JOINT RESOLUTION

Declaring the policy of the Congress with respect to the independence of the Philippine Islands, and for other purposes.

June 29, 1944
[S. J. Res. 93]
[Public Law 380]

Whereas, on December 7, 1941, while the people of the Philippine Islands were peacefully engaged in achieving for themselves their complete political independence in the manner mutually agreed upon by the Government of the United States and the people of the Philippine Islands, which independence was to become fully effective July 4, 1946, the Japanese in a wholly unprovoked, wantonly treacherous, and surprise attack on the people of the Philippines and of the United States, did by military invasion interrupt these orderly and mutually agreeable processes for complete independence of the Philippines; and

Philippine Islands.

Whereas the American and Filipino troops made a valiant and courageous defense to the aggression of the Japanese invader and were overwhelmed only by the surprise and superior numbers and equipment of the enemy; and

Whereas the Japanese are now in possession and control of the land, peoples, business, communication, and institutions of the Commonwealth of the Philippines, and because of these circumstances the Filipino people are denied the free use and employment of the processes and political institutions jointly established by the Government of the United States and the Commonwealth of the Philippines for the transaction of private and public business and for the maintenance of liberty, law and order, and justice in the Philippine Islands; and

Whereas by this possession and invasion the Japanese have attempted to frustrate the free processes to independence in the Philippines by substituting therefor their own puppet government which was conceived in intrigue, born in coercion, and reared primarily for the purpose of Japanese selfishness and aggrandizement and not to achieve the independence and freedom of the Filipino people; and

Whereas the Government of the United States has solemnly guaranteed to the people of the Philippine Islands the right to be completely free and independent and to select by a free ballot, without any kind of inducement or coercion whatsoever, those who shall hold the elective offices in such government and exercise the power and authority thereof, which solemn guaranties have been temporarily made impossible of fulfillment due to the wantonly treacherous and surprise attack on the free people of the Philippine Islands; and

Whereas, because of the valiant resistance by the Philippine people, which is even now continuing while the invader occupies parts of the Philippines, and because of the long and unbroken record of loyalty of the Filipino people, both to the cause of complete independence for themselves and to the sovereignty of the United States

while they have been under our flag, and because they have abundantly demonstrated their will to independence through the processes mutually agreed upon by the people of the Philippines and the Government of the United States, and their will to resist all outside invasion and encroachment, which seek to destroy or set aside their march to independence, and because they have abundantly proved their capacity to govern themselves in an enlightened, progressive, and democratic manner: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That it is hereby declared to be the policy of the Congress that the United States shall drive the treacherous, invading Japanese from the Philippine Islands, restore as quickly as possible the orderly and free democratic processes of government to the Filipino people, and thereupon establish the complete independence of the Philippine Islands as a separate and self-governing nation.

After negotiation with the President of the Commonwealth of the Philippines, or the President of the Filipino Republic, the President of the United States is hereby authorized by such means as he finds appropriate to withhold or to acquire and to retain such bases, necessary appurtenances to such bases, and the rights incident thereto, in addition to any provided for by the Act of March 24, 1934, as he may deem necessary for the mutual protection of the Philippine Islands and of the United States.

Date of independence.

SEC. 3. In order speedily to effectuate the policy declared in section 1, the President of the United States is hereby authorized, after proclaiming that constitutional processes and normal functions of government have been restored in the Philippine Islands and after consultation with the President of the Commonwealth of the Philippines, to advance the date of the independence of the Philippine Islands by proclaiming their independence as a separate and self-governing nation prior to July 4, 1946.

Resources pledged.

SEC. 4. Meanwhile the resources of the United States, both of men and materials, are pledged for continued use to redeem the Philippines from the invader and to speed the day of ultimate and complete independence for the people of the Philippine Islands.

"PRICES, RENTS, AND MARKET AND RENTING PRACTICES

"Sec. 2. (a) Whenever in the judgment of the Price Administrator (provided for in section 201) the price or prices of a commodity or commodities have risen or threaten to rise to an extent or in a manner inconsistent with the purposes of this Act, he may by regulation or order establish such maximum price or maximum prices as in his judgment will be generally fair and equitable and will effectuate the purposes of this Act. So far as practicable, in establishing any maximum price, the Administrator shall ascertain and give due consideration to the prices prevailing between October 1 and October 15, 1941 (or if, in the case of any commodity, there are no prevailing prices between such dates, or the prevailing prices between such dates are not generally representative because of abnormal or seasonal market conditions or other cause, then to the prices prevailing during the nearest two-week period in which, in the judgment of the Administrator, the prices for such commodity are generally representative), for the commodity or commodities included under such regulation or order, and shall make adjustments for such relevant factors as he may determine and deem to be of general applicability, including the following: Speculative fluctuations, general increases or decreases in costs of production, distribution, and transportation, and general increases or decreases in profits earned by sellers of the commodity or commodities, during and subsequent to the year ended October 1, 1941: *Provided,* That no such regulation or order shall contain any provision requiring the determination of costs otherwise than in accordance with established accounting methods. Every regulation or order issued under the foregoing provisions of this subsection shall be accompanied by a statement of the considerations involved in the issuance of such regulation or order. As used in the foregoing provisions of this subsection, the term 'regulation or order' means a regulation or order of general applicability and effect. Before issuing any regulation or order under the foregoing provisions of this subsection, the Administrator shall, so far as practicable, advise and consult with representative members of the industry which will be affected by such regulation or order, and shall give consideration to their recommendations. In the case of any commodity for which a maximum price has been established, the Administrator shall, at the

request of any substantial portion of the industry subject to such maximum price, regulation, or order of the Administrator, appoint an industry advisory committee, or committees, either national or regional or both, consisting of such number of representatives of the industry as may be necessary in order to constitute a committee truly representative of the industry, or of the industry in such region, as the case may be. The committee shall select a chairman from among its members, and shall meet at the call of the chairman. The Administrator shall from time to time, at the request of the committee, advise and consult with the committee with respect to the regulation or order, and with respect to the form thereof, and classifications, differentiations, and adjustments therein. The committee may make such recommendations to the Administrator as it deems advisable, and such recommendations shall be considered by the Administrator. Whenever in the judgment of the Administrator such action is necessary or proper in order to effectuate the purposes of this Act, he may, without regard to the foregoing provisions of this subsection, issue temporary regulations or orders establishing as a maximum price or maximum prices the price or prices prevailing with respect to any commodity or commodities within five days prior to the date of issuance of such temporary regulations or orders; but any such temporary regulation or order shall be effective for not more than sixty days, and may be replaced by a regulation or order issued under the foregoing provisions of this subsection.

Temporary regulations.

“(b) Whenever in the judgment of the Administrator such action is necessary or proper in order to effectuate the purposes of this Act, he shall issue a declaration setting forth the necessity for, and recommendations with reference to, the stabilization or reduction of rents for any defense-area housing accommodations within a particular defense-rental area. If within sixty days after the issuance of any such recommendations rents for any such accommodations within such defense-rental area have not in the judgment of the Administrator been stabilized or reduced by State or local regulation, or otherwise, in accordance with the recommendations, the Administrator may by regulation or order establish such maximum rent or maximum rents for such accommodations as in his judgment will be generally fair and equitable and will effectuate the purposes of this Act. So far as practicable, in establishing any maximum rent for any defense-area housing accommodations, the Administrator shall ascertain and give due consideration to the rents prevailing for such accommodations, or comparable accommodations, on or about April 1, 1941 (or if, prior or subsequent to April 1, 1941, defense activities shall have resulted or threatened to result in increases in rents for housing accommodations in such area inconsistent with the purposes of this Act, then on or about a date (not earlier than April 1, 1940), which in the judgment of the Administrator, does not reflect such increases), and he shall make adjustments for such relevant factors as he may determine and deem to be of general applicability in respect of such accommodations, including increases or decreases in property taxes and other costs within such defense-rental area. In designating defense-rental areas, in prescribing regulations and orders establishing maximum rents for such accommodations, and in selecting persons to administer such regulations and orders, the Administrator shall, to such extent as he determines to be practicable, consider any recommendations which may be made by State and local officials concerned with housing or rental conditions in any defense-rental area. Whenever the Administrator shall find that, in any defense-rental area or any portion thereof specified by him, the availability of adequate rental housing accommodations and other relevant

factors are such as to make rent control unnecessary for the purpose of eliminating speculative, unwarranted, and abnormal increases in rents and of preventing profiteering, and speculative and other disruptive practices resulting from abnormal market conditions caused by congestion, the controls imposed upon rents by authority of this Act in such defense-rental area or portion thereof shall be forthwith abolished; but whenever in the judgment of the Administrator it is necessary or proper, in order to effectuate the purpose of this Act, to reestablish the regulation of rents in any such defense-rental area or portion thereof, he may forthwith by regulation or order reestablish maximum rents for housing accommodations therein in accordance with the standards set forth in this Act.

Reestablishment.

Form of regulations or orders.

“(c) Any regulation or order under this section may be established in such form and manner, may contain such classifications and differentiations, and may provide for such adjustments and reasonable exceptions, as in the judgment of the Administrator are necessary or proper in order to effectuate the purposes of this Act. Under regulations to be prescribed by the Administrator, he shall provide for the making of individual adjustments in those classes of cases where the rent on the maximum rent date for any housing accommodations is, due to peculiar circumstances, substantially higher or lower than the rents generally prevailing in the defense-rental area for comparable housing accommodations, and in those classes of cases where substantial hardship has resulted since the maximum rent date from a substantial and unavoidable increase in property taxes or operating costs. Any regulation or order under this section which establishes a maximum price or maximum rent may provide for a maximum price or maximum rent below the price or prices prevailing for the commodity or commodities, or below the rent or rents prevailing for the defense-area housing accommodations, at the time of the issuance of such regulation or order.

Market and renting practices.

“(d) Whenever in the judgment of the Administrator such action is necessary or proper in order to effectuate the purposes of this Act, he may, by regulation or order, regulate or prohibit speculative or manipulative practices (including practices relating to changes in form or quality) or hoarding, in connection with any commodity, and speculative or manipulative practices or renting or leasing practices (including practices relating to recovery of the possession) in connection with any defense-area housing accommodations, which in his judgment are equivalent to or are likely to result in price or rent increases, as the case may be, inconsistent with the purposes of this Act.

Maximum necessary production of commodities.

“(e) Whenever the Administrator determines that the maximum necessary production of any commodity is not being obtained or may not be obtained during the ensuing year, he may, on behalf of the United States, without regard to the provisions of law requiring competitive bidding, buy or sell at public or private sale, or store or use, such commodity in such quantities and in such manner and upon such terms and conditions as he determines to be necessary to obtain the maximum necessary production thereof or otherwise to supply the demand therefor, or make subsidy payments to domestic producers of such commodity in such amounts and in such manner and upon such terms and conditions as he determines to be necessary to obtain the maximum necessary production thereof: *Provided*, That in the case of any commodity which has heretofore or may hereafter be defined as a strategic or critical material by the President pursuant to section 5d of the Reconstruction Finance Corporation Act, as amended, such determinations shall be made by the Federal Loan Administrator, with the approval of the President, and, notwith-

standing any other provision of this Act or of any existing law, such commodity may be bought or sold, or stored or used, and such subsidy payments to domestic producers thereof may be paid, only by corporations created or organized pursuant to such section 5d; except that in the case of the sale of any commodity by any such corporation, the sale price therefor shall not exceed any maximum price established pursuant to subsection (a) of this section which is applicable to such commodity at the time of sale or delivery, but such sale price may be below such maximum price or below the purchase price of such commodity, and the Administrator may make recommendations with respect to the buying or selling, or storage or use, of any such commodity: *Provided, however,* That, with the exception of any commodity which prior to the effective date of this amendatory proviso has been defined as a strategic or critical material pursuant to section 5d of the Reconstruction Finance Corporation Act, as amended, no agricultural commodity or commodity manufactured or processed in whole or substantial part from any agricultural commodity intended to be used as food for human consumption, shall, for the purposes of this subsection, be defined as a strategic or critical material pursuant to the provisions of said section 5d of the Reconstruction Finance Corporation Act, as amended. In any case in which a commodity is domestically produced, the powers granted to the Administrator by this subsection shall be exercised with respect to importations of such commodity only to the extent that, in the judgment of the Administrator, the domestic production of the commodity is not sufficient to satisfy the demand therefor. Nothing in this section shall be construed to modify, suspend, amend, or supersede any provision of the Tariff Act of 1930, as amended, and nothing in this section, or in any existing law, shall be construed to authorize any sale or other disposition of any agricultural commodity contrary to the provisions of the Agricultural Adjustment Act of 1938, as amended, or to authorize the Administrator to prohibit trading in any agricultural commodity for future delivery if such trading is subject to the provisions of the Commodity Exchange Act, as amended.

"After June 30, 1945, neither the Price Administrator nor the Reconstruction Finance Corporation nor any other Government corporation shall make any subsidy payments, or buy any commodities for the purpose of selling them at a loss and thereby subsidizing directly or indirectly the sale of commodities, unless the money required for such subsidies, or sale at a loss, has been appropriated by Congress for such purpose; and appropriations for such purpose are hereby authorized to be made.

"(f) No power conferred by this section shall be construed to authorize any action contrary to the provisions and purposes of section 3, and no agricultural commodity shall be sold within the United States pursuant to the provisions of this section by any governmental agency at a price below the price limitations imposed by section 3 (a) of this Act with respect to such commodity.

"(g) Regulations, orders, and requirements under this Act may contain such provisions as the Administrator deems necessary to prevent the circumvention or evasion thereof.

"(h) The powers granted in this section shall not be used or made to operate to compel changes in the business practices, cost practices or methods, or means or aids to distribution, established in any industry, or changes in established rental practices, except where such action is affirmatively found by the Administrator to be necessary to prevent circumvention or evasion of any regulation, order, price schedule, or requirement under this Act.

“(k) No regulation, order, or price schedule issued under this Act shall, after the effective date of this subsection, require any seller of goods at retail to limit his sales with reference to any highest price line offered for sale by him at any prior time.

“(l) Before growers' maximum prices are established or lowered for any agricultural commodity which is the product of annual or seasonal planting, the Price Administrator shall give to such growers, not less than 15 days prior to the normal planting season in each major producing area affected, notice of the maximum prices he proposes to establish therefor: *Provided*, That in no case shall this subsection require such notice to be given more than 12 months prior to the beginning of the normal marketing season in such area. This requirement may be satisfied by publication in the Federal Register, but the Administrator shall utilize appropriate means to insure general publicity to such prices in the areas affected. The requirements of this subsection shall not apply to the 1944 crop of any agricultural commodity of any major producing area in which the normal planting season occurs prior to July 31, 1944.

“(m) No agency, department, officer, or employee of the Government, in the payment of sums authorized by this or other Acts of Congress relating to the production or sale of agricultural commodities, or in contracts for the purchase of any such commodities by the Government or any department or agency thereof, or in any allocation of materials or facilities, or in fixing quotas for the production or sale of any such commodities, shall impose any conditions or penalties not authorized by the provisions of the Act or Acts, or lawful regulations issued thereunder, under which such sums are authorized, such contracts are made, materials and facilities allocated, or quotas for the production or sale of any such commodities are imposed. Any person aggrieved by any action of any agency, department, officer, or employee of the Government contrary to the provisions hereof, or by the failure to act of any such agency, department, officer, or employee, may petition the district court of the district in which he resides or has his place of business for an order or a declaratory judgment to determine whether any such action or failure to act is in conformity with the provisions hereof and otherwise lawful; and the court shall have jurisdiction to grant appropriate relief. The provisions of the Judicial Code as to monetary amount involved necessary to give jurisdiction to a district court shall not be applicable in any such case.”

For the purposes of this section the payment or receipt of rent for defense-area housing accommodations shall be deemed the buying or selling of a commodity, as the case may be; and the word 'overcharge' shall mean the amount by which the consideration exceeds the applicable maximum price. If any person selling a commodity violates a regulation, order, or price schedule prescribing a maximum price or maximum prices, and the buyer either fails to institute an action under this subsection within thirty days from the date of the occurrence of the violation or is not entitled for any reason to bring the action, the Administrator may institute such action on behalf of the United States within such one-year period. If such action is instituted by the Administrator, the buyer shall thereafter be barred from bringing an action for the same violation or violations. Any action to enjoin or set aside such order shall be brought within five days after the service thereof. No suspension order shall take effect within five days after it is served, or, if an application for a stay is made to the Administrator within such five-day period, until the expiration of five days after service of an order denying the stay. No interlocutory relief shall be granted against the Administrator under this subsection unless the applicant for such relief shall consent, without prejudice, to the entry of an order enjoining him from violations of the regulation or order involved in the suspension proceedings."

