Join the FEDLINK Research and Metrics Working Group to discuss best practices for presenting library and information service statistics to senior management.

This 90-minute webinar will feature representatives from Army Research Laboratory (ARL) and National Oceanic and Atmospheric Administration (NOAA) moderated by Richard Huffine (Consumer Financial Protection Bureau), chair of the FEDLINK Research and Metrics Working Group.

Discover how federal libraries

- ~ Select which metrics to collect and disseminate
- ~ Use those metrics in annual reporting
- ~ Explore different models for presenting usage data and
- ~ Approach metrics for a solo practitioners.

For more information, please send an email to FLICCFNO@loc.gov.
