SCCTP
Serials Cataloging Cooperative Training Program

Basic Serials Cataloging Workshop

Trainee Manual

prepared under the auspices of the Cooperative Online Serials Program (CONSER)

Library of Congress
2014 Edition
Table of Contents

Module 1: Background, Objectives, Organization

Module 2: Serial Cataloging

Module 3: Cataloging Preliminaries
   Quiz

Module 4: Identifying Manifestations
   Quiz
   Exercises

Module 5: Describing Carriers and Content

Module 6: Identifying Works and Expressions

Module 7: Basics of RDA Relationships for Serials

Module 8: When Do I Need a New Description?
   Exercises

Module 9: Identifying Appropriate Copy
   Exercises

Module 10: Working with Copy
   Exercises
Appendix A: Tools for Serials Catalogers

Appendix B: Acronyms and Initialisms Relating to Serials

Appendix C: Glossary

Appendix D: MARC Workforms

Appendix E: RDA CONSER Standard Record (CSR) Metadata Application Profile

Appendix F: Answers to Exercises and Quizzes

Appendix G: MARC Tagging and RDA Instructions (for use with exercises)

Appendix H: Evaluation Form
BASIC SERIALS CATALOGING WORKSHOP

Serials Cooperative Cataloging Training Program (SCCTP)
Presenters: Les Hawkins & Hien Nguyen
NASIG 29th Annual Conference
April 30-May 1, 2014
Fort Worth, Texas

Acknowledgment

Special thanks are due to the UCLA RDA Continuing Resources Study Group for its contributions in providing in-depth revision of this training material with fresh and useful exercises to illustrate key learning points.

1: Background, Objectives, Organization

1. Context of the workshop
2. Goals of the workshop
3. Outline of modules content
4. Overview of workshop schedule
1: Background

Context of the Workshop

• Standardized cataloging
• Descriptive cataloging tools
• RDA Implementation
• Serials and serial cataloging

Descriptive Cataloging Tools

• RDA (Resource Description & Access)
  – LC-PCC PS (Library of Congress-Program for Cooperative Cataloging Policy Statements)
  – MARC & ISBD
• PCC Task Group Reports: http://www.loc.gov/aba/pcc/rda/RDA%20Task%20Groups.html
• CONSER Cataloging Manual & CONSER Editing Guide
• RDA CONSER Documentation: http://www.loc.gov/aba/pcc/conser/issues/CSR.html

FRBR as Foundation of RDA

• Closely tied to FRBR/FRAD concepts
• International Cataloging Principles
1: Background

FRBR as a Foundation of RDA

- Functional Requirements for Bibliographic Records (FRBR; 1998)
- Functional Requirements for Authority Data (FRAD; 2009)

Entities, attributes, relationships, user tasks

ICP “informs” RDA Principles

- Convenience of the user
- Representation
- Common usage
- Accuracy
- Sufficiency and necessity
- Significance
- Economy
- Consistency and standardization
- Integration
- Defensible, not arbitrary

Relationship of FRBR to RDA

- FRBR offers a structure to address user tasks
- FRBR attributes translate into RDA data elements
- RDA combines FRBR conceptual model with cataloging principles

FRBR is not a cataloging code -- but it shows the benefit of a code based on FRBR
Overview of RDA

• RDA: What it is
• RDA: Structure

RDA: What it is

• Content standard
• Not ...
  – A display standard
  – An encoding standard
• ‘Schema-neutral’
  – Can use
    • MARC 21
    • Dublin Core
    • etc.

RDA: What it is

• More international
• Focus on local user needs
  – Agencies can make decisions regarding
    • Language of additions to access points
    • Language of supplied data
    • Script and transliteration
    • Calendar
    • Numeric system
RDA: What it is

• Wider scope of resources
• Reflect what’s being acquired in libraries
  – non-printed text resources
  – non-text resources
  – unpublished resources
• Defers to specialist manuals of some collaborative communities

---

RDA: What it is

• Authority data
• Based on attributes and relationships in FRAD
• Authority elements, for now, are documented in authority records

---

RDA: What it is

• Controlled vocabularies
  – Only a few are closed lists
    • Content type
    • Media type
    • Carrier type
    • Mode of issuance
  – Most are open lists
  – Cataloger can supply term if not in list
• Vocabularies are available on the Web
  – http://metadataregistry.org/rdabrowse.htm
RDA: Structure

- Table of Contents
- General introduction
- Entities and their attributes
  - Group 1 (Chapters 1-7)
  - Group 2 (Chapters 8-16)
- Relationships: chapters 17-22, 24-32
- Appendices
- Glossary
- Index

RDA: Structure

- Principles applicable to all resources
  - Not separate chapters for formats (e.g., books, maps, printed music, etc.)
- Identify and relate user tasks
- Elements addressed separately
  - To assemble elements when needed (e.g., in authorized access points, see the instructions at the end of chapters 6, 9-11)

RDA: Structure

- Read purposefully, not linearly
  - Keyword searches
  - Follow links
  - Jump directly from Table of Contents
- Some duplication of content
RDA: Structure

- Core-ness
  - Based on attributes mandatory for a national level record (FRBR/FRAD)
  - Defined at the element level
    - Always
    - “Core if” – situation described
  - “The element must be recorded if known”
- PCC has identified additional elements as core
  - Indicated in LC-PCC Policy Statements (LC-PCC PS)

RDA: Structure

- Alternatives, Options, and Exceptions
- Clearly labeled in the Toolkit by green legends and vertical bars
- Alternatives to an instruction
- Options
  - Additional data
  - Omission of data
- “agency preparing ...” instructions

LC-PCC Policy Statements

- To facilitate standard interpretation and application
- Jointly crafted by LC and the Program for Cooperative Cataloging
  - “PCC is an international cooperative effort aimed at expanding access to library collections by providing useful, timely, and cost-effective cataloging that meets mutually-accepted standards of libraries around the world”
  - BIBCO, CONSER, NACO, SACO
  - http://www.loc.gov/aba/pcc/
1: Background

MARC

- Machine-Readable Cataloging (MARC)
- “Markup language for catalogers”
- Understanding MARC Bibliographic
  - http://www.loc.gov/marc/umb/
  - Online resource for learning about MARC
  - Source for the brief overview that follows

ISBD

- International Standard Bibliographic Description
- 1974
- “Internationally accepted framework”
- Goal: result in records that are convertible into machine-readable form
- Assigned an order to the elements
- System of punctuation

FRBR vs. RDA vs. MARC

- FRBR is a conceptual model
- RDA is a cataloging standard based on the FRBR conceptual model
- MARC is an encoding scheme by which computers exchange, use, and interpret bibliographic information
RDA Implementation

Three potential implementation scenarios for RDA data

• Scenario 1: Relational / object-oriented database structure
• Scenario 2: Linked bibliographic and authority records
• Scenario 3: ‘Flat file’ database structure (no links)

http://www.rda-jsc.org/docs/5editor2.pdf

RDA Implementation

Current library environment

• Data will still be ambiguous
• Standards
  — RDA
  — LC-PCC PS
  — MARC
  — ISSN
  — CONSER core elements
  — OCLC or other utility
  — Local standards, practices, etc.

Goals for the Workshop

• Understand the concept of continuing resources
• Identify serials and distinguish them from monographs and integrating resources
• Apply RDA instructions for description of serials
• Understand RDA CONSER standard record (CSR)
Goals for the Workshop

- Become familiar with MARC tags used for serials
- Create original serials cataloging records
- Identify appropriate serial copy and needed edits
- Current conventions and practices
- Useful cataloging tools

Outline of the Workshop Sessions

1. Background, Objectives and Organization
2. Serials and Serial Cataloging
3. Cataloging Preliminaries & Generals
4. Describing Manifestations
5. Describing Carriers and Content
6. Describing Works and Expressions
7. Basics of RDA Relationships for Serials
8. Working with Copy: Finding Appropriate Records
9. Working with Copy (Maintaining Records)
10. When Do I Need a New Description?
1: Background

Agenda

Wednesday
- Modules 1-5

Thursday
- Module 6-10

1: Summary & Questions

1. Background
2. Objectives
3. Organization
4. Agenda
2: Serial Cataloging

1. Mode of issuance
2. Differences in cataloging
3. Serial cataloging record
4. Identifying characteristics
5. Special types of resources
6. MARC tagging and serials

Bibliographic Resources Mode of Issuance

• Definition
  “A categorization reflecting whether a resource is issued in one or more parts, the way it is updated, and its intended termination.”
  – Single unit
  – Multipart monograph
  – Serial
  – Integrating resources

Bibliographic Resources: Mode of Issuance

• Background for understanding
  – Monograph
  – Serial
  – Integrating Resources
• Differences in Cataloging
  – Monograph
  – Serial
  – Integrating Resources
### Bibliographic Resources

**Mode of Issuance**

**“Finite resources”**
- Single units
- Multi-parts
- Parts remain discrete

**“Continuing resources”**
- Serials
- Integrating resources
- Updates do not remain discrete

---

### Finite Resources

**Finite resources**
- Monographs
- Multi-parts
- Parts remain discrete

**Continuing resources**
- Serials
- Integrating resources
- Updates do not remain discrete

---

### Monograph

- **Definition**
  
  A resource that is complete in one part or intended to be completed within a finite number of parts.

- **Multipart Monograph**
  
  A resource issued in two or more parts (either simultaneously or successively) that is complete or intended to be completed within a finite number of parts.
Continuing Resources

- **Definition**: A bibliographic resource that has no predetermined conclusion.
- Umbrella concept to group serials and IRs
- Provides a collective term
- Title for AACR2 Chapter 12
- The scope of ISSN

Serial

- **Definition**: A resource **issued in successive parts**, **usually** having numbering, that has no predetermined conclusion.
- **Examples**: journals, electronic journals, newsletters, annual reports, newspapers, monographic series
Integrating Resource

- Definition
  a resource that is added to or changed by means of updates that do not remain discrete but are integrated into the whole.
- Can be finite updating or continuing indefinitely
- Examples
  a loose-leaf manual that is updated by means of replacement pages, a website that is updated continuously

Serials vs. Integrating Resources

The primary difference:
- Serials issued in discrete parts
- Integrating resources issued with updates that do not remain discrete

Serials vs. Monographs

The primary differences:
- Serials have no predetermined conclusion
- Monographs intended to be completed within a finite number of parts
  - Single item: fixed, static
  - Multipart: issued in discrete parts
Resource May Be Serial or Monograph

Online monographic document

Online journal

Differences in Cataloging

• Monographs
  – “look at the physical book”

Sample Monograph Record
Differences in Cataloging

• **Serials**
  − First or earliest available issue
  − Successive entry (a new record is created)

Sample serial record

**Desc**

520 $a This site has information about J.R.R. Tolkien, the books he wrote, his life, books others have written about him, the Society and its events.

546 $a In English.

588 $a Description based on online resource (last update March 8, 2008); title from homepage (viewed on June 11, 2008).

710 2 $a Tolkien Society (England), $e issuing body.

856 4 0 $u http://www.tolkiensociety.org/

Serial Cataloging Records

- Reflect the whole publication
- Are dynamic because they incorporate changes over time
- Are cooperative creations (e.g., one library may create the record, another may update it)
- Are important to the overall control of the serial and often are essential to other records (holdings, check-in)

A Many to Many Relationship

Cataloging Records

Title #1

No. 1 No. 2 No. 3 No. 4 No. 5

Title #2
Successive Entry Cataloging

- Any major change results in the creation of a new (successive) record
- Records are linked using 780/785 fields

Successive entry record

What is a Serial?

- What is the definition of a serial?
- What are the common characteristics of serials?
- What types of publications are or are not typically cataloged as serials?
- What MARC tags are most commonly used for serials?
Dictionary Definition of Serial

- A publication issued as one of a consecutively numbered and indefinitely continued series.

Definition of a Serial

A resource
- issued in a successive parts
- usually has numbering
- that has no predetermined conclusion

Important Elements of the Definition

- Succession of discrete parts (necessary)
- Numbering (usually)
- No predetermined conclusion (necessary)
Also Treat as Serials:

Publications of limited duration (RDA 1.1.3)

– Have similar characteristics and functions of serials but have a predetermined conclusion

– Examples: Newsletters from conferences, quarterly reports of projects, etc.

Identifying Characteristics

• ISSN:
  1096-6919
  0895-495X

• Frequency in title:
  AB Bookman's weekly
  Annual report of the Academy of Sciences of Estonia
  Yachting monthly

Identifying Characteristics

• Enumeration/chronology:
  Volume 28
  Vol. 32, No. 10 September 1997
  Spring 1997
  1998-1

• Year(s) of coverage:
  1997 (item published in 1998)
  ... for the fiscal year 1995
  ... covering the period July 1978 through June 1979
Identifying Characteristics

• Intent to continue publishing:
  
  Preface:
  The inaugural issue of Advances in the Theory of Computation and Computational Mathematics ... Future volumes of ATCCM ...

• Certain titles:
  Advances in accounting
  Developments in aging
  Progress in theoretical organic chemistry
  Trends in African linguistics

Non-serials: Print Monographs (LC-PCC PS 0.0)

• Books issued in parts (fascicles)
• Censuses
• Encyclopedias
• Hearings
• Publications of five-year plans

Non-serials: Integrating Resources

• Updating Web sites
• Updating online databases
• Updating loose-leaves
Special Types of Resources

Frequently issued editions:
- Catalog as a serial only when published every year or two; otherwise treat as monograph

Conference publications
- Catalog as serial if it fits the definition of a serial
- Do not catalog as a serial if there are distinctive titles or if conference publication is published in a numbered series

Conference Publications

Split treatment:
500 ## $a Issues for 1993-1995 conferences cataloged separately. $5 [MARC21 inst. code]
500 ## $a Beginning with the 5th conference, issues are cataloged separately. $5 [MARC21 inst. code]

or

500 ## $a Beginning with the 5th conference, issues are cataloged separately.
Resources Issued in Loose-leaf Format

Catalog as serial if:
• Resource is a serial whose successive issues are stored in a binder
• Base volume is regularly issued (e.g., annual with updates during the year)

Catalog as an integrating resource if:
• Updates are interfiled and base volume is irregularly revised

Supplements

Supplements may be separately cataloged as serials when they have their own title and/or numbering
• Opportunity magazine
  Vol. 1, no. 1 (Jan. 1923)
  The Annual buyers' guide of Success Secrets 1997
• Public health reports
  Supplement ... to the Public health reports
  No. 1-no. 213

Reprints of Serials

Catalog as serials unless the reprint includes only a single issue or a collection of unrelated serials

Monographic Series

Series may be cataloged as a serial or each issue of the series may be cataloged separately

Abraham Lincoln
The First American
By Gordon B. Baldwin
Historical Bulletin No. 42

Serial MARC Record

- **Frequency:**
  310 001 $a Monthly

- **Designation:**
  362 1# $a Began with v. 29, no. 166 (Feb. 1920).

- **Notes:**
  515 001 $a Some issues lack volume numbering.
  588 001 $a Description based on: Vol. 29, no. 166 (Feb. 1920); title from cover.

Serial MARC Record

- **Subject Headings:**
  650 001 $a Yachting $v Periodicals.

- **Links:**
  780 001 $t Yachting monthly and magazine of the R.N.V.R. $w (OCoLC)13484999 $w (DLC)sn 86032453
  776 081 $a Online version: $t Yachting monthly online $x ... $w ...

Summary

- Different mode of issuance is cataloged differently
- Serial cataloging records are dynamic
- Three criteria for serials: successive parts, numbering, no predetermined conclusion
- Certain resources require special considerations relating to access, control, etc.
- When unsure, review LC-PCC 0.0, search for records on databases, consider the needs of your library
- MARC tags for serials include special note fields and linking fields
Exercises

For each of the resources in the next several slides, answer the following questions:

1. Is this a monograph, a serial, or an integrating resource?
2. Why or why not?

Exercise 1

Cover: Volume 1, Number 1 | 2013

Journal of New Zealand & Pacific Studies

ISSN: 2050-4039

Page 1:
The Journal of New Zealand & Pacific Studies is published twice a year.

Exercise 2

First page: World Stock Exchange Fact Book

Cover: World Stock Exchange Fact Book 2012

Verso page 1: The World Stock Exchange Fact Book is published annually in one volume.
ISSN 1087-500X
Exercise 3

First page: ISSN 1058-1626

SERVICE INDUSTRIES USA

Third Edition

Exercise 4

Exercise 5

| Cover: Tokyo Stock Exchange 2012 FACT BOOK | Issue 1 | Issue 2 |

BUILDING THE PUBLIC CITY

The Politics, Governance, And Finance of Public Infrastructure
Edited by David C. Perry

Urban Affairs Annual Review 43
3: Cataloging Preliminaries

- Process of cataloging a serial
  - Basis for identification of the resource
  - Source of information
  - Identifying manifestation
  - Transcribing vs. recording data
- Core elements for describing a resource
  - RDA core
  - CONSER RDA core
- CONSER standard record (CSR)

Basis for Identification of the Resource

General Principles (2.1.2.1) -- Choose a source of information appropriate to the mode of issuance:
- single unit see RDA 2.1.2.2
- more than one part see RDA 2.1.2.3
- integrating resource see 2.1.2.4

Basis for Identification: Which Issue?

RDA 2.1.2.3 Resource Issued in More Than One Part
- If the resource has sequentially numbered issues, choose the lowest numbered issue
- If the resource has unnumbered issues, choose the earliest date of issue.
For example ...

Have first issue:
588 ## $a Description based on: Vol. 1, no. 1 (Jan. 2001); title from cover.

362 1# $a Began with 2007.
588 ## $a Description based on: 2007; title from title page.

For example ...

Earliest available issue (first issue known):
362 1# $a Began with v. 1, no. 1 (May 2000).
588 ## $a Description based on: Vol. 14, no. 3 (Dec. 2013); title from cover.

