**PATTERNS**: English language; French language; Romance languages

**TYPES OF HEADINGS COVERED BY THE PATTERN**: Headings for individual languages and groups of languages, including named dialects and artificial languages. Also included are headings formed using the free-floating subdivision –Languages under ethnic groups and names of countries, cities, etc. Examples: Danish language; Indo-European languages; Navajo language; Abung dialect; Esperanto; Indians of North America–Languages; Gabon–Languages; New York (N.Y.)–Languages. The category does not include the heading Language and languages.

**CONFLICTS**: Any subdivision listed here can be used as a free-floating subdivision under any heading belonging to the category if it is appropriate and no conflict exists in the subject authority file. Subject authority records may exist for headings employing variant phrases or subdivisions equivalent to subdivisions on this list.

**LC practice**: If an exceptional variant form is to be retained, make a UF reference from the equivalent free-floating subdivision form following the procedures in H 195 if the reference does not yet exist. Otherwise, submit a proposal to change the variant form along with all bibliographic records requiring correction following the procedures in H 193.

**NEW SUBDIVISIONS**: Establish new subdivisions under English language, if possible, or if it is not possible, under French language for individual languages or Romance languages for groups of languages. Subdivisions listed below which are not valid under English language are indicated by a footnote.

**PERIOD SUBDIVISIONS**:

1. **General rule.** If the period subdivisions listed below and established under English language are not appropriate for another language, establish the appropriate subdivision under the specific language, for example, Russian language–To 1300.

2. **Further subdivisions.** Topical and form subdivisions valid for English language in general may also be used under any specific period subdivision, for example, English language–Middle English, 1100-1500–Etymology–Names.
PERIOD SUBDIVISIONS: (Continued)

3. Period subdivisions established under English language.

$s_y$ Old English, ca. 450-1100
$s_y$ Middle English, 1100-1500
$s_y$ Early modern, 1500-1700
$s_y$ 18th century
$s_y$ 19th century
$s_y$ 20th century
$s_y$ 21st century

TOPICAL AND FORM SUBDIVISIONS:

Note: Most form subdivisions coded $s_v$ in this list may also be used as topical subdivisions coded $s_x$ when assigned to works about the form (see H 1075, sec. 1.d.).

NOTES

1 Use only under languages other than English.

2 Not a free-floating subdivision. Establish headings for [...] language–Business [...] ; [...] language–Medical [...] ; [...] language–Technical [...] ; and [...] language–Written [...] as needed.

3 Use only under groups of languages.

4 See H 1154.5 for further subdivisions used under legal topics.

5 The subdivisions –Dictionaries, –Dictionaries, Juvenile, and –Glossaries, vocabularies, etc. may also be used under any valid topical subdivision, as appropriate (except –Reverse indexes and –Terms and phrases), for lists of words pertaining to that topic, for example, English language–Usage–Dictionaries; English language–Orthography and spelling–Glossaries, vocabularies, etc.; English language–Synonyms and antonyms–Dictionaries, Juvenile. Only a few examples are printed in this list for reference.

6 Do not further subdivide by period subdivisions.

7 Use only under ancient languages instead of –Rhythm and –Versification, for example, Greek language–Metrics and rhythmics.

8 Under ancient languages use –Metrics and rhythmics instead, for example, Greek language–Metrics and rhythmics.

9 Do not use under [place]–Languages. Use Sociolinguistics–[place] instead.

10 Use only under artificial languages, for example, Esperanto–Textbooks for Spanish speakers.

11 Use according to instructions in H 2190 only under lesser-known languages, for example, Hittite language–Texts; under [ethnic group]–Languages, [groups of Indians]–Languages and [place]–Languages; or under early periods of languages (ca. pre-1500), for example, English language–Middle English–1100-1500–Texts.

12 Use only under Semitic languages instead of –Vowels, for example, Hebrew language–Vocalization.

13 Under Semitic languages use –Vocalization instead, for example, Hebrew language–Vocalization.

14 May be subdivided topically by a religion or Christian denomination, e.g., English language–Religious aspects–Islam; Abidji language–Religious aspects–Catholic Church. Editorially establish each heading of this type. For instructions on the use of the subdivision, see H 1998.
