Rapporteur of the UN Commission on Human Rights noted that a shell had hit an ICRC hospital. Commenting on the FPR's justification of its action on the grounds that members of the FAR were sheltering behind the hospital in order to attack, the Special Rapporteur said that such an attitude could not but demoralise the survivors.⁶⁶³

Other International Organisations

635. No practice was found.

International Conferences

636. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

637. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

638. In its Commentary on the First Geneva Convention, the ICRC prepared a more precise definition of "acts harmful to the enemy", they being "acts the purpose or effect of which is to harm the adverse Party, by facilitating or impeding military operations".⁶⁶⁴ The Commentary on Article 21 GC I gives as examples: "The use of a hospital as a shelter for able-bodied combatants or fugitives, as an arms or ammunition dump, or as a military observation post; another would be the deliberate siting of a medical unit in a position where it would impede an enemy attack."⁶⁶⁵

639. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

The protection to which specifically protected persons and objects are entitled shall not cease unless they are used to commit acts harmful to the enemy. Protection may cease only after due warning has been given, and after such warning has remained unheeded. A reasonable time-limit shall be set.⁶⁶⁶

⁶⁶² UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Seventh periodic report, UN Doc. E/CN.4/1995/4, 10 June 1994, § 9.

⁶⁶⁶ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 224.

640. Following incidents in a hospital compound in 1990, the ICRC delegation requested that an armed opposition group respect the security regulations that had been agreed upon, that is, that no armed persons be allowed into the hospital compound and no vehicles gain admittance, other than those of the hospital, the local Red Cross and the ICRC.⁶⁶⁷

641. In 1993, the ICRC asked an armed opposition group to remove bunkers placed in front of a hospital.⁶⁶⁸

642. In a communication to the press in 1994, the ICRC requested that the parties to the internal conflict in Mexico remove all military units from the vicinity of first-aid posts.⁶⁶⁹

643. In 1994, in a Memorandum on the Respect for International Humanitarian Law in Angola, the ICRC stated that “hospitals and medical units and means of transport shall not be the object of attack; they shall be used exclusively to give or to facilitate care and shall not be used to prepare or commit hostile acts”.⁶⁷⁰

644. In a press release issued in 1994 in the context of the conflict in Bosnia and Herzegovina, the ICRC stated that special protection should be given to the Bihac hospital, which meant, *inter alia*, that the buildings and compound “must serve exclusively to provide medical care and must not be used to prepare for or engage in military acts [and] no arms must be deployed either inside the hospital, the hospital compound or in the immediate surroundings”.⁶⁷¹

VI. Other Practice

645. In 1982, in a meeting with the ICRC, an armed opposition group stated that if a governmental base were attacked, it could not guarantee respect for the emblem, given past abuse. The transport in ambulances of political personalities accompanied by armed guards and of soldiers and munitions was cited. The armed opposition group also argued that in the case of attack, soldiers would seek refuge in Red Cross buildings and there was no means to prevent such abuse.⁶⁷² At a later date, the armed opposition group told ICRC representatives that it would be impossible to spare an ICRC building from attack if it were located in an opponent’s stronghold, since combatants would inevitably seek refuge there.⁶⁷³

646. In 1985, an armed opposition group ordered its troops not to park military vehicles near warehouses, hospitals and other locations bearing the red cross emblem.⁶⁷⁴

⁶⁶⁷ ICRC archive document. ⁶⁶⁸ ICRC archive document.

⁶⁷¹ ICRC, Press Release No. 1792, Bihac: Urgent ICRC Appeal, 26 November 1994.

⁶⁷² ICRC archive document. ⁶⁷³ ICRC archive document. ⁶⁷⁴ ICRC archive document.

647. In a report on the FMLN offensive in El Salvador in November 1989, the Instituto de Derechos Humanos de la Universidad Centroamericana stated that:

Available reports, on the other hand, indicate that the FMLN is responsible for the partial destruction of the regional hospital of Zacatecoluca. According to reports from the FMLN, the army had put an observation post on the roof of the building, thus converting it into a military objective.⁶⁷⁵

648. Peacekeeping forces raised the matter of the shelling of a hospital with the authorities of a party involved in a non-international armed conflict in 1993. The latter consistently replied that the opposing forces fired mortars from the vicinity of the hospital. Upon conclusive proof that it was so, a military observer expressed the view that “the crime of using the hospital as a screen to fire weapons is as inhumane and disgusting as actually firing on the hospital”.⁶⁷⁶

649. In 1993, during the conflict in Somalia, MSF denounced an attack on its compound by UNOSOM II as a violation of the principle of immunity of medical installations and personnel. MSF stated that:

The armed forces were aware of the nature and identity of the building. According to the latest reports available to MSF, this attack was generated by the suspect presence of a microphone boom at the back of a vehicle parked in front of the building. This microphone boom was apparently mistaken for a weapon. The nature of the retaliation appears out of all proportion to the nature of the threat.⁶⁷⁷

E. Medical Transports

Respect for and protection of medical transports

I. Treaties and Other Instruments

Treaties

650. Article 35 GC I provides that:

Transports of wounded and sick or of medical equipment shall be respected and protected in the same way as mobile medical units.

Should such transports or vehicles fall into the hands of the adverse Party, they shall be subject to the laws of war, on condition that the Party to the conflict who captures them shall in all cases ensure the care of the wounded and sick they contain.

The civilian personnel and all means of transport obtained by requisition shall be subject to the general rules of international law.

⁶⁷⁵ Instituto de Derechos Humanos de la Universidad Centroamericana, “Los derechos humanos y la ofensiva del 11 de noviembre de 1989”, *Estudios Centroamericanos*, Universidad Centroamericana José Simeón Cañas, Vol. XLV, Nos. 495–496, January–February 1990, p. 65.

⁶⁷⁶ ICRC archive document.

⁶⁷⁷ MSF, Communication on the violations of humanitarian law in Somalia during UNOSOM operations, 21 July 1993, § 1(a).

651. Article 21 GC IV provides that:

Convoys of vehicles or hospital trains on land or specially provided vessels on sea, conveying wounded and sick civilians, the infirm and maternity cases, shall be respected and protected in the same manner as the hospitals provided for in Article 18, and shall be marked, with the consent of the State, by the display of the distinctive emblem provided for in Article 38 of the Geneva Convention for the Amelioration of the Condition of the Wounded and Sick in Armed Forces in the Field of August 12, 1949.

652. Article 21 AP I provides that “medical vehicles shall be respected and protected in the same way as mobile medical units under the Conventions and this Protocol”. Article 21 AP I was adopted by consensus.⁶⁷⁸

653. Article 11(1) AP II provides that “medical . . . transports shall be respected and protected at all times and shall not be the object of attack”. Article 11 AP II was adopted by consensus.⁶⁷⁹

654. Upon signature of AP I and AP II, the US declared that “It is the understanding of the United States of America that the terms used in Part III of [AP II] which are the same as the terms defined in Article 8 [AP I] shall so far as relevant be construed in the same sense as those definitions”.⁶⁸⁰

Other Instruments

655. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including “attack on and destruction of hospital ships”.

656. Article 25 of the 1923 Hague Rules of Air Warfare provides that “in bombardment by aircraft, all necessary steps must be taken by the commander to spare as far as possible . . . hospital ships . . . provided [they] are not at the time used for military purposes”.

657. Paragraph 2.2 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina provides that “medical transportation may in no circumstances be attacked, they shall at all times be respected and protected. They may not be used to shield combatants, military objectives or operations from attack.”

658. Paragraph 47(a), (b) and (c)(ii) of the 1994 San Remo Manual includes hospital ships, small craft used for coastal rescue operations and other medical transports, as well as vessels engaged in humanitarian missions, among the classes of enemy vessels exempt from attack. Paragraph 48 of the manual lists the conditions of exemption as follows: such vessels must be “innocently employed in their normal role”; they must “submit to identification and inspection when

⁶⁷⁹ CDDH, *Official Records*, Vol. VII, CDDH/SR.51, 3 June 1977, p. 113.

⁶⁸⁰ US, Declaration made upon signature of AP I and AP II, 12 December 1977, § B.

required"; and they must not "intentionally hamper the movement of combatants and obey orders to stop or move out of the way when required".

659. Section 9.5 of the 1999 UN Secretary-General's Bulletin provides that "the United Nations force shall respect and protect transports of wounded and sick or medical equipment in the same way as mobile medical units".

II. National Practice

Military Manuals

660. Argentina's Law of War Manual (1969) restates Articles 35 GC I and 21 GC IV.⁶⁸¹

661. Argentina's Law of War Manual (1989) states, with respect to non-international armed conflicts in particular, that "medical means of transportation shall be respected and protected and may not be made the object of attack, provided they are not being used to commit hostile acts."⁶⁸²

662. Australia's Commanders' Guide provides that "civilian medical . . . transports and supplies are not to be made the target of attack or unnecessarily destroyed. Military medical . . . facilities and equipment are also entitled to general protection under the Geneva Conventions."⁶⁸³

663. Australia's Defence Force Manual provides that "civilian medical . . . transports and supplies are not to be made the target of attack or unnecessarily destroyed. Military medical . . . facilities and equipment are also entitled to general protection."⁶⁸⁴ The manual defines medical transports as "any means of transportation, military or civilian, permanent or temporary, assigned exclusively to medical transportation and under control of a competent authority of a party to the conflict".⁶⁸⁵

664. Belgium's Law of War Manual states that "transport over land of the wounded and sick and medical material enjoys the same protection as medical units and material: it may not be made the object of attack".⁶⁸⁶

665. Belgium's Teaching Manual for Soldiers states that:

The protection accorded to the wounded would be illusory if the civilian and military medical services which are specifically set up to treat them could be attacked. Hence, medical services, identified by the Red Cross (or Red Crescent in certain countries), are not considered combatants or military objectives even if they wear the enemy uniform or bear its insignia. Enemy medical transports . . . may not be attacked.⁶⁸⁷

⁶⁸¹ Argentina, *Law of War Manual* (1969), §§ 3.016 and 4.006.

⁶⁸² Argentina, *Law of War Manual* (1989), § 7.07.

⁶⁸³ Australia, *Commanders' Guide* (1994), §§ 614–615.

⁶⁸⁴ Australia, *Defence Force Manual* (1994), § 963, see also § 902.

⁶⁸⁵ Australia, *Defence Force Manual* (1994), §§ 902 and 963.

⁶⁸⁶ Belgium, *Law of War Manual* (1983), p. 48.

⁶⁸⁷ Belgium, *Teaching Manual for Soldiers* (undated), p. 17, see also p. 8.

666. Benin's Military Manual lists the military and civilian medical service as specially protected objects.⁶⁸⁸ It states that "specially protected means of transport shall be authorised to carry out their mission as long as necessary. Their mission, content and actual use may be checked through an inspection."⁶⁸⁹

667. Burkina Faso's Disciplinary Regulations provides that, under the laws and customs of war, soldiers in combat must respect medical transports.⁶⁹⁰

668. Cameroon's Disciplinary Regulations provides that, under the laws and customs of war, each soldier must respect medical transports.⁶⁹¹

669. Cameroon's Instructors' Manual provides that medical transports exclusively used to transport wounded, sick and shipwrecked and medical material enjoy the protection granted thereto by the laws of war.⁶⁹²

670. Canada's LOAC Manual states that:

92. Medical transports of all types (land, sea, air) are protected and must not be attacked.

93. Medical transports should not be armed (i.e. crew-served weapons) because of the danger that they be mistaken as fighting vehicles. Medical personnel in the medical transports can, however, retain their personal weapons.⁶⁹³

The manual qualifies "attacking a properly marked hospital ship" as a war crime.⁶⁹⁴ With respect to non-international armed conflicts in particular, the manual states that "medical . . . transports are to be respected and protected at all times and not be made the object of attack".⁶⁹⁵

671. Canada's Code of Conduct states that:

Opposing forces transports for the wounded and sick, or of medical equipment, shall be respected as soon as they are identified as such and protected in the same manner as mobile medical units . . . As a general rule medical transports should not have any weapons "mounted" on them to avoid being mistaken for fighting vehicles.⁶⁹⁶

672. Colombia's Circular on Fundamental Rules of IHL states that the protection due to the wounded and sick "also covers, as such, . . . medical transports".⁶⁹⁷

673. Colombia's Basic Military Manual states that "attacks, misappropriation and destruction" of medical transports constitutes a "grave breach".⁶⁹⁸

674. Congo's Disciplinary Regulations provides that medical transports must be respected.⁶⁹⁹

⁶⁸⁸ Benin, *Military Manual* (1995), Fascicule I, p. 13.

⁶⁹⁹ Congo, *Disciplinary Regulations* (1986), Article 32.

675. Croatia's Commanders' Manual provides that "medical transports may not be used to collect or transmit intelligence data".⁷⁰⁰
676. Croatia's Soldiers' Manual instructs soldiers to respect hospital ships displaying the distinctive emblem.⁷⁰¹
677. The Military Manual of the Dominican Republic instructs soldiers not to attack medical vehicles, whether on land or in the air.⁷⁰²
678. Ecuador's Naval Manual states that "medical vehicles . . . may not be deliberately bombarded. Belligerents are required to ensure that such medical facilities are, as far as possible, situated in such manner that attacks against military targets in the vicinity do not imperil their safety."⁷⁰³ The manual qualifies "deliberate attack upon hospitals ships . . . [and] medical vehicles" as a war crime.⁷⁰⁴
679. France's Disciplinary Regulations as amended provides that soldiers in combat must respect and protect medical transports.⁷⁰⁵
680. France's LOAC Summary Note states that "medical transports must not be used to collect military information".⁷⁰⁶
681. France's LOAC Manual, with reference to Article 12 API, includes medical means of transportation among objects which are specifically protected by the law of armed conflict.⁷⁰⁷
682. Germany's Military Manual states that "any transport of wounded, sick and medical equipment shall be respected and protected".⁷⁰⁸
683. Germany's IHL Manual provides that medical vehicles "shall under no circumstance be attacked. Their unhampered employment shall be ensured at all times."⁷⁰⁹
684. Hungary's Military Manual instructs soldiers to respect and protect medical transports, whether by land, sea or air.⁷¹⁰
685. Italy's LOAC Elementary Rules Manual provides that "medical transports may not be used to collect or transmit intelligence data".⁷¹¹
686. Kenya's LOAC Manual states that "protection from attack is given to . . . medical transports, e.g. ambulances".⁷¹²
687. Lebanon's Teaching Manual provides for respect for and protection of medical transports.⁷¹³
688. Mali's Army Regulations provides that, according to the laws and customs of war, soldiers in combat must respect medical transports.⁷¹⁴

⁷⁰⁰ Croatia, *Commanders' Manual* (1992), § 34.

⁷⁰¹ Croatia, *Soldiers' Manual* (1992), pp. 2 and 3.

⁷¹³ Lebanon, *Teaching Manual* (1997), p. 77.

⁷¹⁴ Mali, *Army Regulations* (1979), Article 36.

689. Morocco's Disciplinary Regulations provides that, according to the laws and customs of war, soldiers in combat must respect medical transports.⁷¹⁵

690. The Military Manual of the Netherlands states that "medical transport and medical means of transportation (vehicles, ships and aircraft) must be respected and protected".⁷¹⁶ The manual repeats this rule with respect to non-international armed conflicts.⁷¹⁷

691. The Military Handbook of the Netherlands provides that "medical transports may not be attacked . . . Medical transports, whether on water, on land or in the air, must also be respected. Such transport may not, however, be used as normal military transport."⁷¹⁸

692. New Zealand's Military Manual states that:

Hospital ships . . . must be respected and protected at all times and must not be attacked . . .

Medical transports are any means of transportation, military or civilian, permanent or temporary, assigned exclusively to medical transportation and under control of a competent authority of a party to the conflict.

...

Convoys of vehicles or hospital trains on land, and specially provided vessels at sea, conveying wounded and sick civilians, the infirm, and maternity cases must be protected and respected in the same way as civilian hospitals.⁷¹⁹

The manual further states that "attacking a properly marked hospital ship" constitutes a war crime recognised by the customary law of armed conflict.⁷²⁰

With respect to non-international armed conflicts in particular, it states that "medical . . . transports are to be respected at all times and not made the object of attack".⁷²¹

693. Nicaragua's Military Manual states, with respect to international armed conflicts, that assistance to the wounded, sick and shipwrecked includes a requirement of "respect for and protection of means of transportation for the wounded and sick or medical material" and "respect for and protection of transportation over land or sea of civilian wounded and sick".⁷²²

694. Nigeria's Manual on the Laws of War provides that "convoys of wounded or medical equipment must be respected and protected as mobile medical units".⁷²³

695. Nigeria's Military Manual provides that "specifically protected . . . transports recognised as such must be respected . . . Specifically protected

⁷¹⁵ Morocco, *Disciplinary Regulations* (1974), Article 25(1).

⁷¹⁸ Netherlands, *Military Handbook* (1995), pp. 7-40 and 7-41.

⁷¹⁹ New Zealand, *Military Manual* (1992), §§ 1007(1) and (2) and 1110(1).

⁷²⁰ New Zealand, *Military Manual* (1992), § 1704(5).

⁷²¹ New Zealand, *Military Manual* (1992), § 1818(2).

⁷²² Nicaragua, *Military Manual* (1996), Article 14(7) and (38).

⁷²³ Nigeria, *Manual on the Laws of War* (undated), § 36.

[transports] shall not be touched or entered, though they could be inspected to ascertain their contents and effective use".⁷²⁴

696. Romania's Soldiers' Manual requires respect for medical vehicles and transports.⁷²⁵

697. Russia's Military Manual states that "attack, bombardment or destruction of . . . medical transports" is a prohibited method of warfare.⁷²⁶

698. Senegal's Disciplinary Regulations provides that soldiers in combat must respect and protect medical transports.⁷²⁷

699. Senegal's IHL Manual states that "medical means of transport (ambulances) shall be authorised to perform their function as long as necessary. Their mission, content and actual use may be verified by inspection."⁷²⁸

700. South Africa's LOAC Manual provides that:

53. All means of medical transport, whether permanent or temporary, must be *assigned exclusively* to medical purposes in order to be entitled to protection. A convoy carrying both wounded and able-bodied soldiers or arms would lose the right to protection to the detriment of the wounded. (*Note:* the presence of light arms which have just been taken from the wounded and not yet turned over to the proper authority is permitted.)

54. The term "respect" for the means of medical transport indicates that they may not be attacked or damaged, nor may their passage be obstructed; put positively, they must be permitted to carry out their assigned tasks.⁷²⁹ [emphasis in original]

701. Spain's LOAC Manual defines medical transports in accordance with Article 8 AP I.⁷³⁰ With reference to Article 21 AP I, the manual states that medical transports over land "in general, enjoy the same protection and are subject to the same regulation as mobile medical units".⁷³¹

702. Sweden's IHL Manual considers that Article 21 AP I on the protection of medical vehicles has the status of customary law.⁷³²

703. Switzerland's Basic Military Manual provides that "transports of wounded and sick civilians, disabled, elderly, children and expectant mothers, by convoys and hospital trains, shall be respected and protected in the same way as hospitals".⁷³³ It further provides that medical vehicles "shall be respected and protected. They shall not be attacked, nor harmed in any way, nor their functioning be impeded, even if they do not momentarily hold any wounded or sick".⁷³⁴

⁷²⁴ Nigeria, *Military Manual* (1994), p. 45, § (f). ⁷²⁵ Romania, *Soldiers' Manual* (1991), p. 32.

⁷²⁶ Russia, *Military Manual* (1990), § 5(g).

⁷²⁷ Senegal, *Disciplinary Regulations* (1990), Article 34(1).

⁷³³ Switzerland, *Basic Military Manual* (1987), Article 37.

⁷³⁴ Switzerland, *Basic Military Manual* (1987), Article 82.

704. Togo's Military Manual lists the military and civilian medical service as specially protected objects.⁷³⁵ It states that "specially protected means of transport shall be authorised to carry out their mission as long as necessary. Their mission, content and actual use may be checked through an inspection."⁷³⁶

705. The UK Military Manual provides that "vehicles equipped for the transport of wounded and sick, as well as their medical equipment, must be respected and protected in the same way as mobile medical units".⁷³⁷ The manual further states that "convoys of vehicles or hospital trains on land, and specially provided vessels at sea, conveying wounded and sick civilians, the infirm, and maternity cases must be protected and respected in the same way as civilian hospitals".⁷³⁸

706. The UK LOAC Manual provides that "protection from attack is given . . . to medical transport, e.g. ambulances".⁷³⁹

707. The US Field Manual restates Article 35 GC I and Article 21 GC IV.⁷⁴⁰

708. The US Air Force Pamphlet states that "in addition to grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving individual criminal responsibility: (1) deliberate attack on . . . hospital ships".⁷⁴¹

709. The US Air Force Commander's Handbook provides that ambulances and hospital ships "should not be deliberately attacked, fired upon, or unnecessarily prevented from performing their medical duties".⁷⁴² It further stresses that medical transports lose their special immunity if they are used to commit "acts harmful to the enemy outside their humanitarian functions". In this respect, the manual gives the example of "firing at the enemy from an ambulance".⁷⁴³

710. The US Naval Handbook states that "medical vehicles . . . may not be deliberately bombarded. Belligerents are required to ensure that such medical facilities are, as far as possible, situated in such manner that attacks against military targets in the vicinity do not imperil their safety."⁷⁴⁴ The manual qualifies "deliberate attack upon hospital ships . . . [and] medical vehicles" as a war crime.⁷⁴⁵

711. The YPA Military Manual of the SFRY (FRY) restates Article 19 GC I and extends the protection of military medical transports to civilian medical transports.⁷⁴⁶

National Legislation

712. Argentina's Draft Code of Military Justice punishes any soldier who "wilfully violates the protection due to . . . medical transports . . . which are properly marked".⁷⁴⁷

713. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.⁷⁴⁸

714. Colombia's Emblem Decree provides that "all Colombian authorities and persons must protect . . . transports of medicine, food and humanitarian aid in situations of armed conflict or natural disaster".⁷⁴⁹

715. The Draft Amendments to the Penal Code of El Salvador punishes "anyone who, in the context of an international or non-international armed conflict, attacks or destroys ambulances and medical transports, without having taken adequate measures of protection and without imperative military necessity".⁷⁵⁰

716. Under Estonia's Penal Code, "an attack against . . . a hospital ship or aircraft, or any other means of transport used for transportation of non-combatants" is a war crime.⁷⁵¹

717. Georgia's Criminal Code provides for the punishment of "wilful breaches of norms of international humanitarian law committed in an international or internal armed conflict . . . against . . . medical transports".⁷⁵²

718. Germany's Law Introducing the International Crimes Code provides that:

Anyone who, in connection with an international or non-international armed conflict, . . . carries out an attack against . . . medical units and transport designated with the distinctive emblems of the Geneva Conventions . . . in conformity with international humanitarian law, shall be liable to imprisonment for not less than three years. In less serious cases, particularly where the attack is not carried out with military means, the period of imprisonment shall be for not less than one year.⁷⁵³

719. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Articles 35 GC I and 21 GC IV, and of AP I, including violations of Article 21 AP I, as well as any "contravention" of AP II, including violations of Article 11 AP II, are punishable offences.⁷⁵⁴

720. Italy's Law of War Decree as amended states that the means of transportation of the military medical service must be "respected and protected".⁷⁵⁵

⁷⁴⁷ Argentina, *Draft Code of Military Justice* (1998), Article 292, introducing a new Article 876(2) in the *Code of Military Justice as amended* (1951).

⁷⁴⁸ Bangladesh, *International Crimes (Tribunal) Act* (1973), Section 3(2)(e).

⁷⁵³ Germany, *Law Introducing the International Crimes Code* (2002), Article 1, § 11(1)(2).

⁷⁵⁴ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁷⁵⁵ Italy, *Law of War Decree as amended* (1938), Article 95.

721. Lithuania's Criminal Code as amended provides for the protection of medical transports.⁷⁵⁶

722. Nicaragua's Military Penal Code provides for the punishment of any soldier who "knowingly violates the protection due to...medical transports... which are recognizable by the established signs or the character of which can unequivocally be distinguished from a distance", provided that the protection due is not misused for hostile purposes.⁷⁵⁷

723. Nicaragua's Draft Penal Code punishes any person who, during an international or internal armed conflict, "without having previously taken appropriate measures of protection and without any justification based on imperative military necessity, attacks or destroys ambulances and medical transports... [and] medical convoys".⁷⁵⁸

724. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in... the Geneva Conventions of 12 August 1949... [and in] the two additional protocols to these Conventions... is liable to imprisonment".⁷⁵⁹

725. Romania's Penal Code provides for the punishment of:

The total or partial destruction of objects marked with the regular distinctive emblem, such as:

- a) ... hospital ships,
- b) means of transport of any kind assigned to a medical service or the Red Cross or the organisations assimilated therewith which serve to transport the wounded, sick, or medical material [and/or] material of the Red Cross or of organisations assimilated therewith.⁷⁶⁰

726. Spain's Military Criminal Code provides for the punishment of any soldier who "knowingly violates the protection due to... medical transports... which are recognizable by the established signs or the character of which can unequivocally be distinguished from a distance", provided that the protection due is not misused for hostile purposes.⁷⁶¹

727. Under Spain's Penal Code, wilful violations of the protected status of medical transports are war crimes.⁷⁶²

728. Tajikistan's Criminal Code, in the section on "Serious violations of international humanitarian law", provides for the punishment of "wilful breaches of norms of international humanitarian law committed in an international or non-international armed conflict, against... medical transports".⁷⁶³

⁷⁵⁶ Lithuania, *Criminal Code as amended* (1961), Article 337.

⁷⁶² Spain, *Penal Code* (1995), Article 612. ⁷⁶³ Tajikistan, *Criminal Code* (1998), Article 403(2).

729. Venezuela's Code of Military Justice as amended provides for the punishment of "those who should . . . attack . . . convoys of sick and wounded".⁷⁶⁴

National Case-law

730. In the *Dover Castle case* in 1921, a German court acquitted the commander of a German submarine of sinking a hospital ship and killing six members of its crew in violation of the customs and laws of war. The Court found that the commander had sunk the ship in execution of orders and could not, therefore, be held responsible for the ensuing violations of the law.⁷⁶⁵

Other National Practice

731. In 1993, during a debate in the UN Security Council on the situation in the former Yugoslavia, Argentina stated that "the deliberate attacks on . . . ambulances" could not go on with impunity.⁷⁶⁶

732. In a note submitted to the ICRC in 1967, Egypt accused Israel of "bombardment of hospitals and ambulances in spite of the distinct markings of them" in violation of Article 19 GC I and Articles 18 and 21 GC IV and condemned it as a "flagrant violation of the elementary principle of humanity, and a serious breach of the laws of war and the Geneva Conventions of 1949".⁷⁶⁷

733. In its written comments submitted to the ICJ in the *Nuclear Weapons case* in 1995, Egypt stated that it was "prohibited to attack convoys of vehicles, hospital trains, hospital ships, aircraft exclusively employed for the removal of wounded and sick civilians, or the transport of medical personnel and equipment".⁷⁶⁸

734. Under the instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, medical transports and material shall be protected.⁷⁶⁹

735. In 1944, the German hospital ship the *Tübingen* was bombed and sunk by the British air force. Following the sinking, the German government issued the following official protest:

On 18 November 1944 at 0745 hours near Pola the German hospital ship *Tübingen* was attacked by two double-engine British bombers with machine guns and bombs so that it sank, although the course of the hospital ship had been communicated to the British government well in advance of its voyage to Saloniki and back for the

purpose of transporting wounded German soldiers. Numerous members of the crew were thereby killed and wounded. The German government emphatically protests the serious violations of international law committed by the sinking of the hospital ship *Tübingen*.⁷⁷⁰

736. In 1992, during a debate in the UN Security Council on the situation in the former Yugoslavia, Hungary stated that “it goes without saying that the international community cannot disregard the responsibility of those who violate international humanitarian law, who order attacks on . . . ambulances . . . to mention only a few examples of criminal atrocities”.⁷⁷¹

737. According to the Report on the Practice of the Iran, Iran accused Iraq on several occasions of attacking Iranian Red Crescent vehicles during the Iran–Iraq war. Iran claimed that Iraq had violated IHL by committing these acts.⁷⁷²

738. In 1972, during a debate in the UN Security Council on the situation in the Middle East, the representative of Lebanon stated that the Lebanese Red Cross had reported that its ambulances, cars and volunteers had been attacked by Israeli forces.⁷⁷³ In a subsequent debate in 1984, Lebanon complained that an ambulance attendant of the Lebanese Red Cross had been detained while he and a colleague were transporting a wounded man to the hospital in a car belonging to the Red Cross.⁷⁷⁴

739. The UK reacted to the sinking of the *Tübingen* during the Second World War by ordering an inquiry, in the course of which it was determined that, through a chain of errors on the part of the UK pilots and a misunderstanding in the wireless transmission, the order was actually given to attack the hospital ship. The UK government expressed its regret at the sinking of the ship, stating that:

In the circumstances described, they cannot refrain from remarking that had the *Tübingen* been properly illuminated at the time of sighting in accordance with international practice, the leader of the section would have had no difficulty in identifying her as a hospital ship and the incident would thus have been avoided.⁷⁷⁵

740. At the CDDH, the UK welcomed “the humanitarian advances made in such fields as medical aircraft, the extension of protection to a wider group of medical units and transports and the improved provisions on relief”.⁷⁷⁶

⁷⁷⁰ Alfred M. de Zayas, *The Wehrmacht War Crimes Bureau, 1939–1945*, University of Nebraska Press, Lincoln, 1989, pp. 261–266.

⁷⁷¹ Hungary, Statement before the UN Security Council, UN Doc. S/PV.3106, 13 August 1992, p. 32.

⁷⁷² Report on the Practice of Iran, 1997, Chapter 2.7.

⁷⁷³ Lebanon, Statement before the UN Security Council, UN Doc. S/PV.2376, 8 June 1982, p. 2.

⁷⁷⁴ Lebanon, Statement before the UN Security Council, UN Doc. S/PV.2552, 29 August 1984, § 26.

⁷⁷⁵ Alfred M. de Zayas, *The Wehrmacht War Crimes Bureau, 1939–1945*, University of Nebraska Press, Lincoln, 1989, pp. 261–266.

⁷⁷⁶ UK, Statement at the CDDH, *Official Records*, Vol. VII, CDDH/SR. 58, 9 June 1977, p. 302, § 114.

741. In 1987, in submitting AP II to the US Senate for advice and consent to ratification, the US President expressed the view that the obligations in AP II were “no more than a restatement of the rules of conduct with which US military forces would almost certainly comply as a matter of national policy, constitutional and legal protections, and common decency”.⁷⁷⁷

742. In 1991, in a document entitled “Examples of violations of the rules of international law committed by the so-called armed forces of Slovenia”, the Ministry of Defence of the SFRY (FRY) included the following example: “Fire has been opened on medical vehicles in spite of their Red Cross signs.”⁷⁷⁸

III. Practice of International Organisations and Conferences

United Nations

743. In a resolution adopted in 1992, the UN Security Council expressed “grave alarm at continuing reports of widespread violations of international humanitarian law occurring within the territory of the former Yugoslavia and especially in Bosnia and Herzegovina including . . . deliberate attacks on . . . ambulances”. The Council strongly condemned such violations and demanded that “all parties and others concerned in the former Yugoslavia, and all military forces in Bosnia and Herzegovina, immediately cease and desist from all breaches of international humanitarian law”.⁷⁷⁹

744. In a resolution adopted in 1992, the UN Commission on Human Rights stated that it was “appalled at the continuing reports of widespread, massive and grave violations of human rights within the territory of the former Yugoslavia and especially in Bosnia and Herzegovina”, including reports of deliberate attacks on ambulances.⁷⁸⁰

745. In 1993, in a report on the situation of human rights in the territory of the former Yugoslavia, the Special Rapporteur of the UN Commission on Human Rights reported that, in March 1993, a group of UN relief workers escorted by two armoured personnel carriers from the UK Battalion of UNPROFOR were allowed to enter Konjevic Polje. The aim was to evacuate wounded persons who urgently required treatment and who had been identified on an earlier visit. However, Serb forces refused to allow UNHCR to bring in ambulances or trucks. A crowd of at least 2,000 civilians gathered around the two UNPROFOR vehicles. Both the crowd and the vehicles were deliberately shelled by the Serb forces. One of the carriers was destroyed by an almost direct hit just moments

⁷⁷⁷ US, Message from the US President transmitting AP II to the US Senate for advice and consent to ratification, Treaty Doc. 100-2, 29 January 1987, Comment on Article 10.

⁷⁷⁸ SFRY (FRY), Minister of Defence, Examples of violations of the rules of international law committed by the so-called Armed Forces of Slovenia, July 1991, § 1(iii).

⁷⁷⁹ UN Security Council, Res. 771, 13 August 1992, preamble and §§ 2 and 3.

⁷⁸⁰ UN Commission on Human Rights, Res. 1992/S-1/1, 14 August 1992, preamble.

after its occupants had moved to the other carrier.⁷⁸¹ In a later report, the Special Rapporteur noted, in a section entitled "Human rights violations", direct attacks on a UNHCR driver in a clearly marked armoured vehicle.⁷⁸²

746. In 1995, in the context of the conflict in Guatemala, MINUGUA examined the case of an attack on a duly identified ambulance of the volunteer fire brigade that was evacuating a wounded soldier. The URNG command denied responsibility. MINUGUA acknowledged that the proximity of fighting made it difficult to judge whether the shot was intentional. The Director of MINUGUA recommended to the URNG that it "should issue precise instructions to its combatants to refrain from...endangering ambulances and duly identified health workers who assist such wounded persons".⁷⁸³

747. In 1996, in report on the situation of human rights in the Sudan under the title "Human rights violations – Abuses by parties to the conflict other than the Government of Sudan", the Special Rapporteur of the UN Commission on Human Rights noted that OLS had reported that, despite security assurances from local authorities, a UNICEF ambulance had been ambushed and one of the wounded persons it was transporting had been killed.⁷⁸⁴

Other International Organisations

748. No practice was found.

International Conferences

749. The Final Declaration adopted by the International Conference for the Protection of War Victims in 1993 urged all States to "make every effort" to protect medical means of transport.⁷⁸⁵

IV. Practice of International Judicial and Quasi-judicial Bodies

750. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

751. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that:

⁷⁸¹ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Periodic report, UN Doc. E/CN.4/1994/3, 5 May 1993, §§ 21–22.

⁷⁸² UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Former Yugoslavia, Fifth periodic report, UN Doc. E/CN.4/1994/47, 17 November 1993, §§ 67 and 96.

⁷⁸³ MINUGUA, Director, First report, UN Doc. A/49/856, 1 March 1995, Annex, §§ 130 and 194.

⁷⁸⁴ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Sudan, Report, UN Doc. E/CN.4/1996/62, 20 February 1996, § 78.

⁷⁸⁵ International Conference for the Protection of War Victims, Geneva, 30 August–1 September 1993, Final Declaration, § II (9), *ILM*, Vol. 33, 1994, p. 301.

67. "Medical transport" means any means of transportation assigned exclusively to conveyance by land, water or air of the wounded, sick, shipwrecked, of medical and religious personnel, or of medical material.

...

68. The law of war grants the same status to civilian and military medical services... The provisions governing military medical... transports apply equally to the corresponding categories of the civilian medical service.⁷⁸⁶

Delegates also teach that "specifically protected... transports recognized as such must be respected".⁷⁸⁷

752. In 1978, in a letter to a National Society, the ICRC stated that civilian and military means of transportation, including ambulances, medical convoys and trains, hospital ships and other medical craft, lifeboats and other rescue craft "must be respected and protected in all circumstances".⁷⁸⁸

753. In 1990, following an attack on its vehicles in the context of an internal conflict, the ICRC reiterated to governmental authorities that persons and objects displaying the distinctive emblem should be respected. It requested an investigation into the incident and demanded that the government issue clear instructions regarding the obligation to respect "with the utmost rigour" the red cross and red crescent emblems.⁷⁸⁹

754. In 1991, in the context of an armed conflict, the ICRC reported attacks on medical objects marked by the red cross.⁷⁹⁰ In particular, following an attack on its medical ship by two patrolling ships of a party to the conflict, the ICRC sent a letter to the Permanent Mission of the State, in which it recalled the obligation not to attack medical transports.⁷⁹¹

755. In a press release in 1992, the ICRC enjoined the parties to the conflict in Chechnya "to ensure that medical... vehicles are respected and protected".⁷⁹²

756. In a declaration issued in 1994 in the context of the conflict between the Mexican government and the EZLN, the Mexican Red Cross stated that "protection must be extended to health personnel in general and, in particular, to Mexican Red Cross personnel as well as their... transport facilities".⁷⁹³

757. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that "ambulances and other medical units and

⁷⁸⁸ ICRC archive document. ⁷⁸⁹ ICRC archive document.

⁷⁹⁰ ICRC archive documents. ⁷⁹¹ ICRC archive document.

⁷⁹² ICRC, Press Release No. 1793, Chechnya: ICRC urges respect for humanitarian rules, 28 November 1994; see also Communication to the Press No. 96/10, Chechen conflict: ICRC appeal, 8 March 1996 and Communication to the Press No. 96/27, Russian Federation/Chechnya: ICRC calls on Federal Authorities to extend ultimatum, 21 August 1996.

⁷⁹³ Mexican Red Cross, Declaración de la Cruz Roja Mexicana en torno a los acontecimientos que se han presentado en el estado de Chiapas a partir del 1° enero de 1994, 3 January 1994, § 2(C).

means of transport shall be protected and respected . . . Medical units and means of transport shall not be the object of attack."⁷⁹⁴

758. In a press release issued in 2000 following allegations that the Palestine Red Crescent Society had been targeted in shooting incidents, the ICRC stated that "any attacks . . . on ambulances . . . indeed constitute a grave violation of IHL".⁷⁹⁵

759. In a communication to the press issued in 2000 in connection with the hostilities in the Near East, the ICRC stated that:

Ambulances . . . of the medical services must be respected and protected. They must be allowed to circulate unharmed so that they can discharge their humanitarian duties. All those who take part in the confrontations must respect the medical services, whether deployed by the armed forces, civilian facilities, the Palestine Red Crescent Society or the Magen David Adom in Israel. To date, dozens of Palestine Red Crescent ambulances and many of its staff have come under fire while conducting their medical activities in the occupied territories. Ambulances belonging to the Magen David Adom have also been attacked. The ICRC once again calls on all those involved in the violence to respect . . . ambulances [and] other medical transports.⁷⁹⁶

VI. Other Practice

760. In 1985, in a report on violations of the laws of war in Nicaragua, Americas Watch, noted, with respect to attacks against vehicles of the Ministry of Health, that the vehicles were escorted by military vehicles. It stated that "although in such circumstances, the relevant law gives any clearly marked medical vehicle immunity from attack, that immunity is set alongside the risk that it may become a collateral casualty during a legitimate attack on the military vehicles with it".⁷⁹⁷

761. In a report on the FMLN offensive in El Salvador in November 1989, the Instituto de Derechos Humanos de la Universidad Centroamericano stated that "three ambulances of the Salvadoran Red Cross in San Salvador and three others inside the country were machine-gunned".⁷⁹⁸

762. Rule A5 of the Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, adopted in

⁷⁹⁴ ICRC, Memorandum on Respect for International Humanitarian Law in Angola, 8 June 1994, § III, *IRRC*, No. 320, 1997, p. 504.