(b) to assure to prime contractors and subcontractors, small and large, speedy and equitable final settlement of claims under terminated war contracts, and adequate interim financing until such final settlement;

(c) to assure uniformity among Government agencies in basic policies and administration with respect to such termination settlements and interim financing;

(d) to facilitate the efficient use of materials, manpower, and facilities for war and civilian purposes by providing prime contractors and subcontractors with notice of termination of their war contracts as far in advance of the cessation of work thereunder as is feasible and consistent with the national security;

(e) to assure the expeditious removal from the plants of prime contractors and subcontractors of termination inventory not to be retained or sold by the contractor;

(f) to use all practicable methods compatible with the foregoing objectives to prevent improper payments and to detect and prosecute fraud.

(c) The exercise of any authority or discretion and the performance of any duty or function, conferred or imposed on any Government agency by this Act, shall be subject to such orders and regulations prescribed by the Director pursuant to subsection (b) of this section. Each Government agency shall carry out such orders and regulations of the Director expeditiously, and shall issue such regulations with respect to its operations and procedures as may be necessary to carry out the policies, principles, methods, procedures, and standards prescribed by the Director. Any Government agency may issue such further regulations not inconsistent with the general orders or regulations of the Director as it deems necessary or desirable to carry out the provisions of this Act.

CONTRACT SETTLEMENT ADVISORY BOARD

SEC. 5. There is hereby created a Contract Settlement Advisory Board, with which the Director shall advise and consult. The Board shall be composed of the Director, who shall act as its Chairman, and of the Secretary of War, the Secretary of the Navy, the Secretary of

Creation, composi-
tion, etc.

the Treasury, the Chairman of the Maritime Commission, the Administrator of the Foreign Economic Administration, the chairman of the board of directors of the Reconstruction Finance Corporation, the Chairman of the War Production Board, the chairman of the board of directors of the Smaller War Plants Corporation, and the Attorney General or any alternate or representative designated by any of them. The Director shall request other Government agencies to participate in the deliberations of the Board whenever matters specially affecting them are under consideration.

SEC. 6. (a) It is the policy of the Government, and it shall be the responsibility of the contracting agencies and the Director, to provide war contractors with speedy and fair compensation for the termination of any war contract, in accordance with and subject to the provisions of this Act, giving priority to contractors whose facilities are privately owned or privately operated. Such fair compensation for the termination of subcontracts shall be based on the same principles as compensation for the termination of prime contracts.

(b) Each contracting agency shall establish methods and standards, suitable to the conditions of various war contractors, for determining fair compensation for the termination of war contracts on the basis of actual, standard, average, or estimated costs, or of a percentage of the contract price based on the estimated percentage of completion of work under the terminated contract, or on any other equitable basis, as it deems appropriate. To the extent that such methods and standards require accounting, they shall be adapted, so far as practicable, to the accounting systems used by war contractors, if consistent with recognized commercial accounting practice.

(c) Any contracting agency may settle all or any part of any termination claim under any war contract by agreement with the war contractor, or by determination of the amount due on the claim or part thereof without such agreement, or by any combination of these methods. Where any such settlement is made by agreement, the settlement shall be final and conclusive, except (1) to the extent otherwise agreed in the settlement; (2) for fraud; (3) upon renegotiation to eliminate excessive profits under the Renegotiation Act, unless exempt or exempted under that Act; or (4) by mutual agreement before or after payment. Where any such settlement is made by determination without agreement, it shall likewise be final and conclusive, subject to the same exceptions as if made by agreement, unless the war contractor appeals or brings suit in accordance with section 13 of this Act: *Provided*, That no settlement agreement hereunder involving payment to a war contractor of an amount in excess of \$50,000 (or such lesser amount as the Director may from time to time determine) shall become binding upon the Government until the agreement has been reviewed and approved by a settlement review board of three or more members established by the contracting agency in the bureau, division, regional or district office, or other unit of the contracting agency authorized to make such settlement, or in the event of disapproval by the settlement review board, unless approved by the head of such bureau, division, regional or district office, or other unit. Failure of the settlement review board to act upon any settlement within thirty days after its submission to the board shall operate as approval by the board. The sole function of settlement review boards shall be to determine the over-all reasonableness of proposed settlement agreements from the point of view of protecting the interests of the Government. In determining, for purposes of this subsection, whether review of any settlement agreement is required because of the amounts involved, no deduction shall be made on account of credits for property chargeable to the Government

or for advance or partial payments, but amounts payable under such settlement agreement for completed articles or work at the contract price and for the discharge of the termination claims of subcontractors shall be deducted.

(d) Except as hereinafter provided, the methods and standards established under subsection (b) of this section for determining fair compensation for termination claims which are not settled by agreement shall be designed to compensate the war contractor fairly for the termination of the war contract, taking into account—

Items to be considered in determining fair compensation.

(1) the direct and indirect manufacturing, selling and distribution, administrative and other costs and expenses incurred by the war contractor which are reasonably necessary for the performance of the war contract and properly allocable to the terminated portion thereof under recognized commercial accounting practices; and

(2) reasonable costs and expenses of settling termination claims of subcontractors related to the terminated portion of the war contract; and

(3) reasonable accounting, legal, clerical, and other costs and expenses incident to termination and settlement of the terminated war contract; and

(4) reasonable costs and expenses of removing, preserving, storing and disposing of termination inventories; and

(5) such allowance for profit on the preparations made and work done for the terminated portion of the war contract as is reasonable under the circumstances; and

(6) interest on the termination claim in accordance with subsection (f) of this section; and

(7) the contract price and all amounts otherwise paid or payable under the contract.

The following shall not be included as elements of cost:

Items excluded.

(i) Losses on other contracts, or from sales or exchanges of capital assets, fees and other expenses in connection with reorganization or recapitalization, antitrust or Federal income-tax litigation, or prosecution of Federal income-tax claims or other claims against the Government (except as provided in paragraph (3) above); losses on investments; provisions for contingencies; and premiums on life insurance where the contractor is the beneficiary.

(ii) The expense of conversion of the contractor's facilities to uses other than the performance of the contract.

(iii) Expenses due to the negligence or willful failure of the contractor to discontinue with reasonable promptness the incurring of expenses after the effective date of the termination notice.

(iv) Costs incurred in respect to facilities, materials, or services purchased or work done in excess of the reasonable quantitative requirements of the entire contract.

The failure specifically to mention in this subsection any item of cost is not intended to imply that it should be allowed or disallowed. The Director may interpret the provisions of this subsection (d) and may provide for the inclusion or exclusion of other costs in accordance with recognized commercial accounting practice.

Items not specifically mentioned.

Where the small size of claims or the nature of production or performance or other factors make it impracticable to apply the principles stated in this subsection (d) to any class of settlements which are subject to this subsection (d), the contracting agencies may establish alternative methods and standards for determining fair compensation for that class of termination claims. The aggregate amount of compensation allowed in accordance with this subsection (excluding amounts allowed under paragraphs (3) and (4) above) shall not

exceed the total contract price reduced by the amount of payments otherwise made or to be made under the contract.

(e) In order to carry out the objectives of this Act, termination claims shall be settled by agreement to the maximum extent feasible and the methods and standards established under subsection (b) of this section shall be designed to facilitate such settlements. To the extent that he deems it practicable to do so without impeding expeditious settlements, the Director shall require the contracting agencies to take into account the factors enumerated in subsection (d) above in establishing methods and standards for determining fair compensation in the settlement of termination claims by agreement.

(f) Each contracting agency shall allow and pay interest on the amount due and unpaid from time to time on any termination claim under a prime contract at the rate of 2½ per centum per annum for the period beginning thirty days after the date fixed for termination and ending with the date of final payment, except that (1) if the prime contractor unreasonably delays the settlement of his claim, interest shall not accrue for the period of such delay, (2) if interest for the period after termination on any advance payment or loan, made or guaranteed by the Government, has been waived for the benefit of the contractor, the amount of the interest so waived allocable to the terminated contract or the terminated part of the contract shall be deducted from the interest otherwise payable hereunder, and (3) if after delivery of findings by a contracting agency, the contractor appeals or sues as provided in section 13, interest shall not accrue after the thirtieth day following the delivery of the findings on any amount allowed by such findings, unless such amount is increased upon such appeal or suit. In approving, ratifying, authorizing, or making termination settlements with subcontractors, each contracting agency shall allow interest on the termination claim of the subcontractor on the same basis and subject to the same conditions as are applicable to a prime contractor.

(g) Where any war contract does not provide for or provides against such fair compensation for its termination, the contracting agency, either before or after its termination, shall amend such war contract by agreement with the war contractor, or shall authorize, approve, or ratify an amendment of such war contract by the parties thereto, to provide for such fair compensation.

SEC. 7. (a) Where, in connection with the settlement of any termination claim by a contracting agency, any war contractor makes settlements of the termination claims of his subcontractors, the contracting agency shall limit or omit its review of such settlements with subcontractors to the maximum extent compatible with the public interest. Any contracting agency (1) may approve, ratify, or authorize such settlements with subcontractors upon such evidence, terms, and conditions as it deems proper; (2) shall vary the scope and intensity of its review of such settlements according to the reliability of the war contractor, the size, number, and complexity of such claims, and other relevant factors; and (3) shall authorize war contractors to make such settlements with subcontractors without review by the contracting agency, whenever the reliability of the war contractor, the amount or nature of the claims, or other reasons appear to the contracting agency to justify such action. Any such settlement of a subcontract approved, ratified, or authorized by a contracting agency shall be final and conclusive as to the amount due to the same extent as a settlement under subsection (c) of section 6 of this Act, and no war contractor shall be liable to the United States on account of any amounts paid thereon except for his own fraud.

(b) Whenever any contracting agency is satisfied of the inability of a war contractor to meet his obligations it shall exercise supervision or control over payments to the war contractor on account of termination claims of subcontractors of such war contractor to such extent and in such manner as it deems necessary or desirable for the purpose of assuring the receipt of the benefit of such payments by the subcontractors.

Supervision of payments for benefit of subcontractors.

(c) The Director shall prescribe policies and methods for the settlement as a group, or otherwise, by any contracting agency of some or all of the termination claims of a war contractor under war contracts with one or more (1) bureaus or divisions within a contracting agency, (2) contracting agencies, or (3) prime contractors and subcontractors, to the extent he deems such action necessary or desirable for expeditious and equitable settlement of such claims. After consulting with the contracting agencies concerned, the Director may provide for assigning any war contractor to a contracting agency for such settlement, and such agency shall have authority to settle, on behalf of any other contracting agency, some or all of the termination claims of such war contractor.

Group settlements.

(d) Any contracting agency may settle directly termination claims of subcontractors to the extent that it deems such action necessary or desirable for the expeditious and equitable settlement of such claims. In making such termination settlements any contracting agency may discharge the claim of the subcontractor by payment or may purchase such claim, and may agree to assume, or indemnify the subcontractor against, any claims by any person in connection with such claim or the termination settlement. Any contracting agency undertaking to settle the termination claim of any subcontractor shall deliver to the subcontractor and the war contractor liable to him written notice stating its acceptance of responsibility for settling his claim and the conditions applicable thereto, which may include the release, or assignment to the contracting agency, of his claim against the war contractor liable to him; upon consent thereto by the subcontractor, the Government shall become liable for the settlement of his claims upon the conditions specified in the notice.

Direct settlements with subcontractors by contracting agency.

Notice.

(e) Any contracting agency may make settlements with subcontractors in accordance with any of the provisions of this Act without regard to any limitation on the amount payable by the Government to the prime contractor.

Nonlimitation.

(f) If any contracting agency determines that in the circumstances of a particular case equity and good conscience require fair compensation for the termination of a war contract to be paid to a subcontractor who has been deprived of and cannot otherwise reasonably secure such fair compensation, the contracting agency concerned may pay such compensation to him although such compensation already has been included and paid as part of a settlement with another war contractor.

Payment where subcontractor deprived of fair compensation.

INTERIM FINANCING

SEC. 8. (a) It is the policy of the Government, and it shall be the responsibility of the contracting agencies and the Director, in accordance with and subject to the provisions of this Act, to provide war contractors having any termination claim or claims, pending their settlement, with adequate interim financing, within thirty days after proper application therefor.

Provision within 30 days.

(b) Each contracting agency shall, to the greatest extent it deems practicable, make available interim financing through loans and discounts, and commitments and guaranties in connection therewith, in

contemplation of or related to termination of war contracts. Where interim financing is made by advance payments or partial payments, it shall, insofar as practicable, consist of the following:

(1) An amount equal to 100 per centum of the amount payable, at the contract price, on account of acceptable items completed prior to the termination date under the terms of the contract, or completed thereafter with the approval of the contracting agency; plus

(2) An amount equal to 90 per centum of the cost of raw materials, purchased parts, supplies, direct labor, and manufacturing overhead allocable to the terminated portion of the war contract; plus

(3) A reasonable percentage of other allowable costs, including administrative overhead, allocable to the terminated portion of the war contract not included in the foregoing; plus

(4) Such additional amounts, if any, as the contracting agency deems necessary to provide the war contractor with adequate interim financing.

(5) In lieu of the costs referred to in clauses (2) and (3) of this subsection, where a detailed ascertainment of such costs is not suitable to the conditions of any war contractor and is apt to cause delay in the obtaining of interim financing by him, that portion of such interim financing shall be equal to an amount not greater than 90 per centum of the estimated costs which are allocable to the terminated part or parts of the war contract or group of war contracts, and are ascertained in accordance with such methods and standards as the Director shall prescribe.

(6) There shall be deducted from the amount of such interim financing any unliquidated balances of advance and partial payments theretofore made to such war contractor, which are allocable to the terminated war contract or the terminated part of the war contract.

(c) The Director shall prescribe (1) the types of estimates, certificates, or other evidence to be required to support such interim financing; (2) the terms and conditions upon which such interim financing shall be made including the use of standard forms for agreements with respect to such interim financing to the extent practicable; (3) the classes of cases in which such interim financing shall be refused; and (4) such methods of supervision and control over such interim financing as he deems necessary or desirable to assure adequate and speedy interim financing to subcontractors of the war contractor.

(d) In case of an overstatement by any war contractor of the amount due on his termination claim or claims in connection with any interim financing under this Act, such contractor shall pay to the United States, as a penalty, an amount equal to 6 per centum of the amount of the overstatement, but the Director may suspend or modify any such penalty if in his opinion the imposition thereof would be inequitable. Any penalty may be deducted from any amounts due the war contractor upon such termination claim or claims, or otherwise, or may be collected from the war contractor by suit. The obligation to pay any penalty imposed and to repay any interim financing made or assumed by the United States under this Act shall constitute a debt due to the United States within the meaning of Revised Statutes, section 3466 (31 U. S. C., sec. 191).

(e) Any contracting agency may allow any advance payments, previously made or authorized by it in connection with the performance of a war contract, to be used for payments and expenses related to the termination settlement of such contract, upon such terms and conditions as it deems necessary or appropriate to protect the interest of the Government.

(f) No interim financing shall be made by any contracting agency under this Act unless the terms of such financing provide for the liquidation by the war contractor of all loans, discounts, advance payments, or partial payments thereunder not later than the time of final payment of the amount due on the settlement of the termination claim or claims of the war contractor involved or such time thereafter as the contracting agency deems necessary for the liquidation of such interim financing in an orderly manner.

Orderly liquidation.

(g) Any contracting agency may settle, upon such terms and conditions as it deems proper, any claim or obligation due by or to the Government arising from or related to any interim financing made, acquired, or authorized by it. Any interim financing made, acquired, or authorized by any contracting agency before the effective date of this Act shall be valid to the extent it would be authorized under the provisions of this Act if made after its effective date.

Validity of prior financing.

SEC. 9. (a) Any contracting agency may make advance or partial payments to any war contractor on account of any termination claim or claims, and may authorize, approve, or ratify any such advance or partial payments by any war contractor to his subcontractors, upon such conditions as it deems necessary to insure compliance with the provisions of subsection (b) of this section. Each contracting agency shall make final payments from time to time on partial settlements or on settlements fixing a minimum amount due before complete settlement, or as tentative payments before any settlement of the claim or claims.

Advances to war contractors on account of termination claims.

Final payments.

