OSA & MARTIN JOHNSON FOOTAGE IN THE SHERMAN GRINBERG
COLLECTION AT THE LIBRARY OF CONGRESS

If a title is assigned two or more shelflist numbers (e.g. FEC 2982 & FEC 2984), this in most cases does not indicate a multi-reel film, but rather copies preserved from different nitrate elements which may or may not vary in content. Multi-reel films are represented by call numbers, such as FEC 3241-3246. These films are available for viewing by advance appointment in the Motion Picture and Television Reading Room.
