

Free-Floating Subdivisions: Classes of Persons H 1100

TYPES OF HEADINGS COVERED: The subdivisions listed below may be used on a free-floating basis, as appropriate, under subject headings for classes of persons, including age and sex groups; social, economic, and political categories of persons; types of afflicted persons; members of particular religions; employees and occupational groups; etc. *Examples:* **Youth; Women; Fathers; Poor; Political prisoners; People with mental disabilities; Liver-Cancer-Patients; Catholics; Hare Krishnas; Fire fighters; Judges; Darts players; High technology industries-Employees.** The category includes headings for classes of persons that are formulated with subdivisions used under names of places or individual corporate bodies, for example, **Great Britain-Officials and employees; Stanford University-Faculty; United States. Navy-Officers.** Not included in this category are headings for social classes such as **Nobility; Middle class; Working class;** collective social groupings such as **Families; Clans; Tribes;** nor headings for ethnic groups and nationalities, such as **Hispanic Americans; Maori (New Zealand people); French.** For subdivisions used under ethnic groups and nationalities, see H 1103. However, headings for classes of persons qualified by ethnic or national adjectival qualifiers are included in this category, for example, **African American dentists; French students; Foreign workers, Turkish.** Subdivisions from this list may be used under headings for groups of literary authors where there is no conflict with a subdivision designated for use under literary authors. Subdivisions specifically for use under literary authors are given in a separate list. For the additional subdivisions used under groups of literary authors, see H 1155.2. Headings for members of religious and monastic orders are also governed by a separate list. For subdivisions used under names of individual religious and monastic orders, see H 1186.

CONFLICTS: Determine if the use of a free-floating subdivision from this list conflicts with a previously established subject heading. In the event of a conflict between an established subject heading and a subdivision on this list, use the established heading unless a decision has been made to update or change all headings of that type. For example, use the established subject heading **Child abuse** rather than formulate a heading of the type **Children-Abuse of.** However, previously established headings of the type **Teachers, Training of** were changed to the form **Teachers- Training of.**

*Note: Most form subdivisions coded \$v in this list may also be used as topical subdivisions coded \$x when assigned to works **about** the form (see H 1075, sec. 1.d.).*
