

## Deleted Term Information M 625

**BACKGROUND:** When an authority record for a medium of performance is deleted under the guidelines given in M 622, a note explaining the reason for the deletion is provided for the benefit of those downloading the records from <http://classificationweb.net/LCMPT>. This explanation is given in a 682 field that appears on the tentative and approved lists and is distributed with the deleted record. This instruction sheet provides the standard wording that is used in 682 fields.

**1. Cancellation of LC medium of performance terms.** When submitting a proposal to delete an authority record for a medium of performance, add a 682 field with one of the notes from the list that follows. If none of these explanations is appropriate for the case in hand, compose an original note that provides a clear explanation of why the record is being deleted. The Data Integrity Section will edit the note as necessary to standardize the wording.
