[BL2 38]
Here are entered general works on religious groups opposed to modernity and secularism and seeking a revival of orthodox or conservative religious beliefs and practices by fostering growth of religious fervor in the populace and by curtailing or eradicating the influence of felt alien values. Works on the modern Protestant movement originating in early 20th century America opposed to religious liberalism, modernism, and evolutionism and stressing the “Fundamentalists’” biblical inerrancy—literal interpretation, the divinity of Christ, his Virgin Birth, the substitutional Atonement, and his physical Resurrection and Second Coming are entered under Fundamentalism. Works on Protestant churches of the fundamentalist type and on fundamentalist congregations for which a particular denomination cannot be identified are entered under Fundamentalist churches.
