EDITORIAL

District Politics As They Are Played, and the House District Committee.

Down at the bottom of the uselessly Donnybrooks that have been held in Washington this spring under the name of political primaries and conventions, lies the lust of patronage, the greed for jobs.

As between the Democratic performance and that of the Republicans, he would have to be indeed a violent partisan who could decide which crowd made the worst exhibition of itself. Both were scandalous in themselves, and vastly more so in their sordid underlying motives.

The Republicans held what was called a primary and was really a dirty piece of jobbery with no purpose whatever except to get a Taft delegation. Ballot boxes were stolen, repeaters were voted without any consideration of decency or regularity, and in general the business was disreputable.

The Democrats did no better. There was a primary and a district convention, which split into three parts, and sent three contending delegates to Baltimore!

What's it all about?

The jobs; the patronage; the power and privilege of recommending people for places in the District government and Federal government services.

This looked like a possible Democratic year. Therefore, the position of national committeeman might prove one of vast influence in the distribution of appointments. Delegates who had supported the winner in the national convention would expect their recommendations to be marvelously potent. Therefore, a scramble for places as delegates and for the membership on the national committee.

The Republican situation parallels this precisely.

Think of the rich pickings there would be in this town after March 4 next if the Democrats should control the government! Suppose they should put through the five-year tenure civil service proposal!

The Bee and Washington Bee (Washington, DC)

The first issue of the *Bee* was printed on June 3, 1882. William C. Chase, a lawyer, local politician, businessman, and native Washingtonian took over as the paper's principal editor by the end of the first year of publication, and his superb editorial skills eventually turned the *Bee* into one of the most influential African American newspapers in the country. The *Bee* represented the Republican attitudes of its editor, although Chase did not hesitate to criticize Republican Party leaders when he

EDISON'S HORSE-SHOE LIGHT.
—
The Long-Promised Illumination of Menlo Park.
—
From the New York Star, Dec. 25.
The little village of Menlo Park, N. J., was illuminated with Prof. **Thomas A. Edison's electric** light last evening. Only four out-door lamps were in operation, but the **electric** burners to the number of twenty-eight were distributed in a dozen houses, and the new light was pronounced a perfect success. There were not more than 300 people at the Park to witness the illumination, as Prof. **Edison** and his associates had kept the matter as quiet as possible, and no invitations to