(b) Where any such advance or partial payment is made to any war contractor by any contracting agency or by another war contractor under this section, except a final payment on a partial settlement, any amount in excess of the amount finally determined to be due on the termination claim shall be treated as a loan from the Government to the war contractor receiving it, and shall be payable upon demand together with a penalty computed at the rate of 6 per centum per annum, for the period from the date such excess advance or partial payment is received to the date on which such excess is repaid or extinguished. Where the advance or partial payment was made by a war contractor and authorized, approved, or ratified by any contracting agency, the war contractor making it shall not be liable for any such excess payment in the absence of fraud on his part and shall receive payment or credit from the Government for the amount of such excess payment.

Advances in excess of amount finally determined to be due.

Where made by contractor.

SEC. 10. (a) Any contracting agency is authorized—

(1) to enter into contracts with any Federal Reserve bank, or other public or private financing institution, guaranteeing such financing institution against loss of principal or interest on loans, discounts, or advances or on commitments in connection therewith, which such financing institution may make to any war contractor or to any person who is or has been engaged in performing any operation deemed by such contracting agency to be connected with or related to war production, for the purpose of financing such war contractor or other person in connection with or in contemplation of the termination of one or more such war contracts or operations; and

nection with or in contemplation of the termination of such war contracts or operations.

(b) Any such loan, discount, advance, guaranty, or commitment in connection therewith may be secured by assignment of, or covenants to assign, some or all of the rights of such war contractor or other person in connection with the termination of such war contracts or operations, or in such other manner as the contracting agency may prescribe.

Federal Reserve banks as fiscal agents.

(c) Subject to such regulations as the Board of Governors of the Federal Reserve System may prescribe with the approval of the Director, any Federal Reserve bank is authorized to act, on behalf of the contracting agencies, as fiscal agent of the United States in carrying out the purposes of this Act.

Authority of contracting agencies.

(d) This section shall not limit or affect any authority of any contracting agency, under any other statute, to make loans, discounts, or advances, or commitments in connection therewith or guaranties thereof.

ADVANCE NOTICE

SEC. 11. (a) In order to facilitate the efficient use of materials, manpower, and facilities for war and civilian purposes, each contracting agency—

Notice to prime contractors.

(1) shall provide its prime contractors with notice of termination of their prime contracts as far in advance of the cessation of work thereunder as is feasible and consistent with the national security without permitting unneeded production or performance;

Immediate notice to affected subcontractors.

(2) shall establish procedures whereby prime contractors shall provide affected subcontractors with immediate notice of termination; and

Continuation of work in certain cases.

(3) shall permit the continuation of some or all of the work under a terminated prime contract whenever the agency deems that such continuation will benefit the Government or is necessary to avoid substantial injury to the plant or property.

Cessation or suspension order.

(b) Whenever a contracting agency hereafter directs a prime contractor to cease or suspend all or a substantial part of the work under a prime contract, without terminating the contract, then, unless the contract provides otherwise, (1) the contracting agency shall compensate the contractor for reasonable costs and expenses resulting from such cessation or suspension, and (2) if the cessation or suspension extends for thirty days or more, the contractor may elect to treat it as a termination by delivering written notice of his election so to do to the contracting agency, at any time before the contracting agency directs the prime contractor to resume work under the contract.

Compensation to contractor.

Election to treat as termination.

Limitation on authority of Director.

(c) The Director shall have no authority under this Act to regulate or control the classes of contracts to be terminated by the contracting agencies.

REMOVAL AND STORAGE OF MATERIALS

SEC. 12. (a) It is the policy of the Government, upon the termination of any war contract, to assure the expeditious removal from the plant of the war contractor of the termination inventory not to be retained or sold by the war contractor.

Termination inventory.

(b) Any war contractor may submit to the contracting agency concerned or to any other Government agency designated by the Director, one or more statements showing the materials which such war contractor claims to be termination inventory under one or more war contracts and desires to have removed by the Government. Such statements shall be prepared in such form and detail, shall be submitted in such manner, through the prime contractor or otherwise, and shall be

supported by such certificates or other data, as may be prescribed under this Act.

(c) Within sixty days after the submission of any such statement by a war contractor, or such shorter period as may be prescribed under this Act, or within such longer period as the war contractor may agree, the Government agency concerned (1) shall arrange, upon such terms and conditions as may be agreed, for the storage by the war contractor on his own premises or elsewhere of all such claimed termination inventory which the war contractor does not retain or dispose of, except any part which may be determined not to be allocable to the terminated war contract or contracts, or (2) shall remove from the plant or plants of the war contractor all of such claimed termination inventory not retained, disposed of, or stored by the war contractor or determined not to be allocable to the terminated war contract or contracts.

(d) Upon the failure of the Government so to arrange for storage by the war contractor or to remove any termination inventory within the period specified under subsection (c) of this section, the war contractor, subject to regulations prescribed under this Act, may remove some or all of such termination inventory from his plant or plants and may store it on his own premises or elsewhere for the account and at the risk and expense of the Government, using reasonable care for its transportation and preservation. If any war contractor intends so to remove any claimed termination inventory, he shall deliver to the Government agency concerned written notice of the date fixed for removal and a statement showing the quantities and condition of the materials so to be removed, certified on behalf of the war contractor to have been prepared in accordance with a concurrent physical inventory of such materials. Such notice and statement shall be delivered at least twenty days in advance of the date fixed for removal and may be delivered before or after the expiration of the period specified under subsection (c) of this section. If the Government agency fails to check such materials, at or before the time of their removal by the war contractor, a certificate of the war contractor specifying the materials shown on such statement which were so removed, and filed with the Government agency concerned within thirty days after the date fixed for removal, shall constitute prima facie evidence against the United States as to the quantities and condition of the materials so removed, and the fact of their removal.

(e) Notwithstanding any other provisions of law, but subject to subsection (h) of this section, the contracting agency concerned or the Director, or any Government agency designated by him, on behalf of the United States, may, by the exercise of any contract rights or otherwise, acquire and take possession of any termination inventory of any war contractor, and any materials removed by the Government or stored for its account under subsections (c) and (d) of this section, whether or not such materials are finally determined not to constitute termination inventory. With respect to any such materials, the Government shall be liable to any war contractor concerned only for their return to such war contractor or for their disposal value at the time of their removal or for the proceeds realized by the Government from their disposal, at the election of the Government agency concerned, unless the Government agency and the war contractor agree or have agreed on a different basis. Any amount so paid or payable to a war contractor for materials allocable to a terminated war contract shall be credited against the termination claim under such contract but shall not otherwise affect the amount due on the claim, unless the Government agency concerned and the war contractor agree or have agreed otherwise. Government-owned machinery installed in war plants.

(g) Whenever any war contractor no longer requires, for the performance of any war contract, any Government-owned machinery, tools, or equipment installed in his plant for the performance of one or more war contracts, the Government agency concerned, upon written demand by the war contractor, and within sixty days after such demand or such other period as may be prescribed under this Act, and upon such conditions as may be so prescribed, shall remove or provide for the removal of such machinery, tools, or equipment from such plant, unless the Government agency concerned and the war contractor, by facilities contract or otherwise, have made or make other provisions for the retention, storage, maintenance, or disposition of such machinery, tools or equipment. APPEAL

Written findings by contracting agency as to amount due.

Sec. 13. (a) Whenever the contracting agency responsible for settling any termination claim has not settled the claim by agreement or has so settled only a part of the claim, (1) the contracting agency at any time may determine the amount due on such claim or such unsettled part, and prepare written findings indicating the basis of the determination, and deliver a copy of such findings to the war contractor, or (2) if the termination claim has been submitted in the manner and substantially the form prescribed under this Act, the contracting agency, upon written demand by the war contractor for such findings, shall determine the amount due on the claim or unsettled part and prepare and deliver such findings to the war contractor within ninety days after the receipt by the agency of such demand. In preparing such findings, the contracting agency may require the war contractor to furnish such information and to submit to such audits as may be reasonably necessary for that purpose. Within thirty days after the delivery of any such findings, the contracting agency shall pay to the

war contractor at least 90 per centum of the amount thereby determined to be due, after deducting the amount of any outstanding interim financing applicable thereto.

(b) Whenever any war contractor is aggrieved by the findings of a contracting agency on his claim or part thereof or by its failure to make such findings in accordance with subsection (a) of this section, he may, at his election—

(1) appeal to the Appeal Board in accordance with subsection (d) of this section; or

(2) bring suit against the United States for such claim or such part thereof, in the Court of Claims or in a United States district court, in accordance with subsection (20) of section 24 of the Judicial Code (28 U. S. C. 41 (20)), except that, if the contracting agency is the Reconstruction Finance Corporation, or any corporation organized pursuant to the Reconstruction Finance Corporation Act (47 Stat. 5), as amended, or any corporation owned or controlled by the United States, the suit shall be brought against such corporation in any court of competent jurisdiction in accordance with existing law.

(c) Any proceeding under subsection (b) of this section shall be governed by the following conditions:

(1) When any contracting agency provides a procedure within the agency for protest against such findings or for other appeal therefrom by the war contractor, the war contractor, before proceeding under subsection (b) of this section, (i) in his discretion may resort to such procedure within the time specified in his contract or, if no time is specified, within thirty days after the delivery to him of the findings; and (ii) shall resort to such procedure for protest or other appeal to the extent required by the Director, but failure of the contracting agency to act on any such required protest or appeal within thirty days shall operate as a refusal by the agency to modify its findings. Any revision of the findings by the contracting agency, upon protest or appeal within the agency, shall be treated as the findings of the agency for the purpose of appeal or suit under subsection (b) of this section. Notwithstanding any contrary provision in any war contract, no war contractor shall be required to protest or appeal from such findings within the contracting agency except in accordance with this paragraph.

(2) A war contractor may initiate proceedings in accordance with subsection (b) of this section (i) within ninety days after delivery to him of the findings by the contracting agency, or (ii) in case of protests or appeal within the agency, within ninety days after the determination of such protest or appeal, or (iii) in case of failure to deliver such findings, within one year after his demand therefor. If he does not initiate such proceedings within the time specified, he shall be precluded thereafter from initiating any proceedings in accordance with subsection (b) of this section, and the findings of the contracting agency shall be final and conclusive, or if no findings were made, he shall be deemed to have waived such termination claim.

(3) Notwithstanding any contrary provision in any war contract, the Appeal Board or court shall not be bound by the findings of the contracting agency, but shall treat such findings as prima facie correct, and the burden shall be on the war contractor to establish that the amount due on his claim or part thereof exceeds the amount allowed by the findings of the contracting agency. Whenever the Appeal Board or court finds that the war contractor failed to negotiate in good faith with the contracting agency for the settlement of his claim or part thereof before appeal or suit thereon, or failed to furnish to the agency any information reasonably requested by it regarding

If the war contractor is aggrieved by the decision of the Appeal Board or panel (other than an order remanding the case to the contracting agency under subsection (c) (3) (iii) of this section), then within ninety days after such decision he may bring suit on the claim or unsettled part thereof in accordance with subsection (b) (2) of this section. Such suit shall proceed as if no appeal had been taken under subsection (b) of this section. Such arbitration proceedings shall be governed by the provisions of the United States Arbitration Act to the same extent as if authorized by an effective agreement in writing between the Government and the war contractor. SEC. 16. (a) Any other provision of law notwithstanding, the function of the General Accounting Office with respect to any termination settlement made, authorized, ratified, or approved by a contracting agency shall be confined to determining, after final settlement, (1) whether the settlement payments to the war contractor were made in accordance with the settlement, and (2) whether the records transmitted to it, or other information, warrant a reasonable belief that the settlement was induced by fraud. Upon receipt of such certificate (1) the Department of Justice shall make an investigation to determine whether such settlement was induced by fraud, and (2) until the Department of Justice notifies the contracting agency

At least thirty days before filing any such report with the Congress, the Comptroller General shall deliver a copy thereof to the agency concerned and the Director, and shall forward to the Congress together with such report any comments of such agency with respect thereto.

Authority of contracting agencies.

SEC. 20. (a) Each contracting agency shall have authority, notwithstanding any provisions of law other than contained in this Act, (1) to make any contract necessary and appropriate to carry out the provisions of this Act; (2) to amend by agreement any existing contract, either before or after notice of its termination, on such terms and to such extent as it deems necessary and appropriate to carry out the provisions of this Act; and (3) in settling any termination claim, to agree to assume, or indemnify the war contractor against, any claims by any person in connection with such termination claims or settlement.

This subsection shall not limit or affect in any way any authority of any contracting agency under the First War Powers Act, 1941, or under any other statute.

(b) Any contracting agency may prescribe the amount and kind of evidence required to identify any person as a war contractor, or any contract, agreement, or purchase order as a war contract for any of the purposes of this Act. Any determination so made that any person is a war contractor, or that any contract, agreement, or purchase order is a war contract, shall be final and conclusive for any of the purposes of this Act.

(c) There are hereby authorized to be appropriated such sums as may be necessary for administering the provisions of this Act.

(d) All policies and procedures relating to termination of war contracts, termination settlements, and interim financing, prescribed by the Director of War Mobilization or any contracting agency, in effect upon the effective date of this Act, and not inconsistent with this Act, shall remain in full force and effect unless and until superseded by the Director in accordance with this Act, or by regulations of the contracting agency not inconsistent with this Act or the policies prescribed by the Director.

(e) Nothing in this Act shall be deemed to impair or modify any war contract or any term or provision of any war contract or any assignment of any claim under a war contract, without the consent of the parties thereto, if the war contract, or the term, provision, or assignment thereof, is otherwise valid.

JOINT RESOLUTION

July 1, 1944
[H. J. Res. 241]
[Public Law 400]

Requesting the President to urge upon the governments of those countries where the cultivation of the poppy plant exists, the necessity of immediately limiting the production of opium to the amount required for strictly medicinal and scientific purposes.

Opium and its derivatives.
Proposal for limitation on production.

Whereas for nearly forty years the United States of America has led the fight to destroy the illicit traffic in and nonmedical consumption of opium, as evidenced by its abolishing the opium monopoly system which it inherited in the Philippine Islands; its calling at Shanghai in 1909 the first International Commission to consider the opium problem; its suggesting the calling of the three International Opium Conferences at The Hague in 1912, 1913, 1914; its urging at the International Opium Conference of 1924 and 1925 sponsored by the League of Nations that the only effective way to suppress the demoralizing use of opium and its derivatives (heroin, morphine, and so forth) was to control the source of the evil by limiting the cultivation of the poppy plant to the legitimate medicinal and scientific needs of the world; and its further participation in the Geneva Conference of 1931 to restrict the manufacture and distribution of narcotic drugs; and

Whereas the laws of the Chinese Government strictly prohibit the cultivation of the opium poppy and the use of smoking opium in all territory under its control, and the people of China have valiantly resisted the attempts of the invading Japanese militarists to enslave them by encouraging and even compelling the cultivation and use of opium; and

Whereas final defeat of Japan will terminate the illicit traffic in narcotics which has been carried on by the Japanese military in all territories they have occupied in the Far East; and

Whereas the British and the Netherlands Governments have recently announced their decision to prohibit the use of opium for smoking and not to reestablish their government monopolies for the sale of smoking opium in the territories formerly controlled by them in the Far East when those territories are freed from Japanese occupation, stating however that the success of their action must in the final analysis depend upon the cooperation of the opium-growing countries; and

Whereas because of our military operations in certain other areas in Asia, there are now thousands of young American citizens in countries where opium is cultivated and freely available, and other Americans are on vessels delivering war materials to those countries, which condition constitutes a real threat to the health and welfare of these Americans and affords easy opportunity for the highly profitable smuggling of opium into the United States where its use has been greatly reduced: Therefore, be it

Elimination of illicit traffic.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Congress express its conviction that this World War ought to be not an occasion for permitting expansion and spreading of illicit traffic in opium, but rather an opportunity for completely eliminating it; and be it further

President requested to urge designated Governments to limit production.

Resolved, That the President be, and he hereby is, requested to approach the Governments of all opium-producing countries throughout the world, urging upon them in the interest of protecting American citizens and those of our allies and of freeing the world of an age-old evil, that they take immediate steps to limit and control the growth of the opium poppy and the production of opium and its

derivatives to the amount actually required for strictly medicinal and scientific purposes.

