SOHMER

GRAND, SQUARE & UPRIGHT PIANOS.

The enviable position SOHMER & CO. hold among American Piano Manufacturers is solely due to the merits of their instruments. There are comparatively few makers in this country who can claim such a rapid recognition in so short a time from the leading critics and connoisseurs; they are used in preference to any other piano in Conservatories, Schools and Seminaries, and the Concert Room, on account of their volume and purity, their richness and singing quality. The touch, or action of the SOHMER Piano is responsive, and unites with absolute precision, a delicacy and pliability seldom found in the instruments of any other makers. The workmanship of the SOHMER Piano is shown in the perfect finish of every part, and in the skilled use of the best material, resulting in a product no less pleasing to the eye than durable
