(d) No expenditure shall be made from any appropriation granted under the authorizations contained in this section until the repayment of all reimbursable construction costs incurred through such expenditures has been secured by contracts conforming to the requirements of section 3 of this Act.

Sec. 6. In each fiscal year commencing after the approval of this Act for which an appropriation of the power revenues from the project is made in an indefinite amount pursuant to section 3 of the Act of August 7, 1946 (60 Stat. 895; 31 U. S. C., sec. 725s-3), the power revenues so appropriated shall be available, to the extent of not to exceed $75,000, for the purpose, in addition to those other purposes now required or permitted by law, of making such improvements and extensions to the power system as the Secretary of the Interior may deem requisite for the provision of electric service to persons whose applications for such service could not otherwise be complied with in due course of business. Amounts so expended shall be added to the unmatured portion of the reimbursable construction costs of the power system in accordance with subsection 2 (f) of this Act, so as not to reduce the net power revenues available for application under subsection 2 (h) of this Act.

Sec. 7. Consistent with the terms of the repayment contracts herebefore or hereafter executed, the Secretary of the Interior is hereby authorized to issue such public notices fixing construction costs and apportioning construction charges, to enter into such contracts, to make such determinations, to effect such adjustments in project accounts, to prescribe such regulations, and to do such other acts and things as may be necessary or appropriate to accomplish the purposes of this Act.

Sec. 8. All Acts or parts thereof inconsistent with the provisions of this Act are hereby repealed.