362 1# $a Began in Dec. 1998.
588 ## $a Description based on: 2000; title from title page.

Preferred Source of Information --
Source within the Issue

• RDA 2.2.2.2
• Priority order:
  – Title page, title sheet, or title card
  – Cover or jacket
  – Caption
  – Masthead
  – Colophon
  – If none of these source has a title, use another source within the resource that has a title
**Preferred Source of Information -- Sources External to the Issue**

- RDA 2.2.4
- Priority order
  - Accompanying materials
  - Other published descriptions of the resource
  - Container not issued as part of the resource
  - Any other source (e.g., a reference source that indicates how the resource is commonly known)

**RDA Core Elements -- What Data to Collect**

- RDA 0.6.1
  - “As a minimum, a resource description for a work, expression, manifestation, or item should include all the core elements that are applicable and readily ascertainable.”
  - Inclusion of other specific elements is discretionary

**CONSER Core Elements -- What Data to Collect**

- Follows RDA 0.6.1 in its approach to the concept of core
- A combination of RDA “Core,” RDA “Core if,” “PCC Core,” and “PCC Recommended”
- Should be read in conjunction with the LC-PCC-PSs that are integrated into the RDA Toolkit
CONSER Standard Record

- A baseline set of elements that emphasize access points over descriptive data
- Includes essential data elements necessary to meet user needs
- A solid "floor" description of a resource that can be built upon in a shared environment
- Does not preclude the use of any data in a bibliographic description representing more extensive cataloging treatment

How Data is entered in a Cataloging Record

- Some manifestation elements are transcribed
- Other manifestation elements can be recorded with some adjustment
- There are many exceptions to transcription instructions for serials (variable data)

Transcription of Data

- "Take What You See"
- ICP Principle of Representation
- Generally, record what is on the resource
  - Accurate representation
  - Encourage re-use of found data
Recording Data

• Some information may be manipulated when recorded by the cataloger (either when taken from the resource or from another source)
• For recorded elements, the found information is often adjusted (for example, use an appropriate term from RDA 2.14.1.3 to record the frequency)

What am I Cataloging?

• Work
  • Expression
    • Manifestation
    • Item
  • Primary focus on: CONSER RDA core elements

Transcribed Manifestation Elements

• Title proper and parallel title proper
• Other title information
• Statement of responsibility
• Edition information
• Numbering information
• Place of publisher, distributor, manufacturer
• Name of publisher, distributor, manufacturer
• Series information other than ISSN
Recorded Manifestation Elements

- Date of publication, distribution, manufacture
- Copyright date
- Mode of issuance
- Frequency
- Identifier of the manifestation (e.g., ISSN usually)
- Key title
- Notes about element (e.g., source of title)
- Issue or part used as basis of description (DBO and LIC)
- Notes about changes over time

Preferred Title

- The title or form of title chosen to identify the work
- Choose the preferred title by applying the instructions at 6.2.2.4–6.2.2.7
- The basis for the authorized access point representing that work

For example ...

245 00 $a Look Japan.
245 00 $a Adobe magazine.
245 10 $a Network.
245 10 $a Annual report / $c ICSID.
245 14 $a The country music newsletter.
Authorized Access Point for a Work

• Standardized access point representing a work
• RDA 5.5
  – 2 parts:
    • Creator of the work
    • Preferred title for the work

For example …

• A work does not necessarily have a “creator:”
  245 00 $a Look Japan.
  245 00 $a Adobe magazine.

  130 0# $a Network (Bristol, England)
  245 10 $a Network.

  130 0# $a Network (Friends of the Earth)
  245 10 $a Network.

For example …

Works with a “creator:”
• corporate body:
  110 2# $a International Centre for Settlement of Investment Disputes, $e creator.
  245 10 $a Annual report / $c ICSID.
• personal author (rare):
  100 1# $a Gresham, Don, $e author.
  245 14 $a The country music newsletter.
Summary

• Base the description on the first or earliest available issue in hand
• The preferred source is the title page or its substitute (cover, caption, etc.)
• Some manifestation elements are transcribed
• Other manifestation elements can be recorded with some adjustment
• There are many exceptions to transcription instructions for serials (variable data)
• CONSER RDA core elements
Module 3: Quiz

1. The basis for identification for a serial is the earliest-published issue, regardless of numbering.
   __ True
   __ False

2. The CONSER RDA core element set is
   a) In line with RDA Core elements with some exceptions, and
   b) Equal to the PCC Core elements for continuing resources
   __ True
   __ False

3. The RDA CONSER Standard Record (CSR) Metadata Application Profile (Check all that apply)
   __ a) Is a "floor" description of a resource that can be built upon in a shared environment
   __ b) Allows the use of any data in a bibliographic description representing more extensive cataloging treatment
   __ c) Requires Authority records in the Library of Congress/NACO and Subject Authority Files for all controlled access points

4. Which of the following statement(s) is/are true?
   a) Transcribed data follows RDA 1.7.1 and the ICP principle of representation
   b) PCC practice encourages the use of RDA Appendix A for capitalization
   c) For serials, RDA includes exceptions to exact transcription for variable data in the title
   d) All of the above
5. For each category, mark whether the data is primarily: transcribed or recorded

4: Identifying Manifestations

1. Title statement: Title proper, parallel title, other title information, variant title
2. Statement of responsibility
3. Edition statement
4. Numbering

5. Publication statement
6. Series statement
7. Frequency
8. Identifiers: ISSN
9. Notes
10. Uniform resource locator

Title proper (2.3, 2.3.2)

• Transcribe in field 245 $a $n $p
• Follow RDA 1.7.1 and LC-PCC PS
  – Capitalization: “encouraged” to follow Appendix A. Or, may “take what you see”
• Include initial articles
Title proper (2.3.1.4)

• Omit date, name, number that varies:

245 00 $a Supply estimates for the year ending ...

Source of information reads: Supply estimates for the year ending 1997

Title proper (2.3.1.4)

• Omit date, name, number that varies:

245 10 $a ... end of session report.

Source of information reads: 2005/06 end of session report

245 18 $a The ... annual report to the Governor

Source of information reads: The 2001 annual report to the Governor

Title proper (2.3.1.4)

• Correct obvious typographical errors

245 00 $a Housing starts

Source of information reads: Housing sarts

• Title includes earlier title, etc.

245 00 $a International gas report

Source of information reads: International gas report, including World gas report
Title proper (2.3.1.5)

Titles that consist solely of corporate bodies, etc.

- Transcribe the name as title
  245 10 $a Conference on Tax Planning for 501(c)(3) Organizations.

- Supply a note rather than providing bracketed other title information in 245
  500 ## $a Proceedings of the conference.

  Not 245 10 $a Conference on Tax Planning for 501(c)(3) Organizations: $b [proceedings]

Title proper (2.3.1.6)

- Omit introductory words:
  “Disney presents ...”

- May transcribe the form with introductory wording in 246 as a variant title

  245 00 $a Joy of kosher with Jamie Geller.
  246 1# $i Title appears as: $a Hamodia Presents Joy of kosher with Jamie Geller

Title proper (2.3.2.5)

Acronym/initialism vs. full form

- Select full form if both appear on the preferred source:

  245 00 $a Linguistics and language behavior abstracts
  246 1# $a LLBA
Title proper (2.3.2.10)
Devised title (e.g., minutes of meetings)

- No brackets
  245 00 $a Combined annual report of activities
- Explain in a note that the title was devised
  500 ## $a Title devised by cataloger.

Parallel titles (2.3.3)

- Parallel title proper: The title proper in another language and/or script.
- Parallel titles can come from any source within resource.

  245 #0 $a Shi chao.
  246 11 $a Poetry waves

Parallel titles (2.3.3)
Recording parallel titles from later issues:

  245 00 $a Artmap.
  246 1# $i Issues for 2012- have Arabic title: $a خريطة الفن
  246 1# $i Issues for 2012- have Arabic title: $a Kharīṭat al-fann
Other title information (2.3.4)

• Transcribe if it helps the user!
  – Clarify the title proper
  – Support the title proper

• Must come from the same source as title proper (if included)

245 00 $a Moral cents : $b the journal of ethics and finance.

Variant titles (2.3.6)

245 00 $a Toxic release inventory.
246 1# $i Also known as: $a TRI CD-ROM
246 1# $i Issues for 1987/1993- have title: $a Toxics release inventory

245 00 $a Energy & climate report.
246 1# $a Energy and climate report

Variant Titles (2.3.6)

• Titles that appear elsewhere on issue:
  245 04 $a The miner & workman's advocate.
  246 1# $a Advocate [cover title]

• Other forms of the title:
  245 04 $a The miner & workman's advocate.
  246 1# $a Miner and workman's advocate

• Parallel titles:
  245 _0 $a Japan report.
  246 11 $a Nihon
Variant titles

• Notes about variant titles, $i:
  245 00 $a Freeport daily journal.
  246 1# $i Alternate issues published with title:
    $a Chicago daily telegraph
  245 00 $a Los Angeles design world.
  246 1# $i Issues for Nov. 2006- have title:
    $a LA design world

Statement of responsibility (2.4)

• Provide if important for identification of the serial
• Provide if it helps document usage of the corporate body, person or family
• Provide as part of authorized access point
• Can record responsibility in 500 or 550 to set up pattern of usage

Responsible bodies: 550

550 ## $a Issued by: United Nations Centre for Human Settlements (Habitat), 1987-2001;
  United Nations Human Settlements Programme, 2003-

710 2# $a United Nations Centre for Human Settlements, $e issuing body.

710 2# $a United Nations Human Settlements Programme, $e issuing body.
Other ways to show responsibility

Relationship designators:
- 710 2# $a Paperloop, $e author, $e issuing body.
- 110 2# $a Society of Linguists, $e author.
- 710 2# $a Linguists International, $e author.

Edition statement (2.5)

Transcribe as it appears:

If not abbreviated on resource:
250 ## $a Western Washington.
250 ## $a Industrial edition.
250 ## $a Red edition.

If abbreviated on resource:
250 ## $a Professional ed.
250 ## $a Cons.
Numbering (1.7, 1.8, 2.6)

- RDA 1.7: Transcription
- RDA 1.8: Record numbers expressed as numerals and words (numeric and chronological)
- RDA 2.6: Basic instructions on recording numbering
  - Sources
  - Specific situations
- Recorded in 362 1 note field

Numbering: sources (2.6.1.2)

- Prefer source on the first/last issue that bears the title proper
- Another source within the first/last issue
- Other sources specified under 2.2.4.
  - Accompanying material
  - Container
  - Published description
  - Other available source

Numbering: sources

- RDA does not address:
  - Preferring a source with the most complete numbering:

  CCM 8.3, Prefer a source:
  - With the most complete presentation
  - With numbering that appears prominently or is stated formally
Numbering: sources

- RDA does not address:
  - Piecing together numbering from different sources

CCM 8.3:
- Numeric and chronological designations may be taken from different sources
- Numeric designation may be pieced together **only** when clear that is the intention

---

Numbering: sources

- Provide designation of first and/or last issue
- Transcribe elements as found
  - Capitalization: follow Appendix A or “take what you see”

---

Numbering

- Substitute numerals for numbers expressed as words
- Inclusive dates and other inclusive numbers:
  Source: 1967–72
  Record: 1967–1972

- Ordinal numbers from English source:
  1st, 2nd, 3rd, 4th... (RDA 1.8.5)
Numbering

- Substitute hyphen with slash for clarity
  - Source: 2008-2009
  - Record: 2008/2009

- Number that is a division of a year
  - Source: 1-97
  - Record 97-1

Publication statement (2.8)

- Transcribe as it appears
  - Capitalization: encouraged to follow Appendix A or “take what you see”
- Use 264 field in new records and for showing changes
- Only the first place and first publisher are required
- Date required if first or last issue in hand

264 field

- PCC guidelines for the 264 field

- First indicator = Sequence of statements:
  - blank #: Not applicable/No information provided/Earliest
  - 2: Intervening
  - 3: Current/latest
- Second indicator = Function of entity:
  - 0: Production; 1: Publication; 2: Distribution;
  - 3: Manufacture Statements; and
  - 4: Copyright notice date
Place of publication (2.8.2)

- Transcribe as it appears on resource
- Transcribe larger jurisdictions if they appear on source as part of place name
- Prefer to supply a place from any source rather than supplying:
  [Place of publication not identified]

264 #1 $a [Fairfax, Virginia] : $b Roy Rosenzweig Center for History and New Media

Publisher name (2.8.4)

- Transcribe as it appears on resource
- Don’t omit hierarchies from publisher name
- Prefer to supply a probable name rather than supplying: [Publisher not identified]

110 1# $a Monrovia (Calif.), $e author, $e issuing body.
245 10 $a Statement of financial transactions for the year ...
264 #1 $a Monrovia, California : $b [City of Monrovia]

Date of publication (2.8.6.5)

- Record only if first or last issue is in hand
- Supply an approximate publication date if no publication date is given on first or last issue
- Omit a date of publication if the date cannot be approximated

264 #1 $a [Fairfax, Virginia] : $b Roy Rosenzweig Center for History and New Media, $c [2011?]-
Copyright notice date (2.11)

- RDA 2.11 and LC-PCC PS
- 264 second indicator 4
- Not required for serials (LC-PCC PS 2.11)
  - Which © date would you supply for a serial? No instructions for serials, so not required to provide for serials

Series (2.12)

- Recording series statements is core for LC and PCC
- Authorized access points for series are optional for PCC (LC doesn’t create them)
- See NACO Series Bridge Training material: [http://www.loc.gov/catworkshop/courses/rda_naco_series/course%20table.html](http://www.loc.gov/catworkshop/courses/rda_naco_series/course%20table.html)

Recording series statements

- Specific sources for each element
- Transcribe the elements as they appear on the source of information
- If the resource belongs to more than one series/subseries, record each series statement separately (2.12.1.5)
- Record changes in series statements as instructed in 2.12.1.6
Title proper of series/subseries

- CORE ELEMENT
- Priority order for sources
  - Series title page
  - Another source within the resource
  - Other sources as indicated in 2.2.4
- Record the series title proper as other titles (2.3.1)
  - “take what you see”
  - capitalization
  - include numbering as part of the series title proper if it is an integral part of the title

ISSN of series/subseries

- CORE ELEMENT for LC/PCC
- Priority order for sources
  - Series title page
  - Another source within the resource
  - Other sources as indicated in 2.2.4
- MARC 490 $x
  - Repeatable

Numbering within series/subseries

- CORE ELEMENT
- Record the numbering of the resource within the series as it appears on the source of information
- MARC 490 $v
- Guidelines are generally the same as those for numbering of serials
  - Special situations discussed in 2.12.9

Examples:

- 490 $a … $v volume 32
- 490 $a … $v Band LXXXVIII
Frequency (2.1.4)
• Not RDA core
  – RDA 2.14 and 2.20.12.4
• Current frequency required for CONSER
• Former frequency: not required, when creating an original record

ISSN (2.15)
• Core for RDA
• Recorded element
• Record as found
• Take from any source
• No change in practice for recording

022 ## $a 2165-476X $y 1096-1844

Notes (2.20)
Provide further information not found in the description
Avoid too much detail
Give in numeric tag order (except 533)
Use dates when note doesn’t apply to all issues

500 ## $a “International poetry quarterly,” [Title: Bitterroot]

550 ## $a Vols. for <1995-> issued by ...
Source of description (2.20.2.3)
Always provide:
– 588 description based on note
– Source of title with 588 combined with description based on note
– 588 Latest issue consulted note

Source of description (2.20.2.3)

588 ## $a Description based on: Volume 1, Number 4 (April 2008); title from masthead.
588 ## $a Latest issue consulted: Volume 2, Number 3 (March 2009).
***
588 ## $a Description based on: June 2012; title from PDF title page (publisher’s Web site, viewed September 12, 2012).
588 ## $a Description based on: Volume 10, Number 11, published 2013.

Other 500 notes

500 ## $a Some issues also have a distinctive theme title.

500 ## $a Editor: Norman Simms, <Oct. 1994>
Numbering peculiarities (515)

362 1# $a Began with: no. 1.
515 ## $a No. 32-36 omitted.

362 1# $a Began with: 1950.
515 ## $a Vols. for 1960- also called 11th-annual report.

362 1# $a Began with: v. 1, no. 1 (spring 1995).
515 ## $a Some vols. lack numbering.

362 1# $a Began with: 95/1.
515 ## $a Numbering begins again each year with 1.

Supplements (525)

525 ## $a Has supplements.

245 00 $a Outlook and situation report. $p Oil crops.
525 ## $a Supplemented by an annual yearbook with title: Outlook and situation yearbook. Oil crops.
740 02 $a Outlook and situation yearbook. $p Oil crops.

Issuing body note (550)

• Not required for CSR if authority record exists
  245 00 $a Ecotoxicology and environmental safety.
  260 ## $a San Diego : $b Academic Press
  550 ## $a Published under the auspices of the International Academy of Science. [optional]
  710 2# $a International Academy of Science, $e sponsoring body.
Issuing body note (550)

- 550 required if issuing body changes
  
  245 00 $a Cornish studies.
  260 ## $a Exeter, Devon : $b University of Exeter Press
  550 ## $a Vols. for 2006- issued by: Institute of Cornish Studies. [optional]
  710 2# $3 2006- $a Institute of Cornish Studies, $e issuing body.

Uniform Resource Locator (4.6)

- CORE ELEMENT for LC
- Scope = “the address of a remote access resource”
- LC-PCC PS 4.2.1.3 – “If there is more than one Uniform Resource Locator for the resource, record all”
- MARC 856 field

Other characteristics

- Sound resources (3.16)
- Moving image resources (3.17, 3.18)
- Electronic resources (digital files) (3.19)
- Cartographic resources (3.11, 3.19, 7.4, 7.25, 7.26)
- Music resources (7.13, 7.20, 7.21)
Summary (1)

- Title proper consists of 245 $a $n $p
  - Omit dates, names, numbers that vary
- Statement of responsibility (245 $c) is not CORE (for CONSER)
- Numbering: use an informal note (362 1#)
- Publication statement: transcribe (264 #1)
  - Enter date (264 $c) only if earliest/last piece is in hand

Summary (2)

- Current frequency is required for CONSER (310)
- Basis for identification (588): Always include
  - Description based on: ...; source of title.
  - Latest issue consulted:
Module 4 Quizzes

Quiz 1: For each of the scenarios, which titles should be represented and how?

