Directorate, to make recommendations on rebuilding the National
Library of Iraq. There will be no commentary; just the 28-minute
video.

Sunday, June 27, 2:00 pm
Tuesday, June 29, 2:00 pm

LC BICENTENNIAL CONFERENCE ACTION PLAN FORUM

The Library of Congress Cataloging Directorate is pleased to
announce that the next in its series of Action Plan Forums will be
held on Sunday, June 27, 10 a.m. - 12:00 noon, in the Sheraton
World Resort Orlando, Okeechobee Room 2. This is an open forum;
all ALA travelers are welcome to attend.

Director for Cataloging Beacher Wiggins will begin the meeting
by briefly highlighting recent accomplishments and activities
regarding the initiatives included in Bibliographic Control of Web
Resources: A Library of Congress Action Plan (available at:
<<http://lcweb.loc.gov/catdir/bibcontrol/actionplan.html>> [June
2004]). Two major presentations will follow his introductory
remarks.

Lynn Silipigni Connaway, Consulting Research Scientist, Office
of Research, OCLC Online Computer Library Center, Inc., will
discuss a large collaborative research project, "Sense-making the
Information Confluence: The Whys and Hows of College and University

Users Satisficing of Information Needs," funded by the Institute for Museum and Library Services (IMLS), as well as OCLC and The Ohio State University (OSU). The investigators are Dr. Brenda Dervin (OSU), Dr. Connaway, and Dr. Chandra Prabha (OCLC). The research project includes the study of users and also examines the differences between how practitioners and researchers look at users, how these differences impede understandings and practices, and what can be done about them. The project proposal is available at <<http://imlsosuoclcproject.jcomm.ohio-state.edu/>> [June 2004].

Dave Reser, senior cataloging policy specialist, LC, will present the Library of Congress plan to provide bibliographic access for a wide range of digital content--monographs and integrating resources, both digitized and born-digital. His "Recommendations for Modes of Cataloging for Electronic Resources" calls for the LC Cataloging Directorate to apply 3 modes of control for digital content: AACR2/MARC 21; MODS; and Web guides. To make MARC 21 affordable in the digital world, Reser and his colleagues call for defining a new "access level record," using Encoding Level 3 of the MARC 21 Bibliographic Format to denote it. The report sets bibliographic access in the context of the entire digital object life cycle.

Reser's full report is available at <<http://www.loc.gov/catdir/stratplan/goal4wg2report.pdf>> [June 2004]. Topics covered in the report are grouped as follows: criteria for determining the appropriate mode of control for "born digital" resources, recommended modes of bibliographic control, record maintenance models for the recommended modes, and issues related to digital counterparts that need to be brought under bibliographic control by the directorate (e.g., items from LC's collection that have been digitized).

LC CATALOGING NEWSLINE (ISSN 1066-8829) is published irregularly by the Cataloging Directorate, Library Services, Library of Congress, and contains news of cataloging activities throughout the Library of Congress. Editorial Office: Cataloging Policy and Support Office, Library of Congress, Washington, D.C. 20540-4305. Editor, Robert M. Hiatt; Editorial Advisory Group: Julianne Beall, John Byrum, Roselyne Chang, Jurij Dobczansky, Les Hawkins, Albert Kohlmeier, Susan Morris, Geraldine Ostrove, William Starck, Valerie Weinberg, David Williamson, and Roman Worobec. Address editorial inquiries to the editor at the above address or <rhia@loc.gov> (email), (202) 707-5831 (voice), or (202) 707-6629 (fax). Listowner: David Williamson.