⁷⁹⁵ ICRC, Press Release, Israel and Occupied Territories: Respect for medical personnel, ICRC Tel Aviv, 1 November 2000.

⁷⁹⁶ ICRC, Communication to the Press No. 00/42, ICRC appeal to all involved in violence in the Near East, 21 November 2000.

⁷⁹⁷ Americas Watch, *Violations of the Laws of War by Both Sides in Nicaragua: 1981–1985*, New York, March 1985, pp. 82–83.

⁷⁹⁸ Instituto de Derechos Humanos de la Universidad Centroamericana (UCA), "Los derechos humanos y la ofensiva del 11 de noviembre de 1989", *Estudios Centroamericanos*, Universidad Centroamericana José Simeón Cañas, Vol. XLV, Nos. 495–496, January–February 1990, p. 64.

1990 by the Council of the IIHL, provides that “the obligation to respect and protect . . . medical . . . transports in the conduct of military operations is a general rule applicable in non-international armed conflicts”.⁷⁹⁹

763. In 1993, in the context of the conflict in Rwanda, the MRND vigorously condemned an attack on a Red Cross ambulance. It appealed to all political forces in Rwanda to condemn such acts.⁸⁰⁰

764. In 1994, an armed opposition group assured the ICRC that anti-tank mines would be deactivated for ICRC convoys. It later undertook to inform the ICRC systematically of mined locations.⁸⁰¹

765. In 1995, a representative of an armed opposition group told an ICRC delegate that medical vehicles would not be respected if they transported soldiers. He added that wounded soldiers would be respected only when dispossessed of all military attributes, including uniform. Reference was made to an earlier incident, but it is not clear from the document if the transported soldiers were wounded at the time or not.⁸⁰²

766. In 1995, a representative of an armed opposition group told an ICRC delegate that governmental forces sometimes used vehicles of foreign NGOs to transport troops. These vehicles were then considered to be potential targets. He added that if Red Cross vehicles were used in the same way, it was clear that they would also be targeted.⁸⁰³

Loss of protection of medical transports from attack

767. Specific practice concerning loss of protection from attack of medical transports has been included in the subsection on respect for and protection of medical transports. In addition, general practice concerning loss of protection from attack of medical units and medical transports is contained in the subsection on loss of protection of medical units and is not repeated here.

Respect for and protection of medical aircraft

I. Treaties and Other Instruments

Treaties

768. Article 36 GC I provides that:

Medical aircraft, that is to say, aircraft exclusively employed for the removal of wounded and sick and for the transport of medical personnel and equipment, shall not be attacked, but shall be respected by the belligerents, while flying at

⁷⁹⁹ IIHL, Rules of International Humanitarian Law Governing the Conduct of Hostilities in Non-international Armed Conflicts, Rule A5, *IRRC*, No. 278, 1990, p. 391.

⁸⁰⁰ MRND, Official Declaration, 7 July 1993. ⁸⁰¹ ICRC archive documents.

⁸⁰² ICRC archive document. ⁸⁰³ ICRC archive document.

heights, times and on routes specifically agreed upon between the belligerents concerned.

...

Unless agreed otherwise, flights over enemy or enemy-occupied territory are prohibited.

Medical aircraft shall obey every summons to land. In the event of a landing thus imposed, the aircraft with its occupants may continue its flight after examination, if any.

In the event of an involuntary landing in enemy or enemy-occupied territory, the wounded and sick, as well as the crew of the aircraft shall be prisoners of war. The medical personnel shall be treated according to Article 24 and the Articles following.

769. Article 22 GC IV provides that:

Aircraft exclusively employed for the removal of wounded and sick civilians, the infirm and maternity cases or for the transport of medical personnel and equipment, shall not be attacked, but shall be respected while flying at heights, times and on routes specifically agreed upon between all the Parties to the conflict concerned. . . . Unless agreed otherwise, flights over enemy or enemy occupied territory are prohibited. Such aircraft shall obey every summons to land. In the event of a landing thus imposed, the aircraft with its occupants may continue its flight after examination, if any.

770. Article 25 AP I provides that:

In and over land areas physically controlled by friendly forces, or in and over sea areas not physically controlled by an adverse Party, the respect and protection of medical aircraft of a Party to the conflict is not dependent on any agreement with an adverse Party. For greater safety, however, a Party to the conflict operating its medical aircraft in these areas may notify the adverse Party, as provided in Article 29, in particular when such aircraft are making flights bringing them within range of surface-to-air weapons systems of the adverse Party.

Article 25 AP I was adopted by consensus.⁸⁰⁴

771. Article 26 AP I provides that:

1. In and over those parts of the contact zone which are physically controlled by friendly forces and in and over those areas the physical control of which is not clearly established, protection for medical aircraft can be fully effective only by prior agreement between the competent military authorities of the Parties to the conflict, as provided for in Article 29. Although, in the absence of such an agreement, medical aircraft operate at their own risk, they shall nevertheless be respected after they have been recognized as such.
2. "Contact zone" means any area on land where the forward elements of opposing forces are in contact with each other, especially where they are exposed to direct fire from the ground.

Articles 26 AP I was adopted by consensus.⁸⁰⁵

⁸⁰⁴ CDDH, *Official Records*, Vol. VI, CDDH/SR.38, 24 May 1977, p. 89.

⁸⁰⁵ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 94.

772. Article 27 AP I provides that:

1. The medical aircraft of a Party to the conflict shall continue to be protected while flying over land or sea areas physically controlled by an adverse Party, provided that prior agreement to such flights has been obtained from the competent authority of that adverse Party.
2. A medical aircraft which flies over an area physically controlled by an adverse Party without, or in deviation from the terms of, an agreement provided for in paragraph 1, either through navigational error or because of an emergency affecting the safety of the flight, shall make every effort to identify itself and to inform the adverse Party of the circumstances. As soon as such medical aircraft has been recognized by the adverse Party, that Party shall make all reasonable efforts to give the order to land or to alight on water, referred to in Article 30, paragraph 1, or to take other measures to safeguard its own interests, and, in either case, to allow the aircraft time for compliance, before resorting to an attack against the aircraft.

Article 27 AP I was adopted by consensus.⁸⁰⁶

773. Article 28 AP I provides that:

1. The Parties to the conflict are prohibited from using their medical aircraft to attempt to acquire any military advantage over an adverse Party. The presence of medical aircraft shall not be used in an attempt to render military objectives immune from attack.
2. Medical aircraft shall not be used to collect or transmit intelligence data and shall not carry any equipment intended for such purposes. They are prohibited from carrying any persons or cargo not included within the definition in Article 8, sub-paragraph f). The carrying on board of the personal effects of the occupants or of equipment intended solely to facilitate navigation, communication or identification shall not be considered as prohibited.
3. Medical aircraft shall not carry any armament except small arms and ammunition taken from the wounded, sick and shipwrecked on board and not yet handed to the proper service, and such light individual weapons as may be necessary to enable the medical personnel on board to defend themselves and the wounded, sick and shipwrecked in their charge.

Article 28 AP I was adopted by consensus.⁸⁰⁷

774. Upon ratification of AP I, France stated that:

Given the practical need to use non-dedicated aircraft for medical evacuation missions, the Government of the Republic of France does not interpret paragraph 2 of Article 28 as precluding the presence on board of communication equipment and encryption material or the use thereof solely to facilitate navigation, identification or communication in support of a medical transportation mission as defined in Article 8.⁸⁰⁸

⁸⁰⁶ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 95.

⁸⁰⁷ CDDH, *Official Records*, Vol. VI, CDDH/SR.39, 25 May 1977, p. 97.

⁸⁰⁸ France, Reservations and declarations made upon ratification of AP I, 11 April 2001, § 5.

775. Upon ratification of AP I, the UK declared with respect to Article 28(2) that:

Given the practical need to make use of non-dedicated aircraft for medical evacuation purposes, the United Kingdom does not interpret this paragraph as precluding the presence on board of communication equipment and encryption materials or the use thereof solely to facilitate navigation, identification or communication in support of medical transportation as defined in Article 8 (f).⁸⁰⁹

Other Instruments

776. Paragraph 53(a) of the 1994 San Remo Manual provides that medical aircraft are exempt from attack. Paragraph 54 lists the following conditions of exemption:

Medical aircraft are exempt from attack only if they:

- (a) have been recognised as such;
- (b) are acting in compliance with an agreement . . .
- (c) fly in areas under the control of own or friendly forces; or
- (d) fly outside the area of armed conflict.

In other instances, medical aircraft operate at their own risk.

777. Paragraph 178 of the 1994 San Remo Manual states that:

Medical aircraft shall not be used to commit acts harmful to the enemy. They shall not carry any equipment intended for the collection or transmission of intelligence data. They shall not be armed, except for small arms for self-defence, and shall only carry medical personnel and equipment.

II. National Practice

Military Manuals

778. Argentina's Law of War Manual restates Articles 36 GC I and 22 GC IV.⁸¹⁰

779. Australia's Defence Force Manual states that:

972. . . . Medical aircraft must be respect and protected at all times and must not be attacked. Their immunity ceases once they are used for purposes hostile to the adverse party and outside their humanitarian purpose.

...

977. Medical aircraft may fly over land physically controlled by their own or friendly forces, and over sea areas not under enemy control. However, it is advisable that the enemy be informed if such flights are likely to bring the aircraft within range of enemy surface-to-air weapon systems.

978. In accordance with LOAC, flight of such aircraft over enemy or enemy-occupied territory is forbidden without prior agreement. In the absence of such agreement, medical aircraft operating in parts of the zone controlled by friendly forces, and over areas the control of which is doubtful, do so at their own risk, but once they are recognised as medical aircraft they must be respected.

⁸⁰⁹ UK, Reservations and declarations made upon ratification of AP I, 28 January 1998, § (e).

⁸¹⁰ Argentina, *Law of War Manual* (1969), §§ 3.017 and 4.006.

979. Provided prior agreement has been obtained from the enemy, medical aircraft belonging to a combatant remain protected while flying over land or sea areas under the physical control of the enemy. If it deviates for any reason from the terms of such an agreement, the aircraft shall take immediate steps to identify itself. Upon being recognised as a medical aircraft, the adverse party may order it to land, or take such other steps to safeguard its own interests, and must allow time for compliance before attacking the aircraft.

980. Known medical aircraft are entitled to protection while performing medical functions... Medical aircraft must not be used in order to gain any military advantage and while carrying out flights in accordance with the two preceding paragraphs, shall not, without prior agreement, be used to search for the wounded, sick and shipwrecked.⁸¹¹

780. Belgium's Law of War Manual states that:

Medical aircraft are immune from attack during the flights agreed upon beforehand between belligerents. They may not fly over enemy controlled or occupied territory without authorisation. They must obey each order to land... No authorisation is necessary to fly over territory controlled by one's own forces. Medical aircraft are still protected above contact zones, but the risk of sustaining damage are bigger in the absence of an agreement.⁸¹²

781. Canada's LOAC Manual states that "medical aircraft, correctly identified and exclusively used as such, are immune from attack".⁸¹³ The manual further states that:

41. Medical aircraft are free to fly over land physically controlled by their own or friendly forces, and over sea areas not under enemy control. It is advisable, however, that the adverse party be informed if such flights are likely to bring the aircraft within range of surface-to-air weapon systems of the adverse party.
42. Flight of medical aircraft over enemy or enemy-occupied territory is forbidden without prior agreement. In the absence of such agreement, medical aircraft operating in parts of the contact zone controlled by friendly forces, and over areas the control of which is doubtful, do so at their own risk. "Contact zone" means any area on land where the forward elements of opposing forces are in contact with each other, especially where they are exposed to direct fire from the ground.
43. Provided prior agreement has been obtained from the adverse party, medical aircraft belonging to a combatant remain protected while flying over land or sea areas under the physical control of the adverse party. If the aircraft lags or deviates for any reason from the terms of the agreement, the aircraft shall take immediate steps to identify itself. Upon being recognized as a medical aircraft, the adverse party may order it to land, or take such other steps to safeguard its own interests, but must allow time for compliance before attacking the aircraft.

⁸¹¹ Australia, *Defence Force Manual* (1994), §§ 972 and 977-980.

⁸¹² Belgium, *Law of War Manual* (1983), p. 49.

⁸¹³ Canada, *LOAC Manual* (1999), p. 7-5, § 43.

44. Medical aircraft must not be used in order to gain any military advantage. While carrying out flights, medical aircraft shall not, without prior agreement, be used to search for the wounded, sick and shipwrecked.⁸¹⁴

The manual qualifies “attacking a properly marked . . . medical aircraft” as a war crime.⁸¹⁵

782. Croatia’s Commanders’ Manual provides that “medical transports may not be used to collect or transmit intelligence data”.⁸¹⁶

783. Croatia’s Soldiers’ Manual instructs soldiers to respect medical aircraft displaying the distinctive emblem.⁸¹⁷

784. The Military Manual of the Dominican Republic directs soldiers not to attack medical aircraft.⁸¹⁸

785. Ecuador’s Naval Manual qualifies “deliberate attack upon . . . medical aircraft” as a war crime.⁸¹⁹

786. France’s LOAC Summary Note states that “medical transports must not be used to collect military information”.⁸²⁰

787. Germany’s Military Manual states that “the parties to the conflict are prohibited from using their medical aircraft to attempt to acquire any military advantage over an adverse party. The presence of medical aircraft shall not be used in an attempt to render military objectives immune from attack.”⁸²¹

788. Hungary’s Military Manual states that “medical aircraft flying over the high seas, on specified routes, according to an agreement or identified as such” must be protected.⁸²²

789. Indonesia’s Air Force Manual states that medical aircraft must not be attacked, provided they fly on routes, heights and at times agreed between belligerents. The manual further states that medical aircraft lose their immunity if they are used for purposes other than the transportation of the wounded, medical personnel or medical equipment.⁸²³ The manual also states that no immunity is provided to medical aircraft which enter a war zone or enemy controlled territory without prior authorisation or without agreement between the parties to the conflict or when they ignore instructions given by the parties to the conflict.⁸²⁴

790. Italy’s LOAC Elementary Rules Manual provides that “medical transports may not be used to collect or transmit intelligence data”.⁸²⁵

791. Italy’s IHL Manual provides that “medical aircraft attached to the military [medical] service must be respected and protected”.⁸²⁶

⁸¹⁴ Canada, *LOAC Manual* (1999), p. 9-4, §§ 41-47 and p. 11-3, § 22.

⁸¹⁵ Canada, *LOAC Manual* (1999), p. 16-4, § 21(e).

⁸¹⁶ Croatia, *Commanders’ Manual* (1992), § 34.

⁸¹⁷ Croatia, *Soldiers’ Manual* (1992), pp. 2 and 3.

⁸¹⁸ Dominican Republic, *Military Manual* (1980), p. 4.

⁸¹⁹ Ecuador, *Naval Manual* (1989), § 6.2.5.

⁸²⁰ France, *LOAC Summary Note* (1992), § 2.3.

⁸²¹ Germany, *Military Manual* (1992), § 620.

⁸²² Hungary, *Military Manual* (1992), p. 71.

⁸²³ Indonesia, *Air Force Manual* (1990), § 36.

⁸²⁴ Indonesia, *Air Force Manual* (1990), § 46.

⁸²⁵ Italy, *LOAC Elementary Rules Manual* (1991), § 34.

⁸²⁶ Italy, *IHL Manual* (1991), Vol. I, § 14.

792. Lebanon's Teaching Manual provides for respect for aircraft displaying the distinctive emblem.⁸²⁷

793. The Military Manual of the Netherlands restates the rules governing medical aircraft found in Article 25–28 AP I.⁸²⁸

794. New Zealand's Military Manual states that "medical aircraft, correctly identified and exclusively used as such, are for the main part immune from attack".⁸²⁹ It further states that "medical aircraft must be respected and protected at all times and must not be attacked. Their immunity ceases once they are used for purposes hostile to the adverse Party and outside their humanitarian purposes."⁸³⁰ The manual restates the rules governing medical aircraft found in Articles 25–28 AP I.⁸³¹ In addition, the manual specifies that:

Aircraft used exclusively for the removal of wounded and sick civilians, the infirm and maternity cases, or for the transport of medical personnel and equipment must not be attacked when flying at heights, times and on routes specifically agreed upon between all the belligerents concerned . . . In the absence of agreement to the contrary, flights over enemy or enemy-occupied territory are prohibited. Such aircraft must obey every order to land, but, after landing and examination, may continue their flight.⁸³²

According to the manual, "attacking a properly marked . . . medical aircraft" constitutes a war crime recognised by the customary law of armed conflict.⁸³³

795. Nicaragua's Military Manual states, with respect to international armed conflicts, that assistance to the wounded, sick and shipwrecked includes a requirement of "respect for medical aircraft assigned to the evacuation of the wounded and the sick and the transportation of medical personnel and equipment" and "respect for aircraft used to transfer civilian wounded and sick, disabled and elderly or to transport medical personnel or material".⁸³⁴

796. Russia's Military Manual states that "attack, bombardment or destruction of . . . medical aircraft displaying the distinctive emblems" is a prohibited method of warfare.⁸³⁵

797. South Africa's LOAC Manual provides that "medical transport by air must also be respected, even in the absence of any overflying rights, after they have been recognised as medical aircraft".⁸³⁶

798. Spain's LOAC Manual restates the rules governing medical aircraft found in Articles 25–27 AP I.⁸³⁷

⁸²⁷ Lebanon, *Teaching Manual* (1997), p. 77.

⁸²⁸ Netherlands, *Military Manual* (1993), pp. VI-6 and VI-7.

⁸³³ New Zealand, *Military Manual* (1992), § 1704(5).

⁸³⁴ Nicaragua, *Military Manual* (1996), Article 14(8) and (39).

⁸³⁵ Russia, *Military Manual* (1990), § 5(g). ⁸³⁶ South Africa, *LOAC Manual* (1996), § 54.

⁸³⁷ Spain, *LOAC Manual* (1996), Vol. I, § 9.2.c.(3).

799. Sweden's IHL Manual states that Articles 25–27 AP I on the protection of medical aircraft have the status of customary law.⁸³⁸

800. Switzerland's Basic Military Manual provides that:

Art. 91. Medical aircraft (airplanes, helicopters, etc.) exclusively used for the transport of the wounded and sick shall be respected and protected . . . The time, height and route of the flight, as well as the means of identification, must be agreed upon beforehand between the belligerents.

Art. 92. Unless there is an agreement to the contrary, flights over enemy territory are prohibited. Medical aircraft must obey each order to land. After inspection, they may continue their flight with their passengers.⁸³⁹

801. The UK Military Manual restates the rules on medical aircraft found in Articles 36 GC I and 22 GC IV.⁸⁴⁰

802. The UK LOAC Manual provides that:

Helicopters are increasingly used for the evacuation of the wounded. Medical aircraft are protected in the same way as other medical transports, but, having regard to the range of anti-aircraft missiles, the problems of identification are greater. Overflight of enemy-held territory without prior agreement will mean loss of protection. Medical aircraft must obey summonses for inspection. Protocol I contains detailed new rules on medical aircraft and provides for light and radio recognition signals.⁸⁴¹

803. The US Field Manual restates Article 36 GC I and states that:

It is not necessary that the aircraft should have been specially built and equipped for medical purposes. There is no objection to converting ordinary aircraft into medical aircraft or to using former medical aircraft for other purposes, provided the distinctive markings are removed.⁸⁴²

804. The US Air Force Pamphlet states that:

Generally, a medical aircraft, (identified as such) should not be attacked unless under the circumstances at the time it represents an immediate military threat and other methods of control are not available. For example, this might occur when it approaches enemy territory or a combat zone without permission and disregards instructions, or initiates an attack. Attacks might also occur when the aircraft is not identified as a medical aircraft because of lack of agreement as to the height, time and route.⁸⁴³

It further provides that "in addition to grave breaches of the Geneva Conventions of 1949, the following acts are representative of situations involving

⁸⁴⁰ UK, *Military Manual* (1958), §§ 34 and 358–359.

⁸⁴¹ UK, *LOAC Manual* (1981), Section 6, p. 24, § 12.

⁸⁴² US, *Field Manual* (1956), § 237. ⁸⁴³ US, *Air Force Pamphlet* (1976), § 4-2(f).

individual criminal responsibility: (1) deliberate attack on protected medical aircraft".⁸⁴⁴

805. The US Air Force Commander's Handbook provides that:

Medical aircraft, recognized as such, should not be deliberately attacked or fired on. Medical aircraft are not permitted to fly over territory controlled by the enemy, without the enemy's prior agreement. Medical aircraft must comply with requests to land for inspection. Medical aircraft complying with such a request must be allowed to continue their flight, with all personnel on board, if inspection does not reveal that the aircraft has engaged in acts harmful to the enemy or otherwise violated the Geneva Conventions of 1949.⁸⁴⁵

806. The US Naval Handbook qualifies "deliberate attack upon . . . medical aircraft" as a war crime.⁸⁴⁶

807. The YPA Military Manual of the SFRY (FRY) restates the rules on medical aircraft set out in Articles 25–28 AP I.⁸⁴⁷

National Legislation

808. Bangladesh's International Crimes (Tribunal) Act states that the "violation of any humanitarian rules applicable in armed conflicts laid down in the Geneva Conventions of 1949" is a crime.⁸⁴⁸

809. Under Estonia's Penal Code, "an attack against . . . a medical aircraft" is a war crime.⁸⁴⁹

810. Greece's Military Penal Code provides for the protection of medical aircraft.⁸⁵⁰

811. Ireland's Geneva Conventions Act as amended provides that any "minor breach" of the Geneva Conventions, including violations of Article 36 GCI, and of AP I, including violations of Articles 25–27 AP I, is a punishable offence.⁸⁵¹

812. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the Geneva Conventions of 12 August 1949 . . . [and in] the two additional protocols to these Conventions . . . is liable to imprisonment".⁸⁵²

National Case-law

813. No practice was found.

⁸⁴⁴ US, *Air Force Pamphlet* (1976), § 15-3(c)(1).

⁸⁴⁵ US, *Air Force Commander's Handbook* (1980), § 3-2(c).

⁸⁴⁹ Estonia, *Penal Code* (2001), § 106. ⁸⁵⁰ Greece, *Military Penal Code* (1995), Article 156.

⁸⁵¹ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

⁸⁵² Norway, *Military Penal Code as amended* (1902), § 108.

Other National Practice

814. At the CDDH, during a debate in Committee II on Article 32 of draft AP I ("Neutral or other States not parties to the conflict"), Egypt stated that "to attack a medical aircraft is a serious matter and it would be better to take all other possible action first".⁸⁵³

815. At the CDDH, commenting on Article 27 of draft AP I, Egypt stated that "for the protection of medical aircraft, prior agreement is absolutely necessary for aircraft to fly over contact or similar zones".⁸⁵⁴

816. The instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, refer to Articles 25 and 27 AP I.⁸⁵⁵

817. At the CDDH, Japan stated that "flying over enemy occupied areas was still prohibited . . . if [it] occurred by force of urgent necessity, in the absence of an agreement, that constituted a violation of the Protocol".⁸⁵⁶

818. It is reported that in the Vietnam War, US army medical evacuation helicopters marked with the red cross emblem suffered a high loss rate from enemy fire, with the result that some medical evacuation units armed their helicopters with machine guns.⁸⁵⁷

819. In 1987, the Deputy Legal Adviser of the US Department of State affirmed that "we support the principle that known medical aircraft be respected and protected when performing their humanitarian functions". He added: "that is a rather general statement of what is reflected in many, but not all, aspects of the detailed rules in Articles 24 through 31, which include some of the more useful innovations in the Protocol".⁸⁵⁸

820. The Report on US Practice notes that US practice suggests that if enemy forces do not respect the protected status of medical units, the right of self-defence may justify the use of force.⁸⁵⁹

821. In 1991, in a document entitled "Examples of violations of the rules of international law committed by the so-called armed forces of Slovenia", the Ministry of Defence of the SFRY (FRY) included the following example: "Fire

Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 423–424.

⁸⁵⁹ Report on US Practice, 1997, Chapter 2.7.

has been opened on medical and helicopters and planes in spite of their Red Cross signs.”⁸⁶⁰

III. Practice of International Organisations and Conferences

United Nations

822. In 1996, in a report on the situation of human rights in the Sudan, in a section entitled “Human rights violations – Abuses by parties to the conflict other than the Government of Sudan”, the Special Rapporteur of the UN Commission on Human Rights reported that an ICRC plane was shot at and hit when preparing for landing. Following the incident, the ICRC delegation was advised by its headquarters not to fly to certain areas.⁸⁶¹

Other International Organisations

823. No practice was found.

International Conferences

824. No practice was found.

IV. Practice of International Judicial and Quasi-judicial Bodies

825. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

826. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces the rules set out in Articles 25–28 AP I.⁸⁶²

827. In 1978, in a letter to a National Society, the ICRC indicated that medical aircraft are among those objects which “must be respected and protected in all circumstances”.⁸⁶³

828. In 1990, the ICRC protested to a government official responsible for humanitarian aid about the bombardment of one of its planes. It considered that the attack was a grave violation of the duty to respect the red cross emblem and of the security agreement concluded with the government concerned.⁸⁶⁴

829. In a press release issued in 1993 in the context of the conflict in Angola, the ICRC denounced the destruction of one of its planes at Uige airport while

⁸⁶³ ICRC archive document. ⁸⁶⁴ ICRC archive document.

waiting to evacuate 21 foreigners held by UNITA. It called on the parties to comply with IHL and regarded the attack as a serious breach of the principles of IHL concerning respect for the red cross emblem.⁸⁶⁵

VI. Other Practice

830. In 1983, in a letter to the ICRC, the Secretary-General of an armed opposition group justified an attack on an ICRC aircraft on the grounds that his soldiers were “nervous and suspicious of the presence of any aircraft in the region”. In a later letter in 1985, he stated that the armed opposition group would respect the ICRC but did not regard it as “neutral” and considered the protection through the emblem alone as insufficient.⁸⁶⁶

Loss of protection of medical aircraft from attack

831. Specific practice concerning loss of protection of medical aircraft from attack has been included in the subsection on respect for and protection of medical aircraft. In addition, general practice concerning loss of protection of medical units and medical transports from attack is contained in the subsection on loss of protection of medical units and is not repeated here.

F. Persons and Objects Displaying the Distinctive Emblem

I. Treaties and Other Instruments

Treaties

832. Pursuant to Article 8(2)(b)(xxiv) and (e)(ii) of the 1998 ICC Statute, “intentionally directing attacks against buildings, material, medical units and transport, and personnel using the distinctive emblems of the Geneva Conventions in conformity with international law” constitutes a war crime in both international and non-international armed conflicts.

Other Instruments

833. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including the “breach of . . . rules relating to the Red Cross”.

834. In the 1991 Hague Statement on Respect for Humanitarian Principles, the Presidents of the six republics of the former Yugoslavia stated that “the Red Cross emblem must be respected”.

⁸⁶⁵ ICRC, Press Release No. 1737, Angola: Solemn ICRC Appeal, 10 February 1993.

⁸⁶⁶ ICRC archive documents.

835. Paragraph 10 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY provides that “the parties shall repress . . . any attack on persons or property under [the] protection [of the red cross emblem]”.

836. Paragraph 3 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina provides that “the Red Cross emblem shall be respected”.

837. In paragraph II (7) of the 1992 Agreement No. 3 on the ICRC Plan of Action between the Parties to the Conflict in Bosnia and Herzegovina the ICRC requested the parties to “enforce respect for the red cross emblem”.

838. Section 9.7 of the 1999 UN Secretary-General’s Bulletin provides that “the United Nations force shall in all circumstances respect the Red Cross and Red Crescent emblems”.

839. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(xxiv) and (e)(ii), “intentionally directing attacks against buildings, material, medical units and transport, and personnel using the distinctive emblems of the Geneva Conventions in conformity with international law” constitutes a war crime in both international and non-international armed conflicts.

II. National Practice

Military Manuals

840. Australia’s Defence Force Manual provides that “firing upon . . . the Red Cross symbol” constitutes a grave breach or a serious war crime likely to warrant institution of criminal proceedings.⁸⁶⁷

841. Benin’s Military Manual instructs soldiers to “respect and protect persons and objects displaying the red cross [or] red crescent emblem”.⁸⁶⁸

842. Cameroon’s Disciplinary Regulations provides that, under the laws and customs of war, each soldier must respect “the emblems of the Red Cross and of national Red Cross societies which are protective signs as such”.⁸⁶⁹

843. Canada’s LOAC Manual states, with respect to non-international armed conflicts in particular, that “medical and religious personnel, together with medical units and transports shall, under the direction of the competent authority concerned, display the distinctive emblem of the Red Cross or Red Crescent which emblem is to be respected at all times”.⁸⁷⁰

⁸⁶⁷ Australia, *Defence Force Manual* (1994), § 1315(q); see also *Commanders’ Guide* (1994), § 1305(q).

⁸⁶⁸ Benin, *Military Manual* (1995), Fascicule II, pp. 18–19.

⁸⁶⁹ Cameroon, *Disciplinary Regulations* (1975), Article 31.

⁸⁷⁰ Canada, *LOAC Manual* (1999), p. 17-4, § 33.

844. Canada's Code of Conduct states that "international law provides special protection to personnel and facilities displaying the Red Cross or Red Crescent . . . Medical personnel and their medical facilities/buildings and transport displaying the distinctive emblem must not be attacked."⁸⁷¹

845. Colombia's Circular on Fundamental Rules of IHL provides that "the emblem of the red cross (red crescent, red lion and sun) is the sign of that protection [of medical personnel, units and transports] and must be respected".⁸⁷²

846. France's LOAC Summary Note states that "the specific immunity granted to certain persons and objects by the law of war must be strictly observed. Specifically protected persons and objects can be identified by the display of the emblem of the red cross, red crescent or red lion and sun."⁸⁷³ The manual qualifies "attacks against marked property" as a war crime.⁸⁷⁴

847. France's LOAC Manual provides that the red cross and red crescent emblems "indicate that the persons, material and installations which display them have a special protected status and may not be made the object of attack or violence".⁸⁷⁵

848. Germany's Military Manual provides that:

The distinctive emblem of medical and religious personnel as well as that of medical establishments (including hospital ships), medical transports, medical material and hospital zones is the red cross on a white ground. Countries which wish to use the red crescent in place of the red cross shall be free to do so. The two distinctive emblems have no religious significance; they must be equally respected in all places, and at all times.⁸⁷⁶

849. Hungary's Military Manual includes persons and objects displaying the red cross or red crescent emblem among specifically protected persons objects.⁸⁷⁷

850. Indonesia's Air Force Manual requires respect for persons and objects displaying the distinctive emblem.⁸⁷⁸

851. Italy's LOAC Elementary Rules Manual provides that, during military operations, persons and objects displaying the distinctive emblems must be respected.⁸⁷⁹

852. Kenya's LOAC Manual instructs soldiers to "respect all persons and objects bearing the emblem of the Red Cross [or] Red Crescent".⁸⁸⁰

853. Lebanon's Teaching Manual provides for respect for hospitals, ships and medical aircraft displaying the red cross or red crescent emblem.⁸⁸¹

⁸⁷¹ Canada, *Code of Conduct* (2001), Rule 10, § 1.

⁸⁷² Colombia, *Circular on Fundamental Rules of IHL* (1992), § 3.

⁸⁸⁰ Kenya, *LOAC Manual* (1997), Précis No. 3, p. 14.

⁸⁸¹ Lebanon, *Teaching Manual* (1997), p. 77.

854. Madagascar's Military Manual instructs soldiers to "respect persons and objects displaying the distinctive emblem" of the medical service and religious personnel, whether military or civilian.⁸⁸²

855. Nigeria's Soldiers' Code of Conduct states that "signs which protect the wounded, sick, medical, Red Cross/Crescent personnel, ambulances and Red Cross/Crescent relief transports, hospitals, first aid posts, etc. must be identified and respected".⁸⁸³

856. The Philippines' Rules for Combatants provides that "it is forbidden to attack the persons, vehicles and installations which are protected by the Red Cross sign".⁸⁸⁴

857. The Soldier's Rules of the Philippines instructs soldiers to "respect all persons and objects bearing the emblem of the Red Cross, Red Crescent [or] Red Lion and Sun".⁸⁸⁵

858. Romania's Soldiers' Manual prohibits attacks against buildings displaying the emblem.⁸⁸⁶

859. Senegal's IHL Manual states that "the emblem of the red cross and red crescent ensures the protection of medical personnel, units and transports".⁸⁸⁷

860. Switzerland's Basic Military Manual provides that:

The distinctive emblem (red cross, red crescent) serves to indicate, under control of the military authority, the establishments, units, personnel, vehicles and material. It must not be used for other purposes. The emblem indicates that those who wear it must be respected and protected.⁸⁸⁸

The manual further refers to Article 111 of the Military Criminal Code (see *infra*) which qualifies "acts of hostility against persons protected by the red cross" and "destruction of objects protected by the red cross" as war crimes.⁸⁸⁹

861. Togo's Military Manual instructs soldiers to "respect and protect persons and objects displaying the red cross [or] red crescent emblem".⁸⁹⁰

862. The UK LOAC Manual provides that "persons, units or establishments displaying either sign [red cross or red crescent] are protected from attack".⁸⁹¹

863. The US Soldier's Manual instructs members of armed forces not to fire on persons and objects displaying the red cross or red crescent emblem.⁸⁹²

National Legislation

864. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including

⁸⁸² Madagascar, *Military Manual* (1994), Fiche No. 4-T, § 24.

⁸⁸³ Nigeria, *Soldiers' Code of Conduct* (undated), § 5.

⁸⁹¹ UK, *LOAC Manual* (1981), Section 4, p. 16, § 9. ⁸⁹² US, *Soldier's Manual* (1984), p. 7.

“attacking persons or objects using the distinctive emblems of the Geneva Conventions” in both international and non-international armed conflicts.⁸⁹³

865. Azerbaijan’s Criminal Code provides that “directing attacks... against personnel, buildings, installations and transports, using the distinctive emblems of the red cross and red crescent” constitutes a war crime in international and non-international armed conflicts.⁸⁹⁴

866. The Criminal Code of Belarus provides that it is a war crime to “attack personnel, buildings, objects, units and means of transport displaying the protective emblem of the Red Cross or Red Crescent”.⁸⁹⁵

867. Under Burundi’s Draft Law on Genocide, Crimes against Humanity and War Crimes, “intentionally directing attacks against buildings, material, medical units and transport, and personnel using the distinctive emblems of the Geneva Conventions in conformity with international law” is a war crime in both international and non-international armed conflicts.⁸⁹⁶

868. Canada’s Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are “crimes according to customary international law” and, as such, indictable offences under the Act.⁸⁹⁷

869. Under Colombia’s Penal Code, it is a punishable act to attack or destroy, without imperative military necessity:

ambulances or means of medical transport, field hospitals or fixed hospitals, depots of aid material, medical convoys, goods destined for relief and aid of protected persons, . . . medical goods and installations properly marked with the distinctive emblems of the Red Cross or Red Crescent.⁸⁹⁸

870. Congo’s Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes set out in Article 8 of the 1998 ICC Statute.⁸⁹⁹

871. Under Denmark’s Military Criminal Code as amended, failure to respect the distinctive signs reserved for people and materials bringing assistance to the sick and wounded is an offence.⁹⁰⁰

872. The Draft Amendments to the Penal Code of El Salvador punishes anyone who, in the context of an international or non-international armed conflict, “attacks or destroys . . . medical objects and installations properly marked with the emblem of the Red Cross or Red Crescent, without having taken adequate measures of protection and without imperative military necessity”.⁹⁰¹

⁸⁹³ Australia, *ICC (Consequential Amendments) Act* (2002), Schedule 1, §§ 268.66 and 268.78.

⁸⁹⁹ Congo, *Genocide, War Crimes and Crimes against Humanity Act* (1998), Article 4.

⁹⁰⁰ Denmark, *Military Criminal Code as amended* (1978), Article 25.

⁹⁰¹ El Salvador, *Draft Amendments to the Penal Code* (1998), Article entitled “Destrucción de bienes e instalaciones de carácter sanitario”.

873. Under Estonia's Penal Code, "a person who kills, tortures, causes health damage to or takes hostage a member of a medical unit properly identified, or any other person attending to the sick or wounded persons . . . [as well as] a representative of a humanitarian organisation performing his/her duties in a war zone" commits a war crime.⁹⁰²

874. Germany's Law Introducing the International Crimes Code provides that:

Anyone who, in connection with an international or non-international armed conflict, . . . carries out an attack against personnel, buildings, material or medical units and transport designated with the distinctive emblems of the Geneva Conventions . . . in conformity with international humanitarian law, shall be liable to imprisonment for not less than three years. In less serious cases, particularly where the attack is not carried out with military means, the period of imprisonment shall be for not less than one year.⁹⁰³

875. Under the International Crimes Act of the Netherlands, "intentionally directing attacks against buildings, material, medical units and transports, and personnel using the distinctive emblems of the Geneva Conventions in conformity with international law" is a crime, whether committed in an international or a non-international armed conflict.⁹⁰⁴

876. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(xxiv) and (e)(ii) of the 1998 ICC Statute.⁹⁰⁵

877. Under Nicaragua's Military Penal Code, failure to respect the red cross emblem is considered an offence against the laws and customs of war.⁹⁰⁶

878. Nicaragua's Draft Penal Code punishes anyone who, during an international or internal armed conflict, "without having previously taken appropriate measures of protection and without any justification based on imperative military necessity, attacks or destroys . . . objects or installations of medical character properly marked with the conventional signs of the red cross or red crescent".⁹⁰⁷

879. Under Peru's Code of Military Justice, it is an offence to knowingly open fire upon personnel of the Red Cross displaying the distinctive emblem in a situation of combat, on the battlefield or during military operations.⁹⁰⁸

880. Romania's Penal Code provides for the punishment of anyone who "subjects to inhuman treatment . . . members of . . . the Red Cross or any other organisation assimilated with it . . . or subjects such persons to medical or scientific experiments".⁹⁰⁹ It further provides for the punishment of:

⁹⁰² Estonia, *Penal Code* (2001), § 102.

