spans of this width between it and the shore; and said span shall not
be less than ten feet above extreme high-water mark, measuring to the
bottom chord of the bridge; that said draw shall be opened promptly,

bridge; and the United States shall have the right of way for postal-
 telegraph purposes across such bridge; and in case of any litigation
arising from any obstruction or alleged obstruction to the navigation of
said river, created by the construction of said bridge under this act, the

United States of any State in which any portion of said obstruction or
bridge touches.

SEC. 6. That all railway companies desiring to use the said bridge shall

Sec. 7. That the right to alter or amend this act, so as to prevent or
remove all material obstructions to the navigation of said river by the
construction of the said bridge, is hereby expressly reserved, without any
liability of the government for damages on account of the alteration or
amendment of this act, or on account of the prevention or requiring the
removal of any such obstructions; and if any change be made in the plan
of construction of any bridge constructed under this act, during the pro-

change shall be subject to the approval of the Secretary of War; and
any change in the construction, or any alteration of said bridge that may
