PATTERNS: Construction industry; Retail trade

TYPES OF HEADINGS COVERED BY THE PATTERN: Heads for types of industries, including service industries as well as those based on commodities, manufactured goods, or natural resources. Examples: Animal industry; Cobalt industry; Electronic industries; Food industry and trade; Gardening equipment industry; High technology industries; Laundry industry; Lumber trade; Macadamia nut industry; Wedding supplies and services industry. Also included are headings which represent industries but do not explicitly include the term industry, for example, Aeronautics, Commercial and Tourism. The category does not include names of individual businesses or corporations, nor the general heading Industries. For subdivisions used under the names of individual businesses or corporations, see H 1105. Establish new subdivisions under Construction industry, if possible. If that is not possible, establish them under Retail trade.

CONFLICTS: Any subdivision listed here can be used as a free-floating subdivision under any heading belonging to the category if it is appropriate and no conflict exists in the subject authority file. Subject authority records may exist for headings employing variant phrases or subdivisions equivalent to subdivisions on this list.

LC practice: If an exceptional variant form is to be retained, make a UF reference from the equivalent free-floating subdivision form following the procedures in H 195 if the reference does not yet exist. Otherwise, submit a proposal to change the variant form along with all bibliographic records requiring correction following the procedures in H 193.

Note: Most form subdivisions coded $v in this list may also be used as topical subdivisions coded $x when assigned to works about the form (see H 1075, sec. 1.d.).

NOTES

1See H 1154.5 for further subdivisions used under legal topics.

2See H 1100 for further subdivisions used under classes of persons.

3Not valid under Construction industry.

4Not established under Construction industry or Retail trade. Use under other industries as appropriate for estimates of the cost of construction, installation, etc., or the carrying out of a task to completion, for example, Aerospace industries–Estimates.

5Not valid under Retail trade.

6Not valid under headings for military-related industries (e.g., Defense industries; Military fiber optics industry)

7Not valid under Retail trade. Use the subdivision –Prices under headings for products, merchandise, etc. Use under the heading for an industry only when one general heading for the products of that industry is lacking.

8Use under an industry only in those cases where discussion of specifications is not limited to a single product of the industry. Use under headings for products, merchandise, etc., for specifications of single products, etc.