⁹⁰³ Germany, *Law Introducing the International Crimes Code* (2002), Article 1, § 11(1)(2).

⁹⁰⁴ Netherlands, *International Crimes Act* (2003), Articles 5(5)(n) and 6(3)(b).

⁹⁰⁵ New Zealand, *International Crimes and ICC Act* (2000), Section 11(2).

⁹⁰⁶ Nicaragua, *Military Penal Code* (1996), Articles 48–49.

⁹⁰⁷ Nicaragua, *Draft Penal Code* (1999), Article 468.

⁹⁰⁸ Peru, *Code of Military Justice* (1980), Article 96.

⁹⁰⁹ Romania, *Penal Code* (1968), Article 358.

The total or partial destruction of objects marked with the regular distinctive emblem, such as:

- a) buildings . . .
- b) means of transport of any kind assigned to . . . the Red Cross or the organisations assimilated therewith which serve to transport . . . material of the Red Cross or of organisations assimilated therewith.⁹¹⁰

881. Spain's Penal Code provides for the punishment of "anyone who, in the event of armed conflict, should . . . knowingly violate the protection due to medical units and medical transports . . . which are duly identified with signs or the appropriate distinctive signals".⁹¹¹

882. Sweden's Penal Code as amended provides that:

A person guilty of a serious violation of a treaty or agreement with a foreign power or an infraction of a generally recognised principle or tenet relating to international humanitarian law concerning armed conflicts shall be sentenced for crime against international law to imprisonment for at most four years. Serious violations shall be understood to include:

- ...
 - (5) initiating an attack against establishments or installations which enjoy special protection under international law.⁹¹²

883. Under Switzerland's Military Criminal Code as amended, the commission of hostile acts against persons or objects placed under the protection of the distinctive emblems, or impeding the carrying out of their functions is punishable by imprisonment.⁹¹³

884. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xxiv) and (e)(ii) of the 1998 ICC Statute.⁹¹⁴

885. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(xxiv) and (e)(ii) of the 1998 ICC Statute.⁹¹⁵

886. Venezuela's Code of Military Justice as amended provides for the punishment of "those who carry out serious attacks against members of the Red Cross".⁹¹⁶

National Case-law

887. No practice was found.

⁹¹⁵ UK, *ICC Act* (2001), Sections 50(1) and 51(1) (England and Wales) and Section 58(1) (Northern Ireland).

⁹¹⁶ Venezuela, *Code of Military Justice as amended* (1998), Article 474(3).

Other National Practice

888. In 1992, in the context of the conflict in Bosnia and Herzegovina, the Presidency of the Republika Srpska issued a statement calling on “local authorities and the most influential of Serbian people” to respect the red cross emblem “which ought to be used by medical personnel, hospitals and medical transports only”.⁹¹⁷ On another occasion, the Presidency ordered all combatants to “take all measures to respect the Red Cross emblem”.⁹¹⁸

889. Under the instructions given to the French armed forces for the conduct of Opération Mistral, simulating a military operation under the right of self-defence or a mandate of the UN Security Council, the red cross emblem must be respected in all circumstances.⁹¹⁹

890. A note issued by the Kuwaiti Ministry of Defence in 1994 recognised the principle whereby persons and objects displaying the distinctive emblem must be respected.⁹²⁰

891. In 1991, in a document entitled “Examples of violations of the rules of international law committed by the so-called armed forces of Slovenia”, the Ministry of Defence of the SFRY (FRY) included the following example: “Fire has been opened on medical vehicles and helicopters and planes, in spite of their Red Cross signs, medical teams were arrested.”⁹²¹

892. In an order to Yugoslav army units in 1991, the Federal Executive Council of the SFRY requested that “all the participants in the armed conflicts in the territory of Yugoslavia . . . respect and protect the Red Cross sign so as to ensure the safety of all those performing their humanitarian duties under this sign”.⁹²²

893. In 1993 and 1994, in meetings with the ICRC, the Minister of Defence of a State guaranteed that the armed forces would respect any installation displaying the distinctive emblem. It insisted that incidents in which ICRC personnel and objects had been targeted were the work of uncontrolled elements and that strict orders had been issued.⁹²³

894. In 1996, an ICRC document noted several incidents in which ICRC buildings and vehicles displaying the distinctive emblem had been attacked by government forces.⁹²⁴

III. Practice of International Organisations and Conferences

United Nations

895. No practice was found.

Other International Organisations

896. In 1981, in a report on refugees from El Salvador, the Rapporteur of the Parliamentary Assembly of the Council of Europe noted that it had become necessary to launch a large-scale information campaign about the tasks of the Red Cross, because the red cross emblem was frequently being ignored and Red Cross convoys were being fired upon. She proposed that a special appeal should be made to the government of El Salvador and to right- and left-wing extremist groups to, *inter alia*, respect the red cross emblem.⁹²⁵

897. In a resolution adopted in 1994 on respect for international humanitarian law and support for humanitarian action in armed conflicts, the Council of Ministers of the OAU urged all member States and warring parties “to respect the Red Cross, Red Crescent and other humanitarian organization emblems”.⁹²⁶

898. In a resolution adopted in 1994 on respect for international humanitarian law, the OAS urged all member States “to do their utmost to guarantee the security of personnel engaged in humanitarian activities, . . . in particular by respecting the Red Cross emblem”.⁹²⁷

899. In 1994, respect for the red cross and red crescent emblems was included as part of confidence-building measures proposed by the OSCE in the conflict in Nagorno-Karabakh.⁹²⁸

International Conferences

900. At the 1992 Helsinki Summit of Heads of State or Government, CSCE participating States reaffirmed their commitment to respect the protective emblems of the red cross and red crescent.⁹²⁹

901. The Final Declaration adopted by the International Conference for the Protection of War Victims in 1993 urged all States to “make every effort to . . . increase respect for the emblems of the red cross and red crescent”.⁹³⁰

902. In a resolution adopted in 1993, the 90th Inter-Parliamentary Conference called on “all States to make every effort to protect agents from belligerents as

well as common criminals and ensure the immunity which should be guaranteed by the emblems of the Red Cross and Red Crescent".⁹³¹

903. In a resolution on health and war adopted in 1995, the Conference of African Ministers of Health invited the OAU member States "to guarantee the immunity of the emblems of the Red Cross and Red Crescent".⁹³²

IV. Practice of International Judicial and Quasi-judicial Bodies

904. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

905. In a press release issued in 1978 concerning fighting in East Beirut, the ICRC expressed its indignation "at the non-respect of the Red Cross emblem which should be observed for the protection of the medical personnel, units and vehicles which, from the outset, have been repeatedly under attack".⁹³³

906. In 1979, the ICRC appealed to all parties to the conflict in Rhodesia/Zimbabwe to "respect the protective emblem of the Red Cross and thus allow those carry it in the accomplishment of their humanitarian task to work in safety".⁹³⁴

907. In 1980, a National Red Cross Society sent a letter of protest to the army Chief of Staff of a State following an incident in which one of its trucks displaying the distinctive emblem was requisitioned by governmental soldiers and used to transport goods looted in nearby villages, while the driver and other Red Cross employees were detained and forced to accompany the soldiers in their looting.⁹³⁵ Two years later similar violations occurred, when searches conducted by governmental army soldiers in the local Red Cross premises were reported. The head of the delegation of the Federation of Red Cross and Red Crescent Societies asked them to leave, the place being under the protection of the red cross emblem, but later a grenade was thrown into the compound. The head of the Federation delegation made a verbal protest to the Defence Secretary of State. The ICRC delegation proposed making a formal protest to the Ministries of Health and Defence regarding the violation of a place protected by the red cross emblem.⁹³⁶

908. In a press release issued in 1987 after two ambulances clearly marked with the red cross and red crescent emblems suffered direct hits from helicopter gun

fire in southern Lebanon, the ICRC appealed to the parties concerned to respect everywhere and at all times the emblems of the red cross and red crescent "which protect those who provide assistance to all victims of the Lebanese conflict".⁹³⁷

909. In a Memorandum on the Applicability of International Humanitarian Law sent in 1990 to all States party to the Geneva Conventions in the context of the Gulf War, the ICRC stated that "the Red Cross and Red Crescent emblems must be respected in all circumstances. Medical and religious personnel, ambulances, hospitals and other medical units and means of transport and respected accordingly."⁹³⁸

910. In 1991, the ICRC appealed to the parties to the conflict in the former Yugoslavia "to respect and ensure respect for the Red Cross emblem so as to guarantee the safety of those engaged in humanitarian activities under its protection".⁹³⁹

911. In a joint statement adopted in 1991, the Yugoslav Red Cross and the Hungarian Red Cross expressed their deep concern about "the protracting internal conflict in Yugoslavia" and urged the parties to the conflict "to do their utmost to ensure respect for the Red Cross sign".⁹⁴⁰

912. In a press release in 1992, the ICRC enjoined the parties to the conflict in Bosnia and Herzegovina "to respect and ensure respect for the Red Cross emblem so as to guarantee the safety of medical personnel and Red Cross workers carrying out their humanitarian mandate".⁹⁴¹

913. In a press release in 1992, the ICRC enjoined the parties to the conflict in Afghanistan "to respect and ensure respect for the Red Cross or Red Crescent emblem so as to guarantee the safety of all those engaged in humanitarian activities under its protection".⁹⁴²

914. In 1992, the ICRC appealed to all parties to the conflict in Bosnia and Herzegovina to "instruct all combatants in the field to respect . . . the Red Cross emblem".⁹⁴³

915. In a press release in 1992, the ICRC urged the parties to the conflict in Tajikistan "to respect and ensure respect for the Red Cross or Red Crescent

emblem, so as to guarantee the safety of medical staff and workers carrying out their humanitarian tasks under its protection".⁹⁴⁴

916. In a press release in 1992, the ICRC enjoined the parties to the conflict in Chechnya "to respect both the Red Cross and the Red Crescent emblems, so as to guarantee the safety of medical personnel and relief workers carrying out humanitarian tasks under their protection".⁹⁴⁵

917. In a communication to the press issued in 1993 following the destruction of its delegation in Huambo (Angola), the ICRC appealed to the parties to comply with the rules of IHL concerning the red cross emblem.⁹⁴⁶

918. In 1993, the Brazilian Red Cross condemned the destruction of the ICRC delegation in Huambo (Angola).⁹⁴⁷

919. In a communication to the press in 1993, the ICRC enjoined the parties to the conflict in Somalia "to respect the Red Cross or Red Crescent emblem and not to abuse it, so as to guarantee the safety of the victims it is meant to protect and of all those engaged in humanitarian activities under this emblem".⁹⁴⁸

920. In a declaration issued in 1994 in the context of the conflict between the Mexican government and the EZLN, the Mexican Red Cross stated that "protection must be extended to health personnel in general and, in particular, to Mexican Red Cross personnel as well as their equipment, installations and transport facilities which are duly identified with the red cross on a white background".⁹⁴⁹

921. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that "medical and religious personnel, hospitals, ambulances and other medical units and means of transport shall be protected and respected; the red cross emblem, which is the symbol of that protection, must be respected in all circumstances".⁹⁵⁰

922. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that "medical and religious personnel, ambulances, hospitals and other medical units and means of transport shall be protected

and respected, the emblem of the Red Cross, which is the symbol of that protection must be respected in all circumstances".⁹⁵¹

923. In a press release in 1995, the ICRC appealed to all the parties involved in Turkey's military operations in northern Iraq "to respect the Red Cross and Red Crescent emblems".⁹⁵²

924. In a working paper on war crimes submitted in 1997 to the Preparatory Committee for the Establishment of an International Criminal Court, the ICRC listed attacks against buildings, material, medical units and transports, and personnel entitled to use, in conformity with international law, the distinctive emblems of the red cross and red crescent, as serious violations of IHL applicable in international and non-international armed conflicts to be subject to the jurisdiction of the ICC.⁹⁵³

925. In a communication to the press issued in 2000 following two separate incidents in Colombia in which wounded combatants being evacuated by the ICRC were seized and summarily executed by men belonging to opposition forces, the ICRC stated that these acts constituted serious violations of IHL and called on all the warring parties to respect the red cross emblem.⁹⁵⁴

926. In a communication to the press issued in 2001 following the killing of six ICRC staff members by unidentified assailants in the DRC, the ICRC condemned "in the strongest terms this attack and the flouting of the red cross emblem".⁹⁵⁵

927. In 2001, following the bombing of an ICRC compound by US aircraft in Kabul, the ICRC recalled that "international humanitarian law obliges the parties to conflict to respect the red cross and red crescent emblems".⁹⁵⁶

928. In a communication to the press issued in 2001 in the context of the conflict in Afghanistan, the ICRC reminded all the parties involved – the Taliban, the Northern Alliance, and the US-led coalition – of their obligation to respect the red cross and red crescent emblems.⁹⁵⁷

⁹⁵¹ ICRC, Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise, 23 June 1994, § I, reprinted in Marco Sassòli and Antoine A. Bouvier, *How Does Law Protect in War?*, ICRC, Geneva, 1999, p. 1309.

⁹⁵⁷ ICRC Communication to the Press No. 01/47, Afghanistan: ICRC calls on all parties to conflict to respect international humanitarian law, 24 October 2001.

VI. Other Practice

929. In 1980, an armed opposition group agreed to be bound by the obligation to protect medical personnel and objects displaying the red cross emblem.⁹⁵⁸

930. In 1983, a representative of an armed opposition group assured ICRC representatives that it would fully respect persons and vehicles displaying the emblem.⁹⁵⁹

931. In 1985, in a meeting with the ICRC, a representative of an armed opposition group stated that the group respected the emblem and that instructions had been given to the troops to that effect. However, he considered that the National Red Cross Society was only a governmental organisation and was not neutral.⁹⁶⁰ In a subsequent meeting, another representative stated that the display of the emblem was not sufficient to ensure the protection of Red Cross vehicles.⁹⁶¹

932. According to eye-witness statements collected by the ICRC in 1992, a camp for displaced persons protected by the red cross emblem was attacked by an armed opposition group. The ICRC delegates noted that there were no military installations nearby and that the camp was clearly indicated and well known in the region.⁹⁶²

933. In 1992, in a meeting with the ICRC, an armed opposition group agreed to respect the emblem.⁹⁶³

934. In 1995, a representative of an armed opposition group assured the ICRC that the red cross emblem was well known and respected by all, as long as Red Cross vehicles were not used to transport troops.⁹⁶⁴

**HUMANITARIAN RELIEF PERSONNEL
AND OBJECTS**

A. Safety of Humanitarian Relief Personnel (practice relating to Rule 31)	§§ 1–281
General	§§ 1–138
Attacks on the safety of humanitarian relief personnel	§§ 139–281
B. Safety of Humanitarian Relief Objects (practice relating to Rule 32)	§§ 282–370

A. Safety of Humanitarian Relief Personnel

General

I. Treaties and Other Instruments

Treaties

1. Article III(57)(c) of the 1953 Panmunjon Armistice Agreement provides that “the Commander of each side shall cooperate fully with the joint Red Cross teams in the performance of their functions, and undertakes to insure the security of the personnel of the joint Red Cross teams in the area under his military control”.

2. Article 17(2) AP I allows the parties to a conflict to appeal to aid societies such as National Red Cross and Red Crescent Societies “to collect and care for the wounded, sick and shipwrecked, and to search for the dead and report their location”. It adds that the parties “shall grant both protection and the necessary facilities to those who respond to this appeal”. Article 17 AP I was adopted by consensus.¹

3. Article 71 AP I provides that:

1. Where necessary, relief personnel may form part of the assistance provided in any relief action, in particular for the transportation and distribution of relief consignments; the participation of such personnel shall be subject to the approval of the Party in whose territory they will carry out their duties.
2. Such personnel shall be respected and protected.

Article 71 AP I was adopted by consensus.²

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.37, 24 May 1977, p. 70.

² CDDH, *Official Records*, Vol. VI, CDDH/SR.43, 27 May 1977, p. 245.

4. Article 7(2) of the 1994 Convention on the Safety of UN Personnel provides that “States Parties shall take all appropriate measures to ensure the safety and security of United Nations and associated personnel”.

Other Instruments

5. Paragraph 2(d) of the 1992 Agreement No. 2 on the Implementation of the Agreement of 22 May 1992 between the Parties to the Conflict in Bosnia and Herzegovina states that “each party undertakes to provide security guarantees to the ICRC in the accomplishment of its humanitarian activities”.

6. In paragraph II(9) of the 1992 Agreement No. 3 on the ICRC Plan of Action between the Parties to the Conflict in Bosnia and Herzegovina, the ICRC requested the parties to “ensure respect for ICRC personnel, local ICRC staff and the personnel of other humanitarian organizations involved in the implementation of this plan”.

7. In paragraph 2 of the 1992 Bahir Dar Agreement, the various Somali organisations attending the meeting on humanitarian issues convened by the Standing Committee on Somalia pledged to guarantee the security of relief personnel.

8. In the 1995 Agreement on Ground Rules for Operation Lifeline Sudan, intended to “improve the delivery of humanitarian assistance to and protection of civilians in need”, the SPLM/A expressed its support for “the following humanitarian conventions and their principles, namely . . . the Geneva Conventions of 1949 and the Protocols Additional to the Geneva Conventions”.

9. Section 9.9 of the 1999 UN Secretary-General’s Bulletin provides that “the United Nations force shall facilitate the work of relief operations which are humanitarian and impartial in character and conducted without any adverse distinction, and shall respect personnel . . . involved in such operations”.

10. In paragraph 1 of the 1999 Agreement on the Protection and Provision of Humanitarian Assistance in the Sudan, the parties agreed to inform the UN of any possible security risks to humanitarian personnel, while recognising the right of the organisation to decide on all security issues relating to its personnel as well as to the personnel of NGOs for whom it provided security coverage.

11. In paragraph 67 of the 2000 Cairo Declaration, participating States committed themselves to ensuring the security of relief workers.

II. National Practice

Military Manuals

12. Argentina’s Law of War Manual provides that personnel involved in relief actions shall be respected and protected.³

13. Australia’s Defence Force Manual states that:

³ Argentina, *Law of War Manual* (1989), § 4.11.

In addition to the special immunity granted to civilian and military medical services there is a number of civilian bodies which are given special protection. These include the International Committee of the Red Cross (ICRC), the Red Cross and Red Crescent Societies . . . [and] personnel involved in relief operations.⁴

14. Canada's Code of Conduct provides that "members of the ICRC wearing the distinctive emblem must be protected at all times".⁵ It further states that:

NGOs such as CARE and *Médecins Sans Frontières* might wear other recognizable symbols. The symbols used by CARE, MSF and other NGOs do not benefit from international legal protection, although their work in favour of the victims of armed conflict must be respected. Upon recognition that they are providing care to the sick and wounded, NGOs are also to be respected.⁶

15. France's LOAC Manual states that "the law of armed conflict provides special protection for . . . relief personnel".⁷

16. The Military Manual of the Netherlands states that "personnel engaged in relief activities must be respected and protected. Only in case of imperative military necessity may their activities be limited."⁸

17. Sweden's IHL Manual states that the rules on the recognition of the role of aid organisations under Article 17 AP I and on the protection of personnel in relief actions under Article 71(2) AP I have the status of customary international law.⁹

18. The YPA Military Manual of the SFRY (FRY) provides that relief personnel are entitled to protection in the performance of their task of "civil protection" and shall not be made the object of attack.¹⁰ The Report on the Practice of the SFRY (FRY) states that the wording "civil protection" also covers humanitarian assistance.¹¹

National Legislation

19. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Articles 17(2) and 71 AP I, is a punishable offence.¹²

20. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".¹³

⁴ Australia, *Defence Force Manual* (1994), § 925.

⁵ Canada, *Code of Conduct* (2001), Rule 10, § 7.

⁶ Canada, *Code of Conduct* (2001), Rule 10, § 9.

⁷ France, *LOAC Manual* (2001), p. 95. ⁸ Netherlands, *Military Manual* (1993), p. VIII-4, § 3.

⁹ Sweden, *IHL Manual* (1991), Section 2.2.3, pp. 18–19.

¹⁰ SFRY (FRY), *YPA Military Manual* (1988), §§ 277–278.

¹¹ Report on the Practice of SFRY (FRY), 1997, Chapter 4.2.

¹² Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

¹³ Norway, *Military Penal Code as amended* (1902), § 108(b).

21. The Act on Child Protection of the Philippines contains an article on “children in situations of armed conflicts” which states that “the safety and protection of those who provide [emergency relief] services . . . shall be ensured”.¹⁴

National Case-law

22. No practice was found.

Other National Practice

23. In 2000, during a debate in the UN Security Council on the protection of UN and associated personnel and humanitarian personnel in conflict zones, Australia recalled the duty of States to provide physical protection and assistance to UN and humanitarian personnel.¹⁵

24. According to the Report on the Practice of Egypt, “because of the importance of relief personnel and objects for the survival of the civilian population, Egypt believes that their protection is a *sine qua non conditio*”.¹⁶

25. In 1997, during a debate in the UN General Assembly, Germany called upon all parties to the conflict in Afghanistan to ensure the safety of UN and other international humanitarian personnel.¹⁷

26. In 1998, during a debate in the UN General Assembly, Germany deeply deplored “the hostility, particularly among the Taliban, towards the community of international aid workers in Afghanistan” and emphasised that “safety and security [of humanitarian relief personnel] is a non-negotiable issue and a prerequisite for the delivery of humanitarian assistance”.¹⁸

27. According to the Report on the Practice of India, relief personnel enjoy the same protection as medical and religious personnel.¹⁹

28. At the First Periodical Meeting on International Humanitarian Law in 1998, the Iraqi representative requested that “urgent measures be taken to protect relief personnel”.²⁰

29. On the basis of the reply by Iraq’s Ministry of Defence to a questionnaire, the Report on the Practice of Iraq states that:

Protection of relief personnel is an absolute principle, without any restriction, for they must be allowed to perform their activities without impediment, even if the matter necessitates the request for holding a temporary armistice to make room

¹⁴ Philippines, *Act on Child Protection* (1992), Article X, Section 22(d).

for them to carry out their humanitarian roles. The personnel include staff of the International and National Red Cross and Red Crescent.²¹

30. According to the Report on the Practice of Jordan, Jordan has “always assumed the safety of those who are engaged in humanitarian action”.²²

31. According to the Report on the Practice of Kuwait, it is the *opinio juris* of Kuwait that humanitarian relief personnel must be protected from the effects of military operations.²³

32. On the basis of an interview with a legal advisor of the Ministry of Defence, the Report on the Practice of the Netherlands notes that during the negotiations on the 1980 Protocol II to the CCW, one of the more important issues for the Netherlands was “the protection of humanitarian personnel, ICRC delegates in particular, and military personnel assisting in humanitarian relief operations”. It adds that “the Netherlands would have preferred more protective provisions than are now included in the text”.²⁴

33. According to the Report on the Practice of Nigeria, it is the *opinio juris* of Nigeria that the protection of relief personnel is part of customary international law.²⁵

34. On the basis of replies by army officers to a questionnaire, the Report on the Practice of Rwanda states that humanitarian personnel are protected in Rwanda; if necessary, they receive special protection from the Rwandan armed forces. The report notes that there is no practice in Rwanda which could be considered contrary to the principle of the protection of humanitarian personnel. According to the report, it is the *opinio juris* of Rwanda that the principle of the protection of humanitarian personnel is an obligation binding upon all States under customary international law.²⁶

35. In 2000, during a debate in the UN Security Council on the protection of UN and associated personnel and humanitarian personnel in conflict zones, Slovenia referred to States’ primary responsibility to ensure the safety and security of such personnel.²⁷

36. In 2000, during a debate in the UN Security Council on the protection of UN and associated personnel and humanitarian personnel in conflict zones, South Africa stated that “the primary responsibility for the protection of United Nations and humanitarian personnel lies with the host Government”. However,

he added that “non-state parties should similarly protect such personnel, in line with the provisions of international humanitarian law”.²⁸

37. At the First Periodical Meeting on International Humanitarian Law in 1998, Switzerland presented a working paper on the topic of respect for and security of the personnel of humanitarian organisations in which it recommended that “States intensify their efforts in the dissemination of international humanitarian law, especially within their armed and security forces... by emphasising respect for and the protection of humanitarian action and personnel”.²⁹

38. The Report on UK Practice states that “as regards protection of relief personnel and objects, the UK has, both in words and in action, demonstrated support for this principle, as in Iraq, and in the former Yugoslavia”.³⁰

39. According to the Report on the Practice of Zimbabwe, “Zimbabwe regards the relevant provisions of the Geneva Conventions guaranteeing the activities of relief personnel as part of international customary law”.³¹

40. In 1996, a State made assurances that it guaranteed the security of ICRC personnel, but insisted it could not do so in the area controlled by the opposition.³²

III. Practice of International Organisations and Conferences

United Nations

41. In a resolution adopted in 1992, the UN Security Council urged all parties to the conflict in Somalia “to take all the necessary measures to ensure the safety of personnel sent to provide humanitarian assistance, to assist them in their tasks and to ensure full respect for the rules and principles of international law regarding the protection of civilian populations”.³³ This demand was reiterated in 1993.³⁴

42. In a resolution adopted in 1992, in the context of the conflict in Somalia, the UN Security Council called upon “all parties, movements and factions, in Mogadishu in particular, and in Somalia in general, to respect fully the security and safety of humanitarian organizations”.³⁵ This call was reiterated in a subsequent resolution in the same year.³⁶

43. In a resolution adopted in 1992, the UN Security Council demanded that all parties to the conflict in Bosnia and Herzegovina cooperate fully with international humanitarian agencies and take all necessary steps to ensure the safety of their personnel.³⁷ This demand was reiterated the same year.³⁸

44. In a resolution adopted in 1993, the UN Security Council demanded that "all parties guarantee the safety... of all other United Nations personnel as well as members of humanitarian organizations".³⁹ The same year, the Council declared that "full respect for the safety of the personnel engaged in these [humanitarian] operations" in Bosnia and Herzegovina should be observed.⁴⁰

45. In a resolution adopted in 1993 concerning the conflict in Angola, the UN Security Council reiterated "its appeal to both parties to take all necessary measures to ensure the security of UNAVEM II personnel as well as of the personnel involved in humanitarian relief operations".⁴¹

46. In a resolution adopted in 1993 on security and safety of UN forces and personnel, the UN Security Council urged States and parties to a conflict "to cooperate closely with the United Nations to ensure the security and safety of United Nations forces and personnel".⁴²

47. In a resolution adopted in 1994 in the context of the conflict in Somalia, the UN Security Council emphasised the importance it attached to "the safety and security of United Nations and other personnel engaged in humanitarian relief... throughout Somalia".⁴³ This statement was repeated in subsequent resolutions later that year.⁴⁴

48. In a resolution adopted in 1994, the UN Security Council demanded that "all parties in Rwanda strictly respect the persons and premises of the United Nations and other organizations serving in Rwanda".⁴⁵ This demand was reiterated in a subsequent resolution a few weeks later.⁴⁶

49. In a resolution on Somalia adopted in 1994, the UN Security Council underlined "the responsibility of the Somali parties for the security and safety of [international] personnel".⁴⁷

50. In a resolution adopted in 1994 in the context of the conflict in Angola, the UN Security Council demanded that "both parties grant security clearances and guarantees for relief deliveries to all locations and refrain from any action which could jeopardize the safety of relief personnel".⁴⁸

51. In a resolution adopted in 1994 on the situation in Somalia, the UN Security Council emphasised “the responsibility of the Somali parties for the security and safety of . . . personnel engaged in humanitarian activities”.⁴⁹

52. In a resolution adopted in 1995 on the situation in Liberia, the UN Security Council demanded that “all factions in Liberia strictly respect the status of personnel of the ECOWAS Monitoring Group and UNOMIL and those of organizations and personnel delivering humanitarian assistance throughout Liberia”.⁵⁰ This demand was reiterated in two further resolutions adopted the same year.⁵¹

53. In a resolution adopted in 1995 in the context of the conflict in Bosnia and Herzegovina, the UN Security Council demanded that all parties fully respect the safety of UNPROFOR personnel and others engaged in the delivery of humanitarian assistance.⁵²

54. In a resolution adopted in 1996, the UN Security Council underlined “the responsibility of the authorities in Burundi for the security of international personnel”.⁵³

55. In a resolution adopted in 1996, the UN Security Council demanded that “all factions in Liberia strictly respect the status of ECOMOG and UNOMIL personnel, as well as organizations and agencies delivering humanitarian assistance throughout Liberia”.⁵⁴ This demand was reiterated in two further resolutions adopted the same year.⁵⁵

56. In a resolution adopted in 1996, the UN Security Council demanded that “all parties to the conflict and others concerned in Angola take all necessary measures to ensure the safety of United Nations and other international personnel and premises and to guarantee the safety . . . of humanitarian supplies throughout the country”.⁵⁶ This demand was reiterated in a subsequent resolution later the same year.⁵⁷

57. In a resolution adopted in 1996, the UN Security Council demanded that the parties to the conflict in Bosnia and Herzegovina respect the security and freedom of movement of SFOR and other international personnel.⁵⁸

58. In a resolution adopted in 1997 on the implementation of the Lusaka Peace Accords in Angola, the UN Security Council demanded that the government of Angola “ensure the safety of MONUA and other international personnel”.⁵⁹

⁵⁹ UN Security Council, Res. 1127, 28 August 1997, § 14.

59. In a resolution adopted in 1998, the UN Security Council called upon the Angolan government and UNITA “to guarantee unconditionally the safety [and] security . . . of all United Nations personnel and international personnel”.⁶⁰

60. In a resolution adopted in 1998, the UN Security Council demanded that “all Afghan factions and, in particular the Taliban, do everything possible to assure the safety . . . of the United Nations and other international and humanitarian personnel”.⁶¹

61. In a resolution adopted in 1998, the UN Security Council demanded that:

the Government of Angola and in particular UNITA guarantee unconditionally the safety and freedom of movement of the Special Representative of the UN Secretary-General and all United Nations and international humanitarian personnel, including those providing humanitarian assistance.⁶²

62. In a resolution adopted in 1998 on the situation in Kosovo, the UN Security Council reminded the FRY that “it has the primary responsibility for . . . the safety and security of all international and non-governmental humanitarian personnel in the Federal Republic of Yugoslavia”.⁶³ This reminder was repeated in a subsequent resolution in 1999.⁶⁴

63. In a resolution adopted in 1999, the UN Security Council underscored the importance of “the safety [and] security . . . of United Nations and associated personnel to the alleviation of the impact of armed conflict on children”.⁶⁵

64. In a resolution adopted in 1999, the UN Security Council emphasised “the need for combatants to ensure the safety [and] security . . . of United Nations and associated personnel, as well as personnel of international humanitarian organizations”.⁶⁶

65. In a resolution adopted in 2000, the UN Security Council, without reference to any particular conflict, called upon all parties concerned, including non-State parties, “to ensure the safety, security and freedom of movement of United Nations and associated personnel, as well as personnel of humanitarian organizations”.⁶⁷

66. In 1993, in a statement by its President, the UN Security Council reiterated its demand that “States and other parties to various conflicts take all possible steps to ensure the safety and security of United Nations . . . personnel”.⁶⁸

67. In 1993, in a statement by its President following accounts of “an attack to which an humanitarian convoy under the protection of UNPROFOR was subjected on 25 October 1993 in central Bosnia”, the UN Security Council called

upon all parties to the conflict in the former Yugoslavia “to guarantee . . . the security of the personnel responsible” for humanitarian assistance.⁶⁹

68. In 1994, in a statement by its President concerning the conflict in Bosnia and Herzegovina, the UN Security Council demanded that “all parties ensure the safety and security of . . . United Nations personnel and those of non-governmental organizations”.⁷⁰

69. In 1994, in a statement by its President concerning the situation in Rwanda, the UN Security Council urged all parties and factions to respect the “safety and security of . . . United Nations personnel”.⁷¹

70. In 1994, in a statement by its President, the UN Security Council underlined “the responsibility of the Somali parties for the security and safety” of international personnel, including the staff of non-governmental organisations.⁷²

71. In 1995, in a statement by its President concerning the situation in Croatia, the UN Security Council reminded the parties, and in particular the Croatian government, “that they have an obligation to respect United Nations personnel [and] to ensure their safety . . . at all times”.⁷³

72. In 1996, in two statements by its President, the UN Security Council underlined “the responsibility of all parties in Somalia for ensuring the safety and security of humanitarian and other international personnel”.⁷⁴

73. In 1996, in a statement by its President, the UN Security Council stressed that “the authorities in Burundi are responsible for the security of personnel of international humanitarian organizations” and called upon the government of Burundi “to provide adequate security to food convoys and humanitarian personnel”.⁷⁵

74. In 1996, in a statement by its President, the UN Security Council called upon the parties to the conflict in Tajikistan “to ensure the safety . . . of the personnel of the United Nations and other international organizations”.⁷⁶ The Security Council reiterated its call in another statement by its President two months later.⁷⁷

⁶⁹ UN Security Council, Statement by the President, UN Doc. S/26661, 28 October 1993, p. 1.

75. In 1996, in a statement by its President, the UN Security Council reminded all parties to the conflict in Liberia of their responsibility "to ensure the safety of United Nations and other international personnel".⁷⁸

76. In 1996, in a statement by its President concerning, the UN Security Council demanded that all parties to the conflict in Afghanistan "fulfil their obligations and commitments regarding the safety of the United Nations personnel and other international personnel in Afghanistan".⁷⁹

77. In 1996, in a statement by its President, the UN Security Council stressed that the international community's ability to assist in the conflict in Georgia depended on "the full cooperation of the parties, especially the fulfilment of their obligations regarding the safety . . . of international personnel".⁸⁰

78. In 1996, in a statement by its President, the UN Security Council called on all parties in the Great Lakes region "to ensure the security . . . of all international humanitarian personnel".⁸¹

79. In 1997, in a statement by its President with respect to the situation in the Great Lakes region, the UN Security Council demanded that the parties ensure "the security . . . of all United Nations and humanitarian personnel".⁸²

80. In 1997, in a statement by its President, the UN Security Council called upon the parties "to ensure the safety . . . of the personnel of the United Nations . . . and other international personnel in Tajikistan".⁸³

81. In 1997, in a statement by its President, the UN Security Council called upon the Somali factions "to ensure the safety . . . of all humanitarian personnel".⁸⁴

82. In 1997, in a statement by its President, the UN Security Council emphasised "the unacceptability of any acts endangering the safety and security of United Nations and associated personnel, as well as personnel of international humanitarian organizations".⁸⁵

83. In 1997, in a statement by its President concerning the situation in the Great Lakes region, the UN Security Council called upon the ADFL in the strongest terms "to guarantee the safety of humanitarian relief workers . . . in the areas which the ADFL control".⁸⁶

⁹⁵ UN Security Council, Statement by the President, UN Doc. S/PRST/1998/24, 6 August 1998, p. 2.

92. In 1998, in a statement by its President, the UN Security Council urged all parties to the conflict in the DRC “to guarantee the safety and security of United Nations and humanitarian personnel”.⁹⁶

93. In 1998, in a statement by its President, the UN Security Council recalled its “condemnation of the murders of members of the United Nations Special Mission to Afghanistan and the personnel of humanitarian agencies in areas controlled by the Taliban” and demanded that the Taliban “ensure the safety and security of all international personnel”.⁹⁷

94. In a resolution adopted in 1992 on the conflict in the former Yugoslavia, the UN General Assembly demanded that “all parties to the conflict ensure complete safety and freedom of movement for the International Committee of the Red Cross and otherwise facilitate such access”.⁹⁸

95. In a resolution adopted in 1994, the UN General Assembly emphasised that it was “the duty of all parties to the conflict in Sudan to protect relief workers”.⁹⁹

96. In a resolution adopted in 1995, the UN General Assembly strongly urged all parties to the conflict in Afghanistan “to take all necessary measures to ensure the safety of all personnel of humanitarian organizations”.¹⁰⁰

97. In a resolution adopted in 1995 on the situation in Rwanda, the UN General Assembly acknowledged “the responsibility of the Government of Rwanda for the safety and security of all personnel attached to the United Nations Mission for Rwanda . . . and humanitarian organizations” and called upon the government of Rwanda “to take all necessary measures to ensure the safety and security of all personnel attached to the United Nations Assistance Mission for Rwanda . . . and humanitarian organizations”.¹⁰¹

98. In a resolution adopted in 1996, the UN General Assembly called upon “all parties, movements and factions in Somalia to respect fully the safety and security of personnel of the United Nations and its specialized agencies and of non-governmental organizations”.¹⁰²

99. In a resolution adopted in 1996 on the situation of human rights in Afghanistan, the UN General Assembly strongly urged “all parties to the conflict to take all necessary measures to ensure the safety of all personnel of humanitarian organizations . . . in Afghanistan”.¹⁰³

100. In a resolution adopted in 1996 on the 1994 Convention on the Safety of UN Personnel, the UN General Assembly expressed the need “to promote and

protect the safety and security of the personnel who act on behalf of the United Nations".¹⁰⁴

101. In a resolution adopted in 1997 on the situation of human rights in Afghanistan, the UN General Assembly demanded that "all Afghan parties fulfil their obligations and commitments regarding the safety of all personnel of . . . the United Nations and other international organizations".¹⁰⁵

102. In a resolution adopted in 1997 on the safety and security of humanitarian personnel, the UN General Assembly called upon "all Governments and parties in countries where humanitarian personnel are operating to take all possible measures to ensure that the lives and well-being of humanitarian personnel are respected and protected".¹⁰⁶

103. In a resolution adopted in 1998, the UN General Assembly, referring to the situation in Kosovo, called upon the government of the FRY (Serbia and Montenegro) and all others concerned to ensure the safety and security of humanitarian personnel.¹⁰⁷

104. In a resolution adopted in 1999 on the safety and security of humanitarian personnel and protection of UN personnel, the UN General Assembly recalled that:

Primary responsibility under international law for the security and protection of humanitarian personnel and United Nations and its associated personnel lies with the Government hosting a United Nations operation conducted under the Charter of the United Nations or its agreements with relevant organizations.

It urged all other parties involved in armed conflicts "to ensure the security and protection of all humanitarian personnel and United Nations and its associated personnel".¹⁰⁸ The General Assembly further urged all States "to take the necessary measures to ensure the full and effective implementation of the relevant principles and rules of international humanitarian law, as well as relevant provisions of human rights law related to the safety and security of humanitarian personnel and United Nations personnel" and "to take the necessary measures to ensure the safety and security of humanitarian personnel and United Nations and its associated personnel".¹⁰⁹

105. In a resolution adopted in 2000 on the situation of human rights in the Sudan, the UN General Assembly expressed its deep concern at continuing serious violations of IHL by all parties, in particular "the conditions imposed by SPLA/M on humanitarian organizations working in the southern Sudan, which have seriously affected their safety and led to the withdrawal of many of them".¹¹⁰

¹⁰⁷ UN General Assembly, Res. 53/164, 9 December 1998, § 24.

