A. PROGRAM DESCRIPTION

The Library of Congress is excited to announce a Notice of Funding Opportunity (Notice) to award three grants for up to \$50,000 each in support of minority-serving higher education institutions. The Library will provide financial support to enable higher education institutions to use Library of Congress digital materials to create projects that center on the lives, experiences and perspectives of Black, Indigenous, Hispanic or Latino, Asian American and Pacific Islander, and other communities of color in the United States. For this Notice, the United States includes all 50 U.S. states, the District of Columbia, territories and commonwealths.

Please note that the resulting award will be subject to the Library of Congress Regulation (LCR) 7-310 (Grants and Cooperative Agreements) and provisions of [2 CFR 200](#) (Uniform Administrative Requirements, Costs Principles and Audit Requirements for Federal Awards) as indicated.

A.1 Background

About the Library of Congress

The Library of Congress, located in the Capitol Hill neighborhood in Washington, D.C., is the largest library in the world, with millions of books, recordings, photographs, newspapers, maps and manuscripts, and more. The Library has three main buildings in D.C. - Adams, Jefferson and Madison - which house physical collections, reading rooms, exhibition spaces, auditoriums and offices, as well as the Packard Campus for Audio-Visual Conservation in Culpeper, Virginia.

The Library's mission is to engage, inspire, and inform Congress and the American people with a universal and enduring source of knowledge and creativity. For decades, the Library has dedicated significant resources to digitizing its collections and, more recently, collecting materials that are already digital, such as websites, memes, emails and computer programs. The [Library's website](#) is the central site for finding digital collections. Research guides on specific subjects can be found at [guides.loc.gov](#). For more ways to connect with the Library of Congress via social and other media, visit [loc.gov/connect](#).

About the Connecting Communities Digital Initiative

Connecting Communities Digital Initiative (CCDI) is part of [Of the People: Widening the Path](#), a multi-year initiative that creates new opportunities for more Americans to engage with the Library of Congress.

Through CCDI, the Library of Congress intends to fund three programs: Libraries, Archives and Museums; Higher Education Institutions; and Artist or Scholar in Residence.

A.2 Purpose

The purpose of this CCDI program is to expand the connections between the Library of Congress and minority serving higher education institutions. Successful applicants should make use of Library of Congress digital collections and materials to create projects that center on the lives, experiences and perspectives of Black, Indigenous, Hispanic or Latino, Asian American and Pacific Islander, and other communities of color.

The Library invites applicants to think creatively and broadly about how they can reimagine and remix the Library's digital materials.

The following list of examples is meant to inspire and not limit the possibilities for what project proposals might include:

- A **Story Map** integrating local newspaper and photographic coverage, found in Library digital collections and elsewhere, of important spaces in a community’s history that is created as part of a history or writing course.
- A **free online primary source collection or course pack** on a particular topic designed for use by multiple courses
- A **web site** that integrates parts of different Library digital collections that relates to a particular community, and shares the story created by technology students and history students working together.
- A **platform** that showcases Library materials and community materials associated with a particular community’s traditions or history and invites students to record oral histories to be shared within the community.
- An **online video** that explains how to do family history traversing Library held materials such as newspapers, manuscript collections, etc. for a particular community.
- An **augmented reality visualization** that enables students, staff and community members to explore the history of their town through Library digital collections.
- A **film** that documents a journey through Library digital collections aimed at uncovering a historical mystery associated with a particular community.
- A **digital zine** that showcases Library and community materials associated with the higher education institution.
- A **podcast series** that showcases unique finds from Library and community materials and invites students to produce, plan, and provide commentary or conduct interviews during each episode.

E. APPLICATION REVIEW AND AWARD

E.1 Criteria for Proposal Evaluation

The Library will assemble panels that will assess each proposal on advancement of program goals and feasibility of successful project outcomes. Proposals will be evaluated on questions grounded in both sets of criteria.

Specifically, key considerations in evaluating each application will be:

a) Advancement of program goals

- Does the project center on the lives, experiences and perspectives of one or more of the following groups: Black, Indigenous, Hispanic or Latino, Asian American or Pacific Islander, and other communities of color?
- Will the project make significant and meaningful use of digital materials from the Library of Congress?
- Will the project facilitate teaching and learning with digital library collections for students, staff, and/or community members?

b) Feasibility of successful project outcomes

- Does the Library have the **digital materials and collections** needed for a successful project? Has the applicant identified and provided links to the digital materials and collections?
- Has the applicant addressed whether those digital materials and collections are legally available for the proposed uses? For example, are there restrictions on the use of the materials?
- Has the applicant addressed whether they have the permissions and clearances to share and use materials from their own collections or other collections included in proposal?
- Does the Institution, and any collaborators, consultants, and/or service providers, possess the skills necessary for successful completion of project?

c) Reasonableness of costs and likelihood that budget will support project execution

- Does the applicant’s proposal indicate that the project can be completed within a 12-month period?

