

Revision to LC-PCC PS 6.2.2.10.3 Alternative resulting from LC/PCC policy to eliminate the use of conventional collective titles (CCT) for incomplete collections of an agent's works when the works were created after 1500.

**LC-PCC PS for 6.2.2.10.3**

**ALTERNATIVE**

LC practice for Alternative:

For compilations containing works created after 1500: Instead of recording the preferred title for each of the works in the compilation, record the title proper of the compilation as its preferred title. Optionally, give authorized access points for any or all of the individual works or expressions in the compilation in 7XX added entry fields. (See LC-PCC PS 25.1 and LC-PCC PS 26.1).

For compilations containing works created before 1501: Instead of recording the preferred title for each of the works in the compilation, record a conventional collective title followed by "Selections." Optionally, give authorized access points for any or all of the individual works or expressions in the compilation in 7XX added entry fields. (See LC-PCC PS 25.1 and LC-PCC PS 26.1).

PCC practice for Alternative:

For compilations containing works created after 1500: If applying the alternative, record the title proper of the compilation as its preferred title. Optionally, give authorized access points for any or all of the individual works or expressions in the compilation in 7XX added entry fields.

For compilations containing works created before 1501: If applying the alternative, follow its instructions as written. Optionally, give authorized access points for any or all of the individual works or expressions in the compilation in 7XX added entry fields.