"SEC. 3. For the period that any person is entitled under section 2 of this Act to receive or be credited with pay and allowances, such allotments as may have been executed prior to the beginning of his absence, including allotments for the purchase of United States savings bonds, may be continued, except as otherwise herein provided, and notwithstanding any expiration of a period for which an allotment had been executed. If the twelve months' absence prescribed in section 5 of this Act has expired, a finding of death shall be made whenever information received, or a lapse of time without information, shall be deemed to establish a reasonable presumption that any person in a missing or other status is no longer alive. Determinations are authorized to be made by the head of the department concerned, or by such subordinate as he may designate, of entitlement of any person, under provisions of this Act, to pay and allowances, including credits and charges in his account, and all such determinations shall be conclusive: *Provided*, That no such account shall be charged or debited with any amount that any person in the lands of an enemy may receive or be entitled to receive from, or have placed to his credit by, such enemy as pay, wages, allowances, or other compensation: *Provided further*, That where the account of any person has been charged or debited with allotments paid pursuant to this Act any amount so charged or debited shall be credited to such person's account in any case in which it is determined by the head of the department concerned, or such subordinate as he may designate, that payment of such amount was induced by fraud or misrepresentation to which such person was not a party. Excepting allotments for unearned insurance premiums, any allotments paid from pay and allowances of any person for the period of the person's entitlement under the provisions of section 2 of this Act to receive or have credited such pay and allowances shall not be subject to collection from the allottee as overpayments when payment thereof has been occasioned by delay in receipt of evidence of death, and any allotment payments for periods subsequent to the termination, under this Act or otherwise, of entitlement to pay and allowances, the payment of which has been occasioned by delay in receipt of evidence of death, shall not be subject to collection from the allottee or charged against the pay of the deceased person. (e) Any court of the United States having the power to suspend the imposition or execution of sentence and to place a defendant on probation under any existing laws may impose as one of the conditions of such probation that the defendant, if an addict, shall submit himself for treatment at a hospital of the Service especially equipped for the accommodation of addicts until discharged therefrom as cured and that he shall be admitted thereto for such purpose. Upon the discharge of any such probationer from a hospital of the Service, he shall be furnished with the gratuities and transportation authorized by law to be furnished to prisoners upon release from a penal, correctional, disciplinary, or reformatory institution. To provide for staying judicial proceedings against the United States in time of war, on claims for damages caused by vessels of the Navy, or for towage or salvage services to such vessels, when the Secretary of the Navy certifies that the prosecution of such proceedings would endanger the security of naval operations or interfere therewith, and to authorize the settlement and payment of such claims, and for other purposes.

July 3, 1944
[S. 1173]
[Public Law 417]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That whenever in time of war the Secretary of the Navy shall certify to a court in which

is pending a suit of the nature hereinafter defined, or to a judge of such court, that the prosecution of such suit would tend to endanger the security of naval operations in such war, or to interfere with such operations, all further proceedings in such suit shall forthwith be stayed until six months after the cessation of hostilities in such war, or until such earlier date as may be stated in such certificate. The suits to which this Act applies are hereby defined as follows: All suits under the Act approved March 3, 1925, entitled "An Act authorizing suits against the United States in admiralty for damage caused by and salvage services rendered to public vessels belonging to the United States, and for other purposes" (43 Stat. 1112; 46 U. S. C. 781 ff), wherein a claim is made for damages caused by a vessel of the Navy, or in the naval service, or for compensation for towage or salvage services, including contract salvage, rendered to any such vessel. The stay of proceedings in pending suits as provided in this section shall not operate to suspend the issuance of process to take or preserve evidence to be used in the trial of the issues of the suit, or to prevent the completion of action under the authority of similar process already issued at the time of such stay of suit: *Provided*, That if at the time of certification by the Secretary of the Navy for stay of proceedings, as provided in this section, or at any time thereafter prior to the termination of stay, the Secretary of the Navy shall file with the court an additional certificate that the issuance of such process to preserve evidence or the completion of action on process already issued would tend to endanger the security of the United States or any of the naval or military operations in such war, or to interfere with such operations, then all such proceedings for the taking or preserving of evidence to be used by either party in the trial of the issues in such suit shall be suspended until six months after the cessation of hostilities in such war, or until such earlier date as shall have been fixed in the certificate for stay of proceedings in such suit.

SEC. 2. Whenever in time of war the Secretary of the Navy shall certify to the court, or a judge of the court in which proceedings for the purpose are pending, that the granting of a *dedimus potestatem* to take depositions, or a direction to take depositions in *perpetuam rei memoriam*, or the taking of depositions or production of evidence pursuant to such *dedimus potestatem* or direction, or pursuant to any other proceeding for the purpose, in connection with or in relation to any claim against the United States on which such suit would lie, would tend to endanger the security of the United States or any of the Naval or military operations in such war, or to interfere with such operations, then such *dedimus potestatem* shall not be granted, such direction shall not be made, and such deposition shall not be taken or evidence produced, until six months after the cessation of hostilities in such war, or such earlier date as may be stated in such certificate, and if prior to filing such certificate such proceedings shall have been commenced, the same shall upon filing such certificate forthwith be stayed until six months after cessation of such hostilities or such earlier date as may be stated in such certificate.

SEC. 3. The phrase "vessels of the Navy or in the naval service" shall include, for the purposes of this Act, in addition to all vessels of the Navy, and of the Coast Guard when operating as a part of the Navy, all vessels manned by the Navy, including the Coast Guard when operating as a part of the Navy, and all vessels chartered on bareboat charter to the Navy, or to the Coast Guard when the Coast Guard is operating as a part of the Navy.

the Secretary of the Navy may file with such court or judge his certificate extending or shortening the time stated in his prior certificate, during which the prosecution of such suit or the taking of such deposition or production of evidence would tend to endanger the security of the United States or of such operations in time of war, or to interfere therewith. Any claimant or party deeming himself adversely affected by a stay under the provisions of this Act may serve on the Secretary of the Navy at Washington, District of Columbia, a written notice, requesting the Secretary of the Navy to reconsider the stay previously issued and to issue a further certificate. Such written notice shall identify the stay then in effect by attaching a copy of the certificate of the Secretary of the Navy upon which the stay is based or by a description sufficient for its identification. The said notice shall not contain any recital of the facts or circumstances involved. Within ten days after receipt of such notice, the Secretary of the Navy or some official designated by him, shall hold in secret a hearing at which the claimant or his representative may present such facts and arguments as he may think material with respect to the question as to whether or not a stay should be issued or maintained. Within ten days after such hearing, the Secretary of the Navy shall file with the court in which said stay is pending, or the court in which the proceeding stayed was instituted, his further certificate stating whether the stay shall then be terminated, or for what time the stay is to continue in effect. If the Secretary of the Navy shall fail to file such further certificate, the court, upon application by such claimant or party, shall issue its order directing the Secretary of the Navy to file a certificate within the time to be specified in such order. Any certificate issued by the Secretary of the Navy shall remain in effect for the time stated therein or until it is terminated or altered by a further certificate. The filing of any further certificate under this section shall extend or shorten the time, as the case may be, during which the stay in relation to which it is made shall continue in effect, to the time stated in such further certificate, or shall terminate such stay if it be so stated in such further certificate: *Provided*, That in no case shall any stay under this Act remain in force longer than six months after the cessation of hostilities in such war.

Any certificate issued by the Secretary of the Navy pursuant to this Act may, in his discretion, be restricted, so that it stays only the taking of testimony of certain witnesses or evidence on certain subjects, in which event such proceedings as are not so stayed may continue.

Surplus Property
Act of 1944.

OBJECTIVES

SEC. 2. The Congress hereby declares that the objectives of this Act are to facilitate and regulate the orderly disposal of surplus property so as—

(a) to assure the most effective use of such property for war purposes and the common defense;

(b) to give maximum aid in the reestablishment of a peacetime economy of free independent private enterprise, the development of the maximum of independent operators in trade, industry, and agriculture, and to stimulate full employment;

(c) to facilitate the transition of enterprises from wartime to peacetime production and of individuals from wartime to peacetime employment;

(d) to discourage monopolistic practices and to strengthen and preserve the competitive position of small business concerns in an economy of free enterprise;

(e) to foster and to render more secure family-type farming as the traditional and desirable pattern of American agriculture;

(f) to afford returning veterans an opportunity to establish themselves as proprietors of agricultural, business, and professional enterprises;

(g) to encourage and foster post-war employment opportunities;

(h) to assure the sale of surplus property in such quantities and on such terms as will discourage disposal to speculators or for speculative purposes;

(i) to establish and develop foreign markets and promote mutually advantageous economic relations between the United States and other countries by the orderly disposition of surplus property in other countries;

(j) to avoid dislocations of the domestic economy and of international economic relations;

(k) to foster the wide distribution of surplus commodities to consumers at fair prices;

(l) to effect broad and equitable distribution of surplus property;

(m) to achieve the prompt and full utilization of surplus property at fair prices to the consumer through disposal at home and abroad with due regard for the protection of free markets and competitive prices from dislocation resulting from uncontrolled dumping;

(n) to utilize normal channels of trade and commerce to the extent consistent with efficient and economic distribution and the promotion of the general objectives of this Act (without discriminating against the establishment of new enterprises);

(o) to promote production, employment of labor, and utilization of the productive capacity and the natural and agricultural resources of the country;

(p) to foster the development of new independent enterprise;

(q) to prevent insofar as possible unusual and excessive profits being made out of surplus property;

(r) to dispose of surplus property as promptly as feasible without fostering monopoly or restraint of trade, or unduly disturbing the economy, or encouraging hoarding of such property, and to facilitate prompt redistribution of such property to consumers;

(s) to dispose of surplus Government-owned transportation facilities and equipment in such manner as to promote an adequate and economical national transportation system; and

DECLARATION AND DISPOSITION OF SURPLUS PROPERTY

SEC. 11. (a) Each owning agency shall have the duty and responsibility continuously to survey the property in its control and to determine which of such property is surplus to its needs and responsibilities.

(b) Each owning agency shall promptly report to the Board and the appropriate disposal agency all surplus property in its control which the owning agency does not dispose of under section 14.

(c) Whenever in the course of the performance of its duties under this Act, the Board has reason to believe that any owning agency has property in its control which is surplus to its needs and responsibilities and which it has not reported as such, the Board shall promptly report that fact to the Senate and House of Representatives. Each owning agency and each disposal agency shall submit to the Board (1) such information and reports with respect to surplus property in the control of the agency, in such form, and at such reasonable times, as the Board may direct; (2) such information and reports with respect to other property in the control of the agency, to such

extent, and in such form, as the Board may direct and as the agency deems consistent with national security.

Responsibility and authority of disposal agency.

(d) When any surplus property is reported to any disposal agency under subsection (b) of this section, the disposal agency shall have responsibility and authority for the disposition of such property, and for the care and handling of such property pending its disposition, in accordance with regulations prescribed by the Board. Where the disposal agency is not prepared at the time of its designation under this Act to undertake the care and handling of such surplus property the Board may postpone the responsibility of the agency to assume its duty for care and handling for such period as the Board deems necessary to permit the preparation of the agency therefor.

Public notice concerning property available for sale.

(e) The Board shall prescribe regulations necessary to provide, so far as practicable, for uniform and wide public notice concerning surplus property available for sale, and for uniform and adequate time intervals between notice and sale so that all interested purchasers may have a fair opportunity to buy.

American Red Cross.

(f) No surplus property which was processed, produced, or donated by the American Red Cross for any Government agency shall be disposed of except after notice to and consultation with the American Red Cross. All or any portion of such property may be donated to the American Red Cross, upon its request, solely for charitable purposes.

Maintenance of records.

(g) Each disposal agency shall maintain in each of its disposal offices such records of its inventories of surplus property and of each disposal transaction negotiated by that office as the Board may prescribe. The information in such records shall be available at all reasonable times for public inspection.

UTILIZATION OF SURPLUS PROPERTY BY FEDERAL AGENCIES

Priority to inter-agency transfers.

SEC. 12. (a) It shall be the duty of the Board to facilitate the transfer of surplus property from one Government agency to other Government agencies for their use; and the transfer of surplus property under this section shall be given priority over all other disposals provided for in this Act.

Responsibility of Government agencies.

(b) It shall be the responsibility of all Government agencies, in order to avoid making purchases through commercial channels, continuously to consult the records of surplus property established by the Board and to determine whether their requirements can be satisfied out of such surplus property. It shall also be the responsibility of the head of each Government agency to submit to the Board such estimates of the needs of the agency and such reports in relation thereto as the Board may deem necessary to promote the fullest utilization of surplus property. It shall be the responsibility of the Board to determine whether Government agencies are acquiring surplus property to the fullest possible extent, and to notify agencies whenever, in its judgment, they are not so doing.

Responsibility of Board.

Transfers at fair value.

(c) The disposal agency responsible for any such property shall transfer it to the Government agency acquiring it at the fair value of the property as fixed by the disposal agency, under regulations prescribed by the Board, unless transfer without reimbursement or transfer of funds is otherwise authorized by law.

DISPOSAL TO LOCAL GOVERNMENTS AND NONPROFIT INSTITUTIONS

SEC. 13. (a) The Board shall prescribe regulations for the disposition of surplus property to States and their political subdivisions and instrumentalities, and to tax-supported and nonprofit institu-

tions, and shall determine on the basis of need what transfers shall be made. In formulating such regulations the Board shall be guided by the objectives of this Act and shall give effect to the following policies to the extent feasible and in the public interest:

Policies governing disposition.

Property for educational use.

(1) (A) Surplus property that is appropriate for school, classroom, or other educational use may be sold or leased to the States and their political subdivisions and instrumentalities, and tax-supported educational institutions, and to other non-profit educational institutions which have been held exempt from taxation under section 101 (6) of the Internal Revenue Code.

53 Stat. 33.
26 U. S. C. § 101 (6).

Surplus medical supplies, etc.

(B) Surplus medical supplies, equipment, and property suitable for use in the protection of public health, including research, may be sold or leased to the States and their political subdivisions and instrumentalities, and to tax-supported medical institutions, and to hospitals or other similar institutions not operated for profit which have been held exempt from taxation under section 101 (6) of the Internal Revenue Code.

53 Stat. 33.
26 U. S. C. § 101 (6).

Considerations in fixing sale or lease value.

(C) In fixing the sale or lease value of property to be disposed of under subparagraph (A) and subparagraph (B) of this paragraph, the Board shall take into consideration any benefit which has accrued or may accrue to the United States from the use of such property by any such State, political subdivision, instrumentality, or institution.

Disposal to public institutions, etc., in public interest.

(2) Surplus property shall be disposed of so as to afford public and governmental institutions, non-profit or tax-supported educational institutions, charitable and eleemosynary institutions, non-profit or tax-supported hospitals and similar institutions, States, their political subdivisions and instrumentalities, and volunteer fire companies, an opportunity to fulfill, in the public interest, their legitimate needs.

Property of no commercial value.
Donation or destruction.

(b) Under regulations prescribed by the Board, whenever the Government agency authorized to dispose of any property finds that it has no commercial value or that the cost of its care and handling and disposition would exceed the estimated proceeds, the agency may donate such property to any agency or institution supported by the Federal Government or any State or local government, or to any non-profit educational or charitable organization, or, if that is not feasible, shall destroy or otherwise dispose of such property, but, except in the case of property the immediate destruction of which is necessary or desirable either because of the nature of the property or because of the expense or difficulty of its care and handling, no property shall be destroyed until thirty days after public notice of the proposed destruction thereof has been given (and a copy of such notice given to the Board at the beginning of such thirty-day period) and an attempt has been made within such thirty days to dispose of such property otherwise than by destruction.

Public notice of proposed destruction.

(c) No airport and no harbor or port terminal, including necessary operating equipment, shall be otherwise disposed of until it has first been offered, under regulations to be prescribed by the Board, for sale or lease to the State, political subdivision thereof, and any municipality, in which it is situated, and to all municipalities in the vicinity thereof.

Airports, harbors, and port terminals.

(d) Whenever any State or political subdivision thereof, or any State or Government agency or instrumentality certifies to the Board that any power transmission line determined to be surplus property under the provisions of this Act is needful for or adaptable to the requirements of any public or cooperative power project, such line and the right-of-way acquired for its construction shall not be sold,

(e) In disposing of any surplus real property, as defined in section 23, on or across which highways or streets had been established and constructed and were being maintained by the States or their political subdivisions or instrumentalities at the time such surplus real property was acquired by the Government, and where such highways or streets were vacated, destroyed, or shut off from general public use in order to meet the requirements and serve the purposes of the Government, the States or their political subdivisions or instrumentalities first shall be given a reasonable time, to be fixed by the Board, in which to repurchase the original rights-of-way on which such highways or streets were established and in which to purchase such new or additional rights-of-way as may be required for reestablishing, in whole or in part, such highways or streets of greater width or on new and more adequate locations, at a price not exceeding that paid therefor by the Government.