E.2 Notice of Federal Award

Following review, applicants may be requested to revise the project scope and/or budget before an award is made. The Library reserves the right to award without requesting clarification or additional details on the application.

Once all outstanding issues have been resolved, the Grant Officer (GO) will send a draft Grant Agreement via email to the successful applicant(s) for review, comments and acceptance, to be followed by full execution of the Grant Agreement. The Grant Agreement will include instructions specific to each recipient on how to request payment. If applicable, the instructions will detail any additional information/forms required and where to submit payment requests.

Applicants whose projects are not selected for funding will receive written notice, most often by e-mail, within 60 days of the final review decision.

E.3 Pre-award Risk Assessments

The successful applicant is responsible for ensuring achievement of the objectives described in this Notice. Therefore, the applicant must be a responsible entity. The Grants Officer will decide if a pre-award risk assessment will be conducted by the Library, to determine if the prospective recipient is a responsible entity that has the necessary organization, experience, accounting, and operational controls, financial resources, and technical skills needed to achieve the objectives of the program and comply with the terms and conditions of the award. For conducting the risk assessment, the applicant may be asked to complete a pre-award survey – provided after completion of the evaluation process and before award. If notified by the Library that a pre-award survey is necessary, applicants must prepare in advance the required information and documents. A pre-award survey does not commit the Library to make an award to any institution or individual.

Depending on its result of the risk assessment, the Library may determine to execute the award, not execute the award, or award with “specific conditions” ([2 CFR 200.207](#)).

F. PROJECT MANAGEMENT AND REPORTING

This section describes reporting requirements for the grants awarded under this Notice.

F.1 Approval Needed for Modifications to Proposed Work or Budget

Any project carried out under a grant must be consistent with the proposal that is approved for funding by the Library. Any significant change to a grant project’s programmatic scope, key personnel, or planned budget requires the Library’s explicit consent. The designated principal or authorizing official

for the grantee shall submit, in writing (including email), all requests for a change to a grant project to the appropriate Library program officer for approval.

F.2 Project Reporting

Grantees must adhere to all reporting requirements listed below; further, US Non-governmental institutions need to be in compliance with [2 CFR 200](#). You should submit all reports by the due date for approval to the Grants Officer (GO) via email. In addition to the reports below, the GO may request additional information to contribute to the internal Library project reviews.

F.2.1 Project Development Plan

Grantees are required to submit a project development plan detailing major activity and milestones, including semi-annual status updates and regular review by Library staff, within thirty (30) days of award for the Library's approval.

F.2.2 Performance and Financial Reports

Interim Reports: Grantees are required to submit an **interim** performance report due on the six (6) month “anniversary” of the initial award. The interim report should include

- A description of activities undertaken to date;
- Identification of any challenges and how they were, or are planned to be, resolved; and
- A review of project expenditures to date by category and notification of any anticipated changes to the project's spend plan.

An interim report can take the form of a memorandum (approx. 1-2 pages) to the attention of “OTP Program Technical Contact” sent in PDF or Microsoft Word format. Financial data must be submitted on the SF-425 and on the budget summary report. Recipients may use the SF 270 in lieu of the SF 425 to report financial report expenditures. Financial expenditures should be reported no less than twice annually.

Final Reports: A final performance report must provide qualitative and quantitative information describing activities carried out and specific results achieved during the period, namely:

- A description of activities undertaken
- A comparison of actual accomplishments with the established goals and objectives of the award described in the project plan
- A description of reasons why established goals were not met, if appropriate
- Key implementation challenges encountered and how they were, or are planned to be, resolved.
- A review of the project's budget (projected vs. actual) including specification of any significant variance using the Budget Narrative Charts
- Any other pertinent information relevant to the project results and,
- Each report shall be accompanied by the [Post-Award Federal Financial Report Form 425](#).

The final report shall take the form of a report (with cover and table of contents) sent in PDF or Microsoft Word format.

Final reports are due no later than 90 calendar days after the award period of performance end date or termination date.

F.2.3 Notification of Significant Developments

Events may occur between the scheduled performance reporting dates which have or could have significant impact upon the supported activity. In such cases, recipients are required to notify the Library in writing as soon as the recipient becomes aware of any problems, delays, or adverse conditions that will materially impair the ability to meet the objective of the Federal award. The notification must include a statement of any corrective action(s) taken or contemplated, and any assistance needed to resolve the situation.

The recipient should also notify the Library in writing of any favorable developments that enable meeting time schedules and objectives sooner or at less cost than anticipated or producing more or different beneficial results than originally planned.

