Descriptive Cataloging Using RDA
Exercise 3 -- Describing Content (LC Core)

Look at the t.p. surrogate and information for Resources A and B. Indicate the choice that most closely satisfies the minimum requirement for LC original cataloging, reflecting core and LC-PCC PS requirements, by noting “LC” on the blank line. Be ready to discuss the other options.

Note: Because this exercise covers content, you are not asked about recording extent or dimensions; those manifestation elements were covered in Exercise 2 – Describing Carriers.