Scenario 1:

- The American Journal of BIOETHICS
  January 2010 Volume 10 No. 1
  LOOKING FOR LIES: Memory detection & the criminal justice system

245 _ _ $a ______________________
246 _ _ $a ______________________
246 _ _ $a ______________________

Scenario 2:

- cuadernos de MÚSICA Y ARTES VISUALES
  journal of music and visual arts
  Volume 7 Numero 2

245 _ _ $a ______________________
246 _ _ $a ______________________
246 _ _ $a ______________________

Scenario 3:

- Vol 40-No 2 - 2008
  ANN MED
  Annals of Medicine informa

245 _ _ $a ______________________
246 _ _ $a ______________________
246 _ _ $a ______________________
Quiz 2: For each scenario, which of the choices would you use to describe the numbering?

<table>

Module 4: Exercises

Use the workforms provided in Appendix D to record the cataloging data from the information provided in the following pages.

Use Appendix G for MARC tagging

1. Select the preferred source for the title.
2. Transcribe and tag the title proper.
3. Select and tag a creator, if any.
4. Make any variant title access points that are thought useful.
5. Give the publication, distribution, etc. statement(s)
6. Give numbering, if appropriate.
7. Give a frequency note, if known.
8. Add any other notes thought appropriate
9. Include notes on issue(s) used as the basis of identification and the source of title (description based on, latest issue consulted).
10. Give other access points thought appropriate
Exercise 1

Preface: Since 2007, when John Harms and Paul Daffey first published The Footy Almanac...
5: Describing Carriers and Content

1. Content type
2. Media type
3. Carrier type
4. Extent
5. Describing content
6. Other content attributes

Where are the instructions?

- Chapter 3: Describing Carriers
- Chapter 6: Identifying Works and Expressions

Content, media, carrier types

- Three RDA elements and MARC fields
  - Content type: RDA 6.9 336 field
  - Media type: RDA 3.2 337 field
  - Carrier type: RDA 3.3 338 field
- Content relates to Expression
  - Section 3, Chapter 6
- Media and Carrier relate to Manifestation
  - Section 1, Chapter 3
Replacement of GMD

- RDA has no provision for General Material Designation (GMD)
- RDA introduces instead
  - Content type (6.9)
  - Media type (3.2)
  - Carrier type (3.3)

Controlled vocabularies

- Closed lists in RDA 6.9.1.3, RDA 3.2.1.3, RDA 3.3.1.3
- If more than one term is appropriate, two choices:
  - Pick the term representing the predominant or most substantial content/media/carrier
  - Give all: repeat entire field or just subfield $a$
- If no term is appropriate, record “other” and notify LC via a message to LChelp4rda@loc.gov

Recording these elements

- In each of the three fields for these elements (336-338):
  - $a$ [term]
  - $b$ [code]
  - $2$ rdaccontent or rdamedia or rdacarrier (as appropriate)
  - $3$ materials specified - give if appropriate
MARC 336, 337, and 338

- Content type = 336
- Media type = 337
- Carrier type = 338

- Subfields: $a$ term $b$ code $2$ source
- May repeat 33X field or repeat subfield $a$ within a single 33X field

Content type

- Categorization reflecting the fundamental form of communication in which the content is expressed and the human sense through which it is intended to be perceived. (RDA 6.9.1)
- Content type RDA 6.9.1.3, Table 6.1
  - cartographic image, computer dataset, notated music, performed music, sounds, text, three-dimensional moving image
  - If none apply, use “other”; if not certain, use “unspecified”

Content type

- RDA core element for expression
- MARC 21 field 336

Example:
336 ## $a$ text $b$ txt $2$ rdacontent
Media type

- Media type: is a categorization reflecting the general type of intermediation device required to view, play, run, etc., the content of a resource. (RDA 3.2.1.1)

- Media type RDA 3.2.1.3, Table 3.1
  - Audio, computer, microform, microscopic, projected, stereographic, unmediated, video;
  - If none apply, use “other”; if not certain, use “unspecified”

Media type

- LC-PCC core element for manifestation
- MARC 21 field 338

Example:
337 ## $a unmediated $b n $2 rdamedia

Carrier type

- Categorization reflecting the format of the storage medium and housing of a carrier in combination with the type of intermediation device required to view, play, run, etc., the content of a resource. (RDA 3.3.1.1)

- Carrier type RDA 3.3.1.3
  - Specific terms for audio, computer, microform, carriers, etc. carriers
  - If none apply, use “other”; if not certain, use “unspecified”
Carrier type

- RDA core element for **manifestation**
- MARC 21 field 338

Example:
338 ## $a volume $b nc $2 rdacarrier

---

Example: print

222 0 0 Amazonas $b (Shelburne, Vt. Print)
245 0 0 Amazonas : $b freshwater aquaria & tropical discovery.
246 1 0 Freshwater aquaria & tropical discovery
264 1 0 Shelburne, VT : $b Reef to Rainforest Media, LLC, $c 2012-
310 0 0 Bimonthly
336 0 1 text $2 rdcontent
337 0 1 unmediated $2 rdmedia
338 0 1 volume $2 rdacarrier

---

Example: online

222 0 0 Amazonas $b (Shelburne, Vt. Online)
245 0 0 Amazonas : $b freshwater aquaria & tropical discovery.
246 1 0 Freshwater aquaria & tropical discovery
264 1 0 Shelburne, VT : $b Reef to Rainforest Media, LLC, $c 2012-
310 0 0 Bimonthly
336 0 1 text $2 rdcontent
337 0 1 computer $2 rdmedia
338 0 1 online resource $2 rdacarrier
Example: print

Example: computer discs

Extent (3.4.1.10)

- The number and type of units and/or subunits making up a resource (MARC 300 subfield $a$
- Give complete and full extent for ceased serial if known (RDA and LC-PCC PS 3.4.1.10)
- If the actual number is not known for a ceased serial, give at least the term “volumes” or other appropriate carrier type
Extent

- RDA core: Provide carrier term for ceased serials in all formats. May enter carrier term alone. E.g.:

  300 ## $a volumes
  300 ## $a 1 online resource

Extent

- CONSER practice: Always provide carrier term for tangible, live non-print serials
- Live serials in other formats
  - Can optionally provide carrier terms such as "volumes" even if not ceased

Example: Extent (& dimensions)

<table>

</table>
Describing content

• Content Attributes Recorded in the MARC 300 Field
• General Guidelines on Describing Content
• Content -- Attributes of the Work
• Content -- Attributes of the Expression

Content attributes: MARC 300 field

• Because these elements are related to content, they are covered in RDA Chapter 7, not Chapter 3
  – Duration (7.22)
  – Illustrative Content (7.15)
  – Colour Content (7.17)
• 300 field is a mix of carrier and content

Illustrative content (RDA 7.15)

• Do not use abbreviations
  – color (not “col.”)
  – sound (not “sd.”)
  – silent (not “si.”)
  – illustrations (not “ill.”)
Colour Content (7.17)

- **Scope** = “the presence of colour, tone, etc., ... also the specific colours, tones, etc.”
- **Source**: “the resource itself”
- **Record if** “other than black and white ...”
- **LC-PCC PS 7.17.1.3**: use spelling “color”
- **MARC 300 $b**

<table>
<thead>
<tr>
<th>Colour Content</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>color</td>
<td>(illustrations are in color)</td>
</tr>
<tr>
<td>some color</td>
<td>(10 illustrations, some of which are in color)</td>
</tr>
<tr>
<td>chiefly color</td>
<td>(illustrations, most of which are in color)</td>
</tr>
</tbody>
</table>

Other Content Attributes

- **RDA Chapter 7**
- **Sources**
  - Take information used to describe content from the **resource itself**
  - In certain cases the information may be taken from sources outside the **resource**
- **Divided into** “Attributes of the Work” and “Attributes of the Expression”
  - **Focus here is on expression level attributes language and script**

Language of the content (7.12)

- **LC-PCC core**
- **Scope** = “a language used to express the content of a resource”
- **LC-PCC PS 7.12.1.3**
  - “… also supply the languages of other content (summaries, tables of contents, etc.) if it will assist identification and selection”
- **MARC 008/35-37, 041, and 546**
  - Use form found in **MARC Code List for Languages**

<table>
<thead>
<tr>
<th>Language of the content</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>041 ## $a fre $a eng $a ita</td>
<td></td>
</tr>
<tr>
<td>546 ## $a Articles chiefly in French; one article each in English and Italian.</td>
<td></td>
</tr>
</tbody>
</table>
Form of notation (7.13)

- LC-PCC core for some scripts
- Scope = "set of characters and/or symbols used to express the content of a resource"
- LC-PCC PS 7.13.2.3
- MARC 546

Two examples:
- Devanagari
- Armenian
- Cyrillic (for a resource written in both scripts)

Summary (1)

- Instructions, controlled lists in:
  - RDA 3 = carriers, media
  - RDA 6 = content
- MARC 21: 336, 337, 338
  - Work the same way: controlled lists, repeatable, same subfields
- Extent required: current tangible, non-print formats & e-serials; and completed serials in all formats when total extent is known.

Summary (2)

- Content attributes such as color and illustrations provided in 300 and note fields
- Other content attributes such as language and script are coded in MARC 21 fixed fields and variable fields.
Exercises

• For each of the records in the next several slides, determine whether the data in the MARC record is coded correctly.
  — If the coding is incorrect, what would you do to the specified fields to correct it?

6: Identifying Works and Expressions

- Terminology
- Constructing the authorized access point for a serial work
- Additions to authorized access points
- Authorized access points representing expressions

Terminology

- Title of a serial work
- Title proper
- Preferred title of a serial work
- Creator
- Authorized access point

Title of a work: A word, character, or group of words and/or characters by which a work is known. (RDA glossary)
Terminology

• Title proper:

The chief name of a resource (i.e., the title normally used when citing the resource). (RDA glossary)

Terminology

• Preferred title of a serial work:

The title or form of title chosen to identify the work. The preferred title is also the basis for the authorized access point representing that work.

Terminology

• Creator of a serial:

For a serial, usually a corporate body responsible for originating ... or causing the work to be issued.

(See LC-PCC PS 19.2.1.1.1)
Terminology

• Authorized access point:

The standardized access point representing an entity. The authorized access point uniquely identifies the serial work.

Identifying and Constructing the Authorized Access Point for a Work

• RDA 6.27.1.2 - 6.27.1.8
  – Preferred title of the work (6.2.1 - 6.2.2)
  – Creator
    • Determine if there is a creator (19.2.1.1)
    • Construct authorized access point (9.19.1 for persons), (10.10.1 for families), (11.13.1 for corporate bodies)

Preferred Title

• Base the preferred title based on the title proper
• Title proper is derived from the preferred source of identification from the first or earliest issue in hand
• Instructions in RDA 6.2.2 provide further instructions for recording preferred title
Corporate Body Creators of Serials
RDA and LC-PCC PS 19.2.1.1.1

- Works of an administrative nature (Category a)
  -- e.g., annual reports and directories
- Collective thought of a body (Category b)
  -- e.g., Reports of commissions
- Collective activity of a body (Category d)
  -- e.g., Conference proceedings

Corporate Body Creators of Serials

- Corporate body creator:
  110 2# $a International Centre for Settlement of Investment Disputes.
  245 10 $a Annual report of the ICSID.
- No creator (most common):
  245 00 $a Look Japan.
  245 00 $a Adobe magazine.

Person or Family Creators of Serials
RDA 19.2.1.1.3

- Entry under personal author (rare):
  100 1# $a Gresham, Don.
  245 14 $a The country music newsletter.
6: Identifying Works and Expressions

**Authorized Access Point for a Work**

- **RDA 5.5**
  - 2 parts:
    - Creator of the work
    - Preferred title for the work
- Does not include relationship designators

| 110 | 2 | United Nations Population Fund, &e author, &e issuing body. |
| 245 | 0 | Maternal Health Thematic Fund annual report. |

6-13

**Authorized Access Point for a Work**

- A work does not necessarily have a “creator”

| 245 | 0 | Region : $b Regional studies of Russia, Eastern Europe, and Central Asia. |
| 264 | 1 | Bloomington, Indiana, U.S.A. : $b Slavica Publishers, $c 2012- |
| 245 | 0 | Biuletyn naukowy UWM / $b Uniwersytet Warmińsko-Mazurski w Olsztynie. |
| 246 | 1 | Biuletyn naukowy Uniwersytetu Warmińskiego w Olsztynie. |
| 264 | 1 | Olsztyn : $b Wydawnictwo Uniwersytetu Warmińskiego w Olsztynie. |

6-14

**Exercise 1**

What is the Authorized Access Point for the work?

Cover:

The Mohamed bin Zayed Species Conservation Fund

Annual Report

2012

-Hint: the resource describes the internal policies and finances of the corporate body.
- Also, assume no conflict.
Exercise 2
What is the Authorized Access Point for the work?

Cover:

Journal of Contemporary History

Editorial page:
The Journal of Contemporary History is published by SAGE, Los Angeles, London, New Delhi, Singapore and Washington DC.

Additions to the Authorized Access Point for a Work

• LC-PCC PS 6.27.1.9
  – Consider authorized access point conflicts among all resources, not just serials
    • Authorized access points are identical: addition is required
    • Authorized access points are similar: cataloger’s judgment

Identical Authorized Access Point

| 245 | 0 | 0 | Pose.       |
| 246 | 1 | 3 | Pose Cairo |
| 246 | 1 | 3 | Pose magazine |
| 130 | 0 | 0 | Pose (Dubai, United Arab Emirates) |
| 246 | 1 | 0 | Pose.       |
| 246 | 1 | 0 | Pose magazine |
6: Identifying Works and Expressions

**Similar Authorized Access Point**

Serial in hand:
245 00 $a Hogs and cows today.

Serial in catalog:
245 00 $a Hogs & cows today.

Result:
130 0# $a Hogs and cows today (Fresno, Calif.)
245 10 $a Hogs and cows today

**Additions to Authorized Access Points**

| 130 | Molecular biology (Los Angeles, Calif.) |
| 210 | Hist. biol. $b (Los Angeles, Calif.)    |
| 222 | Molecular biology $b (Los Angeles, Calif.) |
| 245 | Molecular biology.                     |
| 266 | MBL.                                  |
| 264 | Los Angeles, CA $b OMICS Publishing Group, $c [2012]: |

| 264 | Paradise, CA $b Dustbooks, $c [2011]: |
Exercise 3

Do any additions need to be made to the authorized access point? If so, what can be added?

Resource already in database:
100 1# $a Ruddon, Raymond W., $d 1936-
245 10 $a Cancer biology / $c Raymond W. Ruddon.

Resource in hand:
245 70 $a Cancer biology
264 #1 $a Brooklyn, N.Y. : $b Marshland Press, $c 2011-
Exercise 4
Do any additions need to be made to the authorized access point? If so, what can be added?

Resource already in database:
245 03 $a Le tableau.
260 ## $a [Québec] : $b Direction des bibliothèques et du soutien à l’enseignement et l’apprentissage...

Resource in hand:
245 70 $a Tableau.
264 #1 $a Chicago : $b University of Chicago, Division of the Humanities

Authorized Access Point for an Expression
• LC-PCC PS 6.27.3
  -- Music resources (6.28.3)
  -- Sacred scriptures (6.30.3)
  -- Translations (described in the LC-PCC PS)
  -- Language editions (described in the LC-PCC PS)

Authorized Access Point for an Expression
130 0# $a Duaḥ ha-inflatsyah. $l English.
245 10 $a Inflation report / $c Bank of Israel.
775 08 $i Hebrew edition: $t Duaḥ ha-inflatsyah $w (DLC) 00207719 $w (OCoLC)45203459

Authorized Access Point for an Expression
130 0# $a Duah ha-inflatsyah. $l English.
245 10 $a Inflation report / $c Bank of Israel.
775 08 $i Hebrew edition: $t Duah ha-inflatsyah $w (DLC) 00207719 $w (OCoLC)45203459
Authorized Access point for
Translations and Language Editions in a
Compilation

245 00 $a Diplôme international de l’OIV en
management du secteur de la vigne et du
vin.
730 02 $a Diplôme international de l’OIV en
management du secteur de la vigne et du
vin.
730 02 $a Diplôme international de l’OIV en
management du secteur de la vigne et du
vin. $l English.

Summary

- Authorized access point for a work:
  - Authorized access point for creator
  - Preferred title of work

- Additions to authorized access point for a work
  - Add parenthetically to authorized access point

- Authorized access point for an expression
  - Added to authorized access point for the work
7: Basics of RDA Relationships for Serials

• Relationships in RDA
• Relationship designators
• Creators and other corporate bodies related to works
• Corporate bodies related to manifestations
• CONSER practices for linking entry fields

Two Goals in RDA

• Identify -- Attributes of entities:
  – Describing attributes of serial works, expressions, manifestations and creators
• Relate -- How are these entities connected to one another?

