JOINT RESOLUTION

To provide for the reforestation and revegetation of the forest and range lands of the national forests, and for other purposes.

October 11, 1949
[S. J. Res. 53]
[Public Law 348]

Whereas the national forests of the United States contain approximately eighty million acres of the Nation’s commercial timber lands and approximately eighty-three million acres of the Nation’s important grazing lands; and

Whereas these national-forest lands comprise the principal source of water supply for domestic, irrigation, and industrial purposes for thousands of communities, farms, and industries, and good forest and other vegetative cover is essential for watershed protection; and

Whereas these lands annually supply approximately four billion board-feet of forest products through twenty-seven thousand sales transactions and the demand for national forest timber is steadily increasing; and

Whereas these lands are the sole or main source of summer range for ten million cattle and sheep grazed by thirty thousand livestock permittees whose livelihood is wholly or partially dependent upon livestock grazed on national-forest ranges; and

Whereas these lands contain over four million acres of denuded and unsatisfactorily stocked timberlands and an additional four million acres of seriously depleted range lands; and

Whereas all of these lands are potentially capable of producing an important part of the timber and forage needs of local communities, and contributing to the protection of water sheds, thereby alleviating flood damage and insuring a continuing water supply, increasing opportunity for local employment, bringing greater stability to local communities, and increasing returns to counties in the national forests from their share of national forests receipts, together with other benefits; and

Whereas these lands will not restock or revegetate satisfactorily or within a reasonable time except through reforestation and revegetation or other measures to induce restocking or revegetation; and

Whereas it is practical to reforest these denuded and unsatisfactorily stocked timber lands and revegetate these seriously depleted range lands in a period of fifteen years; and

Whereas it is necessary to provide reasonable continuity of reforestation and revegetation programs in order to insure effective, efficient, and economical operations: Therefore be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That it is the declared policy of the Congress to accelerate and provide a continuing basis for the needed reforestation and revegetation of national-forest lands and other lands under administration or control of the Forest Service of the Department of Agriculture in order to obtain the benefits hereinafter enumerated.

SEC. 2. For the purpose of carrying out the provisions of this joint resolution on national-forest lands and other lands under the administration or control of the Forest Service of the Department of Agriculture, including the acquisition of land or interests therein for nurseries, there is hereby authorized to be appropriated to remain available until December 31 of the ensuing fiscal year, \$3,000,000 for the fiscal year ending June 30, 1951; \$5,000,000 for the fiscal year ending June 30, 1952; \$7,000,000 for the fiscal year ending June 30, 1953; \$8,000,000 for the fiscal year ending June 30, 1954; \$10,000,000 for the fiscal year ending June 30, 1955; a like amount for each subsequent year through the fiscal year ending June 30, 1965, and thereafter such amounts as may be needed for reforestation; and \$1,500,000 for the fiscal year ending June 30, 1951; \$1,750,000 for the fiscal year ending June 30, 1952; \$2,000,000 for the fiscal year ending June 30, 1953; \$2,500,000 for the fiscal year ending June 30, 1954; \$3,000,000 for the fiscal year ending June 30, 1955; a like amount for each subsequent year through the fiscal year ending June 30, 1965, and thereafter such amounts as may be needed for range revegetation.