Priority.

(f) The disposal of surplus property under this section to States and political subdivisions and instrumentalities thereof shall be given priority over all other disposals of property provided for in this Act except transfers under section 12.

DISPOSITION BY OWNING AGENCY

Disposition for war production purposes.

SEC. 14. (a) Subject only to the regulations of the Board with respect to price policies, any owning agency may dispose of any property for the purpose of war production or authorize any contractor with such agency or subcontractor thereunder to retain or dispose of any contractor inventories for the purpose of war production. The Board may empower any owning agency, subject to the regulations of the Board, to authorize any contractor with such agency or subcontractor thereunder to retain or dispose of any contractor inventories for any other purpose which in the opinion of the Board is not contrary to the objectives of this Act. Where any owning agency takes possession of any contractor inventory from any contractor with the agency or subcontractor thereunder, such property shall be disposed of only in accordance with the provisions of this Act.

Classes of disposable property.

(b) Subject only to subsection (c) of this section, any owning agency may dispose of—

(1) any property which is damaged or worn beyond economical repair;

(2) any waste, salvage, scrap, or other similar items;

(3) any product of industrial, research, agricultural, or livestock operations, or of any public works construction or maintenance project, carried on by such agency;

which does not consist of strategic minerals and metals, as defined in section 22.

Post, p. 776.
Restriction of authority.

(c) Whenever the Board deems such action necessary to effectuate the objectives and policies of this Act, the Board, by regulations, shall restrict the authority of any owning agency to dispose of any class of surplus property under subsection (b) of this section.

METHODS OF DISPOSITION

SEC. 15. (a) Notwithstanding the provisions of any other law but subject to the provisions of this Act, whenever any Government agency is authorized to dispose of property under this Act, then the agency may dispose of such property by sale, exchange, lease, or transfer, for

cash, credit, or other property, with or without warranty, and upon such other terms and conditions, as the agency deems proper: *Provided, however,* That in the case of raw materials, consumer goods, and small tools, hardware, and nonassembled articles which may be used in the manufacture of more than one type of product, no extension of credit under this Act shall be for a longer period than three years.

Credit extensions.

(b) Any owning agency or disposal agency may execute such documents for the transfer of title or other interest in property or take such other action as it deems necessary or proper to transfer or dispose of property or otherwise to carry out the provisions of this Act, and, in the case of surplus property, shall do so to the extent required by the regulations of the Board.

Transfer of title or other interest.

DISPOSITIONS TO VETERANS

SEC. 16. The Board shall prescribe regulations to effectuate the objectives of this Act to aid veterans to establish and maintain their own small business, professional, or agricultural enterprises, by affording veterans suitable preferences to the extent feasible and consistent with the policies of this Act in the acquisition of the types of surplus property useful in such enterprises.

DISPOSITIONS IN RURAL AREAS

SEC. 17. The Board shall devise ways and means and prescribe regulations in cooperation with the War Food Administrator providing for the sale of surplus property in such quantities in rural localities and in such manner as will assure farmers and farmers' cooperative associations equal opportunity with others to purchase surplus property: *Provided, however,* That in cases where a shortage of trucks, machinery, and equipment impairs farm production, a program shall be developed by the Board in cooperation with the Agricultural Adjustment Agency whereby a reasonable portion of the surplus supply will be made available for sale in rural areas to farmers and farmers' cooperative associations.

SMALL BUSINESS

SEC. 18. (a) It shall be the duty of the Board to devise ways and means and prescribe regulations to prevent any discrimination against small business in the disposal and distribution and use of any surplus property.

Prevention of discrimination.

(b) The Board shall by regulations determine, or provide for the determination, as to all surplus property in the hands of each disposal agency, the size of lots in which, and the areas in which, the various classes of such property should be offered consistently with the usual and customary commercial practice with respect to such class. The available supply of each class in each area shall be so disposed of as to give to prospective purchasers, within such area, of any particular amount (not smaller than the smallest lot consistent with such commercial practice) preference (by affording them reasonable opportunity to acquire the desired amount) over prospective purchasers of larger amounts.

Determination of lots and areas.

(c) The Smaller War Plants Corporation is hereby specifically charged with the responsibility of cooperating with the Board and with the owning and disposal agencies, of making surveys from time to time, and bringing to the attention of the agencies and the Board the needs and requirements of small business and any cases or situa-

tions which have resulted in or would effect discrimination against small business in the purchase or acquisition of surplus property by them and in the disposal thereof by the agencies.

Consultations.

(d) The Smaller War Plants Corporation is hereby authorized and directed to consult with small business to obtain full information concerning the needs of small business for surplus property.

Purchases for resale.

(e) The Smaller War Plants Corporation shall have the power to purchase any surplus property for resale, subject to regulations of the Board, to small business (and is empowered to receive other property in exchange as partial or full payment therefor), when in its judgment, such disposition is required to preserve and strengthen the competitive position of small business, or will assist the Corporation in the discharge of the duties and responsibilities imposed upon it. The provisions of subsections (a) and (c) of section 12 shall be applicable to purchases made by the Smaller War Plants Corporation under this subsection.

Ante, p. 770.

Loans.

(f) The Smaller War Plants Corporation is hereby authorized, for the purpose of carrying out the objectives of this section, to make or guarantee loans to small business enterprises in connection with the acquisition, conversion, and operation of plants and facilities which have been determined to be surplus property, and, in cooperation with the disposal agencies, to arrange for sales of surplus property to small business concerns on credit or time bases.

Interim report.

(b) In the event that it is not possible within such period to prepare and submit a complete report to the Congress as to any class of property, the Board shall submit an interim report three months after the enactment of this Act, and shall submit a complete report as soon thereafter as possible. If the Board determines that it is desirable to alter or change any such plan or program or to prepare a report on any other class of property, it shall prepare in accordance with the provisions of this subsection and submit to the Congress an additional report, setting forth the altered or changed plan or program or a plan or program relating to the new class of property.

Additional report.

(c) Whenever the Board may deem it to be in the interest of the objectives of this Act it may authorize the disposition of any surplus property listed in classes 9 to 12, inclusive, of subsection (a) of this section. With respect to the property listed in classes 1 to 8, inclusive, no disposition shall be made or authorized until thirty days after such report (or additional report) has been made while Congress is in session, except that the Board may authorize any disposal agency to lease any such property for a term of not more than five years.

SEC. 20. Whenever any disposal agency shall begin negotiations for the disposition to private interests of a plant or plants or other property, which cost the Government \$1,000,000 or more, or of patents, processes, techniques or inventions, irrespective of cost, the disposal agency shall promptly notify the Attorney General of the proposed disposition and the probable terms or conditions thereof. Within a reasonable time, in no event to exceed ninety days after receiving such notification, the Attorney General shall advise the Board and the disposal agency whether, in his opinion, the proposed disposition will violate the antitrust laws. Upon the request of the Attorney General, the Board or other Government agency shall furnish or cause to be furnished such information as it may possess which the Attorney General determines to be appropriate or necessary to enable him to give the advice called for by this section or to determine whether any other disposition of surplus property violates the antitrust laws. Nothing in this Act shall impair, amend, or modify the antitrust laws or limit and prevent their application to persons who buy or otherwise acquire property under the provisions of this Act. As used in this section, the term "antitrust laws" includes the Act of July 2, 1890 (ch. 647, 26 Stat. 209), as amended; the Act of October 15, 1914 (ch. 323, 38 Stat. 730), as amended; the Federal Trade Commission Act; and the Act of August 27, 1894 (ch. 349, secs. 73, 74, 28 Stat. 570), as amended.

(c) Surplus farm commodities shall not be sold in the United States under this Act in quantities in excess of, or at prices less than, those applicable with respect to sales of such commodities by the Commodity Credit Corporation, or at less than current prevailing market prices, whichever may be the higher, unless such commodities are being disposed of, pursuant to this Act, only for export; and the Commodity Credit Corporation may dispose of or cause to be disposed of for cash or its equivalent in goods or for adequately secured credit, for export only, and at competitive world prices, any farm commodity or product thereof without regard to restrictions with respect to the disposal of commodities imposed upon it by any law: *Provided*, That no food or food product shall be sold or otherwise disposed of under this subsection for export (1) if there is a shortage of such food or food product in the United States or if such sale or other disposition may result in such a shortage, or (2) if such food or food product is needed to supply the normal demands of consumers in the United States.

STOCK PILING

Government-owned strategic minerals and metals.

SEC. 22. (a) All Government-owned accumulations of strategic minerals and metals, including those owned by any Government corporation, shall be transferred by the owning agency, when determined to be surplus pursuant to this Act, to the account of the Treasury Procurement Division and shall be added to the stock pile authorized by the Act of June 7, 1939 (53 Stat. 811), as amended, and shall be subject to its provisions: *Provided*, That contractor inventory shall be so transferred only when the owning agency has taken possession of and determined such inventory to be surplus. The minerals and metals may be transferred in any form in which they are held, but the owning agency or the Treasury Procurement Division is authorized either before or after such legal transfer to cause such minerals or metals to be put into forms best suited for storage and use for the common defense. As used in this section the phrase "strategic minerals and metals" means copper, lead, zinc, tin, magnesium, manganese, chromite, nickel, molybdenum, tungsten, mercury, mica, quartz crystals, industrial diamonds, cadmium, fluorspar, cobalt, tantalite, antimony, vanadium, platinum, beryl, graphite (and to which may be added aluminum or any other minerals or metals in such quantities or amounts as the Army and Navy Munitions Board may determine to be necessary for the stock pile authorized by the Act of June 7, 1939), and shall include ores, concentrates, alloys, scrap, and partially and completely fabricated articles of which the principal components by value consist of such minerals and metals, but shall not include such fabricated articles as the Army and Navy determine are not suitable for their use in the form in which fabricated and which may be disposed of commercially at value substantially in excess of the metal market price of the component minerals and metals of such fabricated articles.

Provisional withholding of supplies.

(b) Pending a determination by the War Production Board that the supplies of the respective strategic minerals and metals available to industry are sufficient to meet the current requirements of industry, the owning agency subject to the regulations prescribed by the Surplus Property Board shall withhold from transfer under this section an amount of such minerals and metals equal to the deficiency, if any, estimated by the War Production Board as likely to exist for the requirements of industry for a period of six months for purposes other than war production; and may dispose of the minerals and metals

so withheld to the extent necessary to meet any such deficiency actually found to exist by the War Production Board, at the market price of the respective minerals and metals.

(c) Any Government-owned accumulations of strategic materials shall at the request of the War and Navy Departments be transferred by the owning agency, when determined to be surplus pursuant to this Act, to the account of the Treasury Procurement Division and shall be added to the stock pile authorized by the Act of June 7, 1939 (53 Stat. 811), as amended, and shall be subject to its provisions. The materials may be transferred in any form in which they are held and they shall thereafter be put into forms best suited for storage and use for the common defense. The term "strategic materials" as used in this subsection means all materials except strategic minerals and metals as defined in subsection (a) of this section and includes all materials in group A or in group B of the list of strategic and critical materials determined upon by the Army and Navy Munitions Board on March 6, 1944, as amended from time to time, but shall not include any of such materials which the Army and Navy determine do not meet the specifications suitable for common defense or are in excess of the needs thereof. The Army and Navy Munitions Board is authorized to direct the removal from the list of any of the materials as defined in this subsection, in which event they shall be disposed of under the provisions of this Act.

(d) Within three months following the enactment of this Act the Army and Navy Munitions Board shall submit to Congress its recommendations respecting the maximum and minimum amounts of each strategic mineral or metal which in its opinion should be held in the stock pile authorized by the Act of June 7, 1939. After one year from the submission of such recommendations, unless the Congress provides otherwise by law, the Board may authorize the proper disposal agencies to dispose of any Government-owned accumulations of strategic minerals and metals including those owned by any Government corporation when determined to be surplus pursuant to this Act.

DISPOSAL OF SURPLUS REAL PROPERTY

SEC. 23. (a) As used in this section—

(1) The term "real property" means property consisting of land, together with any fixtures and improvements thereon, located outside of the District of Columbia, but does not include war housing, industrial plants, factories, or similar structures and facilities, or the sites thereof, or land which the Board determines is essential to the use of any of the foregoing; and

(2) The term "surplus real property" means real property which has been determined under section 11 to be surplus property.

(b) Surplus real property which is not disposed of to Government agencies under section 12 or to States or their political subdivisions or instrumentalities under section 13 shall be disposed of in accordance with this section.

(c) Immediately after the reporting of surplus real property to the Board under section 11, the Board shall classify such property as agricultural, grazing, forest, mineral, or otherwise, as it may deem advisable. The classification may be revised from time to time.

(d) (1) (A) In the case of any surplus real property which was acquired by any Government agency after December 31, 1939, the person from whom such property was acquired shall be given notice, in such manner (which may include publication) as the Board by regulation may prescribe, that the property is to be disposed of by

(B) In the case of real property acquired by any Government agency after December 31, 1939, which either—

(i) has not been determined under section 11 to be surplus property, or

(ii) has been disposed of under section 12 or 13, or

(iii) is classified as suitable for a purpose different from that for which it was used when acquired by the Government, and with respect to which the person from whom it was acquired has signified an intention not to exercise the privilege granted under subparagraph (A),

the person from whom such property was acquired may be offered other surplus real property in the same area for purchase at private sale, if such other property is classified as suitable for the purpose for which the property so acquired was used when so acquired, and is otherwise similar to the property so acquired.

Agricultural property. Purchases by former tenants.

(2) In the case of surplus real property which was acquired by any Government agency after December 31, 1939, and which is classified as suitable for agricultural use, if any tenant (who was a tenant at the time of acquisition) of the person from whom such property was acquired, signifies, within a period of ninety days following public notice of sale, his intention to purchase such property, and no person has exercised his privilege under paragraph (1) (A), such tenant shall be entitled to purchase such property, in substantially the identical tract as when acquired by such Government agency, at private sale at any time during such ninety-day period.

Purchase price.

(3) The price to be paid for surplus real property sold under this subsection shall be a price not greater than that for which it was acquired by the United States, such acquisition price being properly adjusted to reflect any increase or decrease in the value of such property resulting from action by the United States, or a price equal to the market price at the time of sale of such property, whichever price is the lower.

Identification.

(4) The Board may by regulation prescribe methods for the identification of persons entitled to exercise the privileges conferred by this subsection.

Subdivision of property not disposed of.

(e) If any surplus real property is not disposed of under subsection (d)—

Agricultural.

(1) such property, if classified as suitable for agricultural use, shall be subdivided, as provided by the Board, whenever practicable into economic family-size units (taking into consideration the variations in sizes of economic units in different localities); and

Non-agricultural.

(2) such property, if not classified as suitable for agricultural use, shall be subdivided into the appropriate units in which the Board deems the property should be disposed of, giving due consideration to the character of the property, the economic use to which it is likely to be put, and the objectives of disposition as set forth in this Act.

Veterans' preference rights.

(f) (1) Whenever any surplus real property classified as suitable for agricultural, residential, or small business purposes is to be disposed of, except as provided in subsection (d) of this section, veterans shall be granted a preference in the purchase of such property over nonveterans.

(2) The following procedure shall govern the exercise of veterans' preference rights under this subsection: The disposal agency, under regulations prescribed by the Board, shall fix the price of each unit into which the property is subdivided under subsection (e) after taking into consideration the then current market value, the character of the property, and, if income producing property, the estimated earning capacity thereof. Before any such property is disposed of, except under subsection (d), any veteran may apply for the purchase of any or all units offered for sale at the price so fixed. The Board shall prescribe the time within which application shall be made and shall give such notice thereof as it deems reasonable to enable veterans to exercise their rights under this subsection. The Board shall provide for the selection of the purchaser of each unit by lot from among the applicants for the unit. If any applicant is selected as the purchaser of more than one unit, he shall elect which one to take, whereupon the right to purchase the remaining units shall go to the remaining applicants in the order in which their names were drawn. No veteran may apply for the purchase of any property under the provisions of this subsection if he has previously exercised a preference right under this section and has acquired property pursuant thereto. Sales to veterans under this subsection shall be upon such terms as the Board may prescribe.

