

Pattern Headings: Industries H 1153

PATTERNS: Construction industry; Retail trade

TYPES OF HEADINGS COVERED BY THE PATTERN: Headings for types of industries, including service industries as well as those based on commodities, manufactured goods, or natural resources. *Examples:* **Animal industry; Cobalt industry; Electronic industries; Food industry and trade; Gardening equipment industry; High technology industries; Laundry industry; Lumber trade; Macadamia nut industry; Wedding supplies and services industry.** Also included are headings which represent industries but do not explicitly include the term **industry**, for example, **Aeronautics, Commercial** and **Tourism**. The category does not include names of individual businesses or corporations, nor the general heading **Industries**. For subdivisions used under the names of individual businesses or corporations, see H 1105. Establish new subdivisions under **Construction industry**, if possible. If that is not possible, establish them under **Retail trade**.

CONFLICTS: Any subdivision listed here can be used as a free-floating subdivision under any heading belonging to the category if it is appropriate and no conflict exists in the subject authority file. Subject authority records may exist for headings employing variant phrases or subdivisions equivalent to subdivisions on this list.

LC practice:

If an exceptional variant form is to be retained, make a UF reference from the equivalent free-floating subdivision form following the procedures in H 195 if the reference does not yet exist. Otherwise, submit a proposal to change the variant form along with all bibliographic records requiring correction following the procedures in H 193.

*Note: Most form subdivisions coded \$v in this list may also be used as topical subdivisions coded \$x when assigned to works **about** the form (see H 1075, sec. 1.d.).*