¹⁰⁸ UN General Assembly, Res. 54/192, 17 December 1999, preamble.

¹⁰⁹ UN General Assembly, Res. 54/192, 17 December 1999, §§ 1 and 2.

¹¹⁰ UN General Assembly, Res. 55/116, 4 December 2000, § 2(a)(vi).

106. In a resolution adopted in 2001 on the situation of human rights in the Sudan, the UN Commission on Human Rights expressed its deep concern at continuing serious violations of IHL by all parties to the conflict, in particular “the conditions, in contravention of humanitarian principles, imposed by the Sudanese People’s Liberation Army on humanitarian organizations working in southern Sudan, which have seriously affected their safety”.¹¹¹

107. In a resolution adopted in 1996, the UN Sub-Commission on Human Rights called upon the Burundian authorities “to ensure the security... of foreigners present in Burundian territory, including those who are providing humanitarian or other assistance to Burundi”.¹¹²

Other International Organisations

108. In a resolution adopted in 1989, the Parliamentary Assembly of the Council of Europe stated that it was “preoccupied by the increase in breaches in the security of delegates of the ICRC”.¹¹³

109. In a declaration by the Presidency in 1998 with respect to the situation in Sierra Leone, the EU urged ECOMOG “to ensure that international humanitarian law is upheld and to ensure the security of those engaged in providing such relief”.¹¹⁴

110. In a declaration by the Presidency in 1998, the EU called upon all parties to the conflict in Sudan “to respect and guarantee the security of all personnel of aid organizations and relief flights and their crews”.¹¹⁵

111. In a statement by the Presidency in 1999 on the occasion of the 50th anniversary of the Geneva Conventions, the EU stated that during armed conflicts, the security of humanitarian personnel was frequently not respected.¹¹⁶

112. In 1994, the North Atlantic Council demanded “strict respect for the safety of UNPROFOR and other UN relief agency personnel throughout Bosnia-Herzegovina”.¹¹⁷

113. In a resolution adopted in 1994, the OAU Council of Ministers urged member States and warring parties to ensure the safety of relief personnel.¹¹⁸

114. In a resolution adopted in 1996, the OAU Council of Ministers urged member States “to take all necessary steps to ensure that the personnel of humanitarian organizations are protected and respected by all, in conformity with international law especially international humanitarian law”.¹¹⁹

¹¹⁹ OAU, Council of Ministers, Res. 1662 (LXIV), 1–5 July 1996, § 10.

115. In a resolution adopted in 1996, the OAU Council of Ministers called upon the authorities of Burundi “to take necessary measures to ensure the safety of . . . the personnel of international organizations, IGOs, NGOs, who currently risk their lives to render humanitarian assistance”.¹²⁰

116. In a decision adopted in 1997, the OAU Council of Ministers called upon “the Member States concerned to create conditions of peace and security in order to ensure . . . the safety of relief workers”.¹²¹

117. In a resolution adopted in 1994, the OAS General Assembly urged all member States “to do their utmost to guarantee the security of personnel engaged in humanitarian activities, so as to ensure protection and assistance for all victims”.¹²²

International Conferences

118. In a public statement issued on 31 October 1992, the International Conference on the Former Yugoslavia asked all parties to the conflict to avoid harming UNHCR and other international humanitarian workers in Travnik and called upon all political and military leaders to issue instructions to prevent the further endangerment of these relief workers.¹²³

119. The Final Declaration adopted by the International Conference for the Protection of War Victims in 1993 demanded that “measures be taken at the national, regional and international levels to allow assistance and relief personnel to carry out in all safety their mandate in favour of the victims of an armed conflict”. It further urged “all States to make every effort to . . . take the appropriate measures to enhance respect for [the] safety, security and integrity [of humanitarian organisations], in conformity with applicable rules of international humanitarian law”.¹²⁴

120. In the Vienna Declaration and Programme of Action, the World Conference on Human Rights in 1993 called for “safe and timely access for [humanitarian] assistance”.¹²⁵

121. The 26th International Conference of the Red Cross and Red Crescent in 1995 adopted a resolution on principles and action in international humanitarian assistance and protection calling on States “to fully respect humanitarian operations and the personnel engaged therein in all circumstances”.¹²⁶

122. In 1999, the 102nd Inter-Parliamentary Conference in Berlin adopted a resolution on the occasion of the 50th anniversary of the Geneva Conventions

¹²⁰ OAU, Council of Ministers, Res. 1649 (LXIV), 1–5 July 1996, § 4.

concerning the contribution of parliaments to ensuring respect for and promoting IHL. The resolution called upon States "to strengthen safety and security requirements for humanitarian personnel, including locally recruited staff".¹²⁷ **123.** The Plan of Action for the years 2000–2003 adopted by the 27th International Conference of the Red Cross and Red Crescent in 1999 states that "humanitarian personnel will be respected and protected at all times".¹²⁸

IV. Practice of International Judicial and Quasi-judicial Bodies

124. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

125. In 1992, the ICRC appealed to all parties to the conflict in Bosnia and Herzegovina to "take the action necessary to ensure that ICRC delegates can work effectively and rapidly in adequate conditions of security".¹²⁹

126. In a communication to the press in 1993, the ICRC enjoined the parties to the conflict in Somalia "to facilitate relief operations . . . and to respect the personnel, vehicles and premises involved".¹³⁰

127. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that "the personnel, vehicles and premises of relief agencies shall be protected".¹³¹

128. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the Great Lakes region, the ICRC stated that "relief operations aimed at the civilian population which are exclusively humanitarian, impartial and non-discriminatory shall be facilitated and respected. The personnel, vehicles and premises of relief agencies shall be protected."¹³²

129. At its Seville Session in 1997, the Council of Delegates adopted a resolution on peace, international humanitarian law and human rights in which it reaffirmed that "humanitarian law also extends protection to the relief work

¹²⁷ 102nd Inter-Parliamentary Conference, Berlin, 10–15 October 1999, Resolution on contribution of parliaments to ensuring respect for and promoting international humanitarian law on the occasion of the fiftieth anniversary of the Geneva Conventions, § 3.

of impartial and humanitarian organizations" and further reaffirmed "the obligation, under international humanitarian law, of parties to armed conflicts to respect and protect relief work and in particular personnel engaged in relief operations".¹³³

130. In a preparatory document for the First Periodical Meeting on International Humanitarian Law in 1998, the ICRC emphasised that "generally speaking, the relief operations provided for under international humanitarian law cannot be carried out unless the security of the humanitarian personnel involved is guaranteed. Their safety is therefore directly linked to respect for the law."¹³⁴

131. In a communication to the press issued in 2000 following two separate incidents in Colombia in which wounded combatants being evacuated by the ICRC were seized and summarily executed by men belonging to opposition forces, the ICRC called on all the warring parties to respect individuals engaged in humanitarian work for the victims of the conflict.¹³⁵

132. In a communication to the press issued in 2001 in the context of the conflict in Afghanistan, the ICRC reminded all the parties involved – the Taliban, the Northern Alliance and the US-led coalition – of their obligation to "ensure the safety of medical and humanitarian personnel".¹³⁶

VI. Other Practice

133. In 1982, in a meeting with the ICRC, an armed opposition group declared that it would respect ICRC operations and the lives of ICRC delegates.¹³⁷

134. In a resolution adopted in 1991, the Politico-Military High Command of the SPLM/A stated that "all international and local relief, rehabilitation and development assistance and efforts shall be organized and processed through the Sudan Relief and Rehabilitation Association (SRRA) which shall remain an autonomous humanitarian organization".¹³⁸

135. The SRRA Model Agreement, concluded by the SPLM/A with various international NGOs and agencies in the context of the conflict in southern

Sudan, is aimed at protecting relief personnel and facilitating the delivery of humanitarian relief.¹³⁹

136. In 1994, the SPLM/A concluded an agreement with Operation Lifeline Sudan (OLS), which sought to determine possible corridors for the delivery of relief supplies and humanitarian assistance to war-affected areas. The agreement recognised that “the delivery of humanitarian assistance should be as far as possible practical, safe and cost effective”.¹⁴⁰

137. In 1994, an armed opposition group committed itself to ensuring that the security of ICRC installations, personnel, equipment and activities within its territory were guaranteed in accordance with the provisions of the Geneva Conventions.¹⁴¹

138. At the International Symposium on Water in Armed Conflicts held in Montreux (Switzerland) in 1994, the group of international experts present agreed to “aim for absolute protection of water supplies and systems, and to extend legal protection to include engineers attempting to restore water supplies in times of armed conflict”.¹⁴²

Attacks on the safety of humanitarian relief personnel

I. Treaties and Other Instruments

Treaties

139. Article 7 of the 1994 Convention on the Safety of UN Personnel provides that:

1. United Nations and associated personnel . . . shall not be made the object of attack or of any action that prevents them from discharging their mandate.
2. States Parties shall take all appropriate measures to ensure the safety and security of United Nations and associated personnel. In particular, States Parties shall take all appropriate steps to protect United Nations and associated personnel who are deployed in their territory from the crimes set out in article 9.

140. Article 8 of the 1994 Convention on the Safety of UN Personnel provides that:

Except as otherwise provided in an applicable status-of-forces agreement, if United Nations or associated personnel are captured or detained in the course of the performance of their duties and their identification has been established, they shall not be subjected to interrogation and they shall be promptly released and returned to United Nations or other appropriate authorities. Pending their release such

¹⁴¹ ICRC archive documents.

¹⁴² International Symposium on Water in Armed Conflicts, Montreux, November 1994, *ICRC News*, 24 November 1994, quoted in Marco Sassòli and Antoine A. Bouvier, *How Does Law Protect in War?*, ICRC, Geneva, 1999, pp. 458–459.

personnel shall be treated in accordance with universally recognized standards of human rights and the principles and spirit of the Geneva Conventions of 1949.

141. Article 9(1)(a) of the 1994 Convention on the Safety of UN Personnel provides that the intentional commission of “murder, kidnapping or other attack upon the person or liberty of any United Nations or associated personnel” shall be made by each State party a crime under its national law.

142. Pursuant to Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute, “intentionally directing attacks against personnel . . . involved in a humanitarian assistance . . . mission . . . as long as they are entitled to the protection given to civilians . . . under the international law of armed conflict” constitutes a war crime in both international and non-international armed conflicts.

143. Article 4(b) of the 2002 Statute of the Special Court for Sierra Leone provides that:

The Special Court shall have the power to prosecute persons who committed the following serious violations of international humanitarian law:

...

(b) Intentionally directing attacks against personnel . . . involved in a humanitarian assistance . . . mission . . . as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict.

Other Instruments

144. Article 19(a) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind provides that “murder, kidnapping or other attack upon the person or liberty” of UN and associated personnel involved in a UN operation constitutes a crime against the peace and security of mankind when committed intentionally and in a systematic manner or on a large scale with a view to preventing or impeding that operation from fulfilling its mandate. The commentary on the Article emphasises that:

Attacks against United Nations and associated personnel constitute violent crimes of exceptionally serious gravity which have serious consequences not only for the victims, but also for the international community . . . Attacks against such personnel are in effect directed against the international community and strike at the very heart of the international legal system established for the purpose of maintaining international peace and security . . . The international community has a special responsibility to ensure the effective prosecution and punishment of the individuals who are responsible for criminal attacks against United Nations and associated personnel.

145. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(iii) and (e)(iii), “intentionally directing attacks against personnel . . . involved in a humanitarian assistance . . . mission . . . as long as they are entitled to the protection given to civilians . . . under the international law of armed conflict” constitutes a war crime in both international and non-international armed conflicts.

II. National Practice

Military Manuals

146. Canada's LOAC Manual provides that:

Humanitarian aid societies, such as the Red Cross or Red Crescent Societies, who on their own initiative, collect and care for the wounded, sick and shipwrecked, even in invaded or occupied areas, shall not be made the object of attack. Personnel participating in relief actions shall not be made the object of attack.¹⁴³

National Legislation

147. Australia's ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including "attacking personnel . . . involved in a humanitarian assistance . . . mission" in international and non-international armed conflicts.¹⁴⁴

148. Azerbaijan's Criminal Code provides that "directing attacks against personnel recruited . . . to provide humanitarian assistance" constitutes a war crime in international and non-international armed conflicts.¹⁴⁵

149. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, "intentionally directing attacks against personnel . . . involved in a humanitarian assistance mission . . . as long as they are entitled to the protection given to civilians . . . under the international law of armed conflict" constitutes a war crime in both international and non-international armed conflicts.¹⁴⁶

150. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.¹⁴⁷

151. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes set out in Article 8 of the 1998 ICC Statute.¹⁴⁸

152. Under Estonia's Penal Code, "a person who kills, tortures, causes health damage . . . to a representative of a humanitarian organisation performing his/her duties in a war zone" commits a war crime.¹⁴⁹

153. Under Ethiopia's Penal Code, anyone who "indulges in hostile acts against or threats or insults to persons belonging to the International Red Cross or to corresponding humanitarian relief organizations (the Red Crescent, the Red Lion and Sun) or to the representatives of those organizations" commits a punishable offence.¹⁵⁰

¹⁴³ Canada, *LOAC Manual* (1999), §§ 53 and 54.

¹⁴⁹ Estonia, *Penal Code* (2001), § 102 ¹⁵⁰ Ethiopia, *Penal Code* (1957), Article 293(a).

154. Germany's Law Introducing the International Crimes Code provides that:

Anyone who, in connection with an international or non-international armed conflict, carries out an attack against personnel . . . involved in a humanitarian assistance . . . mission . . . as long as they are entitled to the protection given to civilians or civilian objects under international humanitarian law, shall be liable to imprisonment for not less than three years. In less serious cases, particularly where the attack is not carried out with military means, the period of imprisonment shall be for not less than one year.¹⁵¹

155. Under the International Crimes Act of the Netherlands, "intentionally directing attacks against personnel . . . involved in humanitarian assistance . . . , as long as they are entitled to the protection given to civilians . . . under the international law of armed conflict" is a crime, whether committed in an international or a non-international armed conflict.¹⁵²

156. New Zealand's Crimes (Internationally Protected Persons and Hostages) Amendment Act gives New Zealand's courts extraterritorial jurisdiction over attacks against UN and associated personnel, their property and vehicles, which are criminalised by the Act.¹⁵³

157. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute.¹⁵⁴

158. The Act on Child Protection of the Philippines contains an article on "children in situations of armed conflicts" which provides that those who provide emergency relief services "shall not be subjected to undue harassment in the performance of their work".¹⁵⁵

159. Under Portugal's Penal Code, killing, torturing, treating inhumanely or causing serious injury to the body or health of members of humanitarian organisations in time of war, armed conflict or occupation is a war crime.¹⁵⁶

160. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute.¹⁵⁷

161. The UK UN Personnel Act, which gives effect to certain provisions of the 1994 Convention on the Safety of UN Personnel, provides that:

If a person does outside the United Kingdom any act to or in relation to a UN worker which, if he had done it in any part of the United Kingdom, would have made him guilty of any of the offences mentioned in subsection (2) [*inter alia* murder, manslaughter, culpable homicide, rape, assault causing injury, kidnapping,

abduction and false imprisonment], he shall in that part of the United Kingdom be guilty of that offence.¹⁵⁸

162. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute.¹⁵⁹

National Case-law

163. No practice was found.

Other National Practice

164. In a debate in the Senate in 1995, the Australian government stated that attacks on UN and associated personnel would not be tolerated.¹⁶⁰

165. In an appeal issued in 1992, the Presidency of the Republika Srpska of Bosnia and Herzegovina stated "we shall make efforts to provide, as soon as possible, conditions for operations of the Red Cross and other humanitarian organizations and, in particular, to ensure respect for their representatives, vehicles and supplies and their safe work".¹⁶¹

166. In 1996, in response to a letter written jointly by the Special Rapporteurs of the UN Commission on Human Rights on Extrajudicial, Summary or Arbitrary Executions and for Burundi following a deliberate attack on a vehicle carrying ICRC delegates, the President and the Prime Minister of Burundi wrote that they deplored the incident and indicated that they had requested an independent inquiry to identify the perpetrators.¹⁶²

167. According to the Report on the Practice of Ethiopia, NGOs operating in Ethiopia have reported being harassed.¹⁶³ In addition, it has been reported that "the Ethiopian air force had bombed relief convoys" and that "the EPLF, too, attacked food convoys, claiming that the regime was using them to ship weapons to its troops".¹⁶⁴

168. At the First Periodical Meeting on International Humanitarian Law in 1998, the representative of Ethiopia "deplored and condemned" attacks against relief workers.¹⁶⁵

¹⁵⁸ UK, *UN Personnel Act* (1997), Section 1(1).

¹⁶⁵ Ethiopia, Statement at the First Periodical Meeting on International Humanitarian Law, Geneva, 19–23 January 1998.

169. In 1991, during a debate in the German parliament, a member of parliament strongly protested about threats to relief personnel in southern Sudan. His protest was shared by all parties in the parliament.¹⁶⁶

170. At the First Periodical Meeting on International Humanitarian Law in 1998, the representative of India insisted on the punishment of those who attacked humanitarian personnel. He considered this issue to be of “high priority” for his delegation.¹⁶⁷

171. According to the Report on the Practice of Iran, it is the *opinio juris* of Iran that relief personnel are “immune from attack”.¹⁶⁸

172. The Report on the Practice of Israel states that:

It is the IDF's policy to cooperate with international humanitarian agencies and organizations, both in time of peace and in time of war. In times of hostilities, members of such agencies and organizations would naturally not be the subject of any attack or capture, and would be allowed to continue to execute their mandate, inasmuch as their activities do not directly conflict with military operations.¹⁶⁹

173. In a memorandum submitted to the International Conference for the Protection of War Victims in 1993, Kuwait stated that it considered attacks against humanitarian personnel to be a war crime.¹⁷⁰

174. According to the Report on the Practice of Malaysia, in 1983, the Malaysian government condemned an attack by Vietnamese troops on an international relief encampment in Nong-Chan near the Thai-Kampuchean border.¹⁷¹

175. In 1996, following the killing of six ICRC medical aid workers in Chechnya, the Russian government condemned the murders and ordered the police to investigate the crime. The Chechen Prime Minister stated that his government “would do everything possible to see that the murderers are severely punished as soon as possible”.¹⁷²

176. At the First Periodical Meeting on International Humanitarian Law in 1998, Switzerland presented a working paper on the topic of respect for and security of the personnel of humanitarian organisations, in which it recommended that:

¹⁶⁶ Germany, Lower House of Parliament, Statement by Dr. Werner Schuster, Member of Parliament, 21 June 1991, *Plenarprotokoll* 12/35, p. 2966.

¹⁷¹ Report on the Practice of Malaysia, 1997, Chapter 4.2.

¹⁷² Brian Humphreys, “Chechen Peace Hit by Provocations”, *Christian Science Monitor*, 20 December 1996.

States intensify their efforts in the dissemination of international humanitarian law, especially within their armed and security forces . . . by emphasising respect for and the protection of humanitarian action and personnel . . . The proposed dissemination recalls the rule according to which it is forbidden to attack humanitarian organisations.¹⁷³

The paper also proposed that “national legislation give effect, as widely as possible, to the rules according to which an order to attack a humanitarian organisation does not exonerate anyone from responsibility” and recommended that:

States adopt necessary provisions, especially on the criminal and administrative levels, with a view to pronouncing appropriate sanctions against all those who will have participated, directly or indirectly, in an attack against a humanitarian organisation . . . States on whose territory attacks have taken place initiate without any delay impartial and efficient enquiry procedures . . . States take necessary measures against those who have prepared, participated in or in any other way facilitated an attack against a humanitarian organisation.¹⁷⁴

177. At the First Periodical Meeting on International Humanitarian Law in 1998, the representative of Turkey referred to attacks against humanitarian organisations as “terrorism of modern times”.¹⁷⁵

178. In 1992, during a debate in the UN Security Council on the situation in Bosnia and Herzegovina, the UK stated that attacks on ICRC personnel were contrary to all the provisions of IHL.¹⁷⁶

179. In 1992, in a report submitted pursuant to paragraph 5 of UN Security Council Resolution 771 (1992) on grave breaches of GC IV committed in the former Yugoslavia, the US included among “deliberate attacks on non-combatants” a report that “snipers fired all day at United Nations personnel as they distributed food to people in Sarajevo”.¹⁷⁷

180. During a press briefing on 17 December 1996, an official spokesperson for the US Department of State characterised the killing of six ICRC medical aid workers in Chechnya as “a barbarous act” and condemned it in the strongest possible terms.¹⁷⁸

¹⁷⁸ US, Department of State Daily Press Briefing, 17 December 1996.

181. According to the Report on US Practice, it is the *opinio juris* of the US that “unjustified attacks on international relief workers are also violations of international humanitarian law”.¹⁷⁹

182. At the First Periodical Meeting on International Humanitarian Law in 1998, the representative of Venezuela requested that those who “commit crimes” by attacking relief workers be punished.¹⁸⁰

183. In 1993, in a meeting with the ICRC, a governmental official insisted that incidents in which ICRC personnel and objects were targeted were the work of “uncontrolled elements” and that “strict orders had been issued to respect the ICRC”.¹⁸¹

184. In 1994, a State considered itself responsible for any wrongful act committed by its forces towards ICRC personnel and objects. It undertook to open an inquiry into any problems or security incidents that occurred.¹⁸²

III. Practice of International Organisations and Conferences

United Nations

185. In a resolution adopted in 1992, the UN Security Council deplored “the incident of 18 May 1992 which caused the death of a member of the ICRC team in Bosnia and Herzegovina”.¹⁸³

186. In a resolution adopted in 1993, the UN Security Council condemned repeated attacks carried out by UNITA against UN personnel providing humanitarian assistance and reaffirmed that “such attacks are clear violations of international humanitarian law”.¹⁸⁴

187. In a resolution adopted in 1994 with respect to the conflict in Somalia, the UN Security Council condemned “violence and armed attacks against persons engaged in humanitarian . . . efforts” and demanded that “all Somali parties refrain from any acts of intimidation or violence against personnel engaged in humanitarian . . . work in Somalia”.¹⁸⁵ These statements were reiterated in a subsequent resolution later that year.¹⁸⁶

188. In a resolution adopted in 1994 in the context of the conflict in the former Yugoslavia, the UN Security Council condemned all attacks against humanitarian relief workers in Gorade.¹⁸⁷

189. In a resolution adopted in 1994, the UN Security Council demanded that “all parties in Rwanda strictly respect the persons and premises of the

United Nations and other organizations serving in Rwanda, and refrain from any acts of intimidation or violence against personnel engaged in humanitarian . . . work".¹⁸⁸ These demands were reiterated in a subsequent resolution a few weeks later.¹⁸⁹

190. In a resolution adopted in 1994 authorising the creation of a multinational force in Haiti, the UN Security Council demanded that "no acts of intimidation or violence be directed against personnel engaged in humanitarian or peace-keeping work".¹⁹⁰

191. In a resolution adopted in 1994 in the context of the conflict in Angola, the UN Security Council expressed its grave concern over "the disappearance of humanitarian relief workers on 27 August 1994" and demanded "their immediate release by the responsible parties".¹⁹¹ The latter demand was reiterated in a subsequent resolution.¹⁹²

192. In a resolution adopted in 1994, the UN Security Council strongly condemned "the attacks and harassment" against international personnel serving in Somalia.¹⁹³

193. In a resolution adopted in 1994, the UN Security Council condemned "the detention and maltreatment of . . . humanitarian relief workers and other international personnel" and demanded that all factions in Liberia "strictly respect the status of . . . humanitarian relief agencies working in Liberia, refrain from any acts of violence, abuse or intimidation against them".¹⁹⁴

194. In a resolution adopted in 1994 on the situation in Somalia, the UN Security Council strongly demanded that all parties in Somalia "refrain from any acts of intimidation or violence" against personnel engaged in humanitarian activities.¹⁹⁵

195. In a resolution adopted in 1996 on the situation in Burundi, the UN Security Council condemned "in the strongest terms all acts of violence perpetrated against . . . international humanitarian personnel".¹⁹⁶

196. In a resolution adopted in 1996 in the context of the conflict in Liberia, the UN Security Council condemned "all attacks against and intimidation of personnel of . . . the international organizations and agencies delivering humanitarian assistance".¹⁹⁷

197. In a resolution adopted in 1996, the UN Security Council condemned "the attacks on the United Nations personnel in the Taliban-held territories of Afghanistan, including the killing of the two Afghan staff-members of the

World Food Programme and of the United Nations High Commissioner for Refugees in Jalalabad".¹⁹⁸

198. In a resolution adopted in 1999, the UN Security Council condemned "attacks and the use of force against United Nations and associated personnel, as well as personnel of international humanitarian organizations".¹⁹⁹

199. In 1993, in a statement by its President, the UN Security Council expressed the view that "attacks and other acts of violence, whether actual or threatened, including obstruction or detention of persons, against United Nations . . . personnel are wholly unacceptable".²⁰⁰

200. In 1994, in a statement by its President concerning the conflict in Bosnia and Herzegovina, the UN Security Council condemned "recent attacks against the personnel of . . . UNHCR and other humanitarian organizations".²⁰¹ It reiterated this condemnation in a further statement by its President a few months later.²⁰²

201. In 1994, in a statement by its President in connection with the situation in Haiti, the UN Security Council stated that it would "hold responsible any authorities or individuals in Haiti who endanger the personal security and safety of all personnel involved in such [humanitarian] assistance".²⁰³

202. In 1994, in a statement by its President, the UN Security Council deplored "attacks and harassment directed against . . . international personnel serving in Somalia".²⁰⁴

203. In 1996, in a statement by its President, the UN Security Council expressed its grave concern at "attacks on personnel of international humanitarian organizations" in Burundi.²⁰⁵

204. In 1996, in a statement by its President in the context of the conflict in Somalia, the UN Security Council condemned "the harassment, beatings, abduction and killings of personnel of international humanitarian organizations".²⁰⁶

205. In 1996, in a statement by its President, the UN Security Council condemned "the incident on 3 April 1996 which resulted in the death of two UN-AVEM III personnel, the wounding of a third, and the death of a humanitarian

assistance official" and reiterated the importance it attached to "the safety and security of UNAVEM III and humanitarian assistance personnel".²⁰⁷

206. In 1997, in a statement by its President, the UN Security Council strongly condemned "the attacks on and kidnapping of international personnel, in particular UNMOT, UNHCR and ICRC, and others".²⁰⁸

207. In 1997, in a statement by its President, the UN Security Council expressed its

grave concern at the recent increase in attacks and the use of force against United Nations and other personnel associated with United Nations operations, as well as personnel of international humanitarian organizations, including murder, physical and psychological threats, hostage taking, shooting at vehicles and aircraft, mine-laying, looting of assets and other hostile acts.²⁰⁹

208. In 1997, in a statement by its President following the military coup d'état in Sierra Leone, the UN Security Council strongly condemned "the violence which has been inflicted on both local and expatriate communities, in particular United Nations and other international personnel serving in the country".²¹⁰

209. In 1997, in a statement by its President following a debate on the protection of humanitarian assistance to refugees and others in conflict situations, the UN Security Council expressed its grave concern at "all attacks or use of force against United Nations and other personnel associated with United Nations operations, as well as personnel of humanitarian organizations, in violation of the relevant rules of international law, including those of international humanitarian law".²¹¹

210. In 1997, in a statement by its President in the context of the conflict in Angola, the UN Security Council condemned "the mistreatment of the personnel of the United Nations and international humanitarian organizations in areas under UNITA control".²¹²

211. In 1998, in a statement by its President the UN Security Council strongly condemned "the armed attack in Angola on 19 May 1998 against personnel from the United Nations and the Angolan National Police, in which one person was killed and three people were seriously injured".²¹³

212. In 1998, in a statement by its President in the context of the conflict in Afghanistan, the UN Security Council stated that it was "concerned at recent reports of harassment of humanitarian organizations and at the unilateral decision by the Taliban to relocate humanitarian organizations' offices in Kabul".

It called upon all factions "to facilitate the work of humanitarian agencies to the greatest extent possible".²¹⁴

213. In 1998, in a statement by its President, the UN Security Council condemned "the killing of the two Afghan staff members of the World Food Programme and of the United Nations High Commissioner for Refugees in Jalalabad".²¹⁵

214. In 1998, in a statement by its President, the UN Security Council condemned "all attacks or use of force against United Nations and other personnel associated with United Nations operations as well as personnel of humanitarian organizations, in violation of international law, including international humanitarian law".²¹⁶

215. In 1999, in a statement by its President, the UN Security Council expressed its special concern about "attacks on humanitarian workers, in violation of the rules of international law".²¹⁷

216. In 2000, in a statement by its President, the UN Security Council expressed its grave concern at "continued attacks against United Nations and associated personnel, and humanitarian personnel, which are in violation of international law including international humanitarian law" and strongly condemned "the acts of murder and various forms of physical and psychological violence, including abduction, hostage-taking, kidnapping, harassment and illegal arrest and detention to which such personnel have been subjected".²¹⁸

217. In 2000, in a statement by its President, the UN Security Council reiterated its call for combatants "to ensure the safety [and] security . . . of United Nations and associated personnel and humanitarian personnel".²¹⁹

218. In 2001, in a statement by its President in connection with the deaths of six ICRC staff members in the DRC, the UN Security Council expressed "profound sympathy to the Governments and peoples of Colombia, the Democratic Republic of the Congo and Switzerland" and strongly condemned "the wanton killing of those humanitarian workers".²²⁰

219. In a resolution adopted in 1994, in the context of the conflict in Bosnia and Herzegovina, the UN General Assembly condemned "the attacks on and continuous harassment of the United Nations Protection Force and on personnel working with the Office of United Nations High Commissioner for

Refugees and other humanitarian organizations, most of which are perpetrated by Bosnian Serb forces".²²¹

220. In a resolution on Sudan adopted in 1994, the UN General Assembly stated that it was "disturbed by the continuing failure of Sudan to provide a full impartial investigation of the killings of Sudanese nationals employed by foreign relief organizations and foreign Governments".²²² In a further resolution on Sudan in 1995, the General Assembly reiterated its call upon the government of Sudan "to ensure a full, thorough and prompt investigation by an independent judicial inquiry commission of the killings of Sudanese nationals employed by foreign relief organizations".²²³

221. In a resolution adopted in 1994, the UN General Assembly condemned "in the strongest terms the killing of personnel attached to humanitarian organizations operating in Rwanda".²²⁴ The condemnation was reiterated in 1995.²²⁵

222. In a resolution adopted in 1996 on assistance for the rehabilitation and reconstruction of Liberia, the UN General Assembly deplored "all attacks against and intimidation of personnel of the United Nations, its specialized agencies [and] non-governmental organizations".²²⁶

223. In a resolution adopted in 1995 in the context of the conflict in Bosnia and Herzegovina, Croatia and the FRY (Serbia and Montenegro), the UN General Assembly condemned "all attacks on personnel working with the Office of the United Nations High Commissioner for Refugees and other humanitarian organizations by parties to the conflict".²²⁷

224. In a resolution adopted in 1996, the UN General Assembly expressed concern about "continuing deliberate and indiscriminate aerial bombardments by the Government of the Sudan of civilian targets in southern Sudan, in clear violation of international humanitarian law, which . . . resulted in casualties to civilians, including relief workers".²²⁸

225. In a resolution adopted in 1996 on the Convention on the Safety of UN and Associated Personnel, the UN General Assembly expressed grave concern about the "continuing attacks and acts of violence against United Nations and associated personnel that have caused death or serious injury" and noted that "only a small number of States have become parties to the Convention". It further expressed the need "to promote and protect the safety and security of the personnel who act on behalf of the United Nations, attacks against whom are unjustifiable and unacceptable".²²⁹

²²⁸ UN General Assembly, Res. 51/112, 12 December 1996, preamble.

²²⁹ UN General Assembly, Res. 51/137, 13 December 1996, preamble.

226. In a resolution adopted in 1997 on the safety and security of humanitarian personnel, the UN General Assembly deplored “the rising toll of casualties among humanitarian personnel in complex emergencies, in particular armed conflicts” and strongly condemned “any act or failure to act which obstructs or prevents humanitarian personnel from discharging their humanitarian functions, or which entails their being subjected to threats, the use of force or physical attack frequently resulting in injury or death”.²³⁰ The General Assembly further urged all States:

to ensure that any threat or act of violence committed against humanitarian personnel on their territory is fully investigated and to take all appropriate measures, in accordance with international law and national legislation, to ensure that the perpetrators of such acts are prosecuted.²³¹

227. In a resolution adopted in 1998, the UN General Assembly strongly condemned “the acts of physical violence and harassment to which those participating in humanitarian operations are too frequently exposed”.²³²

228. In a resolution adopted in 1998, the UN General Assembly deplored the killing of humanitarian aid workers in Kosovo.²³³

229. In a resolution adopted in 2000 on the safety and security of humanitarian personnel and the protection of UN personnel, the UN General Assembly strongly condemned “the acts of murder and other forms of physical violence, abduction, hostage-taking, kidnapping, harassment and illegal arrest and detention to which those participating in humanitarian operations are increasingly exposed” as well as “any act or failure to act . . . which entails [humanitarian and UN personnel] being subjected to threats, the use of force or physical attack frequently resulting in injury or death”. It affirmed “the need to hold accountable those who commit such acts”.²³⁴ The General Assembly further urged all States:

to ensure that any threat or act of violence committed against humanitarian personnel on their territory is fully investigated and to take appropriate measures, in accordance with international law and national legislation, to ensure that the perpetrators of such acts are prosecuted . . . to provide adequate and prompt information in the event of arrest or detention of humanitarian personnel or United Nations personnel [and] to take the necessary measures to ensure the speedy release of United Nations and other personnel carrying out activities in fulfilment of the mandate of a United Nations operation who have been arrested or detained in violation of their immunity, in accordance with the relevant conventions referred to in the present resolution and applicable international humanitarian law.²³⁵

²³⁵ UN General Assembly, Res. 54/192, 17 December 1999, §§ 6 and 7.

230. In a resolution adopted in 2000 on the situation of human rights in the Sudan, the UN General Assembly condemned “the murder of four Sudanese relief workers in April 1999 while in the custody of the Sudanese People’s Liberation Army/Movement (SPLA/M)” and expressed its deep concern at continuing serious violations of IHL by all parties, in particular “the difficulties encountered by United Nations and humanitarian staff in carrying out their mandate because of harassment, indiscriminate aerial bombings and the reopening of hostilities”.²³⁶

231. In resolutions adopted between 1991 and 1995, the UN Commission on Human Rights has repeatedly urged all the parties to the conflict in Afghanistan “to undertake all necessary measures to ensure the safety of all personnel of humanitarian organizations”.²³⁷

232. In resolutions adopted in 1994 and 1995, the UN Commission on Human Rights deplored the repeated attacks against UN personnel and the personnel of other humanitarian organisations and NGOs in Somalia.²³⁸

233. In a resolution adopted in 1994 on the human rights situation in the former Yugoslavia, the UN Commission on Human Rights condemned “the use of military force against relief operations”.²³⁹

234. In a resolution adopted in 1994 on the situation of human rights in the Sudan, the UN Commission on Human Rights called upon the government of Sudan “to ensure a full, thorough and prompt investigation by the independent judicial inquiry commission of the killings of Sudanese employees of foreign relief organizations, to bring to justice those responsible for the killings and to provide just compensation to the families of the victims”.²⁴⁰ Similar appeals were made in subsequent resolutions in 1995, 1996 and 1997.²⁴¹

235. In a resolution adopted in 1995 on the human rights situation in the former Yugoslavia, the UN Commission on Human Rights condemned “attacks on and continued harassment of . . . personnel working with the Office of the United Nations High Commissioner for Refugees and other humanitarian organizations, which have caused injuries and the death of those who seek to protect civilians and to deliver humanitarian assistance”. It demanded that all parties “ensure that all persons under their control cease all such attacks and acts of harassment”.²⁴²

236. In a resolution adopted in 1995 on the situation of human rights in Rwanda, the UN Commission on Human Rights condemned “in the strongest

terms the kidnapping and killing . . . of personnel attached to humanitarian organizations operating in the country . . . all of which constitute blatant violations of international humanitarian law".²⁴³

237. In a resolution adopted in 1996 with respect to the conflict in Burundi, the UN Commission on Human Rights strongly condemned "the continued violence against the civilian population, including . . . international humanitarian aid workers".²⁴⁴ In 1997, again with reference to Burundi, the Commission strongly condemned "the murder of three ICRC delegates and urged the government of Burundi to bring the culprits to justice".²⁴⁵

238. In a resolution adopted in 1996, the UN Commission on Human Rights declared that it was "deeply concerned about continued acts of indiscriminate and deliberate aerial bombardment by the Government of the Sudan of civilian targets in southern Sudan, including humanitarian relief operations, in clear violation of international humanitarian law". It called upon the Sudanese government "to cease immediately the deliberate and indiscriminate aerial bombardment of civilian targets and relief operations".²⁴⁶

239. In a resolution adopted in 1997 on the situation of human rights in the Sudan, the UN Commission on Human Rights expressed its deep concern at "arrest of foreign relief workers without charge".²⁴⁷

240. In a resolution adopted in 1996 on the situation of human rights in the Sudan, the UN Commission on Human Rights expressed its deep concern about "continued acts of indiscriminate and deliberate aerial bombardment by the Government of the Sudan of civilian targets in southern Sudan, including humanitarian relief operations, in clear violation of international humanitarian law". It called upon the government of Sudan "to cease immediately the deliberate and indiscriminate aerial bombardment of . . . relief operations".²⁴⁸ The latter demand was reiterated in subsequent resolutions in 1997 and 1998.²⁴⁹

241. In a resolution adopted in 1996, the UN Commission on Human Rights stated that "the Burundian authorities are responsible for ensuring the safety of humanitarian and other aid workers" and appealed to "the authorities of Burundi to strengthen measures to guarantee the security and protection of the staff of international, governmental and non-governmental organizations so as to facilitate their work".²⁵⁰

242. In a resolution on Afghanistan adopted in 1998, the UN Commission on Human Rights condemned "actions by all parties that constitute interference with the delivery of humanitarian assistance to the civilian population of

Afghanistan and which jeopardize the safety of humanitarian personnel". It urged all the Afghan parties "to fulfil their obligations and commitments regarding the safety of all personnel of diplomatic missions, the United Nations and other international organizations, as well as of their premises in Afghanistan".²⁵¹

243. In a resolution adopted in 2001 on the situation of human rights in the Sudan, the UN Commission on Human Rights expressed its deep concern at continuing serious violations of IHL by all parties to the conflict, in particular "the difficulties encountered by United Nations and humanitarian staff in carrying out their mandate because of harassment, indiscriminate aerial bombings and the reopening of hostilities".²⁵²

244. In 1997, in a progress report on UNOMIL, the UN Secretary-General included among apparent or alleged human rights violations in Liberia, "the harassment and detention of members of the international humanitarian community by ULIMO-J fighters at Vonzula, Grand Cape Mount County, resulting in the suspension of humanitarian assistance to the area on 20 December 1996".²⁵³

245. In 1995, a report on extrajudicial, summary or arbitrary executions, the Special Rapporteur of the UN Commission on Human Rights expressed his concern at the escalation of violence against international humanitarian workers in Burundi and referred to the 1994 Convention on the Safety of UN Personnel.²⁵⁴

246. In 1996, in a report on a mission to Burundi, the Special Rapporteur of the UN Commission on Human Rights on Extrajudicial, Summary or Arbitrary Executions mentioned a deliberate attack on a vehicle carrying ICRC delegates, following which he, jointly with the Special Rapporteur on the human rights situation in Burundi, had addressed a letter to the President and the Prime Minister of Burundi expressing their "extreme disgust at that act".²⁵⁵

247. In 1997, following the murder of three ICRC delegates in Burundi, the Special Rapporteur of the UN Commission on Human Rights for Burundi stated that he would not be satisfied "unless those responsible for this heinous crime are prosecuted and appropriately punished".²⁵⁶

248. In 1997, in a report on the situation of human rights in the Sudan, the Special Rapporteur of the Commission on Human Rights described the following incident:

²⁵¹ UN Commission on Human Rights, Res. 1998/70, 21 April 1998, § 5(c) and (e).

