

Free-Floating Subdivisions: Names of Places H 1140

BACKGROUND: Until 1985, the *Subject Cataloging Manual and Library of Congress Subject Headings* provided two separate lists of subdivisions used under places, one for cities (H 1135) and one for regions, countries, etc. (H 1145). When the “city flip” was discontinued (cf. H 832), it was possible to resolve the few remaining discrepancies between the two lists and to consolidate them into a single list of subdivisions used, as applicable, under regions, countries, cities, etc. This instruction sheet superseded and replaced H 1135 and H 1145.

TYPES OF HEADINGS COVERED: The subdivisions listed below may be used, within the limitations of the usage notes, as free-floating subdivisions under headings for geographic place names including continents; regions; islands; countries; states, provinces, and equivalent jurisdictions; counties and other local jurisdictions larger than cities; and headings for metropolitan areas, suburban areas, and regions based on names of cities. They may also be used, except as noted, under names of cities established as valid RDA name headings, under names of extinct cities established as subject headings (in accordance with the provisions of H 715), and under names of city sections, districts, or quarters (in accordance with the provisions of H 720). Appropriate subdivisions may also be used under headings for geographic features and designated areas, including parks, reserves, gardens, streets and roads, refugee camps, etc., or regions based on geographic features following the guidelines for the assignment of such headings given in H 760. Appropriate subdivisions may also be used under names of bodies of water. For additional subdivisions used only under names of bodies of water, streams, etc., see H 1145.5. This list also covers the jurisdictional name headings established to represent the governments of tribes recognized by the United States government, for example, **Spokane Tribe of the Spokane Reservation, Washington**. This list does not cover names of celestial bodies and other astronomical features. This list also does not cover international organizations and corporate bodies that are not jurisdictions, for example, **Commonwealth of Independent States**, nor the corporate name headings that represent government agencies that control parks, etc., for example, **Yosemite National Park (Agency : U.S.)**.

CHRONOLOGICAL SUBDIVISIONS: In 1997 restrictions were lifted on use of subdivisions of the type –16th, [17th, 18th, 19th, 20th, 21st] century under –Civilization and –Intellectual life, thereby allowing their use under geographic headings at any level. At the same time, subdivisions of the type –16th [17th, 18th, 19th, 20th, 21st] century were added under the subdivisions –Economic conditions; –History; –History, Military; –History, Naval; –Politics and government; –Social conditions; and –Social life and customs. These subdivisions were added to facilitate subject access by time period, primarily by authorizing their free-floating use under places smaller than countries, where chronological subdivisions were previously not established or used. These free-floating century subdivisions should be used with caution under names of countries and other geographic entities where chronological subdivisions for specific time periods have been established. Assign these century subdivisions only where there is no conflict with chronological subdivisions established in the subject authority file.

Note: Most form subdivisions coded \$v in this list may also be used as topical