The What and the Why

• What are relationships?
  – Connections between entities
    • Creators of serials, related works and expressions; related manifestations
• Why are relationships important?
  – Help users find what they want!
The Who and the How

• Who are the related entities?
  – WEMI entities
  – Person/Family/Corporate Body entities
  – Identified by authorized access point; or by identifier; or by URI; or by bibliographic description

• How are they related?
  – Role or function
  – Relationship designator
  – Other indications (e.g., MARC tag)

Organization of RDA Instructions for Relationships

Instructions for showing relationships:
  – Between resources and associated persons/families/corporate bodies
    • Chapters 18-22; Appendix I
    • Used in bibliographic records
  – Between resources
    • Chapters 24-28; Appendix J
    • Used in bibliographic and authority records

Relationship Designators

• What are Relationship Designators?
  – They express roles or functions

• Appendices I and J are not closed lists

• PCC Guidelines for the Application of Relationship Designators in Bibliographic Records
Relationship Designators in MARC Bibliographic Records

<table>
<thead>
<tr>
<th>RDA Appendix</th>
<th>MARC</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>$e of 100-110 and 700-710</td>
</tr>
<tr>
<td>I</td>
<td>$j of 111 and 711</td>
</tr>
<tr>
<td>J</td>
<td>$i of 700-730</td>
</tr>
<tr>
<td>J</td>
<td>$i of 76X-78X linking entry fields</td>
</tr>
</tbody>
</table>

PCC Guidelines

PCC Guidelines for the Application of Relationship Designators in Bibliographic Records

• Relationships between people and serials
• Relationships between serial resources: works, expressions, and manifestations

Creators Related to Works

• LC-PCC PS 19.2
• RDA Core relationship: first creator with principal responsibility
  – authorized access point in 1XX field
• If multiple creators, apply cataloger judgment to give for more than the first
  – authorized access point in 7XX field(s)
• Relationship designators from RDA Appendix I.2
  – $e of 1XX/7XX
PCC Guidelines

PCC policy
  – Include relationship designator for all creators

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>245</td>
<td>Maternal Health Thematic Fund annual report.</td>
</tr>
</tbody>
</table>

PCC Guidelines

• Guideline 4
  – Assign an RDA element name as a relationship designator, e.g., “creator” (19.2) or “publisher” (21.3) if it will most appropriately express the relationship.

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>110</td>
<td>Brigham Young University, $a Department of Microbiology and Molecular Biology, $e creator</td>
</tr>
<tr>
<td>245</td>
<td>Department of Microbiology and Molecular Biology records.</td>
</tr>
<tr>
<td>710</td>
<td>Kent State University Press, $e publisher.</td>
</tr>
</tbody>
</table>

Creators Related to Works – Examples

110 $a Society of Linguists, $e author.
710 $a Linguists International, $e author.

110 2# $a American Library Association. $b Annual Conference, $e creator.
Other Bodies Related to Works – Examples

- RDA core if the access point for the body is used to construct the authorized access point for the work
- RDA 19.3

710 $a ABC Institute, $e sponsoring body.

710 $a U.S. Geology Society, $e issuing body.

Bodies Related to Manifestations

- Persons/families/corporate bodies involved at the manifestation level
  - Producers
  - Publishers (e.g., broadcasters)
  - Manufacturers (e.g., engravers, printers)
  - Distributors (e.g., film distributors)

Bodies Related to Manifestations

- RDA Chapter 21
- Record publishers, distributors, manufacturers “if considered important for access”
- Relationship designators from RDA Appendix I.4
  - Very few listed
  - Producer, publisher, manufacturer, distributor are separate RDA elements
Bodies Related to Manifestations – Examples

264 #1 $a Bethesda : $b NIH, $c 2008.
710 2# $a National Institutes of Health (U.S.), $e broadcaster.

264 #1 $a St. Paul : $b West Publishing Company, $c 2011-
710 2# $a West Publishing Company, $e publisher.*

* “publisher” is not found in Appendix I.4 but may be used as a relationship designator, per PCC Guideline 4.

Exercises

Part 1: Relationship designators for entities related to the resource.

For the following exercises, determine which entities could be given as access points and their likely relationship to the resource.

Relationships Between Resources

- CONSER practice for linking entry fields
- Common serial relationships
- Related works
- Related expressions and manifestations
- Relationships in note fields

Linking Entry Fields

- Generate structured descriptions of related resources
- Connect related records in the catalog
- Express sequential relationships:
  - e.g. continues, continued by
- Express horizontal relationships:
  - e.g. online and print versions

CONSER Practice for Relationship Designators in Linking Entry Fields

- 780 00
- 785 00
- 776 08 $i Online version:
- 775 08 $i English edition:
Editing Tips for Linking Entry Fields  
76X-78X

- In OCLC, use “insert from cited record”
- If pasting 1XX/24X text, remove subfield coding within:
  - $a [creator]
  - $t [title]

Common Serial Relationships

- Related serial works:
  - Supplement – whole/part
  - Earlier, later title
- Expressions
  - Language expressions
- Manifestations
  - Other formats
  - Change in mode of issuance
  - Reproductions

Related Works

772 0# $t Leadership (Cape Town, South Africa)
780 00 $t Australian & New Zealand apparel
785 00 $t Morren Galleries journal
787 08 $i Preliminary report issued as: $t English housing survey. Headline report
787 08 $i Complemented by (work): $t English housing survey. Household report
Related Expressions and Manifestations

775 08 $i English edition: $t Azerbaijan focus
776 08 $i Print version: $t Proceedings of the ... Western Dairy Management Conference
776 08 $i Online version: $t Bone bouquet
776 08 $i Continued by online database: $t Antarctic bibliography $w (OCoLC) 52065227
775 08 $i Reproduction of (manifestation): $t Hîwa (Baghdad, Iraq)

Relationships in Note Fields

• 525 (supplement) - use for supplements not input as separate records
• 530 (additional physical form) - prefer 776 $i
• 533 (reproduction) - use only for digital preservation project records with $5

Relationships in Note Fields

• 534 (original version) - do not use in CONSER records
• 550 (issuing body) - use to justify 7XX
• 580 (linking entry complexity note) - use to express complex note in conjunction with 7XX
Summary

• Record relationships in authorized access points, notes, & linking fields
• Provide reciprocal relationship fields for serials
• 760-787 fields:
  – Authorized access point of related record (minus subfield codes)
  – Appropriate designators (excluding 780, 785)

Summary

• Include a relationship designator for all creators
• Apply relationship designators in accordance with their definitions

Exercises

Part 2: Relationship designators for related resources.

For each exercise, determine the relationship between the two resources, and record the relationship using MARC.
Exercise 1, Resource 1

Volume 35 Number 1
1 January 2014

European Heart Journal
Journal of the European Society of Cardiology
8: When Do I Need a New Description?

1. What constitutes a major title change?
2. What other situations require a new record?
3. How do I close out a record for a serial that has ceased?
4. How do I link records?

Changes that require a new record

- Major changes in title proper
- Corporate body portion of authorized access point (110 heading or 130 qualifier)
- Edition statement (in some cases)
- Translations/language editions
- Mode of issuance
- Carrier Characteristics (in some cases)
  - Media type, carrier type
Usually note the change

- Minor title changes
- Numbering
- Edition statement (in some cases)
- Changes other than corporate body qualifiers in an authorized access point (i.e. 130)

Decision process

- RDA and LC-PCC PS
- 1.6.2, other RDA instructions, LC-PCC Policy Statements
- CONSER Cataloging Manual, Module 16
- Publisher really intend to change the title?
- Look at all the issues in hand
- Check utility (e.g., OCLC)

Changes in Title Proper
A few considerations

- Consider only the title proper ($a, $n, $p)
  - Changes to other title information do not matter!
- When considering whether a title has changed, always test it against the title proper (recorded in field 245)
  - **Not** against the latest variant in 246!

Major title changes

= Changes that occur in the first five words (or six when initial article) RDA 2.3.2.13.1 (a)
(Note: there are many exceptions to this rule)

- The vocational guidance quarterly → Career development quarterly
- Iowa historical record → Iowa journal of history
- Chemical engineering and mining review → Mining & chemical engineering review

Major title changes

= Changes that occur after the first five words that change the meaning or subject matter RDA 2.3.2.13.1 (b)

- The best bed & breakfast in the world → The best bed and breakfast in England, Scotland, & Wales
- World meetings. Social & behavioral sciences, education & management → World meetings. Social & behavioral sciences, human services & management
Major title changes

= The name of the corporate body given in the title changes RDA 2.3.2.13.1 (c)

Reports of the Institute of **High Speed Mechanics**, Tohoku University

Reports of the Institute of **Fluid Science**, Tohoku University

Minor title changes

- RDA 2.3.2.13.2 and LC-PCC 2.3.2.13.2 (CCM 16.2.4) list 9 categories of minor changes

- Most of these are exceptions to the first major change rule (changes in the 1st five words)

Minor title changes

Includes 9 provisions:

Category a. Representation of a word
Category b. Articles, prepositions, conjunctions
Category c. Name of corporate body
Category d. Punctuation
Category e. Order of titles (parallel titles)
Category f. Words linking to numbering
Category g. Fluctuating titles
Category h. Words in a list
Category i. Words that denote type of resource
Minor title changes: category (a)

Changes in the representation of a word or words
- Includes case, plural vs. singular, spelled out vs. abbreviated form, compound vs. separate words, etc.
- Now also includes acronyms and initialisms vs. full form

Examples of category (a)

Openhouse → Open house
Africa news → African news
Fishery report → Fisheries report
Saint Paul report → St. Paul report
Los Angeles woman → LA woman
ADC electronic news → ADC e-news

Minor title changes: category (b)

- Category b: Article, preposition, or conjunction is added, deleted, or changed anywhere in the title

Annual report of pipeline safety → Annual report on pipeline safety
Minor title changes: category (c)

- Name of same corporate body in the title is:
  - Added, dropped or moved
  - Or parts of the hierarchy are added/dropped
  - Or the form of the name is changed (e.g., from full to abbreviated form)
- Also included:
  - Names of officials
  - Recipients of reports

Examples of category (c)

1. London → Bantam’s London
2. ONS newsletter → Newsletter
3. Amalgamated Engineering Union monthly → AEU monthly

Examples of category (c)

4. Forestry annual report → Forestry Department annual report
5. Biennial report → Biennial report to the Governor and Legislature

**BUT NOT:** Europe through the back door → Rick Steves’ Europe through the back door (John Muir publisher)
Minor title changes: category (d)

- Category d: The only change is one of punctuation
  - GBB → G.B.B.

Minor title changes: category (e)

- Category e: changes in the order of titles when there are parallel titles
  South African medical journal = Suid Afrikaanse tydskrif vir geneeskunde
  changes to:
  Suid Afrikaanse tydskrif vir geneeskunde = South African medical journal
- But not: if the title chosen as title proper is dropped. In that case, consider the change to be major

Minor title changes: category (f)

- Category f: words linking the title to the numbering are added, deleted, changed
  - Annual report 2000
  - Annual report for 2001
Minor title changes: category (g)

- **Category g**: two or more titles proper used according to a regular pattern

Example of fluctuating title:
245 00 Daily gleaner.
246 1# $i Sunday issues have title: $a Sunday gleaner

---

Minor title changes: category (h)

- Addition to, deletion from, or change in the order of words in a list anywhere in the title, provided that there is no significant change in the subject matter

- LC-PCC PS 2.3.2.13.2: consider a list to consist of at least 3 or more terms.

---

Examples of category (h)

Quarterly returns of trade for the ports of Jenchuan, Chinnampo, Kunsan, Mokpo, Fusun, Masampo, Wonsan, and Songchin

Quarterly returns of trade for the ports of Chemulpo, Chinnampo, Kunsan, Mokpo, Fusun, Masampo, Wonsan, and Songchin
Examples of category (h)

Cook's business directory covering Canberra—special **new** section, Northern Territory, West Australia, Queensland, Tasmania, New South Wales, Victoria, South Australia, New Zealand

→

Cook's business directory covering Canberra—special section, **Northern Territory, Tasmania, Queensland, South Australia, West Australia**, Victoria, **New South Wales, New Zealand**

Minor title changes: category (i)

- Addition or deletion anywhere in the title of **words that indicate the type of resource** such as “magazine,” “journal,” or “newsletter”
- Not included:
  - changes from one “type of resource” word to another
  - words that indicate frequency

Examples of category (i)

Outlook → Outlook magazine → Outlook
Active projects → Active projects report
Brasileiras & brasileiros → Jornal brasileiras & brasileiros
Organic chemistry review → Organic chemistry → Review of organic chemistry
**BUT NOT**: Atlantic → Atlantic monthly
SFRA review → SFRA newsletter
Biennial report → Annual report
Quiz 1
Indicate whether the situations constitute a major or minor change.
• For minor changes, give the category under RDA 2.3.2.13.2 that applies.
• For major changes, indicate the reason and whether a new work is involved.

Other major changes
• Corporate bodies in authorized access points (110 headings and as qualifiers in 130 headings)
• Edition statement (indicating changes in subject, scope)
• Translations/language editions.
• Mode of issuance
• Carrier type (some cases)

Changes to corporate body creator
• Where are the instructions?
  – RDA 6.1.3.2.1
  – RDA 11.2.2.6
  – LC-PCC PS 11.2.2.6
Changes in the name of the creator (different body or different name for the same body) that require a new heading are major changes.
Corporate body creator changes

Changes in name (different body or different name for the same body) that require a new heading are major changes:

Record 1: 110 2# $a International Harvester Company.  
245 10 $a Annual report  
785 00 $a Navistar International Corporation. $t Annual report  

Record 2: 110 2# $a Navistar International Corporation.  
245 10 $a Annual report  
780 00 $a International Harvester Company. $t Annual report

Changes in Additions to Authorized Access Points (130)

Change in corporate body qualifier

Record 1: 130 0# $a Technical bulletin (Illinois. Dept. of Conservation)  
245 10 $a Technical bulletin  
785 00 $t Technical bulletin (Illinois. Division of Game Management)  

Record 2: 130 0# $a Technical bulletin (Illinois. Division of Game Management)  
245 10 $a Technical bulletin  
780 00 $t Technical bulletin (Illinois. Dept. of Conservation)
Change in corporate body qualifier

Record 1: 130 0# $a Corporate management (Excelsior (Firm))
          245 10 $a Corporate management.
          785 00 $t Corporate management (Enterprise Excelsior (Firm))

Record 2: 130 0# $a Corporate management (Enterprise Excelsior (Firm))
          245 10 $a Corporate management.
          780 00 $t Corporate management (Excelsior (Firm))

Minor changes: place name, frequency

130 0# $a Critique (Santa Rosa, Calif.)
245 10 $a Critique.
264 #1 $3 1990-1997: $a Santa Rosa, Calif. :
          $b Banovitch Enterprises, $c 1990-
264 31 $3 1997- : $a West Vancouver, B.C. :
          $b Xanthyros Foundation

Changes in Edition Statement (1.6.2.5)
Edition statement (2.5.1.6, 2.20.4)

Create new description when there is a **significant** change in scope or subject coverage.

*Health professional/researcher → Health industry*

[Change is significant-- make a new description]

---

Edition statement (2.5.1.6, 2.20.4)

No change in scope? → Record changes from later issues if important for identification

Example:

250 ## $a Property & casualty insurance edition.

---

Change in Mode of Issuance
Change in mode of issuance

RDA 1.6.2.1 Change in Mode of Issuance of a Serial:
Create a new description if a serial changes to a multipart monograph or an integrating resource (see 2.13).
Create a new description if a multipart monograph or integrating resource changes to a serial (see 2.13).
Create the new description even if the authorized access point remains the same.

Changes in Carrier Characteristics (1.6.2.2)

Change in media type (1.6.2.2)

A new description is required for all changes involving media type even if there is no change in authorized access point. Example:

Paper: Media type: unmediated
↓
CD-ROM: Media type: computer
Change in media type (1.6.2.2)

If media type changes from one type to another, create a new description.

LC-PCC PS 1.6.2.2 / RDA 3.22.6.3.1:
If media type varies within a serial make a note instead of a new description.

Example:
130 0# $a Serials directory (Birmingham, Ala.)
245 14 $a The serials directory.
336 ## $a text $txt $2 rdacontent
337 ## $a unmediated $b n $2 rdamedia
338 ## $a volume $b nc $2 rdacarrier
Continued by:
130 0# $a Serials directory (Birmingham, Ala.)
245 14 $a The serials directory : $b EBSCO CD-ROM.
336 ## $a text $txt $2 rdacontent
337 ## $a computer $b c $2 rdamedia
338 ## $a computer disc $b cd $2 rdacarrier

Change in carrier types (1.6.2.2)

- If there is a change in carrier type but not media type note the change within the description.

Exceptions: when a serial changes from online to another computer carrier and vice versa
Carrier types (3.22.6)

- Minor changes:
  - Broadsheet to volume (Media type: unmediated)
  - Microfiche to microfilm (Media type: microform)
  - CD-ROM to DVD-ROM (Media type: computer)

- New record required:
  - CD-ROM to online (Media type: computer)

Exercise: Carrier type (1)

The last CD-ROM issue was: 1997/2001.
The first DVD-ROM issue was: 1998/2002.

Exercise: Carrier type (2)

Quiz 2

• Indicate whether the following situations constitute a major or minor change.
• In either case, indicate the RDA instruction that applies.
• For major changes, indicate if a new work is involved.

Closing out a record

Always record the following:

008 Publication status: code as “d” (dead)
008 Ending date: code as [e.g.] 1990 (date known); 199u (decade known); or 19uu (century known); etc.
785 Link to later record (if later record exists)

Linking records

• 780/785 linking fields most common (earlier/later titles, changes in creator or corporate body qualifier)
• CONSER policy is not to use a relationship designator for 780/785 relationships (for now)
• 580 linking entry complexity note:

580 ## $a Merger of: Old title, and: Old title.
580 ## $a Merged with: Old title, to form: New title.
Linking entry

780 00 $t Old title $x 1234-1234 $w (DLC) 2008222987 $w (OCoLC)12345678

785 00 $t New title $x 1234-1235 $w (DLC) 2008222994 $w (OCoLC)12345679

78X 00 $a Corporate body. $t Title $x 1232-1233 $w (DLC) 2008123454 $w (OCoLC)12345677

Exception: 776

Use the 776 field for linking between records created because of changes in media and carrier types:

• Print ceases and is continued online
• CD-ROM serial ceases and is continued online

See CCM Module 31 for more details.