²⁵² UN Commission on Human Rights, Res. 2001/18, 20 April 2001, § 2(a)(vii).

²⁵³ UN Secretary-General, Twenty-first progress report on UNOMIL, UN Doc. S/1997/90, 29 January 1997, § 30.

²⁵⁴ UN Commission on Human Rights, Special Rapporteur on Extrajudicial, Summary or Arbitrary Executions, Report on the mission to Burundi from 19 to 29 April 1995, UN Doc. E/CN.4/1996/4/Add.1, 24 July 1995, § 85.

²⁵⁵ UN Commission on Human Rights, Special Rapporteur on Extrajudicial, Summary or Arbitrary Executions, Report, UN Doc. E/CN.4/1997/60/Add.1, 23 December 1996, §§ 85–86.

²⁵⁶ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in Burundi, Second report, UN Doc. E/CN.4/1997/12, 10 February 1997, § 97.

On 1 November 1996, members of another dissident SPLA group led by commander Kerubino Kwanyan Bol . . . seized an aircraft of the International Committee of the Red Cross which had landed by mistake at Wunrock airstrip and kidnapped three Red Cross workers and five SPLA-Mainstream soldiers who were returning from an ICRC hospital in Lokichokio, Kenya. Commander Kerubino accused the ICRC of transporting enemy soldiers, arms and ammunition into Southern Sudan, a charge denied as completely baseless by the ICRC. After more than five weeks of detention Kerubino agreed to release the Red Cross workers . . . The Special Rapporteur is not aware of any attempt by anyone to raise legal questions regarding the responsibility of commander Kerubino and his men for the kidnapping, which is a violation of Sudanese national legislation and a serious breach of international humanitarian law.²⁵⁷

249. The Code of Conduct for Humanitarian Assistance in Sierra Leone, annexed to the 1999 United Nations Inter-Agency Consolidated Appeal for Sierra Leone, contains certain guiding principles for States and non-State entities. The principles provide, *inter alia*, that:

Every effort should be made to ensure security and protection of UN, NGO and associated personnel engaged in humanitarian assistance activities. Protagonists shall be held directly accountable to the UN and the international community for attacks on UN and NGO staff and others connected with the UN and NGO humanitarian operations.²⁵⁸

250. The Principles of Engagement for Emergency Humanitarian Assistance in the Democratic Republic of the Congo, annexed to the 2000 United Nations Inter-Agency Consolidated Appeal for the Democratic Republic of the Congo, state that “the relevant authorities are responsible for creating conditions conducive to the implementing of humanitarian activities. This must cover the security of local and international staff as well as all assets.”²⁵⁹

Other International Organisations

251. In a resolution adopted in 1989, the Parliamentary Assembly of the Council of Europe declared that it was “preoccupied by the increase in breaches in the security of delegates of the ICRC, its installations and means of transport, and by the recent taking of ICRC delegates in Lebanon as hostages in the accomplishment of their mission”.²⁶⁰

252. In a resolution adopted in 1992 on the crisis in the former Yugoslavia, the Parliamentary Assembly of the Council of Europe strongly condemned

²⁵⁷ UN Commission on Human Rights, Special Rapporteur on the Situation of Human Rights in the Sudan, Report, 3 February 1997, § 27.

²⁵⁸ OCHA, United Nations Inter-Agency Consolidated Appeal for Sierra Leone (January–December 1999), December 1998, Annex I, Code of Conduct for Humanitarian Assistance in Sierra Leone, p. 88.

²⁵⁹ OCHA, United Nations Inter-Agency Consolidated Appeal for the Democratic Republic of the Congo (January–December 2000), November 1999, Annex II, Principles of Engagement for Emergency Humanitarian Assistance in the Democratic Republic of the Congo, p. 68, § 2.

²⁶⁰ Council of Europe, Parliamentary Assembly, Res. 921, 6 July 1989, § 8.

“attacks on convoys and personnel of international humanitarian organizations trying to bring relief to the afflicted population in Sarajevo and other places in Bosnia-Herzegovina” and demanded that “violators of humanitarian law are held personally accountable for these violations”.²⁶¹

253. In a recommendation adopted in 1992 on the crisis in the former Yugoslavia, the Parliamentary Assembly of the Council of Europe expressed “its admiration for the courage and dedication of UNPROFOR and the personnel of humanitarian organizations” and condemned all attacks on these persons.²⁶²

254. In a declaration by the Presidency in 1998 on the situation in Sierra Leone, the EU urged ECOMOG “to ensure that international humanitarian law is upheld and to ensure the security of those engaged in providing such relief”.²⁶³

255. In a resolution adopted in 1994 on respect for international humanitarian law and support for humanitarian action in armed conflict, the OAU Council of Ministers condemned “the attacks and killings of the staff of humanitarian organizations”.²⁶⁴

256. In a resolution adopted in 1996 on the situation in Burundi, the OAU Council of Ministers strongly condemned “the brutal and bastardly murder of . . . humanitarian aid-workers”.²⁶⁵

257. In a resolution adopted in 1996 on international humanitarian law, water and armed conflicts in Africa, the OAU Council of Ministers condemned “in the strongest possible terms the attacks and killings, including incitements to acts of violence and threats against the personnel of organizations that are exclusively humanitarian, neutral and impartial”.²⁶⁶

258. In a press release issued on December 1996 on the killing of six ICRC medical aid workers in Chechnya, the Chairman-in-Office of the OSCE stated that he was “horrified to learn of the atrocious crime which claimed the lives of six International Red Cross aid workers . . . in Novye Atagi” and “strongly condemned this act of violence . . . and terrorism”. He urged the competent authorities to clarify the circumstances of the act and to bring those responsible to justice.²⁶⁷

International Conferences

259. In 1992, the Committee of Senior Officials of the CSCE debated the situation in Bosnia and Herzegovina and condemned “attacks on international relief staff and on UNPROFOR”.²⁶⁸

²⁶¹ Council of Europe, Parliamentary Assembly, Res. 984, 30 June 1992, § 8.

²⁶² Council of Europe, Parliamentary Assembly, Rec. 1198, 5 November 1992, § 8.

²⁶³ EU, Declaration on the situation in Sierra Leone by the Presidency on behalf of the EU, 20 February 1998, § 2.

²⁶⁴ OAU, Council of Ministers, Res. 1526 (LX), 6–11 June 1994, § 5.

²⁶⁵ OAU, Council of Ministers, Res. 1649 (LXIV), 1–5 July 1996, § 4.

²⁶⁶ OAU, Council of Ministers, Res. 1662 (LXIV), 1–5 July 1996, § 10.

²⁶⁷ OSCE, Chairman-in-Office, Press Release No. 86/96, 17 December 1996, §§ 1 and 2.

²⁶⁸ CSCE, Decisions of the Committee of Senior Officials, September 1992, *Helsinki Monitor*, 1993, p. 92, § 4.

260. In a resolution on Bosnia and Herzegovina adopted in 1992, the 88th Inter-Parliamentary Conference in Stockholm strongly condemned “the escalation of violence by armed attacks against humanitarian . . . personnel” and insisted that “such attacks cease immediately”.²⁶⁹

261. In a resolution adopted in 1993, the 90th Inter-Parliamentary Conference in Canberra expressed regret that “the international relief and protection effort during armed conflicts . . . is encountering serious difficulties and dangers, including . . . attacks against humanitarian personnel”.²⁷⁰

262. In a resolution adopted in 1994, the Parliamentary Assembly of the CSCE condemned attacks against personnel of UNPROFOR and humanitarian organisations in Bosnia and Herzegovina.²⁷¹

263. In a resolution adopted in 1999 on the occasion of the 50th anniversary of the Geneva Conventions, the 102nd Inter-Parliamentary Conference in Berlin urged States “to halt arms transfers to parties that target relief workers [and] undermine humanitarian assistance”.²⁷²

264. The Plan of Action for the years 2000–2003 adopted by the 27th International Conference of the Red Cross and Red Crescent in 1999 states that “threats to, and attacks on, [humanitarian] personnel will be duly investigated and those alleged to have committed such attacks will be brought to justice under due process of law”.²⁷³

IV. Practice of International Judicial and Quasi-judicial Bodies

265. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

266. Following the murder of two ICRC expatriates and one local staff member in May 1978 in Zimbabwe, the ICRC asked the highest authorities of the parties to the conflict to investigate the case and demanded that immediate measures be taken to ensure respect for the red cross emblem and the security of ICRC delegates.²⁷⁴

²⁶⁹ 88th Inter-Parliamentary Conference, Stockholm, 7–12 September 1992, Resolution on support to the recent international initiatives to halt the violence and put an end to the violations of human rights in Bosnia and Herzegovina, § 5.

²⁷⁰ 90th Inter-Parliamentary Conference, Canberra, 13–18 September 1993, Resolution on respect for international humanitarian law and support for humanitarian action in armed conflicts, preamble.

²⁷¹ CSCE, Parliamentary Assembly, Vienna Declaration, Chapter IV: Resolution on the former Yugoslavia, Doc. PA (94) 7, 8 July 1994, § 10.

²⁷² 102nd Inter-Parliamentary Conference, Berlin, 10–15 October 1999, Resolution on contribution of parliaments to ensuring respect for and promoting international humanitarian law on the occasion of the fiftieth anniversary of the Geneva Conventions, § 16.

²⁷³ 27th International Conference of the Red Cross and Red Crescent, Geneva, 31 October–6 November 1999, Res. I, Annex 2, Plan of Action for the years 2000–2003, Actions proposed for final goal 2.4, § 12.

²⁷⁴ Death of four members of ICRC delegations, *IRRC*, No. 204, 1978, pp. 166–167.

267. In the context of an internal conflict, the kidnapping of an ICRC medical worker was reported. In its communications with the armed opposition group responsible for this act, the ICRC reminded the group that it must respect the Geneva Conventions and the fundamental rules of IHL, because the commitment it made in 1980 was still applicable.²⁷⁵

268. At its Birmingham Session in 1993, the Council of Delegates adopted a resolution on armed protection of humanitarian assistance in which it expressed its deep concern about “the hazardous and dangerous conditions under which humanitarian assistance has had to be carried out in various disaster areas in recent years”.²⁷⁶

269. At its Birmingham Session in 1993, the Council of Delegates adopted a resolution on principles of humanitarian assistance in which it reminded States, in particular,

of the basis for and the nature of humanitarian assistance, as established by international humanitarian law, the Fundamental Principles and the Statutes of the International Red Cross and Red Crescent Movement:

- ...
- b) *with respect to States*: the duty – which is in the first instance theirs – to assist people who are placed *de jure* or *de facto* under their authority and, should they fail to discharge this duty, the obligation to authorize humanitarian organizations to provide such assistance, to grant such organizations access to the victims and to protect their action.²⁷⁷ [emphasis in original]

270. At its Seville Session in 1997, the Council of Delegates adopted a resolution on peace, international humanitarian law and human rights in which it expressed alarm at “the ever-more frequent threats to the safety and security of Red Cross and Red Crescent personnel and of the staff of other humanitarian organizations, in particular through intentional and often fatal violent attacks”.²⁷⁸

271. In a communication to the press issued in April 2001 following the killing of six ICRC staff members by unidentified assailants in the DRC, the ICRC condemned “in the strongest terms this attack and the flouting of the red cross emblem”.²⁷⁹

²⁷⁵ ICRC archive documents.

²⁷⁶ International Red Cross and Red Crescent Movement, Council of Delegates, Birmingham Session, 29–30 October 1993, Res. 5, preamble.

²⁷⁷ International Red Cross and Red Crescent Movement, Council of Delegates, Birmingham Session, 29–30 October 1993, Res. 11, § 1(b).

²⁷⁸ International Red Cross and Red Crescent Movement, Council of Delegates, Seville Session, 25–27 November 1997, Res. 8, Part 5, preamble.

²⁷⁹ ICRC, Communication to the Press No. 01/14, Six ICRC staff killed in Democratic Republic of the Congo, 27 April 2001.

VI. Other Practice

272. In the context of an internal conflict, an armed opposition group undertook not to attack ICRC personnel, vehicles and planes.²⁸⁰

273. In meetings with the ICRC in 1981 and 1982, an armed opposition group agreed to respect ICRC personnel and vehicles.²⁸¹

274. In 1985, in a meeting with the ICRC, the UN Secretary-General of an armed opposition group stated that the attacks on ICRC personnel and relief objects which had been committed by the forces of the group had taken place solely because ICRC personnel were located close to a combat area. With respect to an attack on an ICRC plane, the Secretary-General justified the attack on the grounds that his forces were "nervous and suspicious of any aircraft present in the region".²⁸²

275. In meetings with the ICRC in 1988 and 1989, several factions involved in an internal armed conflict stated that they had instructed their combatants not to attack ICRC personnel.²⁸³

276. In 1992, the government of a separatist entity guaranteed the safe conduct of ICRC personnel within the territory under its control.²⁸⁴

277. In 1992, an armed opposition group agreed to respect ICRC operations and the lives of ICRC delegates.²⁸⁵

278. In 1994, in a meeting with ICRC representatives, an official of an armed opposition group guaranteed the security of ICRC personnel in the territory it controlled.²⁸⁶

279. In 1994, in a letter addressed to the ICRC, an armed opposition group agreed to guarantee the safety of ICRC personnel and to instruct its forces not to attack ICRC personnel. It also pledged to respect Red Cross and Red Crescent installations and vehicles. Accordingly, it condemned the looting of an ICRC convoy and assured the ICRC of its continuing efforts to ensure the security of ICRC personnel and objects and to recover any lost property.²⁸⁷

280. In 1996, UNITA, a party to the conflict in Angola, committed itself to ensuring that relief personnel and objects would be spared from attack.²⁸⁸

281. In 1997, a military commander of an armed opposition group told ICRC representatives that he "would never attack the Red Cross". A leader of the same group also assured the ICRC that its combatants would respect Red Cross personnel in all circumstances.²⁸⁹

B. Safety of Humanitarian Relief Objects

I. Treaties and Other Instruments

Treaties

282. Article 70(4) AP I provides that “the Parties to the conflict shall protect relief consignments and facilitate their rapid distribution”. Article 70 AP I was adopted by consensus.²⁹⁰

283. Article 7 of the 1994 Convention on the Safety of UN Personnel provides that:

1. United Nations and associated personnel, their equipment and premises shall not be made the object of attack or of any action that prevents them from discharging their mandate.
2. States Parties shall take all appropriate measures to ensure the safety and security of United Nations and associated personnel. In particular, States Parties shall take all appropriate steps to protect United Nations and associated personnel who are deployed in their territory from the crimes set out in article 9.

284. Article 9(1)(a) of the 1994 Convention on the Safety of UN Personnel provides that the intentional commission of “a violent attack upon the official premises, the private accommodation or the means of transportation of any United Nations or associated personnel likely to endanger his or her person or liberty” shall be made by each State Party a crime under its national law.

285. Pursuant to Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute, “intentionally directing attacks against . . . installations, material, units or vehicles involved in a humanitarian assistance . . . mission . . . as long as they are entitled to the protection given to . . . civilian objects under the international law of armed conflict” constitutes a war crime in both international and non-international conflicts.

286. Article 4(b) of the 2002 Statute of the Special Court for Sierra Leone provides that:

The Special Court shall have the power to prosecute persons who committed the following serious violations of international humanitarian law:

- ...
- (b) Intentionally directing attacks against . . . installations, material, units or vehicles involved in a humanitarian assistance . . . mission . . . as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict.

Other Instruments

287. Based on several documents supplying evidence of outrages committed during the First World War, the 1919 Report of the Commission on Responsibility lists violations of the laws and customs of war which should be subject to criminal prosecution, including “destruction of relief ships”.

²⁹⁰ CDDH, *Official Records*, Vol. VI, CDDH/SR.43, 27 May 1977, p. 245.

288. In paragraph 2 of the 1992 Bahir Dar Agreement, the various Somali organisations attending the meeting on humanitarian issues convened by the Standing Committee on Somalia pledged to guarantee the security of relief objects.

289. Article 19(b) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind provides that “violent attack upon the official premises, the private accommodations or the means of transportation” of any UN and associated personnel involved in a UN operation likely to endanger his or her person constitutes a crime against the peace and security of mankind when committed intentionally and in a systematic manner or on a large scale with a view to preventing or impeding that operation from fulfilling its mandate.

290. Section 9.9 of the 1999 UN Secretary-General’s Bulletin states that “the United Nations force shall facilitate the work of relief operations which are humanitarian and impartial in character and conducted without any adverse distinction, and shall respect . . . vehicles and premises involved in such operations”.

291. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(iii) and (e)(iii), “intentionally directing attacks against . . . installations, material, units or vehicles involved in a humanitarian assistance . . . mission . . . as long as they are entitled to the protection given to . . . civilian objects under the international law of armed conflict” constitutes a war crime in both international and non-international armed conflicts.

II. National Practice

Military Manuals

292. Kenya’s LOAC Manual provides that “the Parties to the conflict shall protect relief consignments and facilitate their rapid distribution”.²⁹¹

293. The US Field Manual notes that, in case of occupation, if the occupied territory is inadequately supplied, “all Contracting Parties shall permit the free passage of [relief] consignments and shall guarantee their protection”.²⁹²

National Legislation

294. Australia’s War Crimes Act considers “any war crime within the meaning of the instrument of appointment of the Board of Inquiry [set up to investigate war crimes committed by enemy subjects]” as a war crime, including the destruction of relief ships.²⁹³

295. Australia’s ICC (Consequential Amendments) Act incorporates in the Criminal Code the war crimes defined in the 1998 ICC Statute, including

²⁹¹ Kenya, *LOAC Manual* (1997), Précis No. 4, p. 5.

²⁹² US, *Field Manual* (1956), § 388.

²⁹³ Australia, *War Crimes Act* (1945), Section 3.

“attacking... objects involved in a humanitarian assistance... mission” in international and non-international armed conflicts.²⁹⁴

296. Under the Criminal Code of the Federation of Bosnia and Herzegovina, it is a war crime to order that “an attack be launched against objects specifically protected by international law” or to carry out such an attack.²⁹⁵ The Criminal Code of the Republika Srpska contains the same provision.²⁹⁶

297. Under Burundi’s Draft Law on Genocide, Crimes against Humanity and War Crimes, “intentionally directing attacks against... installations, material, units or vehicles involved in a humanitarian assistance mission... as long as they are entitled to the protection given to... civilian objects under the international law of armed conflict” constitutes a war crime in both international and non-international armed conflicts.²⁹⁷

298. Canada’s Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are “crimes according to customary international law” and, as such, indictable offences under the Act.²⁹⁸

299. China’s Law Governing the Trial of War Criminals provides that “destroying... relief ships” constitutes a war crime.²⁹⁹

300. Under Colombia’s Penal Code, attacking objects necessary for the assistance and relief of the civilian population is a punishable offence.³⁰⁰

301. Congo’s Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes set out in Article 8 of the 1998 ICC Statute.³⁰¹

302. Under Croatia’s Criminal Code, “the launching of an attack against objects under special protection of international law” is a war crime.³⁰²

303. The Draft Amendments to the Penal Code of El Salvador provide for a prison sentence for:

anyone who, in the context of an international or non-international armed conflict, attacks or destroys... storage of relief supplies, medical convoys, goods destined for the relief and assistance to the civilian population and other protected persons, without having taken adequate measures of protection and without imperative military necessity.³⁰³

304. Under Ethiopia’s Penal Code, anyone who “intentionally destroys or damages in the course of hostilities material, installations or depots” belonging to

²⁹⁴ Australia, *ICC (Consequential Amendments) Act* (2002), Schedule 1, §§ 268.37 and 268.79.

²⁹⁵ Bosnia and Herzegovina, Federation, *Criminal Code* (1998), Article 154(2).

²⁹⁶ Bosnia and Herzegovina, Republika Srpska, *Criminal Code* (2000), Article 433(2).

²⁹⁷ Burundi, *Draft Law on Genocide, Crimes against Humanity and War Crimes* (2001), Article 4(B)(c) and (D)(c).

²⁹⁸ Canada, *Crimes against Humanity and War Crimes Act* (2000), Section 4(1) and (4).

²⁹⁹ China, *Law Governing the Trial of War Criminals* (1946), Article 3(9).

³⁰⁰ Colombia, *Penal Code* (2000), Article 26.

³⁰¹ Congo, *Genocide, War Crimes and Crimes against Humanity Act* (1998), Article 4.

³⁰² Croatia, *Criminal Code* (1997), Article 158(2).

³⁰³ El Salvador, *Draft Amendments to the Penal Code* (1998), Article entitled “Destrucción de bienes e instalaciones de carácter sanitario”.

the ICRC or to corresponding humanitarian relief organisations (the Red Crescent, the Red Lion and Sun) commits a punishable offence.³⁰⁴

305. Germany's Law Introducing the International Crimes Code provides that:

Anyone who, in connection with an international or non-international armed conflict, ... carries out an attack against personnel, installations, material, units or vehicles involved in a humanitarian assistance or peacekeeping mission in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under international humanitarian law, shall be liable to imprisonment for not less than three years. In less serious cases, particularly where the attack is not carried out with military means, the period of imprisonment shall be for not less than one year.³⁰⁵

306. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 70(4) AP I, is a punishable offence.³⁰⁶

307. The Definition of War Crimes Decree of the Netherlands includes "destruction of relief ships" in its list of war crimes.³⁰⁷

308. Under the International Crimes Act of the Netherlands, "intentionally directing attacks against ... installations, material, units or vehicles involved in humanitarian assistance ..., as long as they are entitled to the protection given to ... civilian objects under the international law of armed conflict" is a crime, whether committed in an international or a non-international armed conflict.³⁰⁸

309. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute.³⁰⁹

310. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in ... the two additional protocols to [the Geneva] Conventions ... is liable to imprisonment".³¹⁰

311. Portugal's Penal Code considers attacks on objects necessary for the assistance and relief of the civilian population as a punishable offence.³¹¹

312. Under Slovenia's Penal Code, "an attack on buildings specially protected under international law" is a war crime.³¹²

313. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute.³¹³

³⁰⁴ Ethiopia, *Penal Code* (1957), Article 293(b).

³⁰⁵ Germany, *Law Introducing the International Crimes Code* (2002), § 11.1(1).

³⁰⁶ Ireland, *Geneva Conventions Act as amended* (1962), Section 4(1) and (4).

³⁰⁷ Netherlands, *Definition of War Crimes Decree* (1946), Article 1.

³⁰⁸ Netherlands, *International Crimes Act* (2003), Articles 5(5)(o) and 6(3)(c).

³⁰⁹ New Zealand, *International Crimes and ICC Act* (2000), Section 11(2).

³¹⁰ Norway, *Military Penal Code as amended* (1902), § 108(b).

³¹¹ Portugal, *Penal Code* (1996), Article 241. ³¹² Slovenia, *Penal Code* (1994), Article 374(2).

³¹³ Trinidad and Tobago, *Draft ICC Act* (1999), Section 5(1)(a).

314. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute.³¹⁴

315. Under the Penal Code as amended of the SFRY (FRY), “the launching of an attack on facilities that are specifically protected under international law” is a war crime.³¹⁵

National Case-law

316. No practice was found.

Other National Practice

317. In an appeal issued in 1992, the Presidency of the Republika Srpska of Bosnia and Herzegovina stated “we shall make efforts to provide, as soon as possible, conditions for operations of the Red Cross and other humanitarian organizations and, in particular, to ensure respect for their representatives, vehicles and supplies and their safe work”.³¹⁶

318. The Report on the Practice of Brazil refers to an ICRC booklet compiled by the ICRC delegation in Brazil and used for the instruction of the Brazilian armed forces. The booklet highlights the duty of armed forces to respect relief objects.³¹⁷

319. According to the Report on the Practice of Egypt, “because of the importance of relief personnel and objects for the survival of the civilian population, Egypt believes that their protection is a *sine qua non conditio*”.³¹⁸

320. It was reported in the context of the conflict in Ethiopia, that “the Ethiopian air force had bombed relief convoys” and that “the EPLF, too, attacked food convoys, claiming that the regime was using them to ship weapons to its troops”.³¹⁹

321. In 1991, during a parliamentary debate on the situation in Sudan, a member of the German parliament said that the bombing of Red Cross and UN supply depots by governmental forces in southern Sudan was proof of “completely perverse behaviour”. His protest was shared by all parliamentary parties.³²⁰

322. According to the Report on the Practice of Iran, it is the *opinio juris* of Iran that relief objects are “immune from attack”.³²¹

³¹⁴ UK, *ICC Act* (2001), Sections 50(1) and 51(1) (England and Wales) and Section 58(1) (Northern Ireland).

³¹⁵ SFRY (FRY), *Penal Code as amended* (1976), Article 143.

³¹⁶ Bosnia and Herzegovina, Republika Srpska, Appeal of the Presidency concerning the International Committee of the Red Cross Operations, Pale, 7 June 1992.

³¹⁷ Report on the Practice of Brazil, 1997, Chapter 4.2.

³¹⁸ Report on the Practice of Egypt, 1997, Chapter 4.2.

³¹⁹ Thomas P. Ofcansky and LaVerle Berry (eds.), *Ethiopia: A Country Study*, Government Printing Office, Washington D.C., Fourth edition, 1993, p. 328.

³²⁰ Germany, Lower House of Parliament, Statement by Dr. Werner Schuster, Member of Parliament, 21 June 1991, *Plenarprotokoll* 12/35, p. 2966.

³²¹ Report on the Practice of Iran, 1997, Chapter 4.2.

323. According to the Report on the Practice of Kuwait, it is the *opinio juris* of Kuwait that humanitarian relief objects must be protected.³²²

324. According to the Report on the Practice of Nigeria, during the conflict in Biafra, the Nigerian Commissioner for Information maintained that "Nigeria would continue to stand by its promise to the ICRC to keep some 'corridors of mercy' safe from military activities so that relief supplies could at all times be channelled to Biafra through these corridors". As no practice deviated from this, the report concludes that the *opinio juris* of Nigeria is that the protection of relief objects is part of customary international law.³²³

325. The Report on UK Practice states that "as regards protection of relief personnel and objects, the UK has, both in words and in action, demonstrated support for this principle, as in Iraq, and in the former Yugoslavia".³²⁴

326. In 1992, in a report submitted pursuant to paragraph 5 of Security Council Resolution 771 (1992) on grave breaches of GC IV committed in the former Yugoslavia, the US included among "deliberate attacks on non-combatants" reports that "a convoy of United Nations trucks carrying aid supplies to Bosnian civilians was mortared" and that a "G-222 aircraft, which was carrying five tons of blankets to Sarajevo on a United Nations relief mission, was shot down by up to three ground-to-air missiles".³²⁵ In another such report, the US referred to a report that "an International Committee of the Red Cross (ICRC) convoy carrying food and medical relief on 18 May was attacked as it entered Sarajevo, despite the security guarantees obtained from the parties concerned".³²⁶

327. According to the Report on US Practice, it is the *opinio juris* of the US that "buildings used for relief and other charitable purposes are not subject to bombardment".³²⁷

328. In 1993, in a meeting with ICRC representatives, a government official insisted that incidents in which ICRC personnel and objects were targeted were the work of "uncontrolled elements" and that "strict orders had been issued to respect the ICRC".³²⁸

III. Practice of International Organisations and Conferences

United Nations

329. In a resolution adopted in 1994, the UN Security Council demanded that "all parties in Rwanda strictly respect the . . . premises of the United Nations

³²² Report on the Practice of Kuwait, 1997, Chapter 4.2.

and other organizations serving in Rwanda".³²⁹ This demand was reiterated in a subsequent resolution.³³⁰

330. In a resolution adopted in 1994 on the conflict in Liberia, the UN Security Council demanded that all factions "return forthwith" equipment seized from humanitarian relief agencies.³³¹

331. In a resolution adopted in 1996, the UN Security Council condemned the looting of equipment, supplies and personal property of international organisations and agencies delivering humanitarian assistance in Liberia and called for "the immediate return of looted property".³³² It reiterated this statement in a resolution later the same year.³³³

332. In a resolution adopted in 1996, the UN Security Council demanded that "all parties and others concerned in Angola take all necessary measures to ensure the safety of United Nations and other international . . . premises and to guarantee the safety . . . of humanitarian supplies throughout the country".³³⁴ This demand was reiterated in a subsequent resolution later in the same year.³³⁵

333. In a resolution adopted in 1996 in the context of the conflict in Liberia, the UN Security Council condemned "the looting of . . . equipment, supplies, and personal property" of personnel of international organizations and agencies delivering humanitarian assistance.³³⁶

334. In a resolution adopted in 1999, the UN Security Council strongly condemned "attacks on objects protected under international law" and called on all parties "to put an end to such practices".³³⁷

335. In 1994, in a statement by its President on the situation in Rwanda, the UN Security Council called upon all parties "to ensure the safe passage for humanitarian assistance".³³⁸

336. In 1994, in a statement by its President concerning the conflict in Bosnia and Herzegovina, the UN Security Council noted with particular concern "reports of the recurrent obstruction and looting of humanitarian aid convoys destined for the civilian population of Maglaj".³³⁹

337. In 1997, in a statement by its President following the military coup d'état in Sierra Leone, the UN Security Council called for "an end to the looting of premises and equipment belonging to the United Nations and international aid agencies".³⁴⁰

³⁴⁰ UN Security Council, Statement by the President, UN Doc. S/PRST/1997/29, 27 May 1997.

338. In 1997, in a statement by its President, the UN Security Council expressed its deep concern about “the deteriorating humanitarian situation in Sierra Leone, and at the continued looting and commandeering of relief supplies of international agencies”.³⁴¹

339. In 1997, in a statement by its President concerning the situation in Afghanistan, the UN Security Council expressed “serious concern over the looting of United Nations premises and food supplies” and urged all parties “to prevent their recurrence”.³⁴²

340. In 2000, in statement by its President, the UN Security Council strongly condemned “acts of destruction and looting” of the property of UN and associated personnel and of humanitarian personnel.³⁴³

341. In a resolution adopted in 1996 in the context of the conflict in Liberia, the UN General Assembly deplored “the looting of . . . equipment, supplies and personal property” of the UN, its specialised agencies and NGOs.³⁴⁴

342. In a resolution adopted in 1996 on the situation of human rights in Afghanistan, the UN General Assembly demanded that “all Afghan parties fulfil their obligations and commitments regarding the safety of United Nations personnel and other international personnel as well as their premises in Afghanistan”.³⁴⁵ This demand was reiterated in a subsequent resolution in 1997.³⁴⁶

343. In a resolution adopted in 1999 on the safety and security of humanitarian personnel and protection of UN personnel, the UN General Assembly strongly condemned “acts of destruction and looting” of the property of those participating in humanitarian operations.³⁴⁷ The General Assembly urged all States “to take the necessary measures . . . to respect and ensure respect for the inviolability of United Nations premises”.³⁴⁸

344. In a resolution adopted in 2000 on the situation of human rights in the Sudan, the UN General Assembly urged the SPLM/A “not to misappropriate humanitarian assistance”.³⁴⁹

345. In a resolution adopted in 1995 on the situation of human rights in Sudan, the UN Commission on Human Rights expressed its outrage at “the use of military force by all parties to the conflict to disrupt or attack relief efforts

³⁴⁹ UN General Assembly, Res. 55/116, 4 December 2000, § 3(g).

aimed at assisting civilian populations" and called for "an end to such practices and for those responsible for such actions to be brought to justice".³⁵⁰

346. In 1992, in a report on the situation in Somalia, the UN Secretary-General noted that the two main factions of the United Somali Congress had agreed that a number of sites in Mogadishu, namely the port, airports, hospitals, NGO locations and routes to and from food and non-food distribution points be declared "corridors and zones of peace". He added that the "corridors of peace" for the safe passage of relief workers and supplies were "of paramount importance".³⁵¹

347. The Principles of Engagement for Emergency Humanitarian Assistance in the Democratic Republic of the Congo, annexed to the 2000 United Nations Inter-Agency Consolidated Appeal for the Democratic Republic of the Congo, state that:

The relevant authorities are responsible for creating conditions conducive to the implementing of humanitarian activities. This must cover the security of local and international staff as well as all assets. The restitution of requisitioned assets is an essential indication of the goodwill of the authorities. Agencies look to the local authorities to take responsibility for ensuring the return of assets wherever possible.³⁵²

Other International Organisations

348. In a resolution adopted in 1989 on the activities of the International Committee of the Red Cross, the Parliamentary Assembly of the Council of Europe stated that it was "preoccupied by the increase in breaches in the security of delegates of the ICRC, its installations and means of transport".³⁵³

349. In a resolution adopted in 1992 on the crisis in the former Yugoslavia, the Parliamentary Assembly of the Council of Europe strongly condemned attacks on convoys and personnel of international organisations bringing relief to the population in Bosnia and Herzegovina and demanded that "violators of humanitarian law [be] held personally accountable for these violations".³⁵⁴

350. In a declaration by the Presidency in 1998, the EU called upon all parties to the conflict in Sudan "to respect and guarantee the security of all ... relief flights and their crews and other means of humanitarian transport and supply depots".³⁵⁵

³⁵⁰ UN Commission on Human Rights, Res. 1995/77, 8 March 1995, § 18.

³⁵⁵ EU, Declaration on Sudan by the Presidency on behalf of the EU, 14 August 1998, § 11.

International Conferences

351. The Final Declaration adopted by the International Conference for the Protection of War Victims in 1993 urged all States to “make every effort” to protect relief goods and convoys as defined in international humanitarian law.³⁵⁶

352. In a resolution adopted in 1993, the 90th Inter-Parliamentary Conference in Canberra expressed regret that “the international relief and protection effort during armed conflicts... is encountering serious difficulties and dangers, including... attacks against humanitarian personnel, food supplies and relief”.³⁵⁷

IV. Practice of International Judicial and Quasi-judicial Bodies

353. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

354. In the context of an internal conflict, attacks by the forces of an armed opposition group on ICRC warehouses were reported, as was the destruction of the premises of the ICRC delegation. In all its communications, the ICRC reminded the armed opposition group that it must respect the Geneva Conventions and the fundamental rules of IHL, because the commitment it made in 1980 was still applicable.³⁵⁸

355. In a joint statement issued in 1991, the Yugoslav Red Cross and the Hungarian Red Cross expressed their deep concern about “the protracting internal conflict in Yugoslavia” and urged the parties to the conflict “to refrain from armed actions against relief convoys”.³⁵⁹

356. In a communication to the press in 1993, the ICRC enjoined the parties to the conflict in Somalia “to facilitate relief operations... and to respect the personnel, vehicles and premises involved”.³⁶⁰

357. In 1994, in a Memorandum on Respect for International Humanitarian Law in Angola, the ICRC stated that “the personnel, vehicles and premises of relief agencies shall be protected”.³⁶¹

358. In 1994, in a Memorandum on Compliance with International Humanitarian Law by the Forces Participating in Opération Turquoise in the

Great Lakes region, the ICRC stated that “relief operations aimed at the civilian population which are exclusively humanitarian, impartial and non-discriminatory shall be facilitated and respected. The personnel, vehicles and premises of relief agencies shall be protected.”³⁶²

VI. *Other Practice*

359. In a resolution adopted at its Edinburgh Session in 1969, the Institute of International Law stated that “those objects which, by their nature or use, serve primarily humanitarian or peaceful purposes” cannot be considered as military objectives.³⁶³

360. In 1981 and 1982, an armed opposition group agreed to respect ICRC personnel and vehicles.³⁶⁴

361. In 1982 and 1984, an armed opposition group undertook not to attack ICRC personnel, vehicles and planes.³⁶⁵

362. In 1985, in a meeting with ICRC representatives, the UN Secretary-General of an armed opposition group stated that the attacks on ICRC personnel and relief objects which had been undertaken by the forces of the armed group had taken place solely because ICRC personnel were located close to a combat area. With respect to an attack on an ICRC plane, the Secretary-General justified it on the grounds that his forces were “nervous and suspicious of any aircraft present in the region”.³⁶⁶

363. In 1988, in a meeting with the ICRC, an armed opposition group agreed to respect ICRC personnel and objects in the course of an internal conflict.³⁶⁷

364. In 1992, an armed opposition group agreed to respect ICRC personnel and vehicles.³⁶⁸

365. The Guiding Principles on the Right to Humanitarian Assistance, adopted by the Council of the IHL in 1993, state that “humanitarian assistance can, if appropriate, be made available by way of ‘humanitarian corridors’, which should be respected and protected by the competent authorities of the parties involved and if necessary by the United Nations authority”.³⁶⁹

366. In 1994, in a letter addressed to the ICRC, an armed opposition group pledged to respect Red Cross and Red Crescent installations and vehicles. It condemned the looting of an ICRC convoy and assured the ICRC of its continuing

efforts to ensure the security of ICRC personnel and objects and to recover any lost property.³⁷⁰

367. In 1994, in a meeting with the ICRC, a military leader of an armed opposition group committed the group to ensuring that the security of ICRC installations, personnel, equipment and activities within its territory were guaranteed in accordance with the provisions of the Geneva Conventions.³⁷¹

368. In 1994, in a meeting with the ICRC, an armed opposition group undertook to guarantee the security of ICRC installations, personnel, equipment and activities in the territory under its control in accordance with the Geneva Conventions.³⁷²

369. At the International Symposium on Water in Armed Conflicts held in Montreux (Switzerland) in 1994, the group of international experts present agreed to “aim for absolute protection of water supplies and systems”.³⁷³

370. In 1996, during the conflict in Angola, UNITA committed itself to ensuring that relief personnel and objects would be spared from attack.³⁷⁴

PERSONNEL AND OBJECTS INVOLVED IN A PEACEKEEPING MISSION

Personnel and Objects Involved in a Peacekeeping Mission
(practice relating to Rule 33)

§§ 1–127

Personnel and Objects Involved in a Peacekeeping Mission

I. Treaties and Other Instruments

Treaties

1. The preamble to the 1994 Convention on the Safety of UN Personnel states that:

The States Parties to this Convention [are] deeply concerned over the growing number of deaths and injuries resulting from deliberate attacks against United Nations and associated personnel and [bear] in mind that attacks against, or other mistreatment of, personnel who act on behalf of the United Nations are unjustifiable and unacceptable, by whomsoever committed.