(g) In the case of the death of a person entitled under this section to rights as a former owner or veteran, his spouse and children, in that order, shall succeed to such rights of the decedent existing at the time of his death. Any preference right under subsection (f) to which a person would have been entitled except for his death while in the active military or naval service of the United States, shall be extended to his spouse and children, in that order. No preference right may be assigned or exercised by power of attorney or through a power to select except as may be permitted by regulations prescribed by the Board in order to prevent the loss of such right by the holder thereof.

(h) A certificate by the disposal agency that the provisions of subsections (d), (f), and (g) have been complied with in the case of any property and that no qualified applicant has made application to exercise his privilege to purchase within the time limits fixed by or pursuant to this Act, shall terminate all privileges to purchase such property.

(i) In the case of surplus real property which is classified as suitable for agricultural use and which is not disposed of under subsection (d) or (f), such property (after subdivision as provided in subsection (e) (1)) shall be disposed of insofar as possible only to persons who expect to cultivate the land and to operate it for a livelihood. The Department of Agriculture is authorized and directed, within the limits of its current functions under the Bankhead-Jones Farm Tenant Act, to extend needed financial and other assistance to persons eligible for such assistance under the Bankhead-Jones Farm Tenant Act and the Servicemen's Readjustment Act of 1944, in connection with the disposal of surplus agricultural lands pursuant to this subsection.

All policies and procedures relating to surplus property prescribed by the Surplus War Property Administration, created by Executive Order Numbered 9425, dated February 19, 1944, or any other Government agency, in effect upon the effective date of this Act, and not inconsistent with this Act, shall remain in full force and effect unless and until superseded by regulations prescribed under this Act.

9 F. R. 2071.

TERMINATION INVENTORIES

SEC. 36. (a) The Congress recognizes that upon termination of war contracts, the plants of war contractors will be filled with vast termination inventories which until removed or disposed of will prevent or interfere with the resumption of civilian production and reemployment, and that so far as possible decisions should be made in advance of termination for the disposition and removal of such termination inventories without delay when termination occurs.

Measures should be taken to realize the greatest possible value from termination inventories.

(b) In advance of termination, to the maximum extent practicable—

(1) each contracting agency shall advise its war contractors of the classes of termination inventory the contracting agency will wish to retain for military purposes; and

(2) the Board shall establish procedures for advising war contractors as to the care and handling and disposition of termination inventory not required for military purposes, in order to effectuate the policies stated in subsection (a) of this section and the policies of section 11 (a) (3) of the Contract Settlement Act of 1944.

Ante, p. 658.

(c) To the extent that it is impracticable so to advise war contractors in advance of termination, the contracting agencies and the Board shall be prepared to give such advice as soon as practicable after termination of the war contract.

(d) The Board and the Director of Contract Settlement shall cooperate in carrying out the provisions of this section.

(e) For the purposes of this section, the terms "contracting agency", "termination inventory", and "war contractor" shall have the meanings assigned to such terms by section 3 of the Contract Settlement Act of 1944.

INCREASE IN LOAN RATE ON COTTON

SEC. 37. (a) Section 8 (a) (1) of the Stabilization Act of 1942, as amended (relating to loans upon certain agricultural commodities), is amended by striking out "at the rate in the case of cotton of 92½ per centum" and inserting in lieu thereof "at the rate in the case of cotton of 95 per centum".

Ante, p. 643.

(b) The amendment made by this section shall be applicable only with respect to crops harvested after December 31, 1943, but shall not apply to crops planted after 1944. In the case of loans made under such section 8 upon any of the 1944 crop of cotton before the amendment made by this section takes effect, the Commodity Credit Corporation is authorized and directed to increase or provide for increasing the amount of such loans to the amount of the loans which would have been made if the loan rate specified in the amendment made by this section had been in effect at the time the loans were made.

EXPIRATION DATE

SEC. 38. Unless extended by law, this Act shall expire at the end of three years following the date of the cessation of hostilities in the present war. For the purposes of this section the term "date of the cessation of hostilities in the present war" means the date proclaimed by the President as the date of such cessation, or the date specified in a concurrent resolution of the two Houses of Congress as the date of such cessation, whichever is the earlier.

SEPARABILITY OF PROVISIONS

SEC. 39. If any provision of this Act, or the application of such provision to any person or circumstance, is held invalid, the remainder of this Act or the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby.

TITLE II—DEMOBILIZATION AND RECONVERSION POLICIES

SEC. 201. The War and Navy Departments shall not retain persons in the armed forces for the purpose of preventing unemployment or awaiting opportunities for employment.

Restriction on retention of personnel in armed forces.

SEC. 202. Any contracting agency shall terminate prime contracts for war production whenever in the opinion of the agency the performance under such contracts will not be needed for the prosecution of the war, and shall not continue performance under such contracts merely for the purpose of providing business and employment, or for any purposes other than the prosecution of the war, unless the Office of War Mobilization and Reconversion finds that the continuation of some or all of the work in process under any such contract will benefit the Government or is necessary to avoid substantial physical injury to a plant or property.

Prime contracts for war production.

SEC. 203. Curtailments of war production or terminations of war contracts shall be integrated and synchronized with the expansion, resumption, or initiation of production for other war purposes, and, to the greatest extent compatible with the effective prosecution of the war, of production for nonwar use. To effectuate this policy—

Curtailments of war production.

(a) the contracting agencies shall continuously survey their product and material requirements and report to the Director, in such form and detail as he may determine, on current and anticipated changes in requirements and on all anticipated curtailments of war production or terminations of war contracts;

Survey of requirements.

(b) the executive agencies exercising control over manpower, production, or materials shall permit the expansion, resumption, or initiation of production for nonwar use whenever such production does not require materials, components, facilities, or labor needed for war purposes, or will not otherwise adversely affect or interfere with the production for war purposes. Such production for nonwar use shall be permitted regardless of whether one or more competitors normally engaged in the same type of production are still engaged in the performance under any contract which is needed for the prosecution of the war, and shall not be made dependent upon the existence of a concern or the functioning of a concern in a given field of activity at a given time;

Production for nonwar use.

(c) the Director shall—

Small plant participation.

SEC. 204. (a) Whenever the expansion, resumption, or initiation of production for nonwar use is authorized, on a restricted basis, by any executive agency having control over manpower, production, or materials, the restrictions imposed shall not be such as to prevent any small plant capable and desirous of participating in such expansion, resumption, or initiation of production for nonwar use from so participating in such production.

Materials available for use by small plants.

(b) Whenever such executive agency allocates available materials for the production of any item or group of items for nonwar use, it shall make available a percentage of such materials for the exclusive use by small plants for the production of such item or group of items. Such percentage shall be determined by the head of such agency after giving full consideration to the claims presented by the chairman of the board of directors of the Smaller War Plants Corporation and shall be fair and equitable.

Conditioning factors in allocation.

(c) In allocating the materials thus set aside among such small plants, such executive agency shall establish criteria, standards, quotas, schedules, or other conditioning factors after consultation with the chairman of the board of directors of the Smaller War Plants Corporation. Such executive agency shall allocate such materials directly to such small plants and shall, to the fullest extent practicable, provide for making such allocations through local offices easily accessible to such small plants. For the purposes of this title, a small plant means any small business concern engaged primarily in production or manufacturing either employing two hundred and fifty wage earners or less, or coming within such other categories as may be established by the head of such executive agency in consultation with the chairman of the board of directors of the Smaller War Plants Corporation. Such other categories shall be defined by taking into consideration the comparative sizes of establishments in a particular industry as reflected by sales volumes, quantities of materials consumed, capital investments, or by other criteria which are reasonably attributable to small plants rather than medium or large size plants.

"Small plant."

Surveys by Attorney General.

SEC. 205. The Attorney General is directed to make surveys for the purpose of determining any factors which may tend to eliminate competition, create or strengthen monopolies, injure small business, or otherwise promote undue concentration of economic power in the course of war mobilization and during the period of transition from war to peace and thereafter. The Attorney General shall submit to the Congress within ninety days after the approval of this Act, and at such times thereafter as he deems desirable, reports setting forth the results of such surveys and including recommendations for such legislation as he may deem necessary or desirable.

Administrator.

in this title referred to as the "Administrator"), to be appointed by the President, by and with the advice and consent of the Senate, and to receive a salary at the rate of \$12,000 per annum. The same person may serve as Administrator and as Administrator of Veterans' Affairs, but in such case he shall receive only the salary provided by this section.

To the extent necessary to achieve such purposes the Administrator shall have power to issue regulations in connection with the work of such executive agencies, but nothing in this title shall be deemed to confer any power or authority upon any such agency or authorize any activities by any such agency not authorized by provisions of law other than this title, or to extend any existing power beyond the date upon which it would otherwise expire; and

The Administrator shall, within the limits of funds which may be made available, employ and fix the compensation of such Assistant Administrators and other officers and employees, and may make such expenditures for supplies, facilities, and services as may be necessary to carry out his functions and the functions of the Administration. All such officers and employees shall be appointed in accordance with the civil-service laws and their compensation fixed in accordance with the Classification Act of 1923, as amended, except that Assistant Administrators and expert administrative, technical, and professional personnel may be employed and their compensation fixed without regard to such laws. To the fullest extent practicable, the Administrator shall perform the duties imposed upon him through the facilities and personnel of other executive agencies.

SEC. 2. For the purpose of carrying out the provisions of the Federal Highway Act, approved November 9, 1921, as amended and supplemented, there is hereby authorized to be appropriated the sum of \$1,500,000,000 to become available at the rate of \$500,000,000 a year for each of three successive post-war fiscal years: *Provided*, That of the sums authorized to be appropriated for the first of such fiscal years \$100,000,000 may be appropriated in accordance with the provisions of this Act to become available immediately upon apportionment of the authorization for said fiscal year for the making of surveys and plans and for construction: *Provided further*, That except for the sum appropriated pursuant to the preceding proviso, no part of the funds made available pursuant to this Act shall be used to pay costs incurred under any construction contract entered into by any State before the beginning of the first post-war fiscal year. The first post-war fiscal year shall be that fiscal year which ends on June 30th following the date proclaimed by the President as the termination of the existing war emergency, or following the date specified in a concurrent resolution of the two Houses of Congress as the date of such termination, or following the date on which the Congress by a concurrent resolution of the two Houses finds as a fact that the war emergency hereinbefore referred to has been relieved to an extent that will justify proceeding with the highway construction program provided for by this Act, whichever date is the earliest. The authorization for the first post-war fiscal year shall be apportioned among the States within thirty days from the passage of this Act. The authorization for the second post-war fiscal year shall be apportioned among the States within twelve months after the date of such termination or finding as above specified, and the authorization for the third post-war fiscal year shall be apportioned among the States within twelve months after the apportionment of the authorization for the second post-war fiscal year. As soon as the funds for each of the post-war fiscal years have been apportioned, the Commissioner of Public Roads is authorized to enter into agreements with the State highway departments for the making of surveys and plans, the acquisition of rights-of-way, and the post-war construction of projects. His approval of any such agreement shall be a contractual obligation of the Federal Government for the payment of its pro rata share of the cost of construction: *Provided, however*, That the Commissioner of Public Roads shall not, as a condition of approval of any project for Federal aid hereunder, require any State to acquire title to, or control of, any marginal land along the proposed highway in addition to that reasonably necessary for road surfaces, median strips, gutters, ditches, and side slopes and sufficient width to provide service roads for adjacent property to permit safe access at controlled locations in order to expedite traffic, promote safety, and minimize roadside parking.

SEC. 3. The sum authorized in section 2 for each year shall be available for expenditures as follows:

- (a) \$225,000,000 for projects on the Federal-aid highway system.
- (b) \$150,000,000 for projects on the principal secondary and feeder roads, including farm-to-market roads, rural free delivery mail and public-school bus routes, either outside of municipalities or inside of municipalities of less than five thousand population: *Provided*, That these funds shall be expended on a system of such roads selected by the State highway departments in cooperation with the county supervisors, county commissioners, or other appropriate local road officials

(a) The Federal share payable on account of any project provided for by the funds made available under the foregoing provisions of this Act shall not exceed 50 per centum of the construction cost thereof other than costs of rights-of-way, and as to costs of rights-of-way shall not exceed one-third of such costs: *Provided*, That in the case of any State containing unappropriated and unreserved public lands and nontaxable Indian lands, individual and tribal, exceeding 5 per centum of the total area of all lands therein the Federal share shall be increased in each of the three post-war years by a percentage of the remaining cost equal to the percentage that the area of all such lands in such State is of its total area: *Pro-*

vided further, That the entire construction cost of projects for the elimination of hazards of railway-highway crossings, including the separation or protection of grades at crossings, the reconstruction of existing railroad grade crossing structures, and the relocation of highways to eliminate grade crossings, may be paid from Federal funds, except that not more than 50 per centum of the right-of-way and property damage costs, paid from public funds, on any such project, may be paid from Federal funds: *Provided further*, That not more than 10 per centum of the sums apportioned to any State under the terms of this Act for each of such post-war fiscal years shall be used for such railway-highway projects, to be expended in accordance with the Federal Highway Act, as amended and supplemented, and the provisions of this section.

(b) Any railway involved in any project for the elimination of hazards of railway-highway crossings paid for in whole or in part from funds made available under this Act, shall be liable to the United States for a sum bearing the same ratio to the net benefit received by such railway from such project that the Federal funds expended on such project bear to the total cost of such project. For the purposes of this subsection, the net benefit received by a railway from any such project shall be deemed to be the amount by which the reasonable value of the total benefits received by it from such project exceeds the amount paid by it (including the reasonable value of any property rights contributed by it) toward the cost of such project; and in no case shall the total benefits to any railway or railways be deemed to have a reasonable value in excess of 10 per centum of the cost of any such project. The liability of any railway to the United States with respect to any such project may be discharged by paying to the United States, within six months after the completion of such project, such amount as the Commissioner of Public Roads determines to be the amount of such liability. Any such determination of the Commissioner shall be made on the basis of recommendations made to him by the State highway department and on the basis of such other information and investigation, if any, as the Commissioner deems necessary or proper. If any such railway has failed so to discharge its liability to the United States with respect to any project within six months after the completion thereof, the Commissioner of Public Roads shall request the Attorney General to institute proceedings against such railroad for the recovery of the amount for which it is liable under this subsection. The Attorney General is authorized to bring such proceedings on behalf of the United States in the appropriate district court of the United States, and the United States shall be entitled in such proceedings to recover such sums as it is considered and adjudged by the court that such railway is liable for in the premises. Any amounts paid to or recovered by the United States under this subsection shall be covered into the Treasury as miscellaneous receipts.

SEC. 6. If the Commissioner of Public Roads shall determine that it is necessary for the expeditious completion of projects undertaken pursuant to this Act, he may advance to any State from funds heretofore or hereafter made available the Federal share of the cost thereof to enable the State highway department to make prompt payments for work as it progresses: *Provided*, That such State, after June 30, 1945, does not divert to other than highway uses road user revenues in violation of section 12 of the Highway Act of June 18, 1934. The funds so advanced shall be deposited in a special trust account by the State treasurer, or other State official authorized under the laws of the State to receive Federal-aid highway funds, to be disbursed solely upon vouchers approved by the State highway department for work actually

be served outside of the State or district in which such court is located. Such proceedings shall follow as nearly as may be the law of the State of Iowa governing the proceedings for the condemnation of private property for public purposes in said State. Copies of any final judgment, decree, or order of such court in any such condemnation proceedings relating to land located outside said district shall be filed with the clerk of the court of the Federal district in which such land is located. In any such condemnation proceedings the commission shall be authorized to condemn all right, title, and interest in the bridge or bridges and approaches, and all right, title, and interest in real property necessary therefor.

SEC. 5. The commission and its successors and assigns are hereby authorized to provide for the payment of the cost of such bridge or bridges as may be acquired, reconstructed, or constructed, as provided herein, and approaches (including the approach highways, which, in the judgment of the commission, it is necessary or advisable to construct or cause to be constructed to provide suitable and adequate connection with existing improved highways) and the necessary land easements and appurtenances thereto, by an issue or issues of negotiable serial bonds of the commission, bearing interest, payable semi-annually, at the rate of not more than 6 per centum per annum, the principal and interest of which bonds shall be payable solely from the funds provided in accordance with this Act, and such payments may be further secured by mortgage of the bridge or bridges. All such bonds may be registerable as to principal alone or both principal and interest, shall be payable as to principal in twenty equal annual installments, shall be in such denominations, shall be executed in such manner, and shall be payable in such medium and at such place or places as the commission may determine, and the face amount thereof shall be so calculated as to produce, at the price of their sale, the cost of the bridge or bridges, acquired or constructed, and approaches and the land easements, and appurtenances used in connection therewith, when added to any other funds made available to the Commission for the use of said purposes. payment of the bonds, the safeguarding of money on hand or on deposit, and the rights and remedies of said trustee and the holders of the bonds, restricting the individual right of action of the bondholders as is customary in trust agreements respecting bonds of corporations. Such trust agreement may contain such provisions for protecting and enforcing the rights and remedies of the trustee and the bondholders as may be reasonable and proper and not inconsistent with the law.