Closing record example

Quiz 3

• Complete the abbreviated workforms to indicate tagging and coding of the relevant bibliographic data.

• Major changes: Close out the old record and tag/code the bibliographic data in the new record.
• Minor changes: Edit the existing record.

Summary

• Most major changes involve title changes
• There are 9 (nine) minor-change “exceptions”
• Other changes involve corporate bodies, media type, carrier type, edition
• Once a major change has occurred, the old record is closed off and linked to the new record
• Fields 780/785 are used to link records for major title changes and creation of a new work authorized access point (corporate body involved)
Module 8 Quizzes

Quiz 1: Indicate whether the following situations constitute a major or minor change. For minor changes, give the category under RDA 2.3.2.13.2 that applies. For major changes, indicate the reason and whether a new work is involved.

Quiz 3: Complete the abbreviated workforms to indicate the tagging and coding of the relevant bibliographic data. The emphasis in this section is on closing out the old record and tagging and coding the bibliographic data in the new record or editing an existing record.

Exercise 1

Cover of spring 2003 issue:

ILLINOIS
HISTORICAL JOURNAL
Spring 2003

Table of contents, page [1]:

ILLINOIS
HISTORICAL JOURNAL
Volume 91 / Number 1 / Spring 2003

Contents
{table of contents omitted}

Cover of summer 2003 issue:

Journal of the
Illinois State
Historical Society
Summer 2003
Title page of summer 2003 issue:

Journal of the Illinois State Historical Society
Vol. 91 Number 2

Additional information from Masthead:
Published in Springfield, Illinois by the Illinois State Historical Society

What fields or data would you add to the old record; what additional information would be included in the new records?

**Old record (has not been revised in a while!)**

Fixed field:
Publication status: c
Dates: 1984,9999

245 00 $a Illinois historical journal.
260  #1 $a Springfield, Ill. : $b Illinois Historic Preservation Agency, $c 1984-
362  0# $a [Vol. 77, no. 3] (autumn 1984)–
    780 00 $t Journal of the Illinois State Historical Society

**New record**

Fixed field:
Publication status:
Dates: ,

245 00 $a __________________________________________
264  #1 $a __________________________________________
362 1# $a __________________________________________
588  #1 $a __________________________________________
588  #1 $a __________________________________________
 78_  __ $ __________________________________________
Exercise 2. Beginning in 2012, America's best graduate schools changed title to: Best graduate schools

Cover:

U.S. News & World Report

BEST GRADUATE SCHOOLS

2012 edition

Washington D.C.

Then in 2013, the title changed again to: Best grad schools

Question: Is a new record needed for this change? If so, cease the existing record & create another record for the new work If not, how would you modify the existing record?

Fixed field:
Publication status: c
Dates: 2012 ,9999
130 0# $a Best graduate schools (U.S. News & World Report, inc. : 2012)
245 10 $a Best graduate schools.
300 ## $a volumes : #b illustrations ; #c 27 cm
310 ## $a Annual
362 1# $a Began with 2012 edition.
500 ## $a At head of title: U.S. news & world report.
588 ## $a Description based on: 2012 edition; title from cover.
710 2# $a U.S. News & World Report, inc.
780 00 $t America's best graduate schools (U.S. News & World Report, inc. : 2004) $x 1939-3652 $w (DLC) 2003238794 $w (OCoLC)52353681

78 ___ $______________________________

Fixed field:
Publication status:
Dates: 
245 00 $a
264 #1 $a
362 1# $a
588 ## $a
588 ## $a
78__ $______________________________
9: Identifying Appropriate Copy

How do I identify the "most appropriate" serial record?

1. Is it the same publication?
2. Is it for the appropriate physical format?
3. Do the dates fit?
4. Is the record RDA or pre-RDA?
5. How authoritative is the record?

Is the publication the same?

What to look for:

Description
ISSN
Title statement
Publisher
Date of publication
Issuing bodies
Subject headings
Links

MARC 21 Tag
022
245 $a, $n, $p, and $c
264 $b (or 260 $b)
264 $c, 362, 008 dates
550, 11X, 71X
6XX
780/785, other 77X

Example

Cover:

CRITIQUE
studies in contemporary fiction
Volume 40, No. 3 Spring 1999

Verso of cover:
CRITIQUE: Studies in Contemporary Fiction (ISSN 0011-1619) is published quarterly by Heldref Publications, 1319 Eighteenth Street, N.W. Washington, D.C. 20036-1802 ...

Is the record RDA?

What to look for:

MARC coding for RDA bibliographic records:
040 ## $a _____ $b eng $e rda $c _____

PCC practice:
Code for (and use) ISBD punctuation:
Leader/18: value "1"

How authoritative is the record?

• CONSER authentication codes (042 field):

Specific agencies:
- pcc Program for Cooperative Cataloging
- lcac LC Annotated Children’s Cataloging Program
- nlc Library and Archives of Canada (formerly National Library of Canada)
- nsdp National Serials Data Program (US ISSN Center)
- issn/c ISSN Canada

Name heading status:
- msc Descriptive elements verified, but one or more headings not in the LC Name Authority File

How authoritative is the record?

• CONSER authentication codes (042 field):

Other:
- icopycat Library of Congress copy cataloging
- premarc Library of Congress recon record
- x ... Codes that begin with an "x" mean the title is not considered to be a serial or the institution has not treated it as a serial
How authoritative is the record?

What to look for:

LCCN (010 field):

- Unprefixed LC (or CONSER after 2000)
  010 ## $a 2006223520
- sn- prefix US ISSN Center or other CONSER member (prior to 2000)
  010 ## $a sn82003420
- $c-- National Library of Canada
  010 ## $a ca95700239

What else?

What to look for:

- Description MARC Tag
- Call numbers 050, 082, 090, etc.
- Subject headings 6XX
- Earlier and/or later titles 780 and/or 785
- Related titles Other 76X-78X linking fields

Pre-AACR2 caveats

• Truncated titles:
  – On piece:
    – Annual report.
    – Quarterly statistics of the Finance Department.
• Transcription:
  – Report.
  – Statistics.
• Initialisms:
  245 00 $a GQ, Gentleman’s quarterly.

More pre-AACR2 caveats

Use of the 247 for slight title variations:

245 00 $a Bulletin - Council on Library Resources.
247 01 $a Bulletin of the Council on Library Resources
500 ## $a Title varies slightly.
Latest entry records

- Description is based on latest issue
- Earlier title changes are included in 247 fields
- Earlier issuing bodies in 550 note
- New records created for mergers and splits

Summary

- When selecting copy, look for:
  - Physical format
  - RDA descriptive conventions
  - Successive entry cataloging
- In comparing records, look for:
  - ISSN
  - Title proper and dates
  - Publication information
  - CONSER-authenticated copy
Basic Serial Cataloging Workshop

Which record best fits the piece in hand? Record 1 Record 2

Although the ISSN and title match both records, the first record is for a microform and
the second is for the print version of the journal.
1. It is a serial record.
2. It is successive entry, cataloged according to a pre-RDA code (AACR2)
3. The title matches
4. The dates match.
5. The enumeration fits.
6. The ISSN matches.
Note: This record not cataloged according to CONSER Record Standard guidelines

4. 
5. 
6.
10: Working with Copy

1. Change over time
2. Criteria for editing copy
3. Some guidelines to keep in mind
4. Categories of maintenance

Change over time

• How to maintain existing records?
• How do we accommodate change?
• Using existing copy
  — How to edit?
    • RDA & AACR2/CSR records
    • Pre-AACR2 successive entry records
• When to consider re-describing to RDA?

Criteria for editing copy

• Local policies
• Changes to report to your utility?
• Added value for end users and processing staff
• Other fields may need editing:
  — Input standards for local system and utility
  — Reports derived from your system
Keep in mind ...

- Do not edit records to conform to new standard
- Do not delete data unless incorrect
- Maintain changes that affect access to the record
- Records may contain a mix of old and new practices (as always)

Categories of maintenance

- ISSN
- Access points:
  - Variant titles
  - Issuing bodies
  - Series
- Place of publication/publisher
- Numbering
- Frequency
- Other changes
- Hybrid records
- Pre-AACR2 maintenance

ISSN (022 field)

022 0# $a 0363-0277 $l 0363-0277 $y 0000-0027
$y 0363-00277 $2 1

- $a = valid ISSN
- $l = ISSN I
- $m = canceled ISSN I
- $y = incorrect ISSN
- $2 = canceled ISSN
- $2 = ISSN Center
Variant titles

Coding for CONSER Standard Record:
- 245 00 $a Title
- 246 1# $i Issues for ... have title: $a [later title]
- 246 1# $i Issues for ... have English title: $a [later parallel title]
- 246 1# $a [variant title] $f <Nov. 2011->

Example

245 00 $a Géologie de la France
246 1# $i Issues for 1988-1989 have title: $a Géol. Fr.
246 1# $i Issues for 1994-2000 have also English title: $a Geology of France and surrounding areas
246 1# $a GFSA $f <1995> -1999

Variant titles, examples

- Variant titles
  245 10 $a Annual report
  246 1# $a NAVISTAR annual report $f 1990-

- “Minor” variations in title proper
  245 00 $a Openhouse
  246 1# $i Issues for 2006- have title: $a Open house

Parallel titles

- Parallel titles (CSR):
  245 00 $a Groundwater series
  246 11 $a Grondwaterreeks
  500 ## $a Order of titles varies with language of text.
  245 00 $a Electric power in Canada.
  246 1# $i Issues for 1969- have also French title: $a Energie électrique au Canada
Fluctuating titles

245 00 $a Knitting times.
246 1# $i Some volumes, 1980- have title:
   $a Knitting times newsweekly
246 1# $i One issue each month, Mar. 24, 1980-
   has title: $a Apparel world

245 10 $a TIMS/ORSA bulletin.
246 1# $i Alternating issues called: $a ORSA/TIMS
   bulletin

Pop Quiz!

245 00 $a Publicaciones del Observatorio del
   Ebro.

Beginning with volume 47, published in 2012, a
parallel title also appears in English:

Publications of the Ebro Observatory

Possible response

245 00 $a Publicaciones del Observatorio del
   Ebro
246 1# $i Volumes for 2012- have also English
   title: $a Publications of the Ebro Observatory
Issuing body (2.20.3.6.2)

- CONSER practice: [introductory word(s)]: [information], [dates]

Example

Issuing bodies

245 00 $a International review for the sociology of sport.
264 #1 $a Munich : $b R. Oldenbourg Verlag, $c [1984]-
362 1# $a Began with vol. 19, no. 1.

588 ## $a Description based on: Vol. 19, no. 1; title from ...
710 2# $a International Committee for Sociology of Sport, $e issuing body.

Change: From 1984-1995, the Committee appears on the preferred source. In volumes issued from 1996 on, the issuing body appears as: International Sociology of Sport Association

Checking the authority file, the cataloger finds the authority record for: International Sociology of Sport Association.

Issuing Bodies

245 00 $a International review for the sociology of sport.

Numbering (2.6.1, 2.20.5)

- Coding: Partially transcribed
- Reminder: If numbering starts over without series designation, supply [new series]
- Options:
  - 362 1# $a If have first/last in range
  - 515 ## $a In all situations

Example 1:
362 1# $a Began with: No 7 (année judiciaire 1998/1999); ceased with no 13 (année judiciaire 2004/2005).

Example 2:
362 1# $a Began with December 1971.
515  ## $a Issues for <May 2010-> called: <2nd series, volume 1, issue 5->

Numbering changes = Minor!

Use 362 or 515, whichever is clearer

Example 1: 362 1# $a Began with: volume 1, number 1 (Jan. 1960); ceased with volume 5, number 6 (June 1964). New series began with volume 1, number 1 (July 1964).

Example 2: 362 0# $a Vol. 1, no. 1 (Jan. 1960)-v. 5, no. 6 (June 1964) ; [new ser.]: v. 1, no. 1 (July 1964)

If new numbering scheme:
Example 3: 362 1# $a Began with: no. 1; original numbering ended with no. 15. New numbering began with v. 1, no. 1, published in 1964.

Frequency (2.14.1.4, 2.20.12)

Coding: Recorded; CONSER practice: keep all

- 310 ## $a Frequency, $b coverage [current]
- 321 ## $a Frequency, $b coverage [oldest]
- 321 ## $a Frequency, $b coverage [next]
Frequency

310 ## $a Weekly, $b Mar. 2007-
321 ## $a Biweekly, $b 1989-Feb. 2007

Retag existing frequency note from 310 to 321
Move re-tagged note to position as last 321 note
-- Enter current frequency in 310 field, with $b to show dates
-- Add subfield $b to both 310 & 321 to show dates.

Frequency (continued)

Fixed field: Freq w OR Freq ■
Regl r Regl ■

310 ## $a Weekly, $b Mar. 2007-
321 ## $a Biweekly, $b 1989-Feb. 2007

Frequency: What are the options?

Bibliographic record has:

 Fixed field Frequency: ■
 Fixed field Regularity: ■

310 ## $a Semiannual
362 1# $a Began in 1990.

Publication history:
Semiannual through Dec. 1996.
Issued annually since 2003.
Frequency: CSR

Fixed field Frequency: ■
Fixed field Regularity: ■
310 ## $a Annual, $b 2003-
321 ## $a Semiannual, $b 1990-1996
321 ## $a Quarterly, $b 1997-1999
321 ## $a Monthly, $b 2000-June 2001
321 ## $a Bimonthly, $b July/Aug. 2001-2002

Related manifestations (27.1)

Prefer:
776 08 $i Issued also on CD-ROM: $t APIS
$w (DLC) 00235631 $w (OCoLC)45040072

Use as appropriate:
530 ## $a Issued also on CD-ROM.

Other considerations

- CEG B4
- FF Dates: If most recent issue (or known issue) is older than 3 years:
  - 008/06 (Status): u
  - 008/11-14 (Date2): uuuu
- Basis of identification: If have later issue than was previously been entered:
  588 ## $a Latest issue consulted: ...
  588 ## $a Latest issue consulted: ... (publisher’s Web site, viewed ...).
Expression-level change (7.29.2.3)

- So far, ALL changes can be accommodated
- Types of change common to serials:
  - Language
  - Script
- Examples:
  546 ## $a Volumes 1-3 in French, volumes 4-7 in German.
  546 ## $a In Azerbaijani (Cyrillic), <1999->; (Latin), <2002-2003>

Work-level change (Chapter 6)

- Parallel language titles appearing on later issues (6.2.3.4)
- Variant titles that differ significantly from the preferred title and might reasonably be sought (6.2.3.3)
- Nature of the content (7.2.1.3)

Hybrid: Editing AACR2/CSR records

- Documentation: Post RDA Implementation Guidelines and Standards
  http://www.loc.gov/aba/pcc/
- May follow RDA conventions to maintain AACR2/CSR records
- May add (or add to) 336-338 fields
- Should create RDA NARs if additional name headings are needed (e.g., issuing body)
- Many changes can be made without re-describing serial using RDA
## Exercise: CSR record maintenance

FF: LDR/18 (Desc) = a 008/18-19 (Freq/Regl) =q/x 008/15-17 (City) = nju

## Summary

- All PCC records may be maintained using RDA and CONSER RDA practices
- Enhancements for accuracy and current data add value for end users and staff
- Valued enhancements include
  - ISSN
  - Variant titles, issuing bodies, subjects
  - Cessations

---
Editing pre-AACR2 records using RDA

• Watch for: Partial title that needs to be reconsidered

• Before editing:
  – Create DBO to reflect issue used for description if known, based on 362, 936, and any other data:
  – Remove 936

• Apply Hybrid Record Guidelines

*Note: The table above lists the cataloging resources and their respective information.*
Module 10 Exercises

Part A (5 exercises)

Compare the bibliographic information to data on the issues received. What kind of change is involved? Modify copy following the RDA CONSER Standard Record guidelines.

Part B (7 exercises)

Compare the bibliographic information about the issue in hand given in the following pages with the copy provided and indicate any editing necessary. The copy may not include all MARC tags.

Part C (2 exercises)

Edit the copy provided to indicate cessation of records based on the information provided.
Part A.
Instructions: Below and on the left are segments from existing catalog records cataloged according to the CONSER Standard Record guidelines. On the right-hand side are the issues received by your library. How would you modify the existing catalog record following the CONSER Standard Record guidelines?

Appendix A: Tools for Serials Catalogers

A. Online resources for cataloging serials:

   - **CONSER Editing Guide** (CEG). This guide supplies instructions for serials catalogers following RDA in a MARC-based system. Available in Cataloger’s Desktop.

   - **Descriptive Cataloging Manual** (DCM). The DCM is an in-house manual containing the procedures followed by catalogers at the Library of Congress. One segment, DCMZ1, is used by members of the Program for Cooperative Cataloging when establishing and maintaining name and series authority records. Available in Cataloger’s Desktop.

5. **LC’s Cataloging and Acquisitions Home Page**: [http://www.loc.gov/aba/](http://www.loc.gov/aba/)
6. **MeSH Browser.** An online vocabulary look-up aid available for use with MeSH® (Medical Subject Headings). It is designed to help quickly locate descriptors of possible interest and to show the hierarchy in which descriptors of interest appear. Virtually complete MeSH records are available, including the scope notes, annotations, entry vocabulary, history notes, allowable qualifiers, etc. [http://www.nlm.nih.gov/mesh/MBrowser.html](http://www.nlm.nih.gov/mesh/MBrowser.html)

7. **NASIGWeb:** [http://www.nasig.org](http://www.nasig.org)

8. **OCLC’s Home Page:** [http://www.oclc.org](http://www.oclc.org)

9. **SERIALST** (a very useful listserv). For more information see: [http://list.uvm.edu/cgi-bin/wa?A0=serialst](http://list.uvm.edu/cgi-bin/wa?A0=serialst).