2. According to Article 1(a)(i) of the 1994 Convention on the Safety of UN Personnel, the Convention applies to “persons engaged or deployed by the Secretary-General of the United Nations as members of the military, police or civilian components of a United Nations operation”. Article 2(2) states that:

This Convention shall not apply to a United Nations operation authorized by the Security Council as an enforcement action under Chapter VII of the Charter of the United Nations in which any of the personnel are engaged as combatants against organized armed forces and to which the law of international armed conflict applies.

3. Article 7 of the 1994 Convention on the Safety of UN Personnel states that:

1. United Nations and associated personnel, their equipment and premises shall not be made the object of attack or of any action that prevents them from discharging their mandate.
2. States Parties shall take all appropriate measures to ensure the safety and security of United Nations and associated personnel. In particular, States Parties shall take all appropriate steps to protect United Nations and associated personnel who are deployed in their territory from the crimes set out in Article 9 [murder, kidnapping or other attack].

4. Pursuant to Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute, the following constitutes a war crime in both international and non-international armed conflicts:

intentionally directing attacks against personnel, installations, material, units or vehicles involved in a . . . peacekeeping mission in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict.

5. Article 4(b) of the 2002 Statute of the Special Court for Sierra Leone provides that:

The Special Court shall have the power to prosecute persons who committed the following serious violations of international humanitarian law:

...

(b) Intentionally directing attacks against personnel, installations, material, units or vehicles involved in a . . . peacekeeping mission in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict.

Other Instruments

6. Article 19 of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind provides that:

1. The following crimes constitute crimes against the peace and security of mankind when committed intentionally and in a systematic manner or on a large scale against United Nations and associated personnel involved in a United Nations operation with a view to preventing or impeding that operation from fulfilling its mandate:

- (a) Murder, kidnapping or other attack upon the person or liberty of any such personnel;
- (b) Violent attack upon the official premises, the private accommodations or the means of transportation of any such personnel likely to endanger his or her person or liberty.

2. This article shall not apply to a United Nations operation authorized by the Security Council as an enforcement action under Chapter VII of the United Nations in which any of the personnel are engaged as combatants against organized armed forces and to which the law of international conflict applies.

7. The commentary on Article 19(2) of the 1996 Draft Code of Crimes against the Peace and Security of Mankind states that:

Attacks against United Nations and associated personnel constitute violent crimes of exceptionally serious gravity which have serious consequences not only for the victims, but also for the international community . . . Attacks against such personnel are in effect directed against the international community and strike at the very heart of the international legal system established for the purpose of maintaining international peace and security . . . The international community has a special

responsibility to ensure the effective prosecution and punishment of the individuals who are responsible for criminal attacks against United Nations and associated personnel.

8. Paragraph 1 of the 1999 UN Secretary-General's Bulletin provides that:

- 1.1 The fundamental principles and rules of international humanitarian law set out in the present bulletin are applicable to United Nations forces when in situations of armed conflict they are actively engaged therein as combatants, to the extent and for the duration of their engagement. They are accordingly applicable in enforcement actions, or in peacekeeping operations when the use of force is permitted in self-defence.
- 1.2 The promulgation of this bulletin does not affect the protected status of members of peacekeeping operations under the 1994 Convention on the Safety of United Nations and Associated Personnel or their status as non-combatants, as long as they are entitled to the protection given to civilians under the international law of armed conflict.

9. The 2000 UNTAET Regulation No. 2000/15 establishes panels with exclusive jurisdiction over serious criminal offences, including war crimes. According to Section 6(1)(b)(iii) and (e)(iii), the following constitutes a war crime in both international and non-international armed conflicts:

intentionally directing attacks against personnel, installations, material, units or vehicles involved in a . . . peacekeeping mission in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict.

II. National Practice

Military Manuals

10. Cameroon's Instructors' Manual states that:

It is prohibited for belligerents to open fire on interposition forces and on their materiel, [as] these forces' mission is not to fight one or the other party to the conflict (except in case of self-defence) but to interpose themselves between such parties in order to ensure respect for a cease-fire.¹

11. Germany's Military Manual states that:

When a United Nations' force or mission performs functions of peacekeeping, observation or similar functions, each party to the conflict shall, if requested . . . take such measures as may be necessary to protect the force or mission while carrying out its duties . . . The protection of the force or mission shall always be ensured.²

¹ Cameroon, *Instructors' Manual* (1992), p. 110.

² Germany, *Military Manual* (1992), § 418.

12. New Zealand's Military Manual states that:

1. United Nations Forces are usually engaged in peacekeeping operations. On such occasions they have no combat function, although they may defend themselves if attacked. Their duty is to supervise or observe a situation between contestants, even combatants, and report back. Sometimes, their duty is to seek to interpose themselves between such forces with the intention that their presence under authority of a United Nations resolution and wearing United Nations insignia will protect them from attack, and thus create a cordon sanitaire between the antagonists.
...
2. When participating in peacekeeping operations, United Nations Forces are not present in State territory in any hostile capacity and are not engaged in any sort of armed conflict. In fact, their principal purpose is to prevent any such conflict not only as it would affect themselves but also as it affects the parties they are seeking to separate and keep apart. As a result, since their activities do not amount to participation in an armed conflict, the Geneva Conventions of 1949 concerning the wounded, sick and shipwrecked, or prisoner of war do not govern their activities or protect them.
3. Since the IV GC operates to protect any non-combatant in the hands of a Party to a conflict, members of a United Nations Peacekeeping Force falling into the hands of a Party to a conflict would be covered by this Convention. It is difficult, however, to consider such personnel, who are members of the armed forces of the States providing contingents to the Force and who are wearing uniform and United Nations insignia, as civilians as that term is normally understood.³

13. Nigeria's Military Manual states that:

UN peace keeping Force should remain impartial, objective and neutral. Whenever it is perceived to be a party to a conflict, this does not exclude the applicability of International Humanitarian Law to UN Peace Keeping Force when it engages in defensive or combat mission in pursuance of their mandate.⁴

14. Spain's LOAC Manual states that UN forces "must be respected [and] must not be made the object of attack".⁵

National Legislation

15. Australia's ICC (Consequential Amendments) Act incorporates into the Criminal Code the war crimes defined in the 1998 ICC Statute, including "attacking personnel or objects involved in a humanitarian assistance or peacekeeping mission" in international and non-international armed conflicts.⁶

16. Azerbaijan's Criminal Code provides that "directing attacks against personnel recruited to carry out peacekeeping missions" constitutes a war crime in international and non-international armed conflicts.⁷

³ New Zealand, *Military Manual* (1992), § 1904.

⁴ Nigeria, *Military Manual* (1994), p. 23, § 6.

⁵ Spain, *LOAC Manual* (1996), Vol. I, § 7.3.a.(9).

⁶ Australia, *ICC (Consequential Amendments) Act* (2002), Schedule 1, §§ 268.37 and 268.79.

⁷ Azerbaijan, *Criminal Code* (1999), Article 116(3).

17. Under Burundi's Draft Law on Genocide, Crimes against Humanity and War Crimes, the following constitutes a war crime in both international and non-international armed conflicts:

intentionally directing attacks against personnel, installations, material, units or vehicles involved in a . . . peacekeeping mission in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict.⁸

18. Canada's Crimes against Humanity and War Crimes Act provides that the war crimes defined in Article 8(2) of the 1998 ICC Statute are "crimes according to customary international law" and, as such, indictable offences under the Act.⁹

19. Congo's Genocide, War Crimes and Crimes against Humanity Act defines war crimes with reference to the categories of crimes set out in Article 8 of the 1998 ICC Statute.¹⁰

20. Under Georgia's Criminal Code, any war crime provided for by the 1998 ICC Statute, which is not explicitly mentioned in the Code, is a crime in both international and non-international armed conflicts, including

intentionally directing attacks against personnel, installations, material, units or vehicles involved in a . . . peacekeeping mission in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict.¹¹

21. Germany's Law Introducing the International Crimes Code punishes anyone who, in connection with an international or a non-international armed conflict,

directs an attack against personnel, installations, material, units or vehicles involved in a . . . peace-keeping mission in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under international humanitarian law.¹²

22. Under Mali's Penal Code, the following constitutes a war crime in international armed conflicts:

intentionally directing attacks against personnel, installations, material, units or vehicles involved in a . . . peacekeeping mission in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict.¹³

⁸ Burundi, *Draft Law on Genocide, Crimes against Humanity and War Crimes* (2001), Article 4(B)(c) and (D)(c).

⁹ Canada, *Crimes against Humanity and War Crimes Act* (2000), Section 4(1) and (4).

¹⁰ Congo, *Genocide, War Crimes and Crimes against Humanity Act* (1998), Article 4.

¹² Germany, *Law Introducing the International Crimes Code* (2002), Article 1, § 10(1)(1).

¹³ Mali, *Penal Code* (2001), Article 31(i)(3).

23. Under the International Crimes Act of the Netherlands, the following is a crime, whether committed in an international or a non-international armed conflict:

intentionally directing attacks against personnel, installations, material, units and vehicles involved in . . . peace missions in accordance with the Charter of the United Nations, as long as they are entitled to the protection given to civilians or civilian objects under the international law of armed conflict.¹⁴

24. New Zealand's Crimes (Internationally Protected Persons and Hostages) Amendment Act implementing the 1994 Convention on the Safety of UN Personnel gives the courts of New Zealand extraterritorial jurisdiction over attacks against such personnel, their property and vehicles, which are criminalised by the Act.¹⁵

25. Under New Zealand's International Crimes and ICC Act, war crimes include the crimes defined in Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute.¹⁶

26. Under Trinidad and Tobago's Draft ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute.¹⁷

27. The UK UN Personnel Act provides that:

If a person does outside the UK, any act to or in relation to a UN worker which, if he had done it in any part of the UK, would have made him guilty of [murder, manslaughter, culpable homicide, rape, assault causing injury, kidnapping, abduction or false imprisonment], he shall in that part of the UK be guilty of that offence.¹⁸

The Act contains a similar provision for the prosecution of threats of attacks against UN workers, within or outside the UK; attacks against UN vehicles and premises committed outside the UK; and threats of attacks against UN vehicles and premises, within or outside the UK.¹⁹ Within the framework of this Act, members of the military component of a UN operation engaged or deployed by the UN Secretary-General are UN workers.²⁰

28. Under the UK ICC Act, it is a punishable offence to commit a war crime as defined in Article 8(2)(b)(iii) and (e)(iii) of the 1998 ICC Statute.²¹

National Case-law

29. In its judgement in the *Violations of IHL in Somalia and Rwanda case* in 1997, a Belgian Military Court decided that the members of the UNOSOM II mission could not be considered as “combatants” since their primary task was not to fight against any of the factions, nor could they fall into the category of an “occupying force”.²²

30. In its judgement in the *Brocklebank case* in 1996, the Court Martial Appeal Court of Canada held that no armed conflict existed in Somalia at the relevant time, nor were the Canadian forces to be considered as a party to the conflict as they were engaged in a peacekeeping mission.²³

Other National Practice

31. During a debate in the UN General Assembly following the shelling of the UN compound at Qana on 18 April 1996, Australia stated that all attacks against UN peacekeepers were totally unacceptable and contrary to the norms of international law.²⁴

32. On 16 May 1967, the General Commander of the Egyptian armed forces sent a message to the Commander of UNEF stating that “our forces have massed in Sinai on our eastern borders, and to safeguard the safety of the UNEF troops stationed in the observation posts on our borders, I request that you order the immediate withdrawal of these troops”.²⁵

33. In 1994, during a debate in the UN Security Council, Finland condemned attacks against UNPROFOR.²⁶

34. In 1995, during a debate in the UN Security Council, Germany condemned attacks against UNPROFOR.²⁷

35. In 1996, in a report on UNOMIL, the UN Secretary-General noted that Liberia’s Council of State “condemned ULIMO-J for its attacks against ECOMOG”.²⁸

36. The Report on the Practice of Malaysia states that members of the Malaysian armed forces are trained to respect peacekeeping forces.²⁹

37. In 1995, during a debate in the UN Security Council, Russia condemned attacks against UNPROFOR.³⁰

38. In 1991, in an appeal addressed to the President of the UN Security Council, the Ministry of Foreign Affairs of Ukraine stated that:

Shooting at the UNPROFOR military personnel is a gross violation of the principles and norms of international law and may be considered by the Governments of States, contributing their military contingents to the United Nations peace-keeping forces, as hostile actions against their citizens. The Government of Ukraine strongly demands that the sides in conflict, in particular the Governments of Bosnia and Herzegovina, as well as of Serbia undertake all necessary steps for immediate and unconditional cessation of hostile actions against the United Nations peace-keeping forces, the Ukrainian battalion among them in the Sarajevo sector.³¹

39. In 1995, during a debate in the UN Security Council, the UK condemned attacks against UNPROFOR.³²

40. In 1996, during a debate in the UN Security Council concerning the situation in Liberia, the UK expressed deep regret at the loss of life among ECOMOG forces and outrage that peacekeeping forces were subjected to attacks.³³

41. In 1992, in a report submitted pursuant to paragraph 5 of UN Security Council Resolution 771 (1992) on grave breaches of GC IV committed in the former Yugoslavia, the US noted that "five members of the United Nations Protection Force (UNPROFOR) contingent in Sarajevo had been killed by combatants".³⁴

42. In 1995, during a debate in the UN Security Council, the US condemned attacks against UNPROFOR.³⁵

III. Practice of International Organisations and Conferences

United Nations

43. In a resolution adopted in 1978, the UN Security Council demanded "full respect for the United Nations Force from all parties in Lebanon".³⁶

44. In a resolution on UNIFIL in Lebanon adopted in 1980, the UN Security Council condemned "acts that have led to loss of life among the personnel of the Force and the United Nations Truce Supervision Organization, their harassment and abuse, the disruption of communication, as well as the destruction of property and material".³⁷

³¹ Ukraine, Appeal of the Ministry of Foreign Affairs to the President of the UN Security Council, annexed to Letter dated 10 August 1992 to the President of the UN Security Council, UN Doc. S/24403, 10 August 1992, p. 2.

³⁷ UN Security Council, Res. 467, 24 April 1980, § 2.

45. In a resolution adopted in 1986, the UN Security Council condemned attacks committed against UNIFIL in Lebanon, referring to such acts as a "criminal action".³⁸

46. In a resolution adopted in 1992 in the context of events in the former Yugoslavia, the UN Security Council expressed its deep concern that "those United Nations Protection Force personnel remaining in Sarajevo have been subjected to deliberate mortar and small-arms fire, and that the United Nations Military Observers deployed in the Mostar region have had to be withdrawn".³⁹

47. In two resolutions adopted in 1992 and 1993, the UN Security Council condemned "armed attacks against the peace-keeping forces of ECOWAS in Liberia" and called upon the parties to the conflict to ensure their safety.⁴⁰

48. In a resolution adopted in 1992, the UN Security Council stated that it was dismayed by "attacks on the Pakistani contingent in Mogadishu of the United Nations Operation in Somalia".⁴¹

49. In a resolution adopted in 1993 in the context of the conflict in Croatia, the UN Security Council strongly condemned attacks by the Croatian forces "against UNPROFOR in the conduct of its duty of protecting civilians in the United Nations Protected Areas" and demanded "their immediate cessation".⁴²

50. In a resolution on Angola adopted in 1993, the UN Security Council condemned "attacks against UNAVEM II personnel in Angola" and demanded that "the Government and UNITA take all necessary measures to ensure their safety and security".⁴³

51. In a resolution on Bosnia and Herzegovina adopted in 1993, the UN Security Council strongly condemned "the actions taken by Bosnian Serb paramilitary units against UNPROFOR, in particular, their refusal to guarantee the safety and freedom of movement of UNPROFOR personnel" and demanded that "all parties guarantee the safety and full freedom of movement of UNPROFOR and of all other United Nations personnel".⁴⁴

52. In a resolution on Somalia adopted in 1993, the UN Security Council stated that it regarded the armed attacks launched by forces apparently belonging to the United Somali Congress against the personnel of UNOSOM II in June 1993 as "criminal attacks".⁴⁵

53. In a resolution on Somalia adopted in 1993, the UN Security Council condemned "all attacks on UNOSOM II personnel" and reaffirmed that "those who have committed or ordered the commission of such criminal acts will be held individually responsible for them".⁴⁶

⁴⁵ UN Security Council, Res. 837, 6 June 1993, preamble.

⁴⁶ UN Security Council, Res. 865, 22 September 1993, § 3.

54. In a resolution adopted in 1993 on security and safety of UN forces and personnel, the UN Security Council urged States and parties to a conflict “to cooperate closely with the United Nations to ensure the security and safety of United Nations forces and personnel”.⁴⁷

55. In a resolution on Somalia adopted in 1994, the UN Security Council condemned “violence and armed attacks against persons engaged in . . . peace-keeping efforts” and re-emphasised the importance it attached to “the safety and security of United Nations and other personnel engaged in . . . peace-keeping throughout Somalia”.⁴⁸ The Council also demanded that “all Somali parties refrain from any acts of intimidation or violence against personnel engaged in . . . peace-keeping work in Somalia”.⁴⁹ These statements were repeated in two other resolutions on the same subject adopted later the same year.⁵⁰

56. In a resolution on Rwanda adopted in 1994, the UN Security Council strongly condemned “the attacks against UNAMIR and other United Nations personnel leading to the deaths of and injury to several UNAMIR personnel” and called upon all concerned “to put an end to these acts of violence and to respect fully international humanitarian law”.⁵¹

57. In a resolution adopted in 1994 in the context of the conflict in Bosnia and Herzegovina, the UN Security Council condemned “the harassment and the detention of UNPROFOR personnel by the Bosnian Serb forces and all obstacles to UNPROFOR’s freedom of movement”.⁵²

58. In a resolution adopted in 1994, the UN Security Council demanded “that all parties in Rwanda strictly respect the persons and premises of the United Nations and other organizations serving in Rwanda, and refrain from any acts of intimidation or violence against personnel engaged in . . . peace-keeping work”.⁵³ The Council reiterated this demand in a subsequent resolution.⁵⁴

59. In a resolution adopted in 1994 authorising the creation of a multinational force in Haiti, the UN Security Council demanded that “no acts of intimidation or violence be directed against personnel engaged in humanitarian or peace-keeping work”.⁵⁵

60. In a resolution on Somalia adopted in 1994, the UN Security Council strongly condemned “the attacks and harassment against UNOSOM II”.⁵⁶

61. In a resolution on Liberia adopted in 1994, the UN Security Council condemned “the detention and maltreatment of UNOMIL observers [and]

ECOMOG soldiers" and demanded that "all factions in Liberia strictly respect the status of ECOMOG and UNOMIL personnel, and . . . refrain from any acts of violence, abuse or intimidation against them and return forthwith equipment seized from them".⁵⁷

62. In a resolution adopted in 1995, the UN Security Council stated that it was "gravely preoccupied at the recent attacks on the United Nations Protection Force (UNPROFOR) personnel in the Republic of Bosnia and Herzegovina and at the fatalities resulting therefrom" and condemned "in the strongest terms such unacceptable acts directed at members of peace-keeping forces". The Council demanded that "all parties and others concerned refrain from any act of intimidation or violence against UNPROFOR and its personnel".⁵⁸

63. In a resolution adopted in 1995 on extension of the mandate of the UN Observer Mission in Georgia and the settlement of the conflict in Abkhazia, the UN Security Council called upon the parties "to improve their cooperation with UNOMIG and the CIS peace-keeping force" and "to honour their commitments with regard to the security and freedom of movement of all United Nations and CIS personnel".⁵⁹ In a resolution adopted in the same context in 1996, the UN Security Council reiterated these demands.⁶⁰

64. In a resolution adopted in 1995 on withdrawal of the Croatian government troops from the zone of separation in Croatia and full deployment of the UN Confidence Restoration Operation in Croatia, the UN Security Council condemned "in the strongest terms all unacceptable acts which were directed at the personnel of the United Nations peace-keeping forces" and stated it was determined "to obtain strict respect of the status of such personnel in the Republic of Croatia as provided for in the Agreement between the United Nations and the Government of the Republic of Croatia signed on 15 May 1995". It further reaffirmed "its determination to ensure the security and freedom of movement of the personnel of United Nations peace-keeping operations in the territory of the former Yugoslavia".⁶¹

65. In a resolution adopted in 1995, the UN Security Council demanded that "the Bosnian Serb forces release immediately and unconditionally all remaining detained UNPROFOR personnel" and that "all parties fully respect the safety of UNPROFOR personnel".⁶²

66. In a resolution adopted in 1995, the UN Security Council condemned "the offensive by the Bosnian Serb forces against the safe area of Srebrenica, and in particular the detention by the Bosnian Serb forces of UNPROFOR personnel". It also condemned "all attacks on UNPROFOR personnel".⁶³

⁵⁷ UN Security Council, Res. 950, 21 October 1994, §§ 7 and 8.

⁵⁸ UN Security Council, Res. 987, 19 April 1995, preamble and § 1.

⁵⁹ UN Security Council, Res. 993, 12 May 1995, § 8.

⁶² UN Security Council, Res. 998, 16 June 1995, § 1.

⁶³ UN Security Council, Res. 1004, 12 July 1995, preamble.

67. In a resolution adopted in 1995 in the context of the conflict in Croatia, the UN Security Council condemned in the strongest terms “the unacceptable acts by Croatian Government forces against personnel of the United Nations peace-keeping forces, including those which have resulted in the death of a Danish member of those forces and two Czech members”. It reaffirmed “its determination to ensure the security and freedom of movement of the personnel of the United Nations peace-keeping operations in the territory of the former Yugoslavia”. The Council also demanded that “the Government of the Republic of Croatia fully respect the status of United Nations personnel, refrain from any attacks against them, bring to justice those responsible for any such attacks, and ensure the safety and freedom of movement of United Nations personnel at all times”.⁶⁴

68. In a resolution on Liberia adopted in 1995, the UN Security Council demanded that “all factions in Liberia strictly respect the status of ECOMOG and UNOMIL personnel, as well as organizations and agencies delivering humanitarian assistance throughout Liberia”.⁶⁵

69. In a resolution adopted in 1995 in the context of the conflict in Bosnia and Herzegovina, the UN Security Council called upon “the parties to ensure the safety and security of UNPROFOR and confirmed that UNPROFOR will continue to enjoy all existing privileges and immunities, including during the period of withdrawal”.⁶⁶

70. In a resolution adopted in 1996 in the context of the conflict in Liberia, the UN Security Council expressed its grave concern about the attacks against personnel of ECOMOG and civilians and demanded “that such hostile acts cease forthwith”.⁶⁷

71. In a resolution adopted in 1996 in the context of the conflict in Liberia, the UN Security Council condemned “all attacks against personnel of ECOMOG [and] UNOMIL”.⁶⁸ This condemnation was reiterated several times the same year.⁶⁹

72. In two resolutions adopted in 1997 and 1998 in the context of the conflict in the Middle East, the UN Security Council condemned “all acts of violence committed in particular against [UNIFIL]” and urged the parties “to put an end to them”.⁷⁰

73. In a resolution adopted in 1997 in the context of the conflict in Tajikistan, the UN Security Council stated that it was deeply concerned “over continuing attacks on the personnel of the United Nations, the Collective Peace-keeping Forces of the Commonwealth of Independent States (CIS) and other

international personnel in Tajikistan". As a result, the Council strongly condemned "the acts of mistreatment against UNMOT and other international personnel" and urgently called upon the parties "to cooperate in bringing the perpetrators to justice, to ensure the safety and freedom of movement of the personnel of the United Nations, the CIS peacekeeping forces and other international personnel".⁷¹

74. In a resolution on Angola adopted in 1997, the UN Security Council expressed "its concern about the . . . attacks by UNITA on UNAVEM III posts and personnel".⁷²

75. In a resolution on Angola adopted in 1998, the UN Security Council condemned

the attacks by members of UNITA on MONUA personnel and on Angolan national authorities, and demanded that UNITA immediately stop such attacks, cooperate fully with MONUA and guarantee unconditionally the safety and freedom of movement of MONUA and other international personnel.⁷³

76. In a resolution on Angola adopted in 1998, the UN Security Council reiterated its condemnation of "the attacks by members of UNITA on the personnel of the United Nations Observer Mission in Angola, international personnel and Angolan national authorities, including the police", demanded that "UNITA immediately stop such attacks", and urged "MONUA to investigate promptly the recent attack in N'gove".⁷⁴

77. In two resolutions on Angola adopted in 1998, the UN Security Council demanded that UNITA stop "any attacks by its members on the personnel of MONUA, international personnel, the authorities of the GURN, including the police, and the civilian population" and called upon the GURN and in particular UNITA to "guarantee unconditionally the safety and the freedom of movement of all United Nations and international personnel".⁷⁵

78. In a resolution adopted in 1998 in the context of the conflict in Georgia, the UN Security Council condemned "the acts of violence against the personnel of UNOMIG" and "the attacks by armed groups, operating in the Gali region from the Georgian side of the Inguri River, against the CIS peacekeeping force". It demanded that "the parties, in particular the Georgian authorities, take determined measures to put a stop to such acts which subvert the peace process".⁷⁶

79. In a resolution adopted in 1998 in the context of the conflict in Tajikistan, the UN Security Council strongly condemned "the murder of four members of UNMOT". The Council acknowledged "the efforts of the Government of

Tajikistan to enhance the protection of international personnel" and called upon the parties "to cooperate further in ensuring the safety and freedom of movement of the personnel of the United Nations, the CIS Peacekeeping Forces and other international personnel".⁷⁷

80. In a resolution adopted in 2000, the UN Security Council condemned "in the strongest terms the . . . detention of the personnel of UNAMSIL [by the RUF] in Sierra Leone".⁷⁸

81. In 1992, in a statement by its President, the UN Security Council condemned "the recent cowardly attack on UNPROFOR positions in Sarajevo resulting in loss of life and injuries among the Ukrainian servicemen" and reiterated its demand that "all parties and others concerned take the necessary measures to secure the safety of UNPROFOR personnel".⁷⁹

82. In 1993, in a statement by its President, the UN Security Council expressed the view that "attacks and other acts of violence, whether actual or threatened, including obstruction or detention of persons, against United Nations forces . . . are wholly unacceptable" and reiterated its demand that "States and other parties to various conflicts take all possible steps to ensure the safety and security of United Nations forces".⁸⁰

83. In 1993, in a statement by its President adopted after having heard "accounts of attacks against UNPROFOR by armed persons bearing uniforms of the Bosnian Government forces", the UN Security Council stated that "the members of the Council unreservedly condemn these acts of violence".⁸¹

84. In 1994, in a statement by its President, the UN Security Council condemned "attacks against the personnel of the United Nations Protection Force (UNPROFOR)".⁸²

85. In 1994, in a statement by its President concerning the situation in Rwanda, the UN Security Council condemned the killing of at least 10 Belgian peacekeepers, as well as the reported kidnapping of others, as "horrific attacks" and urged "respect for safety and security of . . . UNAMIR and other United Nations personnel".⁸³

86. In 1994, in a statement by its President, the UN Security Council expressed its deep concern at "recent incidents in the Republic of Bosnia and Herzegovina affecting the safety and freedom of movement of UNPROFOR personnel" and stated that "these incidents constitute clear violations of the Security Council's

resolutions, which bind the parties". The Council condemned such incidents and warned "those responsible of the serious consequences of their actions".⁸⁴ 87. In 1994, in a statement by its President in the context of the conflict in Somalia, the UN Security Council stated that it was "appalled by the killing near Baidoa on 22 August of seven Indian soldiers and the wounding of nine more serving with UNOSOM-II" and strongly condemned this "premeditated attack on United Nations peace-keepers".⁸⁵

88. In 1994, in a statement by its President, the UN Security Council strongly condemned "the deliberate attack on Bangladeshi United Nations peace-keepers on 12 December 1994 in Velika Kladusa, in the region of Bihac in the Republic of Bosnia and Herzegovina". The Council stated it was "outraged at this incident of direct attack on UNPROFOR personnel" and demanded that "such attacks do not recur". It further warned "the perpetrators of the attack that their heinous act of violence carries corresponding individual responsibility".⁸⁶

89. In 1995, in a statement by its President following the fatal shooting of a French peacekeeper by a sniper in Sarajevo, the UN Security Council condemned "in the strongest terms such acts directed at peace-keepers who are serving the cause of peace in the Republic of Bosnia and Herzegovina" and reiterated that such attacks "should not remain unpunished".⁸⁷

90. In 1995, in a statement by its President, the UN Security Council strongly condemned "attacks by Croatian Government forces on personnel of the United Nations peace-keeping forces which have resulted in casualties, including the death of one member of the peace-keeping forces" and demanded that "such attacks cease immediately and that all detained personnel be released".⁸⁸

91. In 1996, in a statement by its President in the context of the conflict in Angola, the UN Security Council condemned "the incident on 3 April 1996 which resulted in the death of two UNAVEM III personnel [and] the wounding of a third" and reiterated "the importance it attaches to the safety and security of UNAVEM III".⁸⁹

92. In 1997, in a statement by its President in the context of the conflict in Croatia, the UN Security Council condemned "the incident that occurred at Vukovar on 31 January 1997 and that resulted in the death of an UNTAES peacekeeper and injuries to other UNTAES personnel".⁹⁰

⁹⁰ UN Security Council, Statement by the President, UN Doc. S/PRST/1997/4, 31 January 1997, p. 3.

93. In 1997, in a statement by its President, the UN Security Council strongly condemned attacks on and the kidnapping of UNMOT personnel in Tajikistan.⁹¹

94. In 1997, in a statement by its President in the context of the conflict in Georgia, the UN Security Council reminded the parties of their obligation “to ensure the safety and freedom of movement of UNOMIG and the CIS peacekeeping force”.⁹²

95. In 1997, in a statement by its President, the UN Security Council condemned “the harassment of United Nations Observer Mission in Angola (MONUA) personnel in the exercise of their functions” in areas under UNITA control.⁹³

96. In 1998, in a statement by its President, the UN Security Council strongly condemned “the confirmed attacks by members of UNITA on the personnel of the United Nations Observer Mission in Angola (MONUA)”.⁹⁴

97. In 1998, in a statement by its President in the context of the conflict in Georgia, the UN Security Council strongly condemned “the deliberate acts of violence against the personnel of the United Nations Observer Mission in Georgia (UNOMIG) and of the Collective Peacekeeping Forces of the Commonwealth of Independent States” and demanded that “both sides take determined and prompt measures to put a stop to such acts”.⁹⁵

98. In a resolution adopted in 1992 on the situation in Bosnia and Herzegovina, the UN General Assembly condemned attacks against UNPROFOR in Sarajevo resulting in loss of life and injury to UNPROFOR personnel.⁹⁶

99. In a resolution adopted in 1994 on the situation of human rights in the former Yugoslavia, the UN General Assembly reiterated its condemnation of attacks against UNPROFOR.⁹⁷

100. In a resolution adopted in 1995, the UN General Assembly condemned “all attacks on the United Nations Peace Forces” in the conflict in the former Yugoslavia.⁹⁸

101. In a resolution adopted in 1993 on the situation of human rights in the former Yugoslavia, the UN Commission on Human Rights condemned “the attacks on the United Nations Protection Force, which have resulted in casualties and deaths of United Nations personnel”.⁹⁹

⁹¹ UN Security Council, Statement by the President, UN Doc. S/PRST/1997/6, 7 February 1997.

⁹² UN Security Council, Statement by the President, UN Doc. S/PRST/1997/25, 8 May 1997, p. 2.

⁹⁶ UN General Assembly, Res. 47/121, 18 December 1992, preamble.

⁹⁷ UN General Assembly, Res. 49/196, 23 December 1994, § 15.

⁹⁸ UN General Assembly, Res. 50/193, 22 December 1995, § 14.

⁹⁹ UN Commission on Human Rights, Res. 1993/7, 23 February 1993, § 15.

102. In a resolution adopted in 1994, the UN Commission on Human Rights condemned continued attacks and other acts of violence committed against UN personnel, in particular contingents belonging to UNOSOM II in Somalia.¹⁰⁰

103. In a resolution adopted in 1994 in the context of the conflict in the former Yugoslavia, the UN Commission on Human Rights condemned "the attacks on and continuous harassment of the United Nations Protection Force".¹⁰¹

104. In a resolution adopted in 1995 on the situation of human rights in the former Yugoslavia, the UN Commission on Human Rights condemned "attacks on and continued harassment of the United Nations Protection Force".¹⁰²

105. In a resolution adopted in 1995 on the situation of human rights in Rwanda, the UN Commission on Human Rights condemned "in the strongest terms the kidnapping and killing of military peacekeeping personnel ... all of which constitute blatant violations of international humanitarian law".¹⁰³

106. In January 1992, in a report on UNIFIL in Lebanon, the UN Secretary-General reported "a substantial increase in the number of firings by IDF/DFP at or close to UNIFIL positions" and stated that "these incidents were vigorously protested to the Israeli military authorities".¹⁰⁴ In July 1992, in another report on the same subject, the UN Secretary-General reported "175 instances of firing by IDF/DFP at or close to UNIFIL positions" and stated that "deliberate firing at UNIFIL positions had been the subject of frequent protests to the Israeli authorities".¹⁰⁵

107. In 1992, in report concerning UNPROFOR, the UN Secretary-General referred to fire originating from "small arms" directed at peacekeeping personnel in the UN Protected Area. Attacks conducted by drunk YPA or Croatian army soldiers also triggered official complaints.¹⁰⁶

108. In 1992, in a report on the implementation of UN Security Council Resolution 783 (1992), the UN Secretary-General characterised as a "disturbing development" the increase in attacks on UNTAC personnel and helicopters in Cambodia.¹⁰⁷

109. After an on-site investigation into the shelling of the UN compound at Qana on 18 April 1996, the UN Secretary-General's Military Adviser reported that:

Israeli officers stated that the Israeli forces were not aware at the time of the shelling that a large number of Lebanese civilians had taken refuge in the Qana compound. I did not pursue this question since I considered it irrelevant because the United

¹⁰⁷ UN Secretary-General, Report on the implementation of Security Council resolution 783 (1992), UN Doc. S/24800, 15 November 1992, § 15.

Nations compound was not a legitimate target, whether or not civilians were in it. The Israeli officers emphasized that it was not Israeli policy to target civilians or the United Nations.¹⁰⁸

110. In a letter submitting the Military Adviser's report to the UN Security Council in 1996, the UN Secretary-General stated that he viewed "with utmost gravity the shelling of the [compound at Qana], as [he] would hostilities directed against any United Nations peace-keeping position".¹⁰⁹

111. In 1996, in a report on UNIFIL in Lebanon, the UN Secretary-General expressed his "regret that the UN once again had cause to call upon the parties . . . to respect the non-combatant status of . . . UN peacekeepers".¹¹⁰

112. In 1996, in a report on the situation in Tajikistan, the UN Secretary-General condemned an attack aimed at two members of the CIS peacekeeping force.¹¹¹

113. In 1997, in a report concerning the situation in Abkhazia, Georgia, the UN Secretary-General reported that "mine-laying and attacks on the CIS peacekeeping force and the Abkhaz authorities also continued during the reporting period" and that "the CIS force, in conjunction with UNOMIG, again used the quadripartite meetings to protest against such actions".¹¹² In a further such report in 1998, the UN Secretary-General condemned "attacks against peacekeepers of the United Nations and the CIS".¹¹³

114. In 1998, in a report on UNIFIL in Lebanon, the UN Secretary-General reported that UNIFIL had "at times encountered hostile reactions by both armed elements and IDF/DFP" and stated that "UNIFIL strongly protested [these] incidents".¹¹⁴

115. In 1998, in an interim report on the situation in Tajikistan, the UN Secretary-General described the murder of four unarmed members of UNMOT involved in a peace mission in Tajikistan and stated he could not find words strong enough to condemn such an act.¹¹⁵

116. In 2000, in his report on the establishment of a Special Court for Sierra Leone, the UN Secretary-General stated that:

¹⁰⁸ UN Secretary-General, Report dated 1 May 1996 of the Secretary-General's Military Adviser concerning the shelling of the UN compound at Qana on 18 April 1996, UN Doc. S/1996/337, 7 May 1996, §§ 7-8.

¹⁰⁹ UN Secretary-General, Letter dated 7 May 1996 to the President of the UN Security Council, UN Doc. S/1996/337, 7 May 1996, p. 1.

¹¹⁰ UN Secretary-General, Report on UNIFIL, UN Doc. S/1996/575, 20 July 1996, § 40.

¹¹² UN Secretary-General, Report on the situation in Abkhazia, Georgia, UN Doc. S/1997/47, 20 January 1997, § 22.

¹¹³ UN Secretary-General, Report on the situation in Abkhazia, Georgia, UN Doc. S/1998/647, 14 July 1998, § 40.

¹¹⁴ UN Secretary-General, Report on UNIFIL, UN Doc. S/1998/652, 16 July 1998, § 8.

¹¹⁵ UN Secretary-General, Interim report on the situation in Tajikistan, UN Doc. S/1998/754, 13 August 1998, §§ 10 and 25.