G. FEDERAL AWARD ADMINISTRATION

G.1 Administrative and National Policy Requirements

Awards resulting from this Notice will be administered in accordance with the Library of Congress' Regulation LCR 7-310 (Grants and Funded Cooperative Agreements), policies in [2 CFR 200](#) (Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards) described here and in the award, the Library General Terms and Conditions identified herein, and the Library Assurances and Certifications (Appendix C). Branding. Grantees shall not use the name "Library of Congress" or any abbreviation or subset of the name (such as "LC," "LoC," or "Digital Strategy Division") to explicitly or implicitly endorse a product or service or materials in any publication, including online. Subject to the Library's prior written approval over all aspects of the use and presentation of the Library's name and logo, Grantees may use the name Library of Congress in connection with publication, distribution, packaging, publicity and promotion of the grant project or products produced as a result of a grant agreement. In addition, Grantees will acknowledge the collaboration with the Library by including a credit line in or on projects created under the terms of a grant agreement with the Library that reads "The [title of program/project] has been made possible in part by a grant from the Library of Congress."

G.3 Certifications

As an applicant for Federal funds, you must certify that you are responsible for complying with certain nondiscrimination, debarment and suspension, drug-free workplace, and lobbying laws. These are set out in more detail, along with other requirements, in Appendix C. Assurances and Certifications.

By submitting the application, which includes the Assurances and Certifications, you certify that you are in compliance with these requirements and that you will maintain records and submit any reports that are necessary to ensure compliance.

This information is made available in the designated integrity and performance system (currently the Federal Awardee Performance and Integrity Information System (FAPIIS) in accordance with Appendix XII to [2 CFR 200](#).

G.5 Intellectual Property Rights and Data Availability

Access and Use.

The Library's intention in this Notice is that the projects undertaken are of maximum benefit to the American people and contribute to public knowledge.

The Library's preference is for projects that extend an open license for non-commercial public use to any materials and software created with these funds, but we encourage applicants to describe in detail any specific limitations they might predict for portions of their projects. The Library intends to be attentive to culturally sensitive materials that may be gathered or created during a project, and will work with grant awardees to determine the most appropriate approach regarding access.

Applicant must describe any limitations on any intellectual property that will affect applicant's performance of the grant or affect the Library's (or the public's) subsequent use of any deliverable under the agreement (e.g. potential documentation of copyrighted cultural material). In particular, the applicant must describe the intellectual property in sufficient detail, clearly state any limitations, and describe how the Library can use the work with the limitations described or proposed by the applicant.

Any award and subsequent incremental funding will be subject to the availability of funds and continued relevance to Library programming.

Appendix A: SAM.gov

Applicants must obtain a Unique Entity ID number by registering with SAM.gov. The Library may not make a Federal award to an applicant that has not completed the SAM.gov registration. If an applicant selected for funding has not completed their SAM.gov registration by the time the program is ready to make an award, the Library may determine that the applicant is not qualified to receive an award. The Library can use that determination as a basis for making an award to another applicant. **There is no cost to register with SAM.gov.** There are third-party vendors who will charge a fee in exchange for registering entities with SAM.gov; **please be aware you can register and request help for free.** Award recipients must continue to maintain an active SAM.gov registration with current information through the life of their Federal award(s). Applicants must enter their Unique Entity ID number in the “Organizational DUNS” field on the SF-424, Application for Federal Assistance form.

How to register with the System for Award Management (SAM)

Select “Get Started” on the section shown below on the landing page on the SAM.gov website to register. You will have to register as an Entity. An Entity on SAM.gov is defined as prime contractors, organizations, or individuals applying for assistance awards. SAM.gov will issue you a Unique Entity Identification (UEI) number.

More information on the registration process can be found on the “Help” tab on SAM.gov.

Once registered in SAM.gov, entities must renew and revalidate their SAM registration at least once every 12 months from the date previously registered. To complete the process on SAM.gov, you will need the same kind of information used to obtain your Employer Identification Number (EIN) and other data to complete registration and reporting requirements.

Appendix B: Assurances and Certifications

Applicant institutions or their principals must not be presently debarred or suspended or otherwise excluded from or ineligible to participate in federal assistance programs. An applicant or grantee shall provide immediate written notice to the Library's Grants Officer if at any time it learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances. Grantees shall not make or permit any sub-grant or contract to any party which is debarred or suspended or is otherwise excluded from or ineligible for participation in federal assistance programs. Grantees and sub-grantees must not make any award or permit any award (sub-grant or contract) at any tier to any party which is debarred or suspended or is otherwise excluded from or ineligible for participation in Federal assistance programs.
