

That such commission shall be composed of one officer of the Corps of Engineers of the United States Army, one officer of the Quartermaster's Department of the United States Army, both of whom shall be designated by the Secretary of War, and one official of the Treasury Department, who shall be an expert in electrical engineering, who shall be designated by the Secretary of the Treasury.

SEC. 2. That this commission shall examine and report upon the following propositions:

First. Whether there will be any surplus water flowing over said dams not needed for the purposes of navigation which might be available for mechanical or commercial power.

Second. Whether such power, or any part thereof, could be economically utilized for furnishing the light and power now needed or which hereafter may be needed in the buildings and property of the United States at Saint Paul, Minneapolis, and Fort Snelling, Minnesota, and, if so, to what extent, and what proportion or amount of the available power could be so utilized by the United States or disposed of in any manner to the advantage of the United States.

Third. If it shall appear to said commission feasible and economical for the United States to use or dispose of such power or any part thereof, then said commission shall report a plan or plans, with terms and conditions for such use or disposition, and an estimate of the cost thereof to the United States.

SEC. 3. That the said commission shall meet at such time and place as may be directed by the Secretary of War, and shall transmit said report within two years after the passage of this Act.