Other serious violations of international humanitarian law falling within the jurisdiction of the Court include:

- ...
- (b) Attacks against peacekeeping personnel involved in a humanitarian assistance or a peacekeeping mission, as long as they are entitled to the protection given to civilians under the international law of armed conflict... Attacks against peacekeeping personnel, to the extent that they are entitled to protection recognized under international law to civilians in armed conflict, do not represent a new crime. Although established for the first time as an international crime in the Statute of the International Criminal Court, it was not viewed at the time of the adoption of the Rome Statute as adding to the already existing customary international law crime of attacks against civilians and persons hors de combat. Based on the distinction between peacekeepers as civilians and peacekeepers turned combatants, the crime defined in article 4 of the Statute of the Special Court is a specification of a targeted group within the generally protected group of civilians which because of its humanitarian or peacekeeping mission deserves special protection.¹¹⁶

117. In 1994, in its final report on grave breaches of the Geneva Conventions and other violations of IHL committed in the former Yugoslavia, the UN Commission of Experts Established pursuant to Security Council Resolution 780 (1992) stated that if

individuals attacked or authorized attacks on United Nations forces... they would be committing a grave breach of article 85, paragraph 3(a), of Protocol I by making the civilian population or individual civilians the object of attack. In the Sarajevo context, United Nations peace-keepers are non-combatants and entitled to be treated as civilians.¹¹⁷

Other International Organisations

118. In a communiqué issued in 1992, ECOWAS “unreservedly condemned the unprovoked and premeditated aggression by the NPFL against ECOMOG forces in Liberia, and expressed full support for the defensive action taken by ECOMOG”.¹¹⁸

119. In 1994, during a debate in the UN Security Council, the EU condemned attacks against UNPROFOR.¹¹⁹

120. In 1992, the OIC Conference of Ministers of Foreign Affairs adopted a resolution in which it condemned attacks against UNPROFOR.¹²⁰

¹¹⁶ UN Secretary-General, Report on the establishment of a Special Court for Sierra Leone, UN Doc. S/2000/915, 4 October 2000, §§ 15(b) and 16.

121. In 1994, during a debate in the UN Security Council, the OIC condemned attacks against UNPROFOR.¹²¹

International Conferences

122. In 1992, the 88th Inter-Parliamentary Conference in Stockholm adopted a resolution on Bosnia and Herzegovina strongly condemning “the escalation of violence by armed attacks against . . . peace-keeping personnel” and insisting “that such attacks cease immediately”.¹²²

123. The Final Declaration adopted by the International Conference for the Protection of War Victims in 1993 demanded that “the members of peace-keeping forces be permitted to fulfil their mandate without hindrance and that their physical integrity be respected”.¹²³

124. In 1993, the 90th Inter-Parliamentary Conference in Canberra adopted a resolution deploring “the lack of protection for peace-keepers and peace-makers under current humanitarian law”.¹²⁴

IV. Practice of International Judicial and Quasi-judicial Bodies

125. In the first indictment in the *Karadžić and Mladić case* before the ICTY in 1995, the accused were charged with their role in the “taking of civilians, that is UN peacekeepers, as hostages”.¹²⁵

V. Practice of the International Red Cross and Red Crescent Movement

126. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “a United Nations Force engaged to separate opposing armed forces is not a Party to the conflict . . . Located between opposing armed forces and not being a Party to the conflict, the United Nations Force has no enemy. Its situation is analogous to that of the armed forces of a neutral State.”¹²⁶

VI. Other Practice

127. No practice was found.

JOURNALISTS

Journalists (practice relating to Rule 34)

§§ 1–60

Journalists

Note: This chapter deals with civilian journalists; the case of war correspondents accredited to the armed forces, as provided for in Article 13 of the 1907 HR and Article 4(A)(4) GC III, is only addressed incidentally.

I. Treaties and Other Instruments

Treaties

1. Article 79 AP I provides that:

1. Journalists engaged in dangerous professional missions in areas of armed conflict shall be considered as civilians within the meaning of Article 50, paragraph 1.
2. They shall be protected as such under the Conventions and this Protocol, provided that they take no action adversely affecting their status as civilians, and without prejudice to the right of war correspondents accredited to the armed forces to the status provided for in 4 A 4) of the Third Convention.
3. They may obtain an identity card . . . This card, which shall be issued by the government of the State of which the journalist is a national or in whose territory he resides or in which the news medium employing him is located, shall attest to his status as a journalist.

Article 79 AP I was adopted by consensus.¹

Other Instruments

2. Paragraph 4 of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY provides that “all civilians shall be treated in accordance with Articles 72 to 79 of Additional Protocol I”.
3. Paragraph 2.3 of the 1992 Agreement on the Application of IHL between the Parties to the Conflict in Bosnia and Herzegovina provides that “all civilians shall be treated in accordance with Articles 72 to 79 of Additional Protocol I”.

¹ CDDH, *Official Records*, Vol. VI, CDDH/SR.43, 27 May 1977, p. 256.

II. National Practice

Military Manuals

4. Argentina's Law of War Manual states that "journalists engaged in dangerous professional missions in areas of armed conflict are considered to be civilians and must be protected as such".²

5. Australia's Defence Force Manual states that:

Civilian journalists engaged in dangerous professional missions in areas of armed conflict... are to be afforded the protection that normally applies to civilians. Granting of this protection is subject to the journalists not engaging in conduct that is inconsistent with their civilian status... Protection does not extend to war correspondents who are members of the military forces of a nation. War correspondents are detained as PW upon capture whereas civilian journalists are deemed protected persons and would not normally be detained.³

6. Benin's Military Manual cites journalists and journalists on dangerous mission as examples of civilians.⁴

7. Cameroon's Instructors' Manual provides that "journalists carrying out an assignment in a zone of hostilities fall into the category of [civilians]".⁵

8. Canada's LOAC Manual states that "journalists engaged in dangerous professional missions in areas of armed conflict shall be considered civilians. As such, they are non-combatants and may not be attacked. Should a journalist be detained, such journalist's status will be that of a civilian."⁶

9. France's LOAC Manual quotes Article 4(A)(4) GC III and Article 79(1) AP I and adds that "in case of capture, journalists enjoy either the status of prisoners of war or that of civilian persons and the rights and protections attached thereto, depending on whether they are war correspondents or not. They must be able to prove their status."⁷

10. Germany's Military Manual states that:

Journalists engaged in dangerous professional missions in areas of armed conflict are protected as civilians, provided that they take no action adversely affecting their status as civilians, and without prejudice to the right of war correspondents accredited to the armed forces to the status of persons accompanying the armed forces without actually being members thereof. Journalists may obtain an identity card which attests to their status.⁸

11. With reference to Israel's Law of War Booklet, the Report on the Practice of Israel states that "journalists and other members of the press would never

⁵ Cameroon, *Instructors' Manual* (1992), p. 17.

⁶ Canada, *LOAC Manual* (1999), p. 3-3, § 23, see also p. 4-7, § 61.

⁷ France, *LOAC Manual* (2001), p. 75. ⁸ Germany, *Military Manual* (1992), § 515.

be intentionally targeted by the IDF. Obviously, such protection would be lost if these individuals actually participated in hostile activities.”⁹

12. Madagascar’s Military Manual states that “journalists engaged in a dangerous mission are civilians”.¹⁰

13. The Military Manual of the Netherlands states that:

Journalists engaged in “free newsgathering” must be considered as civilians. They must be protected as such provided they take no action adversely affecting this status . . . The humanitarian law of war does not prohibit armed forces in whose area of operations journalists are active to impose restrictions on journalists. Journalists are not the same as persons accredited to the armed forces as war correspondents.¹¹

14. New Zealand’s Military Manual states that “journalists engaged in dangerous professional missions in areas of armed conflict are regarded as civilians. They are protected as such under the Conventions and AP I so long as they take no action adversely affecting their status as civilians.”¹² The manual considers that Article 79 AP I

is a new provision and such journalists enjoy no special protection in relation to States which are not bound by AP I. In regard to such States, they may well be taken for spies if they are found in areas of armed conflict while equipped with, eg, cameras. Such journalists must be furnished with proper identity cards. Also, they must not be confused with war correspondents accredited to armed forces in the field.¹³

15. Nigeria’s Military Manual provides that “journalists engaged in dangerous professional missions in [an] area of armed conflict shall be considered as civilians within the meaning of Article 50, paragraph 1 [AP I]”.¹⁴ The manual further states that:

Journalists now turn victims of circumstance. A case in point is the brutal killing of two Nigerian journalists from Guardian Newspaper and Champion by Charles Taylor’s faction in Liberia. It is common news and knowledge that journalists in most of these international armed conflicts are arrested, detained, intimidated and above all killed. This therefore is a failure of the provision of the Geneva Conventions.¹⁵

16. Spain’s LOAC Manual states that journalists and war correspondents on mission in an area of armed conflict are civilians and may not be attacked.¹⁶

17. Togo’s Military Manual cites journalists on dangerous mission as an example of civilians.¹⁷

National Legislation

18. Under Ireland's Geneva Conventions Act as amended, any "minor breach" of AP I, including violations of Article 79 AP I, is a punishable offence.¹⁸

19. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".¹⁹

National Case-law

20. In its judgement in the *Situation in Chechnya case* in 1995, Russia's Constitutional Court held that several orders and decrees issued by the Russian government in 1994 which deprived journalists working in the conflict zone of their accreditation were unconstitutional.²⁰

Other National Practice

21. The Report on the Practice of Botswana states that journalists must not be attacked.²¹

22. In 1971, during a debate in the Third Committee of the UN General Assembly, Brazil stated with respect to the protection of journalists that overwhelming support was to be found in the international community both for the basic principle that a distinction should be made between the treatment accorded to combatants and non-combatants and for the consequent adoption of measures to ensure the personal safety of journalists in areas of armed conflict.²²

23. In 1973, during a debate in the Third Committee of the UN General Assembly, the FRG stated that, since the protection of journalists during armed conflict was part of IHL, the provisions relating to the protection of civilians were also applicable in principle to journalists, unless they belonged to the armed forces.²³

24. On the basis of an interview with a high-ranking officer, the Report on the Practice of Jordan notes that no attacks by Jordanian armed forces against journalists covering armed conflict have been reported.²⁴

25. The Report on the Practice of South Korea mentions a case before a military tribunal in 1952, in which journalists who participated in subversive activities and killed civilians were considered to be war criminals. On this basis, the

report infers that journalists who are not participating in hostilities shall be protected.²⁵

26. According to the Report on the Practice of Nigeria, Nigeria's practice in relation to journalists is that they should not be arrested, detained, intimidated or killed in armed conflicts.²⁶

27. Based on replies by army officers to a questionnaire, the Report on the Practice of Rwanda states that journalists must not be attacked. When detained, they must be released as soon as their status as journalists has been established.²⁷

28. In 1987, the Deputy Legal Adviser of the US Department of State stated that "we also support the principle that journalists be protected as civilians under the Conventions, provided they take no action adversely affecting such status".²⁸

29. In 1992, in a report submitted pursuant to paragraph 5 of UN Security Council Resolution 771 (1992) on grave breaches of GC IV committed in the former Yugoslavia, the US included the killing of a television producer and the wounding of a camerawoman by sniper fire in Sarajevo among "deliberate attacks on non-combatants".²⁹

30. The Report on the Practice of Zimbabwe states that "persons such as journalists are certainly civilians not combatants. They should not be attacked. This point qualifies for customary rule status."³⁰

31. In 1991, a State condemned attacks on journalists, which it alleged were committed by the armed forces of the adversary.³¹

III. Practice of International Organisations and Conferences

United Nations

32. In several resolutions adopted between 1970 and 1975, the UN General Assembly expressed the belief that an international convention was needed to protect journalists engaged in dangerous missions in areas of armed conflict.

²⁵ Report on the Practice of South Korea, 1998, Chapter 1.1, referring to Document of a Military Tribunal, 28 April 1952.

²⁶ Report on the Practice of Nigeria, 1997, Chapter 1.1.

Matheson, Deputy Legal Adviser, US Department of State, The Sixth Annual American Red Cross-Washington College of Law Conference on International Humanitarian Law: A Workshop on Customary International Law and the 1977 Protocols Additional to the 1949 Geneva Conventions, *American University Journal of International Law and Policy*, Vol. 2, 1987, p. 428.

²⁹ US, Former Yugoslavia: Grave Breaches of the Fourth Geneva Convention (Third Submission), annexed to Letter dated 5 November 1992 to the UN Secretary-General, UN Doc. S/24791, 10 November 1992, p. 19.

³⁰ Report on the Practice of Zimbabwe, 1998, Chapter 1.1.

³¹ ICRC archive document.

The rationale for such a convention was not only that journalists should be protected on humanitarian grounds, but also to enable them to receive and impart information fully and objectively in keeping with the purposes and principles of the 1945 UN Charter and the 1948 UDHR concerning freedom of information.³²

33. In a resolution adopted in 1996 on the situation of human rights in Afghanistan, the UN General Assembly strongly urged "all parties to the conflict to take all necessary measures to ensure the safety of . . . representatives of the media in Afghanistan".³³

34. In a resolution adopted in 1998 on the human rights situation in Kosovo, the UN General Assembly called upon the authorities of the FRY (Serbia and Montenegro), as well as armed Albanian groups, to refrain from any harassment and intimidation of journalists.³⁴

35. In 1993, the UN Commission on Human Rights appointed a Special Rapporteur on the Promotion and Protection of the Right to Freedom of Opinion and Expression. The mandate of the Rapporteur included the gathering of all relevant information on discrimination, threats or use of violence and harassment, including persecution and intimidation, against professionals in the field of information seeking to exercise or to promote the exercise of the right to freedom of opinion and expression.³⁵

36. In a resolution adopted in 1995, the UN Commission on Human Rights deplored continued attacks, acts of reprisal, abductions and other acts of violence committed against representatives of the international media in Somalia, sometimes resulting in serious injury or death.³⁶

37. In a resolution adopted in 1996 on the situation of human rights in Burundi, the UN Commission on Human Rights condemned the murder of journalists.³⁷

38. In a resolution adopted in 1999, the UN Commission on Human Rights recalled the 1995 Johannesburg Principles and expressed its concern at the widespread violence directed at persons exercising the right to freedom of opinion and expression. The Commission also expressed its concern that such violations "are facilitated and aggravated by several factors", including "abuse of states of emergency, exercise of the powers specific to states of emergency without formal declaration and too vague a definition of offences against State security".³⁸

³⁷ UN Commission on Human Rights, Res. 1996/1, 27 March 1996, § 11.

³⁸ UN Commission on Human Rights, Res. 1999/36, 26 April 1999, preamble and §§ 3–4.

39. In a resolution unanimously adopted in 1997 on condemnation of violence against journalists, the UNESCO General Conference invited the Director-General of the organisation "to condemn assassination and any physical violence against journalists as a crime against society".³⁹

40. The Practical Guide for Journalists, edited by UNESCO and Reporters Sans Frontières states that:

The most serious infringements of press freedom are those aimed specifically at journalists and their families:

- (a) Extrajudicial or arbitrary killings, attempted killings of this nature, murder threats and kidnappings . . .
- (b) Cruel, inhuman or degrading treatment or punishment, and torture . . .
- (c) Illegal arrest or detention . . .
- (d) Attacks and threats carried out because people have used their right to freedom of opinion, freedom of expression or freedom of association.⁴⁰

41. In its report in 1993, the UN Commission on the Truth for El Salvador described the ambush of four Dutch journalists accompanied by five or six members of the FMLN by a patrol of the Salvadoran armed forces. They were on their way to territory under FMLN control to interview members of the guerrilla. On the basis of the available evidence, the Commission concluded that the ambush was set up deliberately to surprise and kill the journalists and their escort. The Commission considered these murders to be in violation of "international human rights laws and international humanitarian law, which stipulates that civilians shall not be the object of attacks".⁴¹

Other International Organisations

42. In a recommendation adopted in 1996 on the protection of journalists in situations of conflict or tension, the Committee of Ministers of the Council of Europe reaffirmed the importance of Article 79 AP I "which provides that journalists shall be considered as civilians and shall be protected as such" and considered that "this obligation also applies with respect to non-international armed conflicts".⁴²

43. In a recommendation adopted in 1998 on the crisis in Kosovo, the Parliamentary Assembly of the Council of Europe stated that it deplored the violence used by the police against the independent local media and foreign journalists covering events in Kosovo and the threats of legal prosecutions.⁴³

³⁹ UNESCO, 29th General Conference, 21 October 12 November 1997, Res. 29, 12 November 1997, § 1(a).

⁴⁰ UNESCO and Reporters Sans Frontières, *Practical Guide for Journalists*, Paris, 1998, pp. 66–67.

⁴¹ UN Commission on the Truth for El Salvador, Report, UN Doc. S/25500, 1 April 1993, Annex, p. 75.

⁴² Council of Europe, Committee of Ministers, Recommendation R (96) 4 on the Protection of Journalists in Situations of Conflict and Tension, 3 May 1996, § 1, preamble.

⁴³ Council of Europe, Parliamentary Assembly, Rec. 1368, 22 April 1998, § 5.

44. In a written declaration in 1998 on the freedom of the press in the FRY, the Parliamentary Assembly of the Council of Europe noted that “the Yugoslav authorities are restricting the free movement of journalists, particularly foreign journalists,” and that “certain journalists have been subjected to defamation campaigns and even physical violence”.⁴⁴

45. In a resolution on Kosovo adopted in 1998, the European Parliament called on the Council of Ministers “to protest in the strongest terms possible to the Belgrade government about . . . threats by the Yugoslav authorities to treat the independent media in the region as enemies serving foreign powers and NATO agents”.⁴⁵

46. In a resolution on Chechnya adopted in 2000, the European Parliament, “taking into account the denial of full and unhindered access to the region for journalists”, urged “the Russian authorities to ensure that Russian and international journalists in the region can work without constraint”.⁴⁶

47. In a resolution adopted in 1998, the OAS General Assembly vehemently condemned assaults upon freedom of the press and crimes against journalists, without expressly excluding situations of armed conflict.⁴⁷

48. In 2001, in the Recommendations on Free Media in South-Eastern Europe: Protection of Journalists and their Role in Reconciliation, Promoting Interethnic Peace and Preventing Conflicts, the OSCE Representative on Freedom of the Media proposed that governments at all levels provide adequate protection to media professionals against attack and other forms of harassment and take measures to ensure that any such attacks were investigated and those responsible prosecuted.⁴⁸

International Conferences

49. In a resolution adopted in 1993, the 90th Inter-Parliamentary Conference in Canberra deplored “the growing number of journalists and other media agents killed, wounded or abducted on the battlefield” and called on “all States to ensure that journalists engaged in dangerous professional missions in areas of armed conflict benefit from the measures of protection set out in Article 79 [AP I]”.⁴⁹

⁴⁴ Council of Europe, Parliamentary Assembly, Written Declaration No. 284, Violation of the freedom of information and the freedom of the press in the Federal Republic of Yugoslavia, Doc. 8224, 5 October 1998, §§ 2–3.

⁴⁵ European Parliament, Resolution on the situation in Kosovo, 8 October 1998, § 9.

⁴⁸ OSCE, Representative on Freedom of the Media, Recommendations on Free Media in South-Eastern Europe: Protection of Journalists and their Role in Reconciliation, Promoting Interethnic Peace and Preventing Conflicts, Zagreb, 28 February–2 March 2001.

⁴⁹ 90th Inter-Parliamentary Conference, Canberra, 13–18 September 1993, Resolution on respect for international humanitarian law and support for humanitarian action in armed conflicts, preamble and § 2[k].

50. In 2000, the OSCE Representative on Freedom of the Media and the German Ministry of Foreign Affairs organised a round table on the protection of journalists in conflict areas. The declaration issued at the end of the meeting stressed that the OSCE participating States committed themselves to protect journalists, particularly in case of armed conflict, and that the UN also expressed its strong support for measures to protect journalists. It further stated that more should be done to investigate murders of journalists. Concerning a distinctive sign for journalists, the declaration stressed that this was an issue for journalists themselves to decide.⁵⁰

IV. Practice of International Judicial and Quasi-judicial Bodies

51. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

52. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that “journalists engaged on dangerous professional missions in areas of armed conflict are civilian persons”.⁵¹

VI. Other Practice

53. In a resolution on Angola adopted at its 22nd World Congress in 1995, the International Federation of Journalists called on the Angolan government and UNITA “to respect the fundamental and universal professional rights of Angolan journalists”. It urged both parties “to stop harassing, interfering with, detaining and murdering journalists working under the most difficult conditions trying to inform the world about the 20 years of civil war that killed and maimed thousands of innocent people and devastated the country”.⁵²

54. In a resolution on the safety of journalists adopted at its 23rd World Congress in 1998, the International Federation of Journalists stated that “more must be done to provide practical assistance to journalists on dangerous assignments and to journalists living and working in areas of conflict”.⁵³

55. In a resolution on the violation of journalists’ rights in India adopted at its 23rd World Congress in 1998, the International Federation of Journalists noted

⁵⁰ Round table with media professionals, officials from OSCE participating States, the UN and the Council of Europe on the protection of journalists in conflict areas, Berlin, 6 November 2000, Declaration.

⁵¹ Frédéric de Mulinen, *Handbook on the Law of War for Armed Forces*, ICRC, Geneva, 1987, § 54.

⁵² International Federation of Journalists, 22nd World Congress, Santander, 1–4 May 1995, Resolution on Angola.

⁵³ International Federation of Journalists, 23rd World Congress, Recife, 3–7 May 1998, Resolution on the Safety of Journalists.

with serious concern “continued violation of the journalists’ right to report the truth in situations of armed conflict between a) the state and insurgents, b) between ethnic groups and c) between terrorists and their agents”. It further stated that “journalists are often caught in cross-fire between these sides and are subject to all kinds of harassment, threats and even their physical elimination and thus are prevented by both sides to perform their journalistic work freely”.⁵⁴

56. In 1998, the International Federation of Journalists urged the UN Commission on Human Rights “to reiterate the importance of freedom of expression and to defend the right of journalists to exercise their profession free from corruption, harassment and fear”.⁵⁵

57. In 2000, in a statement before the UN Commission on Human Rights, the International Federation of Journalists stated that:

In 1999, murders [of journalists] took place in Chechnya, Colombia, East Timor, Federal Republic of Yugoslavia, India, Nigeria, Pakistan, Peru, Russia, Sierra Leone, Sri Lanka and Turkey. We do not believe that all these murders were carried out by agents of the state. However, most of these killings will remain unsolved, and some of the investigations will be directly or indirectly hindered by agents of the state. As long as the international community gives in to the continued killing of journalists, and the de facto amnesty granted to their killers, there can be no press freedom, no right to life. No respect for any human rights.

During 1999, more than 80 journalists and media staff were killed or murdered making it one of the worst years on record. Most of the victims were cut down in waves of violence in the Balkans, Russia and Sierra Leone. The 1999 Report reveals that 25 journalists and media workers died in the Federal Republic of Yugoslavia, of which 16 were victims of the NATO bombing of the Radio Television Serbia building in Belgrade in April.⁵⁶

58. In a press release in 2000, Article 19, an NGO campaigning for respect for the right to freedom of expression, denounced:

the disregard for the right to freedom of expression by the Yugoslav authorities in imposing the heaviest sentence ever on a journalist... for publishing articles denouncing the atrocities committed in Kosovo... despite the fact that this right is guaranteed by Article 19 of the ICCPR.

The organisation stated that it was “particularly concerned about the fact that a civilian was tried by a military court behind closed doors”.⁵⁷

⁵⁴ International Federation of Journalists, 23rd World Congress, Recife, 3–7 May 1998, Resolution on the Violation of Journalists’ Rights in India.

⁵⁶ International Federation of Journalists, Statement before the UN Commission on Human Rights, 20 March–28 April 2000; see also Written statement submitted to the UN Commission on Human Rights, 20 March–24 April 1998.

⁵⁷ Article 19, Press Release, Article 19 condemns conviction of investigative journalist, 27 July 2000.

59. According to the Committee to Protect Journalists, press coverage of armed conflict continues to provoke the hostility of governments and rebel factions alike and to claim the lives of reporters. In its annual survey on attacks on journalists in 2000, the Committee reported and denounced numerous cases of attacks, murder, unjustified imprisonment and intimidation carried out against journalists covering armed conflict.⁵⁸

60. According to Reporters Sans Frontières, armed conflict remains one of the main topics for which journalists are prosecuted or put under pressure. In its Annual Report 2001, the organisation reported and denounced numerous cases of attacks, murder, unjustified imprisonment and intimidation carried out against journalists covering armed conflict.⁵⁹

PROTECTED ZONES

A. Hospital and Safety Zones and Neutralised Zones (practice relating to Rule 35)	§§ 1–61
B. Demilitarised Zones (practice relating to Rule 36)	§§ 62–184
Establishment of demilitarised zones	§§ 62–102
Attacks on demilitarised zones	§§ 103–184
C. Open Towns and Non-Defended Localities (practice relating to Rule 37)	§§ 185–347
Establishment of open towns	§§ 185–201
Establishment of non-defended localities	§§ 202–226
Attacks on open towns and non-defended localities	§§ 227–347

A. Hospital and Safety Zones and Neutralised Zones*I. Treaties and Other Instruments**Treaties***1. Article 23 GC I provides that:**

In time of peace, the High Contracting Parties and, after the outbreak of hostilities, the Parties to the conflict, may establish in their own territory and, if the need arises, in occupied areas, hospital zones and localities so organized as to protect the wounded and sick from the effects of war, as well as the personnel entrusted with the organization and administration of these zones and localities and with the care of the persons therein assembled.

Upon the outbreak and during the course of hostilities, the Parties concerned may conclude agreements on mutual recognition of the hospital zones and localities they have created. They may for this purpose implement the provisions of the Draft Agreement annexed to the present Convention, with such amendments as they may consider necessary.

2. Article 14, first paragraph, GC IV provides for the establishment of “hospital and safety zones and localities so organized as to protect from the effects of war, wounded, sick and aged persons, children under fifteen, expectant mothers and mothers of children under seven”.

3. Article 15 GC IV provides that:

Any Party to the conflict may, either direct or through a neutral State or some humanitarian organization, propose to the adverse Party to establish, in the regions where fighting is taking place, neutralized zones intended to shelter from the effects of war the following persons, without distinction:

- a) wounded and sick combatants or non-combatants;
- b) civilian persons who take no part in hostilities, and who, while they reside in the zones, perform no work of a military character.

When the Parties concerned have agreed upon the geographical position, administration, food supply and supervision of the proposed neutralized zone, a written agreement shall be concluded and signed by the representatives of the Parties to the conflict. The agreement shall fix the beginning and the duration of the neutralization of the zone.

Other Instruments

4. On the basis of the 1991 Memorandum of Understanding on the Application of IHL between Croatia and the SFRY, neutralised zones were established under ICRC supervision at the Franciscan Monastery and the New Hospital in Dubrovnik.

5. Articles 1, 2(1) and 4(1) of the 1991 Agreement between Croatia and the SFRY on a Protected Zone around the Hospital of Osijek declared the area around the Osijek hospital a protected zone placed under ICRC supervision according to the principles of Articles 23 GC I and 14–15 GC IV. The Agreement restricted access to the zone to the following categories of persons: sick and wounded civilian and military personnel; family members visiting patients recovering in the hospital; persons over 65 years of age, children under 15, expectant mothers and mothers of children under seven; and the hospital's medical and administrative personnel. Under Article 2(4) of the Agreement, "Parties to the agreement shall take every measure to ensure free entrance to and exit from the protected zone for the ICRC delegates and the local staff". Under Article 13, "the competent authorities . . . will . . . give all necessary collaboration to the ICRC and the staff in charge of administering the protected zone".

II. National Practice

Military Manuals

6. Argentina's Law of War Manual (1969) contains a provision regarding the establishment of hospital and safety zones in order to shelter from the effects of war the wounded, sick, disabled and aged, as well as children under 15 years old, pregnant women and mothers of children under 7 years of age. The manual makes reference to Article 14 GC IV.¹

¹ Argentina, *Law of War Manual* (1969), § 4.004.

7. Argentina's Law of War Manual (1989) provides for the possibility of setting up hospital and safety zones and refers to Article 14 GC IV. It further envisages, with reference to Article 15 GC IV, the possibility of creating neutralised zones in combat areas to shelter persons not, or no longer, taking part in military activities.²

8. Australia's Defence Force Manual states that "hospital and safety zones are established for the protection from the effects of war of the wounded, sick and aged persons, children under 15 years, expectant mothers and mothers of children under seven years . . . by agreement between the parties".³ The manual adds that:

Neutralised zones may be established in regions where fighting is taking place to shelter wounded and sick combatants or noncombatants and civilian persons who take no part in hostilities and who perform no work of a military character. The zones are set up by written agreement.⁴

9. Cameroon's Disciplinary Regulations provides that each soldier must respect "hospital zones and localities".⁵

10. Canada's LOAC Manual describes hospital and safety zones and neutralised zones as areas that are entitled to protection from attack under the laws of armed conflict.⁶ It states that "such zones also protect those personnel responsible for organizing and administrating the zones as well as those caring for the wounded and sick". Furthermore, the manual states that "hospital zones should be located in sparsely populated areas away from legitimate targets".⁷ The manual provides that hospital and safety zones can be established either in time of peace or after the outbreak of hostilities, and even in occupied areas if necessary.⁸ As regards neutralised zones, the manual states that:

Any party to a conflict may, either directly or through a neutral State or some humanitarian organization, propose to the adverse party to establish, in the regions where the fighting is taking place, neutralized zones intended to shelter from the effects of the conflict the following persons, without distinction: wounded and sick combatants or non-combatants, and civilian persons who take no part in hostilities and who, while they reside in the zones, perform no work of a military character.⁹

The manual further states that any agreement setting up a neutralised zone "should provide details of the location, administration, provisioning and supervision of the proposed neutralized zone as well as fix its beginning and duration".¹⁰

² Argentina, *Law of War Manual* (1989), § 4.05.

⁸ Canada, *LOAC Manual* (1999), p. 4-10, §§ 103-104.

⁹ Canada, *LOAC Manual* (1999), p. 4-10, § 107.

¹⁰ Canada, *LOAC Manual* (1999), p. 11-2, § 14.

11. Ecuador's Naval Manual states that "when established by agreement between belligerents, hospital zones and neutralized zones are immune from bombardment in accordance with the terms of the agreement concerned".¹¹

12. France's LOAC Teaching Note includes safety zones and neutralised zones among the areas specially protected by IHL. It states that these zones are established by agreement and may not be attacked.¹²

13. France's LOAC Manual notes that the laws of armed conflict afford a special protection to certain areas, among which are safety zones and neutralised zones. It states that safety zones are established by agreement between the belligerents in order to shelter wounded, sick, disabled or aged persons, children, expectant mothers and mothers of children under the age of seven; neutralised zones are set up by written agreement between the belligerents with the aim of sheltering the wounded and sick, as well as the civilian population located therein. The manual prohibits attacks against both types of zones.¹³

14. Germany's Military Manual provides that "hospital and safety zones and localities shall be established on mutual agreement so as to protect wounded, sick and aged persons, children, expectant mothers and mothers of children under seven from any attack".¹⁴ The manual further provides that grave breaches of IHL are in particular "launching attacks against... neutralized zones".¹⁵

15. Hungary's Military Manual instructs soldiers to respect hospital zones and localities. More generally, it provides that protected zones shall be respected and shall be taken over without combat.¹⁶ The manual also stresses the possibility of non-hostile contacts with the enemy, *inter alia*, for the creation of neutralised zones.¹⁷

16. Italy's LOAC Elementary Rules Manual states that "where protected zones or localities (hospital zones...) have been agreed upon, the competent commanders shall issue instructions for action and behaviour near and towards such zones or localities".¹⁸ The manual also provides that "protected zones shall be respected".¹⁹

17. Italy's IHL Manual qualifies "attacks on... hospital and safety zones which must be respected and protected at all times" as a war crime.²⁰

18. Kenya's LOAC Manual states that:

Hospital and safety zones may be set up in peacetime to contain hospitals, shelters for the wounded and sick, the old and infants, children under 15 years of age,

¹¹ Ecuador, *Naval Manual* (1989), § 8.5.1.3.

¹⁹ Italy, *LOAC Elementary Rules Manual* (1991), § 70.

²⁰ Italy, *IHL Manual* (1991), Vol. I, § 85.

expectant mothers and mothers with children under 7 years of age. Upon the outbreak and during the course of hostilities, the parties concerned may conclude agreements on mutual recognition of the zones and localities they have created.²¹

The manual further states that:

As an emergency measure, the commanders of the Parties to the conflict may establish, in the regions where fighting is taking place, neutralized zones intended to shelter from the effects of war the following persons, without distinction:

- (a) wounded and sick combatants or non-combatants;
- (b) civilian persons who take no part in hostilities and who, while they reside in the zones, perform no work of a military character.

To effect such a zone, a written agreement shall be concluded and signed by the representatives of the Parties to the conflict.²²

19. Madagascar's Military Manual states that the establishment of safety zones and protected zones is concluded by an agreement and that these zones should be respected.²³

20. The Military Manual of the Netherlands states that the protection offered to hospital and safety zones concerns "the wounded and sick, disabled and aged persons, children under 15 years, expectant mothers and mothers with children under 7 years" and specifies that "the rules governing hospital or safety zones must be laid down in an agreement between the parties to the conflict".²⁴ The manual also underlines the possibility for the parties to set up neutralised zones through a written agreement for the protection of "the wounded and sick, whether military or civilian, and civilians who neither take part in the hostilities nor carry out work of a military character".²⁵

21. New Zealand's Military Manual provides that:

A State may declare during peacetime that, in the event of armed conflict, a particular area shall be a safety or hospital zone for the protection of wounded, sick, the aged, expectant mothers and children. On the outbreak of hostilities, the combatants may agree to recognize such areas and zones as being immune from attack and outside the area of hostilities. After the commencement of the conflict, safety and hospital zones may be established in occupied territory as well.²⁶

In a section on "General measures for the protection of civilians", the manual reaffirms the possibility of setting up hospital and safety zones, stating that:

In time of peace or after the outbreak of hostilities, belligerents may establish such zones and localities . . . for the protection from the effects of war of wounded, sick and aged persons, children under fifteen, expectant mothers and mothers of children

²¹ Kenya, *LOAC Manual* (1997), Précis No. 4, p. 6.

²⁶ New Zealand, *Military Manual* (1992), § 412(2).

under seven. Agreements may be concluded between the belligerents concerning mutual recognition of the zones and localities so created. To facilitate the institution and recognition of hospital and safety zones and localities recourse may be had to the good offices of the Protecting Powers and the International Committee of the Red Cross.²⁷

Concerning the establishment of neutralised zones, the manual states that an agreement is required. It adds that:

In the area of operations a neutralised zone may be set up for the protection of wounded and sick or other persons *hors de combat* as well as non-combatants taking no part in the hostilities or in activities of a military character. The area of the zone and its agreed duration should be detailed in the agreement.²⁸

22. Nigeria's Military Manual states that "preplanned protected zones are established by agreement between belligerent parties".²⁹

23. Senegal's IHL Manual provides for the possibility of establishing neutralised zones by agreement in order to provide protection, without discrimination, for the wounded and sick as well as for persons not taking a direct part in military operations and, while residing in the zone, not performing any activity connected with such operations.³⁰

24. Spain's LOAC Manual refers to Articles 23 GC I and 14 GC IV concerning hospital and safety zones and to Article 15 GC IV concerning neutralised zones.³¹ The manual states that hospital and safety zones, which are intended to shelter from the effects of war the wounded and sick, the old, children under 15 years of age, expectant mothers and mothers with children under 7 years of age, may be established by agreement between the parties to a conflict, and prohibits attacks on such areas. Equally prohibited are attacks against neutralised zones, which may be established by agreement in order to protect wounded and sick combatants and non-combatants, as well as civilians not taking any part in hostilities.³² The manual also stresses that, while hospital and safety zones can be set up in areas located outside the combat zone, neutralised zones are established in the regions where hostilities are taking place.³³

25. Sweden's IHL Manual provides for the possibility in peacetime of declaring, by special agreement, a given part of a State's territory a neutralised area. It explains that this means that "no acts of war whatsoever may be directed against or take place within that area. This restriction is intended to apply for the full duration of the conflict." It adds that:

²⁷ New Zealand, *Military Manual* (1992), § 1106.

²⁸ New Zealand, *Military Manual* (1992), § 412(3).

²⁹ Nigeria, *Military Manual* (1994), p. 43, § 14. ³⁰ Senegal, *IHL Manual* (1999), p. 20.

³¹ Spain, *LOAC Manual* (1996), Vol. I, §§ 1.3.e.(3)-(4) and 7.3.b.(5).

³² Spain, *LOAC Manual* (1996), Vol. I, § 4.5.b.(3)(b).

³³ Spain, *LOAC Manual* (1996), Vol. I, § 9.5.(a)-(b).

It is also possible for the parties to reach an agreement during a conflict that all acts of war shall cease temporarily within a given part of a conflict area. Such agreements are commonly made to afford protection to civilian populations, and specially to such exposed groups as children, old people, and the sick and the wounded.³⁴

The manual is guided by the rules embodied in Articles 23 GC I and 14–15 GC IV.³⁵

26. Switzerland's Military Manual states that it is forbidden for any troop member to enter hospital and safety zones and neutralised zones.³⁶

27. Switzerland's Basic Military Manual refers to Article 23 GC I and provides that "the belligerent parties may at any time establish, by agreement, hospital zones and localities in order to shelter the wounded and sick, military or civilian, together with the necessary personnel, from the effects of war".³⁷

28. The UK Military Manual provides for the possibility of establishing, by agreement between the parties before or after the outbreak of hostilities, hospital and safety zones and localities, either in occupied territory or in the territory of a belligerent.³⁸ It further allows any belligerent to propose to the opposing belligerent, either directly or through a neutral State or a humanitarian organisation, the establishment of neutralised zones in the area of combat, "to shelter from the effects of war wounded or sick combatants or non-combatants and civilian persons who take no part in the hostilities and who perform no work of a military character".³⁹

29. The UK LOAC Manual provides that "safety zones may be set up to contain hospitals, shelters for the wounded and sick, the old and infirm, children under 15 years of age, expectant mothers and mothers with children under 7 years of age".⁴⁰

30. The US Field Manual restates Articles 23 GC I and 14–15 GC IV and specifies that these agreements setting up hospital and safety zones and neutralised zones "may be concluded either by the governments concerned or by subordinate military commanders".⁴¹

31. The US Air Force Pamphlet states that:

The Geneva Conventions of 1949 provide for protected or safety zones established by agreement between the parties to the conflict. Safety zones established under the Geneva Conventions of 1949, or by other agreement among parties to a conflict, are immune from bombardment in accordance with the terms of the agreement.⁴²

32. The US Air Force Commander's Handbook, in a section entitled "Neutralized and Demilitarized Zones", provides that:

³⁴ Sweden, *IHL Manual* (1991), Section 3.4.1, p. 84.

³⁵ Sweden, *IHL Manual* (1991), Section 3.4.2, p. 84.

³⁶ Switzerland, *Military Manual* (1984), p. 18.

³⁷ Switzerland, *Basic Military Manual* (1987), Article 86.

³⁸ UK, *Military Manual* (1958), §§ 26 and 363.

³⁹ UK, *Military Manual* (1958), § 27. ⁴⁰ UK, *LOAC Manual* (1981), Section 9, p. 34, § 2.

