JOINT RESOLUTION

To strengthen the common defense and to meet industrial needs for tin by providing for the maintenance of a domestic tin-smelting industry.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) tin is a highly strategic and critical material of which insufficient ore reserves exist in the United States and of which an adequate supply is vital to the Nation's industrial, military, and naval requirements for the common defense.

(b) Tin is now and for the immediate future will remain in supply short of the requirements of this country's industrial, military, and naval needs.

(c) It is necessary in the public interest and to promote the common defense that Congress make a thorough study and investigation regarding the advisability of the maintenance on a permanent basis of a domestic tin-smelting industry and to study the availability of supplies of tin adequate to meet the industrial, military, and naval requirement of the Nation in time of national emergency.