10. **MARC Standards.** Contains guidelines for both Bibliographic and Authority data: [http://www.loc.gov/marc/](http://www.loc.gov/marc/)

**B. Online resources for subject cataloging and classification:**

1. **Free-Floating Subdivisions:** an Alphabetical Index. Available in Classification Web, Cataloger’s Desktop, and on the LC website: [http://www.loc.gov/aba/cataloging/subject/](http://www.loc.gov/aba/cataloging/subject/)

4. **Subject Headings Manual.** Available in Cataloger’s Desktop.

**C. Print resources for cataloging serials:**

**D. E-journals:**

### Appendix B: Acronyms and Initialisms Relating to Serials

<table>

<td>Descriptive Cataloging Manual. The Library of Congress in-house cataloging manual also used by members of national cooperative programs such as NACO.</td>
</tr>
<tr>
<td>FRAD</td>
<td>Functional Requirement for Authority Data. A conceptual entity-attribute model for authority data. Relates data recorded in library authority records to user tasks, to facilitate use and sharing of that data. Serves as the foundation for authority description in RDA.</td>
</tr>
<tr>
<td>FRBR</td>
<td>Functional Requirements for Bibliographic Records. A conceptual entity-attribute model for bibliographic data. Relates data recorded in library bibliographic records to user tasks of retrieval and access in bibliographic databases such as library catalogs. Serves as the foundation of bibliographic description in RDA.</td>
</tr>
<tr>
<td>ISBD(CR)</td>
<td>International Standard Bibliographic Data—Serials and Other Continuing Resources. The ISBD(CR) is an international cataloging code of the description of continuing resources. It is developed and maintained by the International Federation of Library Associations (IFLA). It replaced ISBD(S).</td>
</tr>
<tr>
<td>ISSN</td>
<td>International Standard Serial Number. The ISSN is governed by the International Centre in Paris and assigned by centers in each country.</td>
</tr>
<tr>
<td>ISSN Canada</td>
<td>International Standard Serial Number Canada. The Canadian center responsible for assigning ISSN to Canadian imprints and located at the Library and Archives Canada.</td>
</tr>
</tbody>
</table>
| ISSN-L  | Linking ISSN. An International Standard Serial Number designated by the ISSN Network to group the different media versions of a continuing resource (which
individually may also have distinguishing ISSN assigned to each version).

LCSH  Library of Congress Subject Headings.

MAC  MARC Advisory Committee. Successor to MARBI (Machine-Readable Bibliographic Information). Advises the MARC Steering Group on changes to MARC 21.

MARC 21  Machine Readable Cataloging. Formerly USMARC

NACO  Name Authority Cooperative.

NASIG  North American Serials Interest Group, Inc.

NISO  Name Information Standards Organization. NISO began as Committee Z39 of the American National Standards Institute (ANSI).

OCLC  Online Computer Library Center. A nonprofit, membership computer service and research organization whose systems help libraries locate, acquire, catalog, and lend library materials. Its WorldCat database has bibliographic records from institutions around the world. CONSER catalogers create and maintain continuing resource bibliographic records in OCLC WorldCat.

PCC  Program for Cooperative Cataloging. CONSER is a bibliographic component along with BIBCO. NACO and SACO are authority components.

RDA  Resource Description & Access. The cataloging code providing instructions for describing resources. Successor to AACR2.

SCCTP  Serials Cataloging Cooperative Training Program.

SICI  Serial Item and Contribution Identifier. The bar code that uniquely identifies each issue of a serial, of which the ISSN forms the first portion.

SISAC  Serials Industry Standards Advisory Committee. SISAC is a committee of the Book Industry Study Group, Inc. (BISG).

U.S. ISSN Center  Part of the international ISSN Network, assigns International Standard Serial Numbers (ISSN) to serials published in the U.S.

USNP  United States Newspaper Program.

VIAF  Virtual International Authority File. Combines name authority files from multiple sources into a single name authority service. Hosted by OCLC at: http://viaf.org
Appendix C: Glossary

Definitions from RDA unless otherwise specified:

*(CCM)*: CONSER Cataloging Manual

*(Hybrid)*: Report of the PCC Post-Implementation Hybrid Bibliographic Records Guidelines Task Group

**Abbreviated title.** A title that has been abbreviated for purposes of indexing or identification.

**Access point.** A name, term, code, etc., under which information pertaining to a specific entity will be found.

**Accompanying material.** Material issued with, and intended to be used with, the item being catalogued. *(CCM)*

**Added title page.** A title page preceding or following the title page chosen as the preferred source of information. It may be more general (e.g., a series title page), or equally general (e.g., a title page in another language).

**Alternative numbers.** A secondary system of numbering (e.g., vol. 1, no. 1 + No. 1). *(CCM)*

**Alternative title.** The second part of a title proper that consists of two parts (each of which has the form of an independent title), joined by a word such as “or” or its equivalent in another language.

**Analytic.** An individual title in a series. The analytic may be a monograph, an integrating resource, of a serial *(CCM)*

**Analytical title page.** The title page of an individual work in a series. *(CCM)*

**Authentication.** The process of a) reviewing a bibliographic record for data content and content designation to ensure that it conforms to Program for Cooperative Cataloging bibliographic practices and agreed-upon conventions, and b) adding identifying elements to the record to indicate the degree of authoritativeness of data or the extent to which the record has been reviewed. As a result of authentication, CONSER records are made available through distribution in bibliographic products.

**Authorized access point.** The standardized access point representing an entity.

**Backfiles.** Purchase of specific volumes or issues that are lacking from the collection. They are considered "only orders" because they are single, one-time purchases.

**Caption title.** A title given at the beginning of the first page of the text.
**Carrier.** A physical medium in which data, sound, images, etc., are stored. For certain types of resources, the carrier may consist of a storage medium (e.g., tape, film) sometimes encased in a plastic, metal, etc., housing (e.g., cassette, cartridge) that is an integral part of the resource.

**Carrier type.** A categorization reflecting the format of the storage medium and housing of a carrier in combination with the type of intermediation device required to view, play, run, etc., the content of a resource.

**Chronological designation.** A date, or combination of dates, numbers, or words that identifies an issue of a serial within a chronological sequence. (CCM)

**Claiming.** The process of contacting a publisher or vendor to request supply of material missed or overdue on subscription, standing order, or backfile order.

**Colophon.** A statement at the end of an item giving information about one or more of the following: the title, author(s), publisher, printer, date of publication or printing. It may include other information. (CCM)

**Common title.** A title common to two or more works, one or more of which carries the title and/or designation of a section. (CCM)

**CONSER database.** A Cataloging Distribution Service database distinct from but connected in the CONSER workflow to OCLC’s WorldCat database (where CONSER record creation and update are done). CONSER records are distributed from this database to MARC Distribution Service subscribers, ISSN International Centre, etc. (CCM)

**CONSER record.** A bibliographic record for a continuing resource that has been authenticated by at least one participant in the CONSER Program. (CCM)

**CONSER standard record (CSR).** A continuing resource bibliographic record authenticated by CONSER and meeting defined mandatory element requirements for authentication. CSR requirements are designed to serve user needs and emphasize access points over descriptive detail. CSR documentation supports everyday CONSER cataloging and includes a metadata application profile (MAP) with data element requirements and cataloging guidelines. (CCM)

**Content type.** A categorization reflecting the fundamental form of communication in which the content is expressed and the human sense through which it is intended to be perceived. For content expressed in the form of an image or images, content type also reflects the number of spatial dimensions in which the content is intended to be perceived and the perceived presence or absence of movement.

**Continuing resource.** A bibliographic resource that is issued over time with no predetermined conclusion. Continuing resources include serials and ongoing integrating resources. (CCM)
**Contributor.** A person, family, or corporate body contributing to the realization of a work through an expression. Contributors include editors, translators, arrangers of music, performers, etc.

**Copy cataloging.** Adaptation of a pre-existing bibliographic record, primarily from OCLC in the case of serials. *(CCM)*

**Corporate body.** An organization or group of persons and/or organizations that is identified by a particular name and that acts, or may act, as a unit.

**Cover title.** A title printed on the cover of an item as issued. *(CCM)*

**Coverage date.** A date that reflects the coverage of the contents of the item (e.g., FY 1989). *(CCM)*

**Creator.** A person, family, or corporate body responsible for the creation of a work.

**Cumulation.** An issue of a serial that collects all of the information given in the previous issues for a given period and is intended to replace those issues. The cumulation may rearrange, correct, or expand the contents of the original issues. *(CCM)*

**Devised title.** A title proper created by an agency preparing a description of a resource that bears no title itself and has no title associated with it that can be found in other sources (e.g., accompanying material, a published description of the resource, a reference source).

**Distinctive title.** A title that appears in addition to the title proper, is unique to an issue, and is often related to the topic or theme of that issue. *(CCM)*

**Edition statement.** A statement identifying the edition to which a resource belongs.

**Editorial pages.** These pages are most often found in periodicals and usually contain the masthead in a boxed area. The title may be found at the head of the page.

**Element.** A word, character, or group of words and/or characters representing a distinct unit of bibliographic information.

**Expression.** The intellectual or artistic realization of a work in the form of alpha-numeric, musical or choreographic notation, sound, image, object, movement, etc., or any combination of such forms.

**Fluctuating title.** A title that changes back and forth on a regular or irregular basis. *(CCM)*

**Half title.** A title of a publication appearing on a leaf preceding the title page. *(CCM)*

**Hybrid record.** A non-RDA bibliographic record to which RDA cataloging elements have been added, either manually or via machine manipulation. The resulting bibliographic record is
considered a hybrid record, as it blends elements of previous practices with the current RDA practices. *(Hybrid)*

**Integrating resource.** A resource that is added to or changed by means of updates that do not remain discrete but are integrated into the whole. An integrating resource may be tangible (e.g., a loose-leaf manual that is updated by means of replacement pages) or intangible (e.g., a Web site that is updated either continuously or on a cyclical basis).

**Internal numbers.** Numbers within a volume that repeat with each volume (e.g., vol. 3, no. 2). *(CCM)*

**Issuing body.** A person, family or corporate body issuing a work, such as an official organ of the body.

**Item.** A single exemplar or instance of a manifestation.

**Key-title.** The unique name assigned to a bibliographic resource by centers of the ISSN Network. *(CCM)*

**Language edition.** A serial published simultaneously in different languages. The publisher of all of the editions is usually the same. The titles may be in different languages or in the same language. *(CCM)*

**Language of expression.** A language in which a work is expressed.

**Major change.** A change that requires the creation of a new record. *(CCM)*

**Manifestation.** The physical embodiment of an expression of a work.

**Masthead.** A statement of title, ownership, editors, etc., of a newspaper or periodical. In the case of newspapers it is commonly found on the editorial page or at the top of page one, and, in the case of periodicals, on the contents page. *(CCM)*

**Media.** The means used to convey information or artistic content.

**Media type.** A categorization reflecting the general type of intermediation device required to view, play, run, etc., the content of a resource.

**Minor change.** A change that does not require the creation of a new record. The change is noted in the record, when considered important. *(CCM)*

**Mode of issuance.** A categorization reflecting whether a resource is issued in one or more parts, the way it is updated, and its intended termination.
Newspaper. A serial publication that contains news on current events of special or general interest. The individual parts are listed chronologically or numerically and appear usually at least once a week. Newspapers usually have a masthead rather than a cover and are normally larger than A3 (297 mm x 420 mm.) in size. (CCM)

Numbering of serials. The identification of each of the issues or parts of a serial. Numbering of serials may include a numeral, a letter, any other character, or the combination of these with or without an accompanying caption (volume, number, etc.) and/or a chronological designation.

Numeric designation. A number or combination of numbers, dates, letters, or words that identifies an issue of a serial within a numeric sequence. (CCM)

Other corporate body associated with a work. A corporate body associated with a work other than as a creator. Includes sponsoring bodies, production companies, etc.

Other title information. Information that appears in conjunction with, and is subordinate to, the title proper of a resource. (Supplied by presenters)

Parallel title proper. The title proper in another language and/or script.

Periodical. A serial published more frequently than annually. Each issue normally contains separate articles, stories or other writings. (CCM)

Preferred source of information. See Source of information

Preferred title for the work. The title or form of title chosen as the basis for the authorized access point representing that work.

Provider-Neutral guidelines. PCC guidelines for creating a description of an online resource that is available from multiple providers. (Supplied by presenters)

Publication statement. A statement identifying the place or places of publication, publisher or publishers, and date or dates of publication of a resource.

Qualifier. A parenthetical word or phrase added to a corporate body heading or [to a preferred] title to distinguish the body or title from others with the same name or title. (CCM)

Reciprocal relationship. The relationship between two items, as represented by paired linking fields (e.g., 780/785) or by a link with the same tag that is given in each related record (e.g., 775). (CCM)

Record maintenance. The process of ensuring the continued authoritativeness of a record through additions, changes, or deletions: a) to correct obvious errors, b) to reflect changes in the resource, or c) to reflect changes to policies and practices used for the bibliographic control of the resource.
Includes but is not limited to Bibliographic File Maintenance (BFM), which generally refers to making corrections in LC records because of reported errors or to update access points affected by NACO/SACO authority work.

**Recorded element.** An RDA element that can be manipulated when entered in the description of a resource. The types of manipulation that can be done are described in the RDA instructions for each element. Some recorded elements may also be taken from outside resources. *(Supplied by presenters)*

**Reference source.** Any source from which authoritative information may be obtained, including authority files, reference works, etc.

**Related expression.** An expression related to the resource being described (e.g., a revised version, a translation).

**Related manifestation.** A manifestation related to the resource being described (e.g., a manifestation in a different format).

**Related work.** A work related to the resource being described (e.g., an adaptation, commentary, supplement, sequel, part of a larger work).

**Relationship designator.** A designator that indicates the nature of the relationship between entities represented by authorized access points, descriptions, and/or identifiers.

**Release date.** A date, consisting of the month and year that reflects the date of release for publication. *(CCM)*

**Reproduction.** An exact copy of the content of a resource made by mechanical or electronic means.

**Running title.** A title or abbreviated title that is repeated at the head or foot of each page or leaf. *(CCM)*

**Section.** A separately published part of a bibliographic resource, usually representing a particular subject category within the larger serial and identified by a designation that may be a topic, or an alphabetic or numeric designation, or a combination of these. *(CCM)*

**Serial.** A resource issued in successive parts, usually bearing numbering, that has no predetermined conclusion (e.g., a periodical, a monographic series, a newspaper). Includes resources that exhibit characteristics of serials, such as successive issues, numbering, and frequency, but whose duration is limited (e.g., newsletters of events) and reproductions of serials.

**Series.** 1) A group of separate resources related to one another by the fact that each resource bears, in addition to its own title proper, a collective title applying to the group as a whole. The
individual resources may or may not be numbered. 2) A separately numbered sequence of volumes or issues within a series or serial (e.g., Notes and queries, 1st series, 2nd series, etc.).

**Series title page.** An added title page bearing the series title proper and usually, though not necessarily, other information about the series (e.g., statement of responsibility, numeric designation, data relating to publication, title of the resource within the series).

**Source of information.** The source of data from which a description (or portion thereof) is prepared. For print serials, the preferred source is generally the title page or title page substitute of the first or earliest available issue. *(CCM)*

**Spine title.** A title appearing on the spine of an item. *(CCM)*

**Statement of responsibility.** A statement relating to the identification and/or function of any persons, families, or corporate bodies responsible for the creation of, or contributing to the realization of, the intellectual or artistic content of a resource.

**Subseries.** A series within a series (i.e., a series that always appears in conjunction with another, usually more comprehensive, series of which it forms a section). Its title may or may not be dependent on the title of the main series.

**Successive entry cataloging.** The convention of creating a new description for a serial whenever one or more of the criteria in RDA 1.6.2 is met (change in mode of issuance, major change in title proper, etc.). *(Supplied by presenters)*

**Supplement.** An item, usually issued separately, that complements one already published by bringing up-to-date or otherwise continuing the original or by containing a special feature not included in the original. The supplement has a formal relationship with the original as expressed by common authorship, a common title or subtitle, and/or a stated intention to continue or supplement the original. *(CCM)*

**Surrogate.** A substitute for the basis of description (such as an issue of a serial) on which a bibliographic record is based. Includes copies of the chief source of information and any other sources with additional information on which cataloging should be based. *(CCM)*

**Title page.** A page at the beginning of a resource bearing the title proper and usually, though not necessarily, the statement of responsibility and the data relating to publication. If this information is given on facing pages or pages on successive leaves, with or without repetition, treat these pages collectively as the title page.

**Title proper.** The chief name of a resource (i.e., the title normally used when citing the resource).
**Transcribed element.** An RDA element that is entered in the description of a resource as it appears in the resource, and after applying general RDA guidelines on capitalization, punctuation, symbols, abbreviations, etc. *(Supplied by presenters)*

**Translation.** A serial that is translated into another language. It is usually published by a different publisher than the original and at a later time. *(CCM)*

**Updating loose-leaf.** An integrating resource that consists of one or more base volumes updated by separate pages that are inserted, removed, and/or substituted. *(CCM)*

**Variant access point.** An alternative to the authorized access point representing an entity.

**Variant title.** A title associated with a resource that differs from a title recorded as the title proper, a parallel title proper, other title information, parallel other title information, earlier title proper, later title proper, key title, or abbreviated title.

**Verso.** 1. The left-hand page of a book, usually bearing an even page number. 2. The side of a printed sheet intended to be read second. *(CCM)*

**Whole numbers.** Continuous numbers that do not repeat. In addition to numbered serials, the term "whole numbers" is also used for alternative numbering schemes. *(CCM)*

**Work.** A distinct intellectual or artistic creation (i.e., the intellectual or artistic content).

Introduction

The CONSER Standard Record (CSR) is a combination of RDA “Core,” RDA “Core if,” “PCC Core,” and “PCC Recommended”
elements applicable to textual serials in various formats. Specific instructions have been included where appropriate for describing rare
serials. Instructions in the RDA CSR should be read in conjunction with the LC-PCC Policy Statements (LC-PCC-PSs) that are
integrated into the RDA Toolkit. When describing online resources, catalogers should also consult the PCC RDA Provider-Neutral
guidelines. Modules of the CCM should be consulted for specialized formats such as Module 30 for direct access computer file serials,
Module 31 for online serials, Module 32 for microform serials, Module 33 for newspapers, Module 34 for legal serials and Module 35 for
integrating resources.