⁴¹ US, *Field Manual* (1956), §§ 224 and 253. ⁴² US, *Air Force Pamphlet* (1976), § 5-5(b).

By agreement, the parties to a conflict may establish certain zones where civilians, the sick and wounded, or other noncombatants may gather to be safe from attack. A party to conflict cannot establish such a zone by itself; neutralized zones need only be respected if established by agreement between the parties, either in oral or written, or by parallel declarations. Such an agreement may be concluded either before or during hostilities.

United States forces need not respect such a zone unless the United States has agreed to respect it. Even in an unrecognized zone, of course, only legitimate military objectives . . . may be attacked.⁴³

33. The US Naval Handbook states that “when established by agreement between the belligerents, hospital zones and neutralized zones are immune from bombardment in accordance with the terms of the agreement concerned”.⁴⁴

34. The YPA Military Manual of the SFRY (FRY) contains provisions regarding the establishment of and respect for hospital and safety zones and neutralised zones, which mirror the relevant provisions of the Geneva Conventions.⁴⁵

National Legislation

35. Argentina’s Draft Code of Military Justice punishes any soldier who “wilfully violates the protection due to . . . hospital and safety zones and neutralised zones . . . which are properly marked”.⁴⁶

36. Under Colombia’s Penal Code, it is a war crime to attack or destroy, without imperative military necessity, “hospital zones . . . properly marked with the distinctive emblems of the red cross or red crescent”.⁴⁷

37. Italy’s Law of War Decree as amended provides that “a royal decree can establish rules to guarantee, on the basis of reciprocity, respect for and protection of towns or localities used exclusively by the medical services or for the protection of the civilian population”.⁴⁸

38. Under the Draft Amendments to the Penal Code of El Salvador, “anyone who, in the context of an international or non-international armed conflict, attacks or destroys . . . hospital zones, without having taken adequate measures of protection and without imperative military necessity” is punishable by imprisonment.⁴⁹

39. Nicaragua’s Draft Penal Code states that “whoever, in the circumstances of an international or internal armed conflict, without having previously taken appropriate measures of protection and without any justification based on

⁴⁹ El Salvador, *Draft Amendments to the Penal Code* (1998), Article entitled “Destrucción de bienes e instalaciones de carácter sanitario”.

imperative military necessity, attacks or destroys sanitary . . . zones" commits a punishable "offence against international law".⁵⁰

40. Poland's Penal Code provides for the punishment of "any person who, during hostilities, attacks a . . . neutralized zone".⁵¹

41. Spain's Penal Code provides for the punishment of "anyone who, in the event of armed conflict, should . . . knowingly violate the protection due to . . . health and security areas [and/or] neutralised areas . . . which are duly identified with signs or the appropriate distinctive signals".⁵²

National Case-law

42. No practice was found.

Other National Practice

43. According to the Report on the Practice of Egypt, "Egypt thinks that protection of . . . demilitarized zones . . . consists in refraining from launching attacks against . . . these areas", which implies that "attacks against such places are prohibited".⁵³

44. According to the Report on the Practice of France, France has consistently upheld the general principle of protection of safety zones, the principle implying that it is prohibited to launch attacks or bombardments against these zones. The report notes that France was the initiator of the concept of safety zones.⁵⁴

45. During the war in the South Atlantic, at the UK's suggestion, and without any special agreement in writing, the parties to the conflict established a neutral zone at sea. This zone, called the Red Cross Box, with a diameter of approximately 20 nautical miles, was located on the high seas to the north of the islands. Without hampering military operations, it enabled hospital ships to hold position and exchange British and Argentine wounded.⁵⁵

46. According to the Report on the Practice of the SFRY (FRY), "the *opinio iuris* and the customary nature of rules relevant to the establishment of neutralised zones in the FRY is absolutely clear".⁵⁶

III. Practice of International Organisations and Conferences

United Nations

47. In 1970, the UN General Assembly, "bearing in mind the need for measures to ensure the better protection of human rights in armed conflicts of all

⁵⁶ Report on the Practice of the SFRY (FRY), 1997, Chapter 1.8.

types", adopted Resolution 2675 (XXV) in which it stated that "places or areas designated for the sole protection of civilians, such as hospital zones or similar refuges, should not be the object of military operations".⁵⁷

Other International Organisations

48. In 1995, the Council of Europe's Commission of Inquiry for the conflict in Chechnya commented on UN General Assembly Resolution 2675 (XXV) relative to the protection of civilian medical establishments, saying that it did not make any distinction between international and non-international conflicts. The Commission recalled the Geneva Conventions and the UN General Assembly resolutions on the protection of civilian populations in times of armed conflict, and emphasised that one of the basic principles of the protection of civilian populations was that "places or areas designated for the sole protection of civilians, such as hospital zones or similar refuges, should not be the object of military operations".⁵⁸

International Conferences

49. The 25th International Conference of the Red Cross in 1986 adopted a resolution on the protection of the civilian population in armed conflicts which "encourages an expanded use of protective zones in all armed conflicts".⁵⁹

50. The Plan of Action for the years 2000–2003 adopted in 1999 by the 27th International Conference of the Red Cross and Red Crescent proposed that all the parties to an armed conflict take effective measures to ensure that:

an attempt is made whenever possible to enhance the safety of protected persons, and in the framework of international humanitarian law or the United Nations Charter, to create a humanitarian space through the establishment of safety zones, humanitarian corridors, and other forms of special protection for civilian populations and other persons protected under international humanitarian law.⁶⁰

IV. Practice of International Judicial and Quasi-judicial Bodies

51. No practice was found.

V. Practice of the International Red Cross and Red Crescent Movement

52. To fulfil its task of disseminating IHL, the ICRC has delegates around the world teaching armed and security forces that "preplanned protected zones

are established by agreement between belligerent Parties . . . [including] hospital zones and localities". They specify that "this term includes in practice also the 'safety zones and localities'".⁶¹

53. During Bangladesh's war of independence, three neutralised zones were established in a college, a hospital and the Sheraton Hotel. These zones, all administered by the ICRC, were respected.⁶²

54. During the Vietnam War in 1975, the headquarters of the Vietnamese Red Cross and a neighbouring building in Saigon were declared neutralised zones by the ICRC. They gave shelter to the wounded and sick, the disabled, orphans and lost children.⁶³

55. In 1975, in Nicosia (Cyprus), more than 2,000 civilians found shelter in three neutralised zones administered by the ICRC.⁶⁴

56. In 1975, the ICRC had a neutralised zone set up in Phnom Penh (Cambodia) during the final battle for the city. Around 2,000 foreign nationals were allowed to take refuge in Le Phnom hotel, where the agreed zone was located and respected.⁶⁵

57. In 1990, the ICRC issued a press release concerning the creation of a hospital zone around the premises of the Jaffna Hospital in Sri Lanka. The ICRC communicated the rules concerning the establishment of the hospital zone to both the Sri Lankan government and the LTTE and stated that they were to be implemented as of 6 November 1990. The rules were as follows:

The premises of Jaffna Hospital are placed under ICRC protection. They will be regarded by the Parties as a *Hospital zone*:

- the compound will be clearly marked with red crosses for easy identification from the ground and the air;
- no armed personnel will be allowed within the compound;
- no military vehicle will be stationed at the entrance of the hospital compound;
- no vehicle other than those of the hospital, the Sri Lanka Red Cross and the ICRC will be admitted into the compound.

⁶³ Yves Sandoz, "The Establishment of Safety Zones for Persons Displaced Within Their Country of Origin", in Najeeb Al-Nauimi and Richard Meese (eds.), *International Legal Issues Arising Under the United Nations Decade of International Law*, Martinus Nijhoff, The Hague, 1995, p. 910.

⁶⁴ Yves Sandoz, "The Establishment of Safety Zones for Persons Displaced Within Their Country of Origin", in Najeeb Al-Nauimi and Richard Meese (eds.), *International Legal Issues Arising Under the United Nations Decade of International Law*, Martinus Nijhoff, The Hague, 1995, pp. 909–910.

⁶⁵ Yves Sandoz, "The Establishment of Safety Zones for Persons Displaced Within Their Country of Origin", in Najeeb Al-Nauimi and Richard Meese (eds.), *International Legal Issues Arising Under the United Nations Decade of International Law*, Martinus Nijhoff, The Hague, 1995, pp. 910–911.

Around the Hospital, a safety area is established. The rules governing this safety area (which includes the hospital compound) are:

- the area will be clearly marked in such a way that it can be easily identified both from the ground and from the air;
- the area will remain void of any military or political installation;
- no military action will be undertaken either from or against the safety area;
- no military base, installation or position of any kind will be established or maintained within the area;
- no military personnel will be stationed and no military equipment will be stored at any time within the said area;
- no weapon will be activated from outside the safety area against persons or buildings within the safety area.

In cases of severe or persistent violation of these rules, the ICRC may unilaterally withdraw its protection of the hospital.⁶⁶

58. In 1992, in a position paper on the establishment of protected zones for endangered civilians in Bosnia and Herzegovina, the ICRC outlined the conditions that would need to be met in order for such zones to be established in the region. These conditions were:

- The protected zone(s) must meet appropriate hygiene standards.
- The protected zone(s) must be in an area where the necessary protection may be assumed.
- The international responsibility for such zone(s) must be clearly established.
- The parties concerned must give their agreement to the concept and to the location of the protected zone(s).
- Duly mandated international troops, such as UNPROFOR, must assure the internal and external security of this zone(s), as well as for part of the logistics.
- International organizations must help with the entire installation of the zone(s) – housing, shelter, heating, sanitation – and with the logistics. In addition, the organizations involved must take responsibility for the food deliveries, the cooking and the medical services.

The ICRC is willing and ready to offer its services to help with the establishment and running of such zones.⁶⁷

59. During the conflict in the former Yugoslavia, the ICRC organised meetings between the parties to the conflict with a view, *inter alia*, to establishing protected zones to afford special protection for the sick and wounded and other particularly vulnerable groups of non-combatants. As a result of the talks, the hospital and the Franciscan convent in Dubrovnik and the Osijek hospital were declared protected zones between mid-December 1991 and early January 1992. The parties agreed to place such zones under ICRC supervision.⁶⁸

⁶⁶ ICRC, Press Release, ICRC Colombo, 6 November 1990.

⁶⁷ ICRC, Position Paper on the Establishment of Protected Zones for Endangered Civilians in Bosnia-Herzegovina, 30 October 1992, quoted in Marco Sassòli and Antoine A. Bouvier, *How Does Law Protect in War?*, ICRC, Geneva, 1999, pp. 1127–1129.

⁶⁸ ICRC, Communication to the Press No. 92/1, Conflict in Yugoslavia. Review of ICRC activities, 2 January 1992.

60. In a communication to the press issued in 1992, the ICRC condemned a number of incidents that had occurred within the protected zone of Osijek hospital and strongly urged the parties to the conflict to take all necessary measures to ensure respect for the protected zone, which could not be the object of attack in any circumstances.⁶⁹

VI. Other Practice

61. No practice was found.

B. Demilitarised Zones

Establishment of demilitarised zones

I. Treaties and Other Instruments

Treaties

62. Under paragraph D of the 1949 Karachi Agreement, India and Pakistan agreed that “no troops shall be stationed from south of Minimarg to the cease-fire line”.

63. Article I(6) and (10) of the 1953 Panmunjom Armistice Agreement stipulates that neither side shall execute any hostile act within, from, or against the established demilitarised zone and that the total number of military personnel from each side allowed to enter the zone cannot exceed 1,000 persons at one time under any circumstance.

64. The 1974 Disengagement Agreement between Israel and Syria created a demilitarised zone on the Syrian side of the Golan Heights. This agreement is subject to international supervision.

65. Article 60 AP I provides that:

2. The agreement [to establish a demilitarized zone] shall be an express agreement, may be concluded verbally or in writing, either directly or through a Protecting Power or any impartial humanitarian organization, and may consist of reciprocal and concordant declarations. The agreement may be concluded in peacetime, as well as after the outbreak of hostilities, and should define and describe, as precisely as possible, the limits of the demilitarized zone and, if necessary, lay down the methods of supervision.
3. The subject of such an agreement shall normally be any zone which fulfils the following conditions:
 - a) all combatants, as well as mobile weapons and mobile military equipment, must have been evacuated;
 - b) no hostile use shall be made of fixed military installations or establishments;

⁶⁹ ICRC, Communication to the Press No. 92/7, Yugoslavia: Dialogue continues as plenipotentiaries meet in Geneva, 27 March 1992; Press Release No. 1710, Yugoslavia: New attack on Osijek hospital, 24 April 1992.

- c) no acts of hostility shall be committed by the authorities or by the population; and
- d) any activity linked to the military effort must have ceased.

The Parties to the conflict shall agree upon the interpretation to be given to the conditions laid down in sub-paragraph d) and upon persons to be admitted to the demilitarized zone other than those mentioned in paragraph 4.

4. The presence, in this zone, of persons specially protected under the Conventions and this Protocol, and of police forces retained for the sole purpose of maintaining law and order, is not contrary to the conditions laid down in paragraph 3.

Article 60 AP I was adopted by consensus.⁷⁰

66. The 1979 Peace Treaty between Israel and Egypt created a demilitarised zone in the Sinai, subject to international supervision. Egyptian civilian police are allowed to operate in the demilitarised zone set up pursuant to the agreement.

Other Instruments

67. Article 3 of the 1993 Agreement on Demilitarisation of Srebrenica and Žepa provided that every military or paramilitary unit should either withdraw from the demilitarised zones or hand over their weapons. Under Article 5, ammunition, mines, explosives and combat supplies in the demilitarised zones were to be handed over to UNPROFOR, under whose control the demilitarised zones were placed.

II. National Practice

Military Manuals

68. Argentina's Law of War Manual provides for the possibility of establishing demilitarised zones and refers to the conditions set out for this purpose in Article 60 AP I.⁷¹

69. Australia's Defence Force Manual states that:

Demilitarised zones are areas in which, by express agreement between the parties to the conflict, military operations are not conducted. The aim of these zones is common to that of non-defended localities. The differences between the two areas relate to how they are established and their situation. A non-defended locality may be created by unilateral declaration, whereas a demilitarised zone is created by express agreement between the parties. From the commander's point of view, protection granted to each zone is identical. Therefore, as long as sufficient notice is given of the zones and they are adequately marked, they are protected from attack.⁷²

70. Cameroon's Instructors' Manual, while defining demilitarised zones as zones where all military activities have ceased, states that conditions regarding

⁷⁰ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 215.

⁷¹ Argentina, *Law of War Manual* (1989), § 4.06.

⁷² Australia, *Defence Force Manual* (1994), § 737.

demilitarised zones are established by an express agreement between the belligerents.⁷³

71. Canada's LOAC Manual requires an agreement between the parties to a conflict in order to establish a demilitarised zone. According to the manual, the conditions that must normally be satisfied by a demilitarised zone are the same as those listed in Article 60(3) AP I.⁷⁴

72. Croatia's LOAC Compendium states that the following are not allowed in a demilitarised zone: a) the presence of combatants; b) the presence of mobile weapons; c) the presence of mobile military equipment; d) any act of hostility; and e) any activity related to the conduct of military operations.⁷⁵

73. Germany's Military Manual states that:

The prerequisites for establishing [a demilitarized zone] are equal to those applying to non-defended localities (Article 59 para. 2, 60 para. 3 AP I). Demilitarized zones are created by an agreement concluded between the parties to the conflict either in peacetime or in case of conflict. It is prohibited for each party to the conflict to attack or occupy such zones (Article 60 para 1 AP I).⁷⁶

74. Hungary's Military Manual states that the establishment of a demilitarised zone requires that there are "no combatants; no mobile weapons; no mobile military equipment; no hostile acts; no activity linked to the military effort".⁷⁷

75. Kenya's LOAC Manual, in a section entitled "Demilitarized Zones" states that:

These specific protected zones which are open to all non-combatants are regulated by an express agreement concluded verbally or in writing between the two Parties to the conflict. Such an agreement may be concluded in peacetime as well as after the outbreak of hostilities.

The conditions to be fulfilled by both demilitarized zones and non-defended localities are the same in practice. They are:

- a) that all combatants as well as mobile weapons and mobile military equipment must be evacuated;
- b) that no hostile use shall be made of fixed military installations or establishments;
- c) that no acts of hostility shall be committed by the authorities or by the population; and
- d) that any activity linked to the military effort must cease.⁷⁸

76. Madagascar's Military Manual provides that the term "demilitarised zone" means a zone from which all combatants as well as all mobile weapons and military material have been evacuated, and in which fixed military establishments are not used for harmful purposes, no hostile act can be committed by

⁷³ Cameroon, *Instructors' Manual* (1992), p. 20, § 227.

⁷⁴ Canada, *LOAC Manual* (1999), p. 4-11, §§ 115-116.

⁷⁵ Croatia, *LOAC Compendium* (1991), p. 11.

⁷⁶ Germany, *Military Manual* (1992), § 461.

⁷⁷ Hungary, *Military Manual* (1992), p. 23.

⁷⁸ Kenya, *LOAC Manual* (1997), Précis No. 4, pp. 6-7.

the authorities and the population, and all activities linked to the military effort have ceased. It states that demilitarised zones are created by agreement between the parties concerned.⁷⁹

77. The Military Manual of the Netherlands describes the establishment of demilitarised zones on the basis of Article 60 AP I.⁸⁰

78. New Zealand's Military Manual provides that "the parties to a conflict may agree that a particular area shall constitute a demilitarised zone, in which case military operations may only be carried on in that area to the extent permitted by the agreement". With respect to the rules and the procedure to be adopted in relation to the establishment of demilitarised zones, the manual refers to Article 60 AP I. It also notes that agreements establishing the zones may be oral or in writing, may be arranged either directly or through the medium of a protecting power or any impartial humanitarian organisation or may also arise by way of reciprocal and concordant declarations.⁸¹

79. Nigeria's Military Manual notes that preplanned protected zones, including demilitarised zones, are established by agreement between belligerent parties or can be internationally recognised.⁸²

80. Spain's LOAC Manual notes that demilitarised zones are areas established by an agreement between the belligerents and designed to protect especially vulnerable sectors of the population from the effects of war. The manual refers to Article 60 AP I.⁸³

81. Sweden's IHL Manual refers to Article 60 AP I as embodying "new provisions" on demilitarised zones. It stresses that, unlike non-defended localities, demilitarised zones cannot be established merely through a unilateral declaration; an agreement between the parties, made either before or during a conflict, is necessary. The manual adds that:

Article 60 does not only imply prohibition of the setting-up of fixed defence establishments within [a demilitarised area]... [I]t is also prohibited to undertake military operations within the zone – always provided that the parties do not decide otherwise. A demilitarised zone shall not be open to occupation by the adversary, as in the case with non-defended localities.

The manual recalls that "the conditions required for a [demilitarised] area are the same as for non-defended localities", with the only difference that the condition relating to activity supporting military operations "has been extended to apply to any activity connected with the military".⁸⁴

82. Switzerland's Basic Military Manual states, with reference to Article 60 AP I, that demilitarised zones can be established by military commanders of

⁷⁹ Madagascar, *Military Manual* (1994), Fiche No. 3-SO, § I.

⁸⁰ Netherlands, *Military Manual* (1993), p. V-16/V-17, § 14.

⁸² Nigeria, *Military Manual* (1994), p. 43, § 14.

⁸³ Spain, *LOAC Manual* (1996), Vol. I, §§ 1.3.e.(2) and 7.3.b.(5).

⁸⁴ Sweden, *IHL Manual* (1991), Section 3.4.3, pp. 87–88.

the parties to the conflict.⁸⁵ It points out that demilitarised zones, as well as non-defended localities, may be established through specific reciprocal declarations and that a unilateral declaration is not sufficient to create them.⁸⁶ The conditions for the setting-up of a demilitarised zone are the same as for non-defended localities, namely: all combatants as well as mobile weapons and military equipment must be evacuated; no hostile use shall be made of fixed military installations or establishments; no acts of hostility shall be committed by the authorities or by the population; any activity in support of the military effort must cease; and the zone must be marked by distinctive signs.⁸⁷

83. The US Air Force Pamphlet states that “both the 1923 Draft Hague Rules [of Air Warfare] and the 1949 Geneva Conventions recognize the right of states, by agreement, to create safety zones or demilitarized zones”.⁸⁸

84. The US Air Force Commander’s Handbook, in a section entitled “Neutralized and Demilitarized Zones”, provides that:

By agreement, the parties to a conflict may establish certain zones where civilians, the sick and wounded, or other noncombatants may gather to be safe from attack.

A party to conflict cannot establish such a zone by itself; neutralized zones need only be respected if established by agreement between the parties, either in oral or written, or by parallel declarations. Such an agreement may be concluded either before or during hostilities.

United States forces need not respect such a zone unless the United States has agreed to respect it. Even in an unrecognized zone, of course, only legitimate military objectives . . . may be attacked.⁸⁹

85. The YPA Military Manual of the SFRY (FRY) contains provisions regarding the establishment of demilitarised zones, which mirror the conditions prescribed by AP I.⁹⁰

National Legislation

86. The Draft Amendments to the Penal Code of El Salvador define demilitarised zones in accordance with Article 60(3) AP I.⁹¹

87. Nicaragua’s Draft Penal Code defines demilitarised zones in accordance with Article 60(3) AP I.⁹²

National Case-law

88. No practice was found.

⁹² Nicaragua, *Draft Penal Code* (1999), Article 467(2).

Other National Practice

89. The Report on the Practice of Colombia notes that the government has ordered the demilitarisation of certain regions of the country in order to enable a constructive dialogue to be developed concerning the demobilisation and reintegration of armed opposition groups. Another purpose of these zones is to carry out humanitarian operations, such as the release of persons deprived of freedom.⁹³

90. According to the Report on the Practice of Kuwait, the Kuwaiti government considers that military troops or their materiel are barred from entering the demilitarised zone in northern Kuwait. This protection is ensured by representatives of the Ministry of the Interior, who are not allowed to enter the area with high-calibre weapons. Allegations of violations by the Iraqi party must be transmitted to UNIKOM for appropriate action.⁹⁴

91. The Act Establishing the Demilitarized Zone, annexed to the 1990 Effective and Definitive Cease-fire Agreement between the Government of the Republic of Nicaragua and the Nicaraguan Resistance, provides that "in the demilitarized zone, there shall be no artillery, no offensive troops of any kind, no militia and no paramilitary or security forces" and that "the police of the villages situated within the demilitarized zone shall be disarmed".⁹⁵

92. The Report on US Practice considers that US *opinio juris* generally conforms to the rules and conditions prescribed in Article 60 AP I.⁹⁶

93. According to the Report on the Practice of the SFRY (FRY), "the *opinio iuris* and the customary nature of rules relevant to the establishment of demilitarised zones in the FRY is absolutely clear".⁹⁷

*III. Practice of International Organisations and Conferences**United Nations*

94. In 1994, in a statement by its President concerning the conflict in Croatia, the UN Security Council denounced the continuing violation of the demilitarised status of Prevlaka. Referring, *inter alia*, to the movement of heavy weapons and of Croatian special police and the entry of a navy missile boat of the SFRY into the demilitarised zone, the Security Council underlined its concern in this regard and called upon the parties to cease such violations.⁹⁸

⁹⁸ UN Security Council, Statement by the President, UN Doc. S/PRST/1997/23, 25 April 1997.

95. In a report in 1990, the UN Secretary-General referred to complaints made to ONUCA by leaders of the Nicaraguan resistance concerning the continued presence of armed civilians and militia personnel in some of the demilitarised zones.⁹⁹

96. In a report concerning UNIKOM in 1997, the UN Secretary-General denounced a number of violations in the demilitarised zone on the Iraq–Kuwait border. He noted that 10 of the 14 ground violations were related to the presence of military and armed personnel in this zone. Insofar as air violations were concerned, they involved overflights by aircraft of types used by the coalition forces.¹⁰⁰

97. In a 1998 report regarding UNCRO in Croatia, whose mandate included the demilitarisation of the Prevlaka peninsula, the UN Secretary-General considered the presence of Yugoslav troops in the north-western part of the demilitarised zone as the most significant long-standing violation in this area.¹⁰¹

Other International Organisations

Attacks on demilitarised zones

I. Treaties and Other Instruments

Treaties

103. Article I(6) of the 1953 Panmunjon Armistice Agreement provides that “neither side shall execute any hostile act . . . against the demilitarised zone”.

104. Article 60(1) AP I provides that “it is prohibited for the Parties to the conflict to extend their military operations to zones on which they have conferred by agreement the status of demilitarized zone, if such extension is contrary to the terms of this agreement”.

105. Article 60(7) AP I provides that:

If one of the Parties to the conflict commits a material breach of the provisions of paragraphs 3 or 6 [concerning the conditions to be fulfilled by a zone to be established as a demilitarized zone and the prohibition to use the zone for purposes related to the conduct of military operations], the other Party shall be released from its obligations under the agreement conferring upon the zone the status of demilitarized zone. In such an eventuality, the zone loses its status but shall continue to enjoy the protection provided by the other provisions of this Protocol and the other rules of international law applicable in armed conflict.

Article 60 AP I was adopted by consensus.¹⁰³

106. Under Article 85(3)(d) AP I, “making . . . demilitarized zones the object of attack” is a grave breach of the Protocol. Article 85 AP I was adopted by consensus.¹⁰⁴

Other Instruments

107. Pursuant to Article 20(e)(iii) of the 1996 ILC Draft Code of Crimes against the Peace and Security of Mankind, “attack, or bombardment, by whatever means, of . . . demilitarized zones” is a war crime.

II. National Practice

Military Manuals

108. Argentina’s Law of War Manual prohibits attacks on demilitarised zones by any means whatsoever and states that the prohibition of such attacks subsists only as long as such zones comply with the conditions set out in Article 60 AP I.¹⁰⁵ It further qualifies attacks against demilitarised zones as grave breaches of IHL.¹⁰⁶

¹⁰³ CDDH, *Official Records*, Vol. VI, CDDH/SR.42, 27 May 1977, p. 215.

¹⁰⁴ CDDH, *Official Records*, Vol. VI, CDDH/SR.44, 30 May 1977, p. 291.

¹⁰⁵ Argentina, *Law of War Manual* (1989), § 4.06.

¹⁰⁶ Argentina, *Law of War Manual* (1989), § 8.03.

109. Australia's Defence Force Manual states that "generally, demilitarised zones are protected from attack".¹⁰⁷ It further provides that "making... demilitarised zones the object of attack" constitutes a grave breach or a serious war crime likely to warrant institution of criminal proceedings.¹⁰⁸

110. Benin's Military Manual prohibits attacks on demilitarised zones.¹⁰⁹

111. Cameroon's Instructors' Manual mentions the duty to avoid hostilities from the air over demilitarised zones and emphasises that, while these zones cannot be made the object of an attack, it is also prohibited to launch an attack from a demilitarised zone.¹¹⁰

112. Canada's LOAC Manual states that "it is prohibited for parties to a conflict to conduct military operations in or to attack an area that they have agreed to treat as a demilitarized zone".¹¹¹ It further states that an area loses its status as a demilitarised zone if used "for purposes related to the conduct of military operations where it has agreed not to do so".¹¹² The manual considers that "making... demilitarized zones the object of attack" constitutes a grave breach of AP I.¹¹³

113. Croatia's Commanders' Manual imposes a duty to issue appropriate instructions when military activities are conducted near demilitarised zones, in order to ensure the protection of such zones.¹¹⁴

114. Ecuador's Naval Manual provides that demilitarised zones established by agreement must not be attacked.¹¹⁵

115. In prohibiting attacks against demilitarised areas, France's LOAC Manual is guided by Article 60(1) AP I.¹¹⁶

116. Germany's Military Manual provides that "it is prohibited for each party to the conflict to attack or occupy [demilitarized] zones".¹¹⁷ It points out that, if one of the parties to the conflict breaches the provisions concerning the conditions for the establishment of demilitarised zones, the zone in question will lose its special protection".¹¹⁸ The manual further provides that grave breaches of IHL are in particular "launching attacks against... demilitarized zones".¹¹⁹

117. Hungary's Military Manual states that "commanders shall issue orders and/or instructions to regulate behaviour in the vicinity of protected zones".¹²⁰

¹⁰⁷ Australia, *Defence Force Manual* (1994), § 943, see also § 737 and *Commanders' Guide* (1994), § 928.

¹¹⁷ Germany, *Military Manual* (1992), § 461. ¹¹⁸ Germany, *Military Manual* (1992), § 462.

¹¹⁹ Germany, *Military Manual* (1992), § 1209.

¹²⁰ Hungary, *Military Manual* (1992), p. 65.

It further states that such zones “shall be respected and be taken over without combat”.¹²¹

118. Italy’s LOAC Elementary Rules Manual states that “where protected zones or localities (. . . demilitarised zones . . .) have been agreed upon, the competent commanders shall issue instructions for action and behaviour near and towards such zones or localities”.¹²² The manual also provides that “protected zones shall be respected”.¹²³

119. Italy’s IHL Manual qualifies “indiscriminate attacks against . . . demilitarised zones” as war crimes.¹²⁴

120. According to Kenya’s LOAC Manual, demilitarised zones are protected from “attack and military operations”.¹²⁵

121. The Military Manual of the Netherlands states that “the parties to the conflict are prohibited from extending their military operations to demilitarised zones” and provides that “attacking . . . demilitarised zones” in violation of IHL constitutes a grave breach.¹²⁶

122. New Zealand’s Military Manual states that:

Any material breach of [the conditions for a zone to be established as a demilitarised zone] releases the other Party from its obligations under the agreement and the zone loses its special status. It shall, however, continue to enjoy the normal protection provided by the customary and treaty law of armed conflict.¹²⁷

The manual further states that “making . . . demilitarized zones the object of attack” constitutes a grave breach of AP I.¹²⁸

123. Nigeria’s Military Manual states that “preplanned protected zones are established by agreement between belligerent parties . . . [including] demilitarised zones”.¹²⁹

124. South Africa’s LOAC Manual qualifies attacks against demilitarised zones as grave breaches of AP I.¹³⁰

125. According to Spain’s LOAC Manual, demilitarised zones are areas in which military operations may not be carried out and against which attacks are prohibited. The manual refers to Article 60 AP I.¹³¹ The manual further states that “launching an attack against demilitarised zones” constitutes a war crime.¹³²

126. Switzerland’s Basic Military Manual prohibits attacks on demilitarised zones by any means.¹³³ It considers that demilitarised zones lose their protected

status as soon as they are improperly used for military purposes.¹³⁴ The manual further provides that “launching an attack against . . . demilitarised zones” constitutes a grave breach of AP I.¹³⁵

127. Togo’s Military Manual prohibits attacks on demilitarised zones.¹³⁶

128. The US Air Force Pamphlet states that:

Doubtless the creation of [safety or demilitarized] zones would be one of the most effective measures to enhance protection of one’s own civilian population, and if the conditions required to make a zone were fulfilled and maintained, virtually all civilian casualties would be avoided in this zone”.¹³⁷

129. The US Air Force Commander’s Handbook, in a section entitled “Neutralized and Demilitarized Zones”, provides that:

By agreement, the parties to a conflict may establish certain zones where civilians, the sick and wounded, or other noncombatants may gather to be safe from attack.

A party to conflict cannot establish such a zone by itself; neutralized zones need only be respected if established by agreement between the parties, either in oral or written, or by parallel declarations. Such an agreement may be concluded either before or during hostilities.

United States forces need not respect such a zone unless the United States has agreed to respect it. Even in an unrecognized zone, of course, only legitimate military objectives . . . may be attacked.¹³⁸

130. The US Naval Handbook provides that “an agreed demilitarized zone is also exempt from bombardment”.¹³⁹

131. The YPA Military Manual of the SFRY (FRY) prohibits attacks against demilitarised zones.¹⁴⁰

National Legislation

132. Argentina’s Draft Code of Military Justice punishes any soldier who “wilfully violates the protection due to . . . demilitarised zones which are properly marked”.¹⁴¹

133. Under Armenia’s Penal Code, “targeting . . . demilitarised zones” during an armed conflict constitutes a crime against the peace and security of mankind.¹⁴²

on means and methods of warfare, intentionally: ... (b) leads an attack against a ... demilitarised zone".¹⁵⁴

145. Under the Draft Amendments to the Penal Code of El Salvador, "anyone who, in the context of an international or non-international armed conflict, attacks demilitarised zones" is punishable by imprisonment.¹⁵⁵

146. Under Estonia's Penal Code, "an attack against ... a demilitarised zone" is a war crime.¹⁵⁶

147. Under Georgia's Criminal Code, "making ... demilitarised zones the object of attack" in an international or non-international armed conflict is a punishable crime.¹⁵⁷

148. Germany's Law Introducing the International Crimes Code provides for the punishment of anyone who, "in connection with an international armed conflict or with an armed conflict not of an international character, ... directs an attack by military means against ... demilitarised zones".¹⁵⁸

149. Under Hungary's Criminal Code as amended, "a military commander who, in violation of the rules of international law concerning warfare, ... takes offensive against ... a weapon-free zone" commits a war crime.¹⁵⁹

150. Ireland's Geneva Conventions Act as amended provides that grave breaches of AP I are punishable offences.¹⁶⁰ It adds that any "minor breach" of AP I, including violations of Article 60 AP I, is also a punishable offence.¹⁶¹

151. Under Jordan's Draft Military Criminal Code, "attacks against ... demilitarised zones" are considered war crimes.¹⁶²

152. Under the Draft Amendments to the Code of Military Justice of Lebanon, "attacks against ... demilitarised zones" are considered war crimes, provided that they are committed intentionally and cause death or serious injury to body or health.¹⁶³

153. Under Lithuania's Criminal Code as amended, "a military attack against ... a demilitarised zone" constitutes a war crime.¹⁶⁴

154. Under the International Crimes Act of the Netherlands, it is a crime, during an international armed conflict, to commit "the following acts, when they are committed intentionally and in violation of the relevant provisions of Additional Protocol (I) and cause death or serious injury to body or health: ... making ... demilitarised zones the object of attack".¹⁶⁵

155. New Zealand's Geneva Conventions Act as amended provides that "any person who in New Zealand or elsewhere commits, or aids or abets or procures the commission by another person of, a grave breach . . . of [AP I] is guilty of an indictable offence".¹⁶⁶

156. Nicaragua's Draft Penal Code states that "whoever, in the circumstances of an international or internal armed conflict, without having previously taken appropriate measures of protection and without any justification based on imperative military necessity, attacks or destroys . . . demilitarised zones" commits a punishable "offence against international law".¹⁶⁷

157. According to Niger's Penal Code as amended, "putting under attack . . . demilitarised zones" is a war crime.¹⁶⁸

158. Under Norway's Military Penal Code as amended, "anyone who contravenes or is accessory to the contravention of provisions relating to the protection of persons or property laid down in . . . the two additional protocols to [the Geneva] Conventions . . . is liable to imprisonment".¹⁶⁹

159. Slovakia's Criminal Code as amended provides for the punishment of "a commander who, contrary to the provisions of international law on means and methods of warfare, intentionally: . . . (b) leads an attack against a . . . demilitarised zone".¹⁷⁰

160. Under Slovenia's Penal Code, "a random attack . . . on demilitarised areas" is a war crime.¹⁷¹

161. Spain's Penal Code provides for the punishment of "anyone who, in the event of armed conflict, should . . . knowingly violate the protection due to . . . demilitarised zones . . . which are duly identified with signs or the appropriate distinctive signals".¹⁷²

162. Tajikistan's Criminal Code, in the section on "Serious violations of international humanitarian law", provides for the punishment of "wilful breaches of norms of international humanitarian law committed in an international or non-international armed conflict, i.e. . . . making . . . demilitarised zones the object of attack".¹⁷³

163. The UK Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside the United Kingdom, commits, or aids, abets or procures the commission by any other person of, a grave breach of . . . [AP I]".¹⁷⁴

164. Yemen's Military Criminal Code, in a part on war crimes, provides for the punishment of "unjustified attacks against demilitarised zones".¹⁷⁵

165. The Penal Code as amended of the SFRY (FRY) provides for the punishment of "any person who may order the following in violation of the rules of international law during armed conflict or occupation: . . . indiscriminate attacks on . . . demilitarised zones".¹⁷⁶

166. Zimbabwe's Geneva Conventions Act as amended punishes "any person, whatever his nationality, who, whether in or outside Zimbabwe, commits any such grave breach of . . . [AP I]".¹⁷⁷

National Case-law

167. No practice was found.

Other National Practice

168. The Report on the Practice of Angola notes that Article 60 AP I prohibits attacks against demilitarised zones.¹⁷⁸

169. In a letter dated 6 March 1994 addressed to the UNPROFOR Command, the Commander-in-chief of the Headquarters of Bosnian Armed Forces denounced the killing and imprisonment of civilians in the demilitarised zones of Srebrenica and Žepa. The UN forces were requested to re-establish the previous positions of the lines, which had been shifted by the adverse party in the attempt to take over the demilitarised zone, and to deploy observers in the zones.¹⁷⁹

170. The Report on the Practice of Botswana states that demilitarised zones established by agreement between the belligerents shall not be attacked.¹⁸⁰

171. According to the Report on the Practice of Egypt, "Egypt thinks that protection of . . . demilitarized zones . . . consists in refraining from launching attacks against . . . these areas", which implies that "attacks against such places are prohibited".¹⁸¹

172. The Report on the Practice of Iran notes that Iran objected on several occasions to the bombardment of demilitarised zones by Iraqi forces during the Iran–Iraq War, but adds that no other relevant practice could be found in this regard and that, therefore, no conclusion can be drawn from Iranian practice concerning the prohibition on the targeting of demilitarised zones.¹⁸²

173. In 1996, in a letter to the President of the UN Security Council, North Korea transmitted a statement concerning the situation in the area of the military

¹⁷⁵ Yemen, *Military Criminal Code* (1998), Article 21(8).

demarcation line. In the statement, claiming that the South Korean military authorities had disregarded the armistice agreement, the spokesperson of the Panmunjom Mission of the Korean People's Army drew up a list of alleged violations of the demilitarised zone. He declared, *inter alia*, that South Korea had introduced tanks, various kinds of artillery pieces and heavy weapons, as well as a large number of armed military personnel, into the zone, and had even built large military facilities there. According to the spokesperson, the area's status did not correspond to the real meaning of a demilitarised zone since it had been armed and turned into a new attack position. The spokesperson thus stated that the Korean People's Army did not consider itself any longer bound by the article of the armistice agreement concerning the demilitarised zone, and announced that since the status of this zone could not be maintained any longer, "self-defensive measures" would be considered.¹⁸³

174. The Report on the Practice of Nigeria states that it is Nigeria's *opinio juris* that the protection of demilitarised zones is part of customary international law.¹⁸⁴