Protection of rights, etc., of trustee and bondholders.

Sale of bonds.

Said bonds may be sold at not less than par after public advertisement for thirty days for bids to be opened publicly at the time and place stated in such advertisement and at the bid price which will yield the greatest return to the commission for the bonds to be sold. The price to be paid for the bridge or bridges acquired hereunder shall not exceed the reasonable value thereof at the time of the acquisition. The cost of the bridge to be constructed as provided herein, together with the approaches and approach highways, shall be deemed to include interest during construction of the bridge and for twelve months thereafter, and all engineering, legal, financing, architectural, traffic-surveying, condemnation, and other expenses incident to the bridge and the acquisition of the necessary property, including the cost of acquiring existing franchises and riparian rights relating to the bridge. If the proceeds of the bonds shall exceed the cost as finally determined, the excess shall be placed in the fund hereafter provided to pay the principal and interest of such bonds. Prior to the preparation of definite bonds the commission may, under like restrictions, issue temporary bonds or may, under like restrictions, issue temporary bonds or interim certificates, without coupons, of any denomination whatsoever, exchangeable for definite bonds when such bonds that have been executed are available for delivery.

Issuance of temporary bonds.

SEC. 6. The rates and schedule of toll to be charged for the use of such bridge or bridges, in accordance with the Act of Congress approved March 23, 1906, shall be continuously adjusted and maintained so as to provide a fund sufficient to pay for the reasonable cost of maintaining, repairing, and operating the bridge or bridges and approaches under economical management, and to provide a fund sufficient to pay the principal and interest of such bonds as the same shall fall due and the redemption or repurchase price of all or any thereof redeemed or repurchased before maturity as herein provided. All tolls and other revenues from said bridge or bridges are hereby pledged to such uses and to the application thereof as hereinafter in this section required. After payment or provision for payment therefrom of all such cost of maintenance, repair, and operation, and the reservation of an amount of money estimated to be sufficient for the same purpose during an ensuing period of not more than six months, the remainder of tolls collected shall be placed in a fund, at intervals to be determined by the commission prior to the issuance of the bonds, to pay the principal and interest of such bonds. An accurate record of the cost of the bridge or bridges and approaches; the expenditures for maintaining, repairing, and operating the same; and of the daily tolls collected, shall be kept and shall be available for the information of all persons interested. The commission shall classify in a reasonable way all traffic over the bridge or bridges so that the tolls shall be so fixed and adjusted by it as to be uniform in the application thereof to all traffic falling within reasonable classes, regardless of the status or character of any person, firm, or corporation participating in such traffic, and shall prevent all use of such bridge or bridges for traffic except upon payment of tolls so fixed and adjusted. No toll shall be charged officials or employees of the Commission, nor shall toll be charged officials of the Government

Within a reasonable time after the construction of any bridge or bridges, or the acquisition of any bridge or bridges, the commission shall file with the Public Roads Administration of the Federal Works Agency a sworn itemized statement showing the cost of constructing or purchasing the bridge or bridges and their approaches, the cost of acquiring any interest in real or other property necessary therefor, and the amount of bonds, debentures, or other evidence of indebtedness issued in connection with the construction or acquisition of said bridge or bridges.

Sworn itemized statements of costs, etc., to be filed.

SEC. 7. Nothing herein contained shall require the commission or its successors to maintain or operate any presently existing bridge or bridges acquired hereunder, if and when all bonds issued for account of such bridge or bridges shall have been retired or provision for the payment of interest on and the retirement of such bonds from the revenues from any other bridge or bridges shall have been made at the time of issuance of such bonds. Any such presently existing bridge or bridges so acquired and any appurtenances and property thereto connected and belonging, may be sold or otherwise disposed of or may be abandoned or dismantled whenever in the judgment of the commission or its successors, and subject to the approval of the Commissioner of Public Roads, Federal Works Agency, and the United States Secretary of War, it may be declared expedient so to do, and provisions with respect to and regulating any such sale, disposal, abandonment, or dismantlement may be included in proceedings for the issuance and sale of bonds for account of any such bridge or bridges. The commission and its successors may fix such rates of toll for the use of such bridge or bridges as it may deem proper, subject to the same conditions as are hereinabove required as to tolls for traffic over the bridge to be constructed, provided tolls shall be fixed and revised from time to time for traffic over all bridges so as not to adversely reflect upon the earnings of any bridge or bridges for account of which bonds may be outstanding. An accurate record of the cost of acquiring or constructing each such bridge; the expenditures for maintaining, repairing, and operating the same; and of the daily tolls collected shall be kept and shall be available for the information of all persons interested.

SEC. 8. (a) After payment of the bonds and interest, or after a sinking fund sufficient for such payment shall have been provided and shall be held solely for that purpose, the commission shall deliver deeds or other suitable instruments of conveyance of the interest of the commission in and to that part of said bridge or bridges within Iowa to the State of Iowa or any municipality or agency thereof as may be authorized by or pursuant to law to accept the same (hereafter referred to as the "Iowa interests"), and that part of said bridge or bridges within Illinois to the State of Illinois or any municipality or agency thereof as may be authorized by or pursuant to law to accept the same (hereafter referred to as the "Illinois interests"), under the condition that the bridge or bridges shall thereafter be free of tolls and be properly maintained, operated, and repaired by the Iowa interests and the Illinois interests, as may be agreed upon; but if the Iowa or Illinois interests, as the case may be, fail to accept, or are not authorized to accept, their respective portions of said bridge or bridges, then the commission may deliver deeds, or other suitable instruments of conveyance of said portions, to any other interest which may accept and may be authorized to accept the same, under the condition that the

The rate or rates of toll for crossing any bridge now existing or hereafter constructed which abuts upon or enters into the corporate limits of the city of Clinton, Iowa, shall not be reduced below the rate or rates now in effect on existing bridges so long as any indebtedness of said commission for the account of any bridge or bridges shall be outstanding and unpaid. Before deeds or other suitable instruments of conveyance are offered to the Iowa interests and the Illinois interests for acceptance, the commission shall place the bridge or bridges in a state of repair which will meet the approval of the Highway Departments of the States of Iowa and Illinois, and if in the opinion of said highway departments said bridge or bridges will need repainting within two years after the date of conveyance of title, the commission shall turn over to the Iowa interests and the Illinois interests sufficient funds to pay the cost of repainting.

AN ACT

Authorizing the construction of certain public works on rivers and harbors for flood control, and for other purposes.

December 22, 1944
[H. R. 4485]
[Public Law 534]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, In connection with the exercise of jurisdiction over the rivers of the Nation through the construction of works of improvement, for navigation or flood control,

Navigation and flood control.
Declaration of policy.

as herein authorized, it is hereby declared to be the policy of the Congress to recognize the interests and rights of the States in determining the development of the watersheds within their borders and likewise their interests and rights in water utilization and control, as herein authorized to preserve and protect to the fullest possible extent established and potential uses, for all purposes, of the waters of the Nation's rivers; to facilitate the consideration of projects on a basis of comprehensive and coordinated development; and to limit the authorization and construction of navigation works to those in which a substantial benefit to navigation will be realized therefrom and which can be operated consistently with appropriate and economic use of the waters of such rivers by other users.

In conformity with this policy:

Submission of plans, reports, etc.

Interests of affected States.

Waters arising west of 97th meridian.

Representative for State.

"Affected State or States."

Coordination with other plans.

Transmittal of proposed report to States, etc.

Views and recommendations.

Transmittal of proposed report to Congress.

(a) Plans, proposals, or reports of the Chief of Engineers, War Department, for any works of improvement for navigation or flood control not heretofore or herein authorized, shall be submitted to the Congress only upon compliance with the provisions of this paragraph (a). Investigations which form the basis of any such plans, proposals, or reports shall be conducted in such a manner as to give to the affected State or States, during the course of the investigations, information developed by the investigations and also opportunity for consultation regarding plans and proposals, and, to the extent deemed practicable by the Chief of Engineers, opportunity to cooperate in the investigations. If such investigations in whole or part are concerned with the use or control of waters arising west of the ninety-seventh meridian, the Chief of Engineers shall give to the Secretary of the Interior, during the course of the investigations, information developed by the investigations and also opportunity for consultation regarding plans and proposals, and to the extent deemed practicable by the Chief of Engineers, opportunity to cooperate in the investigations. The relations of the Chief of Engineers with any State under this paragraph (a) shall be with the Governor of the State or such official or agency of the State as the Governor may designate. The term "affected State or States" shall include those in which the works or any part thereof are proposed to be located; those which in whole or part are both within the drainage basin involved and situated in a State lying wholly or in part west of the ninety-eighth meridian; and such of those which are east of the ninety-eighth meridian as, in the judgment of the Chief of Engineers, will be substantially affected. Such plans, proposals, or reports and related investigations shall be made to the end, among other things, of facilitating the coordination of plans for the construction and operation of the proposed works with other plans involving the waters which would be used or controlled by such proposed works. Each report submitting any such plans or proposals to the Congress shall set out therein, among other things, the relationship between the plans for construction and operation of the proposed works and the plans, if any, submitted by the affected States and by the Secretary of the Interior. The Chief of Engineers shall transmit a copy of his proposed report to each affected State, and, in case the plans or proposals covered by the report are concerned with the use or control of waters which rise in whole or in part west of the ninety-seventh meridian, to the Secretary of the Interior. Within ninety days from the date of receipt of said proposed report, the written views and recommendations of each affected State and of the Secretary of the Interior may be submitted to the Chief of Engineers. The Secretary of War shall transmit to the Congress, with such comments and recommendations as he deems appropriate, the proposed report together with the submitted views and recommendations of affected States and

of the Secretary of the Interior. The Secretary of War may prepare and make said transmittal any time following said ninety-day period. The letter of transmittal and its attachments shall be printed as a House or Senate document.

(b) The use for navigation, in connection with the operation and maintenance of such works herein authorized for construction, of waters arising in States lying wholly or partly west of the ninety-eighth meridian shall be only such use as does not conflict with any beneficial consumptive use, present or future, in States lying wholly or partly west of the ninety-eighth meridian, of such waters for domestic, municipal, stock water, irrigation, mining, or industrial purposes.

(c) The Secretary of the Interior, in making investigations of and reports on works for irrigation and purposes incidental thereto shall, in relation to an affected State or States (as defined in paragraph (a) of this section), and to the Secretary of War, be subject to the same provisions regarding investigations, plans, proposals, and reports as prescribed in paragraph (a) of this section for the Chief of Engineers and the Secretary of War. In the event a submission of views and recommendations, made by an affected State or by the Secretary of War pursuant to said provisions, sets forth objections to the plans or proposals covered by the report of the Secretary of the Interior, the proposed works shall not be deemed authorized except upon approval by an Act of Congress; and subsection 9 (a) of the Reclamation Project Act of 1939 (53 Stat. 1187) and subsection 3 (a) of the Act of August 11, 1939 (53 Stat. 1418), as amended, are hereby amended accordingly.

SEC. 2. That the words "flood control" as used in section 1 of the Act of June 22, 1936, shall be construed to include channel and major drainage improvements, and that hereafter Federal investigations and improvements of rivers and other waterways for flood control and allied purposes shall be under the jurisdiction of and shall be prosecuted by the War Department under the direction of the Secretary of War and supervision of the Chief of Engineers, and Federal investigations of watersheds and measures for run-off and water-flow retardation and soil-erosion prevention on watersheds shall be under the jurisdiction of and shall be prosecuted by the Department of Agriculture under the direction of the Secretary of Agriculture, except as otherwise provided by Act of Congress.

SEC. 3. That section 3 of the Act approved June 22, 1936 (Public, Numbered 738, Seventy-fourth Congress), as amended by section 2 of the Act approved June 28, 1938 (Public, Numbered 761, Seventy-fifth Congress), shall apply to all works authorized in this Act, except that for any channel improvement or channel rectification project provisions (a), (b), and (c) of section 3 of said Act of June 22, 1936, shall apply thereto, and except as otherwise provided by law: *Provided*, That the authorization for any flood-control project herein adopted requiring local cooperation shall expire five years from the date on which local interests are notified in writing by the War Department of the requirements of local cooperation, unless said interests shall within said time furnish assurances satisfactory to the Secretary of War that the required cooperation will be furnished.

SEC. 4. The Chief of Engineers, under the supervision of the Secretary of War, is authorized to construct, maintain, and operate public park and recreational facilities in reservoir areas under the control of the War Department, and to permit the construction, maintenance, and operation of such facilities. thereon, in reservoir areas for such periods and upon such terms as he may deem reasonable: *Provided*, That preference shall be given to Federal, State, or local governmental agencies, and licenses may be granted without monetary consideration, to such agencies for the use of areas suitable for public park and recreational purposes, when the Secretary of War determines such action to be in the public interest. The water areas of all such reservoirs shall be open to public use generally, without charge, for boating, swimming, bathing, fishing, and other recreational purposes, and ready access to and exit from such water areas along the shores of such reservoirs shall be maintained for general public use, when such use is determined by the Secretary of War not to be contrary to the public interest, all under such rules and regulations as the Secretary of War may deem necessary. No use of any area to which this section applies shall be permitted which is inconsistent with the laws for the protection of fish and game of the State in which such area is situated. All moneys received for leases or privileges shall be deposited in the Treasury of the United States as miscellaneous receipts.

SEC. 5. Electric power and energy generated at reservoir projects under the control of the War Department and in the opinion of the Secretary of War not required in the operation of such projects shall be delivered to the Secretary of the Interior, who shall transmit and dispose of such power and energy in such manner as to encourage the most widespread use thereof at the lowest possible rates to consumers consistent with sound business principles, the rate schedules to become effective upon confirmation and approval by the Federal Power Commission. Rate schedules shall be drawn having regard to the recovery (upon the basis of the application of such rate schedules to the capacity of the electric facilities of the projects) of the cost of producing and transmitting such electric energy, including the amortization of the capital investment allocated to power over a reasonable period of years. Preference in the sale of such power and energy shall be given to public bodies and cooperatives. The Secretary of the Interior is authorized, from funds to be appropriated by the Congress, to construct or acquire, by purchase or other agreement, only such transmission lines and related facilities as may be necessary in order to make the power and energy generated at said projects available in wholesale quantities for sale on fair and reasonable terms and conditions to facilities owned by the Federal Government, public bodies, cooperatives, and privately owned companies. All moneys received from such sales shall be deposited in the Treasury of the United States as miscellaneous receipts.

SEC. 6. That the Secretary of War is authorized to make contracts with States, municipalities, private concerns, or individuals, at such prices and on such terms as he may deem reasonable, for domestic and industrial uses for surplus water that may be available at any reservoir under the control of the War Department: *Provided*, That no contracts for such water shall adversely affect then existing lawful uses of such water. All moneys received from such contracts shall be deposited in the Treasury of the United States as miscellaneous receipts.

SEC. 7. Hereafter, it shall be the duty of the Secretary of War to prescribe regulations for the use of storage allocated for flood control or navigation at all reservoirs constructed wholly or in part with Federal funds provided on the basis of such purposes, and the operation of any such project shall be in accordance with such regulations: *Provided*, That this section shall not apply to the Tennessee Valley Authority, except that in case of danger from floods on the Lower Ohio and Mississippi Rivers the Tennessee Valley Authority is

directed to regulate the release of water from the Tennessee River into the Ohio River in accordance with such instructions as may be issued by the War Department.

SEC. 8. Hereafter, whenever the Secretary of War determines, upon recommendation by the Secretary of the Interior that any dam and reservoir project operated under the direction of the Secretary of War may be utilized for irrigation purposes, the Secretary of the Interior is authorized to construct, operate, and maintain, under the provisions of the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto), such additional works in connection therewith as he may deem necessary for irrigation purposes. Such irrigation works may be undertaken only after a report and findings thereon have been made by the Secretary of the Interior as provided in said Federal reclamation laws and after subsequent specific authorization of the Congress by an authorization Act; and, within the limits of the water users' repayment ability such report may be predicated on the allocation to irrigation of an appropriate portion of the cost of structures and facilities used for irrigation and other purposes. Dams and reservoirs operated under the direction of the Secretary of War may be utilized hereafter for irrigation purposes only in conformity with the provisions of this section, but the foregoing requirement shall not prejudice lawful uses now existing: *Provided*, That this section shall not apply to any dam or reservoir heretofore constructed in whole or in part by the Army engineers, which provides conservation storage of water for irrigation purposes.

