7,200 Lost U.S. Silent Feature Films (1912-29)
National Film Preservation Board (January 2021)

- This compilation is a definite work-in-progress. Updated versions of this list will be posted periodically at this location.
- Feature film means 4 reels or more in length
- Each title contains a hypertext link to its entry in our silent film database. There you can find additional information on each title, including studio.
- In cases where only a fragment from one reel, trailer, outtakes or stills survive, that film is included in this list as a lost film.
- “Incomplete” films are not included here. These comprise cases where a full reel or more survives but not the whole set of reels.
- Our searchable database consists of approximately 11,000 titles, the 7200+ in this list of “lost” titles as well as the 3800 or so titles surviving as incomplete or complete. The full database may be searched at: http://memory.loc.gov/diglib/ihas/html/silentfilms/silentfilms-home.html
- Please direct any questions or report any errors/suggested changes to Steve Leggett at sleg@loc.gov