When describing monographic resources, catalogers should consult the BIBCO Standard Record.

The CSR follows RDA 0.6.1 in its approach to the concept of core: “As a minimum, a resource description for a work, expression,
manifestation, or item should include all the core elements that are applicable and readily ascertainable.” The “PCC Recommended”
elements are not core; their inclusion is encouraged but discretionary. Additional instructions are included that reflect CONSER
agreement on recording certain RDA core elements.

The CSR is a model for serial descriptive records using a single encoding level (Ldr/17=’blank’) in a shared database environment.
Catalogers satisfy CSR requirements when creating and/or modifying bibliographic records, and determine the level of fullness that best
suits the resources in their collections and the needs of their users. The CSR establishes a baseline set of elements that emphasize access
points over descriptive data. The standard seeks to ensure inclusion of the essential data elements necessary to meet user needs; it is a
solid "floor" description of a resource that can be built upon in a shared environment. The standard also does not preclude the use of any
data in a bibliographic description representing more extensive cataloging treatment.

Authority records must support controlled access points in an RDA CSR record (coded Ldr/17=’blank’). The mapping to MARC 21
fields included in the CSR is intended to be a general guide. For specific instructions on recording data in the MARC 21 format, please
refer to official MARC 21 documentation, OCLC Bibliographic Formats and Standards, and appropriate modules of the CCM. CSR
elements not directly related to RDA (e.g., access points for subjects), or data treated in MARC21 control/fixed fields, are included in a
separate table at the end of this document.
Explanation of symbols in this table:

- “Element” column: a “T” in parentheses identifies a transcribed element per RDA instruction or per CONSER agreement in that instruction.

- “RDA no.” column: an asterisk (*) indicates there is an LC-PCC PS for that instruction or an alternative, option, etc., related to that instruction.

- “FRBR” column:
  F = work
  E = expression
  M = manifestation
  I = item

Timeframe for RDA CSR Implementation

This RDA CSR can be used by the PCC community for CONSER-coded records, effective March 31, 2014. Modification of Resource Description & Access is an ongoing process as is the modification of RDA-related policies developed within the PCC. Therefore the guidelines and requirements within the CSR itself will evolve. Any comments or suggestions for improving the CSR should be submitted to conser@loc.gov

Instructions for rare materials:

The rare materials provisions in the CSR are closely aligned with the provisions of Descriptive Cataloging of Rare Materials Serials (DCRM(S)) and may be used with any serial resources deemed rare by the cataloging agency. This includes resources that may require additional details of description to permit the ready identification of copies (e.g., as editions, impressions, or issues) and provide more exact descriptions of them as artifacts. Typically, early resources (e.g., resources produced before the advent of mechanized printing and papermaking processes in the early 19th century) are most likely to require these additional details, but the CSR rare materials provisions may be used if necessary with resources from any period.

As is the case with the general provisions of the CSR, the rare materials provisions represent a floor on which other elements can be built. They are not intended to reproduce or replace DCRM(S), and elements in DCRM(S) not in the CSR can certainly be included in the record. The CSR rare materials provisions generally call for expanded treatment of elements within the CSR or deem certain RDA
elements to be core that are not considered core for other types of materials. There is one case that calls for different treatment rather than simply expansion of the description. That is: 1.7.1 alternative 1, which invokes the option of using DCRM(S) as the designated published style manual in place of RDA 1.7.2-.9 for transcribing. This was a case singled out by the rare community as areas where there were valid rare materials reasons for departing from the general guidelines.

It is intended that the rare materials provisions be usable with any format. However, one of the stipulations of applying the rare materials provisions is the recording of the appropriate “dcrm” code in 040 in addition to “rda” in order to label the record as following the CSR rare materials provisions.

## Required non-RDA and MARC Data

The following table outlines data required by the CSR, if applicable to the resource being described, that either does not map directly to RDA (e.g., classification and subject access), or are coded data that form part of the MARC 21 Bibliographic Format. Use as many 006 or 007 fields as are appropriate for the resource.

appropriate, assign a complement of access points that provide access to at least the primary/essential subject and/or form of the work at the appropriate level of specificity. Assign such access points from an established thesaurus, list, or subject heading system.

Rare materials: Adding genre/form terms from one of the Rare Books and Manuscripts Section (RBMS) Controlled Vocabularies is strongly recommended. Assign terms from other thesauri as appropriate.
Appendix F: Answers to Exercises/Quizzes

Module 2: Answers to Exercises

Give as many reasons as you can (there may be more than one per example) why the following titles should or should not be cataloged as serials.

Exercise 1: Journal of New Zealand & Pacific Studies

1. ISSN
2. Enumeration and chronology
3. Statement of frequency indicates continuing publication
4. The word “journal.”

Exercise 2: World Stock Exchange Fact Book

1. ISSN
2. There is a coverage date on the cover, 2012.
3. There is a stated frequency.

Exercise 3: SERVICE INDUSTRIES USA

1. It is known that this title is issued every two years.
2. ISSN
3. 3rd edition can serve as enumeration since we know it is issued frequently.

Exercise 4: Academic Freedom

The numbering changes from chronological to numeric, but there is clear numbering on each issue.

Exercise 5: Tokyo Stock Exchange

From the two pieces it is clear that the title is issued annually and that the dates are years of coverage.

Exercise 6: The Frank C. Brown Collection of North Carolina Folklore

This is a multi-part monograph complete in five volumes and not a serial.

Exercise 7: UNITED NATIONS LITERACY DECADE 2003-2013 Annual Report For 2010

This is a publication of limited duration that has a stated frequency and numbering and can be treated as a serial according to LC-PCC PS for 0.0 and RDA 1.1.3.
Exercise 8: PROCEEDINGS OF THE EIGHTH ANNUAL ACM-SIAM SYMPOSIUM ON DISCRETE ALGORITHMS

This can be cataloged as a serial since it is an ongoing symposium and has terms (23rd) that can serve as enumeration.

Exercise 9: BUILDING THE PUBLIC CITY

This is a monograph appearing in the numbered series: Urban Affairs Annual Review. It could be cataloged either as a serial under the series title or as a monograph with a series tracing.
Module 3: Answers to Quizzes

1. The basis for identification for a serial is the earliest-published issue, regardless of numbering.
   
   __ True
   
   x False

2. The CONSER RDA core element set is
   
   a) In line with RDA Core elements with some exceptions, and
   
   b) Equal to the PCC Core elements for continuing resources
   
   x True
   
   __ False

3. The RDA CONSER Standard Record (CSR) Metadata Application Profile (Check all that apply)
   
   x a) Is a "floor" description of a resource that can be built upon in a shared environment
   
   x b) Allows the use of any data in a bibliographic description representing more extensive cataloging treatment

   __ c) Requires Authority records in the Library of Congress/NACO and Subject Authority Files for all controlled access points

   >>Comment: Some CSR records, notably US ISSN records for pre-publication serials, may lack corresponding authority records. These records are authenticated as 042 ## $a msc

4. Which of the following statement(s) is/are true?
   
   a) Transcribed data follows RDA 1.7.1 and the ICP principle of representation
   
   b) PCC practice encourages the use of RDA Appendix A for capitalization
   
   c) For serials, RDA includes exceptions to exact transcription for variable data in the title
   
   x d) All of the above
5. For each category, mark whether the data is primarily: transcribed or recorded

<table>
<thead>
<tr>
<th>Category</th>
<th>Transcribed</th>

<td></td>
<td>x</td>
</tr>
<tr>
<td>Frequency</td>
<td></td>
<td>x</td>
</tr>
<tr>
<td>Notes about elements or about change over time</td>
<td></td>
<td>x</td>
</tr>
</tbody>
</table>
Module 4 Quizzes: Answers

Exercise 1: For each of the scenarios, which titles should be represented and how?

Scenario 1:

<table>
<thead>
<tr>
<th>The American Journal of BIOETHICS</th>
</tr>
</thead>
<tbody>
<tr>
<td>January 2010 Volume 10 No. 1</td>
</tr>
</tbody>
</table>

245 04 $a The American journal of bioethics.

Note: Looking for Lies may be the lead article, or it may be a thematic title specific to a single issue.

Scenario 2:

<table>
<thead>
<tr>
<th>cuadernos</th>
</tr>
</thead>
<tbody>
<tr>
<td>de MÚSICA Y ARTES VISUALES</td>
</tr>
<tr>
<td>journal of music and visual arts</td>
</tr>
<tr>
<td>Volume 7 Número 2</td>
</tr>
</tbody>
</table>

245 00 $a Cuadernos de música y artes visuales.

246 1# $a Journal of music and visual arts

Scenario 3:

<table>
<thead>
<tr>
<th>ANN MED</th>
</tr>
</thead>
<tbody>
<tr>
<td>Annals of Medicine informa</td>
</tr>
</tbody>
</table>

245 _ 0 $a Annals of medicine.

246 1# $a Ann med

Exercise 2: For each scenario, which of the choices would you use to describe the numbering?

On cover (preferred source of title): VOLUME I, NO. 1, JULY 2012

| 362 1# $a Began with volume I, number 1, July 2012. |
| 588 ## $a Description based on: Volume I, |
Exercise 3: How would you transcribe the publication statement for this journal?

First issue after a title change

[Title page]

The Huguenot Society Journal
Formerly Proceedings of the Huguenot Society of Great Britain and Ireland

Vol. XXX No 1 AUTUMN 2013

[Title page verso]

ISSN 2053-6267
264 #1  $a London : $b The Huguenot Society of Great Britain and Ireland, $c [2013]-
Module 4: Answers to Exercises

Use the workforms provided in Appendix D to record the cataloging data from the information provided in the following pages.

Use Appendix G for MARC tagging

1. Select the preferred source for the title.
2. Transcribe and tag the title proper.
3. Select and tag a creator, if any.
4. Make any variant title access points that are thought useful.
5. Give the publication, distribution, etc. statement(s)
6. Give numbering, if appropriate.
7. Give a frequency note, if known.
8. Add any other notes thought appropriate
9. Include notes on issue(s) used as the basis of identification and the source of title (description based on, latest issue consulted).
10. Give other access points thought appropriate

338 ## $a volume $b nc $2 rdacarrier
588 ## $a Description based on: 2007/2008; title from cover.

Notes

1. In this case, the question also arises of corporate body as author. Module 7 will cover the topic of relationships in greater detail.
2. The issue received has 2007-08. RDA 1.8.4 instructs catalogers to “include the first and last number in full”; so 2007-08 is represented as “2007/2008.”
3. Some may feel uncomfortable about Fixed Field Date1 and Date2 being “uuuu.” However, in this case, we cannot know whether the annual report began publication in the 20th century or in the 21st century. And the most recent issue is 2007/2008—older than the last three years.
Exercise 5

362 1# $a Began with 2007.
588 ## $a Description based on: 2013; title from title page
Module 5: Answers to Exercises

Determine whether or not the coding shown in the examples is correct. If it is not correct, what should be done to make it correct?

Exercise 1: Frontiers in Pediatrics
    The coding is correct.

Exercise 2: Journal of psychological health
    The coding is not correct. The media and carrier types do not match the fixed field coding or the extent in the 300 field. The following changes would correct the errors:
    337 ## $a unmediated $2 rdamedia
    338 ## $a volume $2 rdacarrier

Exercise 3: Twentyfirst
    The coding is not correct. The extent and illustration information is abbreviated, and the language information in the 546 and 041 fields do not match. The following changes would correct the errors:
    041 0# $a eng $a dan
    300 ## $a volumes : $b color illustrations ; $c 28 cm
Module 6: Answers to Exercises

Part 1: Determine the Authorized Access Point:

Exercise 1: Annual Report

110 2# $a Mohamed bin Zayed Species Conservation Fund.
245 10 $a Annual report.

Exercise 2: Journal of Contemporary History

245 00 $a Journal of contemporary history.

Part 2: Additions to Authorized Access Points:

Exercise 3: Cancer biology

No, an addition does not need to be made to the authorized access point of the resource in hand. The authorized access point for the resource already in the database contains a 1XX field, so the authorized access points are not the same.

Exercise 4: Tableau

Yes, an addition needs to be made to the authorized access point of the resource in hand. There is no entity in a 1XX field for either title, so the base of the authorized access point for both titles consists of just the preferred title. Therefore, the authorized access points are the same. Here are two possible solutions (including MARC coding):

130 0# $a Tableau (Chicago, Ill.)
245 10 $a Tableau.

130 0# $a Tableau (University of Chicago. Division of the Humanities)
245 10 $a Tableau.
Module 7: Answers to Exercises

Part 1: Relationship designators for entities related to the resource:

Exercise 1: Journal of the American Society of Mining and Reclamation

   Access point provided for: American Society of Mining and Reclamation
   Relationship designator: issuing body.

Exercise 2: Journal of Management Education

   Access point provided for: OBTS Teaching Society for Management Educators
   Relationship designator: issuing body.

   Access point provided for: Central Bank of Nigeria
   Add relationship designator: author

Exercise 4: Neural Computation

   No access point included for commercial publisher.

Part 2: Relationship designators for related resources:

Exercise 1: NZSA Bulletin of New Zealand Studies | Journal of New Zealand & Pacific Studies

   Sequential preceding/succeeding title relationship

   For resource 1:
   785 00 $t Journal of New Zealand & Pacific studies

   For resource 2:
   780 00 $t NZSA bulletin of New Zealand studies

Exercise 2 European Heart Journal | European Heart Journal Supplements

   Parent/supplement relationship

   For resource 1:
   770 0# $t European heart journal supplements

   For resource 2:
   772 0# $t European heart journal
## Module 8: Answers to Exercises

**Quiz 1:** Indicate whether the following situations constitute a major or minor change. For major changes, indicate the reason; for minor changes, the category under RDA 2.3.2.13.2 that applies.

<table>

Circle one. The copy fits: **Yes**  No

List your reasons:

1. It is a serial record.
2. It is successive entry following the RDA CONSER Standard Record MAP
3. The 245 title proper matches the piece
4. The ISSN matches
5. The dates fit.
6. The enumeration fits.
Exercise 2

Top of page [1]:

vol. 29 nos. 2-4 december 2007

newsletter of the

North Carolina Folklore Society

Hiddenite Center
Box 311
Hiddenite, NC 28636-0311
Circle one. The copy fits: Yes  No

List your reasons:
1. It is a serial record.
2. It is successive entry, cataloged according to pre-RDA code (AACR2).
3. The dates fit.
4. The enumeration fits.
5. The 245 title proper matches the piece.
6. There is no ISSN on this piece, but that lack should not affect the decision.

Note that this does NOT follow the CONSER Standard Record guidelines. But you can still use it.

Which record best fits the piece in hand?  Record 1  **Record 2**

Although the title matches both records, the first record is an earlier title that ceased in 1830 while the second record is an open entry.

1. It is a serial record.
2. It is successive entry, cataloged according to a pre-RDA code (AACR2)
3. The 245 title proper matches the piece in hand
4. The dates match.
5. The enumeration fits.
6. The ISSN matches.
Note: These records not cataloged according to CONSER Standard Record guidelines

Circle one. The copy fits: Yes  No

List your reasons
1. It is a serial record.
2. It is successive entry, cataloged according to a pre-RDA code (AACR2)
3. The 245 title proper matches the piece.
4. The ISSN matches.
5. **The enumeration and chronology do not fit the coverage of the record**
6. The issuing bodies do not match the record
Module 10: Answers to Exercises

Part A (5 exercises)

Compare the bibliographic information to data on the issues received. Modify copy following the CONSER Standard Record guidelines.

Part B (7 exercises)

Compare the bibliographic information about the issue in hand given in the following pages with the copy provided and indicate any editing necessary. The copy may not include all MARC tags.

Part C (2 exercises)

Edit the copy provided to indicate cessations based on the information provided.

Trainers please note: There are many exercises for module 10; trainers should be selective.
Part A.

Instructions: Below and on the left are segments from existing catalog records cataloged according to the CONSER Standard Record guidelines. On the right-hand side are the issues received by your library. How would you modify the existing catalog record following the CONSER Standard Record guidelines?

vol. 29 nos. 2-4 december 2007

newsletter of the
North Carolina Folklore Society

Hiddenite Center
Box 311
Hiddenite, NC 28636-0311
Indicate which field(s) would need editing and which fields you would add to the record above.

1. Even though the city of publication has changed, the state has not so this would not be noted nor would the fixed field Country of Publication code change.

2. The cataloger familiar with the RDA CONSER Standard Record guidelines will notice some differences: (a) Coding for the Fixed Field (Conf, Freq, Regl); (b) Use of 260 rather than 264; (c) presence/absence of 300 field; (d) formatted 362 field (362 0#). However, unless the information is out of date, no modification is required.
Exercise 2

Conscious Choice
The Journal of Ecology & Natural Living

Page [5] table of contents:

Conscious Choice © is published monthly by Conscious Enlightenment 920 N. Franklin, Suite 202, Chicago, IL 60610.

Page 6 editorial matter sidebar:

Conscious Choice was created in 1988 to encourage people to take personal responsibility in their lives.
Indicate which field(s) would need editing and which fields you would add to the record above.

1. The fixed field dates should be corrected to reflect that the publisher states the beginning date in the sidebar on page six.
2. The frequency note (310 field) should be updated to reflect the current frequency, with a $b to show the period related to that frequency (i.e., that the serial was monthly only from some date after 1988).
3. The cataloger should preserve the previous frequency in a 321 note (as shown).
4. An unformatted 362 field can be added to reflect the beginning date.
5. The word in the 500 quoted note no longer appears on the piece but could be left in the record.
6. A Latest issue consulted (LIC) note indicates the most recent issue seen by the cataloger. The LIC should be enhanced to: 588 ## $a Latest issue consulted: Vol. 20, No. 2 (February 2007).