SEC. 9. (a) The general comprehensive plans set forth in House Document 475 and Senate Document 191, Seventy-eighth Congress, second session, as revised and coordinated by Senate Document 247, Seventy-eighth Congress, second session, are hereby approved and the initial stages recommended are hereby authorized and shall be prosecuted by the War Department and the Department of the Interior as speedily as may be consistent with budgetary requirements.

(b) The general comprehensive plan for flood control and other purposes in the Missouri River Basin approved by the Act of June 28, 1938, as modified by subsequent Acts, is hereby expanded to include the works referred to in paragraph (a) to be undertaken by the War Department; and said expanded plan shall be prosecuted under the direction of the Secretary of War and supervision of the Chief of Engineers.

(c) Subject to the basin-wide findings and recommendations regarding the benefits, the allocations of costs and the repayments by water users, made in said House and Senate documents, the reclamation and power developments to be undertaken by the Secretary of the Interior under said plans shall be governed by the Federal Reclamation Laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto), except that irrigation of Indian trust and tribal lands, and repayment therefor, shall be in accordance with the laws relating to Indian lands.

(d) In addition to previous authorizations there is hereby authorized to be appropriated the sum of \$200,000,000 for the partial accomplishment of the works to be undertaken under said expanded plans by the Corps of Engineers.

(e) The sum of \$200,000,000 is hereby authorized to be appropriated for the partial accomplishment of the works to be undertaken under said plans by the Secretary of the Interior.

Supp. III, § 1508 (a).
Insurance against loss on wheat, cotton, and flax.

Percentage coverage, limitation.

Losses not covered.

County provisions.

Other agricultural commodities.

Limitations.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That subsection (a) of section 508 of the Federal Crop Insurance Act, as amended, is amended to read as follows:

“(a) (1) Commencing with the wheat, cotton, and flax crops planted for harvest in 1945, to insure, upon such terms and conditions not inconsistent with the provisions of this title as it may determine, producers of wheat, cotton, and flax against loss in yields due to unavoidable causes, including drought, flood, hail, wind, frost, winter-kill, lightning, fire, excessive rain, snow, wild-life, hurricane, tornado, insect infestation, plant disease, and such other unavoidable causes as may be determined by the Board. Such insurance shall cover a percentage to be determined by the Board not in excess of 75 per centum of the recorded or appraised average yield of such commodities on the insured farm for a representative period subject to such adjustments as the Board may prescribe to the end that the average yields fixed for farms in the same area, which are subject to the same conditions, may be fair and just. Such insurance shall not cover losses due to the neglect or malfeasance of the producer, or to the failure of the producer to reseed to the same crop in areas and under circumstances where it is customary to so reseed, or to the failure of the producer to follow established good farming practices. Insurance shall not be provided in any county unless written applications therefor are filed covering at least fifty farms or one-third of the farms normally producing the agricultural commodities authorized to be insured, except that insurance may be provided for producers on farms situated in a local producing area bordering on a county with a crop-insurance program. The Board may limit insurance in any county or area, or on any farm, on the basis of the insurance risk involved.

“(2) For the purpose of determining the most practical plan, terms, and conditions of insurance with respect to corn, dry beans, oats, barley, rye, tobacco, rice, peanuts, soybeans, sugar beets, sugarcane, timber and forests, potatoes and other vegetables, citrus and other fruits, tame hay, and any other agricultural commodity, if sufficient actuarial data are available, as determined by the Board, to insure upon such terms and conditions not inconsistent with the provisions of this title as it may determine, producers of such agricultural commodities against loss due to the unavoidable causes covered in paragraph (1) of this subsection: *Provided*, That such insurance shall be limited in 1945 to corn and tobacco and to not more than three additional crops for each year thereafter. Insurance provided for any agricultural commodity under this paragraph shall be subject to the limitations and conditions provided in paragraph (1) of this subsection, shall be for a period of not more than three years, and shall be limited to producers in not to exceed twenty counties selected by the Board as representative of the several areas where the agricultural commodity is normally produced: *Provided, however*, That such insurance may cover a

percentage not in excess of 75 per centum of the investment in the crop, as determined by the Board. The Corporation shall report annually to the Congress the results of its operations as to each commodity under this paragraph."

SEC. 2. That subsection (b) of section 508 of the Federal Crop Insurance Act, as amended, is amended to read as follows:

"(b) To fix adequate premiums for insurance in the agricultural commodity or in cash, at such rates as the Board deems sufficient to cover claims for crop losses on such insurance and to establish as expeditiously as possible a reasonable reserve against unforeseen losses. Such premiums shall be collected at such time or times, or shall be secured in such manner, as the Board may determine: *Provided*, That, after the crop year of 1949, not more than a sum equivalent to 25 per centum of the premiums collected in the preceding year (beginning calculation of premiums collected in the crop year of 1949) shall be used for administrative expenses in any current operating year."

"(c) To adjust and pay claims for losses in the agricultural commodity or in cash, under rules prescribed by the Board: *Provided*, however, That, after the crop year of 1949, if the total amount of accumulated claims for losses on any agricultural commodity for any year exceeds the total amount of the premiums collected less the accumulated premium reserves of the Corporation with respect to any such commodity, (which reserves, after the crop year of 1948, shall not be less than 10 per centum of the premiums collected on such commodity), such claims shall be paid on a pro rata reduced basis. The Corporation shall provide for the posting annually in each county at the county courthouse of a list of indemnities paid for losses on farms in such county. In the event that any claim for indemnity under the provisions of this title is denied by the Corporation, an action on such claim may be brought against the Corporation in the United States district court, or in any court of record of the State having general jurisdiction, sitting in the district or county in which the insured farm is located, and jurisdiction is hereby conferred upon such district courts to determine such controversies without regard to the amount in controversy: *Provided*, That no suit on such claim shall be allowed under this section unless the same shall have been brought within one year after the date when notice of denial of the claim is mailed to and received by the claimant."

AN ACT

To regulate in the District of Columbia the transfer of shares of stock in corporations and to make uniform the law with reference thereto.

December 23, 1944
[S. 1079]
[Public Law 567]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

Uniform Stock Transfer Act, D. C.

HOW TITLE TO CERTIFICATES AND SHARES MAY BE TRANSFERRED

SECTION 1. That title to a certificate and to the shares represented thereby can be transferred only—

(a) by delivery of the certificate endorsed either in blank or to a specified person by the person appearing by the certificate to be the owner of the shares represented thereby, or

(b) by delivery of the certificate and a separate document containing a written assignment of the certificate or a power of attorney to sell, assign, or transfer the same or the shares represented thereby, signed by the person appearing by the certificate to be the owner of the shares represented thereby. Such assignment or power of attorney may be either in blank or to a specific person.

The provisions of this section shall be applicable although the charter or articles of incorporation or code of regulations or bylaws of the corporation issuing the certificate and the certificate itself provide that the shares represented thereby shall be transferable only on the books of the corporation or shall be registered by a registrar or transferred by a transfer agent.

**POWERS OF THOSE LACKING FULL LEGAL CAPACITY AND OF FIDUCIARIES
NOT ENLARGED**

SEC. 2. Nothing in this Act shall be construed as enlarging the powers of an infant or other person lacking full legal capacity, or of a trustee, executor, or administrator, or other fiduciary, to make a valid endorsement, assignment, or power of attorney.

CORPORATION NOT FORBIDDEN TO TREAT REGISTERED HOLDER AS OWNER

SEC. 3. Nothing in this Act shall be construed as forbidding a corporation—

- (a) to recognize the exclusive right of a person registered on its books as the owner of shares to receive dividends, and to vote as such owner, or
- (b) to hold liable for calls and assessments a person registered on its books as the owner of shares.

**TITLE DERIVED FROM CERTIFICATE EXTINGUISHES TITLE DERIVED FROM A
SEPARATE DOCUMENT**

SEC. 4. The title of a transferee of a certificate under a power of attorney or assignment not written upon the certificate, and the title of any person claiming under such transferee, shall cease and determine if, at any time prior to the surrender of the certificate to the corporation issuing it, another person, for value in good faith, and without notice of the prior transfer, shall purchase and obtain delivery of such certificate with the endorsement of the person appearing by the certificate to be the owner thereof, or shall purchase and obtain delivery of such certificate and the written assignment or power of attorney of such person, though contained in a separate document.

WHO MAY DELIVER A CERTIFICATE

SEC. 5. The delivery of a certificate to transfer title in accordance with the provisions of section 1 is effectual, except as provided in section 7, though made by one having no right of possession and having no authority from the owner of the certificate or from the person purporting to transfer the title.

ENDORSEMENT EFFECTUAL IN SPITE OF FRAUD, DURESS, MISTAKE, REVOCATION, DEATH, INCAPACITY, OR LACK OF CONSIDERATION OR AUTHORITY

SEC. 6. The endorsement of a certificate by the person appearing by the certificate to be the owner of the shares represented thereby is effectual, except as provided in section 7, though the endorser or transferor—

- (a) was induced by fraud, duress, or mistake, to make the endorsement or delivery; or
- (b) has revoked the delivery of the certificate or the authority given by the endorsement or delivery of the certificate; or
- (c) has died or become legally incapacitated after the endorsement, whether before or after the delivery of the certificate; or
- (d) has received no consideration.

RESCISSION OF TRANSFER

SEC. 7. If the endorsement or delivery of a certificate—

- (a) was procured by fraud or duress; or
- (b) was made under such mistake as to make the endorsement or delivery inequitable; or

If the delivery of a certificate was made—

- (c) without authority from the owner; or
- (d) after the owner's death or legal incapacity, the possession of the certificate may be reclaimed and the transfer thereof rescinded, unless—

(1) the certificate has been transferred to a purchaser for value in good faith without notice of any facts making the transfer wrongful; or

(2) the injured person has elected to waive the injury or has been guilty of laches in endeavoring to enforce his rights.

Any court of appropriate jurisdiction may enforce specifically such right to reclaim the possession of the certificate or to rescind the transfer thereof and, pending litigation, may enjoin the further transfer of the certificate or impound it.

RESCISSION OF TRANSFER OF CERTIFICATE DOES NOT INVALIDATE SUBSEQUENT TRANSFER BY TRANSFEREE IN POSSESSION

SEC. 8. Although the transfer of a certificate or of shares represented thereby has been rescinded or set aside, nevertheless, if the transferee has possession of the certificate or of a new certificate representing part or the whole of the same shares of stock, a subsequent transfer of such certificate by the transferee, mediately or immediately, to a purchaser for value in good faith, without notice of any facts making the transfer wrongful, shall give such purchaser an indefeasible right to the certificate and the shares represented thereby.

DELIVERY OF UNENDORSED CERTIFICATE IMPOSES OBLIGATION TO ENDORSE

SEC. 9. The delivery of a certificate by the person appearing by the certificate to be the owner thereof without the endorsement requisite for the transfer of the certificate and the shares represented thereby, but with intent to transfer such certificate or shares, shall impose an obligation, in the absence of an agreement to the contrary, upon the person so delivering, to complete the transfer by making the necessary endorsement. The transfer shall take effect as of the time when the endorsement is actually made. This obligation may be specifically enforced.

INEFFECTUAL ATTEMPT TO TRANSFER AMOUNTS TO A PROMISE TO TRANSFER

SEC. 10. An attempted transfer of title to a certificate or to the shares represented thereby without delivery of the certificate shall have the effect of a promise to transfer and the obligation, if any, imposed by such promise shall be determined by the law governing the formation and performance of contracts.

WARRANTIES ON SALE OF CERTIFICATE

SEC. 11. A person who for value transfers a certificate, including one who assigns for value a claim secured by a certificate, unless a contrary intention appears, warrants—

- (a) that the certificate is genuine;
- (b) that he has a legal right to transfer it; and

(c) that he has no knowledge of any fact which would impair the validity of the certificate.

In the case of an assignment of a claim secured by a certificate, the liability of the assignor upon such warranty shall not exceed the amount of the claim.

NO WARRANTY IMPLIED FROM ACCEPTING PAYMENT OF A DEBT

SEC. 12. A mortgagee, pledgee, or other holder for security of a certificate who in good faith demands or receives payment of the debt for which such certificate is security, whether from a party to a draft drawn for such debt, or from any other person, shall not by so doing be deemed to represent or to warrant the genuineness of such certificate, or the value of the shares represented thereby.

NO ATTACHMENT OR LEVY UPON SHARES UNLESS CERTIFICATES SURRENDERED OR TRANSFER ENJOINED

SEC. 13. No attachment or levy upon shares of stock for which a certificate is outstanding shall be valid until such certificate be actually seized by the officer making the attachment or levy, or be surrendered to the corporation which issued it, or its transfer by the holder be enjoined. Except where a certificate is lost or destroyed, such corporation shall not be compelled to issue a new certificate for the stock until the old certificate is surrendered to it.

CREDITOR'S REMEDIES TO REACH CERTIFICATE

SEC. 14. A creditor whose debtor is the owner of a certificate shall be entitled to such aid from courts of appropriate jurisdiction, by injunction and otherwise, in attaching such certificate or in satisfying the claim by means thereof as is allowed at law or in equity, in regard to property which cannot readily be attached or levied upon by ordinary legal process.

THERE SHALL BE NO LIEN OR RESTRICTION UNLESS INDICATED ON CERTIFICATE

SEC. 15. There shall be no lien in favor of a corporation upon the shares represented by a certificate issued by such corporation and there shall be no restriction upon the transfer of shares so represented by virtue of any bylaws of such corporation, or otherwise, unless the right of the corporation to such lien or the restriction is stated upon the certificate.

ALTERATION OF CERTIFICATE DOES NOT DIVEST TITLE TO SHARES

SEC. 16. The alteration of a certificate, whether fraudulent or not and by whomsoever made, shall not deprive the owner of his title to the certificate and the shares originally represented thereby, and the transfer of such a certificate shall convey to the transferee a good title to such certificate and to the shares originally represented thereby.

LOST OR DESTROYED CERTIFICATE

SEC. 17. Where a certificate has been lost or destroyed, a court of competent jurisdiction may order the issue of a new certificate therefor on service of process upon the corporation and on reasonable notice by publication, and in any other way which the court may direct, to all persons interested, and upon satisfactory proof of such loss or destruction and upon the giving of a bond with sufficient surety to

be approved by the court to protect the corporation or any person injured by the issue of the new certificate from any liability or expense, which it or they may incur by reason of the original certificate remaining outstanding. The court may also in its discretion order the payment of the corporation's reasonable costs and counsel fees.

The issue of a new certificate under an order of the court as provided in this section shall not relieve the corporation from liability in damages to a person to whom the original certificate has been or shall be transferred for value without notice of the proceedings or of the issuance of the new certificate.

RULE FOR CASES NOT PROVIDED FOR BY THIS ACT

SEC. 18. In any case not provided for by this Act, the rules of law and equity, including the law merchant, and in particular the rules relating to the law of principal and agent, executors, administrators, and trustees, and to the effect of fraud, misrepresentation, duress, or coercion, mistake, bankruptcy, or other invalidating cause, shall govern.

INTERPRETATION SHALL GIVE EFFECT TO PURPOSE OF UNIFORMITY

SEC. 19. This Act shall be so interpreted and construed as to effectuate its general purpose to make uniform the law of those States which enact it.

DEFINITION OF ENDORSEMENT

SEC. 20. A certificate is endorsed when an assignment or a power of attorney to sell, assign, or transfer the certificate or the shares represented thereby is written on the certificate and signed by the person appearing by the certificate to be the owner of the shares represented thereby, or when the signature of such person is written without more upon the back of the certificate. In any of such cases a certificate is endorsed though it has not been delivered.

DEFINITION OF PERSON APPEARING TO BE THE OWNER OF CERTIFICATE

SEC. 21. The person to whom a certificate was originally issued is the person appearing by the certificate to be the owner thereof, and of the shares represented thereby, until and unless he endorses the certificate to another specified person, and thereupon such other specified person is the person appearing by the certificate to be the owner thereof until and unless he also endorses the certificate to another specified person. Subsequent special endorsements may be made with like effect.
