PATTERN: Bible

TYPES OF HEADINGS COVERED BY THE PATTERN: Headings for the uniform titles of individual sacred works or scriptures from all religions, including their individual parts. Also included are uniform titles for apocryphal works. Examples: Book of Mormon; Qur’an; Talmud; Tripitaka; Vedas; Bible. Wisdom of Solomon; Bible. Gospels; Sermon on the mount; Beatitudes; Epistle of Barnabas. The category does not include headings for individual non-sacred liturgical or theological works, nor form headings for collections of sacred or religious works. For subdivisions used under the uniform titles of secular classics, see H 1155.8.

CONFLICTS: Any subdivision listed here can be used as a free-floating subdivision under any heading belonging to the category if it is appropriate and no conflict exists in the subject authority file. Subject authority records may exist for headings employing variant phrases or subdivisions equivalent to subdivisions on this list.

LC practice: If an exceptional variant form is to be retained, make a UF reference from the equivalent free-floating subdivision form following the procedures in H 195 if the reference does not yet exist. Otherwise, submit a proposal to change the variant form along with all bibliographic records requiring correction following the procedures in H 193.

Note: Most form subdivisions coded $v in this list may also be used as topical subdivisions coded $x when assigned to works about the form (see H 1075, sec. 1.d.).