650 #0 Sa African Americans $v Periodicals.
Indicate which field(s) would need editing and which fields you would add to the record above.

1. There is new information about a title that has been absorbed: Black World Magazine. A linking entry could be made to reflect this new data.

2. Note the confusing placement of the ISSN after the related title and not with the title to which it belongs.

3. Note also that this is an AACR1 record (Desc blank). Unlike AACR2 or RDA, AACR1 used latest-issue cataloging conventions. So, for example the 260 field reflects the latest issue consulted rather than the earliest issue. CONSER is in the process of working out a “hybrid record” technique for modifying these older records.

Indicate which field(s) would need editing and which fields you would add to the record above.

Editing according to earlier conventions: The piece in hand has a later form of the corporate body's name. This is an AACR1 record; description is based on the latest issue. The publisher changed and the earlier publisher is given in a 500 note. An authorized access point is made for the new name.

Editing following the Hybrid Record approach and RDA: Following AACR1 rules, the description was based on the Dec. 1961 issue; that is brought into a 588 DBO note. The latest issue in hand is given in a 588 LIC note. Then, following RDA CONSER Standard Record guidelines, modify the 260 field to show the date of the issue used to create the original publishing statement. (Minor changes were not always reflected in the record; but we know that as of the Dec. 1961 issue, the publisher appeared as shown.) Then add a field for the later publisher statement. Finally, an authorized access point for the new name is made. Some additional optional modifications are also shown (in italics)

Indicate which field(s) would need editing and which fields you would add to the record above.

1. The Encoding level can be changed to blank (if CONSER library) from "7" (Minimal level).
2. Note that that publishing statement has the abbreviated form “The Museum” which is now not used. This does not need to be changed, unless you wish to do so to provide better access through the 260 field.
3. The physical description could be completed, although this is not critical. (The extent, coded in the 300 field, subfield $a, is only core for RDA for ceased publications where the extent is known.)
4. Latest issue consulted should be added; and the 936 deleted.
5. Subject headings should be added to the record.
6. The earlier title link should be checked against your catalog to see if you hold the title and if so, whether the form of the linking entry matches.
7. This record was originally cataloged according to a pre-RDA (AACR2) code, but can be edited according to RDA/CONSER Standard Record guidelines (hybrid record approach).
Part C: Edit the copy provided to indicate cessations based on the information provided.

Exercise 1: The last issue that received of City Limits was: Volume 35 number 1, with the coverage date March/April 2011. In response to claims, the publisher sent a letter explaining that the last issue published was for volume 36, number 2—the May/June 2012 issue. How would you edit the record?

1. The Fixed Field Publication Status should change to “d” and Date2 should change to “2012”
2. Do not enter an ending date in the 260 publication statement because the library does not have the last issue in hand
3. Do not complete the extent (300 $a) because the library lacks the final issue.
4. Enter the last published issue in the 362 note “ceased with …”
5. Enter the last available issue in the Latest issue consulted (LIC) note.

This record was originally cataloged according to a pre-RDA (AACR2) code, but can be ceased according to RDA/CONSER Standard Record guidelines (hybrid record approach).
Exercise 2: The last issue of California Fruit & Nut Review was vol. 32, no. 6; after that, the title became Pacific Region Fruit & Nut Review. How would you cease the record for California Fruit & Nut Review? What additional field is needed to provide navigation to the new title?

PART C. MAJOR AND MINOR CHANGES (2.3.2.13.1+ 6.1.3.2+11.2.2.6) & RELATIONSHIPS (25+Appendix J)

CHAPTER 1: GENERAL GUIDELINES ...
Section 1.6: Changes requiring a new description

1.6.2 Serials

1.6.2.1 Change in Mode of Issuance of a Serial
Create a new description if a serial changes to a multipart monograph or an integrating resource (see 2.13 RDA).
Create a new description if a multipart monograph or integrating resource changes to a serial (see 2.13 RDA).

1.6.2.2 Change in Carrier Characteristics of a Serial
Create a new description if there is a change in the media type (see 3.2 RDA) of a serial.
if:
    - the carrier type (3.3 RDA) of a serial changes to online resource from another computer carrier
or
    - changes from online resource to another computer carrier
then:
    create a new description (see 3.1.6.1 RDA).

1.6.2.3 Major Change in the Title Proper of a Serial
Create a new description if there is a major change in the title proper of a serial (see 2.3.2.12.2 RDA).

1.6.2.4 Change in Responsibility for a Serial
Create a new description if there is a change in responsibility that requires a change in the identification of the serial as a work (see 6.1.3.2 RDA).

1.6.2.5 Change in Edition Statement
Create a new description when there is a change in an edition statement indicating a significant change to the scope or coverage of a serial.

CHAPTER 2: IDENTIFYING MANIFESTATIONS AND ITEMS

2.3.2.13.1 Major Changes
In general, consider the following to be major changes in a title proper:

a) the addition, deletion, change, or reordering of any of the first five words (the first six words if the title begins with an article) unless the change belongs to one or more of the categories listed as minor changes (see 2.3.2.13.2 RDA)

b) the addition, deletion, or change of any word after the first five words (the first six words if the title begins with an article) that changes the meaning of the title or indicates a different subject matter

c) a change of name for a corporate body included anywhere in the title if the changed name is for a different corporate body.
2.3.2.13.2 Minor Changes

In general, consider the following to be minor changes in a title proper:

a) a difference in the representation of a word or words anywhere in the title (e.g., one spelling vs. another; abbreviated word or sign or symbol vs. spelled-out form; arabic numeral vs. roman numeral; number or date vs. spelled-out form; hyphenated word vs. unhyphenated word; one-word compound vs. two-word compound, whether hyphenated or not; an acronym or initialism vs. full form; or a change in grammatical form (e.g., singular vs. plural))

b) the addition, deletion, or change of articles, prepositions, or conjunctions anywhere in the title

c) a difference involving the name of the same corporate body and elements of its hierarchy or their grammatical connection anywhere in the title (e.g., the addition, deletion, or rearrangement of the name of the same corporate body, the substitution of a variant form)

d) the addition, deletion, or change of punctuation, including initialisms and letters with separating punctuation vs. those without separating punctuation, anywhere in the title

e) a different order of titles when the title is given in more than one language on the source of information, provided that the title chosen as title proper still appears as a parallel title proper

f) the addition, deletion, or change of words anywhere in the title that link the title to the numbering

g) two or more titles proper used on different issues of a serial according to a regular pattern

h) the addition to, deletion from, or change in the order of words in a list anywhere in the title, provided that there is no significant change in the subject matter

i) the addition, deletion, or rearrangement anywhere in the title of words that indicate the type of resource, such as "magazine," "journal," or "newsletter" or their equivalent in other languages.

In case of doubt, consider the change to be a minor change.

LC PCC PS for 2.3.2.13.2

<table>
<thead>
<tr>
<th>LC-PCC PS for RDA 2.3.2.13.2</th>
<th>PS for minor change categories:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>MINOR CHANGES</strong></td>
<td><strong>Category a)</strong> RDA: Consider that &quot;one spelling vs. another&quot; applies both in the case of ordinary orthographic variations and in the case of official orthographic changes. Consider that a change in grammatical form includes singular vs. plural, adjective vs. noun, and gerundive vs. nominal case.</td>
</tr>
<tr>
<td></td>
<td><strong>Category c)</strong> RDA: If the change in the name of a body that is part of the title proper and the change requires the creation of a new heading for the body (see RDA 11.2.2.6 RDA), consider such a change to be a major change. Consider the presence or absence of the name or title of the official of the body to be a minor change. Consider the presence or absence of the body to whom a publication is presented to be a minor change.</td>
</tr>
<tr>
<td></td>
<td><strong>Category e)</strong> RDA: Also apply this category when the title is given in more than one script. Do not consider there to be a major change even if the addition of the title in another language or script on a later issue would affect the choice of title proper if the description were based on that issue. However, consider that there has been a major change if there is evidence that the publisher intentionally changed the title; such evidence may include, for example, a statement by the publisher or a new ISSN printed on the publication.</td>
</tr>
<tr>
<td></td>
<td><strong>Category g)</strong> RDA: Also apply this category when the language of the title varies according to the language of the text. However, consider that there has been a major change if there is evidence that the publisher intentionally changed the title; such evidence may include, for example, a statement by the publisher or a new ISSN printed on the publication.</td>
</tr>
<tr>
<td></td>
<td><strong>Category l)</strong> RDA: Consider that &quot;a list&quot; means at least three terms.</td>
</tr>
<tr>
<td></td>
<td><strong>Category l)</strong> RDA: The change from one word to another (e.g., the change from &quot;magazine&quot; to &quot;journal&quot;) is a major change. The word &quot;series&quot; does indicate a type of resource. A word denoting frequency (e.g., &quot;monthly&quot;) does not indicate a type of resource.</td>
</tr>
</tbody>
</table>

**Additional Minor Change Categories**

- **LC practice/PCC practice for Session laws of the U.S. states: Consider all changes in the title proper to be minor changes and do not create new descriptions.**
- **LC practice/PCC practice for 17th-19th century U.S. almanacs: Generally, consider all changes in the title proper to be minor changes and do not create new descriptions.**
CHAPTER 6: IDENTIFYING WORKS AND EXPRESSIONS

6.1.3.2 Works Issued as Serials

For works issued as serials:

if:

- there is a change in responsibility (see 6.1.3.2.1 RDA)

or

there is a major change in title proper (6.1.3.2.2 RDA).

then:

construct the authorized access point to represent a new work.

6.1.3.2.1 Change in Responsibility for the Work

If there is a change in responsibility, construct the authorized access point representing the work to reflect responsibility for the work as represented in the issue or part of the serial used as the basis for the new description (see 2.1 RDA).

Consider changes in responsibility affecting the construction of the authorized access point for the work to include the following:

a) a change affecting the authorized access point representing a person, family, or corporate body that is used in constructing the authorized access point representing the work (see 6.27.1.1 RDA - 6.27.1.8 RDA)

b) a change affecting the name of a person, family, or corporate body used as an addition to the authorized access point representing the work (see 6.27.1.9 RDA).

6.1.3.2.2 Major Change in the Title Proper

If there is a major change in the title proper (see 2.3.2.13.1 RDA), construct the authorized access point representing the work to reflect the title as represented in the issue or part of the serial used as the basis for the new description (see 2.1 RDA).

LC-PCC PS for 6.1.3.2

WORKS ISSUED AS SERIALS

Expressions When Preferred Title of Work Changes

LC practice/PCC practice: When there are different language expressions of a serial work and the preferred title of the work (as determined according to RDA 6.2.2 RDA) changes, create a new description for each different expression of that work even if the title proper of the manifestation of the specific language expression did not change.

EXAMPLE

246.10 Să Mechanics of solids.
780.00 Să Să izvesti, Mekhanika iverdogo tela. English, Mechanics of solids
130.00 Să Izvesti, Mekhanika iverdogo tela. Îi English.
246.10 Să Mechanics of solids.
780.00 Să închimemulì, Mekhanika iverdogo tela. English, Mechanics of solids

"Mechanics of solids" is the title proper of an English-language expression of a work in Russian. Although the English title proper did not change, a new description is necessary because the preferred title of the work in Russian changed.

Subseries and the Omission/Addition of Main Series

PCC practice: When either of the situations below occurs, create a new series authority record (SAR) and link the two authorized access points via MARC 5XX fields.

1. The title of a main series included in an existing authorized access point is no longer present on later issues or parts.

2. The title of a main series not included in an existing authorized access point appears on later issues or parts.

If the presence/absence of the title of the main series continues to be inconsistent, do not create additional SARs. Use the SAR for the later authorized access point and add information and variant access points as appropriate.
CHAPTER 11: IDENTIFYING CORPORATE BODIES

11.2.2.6 Change of Name

If the name of a corporate body has changed (including changes from one language to another), choose the earlier name as the preferred name for use with resources associated with the earlier name. Choose the later name as the preferred name for use with resources associated with the later name.

EXAMPLE

Pennsylvania State University
Earlier name: Pennsylvania State College

National Tuberculosis Association
Earlier name: National Association for the Study and Prevention of Tuberculosis

For instructions on recording relationships between the earlier and later names of the body, see chapter 32 RDA (related corporate bodies).

LC-PCC PS for 11.2.2.6

Minor Changes of Name

LC practice/PCC practice: In the absence of explicit evidence that a true name change has taken place, consider that different usages found in publications are variants of one another, rather than true name changes, whenever the difference is a minor one. A difference is minor if the existing authorized access point and the name in the resource being cataloged differ only in one or more of the following ways:

1. the representation of words (abbreviation, acronym, initialism, or symbol and the spelled out form; two different spellings of the same word; a word in the form of a single word and in the form of a compound);

2. a change in a preposition, article, or conjunction;

3. a change in punctuation.

However, if a variant name has already been treated as a name change, do not collapse multiple authorized access points into one authorized access point, unless there is additional, explicit evidence that only variant names are involved.
25.0 Purpose and Scope

This chapter provides general guidelines and instructions on recording relationships between works.

25.1 Related Work

25.1.1 Basic Instructions on Recording Relationships to Related Works

25.1.1.1 Scope

In the context of this chapter, a related work is a work, represented by an identifier, an authorized access point, or a description, that is related to the work being described (e.g., an adaptation, commentary, supplement, sequel, part of a larger work).

25.1.1.2 Sources of Information

Take information on related works from any source.

25.1.1.3 Recording Relationships to Related Works

Record a relationship to a related work by applying the general guidelines at 24.4 RDA.

- **Continues**: Jane's intelligence review pointer
  
  Resource described: Pointer. A monthly periodical succeeding Jane's intelligence review pointer

- **Continued in part**: Journal of youth services in libraries
  
  Resource described: Young adult literary services. A quarterly periodical that continues in part the Journal of youth services in libraries

- **Continued**: Top of the news
  
  Resource described: Children & libraries, split into Young adult library services

- **Separated from**: International authors' and writers' who's who
  
  Resource described: International who's who in poetry and poets' encyclopedia. Separated from International authors' and writers' who's who in 1993/1994

- **Absorbed**: Curriculum report (Reston, Va.)
  
  Resource described: The high school magazine. Absorbed the bimonthly Curriculum report
APPENDIX J: RELATIONSHIP DESIGNATORS: RELATIONSHIPS BETWEEN WORKS, EXPRESSIONS, MANIFESTATIONS, AND ITEMS

J.2.6 Sequential Work Relationships

**preceded by (work)** A work that precedes (e.g., is earlier in time or before in a narrative) the succeeding work. For sequentially numbered works with revised content, see [J.2.2 RDA](#) (derivative works). **Reciprocal relationship:** succeeded by (work)

**absorbed (work)** The work that has been incorporated into another work. **Reciprocal relationship:** absorbed by (work)

**absorbed in part (work)** The work that has been partially incorporated into another work. **Reciprocal relationship:** absorbed in part by (work)

**continues (work)** The work that is continued by the content of a later work under a new title. Apply generally to serials. **Reciprocal relationship:** continued by (work)

**continues in part (work)** A work that split into two or more separate works with new titles. Apply generally to serials. **Reciprocal relationship:** split into (work)

**merger of (work)** One of two or more works which came together to form a new work. **Reciprocal relationship:** merged with ⋮ to form ⋮ (work)

**separated from (work)** A work that spun off a part of its content to form a new work. **Reciprocal relationship:** continued in part by (work)

**succeeded by (work)** A work that succeeds (e.g., later in time or after in a narrative) the preceding work. For sequentially numbered works with revised content, see [J.2.2 RDA](#) (derivative works). **Reciprocal relationship:** preceded by (work)

**absorbed by (work)** A work that incorporates another work. **Reciprocal relationship:** absorbed (work)

**absorbed in part by (work)** A work that incorporates part of the content of another work. **Reciprocal relationship:** absorbed in part (work)

**continued by (work)** A work whose content continues an earlier work under a new title. Apply generally to serials. **Reciprocal relationship:** continues (work)

**continued in part by (work)** A work part of whose content separated from an earlier work to form a new work. Apply generally to serials. **Reciprocal relationship:** separated from (work)

**merged with ⋮ to form ⋮ (work)** One of two or more works that come together to form a new work. **Reciprocal relationship:** merger of (work)

**split into (work)** One of two or more works resulting from the division of an earlier work into separate works. **Reciprocal relationship:** continues in part (work)
Appendix H: Evaluation Form

Your reactions to this workshop will help us in planning future programs. Thank you for your assistance.

Name/institution: (Optional) _____________________________________________
Trainers: _____________________________________________________________
Sponsor: ______________________________________________________________
Place and date: _________________________________________________________

Please circle the words that most nearly reflect your response to the statement.

1. The presenters were well organized and informative.  strongly disagree    disagree    neutral    agree    strongly agree
2. The workshop content was relevant to my work.  strongly disagree    disagree    neutral    agree    strongly agree
3. I gained useful information in the sessions.  strongly disagree    disagree    neutral    agree    strongly agree
4. The exercises fit the material presented.  strongly disagree    disagree    neutral    agree    strongly agree
5. I had ample opportunity to raise questions during the sessions.  strongly disagree    disagree    neutral    agree    strongly agree
6. I had ample opportunity to raise questions during the exercises review.  strongly disagree    disagree    neutral    agree    strongly agree
7. The overall workshop met my personal expectations.  strongly disagree    disagree    neutral    agree    strongly agree

8. Please tell us what you found to be most helpful in the workshop.

9. Were any topics not covered that you expected to be presented?

(Over)
10. How could we improve the content or other aspects of this workshop?

11. What topics would you like to see covered in future workshops?
