Article 1

The High Contracting Parties agree to take, within the limits of their respective jurisdictions, appropriate measures to ensure the application of the provisions of the present Convention and the punishment of infractions of the said provisions.

Article 2

The present Convention applies only to baleens or whalebone whales.

Article 3

The present Convention does not apply to aborigines dwelling on the coasts of the territories of the High Contracting Parties provided that:
(1) They only use canoes, pirogues or other exclusively native craft propelled by oars or sails;
(2) They do not carry firearms;
(3) They are not in the employment of persons other than aborigines;
(4) They are not under contract to deliver the products of their whaling to any third person.

Article 4

The taking or killing of right whales, which shall be deemed to include North-Cape whales, Greenland whales, southern right whales, Pacific right whales and southern pigmy right whales, is prohibited.

Article 5

The taking or killing of calves or suckling whales, immature whales, and female whales which are accompanied by calves (or suckling whales) is prohibited.

Article 6

The fullest possible use shall be made of the carcases of whales taken. In particular:

1. There shall be extracted by boiling or otherwise the oil from all blubber and from the head and the tongue and, in addition, from the tail as far forward as the outer opening of the lower intestine.

   The provisions of this sub-paragraph shall apply only to such carcases or parts of carcases as are not intended to be used for human food.

2. Every factory, whether on shore or afloat, used for treating the carcases of whales shall be equipped with adequate apparatus for the extraction of oil from the blubber, flesh and bones.

3. In the case of whales brought on shore, adequate arrangements shall be made for utilising the residues after the oil has been extracted.

Article 7

Gunnery and crews of whaling vessels shall be engaged on terms such that their remuneration shall depend to a considerable extent upon such factors as the size, species, value and yield of oil of whales taken, and not merely upon the number of whales taken, in so far as payment is made dependent on results.

Article 8

No vessel of any of the High Contracting Parties shall engage in taking or treating whales unless a license authorising such vessel to engage therein shall have been granted in respect of such vessel by the High Contracting Party, whose flag she flies, or unless her owner or charterer has notified the Government of the said High Contracting Party of his intention to employ her in whaling and has received a certificate of notification from the said Government.
Nothing in this article shall prejudice the right of any High Contracting Party to require that, in addition, a licence shall be required from his own authorities by every vessel desirous of using his territory or territorial waters for the purposes of taking, landing or treating whales, and such licence may be refused or may be made subject to such conditions as may be deemed by such High Contracting Party to be necessary or desirable, whatever the nationality of the vessel may be.

**Article 9**

The geographical limits within which the articles of this Convention are to be applied shall include all the waters of the world, including both the high seas and territorial and national waters.

**Article 10**

2. The length referred to in sub-paragraphs (e) and (f) of this article shall be the length of a straight line taken from the tip of the snout to the notch between the flukes of the tail.

**Article 11**

Each High Contracting Party shall obtain from all factories, on land or afloat, under his jurisdiction, returns of the number of whales of each species treated at each factory and of the amounts of oil of each grade and the quantities of meal, guano and other products derived from them.

**Article 12**

Each of the High Contracting Parties shall communicate statistical information regarding all whaling operations under their jurisdiction to the International Bureau for Whaling Statistics at Oslo. The information given shall comprise at least the particulars mentioned in Article 10 and: (1) the name and tonnage of each floating factory; (2) the number and aggregate
tonnage of the whale catchers; (3) a list of the land stations which were in operation during the period concerned. Such information shall be given at convenient intervals not longer than one year.

2. Any High Contracting Party may give notice to the Secretary-General of the League of Nations at any time subsequently that he desires that the Convention shall apply to all or any of his territories which have been made the subject of a declaration under the preceding paragraph, and the Convention shall apply to all the territories named in such notice ninety days after its receipt by the Secretary-General of the League of Nations.
